

UNITED STATES DISTRICT COURT  
THE DISTRICT OF COLUMBIA

Movant David Andrew Christenson

Civ. No. 1:18-cv-00011 (ABJ)

Paul J. Manafort Jr.  
Plaintiff

COMPLAINT FOR DECLARATORY AND  
INJUNCTIVE RELIEF

v.

United States Department of Justice  
Acting Attorney General Rod J. Rosenstein  
Special Counsel Robert S. Mueller

*leave to file granted  
Docket as  
Supplemental Memo  
In Support of  
Motion to Intervene*

Second Supplemental Motion to Intervene and Join

Please incorporate the attached letters to the District of Columbia and Eastern District of Virginia Special Grand Juries that were convened by Special Counsel Robert Mueller, the results of this week's influenza and pneumonia mortality surveillance results from the CDC <https://www.cdc.gov/flu/weekly/index.htm> and the 11 page docket from my appeal against the government.

Time and math are on my side. The truth will come out. We are witnessing the Genocide of Mankind at his own hand.

Godspeed

Sincerely,

David Andrew Christenson  
Box 9063

CERTIFICATE OF SERVICE

I hereby certify that on January 26<sup>th</sup>, 2018 I filed the foregoing with the Clerk of Court and served the pleading on all counsel of record by e-mail and first-class mail.

David Andrew Christenson

JAN 29 2018

The first page is the results of this week's influenza and pneumonia mortality surveillance results from the CDC.

<https://www.cdc.gov/flu/weekly/index.htm>

The results are for the week ending January 6<sup>th</sup>, 2018. Remember that it is the CDC that sets the rate for what we call an epidemic. Influenza and pneumonia, Alzheimer's, suicide, murder(s)-suicide will be the top three causes of death in the near future and all are tied to the destruction of our immune system.

**America is 26% above the epidemic level that is set by your government through the CDC. According to International Standards we are at Pandemic levels.**

### **Pneumonia and Influenza (P&I) Mortality Surveillance:**

Based on National Center for Health Statistics (NCHS) mortality surveillance data available on January 25, 2018, 9.1% of the deaths occurring during the week ending January 6, 2018 (week 1) were due to P&I. This percentage is above the epidemic threshold of 7.2% for week 1.

Background: Weekly mortality surveillance data include a combination of machine coded and manually coded causes of death collected from death certificates. Percentages of deaths due to P&I are higher among manually coded records than more rapidly available machine coded records. Due to the additional time needed for manual coding, the initially reported P&I percentages may be lower than percentages calculated from final data. Previous longer backlogs in manual coding have been resolved and death records are now coded within 10 days from receipt of a death record by NCHS.

Region and state-specific data are available at <http://gis.cdc.gov/grasp/fluview/mortality.html>.

Godspeed.  
Sincerely,  
David Andrew Christenson
