RANKING MEMBER JIM JORDAN'S STATEMENT ON THE CONCLUSION OF THE SPECIAL COUNSEL'S INVESTIGATION

PUBLISHED: MAR 24, 2019

WASHINGTON, DC – Today, Congressman Jim Jordan (R-OH), Ranking Member of the House Committee on Oversight and Reform, released the following statement on the conclusion of the Special Counsel's investigation:

“The events that gave rise to the appointment of the Special Counsel mark a dark chapter in American history. The investigation began with a handful of politically-biased actors within the Justice Department who inappropriately used a campaign research document to launch a coordinated partisan attack on the President. Now, after 22 months and over \$25 million in taxpayer funds, we know what many of us suspected all along. There was no collusion, coordination, or cooperation with Russia. All the Special Counsel's prosecutions of U.S. persons in the course of this investigation were wholly unrelated to collusion. I hope this will put an end to the partisan and political investigations in Congress aimed at undermining President Trump.”
