16 loads and energy resources that, if necessary, can be re-
17 moved from the local utility grid and function as an inte-
18 grated, stand-alone system.”.

19 (b) EVALUATION OF FEASIBILITY OF EXPANDING
20 USE OF ON-SITE ENERGY PRODUCTION.—

21 (1) PROJECTS AUTHORIZED.—Subsection (h) of
22 section 2911 of title 10, United States Code, as
23 added by subsection (a), is amended by inserting
24 after paragraph (1) the following new paragraph:

1 “(2)(A) Using amounts made available for military
2 construction projects under section 2914 of this title, the
3 Secretary of Defense shall carry out at least four projects
4 to promote installation energy security and energy resil-
5 ience in the manner described in paragraph (1).

6 “(B) At least one project shall be designed to develop
7 technology that demonstrates the ability to connect an ex-
8 isting on-site energy generation facility that uses solar
9 power with one or more installation facilities performing
10 critical missions in a manner that allows the generation
11 facility to continue to provide electrical power to these fa-
12 cilities even if the installation is disconnected from the
13 commercial power supply.

14 “(C) At least one project shall be designed to develop
15 technology that demonstrates that one or more installation
16 facilities performing critical missions can be isolated, for
17 purposes of electrical power supply, from the remainder
18 of the installation and from the commercial power supply
19 in a manner that allows an on-site energy generation facil-
20 ity that uses a renewable energy source, other than solar
21 energy, to provide the necessary power exclusively to these
22 facilities.

23 “(D) At least two projects shall be designed to de-
24 velop technology that demonstrates the ability to store suf-
25 ficient electrical energy from an on-site energy generation

1 facility that uses a renewable energy source to provide the
2 electrical energy required to continue operation of installa-
3 tion facilities performing critical missions during night-
4 time operations.

5 “(E) The authority of the Secretary of Defense to
6 commence a project under this paragraph expires on Sep-
7 tember 30, 2025.”.

8 (2) BRIEFING.—Not later than March 1, 2021,
9 the Secretary of Defense shall brief the congres-
10 sional defense committees regarding the plan to

14 **SEC. 2826. IMPROVED ELECTRICAL METERING OF DEPART-**
15 **MENT OF DEFENSE INFRASTRUCTURE SUP-**
16 **PORTING CRITICAL MISSIONS.**

17 (a) OPTIONS TO IMPROVE ELECTRICAL METER-
18 ING.—The Secretary of Defense and the Secretaries of the
19 military departments shall improve the metering of elec-
20 trical energy usage of covered defense structures to accu-
21 rately determine energy consumption by such a structure
22 to increase energy efficiency and improve energy resil-
23 ience, using any combination of the options specified in
24 subsection (b) or such other methods as the Secretary con-
25 cerned considers practicable.

1 (b) METERING OPTIONS.—Electrical energy usage
2 options to be considered for a covered defense structure
3 include the following:

4 (1) Installation of a smart meter at the electric
5 power supply cable entry point of the covered de-
6 fense structure, with remote data storage and re-
7 trieval capability using cellular communication, to
8 provide historical energy usage data on an hourly
9 basis to accurately determine the optimum cost ef-
10 fective energy efficiency and energy resilience meas-
11 ures for the covered defense structure.

12 (2) Use of an energy usage audit firm to indi-
13 vidually meter the covered defense structure using
14 clamp-on meters and data storage to provide year-
15 long electric energy load profile data, particularly in
16 the case of a covered defense structure located in cli-
17 mates with highly variable use based on weather or
18 temperature changes, to accurately identify electric
19 energy usage demand for both peak and off peak pe-
20 riods for a covered defense structure.

21 (3) Manual collection and calculation of the
22 connected load via nameplate data survey of all the
23 connected electrical devices for the covered defense
24 structure and comparison of such data to the de-
25 signed maximum rating of the incoming electric sup-

1 ply to determine the maximum electrical load for the
2 covered defense structure.

3 (c) CYBERSECURITY.—The Secretary of Defense and
4 the Secretaries of the military departments shall consult
5 with the Chief Information Officer of the Department of
6 Defense to ensure that the electrical energy metering op-
7 tions considered under subsection (b) do not compromise
8 the cybersecurity of Department of Defense networks.

9 (d) CONSIDERATION OF PARTNERSHIPS.—The Sec-
10 retary of Defense and the Secretaries of the military de-
11 partments shall consider the use of arrangements (known
12 as public-private partnerships) with appropriate entities
13 outside the Government to reduce the cost of carrying out
14 this section.

15 (e) DEFINITIONS.—In this section:

16 (1) The term “covered defense structure”
17 means any infrastructure under the jurisdiction of
18 the Department of Defense inside the United States
19 that the Secretary of Defense or the Secretary of the
20 military department concerned determines—

21 (A) is used to support a critical mission of
22 the Department; and

23 (B) is located at a military installation
24 with base-wide resilient power.

1 (2) The term “energy resilience” has the mean-
2 ing given that term in section 101(e)(6) of title 10,
3 United States Code.

4 (f) IMPLEMENTATION REPORT.—As part of the De-
5 partment of Defense energy management report to be sub-
6 mitted under section 2925 of title 10, United States Code,
7 during fiscal year 2022, the Secretary of Defense shall in-
8 clude information on the progress being made to comply
9 with the requirements of this section.

10 **SEC. 2827. IMPROVING WATER MANAGEMENT AND SECU-**
11 **RITY ON MILITARY INSTALLATIONS.**

12 (a) RISK-BASED APPROACH TO INSTALLATION
13 WATER MANAGEMENT AND SECURITY.—

14 (1) GENERAL REQUIREMENT.—The Secretary
15 concerned shall adopt a risk-based approach to
16 water management and security for each military in-
17 stallation under the jurisdiction of the Secretary.

18 (2) IMPLEMENTATION PRIORITIES.—The Sec-
19 retary concerned shall begin implementation of para-
20 graph (1) by prioritizing those military installations
21 under the jurisdiction of the Secretary that the Sec-
22 retary determines—

23 (A) are experiencing the greatest risks to
24 sustainable water management and security;
25 and

1 (B) face the most severe existing or poten-
2 tial adverse impacts to mission assurance as a
3 result of such risks.

4 (3) DETERMINATION METHOD.—Determina-
5 tions under paragraph (2) shall be made on the
6 basis of the water management and security assess-
7 ments made by the Secretary concerned under sub-
8 section (b).

9 (b) WATER MANAGEMENT AND SECURITY ASSESS-
10 MENTS.—

11 (1) ASSESSMENT METHODOLOGY.—The Secre-
12 taries concerned, acting jointly, shall develop a
13 methodology to assess risks to sustainable water
14 management and security and mission assurance.

15 (2) ELEMENTS.—Required elements of the as-
16 sessment methodology shall include the following:

17 (A) An evaluation of the water sources and
18 supply connections for a military installation,
19 including water flow rate and extent of competi-
20 tion for the water sources.

21 (B) An evaluation of the age, condition,
22 and jurisdictional control of water infrastruc-
23 ture serving the military installation.

24 (C) An evaluation of the military installa-
25 tion's water-security risks related to drought-

1 prone climates, impacts of defense water usage
2 on regional water demands, water quality, and
3 legal issues, such as water rights disputes.

4 (D) An evaluation of the resiliency of the
5 military installation's water supply and the
6 overall health of the aquifer basin of which the
7 water supply is a part, including the robustness
8 of the resource, redundancy, and ability to re-
9 cover from disruption.

10 (E) An evaluation of existing water meter-
11 ing and consumption at the military installa-
12 tion, considered at a minimum—

13 (i) by type of installation activity,
14 such as training, maintenance, medical,
15 housing, and grounds maintenance and
16 landscaping; and

17 (ii) by fluctuations in consumption,
18 including peak consumption by quarter.

19 (c) EVALUATION OF INSTALLATIONS FOR POTENTIAL
20 NET ZERO WATER USAGE.—

21 (1) EVALUATION REQUIRED.—The Secretary
22 concerned shall conduct an evaluation of each mili-
23 tary installation under the jurisdiction of the Sec-
24 retary to determine the potential for the military in-

1 stallation, or at a minimum certain installation ac-
2 tivities, to achieve net zero water usage.

3 (2) ELEMENTS.—Required elements of each
4 evaluation shall include the following:

5 (A) An evaluation of alternative water
6 sources to offset use of freshwater, including
7 water recycling and harvested rainwater for use
8 as non-potable water.

9 (B) An evaluation of the feasibility of im-
10 plementing Department of Energy guidelines
11 for net zero water usage, when practicable, to
12 minimize water consumption and wastewater
13 discharge in buildings scheduled for renovation.

14 (C) An evaluation of the practicality of im-
15 plementing net zero water usage technology into
16 new construction in water-constrained areas, as
17 determined by water management and security
18 assessments conducted under subsection (b).

19 (d) IMPROVED LANDSCAPING MANAGEMENT PRAC-
20 TICES.—

21 (1) LANDSCAPING MANAGEMENT.—The Sec-
22 retary concerned shall implement, to the maximum
23 extent practicable, at each military installation
24 under the jurisdiction of the Secretary landscaping
25 management practices to increase water resilience

1 and ensure greater quantities of water availability
2 for operational, training, and maintenance require-
3 ments.

4 (2) ARID OR SEMI-ARID CLIMATES.—For mili-
5 tary installations located in arid or semi-arid cli-
6 mates, landscaping management practices shall in-
7 clude the use of xeriscaping.

8 (3) NON-ARID CLIMATES.—For military instal-
9 lations located in non-arid climates, landscaping
10 management practices shall include the use of plants
11 common to the region in which the installation is lo-
12 cated and native grasses and plants.

13 (4) POLLINATOR CONSERVATION REFERENCE
14 GUIDE.—The Secretary concerned shall follow the
15 recommendations of the Department of Defense Pol-
16 linator Conservation Reference Guide (September
17 2018) to the maximum extent practicable in order to
18 reduce operation and maintenance costs related to
19 landscaping management, while improving area
20 management. Consistent with such guide, in the
21 preparation of a military installation landscaping
22 plan, the Secretary concerned should consider the
23 following:

24 (A) Adding native flowering plants to
25 sunny open areas and removing overhanging

1 tree limbs above open patches within forested
2 areas or dense shrub.

3 (B) Removing or controlling invasive
4 plants to improve pollinator habitat.

5 (C) Preserving known and potential polli-
6 nator nesting and overwintering sites.

7 (D) Eliminating or minimizing pesticide
8 use in pollinator habitat areas.

9 (E) Mowing in late fall or winter after
10 plants have bloomed and set seed, adjusting
11 timing to avoid vulnerable life stages of special
12 status pollinators.

13 (F) Mowing mid-day when adult polli-
14 nators can avoid mowing equipment.

15 (e) IMPLEMENTATION REPORT.—

16 (1) REPORT REQUIRED.—Not later than one
17 year after the date of the enactment of this Act, the
18 Secretary of Defense, in coordination with the other
19 Secretaries concerned, shall submit to the Commit-
20 tees on Armed Services of the Senate and the House
21 of Representatives a report on the progress made in
22 implementing this section.

23 (2) REPORT ELEMENTS.—The report shall in-
24 clude the following:

1 (A) The methodology developed under sub-
2 section (b) to conduct water management and
3 security assessments.

4 (B) A list of the military installations that
5 have been assessed using such methodology and
6 a description of the findings.

7 (C) A list of planned assessments for the
8 one-year period beginning on the date of the
9 submission of the report.

10 (D) An evaluation of the progress made on
11 implementation of xeriscaping and other region-
12 ally appropriate landscaping practices at mili-
13 tary installations.

14 (f) DEFINITIONS.—In this section:

15 (1) The term “net zero water usage”, with re-
16 spect to a military installation or installation activ-
17 ity, means a situation in which the combination of
18 limitations on the consumption of water resources
19 and the return of water to an original water source
20 by the installation or activity is sufficient to prevent
21 any reduction in the water resources of the area in
22 both quantity and quality over a reasonable period
23 of time.

24 (2) The terms “Secretary concerned” and “Sec-
25 retary” mean the Secretary of a military department

1 and the Secretary of Defense with respect to the
2 Pentagon Reservation.

3 (3) The term “xeriscaping” means landscape
4 design that emphasizes low water use and drought-
5 tolerant plants that require little or no supplemental
6 irrigation.

7 **SEC. 2828. PROHIBITION RELATING TO CLOSURE OR RE-**
8 **TURN TO HOST NATION OF EXISTING MILI-**
9 **TARY INSTALLATIONS, INFRASTRUCTURE, OR**
10 **REAL PROPERTY IN EUROPE.**

11 (a) PROHIBITION ON CLOSURE OR RETURN.—Except
12 as provided by subsection (b), the Secretary of Defense
13 shall not implement any activity that closes or returns to
14 the host nation any military installation, infrastructure,
15 or real property in Europe that, as of the date of enact-
16 ment of this Act, is under the operational control of the
17 Department of Defense or a military department and is
18 utilized by the United States Armed Forces.

19 (b) WAIVER AND EXCEPTION.—The Secretary of De-
20 fense may waive the prohibition under subsection (a) if
21 the Secretary certifies to the congressional defense com-
22 mittees that there is no longer a foreseeable need for the
23 military installation, infrastructure, or real property, or a
24 portion of the military installation in the case of a partial
25 closure and return of a military installation, to support

1 a permanent or rotational United States military presence
2 in the European theater.

3 **Subtitle D—Land Conveyances**

4 **SEC. 2831. LAND CONVEYANCE, CAMP NAVAJO, ARIZONA.**

5 (a) CONVEYANCE AUTHORIZED.—The Secretary of
6 the Army may convey, without consideration, to the State
7 of Arizona Department of Emergency and Military Affairs
8 (in this section referred to as the “State”) all right, title,
9 and interest of the United States in and to a parcel of
10 real property, including any improvements thereon, con-
11 sisting of not more than 3,000 acres at Camp Navajo, Ari-
12 zona, for the purpose of permitting the State to use the
13 property—

14 (1) for training the Arizona Army National
15 Guard and Air National Guard; and

16 (2) for defense industrial base economic devel-
17 opment purposes that are compatible with the envi-
18 ronmental security and primary National Guard
19 training purpose of Camp Navajo.

20 (b) CONDITION OF CONVEYANCE.—

21 (1) USE OF REVENUES.—The authority of the
22 Secretary of the Army to make the conveyance de-
23 scribed in subsection (a) is subject to the condition
24 that the State agree that all revenues generated
25 from the use of the property conveyed under such

1 subsection will be used to support the training re-
2 quirements of the Arizona Army National Guard
3 and Air National Guard, including necessary infra-
4 structure maintenance and capital improvements.

5 (2) AUDIT.—The United States Property and
6 Fiscal Office for Arizona shall—

7 (A) conduct periodic audits of all revenues
8 generated by uses of the conveyed property and
9 the use of such revenues; and

10 (B) provide the audit results to the Chief
11 of the National Guard Bureau.

12 (c) REVERSIONARY INTEREST.—

13 (1) INTEREST RETAINED.—If the Secretary of
14 the Army determines at any time that the property
15 conveyed under subsection (a) is not being used in
16 accordance with the purposes of the conveyance
17 specified in such subsection, or that the State has
18 not complied with the condition imposed by sub-
19 section (b), all right, title, and interest in and to the
20 conveyed property, including any improvements
21 thereon, shall, at the option of the Secretary, revert
22 to and become the property of the United States,
23 and the United States shall have the right of imme-
24 diate entry onto the property.

1 (2) DETERMINATION.—A determination by the
2 Secretary under this subsection shall be made on the
3 record after an opportunity for a hearing.

4 (d) ALTERNATIVE CONSIDERATION OPTION.—

5 (1) CONSIDERATION OPTION.—In lieu of exer-
6 cising the reversionary interest retained under sub-
7 section (c), the Secretary of the Army may accept an
8 offer by the State to pay to the United States an
9 amount equal to the fair market value of the prop-
10 erty conveyed under subsection (a), excluding the
11 value of any improvements on the conveyed property
12 constructed without Federal funds after the date of
13 the conveyance is completed, as determined by the
14 Secretary.

15 (2) TREATMENT OF CONSIDERATION RE-
16 CEIVED.—Consideration received by the Secretary
17 under paragraph (1) shall be deposited in the special
18 account in the Treasury established for the Sec-
19 retary under subsection (e) of section 2667 of title
20 10, United States Code, and shall be available to the
21 Secretary for the same uses and subject to the same
22 limitations as provided in that section.

23 (e) PAYMENT OF COSTS OF CONVEYANCE.—

24 (1) PAYMENT REQUIRED.—The Secretary of
25 the Army shall require the State to cover costs to be

1 incurred by the Secretary, or to reimburse the Sec-
2 retary for such costs incurred by the Secretary, to
3 carry out the conveyance under subsection (a), in-
4 cluding survey costs, costs for environmental docu-
5 mentation related to the conveyance, and any other
6 administrative costs related to the conveyance. If
7 amounts are collected from the State in advance of
8 the Secretary incurring the actual costs, and the
9 amount collected exceeds the costs actually incurred
10 by the Secretary to carry out the conveyance, the
11 Secretary shall refund the excess amount to the
12 State.

13 (2) TREATMENT OF AMOUNTS RECEIVED.—
14 Amounts received as reimbursement under para-
15 graph (1) shall be credited to the fund or account
16 that was used to cover those costs incurred by the
17 Secretary in carrying out the conveyance or, if the
18 period of availability for obligations for that appro-
19 priation has expired, to the fund or account cur-
20 rently available to the Secretary for the same pur-
21 pose. Amounts so credited shall be merged with
22 amounts in such fund or account, and shall be avail-
23 able for the same purposes, and subject to the same
24 conditions and limitations, as amounts in such fund
25 or account.

1 (f) DESCRIPTION OF PROPERTY.—The exact acreage
2 and legal description of the property to be conveyed under
3 subsection (a) shall be determined by a survey satisfactory
4 to the Secretary of the Army.

5 (g) SAVINGS PROVISION.—Nothing in this section
6 shall be construed to alleviate, alter, or affect the responsi-
7 bility of the United States for cleanup and remediation
8 of the property to be conveyed under subsection (a) in ac-
9 cordance with the Defense Environmental Restoration
10 Program under section 2701 of title 10, United States
11 Code, and the Comprehensive Environmental Response,
12 Compensation, and Liability Act of 1980 (42 U.S.C. 9601
13 et seq.).

14 (h) ADDITIONAL TERMS AND CONDITIONS.—The
15 Secretary of the Army may require such additional terms
16 and conditions in connection with the conveyance under
17 subsection (a) as the Secretary considers appropriate to
18 protect the interests of the United States. These addi-
19 tional terms may include a requirement for the State to
20 consult with the Secretary of the Navy regarding use of
21 the conveyed property.

21 **LATHROP, CALIFORNIA.**

22 (a) CONVEYANCE AUTHORIZED.—If the Secretary of
23 the Army determines that no department or agency of the
24 Federal Government will accept the transfer of a parcel
25 of real property consisting of approximately 525 acres at

1 Sharpe Army Depot in Lathrop, California, the Secretary
2 may convey to the Port of Stockton, California, all right,
3 title, and interest of the United States in and to the prop-

2 still desires to acquire the real property de-
3 scribed in subsection (a), the Port of Stockton
4 shall pay to the United States an amount that
5 is not less than the fair market value of the

1 **SEC. 2864. PILOT PROGRAM TO TEST USE OF EMERGENCY**
2 **DIESEL GENERATORS IN A MICROGRID CON-**
3 **FIGURATION AT CERTAIN MILITARY INSTAL-**
4 **LATIONS.**

5 (a) PILOT PROGRAM AUTHORIZED.—The Secretary
6 of Defense may conduct a pilot program (to be known as
7 the “Emergency Diesel Generator Microgrid Program”) to
8 evaluate the feasibility and cost effectiveness of connecting
9 existing diesel generators at a military installation selected
10 pursuant to subsection (c) to create and support one or
11 more microgrid configurations at the installation capable
12 of providing full-scale electrical power for the defense crit-
13 ical facilities located at the installation during an emer-
14 gency involving the loss of external electric power supply
15 caused by an extreme weather condition, manmade inten-
16 tional infrastructure damage, or other circumstance.

17 (b) GOALS OF PILOT PROGRAM.—The goals of the
18 Emergency Diesel Generator Microgrid Program are—

19 (1) to test assumptions about lower operating
20 and maintenance costs, parts interchangeability,
21 lower emissions, lower fuel usage, increased resil-
22 iency, increased reliability, and reduced need for
23 emergency diesel generators; and

24 (2) to establish design criteria that could be
25 used to build and sustain emergency diesel generator
26 microgrids at other military installations.

1 (c) PILOT PROGRAM LOCATIONS.—As the locations
2 to conduct the Emergency Diesel Generator Microgrid
3 Program, the Secretary of Defense shall select two major
4 military installations located in different geographical re-
5 gions of the United States that the Secretary deter-
6 mines—

7 (1) are defense critical electric infrastructure
8 sites or contain, or are served by, defense critical
9 electric infrastructure;

10 (2) contain more than one defense critical func-
11 tion for national defense purposes and the mission
12 assurance of such critical defense facilities are para-
13 mount to maintaining national defense and force
14 projection capabilities at all times; and

15 (3) face unique electric energy supply, delivery,
16 and distribution challenges that, based on the geo-
17 graphic location of the installations and the overall
18 physical size of the installations, adversely impact
19 rapid electric infrastructure restoration after an
20 interruption.

21 (d) SPECIFICATIONS OF DIESEL GENERATORS AND
22 MICROGRID.—

23 (1) GENERATOR SPECIFICATIONS.—The Sec-
24 retary of Defense shall use existing diesel generators
25 that are sized \geq 750kW output.

1 (2) MICROGRID SPECIFICATIONS.—The Sec-
2 retary of Defense shall create the microgrid using
3 commercially available and proven designs and tech-
4 nologies. The existing diesel generators used for the
5 microgrid should be spaced within 1.0 to 1.5 mile of
6 each other and, using a dedicated underground elec-
7 tric cable network, be tied into a microgrid configu-
8 ration sufficient to supply mission critical facilities
9 within the service area of the microgrid. A selected
10 military installation may contain more than one such
11 microgrid under the Emergency Diesel Generator
12 Microgrid Program.

13 (e) PROGRAM AUTHORITIES.—The Secretary of De-
14 fense may use the authority under section 2914 of title
15 10, United States Code (known as the Energy Resilience
16 and Conservation Investment Program), and energy sav-
17 ings performance contracts to conduct the Emergency
18 Diesel Generator Microgrid Program.

19 (f) DEFINITIONS.—For purposes of the Emergency
20 Diesel Generator Microgrid Program:

21 (1) The term “defense critical electric infra-
22 structure” has the meaning given that term in sec-

1 intelligence systems use machine and human-based in-
2 puts to—

3 (A) perceive real and virtual environments;

4 (B) abstract such perceptions into models
5 through analysis in an automated manner; and

6 (C) use model inference to formulate op-
7 tions for information or action.

8 (4) COMMUNITY COLLEGE.—The term “commu-
9 nity college” means a public institution of higher
10 education at which the highest degree that is pre-
11 dominantly awarded to students is an associate’s de-
12 gree, including 2-year Tribal Colleges or Universities
13 under section 316 of the Higher Education Act of
14 1965 (20 U.S.C. 1059c) and public 2-year State in-
15 stitutions of higher education.

16 (5) INITIATIVE.—The term “Initiative” means
17 the National Artificial Intelligence Initiative estab-
18 lished under section 5101(a).

15 (11) MACHINE LEARNING.—The term “machine
16 learning” means an application of artificial intel-
17 ligence that is characterized by providing systems
18 the ability to automatically learn and improve on the
19 basis of data or experience, without being explicitly
20 programmed.

3 (a) ESTABLISHMENT; PURPOSES.—The President
4 shall establish and implement an initiative to be known
5 as the “National Artificial Intelligence Initiative”. The
6 purposes of the Initiative shall be to—

7 (1) ensure continued United States leadership
8 in artificial intelligence research and development;

9 (2) lead the world in the development and use
10 of trustworthy artificial intelligence systems in the
11 public and private sectors;

12 (3) prepare the present and future United
13 States workforce for the integration of artificial in-
14 telligence systems across all sectors of the economy
15 and society; and

16 (4) coordinate ongoing artificial intelligence re-
17 search, development, and demonstration activities
18 among the civilian agencies, the Department of De-

11 (2) include a review of—

12 (A) whether the circumstances under
13 which a financial institution determines whether
14 to file a continuing suspicious activity report,
15 including insider abuse, or the processes fol-

20 (B) whether different thresholds should

5 both financial institutions and law enforcement
6 agencies, including by allowing greater integra-
7 tion between financial institution systems and
8 the electronic filing system to allow for auto-
9 matic population of report fields and the auto-
10 matic submission of transaction data for sus-
11 picious transactions, without bypassing the obli-
12 gation of each reporting financial institution to
13 assess the specific risk of the transactions re-
14 ported;

15 (I) the appropriate manner in which to en-
16 sure the security and confidentiality of personal

7 rity agencies;

8 (B) the costs likely to be incurred or saved
9 by financial institutions from any adjustment to
10 the thresholds;

18 **SEC. 6215. FINANCIAL SERVICES DE-RISKING.**

19 (a) SENSE OF CONGRESS.—It is the sense of Con-
20 gress that—

21 (1) providing vital humanitarian and develop-
22 ment assistance and protecting the integrity of the

25 (2) nonprofit organizations based in the United
26 States with international activities often face dif-

1 difficulties with financial access, most commonly the
2 inability to send funds internationally through trans-
3 parent, regulated financial channels;

4 (3) without access to timely and predictable
5 banking services, nonprofit organizations, including
6 international development organizations, cannot
7 carry out essential humanitarian activities critical to
8 the survival of those in affected communities;

9 (4) similar access issues are a concern for other
10 underserved individuals and entities such as those
11 sending remittances from the United States to their
12 families overseas and certain domestic and overseas
13 jurisdictions that have experienced curtailed access
14 to cross-border financial services due, in part, to de-
15 risking;

16 (5) the financial exclusion caused by de-risking
17 can ultimately drive money into less transparent,
18 shadow channels through the carrying of cash or use
19 of unlicensed or unregistered money service remit-
20 ters, thus reducing transparency and traceability,
21 which are critical for financial integrity, and can in-

19 perienced de-risking;

20 (vii) best practices from the private
21 sector that facilitate correspondent bank-
22 ing relationships; and

17 This title may be cited as the “Corporate Trans-
18 parency Act”.

19 **SEC. 6402. SENSE OF CONGRESS.**

20 It is the sense of Congress that—

21 (1) more than 2,000,000 corporations and lim-

23 laws of the States each year;

1 (2) most or all States do not require informa-

9 financing of terrorism, proliferation financing, seri-
10 ous tax fraud, human and drug trafficking, counter-
11 feiting, piracy, securities fraud, financial fraud, and
12 acts of foreign corruption, harming the national se-
13 curity interests of the United States and allies of the
14 United States;

15 (4) money launderers and others involved in
16 commercial activity intentionally conduct trans-
17 actions through corporate structures in order to
18 evade detection, and may layer such structures,
19 much like Russian nesting “Matryoshka” dolls,
20 across various secretive jurisdictions such that each
21 time an investigator obtains ownership records for a
22 domestic or foreign entity, the newly identified entity
23 is yet another corporate entity, necessitating a re-
24 peat of the same process;

1 (5) Federal legislation providing for the collec-
2 tion of beneficial ownership information for corpora-
3 tions, limited liability companies, or other similar en-
4 tities formed under the laws of the States is needed
5 to—

6 (A) set a clear, Federal standard for incor-

9 curity interests;

10 (C) protect interstate and foreign com-
11 merce;

12 (D) better enable critical national security,
13 intelligence, and law enforcement efforts to
14 counter money laundering, the financing of ter-
15 rorism, and other illicit activity; and

16 (E) bring the United States into compli-
17 ance with international anti-money laundering
18 and countering the financing of terrorism
19 standards;

20 (6) beneficial ownership information collected
21 under the amendments made by this title is sensitive
22 information and will be directly available only to au-
23 thorized government authorities, subject to effective
24 safeguards and controls, to—

1 (A) facilitate important national security,
2 intelligence, and law enforcement activities; and

3 (B) confirm beneficial ownership informa-
4 tion provided to financial institutions to facili-
5 tate the compliance of the financial institutions
6 with anti-money laundering, countering the fi-
7 nancing of terrorism, and customer due dili-
8 gence requirements under applicable law;

9 (7) consistent with applicable law, the Secretary
10 of the Treasury shall—

11 (A) maintain the information described in
12 paragraph (1) in a secure, nonpublic database,
13 using information security methods and tech-
14 niques that are appropriate to protect non-
15 classified information systems at the highest se-
16 curity level; and

17 (B) take all steps, including regular audit-
18 ing, to ensure that government authorities ac-
19 cessing beneficial ownership information do so
20 only for authorized purposes consistent with
21 this title; and

22 (8) in prescribing regulations to provide for the
23 reporting of beneficial ownership information, the
24 Secretary shall, to the greatest extent practicable
25 consistent with the purposes of this title—

1 (A) seek to minimize burdens on reporting
2 companies associated with the collection of ben-
3 eficial ownership information;

4 (B) provide clarity to reporting companies
5 concerning the identification of their beneficial
6 owners; and

7 (C) collect information in a form and man-
8 ner that is reasonably designed to generate a

23 hull design for medium Polar Security Cutters and Great
24 Lakes icebreakers.

1 **SEC. 8106. SENSE OF THE CONGRESS ON NEED FOR NEW**
2 **GREAT LAKES ICEBREAKER.**

3 (a) FINDINGS.—The Congress finds the following:

4 (1) The Great Lakes shipping industry is cru-
5 cial to the American economy, including the United
6 States manufacturing base, providing important eco-
7 nomic and national security benefits.

8 (2) A recent study found that the Great Lakes
9 shipping industry supports 237,000 jobs and tens of
10 billions of dollars in economic activity.

11 (3) United States Coast Guard icebreaking ca-
12 pacity is crucial to full utilization of the Great Lakes
13 shipping system, as during the winter icebreaking
14 season up to 15 percent of annual cargo loads are
15 delivered, and many industries would have to reduce
16 their production if Coast Guard icebreaking services
17 were not provided.

18 (4) 6 of the Coast Guard's 9 icebreaking cut-
19 ters in the Great Lakes are more than 30 years old
20 and are frequently inoperable during the winter
21 icebreaking season, including those that have com-
22 pleted a recent service life extension program.

23 (5) During the previous 10 winters, Coast
24 Guard Great Lakes icebreaking cutters have been in-
25 operable for an average of 65 cutter-days during the
26 winter icebreaking season, with this annual lost ca-

1 pability exceeding 100 cutter days, with a high of
2 246 cutter days during the winter of 2017–2018.

3 (6) The 2019 ice season provides further proof
4 that current Coast Guard icebreaking capacity is in-
5 adequate for the needs of the Great Lakes shipping
6 industry, as only 6 of the 9 icebreaking cutters are
7 operational, and millions of tons of cargo was not
8 loaded or was delayed due to inadequate Coast
9 Guard icebreaking assets during a historically aver-
10 age winter for Great Lakes ice coverage.

11 (7) The Congress has authorized the Coast
12 Guard to acquire a new Great Lakes icebreaker as
13 capable as Coast Guard Cutter *Mackinaw* (WLBB–
14 30), the most capable Great Lakes icebreaker, and
15 \$10 million has been appropriated to fund the de-
16 sign and initial acquisition work for this icebreaker.

17 (8) The Coast Guard has not initiated a new
18 acquisition program for this Great Lakes icebreaker.

19 (b) SENSE OF THE CONGRESS.—It is the sense of
20 the Congress of the United States that a new Coast Guard
21 icebreaker as capable as Coast Guard Cutter *Mackinaw*
22 (WLBB–30) is needed on the Great Lakes, and the Coast
23 Guard should acquire this icebreaker as soon as possible.

1 **SEC. 8107. PROCUREMENT AUTHORITY FOR GREAT LAKES**
2 **ICEBREAKER.**

3 (a) IN GENERAL.—Of the amounts authorized to be
4 appropriated by section 4902(2)(A)(ii) of title 14, United
5 States Code, as amended by section 8101 of this division,
6 \$160,000,000 for fiscal year 2021 is authorized for the
7 acquisition of a Great Lakes icebreaker at least as capable
8 as Coast Guard Cutter *Mackinaw* (WLBB–30).

9 (b) REPORT.—Not later than 30 days after the date
10 of the enactment of this Act, the Commandant shall sub-
11 mit to the Committee on Commerce, Science, and Trans-
12 portation of the Senate and the Committee on Transpor-
13 tation and Infrastructure of the House of Representatives
14 a plan for acquiring an icebreaker as required by section
15 820(b) of the Frank LoBiondo Coast Guard Authorization
16 Act of 2018 (Public Law 115–282).

17 **SEC. 8108. POLAR SECURITY CUTTER ACQUISITION RE-**

22 Services of the House of Representatives, and the Com-
23 mittees on Commerce, Science, and Transportation and
24 Armed Services of the Senate a report on—

1 (1) the extent to which specifications, key draw-
2 ings, and detail design for the Polar Security Cutter
3 are complete before the start of construction;

4 (2) the extent to which Polar Security Cutter
5 hulls numbers one, two, and three are science ready;
6 and

7 (3) what actions will be taken to ensure that
8 Polar Security Cutter hull number four is science ca-
9 pable, as described in the National Academies of
10 Sciences, Engineering, and Medicine’s Committee on
11 Polar Icebreaker Cost Assessment letter report enti-
12 tled “Acquisition and Operation of Polar Ice-
13 breakers: Fulfilling the Nation’s Needs” and dated
14 July 11, 2017.

9 **DICTION OF ILLICIT DRUGS IN TRANSIT**
10 **ZONES.**

11 (a) FINDINGS.—Congress makes the following find-
12 ings:

13 (1) The Coast Guard seizes an average of 1,221
14 pounds of cocaine and 85 pounds of marijuana each
15 day in the transit zones of the Eastern Pacific
16 Ocean, Caribbean Sea, and Southern maritime bor-
17 der approaches.

18 (2) The Joint Interagency Task Force–South
19 (JIATF–South) estimates that it has a spectrum of
20 actionable intelligence on more than 80 percent of
21 drug movements into the United States from Central
22 America and South America.

23 (3) The Coast Guard must balance asset alloca-
24 tion across 11 statutory missions. As such, the
25 Coast Guard interdicts less than 10 percent of mari-

1 time noncommercial smuggling of illicit drugs into
2 the United States from Central America and South
3 America.

4 (4) In 2017, the Government Accountability Of-
5 fice recommended that the Commandant of the

8 to the interdiction of illicit drugs smuggled into
9 the United States, or describe the manner in
10 which existing goals are sufficient;

11 (B) report such goals to the public;

12 (C) assess the extent to which limitations
13 in performance data with respect to such goals
14 are documented;

17 spect to such goals; and

18 (E) document efforts to monitor implemen-

20 (b) STUDY.—The Secretary of the Department in
21 which the Coast Guard is operating, in coordination with
22 the Secretary of Defense and the heads of other relevant
23 Federal agencies, shall conduct a study in order to identify
24 gaps in resources that contribute to low interdiction rates
25 for maritime noncommercial smuggling of illicit drugs into

1 the United States from Central America and South Amer-
2 ica despite having actionable intelligence on more than 80
3 percent of drug movements in the transit zones of the
4 Eastern Pacific Ocean, Caribbean Sea, and Southern mar-
5 itime border approaches.

6 (c) REPORT.—Not later than 1 year after the date
7 of the enactment of this Act, the Secretary of the Depart-

23 assets satisfied the Coast Guard mission require-
24 ments for drug interdiction in the Caribbean basin.

1 (d) FORM.—The report required under subsection (a)
2 shall be submitted in unclassified form, but may contain
3 a classified annex.
