*(U//FOUO) The following list of events is being maintained per request of WFO Executive Management. The items on this list are compiled by FBI partner agencies. FBI WFO does not have any information to suggest these events will involve anything other than first amendment protected activity and is being distributed for situational awareness. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individual or others in retaliation or with the goal of stopping the protected activity from occurring in the first instance. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity.*

## ~~(U//FOUO)~~ Appendix A: Current Planned Events within the NCR

~~(U//FOUO)~~ The following list of is being maintained per request of WFO Executive Management. The items on this list are compiled by FBI partner agencies. FBI WFO does not have any information to suggest these events will involve anything other than first amendment protected activity and is being distributed for situational awareness. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individual or others in retaliation or with the goal of stopping the protected activity from occurring in the first instance. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity.

Crowd estimates are the only thing I am aware of that are sensitive because of the lawsuits.

Morning Jen and Matt,

[REDACTED] and I were talking this morning and hoping you can give us some direction for the sit reps. As you are both aware during the last event we were inundated with requests from both external partners and internal FBI entities asking to be included on the sit rep distro, seeing as this event is gaining alot of attention from the USIC, what is our posture for including outside WFO entities in the sit rep distro?

Also FYI on [REDACTED] - hopefully everyone is aware [REDACTED]

*(U//FOUO) The following list of events is being maintained per request of WFO Executive Management. The items on this list are compiled by FBI partner agencies. FBI WFO does not have any information to suggest these events will involve anything other than first amendment protected activity and is being distributed for situational awareness. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individual or others in retaliation or with the goal of stopping the protected activity from occurring in the first instance. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity. The following information is current as of 29 December 2020. This is for informational use only.*

Hello,

I saw the following in the Washington Post and was hoping you could confirm these estimates:  
"The FBI estimates that the protesters who assemble at the Ellipse and other march sites Wednesday will total 10,000 to 20,000 well below the 50,000 to 100,000 touted on some pro-Trump websites."

I am on deadline, so a quick response would be greatly appreciated. Thank you!

Matt Prichard

Good afternoon,

The following information is sent on behalf of FBI Assistant Director George P. Beach in advance of a SITREP expected later this evening:

On January 6, 2021 Washington, DC became the scene of a number of individual protest gatherings. United States Park Police reported a total of four permitted First Amendment events attracting an unknown number of participants.

At approximately 11:30 AM a large number of persons gathered in the Ellipse area and listened to a speech by POTUS.

At the conclusion of the speech, a huge number of persons moved on foot down Constitution and Pennsylvania Avenues to the area of the United States Capitol.

At approximately 2:30 PM a large group of protestors moved onto the grounds of the Capitol, some of whom eventually breached several doors and windows and gained entry to, and throughout, the building. Several hundred protestors remain in the Capitol.

Members of Congress and Staff have been removed to positions of safety.

At the present time, a coordinated police response consisting of members of the United States Capitol Police, United States Park Police, Metropolitan DC Police, Metro North Police, HSI, Federal Protective Service, US Marshals Service, FBI, and Virginia State Troopers are beginning to clear the Capitol.

The DC National Guard was earlier deployed in a limited capacity to assist with traffic control, and a request was made by the city to deploy National Guard Members to the United States Capitol.

Open source reporting indicates a woman was shot and seriously injured in the downtown area prior to the action at the Capitol.

*(U//FOUO) The following list of is being maintained per request of WFO Executive Management. The items on this list are compiled by FBI partner agencies. FBI WFO does not have any information to suggest these events will involve anything other than first amendment protected activity and is being distributed for situational awareness. Their inclusion here is not intended to associate the protected activity with criminality or a threat to national security, or to infer that such protected activity itself violates federal law. However, based on known intelligence and/or specific, historical observations, it is possible the protected activity could invite a violent reaction towards the subject individual or others in retaliation or with the goal of stopping the protected activity from occurring in the first instance. In the event no violent reaction occurs, FBI policy and federal law dictates that no further record be made of the protected activity.*

This question persists. This came in this morning to the DD and EAD Laycock from the Transition Team asking about anything additional we know on the below.

Regarding the first question -- this is the reporting from last week related to [REDACTED]  
[REDACTED] To my knowledge there is no updated info/nothing materialized, but if there is anything more recent, please let us know.

The second is a very specific ask from the transition team related to [REDACTED] I would assume this would be info [REDACTED] but if there is anything to note re [REDACTED] please share. Also, if there is anything [REDACTED] is aware of/or is doing ref [REDACTED] please note that, too. Again, would assume mainly [REDACTED] but anything worth mentioning.

Please feel free to pass me on to anyone else over there who may be more directly tracking this. Don't want to pull you off of the myriad other things I know is being run down by you both.

Thanks,  
Pam

Also to note: this is what the FBI put out via media regarding the name checks of NG personnel: National Guard Vetting: OPA – Media asked various questions about the vetting of National Guard members assisting in inaugural security, including whether it is accurate a small number were removed from their assignments after the FBI found derogatory information. OPA referred media to the National Guard. OPA also reminded reporters on background that when the FBI assists with background checks we provide information to the agency we are assisting and do NOT adjudicate decisions.

FOR IMMEDIATE RELEASE

### DOJ OIG Announces Initiation of Review

Department of Justice (DOJ) Inspector General Michael E. Horowitz announced today that:

The DOJ Office of the Inspector General (OIG) is initiating a review to examine the role and activity of DOJ and its components in preparing for and responding to the events at the U.S. Capitol on January 6, 2021. The DOJ OIG will coordinate its review with reviews also being conducted by the Offices of Inspector General of the Department of Defense, the Department of Homeland Security, and the Department of the Interior. The DOJ OIG review will include examining information relevant to the January 6 events that was available to DOJ and its components in advance of January 6; the extent to which such information was shared by DOJ and its components with the U.S. Capitol Police and other federal, state, and local agencies; and the role of DOJ personnel in responding to the events at the U.S. Capitol on January 6. The DOJ OIG also will

FBI(21cv1168)-2500

assess whether there are any weaknesses in DOJ protocols, policies, or procedures that adversely affected the ability of DOJ or its components to prepare effectively for and respond to the events at the U.S. Capitol on January 6. If circumstances warrant, the DOJ OIG will consider examining other issues that may arise during the review.

The DOJ OIG is mindful of the sensitive nature of the ongoing criminal investigations and prosecutions related to the events of January 6. Consistent with long-standing OIG practice, in conducting this review, the DOJ OIG will take care to ensure that the review does not interfere with these investigations or prosecutions.

The following are questions from Director Wray's chief of staff:

- What is the agenda for the TTX/Principles meeting on Friday?
- What is the ask of the Director? Is he expected to provide remarks and answer questions?
- Is his +2 separate from SAC Sundberg?
- Who are the other Principles who are expected to attend?

This is Director Wray first NSSE/inauguration, he is unfamiliar with the process.

He seems to be very confused. I was not tracking any of this until his call.
