2	expert witness for that case.	09:47:27
3	Q. And then I guess what happened after	09:47:30
4	that conversation?	09:47:32
5	A. Typically, when I receive an incoming	09:47:34
6	in like that that I don't source myself that	09:47:38
7	comes from a colleague, I, typically, like to	09:47:40
8	understand exactly what the case is, obviously,	09:47:43
9	read the case and then try to understand the best	09:47:46
10	I can within the four corners of the document.	09:47:49
11	That's what I did in this matter.	09:47:52
12	And kind of read and without really even knowing	09:47:54
13	exactly what it was, then contacted Mr. Fowler	09:47:58
14	again to tell him that I would have an interest	09:48:01
15	in learning more about the opportunity.	09:48:04
16	Q. Okay. And so did you "learn more	09:48:06
17	about the opportunity" at that point?	09:48:09
18	A. I did.	09:48:10
19	Q. Okay. And can you tell me what that	09:48:11
20	entailed?	09:48:13
21	A. I was asked if I would be able to	09:48:13

24	Q. And, I guess, how did the engagement	09:48:23
25	proceed from there?	09:48:26

		Page 16
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. The engagement proceeded from there	09:48:28
3	that I was told by Mr. Fowler that we were	09:48:31
4	engaged as a firm. I then was asked to put	09:48:33
5	together a list of documents that I thought I	09:48:37
6	would need in order to form my opinions and I	09:48:40
7	began doing my research at that time.	09:48:43
8	Q. Okay. And do you recall about what	09:48:45
9	about when this was?	09:48:49
10	A. I do not.	09:48:49
11	Q. Okay. I know you mentioned that you	09:48:50
12	thought you that were first contacted either in	09:48:53
13	the end of 2022 or early 2023.	09:48:55
14	Do you think that you had started	09:48:58
15	doing the research you're describing by	09:49:00
16	February 2023?	09:49:03
17	A. It sounds about right. But, yeah,	09:49:06
18	without certainty, I can't give an exact date.	09:49:08
19	Q. Okay. Were you already doing work at	09:49:10
20	Ankura for the Trump Organization at the time	09:49:14
21	that you were retained as an expert witness?	09:49:17
22	A. Yes.	09:49:19
23	Q. What work were you doing?	09:49:20
24	A. I was involved in a I guess, it	09:49:22
25	would be a consulting engagement for the Doral	09:49:26

Q. Okay. Were you doing anything 09:4 besides the consulting engagement for the Doral 09:4 sasset? 09:4 A. Not for the Trump Organization. 09:4	49:30 49:33 49:34 49:37 49:37
Q. Okay. Were you doing anything 09:4 besides the consulting engagement for the Doral 09:4 sasset? 09:4 A. Not for the Trump Organization. 09:4 Q. And is it correct that the consulting 09:4	49:33 49:34 49:37 49:37
besides the consulting engagement for the Doral 09:4  asset? 09:4  A. Not for the Trump Organization. 09:4  Q. And is it correct that the consulting 09:4	49:34 49:37 49:37 49:42
5 asset? 09:4 6 A. Not for the Trump Organization. 09:4 7 Q. And is it correct that the consulting 09:4	49:37 49:37 49:42
A. Not for the Trump Organization. 09:4  Q. And is it correct that the consulting 09:4	49:37 49:42
Q. And is it correct that the consulting 09:4	49:42
8 engagement involved excuse me valuing a 09:4	49:43
potential conservation easement at Doral? 09:4	49:47
10 A. That is part of the engagement, yes, 09:4	49:49
11 sir. 09:4	49:53
Q. What does the rest of that engagement 09:4	49:53
13 involve? 09:4	49:54
A. Well, I'm not an appraiser. So there 09:4	49:55
was obviously, what goes into conservation 09:4	49:57
easement is beyond value. So value is only one 09:	50:00
17 component of that. 09:	50:03
18 Looking at highest and best use and 09:	50:04
pro formas and other items as well, so that was 09:	50:06
20 more my role, because I am not involved in the 09:	50:10
21 actual valuation of the assets, since I'm not a 09:	50:12
22 licensed appraiser. 09:	50:15
Q. Got it. 09:	50:16
So what expertise and skills do you 09:	50:17
bring to the work that you're doing on the Doral 09:	50:20

My history of working with conservation easements, my history of looking at 09:50:27 5 development pro formas, as well as my history of 09:50:30 looking at development opportunities. And I have 6 09:50:34 a decent amount of experience as it relates to 09:50:38 7 large golf course communities and resorts. 09:50:41 8 Q. And what are the goals of that 9 09:50:45 09:50:48 10 engagement? 11 I mean, my goal is to evaluate, as we 09:50:50 12 were asked what an as is versus an as complete 09:50:53 analysis would be with our valuation team. 09:50:58 13 14 Okay. Is that engagement still 09:51:02 09:51:05 15 ongoing? 16 Yes, it is. 09:51:06 17 Okay. I think I will probably have 09:51:06 18 some more questions about that later. 09:51:13 19 No problem. 09:51:15 Α. 20 So, when you were engaged as an 09:51:15 21 expert witness -- strike that. 09:51:17 22 Prior to your engagement as an expert 09:51:21 23 witness in this case, had you ever discussed this 09:51:24 24 litigation with anyone at the Trump Organization? 09:51:27 09:51:29 25 A. No, sir.

No, sir. 09:51:39 09:51:45 6 MR. LADOV: Excuse me. 7 You state in your expert report at 09:51:46 Paragraph 14 that, quote, "Ankura is being 09:51:49 8 compensated for time incurred by me and the 09:51:53 professionals assisting me under my supervision 09:51:57 10 in this matter at rates ranging from 395 to \$925 11 09:51:59 12 per hour." 09:52:04 Is that statement still accurate? 13 09:52:06 To the best of my knowledge, yes, 09:52:07 14 09:52:09 15 sir. 16 Okay. Is it correct that you are 09:52:09 09:52:12 17 billing at \$925 per hour? 18 A. I do not believe that I am at the top 09:52:14 of the rate. I believe that my rate is below 09:52:16 19 20 that. 09:52:18 21 Okay. Do you know what your rate is? 09:52:19 I want to say that it's probably 09:52:21 22 23 somewhere between 7 and \$800 but not certain. 09:52:23 Okay. Who is it that is billing at 24 09:52:27 09:52:35 25 the top rate in that bracket?

		Page 20
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. I'm not aware of what everybody's	09:52:37
3	billing rates are for the various members that	09:52:39
4	are participating in this engagement.	09:52:41
5	Q. Well, so I guess, to the extent that	09:52:45
6	this sentence says that somebody is billing at	09:52:50
7	\$925 per hour, do you know who that person might	09:52:53
8	be?	09:52:56
9	A. I do not.	09:52:56
10	Q. Okay. And how are you being	09:52:57
11	compensated for your work on this engagement?	09:53:00
12	A. I'm compensated as an employee of	09:53:03
13	Ankura.	09:53:05
14	Q. Okay. Are you receiving any bonuses	09:53:06
15	for your work as an expert in this case?	09:53:08
16	A. No, sir.	09:53:10
17	Q. Your report states that, quote, "The	09:53:13
18	compensation is not contingent on the opinions I	09:53:17
19	express or upon the outcome of this case."	09:53:20
20	Just to clarify, does this mean that	09:53:24
21	Ankura's compensation, your personal compensation	09:53:26
22	or both are not contingent on the opinions that	09:53:29
23	you are expressing here?	09:53:33

Yes. 7 Do you know whether future business 09:53:48 opportunities with the Trump Organization are 09:53:51 8 contingent on Ankura providing expert services in 09:53:54 this litigation? 09:53:58 10 A. I do not. And that is not typical. 11 09:53:59 12 We -- this is -- we are independent analysis of 09:54:02 -- nothing that we do is tied towards future 09:54:05 13 09:54:08 engagements. 14 Q. 5	A. Me individually, Christopher Collins	09:55:45
6	is who assisted me on this report.	09:55:48
7	Q. Could you spell his name please?	09:55:53
8	A. C-H-R-I-S-T-O-P-H-E-R. And last name	09:55:55

10	Q. Is there anybody else besides	09:56:10
11	Mr. Collins who has been assisting you in	09:56:12
12	preparing this report?	09:56:14
13	A. No, sir.	09:56:16
14	Q. What is the nature of the assistance	09:56:18
15	that Mr. Collins provided you with?	09:56:20
16	A. Mr. Collins provided research	09:56:23
17	assistance. He provided proofreading. He	09:56:25
18	assisted in the presentation of materials, as	09:56:30
19	well as the exhibits, but primarily as research	09:56:32
20	and I would say making sure that from a	09:56:37

22	et cetera.	09:56:45
23	Q. You mentioned in your report that his	09:56:48

2	Collins's work?	09:56:58
3	A. In this engagement, I did directly	09:56:58
4	supervise Mr. Collins. As far as on a day-to-day	09:57:01
5	basis, Mr. Collins is not one of my direct	09:57:04
6	reports. He is a member of the Ankura Real	09:57:07
7	Estate Advisory team.	09:57:12
8	Q. Okay. So can you just explain to me	09:57:12
9	if he's not your direct report, typically, where	09:57:16
10	he sits within the real estate advisory team?	09:57:19
11	A. Yeah. He is a Senior Director in	09:57:21
12	that group. And he sits in the Washington D.C.	09:57:24
13	area underneath Bruce Gamble, who is a Senior	09:57:28
14	Managing Director there. However, on individual	09:57:31

16	know, kind of a dotted line approach versus a	09:57:38
17	direct report.	09:57:41
18	Q. And what education and professional	09:57:43
19	experience does Mr. Collins have that is relevant	09:57:45
20	to his work on this engagement?	09:57:49
21	A. Mr. Collins has experience in	09:57:50
22	reviewing and has done for several members of our	09:57:52
23	group reports.	09:57:54
24	You know, as far as his direct	09:57:55

Mr. Collins and just like a lot of 5 09:58:07 09:58:09 our staff works across multiple different sorts 6 of things. I would say litigation is one of his 09:58:12 7 strong suits. But he also does some financial 09:58:14 8 analysis and underwriting, et cetera. 09:58:17 10 Q. And I apologize. I think you said 09:58:23 your title is also Senior Director; am I getting 11 09:58:26 12 that right? 09:58:28 13 A. Managing Director. 09:58:28 09:58:29 14 Q. You're a Managing Director. 15 So you're above him in the Ankura 09:58:29 16 organizational chart? 09:58:31 17 Yes, sir. Senior Director, Managing 09:58:32 18 Director and then Senior Managing Director would 09:58:34 be the hierarchy. 09:58:36 19 20 Q. Got it. 09:58:37 21 And I apologize if I had already 09:58:38 asked this. 09:58:42 22 23 But do you know how much Ankura is 09:58:43 24 billing for Mr. Collins's time on this matter? 09:58:44 25 A. I do not. 09:58:47

		Page 26
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. Do you expect that he would be	09:58:47
3	billing less than you are?	09:58:49
4	A. Yes. Yes, sir.	09:58:50
5	Q. Billing as a rate less an hour, I	09:58:52
6	should say.	09:58:54
7	A. Yes.	09:58:54
8	Q. Okay. And other than you and Mr.	09:58:55
9	Collins, are you aware of anyone who is billing	09:58:58
10	for time related to the preparation of your	09:59:03
11	expert reports in this engagement?	09:59:06
12	A. I am not.	09:59:08
13	Q. Okay. Again, just to revisit this	09:59:09
14	question, do you know who wrote the sentence in	09:59:14
15	your report that Ankura is being compensated "at	09:59:16
16	rates ranging from 395 to \$925 per hour"?	09:59:20
17	A. Mr. Collins or myself did based on	09:59:24
18	off the engagement letter that we have.	09:59:27
19	Q. Okay. So this these rates would	09:59:28
20	have come from an engagement letter; is that	09:59:31
21	right?	09:59:33
22	A. Yes, sir.	09:59:33
23	Q. Were you responsible for the initial	09:59:42

But he did at times, 09:59:54 09:59:57 6 yes. 7 Both reports include a disclosure. 10:00:01 You'll find it in the first expert report at 10:00:04 8 Footnote 121, I believe, on the last page. 10:00:08 10 It says, quote, "My professional 10:00:14 staff assisted in performing some of the 10:00:16 11 12 procedures and analyses that support my opinions. 10:00:19 The references in this summary to analyses and 13 10:00:22 procedures that 'I' conducted include those 10:00:25 14 conducted by my professional staff. Page 28 1 CONFIDENTIAL - ROBERT E. UNELL 2 A. I was provided the product. I looked 10:01:03 3 at where the inputs were and, you know, looked at 10:01:06 the source data and determined that the inputs 10:01:09 5 were correct and that they were representative of 10:01:12 what I thought belonged in the report. 10:01:15 6 7 Q. And is it correct to say that you 10:01:21 take full responsibility for all of the opinions 10:01:22 8 and supporting analysis provided in your report? 10:01:24 Yes, sir. 10:01:27 10 Α. Can you estimate how many hours you 11 10:01:29 12 have personally spent on this engagement so far? 10:01:31 13 I'd say somewhere around 200 10:01:35 10:01:38 probably. 14 And about how many of those hours 10:01:39 15 16 were spent preparing your expert report? 10:01:41 17 The initial expert report? 10:01:46 18 Q. Yes. 10:01:48 The initial expert report, I would 10:01:48 19 20 probably say, I don't know, two-thirds of it. 10:01:51 Q. And then is it fair to say that most 21 10:01:56 of the remaining third of your time was spent 10:01:59 22 23 preparing your rebuttal report? 10:02:01 24 Yes, sir. 10:02:03 And do you have an understanding of 25 10:02:07

Page 29 1 CONFIDENTIAL - ROBERT E. UNELL how many hours Mr. Collins has spent on this 10:02:10 10:02:13 3 engagement so far? A. Less than I have. I would probably 10:02:14 5 say, you know, something like this it's, 10:02:16 6 typically, you know, somewhere 25 and 30 percent. 10:02:18 So, of what I do is -- it's just, typically --10:02:21 7 so, you know, call it between 50 and 60 hours. 10:02:23 8 9 Q. And do you know how much Ankura has 10:02:29 billed for your work and Mr. Collins's work to 10:02:31 10 date on this expert engagement? 10:02:35 11 12 I am not aware of the Ankura billings 10:02:37 on this engagement. 10:02:39 13 14 Do you know if Ankura has already 10:02:40 been paid for any of the work that you've done on 10:02:42 15 16 this engagement? 10:02:44 17 A. I do not. 10:02:45 18 Mr. Unell, what did you do to prepare 10:02:48 for your deposition today? 10:02:51 19 20 I re-read the reports, Exhibits 1 and 10:02:53 21 2 that are in front of me. I read the reports of 10:02:57 Mr. McCarty, both his initial report and his 10:03:02 22 23 rebuttal report. I reviewed various documents 10:03:05 24 that were included in these reports. And I had a 10:03:08 few brief discussions with Counsel. 25 10:03:14

Page 30 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. Okay. Did you look at any documents 10:03:15 3 that you had not already included among the 10:03:20 documents that you relied upon in your reports? 10:03:25 5 Α. No, sir. 10:03:28 6 And you mentioned that you spoke with 10:03:30 10:03:32 7 Counsel. Who did you meet with? 10:03:32 8 Over the weekend, I had a brief phone 9 10:03:34 call with Mr. Kise. I'm not certain who all was 10:03:37 10 on that call. But I know Mr. Kise was on it. I 11 10:03:41 12 believe Ms. Hernandez was on it as Counsel. 10:03:44 And then yesterday I had a -- I guess 10:03:47 13 it was probably 15, 20 minute phone call with 10:03:51 14 Mr. Kise and Ms. Hernandez in the morning. 10:03:54 15 And then I had an even briefer call 16 10:03:56 with Mr. Robert and Mr. Feris last name to 17 10:04:00 discuss logistics for today. 18 10:04:06 Q. Okay. Other than those three brief 10:04:08 19 20 calls, did you have any other meetings with 10:04:12 21 Counsel to prepare for this deposition? 10:04:13 10:04:14 22 A. No, sir. 23 In any of your meetings with Counsel, 10:04:18 24 was there anyone else present apart from the 10:04:20 25 attorneys that you have identified? 10:04:23

1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. Mr. Collins, I believe, was in there	10:04:24
3	and I'm not certain who else was in each of them,	10:04:26
4	you know, but that was I know Counsel and I'm	10:04:29
5	not certain if the consulting experts were on at	10:04:35
6	any point or not at that point.	10:04:37
7	Q. Okay. When you say, "consulting	10:04:41
8	experts," who are you referring to?	10:04:44
9	A. Mr. Fowler.	10:04:45
10	Q. Have you discussed the substance of	10:04:53
11	your deposition testimony with anyone apart from	10:04:56
12	the individuals you just mentioned?	10:04:58
13	A. No, sir.	10:05:00
14	Q. And sorry. I guess you mentioned	10:05:04
15	Scott Fowler as a consulting expert.	10:05:07
16	Are you generally aware of what his	10:05:09
17	involvement in your expert engagement is?	10:05:13
18	A. He was the one that brought the	10:05:18
19	engagement to me. But besides that, I think,	10:05:20
20	that he's more coordinating whatnot. In my	10:05:22
21	particular engagement, very little involvement,	10:05:25
22	if any. It's more on the logistical side of	10:05:28
23	things.	10:05:31
24	Q. And are you aware of any other	10:05:32

3	A. Yes, I am.	10:05:39
4	Q. Which other individuals are you aware	10:05:41
5	of?	10:05:43
6	A. I'm not certain of all of them. But	10:05:44
7	I do know that that Mr. Flemmons, Mr. Laposa and	10:05:47
8	Mr. Chin.	10:05:55
9	Q. And are the individuals you just	10:05:58
10	mentioned all employees of Ankura?	10:06:00
11	A. Mr. Laposa, Mr. Chin I believe are	10:06:02
12	contractors or affiliates. And I'm not certain	10:06:06
13	of Mr. Flemmons' status, whether he is an	10:06:09
14	employee or is he a subcontractor like Mr. Laposa	10:06:13
15	and Mr. Chin.	10:06:16
16	Q. Have you discussed your work on this	10:06:19
17	matter with any of those three individuals?	10:06:20
18	A. No, sir.	10:06:23
19	Q. Have you reviewed any of the reports	10:06:25
20	provided by any of those three individuals in	10:06:27
21	this litigation?	10:06:31
22	A. No, sir.	10:06:31
23	Q. Have you reviewed any of the other	10:06:34
24	expert reports that were prepared on behalf of	10:06:36
25	the Defendants in this litigation?	10:06:38

1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. No, sir.	10:06:39
3	Q. And are you aware of any other	10:06:43
4	individuals who were asked by Defendants to offer	10:06:45
5	expert opinions in this case but did not end up	10:06:48
6	doing so?	10:06:51
7	A. Not to my knowledge.	10:06:54
8	Q. So looking at your expert report, do	10:06:59
9	Paragraphs 10 to 13 of that report and the	10:07:04
10	attached CV, which is included as Appendix A,	10:07:07
11	reflect all of your relevant qualifications and	10:07:11
12	experience in this engagement?	10:07:13
13	A. Yes, sir.	10:07:25
14	Q. And you graduated from the University	10:07:28
15	of Georgia in 2000; is that correct?	10:07:30
16	A. Yes, sir.	10:07:33
17	Q. And then since then, have you worked	10:07:33
18	in commercial real estate lending either as a	10:07:34
19	banker or consultant?	10:07:38
20	A. Yes, sir.	10:07:39
21	Q. Is there any work you've done since	10:07:39
22	graduating college in 2000 that wouldn't be	10:07:42
23	encompassed by the summary I just offered you?	10:07:44
24	A. Commercial real estate being all	10:07:50
25	encompassing, yeah, I think that that's fairly	10:07:53

		Page 34
1	CONFIDENTIAL - ROBERT E. UNELL	
2	accurate.	10:07:56
3	Q. Your report indicates that you spent	10:07:57
4	most of your career as a banker with Bank of	10:08:00
5	America between 2002 and 2015; is that correct?	10:08:04
6	A. Yes, sir.	10:08:07
7	Q. Which specific division or divisions	10:08:07
8	within Bank of America did you work for?	10:08:10
9	A. I worked in the Commercial Real	10:08:12
10	Estate Banking Division. I worked in as a	10:08:14
11	subpart of that, at some point during the home	10:08:18
12	builder division. I worked in correct risk	10:08:20
13	management and I worked in the Special Assets	10:08:24
14	Group for commercial real estate, which fell	10:08:26
15	under the credit risk management umbrella.	10:08:28
16	Q. And can you just briefly describe	10:08:31
17	what each of those four divisions did at Bank of	10:08:34
18	America?	10:08:37
19	A. Would you mind asking them one off so	10:08:37
20	I don't	10:08:39
21	Q. Yeah, fair enough.	10:08:39
22	So you first mentioned CRE banking, I	10:08:40
23	believe.	10:08:45
24	A. Commercial Real Estate banking, yes,	10:08:45
25	sir.	10:08:47

2	Q. Yes.	10:08:47
3	So what exactly was your role within	10:08:47
4	commercial real estate banking?	10:08:49
5	A. Commercial real estate banking and	10:08:51
6	I think to kind of clarify, home builder division	10:08:52
7	is a part of the Commercial Real Estate Banking	10:08:55
8	Group. So those kind of go together.	10:08:57
9	I was a Relationship Manager where I	10:08:59
10	was responsible for the origination and	10:09:03
11	management of loans, as well as relationships,	10:09:06
12	cross-selling and there was also underwriting and	10:09:11
13	presentation for approval.	10:09:14
14	Q. And do you have a recollection of	10:09:19
15	the, I guess, the scope of the size of the loans	10:09:20
16	that you worked on in that division?	10:09:24
17	A. They could have been anything from a	10:09:25
18	\$5 million loan up to couple hundred million	10:09:27
19	dollar syndicated credit facilities.	10:09:31
20	Q. And you mentioned the "home builder	10:09:36
21	division," which was part of the CRE banking	10:09:37
22	unit; is that right?	10:09:39
23	A. Yes, sir.	10:09:39
24	Q. And what was your role there?	10:09:40
25	A. The same. Was responsible for	10:09:41

And what was the home builder 10:09:48 5 division? 10:09:50 10:09:50 6 It specialized in banking for sale 7 10:09:54 real estate. Q. And I'm sorry. 10:09:57 8 When you say, "for sale real estate," 9 10:09:58 I guess, can you just elaborate? 10:10:01 10 A. Homes, condos, townhomes versus 10:10:02 11 12 incoming producing real estate, which was more 10:10:04 under the umbrella of the General Real Estate 13 10:10:07 10:10:09 14 Banking Group. 15 Q. Got it. 10:10:09 16 And you also mentioned that you had 10:10:12 17 worked at credit risk management. 10:10:13 18 A. Yes. 10:10:13 19 Can you explain what your role was 10:10:16 20 there? 10:10:18 Yes. In 2007 or 2008, at the 21 10:10:18 beginning of the financial crisis, I was or had 10:10:20 22 23 requested as things were starting to hit the 10:10:24 24 downturn to move into and then was, ultimately, 10:10:27 selected to move into a role in Special Assets 25 10:10:30

That was all sorts of aspects of 6 10:10:45 real estate. And, in that role, we were 10:10:49 7 responsible for the underwriting, recommendations 10:10:52 8 and approvals for distressed real estate loans 10:10:55 that were held on the balance sheet by Bank of 10:10:58 10 America at that time. 11 10:11:01 12 Q. And when you say, "distressed real 10:11:02 estate loans," were you dealing with commercial 10:11:04 13 real estate still or were you also dealing with 10:11:07 14 residential real estate? 10:11:09 15 16 Both. 10:11:09 17 Okay. And I think that that 10:11:10 18 encompasses everything, because you mentioned 10:11:15 Special Assets was part of CRE risk management; 10:11:17 19 is that right? 10:11:20 20 21 A. Yes, sir. The Special Assets Group 10:11:20 falls under a credit function due to the nature 10:11:22 22 23 of what is going on with those assets. It's not 10:11:24 24 a function where you're out continually trying to 10:11:27

Yes, sir. 16 And what was that called? 10:12:01 17 It was at one point, I believe, 10:12:02 18 called the Private Bank and then after the 10:12:04 acquisition of U.S. Bank -- not U.S. Bank. It 10:12:08 19 20 may have been. It was -- they changed the name 10:12:13 21 to one of the private high net worth lenders that 10:12:17 22 they acquired and changed that group name through 10:12:20 23 the merger. 12	this case?	10:12:53
13	A. Yeah, in my experience, in working	10:12:54

About how often while you were 10:13:41 8 9 at Bank of America did you do work with the 10:13:44 Private Bank there? 10:13:48 10 11 I wouldn't say it was on an everyday 10:13:49 12 basis. But I would say, you know, it was a 10:13:52 regular basis, several times a year. In my 10:13:54 13 special assets role, because there was a lot of 10:13:58 14 crossover of relationships that were being 10:14:00 15 16 managed, I spent some time there and we also 10:14:02 17 directly managed some of the private wealth real 10:14:06 18 estate loans workout. 2	A. Yes. During the downturn in 2009,	10:14:27
3	2010, as I think one can imagine and knows, that	10:14:29
4	there were defaulted loans. There was, you know,	10:14:33
5	loan values. Because it was all hands-on deck	10:14:36
6	and we had the expertise of commercial real	10:14:39

8	loans that were downgraded to a level where they	10:14:43
9	needed to be special mention and needed the	10:14:46
10	guidance of Special Assets, a lot of times we	10:14:50
11	would take those loans and directly manage that.	10:14:52
12	Even though the exposure was originated in	10:14:55
13	private wealth versus being originated in the	10:14:58
14	commercial real estate bank, we would still be	10:15:01

18	directly managing assets or loans that had been	10:15:11
19	originated in the private bank?	10:15:15
20	A. Once again, it wasn't every day. But	10:15:17
21	it was it was regular occurrence, because	10:15:20
22	of you know, I would say, you know, 5 to	10:15:22
23	10 percent of what we did was probably coming	10:15:25

12	dealt with were qualified for inclusion in	10:16:04
13	Private Wealth Management, we were encouraged to	10:16:09
14	submit referrals. We were rewarded, although not	10:16:11
15	directly but, you know, as far as on performance,	10:16:15
16	because it's all about what's driving revenue and	10:16:18
17	share of wallet. The more that you're able to	10:16:21
18	ascertain from a client, the better you are to	10:16:25
19	equipped to when they have the top notch	10:16:27
20	financing or need something, you want to be the	10:16:30
21	top of the relationship.	10:16:33
22	So we were instilled and trained to	10:16:34
23	cross-sell, to really try to bring in a holistic	10:16:37
24	relationship with the lenders. And a lot of that	10:16:42
25	was done with private wealth because of the	10:16:44

		Page 43
1	CONFIDENTIAL - ROBERT E. UNELL	
2	natural synergies of having a closely held	10:16:46
3	business with an individual that qualified.	10:16:49
4	Q. And I'm sorry.	10:16:52
5	When you say, "cross-sell," can you	10:16:53
6	just explain what that means?	10:16:54
7	A. Yeah. So "cross-selling" is taking,	10:16:55
8	you know, beyond just offering somebody a debt	10:16:57
9	product. You know, a lot of folks thinks that	10:16:59
10	banks only make money when lending. That's	10:17:03
11	actually you know, while it is one of the	10:17:05
12	largest things, but there are other ways the	10:17:08
13	banks make money, such as on the investment	10:17:10
14	income, investment advisory. Banks have	10:17:12
15	insurance companies now. There is deposits,	10:17:14
16	which there was also a large push on, because	10:17:18
17	banks do make monies on deposits. Obviously, if	10:17:20
18	there's lower cost of lending, which is you	10:17:23
19	know they don't pay very much out in interest,	10:17:25
20	but like charging it. So, if you're able to get	10:17:28
21	your net interest margin down and create those	10:17:31
22	spreads, that is accretive to the bank.	10:17:33
23	So anything that could come in that	10:17:35
24	would provide whether it be fee primarily	10:17:36
25	fee revenue at that point, because the debt	10:17:40

	Pa	age 44

2	revenue was coming in through the commercial real	10:17:43
3	estate bank would try to be driven. So	10:17:45
4	derivatives, anything that we felt a client	10:17:47
5	qualified for, we were encouraged to refer to the	10:17:49
6	appropriate groups.	10:17:53
7	Q. Okay. During your bank sorry.	10:17:53
8	Scratch that.	10:17:58
9	During your time at Bank of America,	10:17:59
10	you were involved in underwriting loans; is that	10:18:01
11	correct?	10:18:03
12	A. Yes, sir.	10:18:04
13	Q. And do you have experience	10:18:04
14	underwriting both recourse and nonrecourse loans?	10:18:06
15	A. Yes, primarily recourse, but I do	10:18:09
16	have experience in both.	10:18:12
17	Q. Okay. But who how many nonrecourse	10:18:14
18	loans did you help to underwrite during your time	10:18:16
19	at Bank of America?	10:18:19
20	A. Including during special asset time	10:18:20
21	where those were underwritten, probably 50 to 75,	10:18:22
22	maybe a hundred.	10:18:26
23	Q. And when you talk about the "special	10:18:27
24	asset," was that underwriting the restructuring	10:18:29
25	of loans?	10:18:31

	Pa	age 45
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. It could be underwriting new debt.	10:18:32
3	It could be underwriting restructuring. It could	10:18:34
4	be underwriting litigation risk. It could have	10:18:38
5	involved a partnership dispute. It you know,	10:18:41
6	a change of ownership, which is typically, a	10:18:44
7	lot of that happened.	10:18:47
8	You know, special assets wasn't just	10:18:48
9	calls there is always a need for Special	10:18:51
10	Assets Group. There's always going to be	10:18:54
11	partnership disputes. There's always going to be	10:18:55
12	Brad properties out there. And there's always	10:18:58
13	going to be, you know, things that come up.	10:18:59
14	So, you know, it wasn't a lot of	10:19:00
15	times it would be a partnership dispute where we	10:19:02
16	would have to make a decision as is do we want to	10:19:04
17	underwrite a new credit to perhaps prevent this	10:19:05
18	litigation over here from happening. So it was	10:19:08
19	all encompassing.	10:19:11
20	Q. So, I guess, just thinking about new	10:19:12
21	debt, about how many times while you were at Bank	10:19:14
22	of America did you underwrite a nonrecourse loan	10:19:18
23	related to new debt?	10:19:22
24	A. Probably 10 to 15.	10:19:23
25	Q. Okay. And about how many recourse	10:19:25

3	thinking	10:19:32
4	A. Hundreds.	10:19:32
5	Q just new debt?	10:19:33
6	A. Hundreds upon hundreds.	10:19:34
7	Q. And how would you describe the	10:19:35
8	difference between a recourse loan and a	10:19:37
9	nonrecourse loan?	10:19:38
10	A. One has recourse back to a guarantor	10:19:40
11	whether it be an individual or a corporate	10:19:44
12	guarantor. And the other does not have anything	10:19:46
13	back, typically, with the exception of what would	10:19:50
14	we would consider to be a Bad Boy Guaranty or	10:19:53
15	recourse or in commercial real estate completion	10:19:56
16	guaranties.	10:20:01
17	Q. And do you have any experience	10:20:05
18	originating, underwriting or managing unsecured	10:20:08
19	loans?	10:20:11
20	A. Yes, I've done several of them in the	10:20:12
21	commercial real estate world but not as much	10:20:14
22	experience as I have in the recourse.	10:20:16
23	Q. Can you describe the experience you	10:20:19
24	have with those "several" loans in the commercial	10:20:23
25	real estate world?	10:20:26

2	this building for \$2 million. I know you don't	10:21:20
3	have time to underwrite it, you know, and then	10:21:23
4	they would take out, you know, unsecured.	10:21:26
5	But unsecured also there is more	10:21:29
6	to it than just not having the security. There's	10:21:32
7	you know, what the sponsor's background is.	10:21:33
8	You, typically, have a very good handle on where	10:21:35
9	their investments are and their liquidity. And	10:21:39
10	it's a relationship gain more than it is a	10:21:40
11	long-term play or not something you would lead	10:21:43
12	with a new client.	10:21:46
13	Q. So, I think, you just mentioned that	10:21:51
14	you did not work on unsecured loans with new	10:21:54
15	clients.	10:21:56
16	Given that you weren't underwriting	10:21:56
17	the collateral in these instances, what kind of	10:22:00
18	underwriting did you do?	10:22:02
19	A. You would look at the guarantor,	10:22:05
20	their liquidity. You'd look at where their	10:22:07
21	liabilities are. You would look at where their	10:22:10
22	cash flow was. And you would really be trying to	10:22:12
23	look to see what the ability is to service the	10:22:15
24	loan.	10:22:17
25	You would also one of the main	10:22:18

	Pa	age 49
1	CONFIDENTIAL - ROBERT E. UNELL	
2	things would be looking at what the source of	10:22:20
3	repayment is. So is it the sale of a business	10:22:21
4	that's going to come through? Are you going to	10:22:24
5	sell a home? Perhaps you went and bought a new	10:22:26
6	home and you needed to funds to close on the	10:22:30
7	new home while you waited for your prior home to	10:22:33
8	sell.	10:22:36
9	So you would write it up as to what	10:22:36
10	the source of repayment is. Even though it's not	10:22:39
11	secured, because you felt comfortable with this	10:22:41
12	person and their character and their history, you	10:22:43
13	would tie that back, even though you really, as	10:22:46
14	the term would say, no recourse back to that.	10:22:49
15	But you would that's what it would be tied to	10:22:51
16	and the basis for making that credit decision.	10:22:55
17	Q. Got it.	10:22:57
18	Did you ever review a guarantor's	10:22:58
19	Statement of Financial Condition during the work	10:23:02
20	that you just described?	10:23:03
21	A. Yes, sir.	10:23:04
22	Q. About how often?	10:23:05
23	A. Pretty much on every single loan that	10:23:08
24	we originated.	10:23:10
25	Q. And when you say, "every single	10:23:11

	Pa	age 50
1	CONFIDENTIAL - ROBERT E. UNELL	
2	loan," about how many times was that?	10:23:13
3	A. Hundreds, if not thousands.	10:23:15
4	Q. Sorry. I guess and I'm just	10:23:17
5	thinking, also, about the work you did on	10:23:19
6	unsecured loans.	10:23:23
7	Did you ever review a guarantor's	10:23:24
8	Statement of Financial Condition in that context?	10:23:26
9	A. Yes, sir.	10:23:28
10	Q. Okay. And about how many times do	10:23:28
11	you think?	10:23:30
12	A. That is five. As many as I did.	10:23:30
13	That was a standard procedure of looking at	10:23:33
14	whether you have recourse, whether you don't have	10:23:36
15	recourse, whether you're secured or not secured,	10:23:38
16	you know, one of the primary things that you do	10:23:41
17	in credit and underwriting is you look at the	10:23:43
18	underlying support for that asset. Because at	10:23:47
19	the end of the day, that is one of the most	10:23:49
20	that's the only thing that you have for an	10:23:52
21	unsecured asset. You don't have the collateral,	10:23:54
22	which would be the primary source of repayment in	10:23:57
23	real estate.	10:23:59
24	So you have to have a comfortable	10:23:59
25	familiarity first and understand the inner	10:24:01

	Р	age 51
1	CONFIDENTIAL - ROBERT E. UNELL	
2	workings of that borrower.	10:24:05
3	Q. And, again, I don't want to put words	10:24:07
4	in your mouth. I thought I heard you say the	10:24:09
5	number five.	10:24:12
6	Was it about are you thinking	10:24:13
7	around, roughly, five times that you had worked	10:24:15
8	on	10:24:17
9	A. Five to ten or so over the years,	10:24:17
10	yes.	10:24:18
11	Q. Okay. So it was about five to ten	10:24:19
12	times that you worked on underwriting an	10:24:21
13	unsecured loan during your time at Bank of	10:24:24
14	America?	10:24:26
15	A. Yes, sir.	10:24:26
16	Q. And, I believe, you also said that	10:24:27
17	those loans were generally in the range of	10:24:29
18	several million. And, I think, you also used the	10:24:32
19	number 2 million as a possibly as a	10:24:35
20	hypothetical?	10:24:36
21	A. That was a hypothetical example, yes,	10:24:37
22	sir.	10:24:39
23	Q. Do you recall whether all of these	10:24:39
24	loans were under \$5 million?	10:24:40
25	A. I do not.	10:24:42

Page 52 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. Okay. Do you believe sitting here 10:24:44 3 today that these loans were in the under 10:24:45 \$5 million range? 10:24:47 5 A. Probably the majority of them but not 10:24:48 all. 10:24:50 6 Q. Okay. Do you remember what the 10:24:51 7 largest loan in that group was? 10:24:52 8 A. Probably in the 15 to \$20 million 9 10:24:54 range. But without recalling exactly, that's --10:24:57 10 that would be my recollection. 10:25:02 11 12 Q. Okay. So going back to your report. 10:25:03 In Paragraph 12 you wrote that you have, quote, 10:25:11 13 "worked with federal bank regulators on loan 10:25:13 14 portfolio process audits." 10:25:16 15 16 Can you just explain what that work 10:25:18 17 10:25:19 was? 18 A. Yes. So, when I was at Bank of 10:25:20 America, I was involved with several OCC 10:25:25 19 20 examinations, which included, you know, kind of 10:25:26 21 the loan process, the approval authorities. 10:25:28 I also in -- when I was at Alvarez & 10:25:31 22 23 Marsal -- assisted, ironically, Bank of America 10:25:35 24 in a very large underwriting process with the 10:25:38 OCC. I assisted in writing and then also working 10:25:43 25

And when you're looking at a bank's 10:26:13 files in connection with a regulator's 10:26:15 13 examination, can you describe what that work 10:26:19 14 entails? 10:26:20 15 16 Well, it depends on the actual scope 10:26:23 17 of the examination. So the OCC's examinations 10:26:26 18 are fairly targeted. You know, they would come 10:26:27 in, for example, at Bank of America and they 10:26:29 19 would be focused on, for instance, collateral 10:26:31 20 21 underwriting. They would be focused on the risk 10:26:35 10:26:38 22 rating process. They would take a selection of 23 credits. They would review them. And at that 10:26:40 24 time, part of the internal review process -- we 10:26:43 would mimic what they do, which is start at the 25 10:26:45

2	beginning, read the story "the story" being	10:26:48
3	the credit memo and then look at the support	10:26:50
4	for that story, which is the statements that were	10:26:53
5	provided, and then, ultimately, spread. We would	10:26:55
6	look at the collateral underwriting.	10:26:58
7	You know, collateral underwriting is	10:27:00
8	very key, but it's also you know, it's done on	10:27:03
9	paper. So it's not it's easy for a regulator	10:27:06
10	or somebody to come in afterwards and say	10:27:08
11	something about versus living it and seeing	10:27:11
12	it, as you would as a banker.	10:27:12
13	So, to the best of your knowledge,	10:27:15
14	you try to re-create that file and that history	10:27:16
15	to make sure that all appropriate steps were made	10:27:18
16	to ensure the safety and soundness of a loan.	10:27:20
17	And, ultimately, at the end of the	10:27:22
18	day, you know, OCC calls their examinations	10:27:24
19	safety and soundness and that's really what it	10:27:27
20	is, is looking at the policies and the processes	10:27:29
21	and procedures to mitigate and minimize risk.	10:27:32
22	Q. You, also, wrote in your report that	10:27:36
23	you have, quote, "Worked with Fannie Mae and	10:27:38
24	servicers in various roles including reviewing	10:27:41

2	underwriting."	10:27:46
3	Can you explain that work in some	10:27:47
4	greater detail.	10:27:49
5	A. Yes, sir. We have been engaged on	10:27:51
6	two or three occasions I'm not sure if the	10:27:53
7	third is active or not by law firms	10:27:55
8	representing Fannie Mae in instances where they	10:27:58
9	perceive there could be loan fraud.	10:28:00
10	Typically, from a Fannie Mae being	10:28:03
11	that it is multi-family, it involves the	10:28:04
12	production of false financial statements given to	10:28:08
13	appraisers in order to inflate the value of that	10:28:12
14	loan.	10:28:14
15	We've seen folks go as far as to put	10:28:15
16	furniture inside and shoes outside on a doormat	10:28:18
17	so that when the appraiser comes through and	10:28:22
18	they're looking for occupancy, they try to do it.	10:28:23
19	So it is, essentially, trying to inflate the	10:28:25
20	value by producing financial statements.	10:28:28
21	What we do is we seek to go back and	10:28:31
22	perform more of a lease audit. And we will even	10:28:35
23	go as far as for doing that as trying to	10:28:37
24	determine whether the individuals are real, that	10:28:40
25	the leases are real and then go back through and	10:28:42

2	recreate the financial statements as they would	10:28:44
3	be.	10:28:47
4	Most of the time for these Fannie Mae	10:28:47
5	things, they were cash out refis where the money	10:28:50
6	was long gone. And then once we were able to	10:28:53
7	provide our findings to the appropriate client	10:28:57
8	to the Fannie Mae, they would take it from there	10:29:00
9	and either, you know, seek civil or potentially	10:29:03
10	even criminal charges against those individuals.	10:29:06
11	Q. So, when you're talking about	10:29:08
12	"potential fraud," you're largely dealing with	10:29:10
13	like appraisal fraud; is that correct?	10:29:12
14	A. Yes. So what it is you know,	10:29:13
15	appraisal fraud, as well as just loan fraud.	10:29:15
16	They you know, there would be one set of	10:29:18
17	financials that would be utilized for one thing	10:29:21
18	and then you know, in a typical appraisal	10:29:24
19	process, when an appraiser is working with and	10:29:25
20	working to value an asset, they request financial	10:29:30

22	generally prepared and provided by and	10:29:36

However, it's -- you know, at the 10:30:03 7 end of the day, somebody is left holding the bag 10:30:05 8 and that, typically, is the lender after the 10:30:08 nonrecourse borrower has walked away with 10:30:11 10 11 significant amounts of money during the 10:30:15 12 refinance. 10:30:17 Q. Okay. So, in your CV, you also --10:30:18 13 strike that. 10:30:26 14 In Paragraph 13 of your report, you 10:30:26 15 16 state that your "CV includes a list of the other 10:30:29 cases in which I have testified as an expert at 17 10:30:32 18 trial or by deposition," unquote. 10:30:34 19 A. Uh-huh. 10:30:37 20 Q. And this refers to the prior 10:30:38 21 testimony and depositions listed on Page 46 of 10:30:39 your expert report; is that correct? 10:30:42 22 23 A. Yes, sir. 10:30:44 24 Okay. So I'd like to show you one of 10:30:44 10:30:48 25 those reports.

14	July 1st, 2022 that you worked on as an Ankura	10:31:14

16	A. Yes, sir.	10:31:18
17	Q. Can you just briefly summarize the	10:31:19
18	expertise you applied and the opinions you	10:31:21
19	offered in this litigation?	10:31:23
20	A. I would have to go back through to	10:31:24
21	give the exact specifics being that it was quite	10:31:26
22	some time ago. But it was a dispute between a	10:31:30
23	borrower and a private lender where a default was	10:31:33
24	called. I gave an opinion for the I believe	10:31:40
25	it was the counter-defendants here, because it	10:31:44

INDEX NO. 452564/2022

Page 59 1 CONFIDENTIAL - ROBERT E. UNELL kind of gets a little bit tricky. Because, yeah, 10:31:46 I believe one of them sued and then there was a 3 10:31:48 counter thing. 10:31:50 5 Ultimately, I gave the opinion that 10:31:51 the lender in this case acted improperly by 6 10:31:53 causing delays that were avoidable, which 10:31:59 7 ultimately during the COVID side of things led to 10:32:04 8 this project not being funded by them. 10:32:07 In essence, it was -- COVID hit and 10:32:09 10 11 while the market fundamentals may have changed, 10:32:14 12 there was a commitment out there and there were 10:32:16 conditions precedent that, in my opinion, were 10:32:20 13 met. However, Trez Capital lender's did not 10:32:22 14 believe so and called it default upon Noronton 10:32:28 15 Heights and sought foreclosure and then there, I 10:32:32 17 believe, there was a cross-claim back. 10:32:35 18 So it was -- my testimony was related 10:32:37 to the actions of Trez Capital primarily as it 10:32:39 19 led up to the conditions precedent. 10:32:43 20 21 Q. Okay. Do you know what the outcome 10:32:45 in that case was? 10:32:50 22 23 A. Last I heard that, I believe, Trez 10:32:51 24 had prevailed on some, but I'm not certain of all 10:32:54 of it. But I have not seen a final disposition. 25 10:32:57

2	I got a note from Counsel and I'll	10:32:59
3	be honest. Kind of you get through these things,	10:33:03
4	you move on and whatnot. And I'm not aware of	10:33:08
5	any appeal. But kind of being, you know,	10:33:09
6	impartial move on, I still feel very strongly	10:33:12
7	about the opinions in the case despite the	10:33:15
8	outcome.	10:33:17
9	Q. And, sorry, which was your client in	10:33:17
10	the case, was it	10:33:20
11	A. Noronton Heights.	10:33:21
12	Q. Okay. Do you know whether the Court	10:33:24
13	agreed with your opinions in that matter?	10:33:25
14	A. I do not. My my testimony was	10:33:27
15	less than ten minutes.	10:33:31
16	And, quite honestly, I don't believe	10:33:33
17	that my testimony based off of what I knew about	10:33:36
18	the case was probably, you know I wouldn't say	10:33:40
19	it wasn't relevant. But it wasn't the crux of	10:33:44
20	the case, if you will, you know, there were some	10:33:46
21	other factors involving discussions between	10:33:49
22	borrowers, lenders, verbal assurances and other	10:33:52
23	items that I wasn't privy to that, you know, they	10:33:55
24	spent a lot more time on than my ten minutes of	10:33:58

2	Q. Fair enough.	10:34:02
3	So I just want to look at Paragraph 5	10:34:03
4	of the report.	10:34:05
5	A. Yup.	10:34:06
6	Q. Where you disclose your billing rate	10:34:11
7	in that matter.	10:34:13
8	A. Yeah.	10:34:14
9	Q. And you wrote, quote, "For the	10:34:14
10	services I have rendered in this matter, Ankura	10:34:18
11	is compensated at an hourly rate of \$525 for my	10:34:20

13	And you then go on to state, quote "I	10:34:26
14	have been supported by other members of Ankura	10:34:29
15	staff working at my direction and under my	10:34:31
16	direction supervision at billing rates that range	10:34:33
17	195 to \$465 per hour."	10:34:36
18	And this was filed about a year ago	10:34:38
19	in July of 2022; is that correct?	10:34:41
20	A. Yes, sir.	10:34:44
21	Q. Do you and I believe you testified	10:34:45
22	earlier that you think you're not certain of	10:34:47
23	your exact billing rate in the current	10:34:49
24	engagement, but you believe that it is in the	10:34:52
25	range of 700 to \$800 per hour; is that right?	10:34:53

	Pa	age 62
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. Yes, sir.	10:34:56
3	Q. Do you know why Ankura is billing at	10:34:56
4	a higher rate of, approximately, 175 to \$275 per	10:35:00
5	hour more in the current matter than it did a	10:35:08
6	year ago in that litigation?	10:35:12
7	A. Yes, this litigation and, to the best	10:35:13
8	of my knowledge, obviously, not being involved in	10:35:15
9	the direct negotiation of this matter's this	10:35:16
10	was brought in and resourced from another group	10:35:20
11	outside of area that has a lower billing rate	10:35:23
12	schedule. And in order to accommodate the client	10:35:28
13	with the work they were already done, we adopted	10:35:30
14	that rate scale, which would have been through	10:35:33
15	our construction team.	10:35:36
16	Being that this was a construction	10:35:38
17	project, they initiated it. And, as I said, I	10:35:39
18	believe, their rate cards are, typically, lower.	10:35:42
19	We honored that for the client.	10:35:45
20	Q. Do you know whether the rates that	10:35:49
21	Ankura is billing for your time in the current	10:35:51
22	matter are the same rates that they are billing	10:35:54
23	for your time in other engagements that you're	10:35:56
24	working on right now?	10:35:58
25	A. I believe for the most part they are.	10:35:59

2	Q. Are you doing any other expert	10:36:01
3	engagements currently?	10:36:02
4	A. Yes, I am.	10:36:03
5	Q. And I guess to the extent that it's	10:36:05
6	not privileged, I'll let your Counsel intervene	10:36:08
7	if needed.	10:36:11
8	Can you just generally tell me what	10:36:12
9	the other expert work that you're doing right	10:36:14
10	now?	10:36:16
11	MR. ROBERT: Generally is fine.	10:36:16
12	A. I am working on behalf of a lender in	10:36:17
13	another lender dispute with a borrower, as it	10:36:23
14	relates to a multi-family project in Las Vegas.	10:36:25
15	And that is the only other current matter that I	10:36:29
16	have out there as this matter ended, you know.	10:36:31
17	Q. And that other matter the parties	10:36:34
18	in that other matter are completely unrelated to	10:36:36
19	the parties in the current matter; is that	10:36:39
20	correct?	10:36:41
21	A. Yes, sir.	10:36:41
22	And I forgot. There is one other	10:36:42
23	one, but I have we have been engaged. But due	10:36:43
24	to various continuances and, you know, quite	10:36:46
25	frankly, our time on this matter was kind of a	10:36:50

	Pa	age 64
1	CONFIDENTIAL - ROBERT E. UNELL	
2	good thing, it is a dispute partnership	10:36:53
3	dispute amongst two brothers with a large real	10:36:56
4	estate holdings. But that has I have done	10:36:59
5	maybe two or three hours outside of reading the	10:37:03
6	complaint on that, because it continues to	10:37:05
7	but, yes, that is the other one I have going.	10:37:08
8	Q. And do you know what your billing	10:37:10
9	rate as listed in the engagement letters for	10:37:14
10	those other two engagements is?	10:37:16
11	A. I believe and, you know, would,	10:37:19
12	obviously, reserve the right to once I have to	10:37:23
13	take a look at it.	10:37:25
14	I believe the Las Vegas matter is 675	10:37:25
15	or 750. I believe it may have started at 675 and	10:37:28
16	has been up to 750 as after the new year. And	10:37:32
17	I believe in the partnership dispute matter, that	10:37:36
18	it is in that range as well but cannot give	10:37:43
19	anything, specifically.	10:37:45
20	Q. Okay. And do you know if the Trump	10:37:46
21	Organization is paying any premium above Ankura's	10:37:50
22	standard rates for the work that you're doing in	10:37:53
23	the current engagement?	10:37:55
24	A. Absolutely not. As a matter of fact,	10:37:56
25	based off of the last rate card I saw, it	10:37:59

	Р	age 65

3	from when this was done, just by looking at it	10:38:03
4	and knowing what the rate card currently says.	10:38:05
5	Q. Okay. So turning back to your expert	10:38:07
6	report and the list of prior testimony. You	10:38:13
7	state there that you testified in a case called	10:38:16
8	Bank of America versus GREC Homes IX, spelled	10:38:19
9	I-X, on January 23rd, 2014; is that correct?	10:38:28
10	A. Yes, sir.	10:38:31
11	Q. And you also state that you testified	10:38:31
12	in a case captioned Bank of America versus	10:38:33
13	Midtown Acquisitions LP on November 12th, 2012;	10:38:36
14	is that correct?	10:38:41
15	A. Yes, sir.	10:38:42
16	Q. Did you testify in both of those	10:38:43
17	cases while you were still working for Bank of	10:38:44
18	America?	10:38:47
19	A. Yes, sir.	10:38:47
20	Q. So were you testifying as an expert	10:38:48
21	witness in those cases or as a fact witness based	10:38:51
22	strike that.	10:38:54
23	Were you testifying as an expert	10:38:54

2	A. Primarily as a 30(b)(6). However, I	10:39:00
3	was granted, I believe, opinions based because	10:39:03
4	some of the actions that were in question in	10:39:06
5	those transactions happened before they were	10:39:11
6	transferred under my purview. So when it comes	10:39:12
7	to policies, procedures and general banking, I	10:39:15
8	was able to opine on that.	10:39:18
9	Q. Okay. So were you qualified as an	10:39:20
10	expert or as a 30(b)(6) witness?	10:39:22
11	A. I'm not certain as to the exact	10:39:24
12	designation.	10:39:27
13	Q. But, I guess, you mentioned them in	10:39:29
14	your report as cases where you had testified as	10:39:33
15	an expert at trial or by deposition.	10:39:35
16	I guess sitting here today, do you	10:39:38
17	believe that that statement is accurate?	10:39:39
18	A. I believe that I was an expert on	10:39:41
19	that knowledge. However, you know, you can	10:39:43
20	semantics and say 30(b)(6) whatnot. It was a	10:39:45

22	estate and why I was presented as a witness on	10:39:52
23	behalf of Bank of America.	10:39:54

2	strike your testimony as an expert?	10:40:04
3	A. There was not, not to my knowledge.	10:40:05
4	Q. Have you ever been subject to a	10:40:08
5	motion to strike your testimony as an expert?	10:40:10
6	A. No, sir.	10:40:12
7	Q. And, just to be clear, I'm asking has	10:40:15
8	anybody ever filed a motion to strike your	10:40:18

10	A. No, sir.	10:40:21
11	Q. Okay.	10:40:22
12	A. Hold on. I, actually, want to take	10:40:24
13	that back.	10:40:26
14	They may have in that the Noroton	10:40:27
15	case, but I don't think it I think	10:40:34
16	actually, I know they did. As a matter I	10:40:38
17	apologize.	10:40:40
18	They did and it was one word denied	10:40:40
19	in the motion. One of my colleagues,	10:40:45
20	unfortunately, was excluded, but I was not, I	10:40:47
21	guess.	10:40:50
22	Q. Okay. Do you know why your	10:40:51
23	colleague's testimony was excluded?	10:40:52
24	A. Out of scope.	10:40:54
25	Q. So turning back to your work with the	10:40:57

3	that earlier.	10:41:02
4	Did you ever work for the Trump	10:41:02

12	work as an expert in this litigation, correct?	10:41:24
13	A. Yes, sir.	10:41:27
14	Q. Around when did you begin doing work	10:41:27
15	on that Doral engagement?	10:41:29
16	A. Late last year I would say.	10:41:32
17	Q. So by "late last year," you think	10:41:35
18	A. Fourth quarter, fourth quarter.	10:41:37
19	Q. Fourth quarter of 2022?	10:41:38
20	A. Yes, sir.	10:41:40
21	Q. And are you billing at the same rate	10:41:48
22	for the work that you're doing on the Doral	10:41:50

24	A. My understanding is that that is a	10:41:52
25	fixed fee engagement; however, I believe, the	10:41:54

11	A. I do not. I'm not the I'm not a	10:43:38
12	licensed appraiser and I'm not the signatory on	10:43:41
13	that. Our colleagues that are licensed in	10:43:43
14	Florida are the ones that are handling that.	10:43:45
15	Q. Are you aware of any deadline by	10:43:51
16	which point that strike that.	10:43:53
17	Are you aware of any deadline by	10:43:54
18	which point that appraisal must be finalized?	10:43:58
19	A. I am not.	10:44:00
20	Q. Did you participate in a site visit	10:44:03
21	of the Doral Resort in December 2022?	10:44:05
22	A. Yes, sir.	10:44:07
23	Q. And can you just tell me what that	10:44:10
24	site visit entailed?	10:44:12
25	A. That site visit entailed a complete	10:44:13

2	tour of the assets, golf courses, convention	10:44:15	
3	facilities, amenities, restaurants, back of the	10:44:20	
4	house, front of the house. It was what I would	10:44:23	
5	consider to be a fairly comprehensive site tour.	10:44:27	
6	And we also reviewed and walked comps in the near	10:44:30	
7	by area. But, yeah, it was a fairly	10:44:35	
8	comprehensive five/six-hour tour of the property.	10:44:37	
9	Q. Okay. And the purpose of that tour	10:44:43	
10	was to inform Ankura's work on the appraisal; is	10:44:44	
11	that correct?	10:44:48	
12	A. Yes, sir.	10:44:49	
13	Q. And is it fair to characterize that	10:44:49	
14	appraisal as coming up with both an accurate	10:44:53	
15	current as is valuation of the Doral Resort, as	10:44:57	
16	well as, I believe, what's called a hypothetical	10:45:00	
17	valuation of what the resort would be worth if a	10:45:04	
18	certain development project was performed on	10:45:09

21	MR. ROBERT: Objection to form.	10:45:17	
22	A. To the best of my knowledge, yes,	10:45:17	
23	that is I think there's probably a little bit	10:45:19	
24	more technical end of the scope. But, in a	10:45:23

And maybe just to also shorten 10:45:31 that last question a bit. 10:45:34 5 Setting aside the hypothetical piece 10:45:35 of the engagement, is it fair to say that part of 6 10:45:38 what Ankura is doing is trying to come up with an 10:45:41 7 accurate current valuation of Doral as is? 10:45:44 8 9 A. Yes, sir. 10:45:47 So I want to introduce a document as 10:45:51 10 Exhibit 4. 11 10:45:54 12 (Deposition Exhibit Unell 4, e-mail 10:45:54 string TrumpNYAG 0121258 and two attachments both 10:45:54 13 Bate Stamped TrumpNYAG 0121259 marked 10:45:54 14 Confidential, was marked for identification.) 10:45:57 15 16 A. I'll keep these in line here; one, 10:45:57 17 two... 10:46:00 18 MR. ROBERT: Thank you. 10:46:12 And, Mr. Unell, I'll just represent 10:46:26 19 20 to you that the document I handed you includes a 10:46:28 21 cover e-mail. 10:46:32 Uh-huh. 10:46:33 22 Α. 23 There is a lot of attachments that 10:46:33 24 you'll see listed in that e-mail. 10:46:35 25 Α. Yup. 10:46:37

2	Q. We have not printed out the reams of	10:46:37
3	paper that would be required.	10:46:40
4	A. I'm familiar with the source	10:46:41
5	document, just so you know, to know how much it	10:46:44
6	would be, yes.	10:46:46
7	Q. Great.	10:46:47
8	So we did print out a couple of	10:46:47
9	sheets from the first Excel spreadsheet listed	10:46:49
10	there.	10:46:52
11	A. Yes, sir.	10:46:52
12	Q. And, as we're going through this, if	10:46:52
13	you need additional information, just let me know	10:46:56
14	and we can take care of that during a break.	10:46:58
15	A. Yeah.	10:47:00
16	Q. So looking at the e-mail and I	10:47:01
17	should also say for the record, the e-mail has a	10:47:03
18	Bates Number of Trump sorry, I need my reading	10:47:05

20	And if you look at the top of the	10:47:20

22	Robert Strachota at Shenehon to Adam Rosen at the	10:47:28
23	Trump Organization dated November 28th, 2022.	10:47:33
24	And Mr. Strachota writes, quote,	10:47:39
25	"Adam, we have just downloaded actual financial	10:47:40

6	So, to give some context, are you	10:47:56
7	familiar with the company Shenehon?	10:47:58
8	A. Yes, sir.	10:48:00
9	Q. And who are they?	10:48:00
10	A. Shenehon is a real estate consulting	10:48:02
11	evaluation business.	10:48:04
12	Q. And who is Bob Strachota? Do you	10:48:08
13	know who is he?	10:48:12
14	A. Bob, I believe, is the head	10:48:12
15	principal, but he is a principal over there, who,	10:48:14
16	I believe, was engaged as a consultant by the	10:48:16
17	Trump Organization.	10:48:19
18	Q. And when you refers to a, quote,	10:48:22
19	"estimate of the conservation easement," do you	10:48:25
20	understand that to refer to the project we were	10:48:28
21	talking about earlier at Ankura?	10:48:30
22	A. Yes, sir.	10:48:32
23	Q. And he mentions it as being a mid	10:48:35
24	December estimate.	10:48:36
25	But is it fair to say that that	10:48:37

Page 75 1 CONFIDENTIAL - ROBERT E. UNELL deadline was not met? 2 10:48:39 10:48:41 3 A. Yes, sir. So, when he said that he is sending 10:48:44 5 quote, "actual financial information to Rob Unell 10:48:46 for their independent analysis," what do you 6 10:48:50 understand him to mean there? 10:48:53 7 That the information that was 10:48:54 8 9 requested by our appraisal team was sent to me, 10:48:56 which would, typically, be -- I believe, they had 10:49:00 10 11 requested three years worth of financial 10:49:02 12 information, et cetera, what they would need to 10:49:05 begin to perform their evaluation analysis. 10:49:06 13 10:49:10 14 Q. Got it. 10:49:10 15 And, again, when he says, quote, "actual financial information," does that mean 16 10:49:13 that the financial information included in the 17 10:49:16 18 attached documents is actual numbers from the 10:49:19 actual real life operations of the Doral Resort. 10:49:23 19 20 I'm not certain, since I did not, you 10:49:26 21 know, dive into the analysis or review these 10:49:28 documents in detail. That's not what's part of 22 10:49:30 23 my responsibility on this assignment. 10:49:33 24 Q. Well, so I guess not asking you to 10:49:34 25 verify that the numbers are correct or not 10:49:36

	P	age 76
1	CONFIDENTIAL - ROBERT E. UNELL	
2	correct.	10:49:38
3	A. Yeah.	10:49:39
4	Q. But would it be your understanding	10:49:39
5	that the data being provided by Shenehon to	10:49:40
6	Ankura is based on actual financial information	10:49:45
7	from the operations of the Doral Resort?	10:49:48
8	A. Well, when you were going through and	10:49:51
9	requesting or saying "you."	10:49:53
10	When an appraiser is going through	10:49:53
11	and requesting information, not only do they	10:49:55
12	request actual but they request forecasts. So it	10:49:57
13	would be a combination thereof.	10:50:00
14	From what I can tell by looking at	10:50:02
15	the third sheet	10:50:04
16	Q. Yeah.	10:50:06
17	A that it would have included the	10:50:06
18	actual, as well as the management projections,	10:50:07
19	which are detailed on here.	10:50:12
20	But I'm not certain with this being	10:50:13
21	where it's at, in that I didn't review it	10:50:15
22	exactly, you know, where it was. But, to the	10:50:18
23	best of what I can tell here, that it was actuals	10:50:21
24	and then management projections moving forward.	10:50:25
25	Q. Okay. And, just for the record, when	10:50:26

INDEX NO. 452564/2022

1	CONFIDENTIAL - ROBERT E. UNELL	
2	you refer to the "third sheet," you are talking	10:50:28
3	about the page that has at the top, "pro forma	10:50:31
4	income statement Trump National Doral Miami," and	10:50:36
5	at the bottom it has the Bates No.	10:50:39
6	TrumpNYAG_0121259	10:50:43
7	A. Yes, sir.	10:50:46
8	Q is that correct?	10:50:47
9	A. I was actually going to give the	10:50:47
10	Bates Number. I didn't see it. I looked on the	10:50:49
11	bottom right and didn't see it. So thank you.	10:50:52
12	Q. And, again, I'll represent to you	10:50:54
13	when you say oh, actually, yeah. So you have	10:50:56
14	the third page on one sheet.	10:50:58
15	A. Yes.	10:51:00
16	Q. And so, again, your interpretation of	10:51:00
17	this document is that the columns on the	10:51:02
18	left-hand side labeled December '15 up to	10:51:07
19	July 22nd sorry, July '22, those numbers would	10:51:11
20	be actual revenue and expenses data from Doral	10:51:16
21	and then moving further to the right in the	10:51:20
22	columns labeled "December '23," "December '24,"	10:51:24
23	all the way out, I believe, to "December '32,"	10:51:27
24	those would be projected estimates based on past	10:51:31
25	performance?	10:51:35

Page 78 1 CONFIDENTIAL - ROBERT E. UNELL 2 A. Yes, based on what I see here today, 10:51:35 10:51:37 3 that would be my opinion as to what this represents. 10:51:39 5 Q. Okay. And then how would the 10:51:39 appraisal team at Ankura use this information? 10:51:41 6 7 A. I'm not an appraiser and not able to 10:51:43 opine on that. I'm not licensed. Nor would I 10:51:46 8 feel comfortable. That's out of my expertise. 10:51:49 10 Q. Okay. But is it your understanding 10:51:51 that they would use this information as part of 11 10:51:53 12 their process of appraising the value of Doral? 10:51:57 I believe it is a component of many 13 10:52:02 factors that would go into a valuation. 10:52:05 14 Q. Okay. Do you know whether the 10:52:08 15 16 appraisal team on your project at -- sorry, 10:52:14 10:52:18 17 strike that. 18 Do you know whether the appraisal 10:52:18 staff that you work with on the Doral project 10:52:21 19 20 have reached a valuation for Doral? 10:52:23 21 I believe if they haven't, that they 10:52:27 are close. I knew that there were some 10:52:30 22 23 iterations that went back and forth. There were 10:52:32 also some changes in design for the hypothetical 24 10:52:36 project, which had an impact on value, as it 25 10:52:38

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 79 1 CONFIDENTIAL - ROBERT E. UNELL directly impacted, I believe, it was either room 10:52:41 3 size or amenities or something. So it is, I 10:52:44 believe, in process. But I believe that they are 10:52:49 5 very close to having a draft opinion. 10:52:51 6 Okay. You mentioned changes to the 10:52:56 10:52:57 7 hypothetical project. Are you aware of any similar changes 10:52:59 8 to the as is valuation? 10:53:01 I am not certain. 10:53:03 10 11 Okay. So, to the best of your 10:53:05 12 knowledge, do you know whether the data that 10:53:08 Shenehon shared with Ankura back in 2022 would 10:53:16 13 have been the basis along with other information 10:53:20 14 for the as is valuation that your colleagues are 10:53:23 15 in the process of finalizing now? 10:53:27 I don't know that I would call it 17 10:53:29 18 "the basis." From what my limited knowledge of 10:53:31 reviewing financials and appraisal is, I would 10:53:35 19 say that it is a consideration that goes in. 10:53:37 20 21 as somebody that has reviewed appraisals would 10:53:39 22 say is that, you know, the assumptions I'm sure 10:53:41 23 were reviewed but not taken at face value without 10:53:45 24 having independent support for it. 10:53:48 So that's kind of saying I'm sure it 25 10:53:50

2	was a factor in there, but to what how much of	10:53:52
3	a factor or what else went into it or what	10:53:56
4	adjustments were made, I can't I'm not, you	10:53:59
5	know, not involved in that process.	10:54:03
6	Q. Okay. But it's fair to say that	10:54:04
7	those financials were a factor; is that correct?	10:54:07
8	A. Yes, sir.	10:54:10
9	Q. And, to the best of your knowledge	10:54:10
10	well, actually, strike that.	10:54:12
11	Do you know whether Shenehon ever	10:54:14
12	shared any updated financial information about	10:54:16
13	Doral with you and Ankura?	10:54:19
14	A. I think that they did, especially	10:54:21
15	since this process, you know, as you said, this	10:54:23
16	was November and as, you know, trailing 12 months	10:54:26
17	and other financials became available, especially	10:54:30
18	due to the nature of seasonality of hospitality,	10:54:33
19	I would be fairly certain that they were but	10:54:37
20	can't recall with specificity specificity that	10:54:39
21	it was.	10:54:42
22	Q. Got it.	10:54:43
23	So the past numbers on this	10:54:44
24	spreadsheet wouldn't have changed, but it's	10:54:45
25	possible that as time has gone on, since it's	10:54:47

2	been a few months, you may have gotten an updated	10:54:50

4	A. Yes.	10:54:56
5	Q is that correct?	10:54:56
6	A. I believe that's possible.	10:54:58
7	Q. So why don't we introduce sorry.	10:55:06

4	document is, quote, "Ankura Appraisal-draft-Trump	10:56:21
5	National Doral Resort (V. 10 2023)."	10:56:27
6	Are you familiar with this document,	10:56:39
7	Mr. Unell?	10:56:39
8	A. I've seen it. I have read through at	10:56:43
9	various times and in various forms, but not	10:56:45
10	certain that I know "V. 10." I'm, actually, that	10:56:47
11	I was going to ask what version. But I'm not	10:56:50
12	certain that I've seen this exact version.	10:56:52
13	Q. Okay. But is it correct that this	10:56:54
14	draft appraisal report is related to the project	10:56:58
15	that we've been talking about?	10:57:00
16	A. Yes, sir, it appears to be.	10:57:01
17	Q. Okay. And recognizing that this is a	10:57:03
18	draft, I'd like you to turn to the valuation	10:57:06
19	summary on Page 8 and it's the page ending in a	10:57:08
20	Bates No. 18447.	10:57:14
21	A. Uh-huh.	10:57:15
22	Q. And you'll see here a chart with a	10:57:18
23	valuation summary for an as is value, as well as	10:57:27
24	a hypothetical value; is that correct?	10:57:30
25	A. Yes, sir, I see that.	10:57:32

		Page 83
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. So I know you that you testified a	10:57:33
3	moment ago that the hypothetical value has	10:57:36
4	certainly been changing.	10:57:38
5	Do you know whether the as is	10:57:40
6	valuation as of December 31st, 2022 accurately	10:57:42
7	reflects Ankura's understanding of the appraised	10:57:49
8	value of the Doral Resort as is?	10:57:53
9	A. I do not know with certainty.	10:57:55
10	Q. Do you know whether this as is	10:57:57
11	valuation reflected accurately Ankura's	10:58:00
12	understanding of the value of Doral at the time	10:58:04
13	that this draft report was created?	10:58:06
14	A. I am not was not involved in the	10:58:08
15	preparation of it. So I cannot opine on that.	10:58:11
16	Q. Okay. And, as you'll see, this	10:58:13
17	document suggests an as is let me strike that.	10:58:19
18	This document states a reconciled	10:58:23
19	value of, approximately, \$327 million for Ankura	10:58:27
20	as is as of December 31st, 2022.	10:58:33
21	Do you agree that I'm reading that	10:58:37
22	correctly.	10:58:39
23	A. Yeah, based on what's on Page 8, yes,	10:58:40
24	sir.	10:58:42
25	Q. Okay. Do you have an opinion as to	10:58:42

		Page 84
1	CONFIDENTIAL - ROBERT E. UNELL	
2	whether that number reflects Doral's current	10:58:45
3	value as of that date?	10:58:49
4	A. I'm not an appraiser and not	10:58:51
5	authorized or licensed to opine on values,	10:58:54
6	especially in a matter that we're working on,	10:58:57
7	because that's not my expertise. Nor am I	10:59:01
8	qualified to do so.	10:59:05
9	Q. Okay. Are you offering any opinions	10:59:09
10	of value for any of the properties that are	10:59:10
11	subject of this litigation	10:59:13
12	A. No, sir.	10:59:15
13	Q in this litigation?	10:59:16
14	A. No, sir.	10:59:17
15	Q. Are you aware of whether the Trump	10:59:21
16	Organization has been soliciting offers to	10:59:26
17	purchase the Doral Resort?	10:59:29
18	A. Not recently, no, sir.	10:59:31
19	Q. "Not recently," meaning, you're not	10:59:33
20	recently aware or they have not recently been	10:59:36
21	soliciting offers?	10:59:40
22	A. I believe well, kind of both. I'm	10:59:41
23	definitely can say not recently that I'm aware	10:59:43
24	of. But if they had, it would not be something	10:59:47
25	that I was aware of. And prior to our	10:59:50

2	involvement, I do not have any history to be able	10:59:52
3	to say one way or the other.	10:59:55
4	Q. Do you have any reason to believe	11:00:02
5	that the stated reconciled value of,	11:00:02
6	approximately, \$327 million for the Doral Resort	11:00:06
7	as of December 31st, 2022 is not an accurate	11:00:09
8	representation of the value of Doral at that	11:00:12
9	time?	11:00:16
10	MR. ROBERT: Objection to form.	11:00:16
11	A. Being that this is a draft report,	11:00:17
12	you know, I would like to say that I can rely on	11:00:20
13	my colleagues. However, being that this is a	11:00:22
14	draft and not final that's not signed, I'm not	11:00:24
15	able to give an opinion one way or the other.	11:00:27
16	You know, if it was final, then and I had read	11:00:30
17	through it, I would probably be better suited to	11:00:33
18	give an opinion as a non-appraiser.	11:00:35
19	Q. Did the information that you learned	11:00:40
20	about Doral through your work on this easement	11:00:44
21	appraisal engagement impact your opinions in this	11:00:49
22	expert engagement in any way?	11:00:53
23	A. No.	11:00:54
24	Q. Did any of the information that you	11:00:57
25	learned about Doral through your work on this	11:00:59

	Pa	age 86

2	project, the appraisal project, impact your	11:01:01
3	opinions in your expert opinion reports in any	11:01:05
4	way?	11:01:10
5	A. No, sir.	11:01:10
6	Q. There is one other thing that I just	11:01:11
7	wanted to look at in the appraisal on Page 15 and	11:01:13
8	that's the document page ending in 18454.	11:01:19
9	So, if you look at the top of the	11:01:30
10	page, the second full paragraph that's part of a	11:01:32
11	section entitled, "Introduction, Identification	11:01:35
12	of the Subject Property."	11:01:37
13	A. Uh-huh.	11:01:38
14	Q. It mentions that, quote, "The subject	11:01:40
15	hotel is a nonunion property that opened in 1962	11:01:48
16	later sold in June 2012 and acquired by Trump	11:01:51
17	Endeavor 12 Manager Corp., a subsidiary of the	11:01:57
18	Donald J. Trump Revokable Trust."	11:01:59
19	That information is also consistent	11:02:02
20	with your understanding of Doral; is that fair?	11:02:04
21	A. Yes, sir.	11:02:07
22	Q. And it also mentions that, quote,	11:02:07
23	"The last completed renovation was in 2016	11:02:10
24	consisting of an extensive multimillion dollar	11:02:14
25	renovation. The renovation included an update	11:02:18

2	and replacement of all soft and case goods, in	11:02:19
3	addition to renovations of all public areas at a	11:02:23
4	total estimated cost of \$229 million or \$356,143	11:02:26
5	per room."	11:02:33
6	Do you know whether those facts are	11:02:34
7	accurate?	11:02:37
8	A. I do not.	11:02:37
9	Q. Okay. And did those facts influence	11:02:38
10	your work on this expert engagement in any way?	11:02:40
11	A. No, sir.	11:02:43
12	MR. LADOV: Sorry. Let me ask one	11:02:57
13	other set of questions and then it might be a	11:02:59
14	good time for a break.	11:03:00
15	MR. ROBERT: Sure.	11:03:00
16	Q. Are you aware of the fact that Ankura	11:03:02
17	received a subpoena dated April 6th, 2023 for	11:03:04
18	documents and testimony as part of the current	11:03:07
19	litigation?	11:03:09
20	A. Yes, sir.	11:03:09
21	Q. When did you become aware of that	11:03:11
22	subpoena?	11:03:12
23	A. Probably shortly thereafter where I	11:03:13
24	received a typical litigation hold from our	11:03:15
25	Counsel, in-house Counsel.	11:03:18

Page 88 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. Okay. So did you -- sorry, strike 11:03:19 that. 11:03:23 3 How did you respond to that 11:03:23 11:03:25 5 litigation hold? Acknowledged, as we typically do. 6 11:03:25 7 And since then, you've been retaining 11:03:30 documents as a consequence of that litigation 11:03:32 8 11:03:34 hold; is that correct? 10 Yes, sir. Yes, sir. 11:03:35 Q. Did you participate in Ankura's 11 11:03:36 12 response to the subpoena to Ankura in any way? 11:03:39 13 A. No, sir. 11:03:43 Did you gather or produce documents 14 11:03:45 in response to that subpoena? 11:03:49 15 16 A. I do not believe directly I did. 11:03:51 However, I believe that, you know, from the 17 11:03:53 18 technology side that they may have gone through 11:03:56 and done e-mails or whatnot. But I mean, 11:04:00 19 20 obviously, we consent to that and then, 11:04:02 21 obviously, any files or share folders, I believe, 11:04:04 were checked but that was not -- not directly. 11:04:07 22 23 Q. Do you know why Ankura did not 11:04:11 identify you as a document custodian for Ankura's 24 11:04:13 25 response to this subpoena? 11:04:17

INDEX NO. 452564/2022 RECEIVED NYSCEF: 08/30/2023

Page 89 1 CONFIDENTIAL - ROBERT E. UNELL I do not. 2 11:04:20 11:04:20 3 Do you know who at Ankura was responsible for coordinating Ankura's response to 11:04:23 the OAG subpoena? 5 11:04:27 A. My only communication I had as a 6 11:04:29 result of that was with in-house Counsel. And I 11:04:31 7 can't even think off the top of my head what his 11:04:34 8 name was, because it was somebody on the 11:04:36 litigation side that I don't deal with on a 11:04:38 10 day-to-day basis. I can't think of his name. 11 11:04:41 12 Q. Okay. And do you recall whether you 11:04:44 had already been engaged as an expert witness in 11:04:46 13 this litigation at the time that Ankura received 14 11:04:49 this subpoena? 11:04:52 15 16 I think so, but not a hundred percent 11:04:53 11:04:57 17 accurate on the dates. 18 Q. Okay. 11:05:01 19 MR. LADOV: I think why don't we take 11:05:02 20 11:05:04 a break. 11:05:04 21 MR. ROBERT: Sure. THE VIDEOGRAPHER: The time is 11:05:05 22 23 11:04 a.m. We are off the record. 11:05:07 24 (Recess taken 11:04 to 11:21 a.m.) 11:21:13 25 THE VIDEOGRAPHER: The time is 11:21 11:21:13

2	apple we're back on the record.	11:21:15
3	You may proceed.	11:21:17
4	Q. So, I guess, to start with, I believe	11:21:19
5	your Counsel mentioned during the break that	11:21:21
6	there was one	11:21:23
7	MR. ROBERT: I think you needed to	11:21:24
8	correct something.	11:21:26
9	A. Yes, two clarifications.	11:21:26
10	As far as meeting I did have	11:21:29
11	breakfast with Counsel this morning, but there	11:21:31
12	was nothing to discuss. It was more so we could	11:21:32
13	ride over together to make sure I didn't get	11:21:34
14	lost.	11:21:37
15	And another document that I did	11:21:37
16	request and was provided was Mr. McCarty's rough	11:21:39
17	deposition transcript.	11:21:43
18	MR. ROBERT: Thank you.	11:21:45
19	A. So I wanted to clarify that as far	11:21:45
20	things that I did review but was, obviously, was	11:21:47
21	not included in the report at the time.	11:21:49
22	Apologies for that.	11:21:51
23	Q. No worries.	11:21:52
24	And, actually, maybe one other	11:21:53
25	clarification that I will ask.	11:21:54

2	I believe, if I remember correctly,	11:21:56
3	you testified that you had not reviewed any of	11:21:58
4	the other expert reports in this matter; is that	11:22:01
5	correct?	11:22:04
6	A. Yes, sir.	11:22:04
7	Q. I do believe that an expert report of	11:22:04
8	Mr. Chin was cited in one of your reports	11:22:08
9	A. Yes.	11:22:10
10	Q is that correct?	11:22:11
11	A. Yes, it was cited that I was,	11:22:13
12	obviously, told what his scope was but did not	11:22:14
13	review the findings. I believe it's a reference	11:22:17
14	that my understanding was that he was opining	11:22:20
15	on something that was involved and that was in	11:22:22
16	the rebuttal report.	11:22:26
17	Q. Got it.	11:22:28
18	A. Thank you.	11:22:29
19	Q. And, actually, I was going to ask	11:22:30
20	you, generally, about the documents cited in your	11:22:32
21	report.	11:22:34
22	So looking at your report in Appendix	11:22:35
23	B, there is a list of documents cited in your	11:22:38
24	report.	11:22:40
25	A. Yes, sir.	11:22:41

RECEIVED NYSCEF: 08/30/2023

INDEX NO. 452564/2022

Page 92 1 CONFIDENTIAL - ROBERT E. UNELL Q. As well as additional documents 2 11:22:41 11:22:43 3 considered. Is it correct that this appendix and 11:22:45 5 the similar appendix in your rebuttal report 11:22:47 identify all of the materials that you relied 11:22:50 upon in preparing both of those reports? 11:22:53 7 A. Yes, sir. 11:22:55 8 Were there any other documents that 9 11:22:56 you reviewed as part of your assignment but 11:22:59 10 decided not to rely? 11:23:01 11 12 A. Yes, sir. 11:23:03 13 And what were those? 11:23:04 Offhand, I believe, it was the --14 11:23:05 maybe the interview of Nicholas Hague. I'm not 11:23:09 15 certain if we cite it. I can look if we did do 16 11:23:13 17 Mr. Hague's deposition. I did look at that. 11:23:17 18 Yeah, I have that on here as 11:23:22 additional documents considered, but that would 11:23:24 19 20 be it. 11:23:25 Okay. And why did you decide not to 21 11:23:25 rely on the interview with Mr. Hague? 11:23:27 22 23 A. We had the deposition and I felt that 11:23:29 24 underwrote -- based on the timing of it and being 11:23:33 more recent would be the more operative document 25 11:23:35

		Page 93
1	CONFIDENTIAL - ROBERT E. UNELL	
2	to review and rely on.	11:23:38
3	Q. One other clarification I wanted to	11:23:46
4	ask you.	11:23:49
5	Earlier we talked about your	11:23:49
6	experience underwriting both recourse and	11:23:51
7	nonrecourse loans.	11:23:53
8	Do you recall that?	11:23:55
9	A. Yes, sir.	11:23:55
10	Q. So, just to make sure the record is	11:23:56
11	clear, how would you define recourse and	11:23:58
12	nonrecourse in that context?	11:24:00
13	A. "Recourse" would be a loan that would	11:24:01
14	ever a guaranty whether it be from a personal or	11:24:04
15	a corporate guaranty.	11:24:08
16	Q. And how would you define	11:24:12
17	"nonrecourse"?	11:24:14
18	A. "Nonrecourse" would not have a	11:24:14
19	guarantor for it, that it would be based only on	11:24:17
20	the assets that are held as collateral for the	11:24:20
21	bank.	11:24:22
22	Q. Okay. And I know that you had	11:24:23
23	mentioned working on loans with Bad Boy	11:24:26
24	Guaranties.	11:24:29
25	Can you just explain, really briefly,	11:24:30

	Pa	age 94
1	CONFIDENTIAL - ROBERT E. UNELL	
2	what a Bad Boy Guaranty "is?	11:24:31
3	A. Yeah, a "Bad Boy Guaranty" is a	11:24:33
4	guaranty that is triggered upon on one more or	11:24:35
5	acts that are defined in the loan documents.	11:24:39
6	Typically, they are acts of fraud, negligence and	11:24:40
7	willful misconduct.	11:24:44
8	Q. Okay. So, when you testified that	11:24:45
9	you primarily had experience underwriting	11:24:48
10	recourse loans, was that testimony correct?	11:24:52
11	A. Yes, sir.	11:24:56
12	Q. And when you refer to "recourse	11:24:57
13	loan," are you including loans with Bad Boy	11:24:59
14	Guaranties as part of that category?	11:25:01
15	A. No, sir.	11:25:04
16	Q. Okay. So how would you define the	11:25:05
17	recourse loans that you worked on?	11:25:07
18	A. Recourse loans would have full or	11:25:08
19	partial guaranty, typically, of an individual.	11:25:10
20	Sometimes with larger corporate structures, there	11:25:12
21	would be a what would be referred to as a	11:25:16
22	guarantor entity, typically, an entity that is	11:25:19
23	set up for high net worth individual that would	11:25:21
24	have a finite amount of assets in it, typically,	11:25:24
25	liquid assets and little to know liabilities. It	11:25:29

	Pa	age 95
1	CONFIDENTIAL - ROBERT E. UNELL	
2	would provide comfort to the lender but also at	11:25:32
3	the same time would limit the liability to a	11:25:35
4	particular guarantor, because it would be	11:25:41
5	well-known on the face as to what those assets	11:25:43
6	would be. And there would be, typically, minimum	11:25:45
7	covenants for just as there would be for	11:25:49
8	personal guaranty for liquidity and net worth.	11:25:52
9	Q. Okay. Sorry. Just to make sure I	11:25:55
10	understand, I guess, you're describing a guaranty	11:26:07
11	where strike that.	11:26:10
12	Is it correct to say that what you're	11:26:15
13	describing is a guaranty where other assets owned	11:26:17
14	by the same individual or corporate entity would	11:26:20
15	cross-collateralize the loan that you were	11:26:24
16	underwriting?	11:26:26
17	A. No.	11:26:27
18	Q. Okay.	11:26:28
19	A. Because cross-collateralization would	11:26:28
20	insinuate that the bank had a perfected interest	11:26:30
21	in that collateral. It would be an entity that	11:26:33
22	is established for the sole purpose of providing	11:26:36
23	a guaranty to one or more financial lenders as	11:26:40
24	opposed to providing a personal guaranty.	11:26:45
25	Q. Got it.	11:26:47

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 96 1 CONFIDENTIAL - ROBERT E. UNELL 2 So it's a personal guaranty, but I 11:26:47 3 think you were saying that in certain instances 11:26:50 the personal guaranty would be limited to certain 11:26:52 5 identified assets rather than anything that the 11:26:55 6 guarantor might --11:26:58 Typically, limited to an LLC at 11:26:59 7 A. Yes. an established level, et cetera, and then there 11:27:02 8 would, obviously, be covenants in place for 11:27:05 contingent liabilities. So you couldn't have --11:27:08 10 11 you know, one entity that had \$10 million out 11:27:10 12 there that was, essentially, guarantying hundreds 11:27:13 of millions of dollars of debt. At that point, 11:27:16 13 you know -- then that guaranty is marginalized 11:27:19 14 because it spread so thin. 11:27:21 15 16 (Stenographer clarification.) 11:27:25 17 THE WITNESS: Spread so thin. 11:27:30 18 Q. So let's turn through your report and 11:27:30 I want to go through some of the substance of 11:27:31 19 your opinions in there. 11:27:34 20 21 So looking at your expert report 11:27:41 22 dated May 26, 2023, it opens with a section 11:27:43 23 called -- after the "Executive Summary" and 11:27:47 24 "Statement of Opinion," there is a section called 11:27:50 25 "Conclusion" on Page 1; is that correct? 11:27:52

INDEX NO. 452564/2022

	F	Page 97
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. Yes, sir.	11:27:54
3	Q. Is it fair to say that these	11:27:54
4	Paragraphs 3 through 9 in your "Conclusion"	11:27:56
5	summarize the opinions expressed in your opinion	11:27:59
6	as a whole?	11:28:01
7	A. Yes, sir.	11:28:02
8	Q. Okay. So could you read Paragraph 3	11:28:03
9	into the record for me?	11:28:08
10	A. Yes, sir. "The allegations in the	11:28:10
11	complaint regarding the submission of allegedly	11:28:12
12	inflated, false and/or inaccurate financial	11:28:15
13	information to certain specified banks and other	11:28:19
14	sophisticated counterparties are factually	11:28:21
15	unsupported. Defendants at all times complied	11:28:24
16	with industry accepted standards, lender credit	11:28:26
17	policies, the operative loan documents and	11:28:30
18	guidance provided by the Office of the	11:28:32
19	Comptroller of Currency."	11:28:35
20	Q. So, when you state that the	11:28:40
21	allegation the in the complaint are, quote,	11:28:42
22	"factually unsupported," does that mean that it	11:28:44
23	is your opinion that the information submitted by	11:28:47
24	Defendants to certain banks and other parties in	11:28:51
25	their statements of financial condition was not,	11:28:54

3	MR. ROBERT: Objection to form.	11:29:01
4	A. Yes.	11:29:01
5	Q. Okay. And what's the basis for that	11:29:02
6	opinion?	11:29:04
7	A. My experience, my training and my	11:29:07
8	review of Statement of Financial Conditions.	11:29:09
9	Q. And so is it fair to say that your	11:29:14
10	opinion is that the financial information	11:29:15

13	that as "SOFC" for time's sake so we're not here	11:29:24

15	So striking that question.	11:29:29
16	Is it your opinion that the financial	11:29:30
17	information in the SOFCs submitted to banks and	11:29:32
18	others was truthful and accurate?	11:29:34
19	A. Yes, sir.	11:29:36
20	Q. Okay. Did you review the SOFCs	11:29:37
21	submitted as attachments to the complaint?	11:29:45
22	A. Yes, sir.	11:29:47
23	Q. And is that opinion that you just	11:29:48
24	expressed based on an independent review of the	11:29:50
25	numbers in those SOFCs?	11:29:54

INDEX NO. 452564/2022

	Pa	age 99
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. No. It is based on my experience of	11:29:56
3	reviewing Statements of Financial Condition and	11:29:59
4	the policies not policies, the processes that	11:30:02
5	were undertook by the various lenders to	11:30:05
6	underwrite those Statements of Financial	11:30:09
7	Condition.	11:30:11
8	Q. So can you explain how your	11:30:14
9	understanding of policies and processes from the	11:30:17
10	lender's perspective inform your opinion that the	11:30:21
11	data provided in the SOFCs was truthful and	11:30:26
12	accurate?	11:30:30
13	A. Yes. So my review of the statements,	11:30:30
14	as well as the underwriting, which included the	11:30:32
15	credit memos along with the documentation	11:30:36
16	including liquidity verification, as well as the,	11:30:42
17	I guess, the analysis that was conducted by the	11:30:48
18	Commercial Real Estate Appraisal Group at	11:30:51
19	Deutsche Bank, there was nothing in there that	11:30:53
20	would lead me to believe that there was any	11:30:56
21	inaccuracies based off of what I reviewed, based	11:30:59
22	off of what I reviewed from Deutsche Bank, as	11:31:02
23	well as the testimony that I reviewed from the	11:31:04
24	Deutsche Bank individuals that were involved in	11:31:06
25	the underwriting.	11:31:09

INDEX NO. 452564/2022

2	Q. So, again, to be clear, is it fair to	11:31:11
3	say that your opinion is based on the fact that	11:31:17
4	you have reviewed Deutsche Bank's underwriting	11:31:22
5	materials and testimony and that based on the	11:31:24
6	information they had at the time these statements	11:31:28
7	were submitted to the bank, the bank accepted	11:31:30
8	those statements; is that the basis for your	11:31:33
9	opinion that the information in the SOFCs was	11:31:37
10	truthful and accurate?	11:31:40
11	A. That and I have no other reason to	11:31:41
12	believe that they are incorrect.	11:31:44
13	Q. And when you say, you have "no other	11:31:49
14	reason to believe that they were incorrect," what	11:31:51
15	inquiry did you conduct to determine whether they	11:31:53
16	may have been incorrect?	11:31:57
17	A. I went through and reviewed the	11:31:58
18	Statements of Financial Condition, the	11:31:59
19	assumptions that were included in those	11:32:01
20	Statements of Financial Condition, my overall	11:32:03
21	knowledge of generally accepted real estate	11:32:06
22	lending and made that conclusion.	11:32:11
23	Q. And when you say, "assumptions that	11:32:12
24	were included in those Statements of Financial	11:32:14
25	Condition," can you just explain what you mean by	11:32:17

	Pag	ge 101
1	CONFIDENTIAL - ROBERT E. UNELL	
2	that?	11:32:19
3	A. Yeah. This was unique in that this	11:32:19
4	Statement of Financial Condition or SOFC a lot	11:32:22
5	of times borrowers no matter what their worth is	11:32:25
6	will just list what they believe to be as a	11:32:28
7	balance sheet and income statement. Perhaps	11:32:31
8	there are schedules that they itemize.	11:32:34
9	However, in this instance, especially	11:32:36
10	for several of the larger assets, there was	11:32:38
11	actually the methodology that was used including	11:32:41
12	what cap rates were used, what net operating	11:32:42
13	income was used, et cetera, items that would have	11:32:45
14	been easily able to be verified by the lender in	11:32:47
15	their due course, if they thought that it was	11:32:50
16	needed to be done.	11:32:52
17	Q. Okay. Did you personally test the	11:32:53
18	methodology for any of the valuations included in	11:32:57
19	the SOFCs?	11:32:59
20	A. I am not a licensed appraiser. So,	11:33:00
21	therefore, I'm not equipped to opine on any sort	11:33:03
22	of, you know, testing of valuations outside of	11:33:07
23	what I would, typically, do from a lender	11:33:10

2	A from a lender perspective, which	11:33:12
3	is more of an eye test.	11:33:16
4	Q. And when you say, "eye test," what do	11:33:22
5	you mean by that?	11:33:24
6	A. You look at it, make sure that it	11:33:24
7	appears to be reasonable, in line with other	11:33:26
8	projects that you've seen, if you're ingratiated	11:33:29
9	in the market. Also, reaching out to	11:33:32
10	professionals, such as Deutsche Bank did on their	11:33:34
11	own internal team that are appraisers, to	11:33:37
12	validate to make sure that the numbers are	11:33:40
13	reasonable and true and correct.	11:33:43
14	Q. So is it fair to say that you are not	11:33:46
15	opining here today about whether the numbers in	11:33:49
16	the SOFC are accurate let me ask that	11:33:52
17	question.	11:33:56
18	Is it fair to say that you're not	11:33:56
19	opining here today about whether the numbers in	11:33:58
20	the SOFC are accurate?	11:34:00
21	A. My scope was not to value any of the	11:34:01
22	assets, as related to valuation.	11:34:04
23	Q. So, I guess, just to ask for a yes or	11:34:11
24	no question to the question I just asked	11:34:13
25	Is it fair to say that you are not	11:34:15

1	CONFIDENTIAL - ROBERT E. UNELL	
2	opining here today whether the numbers in the	11:34:17
3	SOFC are accurate?	11:34:19
4	A. Yes, sir, that's correct.	11:34:20
5	Q. And your opinion is fairly	11:34:26
6	characterized that having reviewed the record,	11:34:27
7	you believe that Deutsche Bank based on what they	11:34:30
8	knew at the time accepted and used the SOFCs in a	11:34:32
9	proper manner?	11:34:36
10	A. Yes, sir.	11:34:38
11	Q. In reaching your opinions, did you	11:34:43
12	conduct any independent review of the	11:34:45
13	underwriting worksheets that were used to support	11:34:47
14	the numbers listed in the SOFCs?	11:34:52
15	A. No, sir.	11:34:55
16	Q. And you're aware of what I am	11:34:56
17	referring to when I mention the "worksheets"?	11:34:58
18	A. Generally, yes, sir.	11:35:01
19	Q. Did you review those worksheets at	11:35:02
20	all?	11:35:03
21	A. No, sir.	11:35:04
22	Q. I believe that those worksheets were	11:35:06
23	listed as exhibits to the complaint. And, if I	11:35:10
24	remember correctly, I think, that you had said in	11:35:13
25	your report or possibly in a follow-up letter	11:35:16

2	with Counsel, that you had reviewed both the	11:35:18
3	complaint and the accompanying exhibits.	11:35:21
4	A. Yeah.	11:35:23
5	Q. So is it correct that when you	11:35:25
6	reviewed the exhibits to the complaint, you did	11:35:28
7	review the SOFCs, but you did not review the	11:35:30
8	worksheets that were used to generate the SOFCs?	11:35:32
9	A. I did but I did not rely on them. It	11:35:35
10	was a quick cursory review of that, since I	11:35:37
11	wasn't part of the scope.	11:35:40
12	Q. Okay. And did you have full access	11:35:42
13	to the record in this case?	11:35:44
14	A. Yes, sir.	11:35:45
15	Q. So, if you wanted to request any	11:35:46
16	document to determine whether the allegations in	11:35:48
17	the complaint were factually supported, could you	11:35:51
18	have done that?	11:35:53
19	A. Yes, sir.	11:35:53
20	Q. And do you feel that you have done	11:35:54
21	that to the extent needed to reach your opinions?	11:35:57
22	A. Yes, sir.	11:35:59
23	Q. Do you so, I guess, when you state	11:36:29
24	that you believe well, strike that.	11:36:34
25	Based on your review of the record,	11:36:38

	Page 105	
1	CONFIDENTIAL - ROBERT E. UNELL	
2	do you believe that Deutsche Bank had all of the	11:36:42
3	information that they needed to evaluate the	11:36:44
4	SOFCs?	11:36:46
5	A. Yes.	11:36:47
6	Q. Do you know whether Deutsche Bank had	11:36:48
7	access to the supporting worksheets that we just	11:36:50
8	discussed?	11:36:53
9	A. I'm not certain.	11:36:53
10	Q. Do you have any reason to believe	11:36:55
11	that they didn't have access to those worksheets?	11:36:57
12	A. I don't have reason to believe one	11:36:59
13	way or the other.	11:37:01
14	Q. Do you know based on your review of	11:37:06
15	the record whether Deutsche Bank actually	11:37:07
16	reviewed those worksheets during their	11:37:09
17	underwriting process?	11:37:11
18	A. I'm not certain if they did or did	11:37:12
19	not.	11:37:14
20	Q. And I believe	11:37:17
21	So you had mentioned that, quote,	11:37:35

3	needed to be done." (Reading from the rough	11:37:53	
4	transcript.)	11:37:54	
5	To the extent that Deutsche Bank had	11:37:54	
6	information about cap rates and other data that	11:37:59	
7	was used to get valuations for assets on the	11:38:03	
8	SOFCs, do you know where they got that	11:38:08	
9	information?	11:38:11	
10	A. I'm not certain I'm following the	11:38:12	
11	question there, sorry.	11:38:14	
12	Q. Sorry. It wasn't a very good	11:38:14	
13	question.	11:38:16	
14	Well, what is the basis for your	11:38:19	
15	understanding that Deutsche Bank had access to	11:38:21	
16	all the information they needed to evaluate the	11:38:22	
17	accuracy of the numbers in the SOFCs?	11:38:26	
18	A. Based on reviewing the actual SOFCs	11:38:29	
19	without the worksheets, they provide more	11:38:32	
20	information than what I would, typically, see in	11:38:36	
21	that, which would allow them to easily evaluate	11:38:39	
22	that. And if they did not have the information,	11:38:42	
23	then they would have been able to request	11:38:46	
24	additional support. And I have not seen anything	11:38:48	
25	to show that they felt uncomfortable and needed	11:38:51

3	Q. So I want to move forward and look at	11:39:17
4	Paragraph 35 in your report.	11:39:20
5	A. (The witness complies.)	11:39:23
6	Q. And would you mind reading that	11:39:30
7	paragraph into the record as well.	11:39:32
8	A. "The guarantor also complied with the	11:39:34
9	terms for submission of financial statements	11:39:36
10	required and the executed guaranty of Donald J.	11:39:39
11	Trump dated June 11, 2012, as outlined in	11:39:42
12	Section 11(i). Notably the Doral loan document	11:39:45
13	does not require the Statement of Financial	11:39:52
14	Condition to be GAAP compliant. This is	11:39:54
15	consistent with other transactions that I have	11:39:56
16	participated in, as a lender, as it relates to	11:39:58
17	personal financial statements. The submittal,	11:40:01
18	therefore, complied with the representations made	11:40:04
19	in the guaranty, specifically, that prior	11:40:06
20	financial statements are true and correct in all	11:40:09
21	material respects. The inclusion of material	11:40:11
22	respects is a common financial statement	11:40:14
23	representation and there were no material defects	11:40:17
24	in the SOFC that caused concern to Deutsche Bank	11:40:19
25	at the time of loan origination or while the loan	11:40:21

3	timely manner."	11:40:26
4	Q. Is it fair to say that this paragraph	11:40:28
5	provides support for your opinion that the	11:40:31
6	Defendants at all times complied with the	11:40:34
7	operative loan documents?	11:40:36
8	A. All of the operative loan documents,	11:40:54
9	yes.	11:40:56
10	Q. So I would like to dig into this	11:41:01
11	paragraph a little bit starting with your opinion	11:41:02
12	that, quote, "There were no material defects in	11:41:04
13	the SOFC that caused concern to Deutsche Bank at	11:41:08
14	the time of loan origination or while the loan	11:41:10
15	was outstanding." So I think we already talked	11:41:13
16	about this a little bit.	11:41:16
17	But what is your support for your	11:41:17
18	statement that Deutsche Bank had no concerns	11:41:19
19	about the SOFC, quote, "at the time of loan	11:41:20
20	origination"?	11:41:25
21	A. Based on my review of the credit	11:41:26
22	report and the approval memo, as well some of the	11:41:27
23	e-mails that went back and forth between the	11:41:32
24	approval team. They did not have any concerns	11:41:35
25	that I was able to see. They were able to verify	11:41:40

3	the normal course of business would be in	11:41:46
4	commercial real estate loan underwriting.	11:41:49
5	Q. And when you talk about e-mails,	11:41:55
6	could you just elaborate a little bit further	11:41:57
7	what e-mails you are referring to?	11:42:00
8	A. Yeah. There were e-mails various	11:42:01
9	e-mails that would have been attached to some of	11:42:03
10	the approvals and notes may that have been sent	11:42:05
11	that discussed throughout the approval process	11:42:07
12	when perhaps somebody was sending it for review	11:42:09
13	further up internally.	11:42:13
14	Q. And, again, this opinion is based on	11:42:17
15	what Deutsche Bank knew at the time of	11:42:18
16	origination, correct?	11:42:21
17	A. It also says, "and while the loan was	11:42:22
18	outstanding" as well.	11:42:24
19	Q. Okay. So what is your support for	11:42:26
20	your statement that Deutsche Bank had no concerns	11:42:27
21	about the SOFC while the loan was outstanding?	11:42:29
22	A. Throughout all of the review memos,	11:42:33
23	throughout the additional new credit memos that	11:42:35
24	were supported, there was never any indication in	11:42:38

Page 110 1 CONFIDENTIAL - ROBERT E. UNELL 11:42:43 2 part of the guaranty. Q. And is it fair to say that your 11:42:54 3 opinion is that Deutsche Bank had no concerns 11:42:56 5 based on the information that they knew at the 11:42:58 time both at origination and these follow-up 11:43:01 6 7 memos that you're describing? 11:43:04 MR. ROBERT: Objection to form. 11:43:05 8 Yes, and their own independent 9 11:43:06 analysis. 11:43:08 10 And you're aware that the complaint 11 11:43:10 12 alleges that the Defendants withheld certain 11:43:12 information from Deutsche Bank during those 13 11:43:15 processes; is that fair to say? 11:43:18 14 15 11:43:20 Α. Yes. Would your opinion change if those 16 11:43:21 17 allegations in the complaint are proven correct 11:43:23 18 at trial? 11:43:27 19 MR. ROBERT: Objection to form. 11:43:27 20 Can you please repeat that? I'm 11:43:28 21 sorry. 11:43:31 22 So, if the allegations in the 11:43:31 23 complaint are true, would that change your 11:43:32 24 opinion that -- well, strike that. 11:43:36 25 Would it be your opinion that if the 11:43:41

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 111 1 CONFIDENTIAL - ROBERT E. UNELL 2 allegations in the complaint are true, that 11:43:45 Deutsche Bank would have reason to have concerns 3 11:43:47 about the accuracy of the SOFCs? 11:43:49 5 MR. ROBERT: Objection to form. 11:43:52 6 No, cause Deutsche Bank had an 11:43:53 opportunity to conduct that as the user at that 11:43:55 7 They were the ones that reviewed for their 11:43:58 8 sake, for their balance sheet, for their 11:44:01 determination of risk. And, therefore, that I 11:44:03 10 don't believe it would change one bit, because, 11 11:44:06 12 you know, even if the net worth or any of the 11:44:09 other were -- allegations were, you know, proven 11:44:13 13 true, the net worth was still sufficient to 14 11:44:16 qualify for inclusion in the private wealth bank. 11:44:20 15 16 There was no loss, you know. There was no super 11:44:23 17 reliance on those Statements of Financial 11:44:27 18 Condition in it. 11:44:29 19 So, therefore, my opinion would 11:44:29 20 remain the same, because Deutsche Bank had ample 11:44:31 21 opportunity to investigate anything and do it and 11:44:35 it's commonly done, such as they did do with 22 11:44:38 23 liquidity. 11:44:41 24 Liquidity was important to them. 11:44:42 They went and verified it. That was material at 25 11:44:43

2	that time to the underwriting.	11:44:45
3	So, in my opinion, they exhausted all	11:44:49
4	of their tools that are, typically, done in	11:44:52
5	commercial real estate to validate that SOFC.	11:44:56
6	Q. So it is your opinion that even	11:45:02
7	Deutsche Bank was aware of the alleged facts	11:45:04
8	listed in the complaint about material defects in	11:45:09
9	the SOFCs, they would have no concerns; is that	11:45:11
10	correct?	11:45:14
11	MR. ROBERT: Objection to form.	11:45:14
12	A. I thing that they would have	11:45:17
13	questions. But SOFCs provide ample information,	11:45:19
14	in my opinion, for a sophisticated lender to be	11:45:21
15	able to make that their own determination.	11:45:24
16	Q. I guess, I'm not sure I understand	11:45:32
17	that last answer.	11:45:33
18	What is your distinction between they	11:45:34
19	would have questions and they would have	11:45:37
20	concerns?	11:45:39
21	A. Well, they may have questions. But	11:45:39
22	the SOFCs provide the actual amounts that are	11:45:42
23	and how they were calculated. If there were	11:45:48
24	concerns, then they had an opportunity to	11:45:50
25	challenge those assumptions that were utilized in	11:45:53

Page 113 1 CONFIDENTIAL - ROBERT E. UNELL the preparation of the SOFC. 11:45:56 2 3 Instead they did not do that. 11:45:59 However, they did go test liquidity, which is a 11:46:01 5 material aspect. I believe they also did take a 11:46:05 deep dive into the liabilities and contingent 11:46:08 liabilities, which was something that they spent 7 11:46:11 a lot of time on, which is an important factor 11:46:13 8 when evaluating an SOFC. 11:46:15 So my opinion is that Deutsche Bank 11:46:17 10 had ample material listed in the Statement of 11 11:46:21 12 Financial Condition to be able to make their own 11:46:25 informed decision, regardless of after the fact 11:46:27 13 if somebody that's not a user came in and decided 11:46:32 14 that even though there was no losses, that a --11:46:36 15 something didn't look right to them. That's --11:46:40 17 you're able as a lender to only do with what's 11:46:44 18 available to you at the time. 11:46:47 If every lender had to worry about 11:46:49 19 somebody -- a third party coming in and looking 11:46:51 20 21 over their shoulder and every borrower had to 11:46:53 worry about somebody coming in and looking at a 22 11:46:55 23 lender, it would chill the markets, because this 11:46:58 24 is how commercial real estate lending has, 11:47:01 25 typically, been done with the information that's 11:47:03

2	provided.	11:47:06
3	And it would provide if this is	11:47:06
4	the way that, you know, after the fact that	11:47:10
5	everything is done with a hindsight 20/20, it	11:47:12
6	would really have an impact on financial markets,	11:47:15
7	because nobody would want to do business with	11:47:18
8	knowing that a loan was paid in full. However,	11:47:20
9	all interest was paid on time. There was never a	11:47:24
10	default. Yet after the fact, there are claims	11:47:26
11	made against the borrower.	11:47:30
12	So I think that, you know, it really	11:47:32
13	goes to show that, you know, they had sufficient	11:47:34
14	information, Deutsche Bank did, in my opinion, as	11:47:36
15	a lender and my experience, to make that decision	11:47:39
16	themselves at the time. And that if they didn't	11:47:43
17	like the cap rate, if they didn't like the rental	11:47:46
18	assumptions, they didn't like th NOI, they had	11:47:50
19	the opportunity to test that just like they did	11:47:52
20	liquidity and the cash flow.	11:47:54
21	And that wouldn't have changed, that	11:47:56
22	he owned the asset or that whatever entity owned	11:47:58
23	the asset. That wouldn't change the Statement of	11:48:02
24	Financial Condition one bit.	11:48:04
25	Q. Okay. So, again, I guess, just to	11:48:07

Page 115 1 CONFIDENTIAL - ROBERT E. UNELL try to summarize what you just said. 11:48:10 2 3 A. Yes, sir. 11:48:11 It's fair to say that your opinion is 11:48:11 5 that based on what was available to them at the 11:48:13 6 time, that Deutsche Bank had ample material 11:48:16 listed in the Statement of Financial Condition to 11:48:18 7 be able to make their own informed decision, 11:48:20 8 9 correct? 11:48:24 MR. ROBERT: Objection to form. 10 11:48:25 11 Yes, sir. 11:48:26 12 Again, just to be clear, when you 11:48:30 say, "SOFC" you are just talking go about the 11:48:32 13 actual Statement of Financial Condition and not 14 11:48:34 11:48:35 15 the underlying work papers, correct? 16 A. That's correct. 11:48:38 17 It's not standard for underwriting 11:48:38 18 work papers to be provided in the normal course 11:48:40 of business for commercial real estate. 11:48:44 19 20 11:48:46 Okay. 21 MR. ROBERT: So we're clear, it's the 11:48:46 SOFCs that are attached as exhibits to the 11:48:48 22 23 complaint? 11:48:50 24 THE WITNESS: Yes, sir. 11:48:50 25 MR. ROBERT: Okay. 11:48:51

2	Q. And where in the SOFCs are the rental	11:48:55
3	assumptions, cap rates and NOIs that you just	11:48:59
4	mentioned provided?	11:49:01
5	A. I would have to actually see those	11:49:02
6	SOFC. But my recollection is that it there was	11:49:05
7	NOI, there were cap rates, there was other	11:49:08
8	assumptions in there that would lead an educated	11:49:11
9	underwriting commercial real estate lender to	11:49:14
10	have those assumptions.	11:49:18
11	It would also be that a lender, if	11:49:19
12	they did not have those, would ask if there were	11:49:21
13	concerns. And I have not seen anything that	11:49:24
14	would indicate that there were any concerns as to	11:49:27
15	what those assumptions or assets were.	11:49:30

14	A. Yes, it is.	11:50:40
15	Q. So can you point me, more	11:50:43
16	specifically, to where in the SOFCs you would	11:50:45
17	find the NOI, cap rates and rental assumptions	11:50:51
18	that you talked about a little bit ago?	11:50:55
19	A. I am not able to see it in here. But	11:50:58
20	perhaps it was maybe in those work papers that	11:51:00
21	there were.	11:51:02
22	But it does provide the enough	11:51:03
23	analysis to be able to know what the asset is	11:51:07
24	versus just having it listed. The size of it,	11:51:09
25	the square footage, the tenants, et cetera, that	11:51:13

2	would give a commercial real estate lender	11:51:16
3	comfort ing being able to come up with their own	11:51:19
4	analysis. And it's beyond what is, typically,	11:51:22
5	provided by clients and high net worth and	11:51:24
6	Statements of Financial Condition.	11:51:28
7	So I may have been incorrect in	11:51:29
8	stating that it was exactly in here. But it does	11:51:31
9	have enough assumptions including interest rate	11:51:34
10	swaps, escrowed amounts, et cetera, that would	11:51:36
11	give a lender comfort in knowing where the	11:51:40
12	contingent liabilities, if any, were.	11:51:42
13	And it's also important to know that	11:51:44
14	these were by and large un-levered assets, which,	11:51:46
15	you know, as a lender you're more concerned about	11:51:50
16	what their liabilities are and their contingent	11:51:54
17	liabilities are versus where their assets are and	11:51:56
18	what reoccurring cash flow is and what liquidity	11:51:59
19	is versus what somebody's opinion of a building	11:52:02
20	is, especially when it was clear that there	11:52:05
21	was you know, that Mr. Trump, President Trump	11:52:09
22	was clearly in the upper echelon of ultra high	11:52:13
23	net worth individuals that qualify for inclusion	11:52:18
24	in the private wealth. And inclusion in the	11:52:22
25	private wealth also would have given him those	11:52:24

2	benefits that come along with that, including	11:52:26
3	with preferential pricing. The value of these	11:52:28
4	assets would have had no impact on that	11:52:31
5	whatsoever.	11:52:32
6	Q. So I do want to give you a moment to	11:52:33
7	look through the document, if you need it.	11:52:35
8	A. Yeah.	11:52:37
9	Q. But, I believe, you said that you may	11:52:38
10	have been incorrect and that you wanted to kind	11:52:39
11	of rescind that earlier testimony that the	11:52:41
12	information was in this document. But I just	11:52:43
13	want to give you a moment to make sure that that	11:52:45
14	is accurate.	11:52:48
15	A. Yup.	11:52:48
16	So I will rescind the cap rate and	11:52:55
17	NOI information is in here.	11:52:57
18	However, I still believe in my	11:52:59
19	opinion that there's sufficient data in here for	11:53:01
20	all of the real properties for a lender or anyone	11:53:04
21	in that matter with commercial real estate	11:53:08
22	knowledge to be able to form their own opinions	11:53:10
23	as to the values of these assets.	11:53:13
24	Q. And so I think a couple of minutes	11:53:15
25	ago you testified that you thought that maybe you	11:53:17

	Pa	age 120
1	CONFIDENTIAL - ROBERT E. UNELL	
2	recalled seeing that data in work papers.	11:53:20
3	Can you just clarify what you meant	11:53:22
4	by that?	11:53:25
5	A. Yeah. I mean, I know I've seen it	11:53:25
6	somewhere. I couldn't tell you the exact.	11:53:27
7	Perhaps it was in those work papers and maybe I	11:53:29
8	did see them attached to those and perhaps	11:53:32
9	whatnot. But I do know that I have seen that	11:53:33
10	information out there. But, with the abundance	11:53:35
11	of documents, couldn't point to it exactly	11:53:38
12	directly, but I thought that it actually was in	11:53:40
13	here.	11:53:43
14	Q. Okay. And, again, just to be clear,	11:53:43
15	the work papers that you're describing were the	11:53:45
16	work papers that were attached to the SOFC in the	11:53:48
17	complaint; is that correct?	11:53:51
18	A. Yes, sir.	11:53:52
19	Q. Okay. But those were not documents	11:53:52
20	that Deutsche Bank had at the time that	11:53:54
21	A. I am not aware what they had or did	11:53:54
22	not have but outside of this document.	11:53:58
23	Q. Okay. So I want to go back to your	11:53:59

25	that.	11:54:17

2	reportedly obtained by that organization. The	11:56:36
3	factual allegations appear to directly relate to	11:56:39
4	the accuracy of certain Statements of Financial	11:56:41
5	Condition submitted to DBTCA in Donald J. Trump's	11:56:46

10	Financial Condition including but not limited to	11:56:59
11	the mansion at 7 Springs and the Trump National	11:57:00

13	And, then from there, the letter goes	11:57:08
14	on to detail certain allegations about miss	11:57:09
15	valuations of Seven Springs and the Trump	11:57:14

17	there's about two pages of questions relating to	11:57:21

19	A. Uh-huh.	11:57:25

2	facilities while these loans were still	11:57:39
3	outstanding?	11:57:42
4	MR. ROBERT: Objection to form.	11:57:42
5	A. I would actually say Deutsche Bank	11:57:43
6	raised concerns about the Office of the Attorney	11:57:45
7	General's investigation, not that there was	11:57:48
8	anything else and that they were obligated to	11:57:50
9	investigate. I don't think that this gives any	11:57:53
10	sort of Insight into what Deutsche Bank	11:57:57
11	because it clearly states that there were	11:57:59
12	allegations were made by others including public.	11:58:01
13	So I don't think that Deutsche Bank	11:58:04
14	necessarily I can't speak for them. Perhaps	11:58:05
15	that's something that they would be able to.	11:58:08
16	But from my perspective is that	11:58:10
17	Deutsche Bank had no choice but to ask, if you do	11:58:12
18	know something, then you have to investigate it.	11:58:14
19	But this by no means, in my	11:58:16
20	interpretation, state that Deutsche Bank had	11:58:18
21	concerns. They may have had a few questions as	11:58:21
22	to the allegations. But, ultimately, this loan	11:58:24
23	was is paid off. So there was no loss or no	11:58:28
24	damages.	11:58:32
25	Those concerns that Deutsche Bank may	11:58:32

2	have had as a result of the allegations in the	11:58:35

4	have been repayment, credit risk and there was	11:58:43
5	none.	11:58:46
6	Q. So, just looking at the list of	11:58:47
7	questions that starts at the bottom of Page 2 and	11:58:49
8	goes through to the top of Page 4. So, I mean,	11:58:52
9	maybe just to read I'll read to you the second	11:59:00
10	bullet point. "We note that after 2015, the	11:59:03
11	mansion at Seven Springs was included in the	11:59:06

13	Condition provided to DBTCA and the specific	11:59:10
14	valuation of the property was not provided.	11:59:14
15	Please indicate the value of the mansion at Seven	11:59:16

19	in the valuation versus the prior year including	11:59:27
20	the impact of the easement on the property	11:59:30

22	I guess my question is, why would you	11:59:33

2	MR. ROBERT: Objection to form.	11:59:42
3	A. Because they are looking to conduct	11:59:43
4	additional diligence. That doesn't state their	11:59:46
5	concern. If you're a lender and you have	11:59:48
6	reputational risk because the Office of the	11:59:51

10	Not to say that this is a standard form letter.	12:00:01
11	But the concerns weren't originated	12:00:03
12	within Deutsche Bank. The concerns were	12:00:06

15	And, as a lender, yeah, they sent us	12:00:11
16	a letter because they wanted to clarify. But	12:00:15
17	there's no allegations in here or even a hint	12:00:17
18	that Deutsche Bank agreed with or had anything to	12:00:19
19	do with the allegations made. This was as a	12:00:23
20	result of the allegations made. They then had to	12:00:26
21	go back through and ask their guarantor. And,	12:00:31
22	just as it's been done in this case, the	12:00:35
23	guarantor I'm not certain if they replied.	12:00:37
24	But there are, you know, obviously, explanations	12:00:39
25	and answers for this, just as there are in this	12:00:42

3	This isn't Deutsche Bank that found a	12:00:47
4	smoking gun that said, oh, my God, you know, this	12:00:49
5	thing's wrong. This was a result of,	12:00:53
6	essentially, public allegations in a private	12:00:54
7	transaction that were made and that they are	12:00:57
8	further investigating. And, ultimately, it was	12:00:59
9	resulted in them getting paid off.	12:01:01
10	Q. So what is the basis for your opinion	12:01:03
11	that there were, quote, "obviously, explanations	12:01:05
12	and answers" to the questions raised by Deutsche	12:01:08
13	Bank in this letter?	12:01:12
14	A. Because the guarantors provided them.	12:01:13
15	And the Statements of Financial Condition, if	12:01:15
16	they had questions, they could have asked. And	12:01:18
17	to you know, there are answers. And what	12:01:21
18	those answers are, we don't we're not privy to	12:01:25
19	that in here. So and we're also not privy to	12:01:28
20	know what Deutsche Bank thought because	12:01:30
21	everything that I read in here isn't what	12:01:32
22	Deutsche Bank thought. It's what other people's	12:01:33
23	allegations were, and that they are merely trying	12:01:35
24	to verify or, in this case, actually, trying to	12:01:38
25	make sure that what they have is accurate and	12:01:43

So looking at the bottom of Page 2 12:01:53 5 before the bolded questions, it says, quote, "In 12:01:56 6 light of these public disclosures and reports, 12:02:00 DBTC is conducting additional diligence to verify 12:02:03 7 the accuracy of representations that have been 12:02:06 8 provided to DBTC." 9 12:02:08 I guess is it your opinion that the 12:02:11 10 11 accuracy of these representations was not of 12:02:17 12 concern to -- sorry, there's technical. 12:02:20 A. That's alright. 12:02:23 13 12:02:24 Q. Let me strike that. 14 So is it your opinion that the 12:02:25 15 16 accuracy of these representations was not of 12:02:28 17 concern to Deutsche Bank? 12:02:31 18 MR. ROBERT: Objection to form. 12:02:32 A. No, it's that they were the concern 12:02:32 19 20 of the Office of the Attorney General and that 12:02:35 21 they were looking into them. There was no hint 12:02:37 of concern here. There was no hint of default. 12:02:39 22 23 There was no hint of anything else. This is all 12:02:42 24 predicated upon, there is a public investigation 12:02:45 out there and we have a duty not only to our 25 12:02:47

Page 129 1 CONFIDENTIAL - ROBERT E. UNELL 2 shareholders but to you as a borrower to 12:02:51 3 investigate it. There's nothing here that would 12:02:53 show concern outside the questions. 12:02:56 5 If those questions were answered not 12:02:59 6 in a satisfactory way to Deutsche Bank, perhaps 12:03:02 that would raise a concern. But this letter 12:03:05 7 itself does not raise any concern outside of a 12:03:07 8 lender trying to cover itself from public 12:03:10 allegations. 12:03:13 10 Q. So it is your opinion that if the 11 12:03:14 12 borrower -- well, strike that. 12:03:17 13 It is your opinion that if... 12:03:18 It is -- again, strike that. 14 12:03:28 It is your opinion that those 12:03:30 15 16 questions were not answered in a satisfactory way 12:03:33 17 to Deutsche Bank, perhaps that would raise a 12:03:35 18 concern, correct? 12:03:38 19 A. Yes, certainly. It would case raise 12:03:38 20 12:03:40 a concern. 21 MR. LADOV: Okay. 9	So the subject line of the first	12:04:35
10	e-mail is "October 29th, 2020 letter."	12:04:38

16	A. Yes.	12:04:55
17	Q. And so this is an e-mail from Allen	12:04:56

2	In the next paragraph he writes, "As	12:08:05

18	Did you review this document when	12:08:44
19	preparing your report?	12:08:46
20	A. I believe I've seen it before.	12:08:48
21	Q. Does this e-mail from Deutsche Bank	12:08:52
22	change your opinions that Deutsche Bank had no	12:08:54
23	concern about potential material defects in the	12:08:56
24	SOFC while the loan was outstanding?	12:08:59
25	A. No, it does not.	12:09:01

	Ра	ge 134
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. So why is that?	12:09:02
3	A. This, once again, states that they	12:09:05
4	are looking for information. And if they were	12:09:07
5	concerned, they had the ability to call the	12:09:10
6	default for not supplying the information. And	12:09:12
7	so it's kind of, you know, alright, you know, we	12:09:15
8	now, they're saying down in the bottom whether	12:09:18
9	a "default may have occurred." But up top they	12:09:20
10	already saying it was.	12:09:23
11	If they were concerned, they would	12:09:24
12	have issued the default versus waiting days or	12:09:25
13	after the deadline in the letter.	12:09:28
14	I can't say exactly what it was, but	12:09:32
15	if they were concerned about their credit risk	12:09:34
16	and whatnot, they would have called a default and	12:09:37
17	accelerated the loan, which per this states that	12:09:39
18	they could have, because it states they're	12:09:43
19	required per its own thing to submit statements	12:09:44
20	and that would be a default, if they didn't.	12:09:47
21	So, if they were truly concerned,	12:09:50
22	they had the ability to issue a default, not	12:09:52
23	investigate a default. And this clearly states	12:09:55
24	that they are looking for information "to aid in	12:09:58
25	its analysis of whether an event of default may	12:10:01

	Р	age 135
1	CONFIDENTIAL - ROBERT E. UNELL	
2	have occurred."	12:10:03
3	So up top, if they were concerned,	12:10:04
4	they say they can call a default for him not	12:10:08
5	providing the information, but they didn't.	12:10:10
6	Instead they are continuing to try to see if	12:10:12
7	there is a concern. And I can't opine on why	12:10:15
8	there was no response.	12:10:18
9	But I can say that as a lender, if I	12:10:20
10	have any sort in my experience of concern	12:10:24
11	about repayment of risk and I have a default, I	12:10:27
12	call that default. It gives me an upper hand.	12:10:30
13	And there would no reason to not call the default	12:10:32
14	unless they were absolutely not concerned about	12:10:37
15	their repayment.	12:10:39
16	Q. And sorry.	12:10:40
17	When you say cause a default, can you	12:10:41
18	just clarify exactly what you mean by that?	12:10:44
19	A. Call, C-A-L-L. Sorry, if I was	12:10:44
20	incorrect. That caused call, C-A-L-L, or	12:10:47
21	notice a default, I should say perhaps for	12:10:50
22	semantics there.	12:10:53
23	But if they truly believed that there	12:10:55
24	was concern, they could have noticed a default	12:10:57
25	per their own terms here, but they didn't.	12:11:00

Page 136 1 CONFIDENTIAL - ROBERT E. UNELL Instead they said, they were investigating 12:11:02 2 allegations. That doesn't raise a level of 3 12:11:04 concern for repayment. 12:11:07 5 What would raise a level of concern 12:11:08 for repayment would be something that would -- if 6 12:11:10 I was concerned, once again, and I had a default, 7 12:11:12 which they state they do by not providing 12:11:15 8 information, I'd call that default as a lender. 12:11:18 And not necessarily you're going to go in and, 12:11:22 10 11 you know, as it's a little de-default, but it 12:11:24 12 still gives the lender upper hand to get the 12:11:28 information that they want, not asking for 12:11:30 13 additional information to investigate a default. 14 12:11:33 That doesn't show concern in my opinion. 12:11:36 15 16 Q. So is it your testimony that a lender 12:11:38 17 would send a formal notice of default to a 12:11:40 18 borrower every time they have concerns about a 12:11:43 loan? 12:11:45 19 20 If they haven't been answered perhaps 12:11:46 21 12:11:48 yes. Well, when you say, "they haven't 22 12:11:48 23 been answered," what do you mean by that? 12:11:50 24 So, in this case, if there were 12:11:52 questions and you were concerned and they -- the 25 12:11:55

2	letter from October 29th asks questions. The	12:11:58
3	response is that they're not going to give the	12:12:01
4	information, because they don't feel so. If the	12:12:04
5	lender was concerned at that point, the default	12:12:07
6	could be called. But they weren't concerned,	12:12:09
7	because they didn't call the default.	12:12:12
8	There was no credit risk there.	12:12:14
9	There was no risk of loss. The loan was	12:12:16
10	performing. All the loans at this point in 20/20	12:12:19
11	had performed exactly as programmed	12:12:21
12	contractually. Deutsche Bank had made	12:12:24
13	significant amount of interest income,	12:12:26
14	significant amount of other income on the	12:12:28
15	deposits that were required.	12:12:30
16	This was a, hey, you know what, we	12:12:32
17	got this letter from the AG's Office. We're not	12:12:34
18	going to concern, but, you know what, because we	12:12:37
19	got a letter, we got to call.	12:12:39
20	And, if they were truly concerned, in	12:12:41
21	my opinion, they would have issued a default	12:12:43
22	letter to give themselves the upper hand in	12:12:45
23	obtaining the information that they needed to,	12:12:48
24	quote, unquote, "aid in its analysis of whether	12:12:51

INDEX NO. 452564/2022

Page 138 1 CONFIDENTIAL - ROBERT E. UNELL 2 kind of double-speak. So they want the 12:12:58 3 information that they say they're not getting. 12:13:00 They can call a default for not getting the 12:13:03 information, but they didn't. If you were 5 12:13:06 concerned as a lender, you call that default. 6 12:13:09 7 I'm not saying you send a letter 12:13:11 every single time. But, you know, in my 12:13:13 8 9 experience, especially in special assets would be 12:13:14 is if you're concerned to have a risk of loss, 12:13:16 10 you call that default. If you're not concerned 11 12:13:19 12 about a risk of loss, you're really not --12:13:20 there's no need to call a default, because the 12:13:23 13 12:13:26 loan is performing as programmed. 14 So it is your opinion, as an expert 12:13:28 15 16 in this case, that this correspondence is 12:13:31 17 evidence that Deutsche Bank did not have concerns 12:13:33 18 about the accuracy of the information in the 12:13:36 Trump Organization Statements of Financial 12:13:38 19 20 Condition as of 2020? 12:13:40 A. Page 139 1 CONFIDENTIAL - ROBERT E. UNELL 2 doesn't show concern. I'm not saying that they 12:13:49 3 weren't concerned. But this letter, in my 12:13:51 opinion, is not evidence that they were 12:13:54 5 concerned. 12:13:58 Well, so you just said, "I'm not 6 12:13:58 saying that they weren't concerned," correct? 12:14:00 7 A. Based off this letter, I can't say 12:14:03 8 9 that. 12:14:05 Q. But I think a moment ago you did say 12:14:05 10 that, based on this letter you believed that they 11 12:14:07 12 were not concerned. 12:14:10 13 A. I don't believe they were concerned 12:14:12 at all. 12:14:14 14 Q. But you just said that you're "not 12:14:15 15 saying that they weren't concerned"? 16 12:14:17 17 This letter would not insinuate that 12:14:18 18 they were concerned. I can't say beyond the four 12:14:21 letters of this. But everything that I have seen 12:14:24 19 20 in the write-ups, et cetera, do not indicate a 12:14:27 21 concern on behalf of Deutsche Bank that they were 12:14:30 at any risk of loss at any point throughout this 12:14:33 22 23 loan or any of the other loans that were 12:14:37 24 originated to the Trump Organization. 12:14:40 Q. 4	Q. But I don't believe that this	12:14:47

6	correct?	12:14:51
7	A. It doesn't. But, in the context of	12:14:52
8	analyzing risk and credit risk credit risk is	12:14:57
9	really looking at whether or not you're going to	12:15:00

11	the information that they had received, as part	12:15:04
12	of the allegations in the complaint and New York	12:15:07
13	Times, felt that they were at a risk of loss, my	12:15:11
14	opinion is that they would have issued the	12:15:14
15	default versus rather keep on asking for	12:15:16
16	information to verify whether there is or is not	12:15:20
17	a default.	12:15:23
18	They've kind of taken a neutral	12:15:24
19	stance here, in my opinion, in that they had no	12:15:26
20	choice but to respond to the correspondence in	12:15:31
21	the public what was out there and so they sent	12:15:33
22	this letter.	12:15:35
23	But if they were truly concerned	12:15:36
24	and I'll say it one more time you know, truly	12:15:37
25	concerned, in my opinion and in my experience,	12:15:40

Page 141 1 CONFIDENTIAL - ROBERT E. UNELL the default would have been called versus 2 12:15:42 3 continually threatening a default. 12:15:45 Q. So, in this e-mail, Mr. Candela from 12:15:49 5 Deutsche Bank says that he is trying -- that the 12:15:56 bank is "seeking further information from the 6 12:15:57 Trump Organization to aid in its analysis of 12:15:59 7 whether an event of default may have occurred 12:16:03 8 with respect to such submissions and 12:16:06 representations." 12:16:09 10 11 Are you disagreeing with Deutsche 12:16:10 12 Bank's opinion that if the allegations that were 12:16:12 being raised in the legal filings and news 12:16:16 13 reporting were true, that that may constitute an 14 12:16:20 event of default under Deutsche Bank's loan 12:16:22 15 16 documents? 12:16:25 17 That's a huge hypothetical. So you 12:16:26 18 can't -- I can't opine on that one way or the 12:16:28 other. And so -- because it would depend on what 12:16:31 19 20 they did find. Was it a minor de-default? Was 12:16:33 21 it whatnot? You know, there's a million 12:16:37 12:16:39 22 hypotheticals that can go into whatnot. 23 And, you know, another thing is if 12:16:41 they were truly concerned -- you know, they 24 12:16:43 follow up again on January 8th. If there was a 25 12:16:45

4	a large lender of this size that would be	12:16:55
5	criticized of risk of loss, that somebody doesn't	12:16:58

7	October 29th, 2020 to December 14th, 2020 and	12:17:04
8	then to January 8th, 2021. They weren't if	12:17:08
9	this shows that there was a lack of urgency or	12:17:12
10	concern from Deutsche Bank if you're worried	12:17:15
11	worried about your loan as a lender, you do	12:17:17
12	everything you can in your power expeditiously to	12:17:20
13	try to protect your investment. Waiting 60,	12:17:24
14	70 days or whatever and not calling a default,	12:17:28

16	correspondence via e-mail versus actual	12:17:35
17	correspondence per the notices that are in a	12:17:37
18	credit agreement, that's a more formal inquiry.	12:17:42
19	I haven't seen any of that here, which would	12:17:45
20	indicate that based off of the actions of	12:17:47
21	Deutsche Bank and, in my experience, there was no	12:17:50
22	concern, only noise created by the complaint in	12:17:52

2	I don't think we're talking about a failure to	12:18:02	
3	make a payment as an event of default.	12:18:06	
4	You do agree that there are events of	12:18:09	
5	default defined by loan documents other than a	12:18:13	
6	missed payment, correct?	12:18:16	
7	A. Matter of fact, I just referenced one	12:18:17	
8	that being the lack of providing information	12:18:19	
9	could be considered a little de-default as well.	12:18:21	
10	Q. Right.	12:18:25	
11	So do you disagree that Deutsche Bank	12:18:25	
12	is expressing concerns that the public	12:18:28	
13	allegations about the Trump Organization, if	12:18:31	
14	accurate, may constitute an event of default	12:18:34	
15	under their loan documents?	12:18:37	
16	MR. ROBERT: Objection to form.	12:18:39	
17	A. I think they cite that. But, quite	12:18:39	
18	honestly, I don't think that they were concerned	12:18:42	
19	about it one bit. And in the timing of it would	12:18:45	
20	play into that as well. If there were concerns,	12:18:48	
21	there wouldn't have the back and forth. There	12:18:50	
22	would have been a default letter issued.	12:18:53	
23	Q. So I'm going to actually ask for a	12:18:55

25	A. Yes, sir.	12:18:59

5	if accurate, may constitute an event of default?"	12:19:06
6	MR. ROBERT: Objection to form.	12:19:09
7	A. It's a hypothetical that yes, it	12:19:12
8	could be hypothetical default. It's default	12:19:15
9	hunting is what I would call.	12:19:20
10	(Stenographer clarification.)	12:19:20
11	THE WITNESS: Hunting, H-U-N-T-I-N-G.	12:19:20
12	A. And the "default hunting," because if	12:19:24
13	there was truly concern and I'll go back to	12:19:26
14	it.	12:19:29
15	They have a default. They state it	12:19:29
16	up there. It's in Old Post Office Guaranty	12:19:31
17	Agreement that, you know, that they have to	12:19:34
18	provide information. They had the default.	12:19:37
19	Instead they didn't call it, because they weren't	12:19:41
20	even concerned.	12:19:43
21	This is what, you know, you would	12:19:44
22	call and it's happened in lending across the	12:19:45
23	board, especially during 2007 and 2008 and	12:19:49
24	beyond. You had lenders out there that knew that	12:19:52
25	they were at risk for whatever reason. They	12:19:55

	Pa	ge 145
1	CONFIDENTIAL - ROBERT E. UNELL	
2	would hunt for defaults so that they could get	12:19:58
3	the upper hand.	12:20:00
4	The opposite is here. Deutsche Bank,	12:20:01
5	in my opinion, felt bothered by this, as matter	12:20:04
6	of fact. It was an outside party coming in on a	12:20:09
7	performing loan for a client that was a top five	12:20:12
8	relationship second guessing their ability to	12:20:16
9	underwrite loans and really could have impacts on	12:20:19
10	the entire commercial markets.	12:20:23
11	So, yeah, I don't think Deutsche Bank	12:20:25
12	I think they did what they had to do here, but	12:20:27
13	no means I think Deutsche Bank was probably	12:20:30
14	and if I was a lender and had this second	12:20:32
15	guessing in my shoes, I would have been pretty	12:20:35
16	upset, because it's second guessing the training	12:20:37
17	and expertise that I have and the historical loan	12:20:41
18	performance and playing Monday morning	12:20:45
19	quarterback.	12:20:48
20	Q. So stipulating to all of the caveats	12:20:49
21	that you've raised	12:20:52
22	A. Yeah.	12:20:52
23	Q. And I understand that that's in the	12:20:52
24	record as your opinion.	12:20:54
25	A. Yeah.	12:20:55

2	Q. (Continuing.) Do you agree with	12:20:56
3	Deutsche Bank that the public allegations raised	12:20:59
4	about the Trump Organization, if true, would	12:21:01
5	constitute an event of default under their loan	12:21:04
6	documents?	12:21:09
7	MR. ROBERT: Objection to form.	12:21:09
8	A. I think that's hypothetical because	12:21:09
9	there are lot of allegations	12:21:11
10	Q. And so	12:21:11
11	A and depending which one it is,	12:21:13
12	just as they didn't call the default for the lack	12:21:14
13	of sending it in. I can't say what Deutsche	12:21:17
14	Bank's concern was.	12:21:20
15	I can tell you that, in my	12:21:20
16	experience, that I did not see it as a concern	12:21:23
17	and that the actions undertaken by Deutsche Bank	12:21:25
18	would not indicate that there was a concern from	12:21:29
19	my experience in commercial real estate lending	12:21:32
20	and in defaults.	12:21:35
21	Hopefully, that clarifies kind of	12:21:37
22	you know, I can't put myself and tell you what	12:21:40
23	Deutsche Bank was thinking. What I can do is	12:21:42

2	written here and the actions taken or, in this	12:21:48
3	case, not taken by calling the default, it did	12:21:51
4	not indicate that they were concerned. It	12:21:55
5	indicated that they were following up on	12:21:57
6	something that they had to do.	12:22:00
7	Q. So you just said, "I can't put myself	12:22:02
8	and tell you what Deutsche Bank was thinking."	12:22:05
9	But isn't that what you're doing	12:22:06
10	here? I'm asking you Deutsche Bank sends a	12:22:08
11	letter saying, we are concerned about public	12:22:12
12	allegations that the Trump Organization put	12:22:17
13	information that was not accurate in documents	12:22:20
14	submitted to the bank. We believe that this	12:22:23
15	information raises concerns about a potential	12:22:27
16	event of default. I've asked you whether you	12:22:30
17	agree with that analysis.	12:22:34
18	What you have said is you don't	12:22:35
19	believe that Deutsche Bank actually had concerns	12:22:37
20	based on the e-mail.	12:22:40
21	A. Yeah.	12:22:42
22	Q. So, I mean, isn't it	12:22:42
23	A. I don't see	12:22:43
24	Q fair to say so are you sitting	12:22:44
25	here telling me what you think Deutsche Bank was	12:22:49

	Pa	ge 148
1	CONFIDENTIAL - ROBERT E. UNELL	
2	thinking?	12:22:52
3	A. No. I'm telling you that Deutsche	12:22:53
4	Bank never utilizes the word concern. Deutsche	12:22:55
5	Bank is merely reacting to other people's	12:22:58
6	allegations.	12:23:00
7	And if there was concern, they had	12:23:01
8	other avenues to explore including default, which	12:23:03
9	they clearly state in the paragraph, "as you	12:23:08
10	know, it is required." And then they state, you	12:23:11
11	don't do it.	12:23:13
12	If there was concern my testimony is	12:23:14
13	that Deutsche Bank would have taken different	12:23:16
14	tactics and called the default, instead of asking	12:23:21
15	for additional information and waiting 70 to 80,	12:23:24
16	90 days beyond their initial inquiry. I'm	12:23:28
17	telling you guys is I think that that's	12:23:31
18	based off of what I read, I can do that.	12:23:33
19	But beyond the four corners of this,	12:23:36
20	what happened in Deutsche Bank and whether, you	12:23:39
21	know, Gregory Candela thought there was concern,	12:23:41
22	that's a question for Mr. Candela. But I can	12:23:45
23	tell you that the actions of Mr. Candela and his	12:23:47
24	colleagues would not indicate that there was any	12:23:50
25	concern on behalf of Deutsche Bank as to their	12:23:52

		Page 149
1	CONFIDENTIAL - ROBERT E. UNELL	
2	loans.	12:23:58
3	Q. And I do want to just quickly	12:23:59
4	revisit. At the beginning of that answer you	12:24:01
5	said, "I'm telling you that Deutsche Bank never	12:24:03
6	utilizes the word concern."	12:24:04
7	But looking at Mr. Candela's e-mail	12:24:06
8	in the last paragraph, the first sentence says,	12:24:09
9	"As described to Mr. Khost's letter of	12:24:12
10	October 29, 2020, the bank has identified	12:24:15
11	relevant publically available information	12:24:16
12	including certain information filed in a court	12:24:18
13	proceeding raising concerns regarding the	12:24:21
14	accuracy of certain representations made in Mr.	12:24:23
15	Trump's prior submissions to the bank under the	12:24:26
16	terms of his guaranties."	12:24:28
17	So reading that sentence, does that	12:24:29
18	affect your testimony, in your opinion, that	12:24:33
19	Deutsche Bank did not have concerns about the	12:24:35
20	information in this statement	12:24:38
21	A. No, no, it does not.	12:24:38
22	Q while these loans were	12:24:40
23	outstanding?	12:24:42
24	A. It does not. I read that as the	12:24:42
25	"court proceeding" had concerns, that those were	12:24:44

INDEX NO. 452564/2022

Page 150 1 CONFIDENTIAL - ROBERT E. UNELL not concerns regarding -- that that is merely 12:24:48 2 3 regurgitating what the complaint and allegations 12:24:54 are, not what the mindset, attitude or internal 12:24:56 5 thought was at Deutsche Bank. 12:25:02 6 So your testimony is that the court 12:25:06 proceeding raised concerns but that Deutsche Bank 12:25:08 7 did not have concerns based on the information it 12:25:10 8 read in those court proceedings? 12:25:12 MR. ROBERT: Objection to form. 12:25:16 10 That is my opinion based off of their 11 12:25:17 12 actions and the reading of this letter. 12:25:20 And, just looking at the following 12:25:22 13 correspondence, you'll see that on December 16th, 12:25:24 14 Allen Garten wrote back, "Thanks, Greg. We are 12:25:28 15 16 reviewing your e-mail and hope to have a response 12:25:31 17 within the next few days. Best, Allen." 12:25:33 18 And then subsequently on January 8th, 12:25:36 Gregory Candela wrote back to Allen Garten -- and 12:25:41 19 again this is January 8th, 2021 -- "Allen, I'm 12:25:44 20 21 following up on the e-mails below. Will you 12:25:47 22 please let me know when we can expect a response? 12:25:49 23 Thank you." 12:25:52 24 Do you have concerns about the timing 12:25:53 25 of those e-mails? 12:25:55

	Pag	ge 151
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. Actually, I think it validates what I	12:25:56
3	was saying earlier, in that if there was of	12:25:58
4	concern to Deutsche Bank, they wouldn't have	12:26:01
5	waited. They wouldn't have done they would	12:26:02
6	have in my experience, if you have questions	12:26:04
7	like this, you would try to schedule a meeting.	12:26:06
8	You would have other correspondence. You	12:26:09
9	wouldn't wait from October 29th, and when you	12:26:12
10	send a letter ask for a response by	12:26:16
11	November 13th, then wait again until January 8th.	12:26:23
12	That shows a lack of concern, in my experience,	12:26:30
13	versus a concern.	12:26:32
14	Loans credits can deteriorate very	12:26:34
15	quickly, especially when there is noise in the	12:26:37
16	court of public appeal, whether it's the you	12:26:40
17	know, whether it's a filed suit, whether it's a	12:26:43
18	slip and fall, whether it's a fire, anything that	12:26:46
19	can come out and over time can negatively impact	12:26:50
20	a property.	12:26:54
21	And so, as a lender, if you were	12:26:55
22	truly concerned about your investment and this	12:26:57
23	loan, you would have been more diligent. You	12:27:00
24	wouldn't have waited until after November 13th	12:27:03

2	know, if they ask for November 13th on	12:27:09
3	December 7th, they got a thing.	12:27:12
4	If I'm a lender and I'm concerned,	12:27:13
5	November 14th rolls around and I'm sending an	12:27:16

9	reduce, get rid of any sort of credit loss or	12:27:30
10	exposure that I may otherwise have.	12:27:35
11	Instead they waited and waited and	12:27:36
12	waited and the complacency, based on my	12:27:40
13	experience and have worked in loans that may have	12:27:44
14	been of concern spending seven plus years at Bank	12:27:47

10	which you've seen an exit decision memo like	12:30:58

12	A. Yeah. Typically, an exit decision is	12:31:01
13	when a bank decides to, as it says, "exit" a	12:31:04
14	relationship due to various reasons. It could be	12:31:08

16	impacting potential credit. It could be	12:31:15
17	reputational. It could be a multitude of	12:31:19

19	severing a relationship for whatever reason there	12:31:25
20	may be.	12:31:28
21	And, typically, what also as this one	12:31:28
22	quickly it says, you know, that it is a managed	12:31:30
23	exit. So there are different ways of doing it.	12:31:34
24	You know, typically, there are they're not	12:31:36

Page 156 1 CONFIDENTIAL - ROBERT E. UNELL know, pack up your stuff and go home find another 12:31:42 2 3 12:31:45 way. But it appears here that there was a 12:31:45 managed exit. Typically, something of this --5 12:31:47 especially with being a covered client 6 12:31:50 relationship, due to the public nature of the 12:31:53 7 client, would take -- first off, there are other 12:31:55 8 regulations involved in that that requires a 12:31:58 higher level of authority. But it appears that 12:32:00 10 they went through, had a discussion and decided 11 12:32:02 12 to exit the relationship on a managed basis. 12:32:05 Okay. And would you agree that this 12:32:07 13 memo shows that Deutsche Bank had decided to exit 12:32:11 14 its relationship with the client organization. 12:32:13 15 16 That "the client organization" here is the Trump 12:32:17 17 Organization? 12:32:19 18 A. Page 157 1 CONFIDENTIAL - ROBERT E. UNELL in that first letter we've reviewed did not get a 12:32:42 12:32:46 3 satisfying answer. So would you agree that that is what 12:32:47 5 actually transpired here? 12:32:48 So, with the one caveat. I would 6 12:32:50 disagree that this falls under the KYC know your 7 12:32:53 customer. Know your customer is more of an, oh, 12:32:56 8 fat money laundering kind of identification sort 12:32:59 of thing versus what this is. 12:33:02 10 So, if you throw that out -- I don't 11 12:33:03 12 -- maybe that falls under Deutsche Bank's KYC 12:33:05 purview. But it appears that they've made the 12:33:08 13 decision to exit due to a lack of providing 14 12:33:11 information. 12:33:14 15 16 Q. Sorry. Can you explain why would you 12:33:15 "throw out" the -- Deutsche Bank's statement that 17 12:33:18 18 this would fall under their KYC review process? 12:33:23 A. Because, in my opinion, the KYC is 12:33:26 19 more of a factual, what's your name, what's your 12:33:29 20 21 address, what's your date of birth, what's your 12:33:32 22 Social Security number, where have you done 12:33:34 23 business, not -- and perhaps it could fall under 12:33:36 24 there. But your standard Bank Security Act, any 12:33:40 money laundering KYC -- so I'm just saying is I'm 12:33:43 25

Page 158 1 CONFIDENTIAL - ROBERT E. UNELL not familiar with their KYC overall breadth. 2 12:33:46 3 So, yes, they did decide to do that 12:33:50 for lack of putting forth additional required 12:33:52 5 information. 12:33:56 Q. Okay. And does this exit decision 6 12:33:56 memo impact your opinion that Deutsche Bank had 12:33:59 7 no concerns about alleged misstatements in Mr. 12:34:02 8 Trump's Statements of Financial Condition while 12:34:05 its loans were outstanding? 12:34:07 10 MR. ROBERT: Objection to form. 11 12:34:09 12 A. No, no, it does not. It indicates 12:34:09 that they were exiting or wishing to exit the 12:34:12 13 relationship on a managed basis with no defaults 14 12:34:14 due to a lack of providing information, not due 12:34:18 15 16 to any sort of there being, you know, allegations 12:34:21 17 or misrepresentations. It was due to just the 12:34:26 18 financial statements is the way that I read it. 12:34:31 Q. And what is the basis for your 12:34:34 19 20 opinion that Deutsche Bank, if I'm reading it 12:34:37 21 correctly, was not concerned about the alleged 12:34:41 12:34:43 22 misrepresentations? 23 A. Because all it says that it was a 12:34:44 24 failure to respond to the KYC review questions. 12:34:47 25 It doesn't say it's a failure to respond to 12:34:51

		Page 159
1	CONFIDENTIAL - ROBERT E. UNELL	
2	respond to any of the credit questions. It	12:34:53
3	doesn't say that it was a failure to respond on	12:34:56
4	anything. It doesn't say that it was a failure	12:34:57
5	to the response that was given. It doesn't say	12:34:59
6	anything that there was a failure about the	12:35:02
7	actual allegations themselves. It was just a	12:35:04
8	failure to respond.	12:35:05
9	And, once again, I will note that	12:35:06
10	there was no default called. If there was	12:35:08
11	concern that there was, you know, at loss, they	12:35:11
12	wouldn't have done a managed exit. They would	12:35:13
13	have called the default for the failure to	12:35:15
14	respond to, quote, unquote, "DB's event driven	12:35:18
15	KYC review questions."	12:35:22
16	I think they were left with no choice	12:35:24
17	but to do this per the regulations and what is	12:35:26
18	required by the regulatory environment. If they	12:35:28
19	don't have the information, they have no choice.	12:35:32
20	But that doesn't necessarily equate to concern.	12:35:34
21	It equates to they have an obligation to their	12:35:38
22	regulators that if they don't have these answers	12:35:42
23	questioned questions to answers to these	12:35:46
24	questions, that they need to exit the	12:35:49
25	relationship.	12:35:52

	P	age 160
1	CONFIDENTIAL - ROBERT E. UNELL	
2	But at no point does it show, in my	12:35:52
3	opinion, that there is concern on DB's behalf	12:35:55
4	related to the allegations made in the complaint.	12:36:02
5	MR. LADOV: Why don't we go off the	12:36:04
6	record for a moment.	12:36:06
7	THE VIDEOGRAPHER: Yeah. The time is	12:36:07
8	12:35 p.m. We are off the record.	12:36:10
9	(Recess taken 12:35 to 12:55 p.m.)	12:55:14
10	THE VIDEOGRAPHER: The time is	12:55:14
11	12:55 p.m. We are back on the record. You may	12:55:15
12	proceed.	12:55:17
13	Q. So, Mr. Unell, I want to go back to	12:55:18
14	your expert report for a second.	12:55:21
15	A. I just put it back.	12:55:22
16	Q. Yes. And look at Paragraph 35, which	12:55:24
17	we have just been reviewing.	12:55:26
18	A. Alright.	12:55:35
19	Q. And can you just read for the record	12:55:36
20	the sentence that you have highlighted in bold	12:55:38
21	type there.	12:55:41
22	A. "Notably the Doral loan guaranty	12:55:41
23	document does not require the Statement of	12:55:46
24	Financial Condition to be GAAP compliant."	12:55:47
25	Q. And your report doesn't define GAAP,	12:55:50

		Page 161
1	CONFIDENTIAL - ROBERT E. UNELL	
2	but can you define what "GAAP" is?	12:55:52
3	A. Generally Accepted Accounting	12:55:54
4	Principles.	12:55:55
5	Q. Okay. And that means the same thing	12:55:56
6	as accounting principles generally accepted in	12:55:57
7	the United States?	12:56:01
8	A. Yes.	12:56:01
9	Q. What is the basis for your opinion	12:56:04
10	that "the Doral loan guaranty document does not	12:56:06
11	require the Statement of Financial Condition to	12:56:09
12	be GAAP compliant"?	12:56:11
13	A. It would be based off and the	12:56:14
14	reference down below, the file down there, I'm	12:56:16
15	not exactly certain what that Bates Number was,	12:56:18
16	but that would have been the basis for it, the	12:56:20
17	TTO_043673 through TTO_043695.	12:56:23
18	Q. Do you know whether that citation is	12:56:40
19	to the Doral loan guaranty document?	12:56:42
20	A. I believe it is, but without having	12:56:44
21	it in front of me, I can't 100 percent confirm.	12:56:47
22	Q. So can you just elaborate on why it	12:56:52
23	is that you have the opinion that that document	12:56:54
24	"does not require the Statement of Financial	12:56:56
25	Condition to be GAAP compliant"?	12:56:59

	Paç	ge 162
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. I would need to see that actual	12:57:00
3	document in front of me to be 100 percent	12:57:02
4	correct. But my recollection is that it doesn't	12:57:05
5	state that there is GAAP. And that would be, as	12:57:08
6	I say in the next sentence, consistent with other	12:57:12
7	transactions.	12:57:15
8	Statement of Financial Condition,	12:57:17
9	from a personal side to a typically, on the	12:57:17
10	lending side, banks refer to GAAP more on the	12:57:19
11	presentation of corporate financial statements,	12:57:22
12	in the form of income statements and balance	12:57:24
13	sheets, as it relates to a borrower versus a	12:57:26
14	compiled Statement of Financial Condition, as	12:57:28
15	that they are kind of treated separately for	12:57:33
16	accounting purposes. But I'm also not an	12:57:36
17	accounting expert, but do know that there is that	12:57:38
18	distinction.	12:57:42
19	Q. Okay. And so is it your opinion that	12:57:43
20	the Doral loan guaranty document is silent about	12:57:48
21	whether or not the statements need to be GAAP	12:57:51
22	compliant?	12:57:55
23	A. I would need to read the actual	12:57:56
24	document to really refresh my memory as to what	12:57:58
25	led me to that conclusion.	12:58:01

	Ра	ge 163
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. Okay. And how do you define "GAAP	12:58:02
3	compliant" in this sentence?	12:58:10
4	A. I mean, "GAAP compliant" is for	12:58:12
5	someone that's not in accounting would be,	12:58:14
6	obviously, in accordance with those principles.	12:58:17
7	I can say is that, you know you	12:58:20
8	know, generally speaking, it's more of a format	12:58:21
9	in kind of the presentation and then, obviously,	12:58:23
10	you know, what values are there. But that being	12:58:26
11	said, it is from you know, when I look at a	12:58:29
12	Statement of Financial Condition, otherwise,	12:58:33
13	known as a personal financial statement, I'm	12:58:34
14	looking at it very differently than I would from	12:58:36
15	the perspective of an income statement or a	12:58:39
16	balance sheet for a corporation. Because you're	12:58:41
17	looking at really a few different things there	12:58:45
18	that you're looking at that you may not be	12:58:48
19	looking at otherwise, which iis the key items are	12:58:50
20	liquidity, contingent liabilities and other	12:58:53
21	liabilities and then, ultimately, reoccurring	12:58:55
22	cash flow. The other assets, et cetera, you	12:58:57
23	know, while they're important are not nearly as	12:59:00
24	important and I believe that's where GAAP would	12:59:02
25	probably play more of a role.	12:59:05

Page 164 1 CONFIDENTIAL - ROBERT E. UNELL 2 So I'm looking at something that 12:59:06 3 would give me as a lender the ability to take my 12:59:08 own analysis, put it into my own financial 12:59:10 5 spreads, which is what Deutsche Bank did both on 12:59:13 the personal financial statement, as well as the 6 12:59:15 individual property statements. And if it has 12:59:18 7 enough information for me to be able to spread 12:59:21 8 that, as it's called, that is sufficient in my 12:59:23 role as a lender and to begin and have enough to 12:59:25 10 12:59:30 11 start the underwriting process. 12 From there if there are other 12:59:32 questions, it would not be uncommon to go back 12:59:34 13 14 and ask other questions about not only the 12:59:36 personal financial statement but also any 12:59:38 15 16 corporate statements. 12:59:40 17 I'm really trying to identify -- and 12:59:41 18 Deutsche Bank did a very good job of it -- of 12:59:43 potentially identifying, you know, one-time 12:59:46 19 20 sources of cash that are not recurring, 12:59:49 21 especially when you're looking at income and cash 12:59:51 flow to be able to determine the ability to 12:59:55 22 23 service debt, if needed. 12:59:57 24 Okay. So, when you use "GAAP 12:59:58 compliant" in this sentence, are you speaking to 25 13:00:01

Page 165 1 CONFIDENTIAL - ROBERT E. UNELL requirements concerning the comprehensiveness of 13:00:07 2 3 the information that would be provided in the 13:00:10 personal financial statement? 13:00:12 5 It would probably be more about the 13:00:14 presentation and a lot of the rules as it relates 6 13:00:16 to how -- there's a lot of intricacies in GAAP. 13:00:20 7 I mean, that's why accountants are licensed and 13:00:24 8 why I'm not one of them. 13:00:26 So that being said, you know, it is 13:00:27 10 -- I'm looking -- you know, as a lender, GAAP 11 13:00:30 12 doesn't mean anything to me from a Statement of 13:00:32 Financial Condition. The Statement of Financial 13:00:36 13 Condition needs to have -- it can have more or 13:00:38 14 less than what GAAP is. If it has less, then I 13:00:40 15 know what I'm looking for. And I'm going to seek 13:00:43 17 it out and ask it of the client. So, you know, 13:00:45 18 GAAP to me and, as I stated, you know, it really 13:00:50 is insignificant in the form of personal 13:00:53 19 20 financial statements in underwriting of 13:00:56 commercial real estate loan. 21 13:00:58 22 Okay. And is it your understanding 13:00:59 23 that a personal financial statement would need to 13:01:03 24 be audited in order to be GAAP compliant? 13:01:05 I think I may have seen one audited 25 13:01:08

2	personal financial statement in my entire career	13:01:11
3	and I think that was because, I think, the guy	13:01:16
4	was going through a divorce and had it was	13:01:17
5	already prepared.	13:01:19
6	I don't think that, you know, in	13:01:20
7	auditing GAAP, I don't know that there's any	13:01:22
8	correlation there, but that would be for the	13:01:24
9	accounting experts.	13:01:27
10	Q. Okay. So I want to turn back to the	13:01:27
11	Statement of Financial Condition as of June 30th,	13:01:32
12	2021 [sic].	13:01:34
13	A. Okay.	13:01:35
14	Q. I don't recall exactly which exhibit	13:01:36
15	number it is.	13:01:39
16	A. I'll find it here.	13:01:39
17	MR. ROBERT: I think you did 2011.	13:01:41
18	A. 2011.	13:01:43
19	MR. LADOV: I'm sorry. I meant to	13:01:44
20	say 2011. Thank you.	13:01:45
21	A. 2011 is Exhibit 6.	13:01:46
22	Q. So let's turn to the 211 SOFC	13:01:48
23	Exhibit 6.	13:01:52
24	I know we discussed this earlier, but	13:01:52

3	A. Yes, sir.	13:01:58
4	Q. Do you have any opinion about whether	13:02:00
5	this Statement of Financial Condition was, in	13:02:03
6	fact, compliant with GAAP?	13:02:06
7	A. I'm not an expert on GAAP.	13:02:08
8	Q. So you don't have an opinion one way	13:02:11
9	or the other about whether the statement was	13:02:14
10	compliant with GAAP?	13:02:16
11	A. No, sir.	13:02:17
12	Q. Okay. But your opinion is that the	13:02:18
13	Doral loan guaranty did not require the statement	13:02:21
14	to be GAAP compliant, correct?	13:02:24
15	A. Yes, sir.	13:02:27
16	Q. Do you have any opinion about	13:02:27
17	sorry, strike that.	13:02:30
18	Do you have any opinion about whether	13:02:31
19	any document or communication other than the	13:02:33
20	Doral loan guaranty required this statement to be	13:02:35
21	GAAP compliant?	13:02:39
22	MR. ROBERT: Objection to form.	13:02:40
23	A. Not off the top of my head I don't	13:02:43
24	think.	13:02:45
25	Q. Do you have any opinions about	13:02:45

		Page 168
1	CONFIDENTIAL - ROBERT E. UNELL	
2	whether industry standards required this	13:02:51
3	statement to be GAAP compliant?	13:02:53
4	A. In my experience, it would be, you	13:02:56
5	know, rare to have somebody claim that their	13:03:00
6	statement would be GAAP compliant. Perhaps it	13:03:02
7	could be. But to have that operative statement	13:03:04
8	or be required would be something that I would	13:03:06
9	not have, typically, seen in my experience.	13:03:08
10	Q. Okay. So I want to look at what's	13:03:13
11	Page 1 of the statement.	13:03:27
12	A. (The witness complies.)	13:03:29
13	Q. And this is the independent	13:03:30
14	accountant's compilation report.	13:03:32
15	And are you familiar with what a	13:03:34
16	"compilation" is?	13:03:38
17	A. Yes.	13:03:38
18	Q. And can you just explain what a	13:03:38
19	"compilation" is for the record?	13:03:40
20	A. A "compilation" is that the appraise:	r 13:03:41
21	was provided a bunch of data from various	13:03:43
22	sources. They, ultimately, as the name would	13:03:46
23	say, compiled it into one concise document with	13:03:48
24	consistent presentation.	13:03:52
25	Q. And then looking at the second	13:03:56

	Paç	ge 169

2	paragraph in the independent accountant's letter.	13:03:58
3	It says, quote, "Donald J. Trump is responsible	13:04:02

5	financial statement in accordance with accounting	13:04:09
6	principles generally accepted in the United	13:04:12

11	And then the letter goes on to list a	13:04:23
12	number of different exceptions. Sorry, strike	13:04:29
13	that.	13:04:33
14	The letter then discloses in a series	13:04:34
15	of paragraphs that the statement departs from	13:04:37
16	GAAP in certain respects.	13:04:39
17	Do you agree with that	13:04:40
18	characterization?	13:04:42
19	A. I mean, it would be, typically, that	13:04:44
20	there are notes that perhaps would just as,	13:04:46
21	you know, a nonpersonal statement would, that if	13:04:49
22	there were any sort of irregularities, that would	13:04:52
23	perhaps be mentioned by the whoever compiled	13:04:55
24	it.	13:04:58
25	Q. So do you have an understanding,	13:05:01

2	based on this accountant's letter, as to whether	13:05:05
3	the attached Statement of Financial Condition is	13:05:08
4	GAAP compliant?	13:05:11
5	A. I'm not an expert on GAAP. I'm	13:05:12
6	unable to opine on that.	13:05:14
7	Q. Okay. So I want to turn to the notes	13:05:16

9	You need a second?	13:05:24
10	A. I'm alright.	13:05:26

15	A. Yup.	13:05:40
16	Q. So looking at the first paragraph, it	13:05:44
17	says, quote, "The accompanying Statement of	13:05:46

24	A. Yes, sir.	13:06:04

Page 171 1 CONFIDENTIAL - ROBERT E. UNELL report, that statement is consistent with your 13:06:08 2 3 understanding of how a personal Statement of 13:06:11 Financial Condition should present the values of 13:06:14 5 assets and liabilities; is that fair? 13:06:17 6 Α. Yes. 13:06:19 So they should be presented at 13:06:20 7 estimated current value, correct? 13:06:22 8 Yeah, or as stated. I mean, as long 9 13:06:24 as it's -- and this states that they are at that. 13:06:26 10 11 You know, I have seen where they are stated at 13:06:29 12 other values, et cetera. As long as it's clear 13:06:32 as a user and I know what basis it is, that would 13:06:34 13 be how I would look at it. 13:06:37 14 13:06:39 15 Q. Got it. 16 But we agree that this statement says 13:06:40 17 that "assets are stated at their estimated 13:06:42 18 current values," correct? 13:06:44 Yes, sir. 13:06:45 19 20 So looking at the third paragraph. 13:06:46 21 So this paragraph states that GAAP requires 13:06:55 personal financial statements, quote, "include a 22 13:07:00 23 provision for current income taxes, as well as 13:07:03 24 estimated income taxes on the differences between 13:07:05 the estimated current values of assets and the 25 13:07:08

6	And then and looking down two	13:07:18
7	further paragraphs it says, quote, "Pursuant to	13:07:23
8	GAAP, this financial statement does not reflect	13:07:25
9	the value of Donald J. Trump's worldwide	13:07:27
10	reputation."	13:07:31
11	So taken together, does this language	13:07:32
12	in the note seems consistent with what we read in	13:07:36
13	the accountant's letter indicating that this	13:07:40
14	statement was prepared in accordance with GAAP,	13:07:42
15	other than the departures that are being noted?	13:07:45
16	A. That's the way it reads, yes, sir.	13:07:47
17	Q. Okay. So is it your opinion that a	13:07:49
18	lender reviewing this statement would understand	13:07:52
19	this language and the other language in the	13:07:54
20	document to be telling the user that the	13:07:57
21	statement is prepared according to GAAP, except	13:07:59
22	for the departures that are being disclosed?	13:08:01
23	MR. ROBERT: Objection to form.	13:08:03
24	A. Yes, sir.	13:08:04
25	Q. Okay. So I know that part of your	13:08:05

	Pa	nge 173
1	CONFIDENTIAL - ROBERT E. UNELL	
2	opinion is that the Doral guaranty does not	13:08:10
3	require GAAP compliance, correct?	13:08:13
4	A. Yes.	13:08:15
5	Q. So but, based on the language that's	13:08:15
6	in the actual statement, would it be misleading	13:08:18
7	for the statement not to be prepared in	13:08:21
8	accordance with GAAP?	13:08:24
9	A. Based on the basis presentation, it	13:08:25
10	would no reason to believe that it wouldn't be	13:08:29
11	misleading.	13:08:31
12	Q. Well so, if the statement gives	13:08:32
13	you no reason to believe that it wasn't prepared	13:08:35
14	in accordance with GAAP, if, in fact, the	13:08:38
15	statement was not prepared in accordance with	13:08:41
16	GAAP, would you agree that that would be	13:08:43
17	misleading?	13:08:45
18	MR. ROBERT: Objection to form.	13:08:46
19	A. From a lender perspective, perhaps	13:08:48
20	not as long as it contained the information that	13:08:50
21	I needed to complete my analysis. You know,	13:08:53
22	perhaps if, you know, an accountant looked at it,	13:08:56
23	maybe they would have different use.	13:08:59
24	But, for the use of evaluating	13:09:01
25	liquidity, assets and cash flow liabilities and	13:09:03

Page 174 1 CONFIDENTIAL - ROBERT E. UNELL contingent liabilities, I believe that it would 13:09:07 3 not be misleading, because that -- you know, as 13:09:10 long as the methodology used for the basis of the 13:09:14 5 assets is clear, that gives me as a user enough 13:09:18 13:09:22 information to be able to make my own recommendations and underwriting. 13:09:25 7 So, I guess, is it fair to say that 13:09:30 8 your opinion is if the representation about GAAP 13:09:32 compliance was not true but the statement 13:09:37 10 otherwise included all of the disclosures and 11 13:09:39 12 statements needed to allow the lender to 13:09:42 understand how the properties were valued, then 13:09:44 13 that would make the statement not misleading? 13:09:49 14 13:09:51 15 MR. ROBERT: Objection. 16 Yeah, as a lender, GAAP to me on a 13:09:51 personal financial statement, as, I think, I said 17 13:09:54 18 earlier, really doesn't carry a lot of weight. 13:09:56 Sure, it would -- you know, this language is all 13:09:59 19 nice. But at the end of the day, what I'm 13:10:02 20 21 looking at as a lender are, you know, key items 13:10:04 such as liquidity, contingent liabilities, 13:10:08 22 23 liabilities. 13:10:11 24 And, as a lender, if I have questions 13:10:12 25 about those, which, ultimately, are the items 13:10:13

INDEX NO. 452564/2022
RECEIVED NYSCEF: 08/30/2023

Page 175 1 CONFIDENTIAL - ROBERT E. UNELL that would impair or impact the ability to repay 2 13:10:16 3 and also litigation, that that would be what's 13:10:20 important to me, not in GAAP. So, you know, it 13:10:25 5 depends as to what the user wants. If I'm 13:10:28 looking to quantify what my risk is as a lender, 6 13:10:31 I'm really want to know exactly what it is. 13:10:34 7 GAAP doesn't matter to me. 13:10:37 8 Certainly, it is nice to have the presentation 13:10:39 there. But if there are deviations from it and 13:10:42 10 11 as long as I'm able to tell those deviations, 13:10:44 12 that would not have impact. 13:10:47 So, if the statement said that it was 13:10:49 13 prepared in accordance with GAAP, other than 13:10:52 14 deviations and you have the information you need 13:10:55 15 16 to know what those deviations are, then you would 13:10:57 17 be satisfied with the presentation in that 13:11:00 18 statement, that's fair to say? 13:11:02 A. Yeah. Cause I mean this is an 13:11:04 19 20 estimate. And lenders are trained not to rely on 13:11:06 21 assets like this, which is why the independent 13:11:10 22 analysis in the credit memos is done, which is 13:11:13 23 why haircuts are done, which is why other items 13:11:17 24 are done, because, you know, it's really --13:11:20 25 everybody has a different use for a Statement of 13:11:24

2	Financial Condition. And so, as a user, for me,	13:11:28
3	when I'm underwriting a credit, I have different	13:11:31
4	what I'm looking for than perhaps somebody else	13:11:34
5	will in another industry. And I'm not sure where	13:11:37
6	else this was sent.	13:11:40
7	But I know what my goal is and what	13:11:41
8	my directive is as a lender and that is to ensure	13:11:43
9	the safety and soundness of a credit. And, in my	13:11:46
10	opinion, this presented enough information to	13:11:49
11	allow a lender to assess the risk to their	13:11:53
12	credit.	13:11:56
13	Q. Okay. So I want to turn back to your	13:11:57
14	report.	13:12:03
15	A. Uh-huh.	13:12:03
16	Q. And look at Paragraph 4.	13:12:04
17	And would you mind reading that into	13:12:14
18	the record?	13:12:16
19	A. "The information provided by	13:12:16

2	Q. What is the basis for your opinion	13:12:33
3	here that, quote, "The information provided by	13:12:35
4	Defendants to lenders in the ordinary course of	13:12:38
5	business was not misleading"?	13:12:40
6	A. My review of the documents that were	13:12:43
7	provided, as well as the underwriting documents	13:12:46
8	that were provided by and reviewed from Deutsche	e 13:12:49
9	Bank.	13:12:56
10	Q. And, again, are you in making that	13:12:56
11	opinion strike that.	13:12:59
12	Are you in offering that opinion	13:13:00
13	expressing any opinion about whether the	13:13:03
14	valuations in Donald Trump's Statements of	13:13:05
15	Financial Condition were reasonably calculated?	13:13:09
16	A. I'm not part of my scope was not	13:13:12
17	to opine on any valuations.	13:13:15
18	Q. So how do you know that the	13:13:16
19	information provided "was not misleading"?	13:13:18
20	A. Just as Deutsche Bank did, you know,	13:13:20
21	you go back, you review, you look at what the	13:13:23
22	analysis they did, the conversations they had	13:13:26
23	with their credit risk.	13:13:28
24	And what I am saying is that that I	13:13:30
25	believe the analysis conducted and the	13:13:34

	Pa	ge 178

2	information presented gave the user enough	13:13:36
3	information that would be consistent with other	13:13:38
4	deals that I've worked on to form an opinion of	13:13:40
5	the guarantor's strength.	13:13:42
6	Q. So, I guess, when I hear the answer	13:13:45
7	you just gave, I think what I'm hearing is an	13:13:49
8	opinion that you believe Deutsche Bank's	13:13:51
9	underwriting and review of the Statements of	13:13:54
10	Financial Condition was adequate; is that	13:13:57
11	correct?	13:13:59
12	A. Absolutely. As agreed to by Mr.	13:13:59
13	McCarty, who has a whole section in his report	13:14:02
14	that Deutsche Bank did what was adequate.	13:14:05
15	Q. But I think my question is, why does	13:14:08
16	that lead you to the opinion that the information	13:14:10
17	provided in the statements "was not misleading"?	13:14:13
18	A. As a lender, you don't go into	13:14:16
19	something with the idea that it's wrong. You	13:14:18
20	take it for you trust your client. You take	13:14:21
21	it for worth. They are the ones that know these	13:14:24
22	assets better than anybody.	13:14:27
23	They're non-collateral assets. You	13:14:29
24	don't go get an appraisal on non-collateral	13:14:30
25	assets. It's unrealistic. It's too time	13:14:33

INDEX NO. 452564/2022

Page 179 1 CONFIDENTIAL - ROBERT E. UNELL consuming, too costly, et cetera. 13:14:36 2 3 So who better to then if you look at 13:14:39 an asset than its owner. The owner knows the 13:14:42 5 characteristics of the asset. They know what the 13:14:45 6 income potential is. They know what the actual 13:14:47 market is. 13:14:49 7 So who am I as a lender or anybody 13:14:49 8 else coming into looking at something afterwards 13:14:51 to all of the sudden say, you're wrong? 13:14:54 10 There's nothing out there that I 11 13:14:56 12 have, you know, at the time or whatnot that would 13:14:58 lead me to believe that this is wrong. 13:15:01 13 And if you wanted to go take the 14 13:15:03 approach that, you know, oh, every single 13:15:05 15 16 personal financial statement is quilty until 13:15:09 proven innocent, then you know what, we won't 17 13:15:11 18 have a banking market. Because I can guaranty 13:15:15 you that people would be scared out of their mind 13:15:18 19 20 to submit a statement of financial condition to 13:15:20 21 know that every single thing that they put down 13:15:20 could end up with them being dragged into a legal 22 13:15:24 23 proceeding. 13:15:26 24 And so there are some things in the 13:15:27 25 industry that you have to take on their face 13:15:29

	Pac	ge 180

2	value, especially when you factor into what the	13:15:31
3	materiality is and what your use is for that.	13:15:34
4	So the use was to determine the	13:15:37
5	ability of the guarantor capacity to repay and	13:15:40
6	that this document, as well as the others	13:15:46
7	provided that for the lender. And that's the	13:15:48
8	basis for it.	13:15:50
9	You know, as a lender, you don't go	13:15:51
10	out trying to prove a false negative. You have	13:15:54
11	to assume that the information, unless it is	13:15:57
12	you have reason to believe otherwise and there	13:15:59
13	is no reason to believe otherwise is true and	13:16:02
14	correct.	13:16:04
15	Q. So, again, I hear you saying that	13:16:05
16	your opinion is that a lender approaches	13:16:08
17	underwriting with an assumption that it can	13:16:12
18	believe its clients, correct?	13:16:15
19	A. Well, you have to. I mean,	13:16:17
20	otherwise, there would be no lending. If you had	13:16:19
21	to go through and do the level of diligence I	13:16:22
22	mean, we wouldn't have housing market. We	13:16:24
23	wouldn't have anything. We wouldn't I mean,	13:16:27
24	this is a post-mortem, you know, autopsy audit of	13:16:29
25	a loan that was performing. And to sit here and	13:16:34

INDEX NO. 452564/2022

Page 181 CONFIDENTIAL - ROBERT E. UNELL 1 say that, you know, I would have to -- that you 13:16:38 3 would go into or any lender would ever go into a 13:16:40 transaction believing that anything was false and 13:16:43 5 not take it at fast value is incorrect. And 13:16:45 6 that's not the way the markets operate and it's 13:16:49 not -- you know, if it were to operate that way, 7 13:16:52 then we would be surrounded by mountains of 13:16:55 8 paperwork and a slower process than it already is 13:16:58 to get certain things done due to regulatory 13:17:02 10 11 environment. 13:17:05 12 So, no, I mean, I look at things and 13:17:05 you have to trust your client. It goes into, you 13:17:08 13 know, their experience, their history, their 13:17:10 14 repayment and their reputation in the market. 13:17:13 15 16 Those are all things that go into taking this for 13:17:19 17 what it is on its face value. 13:17:22 18 And, like I said, I don't go into 13:17:24 something thinking that how am I going to prove 13:17:26 19 this wrong. I go into it as how am I going to 13:17:28 20 21 protect my institution as a lender and I look at 13:17:31 22 those items to see how that impacts me, not 13:17:34 23 necessarily how it may impact as a third party as 13:17:36 24 a user. 13:17:39 25 So I, certainly, hear your 13:17:39

2	explanation for your opinion that both a lender,	13:17:43
3	typically, goes into underwriting with faith that	13:17:46
4	its client is telling the truth and that it	13:17:50
5	should do so.	13:17:53
6	What I'm still confused about is how	13:17:54
7	is that support for your opinion that the	13:17:59
8	information provided in the Statements of	13:18:03
9	Financial Condition was not misleading.	13:18:07
10	MR. ROBERT: Objection to form.	13:18:08
11	A. I've seen nothing to outside of	13:18:09
12	you know, I actually haven't even seen the other	13:18:13
13	reports or anything to indicate otherwise outside	13:18:16
14	of what I read from Mr. McCarty's report that	13:18:18
15	states the net worth dropped to its lowest of	13:18:22
16	2.49 million, which still and would have been,	13:18:26
17	let's see, 50 times what it would have taken for	13:18:28
18	inclusion in the Private Wealth Management Group,	13:18:31
19	which then still qualifies him for the pricing	13:18:33
20	grid, which still then would be market rates.	13:18:35
21	So, yeah, I'm just trying to play it	13:18:39
22	out. Like, as a user, that's the way bankers	13:18:41
23	look at things. They're not backward looking.	13:18:45
24	Nobody received any harm or loss.	13:18:48
25	And, furthermore, you know, this	13:18:51

2	document right here, the worthless clause in the	13:18:52
3	language, no lender relies on these for what it	13:18:55
4	is. It's a roadmap to be able to determine other	13:19:00
5	items. And that roadmap led them to his offices	13:19:03
6	to verify liquidity. That roadmap didn't have	13:19:06
7	them ask any other questions about liabilities or	13:19:10
8	contingent liabilities, to my knowledge. That	13:19:13
9	roadmap allowed them to spread and underwrite the	13:19:15
10	income and expenses to determine what the net	13:19:19
11	cash flow is, which are all key metrics in paying	13:19:24
12	the loan, not what the value of a non-collateral	13:19:26
13	asset is. That has zero impact on my	13:19:28
14	underwriting as a lender.	13:19:34
15	The value of a non-collateral asset	13:19:39
16	whether it's a million dollars, \$500,000, there's	13:19:42
17	a level of materiality there that doesn't matter,	13:19:46
18	especially if it's unencumbered. Furthermore, as	13:19:48
19	a lender you can't force that guarantor to sell	13:19:52
20	that asset, which is why it is haircut down.	13:19:54
21	Q. But why is your opinion that the	13:19:58
22	value of a specific non-collateral asset is not	13:20:03
23	material to the lender? Why is that evidence	13:20:07
24	that the presentation of the value of that	13:20:10
25	non-collateral asset was not misleading?	13:20:13

5	at that? And I'm not looking at that as a	13:20:22

7	And Deutsche Bank confirmed that.	13:20:27

11	threshold was for Deutsche Bank was going to	13:20:36

13	They're not going to originate a loan that would	13:20:41

15	And, as I say in my report, if you	13:20:44

Page 186 1 CONFIDENTIAL - ROBERT E. UNELL documents? 13:22:15 2 Well, if I understand your question 3 13:22:16 correctly, it actually goes into the damages or 13:22:17 5 purported alleged damages done by Mr. McCarty. 13:22:20 Because Mr. McCarty alleges that the interest 6 13:22:24 rates were wrong. Well, at the time of the 13:22:27 7 origination, nobody -- there was no allegation 13:22:29 8 there was nothing, okay. 13:22:32 And if after the fact it is found 13:22:34 10 11 that there were perhaps breaches, that would have 13:22:38 12 given the opportunity to call a default, not 13:22:42 after the loan is paid off, not by anybody else 13:22:44 13 besides the lender. The lender would have the 13:22:47 14 15 ability to call the default if they thought that 13:22:49 16 there were misrepresentations. And at that time 13:22:51 that default rate would then be the applicable 17 13:22:54 18 rate if the lender decided to enforce it. 13:22:57 So you can say, oh, okay, we knew all 13:23:03 19 this back back back. You know, hindsight is 13:23:06 20 21 20/20. But the fact of the matter is, if there 13:23:08 13:23:12 22 were damages --- and there are, not because 23 everybody was repaid in full -- the damages would 13:23:14 24 be the difference between what a default rate 13:23:16 25 would be versus what the actual rate would be, 13:23:19

2	which is 400 basis points, not going back to the	13:23:22
3	beginning and applying a fixed rate to a floating	13:23:25
4	rate loan over the life of the loan when there	13:23:29
5	was never a default.	13:23:32
6	It's just there's no damages and	13:23:33
7	to create a purported damages utilizing a rate	13:23:36
8	that would have been from the beginning that	13:23:39
9	wasn't even floating is that's how it comes	13:23:41
10	into play. There's you know, that's why it	13:23:44
11	comes into play, the default.	13:23:48
12	The default doesn't come into play	13:23:49
13	for any other reasons. It's a what if, a	13:23:52
14	hypothetical. And if the allegations are true,	13:23:53
15	then, you know what, the default rate would have	13:23:55
16	been invoked. It wouldn't have been gone back to	13:23:57
17	the beginning of an arbitrary rate picked at a	13:23:59
18	fixed rate versus floating.	13:24:03
19	Q. So I don't think that you're quite	13:24:04
20	answering my question.	13:24:06
21	Which was, where are you finding an	13:24:07
22	allegation in this case that there was a risk	13:24:11
23	that Deutsche Bank would call a default based on	13:24:14
24	its loan documents and the threshold for net	13:24:19
25	worth that was included there?	13:24:22

2	A. There's been	13:24:22
3	Q. Sorry, let me withdraw that. I'm not	13:24:24
4	let me just ask.	13:24:27
5	I believe that you are sort of	13:24:29
6	raising a specter that doesn't exist in this	13:24:32
7	case, which is that there is an allegation that	13:24:36
8	because the net worth covenant in the loan	13:24:40
9	documents was \$2.50 billion and because the	13:24:42
10	adjusted net worth used in underwriting at	13:24:45
11	Deutsche Bank was below \$2.5 billion, that there	13:24:49
12	was a threat of a default being called. I'm	13:24:53
13	trying to understand why you think that that is a	13:24:55
14	part of the allegations in this case.	13:24:57
15	MR. ROBERT: Objection to form.	13:24:59
16	A. That's misrepresentation. I never	13:25:00
17	said that that was a default being called. I	13:25:03
18	actually said that the default was never called,	13:25:05
19	because I don't believe that the borrowers or	13:25:07
20	guarantor were ever in default. And nor would I	13:25:10
21	believe that a lender would call the little	13:25:12
22	de-default, especially when there was no risk of	13:25:16
23	loss, as there was in this case. I don't think	13:25:19
24	that I'm trying to manufacture a default by any	13:25:21
25	means. There was no default.	13:25:24

	Paç	ge 189
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. No, no. I think what I'm asking is	13:25:26
3	where are you seeing the allegation that somehow	13:25:28
4	the adjusted net worth would prompt Deutsche Bank	13:25:31
5	to call a default?	13:25:35
6	And by "adjusted net worth," I'm	13:25:36
7	referring to the adjusted net worth that they did	13:25:37
8	in their own underwriting.	13:25:40
9	MR. ROBERT: Objection to form.	13:25:42
10	A. It has come up in numerous of the	13:25:42
11	Deutsche Bank depositions about how net worths	13:25:45
12	are derived et cetera. And I think one of the	13:25:49
13	key points here is that, you know, when you look	13:25:51
14	at what a covenant is, as I said earlier, you	13:25:54
15	have to take this on its face value. And the	13:25:56
16	haircuts, adjusted net worths adjusted net	13:25:59
17	worths are an internal calculation.	13:26:02
18	So what I'm trying to say is there	13:26:04
19	are no defaults. If you were to base that where,	13:26:06
20	you know, you say, oh, this value, that value,	13:26:08
21	really we're you're talking over. That's not	13:26:11
22	an impact on the ability of a client to repay.	13:26:14
23	The ability of a client to repay is based on	13:26:17
24	items that were true and correct that there is no	13:26:20
25	allegations or discrepancy of.	13:26:24

Page 190 1 CONFIDENTIAL - ROBERT E. UNELL 2 So, when you talk about materiality 13:26:25 and this worthless clause and all material 3 13:26:28 respects, what in here is material has been 13:26:31 5 verified by Deutsche Bank and I have no reason to 13:26:34 believe they didn't verify it, such as liquidity, 13:26:36 contingent liabilities et cetera. That's what is 13:26:39 7 of materiality in here. 13:26:41 8 9 And, as a user -- and I think I 13:26:43 reference what materiality is and it has always 13:26:46 10 11 been, from a banking standpoint, it's in the eye 13:26:49 12 beholder, not the eye of a third party, not the 13:26:52 eye of a regulator, not the eye of, in this case, 13:26:55 13 the Attorney General. And that Deutsche Bank, in 13:26:59 14 my opinion as a lender, did what they were 13:27:05 15 supposed to do and verified those items and 13:27:07 17 anything else would have been immaterial. 13:27:09 18 So, therefore, my basis is -- what 13:27:14 started this is I have no reason to believe that 13:27:16 19 it impacted their decision to make credit 13:27:18 20 21 whatsoever or their reliance on this because they 13:27:23 13:27:25 22 didn't rely on it. 23 Q. Sorry. A couple of seconds ago you 13:27:26 24 said, I believe that you had no reason to believe 13:27:28 that Deutsche Bank didn't verify the asset values 25 13:27:32

2	in the Statements of Financial Condition.	13:27:37
3	Do you have a reason to believe that	13:27:40
4	they did verify the asset values in the Statement	13:27:42
5	of Financial Condition or that they had the	13:27:46
6	information required to do so?	13:27:48
7	A. Yeah, they absolutely had the	13:27:50
8	information that were required to do so. And, if	13:27:51
9	they didn't, it was incumbent upon them as	13:27:55
10	professionals and, as even Mr. McCarty has stated	13:27:57
11	in their report, they did their underwriting.	13:28:00
12	And I would suspect that I agree with that. And	13:28:03
13	part of underwriting is if you have questions,	13:28:05
14	you ask them.	13:28:07
15	And Mr. McCarty and I agree that they	13:28:07
16	did what they were supposed to do and that would	13:28:10
17	have including asking questions. I ask questions	13:28:13
18	all the time about Statement of Financial	13:28:15
19	Condition, on Statements of Financial Condition	13:28:18
20	that are much less impactful than this.	13:28:19
21	Just because they've got a bunch of	13:28:23
22	net worth doesn't mean you don't need to ask	13:28:25
23	questions. That was up to Deutsche Bank to do as	13:28:27
24	the user, not as me to do after the fact coming	13:28:30
25	in, you know, Monday morning quarterback.	13:28:33

Page 192 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. So a couple of times in your answers 13:28:36 3 you mentioned a "worthless clause." 13:28:38 Can you just explain where you're 13:28:41 5 getting that phrase from? 13:28:43 A. Yeah, that actually was first 6 13:28:44 utilized -- well, it's actually what is kind of I 7 13:28:46 would say the disclaimer language that's in here. 13:28:48 8 However, it was first -- I guess I first read it 13:28:53 in President Trump's deposition. And it kind of 13:28:54 10 11 stuck. Because, quite honestly, I had never 13:28:57 12 heard it called that, but it is truly what the 13:28:59 meaning of it is. 13:29:02 13 14 Q. Okay. So you said you "never heard 13:29:03 it called that" before. So is it fair to say 13:29:05 15 16 that you never heard a lender refer to this 13:29:09 17 language as a "worthless clause"? 13:29:11 18 A. I've heard them refer to it as 13:29:13 worthless. I've never heard to them call it --13:29:15 19 if you want to use it as a defined term, the 13:29:15 20 21 worthless clause. But, yeah, I mean, I've heard 13:29:19 it referred to as worthless, but not -- truly the 22 13:29:21 23 definition is you would say the worthless clause. 13:29:24 24 Q. And what language in the Statement of 13:29:25 Financial Condition would you describe as the 25 13:29:28

2	"worthless clause"?	13:29:29
3	A. They're throughout including a lot of	13:29:31
4	where it gives all of the caveats. I'd have to	13:29:34
5	read the entire thing to go through the exact	13:29:37
6	one. But, obviously, we look at the first pages,	13:29:40
7	one and two, where there are caveats in there and	13:29:43
8	I believe probably towards the authorization and	13:29:45
9	where signature, et cetera and I'm not even	13:29:49
10	sure I see that one here that it would be in	13:29:51
11	there.	13:29:53
12	And I'm not an attorney, but I would	13:29:53
13	have to say it is I'm not sure exactly which	13:29:55
14	one it is. But there are reliance and clauses in	13:30:00
15	here I know. I can read through the whole thing	13:30:04
16	if you'd like but	13:30:06
17	Q. Well, yeah, actually, can you just	13:30:08
18	if you can just point me to specific language in	13:30:11
19	the statement that you think constitutes a	13:30:13
20	worthless clause.	13:30:16

Page 194 1 CONFIDENTIAL - ROBERT E. UNELL 2 THE WITNESS: Okay. Alright. 13:30:31 MR. ROBERT: You want to indicate the 13:30:31 3 page for the Court Reporter. 13:30:33 A. This is Page 2 of Exhibit 6, also, 5 13:30:34 known as the Statement of Financial Condition 6 13:30:38 dated June 30th, 2011, Bates Stamp 13:30:40 7 Mazars-NYAG-00003133. 13:30:47 "Because the significance and 9 13:30:51 pervasiveness of the matters discussed above make 13:30:55 10 it difficult to assess their impact on the 11 13:30:58 12 Statement of Financial Condition, users of this 13:31:01 financial statement recognize that they may reach 13:31:02 13 different conclusions about the financial 14 13:31:05 condition of Donald J. Trump if they had access 13:31:07 15 to a revised Statement of Financial Condition 16 13:31:09 17 without the above referenced exceptions to 13:31:12 18 accounting provisions generally accepted in the 13:31:13 United States." 13:31:15 19 20 Hold on. I'll read through it. 13:31:17 I believe that that would cover the 21 13:31:24 13:31:40 22 user and their analysis. 23 Q. Okay. So, as we discussed earlier, 13:31:42 24 the statement states that Mr. Trump is 13:31:47 25 responsible for the preparation and fair 13:31:51

And he's also responsible for providing 13:31:56 estimated current values and liabilities at their 13:31:59 5 estimated current amounts, correct? 13:32:02 6 Α. Uh-huh. 13:32:03 And so I agree that this language 13:32:04 7 says, due to departures in GAAP presentation, the 13:32:07 8 user might reach a different conclusion about the 13:32:13 financial statement. 13:32:15 10 But why do you think that that 11 13:32:17 12 language also renders the financial statement 13:32:20 "worthless"? 13:32:24 13 A. It's also what we, typically, see and 13:32:25 14 just in general review and reliance upon 13:32:29 15 16 Statements of Financial Condition in the 13:32:33 17 industry. It's known that it's truly an 13:32:34 18 estimate. It states in there that it is an 13:32:37 estimate. Just like an appraisal is an estimate. 13:32:40 19 It's an estimate and an opinion of value. 13:32:42 20 21 And as a reader and as a lender, I 13:32:46 22 don't go into things thinking that there are 13:32:49 23 reasons to not believe my borrower, especially 13:32:52 24 somebody that has the reputation and, you know, 13:32:55 25 history that Donald Trump had when he applied for 13:32:59

Page 196 1 CONFIDENTIAL - ROBERT E. UNELL 2 this loan. There is a lot that goes into it 13:33:02 3 besides just what's on this paper. And, you 13:33:05 know, that is more to it than what's in the legal 13:33:08 5 language. 13:33:11 6 And, you know, we can sit here and we 13:33:12 can flip through 20 pages of this financial 13:33:13 7 statement, but I could probably point out two or 13:33:17 8 three pages that all that matter and that's why 13:33:19 lenders don't rely on it. This is above and 13:33:21 10 11 beyond anything that I have ever seen from a 13:33:23 12 regular borrower in the form of a personal 13:33:27 financial statement. So what I'm hearing you say is 13:33:43 19 20 that your opinion is that this paragraph, which 13:33:47 is the -- what you're calling, the "worthless 21 13:33:50 clause," is telling the user that the values here 22 13:33:54 23 are estimates. 13:33:59 24 Does it -- well actually withdraw 13:34:03 25 that. 2	So, I guess, why then would a lender	13:34:08
3	require the submission of the Statement of	13:34:19
4	Financial Condition when underwriting a loan?	13:34:21
5	A. It's policy. It's part of the	13:34:23
6	formality. It's I mean, there are a lot of	13:34:26
7	things that are required that just kind of get	13:34:29
8	thrown around. You know, it's one of the things	13:34:31
9	that goes into it. It's one of many factors.	13:34:34
10	You're looking for a roadmap to do your	13:34:37
11	independent analysis. And you have to take what	13:34:39
12	is provided to you at face value and trust your	13:34:43
13	borrower. And, in this case, everything worked.	13:34:46
14	The process worked.	13:34:50
15	President Trump submitted his	13:34:52
16	financial statement. Deutsche Bank went through	13:34:53
17	their underwriting process. Deutsche Bank	13:34:55
18	approved the loan. Deutsche Bank ordered an	13:34:57
19	appraisal on the loan, you know, whatnot. They	13:34:59
20	closed the loan. They then monitored the loan.	13:35:02
21	The loan was then repaid in full. That was the	13:35:05
22	job and the purpose of this financial statement	13:35:08
23	was to make sure the loan got repaid. And the	13:35:10
24	loans were repaid.	13:35:14
25	So, you know, it served its purpose.	13:35:16

	Pag	ge 198
1	CONFIDENTIAL - ROBERT E. UNELL	
2	It did exactly what it was supposed to do. The	13:35:18
3	process worked. And that's why there are	13:35:21
4	guidelines out there from Deutsche Bank. There	13:35:23
5	are guidelines out there from the OCC. There are	13:35:26
6	all sorts of guidelines that talk about, you	13:35:28
7	know, underwriting.	13:35:30
8	And, in this case, one thing that we	13:35:32
9	agree on that we may not agree on a lot is that	13:35:34
10	Deutsche Bank did their job. And that doing	13:35:37
11	their job the fact of the matter is the results	13:35:40
12	were there. There were no losses. Every loan	13:35:44
13	was repaid. And if there's any indication that	13:35:46
14	the system worked, the process worked, that these	13:35:50
15	statements were what they were, it's in the fact	13:35:53
16	that there were no losses.	13:35:55
17	And I can't go back and say that I've	13:35:57
18	ever seen a loan that anybody that's been repaid	13:36:00
19	in full has ever gone back on and said, hold on	13:36:03
20	there, did we you know, Deutsche Bank made a	13:36:07
21	lot of money on this. And would have continued	13:36:10
22	to have made a lot of money had they not been	13:36:13
23	scared off. But the process worked. The	13:36:17
24	Statement of Financial Condition gave them what	13:36:19
25	they needed in order to underwrite the loan in	13:36:20

	Pag	ge 199
1	CONFIDENTIAL - ROBERT E. UNELL	
2	accordance with their guidelines and the OCC.	13:36:25
3	Q. And I guess a similar question, if	13:36:27
4	the Statement of Financial Condition is	13:36:30
5	worthless, then why does a lender require a	13:36:32
6	guarantor to submit a statement on an annual	13:36:35
7	ongoing basis?	13:36:38
8	A. Well, just as even I forgot which	13:36:39
9	of the Deutsche Bank testimony is. It's really	13:36:43
10	to look and see what the changes are year over	13:36:45
11	year. You're looking for trends. You're looking	13:36:48
12	for changes in liquidity. You're looking for	13:36:50
13	perhaps to see, oh, did this guarantor take on	13:36:52
14	additional contingent liability. Oh, did they	13:36:55
15	take on additional debt?	13:36:57
16	In the case of some of these, they're	13:36:58
17	also looking to see if there were extraordinary	13:37:00
18	events that generated cash flow. On some of	13:37:02
19	these there were out cash out refis and other	13:37:05
20	items.	13:37:07
21	So you're really looking to see what	13:37:08
22	the difference is year over year, which is the	13:37:09
23	same analysis that they do with their haircuts.	13:37:11
24	So you're looking for trends to see if things are	13:37:13
25	positive trends or negative trends. You're	13:37:16

Page 200 1 CONFIDENTIAL - ROBERT E. UNELL dissecting backwards and forwards. You're 13:37:18 2 3 looking at the things that are important to you, 13:37:20 as I mentioned earlier, such as liquidity, 13:37:23 5 liabilities, contingent liabilities to make sure 13:37:24 6 that there's been no extraordinary changes over 13:37:26 13:37:29 7 time. And I guess what would a lender do in 13:37:31 8 9 the ordinary course of business if it did find 13:37:35 that a guarantor's net worth had dipped below 10 13:37:39 what was listed in the covenant in its loan 11 13:37:44 12 documents? 13:37:47 First off, they would reach out and 13:37:47 13 probably have a call and say, hey, by the way, 13:37:49 14 your net worth has dropped below. What's going 13:37:52 15 16 on? And there would be other factors considered. 13:37:54 17 How does this impact the actual loan? Is the 13:37:57 18 loan cash flowing itself? What other events of 13:38:00 liquidity may be coming forward? 13:38:03 19 You're really looking at it to make 13:38:05 20 21 sure that your asset and your loan is protected. 13:38:08 22 And at the end of the day, you're going to be 13:38:11 23 repaid and repaid at the contractual rates and 13:38:12 timing that you said, just as was done in this 24 13:38:14 25 13:38:16 case.

2	Q. And, technically, if the borrower did	13:38:17
3	fall below the net worth covenant, as illustrated	13:38:21
4	by subsequent financial statements, would that be	13:38:26
5	an event of default under those loan documents?	13:38:30
6	A. Typically, it would be, yes. And it	13:38:33
7	would, typically, result in a conversation	13:38:35
8	perhaps the default being noticed if they felt	13:38:36
9	there was risk and perhaps would result in a	13:38:39
10	restructuring. It could be an increase in	13:38:41
11	equity. It could be something along those lines.	13:38:45
12	But it doesn't mean that the loan is necessarily,	13:38:48
13	you know, hindered or the ability to repay has	13:38:50
14	changed at all.	13:38:53
15	MR. LADOV: I need to actually,	13:39:15
16	like one minute. I don't know if you want to	13:39:16

18	like take two minutes and then come back for	13:39:19

23	Is that okay with you?	13:39:25

11	A. Yes.	14:28:31
12	Q. And could you read that into the	14:28:31

14	A. "The Defendants clearly stated the	14:28:34

16	values reported on the SOFC, which allowed for	14:28:39

2	But can you explain what your support	14:29:05
3	is for your opinion that, quote, "Defendants	14:29:08
4	clearly stated the methodology utilized in	14:29:10
5	determining the asset values reported on the	14:29:13
6	SOFC"?	14:29:16
7	A. Yes, in the Statement of Financial	14:29:16
8	Condition, the analysis and the write-up was	14:29:19
9	sufficient, in my opinion, to allow the user to	14:29:23

16	A. Yes, sir.	14:29:40

18	only had had the SOFC and not underlying	14:29:50

23	Q. And it's your opinion that those	14:29:58

Page 204 1 CONFIDENTIAL - ROBERT E. UNELL 2 Yes, sir. 14:30:04 3 You also state here that users of the 14:30:05 SOFCs were on notice of the, quote, "subjective 14:30:10 5 nature of the valuation"; is that correct? 14:30:13 14:30:15 6 Α. Yes, sir. What do you mean by "subjective" 14:30:16 7 here? 14:30:19 8 "The subjective nature" is that they 9 14:30:19 were -- the valuations were completed by the 14:30:21 10 11 Trump Organization and, therefore, as just like 14:30:27 12 any valuation or an opinion of value and, 14:30:29 therefore, like any valuation are subjective. 14:30:32 13 Q. But would you agree that any 14:30:35 14 valuation is not wholly subjective? 14:30:38 15 16 MR. ROBERT: Objection to form. 14:30:42 17 A. Could you -- could you repeat that? 14:30:44 18 Maybe to rephrase it, would you agree 14:30:47 that a lender relying on a valuation assumes that 14:30:50 19 20 it is based on objective facts? 14:30:53 21 No. I cannot agree with that. 14:30:57 So why do you not agree that a lender 22 14:31:00 23 relying on a valuation assumes that the valuation 14:31:03 24 is based on objective facts? 14:31:06 25 A. Cause an appraiser is an opinion of 14:31:08

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 205 1 CONFIDENTIAL - ROBERT E. UNELL value that is one individual's opinion. I have 14:31:10 2 3 seen where somebody or two different appraisers 14:31:14 can take the same information and come up with 14:31:17 5 two different opinions. And therefore it is why 14:31:20 -- you know, once again, it is not what the value 14:31:24 is. It is an opinion of value. And, therefore, 7 14:31:27 in my opinion, once again, that would lead to it 14:31:29 8 being subjective. 14:31:32 Q. So you just said, quote, "I have seen 14:31:33 10 where somebody or two different appraisers can 11 14:31:37 12 take the same information and come up with two 14:31:39 different opinions." 14:31:42 13 14 In that statement, there is an 14:31:45 opinion about subjectivity, but there is also a 15 14:31:53 reference to the, quote, "same information." 16 14:31:57 17 So my question is, wouldn't the 14:31:57 18 lender assume that even if there is some 14:31:59 subjectivity involved, that those valuation 14:32:04 19 20 opinions are based on some type of objective, 14:32:06 21 quote, "information," unquote? 14:32:11 MR. ROBERT: Objection to form. 22 14:32:12 23 Can you please rephrase the question? 14:32:13 So, in your example, you said, I've 24 14:32:17 seen two different appraisers come up with --25 14:32:20

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 206 1 CONFIDENTIAL - ROBERT E. UNELL sorry, let me get it correctly. 14:32:22 2 3 You said, quote, "I have seen where 14:32:24 somebody or two different appraisers can take the 14:32:27 5 same information and come up with two different 14:32:29 14:32:30 6 opinions." 7 In that example, both of those 14:32:31 appraisers are relying on the same information, 14:32:34 8 9 right? 14:32:37 14:32:37 10 Α. Yes. So what is that information, if not a 11 14:32:38 12 set of objective facts that the appraisers are 14:32:43 relying on? 14:32:45 13 14 There are multiple factors and I'm 14:32:46 not an appraiser that go into the valuation and 14:32:48 15 16 an opinion of valuation. Not just what is 14:32:51 absolutely provided. There are assumptions that 17 14:32:55 18 have to be supported et cetera. And whether it 14:32:57 be comps or other things, there may be difference 14:32:59 19 20 of opinion between those appraisers and it 14:33:03 21 happens rather frequently that have an impact on 14:33:05 14:33:09 22 value. 23 Q. And, certainly, when you talk about 14:33:12 24 assumptions, those assumptions would be disclosed 14:33:14 25 in the appraisal document; is that fair? 14:33:17

2	A. I'm not an appraiser. So I can't	14:33:19
3	opine on, you know, what is included or not	14:33:21
4	included in an appraisal.	14:33:25
5	Q. Why don't we look at a specific	14:33:29
6	example. Can you turn to Paragraph 40 of your	14:33:31
7	report?	14:33:33
8	A. Uh-huh.	14:33:34
9	Q. So would you mind reading the first	14:33:45
10	three sentences of Paragraph 40 into the record.	14:33:46
11	A. "There was an error in the reporting	14:33:49
12	related to the triplex apartment asset due to the	14:33:51
13	use of inaccurate square footage estimate.	14:33:55
14	However, this error was immaterial in nature and	14:33:58
15	it was quickly corrected as soon as the error was	14:34:00
16	discovered. It was immaterial because it	14:34:02
17	represented only a small portion of the overall	14:34:04
18	financial picture of the guarantor and did not	14:34:06
19	impact the ability to repay the loan."	14:34:08
20	Q. So, I guess, first of all, what is	14:34:12
21	your support for your opinion that this error was	14:34:14
22	"quickly corrected as soon as the error was	14:34:17
23	discovered"?	14:34:20
24	A. Information provided to me and from	14:34:20
25	my request from Counsel.	14:34:23

	P	age 208
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. And what "information" was that?	14:34:27
3	A. That it was corrected and that it	14:34:29
4	was, you know, fixed, that was what I was told.	14:34:31
5	Q. Did you rely on any documents for	14:34:35
6	that opinion or did you rely on what you were	14:34:37
7	told by Defendants' Counsel?	14:34:41
8	A. I believe that there were some	14:34:43
9	documents with the subsequent Statements of	14:34:44
10	Financial Condition, et cetera, that were looked	14:34:47
11	at in that process.	14:34:48
12	Q. So looking at the Statements of	14:34:53
13	Financial Condition, you saw that the error was	14:34:54
14	fixed; is that correct?	14:34:56
15	A. Yeah, and also the as cited, the	14:34:57
16	deposition of President Trump also was cited.	14:35:00
17	Q. Okay. And so Mr. Trump's deposition	14:35:02
18	is your support for your statement that the error	14:35:06
19	was "quickly corrected" as soon as it was	14:35:10
20	discovered; that correct?	14:35:12
21	A. Yes, sir, per the citation.	14:35:14
22	Q. Okay. And there is no other support	14:35:15
23	that you have for that statement; is that right?	14:35:17
24	A. That's correct.	14:35:18
25	Q. And why is it your opinion that this	14:35:22

INDEX NO. 452564/2022

		Page 209
1	CONFIDENTIAL - ROBERT E. UNELL	
2	error was immaterial in nature?	14:35:24
3	A. When you look at the overall impact	14:35:26
4	or lack thereof impact on the overall scope of	14:35:29
5	things, it was immaterial. It was also in the	14:35:33
6	eyes of the user. It was a personal residence.	14:35:36
7	Personal residences are oftentimes exuded as	14:35:41
8	well. Therefore, it would also be immaterial	14:35:44
9	because lenders a lot of time whether it's	14:35:46
10	homestead or et cetera. Exclude personal	14:35:49
11	financial excuse me, exclude personal	14:35:50
12	residences, as was the case here.	14:35:53
13	Q. But you would agree that the impact	14:35:55
14	of this error was material to the valuation of	14:35:59
15	the triplex itself; is that fair to say?	14:36:03
16	A. I'm not an appraiser. So I can't	14:36:05
17	opine on whether or not that there was you	14:36:07
18	know, how material or if it was material or not	. 14:36:11
19	Q. Okay. Well, setting aside	14:36:13
20	materiality, would you agree that the change in	14:36:15
21	square footage of the triplex affected the	14:36:19
22	valuation of that asset?	14:36:23
23	A. It could have, but I didn't perform a	a 14:36:24
24	valuation. I'm not licensed to do so. So I	14:36:26
25	can't opine on that impact.	14:36:29

2	Q. Well, you do say in your report,	14:36:31
3	"There was an error in the reporting relating to	14:36:33
4	the triplex apartment asset due to the use of	14:36:35
5	inaccurate square footage estimate."	14:36:39
6	So, I mean, do you stand behind that	14:36:42
7	statement in your report?	14:36:44
8	A. Yes.	14:36:45
9	Q. So you agree that the error in the	14:36:45
10	square footage estimate affected the valuation of	14:36:50
11	the triplex apartment asset?	14:36:53
12	A. It could have affected it. I haven't	14:36:54
13	reviewed the appraisals to determine what other	14:37:00
14	assumptions and analysis perhaps that went into	14:37:02
15	there could have also impacted the value.	14:37:04
16	Neither am I a appraiser that is able to opine on	14:37:07
17	values in the State of New York.	14:37:09
18	Q. Understood.	14:37:10
19	But you do say here that there was an	14:37:11
20	error in the reporting relating to the triplex	14:37:14
21	apartment. So I'm just trying to make sure that	14:37:16
22	I understand correctly that you agree that there	14:37:18
23	was an error in the reporting relating to the	14:37:20
24	triplex apartment.	14:37:22
25	A. Per the report, there was an error.	14:37:23

Page 211 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. Right. But it's your report. 14:37:26 3 So that's your opinion, correct? 14:37:28 That's correct. 14:37:30 5 So getting back to the question we 14:37:35 14:37:37 6 were talking about a moment ago. 7 Would you agree that the square 14:37:40 footage is an example of an objective fact that 14:37:43 8 someone appraising the value of the triplex 14:37:46 apartment would rely upon? 14:37:49 10 A. I can't say what an appraiser would 11 14:37:51 12 rely upon. It is an objective fact, but I am not 14:37:52 in a position to say what a appraiser relied upon 14:37:57 13 or did not rely upon. It's not part of my scope. 14:38:00 14 Q. Okay. But as someone who has spent 14:38:03 15 16 their career in real estate lending, is it your 14:38:06 opinion that the size of a property is related to 17 14:38:08 18 the value of that property? 14:38:11 A. Yes, but not always, especially in 14:38:13 19 20 the context of trophy real estate. 14:38:15 21 Q. Okay. And you had mentioned that one 14:38:20 of the sources of information that you used to 14:38:32 22 23 see that this error was corrected was the 14:38:35 24 subsequent Statements of Financial Condition; is 14:38:37 25 that fair? 14:38:39

	Pag	ge 212
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. Well, actually, after reading the	14:38:40
3	report and seeing it, it would have been the	14:38:42
4	citation, actually, is correct in the report. As	14:38:44
5	it reads, would have been the primary would	14:38:47
6	have been from President Trump's deposition.	14:38:49
7	Without having the benefit of those statements in	14:38:52
8	front of me, I don't want to elaborate further	14:38:54
9	because I don't have any proof of that in front	14:38:58
10	of me.	14:39:02
11	And, quite honestly, it was so	14:39:02
12	immaterial, that it was something that did not	14:39:04
13	garner a ton of attention.	14:39:07
14	Q. Do you recall whether in reviewing	14:39:09
15	the Statements of Financial Condition that review	14:39:11
16	would have verified that the asset value for the	14:39:15
17	triplex changed over time?	14:39:18
18	A. I don't recall specific asset values.	14:39:19
19	Q. And absent Mr. Trump's testimony and	14:39:28
20	absent the ability to review later Statements of	14:39:31
21	Financial Condition, do you have an opinion about	14:39:37
22	whether a user of say the 2011 Statement of	14:39:38
23	Financial Condition would have been able to look	14:39:42

3	A. Absolutely. If the road map was	14:39:52
4	there and that information was provided, they	14:39:55
5	would have had adequate information to be able	14:39:56
6	verify that, if they wished to.	14:39:59
7	Q. What would that "road map" be?	14:40:00

Page 214 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. And so this is a description of Nike 14:41:04 14:41:10 3 Town; is that correct? Α. Yes. 14:41:10 5 Are you familiar with Nike Town? 14:41:11 14:41:13 6 Α. Yes. 7 And can you just explain what that is 14:41:13 for the record? 14:41:15 8 9 A. It's retail store that is owned by 14:41:16 the Trump Organization. 14:41:19 10 Q. Okay. So looking at the last 11 14:41:20 12 paragraph here it reads, quote, "The current 14:41:24 value of \$263,700,000 reflects the net proceeds 13 14:41:29 which Mr. Trump in conjunction with his 14:41:34 14 associates and outside professionals expect to be 14:41:37 15 16 derived from rental activities pursuant to the 14:41:40 17 lease described above, as well as the residual 14:41:43 18 value of the property." 14:41:46 19 So is it your opinion that this 14:41:47 20 language here in the Statements of Financial 14:41:54 21 Condition adequately discloses the valuation 14:41:57 methodology to a user of this statement? 14:41:59 22 23 A. Not by itself but it does provide 14:42:02 24 enough information for the user to be able to 14:42:05 draw their own conclusions when taken into whole 25 14:42:07

3	Nike Town.	14:42:13
4	Q. You say, "not by itself."	14:42:15
5	Sorry, what do you mean by that?	14:42:17
6	A. Well, it doesn't contain the square	14:42:19
7	footage, which is contained in the first	14:42:21
8	paragraph. It doesn't talk about the ownership	14:42:23
9	structure, which is the equity interest in the	14:42:27
10	leases. It doesn't talk about the date of the	14:42:30
11	lease. All of that is up above and it doesn't	14:42:36
12	talk about lease term, which is in the second	14:42:39
13	paragraph. It doesn't talk about the bonds,	14:42:40
14	which these are all factors that taken in with	14:42:42
15	the other would lead the reader to have enough	14:42:46
16	information to form their own opinion.	14:42:48
17	Q. So your opinion is that taken as a	14:42:53
18	whole, the information in this note would provide	14:42:55
19	the user to verify the valuation opinion	14:42:57
20	expressed here by Mr. Trump?	14:43:01
21	A. If the user deemed it to be	14:43:04
22	necessary, there is enough information here.	14:43:06
23	Q. Okay, great.	14:43:09
24	MR. LADOV: So I want to introduce a	14:43:10
25	new document. And this is the supporting	14:43:11

23	Statement of Financial Condition for this	14:44:30

25	A. It appears to be. But based on this,	14:44:35

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023 Page 217 1 CONFIDENTIAL - ROBERT E. UNELL I'm not a hundred percent certain. But I would 14:44:38 3 say it appears to be based off a quick review. 14:44:41 Q. And in this document, it states for 14:44:46 5 Nike Town, quote, "Valuation is based on the par 14:44:49 value of the bonds, which were issued as part of 14:44:52 a Section 144A securitization in November 1995. 14:44:55 7 Since bonds are, essentially, a mortgage on the 14:45:00 8 property and a lender will not lend 100 percent 14:45:03 of the value of the asset, the par value of the 14:45:06 10 bonds is deemed to be 75 percent of the value of 11 14:45:09 12 the asset. This amount has been increased 14:45:11 6 percent per year since the bonds were issued." 14:45:15 13 And then there is a figure showing 14:45:18 14 bonds issued in November '95, a loan to value of 14:45:20 15 75 percent and an estimated property value of a 14:45:24 17 little bit over \$123 million and then you'll see 14:45:27 18 a chart in the Excel spreadsheet here where that 14:45:30 value is increased by 6 percent up through 2011. 14:45:33 19

That's what this sheet would say.

And would you agree that the asset

Page 218 1 CONFIDENTIAL - ROBERT E. UNELL value for Nike Town in this underlying worksheet 14:46:00 is the same as the asset value of Nike Town in 3 14:46:04 the statement that we just reviewed? 14:46:07 5 A. Yes, both for 263,700,000. 14:46:09 Q. But would you also agree that the 6 14:46:13 14:46:15 7 methodology disclosed in the underlying worksheets is very different from the methodology 14:46:17 8 disclosed in the Statement of Financial Condition 14:46:20 in that last paragraph? 14:46:22 10 A. Without studying the numbers and 11 14:46:23 12 seeing the actual Excel spreadsheet, I can't give 14:46:25 you an answer one way or that here, to be able to 14:46:27 13 14 analyze -- based on the narrative, there appears 14:46:31 to be a difference. However, without looking at 14:46:33 15 16 the actual number and I'm not an appraiser, I 14:46:35 17 can't provide that answer today. 14:46:38 18 Q. Right. Well, you know, again, I 14:46:40 believe that the numbers are here. So let's just 14:46:42 19 20 take a second. 14:46:44 21 At a very high level -- understanding 14:46:46 22 that I'm not asking you in any way, shape or form 14:46:48 23 for an appraisal opinion. 14:46:50 24 But how would you understand the 14:46:51 25 valuation methodology as disclosed in the 14:46:54

Page 219 1 CONFIDENTIAL - ROBERT E. UNELL 2 worksheet that you're looking at right now? 14:46:56 MR. ROBERT: Objection to form. 3 14:46:58 I haven't -- I am not an appraiser, 14:46:58 5 to be honest with you. I'm happy to do so, but 14:47:00 14:47:03 it would just take -- just as I would take the 6 time to look at any analysis for a piece of 14:47:05 7 property. We're talking about a property that's 14:47:08 8 65,000 square feet, trophy property with a 14:47:10 long-term lease. I can't and neither am I 14:47:13 10 11 licensed to provide, you know, any sort of 14:47:16 12 opinion as to the value or methodology here. 14:47:19 That would be outside of my scope. 14:47:22 13 14 Do you agree based on the language at 14:47:26 the top of this that the "valuation is based on 14:47:30 15 16 the par value of the bonds, as a starting point, 14:47:34 17 and then it is adjusted over time to reach the 14:47:38 18 2011 valuation? 14:47:40 I -- once again, without studying it 14:47:41 19 20 -- and I'm happy to do so, but it would take 14:47:44 21 perhaps even seeing the raw data to go into it, 14:47:47 as well as the calculations. I cannot provide 22 14:47:49 23 with any sort of certainty an answer as it 14:47:52 24 relates to the valuation on this spreadsheet. 14:47:54 Q. Okay. And looking back at the 25 14:47:56

2	Statement of Financial Condition, would you agree	14:47:58
3	that this document asserts that the current value	14:48:01
4	of \$263,700,000 reflects the net proceeds, which	14:48:05
5	Mr. Trump in conjunction with his associates and	14:48:11
6	outside professionals, expect to derive from	14:48:13
7	rental activity pursuant to the lease on Nike	14:48:16
8	Town, as well as the residual value of the	14:48:19
9	property?	14:48:22
10	A. That's what's stated in the SOFC.	14:48:22
11	Q. Okay. So would you agree that the	14:48:25
12	valuation methodology described in that statement	14:48:26
13	is very different from the methodology described	14:48:30
14	in the underlying worksheet?	14:48:33
15	MR. ROBERT: Objection to form.	14:48:34
16	A. I cannot agree or disagree, because I	14:48:35
17	have not had ample time to study the worksheet to	14:48:37
18	determine how the net proceeds along with the	14:48:41
19	current value in the rents were to determine	14:48:46
20	that. I'm happy to go pull out a calculator and	14:48:48

22	and I'm not in a position to opine on numbers	14:48:53

Page 221 1 CONFIDENTIAL - ROBERT E. UNELL proceeds. We're also talking about current 14:49:03 3 values. There are a lot of variables that go 14:49:06 into here that at first glance I'm not able to 14:49:08 5 give an opinion on. 14:49:10 6 Q. Okay. Does it remain your opinion 14:49:11 that a user of the Statement of Financial 14:49:13 7 Condition who only has the statement itself and 14:49:16 8 the notes and does not have this worksheet that 14:49:18 we're looking at right now could evaluate 14:49:22 10 11 adequately whether the valuation being asserted 14:49:25 12 in this statement is correct if that valuation 14:49:27 is, in fact, based on the methodology disclosed 14:49:29 13 in the worksheet? 14:49:31 14 There is enough information on the 14:49:33 15 Statement of Financial Condition to allow a user 14:49:37 17 to perform their own analysis on the valuation of 14:49:39 the property. 18 14:49:42 Q. Does this note in the statement 14:49:43 19 indicate in any way that the methodology used to 20 14:49:48 21 value Nike Town is based on the par value of the 14:49:51 bonds? 14:49:54 22 23 No. But I'm also not able to tell 14:50:05 24 whether or not that -- how the bonds are treated 14:50:08 in the net proceeds, which is one of the analysis 25 14:50:10

INDEX NO. 452564/2022

	Pa	ge 222

2	that would need to be done.	14:50:12
3	So, you know, I can say that, no, it	14:50:14
4	doesn't state it there, but I'm also not able to	14:50:16
5	say with any certainty as to actually what was	14:50:19
6	done to be able to say one way or the other,	14:50:21
7	because there is no way for me without going	14:50:24
8	through and diving in and doing the analysis to	14:50:27
9	determine what the net proceeds are and how those	14:50:30
10	were derived.	14:50:33
11	Q. Okay. So it remains your testimony	14:50:34
12	that a user of this statement has all of the	14:50:36
13	information that they need to understand how Mr.	14:50:38
14	Trump valued the Nike Town property here?	14:50:42
15	A. They have enough information to be	14:50:45
16	able to do their own analysis to validate whether	14:50:47
17	or not they felt comfortable with the valuation	14:50:51
18	provided.	14:50:53
19	Q. And I believe earlier you mentioned	14:50:58
20	that you're familiar with Jason Flemmons,	14:51:00
21	correct?	14:51:04
22	A. I know of Mr. Flemmons. I've	14:51:05
23	actually never met him.	14:51:07
24	Q. Okay. And is it fair to say that	14:51:08
25	Mr. Flemmons is one of the accounting experts who	14:51:13

INDEX NO. 452564/2022

Page 223 1 CONFIDENTIAL - ROBERT E. UNELL works at Ankura, who is also working on this 14:51:16 2 14:51:18 3 matter? I know he works at Ankura. I could 14:51:18 5 not tell you what he is an expert in or whatnot. 14:51:20 6 But Mr. Flemmons is an Ankura employee, yeah, 14:51:23 7 that's involved in this case. 14:51:27 Q. Okay. And you haven't read his 14:51:28 8 9 report, correct? 14:51:30 10 A. No, sir. 14:51:31 Q. Okay. So I don't have it as an 11 14:51:31 12 exhibit, but I'm just going to read you a 14:51:36 paragraph from Mr. Flemmons' rebuttal report. 13 14:51:38 A. Uh-huh. 14:51:40 14 In Paragraph 51, he states, quote --14:51:41 15 16 and I apologize. 14:51:45 17 MR. ROBERT: Give us a second. We'll 14:51:45 18 pull it up on our screen here. 14:51:47 19 MR. LADOV: Okay, sure. 14:51:47 20 MR. ROBERT: You said 51? 14:51:53 21 MR. LADOV: Yeah, Paragraph 51. 14:51:54 So this is a section in his report 22 14:51:56 Q. 23 entitled, "Changes in Valuation Methodology, 14:51:58 24 Accuracy of Selected Valuation Methods 14:52:02 Disclosures Nike Town." 14:52:02 25

INDEX NO. 452564/2022

	Pag	ge 224
1	CONFIDENTIAL - ROBERT E. UNELL	
2	And in Paragraph 51 he writes, quote,	14:52:04
3	"I agree with Mr. Louis" and I'll just let you	14:52:07
4	know that Mr. Louis is an accounting expert who	14:52:11
5	is working for the Office of the Attorney General	14:52:13
6	in this case.	14:52:15
7	A. Okay.	14:52:16
8	Q. So he writes, quote, "I agree with	14:52:16
9	Mr. Louis that the method used to estimate	14:52:18
10	current value for Nike Town as disclosed in the	14:52:21
11	2011, 2012 and 2013 SOFCs does not appear to be	14:52:24
12	accurate, because the disclosed method is	14:52:30
13	inconsistent with the method used in the	14:52:33
14	supporting calculations. However, given that the	14:52:35
15	method was fully transparent in this support and	14:52:38
16	does not match the narrative description used in	14:52:40
17	the SOFC disclosure, it appears that the mismatch	14:52:43
18	between the actual method used and the disclosed	14:52:45
19	method was overlooked by Defendants and Mazars."	14:52:47
20	So does that paragraph affect your	14:52:54
21	opinion about whether a user who only had the	14:52:56
22	Statement of Financial Condition and did not have	14:53:00
23	the underlying notes could adequately evaluate	14:53:02
24	whether the valuation in the statement is	14:53:04
25	accurate?	14:53:07

INDEX NO. 452564/2022

Page 225 1 CONFIDENTIAL - ROBERT E. UNELL 2 A. No, it doesn't change, because 14:53:08 3 anybody evaluating this had the property details 14:53:10 including the lease information, the size of the 14:53:14 5 asset, enough to be able to perform their own 14:53:16 analysis. And they were also able to ask for 6 14:53:19 additional information that they needed in 14:53:23 7 performing their own analysis, if they didn't 14:53:25 8 have it. 9 14:53:27 10 So I'd like to turn back to your 14:53:37 14:53:39 11 report. 12 Can I put this one away? 14:53:40 13 Yeah, you can put that all away. 14:53:42 Can you take a look at Paragraph 7? 14 14:53:46 14:54:12 15 Α. Yes, sir. 16 And would you mind reading that into 14:54:12 14:54:14 17 the record? 18 No problem. 14:54:15 19 "The most important factors in 14:54:15 20 underwriting a commercial real estate loan are 14:54:18 21 the collateral itself and the business plan, as 14:54:20 cash flow from the asset is the primary source of 22 14:54:22 23 repayment." 14:54:24 24 Q. Alright. Is it your opinion that 14:54:25 that statement is equally true when applied to a 25 14:54:29

Page 228 1 CONFIDENTIAL - ROBERT E. UNELL 2 Question: And do you have an 14:56:32 3 understanding as to why that internal policy 14:56:33 exists for Private Wealth Management? 14:56:35 5 Answer: It's to provide a 14:56:37 distinction between lending on commercial real 6 14:56:40 14:56:42 7 estate within wealth management as opposed to lending secured by commercial real estate in the 14:56:45 8 9 investment bank. 14:56:47 10 Question: And why is that 14:56:48 distinction important to Deutsche Bank?" 11 14:56:50 12 "Objection to form" from Counsel. 14:56:52 13 Answer: Within wealth management 14:56:55 we're focused -- our analysis is focused 14 14:56:59 predominantly on the individual first. In the 14:57:00 15 16 investment bank, the approach is to the 14:57:03 commercial real estate asset primarily." 17 14:57:04 18 So is it correct that Mr. Williams is 14:57:07 describing underwriting distinctions between 14:57:11 19 20 Deutsche Bank's Private Wealth Management and 14:57:13 Commercial Real Estate Divisions? 21 14:57:16 14:57:17 22 It appears that's what he's 23 describing. 14:57:19 Q. Okay. And his description of CRE 24 14:57:19 underwriting on the investment side bank of 25 14:57:28

Page 229 1 CONFIDENTIAL - ROBERT E. UNELL Deutsche Bank is consistent with the opinion that 14:57:30 2 3 you express in Paragraph 7; is that correct? 14:57:32 Α. Yes. 14:57:40 5 But would you agree that 14:57:40 Mr. Williams' testimony is that for Deutsche Bank 6 14:57:42 7 Private Wealth Management, the individual 14:57:44 guarantor and the financial resources possessed 14:57:46 8 by that guarantor were a quote, "predominant" 14:57:49 focus of their underwriting analysis? 14:57:55 10 11 That's his testimony. 14:57:56 12 Okay. So I believe that you said a 14:57:58 little while ago that you think that there is no 14:58:00 13 distinction -- well, actually, withdraw that. 14:58:03 14 Is it your opinion that there are no 14:58:08 15 16 distinctions between the underwriting on a loan 14:58:10 17 to purchase a commercial real estate asset when 14:58:17 18 that underwriting is done by a Private Wealth 14:58:20 Management Division of a bank compared to the CRE 14:58:22 19 division of a bank? 14:58:26 20 21 They are extremely similar. 14:58:27 And so by "extremely similar," does 22 14:58:31 23 that mean that you are agreeing that there are 14:58:34 24 differences in the underwriting process? 14:58:36 A. Not of the collateral or the 25 14:58:38

2	repayment source or the reasons for doing the	14:58:40
3	loan. A lender is not going to do a loan just	14:58:43
4	based solely on a guarantor. If a lender doesn't	14:58:45
5	like the collateral for real estate, it's a deal	14:58:49
6	stopper. So, to say that they rely on the	14:58:51
7	individual first, I would disagree with	14:58:55
8	Mr. Williams. And it's contrary to actual OCC	14:58:57
9	policy as well.	14:59:01
10	Q. So, just to be clear, are you	14:59:04
11	disagreeing with Mr. Williams' description of the	14:59:05
12	differences in underwriting within Deutsche Bank?	14:59:09
13	A. I think it's contrary to some of	14:59:14
14	their policies when it comes to collateral. And	14:59:17
15	I think that he may have been a little bit	14:59:18
16	mistaken.	14:59:21
17	But I stand by my opinion that the	14:59:23
18	most important factors in underwriting a	14:59:25
19	commercial real estate loan are the collateral.	14:59:27
20	Cause if you don't like your collateral, you	14:59:29
21	don't make the loan. It doesn't matter who the	14:59:31
22	sponsor is. And if that was the case and you	14:59:33
23	didn't like the collateral, then perhaps you	14:59:36
24	would look at what we discussed earlier into an	14:59:37
25	unsecured loan where the collateral for real	14:59:40

2	estate wasn't in play. If you don't like the	14:59:42
3	real estate, you don't do the loan. If you don't	14:59:44
4	like your primary source of prepayment, you don't	14:59:49
5	do the loan no matter who the guarantor is.	14:59:52
6	Q. When you say that, if you didn't like	14:59:57
7	the collateral, perhaps you would look into an	14:59:59
8	unsecured loan, I guess what do you mean by that?	15:00:02
9	A. Well, if you don't like the	15:00:05
10	collateral and you're in a high net worth, they	15:00:06
11	offer nonrecourse unsecured loans at Deutsche	15:00:09
12	Bank.	15:00:13
13	Q. And, sorry, when you say,	15:00:14
14	"nonrecourse unsecured loans," how are you using	15:00:16
15	"nonrecourse" in that sentence?	15:00:20
16	A. Totally unsecured un-guarantor lines	15:00:21
17	of credit.	15:00:25
18	Q. So it's in what you're describing	15:00:26
19	as a nonrecourse guarantor loan, there is	15:00:28
20	recourse as to the guarantor?	15:00:31
21	A. There could be or there could not be.	15:00:34
22	Q. Well, what would be the security	15:00:36
23	interest for the bank in that loan?	15:00:38
24	A. Sometimes there's none. Sometimes	15:00:40
25	it's done on margin. But what I'm still standing	15:00:43

	Paç	ge 232
1	CONFIDENTIAL - ROBERT E. UNELL	
2	by is that if the commercial real estate securing	15:00:45
3	the loan isn't adequate, it's a deal stopper no	15:00:49
4	matter who the guarantor is. Therefore, the loan	15:00:53
5	the real estate collateral and the business	15:00:56
6	plan for that are the most important things in	15:00:59
7	underwriting a commercial real estate loan	15:01:03
8	whether it is done at PWM, whether it's done by	15:01:04
9	CRE, whether it's done by any bank or lending	15:01:09
10	institution, because that is their primary and	15:01:12
11	sole first line of defense for repayment and the	15:01:15
12	ability to service the debt.	15:01:18
13	Q. Okay. And I know that you already	15:01:22
14	said this but just to	15:01:23
15	But you agree that the opinion that	15:01:23
16	you just expressed is different than the	15:01:25
17	testimony that Mr. Williams is offering in the	15:01:27
18	excerpt that I just read you, correct?	15:01:29
19	A. It says, "individual first." It	15:01:34
20	doesn't say that collateral is not important. It	15:01:35
21	says, "first." And I would disagree with that,	15:01:39
22	that it is first. Because, once again, why would	15:01:42
23	you waste your time underwriting a deal, if you	15:01:44

5	It is Page 4. It appears twice in the document	15:03:04

6	Q. And, by the way, just for the record,	15:04:12

8	A. Special Purpose Vehicle, yes.	15:04:19

16	Q. So Deutsche Bank says here that, "the	15:04:34

4	here on Page 1 is the collateral, which is the	15:04:59
5	most important thing. The other things that are	15:05:02
6	also most important, which when taken in its	15:05:04

8	Those are what's there.	15:05:12
9	If you take this in its totality,	15:05:13

2	McCarty report falsely states without any support	15:06:14
3	loans in DB's PWM group are primarily supported	15:06:17
4	by the guaranty of the UHNWI. The report does	15:06:20

6	the primary source of repayment for commercial	15:06:28
7	real estate loans made by the PWM group at	15:06:30
8	Deutsche Bank. This misleading and false	15:06:32

13	of the UHNWI. This statement is wrong and	15:06:45
14	inconsistent with commercial real estate lending,	15:06:48

22	MR. LADOV: So I'd now like to	15:07:10

4	Q. AND are you familiar with this	15:07:34
5	report, Mr. Unell?	15:07:36
6	A. Yes, sir.	15:07:36
7	Q. And, by the way, you noted in the	15:07:37
8	excerpt we just read that or you stated in the	15:07:45
9	excerpt we just read that UHNWI was not defined	15:07:49
10	in the McCarty report.	15:07:52
11	But I think we can all agree that	15:07:53
12	that acronym stands for Ultra High Net Worth	15:07:55
13	Individual, correct?	15:07:58
14	A. That's my understanding, yes.	15:07:59
15	Q. So the footnote in the paragraph that	15:08:00
16	you just read refers to McCarty Page 12. So I'd	15:08:03
17	like to turn to that page. And Paragraph 35	15:08:06

19	last report. So I'm going to read that paragraph	15:08:20
20	into the record.	15:08:22
21	A. Okay.	15:08:22
22	Q. So Mr. McCarty wrote in this	15:08:26
23	paragraph, quote, "Lending that is based on the	15:08:30

5	loans are supported by the financial performance	15:08:49
6	and assets of the borrowing entity and the	15:08:51
7	strength of the collateral. Whereas loans in	15:08:54
8	DB's PWM group are primarily supported by the	15:08:56

14	So this is this passage is	15:09:15
15	referred to in your rebuttal report; is that	15:09:20
16	correct?	15:09:22
17	A. That's correct.	15:09:22
18	Q. And you say that this passage is	15:09:23
19	false and misleading; is that correct?	15:09:25
20	A. Correct.	15:09:27
21	Q. And why do you say that?	15:09:27
22	A. Because a guaranties never repay the	15:09:29
23	loan. Collateral repays loans, not guaranties.	15:09:32
24	Q. And where in this passage is Mr.	15:09:37
25	McCarty saying that collateral doesn't repay	15:09:40

INDEX NO. 452564/2022

That is --15:09:47 6 he's trying to, in my opinion, say that the PWM 15:09:49 group played by different rules than CRE. 15:09:56 7 And I am telling you, in my opinion, 15:09:59 8 in my experience, there is no differential. Real 15:10:01 estate secured collateral -- real estate loans --15:10:05 10 secured real estate loans are treated the same. 11 15:10:09 12 There is no distinction amongst a regulator, an 15:10:11 underwriter a source of repayment between where a 15:10:15 13 loan is originated and whatnot. The fundamentals 15:10:18 14 remain the same that at the end of the day you 15:10:21 15 are underwriting credit risk. And that credit 15:10:24 risk is what is determined by your primary source 17 15:10:27 18 of repayment. 15:10:29 The primary source of repayment, as 15:10:30 19 20 noted in this and consistent with my experience, 15:10:32 21 is the first lien mortgage on a real estate asset 15:10:35 as collateral. The secondary would be other 15:10:40 22 23 items and then tertiary would be that. 15:10:43 24 So I am not in agreement that that is 15:10:46 25 And I stand by that the fundamentals 15:10:49

2	of commercial real estate secured lending do not	15:10:51
3	change no matter where a loan is originated.	15:10:54
4	Q. So you stand by the opinion that Mr.	15:10:57
5	McCarty is drawing a false and misleading	15:10:59
6	distinction in this paragraph between PWM and CRE	15:11:02
7	underwriting; is that correct?	15:11:07
8	A. I believe that Mr. McCarty is placing	15:11:08
9	weight first on a guaranty versus overlooking the	15:11:13
10	other very very important characteristics of	15:11:15
11	the loan, which are the repayment and the	15:11:19
12	collateral and the performance of the loan, and	15:11:22
13	placing this first being that it was a guarantor	15:11:25
14	driven, not a collateral driven and is also	15:11:28
15	trying to distinguishing a difference between PWM	15:11:31
16	lending and CRE lending.	15:11:35
17	However, I will say in my experience,	15:11:37
18	again, I do not see any distinction between real	15:11:40
19	estate secured collateral no matter where a loan	15:11:44
20	is originated and they still have the same sort	15:11:46

2	But where in this paragraph is Mr.	15:12:04
3	McCarty misstating the primary source of	15:12:09
4	repayment for the Doral loan?	15:12:12
5	A. Well, I think, that he says the focus	15:12:13
6	of a credit review for a loan issued through DB	15:12:15
7	was on the financial statements and assets of the	15:12:18
8	UHNWI.	15:12:21
9	Q. Right.	15:12:22
10	A. There is no reference to, as I state	15:12:22
11	in my opinion, that the focus of any commercial	15:12:25
12	real estate secured loan is on the collateral.	15:12:30
13	Q. So he's not referencing the source of	15:12:34
14	repayment, correct?	15:12:39
15	A. No, he's not he's not he's not	15:12:40
16	only not referencing it. He's also ignoring that	15:12:43
17	the focus would not be on financial statements.	15:12:48
18	My opinion is that the focus would be on the	15:12:51
19	project is what repays you. A guarantor or	15:12:54
20	guaranty never repays it doesn't repay a loan.	15:13:00
21	What repays the loan is the collateral that kicks	15:13:03
22	off the income.	15:13:06
23	Q. So, I guess, we agree, though, that	15:13:09
24	Mr. McCarty's report is silent about the primary	15:13:12
25	source of repayment on the loan, correct?	15:13:16

INDEX NO. 452564/2022 RECEIVED NYSCEF: 08/30/2023

Page 243 1 CONFIDENTIAL - ROBERT E. UNELL 2 A. Based on what I have read, it appears 15:13:19 3 in my reading that Mr. McCarty is stating that 15:13:22 the financial statements and assets of the ultra 15:13:25 5 high net worth individual would be part of the 15:13:31 15:13:32 6 repayment. 7 Why do you say that? 15:13:33 Well, if it's the primary focus --15:13:34 8 9 that's what the focus of the bank is, to get 15:13:36 repaid. So why are you going to focus on that, 15:13:38 10 if that's not your primary sort of repayment? It 15:13:41 11 12 seems counterintuitive. 15:13:44 So, when Mr. McCarty says that, "the 15:13:45 13 focus of the credit review for a loan issued 15:13:46 14 through DB's PWM group was on the financial 15:13:49 15 16 statements and assets of the ultra high net worth 15:13:51 17 individual," you interpret that as him saying 15:13:55 18 that -- well, you know, strike that. 15:14:00 19 Alright. Why don't we move onto 15:14:01 20 looking again at your rebuttal report. 15:14:30 21 Α. Yes, sir. 15:14:32 15:14:33 22 Q. Paragraph 54. 23 A. Let me get the right one, which is... 15:14:34 24 did you say 54, sir? 15:14:42 25 Q. Yeah. I'm -- yes. I' sorry. 15:14:44

2	MR. ROBERT: 54 of the rebuttal,	15:14:44
3	right?	15:14:44
4	MR. LADOV: I'm looking at the wrong	15:14:47
5	report. So give me a second.	15:14:47
6	Q. So I'm looking at your rebuttal	15:14:49
7	report, Mr. Unell, Paragraph 54.	15:14:51
8	A. Page 19 to make sure we're	15:14:53
9	Q. So would you just mind reading the	15:15:11
10	first sentence of Paragraph 54 into the record.	15:15:15
11	A. "The use of unsecured lending	15:15:20
12	guidelines is also improper since all the subject	15:15:23
13	lines were fully secured by commercial real	15:15:25
14	estate and any analysis of a guarantor was done	15:15:27
15	as an abundance of caution."	15:15:29
16	Q. And, just as a factual matter, are	15:15:32
17	you certain that all of the subject loans were	15:15:34
18	fully secured by commercial real estate?	15:15:36
19	A. To the best of my knowledge, I	15:15:38
20	believe so. I think there may have been some	15:15:40
21	steps down or something there. But, I mean, the	15:15:43
22	loans there were leaseholds or what they	15:15:46
23	may not have been fee simple, but it could have	15:15:48
24	been, yes.	15:15:51
25	Q. Are you aware of whether there was a	15:15:51

	Pag	ge 245
1	CONFIDENTIAL - ROBERT E. UNELL	
2	tranche of the Doral loan that was unsecured in	15:15:53
3	order to maintain an adequate loan to value ratio	15:15:56
4	in the loan tranche?	15:15:59
5	A. At one point, I believe, there may	15:16:00
6	have been. But I think that that was modified	15:16:02
7	fairly quickly once the appraised value came in.	15:16:05
8	Q. But I guess you do agree that despite	15:16:08
9	the sentence in your report, that all of the	15:16:11
10	subject loans were fully secured, that there was	15:16:13
11	an unsecured tranche of the Doral loan	15:16:17
12	A. Yeah.	15:16:19
13	Q at the time of origination?	15:16:20
14	A. Yes, there was a small portion	15:16:21
15	throughout the tranche.	15:16:26
16	Q. And, in this paragraph, if you read a	15:16:31
17	little bit further, you claim that the McCarty	15:16:37
18	report, quote, "relies heavily on an analysis	15:16:39
19	used for unsecured lending in a secured lending	15:16:42
20	transaction, which is not an appropriate	15:16:46
21	comparison"; is that a fair statement from your	15:16:49
22	opinion?	15:16:52
23	A. Yes, sir.	15:16:53
24	Q. And in reaching that opinion, did you	15:16:54
25	review the Doral credit memo that we just looked	15:16:56

	Pa	age 246
1	CONFIDENTIAL - ROBERT E. UNELL	
2	at?	15:16:59
3	A. Yes, sir.	15:16:59
4	Q. And do you disagree that the Doral	15:17:01
5	credit memo applied Deutsche Bank's unsecured	15:17:04
6	lending guidelines?	15:17:07
7	A. Yes, as an abundance of caution.	15:17:08
8	Q. Sorry, I think, my question is, do	15:17:13
9	you disagree that Deutsche Bank applied the	15:17:18
10	unsecured lending guidelines?	15:17:24
11	A. I'm not following you.	15:17:27
12	Q. Sorry. It's a bad time of the	15:17:28
13	afternoon for double negatives, I guess.	15:17:30
14	So do you agree that the Deutsche	15:17:33
15	Bank credit report applied unsecured lending	15:17:36
16	guidelines when underwriting the Doral loan?	15:17:40
17	A. It was part of their analysis.	15:17:41
18	Q. Okay. And so why do you believe that	15:17:42
19	Mr. McCarty's report is false and misleading for	15:17:48
20	pointing out that Deutsche Bank relied on an	15:17:50
21	analysis used for unsecured lending as part of	15:17:53
22	this underwriting process?	15:17:56
23	A. Because, I believe, Mr. McCarty	15:17:59
24	utilized that as a basis to form an opinion that	15:18:00
25	the loan would not have been otherwise made,	15:18:03

2	which is contradictory to testimony that I've	15:18:05
3	read from the Deutsche Bank personnel, and is	15:18:09
4	also contradictory to my experience in	15:18:12
5	underwriting transactions.	15:18:15
6	Q. But, at least, it does sound like	15:18:17
7	everybody, including yourself and Mr. McCarty	15:18:19
8	agree that as part of PWM's underwriting process,	15:18:21
9	they applied the unsecured lending guidelines of	15:18:26
10	Deutsche Bank; is that fair?	15:18:29
11	A. No, they did not apply.	15:18:30
12	Q. Why do you say that?	15:18:31
13	A. They tested them. If they would have	15:18:32
14	applied them, that would have been criteria for	15:18:34
15	approval. There is nowhere that the criteria and	15:18:37
16	the testing that was done was relied upon for any	15:18:39
17	of the approval. It's relied on as it says for	15:18:42
18	unsecured. It is not anything that was relied	15:18:45
19	upon or it's even there's testimony that	15:18:49
20	states, well, you know, it really doesn't matter,	15:18:52
21	because if they didn't hit some of the ratios,	15:18:55
22	what's the big deal? And, you know, I paraphrase	15:18:57
23	that.	15:19:00
24	But, yeah, it's you know, it's	15:19:00
25	done. But it's a stress test. That's what bank	15:19:04

RECEIVED NYSCEF: 08/30/2023

Page 248 1 CONFIDENTIAL - ROBERT E. UNELL They stress test. And that's what was done 15:19:07 3 here. But it was done solely as an abundance of 15:19:10 caution. 15:19:14 5 Q. Okay. So your citation for this 15:19:14 sentence where you talk about the "abundance of 6 15:19:18 caution" is the deposition of Tom Sullivan. 15:19:21 7 Is that the support that you're using 15:19:23 8 for that opinion? 15:19:25 A. As well as my experience too. But, 15:19:26 10 11 yes, I mean, Mr. Sullivan's deposition does aid 15:19:29 12 in that opinion. 15:19:33 13 Q. Okay. So I'd like to introduce as 15:19:34 Exhibit 14 the deposition transcript for 15:19:37 14 Mr. Sullivan. 15:19:40 15 16 (Deposition Exhibit Unell 14, 15:19:40 17 Deposition transcript of Tom Sullivan dated 15:19:40 18 3/24/23, was marked for identification.) 15:19:51 19 A. I have to get organized here. We're 15:19:51 20 going deep now. 15:19:53 21 (The witness talks to himself out 15:19:59 loud.) 15:20:00 22 23 Q. Looking at this transcript, are you 15:20:12 24 familiar with this document? 15:20:14 25 A. Yes, sir. 15:20:15

	Pa	ge 249
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. And did you rely on it to form the	15:20:15
3	opinions you're expressing in this case?	15:20:19
4	A. Yes, sir.	15:20:20
5	Q. So can you turn to Page 257 of the	15:20:21
6	transcript?	15:20:23
7	A. Yes, sir.	15:20:24
8	Q. And can you point me to where	15:20:25
9	Mr. Sullivan testifies that DB PWM's analysis of	15:20:27
10	a guarantor was done as, quote, "as an abundance	15:20:31
11	of caution," unquote?	15:20:33
12	A. Yes, Line 16.	15:20:35
13	Q. Okay. So Line 16 Mr. Sullivan	15:20:37
14	states, quote and, actually, maybe for	15:20:41
15	context, why don't I read the question and answer	15:20:44
16	in.	15:20:46
17	So the question is, "And you'll see	15:20:47
18	at the top of the page, in the top box, there's	15:20:50
19	something called, 'key ratios.' And it says, 'To	15:20:52
20	demonstrate the strength of the guarantor, we	15:20:55
21	have applied the unsecured lending guidelines	15:20:57
22	assuming repayment of the obligation by the	15:21:00
23	guarantor based on the 25 year amortization	15:21:03
24	schedule.'	15:21:06
25	Can you tell us what your	15:21:08

	Pag	ge 250
1	CONFIDENTIAL - ROBERT E. UNELL	
2	understanding is as to this, the content of this	15:21:08
3	portion of the CRE memo?"	15:21:12
4	Answer: Quote sorry.	15:21:14
5	"Answer: I think it's just as an	15:21:16
6	abundance of protection for underwriting purposes	15:21:18
7	for highlighting that the guarantor you know,	15:21:19
8	given that this is a development type project and	15:21:21
9	has certain risk, we're highly confident in the	15:21:24
10	guarantor. And so we're demonstrating that the	15:21:27
11	guarantor could support this loan, you know,	15:21:29
12	within our unsecured lending guidelines, if	15:21:31
13	needed."	15:21:34
14	So the portion of the credit memo	15:21:36
15	that they're talking about is the portion where	15:21:38
16	Deutsche Bank PWM applied the unsecured lending	15:21:42
17	guidelines, correct?	15:21:44
18	A. "Applied" is not something that I can	15:21:45
19	agree to. They ran a test. Applying would	15:21:48
20	infer, in my opinion, that that was part of the	15:21:54
21	they weren't applied. They were tested, in my	15:21:58
22	opinion.	15:22:00
23	Q. And Mr. Sullivan is describing Doral	15:22:03
24	as a, quote, "development type project" that "has	15:22:04
25	certain risk"; is that correct?	15:22:08

	Pa	ge 251
1	CONFIDENTIAL - ROBERT E. UNELL	
2	A. I'd have to go back to make sure that	15:22:10
3	this is in context of Doral. So	15:22:13
4	Q. Fair enough.	15:22:17
5	But, I guess, for the purpose of	15:22:18
6	moving forward, I'll represent to you that	15:22:20
7	A. Yeah, yeah.	15:22:22
8	Q this is looking the Doral course.	15:22:23
9	A. Yeah, I'll take your word on that for	15:22:24
10	that, yeah.	15:22:27
11	Q. And are you aware of what the	15:22:28
12	condition of the Doral property was at the time	15:22:33
13	that this loan was made?	15:22:35
14	A. The Doral property was going through	15:22:36
15	a bankruptcy.	15:22:39
16	Q. So, when Mr. Sullivan talks about it	15:22:40
17	as "a development type project" that "has certain	15:22:42
18	risk," how would you understand that comment?	15:22:44
19	A. All development projects have risk.	15:22:47
20	Q. But when you call it a "development	15:22:49
21	project" or like he calls it a "development	15:22:51
22	project," I should say, what is your	15:22:53
23	understanding of what that means?	15:22:54
24	A. I mean, it's real estate	15:22:56
25	commercial real estate development. It was a	15:22:59

	P	age 252
1	CONFIDENTIAL - ROBERT E. UNELL	
2	typical buy an asset, value add, turn it around	15:23:00
3	and do it just as the success has shown.	15:23:06
4	Q. And the Doral Resort was an asset	15:23:11
5	that was coming out of a bankruptcy sale,	15:23:15
6	correct?	15:23:17
7	A. Yes.	15:23:18
8	Q. And so, when you say, "turn it	15:23:18
9	around," was your understanding that as part of	15:23:21
10	this deal, Mr. Trump would need to invest a	15:23:23
11	substantial amount of money into restoring the	15:23:26
12	Doral Resort into being a money making asset?	15:23:29
13	A. My understanding was that the	15:23:34
14	business plan did call for a lot of capital	15:23:35
15	improvements.	15:23:38
16	Q. So Mr. Sullivan states that these	15:23:41
17	unsecured lending guidelines were applied as,	15:23:47
18	quote, "an a abundance of protection for	15:23:50
19	underwriting purposes."	15:23:53
20	Is that the same as "an abundance of	15:23:54
21	caution"?	15:23:56
22	A. Yes.	15:23:56
23	Q. Why do you say that?	15:23:57
24	A. Well, "protection"/"caution," that's	15:23:58
25	what they're identifying, potential risk, looking	15:24:00

2	at worst-case scenarios, et cetera. So	15:24:03
3	"protection," "caution," risk, it calls goes into	15:24:06
4	the same.	15:24:09
5	Q. And is it your opinion that absent	15:24:10
6	that strike that.	15:24:15
7	Is it your opinion that absent the,	15:24:18
8	quote, "abundance of protection" provided by Mr.	15:24:26
9	Trump's guaranty, that Deutsche Bank could have	15:24:29
10	offered this same low interest rate on a loan to	15:24:31
11	acquire the Doral asset?	15:24:35
12	A. Can you please rephrase?	15:24:37
13	Q. I think would you agree that Deutsche	15:24:45
14	Bank PWM gave a loan to the Trump Organization to	15:24:48
15	purchase Doral that was at a very low interest	15:24:54
16	rate?	15:24:57
17	MR. ROBERT: Objection to form.	15:24:57
18	A. No, I would not agree that it was "at	15:24:58
19	a very low interest rate." I believe it was at a	15:25:01
20	market rate that fell within the guidelines	15:25:04
21	provided within PWM.	15:25:06
22	Q. Would you agree that the "abundance	15:25:16
23	of protection" offered by Mr. Trump's personal	15:25:19
24	guaranty equated to an extremely low credit risk	15:25:22
25	for Deutsche Bank's Private Wealth Management	15:25:24

	1	Page 254
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Group?	15:25:26
3	MR. ROBERT: Objection to form.	15:25:26
4	A. It was certainly a factor that played	15:25:27
5	into their overall analysis of the credit risk	15:25:29
6	and repayment.	15:25:33
7	Q. And would you agree that that	15:25:34
8	analysis of the credit risk was an important	15:25:38
9	factor in PWM's pricing of the loan?	15:25:44
10	A. No.	15:25:47
11	Q. Why do you say that?	15:25:48
12	A. Because it was very clear by their	15:25:49
13	underwriting, by their spreading, their own	15:25:52
14	analysis and haircuts that President Trump	15:25:54
15	qualified for inclusion in the Private Wealth	15:25:58
16	Management Group. And as part of the Private	15:26:01
17	Wealth Management Group, he would have been	15:26:03
18	afforded the opportunity to have commercial real	15:26:04
19	estate rates that would have been within the	15:26:07
20	guidance provided as these were.	15:26:10
21	Q. So I think what you just testified to	15:26:12
22	is that President Trump's sorry, strike that.	15:26:15
23	You just said that President Trump	15:26:21
24	qualified for inclusion in the Private Wealth	15:26:24

And is it correct that that paragraph 15:46:25 8 still accurately reflects your opinions in this 15:46:28 case? 15:46:30 10 11 Yes, sir. 15:46:31 12 You state here that you used data 15:46:32 from Realty Rates and CMC to reach these 15:46:35 13 15:46:39 conclusion that, right? 14 15:46:40 15 Α. Yes. 16 What is Realty Rates Data? 15:46:40 17 Realty Rates Data is a survey and 15:46:42 18 service that we subscribe to that is a survey of 15:46:46 market participants in the commercial real estate 15:46:49 19 industry. And they publish the results of their 15:46:53 20 21 surveys quarterly. And it is relied upon in 15:46:57 22 analysis of commercial real estate loans and for 15:47:01 23 historical purposes. 15:47:03 24 Q. And do you know what the scope of 15:47:05 25 loans included in that survey is? 15:47:07

Page 258 1 CONFIDENTIAL - ROBERT E. UNELL 2 They actually break it down by asset 15:47:09 3 class. And so it is done by asset class and the 15:47:11 survey is done -- aimed at particular users, 15:47:17 5 operators and lenders within that particular 15:47:21 asset class. 15:47:23 6 Q. And you mentioned that it's a survey 7 15:47:24 of market participants in the commercial real 15:47:27 8 estate industry, right? 15:47:30 A. Yes, sir. 15:47:31 10 11 Do you know whether loans made by 15:47:31 12 private banks and Private Wealth Management 15:47:36 Groups would be included in this survey? 15:47:38 13 15:47:40 14 A. I believe they are. Okay. And what's your basis for that 15:47:41 15 16 belief? 15:47:43 17 That it is all encompassing of 15:47:43 18 commercial real estate secured collateral --15:47:46 commercial real estate collateral secured assets 15:47:48 19 -- loans, excuse me. 15:47:52 20 21 Q. And what is CMC Data? 15:47:54 Commercial Mortgage and that is a 22 15:47:56 23 survey of once again actual commercial mortgages 15:47:59 24 that have been originated in the marketplace that 15:48:02 are taken and data is provided and it's 25 15:48:05

3	Q. And then looking at your report,	15:48:09
4	there's a graph on the bottom of Page 28.	15:48:11
5	A. Uh-huh.	15:48:14
6	Q. Is it correct that this graph is	15:48:14
7	meant to illustrate the Realty Rates Data that	15:48:16
8	you use for support?	15:48:18
9	A. It is a graphical depiction of the	15:48:19
10	spread of rates for various asset classes of	15:48:23
11	commercial real estate from Realty Rates.	15:48:29
12	Q. And why did you choose to graph	15:48:31
13	spread in this demonstrative?	15:48:33
14	A. Because these are floating rate	15:48:35
15	loans. And it is based off of an index such as	15:48:37
16	LIBOR these. And so it is only appropriate that	15:48:42
17	if it was priced at LIBOR plus 225, that one of	15:48:45
18	the best indications would be as to what the	15:48:49
19	spread is over LIBOR, which is where these are	15:48:51
20	the spreads.	15:48:54
21	Q. So is strike that.	15:48:55
22	But this is meant to be the spread	15:49:02
23	that would then be placed over LIBOR, correct?	15:49:05
24	A. Yes. Consistent with the pricing of	15:49:08
25	the loan.	15:49:12

2	Q. Alright. So I'd like to introduce as	15:49:13
3	Exhibit 15 one of the investor surveys from	15:49:18
4	Realty Rates.	15:49:21
5	(Deposition Exhibit Unell 15,	15:49:21
6	RealtyRates.com Investor Survey 4th Quarter 2011,	15:49:21
7	was marked for identification.)	15:49:33
8	Q. And I know that the data in the	15:49:33
9	surveys changes quarter to quarter. I've	15:49:35
10	included I've introduced as an exhibit fourth	15:49:38
11	quarter 2011.	15:49:40
12	Is this one of the surveys that you	15:49:43
13	used to generate the graph in your report?	15:49:46
14	A. Yes, sir.	15:49:48
15	Q. And so this is one of the surveys	15:49:49
16	that you used to reach your conclusions about the	15:49:50
17	pricing of the loans, correct?	15:49:53
18	A. Yes.	15:49:55
19	Q. Now, in your chart you you are	15:49:56
20	graphing the average mortgage terms spread for	15:50:09
21	three asset classes, office, golf courses and	15:50:11
22	country clubs and lodging facilities full	15:50:16
23	service, correct?	15:50:19
24	A. Yes, sir.	15:50:19
25	Q. Why did you choose those three asset	15:50:19

	Pac	ge 261
1	CONFIDENTIAL - ROBERT E. UNELL	
2	classes here?	15:50:22
3	A. Because of the Old Post Office loan	15:50:22
4	was lodging. The Doral loan was primarily	15:50:26
5	lodging, but did have a golf course component to	15:50:30
6	it. So we wanted to include that so that there	15:50:32
7	was no ambiguity there. And then office would	15:50:37
8	have encompassed the other assets.	15:50:40
9	Q. Okay. So, for the sake of talking	15:50:42
10	about the Doral loan, I think, we're in agreement	15:50:45
11	that we would look at the golf courses and	15:50:47
12	country clubs line and the lodging facilities	15:50:49
13	line but not the office line; is that fair?	15:50:53
14	A. Yeah, with heavy emphasis on the	15:50:54
15	lodging facilities, because that is the main part	15:50:58
16	of it. Unfortunately, there's not one for resort	15:51:00
17	sort of thing, like, in that detailed.	15:51:04
18	Q. So, if you turn to Page 6 of this	15:51:06
19	Realty Rates survey, there is a summary chart	15:51:11
20	which describes the data in the report; is that	15:51:18
21	correct?	15:51:22
22	A. Yes, sir.	15:51:22
23	Q. Okay. And I guess I'll also just	15:51:23
24	refer you. There is also individual charts for	15:51:32
25	each asset class including golf and lodging. So,	15:51:35

	Ра	ıge 262
1	CONFIDENTIAL - ROBERT E. UNELL	
2	if you need to refer to those, please do.	15:51:40
3	So you mentioned that this chart in	15:51:54
4	your report is demonstrating a spread and that	15:51:55
5	that spread for these loans would be over LIBOR,	15:51:58
6	correct?	15:52:01
7	A. Typically, yes. Well, it would all	15:52:02
8	depend on what the index rate with the bank was	15:52:04
9	using. Some banks may have used prime. Some	15:52:06
10	banks may have used LIBOR. But it is a spread	15:52:09
11	over what the selected index is per the loan	15:52:13
12	documents.	15:52:16
13	Q. But, I guess, looking at so	15:52:16
14	looking at this chart where it says, "spread over	15:52:19
15	base," there's two asterisks there.	15:52:23
16	Do you see that?	15:52:26
17	A. Yes.	15:52:26
18	Q. And then at the bottom of the chart,	15:52:27
19	next to the two asterisks, that says, "ten-year	15:52:29
20	treasury," correct?	15:52:32
21	A. Yes, sir.	15:52:35
22	Q. So is it your understanding that the	15:52:35
23	spread over base reflects a spread over the	15:52:37
24	ten-year treasury rate?	15:52:38
25	A. In this instance, yes, it is.	15:52:38

INDEX NO. 452564/2022

Page 263 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. Alright. And the -- if you turn back 15:52:40 3 a page on Page 5 the -- this shows a chart of the 15:52:44 financial indicators for that particular moment 15:52:53 5 in time, correct? 15:52:55 6 A. Yes. 15:52:56 7 As well as some historicals. 15:52:56 And it shows LIBOR -- there's a 15:52:59 8 series of LIBOR indices, but they're all ranging 15:53:02 from .21 percent to .78, correct? 15:53:05 10 15:53:08 11 A. Yes. 12 Q. And it also shows the ten-year 15:53:08 treasury yield, which is 2.3 percent; is that 15:53:11 13 correct? 15:53:15 14 15:53:15 15 A. Yes. 16 Okay. So, during this time period, 15:53:15 17 the ten-year treasury yield was substantially 15:53:18 18 higher than the LIBOR index rate; is that 15:53:21 19 correct? 15:53:24 20 Yes, in this case, it would. 15:53:25 So looking, again, at the chart on 21 15:53:26 Page 6, underneath "spread over base," there is a 15:53:28 22 23 chart showing interest rates. 15:53:31 24 And would you agree that the maximum 15:53:34 interest rate for golf, to take an example, is 25 15:53:37

	Pa	ge 264
1	CONFIDENTIAL - ROBERT E. UNELL	
2	listed as 13.80 percent; is that correct?	15:53:40
3	A. Based off a ten-year treasury but not	15:53:44
4	based off of the LIBOR.	15:53:47
5	Q. Well, but this is an interest rate,	15:53:49
6	the maximum interest rate in the survey, correct?	15:53:51
7	A. It's a maximum interest rate based on	15:53:55
8	the ten-year treasury, as the index with the	15:53:58
9	appropriate spread over it. If you were to take	15:54:03
10	the appropriate index of LIBOR, which is there,	15:54:06
11	that spread, in my opinion in use of this, would	15:54:10
12	be the same.	15:54:14
13	Q. So your opinion or your understanding	15:54:16
14	of this chart is that the survey identified the	15:54:20
15	spread over base in the loans being surveyed,	15:54:28
16	correct?	15:54:31
17	A. Could you please repeat that?	15:54:32
18	Q. Yeah, let me.	15:54:33
19	Basically, what you're understanding	15:54:34
20	is that this survey starts with the spread over	15:54:36
21	base and then applies that spread to the ten-year	15:54:42
22	treasury to reach the interest rate and not that	15:54:45
23	the interest rate itself is data being acquired	15:54:48
24	by the survey; is that fair?	15:54:52
25	A. That's correct, yes.	15:54:54

	Pa	ge 265
1	CONFIDENTIAL - ROBERT E. UNELL	
2	Q. And what is that understanding based	15:54:55
3	on?	15:54:57
4	A. My use of this, as well as knowledge	15:54:57
5	what spreads are and loan indexes.	15:54:59
6	Q. And so at the top of this chart where	15:55:03
7	it says, "permanent financing"	15:55:06
8	A. Uh-huh.	15:55:07
9	Q it states, quote, "The following	15:55:09
10	table summarize prevailing mortgage terms and	15:55:14
11	reserve requirements by property type, as	15:55:16
12	reported by survey respondents, as well as lender	15:55:18
13	indications of the desirability of mortgages	15:55:23
14	involving various property types. These data are	15:55:25
15	for Class A and B properties nationwide."	15:55:26
16	Do you have an understanding of what	15:55:30
17	"Class A and B properties" refer to?	15:55:32
18	A. "Class A and B properties" is a real	15:55:34
19	estate industry term for a designation as to the,	15:55:37
20	I would say, the condition/the positioning of the	15:55:41
21	asset.	15:55:49
22	Q. And I guess within that context what	15:55:51
23	is your understanding of what would define a	15:55:54
24	Class A or a Class B property?	15:55:56
25	A. In certain asset classes, it can be	15:55:59

	Pa	ge 266
1	CONFIDENTIAL - ROBERT E. UNELL	
2	you know, minor and other classes it could be	15:56:02
3	for office, the difference between a Class A and	15:56:05
4	Class B is not as distinct between a multifamily	15:56:07
5	Class A and Class B. They can be across the	15:56:11
6	street from each other but have different	15:56:15
7	characteristics. Multi-family the same thing,	15:56:17
8	but, typically, it would be more of a geographic	15:56:19
9	based on desirability to live, as well as	15:56:21
10	property condition.	15:56:24
11	But those are terms that are	15:56:25
12	synonymous with condition and positioning in the	15:56:27
13	real estate industry.	15:56:29
14	Q. Okay. And are there classes below A	15:56:30
15	and B?	15:56:32
16	A. Yes.	15:56:33
17	Q. And what would that he be?	15:56:33
18	A. Class C. Some people will even go	15:56:35
19	Class D. And other asset classes are done by	15:56:39
20	star such as mobile home parks, et cetera.	15:56:41
21	Q. And is it your opinion that the	15:56:45
22	that a CRE loan on Doral at the time of	15:56:48
23	acquisition out of bankruptcy would have	15:56:52
24	qualified as either a Class A or a Class B	15:56:54
25	property loan?	15:56:58

INDEX NO. 452564/2022

Page 267 1 CONFIDENTIAL - ROBERT E. UNELL 2 Yes. 15:56:59 And what is the basis for that 3 15:57:00 opinion? 15:57:02 5 That it was an operating hotel that 15:57:02 was within code still was able to generate decent 6 15:57:05 amount of revenue but it did need refreshing as a 7 15:57:09 It didn't have any major -- you know my 8 15:57:13 understanding -- any major structural issues, 15:57:16 that it was more of cosmetic change and that 15:57:18 10 there was, you know, no -- you know, a lot of it 11 15:57:20 12 was probably deferred maintenance as relates to 15:57:22 the bankruptcy. Just because a property is in 15:57:23 13 bankruptcy, doesn't mean that it's automatically, 14 15:57:26 you know, downgraded to a Class B or Class C. 15:57:28 15 16 There is plenty Class A assets that go into 15:57:31 17 bankruptcy as well. 15:57:34 18 Q. And, in your report, you graphed out 15:57:36 the average interest rate spread, correct? 15:57:37 19 20 15:57:40 Yes. 21 And what is your support for your 15:57:41 opinion that the average rates available would be 22 15:57:43 23 the appropriate comparable rate for a CRE loan on 15:57:46 24 Doral at this time? 15:57:49 It's the best data that we had 25 15:57:50

	Paç	ge 268
1	CONFIDENTIAL - ROBERT E. UNELL	
2	available. It is indicative of the market based	15:57:53
3	off of the surveys conducted. And really when	15:57:56
4	you go back and look at hindsight 20/20, there is	15:57:59
5	not a tremendous amount of accurate data out	15:58:02
6	there. So, when you can actually go back and get	15:58:06
7	something that is live, that was done at that	15:58:09
8	period of time, et cetera, it's the best	15:58:11
9	indication of market. And it's also been	15:58:13
10	accepted by use in a lot of cases and appraisers	15:58:16
11	utilize this data all the time when doing, you	15:58:22
12	know, backward looking valuations.	15:58:24
13	Q. Right. But I guess my question is	15:58:27
14	why is it your opinion that a loan a CRE loan	15:58:29
15	on Doral at the time of its acquisition out of	15:58:32
16	bankruptcy would have qualified based on the	15:58:35
17	level of risk involved for the average loan in	15:58:38
18	the market the average rate in the market at	15:58:41
19	that time rather than a higher rate closer to the	15:58:44
20	maximum rate?	15:58:47
21	A. Because you look at the loan to	15:58:47
22	value, which was still fairly low. You look at	15:58:49
23	what the other metrics are and there is a lot	15:58:51
24	that goes into determining that. It's not just,	15:58:54
25	oh, it was in bankruptcy; therefore, oh, it can't	15:58:57

	Pag	ge 269
1	CONFIDENTIAL - ROBERT E. UNELL	
2	be this. There's a lot that goes into it.	15:58:59
3	And, quite honestly, it would have	15:59:02
4	been considered, in my opinion and professional	15:59:03
5	experience, that that would have been a sort of	15:59:06
6	an average style transaction, especially in the	15:59:09
7	marketplace at that time. Because there were a	15:59:11
8	tremendous amount of distressed assets in the	15:59:13
9	2011 period coming out of the financial downturn	15:59:17
10	to of 2008. So I was also heavily in the markets	15:59:19
11	at the time and my knowledge of market rates was	15:59:22
12	also considered.	15:59:26
13	Q. And are you aware of what the loan to	15:59:29
14	value on the Doral loan was at the time of	15:59:34
15	origination?	15:59:36
16	A. 75, 80 percent I believe.	15:59:37
17	Q. And so your opinion is that that	15:59:39
18	would qualify for an average rate at that time?	15:59:41
19	A. Yes, that would have been well within	15:59:43
20	the average loan to values that were out there	15:59:45
21	and similar to what loans I've worked on in my	15:59:48
22	experience.	15:59:52
23	Q. Okay. So I'd like to turn to the CMC	15:59:53
24	Data chart in your report. I'd like to introduce	16:00:18

Page 270 1 CONFIDENTIAL - ROBERT E. UNELL from the Commercial Mortgage Commitment 16:00:31 2 3 historical database that you provided to us. 16:00:34 (Deposition Exhibit Unell 16, 16:00:34 5 printout of Commercial Mortgage Commitments -16:00:34 Historical Database, was marked for 16:00:34 identification.) 16:01:02 7 Q. And can you explain in a little bit 16:01:02 8 more detail how you use the data from this source 16:01:04 in your report? 16:01:06 10 This was just another 11 A. Yes. 16:01:08 12 indication of the market at the time of the 16:01:10 origination of the various loans, specifically, 16:01:14 13 as we look here of office, hotel and mix use 14 16:01:15 because of the asset classes of how they're 16:01:19 15 16 classified by Commercial Mortgage Commitments. 16:01:22 17 And does this dataset include loans 16:01:25 18 that were made on golf courses? 16:01:28 19 There is not an asset class for golf 16:01:30 20 courses in Commercial Mortgage Commitments; 16:01:34 therefore, we did not include it. 21 16:01:35 Q. Okay. And does this dataset include 16:01:40 22 23 loans on resorts? 16:01:41 24 Hotel, motel could be included in 16:01:43 that. Typically, it's all encompassing. But, 25 16:01:47

1	CONFIDENTIAL - ROBERT E. UNELL	
2	you know, there is not a separate break out for	16:01:50
3	resort properties from hotel/motel.	16:01:52
4	Q. And this chart was produced American	16:01:55
5	Council of Life Insurers, correct?	16:01:58
6	A. Yes, I believe that that's the data	16:01:59
7	who puts together the CMC, yes.	16:02:01
8	Q. Okay.	16:02:01
9	A. Yeah, I want to make sure that I	16:02:04
10	looked at it. It's the other one.	16:02:05
11	Q. And do you, I guess, do you have any	16:02:07
12	understanding of the types of loans that would be	16:02:11
13	made by insurance companies compared to other	16:02:14
14	lenders?	16:02:18
15	A. Well, I mean, insurance companies	16:02:18
16	make loans just like lenders do. As matter of	16:02:21
17	fact, they're one of their larger competitors.	16:02:24
18	So you can look at AIGs of the world, Voya, et	16:02:26
19	cetera. You know, there's without getting	16:02:30
20	into specifics, they have bridge programs. They	16:02:33
21	have construction programs. They have permanent	16:02:35
22	programs.	16:02:36
23	So this was based on their Commercial	16:02:37
24	Mortgage Commitments and, I believe, that this is	16:02:40
25	based off of the individual asset classes here.	16:02:41

Page 272 1 CONFIDENTIAL - ROBERT E. UNELL 2 And it's just -- it's snapshot of combined data 16:02:44 16:02:48 3 to give an indication of market. Q. And do you have an opinion as to 16:02:52 5 whether the risk profile of loans made by the 16:02:53 life insurance companies reflected in this 16:02:57 6 7 database would differ in any way from loans made 16:03:00 by a bank such as Deutsche Bank? 16:03:03 8 A. No. As matter of fact, they compete 9 16:03:05 16:03:08 10 against each other. 11 Q. Okay. So I want to turn back to your 16:03:09 12 report. 16:03:18 Are we good with 15 and 16? 13 16:03:19 16:03:21 14 Q. Yes, we are. Trying to do some housekeeping over 16:03:21 15 16 here. 16:03:23 17 Original or rebuttal? 16:03:26 18 Q. Original report. 16:03:28 19 And can you turn to Paragraph 45 on 16:03:35 20 Page 15? 16:03:37 21 And, in this paragraph, you're 16:03:54 talking about the application of haircuts by 22 16:03:55 23 lenders to derive an adjusted net worth value, 16:03:59 24 correct? 16:04:02 25 Α. Yes. 16:04:03

INDEX NO. 452564/2022

RECEIVED NYSCEF: 08/30/2023

Page 273 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. And one of the things you say here is 16:04:04 3 that, quote, "The process involves applying 16:04:06 'haircuts' to various assets to determine their 16:04:10 5 liquidation value, if a lender needs to exercise 16:04:14 their rights under a quaranty after an event of 16:04:17 default." 16:04:20 7 Oh, sorry. Let me -- and the next 16:04:21 8 sentence says, "Unlike a guarantor, who generally 16:04:22 values assets utilizing far different subjective 16:04:25 10 criteria, lenders in this context seek to 11 16:04:28 12 determine liquidation or 'fire sale values.'" 16:04:31 Uh-huh. 16:04:33 13 Α. Is it your opinion that this 16:04:35 14 description accurately describes Deutsche Bank 16:04:37 15 Private Wealth Management's use of haircuts to 16:04:40 17 reach an adjusted net worth in its underwriting 16:04:43 18 process? 16:04:46 A. Yeah. There is both yes and no. So, 16:04:46 19 I mean, they do mention that there is liquidation 16:04:49 20 21 value there. But it is also what is probably 16:04:52 more of a realistic realization in the event that 22 16:04:55 23 they needed to rely on that guaranty, which is --16:05:00 which would say if you had to seek collection on 24 16:05:04 those assets, that that's where they would feel 25 16:05:07

	Pag	ge 274
1	CONFIDENTIAL - ROBERT E. UNELL	
2	that they would be and their value. So it is a	16:05:11
3	hypothetical, you know, analysis that's done by a	16:05:14
4	lender to really be super conservative in their	16:05:20
5	approach to underwriting.	16:05:24
6	Q. I guess I'm not totally sure when you	16:05:28
7	say, "both yes and no."	16:05:31
8	It's your opinion that the haircut is	16:05:32
9	intended to determine liquidity or fire sale	16:05:38
10	value, correct?	16:05:41
11	A. It's one of the uses, yes.	16:05:42
12	Q. What would the other uses be? I'm	16:05:48
13	not sure I follow.	16:05:50
14	A. Just being able to have a purely	16:05:51
15	conservative view of outlook. It could be	16:05:54
16	overall market conditions could be declining.	16:05:56
17	So, therefore, they wanted to put a haircut on	16:05:59
18	it. It is a truly conservative approach, but it	16:06:01
19	also doesn't the, you know, the subjectivity of	16:06:06
20	looking at what particular assets are. It's	16:06:09
21	each asset is unique in its own way and that	16:06:12
22	lender has to do the analysis based on the	16:06:15
23	information provided to them as was done in the	16:06:17
24	Statements of Financial Condition to determine	16:06:19
25	where they feel comfortable.	16:06:21

Page 275 1 CONFIDENTIAL - ROBERT E. UNELL 2 Q. We spoke earlier and I think you 16:06:28 3 agreed that the personal financial statement 16:06:30 would represent the individual's estimated 16:06:33 5 current value for the assets listed there, 16:06:39 16:06:41 6 correct? It would be of their opinion and 16:06:42 7 provide a road map for the lenders to conduct 16:06:43 8 their own analysis. 16:06:46 10 Q. Right. But I think we agreed earlier 16:06:47 that the Statement of Financial Condition 11 16:06:51 12 represents estimated current value, correct? 16:06:54 A. Yes, sir. 16:06:57 13 And the haircut value is intended to 14 16:06:57 be the liquidation and fire sale and an extremely 16:07:00 15 conservative view of an asset's value in the 16 16:07:06 17 event of a downturn in the market, correct? 16:07:09 18 A. Or in the need that hit to be 16:07:12 marketed and sold and not in the ordinary course 16:07:13 19 20 of business. 16:07:15 21 And why would that be relevant? 16:07:19 22 Because when you look at something 16:07:20 23 you -- a quick sale means a reduction in price. 16:07:22 24 And so, if a lender is looking to get repaid, 16:07:26 25 they are going to put a discount on what -- no 16:07:30

2	matter if a building is worth a hundred	16:07:34
3	million dollars and you tell somebody that it	16:07:36
4	needs to sell in 30 days, you're not going to get	16:07:39
5	hundred million dollars. So, you know and,	16:07:41
6	typically, if there was something else that was	16:07:42
7	going on, it would also probably indicate that	16:07:44
8	there was a larger macro problem in the markets,	16:07:46

12	Q. And that's different than estimated	16:07:56

14	the price that would be reached between a buyer	16:08:01

18	A. And under normal market conditions of	16:08:11

20	Q. Okay. I think I just have one more	16:08:15

Yes, sir. 16 And can you just explain what 16:09:49 17 Reynolds Plantation was and your role there? 16:09:51 18 A. Yeah, so Reynolds Plantation is a 16:09:53 fairly large resort located in Greensboro, 16:09:56 19 20 Georgia about an hour east of Atlanta in between 16:09:58 21 Atlanta and Augusta. It sits on Lake Oconee. It 16:10:02 consists of a Ritz Carlton Lodge, several 16:10:07 22 23 thousand acres, five golf courses I want to say, 16:10:08 24 championship golf courses, four clubhouses, 16:10:11 several restaurants and three marinas. And a lot 16:10:14 25

2	of the remaining assets are also on undeveloped	16:10:19
3	land.	16:10:25
4	(Stenographer clarification.)	16:10:26
5	THE WITNESS: "Undeveloped," yes,	16:10:26
6	ma'am.	16:10:26
7	Q. And so, in your answer to this	16:10:26
8	question you said, quote, "You know, everybody	16:10:28
9	thinks of it as just golf courses, et cetera.	16:10:35
10	But there's a tremendous amount of undeveloped	16:10:37
11	land there and understanding what that land could	16:10:39
12	be developed into and running models to figure	16:10:42
13	out on the absorption and, ultimately, coming	16:10:44
14	back to you know, not to try to get into it	16:10:46
15	but the present value."	16:10:48
16	And, just to clarify, so when you	16:10:50
17	talk about "present value" there, what are you	16:10:51
18	referring to?	16:10:54
19	A. The "present value" would be the	16:10:54
20	present value of the residual land, as well as	16:10:56
21	all the other assets there that would have to be	16:11:00
22	discounted back to take profits into the future	16:11:03
23	to discount them back to a value that would be	16:11:05
24	relevant today.	16:11:07
25	Q. And then you say, quote, "There is a	16:11:09

2	lot that goes into besides just looking at, you	16:11:12
3	know, hey, we got six golf courses. You know,	16:11:15
4	that property really the golf courses were,	16:11:17
5	you know, accretive to the value of the lots and	16:11:20
6	the value there was really in the real estate and	16:11:23
7	the hotel. Golf is not a money maker in most	16:11:24
8	cases. It's a very difficult business to make	16:11:27
9	money in."	16:11:29
10	So does that statement accurately	16:11:33
11	reflect your opinion that "golf is not a money	16:11:37
12	maker in most cases"?	16:11:40
13	A. It is in most cases, that's	16:11:41
14	correct, especially in the instance of Reynolds	16:11:43
15	Plantation. But that's not always the case.	16:11:46
16	Cause I could use another example,	16:11:48
17	which was Kiawah, where Kiawah was a very similar	16:11:50
18	I think everybody Kiawah was two golf	16:11:54
19	courses that had multiple the opposite of this	16:11:56
20	with land. The golf courses made money, but the	16:12:00
21	real estate didn't. So each asset's unique.	16:12:02
22	Each asset is unique.	16:12:05
23	In the context of this, I was	16:12:07
24	speaking of is that everybody thinks golf is sexy	16:12:08
25	and it's a great way to go make money in. But	16:12:10

3	it. And even some of the best fall when trying	16:12:15
4	to do so.	16:12:18
5	Q. Okay. And then just looking kind of	16:12:20
6	scrolling down to Page 21 of the transcript.	16:12:21
7	A. Uh-huh.	16:12:24
8	Q. Towards the bottom at Line 20, you	16:12:24
9	state, quote, "One club and I won't name it,	16:12:26
10	but it is very nice, high end club in South	16:12:30
11	Carolina. It makes money. And it is unique in	16:12:32
12	that it makes money. And it has phenomenal real	16:12:35
13	estate with it. But, for the most part, as I	16:12:37
14	said, golf courses are loss leaders when they're	16:12:39
15	tied to real estate. Successful golf courses are	16:12:42

17	individual that will subsidize it because they	16:12:46
18	love the game of golf."	16:12:49
19	And, I guess, similarly, were you	16:12:51
20	accurately stating your opinion here when you	16:12:53
21	said that "successful golf courses are owned by	16:12:55
22	"typically, by their members or an individual	16:12:58
