Proceedings

1 COURT OFFICER: Part 37 is now in session. The
 2 Honorable Judge Arthur Engoron presiding. Make sure all
 3 cell phones are on silent. Laptops and cell phones will be
 4 permitted but only to members of the press. There is
 5 absolutely no recording or photography of any kind allowed
 6 in the courtroom. Now, please be seated and come to order.
 7 THE COURT: Okay. Welcome, everyone. Good
 8 morning. Today we are going to continue, and I hope, finish
 9 the cross-examination of Mr. Bartov, Professor Bartov. And
 10 then the plaintiffs want to call two rebuttal witnesses; is
 11 that correct?
 12 MR. WALLACE: Correct, Your Honor.
 13 THE COURT: So let's talk about that. They're
 14 proposed by plaintiff and opposed by defendants and sort of
 15 as an aside, I'll just note, everything in this case gets
 16 litigated. If somebody wants an expert, the other side
 17 says, no, they are not an expert. They can't testify. They
 18 don't know what they're talking about, etc., etc. etc. And
 19 I'm going to draw now on this letter that just came hours
 20 ago. I am going to draw on my general knowledge and on the
 21 letter itself for what I'm about to say.
 22 The basic purpose of a rebuttal witness is to
 23 challenge or contradict, I'll say it's to be rebut, but that
 24 would be a circular definition, the other side's testimony
 25 and its also going to be used to impeach which may be

Proceedings

1 somewhat overlapping concepts. And the -- a rebuttal expert
 2 is allowed to rely on matters in the record and personal
 3 experience. I don't think personal experience will be much
 4 of an issue here, maybe. There's an exception which I
 5 always like, it comes up in different areas of law, for an
 6 expert can rely on what experts generally rely on, what
 7 experts consider reliable. That's a little bit of a dicey
 8 fraud issue. We'll see if it really comes up here.
 9 And I do want to correct three misimpressions that
 10 the letter might create. One is -- well, I'm not sure it's
 11 correcting. The defendants came up with -- they would like,
 12 if there are rebuttal -- if there are rebuttal witnesses, to
 13 have sur-rebuttal witnesses. The only case that having
 14 support of that was in the criminal context, so I don't put
 15 much stock in that. They're different implications to
 16 criminal cases.
 17 Second, there was an assertion or an implication
 18 that plaintiff did not call any experts. I believe I deemed
 19 Michael McConney an expert; is that correct?
 20 MR. WALLACE: Correct, Your Honor.
 21 THE COURT: Thank you. And, finally, there's
 22 misinterpretation of the best evidence rule. The best
 23 evidence rule basically says if you want to introduce a
 24 document you have to introduce the original. If you can't
 25 find or can't access the original, you have to give a good

Proceedings Page 6469

1 reason why you're not producing the original. I think that
 2 rule goes back centuries to when we didn't have
 3 photocopiers, digital reproduction. We had scribblers so
 4 they can make errors. That's why you wanted the original
 5 but the rule still exist but that's its limitation.
 6 It is not some sort of catch all, well, we think
 7 they could have introduced better evidence so this isn't the
 8 best evidence. No. I would say there is no general
 9 prohibition on introducing evidence that may not be the
 10 best. You could have trials on what's the best evidence,
 11 trials within trials. So, I reject that particular
 12 assertion. I see no reason not to allow these two purported
 13 experts to testify subject to objections on the particular
 14 questions being offered.
 15 MR. WALLACE: May I just offer one correction, Your
 16 Honor. One is a fact witness, that's Mr. Sneddon. And one
 17 is an expert, that's Professor Lewis.
 18 THE COURT: Most of the letter was about Lewis so.
 19 Anything else before I turn to defendants? I see no reason
 20 to allow -- not to allow these experts, but if you want to
 21 reargue the letter, which I read very carefully, go ahead.
 22 MR. KISE: I won't reargue the letter. Thank you,
 23 Your Honor. I am not going to reargue the letter, but I am
 24 going to point out that this is clearly -- the Government
 25 has held these witnesses back. They could have called these

Proceedings Page 6470

1 witnesses, particularly Mr. Sneddon, on their -- in their
 2 affirmative case. The case law from the Court of Appeals is
 3 quite clear that rebuttal is limited to just that rebuttal.
 4 If we didn't introduce the issue in our case, they can't now
 5 say, oh, well, I'm rebutting your case by calling a witness
 6 that was fully available to them. They called Allen
 7 Weisselberg. They cross-examined Allen Weisselberg. They
 8 called Jeff McConney. They cross-examined Jeff McConney.
 9 When Jeff McConney took the stand in our case, they also
 10 cross-examined Jeff McConney.
 11 None of the issues that Mr. Sneddon -- at least
 12 from what we can see. Again, we have no proffer which I
 13 tried to get out of the Government last week and that was
 14 rejected -- but none of the issues that Mr. Sneddon can
 15 possibly speak to relate to anything that happened in our
 16 case. They may relate to testimony that they elicited in
 17 their case but the time to have dealt with that has passed.
 18 THE COURT: Okay. I do -- plaintiff, do you agree
 19 with what was just said?
 20 MR. WALLACE: I do not agree. And, I believe, when
 21 Mr. Sneddon testifies, it will be obvious that he is
 22 rebutting evidence that came in during the defendants' case.
 23 THE COURT: And I completely agree with you,
 24 Mr. Kise, as a general proposition. You can't just hold
 25 back on your case-in-chief and then say, oh, by the way, we

Proceedings Page 6471

1 have this surprised witness that we could have called
 2 earlier. So it would be limited to rebutting but go ahead.
 3 MR. KISE: The same is true of Professor Lewis. If
 4 the Court is going to ignore the Black Letter Law and allow
 5 Professor Lewis to testify under these circumstances where
 6 he clearly is their expert, should have been called, could
 7 have been called and should have been called in their
 8 case-in-chief to present affirmative evidence, evidence that
 9 we're not able to meet now because our experts can't testify
 10 about what they think Lewis is going to say on the stand or
 11 any other expert that hasn't testified. Mr. Wallace made a
 12 big pitch on that last week when we even talked about
 13 hypothetical numbers.
 14 Mr. Wallace said, oh, well, those numbers aren't in
 15 the record and they can't talk about this and they can't
 16 talk about that. It's all in the record. So, okay, if our
 17 expert can't talk about anything because it's not in the
 18 trial record, they don't get to tactically now say, all
 19 right, now, we are going to bring in Lewis and deprive you
 20 of any opportunity to rebut -- to provide a sur-rebuttal to
 21 Lewis.
 22 I mean, in the first instance, any of his testimony
 23 should have been provided on direct. They had full access
 24 to the experts. As you know, from prior conversations, our
 25 initial and rebuttal reports are really somewhat of a

Proceedings Page 6472

1 misnomer because they were all exchanged at the same time.
 2 So the experts were designated in most cases as both. They
 3 are not really one or the other. Professor Lewis put on an
 4 affirmative -- provided an affirmative report. He also
 5 provided what we are calling our rebuttal report in this
 6 case which responds to our experts, but in the nature of the
 7 timing, the way the case, according to the case law, should
 8 have laid out is if the Government wanted to introduce
 9 Professor Lewis testimony, they would have called him in
 10 their case-in-chief and introduced that testimony.
 11 Then we would have rebutted it in the ordinary
 12 course. We would have had the opportunity to challenge that
 13 testimony in the ordinary course. And then to the extent
 14 that new issues were raised or issues requiring rebuttal
 15 along the lines of the case law that Your Honor is
 16 acknowledging, they would then be able to, perhaps, recall
 17 Professor Lewis. But to come along now and introduce
 18 Professor Lewis opinions -- and I'll put that word in quotes
 19 because we are going to renew our challenge -- to the extent
 20 the Court is going to allow him to testify, we are going to
 21 renew our motion in limine. We can take that up after
 22 Professor Bartov is done so we don't waste court time at
 23 this moment. But there has to be some opportunity for the
 24 defense then to meet whatever evidence they've held back.
 25 They don't get to, like, through some sort of

Proceedings Page 6473

1 parlor tricks -- this is exactly what the case law from the
 2 Court of Appeals speaks to, that the two reasons for not
 3 allowing this sort of practice is, one, to preclude
 4 gamesmanship which there's --
 5 MR. WALLACE: I apologize for interrupting
 6 Mr. Kise. Mr. Lewis will testify in response to evidence
 7 that Mr. Flemmons put in. That would be the scope of his
 8 testimony so that is rebuttal testimony. Flemmons offered
 9 testimony about what GAAP says concerning some of the
 10 compilation and the standards applicable. Professor Lewis
 11 will testify to that. He's not testifying as to valuations.
 12 He's not doing other work. Flemmons said "X". Lewis will
 13 say not "X". That will be the scope of the testimony.
 14 MR. KISE: So with that proffer -- that's certainly
 15 helpful and I appreciate that and ordinarily I don't
 16 appreciate the interruption but in this case it is helpful.
 17 If I am understanding clearly, nothing that is contained in
 18 Professor Lewis initial report will be the subject of his
 19 testimony today; is that right?
 20 MR. WALLACE: It could be issues that are
 21 responsive to -- he has a view of ASC 274 that is different
 22 from Mr. Flemmons. It may have been included in his
 23 original report. We are not relying on ASC 274 as part of
 24 our case-in-chief, but the defendants have presented
 25 evidence on it. He is going to respond to that evidence.

Proceedings Page 6474

1 The form will be Mr. Flemmons said "X", what is
 2 your view on that. It will be classic rebuttal. If there
 3 is specific questions or areas that the defendants think go
 4 beyond the scope of rebuttal, they can object to those
 5 questions.
 6 MR. KISE: Setting aside whether Professor Lewis is
 7 qualified to render those opinions, which we'll get to in
 8 due course, then I just want to be clear what the scope of
 9 the testimony is. If that's -- if that's clearly what it
 10 is, then we'll take it up on -- we still object to the
 11 manner in which they've gone about doing this. The way they
 12 should have done this, again, is to call Professor Lewis in
 13 their case-in-chief.
 14 They have the affirmative burden in the case to
 15 establish their points. They didn't establish this point.
 16 In other words, it was their burden to establish in the
 17 record that ASC 274 provides "X". That's their burden.
 18 It's not our burden. We're the defense. If they didn't
 19 include that in their case-in-chief, they don't get now,
 20 under the guises of rebuttal to backfill their case. That's
 21 clearly what they're doing. They're essentially
 22 acknowledging that they have a hole in their case-in-chief
 23 because all Mr. Flemmons testified to were matters that they
 24 have full knowledge of and that they had the burden of proof
 25 on in their case-in-chief. Because Your Honor did not grant

Proceedings Page 6475

1 our directed verdict motion, we had no choice but to put
 2 Mr. Flemmons on to testify to make sure that the record was
 3 clear from the defense standpoint. We couldn't waive that
 4 opportunity but that doesn't now give them license to come
 5 back in afterwards realizing that there is a hole, realizing
 6 that they haven't established what they needed to establish
 7 under ASC 274, whatever it is that Professor Lewis purports
 8 to testify about, those were matters that must and should
 9 have been taken up in their affirmative case.
 10 And, respectfully, I would suggest to this court to
 11 reconsider. This is reversible error respectfully. Letting
 12 this in under these circumstances where they had clear
 13 notice of what the issues were, they had the clear burden of
 14 proof. They failed to meet that burden of proof. And I'm
 15 not being disrespectful to the Court. I'm just laying this
 16 out. They had the clear burden of the proof and now to
 17 allow them to come along and backfill their case and then
 18 later deprive us of any responsive opportunity on top of
 19 that, I just don't see how that is supported under any of
 20 the cases that we've cited or any of the case law in
 21 New York.
 22 And I don't think that the Government can cite a
 23 single case where this can be allowed to happen where they
 24 could lay and wait, not prove their case, wait to see what
 25 we put on and then now come in and attack it as rebutting.

Proceedings Page 6476

1 They are not rebutting anything. This is part of their
 2 affirmative case and that's what the case law speaks to as
 3 well. It's not really rebuttal evidence when it is --
 4 directly corresponds to an affirmative element in their
 5 case. There is nothing new here. So we would object to
 6 Your Honor allowing either of these witnesses to speak even
 7 given the limitation that Mr. Wallace has so kindly
 8 provided. That still demonstrates that the testimony goes
 9 to their affirmative burden.
 10 And if they haven't met their affirmative burden
 11 before that witness takes the stand, then -- then there's no
 12 basis for rebuttal before our case is closed and our
 13 directed verdict motion should be granted on the basis that
 14 they have admitted they've left out a key element of their
 15 case.
 16 THE COURT: So now that the specter of reversal has
 17 been raised again, do you still want to call these
 18 witnesses?
 19 MR. WALLACE: Yes, Your Honor. This is in sane
 20 that we are spending 20 minutes, 15 minutes discussing this
 21 issue. This is -- he is going to respond to points, as I
 22 said, defendants chose to put in their case. It doesn't go
 23 to our bread. It is classic rebuttal. It is pure rebuttal.
 24 They can object to individual questions, but we should move.
 25 And we have witnesses waiting and start taking the

Proceedings Page 6477

1 witnesses.

2 MR. KISE: The only other thing I'll add to that,

3 Your Honor, I would, again, direct the Court's attention to

4 the cases we cited particularly the Reinoso, R-E-I-N-O-S-O,

5 recent First Department case.

6 "The plaintiff's failure to offer expert testimony

7 as parts of case-in-chief, deprived her of the right to make

8 use of it as affirmative evidence."

9 And that's clearly what's taking place here. They

10 did not offer Professor Lewis testimony as part of their

11 case-in-chief. Simply because the evidence is evidence

12 that -- that contradicts our evidence, that doesn't make it

13 rebuttal evidence. But what you have to look to is whether

14 or not it was part of their initial burden. And this

15 evidence that Mr. Wallace is describing was clearly part of

16 their initial burden. They clearly had the burden to

17 establish that if there were any GAAP violations or any ASC

18 274 violations this is in their complaint.

19 Their complaint alleges these types of violations.

20 They are bound to prove the claim that they have asserted in

21 their complaint and part of that would be to call an expert

22 and to testify about whether or not there were GAAP

23 violations, accounting violations, violations of ASC 274,

24 etc. The failure to do that doesn't mean that now they can

25 come along and bring in evidence that contradicts -- that

Proceedings Page 6479

1 case-in-chief.

2 So, apparently, there is some discretion even in

3 the defendants' case. Mr. Kise, as usual, you're the soul

4 of reasonableness. I agree with a good portion, I wouldn't

5 try to put a percentage on that, of the basic principles

6 you're citing. I just totally disagree with your

7 application. I know we got facts and we got law. And

8 you're not applying your reasonable correct law to the

9 procedural history of this case in my view.

10 And, finally, I just want to mention that you refer

11 to Mr. Wallace's something like gracious limitation of what

12 rebuttal will be. Well, that's not Mr. Wallace. That's

13 what the law is. A rebuttal witness is there to rebut. So

14 we wasn't really limiting plaintiff at all. Let's get the

15 witness in, okay. Thanks Mike.

16 COURT OFFICER: Witness entering.

17 E L I B A R T O V, a witness called by and on behalf of

18 the Defendant, upon being previously duly sworn, was examined

19 and testified as follows:

20 THE COURT: I'll remind the witness as usual that

21 he's still under oath.

22 And, Mr. Solomon, please continue.

23 MR. SOLOMON: Thank you, Your Honor.

24 CONT'D CROSS-EXAMINATION

25 BY MR. SOLOMON:

Proceedings Page 6478

1 contradicts our evidence. It's not a rebuttal. It's

2 filling a hole. It is classic backfilling and clearly

3 within the purview of the cases from the Court of Appeals on

4 down and the First Department that say that this

5 gamesmanship is not to be -- not to be allowed.

6 Mr. Robert may have something to add.

7 MR. WALLACE: Your Honor, we have been talking

8 about this for 20 minutes. We already had your ruling.

9 THE COURT: Well, Mr. Kise likes to rebut my

10 rulings.

11 MR. ROBERT: If it makes you feel better,

12 Mr. Wallace, I'll be brief. Your Honor, based on your

13 ruling, are you then denying the application for a

14 sur-rebuttal witness being called by us?

15 THE COURT: Most likely but I'll see.

16 MR. ROBERT: Then I will reserve argument on that

17 until you make a decision on it. Fair enough. Just wanted

18 to check.

19 See, Kevin, it was quick.

20 THE COURT: This was from Reinoso versus New York

21 City Transit Authority. My research department has come up

22 with a quote, moreover in civil cases, the trial court has

23 discretion to allow rebuttal testimony that wouldn't have

24 been, I guess, that would have been more -- would more

25 appropriately have been adduced as part of the parties'

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6480

1 Q Good morning, Professor.

2 A Good morning.

3 Q Do you recall that the SOFC, Statements of Financial

4 Condition, at issue in case are complications?

5 A I do.

6 Q Would Donald Trump free to have order audited SOFC's if

7 he chose?

8 A If he chose to, of course.

9 Q Do you recall that Mazars at first and then Whitley

10 Penn were the external accountants?

11 A Yes.

12 Q With respect to the SOFC's in this case and the

13 external accountants in this case, do you agree with the

14 following statement, quote, importantly, since the external

15 accountant that prepared the SOFC's has not audited the SOFC's,

16 it is in no position to express an opinion on whether the SOFC's

17 are GAAP compliant.

18 Do you agree with that statement?

19 A Absolutely.

20 Q Do you agree with the statement that Mr. Haigh Trump

21 was responsible for the preparation and fair presentation of the

22 statements in accordance with GAAP and let me limit that beyond

23 that quote to the years 2011 through 2016, the June 30, 2016,

24 SOFC?

25 A Yes.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6481

1 Q After Mr. Haigh Trump became president, did you -- do
2 you understand that the trustees were then responsible for the
3 preparation and fair presentation of the statements in
4 accordance with GAAP?
5 A Yes.
6 Q Can we please pull up PX519. It's already in evidence,
7 I believe.
8 Do you recognize this? Do you recognize this document,
9 Professor?
10 A Give me a chance to review it. Well, I review it at
11 one point not recently but this is the credit report prepared by
12 Deutsche Bank Private Wealth Management, Risk Management.
13 Q If we could please turn to page 11. At the top, it
14 carries over from the bottom of ten, Financial
15 Analysis-Guarantor. So pages 10 to 11 Financial Analysis
16 Guarantor. Do you see that, Professor?
17 A Mine is page nine. Mine version is page 9 and 10, I
18 think.
19 MR. ROBERT: Mr. Solomon, I think he is looking at
20 the document number as opposed to how much produced at the
21 bottom.
22 Q If you look at the bottom PX519 and --
23 A Yes, I see that.
24 Q So, the carryover paragraph, the last two sentences
25 "based on the results of this due diligence, we made certain

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6482

1 assumptions that resulted in adjustments to reported values.
2 Details on such adjustments are included in the analysis that
3 follows. Pardon me. It's three sentences. Additional details
4 are included in the guarantor financial statements."
5 The we in the first sentence, do you understand that to
6 be Deutsche Bank?
7 A It sounds like it, yeah. I didn't read the whole
8 document, but it sounds like due diligent -- due diligence was
9 prepared by Deutsche Bank, yes.
10 Q Do you recall testifying on your direct that when you
11 reviewed credit memos, you came to the conclusion that Deutsche
12 Bank did not perform a mechanical automatic discount to the
13 value of the assets on the statements of financial condition?
14 A Well, to be accurate, yeah. That's true. That's true.
15 Yes, that's true. Okay.
16 Q That was your testimony on direct?
17 A That was testimony. I provided explanation why but
18 this was my testimony, yes.
19 Q What did you mean by a mechanical automatic discount to
20 the value of assets on the statements of financial condition?
21 A Mechanical adjustment means that it doesn't base on
22 economic analysis. You don't care about economic analysis. You
23 care about arbitrary with the percentage, you take it off of the
24 reported numbers without economic considerations.
25 Q So how would that work in practice?

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6483

1 A Well, in practice, you can say, hey, here are the
2 numbers. They reported a hundred million dollars cash. I'll
3 take a 50 percent discount, and I just consider it to be 50
4 million. They reported \$1 billion of asset. I take 50 percent
5 off, and I consider it as 500 million, etc. So there is no
6 economic consideration whatsoever. It is completely arbitrary.
7 Q So I understand the process, it could work that the
8 lender here, Deutsche Bank, takes an amount that's stated on the
9 financial condition, say a million dollars, gives it a
10 50 percent reduction or haircut then values it at 500,000,
11 right?
12 A Only if they -- if the 50 percent is the determined
13 arbitrarily without any economic analysis.
14 Q In my example, I would say they take 50 percent. I
15 want to make sure I understand how the math works. You take the
16 million dollars from the stated number on the SOFC, 50 percent
17 of that Deutsche Bank decides that's the number they want to use
18 so the Deutsche Bank adjusted value for that asset would be
19 \$500,000?
20 MR. KISE: Is he stating that this is what Deutsche
21 Bank or he is making up a hypothetical?
22 MR. SOLOMON: Your Honor, can I finish my
23 examination or we excuse the witness.
24 MR. KISE: There is no excusing the witness. The
25 question is whether he is mischaracterizing the evidence

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6484

1 that comes before or whether he is stating a hypothetical.
2 THE COURT: I believe it is a hypothetical.
3 MR. SOLOMON: For the moment, Your Honor, it is a
4 hypothetical.
5 MR. KISE: If it is a hypothetical, it is an
6 improper hypothetical because it fully contradicts the
7 evidence in the record.
8 THE COURT: Totally disagree. Overruled.
9 Q I am asking the mechanics of it. Thank you. If I
10 understand your testimony is that the mechanical automatic
11 discount was not done for the assets identified in Mr. Trump's
12 statement of financial condition?
13 A That's true.
14 Q Can we please look at PX302 which is the 2018 DB credit
15 memo.
16 THE COURT: I just want to add, I understand your
17 point, Mr. Kise, and I shouldn't have shut it down like that
18 but it was just a hypothetical. If you're going to use this
19 type of method, it is sort of automatic haircut, that's how
20 you would do it.
21 MR. SOLOMON: Yes, Your Honor. That question at
22 that the time was a hypothetical.
23 THE COURT: Okay. So it's not assuming that that's
24 what Deutsche Bank did. That's just if they did that that's
25 what it would have --

<p>Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6485</p> <p>1 MR. SOLOMON: At that time, the question was a 2 hypothetical, that assumption, yes. 3 Q If you could please turn to page ten -- withdrawn. 4 Do you recognize this document, Professor? 5 A I do. I do recognize it, yes. 6 Q And what do you recognize it to be? 7 A This is the credit report, again, just like before 8 different date. 9 Q And this is one that you looked at on your direct 10 examination, correct? 11 A I did, yeah. 12 Q Could you please turn to page ten and if you look under 13 4 Trophy Properties. 14 A Yes. 15 Q Was that the analysis you were looking at on your 16 direct when you said that DB did its own valuation and did not 17 rely on the valuations in the statements of financial condition? 18 A Yes, I did. 19 Q Do you recall testifying on your direct examination in 20 response to questions from counsel that this analysis 21 demonstrates to you that Deutsche Bank did not use the numbers 22 in the SOFC's but rather did its own valuation? 23 A This analysis means not only the table also the amount 24 of the language, the comment above and below. The -- you have 25 to consider the entire document not just the table in order to</p>	<p>E.Bartov - Defendant - Cross/Mr.Solomon Page 6487</p> <p>1 CROSS EXAMINATION 2 BY MR. SOLOMON: 3 MR. SOLOMON: Let's go back to page nine of 4 25 on this document. 5 Q. Professor, if you look at the bottom of PX 302, it 6 will tell you page nine of 25. 7 A. I see. 8 Q. Are you on this page that's on the screen? 9 A. I am. 10 Q. Here, again, the last three sentences are the same 11 or similar to the ones we saw in the earlier credit memo, 12 correct? 13 A. Yes. 14 Q. I want you to look at the chart below now. 15 A. Okay. 16 Q. Please, focus on the third row "real estate net 17 equity." 18 A. Okay. 19 Q. If you go to the column "DJT 6/30/2014 client 20 reporting" do you see that? 21 A. I do. 22 Q. That is -- is this 3,000,000,867 or 3,867,000? 23 A. My reading it is three billion. 24 Q. 3,000,000,867. If you look right to it, to the 25 right, "DB adjusted."</p>
<p>Page 6486</p> <p>1 figure out that the analysis was based independently and not on, 2 yeah, if you read the entire document, that's the conclusion. 3 Q So your conclusion is that Deutsche Bank did not use 4 the numbers in the SOFC's but rather did its own valuation? 5 A Based on the entire document. 6 Q Based on? 7 A The entire document. 8 Q The entire document? 9 A Yes. 10 Q Thank you. 11 (Continued on next page) 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>E.Bartov - Defendant - Cross/Mr.Solomon Page 6488</p> <p>1 Do you see that? 2 A. I do. 3 Q. 1,933,000,500, right? 4 A. Yes. 5 Q. You can check my math if you want. But, I get 6 that that's, exactly, fifty percent of the reported value, 7 right? 8 A. Yes. Maybe. I trust your -- that's okay. Yes, I 9 accept that. 10 Q. Don't accept it. Is that, exactly, fifty percent 11 of the client to credit -- 12 A. Yes, it is. 13 Q. Okay. Now, look for the years 2015, client 14 reported 4,390,000,000, DB adjusted 2,000,000,195; fifty 15 percent again? 16 A. Yes. 17 Q. 2016, fifty percent again? 18 A. Yes. 19 Q. For the DB adjusted amount as compared to client 20 reported, right? 21 A. Yes. 22 Q. 2017, fifty percent? 23 A. Yes. 24 Q. That's the adjustment Deutsche Bank did again? 25 A. Yes.</p>

E.Bartov - Defendant - Cross/Mr.Solomon	Page 6489	Proceedings	Page 6491
<p>1 Q. Now, look two rows down, "real estate licensing." 2 Again, start with 6/30/2014. 3 "329.7," do you see is that? 4 A. Yes. 5 Q. Then, the DB adjustment as 164.9. If you round 6 off 164.851 that would round up to nine, right? 7 A. Yes. 8 Q. That's, exactly, 50 percent? 9 A. Yes. 10 Q. And now, in 2015, is the DB adjusted, exactly, 11 fifty percent? 12 A. Yeah. 13 Q. 2016, is it, exactly, fifty percent? 14 A. Yes. 15 Q. 2017. Excuse me. Yes, in 2017, is it, exactly, 16 50 percent? 17 A. Yes. 18 Q. Professor Bartov, you testified, on direct, that 19 you reviewed some of the trial testimony in this case; is 20 that correct? 21 A. Yes, of course. 22 Q. If you scroll up on this page to the signature 23 line, you will see the credit memo. 24 One of the credit officers that signed, on the far 25 right, is Nicholas Haigh.</p>		<p>1 Is that your testimony, sir? 2 Yes or no? 3 A. This is my testimony because, you distorted the 4 mechanism. They didn't do it in a vacuum. They first did 5 an analysis of a number of assets, very detailed analysis, 6 and they have the Valuation Services Group, a specific group 7 that does the analysis. 8 Once he satisfied their needs for the collateral 9 for the guaranty then, as I explained, clearly, yesterday, 10 banks do not burn cash for nothing. They do not take 11 analysis that give them no benefit. 12 So, once they perform the analysis and they figure 13 out that the four trophy asset valuation is about one 14 billion dollars -- that is well, well, below the 15 125 million-dollar loan -- then, to save money -- and, I 16 think that in some places they did -- in some areas of the 17 credit record, they say in consultation with the Valuation 18 Services Group "We take fifty percent of the remaining 19 asset" because, it won't make a difference either way. So, 20 they just want to save money. 21 So this fifty percent that they took on several 22 assets -- actually, in one asset, they took 75 percent 23 haircut -- they did it after an economic analysis. This is 24 economic analysis based is not mechanical haircut. 25 MR. SOLOMON: Move to strike, your Honor.</p>	
<p>1 Do you see that? 2 A. Yes. 3 Q. Did you review Mr. Haigh's trial testimony? 4 A. I have. 5 Q. Were you aware that Mr. Haigh testified, in form 6 or substance, that, in instances the reported value was 7 adjusted in their financial analysis by fifty percent, which 8 was, he thought, a standardized number for commercial real 9 estate assets? 10 A. I do remember this testimony, yes. 11 Q. So you are aware of Mr. Haigh's testimony that DB, 12 Deutsche Bank, reduced certain of the categories, by fifty 13 percent, from the amounts reported on the Statements of 14 Financial Condition, yet you testified, on direct, that 15 Deutsche Bank, at no time, relied upon the amounts in the 16 Statements of Financial Condition. 17 A. Absolutely, there is no contradiction here at all. 18 THE COURT: "There is no contradiction at 19 all," is that what you said? 20 THE WITNESS: Yes, there is no contradiction 21 at all between these two statements. 22 Q. If I take the number from the Statement of 23 Financial Condition and apply a haircut to it, I'm not 24 relying on that number in the first instance to get to my 25 final number?</p>		<p>1 It was a "yes" or "no," question. 2 MR. ROBERT: He started out with a question. 3 He didn't like the answer. Then he tried to change it 4 to "yes or no." It was, totally, responsive. 5 MR. SOLOMON: The answer was "yes or no." 6 MR. ROBERT: No. I do what it says there. 7 But that's not how the question came out. You stopped 8 it after Professor Bartov started to answer the 9 question. 10 THE COURT: What was the question that was 11 "yes or no?" 12 MR. SOLOMON: If I take the number from the 13 Statement of Financial Condition and apply a haircut to 14 it, I'm not relying on that number in the first 15 instance to get to my final number. 16 Is that your testimony, sir, yes or no? 17 THE COURT: That's a "yes or no." The 18 answer is stricken. 19 MR. ROBERT: Your Honor, I would ask if the 20 Court reporter check her records. Because, there was 21 another question before that. 22 The witness started to answer the question 23 then, Mr. Solomon rephrased it into a "yes or no" once 24 Mr. Bartov was a sentence in. 25 THE COURT: So?</p>	

Page 6493

1 MR. ROBERT: It wasn't a "yes or no." He
2 cut him off in the middle of his answer. It's not
3 reflected in the transcript but, that's what I heard.
4 THE COURT: I don't have the transcript in
5 front of me. I'm not disputing that there might have
6 been some interruption to the question.
7 MR. SOLOMON: Your Honor, the question
8 before that, it say --
9 "THE COURT: There is no contradiction at
10 all? Is that what you said?
11 MR. SOLOMON: Witness answered, "Yes, there
12 is no contradiction at all between the two statements."
13 And then, I asked the question that I
14 previously read.
15 THE COURT: That prior question has nothing
16 to do with this which is a simple, straightforward
17 independent "yes" or "no," question.
18 Mr. Solomon, do you want to repeat it? You
19 want a read back?
20 MR. SOLOMON: So, is your Honor striking the
21 answer.
22 THE COURT: Yes.
23 MR. SOLOMON: Thank you, your Honor.
24 THE COURT: It is pure "yes or no."
25

Page 6495

1 take a high school dropout and have him apply the fifty
2 percent haircut.
3 MR. SOLOMON: Again your Honor, move to
4 strike everything after the "yes or no" type response
5 to my question.
6 THE COURT: Was it "yes" or "no?"
7 MR. SOLOMON: I believe it was, of course.
8 And then, context dependent. Then, I asked if he was
9 aware. And, he said, "I was aware it was context
10 dependent," and then, went on to explain.
11 THE COURT: After that --
12 MS. HABBA: Your question was not "were you
13 aware. Let's read the record accurately. That was not
14 your question. Your question was:
15 "My question was that Deutsche Bank had a
16 standardized adjustment of fifty percent for commercial
17 real estate."
18 He said, it applied to context.
19 That was your question. You just misstated
20 your question.
21 MR. SOLOMON: The next question was, that
22 was my question, was that Deutsche Bank had a
23 standardized adjustment of fifty percent for commercial
24 real estate.
25 The witness responses "I was aware of it but,

Proceedings Page 6494

1 CROSS EXAMINATION
2 BY MR. SOLOMON
3 Q. If I take the number from the Statement of
4 Financial Condition, take that number exactly as it appears
5 there and apply the haircut to it, is it your testimony that
6 I'm not relying on that number in the first instance to get
7 to my adjusted value?
8 Yes or no?
9 A. In this context, no. In this context, no. In
10 accounting --
11 THE WITNESS: Judge, I want to tell you if I
12 may.
13 THE COURT: No, you can't. You can be
14 redirected.
15 Q. Were you aware, as Mr. Haigh testified in this
16 case, that, Deutsche Bank had a standardized adjusted of
17 fifty percent for commercial real estate?
18 A. Of course; context dependent.
19 Q. That wasn't my question. It was that, Deutsche
20 Bank had a standardized adjustment of fifty percent for
21 commercial real estate?
22 A. I was aware of it but, it applied -- depend on the
23 context. They don't make it -- if they don't apply fifty
24 percent haircut, they don't need the valuation services.
25 They don't need Mr. -- they don't need Mr. Haigh. They can

Page 6496

1 applied -- depends on the context."
2 And then, he goes on.
3 Question was, "Was he aware of it?"
4 THE COURT: The objection was overruled.
5 The answer is stricken after and what Mr. Solomon just
6 said.
7 MR. SOLOMON: Let's go to page 11, again, at
8 the bottom 11 of 25?
9 THE COURT: The part about "context
10 dependent" that could have been stricken too. I'm not
11 doing that because, you didn't ask for that.
12 MS. HABBA: Your Honor, while we're stopped,
13 I'm not sure what's going on with -- it says, "my
14 notes" now. If you look, line --
15 (Pause in proceedings.)
16 THE COURT: Mr. Solomon.
17 Q. Did Mr. Haigh testify, to your knowledge, that, it
18 was context dependent as to the haircut to be applied to the
19 assets?
20 A. I don't remember these details. You know, I read
21 it a few days ago and I read so many other trial testimonies
22 that I don't remember whether he did or did not. I don't
23 remember if you asked this question to him or not.
24 MR. SOLOMON: Can we please put up
25 Mr. Haigh's trial testimony page 1016 lines three

E.Bartov - Defendant - Cross/Mr.Solomon Page 6497

1 through 16?
2 "QUESTION: Do you know why, for purposes of
3 the analysis, in the credit report, the \$1.3 billion in
4 reported value of the club facilities was reduced by
5 fifty percent for deriving an adjusted value?
6 "ANSWER: The value, the reported value was
7 adjusted in our financial analysis by fifty percent
8 which was a, I think, standardized number for
9 commercial real estate assets. And the purpose of
10 doing that was just to have a broad sense of what those
11 assets might be worth.
12 "If we were in bad market conditions and we
13 needed to seek repayment from the client and the
14 client's asset had fallen in value, fifty percent
15 represented a number which would be significant and yet
16 we could still look at those assets and see whether
17 there was any equity in those assets; meaning" --
18 And that's the end of the answer. Do you see
19 that?
20 A. I do.
21 Q. Do you see anything about it being context
22 dependent?
23 Yes or no, sir?
24 A. Implicitly, yes.
25 MR. SOLOMON: Let's go back to page 11 of

E.Bartov - Defendant - Cross/Mr.Solomon Page 6498

1 PX302 please.
2 Q. If you look at the entry for "real estate
3 licensing" do you see?
4 A. I do.
5 Q. You can read the entire of the paragraph. I would
6 like to focus here on the last sentence. "For purposes of
7 deriving an adjusted value, we assumed a fifty percent
8 haircut of this asset." Were you aware that have statement
9 in the credit report before you testified on direct
10 examination?
11 A. I was.
12 MR. SOLOMON: Would you please pull up
13 PX293.
14 Q. Do you mean recognize this document, Professor?
15 A. I do.
16 Q. What do you recognize it to be.
17 A. Same documents as before, different date;
18 December 20, 2011.
19 Q. It's the Deutsche Bank credit report credit memo
20 that we were talking about?
21 A. It is. Yes.
22 Q. Could you turn to page six. That's on the bottom
23 six of sixteen.
24 And if you look under "club facilities" --
25 A. Yes.

E.Bartov - Defendant - Cross/Mr.Solomon Page 6499

1 Q. Again, you can read the entirety of the paragraph
2 if you need. But the last sentence, "For purposes of our
3 analysis, the \$1.3 billion in reported value has been
4 reduced, by fifty percent, for deriving an adjusted value."
5 Do you see that?
6 A. I do.
7 Q. Were you aware of that statement in the credit
8 report before you testified on your direct examination?
9 A. Absolutely.
10 MR. SOLOMON: Can you turn to page ten of
11 26 -- excuse me -- ten of 16. Actually, you know what?
12 Let's pull that down for a moment. We'll come back to
13 that.
14 Q. Before we leave this area, I have a fairly simple
15 math question for you?
16 A. Hold on a second. He didn't qualify me as a
17 mathematician.
18 Q. I'm sorry?
19 A. He didn't qualify me as a mathematician, so is it
20 okay.
21 THE COURT: Did you pass high school math?
22 Q. It shouldn't pose a problem.
23 A. Okay.
24 Q. I would like you to assume for a moment --
25 assumption, hypothetical. Let's be clear -- that a stated

E.Bartov - Defendant - Cross/Mr.Solomon Page 6500

1 value on the Statement of Financial Condition for an asset
2 is not the estimated current value. Okay? Assume that for
3 the moment.
4 If Deutsche Bank takes a fifty percent haircut of
5 that number, is it fair to conclude that, that Deutsche Bank
6 adjusted number is not fifty percent of the estimated
7 current value?
8 Yes or no?
9 A. You know, can you repeat the question. It's --
10 MR. SOLOMON: Can I have a read back, your
11 Honor?
12 THE COURT: Read --
13 THE WITNESS: Because, it's a very confusing
14 question I find it.
15 THE COURT: I passed high school math and I
16 understood the question.
17 THE WITNESS: You did?
18 THE COURT: Let's have a read back.
19 (The testimony as requested was read by the
20 reporter.)
21 A. Yes, I understand now. Yes, sorry. You're right
22 it's a simple question. I make too much of it. Thank you
23 for your inquiry. Thanks.
24 THE COURT: Sometimes the simple approach is
25 the best.

E.Bartov - Defendant - Cross/Mr.Solomon Page 6501

1 THE WITNESS: That's true.
2 MR. SOLOMON: If we could please pull up
3 PX293.
4 Q. Do you have it in front of you, sir?
5 A. I do yes.
6 Q. Okay. The date of this report is December 20,
7 2011, correct?
8 A. Yes.
9 Q. And you reviewed this credit memo on your direct
10 testimony; do you recall that?
11 A. I do.
12 Q. Please turn to page six of 16.
13 You reviewed the valuation for Trump Tower on your
14 direct testimony.
15 Do you recall that?
16 A. I do.
17 Q. Am I correct that you testified that Deutsche Bank
18 must have received information from the Trump Organization
19 as to NOI, net operation income?
20 A. I couldn't find NOI -- unless I missed it. I
21 don't remember finding it on the Statement of Financial
22 Condition. So I assume they got it from Mr. Trump directly.
23 If it is on the Statement of Financial Condition then, it's
24 oversight on my part.
25 Q. Is it your understanding, though, assuming there

E.Bartov - Defendant - Cross/Mr.Solomon Page 6502

1 was no oversight, that, the net operating income for Trump
2 Tower, that's on the Deutsche Bank credit report, came from
3 the Trump Organization?
4 A. Either from the Trump Organization or from other
5 sources. My assumption is that most likely source would be
6 the Trump Organization.
7 Q. Now, if we look further down on this chart, can we
8 agree that Deutsche Bank conducted a similar analysis when
9 it calculated the adjusted value for 40 Wall Street?
10 A. Similar to what?
11 Q. Similar to the analysis that was done for Trump
12 Tower that you testified to on your direct?
13 A. Well, I have to read the --
14 Q. Please read the analysis as to what they did for
15 40 Wall Street.
16 A. Can you go down? Can you scroll down, please?
17 Okay.
18 Yes, let me just read.
19 That's okay. Thank you. Thank you. Thank you.
20 Yes, it looks similar.
21 Q. Assuming you didn't miss something or it wasn't in
22 the Statement of Financial Condition, am I correct that the
23 only place that Deutsche Bank could have received the
24 information as to the net operating income and the cap rate,
25 used by the Trump Organization, was the Trump Organization?

E.Bartov - Defendant - Cross/Mr.Solomon Page 6503

1 A. I would say it is a most likely explanation.
2 Q. Here you see the NOI is 26.2 million.
3 Do you see that?
4 A. I do.
5 Q. Remember that number if we can. Just keep in
6 mind. I believe 26.2 is the distance for a marathon if I
7 recall correctly.
8 THE COURT: Is the what?
9 MR. SOLOMON: Distance for a marathon.
10 THE COURT: I am sure it is 26 point
11 something.
12 A rare concession by Mr. Robert.
13 MR. SOLOMON: Now that we have done this,
14 we'll agree it is 26.2.
15 Did you review any documents to confirm
16 whether any of the NOIs provided by the Trump
17 Organization to Deutsche Bank were accurate?
18 A. I didn't perform any audit. I didn't audit any of
19 the document to verify their accuracy.
20 MR. SOLOMON: Can we please pull up PX 1573
21 which was already admitted.
22 Q. Do you recognize this as an appraisal of 40 Wall
23 Street?
24 A. I do.
25 MR. SOLOMON: Actually, let's just take a

E.Bartov - Defendant - Cross/Mr.Solomon Page 6504

1 step back and let's see if we can confirm the 26.2
2 number that we looked at.
3 Can we pull up PX 788, please. I think we
4 can look at it on the screen, if that's okay, to move
5 it along.
6 Can we go to row 118.
7 Q. Do you recognize the format of this document, sir?
8 A. Yes, this is the -- I believe the raw paper that
9 was provided to Mazars.
10 Q. It was prepared by someone at the Trump
11 Organization, correct?
12 A. Yes.
13 MR. SOLOMON: Can we please turn to row 118
14 for 40 Wall Street?
15 Q. Do you see the NOI on this document is 26.234 --
16 excuse me, \$26,234,400 for 40 Wall Street?
17 A. I do.
18 Q. That matches with the 26.2 number we saw on the DB
19 credit memo, right?
20 A. Yes.
21 MR. SOLOMON: Let's take that down and go
22 back to the appraisal.
23 Q. And this is as of November 1, 2011, correct?
24 A. Yes.
25 Q. And it's done by Cushman & Wakefield, correct?

E.Bartov - Defendant - Cross/Mr.Solomon Page 6505

1 A. Yes.
2 Q. And they are a well respected firm?
3 A. Not in the business but, I have no reason to
4 disagree with you.
5 Q. You're saying you're not in the appraisal
6 business?
7 A. I'm not in the appraisal business. Yeah, I have
8 my limitation too.
9 Q. Have you seen this document before, Professor?
10 A. You know, I don't think so. I don't think so.
11 Q. This was about fifty days -- November 1st --
12 roughly, fifty days before the date of the credit memo that
13 we were just looking at, correct?
14 A. Yes.
15 THE COURT: Yes.
16 THE WITNESS: Yes.
17 Q. Can we turn it page 140 of the appraisal? This is
18 a chart showing revenue and expenses, correct?
19 A. Yes.
20 MR. SOLOMON: If we scroll down to the
21 bottom, the last line, "net operating income."
22 Q. Do you see that?
23 A. Where? Can you highlight it?
24 MR. SOLOMON: Please?
25 A. Yes, I see it.

E.Bartov - Defendant - Cross/Mr.Solomon Page 6506

1 Q. The net operating income, according to this
2 appraisal for 40 Wall Street is \$6,236,273.
3 Do you see that?
4 A. I do.
5 Q. But as you recall, the number given to Deutsche
6 Bank, by Trump Organization and as reflected on the
7 supporting spreadsheet, was 26.2 million, correct?
8 A. Correct.
9 Q. Before I show this to you, were you aware that the
10 Trump Organization provided a different number for the net
11 operating income, for 40 Wall, that was more than four times
12 greater than the NOI contained in the appraisal?
13 A. I didn't review the appraisal. So --
14 Q. Is that a no?
15 A. I didn't review the appraisal. There is no way
16 for me to know about it.
17 Q. Assume that the Trump Organization provided a
18 grossly inflated number to Deutsche Bank for the net
19 operating income, then the DB adjusted valuation, for 40
20 Wall, would be inflated as well, correct?
21 A. I didn't -- I don't agree with your premise. So,
22 your question doesn't make sense to me.
23 Q. I am asking you -- okay.
24 You don't agree with the premise that the Trump
25 Organization provided inflated number to Deutsche Bank for

E.Bartov - Defendant - Cross/Mr.Solomon Page 6507

1 the net operating income at 40 Wall?
2 A. Absolutely, no.
3 Q. Let's assume they did.
4 A. Assume?
5 Q. Assume that the number was inflated?
6 A. Okay.
7 Q. Would the Deutsche Bank adjusted number for 40
8 Wall be inflated?
9 Yes or no?
10 A. Yes.
11 Q. Do you recall being asked, on direct examination,
12 some questions about 40 Wall Street and what you would do if
13 a student walked into your class and told you they valued 40
14 Wall at 200 million?
15 A. Yeah. Yes.
16 Q. If you don't remember the testimony, I can put up
17 the testimony.
18 A. I think, I remember.
19 Q. What did you say you would do?
20 A. I said that my definition -- "By definition,
21 estimated current value must be higher than liquidation
22 value. So if a student come with a estimated current value
23 that is well below liquidation value, this valuation must be
24 flawed."
25 Q. Did you say that if the student came to you with

E.Bartov - Defendant - Cross/Mr.Solomon Page 6508

1 200 million dollar valuation for 40 Wall Street, in 2011,
2 you would tell them, quote, this is impossible?
3 A. Yes, I did. Given the -- yes. Given the
4 circumstances of this case, yes. It is all in context of
5 this case. Yes.
6 Q. Remember that \$200 million number and your
7 testimony that it's impossible -- the valuation?
8 A. Yes.
9 MR. SOLOMON: Can you please turn to page
10 three of the appraisal.
11 Q. Can you read what the market value, as is, at the
12 bottom, determined by Cushman & Wakefield?
13 A. 200 millions.
14 MR. SOLOMON: Let's turn to the creation of
15 personal financial statements.
16 Q. Can we agree that ASC 274 addresses personal
17 financial statements?
18 A. Yes.
19 Q. Can we also agree that personal financial
20 statements are required to include sufficient disclosures to
21 make the statements adequately informative?
22 A. Absolutely, yes. Because, you cut it and paste it
23 from the standard.
24 MR. SOLOMON: Can we pull up PX 1609,
25 please?

<p>E.Bartov - Defendant - Cross/Mr.Solomon Page 6509</p> <p>1 Q. Do you recognize this document, Professor? 2 A. Yes, it seem to be ASC 274. 3 Q. If we could please turn to page 13 of 21. So the 4 number 13 on the bottom. If you look at 55-1. 5 That's under "Implementation guidance for 6 estimated current value," correct? 7 A. Yes. 8 Q. "This implementation guidance addresses estimated 9 current value. Recent transactions involving similar assets 10 and liabilities in similar circumstances ordinarily provide 11 a satisfactory basis for determining the estimated current 12 value of an asset and the estimated current amount of a 13 liability. 14 "If recent sales information is unavailable, other 15 methods that may be used include any of the following" -- 16 And then, it goes on to list five other methods, 17 correct? 18 A. This is not related to real estate. For real 19 estate, there's a different paragraph. 20 Q. Is it your testimony that you -- that one cannot 21 use this particular provision, 55-1, for estimating the 22 current value of real estate? 23 A. I am saying that -- 24 Q. Yes or no? 25 A. Context dependent.</p>	<p>E.Bartov - Defendant - Cross/Mr.Solomon Page 6511</p> <p>1 estate is different than this guidance. It is different 2 than this guidance. 3 (Whereupon, the following proceedings were 4 stenographically recorded Shameeka Harris.) 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
<p>E.Bartov - Defendant - Cross/Mr.Solomon Page 6510</p> <p>1 Q. So, it could apply to real estate. 2 A. Hypothetically, yes. But, expert accountants 3 would not use it. They would use a paragraph that directly 4 relate to real estate; that say, "For real estate this is 5 the guidance." 6 If I have a direct guidance for real estate, why 7 would I use guidance that does not, directly, relate to real 8 estate? 9 I'm just telling you how expert accountants works. 10 That's all. 11 MR. SOLOMON: Move to strike anything after 12 the yes, your Honor? 13 THE COURT: Please reread the question and 14 the first word of the answer. 15 (The testimony as requested was read by the 16 reporter.) 17 THE COURT: Stricken after that. Could 18 apply to real estate. Than could be redirected. 19 Q. Sir, in your opinion, looking at this provision if 20 recent sales information, involving similar assets, is 21 available, is someone preparing a personal financial 22 statement, in accordance with these guidelines, free to use 23 any of the other methods? 24 A. I think so. We talk about real estate. When we 25 take about real estate, yes. Because, the guidance for real</p>	<p>Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6512</p> <p>1 CONT'D CROSS-EXAMINATION 2 BY MR. SOLOMON: 3 Q Can we please pull up -- is it your testimony that the 4 specific section with respect to real estate trumps 55-1 when it 5 comes to valuing real estate assets for estimated current value? 6 A That's my opinion, yes. 7 Q And is that because you have to ensure, when looking at 8 274, that all of the guidance is considered when reaching a 9 conclusion? 10 A No, because in accounting when a specific provision 11 about the transaction, this specific provision trumps general 12 provision. That's the rule in accounting. 13 Q Is there anywhere in this general provision that says 14 you cannot apply it to real estate? 15 A That's not the question. You can do whatever you want 16 but that's not how accountants do it. 17 THE COURT: It is -- 18 A Accountants look for the best solution not the worst 19 solution. 20 THE COURT: That does not answer the question. 21 That's what we call nonresponsive. Do you want the question 22 read back? 23 MR. SOLOMON: Please. 24 MR. KISE: Your Honor, that's responsive in his 25 field.</p>

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6513

1 THE COURT: It was not. Overruled. Read back.
 2 (Whereupon, the requested testimony was read back
 3 by the court reporter.)
 4 Q Yes or no question, sir?
 5 A No, it's impossible to answer. I'll say, no, you
 6 can't. If you want a misleading answer, I'll say no.
 7 THE COURT: Okay. That answers the question. The
 8 answer was no. It was obvious just from looking at the
 9 guidance.
 10 Q Can we please pull up 787 --
 11 MR. KISE: Now, we want misleading answers. That's
 12 what we are encouraging in the courtroom. The witness said
 13 he can't answer the question. If you want a misleading
 14 answer, I'll say no. That's acceptable? It's preposterous.
 15 MR. SOLOMON: With all due respect, the witness
 16 should have stopped with I can't answer the question. I
 17 don't think that's anywhere in any of my questions.
 18 MR. KISE: Every one of your questions is asking
 19 for a misleading answer. This whole thing is just a gotcha
 20 game. That's fine. Objection noted. I don't think that we
 21 should possibly be allowing misleading answers. The witness
 22 says he is being mislead and the Court is just going to
 23 allow that to continue then, then that alone should be a
 24 basis for a mistrial. You can't have evidence come in that
 25 isn't -- I know it's funny to the Government because they

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6514

1 don't really care about evidentiary rules or anything else.
 2 So that's fine. I know they want to chuckle and laugh like
 3 they are in grade school so...
 4 MR. SOLOMON: Your Honor, do we actually need this.
 5 The witness has given an answer. Counsel has made his
 6 objection on the record as to the situation.
 7 MR. KISE: Fair enough. My objection is on the
 8 record.
 9 MR. SOLOMON: The record is clear.
 10 THE COURT: You know, this trial is complicated
 11 enough. When the question is is this language include
 12 certain -- does this statement include certain language and
 13 it doesn't, the answer is no. I don't see what we are
 14 arguing about here.
 15 MS. HABBA: Your Honor, I'm sorry. I am reading
 16 his answer. He says it is impossible to answer. Then we
 17 are cornering the witness to give a yes or no answer when
 18 he's saying it's impossible to answer.
 19 THE COURT: How could it not be possible to answer
 20 the question whether certain language is in a statement that
 21 is on the screen.
 22 MS. HABBA: Your Honor, we can't force the witness
 23 to give a yes or no answer when he can't give a yes or no
 24 answer. That's completely improper. I join Mr. Kise in his
 25 objection.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6515

1 THE COURT: Mr. Solomon, what would you like to do?
 2 MR. SOLOMON: I would like to note when the witness
 3 said it is not possible I didn't ask a followup question. I
 4 didn't force him to answer yes or no. If I tried to pursue
 5 that, they would have said I was harassing the witness. I
 6 asked. He said it is impossible to answer yes or no and
 7 then he proceeded to say if you want a misleading answer. I
 8 am satisfied with the answer it's impossible to say yes or
 9 no.
 10 THE COURT: We will interpret it as we see fit.
 11 Let's move on.
 12 CONT'D CROSS-EXAMINATION
 13 BY MR. SOLOMON:
 14 Q We have pulled up on the screen PX787. That's the
 15 June 30, 2011, statement of financial condition. If you turn to
 16 page six. That's on the bottom, 6 of 22. Under basis of
 17 presentation, the second paragraph, do you recall being asked
 18 questions on direct examination about the paragraph beginning
 19 such valuation methods include?
 20 A I do.
 21 Q If an issue includes this paragraph in a statement of
 22 financial condition, is it free to misrepresent valuations or
 23 other information in its statement of financial condition?
 24 A No.
 25 Q If an issue include this paragraph in its statement of

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6516

1 financial condition, is it free to knowingly misrepresent facts
 2 within its knowledge in the statement of financial condition?
 3 A What do you mean? Can you give me an example of
 4 knowledge and facts specifically here what are you talking
 5 about?
 6 Q We've talked about dates in this trial. So today is
 7 Tuesday, right?
 8 A Yes.
 9 Q If a statement of financial condition it -- the person
 10 who's issuing the financial statement knows it's Tuesday but
 11 puts in the statement of financial condition that today is
 12 Wednesday, that's a knowing misrepresentation, right, with that
 13 example? Is an issuer, if they include this paragraph, free to
 14 knowingly misrepresent facts in its knowledge in the statement
 15 of financial condition?
 16 A No.
 17 Q Do you recall testifying on direct examination in form
 18 or substance that you tell your students every day in class that
 19 every word matters, every single word matters?
 20 A I do.
 21 Q Can we pull up his affidavit from August 31, 2023.
 22 Sir, sir, it's on the screen. If we can turn to paragraph 24 of
 23 your affidavit. Actually, before we do that, do you recall
 24 signing this affidavit in this case?
 25 A I do.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6517

1 Q Let's go to paragraph 24. Quote, Mr. Trump's SOFC's
2 for 2011 through 2021 did not impact significantly Deutsche Bank
3 decisions to extend loans to defendants or to set these loans
4 interest rate, paren, see Exhibit A at 25-32 period, close
5 paren.
6 Do you see that?
7 A I do.
8 Q You chose in your affidavit to modify and limit your
9 statement by using the word significantly, correct?
10 A Did I modify from what?
11 Q Your statement in paragraph 24 --
12 A Yes.
13 Q -- is modified. It is not absolute. It does not say
14 did not impact. It says did not impact significantly. You
15 chose to use the word or add the word significantly, correct?
16 A Yes, I do. And maybe I should have used the word
17 materially.
18 THE COURT: Stricken. If you want.
19 MR. SOLOMON: Yes, Your Honor.
20 THE COURT: Professor Bartov, the question was did
21 you use that word.
22 THE WITNESS: Significant, yeah. I use it right
23 here.
24 THE COURT: That answers the question.
25 THE WITNESS: I see.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6518

1 Q It was an intentional choice by you to use the word
2 significantly; is that correct?
3 A I don't know what you mean.
4 Q Yes or no?
5 A I don't know what you mean by intentionally.
6 Q Did you write this affidavit?
7 A I did.
8 Q Did you review it before you signed it?
9 A I did.
10 Q Did you ensure that everything in this affidavit was
11 correct before you signed it?
12 A I did, yes.
13 Q So you chose to use the word significantly?
14 A I did.
15 Q Is that correct?
16 A Yes.
17 Q Let's look at the next paragraph 25. And you can look
18 at the entirety of the paragraph, but I'd like to focus on after
19 the dash demonstrates that Deutsche Bank's reliance on the
20 information in the SOFC's was marginal in deciding whether to
21 extend the subject loans and what interest rate to charge; do
22 you see that?
23 A I do.
24 Q Here again you chose to limit your statement this time
25 by using the word marginal, right?

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6519

1 A That's true.
2 Q And was that intentional on your part?
3 A I mean, maybe, marginal is not the best word. Maybe,
4 there is another word that will slightly describe it better but
5 the idea is that, yes, I choose to communicate this idea this
6 way but, you know, if your point is marginal is not the best
7 word then I should use maybe slightly a different word in the
8 dictionary, that may be but the idea I definitely support the
9 idea here.
10 Q Sir, I'm not criticizing in any way, shape or form what
11 word you chose to use, but I am asking you to analyze and
12 analyze for this court the word you chose to use, very
13 succinctly. You chose to use the word marginal instead of
14 having an absolute statement, correct?
15 A What do you mean by absolute statement?
16 Q An absolute statement would be Deutsche Bank did not
17 rely on the information in the SOFC's. You said Deutsche Bank's
18 reliance of -- the information in the SOFC's was marginal. You
19 qualified that, correct, yes or no?
20 A Yes, I did.
21 Q Okay. Can we go back to paragraph 17. "Mr. Trump's
22 SOFC's for 2011 through 2021 were prepared in a personal
23 financial statement format in accordance with ASC 274 and the
24 valuation of investment properties recognized in those SOFC's
25 were generally consistent with the notion of estimated current

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6520

1 value." Do you see that?
2 A I do.
3 Q Here again you chose to limit your statement by using
4 the word generally instead of having an absolute; is that
5 correct?
6 A Yes.
7 Q And that was intentional on your part, correct?
8 A That was intentional, yes.
9 Q Is it your opinion, as you sit here -- withdrawn.
10 Did the inclusion of the word generally have any
11 significance?
12 A No.
13 Q Did the inclusion of the word marginal in the other
14 paragraph have any significance?
15 A No, in the context of this litigation. Just the way of
16 talking but it is the same thing. If I have generally, omit
17 generally, in this litigation, the message is the same.
18 Marginal, I put it in, you put it out, the message is the same.
19 Q Keeping in mind your prior testimony that every single
20 word matters?
21 A It does.
22 Q Please let me finish. Your testimony was that every
23 single word matters. Now, it's your testimony that the
24 inclusion of those words have no significance, yes or no?
25 A This words has no significance on the general message

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6521

1 that I am trying to convey here.

2 Q Professor Bartov, assume that in various statements of
3 financial condition between 2011 and 2021 the following facts.
4 Mr. Trump Triplex was overvalued. Seven Springs, do you
5 remember that property in Westchester, that was overvalued.
6 Mr. Trumps US golf courses were overvalued. The rent stabilized
7 units at Trump Park Avenue were overvalued in the statement of
8 financial condition. 40 Wall Street was overvalued. Mar-a-Lago
9 was overvalued. The Aberdeen Golf Course from Scotland was
10 overvalued, unrestricted cash was overstated, licensing deals
11 were overvalued. Assume all of those facts for the moment,
12 okay.

13 A These are hypotheticals. They are no related to this
14 case. They are hypotheticals, yes.

15 Q They are related to the case insofar as I describe
16 properties in the statement of financial condition. As a
17 hypothetical, I am asking you to assume all of those facts are
18 true that I just read off?

19 A Okay.

20 Q If all of those foregoing facts were true, would you
21 consider the cumulative effect of each individual misstatements
22 in determining materiality, yes or no?

23 A There is no way I can answer it as a yes or no question
24 because it depends on the methodology I used to calibrate
25 materiality. There are many different ways, as the accounting

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6522

1 literature clearly say, there are many, many different
2 approaches to test materiality and depending on the approach you
3 choose.

4 Q Would you consider all of them at least in determining
5 which approach you might use to determine materiality?

6 A I definitely consider the quality of this valuation and
7 if you want, I can explain what it means.

8 Q I'm not asking you to explain it. I am asking you if
9 you would consider all of those facts that I've asked you to
10 assume when you're determining the methodology or other ways
11 that you would look at materiality? So would you consider all
12 of those facts, yes or no?

13 A Yes.

14 Q Let's talk about the notes to the statement of
15 financial condition. If we can pull up PX1609, please, and go
16 to page ten. You'll see that -- well, are you familiar with
17 this section, sir?

18 A Yes.

19 Q This is the disclosure-general, right?

20 A Yes.

21 Q Okay. 50-2, personal financial statement disclosure
22 shall include, but are not limited to, all of the following:
23 And then it lists several items; do you see that?

24 A I do.

25 Q Under C --

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6523

1 A Yes.

2 Q -- either of the following:

3 One, the methods used in determining the estimated
4 current values of major assets and the estimated current amounts
5 of major liabilities.

6 Two, the methods used in determining the major
7 categories of assets and liabilities; do you see that?

8 A I do.

9 Q Should there have been an "or" between 1 and 2.
10 Withdrawn.

11 How would you read that? Would you read in the word
12 "or" between 1 and 2?

13 A Yes.

14 Q So it's in the alternative?

15 A Yes.

16 Q Have you formed an opinion as to whether Donald Trump's
17 statements of financial condition for all of the years between
18 2011 and 2021 satisfy this requirement in "C"?

19 A Well, as far as I remember, in my reports, I don't
20 address this question, as far as I remember. My memory is also
21 that Mr. Flemmons did address this. This is my recollection,
22 but I did not address it in my report.

23 MR. SOLOMON: May I have a read back of the
24 question, Your Honor.

25 THE COURT: Read back the question, please.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6524

1 (Whereupon, the requested testimony was read back
2 by the court reporter.)

3 MR. SOLOMON: I'm not sure the answer was
4 responsive. He indicated it was not in his report. I am
5 asking if he formed an opinion.

6 THE COURT: I don't know where we are. I
7 understand the question.

8 MR. SOLOMON: Right. His answer was he didn't form
9 an -- he didn't put it in his report. So could I have a
10 direction to the witness to answer the question?

11 THE COURT: That's not responsive. Did you
12 consider whether according to "C", 1 or 2 is used.

13 A Okay. I just don't want to clarify, yes. So, I did
14 consider it. I did consider it. Yeah, but I -- yes, I did
15 consider it at one point.

16 Q And did you reach a conclusion as to whether all of the
17 statements of financial condition between 2011 and 2021 complied
18 with "C"?

19 A Well, my -- my opinion was that -- that the statement
20 did not violate this paragraph.

21 THE COURT: Did not violate.

22 Q Did not violate. So you believe that all of the
23 statements of financial condition complied with paragraph "C";
24 is that correct?

25 A That's was my -- again, this is my recollection.

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6525

1 THE COURT: Five-minute warning.
2 Q Can we pull up PX730 which is already in evidence. We
3 put in front of you what's been marked as PX730 which is already
4 in evidence, the June 30, 2014, statement of financial condition
5 for Donald J. Trump; do you have that, sir?
6 A I do.
7 Q As you sit here today, do you know, one way or the
8 other, if all of the -- I want to make sure I read this so I
9 don't get an objection. "All of either the methods used in
10 determining the estimated current values of major assets and the
11 estimated current amounts of major liabilities or the methods
12 used in determining the major categories of assets and
13 liabilities are disclosed and accurate in this statement of
14 financial condition"?
15 A We don't use accurate in accounting. Accurate is not
16 defined. We say fairly represent. But the point is my -- my --
17 you didn't ask me how I form my opinion. I form my opinion
18 based on reading the financial statement and you have a "or".
19 You have either "or". So either the methodology or the
20 classification of the assets on the balance sheet. Right, the
21 second -- what is the second -- the categories, right, the
22 second talk about so you don't have to disclose both it's
23 either --
24 Q The second, just so we're clear, could you put it back
25 up on the screen so there is no misunderstanding, please. The

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6526

1 second speaks to method.
2 A Yeah, method of what? Method of -- method of --
3 Q Let's put it up on the screen so there is no
4 misunderstanding, sir.
5 A Methods used to determine the major categories of
6 assets and liabilities. The major categories of asset
7 liabilities in my opinion are clearly stated on the statement of
8 financial condition.
9 Q And the second part of my question was, as you sit here
10 today, do you believe that they are -- I used the word accurate,
11 let's use your word -- fairly represented on the statement of
12 financial condition?
13 A My opinion is, yes, the second one, the second one,
14 method used to determine major categories, are clearly stated in
15 the statement of financial condition.
16 Q And are you aware of any situation in which a method
17 that is described on the statement of financial condition is not
18 the method that was used to obtain the estimated current value
19 of the asset referred to or stated on the SOFC's?
20 A You're talking about categories of asset. Where are --
21 where do you get estimated current value here. You just talking
22 about method used to determine major categories. This --
23 Q Are you aware, as you sit here today, of any situation
24 in which either one or two under "C", which is described in the
25 statement of financial condition, it's your testimony that

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6527

1 either one or two are described for all of the major assets,
2 right?
3 A Yes, that is my testimony.
4 Q Are you aware of any situation where whatever that
5 disclosure or description is it is not accurate or doesn't
6 fairly represent the actual method that was used, yes or no?
7 A Materially, materially or not materially? Not
8 materially it doesn't matter. Materially, I don't remember. I
9 don't remember finding any material misstatement with connection
10 to the category -- this -- describing the categories of
11 estimated liability. I didn't look for --
12 Q What about not materially?
13 A I didn't look for them.
14 THE COURT: Okay. Perfect timing. See you all at
15 11:45. I will order the witness not to discuss his
16 testimony of the case or anything related to them during the
17 break.
18 (Whereupon, the witness was excused from the
19 stand.)
20 (Whereupon, a recess was taken.)
21 COURT OFFICER: All rise, Part 37 is back in
22 session. Please be seated and come to order.
23 THE COURT: Okay. Let's get the witness back,
24 right.
25 (Whereupon, the witness resumes the witness stand.)

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6528

1 MR. SOLOMON: May I proceed, Your Honor.
2 THE COURT: Please do.
3 MR. SOLOMON: Thank you.
4 CONT'D CROSS-EXAMINATION
5 BY MR. SOLOMON:
6 Q Professor Bartov, you testified on direct that given
7 his cash on hand in June of 2011 Mr. Trump could have
8 self-financed the Doral Project, do you recall that?
9 A I do.
10 Q And you later testified that given his cash on hand in
11 2013 Mr. Trump could have self-financed all of the 232 million
12 he borrowed on the Doral and Chicago Project; do you recall
13 that?
14 A Yes, I do.
15 Q That was where we looked at the 125 and 107 and added
16 those together?
17 A Yes.
18 THE COURT: One at a time. Don't talk over each
19 other.
20 Q Could we please pull up PX707 and go to page four.
21 Under cash and marketable securities, 339,100,000; do you see
22 that?
23 A I do.
24 Q And was that the number you were using when you
25 testified that Mr. Trump could have self-financed the projects?

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6529

1 A No.
2 Q What number were you using?
3 A I talk roughly but this number need to be adjusted
4 based on the information in the footnote. You never read the
5 financial statement by restricting yourself to what is written
6 in the body of the statement. What is written in the footnote
7 is an integral part of the title. You have to read it
8 altogether. If you read the footnote, you can see that some
9 assets are not as liquid as some other assets so the numbers
10 need to be adjusted. I didn't do the exact calculation. I say
11 ballpark he could have financed it by himself. If not, he might
12 need to borrow 20 million or 30 million or whatever. He didn't
13 have to borrow 200 something million. That's what I meant by
14 that.
15 Q So today you use the term ballpark. I -- did you use
16 that term yesterday in response to questions on your direct
17 examination when you were saying he could have financed the
18 project himself?
19 A They didn't -- they didn't ask me about the 339. They
20 didn't ask me about the specific number. They didn't ask me to
21 provide this detail. So you asked me a different question, so
22 you got a different answer.
23 Q So with respect to the cash and marketable securities
24 that Mr. Trump held, as adjusted based upon whatever adjustment
25 you would make, would you consider that Mr. Trump would have to

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6530

1 sell marketable securities to finance the projects?
2 A Absolutely.
3 Q Did you calculate or consider how much he would have to
4 pay in taxes on any potential gains on those sales?
5 A No.
6 Q Did the amount of potential taxes figure into your
7 answer on self-financing?
8 A Well, as I said --
9 Q Yes or no question, sir?
10 A I used ballpark numbers.
11 Q Did the amount of taxes Mr. Trump would have to pay on
12 any potential gain factor into your answer when you said --
13 A Yes, it did. Yes.
14 Q So a moment ago you said you didn't know if there would
15 be any gains but you factored in taxes?
16 A I used ballpark numbers, rough number.
17 Q Do you know how much of the cash in any -- at any point
18 in time was held in operating entities?
19 A It varies over here, I believe.
20 Q Did you know how much cash was held in operating
21 entities when you concluded that he could have self-financed the
22 projects?
23 A Again, I use it a ballpark number. And I remember that
24 they use -- in different fields, different numbers.
25 Q Did you know, yes or no, sir, how much cash was held in

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6531

1 the operating entities when you testified under oath that Mr.
2 Trump could have self-financed the projects, yes or no?
3 A I use my general recollection not the specific number.
4 So the answer is no, whatever you want it to be. I just
5 explained. I just give you the details.
6 Q Did you consider how much cash these operating entities
7 needed to fund their daily operations when you testified under
8 oath that Mr. Trump could have self-financed?
9 A Yes.
10 Q Did the amount of cash needed by these entities to fund
11 their operations figure into your conclusion that Mr. Trump
12 could have self-financed these projects?
13 A Roughly, yes.
14 Q Are you aware that Mr. Trump had committed to put
15 equity into the Doral resort in order to bring it back to a
16 luxury condition?
17 A Yes.
18 Q Are you aware that at the origination of the Doral loan
19 Mr. Trump had committed to put \$50 million of equity into the
20 resort?
21 A Yes.
22 Q And are you aware that by 2013 that equity infusion had
23 risen to between 150 and \$160 million?
24 A Yes.
25 Q And did that equity infusion of 150 to \$160 million

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6532

1 factor into your conclusion that Mr. Trump could have
2 self-financed the projects?
3 A If he self-financed the project, he might not have --
4 if he self-financed the Doral loan, he might not have done this
5 project, this additional injection of money. This is a
6 completely hypothetical situation.
7 Q Isn't the fact or isn't your claim that he could have
8 self-financed these projects a completely hypothetical situation
9 since he didn't do it, yes or no?
10 A Say it again?
11 Q Sure. You are saying that the equity infusion is a
12 hypothetical if Mr. Trump had self-financed. Isn't your
13 hypothetical that he could have self-financed because he didn't
14 actually do it?
15 A Of course it is a hypothetical. Everything, yes.
16 Q So, let's assume that he did put in the 150 -- 150
17 million to 160 million to renovate Doral, okay. Assume that for
18 the moment. Would that alter your conclusion that he could have
19 self-financed both projects?
20 A The investment --
21 Q Yes or no, sir. Would it have altered your
22 conclusions?
23 A This question is inaccurate because first he took the
24 loan and then he put the money. So if he took -- if he
25 self-financed, he may not put the money in later on to keep

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6533

1 money.

2 Q So Doral would have remained a rundown old facility as

3 it was when Marriott owned; is that your testimony?

4 A If you know better how to manage the business of Trump,

5 you could do it. I'm not managing the business for him. I'm

6 just saying it's all hypothetical. It's all hypothetical.

7 Those questions arose because hypothetically DB would not have

8 given him the loan. So this is all hypothetical. So there is

9 no evidence of it, but, hypothetically, if DB would not have

10 given him the loan, hypothetically, then, hypothetically, one

11 way to deal with it would be to self-finance it. That's all I'm

12 saying. It's all hypothetical.

13 Q If he self-financed it, it wouldn't be the beautiful

14 luxury resort that it's claimed to be; is that correct?

15 A I don't know what to do next. It is a hypothetical.

16 Q He would not have the cash to do that, correct?

17 MR. KISE: Objection. Is that hypothetically he

18 wouldn't or actually he wouldn't?

19 THE COURT: I guess it is hypothetically.

20 MR. SOLOMON: Hypothetically.

21 Q He didn't self-finance, but if he did, hypothetically,

22 as the example you said you've given, the self-finance is a

23 hypothetical, would he have been able to bring back Doral to a

24 luxury resort status?

25 A This is absolutely hypothetical, and I can't answer

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6534

1 this question because he didn't do it.

2 Q Okay.

3 MR. KISE: Your Honor, I keep waiting for Alice or

4 the white rabbit to come through the door. I mean, I don't

5 really understand where we are right now. These

6 hypotheticals are so widely inappropriate.

7 MR. WALLACE: So is counsel commenting on the

8 questions and answers of the witness.

9 THE COURT: I'll allow Mr. Solomon to proceed.

10 MR. SOLOMON: Thank you, Your Honor.

11 Q Do you know, if by 2013 The Trump Organization had

12 provided an equity infusion into Doral of between 150 and

13 \$160 million?

14 A They did.

15 Q They did. That's not a hypothetical, right?

16 A That is not a hypothetical.

17 Q Can we put up the -- do you understand the equity

18 infusion refers to Donald Trump's own funds or The Trump

19 Organization own funds?

20 A Yes.

21 Q Do you know how much money The Trump Organization of

22 their own monies wind up spending to renovate Doral?

23 A My recollection, 160 million.

24 Q Could we pull up D1019 at page 84. This is an exhibit

25 from the defendants, Professor Bartov. Do you see the statement

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6535

1 on the screen that The Trump Organization invested over

2 \$250 million into renovating every inch of this iconic property

3 including the feigned blue monster golf course?

4 A I see that, yeah.

5 Q Did you consider the \$250 million that was allegedly

6 spent in renovating every inch of the property in reaching your

7 conclusion that Mr. Trump could have self-financed the two

8 projects, yes or no?

9 A It's irrelevant. It's irrelevant because as I said if

10 he hypothetically self-financed the \$125 million loan, he might

11 take a different course of action in term of the renovation. It

12 is completely hypothetical. I don't know. You have to ask

13 Mr. Trump what would have he done had he self-finance it. My

14 point is that in 2012 before he invest this he could have

15 self-finance the Doral loan himself that's all.

16 Q Then would you agree with me if he self-financed he

17 wouldn't have the \$250 million in his own funds to renovate

18 every inch of the iconic property if he self-financed?

19 A I have no idea. He could get a partner in to help him

20 finance it. He could sell another asset to find something. He

21 could maybe generate. He doesn't have to pay interest now. So

22 he'll have more cash. I don't know. It's too many

23 hypotheticals to know what -- what he would have done had he

24 self-financed.

25 Q So you don't know one way or the other, correct?

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6536

1 A That's right.

2 Q Let's talk about reverse engineering for the moment?

3 A Sure.

4 Q Are you familiar with that term?

5 A I do. I used it in one of my reports, I believe,

6 right. Maybe not. Yeah.

7 Q With respect to valuations on a statement of financial

8 condition, what does the term reverse engineering mean?

9 A Reverse engineering mean that you first pick up a value

10 and then you pick a model in an assumption to justify this

11 value.

12 Q In one of your reports or affidavits, on direct

13 testimony, you mentioned Aswath Damodaran, did I pronounce that

14 correctly?

15 A I think so, yeah.

16 Q Who's is he again?

17 A He is my colleague. He is a very well-known professor

18 in the finance department of NYU and on Wall Street he is known

19 as the dean of valuation.

20 Q Do you agree with his statement that you cite to in

21 your affidavit that, in fact, in many valuations, the price gets

22 set first and the valuation follows?

23 A I don't have a reason to disagree with him. He is the

24 leader in this area.

25 Q I understand you may not have a reason to disagree with

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6537

1 him but do you agree with him?
2 A I do agree with him, yes.
3 Q Do you understand that statement to mean that the
4 price; namely, the desirable result of the valuation exercise,
5 is set first and then the valuation model and assumptions are
6 chosen to justify the preset target price?
7 A That's what is the -- reverse engineering is.
8 Q Do you know if any of the stated valuations for any of
9 the assets on the statements of financial condition between 2011
10 and 2021 were reversed engineered?
11 A I didn't see any evidence of that.
12 Q Did you look?
13 A I did look for the methodology. I -- I'm not serving
14 as a valuation expert, but I did investigate the methodologies
15 and the methodologies that Mr. Trump used to value these assets
16 are 100 percent consistent with GAAP. I didn't find any GAAP
17 violation in the methodology used.
18 Q My question though wasn't whether you found any GAAP
19 valuation. My question was do you know one way or the other if
20 any of the valuations on the statements of financial condition
21 were reversed engineer? Whether or not they complied with GAAP,
22 do you know if they were reversed engineer?
23 A I have no knowledge of that.
24 Q Okay. You talked about what you -- you just mentioned
25 about what you had reviewed. Let's talk about what you reviewed

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6538

1 before providing your opinions in testifying. We looked at an
2 excel spreadsheet earlier; do you recall that?
3 A I do.
4 Q Is it your understanding those were delivered to Mazars
5 to help them do their compilation process each year?
6 A Yes, I agree. That's it, yes. Absolutely.
7 Q In the course of preparing your opinion though, you
8 only reviewed 2 or 3 of those supporting data spreadsheets,
9 correct?
10 A That's true. I used like --
11 Q That's because after reviewing those 2 or 3
12 spreadsheets you determined they were not relevant to your
13 analysis, correct?
14 A That's true.
15 Q Did you review any of the work papers prepared by
16 Mazars in the course of compiling the statements in connection
17 with either your opinions, your affidavits or your testimony
18 here?
19 A The work papers -- so I looked in preparation for
20 this -- for this testimony today. I did look on all the
21 supporting documents that were delivered to -- that were
22 delivered to Mazars. And I looked also, before delivering my
23 rebuttal report, I read Professor Lewis report and Professor
24 Lewis I don't remember if he had the supporting document or he
25 have the Mazars work paper. I don't remember that but that's

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6539

1 what I looked at.
2 Q Is it your testimony that you reviewed all of the --
3 all of Mazars work papers before your testimony today?
4 A Not Mazars work paper, the supporting data that was
5 provided to Mazars by Trump Organization.
6 Q So are you referring to that supporting data
7 spreadsheet we looked at earlier today?
8 A Yes.
9 Q And your testimony is that you reviewed all of those
10 supporting data spreadsheets?
11 A In preparation for the trial, yes.
12 Q But not in preparation for your report or your
13 affidavit, right?
14 A That's true.
15 Q Or your rebuttal report, right?
16 A That's true.
17 Q You didn't -- did you review Mazars work papers in
18 connection with either your opinion, your affidavits or your
19 testimony here today?
20 A As I said, if they are included in Dr. Lewis report, I
21 did but I didn't look at them independently. I don't remember
22 whether they are in included in Dr. Lewis report or not.
23 Q But in coming to your opinions, you didn't think the
24 Mazars supporting -- withdrawn.
25 In coming to a conclusion or coming to your opinions in

Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6540

1 your reports, did you think the Mazars work papers were
2 relevant?
3 A To the question that I was answering in my rebuttal
4 report in my affirmative report, I didn't think that I need
5 them.
6 Q Okay. Is that, sir, because once you have enough
7 evidence to support your analysis and conclusion you stop
8 looking?
9 A That's true, yeah, that was my argument in the
10 deposition, yes.
11 Q Professor Bartov, did you read the opinion on the party
12 respective summary judgement motions?
13 A I did read the opinion a few weeks ago when it first
14 came out, but I don't remember all the details now as I sit
15 here. I didn't read it just yesterday or something like that.
16 Q Did you believe it was relevant to know what the Court
17 has already decided in this action before testifying in court?
18 A Yes, I think it was very informative to me to read the
19 summary judgement, yes.
20 Q And you are aware what the Court has already decided in
21 this case, correct?
22 A I'm not a legal expert, but I think I have a general
23 understanding of the ruling.
24 Q I think you testified in connection with your
25 qualifications as an expert witness or at some point on direct

Page 6541

1 that you were deemed an expert and testified at trial in one
2 other case; is that correct?
3 A Yes.
4 Q Was that the People of the State of New York v Exxon?
5 A Yes.
6 Q And that trial was in this court, correct?
7 A Yes, I think so.
8 Q And it was Justice Ostrager was the judge?
9 A Yes.
10 Q Can we pull up that opinion just the first page. Is
11 this the decision after trial in the one case in which you were
12 deemed to be or qualified as an expert witness?
13 A I didn't go. I didn't read it so I don't know. I --
14 once I gave my testimony, I didn't followup on the case.
15 Q So you haven't read this opinion?
16 A No. The opinion, no. I didn't read the opinion.
17 Q Well, let me show you something. If we could please
18 turn to page 46.

Page 6542

1 CROSS EXAMINATION
2 BY MR. SOLOMON:
3 Q. "As with Dr. Bartov's testimony about the alleged
4 materiality of an alleged impairment in 2015 of an
5 ExxonMobil facility, in Mobile Bay, in the gulf of Mexico,
6 discussed infra, the Court rejects Dr. Bartov's expert
7 testimony as unpersuasive.
8 "And, in the case of his testimony about the
9 mobile facility, finds Dr. Bartov's testimony to be flatly
10 contradicted by the weight of the evidence."
11 Before I put this up on the screen, were you aware
12 of Justice Ostrager's holding in that case with respect to
13 your testimony?
14 A. No.
15 MR. SOLOMON: Nothing further, your Honor.
16 THE COURT: Will there be any redirect?
17 MR. SOLOMON: One housekeeping matter. I
18 want to -- I neglected to -- move PX 03446 into
19 Evidence. That's the staff accounting bulletin that we
20 talked about on Friday.
21 THE COURT: Granted. It is in.
22 MR. KISE: Your Honor, while we're waiting,
23 now I am reading the last question and answer, I would
24 just move to strike the last question and answer as
25 irrelevant.

Page 6543

1 It is the Government's point that their own
2 witness, in Exxon, was rejected by Judge Ostrager. I'm
3 not sure what relevance that has to these proceedings.
4 MR. WALLACE: Fool me once.
5 MR. KISE: This demonstrates that
6 Mr. Wallace loss that case. And this is one of the
7 reasons why. I'm not sure what relevance that has to
8 this proceeding. I just move to strike the question
9 and answer.
10 MR. SOLOMON: Your Honor, what another
11 Justice of this Court, has thought about this witness'
12 testimony and reliability and his views as compared to
13 the weight of the evidence is highly relevant in this
14 case.
15 MR. KISE: That's totally fact dependent.
16 It's not saying he's not qualified as an expert. It is
17 not saying he wasn't qualified to render opinion. It's
18 just based on whatever evidence the government failed
19 to present in Exxon. That was the interpretation of
20 his opinion in that context. But, it has no relevance
21 here. It makes no difference at all.
22 MR. WALLACE: Your Honor, this was the basis
23 for his qualification, this was used to bolster his
24 credentials, part of the basis for why he was used as
25 an expert. It is rebuttal to those points.

Page 6544

1 THE COURT: It seems to me the simplist
2 approach here, if it is relevant that he's testified as
3 to whether he should be deemed an expert again, then
4 the fact finder's decision in that case is relevant.
5 People make mistakes. And I will reserve to
6 the extent if somebody comes up with authority on this
7 situation where if somebody is deemed an expert
8 testifies and the testimony is rejected -- it's
9 probably come up at some point before -- whether that's
10 relevant or not.
11 So I will leave it in. But, defendants, if
12 you come up with something in particular, obviously, I
13 will consider it.
14 Okay. Mr. Suarez, you have the honor.
15 MR. SUAREZ: Thank you, your Honor.
16 REDIRECT EXAMINATION
17 BY MR. SUAREZ:
18 Q. Professor, a moment ago, you told the Government
19 that the Mazars work paper were not something that you
20 relied on.
21 Do you recall?
22 A. Yes.
23 Q. How, if at all, were the Mazars work papers
24 relevant to the opinions you have given in this case?
25 A. The Mazars work paper, to my opinion -- the

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6545

1 opinion that I render -- are irrelevant.
 2 MR. SUAREZ: We could pull backup
 3 Defendants' Exhibit 1019.
 4 Q. Mr. Solomon showed you this document a second ago?
 5 A. Yes.
 6 Q. What was the affect, if any, on Deutsche Bank's
 7 collateral of President Trump investing over \$160 million
 8 into the Doral property?
 9 A. The collateral become much more valuable.
 10 Q. As a result of the collateral becoming much more
 11 valuable, what, if any, was the affect of that investment on
 12 the risk to the loan or credit facility given by Deutsche
 13 Bank?
 14 A. The risk was, substantially, reduced.
 15 Q. Reduced?
 16 A. Reduced.
 17 Q. Thank you.
 18 MR. SUAREZ: We could pull up Plaintiff's
 19 Exhibit 1609, which we reviewed a couple minutes ago
 20 with the Government, and turn to page 13 of 21.
 21 Q. Do you recall discussing this with Mr. Solomon a
 22 couple minutes ago?
 23 A. Yes.
 24 Q. How is the implementation of estimated current
 25 value, for real estate, which appears at ASC 274 10-55-6 to

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6547

1 very, very, hard to grasp, definition. Because, as I said,
 2 I think, a couple of days ago, ASC 274 is the stepchild of
 3 the codification.
 4 The definition, particularly, of estimated current
 5 value, is extremely unusual. It doesn't use anywhere in the
 6 codification other than 274. And it doesn't use anywhere in
 7 reality; appraisers don't use it, in economic we don't use
 8 it.
 9 So we don't have to create another level of
 10 confusion by using the wrong guidance. The guidance is part
 11 of the definition. And if you use the wrong guidance, what
 12 do you benefit? You just create more confusion.
 13 So you rather use the specific guidance. You must
 14 use the specific guidance.
 15 MR. SUAREZ: If we could pull up Plaintiff's
 16 Exhibit 3437.
 17 Q. Do you recall having a discussion, about this
 18 document, with Mr. Solomon earlier in his examination?
 19 A. I do.
 20 Q. You wanted to provide context for the use of this
 21 document.
 22 Do you recall that?
 23 A. Yes. So, we use this -- I believe I got the
 24 definition of materiality from this document, just like did
 25 Dr. Lewis which is the defense -- the plaintiff expert.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6546

1 be read in reference to the definition -- the implementation
 2 guidance for estimated current value that appears at
 3 academic 274-10-55-1?
 4 A. As I said, if you have a specific provision, the
 5 specific provision trump the general provision. Therefore,
 6 as I say, hypothetical, people can use whatever they want.
 7 But, in realty, I'm not -- I can't believe that any
 8 reasonable expert will rely on 55.1 rather than 55.6. I
 9 can't imagine it will ever happen.
 10 Q. What do you base that opinion on, Professor?
 11 A. I base my opinion on my 40 years of accounting
 12 knowledge and my research and my -- and everything else that
 13 I experience during the last 40 years.
 14 It's really absurd to say that you have a specific
 15 provision, that give you specific guidelines for real
 16 estate, how to apply the estimated current value and you use
 17 general provision that have nothing to do with real estate.
 18 Q. If a student in your class told you that they
 19 wanted to use the general language instead of the applicable
 20 specific language, what would you tell your student?
 21 A. I will tell him this is wrong. We don't do it
 22 this way in accounting. It just get confusion. That's all.
 23 Q. Why, in accounting, would you want to avoid
 24 creating confusion at all?
 25 A. Because as it is, the estimated current value is a

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6548

1 And, actually, I used this because, I use it as a
 2 rebuttal to Dr. Lewis expert. And, I agreed with Dr. Lewis
 3 that this is the correct source for the definition of
 4 materiality.
 5 So, just like Dr. Lewis used it, and just like
 6 Dr. Lewis did not want to confuse the Court and explained
 7 that this is non-authoritative statement that should be
 8 considered -- the definition should be considered -- as part
 9 of GAAP, didn't want to get into this philosophy, so just
 10 like Dr. Lewis didn't highlight it, I didn't highlight
 11 either.
 12 It is highlighted in SAB Staff Accounting Bulletin
 13 99. In 99, they highlight that this definition is the one
 14 to be used together with the definition of the Supreme Court
 15 for materiality that they explain. It's, in substance,
 16 identical.
 17 The definition, by Supreme Court, on materiality
 18 is, in substance, identical to the definition -- Statement
 19 of Financial Condition number eight. And, in the SAB 99
 20 they use it interchangeably when they explain how to apply
 21 the materiality test.
 22 Q. Now if you see here, this one was amended in
 23 December 2021?
 24 A. Yes.
 25 Q. What was the affect of the December 2021

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6549

1 amendment?
 2 A. Well, as I said, this is not the one, the version
 3 that I used. Because, you have to put yourself in the shoes
 4 of the user. And this was not available to the user in
 5 December 2021.
 6 However, if there is any difference, the
 7 differences are minor. So, in practice, there is no
 8 difference between using this version and the version that
 9 Dr. Lewis and I used.
 10 But I just point out that because every detail
 11 here seem to be important so, I just pointed out that this
 12 is the wrong version to use. And I did not use it. And,
 13 Dr. Lewis did not use it.
 14 Q. Now, if we could pull backup the August affidavit.
 15 And, while we're doing that, Professor, which materiality
 16 test did you employ in your analysis?
 17 A. So, the accounting literature and the SEC says
 18 that they are not going to formulate materiality tests
 19 because, there are so many possibilities to do materiality
 20 tests depending on the circumstances of the case.
 21 In this case, I had a choice between a number of
 22 alternatives. I considered all the alternatives that I
 23 could come up with. And, I decided to pick the alternative
 24 that I thought was most appropriate in this case.
 25 For example, Dr. Lewis use another methodology.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6550

1 Dr. Lewis compare the numbers from the financial statement
 2 with the numbers provided by the expert from the -- from
 3 plaintiff.
 4 Why? Because according to his report, he was
 5 instructed -- he was instructed, by the plaintiff, to use
 6 these numbers.
 7 This, by itself, should cancel his report.
 8 Because, you never tell an expert what critical assumption
 9 you use in your analysis.
 10 If you call me and tell me "I want you to use this
 11 assumption in your analysis," I tell you, immediately, "I
 12 resign. You should look for another expert."
 13 Now, why is it so critical here? Because, they
 14 instructed him to use the valuation of their own experts.
 15 And based on this assumption, he concluded that the
 16 financial statement are material misstatement.
 17 If the plaintiff would have instructed him to use
 18 the valuation, made by your experts, by Mr. Trump's experts,
 19 then Dr. Lewis will come up to the opposite conclusion that
 20 there is no material the -- the statements are not
 21 materially misstated.
 22 In other words, his conclusion follow, directly,
 23 from the assumption used that was instructed by the
 24 plaintiff to use which is unheard of and make no sense.
 25 Now, if I follow the same methodology, what I

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6551

1 would use, I will use the experts from the defense. And,
 2 using the same methodology, I would arrive at the opposite
 3 conclusion that the financial statement are not materially
 4 misstated.
 5 But, I thought that was wrong way to go because,
 6 this is unfair for -- this would be, totally, unfair for
 7 plaintiff. Why should I pick your -- the defense expert and
 8 not the plaintiff expert?
 9 So, therefore, I said this methodology is
 10 inappropriate in this case. And I have to do totally
 11 another methodology.
 12 I used totally another methodology that doesn't
 13 favor the plaintiff and doesn't favor the defense. But, it
 14 is an objective methodology that follow directly from the
 15 definition of materiality. And, it should be undisputed
 16 that this is valid methodology and the conclusion is,
 17 completely, valid.
 18 MR. WALLACE: Objection, your Honor.
 19 Non-responsive. The question was, "What materiality
 20 test did you have -- did you employ in your analysis?"
 21 THE COURT: Sustained. That wasn't
 22 responsive to the question.
 23 MR. SUAREZ: My next question would have
 24 been why. We could go through it again if it helps the
 25 Government break it up for their purposes.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6552

1 THE COURT: How do you want to try to
 2 rehabilitate that if you do?
 3 MR. SUAREZ: There would have been a series
 4 of questions. He got ahead of my question.
 5 THE COURT: I still strike the answer
 6 because, it wasn't responsive.
 7 MR. SUAREZ: Okay.
 8 THE WITNESS: I am just trying to save time.
 9 Q. Which method, Professor, did you select in your
 10 materiality analysis?
 11 A. I selected the method that directly analyzed the
 12 information used by DB. Because, in the definition, they
 13 say that the financial statement would be --
 14 Q. Don't give me the "why" yet. We'll ask you the
 15 "why."
 16 A. So I use the methodology that depends on the
 17 analysis used by DB.
 18 Q. Why did you select that methodology over other
 19 methodologies that were, perhaps, available to you?
 20 A. So as I said before. And I'll say it again.
 21 There are many methodology. I consider a few of them.
 22 Definitely, I considered the methodology used by Dr. Lewis.
 23 But Dr. Lewis methodology compares the number in
 24 the financial statement to the valuation produced by
 25 plaintiff expert. This is how he quantify the misstatement.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6553

1 And based on this number, without doing any
 2 qualitative analysis, he computed. Then, the number is
 3 large. He doesn't tell us how large is large. But, he
 4 computed, in the number, the difference is large.
 5 And based on this, he concluded that the financial
 6 statement are materially misstated. However -- he used this
 7 assumption, this critical assumption, because according to
 8 him he was instructed, by plaintiff, to use this assumption.
 9 Now, the assumptions shape the opinion. You never
 10 take assumption from the client you represent or you testify
 11 for. This is absurd.
 12 So -- how you can say it? If Dr. Lewis had used
 13 the valuation produced by defendant's expert, he would have
 14 concluded that there is no material misstatement.
 15 So I want to be fair to plaintiffs. And I did not
 16 want to pick methodology that favor the defense. So I could
 17 do the same thing as Dr. Lewis but, instead of using the
 18 valuation of the plaintiff experts, I use the valuation of
 19 the defense experts.
 20 And just by doing this, changing one assumption, I
 21 had an opposite conclusion that the statements are not
 22 material misstated.
 23 But, this would not be fair to the plaintiff
 24 because, I am using information that is advantageous to
 25 defense.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6554

1 So I picked a methodology that is objective. It
 2 doesn't favor the defense and it doesn't favor the plaintiff
 3 and it is follow directly from the definition of
 4 materiality.
 5 Q. Now, if we turn to your affidavit and you see, at
 6 paragraph 17 on page five, it state, "Mr. Trump's SOFCs for
 7 2011 through 2021 were prepared in a personal financial
 8 statement format, in accordance with ASC 274. And the
 9 valuation of the investment properties recognized in those
 10 SOFCs were generally consistent with the notion of estimated
 11 current value."
 12 Do you see that?
 13 A. I do.
 14 Q. What do you mean by "generally consistent"
 15 Professor?
 16 A. So, you know, I want to clarify. I did say that,
 17 in accounting, every word matters. But, not when you write
 18 a report to Courts or not when I communicate with my wife.
 19 What I meant is that every word matters when you read a
 20 financial statement.
 21 I am not producing your financial statement. I am
 22 writing an opinion. So maybe I was not as careful and I
 23 should not use the word "generally."
 24 But, I did not pay attention to this minor thing
 25 that "generally" is not even considered -- not mean defined

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6555

1 in GAAP. I just wanted to deliver the message that they are
 2 consistent.
 3 By "generally" I mean, maybe here and there, there
 4 is a random inadvertent deviation from GAAP. But, if there
 5 is a deviation, the deviation is not material. So that's
 6 what I mean by "generally."
 7 So maybe it was not the best word to use here.
 8 Maybe I should use maybe something like "They are not
 9 materially misstated" -- or whatever. But, this was -- this
 10 was my intention.
 11 MR. WALLACE: Objection, non-responsive
 12 Court.
 13 MR. SUAREZ: How is it nonresponsive? It is
 14 his interpretation.
 15 THE COURT: Overruled.
 16 Q. If we go to paragraph 24, it says, "Mr. Trump's
 17 SOFCs, for 2011 through 2021, did not impact, significantly,
 18 Deutsche Bank's decision to extend loans to defendants or to
 19 set these loan's interest rates."
 20 Do you see that?
 21 A. I do, yes.
 22 Q. What did you mean by the word "significantly" in
 23 this statement?
 24 A. Well, I mean, it didn't make a difference
 25 for -- did not impact, significantly, Deutsche Bank decision

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6556

1 to extend loans. I mean, it didn't change. It didn't
 2 change the decision of Deutsche Bank to extend this loan.
 3 Q. And if we turn to paragraph 25, it says, "Deutsche
 4 Bank's independent, rigorous, and subjective valuation
 5 process -- which involves models employing a multitude of
 6 variables from several data sources, independent appraisals,
 7 and a variety of validity checks -- demonstrates that
 8 Deutsche Bank's reliance on the information in the SOFCs was
 9 marginal in deciding whether to extent the subject loans and
 10 what interest rate to require."
 11 Do you see that?
 12 A. Yes, I do.
 13 Q. What did you mean by the term "marginal?"
 14 A. Again, this is not a financial statement. I am
 15 not using GAAP language. By "marginal" I mean, that it
 16 didn't have any significant affect or any -- it didn't
 17 change. It didn't change the -- it didn't change the
 18 decision whether to extend loans or the interest rate.
 19 Q. And if we pull up Plaintiff's Exhibit 293 --
 20 MR. SUAREZ: And just leave this up here
 21 side by side for a second.
 22 Can we turn Plaintiff's 293 to page six.
 23 Q. And we look at "Club Facilities." At the bottom
 24 it says, "For purposes of our analysis, the 1.3 billion in
 25 reported value has been reduced by fifty percent for

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6557

1 deriving unadjusted value."
 2 Do you see that?
 3 A. I do. Yes, I do see it.
 4 Q. How is that reduction consistent with the analysis
 5 that you laid out in your affidavit?
 6 A. Well, as I said before, you cannot take one
 7 sentence and try to understand it. And the same thing is
 8 when you try to interpret GAAP. You cannot take one
 9 sentence and interpret it in isolation.
 10 In order to interpret this sentence, you have to
 11 consider the entire report; the 20 page or something entire
 12 report.
 13 And if you read the entire report, you understand
 14 that this fifty percent reduction was based on the economic
 15 analysis. It is not an arbitrary number they pick and
 16 therefore, they rely on the financial statement.
 17 There is no reliance here on the financial
 18 statement per se. This is a result of their analysis --
 19 economic analysis -- their experience with other assets of
 20 Mr. Trump and their knowledge of the properties.
 21 And if memory serve, I think that even in some
 22 reports they say, "We pick this 50 percent after
 23 consultation with the or in consultation with the Valuation
 24 Services Group."
 25 So, this is not the first asset that they

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6558

1 evaluate. Before this, they evaluate many, many -- several
 2 other assets in detail. They understand the relationship.
 3 Because, remember, they use liquidation value.
 4 Mr. Trump use estimated current value. These are completely
 5 different concept.
 6 They did analysis, they figure out that based on
 7 their analysis and based on the significance of this
 8 valuation to them, that fifty percent will be appropriate.
 9 Q. What expertise, Professor, is needed to apply a
 10 fifty percent reduction?
 11 A. That's what I said before. If they just take
 12 arbitrary reduction rate, they don't need -- they don't need
 13 the Valuation Services Group. They don't need the risk
 14 management group. They can higher a high school drop out.
 15 And he can plug these numbers into excel sheet and get the
 16 answer.
 17 This is really, you know -- I cannot even
 18 understand where this argument is coming from or what they
 19 are thinking. I have no idea.
 20 Q. If you look, Professor, on the following page, at
 21 page seven, for partnerships and joint ventures, again it
 22 says, "Due to uncertainty, we have taken a fifty percent
 23 haircut on reported value."
 24 Why is it that they just apply fifty percent
 25 again?

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6559

1 A. Again, this is based on economic analysis. And,
 2 in order to believe that this is a arbitrary fifty percent
 3 without considering the economic environment here and the
 4 entire set of assets and the entire analysis that they
 5 perform before -- because remember, this is after they
 6 already performed a significant economic analysis.
 7 In order to believe that this is arbitrary -- the
 8 reduction -- with no economic analysis, you have to believe
 9 that Deutsche Bank is not aware of the guidance in FASB.
 10 They are not aware of the guidance for the Federal Reserve.
 11 They are not aware what every accounting textbook, every
 12 scientific paper, every -- many market participant say again
 13 and again and again, that, you cannot rely on the numbers as
 14 reported in the financial statement. You have to make your
 15 own independent analysis, come up with your own numbers
 16 based on the information in the footnotes and based on the
 17 information in other sources and make decision based on the
 18 independent analysis that you perform.
 19 Dr. Lewis is here in the audience. And I am sure
 20 that when Dr. Lewis teaches financial statement analysis, he
 21 tell his students don't take the numbers by their face
 22 value.
 23 That's what financial statement analysis courses,
 24 in every school -- I have heard many of them -- that's what
 25 we teach the entire semester; how to take the financial

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6560

1 statement, come up with your own valuation and use your own
 2 valuation in your analysis.
 3 Q. Professor --
 4 MR. WALLACE: Objection, your Honor;
 5 foundation, relevance on what professor Lewis teaches.
 6 Move to strike that section.
 7 THE COURT: Overruled.
 8 Q. Professor, if a student of yours turned in this
 9 credit report as their homework and you saw the level of
 10 analysis performed on partnerships and joint ventures and
 11 compared it to the level of analysis done on net cash flow,
 12 for example, what would you tell the student about their
 13 homework on partnerships and joint ventures?
 14 A. The partnership analysis -- partnership and joint
 15 venture analysis was preceded by a detailed analysis of
 16 other assets.
 17 So, you cannot look on this, independently, as if
 18 it is the only asset that they are evaluating -- that DB is
 19 evaluating. You have to read this in the context of the
 20 entire analysis, the entire 20 page analysis.
 21 Q. In the context of performing that analysis, why do
 22 you say that banks don't like to burn money?
 23 A. Well, banks don't want to burn money because, this
 24 is not banks. Every company that is for business -- every
 25 company that is for business trying to be efficient, they

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6561

1 don't want to burn their investor money.
2 So, if you don't need to do an analysis, because
3 you already know the outcome and you know what you need
4 then, you save the money and you do this shortcut.
5 They know that even if they take a 75 percent
6 reduction -- whatever it will take -- it will not affect
7 their analysis. This is immaterial -- this is
8 inconsequential for them. That's why they did this.
9 Q. Okay. And, let's take a look now at the analysis
10 on page six as it relates to 40 Wall.
11 You see here it says the property has a NOI of
12 26.2 million?
13 A. I do.
14 Q. Okay. And, we had a discussion about how 26.2
15 million is a marathon.
16 What does -- excuse me. 26.2 is a marathon not
17 26.2 million.
18 What does the fact that they used a NOI that
19 doesn't appear on the Statement of Financial Condition tell
20 you about the credit memo?
21 A. Well, it means that they got this number
22 elsewhere.
23 Q. Now, if we pull up Plaintiff's Exhibit 798, at
24 line --
25 MR. SUAREZ: Well, let's pull up Plaintiff's

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6562

1 Exhibit 798.
2 Q. Do you recognize this document?
3 A. Can you blow it up a little bit?
4 Sorry. Okay.
5 Yes, I do remember it. Yes, I review it.
6 Q. Do you see that it's the supporting data for the
7 2011 Statement of Financial Condition?
8 A. Yes.
9 Q. If we go down to line 112, do you see where it
10 says, "40 Wall Street?"
11 A. I do.
12 Q. Do you see it has an "NOI" there for 40 Wall
13 Street of 26,234,000?
14 A. I do.
15 Q. And, do you see what the basis for reaching that
16 NOI is right above?
17 A. Yes.
18 Q. Do you see that it's an average income for the
19 five-year period subtracting an average expense for the
20 five-year period to reach that NOI?
21 A. I do. This is known as stabilize net operating
22 income. So, they don't took the number from the statement
23 whatever -- whatever statement they use. Because, net
24 operating income is not even GAAP.
25 Q. Let's take it piece by piece.

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6563

1 What does it mean that the average income minus
2 the average expenses were subjected from each other to reach
3 a NOI in connection with this?
4 A. This mean that this is a calculation. There is no
5 GAAP here. This is an economic approach that is recommended
6 by economic theory in order to compute the stabilized NOI;
7 meaning, the NOI which is expecting to recur in the future.
8 If you take one year NOI, there is a lot of
9 randomness in this number. So, what people do, they average
10 it over a few years.
11 Statistically, when you average random variables
12 over a few years, you remove the random error and you get an
13 estimate -- it's still an estimate. It's still subject to
14 estimation error. But, statistically, this estimate will be
15 more accurate than if you take one year of data.
16 Q. And was that method disclosed on the face of the
17 supporting data?
18 A. Yes, right here. Yes, of course. It says average
19 income for five years, average expenses for five years.
20 Q. And if you see there, it says 2013 to 2017?
21 A. Yes.
22 Q. This was prepared in 2011, correct?
23 A. Right. So, this is, actually, based on future --
24 on forecasted numbers. So, when you compute a normalized
25 NOI, you can compute it based on past data. You can compute

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6564

1 it based on forecasted data.
2 In this case, it appears from what is given here
3 that they based stabilized NOI -- so they base their NOI on
4 predictions what will happen, according to them, in the next
5 five years. And they take the average -- totally
6 acceptable. Many companies are doing that. And, it's
7 totally acceptable.
8 Q. Why is it done that way?
9 A. Well, it is done that way because, according to
10 economic theory, this will give you a good indication of the
11 value of the asset if you take the NOI and you divide it by
12 the cap rate.
13 MR. SUAREZ: And I think I previously
14 referred to this as Plaintiff's Exhibit 798. Just so
15 the record is clear, it's Plaintiff's Exhibit 788 in
16 native format.
17 Q. How does that NOI, on the supporting data, tie to
18 the NOI that was reflected in the credit report?
19 A. Which credit report.
20 Q. Plaintiff's Exhibit 293 that we just had up?
21 A. Oh, I thought they used the same number. They
22 used the same NOI in the one that is reported here.
23 Q. And what does that tell you about the manner in
24 which Deutsche Bank used the Statement of Financial
25 Condition if anything?

E.Bartov - Defendant - Redirect/Mr. Suarez Page 6565

1 A. I think it is appropriate. In appropriate way.
2 There is no -- there is no -- there is no, no obvious
3 inflation or distortion of the valuation.
4 Q. As a matter of fact, if you look at the document
5 that the Government showed you, Plaintiff's Exhibit 1573,
6 and we turn to the six million dollar figure that they
7 wanted you to focus on, in that appraisal --
8 MR. SUAREZ: Do we have that up?
9 (Whereupon, the following proceedings were
10 stenographically recorded Shameeka Harris.)

Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6567

1 documents I need to review. I reviewed the documents as I
2 thought the most important, the least important, and I concluded
3 that I have sufficient evidence and there is no suspicion, there
4 is no suspicious evidence that will require me to increase my --
5 my investigation of the documents so that's when I stop. If I
6 found suspicious documents, I will expand the investigation.
7 Q And how, if at all, is that consistent with a manner in
8 which you conduct your academic research?
9 A Well, academic research is -- is somewhat different
10 because my academic research is typically based on computerized
11 databases. So the computer analyze all the data. So the data
12 analysis course is very small. But even in academia when we
13 hand collect data, we do the same thing. We take a sample and
14 we do the analysis based on the sample. We are not going to
15 collect data from the entire population because this is
16 prohibitedly (sic) costly. If I was using every single
17 available data in this case, I will still be reading documents.
18 I will never have time to write a report.
19 Q And how is that consistent with the manner in which
20 Deutsche Bank conducts credit analysis if at all?
21 A Well, from the -- from the credit reports, you see that
22 they actually adopted the same strategy. They started with
23 major assets that are most important to them and they analyzed
24 them in detail. And once they got sufficient confidence that
25 the financial health of the Trump Organization that it is

Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6566

1 COURT OFFICER: All rise, Part 37 is back in
2 session, the Honorable Arthur Engoron presiding. Please be
3 seated and come to order.
4 THE COURT: Okay, let's continue with the redirect.
5 (Whereupon, the witness resumes the witness stand.)
6 THE COURT: Welcome back, Professor. I will remind
7 you you are still under oath as you know, okay.
8 Mr. Suarez, please continue.
9 MR. SUAREZ: Thank you, Your Honor.
10 CONT'D REDIRECT EXAMINATION
11 BY MR. SUAREZ:
12 Q Professor, earlier today in discussion you had with
13 Mr. Solomon in form or substance, you discussed that when you
14 find enough evidence to support your analysis for an opinion you
15 stop looking; do you remember that testimony generally?
16 A Yes.
17 Q What did you mean by that?
18 A Well, you know, in -- it's when you do an audit, when
19 an accountant does an audit, they have an audit plan and it's
20 impossible to examine all documents because the documents are
21 millions of documents. So what they do, they take a small
22 sample of documents. And if they don't find any suspicious
23 evidence, they would stop. If they find suspicious evidence,
24 then they will -- they will increase the investigation. So in
25 this sense what I meant is I made a plan for myself what

Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6568

1 satisfactory, then they move to a different type of analysis
2 where it was based less on -- on data analysis and more of a
3 more general approach.
4 Q And if we can pull up Plaintiff's Exhibit 293, and I
5 could turn your attention to page four of this document. Do you
6 see where it says key ratios? Do you see where it says
7 unsecured lending guidelines?
8 A Yes.
9 Q And, again, if you take a look at page eight, key
10 ratios, it says, "to demonstrate the strength of the guarantor,
11 we have applied the unsecured lending guidelines." Do you see
12 that?
13 A I do.
14 Q Now, I'd like to show you Defendants' Exhibit 193 which
15 are the unsecured lending guidelines and turn your attention to
16 page eight of the unsecured lending guidelines where it says,
17 "based on their evaluation of specific concentrated assets,
18 lending officers use their judgment in setting the appropriate
19 adjustments to achieve conservative valuations of concentrated
20 assets."
21 How, if at all, is that consistent with the manner in
22 which Deutsche Bank performed credit analysis, the credit
23 analysis reflected in the memos?
24 A Yeah, this is exactly what they did. They perform
25 independent analysis based on their judgment and assumption.

<p>Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6569</p> <p>1 They didn't choose Mr. Trump's assumptions. 2 Q And if we turn to Defendants' Exhibit 193 at page nine, 3 do you see where it says, "commercial real estate direct private 4 equity and art"?</p> <p>5 A Yes, I do. 6 Q And it says to be determined case-by-case based on an 7 appropriate valuation formula or acceptable appraisal? 8 A I see. 9 Q Is that consistent with your evaluation of the credit 10 analysis performed by the banks and the credit memos? 11 A That is exactly what I said before. They do their own 12 analysis and they decide on case-by-case how to deal with it. 13 Q And with respect to the discussions you've had here 14 today and the questions from Mr. Solomon, how, at all, has your 15 opinion changed as to whether the statements contained any 16 material misstatements if at all? 17 A My opinion doesn't change because I assume and I treat 18 it, the credit reports, and under this assumption that they use 19 their judgment and they make asset-by-asset valuation. 20 MR. SUAREZ: Your Honor, may I confer with my 21 colleagues for a second? 22 THE COURT: Of course. 23 Q Professor, at the conclusion of your discussion with 24 Mr. Solomon, they brought us back to the Exxon case that the New 25 York Attorney General filed here in the Sate Supreme Court of</p>	<p>Proceedings Page 6571</p> <p>1 questions for the witness, the witness is excused. Thank 2 you. 3 (Whereupon, the witness was excused from the 4 stand.) 5 MR. KISE: Judge, we have a couple of followup 6 housekeeping items. 7 THE COURT: Okay. 8 MR. KISE: Ms. Hernandez, will probably go through 9 these far better than me, but they relate to things that 10 happened during the course of the defense case with respect 11 to Mr. Shubin, Professor Bartov. Remember we wee going to 12 introduce, for record purposes, copies of their reports that 13 the Court didn't allow. And I believe there were some 14 documents associated with Patrick Birney's testimony that we 15 are trying to do by agreement with the Attorney General so 16 that it will save us all the time associated with having 17 Mr. Birney go through those documents. 18 I believe that happened a couple of weeks or so ago 19 when Mr. Birney was on the stand, but I will let Miss 20 Hernandez touch on those three issues. 21 MS. HERNANDEZ: Hi, Your Honor. We would like to 22 move into evidence D1079 which is Shubin's report just for 23 appellate purposes as we discussed. 24 MR. WALLACE: For appellate purposes, no objection. 25 THE COURT: No objection. It's in.</p>
<p>Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6570</p> <p>1 New York; do you recall that testimony? 2 A Yes. 3 Q And they read out certain passages of the Court's order 4 in that case that they referred to; do you recall that? 5 A I do. 6 Q And are you aware in the plaintiff's posttrial 7 memorandum whether the New York Attorney General's office cited 8 to your expert testimony almost a dozen times in support of the 9 positions that they took in that case? 10 A I was not aware of it. 11 Q And have you -- 12 MR. WALLACE: Objection, Your Honor. I would say 13 relevance. 14 THE COURT: Overruled. 15 Q And if you turn to the last page of the plaintiff's 16 posttrial memorandum, do you see under the Honorable Letitia 17 James Attorney General of the State of New York whose signature 18 that is on the posttrial brief? 19 A I see that. 20 Q Whose signature is that? 21 A It says Kevin Wallace. 22 MR. SUAREZ: No further questions, Your Honor. 23 THE COURT: Would there be any recross? 24 MR. SOLOMON: No, Your Honor. 25 THE COURT: Oh, okay. Assuming nobody else has any</p>	<p>Proceedings Page 6572</p> <p>1 MS. HERNANDEZ: And the same thing for D1073 which 2 is Mr. Bartov's supplemental report disclosure. 3 MR. WALLACE: Again, for appellate purposes, no 4 objection. 5 THE COURT: It's in. 6 MS. HERNANDEZ: Then exhibits D1074, D1075, D1076 7 and D1078 which are the exhibits referenced in Mr. Bartov's 8 supplemental disclosure. Those are the Brace Wall Reports 9 that he references in the supplemental disclosure. 10 MR. WALLACE: Objection. Those are in the record, 11 those are the reports to the monitor. 12 THE COURT: They are in the record? 13 MR. WALLACE: They are already in. There is no 14 need to put them in. It's like exhibits as to Mr. Bartov's 15 affidavit or letters. 16 MR. KISE: They are just referencing Bartov's 17 letter. I guess they are on the NYSCEF so they would be 18 available. If they are part of the record anyway, then we 19 don't need to double it up. It is just for appellate 20 purposes in any event so, yes. 21 THE COURT: You are going to appeal? 22 MR. KISE: I don't know. This will be number 7 or 23 8 in one case so probably. 24 THE COURT: All right. We all agree that those 25 four documents are in evidence.</p>

Proceedings Page 6573

1 MR. WALLACE: They already in the record. We
2 object to adding those as separate exhibits.
3 MR. AMER: These are Judge Jones' letters that were
4 filed on NYSCEF.
5 MR. KISE: As long as they are part of the trial
6 record because some of that predates the trial. Some of the
7 letters predate the trial. Most all of them predate the
8 trial. So we are just including it. They're referenced in
9 Professor Bartov's supplemental report so it is just all
10 part of the same package.
11 MR. WALLACE: I believe everything on NYSCEF is
12 part of the record. We'll waive our objection to the four
13 addition documents being repeated in the record.
14 THE COURT: Okay.
15 MR. WALLACE: For appellate purposes.
16 MS. HERNANDEZ: And then one more thing that
17 Mr. Kise didn't mention is we would like to move in the
18 clips that we used with Mr. Bender on October 4th and
19 October 5th so that's D1062 into evidence.
20 THE COURT: In the clips?
21 MS. HERNANDEZ: It is the clip report for the
22 videos that were played on October 4th and --
23 MR. ROBERT: I think they did the same thing where
24 they put the clips in for the purpose of the audios that
25 they had played as well.

Proceedings Page 6574

1 MR. WALLACE: I will accept the defendants'
2 representation that this report reflects the clips that were
3 actually played, but if that's the case, then we have no
4 objection.
5 THE COURT: Okay. Then --
6 MS. HERNANDEZ: Then the last --
7 THE COURT: They're in.
8 MS. HERNANDEZ: Thank you, Your Honor. The last
9 housekeeping is we would like to move in the backup Mazars
10 documents that were sent to Mazars as we discussed during
11 Mr. Birney's testimony. It is a lengthy list of documents
12 so I'll go through them and then we'll see if plaintiff has
13 an objection.
14 MR. WALLACE: We do. I believe this is the list of
15 182 documents that we got at 9:30 something last night.
16 That's not the few documents that they were going to
17 potentially enter with Mr. Birney. 182 documents would
18 represent a significant fraction of the entire record in
19 this case and does not strike us as appropriate that those
20 just come in. Certainly, we have not had any chance to go
21 through the list of all those documents to figure out
22 which ones are in there, but it doesn't strike as
23 appropriate that exhibits on that volume.
24 THE COURT: So what if I deny the request without
25 prejudice? Well, I mean, you don't know what 182 are,

Proceedings Page 6575

1 right? So, maybe, you won't object to some or all of them.
2 MS. HERNANDEZ: All of these documents were Mazars
3 Bates labeled and on plaintiff's exhibit list.
4 MR. AMER: They're not calling a witness to get
5 these documents in.
6 MR. KISE: That was the whole point. It was going
7 to save us the trouble of having Mr. Birney come here and go
8 through one by one by one. As the Court may recall,
9 Mr. Birney answer questions fairly slowly. So, we weren't
10 going to go through those, but we're happy to give them more
11 time to look at them. I don't know about the timing. That
12 was the purpose of the colloquy when Mr. Birney was here, as
13 I recall, is that we are going to -- we can bring him to get
14 them in.
15 MR. AMER: The purpose was to share with us a list
16 of the handful of documents that they were otherwise going
17 to get through Mr. Birney and, you know, we got it last
18 night at 9:30. I think the bigger point is it's not
19 appropriate to try and get in over a 180 documents without
20 having a witness on the stand or even to put us to the
21 burden of having to review those documents when we should
22 be -- you know, they should be resting right now and we
23 should be moving on to our rebuttal case, then we have a
24 posttrial brief.
25 MR. KISE: So, Your Honor, two things. One, this

Proceedings Page 6576

1 was pursuant to the discussion that took place. We can go
2 back to the discussions that took place on the record with
3 regard to Mr. Birney. I don't know that anyone used the
4 term handful of documents, but we can certainly look at the
5 record, one.
6 Two, all of these documents are on plaintiff's
7 exhibit list. So there's -- they clearly reviewed them and
8 understand what they are fully. Whether they decided to use
9 them or not it's another matter. It is not like they're new
10 documents. And we can get Mr. Birney down here, if we need
11 to, to go through that exercise, but I would suggest that we
12 would start that at roughly 3 o'clock or 3:15 and then it
13 would take the balance of day tomorrow to go through
14 document by document. If they're prepared to do what Your
15 Honor suggest, which is let them look at the documents, you
16 know, and --
17 THE COURT: Decide whether they want to --
18 MR. KISE: Decide later. If we need to call
19 Mr. Birney and bring him in, then we'll be prepared to do
20 that but --
21 MR. AMER: Can I point out we had a day off
22 yesterday. Why is this coming up now. If they were serious
23 about putting in over 180 documents, then why didn't we get
24 Mr. Birney on the stand yesterday and go through this
25 exercise. This is really unfair to the Court and to us and

Proceedings Page 6577

1 it's totally inappropriate. And just because a document is
2 a plaintiff's exhibit, doesn't mean they get to put it in
3 without having a witness on the stand. We can put in
4 documents that are party admissions against interest without
5 necessarily having the author of the document on the witness
6 stand. But if it's their document, they don't get to do
7 that because it's hearsay for them.

8 So, it is just totally inappropriate to, you know,
9 minutes before you rest your case to say, oh, by the way, I
10 have a 180 some odd documents I want to put into evidence.
11 It is not the way that they should approach this at all.

12 THE COURT: I mean, just as a general matter of how
13 cases are -- how trials are conducted, plaintiff's points
14 are very valid unless the defendants can point to, you know,
15 some earlier agreement. Apparently, according to the person
16 that sits alongside me, where a handful was used, 182 is an
17 awful lot of documents.

18 MR. KISE: We can go back and look at the
19 transcript. There was an agreement and an understanding
20 that we would take Mr. Birney off the stand and we would
21 avoid having to go through document by document by document.
22 And, frankly, we never anticipated -- it's not really -- it
23 is the substance of the document not the number. I mean, we
24 never anticipated there was any controversy. It was on
25 their exhibit list. They are just backup documentation

Proceedings Page 6578

1 relative to the SOFC's that we could just have Mr. Birney
2 walk through in exhaustive detail, and we're happy to do
3 that but that was the prior understanding as we were going
4 to do it.

5 We didn't hear anything from them this morning. I
6 mean, back to timing and I'm not blaming them, but we sent
7 it last night. First thing this morning, if there was a
8 problem, someone could have told us that there was a
9 problem. No one said there was a problem. I didn't think
10 there would be a problem with these documents in looking at
11 them. I'll let Miss Hernandez speak to the specifics of
12 them.

13 THE COURT: What are they basically? You keep
14 talking about them. Let's get to the 180 pound elephant in
15 the room.

16 MS. HERNANDEZ: Your Honor, as you may recall, when
17 Mr. Birney was testifying we walked him through the various
18 backup data that Mazars sent -- excuse me, that The Trump
19 Organization sent to Mazars that had of these figures that
20 were used in the supporting data. So this is just that
21 backup documentation. It was produced by Mazars, and it's
22 all on plaintiff's exhibit list. I would assume it would be
23 noncontroversial, but I understand if plaintiff wants
24 additional time to look at them.

25 MR. WALLACE: We don't want additional time. We

Proceedings Page 6579

1 want the case to end.

2 MS. HERNANDEZ: Me too.

3 MR. WALLACE: On November 29th, colloquy with
4 Mr. Robert was, I think the deal that we made, I'll
5 let Mr. Wallace confirm it, is that we will, later tonight,
6 Miss Hernandez will send a list of documents that we believe
7 constitute the backup that this witness would have
8 authenticated and put into evidence. The Attorney General
9 then review it. If they have anything else they want to
10 add, there may be some discussion. So we may have to bring
11 Mr. Birney back for that limited purpose. We are hoping
12 not to.

13 If someone had 182 documents sitting in this
14 courtroom ready to have Mr. Birney authenticate on
15 November 29th, there was no reason to wait until last night
16 at 9:30 p.m. to send them to us and ask for us to agree to
17 them. I think the witnesses -- the defendants, they do not
18 have a witness, should be resting. It shouldn't be, well,
19 we can call Mr. Birney back tomorrow. I don't know where
20 the 182 came from.

21 It strikes me that it would appear they spent the
22 last two weeks finding additional documents they would like
23 to get in using this agreement we had two weeks ago and it's
24 just not appropriate at this point to just dump these
25 documents on us, to dump them into the record and to dump

Proceedings Page 6580

1 them on the Court. So we object to this process in its
2 entirety. If the defendants don't have a witness ready to
3 go right now, they should be resting.

4 MR. KISE: So, Your Honor, might I ask the Court's
5 indulgence because even the number 182 to me seems like a
6 high number. Can we have ten minutes and I can figure out
7 why the number is so high and that may solve the problem
8 itself. I'm not sure why we have 182, that number, that
9 number does seem high because I wouldn't think -- maybe,
10 it's something to do how they're structured, that we can
11 explain to the court. But I don't want to make any
12 representations as to why that number is high or low or
13 perhaps it can be substantially compressed without --
14 without having just a few minutes to review the situation
15 and understand.

16 THE COURT: Maybe, it's one booklet with 182 pages.
17 See what you can do. I still think the fair thing to do
18 here is that I would deny it without prejudice send them a
19 list of the documents and you can have as long as you want.
20 We're just trying to get them in the record. I mean,
21 it's -- just almost a theoretical construct. Okay, they
22 were listed on an exhibit, are they in the record, so what.
23 Why don't you can see why there are so many. I'll be in the
24 back briefly.

25 (Whereupon, there was a pause in the proceedings.)

<p style="text-align: right;">Page 6581</p> <p>1 (Continued on next page)</p> <p>2</p> <p>3</p> <p>4</p> <p>5</p> <p>6</p> <p>7</p> <p>8</p> <p>9</p> <p>10</p> <p>11</p> <p>12</p> <p>13</p> <p>14</p> <p>15</p> <p>16</p> <p>17</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>	<p style="text-align: right;">Page 6583</p> <p>1 THE COURT: Five-minute warning. It is a hard 5</p> <p>2 minutes. We got to leave at 12:50.</p> <p>3 Q And if we go back to Plaintiff's Exhibit 293 at page 6</p> <p>4 and you take a look at the net equity real estate chart there in</p> <p>5 the center, do you see a -- for 40 Wall, a DJT valuation of 524</p> <p>6 and a DB valuation of 438; do you see that?</p> <p>7 A Yes.</p> <p>8 Q And then if we turn over to Plaintiff's Exhibit 302, we</p> <p>9 can put them next to each other. Do you see this is the 2018</p> <p>10 credit report? This is the one you reviewed with Mr. Solomon a</p> <p>11 little while ago?</p> <p>12 A Yes.</p> <p>13 Q And, again, we turn to the analysis of 40 Wall on page</p> <p>14 ten?</p> <p>15 A Yes.</p> <p>16 Q And you take the analysis for 40 Wall and you see the</p> <p>17 analysis that was performed there on 40 Wall where it says based</p> <p>18 on an SF assumption DBVSG indicated an adjusted value of</p> <p>19 541.6 million?</p> <p>20 A Yes.</p> <p>21 Q What, if anything, would your experience in credit</p> <p>22 analysis tell you about the manner in which the value of 40 Wall</p> <p>23 changed from 2011 to 2018?</p> <p>24 A Say -- what's the question here?</p> <p>25 Q What, if anything, in your experience with credit</p>
<p style="text-align: right;">Page 6582</p> <p>1 REDIRECT EXAMINATION</p> <p>2 BY MR. SUAREZ:</p> <p>3 Q Do you see -- do you recall Mr. Solomon focusing you on</p> <p>4 that \$6.2 million number?</p> <p>5 A Yes.</p> <p>6 Q And I think you tried to make some point about four</p> <p>7 times that underlying?</p> <p>8 A I rejected his assertion.</p> <p>9 Q Do you recall where the top where it says budget CY</p> <p>10 2011?</p> <p>11 A I do see that, yeah.</p> <p>12 Q Now, the budgeted at NOI is one number, correct?</p> <p>13 A Yes.</p> <p>14 Q And the method that was used for the stabilized NOI</p> <p>15 didn't use a budget at NOI, correct?</p> <p>16 A That's wrong. It's completely -- you compare apples</p> <p>17 and oranges. It's completely two different things.</p> <p>18 Q What's the effect of comparing two numbers that you</p> <p>19 described as apples and oranges?</p> <p>20 A The comparison is meaningless.</p> <p>21 Q Why is that?</p> <p>22 A Because when you compare numbers, it is based on</p> <p>23 five-year projections and you take the advantage. You compare</p> <p>24 numbers for one year, obviously, there would be vastly</p> <p>25 different.</p>	<p style="text-align: right;">Page 6584</p> <p>1 analysis would it tell you about the manner in which Deutsche</p> <p>2 Bank's own analysis of the value of 40 Wall changed from period</p> <p>3 over period?</p> <p>4 A The analysis always change because it's based on</p> <p>5 assumption. The assumption change over time and in economics</p> <p>6 the reality change all the time and valuation will change all</p> <p>7 the time also.</p> <p>8 Q And if we go back to Plaintiff's Exhibit 118 and turn</p> <p>9 to page eight of this document, do you see this again as an</p> <p>10 appraisal of 40 Wall?</p> <p>11 A Yes.</p> <p>12 Q As of June 1, 2015?</p> <p>13 A Yes.</p> <p>14 Q And the appraisal at page ten reflects a market value</p> <p>15 as is of \$540 million?</p> <p>16 A Yes.</p> <p>17 Q What is the fact that there are three different values</p> <p>18 over a period of time forward if you consider the \$200 million</p> <p>19 appraisal that Mr. Solomon showed you tell about the valuation</p> <p>20 of this asset?</p> <p>21 A Well, as I discussed on Thursday, the valuation quickly</p> <p>22 ingest, first of all, on the finishing of values. Appraisers</p> <p>23 use completely different definitions appraisers. If you read</p> <p>24 Mr. Hirsh and Mr. Korologos' report, they have no clue what</p> <p>25 estimated market value is. They have no clue. So appraisers</p>

<p>Professor Bartov - by Defendant - Redirect (Mr. Suarez) Page 6585</p> <p>1 use different definition of value than estimated current value. 2 So there is no surprise that appraisers would come up with 3 completely different valuation than the estimated current value. 4 There is no contradiction here. It is just expected differences 5 between different values that will derive based on different 6 definitions and they will derive by different people. That's 7 totally expected. 8 Q And if you look at this appraisal from 2015 and if I 9 could specifically draw your attention to page 15 of the 10 appraisal, which reports a net operating income of \$23,203,919; 11 do you see that? 12 A I do. 13 Q How does that compare to the estimate that was used in 14 2011 on a forward looking basis? 15 A Very close. Every estimate is subject to estimation 16 error but this is extremely close to the -- to the realization. 17 Q And what does that tell you about the method used in 18 2011 to determine the estimated current value of 40 Wall in the 19 statement of financial condition? 20 A So scientists don't assess the integrity or the quality 21 of a focus in hindsight based on the realization. We don't do 22 it this way because even if this number was vastly different 23 than the -- than the predicted number, then the focus is still 24 no evidence of any fraud or any inflation. It just says that 25 the estimation error was lodged because of unforeseen events</p>	<p>Proceedings Page 6587</p> <p>1 THE COURT: We're back on the record. What 2 did you discover? 3 MR. KISE: Yes, your Honor. So, apparently, 4 the number is what it is just because of the way they 5 were broken out. I can show the Court, if you will 6 allow me to hand this up, an example. 7 THE COURT: Do you have another copy so 8 plaintiff can see it? 9 MR. KISE: It's on their exhibit list. It 10 is Plaintiff's Exhibit 701. The point is, Judge, as 11 you can see, its just comparable backup data. It's all 12 routine matter that, really, shouldn't be controversial 13 at all. It's just what Patrick Birney would testify, 14 "Yes, this is on 40 Wall Street. We sent him this 15 piece of paper." It is not there for the truth of the 16 matter asserted. 17 One thing we could do is just simply submit 18 an affidavit, from Mr. Birney, that says, "Yes, this is 19 all the backup." And that would solve the problem 20 completely without having to call him as a witness. 21 But, this is it. It's just the documents 22 that we sent to -- that we, the defendants' sent, 23 Mr. Birney to Mazars. And we would never have 24 anticipated there would be any controversy over such a 25 ministerial document. Frankly, there shouldn't be.</p>
<p>Page 6586</p> <p>1 that happened between the time the focus was made and the 2 realization. But the fact that this is very close, the fact 3 that this is very close is totally inconsistent with assertion 4 that the focus was inflated or distorted. 5 THE COURT: Okay. See you all at 2:15. And, 6 witness, you're tired of hearing me say this, you can't 7 discuss the case or your testimony with anybody. 8 (Whereupon, the witness was excused from the 9 stand.) 10 (Whereupon a luncheon recess was taken.) 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>Proceedings Page 6588</p> <p>1 If your Honor wants to deny without 2 prejudice, we could simply save us all a lot of -- we 3 can submit an affidavit, by tonight, that they're 4 business records. 5 And he can ask the witness without saving the 6 Court the time of calling someone here to just 7 walk-through all of that routine matter, there's 8 nothing particularly controversial in there. They are 9 not being offered for the truth of the matter asserted. 10 THE COURT: Plaintiff, do you agree they're 11 not being introduced to prove the matter asserted 12 therein? 13 MR. WALLACE: I am not, entirely, clear 14 because, I don't have a witness saying for what purpose 15 they're being put in for. 16 These are also the versions that were 17 contained within the Mazars file so, likely contain, 18 oftentimes, notations from Mazars other work. 19 I would think if we were presenting these, 20 through Mr. Birney, and he were to say, "This is what I 21 gave to Mazars," there would be questions about "Is 22 there information that wasn't sent to Mr. Mazars about, 23 say, I don't know an appraisal." 24 The fact that they're just noncontroversial, 25 I don't know. I haven't looked at all 182. So, I</p>

Proceedings Page 6589

1 can't agree with that representation.
 2 THE COURT: Here's what I'm going to do.
 3 Basically, what I said. First of all, it sounds like
 4 these documents could be relevant. So, this case is
 5 about this sort of document.
 6 The 182 -- the infamous 182 -- should have
 7 been sent two weeks ago. I don't know who didn't send
 8 them two weeks ago. But, you know, it is throwing a
 9 monkey wrench in things here.
 10 But, I will deny, without prejudice, to
 11 defendants. How long will you need to send these
 12 now -- you already sent them. It is already done.
 13 MR. KISE: We have sent them.
 14 THE COURT: All right. So plaintiff, I hope
 15 you'll agree to admit as many as you can. But, that's
 16 up to you. How long will you need to decide. There's
 17 no hurry.
 18 MR. WALLACE: I think Tuesday -- I think
 19 until Monday. And, the only qualification I'll say, is
 20 the process we planned was that we would, potentially,
 21 offer our own responsive documents to put some of these
 22 in context. That's why I think it might require a
 23 little extra time for us to look at them.
 24 THE COURT: Okay. So, until Monday. And
 25 you can offer documents that you would like the

Proceedings Page 6591

1 matters to them. I'm happy to provide it so that, at
 2 least, it is authenticated in the record appropriately.
 3 I don't know that, that matters.
 4 MR. WALLACE: The records are authenticated
 5 because, they are produced in discovery. They are not
 6 Trump Organization documents. So I don't think
 7 Mr. Birney would authenticate the versions of the
 8 documents that were in Mazars files. The question is
 9 of which they are coming in and so on.
 10 So we will take them. We will try to get
 11 through them as quickly as possible so this does not
 12 linger the trial. And, if there are other documents or
 13 other evidence we think needs to come in to
 14 contextualize it, we'll let the Court know.
 15 If for some reason we agree that the
 16 defendants need to put in some kind of affidavit, we'll
 17 let you know. But we'll endeavor to get through this
 18 as quickly as possible.
 19 THE COURT: When will the Weisselberg
 20 documents be produced?
 21 MR. KISE: I have to discuss that with them.
 22 Because I don't know where we were in that process. I
 23 have not looked at that process in a while. It did
 24 not -- since we weren't calling Mr. Weisselberg and
 25 there didn't appear to be any reason to bother with it.

Proceedings Page 6590

1 defendants to agree to admit into evidence, right?
 2 MR. WALLACE: Subject to defendants resting
 3 their case with this issue left open the way we left
 4 open the issue with Mr. Weisselberg.
 5 And, I will note there that, again, we were
 6 promised documents. We still have not gotten anything
 7 from the defendants of the production items they were
 8 going to produce and we've proceeded with the trial
 9 anyway. So, I think they should still be resting their
 10 case with this item open.
 11 THE COURT: Mr. Kise, do you know what
 12 document he's referring to?
 13 MR. KISE: I do.
 14 THE COURT: You don't?
 15 MR. KISE: I do.
 16 THE COURT: It sounded like you said, "I do"
 17 and you went like this.
 18 MR. KISE: I was shaking my head that "Here
 19 we go." We're all getting in the same place I think.
 20 And, I understand their view as well, like, we're
 21 trying to get this over all of us.
 22 In all events, we'll get them -- we send them
 23 the documents. Your Honor, if they would like an
 24 affidavit with respect to our documents, we can do that
 25 so that they can have them to judge that -- if that

Proceedings Page 6592

1 We've been busy with other things frankly.
 2 THE COURT: I can understand being busy with
 3 other things. But, you represented you would turn them
 4 over. Roughly --
 5 MR. KISE: I don't know that we did that.
 6 But, we represented we would search -- I don't know
 7 that there is anything on the record where we
 8 represented any agreement -- any ultimate agreement on
 9 that.
 10 MR. WALLACE: Maybe I should be chasten for
 11 doing this. This is what we did at a front bar. We
 12 exchanged e-mails with the defendants.
 13 I'm happy to send -- to revive it from where
 14 it was the last time we heard from defendants. I will
 15 copy the Court on it so that you are aware of where the
 16 process is as well. We will move ahead.
 17 It didn't prohibit us from resting our case
 18 and chief. I don't think this prohibits the defendants
 19 from resting their case and chief.
 20 MR. KISE: Your Honor may recall the whole
 21 concept was designed to avoid a very lengthy and
 22 protracted discovery battle in the mist of a trial.
 23 And, we thought we could come to some accommodation.
 24 I'm not sure we can or not.
 25 But, at this point, I'm not even sure what

Proceedings	Page 6593	Proceedings	Page 6595
<p>1 purpose they serve. But at all events, we'll try and 2 work it out. 3 THE COURT: Okay. 4 MR. KISE: That's all we can do. 5 THE COURT: Defendants, do you rest at this 6 point? 7 MR. KISE: Yes, your Honor. Subject to the 8 one issue that you left open, we do rest. Also, at 9 this time, we are moving for directed verdict and 10 asking for the termination of the case. 11 Rather than take the Court's time this 12 afternoon, we'll submit something by Friday -- if 13 that's okay. But whatever timeline you want -- with 14 respect to the directed verdict. 15 But, rather than take the Court's time today 16 with any oral presentation, we'll just submit our 17 presentation then seeking, on the same basis we have 18 before, that, now at the conclusion of the defense 19 case, there is no evidence, no fraud, no victim, no 20 damage. There is no -- they haven't satisfied the 21 elements. 22 And the existence of the rebuttal witness, 23 Professor Lewis, indicates, fully, that they have a 24 hole in their case that they're trying to now backfill. 25 And you've heard our arguments on that.</p>		<p>1 or do not need a written response from plaintiffs. 2 Because, my preference would be not to bother 3 responding if the Court is going to do what it's been 4 doing, which is denying them as they are admitted. 5 THE COURT: You know, for one thing, it 6 seems to me motion for directive verdict that's denied 7 at the end of the plaintiff's case is -- that's almost 8 never going to be granted during the defendant's case. 9 Either the plaintiffs made out a prima facie 10 case or they didn't. I think they did. That's what 11 I've already ruled. So, you'd be wasting your time. 12 But I'm not going to tell you not to send me something. 13 MR. KISE: Your Honor, two things. My last 14 recollection of the presentation that we did before we 15 began our evidence, we moved for directed verdict at 16 the close of their case. 17 My last recollection, unless you are now 18 saying that you are denying it, was that you took it 19 under advisement. That's the last thing I recall you 20 saying on that. 21 THE COURT: True. 22 MR. KISE: For record purposes, it is now 23 the close of our case, and we need to move for directed 24 verdict. 25 Frankly we will -- and, this is why I</p>	
<p>1 But, that would be the -- yeah, we'll submit 2 something, in writing to the Court, Friday morning. 3 THE COURT: I have a general policy of 4 anybody wants to write me, send me something, go ahead 5 and do it. There's no way I'm going to grant that. 6 But if you want to send something, send it. Plaintiff, 7 do you strongly object to my allowing that? 8 MR. WALLACE: I think I object on a logical 9 basis. There was another motion, for directed verdict, 10 from Ms. Habba, three days ago, that was denied. 11 By Friday, we'll have certainly rested our 12 rebuttal case. The case will be over. We're already 13 scheduled for briefing and arguments. 14 So, adding satellite briefing, strikes us as 15 unnecessary and not necessary -- relevant. And quite 16 frankly, a waste of Court resources. 17 Maybe Mr. Amer has additional points. 18 MR. AMER: I would say if you're going to 19 entertain a written motion from defendants -- 20 THE COURT: It is more like I'll accept it. 21 It doesn't mean I will entertain it. 22 MR. KISE: I think you already said it. 23 THE COURT: I will disregard it or ignore 24 it. 25 MR. AMER: I would like to know if you need</p>		<p>1 suggested Friday for our submission to streamline this 2 process. Frankly, once they are done with their 3 rebuttal case, we'll need again, for record purposes, 4 to make the motion for directed verdict so we could 5 submit one brief to the Court or one submission -- it's 6 really not a brief, one submission to the Court, in 7 lieu of doing what is normally done, which is we 8 present it live on the record. But in order to save 9 the Court that time, we're just going to do it the way 10 I suggested if that's acceptable to the Court. 11 MR. ROBERT: So the record is clear, that's 12 on behalf of all defendants, your Honor. Thank you. 13 THE COURT: How about we do this. You know, 14 I like to discuss things in a reasonable manner. 15 So Mr. Kise -- all defendants I should say 16 Mr. Robert, Ms. Habba et cetera, move for a directed 17 verdict. It doesn't have to be formal. Send whatever 18 you want. You can move orally so, why not be informal 19 in writing? 20 And I'll give the AG a couple of business 21 days to decide whether they need to respond. And then, 22 if they say no, it's no. If you say yes, I will give 23 you what time you need. 24 Yes? 25 MR. WALLACE: This is a colossal waste of</p>	

Proceedings Page 6597

1 resources if people are going to be writing, briefing
2 the same thing we're about to be briefing in less than
3 a month.
4 I would ask that -- the defendants have
5 indicated they're moving for a directed verdict. If
6 your Honor is not going to grant the directive verdict,
7 we just ask that it be denied.
8 This is -- we already had a 45 page
9 power-point presentation on directed verdict from
10 Mr. Kise. I've never seen -- that's highly irregular
11 if we're going to talk about things that we've seen.
12 The defendants are not entitled to infinite
13 directive verdict motions every time they think there
14 is a good piece of evidence or they don't like
15 something. This is silly. And I don't know what
16 record Mr. Kise is claiming he needs to keep. They
17 have made multiple motions for directed verdict. None
18 have been granted.
19 We've all been here for weeks. I think we
20 know -- we've already won on summary judgment. I don't
21 even know what we're pretending is happening here.
22 But, for us to be now doing letter briefing
23 on the same subjects that are about to be the subject
24 of posttrial briefing, strikes me as the height of
25 waste of resources.

Proceedings Page 6598

1 This is -- he's going to have his chance to
2 make all these arguments as of January 5 and appear
3 before your Honor on January 11 and get a decision on
4 the law. You don't need to have an additional set of
5 letter briefing.
6 I don't think there is any world in which
7 we'll respond to this. And if we're talking two extra
8 days, I guess we're talking to Tuesday of next week.
9 If you want to allow him to send it in, that's fine.
10 But, this strikes us as a colossal waste of resources
11 and time.
12 THE COURT: To me, it is somewhat analogous
13 to a prior restraint. You can ask me for something.
14 No, ask me what you want. Plaintiff, you can decide
15 whether you need to respond to it or not. I think you
16 have a lot to go by at this point since I have denied
17 it, at least, five times or so.
18 So, by Friday, send me whatever you want.
19 I'm not promising to read it even. I probably will.
20 But, you know, I don't want to tell you not to ask me
21 to do something. So that's it.
22 Two business days later, plaintiff you will
23 let me know if you need to respond. And, I hope you
24 will only need two or three days after that.
25 Fair enough?

Proceedings Page 6599

1 MR. WALLACE: Yeah, I mean, we're getting
2 close to -- taking your position that you're not going
3 to preclude him from sending things in. Understood,
4 your Honor. We appreciate the time that you have
5 granted us.
6 THE COURT: Okay. I get letters all the
7 time from people that didn't ask for permission. This
8 is just another one of those but, in a big case.
9 So that's solved. Now, we have a witness
10 Professor Lewis -- Mr. Lewis. I believe that was --
11 there was another letter over lunchtime.
12 MR. KISE: There is. Are they calling
13 Mr. Sneddon first so we can, at least, move him along?
14 THE COURT: You want to do that first.
15 MR. KISE: Yes, just to save the Court --
16 the witness time.
17 THE COURT: Okay. Would you like to call
18 your first rebuttal witness?
19 MS. FAHERTY: Yes, your Honor. The People
20 call, as their first rebuttal witness, Kevin Sneddon,
21 please.
22 MR. KISE: And we, for the record, renew our
23 objection to the allowance of this rebuttal testimony.
24 THE COURT: Basically, denied without
25 prejudice. If you think something is not a proper

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6600

1 subject of rebuttal, then you can object.
2 COURT OFFICER: Witness entering.
3 Please raise your right hand.
4 Do you solemnly swear or affirm that any
5 testimony you give will be the truth the whole truth
6 and nothing but the truth?
7 THE WITNESS: I do.
8 KEVIN SNEDDON, called as a witness by the
9 People, having been first duly sworn, testified as follows:
10 COURT OFFICER: Please have a seat. Please
11 state your name, either home or business address for
12 the record.
13 THE WITNESS: Kevin Sneddon, 17 Will Merry
14 Lane, Greenwich, Connecticut.
15 THE COURT: Welcome.
16 Ms. Faherty, please, proceed.
17 MS. FAHERTY: Thank you, your Honor.
18 DIRECT EXAMINATION
19 BY MS. FAHERTY:
20 Q. Good afternoon, Mr. Sneddon.
21 A. Good afternoon.
22 Q. Can you please state your educational background,
23 please?
24 A. Sure. I have a Bachelor of Science, I did 30
25 credits of post-graduate study and then, I worked in

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6601

1 corporate America before I got into real estate.
2 Q. And, where did you get your Bachelor's Degree
3 from, sir?
4 A. East Stroudsburg University, in Pennsylvania.
5 Q. The 30 extra credits -- post-graduate credits --
6 you received, where was that from?
7 A. St. John's University.
8 Q. Do you currently hold any professional licenses,
9 sir.
10 A. Real estate brokers license; the State of New York
11 and State of Connecticut.
12 Q. Any other licenses?
13 A. No.
14 Q. How long have you held your real estate broker's
15 license in the State of New York?
16 A. Since 2004.
17 Q. And that is still a, currently, active real estate
18 broker's license, correct?
19 A. Yes.
20 Q. Are you, currently, employed?
21 A. I am an independent contractor, associate broker
22 with Compass.
23 Q. And what are you employed to do in your associated
24 work with Compass?
25 A. Sell residential real estate.

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6602

1 Q. For how long have you been doing that?
2 A. Since 2004.
3 Q. How long have you been doing that for Compass --
4 in connection with your association with Compass?
5 A. Since 2018.
6 Q. Where were you before 2018 in your employment?
7 A. I was an independent broker, had my own business.
8 Q. Did there ever come a point in time when you were
9 employed with an organization known as Trump International
10 Realty?
11 A. Yes.
12 Q. At what period of time, in your professional
13 career, were you employed with and -- if I say, "TIR" would
14 you recognize that entity?
15 A. That's fine.
16 Q. What period of time were you with TIR, sir?
17 A. I would say late winter 2011 through late winter
18 2012.
19 Q. What title did you hold while you were with TIR?
20 A. I was the managing director of the brokerage
21 office.
22 Q. Was managing director the title you held?
23 A. Yes.
24 Q. Broadly speaking, what were the duties and
25 responsibilities you had at TIR?

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6603

1 A. To broker real estate on behalf of the Trump Org
2 and to oversee salespersons.
3 Q. How many persons did you oversee?
4 A. Eight to ten.
5 Q. Focusing on your time period working at TIR, were
6 you aware that Donald J. Trump owned a personal residence at
7 Trump Tower?
8 A. I was aware.
9 MR. KISE: Objection.
10 THE COURT: Ground.
11 MR. KISE: What is this rebutting? It is
12 back to the same objection. This is something that
13 could easily have been elicited on their direct case.
14 What issue does this go to?
15 THE COURT: I assume this is just some sort
16 of background to questions about that.
17 MS. FAHERTY: This is two questions away
18 from putting the transcript up for which I need this
19 witnesses' rebuttal testimony, your Honor.
20 THE COURT: There is, certainly, no
21 prejudice. There is no jury. Even if there was a
22 jury, there is no prejudice. We all know this fact.
23 So again, I am just considering you're sort of focusing
24 the witnesses' attention on something?
25 MS. FAHERTY: I am, your Honor.

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6604

1 THE COURT: Overruled, without prejudice.
2 MS. FAHERTY: Can we get a read back of my
3 question? I don't believe there was an answer.
4 THE COURT: Read back the question, please.
5 (The testimony as requested was read by the
6 reporter.)
7 MS. FAHERTY: Thank you, your Honor.
8 A. Yes.
9 Q. Just, generally, describe for me what that
10 awareness was you had about Mr. Trump's residence?
11 A. It was well-documented in the press. You know, I
12 knew before I worked there.
13 Q. Was it a Triplex living abode in which he had a
14 personal residence at Trump Tower?
15 Does that sound familiar?
16 MR. KISE: Objection, leading.
17 THE COURT: Sustained.
18 Q. Can you describe the general description of the
19 living situation Mr. Trump held at his personal residence at
20 Trump Tower?
21 A. I just knew it was the penthouse. I didn't really
22 know much about the apartment itself.
23 Q. Okay. I'm going to put on the screen testimony we
24 heard earlier in this trial.
25 MS. FAHERTY: If we could pull up the

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6605

1 testimony of Jeff McConney, starting at transcript page
2 5001.
3 Q. And, we'll direct your attention to line 20. And
4 we're going to continue onto page 5003.
5 MS. FAHERTY: Counsel, directing your
6 attention to this.
7 Q. And, I am going to read this testimony to you in a
8 question and answer form. And, I am going to ask some
9 questions. Okay?
10 A. Okay.
11 Q. Beginning at line twenty, there was a question.
12 "Do you see there where you have a value for the
13 Triplex apartment?"
14 MS. FAHERTY: Mr. McConney responds, yes.
15 "QUESTION: Do you see -- can you explain to
16 me the basis for valuing the Triplex apartment?
17 "ANSWER: For the June of 2015 statement?
18 THE COURT: Question mark.
19 MS. FAHERTY: Yes, question mark.
20 "QUESTION: Yes.
21 "ANSWER: We've reached out to our sale's
22 office, Trump International Realty, and asked them to
23 provide us with an amount per square foot so we
24 could -- which we used to value the um Triplex.
25 Believe the e-mail said -- the Triplex is 30,000 square

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6606

1 feet. It was something about \$10,900 per square foot
2 multiply the two and came up with the
3 327 million-dollar.
4 MS. FAHERTY: And we'll scroll to the next
5 page. It continues on. On page 5003.
6 "QUESTION: What was the value of 30,000
7 square feet input into the spreadsheet.
8 MS. FAHERTY: Mr. McConney's answer.
9 "It was the mechanism so I knew, from year to
10 year, what the value was based on. Sometimes I would
11 just look at the spreadsheet. And this way, I didn't
12 have to go to all of the voluminous backup we had. It
13 reminded me how we valued the property at that point in
14 time.
15 "QUESTION: Where would you have come up
16 with the number 30,000 square feet?
17 "ANSWER: The person running TIR at the
18 time, Kevin Sneddon sent me an e-mail that the Triplex
19 was 30,000 square feet.
20 "QUESTION: Was the 30,000 square feet
21 figure used to inflate the price of the Triplex.
22 "ANSWER: It was used based on the
23 information I received from somebody who knows. He is
24 the broker. I would rely on him because, I figured he
25 knew the property a lot better than I did.

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6607

1 "QUESTION: Have you Mr. McConney ever
2 personally walked through the entirety of the Triplex?
3 "ANSWER: The entirety? No.
4 "QUESTION: Have you ever measured how many
5 square feet the Triplex is?
6 "ANSWER: No.
7 MR. KISE: Is there a question there, your
8 Honor.
9 THE COURT: Not yet.
10 MS. FAHERTY: I appreciate the pause,
11 Mr. Kise.
12 Q. Mr. Sneddon, do you recall sending Mr. McConney an
13 e-mail advising him that the Triplex was 30,000 square feet?
14 MR. KISE: Objection, your Honor. So, this
15 falls squarely within the case law that we've already
16 cited to your Honor.
17 Rebuttal evidence is not merely evidence
18 which contradicts the defendant's evidence and
19 corroborates that of the plaintiff. It is evidence
20 which overcomes some new matter that the defendant has
21 proffered in reply.
22 This subject matter was covered when they
23 called Mr. McConney and Mr. Weisselberg in their case
24 and chief. They could have called and should have
25 called Mr. Sneddon at that time during their case and

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6608

1 chief.
2 The fact that it came up again in the defense
3 case, on Mr. McConney's second trip to the stand, does
4 not now render this witness' testimony rebuttal
5 testimony.
6 It may contradict or it may be different
7 than, in there view, what Mr. McConney testified to.
8 But this is squarely within the prohibition of the
9 cases we cited to your Honor from the Court of Appeals
10 on down. There's no basis to admit this now.
11 Again, a hole in their case that they would
12 like to backfill. And, this is -- they certainly could
13 have asked Mr. Weisselberg in their case and chief.
14 They called him. They could have asked Mr. McConney in
15 their case and chief. They called him. And, they
16 certainly could have called Mr. Sneddon to address
17 these points.
18 These are affirmative points that go straight
19 to their burden of proof. This is not a new matter
20 that we have brought up or some new fact that has come
21 to light. These are facts that are well -- this is
22 known and have been well known for some time.
23 So there is just no basis to admit any
24 testimony relevant to the --
25 MR. WALLACE: If we're going to talk about

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6609

1 this, the witness should be excused if we're going to
2 repeat this. But, I think we covered this ground
3 extensively.
4 THE COURT: Do you want him excused or not?
5 MR. WALLACE: Please.
6 MS. FAHERTY: Sorry, Mr. Sneddon.
7 MR. KISE: Your Honor --
8 THE COURT: I think Mr. Wallace --
9 MR. KISE: I had something to add for the
10 record that I think is relevant a specific reference.
11 On Mr. McConney, when they called
12 Mr. McConney on their case, at page 637 of the
13 transcript, they asked, specifically, about this
14 e-mail.
15 "And then, you asked him to send you the
16 e-mail he sent to Mr. Weisselberg, right?"
17 This is Mr. Amer's examination of
18 Mr. McConney.
19 "ANSWER: Yes.
20 MR. KISE: And then he responds at, quote,
21 at 30,000 square feet. DJT Triplex is worth 4,000 to
22 6,000 per foot or 120 million to 180 million, right?"
23 "ANSWER: Yes.
24 "Okay. And this is a point in time where
25 you're still using 30,000 square feet for the valuation

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6610

1 of Mr. Trump's Triplex?"
2 "Right."
3 So, this is on page 637.
4 THE COURT: Slow down a little.
5 MR. KISE: Sorry. 637. I am just looking
6 at lines one through ten where this issue came up in
7 their case and chief. And again, this falls, squarely,
8 within the prohibition set forth in the case law that
9 we have recited to your Honor that -- they haven't
10 opposed any of that case law or cited any exception to
11 it.
12 So its just not the proper subject of
13 rebuttal testimony. This is backfilling their case
14 with testimony.
15 Simply because it contradicts our evidence
16 doesn't make it rebuttal testimony. And that's what
17 the cases provide.
18 MR. AMER: If I may, your Honor since I
19 elicited this testimony back on, believe it or not, on
20 October 5th.
21 The testimony was about 30,000 square feet
22 being something that was communicated to Mr. McConney.
23 But, at no time, was Mr. McConney asked where he got
24 that square footage from or who calculated it. It was
25 only when they called Mr. McConney on their case and

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6611

1 chief that Mr. McConney, for the first time, identified
2 this witness, Mr. Sneddon, as the source of the 30,000
3 square foot figure.
4 And if we are allowed to elicit the testimony
5 from this witness, on rebuttal, the Court would hear
6 that he did not calculate that number, that, that
7 number was provided to him by Mr. Weisselberg.
8 That's why we need this testimony. Because,
9 for the first time, on their case, they put in evidence
10 suggesting or indicating that Mr. Sneddon was the one
11 who calculated the 30,000 square feet. That's wrong.
12 We're entitled, on rebuttal, to establish
13 that, that evidence, that was put in on their case, not
14 on our direct case -- there's nothing on page 637 that
15 identifies who calculated that figure.
16 And it is certainly within your Honor's
17 discretion to allow this under the cases we were citing
18 before.
19 THE COURT: Should you have asked him where
20 he got this from?
21 MR. KISE: Absolutely. That's the point.
22 The e-mail is mentioned right there at the top of page
23 637. And that's exactly right. They had every
24 opportunity.
25 The testimony was elicited on by them in both

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6612

1 instances; on their direct case and in our case. They
2 certainly were aware of this e-mail and this issue.
3 they interviewed Mr. Sneddon some three plus years ago.
4 They've known about this issue. They asked about it in
5 depositions. They asked about it with Mr. Weisselberg.
6 MR. AMER: That's not the standard for
7 rebuttal. We had no obligation it elicit the
8 testimony. But, once it was elicited, on their case,
9 we're entitled to rebut it.
10 MR. KISE: They put the e-mail in evidence
11 in their case I believe; PX 1052.
12 MR. AMER: The e-mail says nothing about who
13 calculated the value.
14 MR. KISE: As your Honor said, that's your
15 fault for not asking the question. That's the whole
16 point of the case law. If you don't ask the question,
17 if you decide, in your affirmative case, not to elicit
18 the testimony that you believe necessary to establish
19 your case, you can't hold it back and then wait and see
20 what happens, in our case, and then declare it all
21 rebuttal.
22 That's, essentially, what they've done with
23 most of their witnesses. If you look, their witness
24 list is filled with rebuttal witnesses.
25 MR. WALLACE: Whom we are not calling

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6613

1 because --
 2 THE COURT: I'm sorry?
 3 MR. WALLACE: Whom we're not calling. We're
 4 calling two witnesses to respond to testimony that was
 5 presented in the defendants' case.
 6 This is not controversial. This is not -- we
 7 have three lawyers standing up at the defense table
 8 over a witness who's going to testify -- if we can get
 9 him back in here -- in less time that it takes Mr. Kise
 10 to make an argument.
 11 MR. KISE: We don't suspend the rules
 12 because it's one or two witnesses and it won't take a
 13 lot of the time. The rules are the rules. They know
 14 the game. They know how to play the game. If they
 15 don't, then it's their fault.
 16 THE COURT: Plaintiff, was it essential to
 17 your case to get this evidence or testimony in?
 18 MR. AMER: It was not essential because we
 19 had the e-mail that established that Mr. McConney was
 20 told it was 30,000 square feet. We didn't have to
 21 establish who calculated that value.
 22 But, once they put in evidence, on their
 23 case, saying that it was Mr. Sneddon, we are certainly
 24 entitled to challenge that factual assertion on
 25 rebuttal. That's what rebuttal is for. Because they

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6615

1 "Oh, no, you gotta go out in the hallway for 20
 2 minutes."
 3 Okay. Mr. Faherty, please continue.
 4 MS. FAHERTY: I think there was a question
 5 pending, your Honor. May I have a read back please.
 6 THE COURT: Please.
 7 (The testimony as requested was read by the
 8 reporter.)

K.Sneddon - Plaintiff - Direct/Ms.Faherty Page 6614

1 are going to make a big deal out of it on their case.
 2 MR. KISE: So your Honor, by putting the
 3 e-mail in, the only evidence at the close of their case
 4 was that the e-mail was sent from Mr. Sneddon to
 5 Mr. McConney. That was the state of the evidence at
 6 the end of their case.
 7 If they wanted to dispute the idea that
 8 Mr. Sneddon didn't provide that number that's reflected
 9 in the documentary evidence -- they were always talking
 10 about this is a documents case, this is one of those
 11 documents.
 12 If they wanted to dispute that, then they
 13 certainly should have done so in their case and chief.
 14 They knew about this. They introduced this document.
 15 They asked about the e-mail in the transcript. There
 16 is no question that this is improper rebuttal. And its
 17 no question that this is just backfilling a hole in
 18 their case.
 19 THE COURT: And there is no question but
 20 that. I'm going to overrule the objection. It's new.
 21 And it wasn't part of the case they had to put in. The
 22 defendants' witness brought it up. Now, I am allowing
 23 the rebuttal.
 24 Let's get the witness back.
 25 Its like being invited to a dinner party and

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6616

1 DIRECT EXAMINATION
 2 BY MS. FAHERTY:
 3 A I don't recall.
 4 Q Okay. Let's put up plaintiff's exhibit PX10?
 5 MR. KISE: I don't think the answer made it into
 6 the record. I don't see that there.
 7 THE COURT: Okay, next question.
 8 Q Turning your attention to the document that's on the
 9 screen in front of you, the court officer is handing it up to
 10 you. You can look at either, sir. Just looking at the cover
 11 e-mail on this document, do you recognize that e-mail in the
 12 "from line" entry there?
 13 A Yes.
 14 Q Did you have an e-mail address associated with the work
 15 you performed at Trump International Realty?
 16 A Yes.
 17 Q And were you employed at TIR on September 20, 2012?
 18 A Yes.
 19 Q Okay. Let's scroll down to the bottom of the first
 20 page. And I'll just represent to you the bottom e-mail carries
 21 over on to the second page so actually if you could put them
 22 both on the screen.
 23 MR. KISE: Your Honor, just for record, this is
 24 exact same e-mail PX1052 that they introduced already in
 25 their case and they are now going to ask him questions about

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6617

1 it on a rebuttal case when this was in the record at the
2 time of their case.
3 THE COURT: Objection. Overruled.
4 Q Drawing your attention to this e-mail from you sent on
5 Wednesday, September 19, 2012. It's addressed to Cathy K. with
6 a "CC" to Jeff McConney and that's your name again there, Kevin
7 Sneddon, right?
8 A Yes.
9 Q Do you see the subject there is re, colon, forward
10 colon, DJT Triplex?
11 A Yes.
12 Q Okay. And do you recognize the name Cathy K.?
13 A Yes, she was my direct supervisor at TIR.
14 Q And do you recognize the name Jeff McConney?
15 A Yes.
16 MR. ROBERT: Objection. Miss Faherty said the
17 e-mail you sent. The e-mail she is talking about is from
18 Cathy K. to Mr. Sneddon. Mr. Sneddon didn't send the
19 e-mail.
20 THE COURT: She's talking about the other earlier.
21 MS. FAHERTY: Counsel, I will go quicker if I can
22 proceed.
23 MR. ROBERT: If you can ask a proper question.
24 MS. FAHERTY: It was a proper question.
25 MR. ROBERT: You don't need to raise your voice to

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6618

1 me.
2 MS. FAHERTY: I said at the bottom of the first
3 page that carries over to the top of the second page. I am
4 going slowly so you can follow along. I can slow it down
5 more if you would like.
6 MR. ROBERT: Maybe, if you would, that would be
7 great.
8 THE COURT: Just go at a reasonable speed.
9 MS. FAHERTY: Thank you, Your Honor.
10 CONT'D DIRECT EXAMINATION
11 BY MS. FAHERTY:
12 Q I believe my question was who was Cathy K?
13 A My direct supervisor at TIR.
14 Q And in the body of this e-mail it says, "I already
15 valued DJT's Triplex for Allen our 75MM -- is that million?
16 A Yes.
17 Q -- Triplex listing is in 240 RSB, period. Total square
18 footage is 14.5K including main residence, guest residence, and
19 staff residence, period. As is 5K plus per foot."
20 Do you see that there?
21 A Yes.
22 Q Looking at this e-mail, do you recall sending this
23 message on September 19, 2012?
24 MR. KISE: Objection. Improper rebuttal.
25 THE COURT: Overruled.

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6619

1 A Yes.
2 Q And just turning your attention to that very first
3 sentence, I already valued DJT's Triplex for Allen. Who's
4 Allen?
5 A Allen Wiesselberg.
6 MR. KISE: Same objection. Your Honor, can we just
7 have a standing objection to this entire line of questioning
8 so we can move this along. This is all improper rebuttal in
9 our view.
10 THE COURT: You got the standing objection. Let's
11 go.
12 Q Sorry. Can you repeat back your answer for me. Who's
13 Allen the reference to?
14 A Allen Weisselberg.
15 Q Who's Allen Weisselberg?
16 A He was the CFO of Trump Org.
17 Q What are you referring to when you write DJT's Triplex
18 in this message?
19 A Mr. Trump's Triplex penthouse, Trump Tower.
20 Q Were you ever asked to assess the value of Mr. Trump's
21 Triplex apartment?
22 A Yes.
23 Q Who asked you to value Mr. Trump's Triplex apartment?
24 A Allen Weisselberg.
25 Q In what way or in what manner did Mr. Weisselberg ask

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6620

1 you to value Mr. Trump's Triplex apartment?
2 A He called me on the phone.
3 MR. KISE: Objection. Vague.
4 THE COURT: Overruled.
5 A He called me on the phone and asked me if I could give
6 him a rough, you know, market value of the Triplex.
7 Q Other than asking you for a rough market value of the
8 Triplex, did he say anything else?
9 A No.
10 Q What did you say in response to his request to provide
11 a value for Mr. Trump's Triplex?
12 A I asked if I could see it, and he said that was not
13 possible. So I asked if there was a floor plan or any specks
14 and he said he didn't have any of that information. So I asked
15 him, well, you know, what size is it.
16 Q And what do you recall did he say to you in response to
17 the question what is that size?
18 A He said I think -- he said it's quite large. I think
19 it's around 30,000 square feet.
20 Q And why would the size of the apartment be information
21 that you need in order to calculate a value for the Triplex?
22 A Well, one metric in valuing residential real estate is
23 square footage times, you know, the average selling price per
24 square foot.
25 Q Is that a metric you used today in your professional

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6621

1 experience?
 2 A It's one metric, yeah.
 3 Q Did Mr. Weisselberg tell you why he was calling for
 4 your input on what Mr. Trump's Triplex would sale for?
 5 A Because we were valuing some of these sponsored units
 6 in various Trump buildings. And he called to ask about that
 7 process and asked if we could add the Triplex into that process.
 8 Q And in regard to that call with Mr. Weisselberg and
 9 after you received a square footage for the apartment, what was
 10 the response you gave to him about how to value the apartment?
 11 A I believe I gave him a range of I think around 4 to
 12 6,000 a foot at that time.
 13 Q Okay. Turning your attention back to Exhibit 105 --
 14 1052, Plaintiff's Exhibit 1052?
 15 MR. KISE: Your Honor, all of these questions and
 16 answers relate to communication that this witness had with
 17 Mr. Weisselberg. Mr. Weisselberg did not testify in our
 18 case. He testified in their case. The purported rebuttal
 19 is necessary for, as they say, Mr. McConney's testimony.
 20 Nothing here relates to any communication this witness had
 21 with Mr. McConney or any e-mails with Mr. McConney. This is
 22 all the witness testifying about communications with
 23 Mr. Wiesselberg, the subject of their direct case, could
 24 have been asked. It's all improper rebuttal. This is just
 25 filling the holes back in in their direct case, but this has

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6622

1 nothing to do with Mr. McConney's testimony. So that's
 2 the -- an additional reason why this is improper rebuttal.
 3 THE COURT: Plaintiff, any response?
 4 MR. AMER: It has everything to do with
 5 Mr. McConney's testimony that we saw on the screen and we've
 6 already argued this so I --
 7 THE COURT: Objection overruled, but incorporate it
 8 in the standing objection.
 9 CONT'D DIRECT EXAMINATION
 10 BY MS. FAHERTY:
 11 MS. FAHERTY: Can we scroll up to the next e-mail,
 12 higher up in this document, please, Ashley.
 13 Q Okay. There's an e-mail from Jeff McConney to you and
 14 Miss K. It states, "Thanks Kevin. Can you please send to me
 15 the e-mail you sent to Allen."
 16 And then if we scroll up to the next message dated
 17 Thursday, September 20, 2012, it is from you to Jeff McConney
 18 and Cathy K, still the same subject, "at 30,000 square feet,
 19 DJT's Triplex is worth between 4K to 6K per foot or 120 million
 20 to 180 million. You sent that message, correct?
 21 A Correct.
 22 Q This isn't a forward of an e-mail you sent to
 23 Mr. Weisselberg, right?
 24 A I don't believe so.
 25 Q How were you forwarding information you sent to

K. Sneddon - by Plaintiff - Direct (Ms. Faherty) Page 6623

1 Allen Weisselberg along to Jeff McConney in this message? Was
 2 this a reflection of the phone call you had with
 3 Mr. Weisselberg?
 4 MR. KISE: Objection. Leading.
 5 THE COURT: Sustained.
 6 Q This message to Mr. McConney is this a -- what is this
 7 a reflection of?
 8 MR. KISE: Objection. Asked and answered. A
 9 leading question. She just gave the witness the answer.
 10 Would you like to write it down for him so he can read the
 11 answer back?
 12 THE COURT: Objection overruled.
 13 I can't begin to count the amount of times that
 14 your team did this and I allowed it.
 15 MR. KISE: Disagreed completely, Your Honor. This
 16 is a free fall but, okay.
 17 A I know I spoke to Allen on the phone. I don't recall
 18 sending him an e-mail. Jeff might have thought I did. I don't
 19 remember. It was a long time ago.
 20 MS. FAHERTY: I think that's it, Your Honor.
 21 THE COURT: That's it?
 22 MS. FAHERTY: That's it.
 23 THE COURT: Okay.
 24 Any cross-examination of the rebuttal witness?
 25 MR. ROBERT: Yes, Your Honor.

K. Sneddon - by Plaintiff - Cross (Mr. Robert) Page 6624

1 Good afternoon. May I proceed, Your Honor?
 2 THE COURT: Please.
 3 CROSS-EXAMINATION
 4 BY MR. ROBERT:
 5 Q Good afternoon, Mr. Sneddon.
 6 A Good afternoon.
 7 Q In answering Miss Faherty's questions, you used the
 8 word Jeff to refer to Jeff McConney; do you remember that?
 9 A Yes.
 10 Q You never met Jeff McConney before, did you?
 11 A I don't recall. I worked in a different building,
 12 different location.
 13 Q I am going to ask you a series of questions this
 14 afternoon, sir. I am going to ask you to answer them yes or no.
 15 If you can't, you tell me and I'll rephrase them. Fair enough,
 16 sir? Sir, you heard what I just said?
 17 A Yes.
 18 Q If you don't understand the question, you tell me and I
 19 will rephrase it, okay?
 20 A Okay.
 21 Q Otherwise, if you can answer my questions yes or no,
 22 understood?
 23 A Understood.
 24 Q So you didn't know Jeff McConney when you worked at the
 25 Trump Organization, correct?

K. Sneddon - by Plaintiff - Cross (Mr. Robert) Page 6625

1 A Correct.
2 Q As a matter of fact -- withdrawn.
3 You taken an examination under oath that Miss Faherty
4 asked you the questions of a long time ago back in March of
5 2021; do you remember that?
6 A Yes.
7 Q And prior to that official interview -- withdrawn.
8 That interview on March 4, 2021, that was with a court
9 reporter, right?
10 A Yes.
11 Q And --
12 THE COURT: Hold on. You need to speak closer to
13 the mic, louder, clearer.
14 Q And you remember there was a court reporter?
15 A Yes.
16 Q You promised to tell the truth?
17 A Is this -- yeah. Yes.
18 Q You took an oath to tell the truth that day, correct?
19 A Yes.
20 Q Prior to that interview under oath, you had a
21 conversation with Miss Faherty, correct?
22 A Yes.
23 Q And that conversation was about a month or so earlier,
24 correct?
25 A Yes.

K. Sneddon - by Plaintiff - Cross (Mr. Robert) Page 6626

1 Q And that conversation -- and during that conversation,
2 Miss Faherty explained to you who Jeff McConney was, right?
3 A Yes.
4 Q Because prior to Miss Faherty explaining to you who
5 Jeff McConney was, you had no idea, right?
6 A Correct.
7 Q Okay. And during that conversation with Miss Faherty,
8 she explained to you the theory of the Attorney General's case,
9 correct?
10 A Yes.
11 Q As a matter of fact, it was the first time you had ever
12 heard of something called a statement of financial condition,
13 correct?
14 A Yes.
15 Q And Miss Faherty explained to you that part of this
16 case had to deal with the statement of financial condition,
17 correct?
18 A Yes.
19 Q And at that point, she told you based on how the
20 interview went she would decide whether to have you come and
21 testify under oath, correct?
22 A Yes.
23 Q And then based on that interview, she decided to have
24 you testify under oath, correct?
25 A Yes.

K. Sneddon - by Plaintiff - Cross (Mr. Robert) Page 6627

1 Q And during that interview, she explained to you the
2 issue of the square footage of the Triplex, correct?
3 A Yes.
4 MR. ROBERT: So, Your Honor, I got Triplex this
5 time. I'm learning. May be the last day of the trial, but
6 I am learning.
7 Q Prior to Miss Faherty --
8 THE COURT: Five-minute warning.
9 Q Prior to Miss Faherty mentioning to you the importance
10 of this 30,000 square foot Triplex issue you were unaware of it,
11 correct?
12 A Yes.
13 Q She told you an important part of the case was you
14 being able to say that you're not the person that came up with
15 the 30,000 feet, correct?
16 A Yes.
17 MR. ROBERT: Your Honor, this may be a good time to
18 take the afternoon break now. I may be able to truncate
19 this a lot.
20 THE COURT: Let's meet at 10 to 4.
21 MR. ROBERT: Thank you, sir.
22 THE COURT: I'll direct the witness don't discuss
23 this case or your testimony or anything related to it during
24 the break, okay. How about 5 to 4.
25 ///

K. Sneddon - by Plaintiff - Cross (Mr. Robert) Page 6628

1 (Whereupon, the witness was excused from the
2 stand.)
3 (Whereupon, a recess was taken.)
4 COURT OFFICER: All rise. Part 37 is back in
5 session. Please be seated and come to order.
6 THE COURT: I apologize for the delay. Let's get
7 right to it.
8 MR. ROBERT: I'm done with the witness, Your Honor.
9 No further questions.
10 THE COURT: Will there be any redirect?
11 MS. FAHERTY: No redirect, Your Honor.
12 THE COURT: Everybody is finished. Witness
13 excused. Thank you.
14 (Whereupon, the witness was excused from the
15 stand.)
16 THE COURT: Okay. Before we call the next witness,
17 let's discuss -- he's not here, right?
18 MR. WALLACE: The witness is here, Your Honor. He
19 is an expert. So, if we need to excuse him to discuss
20 defendants' motion.
21 THE COURT: Just right outside the door. I hope
22 this will be brief. We need to discuss the substance of the
23 latest letter about this witness's report and its
24 admissibility or lack thereof.
25 MR. KISE: So, Your Honor, we submitted our letter.

Proceedings Page 6629

1 I'll be brief. I won't go through every point. As Your
 2 Honor knows, to be qualified as an expert, the witness must
 3 possess the requisite, skill, training, education, knowledge
 4 or experience from which it can be assumed the opinion
 5 rendered is reliable. And we cite to the Court the
 6 Schechter, S-C-H-E-C-H-T-E-R, case from the First Department
 7 and several others.

8 Mr. Lewis does not possess the requisite
 9 qualifications. He's not a certified public accountant.
 10 He's never sat for the certified public accounting exam.
 11 His accounting degree is -- his accounting degree, in
 12 quotes, his Ph.D. is from an engineering school. His Ph.D.
 13 is actually in engineering not accounting. He doesn't even
 14 have an undergraduate degree in accounting. He has no
 15 experience at all practicing accounting, none. He's got no
 16 experience preparing, reviewing or using compilation
 17 statements. He has got no experience auditing financial
 18 statements. He's got no experience preparing or using
 19 personal financial statements.

20 He's a professor of practice with no experience in
 21 the practice of accounting. He has no lectures that we can
 22 uncover that he's identified relative to compilations of
 23 personal financial statements or any of the other issues at
 24 issue herein. He has no publications or research relative
 25 to compilation personal financial statements or any of the

Proceedings Page 6630

1 other issues here.

2 He has no peer review publications at all. And at
 3 least as far as our research indicates, there are zero
 4 citations to any of his published works. His most recent
 5 publications relate to taxpayer identification numbers. I'm
 6 not sure that that has anything to do with any of the issues
 7 in this case.

8 In 2021 and 2019, again, these aren't peer review
 9 publications. They are just publications about
 10 understanding taxpayer identification numbers and the
 11 history of taxpayer identification numbers. He's simply
 12 offering his general opinion after reading the relative
 13 accounting guidance, but where an expert is generally
 14 familiar with the subject area but otherwise has no specific
 15 training or experience pertaining to that subject area, then
 16 the expert clearly lacks the requisite skill, knowledge,
 17 training or experience from which it can be assumed he is
 18 reliable.

19 The Lessard case, L-E-S-S-A-R-D, the Beeley case,
 20 B-E-L -- B-E-E-L-E-Y, the Fortich case, F-O-R-T-I-C-H, and
 21 those three cases, two of those are the Beeley and Fortich
 22 cases are Court of Appeals cases that make this same point.
 23 In the Beeley case, there was an accident reconstruction
 24 specialist that lacked the qualifications to testify about
 25 the functions of brakes.

Proceedings Page 6631

1 In the Fortich case, there was a general surgeon
 2 offering testimony regarding plastic surgery procedures
 3 outside of his field of practice and the Court of Appeals
 4 held that that expert doesn't possess sufficient knowledge
 5 or expertise to testify outside his or her specialty.

6 Here, Professor Lewis doesn't even have a
 7 specialty. Also, Professor Lewis admits that his
 8 materiality test was made up, that he created his own test
 9 to determine whether the statements or omissions in the
 10 statements of financial condition were material to his
 11 readers. And we cite the Court in our letter to specific
 12 language where he admits that.

13 "QUESTION: I just wanted to make sure that that
 14 was your test, meaning the materiality test, and not
 15 anything that's mandated by or per literature?
 16 "ANSWER: Correct."

17 MR. KISE: So under Frye, as the Court knows, the
 18 techniques have to be, when properly performed, have to
 19 generate results accepted as reliable within the relevant
 20 community. A test that Mr. Lewis his self-developed mandate
 21 is definitionally not supported by GAAP and it doesn't pass
 22 the Frye test. It doesn't even attempt to pass the Frye
 23 test. A test that he created himself cannot conceivably be
 24 one that is generally acceptable in the field of accounting.
 25 So his opinions -- and we cite the Court to a

Proceedings Page 6632

1 number of cases on that point. I believe the Cornell case,
 2 curiously enough, no relation, but Cornell 22 NY 3d at 7662,
 3 I believe that's a Court of Appeals case, and several other
 4 cases that deal with the relevant Frye standard and the
 5 proposition that his opinion should be disregarded where he
 6 has no authority or standard to cite or support it and he
 7 has created his own test.

8 There are several other matters with respect to his
 9 opinions raised in our letters. I won't go through all of
 10 them, but in sum and substance, this witness doesn't even
 11 come close to possessing the requisite qualifications to
 12 testify about the subject matters at issue in this case.
 13 And we would also renew our objection on -- on the rebuttal
 14 evidence. It's improper rebuttal evidence.

15 THE COURT: Do you want to give up and go home?
 16 MR. WALLACE: I will take the answer in two parts.
 17 I don't want to give up, but I do want to go home. So, sort
 18 of Cornell was mentioned in passing. Professor Lewis is a
 19 professor of accounting at Cornell. He directs, he
 20 masters --

21 THE COURT: You don't think so?
 22 MR. KISE: No. He heads the master of -- Master of
 23 Professional Studies which, from what I can tell, is a
 24 ten-month program for nonbusiness majors and you don't need
 25 any minimal GPA to get in. It is intended to be

Proceedings Page 6633

1 introductory in nature. It is cursory business review
 2 course. No. As I said, he is the professor of practice
 3 which isn't like Professor Bartov on the tenure track and
 4 contributing to the research and development of accounting.
 5 He is professor of practice that doesn't even have any
 6 experience in the practice of accounting.
 7 MR. WALLACE: As opposed to experience in Israel
 8 40 years ago. Some of the things that I'm hearing here also
 9 could have been said about Professor Bartov. He is not a
 10 practitioner. In fact, I think you heard from Professor
 11 Bartov that there is no materiality test in the literature,
 12 that that is not required and Professor Bartov came up with
 13 his own based on how he reacted to Professor Lewis's
 14 materiality test.
 15 This idea that there's some standard that Professor
 16 Lewis hasn't passed is laughable. He's been qualified as an
 17 expert in this court.
 18 THE COURT: As a what? In what case by what judge?
 19 MR. WALLACE: It was by Judge Debra James. It was,
 20 I believe, in accounting and valuation. He's been qualified
 21 as an expert in accounting valuation in multiple cases which
 22 is one of the things we were planning to walk him through as
 23 we move to qualify him. If Mr. Kise is not particularly
 24 impressed with professors of practice or a professor who
 25 doesn't have tenure, that's fine. He's now established that

Proceedings Page 6634

1 and they can explore that further on cross-examination. He
 2 is eminently familiar with the accounting standards. He is
 3 eminently qualified to an expert.
 4 You know, the slight of hand in their papers are a
 5 little silly. They can claim his Ph.D. is in engineering,
 6 engineering systems. He has a concentration in accounting.
 7 His doctorate dissertation was in an examination of the use
 8 of accounting based risk measures for the valuation of
 9 closely held businesses. The idea that he's not qualified
 10 to be an expert is laughable.
 11 MR. KISE: So, Your Honor --
 12 THE COURT: Quickly.
 13 MR. KISE: -- there is a materiality test. What
 14 Professor Bartov just testified to today is there are
 15 materiality tests in the literature.
 16 THE COURT: Let's not talk about Bartov.
 17 MR. KISE: Because it's relevant to what he said.
 18 THE COURT: Maybe, I am ignoring that part of what
 19 he said. I just want to hear about Lewis. What's his
 20 official title?
 21 MR. KISE: Professor Lewis, the difference is
 22 Professor Lewis made up his own test. That's different than
 23 taking a test -- taking a -- choices from the available
 24 representations and it is slight of hand to say that his
 25 degree -- I got my accounting degree from business school.

Proceedings Page 6635

1 That's where you get accounting degrees from. I don't have
 2 engineering degree. I have an accounting degree. This man
 3 has a Ph.D. in engineering systems and he claims that it's
 4 somehow or another related to accounting as if the Cornell
 5 business school wants to pass him off as that as a professor
 6 of practice with no experience in the practice, that's fine.
 7 But for purposes of qualifying him as an expert on the
 8 issues in this case, in this case, I don't know about any
 9 other cases, but the issues in this case, he doesn't
 10 qualify.
 11 THE COURT: Can we bring him in and question him
 12 for five minutes or so?
 13 MR. WALLACE: Why not, Your Honor.
 14 MR. KISE: Then I would have an opportunity to voir
 15 dire him then.
 16 THE COURT: Of course.
 17 MR. KISE: Thank you.
 18 COURT OFFICER:
 19 E R I C L E W I S, a witness called by and on behalf of
 20 the Plaintiff, upon being duly sworn, was examined and testified
 21 as follows:
 22 THE WITNESS: I do.
 23 COURT OFFICER: Please have a seat. Please state
 24 your name either home or business address for the record.
 25 THE WITNESS: My name is Eric Lewis. I reside at 9

Lewis - Plaintiff - Direct/Mr. Wallace Page 6637

1 THE COURT: Mr. Wallace, go ahead.
2 DIRECT EXAMINATION
3 BY MR. WALLACE:
4 Q. Good afternoon, Professor Lewis.
5 Could you please tell us your current academic
6 position?
7 A. Currently, I serve as a Professor of Practice and
8 as Director of the Master's Program in Accounting and the
9 Master's Program in Management at the Johnson College of
10 Business at Cornell University.
11 Q. What are your responsibilities in those positions?
12 A. So as a Professor of Practice, I teach several
13 classes. I teach a class in Advanced Financial Accounting.
14 I teach a class that is a core undergraduate class in
15 managerial accounting. I teach the sequel to that course,
16 cost accounting. I teach, on a rotational basis, our
17 auditing and assurance course. I teach another course that
18 I develop -- I developed several of those courses. I teach
19 a course in accounting systems and analytics that I
20 developed.
21 As the director of the Master's programs, one of
22 them -- I was on the creation committee. So I wrote most of
23 the curriculum.
24 I got that program through the New York State
25 Education Department Process for Certification. I meet

Lewis - Plaintiff - Direct/Mr. Wallace Page 6638

1 regularly with the department chairs to appoint the faculty
2 who will teach in the program, oversee changes to the
3 curriculum, sit on the admission's committee, adjudicate
4 anything that needs to be handled between students and
5 faculty or students with each other. And I manage the
6 budgeting for both of the Master's programs.
7 Q. Do you teach any courses that cover personal
8 financial statements as a topic?
9 A. In the advanced accounting course, I teach a
10 module on partnerships. And as part of that module on
11 partnerships, when we discuss the dissolution of
12 partnerships -- when partnerships breakup -- often personal
13 financial statements are the basis for determining the
14 resources of individual partners.
15 So there is a mini-piece of that -- a portion of
16 that -- module on ASC 274 personal financial statements
17 where we look at examples. We look at how they are produced
18 and how they are supported.
19 Q. Do you teach any courses that cover compilation
20 engagements by an accountant as a topic?
21 A. So on a rotational basis, I teach the auditing
22 course. The auditing course discusses all of the levels of
23 service that accountants can provide from zero assurance
24 services to positive assurance services.
25 Q. Let's talk a little bit about your background

Lewis - Plaintiff - Direct/Mr. Wallace Page 6639

1 before you began teaching.
2 Do you hold any advance degrees?
3 A. I do. I have an MBA in accounting from Union
4 College. And I also hold a Ph.D. The specific title is
5 Administrative and Engineering Systems with a Concentration
6 in Accounting.
7 Q. What does it mean that you had a concentration in
8 accounting?
9 A. The broad degree -- this was at Union College --
10 the administrative and engineering systems was a single
11 doctorate that the college offered. And, within that
12 doctorate, there were concentration areas.
13 So the concentration areas were really what each
14 Ph.D student would study and would do their dissertation
15 work on and would learn to teach and all the elements that a
16 doctoral student would do. My area was accounting.
17 Q. What was the subject of your dissertation?
18 A. My dissertation was using mathematics from the
19 capital asset pricing models to establish values for closely
20 held businesses.
21 Q. Do you hold any other degrees?
22 A. I have an undergraduate degree in finance.
23 Q. Where is that degree from?
24 A. From Siena College.
25 Q. Prior to starting your current academic position,

Lewis - Plaintiff - Direct/Mr. Wallace Page 6640

1 at Cornell, have you held any other academic appointments?
2 A. I have held several academic appointments since
3 1992. I began my academic career at a wonderful liberal
4 arts college up in Saratoga, Springs called Skidmore
5 College. That was the first place where I earned tenure.
6 I went from Skidmore College to Ithaca College;
7 where, again, I earned tenure for a second time. Left
8 Ithaca College for Union Graduate College -- which was the
9 new name for one of my alma maters -- and became the Dean of
10 the School of Business at Union Graduate College. Once
11 again tenured and a full professor at that school.
12 I subsequently went back to another of my alma
13 maters, Siena College, where I was for five years until
14 Cornell contacted me.
15 I had done some visiting appointments at Cornell.
16 I was a visiting associate professor from 2007 to 2010. And
17 they alerted me that they had a full-time position. And, I
18 applied for it. And, that's the position I've currently
19 held. I'm in my eighth year of that position at Cornell
20 University.
21 While I was a doctoral student, I also accepted
22 and taught a full-time appointment at a State University of
23 New York at New Paltz.
24 Q. Is your current position, at Cornell, tenure
25 eligible?

Lewis - Plaintiff - Direct/Mr. Wallace Page 6641

1 A. It is not.
2 Q. So why would you give up a tenure position for a
3 non-tenure position.
4 A. So as you hear from my history, I have given up
5 tenure positions multiple times. So I don't really ascribe
6 the value to tenure that maybe some of my colleagues do. I
7 like new ventures and new opportunities. And so, I have
8 never really let tenure be the reason that I don't pursue
9 something new.
10 Q. And so, why did you decide to pursue the current
11 position at Cornell?
12 A. So the current position is really interesting.
13 There was an opportunity, at Cornell, to create new
14 programs. Of course, the students are very bright. And,
15 you know, they challenge me everyday. So, it's just a
16 wonderful thing to teach there. And I have tremendous
17 colleagues.
18 And, of course, Cornell is a well-known
19 university. It has a lot of resources so that I am very
20 well treated at Cornell. And I am given free reign to
21 create curriculum in ways that I wasn't at other places.
22 I have created more classes in the graduate
23 program and the undergraduate program at Cornell than
24 probably at all of the other places combined.
25 Q. Just going back to -- I won't make you go back

Lewis - Plaintiff - Direct/Mr. Wallace Page 6642

1 through the entire history of your academic appointment.
2 What were, generally, the subjects you taught
3 throughout those positions?
4 A. Consistently, I have taught advanced financial
5 accounting. That's the class that has the module on
6 partnerships where we discuss Statements of Financial
7 Condition, personal financial statements in general.
8 Q. So, you've taught advanced financial accounting
9 throughout your academic career?
10 A. Yes, right; about 30 years now.
11 Q. Do you also conduct academic research?
12 A. I do.
13 Q. What are some of the areas that you focus on?
14 A. So early in my career I was doing research that
15 was, pretty closely, related to my doctoral dissertation.
16 It was business valuation type research, valuing assets that
17 are a little bit difficult to value because they don't have
18 a ready market.
19 So the first thing that I published post doctoral
20 dissertation was a paper called "Valuing Intellectual
21 Assets." That was published in the Journal of Legal
22 Economics.
23 I've also published papers on valuing companies
24 that are in cyclical industries, valuing businesses that are
25 sitting on large holding gains, preparing businesses for

Lewis - Plaintiff - Direct/Mr. Wallace Page 6643

1 evaluation if we're getting ready to sell a business.
2 In the later years now -- in my current position,
3 it doesn't require me to do research. But I have started to
4 do advocacy type research.
5 The last few things that I have done have related
6 to representing low income taxpayers in front of the IRS or
7 in tax Court. I just published a chapter for the American
8 Bar Association on that.
9 Q. And were any of your publications in peer reviewed
10 journals?
11 A. Yes. So, that journal of Legal Economics that I
12 mentioned is a peer review journal, with a fairly low
13 acceptance rate, which is one of the measures by which in
14 academia we say, "Well, that's a good publication."
15 Two of the other valuation papers that I mentioned
16 were published in the Journal of Business Valuation and
17 Economic Loss Analysis.
18 And that's a journal where, after I published the
19 second paper in that journal, in 2009, I was invited to join
20 the editorial board. And I still do serve on that editorial
21 board.
22 Q. And, is the Journal of Business Valuation and
23 Economic Loss Analysis peer reviewed?
24 A. It is also peer reviewed.
25 Q. What are your responsibilities on the editorial

Lewis - Plaintiff - Direct/Mr. Wallace Page 6644

1 board of that journal?
2 A. So as a member of the editorial board, I fairly,
3 regularly, receive papers that are candidates for
4 publication in the journal.
5 And, I am asked to review them for quality, make
6 comments, propose edits and then recommend them to the
7 editor for rejection, review and resubmittal or ultimate
8 acceptance.
9 Q. In addition to your work on the editorial board,
10 for the journal, have you held any other professional
11 affiliations?
12 A. So, I keep a loose affiliation with the
13 association of certified fraud examiners. I'm not a
14 certified fraud examiner. But, I use some of
15 publications -- Fraud Magazine being a big one -- so I stay
16 associated with them.
17 I have been an officer, held leadership positions,
18 in the American Accounting Association which is the academic
19 association for accountants -- mostly who teach at colleges
20 and universities. But, also a few professional accountants.
21 I have been the president of the northeast region
22 of the American Accounting Association which is the region,
23 roughly, from Maine to Rhode Island. And, around a
24 thousand, a little bit over a thousand, accountants are part
25 of that.

Lewis - Plaintiff - Direct/Mr. Wallace Page 6645

1 I have also been on the northeast Region Steering
 2 Committee and have been paper chair. So every year the
 3 region holds a conference -- the conference rotates from
 4 Boston to Hartford to Providence -- and somebody has to
 5 organize all of the academic papers that are going to be
 6 presented, decide who gets to present and who can't present.
 7 It's kind of like a journal review sort of process. I
 8 managed that process before I became region president.
 9 Q. Any other associations that you are involved with?
 10 A. The Institute of Management Accountants. I do
 11 teach managerial accounting and cost accounting. So I'm a
 12 member of the Institute of Management Accountants as well.
 13 Q. You're not a CPA; is that correct?
 14 A. I am not.
 15 Q. Do you have any affiliation with CPA industry
 16 organizations?
 17 A. I do not.
 18 Q. You do?
 19 A. I do not.
 20 Q. Okay. Do you, currently, hold any positions that
 21 involve real world financial reporting?
 22 A. I do. So, I am the current chair of the board of
 23 the Albany Academies.
 24 Q. And what are the Albany Academies?
 25 A. The Albany Academies are a boy school and a girl

Lewis - Plaintiff - Direct/Mr. Wallace Page 6646

1 school that are a private school in Albany New York, about
 2 210 years old.
 3 And, I have served on the Board of Trustees for 14
 4 years. I believe this is my 14th year on the Board of
 5 Trustees.
 6 And I have held positions of audit committee
 7 chair, finance committee chair and also on the finance
 8 committee, I have been on the subcommittee that managing the
 9 endowment for the school.
 10 Q. And what is the budget of the Albany Academies?
 11 A. It's about \$18 million a year.
 12 Q. And, so what was your role again in the budget --
 13 A. So, I was first the chair of the finance and audit
 14 committee simultaneously. Then some New York State
 15 regulations changed and one couldn't be chair of both. So I
 16 chose chair of the finance committee.
 17 With the finance committee, I was overseeing the
 18 budget, working with the accountants who prepare the tax
 19 returns for institution, signing those returns -- because,
 20 the finance chair was also the treasurer of the institution.
 21 As the audit committee chair, I would work with
 22 the auditors to understand the scope of their work, how
 23 their work was going, whether they were having any
 24 difficulties with the leadership team, getting the
 25 information that they needed.

Lewis - Plaintiff - Direct/Mr. Wallace Page 6647

1 So if they needed something from our CFO, I wanted
 2 to know that they were getting every bit of information that
 3 they needed.
 4 So I worked, in that sense, in that role with
 5 those issues.
 6 Q. Mr. Lewis, are you being compensated for your work
 7 on this case?
 8 A. I am.
 9 Q. At what rate are you being compensated?
 10 A. \$750 per hour.
 11 Q. Approximately, how many hours have you spent on
 12 this matter sense you were retained?
 13 A. Approximately, 200.
 14 Q. Have you, previously, appeared as an expert
 15 witness at trial?
 16 A. Yes, I have.
 17 Q. On about how many occasions?
 18 A. I believe this is the fourth occasion.
 19 Q. Fourth occasion?
 20 A. Yes.
 21 Q. What were the subjects of your prior expert
 22 engagements?
 23 A. They were business valuation and financial
 24 accounting.
 25 Q. Were you qualified, as an expert, in those case?

Proceedings Page 6648

1 A. I was.
 2 Q. Were any of those cases in New York State Supreme
 3 Court?
 4 A. They were.
 5 Q. New York County?
 6 A. Yes.
 7 Q. Do you remember the Judge who was presiding in
 8 that case.
 9 A. I believe it was Judge James.
 10 Q. And were you qualified as an expert in that case?
 11 A. Yes, I was.
 12 Q. Has a Court ever declined to qualify you as an
 13 expert?
 14 A. No.
 15 MR. WALLACE: Your Honor, we move to qualify
 16 Professor Lewis as an expert in the field of
 17 accounting?
 18 THE COURT: Accounting generally?
 19 MR. WALLACE: It's the same qualification we
 20 had for Mr. Flemmons. So, the field of accounting.
 21 THE COURT: As we had from Mr. --
 22 MR. WALLACE: Flemmons?
 23 THE COURT: Okay.
 24 Mr. Kise, go ahead.
 25 MR. KISE: So, generally, just accounting?

Proceedings Page 6649

1 That's the qualification. It's just generally
2 qualified in accounting. That's a very broad field.
3 To quote from Mr. Amer, that's pretty vague.
4 Exactly, what, in accounting, is he here to
5 testify about as an expert? He's just an expert in
6 accounting generally?
7 MR. WALLACE: Yes. I'll just quote from the
8 trial transcript at page 4252 Line 14.
9 "MR. SUAREZ: Your Honor, we tender
10 Mr. Flemmons as an expert witness in the field of
11 accounting.
12 THE COURT: Granted. I hereby deem you an
13 expert in the field of accounting. You are three for
14 three.
15 MR. KISE: Right. But, Mr. Flemmons had
16 vast experience as a practicing accountant in the SEC
17 in reviewing financial statements. I mean, you can't
18 even compare the two. It is not even close.
19 So, yes, to qualify Mr. Flemmons -- and, it
20 was up to the government to make an objection if they
21 didn't feel that he was qualified. The question --
22 that's, certainly, one thing.
23 But, to qualify this witness under that broad
24 categorization, it's not even a close call, your Honor,
25 in terms of the qualifications.

Proceedings Page 6651

1 MR. WALLACE: This is the time to voir dire.
2 We're going to be qualifying him as an expert.
3 The objection to the field of accounting was
4 that it is vague. This is a professor at Cornell who
5 teaches accounting, who teaches financial accounting.
6 Unlike some of the other witnesses that have
7 come in, teaches issues of personal financial
8 statements, teaches compilations.
9 I think these are the issues that are going
10 to be discussed and are relevant to this case. I don't
11 see an issue with either the category of the
12 qualification or his actual qualifications.
13 THE COURT: I believe that accounting is not
14 that vague a field. Maybe math or something would be
15 or numbers. I hereby deem him an expert in accounting.
16 MR. KISE: No opportunity to voir dire the
17 expert?
18 MR. WALLACE: You didn't ask for an
19 opportunity.
20 MR. KISE: I just did ask.
21 THE COURT: I'm sorry.
22 MR. KISE: I asked for it twice, your Honor.
23 THE COURT: Go ahead.
24 MR. KISE: Do you want me to start now or
25 start in the morning? It's going to take more than a

Proceedings Page 6650

1 If we have to go line by line, then we'll do
2 that, looks like, tomorrow morning. But, what,
3 exactly, is this witness being --
4 First of all, he's a rebuttal witness; number
5 one. And they have represented that his testimony is
6 going to be very, narrow. They have told the Court
7 that.
8 So, what, precisely, is his expertise that
9 we're going to hear about? Because, so far I haven't
10 heard anything this he's particularly expert. I've
11 just heard, generally, about accounting from an
12 engineering school.
13 So, what is it that, precisely -- he doesn't
14 have the broad qualifications, he's not part of the
15 research track, he's not part -- he doesn't contribute
16 to the ongoing development of the profession.
17 And so far, what we've heard about is a \$18
18 million budget at the board of a kids' school. And
19 he's an expert in accounting? We're just going to --
20 that's the standard? The bar is fairly low if that's
21 where we're headed.
22 I would like them to, at least, define the
23 scope of this expert's purported expertise so that when
24 it comes time to voir dire we can focus on that.
25 Because, he certainly doesn't seem to have much.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6652

1 few minutes.
2 THE COURT: Whatever it takes. If we have
3 to run until tomorrow, we will. But, start now.
4 I will just suggest the following, Mr. Kise.
5 If you are going to -- maybe, the right word is --
6 challenge or attack what he's saying, fine. If you are
7 going to go into all sorts of areas that he might not
8 know about accounting, I'm still going to -- that
9 wouldn't change the decision. But, do what you --
10 MR. KISE: I am not sure anything would
11 change any decision in this courtroom respectfully.
12 But, nonetheless, I will make the record.
13 VOIR DIRE
14 BY MR. KISE:
15 Q. Good afternoon, Mr. Lewis.
16 A. Good afternoon.
17 Q. You're not a CPA, correct?
18 A. I'm not.
19 Q. You never sat for the CPA exam, right?
20 A. Not taken the CPA.
21 Q. Your undergraduate degree is not in accounting,
22 correct?
23 A. Correct.
24 Q. Your Ph.D is in engineering, correct?
25 A. It's in accounting.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6653

1 Q. It's in engineering that's your degree.
2 THE COURT: Slow down.
3 Q. It's in engineering?
4 A. In my opinion, it is in accounting.
5 Q. I didn't ask what your opinion is. I asked what
6 the piece of paper says. The piece of paper says,
7 "engineering."
8 A. It says, "Concentration: Accounting." It says,
9 "Administrative and Engineering Systems."
10 Q. You have no experience preparing, reviewing or
11 using compilation statements in practice, correct?
12 A. Very brief time in public accounting in the early
13 1990s.
14 Q. So, thirty years ago I believe you testified that
15 you were a member of the audit staff not as a CPA, you were
16 like a clerk?
17 A. I wasn't a clerk. I was a staff auditor.
18 Q. You weren't a CPA?
19 A. No.
20 Q. That's the sole extent of your experience with
21 practical accounting?
22 A. Well, we discussed what I currently do. And my --
23 Q. You're a teacher. I am talking about your
24 profession as a practicing accountant?
25 A. As practicing accountant, yes.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6654

1 Q. You are a professor at practice, with no
2 experience in the practice of accounting?
3 A. Some experience.
4 Q. The limited experience you described thirty years
5 ago?
6 A. Yes.
7 Q. You mentioned some peer reviewed publications.
8 Describe for me -- what year was the Journal of Legal
9 Economics publication?
10 A. 2002, I believe.
11 Q. 2002. What year was the Journal of Business
12 Valuation article?
13 A. I believe -- there were two. So, I'm trying to do
14 my CV from memory. But, I would say 2007 and 2009 or ten.
15 Somewhere in there.
16 Q. So, in the last ten years, it's fair to say you
17 haven't published anything, in a peer review journal or
18 otherwise, that relates to personal financial statement or
19 compilations, correct?
20 A. Personal financial statements and compilations?
21 Yes, correct.
22 Q. Your last two publications -- I believe you made
23 reference to this, maybe it is the last three, I have two,
24 one from 2021 -- that relates to understanding taxpayer
25 identification numbers; is that correct?

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6655

1 A. Uh-huh.
2 Q. And the summer of 2021; is that correct; sound
3 about right?
4 A. Yeah, there are two in there; one of them is
5 effectively representing low income taxpayers and the other
6 is understanding alternate tax ID numbers.
7 Q. Representing low income taxpayers has nothing to
8 do with the issues in this case, correct?
9 A. That's correct.
10 Q. Tell me, again, what, exactly, is a Professor of
11 Practice? Explain that to me.
12 A. So Cornell has three different tracks for faculty;
13 they have research track faculty, who have a lower teaching
14 load and a very high requirement for producing academic
15 research.
16 They have the track that I am on, which is the
17 Professor of Practice track. And that has a higher teaching
18 load. It does not carry a research requirement but, it
19 carries a requirement to stay current with professional
20 standards, with current practice.
21 Because it's the job of those of us who are in the
22 Professor of Practice role to prepare our students, our
23 graduates, to go out and do CPA work, to work in private and
24 public practice.
25 The third track that Cornell has is what is

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6656

1 referred to as the lecturer track. Each of those has ranks.
2 I hold the rank of professor which is the highest of those
3 in the Professor of Practice track.
4 Q. Do I have it correct that your role as a Professor
5 of Practice is not to prepare students to go out into the
6 world and become CPAs?
7 A. That's what it.
8 Q. Even though you have no experience at all
9 practicing accounting?
10 A. We've discussed some experience.
11 Q. The time isn't on the staffer.
12 So how does your experience --
13 Are you familiar with Professor Godwin
14 G-O-D-W-I-N?
15 A. Yes.
16 Q. He holds a Ph.D in accounting, a Master's and
17 Bachelor's Degree in accounting and he worked, extensively,
18 for a national public accounting firm.
19 He is a Professor of Practice, right?
20 A. Yes.
21 Q. Would you consider yourself more or less qualified
22 to teach students, to prepare students, to go out into the
23 world and become CPAs then Professor Godwin?
24 MR. WALLACE: Objection, relevance.
25 MR. KISE: It is his qualification.

Proceedings Page 6657

1 THE COURT: Sustained. It is not a question
2 of whether he's more or less qualified than someone
3 else. It is a question of whether he is qualified.
4 MR. KISE: Your Honor, we're trying to
5 establish a benchmark and explain for the record and
6 for the Court, hopefully, the differences.
7 The government has proffered this individual
8 as an expert. He's just told you that despite the fact
9 that he only has what appear to be days --
10 I, probably, have more experience in the
11 practice of accounting than this witness. I suppose I
12 should qualify myself as an expert.
13 But this witness has limited experience.
14 He's described it for you. And I'm trying to establish
15 some foundation, some benchmark as to what Cornell
16 believes prepares students to go out into the world to
17 practice CPA.
18 So if his got qualifications -- if his
19 qualifications are sufficient, he can recite them. If
20 they're not they are not. I'm just trying to come up
21 with some benchmark.
22 MR. WALLACE: Mr. Kise could ask
23 factual-based questions without being rude. And he
24 also -- I don't know why he's asking him to compare to
25 other faculty members on different staffs.

Proceedings Page 6658

1 This isn't necessary for qualification. I
2 don't see how any of this is relevant to whether this
3 witness has information, has knowledge and experience
4 that is useful to the Court.
5 THE COURT: I'm only ruling on the
6 objection. The question was, basically, how does his
7 experience compare to another professor -- Godwin or
8 something -- at Cornell.
9 I am sustaining the objection. The question
10 isn't whether he is more or less qualified than someone
11 else. The question is whether he is qualified.
12 Q. Are you equally qualified, as Professor Godwin, to
13 prepare students to go out into the world and practice
14 accounting?
15 MR. WALLACE: Objection. We're not offering
16 him as an expert to go -- objection. Sorry.
17 MR. KISE: The government is offering him.
18 And they have touted the fact that this individual is a
19 Professor of Practice. And they are parading that all
20 around the courtroom that he's a Professor of Practice.
21 I'm trying to get to the point that he really
22 doesn't have to the qualifications even as a Professor
23 of Practice within his own school. He's not there.
24 We need to have some comparison here to
25 demonstrate that this individual doesn't possess the

Proceedings Page 6659

1 requisite skills, knowledge and training.
2 He may be a fine administer. It sounds like,
3 from his testimony, that's, exactly, what he is, is he
4 administrators the program and does a great job. And
5 he teaches some courses that we'll get to.
6 But, we need to have some benchmark to
7 understand whether or not he's qualified to even have
8 that title as Professor of Practice so the Court
9 understands what his qualifications, actually, are.
10 THE COURT: Perhaps Professor Godwin has 40
11 years of accounting experience. That's not relevant.
12 Objection, sustained. Let's move on.
13 And please, stop making speeches every time
14 we have to discuss something.
15 MR. KISE: Your Honor, I am not making
16 speeches. I'm trying to point out, for the record, the
17 point we're trying to make. The government has paraded
18 this individual in here as an expert and --
19 THE COURT: This is a speech.
20 MR. KISE: We, obviously, disagree.
21 THE COURT: Proving my point.
22 MR. KISE: We, obviously, disagree.
23 Q. How, if at all, does your experience differ from
24 Professor Libby at the --
25 MR. WALLACE: Objection.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6660

1 MR. KISE: I'm trying to understand how his
2 experience differs. I didn't ask him to compare
3 himself.
4 Q. I'm trying to understand how your experience
5 differs, at all, from Professor Libby's.
6 THE COURT: Objection sustained.
7 MR. WALLACE: Mr. Kise is now questioning
8 the witness. He's not sitting at the table giving
9 speeches. This is -- every objection gets answered
10 with an extensive speech. It is inappropriate.
11 MR. KISE: I'm not sure what it has to do
12 with me sitting there or coming over here. You had the
13 same objection over there. I don't know if that
14 changes my physical locus.
15 VOIR DIRE
16 BY MR. KISE:
17 Q. Have you published any books in accounting like
18 this book?
19 A. No.
20 Q. You used this book in your course materials,
21 though, yes?
22 A. Which book do you have?
23 Q. The Libby book on financial accounting.
24 A. I have used it.
25 Q. This is your colleague, Professor Libby, correct?

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6661

1 A. Yes.
2 Q. You've used that book?
3 A. I have.
4 Q. What are you teaching right now? I understand
5 that you are planning to teach an on-line course in
6 managerial accounting in Winter 2024; is that correct?
7 A. I do that every winter term.
8 Q. Describe, for the Court, how, if at all, that
9 relates to the issues in this litigation; managerial
10 accounting.
11 A. That course, specifically, doesn't. The courses I
12 just concluded, in the Fall term, certainly do.
13 Q. Okay. Is that the course you mentioned, the
14 module, that has a module or partnerships?
15 A. Advanced financial accounting.
16 Q. I believe your testimony was there was a
17 mini-pieces on ASC 274, correct?
18 A. It has a section on it.
19 THE COURT: Slow down.
20 MR. KISE: I'm trying to get us out of here.
21 THE COURT: Well, the reporter has to take
22 it down whether you want to get out of here or not.
23 Q. I believe your testimony was that it has a
24 mini-piece of ASC 274, correct?
25 A. Correct.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6662

1 Q. In the fall term, I looked at several of your
2 course offerings. And what I have come up with are cost
3 accounting and management control, in the Fall 2021, systems
4 in analytics and accounting in the Spring of 2021, cost
5 accounting and management control in the Fall term of 2020,
6 managerial accounting in the Spring term of 2020, managerial
7 reporting in the Fall term of 2019, managerial accounting in
8 the spring of 2019.
9 I mean, I'm just going back through your course
10 offerings. It seems that that's more of your focus. Is
11 that fair to say; the cost accounting and management
12 controls are more --
13 A. You have missed a few in there. Those are some of
14 the courses I teach.
15 Q. Which ones did I miss?
16 A. Systems and analytics courses that I teach.
17 Q. Sorry. Systems and analytics accounting?
18 A. Yes.
19 Q. How, if at all, does that relate to -- it says
20 here that the topics include big data, data visualization,
21 optimization tools, block chain and AI.
22 Maybe it's me, I am confused. How does that
23 relate to the issue in this litigation.
24 A. Those are all applied in an accounting context to
25 prepare students, who are going out into practice, for the

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6663

1 things that they will encounter in an accounting context
2 with regard to those technologies and topics.
3 Q. I mean, that's all lovely. But, what does it have
4 to do with the issues in this case, from your understanding,
5 about personal financial statements, compilation reports?
6 A. The advance financial accounting course would have
7 more of that. Within the systems course, we discuss the
8 types of analytics that are performed in different levels of
9 service because, it is an accounting course. So that's
10 built into the discussions.
11 Q. So maybe -- would you call it, sort of, a drive by
12 associated with the issues; a tangential relationship to the
13 issues in this case?
14 A. Yes, it's one of the things we discussed.
15 Q. That course we keep coming back to, that's the one
16 with the module on partnerships, correct?
17 A. Correct.
18 Q. The mini-piece. All right.
19 So, let me ask you, I didn't quite catch it.
20 At the Albany Academy, where you're on the Board
21 of this school, did you say an \$18 million budget or \$18
22 billion budget?
23 A. No, I wish; 18 million.
24 Q. 18 million. Okay. How, if at all, does that
25 experience compare with the multibillion dollar -- analyzing

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6664

1 the financial statements of a multibillion dollar
2 international real estate empire?
3 MR. WALLACE: Objection. Does this go to
4 qualification?
5 MR. KISE: Yes. How does it qualify him to
6 render opinions in that industry?
7 MR. WALLACE: My objections are to the
8 Court. I'm not asking Mr. Kise to answer a question.
9 THE COURT: Sorry. I lost the train of
10 thought.
11 MR. WALLACE: Mr. Kise is responding to me.
12 I am saying my objections are to the Court. We're
13 supposed to address the Court.
14 MR. KISE: I did address the Court. I'm
15 just standing here next to you, so you feel more close
16 to me. Maybe I should sit over there.
17 Do we need a read back?
18 THE COURT: Is there --
19 MR. KISE: I think there was a question.
20 THE COURT: Was there an objection to
21 question?
22 MR. WALLACE: How is it going to
23 qualifications at this point?
24 THE COURT: What was the question?
25 MR. KISE: Right. We'll need a read back.

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6665

1 THE COURT: Read back, please.
 2 MR. KISE: I can rephrase it so we can move.
 3 Q. How, if at all, sir, does your experience, on the
 4 Board of the private school of Albany Academy, render you
 5 qualified to opine about matters relative to the personal
 6 financial statements and compilations associated with a
 7 multibillion dollar international real estate corporation?
 8 A. So I deal with the same accounting issues. Many
 9 accounting issues, like, say audits are audits; whether they
 10 are the audits of a very small entity or the audits of a
 11 more extensive one. A lot of it is scaling. And
 12 understanding those issues is important.
 13 The audit is that top level of service that an
 14 accounting firm offers, in terms of assurance, in
 15 compilations are at the bottom.
 16 Q. You don't perform any audits?
 17 A. I do not.
 18 Q. You haven't since 30 years ago when you were an
 19 audit staff, correct?
 20 A. That's correct.
 21 Q. I'm not sure you answered my question.
 22 How does your service -- strike that.
 23 Is it your position that anyone with any
 24 background in accounting is qualified to render opinions in
 25 a case like this; involving a multinational, multibillion

Lewis - Plaintiff - Voir Dire/Mr.Kise Page 6666

1 dollar real estate empire?
 2 As long as you have some walking around
 3 understanding of accounting, that's sufficient for you to be
 4 an expert in your opinion?
 5 MR. WALLACE: Objection. We're not asking
 6 this witness to opine on his own qualification.
 7 MR. KISE: Yes.
 8 THE COURT: Objection sustained. It's a
 9 silly question.
 10 MR. KISE: It is not a silly question. Does
 11 he believe himself qualified? I am trying to explore
 12 the limits of his qualification in his own mind.
 13 If this witness just testified that his
 14 service on the board of a private school with
 15 \$18 million budget --
 16 THE COURT: You are completely
 17 misinterpreting, mischaracterizes.
 18 (Whereupon, the following proceedings were
 19 stenographically recorded Shameeka Harris.)
 20
 21
 22
 23
 24
 25

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6667

1 CROSS-EXAMINATION
 2 BY MR. KISE:
 3 THE COURT: You're completely misinterpreting,
 4 mischaracterizing. He had a very, very varied career.
 5 Witness, would you agree? You have done a lot of
 6 different things?
 7 THE WITNESS: I agree.
 8 THE COURT: Mr. Kise, please don't ask him as to
 9 each thing he did. How does that help you? I'm no assuming
 10 that everything he did qualifies him as an expert. He
 11 answered your question. The -- but I'm not allowing -- is
 12 it your position that anybody that knows anything about
 13 accounting can be deemed an expert. That's a question for a
 14 judge. Not for a witness.
 15 MR. KISE: Okay, Your Honor. What I am trying to
 16 get to is not whether every piece of his background
 17 qualifies him as an expert. I'm trying to find out whether
 18 any piece. See, we're on the same page for once, last day
 19 of trial, maybe. We are on the same page. Any aspect of
 20 his background. So far, the only thing I've heard --
 21 THE COURT: I don't need a speech.
 22 MR. KISE: Any piece.
 23 THE COURT: Let me suggest this. Finish the voir
 24 dire. Ask him questions, then you can make a speech.
 25 MR. KISE: Okay.

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6668

1 Q So the master of professional studies program you
 2 mentioned that. That's a ten-month program, correct?
 3 A It is a one year program, yeah.
 4 Q Ten months? With four modules in ten months?
 5 A Yes.
 6 Q It's for nonbusiness majors?
 7 A No, it is -- the master of professional studies in
 8 management, yes. It's for students who majored in something
 9 other than business and then want a graduate business degree.
 10 Q And is that program designed for a focus on accounting?
 11 A No.
 12 Q Okay.
 13 MR. KISE: Just give me one minute, Your Honor.
 14 I'm making sure I covered all of these.
 15 THE COURT: Sure.
 16 MR. KISE: Nothing further, Your Honor. Thank you.
 17 We can give the speeches tomorrow morning, perhaps, or do
 18 you want them tonight?
 19 MR. WALLACE: Your Honor, we renew our request to
 20 qualify Professor Lewis as an expert in the field of
 21 accounting.
 22 THE COURT: I don't see the need for a speech,
 23 Mr. Kise. Do you want two minutes or something, go ahead.
 24 MR. KISE: I will do less than two minutes, Your
 25 Honor. Again, the witness placed on his own testimony the

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6669

1 only thing he identified that he is even remotely relevant
 2 in his experience to testify as an expert in this case, I
 3 mean, I am sure that he does a wonderful job for Cornell in
 4 the areas that he teaches and practices in. That's not the
 5 question. The question is whether he's qualified to render
 6 opinions in a case of this nature with these issues. And
 7 the on thing in his background, the only thing he has
 8 mentioned is one module in a course that he teaches on a
 9 rotational basis which, in his own words, contain, quote, a
 10 mini piece on ASC 274. The rest of his experience is broad
 11 but irrelevant in the accounting sense, and it is no
 12 different than a general surgeon coming in to provide the
 13 Court testimony upon plastic surgery. They cut me off that
 14 might be a reason.

15 So, Your Honor, his qualifications, while they may,
 16 again, render him qualified in a different accounting
 17 context, in this case, they've -- the Government has
 18 identified absolutely nothing. In the last ten years, he
 19 has no publications. His service on the board of a private
 20 school, while admirable, is irrelevant and immaterial to his
 21 qualifications here.

22 The journals that he's mentioned that are peer
 23 review journals, although we can locate no citations to his
 24 publication, are from more than a decade ago. Anything that
 25 he's published recently, peer review or otherwise, relates

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6670

1 to taxpayer identification numbers involving representations
 2 of low income taxpayers. Again, while that's admirable, it
 3 is completely irrelevant and immaterial to the issues in
 4 case and it does not render him even remotely qualified.

5 It is as if saying, as I mentioned before, because
 6 I have an accounting degree that I obtained 30 years ago,
 7 four years ago now, that I am somehow qualified to render
 8 opinions in this case. It's beyond absurd that the
 9 Government would proffer this witness when right at Cornell
 10 they have Professor Livy (Phonetic) who would be arguably
 11 qualified sitting in the office right next to this
 12 individual.

13 So, the reason clearly that they brought this
 14 witness in here is because there's not anyone in the actual
 15 recognized profession that would come in and sustain the
 16 opinions that they're asking of the witness. So he is not
 17 qualified and his -- it does have nothing to do with, A, the
 18 trier of fact.

19 THE COURT: Mr. Kise, in your case, accountings law
 20 was laws game so you've probably made the right career
 21 choice. Mr. Kise, you're asking him about all of these
 22 courses, managerial accounting. I don't know, whatever else
 23 accounting, everything but something accounting. It sounds
 24 like accounting to me. I hereby deemed him an expert but,
 25 obviously, the defendants can object to particular questions

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6671

1 if it seems that this particular -- the witness's particular
 2 expertise in accounting would not cover that and, obviously,
 3 I'll give whatever weight I want to give to his opinions.
 4 So I think --

5 MR. KISE: Your Honor, just one point for the
 6 record, this is precisely my point, cost accounting is a
 7 completely different field. So you're saying he is teaching
 8 courses in accounting, yes. He may be great at cost
 9 accounting. I took cost accounting. I hated cost
 10 accounting. It has nothing to do with personal financial
 11 statements. It has everything to do with how management,
 12 cost factors. It is accounting but it is no different. At
 13 all events, you deemed him qualified over our objection and
 14 we'll -- we will take it up on question by question basis as
 15 you direct.

16 MR. WALLACE: I am just going to say I really hope
 17 we don't have question by question because we just heard
 18 from days from a professor at NYU who says NYU doesn't teach
 19 ASC 274. The issue is the field of accounting. Your Honor,
 20 I -- given the hour, should we start the substance of this
 21 testimony tomorrow morning.

22 THE COURT: Yes, at 10 o'clock.

23 MR. WALLACE: Thank you, Your Honor.

24 THE COURT: And I'll direct the witness, witness,
 25 witness don't discuss this case or your testimony or

E. Lewis - by Plaintiff - Voir Dire (Mr. Kise) Page 6672

1 anything related to it overnight because you are still a
 2 witness.

3 (Whereupon, the witness was excused from the
 4 stand.)

5 (Whereupon, the trial is adjourned until Wednesday,
 6 December 13, 2023, at 10 o'clock a.m.)

B E F O R E:

HONORABLE ARTHUR F. ENGORON,
 Supreme Court Justice

A P P E A R A N C E S:

OFFICE OF THE ATTORNEY GENERAL
 OF THE STATE OF NEW YORK - LETITIA JAMES
 Attorneys For the Plaintiff
 28 Liberty Street
 New York, New York 10005
 BY: KEVIN WALLACE, ESQ.
 COLLEEN K. FAHERTY, ESQ.
 ANDREW AMER, ESQ.
 ERIC HAREN, ESQ.
 LOUIS SOLOMON, ESQ.
 MARK LADOV, ESQ.
 SHERIEF GABER, ESQ.
 ALEX FINKELSTEIN, ESQ.

(Whereupon, appearances continued on the following page.)

Page 6675

E.Lewis - Plaintiff - Direct/Mr.Wallace

1 COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cellphones are on silent. Laptops and
 4 cellphones will be permitted but, only to members of
 5 the press. There is, absolutely, no recording or
 6 photography, of any kind, allowed in the courtroom.
 7 Now, be seated and come to order.
 8 THE COURT: You know, we have oral arguments
 9 scheduled for January 11th. But in a strange way,
 10 I'm going to miss this trial. It's been an experience.
 11 Quick front bar with all the attorneys.
 12 (Discussion held at the bench, off the
 13 record.)
 14 (The discussion off the record concluded, and
 15 the following occurred in open court:)
 16 THE COURT: Let's get Mr. Lewis back our
 17 current witness.
 18 MR. WALLACE: May I proceed, your Honor?
 19 THE COURT: Please.
 20 DIRECT EXAMINATION
 21 BY MR. WALLACE:
 22 Q. Professor Lewis, I am going to hand you a copy of
 23 a document that's been marked as Plaintiff's Exhibit 1778.
 24 Professor Lewis, do you recognize this document?
 25 A. I do.

CHERYL-LEE LORIENT
 SHAMEEKA HARRIS
 SENIOR COURT REPORTERS

Page 6676

E.Lewis - Plaintiff - Direct/Mr.Wallace

1 Q. What is it?
 2 A. It is my initial expert report.
 3 Q. If I could direct you to turn to page 72 of 92,
 4 this is Appendix A. If you flip behind it, can you describe
 5 for me what is being shown in this appendix?
 6 A. This is a list of documents I relied upon to
 7 produce the report.
 8 Q. What kind of documents did you review in preparing
 9 your report?
 10 A. So, some deposition documents, examinations under
 11 oath, the original pleading, expert reports of other
 12 experts; valuation experts, publication by AICPA, FASB and
 13 then some documents that are either support papers or
 14 support papers with some Mazars markings on them which, I
 15 guess, makes them some work papers.
 16 Q. Those are the items listed under the discovery
 17 documents; is that correct?
 18 A. Yes.
 19 Q. In addition to the materials listed here as being
 20 relied upon in your report, did you review any other
 21 materials in the course of doing your work on this report?
 22 A. On this report, I don't think so. There may have
 23 been a couple of other supporting documents but, because
 24 they are not named here it is hard to know what those are.
 25 Q. You can put that document aside.

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6677</p> <p>1 I'm going to hand you a document that has been 2 marked as Plaintiff's Exhibit 1783. 3 Professor Lewis, do you recognize this document? 4 A. I do, yes. 5 Q. What is this? 6 A. This is my rebuttal report. 7 Q. And what were you rebutting in this report? 8 A. I was rebutting the reports of Eli Bartov -- 9 Professor Bartov, Frederick Chin and Jason Flemmons. 10 Q. If you could flip to page 15 of 21 in this 11 document that's is Appendix A. If you flip over to the next 12 page, can you describe for me what is being shown in this 13 appendix? 14 A. So, this is a listing of some additional documents 15 that I relied upon for the rebuttal report. 16 Q. What sorts of documents did you review in 17 preparing your rebuttal report? 18 A. The expert reports of the three I just mentioned 19 and some additional FASB backups. And then, really, a 20 review of some sections of an AR code written by AICPA. 21 Q. So during the course of expert discovery in this 22 action, did you come to review any other materials relevant 23 to your opinions? 24 A. Post rebuttal reports? 25 Q. Post rebuttal reports but, during the course of</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6679</p> <p>1 A. City trial transcript from testimony. 2 Q. From what witness do you recall you reviewed trial 3 transcripts? 4 A. I recall Mr. Weisselberg, McConney, Birney, 5 Hawthorn, Haigh, of course, Flemmons, Chin, day one of 6 Bartov. Those are the ones that come to mind. 7 Q. You were also in the audience for the second day 8 of Mr. Bartov's testimony? 9 A. Third day. I think I missed day two in there. 10 Q. I would like to focus, primarily, on the testimony 11 of Mr. Flemmons today. 12 Professor Lewis, did you review Mr. Flemmons 13 testimony concerning ASC 274? 14 A. I did. 15 Q. Just to reorient us, very briefly, what is ASC 16 274? 17 A. ASC 274 is the portion of the -- ASC is Accounting 18 Standard Codification. It's the portion of the accounting 19 standards produced by the FASB that governs and determines 20 how personal financial statements are presented. 21 Q. I'm going to hand you a copy of a document that's 22 already in evidence. 23 MR. WALLACE: Just for ease of reference, 24 this is a document that has been marked as Plaintiff's 25 Exhibit 1609.</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6678</p> <p>1 expert discovery. 2 A. I believe -- the depositions were in the original 3 document. 4 Q. They are not listed but, were there depositions 5 that you reviewed? 6 A. Yes. 7 Q. What depositions did you review? 8 A. Donald Binder, Jason Flemmons, Frederick Chin, Eli 9 Bartov. A few others. But, there was -- there were 10 depositions and then there were trial transcripts. So, that 11 was kind of a combination. 12 Q. We'll get to those in a moment. 13 A. Probably Weisselberg. I don't know if that was a 14 deposition or a -- 15 Q. Do you remember reading testimony from 16 Mr. Weisselberg? 17 A. I do. 18 Q. Did you review the summary judgments in this 19 action? 20 A. I did. 21 Q. Have you reviewed materials from the trial record 22 in this action? 23 A. Yes. 24 Q. What materials, from the trial record in this 25 action, did you review?</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6680</p> <p>1 Q. Professor Lewis, do you recognize this document? 2 A. Yes. This appears to be, at least -- I would have 3 to look through it but -- ASC 274. 4 Q. If you want to take a minute, feel free to flip 5 through it. 6 A. Yeah. Yes, this is ASC 274 in written -- in 7 printed form. 8 Q. If I could direct your attention to page 2 of 21 9 in this document, under the heading "Basis of presentation 10 of personal financial statements" -- actually, let me stop 11 there for a moment. 12 What is a basis of presentation? 13 A. It's really quite like it sounds. It determines 14 how -- in this case, elements within the Statement of 15 Financial Condition are going to be presented. It gives a 16 description of the definition that's going to be used. 17 Q. And, where is the basis of presentation for 18 personal financial statements to be found in this document? 19 A. This is -- 20 MR. KISE: Objection, your Honor. We have 21 now gone from just background and context of his 22 generally view to matters which, clearly, could and 23 should have been presented in their direct case. 24 This is going through the standards of ASC 25 274, how they apply, what they are. There's no reason</p>

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6681</p> <p>1 that this should be presented on rebuttal. 2 MR. WALLACE: Yes, there is. 3 MR. KISE: This witness shouldn't be allowed 4 to testify about general items with respect to the 5 standards. If he's rebutting something specific, let 6 him rebut something specific. 7 As you know, we don't think that any of his 8 testimony should be admissible on rebuttal. But, 9 certainly, here we're now getting into sort of -- as 10 the witness just did -- narrative on "What the standard 11 is." And the next question is going to be "How does 12 this work." The questions asked. So none of this is 13 proper rebuttal. And, we would object to it. 14 THE COURT: Overruled without prejudice. I 15 am waiting to see where it goes at this point. 16 MR. WALLACE: Do I need to explain then. 17 Because, there is a broader explanation. We didn't put 18 in any evidence of ASC 274. The defendants did. And 19 this witness is responding to that. 20 MR. KISE: Your Honor, that's exactly the 21 point. They had the obligation to introduce that 22 evidence as part of their case and chief. That's the 23 governing standard. 24 And if they wanted to demonstrate that they 25 had proven therapy case in accordance with the</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6683</p> <p>1 mentioned, they have the right to rebut it. That's 2 what a rebuttal witness is. So, overruled. 3 Mr. Wallace if you want to -- 4 MR. WALLACE: I will just proceed with my 5 exam, your Honor, if that's okay. 6 Q. Mr. Lewis, I believe the question that was 7 pending, prior to the objection was, "and, where is the 8 basis of presentation for personal financial statements to 9 be found in the document?" 10 A. So, you will see it there underlined and 11 highlighted, not by me or you, but by the FASB in 12 274-10-05-2. 13 Q. The underlined highlighted language you are 14 referring to is? 15 A. Estimated current value. 16 Q. Can you read the sentence that includes that 17 highlighting into the record? 18 A. The primary focus of personal financial statements 19 is a person's assets and liabilities. The primary users of 20 personal financial statements normally consider estimated to 21 current value information to be more relevant for their 22 decisions than historical cost information. 23 Q. Professor Lewis, I'm going to direct your 24 attention to Exhibit 1715 which is already in evidence. I 25 don't know that you are going to need to have a copy of it</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6682</p> <p>1 governing standard, then they should have done that in 2 their case. 3 They can't wait -- back to the Court of 4 Appeals cases. They can't lay and wait and see what we 5 do and then respond to it. 6 Just because the evidence is contradictory to 7 our evidence doesn't make it rebuttal evidence. It's 8 still evidence that was necessary to be presented in 9 their case and chief. Because, that is the governing 10 standard as they admit -- freely admit as this witness 11 testified. This is the standard that applies. 12 As part of their prima facie case, they would 13 need to establish that we violated this standard in 14 some shape, form or fashion. 15 If they didn't do it in their prima facie 16 case, it's too late to bring in a witness to say, now, 17 that we violated it. They would have had to have done 18 that in the prima facie case. 19 THE COURT: If they had to do that in the 20 prima facia case or "prima facia case" and they didn't 21 and you moved for a directed verdict then, I should 22 have granted it. But I didn't because, I didn't think 23 they had to. 24 Now, commonsense tells me that if you bring 25 in something in defense case that they haven't</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6684</p> <p>1 though. If we could turn to page two. Is this the links 2 definition of estimated current value you were referring to 3 in the passage you just read? 4 A. Yes. In the codification -- the digitized 5 codification that was -- 6 THE COURT: It was "yes" or "no," question. 7 The answer was yes. 8 A. Sorry. 9 Q. And so, could you tell us, could you provide for 10 the record, what is the definition of estimated current 11 value? 12 A. Should I read it? 13 Q. Sure. 14 A. For an asset, the amount at which the item could 15 be exchanged between a buyer and seller each of whom is 16 well-informed and willing and neither of whom is compelled 17 to buy or sell. 18 Q. Could you explain for us, in your own words, what 19 estimated current value means in connection with the 20 preparation of a personal financial statement? 21 A. So -- 22 MR. KISE: Objection. In his own words or 23 the words on the page or in conjunction with the 24 authoritative guidance that's included in the ASC 274? 25 THE COURT: You want it in his own words?</p>

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6685</p> <p>1 MR. WALLACE: Correct. That was the 2 question. 3 THE COURT: Okay. I'll allow it. I am still 4 waiting for how this is a rebuttal. Obviously, I will 5 give you some leeway. 6 One way to approach this, I would think, 7 would be to tell us all what you're rebutting and then 8 rebut it. But I will allow you, again, some leeway. 9 MR. WALLACE: Fair enough, your Honor. I 10 will get there momentarily. 11 Q. So, again, could I ask, Professor Lewis, in your 12 own words, what is -- 13 MR. KISE: Just to be clear, your Honor, 14 just on that last point, we have a standing objection 15 as to this entire line of questioning with respect to 16 it being improper rebuttal. Just so I don't have to 17 keep interrupting because, I know that bothers 18 Mr. Wallace. 19 THE COURT: I hope the rest of your staff 20 takes note of the idea of a standing objection. I have 21 been sort of holding back on this one but, the redirect 22 of Bartov, I believe, arguably, opened the door to all 23 sorts of rebuttal. So we'll keep that for what it's 24 worth. 25 Continue.</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6687</p> <p>1 they clearly had to have done in their case and chief; 2 irrespective of whether the defense introduced evidence 3 on it. 4 It doesn't matter whether we introduced 5 evidence on it. That doesn't open the door to rebuttal 6 because we introduced evidence on it. 7 Because we established our defense doesn't 8 forgive them for failing to carry their burden in the 9 first instance. 10 What this witness just testified to is their 11 core position. That is not rebuttal. That is their 12 core position. 13 There is no case law, of any kind, that 14 supports the introduction of this sort of testimony on 15 rebuttal. 16 THE COURT: I will rest on what I said 17 earlier, which I think summed it up very well if I say 18 so myself. 19 I do have a different objection of sorts, the 20 question was, "What does this mean in your own words?" 21 It's so clear. I must have learned it in accounting 22 101 in law school. 23 I think I've said, maybe once, I am so used 24 to cases where the objection is "the document speaks 25 for itself." Here, the document speaks for itself.</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6686</p> <p>1 MR. WALLACE: I will try to move through 2 this, expeditiously, your Honor. 3 Q. Professor Lewis, could you please explain for us, 4 in your own words, what estimated current value means in 5 connection with the preparation of a personal financial 6 statement? 7 A. So estimated current value is -- because it's the 8 basis for presentation, it's the top of the hierarchy of 9 this standard. 10 So any candidate quantitative result for estimated 11 current value needs to be measured against this definition. 12 FASB created this rational measure against which any 13 quantitative result can be then measured as a final step to 14 determine whether, in fact, an estimated current value has 15 been arrived at. 16 MR. KISE: Objection, Your Honor. This is 17 clearly now the province of their direct case. This 18 is, exactly, their theory. This has been their theory 19 all along. You heard it from prior to summary 20 judgment. 21 Now they're coming in, for the first time, on 22 rebuttal and introducing a witness to support the core 23 theory in their case. 24 This is wholly improper -- wholly improper -- 25 that they can bring in, on rebuttal, something that</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6688</p> <p>1 And, frankly, I didn't really get much out of that last 2 answer. 3 MR. WALLACE: Sure. And your Honor, I 4 appreciate that. And in fact, I'm taking the 5 criticism. 6 Some of this about the GAAP was undisputed on 7 summary judgment and is in the record. I am laying a 8 foundation for how Professor Lewis was going to 9 respond. I was, literally, about to get the testimony 10 from Mr. Flemmons that he is going to respond to. 11 THE COURT: Let's do it. 12 MR. WALLACE: I seem to be getting 13 interrupted quite frequently. 14 Q. Professor Lewis, as part of your view of 15 Mr. Flemmons' testimony about ASC 274, did you consider his 16 testimony concerning estimated current value? 17 A. I did. 18 Q. Professor Lewis, if we could put up on the screen 19 an excerpt of Mr. Flemmons' testimony that begins on page 20 4258 of the record. I am just going to use this to orient 21 you. 22 Mr. Flemmons is directed to page 13 of ASC 274. 23 Do you see that? 24 A. Yes, I do. 25 Q. If we look down, just a bit, on his answer that</p>

E.Lewis - Plaintiff - Direct/Mr.Wallace	Page 6689	E.Lewis - Plaintiff - Direct/Mr.Wallace	Page 6691
<p>1 begins on Line 15, he refers to the standards under 2 paragraph 55-1A. 3 Are you familiar with that section of ASC 274? 4 A. I am. 5 Q. Are you familiar with Mr. Flemmons' testimony 6 concerning ASC 27410 sections 55? 7 A. Yes. 8 MR. WALLACE: If we could put up 1609 back 9 on the screen. 10 If we can go to page 13 of 21. 11 Q. I'm going to just cut through and ask you, what is 12 reflected in section 55-1? 13 A. Section 55-1, as it's named there, is the 14 implementation guidance. And it discusses methods that may 15 be used to create candidates for estimated current value; 16 candidate quantitative results. 17 Q. And, what does it mean it's the implementation 18 guidance of ASC 274? 19 A. Here FASB has given some instruction as to 20 allowable methods that can be used within the standard. 21 Q. I believe you mentioned, in your prior response, 22 there's a hierarchy. 23 Can you explain what you meant that there's a 24 hierarchy in responses. 25 A. 551 isn't the end of the any analysis because, the</p>		<p>1 I'm going to strike the answer as I don't 2 understand it. So, without prejudice, I just didn't 3 understand. You're trying to summarize or explain and 4 didn't explain it for me. 5 So, without -- I'll just deny without 6 prejudice Mr. Kise's objection because, I am striking 7 the answer. I don't understand it. And, I want to. 8 Q. Professor Lewis, could you give us an example, a 9 practical example, of how the hierarchy, that you referred 10 to in your earlier answer and in the answer that was just 11 struck, plays out in the real world? 12 MR. KISE: Objection; foundation. This 13 witness has no experience in the real world. He's 14 testified to that. He has no experience in the real 15 world. He's testified to it. 16 MR. WALLACE: He's been qualified as an 17 expert. 18 MR. KISE: But not in the real world. 19 MR. WALLACE: That is not what the Judge 20 said. 21 Your Honor, at this point, he's just 22 disrupting the exam. He's saying the same things over 23 and over again. This is out of order. This is 24 ridiculous. 25 MR. KISE: It is not out of order. If there</p>	
<p>1 definition is important here. If you take a number that 2 results from one of the methods described in 551, and then 3 don't compare it to the definition, you've, effectively, 4 written the definition out of the standard if you don't say, 5 "I've arrived at a number. Does that number fit this 6 definition of the willing buyer and willing seller of 7 estimated current value." 8 Failing to do that, you've said, "Hey, that 9 definition isn't important. I just do one of these 10 definitions and then I am done. And I take the number." 11 When, in fact, the definition is part of the standard. In 12 fact, it is the basis of presentation for the standard. 13 MR. KISE: Your Honor, I move to strike that 14 answer. That was not responsive. That was just his 15 opinion. He didn't cite to anything in the guidance 16 that speaks to hierarchy. The word "hierarchy" doesn't 17 appear anywhere. 18 This is just a Professor of Practice with no 19 practical experience talking about how this is supposed 20 to be done in the real world without any citation 21 nothing. It's completely nonresponsive. 22 MR. WALLACE: Your Honor -- 23 THE COURT: The definition of "estimated 24 current value" speaks -- as I said before -- I believe 25 it speaks for itself. We were going fast here.</p>		<p>1 is a witness that has no experience, in the real world, 2 on any of these issues, of any kind -- none, other than 3 as a clerk back 30 years ago -- then he has no 4 foundation to render the opinion. None. 5 MR. WALLACE: You've been overruled on that. 6 MR. KISE: I haven't been overruled on this 7 question. 8 THE COURT: Objection overruled. I'll take 9 the answer for what its worth. I hope I understand it 10 better this time. 11 There is also a standing objection. I 12 realize there is general standing objections and 13 there's specific objections. But we understand you 14 don't approve of this line of questioning but, I am 15 allowing it. 16 MR. WALLACE: Your Honor, I am just going to 17 say, at this point, defendants spent four days going 18 over, quite frankly, extremely repetitive testimony 19 from their expert and we didn't disrupt and you allowed 20 in. 21 We would like to lay the foundation for what 22 this witness has to say without interruptions from 23 Mr. Kise on every instance. I've asked the witness -- 24 That wasn't an invitation for more speeches. 25 MR. KISE: Your Honor, if the witness has a</p>	

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6693</p> <p>1 proper foundation to support the question then, he can 2 get it in. If he doesn't, he doesn't. 3 THE COURT: You are making the same 4 objection I just overruled. And please, Mr. Kise, try 5 to keep the objections -- I know you have to do what 6 you have to do. Try to keep them to a minimum so we 7 don't break the flow. 8 And, whether you agree with this or not I 9 believe I gave a lot of leeway to your witnesses. 10 Agree or disagree. 11 MR. KISE: Do you really want me to answer? 12 THE COURT: No. The record will speak for 13 itself, right? 14 Hopefully, without further interruption, 15 Mr. Wallace continue. 16 Q. Professor Lewis, do you have a real world example 17 for how the hierarchy you describe works? 18 A. It might be helpful to give a practical example 19 that I think whether you have accounting expertise or you 20 don't have accounting expertise you can understand. 21 Let's say I have a Derek Jeter rookie baseball 22 card from the 1990s, early or mid 90s, and it is part of my 23 personal assets. So I need to establish an estimated 24 current value. 25 When I bought it, I bought it in a pack that</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6695</p> <p>1 But, I know where the willing buyers and willing sellers who 2 are informed by the cards are. 3 And that's why you have to take the method or 4 methods. You can run as many methods as you would like. 5 But, a result has to be compared to the definition in order 6 for it to be an estimated current value. That's a practical 7 example. 8 Q. If we could put up trial transcript page 4276 and 9 4277. Professor Lewis, I would like to direct your attention 10 to an exchange with Mr. Flemmons that begins on 4276 of the 11 trial transcript. 12 This is at the end of an exchange, with the Court 13 and then with counsel, about the potential magnitude of 14 variations and valuation using the methods laid out in ACS 15 274. 16 Are you familiar with this testimony? 17 A. Yes, I am. 18 Q. If we could look at the section that begins on 19 line one of 4277 there's a question. 20 "So even though the values derived from the 21 various methods are very different or could be very 22 different, would using any one of these numbers comply with 23 ASC 274?" 24 "ANSWER: Yes. 25 "QUESTION: And even though the values</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6694</p> <p>1 included some bubble gum and some other cards. So if I look 2 at the cost of that card, it might be ten cents. So the 3 cost basis for my card is ten cents. 4 But, I can look at recent sales of that Derek 5 Jeter rookie card and see that depending on the card and 6 condition it may be tens of thousands of dollar -- worth 7 tens of thousands of dollars. 8 And that's another one of these choices. So 9 choice (c) would be, in 551, would be the cost, the 10 historical cost; which I maybe adjust for inflation between 11 1995, let's say, or six. And now, it might get up to a 12 dollar. 13 So, I got a dollar as my adjusted cost basis or 14 I've got tens of thousands of dollars as my recent 15 transactions, similar assets, similar situations. They 16 can't both be the estimated current value. They're not 17 equally valid as estimated current value. 18 How do I figure out which one is the estimated 19 current value or better? I put them both to the "willing 20 buyer/willing seller test." 21 I know because, I can look on-line and see what 22 the card is selling for; where the willing buyers and 23 willing sellers are exchanging. 24 I wouldn't be willing to sell the card for a 25 dollar. I'd get a lot of willing buyers at that price.</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6696</p> <p>1 derived from the various methods could be very 2 different, would using any one of the different numbers 3 still comply with GAAP? 4 "ANSWER: That's correct. ASC 274 is GAAP. 5 So to the extent that GAAP is the selected convention 6 to prepare values for personal financial statements, 7 one would be complying with GAAP if using one of these 8 methods." 9 Q. Professor Lewis, do you agree with Mr. Flemmons' 10 analysis? 11 A. I do not. I agree ASC 274 is GAAP on this. But, 12 based on -- the example that I just gave is a good example 13 of why I don't agree that you can just use one of the 14 methods. And then, you have an estimated current value when 15 you are done. 16 Q. So, describe in more detail what is the nature of 17 your disagreement? 18 A. I don't believe you are complying with GAAP just 19 by using one of the methods. 20 Q. What do you still need to do? 21 A. You need to compare the result of that method back 22 to the definition of estimated current value. 23 Q. The definition you are referring to is the willing 24 buyer/willing seller definition? 25 A. That's correct.</p>

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6697</p> <p>1 Q. Does ASC -- let me ask -- let me cut through this. 2 Who has, ultimate, responsibility for determining 3 estimated current value? 4 A. The issuer of the statement. 5 Q. And, in the examples, you have seen, from this 6 case, who is the issuer? 7 A. Mr. Trump or the Trust depending on the year. 8 Q. Who has ultimate responsibility for compliance 9 with the standards in ACS 274? 10 A. The issuer. 11 Q. In this case, who is the issuer? 12 A. Again, Mr. Trump or the Trust. 13 Q. Okay. I think way can leave it there. If we could 14 move away from the responsibilities of issuer and talk about 15 the responsibilities of the accountant. 16 Professor Lewis, did you review testimony from 17 Mr. Flemmons concerning the obligations of an accountant in 18 the course of the compilation engagement? 19 A. I did. 20 Q. Just to orient us, could you tell us what 21 standards govern the work of an accountant in the 22 performance of compilation engagement? 23 A. These are standards produced by AICPA. The 24 current standard is ARC 80. The standard that was in 25 effect, from 2009 through 2015, was AR 80.</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6699</p> <p>1 DIRECT EXAMINATION 2 BY MR. WALLACE: 3 Q Professor Lewis, this is another excerpt of 4 Mr. Flemmons' testimony. I am going to direct your attention to 5 an exchange that appears at the bottom of page 4381. There is a 6 series of questions. They're withdrawn and then begin on line 7 24. 8 "QUESTION: What obligation would the accounting 9 firm have in placing an asset value on the statement of 10 financial condition based on the information that's been 11 provided in the supporting data? 12 "ANSWER: Well, the accounting firms's obligation 13 is to understand the methods that are being used and 14 consider the appropriateness of those methods, you know, 15 based on the assets that are being valued and ultimately 16 determine whether they are a GAAP compliance method. And to 17 the extent they are not, the standards require them to 18 perform followup inquires, perhaps, include language in 19 their accountants's report if those amounts are reported in 20 the manner that is inconsistent with GAAP." 21 Do you agree with Mr. Flemmons' opinion here? 22 MR. KISE: Objection, Your Honor. I just want to 23 note for the record back to the general objection, on the 24 specific obligation, here, specifically. Again, this is 25 subject matter that was covered in their direct case with</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6698</p> <p>1 Q. I believe Mr. Flemmons testified about this. But, 2 are there any substantive differences between AR 80 and ARC 3 80 that would affect the work performed by the accountants, 4 at Mazars, in compiling Donald Trump's Statement of 5 Financial Condition between 2011 and 2020? 6 A. No. 7 MR. WALLACE: If we could put up page 4381 8 and 4382 of the trial transcript. 9 (Whereupon, the following proceedings were 10 stenographically recorded Shameeka Harris.) 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6700</p> <p>1 Mr. Bender and I believe with Mr. Kelly. 2 Certainly, if they had evidence to offer regarding 3 the governing standards and the accounting firm's 4 obligation, that must have been done on their case-in-chief. 5 It is inappropriate rebuttal. 6 THE COURT: Overruled. It's what your witness 7 testified and they are trying to rebut it. 8 MR. KISE: But, Your Honor, he testified in 9 response to their case and they -- their case didn't include 10 their expert by their own choice. They had Mr. Kelly talk 11 about this. I believe they had Mr. Bender talk about this 12 and so that evidence was there and Mr. Flemmons testified in 13 response to their case. The fact that they chose not to 14 call an expert in their case isn't the defenses' fault or 15 problem. It's their fault. 16 THE COURT: They did call an expert, correct? 17 Mr. -- 18 MR. KISE: Not an accounting expert. They called 19 McCarty. McCarty was the expert. Yes, alleged expert. 20 THE COURT: Can anybody remember what Mr. McCarty 21 was deemed an expert in? 22 MR. WALLACE: Banking. 23 MR. KISE: I believe it was banking, Your Honor. I 24 don't think it was accounting. In all events, they should 25 have called this accounting expert particularly on this</p>

<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6701</p> <p>1 subject which was clearly covered in their case-in-chief. 2 THE COURT: You are still making the same basic 3 objection. It should have been in their direct case. I 4 don't think it had to be. The law of the cases it didn't 5 have to be. Let's move on. Objection overruled. 6 MR. KISE: Can we get a read back of the question, 7 please? 8 MR. WALLACE: No, it was an objection to the answer 9 so... 10 CONT'D DIRECT EXAMINATION 11 BY MR. WALLACE: 12 Q You did not agree with Mr. Flemmons in this analysis? 13 THE COURT: That's leading. 14 Q To re-orient us to a question that was interrupted, do 15 you agree with Mr. Flemmons' analysis? 16 A There are a lot of pieces and opinions, lots of and's 17 in there but in general I do not. 18 Q Well, we can take it in the pieces. Why don't we start 19 with the section you agreed that an accounting firm performing a 20 compilation has an obligation to understand the methods that are 21 being used? 22 A Yes. 23 Q What does it mean that they have that obligation? 24 A It means that as part of a client acceptance process, 25 the firm goes through, do we understand the framework that we're</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6703</p> <p>1 in evidence, Defendant's Exhibit 26. 2 Professor Lewis, do you recognize this document? 3 A Yes, this is ARC Section 80. 4 Q And so what are the sections you're referring to? 5 A These are paragraphs 2 and 4. 6 Q And could you just read paragraph two into the record? 7 A Sure. 8 "Because a compilation engagement is not an assurance 9 engagement, a compilation engagement does not require the 10 accountant to verify the accuracy or completeness of the 11 information provided by management or otherwise gather evidence 12 to express an opinion or a conclusion on the financial 13 statements." 14 Q And what is the significance of that language? 15 A This sets the foundation for the relationship between 16 the issuer, the client and the accountants. 17 Q I believe you said the other -- what was the other 18 paragraph you -- 19 A Paragraph four. 20 Q And that's under the heading objective? 21 A It is. 22 Q Could you read that into the record, please. 23 A Yes. That's a long one but, yes. 24 "The objective of the accountant in a compilation 25 engagement is to apply accounting and financial reporting</p>
<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6702</p> <p>1 being asked to engage and do we understand the methods that the 2 client, the issuers are telling us that they are using to 3 abide by, to comply with the framework. They have an obligation 4 to do that. 5 Q Okay. Move down. Do you agree that an accounting firm 6 performing a compilation has an obligation to consider the 7 appropriateness of the methods being used by the issuer? 8 A Only to the extent that they are among the allowed 9 methods. 10 Q Looking next, do you agree that an accounting firm 11 performing a compilation has a obligation to ultimately 12 determine whether the methods being used by the issuer are a 13 GAAP compliant method? 14 A No. 15 Q Why not? 16 A Because GAAP compliance is the responsibility of the 17 issuer. 18 Q And is that responsibility spelled out anywhere in the 19 performance standards? 20 A It is. 21 Q And where would you find this? 22 A So, if ARC 80, there are two places where it is kind of 23 right up front in that document. It is sections 2 and 4, 24 paragraph 2 and 4. 25 Q Can we pull up -- I have a spare copy. It is already</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6704</p> <p>1 expertise to assist management in the presentation of financial 2 statements and report, in accordance with this section, without 3 undertaking to obtain or provide any assurance that there are no 4 material modifications that should be made to the financial 5 statements in order for them to be in accordance with the 6 applicable financial reporting framework." 7 Q And what is the impact of that language? 8 A Again, that's reinforcing that the accountants are not 9 in a compilation obligated by the these performance standards to 10 determine whether the statements materially comply with GAAP. 11 GAAP is the financial reporting framework here. 12 Q If you could turn to page five of this document and 13 this time I'll read this into the record. I just want to direct 14 your attention to the heading, "The Accountant's Knowledge and 15 Understanding of the Entities Financial Reporting Framework." 16 It's item 12 and it states, "The accountant should obtain an 17 understanding of the applicable financial reporting framework 18 and the significant accounting policies intended to be used in 19 the preparation of the financial statements." 20 What is the significance of -- what does that paragraph 21 mean? 22 A So this reinforces what we read essentially in 23 paragraph two. So it's saying here's what the accountants' 24 responsibilities are. This is what they -- this is what they 25 need to do.</p>

<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6705</p> <p>1 Q And does anything in this paragraph affect the issuer's 2 ultimate responsibility for the contents of the financial 3 statement? 4 A No. 5 MR. KISE: Objection. Leading. 6 THE COURT: Sustained. 7 Q Does this paragraph have any affect on the issuer's 8 responsibility for the contents of the financial statement? 9 MR. KISE: Same objection. Leading. 10 THE COURT: Sustained. 11 Q How, if at all, does this paragraph have an affect on 12 the issuer's ultimate responsibility for the contents of the 13 financial statement? 14 A It has no affect. 15 THE COURT: That technique worked for Mr. Suarez. 16 It can work for you too. 17 MR. KISE: That's why I didn't object. 18 Q If we look at the next section under the heading 19 compilation procedures, there are four paragraphs number 13 20 through 16. How if, in any way, does the guidance in this 21 section affect the issuer's responsibility for the contents of 22 the financial statement? 23 A It does not change the issuer's responsibility. The 24 entirety of ARC 80 is the accountants' responsibilities. The 25 issuer responsibilities are not impacted by it.</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6707</p> <p>1 Q If we could put up on the screen a demonstrative that 2 has been marked defendant's demonstrative one and go to page 3 two. 4 Professor Lewis, do you recognize this document? 5 A Yes. 6 Q And do you understand what's being reflected on this 7 chart? 8 A Yes, I do. 9 Q And what do you understand as being reflected on this 10 chart? 11 A On the vertical, the Y axis as it were, there is a 12 level of assurance, what level of assurance is the accountant 13 providing in the various levels of service that accountants can 14 provide with regard to financial statements. 15 Q I'll just ask do you know who prepared this chart? 16 A I think this came from Mr. Flemmons' report. 17 Q I want to ask you about the three boxes on the row 18 marked compilation. Does that -- does the analysis in that row 19 make sense to you? 20 A Not really. I mean, certainly, the no assurance part 21 makes sense. The fact that the check mark is in compilation and 22 we are down at the bottom of the Y axis and there is no 23 assurance given. But in a compilation, the accountants don't 24 characterize their compilation report, that would go to their 25 report and the character of it.</p>
<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6706</p> <p>1 Q What obligation do these compilation procedures impose 2 on an accounting firm with respect to ensuring compliance with 3 GAAP? 4 A No responsibility for ensuring compliance with GAAP. 5 That goes back to paragraph two. 6 Q Are there any circumstances under which an accounting 7 firm might need to address GAAP compliance in a compilation 8 engagement? 9 A Yes. 10 Q And what would those circumstances be? 11 A If while doing the compilation, not doing extra work or 12 investigation, but during the compilation something comes to the 13 attention of the accountants, they have that it could be a GAAP 14 departure. It could be a problem. They have the responsibility 15 to bring that issue to the issuer, to the client. 16 Q What comfort, if any, should an issuer take from the 17 fact that an accountant performing a compilation engagement did 18 not identify a specific GAAP departure? 19 A Absolutely none. 20 Q What comfort, if any, should -- I'm sorry. Withdrawn. 21 What comfort, if any, should the user of a financial 22 statement take from the fact that an accountant performing a 23 compilation engagement did not identify a specific GAAP 24 departure? 25 A Same. None.</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6708</p> <p>1 In higher levels of service, really in the audit, they 2 characterize their report based on what they found. But in the 3 compilation, they are not trying to find anything so they can't 4 characterize their findings. 5 Q When you say characterize findings, you're referring to 6 the boxes that are listed as adverse, qualified, nonqualified; 7 is that correct? 8 A That's correct. 9 Q If we can focus on the Y axis, what level of assurance 10 is offered in a compilation engagement? 11 A No assurance. It's not even considered to be an 12 assurance engagement. 13 Q And what level of assurance is offered in a review 14 engagement? 15 A In a review engagement, accountants offer a level of 16 assurance that's referred to as negative assurance where, 17 essentially, they are saying we did some procedures, not 18 extensive procedures, and we didn't find any problems. They are 19 not saying there aren't problems there, it's just we didn't find 20 any. It's called negative assurance. 21 Q And what level of assurance is offered in an audit 22 engagement? 23 A In an audit engagement, the auditors offer positive 24 assurance. They are saying in their statement this is what we 25 found.</p>

Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6709

1 Q And what kind of work is involved in a audit engagement
2 to reach that level of assurance?
3 A It's very extensive. It's doing things like verifying
4 the accuracy of supporting documentation, tracing documents back
5 to source documents, tracing numbers in the financial statements
6 back to individual transactions, lots of sampling, an extensive
7 amount of work goes into the audit.
8 Q And in a nonengagement, what happens if the auditor
9 misses a GAAP departure?
10 A It is a failure, a performance failure.
11 Q And in review engagement, what happens if the
12 accountant misses a GAAP departure?
13 A There it is not clearly a performance failure as long
14 as they completed all of the procedures that are normally part
15 of a review.
16 Q And what about a compilation engagement? What happens
17 when an accountant misses a GAAP departure?
18 A They are not responsible for finding GAAP departures,
19 so it is not a performance failure to not find a GAAP departure.
20 Q What if there was a GAAP departure that was obvious but
21 they didn't catch?
22 A If it was obvious to them and they didn't catch it,
23 then that is a performance failure by the accountants.
24 Q Who ultimately makes the decision about which level of
25 review to select?

Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6710

1 A The issuer.
2 Q And in general, is one level of review more expensive
3 than another?
4 A Yes, the audit is very expensive compared to the
5 compilation.
6 Q And the standards for the compilation are consistent
7 with what you reviewed in ARC 80; is that correct?
8 A That's correct. Those are the standards for a
9 compilation.
10 Q Are the standards that are laid out in AR 80 and ARC 80
11 reflected anywhere in the communications between the audit firms
12 of Mazars and Whitley Penn and the Trump Organization?
13 MR. KISE: Objection. Leading.
14 THE COURT: Well, it is leading but it is a
15 preliminary. Is there any way to rephrase so I don't have
16 to rule.
17 MR. WALLACE: Okay.
18 Q Professor Lewis, how, if at all, are the standards laid
19 out in AR 80 and ARC 80 reflected in the communications between
20 accounting firms Mazars and Whitley Penn and The Trump
21 Organization?
22 A They can be found in two places. So they're in the
23 engagement letters between the accountants and the issuer and
24 they are also in the management representations letter where the
25 issuer acknowledges those -- the responsibilities of the various

Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6711

1 parties.
2 Q Anywhere else?
3 A So this is a communication in general not necessarily
4 between those two, but in the accountant's compilation report,
5 they are repeated again.
6 Q Professor Lewis, are you familiar with Mr. Flemmons'
7 testimony to the effect that it was a red flag that certain
8 future revenues in the supporting data spreadsheets were not
9 discounted to present value?
10 A Yes.
11 Q And why was that a red flag?
12 A Well, each of the methods allowed under the
13 implementation guidance in 274 requires that amount to be
14 brought to present value so the amounts to be discounted.
15 Q And does that constitute a GAAP failure of not bringing
16 future amounts to present value?
17 A Yes. It's a technical GAAP failure, written right in
18 the standards, written right into the standards.
19 Q In the course of your report, did you identify any
20 valuations in the statement of financial condition that failed
21 to discount revenues to present values?
22 MR. KISE: Objection. In the course of performing
23 his duties, he simply relied on the valuation numbers from
24 others. So this witness have absolutely no basis to make
25 that determination in the absence of testimony from other

Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6712

1 experts that are not in the trial record at all. Hirsh and
2 Korologos, he based his opinions on those. He has no
3 independent valuation analysis and he didn't conduct any.
4 MR. WALLACE: It is not a valuation question. It
5 is a disclosure question.
6 MR. KISE: No, it is a valuation question. In
7 order to determine whether or not there is an adequate
8 disclosure, you have to look at the valuation and make an
9 assessment. The only way he was able to do that is to rely
10 on what other people that the AG spoon fed him and told him.
11 He didn't conduct any independent analysis of any kind and
12 because they've chosen not to call those experts they can't
13 backdoor that into the case.
14 THE COURT: Mr. Wallace.
15 Q Professor Lewis, did you independently review --
16 THE COURT: You're withdrawing the last question?
17 MR. WALLACE: If I can lay some foundation for the
18 basis of his opinion, but I was moving on to something else.
19 I can lay further foundation if Mr. Kise thinks it is
20 inappropriate because he is relying on other people. It is
21 not the case.
22 THE COURT: You are withdrawing the last question?
23 MR. WALLACE: Sure.
24 THE COURT: You say now you're going to lay the
25 foundation. Okay. Go ahead.

<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6713</p> <p>1 Q Professor Lewis, did you conduct analysis in the course 2 of preparing your report as to whether or not values in the 3 statements of financial condition had been discounted to present 4 value? 5 A I did. 6 Q And so did you independently form a view as to whether 7 or not there were valuations in the statement of financial 8 condition that were not discounted to present value? 9 A Yes, I did. 10 Q And did you agree with Mr. Flemmons' testimony that 11 there were amounts in the statements of financial condition that 12 had not been discounted to present value? 13 A I agree with Mr. Flemmons on that, yes. 14 MR. KISE: Objection. Mischaracterizes 15 Mr. Flemmons' testimony. 16 THE COURT: My objection, if this is a rebuttal, 17 why are we asking him if he agrees. 18 MR. WALLACE: I am going to the next point. My 19 examinations are being continually interrupted so if they 20 make -- 21 MR. KISE: It is continually interrupted based on 22 improper questions and lack of foundation. Your Honor, this 23 witness didn't conduct an independent analysis other than to 24 rely on those two reports. There is no way that he could 25 have conducted a valuation analysis without relying on those</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6715</p> <p>1 the appropriate disclosure of this methodology -- well, strike 2 that. Withdrawn. 3 If we look at the first question and answer starting at 4 line seven, the question and answer beginning at line seven. 5 "QUESTION: Was the lack of apparent discounting 6 disclosed by the supporting data to Mazars? 7 "ANSWER: In my view, it is clear on the face of 8 the -- this document that there is no discounting. Again, 9 with the very remote caveat that is included in some of 10 these values, that my conclusion from reviewing this 11 document would be that there is no discounting applied." 12 The next question. 13 "Would professional accounting standards require 14 Mazars to provide guidance to management on the appropriate 15 disclosure of this methodology? 16 "ANSWER: Yes. Under professional standards, their 17 obligation is to review the support for obvious GAAP 18 departures. I believe Mr. Bender testified to that as 19 well." 20 Let's stop there. Do you agree with Mr. Flemmons 21 that under professional standards an accountant performing a 22 compilation engagement has an obligation to review 23 supporting documents for obvious GAAP departures? 24 A So according to the performance, no, I don't. 25 Q Why not?</p>
<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6714</p> <p>1 two reports based on the language of his own reports. It is 2 not possible. 3 THE COURT: I disagree. Overruled. 4 Q In your view, was the GAAP departure of not discounting 5 amounts to present value disclosed in the statement of financial 6 condition? 7 MR. KISE: Objection. Leading. 8 MR. WALLACE: It is a foundational question. 9 MR. KISE: That's a substantive question, Your 10 Honor. That's a substantive question. 11 THE COURT: Can we do -- can we do the Suarez 12 maneuver. 13 Q How, if at all, were the GAAP departures disclosed in 14 the statement of financial condition? 15 A The failure to discount was not disclosed in the 16 statements of financial condition. 17 Q Okay. I'd like to pull up a section of Mr. Flemmons' 18 testimony concerning the use of undiscounted cash flows in 19 valuing golf clubs. If we can pull up pages 4415 and 4416 of 20 the trial transcript. 21 Are you familiar with this testimony from Mr. Flemmons? 22 A Yes. 23 Q I would direct your attention to the section in 24 response to the question 14. Would professional accounting 25 standards require Mazars to provide guidance to management on</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6716</p> <p>1 A Because -- 2 THE COURT: He's learning. 3 A So according to the performance standards, what the 4 accountant has the obligation to review is the financial 5 statements, the final statements. So it says very clearly in 6 their performance standards that they will not verify accuracy 7 of supporting information. So if, on the other hand, if they 8 noticed something without doing an investigation, they have an 9 obligation to point it out to the issuer but they don't have an 10 obligation to review supporting standards for evidence of GAAP 11 departures, even obvious ones. 12 Q If we continue in his answer, he states, quote, and to 13 me, this constitutes an obvious GAAP departure that the 14 accountants that are performing the compilation would then have 15 duties under professional standards to followup on. I believe I 16 referred earlier to the requirement to perform inquires, resolve 17 the discrepancies either through the form of having adjustments 18 made to apply the discounting in this case or to include the 19 disclosure in the accountant's report. 20 Stop there. Do you agree with Mr. Flemmons that under 21 professional standards an accountant performing a compilation 22 engagement is required to perform inquires and resolve 23 discrepancies if they identify a GAAP departure? 24 A If they identify a GAAP departure, the first step is to 25 bring that to the issuer and then that produces a decision point</p>

<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6717</p> <p>1 based on the issuer's response. 2 THE COURT: That was a yes or no question. 3 A Yes, they have some responsibilities. 4 Q Now, let's focus on the last section. It says, "I will 5 say that we have seen other examples of lack of discounting and 6 Mr. Bender, as I have said before, testified that the absence of 7 discounting he believed was subsumed in the disclosure in the 8 accountant's report related to the lack of using ECV for a 9 substantial part of the assets reported in the statement of 10 financial condition." 11 Professor Lewis, do you have an understanding of what 12 opinion Mr. Flemmons is offering here? 13 A So, I don't. The way I read it he is not actually 14 offering an opinion. He's relating what he believes Mr. Bender 15 testified to. 16 Q Well, it says as I said before. Let's see if some 17 additional context might be helpful. If we can pull up pages 18 4339 and 4340 from the transcript. This is another excerpt of 19 testimony from Mr. Flemmons. And as you can see, this is a 20 section at the top addressing the 2014 statement of financial 21 condition in line four. Mr. Flemmons is then asked on line 17: 22 "QUESTION: And what does it mean in a GAAP 23 departure, does -- excuse me, in a GAAP disclosure when it 24 says that, quote, several of the values have been based on 25 future interests that in some instances are not for fixed or</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6719</p> <p>1 standards. 2 Q That's in ASC 274? 3 A ASC 274-10-35. 4 Q If we can -- so, if we could put up, split screen, 5 Plaintiff's Exhibit 1609 and turn to page seven. If we look 6 toward the top of the page, there's a heading that reads, 7 "future interests in a similar assets." 8 This is the section you are referring to, Professor 9 Lewis? 10 A It is, yes. 11 Q I am happy to read this one into the record. It is 12 3511 "Nonforfeitable rights to receive future sums that have all 13 of the following characteristics shall be presented as assets at 14 their discounted amounts. A, the rights are for fixed or 15 determinable amounts. B, the rights are not contingent upon the 16 holder's life expectancy or the occurrence of a particular event 17 such as disability or death; C, the rights do not require future 18 performance of service by the holder. Under this provision of 19 ASC 274, how is the future interest to be presented? 20 MR. KISE: Your Honor, I've given Mr. Wallace some 21 latitude. We are so far beyond the bounds of proper 22 rebuttal. All of this, including the SOFC disclosure that 23 he just read into the record, was all the subject of their 24 case-in-chief, the Bible disclosures. I am not sure 25 whether, based on the testimony that he put up, whether</p>
<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6718</p> <p>1 determinable amounts and in some instances are based on 2 performance of future services?" 3 I'll stop there. Are you familiar with the 4 language that's being quoted here? 5 A Yes. My guess -- I don't want to guess. I believe 6 that comes from Section 35. 7 Q If we could put up Plaintiff's Exhibit 730. We have a 8 hard copy for you. This is already in evidence. If you could 9 turn to page two of the document. If you look at the fourth 10 paragraph on page two, I'll read it into the record. It states, 11 "Accounting principles generally accepted in the United States 12 of America require that in order to reflect amounts to be 13 received in the future at estimated current values the rights 14 must be nonforfeitable, fixed and determinable, and not require 15 any future services. As discussed in notes 3, 4, 5, and 6, 16 several of the values expressed have been based on future 17 interests that in some instances are not for fixed or 18 determinable amounts and in some instances are based on 19 performance of future services." 20 Do you see if this is a section of the SOFC that was 21 quoted in the question we were just looking at? 22 A Yes, that's -- that language is the same. 23 Q And are you familiar with this disclosure regarding 24 future interests in the statement of financial condition? 25 A Yes. As I said, I believe it's in Section 35 of the</p>	<p>Professor Lewis - by Plaintiff - Direct (Mr. Wallace) Page 6720</p> <p>1 we're rebutting Mr. Flemmons' testimony or Mr. Bender's 2 testimony because both of them testified the same way. 3 That's what the provision that Mr. Wallace just read. So 4 are they now using their expert on rebuttal to rebut what 5 Mr. Bender said about these disclosures or about what 6 Mr. Flemmons said? I mean -- 7 THE COURT: You said they said the same thing. 8 MR. KISE: How do you rebut your own witness? How 9 do you use an expert -- this is the whole reason that this 10 rebuttal is so highly inappropriate because we're wandering 11 off now. Are there no limits of any kind? It appears in 12 this courtroom there are no limits of any kind on what they 13 can do on rebuttal. Let's just -- let's ask whatever 14 question we want even though this was all fully available to 15 them. Under the guise of rebuttal now, we are just back 16 filling, back filling and back filling a giant hole in their 17 case. It his highly objectionable and respectfully just 18 flat reversal. Everything is not but this certainly is. 19 MR. WALLACE: It is only reversible if the judge 20 relies on it. 21 THE COURT: I'm lost. And I'm not sure -- again, 22 this may not be Mr. Kise exact objection but you jump from A 23 to B to C and can you put this together and tie it more to 24 Flemmons' testimony? 25 MR. WALLACE: I am trying to get there, Your Honor.</p>

Page 6721	Proceedings	Page 6723
<p>1 This is an insane standard. I am being continually 2 interrupted. I would like a chance to just present the 3 witness, and we are getting to the point eventually. I 4 guess I need another speech before we continue. 5 MR. KISE: It is not another speech and petulant 6 and outburst don't really play well in a courtroom. I am 7 not sure you know that, Kevin. The bottom line is I am just 8 as confused. I didn't add that because I figured no one 9 would listen. There is just no guidepost here at all. We 10 are just wandering around in the abyss of letting this 11 witness testify about anything. It is such an improper 12 rebuttal. I don't see how they are allowed to continue. 13 (Continued on next page) 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>1 now been asked what the purpose is and I'm going to say 2 it. 3 MR. KISE: Again, your Honor, they're 4 rebutting their own witness? They're rebutting Donald 5 Binder with this witness? 6 THE COURT: Well, it doesn't really matter 7 whether they're rebutting one of their witnesses and 8 one of your witnesses, as long as they are rebutting 9 one of your witnesses. 10 MR. KISE: Oh, as long as we can just rebut 11 anyone, let's just pick Donald Bender's testimony and 12 allow this witness to rebut their own witness. 13 THE COURT: I believe there are some 14 strictures and limitations on rebutting your own 15 witness. But, let me ask the plaintiffs a question. 16 Was Mr. Bender, whom you called, a friendly 17 or a hostile witness? 18 MR. WALLACE: We did not cross examine him 19 as a hostile witness. He was someone we called on our 20 case and chief. 21 THE COURT: So are you impeaching your own 22 witness? 23 MR. WALLACE: We didn't feel the need to as 24 part of our case and chief. They decided to present an 25 expert to say that it was correct. But, we are</p>	<p>1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6722	E.Lewis - Plaintiff - Direct/Mr.Wallace	Page 6724
<p>1 THE COURT: You can raise that on appeal. 2 Objection, overruled. 3 And, you can cross examine, Mr. Wallace. 4 Continue. 5 MR. WALLACE: I'm trying to find my place 6 again, your Honor. I believe we read into the record 7 this section of 3511. 8 Q. Are you familiar with this section, 9 Professor Lewis? 10 A. I am. 11 Q. So under this provision of ASC 274, how is a 12 future interest being presented? 13 A. At discounted amounts as the first sentence says. 14 Q. Based on the disclosure in the SOFC that we just 15 looked at, in what way does the inclusion of future 16 interests fail to comply with GAAP? 17 MR. KISE: Your Honor, how does that rebut 18 Mr. Flemmons' testimony? He's asking about the SOFC 19 and whether or not the SOFC complies with this 20 standard. That's not rebuttal. That's just testimony. 21 MR. WALLACE: Disclosure has nothing to do 22 with discounting the present value. So, to the extent 23 that that's the opinion of Mr. Flemmons and that's the 24 opinion of Mr. Binder, they are wrong. And we're 25 trying to get the witness to explain that. So, I've</p>	<p>1 rebutting what Mr. Flemmons said. 2 MR. KISE: This is the whole point. This 3 was in their case and chief. If they thought 4 Mr. Bender's testimony wasn't correct then, in their 5 case and chief, they should have called this witness to 6 explain that and fix it in their case and chief not 7 backfill it out. 8 THE COURT: Objection overruled. I want to 9 hear what they have to say. That's my general 10 principle at trials. You know, I want to hear what 11 people have to say. Then, I will do my best to reach 12 the correct solution, resolution. Objection, 13 overruled. 14 Again, you have a standing objection. You 15 don't like any of this, Mr. Kise. That's clearly 16 understood. And, you will have a chance to cross 17 examine. You will have a chance to argue in posttrial 18 submissions. You will have a chance to argue on appeal 19 if you choose to do so. Let's move on with fewer 20 interruptions. 21 DIRECT EXAMINATION 22 BY MR. WALLACE: 23 Q. Professor Lewis, does the disclosure that we were 24 looking at delay, in any way, the failure to discount 25 present value?</p>	<p>1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>

<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6725</p> <p>1 A. No.</p> <p>2 Q. Why not?</p> <p>3 A. There is no mention of discounting or present</p> <p>4 value in the disclosure.</p> <p>5 Q. And, future interest and similar assets, do those</p> <p>6 need to be discounted to present value even if they are</p> <p>7 included in financial statement?</p> <p>8 A. They do.</p> <p>9 Q. Does ASC 274 provide any guidance on what kinds of</p> <p>10 assets are encompassed within the kinds of future interests</p> <p>11 being addressed in section 3511?</p> <p>12 A. It does.</p> <p>13 Q. Where would that be found?</p> <p>14 A. There is a link to it if you have a live document.</p> <p>15 But, it's in a much later section. Its down in the fifties.</p> <p>16 MR. WALLACE: Okay. If we could open up the</p> <p>17 highlighted section to show a couple of lines below</p> <p>18 here please?</p> <p>19 A. So there at 55-7.</p> <p>20 MR. WALLACE: If we could turn to page 14 of</p> <p>21 Plaintiff's Exhibit 1609.</p> <p>22 Q. If we look at section 55-7, under the heading</p> <p>23 "future interest and similar assets" it states, "This</p> <p>24 paragraph provides implementation guidance on the</p> <p>25 application of paragraph 274-10-3511."</p>	<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6727</p> <p>1 above; separately carved out. And, they don't fit any of</p> <p>2 the characteristics.</p> <p>3 MR. WALLACE: If we could turn to the trial</p> <p>4 transcript, pages 4339 and 4340.</p> <p>5 Q. If we look at the question at the bottom of page</p> <p>6 4339, starting on-line 17:</p> <p>7 "QUESTION: And what does it mean in a GAAP</p> <p>8 departure does --</p> <p>9 MR. WALLACE: I will strike that. We</p> <p>10 already read that section. I will just go to the</p> <p>11 answer of that section where Mr. Flemmons says, "Well,</p> <p>12 again, this is a fairly broad disclosure that could</p> <p>13 cover a variety of different issues with regard to GAAP</p> <p>14 accounting.</p> <p>15 "I know that one of them that this</p> <p>16 addresses -- and, this was also consistent with</p> <p>17 Mr. Bender's deposition testimony -- related to certain</p> <p>18 assets that were not discounted even though the future</p> <p>19 cash flows was used as a basis for determining the</p> <p>20 estimated current value. Um, but I think there are</p> <p>21 several items that would fall under this umbrella."</p> <p>22 Q. To the extent Mr. Flemmons is expressing an</p> <p>23 opinion that the disclosure language we were reviewing,</p> <p>24 concerning future interests related to certain assets that</p> <p>25 were not discounted, do you agree with that opinion?</p>
<p>E.Lewis - Plaintiff - Direct/Mr.Wallace Page 6726</p> <p>1 I will stop right there. Is that the section you</p> <p>2 were just looking at?</p> <p>3 A. That's where we were, yes.</p> <p>4 Q. It continues, "Non-forcible rights that may have</p> <p>5 those characteristics include all of the following (a)</p> <p>6 guaranteed minimum portions of pensions (b) vested interest</p> <p>7 in pension or profit sharing plans (c) deferred compensation</p> <p>8 contracts (d) beneficial interests in trust (e) remainder</p> <p>9 interests in property subject to life estates (f) annuities</p> <p>10 and (g) fixed amounts of alimony for a definite future</p> <p>11 period."</p> <p>12 Do you know, one way or the other, if the</p> <p>13 Statements of Financial Condition, for Mr. Trump, valued any</p> <p>14 assets similar to what's being described in this section?</p> <p>15 A. The only one might be (d) the beneficial interests</p> <p>16 in trust.</p> <p>17 Q. Mr. Trump's Trust was a revocable trust; is that</p> <p>18 correct?</p> <p>19 A. Correct.</p> <p>20 Q. In your opinion, does future anticipated real</p> <p>21 estate developments fit within the category of future</p> <p>22 interests as that term is used in ACS 274?</p> <p>23 A. No.</p> <p>24 Q. Why not?</p> <p>25 A. Because those are dealt with in the section just</p>	<p>Proceedings Page 6728</p> <p>1 A. No.</p> <p>2 Q. To the extent that Mr. Bender, at his deposition,</p> <p>3 may have been expressing an opinion that the disclosure</p> <p>4 language we were reviewing, concerning future interests</p> <p>5 related to certain assets that were not discounted, do you</p> <p>6 agree with that opinion?</p> <p>7 A. So, I don't know what they tried to do. But, no,</p> <p>8 it doesn't. It doesn't disclose that.</p> <p>9 MR. WALLACE: Nothing further, Your Honor.</p> <p>10 THE COURT: Any redirect?</p> <p>11 MR. WALLACE: Cross.</p> <p>12 THE COURT: I'm sorry. How could I forget</p> <p>13 that.</p> <p>14 MR. KISE: Your Honor, given that you've</p> <p>15 allowed this witness to come in as a rebuttal witness,</p> <p>16 we had no idea prior to the time he took the stand,</p> <p>17 exactly, what he was going to say, we would ask the</p> <p>18 Court for a break so that we can, at least, organize</p> <p>19 our cross.</p> <p>20 THE COURT: Sure. How long a break do you</p> <p>21 want?</p> <p>22 MR. KISE: Hold on one moment.</p> <p>23 If your Honor would give us until 11:45. I'm</p> <p>24 assuming, your Honor, based on your ruling yesterday or</p> <p>25 our discussion yesterday, you're not allowing us to</p>

Proceedings Page 6729	E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6731
1 call our rebuttal witnesses? 2 THE COURT: Correct. 11:45, plaintiff, is 3 that reasonable for them to -- 4 How long do you think the cross examination 5 will be? 6 MR. KISE: We should be done by the lunch 7 break if not before. 8 THE COURT: Okay. All right. 11:45. 9 MR. WALLACE: If it is before the lunch 10 break, no objection then. 11 THE COURT: That's the important part. 12 Okay. 11:45, everyone. 13 MS. FAHERTY: Judge, you need to admonish 14 the witness. 15 THE COURT: Mr. Lewis, please do not or I 16 order you not to discuss this case or your testimony or 17 anything related to it during the long break. 18 (A recess was taken.) 19 (After the recess the following occurred:) 20 COURT OFFICER: All right, Part 37 is back 21 in session. Please, be seated and come to order. 22 THE COURT: Okay. Let's start the cross 23 examination of the rebuttal witness. 24 Please, proceed. 25 MR. SUAREZ: Thank you.	1 A. They didn't prepare my opinions. 2 Q. How much time has Kroll spent assisting you in 3 preparing your opinions in this case? 4 A. I don't know. 5 Q. At your deposition, do you recall telling me that 6 you had been retained by Kroll in this case? 7 A. I do. 8 Q. Why didn't you disclose that in your initial 9 report? 10 A. My client, in my view, is the Office of the 11 Attorney of General. 12 Q. When I asked you at your deposition, you said it 13 was Kroll. So who asked you to change that. 14 A. I wasn't asked to change it. Really, you pointed 15 it out. So -- 16 Q. Okay. So, it's my fault that you recognized that 17 the Attorney General and not Kroll is your client? 18 A. I recognize the Attorney General as my client. 19 When you asked who retained me, I didn't take it in a legal 20 sense. 21 Q. Because you're not a lawyer? 22 A. Correct. 23 Q. You don't practice law? 24 A. That's true. 25 Q. You don't practice accounting either?
E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6730	E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6732
1 CROSS EXAMINATION 2 BY MR. SUAREZ: 3 Q. Mr. Lewis, you've been paid about 150,000 in this 4 case so far? 5 A. That's what I billed. Yes. 6 Q. That's what you billed? 7 A. Yes. 8 Q. That's about 40 percent of the 360,000 a year you 9 make as a Professor of Practice at Cornell? 10 A. Yeah. 11 Q. How much were the taxpayers billed for the work of 12 the lady from Kroll that has been sitting here in the 13 audience. 14 A. I have no idea. 15 Q. How much has Kroll charged the taxpayer for your 16 testimony in this case? 17 A. Just my billings I believe. 18 Q. I'm sorry? 19 A. As far as I understand, just my billings. 20 Q. So Kroll is not making a markup on you? 21 A. No. 22 Q. How do you know that? 23 A. They haven't indicated that. 24 Q. Okay. And how much time has Kroll spent preparing 25 your opinions in this case?	1 A. I do. 2 Q. In your courses, you're not a CPA, right? 3 A. I'm not. 4 Q. You've never taken the CPA exam? 5 A. No. 6 Q. Is it your position that you practice accounting 7 by teaching it at Cornell? 8 A. Yes. 9 Q. Okay. How is that the practice of accounting? 10 A. So the practice of accounting is recognized by the 11 AICPA in a number of different ways; including, in fact, the 12 teaching of accounting. And that's one of the ways to 13 qualify for licensure. 14 Q. "Licensure" being the CPA exam? 15 A. "Licensure" being the CPA license part of which is 16 the exam. 17 Q. Which you've never taken? 18 A. That's correct. 19 Q. So, just to be sure, you haven't qualified as a 20 CPA by teaching courses at Cornell? 21 A. I have qualified to be a CPA. All I would need to 22 do is take the exam. 23 Q. Which you haven't done. 24 A. That's correct. 25 THE COURT: That's the fourth time or so.

E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6733

1 Q. So then --
2 MR. SUAREZ: Well, we're just trying to
3 understand here, Judge, what the basis for his
4 statements on the record are today.
5 THE COURT: That's fine but, don't ask the
6 same question four times Which we already knew from
7 testimony yesterday I believe.
8 Q. Then, you would say that your work at Cornell,
9 teaching accounting, qualifies you to interpret accounting
10 standards?
11 A. I teach students how to interpret accounting
12 standards.
13 Q. Are you aware that your students describe you as
14 the worse professor in the Cornell Accounting program?
15 A. I understand what rate my professor is in
16 cherrypicking.
17 Q. And that your students say that your lectures lack
18 any useful content for assignments or professionally, so you
19 don't learn much?
20 A. Did you pick any good ones for balance?
21 Q. Yeah. Here's a good one. It says, "It's a good
22 class if you want to chill and not learn much."
23 Does that count as a good one?
24 A. I wouldn't say so.
25 Q. Or how about the one that says, "He doesn't teach.

E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6734

1 He only likes to share mid-age crisis life in the class?"
2 You claim --
3 MR. WALLACE: Objection; no question.
4 THE COURT: You need to ask questions not
5 make speeches.
6 Q. Is that reflective of your experience practicing
7 accounting?
8 A. Absolutely, not.
9 Q. All right. So, in connection with your practice
10 of accounting, as a teacher at the Cornell school, you
11 haven't published any works related to ASC 274, correct?
12 A. Correct.
13 Q. In fact, when you go to Google scholar, you can't
14 even find the name Eric Lewis; is that right?
15 A. That's not right when I go there.
16 Q. In reference to you I should say. There are other
17 "Eric Lewis."
18 A. I am in Google Scholar. And a bunch of other --
19 Q. A bunch of other ones?
20 A. Yes.
21 Q. You don't have 14,000 citations in Google scholar,
22 do you?
23 A. No.
24 Q. Do you know how many citations you have in Google
25 Scholar?

E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6735

1 A. I do not.
2 Q. Do you know that it is zero?
3 A. I don't know that it is zero.
4 Q. But you don't know how many you have?
5 A. No.
6 Q. If we pull up ASC 274 -- I just want to clarify
7 what the basis is for certain statements that you made here
8 in Court today under oath.
9 And we can do that by --
10 MR. SUAREZ: Let's pull up the same one that
11 Mr. Wallace used so there is no confusion.
12 MR. WALLACE: 1609.
13 Q. 1609. And here we go. If we can turn to --
14 Let me ask you a simple question. Would you
15 agree, Professor, that regardless of what method or
16 technique one uses to value properties for personal
17 financial statements, at the end of the day, the resulting
18 value must be the amount at which the asset would be
19 exchanged between a willing seller and a willing buyer, both
20 well informed and neither of whom is compelled to buy or
21 sell?
22 A. Yes, that's the definition.
23 Q. That's, actually, not the definition, Professor.
24 MR. SUAREZ: Let's pull up the definition.
25 A. Okay.

E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6736

1 MR. SUAREZ: Can we pull up the definition?
2 Q. You see "estimated current value for an asset.
3 The amount at which the item could be exchanged between a
4 buyer and a seller?"
5 A. Yes.
6 Q. Does the distinction between the term "could" and
7 "would" mean anything to you, Mr. Lewis?
8 A. Sure. So, "could" indicates a possibility as does
9 "would."
10 Q. So, if we go to the glossary definition of
11 estimated current value -- we could pull that up from
12 Plaintiff's Exhibit 1609.
13 Let's just clear something up here. If we go to
14 page two, you said, "The primary focus of personal financial
15 statements is a person's assets and liabilities. And the
16 primary users of personal financial statements normally
17 consider estimated current value information to be more
18 relevant than their historical cost information."
19 Do you see is that?
20 A. I see it. Yeah, you read the first lines of
21 paragraph two.
22 Q. You see here where it says, "Estimated current
23 value" you said it was bold and underlined by FASB?
24 A. Yes.
25 Q. Do you know what a hyperlink is?

<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6737</p> <p>1 A. It is a hyperlink to the definition. 2 Q. It is not that it is bold -- 3 A. It is bold and underlined in paper file. And, 4 it's a hyperlink in the digital document so that you can go 5 to the definition. 6 Q. It's "a hyperlink in the document" now. 7 MR. SUAREZ: If we pull up the glossary 8 definition of estimated current value -- I think we're 9 going to have to pull up the other one because, this 10 one doesn't have it -- at 274-10-20 here. And, we can 11 focus in on that. 12 Q. You see where it says, "glossary?" 13 A. Yes. 14 Q. Then it says, "For an assets, the amount at which 15 the item could be exchanged" -- emphasis on could as mine -- 16 "between a buyer and seller, each of whom is well informed 17 and willing, and neither of whom is compelled to buy or 18 sell." 19 Do you see that? 20 A. I see. 21 Q. When I ask you here what the definition of 22 estimated current value was, you simply repeated the same 23 false definition that the Government has been parroting over 24 and over in this case. 25 A. You repeated it. I didn't hear that you said</p>	<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6739</p> <p>1 "could." 2 As you heard Professor Bartov and, I believe, 3 also, Mr. Flemmons testify that this witness is, 4 apparently, seemingly that "There is no distinction 5 between 'could' and 'would'." Perhaps it's a 6 demonstration of his lack of knowledge. But the point 7 is that the FASB -- 8 THE COURT: Let me jump in. Is this "Could 9 is more future oriented and 'would' is more present 10 oriented?" 11 MR. KISE: Right. "Would" is today. And, 12 if you see, we're going to pullup the definition of 13 "fair market value" and compare them side by side. 14 The definition of "fair market value" means, 15 "What is it today?" 16 "Estimated current value" which, as you've 17 heard the testimony, is a, completely, different 18 concept. It is, as Professor Bartov calls it, the 19 stepchild. It is a very different concept. 20 And it doesn't incorporate terms of 21 "currently" and "today." It is a different concept all 22 together. That's why it has different rules and 23 different guidance. 24 That's why FASB has gone to the trouble of 25 creating two separate definitions. If it was all</p>
<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6738</p> <p>1 "could" rather than "would." And, so, sorry. 2 Q. You're the expert in accounting or that's what 3 we've been asked to believe, right? 4 MR. WALLACE: Objection. 5 MR. SUAREZ: Withdrawn. 6 Q. If you were to tell your students -- if a student 7 were to come in and tell you that the definition, provided 8 in the glossary, of "estimated current value" is "the amount 9 at which an item would be exchanged," would you tell that 10 student that he's wrong? 11 A. We might go look at that together. 12 Q. Okay. And, is that what the ASC 274 says? Does 13 it say, "would" or does it say, "could?" 14 A. It says, "could." 15 Q. So if you used the term "would" it would be an 16 incorrect recitation of what the ASC guidance says, correct? 17 A. Yes. 18 Q. You would agree with me -- 19 THE COURT: Hold on. 20 Witness excuse for a minute. 21 Question for Mr. Suarez or anyone on the 22 team. What difference does it make whether it's 23 "could" or "would" in your opinion. 24 MR. KISE: It's not my opinion. It's the 25 opinion of actual accounting experts the "would" and</p>	<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6740</p> <p>1 supposed to be the same, they would have just used 2 "fair market value." 3 THE COURT: To me it is. I'll leave it at 4 that. Let's get the witness back. 5 Mr. Suarez, do you agree with Mr. Kise? 6 MR. SUAREZ: Yes, sir, your Honor. 7 MR. ROBERT: We always agree with Mr. Kise. 8 MR. KISE: Not always. 9 Q. Now, Mr. Lewis, are you familiar with the other 10 definitions in the accounting standards for value? 11 A. I'm familiar with fair value. 12 Q. What's the definition of fair value? 13 A. You could -- we were just looking at it. So, I'm 14 not going to recite it as a memory test. If you want to 15 show it to me -- 16 Q. In your own words, what's the definition of fair 17 value? 18 A. Fair value looks to establish a market-based 19 approach to valuing an asset by looking at three different 20 levels; one, is an active and engaged market, the second 21 level is a model and the third level is an estimate. The 22 word-for-word definition, I won't try to recite. 23 Q. That's a different value than -- excuse me. 24 That's a different measure of value than estimated 25 current value, correct?</p>

<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6741</p> <p>1 A. It is a different definition. 2 Q. ASC 274 doesn't use fair value, does it? 3 A. ASC 274, no, it does not. 4 Q. And, just like the FASB was precise when it wrote 5 the definition of estimated current value, it wasn't an 6 accident that they didn't just use the definition of current 7 value? 8 A. I think they tried to be precise. 9 Q. So if we go back to ASC 274 and we look at the 10 implementation guidance at ASC 274-10-55, you would agree 11 with me that there is implementation value at 55-7 for 12 future interests and similar assets, right? 13 A. Yes, that's what 55-7 discusses. 14 Q. And there is also implementation guidance for real 15 estate, correct? 16 A. Yes. 17 Q. And the implementation guidance for future 18 interest and similar assets is different than the one for 19 real estate, right? 20 A. Yes. 21 Q. But in your mind or at least according to what 22 you've told the Court today, you believe that those 23 implementation guidelines have to, somehow, be harmonized 24 with the glossary definition of estimated current value? 25 A. With the definition, yes, I don't think that 55-6</p>	<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6743</p> <p>1 A. Where it says that assets must be presented at 2 current -- at estimated current fair current value. 3 Q. You are misunderstanding my question. So I will 4 try to ask it better. 5 Where does it say, in ASC 274, that the 6 implementation guidance has to be harmonized with the 7 definition in the glossary? 8 A. Where it says that assets must be presented at 9 estimated current value. 10 Q. Point it out to me. Because, I don't see where it 11 says what you're saying that it says. 12 A. Okay. 13 THE COURT: Can we put it on the screen. 14 Q. I understand that there is a different glossary 15 definition. But, where does it say, in this definition, 16 that, the glossary definition overrides the implementation 17 guidelines? 18 A. In 35-1. At 274-10-35-1. 19 Q. Where it says, "Personal financial statement shall 20 present assets at their estimated current values and 21 liabilities of their estimated current amounts on the date 22 of the financial statements?" 23 A. Yes. 24 Q. Where does it say that the glossary definition 25 trumps the implementation guidelines?</p>
<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6742</p> <p>1 and 55-7 -- because, they're specialty areas, they both go 2 back up to 55-1. 3 Q. They don't both go back up to 55-1. 4 A. According to you? 5 Q. No, according to you. 6 A. No, they do go back up to 55-1. 7 Q. You are the teacher and account, right? 8 A. According to me, they go back up to 55-1. And 9 these are specialty areas. Four, six and seven say, "If you 10 have this kind of asset, here are some things you should 11 consider." 12 Q. And they all have to fit back within the 13 definition -- is it your view that they all have to fit back 14 within the definition in the glossary? 15 A. Of estimated current value? 16 Q. Yes. 17 A. Absolutely. 18 Q. I'm sorry? 19 A. Yes. 20 Q. Where does it say that? 21 A. The definition is part of the standard. 22 Q. Not the question I asked. 23 Where does it say that in ACS 274? 24 A. In the definition. 25 Q. Where does it say that?</p>	<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6744</p> <p>1 A. That is the glossary. You've got your hyperlink 2 there to the glossary definition that's telling you they are 3 going to be presented at estimated current value. 4 The implementation guidance tells you how you 5 might seek to establish an estimated current value. 6 Q. The hyperlink which previously you discussed was 7 FASB's effort to underline, in bold, the glossary 8 definition -- 9 A. In the document. 10 Q. In the document. 11 A. You saw how it worked -- 12 Q. So now, if we were to read into the definition the 13 fact that "Because there is a hyperlink, that trumps all the 14 other guidance" -- 15 MR. WALLACE: Objection. At this point, 16 he's just arguing with the witness. 17 A. In 35-1, it tells you how the assets are going to 18 be presented. 19 THE COURT: "Withdrawn" since he's 20 answering? 21 MR. WALLACE: I think he should stop arguing 22 with the witness. But he seems to have answered the 23 question to the extent there was a question. 24 THE COURT: I'll deem it withdrawn. 25 So, go ahead.</p>

<p>E.Lewis - Plaintiff - Cross/Mr.Suarez Page 6745</p> <p>1 Q. It doesn't say -- you would agree with me that it 2 does not say, in ACS 274-10-35-1, that, the glossary 3 definition overrides the implementation guidance? 4 MR. WALLACE: Objection. This has been 5 asked and answered. 6 THE COURT: I will let him answer. 7 A. I think it's, exactly, what it says. 8 Q. You would agree with me it doesn't, actually, say 9 those words? 10 A. The literal words, no. 11 Q. The literal words are not there. That's your 12 interpretation of what it says? 13 A. I think it is a lot of people's interpretation. 14 Q. I'm not asking about a lot of people. I don't 15 think you are here on behalf of a lot of people. I think 16 you're here on behalf of yourself. 17 Answer me this, that's based on your 18 interpretation of ASC 274, correct? 19 A. Correct. 20 Q. You're interpreting it because, it doesn't say it, 21 right? 22 A. I guess the answer is yes. 23 (Whereupon, the following proceedings were 24 stenographically recorded Shameeka Harris.) 25</p>	<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6747</p> <p>1 because you have promised and Mr. Kise has promised that we 2 would be finished by, let's say, 12:50 or so. By the way, 3 would there be any redirect of the rebuttal? 4 MR. WALLACE: So far no. 5 THE COURT: So I am going to be very liberal. It's 6 your time. If you think this is the best way you can use 7 it, go ahead. 8 CONT'D CROSS-EXAMINATION 9 BY MR. SUAREZ: 10 Q All right. So, can you cite to any accounting 11 literature that supports your opinion? 12 A This is the accounting literature. 13 Q This is your interpretation of the accounting 14 literature? 15 A That we're looking at the accounting literature. 16 Q Can you cite to any scholarly articles that support 17 your opinion? 18 A No. 19 Q Can you cite to any interpretive guidance that supports 20 your opinion? 21 A This is the guidance. 22 Q I understand that that's what you think ASC 274 says. 23 I am asking you outside of ASC 274 is there any academic work 24 that supports your opinion? 25 A I don't believe there is any academic work that doesn't</p>
<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6746</p> <p>1 CROSS-EXAMINATION 2 BY MR. SUAREZ: 3 Q When in the real world -- withdrawn. 4 You haven't actually been asked to interpret this 5 definition in the real world outside of this case in a 6 classroom, have you? 7 A This case in a classroom would be those occasions. 8 Q You have no real world experience outside of this case 9 in a classroom as to how that definition is applied? 10 MR. WALLACE: Objection. Asked and answered and 11 the question is unclear. 12 THE COURT: Let's stay with the asked and answered. 13 Q Do you have any other real world experience other than 14 in a classroom and in this case interpreting ASC 274? 15 MR. WALLACE: Objection. Asked and answered. 16 MR. SUAREZ: I asked him about the specific one and 17 this time I was asking him about generally. 18 If you would agree with me, Mr. Wallace, if that's 19 the case, I guess I don't need to ask anything further. You 20 want to stipulate to that? 21 THE COURT: Yes or no, do you want to stipulate? 22 MR. WALLACE: I am standing on my objection. I am 23 not withdrawing the objection. 24 THE COURT: You know, I try to be a practical 25 judge. Mr. Suarez, I am giving you all sorts of leeway</p>	<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6748</p> <p>1 or contradicts it. 2 Q Not what I asked. 3 A No, I don't know of any. 4 Q Do you know of any guidance promulgated by FASB that 5 supports your opinion? 6 A This is the guidance by FASB. 7 Q Other than ASC 274? 8 A Other than ASC 274, no. The ASC 274 is the guidance. 9 Q Are you aware of any guidance by the AICPA that 10 supports your opinion? 11 A The AICPA writes guidance on performance standards for 12 accountants. 13 Q The answer is no? 14 A They don't write the standards so the answer is no. 15 Q Would you agree with me that Mazars had an obligation 16 to read and understand the supporting data provided in 17 connection with its preparation of the compilation reports? 18 A Not the supporting data, not the statement themselves. 19 Q Would you agree with me that Mazars has an obligation 20 to understand the basis of valuation for each asset listed in 21 the statement of financial condition? 22 A I believe they have the obligation to understand the 23 basis. 24 Q Yes or no? 25 A Yes.</p>

<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6749</p> <p>1 Q Would you agree with me that they must also confirm 2 that the valuation method is consistent with the definition of 3 estimated current value? 4 A It's not a yes or no answer. I can give a short 5 answer. 6 Q Yes or no? 7 A Then no. 8 Q You know who disagrees with you, Professor, the general 9 counsel of Mazars who sat here and testified exactly the 10 opposite than you did. 11 MR. WALLACE: Objection. That's not a question. I 12 think if he wants to present the testimony from the general 13 counsel of Mazars, he should do that through the form of a 14 question and an answer and not a representation. 15 THE COURT: It's stricken because it is just a 16 representation without being a question. 17 Q Well -- 18 THE COURT: You can try to prove that. 19 MR. SUAREZ: His inconsistent answer is not 20 stricken. My question as to whether he is aware that Mazars 21 did is, correct? 22 A I can reconcile it for you if you would like. 23 Q See here where it says on page 2150 of the trial 24 transcript, "And you would agree with me that Mazars has an 25 obligation to understand the basis of valuation for each asset</p>	<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6751</p> <p>1 A I disagree with that. 2 Q Okay. So you disagree with the general counsel of 3 Mazars. Perfect. We can take this down. 4 MR. WALLACE: We are not supposed to say okay at 5 the end of the question. I think perfect is also 6 inappropriate. 7 MR. SUAREZ: He just impeached your own witness. I 8 think that's pretty perfect. 9 THE COURT: That's separate. I have maintained, 10 during the whole trial, the questioner should not listen to 11 an answer and then say okay, perfect, yes. Just do the next 12 question. Ask the next question. 13 Q We can go back to the trial transcript. If I could 14 just draw your attention back to the question. "You would agree 15 with me that Mazars had an obligation to read and understand the 16 supporting data provided in connection with preparing the 17 compilation of a statement of financial condition?" 18 Do you see that? 19 A I do. 20 Q Did you read the supporting data? 21 A Some of the supporting data. 22 Q But not all of it? 23 A Not all of it. 24 Q Okay. 25 THE COURT: Try not to say okay.</p>
<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6750</p> <p>1 listed in the statement of financial condition." 2 A Correct. 3 Q "And confirm that the valuation method is consistent 4 with the definition of estimated current value?" Do you 5 disagree with the general counsel of Mazars? 6 A I don't disagree with the second part of it. 7 Q So you don't disagree that Mazars had an obligation to 8 confirm that the valuation method is consistent with the 9 definition of estimated current value? 10 A The method that was presented to them as having been 11 the valuation method, I don't disagree with that. 12 Q That's not what that says. 13 A That's not what that says. 14 Q You are reading words into it again? 15 A So it is either not a complete question or not a 16 complete answer. 17 Q He seems to understand it? 18 A Okay. 19 Q He is a general counsel of Mazars. He actually works 20 in an accounting firm. Then it says, you would agree that -- 21 "you would agree that Mazars has an obligation to confirm that 22 the notes to a statement of financial condition are consistent 23 to the supporting data when preparing an accountant's 24 compilation report, correct?" 25 Do you agree with that?</p>	<p>Professor Lewis - by Plaintiff - Cross (Mr. Suarez) Page 6752</p> <p>1 MR. SUAREZ: I'm sorry. That wasn't on purpose 2 this time. 3 Q Let's take a look at ARC 88, Defendant's Exhibit 26 4 that you just reviewed with Mr. Wallace. Can we take a look at 5 page 4 at section 13. Section 13, compilation procedure says, 6 "The accountant should read the financial statements in light of 7 the accountant's understanding of the applicable financial 8 reporting framework and the significant accounting policies 9 adopted by management and consider whether such financial 10 statements appear to be appropriate in form and free from 11 obvious material misstatements." 12 Do you see that? 13 A Yes, I do. 14 Q Would you agree that that's a standard? 15 A I agree that that is the performance standards. 16 Q And would you agree that Mazars had an obligation to 17 comply with that standard? 18 A Absolutely. 19 Q And that Mazars, in fact, look at the supporting data? 20 A This doesn't reference the supporting data. 21 Q My question is would you agree with me that Mazars, in 22 fact, looked at the supporting data? 23 A I believe they did. I think that's fair. 24 Q But you didn't? 25 A I looked at some of it.</p>

Professor Lewis - by Plaintiff - Cross (Mr. Suarez)	Page 6753	Proceedings	Page 6755
<p>1 Q But not all of it?</p> <p>2 A Right.</p> <p>3 Q So then Mazars would have an obligation to consider if</p> <p>4 the financial statements are free of obvious material</p> <p>5 misstatements, correct?</p> <p>6 A If they have the appearance of being free of obvious</p> <p>7 material --</p> <p>8 Q They would have an obligation to consider if the</p> <p>9 financial statements are free of obvious material misstatements</p> <p>10 under the standards, do you agree with that?</p> <p>11 A No, that's not what it says.</p> <p>12 Q That's not based on -- that's based on your real world</p> <p>13 experience?</p> <p>14 A It's based on reading the standards.</p> <p>15 Q Okay. Which you have interpreted in the real world how</p> <p>16 many times other than in this case?</p> <p>17 A A whole bunch of times.</p> <p>18 Q In the real world outside of your classroom?</p> <p>19 MR. WALLACE: Objection. Asked and answered.</p> <p>20 THE COURT: Sustained. Asked and answered many</p> <p>21 times.</p> <p>22 Q Did they teach you how to read the standards in</p> <p>23 engineering school?</p> <p>24 A Who's they?</p> <p>25 Q Whoever you learned -- withdrawn.</p>		<p>1 mentioned on Friday.</p> <p>2 As to the posttrial, we plan to do our submissions</p> <p>3 as we have done to the Court before in the same format. We</p> <p>4 would just ask for, as I believe, as you did with the</p> <p>5 summary judgement, that the word limit, if there is going to</p> <p>6 be a word limit, it be 25,000 words which I think is what we</p> <p>7 had for summary judgement. I think.</p> <p>8 THE COURT: What's the --</p> <p>9 MR. WALLACE: No objection to that number. I don't</p> <p>10 know that the rules call for -- it's not technically. I</p> <p>11 assume we are putting in findings of fact -- proposed</p> <p>12 findings of fact and conclusions of law. I'm sure whatever</p> <p>13 word limits the Court would like to use -- I think that -- I</p> <p>14 think that was built in to my question, Your Honor, or my</p> <p>15 statement. It wasn't a question with perhaps I should have</p> <p>16 asked based on Mr. Wallace.</p> <p>17 We were planning to proceed as we have done before</p> <p>18 with filing likes the summary judgement filing or the</p> <p>19 dismissal papers, not findings of fact and conclusions of</p> <p>20 law. If the courts want -- it's whatever the Court wants.</p> <p>21 Some judges find that far more cumbersome to work with than</p> <p>22 briefs, but I'll leave that to your discretion.</p> <p>23 THE COURT: Any opinion on this?</p> <p>24 MR. WALLACE: No strong preferences, Your Honor.</p> <p>25 THE COURT: I would like findings of fact and</p>	
Professor Lewis - by Plaintiff - Cross (Mr. Suarez)	Page 6754	Proceedings	Page 6756
<p>1 MR. SUAREZ: Give me one second, Your Honor.</p> <p>2 THE COURT: Sure.</p> <p>3 Q Professor, would it surprise you to learn that a Derek</p> <p>4 Jeter baseball card recently traded for over \$600,000?</p> <p>5 A That doesn't surprise me at all.</p> <p>6 Q So under your example, you would've got an estimated</p> <p>7 current value was wrong?</p> <p>8 MR. SUAREZ: I withdraw the question. I have</p> <p>9 nothing further.</p> <p>10 MR. WALLACE: No redirect, Your Honor.</p> <p>11 THE COURT: Derek Jeter was such an amazing player.</p> <p>12 It doesn't surprise me. We are excusing the witness. Let's</p> <p>13 start with that. Witness, you are excused.</p> <p>14 (Whereupon, the witness was excused from the</p> <p>15 stand.)</p> <p>16 THE COURT: Any other housekeeping besides the</p> <p>17 reminder that briefs -- posttrial briefs are due January 5th</p> <p>18 and oral argument will be 10 o'clock January 11th. We will</p> <p>19 be in our regular courtroom 418.</p> <p>20 MR. WALLACE: For procedure, I will just confirm</p> <p>21 the People rest.</p> <p>22 THE COURT: I should have asked for that.</p> <p>23 MR. KISE: For the record, at the close of their</p> <p>24 rebuttal case, we, on behalf of all defendants, again, move</p> <p>25 for a directed verdict. We'll submit the papers as we</p>		<p>1 conclusions of law because that's what I'll be doing.</p> <p>2 MR. KISE: Then we don't need to deal with word</p> <p>3 limits, as Mr. Wallace said, there is no word limits</p> <p>4 associated with those kind of filings that I am aware of.</p> <p>5 Not that we are going to exceed the number, it is technical</p> <p>6 point.</p> <p>7 THE COURT: 50 pages is a limit.</p> <p>8 MR. KISE: I think I would rather go with word</p> <p>9 limits because pages. I'd rather to go back to the</p> <p>10 25,000 words that we had for summary judgement.</p> <p>11 MR. WALLACE: No objection to that.</p> <p>12 MR. KISE: Probably will work out to be about the</p> <p>13 same but...</p> <p>14 THE COURT: All right. So, what was it? How many</p> <p>15 words 25,000 words?</p> <p>16 MR. AMER: Was there a time for when the filings</p> <p>17 need to be made.</p> <p>18 MR. WALLACE: It was noon, I believe.</p> <p>19 MR. AMER: Just to confirm that on the record.</p> <p>20 THE COURT: Did we say noon?</p> <p>21 MR. AMER: I think we said noon.</p> <p>22 MR. KISE: Do we want noon, okay?</p> <p>23 THE COURT: Is there still an open matter about the</p> <p>24 Allen Weisselberg docs that we just recently spoke about?</p> <p>25 MR. WALLACE: We need to send Your Honor -- it does</p>	

Proceedings

Page 6757

1 not affect our resting of the case. We'll send you where we
2 left things with the documents. It is immaterial to us
3 closing our case, Your Honor.

4 THE COURT: That's it.

5 MR. KISE: I'm not sure about the prosecution, we
6 certainly, as defense, would like to thank the Court for
7 taking all the time that it did in the case. We most
8 particularly would like to thank the court reporters who
9 diligently worked and all of the court officers that are
10 here that expended a considerable amount of time and I think
11 overtime. So on behalf of the defendants, we certainly
12 thank all of them that participated in what is truly an
13 extraordinary effort even in the New York State court
14 system.

15 MR. WALLACE: At the end of case, we finally found
16 a point of an agreement between the plaintiffs and the
17 defendants. So we share their position.

18 THE COURT: I think the most amazing part of the
19 case, the one that I was happiness with is that we actually
20 got to trial on October 2nd come hell or high water written
21 in stone. I know how much work that took, all the reports,
22 depositions, motions. And so I wish you all a happy holiday
23 season and see you next year.

24 MR. WALLACE: Thank you, Your Honor.

25 MR. KISE: Thank you.

Page 6758

1 (Whereupon, the trial is adjourned until Thursday,
2 January 11, 2024, at 10 o'clock a.m.)

- VII. Tolling Agreement 97

Pursuant to Section 202.8-g(b) of the Uniform Civil Rules for the Supreme Court and County Court and the Court's Order dated June 9, 2023 (NYSCEF No. 636), Plaintiff the People of the State of New York, by their attorney, Letitia James, Attorney General of the State of New York ("OAG"), submit the following response to Defendants' Statement of Material Facts ("Defs.' Statement"):

General Objections:

1. Defendants have either failed to maintain and preserve or failed to produce documents that would establish certain factual assertions made here. For example, Defendants assert that "Mr. Trump previously served as a Trustee for the [Donald J. Trump Revocable] Trust for a period of time." *See infra* ¶ 1. Defendants, however, have failed to produce complete records of the trust, including the specific periods of time when Mr. Trump and others were Trustees. Faherty Opp. Aff. at ¶¶ 4-7.¹ Similarly, Defendants assert that Jeffrey McConney "was employed as the Controller of the Trump Corporation until 2021." *See infra* ¶ 5. However, they have failed to produce any severance agreement signed by Mr. McConney, or any evidence that such an agreement exists and dictates the terms of Mr. McConney's severance payments. Faherty Opp. Aff. at ¶¶ 8-11. Accordingly, Plaintiff objects to Defendants' assertion of a material fact that is based on documents demanded by Plaintiff, but which Defendants could not produce.

2. Throughout Defendants' Statement of Material Facts, Defendants refer to Donald J. Trump as "President Trump." Plaintiff asserts a general objection to the repeated use of such defined

¹ The citations in this document use the following format: (i) cites to "Pl.'s Statement ¶ ___" are to paragraphs in Plaintiff's 202.8-g Statement filed in support of Plaintiff's motion for partial summary judgment (NYSCEF No. 767); (ii) cites to "Pl.'s Statement Ex. ___" (from nos. 1 to 421) are to the exhibits listed and attached to the Faherty Affirmation previously filed in support of Plaintiff's motion for partial summary judgment (NYSCEF No. 768); and (iii) cites to "Ex. ___" (starting with no. 1001) are to the exhibits listed and attached to the Affirmation of Colleen K. Faherty In Support of Plaintiff's Opposition to Defendants' Motion for Summary Judgment ("Faherty Opp. Aff.") being served simultaneously with this response.

term because that shorthand factually mischaracterizes Mr. Trump's status for the time period prior to Jan. 20, 2017, as well as periods after Jan. 20, 2021 (when Mr. Trump became the "former President"). See Former Presidents Act, Pub. L. 85-745, 3 U.S.C. § 102 note, available at <https://www.archives.gov/about/laws/former-presidents.html> (defining "former President" as a person "(1) who shall have held the office of President of the United States of America; (2) whose service in such office shall have terminated other than by removal pursuant to section 4 of article II of the Constitution of the United States of America; and (3) who does not then currently hold such office.") Plaintiff generally disputes the use of this abbreviation when it is factually inaccurate, even when that objection is not stated specifically.

3. Plaintiff generally objects to and otherwise disputes Defendants' reliance on Mr. Trump's 2021 Statement of Financial Condition ("SFC" or "SOFC") (NYSCEF No. 15) in Paragraphs 18-44, *infra*, as evidence for any assertions of undisputed material fact, given the evidence that information set forth in Mr. Trump's SOFCs is often unreliable, misleading and/or false. See, e.g., Response to Defs.' Statement ¶ 44, *infra*.

Specific Objections and Responses to Defendants' Statement of Material Facts:

I. Parties

1. Donald J. Trump ("President Trump") is the 45th President of the United States and the sole beneficiary of The Donald J. Trump Revocable Trust dated April 7, 2014, as amended (the "Trust"). Robert Aff., Ex. A ("Compl.")¹ ¶¶ 29–30. President Trump previously served as a Trustee for the Trust for a period of time. See, e.g., Robert Aff., Ex. AAA. President Trump also served as President and Chairman of the Trump Organization, Inc. and Trump Organization, LLC until January 19, 2017. NYSCEF No. 501 ¶ 29.

RESPONSE: Undisputed that Mr. Trump was the 45th President of the United States between Jan. 20,

2017 and Jan. 20, 2021. It is further undisputed that Mr. Trump is the sole beneficiary of The Donald J. Trump Revocable Trust dated April 7, 2014, as amended (the “Trust”) and has served as a Trustee for the Trust; however, Defendants have failed to document the structure of and amendments to the Trust, including the specific time periods when Mr. Trump and others served as Trustees. *See supra*, Gen. Obj. ¶ 1.

Defs’ Statement Footnote 1: Citations to the Complaint by paragraph number in support of averments made in this Statement of Undisputed Material Facts are intended only to provide support for such averments, and are not intended to adopt all allegations set forth in the cited paragraph as undisputed facts.

RESPONSE: To the extent that Defendants cite to the Complaint as evidence for facts that the parties agree are undisputed, Plaintiff accepts these factual representations, which have been signed and sworn to by Defendants’ counsel, as formal judicial admissions that are binding on all Defendants. *See Morel ex rel. Hernandez v. Schenker*, 64 A.D.3d 403, 403 (1st Dep’t 2009) (“[A]dmissions made by counsel on behalf of their clients are binding”).

2. Donald Trump, Jr. is a trustee of the Trust, Compl. ¶ 38, and served, or currently serves, as the Executive Vice President (“EVP”) for various corporate entities held by the Trust, NYSCEF No. 501 ¶ 32; Compl. ¶ 31, Ex. 2.

RESPONSE: Undisputed.

3. Eric Trump is Chairman of the Advisory Board of the Trust, Compl. ¶ 35, and served, or currently serves, as the EVP for various corporate entities held by the Trust, NYSCEF No. 501 ¶ 32; Compl. ¶ 31, Ex. 2.

RESPONSE: Undisputed.

4. Allen Weisselberg was employed as the Chief Financial Officer of the Trump Corporation from 2003 until July 2021. NYSCEF No. 501 ¶ 37. Mr. Weisselberg also served as Trustee for the Trust beginning on or about 2017 through 2021. NYSCEF No. 501 ¶ 38. On January 20, 2021, Mr. Weisselberg was removed as Trustee for the Trust. *See* Robert Aff. at Ex. AP.

RESPONSE: Undisputed that Allen Weisselberg served as Chief Financial Officer of the Trump Corporation but disputed to the extent that admitted fact implies his role within the Trump Organization was limited to the Trump Corporation. *See, e.g.*, Plaintiff’s Rule 202.8-g Statement of Material Facts (“Pl.’s Statement”) ¶¶ 710-735. Further disputed to the extent the assertion implies Mr. Weisselberg left the employ of the Trump Organization in July 2021. Mr. Weisselberg testified he retained the role of Senior Advisor after his guilty plea. Ex. 1001 at 291-293. Moreover, Mr. Weisselberg’s severance agreement—between him and “The Trump Corporation, and/or its parents, subsidiaries, affiliates, and related entities,” and produced by counsel in this action to OAG—states that his employment ended on December 30, 2022 and that he remains subject to obligations as a condition of receiving severance over a period of years. Ex. 1002. That agreement is dated January 9, 2023.

5. Jeffrey McConney was employed as the Controller of the Trump Corporation until 2021. Compl. ¶ 39; NYSCEF No. 501 ¶ 39.

RESPONSE: Disputed because the cited evidence does not support the representation that Mr. McConney ceased to be the Controller in 2021. Jeffrey McConney was still employed by the Trump Organization as of February 28, 2023 and signed a severance agreement. Ex. 1003 at 345:15-347:23, 351:20-353:07. Moreover, Mr. McConney’s email signature block on communications related to Trump Organization financial records included the title of “SVP/Controller” and listed the Trump Organization’s business address (725 5th Avenue, New York, NY 10022) as late as November 2022. Ex.

1004.²

6. The Trust is a Florida trust that was created under the laws of the state of New York and owns various companies for the exclusive benefit of President Trump. NYSCEF No. 501 ¶ 30.

RESPONSE: Undisputed

7. The Trump Organization, Inc. is a New York entity. NYSCEF No. 501 ¶ 27.

RESPONSE: Undisputed

8. Trump Organization LLC is a New York entity. NYSCEF 501 ¶ 27.

RESPONSE: Undisputed

9. DJT Holdings LLC is a Delaware limited liability company with a principal place of business in New York. Compl. ¶ 27(c).

RESPONSE: Undisputed

10. DJT Holdings Managing Member is a Delaware limited liability company registered to do business in New York. Compl. ¶ 27(d).

RESPONSE: Undisputed

11. Trump Endeavour 12 LLC is a Delaware limited liability company that owns Trump National Doral. Compl. ¶ 28(a); NYSCEF No. 501 ¶ 28.

RESPONSE: Undisputed except to note the correct spelling is Trump Endeavor 12 LLC. *See* Pl. Statement Ex. 254 at 1.

12. 401 North Wabash Venture LLC is a Delaware limited liability company that owns Trump International Hotel & Tower Chicago. Compl. ¶ 28(b); NYSCEF No. 501 ¶ 28.

RESPONSE: Undisputed

13. Trump Old Post Office LLC is Delaware limited liability company that held a ground

² As noted *supra*, Gen. Obj. ¶ 1, Defendants have failed to either preserve or produce a severance agreement for Mr. McConney.

lease to operate Trump International Hotel, Washington, DC. Compl. ¶ 28(c); NYSCEF No. 501 ¶ 28.

RESPONSE: Undisputed

14. 40 Wall Street LLC is a New York limited liability company that holds a ground lease for 40 Wall Street, New York, NY. Compl. ¶ 28(d); NYSCEF No. 501 ¶ 28.

RESPONSE: Undisputed

15. Seven Springs LLC is a New York limited liability company that owns the Seven Springs property located within the towns of Bedford, New Castle, and North Castle in Westchester County, New York. Compl. ¶ 28(e); NYSCEF No. 501 ¶ 28.

RESPONSE: Undisputed

16. The Donald J. Trump Revocable Trust, The Trump Organization, Inc., Trump Organization LLC, DJT Holdings LLC, DJT Holdings Managing Member, Trump Endeavor 12 LLC, 401 North Wabash Venture LLC, Trump Old Post Office LLC, 40 Wall Street LLC, and Seven Springs, LLC are all distinct entities. *See* Robert Aff., Ex. S (“Pereless Dep.”) 148:13– 152:8.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Further disputed because all entities within the Trump Organization are under common control and financially interdependent. As the Trump Organization’s Assistant Controller, Donna Kidder, testified, “Prior to Donald Trump becoming President of the United States, everything that needed funding for properties that he owned would flow through him And if there was a distribution for excess cash, the chain would have flowed the same way only up to DJT, Donald J. Trump.” Ex. 1003 at 103:25-104:10. Donna Kidder further testified that, after Mr. Trump became President, funding for properties that required funding would have come from the Trust and distributions from properties with positive cash flow could have distributed funds to the Trust through a variety of other entities. Ex. 1003 at 104:22-107:6. Donna Kidder further testified, for example, that she typically obtained weekly updates from Trump Organization properties regarding their cash positions because they might either have excess cash that

could be swept to headquarters or require funding for their operations, and that she would “fund” such requests. Ex. 1003 at 246:19-248:15.

II. Relevant Assets

17. Below is a list of the relevant assets listed in the SOFCs that are beneficially owned by President Trump. *See generally* Compl. at Exs. 3–13.

RESPONSE: No response needed.

a. Cash and Cash Equivalents

18. Figures for cash and cash equivalents represent amounts held by President Trump and amounts in operating entities. NYSCEF No. 15, p.4.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, as the cited 2021 SOFC does not accurately represent the cash and cash equivalents that were under Mr. Trump’s control. *See* Pl.’s Statement ¶¶ 384 – 406 and accompanying exhibits; *see also* General Objections ¶ 3, *supra*.

b. Real and Operating Properties

19. **Trump Tower.** Trump Tower is a sixty-eight-story mixed used property located at 725 Fifth Avenue in New York, NY. NYSCEF No. 15, p.10. The building has commercial space, which includes residential condominiums owned by the residents. NYSCEF No. 15, p.10; Compl. ¶ 51(c). The property includes the Manhattan flagship retail location of Gucci America Inc., as well as office tenants such as IOCC Industries, Inc., S.S. Steiner, Inc., and Industrial and Commercial Bank of China. NYSCEF No. 15, p.10.

RESPONSE: Undisputed that Trump Tower is a commercial and residential property located at 725 Fifth Avenue in New York, NY, except that Defendants’ own records—as provided to Allen Weisselberg by email—state that the height of Trump Tower according to the Certificate of Occupancy on file with

the New York City Department of Buildings is 58 stories and 661 feet. Ex. 1005; Ex. 1006 at -67.

20. **Trump Tower Triplex.** This is a triplex apartment on the top three floors of Trump Tower. NYSCEF No. 15, p.16.

RESPONSE: Undisputed.

21. **Niketown.** Niketown represents two long-term ground leasehold estates for the land and building located between Fifth and Madison Avenues and principally on 57th Street in New York City. NYSCEF No. 15, p.10; Compl. ¶ 51(e). The property, leased to NIKE Retail Services Inc., is subleased to Tiffany & Co as its flagship store. NYSCEF No. 15, p.10.

RESPONSE: Undisputed, except that the cited sublease is described in the cited document as a temporary sublease to Tiffany & Co. while it performed major renovations on its flagship store.

22. **40 Wall Street.** 40 Wall Street is a 72-story tower located in lower Manhattan that contains a mix of office and retail space. NYSCEF No. 15, p.11; Compl. ¶¶ 51(f), 113. 40 Wall Street LLC owns the long-term ground lease for this property. NYSCEF No. 15, p.11.

RESPONSE: Undisputed, except that certificate of occupancy filings in the Trump Organization's possession state that 40 Wall Street is 70 stories tall, and other Trump Organization documents state the building is only leasable up to the 63rd floor. Ex. 1007; Ex. 1008.

23. **Trump Park Avenue.** Trump Park Avenue is a property consisting of 134 residential condominium units that range from one to seven bedrooms. NYSCEF No. 15, p.11. The property also includes three commercial condominium units containing approximately 30,000 square feet of commercial space. NYSCEF No. 15, p.11.

RESPONSE: Undisputed except to the extent the asserted fact suggests that Mr. Trump or the Trump Organization own 134 residential units or that none are rent-stabilized. *See* Pl.'s Statement ¶¶ 336-363. The backup material for the Trump Park Avenue valuation for the 2012 Statement, for example, identifies only 21 units (Pl.'s Statement Ex. 147), and the backup material for that property's valuation for the 2021

Statement identifies only 17 units (Pl.'s Statement Ex. 156).

24. **Mansion at Seven Springs.** Seven Springs is a property in Bedford, New York, consisting of over 200 acres of land, a mansion, and other buildings. NYSCEF No. 15, p.16. A portion of the land is encumbered by a conservation easement. NYSCEF No. 15, p.16. Seven Springs LLC owns the Seven Springs property. NYSCEF No. 15, p.16. Compl. ¶ 51(h).

RESPONSE: Undisputed except that the Seven Springs Property is in the towns of Bedford, North Castle, and New Castle, New York, as acknowledged previously by Defendants. *See supra* ¶ 15.

25. **Trump International Hotel & Tower, Chicago (“Trump Chicago”).** Trump Chicago is a condominium-hotel building located in Chicago, Illinois. Compl. ¶ 51(i). 401 North Wabash Venture LLC owns the building doing business as Trump Chicago. Compl. ¶ 28(b).

RESPONSE: Undisputed.

26. **Trump Old Post Office, Washington, DC (“OPO”).** OPO refers to the Old Post Office on Pennsylvania Avenue in Washington, D.C. Compl. ¶ 51(j). In February 2012, Trump Old Post Office LLC was awarded a ground lease from the General Services Administration (“GSA”) to redevelop the “Old Post Office” on Pennsylvania Avenue in Washington, D.C. Compl.

¶¶ 51(j), 626.

RESPONSE: Undisputed.

27. **The Mar-a-Lago Club (“Mar-a-Lago”).** Mar-a-Lago is an exclusive, private club consisting of 117 rooms in Palm Beach, Florida. NYSCEF No. 15, p.4. Mar-a-Lago features a 20,000 square foot Louix [sic] XIV style ballroom, dining, tennis courts, a spa, cabanas, and guest cottages. NYSCEF No. 15, p.4.

RESPONSE: Undisputed that Mar-a-Lago is a private club in Palm Beach, Florida, and otherwise disputed as unsupported by the cited evidence.

28. **Trump National Golf Club in Briarcliff Manor (“TNGC Briarcliff”).** TNGC

Briarcliff is a golf club in Briarcliff Manor, New York. NYSCEF No. 15, p.5.

RESPONSE: Undisputed.

29. **Trump National Golf Club in Hudson Valley (“TNGC Hudson Valley”).** TNGC

Hudson Valley is a golf club in Hopewell Junction, New York. NYSCEF No. 15, p.7.

RESPONSE: Undisputed.

30. **Trump National Golf Club, Jupiter (“TNGC Jupiter”).** TNGC Jupiter is a golf club

located just north of Palm Beach, Florida. NYSCEF No. 15, p.8.

RESPONSE: Undisputed.

31. **Trump National Golf Club, Los Angeles (“TNGC LA”).** TNGC LA is a golf club

located on the bluffs of the southernmost point of the Palos Verdes Peninsula in California. NYSCEF No. 15, p.5.

RESPONSE: Undisputed.

32. **Trump National Golf Club, Bedminster (“TNGC Bedminster”).** TNGC

Bedminster is a 580-acre golf club in Bedminster, New Jersey. NYSCEF No. 15, p.6.

RESPONSE: Undisputed that TNGC Bedminster is a golf club in Bedminster, New Jersey. The acreage figure is disputed by other records prepared by the Trump Organization or its agents. Ex. 1009 at -44; Ex. 1010.

33. **Trump National Golf Club, Washington, DC (“TNGC DC”).** TNGC DC is a golf

club outside of Washington, DC. NYSCEF No. 15, p.6.

RESPONSE: Undisputed.

34. **Trump National Golf Club, Philadelphia (“TNGC Philadelphia”).** TNGC

Philadelphia is a 365-acre property with views of the Philadelphia skyline in Pine Hill, New Jersey. NYSCEF No. 15, p.7.

RESPONSE: Undisputed.

35. **Trump National Golf Club, Charlotte (“TNGC Charlotte”).** TNGC Charlotte is a golf club located in Mooresville, North Carolina. NYSCEF No. 15, p.8.

RESPONSE: Undisputed.

36. **Trump National Doral (“Doral”).** Doral is a golf club located on over 650 acres in Doral, Florida. NYSCEF No. 15, p.7. Trump Endeavor 12 LLC owns the property doing business as Trump Doral. Compl. ¶ 28(a).

RESPONSE: Undisputed.

37. **Trump International Golf Club, Scotland, Aberdeen (“Trump Aberdeen”).** Trump Aberdeen is a golf club located on over 1,200 acres on the Northeast Coast of Scotland. NYSCEF No. 15, p. 9.

RESPONSE: Undisputed.

38. **Trump International Golf Club in Scotland, Turnberry (“Trump Turnberry”).** Trump Turnberry is a golf club located in South Ayrshire, Scotland. NYSCEF No. 15, p.9. Trump Turnberry is home to the renowned Ailsa golf course, which hosted the Open Championship in 1977. NYSCEF No. 15, p.9.

RESPONSE: Undisputed.

39. **Trump National Golf Club, Colts Neck (“TNGC Colts Neck”).** TNGC Colts Neck is a golf club located in Colts Neck, New Jersey. NYSCEF No. 15, p.6.

RESPONSE: Undisputed

40. **Palm Beach Properties.** This includes three properties in Palm Beach, Florida: 1094 South Ocean Boulevard, 124 Woodbridge Drive, and 1125 South Ocean Boulevard. Robert Aff., Ex. V (“Donald Trump Dep.”) at 225–227.

RESPONSE: Undisputed

c. Partnerships and Joint Ventures

41. **1290 Avenue of the Americas in New York, NY (“1290 Avenue of the Americas”)** and **555 California Street in San Francisco, California (“555 California Street”)** (collectively, **“Vornado Partnership Interests”**). In May 2017, President Trump and Vornado Realty Trust became partners in two properties: 1290 Avenue of the Americas and 555 California Street. NYSCEF No. 15, p.14. 1290 Avenue of the Americas consists of an office tower and retail space containing approximately 2,000,000 leasable square feet and 555 California Street consists of one retail and two office buildings comprising approximately 1,700,000 leasable square feet along with a subterranean garage. NYSCEF No. 15, p.14.

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence, including because the cited document states that Mr. Trump and Vornado became partners in these two properties in 2007.

42. **Trump International Hotel and Tower, Las Vegas, Nevada (“Trump Las Vegas”)**. Trump Las Vegas is a luxury hotel condominium tower near the Las Vegas Strip that was built in a joint venture with Phillip Ruffin. NYSCEF No. 15, p.15. The property is the tallest hotel condominium tower in Las Vegas with over 1,200 hotel condominium units. NYSCEF No. 15, p.15.

RESPONSE: Undisputed that Trump Las Vegas is a hotel condominium building located at 2000 Fashion Show Drive, Las Vegas, Nevada, and that it was built in a joint venture with Philip Ruffin; otherwise disputed. Concerning the building’s height, an appraisal prepared by an agent of the Trump Organization states that the building is approximately 624 feet tall. Ex. 1011 at -847. Whether that figure is taller than other buildings or hotel condominium towers in Las Vegas is immaterial but not established by the cited evidence.

d. Real Estate Licensing Developments

43. Figures for real estate licensing developments represent expected cash flow to be derived from associations with developers of quality property seeking to do business with President

Trump because of his skill and reputation. NYSCEF No. 15, p.16.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted facts. Further disputed because the amounts shown on the SOFC under “Real Estate Licensing Developments” include intercompany contracts that are not with outside developers, as well as purely speculative projections. *See* Pl.’s Statement ¶¶ 419-437 and supporting exhibits.

III. The Statements of Financial Condition

44. The 2011 through 2021 Statements of Financial Condition of Donald J. Trump were annual compilation reports which identified and described the assets and liabilities of President Trump, and later, of the Trust, and provided President Trump’s net worth (hereinafter, “SOFC” or “SOFCs”). NYSCEF No. 501 ¶ 51; Compl. ¶¶ 6, 52–54.

RESPONSE: Undisputed that the 2011 through 2021 Statements of Financial Condition of Donald J. Trump were annual compilation reports that purported to describe the assets and liabilities of Mr. Trump and the Trust as well as Mr. Trump’s net worth, but disputed that they did so truthfully and accurately and without misleading content, including for the following reasons.

Plaintiff’s valuation experts, Constantine Korologos and Laurence Hirsh, have provided guidance regarding the real estate valuation methodologies used and the respective conclusions of estimated current value provided in Mr. Trump’s SFCs for each of the years 2011 through 2021. Ex. 1012 ¶ 1; Ex. 1013 at 2. Mr. Korologos analyzed the valuation methodologies provided in the defendant’s estimated current values conclusions, and adjusted them giving consideration for inconsistencies, omissions, non-market methodologies applied and factually incorrect assumptions, for certain commercial and real estate properties listed in Mr. Trump’s SFCs for each of the years 2011 through 2021. Ex. 1012 ¶ 1. Mr. Korologos concluded that “[t]he values of certain assets listed in the SOFCs contain inconsistencies, omissions, and misleading information, and do not utilize methodologies and procedures used by

informed buyers and sellers in the marketplace and are therefore unreliable and misleading.” Ex. 1012 ¶ 15. By taking Defendants’ valuations as a starting point and adjusting for discernable factual or methodological errors (such as Defendants’ failure to discount cash flows to estimate current value, use of low unsupported cap rates, and use of incorrect square footage values), Mr. Korologos concluded that these adjustments resulted in “significant reduction in value for the assets that [he] assessed” was warranted. Ex. 1012 ¶ 15. Mr. Korologos then calculated a range of values reflecting the minimum estimated overstatement of value for each of the properties he considered. *See* Ex. 1012 ¶¶ 87 (40 Wall Street); 105 (Trump Tower); 119 (Niketown); 135 (Trump Park Avenue); 152 (Vornado Partnerships); 165 (Seven Springs); 177 (Triplex); 188 (TNGC-LA Subdivision); 198 (TNGC-Briarcliff Subdivision); 219 (Aberdeen Residential Development).

Mr. Hirsh similarly identified significant discrepancies between the valuation methods employed by Defendants when valuing golf and club properties on Mr. Trump’s SOFCs and “generally accepted valuation methodology” used by buyers and sellers of such properties. *See* Ex. 1013 at 15-24. Using the SFCs’ valuations as a starting point and correcting for identifiable errors, Mr. Hirsh concluded that “the Statements of Financial Condition contain gross overstatements of golf club property values, which would likely be greater once an analysis of membership refund liability is completed and once an analysis of deferred maintenance was done.” Ex. 1013 at 43. Mr. Hirsh then estimated a range of potential value overstatements by applying valuation methodologies accepted in the golf property marketplace to Defendants’ own data, including the application of a market-based capitalization rate to net operating income for profitable courses and clubs (the Overall Rate or “OAR” method) and the application of a Gross Income Multiplier (or “GIM”) to revenues for properties, including those with a negative cash flow. Ex. 1013 at 9-10, 12-13. Mr. Hirsh concluded that “[c]umulative value differences for the properties range from roughly \$655.3 million to \$1.45 Billion (OAR) and \$740.3 million to \$1.3 Billion (GIM), depending on the year examined.” Ex. 1013 at 43.

OAG also asked accounting professor and expert Eric Lewis to review the valuation opinions of Mr. Korologos and Mr. Hirsh. Prof. Lewis assumed “that the highest values listed for the assets examined in Mr. Korologos’ and Mr. Hirsh’s reports are the appropriate adjusted amount of current value for purposes of my analysis.” Ex. 1014 ¶ 138. Using this conservative approach to the valuation expert reports, and after considering only “the impact of the misstatements of value relating to the real estate assets reviewed by Mr. Korologos and Mr. Hirsh” but not “other material misstatements that are not considered in this analysis but would impact users of the Statements,” Prof. Lewis concluded that Mr. Trump’s SFCs “contained material misstatements regarding certain real estate assets” in each of the years between 2011 and 2021. Ex. 1014 ¶ 138-39.

Based on this analysis, Prof. Lewis identified a “total minimum overstatement” of Mr. Trump’s net worth as stated in the SFCs between 2011 and 2021 of between \$1.46 billion and \$2.94 billion depending on the year being evaluated. *See* Ex. 1014 ¶¶ 143-164. By taking the SFCs’ statements of Mr. Trump’s net worth and subtracting the “total minimum overstatement” identified through the work of Mr. Korologos, Mr. Hirsh and Prof. Lewis, OAG’s banking expert Michiel McCarty further calculated an adjusted net worth for Mr. Trump ranging from \$1,943,690,000 in 2011 to \$3,070,648,756 in 2021. *See* Ex. 1015 ¶ 30.

45. Mazars, an accounting firm, compiled the SOFCs until 2020. Compl. ¶ 53.

RESPONSE: Undisputed

46. Another accounting firm, Whitley Penn, LLP, compiled the 2021 SOFC. Compl. ¶ 59

RESPONSE: Undisputed

47. The asset values were prepared by personnel who were, in some instances, working in conjunction with outside professionals. Compl. ¶ 54; NYSCEF No. 15, p.3.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Further disputed because the cited evidence references the work of accounting firms Mazars and Whitley Penn in compiling the SOFCs, whereas the SOFCs falsely and misleadingly claimed that Mr. Trump and other Defendants had valued his properties in conjunction with “outside professionals.” *See, e.g.,* Pl.’s

Statement ¶¶ 108-113 and supporting exhibits. Mazars and Whitley Penn, by the very nature of their working relationship in compiling the SOFCs, cannot have been the “outside professional” referenced in the SOFCs as “working in conjunction” with Trump Organization personnel to prepare asset values. *See* Pl.’s Statement ¶¶ 1-27 and supporting exhibits.

By contrast, evidence shows that Defendants’ specific claims to have worked with outside professionals to value their assets for the SOFCs were false and misleading. For example, when an appraiser with Cushman & Wakefield was shown workpapers representing that he had provided a cap rate used to value Trump Tower in the 2016 SOFC, he testified that he had not provided the cap rate, that it was not being used appropriately in the valuation, and that it would be “inaccurate” for the SOFC and supporting papers to assert that he worked in conjunction with anyone at the Trump Organization to perform a valuation of Trump Tower in 2016—he performed no such work. Ex. 1016 at 143:16-147:20.

48. The asset values were then forwarded to the accounting firm, who would then use that data, among other things, to generate a compilation report of those valuations (*i.e.*, the SOFC). Compl. ¶¶ 6, 54; NYSCEF No. 501 ¶ 61.

RESPONSE: Undisputed except as to the vague phrase “among other things,” which Defendants inserted in one or more of their answers without clarification. NYSCEF No. 501 ¶ 61.

49. In addition to providing a schedule of assets and liabilities, the SOFC provided President Trump’s net worth as of June 30 of the year it covered. Compl. ¶ 6.

RESPONSE: Undisputed that the SOFC listed certain assets and liabilities, and purported to provide Mr. Trump’s net worth as of June 30 of the year it covered, but disputed that the net worth figure was true and accurate or otherwise not misleading. *See supra*, Response to Defs.’ Statement ¶ 44.

50. Unlike public companies, “private companies in the US need not prepare financial statements based on GAAP. However, for a variety of reasons (e.g., obtaining financing) private companies may choose to follow GAAP and although not subject to an external audit requirement, private

companies may choose voluntarily to have their financial statements audited.” Robert Aff., Ex. AK (“Bartov Aff.”), Ex. A (“Bartov Expert Report”) ¶ 20.

RESPONSE: Undisputed, but this statement is not a material fact.

51. Nonetheless, the SOFCs were prepared pursuant to GAAP in compilation format in accordance with Accounting Standards Codification (“ASC”) 274. *See* Bartov Expert Report ¶ 32; Robert Aff., Ex. AI (“Flemmons Aff.”), Ex. A (“Flemmons Expert Report”) ¶ 25.

RESPONSE: Undisputed that the SOFCs contain language stating that they were prepared in accordance with GAAP, and undisputed that they were prepared pursuant to compilation engagements, but disputed that the SOFC’s actually complied with ASC 274 or otherwise complied with GAAP. *See* Ex. 1014 ¶¶ 61-137 (concluding that while “Mr. Trump consistently represented that his financial statements were prepared and fairly presented in accordance with GAAP,” the SOFCs in fact included significant departures from GAAP that “had a material impact on the financial statements and were not adequately disclosed by Mr. Trump in his Statements”).

52. ASC 274 establishes “estimated current value” as the “valuation standard applicable to personal financial statements.” Bartov Expert Report at ¶ 33.

RESPONSE: Undisputed.

53. Under GAAP preparers of financial statements have significant latitude when reporting asset values. Flemmons Expert Report at 4–7.

RESPONSE: Disputed as vague and unsupported by the cited evidence. Further disputed as contrary to the language of ASC 274, which requires that valuation methods “provide a satisfactory basis for determining the estimated current value of an asset” and which requires “sufficient disclosures to make the statements adequately informative.” *See* Ex. 1014 ¶¶ 32-34, 63. Prof. Bartov similarly testified that any method used to determine a value for a Statement of Financial Condition must have the “goal of reaching estimated current value” and the “principle of estimated current value.” *See* Robert Aff. Ex. AJ

at 338:13-19, 340:11-16.

54. “GAAP does not require a specific method to be used to estimate current value for a particular asset for personal financial statements, nor does GAAP require the same method to be used for all assets in the same group.” Flemmons Expert Report ¶ 31.

RESPONSE: Disputed, because under GAAP estimated current value must be determined using methods that reflect a potential exchange between a buyer and seller, each of whom is well-informed and willing, and neither of whom is compelled to buy or sell. *See* Ex. 1014 ¶¶ 32-34, 63. Prof. Bartov similarly testified that any method used to determine a value for a Statement of Financial Condition must have the “goal of reaching estimated current value” and the “principle of estimated current value.” *See* Robert Aff. Ex. AJ at 338:13-19, 340:11-16.

55. Estimated current value “affords preparers substantial latitude in the selection of asset valuation models and the assumptions underlying those models.” Bartov Expert Report ¶ 33.

RESPONSE: Disputed, because under GAAP estimated current value must be determined using methods that reflect a potential exchange between a buyer and seller, each of whom is well-informed and willing, and neither of whom is compelled to buy or sell. *See* Ex. 1014 ¶¶ 32-34, 63 (citing ASC Topic 274). Prof. Bartov testified that any method used to determine a value for a Statement of Financial Condition must have the “goal of reaching estimated current value” and the “principle of estimated current value.” *See* Robert Aff. Ex. AJ at 338:13-19, 340:11-16. Mr. Flemmons similarly testified that the valuation techniques listed in ASC 274 are intended to “meet that estimated current value definition,” which is “the value at which an asset could be exchanged between a buyer and a seller.” Robert Aff. Ex. AH at 86:2-91:12.

56. In a compilation engagement, an accountant provides no assurance or opinion with his or her services. Flemmons Expert Report at 8.

RESPONSE: Undisputed.

57. “A compilation does not contemplate performing inquiry, analytical procedures, or other procedures performed in a review.” *Id.* (quoting AR § 80.03).

RESPONSE: Undisputed.

58. Accordingly, each SOFC states “[w]e have not audited or reviewed the accompanying financial statement and, accordingly, do not express an opinion or provide any assurance about whether the financial statement is in accordance with the accounting principles generally accepted in the United States of America.” Compl. at Ex. 3, p.1.

RESPONSE: Disputed because the SFCs for individual years contain different language, but undisputed that certain SOFCs contain this quotation. *See* Pl.’s Statement Exs. 1-11.

59. The SOFCs also explicitly note that they contain departures from GAAP. Compl. ¶ 60, Ex. 3–13, p.1; *see also* Bartov Expert Report ¶ 46.

RESPONSE: Undisputed.

60. The Independent Accountants’ Compilation Report included with each SOFC explicitly warns users that due to the “significance and pervasiveness” of GAAP departures in the SOFCs, users “might reach different conclusions about the financial condition of Donald J. Trump if they had access to a revised statement of financial condition prepared in conformity with accounting principles accepted in the United States.” *See, e.g.*, Compl. at Ex. 3 at p.2.

RESPONSE: Disputed as an inaccurate and misleading citation of the language quoted here. The quote from the Independent Accountants’ Compilation Report cited in this paragraph states in full: “Because the significance and pervasiveness *of the matters discussed above* make it difficult to assess their impact on the statement of financial condition, users of this financial statement should recognize that they might reach different conclusions about the financial condition of Donald J. Trump if they had access to a revised statement of financial condition *without the above referenced exceptions* to accounting principles generally accepted in the United States of America.” Pl.’s Statement Ex. 1 at p. 2 (emphasis added). The

reference to “matters discussed above” in the compilation report refers to the SFCs’ representations of GAAP compliance but for expressly enumerated departures. Thus, no user was warned of any undisclosed GAAP departure.

61. This paragraph constitutes the “highest level of warning an accountant can raise in its communication to users when there are significant departures from GAAP.” Flemmons Expert Report ¶ 59.

RESPONSE: Disputed as vague and misleading because the cited paragraph does not affect Mr. Trump’s obligation to identify and disclose each known departure from GAAP in his personal financial statement, and because the SFCs included numerous undisclosed departures from standard accounting principles that inflated the value of Mr. Trump’s assets and net worth. *See* Ex. 1014 ¶¶ 61-68.

62. “While it is customary for the accountants’ report to be addressed to the client, accounting standards establish that the users of the financial statements expand far beyond the client, including investors, vendors considering executing a contract with the company, banks seeking to lend to the entity, among many other purposes.” Flemmons Expert Report ¶ 40.

RESPONSE: Undisputed.

63. Additionally, “GAAP acknowledges that *immaterial* financial statement items do not need to comply with all the detailed requirements of GAAP, and thus allows preparers a reasonable level of flexibility in applying GAAP.” Bartov Aff., Ex. B (“Bartov Rebuttal Report”) ¶ 54 (emphasis added).

RESPONSE: Disputed, including because the departures from GAAP that Mr. Trump failed to disclose in his personal financial statement were material under the applicable accounting standards. *See* Ex. 1014 ¶¶ 61-68.

64. “[F]or an omission or misstatement in the financial statements to be material through the lens of a user, the user must *rely* on the information in the financial statements in his/her decision-

making process.” *Id.* ¶ 63 (emphasis in original).

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Furthermore, disputed because Prof. Bartov is purporting to proffer legal analysis and opinion (*see* Robert Aff. Ex. AK, Ex. B ¶¶ 58-61) which is improperly presented as fact and is not an admissible use of expert testimony. *See Measom v. Greenwich & Perry St. Hous. Corp.*, 268 A.D.2d 156, 159 (1st Dep’t 2000) (“Expert testimony as to a legal conclusion is impermissible.”). Furthermore, disputed that the assertion accurately characterizes “materiality” as defined by applicable accounting standards. *See* Ex. 1014 ¶¶ 44-45, 140-142.

65. Viewing the SOFCs through the lens of a user like Deutsche Bank, “the SOFCs did not contain material misstatements.” Bartov Rebuttal Report ¶ 174.

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence, which is opinion testimony that includes inadmissible legal argument and lacks an evidentiary foundation. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d 542, 544 (2002) (“Where the expert's ultimate assertions are speculative or unsupported by any evidentiary foundation . . . the opinion should be given no probative force and is insufficient to withstand summary judgment.”); *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d 327, 327 (1st Dep’t 2006) (finding that expert affidavit has no probative value on summary judgment where it “contained speculative, conclusory assertions” and “cited to various broad or inapt . . . rules, regulations and standards”); *Measom v. Greenwich & Perry St. Hous. Corp.*, 268 A.D.2d at 159.

Further disputed because the Deutsche Bank credit risk officer who had credit issuance authority, and who bore responsibility, for approving the recommendations made by lending officers on loans to the Trump Organization testified that the bank would likely have declined the Doral loan had he been aware of only a select number of specific misstatements identified and demonstrated through evidence shown to him by OAG. *See* Ex. 1017 at 177:25-178:19; 194:2-12; 195:19-196:15. That bank official also testified (i) he was “shocked at the numbers reported on Mr. Trump’s financial statement” for 40 Wall Street given

the then-existing appraised values of that property; and (ii) had he learned of discrepancies between net operating income figures used in appraisals of 40 Wall Street and those used for Mr. Trump's SFCs, he would have questioned the accuracy of other information provided and would have asked whether the bank should continue doing business with Mr. Trump. *See* Ex. 1017 at 237:2-241:25.

Similarly, Plaintiff's expert witness Michiel McCarty has concluded, based on his banking experience and his review of the record in this case, that "if during the loan evaluation process by DB's PWM Group of the first loan for Doral, the Statements had been found to be purposely false and misleading, the Doral loan and those that followed would not have been approved." Ex. 1015 ¶ 40. Mr. McCarty further opines, based on his review of the PWM underwriting memos in this record, that Deutsche Bank would likely not have approved the low interest rate PWM loans to the Trump Organization if it had performed its underwriting analysis using adjusted net worth figures provided by Plaintiff's valuation and accounting experts "in place of the inflated figures found in Mr. Trump's Statements of Financial Condition." *Id.* ¶¶ 41-47.

IV. Transactions with Lenders and Insurers

66. The SOFCs were submitted in connection with the loans with Deutsche Bank's Private Wealth Management division for the Doral, Chicago, and OPO properties, the loan with Ladder Capital for the 40 Wall Street property, the loan with Royal Bank of America/Bryn Mawr for the Seven Springs property, the surety bond program with Zurich North America, and the Directors & Officers ("D&O") liability coverage with Tokio Marine HCC Insurance Company. *See infra* §§ IV(a)-(f).

RESPONSE: Undisputed

67. In analyzing the SOFCs, banks are aware that the SOFCs are "truly an estimate" and they provide "knowledge to a reader and the user more than anything for them to be able to make their own informed decision." Robert Aff., Ex. AL ("Unell Dep.") 195:7-196:18, Unell Dep. 175:20-22

("[L]enders are trained not to rely on" SOFCs, "which is why the independent analysis in the credit memo is done.").

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, and because Defendants submitted those Statements knowing that the banks relied on the SFCs' data in order to analyze Mr. Trump's personal guaranty as set forth in the banks' credit memos. *See infra* ¶¶ 105; 106; 110; 126; 127; 149. Further disputed because lenders including Deutsche Bank expect and rely on their clients to provide financial information that is "fairly" presented and "true and correct." *See* Robert Aff. Ex. P at 300:19-301:9; Robert Aff. Ex. S at 53:7-22; Ex. 1018 ¶¶ 11-17 (opining that "[t]he accuracy of the Statements of Financial Condition (SOFCs) was a crucial foundation to the Deutsche Bank Private Wealth Management approval process," and that Deutsche Bank "relied upon numbers from the SOFCs, as well as variables from other sources" in its underwriting calculations).

68. The SOFCs are a "roadmap" for banks to do their own independent analysis (Unell Dep. 197:2-11) and are just one of many factors that banks use to approve loan transactions and provide loan terms. Robert Aff., Ex. AM ("Unell Aff."), Ex. A ("Unell Expert Report") ¶ 6.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, but undisputed that SFCs can be one factor that banks use when determining whether to approve loan transactions and provide loan terms.

69. Banks also consider "loan-to-value, cash flow, debt service coverage ratio, and the experience of the borrower in operating similar assets" in determining the pricing of loans. Unell Expert Report ¶ 6.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, but undisputed that the cited factors may be used by banks to determine the price of loans under certain circumstances.

70. "SOFCs provide ample information . . . for a sophisticated lender to be able to make. . .

their own determination,” as those documents “provide the actual amounts” and “how they were calculated” such that if any bank had concerns, it “had an opportunity to challenge those assumptions that were utilized in the preparation of the SOFC.” Unell Dep. 112:12–113:2.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, and because the assertion is contradicted by the record. For example, the SFCs identify categories of assets represented to be worth billions, or hundreds of millions, of dollars with category-wide valuations; thus, for the assets in those categories, no “actual amounts” were disclosed nor do the SFCs disclose “how they were calculated.” *See* Pl.’s Statement Exs. 1-11 (categories of “Club Facilities and Related Real Estate” and “Other Assets”). Similarly, the 2014 SFC notes on Trump Tower represented that the property was valued by “applying a capitalization rate to the cash flow to be derived from the building operations,” but failed to provide the actual NOI or capitalization rate needed to evaluate that calculation. Robert Aff. Ex. AH at 126:17-128:18. The notes in the SFCs also provided inaccurate information about calculations, for example by misstating the method used to value Niketown in the 2011, 2012 and 2013 SFCs. Robert Aff. Ex. AI, Ex. B ¶¶ 51-54; Ex. 1014 ¶ 94.

71. Additionally, banks are focused on the collateral itself as the primary source of repayment in loan transactions. Unell Expert Report ¶ 7.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

a. Deutsche Bank

72. Beginning in 2011, President Trump and his businesses commenced a relationship with a Deutsche Bank Private Wealth Management division (“PWM”) banker. Compl. ¶ 563.

RESPONSE: Undisputed.

73. To qualify as a customer of the PWM division, an individual generally needed to have a minimum total net worth of over \$50 million. *See* Robert Aff., Ex. AAD (“Sullivan Dep.”) 100:2–8;

Robert Aff., Ex. AAE at 16. (“Typical borrowers will have a net worth of over \$50 million).

RESPONSE: Undisputed.

74. Pricing on loans made to PWM customers was according to an internal pricing grid based on the particular type of collateral involved. Robert Aff., Ex. P (“Williams Dep.”) at 210:17–213:15.

RESPONSE: Undisputed, with the clarification that the Deutsche Bank (“DB”) Private Wealth Management (“PWM”) pricing grid applied only to recourse loans supported by a personal guaranty, and that non-recourse loans based on the same collateral would be priced much differently. *See* Pl.’s Statement ¶¶ 440-44, 461-70, 499-503, 543-49 and supporting exhibits. DB PWM employees and former employees deposed by Defendants testified that PWM approved and priced its loans based on the financial resources of the individual client, and not primarily based on the collateral as would have been the case for a non-recourse loan made by the investment bank’s commercial real estate division. *See* Robert Aff. Ex. P at 180:17-181:23 (testifying that the “distinction between lending on commercial real estate within Wealth Management as opposed to lending secured by commercial real estate in the investment bank” was that “[w]ithin Wealth Management, we’re focused . . . predominantly on the individual first. In the investment bank, the approach is to the commercial real estate asset primarily.”); Robert Aff. Ex. S at 353:7-356:12; Robert Aff Ex. AAD at 229:19-230:17.

75. The pricing grid “provides a range of spread over LIBOR . . . depending on the collateral type of the credit transaction.” *Id.* at 210:23–25.

RESPONSE: Undisputed, with the clarification that the DB PWM pricing grid applied only to recourse loans supported by a personal guaranty, and that non-recourse loans based on the same collateral would be priced much differently. *See* Pl.’s Statement ¶¶ 440-44, 461-70, 499-503, 543-49 and supporting exhibits. Furthermore, DB PWM employees and former employees deposed by Defendants testified that PWM approved and priced its loans based on the financial resources of the individual client, and not primarily based on the collateral, as would have been the case for a non-recourse loan made by the

investment bank's commercial real estate division. *See* Robert Aff. Ex. P at 180:17-181:23; Robert Aff. Ex. S at 353:7-356:12; Robert Aff Ex. AAD at 229:19-230:17.

76. Interest rates may have deviated lower than the recommended amount for “competitive reasons,” and would not be subject to an upward deviation to a range higher than listed on the pricing grid absent a determination that “that the risk commensurate with a particular credit transaction warrant[ed] charging a higher rate[.]” *Id.* at 213:2–214:5

RESPONSE: Undisputed, with the clarification that the DB PWM pricing grid applied only to recourse loans supported by a personal guaranty, and that non-recourse loans based on the same collateral would be priced much differently. *See* Pl.'s Statement ¶¶ 440-44, 461-70, 499-503, 543-49 and supporting exhibits.

77. The factors that PWM looked at when pricing a loan were the collateral, risk, and cost of funding. *Id.* at 214–215.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, including because PWM would only price recourse loans supported by a personal guaranty, but undisputed that Mr. Williams testified that “collateral type,” “risk rating” and “[t]he bank’s internal cost to funds” are among the criteria used in loan underwriting.

78. The PWM pricing grid indicated a price of 2-2.5% above LIBOR for commercial real estate collateral in the Americas, as applicable to President Trump. *Id.* at 271:16–25; Robert Aff., Ex. AB.

RESPONSE: Undisputed, with the clarification that the DB PWM pricing grid applied only to recourse loans supported by a personal guaranty, and that non-recourse loans based on the same collateral would be priced much differently. *See* Pl.'s Statement ¶¶ 440-44, 461-70, 499-503, 543-49 and supporting exhibits. Further clarification that PWM approved and priced its loans primarily based on the financial resources of the individual client, rather than the collateral as would have been the case for a non-recourse

loan made by the investment bank's commercial real estate division. *See* Robert Aff. Ex. P at 180:17-181:23; Robert Aff. Ex. S at 353:7-356:12; Robert Aff Ex. AAD at 229:19-230:17.

79. President Trump's financial profile qualified him to be at the lower range of the pricing guidelines contained on the grid—even potentially qualifying him for a downward deviation—and this pricing would not have changed even if President Trump's net worth was \$1 billion. *Id.* at 272:20–275:17. Mr. Williams was of the opinion that a net worth of \$1 billion would not have affected the pricing on the loans, even when compared to a net worth of \$4.3 billion, because a net worth in excess of 1 billion constitutes a strong borrower or guarantor. *Id.* at 274:6– 17.

RESPONSE: Disputed as vague and because the cited evidence (which includes objectionable, speculative deposition testimony that was prompted by leading questions and incomplete hypotheticals) fails to support the asserted facts. Further disputed because the Deutsche Bank credit risk officer who bore responsibility for approving the recommendations made by lending officers (including Mr. Williams) testified that the bank would likely have declined the Doral loan had he been aware of specific misstatements identified in OAG's Complaint and documented by the evidence submitted in support of Plaintiff's Statement of Material Facts. *See* Ex. 1017 at 177:25-178:19; 194:2-12; 195:19-196:15; 237:2-241:25. Similarly, Plaintiff's expert witness Michiel McCarty concluded, based on his banking experience and his review of the record in this case, that “if during the loan evaluation process by DB's PWM Group of the first loan for Doral, the Statements had been found to be purposely false and misleading, the Doral loan and those that followed would not have been approved.” Ex. 1015 ¶ 40. Mr. McCarty further opines, based on his review of the PWM underwriting memos in this record, that Deutsche Bank would likely not have approved the low interest rate PWM loans to the Trump Organization if it had performed its underwriting analysis using adjusted net worth figures provided by Plaintiff's valuation and accounting experts “in place of the inflated figures found in Mr. Trump's Statements of Financial Condition.” Ex. 1015 ¶¶ 41-47.

80. In Deutsche Bank's view, President Trump “had a verifiable net worth in a top tier of

the regional market.” *Id.* at 160:14–161:7.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

81. Ultimately, when it came to pricing, Deutsche Bank’s “goal is to remain within the range set forth in th[e] pricing grid[.]” *Id.* at 274:2–4.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

82. At all times, Deutsche Bank believed that President Trump had “a proven successful track record in the United States commercial real estate market.” *Id.* at 125:2–6.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

Further disputed as overbroad considering the history of prior loan defaults and litigation between Mr. Trump and Deutsche Bank. *See* Ex. 1018 ¶ 22-23.

83. In total, Trump guaranteed three loans with Deutsche Bank’s PWM division: (1) the Trump National Doral loan for Trump Endeavor 12 LLC (“Doral loan”), (2) the Trump International Hotel & Tower Chicago loan for 401 North Wabash Venture LLC (“Chicago loan”), and (3) the Old Post Office Hotel loan for Trump Old Post Office LLC (“OPO loan”). *See infra* §§ IV(a)(i)–(iii).

RESPONSE: Undisputed.

84. As part of the due diligence process for these loans, Deutsche Bank lenders met with Jeff McConney and reviewed bank statements representing liquid assets and synthesized that information into the Deutsche Bank prepared credit memos. *Pereless Dep.* 165:23–167:7.

RESPONSE: Undisputed.

85. Deutsche Bank was “[c]omfortable with the level of assets” that President Trump held and was “comfortable that the recordation of that amount of liquid assets that were included in the credit memo” were “accurate.” *Pereless Dep.* 167:8–168:8.

RESPONSE: Disputed as vague and because the cited testimony does not support the asserted fact, and because Defendants misrepresent the testimony of the former Deutsche Bank employee whose deposition

is quoted here. *See* Robert Aff. Ex. S at 167:8-19:

Q. And as you sit here today, any recollection of having any level of uncertainty about the amount of President Trump's liquid assets based on the due diligence review you performed on these two or three or four occasions?

MR. LADOV: Objection.

A. Yeah, I don't think they ever equaled the amount exactly that would be on the personal financial statement, but I think they did come close. It was enough to -- that we were comfortable.

86. Deutsche Bank also applied “haircuts” to the values listed on the SOFCs. Haircuts are “[d]iscounts to clients’ stated values” (Williams Dep. 31:6–7) that are meant to serve as an “adverse scenario analysis” to determine “what happens if the client’s financial position is under stress.” Robert Aff., Ex. O (“Haigh Dep.”) 148:8–21.

RESPONSE: Undisputed.

87. These haircuts are Deutsche Bank’s independent assessments of value that it calculates during its application of “stresses” on the client’s reported asset values (Pereless Dep. 265:4–8) to determine a “conservative value” (Pereless Dep. 224:22–225:8) of the asset.

RESPONSE: Disputed that Deutsche Bank’s “haircuts” constitute “independent assessments of value,” but undisputed that the bank applied standard “haircuts” or “stresses” to a client’s reported asset values to determine a “conservative” or “adverse scenario analysis” that “is trying to see what happens if the client’s financial position is under stress.” *See* Robert Aff. Ex. S at 224:3-225:8; Ex. 1017 at 75:11-77:10; 79:7-24; 148:6-149:21; Robert Ex. O at 147:15-148:21.

88. A “haircut” thus results in an “adjusted value,” otherwise synonymous with the “DB adjusted” value. Pereless Dep. 224:11–21.

RESPONSE: Undisputed.

89. Deutsche Bank was “focused on [its] own independent view, so [it] didn’t spend a lot of time determining . . . what was disclosed.” Sullivan Dep. 83:19–84:13.

RESPONSE: Disputed because the assertions are vague and because the cited evidence does not support

the asserted fact, but undisputed that the bank “didn’t spend a lot of time determining . . . what was disclosed” because it expected its clients to submit accurate information. *See* Robert Aff. Ex. P at 300:19-301:9; Robert Aff. Ex. S at 53:7-22; Ex. 1018 ¶¶ 11-17.

90. Ultimately, Deutsche Bank was “comfortable with the assessment [it] did independently.” Sullivan Dep. 84:4-13.

RESPONSE: Disputed because the assertions are vague and because the cited evidence does not support the asserted fact, but undisputed that Deutsche Bank’s internal credit memos recommended approval of loans to the Trump Organization based on the information known to the bank at the time, including the information provided by Mr. Trump’s SOFCs. *See infra* ¶¶ 105; 106; 110; 126; 127; 149 (admitting that Deutsche Bank’s underwriting relied upon values provided in Mr. Trump’s SOFCs); Ex. 1018 ¶¶ 11-17 (opining that “[t]he accuracy of the Statements of Financial Condition (SOFCs) was a crucial foundation to the Deutsche Bank Private Wealth Management approval process, and that Deutsche Bank “relied upon numbers from the SOFCs, as well as variables from other sources” in its underwriting calculations); Robert Aff. Ex. S at 206:4-6 (when asked about underwriting review at 2023 deposition, responding that “I don’t have a view other than we supported the facility at the time.”).

91. In fact, “Deutsche Bank had ample opportunity to investigate anything” in the SOFCs, as “Deutsche Bank had ample material listed in the Statement of Financial Condition to make their own informed decision.” Unell Dep. 110:25-113:18.

RESPONSE: Disputed because the assertions are vague and the cited evidence fails to support the asserted fact. Further disputed because the cited expert opinion testimony lacks a foundation in evidence and therefore should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

Further disputed because the assertion that a bank has an “opportunity to investigate anything” in the SOFCs conflicts with the standard business practices that apply to a bank’s review of non-collateral

assets. As defendants' expert Mr. Unell testified at deposition, banks must take personal financial statements at "face value":

As a lender, you don't go into something with the idea that it's wrong. You take it for -- you trust your client. You take it for worth. They are the ones that know these assets better than anybody. They're non-collateral assets. You don't go get an appraisal on non-collateral assets. It's unrealistic. It's too time consuming, too costly, et cetera.

Robert Aff. Ex. AL at 178:18-179:2, 179:24-180:3. Deutsche Bank accordingly did not conduct an appraisal or any comparable independent valuation for non-pledged commercial real estate assets owned by Mr. Trump. *See* Robert Aff. Ex. S at 128:25-130:7; 236:25-238:21. Deutsche Bank instead expected and relied on Mr. Trump to provide financial information that was "fairly" presented and "true and correct." *See* Robert Aff. Ex. P at 300:19-301:9; Robert Aff. Ex. S at 53:7-22.

92. Even if the allegations in the Complaint were true, "the net worth was still sufficient to qualify for inclusion in the private wealth bank" and liquidity is "material" to the bank and that the bank "went and verified it." Unell Dep. 110:25-112:5.

RESPONSE: Disputed because the assertions are vague and the cited evidence fails to support the asserted fact. Further disputed because the cited expert opinion testimony lacks a foundation in evidence and therefore should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d 542 at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. Further disputed because the cited expert testimony is inadmissible as evidence to support Defendants' legal claims concerning the materiality of misstatements in their SFCs. *See Measom v. Greenwich & Perry St. Hous. Corp.*, 268 A.D.2d at 159.

93. Generally, materiality "is in the eye of the beholder, not the eye of a third party, not the eye of a regulator, not the eye of, in this case, the Attorney General" and Deutsche Bank "did what they were supposed to do and verified" certain items and "anything else would have been immaterial." Unell Dep. 190:9-17.

RESPONSE: Disputed because the assertions are vague and the cited evidence fails to support the

asserted fact. Further disputed because the cited expert opinion testimony lacks a foundation in evidence and therefore should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d 542 at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. Further disputed because the cited expert testimony is purporting to offer an opinion concerning “materiality” from the perspective of a regulatory or enforcement agency; such testimony lacks foundation and is inadmissible as a legal opinion. *See Measom v. Greenwich & Perry St. Hous. Corp.*, 268 A.D.2d at 159.

94. “[T]he information in the Compilation Reports did not impact Deutsche Bank’s decisions whether or not to extend loans to Defendants and what interest rate to require.” Bartov Expert Report ¶ 107.

RESPONSE: Disputed because the assertions are vague and the cited evidence fails to support the asserted fact. Further disputed because Prof. Bartov lacks any experience in commercial banking or underwriting, Robert Aff. Ex. AJ at 142:13-24, and his unsupported opinion that Mr. Trump’s SFCs were immaterial to Deutsche Bank’s lending decisions is contrary to the evidence and therefore inadmissible. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. Further disputed because Deutsche Bank evaluated Mr. Trump’s SFCs as part of its underwriting of his personal guaranty, which the bank’s Private Wealth Management division relied upon to offer loans at significantly lower interest rates than the investment bank’s Commercial Real Estate division could offer to the Trump Organization. *See generally* Pl.’s Statement ¶¶ 438-574 and accompanying exhibits.

95. In general, the bank’s relationship with President Trump was profitable. *See* Robert Aff., Ex. AAB (“Vrablic Dep.”) 306:3–13.

RESPONSE: Disputed because the assertions are vague and the cited evidence fails to support the asserted fact. Although it is undisputed that the bank earned income from its loans to the Trump Organization, Defendants offer no evidence to establish how much of that income was “profit.”

Furthermore, Plaintiff's expert witness Michiel McCarty has concluded, based on his banking experience and his review of the record in this case, that banks who relied upon Mr. Trump's materially-misstated SOFCs to underwrite his personal guaranty took on more Credit Risk than they had bargained for, and that these banks "suffered a loss by charging less interest than was warranted by the Credit Risk profile of the loans." Ex. 1015 ¶¶ 48-62, 113.

96. There was never a covenant or payment default involving any entity affiliated with President Trump in a credit transaction made by the PWM division. Williams Dep. 187:9-15; 189:10-16; 192:13-193:4.

RESPONSE: Disputed because the assertions are vague and the cited evidence does not support the asserted fact, and because the misrepresentations and false statements in Defendants' submissions to Deutsche Bank constituted Events of Default under relevant loan documents, as Deutsche Bank stated to the Trump Organization in 2020. *See* Pl.'s Statement ¶¶ 447-451, 485, 490-91, 517-19, 558-60 and supporting exhibits. Further disputed because Deutsche Bank contacted the Trump Organization in 2019 after determining that the Doral, Chicago and OPO borrowing entities were "not in compliance with the Debt Service Coverage Ratio ("DSCR") covenant set forth" in each of the applicable loan agreements. Ex. 1050; Ex. 1051; Ex. 1052; *see also* Pl.'s Statement Ex. 272 (DB credit memo discussing DSCR covenant breaches at Trump properties).

97. [A]³ There was never a recommendation at any time that there was a basis to declare default based on President Trump's failure to maintain a net worth of at least \$2.5 billion. Williams Dep. 190:25-191:10; Sullivan Dep. 81:21-82:4; Vrablic Dep. 305:21-306:16.

RESPONSE: Disputed because the cited evidence does not support the asserted fact.

97. [B] Additionally, numerous former Deutsche Bank employees testified they did not

³ Due to an apparent formatting error, Defendants' Statement of Material Facts includes two paragraph 97's. For the purposes of this response, Plaintiff has designated these as 97[A] and 97[B].

believe there was any material misrepresentation made to the PWM division in connection with any loan affiliated with President Trump. *See* Williams Dep. 184:21–185:1; Sullivan Dep. 81:21– 83:7, 293:7–20; Vrablic Dep. 32:3–13, 229:16–23 (“Q: And as you sit here today, do you have any reason to believe that at any time between January 1, 2011, and the time that you left Deutsche Bank, Eric Trump submitted any materially misleading statements to Deutsche Bank? A: To the best of my knowledge, no.”), 229:25–230:7 (“Q: And as you sit here today, do you have any reason to believe that at any time between January 1, 2011 and the time that you left Deutsche Bank, Donald Trump, Jr. submitted any materially misleading statement to Deutsche Bank? A: To the best of my knowledge, no.”)

RESPONSE: Disputed because the cited evidence (which includes objectionable, speculative deposition testimony that was prompted by leading questions and incomplete hypotheticals) does not support the asserted fact. Further disputed as lacking foundation, because these witnesses also testified that they had not reviewed the specific allegations in the Complaint (*see* Robert Aff. Ex. P at 16:16-22; Robert Aff. Ex. AAD at 18:9-25) or that they were only responding “to the best of [their] knowledge” (Robert Aff. Ex. AAB at 229:16-230:7). Moreover, Defendants did not present any of these Deutsche Bank witnesses with the specific allegations raised in the Complaint about Mr. Trump’s SOFCs, or the evidence that OAG has submitted to the Court in support of its allegations. *See generally* Robert Aff. Exs. P, AAD, S, AAB.

By contrast, during the OAG’s investigation, a former Head of Credit Risk Management for Deutsche Bank’s PWM Americas division was asked to review evidence of specific misstatements in Mr. Trump’s SFCs, including evidence showing that Mr. Trump reported an inflated valuation for his interest in 40 Wall Street despite possessing an appraisal showing a valuation of \$200 million as of Nov. 1, 2011, and that Mr. Trump had reported a Net Operating Income (NOI) for 40 Wall Street that was approximately four times the actual NOI used in this same appraisal. *See* Ex. 1017 at 172:2-177:24. When asked how he would have responded if these discrepancies had come to his attention during the

credit review, he testified that he “would have treated [Mr. Trump’s] financial disclosure with – generally with a larger degree of skepticism and specifically I would have adjusted the equity value of that specific asset,” and that “if The Trump Organization could not have provided a reasonable explanation then I think I would have recommended declining the transaction.” Ex. 1017 at 177:25-178:19. That official also testified he was “shocked at the numbers reported on Mr. Trump’s financial statement” for 40 Wall Street given the then-existing appraised values of that property, and that had he learned of discrepancies between net operating income figures used in appraisals of 40 Wall Street and those used for Mr. Trump’s Statements he would have questioned the accuracy of other information provided and would have asked whether the bank should continue doing business with Mr. Trump. Ex. 1017 at 237:2-241:25.

98. When Mr. Williams was interviewed by the NYAG as part of their investigation, he was not concerned about whether any of the SOFCs were misleading because “Deutsche Bank has a reasonable expectation the client’s, any client’s financial reporting that is provided to the bank is true and accurate in all material respects.” Williams Dep. 34:23–35:21, 36:16–37:4. Mr. Williams believes this expectation is still reasonable as it relates to the SOFCs. Williams Dep. 37:5–12.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, but undisputed that “Deutsche Bank has a reasonable expectation the client’s, any client’s financial reporting that is provided to the bank is true and accurate in all material respects.” *See also* Robert Aff. Ex. P at 300:19-301:9; Robert Aff. Ex. S at 53:7-22.

99. During his deposition, Mr. Williams testified that he still had no concern that the SOFCs were misleading. Williams Dep. 36:9–15.

RESPONSE: Disputed because the cited evidence (which includes objectionable, speculative deposition testimony that was prompted by leading questions and incomplete hypotheticals) does not support the asserted fact. Further disputed as lacking foundation because Mr. Williams also testified that he had not reviewed the Complaint. *See* Robert Aff. Ex. P at 16:10-22.

100. Moreover, Deutsche Bank earned millions of dollars in revenue from dealing with President Trump. *See* Robert Aff., Exs. AAI, AAH, AAG, Ex. AAQ (“Garten Aff.”) ¶ 5.

RESPONSE: Undisputed.

101. The available revenue figures are as follows: \$13,477 (2011), \$2.6 million (2012); \$3.5 million (2013); projected \$6.8 million (2014) \$3,305,699 (2015) \$2,733,072 (2016), for an estimated total revenue between 2011–2016 alone that ranges upwards of \$15 million. Robert Aff., Exs. AAI, AAH, AAG.

RESPONSE: Undisputed.

i. Trump Endeavor 12 LLC (2012)

102. In November of 2011, Trump Endeavor 12 LLC executed a \$150 million purchase and sale agreement for Trump Doral. Compl. ¶¶ 571, 587. Trump Endeavor 12 LLC held plans to invest another \$50 million of its own capital in a luxurious renovation. Robert Aff., Ex. T.

RESPONSE: Undisputed.

103. The PWM division offered a loan to support the purchase of Trump Doral with a total loan amount of \$125 million (Compl. ¶ 583), \$19 million of which was an unsecured personal loan. Compl. ¶ 586. The loan was supported by an appraisal, (Compl. ¶ 585), and the confirmation that President Trump had roughly \$258.9 million in liquid assets at the time the loan was negotiated through the review of bank and brokerage statements. Williams Dep. 198:5–201:8.

RESPONSE: Disputed that PWM offered a loan to support the purchase of Doral based just on the support of an appraisal and a review of Mr. Trump’s liquidity, because PWM also required the loan to be supported by Mr. Trump’s personal guaranty and his personal financial statements, but undisputed that Mr. Williams’ testimony refers to the confirmation of roughly \$258.9 million in “cash and marketable securities.”

Further disputed because Deutsche Bank's internal review of this appraisal raised extensive objections, including concerns over the location of the resort, which led the bank's internal reviewer to believe that the unrenovated value of Doral was less than \$150 million, and that he was "comfortable with concluding a value for the property in the range of \$110 - \$115 million." Ex. 1019; Ex. 1020 at -16. Deutsche Bank's valuation of Doral prompted the bank to split the Doral into secured and unsecured tranches, further demonstrating the importance of Mr. Trump's personal guaranty to the underwriting and pricing of this loan. Pl.'s Statement Ex. 266 at DB-NYAG-105524.

104. Deutsche Bank expected the value of the collateral to "increase significantly over the term of the facility" considering the "\$50 million in capital expenditures" on renovations. *Pereless Dep.* 268:8-24.

RESPONSE: Undisputed, with the clarification that PWM would not have made this loan based only on the collateral without Mr. Trump's personal guaranty. *See Robert Aff. Ex. AAD* at 185:15-188:15 (testifying that Doral was "a development type transaction, and the amount of the loan versus the uncertainty of the value because it was a property that was going to be developed" highlighted the importance of "relying on a guarantee . . . as part of the underwriting"). Additional clarification that the value of the Doral collateral was initially insufficient in Deutsche Bank's view to provide security for the full loan, requiring the loan to be split into secured and unsecured tranches, further demonstrating the importance of Mr. Trump's personal guaranty to the bank's credit analysis. *See Pl.'s Statement Ex. 266* at DB-NYAG-105524.

105. A condition of the loan was that the 2011 SOFC be provided to Deutsche Bank. *Compl. ¶ 588.*

RESPONSE: Undisputed.

106. In reviewing the 2011 SOFC, Deutsche Bank calculated its own values of President Trump's assets by applying "haircuts" to the values reported in the 2011 SOFC. *Compl. ¶ 584; Pereless*

Dep. 265:4-17.

RESPONSE: Undisputed that Deutsche Bank applied “haircuts” to the stated values from the 2011 SFC, but dispute Defendants’ characterization because the cited testimony states that these adjustments are “the application of stresses or haircuts,” and not an independent calculation of the bank’s “own values.” *See also supra*, Response to Defs.’ Statement ¶ 87.

107. Lending officers completed their “due diligence” in compliance with Deutsche Bank’s operational policies (Pereless Dep. 227:14-25) by evaluating specific assets and using “their judgment in setting the appropriate adjustments to achieve conservative valuations of concentrated assets.” Pereless Dep. Ex. 13 at 8.

RESPONSE: Disputed because the assertions are vague and because the cited evidence does not support the asserted fact. Further disputed because most of the “due diligence” conducted for the assets of a PWM client consisted of applying standardized reductions of stated value, including those generated by a “standard spreadsheet” used by Deutsche Bank, to help analyze a “conservative” or “adverse scenario analysis” that “is trying to see what happens if the client’s financial position is under stress.” *See* Ex. 1017 at 75:11-77:10; 79:7-24; 148:6-149:21; Robert Ex. O at 147:15-148:21. To the extent that lending officers evaluated specific assets during this process, they took the information provided by the bank’s clients at “face value,” because they relied on the bank’s clients to provide financial information that was “fairly” presented and “true and correct,” and then applied a “stress” to reach a “stressed value” or “more conservative value.” Robert Aff. Ex. AL at 178:18-179:2, 179:24-180:3; Robert Aff. Ex. P at 300:19-301:9; Robert Aff. Ex. S at 53:7-22, 224:3-226:7. Therefore, because the Trump Organization provided Deutsche Bank with inflated valuations in the SFCs, as well as other inaccurate information about Mr. Trump’s four “trophy” properties (Trump Tower, Niketown, 40 Wall Street and Trump Park Avenue), the bank’s adjusted value for those properties was improperly inflated as well. *See* Pl.’s Statement Ex. 226 at 6.

For example, the Trump Organization told Deutsche Bank that it had reached an “estimated current value of \$524,700,000” for 40 Wall Street by applying a 5.00% cap rate to the property’s Net Operating Income (NOI) of \$26.2 million. Pl.’s Statement Ex. 1 at 9; Pl.’s Statement Ex. 226 at 6. The bank then adjusted this valuation by applying a more conservative cap rate of 6.00% to reach an adjusted valuation of \$438 million. Pl.’s Statement Ex. 226 at 6. But even this adjusted valuation was approximately double the current value of 40 Wall Street found by contemporaneous appraisals. *See* Pl.’s Statement Ex. 70 at 1-2 (appraisal valuation of \$200 million as of August 1, 2010); Pl.’s Statement Ex. 73 at 1-2 (appraisal valuation of \$200 million as of November 1, 2011).

This overstatement of value occurred because the \$26.2 million NOI provided by the Trump Organization to Deutsche Bank was inaccurate and inflated, as demonstrated by the much lower NOI figures provided in a professional appraisal that relied on the Trump Organization’s internal accounting spreadsheets. *See* Pl.’s Statement Ex. 73 at -3496-3497; Ex. 1003 at 150:6-154:16. The Trump Organization’s use of a 5.00% cap rate was similarly in conflict with the appraiser’s market analysis. *See* Pl.’s Statement Ex. 73 at -3365-3368. The Deutsche Bank credit risk officer who had credit issuance authority, and who bore responsibility, for approving the recommendations made by lending officers on loans to the Trump Organization testified that he was “shocked at the numbers reported on Mr. Trump’s financial statement” for 40 Wall Street given the then-existing appraised values of that property, and that had he learned of discrepancies between net operating income figures used in appraisals of 40 Wall Street and those used for Mr. Trump’s SFCs he would have questioned the accuracy of other information provided and would have asked whether the bank should continue doing business with Mr. Trump. *See* Ex. 1017 at 237:2-241:25.

Similarly, Deutsche Bank adjusted the value of Trump Park Avenue by applying an “approximate 35% haircut on the reported value” of \$311.6 million to reach an adjusted valuation of \$206.3 million. Pl.’s Statement Ex. 226 at 6. However, that “reported value” was wildly inflated by the Trump

Organization, including by ignoring the rent-stabilization status of units at the property, by valuing units above the option prices agreed to between the Trump Organization and Ivanka Trump, and by using offering plan prices that exceeded current market values. Pl.'s Statement ¶¶ 334-83 and supporting exhibits. As a result, even Deutsche Bank's adjusted value far exceeded the appraised market value of \$72,500,000 that was found by an appraisal performed in 2010. Pl.'s Statement Exs. 141 at -905, 142, 143, 144.

108. In connection with the proposal from PWM, an internal credit memo evaluated assets reported on the 2011 SOFC. Compl. ¶ 584; Robert Aff., Ex. T. These assets included: Trump Tower, Niketown, 40 Wall Street, Trump Park Ave, "Club Facilities," "Other Property interests," and "Properties under Development." Robert Aff., Ex. T at 5.

RESPONSE: Undisputed.

109. Deutsche Bank chose to perform a "higher level of due diligence on the assets being pledged than [those] not being pledged" because "[the bank was] taking a mortgage on those [pledged] assets and potentially the bank could own those assets[.]". Pereless Dep. 238:8-21.

RESPONSE: Undisputed.

110. Ultimately, Deutsche Bank adjusted the net worth reported in the 2011 SOFC based on haircuts it performed. Compl. ¶ 584; *see generally* Robert Aff., Ex. T at 4-7.

RESPONSE: Undisputed.

111. This "DB adjusted value" was one that Deutsche Bank lending officers were "comfortable with." That is, "[c]omfortable with the level of liquid assets that Mr. Trump held" and "comfortable that the recordation of that amount of liquid assets that were included in the credit memo" were "accurate." Pereless Dep. 167:8-168:8.

RESPONSE: Disputed because the cited evidence does not support the asserted facts, but undisputed that Ms. Pereless testified at her March 15, 2023 deposition that she recalled being "[c]omfortable with

the level of liquid assets that Mr. Trump held” based on the information available to her during the underwriting process for the Doral loan in 2011.

112. Deutsche Bank lending officers recommended approval of the Doral Loan and determined that President Trump had the financial wherewithal to fully repay the loan if needed as well. Sullivan Dep. 110:19–111:9, 120:21–121:10; Robert Aff., Ex. T.

RESPONSE: Undisputed, with the clarification that Deutsche Bank lending officers recommended approval of the Doral loan in 2011 based on Mr. Trump’s personal guaranty and the information available to them at the time, including the asset values reported in the 2011 SFC.

113. Deutsche Bank’s adjusted net worth for President Trump when underwriting the Doral Loan was set at \$2.365B. Robert Aff., Ex. T at 4.

RESPONSE: Undisputed, with the clarification that the “adjusted net worth” was based on standardized reductions of stated value used to analyze a “conservative” or “adverse scenario analysis” that “is trying to see what happens if the client’s financial position is under stress.” *See* Ex. 1017 at 75:11-77:10; 79:7-24; 148:6-149:21; Robert Ex. O at 147:15-148:21. *See also supra*, Response to Defs.’ Statement ¶ 107.

114. Other factors considered as a basis for Structured Lending’s recommendation of approval for the Trump Doral credit facility included “President Trump’s operating experience” as “any client’s historical success in a certain business model would be a credit enhancement if ... approving a similar business model[,]” President Trump’s “financial profile[,]” Deutsche Bank’s “due diligence” conducted at the Trump “family office[,]” and “adjustments to [President Trump’s] reported values.” Pereless Dep. 266:2–19; Robert Aff., Ex. T at 4.

RESPONSE: Undisputed.

115. The Trump Doral loan closed on June 11, 2012, with a loan to Trump Endeavor 12 LLC. Compl. ¶ 587.

RESPONSE: Undisputed.

116. As part of the loan, President Trump signed a personal guarantee with requirements that, *inter alia*, he maintain: (i) \$50 million in unencumbered liquidity and (ii) a \$2.5 billion net worth to be tested and certified on an annual basis based upon the SOFC delivered to Deutsche Bank. Compl. ¶ 592.

RESPONSE: Undisputed.

117. The primary and secondary form of repayment on the Doral loan were the underlying collateral, while the Guarantee would only be implicated as a tertiary form of repayment. Robert Aff., Ex. T at 3 (“Primary Source of Repayment: Refinancing of the Resort with long-term financing following the completion of the Renovation Period or upon expiration of the 5-year term. Secondary Source of Repayment: Cash flow from Resort following the Renovation Period. Based on projections the Resort will be able to satisfactorily service principal and interest based on a 25-year amortization schedule. Tertiary Source of Repayment: Full and unconditional guarantee of DJT which eliminates any shortfall associated with operating and liquidating collateral.”)

RESPONSE: Undisputed that this accurately states the sources of repayment listed in the cited Deutsche Bank credit memo, but disputed that this meant that Mr. Trump’s personal guaranty was of less importance than the collateral to PWM’s underwriting of the Doral loan. *See* Pl.’s Statement ¶¶ 452-478 (describing the different underwriting processes used by Deutsche Bank’s CRE and PWM divisions, and the significantly lower interest rate paid by Mr. Trump when he entered into a recourse loan with PWM that relied on his personal guaranty). Further disputed because Doral’s cash flow was not expected to support repayment of the loan during the Renovation Period; therefore, Mr. Trump’s guaranty of both loan payments and operating shortfalls was critical for the bank’s underwriting. *See* Pl.’s Statement Ex. 226 at DB-NYAG-001691 (“The Facility will also be supported by a full and unconditional guarantee provided by DJT of (I) Principal and Interest due under the Facility, and (ii) operating shortfalls of the Resort (it being understood that Borrower shall be permitted to utilize all revenues from the Resort to

operate the Resort to reduce the amount of such shortfall).”).

118. Simply by closing on the Doral Loan, Deutsche Bank generated fees in the sum of 1.25% of the loan amount, a .25% commitment fee which would be fully earned at the execution of a Commitment Letter, and a 1% commitment fee payable at closing. *Id.* at 2. With a \$125 million commitment amount, the fees generated by Deutsche Bank at the closing of Doral were upward of \$1.5 million ($\$125 \text{ million} \times 1.25\% = \$1,562,500$).

RESPONSE: Undisputed.

119. The primary and secondary form of repayment on the Doral loan were the underlying collateral, while the Guarantee would only be implicated as a tertiary form of repayment. Robert Aff., Ex. T at 3 (“Primary Source of Repayment: Refinancing of the Resort with long-term financing following the completion of the Renovation Period or upon expiration of the 5-year term. Secondary Source of Repayment: Cash flow from Resort following the Renovation Period. Based on projections the Resort will be able to satisfactorily service principal and interest based on a 25-year amortization schedule. Tertiary Source of Repayment: Full and unconditional guarantee of DJT which eliminates any shortfall associated with operating and liquidating collateral.”)

RESPONSE: See *supra*, Response to identical Paragraph 117.

120. In July 2013, Deutsche Bank approved a modified version of the guarantee that enabled President Trump’s guarantee obligation and net worth covenant to step down as the loan- to-value ratio of the loan was reduced, which minimized the “risk profile” absorbed by Deutsche Bank. Compl. ¶ 596; *Pereless Dep.* 269:4–17.

RESPONSE: Undisputed that a modified version of the guaranty was executed, with the clarification that the cited testimony describes a lower-risk profile occurring as a general matter if the loan-to-value ratio goes down on a loan; it does not describe the effect of the amended guaranty Mr. Trump executed.

121. Overall, Deutsche Bank believed the Trump Doral loan had “performed quite well,

enough to warrant considering increasing the loan amount secured by the property.” Williams Dep. 221:10–19. Deutsche Bank determined this performance rating based on “predominantly the value of the property” and the improvement in terms of “cash flow” and “loan-to-value.” Williams Dep. 221:20–222:14.

RESPONSE: Undisputed.

122. To certify the maintenance of the net worth covenant, Deutsche Bank considered a representation from the Guarantor, President Trump (or others on his behalf in subsequent years), “sufficient . . . to comply with his obligations under the guarantee[,]” the certification was to effect of:

[T]o the best of Guarantor's current knowledge and information, and Guarantor currently not being aware of facts, circumstances or events that individually, or in the aggregate, establish the contrary conclusion, 'net worth of Guarantor for the period ending June 30th is not less than X \$2,500,000,000 times Y, the applicable stepdown percentage on the date hereof.

See Robert Aff., Ex. R. Deutsche Bank accepted this representation from President Trump as a form of compliance with the net worth covenant. Williams Dep. 309:24–310:21.

RESPONSE: Disputed, because Deutsche Bank did not accept this representation on its own as a form of compliance with the net worth covenant, but also required (as a condition in the Doral, Chicago and OPO loan documents) that Mr. Trump submit his statement of financial condition along with this certification annually to demonstrate compliance. *See* Pl.’s Statement ¶¶ 489, 515, 528, 554, 572 and supporting exhibits. The importance of this annual submission was demonstrated when the Trump Organization advised Deutsche Bank on or about September 14, 2020 that it would not be providing a financial statement for Mr. Trump as required by its loan documents. In response, the bank’s legal counsel held discussions with the Trump Organization, and “Guarantor’s request that DBTCA forgo his Statement of Financial Condition entirely this year was modified to a request for an extension of time, from October 28, 2020 to December 31, 2020.” Ex. 1021 at 5. After further delays, “[t]he required Statement of Financial Condition was received on January 12, 2021” by the bank. *Id.*

123. On May 26, 2022, Trump Endeavor 12 LLC refinanced the Doral Loan through Axos

Bank, repaying the \$125 million of principal outstanding to Deutsche Bank. Compl. ¶¶ 587, 600.

RESPONSE: Undisputed.

ii. 401 North Wabash Venture LLC (2012)

124. In June 2012, 401 North Wabash Venture LLC sought a loan from the PWM division at Deutsche Bank to refinance an existing \$130 million loan from the CRE division of Deutsche Bank secured by the Trump Chicago property. Compl. ¶ 601.

RESPONSE: Undisputed, with the clarification that the Trump Organization also discussed a refinance loan with Deutsche Bank’s CRE division in 2012, but pursued a recourse loan with a lower interest rate from PWM after receiving proposals from both divisions of the bank. *See* Pl.’s Statement ¶¶ 499-503 and accompanying exhibits.

125. The 2012 SOFC was provided to Deutsche Bank as part of the Chicago loan. Compl. ¶ 607.

RESPONSE: Undisputed.

126. Just as with the Trump Doral loan, Deutsche Bank again assessed its own “DB adjusted values” and conducted its due diligence of President Trump’s assets by applying “haircuts” to the values reported in the 2011 and 2012 SOFC. Compl. ¶ 605. The assets considered again included: Trump Tower, Niketown, 40 Wall Street, Trump Park Ave, “Club Facilities,” and “Other Property interests.” Robert Aff., Ex. U at 8; *Pereless Dep.* 383:7–17.

RESPONSE: Undisputed, with the clarifications noted above (*see supra*, Responses to Defs.’ Statement ¶¶ 106-107) concerning Defendants’ characterization of the “haircuts” applied during Deutsche Bank’s underwriting process.

127. Deutsche Bank calculated its “DB adjusted” values and recommended approval for the Chicago facility based on its independent analysis of President Trump’s 2011 and 2012 SOFCs. Robert Aff., Ex. U at 7–9. Ultimately, Deutsche Bank reached an adjusted net worth for President Trump of

\$2.436 billion. *Id.* at 7.

RESPONSE: Undisputed, with the clarifications noted above (*see supra*, Responses to Defs.’ Statement ¶¶ 106-107) concerning Defendants’ characterization of the “haircuts” applied during Deutsche Bank’s underwriting process.

128. Lending officers and bankers understood the Chicago transaction to be a “better loan” in terms of being a lower risk loan in comparison to Trump Doral. *Pereless Dep.* 359:9–17, 360:2–5.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

129. Ultimately, Deutsche Bank lending officers held no reservations in supporting and going forward with the Chicago transaction. *Pereless Dep.* 360:22–361:6.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact.

130. Under the Chicago Loan, President Trump was required to: (i) maintain a minimum net worth of \$2.5 billion and (ii) provide a SOFC to Deutsche Bank annually. *Compl.* ¶ 609.

RESPONSE: Undisputed.

131. The loan for 401 North Wabash Venture LLC closed on November 9, 2012. *Compl.* ¶ 606.

RESPONSE: Undisputed.

132. The \$107 million loan from Deutsche Bank was broken down into two credit facilities given the mixed nature of the hotel-condo property. *Id.* ¶¶ 28(b), 603. The first facility concerned the residential component and the second facility concerned the commercial component. *Compl.* ¶ 63. Both facilities were supported by President Trump’s personal guarantee. *Compl.* ¶ 604.

RESPONSE: Undisputed.

133. The Chicago Loan was a “superb deal” to the bank that was “structured properly” with pricing that was “appropriate” making it a “very, very good safe deal for the bank” based on the “loan-to-values-and the guarantees involved.” *Vrablic Dep.* 267:9–22.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, but undisputed that the assertion quotes opinions expressed by Ms. Vrablic at her April 24, 2023 deposition.

134. Simply by closing on the Chicago Loan, Deutsche Bank generated fees in the amount of .625% for facility A and .75% on Facility B. Robert Aff., Ex. U at 4.

RESPONSE: Undisputed.

135. With a loan amount of \$62 million on Facility A and \$45 million on Facility B, Deutsche Bank was projected to generate \$725,000 in fees at the closing on of the Chicago Loan at the time of loan approval $((.625\% \times \$62 \text{ million}) + (.75\% \times 45 \text{ million}) = \$725,000)$.

RESPONSE: Undisputed.

136. For both the commercial and the residential loan facilities of the Chicago Loan, the primary and secondary form of repayment would be the underlying collateral, while President Trump's Guarantee would only be used as a tertiary repayment source to eliminate shortfalls (if any) in the collateral's performance. Robert Aff., Ex. U at 5 ("Primary Source of Repayment: Facility A: Sale of the remaining un-sold condo Units. Facility B: Cash flow generated by the Commercial Component of the collateral. Secondary Source of Repayment: Refinancing of the collateral property. Tertiary Source of Repayment: Full and unconditional guarantee of DJT which eliminates any shortfall associated with operating and liquidation of the collateral.")

RESPONSE: Undisputed that the quoted exhibit accurately states the sources of repayment listed in the cited Deutsche Bank credit memo, including Mr. Trump's guaranty to cover any operating shortfalls for the property during its operations by the Trump Organization, but disputed as to Defendants' characterization of the Guaranty or that this meant Mr. Trump's personal guaranty was of less importance than the collateral to PWM's underwriting of the Chicago loan. *See* Pl.'s Statement ¶¶ 499-509 (describing Deutsche Bank's dueling proposals for a non-recourse CRE loan and a recourse PWM loan for the Chicago refinance, and the significantly lower interest rate paid by Mr. Trump when he entered

into a recourse loan with PWM that relied on his personal guaranty).

137. In 2014, 401 North Wabash Venture LLC obtained an additional \$54 million loan for Trump Chicago. Compl. ¶¶ 28(b), 615. This additional loan included a step-down guarantee like the Trump Doral loan, with the personal guarantee and net worth covenant stepping down based on the loan-to-value ratio. Compl. ¶ 615.

RESPONSE: Undisputed.

138. The loan was amended in 2014. Compl. ¶ 616.

RESPONSE: Undisputed.

139. Again, as with earlier internal credit memos, the 2014 credit memo prepared in conjunction with this additional loan, (which also recommended approval for the Old Post Office transaction discussed further below), evaluated President Trump's 2011, 2012, and 2013 SOFCs. Compl. ¶ 617; Robert Aff., Ex. Q.

RESPONSE: Undisputed.

140. Deutsche Bank again reached its "DB adjusted" values of the assets. Robert Aff., Ex. Q at 13–16. The assets considered were Trump Tower, Niketown, 40 Wall Street, Trump Park Ave, Club Facilities, and Other Property Interest. *Id.* at 14. As of 2015, the personal guarantee was eliminated because the loan-to-value ratio was below the threshold in the step-down provision. Compl. ¶ 619.

RESPONSE: Undisputed, with the clarification that to the extent that Defendants appear to be incorporating by reference ("again") their earlier assertions about Deutsche Bank's adjustments, Plaintiff similarly incorporates its clarifications concerning the standardized haircuts used by the bank to analyze a "conservative" or "adverse scenario analysis" that "is trying to see what happens if the client's financial position is under stress." *See* Ex. 1017 at 75:11-77:10; 79:7-24; 148:6-149:21; Robert Ex. O at 147:15-148:21; *see also supra*, Response to Defs.' Statement ¶ 107. Further clarified that Defendants resumed their submission of SFCs and certifications relating to the Trump Chicago loan starting in 2018. *See* Pl.'s

Statement Exs. 260, 283, 284 & 285.

141. As with the initial loan, the additional loan on Trump Chicago would be primarily and secondarily repaid through the collateral, and the step-down Guarantee would be the tertiary form of repayment on the loan. Robert Aff., Ex. Q at 10.

RESPONSE: Undisputed that this assertion summarizes the sources of repayment listed in the cited Deutsche Bank credit memo, but disputed that this meant Mr. Trump's personal guaranty was of less importance than the collateral to PWM's underwriting of the Chicago loan. *See* Pl.'s Statement ¶¶ 499-509 (describing Deutsche Bank's dueling proposals for a non-recourse CRE loan and a recourse PWM loan for the Chicago refinance, and the significantly lower interest rate paid by Mr. Trump when he entered into a recourse loan with PWM that relied on his personal guaranty).

142. 401 North Wabash Venture LLC never defaulted on the loan or missed a payment. *See generally* Williams Dep. 187:9-15.

RESPONSE: Disputed because the cited evidence does not support the asserted fact, including because Deutsche Bank alerted 401 North Wabash Venture LLC of a DSCR covenant breach in 2019, Ex. 1050, and because the misrepresentations and false statements in Defendants' submissions to Deutsche Bank constituted Events of Default under relevant loan documents, as Deutsche Bank stated to the Trump Organization in 2020, Pl.'s Statement ¶¶ 447-451, 517-19 and accompanying exhibits.

iii. Trump Old Post Office LLC (2014)

143. In 2011, Trump Old Post Office LLC bid on a ground lease from the General Services Administration ("GSA") to redevelop the Old Post Office on Pennsylvania Avenue in Washington, D.C. Compl. ¶¶ 51(j), 624. As required by the GSA, the 2008-2010 SOFCs were submitted as part of the bid. Compl. ¶¶ 623-24; RFP at 18 (requesting "[f]inancial statements for the past three years prior to the RFP issuance date").

RESPONSE: Undisputed.

144. Trump's Proposal to the GSA stated: "[t]he attached Statement of Financial Condition was compiled under GAAP, but it should be noted that there are departures from GAAP that are described in the Accountant's Compilation Report attached to the Statement of Financial Condition. Most personal financial statements contain GAAP exceptions. WeiserMazars, LLP has compiled these financials." See Robert Aff., Ex. AQ.

RESPONSE: Undisputed.

145. Additionally, in response to the GSA's inquiries, Trump's presentation indicated again "[u]nlike the statements of public companies, it is not uncommon for personal financial statements to include GAAP exceptions." Robert Aff., Ex. AR. With respect to separately held entities, Trump's presentation explained:

Mr. Trump owns approximately 400 entities that are in various businesses. Unlike Mr. Trump's personal financial statements, which are completed as of June 30th each year, the books for these individual entities are generally accounted for on a calendar year. Including these entities on the June 30th statement would require the books of the 400 entities to be closed twice per year, which would be highly unconventional and costly. Mr. Trump finds that the level of detail that is provided is adequate for his purposes.

Id. Trump's presentation also addressed other inquiries relating to the SOFCs. See generally *id.*

RESPONSE: Undisputed.

146. In its Source Selection Evaluation Report and Recommendation, the GSA stated: "The Trump Organization presented one of the strongest financial teams of all offerors," while noting that a weakness of Trump's proposal was that "[f]inancial statements provided by Mr. Trump were qualified by his accountants as not complying with GAAP." Robert Aff., Ex. AS at 13–14. Trump Old Post Office LLC was ultimately selected by GSA in February 2012 to redevelop the OPO property and signed a lease for that purpose on August 5, 2013. Compl. ¶¶ 51(j), 626.

RESPONSE: Undisputed.

147. In advance of executing the lease, Deutsche Bank's CRE and PWM groups were consulted about potential financing for the project. Compl. ¶ 627. The PWM proposal required a personal

guarantee from President Trump. Compl. ¶ 631.

RESPONSE: Undisputed.

148. The terms of the \$170 million included the following requirements: (i) maintaining a minimum net worth of \$2.5 billion, \$50 million in unencumbered liquidity, and no additional indebtedness exceeding \$500 million and (ii) providing SOFC to Deutsche Bank annually. Compl.

¶ 632.

RESPONSE: Undisputed.

149. A May 2014 Deutsche Bank credit memo, which incorporated information from the 2011, 2012, and 2013 SOFC, approved the \$170 million loan to Trump Old Post Office LLC. Compl. ¶ 633; Robert Aff., Ex. Q.

RESPONSE: Undisputed.

150. Like in previous years, Deutsche Bank reached its “DB adjusted” performing haircuts on the values of assets, including Trump Tower, Niketown, 40 Wall Street, Trump Park Ave, Club Facilities, and Other Property Interest. Robert Aff., Ex. Q at 13–16.

RESPONSE: Undisputed, with the clarification that to the extent that Defendants appear to be incorporating by reference (“Like in previous years”) their earlier assertions about Deutsche Bank’s adjustments, Plaintiff similarly incorporates its clarifications concerning the standardized haircuts used by the bank to estimate the potential liquidation value of a client’s stated assets. *See* Ex. 1017 at 75:11-77:10; 79:7-24; 148:6-149:21; *supra*, Response to ¶ 107.

151. Deutsche Bank internally adjusted President Trump’s net worth to \$2.645 billion. *Id.* at 13.

RESPONSE: Undisputed, with the clarifications that Deutsche Bank’s internal adjustments were standardized reductions of stated value used to help analyze a “conservative” or “adverse scenario analysis” that “is trying to see what happens if the client’s financial position is under stress,” (Ex. 1017

at 75:11-77:10; 79:7-24; 148:6-149:21; Robert Ex. O at 147:15-148:21), and that the bank relied on the inaccurate information provided in the SFCs and by the Trump Organization and therefore reached inflated adjusted valuations of Mr. Trump's net worth. *See supra*, Response to ¶ 107.

152. A term sheet with the material terms of the OPO Loan was agreed to and "executed on January 13 and 14, 2014." Compl. ¶ 634. Thereafter, the OPO loan closed on August 12, 2014.

Compl. ¶ 634.

RESPONSE: Undisputed.

153. Simply to close the OPO Loan, Deutsche Bank was projected to generate a .5% fee of the facility amount, which is equivalent to \$850,000 based on a \$170 million loan facility (\$170 million X .5% = \$850,000). *See Robert Aff.*, Ex. Q at 8–9.

RESPONSE: Undisputed.

154. Trump Old Post Office LLC never defaulted on the loan or missed a payment under the loan. *See Williams Dep.* 187:9–15; 189:10–16; 295:13–17. The Old Post Office loan was a successful credit transaction for Deutsche Bank, as the property was "redeveloped and opened and was operating successfully," and the loan was performing such that "all interest payments and covenants were being met." *See Vrablic Dep.* 310:7–311:6.

RESPONSE: Disputed because the cited evidence does not support the asserted fact, including because Deutsche Bank alerted Trump Old Post Office LLC of a DSCR covenant breach in 2019, Ex. 1052, and because the misrepresentations and false statements in Defendants' submissions to Deutsche Bank constituted Events of Default under relevant loan documents, as Deutsche Bank stated to the Trump Organization in 2020, Pl.'s Statement ¶¶ 447-451, 558-60 and accompanying exhibits.

155. The primary and secondary source of repayment on the OPO Loan were the collateral, while President's Trump guarantee would only be implicated as a tertiary source of repayment. *Robert Aff.*, Ex. Q at 10 ("Primary Source of Repayment: Refinancing of the Collateral Property. Secondary

Source of Repayment: Cash flow from Hotel following the Redevelopment Period. Based on projections, the Hotel should be able to satisfactorily service the debt paying principal and interest based on a 25-year amortization schedule. Tertiary Source of Repayment: DJT provides a full and unconditional guarantee of the entire facility for the term.”).

RESPONSE: Undisputed that the quoted exhibit states the sources of repayment listed in the cited Deutsche Bank credit memo, but disputed as to Defendants’ characterization of the Guaranty or that this meant Mr. Trump’s personal guaranty was of less importance than the collateral to PWM’s underwriting of the OPO loan. *See* Pl.’s Statement ¶¶ 543-552 (describing the Trump Organization’s negotiations with Deutsche Bank’s CRE and PWM divisions over financing for the OPO project, and the Trump Organization’s decision to enter into a recourse loan with PWM that had a lower interest rate and relied on Mr. Trump’s personal guaranty). Further disputed because Deutsche Bank’s internal underwriting analysis considered the Old Post Office lease to be “weak collateral,” and accordingly the “rating for that transaction was entirely reliant on the borrower rather than the collateral.” Ex. 1017 at 262:18-265:18.

156. On or about May 11, 2022, Trump Old Post Office LLC sold the OPO property for \$375 million, of which \$170 million was used to repay the loan to Deutsche Bank. Compl. ¶ 646.

RESPONSE: Undisputed.

b. Ladder Capital

i. 40 Wall Street LLC (2015)

157. In November 2015, 40 Wall Street LLC refinanced an existing \$160 million mortgage from Capital One Bank for 40 Wall Street through Ladder Capital Finance (“Ladder Capital”). Compl. ¶¶ 125, 647.

RESPONSE: Undisputed.

158. 40 Wall Street LLC never defaulted on the loan or missed a payment. *See* Garten Aff. ¶ 3.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, including because Mr. Garten’s sworn statement that “40 Wall Street LLC has never received notice of the occurrence of an Event of Default under the loan originated by Ladder Capital Finance I LLC” is not proof that 40 Wall Street LLC has never engaged in conduct that would constitute an event of default under the applicable loan documents.

Further, although not evidence of an event of default, the 40 Wall Street loan was placed on a servicer watchlist in 2016 due to the financial performance of the property. Internal correspondence at Ladder Capital concluded that servicer Wells Fargo placed the loan on a watchlist because “of the free rent periods that have not fully burnt off and [W]ells must not be counting on the guarantee for those rents.” Ex.1022. When responding to a press inquiry about this loan, Allen Weisselberg similarly highlighted the importance of Mr. Trump’s personal guarantee to the loan underwriting; Mr. Weisselberg suggested that the loan was not a “default risk,” even though “the reported financial performance has not yet reached the underwritten level,” in part because the “loan was structured with a guarantee in lieu of an upfront escrow to cover the free rent period.” Ex. 1023. In connection with Mr. Trump’s personal guaranty, Mr. Weisselberg, as trustee, certified to the accuracy of summaries of net worth that were based on the inflated SFCs and Mr. McConney submitted those certifications to Wells Fargo. Exs. 1041-1045.

159. Under the terms of the loan, President Trump had to maintain a net worth of \$160 million and a liquidity of at least \$15 million. *See Robert Aff.*, Ex. AX at 10.

RESPONSE: Undisputed.

160. A 2015 appraisal ordered by the Bank appraised 40 Wall Street at a value of \$540,00,000, which resulted in loan-to-value of 29.6%. *See id.* at 4. Cushman also appraised the dark value of the Property at \$440,000,000, \$280,000,000 in excess of the loan amount. *Id.*

RESPONSE: Undisputed, with the clarification that Defendants fraudulently inflated the value of this 2015 appraisal by providing appraisers with false and misleading information to arrive at a pre-

determined value.

For example, Allen Weisselberg directed the Trump Organization's Assistant Controller, Donna Kidder, to reduce the management fee listed in an expense and cash flow report for 40 Wall Street from \$1,007,988 to \$100,000, and to send the revised report to his son Jack Weisselberg at Ladder Capital, which had commissioned the appraisal. Ex. 1003 at 69:21-73:19. Ladder Capital then shared this revised and inaccurate management fee amount with appraisers at Cushman & Wakefield. Ex. 1057, Ex. 1058. The appraisers incorporated that information into the Net Operating Income in the final 2015 appraisal for 40 Wall Street, which helped to increase the property's value from \$500 million in a draft appraisal to the Trump Organization's target valuation of \$540 million in the final appraisal report. Ex. 1024 at -178, -317 (draft appraisal revenue and expense analysis); Ex. 1025 at -324, -465 (final appraisal revenue and expense analysis); *see also* Ex. 1026 ¶¶ 22-23 (reviewing underlying assumptions that changed during the course of the Cushman 2015 appraisal).

Defendants similarly inflated income at 40 Wall. The appraisal (which was dated June 25, 2015) included as part of the rent roll a \$1.4 million dollar lease with Dean & Deluca, even though the lease was still under negotiation and had not yet been signed. Ex. 1027, Tab RENT ROLL. While Dean & Deluca did eventually sign a lease for the space, it never commenced operations in the building, it declared bankruptcy, and the Trump Organization sued in federal court for unpaid rent. Ex. 1028.

c. Royal Bank America/Bryn Mawr Bank

i. Seven Springs LLC

161. On July 17, 2000, Seven Springs LLC obtained an approximately \$8 million loan from RBA, which was later acquired by Bryn Mawr Bank in 2017. Compl. ¶ 654. President Trump personally guaranteed the loan. Compl. ¶ 654.

RESPONSE: Undisputed.

162. Seven Springs LLC never defaulted on the loan or missed a payment. *See, e.g.*, Garten Aff., ¶ 4; *see also* Robert Aff., Ex. AAL at 6 (indicating no events of default).

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, including because Mr. Garten’s sworn statement that “Seven Springs LLC has never received notice of the occurrence of an Event of Default under the loan currently held by the Bryn Mawr Trust Company” is not proof that Seven Springs LLC has never engaged in conduct that would constitute an event of default under the applicable loan documents.

163. A June 17, 2014 Memorandum prepared by Bryn Mawr to analyze a proposed existing loan renewal indicates the “current value [of the Seven Springs property] more than supports the debt.” *See* Robert Aff., Ex. AAN at 6.

RESPONSE: Undisputed, with the clarification that the referenced credit memo also notes there is “Strong Guarantor Support” and recommended renewal based on the “Personal financial strength of Mr. Trump, evidenced by a reported net worth of \$5 Billion and liquid assets of \$354MM” as well as Mr. Trump’s personal support for the project. *See* Pl.’s Statement Ex. 338; *see also* Pl.’s Statement ¶¶ 599-616 and supporting exhibits (demonstrating importance of Mr. Trump’s personal guaranty and SFCs to this loan). Additionally, since the property was not income-producing the guarantor’s financials were important to the transaction and the bank relied on the SFCs from 2011-2019. *See* Pl.’s Statement Ex. 345 at 61:12-19; 132:13-18, 138:01-17, 183:03-11

164. Additionally, in connection with the 2019 modification of the loan, the 2019 Credit Approval Memorandum prepared by Bryn Mawr explicitly notes that the Mazars “does not express an opinion, conclusion or any form of assurance on the personal financial statement.” *See* Robert Aff., Ex. AAM 2019 at 7. The loan to value rate was 16.6% as of the May 30, 2019 appraisal on the property (which gave the property an appraised value of \$37,650,000). *See id.* at 5.

RESPONSE: Undisputed, with the clarification that the referenced credit memo states that the property

had a negative NOI, \$1.6mm of cash was injected into the LLC to support the loan statements and the guarantor's liquidity and willingness to support the project were noted as reasons to give the loan a pass rating that it otherwise did not qualify for. *See* Robert Aff., Ex. AAM at 8. When asked about this document a representative from Bryn Mawr said he obtained the liquidity information from the guarantor's personal financial statement and that the bank relied on the representations in that statement in connection with the Seven Springs Loan. *See* Ex Pl.'s Statement Ex. 345 at 131:20-132:18.

d. Investors Bank

i. Trump Park Avenue

165. Investors Bank funded a \$23 million loan secured by Trump Park Avenue that closed on July 23, 2010. Compl. ¶ 85-86; NYSECF No. 205.

RESPONSE: Undisputed.

e. Zurich North America Insurance Company

166. From 2007 through 2021, Zurich North America Insurance Company ("Zurich") underwrote a surety bond program for President Trump's businesses through insurance broker AON Risk Solutions ("AON"). Compl. ¶ 679. Under the program, Zurich issued surety bonds on behalf of President Trump's businesses in exchange for premium calculated based on a set rate. Compl. ¶ 679. Most of the bonds were statutorily required for President Trump's businesses, such as liquor license bonds for golf courses or release of lien bonds for construction projects. Compl. ¶ 679.

RESPONSE: Disputed because it misstates the cited evidence; otherwise, undisputed that from 2007 through 2021, Zurich underwrote a surety bond program for the Trump Organization (Donald J. Trump's businesses) through AON, and that most of the bonds were statutorily required for Mr. Trump's businesses.

167. President Trump entered into a General Indemnity Agreement ("GIA") with Zurich, which indemnified Zurich against any loss incurred by Zurich on the surety bonds underwritten for President Trump's businesses. Compl. ¶¶ 680-81.

RESPONSE: Undisputed.

168. The GIA executed by President Trump on October 22, 2009, did not have an annual requirement that President Trump disclose to Zurich's underwriter the SOFC. Robert Aff., Ex. X ("Caulfield Dep.") 57:4-8; ZurichNA_008990.

RESPONSE: Disputed as the GIA was an integral part of a larger agreement between Zurich and the Trump Organization that required disclosure of Mr. Trump's SFC. *See* Ex. 1030. (Surety Term Sheet for Trump Organization and Aon Risk Services requiring "Annual review of Personal Financial Statements of Donald J. Trump (on-site review)"); Pl.'s Statement Ex. 348 at 34:12-35:14; Ex. 1032 at 224:18-226:15 (explaining that the conditions listed in this term sheet "were things that were going to have to happen or else they wouldn't be issuing new insurance").

169. It is common practice for a surety underwriter to require disclosure of financial statements, but Zurich's surety underwriter knew of no legal or contractual provision that required disclosure of financial statements. Caulfield Dep. 56:11-57:3.

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence. Although Zurich's surety underwriter testified that she did not know of a specific legal or contractual provision, she testified that disclosure of financial statements was definitively required. Robert Aff. Ex. X at 56:9-57:3 ("It's a requirement. If they want bonds, they have to give us their financial statements. That's how we underwrite."). Further disputed because the asserted fact ignores the testimony of Zurich's other surety underwriter who took over the account in late 2017, and who testified that annual review of Mr. Trump's personal financial statements was a requirement of this surety program. Pl.'s Statement Ex. 348 at 34:12-35:14.

170. Prior to Zurich's underwriting of the surety program, Zurich had a longstanding insurance relationship with President Trump's businesses that ended in May 2011. Caulfield Dep. 48:2-6. During that insurance relationship, an insurance underwriter shared financial information from his

review of the SOFC with the surety underwriter. Caulfield Dep. 47:15–25.

RESPONSE: Undisputed.

171. When the insurance relationship ended, Zurich’s underwriter reviewed the 2010 SOFC at Trump Tower in July 2011. Caulfield Dep. 66:5–12.

RESPONSE: Undisputed.

172. Between July 2011 and January 2017, Zurich’s underwriter did not review the SOFC and routinely threatened to stop writing new bonds until she was given access to updated financial information. Caulfield Dep. at 82:18–21, 102:19–103:10; Robert Aff., Ex. AAO at ZurichNA_008206. Nevertheless, between July 2011 and January 2017, Zurich continued to expand the surety program by adding new bonds based, in part, on media publications reporting President Trump’s net worth, including Forbes and USA Today. Caulfield Dep. at 81:5–24, 88:7–21, 93:11–25, 94:2–7.

RESPONSE: Disputed because the asserted facts are not supported by the cited evidence, but undisputed that between July 2011 and January 2017 Zurich expanded the surety program.

173. In 2013, the sole basis for supporting Zurich’s underwriting decision was a Forbes publication that estimated President Trump’s net worth at \$3.2 billion. Caulfield Dep. 81:5–24.

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence, and excludes the witness’s subsequent testimony, which identifies as part of the reason she supported renewing coverage her receipt of an accountant’s letter stating Mr. Trump’s net worth. *See* Robert Aff. Ex. X at 88:22–89:18.

174. In 2014, Zurich’s surety underwriter underwrote the surety program by relying on a Forbes publication that estimated President Trump’s net worth at \$4.1 billion and a USA Today press release in connection with President Trump’s run for President that estimated his net worth at \$10 billion. Caulfield Dep. 93:16–94:7

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence, and because it

ignores the information contained in the witness's annual underwriting reports (see, e.g. Ex. 1054) and testimony, which identifies additional support for underwriting the surety program, including the accountants' letter submitted in 2014. Robert Aff. Ex. X at 88:22-89:18; Ex. 1055 at 115:2-117:9.

175. In 2015, Zurich's surety underwriter underwrote the surety program by relying on a Forbes publication that estimated President Trump's net worth at \$4.5 billion and a USA Today press release in connection with President Trump's run for President that estimated his net worth at \$10 billion. Caulfield Dep. 111:20-112:11.

RESPONSE: Disputed as unsupported by the cited evidence, and because it ignores the information contained in the witness's annual underwriting reports (see, e.g. Ex. 1056 at -225) and testimony. Ex. 1055 at 123:5-13.

176. Despite not receiving traditional financial disclosure of the SOFC from July 2011 to January 2017, Zurich increased its exposure and renewed bonds as an accommodation to AON. Caulfield Dep. 85:19-87:16, 90:6-15, 98:10-17.

RESPONSE: Disputed as unsupported by the cited evidence that the increased exposure and renewed bonds were made solely as an accommodation to AON and because this ignores other testimony that clarifies that Zurich renewed the program for other reasons (Robert Aff. Ex. X at 114:17-20); otherwise, undisputed that Zurich increased its exposure and renewed bonds between July 2011 and January 2017.

177. Zurich's reliance on information provided by Forbes and other media publications continued through January 2017 when Zurich's surety underwriter visited Trump Tower to review the 2015 SOFC. Caulfield Dep. 115:19-116:14

RESPONSE: Disputed as unsupported by the cited evidence; but otherwise, undisputed in January 2017 the Zurich surety underwriter visited Trump Tower and reviewed the 2015 SOFC.

178. In January 2017, Zurich agreed to add DJT Holdings LLC as an additional indemnitor because of concerns Zurich had involving enforcement of the GIA during President Trump's term of

office. Caulfield Dep. 119:4–18.

RESPONSE: Undisputed.

179. The rates charged by Zurich for the surety program were rates filed with insurance regulators in the state of New York. Robert Aff., Ex. AA (“Miller Dep.”) 60:17-61:8.

RESPONSE: Disputed because this assertion is unsupported by the cited testimony. Mr. Miller’s full testimony explained that filed rates were a starting point, but that an underwriter had discretion to deviate up or down within certain limits from that starting rate, as Zurich did to determine the rates that were charged. *See* Robert Aff. Ex. AA at 60:17-62:14.

180. Zurich reduced the rate President Trump’s businesses were paying as an accommodation to AON and to stave off another insurance company seeking to take the surety program from Zurich. Caulfield Dep. 104:6–105:15. The account rate was lowered despite Zurich not having reviewed updated SOFCs in approximately four years. Caulfield Dep. 105:20–106:3.

RESPONSE: Disputed because the cited evidence does not support the asserted facts; otherwise, undisputed that the premium rate Zurich charged for the Trump Organization account was reduced in 2015 and undisputed that the Trump Organization failed to provide Zurich with an opportunity to review the SOFC financials between 2011-2016. Robert Aff. Ex. X at 102:19-103:10.

181. The total exposure extended to President Trump’s businesses in connection with the surety program never exceeded \$20 million. Caulfield Dep. 133:3–7; Robert Aff., Ex. Y (“Potter Dep.”) 68:5–8, 70:2–7, 72:20–25, 73:5–8.

RESPONSE: Undisputed.

182. Zurich did not focus on individual asset values because their focus was on President Trump’s liquidity to satisfy any claims on the indemnity agreement. Caulfield Dep. 71:8–14, 95:16–18, 117:23–118:2, 154:20–25; Miller Dep. 93:24–94:7 (“Zurich didn’t rely on an asset valuations at all. They looked at liquidity and they looked at keeping AON happy and they looked at keeping a customer and

those were the primary focus that they had in determining whether they would keep the risk and write the bonding program”); Robert Aff., Ex. Z (“Giulietti Dep.”) 108:9– 19; 113:4–8 (“Yes, based on our previous conversation, that’s all they’re relying on, cash, all the way back in the relationship.”)

RESPONSE: Disputed because the evidence cited does not support the factual assertions and is contrary to the testimony given by the underwriter who took over the account in late 2017 that she considered both Mr. Trump’s liquidity and the asset values (Pl.’s Statement Ex. 348 at 46:13-47:19; 48:2-16); otherwise, undisputed that Mr. Trump’s liquidity was a factor in the underwriter’s assessment of the surety bond program. (Pl.’s Statement Ex. 348 at 47:13-19; Robert Aff. Ex. X at 95:16-18).

183. Liquidity is an important factor for a surety underwriter in determining if an indemnitor can meet its obligation under an indemnity agreement. Miller Dep. 31:25–32:6. To determine accuracy of financial information provided to a surety, the underwriter can look at previous loss information, S&P reporting, Comprehensive Loss Underwriting Information. Miller Dep. 97:7–12.

RESPONSE: Undisputed, with the clarification that there are no publicly-available financial filings for a privately-held company as there are for a public company. Robert Aff. Ex. AA at 117:2-9.

184. To determine accuracy of financial information provided to a surety, the underwriter can request independent appraisals. Miller Dep. 98:15–17.

RESPONSE: Disputed as vague and conclusory opinion testimony that conflicts with evidence in the record confirming that such appraisals are economically infeasible and therefore are not done. Ex. 1032 at 222:7-223:17 (explaining that surety rates are “very low” and “if they had to run around doing appraisals, which are very expensive, it would definitely raise their costs and would have to increase their premiums.”); *see also* Robert Aff. Ex. X at 150:14-152:16 (testifying that “insurance companies don’t appraise things” for surety underwriting). This type of unsupported expert speculation cannot on its own create evidentiary support for Defendants’ factual assertions. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d 542, 544, 784 N.E.2d 68, 70 (2002) (“Where the expert's ultimate assertions are speculative or unsupported by any evidentiary foundation . . . the opinion should be given no probative force and is insufficient to withstand

summary judgment.”); *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d 327, 327, 818 N.Y.S.2d 199, 200 (1st Dept 2006) (finding that expert affidavit has no probative value on summary judgment where it “contained speculative, conclusory assertions” and “cited to various broad or inapt . . . rules, regulations and standards”).

185. Ms. Caulfield indicated that during her time at Zurich, she was never concerned with President Trump’s financial health. Caulfield Dep. 146:2–8.

RESPONSE: Disputed because the cited testimony was prompted by objectionable, leading questions and therefore is not sufficient evidence to support the asserted fact.

186. There were no claims ever made on the surety bonds underwritten by Zurich. Caulfield Dep. 155:2–6; Potter Dep. 103:20–22. Thus, Zurich did not incur financial harm because of the surety program. Caulfield Dep. 155:7–12.

RESPONSE: Disputed as to whether Zurich suffered “financial harm” because there is evidence that Zurich incurred unnecessary risk and was accordingly harmed (Ex. 1047 at ¶26(g)(i-ii); and Ex. 1032 at 53:19-54:9); and disputed whether claims made on the surety program is material; otherwise, undisputed that any claims were made on the surety bond program.

187. In connection with the surety bond program, Zurich never communicated with Donald Trump, Jr. or Eric Trump. *See* Caulfield Dep. 144:21–145:2.

RESPONSE: Disputed because the cited evidence does not support the asserted fact.

f. Tokio Marine HCC Insurance Company

188. As of December 2016, the Trust had in place D&O consisting of a single primary policy providing a limit of \$5,000,000 from Everest National Insurance Company (“Everest”) at a premium of \$125,000. Compl. ¶ 692.

RESPONSE: Disputed that the “Trust” had in place the D&O policy because it is unsupported by the cited evidence; otherwise, undisputed that the D&O policy in place for the Trump Organization as of the

beginning of December 2016 consisted of a single primary policy providing a limit of \$5,000,000 from Everest at a premium of \$125,000.

189. On December 6, 2016, AON, President Trump's insurance broker, obtained a quote from Tokio Marine HCC ("HCC") for additional limits of \$5,000,000 to sit above the Everest policy. Compl. ¶ 695. Without reviewing a SOFC, HCC quoted a policy to sit above the Everest policy through the expiration date of February 17, 2017, in exchange for a premium of \$40,000 subject to reviewing financials at renewal. Compl. ¶¶ 695–96.

RESPONSE: Undisputed, with the clarification that AON was the insurance broker for the Trump Organization. Ex. 1031 at 31:23-32:3.

190. In advance of renewal, an HCC underwriter met with Trump personnel at Trump Tower on January 10, 2017. Compl. ¶ 697. The HCC underwriter reviewed a balance sheet for year-end 2015, which showed total assets of \$6.6 billion, \$192 million liquidity, and total debt of \$519 million. Compl. ¶ 698.

RESPONSE: Undisputed.

191. On January 20, 2017, HCC offered the Trust terms for a primary \$10,000,000 D&O policy with a \$2,500,000 retention for an annual premium of \$295,000. Compl. ¶ 700. Coverage per these terms was bound on January 31, 2017, with effective dates of January 30, 2017, to January 30, 2018. Compl. ¶ 700.

RESPONSE: Undisputed, except that the cited evidence does not support the assertion that terms were offered by HCC to the "Trust."

192. HCC agreed to renew the D&O policy on the same terms for another twelve months, with a policy expiration date of February 10, 2019. Compl. ¶ 710.

RESPONSE: Undisputed.

193. The HCC D&O policy contained a provision that specified who had to know about a

claim under the policy before it had to be reported to HCC. *See* Robert Aff., Ex. AD at HCC_00000724.

RESPONSE: Disputed because the cited evidence is policy language that was superseded on May 4, 2017 (Ex. 1029 at -894) and not material because the policy notice provision has no relevance to an insurance applicant's disclosure obligations under the penal law during the application process.

194. Under the terms of the policy, only when the risk manager or general counsel became aware of a claim did the insured have to provide written notice. *See* Robert Aff., Ex. AD at HCC_00000724.

RESPONSE: Disputed because the cited evidence is policy language that was superseded on May 4, 2017 (Ex. 1029 at 894) and not material because the policy notice provision has no relevance to an insurance applicant's disclosure obligations under the penal law during the application process.

195. The policy required notice to HCC as soon as practicable after the risk manager or general counsel become aware of a claim, but in no event later than ninety days after the end of the policy period, which ended January 30, 2018. *See* Robert Aff., Ex. AD at HCC_00000724.

RESPONSE: Disputed because the cited evidence is policy language that was superseded on May 4, 2017 (Ex. 1029 at 894) and not material because the policy notice provision has no relevance to an insurance applicant's disclosure obligations under the penal law during the application process.

196. On February 8, 2019, AON provided notice to HCC of various "claims and/or circumstances which may reasonably be expected to give rise to Claims." Compl. ¶ 712.

RESPONSE: Undisputed.

197. If there has been materially false information provided by an applicant to a D&O carrier, the carrier can issue a reservation of rights letter, deny coverage, and rescind a policy. Miller Dep. 75:19-76:8.

RESPONSE: Undisputed, with the clarification that these actions are available to the carrier only if it has become aware that materially false information was provided.

198. HCC was not required to follow filed rates with New York regulators for the D&O policy. *See* Robert Aff., Ex. AD at HCC_00000684.

RESPONSE: Disputed because the cited evidence does not support the asserted statement.

g. The Defendants' Roles in the SOFC Transactions

199. Allen Weisselberg, Jeffrey McConney, Patrick Birney, and President Trump were the only Trump personnel involved in the preparation of the SOFC. Robert Aff., Ex. AAJ (“Weisselberg Dep.”) 86:3–10, 106:8–18, 114:19–115:21, 286:24–287:8; Robert Aff., Ex. W (“Eric Trump Dep.”) 273:9–20, 280:2–11, 286:22–288:13, 294:14–295:9, 304:2–5; Robert Aff., Ex. AAP (“Bender Dep.”) 142:16–20, 143:2–7.

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence, and is contrary to other record evidence showing that Mr. Trump, Mr. Weisselberg, Mr. McConney and Mr. Birney relied on the involvement of other Trump personnel in the preparation of the SOFCs. For example, notes in the underlying work papers for the 2012 SOFC state that the valuation of Seven Springs included information “[p]er telephone conversation with Eric Trump (9/24/2012).” Pl.’s Statement, Ex. 14 at 24 (MAZARS-NYAG-00003456). *See also* Pl.’s Statement, Ex. 15 at 9 (Rows 253-273) (citing valuation information for TNGC-Briarcliff as “per telephone conversation with Eric Trump” dated 9/25/2013); Pl.’s Statement ¶¶ 696-709 and supporting exhibits (describing Eric Trump’s role in SOFCs, guaranties and loans involving Trump Organization); Pl.’s Statement ¶¶ 680-695 and supporting exhibits (describing Donald Trump Jr.’s role in SOFCs, guaranties and loans involving Trump Organization); Pl.’s Statement Ex. 138 at 1183:18-1186:18, 1194:10-1195:13, 1196:24-1197:09 (investigative testimony of Patrick Birney describing presentation of 2021 SOFC to Trump personnel including Donald Trump, Jr., Eric Trump and others).

200. Eric Trump was not involved in the preparation of the SOFCs. *See* Eric Trump Dep. 273:9–20 (“I know nothing about the Statement of Financial Condition. I, certainly, wouldn’t know anything about the backup to the Statement of Financial Condition. It’s just not what I did.”), 280:2–11 (“I

do not ever recall speaking about a Statement of Financial Condition with Jeff McConney. This is not an exercise I was involved in.”), 287:2–25 (“To the best of my knowledge, I never saw or ever even remotely worked on the Statement of Financial Condition. This was not in my purview. This is not what I did.”), 288:2–13 (“I had nothing to do with the valuation process in the company. That just was not my domain”), 294:14–295:9 (“I knew just about nothing about the Statement of Financial Condition. I had, to the best of my knowledge, never seen the document, never worked on the document”), 304:2–5; Bender Dep. 142:16–20 (“Q: Did you have a discussion with Eric Trump concerning the preparation of the President's Statement of Financial Condition? A: Not to my recollection”).

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence and is contrary to other record evidence. Eric Trump was involved in the preparation of the SOFC, including by directly providing information used in asset valuations and by participating in discussions about the preparation of the SOFC. *See, e.g.*, Pl.’s Statement, Ex. 14 at 24 (MAZARS-NYAG-00003456) (notes in 2012 SOFC workpapers stating that the valuation of Seven Springs included information “[p]er telephone conversation with Eric Trump (9/24/2012)); Pl.’s Statement, Ex. 15 at 9 (Rows 253-273) (citing valuation information for TNGC-Briarcliff as “per telephone conversation with Eric Trump” dated 9/25/2013); Pl.’s Statement ¶¶ 696-709 and supporting exhibits (describing Eric Trump’s role in SOFCs, guaranties and loans involving Trump Organization); Pl.’s Statement Ex. 138 at 1183:18-1186:18, 1194:10-1195:13, 1196:24-1197:09 (investigative testimony of Patrick Birney describing presentation of 2021 SOFC to Trump personnel including Eric Trump); Ex. 1033 at 225:14-228:24, 234:4-235:6, 240:21-245:12 (testifying to specific conversations with Eric Trump regarding SOFC valuations of Seven Springs over multiple years).

201. Eric Trump stated he relied on the work of the accounting department when certifying the accuracy of the 2021 SOFC. *See* Robert Aff. Ex. W at 336:11–338:7.

RESPONSE: Undisputed.

202. Donald Trump Jr. was not involved in the preparation of the SOFCs. *See* Bender Dep.

143:2-7 (“Q: Did you have any discussion Donald Trump Jr. in connection with the preparation of the President's Statement of Financial Condition? A: Discussions? No, I did not have – not to the best of my recollection”).

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence and is contrary to other record evidence. Donald Trump Jr. has been involved in the preparation of the SOFCs in various capacities in his roles as a Trustee for the Donald J. Trump Revocable Trust and an Executive Vice President with the Trump Organization and for various corporate entities whose assets are valued on the SOFCs. *See, e.g.*, Pl.’s Statement ¶¶ 680-695 and supporting exhibits (describing Donald Trump Jr.’s role in SOFCs, guaranties and loans involving Trump Organization); Pl.’s Statement Ex. 138 at 1183:18-1186:18, 1194:10-1195:13, 1196:24-1197:09 (investigative testimony of Patrick Birney describing presentation of 2021 SOFC to Trump personnel including Donald Trump, Jr.).

Further disputed because the SOFCs from 2016 to 2021 expressly identify the Trustees of the Donald J. Trump Revocable Trust as the persons responsible for the statements’ contents, and Donald Trump, Jr. was one of two trustees of that trust. Pl.’s Statement ¶¶ 681, 743, 750, 756. Mr. McConney testified that Donald Trump Jr. thus would have had final approval authority over the SFC as trustee. Ex. 1033 at 190:3-193:10) (regarding 2017 SOFC, “Q. So at this point in time when this statement was finalized who had final approval authority over it? A. It would be the trustees. It would be Allen and Donald, Don Junior.”).

203. With respect to the Deutsche Bank loans, Eric Trump had no role in securing the loan for the Chicago, Doral, or Old Post Office transactions. *See* Vrablic Dep. 173:18-174:12, 232:17-233:18; *see also* Pereless Dep. 93:10-14; Sullivan Dep. 88:15-89:2 (“Q: As you sit here today, do you recall any involvement that Eric Trump had with respect to the guarantee on the Doral property? A. He was not involved.”).

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence and is contrary to

other record evidence. Eric Trump is an Executive Vice President with the Trump Organization, and has been an officer of 401 North Wabash Venture LLC and Trump Old Post Office LLC (Pl. Statement ¶ 709), and is therefore involved in managing the businesses and entities that are parties to these transactions. Eric Trump (along with his siblings Ivanka Trump and Donald Trump Jr.) was also an “indirect beneficial owner” of Trump Old Post Office LLC, and in that capacity “guaranteed a portion of the Loan Agreement” by agreeing to help pay up to \$10 million of any money paid by Mr. Trump to Deutsche Bank under his personal guaranty of the loan. Ex. 1053.

204. With respect to the Deutsche Bank loans, Donald Trump Jr. was not involved in the Doral transaction. Vrablic 174:8–12, 229:16–23, Sullivan Dep. 89:3-13 (“Q. Do you recall whether Donald Trump, Jr. had any involvement in the guarantee on the Doral property? A. He did not.”).

RESPONSE: Disputed because the asserted fact is not supported by the cited evidence and is contrary to other record evidence. Donald Trump Jr. was already a client of the Deutsche Bank PWM division at the time of the Doral transaction (Pl.’s Statement Ex. 226 at DB-NYAG-001691), and he has served in various capacities at Trump Endeavor 12 LLC during the time period covered by this litigation (Pl. Statement Ex. 51 ¶ 16). Further disputed because Donald Trump Jr. was an executive with the Trump Organization, and he has testified that he worked on an equal footing alongside his siblings Eric Trump and Ivanka Trump on a variety of deals, including “trying to grow the Trump Hotel Collection” through deals including Doral. Ex. 1034 at 69:20-74:21 (“[W]e were heavily involved in just finding the original deal. . . constructing it, and then, you know, ultimately operating it as well, as an operating, you know, hotel/resort in the case of Doral and golf course.”).

205. Moreover, Ms. Vrablic, a former Managing Director at Deutsche Bank, did not believe President Trump, Eric Trump, or Donald Trump, Jr. had ever submitted any materially false or misleading statements to Deutsche Bank. *See* Vrablic Dep. 229:16–23, 232:17–234:6; 234:17–20 (“Q. Are you aware of any false oral statements that President Trump ever made to anyone at Deutsche Bank?”).

A. Not to the best of my knowledge.”) 235:8–16 (“Q. Are you aware of any false written statements that President Trump ever made to anyone at Deutsche Bank? A. To the best of my knowledge, no. Q. Are you aware of any false information that Donald Trump, President Trump, ever provided to anyone at Deutsche Bank? A. To the best of my knowledge, no.”)

RESPONSE: Disputed because the cited evidence (including deposition responses to leading questions and incomplete hypotheticals offered “to the best of [the witness’s] knowledge”) does not support the asserted fact.

V. Other SOFC Submissions

a. Additional \$50 Million Loan from Deutsche Bank

206. In February 2016, Deutsche Bank considered extending an additional \$50 million loan secured by Trump Doral. Compl. ¶ 662.

RESPONSE: Undisputed

207. Ultimately, Deutsche Bank declined to extend further credit due to President Trump’s then-campaign for office because it could lead to the perception that Deutsche Bank was not politically neutral, which posed a level of reputational risk. Compl. ¶ 666.

RESPONSE: Undisputed

b. Buffalo Bills

208. In July 2014, President Trump bid to purchase the Buffalo Bills football team. Compl. ¶ 667. In support of its bid, President Trump obtained a confidence letter from Deutsche Bank indicating that President Trump would have the financial wherewithal to fund his bid to purchase the Buffalo Bills. Compl. ¶¶ 667, 669.

RESPONSE: Undisputed, with the clarification that Deutsche Bank provided a confidence letter based upon the bank’s “preliminary review of the current financial information of Mr. Donald J. Trump made

available to us, including liquidity and asset value.” Ex. 1036. Further clarification that when sending his bid package, Mr. Trump wrote a personal letter offering to pay \$1 billion dollars in cash, with an immediate closing, and stating that his net worth was in excess of “Eight Billion Dollars (financial statements to be provided upon request).” Ex. 1035.

209. In connection with the confidence letter, Jeff McConney certified that, as of June 30, 2014, there had been no material decrease from the 2013 SOFC. Compl. ¶¶ 668, 670.

RESPONSE: Undisputed

210. President Trump did not purchase the Buffalo Bills. Compl. ¶ 669.

RESPONSE: Undisputed.

c. Trump Golf Links at Ferry Point in Bronx, New York

211. In 2010, an offer was submitted to the City of New York for a concession to operate, maintain, and manage an 18-hole golf course and related facilities at Ferry Point Park, Bronx, New York. Compl. ¶ 671.

RESPONSE: Undisputed

212. The contract award included a personal guarantee by President Trump. Compl. ¶ 674. The guarantee stated that the 2010 SOFC had been furnished to the City of New York. Compl. ¶ 674.

RESPONSE: Undisputed

213. After being awarded the contract in 2012, President Trump was required to periodically represent there had been no material change in his financial position. Compl. ¶ 675. Mazars submitted such letters to the City of New York in 2010, 2011, 2013, 2016, 2017, 2018, and 2021. Compl. ¶ 675.

RESPONSE: Disputed as the cited evidence does not support the proposition, including because the Trump Organization and not Mazars submitted such letters to the City of New York. Compl. ¶ 675; Ex. 1037 at -396-399 (letter from Trump Organization CFO Allen Weisselberg stating “We have enclosed a statement

from the Certified Public Accounting firm of Weiser LLP, indicating a net worth in excess of \$3 billion and cash on-hand in excess of \$200 million.”).

VI. Methods of Asset Valuation

214. The American Institute of Certified Public Accountants (“AICPA”) provide for various methods to value real property. Robert Aff., Ex. AO (“Chin Aff.”), Ex. A (“Chin Expert Report”) ¶¶ 41–42.

RESPONSE: Disputed because the cited evidence does not support the asserted fact, and because the cited evidence misstates the AICPA standards referenced therein. The applicable accounting guidance for calculating the current values for real estate assets in a personal financial statement can be found in ASC Topic 274. Ex. 1014 ¶ 34 (quoting ASC Topic 274-10-55, paragraph 6); *see also* Robert Aff. Ex. AI Ex. A ¶¶ 25-29 (quoting same ASC Topic 274 methods for estimating the current value of real estate in a personal financial statement). Prof. Bartov testified that any method used to determine a value for a Statement of Financial Condition must have the “goal of reaching estimated current value” and the “principle of estimated current value.” *See* Robert Aff. Ex. AJ at 338:13-19, 340:11-16. Moreover, Prof. Bartov testified that in applying the definition of estimated current value to a personal financial statement, the definition is applied to reach a value at the date of the financial statement. *See* Robert Aff. Ex. AJ at 311:3-312:22.

215. The market value (“As Is”) and investment value (“As If”) for a property may produce differences in estimated valuation because they provide different perspectives. Robert Aff., Ex. AN (“Chin Dep.”) 98:3-19, 108:4-10.⁴

RESPONSE: Disputed because the cited testimony is vague, fails to define these terms sufficiently and lacks evidentiary support, but undisputed that “market value” and “investment value” as understood by

⁴ Citations to the Chin Deposition transcript in this and other instances appear to provide pin cites to a rough version of the transcript rather than the final version submitted as an exhibit by Defendants.

professional appraisers are different valuation methods. *See* Ex. 1026 at ¶¶ 7-11. Furthermore, this statement of opinion is immaterial because the SFCs state that they present Mr. Trump’s assets and net worth at estimated current value, which is consistent with the accounting principles that govern personal financial statements. *See* Ex. 1014 ¶¶ 32-34; Robert Aff. Ex. AI Ex. A ¶¶ 25-29.

216. Market value is generally described as “As Is,” as of a specific date, reflective of a price that a willing buyer and seller would agree upon in an open and competitive market. Chin Expert Report ¶ 43.

RESPONSE: Undisputed.

217. Investment value is “the value of the property to a particular investor based on that person’s (or entity’s) investment requirements rather than market norms.” Robert Aff., Ex. AAC (“Laposa Dep.”) 74:16–75:24, 135:9–11.

RESPONSE: Disputed because the cited testimony is vague, fails to define these terms sufficiently and lacks evidentiary support, but undisputed that “investment value” is an appraisal term of art that differs from market value, *see* Ex. 1026 at ¶ 8, and that also differs from estimated current value, *see* Robert Aff., Ex. AAC at 137:7-138:6; 139:22-140:25. Furthermore, this statement of opinion is immaterial because the SFCs state that they present Mr. Trump’s assets and net worth at estimated current value, which is consistent with the accounting principles that govern personal financial statements. *See* Ex. 1014 ¶¶ 32-34; Robert Aff. Ex. AI Ex. A ¶¶ 25-29.

218. Investment value is usually estimated based on anticipated future market and property conditions from the vantage point of a specific investor or owner and is often expressed as an “As If” value. Chin Expert Report ¶ 42; Chin Dep. 90:3–19, 91:24–92:8.

RESPONSE: Disputed because the cited testimony is vague, fails to define these terms sufficiently and lacks evidentiary support, but undisputed that “investment value” is an appraisal term of art that differs from market value, *see* Ex. 1026 at ¶ 8, and that also differs from estimated current value, *see* Robert

Aff., Ex. AAC at 137:7-138:6; 139:22-140:25. Furthermore, this statement of opinion is immaterial because the SFCs state that they present Mr. Trump's assets and net worth at estimated current value, which is consistent with the accounting principles that govern personal financial statements. *See* Ex. 1014 ¶¶ 32-34; Robert Aff. Ex. AI Ex. A ¶¶ 25-29.

219. The AICPA does not mandate or require reporting "As Is" values in compilation reports, nor does it mandate or require that a market value definition be applied. Chin Expert Report ¶ 42.

RESPONSE: Disputed, because ASC 274 requires the use of estimated current value in personal financial statements, and the applicable accounting standards do not establish different valuation standards depending on whether the personal financial statement is presented in a "compilation" or other type of format. *See* Ex. 1014 ¶32; Robert Aff. Ex. AI, Ex. A ¶26; and Robert Aff. Ex. AK, Ex. A ¶33. Further disputed because Mr. Trump's SFCs state that they contain estimated current values of his assets, and therefore the SFCs were required to apply that standard on that basis alone.

220. Appraised values prepared by certified professional appraisers generally reflect as is market values. Chin Dep. 91:24-92:8, 104:23-105:5.

RESPONSE: Disputed as vague and not supported by the cited evidence, but undisputed that appraisals prepared by certified professional appraisals generally describe a current value as of a specific date, subject to any disclosed conditions or assumptions. *See* Ex. 1026 ¶¶ 27-37.

221. Bank and developer appraisals often yield contrasting value estimates due to their distinct perspectives and considerations. Chin Expert Report ¶ 53. As lenders, banks prioritize safeguarding their investment and therefore approach collateral valuation with a conservative mindset, focusing on worst-case scenarios. Chin Expert Report ¶ 53. Bank-ordered appraisals heavily rely on historical data and performance, while potential market changes that could impact values may receive less emphasis. Chin Expert Report ¶ 53.

RESPONSE: Disputed, because “the type of value sought drives the basis for the opinions” of value in an appraisal regardless of who ordered the appraisal. *See* Ex. 1026 ¶16 (“The purpose of an appraisal might be for financing or financial reporting, but the type of value sought drives the basis for the opinions. . . . Lenders, appraisers, and investors (both buyers and owner/sellers) seek to estimate the value of an asset under a common definition, typically market value.”). As *The Appraisal of Real Estate* states: “appraisers are professionals with training and expertise in accepted valuation methods and techniques who have an ethical obligation to remain disinterested and unbiased while performing an appraisal.” *The Appraisal of Real Estate* (15th Ed. 2020), at 2. Moreover, appraisers are subject to licensing and/or certification requirements, and the Uniform Standards of Professional Appraisal Practice “defines an appraiser as ‘one who is expected to perform valuation services competently and in a manner that is independent, impartial, and objective.’” *Id.* Further disputed because the cited expert opinion testimony is speculative and lacks a foundation in evidence, and therefore should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

222. Developers are typically more optimistic about the property’s profit potential and prospects. Chin Expert Report ¶ 54. Developers presume that favorable market conditions will persist, leading to higher property values. Chin Expert Report ¶ 54.

RESPONSE: Disputed because the cited opinion is vague and lacking evidentiary support. Furthermore, the stated opinion is immaterial, because the SFCs claimed to list assets at their estimated current value (as required by the applicable accounting standards), and not at speculative “As If” or “investment value” as stated by Defendants’ experts. *See* Ex. 1026 ¶ 9 (“The SOFCs do not disclose that the values are based on investment value rather than current value.”); Robert Aff., Ex. AAC at 137:7-138:6; 139:22-140:25 (admitting that “estimated current value” and “investment value” are different concepts). Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no

probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

223. Uncertainty exists in the accuracy of appraisals, as “appraisal[s] are not always accurate.” Laposa Dep. 163:14–22.

RESPONSE: Disputed because the cited opinion is vague and lacking evidentiary support. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

224. Generally, there can be “divergent opinions between investors and owners and developers versus other stakeholders.” Laposa Dep. 167:6–9.

RESPONSE: Disputed because the cited opinion is vague and lacking evidentiary support. Further disputed as immaterial, because the SOFCs claimed to list assets at their estimated current value (as required by the applicable accounting standards) and not at speculative “As If” or “investment value” as stated by Defendants’ expert. *See Ex. 1026 ¶ 9; Robert Aff., Ex. AAC at 137:7-138:6; 139:22-140:25.* Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

225. Developers typically have a unique insight and perspective on creating value through development. Chin Expert Report ¶ 48. Developers perceive and manage risks different than more passive real estate owners and investors, and have definitive, often controversial, views on how a development or sell-out process could unfold. Chin Expert Report ¶ 48.

RESPONSE: Disputed because the cited opinion is vague and lacking evidentiary support. Further disputed as immaterial, because the SFCs claimed to list assets at their estimated current value (as required by the applicable accounting standards); therefore, opinions concerning speculative “As If” or

“investment value” as stated by Defendants’ experts have no relevance. *See, e.g.*, Robert Aff., Ex. AAC at 137:7-138:6; 139:22-140:25. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

226. Many of the assets listed in the SOFC reflect “As If” valuation estimates based on President Trump’s understanding and perspective of those assets. Chin Dep. 159:15–160:11.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, including because Mr. Chin’s opinion is not based on any evidence demonstrating Mr. Trump’s “understanding and perspective” of assets listed on his SFCs, and because the SFCs themselves assert throughout that they are presenting assets at estimated current value. *See* Pl.’s Statement ¶¶ 12, 23-27, 80, 88, 93, 98, 108, 123, 130, 134, 139, 153, 157, 161, 165, 169, 173, 177, 181, 185, 189, 193, 266, 269 and supporting exhibits (citing references to the use of estimated current value in 2021-2021 SOFCs). Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

227. The SOFC include assumptions made by President Trump, such as As If stabilized, As If developed, As If realized, As If projected or anticipated, and As If earned. Chin Expert Report ¶ 44.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, including because Mr. Chin’s opinion is not based on any evidence demonstrating Mr. Trump’s “understanding and perspective” of assets listed on his SFCs, and because the SFCs themselves assert throughout that they are presenting assets at estimated current value. *See* Pl.’s Statement ¶¶ 12, 23-27, 80, 88, 93, 98, 108, 123, 130, 134, 139, 153, 157, 161, 165, 169, 173, 177, 181, 185, 189, 193, 266, 269 and supporting exhibits (citing references to the use of estimated current value in 2021-2021 SOFCs). Because the cited

expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

Further disputed because the record shows that Mr. Trump instructed employees including Allen Weisselberg and Michael Cohen to inflate the value of the assets listed on his SFCs in order to “attain the number that Mr. Trump wanted” as his total net worth. As Michael Cohen testified at deposition, Ex. 1048 at 90:9-92:17:

Mr. Trump would call Allen and I into the office, and let's say it said he was worth \$6 billion. Well, he wanted to be higher on the Forbes list, and he then said, “I'm actually not worth 6 billion. I'm worth 7. In fact, I think it's actually now worth 8 with everything that's going on.” Allen and I were tasked with taking the assets, increasing each of those asset classes in order to accommodate that \$8 billion number.

See also Ex. 1046 at 958:17-963:05 (“Allen Weisselberg told me Donald likes to see [his net worth] go up”).

228. The value of President Trump’s businesses, a privately owned collective of assets (“Enterprise”), is not only the sum of its real estate assets, business units, and subsidiaries. Chin Report ¶ 51. A significant portion of the asset values is derived from the synergies and strategic advantages resulting from integrating and coordinating its various business units operating under a single brand with complete ownership control. Chin Expert Report ¶ 51. These synergies and advantages arise from more efficient portfolio management, improved market position, increased diversification, differentiation and pricing of product offerings, increased supplier leverage and purchasing power, and improved operating efficiencies that combined, create a more competitive advantage over non-branded, single property ownerships. Chin Expert Report ¶ 51.

RESPONSE: Undisputed that “ownership” exercises “complete . . . control” over the Trump Organization and its subsidiary entities, but otherwise disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1026 ¶ 26 (“Mr. Chin also attempts to make the claim that the assets contain synergies and

interdependencies that increase the value. Mr. Chin does not provide any support for this assertion nor any examples beyond potential cost savings that would already factor into the net operating income of the underlying properties.”). Further disputed because the supporting data spreadsheets for the SOFCs reach specific values for individual assets that are then summed into a total; those spreadsheets do not assign a separate, different value to a whole enterprise. Pl.’s Statement Exs. 13-23. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

229. If the Enterprise were put up for sale, buyers would recognize the Enterprise’s synergies and would pay a premium to own and control this position. Chin Expert Report ¶ 51.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1026 ¶ 26 (“Mr. Chin also attempts to utilize the argument that there is an accretive value to the entire portfolio that is not being considered by the OAG. Mr. Chin provides no support for this assertion nor is it accurate. A portfolio of multi-family properties sold as one might have an incremental premium because of aggregation costs and timing. Mr. Trump’s portfolio consists of different asset types, different markets, and different risk profiles. It is my professional opinion that I have not observed over my career, a portfolio of assets such as those in this matter, that have sold to one buyer, let alone having included a portfolio value premium. Additionally, if there was a supportable approach to incorporate a portfolio premium as Mr. Chin suggests there is, the SOFCs should have included that analysis so that the parties relying on the opinions of value for decision-making, could evaluate the distinction. This was not done nor supported by Mr. Chin.”). Further disputed because the supporting data spreadsheets for the SOFCs reach specific values for individual assets that are then summed into a total; those spreadsheets do not assign a separate, different value to a whole enterprise. Pl.’s Statement Exs. 13-23. Because the cited expert opinion

testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

230. A control premium exists for President Trump's businesses as they have the unique, unilateral ability to make strategic decisions that directly impact company's operations and future profit. Chin Expert Report ¶ 52.

RESPONSE: Disputed because the cited evidence is vague, fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See Ex. 1026* ¶ 26. Further disputed because the supporting data spreadsheets for the SOFCs reach specific values for individual assets that are then summed into a total; those spreadsheets do not assign a separate, different value to a whole enterprise. Pl.'s Statement Exs. 13-23. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

231. Net Operating Income approach, otherwise known as NOI, is commonly defined as “[t]he actual or anticipated net income that remains after all operating expenses are deducted from the effective gross income but before mortgage debt service and book depreciation are deducted.” Appraisal Institute, *The Dictionary of Real Estate Appraisal* 158 (6th ed. 2015). Compl. ¶ 117.

RESPONSE: Undisputed as to the definition of Net Operating Income found in *The Dictionary of Real Estate Appraisal* but disputed that “Net Operating Income approach” is otherwise known as NOI or that “Net Operating Income approach” is defined in *The Dictionary of Real Estate Appraisal*.

232. In practice, the NOI approach takes the form of a calculation considering a “discounted cash flow analysis of a property and discounting the cash flows and net operating income to a present value and then capping it in some way.” *Laposa Dep.* 48:4–25. The resulting number is the “estimated

value of that property.” Laposa Dep. 88:15–89:20.⁵

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

233. Cushman & Wakefield determined “the appraised market value,” (Laposa Dep. 47:13–18) by using the NOI approach and sought support from “sales comparisons” as is “typical for [ap]praisers.” Laposa Dep. 47:19–48:3.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. To the extent any particular appraisal is the subject of the asserted fact, the appraisal itself can be examined to determine how a value was reached.

234. “[C]apping it” (Laposa Dep. 48:9) refers to capitalization rate or “[c]ap rate,” which is the overall rate used to divide NOI to determine the value the appraisal seeks. Laposa Dep. 49:2– 12.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, but undisputed that “capping it” refers in the cited testimony to capitalization rate or cap rate which can be used along with NOI as one means of conducting an income approach to value. Further dispute the use of the word “seeks” to the extent it implies an appraiser generally “seeks” a value. To the extent any particular appraisal is the subject of the asserted fact, the appraisal itself can be examined to determine how a value was reached.

235. Many factors are considered in an NOI and a cap rate. Laposa Dep. 90:18–20. A

⁵ Citations to the Laposa Deposition transcript in this and other instances appear to provide pin cites to a rough version of the transcript rather than the final version submitted as an exhibit by Defendants.

“market cap rate” is one determined through an analysis of sufficient number of sales comparable whereby the cap rate is known, qualified, investigated, and sometimes adjusted. Laposa Dep. 91:8– 18.

RESPONSE: Undisputed that the asserted fact provides a general description of how a “market cap rate” can be determined.

236. Under the NOI approach, when using the discounted cash flow analysis, otherwise known as “DCF,” the value determined—whether it is market value or investment value depends on who is conducting it and what assumptions are included in the model. Laposa Dep. 141:8– 142:8.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, including the existence of an “NOI approach.” Further disputed because while a valuation model’s assumptions will affect its determination of value, the application of a disclosed and consistent methodology to a set of objective facts (such as a property’s income and expenses) should result in a consistent valuation, and the valuation should not change depending on “who is conducting it.” *See* Ex. 1026 ¶¶ 12-15 (explaining that a “standard of value must follow accepted valuation principles for that value definition and does not change based on who is providing the valuation opinion”).

237. Dividing the NOI by the market cap rate, as it is defined above, equals the “estimated current value” as defined under FASB—assuming there exists a willing buyer and a willing seller behind the calculation. Laposa Dep. 93:15–20.

RESPONSE: Undisputed, with the clarification that the citation provided does not match where the cited language appears in the exhibit.

238. The “investment value” is determined under the NOI approach, in accordance with the “Appraisal Institute’s 15th edition— ... if the specific investor’s criteria and expectations are mirrored with the market value....” Laposa Dep. 94:15–22.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, including because Dr. Laposa’s testimony was merely that “investment value” and “market value”

(calculated by taking NOI and dividing it by a market-based cap rate) could reach the same result in a “fortuitous” case where “the specific investor’s criteria and expectations are mirrored with the market value.” Robert Aff. Ex. AAC at 97:24-98:10. That opinion is speculative and lacks a foundation in evidence, and should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. Furthermore, this opinion is immaterial, because the SOFCs claimed to list assets at their estimated current value (as required by the applicable accounting standards); therefore, opinions concerning “investment value” as stated by Defendants’ experts are irrelevant. *See* Robert Aff., Ex. AAC at 137:7-138:6; 139:22-140:25 (admitting that “estimated current value” and “investment value” are different concepts).

a. Cash and Cash Equivalents

239. To determine whether the cash and cash equivalents were materially misstated under GAAP, it is irrelevant to consider whether President Trump was entitled to access the cash because under ASC 274 there is no classification for current and non-current assets. Robert Aff., Ex. AJ (“Bartov Dep.”) 177:4–18.

RESPONSE: Disputed because under governing GAAP definitions, none of the cash held within the Vornado Partnership Interests was Mr. Trump’s cash, cash equivalent, or marketable security; rather, ASC 274 specifically directs that the estimated current value of an investment in a separate entity, such as a partnership, be shown in one amount, and that assets and liabilities of the separate entity shall not be combined with similar personal items. *See* Ex. 1014 ¶¶ 77-86. Mr. Flemmons, one of Defendants’ experts, similarly testified: “My view is that we’ve looked at the definition of cash that’s sitting in the partnership is not cash that Mr. Trump can withdraw and has control over, so it would not be cash that would be really reportable as a separate line item on Mr. Trump’s financial statements.” Robert Aff. Ex. AH at 283:19-284:20. Prof. Bartov similarly agreed that Mr. Trump would only have the right to access the Vornado-held cash and control others’ access to it at some point “in the future.” *See* Robert Aff. Ex.

AJ at 182:16-183:7.

Further disputed because when asked about a series of disclosures regarding the liquid-asset category on the SOFCs for 2013, 2018, and 2021, Prof. Bartov was unable to tell from the written disclosure that cash held in the Vornado partnership entities was included. Robert Aff. Ex. AJ at 190:13-20, 191:14-25, 192:22-193:7.

b. Real Properties

i. 40 Wall Street

240. Cushman & Wakefield appraisals for 2011, 2012, and 2015 valued 40 Wall Street at \$200,000,000, \$220,000,000, and \$540,000,000, respectively. Compl. ¶ 122; Chin Expert Report ¶ 56.

RESPONSE: Undisputed.

241. The 2011 and 2012 Cushman appraisals significantly understated the market value by using market rental rate assumptions in the discounted cash flow analysis that did not accurately reflect the actual leasing conditions at the property. Chin Expert Report ¶ 58. Moreover, the 2011 and 2012 Cushman appraisals also used a capitalization rate that was inconsistent with market sales. Chin Expert Report ¶ 66.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, and because Mr. Chin's opinion testimony concerning the 2011 and 2012 Cushman appraisals is inaccurate and misreads the underlying documents. *See* Ex. 1026 ¶¶ 17-20. For example, Mr. Korologos explains that Mr. Chin's "selective" criticism of the capitalization rate is misleading because he is "highlighting the capitalization rate which does not factor into the 'As Is' valuation but failing to address the discount rate, which significantly impacts the 'As Is' value in both the 2011 and 2012 Cushman Appraisals." *Id.* ¶ 19.

242. The 2015 Cushman appraisal recognized the underestimation of their market rental rate assumptions and incorporated the actual improved occupancy and market conditions into their 2015

discounted cash flow leasing assumptions. Chin Expert Report ¶ 65.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact. Plaintiff's valuation expert Constantine Korologos has opined that Mr. Chin's opinion testimony concerning the 2015 Cushman appraisal is inaccurate and not supported by evidence. *See* Ex. 1026 ¶¶ 21-23. For example, Mr. Korologos observes that "[t]he only direct reference [in the Chin Expert Report] to the 2015 Cushman Appraisal assumptions is a table of the rent assumptions, however, this fails to include a similar comparison to actual rents that he performed for the 2011 and 2012 Cushman Appraisals. Mr. Chin makes several general comments that the 2015 Cushman Appraisal incorporated the actual improved occupancy and market conditions but provides no support for this conclusion." *Id.* ¶ 21. Mr. Korologos additionally described a series of "assumption changes that in the aggregate increased the final value conclusion" of the 2015 appraisal "by a significant amount," *id.* ¶ 22, and further observed that "in my professional experience, the terms of the 40 Wall Street refinancing were not consistent with the implied loan-to-value ('LTV') of 29.6 percent based on a \$160 million loan and a \$540 million valuation, indicating that the market may not have entirely agreed with the appraisal conclusions." *Id.* ¶ 23 & n.38.

ii. Trump Tower

243. With the exception 2015, the valuations of Trump Tower from 2011 through 2019 were derived by dividing the net operating income by a capitalization rate. Compl. ¶ 199.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, and because this assertion ignores the misleading or incorrect assumptions used by Defendants to artificially inflate the value of Trump Tower in the SOFCs during those years. *See* Ex. 1012 ¶¶ 91-105

244. In 2015, the valuation of Trump Tower was determined based on the sale of a comparable nearby building. Compl. ¶ 199.

RESPONSE: Disputed as vague and because the cited evidence does not support the asserted fact, and

because this assertion ignores Defendants' fraudulent manipulation of this methodology to value Trump Tower in 2015. As Mr. Korologos articulated in his report, "Inexplicably, despite using a direct capitalization approach for every other assessed year, for the 2015 SOFC, the methodology was switched to a market sales approach. The methodology failed to assess the comparability of the underlying property by applying the unadjusted sales price per square foot of a single transaction, the Crown Building." Ex. 1012 ¶ 95. Mr. Korologos concluded, for that year, based on his recalculations of value, that the value of Trump Tower was misstated by more than \$500 million. *Id.* ¶ 105.

iii. Trump Tower Triplex

245. The Trump Tower Triplex valuations from 2011 to 2016 were unintentional errors because they relied on a misapprehension of the square footage. Donald Trump Dep. 212:4–22, 219:10–24.

RESPONSE: Disputed because the cited testimony of Mr. Trump does not support Defendants' assertion that the inflated valuations of the Trump Tower Triplex from 2011 to 2016 were "unintentional errors" that "relied on a misapprehension of the square footage." In addition to failing to identify with any specificity who made these errors or to provide any support for any alleged "misapprehension" by these unnamed individuals, this testimony fails to rebut the evidence submitted by Plaintiff demonstrating that nearly tripling the square footage was done intentionally to inflate the value of the asset. *See* Pl.'s Statement ¶¶ 36–48 and supporting exhibits.

Further disputed because in September 2014, Mr. Weisselberg expressed to Mr. McConney and a reporter from *Forbes* that Mr. Trump's triplex "consists of 6 apartments." Ex. 1038. That specific knowledge mirrors the terms of the First Amendment to the Declaration of Trump Tower Condominium showing the square footage of the triplex apartment. That amendment identifies the triplex apartment as a combination of three lettered components of one triplex, two lettered components of a duplex, and one component of another triplex (i.e., six apartments). *See* Pl.'s Statement Ex. 48 at –30 (in item (4)),

identifying new unit 66/67/68N (three floors) as combined with neighboring duplex (two floors) and “third or top floor” (one floor) of another neighboring unit, with square footage of 10,996.39 square feet).

246. The error in valuing the Trump Tower Triplex did not materially affect the value of the Enterprise. Chin Dep. 209:4–22.

RESPONSE: Disputed. The errors in valuing the Triplex materially affected the value of that asset, inflating it by roughly \$100 to \$200 million. *See* Pl.’s Statement ¶¶ 38-40 and accompanying exhibits; Robert Aff. Ex. AN at 212:14-20 (“[Q: Isn’t] a misstatement like this material to the value of the asset? A. In an isolated situation for the particular asset, it’s wrong. Q. By a factor of three, yes, at least? A. Correct.”). Moreover, Mr. Chin’s opinion that this was an isolated error that did not “materially affect the value of the Enterprise” is unsupported by the record evidence, or by any relevant expertise or analysis. As a person who professed not to be an accountant, and to have difficulty evaluating when and whether ASC 274 would apply to personal financial statements, Mr. Chin cannot offer an opinion about materiality that is based in accounting. *See, e.g.*, Robert Aff. Ex. AN at 120:5-121:9, 157:10-158:6. By contrast, Plaintiff’s accounting expert Eric Lewis has opined, based on his review of evidence in the record and the expert opinions prepared by Plaintiff’s valuation experts, that Mr. Trump’s SOFCs “materially misstate the value of Mr. Trump’s real estate assets.” Ex. 1014 ¶¶ 138-164.

247. The error was corrected in future statements once Trump personnel became aware of it. Donald Trump Dep. 212:4–22, 219:10–24.

RESPONSE: Disputed, because the cited evidence does not support Defendants’ assertion that this correction occurred “once Trump personnel became aware of it.” Plaintiff has submitted evidence showing that Defendants were in fact aware of this error long before correcting it. *See* Pl.’s Statement ¶¶ 41-46 and supporting exhibits.

iv. Club Facilities

248. President Trump’s golf club facilities are trophy assets with a high-quality reputation.

Robert Aff., Ex AG (“Christovich Dep.”) 254:17–255:16. The golf club facilities are in high end markets and are maintained and resourced and recapitalized on an ongoing basis. Christovich Dep. 254:22–255:2. **RESPONSE:** Disputed as vague and because the cited evidence does not support the asserted fact. Further disputed because Mr. Christovich’s testimony lacks foundation; he acknowledged that his “focus was around beginning in 2020 forward,” and that “not all of the financial information documents that were in the vault from 2011 through 2021 did I view” (evidently referring to documents provided by defense counsel). Robert Aff. Ex. AG at 159:23-160:22.

Further disputed because plaintiff’s expert—an appraiser who has completed over 3,500 golf assignments over his career—explained, “there are a very limited number of golf and club properties that are believed to have ‘trophy value’. . . . These properties might include those that have been venues for major championships, that have some historic relevance in golf or have are recognized as a worldwide destination for golfers. Only Turnberry would meet those tests among the TTO golf properties. Otherwise, any such premium would already be reflected in the economic performance of the properties through enhanced revenues from membership, dues, fees and ancillary revenues.” Ex. 1013 at 43. Mr. Hirsh also explained that Mar-a-Lago has historical significance “as reflected in the substantial restrictions already placed on the property” and that “the expenses associated with substantial preservation restrictions likely are substantial.” *Id.*

1. Mar-a-Lago

249. After President Trump purchased the Mar-a-Lago property, the Town of Palm Beach approved an application for a special exception to use the property as a private social club without abandoning its use as a single-family residence. Robert Aff., Ex. AE (“Shubin Dep.”) 54:11–21. This resulted in a Declaration of Use Agreement between President Trump and the Town of Palm Beach. Shubin Dep. 55:15–56:15.

RESPONSE: Disputed as lacking any evidentiary support, because the cited testimony from Mr. Shubin

is legal analysis and opinion which is not admissible expert testimony. See *Good Hill Master Fund L.P. v. Deutsche Bank AG*, 146 A.D.3d 632, 637 (1st Dep’t 2017) (defendant’s proffered expert was properly precluded from testifying about the interpretation of a disputed contract provision); *Colon v. Rent-A-Ctr., Inc.*, 276 A.D.2d 58, 61–62 (1st Dep’t 2000) (“[E]xpert witnesses should not be called to offer opinion as to the legal obligations of parties under a contract; that is an issue to be determined by the trial court.”); *Levy v. Zimmerman*, 72 Misc. 3d 1213(A), 150 N.Y.S.3d 233 (Sup. Ct. N.Y. Cnty 2021) (holding that expert testimony is “inadmissible to offer an opinion as to the legal rights and obligations of the parties under the unambiguous contract”).

Further disputed that the cited Declaration of Use agreement, which barred any subdivision of the property, condominiumization of the property, or any change to a cooperative form of ownership, did not abandon the use of Mar-a-Lago as a single-family residence. Pl.’s Statement Ex. 107, at --698. Indeed, Mr. Shubin’s report attached a document—not produced by defendants in discovery or in response to investigative subpoenas—indicating that Mr. Trump’s representative advised the locality in 1993 that he would not continue to live at the club. Ex. 1039 at 1.

250. In 2002, President Trump executed a deed in favor of the National Trust for Historic Preservation in the United States to convey rights to develop Mar-a-Lago for any usage other than club usage. Shubin Dep. 63:7–64:2; Robert Aff., Ex. AF. This deed did not restrict President Trump from using Mar-a-Lago as a single-family residence in connection with its use as a private club. Shubin Dep. 64:3–13.

RESPONSE: Disputed as lacking any evidentiary support, because the cited testimony from Mr. Shubin is legal analysis and opinion which is not admissible expert testimony. See *Good Hill Master Fund L.P. v. Deutsche Bank AG*, 146 A.D.3d at 637; *Colon v. Rent-A-Ctr., Inc.*, 276 A.D.2d at 61–62; *Levy v. Zimmerman*, 150 N.Y.S.3d 233. Furthermore, dispute that the 2002 deed of development rights with the National Trust for Historic Preservation in the United States did not restrict Mr. Trump from using Mar-

a-Lago as a single-family residence. *See* Pl.’s Statement ¶¶ 144-152, 197 and supporting exhibits.

251. Mar-a-Lago can be used by President Trump as an exclusive private residence for him and his family while simultaneously being used as a private social club. Shubin Dep. 38:9–40:13.

RESPONSE: Disputed as vague and lacking any evidentiary support, because the cited testimony from Mr. Shubin is legal analysis and opinion which is not admissible expert testimony. *See Good Hill Master Fund L.P. v. Deutsche Bank AG*, 146 A.D.3d at 637; *Colon v. Rent-A-Ctr., Inc.*, 276 A.D.2d at 61–62; *Levy v. Zimmerman*, 150 N.Y.S.3d 233. Further disputed as inaccurate and unsupported by the factual record. *See* Pl.’s Statement ¶¶ 144-152, 197 and supporting exhibits.

252. Mar-A-Lago could also be used as a private residence without having a social club simultaneously operating. Shubin Dep. 41:6–8.

RESPONSE: Disputed as lacking any evidentiary support, because the cited testimony from Mr. Shubin is legal analysis and opinion which is not admissible expert testimony. *See Good Hill Master Fund L.P. v. Deutsche Bank AG*, 146 A.D.3d at 637; *Colon v. Rent-A-Ctr., Inc.*, 276 A.D.2d at 61–62; *Levy v. Zimmerman*, 150 N.Y.S.3d 233. Further disputed as inaccurate and unsupported by the factual record. *See* Pl.’s Statement ¶¶ 144-152, 197 and supporting exhibits.

2. The Remaining Club Facilities (Trump Aberdeen, Trump Turnberry, TNGC Jupiter, TNGC Briarcliff, TNGC LA, TNGC Colts Neck, TNGC Philadelphia, TNGC DC, TNGC Charlotte, TNGC Hudson Valley)

253. The SOFC values for the remaining club facilities represent “As If” valuations because they are future oriented with no plans for bulk selloffs or discounted liquidations prior to the competition of development. Chin Aff., Ex. B (“Chin Rebuttal Report”) ¶¶ 105–07.

RESPONSE: Disputed and lacking support in evidence, including because the SOFCs present valuations as “estimated current values.” *See* Pl.’s Statement ¶¶ 12, 23-27 and supporting exhibits; *see also supra*, ¶ 52 (admitting that “ASC 274 establishes ‘estimated current value’ as the ‘valuation standard applicable to personal financial statements’”). In fact, the SFCs used a “fixed assets” approach to valuation in nearly

all years for nearly all of the clubs based on *historical* cost—in some instances misstating the treatment of assumed liabilities to inflate valuations. Pl.’s Statement ¶¶ 315-333 and supporting exhibits. Furthermore, Mr. Chin defines an “As If” valuation as based on speculation (“something that could happen in the future that may or may not”), but admits this is a different definition of value than “estimates of current value,” which is what the SOFCs claim to present. (Robert Aff. Ex. AN at 163:13-164:8.) Therefore, the cited opinion testimony is immaterial, speculative and lacks a foundation in evidence, and it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327. *See also* Ex. 1040 ¶¶ 29-32 (“Mr. Chin’s opinion that the Statements ‘appropriately include As If, proforma, or anticipated or projected estimates’ is based on incorrect and irrelevant accounting guidance and is false.”). Further disputed because the referenced paragraphs from Mr. Chin’s report only refer to TNGC LA, TNGC Briarcliff, Aberdeen and Seven Springs.

254. An asset-by-asset approach, as opposed to valuing the Enterprise as a whole, ignores significant operating, marketing, financial and competitive differences, and benefits that accrue from the ownership and operation of an Enterprise. Chin Rebuttal Report ¶ 146.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As explained by Plaintiff’s valuation experts, any “brand premium” that accrued to the Trump Organization’s golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

255. A Going-Concern Value of the Enterprise analysis (“GCEV”) is an acceptable form of valuation that reflects the actual operating status of the Enterprise, as well as the tangible and intangible

assets, the future earnings potential, growth prospects, market position, customer base, brand reputation, financial statements, and other factors that contribute to the ongoing profitability and value of the Enterprise. Chin Rebuttal Report ¶ 148.

RESPONSE: Disputed because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1013 at 6-15 (describing methodologies accepted in the marketplace to value operating club facilities). Further disputed as immaterial because Defendants fail to cite to any evidence that any of the Defendants in fact used this method when valuing these assets on Mr. Trump's SOFCs, and Mr. Chin fails to cite any such evidence as support for his opinion. *See* Ex. 1013 at 15-24 (describing valuation errors made by Defendants in the SFCs and supporting workpapers, none of which reflect a reliance on a GCEV methodology or the factors described by Mr. Chin). Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

256. The GCEV involves assessing the present value of expected future cash flows and applying appropriate valuation methods such as discounted cash flow analysis, market multiples, or comparable transactions. Chin Rebuttal Report ¶ 148. Once the GCEV is established, allocations to each property can then be made. Chin Rebuttal Report ¶ 148.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1013 at 6-15. Further disputed as immaterial because Defendants fail to cite to any evidence that any of the Defendants in fact used this method when valuing these assets on Mr. Trump's SOFCs, and Mr. Chin fails to cite any such evidence as support for his opinion. *See* Ex. 1013 at 15-24. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30

A.D.3d at 327.

257. The GCEV is a holistic assessment of an Enterprise's total value, while market value As Is focuses on the present worth of individual assets at a specific point in time. Chin Rebuttal Report ¶ 149.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1013 at 6-15. Further disputed as immaterial because Defendants fail to cite to any evidence that any of the Defendants in fact used this method when valuing these assets on Mr. Trump's SOFCs, and Mr. Chin fails to cite any such evidence as support for his opinion. *See* Ex. 1013 at 15-24. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

258. The GCEV most accurately reflects the ownership, operations, and marketing of the Enterprise. Chin Rebuttal Report ¶ 150. The GCEV approach is consistent with the Enterprise's current use and conforms to the Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, which requires that an Enterprise operated and marketed under a single name should be valued as a unit. Chin Rebuttal Report ¶ 151.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1013 at 6-15. Further disputed as immaterial because Defendants fail to cite to any evidence that any of the Defendants in fact used this method when valuing these assets on Mr. Trump's SOFCs, and Mr. Chin fails to cite any such evidence as support for his opinion. *See* Ex. 1013 at 15-24. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30

A.D.3d at 327.

259. The break-up value of each individual asset for separate sale is not applicable since the highest value is achieved by operating the Enterprise as a single unit. Chin Rebuttal Report ¶ 153.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As Plaintiff's valuation experts have explained, any "brand premium" that accrued to the Trump Organization's golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

260. Given the existing operating condition of the Enterprise, the GCEV valuation provides a more accurate reflection of the value of the Enterprise because it recognizes the continued operations, synergies, and income-generating aspects of the enterprise as a whole, rather than isolating and valuing the assets as separate entities in a liquidation scenario. Chin Rebuttal Report ¶ 161.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. *See* Ex. 1013 at 6-15. Further disputed as immaterial because Defendants fail to cite to any evidence that any of the Defendants in fact used this method when valuing these assets on Mr. Trump's SOFCs, and Mr. Chin fails to cite any such evidence as support for his opinion. *See* Ex. 1013 at 15-24. Further disputed because Plaintiff's valuation experts have explained that this assertion is inaccurate, and that any "brand premium" that accrued to the Trump Organization's golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan*

Ownership Co., LLC, 30 A.D.3d at 327.

261. Applying an asset-by-asset approach fails to capture the integrated value created by the Enterprise as a unified entity. Chin Rebuttal Report ¶ 166.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As Plaintiff’s valuation experts have explained, any “brand premium” that accrued to the Trump Organization’s golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

262. The intangible value associated with a brand name is a permissible valuation consideration. Chin Rebuttal Report ¶ 168. And the use of the Trump brand value as part of the value of the reported tangible assets was also properly disclosed in the SOFC. *See, e.g.*, Compl., Ex. 3 at 4; Flemmons Expert Report ¶¶ 69–72.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As Plaintiff’s valuation experts have explained, any “brand premium” that accrued to the Trump Organization’s golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20; Ex. 1040 ¶¶ 26-28. Further disputed because GAAP prohibits the recording of internally generated intangible assets (such as the “Trump” brand name) on a personal financial statement, and because the use of the purported Trump brand value was not properly disclosed on the SFCs. *See* Ex. 1014 ¶¶ 69-76. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

263. As compared to an asset-by-asset valuation, a GCEV valuation that considers intangible assets such as President Trump’s brand, should reflect lower capitalization rates or higher adjusted gross income multipliers. Chin Rebuttal Report ¶ 170.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As Plaintiff’s valuation experts have explained, any “brand premium” that accrued to the Trump Organization’s golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20; Ex. 1040 ¶¶ 26-28. Further disputed because GAAP prohibits the recording of internally generated intangible assets (such as the “Trump” brand name) on a personal financial statement, and because the use of the purported Trump brand value was not properly disclosed on the SFCs. *See* Ex. 1014 ¶¶ 69-76; Ex. 1040 ¶¶ 26-28. Because the cited expert opinion testimony is speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

264. The assets of President Trump’s Enterprise hold more value when operated and marketed under a single name. Chin Rebuttal Report ¶ 154.

RESPONSE: Disputed because the cited evidence fails to support the asserted fact, and because the cited opinion is incorrect and lacking any foundation in evidence. As Plaintiff’s valuation experts have explained, any “brand premium” that accrued to the Trump Organization’s golf clubs as a whole would be reflected in the economic performance and valuation of the individual properties themselves. *See* Ex. 1026 ¶ 26; Ex. 1013 at 7, 20; Ex. 1040 ¶¶ 26-28. Further disputed because GAAP prohibits the recording of internally generated intangible assets (such as the “Trump” brand name) on a personal financial statement, and because the use of the purported Trump brand value was not properly disclosed on the SFCs. *See* Ex. 1014 ¶¶ 69-76; Ex. 1040 ¶¶ 26-28. Because the cited expert opinion testimony is

speculative and lacks a foundation in evidence, it should be given no probative weight by the Court. *See Diaz v. New York Downtown Hosp.*, 99 N.Y.2d at 544; *Amaya v. Denihan Ownership Co., LLC*, 30 A.D.3d at 327.

VII. Tolling Agreement

265. On August 27, 2021, the Trump Organization, through its EVP/Chief Legal Officer, Alan Garten, entered into a tolling agreement with the NYAG to toll the statute of limitations for any “action commenced by OAG asserting any Potential Civil Claim” (hereinafter, the “Tolling Agreement”). *See generally* Robert Aff., Ex. AT (“Tolling Agreement”).

RESPONSE: Undisputed.

266. The Tolling Agreement defines the Trump Organization as follows: “[T]he ‘Trump Organization’ as used herein includes The Trump Organization, Inc.; DJT Holdings, LLC; DJT Holdings Managing Member LLC; and any predecessors, successors, present or former parents, subsidiaries, and affiliates, whether direct or indirect, and all directors, officers, partners, employees, agents, contractors, consultants, representatives, and attorneys of the foregoing, and any other Persons associated with or acting on behalf of the foregoing, or acting on behalf of any predecessors, successors, or affiliates of the foregoing.” Tolling Agreement at 1.

RESPONSE: Undisputed.

267. The sole signatories on the Tolling Agreement were Alan Garten, in his capacity as officer of the Trump Organization, and Kevin Wallace on behalf of the NYAG.

RESPONSE: Undisputed.

268. The Tolling Agreement also indicates “[e]ach of the undersigned representatives of the Parties certifies that he or she is fully authorized to enter into this Tolling Agreement and to execute and bind such Party to this document.” Tolling Agreement ¶ 16.

RESPONSE: Undisputed.

269. The first draft of the Tolling Agreement circulated by the NYAG on May 3, 2021 explicitly named Donald J. Trump, Eric Trump, Allen Weisselberg, and Jeffrey McConney as parties to the agreement, and had a signature block each individual. *See* Robert Aff., Ex. AT (“Draft Tolling Agreement”) at 1, 3–4.

RESPONSE: Disputed because the cited evidence does not support the asserted fact.

270. On June 16, 2021, the “Trump Organization” circulated an updated draft of the agreement that included a footnote to clarify that the agreement would not “toll any civil claims that might in the future be asserted by the OAG against any *individuals*, including any directors, officers, partners, employees, agents, contractors, consultants, representatives, and/or attorneys of the Trump Organization.” *See* Robert Aff., Ex. AU. NYAG counsel responded via email on June 17, 2021, noting that this proposed change to the footnote at issue was “generally acceptable.” *See* Robert Aff., Ex. AV.

RESPONSE: Undisputed that the Trump Organization’s updated draft of the tolling agreement included a footnote with proposed language stating that the agreement would not toll civil claims against “individuals (i.e. natural persons),” except disputed that the asserted fact accurately quotes the proposed language. Further disputed that the cited email stating that “changes to footnote 1 . . . are generally acceptable” reflected OAG’s final position given that the proposed language was later deleted from the final tolling agreement.

271. Despite the AG’s indication that the language was “generally acceptable,” the proposed footnote in the June 16, 2021 draft was not incorporated into the final executed Tolling Agreement. *See* Tolling Agreement.

RESPONSE: Undisputed.

272. The executed Tolling Agreement did not mention Donald J. Trump, Eric Trump, Allen Weisselberg, or Jeffrey McConney and removed the signature blocks for these individuals. *See generally*

Tolling Agreement.

RESPONSE: Disputed because the cited evidence does not support the factual assertion as Donald J. Trump, Eric Trump, Allen Weisselberg and Jeffrey McConney are all covered by the definition of “Trump Organization” in the Tolling Agreement.

273. The NYAG also stated at an April 25, 2022, hearing that: “Donald J. Trump is not a party to the tolling agreement, that tolling agreement only applies to the Trump Organization.” *See* Robert Aff., Ex. AW at 58:8–10.

RESPONSE: Undisputed.

274. In an appellate brief dated December 7, 2022, the NYAG stated: “OAG and the Trump Organization entered a six-month tolling agreement, to which Mr. Trump was not a party.” Robert Aff., Ex. AY at 39 n.13.

RESPONSE: Undisputed.

LICENSE AGREEMENT (“License,” “License Agreement” or “Agreement”) made this 21st day of February, 2012, between the City of New York (the “City”) acting by and through the New York City Department of Parks & Recreation (“Parks”), whose address is The Arsenal, 830 Fifth Avenue, New York, New York 10065, and Trump Ferry Point LLC (“Licensee”), a Delaware limited liability company, whose address is c/o The Trump Organization, 725 Fifth Avenue, New York, NY 10022, Attention: Allen Weisselberg and Ron Lieberman. The Parks, City and Licensee are sometimes hereinafter referred to collectively as the “Parties” or individually as a “Party”.

WHEREAS, Parks, pursuant to the City Charter, has jurisdiction over parklands of the City of New York and facilities therein; and

WHEREAS, Ferry Point Park in the Borough of the Bronx (“Ferry Point Park”) is property under the jurisdiction and control of Parks; and

WHEREAS, the City is constructing certain improvements to its property at Ferry Point Park consisting of the Golf Course, the Practice Facility, which includes the Driving Range (each as defined in the Development Agreement (as hereinafter defined)); the Golf Course Snack Bar and the Park Snack Bar (each as defined in the Development Agreement, collectively, the “Snack Bars”) and certain other improvements defined as the “City’s Work” in the Development Agreement, all as more particularly described in **Schedule 2** to the Development Agreement (the Golf Course, the Practice Facility, Golf Course Snack Bar and other improvements constituting the City’s Work, other than the Park Snack Bar being hereinafter referred to as the “Golf Course Facilities”); and

WHEREAS, Parks and Licensee have entered into that certain Development Agreement dated as of the date hereof (the “Development Agreement”), a copy of which is attached hereto as **Exhibit C** and made a part hereof, relating to, among other things, the construction of the City’s Work by the City, the construction process and procedures and the conditions for the delivery of the Licensed Premises (as defined below) to Licensee; and

WHEREAS, the Commissioner desires to provide for the operation, management and maintenance of the Golf Course Facilities and the Park Snack Bar (when delivered to Licensee in accordance with the Development Agreement), and the design, construction, operation, management and maintenance of a permanent clubhouse with a food service facility and pro-shop (the “Clubhouse”, such definition as used herein shall include any temporary clubhouse) within the Golf Course Facilities at Ferry Point Park for the accommodation and convenience of and use by the public; and

WHEREAS, the Franchise and Concession Review Committee (“FCRC”) has authorized Parks to utilize a different procedure to enter into the Concession (as hereinafter defined) with Licensee; and

WHEREAS, Licensee desires to operate, manage and maintain the Golf Course Facilities and the Park Snack Bar, and design, construct, operate, manage and maintain the Clubhouse at Ferry Point Park for the benefit of the public in accordance with the terms set forth herein; and

WHEREAS, Parks and Licensee desire to enter into this License Agreement specifying rights and obligations with respect to the design, construction, operation, management and maintenance of the Licensed Premises (as defined herein).

NOW THEREFORE, in consideration of the premises and covenants contained herein, the Parties hereby do agree as follows:

1. GRANT

1.1 Parks hereby grants to Licensee and Licensee hereby accepts from Parks a license to operate, manage and maintain the Licensed Premises, including, without limitation, the Golf Course Facilities and the Park Snack Bar, which shall be constructed on the Licensed Premises by Parks in accordance with the Development Agreement, and to design, construct, operate, manage and maintain the Clubhouse at the Licensed Premises (the operation, management and maintenance of the Golf Course Facilities and the Park Snack Bar, and the design, construction, operation, management and maintenance of the Clubhouse collectively, the “**Concession**”) for the enjoyment and convenience of the public in accordance with the terms herein and to the satisfaction of the Commissioner. Subject to the prior written approval of Parks, Licensee shall construct a temporary clubhouse to be open to the public at the Concession Commencement Date (as hereinafter defined). The City represents to Licensee that the area described as the Licensed Premises on **Exhibit A** attached hereto is the same area that is outlined in red on **Exhibit A-1** attached hereto.

1.2 (a) Except for and without limiting the Licensee’s obligations under the Development Agreement and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement), the City and Parks shall obtain, at their sole cost and expense, any Governmental Approvals required for all of the City’s Work to be performed by the City and to develop the remainder of the Licensed Premises, except for the Clubhouse and any other structures (temporary or otherwise) constructed by Licensee at the Licensed Premises. The City and Parks shall comply with the Prior Determinations (as hereinafter defined) and other applicable Environmental Laws.

(b) Except for and without limiting the City’s and Parks’ obligations under the Development Agreement and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement), Licensee shall obtain, at its sole cost and expense, any Governmental Approvals required for the Grow-In and for the design, construction, operation, management and maintenance of the Clubhouse and any other structures (temporary or otherwise) constructed by Licensee at the Licensed Premises and for any City Work performed by Licensee pursuant to **Section 10.8** of the Development Agreement. Parks, the Commissioner and the City shall cooperate with Licensee in obtaining any and all Governmental Approvals, if any, required for the Grow-In or any Capital Improvements to be performed by Licensee, including without limitation, any temporary maintenance facility, temporary clubhouse or temporary golf cart storage facility which may be constructed by Licensee. The Licensee agrees as a material term that the design and construction of the Clubhouse and any other work or construction at the Licensed Premises by Licensee (w) shall comply with applicable Environmental Laws, (x) shall be performed in accordance with the ULURP No. C000090 MCX determination dated December 22, 1999 and the SEQRA/CEQR assessment dated April 27, 2005 (as modified by all subsequent technical memoranda prepared pursuant to SEQRA/CEQR, including, the Technical Environmental Assessment for the Ferry Point Park Recreation Facility, dated February 11, 2002, as amended September 29, 2004; Technical Environmental Assessment for Ferry Point Recreation Facility, dated November 16, 2004; and Environmental Assessment Statement, dated September 30, 1999, as well as any subsequent technical memoranda prepared by

Parks with input from Licensee) for Ferry Point Park, subject to **Section 12.19(c)** (collectively, the “**Prior Determinations**”), as may be modified from time to time in accordance with applicable Legal Requirements, (y) will not otherwise require additional ULURP review, (z) will not otherwise require additional SEQRA or CEQR review, except to the extent applicable Legal Requirements require additional SEQRA or CEQR review with respect to Licensee’s operation of the Licensed Premises (including construction obligations), including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises (provided, that in the event any additional SEQRA or CEQR review is required, the City shall undertake such SEQRA or CEQR review at its sole cost and expense), and (aa) shall comply with the requirements of the Americans with Disabilities Act (“**ADA**”) and all other similarly applicable Legal Requirements with respect to the ADA. If Licensee fails in any material respect to (i) design and construct the Clubhouse or (ii) perform any other work or construction at the Licensed Premises, in each case in accordance with clauses (w), (x), (y), (z) and (aa) of this **Section 1.2(b)**, such failure shall be deemed a material breach of this License Agreement; provided however, that notwithstanding the foregoing, any failure by Licensee to comply with clauses (x), (y), or (z) above in this paragraph shall not be a breach of this License Agreement if the representations of the City set forth below in **Section 1.2(c)** are not true, accurate and correct. Additionally, (i) the City agrees that Licensee is not required to comply with SEQRA/CEQR, the DEC Part 360 Permit or any other applicable laws to the extent Licensee’s non-compliance is caused by Licensee’s failure to comply with the statement contained in the SEQRA/CEQR assessment dated April 27, 2005 for Ferry Point Park that herbicides or pesticides will not be used at the Licensed Premises, that Parks acknowledges was made in error, and (ii) Licensee’s failure to comply with SEQRA/CEQR, the DEC Part 360 Permit or any other applicable laws for the reasons set forth in the previous clause (i) of this sentence shall not be a breach of this Agreement. Except as previously reviewed and approved through the Prior Determinations and except as provided in **Section 1.2(b)(z)**, in no event shall Licensee cause any threshold of the major concession rules promulgated by the City Planning Commission, codified in 62 RCNY Chapter 7, to be exceeded, or take any action under this Agreement that would require the preparation of an Environmental Impact Statement under SEQRA or CEQR.

(c) The City represents that (i) the (x) construction of a Clubhouse of up to 31,000 square feet and golf cart storage facilities, and (y) the paving and finishing of the Supplemental Parking Lot (as defined in the Development Agreement) (consisting of approximately seventy-five spaces within the area designated “Clubhouse Area” on **Exhibit A-1** to this License Agreement) shall be permissible under the Prior Determinations and will not require additional ULURP, SEQRA or CEQR review; (ii) based on the preliminary concept drawings provided by Licensee to the City for review by the New York City Department of City Planning (a copy of which is attached hereto as **Exhibit U**), the construction and operation of Licensee’s proposed Clubhouse and golf cart storage facilities and the paving and finishing of the Supplemental Parking Lot will not cause any threshold of the major concession rules promulgated by the City Planning Commission, codified in 62 RCNY Chapter 7, to be exceeded, or require the preparation of an Environmental Impact Statement under SEQRA or CEQR, is consistent with the Prior Determinations and will not require additional ULURP, SEQRA or CEQR review; (iii) to the best of the City’s knowledge, the Grow-In and the operation of the Licensed Premises (including Licensee’s construction obligations) in accordance with this Agreement and the Development Agreement will not require additional SEQRA or CEQR review, except if applicable Legal Requirements require additional SEQRA or CEQR review with respect to Licensee’s use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises (provided, that in the event any additional SEQRA or CEQR review is required, the City shall undertake such SEQRA or CEQR review at its sole cost and expense); (iv) except with respect to the additional SEQRA or CEQR review required as set forth in clause (iii) of this **Section**

1.2(c), the Grow-In and the operation of the Licensed Premises in accordance with this Agreement and the Development Agreement shall be permissible under the Prior Determinations and will not require additional ULURP review; and (v) except with respect to any additional work or construction that may be required in connection with the SEQRA or CEQR review as set forth in clause (iii) of **Section 1.2(c)**, any other work or construction contemplated by this Agreement or the Development Agreement shall be permissible under the Prior Determinations and will not require additional ULURP, SEQRA or CEQR review. The City and Parks acknowledge that the (x) drawings submitted by Licensee to the City and attached hereto as **Exhibit U** are preliminary concept drawings and may undergo substantial changes before being finalized, which finalized drawings shall be subject to approval by Parks and other government agencies having jurisdiction, as applicable, in accordance with the terms of this Agreement, (y) that in no event shall Licensee be required to construct the Clubhouse or any other improvements shown on such drawings in accordance with such drawings, and that (z) such drawings were submitted by Licensee for the purpose of aiding the City in making the representation provided in this paragraph.

(d) Notwithstanding the agreements and representations contained in this **Section 1.2**, the Parties acknowledge that the City has applied for a renewed and modified Part 360 permit ("New Permit") to succeed the DEC Part 360 Permit. In the event that Licensee proposes to engage in any activity prior to issuance of the New Permit that is inconsistent with the current DEC Part 360 Permit, the City agrees to promptly seek in good faith (taking into consideration any input from Licensee and Licensee agrees to reasonably cooperate with the City in such effort), informal written approval from DEC of such activity (and to diligently pursue such approval) and Licensees' performance of such activity consistent with such DEC approval shall not be considered a breach of its representations under this **Section 1.2** and the City shall be deemed to be in compliance with its representations under this **Section 1.2**. Licensee may not engage in any activity inconsistent with the current DEC Part 360 Permit prior to receipt by the parties of informal written approval from DEC or issuance of the New Permit.

(e) If the City requests that Licensee assist in a SEQRA or CEQR review undertaken by the City pursuant to this **Section 1.2** and Licensee, in its sole discretion, agrees to provide assistance, then the City shall pay or reimburse Licensee for any reasonable costs and expenses actually paid or incurred by Licensee in connection with rendering such assistance (including the cost of any consultants) within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and expenses and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in **Section 4.10** hereof, subject to the last sentence of **Section 4.10**.

1.3 The City and Parks shall construct the Golf Course, the Snack Bars and the other City's Work at the Licensed Premises in accordance with the Development Agreement. The City shall deliver possession of the Licensed Premises to Licensee in accordance with and upon satisfaction of the conditions set forth in the Development Agreement. As set forth in the Development Agreement, the City shall deliver to Licensee a Jack Nicklaus Signature golf course. The City represents and Licensee acknowledges that delivery of the Licensed Premises as required by this Agreement and the Development Agreement and the satisfaction of all of the conditions to delivery set forth in **Section 10.3** of the Development Agreement (including, without limitation, the delivery to Licensee of a certification from Nicklaus Design that the Golf Course as completed meets the design standards of a Jack Nicklaus Signature golf course) shall constitute delivery of a Jack Nicklaus Signature golf course. Notwithstanding anything to the contrary in this Agreement or the Development Agreement,

in the event that at any time any element of the Licensed Premises or the operation of the Licensed Premises (or any part thereof) does not meet the standards required under the Nicklaus Subcontract to the extent such deficiency is due to any element of the construction of the Licensed Premises performed by (or on behalf of) the City or any item of the City's Work, Licensee shall not be responsible for the correction of such deficiency to such extent and any such required corrections to comply with the Nicklaus Subcontract shall be the responsibility of the City at its sole cost and expense.

1.4 Licensee shall obtain any and all Governmental Approvals which are or may become necessary for the lawful operation of the Licensed Premises in accordance with the terms of this License Agreement other than Governmental Approvals to be obtained by the City pursuant to this Agreement or the Development Agreement, including for all of the City's Work (except if the City's Work is performed by Licensee pursuant to **Section 10.8** of the Development Agreement, as applicable, in which case Licensee shall be responsible to obtain such Governmental Approvals) and the development of the remainder of the Licensed Premises, except for the Clubhouse and any other structures (temporary or otherwise) constructed by Licensee at the Licensed Premises. Parks, the Commissioner and the City shall cooperate with Licensee in obtaining (x) Governmental Approvals required for the Capital Improvements performed by Licensee or (y) any Government Approvals that Licensee is required to obtain for the operation of the Licensed Premises or any part thereof. Parks, the Commissioner and the City shall also cooperate with Licensee in obtaining the agreement of the Triborough Bridge and Tunnel Authority and the New York State Department of Transportation to construct or cause to be constructed, at no cost to Licensee or the City, prior to the Concession Commencement Date, an exit ramp from the Bronx bound lanes of the Bronx-Whitestone Bridge to enhance access to the Licensed Premises.

1.5 (a) Whenever any act, consent, approval or permission is required of the City, Parks or the Commissioner under this License Agreement, the same shall be valid only if it is, in each instance, in writing and signed by the Commissioner or his duly authorized representative. Unless a different standard is specifically provided herein, whenever any act, consent, approval or permission is required of the City, Parks or the Commissioner under this License Agreement, the same shall not be unreasonably withheld, conditioned or delayed, and whenever this License Agreement provides that consent approval or permission shall not be unreasonably withheld, such provision shall be deemed to include that such consent, approval or permission shall not be unreasonably conditioned or delayed, and terms such as satisfactory and acceptable shall be deemed to mean reasonably satisfactory and reasonably acceptable. No variance, alteration, amendment, or modification of this instrument shall be valid or binding upon the City, Parks, the Commissioner, Licensee or their respective agents, unless the same is, in each instance, in writing and duly signed by the Commissioner or his duly authorized representative and the Licensee. As used in this Agreement, including all Exhibits and Schedules, the words "include", "includes", or "including" shall be deemed to be followed by the words "without limitation".

(b) Notwithstanding anything to the contrary contained in this Agreement, (i) any references to any consent, approval or permission required of the City (without any reference to any City agency), Parks or the Commissioner under this Agreement (including documentation, parties and other matters requiring the satisfaction of or are required to be satisfactory to the City, Parks or the Commissioner, as applicable) shall be deemed a reference to Parks and any requests for such consent, approval or permission shall be submitted to Parks, (ii) any such consent, approval or permission granted pursuant to this Agreement to Licensee by Parks shall be deemed given by the City, Parks and/or the Commissioner, as applicable, (iii) any covenants, obligations, responsibilities,

acts or omissions of Parks under this Agreement shall mean the City acting by and through Parks, (iv) notwithstanding anything to the contrary contained in clause (iii) of this **Section 1.5(b)** and subject to **Section 7.2** of the Development Agreement, any covenants, obligations, responsibilities or acts of Parks or the City, as they pertain to the City's Work under this Agreement, shall mean the City acting by and through Parks or the DDC, as the case may be, or the City acting by and through any other appropriate City agency, and (v) where provision is made herein for notice or other communication to be given in writing or otherwise or for the submission of a document or other item, to the City (without any reference to any City agency), Parks or the Commissioner, the provision shall be deemed a reference to Parks, whose address is provided at the beginning of this Agreement.

1.6 It is expressly understood that no land, building, space, improvement, or equipment is leased to Licensee, but that during the Term (as hereinafter defined) of this License Agreement, Licensee shall have the sole and exclusive use of the Licensed Premises for the purpose herein provided, subject to the rights of Parks and others to enter upon the Licensed Premises during the Term as set forth herein and in the Development Agreement. Except as provided in this License Agreement and/or the Development Agreement, Licensee has the right to occupy and operate the Licensed Premises so long as this License Agreement is not terminated in accordance with the terms of this License Agreement or the Development Agreement.

1.7 (a) Licensee represents that Donald J. Trump ("**Trump**"), the principal of the Licensee and the Guarantor, has the rights to the designation and trademark "**Trump**" and variations thereof, and all other trademarks of Trump, together with the goodwill that is symbolized by such trademarks, which are used in connection with the planning, construction, operation and management of golf courses, and certain other rights in the names, trademarks, service marks, designations, and identifications "**Trump**", including, without limitation, the "**Trump Marks**". The term "**Trump Marks**" shall mean those trademarks identified in the annexed **Exhibit N**, each a "**Trump Mark**". The City represents that the City is the owner of the designation and trademark "**Ferry Point**" and "**Ferry Point Park**" and variations thereof, and all other designations and trademarks of Parks, including Parks signage and the distinctive Parks leaf logo, together with the goodwill that is symbolized by such names, trademarks, service marks, designations and identifications, including, without limitation, the "**City Marks**". The term "**City Marks**" shall mean those trademarks identified in the annexed **Exhibit O**, each a "**City Mark**". Licensee represents and warrants to the City that Trump has granted to Licensee the right to use and license the **Trump Marks** for the purposes set forth herein.

(b) Except as specifically approved herein, any business or trade name which Licensee proposes to use in identifying the Licensed Premises or any part of the Licensed Premises shall be subject to the prior written approval of Parks.

(c) The Licensed Premises, other than the Park Snack Bar, shall be operated, marketed and promoted, in each such case by Licensee, under the name "**Trump Golf Links at Ferry Point Park**" (the "**Composite Mark**"), and the Park Snack Bar shall be operated, marketed and promoted, in each such case by Licensee, under the name "**Donald's Joint!**" (or similar name designated by Licensee and approved in advance in writing by Parks) (the "**Snack Bar Mark**"). The Composite Mark and the Snack Bar Mark are hereby approved by the Commissioner. Licensee shall not use (and shall not permit Trump or any of its or his Affiliates to use) the Composite Mark as the name of any other golf course other than the Licensed Premises; however, the foregoing shall not in any way restrict Trump, Licensee or any of his or its Affiliates' rights to use the **Trump Marks** in any manner whatsoever or to use the word "**Point**", "**Ferry**" or "**Park**" in any manner whatsoever so long as such

use is not likely to cause confusion with the City Marks and is not part of the phrase “Ferry Point” or “Ferry Point Park” and the foregoing shall not in any way restrict the City or any of its Affiliates rights to use “Golf” and “Links” in any manner whatsoever so long as such use is not likely to cause confusion with the Trump Marks and is not part of the Composite Mark.

(d) Upon expiration or sooner termination of this License Agreement, the Licensee shall immediately cease use of any Licensed City IP (as defined in Exhibit H) and the City and Parks shall immediately cease use of any Licensed Trump IP (as defined in Exhibit H) in identifying the Licensed Premises and the Park Snack Bar; however, the foregoing is not intended to restrict Trump, Licensee or any of his or its Affiliates, the City, Parks or any of their Affiliates from using their respective marks in any way. In addition, in the event Licensee elects to terminate this License Agreement with respect to the Park Snack Bar in accordance with Section 1.9, the City and Parks shall cease all use of the Snack Bar Mark and Snack Bar Logo (as defined in Exhibit H) and the Licensee shall cease all use of any City Marks for the Park Snack Bar.

(e) Additional rights and obligations of Trump, Licensee, Parks and the City with respect to the Licensed City IP and Licensed Trump IP are set forth on Exhibit H annexed hereto.

1.8 (a) Pursuant to that certain Nicklaus Design Golf Design Subcontract Agreement (“**Nicklaus Subcontract**”) between the City, Sanford Golf Design and Nicklaus Design, LLC (“**Nicklaus Design**”), a copy of which is annexed hereto as Exhibit L, the City has the right to use the Endorsement (as defined in the Nicklaus Subcontract), including, without limitation, the names “Nicklaus Design”, “Jack Nicklaus Signature” and “Jack Nicklaus” and certain other intangible rights of Nicklaus Design. The City licenses its rights under Section 5 of the Nicklaus Subcontract to Licensee in connection with the operation, advertising, marketing and promotion of the Golf Course, provided that in no event shall Licensee be responsible for the payment of any fees and expenses payable under the Nicklaus Subcontract, provided, however that Licensee shall pay actual third party out-of-pocket expenses, such as shipping and postage costs, if any, incurred by Nicklaus Design in connection with any request for consent or approval of Nicklaus Design by Licensee pursuant to the Nicklaus Subcontract or this Agreement. The City represents that pursuant to the Nicklaus Subcontract, the City has a license to use the Endorsement and to sublicense the Endorsement to Licensee as provided herein. Licensee acknowledges receipt of a copy of the Nicklaus Subcontract, and agrees to conduct Licensee’s activities under this Agreement in accordance with (x) the applicable terms and conditions set forth in Section 5, Section 10, and Section 11 (but subject to Section 18.6 of this License Agreement), of the Nicklaus Subcontract and (y) any other Sections of the Nicklaus Subcontract that are applicable to Licensee’s operation of the Licensed Premises as contemplated by this License Agreement and within the control of Licensee, which for the sake of clarity, shall not include (without limiting terms and conditions that are not applicable to Licensee) any of the terms or conditions of the Nicklaus Subcontract that pertain to the construction of the Licensed Premises (or any part thereof) by (or on behalf of) the City (including the “Construction Work” as defined in the Nicklaus Subcontract and the City’s Work). Moreover, the foregoing in the prior sentence shall not limit the City’s or the Consultant’s (as defined in the Nicklaus Subcontract) obligations under the Nicklaus Subcontract. Wherever Licensee shall be required to obtain the consent of Nicklaus Design, if the City reasonably agrees to the substance of the matter for which Licensee is seeking consent, the City shall cooperate with Licensee in obtaining such consent.

(b) The City represents that it has given notice to Nicklaus Design of this license describing the authority of Licensee to use the Endorsement and the City shall otherwise comply with

the requirements of **Section 5D** of the Nicklaus Subcontract. The Licensee has provided Nicklaus Design with a written acknowledgement of its receipt of a copy of the Nicklaus Subcontract, which is attached hereto as **Exhibit L**, together with its written agreement to conduct its activities under this Agreement and the Development Agreement in accordance with the applicable provisions of the Nicklaus Subcontract, which is attached hereto as **Exhibit L**, and to maintain the integrity of the golf course at Ferry Point Park as designed by Nicklaus Design (such written acknowledgement, the "**Nicklaus Acknowledgement**"). Licensee shall not be required to comply with any amendments to the Nicklaus Subcontract attached hereto as **Exhibit L** without Licensee's prior written consent to any such amendments (such consent not to be unreasonably withheld). The Parties acknowledge that Nicklaus Design has given its approval to Licensee acting under the terms of this Agreement as it pertains to the Endorsement and the Nicklaus Subcontract, such approval to be effective upon the commencement of the Term of this Agreement.

(c) Notwithstanding the provisions of **Section 9.22**, Licensee shall not use the Endorsement to advertise, publicize, market or promote the Concession, without in each instance either (i) having obtained the express prior written approval of Nicklaus Design, and providing Parks with evidence of such approval, or (ii) having obtained the express prior written approval of Parks, which approval shall be granted by Parks in the event that Nicklaus Design approves the use of the Endorsement. In the event Licensee requests the approval of Parks to use the Endorsement, Parks shall promptly submit such request to Nicklaus Design, shall use good faith efforts to cause Nicklaus Design to respond to such request within ten (10) business days in accordance with the Nicklaus Subcontract and shall approve such request within five (5) days after such request is approved by Nicklaus Design.

(d) Notwithstanding anything in **Section 9.37** to the contrary, any agreement that Licensee proposes to enter into that would involve the use of the Endorsement must receive the prior written approval of Parks or Nicklaus Design in accordance with the terms of the Nicklaus Subcontract and **Section 1.8(b)**.

(e) In the event Licensee uses the Endorsement in violation of **Section 5** of the Nicklaus Subcontract or this **Section 1.8**, such use shall constitute a material breach of this License Agreement and Licensee shall cease such use of the Endorsement immediately upon notice from Parks. In addition, the City may elect to immediately terminate this License Agreement and/or the license given herein to Licensee to use the Endorsement if such violation is not cured within ten (10) days after notice from the City to Licensee. Such notice shall be given either by hand or by overnight courier and shall be deemed given when delivered if by hand or one day after mailing if sent by overnight courier.

1.9 Upon delivery of the Park Snack Bar to Licensee in accordance with the Development Agreement, the Licensed Premises shall include the Park Snack Bar. The conditions for delivery of the Park Snack Bar are set forth in the Development Agreement, and include, among other things, completion of the waterfront park to be constructed by the City adjacent to the Licensed Premises. The Parties acknowledge that the Park Snack Bar may not be delivered to Licensee until after the Concession Commencement Date and shall not be part of the Licensed Premises until possession thereof is delivered to Licensee in accordance with the Development Agreement. Licensee shall have the right to terminate this License Agreement with respect to the Park Snack Bar at any time, on one hundred eighty (180) days prior written notice to Parks, and upon the expiration of such one hundred eighty (180) day period the License will terminate with respect to the Park Snack Bar and Licensee shall have no further rights or obligations hereunder with respect thereto. In the event the

City receives such notice of termination, the City shall have the right to commence a process for a new operator at the Park Snack Bar as of the date of such notice and to subsequently enter into an agreement with a new operator. Licensee's termination of this License Agreement with respect to the Park Snack Bar shall not affect in any way Licensee's rights and obligations under this License Agreement with respect to the remainder of the Licensed Premises.

2. DEFINITIONS

2.1 As used throughout this License Agreement, the following terms shall have the meanings set forth below:

(a) "Affiliate(s)" shall mean, with respect to any person or entity, any other person or entity that such person or entity Controls, is Controlled by or is under common Control with such person or entity. "Control" shall mean (a) the ownership, directly or indirectly, of more than fifty percent (50%) of the equity interests in a person or entity, and (b) the possession, directly or indirectly, of the power to direct or cause the direction of the management and policies of such person or entity, whether through the ownership of equity interests, by statute, or by contract.

(b) "Capital Improvements" shall mean all construction, reconstruction or renovation of the Licensed Premises, including, without limitation, architectural and engineering design services necessary to implement such construction, reconstruction or renovation of the Licensed Premises. Capital Improvements shall also include installation of all "Fixed and Additional Fixed Equipment," as that term is defined in this Section, which the Licensee installs or causes to be installed on the Licensed Premises. Capital Improvements shall not include routine maintenance and repairs required to be performed in the normal course of management and operation of the Licensed Premises.

(c) "Capital Improvements Costs" shall mean all reasonable hard and soft costs necessary for the construction, reconstruction or renovation of the Licensed Premises, including, without limitation, architectural and engineering design fees necessary to implement such construction, reconstruction or renovation of the Licensed Premises. Hard costs shall include, without limitation, all construction material and labor. Soft costs shall include, without limitation, architectural and engineering design fees necessary to implement the Capital Improvements, cost of any and all New York State and City of New York mandated environmental review procedures and studies, costs to comply with all requirements of ULURP, SEQRA, CEQR and other applicable Legal Requirements and Environmental Laws, costs to secure all approvals required by the City Charter and other applicable laws, costs of inspection and testing, pre-development costs, including, but not limited to, permitting costs, fixtures, furnishing and equipment, financing costs, insurance, brokers, legal, accounting and development fees and the value of the time of Licensee's in-house construction, operations and management staff expended in connection with the Capital Improvements provided that detailed records, satisfactory to the City, showing the time expended by such staff members with respect to the Capital Improvement are provided to the City and further provided that the cost of such staff time in connection with the Required Capital Improvements does not exceed the amount allocated for such item in the Preliminary Capital Budget attached hereto as Exhibit K (as the same may be amended from time to time) without the consent of Parks. Capital Improvements Costs shall also include the costs of all Fixed and Additional Fixed Equipment and the cost of installation thereof which the Licensee installs or causes to be installed on the Licensed Premises. Capital Improvements Costs shall not include cost of routine maintenance and repairs required to be

performed in the normal course of management and operation of the Licensed Premises and shall not include costs incurred prior to the date of issuance of the Registration Notice.

(d) “**Commissioner**” shall mean the Commissioner of the New York City Department of Parks & Recreation or his designee.

(e) “**Comptroller**” shall mean the Comptroller of the City of New York.

(f) “**Consumer Price Index**” (“**CPI**”) shall mean the Consumer Price Index for all urban consumers; all items indexed (CPI-U) for the New York, New York/Northeastern New Jersey area, by the United States Department of Labor, Bureau of Labor Statistics. In the event the index shall hereafter be converted to a different standard reference base or otherwise revised, the determination of the increase shall be made with the use of conversion factor, formula or table for converting the index as may be published by the Bureau of Labor Statistics. In the event the index shall cease to be published, then for the purpose of this License Agreement there shall be substituted for the index such other index as Parks and Licensee shall agree upon.

(g) “**CPI Adjustment**” means an adjustment made by multiplying the dollar amount to be adjusted by a fraction, the numerator of which shall be the CPI for the calendar month prior to the month in which the adjustment is to occur, and the denominator of which shall be the CPI for the calendar month prior to the date of this Agreement. In no event shall any CPI Adjustment result in a downward adjustment.

(h) “**Environment**” shall mean all air, water vapor, surface water, groundwater, drinking water supply or land, including land surface or subsurface, and includes all fish, wildlife, biota and all other natural resources.

(i) “**Environmental Conditions**” shall mean (i) any land settlement that is significantly more extensive than settlement that typically occurs at new golf courses or adversely affects playability of the Golf Course, (ii) the presence of leachate, landfill gases, municipal solid waste, or Hazardous Substances in, on, under or about the Licensed Premises, or (iii) the failure of the Licensed Premises to comply with Environmental Laws at the time of or at any time prior to the Concession Commencement Date or during the Term of the License.

(j) “**Environmental Laws**” shall mean all federal, state or local environmental, land use, health, chemical use, safety and sanitation laws, statutes, ordinances, rules, regulations and codes, as in effect on the date hereof or promulgated hereafter, relating to the protection of the Environment and/or governing the discharge of pollutants or the use, storage, treatment, generation, transportation, processing, handling, production or disposal of Hazardous Substances, including but not limited to the Resource Conservation and Recovery Act of 1976 as amended (“**RCRA**”), the Clean Air Act as amended, the Clean Water Act as amended, the Comprehensive Environmental Response, Compensation and Liability Act of 1980 as amended (“**CERCLA**”), the Toxic Substances Control Act, as amended, and federal, state or local laws, ordinances, rules or regulations similar to or based upon the foregoing, as the same are in effect on the date hereof or promulgated hereafter.

(k) “**Expendable Equipment**” shall mean all equipment, other than Fixed Equipment, provided by Licensee.

(l) **“Final Completion” or “Finally Complete”** shall mean that the construction of an improvement to the Licensed Premises has been completed to such an extent that the Commissioner certifies in writing that it has been finally completed and no further work is required pursuant to this License Agreement in connection with the construction of said improvement. Notwithstanding the issuance of any such certification, Licensee and/or the City, as applicable, shall be liable for any claims arising out of such construction and shall be responsible for any other obligations (including maintenance, repair and indemnity) set forth in this License Agreement.

(m) **“Fixed Equipment”** shall mean any property affixed to the Licensed Premises in such a way that removal of said equipment would materially damage the Licensed Premises.

(i) **“Additional Fixed Equipment”** shall mean Fixed Equipment affixed to Licensed Premises subsequent to the Interim Period.

(ii) **“Fixed and Additional Fixed Equipment”** shall refer to Fixed Equipment and Additional Fixed Equipment jointly and severally.

(n) **“Force Majeure”** shall mean (i) circumstances beyond the reasonable control of the Party claiming Force Majeure, including acts of God, weather, war, enemies or hostile government actions, revolutions, terrorism, insurrection, riots, civil commotion, strikes, lockouts, labor unrest, disturbances or job actions, governmental restrictions, Environmental Conditions and/or the effects of Environmental Conditions, fire or other casualty, condemnation, or delays in granting or a failure to grant approvals, licenses or permits by governmental agencies which delays are not caused by the Party claiming Force Majeure, or (ii) any other circumstances beyond the reasonable control and without the fault or negligence of the Party claiming Force Majeure. For the purposes of Force Majeure, a Party’s failure to submit a complete application, as applicable, for any permit, license or approval required by an applicable agency shall not constitute a circumstance beyond the reasonable control of such Party. Additionally, unless a Party is challenging in good faith any actions, determinations, denials or conditions of any agency charged with granting any license, permit or approval, failure to make diligent and good faith efforts to comply with all conditions of any agency charged with granting any such license, permit or approval shall not constitute a circumstance beyond the reasonable control of such Party; provided that the denial by a governmental agency of a required license, permit or approval beyond any right of appeal shall terminate the Force Majeure unless such agency prohibits the construction of a particular Capital Improvement regardless of Licensee’s compliance with agency conditions. Notwithstanding the foregoing, a Force Majeure shall be deemed to have occurred (x) only to the extent that despite the reasonable efforts of the applicable Party, such Party has been unable to prevent or mitigate such Force Majeure; provided that the foregoing in this clause (x) shall not be deemed to limit a Party’s right to challenge any agency actions, determination, denials or conditions in good faith and any such challenge shall not be deemed to end a Force Majeure until the denial by a governmental agency of a required license, permit or approval beyond any right of appeal (unless such agency prohibits the construction of a particular Capital Improvement regardless of Licensee’s compliance with agency conditions); and (y) in each case the Party claiming Force Majeure shall have notified the other Party in writing within a reasonable period of time after the claiming Party first had any knowledge of the occurrence of the Force Majeure. In addition, it is understood and agreed that (i) Licensee’s or the City’s financial condition or inability to obtain financing shall not constitute a Force Majeure and (ii) any delays by a City contractor or consultant as a result of a force majeure event pursuant to such contractor’s or consultant’s agreement with the City as they exist on the date that this Agreement is executed shall constitute a Force Majeure.

(o) “**Governmental Approvals**” shall mean, collectively: (a) any and all approvals, permits, inspections, reviews and licenses required by federal, state and local laws, rules, regulations and orders, including, without limitation, all applicable Environmental Laws, which are or may become necessary for the design, development, construction and operation of any portion of the Licensed Premises, including, without limitation, any Certificate of Occupancy or Place of Assembly permit required for the use and operation of any portion of the Licensed Premises; (b) any and all environmental tests, reviews and studies required by any applicable Environmental Law or zoning regulations, including without limitation, the Uniform Land Use Review Procedure (“**ULURP**”), the State Environmental Quality Review Act (“**SEQRA**”) and the City Environmental Quality Review (“**CEQR**”) required in conjunction with the design, development and construction of any portion of the Licensed Premises, and (c) any and all approvals, permits, inspections, reviews and licenses required by federal, state and local laws, rules, regulations and orders by reason of the use of the Licensed Premises as a Landfill.

(p) **(i)** “**Gross Receipts**” shall include without limitation all funds received by Licensee, without deduction or set-off of any kind, from the sale of food and beverages, wares, merchandise or services of any kind, provided that Gross Receipts shall exclude (A) the amount of any federal, state or City sales taxes, which may now or hereafter be imposed upon or be required to be collected and paid by Licensee as against its sales, (B) Sublicense Gross Receipts (as hereinafter defined), (C) the items described in **subsection (ix)** of this definition, and (D) any other items excluded from Gross Receipts pursuant to this definition of Gross Receipts. Gross Receipts shall include all funds received by Licensee for orders placed with Licensee or made at Licensed Premises, although delivery of merchandise or services may be made outside, or away from the Licensed Premises, and shall include all funds received by Licensee for services to be rendered or orders taken at the Licensed Premises for services to be rendered by Licensee outside thereof. For example, should Licensee receive a one thousand dollar (\$1,000) deposit for services to be rendered at a later date, the deposit must be reported at the time of payment, not when the service is provided. All sales made or services rendered by Licensee from the Licensed Premises shall be construed as made and completed therein even though payment therefor may be made at some other place, and although delivery of merchandise sold or services rendered from Licensed Premises may be made at a location other than at the Licensed Premises. Gross Receipts shall include the wholesale value of any goods and services received in lieu of cash as Greens Fees.

(ii) Gross Receipts shall include receipts from all sponsorships, whether in cash or as discounts against purchase price of materials, equipment or commodities. Gross Receipts shall include the net (but only the net) income received by Licensee in connection with the direct, live or taped broadcasting, in the United States and internationally, of on-site golf tournaments at the Licensed Premises, whether by network, cable, time delayed broadcast, pay per view or other device or system for contemporaneous viewing of on-site golf tournaments at the Licensed Premises (provided, however, the following shall not be included within Gross Receipts (a) any pass-through fees or costs collected by Licensee on behalf of a third-party broadcaster and (b) any income received by Licensee in connection with broadcasts of “The Apprentice” or any similar successor television show).

(iii) Gross Receipts shall not include any funds received by any other operator or operators (“**Sublicensed Operators**”) using the Licensed Premises under a properly authorized sublicense or subcontract agreement in accordance with **Section 18** hereof (“**Sublicense Gross Receipts**”). However, subject to **Section 4.1**, Licensee shall pay or cause to be paid to the City, three percent (3%) of such Sublicense Gross Receipts. Notwithstanding anything to the contrary in this

Section 2.1(p)(iii), Sublicensee Gross Receipts shall not include any funds received by an operator or operators who are sublicensees under a properly authorized sublicense, in accordance with **Section 18** hereof, of the food service facility in the Clubhouse and any such funds shall be considered Gross Receipts (and, for the sake of clarity, any funds received by an operator or operators, who are sublicensees under a properly authorized sublicense of any food service facility that comprises or is part of the banquet or catering facility, even if connected to or part of the Clubhouse, shall be considered Sublicensee Gross Receipts and not Gross Receipts). Gross Receipts shall include income from rental and sublicense or subcontracting fees and commissions received by Licensee from any Sublicensed Operator in connection with all services provided by any Sublicensed Operator ("**Sublicensee Fees**"). For example, if Licensee sub-licenses the rental of golf clubs (or otherwise contracts with a third party to rent golf clubs) and receives Sublicensee Fees of \$1,000 and the funds received by such Sublicensed Operator total \$5,000, Gross Receipts shall include the Sublicensee Fees of \$1,000 and three percent (3%) of the Sublicensee Gross Receipts of \$5,000 would be payable to the City in the form of License Fees subject to the terms of this License Agreement.

(iv) Gross Receipts shall include sales made for cash or credit (credit sales shall be included in Gross Receipts as of the date of the sale) regardless of whether the sales are paid or uncollected, it being the distinct intention and agreement of the Parties that all sums due to be received by Licensee from all sources from the operation of this License Agreement shall be included in Gross Receipts, provided however that any Gratuities (as herein defined) shall not be included within Gross Receipts. For purposes of this **subsection (iv)**:

(A) With respect to non-catered restaurant services, a "**Gratuity**" shall mean a charge that: (i) is separately stated on the bill or invoice given to Licensee's customer, (ii) is specifically designated as a gratuity, or purports to be a gratuity, and (iii) Licensee receives and pays over in total to its employees who are primarily engaged in the serving of food or beverage to guests, patrons or customers, including but not limited to, wait staff, bartenders, captains, bussing personnel and similar staff who are paid a cash wage as a "**food service worker**" pursuant to NY Labor Law §652(4). Licensee shall provide documentation reasonably satisfactory to Parks to prove that Gratuities were paid to employees in addition to their regular salaries, and were otherwise in accordance with the foregoing provisions. Such documentation shall be signed and verified by an officer of Licensee.

(B) With respect to catered events, a "**Gratuity**" shall be an amount no greater than twenty percent (20%) of the catering food and beverage sales for the event, provided that such Gratuity is a charge that: (i) is separately stated on the bill or invoice given to Licensee's customer, (ii) is specifically designated as a gratuity, or purports to be a gratuity, and (iii) is paid over by Licensee in total to its employees who actually provide services at the event, and who are primarily engaged in the serving of food or beverages to guests, patrons or customers, including, but not limited to, wait staff, bartenders, captains, bussing personnel, and similar staff. "**Regular Salary**" for purposes of this subsection shall mean the set hourly wage for the applicable employee. Licensee shall provide documentation reasonably satisfactory to Parks to prove that Gratuities were paid to employees in addition to their regular salaries, and were otherwise in accordance with the foregoing provisions. Such documentation shall be signed and verified by an officer of Licensee.

(v) Gross Receipts shall include all funds received for services rendered by the Licensee, including any non-refundable down payments or partial payments made in relation to said services.

(vi) Notwithstanding any other provision in **subsection (i)** of this definition of Gross Receipts to the contrary, any third party service charges billed by Licensee for the convenience of the patrons of the Licensed Premises and paid directly to such third party service provider (such as charges for entertainment, videos, photographs, bands, floral arrangements, transportation, awards, trophies, outside maintenance, security personnel, etc.) shall not be included in Gross Receipts except to the extent such charges are retained by Licensee, provided only that such third party charges shall be included as Gross Receipts if Licensee owns any interest in such third party service provider.

(vii) Gross Receipt shall include the net (but only the net) income received by Licensee in connection with services provided by golf instructors. For clarity, if Licensee charges a student fifty dollars (\$50.00) for a lesson, and subsequently pays the golf instructor thirty dollars (\$30.00), the amount to be reported with the Gross Receipts is the net amount of twenty dollars (\$20.00).

(viii) Gross Receipts shall include only net revenues received by Licensee from vending machines for the sale of food, drink, or other items as approved by Parks.

(ix) Gross Receipts shall not include (1) cash and credit refunds, (2) income generated from Parks Sponsored Special Events (including income from all food service connected to said Parks Sponsored Special Events) as defined in **Section 16** herein, (3) proceeds of the sale of any other asset of Licensee not sold in the ordinary course of business, or (4) the proceeds of any loans or financings.

(q) **“Grow-In”** shall have the meaning ascribed thereto in the Development Agreement.

(r) **“Guarantor”** shall mean Donald J. Trump.

(s) **“Guaranty”** shall mean a written agreement executed by Guarantor in the form set forth in **Exhibit V** to this Agreement.

(t) **“Hazardous Substances”** shall mean, without regard to amount or concentration (i) any element, compound, gas or chemical that is defined, listed or otherwise classified as a toxic pollutant, toxic or hazardous substance, extremely hazardous substance or chemical, hazardous material, hazardous waste, medical waste, biohazardous or infectious waste, or special waste under any Environmental Laws; (ii) petroleum, petroleum-based or petroleum-derived products; (iii) any substance that poses a present or potential hazard to human health or the Environment, including, without limitation, any substance containing polychlorinated biphenyls, asbestos, lead, urea formaldehyde, radon gas; methane or other gases or leachate, (iv) any other substance that by law, rule or regulation, whether federal, state or local, requires special handling in its collection, storage, treatment or disposal; or (v) any highly combustible substance, provided, however that all chemicals and other material used in the ordinary course of maintenance of a golf course will not be considered Hazardous Substances.

(u) **“Interest Rate”** shall mean the Prompt Payment Act interest rate as certified by the Bureau of the Public Debt from time to time and posted at https://www.treasurydirect.gov/govt/rates/tcjr/tcjr_201001_opdirsemi.htm.

(v) **“Legal Requirements”** shall mean all laws, statutes, ordinances, orders, rules and regulations, directives and requirements of all federal, state, county, regional, local or municipal governments (including any agency or political subdivision of any of the foregoing), any

governmental or quasi-governmental agency, authority (including stamp and registration authorities), board, public utility, bureau, commission, department, instrumentality, or public body, and any person with jurisdiction exercising executive, legislative, judicial (including any court or tribunal), regulatory or administrative functions of or pertaining to government or quasi-governmental issues, which are or may be applicable to the Licensed Premises or any part thereof or related thereto, whether now or hereafter in force including building codes and zoning regulations and ordinances.

(w) “**License Fee Credit**” shall mean any credit against License Fees and other amounts payable by Licensee pursuant to this License Agreement that Licensee is entitled to pursuant to certain provisions of this License Agreement or the Development Agreement for amounts paid or incurred by Licensee pursuant to such provisions.

(x) “**Licensed Premises**” shall mean the area in Ferry Point Park, Borough of the Bronx described on Exhibit A annexed hereto and shown on Exhibit A-1, annexed hereto (the City representing to Licensee that the area shown on Exhibit A-1 is the same area described in Exhibit A) and the Park Snack Bar as shown on Exhibit A-3 and shall include the Golf Course, the Golf Course Snack Bar, the Park Snack Bar (when delivered in accordance with the Development Agreement), the Practice Facility, the Maintenance Building (as defined in the Development Agreement), and the remainder of the City’s Work and any other improvements constructed thereon, provided that if the Licensed Premises are delivered to Licensee in phases as more particularly described in Section 10 of the Development Agreement, the Licensed Premises shall, at any time prior to delivery of all of the Licensed Premises to Licensee, consist of only those portions or phases that are delivered to Licensee pursuant to the provisions of the Development Agreement. Licensed Premises shall also include the Clubhouse upon construction pursuant to this Agreement.

(y) “**Substantial Completion**” or “**Substantially Complete**” shall mean that the Commissioner certifies that an improvement to the Licensed Premises has been substantially completed in accordance with the Designs and Plans (as defined in Section 10.2) approved by Parks and that such improvement is ready to be occupied and used for its intended purpose by the public, as expressed in the Designs and Plans, notwithstanding that some incomplete elements remain to be finished and punch list work determined in accordance with Section 10.19 remains to be completed.

(z) “**Year**” or “**Operating Year**” shall mean the period commencing on the Concession Commencement Date or the anniversary of the Concession Commencement Date in any calendar year and ending on the day before the anniversary of the Concession Commencement Date in the following calendar year.

2.2 Capitalized terms used in this License Agreement but not otherwise defined shall have the meaning ascribed thereto in the Development Agreement. The foregoing recitals are made a part of this Agreement. All Exhibits and Schedules hereto are incorporated herein and expressly made a part hereof.

3. TERM

3.1 (a) The Term of this License Agreement shall begin upon written notice from Parks to Licensee (the “**Registration Notice**”) that the License Agreement is registered with the Comptroller of the City of New York.

(b) The term of the Concession shall commence upon written Notice to Proceed from Parks (such date, the “**Concession Commencement Date**”), which shall occur on the earlier of (A) the date the Golf Course Facilities and the Clubhouse are ready to be opened for play to the public as determined by Licensee and approved by Parks or (B) the fourteen (14) month anniversary of the date that the last Hole (as defined in the Development Agreement) is delivered to Licensee pursuant to and in accordance with the Development Agreement (such fourteen (14) month anniversary date, the “**14 Month Date**”), provided that the 14 Month Date shall be extended on a day for day basis, as applicable (i) for the length of any Force Majeure, (ii) for the length of any delays from the Estimated Completion Dates, as defined in the Development Agreement (other than any delays from the Estimated Completion Dates with respect to the delivery of the Holes) that materially and adversely impact the Grow-In, except to the extent that such delay is attributable to Licensee pursuant to any of the reasons set forth in clauses (ii) – (v) of **Section 4.3** of the Development Agreement, (iii) for the length of any interference with the Grow-In caused by Environmental Conditions (except to the extent such Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and/or any repairs, replacements or remediation conducted on the Licensed Premises by the City which materially and adversely interfere with the Grow-In; (iv) for the length of any interference with the Grow-In caused by City’s Reconstruction Activities (as hereinafter defined) which materially and adversely interfere with the Grow-In; or (v) for the length of time until the City has delivered possession of the entire Licensed Premises (other than the Park Snack Bar) to Licensee in accordance with the provisions of the Development Agreement if such delivery has not occurred by the 14 Month Date; provided further that if the 14 Month Date would otherwise be between the period of September 1st and the following March 31st, then the 14 Month Date would be extended until the April 1st date that immediately follows, subject to any further extension pursuant to **Section 3.3(c)**, as applicable, and provided further that in no event shall the 14 Month Date, as extended pursuant to this **Section 3.1(b)**, occur before the expiration of the five (5) month period after delivery of the Practice Facility to Licensee pursuant to and in accordance with the Development Agreement (such five month period, the “**5 Month Practice Facility Date**”). In the event that (x) the 14 Month Date, as extended pursuant to this **Section 3.1(b)**, occurs after the 5 Month Practice Facility Date but before the expiration of the twelve (12) month period after delivery of the Practice Facility to Licensee pursuant to and in accordance with the Development Agreement and (y) the Grow-In of the Practice Facility is not yet complete on the 14 Month Date (as extended pursuant to this **Section 3.1(b)**), then in such event the 14 Month Date shall occur and the Concession Commencement Date shall occur, but Licensee shall continue to have the responsibility to conduct the grow-in of the Practice Facility as though it had the Grow-In obligation under the Development Agreement and the costs of such grow-in incurred by Licensee for the remainder of such twelve (12) month period shall be treated as though they were Grow-In Costs under the Development Agreement.

(c) In the event the Concession Commencement Date occurs after June 30th but prior to November 1st of the applicable calendar year, Licensee shall be entitled to a License Fee Credit (with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof) in Operating Year 5 in an amount equal to the Minimum Annual Fee payable in Operating Year 5, multiplied by a fraction, the numerator of which is the number of days between April 1st and the Concession Commencement Date, and the denominator of which is 214. Licensee shall not be entitled to any License Fee Credit pursuant to this **Section 3.1(c)**, if the Concession Commencement Date occurs between November 1st of the applicable calendar year and June 30th of the following year.

(d) The Concession Period and the Term of the License shall terminate upon the earlier of twenty (20) years from the Concession Commencement Date (the “**Full Term**”) or upon

expiration or termination of this License Agreement pursuant to any provision hereof (“**Termination Date**”). The period between the Concession Commencement Date and Termination Date shall be the Concession Period (“**Concession Period**”). The period between the Registration Notice and Termination Date shall be the Term of the License Agreement (“**Term**”). The period between the Registration Notice and the Concession Commencement Date shall be referred to as the “**Interim Period**”. Licensee shall not commence Concession operations at the Licensed Premises under this License Agreement until it has received Notice to Proceed from Parks. Upon expiration or sooner termination of this License Agreement, Licensee shall reasonably cooperate with the City and, as directed by the City, any entity approved by the City to achieve an orderly transition of operations in order to avoid disruption of services to the general public and minimize transition expenses, provided, however, Licensee shall not be required to expend more than a de minimus amount in connection with the foregoing set forth in this sentence. Licensee shall not divert any potential patrons intending to make reservations at the Licensed Premises to other facilities owned or operated by the Licensee or its Affiliates; provided that, for the sake of clarity, the foregoing shall not limit Licensee’s right to advertise or promote other facilities owned or operated by Licensee or its Affiliates.

(e) After the Registration Notice but prior to the Concession Commencement Date, Licensee shall have all of the rights of Licensee under this Agreement, provided, however, that Licensee shall not commence Concession operations at the Licensed Premises under this License Agreement until it has received Notice to Proceed from Parks. All of the obligations of Licensee with respect to the Licensed Premises after the Registration Notice but prior to the Concession Commencement Date shall be set forth in the Development Agreement, including, without limitation, any of the provisions of this License Agreement incorporated by reference in the Development Agreement. From and after the Concession Commencement Date, Licensee shall have all of the rights and shall perform all of the obligations of Licensee under this Agreement.

3.2 (a) Notwithstanding any language to the contrary contained herein, this License Agreement (including both the License and the Concession) is terminable at will by the Commissioner in his sole and absolute discretion, at any time; however, such termination shall not be arbitrary or capricious. For purposes hereof, Parks and Licensee agree that termination by the Commissioner will not be considered arbitrary or capricious where a determination is made by the Commissioner that the Licensed Premises is needed for an alternative park-related use other than golf. The Commissioner shall not so terminate solely for the purpose of issuing a new license to another party (including, without limitation, to another party at a higher license fee) for the operation of a golf course and/or banquet facility. However, the above is not an exhaustive list of the arbitrary or capricious reasons to terminate by the Commissioner. Such termination shall be effective twenty-five (25) days after the date such written notice is received by Licensee. Except as set forth in Section 3.2(b) below, the Commissioner, the City, its employees and agents shall not be liable for damages to Licensee in the event of termination by Commissioner in accordance with the terms of this License Agreement.

(b) In the event (i) that the Commissioner shall exercise its right to terminate this License Agreement at will (i.e., not for an Event of Default under this License by Licensee which remains uncured after all applicable notice and cure periods have expired) or (ii) this License Agreement is terminated in certain other circumstances specifically provided for in this License Agreement or the Development Agreement and in those circumstances the respective provision applicable to termination provides for a Termination Payment, then, in each such case, Parks shall pay to Licensee a termination payment (the “**Termination Payment**”) equal to the sum of (A) the Capital

Improvement Costs expended by Licensee for Capital Improvements and the Grow-In Costs (as defined in the Development Agreement) expended by Licensee in connection with the Grow-In pursuant to the Development Agreement (less amortization as described below), provided that documentation of such costs, satisfactory to Parks, is submitted to Parks, plus (B) (x) with respect to any contracts or orders for services or materials which were made prior to the receipt of written notice of termination by Licensee but not yet received, that cannot be canceled, any amounts due under such contracts or orders, and (y) for contracts or orders for services or materials that can be canceled, the payment of a cancellation fee or penalty related to such early cancellation, provided that Licensee makes prompt attempts to mitigate such costs and provides documentation of such attempts by Licensee, which shall be subject to audit and review by Parks, and provided further that the cancellation fee or penalty as mitigated is not greater than payment of the amount due, plus (C) any License Fee Credits to which Licensee is entitled, with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, plus (D) the amount on deposit in the Capital Reserve Fund. For the purpose of determining the Termination Payment, the Capital Improvement Costs and Grow-In Costs (prior to amortization) shall not exceed the amounts stated in the Preliminary Capital Budget attached hereto as **Exhibit K** (which Preliminary Capital Budget shall be updated from time to time, subject to Parks approval, which approval shall not be unreasonably withheld, conditioned or delayed, to reflect actual Grow-In Costs expended by Licensee, any costs related to the washout of a Hole after it has been delivered to Licensee in accordance with the Development Agreement and the estimated costs of Capital Improvements reasonably approved by Parks). The unamortized portion of such costs shall be derived from a twenty (20) year, straight line amortization schedule, which amortization shall begin on the Concession Commencement Date. Parks shall use reasonable good faith efforts to pay the Termination Payment within sixty (60) days after the Termination Date. Interest on the unpaid portion of the Termination Payment at the Interest Rate shall begin to accrue sixty (60) days after the Termination Date, provided, however, that: (A) to the extent Licensee is required to provide documentation of costs to Parks, interest shall not accrue until the later of sixty (60) days after the Termination Date or thirty (30) days after Parks' receipt of documentation satisfactory to Parks, and (B) in the event of a dispute as to the amount of the Termination Payment, the City shall pay interest only on the actual amount of the Termination Payment determined to be due to Licensee, if any, upon resolution of such dispute.

(c) Notwithstanding the provisions of **Section 3.2(b)**, no payment (including, without limitation, the Termination Payment) shall be required (1) in the event that this License Agreement is terminated pursuant to **Section 3.3** of this License Agreement; (2) in the event that this License Agreement is terminated by operation of law (other than as a result of any acts or omissions of the City or Parks); and (3) in the event that this License Agreement is terminated because Parks is unable to obtain a new permit from the New York State Department of Environmental Conservation ("DEC"), or to extend or renew that certain permit required under the Environmental Conservation Law issued by the DEC on November 18, 2005 under DEC Permit No. 2-6006-00014/00013, as attached as **Schedule 9** to the Development Agreement, as amended, modified, renewed or replaced (the "**DEC Part 360 Permit**") that is required in order to complete construction of the City's Work, by reason of the negligence or willful misconduct of any of the Licensee Indemnitees. The City agrees to use good faith efforts to obtain any renewals or extensions of the DEC Part 360 Permit required to complete construction of and operate the Licensed Premises.

(d) Subject to the remainder of this Paragraph, the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof, paid in relation to any termination of this License pursuant to this **Section 3.2** shall be in full and final settlement of any claim of the Licensee against Parks and the City for such termination and the

Licensee shall be excluded from all other rights and remedies in respect of any such termination where such Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof, is paid to Licensee pursuant to this **Section 3.2**. Other than the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof and any damages attributable to Claims for personal injury, death, property damage or Claims described in **Sections 5(a) and 6(a)** of **Exhibit H** for which the City is obligated to indemnify, (which damages, in each case, shall not include any lost sales or profit or any indirect, consequential, special, exemplary or incidental damages) regardless of whether such damages are attributable to the event that led to the termination of this License Agreement in accordance with its terms or otherwise, the City shall not be responsible for any other damages of any kind (including, without limitation, actual, special or consequential, exemplary or incidental or any other form of damages or lost sales or profit of Licensee or other expenditures of Licensee) or any other fees or expenses; provided that for the sake of clarity, the foregoing in this paragraph is not intended to abrogate the City's obligations under this Agreement to indemnify, defend, protect and hold harmless the Licensee Indemnitees in accordance with the terms of this Agreement, as applicable, to the extent that such obligations relate to third-party claims.

(e) This **Section 3.2** and any other section of this License Agreement pursuant to which the City is required to pay or Licensee is entitled to receive the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof, shall survive the termination of this License Agreement.

3.3 (a) The occurrence of any of the following events, and the expiration of any applicable notice, grace and cure period set forth herein, shall constitute an "**Event of Default**" under this License Agreement:

(i) (a) If Licensee defaults in the payment of License Fees, deposits to the Capital Reserve Fund or other amount payable by Licensee under this License Agreement (except for payments of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this License Agreement which are addressed below in the proviso to this **Section 3.3(a)(i)**) and such default shall continue for more than ten (10) business days after Parks has delivered notice thereof to Licensee; provided, however, that with respect to a default in payment of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this License Agreement, no notice by Parks shall be required and an Event of Default shall occur upon the failure to pay the amount due to the applicable insurance company prior to expiration of the period of time before the cancellation of the applicable insurance policy (unless such policy is replaced prior to such time).

(b) If Licensee uses the Endorsement in violation of Section 5 of the Nicklaus Subcontract or **Section 1.8** of this License Agreement and Licensee fails to cure such violation within ten (10) days after notice from City to Licensee:

(c) If Licensee fails to maintain the Golf Course to a quality level consistent with the reasonable standards of a Jack Nicklaus Signature golf course, and such failure shall continue for more than twenty-five (25) days after Parks has delivered a Default Notice (as defined below) to Licensee, provided, however, that notwithstanding the foregoing if such failure cannot reasonably be cured within such twenty-five (25) day period, Licensee shall have such additional time as may be reasonably necessary to cure such default, provided that Licensee shall have commenced curing such default within such twenty-five (25) day period and Licensee thereafter

diligently prosecutes such cure, to the reasonable satisfaction of Parks and Nicklaus Design, to completion;

(ii) Should Licensee materially breach or fail to substantially comply with any of the other material provisions of this License Agreement and such default shall continue for more than twenty-five (25) days after Parks has delivered notice thereof to Licensee (such notice a “**Default Notice**”), provided, however, that notwithstanding the foregoing if such default cannot reasonably be cured within such twenty-five (25) day period, Licensee shall have such additional time as may be reasonably necessary to cure such default, provided that Licensee shall have commenced curing such default within such twenty-five (25) day period and Licensee thereafter diligently prosecutes such cure to completion and, provided, further that, notwithstanding the foregoing, if a Default Notice alleges a material breach or failure to substantially comply with any of the material provisions of this License Agreement relating to an alleged failure of Licensee to comply with any Legal Requirements and Licensee challenges (through administrative or judicial process, as applicable) such alleged breach or failure in good faith, Licensee shall not be deemed to have breached or failed to comply with this License Agreement until such time as Licensee’s challenge is denied beyond any right of appeal, and if denied (beyond any right of appeal), Licensee shall have the cure periods stated in this paragraph which shall run from the date of such denial, provided, however, that Licensee shall comply with all applicable legal orders requiring action or discontinuance of action during the pendency of such challenge. For purposes of this provision, a “material breach or failure to substantially comply” shall be those breaches or failures specifically identified as such in this License Agreement, any time any of Licensee’s representations contained in this Agreement are found to be materially untrue, inaccurate or incorrect, or such other breaches or failures as are material under the circumstances;

(iii) (1) the appointment of any receiver, without the express written consent of Parks, of Licensee’s assets; (2) Licensee making a general assignment for the benefit of creditors without the express written consent of Parks; (3) the occurrence of any act, which results in the permanent deprivation of Licensee’s rights, powers and privileges necessary for the conduct and operation of the License; or (4) the levy of any attachment or execution which substantially interferes with Licensee’s operations under this License Agreement, which attachment or execution is not vacated, dismissed, stayed or set aside within a period of sixty (60) days;

(iv) if a material breach or failure to substantially comply with any provisions of this License Agreement by Licensee occurs and is corrected within the time periods specified in Sections 3.3(a)(i) or (a)(ii) hereof, and a repeated violation of the same provision occurs more than two (2) additional times in any twelve (12) month period;

(v) if the Development Agreement is terminated by the Commissioner pursuant to Section 16.2(i), Section 16.2(ii) or Section 16.2(iii) thereof, or

(vi) if, (x) upon the occurrence and during the continuance of an Event of Default under this License Agreement or the Development Agreement and (y) after Parks has provided written notice to Guarantor that Parks intends to pursue its rights under the Guaranty in accordance with the terms of the Guaranty, Guarantor shall default, beyond any applicable notice or cure periods, in his obligations under that certain Guaranty.

(b) Upon the occurrence and during the continuance of an Event of Default, the Commissioner may in addition to any other remedy which the City may have under this Agreement,

including but not limited to pursuing any rights the City may have under the Guaranty (provided, however, that for the sake of clarity, as set forth in the Guaranty, the Guaranty may not be enforced until the expiration of any applicable notice and cure periods and then only in accordance with the terms of the Guaranty), give notice, in writing, to Licensee terminating this License Agreement, and this License Agreement shall terminate ten (10) days after receipt by Licensee of such termination notice from the Commissioner. Notwithstanding the foregoing, in the event that the Event of Default underlying the termination notice is a default in payment of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this License Agreement, then in such event, and in such event only, Licensee may cure such Event of Default within such 10 day period. For the purposes of the foregoing sentence, "cure" shall mean (i) payment of all unpaid portions of premiums due, and (ii) the unconditional agreement to defend, indemnify, and hold the City harmless (and the subsequent defense, indemnification, and holding the City harmless) for all Claims that Licensee must indemnify the City for under the terms of **Article 23** (even if such Claims arose during any period where Licensee did not have all insurance required pursuant to this Agreement).

(c) Notwithstanding anything to the contrary contained in this Agreement or the Development Agreement, where the Licensee's failure to fulfill any of its obligations under this License Agreement (including operating a first class, tournament quality daily fee golf course) is the result of Force Majeure or any of the other reasons set forth in **Section 12.19(g)** of this Agreement (where such reasons set forth in **Section 12.19(g)** are not caused by the fault of Licensee), Licensee's obligation to perform shall be extended for a reasonable period of time commensurate with the nature of the event causing the failure of Licensee to fulfill its obligations and no breach or default shall exist and no liquidated or other damages shall be payable with respect to such extended period. In addition, if a Force Majeure event described in **Section 2.1(n)** results in a delay after Notice to Proceed, subject to compliance with applicable laws, the Concession Period shall be extended for a reasonable period of time commensurate with the nature of the event causing the delay, as reasonably determined by the Commissioner.

(d) Upon the occurrence and during the continuation of an Event of Default resulting from Licensee's failure to perform its repair, maintenance and construction obligations hereunder, Parks may complete all repair, maintenance and construction work required to be performed by Licensee hereunder and may reasonably repair and reasonably alter any portion(s) of the Licensed Premises in such manner as Parks may deem reasonably necessary or advisable without relieving Licensee of any liability under this License Agreement or otherwise affecting any such liability.

(e) Licensee shall have the right to appeal the termination of this License Agreement pursuant to **Section 3.3(b)** to the Commissioner as follows: for any termination with respect to **Section 3.3(a)(i)(b)**, regarding the Endorsement (an "Endorsement Termination"), Licensee shall have the right to appeal such termination within five (5) days of service of a notice of termination on Licensee. For any termination other than an Endorsement Termination, Licensee shall have the right to appeal such termination with ten (10) days of service of notice of termination on Licensee. All appeals shall be in writing, detailing the grounds for appeal together with relevant documentation, and shall be addressed to the Commissioner, The Arsenal, 830 Fifth Avenue, New York, NY 10021 and sent by overnight courier or by hand delivery to such address. The filing of any such appeal shall stay termination of this License Agreement and any actions by the City to enforce such termination or recover possession of the Licensed Premises until ten (10) days (or five (5) days with respect to an Endorsement Termination) after Licensee is served with a final determination from the Commissioner with respect to such appeal. Upon receipt of the appeal, the Commissioner may, in

Commissioner's sole discretion, schedule a hearing with respect to such appeal, to be held within thirty (30) days (or five (5) days with respect to an Endorsement Termination) after receipt of the notice of appeal. Licensee shall have the right to present witnesses and other evidence at any such hearing. The Commissioner shall review the claims addressed in Licensee's appeal and, within thirty (30) days (or five (5) days with respect to an Endorsement Termination) after receipt of the notice of appeal or the hearing, if any, issue a final determination, which shall have a rational basis. Such determination by the Commissioner shall be deemed a final determination for purposes of Article 78 of the New York Civil Practice Laws and Rules (the "CPLR") and Licensee shall have the right to challenge any such final determination by a proceeding under Article 78 of the CPLR. In the event that Licensee does not appeal to the Commissioner pursuant to this subdivision, the termination pursuant to **Section 3.3(b)** shall be the final agency action.

3.4 Except as provided in **Section 3.2(b)**, or as otherwise specifically set forth in this License Agreement or the Development Agreement, upon expiration or sooner termination of this License Agreement by Commissioner in accordance with the terms of this Agreement, all rights of Licensee herein shall be forfeited without claim for loss, damages, refund of investment or any other payment whatsoever against Commissioner, Parks or City.

3.5 In the event Commissioner terminates this License Agreement in accordance with **Section 3.3(b)** above, any property of the Licensee on the Licensed Premises, other than leased property, may be held and used by Commissioner in order to operate the Licensed Premises during the balance of the calendar year and may be held and used thereafter until all indebtedness, if any, of the Licensee hereunder, at the time of termination of this License Agreement, is paid in full. At the time of such termination: Licensee shall have the right to remove its personalty (whether owned or leased) once such indebtedness has been satisfied.

3.6 Subject to **Section 3.3(e)** and **Section 3.7**, Licensee agrees that upon the expiration or sooner termination of this License Agreement, it shall immediately cease all operations pursuant to this License Agreement and shall vacate the Licensed Premises without any further notice by City and without resort to any judicial proceeding by the City. Subject to **Section 3.3(e)**, upon the expiration or sooner termination of this License Agreement, City reserves the right to take possession of the Licensed Premises.

3.7 Subject to **Section 3.3(e)**, **Section 3.5** and **Section 13.3** hereof, Licensee shall, within thirty (30) days following the expiration or sooner termination of this License Agreement ("**Removal Period**"), remove all personal possessions from the Licensed Premises. All of the provisions of this License Agreement, including but not limited to the insurance and indemnification provisions, shall apply during the Removal Period. Licensee acknowledges that any personal property remaining on the Licensed Premises after the Removal Period is intended by Licensee to be abandoned. Licensee shall remain liable to the City for any damages, including the cost of removal or disposal of property, should Licensee fail to cease operations, vacate the Licensed Premises or remove all possessions from the Licensed Premises during the time prescribed in this Agreement. Pursuant to **Section 4.4** herein, City may seize the Security Deposit to recover such damages in part or in whole. If all or any part of the Security Deposit remains unexpended, the City agrees to return such balance to Licensee within sixty (60) days following the Removal Period, provided Licensee is otherwise in compliance with the provisions of this License Agreement.

3.8 Subject to **Section 3.3(e)**, if this License Agreement is terminated as provided in **Section 3.3** of this License Agreement, Parks may, without notice, re-enter and repossess the Licensed Premises

using such force for that purpose as may be necessary without being liable to indictment, prosecution or damages therefor and may dispossess Licensee by summary proceedings or otherwise, without court order or other judicial approval.

3.9 (a) If this License Agreement is terminated for an Event of Default as provided in Section 3.3 hereof:

(i) Parks may draw down on the Security Deposit in accordance with Section 4.4;

(ii) Licensee shall pay to Parks all License Fees and any other fees then due and payable under this License Agreement by Licensee to Parks prior to the Termination Date (but, for the sake of clarity, not subsequent to the Termination Date); and

(iii) (A) Without limiting Licensee's right to receive License Fee Credits to which it is entitled pursuant to this Agreement or the Development Agreement, and all interest accrued thereon at the Interest Rate as set forth in Section 4.10 hereof, Licensee shall pay to the City, as agreed upon and negotiated liquidated damages, the amount set forth in Section 3.9(a)(iii)(B) commencing on the later of (w) the first day of the month following the month in which the Termination Date occurs or (x) the fifth (5th) anniversary of the Concession Commencement Date and ending on the earlier of (i) the date that City finds a replacement operator for the Licensed Premises (irrespective of the Park Snack Bar), or a substantial portion thereof, or otherwise re-opens the Licensed Premises (irrespective of the Park Snack Bar), or a substantial portion thereof, for use by the general public on a non-temporary basis (such date as set forth in this clause (i), the "**Replacement/Reopening Date**"); or (ii) the date that is three (3) years from the Termination Date (the "**Three Year End Date**"); or (iii) twenty (20) years from the Concession Commencement Date. The date on which payment of liquidated damages commences, as applicable, under clauses (w) and (x) of this Section 3.9(a)(iii)(A), shall be referred to herein as the "**Liquidated Damages Commencement Date**". The date on which payment of liquidated damages terminates in accordance with clauses (i), (ii) or (iii) of this Section 3.9(a)(iii)(A), as applicable, shall be referred to herein as the "**Liquidated Damages Termination Date**". For the sake of clarity, upon the occurrence of any of the events set forth in clauses (i), (ii) or (iii) of this Section 3.9(a)(iii)(A), Licensee shall no longer be obligated to pay any further liquidated damages.

(B) Subject to the remainder of this Section 3.9(a)(iii), the amount of liquidated damages that would be payable between the Liquidated Damages Commencement Date and the Liquidated Damages Termination Date shall be equal to Twenty-Five Thousand Dollars (\$25,000) per month, due on or before the first day of each calendar month from and after the Liquidated Damages Commencement Date until the Liquidated Damages Termination Date.

(C) Notwithstanding the foregoing in Section 3.9(a)(iii)(B), for the Operating Year in which the Termination Date occurs, if any liquidated damages are due to the City in accordance with this Section 3.9(a)(iii), the amount of the liquidated damages that would be due for the remainder of the Operating Year shall be reduced for such Operating Year on a dollar-for-dollar basis by the amount of any License Fees paid by Licensee for the period prior to the Termination Date for such Operating Year (and the amount of liquidated damages to be paid for such Operating Year shall be spread out in equal monthly installments over the remainder of such Operating Year and each monthly installment shall be payable on the first

day of each calendar month for the remainder of such Operating Year or until the Liquidated Damages Termination Date, if earlier).

(D) For the last installment of liquidated damages due in accordance with this Section 3.9(a)(iii), the amount due shall be prorated based on a thirty (30) day month in the event that the Liquidated Damages Termination Date falls in the middle of a month.

(E) Notwithstanding anything to the contrary contained in this Section 3.9(a)(iii), for clarity, if this Agreement is terminated prior to the fifth (5th) anniversary of the Concession Commencement Date and the Replacement/Reopening Date or the Three Year End Date occurs prior to the fifth (5th) anniversary of the Concession Commencement Date, then Licensee shall not be obligated to pay any liquidated damages.

(F) The liquidated damages set forth in this Section 3.9(a)(iii) are hereby stipulated and agreed by the Parties to be the City's liquidated damages in the event the License Agreement is terminated due to an Event of Default, it being fully understood and agreed by the Parties that it is or would be difficult to estimate or otherwise determine the total amount of damages that would be incurred by the City or Parks should Licensee default in its obligations under this Agreement or Guarantor default in its obligations under the Guaranty. Other than (x) the liquidated damages under this Section 3.9(a)(iii) and (y) the fees due and payable under Section 3.9(a)(i) and (ii) and (z) any damages attributable to any Claims for personal injury, death, property damage or Claims described in Sections 5(a) and 6(b) of Exhibit H for which Licensee is obligated to indemnify (which damages, in each case, shall not include any lost sales or profit or any indirect, consequential, special, exemplary or incidental damages) regardless of whether such damages are attributable to the default that led to the termination of this License Agreement in accordance with its terms or otherwise, Licensee shall not be responsible for any other damages of any kind (including, without limitation, actual, special or consequential, exemplary or incidental or any other form of damages or lost sales or profit of the City or Parks or other expenditures of the City or Parks) or any other fees or expenses, including, without limitation, License Fees; provided that for the sake of clarity, the foregoing in this paragraph is not intended to abrogate Licensee's obligations under this Agreement to indemnify, defend, protect and hold harmless the Indemnitees in accordance with the terms of this Agreement, as applicable, to the extent that such obligations relate to third-party claims.

(G) The Development Agreement shall terminate upon the Replacement/Reopening Date if it has not yet been terminated in accordance with its terms.

(b) For the sake of clarity, the License Agreement shall terminate upon the Replacement/Reopening Date if it has not yet been terminated in accordance with its terms.

3.10 Unless expressly agreed otherwise by the Parties hereto, no receipt of moneys by Parks from Licensee after the termination of this License Agreement, or after the giving of any notice of the termination of this License Agreement, shall reinstate, continue or extend the Term or affect any notice theretofore given to Licensee, or operate as a waiver of the right of Parks to enforce the payment of fees payable by Licensee hereunder or thereafter falling due, or operate as a waiver of the right of Parks to recover possession of the Licensed Premises. After the service of notice to terminate this License Agreement or the commencement of any suit or summary proceedings or after a final order or judgment for the possession of the Licensed Premises, Parks may demand, receive

and collect any moneys due or thereafter falling due without in any manner affecting the notice, proceeding, order, suit or judgment, all such moneys collected being deemed payments on account of the use and occupation of the Licensed Premises or, at the election of Parks, on account of Licensee's liability hereunder.

3.11 If the Development Agreement is terminated in accordance with its terms for any reason other than for a default by Licensee thereunder, Licensee shall have the right to terminate this License Agreement on ten (10) days notice to the City. If Licensee terminates this Agreement pursuant to this **Section 3.11**, the City shall pay the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof, to Licensee, provided, however, that the City shall not owe the Termination Payment in the event the License Agreement is terminated in accordance with its terms as a result of the default of Licensee or in the event the Development Agreement is terminated pursuant to **Sections 3.9(a)(iii)(G), 3.9(b), 6.3 or 9.40** hereof or **Section 16.3** of the Development Agreement.

3.12 Without limiting Licensee's rights set forth in this Agreement or in the Development Agreement, the following shall constitute a default by the City and Parks under this License Agreement, in the event that: (a) the Nicklaus Subcontract is terminated (except if such termination is due to the actions of or failure to act by any of the Licensee Indemnitees); or (b) the City or Parks materially breach or fail to substantially comply with any of the other material provisions of this Agreement and such default shall continue for more than twenty-five (25) days after Licensee has delivered notice thereof to the City, provided, however, that notwithstanding the foregoing if such default cannot reasonably be cured within such twenty-five (25) day period, Parks and the City shall have such additional time as may be reasonably necessary to cure such default, provided that Parks and the City shall have commenced curing such default within such twenty-five (25) day period and Parks and the City thereafter diligently prosecutes such cure to completion, and provided further that, notwithstanding the foregoing, if such notice alleges a material breach or failure to substantially comply with any of the material provisions of this License Agreement relating to an alleged failure of the City or Parks to comply with any Legal Requirements and City or Parks challenges (through administrative or judicial process, as applicable) such alleged breach or failure in good faith, the City and Parks shall not be deemed to have breached or failed to comply with this License Agreement until such time as the City's or Park's challenge is denied beyond any right of appeal, and if denied (beyond any right of appeal), City and Parks shall have the cure periods stated in this paragraph which shall run from the date of such denial (provided, however, that City and Parks shall comply with all applicable Legal Requirements during the pendency of such challenge)). If the City or Parks shall default under this License Agreement pursuant to clause (a) or (b) above under this **Section 3.12**, then in any such case, Licensee shall have the right to seek all appropriate legal and equitable remedies and the City shall be liable to Licensee for such amounts to which Licensee may be entitled in law or equity in any action brought by Licensee against the City on account of any of the foregoing in this **Section 3.12** and Licensee shall have the right to (in addition to any other remedy which Licensee may have under this Agreement) give notice to the City, in writing, terminating this License Agreement, and this License Agreement shall terminate ten (10) days after receipt by the City of such termination notice from Licensee. For purposes of this provision, a "material breach or failure to substantially comply" shall either be those breaches or failures specifically identified as such in this License Agreement or such other breaches or failures as are material under the circumstances.

4. PAYMENT TO CITY

4.1 (a) Commencing in Operating Year 5 through the end of the Concession Period, Licensee shall pay the City license fees (“**License Fees**”) for such Operating Years in an amount equal to the greater of (1) the minimum annual fee (“**Minimum Annual Fee**”) set forth below or (2) (i) the annual percentage of Gross Receipts derived from the operation of the Licensed Premises (the “**Percentage Fee**”), set forth below, plus (ii) three percent (3%) of Sublicense Gross Receipts (the “**Sublicense Percentage Fee**”) for such Operating Year:

Operating Year	Minimum Annual Fee	Percentage Fee and Sublicense Percentage Fee
5	\$300,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
6	\$310,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
7	\$320,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
8	\$330,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
9	\$340,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
10	\$360,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
11	\$370,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
12	\$380,000	7% of Gross Receipts plus 3% of Sublicense Gross Receipts
13	\$390,000	8% of Gross Receipts plus 3% of Sublicense Gross Receipts
14	\$400,000	8% of Gross Receipts plus 3% of Sublicense Gross Receipts
15	\$410,000	8% of Gross Receipts plus 3% of Sublicense Gross Receipts
16	\$420,000	10% of Gross Receipts plus 3% of Sublicense Gross Receipts

17	\$440,000	10% of Gross Receipts plus 3% of Sublicense Gross Receipts
18	\$450,000	10% of Gross Receipts plus 3% of Sublicense Gross Receipts
19	\$460,000	10% of Gross Receipts plus 3% of Sublicense Gross Receipts
20	\$470,000	10% of Gross Receipts plus 3% of Sublicense Gross Receipts

(b) Licensee shall make deposits to a Capital Reserve Fund (as hereinafter defined) in accordance with **Section 10.29** herein.

4.2 (a) The Minimum Annual Fee payable during each Operating Year shall be paid to the City in six (6) equal installments on or before the first (1st) day of each month between May and October of Operating Years 5 to 20, subject to any License Fee Credits, with accrued interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, to which Licensee may be entitled pursuant to this License Agreement or the Development Agreement.

(b) The amount, if any, by which the Percentage Fee and the Sublicense Percentage Fee for any Operating Year calculated in accordance with **Section 4.1(a)** based upon Gross Receipts and Sublicense Gross Receipts for such Operating Year exceeds the Minimum Annual Fee for such Operating Year, shall be paid to the City within forty five (45) days after the end of each Operating Year, subject to any License Fee Credits, with accrued interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, to which Licensee may be entitled pursuant to this License Agreement or the Development Agreement.

(c) On or before the thirtieth (30th) day following the end of each quarter of each Operating Year, Licensee shall submit to Parks, in a format acceptable to Parks, a report of rounds of golf played at the Golf Course during the preceding quarter, signed and verified by an officer of Licensee.

4.3 Late charges shall be assessed on any payment which is overdue for more than ten (10) days. In the event that payment of License Fees or any other charges shall become overdue for ten (10) days following the date on which such fees are due and payable as provided in this License Agreement, a late charge of two percent (2%) per month on the sums so overdue (computed on a thirty day month) from the date such payments were due and payable until the date such amounts have been paid, shall become immediately due and payable to Parks as liquidated damages for the administrative cost and expenses incurred by Parks by reason of Licensee's failure to make prompt payment, and said late charges shall be payable by Licensee without notice or demand. If such late charges and all arrearages (including prior two percent (2%) late charges) are not paid by the tenth (10th) day of the month following the month in which such late charges became due, an additional charge of two percent (2%) of the total of such late charges and arrears shall be added thereto and shall be payable and collectable with the next monthly License Fee installment. The failure to pay License Fees resulting in the imposition of late charges pursuant to this **Section 4.3** three (3) times in any twelve (12) month period shall be presumed to be a failure to substantially comply with the

terms, conditions and covenants of this License Agreement and shall be a default hereunder. No failure by Commissioner to bill Licensee for late charges shall constitute a waiver by Commissioner of such late charges or his right to enforce the provisions of this Section. If any local, state or federal law or regulation which limits the rate of interest which can be charged pursuant to this Section is enacted, the rate of interest set forth in this Section shall not exceed the maximum rate permitted under such law or regulation.

4.4 (a) Licensee shall, upon signing this License Agreement, deposit with the City, the amount of one hundred thousand dollars (\$100,000) as its security deposit (“**Security Deposit**”). The Security Deposit shall be held by the City, without liability for the City to pay interest thereon, as security for the full, faithful and prompt performance of and compliance with each and every term and condition of this License Agreement to be observed and performed by Licensee. The Security Deposit shall remain with the City throughout the Term of this License Agreement.

(b) The Security Deposit shall consist of cash, a certified check payable to the City of New York or a negotiable instrument (other than a letter of credit) payable to bearer or the City of New York which the Comptroller shall approve as being of equal market value with the sum so required. The Security Deposit shall be held by the City, without liability for interest thereon, as security for the full and faithful performance by Licensee of each and every term and condition of this License Agreement on the part of Licensee to be observed and performed. Licensee may submit to the City an interest bearing or non-interest bearing bond (with a minimum market value sufficient to cover the amount of the required Security Deposit) to serve as said Security Deposit. In such event, Licensee shall collect or receive annually any interest or income earned on such negotiable instrument. In connection with any security deposited by Licensee with the City pursuant to this **Section 4.4**, Licensee shall be charged annual maintenance and transaction fees which the City is or may hereafter be entitled or authorized by law to charge in connection with such deposit. Currently, the annual account maintenance fee is \$300.00 per year combined with a separate \$20 fee for each deposit, substitution and release transaction, which fees may be adjusted by the Office of the Comptroller. The City shall not be obligated to place or to keep any cash deposited hereunder in interest-bearing bank accounts.

(c) If any fees or other charges or sums payable by Licensee to the City shall be overdue and unpaid or should the City make payments on behalf of Licensee, or should Licensee fail to perform any of the terms of this License Agreement, then Parks may, at its option, and without prejudice to any other remedy which the City may have on account thereof, after ten (10) days' notice, apply the Security Deposit, or as much thereof as may be necessary to compensate the City, toward the payment of License Fees, late charges, liquidated damages or other sums due from Licensee in accordance with the terms of this License Agreement or towards any loss, damage or expense sustained by the City resulting from such default on the part of Licensee. In such event, Licensee shall restore the Security Deposit to the original sum deposited within ten (10) days after written demand therefor. In the event Licensee shall fully and faithfully comply with all of the terms, covenants and conditions of this License Agreement and pay all License Fees and other charges and sums payable by Licensee to the City, the Security Deposit shall be returned to Licensee, along with any accrued interest thereon, if applicable, following the surrender of the Licensed Premises by Licensee in compliance with the provisions of this License Agreement.

4.5 (a) On or before the thirtieth (30th) day following the end of each quarter of each Operating Year, Licensee shall submit to Parks, in a form satisfactory to Parks, a statement of Gross Receipts, signed and verified by an officer of Licensee, reporting any Gross Receipts generated at the

Licensed Premises during the preceding quarter. Licensee shall also submit a summary report of Gross Receipts for each Operating Year within forty five (45) days of the end of each Operating Year of this License Agreement. Each of the reports referenced in the preceding two sentences shall report the Gross Receipts generated at the Licensed Premises in the categories as specified on **Exhibit B** and **Exhibit B-1** (the “**Quarterly Gross Receipts Forms**”), including, without limitation, the following categories:

Greens Fees	Gross Receipts from rates and charges made at the point of sale related to the rounds of golf played at the Licensed Premises; and
Golf Cart Rentals	Gross Receipts from rates and charges made at the point of sale related to the rental of golf carts at the Licensed Premises; and
Golf Club Rentals	Gross Receipts from rates and charges made at the point of sale related to the rental of golf clubs at the Licensed Premises; and
Lessons	Net Receipts from rates and charges made at the point of sale related to golf lessons at the Licensed Premises less expenses for such lessons; and
ID Cards	Gross Receipts from rates and charges made at the point of sale related to the sale of resident ID cards at the Licensed Premises; and
Club Repair	Gross Receipts from rates and charges made at the point of sale related to the repair of golf clubs at the Licensed Premises; and
Locker Rentals	Gross Receipts from rates and charges made at the point of sale related to the rental of lockers at the Licensed Premises; and
Pro Shop	Gross Receipts from rates and charges made at the point of sale related to the Pro Shop at the Licensed Premises; and
Golf Reservations	Gross Receipts from rates and charges made at the point of sale related to golf reservations at the Licensed Premises; and
Secured Parking	Gross Receipts from rates and charges made at the point of sale related to secured parking at the Licensed Premises; and
Food Service Facility	Gross Receipts from rates and charges made at the point of sale related to the food service facility at the Licensed Premises; and
Vending Machines	Net Receipts from placement and operation of vending machines at the Licensed Premises; and
Driving Range	Gross Receipts from rates and charges made at the point of sale related to the buckets of balls provided at the Driving Range at the Licensed Premises; and
Snack Bar	Gross Receipts from any snack bar(s) (reported separately) at the Licensed Premises operated in addition to the main food service facility; and
Permitted Sponsorship Activity	Gross receipts from any sponsorship activity; and
Broadcasting	Net Receipts from the broadcasting of on-site golf tournaments at the Licensed Premises (<u>provided</u> , however, the following shall not

be included within Net Receipts (a) any pass-through fees or costs collected by Licensee on behalf of a third-party broadcaster and (b) any income received by Licensee in connection with broadcasts of "The Apprentice" or any similar successor television show).

Sublicense Gross Receipts	All Sublicense Gross Receipts generated at and realized from any Sublicensed Operator's operation at the Licensed Premises.
Sublicense Fee	All Sublicense Fees paid to Licensee by any Sublicensed Operator.
Miscellaneous	All other Gross Receipts generated at and realized from Licensee's operation of the Licensed Premises.

(b) Licensee shall indicate on its statement of Gross Receipts whether or not these amounts are inclusive of sales tax collected.

(c) Licensee is solely responsible for the payment of all federal, state and local taxes applicable to the operation of the Licensed Premises. With the exception of federal, state and City sales tax, no such applicable taxes, including but not limited to the New York City Commercial Rent Tax, may be deducted from Gross Receipts or from the compensation due under this License Agreement.

(d) In the event Licensee sublicenses any operations to a Sublicensed Operator in accordance with **Section 18** hereof, Licensee shall not report and include in the Gross Receipts on which payment of the Percentage Fee is based, the Sublicense Gross Receipts, but shall include the Sublicense Fees payable by the Sublicensed Operator to Licensee pursuant to such sublicense agreement and shall separately report Sublicense Gross Receipts.

4.6 On or before the ninetieth (90th) day following the end of each Operating Year, Licensee shall submit to Parks an income and expense statement pertaining to operations under this License Agreement, signed and verified by an officer of Licensee. The reports referenced in the preceding sentence shall be in such format as Parks shall reasonably approve.

4.7 (a) Licensee, during the Term of this License Agreement, shall maintain adequate internal control systems and shall keep complete and accurate records, books of account and data, including daily sales and receipt records, which shall show in detail the total business transacted by Licensee and the Gross Receipts therefrom and the Grow-In Costs. This internal control system must include maintaining detailed sales information from each sales transaction. Specifically, sales information must be recorded electronically, via a point-of-sale system, and must include details on each sales transaction, including the item(s) sold, time, date of sale and price of the item sold. Licensee must also document each Licensee Special Event (as hereinafter defined) via signed sequentially pre-printed, pre-numbered contracts that capture event information, including the time and date of the event, a range of the number of attendees, if available, and required payment. Licensee must also establish a dedicated bank account for all deposits related to this Concession's revenue. All accounting and internal control related records, including the detailed sales information described above, shall be maintained for a minimum of six (6) years from the date of creation of the record. Additionally, all books and records maintained pursuant to this License Agreement shall be conveniently segregated from other business matters of Licensee and shall include, but not be limited to: all federal, state and local tax returns and schedules of the Licensee, records of daily bank deposits of the entire receipts from transactions in, at, on or from the Licensed Premises; sales slips,

daily dated point of sale system receipts, and sales books; and duplicate bank deposit slips and bank statements.

(b) Licensee shall use such accounting and internal control methods and procedures and keep such additional books and records as are reasonably acceptable to Parks and/or the Comptroller. Parks acknowledges that, subject to the prior approval of Parks, the Licensee's point of sales system may be modified to accommodate the fact that internet, cable TV and telephone service will not be provided to the Snack Bars; nonetheless, Licensee agrees that such modified point-of-sale system shall provide the sales information required for the point-of-sales system under **Section 4.7(a)**. Parks and/or the Comptroller shall have the right to examine the recordkeeping procedures of the Licensee prior to the commencement of the Term of this License Agreement, and at any time thereafter, in order to assure that the procedures are adequate to reveal the true, correct and entire business conducted by the Licensee. Licensee shall maintain each year's records, books of account and data for a minimum of six (6) years from the date of creation of the record.

(c) The failure or refusal of the Licensee to furnish any of the statements required to be furnished under this Section within thirty (30) days after notice, the failure or refusal of the Licensee to maintain adequate internal controls within thirty (30) days after notice (or such longer period as may be reasonably determined by Parks to be necessary to implement such internal controls provided that Licensee commences actions to implement such controls within thirty (30) days after notice), or to keep any of the records as required by this Section or the existence, more than two (2) times in any five (5) Year period, of any unexplained discrepancy in the amount of fees required to be paid hereunder, as disclosed by audit conducted by Parks or the Comptroller, of more than five percent (5%) in any two out of three consecutive months or more than ten percent (10%) in one month (except in the case of lost or missing months), shall be presumed to be a failure to substantially comply with the terms and conditions of this License Agreement and a default hereunder, which shall entitle Parks, at its option, to terminate this License Agreement in accordance with and subject to the terms of **Section 3.3**. The failure or refusal of Licensee to furnish the required statements, to keep the required records or to maintain adequate internal controls shall authorize Parks or the Comptroller to make reasonable projections of the amount of Gross Receipts which would have been disclosed had the required statements been furnished or the required records maintained, based upon such extrinsic factors as the auditors reasonably deem appropriate in making such projections. With respect to audits or other reviews conducted by Parks pertaining to the calculation of percentage of gross receipts payments during a period with missing or lost records, Parks shall have the right to use the highest grossing month over the past five years (multiplied by the applicable CPI) to replace any missing monthly records, provided that the prior year's month is the same month for which records are missing. For example, if April 2007's gross receipts are missing and the highest April gross receipts occurred in April 2004, then April 2007's "revised" gross receipts shall be calculated using April 2004's figures multiplied by the applicable CPI increases during that period.

Licensee shall pay any assessment based upon such reasonable projections, net of any previous payments made by Licensee, within fifteen (15) days after receipt thereof, and the failure to do so shall constitute an additional substantial violation of this License Agreement and a default hereunder.

4.8 In the event Parks determines that Licensee or Licensee's employees, agents, sublicensees, or subcontractors have breached any of the provisions contained in **Sections 4.5** through **Section 4.7** hereinabove Licensee may be subject to a charge of \$500.00 with respect to each incident of breach

as liquidated damages, provided that Licensee has been given reasonable notice of such breach and has willfully failed to cure within thirty (30) days of such notice.

4.9 License Fees and other amounts payable hereunder shall be made payable (notwithstanding anything to the contrary herein in this Agreement) to the City of New York Department of Parks & Recreation and delivered or mailed in time to arrive by the due date at the following address:

City of New York Department of Parks & Recreation, Revenue Division
The Arsenal - Room 407
830 Fifth Avenue
New York, NY 10065
Attn: Director of Concessions

4.10 Licensee shall be entitled to License Fee Credits as set forth in this License Agreement and the Development Agreement. In the event that Licensee shall be entitled to any License Fee Credits, Licensee shall be entitled to interest on the amount of such License Fee Credits at the Interest Rate, compounded monthly, from the date that Licensee first becomes entitled to such License Fee Credit until the date that Licensee is first able to apply such License Fee Credit against License Fees or other amounts payable under this License Agreement, provided, however, to the extent Licensee is required to provide documentation of costs to Parks, interest shall not accrue until thirty (30) days after Parks' receipt of documentation satisfactory to Parks. To the extent that at any time the License Fee Credit that Licensee is entitled to exceeds the License Fees payable hereunder during the next sixty (60) days, amounts in the Capital Reserve Fund shall be paid to Licensee, up to the amount of the License Fee Credit, and all License Fees and other amounts thereafter payable under this License Agreement shall be applied to replenish the Capital Reserve Fund, up to the amount of Capital Reserve Funds paid to Licensee on account of the License Fee Credit. Upon expiration or termination of this Agreement for any reason, the City shall pay all outstanding License Fee Credits, and all accrued interest thereon, if any, to Licensee within sixty (60) days after such termination or expiration.

5. RIGHT TO AUDIT

5.1 Parks, the Comptroller and other duly authorized representatives of the City shall have the right, upon reasonable notice and during business hours, to examine, audit or photocopy the records, books of account and data of the Licensee for the purpose of examination, audit, review or any purpose they reasonably deem necessary. Licensee shall also permit upon reasonable notice, and at reasonable times, the inspection by Parks, Comptroller or other duly authorized representatives of the City of any equipment used by Licensee, including, but not limited to, point of sale equipment, and all reports or data generated from or by the equipment. Licensee shall cooperate fully and assist Parks, the Comptroller or any other duly authorized representative of the City in any examination or audit thereof. In the event that the Licensee's books and records, including supporting documentation, are situated at a location 50 miles or more from the City, the records must be brought to the City for examination and audit or Licensee must pay the food, board and travel costs incidental to two auditors representing the City, conducting such examination or audit at said location.

5.2 The failure or refusal of the Licensee, after Parks has given reasonable notice, to permit, during reasonable business hours, Parks, the Comptroller or any other duly authorized representative of the City to audit and examine the Licensee's records, books of account and data, or the interference in any way by the Licensee in such an audit or examination is presumed to be a failure to

substantially comply with the terms and conditions of this License Agreement and a default hereunder which shall entitle Parks to terminate this License Agreement subject to and in accordance with the provisions of Section 3.3 of this License Agreement.

5.3 Notwithstanding anything in this License Agreement, the Parties acknowledge and agree that the powers, duties and obligations of the Comptroller pursuant to the provisions of the New York City Charter shall not be diminished, compromised or abridged in any way.

6. GUARANTY; ORDER OF APPLICATION OF PAYMENT; CREDITOR-DEBTOR PROCEEDINGS

6.1 Simultaneous with the execution of this Agreement, Licensee shall have secured and delivered to the City a Guaranty executed by Guarantor which shall have been authorized, executed and delivered by the Guarantor.

6.2 In the event any bankruptcy, insolvency, reorganization or other creditor-debtor proceedings shall be instituted by or against the Licensee or its successors or assigns, or the Guarantor, if any, subject to the requirements and limitations set forth under the United States Bankruptcy Code, as well as New York State's debtor-creditor laws, the Security Deposit shall be deemed to be applied first to the payment of License Fees and/or other charges due the City for all periods prior to the institution of such proceedings and the balance, if any, of the Security Deposit may be retained by the City in partial liquidation of the City's damages hereunder.

6.3 Without limiting Licensee's other rights or remedies under this Agreement, if for any reason through no fault of Licensee, construction of the Required Capital Improvements or Additional Capital Improvements other than the Clubhouse or operation of the Licensed Premises is no longer reasonably economically feasible for Licensee and/or it is not reasonably possible for Licensee to operate the Licensed Premises as a first class, tournament quality daily fee golf course for a profit, and Licensee has completed the Grow-In and construction of the Clubhouse, Licensee shall provide Parks with written documentation of same, and thereafter Licensee and Parks shall meet as soon as possible after notice from Licensee to Parks requesting a meeting (and in any event no later than within five (5) business days after such notice from Licensee to Parks) and cooperate in good faith to agree to an equitable solution. While the Parties shall use good faith efforts to agree to an equitable solution as quickly as possible, Parks shall provide its proposed solution no later than fifteen (15) business days from the Parties' meeting in accordance with the preceding sentence. Without limiting the scope of potential equitable solutions, the Parties recognize that an equitable solution may, depending on the circumstances and subject to compliance with applicable Legal Requirements, include, among other things, modifying the Guaranty to limit Guarantor's obligations thereunder, providing reimbursements to Licensee, providing License Fee Credits, reducing the Minimum Annual Fee, and allowing Licensee to operate and/or maintain the Licensed Premises to a standard lower than that required under the License Agreement; provided that an equitable solution shall not include lowering the standard of operation or maintenance below that of a "first class" golf course facility unless Parks and Licensee mutually agree to such reduction in each such parties sole discretion. Nothing in this Section shall in and of itself create a cause of action for Licensee, provided, however, that in the event Parks does not use good faith efforts to agree to an equitable solution, as set forth above, Licensee shall have the right to seek all appropriate legal and equitable remedies arising from such failure to cooperate. In the event that the Parties, acting in good faith, are unable to reach an equitable solution, Parks agrees that it will, at Licensee's sole option, use good faith efforts to resolicit for the Concession (or substantial portion thereof) or for another use by the

general public of the Licensed Premises (or substantial portion thereof) provided however that Licensee shall continue to perform the Concession obligations during the Term that are applicable to Licensee as set forth in this Agreement and the Development Agreement until such time as a new operator of the Licensed Premises (or substantial portion thereof) is selected by Parks. Upon selection of a new operator, this License Agreement and the Development Agreement shall immediately terminate and Licensee shall be released from all obligations hereunder other than (x) for License Fees and any other fees then due and payable under this License Agreement by Licensee prior to the date of termination (but, for the sake of clarity, not subsequent to the date of termination) and (y) any damages attributable to any Claims that accrued prior to the Termination Date for personal injury, death, property damage or Claims described in **Sections 5(a) and 6(b) of Exhibit H** for which Licensee is obligated to indemnify (which damages, in each case, shall not include any lost sales or profit or any indirect, consequential, special, exemplary or incidental damages); provided that for the sake of clarity, the foregoing in this paragraph is not intended to abrogate Licensee's obligations under this Agreement to indemnify, defend, protect and hold harmless the Indemnitees in accordance with the terms of this Agreement, as applicable, to the extent that such obligations relate to third-party claims.

7. UTILITIES

7.1 Except as otherwise provided for herein, including without limitation in **Section 7.3** relating to the payment of water and sewer charges, and **Section 7.6**, beginning on the Concession Commencement Date, Licensee shall directly pay for all utility costs associated with the operation and maintenance of the Golf Course Facilities (and the Park Snack Bar after it is delivered to Licensee pursuant to and in accordance with the Development Agreement) and the construction, operation and maintenance of the Clubhouse at the Licensed Premises. For the avoidance of doubt, except for the Licensee's responsibility for the cost of temporary utility connections and use of Temporary Utilities during the Interim Period as set forth in **Section 9.1** of the Development Agreement, Licensee shall not be responsible for Utilities prior to the Concession Commencement Date, and subject to the terms set forth in **Section 9.1** of the Development Agreement, Parks shall directly pay for all Utilities prior to the Concession Commencement Date. "Utilities", as described in this License Agreement, shall include, but shall not be limited to, electricity, natural gas, telephone, water and sanitary and storm sewer.

7.2 Licensee shall have the right to provide separate metering for its sublicensees, and upon notice to the City of such separate metering, City shall accept separate payments for utilities from such sublicensees, provided that it is expressly understood that such payment arrangement is made solely as an accommodation to Licensee and in no way relieves Licensee of its obligation to ensure full payment of such costs in accordance with this License Agreement.

7.3 Except for water and sewage costs associated with the construction and operation of any banquet or catering facility that may be constructed by Licensee at the Licensed Premises, in Licensee's sole discretion (which costs shall be the sole responsibility of Licensee), Parks shall be responsible for payment of all water and sewage costs incurred at the Licensed Premises during the Term.

7.4 (a) Except for and without limiting Parks' and the City's obligations for maintenance, repair and replacement of utility systems, connections, and equipment or any other materials or items under the Development Agreement, if any, and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement), Licensee, at its sole cost and expense, shall maintain, repair and replace as needed (i) all utility systems, connections and equipment or any other materials or items

located at or above the surface of the Licensed Premises, and (ii) based upon and subject to the City's compliance with the covenants of this **Section 7.4** and the representations of the City set forth in this **Section 7.4** being true, accurate and correct, (x) the irrigation and related systems and any other golf related utility system, connection or equipment or any other golf related materials or items located below the surface of the Licensed Premises and above the layer of municipal solid waste, so long as such maintenance, repairs and replacement can be performed using ordinary means and methods without having to disturb or excavate the layer of municipal solid waste (provided however that Licensee shall perform such maintenance, repairs and replacement even when such work requires the disturbance or excavation of the layer of municipal solid waste (and in such cases Licensee shall additionally dispose of the municipal solid waste, as applicable, in compliance with applicable Legal Requirements, the DEC Part 360 Permit (as applicable), the DEC Deed (as applicable) and all applicable Environmental Laws) to the extent it becomes necessary to disturb or excavate the layer of municipal solid waste due to the negligence or willful misconduct of the Licensee in performing its obligations under this Agreement or the Development Agreement), and (y) the electric conduits, wires, connections and equipment associated with the irrigation and related systems and any other golf related utility system, connection or equipment, which may be within or partially within the municipal solid waste, so long as such maintenance, repairs and replacement can, in each case, be performed using ordinary means and methods without having to disturb or excavate the layer of municipal solid waste (provided however that Licensee shall perform such maintenance, repairs and replacement even when such work requires the disturbance or excavation of the layer of municipal solid waste (and in such cases Licensee shall additionally dispose of the municipal solid waste, as applicable, in compliance with applicable Legal Requirements, the DEC Part 360 Permit (as applicable), the DEC Deed (as applicable) and all applicable Environmental Laws) to the extent it becomes necessary to disturb or excavate the layer of municipal solid waste due to the negligence or willful misconduct of the Licensee in performing its obligations under this Agreement or the Development Agreement).

(b) The City represents and warrants to Licensee that (i) all irrigation and related systems and all utility systems (other than electric conduits and wires) are located above the level of the municipal solid waste, except that certain connections and equipment associated with the utility systems may be partially within the municipal solid waste, but are in all cases located within and accessible by vaults so that maintenance of such connections and equipment will not require any disturbance or excavation of municipal solid waste; (ii) all electric conduits and wires are accessible by manholes and maintenance of such electric conduits and wires will not require any disturbance or excavation of municipal solid waste; and (iii) orange snow fencing has been installed over the layer of municipal solid waste in all areas of the Licensed Premises where the fill over the layer of municipal solid waste is less than five feet.

(c) Prior to the Concession Commencement Date, the City shall provide to Licensee "as built" plans certified by the Engineer (as defined in the Development Agreement) which the City agrees shall show the underground location of the irrigation and related systems, connections and equipment and all other utility systems, connections and equipment and the level of fill over the layer of municipal solid waste throughout the Licensed Premises. Licensee's maintenance, repair and replacement obligations required pursuant to **Section 7.4(a)** above for any items below the surface of the Licensed Premises shall not commence until the City has delivered and Licensee has received the "as built" plans pursuant to this **Section 7.4** and such maintenance, repair and replacement obligations shall remain with the City until such time, provided, however, prior to receipt of the "as built" plans, Licensee shall have the right but shall not have the obligation to perform such maintenance, repairs and replacements in Licensee's sole discretion.

(d) Licensee shall not be deemed negligent for purposes of this Agreement or the Development Agreement if (x) Licensee causes or exacerbates an Environmental Condition and/or the effects of Environmental Conditions or (y) disturbs the municipal solid waste, in each case of the foregoing clauses (x) or (y) based upon its reliance upon the City's representations contained in, or the "as built" plans delivered by the City, pursuant to this **Section 7.4**, and in each case of the foregoing clauses (x) and (y), the City shall be responsible for such Environmental Condition and/or the effects of Environmental Conditions and for the municipal solid waste which has been disturbed or excavated and, in each case, any liability with respect thereto. Notwithstanding anything to the contrary contained in this Agreement and without limiting the City's obligations under this Agreement, the City shall be responsible for maintaining, repairing and replacing any irrigation or related systems, connections or equipment or any other utility systems, connections or equipment or any other materials or items (i) that cannot be maintained, repaired or replaced by Licensee based on the "as built" plans delivered by the City pursuant to this **Section 7.4** without going into the municipal solid waste, unless Licensee otherwise has the obligation to so maintain, repair or replace under this Agreement regardless of the presence of such systems, connections or equipment in the municipal solid waste; or (ii) which Licensee is unable to locate based on the "as built" plans delivered by the City pursuant to this **Section 7.4** despite Licensee's reasonable efforts, unless the City locates it for Licensee in which case Licensee will have all of the obligations applicable to Licensee as set forth in this License Agreement.

(e) If in connection with Licensee's construction of the Clubhouse, (i) Licensee disturbs or excavates the layer of municipal solid waste or (ii) Licensee relocates any portions of any utility system, connection or equipment to an area that requires work within the layer of municipal solid waste, then Licensee shall perform such activities in compliance with all applicable Legal Requirements, which includes the disposal of municipal solid waste, as applicable, in compliance with applicable Legal Requirements, the DEC Part 360 Permit (as applicable), the DEC Deed (as applicable), and all applicable Environmental Laws.

(f) In no event shall Licensee be responsible for any maintenance, repairs or replacements of any utility systems, connections or equipment or any other materials or items located below the surface of the Licensed Premises that are operated and/or controlled by any governmental agency or authority other than Parks, including the Emerson Avenue concrete sewer operated by the DEP (as hereinafter defined).

7.5 Licensee shall comply with all Department of Environmental Protection ("DEP") directives and restrictions concerning droughts or water conservation. In the event that by reason of such drought or water conservation directives or restrictions, Licensee shall incur any costs and expenses in excess of thirty one thousand two hundred fifty dollars (\$31,250.00) to prevent material damage to the Golf Course or to protect the tees and greens, Licensee shall be entitled to use amounts in the Capital Reserve Fund to pay such costs and expenses and all License Fees and other amounts thereafter payable under this License Agreement shall be applied to replenish the Capital Reserve Fund, up to the amount of Capital Reserve Funds paid to Licensee on account of such costs and expenses. If amounts in the Capital Reserve Fund are insufficient to reimburse Licensee for such costs and expenses, Licensee shall be entitled to a License Fee Credit in an amount equal to such costs and expenses, with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof. In the event that any portion of the Golf Course is unplayable as a result of the drought or the inability to irrigate the Golf Course because of any drought or water conservation restrictions or if play during such drought would result in material damage to the Golf Course, then, subject to compliance with applicable laws, the Concession Period shall be extended on an equitable basis to allow Licensee to

recoup the reasonable value of any such interruption of Licensee's business operations as contemplated herein and realize the full value of its twenty (20) year Concession Period. Licensee may propose and submit for the Commissioner's approval a plan to equitably address the impact of the closure in accordance with the foregoing.

7.6 Parks agrees to use good faith efforts to obtain electricity for the Licensed Premises from NYS Power Authority ("PASNY") and to bill Licensee for the electricity costs at the rates payable by Parks to PASNY.

8. INFLAMMABLES

8.1 Except for gasoline or diesel fuel properly stored in accordance with permits issued by the FDNY (as hereinafter defined) or de minimus amounts of painting and cleaning substances and other substances which are required for the daily operation of the Licensed Premises, Licensee shall not use or permit the storage of any illuminating oils, oil lamps, turpentine, benzene, naphtha, or similar substances or explosives of any kind or any substances or items prohibited in the standard policies of insurance companies in the State of New York.

9. OPERATIONS

9.1 (a) During the Concession Period, Licensee, in accordance with this License Agreement, shall operate the Concession for the use and enjoyment of the general public during such seasons and times of day and in such manner as set forth herein and as permitted by the laws, rules, regulations and orders of government agencies having jurisdiction. Licensee shall be permitted, in its sole discretion and without the approval of Parks and/or the City, to close the Licensed Premises, or any part thereof, (i) at any date or time, between December 1st and March 1st of each Year; (ii) at any date or time in connection with adverse weather conditions (i.e., if the temperature is under forty (40) degrees or the weather may cause damage to the Golf Course in Licensee's reasonable discretion), (iii) at any date or time in connection with required course maintenance, (iv) in the event of Force Majeure that affects the Licensed Premises. In the event of an emergency, Licensee may close the Licensed Premises, or any part thereof, without prior notice to or approval of Parks and/or the City, but shall give Parks reasonably prompt notice of such closing. Nothing in this **Section 9.1(a)** shall limit the Licensee's other obligations under the License Agreement, including maintenance obligations and the obligation to pay the License Fees.

(b) Licensee shall provide the necessary number of personnel having the requisite skills together with the necessary equipment and consumable supplies and shall perform or cause to be performed the following services at the Licensed Premises:

(i) Operate and maintain the Golf Course Facilities (and the Park Snack Bar after it is delivered to Licensee pursuant to and in accordance with the Development Agreement);

(ii) Design, construct, operate and maintain the Clubhouse;

Perform such ongoing and preventive maintenance activities reasonably necessary to maintain the Licensed Premises in good order and repair (and consistent with a first class, tournament quality daily fee golf course and to a quality level consistent with the reasonable standards of a Jack Nicklaus Signature golf courses), and in conformance with any and all Environmental Laws as they relate to general

maintenance and care of the Licensed Premises (except for and without limiting the City's and Parks' obligations under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement)) and, as applicable, in conformance with the Maintenance Guidelines (as hereinafter defined) and the Grow-In Standards (as defined in the Development Agreement).

9.2 Subject to Licensee's rights to close the Licensed Premises, or any part thereof, in accordance with Section 9.1(a), Licensee shall provide an adequate number of staff members possessing the appropriate qualifications to conduct all its operations at the Licensed Premises seven (7) days a week for such hours as the Commissioner shall reasonably approve. Licensee's employees at the Licensed Premises shall be qualified for their respective functions and shall be made to wear appropriate uniforms, subject to approval of the Commissioner.

9.3 (a) (i) Licensee shall be entitled, in each case without prior notice to or the approval of either Parks and/or the City, to conduct tournaments, outings, league play and junior or youth programs at the Licensed Premises; provided that (A) with respect to tournaments and outings only (i.e. not league play and junior or youth programs), not more than twenty percent (20%) of the amount of available starting times on Mondays thru Fridays in any Operating Year may be used for such tournaments and/or outings without Parks prior written approval, (B) Licensee shall obtain Parks' prior written approval, which approval shall not be unreasonably withheld, conditioned or delayed: (i) for complete day closures of the Golf Course to the public on any day for tournaments, outings, league play and junior or youth programs and (ii) for the closure of the Golf Course to the public at any time on Saturdays or Sundays for tournaments, outings, league play and junior or youth programs. Notwithstanding the foregoing, no prior notice to or the approval of either Parks and/or the City shall be required for professional or amateur tournaments or tournaments sponsored by the City or Parks.

(ii) During (x) hours and days that the Golf Course is not ordinarily open to the public, or (y) hours and days that the Golf Course is open to the public, so long as some food service facility is available to the public, Licensee shall be entitled to conduct special events in any banquet or other catering facility ("**Licensee Special Events**"), in each case without prior notice to or the approval of either Parks and/or the City, except that (A) Licensee shall provide notice to Parks of all events of five hundred (500) guests or more; and (B) if there are more than five (5) Licensee Special Events of five hundred (500) guests or more in any month, Licensee shall obtain the approval of Parks for any such Licensee Special Events in excess of five (5) occurring in such month.

(iii) In the event that Parks' approval is required in connection with this Section 9.3(a), Parks shall respond to any approval request from Licensee within five (5) business days of receipt of such request or such request shall be deemed approved.

(b) Subject to Licensee's rights to conduct certain events without notice to or approval of the City and/or Parks under Section 9.3(a), Licensee shall notify the Commissioner within five (5) business days after Licensee tentatively schedules any Licensee Special Event at the Licensed Premises (e.g., private parties) that would completely close the Golf Course or all of the food service facilities to the general public during hours that the Licensed Premises would ordinarily be open to the public. Except as permitted in this License Agreement, including, without limitation, Section 9.3(a), in no event shall Licensee completely close the Golf Course or all of the food service facilities to conduct Licensee Special Events during public hours of use except when such activities are specifically approved by Parks. Parks shall respond to any approval request from Licensee within

five (5) days of receipt of such request or such request shall be deemed approved. Except as provided in **Section 9.1(a)**, any complete closure of the Golf Course or all of the food service facilities which Licensee seeks to schedule during public hours of use must be announced to the public, by posting notification of such closure, at the Licensed Premises at least one (1) week in advance. In addition, Parks may make use of the Licensed Premises, as provided in **Section 16** herein. Notwithstanding the foregoing, Licensee may close any banquet or other catering facility at the Licensed Premises to conduct a Licensee Special Event during public hours of use without notification to the Commissioner, Parks' or the City's approval or announcement to the public.

(c) Any and all banquet or catering use of the food service facility must be booked for events primarily related to dining and/or sporting activities. Events for which dining is merely incidental to the primary activities during the event is prohibited. For example, and without limiting permissible events, the events listed on **Exhibit J** are permitted but a training seminar for business people featuring only a light lunch and other food service is prohibited.

9.4 (a) The City shall deliver to Licensee all Certificates of Occupancy that may be required for the Golf Course, the Maintenance Building (as defined in **Schedule 2** of the Development Agreement) and the Golf Course Snack Bar and all other portions of the Golf Course Facilities constructed by the City or Parks prior to and as a condition of the Concession Commencement Date and all Certificates of Occupancy that may be required for the Park Snack Bar promptly upon completion thereof. Except as set forth in the prior sentence, Licensee shall, at its sole cost and expense, obtain all licenses and permits, including any necessary Certificate(s) of Occupancy, that may be required to operate the Clubhouse and any other structures (temporary or otherwise) constructed by Licensee at the Licensed Premises in accordance with applicable law.

(b) Without otherwise limiting the City's or Parks' obligations under this License Agreement and the Development Agreement and subject to **Section 9.41**, Licensee shall operate and occupy the Licensed Premises in accordance with all applicable laws and, as applicable, the provisions of the DEC Part 360 Permit (including any declaration of covenants and restrictions recorded against the Licensed Premises pursuant to the DEC Part 360 Permit, as applicable (such declaration, the "DEC Deed")), any informal approval from DEC as described in **Section 1.2(d)**, the New Permit, and any other licenses or permits required by Legal Requirements.

(c) In the event that, at the completion of the Clubhouse, the Licensee does not have a Certificate of Occupancy for the Clubhouse because one is not legally required, then Licensee shall obtain a "Letter of No Objection" from the Department of Buildings. Furthermore, in the event that, at the completion of the Clubhouse, or at any time thereafter during the Concession Period, the Licensee does not have a Certificate of Occupancy for the Clubhouse, where required, and does not have a "Letter of No Objection", Licensee may conduct its operations in temporary structures that have been approved by Parks in its reasonable discretion. Licensee shall obtain any necessary licenses and permits for such temporary structures before the commencement of operations in such structures. However, if in such situation, the Licensee nonetheless chooses not to conduct operations of the Clubhouse in temporary structures, then such operations shall not take place unless and until Licensee has obtained the necessary Certificate(s) of Occupancy, if required, or "Letter(s) of No Objection". In the event that, at the Concession Commencement Date with respect to the Golf Course Facilities or the completion date with respect to the Clubhouse, or at any time thereafter during the Concession Period, the Department of Buildings rescinds any Letter of No Objection through no fault of Licensee, Parks and Licensee shall attempt in good faith to negotiate a mutually

acceptable solution. Nothing in this **Section 9.4** shall limit the Licensee's other obligations under the License Agreement, including maintenance obligations and the obligation to pay the License Fees.

(d) The City represents and warrants that (i) attached as **Schedule 9** to the Development Agreement is an accurate and complete copy of the DEC Part 360 Permit and that as of the date of this Agreement, the DEC Part 360 Permit has not been modified or amended in any way, (ii) it has submitted a timely application to renew and modify the current DEC Part 360 Permit, which expired on November 30, 2008, (iii) the application is being reviewed by the DEC, and (iv) notwithstanding the expiration of the existing DEC Part 360 Permit, since Parks has submitted an application to renew and modify the existing DEC Part 360 Permit, the existing DEC Part 360 Permit remains in full force and effect. The City agrees to provide to Licensee drafts of the renewed, modified or amended DEC Part 360 Permit and any DEC Deed prior to finalizing each such document with the DEC and with sufficient time to allow Licensee to review each such document. Licensee shall have the right (but not the obligation) to propose revisions to be included in the final renewed, modified or amended DEC Part 360 Permit and/or any DEC Deed, and the City shall reasonably consider such proposed revisions and, in the City's reasonable discretion, propose such revisions to the DEC and/or include such proposed revisions in the renewed, modified or amended DEC Part 360 Permit and/or any DEC Deed, subject to the approval of the DEC. In addition, subject to **Sections 1.2(c)(iii), 1.2(c)(iv), 1.2(c)(v) and 1.2(d)**, the City and Parks represent that the execution and delivery of this Agreement and the Development Agreement by the City and Parks, and compliance with the provisions thereof, do not and will not conflict with or constitute a violation of or default under any provision of applicable law, charter, ordinance or regulation or, to the extent of the City's and Parks' knowledge, of any material agreement, judgment, injunction, order, decree or other instrument binding upon the City or Parks or result in the creation or imposition of any lien or encumbrance on any asset of the City or Parks. The City acknowledges that Licensee is relying upon the truth, accuracy and correctness of the City's representations contained in this **Section 9.4(d)**. If at any time any of the City's representations contained in this **Section 9.4(d)** are found to be materially untrue, inaccurate or incorrect, such occurrence shall be deemed a material breach or failure to substantially comply with this Agreement and Licensee shall be entitled to its rights and remedies pursuant to **Section 3.12** of this Agreement.

(e) Notwithstanding anything to the contrary in this Agreement, in the event that any agreements, permits, licenses, judgments, injunctions, charters, orders, decrees or other instruments binding upon the City, Parks, or the Licensed Premises (or any part thereof) in effect as of the date of this Agreement have not been disclosed to Licensee by the City, adversely affects Licensee's Grow-In or operation of the Licensed Premises or Licensee's construction of the Required Capital Improvements (including adverse economic effects), Licensee shall provide Parks with written documentation of the same, and thereafter Licensee and Parks shall meet as soon as possible after notice from Licensee to Parks requesting a meeting (and in any event no later than within five (5) business days after such notice from Licensee to Parks) and cooperate in good faith to agree to an equitable solution to minimize such adverse effect, it being acknowledged and agreed by the Parties that Licensee is not assuming the risk with respect to such undisclosed items. While the Parties shall use good faith efforts to agree to an equitable solution as quickly as possible, Parks shall provide its proposed solution no later than fifteen (15) business days from the Parties' meeting in accordance with the preceding sentence. Without limiting the scope of potential equitable solutions, the Parties recognize that an equitable solution may, depending on the circumstances and subject to compliance with applicable Legal Requirements, include, among other things, providing License Fee Credits, reducing the Minimum Annual Fee, and allowing Licensee to operate and/or maintain the Licensed Premises to a standard lower than that required under the License Agreement; provided that an equitable solution shall not include lowering the standard of operation or maintenance below that of a

“first class” golf course facility unless Parks and Licensee mutually agree to such reduction in each such Party’s sole discretion. If Licensee acts in good faith to reach an equitable solution and the Parties are unable to reach an equitable solution, Licensee shall have the right to seek all appropriate legal and equitable remedies.

9.5 Licensee shall, at its sole cost and expense, print, frame, and prominently display in a place and manner designated by Commissioner, the current approved schedule of operating days, hours, fees and rates. Annexed hereto and made a part hereof as **Exhibit D** are the Schedules of Operating Hours and Fees for the first Operating Year in which the Licensed Premises is open to the general public. Notwithstanding anything to the contrary contained herein, should Licensee choose not to charge the maximum allowable prices, this shall in no way be interpreted as a waiver of Licensee’s right to charge such maximum allowable prices at any other time. Any discounts on Greens Fees for a particular category, as set forth on **Exhibit D**, shall apply uniformly to all persons seeking to play in such category. Licensee is permitted to increase Greens Fees annually as set forth on **Exhibit D**. Any other changes in such approved Schedules of Operating Hours and Fees at any time during the Concession Period must be previously approved in writing by the Commissioner. In addition, Licensee shall give the Commissioner prior written notice and obtain approval of any plans to alter approved operating hours due solely to unprofitable operations. If the request is granted by the Commissioner, the Licensee will continue to be responsible for all other obligations under the License Agreement, including maintenance obligations and the payment of all License Fees.

9.6 Licensee acknowledges that pursuant to **Section 4(A)** of the Nicklaus Subcontract, Nicklaus Design has the right, at Nicklaus Design’s cost, to have the Golf Course inspected by Nicklaus Design’s staff agronomist or an independent agronomist selected by Nicklaus Design at any time and from time to time during the Term in order to review and assist in resolving agronomic issues which, in the reasonable opinion of Nicklaus Design, may adversely affect the proper grow-in of turf surfaces or otherwise impact the ability to maintain the quality of the Golf Course as required under the Nicklaus Subcontract. In order to effectuate this provision, Licensee agrees that it shall provide access to the Licensed Premises upon reasonable notice during normal business hours to such staff agronomist and/or independent agronomist. City shall use good faith efforts to cause such staff agronomist and/or independent agronomist to conduct its activities so as to avoid interference with Licensee’s operations at the Licensed Premises.

9.7 Licensee warrants that all services provided, merchandise sold and vending operations provided pursuant to this License Agreement shall be of high grade and good quality. Licensee shall operate the Golf Course Snack Bar (and the Park Snack Bar after it is delivered to Licensee in accordance with the Development Agreement) and any other food service facility at the Licensed Premises in such a manner as to maintain a passing health inspection rating of the NYC Department of Health and Mental Hygiene (“DOHMH”). Licensee shall maintain an adequate inventory to assure a constant supply of food, beverages, and merchandise. The food service facility and any staff assigned by Licensee to sell food must possess all required federal, state, and City authorizations and possess, and at all times display, all appropriate DOHMH permits. The price of all food and beverage items is subject to Parks’ prior written approval.

9.8 Licensee shall not use or permit the use of any polystyrene foam products in connection with services or merchandise offered under this License Agreement.

9.9 Licensee shall employ an operations manager(s) (“**Manager(s)**”) possessing appropriate experience to manage operations at the Licensed Premises in accordance with this License

Agreement. The Manager must be available by telephone during all hours of operation, and Licensee shall notify the Commissioner and the Parks Enforcement Patrol Communications Division of a 24-hour pager or cellular telephone number through which Parks may contact the Manager in event of an emergency. Licensee shall replace any Manager, employee, subcontractor or sub-licensee whenever reasonably demanded by Commissioner for cause only. Any such demand shall be in writing and shall state the reason for such termination.

9.10 Licensee shall provide security equipment for all monies received. Licensee shall provide for the transfer of all monies collected to Licensee's banking institution. Licensee shall bear the loss of any lost, stolen, misappropriated or counterfeit monies derived from operations under this License Agreement.

9.11 Except as may be set forth in the Development Agreement or this License Agreement (including, without limitation, Section 12.19 and Section 9.39 of this License Agreement) Licensee shall, at its sole cost and expense provide, hire, train, supervise, and be responsible for the acts of all personnel necessary for the Licensee's operations contemplated in this License Agreement, including but not limited to:

- (a) collecting and safeguarding all monies generated under this License Agreement;
- (b) maintaining the Licensed Premises;
- (c) conducting and supervising all activities to be engaged in at the Licensed Premises including but not limited to the provision of qualified food service personnel and cashier(s); and
- (d) securing the Licensed Premises in accordance with the provisions of Section 9.15.

9.12 Except as provided in the Development Agreement as part of the City's Work, Licensee shall, at its sole cost and expense, provide any lighting, music, music programming and sound equipment which Licensee determines may be necessary for its operations under this License Agreement. Licensee shall operate and play such sound equipment and music in accordance with the Rules of the City of New York, Title 56 RCNY §1-05(d)(2), the Administrative Code of the City of New York, §24-201 et. seq., and only at a sound level and at times reasonably acceptable to the Commissioner. Licensee shall be responsible for payment of any and all fees or royalties to ASCAP, BMI or such other entity as they may require for such music or music programming in connection with its operation of the Licensed Premises.

9.13 Installation of additional fixed lighting or fixed sound equipment by the Licensee on the Licensed Premises shall require the prior written approval of the Commissioner. Said approval shall not be unreasonably withheld. This applies to all Concession components, including the lighted Driving Range.

9.14 (a) Without otherwise limiting Licensee's obligations under this License Agreement and the Development Agreement, Licensee shall provide a Clubhouse with facilities, in accordance with this License Agreement and the Development Agreement, which meet the ADA requirements and all City, State and Federal codes and regulations, including but not limited to, providing ADA compliant restrooms for men and women on each floor. Parks shall provide the two Snack Bars and related bathroom facilities in full compliance with ADA requirements, all City, State and Federal codes and regulations, and in accordance with the Development Agreement. Licensee shall comply with all

City, State and Federal laws relating to access for persons with disabilities to the Clubhouse, and to the Golf Course Facilities and the Park Snack Bar to be constructed by Parks upon delivery to Licensee in accordance with the Development Agreement, provided however that to the extent the Golf Course Facilities and the Park Snack Bar constructed by Parks do not comply with the ADA or any City, State and Federal codes and regulations, it shall not be Licensee's responsibility to remediate such deficiency or operate in compliance with the ADA or any City, State and Federal codes and regulations with respect to such deficiency to the extent that the Golf Course Facilities or the Park Snack Bar do not comply with the ADA or any City, State and Federal codes and regulations.

(b) In addition to the foregoing provisions set forth in **Section 9.14(a)** above, Licensee shall:

(i) provide safe and accessible recreational opportunities for everyone, including persons with disabilities;

(ii) post signs which clearly indicate accessibility at the Licensed Premises;

(iii) provide an ADA liaison (i) knowledgeable about the services/programs available at the Licensed Premises, and (ii) to assist patrons with disabilities who may require additional accommodation;

(iv) provide brochures formatted with dark/light contrast and large font for patrons with visual impairments;

(v) post ADA compliance information prominently on Licensee's Website (as hereinafter defined);

(vi) provide at least one accessible golf cart;

(vii) provide accessible customer service counters at the pro-shop, Clubhouse, Snack Bars and all other customer service counters at the Licensed Premises;

(viii) provide designated accessible seating in the grill room, Snack Bars and any banquet/catering facility;

(ix) provide accessible access to all public areas of the Clubhouse. Level changes shall be accommodated with accessible ramps, elevators or lifts;

(x) provide the required number of accessible parking, ensuring that the number, placement and specifications of all accessible spaces comply with ADA guidelines as well as with all City, State and Federal regulations, including striping and signage specifications;

(xi) provide accessible restrooms on all floors of the Clubhouse and requisite ADA signage; and

(xii) make reasonable accommodations and designing accessible work areas throughout the facility for employees.

Notwithstanding the foregoing in this **Section 9.14**, to the extent any of the construction related requirements referred to in this **Section 9.14** conflict with the ADA requirements and/or any City, State and/or Federal codes and regulations, then the provisions of the ADA requirements and/or such City, State and/or Federal codes and regulations shall govern and control.

9.15 The City shall construct and maintain until City's Final Completion of the City's Work (as such terms are defined in the Development Agreement) (other than the Park Snack Bar) a security fence around the entire perimeter of the Licensed Premises (other than the Park Snack Bar) and other than the West Parking Lot (as defined in the Development Agreement) in accordance with the Development Agreement, which fence shall be maintained by Licensee during the Concession Period. Upon the City's Final Completion of the City's Work (other than the Park Snack Bar, where the City's obligation for security at the Park Snack Bar shall continue until the City's Final Completion of the City's Work with respect to the Park Snack Bar), Licensee shall be responsible for security at the Licensed Premises at all times, including locking and securing the fence during off-hours of operation. In addition, in connection with its construction of the Clubhouse, Licensee shall, at its sole cost and expense, install in the Clubhouse an alarm system for the Clubhouse approved by Parks. Upon the City's Final Completion of the Park Snack Bar, Licensee shall be responsible for security at the Park Snack Bar at all times, including locking and securing the facility during off-hours of operation.

9.16 Licensee shall prepare and provide to Parks operational status reports and reports of major accidents or unusual incidents occurring at the Licensed Premises, on a regular basis and in a format reasonably acceptable to the Commissioner. Licensee shall promptly notify Parks, in writing, of any claim for injury, death, property damage or theft which is asserted against Licensee with respect to the Licensed Premises. Licensee shall also designate a person to handle all such claims, including all claims for loss or damage pertaining to the operations of the Licensed Premises, and Licensee shall notify Parks in writing as to said person's name and address.

9.17 Licensee shall promptly notify Parks' personnel of any unusual conditions that may develop in the course of the operation of this License Agreement such as, but not limited to, fire, flood, casualty and substantial damage of any character, but excluding the existence of methane gases or settlement, which Parks is responsible for monitoring under this License Agreement.

9.18 Intentionally Omitted.

9.19 Licensee shall cooperate with Parks in conducting free and discounted community outreach programs and in providing use of the Licensed Premises for programs conducted by or arranged for by Parks in accordance with **Section 16**.

9.20 Licensee shall maintain close liaison with Parks' Enforcement Patrol ("PEP"), the New York City Police Department ("NYPD") and other police officials, and shall reasonably cooperate with all efforts to remove illegal vendors from the Licensed Premises. Licensee shall use commercially reasonable efforts to prevent illegal activity on the Licensed Premises.

9.21 The Commissioner shall have the right to approve the days and times on which deliveries to Licensee may be made. The Commissioner shall not unreasonably deny such access and any rules

regarding deliveries shall not be inconsistent with the rights of Licensee to operate the Concession at the Licensed Premises.

9.22 (a) Subject to **Sections 1.8** and **9.22(b)** and **(c)**, Licensee may establish a reasonable advertising and promotion program and shall have the right to advertise and promote the Concession in a manner that is usual and customary in the golf course industry. The Commissioner shall have prior approval as to design, content and distribution of all advertising and promotional materials, which approval shall not be unreasonably withheld, conditioned or delayed. Licensee shall have the right to print or to arrange for the printing of promotional materials for events containing any advertising matter, except advertising matter which, in the Commissioner's reasonable discretion, is indecent, in obvious bad taste, demonstrates a lack of respect for public morals or conduct, or which adversely affects the reputation of the Licensed Premises, Parks or the City of New York. Licensee may release news items to the media as it sees fit. If the Commissioner in his reasonable discretion, however, finds any releases to be unacceptable because they are indecent, in obvious bad taste, demonstrate a lack of respect for public morals or conduct, or adversely affects the reputation of the Licensed Premises, Parks or the City of New York, then Licensee shall cease or alter such releases as reasonably directed by the Commissioner. Parks agrees to use its reasonable efforts to cooperate with Licensee in obtaining authorizations from other agencies having jurisdiction for posting signs designed to inform the public of the operations conducted at the Licensed Premises.

(b) Upon the approval of the Commissioner or his designee, Licensee shall have the right to erect signs related to its operations at the Licensed Premises. Such signs, including any commercial sponsorship information or signs identifying products available for sale at the Licensed Premises, which may contain appropriate sponsor recognition or identification or identification of those products available for sale at the Licensed Premises, are subject to the approval of Parks. However, no tobacco sponsorship or identification will be allowed. Except for signs identifying the Licensed Premises as Trump Golf Links at Ferry Point Park and those required for directional or instructional purposes, all signs must face inward towards the Golf Course and not out towards the other areas of Ferry Point Park. The Commissioner may require removal of such signs if the Commissioner, in his reasonable discretion, finds any such sign or material to be unacceptable because they are indecent, in obvious bad taste or demonstrate a lack of respect for public morals or conduct. Licensee shall not advertise any product brands without Parks' prior approval. Licensee is not permitted to place advertisements in the Licensed Premises or on the exterior of any building or structure on the Licensed Premises without Parks' prior written approval. Nothing contained herein shall be deemed to require Licensee to obtain approval from Parks for the display of items for sale at the Licensed Premises. The display or placement of tobacco advertising shall not be permitted. The advertising of alcoholic beverages shall not be permitted within 250 feet of any school, day care center, or house of worship. In the event advertising is allowed, the following standards will apply: Any type of advertising which is false or misleading, which promotes unlawful or illegal goods, services or activities, or which is otherwise unlawful, including but not limited to advertising that constitutes the public display of offensive sexual material in violation of Penal Law Section 245.11, shall also be prohibited. Any such prohibited material displayed or placed shall be immediately removed by the Licensee upon notice from Parks.

(c) A sample of each new proposed sign and/or advertisement that requires approval of Parks in accordance with the terms of this License Agreement shall be sent for Parks' approval to Parks' Revenue Division, 830 Fifth Avenue, Central Park, New York, NY 10065. Parks shall respond to any request for approval under this **Section 9.22** within five (5) business days of its

receipt of such request, and the failure of Parks to respond within such (5) business day period shall be deemed approval.

(d) Parks reserves the right to place advertising at the Licensed Premises, at any time during the Term of this License Agreement, at locations determined through consultation with the Licensee. Parks shall cooperate with Licensee in connection with Parks and City related advertising on the Licensed Premises, with respect to design, location, and quantity of such advertising within the Licensed Premises to ensure that such advertising does not materially interfere with Licensee operating in a first class standard.

(e) Licensee shall have the right to erect a flag pole and flag and place a clock on the Licensed Premises in each case in Licensee's reasonable discretion and subject to any applicable Legal Requirements.

9.23 (a) Licensee shall display at the Licensed Premises, in an appropriate manner, all permits and licenses required to operate the Licensed Premises.

(b) Licensee shall prominently display signage at the Licensed Premises listing all prices, rates and hours and days of operations. The placement, design and content of all such signage are subject to Parks' prior written approval.

(c) Subject to **Sections 1.8** and **9.22(b)** and (c), any sign posted by Licensee at the Licensed Premises, or any advertisement used in connection with such facility, shall be subject to the prior written approval of the Commissioner. One sign posted conspicuously at the entrance to the Licensed Premises shall state that the Licensed Premises is a New York City municipal concession operated by Licensee, and such a statement shall be included on other signs at the Licensed Premises if requested by Parks. In addition, Licensee may display signage for the purpose of advertising upcoming events at the Licensed Premises, the design, location, size and type of which shall be aesthetically appropriate and subject to the approval of Parks and, if required, the Public Design Commission of the City of New York (the "PDC").

9.24 Licensee shall, at its sole cost and expense, post throughout the Licensed Premises such signs as may be reasonably necessary to direct patrons to its services and facilities. It is expressly understood that if Licensee contemplates placing any signs off-site, such as on nearby highways or streets, it shall be Licensee's responsibility to obtain any necessary approvals or permits from any governmental agency having jurisdiction over such highways, streets or locations. Parks and the City understand that signs announcing the location of the Golf Course on all highways in the vicinity of the Licensed Premises and providing directions to the Golf Course from all the exits from such highways are critical to the success of the Concession and shall cooperate with Licensee in obtaining any necessary approvals or permits for such signs as reasonably requested by Licensee. The design and content of all such signs are subject to Commissioner's reasonable prior approval.

9.25 The sale or advertising, or, to the extent prohibited by law, smoking, of cigarettes or any other tobacco product, is strictly prohibited at the Licensed Premises. Licensee shall adhere to and enforce this policy which may include the placement of signage as may be necessary to comply with this provision.

9.26 The sale of beverages in glass bottles for consumption outside of the snack bar / food service facility seating area and the use of styrofoam are both strictly prohibited. All beverages for

consumption outside the snack bar / food service facility shall be in non-glass, shatter-proof containers.

9.27 Intentionally omitted.

9.28 Licensee, or a sublicensee approved by Parks to operate the parking facility, may charge for parking in the parking area at the Licensed Premises at such rates as may be approved in advance in writing by Parks. Annexed hereto as **Exhibit D** is the Schedule of Operating Hours and Fees for the commencement of operations hereunder.

9.29 (a) Licensee shall, at its sole cost and expense, provide the link to the “Licensee Website” (as herein defined) for the Licensed Premises to the City’s Website (as defined herein) and shall be the exclusive owner of the domain names as displayed in the URL addresses used in connection with the business conducted by and through an internet website created and maintained by Licensee during the Term and identified in **Exhibit P** attached hereto (the “Licensee Website”). The Licensee Website shall be accessible from the “City Website” identified in **Exhibit R** (the “City Website”) and the City shall provide access from the “City Website” to the Licensee Website through one of the hoplinks listed in **Exhibit Q** and attached hereto (the “Hoplinks”). For purposes of clarity, Licensee shall acquire no trademark rights in any City Marks contained in the domain names identified in **Exhibits P, Q or R**. Licensee shall operate and maintain, or participate in (in Licensee’s discretion) a computerized, online reservation system, accessible via the internet and telephone. At all times during the Term of this License Agreement, Licensee shall have the right, but not the obligation, to use its own golf reservation system. All reservations and tee times shall be made through the golf reservation system in use by Licensee. Without limiting Licensee’s rights under this **Section 9.29(a)**, Licensee shall participate in any centralized reservation system that the City may develop solely by reasonably cooperating with the City to provide a link, links or other means to access the golf reservation system in use by Licensee from the City’s Website and the City shall ensure that the Licensee’s golf reservation system is accessible through the centralized reservation system. The City and Parks agree that Licensee shall have the right to use Licensed City IP on any Licensee Website established by Licensee for the Licensed Premises in a manner preapproved in writing by Parks and pursuant to **Section 1.7** and **Exhibit H**, and Licensee agrees that the City and Parks shall have the right to use the Licensed Trump IP on the City Website and City social media pages or posts to indicate, refer to or promote the Licensed Premises in a manner preapproved in writing by Licensee and pursuant to **Section 1.7** and **Exhibit H**. Any Licensee Website or Hoplink reflected on **Exhibit Q** and/or **Exhibit P** that includes the word “club” shall be used exclusively as a reserved name to prevent confusingly similar domain name registrations by third parties, but shall in no event be used to publicly identify or refer to the Licensed Premises or to refer individuals to the Licensee Website or the City Website.

(b) The Licensee Website and the Hoplinks shall be acquired in the name of, and shall be owned by, Licensee, and may be used by Licensee during the Term. Except for the “Transfer Websites” (as hereinafter defined), the Licensee Website and Hoplinks shall not be used by either Party or any Affiliate thereof after the expiration or sooner termination of this License Agreement. The term “Transfer Websites” shall mean the domain names as displayed in the URL addresses identified in **Exhibit S** attached hereto. Licensee shall own and direct all copyrights in and to the content of the Licensee Website, to the extent that such content does not consist of any copyrightable material owned by the City or Parks. Upon the expiration or sooner termination of this License Agreement, Licensee shall discontinue use of any Licensee Website and disable any Hoplinks, unless the continued use of such domain name and URL shall be approved by the City or Parks in writing.

Within ten (10) business days from the expiration or sooner termination of this License Agreement, Licensee shall transfer ownership of the Transfer Websites to the City.

(c) Additional domain names to be registered by Licensee or Trump and used as links or redirects to the Licensee Website, other than those listed in **Exhibit P** and **Exhibit Q**, shall be mutually agreed upon by the Parties in writing and in advance of use or registration of any additional domain names.

9.30 Subject in all cases to **Article 16**, Parks, acting on behalf of the City, reserves the right to host a number of annual events at the Licensed Premises, including but not limited to benefits and other non-profit and public events.

9.31 (a) Except for and without limiting the City's and Park's obligations under the Development Agreement and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement), Licensee shall, in each Operating Year throughout the Concession Period, provide a safe environment for the public at the Licensed Premises, including but not limited to:

(i) Installing snow fencing around all bodies of water thereon no later than December 1, subject to weather conditions and removing all such snow fencing no earlier than March 20, subject to weather conditions;

(ii) Providing sufficient numbers of rescue ladders within appropriate proximity of any water bodies on the Licensed Premises;

(iii) Erecting and maintaining warning signs, as necessary, warning against ice conditions, prohibition of swimming at water bodies, and any other hazardous conditions; and

(iv) Complying with all national safety guidelines, Environmental Laws and Legal Requirements related to the renovation, operation, and maintenance of the Golf Course.

(b) Licensee agrees to employ reasonable preventative maintenance techniques to discourage errant golf balls outside of the Licensed Premises.

Failure to comply with this **Section 9.31** shall be deemed a material breach of this License Agreement.

9.32 (a) Licensee shall promote a junior development or youth program with scholarship and fee-based membership (including, but not be limited to the following components: teaching programs, special tournaments, exhibitions, clinics and league play), in each case, by providing use of the Golf Course for such programs. In connection with such programs, Licensee shall provide free course access for up to twenty-five (25) foursomes (for one (1) round each) for Parks-sponsored youth instruction and development programs; such access shall be after 3:00 p.m. on Mondays thru Thursdays during the months of July and August of each Operating Year.

(b) Licensee shall accommodate school athletic programs on a reasonable basis after 3:00 p.m. on Mondays thru Thursdays. In addition, Licensee shall develop and promote a Junior Golf Program for high school and college students. Parks encourages the Licensee to cooperate with school golf coaches and athletic directors to establish a schedule to accommodate school athletic programs.

(c) Licensee shall submit to Parks an annual report of such community and youth programs within thirty (30) days of the end of each Operating Year.

9.33 The greens fees listed in **Exhibit D** apply to residents of the five (5) boroughs of New York City and may be adjusted as provided in **Exhibit D**. Licensee may institute a surcharge for non-residents, which shall be subject to the prior written approval of Parks if such non-resident fees are more than the amounts permitted on **Exhibit D**. In addition, Licensee may issue New York City resident ID cards ("**Resident ID Cards**"), which Resident ID Cards may be used at City owned golf courses citywide, for a fee listed on **Exhibit D**, which fees are subject to change upon the reasonable prior written approval of the Commissioner, which approval shall be granted if such fees are consistent with other City golf courses.

9.34 Licensee recognizes that the City has developed Citywide Beverage Vending Machines Standards ("**Standards**"), which are attached to this License Agreement as **Exhibit E**. In the event that Licensee, or any properly authorized sublicensee, installs vending machines on the Licensed Premises, Licensee will be required to comply (and shall ensure that its sublicensee complies) with these Standards. Food standards for vending machines may be implemented by the City during the Term of this License Agreement. In addition, the City's beverage and / or food vending standards may be changed during the Term of this License Agreement. In the event that Licensee, or any properly authorized sublicensee, operates vending machines on the Licensed Premises, Licensee will be required to comply (and shall ensure that its sublicensee complies) with any new and/or changed food or beverage standards in the operation of vending machines at all vending machine locations in the Licensed Premises. If Licensee fails to comply with any new and/or changed food or beverage standards, as directed by Parks, Licensee shall remove any vending machines on the Licensed Premises.

9.35 Licensee may serve alcoholic beverages at Licensed Premises, provided that it obtains the appropriate license from the State Liquor Authority as well as any other required licenses or permits. Licensee shall use commercially reasonable efforts to ensure that alcoholic beverages served on the Licensed Premises are consumed in designated areas approved by Parks and are not removed from the Licensed Premises. Licensee shall use commercially reasonable efforts to keep alcohol consumption discrete.

9.36 Licensee's operations shall include the sale of golf merchandise, supplies and equipment from a well-stocked pro shop, the size and location of which are subject to Parks' prior written approval.

9.37 Licensee shall obtain the written approval of Parks prior to entering into any marketing or sponsorship agreement which grants rights to use the name of or association with the Golf Course in marketing its products, (such as, for example, an agreement allowing a golf ball manufacturer to advertise that its golf ball are used at the Golf Course), which approval shall not be unreasonably withheld, conditioned or delayed. Parks shall use its best efforts to respond to Licensee within five (5) business days of receipt of any approval request and the failure of Parks to respond within such five (5) business day period shall be deemed approval. This provision shall not in any way affect Licensee's rights to enter into exclusive purchasing or sales agreements (such as for example, an agreement to sell only Taylor Made Golf Clubs at the Licensed Premises), so long as such agreements do not contain marketing, promotional or sponsorship rights, other than the right to display the product at the Licensed Premises. In the event Licensee breaches this provision, Licensee shall take any reasonable action that the City may deem necessary to protect the City's interests.

9.39 Licensee shall address geese population related to the Licensed Premises according to the following:

(a) In connection with the City's goose mitigation efforts at the Licensed Premises, Licensee agrees solely to (a) cause one (1) member of Licensee's staff to be trained in wildlife hazard management, (b) post and maintain "no feeding" signs at the Clubhouse, the Maintenance Building, the parking areas at the Licensed Premises, and the Golf Course Snack Bar and (c) cause one (1) representative of Licensee to attend any bi-annual wildlife meeting between Parks, the Department of Environmental Protection and the FAA (as hereinafter defined) where Parks has provided Licensee with reasonable advance written notice of such meeting (the foregoing activities, collectively the "**Licensee Goose Related Activities**"). Parks acknowledges and agrees that Licensee shall not be required to bear more than a minimal expense in connection with the Licensee Goose Related Activities. The City shall promptly provide to Licensee a copy of any Wildlife Hazard Management Plan that the City or Parks develops with the FAA and any amendments thereto.

(b) Except as provided in **Section 9.39(a)**, the City acknowledges and agrees that the City shall be responsible at its cost and expense for all wildlife hazard mitigation and monitoring measures, including without limitation, the monitoring and mitigation of geese populations at the Licensed Premises (and any lethal removal of geese), in each case, in accordance with all Legal Requirements (including, without limitation, any requirements of the Federal Aviation Administration (the "**FAA**")).

9.40 Without limiting Licensee's other rights or remedies under this Agreement, in the event that: (x) compliance by Licensee with Legal Requirements applicable to the Licensed Premises (including, without limitation, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed, and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee's operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises) will have a material adverse effect on Licensee's Grow-In, construction of the Required Capital Improvements or operation of the Licensed Premises (including adverse economic effects), (y) Licensee reasonably believes that any condition of any agency granting any license, permit or other approval is commercially unreasonable (provided however that the Parties agree that Licensee must comply with all Legal Requirements) and compliance with such condition will have a material adverse effect on Licensee's Grow-In, construction of the Required Capital Improvements or operation of the Licensed Premises (including materially adverse economic effects), which would include any condition that would reasonably be expected to cause Licensee to spend in excess of an additional five percent in Capital Improvement Costs, in the aggregate, to Finally Complete the Required Capital Improvements or (z) Licensee's Grow-In is adversely and materially interrupted, impacted or restricted due to repairs, alterations, improvements, additions or maintenance work or City's Reconstruction Activities being performed by or on behalf of the City and/or Parks pursuant to **Section 19.3**; then, in each case of clauses (x), (y) and (z), Licensee shall provide Parks with written documentation of same, and thereafter Licensee and Parks shall meet as soon as possible after notice from Licensee to Parks requesting a meeting (and in any event no later than within five (5) business days after such notice from Licensee to Parks) and cooperate in good faith to agree to an equitable solution to minimize such adverse effect. While the Parties shall use good faith efforts to agree to an equitable solution as quickly as possible, Parks shall provide its proposed solution no later than fifteen (15) business days from the Parties' meeting in accordance with the preceding sentence. Without limiting the scope of potential equitable solutions, the Parties recognize that an equitable solution may, depending on the circumstances and subject to compliance with applicable Legal Requirements, include, among other

things, providing License Fee Credits, directly reimbursing Licensee for reasonable costs and expenses actually paid or incurred by Licensee, reducing the Minimum Annual Fee, and allowing Licensee to operate and/or maintain the Licensed Premises to a standard lower than that required under the License Agreement; provided that an equitable solution shall not include lowering the standard of operation or maintenance below that of a “first class” golf course facility unless Parks and Licensee mutually agree to such reduction in each such parties sole discretion. Nothing in this Section shall in and of itself create a cause of action for Licensee, provided, however, that in the event Parks does not use good faith efforts to agree to an equitable solution, as set forth above, Licensee shall have the right to seek all appropriate legal and equitable remedies arising from such failure to cooperate. In the event that the Parties, acting in good faith, are unable to reach an equitable solution, Parks agrees that it will, at Licensee’s sole option, use commercially reasonable efforts to resolicit for the Concession (or substantial portion thereof) or for another use by the general public of the Licensed Premises (or substantial portion thereof) provided however that Licensee shall continue to perform the Concession obligations during the Term that are applicable to Licensee as set forth in this Agreement and the Development Agreement until such time as a new operator of the Licensed Premises (or substantial portion thereof) is selected by Parks. Upon selection of a new operator, this License Agreement and the Development Agreement shall immediately terminate and Licensee shall be released from all obligations hereunder other than (x) for License Fees and any other fees then due and payable under this License Agreement by Licensee to Parks prior to the Termination Date (but, for the sake of clarity, not subsequent to the Termination Date) and (y) any damages attributable to any Claims that accrued prior to the Termination Date for personal injury, death, property damage or Claims described in Sections 5(a) and 6(b) of Exhibit H for which Licensee is obligated to indemnify (which damages, in each case, shall not include any lost sales or profit or any indirect, consequential, special, exemplary or incidental damages); provided that for the sake of clarity, the foregoing in this paragraph is not intended to abrogate Licensee’s obligations under this Agreement to indemnify, defend, protect and hold harmless the Indemnitees in accordance with the terms of this Agreement, as applicable, to the extent that such obligations relate to third-party claims. The Parties hereby agree that Licensee shall not be considered in breach of this License Agreement if Legal Requirements applicable to the Licensed Premises (including, without limitation, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee’s operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises) have a material adverse effect on Licensee’s Grow-In, construction of the Required Capital Improvements or operation of the Licensed Premises (including adverse economic effects) and Licensee complies with such Legal Requirements and/or conditions. Notwithstanding anything to the contrary contained in this Agreement, in the event that conditions imposed by Legal Requirements applicable to the Licensed Premises (including, without limitation, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee’s operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises) require any City’s Reconstruction Activities, Licensee shall not be responsible for any such work and the City shall perform such work at its sole cost and expense.

9.41 If Licensee incurs any costs or expenses that are required for Licensee’s activities contemplated by this Agreement or the Development Agreement to be in compliance with the DEC Part 360 Permit, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee’s operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises (in each case other than in connection with Licensee’s

construction of the foundation of the Clubhouse or in the course of Licensee performing its responsibilities pursuant to **Section 12.16(b)** of this Agreement), then the City shall pay or reimburse Licensee for such costs and expenses actually paid or incurred by Licensee within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks and provided further, to the extent such costs and expenses are Grow-In Costs, the City shall reimburse Licensee for all of these Grow-In Costs incurred by Licensee to the extent that Licensee has otherwise expended seven hundred and fifty thousand dollars (\$750,000), in the aggregate, for Grow-In Costs. Except as otherwise provided in **Section 5.2** of the Development Agreement, in the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and expenses and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in **Section 4.10** hereof, subject to the last sentence of **Section 4.10**.

10. CAPITAL IMPROVEMENTS

10.1 Licensee shall, during the Term, at its sole cost and expense, perform and complete or cause to be performed and completed, the Capital Improvements described conceptually on the Schedule of Capital Improvements annexed hereto as **Exhibit F** (the “**Required Capital Improvements**”). Subject to the last sentence of this **Section 10.1**, Licensee shall spend or cause to be expended Capital Improvement Costs of at least Ten Million Dollars (\$10,000,000) (the “**Minimum Capital Improvement Cost**”) for the construction of the Required Capital Improvements. The Minimum Capital Improvement Cost shall not include the Design Review Fee, as defined in **Section 10.3**, but shall include the cost of any temporary Clubhouse. All Additional Fixed Equipment and Expendable Equipment installed in connection with the Required Capital Improvements and included in satisfying the Minimum Capital Improvement Cost shall become the property of Parks upon installation, at Parks’ option. Notwithstanding Licensee’s obligation to expend the Minimum Capital Improvement Cost for the construction of the Required Capital Improvements, in the event that all of the Required Capital Improvements are Finally Complete and Licensee has expended less than Ten Million Dollars (\$10,000,000) in Capital Improvement Costs for the Required Capital Improvement in the aggregate, Licensee shall remit to the Capital Reserve Fund the amount that equals the difference between Ten Million Dollars (\$10,000,000) and the amount that Licensee has expended on Capital Improvement Costs for the Required Capital Improvements.

10.2 (a) Licensee shall perform and complete all Capital Improvements in accordance with all plans, designs, specifications, schematics, working and mechanical drawings (the “**Designs and Plans**”) approved by Parks and other government agencies having jurisdiction, as applicable (the Designs and Plans as so approved, the “**Approved Designs and Plans**”). Parks acknowledges that time is of the essence in connection with its approval of Designs and Plans of the construction of Capital Improvements so as not to delay the construction of Capital Improvements, and Parks will act reasonably and use its best efforts to approve or disapprove Licensee’s Designs and Plans within thirty business (30) days of receipt thereof, and if disapproved shall state the reason for such disapproval and the changes required by Parks.

(b) Parks and Licensee acknowledge that (x) Licensee does not intend to spend in excess of Ten Million Dollars (\$10,000,000) for Capital Improvement Costs in the aggregate for the Required Capital Improvements and (y) the Designs and Plans for the Required Capital Improvements to be submitted by Licensee to Parks are intended to set forth Designs and Plans for the Required Capital

Improvements that can reasonably be built to Final Completion for Ten Million Dollars (\$10,000,000) in Capital Improvement Costs or less in the aggregate. In exercising Parks' approval rights over Licensee's Designs and Plans for the Required Capital Improvements as set forth in this Agreement, Parks agrees (i) it shall not require any modifications to the Designs and Plans that would reasonably cause the Capital Improvement Costs to Finally Complete such Required Capital Improvements, in the aggregate, to increase by more than five (5) percent (any such increase a "Parks Required Increase") (the measured value estimated at the time Licensee's Designs and Plans are submitted for approval by Parks), and (ii) that it would be unreasonable for Parks to disapprove Licensee's Designs and Plans for the Required Capital Improvements if the changes required by Parks would reasonably be expected to cause Licensee to spend in excess of Ten Million Dollars (\$10,000,000) (the measured value estimated at the time Licensee's Designs and Plans are submitted for approval by Parks) for Capital Improvement Costs in the aggregate on the Required Capital Improvements. In the event of any Parks Required Increase, Licensee shall be entitled to a credit against amounts to be deposited in the Capital Reserve Fund under **Section 10.29(a)**, commencing in Operating Year 5, in the dollar amount of such Parks Required Increase. Parks shall cooperate with Licensee in obtaining Governmental Approvals from other City agencies (including the PDC) that may have jurisdiction for approval over Licensee's Designs and Plans for the Required Capital Improvements (if such Designs and Plans are approved by Parks), which cooperation shall include supporting Licensee's submissions to other applicable City agencies (including the PDC).

10.3 A fee will be charged to Licensee for design review by Parks personnel (the "Design Review Fee"). The Design Review Fee shall be a onetime charge of one hundred thousand dollars (\$100,000) and shall be deposited by Licensee into the Capital Reserve Fund upon the earlier of (i) the date that Licensee has expended amounts equal to seven hundred fifty thousand dollars (\$750,000) in connection with the Grow-In pursuant to the Development Agreement, or (ii) the Concession Commencement Date. Licensee shall be entitled to draw down on the Capital Reserve Fund in accordance with the terms of this License Agreement, including, without limitation, for the avoidance of doubt, in connection with the Grow-In pursuant to the Development Agreement.

10.4 Capital Improvement Costs, including the Capital Improvement Costs of the Required Capital Improvements to determine if the Minimum Capital Improvement Costs have been expended, shall be reasonably determined by the Commissioner based upon construction documents, invoices, labor time sheets, cancelled checks, credit card receipts, bank statements and such other supporting documents or other data as the Commissioner may reasonably require. In making the determination of the Capital Improvements Costs, Commissioner may request any information the Commissioner reasonably believes would be helpful to make such a determination. Licensee shall forward such information to the Commissioner upon Commissioner's request. Licensee may appeal the Commissioner's determination of the Capital Improvements Costs within thirty (30) business days of receipt of such determination. Such appeal shall be in writing, detailing the grounds for appeal together with relevant documentation, and shall be addressed to the Commissioner, 830 Fifth Avenue, New York, NY 10065. Upon receipt of the appeal, the Commissioner shall review the claims addressed in Licensee's appeal and, within thirty (30) business days, issue a final determination, which shall be reasonable. Licensee reserves its rights to challenge any such final determination via an appropriate legal proceeding.

10.5 (a) Licensee shall pay all applicable fees in connection with its Designs and Plans, which shall be signed and sealed by a New York State Registered Architect or Licensed Professional Engineer, who will oversee the entire construction project (the "Architect/ Engineer"). All Designs and Plans shall be in such detail as Parks shall reasonably require. All work shall be undertaken in

accordance with the Designs and Plans approved in writing in advance by Parks. The Architect/Engineer shall be engaged by Licensee at Licensee's sole cost and expense to ensure that all construction conforms in all material respects to the Designs and Plans approved by Parks and all City, state and federal agencies having jurisdiction. Licensee shall submit the Architect's/Engineer's qualifications to Parks for prior approval. No Capital Improvement shall be deemed Finally Completed until the Commissioner certifies in writing that the Capital Improvement has been completed to his reasonable satisfaction; provided that the Commissioner agrees to comply with the procedures set forth in **Section 10.19** of this Agreement.

(b) Intentionally omitted.

(c) To the extent required by Environmental Laws, an independent environmental monitor ("IEM") shall be present during Licensee's Grow-In and/or construction of Required or Additional Capital Improvements. In the event that the IEM hired by Parks is required to be onsite at such times in any event, because of other obligations of the City under the DEC Part 360 Permit, then Licensee shall be entitled to utilize the services of such IEM. Licensee shall reimburse Parks for the incremental cost of the IEM attributable to the IEM's activities in relation to work performed on behalf of Licensee described in the two immediately preceding sentences, provided that documentation of such costs, satisfactory to Licensee, is submitted to Licensee. In the event the IEM hired by Parks is not onsite as described, if required by applicable Environmental Law, Licensee shall engage, at Licensee's sole cost and expense, an IEM to monitor the work described above in this **Section 10.5(c)**. Notwithstanding the foregoing, Licensee shall have the right, at any time, to employ its own IEM that satisfies the requirements of the applicable Environmental Laws. Any cost of an IEM to Licensee in connection with Licensee's construction of the foundation of the Clubhouse shall be a Capital Improvement Cost that is credited against the Minimum Capital Improvement Cost to be expended by Licensee under the License Agreement to the extent such cost is incurred in connection with Licensee's construction of the foundation of the Clubhouse. If Licensee is required to have an IEM present pursuant to applicable Environmental Law for any reason other than (x) the Licensee's construction of the foundation of the Clubhouse or (y) in connection with Environmental Condition and/or effects of Environmental Conditions that are, in each case, caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, then the City shall pay or reimburse Licensee in an amount equal to the costs and expenses of the IEM actually paid or incurred by Licensee within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and expenses and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in **Section 4.10** hereof, subject to the last sentence of **Section 4.10**.

10.6 Upon approval by Parks of drawings submitted by Licensee, Licensee may commence the construction of the Required Capital Improvements. Subject to **Section 3.3(c)**, Licensee shall complete or cause to be completed all Required Capital Improvements within the time periods set forth in **Exhibit F**. In the event Licensee is delayed or prevented from completing all Required Capital Improvements within the time periods set forth in **Exhibit F** due to any of the conditions set forth in **Section 3.3(c)** or unreasonable delays attributable to Parks, the Licensee shall propose for the Commissioner's reasonable approval a revised completion schedule and if approved, Licensee shall complete the Required Capital Improvements in accordance with such approved revised schedule. The number of days by which performance may be extended shall be reasonably determined by the Commissioner after consultation with Licensee.

10.7 Licensee shall use commercially reasonable efforts to minimize the extent to which the public use of Ferry Point Park is disrupted in connection with its construction, installation, operation and maintenance activities at the Licensed Premises.

10.8 Intentionally Omitted.

10.9 Intentionally Omitted.

10.10 Licensee, within three (3) months of certification of Final Completion of the Capital Improvements or as soon as reasonably practicable thereafter, shall furnish the Commissioner with a certified statement, issued by Licensee, detailing the actual costs of construction. Accompanying such statement shall be construction documents, bills, invoices, labor time books, accounts payable, daily reports, bank deposit books, bank statements, checkbooks and canceled checks, all to the extent applicable. Licensee shall maintain accurate books and records of account of construction costs, which shall be segregated from other accounts, or shall itemize and specify those costs attributable to the Licensed Premises to permit audit by Parks and/or the New York City Comptroller upon request.

10.11 Intentionally Omitted.

10.12 At Parks' request, after certification by the Commissioner of Final Completion by Licensee of the Capital Improvements hereunder, Licensee shall provide Parks with one complete set of final, approved plans (where such plans are applicable in connection with such Capital Improvement, it being understood that not all Capital Improvements entail the development of plans) in a format acceptable to Parks. Acceptable manual drafting methods include ink or plastic film pencil. Right reading fixed line photo on 0.4 millimeter Mylar may be substituted for original drawings. If the fixed line photo process is used, the resultant film negative must be submitted with the drawings. CADD-generated drawings must be printed right-reading with either a pen or ink jet plotter. CADD generated PDF files in electronic form (CD or DVD) and one set of paper drawing shall satisfy the requirements of this Section 10.12. Drawings produced by diazo4, electrostatic (i.e. Xerographic), laser, copy press (i.e. OCE), or other means utilizing toner will not be accepted. Each drawing shall contain the name, address and telephone number of the Architect/Engineer and the Contractor. Each drawing shall also include the Parks property number, Block and Lot numbers for the Parks facility in which the work was performed, and, if applicable, the Department of Buildings approval / application number.

10.13 (a) For any Capital Improvements commenced under this License Agreement by Licensee, Licensee shall apply for applicable licenses from the Revenue Division prior to commencement of work. Licensee shall commence Capital Improvements only after the issuance of a construction license from Parks and a building permit issued by the Department of Buildings if required by applicable laws. Further, all designs for the Clubhouse to be constructed at the Licensed Premises will require prior approval from Parks (which approval shall be subject to Section 10.2(b)) and the PDC, and any other agencies having jurisdiction. Licensee shall notify Commissioner of the specific date on which construction shall begin.

(b) Licensee shall not commence any Capital Improvements unless and until (i) Licensee shall have obtained and delivered to Parks copies of all permits, consents, certificates and approvals of all governmental authorities, if any, which are necessary for the work to be done, certified by Licensee or the Architect/Engineer, and (ii) Licensee shall have delivered to Parks certified copies of the policies of insurance required to be carried pursuant to the provisions of Section 25 hereof.

(c) Licensee shall obtain the permits, consents, certificates and approvals required for the Capital Improvements performed by Licensee and any necessary utility easements, and Parks shall not unreasonably withhold its consent to signing any accurate application made by Licensee required to obtain such permits, consents, certificates, approvals and easements and shall otherwise cooperate with Licensee in obtaining the required permits, consents, certificates, approvals and easements.

(d) To guarantee prompt payment of moneys due to a contractor or his or her subcontractors and to all persons furnishing labor and materials to the contractor or his or her subcontractors in the prosecution of any construction, reconstruction, renovation or Alteration of the Licensed Premises with an estimated cost exceeding two hundred fifty thousand dollars (\$250,000), Licensee shall post a payment bond or other form of undertaking in the amount of one hundred percent (100%) of the cost of each phase of such construction, reconstruction, renovation or Alteration in a form acceptable to Parks before commencing each phase of such work.

10.14 No temporary storage or other ancillary structures may be erected and maintained at the Licensed Premises without a permit obtained from Parks' Construction Division, Permit Office, except that Licensee shall be permitted to construct a temporary maintenance facility and a temporary clubhouse in accordance with the provisions of the Development Agreement.

10.15 Except for and without limiting the City's and Parks' obligations under the Development Agreement and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement), (i) during the Term, Licensee shall be responsible for the protection of the finished and unfinished Capital Improvements being performed by Licensee against any damage, loss or injury in the performance of Capital Improvements, and up to the date of Final Completion thereof and (ii) in the event of such damage, loss or injury up to the date of Final Completion, Licensee shall promptly replace or repair such Capital Improvements at its sole cost and expense.

10.16 Licensee shall perform all of Licensee's Capital Improvements in accordance with Legal Requirements, and industry standards, and with materials as set forth in the Approved Designs and Plans. All equipment and materials installed as part of Licensee's Capital Improvements shall be new, free of material defects, of a quality suitable for the purpose intended and furnished in sufficient quantities to prevent delays. Licensee shall obtain all manufacturer's standard warranties and guarantees for all such equipment and materials in the name of the Licensee and shall assign same to the City when and if the City exercises its option to take title to such equipment and materials in accordance with the terms of this License Agreement except to the extent that Licensee retains the obligation to maintain such work or components and systems under the License Agreement. In furtherance of the preceding sentence, as applicable, Licensee shall execute and deliver to the City any documents reasonably requested by the City in order to enable the City to enforce such guaranties and warranties. All of the City's rights and title and interest in and to said manufacturers' warranties and guaranties may be assigned by the City to any subsequent licensees of the Licensed Premises.

10.17 As required by Section 24-216 of the New York City Administrative Code, devices and activities which will be operated, conducted, constructed or manufactured pursuant to this License Agreement and which are subject to the provisions of the New York City Noise Control Code (the "Code") shall be operated, conducted, constructed or manufactured without causing a violation of such Code. Such devices and activities shall incorporate advances in the art of noise control developed for the kind and level of noise emitted or produced by such devices and activities, in accordance with regulations issued pursuant to federal, state, City laws, rules, regulations and orders.

10.18 Licensee shall choose the means and methods of completing the Capital Improvements, unless, Commissioner reasonably determines that such means and methods constitute or create a hazard to the Capital Improvements or to persons or property or will not produce finished Capital Improvements in accordance with the Schedule of Capital Improvements on **Exhibit F**. Specific work plans and actions that pertain to the construction of the Clubhouse foundation shall be submitted to Parks for review and approval (and Parks shall act reasonably and use its best efforts to approve or disapprove such plans and actions within thirty business (30) days of receipt thereof, and if disapproved shall state the reason for such disapproval and the changes required by Parks, and in accordance with **Section 10.2(a)**).

10.19 (a) Licensee shall provide written notice to the Commissioner when a Capital Improvement is Substantially Complete. Within five (5) business days after receiving such notice, the Commissioner shall promptly inspect such Capital Improvement. Within five (5) business days of such inspection, the Commissioner shall either (x) certify to Licensee in writing that the applicable Capital Improvement is Substantially Complete or (y) provide notice to Licensee that the Commissioner does not reasonably find the applicable Capital Improvement to be Substantially Complete (such notice a “**Substantial Completion Deficiency Notice**”). Any Substantial Completion Deficiency Notice shall contain a reasonably detailed list of items concerning work to be completed to the reasonable satisfaction of the Commissioner in order to achieve Substantial Completion. Following Licensee’s receipt of any Substantial Completion Deficiency Notice, when Licensee reasonably believes that a Capital Improvement has achieved Substantial Completion, Licensee shall provide notice to the Commissioner. Within five (5) business days after receiving such notice, Commissioner shall promptly re-inspect such Capital Improvements. The Commissioner and Licensee shall follow the notice and inspection procedures and applicable time periods set forth above in this **Section 10.19(a)** until the Commissioner provides the certification of Substantial Completion, whereby the Commissioner certifies in writing that the Capital Improvement has been Substantially Completed to his reasonable satisfaction. The City and Parks acknowledge and agree that as long as a Capital Improvement (x) is constructed in compliance with the Approved Designs and Plans for such Capital Improvement (notwithstanding that some incomplete elements that do not prevent legal use and occupancy and punch list work determined in accordance with **Section 10.19(b)** below remain to be completed) in all material respects and (y) is ready to be occupied and used for its intended purpose by the public, it would be unreasonable for Commissioner to withhold, condition or delay Commissioner’s certification of Substantial Completion.

(b) When Licensee reasonably believes that a Capital Improvement has achieved Final Completion, Licensee shall provide notice to the Commissioner and within five (5) business days after receiving such notice, Commissioner shall promptly inspect such Capital Improvements. Within five (5) business days of such inspection, Commissioner shall either (x) certify to Licensee in writing that the applicable Capital Improvement is Finally Complete or (y) provide notice to Licensee that the Commissioner does not reasonably find the applicable Capital Improvement to be Finally Complete (such notice a “**Final Completion Deficiency Notice**”). Any Final Completion Deficiency Notice shall contain a reasonably detailed “punch list” of items concerning work to be completed to the reasonable satisfaction of the Commissioner in order to achieve Final Completion. Following Licensee’s receipt of any Final Completion Deficiency Notice, when Licensee reasonably believes that a Capital Improvement has achieved Final Completion, Licensee shall provide notice to the Commissioner. Within five (5) business days after receiving such notice, Commissioner shall promptly re-inspect such Capital Improvements. The Commissioner and Licensee shall follow the notice and inspection procedures and applicable time periods set forth above in this **Section 10.19(b)** until the Commissioner provides the certification of Final Completion, whereby the Commissioner

certifies in writing that the Capital Improvement has been Finally Completed to his reasonable satisfaction; provided that notwithstanding anything to the contrary in this Agreement, the City and Parks acknowledge and agree that as long as a Capital Improvement is constructed in compliance with the Approved Designs and Plans for such Capital Improvement in all material respects, it would be unreasonable for Commissioner to withhold, condition or delay Commissioner's certification of Final Completion.

10.20 Licensee shall provide Parks with discharges for any and all liens which may be levied against the Capital Improvements performed by Licensee during construction of such improvements. Licensee shall use commercially reasonable efforts to discharge such liens within forty five (45) days of receipt of lien by Licensee.

10.21 Licensee shall promptly repair, replace, restore, or rebuild as the Commissioner reasonably may determine, items of Capital Improvements performed by Licensee in which material defects of materials, workmanship or design may appear or to which damages may occur because of such defects, during the one year period subsequent to the date of the Final Completion of such Capital Improvements.

10.22 Neither Parks, nor the City, its agencies, officers, agents, employees or assigns thereof, shall be bound, precluded or estopped by any determination, decision, approval, order, letter, payment or certificate made or given under or in connection with this License Agreement by the City, the Commissioner, or any other officer, agent or employee of the City, before the Final Completion and acceptance of any individual Capital Improvement, from showing that such Capital Improvement or any part thereof does not in fact conform to the requirements of this License Agreement and, in addition to any other remedies available to Parks or the City under this Agreement or the Development Agreement, at law or in equity, from demanding and recovering from the Licensee such damages as Parks or the City may sustain by reason of Licensee's failure to perform each and every material part of this License Agreement in accordance with its terms (subject to all applicable notice and cure periods), unless such determination, decision, approval order, letter, payment or certificate shall be made pursuant to a specific waiver of this **Section 10.22** signed by the Commissioner or his authorized representative. For purposes of this paragraph, the following shall be considered an authorized representative of the Commissioner: the First Deputy Commissioner and any other Deputy Commissioners, the Assistant Commissioner for Revenue and the Director of Revenue.

10.23 Licensee warrants that it is financially solvent and sufficiently experienced and competent to perform, or cause to be performed, the Capital Improvements required pursuant to this License Agreement.

10.24 Intentionally omitted.

10.25 Licensee shall keep Parks reasonably informed of Licensee's progress in the performance of all Capital Improvements. Upon request of Parks, Licensee shall promptly provide Parks with copies of all materials normally or actually provided to a construction lender including, but not limited to, scheduling of payments and projections on a monthly basis, and all construction documents and all plans and specifications reasonably specified by Parks to assist Parks in monitoring said progress by Licensee.

10.26 All risks of construction and development of the Capital Improvements constructed by Licensee are hereby expressly assumed by Licensee except as may be specifically provided otherwise in this License Agreement or in the Development Agreement. Except as set forth in this License Agreement and in the Development Agreement, all development of the Capital Improvements constructed by Licensee will be designed, constructed, maintained, secured and insured entirely at Licensee's expense without reimbursement by Parks or credit or offset of any kind for cost overruns or otherwise, and Licensee shall pay all municipal and any other fees and impositions in connection therewith.

10.27 Upon installation, title to all construction, renovation, improvements, and fixtures made to the Licensed Premises and to all Fixed and Additional Fixed Equipment (which shall specifically exclude equipment leased by Licensee) accepted by Parks as Capital Improvements shall vest in and thereafter belong to the City at the City's option, which may be exercised at any time after the Substantial Completion of the construction, renovation, improvement, affixing, placement or installation. To the extent the City chooses not to exercise its option with respect to any of the construction, renovation, improvements, equipment or fixtures made to the Licensed Premises by Licensee, it shall be the responsibility of Licensee, during the Removal Period, to remove such items and restore the Licensed Premises to the satisfaction of the Commissioner at the sole cost and expense of the Licensee. For avoidance of doubt the Parties agree that Licensee shall not under any circumstances be required to remove completed buildings, heating, plumbing, air conditioning, electrical wiring, elevators, windows and ventilation fixtures. The City shall provide to Licensee a "Contractor Exempt Purchase Certificate" in connection with the construction, renovation and improvements, made to or fixtures installed at the Licensed Premises by Licensee.

10.28 Subject to Section 3.3(c) and Section 10.6 and the remainder of this Section 10.28, in the event the Licensee fails to Finally Complete a particular Required Capital Improvement by the date specified for Final Completion, in accordance with Exhibit F (except for immaterial or punch list items), Licensee may be required to pay the City liquidated damages of one hundred dollars (\$100) per day until the outstanding Required Capital Improvement is completed. In the event Licensee is unable to comply with any phase of the schedules for the Required Capital Improvements for a period of thirty (30) days following written notice from Commissioner, subject to the provisions of Section 3.3(c) and Section 10.6 herein, and provided that Licensee is diligently performing such Capital Improvements, the Licensee may propose for the Commissioner's reasonable approval a revised completion schedule for such phase and if approved, Licensee shall complete such phase of the Capital Improvements in accordance with such approved revised schedule. The number of days by which performance may be extended shall be reasonably determined by the Commissioner after consultation with Licensee.

10.29 (a) Licensee shall establish a dedicated account (the "Capital Reserve Fund") with an institutional lender ("Depository") selected by Licensee and satisfactory to Parks that shall be available exclusively to pay directly, or to reimburse Licensee for its payment of costs of Capital Improvements, major repairs and replacements of and purchases of new improvements or equipment for or at the Licensed Premises approved by Parks (if required pursuant to this License Agreement) ("Eligible Work"), but not for ordinary repair and maintenance. The Design Review Fee payable pursuant to Section 10.3 shall be deposited into the Capital Reserve Fund. For purposes of insuring that the provisions of this Section 10.29 are complied with, Licensee's agreement with Depository shall be subject to the prior written approval of Parks. Commencing in Operating Year 5, Licensee shall make deposits to the Capital Reserve Fund calculated in accordance with the following table:

Operating Year	Reserve Fund Deposit
5 – 12	3% of Gross Receipts
13 – 15	2% of Gross Receipts

On or before the thirtieth (30th) day after the end of each quarter of each Operating Year commencing in Operating Year 5 and until the end of Operating Year 15, Licensee shall deposit to the Capital Reserve Fund an amount equal to the applicable Reserve Fund Deposit for the prior quarter. Such Capital Reserve Fund deposits shall not be deducted from total Gross Receipts. Licensee shall use commercially reasonable efforts to ensure that the Capital Reserve Fund is expended to depletion during the Term of this License Agreement for the purposes outlined herein and for Concession projects mutually agreeable to Parks and Licensee. It is expressly understood that neither Parks, nor Licensee, shall unreasonably withhold its consent to the undertaking of any reasonable project aimed at or intended to enhance the Licensed Premises.

(b) Licensee shall not be entitled to use the Capital Reserve Fund without obtaining Park’s written consent, which consent shall not be unreasonably withheld, conditioned or delayed, except where Licensee has the right to use the Capital Reserve Fund as expressly provided in this Agreement, including without limitation, **Sections 4.10, 12.3, 12.18 and 19.1(b)** (where no consent shall be required). Except as otherwise set forth in this Agreement, all Eligible Work that constitutes additional Capital Improvements at the Licensed Premises shall be subject to Parks’ reasonable approval. In the event that prior to Operating Year 5, Licensee incurs Capital Improvement Costs in excess of the Minimum Capital Improvement Cost, Licensee shall be entitled to a credit against amounts to be deposited into the Capital Reserve Funds under **Section 10.29(a)** commencing in Operating Year 5 to reimburse Licensee for any such Capital Improvement Costs in excess of the Minimum Capital Improvement Cost.

(c) Disbursements from the Capital Reserve Fund shall be made as follows:

(i) Subject to **Section 10.29(b)** above, Parks shall instruct Depository to pay to Licensee promptly (but in any event no later than five (5) business days after Licensee has submitted all information necessary to qualify for a disbursement) such amounts out of the Capital Reserve Fund as necessary to pay for amounts paid or then payable by Licensee for Eligible Work, upon application to be submitted by Licensee to Parks showing the cost of labor and the cost of materials, fixtures and equipment that either have (A) been incorporated in the Eligible Work since the last previous application and paid for or then payable by Licensee, or (B) not been incorporated in the Eligible Work but have been purchased since the last previous application and paid for or then payable by Licensee.

(ii) It shall be a condition precedent to each disbursement of the Capital Reserve Fund, that Licensee submit to Parks, a certificate of the Architect/Engineer, if applicable, or a certificate signed and verified by the managing member or other duly authorized officer of Licensee, stating that:

(A) The sum then requested to be withdrawn either has been paid by Licensee or is justly due to contractors, subcontractors, materialmen, engineers, architects or other persons (whose names and addresses shall be stated), who will render or furnish or have rendered or

furnished services or materials for the work, and giving a brief description of such services and materials and the principal subdivisions or categories thereof and the several amounts so paid or due to each of such persons with respect thereto, and stating, in reasonable detail, the progress of the Eligible Work up to the date of the certificate;

(B) The costs for which sums have been requested have not yet been paid or covered in any previous requisition for Capital Reserve Funds;

(C) The sum then requested does not exceed the cost of the services and materials described in the certificate; and

(D) The materials, fixtures and equipment, for which payment is being requested, to the extent applicable, are equal in quality to the items being restored or replaced and in substantial accordance with the approved plans for the Eligible Work (if such plans are required pursuant to this License Agreement).

(d) Licensee shall provide to Parks, an annual report detailing the deposits and balance of the Capital Reserve Fund. In addition, the reports shall include all disbursements from the Capital Reserve Fund as well as the Eligible Work financed by such disbursements.

(e) Upon the expiration or earlier termination of this License Agreement, Licensee shall not be entitled to retain the remainder of the Capital Reserve Fund except as otherwise specifically provided herein. Such remaining funds shall be disbursed to Parks immediately following the expiration or earlier termination of this License Agreement.

11. IMPROVEMENT AND/OR CORRECTION IN OPERATIONS

11.1 Subject to **Section 3.3(c)**, should the Commissioner reasonably decide that Licensee is not operating the Licensed Premises in accordance with this License Agreement in all material respects, Commissioner may give notice in writing to Licensee to correct such conditions as Commissioner may reasonably deem unsatisfactory. In the event that Licensee fails to substantially comply with such written notice or respond in a manner reasonably satisfactory to the Commissioner within twenty-five (25) days from the receipt of said notice, or, if compliance cannot reasonably be completed within such twenty-five (25) day period, if Licensee does not commence cure within such twenty-five (25) day period and thereafter diligently prosecute such cure to completion, Commissioner may terminate this License Agreement subject to and in accordance with the provisions of **Section 3.3** hereof.

11.2 (a) Subject to **Section 11.2(b)**, should Commissioner, in Commissioner's reasonable judgment, decide that an unsafe or emergency condition exists on the Licensed Premises, after written notification to Licensee, Licensee shall have twenty-four (24) hours to correct such unsafe or emergency condition. During any period where the Commissioner determines that an unsafe or emergency condition exists on the Licensed Premises then the Commissioner may require a partial or complete suspension of operation in the area affected by the unsafe or emergency condition. If such unsafe or emergency condition cannot be corrected within said twenty-four (24) hour period, the Licensee shall notify the Commissioner in writing and indicate the period within which such condition can be corrected. Commissioner may, in Commissioner's reasonable discretion, extend such period of time in order to permit Licensee to cure, under such terms and conditions as are reasonably appropriate. Such consent shall not be unreasonably withheld.

(b) Notwithstanding the foregoing in this **Section 11.2**, to the extent that any such unsafe or emergency condition is caused by any condition that the City or Parks is responsible for under the License Agreement or the Development Agreement, Licensee shall have no obligation to cure such condition and the City shall cure such condition in accordance with the provisions of the respective agreement. For the avoidance of doubt, the City shall not be responsible for any Environmental Condition and/or effects of Environmental Conditions to the extent that such Environmental Condition and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees.

11.3 Licensee shall provide access to the Licensed Premises to the Commissioner or his representatives and to other City, State and Federal officials having jurisdiction for any lawful purpose or inspection purposes. Inspectors from Parks may visit the Licensed Premises unannounced to inspect operations and ensure proper maintenance of the Licensed Premises. Based on their inspections, Parks may issue written notices to Licensee regarding deficiencies, and except where the City shall be obligated to remedy such deficiency pursuant to the terms of this Agreement (including, without limitation, **Section 12.19(a)**), Licensee shall be obligated to rectify such deficiencies within the time specified in such notices, which in no event shall be less than fourteen (14) days, plus such additional time as shall be reasonably required to cure such deficiency, provided, however, that prior to issuing any such notice, Parks and Licensee shall have informal discussions to attempt to resolve any such deficiencies. Subject to **Section 3.3(c)** or delays by Parks or the City, if Licensee fails to cure any deficiency for which it is responsible under the term of this Agreement within the timeframe set forth in the notice, Parks may, at its option and in addition to any other remedies available to it, require Licensee to pay as liquidated damages five hundred dollars (\$500) per day from the date of the notice, with respect to each violation of the License Agreement, until the deficiencies have been corrected. If any liquidated damages due in accordance with this Agreement are not paid promptly by Licensee, Parks may deduct the amount thereof from the Security Deposit.

12. MAINTENANCE, SANITATION AND REPAIRS

12.1 (a) Except for and without limiting the City's and Parks' obligations under the Development Agreement and this Agreement (including without limitation, **Section 12.19(a)** of this Agreement), Licensee shall:

(i) on a year-round basis, at its sole cost and expense (or through third party arrangements) and to the reasonable satisfaction of Commissioner, maintain, repair and keep the Licensed Premises in a good and safe condition and in accordance with industry standards and in conformance with any and all applicable Legal Requirements as they relate to general maintenance and care of the Golf Course and the remainder of the Licensed Premises;

(ii) at all times, at its sole cost and expense, keep the Licensed Premises clean, litter free, neat and, with respect to the food service operations, fumigated, disinfected, deodorized and sanitary;

(iii) at its sole cost and expense, provide regular cleaning and maintenance services for the Licensed Premises, collect and remove all waste, refuse, rubbish, litter, debris and garbage therefrom and remove snow from paved areas of the Golf Course Facilities during such days that the Golf Course is open to the public; and

(iv) provide for the regular cleaning and maintenance of the perimeter of the Licensed Premises, including but not limited to the timely removal of all litter, debris and garbage, tree pruning, dead tree and dead tree limb removal, and perimeter fence maintenance and repair.

For avoidance of doubt, except as set forth on Exhibit A-2, the Parties agree that Licensee shall only be responsible for the cleaning, maintenance and repair of the area on the inside of the perimeter fence of the Licensed Premises to be constructed by the City in accordance with the Development Agreement and all roadways, parking lots, perimeter landscaping and perimeter sidewalks and all other portions of Ferry Point Park outside the perimeter fence shall be cleaned, maintained and repaired by the City and/or Parks. In the event the City dumps snow or ice on the Licensed Premises, Parks will, within a reasonable time after notice from Licensee, remove any debris from the Licensed Premises left behind by the melting of the dumped snow or ice. In addition, with respect to the Park Snack Bar, Licensee shall only be responsible for the cleaning, maintenance and repair of the interior and exterior of the Park Snack Bar and shall not be responsible for any area outside the Park Snack Bar, except as set forth on Exhibit A-2.

(b) Except for and without limiting the City's and Parks' repair and maintenance obligations under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), Licensee shall (i) repair and maintain in good working order any and all equipment installed at the Licensed Premises necessary for the operation of this License Agreement; (ii) provide equipment maintenance contracts, or directly provide maintenance services deemed by Parks to be equivalent to service contracts, for the equipment on the Licensed Premises; and (iii) use commercially reasonable efforts to adhere to the maintenance schedules recommended by the manufacturers for all mechanical systems and equipment.

(c) To ensure Parks' satisfaction with Licensee's compliance with this Section 12.1, Licensee will provide Parks with access to the Licensed Premises.

12.2 Licensee shall maintain the Licensed Premises in accordance with this License Agreement to the reasonable satisfaction of the Commissioner. All such maintenance shall be performed by Licensee in a good and worker-like manner. In part to secure Licensee's obligation to maintain and repair the Licensed Premises, Licensee shall provide Parks with a Security Deposit as provided in Section 4.4(a).

12.3 (a) Subject to the availability of funding, Parks shall maintain and repair and keep in good order and repair or cause the maintenance and repair and keeping in good order and repair of (x) roads that are under the jurisdiction of Parks, as more particularly shown on Exhibit T, (y) grass areas, trees, shrubs, signs and other landscaping leading to and from the Licensed Premises that are under the jurisdiction of Parks, and (z) the areas of Ferry Point Park immediately surrounding the Licensed Premises (except for the areas immediately surrounding the Park Snack Bar).

(b) In the event that Parks fails to perform such repairs and/or maintenance specified in Section 12.3(a) within sixty (60) days after written notice, and the Parties reasonably agree that the failure to perform such repairs and/or maintenance materially adversely affects the use or appearance of the entrance to the Licensed Premises, the roads leading to the Licensed Premises or any other portion of the Licensed Premises, Licensee shall have the right, but not the obligation, to perform any and all such repairs and/or maintenance, subject to the prior written approval of Parks, provided that

the failure of Parks to perform any such repairs and/or maintenance shall not be a default by the City hereunder or give rise to any termination rights on the part of Licensee.

(c) Licensee shall have the right to submit bids to Parks for any work which Licensee proposes to perform under **Section 12.3(b)**, and Parks shall approve or reject any such bids within ten (10) days after receipt and Parks' failure to respond within such ten (10) day period shall be deemed approval. To the extent that such work outside the Licensed Premises constitutes "public work" within the meaning of Section 220 of the Labor Law, the Licensee and its contractors will be required to pay prevailing wages and otherwise comply with the requirements of Section 220 of the Labor Law, according to prevailing wage rate schedules prepared by the New York City Comptroller (copies of which may be obtained from Parks), as such schedules may be amended. All reports mandated by Section 220 of the Labor Law shall be provided to Parks. To the extent Licensee pays prevailing wages for the performance of such work, such work shall be considered Capital Improvements and Licensee shall be entitled to use Capital Reserve Funds to pay for such work. To the extent that Capital Reserve Funds are used to pay for such repairs and/or maintenance, all License Fees and other amounts thereafter payable under this License Agreement shall be applied to replenish the Capital Reserve Fund, up to the amount of Capital Reserve Funds paid to Licensee on account of such work. If Licensee performs such repairs and/or maintenance and the Capital Reserve Funds are not sufficient to pay or reimburse Licensee for such repairs and/or maintenance, the City shall pay or reimburse Licensee in an amount equal to the reasonable cost of the repairs and/or maintenance actually paid or incurred by Licensee (which costs shall be deemed reasonable if approved or deemed approved by Parks as set forth herein), provided that documentation of such costs, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in **Section 4.10** hereof, which, subject to the last sentence of **Section 4.10** and the following sentence, will be the sole remedy of Licensee hereunder for the cost of such repairs and/or maintenance. Alternatively, Licensee, in its discretion, may propose and submit for the Commissioner's approval a plan to equitably address the cost to Licensee for performing such repairs and/or maintenance.

(d) Licensee shall have the right, but not the obligation, at its sole option, to maintain and repair or cause the maintenance and repair of the roads and signs, if any, leading to and from the Licensed Premises that are not within the jurisdiction of Parks, provided Licensee obtains all necessary approvals, including but not limited to approvals of any federal, state and City agencies having jurisdiction over such work. If Licensee performs such repairs, Licensee shall be entitled to reimbursement from the Capital Reserve Fund equal to the reasonable cost of the repairs actually paid or incurred by Licensee, provided that documentation of such costs, satisfactory to Parks, is submitted to Parks. To the extent that Capital Reserve Funds are used to pay for such repairs, all License Fees and other amounts thereafter payable under this License Agreement shall be applied to replenish the Capital Reserve Fund, up to the amount of Capital Reserve Funds paid to Licensee on account of such work. If Licensee performs such repairs and the Capital Reserve Funds are not sufficient to pay or reimburse Licensee for the cost of such repair, the City shall pay or reimburse Licensee in an amount equal to the reasonable cost of the repairs actually paid or incurred by Licensee. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, which, subject to the last sentence of **Section 4.10** and the following sentence, will be the sole remedy of Licensee hereunder for the cost of such repairs. Alternatively,

Licensee, in its discretion, may propose and submit for the Commissioner's approval a plan to equitably address the cost to Licensee for performing such repairs.

12.4 (a) Licensee shall provide adequate waste and recycling receptacles approved by Parks at the Licensed Premises and have these receptacles emptied on a regular basis and removed by a private carter. All debris, waste, garbage, refuse, rubbish and litter which collect upon the Licensed Premises and within the area described on Exhibit A-2 hereto, without regard for its source (other than debris, waste, garbage, refuse, rubbish and litter resulting from any work being performed by the City or Parks under the terms of this License Agreement or the Development Agreement), shall be daily collected, recycled if possible, bagged, and removed from the Licensed Premises at a frequency satisfactory to the Commissioner, all at the Licensee's sole cost and expense. In performing its duties under this Section 12.4, Licensee shall comply with all applicable Legal Requirements regarding recycling.

(b) Where feasible, Licensee shall provide for its patrons' use appropriately sized and well-positioned blue plastic recycling bins or receptacles for bottles and cans, and green bins or receptacles for papers, catalogs and magazines. These containers shall be properly labeled with recycling logos and the containers, and the areas around them, shall be maintained in a clean, sanitary, and graffiti-free state.

(c) Licensee shall bundle and/or separate, as required, for pickup pursuant to City, State, and Federal law, all corrugated cardboard, magazines and catalogs, newspapers, high grade office paper and envelopes, computer paper, phone books, paper bags, cardboard boxes, pizza boxes, non-styrofoam egg cartons, milk and juice cartons, aluminum products (including foil and trays), metal cans, plastic and glass bottles, detergent bottles, glass jars, milk jugs, metals (pans, irons), aerosol cans, wire hangers, and paint cans. These recyclables must be rinsed or rid of all food products, as necessary.

12.5 Licensee shall be responsible for regular pest control inspections and extermination. To the extent Licensee applies pesticides to any property owned or leased by the City, Licensee or any subcontractor hired by Licensee shall comply with Chapter 12 of Title 17 of the Administrative Code and limit the environmental impact of its pesticide use.

12.6 Intentionally Deleted.

12.7 At its sole cost and expense, Licensee shall keep all signs and structures on the Licensed Premises in good condition and shall remove any and all graffiti which may appear on the signs, buildings and structures on the Licensed Premises. Such graffiti removal shall be commenced within twenty-four (24) hours following discovery of same, and shall continue until such graffiti is removed.

12.8 Except for and without limiting the City's and Parks' obligations under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), Licensee shall maintain the Licensed Premises including, but not limited to, cleaning, restoration, repair and maintenance necessary to maintain the Licensed Premises in a first class condition, preserving its character and significance. Maintenance shall also include the horticulture at and the cleaning of the Licensed Premises.

12.9 Under no conditions shall Licensee cut down, remove, replant, or move any tree, living or dead, in conjunction with Licensee's Capital Improvements, or with any other of Licensee's rights or

duties under this License Agreement, without the express written permission of Parks. Moreover, Licensee acknowledges that Parks does not intend to authorize the removal of any living trees in conjunction with any of Licensee's rights or duties detailed herein. Attachments to trees, such as lights, are not permitted. Notwithstanding the foregoing, Licensee shall prune trees on the Licensed Premises as needed with Parks' prior written approval.

12.10 At its sole cost and expense, Licensee shall maintain and keep the parking areas and driveways in the Licensed Premises clean, neat, and free of litter and debris. Such maintenance shall include snow removal, pavement repairs, curb repair, and removal of all litter, debris, and garbage.

12.11 (a) Licensee hereby acknowledges that the Fire Department of New York City ("FDNY") has issued a fuel tank variance to Ferry Point Golf Course permitting the dispensation of petroleum from an above ground tank protected by a fuel containment system. The City shall install two above ground tanks and fire suppression system in accordance with the Development Agreement (including, **Section 6.6** and **Schedule 2** of the Development Agreement), and the requirements of the FDNY variance, a copy of which is attached hereto as **Exhibit G** and any other applicable Legal Requirements.

(b) Licensee shall operate, inspect and properly maintain the tanks provided by the City referenced in Exhibit G, and as set forth in **Section 12.11(a)** above, in accordance with (i) the FDNY variance, if applicable, (ii) any applicable amendments thereto, and (iii) any other applicable Legal Requirements.

(c) Any changes, removals or additions of tanks must be pre-approved by Parks and FDNY.

12.12 Licensee shall clean and maintain all exhaust vents, screens, grease traps and exhaust on a regular basis.

12.13 During the hours of operation of the Licensed Premises, Licensee shall clean and maintain the public restrooms located thereon. The restrooms shall be cleaned and maintained in accordance with the manner approved by Parks.

12.14 Licensee shall provide adequate staff in order to maintain the Golf Course as a first class, tournament quality daily fee golf course. Licensee shall maintain the Golf Course and implement turf care programs, such as aerification, fertilization, fungicide, seeding and sodding as well as year-round maintenance schedules in compliance with the turf management guidelines for the Golf Course set forth in **Exhibit M**, attached hereto (the "**Maintenance Guidelines**"). If pursuant to the Nicklaus Subcontract, a turf management program for the Golf Course is to be developed at the City's expense by a qualified agronomist approved by Nicklaus Design, the City shall make good faith efforts to cause such agronomist to consult with and coordinate its activities with Licensee's golf course superintendant; Licensee shall be required to maintain the Golf Course in compliance with such turf management program to the extent that it is consistent with the reasonable standards of a Jack Nicklaus Signature golf course. For the avoidance of doubt, the Parties agree that Licensee must maintain the Golf Course as a first class, tournament quality daily fee golf course and to the quality level consistent with a Jack Nicklaus Signature golf course notwithstanding Licensee's compliance with the Maintenance Guidelines and subject to **Section 3.3(a)(i)(c)** and **Section 11.1** of this Agreement, as applicable.

12.15 (a) Except for and without limiting the City's and Parks' obligations for maintenance, repairs or replacements under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), and subject to the provisions of Section 7.4:

(i) Licensee shall, at its sole cost and expense, operate and maintain the irrigation system in good repair and working order, including but not limited to: the repair and replacement of all equipment and material as needed, including the booster pump system, lake lift pump system, electrical system, weather station, radio system, computer system, control, decoder and/or satellite system, irrigation heads and lines, pump house structure and all other associated equipment and materials substantially in accordance with operation and maintenance manuals;

(ii) each fall, Licensee shall winterize the entire irrigation system, and each spring Licensee shall start up, pressurize and fill the system;

(iii) Licensee shall repair any leaks, replace any damaged or missing irrigation heads, and maintain all equipment and pump houses in a clean and orderly manner; and

(iv) Licensee shall maintain the grounds and overflow structures, keeping them free from algae, debris and trash, and making repairs as needed.

For the avoidance of doubt, the Parties agree that except for and without limiting the City's and Parks' obligations for maintenance, repairs or replacements under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), Licensee must maintain the irrigation system in good repair and working order notwithstanding Licensee's compliance with the operation and maintenance manuals.

(b) Licensee shall, at its sole cost and expense, retain the services of qualified technicians and/or service firms to fully comply with all provisions of the irrigation system's operation and maintenance manual, as issued by the manufacturer of the irrigation system.

12.16 (a) Notwithstanding anything to the contrary contained herein or in the Development Agreement, neither the City nor Parks shall be responsible to remediate or remove any Environmental Conditions and/or effects of Environmental Conditions or indemnify, protect, defend or hold harmless any of the Licensee Indemnitees with respect to any Environmental Conditions and/or effects of Environmental Conditions or any liability with respect thereto to the extent that such Environmental Condition and/or effects of Environmental Conditions is caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees.

(b) If changes to the Golf Course requested by Licensee that are required to obtain a professional PGA tournament at the Licensed Premises would require the disturbance or excavation of the municipal solid waste below the surface of the Licensed Premises, Licensee shall be responsible for the performance of such work and the cost of such work with respect to any municipal solid waste that may be excavated or disturbed by such work being performed by Licensee, including the cost of disposing of such municipal solid waste, if required, in compliance with applicable Legal Requirements, the DEC Part 360 Permit (as applicable), the DEC Deed (as applicable) and all applicable Environmental Laws, provided, however, that Licensee shall not be responsible for any Environmental Conditions and/or effects of Environmental Conditions or any

liability with respect thereto arising from Licensee's work unless caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees.

12.17 Licensee shall, at its sole cost and expense, provide normal maintenance for the greens, tees, fairways and sand bunkers, which shall include but not be limited to the following:

- Greens: Provide for the cutting and the applications of appropriate fungicides, herbicides and insecticides as part of a complete treatment and prevention program.
- Tees: Provide normal maintenance which will include cutting, fertilizing and applications of appropriate chemicals.
- Fairways: Provide normal maintenance including cutting, application of appropriate chemicals, and spot seeding where necessary.
- Sand Bunkers: Provide normal maintenance including raking, weeding, and keeping proper sand levels.

12.18 (a) Licensee's obligation to make or cause to be made, major repairs or Capital Improvements are limited by the monetary levels established herein. Except as set forth in **Section 12.18 (b) or 12.18(c)**, in no event shall Licensee be obligated to spend amounts or perform any major repairs or Capital Improvements that are not Required Capital Improvements (collectively "Additional Capital Improvements") in excess of (i) the ten million dollars (\$10,000,000) that Licensee is required to spend on Required Capital Improvements pursuant to **Section 10.1**, plus any additional amounts that may be required to complete the Required Capital Improvements described on **Exhibit F**, plus (ii) amounts set aside in the Capital Reserve Fund pursuant to **Section 10.29**. For the avoidance of doubt, the cost of any temporary Clubhouse shall be applied to the Minimum Capital Improvements Costs to be expended by Licensee hereunder.

(b) In no event shall Licensee be responsible for Additional Capital Improvements that are required by reason of Environmental Conditions and/or effects of Environmental Conditions (except Licensee shall be responsible for Additional Capital Improvements and shall perform such Additional Capital Improvements at its sole cost and expense pursuant to **Section 12.19(a)** to the extent that such Additional Capital Improvements are required by Environmental Conditions and/or effects of Environmental Conditions that are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), which Additional Capital Improvements shall be performed by Parks at its sole cost and expense, pursuant to **Section 12.19(a)**.

(c) In addition to the Required Capital Improvements to be made by Licensee pursuant to **Section 10.1** of this License Agreement (or Additional Capital Improvements required pursuant to **Section 12.18(b)**, as applicable), Licensee agrees to make Additional Capital Improvements at the Licensed Premises which may be required at the Licensed Premises (and such work shall be governed by the terms of this Agreement) under the terms of this Agreement to be made by Licensee, provided that the cost of such Additional Capital Improvements shall not exceed \$100,000 in any Operating Year in the aggregate for such Operating Year, in excess of amounts available in the Capital Reserve Fund. In the event the cost of all such Additional Capital Improvements in any Operating Year shall exceed \$100,000 in the aggregate, in excess of amounts available in the Capital Reserve Fund, Licensee shall have no obligation to perform same, provided, however, in the event any Additional Capital Improvements are critical to the continued operation of the Licensed

Premises, as determined by the Parties, and the estimated cost thereof exceeds \$100,000 but is less than or equal to \$500,000 in such Operating Year in the aggregate, in each case in excess of amounts available in the Capital Reserve Fund, and the Parties cannot reasonably agree on how to share the expenses or effect the Additional Capital Improvements, Licensee shall perform such Additional Capital Improvements and the City shall pay or reimburse Licensee in an amount equal to the reasonable cost of such Additional Capital Improvements in excess of \$100,000 in any Operating Year in the aggregate for such Operating Year, in excess of amounts available in the Capital Reserve Fund, actually paid or incurred by Licensee, provided that documentation of such costs, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, which, subject to the last sentence of **Section 4.10**, will be the sole remedy of Licensee hereunder for such costs of Additional Capital Improvements. In the event the estimated cost of such Additional Capital Improvements exceed \$500,000 in any Operating Year in the aggregate for such Operating Year, in excess of amounts available in the Capital Reserve Fund, either the City shall pay the cost of such Additional Capital Improvement in excess of \$500,000 over the amounts available in the Capital Reserve Fund, or Licensee shall have the right to terminate this License Agreement on thirty (30) days notice to the City. If Licensee terminates this License Agreement pursuant to this **Section 12.18(c)**, the City shall pay the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof, to Licensee in accordance with the provisions of **Section 3.2**.

(d) Beginning in Operating Year 5 of this License Agreement, the amounts stated in **Section 12.18(c)** (for the aggregate Additional Capital Improvements) shall increase every Operating Year in accordance with increases in the CPI. For purposes of calculating any increase in the amounts of individual and aggregate Additional Capital Improvements as a result of an increase in the CPI, the CPI for the Operating Year 5 shall be considered the base year. In no event shall such amounts be adjusted downward.

12.19 (a) Notwithstanding anything to the contrary in this Agreement, the City, at its sole cost and expense, shall:

(i) (x) perform all maintenance and make all repairs, replacements and Capital Improvements to the Licensed Premises, including, without limitation, all utility systems and connections, including but not limited to, underground utility lines located within the Licensed Premises, that are required by reason of Environmental Conditions and/or effects of Environmental Conditions (except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, in which case Licensee, at its sole cost and expense, shall be responsible for the maintenance, repairs, replacements and Capital Improvements that are required by reason of such negligence or willful misconduct of any of the Licensee Indemnitees), and (y) subject to **Section 11.3(b)** of the Development Agreement, repair, replace, restore or rebuild any of the City's Work or any other Capital Improvements performed by or on behalf of the City in which material defects of design, manufacture, construction or installation may appear or to which damage may occur because of such defects up to the one (1) year anniversary of the date of Substantial Completion with respect to any applicable item of the City's Work or other Capital Improvement, or in each case such longer period of time that the applicable item of the City's Work or Capital Improvement may be under warranty or guarantee. If Licensee discovers or becomes aware of (without any obligation to investigate) any material defects of design, manufacture, construction or installation or damage that has occurred because of such

defects, then Licensee shall send a written notice to the City in accordance with **Section 12.19(e)(i)** of this Agreement.

(ii) promptly undertake and diligently complete the removal and/or the remediation of Environmental Conditions and/or effects of Environmental Conditions (except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnites, in which case Licensee, at its sole cost and expense, shall be responsible for the removal and/or remediation that is required by reason of such negligence or willful misconduct of any of the Licensee Indemnites) at the Licensed Premises which require remediation or removal under applicable Environmental Laws or which materially and adversely interfere with the Grow-In or which materially and adversely interfere with the use of the Licensed Premises for any of the purposes or uses permitted hereunder, so that such Environmental Conditions and/or effects of Environmental Conditions no longer materially and adversely interfere with the Grow-In or the use of the Licensed Premises, if applicable, and in all events in accordance with all applicable Environmental Laws, to the satisfaction of all federal, state and City agencies having jurisdiction over such work and the standards of a first class, tournament quality daily fee golf course and a Jack Nicklaus Signature golf course, provided, however, that without limiting any of Licensee's, City's or Parks' rights or remedies under this Agreement (as the case may be), the City or Licensee (as the case may be) shall not be responsible to undertake such removal and/or remediation until it has received DEC approval for such removal and/or remediation, if required, provided that City or Licensee (as the case may be) shall use commercially reasonable efforts to obtain DEC approval for such removal and/or remediation, if required, as expeditiously as reasonably practicable and further provided that any of Licensee's submissions to DEC shall require the prior approval of Parks in accordance with **Section 12.19(e)**.

(iii) maintain, repair and replace as needed the irrigation and related systems and any other utility systems, connections or equipment or any other materials or items at depths at or below the municipal solid waste layer and/or where the maintenance, repair and/or replacement thereof will disturb or require excavation of the layer of municipal solid waste located below the surface of the Licensed Premises, except to the extent that Licensee has such obligations under **Section 7.4**;

(iv) be responsible for (i) the operation, maintenance and repair, if any, of the Licensed Premises as a site for the disposal of solid, hazardous or other waste materials by burial (a "Landfill") in compliance with applicable Legal Requirements, including, without limitation all applicable Environmental Laws, including compliance with the DEC Part 360 Permit and the DEC Deed, (ii) any Environmental Conditions and/or the effects thereof with respect to the Licensed Premises and/or resulting liability, which are caused by the Landfill, whether such Environmental Conditions and/or the effects thereof and resulting liability is presently existing or arises after the execution of this Agreement, (iii) any Environmental Condition and/or effects of Environmental Conditions that result from any conduct or condition that occurred or existed prior to the Concession Commencement Date, whether such Environmental Condition and/or effects of Environmental Conditions are presently existing or arises after the Concession Commencement Date, except to the extent that such Environmental Condition and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnites, in which case Licensee, at its sole cost and expense, shall be responsible for such Environmental Conditions and/or effects of Environmental Conditions caused or exacerbated by reason of such negligence or willful misconduct of any of the Licensee Indemnites, and (iv) obtaining any required

Governmental Approvals relating to Environmental Conditions, except that Licensee, at its sole cost and expense, shall be responsible for obtaining such Governmental Approvals to the extent required by Environmental Conditions that are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees;

(v) subject to the provisos in the next to last sentence of this **Section 12.19(a)(v)**, provide and install all required methane monitoring equipment and equipment required for the monitoring of settlement, provide staff to conduct the monitoring and reporting activities necessary for monitoring methane and settlement issues related to the Landfill and operate the methane monitoring equipment and settlement monitoring equipment installed by or on behalf of Parks, and be solely responsible for the management of such staff and the operation of such equipment and for reporting the results of such monitoring, in each case, in accordance with all applicable Environmental Laws, applicable Governmental Approvals, the DEC Part 360 Permit and the DEC Deed. For the sake of clarity, and without limiting the City's or Parks' obligations under this Agreement, applicable Legal Requirements, the DEC Part 360 Permit or the DEC Deed, the City and/or Parks shall conduct all inspections, maintenance, repair and monitoring activities of all on and off-site portions of the monitoring wells, gas venting trenches, active and passive gas venting systems, and piezometers required by the DEC Part 360 Permit, the DEC Deed and applicable Legal Requirements. Except as specifically provided in the provisos at the end of this sentence, Licensee shall have no responsibility for installing, affixing, replacing, operating, repairing, preserving or maintaining any equipment for the monitoring of methane and other gases, settlement and other Environmental Conditions and/or effects of Environmental Conditions at the Licensed Premises and the active and passive gas venting systems, provided, however, Licensee shall be responsible at its cost and expense solely (i) for the removal of bio growth for the portion of the venting trench within the Licensed Premises; (ii) for the portion of the venting trench within the Licensed Premises, for the annual replacement of mulch and the prompt replacement of mulch following any soil washouts of the mulch cover and (iii) for promptly repairing and/or replacing any such monitoring equipment at the Licensed Premises that is damaged due to the operations or activities of Licensee (ordinary wear and tear excepted); provided further that (x) if Licensee actually becomes aware of (without any obligation to investigate) any overgrowth of bio growth or that a soil washout of the mulch has occurred to a portion of the venting trench within the Licensed Premises, and Licensee cannot reasonably remove the bio growth or replace the mulch within forty-eight (48) hours of discovery, as the case may be, then Licensee shall promptly report such damage to Parks in writing and Licensee shall remove the bio growth or replace the mulch, as the case may be, within two weeks of discovery by Licensee, and (y) for the portion of the venting trench within the Licensed Premises, if Parks discovers the overgrowth of bio growth or that a soil washout of the mulch has occurred, Parks shall promptly notify Licensee and the IEM (as required by the DEC Part 360 Permit) in writing and Licensee shall remove the bio growth or replace the mulch, as the case may be, within two (2) weeks of receipt of such notification from Parks. In the event of any damage due to Licensee's operations or activities as set forth in clauses (ii) and (iii) of the preceding sentence, such damage shall be promptly reported to Parks in writing. Any work conducted or performed by Licensee at the Licensed Premises shall be in accordance with all applicable Environmental Laws, applicable Legal Requirements, applicable Governmental Approvals, the DEC Part 360 Permit (as applicable), the DEC Deed (as applicable) and any other licenses or permits required by applicable Legal Requirements; and

(vi) perform any reconstruction of, additional construction to, repair or renovation of the City's Work or any element of the Licensed Premises (including the installation of Fixed and Additional Fixed Equipment) required by Legal Requirements applicable to the Licensed Premises

(including, without limitation, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee's operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises) (each, a "City's Reconstruction Activity"), provided, that the City will not be required to perform any reconstruction of, additional construction to, repair or renovation of the Required Capital Improvements unless otherwise required to pursuant to this License Agreement and the Development Agreement, and provided further, that the City will not be required to perform any reconstruction of, additional construction to, repair or renovation of the City's Work or any element of the Licensed Premises to the extent that the need for such reconstruction, construction, repair or renovation has arisen as a result of Licensee's negligence, willful misconduct, or default or failure to perform under this License Agreement or the Development Agreement. Licensee shall not be responsible for any of City's Reconstruction Activities, which shall be performed by the City at the City's sole cost and expense. The City shall be responsible, at its sole cost and expense, for the restoration of any Hole or any portion of the Licensed Premises to the condition prior to the commencement of the City's Reconstruction Activities after the completion of the City's Reconstruction Activity on such Hole or portion of the Licensed Premises.

(b) Parks and the City hereby represent, warrant and covenant to the Licensee that (i) no portion of the Licensed Premises are actively being used for or during the Term will be used for the disposal of municipal solid waste, (ii) (1) no disposal of Hazardous Substances are currently permitted at Ferry Point Park and (2) during the Term and the term of the Development Agreement, no disposal of Hazardous Substances will be permitted at Ferry Point Park, (iii) any soil or other fill material brought to the Licensed Premises for the purpose of providing cover for the Landfill (except as brought by the Licensee in accordance with this Agreement and the Development Agreement) (x) shall not contain any Hazardous Substances in amounts that would result in a violation of Environmental Laws, the DEC Part 360 Permit or the DEC Deed or pose a threat to the safety or health of persons or the Environment, and (y) shall not compromise the integrity of the Golf Course or any building foundations, and (iv) the City will only undertake disposal of any solid waste that is in compliance with DEC Part 360 Permit, the DEC Deed and all applicable Environmental Laws and Legal Requirements.

(c) Notwithstanding anything to the contrary set forth in this License Agreement, the City shall indemnify, protect, defend and hold harmless Licensee, its members, partners, officers, directors, employees, agents, Affiliates, successors and assigns ("Licensee Indemnitees") from and against any and all claims, demands, losses, liabilities, obligations, fines, damages, penalties, lawsuits, costs, charges and expenses, including, without limitation, reasonable attorneys' fees and disbursements (collectively, "Claims"), relating to or in connection with: (i) a default or breach by Parks or the City under this License Agreement, including a breach of the representations set forth in this Agreement; (ii) the operation, maintenance, repair or regulatory compliance of the Landfill required under any Environmental Laws, (iii) the existence, exposure or disturbance of municipal solid waste at the Licensed Premises and the failure of the City to properly dispose of and/or remediate such municipal solid waste in accordance with applicable Legal Requirements (except to the extent that Licensee is required to dispose of and/or remediate such municipal solid waste pursuant to the terms of this Agreement or the Development Agreement) or pursuant to this Agreement or the Development Agreement (except to the extent such waste is exposed or disturbed by the negligence or willful misconduct of any of the Licensee Indemnitees, including but not limited to the negligence or willful misconduct of any of the Licensee Indemnitees in the course of performing Licensee's responsibilities pursuant to **Section 7.4** or **Section 12.16(b)** of this Agreement

or Section 11.4 or Section 12.1 of the Development Agreement), (iv) Environmental Conditions and/or effects of Environmental Conditions, whether such Environmental Conditions and/or effects of Environmental Conditions are presently existing or arise after the date hereof, except to the extent that such Environmental Condition and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, (v) the ownership or operation of the Licensed Premises (or any part thereof) prior to the turnover of such portion of the Licensed Premises to Licensee pursuant to the Development Agreement or this Agreement (except if Licensee performs any Capital Improvement or other activities on any portion of the Licensed Premises prior to the turnover of such portion of the Licensed Premises to Licensee pursuant to this Agreement or the Development Agreement, then subject to the terms of this Agreement and without limiting Parks' or the City's obligations under this Agreement and the Development Agreement, Licensee shall assume the risk for such Capital Improvement or activity); (vi) in connection with the City's Work (except to the extent that such City's Work was performed by Licensee in accordance with Section 10.8 of the Development Agreement; provided that even where the City's work is performed by Licensee in accordance with Section 10.8 of the Development Agreement, the foregoing indemnity shall apply to the extent any Claim is related to or in connection with Environmental Conditions and/or effects of Environmental Conditions except to the extent such Environmental Conditions and/or the effect of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and/or the City's Reconstruction Activities; (vii) wildlife hazards to nearby airports or air navigation resulting from geese and/or other wildlife at the Licensed Premises and/or any other City property within the vicinity of the Licensed Premises (including Ferry Point Park) and/or the City's control and/or mitigation of geese and/or other wildlife populations at any of the foregoing areas (including the lethal removal of geese) (except to the extent any such Claims set forth in this clause arise from the negligence or willful misconduct of any of the Licensee Indemnitees in performing any of the Licensee Goose Related Activities); (viii) Licensee's failure to comply with SEQRA/CEQR, the DEC Part 360 Permit or any other applicable laws to the extent Licensee's non-compliance is caused by Licensee's failure to comply with the statement contained in the SEQRA/CEQR assessment dated April 27, 2005 for Ferry Point Park that herbicides or pesticides will not be used at the Licensed Premises, that Parks acknowledges was made in error, (ix) any payment obligations under the Nicklaus Subcontract, except for remedies due to Nicklaus Design, if any, arising from the breach of this License Agreement by any of the Licensee Indemnitees or the negligence or willful misconduct of any of the Licensee Indemnitees, and (x) any obligations under the Nicklaus Subcontract to the extent that City is required to perform such obligations under this Agreement and/or the Development Agreement or if such obligations are required to be performed by or on behalf of Sanford Golf Design under the Nicklaus Subcontract. Notwithstanding anything to the contrary contained herein, the provisions of the City's indemnification shall not be construed to indemnify or provide for the defense of any of the Licensee Indemnitees to the extent any Claims are attributable to the acts or omissions of any of the Licensee Indemnitees (provided, however, notwithstanding the foregoing, the City's indemnification obligations shall apply to Claims related to or in connection with any Environmental Conditions and/or the effects of Environmental Conditions, except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees). The foregoing indemnification shall survive any termination or expiration of this License Agreement.

Notwithstanding anything to the contrary set forth in this License Agreement, Licensee shall indemnify, protect, defend and hold harmless City, Parks, their agents and employees (collectively, "**Indemnitees**") from and against any and all Claims relating to or in connection with: (i) a default or breach by Licensee under this License Agreement, including a breach of the representations set forth

in this Agreement; (ii) the exposure or disturbance of municipal solid waste at the Licensed Premises to the extent such municipal solid waste is exposed or disturbed by the negligence or willful misconduct of any of the Licensee Indemnitees and the failure of Licensee to properly dispose of and/or remediate such municipal solid waste in accordance with applicable Legal Requirements if required of Licensee by this Agreement in connection with such exposure or disturbance; (iii) the negligence or willful misconduct of any of the Licensee Indemnitees, including but not limited to, in the course of performing Licensee's responsibilities pursuant to Section 7.4 or Section 12.16(b) of this Agreement or Section 11.4 or Section 12.1 of the Development Agreement, (iv) the failure of Licensee to properly dispose of municipal solid waste, if required by this Agreement or the Development Agreement, in accordance with Legal Requirements, in the course of performing Licensee's responsibilities pursuant to Section 7.4 or Section 12.16(b) of this Agreement or Section 11.4 or Section 12.1 of the Development Agreement; (v) Environmental Conditions and/or effects of Environmental Conditions, whether such Environmental Conditions and/or effects of Environmental Conditions are presently existing or arise after the date hereof, to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees; and/or (vi) the performance by Licensee of the City's Work in accordance with Section 10.8 of the Development Agreement (provided that the foregoing in this clause (vi) shall not apply to the extent any Claim is related to or in connection with Environmental Conditions and/or effects of Environmental Conditions except to the extent such Environmental Conditions and/or the effect of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees); (vii) wildlife hazards to nearby airports or air navigation resulting from geese and/or other wildlife at the Licensed Premises and/or the Licensee's control and/or mitigation of geese and/or other wildlife populations at the Licensed Premises to the extent any such Claims set forth in this clause arise from the negligence or willful misconduct of any of the Licensee Indemnitees in performing any of the Licensee Goose Related Activities. Notwithstanding anything to the contrary contained herein, the provisions of Licensee's indemnification shall not be construed to indemnify or provide for the defense of any Indemnitees to the extent any Claims are attributable to the acts or omissions of the Indemnitees. The foregoing indemnification shall survive any termination or expiration of this License Agreement.

(d) Licensee shall at its sole cost and expense provide all new cover over the Landfill required by Licensee to replace cover that is removed or disturbed due to Licensee's construction and maintenance activities, Golf Course operations and maintenance. Licensee represents, warrants and covenants that any soil or other fill material brought to the Licensed Premises for the purpose of providing cover for the Landfill (x) shall not contain any Hazardous Substances in amounts that would result in a violation of Environmental Laws, the DEC Part 360 Permit or the DEC Deed or pose a threat to the safety or health of persons or the Environment, and (y) shall not compromise the integrity of the Golf Course or any building foundations

(e) (i) If (x) Licensee discovers (without any obligation to investigate) or becomes aware of any maintenance, repair, replacement, removal, remediation or other work ("**Repair or Remediation**") required to be performed by the City pursuant to Section 12.19(a), then within sixty (60) days of Licensee discovering (without any obligation to investigate) or becoming aware of any Repair or Remediation, Licensee shall send a written notice to the City (the "**Repair or Remediation Notice**") requesting that the City comply with such Repair or Remediation obligations, or (y) the City or Parks, as the case may be, discovers any Repair or Remediation that the City is required to perform pursuant to Section 12.19(a), then the City or Parks, as the case may be, shall send a written notification to Licensee.

(ii) If the subject Repair or Remediation does not require Repair or Remediation of an Environmental Condition, the City shall, within one hundred twenty (120) days (or one hundred eighty (180) days where the City needs to obtain a new or replacement Contractor to perform such Repair or Remediation) after receipt of such Repair or Remediation Notice or after the City or Parks, as the case may be, has sent a written notice to Licensee pursuant to **Section 12.19(e)(i)** above, commence such Repair or Remediation and shall diligently complete such Repair or Remediation, to the satisfaction of all federal, state and City agencies having jurisdiction over such work and the standards of a first class, tournament quality daily fee golf course and a Jack Nicklaus Signature golf course. If the City fails to commence the Repair or Remediation within the applicable period or fails to diligently complete such Repair or Remediation in accordance with the standards set forth herein within one hundred eighty (180) days of commencing such Repair or Remediation, Licensee may either (i) terminate this License Agreement or (ii) perform such Repair or Remediation.

(iii) If the subject Repair or Remediation requires Repair or Remediation of an Environmental Condition, within one hundred twenty (120) days (or one hundred eighty (180) days where the City needs to obtain a new or replacement Contractor to perform such Repair or Remediation) after its receipt of such Repair or Remediation Notice or after the City or Parks, as the case may be, has sent a written notice to Licensee pursuant to **Section 12.19(e)(i)** above, the City shall give written notice to Licensee whether or not the City will perform the Repair or Remediation, and, if the City elects to perform the Repair or Remediation, the amount of time, including any time required to obtain DEC approval of the proposed Repair or Remediation action, if required, that the City estimates will be required to complete the Repair or Remediation. In the event the City elects to undertake such Repair or Remediation the City shall, promptly thereafter, use commercially reasonable efforts to obtain DEC approval in accordance with **Section 12.19(a)(ii)** of this Agreement, and after receipt of DEC approval of any proposed Repair or Remediation action, if required, commence such Repair or Remediation and shall diligently complete such Repair or Remediation, to the satisfaction of all federal, state and City agencies having jurisdiction over such work and the standards of a first class, tournament quality daily fee golf course and a Jack Nicklaus Signature golf course. If the City elects not to undertake such Repair or Remediation or, having elected to perform such Repair or Remediation, fails to promptly commence the Repair or Remediation or to diligently complete such Repair or Remediation in accordance with the standards set forth herein within one hundred eighty (180) days of commencing such Repair or Remediation, Licensee may either (i) terminate this License Agreement or (ii) perform such Repair or Remediation, subject to DEC approval of any proposed Repair or Remediation action, if required.

(iv) In the event that the Repair or Remediation described above in this **Section 12.19(e)** is required due to an emergency condition or a condition that materially and adversely affects Licensee's Grow-In, construction of the Required Capital Improvements or operation of the Licensed Premises, or any part thereof (whether or not such emergency qualifies as an emergency pursuant to the New York City Charter or New York General Municipal Law, Article 5-A, §103, subsection 4), Licensee may request a meeting with Parks to discuss a plan for expediting the remediation, repair or replacement, as applicable, and Licensee and Parks shall attempt in good faith to promptly negotiate a mutually acceptable solution to expedite the remediation, repair, or replacement.

(v) In the event that the time to complete such Repair or Remediation under this **Section 12.19(e)**, including any time required to obtain any required DEC approval, as reasonably estimated by the City, exceeds twelve (12) months, and if, during such twelve (12) month period,

Licensee would not be able to conduct business at the Licensed Premises, Licensee shall have the right to terminate this Agreement.

(vi) (A) If (x) the City or Parks discovers (without any obligation to investigate) any maintenance, repair, replacement, removal, remediation or other work required to be performed by Licensee pursuant to **Section 12.19(a)** (“**Licensee Repair or Remediation**”), then the City or Parks, as the case may be, shall send a written notice to Licensee (the “**Licensee Repair or Remediation Notice**”) requesting that Licensee comply with such Licensee Repair or Remediation obligations, or (y) Licensee discovers any Licensee Repair or Remediation that Licensee is required to perform pursuant to **Section 12.19(a)**, then Licensee shall send a written notice to the City. The Parties agree that Licensee’s failure to perform a Licensee Repair or Remediation in accordance with the provisions of this Agreement shall be deemed a material breach or failure to substantially comply with this Agreement.

(B) If the subject Licensee Repair or Remediation does not require Licensee Repair or Remediation of an Environmental Condition, then Licensee shall, within one hundred twenty (120) days after receipt of such Licensee Repair or Remediation Notice or after Licensee has sent a written notice to the City pursuant to **Section 12.19(e)(vi)(A)** above, commence such Licensee Repair or Remediation and shall diligently complete such Licensee Repair or Remediation, to the satisfaction of all federal, state and City agencies having jurisdiction over such work and the standards of a first class, tournament quality daily fee golf course and a Jack Nicklaus Signature golf course within one hundred eighty (180) days of commencing such Licensee Repair or Remediation.

(C) If the subject Licensee Repair or Remediation requires Licensee Repair or Remediation of an Environmental Condition, within one hundred twenty (120) days after its receipt of such Licensee Repair or Remediation Notice or after Licensee has sent a written notice to the City pursuant to **Section 12.19(e)(vi)(A)** above, Licensee shall give written notice to the City of the amount of time, including any time required to obtain DEC approval of the proposed Licensee Repair or Remediation action, if required, that Licensee estimates will be required to complete the Licensee Repair or Remediation. Licensee shall, (x) promptly thereafter, submit its proposed submission for DEC to Parks for Parks’ approval, which approval shall be given or withheld (and if withheld shall state the reason for such withholding and the changes required by Parks) as expeditiously as reasonably possible to avoid any delay in the proposed submission to the DEC and in no event later than the earlier of (i) two (2) days prior to the time the submission is due to the DEC or (ii) fifteen (15) business days from the date of receipt of such request for approval by Parks and (y) after receipt of DEC approval of any proposed Licensee Repair or Remediation action, if required, commence such Licensee Repair or Remediation and shall diligently complete such Licensee Repair or Remediation, to the satisfaction of all federal, state and City agencies having jurisdiction over such work and the standards of a first class, tournament quality daily fee golf course and a Jack Nicklaus Signature golf course within one hundred eighty (180) days of commencing such Licensee Repair or Remediation.

(f) (i) If Licensee conducts a Repair or Remediation action at the Licensed Premises, as set forth in **Section 12.19(e)** (other than a Licensee Repair or Remediation action that Licensee is required to perform pursuant to **Section 12.19(a)**), then the City shall pay or reimburse Licensee in an amount equal to the reasonable cost of the Repair or Remediation (including all consultants, experts’ and attorneys’ fees) actually paid or incurred by Licensee, provided that documentation of

such costs, satisfactory to the City, is submitted to the City. In the event that the City fails to pay or reimburse Licensee for such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof, which License Fee Credit and interest, subject to the last sentence of **Section 4.10**, shall be Licensee's sole remedy hereunder for such costs of the Repair or Remediation. For the sake of clarity, the City shall not pay or reimburse Licensee and Licensee shall not be entitled to any License Fee Credit or any other remedy for conducting a Licensee Repair or Remediation action at the Licensed Premises that Licensee is required to perform pursuant to **Section 12.19(a)**.

(ii) Without limiting Licensee's rights under this Agreement, if Licensee performs any maintenance, repairs, replacement, restoration, or rebuilding that is required by reason of material defects of design, manufacture, construction or installation of the City's Work or any other Capital Improvements performed by or on behalf of the City which may appear or to which damage may occur because of such defect during the period beginning after the one (1) year anniversary of Substantial Completion with respect to any applicable item of the City's Work or other Capital Improvement, then the costs and expenses of such work shall be a Capital Improvement Cost and shall be credited against the Minimum Capital Improvement Cost to be expended by Licensee under this Agreement.

(g) If Licensee's operation of (A) at least two (2) Holes in accordance with the terms of this Agreement is adversely interrupted, impacted or restricted for (x) at least two (2) consecutive months during the golf season (which shall mean the period commencing on May 1st of a calendar year and ending on September 30th of the same calendar year) or (y) at least three (3) consecutive months at any time, or (B) the Practice Facility is adversely interrupted, impacted or restricted for at least the period between May 1st of a calendar year and September 30th of the same calendar year, through no fault of Licensee, due to (i) repairs, alterations, improvements, additions or maintenance work being performed by or on behalf of the City and/or Parks pursuant to **Section 19.3**; (ii) where such matter shall be within the City's and/or Parks' control, the City's and/or Parks' failure to provide (or cause to be provided) Utilities or other services that they are required to provide hereunder; (iii) Repair or Remediation being performed by or on behalf of the City and/or Parks pursuant to **Section 12.19(a)**, including any Repair or Remediation being performed by Licensee on behalf of the City pursuant to **Section 12.19(e)**; (iv) failure of the City and/or Parks to perform their Repair or Remediation obligations under **Section 12.19(a)**; (v) the existence or remediation of Environmental Conditions and/or effects of Environmental Conditions by or on behalf of either the City or Parks or Licensee (except to the extent that the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), or (v) Force Majeure, then, in such an event Licensee shall provide Parks with written documentation of same, and thereafter Licensee and Parks shall meet as soon as possible after notice from Licensee to Parks requesting a meeting (and in any event no later than within five (5) business days after such notice from Licensee to Parks) and cooperate in good faith to agree to an equitable solution to minimize such adverse effect, it being acknowledged and agreed by the Parties that Licensee is not assuming the risk with respect to the foregoing items listed above in this **Section 12.19(g)**. While the Parties shall use good faith efforts to agree to an equitable solution as quickly as possible, Parks shall provide its proposed solution no later than fifteen (15) business days from the Parties' meeting in accordance with the preceding sentence. Without limiting the scope of potential equitable solutions, the Parties recognize that an equitable solution may, depending on the circumstances and subject to compliance with applicable Legal Requirements, include, among other things, providing License Fee Credits; directly reimbursing Licensee for reasonable costs and expenses actually paid or incurred by Licensee, reducing the Minimum Annual Fee; extension of the

Concession Period; and allowing Licensee to operate and/or maintain the Licensed Premises to a standard lower than that required under the License Agreement; provided that an equitable solution shall not include lowering the standard of operation or maintenance below that of a “first class” golf course facility unless Parks and Licensee mutually agree to such reduction in each such Party’s sole discretion. If Licensee acts in good faith to reach an equitable solution and the Parties are unable to reach an equitable solution, Licensee shall have the right to seek all appropriate legal and equitable remedies.

(h) In the event that the Golf Course Facilities and the Clubhouse cannot be reasonably operated for a period of twelve (12) consecutive months to the standard of a first class, tournament quality daily fee golf course, by reason of any of the conditions set forth in Section 12.19(g), then Licensee may elect to terminate this License Agreement. If by reason of the conditions set forth in Section 9.40(z) Licensee is unable to complete the Grow-In so that the Licensed Premises can be operated to the standard of a first class, tournament quality daily fee golf course within the period of two (2) years following the City’s receipt of a notice pursuant to Legal Requirements (including any notice from the DEC) requiring the City to perform any City’s Reconstruction Activity (a “**Reconstruction Notice**”), then Licensee may elect to terminate this License Agreement, provided, however, if the City challenges (through administrative or judicial process, as applicable) a Reconstruction Notice in good faith, then the two (2) year period following City’s receipt of such Reconstruction Notice shall be tolled beginning on the date that the City initiates its challenge (through administrative or judicial process, as applicable) until the earlier of: (i) such time that the City’s challenge is denied beyond any right of appeal, and the two (2) year period shall begin or continue running, as the case may be, from the date of such denial or (ii) if the City is required pursuant to Legal Requirements to perform City’s Reconstruction Activities regardless of its good faith challenge of the Reconstruction Notice, such time that the City commences performance of City’s Reconstruction Activities after initiating the City’s challenge (through administrative or judicial process, as applicable) of the Reconstruction Notice. The City shall provide to Licensee notice of its receipt of any Reconstruction Notice within ten (10) business days after the City’s receipt thereof.

(i) If Licensee terminates this License Agreement pursuant to Sections 12.19(e)(ii), (iii), (v) or (h), the City shall pay the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in Section 3.2(b) hereof, to Licensee in accordance with the provisions of Section 3.2. The exercise of all options granted to Licensee under this Section 12.19 shall be solely at the discretion of the Licensee and shall be effective upon thirty (30) days written notice to the Commissioner.

13. EQUIPMENT

13.1 Except for and without limiting the City’s and Parks’ obligations under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), Licensee shall, at its sole cost and expense and to the satisfaction of Commissioner, acquire, provide, install or affix and replace, if necessary, all equipment materials and supplies necessary for the operation of the Licensed Premises, and put, keep, repair, preserve and maintain in good order all equipment found on, placed in, installed in or affixed to the Licensed Premises.

13.2 Commissioner represents that City has title to all Fixed Equipment. Licensee shall have the use of all Fixed Equipment located on the Licensed Premises.

13.3 Title to any Additional Fixed Equipment, and to all construction, renovation, or improvements made to the Licensed Premises shall vest in and belong to the City at the City's option, which option may be exercised at any time after the Substantial Completion of the affixing of said equipment or the Substantial Completion of such construction, renovation or improvement. To the extent City chooses not to exercise such option, it shall provide written notice thereof to Licensee, and it shall be the responsibility of Licensee, at its sole cost and expense, to remove such equipment during the Removal Period. For avoidance of doubt the Parties agree that Licensee shall not under any circumstances be required to remove completed buildings, heating, plumbing, air conditioning, electrical wiring, elevators, windows and ventilation fixtures. Notwithstanding the foregoing, Licensee shall have the right, at its sole cost and expense, to dispose of and replace any equipment subject to applicable law, including, without limitation, all Fixed and Additional Fixed Equipment and Expendable Equipment that is obsolete or that exceeds its useful life, provided that such Fixed and Additional Fixed Equipment is replaced with equipment of similar quality.

14. EXPENDABLE EQUIPMENT

14.1 Except for and without limiting the City's and Parks' obligations under the Development Agreement and this Agreement (including, without limitation, **Section 12.19(a)** of this Agreement) Licensee shall supply, at its own cost and expense, all Expendable Equipment, consumables and operating supplies and equipment reasonably required for the operation of this License Agreement, including, but not limited to, tables and chairs, and office furniture, and replace same at its own cost and expense when requested by Commissioner.

14.2 Licensee shall, to the reasonable satisfaction of Parks, supply a fleet of a sufficient number of golf carts for the successful operation of the Golf Course, maintain them in good condition, and replace them as reasonably necessary over the length of the Concession Period.

14.3 Except as provided in **Section 10.1**, title to all Expendable Equipment obtained by Licensee shall remain in Licensee and such equipment shall be removed by Licensee at the termination or expiration of this License Agreement. In the event Expendable Equipment remains in the Licensed Premises following such termination or expiration and after the Removal Period without Parks' express permission, Commissioner may treat such Expendable Equipment as abandoned and charge all reasonable costs and expenses incurred in the removal thereof to Licensee.

14.4 The Expendable Equipment to be removed by Licensee pursuant to **Section 14.3** above shall be removed from the Licensed Premises in such a way as shall cause no damage to the Licensed Premises. Notwithstanding its vacating and surrender of the Licensed Premises, Licensee shall remain liable to City for any damage it caused to the Licensed Premises.

15. CONDITION UPON SURRENDER

15.1 At the expiration or sooner termination of this License Agreement, Licensee shall surrender the Licensed Premises, and the Fixed and Additional Fixed Equipment to which City holds title, in at least as good a condition as said Licensed Premises and the Fixed and Additional Fixed Equipment were found by Licensee, reasonable wear and tear excepted.

15.2 Except as provided in this License Agreement and/or the Development Agreement, Licensee acknowledges that it is acquiring a license to use the Licensed Premises solely in reliance on its own

investigation and that no representations, warranties or statements have been made by the City concerning the fitness thereof.

16. RESERVATION FOR PARKS SPECIAL EVENTS

16.1 (a) For the purposes of this Section 16.1 and Section 16.2 only, the term “**Parks Sponsored Special Event(s)**” shall mean any event conducted, sponsored or contracted by Parks or its designee for which Parks has issued a Special Event Permit and which is consistent with the intended uses of the Licensed Premises. Licensee agrees to reserve all or a portion of the Licensed Premises as requested by Parks for Parks Sponsored Special Events; provided that (i) Licensee shall only be required to make the Licensed Premises available to Parks for up to six (6) Parks Sponsored Special Events per Operating Year (each of which such Parks Sponsored Special Events shall be no longer than twelve (12) hours); (ii) Parks will use its best efforts not to interfere with or impede Licensee’s income generating activities under the terms and conditions of this License Agreement or any of the Licensee’s other rights, powers and privileges necessary for the proper conduct and operation of the License; (iii) the scheduling of any Parks Sponsored Special Event is subject to the prior approval of Licensee, which may be withheld if Licensee has any event scheduled pursuant to Section 9.3(a) (and for the sake of clarity, Parks shall not require Licensee to cancel or postpone any such scheduled event); and (iv) Parks agrees to schedule such Parks Sponsored Special Events no less than thirty (30) days prior to the Parks Sponsored Special Event.

(b) Notwithstanding anything to the contrary in this Agreement, Parks will use its reasonable efforts to ensure that any third party sponsoring or promoting any Parks Sponsored Special Event pursuant to Section 16.1(a) will be responsible for maintenance, repair and clean-up associated with any such Parks Sponsored Special Event and Parks shall require any such third party to (i) purchase insurance for said special event, naming Licensee as an additional insured party; (ii) post a clean-up and restoration bond to ensure clean-up and restoration of the Licensed Premises; and (iii) indemnify Licensee Indemnitees for such losses, claims, suits, damages and costs associated with any such Parks Sponsored Special Event including reasonable attorney’s fees, to the extent that such losses, claims, suits, damages and costs are not attributable to the actions or omissions of any of the Licensee Indemnitees. Commissioner represents to Licensee that Commissioner has not granted to any other person or entity any license, permit, or right of possession or use which would prevent Licensee in any way from performing its obligations and realizing its rights under this License Agreement.

16.2 Parks agrees to notify any third party operator or sponsor of Parks Sponsored Special Events of Licensee’s rights to the Licensed Premises and to provide same with the name and telephone number of Licensee’s Manager.

17. PROHIBITION AGAINST TRANSFER

17.1 Except as provided in this License Agreement (including, without limitation, use of the Concession by the public as a golf course and Sections 18.1 thru 18.4 hereof), Licensee shall not sell, transfer, assign, sublicense or encumber in any way this License Agreement hereby granted, a majority of the shares of Licensee, or any equipment furnished as provided herein (provided that Licensee shall have the right to enter into equipment leases for or grant security interests in Expendable Equipment), or any interest therein, or consent, allow or permit any other person or party to use any part of the Licensed Premises, building, space or facilities covered by this License Agreement, nor shall this License Agreement be transferred by operation of law, unless approved in

advance in writing by Commissioner, it being the purpose of this License Agreement to grant this License Agreement solely to Licensee herein named.

18. ASSIGNMENTS AND SUBLICENSES

18.1 Licensee may assign or sublicense its interest in whole or in part in this License Agreement provided that Licensee obtains the Commissioner's prior written approval, as follows:

(a) No assignment or other transfer of any interest in this License Agreement shall be permitted which, alone or in combination with other prior or simultaneous transfers or assignments, would have the effect of changing the ownership and/or control, whether direct or indirect, of more than forty-nine percent (49%) of stock or voting control of Licensee in the Licensed Premises without the prior written consent of Commissioner. Licensee shall present to Commissioner the assignment or sublicense agreement for approval, together with any and all information as may be required by the City for such approval including a statement prepared by a certified public accountant indicating that the proposed assignee or sublicensee has a financial net worth reasonably acceptable to the Commissioner together with a certification that it shall provide management control reasonably acceptable to the Commissioner for the management and operation of the Licensed Premises. The constraints contained herein are intended to assure the City that the Licensed Premises are operated by persons, firms and corporations that are experienced and reputable operators and are not intended to diminish Licensee's interest in the Licensed Premises or to create any rights to payment as a condition of the granting of any required consent or approval.

(b) As used in this Section 18 the term "assignment" shall be deemed to include any direct or indirect assignment, sublet, sale, pledge, mortgage, transfer of or change in more than forty-nine percent (49%) in stock and/or voting control of the Licensee, including any transfer by operation of law. No sale or transfer of the stock owned by Licensee or its nominee may be made under any circumstance if such sale will result in a change of control violative of the intent of this Section 18.

18.2 Should Licensee choose to assign or sublicense the management and operation of any element of the Licensed Premises to another party, Licensee shall seek the approval of the Commissioner by submitting a written request including proposed assignment documents as provided above. The Commissioner may request any additional information Commissioner reasonably deems necessary and Licensee shall promptly comply with such requests.

18.3 No consent to or approval of any assignment or sublicense granted pursuant to this Section 18 shall constitute consent to or approval of any subsequent assignment or sublicense. Failure to comply with this provision shall cause the immediate termination of this License Agreement.

18.4 Except as set forth in Section 18.6 below, notwithstanding anything to the contrary contained in this Agreement, Licensee shall have the right to assign this License Agreement and the direct and indirect members of Licensee shall have the right to transfer of any direct or indirect ownership interests in Licensee, without the consent of the City, Parks or the Commissioner to (i) Donald J. Trump, (ii) the spouse and descendants of Donald J. Trump (including any related trusts controlled by, and established and maintained for the benefit of Donald J. Trump or such spouse or descendants), (iii) the estate of any of the foregoing or (iv) any entity in which Donald J. Trump and/or any of the parties referred to in clauses (i), (ii) or (iii) above has an ownership interest, provided that the proposed assignee/transferee is found by Parks, acting reasonably, to be responsible consistent with Section 1-07 of the FCRC Concession Rules, and further provided that the proposed

assignee agrees in writing to assume all of Licensee's responsibilities and obligations under the Agreement, and further provided that the Development Agreement, if then in effect, is simultaneously assigned to such entity. Licensee and proposed assignee/transferee shall comply with Vendex procedures in connection with any such assignment/transfer.

18.5 This License Agreement may be assigned by the City to any governmental corporation, governmental agency or governmental instrumentality having authority to accept such assignment provided such assignee assumes all of the City's obligations hereunder, and further provided that the Development Agreement is simultaneously assigned to such entity. The City shall provide the Licensee with prior written notice of any such assignment.

18.6 Notwithstanding anything to the contrary set forth in this **Article 18**, any assignment or sublicense by Licensee of any of its obligations under this Agreement that impacts upon the use of the Endorsement or the Nicklaus Subcontract shall be subject to the approval of Nicklaus Design (not to be unreasonably withheld or denied) and the provisions of **Section 1.8** above; provided that, notwithstanding anything in the foregoing to the contrary, the direct or indirect transfer of ownership interests in Licensee shall not require the approval of Nicklaus Design as long as the proposed transferee/assignee is found by Parks, acting reasonably, to be responsible consistent with Section 1-07 of the FCRC Concession Rules.

19. ALTERATIONS

19.1 (a) "Alteration" shall mean (excepting ordinary repair and maintenance):

(i) any restoration (to original premises or in the event of fire or other cause), rehabilitation, modification, addition or improvement to Licensed Premises; or

(ii) any work affecting the plumbing, heating, electrical, water, mechanical, ventilating or other systems of Licensed Premises.

(b) Licensee may make Alterations and Capital Improvements to the Licensed Premises only in accordance with the requirements of subsection (c) of this **Section 19.1**. Capital Improvements shall not include routine maintenance and repairs required to be performed in the normal course of management and operation of the Licensed Premises which may be undertaken by Licensee without approval by Nicklaus Design or Parks and/or the City. Licensee may use Capital Reserve Funds to pay for Alterations to the extent such Alterations are Capital Improvements. Alterations shall become property of the City, at the option of the City, upon their attachment, installation or affixing to the Licensed Premises.

(c) In order to make Alterations and Capital Improvements to the Licensed Premises pursuant to subsection (b) of this **Section 19.1**, Licensee shall:

(i) submit to Parks whatever designs, plans, specifications, cost estimates, agreements and contractual understandings that may pertain to the contemplated Alterations or Capital Improvement;

(ii) obtain the approval of the Commissioner, and, if required hereunder, of Nicklaus Design, to such Alterations or Capital Improvements in accordance with **subsection (d)** of this **Section 19.1**;

(iii) insure that work performed and Alterations made on Licensed Premises are undertaken and completed in accordance with submissions approved pursuant to **subsection (i)** of this **Section 19.1(c)**, in a good and workmanlike manner, and within a reasonable time; and

(iv) notify Commissioner of completion of, and the making final payment for, any Alteration within ten (10) days after the occurrence of said completion or final payment.

(d) (i) With regard to the Golf Course (but subject to **Section 19.1(d)(ii)** below), pursuant to the Nicklaus Subcontract, no substantial changes can be made to the Golf Course without the prior written approval of Nicklaus Design. Licensee acknowledges and agrees that Licensee shall obtain (x) a written determination from Nicklaus Design as to whether any proposed Alterations or Capital Improvements to the Golf Course are substantial in nature, and, if so, the express prior written approval of Nicklaus Design to such Alterations or Capital Improvements; and (y) the express prior written approval of Parks prior to making any Alterations or Capital Improvements to the Golf Course. Licensee shall request approval to commence Alterations or Capital Improvements from Parks and shall simultaneously provide Parks with copies of the documents set forth in **subsection (i) of Section 19.1(c)** together with the determination and approval, if required, from Nicklaus Design as described herein. In the event that the proposed Alterations or Capital Improvements have a cost of less than one hundred thousand dollars (\$100,000), Parks shall respond to any such approval request from Licensee within ten (10) business days of receipt of such request or such request shall be deemed approved. In the event that the proposed Alterations or Capital Improvements have a cost of one hundred thousand dollars (\$100,000) or greater, Parks shall use best efforts to respond to any such approval request from Licensee within thirty (30) business days of receipt of such request.

(ii) Licensee shall have the right from time to time to make Capital Improvements or Alterations with regard to the Clubhouse, Snack Bars, shelter houses, sanitary facilities, drinking fountains, maintenance facilities, irrigation system, storm drainage system, dams, bridges, walls, cart paths, utility lines or other similar improvements, facilities or structures incidental to the Golf Course, subject to the prior written approval of the Commissioner. For the sake of clarity and notwithstanding anything to the contrary contained in **Section 19.1(d)(i)**, Licensee is not required to obtain the approval of Nicklaus Design in connection with the Capital Improvements or Alterations described in this **Section 19.1(d)(ii)**. Parks shall have the right, but not the obligation, to submit any such request for approval to make such Alterations or Capital Improvements to Nicklaus Design for its written approval or its confirmation that its approval is not required. For all such proposed Alterations or Capital Improvements, Parks shall use best efforts to respond to any such approval request from Licensee within thirty (30) business days of receipt of such request, provided, however, that in the event such Alteration or Capital Improvement is needed to address an emergency condition, Licensee may address such emergency immediately upon notice to Parks, and Parks shall use best efforts to respond to Licensee's approval request for the final Alteration or Capital Improvement within ten (10) days.

(iii) Notwithstanding anything to the contrary contained herein, (A) the Commissioner's approval shall not be required for Alterations or Capital Improvements to the interior of the Clubhouse or any other building or structure located on the Licensed Premises having

a cost of less than one hundred thousand dollars (\$100,000) from Operating Year 1 until the end of Operating Year 5, one hundred and fifty thousand dollars (\$150,000) from Operating Year 6 until the end of Operating Year 10, two hundred thousand dollars (\$200,000) from Operating Year 11 until the end of Operating Year 15, and two hundred and fifty thousand dollars (\$250,000) from Operating Year 16 until the end of Operating Year 20, and (B) the approval of Nicklaus Design shall not be required for Alterations or Capital Improvements to the interior of the Clubhouse or any other building or structure located on the Licensed Premises.

19.2 In the event of an emergency or for health and safety reasons or following a default by Licensee in its obligations to repair and maintain the Licensed Premises for twenty five (25) days after notice, plus, if the default cannot be cured within such twenty five (25) day period, such additional time as may be reasonably necessary to cure such default, provided that Licensee promptly commences and diligently prosecutes such cure, the Commissioner may, in his reasonable discretion, make repairs, alterations, additions or improvements to Licensed Premises, but nothing in this **Section 19.2** shall be deemed to obligate or require Commissioner to make any repairs, alterations, additions or improvements, nor shall this provision in any way affect or impair Licensee's obligation herein in any respect. Commissioner may also make repairs, alterations, additions, or improvements at the City's expense in other cases, provided however that in such cases the prior written approval of the Licensee must be obtained, such approval not to be unreasonably withheld, and this provision shall not in any way affect or impair Licensee's obligation herein in any respect.

19.3 Parks reserves the right to perform construction or maintenance work at the Licensed Premises pursuant to **Section 19.2** or as required to be performed by Parks pursuant to this License Agreement at any time during the Term of this License Agreement (including pursuant to **Sections 9.40 and 12.19(a)(vi)**), provided that, except in the case of an emergency or for health and safety reasons, if requested by Licensee, after the Concession Commencement Date, Parks shall use best efforts to perform such works at the Licensed Premises during the off season or in a manner that minimizes disruption of the Golf Course operations between April 1st and October 31st of any year. Licensee agrees to cooperate with Parks, to accommodate any such work by Parks and provide public and construction access through the Licensed Premises as deemed necessary by the Commissioner. Parks shall use its best efforts to give Licensee at least fourteen (14) days' written notice of any such work and to not unreasonably interfere with Licensee's Grow-In, operations or use of the Licensed Premises. In performing their obligations under this License Agreement, Parks and the City shall use commercially reasonable efforts to minimize the extent to which the Grow-In and use of the Golf Course and the Licensed Premises are disrupted. Parks shall coordinate its work pursuant to this **Section 19.3** with Licensee. Parks or the City, as the case may be, shall be responsible for restoration of the Licensed Premises (subject to **Section 12.19(a)(vi)**) after the completion of any such work at the City's sole cost and expense, provided however that if Parks performs work following a default by Licensee as set forth in **Section 19.2**, then subject to **Section 4.4(c)**, Parks or the City may apply the Security Deposit, or as much thereof as may be necessary to compensate Parks or the City for the expense of performance of such work and/or restoration. Parks may temporarily close a part or all of the Licensed Premises for a Parks purpose as determined by the Commissioner, provided that if such closure adversely interrupts, impacts or restricts Licensee's operation of the Licensed Premises, then Licensee shall be entitled to exercise its rights and remedies pursuant to **Section 12.19(g)** of this Agreement. For the sake of clarity, all City's Reconstruction Activities shall be performed pursuant to and in accordance with this **Section 19.3**.

20. COMPLIANCE WITH LAWS

20.1 Except as otherwise specifically provided herein and without limiting Park's or the City's obligations under this License Agreement, in the performance of Licensee's duties hereunder, Licensee shall comply and cause its employees and agents to comply with all laws (including but not limited to Environmental Laws), rules, regulations, orders and Governmental Approvals now or hereafter reasonably prescribed by Commissioner applicable to Licensee's particular use of the Licensed Premises, and to comply with all Legal Requirements (including but not limited to Environmental Laws) applicable to Licensee's particular use and occupation of the Licensed Premises.

20.2 Licensee shall not use or allow the Licensed Premises, or any portion thereof, to be used or occupied for any unlawful purpose or in any manner violative of a certificate pertaining to occupancy or use during the Term of this License Agreement.

21. NON-DISCRIMINATION

21.1 With respect to all employment decisions, Licensee shall not unlawfully discriminate against any employee or applicant for employment because of race, creed, color, national origin, age, sex, handicap, marital status, or sexual orientation.

21.2 All advertising for employment shall indicate that Licensee is an Equal Opportunity Employer.

22. NO WAIVER OF RIGHTS

22.1 No acceptance by Commissioner of any compensation, fees, penalty sums, charges or other payments in whole or in part for any periods after a default of any terms and conditions herein shall be deemed a waiver of any right on the part of Commissioner to terminate this License Agreement. No waiver by Commissioner or Licensee of any default on the part of the other party hereto in performance of any of the terms and conditions herein shall be construed to be a waiver of any other or subsequent default in the performance of any of the said terms and conditions.

23. INDEMNIFICATION

23.1 To the fullest extent permitted by law, Licensee shall defend, indemnify and hold the Indemnitees harmless against any and all Claims, for which they are or may be liable as a result of any personal injury, death or property damage arising, in whole or in part, out of the work, activities or operations of any of the Licensee Indemnitees at the Licensed Premises pursuant to this License Agreement, except for Claims arising from Environmental Conditions and/or effects of Environmental Conditions, whether such Environmental Conditions and/or effects of Environmental Conditions are presently existing or arise after the date hereof except to the extent that such Environmental Condition and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees. Notwithstanding anything to the contrary contained herein, the provisions of this indemnification shall not be construed to indemnify or provide for the defense of any Indemnitees to the extent any Claims are attributable to the acts or omissions of the Indemnitees provided, however, for the sake of clarity, notwithstanding the foregoing, the indemnity or provision for the defense of Indemnitees shall apply to the extent any Claims are attributable to any Environmental Conditions and/or effects of Environmental Conditions

to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees. Licensee's duty to defend, indemnify and hold the Indemnitees harmless, as provided in this Section 23.1, shall survive the expiration or sooner termination of this License Agreement.

23.2 Intentionally Omitted

23.3 Licensee's duty to defend, indemnify and hold the Indemnitees harmless, as provided in Section 23.1, shall not be abrogated, diminished or otherwise affected by Licensee's further duty on their behalf to procure and maintain insurance pursuant to the provisions of Section 25 hereof, nor by their failure to avail themselves of the benefits of such insurance by due and timely demand upon the insurers therefor, and shall survive the expiration or sooner termination of this License Agreement.

23.4 Except as expressly provided in this License Agreement and/or in the Development Agreement, Licensee assumes all risk in the operation of this License Agreement. For the sake of clarity, and without limiting the City's or Parks' obligations under this Agreement, Licensee shall not be deemed to assume the risks associated with (a) Parks Sponsored Special Events, (b) any portion of the Licensed Premises prior to delivery of possession of such portion of the Licensed Premises to Licensee in accordance with the provisions of this License Agreement and the Development Agreement (except if Licensee performs any Capital Improvement or other activities on any portion of the Licensed Premises prior to delivery thereof to Licensee, then subject to the terms of this Agreement and the Development Agreement and without limiting Parks' or the City's obligations under this Agreement and the Development Agreement, Licensee shall assume the risk for such Capital Improvement or activity), (c) the City's or Parks' construction of the Golf Course, the Snack Bars and other facilities to be constructed by the City or Parks pursuant to this License Agreement and the Development Agreement (including City's Reconstruction Activities), (d) any Environmental Conditions and/or effects of Environmental Conditions whether such Environmental Conditions and/or effects of Environmental Conditions are presently existing or arise after the execution of this Agreement (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), (e) any settlement due to the Landfill, and (f) any of the City's or Parks' responsibilities under the DEC Part 360 Permit, the DEC Deed or other applicable Legal Requirements with respect to Environmental Conditions and/or effects of Environmental Conditions, except as otherwise provided in this License Agreement or the Development Agreement.

23.5 Without limiting the City's and Parks obligations under the Development Agreement and this Agreement (including, without limitation, Section 12.19(c) of this Agreement), the City shall defend, indemnify and hold the Licensee Indemnitees harmless against any and all Claims for which they are or may be liable as a result of any personal injury, death or property damage arising, in whole or in part, out of the work, activities or operations of the City or Parks, or the City's or Park's employees, contractors or other agents, at the Licensed Premises, including, without limitation, the City's or Park's construction of the Golf Course, the Snack Bars and other facilities to be constructed by the City or Parks pursuant to the Development Agreement (including City's Reconstruction Activities), and any Environmental Conditions and/or effects of Environmental Conditions presently existing or arising after the execution of this Agreement (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and any conditions existing on any portion of the Licensed Premises delivered to Licensee existing as of the date of delivery of such portion of the Licensed Premises to Licensee pursuant to this Agreement and

the Development Agreement, except to the extent caused by the negligence or willful misconduct of any of the Licensee Indemnitees prior to delivery of such portion of the Licensed Premises to Licensee. Notwithstanding anything to the contrary contained herein, the provisions of this indemnification shall not be construed to indemnify or provide for the defense of Licensee Indemnitees to the extent any Claims are attributable to the acts or omissions of any of the Licensee Indemnitees, provided, however, for the sake of clarity, notwithstanding the foregoing, the indemnity or provision for the defense of Licensee Indemnitees shall apply to the extent any Claims are attributable to any Environmental Conditions and/or effects of Environmental Conditions (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees). The City's duty to defend, indemnify and hold the Licensee Indemnitees harmless, as provided in this Section 23.5, shall survive the expiration or sooner termination of this License Agreement.

23.6 (a) In the City's defense of the Licensee Indemnitees (or any one of them), as applicable, in accordance with the terms of this Agreement (including, without limitation **Section 12.19(c)** and **Article 23**), the City shall not, without the prior written consent of Licensee, (i) make any non-monetary settlement of any Claims against any of the Licensee Indemnitees or (ii) make any monetary settlement of any Claims against any of the Licensee Indemnitees unless such monetary settlement is free of any admission of guilt or wrongdoing by any of the Licensee Indemnitees. Additionally, the City agrees (i) to make good faith efforts to consult with Licensee regarding legal strategy in the defense of any Claims against any of the Licensee Indemnitees (including positions asserted, claims and counterclaims) and (ii) not to portray any of the Licensee Indemnitees in a negative light.

(b) In Licensee's defense of the Indemnitees (or any one of them), as applicable, in accordance with the terms of this Agreement (including, without limitation **Section 12.19(c)** and **Article 23**), Licensee shall not, without the prior written consent of the City, (i) make any non-monetary settlement of any Claims against any of the Indemnitees or (ii) make any monetary settlement of any Claims against any of the Indemnitees unless such monetary settlement is free of any admission of guilt or wrongdoing by any of the Indemnitees. Additionally, Licensee agrees (i) to make good faith efforts to consult with the City regarding legal strategy in the defense of any Claims against any of the Indemnitees (including positions asserted, claims and counterclaims) and (ii) not to portray the City in a negative light.

24. WAIVER OF COMPENSATION

24.1 Except as otherwise provided in this Agreement or in the Development Agreement, including, without limitation, any provisions which provide for a License Fee Credit (with interest thereon at the Interest Rate as set forth in **Section 4.10** hereof) or Termination Payment (with interest thereon, as applicable, at the Interest Rate as set forth in **Section 3.2(b)** hereof) to Licensee, Licensee hereby expressly (i) waives any and all claims for compensation for any and all loss or damage sustained by reason of or arising from, and (ii) releases and discharges Parks, the Commissioner, his agents, and City from, any and all demands, claims, actions, and causes of action arising from, (1) any defects, including, but not limited to, deficiency or impairment of the water supply system, gas mains, electrical apparatus or wires furnished for the Licensed Premises, or (2) any loss of any gas supply, water supply, heat or current which may occur from time to time, or (3) fire, water, windstorm, tornado, explosion, civil commotion, strike or riot, except, in each case, to the extent arising from (A) the negligence or willful misconduct of Parks or the City or due to Environmental

Conditions and/or the effects of Environmental Conditions (except to the extent such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), (B) the Landfill at the Licensed Premises, or (C) any material defects in design, manufacture, construction or installation by the City or Parks or their contractors or other agents.

24.2 Except as set forth in **Section 3.2(b)** and any other provision of this Agreement or the Development Agreement which specifically provides for the payment of a Termination Payment, Licensee expressly waives any and all claims for compensation, loss of profit, or refund of its investment, if any, or any other payment whatsoever, in the event this License Agreement is terminated in accordance with the terms of this License Agreement; provided that for the sake of clarity, Licensee shall be entitled to interest, as applicable, on any Termination Payment at the Interest Rate as set forth in **Section 3.2(b)** of this Agreement.

25. INSURANCE

25.1 Licensee shall, at its own cost and expense, procure and maintain on or before the Concession Commencement Date and thereafter during the Term of this License Agreement, such insurance as will:

(a) protect Licensee from Worker's Compensation, including Employer's Liability and Disability claims;

(b) insure Licensee, its agents and sublicensees, and Licensee Indemnitees, the City, Parks, and their respective officials, agents and employees against any and all Claims, for which they, or any of them, are or may be liable as a result of any bodily injury, including death, or property damage arising, in whole or in part, from Licensee's operations pursuant to this License Agreement, including but not limited to any accident occurring on the Licensed Premises, the operation of the Licensed Premises, and the design, construction, installation, operation, repair, maintenance, replacement or removal of any Capital Improvements by Licensee or any of the Licensee Indemnitees. For the sake of clarity, such insurance shall not apply to the extent Claims are related to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees), or (y) any other matter for which the City or Parks is responsible or liable under this Agreement or the Development Agreement;

(c) provide coverage against business interruption losses; and

(d) insure the Licensed Premises, including without limitation all structures and the Fixed and Additional Fixed Equipment, against any damage from any cause whatsoever.

25.2 (a) The policies shall provide the amounts of insurance hereafter mentioned, and before the Concession Commencement Date, Certificates of Insurance and Broker's Certification in forms satisfactory to the Commissioner shall be submitted to Commissioner for his approval and retention. Each policy shall be endorsed to reflect that "No cancellation of or change in this policy shall become effective until after thirty (30) days notice by Certified Mail to Asst. Commissioner for Revenue and Marketing, Department of Parks & Recreation, The Arsenal, 830 Fifth Avenue, New York, New York 10065." Licensee shall be solely responsible for the payment of all premiums,

deductibles and other costs relating to the policies of insurance required under this License Agreement. Licensee shall obtain from the insurance broker accounting statements providing evidence that the premiums for the insurance policies have been paid and shall submit such accounting statements to Commissioner. There shall be no self-insurance program relating to any such insurance, unless approved in writing by the Commissioner, which approval shall not be unreasonably withheld, conditioned or delayed. Licensee shall be required to demonstrate to the Commissioner's reasonable satisfaction that such self-insurance program provides coverage at least as broad as required herein and provides the City and Parks with all rights required herein.

(b) Each policy shall also provide that the insurer is obligated to provide a legal defense in the event any claim is made against the City regarding the operation of this License Agreement, provided that the foregoing in this Section 25.2 shall not apply where such claims are related exclusively to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees) or (y) any other matter for which the City or Parks is solely responsible or liable under this Agreement or the Development Agreement. For the sake of clarity, this Section 25.2(b) relates only to issues of legal defense and does not relate to indemnification or liability under any policy. If, at any time, any of said policies shall reasonably become unsatisfactory to Commissioner as to form or substance, or if a company issuing any such policies shall reasonably become unsatisfactory to Commissioner, Licensee shall promptly (within not more than fifteen (15) business days) obtain a new policy, and submit the same to Commissioner for written approval, which shall not be unreasonably withheld, and for retention thereof as hereinabove provided.

(c) If, at any time, any of said policies shall terminate, Licensee shall, prior to the termination of such existing policy, promptly obtain a new policy, and submit the required Certificate of Insurance and Broker's Certification (or binder) to Commissioner for written approval, which shall not be unreasonably withheld, and for retention thereof as hereinbefore provided. In the event any insurance is suspended, discontinued, or terminated, Licensee shall have the right, prior to such suspension, discontinuation, or termination, to secure replacement insurance satisfying the requirements of this Section 25 and provide Parks with a Certificate of Insurance and Broker's Certification (or binder) evidencing such insurance. Upon failure of Licensee to maintain, furnish and deliver insurance (including renewal or replacement insurance) or to provide Certificate(s) of Insurance and Broker's Certification (or binder(s)) as above provided in this Section 25, this License Agreement may, at the election of Commissioner, be immediately suspended and/or may be terminated in accordance with the provisions of Section 3.3 and any and all payments made by Licensee on account of this License Agreement shall thereupon be retained by Commissioner as additional liquidated damages along with the Security Deposit. Failure of Licensee to take out and/or maintain or the taking out or maintenance of any required insurance shall not relieve Licensee from any liability under this License Agreement, nor shall the insurance requirements be construed to conflict with or limit the obligations of Licensee concerning indemnification or otherwise.

25.3 If the Licensed Premises, including without limitation all structures and the Fixed and Additional Fixed Equipment shall be damaged or destroyed by fire or other cause, such damage shall be promptly repaired or replaced so that the Licensed Premises are in the same condition as prior to such damage; provided for the sake of clarity, if such repair or replacement shall be the responsibility of the City (rather than Licensee) under Section 12.19 of this Agreement, then the City shall be liable for the repair and replacement at its sole cost and expense and an insurance claim shall not be filed under Licensee's insurance policies unless Licensee agrees, in its sole discretion. Except for and

without limiting the City's and Parks' obligations for any repair or restoration under the Development Agreement and this Agreement (including, without limitation, Section 12.19(a) of this Agreement), Licensee shall promptly commence and diligently prosecute to completion any restoration or repair within six months (or such longer period as is reasonably necessary to complete such restoration and repairs) after Licensee is notified by Commissioner, that insurance proceeds have been received and are available for such work. If insurance proceeds are received by the City, at Licensee's request, the City shall advance such insurance proceeds in accordance with Section 25.4 of this Agreement, except that such payments shall in no event exceed the amount actually collected and received by Commissioner under the insurance policies. Any extension of time for the completion of Restoration shall be granted at the reasonable discretion of Commissioner. For the sake of clarity, Licensee's insurance policies and the proceeds of such insurance policies are intended to apply to any repair or restoration that are the responsibility of Licensee under this License Agreement. In no event shall Licensee's insurance policies and the proceeds of such insurance policies be utilized for any repair or restoration that are the responsibility of the City under this License Agreement.

25.4 (a) Subject to Section 25.3 of this Agreement, to the extent the insurance proceeds are paid to the City under the All-Risk insurance policies procured under this License Agreement on account of such damage or destruction, such insurance proceeds less the reasonable costs of the City with the recovery or adjustment of the losses, shall be applied by the City to the payment of the cost of the restoration, repairs, replacements, rebuilding or alterations, including the costs of temporary repairs, provided such temporary repairs have been approved by Commissioner in writing, for the protection of property pending the completion of permanent restoration, repairs, replacements, rebuilding or alterations (collectively referred to as the "**Restoration**"), and shall be paid out from time to time, on a monthly basis, if requested by Licensee, as such restoration progresses upon the written request of the Licensee which shall be accompanied by:

(i) a certificate signed by an executive officer of Licensee and signed by the Architect/Engineer in charge of Restoration (who shall be satisfactory to the Commissioner) dated not more than thirty (30) days prior to such request, setting forth the following:

(A) that the sum then requested either has been paid by Licensee, or if in the event the Licensee is unable to pay for the Restoration, and funds are to be advanced by the City pursuant to Section 25.3, that said sum is justly due or shall become due to contractors, subcontractors, suppliers, engineers, architects or other persons who shall or have rendered services or furnished materials for said Restoration, and giving a brief description of such services and materials and the several amounts so paid and/or due or to become due to each of said persons in respect thereof and the sum then requested does not exceed the cost of the services and materials described in the certificate;

(B) that except for the amount, if any, stated in said certificate pursuant to this Section 25.4, i.e., to be due for services or materials, there is no outstanding indebtedness known to Licensee, after due inquiry, which is then due for labor, wages, materials, supplies or services in connection with Restoration; and

(C) that the cost, as estimated by such Architect/Engineer, of the Restoration required to be done subsequent to the date of such certificate in order to complete the same does not exceed the insurance money remaining in the hands of the City after payment of the sum requested in such certificate; and

(ii) A Title Company search or other evidence satisfactory to the Commissioner showing that there has not been filed with respect to the Licensed Premises any mechanic's or other lien which has not been discharged of record or appropriately bonded.

(b) Within ten (10) days after compliance by Licensee with this **Section 25.4**, the City, shall, on behalf of the Licensee out of such insurance money, pay or cause to be paid to the persons named in the certificate, pursuant to **Section 25.4(a)(i)**, the respective amounts stated in said certificate to be due to them and/or shall pay or cause to be paid to Licensee the amount stated in said Certificate to have been paid by Licensee. Licensee shall have the right to make requests for disbursement of insurance proceeds on a monthly basis. Notwithstanding the foregoing, where a Restoration is Licensee's responsibility under this Agreement, in the event that Licensee fails to undertake the Restoration of Licensed Premises as a result of damage or destruction by fire or other casualty in accordance with **Section 25.3**, the Commissioner may but shall not be obligated to proceed with such Restoration using insurance proceeds received for such purpose and may terminate this License Agreement upon written notice to Licensee. However, if this License Agreement is terminated as provided in this **Section 25.4**, Licensee shall be responsible for the payment for any fees or other sums then due and owing to the City and the City reserves any and all rights it may have against the Licensee in law or in equity as a result of the termination of this License Agreement.

25.5 Should Licensee fail, after notice from the City of the need thereof, to perform its obligations required under **Sections 25.3** or **25.4**, the City in addition to all other available remedies may, but shall not be so obligated to enter upon the Licensed Premises and perform Licensee's said failed obligations using any equipment or materials on the Premises suitable for such purposes. Licensee shall forthwith on demand reimburse City for all costs and expenses so incurred.

25.6 All required insurance must be issued by companies which have an A.M. Best rating of at least A-7 and are duly licensed to do business in the State of New York and must be in effect and continue so from and after the Concession Commencement Date during the Term in not less than the following amounts (or such higher amounts as the Commissioner may hereafter reasonably require):

Workers' Compensation and Disability Insurance	Per Statute
Employer's Liability Insurance	As required by the laws of the State of New York
Comprehensive General Liability Insurance dedicated to Licensee's operations at the Licensed Premises (with Broad Form Property Damage, Personal Injury Liability, Products/Completed Operations Liability, Contractual Liability, Independent Contractors, Fire/Legal Liability, Host Liquor Liability, Property Insurance Endorsements), for any one occurrence	\$2,000,000
Any Auto, Hired Auto, and Non-Owned Auto Insurance, for any one occurrence	\$1,000,000
Umbrella/Excess Liability dedicated to Licensee's operations at the Licensed Premises	\$3,000,000

All Risk Insurance, for any one occurrence	The full replacement value of the buildings on the Licensed Premises, including without limitation all structures and the Fixed and Additional Fixed Equipment, which shall be reassessed every year or at Parks' reasonable discretion.
--	--

In the event that Licensee maintains Pollution Legal Liability Insurance with regard to any operations under this Agreement or requires any of Licensee's Contractors to procure Contractors Pollution Liability Insurance, then Licensee shall or Licensee shall cause Licensee's Contractors to name the City, including its officials and employees, as an additional insured with coverage at least as broad as ISO Form CG 2026. For the sake of clarity, Licensee has the right, but not the obligation, to maintain or cause Licensee's Contractors to procure and maintain such insurance.

Further, for the sake of clarity, such insurance shall not protect the City, Parks and their respective agents and employees, with regards to Environmental Conditions and/or the effects of Environmental Conditions, except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees.

25.7 In the event that claims in excess of these amounts (including Licensee's umbrella insurance policy) are filed against the City, the amount of excess of such claims, or any portion thereof, may be withheld from any payment due or to become due to Licensee until such time as Licensee shall furnish such additional security covering such claims as may be reasonably determined by Commissioner; provided that the foregoing in this **Section 25.7** shall not apply to the extent such claims are related to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees) or (y) any other matter for which the City or Parks is responsible or liable under this Agreement or the License Agreement.

25.8 All policies other than Worker's Compensation, Disability Benefits, Employer's Liability and All Risk shall name the City, including its officials and employees, as Additional Insured with coverage at least as broad as Insurance Services Office (ISO) Form CG 20 26. The All Risk policy shall name the Licensee as named insured and the City as an additional loss payee, as their interests may appear.

25.9 Endorsement to Policies - The following additional endorsements shall be made part of all policies other than Worker's Compensation, Disability Benefits, and Employer's Liability:

(a) This policy shall not be canceled, terminated, modified, or the coverage thereof reduced, until thirty (30) days after receipt of written notice thereof by certified mail addressed to the Commissioner.

(b) If and insofar as knowledge of an "occurrence", "claim", or "suit" is relevant to the City of New York as additional insured under this policy, such knowledge by an agent, servant, official or employee of the City of New York will not be considered knowledge on the part of the

City of New York of the “occurrence”, “claim”, or “suit” unless notice thereof is received by the: Insurance Claims Specialist, Affirmative Litigation Division, New York City Law Department.

(c) Any notice demand or other writing by or on behalf of the named insured to the insurance company shall also be deemed to be a notice, demand or other writing on behalf of the City as additional insured. Any response by the Insurance Company to such notice, demand or other writing shall be addressed to the named insured and to the City at the following address: Insurance Claims Specialist, Affirmative Litigation Division, New York City Law Department, 100 Church Street, New York, New York 10007.

(d) The presence of representatives of the City on the Licensed Premises shall not invalidate this policy.

(e) Violation of any of the terms of any other policy issued by the Insurance Company to the Licensee shall not invalidate this policy.

26. INVESTIGATIONS

26.1 (a) The Parties to this License Agreement shall cooperate fully and faithfully with any investigation, audit or inquiry conducted by a State of New York (hereinafter “State”) or City governmental agency or authority that is empowered directly or by designation to compel the attendance of witnesses and to examine witnesses under oath, or conducted by the Inspector General of a governmental agency that is a party in interest to the transaction, submitted bid, submitted proposal, contract, lease, permit, or license that is the subject of the investigation, audit or inquiry.

(b) (i) If any person who has been advised that his or her statement, and any information from such statement, will not be used against him or her in any subsequent criminal proceeding refuses to testify before a grand jury or other governmental agency or authority empowered directly or by designation to compel the attendance of witnesses and to examine witnesses under oath concerning the award of or performance under any transaction, agreement, lease, permit, contract, or license entered into with the City, the State, or any political subdivision or public authority thereof, or the Port Authority of New York and New Jersey, or any local development corporation within the City, or any public benefit corporation organized under the laws of the State of New York; or

(ii) If any person refuses to testify for a reason other than the assertion of his or her privilege against self incrimination in an investigation, audit or inquiry conducted by a City or State governmental agency or authority empowered directly or by designation to compel the attendance of witnesses and to take testimony concerning the award of, or performance under, any transaction, agreement, lease, permit, contract, or license entered into with the City, the State, or any political subdivision thereof or any local development corporation within the City, then:

(c) (i) The Commissioner or agency head whose agency is a party in interest to the transaction, submitted bid, submitted proposal, contract, lease, permit, or license shall convene a hearing, upon not less than five (5) days written notice to the parties involved to determine if any penalties should attach for the failure of any person to testify.

(ii) If any non-governmental party to the hearing requests an adjournment, the Commissioner or agency head who convened the hearing may, upon granting the adjournment,

suspend any contract, lease, permit, or license pending the final determination pursuant to **Section 26.1(e)** below without the City incurring any penalty or damages for delay or otherwise.

(d) The penalties which may attach after a final determination by the Commissioner or agency head may include but shall not exceed:

(i) The disqualification for a period not to exceed five (5) years from the date of an adverse determination of any person or entity of which such person was a member at the time the testimony was sought, from submitting bids for, or transacting business with, or entering into or obtaining any contract, lease, permit or license with or from the City; and/or

(ii) The cancellation or termination of any and all existing City contracts, leases, permits, or licenses that the refusal to testify concerns and that have not been assigned as permitted under this License Agreement, nor the proceeds of which pledged, to an unaffiliated and unrelated institutional lender for fair value prior to the issuance of the notice scheduling the hearing, without the City incurring any penalty or damages on account of such cancellation or termination; monies lawfully due for goods delivered, work done, rentals, or fees accrued prior to the cancellation or termination shall be paid by the City.

(e) The Commissioner or agency head shall consider and address in reaching his or her determination and in assessing an appropriate penalty the factors in **Section 26.1(e)(i)** and **(ii)** below. He or she may also consider, if relevant and appropriate, the criteria established in **Sections 26.1(e)(iii)** and **(iv)** below in addition to any other information which may be relevant and appropriate.

(i) The party's good faith endeavors or lack thereof to cooperate fully and faithfully with any governmental investigation or audit, including but not limited to the discipline, discharge, or disassociation of any person failing to testify, the production of accurate and complete books and records, and the forthcoming testimony of all other members, agents, assignees or fiduciaries whose testimony is sought.

(ii) The relationship of the person who refused to testify to any entity that is a party to the hearing, including, but not limited to, whether the person whose testimony is sought has an ownership interest in the entity and/or the degree of authority and responsibility the person has within the entity.

(iii) The nexus of the testimony sought to the subject entity and its contracts, leases, permits or licenses with the City.

(iv) The effect a penalty may have on an unaffiliated and unrelated party or entity that has a significant interest in an entity subject to penalties under **Section 26.1(d)** above, provided that the party or entity has given actual notice to the Commissioner or agency head upon the acquisition of the interest, or at the hearing called for in **Section 26.1(c)(i)** above gives notice and proves that such interest was previously acquired. Under either circumstance the party or entity must present evidence at the hearing demonstrating the potentially adverse impact a penalty will have on such person or entity.

(f) (i) The term "license" or "permit" as used herein shall be defined as a license, permit, franchise or concession not granted as a matter of right.

(ii) The term “**person**” as used herein shall be defined as any natural person doing business alone or associated with another person or entity as a partner, director, officer, principal or employee.

(iii) The term “**entity**” as used herein shall be defined as any firm, partnership, corporation, association, or person that receives monies, benefits, licenses, leases, or permits from or through the City or otherwise transacts business with the City.

(iv) The term “**member**” as used herein shall be defined as any person associated with another person or entity as a partner, director, officer, principal or employee.

(g) In addition to and notwithstanding any other provision of this License Agreement the Commissioner or agency head may in his or her sole discretion terminate this License Agreement upon not less than three (3) days written notice in the event Licensee fails to promptly report in writing to the Commissioner of Investigation of the City of New York any solicitation of money, goods, requests for future employment or other benefit or thing of value, by or on behalf of any employee of the City of other person, firm, corporation or entity for any purpose which may be related to the procurement or obtaining of this License Agreement by the Licensee, or affecting the performance or this License Agreement.

27. CHOICE OF LAW, CONSENT TO JURISDICTION AND VENUE

27.1 This License Agreement shall be deemed to be executed in the City of New York, State of New York, regardless of the domicile of the Licensee, and shall be governed by and construed in accordance with the laws of the State of New York.

27.2 Any and all claims asserted by or against the City (which for purposes of this Article 27 includes the Commissioner) or Licensee arising under this License Agreement or related thereto shall be heard and determined either in the courts of the United States located in New York City (“**Federal Courts**”) or in the courts of the State of New York (“**New York State Courts**”) located in the City and County of New York. To effect this License Agreement and its intent, Licensee and the City agree:

(a) If any such action or proceeding is brought in Federal Court or in New York State Court, service of process may be made on the City or Licensee, as the case may be, by personal service in accordance with the provisions of the New York Civil Practice Law and Rules (“CPLR”), wherever such party may be found (and if the City is the party being served, process shall be served on the Corporation Counsel, 100 Church Street, New York, New York 10007); provided, however, that in so far as service is to be made upon the Licensee, as an alternative to personal service in accordance with the provisions of the CPLR, service of process upon Licensee may be made in such other manner and at such other address for Licensee in each case only as Licensee may provide in writing to the City; and

(b) With respect to any action between the City and the Licensee in New York State Court, the Licensee and the City each hereby expressly waives and relinquishes any right it might otherwise have (i) to move to dismiss on grounds of forum non conveniens, (ii) to remove to Federal Court; and (iii) to move for a change of venue to a New York State Court outside New York County.

(c) With respect to any action between the City and the Licensee in Federal Court located in New York City, each of them expressly waives and relinquishes any right it might otherwise have to move to transfer the action to a United States Court outside the City of New York.

27.3 If the Licensee or the City commences any action arising under or in connection with this License Agreement against any of them in a court located other than in the City and State of New York, upon request of any of the other of such Parties, the commencing party shall either consent to a transfer of the action to a court of competent jurisdiction located in the City and State of New York or, if the court where the action is initially brought will not or cannot transfer the action, the commencing party shall consent to dismiss such action without prejudice and may thereafter reinstitute the action in a court of competent jurisdiction in New York City.

28. EMPLOYEES OF LICENSEE/CITY

28.1 (a) All experts, consultants and employees of Licensee who are employed by Licensee to perform work under this License Agreement or the Development Agreement on behalf of Licensee are not employees of the City with respect to such work and shall not be deemed to be under contract to the City for such work, and Licensee alone is responsible for their work, direction, compensation and personal conduct while engaged under this License Agreement or the Development Agreement for such work. Except as may be expressly set forth in this Agreement or the Development Agreement, nothing in this License Agreement or the Development Agreement shall impose any liability or duty on the City for (A) acts, omissions, liabilities or obligations of (i) Licensee or (ii) any person, firm, company, agency, association, corporation or organization engaged by Licensee as expert, consultant, independent contractor, specialist, trainee, employee, servant, or agent for or arising from work to be done on behalf of Licensee (any such person or entity so engaged, a “**Licensee Party**”) or (B) taxes of any nature including but not limited to unemployment insurance, workers' compensation, disability benefits and social security with respect to Licensee or any Licensee Party.

(b) All experts, consultants and employees of the City who are employed by the City to perform work under this License Agreement or the Development Agreement on behalf of the City are not employees of Licensee with respect to such work and shall not be deemed to be under contract to Licensee for such work, and the City alone is responsible for their work, direction, compensation and personal conduct while engaged under this License Agreement or the Development Agreement for such work. Except as may be expressly set forth in this Agreement or the Development Agreement, nothing in this License Agreement or the Development Agreement shall impose any liability or duty on the Licensee for (A) acts, omissions, liabilities or obligations of (i) the City or (ii) any person, firm, company, agency, association, corporation or organization engaged by the City as expert, consultant, independent contractor, specialist, trainee, employee, servant, or agent for or arising from work to be done on behalf of the City (any such person or entity so engaged, a “**City Party**”) or (B) taxes of any nature including but not limited to unemployment insurance, workers' compensation, disability benefits and social security with respect to the City or any City Party.

29. INDEPENDENT STATUS OF LICENSEE

29.1 Licensee is not an employee of Parks or the City and in accordance with such independent status neither Licensee nor its employees or agents will hold themselves out as, nor claim to be

officers or employees of the City, or of any department, agency, or unit thereof, and they will not make any claim, demand, or application to or for, any right or privilege applicable to an officer of, or employee of, the City, including but not limited to, workers' compensation coverage, unemployment insurance benefits, social security coverage or employee retirement membership or credit.

30. CONFLICT OF INTEREST

30.1 Licensee represents and warrants that neither it nor any of its members, partners, officers, directors, or Affiliates, has any interest nor shall it acquire any interest, directly or indirectly, which would or may conflict in any manner or degree with the performance or rendering of the services herein provided. Licensee further represents and warrants that, to its knowledge, none of its employees has any interest, which would or may conflict in any manner or degree with the performance or rendering of the services herein provided. Parks and the City acknowledge and agree that the present or future ownership and operation of other golf courses by Trump or any of his Affiliates, or any of their members, partners, officers, directors or employees does not constitute such a conflict and shall not violate this provision. Licensee further represents and warrants that in the performance of this License Agreement no person having such interest or who acquires such interest or possible interest shall be knowingly employed by it, provided, however, if Licensee unknowingly has employed or employs a person having such interest or who acquires such interest and such conflicting interest is subsequently discovered by Licensee, then Licensee shall take prompt steps to remedy the conflict. No elected official or other officer or employee of the City or Parks, nor any person whose salary is payable, in whole or part, from the City treasury, shall participate in any decision relating to this License Agreement which affects his/her personal interest or the interest of any corporation, partnership or association in which he/she is, directly or indirectly, interested nor shall any such person have any interest, direct or indirect, in this License Agreement or in the proceeds thereof.

31. PROCUREMENT OF AGREEMENT

31.1 Licensee and the City and Parks represent and warrant to each other that no person or selling agency has been employed or retained to solicit or secure this License Agreement upon an agreement or understanding for a commission, percentage, brokerage fee, contingent fee or any other compensation. Licensee and the City agree to indemnify and hold the other party harmless from any loss, cost, damage or expense incurred by the other party as a result of a breach of the foregoing representation.

31.2 Licensee further represents and warrants that no payment, gift or thing of value has been made, given or promised to obtain this or any other agreement between the Parties. Licensee makes such representations and warranties to induce the City to enter into this License Agreement and the City relies upon such representations and warranties in the execution hereof. For a breach or violation of such representations or warranties, the Commissioner shall have the right to annul this License Agreement without liability, entitling the City to recover all monies paid hereunder, if any and the Licensee shall not make any claim for, or be entitled to recover, any sum or sums due under this License Agreement. This remedy, if effected, shall not constitute the sole remedy afforded the City for the falsity or breach, nor shall it constitute a waiver of the City's right to claim damages or refuse payment or to take any other action provided by law or pursuant to this License Agreement.

32. ALL LEGAL PROVISIONS DEEMED INCLUDED

32.1 Each and every provision of law required to be inserted in this License Agreement shall be and is inserted herein. Every such provision is to be deemed to be inserted herein, and if, through mistake or otherwise, any such provision is not inserted, or is not inserted in correct form, then this License Agreement shall, forthwith upon the application of either party, be amended by such insertion so as to comply strictly with the law and without prejudice to the rights of either party hereunder.

33. SEVERABILITY: INVALIDITY OF PARTICULAR PROVISIONS

33.1 If any term or provision of this License Agreement or the application thereof to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this License Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and each term and provision of this License Agreement shall be valid and enforceable to the fullest extent permitted by law, provided that the purposes intended by the Parties including the economic purposes shall remain substantially in effect.

33.2 In the event that any condition or provision of this License Agreement is declared void or of no effect, then in such an event the Parties shall use best efforts to modify this License Agreement to the extent possible, consistent with the Parties' intent not to convey any interest in real property, to provide the Parties an opportunity to continue the License on economic terms and for the public purposes intended; provided, however, that any such modification shall be subject to all necessary City approvals and authorizations and compliance with all City procedures and processes. In the event continuation of the License cannot be lawfully achieved, the Parties shall negotiate an orderly and equitable termination of the License Agreement on such terms as may be just and equitable and that avoid an unjust enrichment. For the avoidance of doubt, Grow-In Costs and Capital Improvement Costs shall be considered in the determination of an equitable result.

34. JUDICIAL INTERPRETATION

34.1 Should any provision of this License Agreement require judicial interpretation, it is agreed that the court interpreting or considering same shall not apply the presumption that the terms hereof shall be more strictly construed against a party by reason of the rule of construction that a document should be construed more strictly against the party who itself or through its agent prepared the same, it being agreed that all Parties hereto have participated in the preparation of this License Agreement and that legal counsel was consulted by each responsible party before the execution of this License Agreement.

35. MODIFICATION OF AGREEMENT

35.1 This License Agreement constitutes the whole of the agreement between the Parties hereto, and no other representation made heretofore shall be binding upon the Parties hereto. This License Agreement may be modified from time to time by agreement in writing, but no modification of this License Agreement shall be in effect until such modification has been agreed to in writing and duly executed by the Party or Parties affected by said modification.

36. NOTICES

36.1 Except as set forth in Section 3.3(e) of this Agreement, where provision is made herein for notice or other communication to be given in writing, the same shall be given by hand delivery, by mailing a copy of such notice or other communication by certified mail, return receipt requested, or by overnight courier service addressed to Commissioner or to the attention of Licensee at their respective addresses provided at the beginning of this License Agreement, or to any other address that Licensee shall have filed with Commissioner. In addition, in the case of any notice or other communication required or permitted to be given to Licensee under this License Agreement, an additional copy thereof shall be delivered in accordance with the foregoing to each of the following persons at the following address: Trump Ferry Point, LLC, c/o The Trump Organization LLC, 725 Fifth Avenue, New York, New York 10022, Attention: Jason Blackberg, Esq., Allen Weisselberg and Ron Lieberman.

37. NO CLAIM AGAINST OFFICERS, AGENTS OR EMPLOYEES

37.1 No claim whatsoever shall be made by the Licensee against any officer, agent or employee of the City for, or on account of, anything done or omitted in connection with this License Agreement.

38. CREDITOR-DEBTOR PROCEEDINGS

38.1 In the event any bankruptcy, insolvency, reorganization or other creditor-debtor proceedings shall be instituted by or against the Licensee or its successors or assigns, or the Guarantor, if any, the Security Deposit shall be deemed to be applied first to the payment of License Fees and/or other charges due the City for all periods prior to the institution of such proceedings and the balance, if any, of the Security Deposit may be retained by the City in partial liquidation of the City's damages.

39. CLAIMS AND ACTIONS THEREON

39.1 (a) No action at law or proceeding in equity against the City or Parks shall lie or be maintained upon any claim based upon this License Agreement or arising out of this License Agreement or in any way connected with this License Agreement unless Licensee shall have strictly complied with all requirements relating to the giving of notice and of information with respect to such claims, all as herein provided.

(b) In the event any claim is made or any action brought in any way relating to the License Agreement herein other than an action or proceeding in which Licensee and Parks are adverse parties, Licensee shall render to Parks and/or the City of New York, without additional compensation, any and all assistance which Parks and/or the City of New York may reasonably require of Licensee.

40. SURVIVAL

40.1 In addition to the provisions of this Agreement that specifically survive termination of this Agreement, any provisions of this Agreement which by their nature would survive termination shall be deemed to do so.

IN WITNESS WHEREOF, the parties hereto have caused this License Agreement to be signed and sealed on the day and year first above written.

EXHIBIT A

Description of Licensed Premises

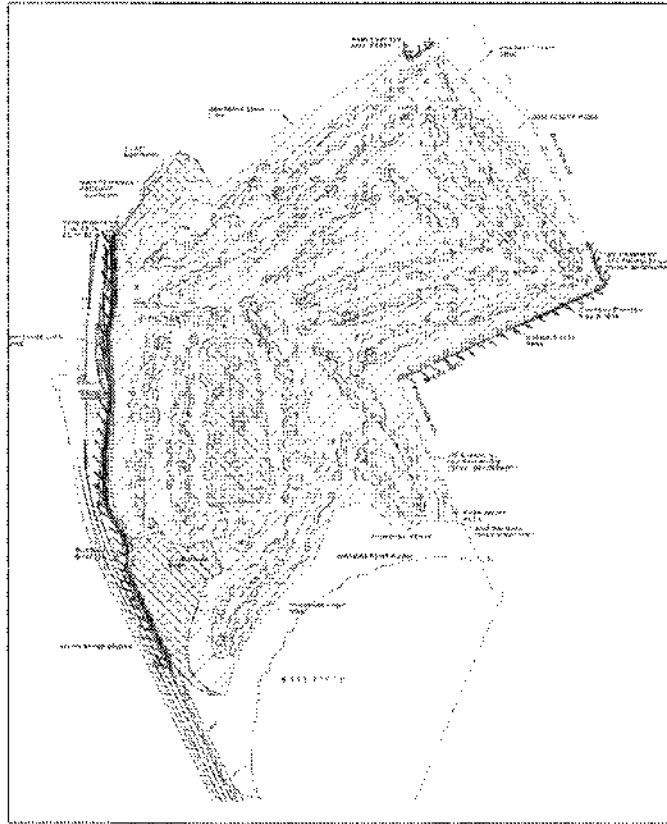

The Licensed Premises shall include all areas of Ferry Point Park (Block 5622, Lot 1; Block: 5583 Lot: 100; Block: 5583 Lot: 8901; and Block: 5583 Lot: 8900) located within the golf course perimeter security fence (set forth on Pages 19-27 of Part 2 – Final_Golf_Course_Drawings – Perimeter Fence and Landscaping, which is attached to the Development Agreement as **Schedule 4-5**) and shall also include the Park Snack Bar building in the adjacent waterfront park. The Licensed Premises is approximately bounded on the west side by the eastern Hutchinson River Parkway Service Road and Whitestone Bridge approach. On the north side, the Licensed Premises is approximately bounded by southern limit of the property which is currently known as St. Raymond's Cemetery (Block: 5574 Lot: 1, Block: 5570 Lot: 156, Block: 5570 Lot: 1) and Schley Ave. from Butterick Ave. to the edge of the community park which is located on Balcom Ave. between Schley Ave. and Miles Ave. On the eastern side, the Licensed Premises is approximately bounded by the community park, Balcom Ave. between the southern end of the community park (approximately half way between Sampson Ave. and Miles Ave.) to Miles Ave., Miles Ave. from Balcom Ave. to Emerson Ave., and Emerson Ave. from Balcom Ave. to Harding Ave. The south side of the Licensed Premises is approximately bounded by the northern limit of the waterfront park, which is situated between the Whitestone Bridge approach and Emerson Road along the East River. The City represents that the portion of Licensed Premises described on this **Exhibit A** (which excludes the Park Snack Bar) is the area that is outlined in red on **Exhibit A-1** attached hereto. The City represents that the Park Snack Bar is shown on **Exhibit A-3** attached hereto.

Additional Garbage Removal, Cleanup and Snow Removal Responsibilities

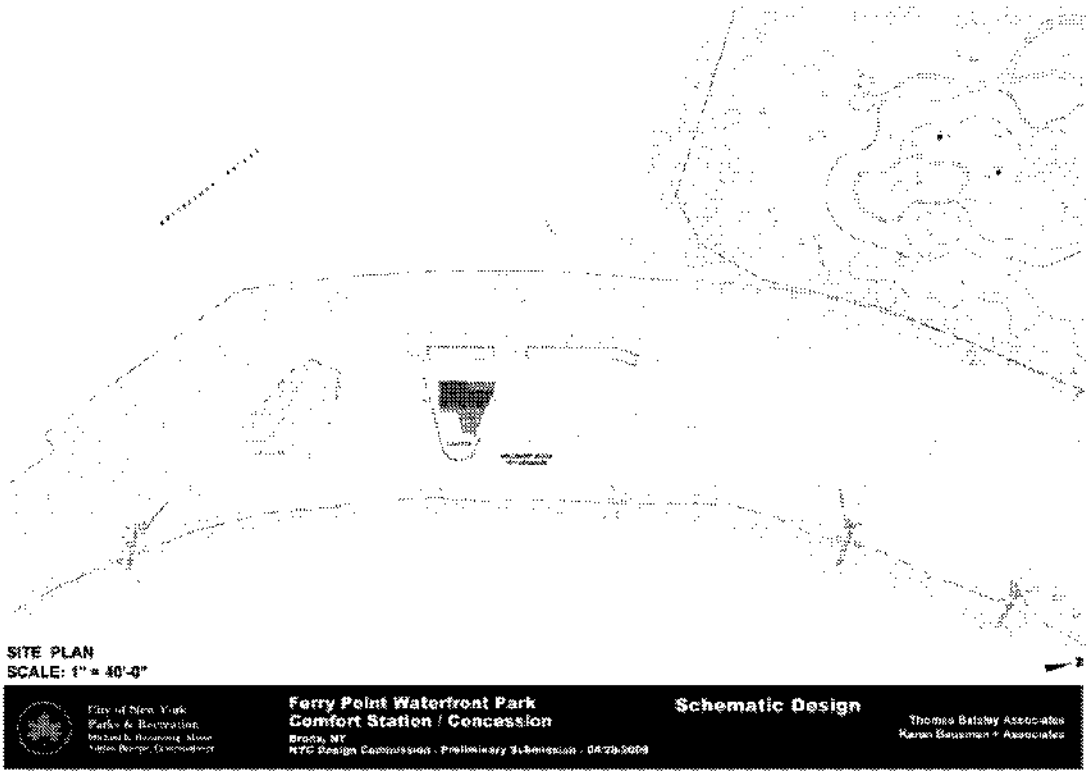

The Licensee will also be responsible, at its sole cost and expense, for the removal of snow from any sidewalks and for the clean-up and removal of all debris, waste, garbage, refuse, rubbish, and litter (other than debris, waste, garbage, refuse, rubbish and litter resulting from any work being performed by the City or Parks under the terms of this License Agreement or the Development Agreement), in each case, solely from the following areas, all of which areas are highlighted on **Exhibit A-1**:

- From the western golf course perimeter security fence to the curb of the adjacent roadway of the eastern Hutchinson River Parkway Service Road and Whitestone Bridge approach between the waterfront park and the property currently known as St. Raymond's Cemetery.
- From the northern golf course perimeter security fence to the curb of the adjacent roadway of Schley Ave. from Butterick Ave. to the western edge of the community park.
- From the eastern golf course perimeter security fence to the curb of the adjacent roadway of Balcom Ave. from the southern end of the community park (approximately half way between Sampson Ave. and Miles Ave.) to Miles Ave.
- From the eastern golf course perimeter security fence to the curb of the adjacent roadway of Miles Ave. from Balcom Ave. to Emerson Ave.
- After delivery of the Park Snack Bar to Licensee in accordance with the provisions of the Development Agreement, all paved areas adjacent to the Park Snack Bar marked Terrace on **Exhibit A-3** attached hereto, solely during the months that the Park Snack Bar is open.

DEVELOPMENT AGREEMENT (“**Agreement**”) made this 21st day of February, 2012, between the City of New York (the “**City**”) acting by and through the New York City Department of Parks & Recreation (“**Parks**”), whose address is The Arsenal, 830 Fifth Avenue, New York, New York 10065 (Fax No. 212-360-3434), and Trump Ferry Point LLC (“**Licensee**”), a Delaware limited liability company, whose address is c/o The Trump Organization, 725 Fifth Avenue, New York, NY 10022, Attention: Allen Weisselberg and Ron Lieberman.

WHEREAS, Parks, pursuant to the City Charter, has jurisdiction over parklands of the City of New York and facilities therein; and

WHEREAS, Ferry Point Park in the Borough of the Bronx (“**Ferry Point Park**”) is property under the jurisdiction and control of Parks; and

WHEREAS, the City is constructing on the Project Site an 18-hole Jack Nicklaus Signature golf course and related facilities pursuant to separate contracts; and

WHEREAS, simultaneously with the execution of this Agreement, the City, acting by and through Parks and Licensee (a wholly owned Affiliate of Trump), have entered into that certain License Agreement dated as of the date hereof (the “**License Agreement**”) for the operation, management and maintenance of the Golf Course Facilities (as hereinafter defined) and the Park Snack Bar (as hereinafter defined), and the design, construction, operation, management and maintenance of a permanent clubhouse with a food service facility and pro-shop (the “**Clubhouse**”, such definition as used herein shall include any temporary clubhouse) at the Golf Course Facilities for the accommodation and convenience of and use by the public; and

WHEREAS, Parks and Licensee desire to enter into this Agreement to specify rights and obligations of the parties with respect to the delivery of the Licensed Premises, including, among other things, the completion of the construction process and procedures and conditions for the City’s Final Completion and delivery of the Licensed Premises to Licensee;

NOW THEREFORE, in consideration of the premises and covenants contained herein, the parties hereby do agree as follows:

1. PURPOSE

1.1 Donald J. Trump (“**Trump**”), the principal of Licensee is a world renowned developer and operator of high quality golf courses. The City has chosen Licensee to operate and manage the Golf Course which the City intends to develop as a Jack Nicklaus Signature golf course. The purpose of this Agreement is to (i) specify the major elements of the Golf Course and related facilities being constructed by the City; (ii) specify the rights and obligations of the City and Licensee during the construction period and the Grow-In Period; (iii) coordinate operations of the City and Licensee and their respective contractors on the Project Site during the Interim Period; (iv) specify the conditions for the completion and delivery to Licensee of the City’s Work; (v) and specify procedures for correcting material defects and enforcing warranties.

2. DEFINITIONS

2.1 As used throughout this Agreement, capitalized terms shall have the meanings set forth on Schedule 3. Capitalized terms used herein but not otherwise defined shall have the meaning set forth in the License Agreement.

2.2 The foregoing recitals are made a part of this Agreement. All Schedules hereto are incorporated herein and expressly made a part hereof.

3. CONSTRUCTION OF FACILITIES

3.1 The City, at its sole cost and expense, shall perform or cause to be performed the work described on Schedule 2 (collectively, the “City’s Work”).

3.2 Prior to or simultaneously with the execution of this Agreement, the City shall deliver to Licensee the most recent construction schedule which has been approved by Parks, from the City’s Contractors pursuant to their Construction Contracts. Any updated schedules approved by Parks shall be promptly provided to the Licensee by Parks.

3.3 The City, at its sole cost and expense, shall perform, or cause to be performed, the City’s Work at the Project Site in accordance with this Agreement, the Construction Documents and the Plans so as to deliver to Licensee a Jack Nicklaus Signature golf course. The City’s Work shall be constructed in a good and workmanlike fashion, in accordance with all applicable Legal Requirements, and with materials as set forth in the Plans or changes thereto approved by Nicklaus Design (to the extent approval is required by Nicklaus Design) and Parks and Licensee (to the extent Licensee’s approval is required pursuant to Section 8.1). The City represents and Licensee acknowledges that delivery of the Licensed Premises as required by this Agreement and the License Agreement and the satisfaction of all of the conditions to delivery set forth in Section 10.3 of this Agreement, including, without limitation, the delivery to Licensee of a certification from Nicklaus Design that the Golf Course, as completed, meets the design standards of a Jack Nicklaus Signature golf course, shall constitute delivery of a Jack Nicklaus Signature golf course. Notwithstanding anything to the contrary in this Agreement or the License Agreement, in the event that at any time any element of the Licensed Premises or the operation of the Licensed Premises (or any part thereof) does not meet the standards required under the Nicklaus Subcontract to the extent such deficiency is due to any element of the construction of the Licensed Premises performed by (or on behalf of) the City or any item of the City’s Work, Licensee shall not be responsible for the correction of such deficiency to such extent and any such required corrections to comply with the Nicklaus Subcontract shall be the responsibility of the City at its sole cost and expense.

3.4 Except for and without limiting the Licensee’s obligations under the License Agreement and this Agreement (including, without limitation, Section 12.19(a) of the License Agreement), the City and Parks shall obtain, at their sole cost and expense, any Governmental Approvals required for the Golf Course, the Practice Facility, the Maintenance Building, the Snack Bars and all of the other City’s Work (except if the City’s Work is performed by Licensee pursuant to Section 10.8 of this Agreement, as applicable, in which case Licensee shall be responsible to obtain such Governmental Approvals for such work performed by Licensee). The City and Parks shall comply with the Prior Determinations (as hereinafter defined) and other applicable Environmental Laws.

3.5 Except for and without limiting the City’s and Parks’ obligations under the License Agreement and this Agreement (including, without limitation, Section 12.19(a) of the License Agreement), Licensee shall obtain, at its sole cost and expense, any Governmental Approvals required for the Grow-In and for any Capital Improvements to be performed by Licensee during the Interim Period. Parks, the Commissioner and the City shall cooperate with Licensee in obtaining any and all Governmental Approvals, if any, required for the Grow-In or any Capital Improvements to be performed by Licensee during the Interim Period, including without limitation, any temporary maintenance facility, temporary clubhouse or temporary golf cart storage facility which may be constructed by Licensee.

3.6 All of the City's Work, including, without limitation, the Golf Course Facilities and the Park Snack Bar, and the bathroom facilities contained in the Snack Bars and the other facilities, to be constructed by the City under this Agreement shall fully comply in all respects with the requirements of the ADA and all other similarly applicable Legal Requirements upon delivery thereof to Licensee in accordance with this Agreement. ADA compliant accessibility shall be clearly indicated by signs to be installed by the City as part of the City's Work.

3.7 The City represents and covenants to Licensee that Schedule 5 annexed hereto and made a part hereof is a true, correct and complete list of all of the Construction Contracts and Design Contracts in effect as of the date hereof relating to the Project Site, true correct and complete copies of which have been delivered by the City to Licensee. Notwithstanding the above, Licensee acknowledges that the City may have entered into additional contracts for the performance of portions of the City's Work subsequent to December 16, 2011, and Licensee agrees that the entering into of such contracts shall not be a breach by the City of the representation and covenant in this Section 3.7. Upon registration of any such contracts, the City shall deliver true, correct, and complete copies to Licensee.

3.8 Without Licensee's prior consent, between the date hereof and the Concession Commencement Date, the City and/or Parks shall not enter into any contracts, agreements, commitments, orders, licenses, leases and/or other instruments, arrangements and understandings (whether written or oral), not already disclosed to Licensee as of the date hereof, that will materially and adversely affect Licensee's operations at the Licensed Premises, Licensee's rights or obligations hereunder or under the License Agreement or the Licensed Premises. Notwithstanding the above, Licensee acknowledges that the City may enter into contracts for the performance of the City's Work without Licensee's consent.

4. ESTIMATED CONSTRUCTION SCHEDULE

4.1 The following schedule sets forth the estimated completion dates for each of the major elements of the City's Work (each an "Estimated Completion Date").

Work	Deadline for Completion
Completion of the first six (6) Holes of the Golf Course with all seeding complete in accordance with <u>Section 10.1</u> .	May 31, 2012
Completion of the first nine (9) Holes of the Golf Course with all seeding complete in accordance with <u>Section 10.1</u> .	City shall use best efforts to complete the first nine (9) Holes of the Golf Course with all seeding complete in accordance with <u>Section 10.1</u> by September 1, 2012, but in no event later than October 1, 2012.
Completion of all additional Holes of the Golf Course with all seeding complete in accordance with <u>Section 10.1</u> .	May 30, 2013
Maintenance Building	June 15, 2013
Golf Course Snack Bar	June 15, 2013

Park Snack Bar	To be agreed upon
Practice Facility	May 30, 2013
Parking Lot	May 30, 2013
Security Fence	Simultaneously with the delivery of the first six Holes
Rain Shelter (Stand alone Storm Shelter)	June 15, 2013
Contractor Substantial Completion of all of City's Work, except the Park Snack Bar	June 15, 2013
City's Final Completion of all of City's Work, except the Park Snack Bar	September 15, 2013 (in no event later than December 1, 2013)

4.2 The City shall keep Licensee advised as to the progress of the City's Work on a regular basis. The City shall deliver to Licensee periodic reports updating the progress of the City's Work and advising Licensee as to whether the City anticipates that Contractor's Substantial Completion or City's Final Completion of all of the City's Work, except the Park Snack Bar, as applicable, will not be achieved with respect to any portion of the City's Work on or prior to the Estimated Completion Date applicable thereto.

4.3 Where the City's failure to commence the City's Work or comply with the Estimated Completion Date for any phase or portion of the City's Work is the result of (i) Force Majeure, (ii) the period of time necessary for the City to review Licensee's objection to the City's acceptance of any of the City's Work as set forth in Section 10.2 and perform or cause to be performed any changes to the work, (iii) implementation of a Licensee Proposed Change as set forth in Section 8.2, (iv) interference with any of the City's Work caused by Environmental Conditions to the extent caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, (v) any repairs, replacements or remediation conducted on the Licensed Premises by the Licensee which materially and adversely interfere with the City's Work (and which shall be conducted by the Licensee in accordance with the terms of this Agreement), or (vi) with respect to the delivery of the first nine (9) Holes and despite City's diligent good faith efforts, City's failure to obtain a DEC Permit Compliance Document required pursuant to Section 10.3(m)(vii) in order to permit Licensee to use the Grow-In Materials for its Grow-In if use of such Grow-In Materials (without a DEC Permit Compliance Document) would be inconsistent with the DEC Part 360 Permit (if still in effect) or the New DEC Permit, the Estimated Completion Dates shall be extended day for day, as applicable, for the length of such Force Majeure, the reasonable period of time necessary for the City to review Licensee's objection and, if determined necessary by the City, reasonably perform or cause to be performed any changes to the City's Work accordingly, the reasonable period of time necessary for implementation of a Licensee Proposed Change, the length of any interference with any of the City's Work caused by Environmental Conditions (to the extent caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and/or any repairs, replacements or remediation conducted on the Licensed Premises by the Licensee which materially and adversely interfere with the City's Work (and which shall be conducted by the Licensee in accordance with the terms of this Agreement) and/or such additional time necessary for the City to diligently and in good faith pursue and obtain receipt of a required DEC Permit Compliance Document in order to permit Licensee to use the Grow-In Materials for its Grow-In if use of such Grow-In Materials (without a DEC Permit Compliance Document) would be inconsistent with the DEC Part 360 Permit (if still in effect) or the New DEC Permit. Notwithstanding the above, in no event shall the date for City's Final Completion of all of the

City's Work, except the Park Snack Bar, be extended beyond December 1, 2013, unless implementation of a Licensee Proposed Change requires such extension beyond December 1, 2013.

5. GROW-IN

5.1 (a) Licensee shall conduct the Grow-In of the Holes and the Practice Facility. Within fourteen (14) months after the delivery of all Holes to Licensee in accordance with Section 10.3, Licensee agrees that it shall have performed Grow-In activities such that the grass on the Holes shall have been sufficiently established so as to be suitable for golf play. Within one (1) year after delivery of the completed Practice Facility to Licensee in accordance with Section 10.3, Licensee agrees that it shall have performed Grow-In activities such that the grass on the Practice Facility shall have been sufficiently established so as to be suitable for use as a Practice Facility. Notwithstanding the foregoing in this Section 5.1(a), the fourteen (14) month period and one (1) year period referenced above in this paragraph shall be extended day for day, as applicable, for (i) the length of any Force Majeure, (ii) the length of any delays from the Estimated Completion Dates (other than any delays from the Estimated Completion Dates with respect to the delivery of the Holes) that materially and adversely impact the Grow-In, except to the extent that such delay is attributable to Licensee pursuant to any of the reasons set forth in clauses (ii) – (v) of Section 4.3 of this Agreement, (iii) the length of any interference with the Grow-In caused by Environmental Conditions (except to the extent that such Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and/or any repairs, replacements or remediation conducted on the Licensed Premises by the City which materially and adversely interfere with the Grow-In (which repairs, replacements or remediation shall be conducted by the City in accordance with the terms of this Agreement), and (iv) for the length of any interference with the Grow-In caused by City's Reconstruction Activities (as defined in the License Agreement) which materially and adversely interfere with the Grow-In. Licensee shall not commence its Grow-In obligations with respect to any given Hole or the Practice Facility at the Licensed Premises until such Hole or the Practice Facility, as applicable, has been delivered to Licensee in accordance with Section 10.3. For the sake of clarity, notwithstanding anything to the contrary in this Agreement and subject to Section 12.19(h) of the License Agreement, the period of time constituting the Grow-In shall continue until the Concession Commencement Date.

(b) Upon the turnover of any Hole or the Practice Facility to Licensee in accordance with Section 10.3, the parties acknowledge that the grass may not yet have germinated on such Hole or the Practice Facility, as applicable. If the grass seed for any Hole (or any portion thereof) or the Practice Facility, as applicable, turned over to Licensee does not germinate, as reasonably determined by Licensee, then Licensee shall notify Parks and Parks, at its option, shall: (A) re-seed such Hole (or any portion thereof) or the Practice Facility, as applicable, or (B) direct Licensee to re-seed such Hole (or any portion thereof) or the Practice Facility, as applicable, and the City shall reimburse the Licensee for the cost of such re-seeding, including, without limitation, the cost of labor and grass seed (unless the failure of the grass seed to germinate is caused by Licensee's failure to comply with the Grow-In Standards). The City shall reimburse Licensee, as applicable, for the costs of such re-seeding within sixty (60) days after demand, provided that documentation of such costs, reasonably satisfactory to Parks, is submitted to Parks. Notwithstanding the foregoing in this Section 5.1(b), the City shall not reimburse Licensee for the cost of any grass seed provided at no cost to Licensee by the City.

(c) Within thirty (30) days of the execution of this Agreement, Licensee shall deliver to the City a list of pesticides, herbicides, fungicides and fertilizers expected to be used by Licensee for the Grow-In of the Golf Course (such pesticides, herbicides, fungicides and fertilizers, the "**Grow-In Materials**") each of which Licensee represents shall generally be permitted by applicable law for use in New York State in connection with golf course operations.

5.2 Licensee shall not be obligated to expend in excess of seven hundred and fifty thousand dollars (\$750,000) for all Grow-In Costs. In the event Licensee's Grow-In Costs exceed seven hundred and fifty thousand dollars (\$750,000), Licensee shall be entitled to withdraw up to one hundred thousand dollars (\$100,000) from the Capital Reserve Fund established pursuant to the License Agreement to cover such excess costs. In the event that the Grow-In Costs exceed eight hundred and fifty thousand dollars (\$850,000) (the "**Grow-In Cap**"), the City shall pay for or reimburse Licensee for all Grow-In Costs in excess of the Grow-In Cap within sixty (60) days after demand, provided that documentation of such costs, reasonably satisfactory to Parks, is submitted to Parks. If the City fails to pay or reimburse Licensee for such excess Grow-In Costs within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall continue to pay such excess Grow-In Costs and Licensee shall be entitled to a License Fee Credit in the amount by which the Grow-In Costs exceed the Grow-In Cap, provided that documentation of such costs, reasonably satisfactory to Parks, is submitted to Parks, together with interest at the Interest Rate, compounded monthly from the date that such excess Grow-In Costs are paid by Licensee to the earlier of the date that such amounts are paid to Licensee or the Licensee is first able to apply such License Fee Credit to License Fees or other amounts payable by Licensee pursuant to the License Agreement, which License Fee Credit and interest, subject to the last sentence of Section 4.10 of the License Agreement, will be the sole remedy of Licensee hereunder with respect to such excess Grow-In Costs. Notwithstanding anything to the contrary contained in this Agreement and the License Agreement, the City shall reimburse Licensee for all Grow-In Costs incurred by Licensee directly or indirectly as a result of the City's Reconstruction Activities to the extent that Licensee has otherwise expended seven hundred and fifty thousand dollars (\$750,000), in the aggregate, for Grow-In Costs, within sixty (60) days after demand, provided that documentation of such costs, reasonably satisfactory to Parks, is submitted to Parks.

5.3 Licensee shall perform the Grow-In in compliance with: (a) the Maintenance Guidelines, and (b) the grow-in program standards set forth on Schedule 8 attached hereto (the "**Grow-In Standards**"). For the avoidance of doubt, the parties agree that Licensee must perform the Grow-In to the reasonable standards of a Jack Nicklaus Signature golf course and a first class, tournament quality daily fee golf course notwithstanding Licensee's compliance with the Maintenance Guidelines and the Grow-In Standards, and subject to Section 16.2 of this Agreement.

5.4 If during the course of maintenance and Grow-In operations, cover material is removed by Licensee, Licensee shall maintain at all times a minimum depth of one foot (1') of material over the shaping layer in conformance with the DEC Part 360 Permit requirements and, where applicable, the Grassing Specifications, the Grow-In Standards and the Maintenance Guidelines.

5.5 Licensee represents, warrants and covenants that any soil or other fill material brought to the Licensed Premises for the purpose of providing cover for the Landfill (x) shall not contain any Hazardous Substances in amounts that would result in a violation of Environmental Laws, the DEC Part 360 Permit or the DEC Deed or pose a threat to the safety or health of persons or the Environment, and (y) shall not compromise the integrity of the Golf Course or any building foundations.

6. PROCEDURES DURING CONSTRUCTION

6.1 (a) Subject to Section 7.1 of this Agreement, the City shall provide to Licensee access and use of the Project Site twenty-four (24) hours per day and seven days per week (including holidays) for the purpose of performing Licensee's rights and obligations under this Agreement (including, without limitation, conducting the Grow-In and designing, planning and constructing the Capital Improvements that Licensee is required to construct pursuant to the License Agreement (including, without limitation, a temporary clubhouse and temporary golf cart storage facility) it being acknowledged and agreed that

Licensee will not commence construction of the permanent Clubhouse prior to the Concession Commencement Date).

(b) Intentionally omitted.

(c) The City shall employ an independent environmental monitor (“IEM”) in accordance with the DEC Part 360 Permit for monitoring services required on the Project Site by the DEC Part 360 Permit for the duration of the DEC Part 360 Permit. To the extent required by Environmental Laws, an IEM shall be present during Licensee’s Grow-In and/or construction of Required or Additional Capital Improvements (as defined in the License Agreement). In the event that the IEM hired by Parks is required to be onsite at such times in any event, because of other obligations of the City under the DEC Part 360 Permit, then Licensee shall be entitled to utilize the services of such IEM. Licensee shall reimburse Parks for the incremental cost of the IEM attributable to the IEM’s activities in relation to work performed on behalf of Licensee described in the two immediately preceding sentences, provided that documentation of such costs, satisfactory to Licensee, is submitted to Licensee. In the event the IEM hired by Parks is not onsite as described, if required by applicable Environmental Law, Licensee shall engage, at Licensee’s sole cost and expense, an IEM to monitor the work described above in this Section 6.1(c). Notwithstanding the foregoing, Licensee shall have the right, at any time, to employ its own IEM that satisfies the requirements of the applicable Environmental Laws. Any cost of an IEM to Licensee in connection with Licensee’s construction of the foundation of the Clubhouse shall be a Capital Improvement Cost that is credited against the Minimum Capital Improvement Cost to be expended by Licensee under the License Agreement to the extent such cost is incurred in connection with Licensee’s construction of the foundation of the Clubhouse. If Licensee is required to have an IEM present pursuant to applicable Environmental Law for any reason other than (x) the Licensee’s construction of the foundation of the Clubhouse or (y) in connection with Environmental Conditions and/or effects of Environmental Conditions that are, in each case, caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, then the City shall pay or reimburse Licensee in an amount equal to the costs and expenses of the IEM actually paid or incurred by Licensee within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and expenses and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in Section 4.10 of the License Agreement, subject to the last sentence of Section 4.10 of the License Agreement.

6.2 (a) During the progress of the City’s Work up to the date of City’s Final Completion, if the City holds regularly scheduled meetings with representatives of the Contractors, the Consultants and/or Nicklaus Design, Parks shall give Licensee notice of such meetings and Licensee shall have the right, but not the obligation, to attend such meetings as follows: The first portion of such a meeting will involve review of the progress schedule, construction issues, changes to the City’s Work and other matters that are not of a financial or other confidential nature and Licensee shall have the right to attend and observe (but not participate in, except as provided herein) such review, provided, however, that Parks may, in its sole discretion, have Licensee leave the meeting if financial or other confidential matters arise. Once the portion of the meeting that Licensee has the right to attend has concluded, the meeting will continue and address financial or other confidential matters or non-construction related contract administration matters without Licensee’s presence. A representative of Parks Revenue Division will be present at all such meetings referred to in this Section 6.2 and Licensee shall have the right to provide comments and questions to the Parks representative at the meeting and such representative of Parks shall make Licensee’s comments and questions known at the meeting. Parks agrees to consider in good faith and address any reasonable questions, issues or concerns identified and raised by Licensee. Following the

meeting, Parks will circulate minutes, including to Licensee, and Licensee will have the right to comment on such minutes, provided that Licensee's failure to provide comments shall not affect any of Licensee's other rights or obligations under this Agreement, and further provided, if Licensee discovers any material errors or omissions in such minutes, Licensee shall promptly notify Parks of any such errors or omissions. The provisions of this Section 6.2(a) shall not apply to Parks' regularly scheduled meetings with DEC which shall instead be governed by Section 6.2(b) below.

(b) Following any meetings of Parks with the DEC, Parks shall, within three (3) business days of such meeting, send an update to Licensee which shall summarize in reasonable detail the non-confidential issues or topics discussed at the meeting with the DEC which, in Parks' reasonable judgment, could affect the Grow-In, Licensee's operation of the Licensed Premises and/or Licensee's construction of any Capital Improvements. If Parks becomes aware of any issue or topic to be discussed at an upcoming meeting with the DEC, which may be relevant to the Grow-In, Licensee's operation of the Licensed Premises and/or Licensee's construction of any Capital Improvements, then Parks shall promptly notify Licensee of such meeting and such issue or topic. Without limiting any of Licensee's rights under this Agreement, the License Agreement or otherwise, Licensee shall have the right to request attendance at any upcoming meeting, and Parks shall, in its reasonable discretion, use reasonable efforts to obtain the DEC's permission to permit Licensee to attend such upcoming meeting. Additionally, without limiting any of Licensee's rights under this Agreement, the License Agreement or otherwise, if Licensee desires to discuss any issues with the DEC, then Parks shall, in its reasonable discretion, use reasonable efforts to arrange a meeting for Licensee with the DEC to discuss such issues.

(c) Parks shall hold regularly scheduled meetings with Licensee to discuss construction issues and the status of the City's Work.

6.3 During the progress of the City's Work up to the date of City's Final Completion, the City shall afford Licensee and its design and construction representatives access to the Project Site for purposes of inspecting all of the City's Work performed and being performed at the Project Site on a regular basis during days and hours that construction is taking place on the Project Site.

6.4 The City shall be responsible, at its sole cost and expense, for security at the entire Project Site until City's Final Completion of the City's Work. Notwithstanding the foregoing, the City's obligation for security at the Golf Course Facilities shall terminate upon City's Final Completion of the City's Work with respect to the Golf Course Facilities but shall continue with respect to the Park Snack Bar until City's Final Completion of the City's Work with respect to the Park Snack Bar. The City shall construct a Security Fence around the entire perimeter of the Licensed Premises (other than the Park Snack Bar) and other than the West Parking Lot (which is not part of the Licensed Premises) in accordance with Schedule 2, the Plans, as applicable, and the Estimated Completion Date for such Security Fence set forth in Section 4.1 of this Agreement. The City shall maintain the Security Fence until City's Final Completion of all of the City's Work, other than the Park Snack Bar. The Security Fence shall be locked and secured during days and hours that construction is not taking place, except that Licensee shall have access to all portions of the Licensed Premises that have been delivered to Licensee for all Grow-In related activities at days and hours as required by Licensee. Until City's Final Completion of the City's Work other than the Park Snack Bar, the City shall be responsible for damage to the Golf Course as a result of its failure to secure the Project Site. Notwithstanding the foregoing, Licensee is responsible for security of its equipment and for areas of the Licensed Premises that have been delivered to Licensee that are damaged by Licensee or Licensee's Contractors.

6.5 (a) All risks of construction and development of the City's Work (including City's Reconstruction Activities) are hereby expressly assumed by the City except as may be specifically provided otherwise in this Agreement. Prior to delivery to Licensee in accordance with the provisions of

Section 10.3, the City's Work shall be designed, constructed, maintained, secured and insured entirely at the City's expense without reimbursement by Licensee or credit or offset of any kind for cost overruns or otherwise, and the City shall pay all municipal fees and impositions in connection therewith. The City agrees that neither any provision of this Agreement nor Licensee's reviews, inspections, recommendations, approvals, or advice furnished by Licensee under this Agreement shall be deemed to be warranties or guarantees or constitute the performance of professional services for the benefit of the City, but instead, are intended solely to facilitate the delivery of a Jack Nicklaus Signature golf course to Licensee for operation under the License Agreement. Such inspections, recommendations, approvals or advice shall not constitute a representation, warranty or opinion by Licensee as to the compliance with the Construction Documents or any Legal Requirement with respect to any of the City's Work. The City and Licensee hereby acknowledge and agree that, with respect to City's Work, compliance with the Construction Documents and all Legal Requirements is and shall remain the sole responsibility of the City, except if Licensee elects to perform the City's Work pursuant to Section 10.8 of this Agreement, in which case compliance with all Legal Requirements shall be the sole responsibility of Licensee with respect to any work performed by Licensee.

(b) Licensee shall assume the obligations pertaining to Licensee under this Agreement with respect to any portion of the Licensed Premises upon delivery of possession of such portion of the Licensed Premises to Licensee in accordance with the provisions of this Agreement, provided, however, that except as otherwise provided for in this Agreement and/or the License Agreement, in no event shall Licensee assume any risk, liability or obligation with respect to: (a) any area that is located at or below the layer of municipal solid waste (provided, however that Licensee shall be responsible for the cost of work with respect to any municipal solid waste that may be excavated or disturbed by Licensee's construction of the Clubhouse or Licensee's performance of its other obligations under this Agreement or the License Agreement, including the cost of disposing of such municipal solid waste, if required, provided, further, that Licensee shall not be responsible for any Environmental Conditions or liability with respect thereto, arising from Licensee's work except to the extent caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), and (b) Environmental Conditions, including Environmental Conditions or liability with respect thereto arising from Licensee's work, and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions or liability with respect thereto and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees).

6.6 (a) The City shall provide to Licensee free access to and use of a temporary staging area for the Grow-In and any other work which may be performed by Licensee hereunder or under the License Agreement. Until the fuel storage tanks to be installed by the City are installed, Licensee shall have the right to temporary storage of fuel for its equipment, in a manner satisfactory to Parks, provided however that Licensee shall obtain, at its sole cost and expense, all required approvals for such storage of fuel, including but not limited to the approval of the FDNY (as defined in the License Agreement), as applicable. The temporary staging area shall be located as shown on Schedule 1-1. Licensee shall have the right to construct a temporary maintenance facility on the Project Site as shown on Schedule 1-1 and to remove such temporary maintenance facility upon completion of the Maintenance Building to be constructed as part of the City's Work. The plans, design and location of such temporary maintenance facility shall be subject to the prior written approval of Parks, which shall not be unreasonably withheld, conditioned or delayed. The cost of construction (including for temporary utility connections), operation and removal of the temporary maintenance facility shall be a Grow-In Cost. Licensee shall be responsible for restoration of the Licensed Premises, including the restoration of any landscaping, as applicable, after the removal of any temporary maintenance facility and/or any temporary staging area at Licensee's cost and expense; the reasonable cost of such restoration shall be a Grow-In Cost. From the effective date of this Agreement until the earlier of completion of the temporary maintenance facility, if any, or the Maintenance Building, the City shall provide to Licensee, at no cost to Licensee, space at its facilities at

the Project Site as reasonably requested by Licensee to be used by Licensee to conduct its operations hereunder. The space for the temporary maintenance facility shall be made available to Licensee not less than two (2) months prior to the delivery of the first six (6) Holes to Licensee.

(b) Subject to the prior written approval of Parks, Licensee shall construct on the Licensed Premises, at the location shown on Schedule 1-3, a temporary clubhouse and temporary cart storage facility to be open to the public by the time of the Concession Commencement Date. Licensee shall have the right to remove such temporary clubhouse and temporary cart storage facility upon completion of the Clubhouse to be constructed by Licensee pursuant to the License Agreement. Licensee shall be responsible for restoration of the Licensed Premises, including the restoration of any landscaping, as applicable, after the removal of any temporary clubhouse and temporary cart storage facility and/or any construction staging area at Licensee's cost and expense; the reasonable cost and expense of such restoration shall be a Capital Improvement Cost and shall be credited against the Minimum Capital Improvement Cost to be expended by Licensee under the License Agreement. The cost of construction and removal of the temporary clubhouse and temporary cart storage facility shall be a Capital Improvement Cost and shall be credited against the Minimum Capital Improvement Cost to be expended by Licensee under the License Agreement.

(c) The City shall provide to Licensee access to all Utilities necessary for the operation of such temporary clubhouse, temporary maintenance facility and temporary cart storage facility, including, without limitation, temporary power, water, and access to sanitary sewer and empty conduits for phones, cable and internet service (together "**Temporary Utilities**"). The cost of the use of such Temporary Utilities shall be paid for as provided in Section 9.1.

6.7 Licensee shall provide an adequate number of staff members possessing the appropriate qualifications to conduct their respective functions for Grow-In and other construction operations at the Licensed Premises.

6.8 The City reserves the right to perform construction or maintenance work on any portion of the Licensed Premises that has been delivered to Licensee in accordance with the Agreement, in its reasonable discretion or as required to be performed by the City pursuant to this Agreement (including pursuant to Sections 9.40 and 12.19(a)(vi) of the License Agreement). Licensee agrees to cooperate with the City, to accommodate any such work by the City and provide access through the Licensed Premises as reasonably deemed necessary by the Commissioner. The City shall use its best efforts to give Licensee at least fourteen (14) days' written notice of any such work and to not unreasonably interfere with the Grow-In or Licensee's construction activity on the Licensed Premises, if any. In performing such work, the City shall use commercially reasonable efforts to minimize the extent to which the Grow-In and Licensee's construction, if any, are disrupted. The City shall coordinate its work pursuant to this Section 6.8 with Licensee. The City shall be responsible for restoration of the Licensed Premises (subject to Section 12.19(a)(vi) of the License Agreement) after the completion of any such work at the City's sole cost and expense. For the sake of clarity, all City's Reconstruction Activities shall be performed pursuant to and in accordance with this Section 6.8.

6.9 In the event that the Licensee requires use of the West Parking Lot located on the west side of the Hutchinson River Parkway, as more particularly depicted on Schedule 7 (the "**West Parking Lot**"), as a staging area during the Grow-In or construction of the Clubhouse, Licensee and the City shall enter in to a separate agreement for the West Parking Lot. For avoidance of doubt, the parties acknowledge that West Parking Lot is not part of the Licensed Premises.

7. COORDINATION OF CONTRACTORS

7.1 The City and Licensee understand and acknowledge that (a) the City's Work is part of an overall development of Ferry Point Park at the Project Site, and (b) the Grow-In and Capital Improvements on the Licensed Premises may be performed by Licensee or separate contractors retained by Licensee ("**Licensee's Contractors**") during and after the performance of the City's Work. The City agrees that the City shall, to the extent applicable, (i) coordinate the work of the City and the City's Contractors with the work being performed by Licensee or Licensee's Contractors so as to avoid interference with any work being performed by or on behalf of Licensee and to work in harmony with any of Licensee's Contractors operating at the Project Site, (ii) make any portion of the Project Site in which the City or any of the City's Contractors are performing the City's Work available to Licensee and Licensee's Contractors, when necessary, and (iii) not hinder, delay or interfere with the work of Licensee or Licensee's Contractors. Licensee agrees that Licensee shall, to the extent applicable, (a) coordinate the work of Licensee and the Licensee's Contractors with the work being performed by the City or the City's Contractors so as to avoid interference with any work being performed by or on behalf of City and to work in harmony with any of the City's Contractors operating at the Licensed Premises, (b) make any portion of the Licensed Premises available to the City and the City's Contractors, when necessary, and (c) not hinder, delay or interfere with the work of the City or the City's Contractors. None of the City, Licensee, or any of the City's Contractors or the Licensee's Contractors shall be entitled to any fee in connection with such cooperation and coordination. The City's fill importation activities shall be managed by the City so as not to materially and adversely affect the proper implementation of the Grow-In by Licensee in accordance with the Grow-In Standards and in a manner consistent with a first class, tournament quality daily fee golf course.

7.2 (a) For purposes of construction of the Maintenance Building, the Golf Course Snack Bar and the Storm Shelters (as more particularly described in Schedule 2 to this Agreement) the Parties acknowledge that such construction may be performed by an agency of the City other than Parks, which may include the New York City Department of Design and Construction (the "**DDC**"). The City and Parks acknowledge and agree that (x) the City shall be responsible for the performance and the completion of all of the City's Work in accordance with the terms of this Agreement regardless of whether or not such City's Work is performed by an agency of the City other than Parks, such as the DDC (except to the extent that the City's Work is performed by Licensee pursuant to Section 10.8 of this Agreement, as applicable, in which case Licensee shall be responsible for the completion of such work performed by Licensee); and (y) the City shall not be relieved of any obligations under this Agreement, the License Agreement or any applicable Legal Requirements due to the performance of any of the City's Work by an agency other than Parks.

(b) Within fifteen (15) days following the execution of this Agreement, Parks shall designate in writing to Licensee two (2) Parks representatives (each a "**Parks Representative**" and collectively the "**Parks Representatives**") each of which shall individually be authorized to deal with Licensee on any matters related to the Maintenance Building, the Golf Course Snack Bar and the Storm Shelters (as more particularly described in Schedule 2 to this Agreement) or any other work performed by the DDC on the Project Site (such matters collectively, the "**DDC Matters**"). Prior to the commencement of construction of any of the Maintenance Building, the Golf Course Snack Bar or the Storm Shelters, Parks shall cause the DDC to designate in writing to Licensee and Parks two (2) DDC representatives (each a "**DDC Representative**" and collectively the "**DDC Representatives**") each of which shall individually be authorized to deal with Licensee on any matters related to the DDC Matters. Licensee agrees to include at least one (1) Parks Representative in Licensee's communications with either of the DDC Representatives; provided that Parks agrees to cause the Parks Representatives to be reasonably available for such communications. Any notices from Licensee to the DDC shall be provided to Parks at the

address provided at the beginning of this Agreement and to the DDC at such address or in such other manner as the DDC may designate to Licensee.

8. CHANGES TO THE WORK

8.1 The City shall give Licensee notice of any proposed changes to the Plans or the City's Work, which notice shall provide sufficient details of the proposed changes to enable Licensee to identify and evaluate the proposed change. No changes in the Construction Documents, City's Work or the Plans are permitted to be made that (i) are inconsistent with the scope of the City's Work set forth in Schedule 2 to this Agreement; or (ii) would diminish the quality of the City's Work below the level of quality of a Jack Nicklaus Signature golf course (each of such changes a "**Material Changes**"), without, in each case, the prior written consent of Licensee, which consent shall not be unreasonably withheld, conditioned or delayed. In the event that there are any Material Changes that have not been approved in writing by Licensee, Licensee shall have the right to terminate this Agreement and the License Agreement upon ten (10) days notice to the City, and in the event of such termination, the City shall pay the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in Section 3.2(b) of the License Agreement, to Licensee in accordance with the provisions of Section 3.2 of the License Agreement.

8.2 So that Licensee may assist the City in the development of a Jack Nicklaus Signature golf course, Licensee shall have the right to request reasonable changes to the City's Work and/or the Plans consistent with the scope of the City's Work under this Agreement and with (i) the Design Contracts, (ii) the Construction Contracts or (iii) the Nicklaus Subcontract ("**Proposed Changes**"). Licensee shall submit requests for Proposed Changes to the City for consideration and implementation of Licensee's Proposed Changes by the City, in its reasonable discretion, provided however, Licensee's requests for Proposed Changes to the Nicklaus Subcontract, including but not limited to the proposed routing plan (as prepared and delivered pursuant to Section 2 of the Nicklaus Subcontract) and the Plan Documents (as defined in the Nicklaus Subcontract), which consist of a general strategy plan, a clearing plan (if necessary), contour plans, a conceptual golf course drainage plan, a preliminary grassing and planting plan, a bunker study plan, and supplemental specifications to such plans, where applicable, shall be considered and implemented by the City in its sole discretion. If the City accepts and implements any Proposed Changes, the relevant Estimated Completion Dates shall be extended day for day for the period of time reasonably necessary for the City to implement such Proposed Changes. Licensee's objection to the delivery of any of the City's Work for failure to comply with the Construction Documents or the provisions of this Agreement, which failures the City agrees to correct, shall not be a Licensee Proposed Change. Licensee shall provide any such objection promptly after Licensee receives notice under Section 10.3(a).

9. UTILITIES

9.1 The City shall directly pay all Utility costs associated with the development and construction of the City's Work, and the Grow-In prior to the Concession Commencement Date. Licensee shall be responsible for the cost of temporary utility connections associated with the development, construction, operation and use of the temporary clubhouse and temporary cart storage facility, and of the temporary maintenance facility subject to the terms set forth in Section 6.6(a), prior to the Concession Commencement Date. Licensee shall also be responsible for the cost of the use of Temporary Utilities, other than water and sewer (which shall be the City's responsibility), associated with the development, construction, operation and use of the temporary clubhouse and temporary cart storage facility prior to the Concession Commencement Date. The City shall be responsible for the cost of use of Temporary Utilities associated with the development, construction, operation and use of the temporary maintenance

facility, excluding the use of phones, cable and internet services, prior to the Concession Commencement Date.

10. DELIVERY OF LICENSED PREMISES

10.1 The initial delivery of Golf Course holes by the City, including, without limitation, tee boxes, greens, fairways, sand traps, roughs and any other areas adjacent to any hole (“**Holes**”) shall include no less than six (6) Holes. Notwithstanding anything to the contrary in this Agreement, the City agrees that (x) the City shall use best efforts to deliver the first nine (9) Holes of the Golf Course in accordance with Section 10.3 by September 1, 2012, but in no event later than October 1, 2012 and (y) the City shall use best efforts to deliver all additional Holes of the Golf Course in accordance with Section 10.3 by May 30, 2013. Holes and the Practice Facility shall only be delivered to Licensee between April 15th and May 30th and between August 15th and October 15th of each year and during suitable conditions for the conduct of the Grow-In and Licensee shall not be required to accept delivery of Holes at any other time, unless otherwise agreed to by the parties hereto.

10.2 (a) Upon the City’s receipt of a request from a Contractor for an inspection to determine Contractor’s Substantial Completion or Final Acceptance of the work being performed under the applicable Construction Contract or any portion thereof in accordance with such Construction Contract, the City shall give notice of such inspection to Licensee not less than two (2) business days prior to the date of such proposed inspection. Licensee shall have the right to attend all such inspections and utilize its expertise in the design, development and construction of similar high quality golf courses to assist the City in determining, as applicable, whether Contractor Substantial Completion in accordance with the Construction Contract, has been achieved, in developing the Final Approved Punch List, and in determining if the punch list work has been completed and if the Contractor’s work is ready for Final Acceptance in accordance with the Construction Contract. Within five (5) business days following any inspection to determine if Contractor Substantial Completion has been achieved, Licensee shall have the right to propose a list of punch list items to be included on the Final Approved Punch List in accordance with the Construction Contract, and the City may, in its reasonable discretion, include all such punch list items noted by Licensee in the Final Approved Punch List to be prepared by the Engineer. Once the Contractor has submitted a re-inspection notice for the punch list items on any Final Approved Punch List, the City shall give notice of such re-inspection to Licensee not less than two (2) business days prior to the date of such proposed re-inspection. Within five (5) business days following any such re-inspection to determine if the Final Approved Punch List items have been completed, Licensee shall have the right to provide a written objection to the punch list work and to provide a list of punch list items that still need to be performed or have not been adequately performed, and the City may, in its sole discretion, direct the Engineer to notify the Contractor that such punch list items need to be performed or require additional work, as the case may be. The City and Licensee shall follow the notice and inspection procedure set forth in this Section 10.2 until Final Acceptance of the work being performed under the applicable Construction Contract or any portion thereof.

(b) The City may, in its reasonable discretion, delay acceptance of any of the work as having achieved Contractor Substantial Completion or Final Acceptance of any work if Licensee submits a written objection, which Parks determines to be reasonable, to such work having achieved Contractor Substantial Completion or being ready for Final Acceptance. Licensee’s participation in the above noted procedures for Contractor Substantial Completion and Final Acceptance and production of comments shall not be deemed verification of completion by Licensee. Licensee’s failure to provide a proposed list of punch list items, written objection and/or comments, pursuant to the above noted procedures for Contractor Substantial Completion and Final Acceptance, shall not affect any of Licensee’s other rights or obligations under this Agreement (as Licensee has the right but not the obligation to provide a proposed

list of punch list items, written objection and/or comments, pursuant to the above noted procedures for Contractor Substantial Completion and Final Acceptance).

10.3 Delivery of the Licensed Premises, or such portion thereof being delivered to Licensee, shall occur upon Final Acceptance of the City's Work for the entire Licensed Premises, or the portion thereof being delivered, which work shall be in accordance with Schedule 2 and in all material respects in accordance with the Plans and Construction Documents, to the standards of a Jack Nicklaus Signature golf course, without any Material Change to the scope of work set forth in Schedule 2 or the Plans and Construction Documents unless approved by Licensee in accordance with Section 8.1, and the satisfaction of the following conditions:

(a) The City shall provide notice to Licensee not less than five (5) days prior to the proposed delivery of the Licensed Premises (or the portion thereof being delivered to Licensee), which notice shall provide that the City's Work (or the portion thereof being delivered to Licensee) has been constructed in accordance with Schedule 2 hereto and in all material respects in accordance with all applicable Plans and Construction Documents to the standards of a Jack Nicklaus Signature golf course and that there has been no Material Change to the scope of work set forth in Schedule 2 or the Plans and Construction Documents that has not been approved by Licensee in accordance with Section 8.1;

(b) Licensee's receipt of a copy of the City's written acceptance of the City's Work (or the portion thereof that is being delivered to Licensee) to its Contractor, including acceptance of the Final Approved Punch List items;

(c) Licensee's receipt of a copy of the certification from the Engineer that the City's Work (or the portion thereof that is being delivered to Licensee) is fully complete and ready for Final Acceptance and that all items of work set forth on the Final Approved Punch List have been completed;

(d) Delivery to Licensee of a full and complete set of "as built" plans and specifications together with a certification by the Engineer that the "as built" plans and specifications are a true and accurate representation of the completed work, or, with respect to delivery of any Hole or the Practice Facility or any other portion (but not the whole) of the City's Work, only partial "as built" plans and specifications of the Holes, the Practice Facility or the other portion of the City's Work being delivered to Licensee, together with the certification by the Engineer described above (for the sake of clarity, "as built" plans and specifications as used in this paragraph shall be deemed to include Plans and Specifications that represent the original design of any particular part of the City's Work where there have been no changes to the original design set forth in such Plans and Specifications and such Plans and Specifications represent a true and accurate representation of the completed City's Work). Delivery to Licensee of the final post-construction as-built drawings for the Licensed Premises which shall, at a minimum, include detailed cross sections illustrating the depth of fill placed and location of all utilities and associated structures, roadways, and storm water drainage control structures for the project. The final post-construction as-built drawings shall be signed by a professional engineer licensed in New York State and shall be approved by DEC where such approval is required;

(e) Delivery to Licensee, prior to or simultaneously with delivery of the Licensed Premises, of all applicable Governmental Approvals for all portions of the Golf Course Facilities and the Park Snack Bar, as applicable, provided that the City shall not be required to provide such Governmental Approvals for any areas that are at or below the municipal solid waste located below the surface of the Licensed Premises, unless such Governmental Approvals are required for the lawful use or operation of the Licensed Premises. If any portion or phase of the Licensed Premises to be delivered to Licensee prior to City's Final Completion of all of the City's Work requires any Governmental Approvals, the City shall

deliver such Governmental Approvals as a condition to Licensee's obligation to take possession of such portions of the Licensed Premises;

(f) Delivery of an assignment by the City to Licensee of guaranties and warranties in accordance with Section 11.2;

(g) Delivery to Licensee of written acceptance by Sanford Golf Design (and any other applicable Consultant whose approval is required pursuant to the terms of any Design Contract) of the City's Work, or the portion thereof being delivered to Licensee, as fully complete in all material respects in accordance with the Construction Documents and delivery to Licensee of a written certification from Nicklaus Design to Parks that the Golf Course, or portion thereof being delivered to Licensee meets the design standards for a Jack Nicklaus Signature golf course;

(h) Delivery to Licensee of a certification by the City that City's Work is in full compliance with the ULURP No. C000090 MCX determination dated December 22, 1999 for Ferry Point Park and all applicable Governmental Approvals, including, without limitation, any required Certificate of Occupancy, and other applicable Legal Requirements. Notwithstanding the foregoing in this Section 10.3(h), the Parties agree that as set forth in Sections 1.2(c)(iii), (iv) and (v) of the License Agreement, the City may be required to undertake additional SEQRA or CEQR review (at the City's sole cost and expense) if applicable Legal Requirements require such review in connection with Licensee's use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises. If any of City's Reconstruction Activities are required in connection with such additional SEQRA or CEQR review, such City's Reconstruction Activity in and of itself shall not prevent the City from satisfying this Section 10.3(h) unless the City knows or should have known that such City's Reconstruction Activity would completely prevent Licensee's Grow-In activities on all of the portion of the Licensed Premises being delivered to Licensee for the reasonably foreseeable future. For the sake of clarity, the satisfaction of all other conditions set forth in this Section 10.3 shall continue to constitute conditions of delivery;

(i) The Licensed Premises, or the portion thereof delivered to Licensee shall be substantially free of any construction debris and equipment, provided that any remaining debris or equipment during Grow-In does not interfere with the Grow-In. At City's Final Completion of all of the City's Work for the Golf Course Facilities and for the Park Snack Bar, as applicable, in the event that the Licensed Premises are not substantially free of any such debris and equipment, City shall within thirty (30) days of written notice thereof from Licensee remove all such debris and equipment from the Licensed Premises or Licensee may remove and dispose of such debris or equipment at the City's cost;

(j) The Licensed Premises, or the portion thereof delivered to Licensee shall be filled with the proper depth of cover material pursuant to the DEC Part 360 Permit;

(k) All Utilities (including the communications conduits but not the wiring therefor) have been completed and accurately depicted (plus or minus six inches ($\pm 6''$)) in a set of "as built" plans and specifications;

(l) All areas of the Licensed Premises being delivered to Licensee shall have been separated from the non-delivered areas with snow fencing or by other means that provide for clear demarcation; and

(m) With respect to the delivery of any Holes and the Practice Area:

(i) Seeding and/or sodding of all Holes being delivered or the Practice Facility, as applicable, shall have been completed, all required fertilizing prior to the initial seeding shall have occurred and the initial round of watering shall have been completed, in each case in accordance

with the Grassing Specification Changes dated May 3, 2010 by Consultant and Section 137 of the Construction Contract and Specification attached hereto as Schedule 4-1 (the “**Grassing Specifications**”);

(ii) The Irrigation System and Drainage System servicing such Holes or the Practice Facility, as applicable, shall be fully operational, all Utility lines located under such Holes or the Practice Facility, as applicable, shall have been installed and functioning and all golf cart paths and other paved areas serving such Holes or the Practice Facility, as applicable, shall have been completed as specified in the City’s Work;

(iii) Access to the temporary staging areas for Grow-In has been given to Licensee;

(iv) All bunkers have been completed and sand installed as specified in the City’s Work;

(v) The Hole layout, shaping, topography, drainage and all other elements of the Hole have been accepted in writing by the applicable Consultant (and a copy of such acceptance has been delivered to Licensee), and delivery to Licensee of a written certification from Nicklaus Design to Parks that the Hole layout, shaping, topography, strategy, and all other elements relating to the playability of the Hole itself (as opposed to, e.g., Landfill related elements present at a Hole) have been accepted by Nicklaus Design as meeting the standards for a Jack Nicklaus Signature golf course;

(vi) A qualified agronomist hired by Sanford pursuant to the Nicklaus Subcontract has confirmed in writing to Parks that the plantings and seeding have satisfied all of the requirements of the Grassing Specifications and the other Construction Documents and such confirmation has been delivered to Licensee;

(vii) If Licensee’s use of the Grow-In Materials for its Grow-In would be inconsistent with the DEC Part 360 Permit (if still in effect) or the New Permit (as defined in the License Agreement), the delivery by Parks to Licensee of documentation from DEC reasonably demonstrating that the use of such Grow-In Materials is permissible under the DEC Part 360 Permit or the New DEC Permit, as applicable (such documentation, a “**DEC Permit Compliance Document**”, referred to in Section 1.2(d) of the License Agreement as “informal written documentation”) (including, for illustrative purposes only, an approval from the DEC stating that the use of such Grow-In Materials in connection with Licensee’s Grow-In is permitted under the DEC Part 360 Permit or the New DEC Permit, as applicable)

10.4 Intentionally Omitted.

10.5 The City’s Work under this Agreement shall include the construction of the Park Snack Bar. The parties agree that the Park Snack Bar may not be completed at the time of City’s Final Completion of the Golf Course Facilities. In addition to the other conditions to City’s Final Completion set forth herein, City’s Final Completion and delivery of the Park Snack Bar to Licensee shall be conditioned upon completion of construction of the entire waterfront park to be constructed by the City in Ferry Point Park adjacent to the Licensed Premises and the opening of such waterfront park to the public. The parties acknowledge that the Park Snack Bar may not be delivered to Licensee until after the Concession Commencement Date and shall not be part of the Licensed Premises until possession thereof is delivered to Licensee in accordance with this Agreement.

10.6 Licensee shall not be bound, precluded or estopped by its occupancy or operation of the Licensed Premises from claiming that the City’s Work, or any part thereof, does not in fact conform to the

requirements of this Agreement by reason of the failure of Parks or the City to perform the City's Work in accordance with this Agreement.

10.7 Upon delivery of the entire Licensed Premises, other than the Park Snack Bar, to Licensee, the City shall, at Licensee's option, provide to Licensee any excess materials and supplies (such as, for example, soil, seed, fertilizer, sand, chemicals, mulch, sod) and other so called "extra surplus materials" that are provided to the City by its Contractors pursuant to any of the Construction Documents.

10.8 In the event that the City fails to perform the City's Work described in Section p (Roads) of Schedule 2 on or before November 30, 2012, which date shall be subject to extension pursuant to Section 4.3, Licensee shall have the right, but not the obligation, to perform such work in accordance with this Agreement and the License Agreement, including obtaining Governmental Approvals required to perform such work. If Licensee performs such work, the City shall pay or reimburse Licensee in an amount equal to the reasonable cost of the work actually paid or incurred by Licensee, provided that documentation of such costs, satisfactory to Parks, is submitted to Parks. In the event that the City fails to pay or reimburse Licensee for such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon at the Interest Rate, which License Fee Credit and interest, subject to the last sentence of Section 4.10 of the License Agreement, will be the sole remedy of Licensee hereunder for the cost of such work. The provisions of this Section 10.8 shall survive any termination or expiration of this Agreement

11. CORRECTION OF DEFECTS; WARRANTIES

11.1 Intentionally Omitted.

11.2 The City shall obtain all manufacturer's standard warranties and guarantees for all equipment and materials included in the City's Work. At City's Final Completion, the City shall assign to Licensee all applicable warranties and other warranties with respect to any portion of the City's Work and specific components and systems thereof that are delivered to the City under the Construction Documents or otherwise and all warranties for any products included in the City's Work, except to the extent the City retains the obligation to maintain such City's Work or components or systems or products under this Agreement or the License Agreement, and at the request of Licensee from time to time, the City shall execute and deliver to Licensee any documents reasonably requested by Licensee in order to enable Licensee to enforce such warranties and guarantees.

11.3 (a) After City's Final Completion, to the extent the City has retained warranties and guarantees, at the request of Licensee, the City shall promptly take such actions as Licensee may reasonably request, including, without limitation, the enforcement of any warranties and guarantees that the City received for any portion of the City's Work or any products, materials and equipment included therein or made a part thereof, and the commencement and prosecution of litigation, to enforce the rights of the City under the Design Contracts, the Nicklaus Subcontract, the Construction Contracts and any other contracts for the City's Work for the benefit of Licensee with respect to claims relating to, among other things, breach of contract, professional negligence or material defects in design, manufacture, construction or installation or effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees, in which case the City shall take such actions as it deems appropriate, in its sole discretion), and shall, if reasonably requested by Licensee, execute such documents as may be requested by Licensee to permit Licensee to enforce any such warranties and guarantees and to commence or prosecute any such action or proceeding in its own name, or, if required by law, in the name of the City.

(b) To the extent the City has assigned warranties and guaranties to Licensee, the enforcement of any such warranties or guaranties and the commencement or prosecuting of litigation to enforce the rights of Licensee thereunder shall be at the option of Licensee; provided that in no event shall Licensee be obligated to expend more than a de minimus amount for any litigation or other enforcement action that may be required to enforce any warranties or guaranties that City has assigned to Licensee. If Licensee determines that the costs of litigation or other enforcement action (“**Costs**”) are greater than a de minimus amount, Licensee shall submit an estimate of such Costs to the City and the City shall thereafter have the option to (i) take actions to enforce any guaranty or warranty or commence and prosecute litigation to enforce the rights of City and/or Licensee under any guaranty or warranty, (ii) take responsibility for correcting warranty or guaranty defects or issues in lieu of pursuing a warranty or guaranty claim against a third party, or (iii) direct Licensee to take actions to enforce any guaranty or warranty or commence and prosecute litigation to enforce the rights of the City and/or Licensee under any guaranty or warranty. If the City directs Licensee to take actions pursuant to clause (iii) in this Section 11.3(b), then the City shall pay or reimburse Licensee in an amount equal to the reasonable Costs actually paid or incurred by Licensee. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such Costs and written demand from Licensee, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon at the Interest Rate as set forth in Section 4.10 of the License Agreement, which, subject to the last sentence of Section 4.10 of the License Agreement, will be the sole remedy of Licensee hereunder. Notwithstanding the foregoing, the amount of the Costs owed to Licensee shall be reduced by any amount recovered from the applicable Contractor or Consultant under the applicable warranty/guaranty and actually paid to Licensee, provided, however, the amount of the Costs owed to Licensee shall not be reduced to the extent any amount recovered is paid to the City. In the event that Licensee enforces any warranty or guaranty that has been assigned from the City to Licensee, the City shall execute such documents to permit Licensee to enforce any such guaranties and warranties and to commence or prosecute any such action or proceeding in its own name, or, if required by law, in the name of the City.

11.4 Licensee shall promptly repair, replace, restore or rebuild or cause to be repaired, replaced, restored or rebuilt, as the City shall reasonably determine, any of the Capital Improvements provided by Licensee in which material defects of design, materials or workmanship may appear or to which damage may occur because of such defects during the one (1) year period subsequent to the date of Final Completion by Licensee with respect to such Capital Improvements, as applicable, except to the extent such defect or damages are the result of (x) the negligence or willful misconduct of the City, its agents and its Contractors and Consultants, or (y) Environmental Conditions and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), and provided that in no event shall Licensee be required to maintain, repair, replace, restore or rebuild any portion of the Licensed Premises that are at or under the layer of municipal solid waste located below the surface of the Licensed Premises (provided however that Licensee shall be required to maintain, repair, replace, restore or rebuild any portion of the Licensed Premises that are at or under the layer of municipal solid waste located below the surface of the Licensed Premises: (i) in the areas where the foundation for the Clubhouse is installed by Licensee if required to maintain, repair, replace, restore or rebuild Licensee’s work, unless caused by Environmental Conditions and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), and (ii) in other areas if, due to the negligence or willful misconduct of the Licensee in performing its obligations under this Agreement or the License Agreement, it becomes necessary to disturb or excavate the layer of municipal solid waste). Parks shall provide Licensee with written notification of any material defects of design materials or workmanship or damage due to such defects within sixty (60) days of Parks discovering or becoming aware thereof.

11.5 Licensee shall obtain, in Licensee's name, all manufacturer's standard warranties and guarantees for all equipment and materials included in the Capital Improvements. Licensee shall assign to the City all applicable guaranties and other warranties with respect to any portion of the Licensee's Capital Improvements and specific components and systems thereof that are delivered to the City under this Agreement and the License Agreement when and if the City exercises its option to take title to such equipment and materials or specific components and systems thereof. In accordance with the foregoing in this Section 11.5, as may be requested by the City from time to time, Licensee shall execute and deliver to the City any documents reasonably requested by the City in order to enable the City to enforce such guaranties and warranties. All of the City's rights and title and interest in and to said manufacturers' warranties and guaranties may be assigned by the City to any subsequent licensees of the Licensed Premises.

11.6 The provisions of this Article 11 shall survive any termination or expiration of this Agreement.

12. MUNICIPAL SOLID WASTE REMEDIATION

12.1 In the event that, in connection with the performance of the City's Work, any municipal solid waste is exposed, disturbed or otherwise affected, the City shall remove and otherwise remediate, as applicable, such municipal solid waste from the Project Site in accordance with all applicable Environmental Laws (except if the City's Work is performed by Licensee pursuant to Section 10.8 of this Agreement, as applicable, in which case Licensee, at its sole cost and expense, shall be responsible for such removal and remediation, as applicable, in connection with such work being performed by Licensee, provided, however, Licensee shall not be responsible for any Environmental Conditions and/or effects of Environmental Conditions or any liability with respect thereto arising from Licensee's work except to the extent caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees). Likewise, if it is discovered after commencement of the Grow-In that some areas of the Licensed Premises do not have the minimum cover depth over the municipal solid waste required by the DEC Part 360 Permit, the City shall promptly remediate the condition at its sole cost and expense. The City represents and warrants that the depth of fill material over all areas of the municipal solid waste at the Licensed Premises is a minimum of two (2) feet. Notwithstanding the foregoing, subject to Section 5.5, Licensee shall, at its sole cost and expense, provide all new cover, required by Licensee to replace cover that is removed or disturbed due to Licensee's activities at the Licensed Premises.

12.2 The provisions of this Article 12 shall survive any termination or expiration of this Agreement.

13. INDEMNIFICATION

13.1 To the fullest extent permitted by law (and without limiting Licensee's obligations under this Agreement and the License Agreement (including, without limitation, Section 12.19(c) of the License Agreement)), Licensee shall defend, indemnify and hold the Indemnitees harmless against any and all Claims, for which they are or may be liable as a result of any personal injury, death or property damage arising, in whole or in part, out of the work, activities or operations of any of the Licensee Indemnitees at the Licensed Premises pursuant to this Agreement, except for Claims arising from Environmental Conditions and/or the effects of Environmental Conditions, whether such Environmental Conditions and/or the effects of Environmental Conditions are presently existing or arise after the date hereof except to the extent that such Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees. Notwithstanding anything to the contrary contained herein, the provisions of this indemnification shall not be construed to indemnify or provide for the defense of any Indemnitees to the extent any Claims are attributable to the acts or omissions of the Indemnitees, provided, however, for the sake of clarity, notwithstanding the foregoing, the indemnity or provision for the defense of Indemnitees shall apply to

the extent any Claims are attributable to any Environmental Conditions and/or effects of Environmental Conditions to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees. Licensee's duty to defend, indemnify and hold the Indemnitees harmless, as provided in this Section 13.1, shall survive the expiration or sooner termination of this Agreement.

13.2 Intentionally Omitted.

13.3 Licensee's duty to defend, indemnify and hold the Indemnitees harmless, as provided in Section 13.1, shall not be abrogated, diminished or otherwise affected by Licensee's further duty on their behalf to procure and maintain insurance pursuant to the provisions of Section 14 hereof, nor by their failure to avail themselves of the benefits of such insurance by due and timely demand upon the insurers therefor, and shall survive the expiration or sooner termination of this Agreement.

13.4 Except as expressly provided in this Agreement and/or in the License Agreement, Licensee assumes all risk in the operation of this Agreement. For the sake of clarity, and without limiting the City's or Parks' obligations under this Agreement, Licensee shall not be deemed to assume the risks associated with (a) any portion of the Project Site prior to delivery of possession of such portion of the Project Site to Licensee in accordance with the provisions of this Agreement and the License Agreement (except if Licensee performs any Capital Improvement or other activities on any portion of the Project Site prior to delivery thereof to Licensee, then subject to the terms of this Agreement and the License Agreement and without limiting Parks' or the City's obligations under this Agreement and the License Agreement, Licensee shall assume the risk for such Capital Improvement or activity), (b) the City's or Parks' construction of the City's Work pursuant to this Agreement and the License Agreement (including City's Reconstruction Activities), (c) any Environmental Conditions and/or effects of Environmental Conditions whether such Environmental Conditions and/or effects of Environmental Conditions are presently existing or arise after the execution of this Agreement (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees), (d) any settlement due to the Landfill, and (e) any of the City's or Parks' responsibilities under the DEC Part 360 Permit, the DEC Deed or other applicable Legal Requirements with respect to Environmental Conditions and/or effects of Environmental Conditions, except as otherwise provided in this Agreement and the License Agreement.

13.5 Without limiting the City's and Parks' obligations under this Agreement and the License Agreement (including, without limitation, Section 12.19(c) of the License Agreement), the City shall defend, indemnify and hold the Licensee Indemnitees harmless against any and all Claims for which they are or may be liable as a result of any personal injury, death or property damage arising, in whole or in part, out of the work, activities or operations of the City or Parks, or the City's or Park's employees, contractors or other agents, in connection with the City's or Park's activities and operations on the Project Site, including, without limitation, the City's or Park's construction of the Golf Course, the Practice Facility, the Snack Bars and other facilities to be constructed by the City or Parks pursuant to this Agreement (including City's Reconstruction Activities), and any Environmental Conditions and/or effects of Environmental Conditions presently existing or arising after the execution of this Agreement (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and any conditions existing on any portion of the Licensed Premises delivered to Licensee existing as of the date of delivery of such portion of the Licensed Premises to Licensee pursuant to this Agreement and the License Agreement, except to the extent caused by the negligence or willful misconduct of any of the Licensee Indemnitees prior to delivery of such portion of the Licensed Premises to Licensee. Notwithstanding anything to the contrary contained herein, the provisions of this indemnification shall not be construed to indemnify or provide for the defense of Licensee Indemnitees to the extent any

Claims are attributable to the acts or omissions of any of the Licensee Indemnitees, provided, however, for the sake of clarity, notwithstanding the foregoing, the indemnity or provision for the defense of Licensee Indemnitees shall apply to the extent any Claims are attributable to any Environmental Conditions and/or effects of Environmental Conditions (except to the extent that such Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees). The City's duty to defend, indemnify and hold the Licensee Indemnitees harmless, as provided in this Section 13.5, shall survive the expiration or sooner termination of this Agreement.

13.6 (a) In the City's defense of the Licensee Indemnitees (or any one of them), as applicable, in accordance with the terms of this Agreement (including, without limitation Article 13), the City shall not, without the prior written consent of Licensee, (i) make any non-monetary settlement of any Claims against any of the Licensee Indemnitees or (ii) make any monetary settlement of any Claims against any of the Licensee Indemnitees unless such monetary settlement is free of any admission of guilt or wrongdoing by any of the Licensee Indemnitees. Additionally, the City agrees (i) to make good faith efforts to consult with Licensee regarding legal strategy in the defense of any Claims against any of the Licensee Indemnitees (including positions asserted, claims and counterclaims) and (ii) not to portray any of the Licensee Indemnitees in a negative light.

(b) In Licensee's defense of the Indemnitees (or any one of them), as applicable, in accordance with the terms of this Agreement (including, without limitation Article 13), Licensee shall not, without the prior written consent of the City, (i) make any non-monetary settlement of any Claims against any of the Indemnitees or (ii) make any monetary settlement of any Claims against any of the Indemnitees unless such monetary settlement is free of any admission of guilt or wrongdoing by any of the Indemnitees. Additionally, Licensee agrees (i) to make good faith efforts to consult with the City regarding legal strategy in the defense of any Claims against any of the Indemnitees (including positions asserted, claims and counterclaims) and (ii) not to portray the City in a negative light.

14. INSURANCE

14.1 Licensee shall, at its own cost and expense, procure and maintain, and shall require any of its contractors or subcontractors to procure and maintain, from the date Licensee commences use of the temporary staging area on the Project Site pursuant to Section 6.6(a) of this Agreement until the Concession Commencement Date of the License Agreement, such insurance as will:

(a) protect Licensee and any contractors or subcontractors from Worker's Compensation, including Employer's Liability and Disability claims;

(b) insure Licensee, its agents and sublicensees, and Licensee Indemnitees, the City, Parks, and their respective officials, agents and employees against any and all Claims, for which they, or any of them, are or may be liable as a result of any bodily injury, including death, or property damage arising, in whole or in part, from Licensee's operations pursuant to this Agreement, including but not limited to any accident occurring on the Project Site, the design, construction, installation, operation, repair, maintenance, replacement or removal of any Capital Improvements by Licensee or any of the Licensee Indemnitees. For the sake of clarity, such insurance shall not apply to the extent Claims are related to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees), or (y) any other matter for which the City or Parks is responsible or liable under this Agreement or the License Agreement; and

(c) insure the property and equipment of the City and Parks against any damage whatsoever.

14.2 (a) The policies shall provide the amounts of insurance hereafter mentioned, and on or before the date Licensee commences use of the temporary staging area on the Project Site pursuant to Section 6.6(a) of this Agreement, Certificates of Insurance and Broker's Certification in forms satisfactory to the Commissioner shall be submitted to Commissioner for his approval and retention. Each policy shall be endorsed to reflect that: "No cancellation of or change in this policy shall become effective until after thirty (30) days notice by Certified Mail to Asst. Commissioner for Revenue and Marketing, New York City Department of Parks & Recreation, The Arsenal, 830 Fifth Avenue, New York, New York 10065." Licensee shall be solely responsible for the payment of all premiums, deductibles and other costs relating to the policies of insurance required under this Agreement. Licensee shall obtain from the insurance broker accounting statements providing evidence that the premiums for the insurance policies have been paid and shall submit such accounting statements to Commissioner. There shall be no self-insurance program relating to any such insurance, unless approved in writing by the Commissioner, which approval shall not be unreasonably withheld, conditioned or delayed. Licensee shall be required to demonstrate to the Commissioner's reasonable satisfaction that such self-insurance program provides coverage at least as broad as required herein and provides the City and Parks with all rights required herein.

(b) Each policy shall also provide that the insurer is obligated to provide a legal defense in the event any claim is made against the City regarding Licensee's operations on the Project Site, provided that the foregoing in this Section 14.2 shall not apply where such claims are related exclusively to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees) or (y) any other matter for which the City or Parks is solely responsible or liable under this Agreement or the License Agreement. For the sake of clarity, this Section 14.2(b) relates only to issues of legal defense and does not relate to indemnification or liability under any policy. If, at any time, any of said policies shall reasonably become unsatisfactory to Commissioner as to form or substance, or if a company issuing any such policies shall reasonably become unsatisfactory to the Commissioner, Licensee shall promptly (within not more than fifteen (15) business days) obtain a new policy, and submit the same to Commissioner for written approval, which shall not be unreasonably withheld, and for retention thereof as hereinabove provided.

(c) If, at any time, any of said policies shall terminate, Licensee shall, prior to the termination of such existing policy, promptly obtain a new policy, and submit the required Certificate of Insurance and Broker's Certification (or binder) to Commissioner for written approval, which shall not be unreasonably withheld, and for retention thereof as hereinbefore provided. In the event any insurance is suspended, discontinued or terminated, Licensee shall have the right, prior to such suspension, discontinuation, or termination, to secure replacement insurance satisfying the requirements of this Section 14, and provide Parks with a Certificate of Insurance and Broker's Certification (or binder) evidencing such insurance. Upon failure of Licensee to maintain, furnish and deliver insurance (including renewal or replacement insurance) or to provide Certificate(s) of Insurance and Broker's Certification (or binder(s)) as above provided in this Section 14, this Agreement may, at the election of the Commissioner be immediately suspended and/or may be terminated in accordance with the provisions of Section 16.2. Failure of Licensee to take out and/or maintain or the taking out or maintenance of any required insurance shall not relieve Licensee from any liability under this Agreement, nor shall the insurance requirements be construed to conflict with or limit the obligations of Licensee concerning indemnification or otherwise.

14.3 Endorsement to Policies - The following additional endorsements shall be made part of the insurance policies described in this Agreement other than Worker's Compensation, Disability Benefits

and Employer's Liability, as specified below:

- (i) This policy shall not be canceled, terminated, modified, or the coverage thereof reduced, until thirty (30) days after receipt of written notice thereof by certified mail addressed to the Commissioner.
- (ii) If and insofar as knowledge of an "occurrence", "claim", or "suit" is relevant to the City of New York as additional insured under this policy, such knowledge by an agent, servant, official or employee of the City of New York will not be considered knowledge on the part of the City of New York of the "occurrence", "claim", or "suit" unless notice thereof is received by the: Insurance Claims Specialist, Affirmative Litigation Division, New York City Law Department.
- (iii) Any notice demand or other writing by or on behalf of the named insured to the insurance company shall also be deemed to be a notice, demand or other writing on behalf of the City as an additional insured. Any response by the Insurance Company to such notice, demand or other writing shall be addressed to the named insured and to the City at the following address: Insurance Claims Specialist, Affirmative Litigation Division, New York City Law Department, 100 Church Street, New York, New York 10007.
- (iv) The presence of representatives of the City on the Project Site shall not invalidate this policy.
- (v) Violation of any of the terms of any other policy issued by the Insurance Company to the Licensee shall not invalidate this policy.

14.4 All policies required by this Agreement shall be issued by an insurance company or companies authorized to do business in the State of New York having an A.M. Best rating of at least A-7 and, except for Workers' Compensation, Disability Benefits and Employer's Liability insurance, must specifically name the City, including its officials and employees, as Additional Insured with coverage at least as broad as set forth in ISO Form CG 2026 and must be in effect and continue so from and after the date Licensee commences use of the temporary staging area on the Project Site pursuant to Section 6.6(a) of this Agreement until the Concession Commencement Date of the License Agreement in not less than the following amounts (or such higher amounts as the Commissioner may hereafter reasonably require):

Workers' Compensation and Disability Insurance	Per Statute
Employer's Liability Insurance	As required by the laws of the State of New York
Comprehensive General Liability Insurance dedicated to Licensee's operations at the Licensed Premises (with Broad Form Property Damage, Personal Injury Liability, Products/Completed Operations Liability, Contractual Liability, Independent Contractors, Fire/Legal Liability, Property Insurance Endorsements), for any one occurrence	\$2,000,000
Any Auto, Hired Auto, and Non-Owned Auto Insurance, for any one occurrence	\$1,000,000
Umbrella/Excess Liability dedicated to Licensee's operations at the Licensed Premises	\$3,000,000

In the event that Licensee maintains Pollution Legal Liability Insurance with regard to any operations under this Agreement or requires any of Licensee's Contractors to procure Contractors Pollution Liability Insurance, then Licensee shall or Licensee shall cause Licensee's Contractors to name the City, including its officials and employees, as an additional insured with coverage at least as broad as ISO Form CG 2026. For the sake of clarity, Licensee has the right, but not the obligation, to maintain or cause Licensee's Contractors to procure and maintain such insurance.

Further, for the sake of clarity, such insurance shall not protect the City, Parks and their respective agents and employees, with regards to Environmental Conditions and/or the effects of Environmental Conditions, except to the extent the Environmental Conditions and/or effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees.

14.5 The insurance certificates for all policies required by this Agreement shall include the Agreement No. and shall indicate the location of the work. Licensee shall provide copies of all such Certificates of Insurance and Brokers Certifications to Parks on or prior to the date Licensee commences use of the temporary staging area on the Project Site pursuant to Section 6.6(a) of this Agreement.

14.6 Intentionally Omitted.

14.7 In the event that claims in excess of these amounts (including Licensee's umbrella insurance policy) are filed against the City, the amount of excess of such claims, or any portion thereof, may be withheld from any payment due or to become due to Licensee until such time as Licensee shall furnish such additional security covering such claims as may be reasonably determined by Commissioner; provided that the foregoing in this Section 14.7 shall not apply to the extent such claims are related to (x) an Environmental Condition and/or the effects of Environmental Conditions (except to the extent the Environmental Conditions and/or the effects of Environmental Conditions are caused or exacerbated by the negligence or willful misconduct of Licensee or any of the Licensee Indemnitees) or (y) any other matter for which the City or Parks is responsible or liable under this Agreement or the License Agreement.

15. PROHIBITION AGAINST TRANSFERS

15.1 Licensee shall not sell, transfer, assign, sublicense or encumber in any way this Agreement or a majority of the shares of Licensee, or any Fixed Equipment furnished as provided herein (provided that Licensee shall have the right to enter into equipment leases for or grant security interests in Expendable Equipment (as defined in the License Agreement)), or any interest therein, or consent, allow or permit any other person or party to use any part of the Licensed Premises, building, space or facilities covered by this Agreement except as contemplated in connection with Licensee's activities under this Agreement, nor shall this Agreement be transferred by operation of law, unless approved in advance in writing by Commissioner, it being the purpose of this Agreement to grant this Agreement solely to Licensee herein named. Notwithstanding anything to the contrary contained herein, (a) Licensee shall have the right to assign or transfer this Agreement to an assignee or transferee of the License Agreement made in accordance with the License Agreement provided that the proposed assignee or transferee agrees in writing to assume all of Licensee's responsibilities and obligations under this Agreement, and (b) transfers of interests in Licensee permitted by the License Agreement shall be permitted hereunder.

15.2 This Agreement may be assigned, in whole or in part, by the City to any governmental corporation, governmental agency or governmental instrumentality having authority to accept such assignment provided such assignee assumes all of the City's obligations hereunder and further provided

that the License Agreement is simultaneously assigned to such entity. The City shall provide the Licensee with prior written notice of any such assignment.

16. TERMINATION OF AGREEMENT

16.1 Notwithstanding any language to the contrary contained herein, this Agreement is terminable at will by the Commissioner in his sole and absolute discretion, provided that the Commissioner simultaneously terminates the License Agreement in accordance with the provisions of Section 3.2(a) of the License Agreement and pays to Licensee the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in Section 3.2(b) of the License Agreement, payable to Licensee in accordance with Section 3.2 of the License Agreement.

16.2 (a) The Commissioner shall have the right to terminate this Agreement on ten (10) days notice to Licensee upon the occurrence of any of the following events and the expiration of any applicable notice, grace and cure period as set forth herein, and each such event shall constitute an “Event of Default” under this Agreement: (i) Licensee defaults in the payment of any due and unpaid amount payable by Licensee under this Development Agreement (except for payments of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this Development Agreement which are addressed below in the proviso to this Section 16.2(a)(i)) and such default shall continue for more than ten (10) business days after Parks has delivered notice thereof to Licensee; provided, however, that with respect to a default in payment of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this Development Agreement, no notice by Parks shall be required and an Event of Default shall occur upon the failure to pay the amount due to the applicable insurance company prior to expiration of the period of time before the cancellation of the applicable insurance policy (unless such policy is replaced prior to such time); (ii) Licensee materially breaches or fails to substantially comply with any of the material provisions of this Agreement and such default shall continue for more than twenty-five (25) days after Parks has delivered notice thereof to Licensee (such notice a “**Default Notice**”), provided, however, that notwithstanding the foregoing if such default cannot reasonably be cured within such twenty-five (25) day period, Licensee shall have such additional time as may be reasonably necessary to cure such default, provided that Licensee shall have commenced curing such default within such twenty-five (25) day period and Licensee thereafter diligently prosecutes such cure to completion and, provided, further that, notwithstanding the foregoing, if a Default Notice alleges a material breach or failure to substantially comply with any of the material provisions of this License Agreement relating to an alleged failure of Licensee to comply with any Legal Requirements and Licensee challenges (through administrative or judicial process, as applicable) such alleged breach or failure in good faith, Licensee shall not be deemed to have breached or failed to comply with this License Agreement until such time as Licensee’s challenge is denied beyond any right of appeal, and if denied (beyond any right of appeal), Licensee shall have the cure periods stated in this paragraph which shall run from the date of such denial provided, however, that Licensee shall comply with all applicable legal orders requiring action or discontinuance of action during the pendency of such challenge. For purposes of this provision and for Section 16.3 below, a material breach or failure to substantially comply shall be those breaches or failures specifically identified as such in this Agreement, such other breaches or failures as are material under the circumstances, or any time any of Licensee’s representations contained in this Agreement are found to be materially untrue, inaccurate or incorrect; (iii) if a material breach or failure to substantially comply with any provisions of this Development Agreement by Licensee occurs and is corrected within the time periods specified in this Section 16.2, and a repeated violation of the same provision occurs more than two (2) additional times in any twelve (12) month period; (iv) if, (x) upon the occurrence and during the continuance of an Event of Default under this Development Agreement or the License Agreement and (y) after Parks has provided written notice to Guarantor that Parks intends to pursue

its rights under the Guaranty in accordance with the terms of the Guaranty, Guarantor shall default, beyond any applicable notice or cure periods, in his obligations under that certain Guaranty or (v) the Commissioner terminates the License Agreement in accordance with the provisions of Section 3.3 of the License Agreement. In addition to the remedies set forth herein, the City may pursue any rights the City may have under the Guaranty as set forth in Exhibit V of the License Agreement, provided, however, that for the sake of clarity, as set forth in the Guaranty, the Guaranty may not be enforced until the expiration of any applicable notice and cure periods and then only in accordance with the terms of the Guaranty.

(b) Notwithstanding the foregoing, in the event that the Event of Default underlying the termination notice is a default in payment of any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under this Agreement, then in such event, and in such event only, Licensee may cure such Event of Default within such ten (10) day period. For the purposes of the foregoing sentence, "cure" shall mean (i) payment of all unpaid portions of premiums due, and (ii) the unconditional agreement to defend, indemnify, and hold the City harmless (and the subsequent defense, indemnification, and holding of the City harmless) for all Claims that Licensee must indemnify the City for under the terms of Article 13 (even if such Claims arose during any period where Licensee did not have all insurance required pursuant to this Agreement).

16.3 In the event that (a) the City fails to comply with the Estimated Completion Dates, as same may be adjusted pursuant to Section 4.3, for any phase or portion of the City's Work for a period of one hundred twenty (120) days (or one hundred eighty (180) days where the City needs to obtain a replacement Contractor to complete the City's Work or the applicable portion thereof) following written notice from Licensee, provided, that the Estimated Completion Dates shall be extended day for day, as applicable, for (i) the length of any Force Majeure, (ii) the reasonable period of time necessary for the City to review Licensee's objection to the City's acceptance of any of the City's Work as set forth in Section 10.2 and, if determined necessary by the City, the reasonable period of time to perform or cause to be performed any changes to the City's Work accordingly, (iii) the reasonable period of time necessary for implementation of a Licensee Proposed Change, (iv) the length of any interference with any of the City's Work caused by Environmental Conditions (to the extent caused or exacerbated by the negligence or willful misconduct of any of the Licensee Indemnitees) and/or any repairs, replacements or remediation conducted on the Licensed Premises by the Licensee which materially and adversely interfere with the City's Work (and which shall be conducted by the Licensee in accordance with the terms of this Agreement), and/or (v) with respect to the delivery of the first nine (9) Holes, to the extent that the reason that the City fails to comply with the Estimated Completion Dates is that a DEC Permit Compliance Document is required pursuant to Section 10.3(m)(vii) and despite the diligent good faith efforts of the City to obtain such DEC Permit Compliance Document, the City is unable to do so, such additional time as may be reasonably necessary to obtain such DEC Permit Compliance Document, provided the City shall diligently and in good faith pursue receipt of such DEC Permit Compliance Document until receipt thereof; provided that no such cure rights in this clause (a) shall extend the date for City's Final Completion of all of the City's Work and delivery of all of the Licensed Premises (other than the Park Snack Bar) to Licensee beyond December 1, 2013, unless implementation of a Licensee Proposed Change as set forth in Section 8.2 requires such extension beyond December 1, 2013, (b) the City fails to deliver possession of the entire Licensed Premises (other than the Park Snack Bar) to Licensee in accordance with this Agreement and with City's Final Completion of all of the City's Work on or prior to December 1, 2013, unless implementation of a Licensee Proposed Change as set forth in Section 8.2 requires such extension beyond December 1, 2013, (c) the Nicklaus Subcontract is terminated (except if such termination is due to the actions of or failure to act by any of the Licensee Indemnitees), or (d) the City or Parks materially breach or fail to substantially comply with any of the other material provisions of this Agreement and such default shall continue for more than twenty-five (25) days after Licensee has

delivered notice thereof to the City, provided, however, that notwithstanding the foregoing if such default cannot reasonably be cured within such twenty-five (25) day period, Parks and the City shall have such additional time as may be reasonably necessary to cure such default, provided that Parks and the City shall have commenced curing such default within such twenty-five (25) day period and Parks and the City thereafter diligently prosecutes such cure to completion, and, provided, further that, notwithstanding the foregoing, if such notice alleges a material breach or failure to substantially comply with any of the material provisions of this License Agreement relating to an alleged failure of the City or Parks to comply with any Legal Requirements and City or Parks challenges (through administrative or judicial process, as applicable) such alleged breach or failure in good faith, the City and Parks shall not be deemed to have breached or failed to comply with this Development Agreement until such time as the City's or Park's challenge is denied beyond any right of appeal, and if denied (beyond any right of appeal), City and Parks shall have the cure periods stated in this paragraph which shall run from the date of such denial (provided, however, that City and Parks shall comply with all applicable Legal Requirements during the pendency of such challenge)), then, in any such case, Licensee shall have the right to seek all appropriate legal and equitable remedies and the City shall be liable to Licensee for such amounts to which Licensee may be entitled in law or equity in any action brought by Licensee against the City on account of any of the foregoing in this Section 16.3 and Licensee shall have the right to (in addition to any other remedy which Licensee may have under this Agreement) give notice to the City, in writing, terminating this Agreement, and this Agreement shall terminate ten (10) days after receipt by the City of such termination notice from Licensee. For purposes of this provision, a "material breach or failure to substantially comply" shall either be those breaches or failures specifically identified as such in this Agreement or such other breaches or failures as are material under the circumstances. For the sake of clarity, termination under this Section 16.3 shall not entitle Licensee to a Termination Payment under the License Agreement.

16.4 Subject to Section 16.5 of this Agreement and Section 3.3(e) of the License Agreement, Licensee agrees that upon the expiration or sooner termination of this Agreement, it shall immediately cease all operations pursuant to this Agreement and shall vacate the Licensed Premises without any further notice by City and without resort to any judicial proceeding by the City. Subject to Section 3.3(e) of the License Agreement, upon the expiration or sooner termination of this Agreement, City reserves the right to take possession of the Licensed Premises.

16.5 Subject to Section 3.3(e), Section 3.5, and Section 13.3 of the License Agreement, Licensee shall, within thirty (30) days following the expiration or sooner termination of this Agreement ("**Removal Period**"), remove all personal possessions from the Licensed Premises. All of the provisions of this Agreement, including but not limited to the insurance and indemnification provisions, shall apply during the Removal Period. Licensee acknowledges that any personal property remaining on the Licensed Premises after the Removal Period is intended by Licensee to be abandoned. Licensee shall remain liable to the City for any damages, including the cost of removal or disposal of property, should Licensee fail to cease operations, vacate the Licensed Premises or remove all possessions from the Licensed Premises during the time prescribed in this Agreement. Pursuant to Section 4.4 of the License Agreement, the City may seize the Security Deposit to recover such damages in part or in whole. If all or any part of the Security Deposit remains unexpended, then the City agrees to return such balance to Licensee within sixty (60) days following the Removal Period, provided Licensee is otherwise in compliance with the provisions of this Agreement.

16.6 This Agreement shall be effective upon written notice from Parks to Licensee that the License Agreement (which includes this Agreement as Exhibit C) has been registered with the Comptroller of the City of New York. Subject to the provisions of this Agreement that specifically survive termination or which by their nature would survive, unless this Agreement is sooner terminated pursuant to the

provisions hereof, the City's obligations under this Agreement shall terminate upon the City's Final Completion of all of the City's Work, notwithstanding that the Park Snack Bar may not have been delivered to Licensee on or prior to the Concession Commencement Date, and Licensee's obligations hereunder shall terminate upon the Concession Commencement Date (provided that the foregoing shall not limit Licensee's obligation under the License Agreement to maintain the Golf Course consistent with a first class, tournament quality daily fee golf course and to the reasonable standards of a Jack Nicklaus Signature golf course, including, if necessary, continuing to grow-in the Practice Facility as though the Grow-In obligation continues after the Concession Commencement Date under this Agreement and the costs of such grow-in incurred by Licensee shall be treated as though they were Grow-In Costs under this Agreement). This Agreement shall terminate when both Parties' obligations have terminated.

16.7 In the event that the License Agreement is terminated for any reason, Licensee and/or the City shall have the right to terminate this Agreement.

16.8 The City's obligations to pay the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in Section 3.2(b) of the License Agreement, in accordance with the License Agreement and the Development Agreement and all of the provisions of this Agreement pursuant to which Licensee is entitled to receive the Termination Payment, with accrued interest thereon, as applicable, at the Interest Rate as set forth in Section 3.2(b) of the License Agreement, shall survive the termination of this Agreement.

17. CONSENTS AND APPROVALS

17.1 Whenever any act, consent, approval or permission is required of the City, Parks or the Commissioner under this Agreement, the same shall be valid only if it is, in each instance, in writing and signed by the Commissioner or his duly authorized representative. Unless a different standard is specifically provided herein, whenever any act, consent, approval or permission is required of the City, Parks or the Commissioner under this Agreement, the same shall not be unreasonably withheld, conditioned or delayed, and whenever this Agreement provides that consent approval or permission shall not be unreasonably withheld, such provision shall be deemed to include that such consent, approval or permission shall not be unreasonably conditioned or delayed, and terms such as satisfactory and acceptable shall be deemed to mean reasonably satisfactory and reasonably acceptable. No variance, alteration, amendment, or modification of this instrument shall be valid or binding upon the City, Parks, the Commissioner, Licensee or their respective agents, unless the same is, in each instance, in writing and duly signed by the Commissioner or his duly authorized representative and the Licensee. As used in this Agreement, including all Exhibits and Schedules, the words "include", "includes", or "including" shall be deemed to be followed by the words "without limitation."

17.2 Notwithstanding anything to the contrary contained in this Agreement, (i) any references to any consent, approval or permission required of the City (without any reference to any City agency), Parks or the Commissioner under this Agreement (including documentation, parties and other matters requiring the satisfaction of or are required to be satisfactory to the City, Parks or the Commissioner, as applicable) shall be deemed a reference to Parks and any requests for such consent, approval or permission shall be submitted to Parks, (ii) any such consent, approval, or permission granted pursuant to this Agreement to Licensee by Parks shall be deemed given by the City, Parks and/or the Commissioner, as applicable, (iii) any covenants, obligations, responsibilities, acts or omissions of Parks under this Agreement shall mean the City acting by and through Parks, (iv) notwithstanding anything to the contrary contained in clause (iii) of this Section 17.2 and subject to Section 7.2, any covenants, obligations, responsibilities or acts of Parks or the City, as they pertain to the City's Work under this Agreement, shall mean the City acting by and through Parks or the DDC, as the case may be, or the City acting by and through any other

appropriate City agency, and (v) where provision is made herein for notice or other communication to be given in writing or otherwise or for the submission of a document or other item, to the City (without any reference to any City agency), Parks or the Commissioner, the provision shall be deemed a reference to Parks, whose address is provided at the beginning of this Agreement.

18. CHOICE OF LAW, CONSENT TO JURISDICTION AND VENUE

18.1 This Agreement shall be deemed to be executed in the City of New York, State of New York, regardless of the domicile of the Licensee, and shall be governed by and construed in accordance with the laws of the State of New York.

18.2 Any and all claims asserted by or against the City (which for purposes of this Article 18 includes the Commissioner) or Licensee arising under this Agreement or related thereto shall be heard and determined either in the courts of the United States located in New York City (“**Federal Courts**”) or in the courts of the State of New York (“**New York State Courts**”) located in the City and County of New York. To effect this Agreement and its intent, Licensee and the City agree:

(a) If any such action or proceeding is brought in Federal Court or in New York State Court, service of process may be made on the City or Licensee, as the case may be, by personal service, in accordance with the provisions of the New York Civil Practice Law and Rules (“CPLR”), wherever such party may be found, (and if the City is the party being served, process shall be served on the Corporation Counsel, 100 Church Street, New York, New York 10007); provided, however, that in so far as service is to be made upon the Licensee, as an alternative to personal service in accordance with the provisions of the CPLR, service of process upon Licensee may be made in such other manner and at other address for Licensee in each case only as Licensee may provide in writing to the City; and

(b) With respect to any action between the City and the Licensee in New York State Court, the Licensee and the City each hereby expressly waives and relinquishes any right it might otherwise have (i) to move to dismiss on grounds of forum non conveniens, (ii) to remove to Federal Court; and (iii) to move for a change of venue to a New York State Court outside New York County.

(c) With respect to any action between the City and the Licensee in Federal Court located in New York City, each of them expressly waives and relinquishes any right it might otherwise have to move to transfer the action to a United States Court outside the City of New York.

18.3 If the Licensee or City commences any action arising under or in connection with this Agreement against any of them in a court located other than in the City and State of New York, upon request of any of the other of such parties, the commencing party shall either consent to a transfer of the action to a court of competent jurisdiction located in the City and State of New York or, if the court where the action is initially brought will not or cannot transfer the action, the commencing party shall consent to dismiss such action without prejudice and may thereafter reinstitute the action in a court of competent jurisdiction in New York City.

19. CONFLICT OF INTEREST

19.1 Licensee represents and warrants that neither it nor any of its directors, officers, members, partners or Affiliates, has any interest nor shall it acquire any interest, directly or indirectly, which would or may conflict in any manner or degree with the performance or rendering of the services herein provided. Licensee further represents and warrants that, to its knowledge, none of its employees has any interest, which would or may conflict in any manner or degree with the performance or rendering of the services herein provided. Parks and the City acknowledge and agree that the present or future ownership

and operation of other golf courses by Trump or any of his Affiliates, or any of their directors, officers, members, employees or partners does not constitute such a conflict and shall not violate this provision. Licensee further represents and warrants that in the performance of this Agreement no person having such interest or possible interest shall be knowingly employed by it, provided, however, if Licensee unknowingly has employed or employs a person having such interest or who acquires such interest and such conflicting interest is subsequently discovered by Licensee, then Licensee shall take prompt steps to remedy the conflict. No elected official or other officer or employee of the City or Parks, nor any person whose salary is payable, in whole or part, from the City treasury, shall participate in any decision relating to this Agreement which affects his/her personal interest or the interest of any corporation, partnership or association in which he/she is, directly or indirectly, interested nor shall any such person have any interest, direct or indirect, in this Agreement or in the proceeds thereof.

20. SEVERABILITY: INVALIDITY OF PARTICULAR PROVISIONS

20.1 If any term or provision of this Agreement or the application thereof to any person or circumstances shall, to any extent, be invalid or unenforceable, the remainder of this Agreement, or the application of such term or provision to persons or circumstances other than those as to which it is held invalid or unenforceable, shall not be affected thereby, and each term and provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law, provided that the purposes intended by the parties including the economic purposes shall remain substantially in effect.

20.2 In the event that any condition or provision of this Agreement is declared void or of no effect, then in such an event the parties shall use best efforts to modify this Agreement to the extent possible, consistent with the parties intent not to convey any interest in real property, to provide the parties an opportunity to continue the Agreement on economic terms and for the public purposes intended; provided, however, that any such modification shall be subject to all necessary City approvals and authorizations and compliance with all City procedures and processes. In the event continuation of the Agreement cannot be lawfully achieved, the parties shall negotiate an orderly and equitable termination of the Agreement on such terms as may be just and equitable and that avoid an unjust enrichment. For the avoidance of doubt, Grow-In Costs and Capital Improvement Costs shall be considered in the determination of an equitable result.

21. JUDICIAL INTERPRETATION

21.1 Should any provision of this Agreement require judicial interpretation, it is agreed that the court interpreting or considering same shall not apply the presumption that the terms hereof shall be more strictly construed against a party by reason of the rule of construction that a document should be construed more strictly against the party who itself or through its agent prepared the same, it being agreed that all parties hereto have participated in the preparation of this Agreement and that legal counsel was consulted by each responsible party before the execution of this Agreement.

22. MODIFICATION OF AGREEMENT

22.1 This Agreement constitutes the whole of the agreement between the parties hereto, and no other representation made heretofore shall be binding upon the parties hereto. This Agreement may be modified from time to time by agreement in writing, but no modification of this Agreement shall be in effect until such modification has been agreed to in writing and duly executed by the party or parties affected by said modification.

23. NOTICES

23.1 Where provision is made herein for notice or other communication to be given in writing, the same shall be given by hand delivery, by mailing a copy of such notice or other communication by certified mail, return receipt requested, or by overnight courier service addressed to Commissioner or to the attention of Licensee at their respective addresses provided at the beginning of this Agreement, or to any other address that Licensee shall have filed with Commissioner. In addition, in the case of any notice or other communication required or permitted to be given to Licensee under this Agreement, an additional copy thereof shall be delivered in accordance with the foregoing to each of the following persons at the following address: Trump Ferry Point LLC, c/o The Trump Organization LLC, 725 Fifth Avenue, New York, New York 10022, Attention: Jason Blacksberg, Esq., Allen Weisselberg and Ron Lieberman.

24. NO CLAIM AGAINST OFFICERS, AGENTS OR EMPLOYEES

24.1 No claim whatsoever shall be made by the Licensee against any officer, agent or employee of the City for, or on account of, anything done or omitted in connection with this Agreement.

25. CLAIMS AND ACTIONS THEREON

25.1 (a) No action at law or proceeding in equity against the City or Parks shall lie or be maintained upon any claim based upon this Agreement or arising out of this Agreement or in any way connected with this Agreement unless Licensee shall have strictly complied with all requirements relating to the giving of notice and of information with respect to such claims, all as herein provided.

(b) In the event any claim is made or any action brought in any way relating to the License Agreement herein other than an action or proceeding in which Licensee and Parks are adverse parties, Licensee shall render to Parks and/or the City of New York, without additional compensation, any and all assistance which Parks and/or the City of New York may reasonably require of Licensee.

26. PROVISIONS OF LICENSE AGREEMENT

26.1 The following provisions of the License Agreement shall apply during the term of this Agreement and shall be incorporated herein by reference, *mutatis mutandis*, as if fully set forth herein: Sections 1.2(b), 1.2(c), 1.2(d), 1.2(e), 1.6, 1.8, 3.2(a), 3.2(b), 3.3(e), 3.4, 3.5, 4.7, 4.8 (but only as it pertains to Section 4.7), 4.10, 7.1, 7.4, 7.5, 9.4(b), 9.4(d), 9.4(e), 9.6, 9.15, 9.16, 9.17, 9.20, 9.21, 9.22, 9.25, 9.39, 9.40, 11.2, 11.3, 12.3(d), 12.4, 12.9, 12.11, 12.16(a), 12.18(a), 12.18(b), 12.19 (other than 12.19(g)), 13.3, Articles 5, 8, 10 (except for Sections 10.8, 10.9, 10.11 and 10.24), 15, 19, 20, 21, 22, 24, 26, 28, 29, 31, 32, 38 and Exhibit F – “Schedule of Capital Improvements”.

27. REIMBURSEMENT FOR COSTS TO COMPLY WITH DEC PART 360 PERMIT

27.1 If Licensee incurs any costs or expenses that are required for Licensee’s activities contemplated by this Agreement or the License Agreement to be in compliance with the DEC Part 360 Permit, any conditions of a renewed, modified or amended DEC Part 360 Permit, any DEC Deed and/or any conditions imposed by the DEC and/or any SEQRA or CEQR review with respect to Licensee’s operation of the Licensed Premises, including the use of pesticides and fertilizers in the Grow-In and/or the operation of the Licensed Premises (in each case other than in connection with Licensee’s construction of the foundation of the Clubhouse or in the course of Licensee performing its responsibilities pursuant to Section 12.16(b) of the License Agreement), then the City shall pay or reimburse Licensee for such costs and expenses

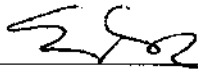

actually paid or incurred by Licensee within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks, and provided further, to the extent such costs and expenses are Grow-In Costs, the City shall reimburse Licensee for all of these Grow-In Costs incurred by Licensee to the extent that Licensee has otherwise expended seven hundred and fifty thousand dollars (\$750,000), in the aggregate, for Grow-In Costs. Except as otherwise provided in Section 5.2, in the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and expenses and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in Section 4.10 of the License Agreement, subject to the last sentence of Section 4.10 of the License Agreement.

3. ALL WORK SHALL BE COMPLETED WITHIN THE SPECIFIED TIME FRAME.
4. ALL WORK SHALL BE COMPLETED WITHIN THE SPECIFIED BUDGET.
5. ALL WORK SHALL BE COMPLETED WITHIN THE SPECIFIED QUALITY STANDARDS.

CITY OF NEW YORK
Parks & Recreation
 Physical Fitness
 Parking, Madison Avenue Bldg.
 150 W. 25th St., New York, NY 10001

SCHEDULE 2

City's Work

- (a) 18-hole Jack Nicklaus Signature Golf Course: Construction of an 18 hole Jack Nicklaus Signature Golf Course (the "**Golf Course**"). The Golf Course will be links style and a total of approximately 7,158 yards long from the black tee. The City will provide for the shaping, seeding and/or sodding of all fairways, greens, tees, bunkers and roughs in accordance with the course routing plan set forth on Page 1 of Part 2 – Final_Golf_Course_Drawings, which is attached as Schedule 4-2, as such drawing may be modified by Nicklaus Design, pursuant to the Nicklaus Subcontract, subject to the provisions of Section 8.1 of this Agreement. As part of the construction of the Golf Course, the City will perform (or cause to be performed) the following: all staging areas will be cleaned up, bunkers will be installed per Nicklaus Design concept, sand will be installed in all bunkers and traps, and cart paths will be paved with asphalt and tied in to the grade of the Golf Course. Licensee shall receive an actual finished Jack Nicklaus Signature golf course and Licensee's obligations hereunder with respect to the construction of the Golf Course shall be limited to the Grow-In.
- (b) Practice Facility: Construction of the practice facility (the "**Practice Facility**"), which shall include an approximately 350 yard open air driving range (the "**Driving Range**") as shown on Schedule 1-4. The driving range will have lights for after dark play and will include contoured features and greens for multiple target areas. The tee boxes will be constructed of a natural turf grass playing surface and will include a section of synthetic turf that is approximately 270 feet in length. The Practice Facility will also include a putting green with sand traps for short game practice.
- (c) Golf Course Snack Bar and Comfort Station: The City shall construct a move in ready snack bar building (the "**Golf Course Snack Bar**"), located at the intersection of the 5th, 14th and 15th holes and as set forth on Schedule 1-5, and containing approximately 715 total square feet. The Golf Course Snack Bar will include finished floors, walls, ceilings, and lighting and will also include a complete mechanical and electrical system capable of operating a finished snack bar along with finished restrooms including sewer lift station. Both Men's & Women's restrooms in the building will be ADA compliant and will include new toilets, sinks, and relevant restroom fixtures in good working order, with tile floors, hot and cold water, exhaust, and appropriate lighting. The food service/snack bar area will include appropriate rough in for electric, water, exhaust and sewer for Licensee's equipment and will also include an empty conduit for telephone/internet service.

Electric work to be provided by City:

1. City will install (or cause Contractor to install) conduit & wire from Balcom Avenue to the Golf Course Snack Bar (Power & Low Voltage) to service & distribution equipment with meter and pay Con-Ed Excess Distribution Facility (EDF) cost to obtain this additional service.

- (d) Park Snack Bar:

The City will construct a snack bar building in the adjacent waterfront park and located as set forth on Schedule 1-6 (the "**Park Snack Bar**", and together with the Golf Course Snack Bar, collectively, the "**Snack Bars**"), containing approximately 700 square feet. The Park Snack Bar will include finished floors, walls, ceilings, and lighting and will also include a complete mechanical and electrical system capable of operating a finished snack bar along with finished

Schedule 2-1

restrooms, including a lift station for the forced sewer system. The City shall use best efforts to connect the Park Snack Bar's forced sewer system with a pipe connection to the City sewer system. If the City reasonably determines that connecting the Park Snack Bar's forced sewer system to the City sewer system is not possible, then, if reasonably possible, Parks and Licensee will discuss a plan to connect the Park Snack Bar's forced sewer system to the Clubhouse at the City's sole cost and expense. In the event that the Park Snack Bar's forced sewer system is connected to the Clubhouse's forced sewer system, then the City will bring the Park Snack Bar's forced sewer main within approximately twenty-five feet (25') of the building foundation of the Clubhouse. The City shall be responsible for any increase in the cost of operation, maintenance, construction or repair of the Clubhouse (including the Clubhouse lift station and forced sewer system) to the extent due to any connection of the Park Snack Bar's forced sewer system to the Clubhouse (such increase in costs and expenses, the "**Park Snack Bar Sewer Cost Increase**") or any other cost or expense to Licensee to the extent due to any connection of the Park Snack Bar's forced sewer system to the Clubhouse (including the installation of any and all monitoring equipment needed to measure the Park Snack Bar Sewer Cost Increase) and the City shall reimburse Licensee for the Park Snack Bar Sewer Cost Increase and any other such costs and expenses within sixty (60) days after demand, provided that documentation of such costs and expenses, satisfactory to Parks, is submitted to Parks. In the event the City fails to pay or reimburse Licensee such amount within sixty (60) days after receipt of satisfactory documentation of such costs and written demand, Licensee shall be entitled to a License Fee Credit in such amount, with interest thereon, as applicable, at the Interest Rate as set forth in Section 4.10 of the License Agreement, which, subject to the last sentence of Section 4.10 of the License Agreement will be the sole remedy of Licensee hereunder for the Park Snack Bar Sewer Cost Increase.

If Parks desires to connect the Park Snack Bar's forced sewer system to the Clubhouse, for the sake of clarity, Licensee shall not be required to construct the Clubhouse sooner than set forth in the License Agreement. Both Men's & Women's restrooms in the Park Snack Bar will be ADA compliant and will include new toilets, sinks, and relevant restroom fixtures in good working order, with tile floors, hot and cold water, exhaust, and appropriate lighting. The food service/snack bar area will include appropriate rough in for electric, water, exhaust and sewer for Licensee's equipment and an empty conduit for telephone/internet service.

Electric work to be provided by City:

1. City will install (or cause Contractor to install) conduit & wire from the nearest adjacent utility power source to the Park Snack Bar (Power) to service & distribution equipment with meter and pay Con-Ed Excess Distribution Facility (EDF) cost to obtain this additional service.
- (e) Maintenance Building: The City shall construct a complete maintenance building in accordance with the plans set forth on Schedule 1-13 to house typical maintenance equipment (which equipment shall be provided by Licensee) (the "**Maintenance Building**"), situated on the northwestern edge of the Project Site as shown on [Schedule 1-7]. The Maintenance Building will be approximately 12,000 square feet and will include a code compliant mechanical and electrical system inclusive of water, sprinkler, sanitary and storm sewer, natural gas, electric, fire alarm, an empty conduit for telephone/cable/internet service, and security wiring. The maintenance facility site will include two above ground fuel tanks for the storage of gasoline and diesel fuel inclusive of the appropriate dispensing nozzles and approved fire suppression system. The site will also include appropriate lightning protection, a chemical mixing area, wash area for equipment with

Schedule 2-2

appropriate storm sewer connections, concrete pad for soil, dumpster enclosures, and an adequate parking lot for Licensee's employees with adequate lighting.

Electric Work to be provided by the City.

1. The City to cause Contractor to install ductbank and 5kV primary wire from property line at Schley Avenue to pad mounted Con-Ed owned transformer adjacent to building. Contractor to install empty secondary conduits and wire from transformer to service and distribution equipment which shall include a meter within the Maintenance Building, as well as all other electrical equipment devices, fixtures, and systems that are part of the building including wire and conduit for low voltage systems within the building. An empty conduit for Telephone/Cable/Internet Service will be included for service from Hutchinson River Parkway to the building.
 2. The Irrigation pump controller furnished as part of the irrigation system will include a temporary pad & power connection for approximately 15 months or as long as needed while the Grow-In and construction of the maintenance building is ongoing. The permanent installation of the irrigation controls system will be relocated by City's contractor within the Maintenance Building when it is ready for the permanent installation.
 3. The City will install a temporary power panel for the Licensee's use while operating from the temporary grow-in facility located just adjacent to the maintenance facility site.
- (f) Irrigation System and Irrigation Pond: The City will install an irrigation system (the "**Irrigation System**") in accordance with the course irrigation plans set forth on Pages 9-18 of Part 2 – Final_Golf_Course_Drawings, which is attached hereto as Schedule 4-3. The Irrigation System will include an approximately 3.75 acre fully lined irrigation pond, which collects runoff water from approximately 20% of the Licensed Premises. The pond has an average depth of approximately eight (8) feet (three (3) feet around the edge and twelve (12) feet at its deepest) and should be able to provide approximately a ten (10) day supply of water for the Golf Course, if necessary. The system is fed through a connection to the City's water supply. The irrigation system will provide irrigation to all portions the Licensed Premises critical to Golf Course health, including, at a minimum, coverage of all tees, greens, fairways and inner roughs and the Practice Facility. The berms and landscaped areas at the entrance to the Licensed Premises will have quick couplers for irrigation purposes.
- (g) Drainage System: The City will provide a complete drainage system (the "**Drainage System**") for the Golf Course which has been constructed to meet the projected drainage requirements of the completed Golf Course as identified by the City's professional consultants. The drainage system is designed so that a percentage of runoff water is collected in an irrigation pond as described above.
- (h) Submerged Pump Station: The submerged pump station will include skid mounted pumps within the irrigation pond located adjacent to the Maintenance Building and be capable of producing adequate pressure and water volume to operate the entire irrigation system. All electrical and control wiring will be installed by the City in a code compliant manner. All electrical and control wiring will be ready for temporary use as noted above in Section (e)(2) and (3) until the final installation can take place.
- (i) Utilities: Installation of all utility lines, service lines, cables, conduits, meters, pipes and supplies of power, in each case, including, without limitation, potable water, sanitary and storm sewer,

Schedule 2-3

natural gas and electric lines (“**Utilities**”), necessary for the operation of the Golf Course, the lighted Practice Facility, the Maintenance Building, the Clubhouse (excluding the temporary clubhouse, which will utilize the utilities for the permanent Clubhouse) and the Snack Bars. The Utilities shall be fully installed and operational in the case of the Golf Course, Practice Facility, Maintenance Building and the Snack Bars and capped to approximately twenty-five feet (25’) from the foundation wall or grade beam line of the Clubhouse (layout of Clubhouse to be coordinated with construction of Utility system) as further described below.

Utilities for the Clubhouse: Water, sanitary sewer, gas and electric service will be brought to an area of the Clubhouse within approximately twenty-five (25’) feet of the foundation.

Telephone and Internet: A telephone conduit and wire system with pullboxes will be brought to within approximately twenty-five (25) feet of the Clubhouse foundation. The Licensee shall extend these conduits into the Clubhouse (telephone room) and coordinate with a telephone and internet provider for wire installation and services required, (i.e., phone, internet, TV).

Gas Service: A 2” gas service adequate of approximately 1,220 cfh of gas at 3 psi will be provided for the Clubhouse complete with service valve and capped entry piping within approximately twenty five (25) feet of the foundation. The Licensee shall extend the gas service pipe into the Clubhouse and provide Con-Edison metering equipment. The Licensee will be responsible for evaluating the gas usage and provide a booster pump if required.

Electric Service: The City’s Contractor to install the primary ductbank and 5kV primary wire to pad mounted/ Con-Ed owned transformer in a location adjacent to the future Clubhouse. The City’s Contractor will provide permanent outdoor rated switchgear, conduit and wire, to power the Practice Facility lighting, primary parking lot lighting, water service backflow hotbox, and empty conduit stubs for the temporary clubhouse and temporary cart storage facility from the distribution panel. The electrical service will be located at a location mutually agreed on by the City and the Licensee and will include permanent distribution equipment adequately sized to operate all items noted above, and temporary service for the construction of the permanent Clubhouse. Licensee at its option may choose to relocate the above noted system as part of the Clubhouse construction.

Water service: Potable water service shall be installed complete with service shut off valves and brought to a location within approximately twenty-five feet (25’) of the proposed Clubhouse. The service provided will include a backflow preventor enclosed in a hotbox adjacent to the entry of the site.

Storm sewer: The City will provide future connections within approximately twenty five feet (25’) of the Clubhouse foundation for all leader drain and storm water piping discharged by the future Clubhouse.

Sanitary Forced Sewer Main: The City will provide a sanitary forced sewer main within approximately twenty five feet (25’) of the building foundation of the proposed Clubhouse for use by the Licensee. The forced main system should be adequately sized to accommodate the needs of the proposed Clubhouse. Subject to paragraph (d) above in “Park Snack Bar”, the future waterfront Park Snack Bar is to be provided with a separate independent lift station and forced sewer main to by-pass the Clubhouse system.

- (j) Security Fence and Perimeter Planting. The City will install an approximately 7 foot high aluminum security fence and gates, which will extend around the perimeter of the Licensed

Schedule 2-4

Premises (other than the Park Snack Bar) as shown on Schedule 1-8 (the “**Security Fence**”). The perimeter will be bermed and planted by the City. The fence location and planting specifications are set forth on Pages 20-28 of Part 2 – Final_Golf_Course_Drawings, which is attached as Schedule 4-5.

- (k) Golf Cart Paths. The Golf Course will include golf cart paths paved with asphalt as shown on Schedule 1-9 with curbs as required.
- (l) Parking Lots. An approximately 200 space paved primary parking lot shown on Schedule 1-10 (the “**Primary Parking Lot**”) will be completed by the City including all drainage, curbing, environmental piping, paving, striping, signage, landscaping and lighting. There shall be a supplemental parking lot consisting of approximately seventy-five (75) spaces immediately adjacent to the Primary Parking Lot as shown on Schedule 1-11 (the “**Supplemental Parking Lot**”). The City will provide paving, drainage and sewer systems for approximately fifty (50) Supplemental Parking Lot spaces and shall provide drainage and sewer for any additional parking spaces that the City elects to pave.
- (m) Seeding and/or Sodding. Without limiting the City’s obligations under Section 5.1, the City shall be responsible for all sodding and/or seeding of the Golf Course and the Practice Facility and for the initial watering of new turf in accordance with the Grassing Specifications.
- (n) Environmental Monitoring Facilities. The City has installed 22 on-site monitoring wells, 45 off-site semi permanent wells, and a 1 ½ mile long venting trench, of which 20 on-site monitoring wells and the 1 ½ mile long venting trench are shown on Schedule 1-12.
- (o) Storm Shelters. The City shall construct a storm shelter located at the Golf Course Snack Bar and a stand alone storm shelter (Rain Shelter) located between the 7th and the 8th holes. Shelters shall be constructed to include room for up to two golf carts.
- (p) Roads. The City shall complete all roads and finished pavement inclusive of all traffic management striping and signage as necessary on the Project Site, except for the Supplemental Parking Lot, which will be completed by the Licensee, if necessary as determined by Licensee and approved by Parks. The Triborough Bridge and Tunnel Authority (“**TBTA**”) has agreed to repair the portion of the access road from and to the Hutchinson River Parkway shown on Schedule 6 that was damaged during construction of the Whitestone Bridge after the work on the Bronx side of the Whitestone Bridge project is completed. The City shall use good faith efforts to cause such repair to be completed prior to the Concession Commencement Date.
- (q) Landscaping. The City shall install all landscaping around the Golf Course (excluding the Clubhouse and the entrance to the Licensed Premises), the Practice Facility, the Maintenance Building and the Snack Bars in accordance with the Plans annexed hereto as Schedule 4-5. Licensee is responsible for all landscaping surrounding the Clubhouse and at the entrance to the Licensed Premises.
- (r) Entry Sign. The City shall furnish and place entry sign masonry columns ready to receive an entry sign in accordance with the Plans and Specifications set forth on Contract Drawings For: Construction of a Maintenance Building, a Comfort Station and One Rain Shelter within the Ferry Point Golf Course Bounded by the East River, Balcom Avenue, Miles Avenue and the Whitestone Bridge Approach in Ferry Point Park, Borough of the Bronx, Contract No. X126-209M, Drawing No.’s S001.00 and S002.00. Licensee shall have the right (i) to propose the design and content of the entry sign (including content identifying the Licensed Premises as

Schedule 2-5

Trump Golf Links at Ferry Point Park), which design and content shall be subject to Parks' reasonable prior approval, and (ii) to install such entry sign at its sole cost and expense.

Schedule 2-6

SCHEDULE 3

Defined Terms

As used throughout this Agreement, the following terms shall have the meanings set forth below:

- (a) “**ADA**” shall have the meaning ascribed to such term in Section 3.5.
- (b) “**Affiliate**” shall have the meaning ascribed to such term in the License Agreement.
- (c) “**Agreement**” shall have the meaning ascribed to such term in the Introductory Paragraph.
- (d) “**Capital Improvement Costs**” shall have the meaning ascribed to such term in the License Agreement.
- (e) “**Capital Improvements**” shall have the meaning ascribed to such term in the License Agreement.
- (f) “**Capital Reserve Fund**” shall have the meaning ascribed to such term in the License Agreement.
- (g) “**CEQR**” shall have the meaning ascribed to such term in the License Agreement.
- (h) “**City**” shall have the meaning ascribed to such term in the Introductory Paragraph.
- (i) “**City’s Final Completion**” shall mean that the City’s Work (or the portion thereof being delivered), including all work set forth on the Final Approved Punch List, has been fully performed by the Contractor and that all of the conditions set forth in Section 10.3 for the delivery of possession of the Licensed Premises, or any portion thereof, to Licensee have been satisfied. City’s Final Completion shall apply separately to the Golf Course Facilities and the Park Snack Bar.
- (j) “**City’s Work**” shall have the meaning ascribed to such term in Section 3.1.
- (k) “**Claims**” shall have the meaning ascribed to such term in the License Agreement.
- (l) “**Clubhouse**” shall have the meaning ascribed to such term in the Recitals.
- (m) “**Commissioner**” shall have the meaning ascribed to such term in the License Agreement.
- (n) “**Concession Commencement Date**” shall have the meaning ascribed to such term in the License Agreement.
- (o) “**Construction Contracts**” shall mean the Contract for Construction of Tournament Quality Golf Course (Contract X126 109M) dated July 29, 2009 (the “**Laws Contract**”) between the City and Laws Construction Corp. (“**Laws**”) and any other contract or agreement between the City and any other Contractor with respect to the construction of any of the City’s Work.
- (p) “**Construction Documents**” shall mean the Design Contracts, the Construction Contracts, the Nicklaus Subcontract and the Plans.
- (q) “**Consultant**” shall mean the designer, architect, engineer, consultant or other design professional under any of the Design Contracts.

Schedule 3-1

- (r) “**Contractor**” shall mean any contractor performing any of the City’s Work pursuant to the Construction Contracts or otherwise.
- (s) “**Contractor Substantial Completion**” shall mean, with respect to any Construction Contract or portion thereof that (a) the Engineer has inspected the City’s Work or portion thereof being performed pursuant to such Construction Contract and has made a written determination that such work is substantially complete and (b) the Engineer has furnished to the applicable Contractor, Licensee and the City, a Final Approved Punch List.
- (t) “**DEC Part 360 Permit**” shall mean that certain Permit under Environmental Conservation Law issued by the New York State Department of Environmental Conservation on November 18, 2005 under DEC Permit Number 2-6006-00014/00013 as attached as Schedule 9 hereto, as amended, modified, renewed or replaced.
- (u) “**DEC**” shall have the meaning ascribed to that term in the License Agreement.
- (v) “**Design Contracts**” shall mean the Contract for Services of Consultant (Contract X126 308M) dated August 28, 2008 (the “**Sanford Contract**”) between the City and Planning Design Inc. d/b/a Sanford Golf Design (“**Sanford**”), the Nicklaus Subcontract and any other contract between the City and any other designer, architect, engineer, consultant or other design professional with respect to any of the City’s Work.
- (w) “**Drainage System**” shall have the meaning ascribed to such term in Schedule 2.
- (x) “**Driving Range**” shall have the meaning ascribed to such term in Schedule 2.
- (y) “**Engineer**” shall mean any engineers, architects or other design professionals selected by the City to supervise, inspect and/or certify the work performed by any of the Contractors pursuant to any of the Construction Contracts.
- (z) “**Environment**” shall have the meaning ascribed to such term in the License Agreement.
- (aa) “**Environmental Conditions**” shall have the meaning ascribed to such term in the License Agreement.
- (bb) “**Environmental Laws**” shall have the meaning ascribed to such term in the License Agreement.
- (cc) “**Estimated Completion Date**” shall have the meaning ascribed to such term in Section 4.1.
- (dd) “**Federal Courts**” shall have the meaning ascribed to such term in Section 18.2.
- (ee) “**Ferry Point Park**” shall have the meaning ascribed to such term in the Recitals.
- (ff) “**Final Acceptance**” shall mean, with respect to any Construction Contract or portion thereof, that (a) the Engineer has certified that all items on the Final Approved Punch List for either the entire Construction Contract or portion of the City’s Work being delivered has been completed and no further City’s Work remains to be done pursuant to such contract for either the entire Construction Contract or portion of the City’s Work being delivered, and (b) the Commissioner has issued a written determination of Final Acceptance as to all of the work completed under such contract or portion thereof to be delivered to Licensee.

- (gg) **“Final Approved Punch List”** shall mean the punch list prepared by the Engineer after inspection to determine if Contractor Substantial Completion of the City’s Work has been achieved, and reviewed by Licensee and approved by the City in accordance with Section 10.2 specifying all items of the City’s Work to be completed and the estimated dates for completion of such items of the City’s Work.
- (hh) **“Final Completion”** shall have the meaning ascribed to such term in the License Agreement.
- (ii) **“Force Majeure”** shall have the meaning ascribed to such term in the License Agreement.
- (jj) **“Golf Course”** shall have the meaning ascribed to such term in Schedule 2.
- (kk) **“Golf Course Facilities”** shall have the meaning ascribed to such term in the License Agreement.
- (ll) **“Golf Course Snack Bar”** shall have the meaning ascribed to such term in Schedule 2.
- (mm) **“Governmental Approvals”** shall have the meaning ascribed to such term in the License Agreement.
- (nn) **“Grassing Specifications”** shall have the meaning ascribed to such term in Section 10.3(m)(i).
- (oo) **“Grow-In”** shall mean the establishment and maintenance of the new turf to be planted at the Golf Course Facilities by the City as may be necessary to ready the Golf Course and Practice Facility for play, until the Concession Commencement Date.
- (pp) **“Grow-In Cap”** shall have the meaning ascribed to such term in Section 5.2.
- (qq) **“Grow-In Costs”** shall mean all reasonable costs and expenses incurred by Licensee in connection with the Grow-In, including, without limitation, equipment, personnel, chemicals, fertilizer, fertigation, additional seed and sod, as necessary, equipment repair, fuel, energy usage, insurance costs, tools and supplies, costs of operating and maintaining the Irrigation System and the Drainage System, cost of normal maintenance of the greens, tees, fairways and bunkers, administrative costs, supervisory costs, site office costs and incidental costs such as security, telephones, copiers, fax machines, computers, trash removal and other similar costs and the value of the time of Licensee’s in-house construction, operations and management staff expended in connection with the Grow-In, provided that detailed records, satisfactory to the City, showing the time expended by such staff members with respect to the Grow-In are provided to the City and further provided that the cost of such staff time in connection with the Grow-In does not exceed the amount allocated for the Grow-In on Exhibit K to the License Agreement (as the same may be amended from time to time) without the consent of Parks. Grow-In Costs shall also include accessories for the Golf Course, such as tee markers, signs, landscape furniture, pins, yardage markers, and similar items, and, if the Maintenance Building is not completed at the commencement of the Grow-In, the costs of erecting, maintaining, dismantling and removing a temporary maintenance facility (such as a barrell tent) and restoring the temporary maintenance area to its permanent use after completion of the Maintenance Building.
- (rr) **“Guaranty”** shall have the meaning ascribed to such term in the License Agreement.
- (ss) **“Hazardous Substances”** shall have the meaning ascribed to such term in the License Agreement.

- (tt) “**Holes**” shall have the meaning ascribed to such term in Section 10.1.
- (uu) “**Indemnitees**” shall have the meaning ascribed to such term in the License Agreement.
- (vv) “**Interest Rate**” shall have the meaning ascribed to such term in the License Agreement.
- (ww) “**Interim Period**” shall have the meaning ascribed to such term in the License Agreement.
- (xx) “**Irrigation System**” shall have the meaning ascribed to such term in Schedule 2.
- (yy) “**Landfill**” shall have the meaning ascribed to such term in the License Agreement.
- (zz) “**Legal Requirements**” shall mean all laws, statutes, ordinances, orders, rules and regulations, directives and requirements of all federal, state, county, regional, local or municipal governments (including any agency or political subdivision of any of the foregoing), any governmental or quasi-governmental agency, authority (including stamp and registration authorities), board, public utility, bureau, commission, department, instrumentality, or public body, and any person with jurisdiction exercising executive, legislative, judicial (including any court or tribunal), regulatory or administrative functions of or pertaining to government or quasi-governmental issues, which are or may be applicable to City’s Work and/or the Project Site or any part thereof or related thereto, whether now or hereafter in force including building codes and zoning regulations and ordinances.
- (aaa) “**License Agreement**” shall have the meaning ascribed to such term in the Recitals.
- (bbb) “**License Fee Credit**” shall have the meaning ascribed to such term in the License Agreement.
- (ccc) “**Licensed Premises**” shall have the meaning ascribed to such term in the License Agreement.
- (ddd) “**Licensee**” shall have the meaning ascribed to such term in the Introductory Paragraph.
- (eee) “**Licensee Indemnitee**” shall have the meaning ascribed to such term in the License Agreement.
- (fff) “**Licensee’s Contractors**” shall have the meaning ascribed to such term in Section 7.1.
- (ggg) “**Maintenance Building**” shall have the meaning ascribed to such term in Schedule 2.
- (hhh) “**Material Change**” shall have the meaning ascribed to such term in Section 8.1.
- (iii) “**Minimum Capital Improvement Cost**” shall have the meaning ascribed to such term in the License Agreement.
- (jjj) “**New York State Courts**” shall have the meaning ascribed to such term in Section 18.2.
- (kkk) “**Grow-In Standards**” shall have the meaning ascribed to such term in Section 5.3.
- (lll) “**Maintenance Guidelines**” shall have the meaning ascribed to such term in the License Agreement.
- (mmm) “**Nicklaus Subcontract**” shall mean the Golf Design Subcontract Agreement among Nicklaus Design LLC (“**Nicklaus Design**”), Consultant and the City dated August 14, 2008.

Schedule 3-4

- (nnn) **“Park Snack Bar”** shall have the meaning ascribed to such term in Schedule 2.
- (ooo) **“Parks”** shall have the meaning ascribed to such term in the Introductory Paragraph.
- (ppp) **“Plans”** shall mean, collectively, the plans, drawing, contract drawings and specifications, attached to, referred to in or made a part of any Construction Document.
- (qqq) **“Practice Facility”** shall have the meaning ascribed to such term in Schedule 2.
- (rrr) **“Primary Parking Lot”** shall have the meaning ascribed to such term in Schedule 2.
- (sss) **“Prior Determinations”** shall have the meaning ascribed to such term in the License Agreement.
- (ttt) **“Project Site”** shall mean the areas in Ferry Point Park, Borough of the Bronx described on Exhibit A of the License Agreement and shown on Exhibit A-1 of the License Agreement and the Park Snack Bar as shown on Exhibit A-3 of the License Agreement.
- (uuu) **“Proposed Changes”** shall have the meaning ascribed to such term in Section 8.2.
- (vvv) **“Removal Period”** shall have the meaning ascribed to such term in Section 16.5.
- (www) **“Required Capital Improvements”** shall have the meaning ascribed to such term in the License Agreement.
- (xxx) **“Security Fence”** shall have the meaning ascribed to such term in Schedule 2.
- (yyy) **“SEQRA”** shall have the meaning ascribed to such term in the License Agreement.
- (zzz) **“Snack Bars”** shall have the meaning ascribed to such term in Schedule 2.
- (aaaa) **“Specifications”** shall have the meaning set forth in the Construction Contract.
- (bbbb) **“Supplemental Parking Lot”** shall have the meaning ascribed to such term in Schedule 2.
- (cccc) **“TBTA”** shall have the meaning ascribed to such term in Schedule 2.
- (dddd) **“Termination Payment”** shall have the meaning ascribed to such term in the License Agreement.
- (eeee) **“Trump”** shall have the meaning ascribed to such term in Section 1.1.
- (ffff) **“ULURP”** shall have the meaning ascribed to such term in the License Agreement.
- (gggg) **“Utilities”** shall have the meaning ascribed to such term in Schedule 2.
- (hhhh) **“West Parking Lot ”** shall have the meaning ascribed to such term in Section 6.9

Re: Grassing Specification Changes

Dear Mr. Gantzer,

Please be advise and direct the contractor accordingly that Nicklaus Design has revised the Grassing Specification. I have included a memo from Jon Scott, Vice President of Agronomic Services for Nicklaus Design, with further explanation for the changes and probable cost implications.

Best Regards,

A handwritten signature in black ink, appearing to read 'David V. Ferris, Jr.', is written over the typed name.

SCHEDULE 4-1 (PAGE 2)

DESIGN

MEMO

12/14/2009

To: John Sanford
From: Jon Scott
Re: Grassing Specification Change

John,

As you know, Jack Nicklaus recently visited and played Sebonack and noted that the fine fescue fairways were not in good condition after the summer stress period. Since he knows that Ferry Point will receive at least as much play or more than Sebonack, he has requested that we change the fairway grassing specification to creeping bentgrass which will tolerate the wear much better than fine fescue. The rough specification and outer rough native will remain the same as listed, as will the green specification. To keep things consistent, the tee specification will also be changed to the same as the fairways.

The new fairway specification will be Certified Seaside II creeping bentgrass at 65 lb. per acre.

The new tee specification will be Certified Seaside II creeping bentgrass at 1.5 lb. per thousand square feet.

If you have any questions, please give me a call.

Jon

FOIL EXEMPT | HIGHLY CONFIDENTIAL

TTO_624559

D981-205

SCHEDULE 4-1 (PAGE 3)

ITEM NO. 137

GRASSING SPECIFICATIONS (Revised)

WORK:

Under this item, *the Contractor* shall perform all Grassing operations as are required for this Contract, in accordance with the plans, specifications, and directions of *the Designer*, and further comments and direction of *the Project Engineer, the Owner's Representative, and the Project Agronomist* due to site conditions.

MATERIALS:

Greens:

Tyco Creeping Bentgrass
Seeding Rate: 1.5 lbs/1000 Square Feet

Fairways:

Certified Sensitive II Creeping Bentgrass
Rate 1.5 lb per thousand square feet

Trees:

Certified Sensitive II Creeping Bentgrass
Seeding Rate: 1.5 lbs/1000 Square Feet

Primary Roughs:

40 % Kentucky Bluegrass
13.3 % Acadia
13.3 % Emblem
13.3 % SR 2284
30 % Chewings Fescue SR 5130
30 % Strong Creeping Red Fescue SR 5210
Seeding Rate: 150 lbs/A

Native Areas:

25 % Strong Creeping Red Fescue SR 5210
25 % Chewings Fescue SR SR 5130
25 % Hard Fescue SR 3150
15 % Indian grass
5 % Switchgrass
5% Little Bluestem
Seeding Rate: 150 lbs/A
(Note: Recommended to Hydro-Seed this due to the size of the Little Bluestem seed)

Sod:

All grass varieties used for sod production shall match the specific seed specifications noted above for the areas where sod is deemed applicable as approved by *the Project Agronomist*, and reviewed by *the Owner's Representative and the Designer*. All sod shall match the grass type(s) as specified for the area where it is to be installed. All sod will be certified free of weeds, pests, and as to the purity of the stated varieties. All sod must be certified by the State in which the seeds or sod are grown. Documentation to that effect must be supplied to *the Project Agronomist, Owner's Representative and the Designer*. At the discretion of *the Project Agronomist, the Owner's Representative or the Designer*, the sod will be inspected prior to harvesting and installation.

It is suggested for purposes of bidding that *the Contractor* shall provide for a minimum of 1,000,000 SF of approved sod unless otherwise directed by *the Project Agronomist and the Owner's Representative*.

Sodding shall be done when climate conditions are favorable for proper growth of the specified types of sod as approved by *the Project Agronomist, the Owner's Representative and the Designer*.

SCHEDULE 4-1 (PAGE 4)

The Contractor shall provide and install the grass sod by delivering it to the site and having it placed in the ground within 48 hours after it has been harvested. No gaps shall exist between sod squares. Planting shall be at right angles to the slopes in order to minimize erosion of these areas. *The Project Agronomist, the Owner's Representative and the Designer* shall be the final judge as to the condition of all planted areas after seeding and sodding, and these areas must meet *the Project Agronomist's, the Owner's Representative and the Designer's* approval. On slopes greater than 3:1, sod should be pegged to prevent slippage. All sodded areas will be rolled with a smooth type roller after planting.

Curlex Erosion Control Netting

As an alternate to using sod and to protect seeded areas against erosion from rainfall and irrigation, *the Project Agronomist and the Owner's Representative* may require *the Contractor* to install Curlex 1 and Curlex 2 (depending on the slope angle to be covered), Quick Grass Green excelsior netting or its equivalent as approved by *the Project Agronomist, the Owner's Representative and the Designer*. The quantity of Curlex should match the sod quantity estimate for this project or portions thereof. Curlex is manufactured by *American Excelsior Company*. Please refer to *American Excelsior* for general specifications and any additional product information.

GRASSING WINDOW:

The grassing window shall be from April 15 through October 15, unless otherwise approved by *the Project Agronomist*.

GROW-IN AND MAINTENANCE OF THE PLANTED AREAS:

After each hole has been planted, *the Contractor* will be responsible for the initial watering of the planted areas. After this initial watering, no other golf course maintenance will be required of *the Contractor*, unless previously agreed upon between *the Owner* and *the Contractor*. It shall be *the Owner's* responsibility to maintain the planted areas, effective immediately following the initial watering. Immediately after planting, the area shall be protected against traffic or other use by erecting barricades as needed, and by placing approved warning signs at appropriate intervals.

MEASUREMENT AND PAYMENT:

For GRASSING in accordance with the specifications *the Contractor* shall receive the LUMP SUM price bid. The LUMP SUM price bid for Grassing shall include furnishing and maintaining services, equipment or facilities noted in this specification, to the extent and at the time *the Contractor* deems them necessary for his operations, consistent with the requirements of this work and this contract.

END OF PAGE

(Revised March 30, 2010)

SCHEDULE 4-1 (PAGE 5)

Ferry Point Park Seed Change for Tees and Fairways

1. Tee Seed Change

- a. Original Tee Seed = \$3,114.00 – Dominant / SR111 / 007
 $240 \times 1.5 = 360 \text{ lbs.} \times \$8.65 = \$3,114.00$, divide by 240,000 =
approximately \$0.013 / Sq. Ft.
- b. Proposed Tee Seed -- Seaside II Seed = \$2,700.00 / \$414 Credit
The Seaside II is less expensive than the Dominant/SR111/007 so there should be
a slight credit for the seed switch
 $240 \times 1.5 = 360 \text{ lbs.} \times \7.50 (includes freight) = \$2,700.00, divide by 240,000 =
approximately \$0.011 / Sq. Ft.
- c. Credit of \$414.00

2. Fairway Seed Change

- a. The original fairway seed mix estimated cost is \$1.55 per lb (not including freight).
The seeding rate is 130 lbs per acre. $130 \times 1.55 = \$201.50$ per acre. $201.50 \times$
 $44.71 \text{ acres} = \$9,009.07$
With freight estimated on the high end (.25/lb) the total would be:
Original: $1.55 + .25 = 1.80$ per lb. $130 \times 1.80 = \$234.$ per acre. $234 \times 44.71 =$
 $\$10,462.14$

Fairway Links Seed Research
50% SR 5100 or SR 5130 Chewings Fescue
40% SR 5210 or 5250 Strong Creeping Red Fescue
10% SR 7150 Colonial Bentgrass

Seeding Rate: 130 lbs. / AC
Cost Estimate: \$1.55 per lb. plus freight

- b. The new Seaside II seed specification for the fairway areas has an estimated cost
of \$7.25 per lb (not including freight). The seeding rate is 65 lbs per acre. $65 \times$
 $7.25 = \$471.25$ per acre. $471.25 \times 44.71 \text{ acres} = \$21,069.59$
With freight estimated on the high end (.25/lb) the total would be:
Proposed: $7.25 + .25 = 7.50$ per lb. $65 \times 7.50 = \$487.50$ per acre. $487.50 \times$
 $44.71 = \$21,796.13$

Certified Seaside II Creeping Bentgrass
Tee Seeding Rate: 1.5 lbs/1,000 SF
Cost Estimate: \$7.25 per lb plus freight

- c. Cost increase of \$11,333.99

3. Total Cost Increase - \$10,919.99

SCHEDULE 4-2 COURSE ROUTING PLAN

Schedule 4-3

COURSE IRRIGATION PLANS

Note: The attached schedule is only a section of the plans and specifications for the course irrigation plans and is being attached hereto for illustrative purposes only. The full scope of the plans and specifications for the course irrigation plans can be found in the plans and specifications on the CD annexed to this Development Agreement, as Annex 1.

SCHEDULE 4-3 COURSE IRRIGATION PLANS (Page 5 of 10)

MATCH A
MATCH B

IRRIGATION SYSTEM LEGEND
(Preliminary Draft)

1	1" Polyethylene Glycol (PE) 100' x 100' x 100'
2	1" Polyethylene Glycol (PE) 100' x 100' x 100'
3	1" Polyethylene Glycol (PE) 100' x 100' x 100'
4	1" Polyethylene Glycol (PE) 100' x 100' x 100'
5	1" Polyethylene Glycol (PE) 100' x 100' x 100'
6	1" Polyethylene Glycol (PE) 100' x 100' x 100'
7	1" Polyethylene Glycol (PE) 100' x 100' x 100'
8	1" Polyethylene Glycol (PE) 100' x 100' x 100'
9	1" Polyethylene Glycol (PE) 100' x 100' x 100'
10	1" Polyethylene Glycol (PE) 100' x 100' x 100'
11	1" Polyethylene Glycol (PE) 100' x 100' x 100'
12	1" Polyethylene Glycol (PE) 100' x 100' x 100'
13	1" Polyethylene Glycol (PE) 100' x 100' x 100'
14	1" Polyethylene Glycol (PE) 100' x 100' x 100'
15	1" Polyethylene Glycol (PE) 100' x 100' x 100'
16	1" Polyethylene Glycol (PE) 100' x 100' x 100'
17	1" Polyethylene Glycol (PE) 100' x 100' x 100'
18	1" Polyethylene Glycol (PE) 100' x 100' x 100'

NOTES:

- 1. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A PRESSURE OF 100 PSI.
- 2. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A FLOW RATE OF 100 GPM.
- 3. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A HEAD OF 100 FEET.
- 4. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A SLOPE OF 1%.
- 5. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A GRADE OF 100 FEET.
- 6. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A DISTANCE OF 100 FEET.
- 7. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A WIDTH OF 100 FEET.
- 8. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A DEPTH OF 100 FEET.
- 9. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A TEMPERATURE OF 100 DEGREES F.
- 10. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A HUMIDITY OF 100 PERCENT.
- 11. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A WIND SPEED OF 100 MPH.
- 12. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A RAINFALL OF 100 INCHES PER YEAR.
- 13. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A SOIL TYPE OF 100 PERCENT.
- 14. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A VEGETATION TYPE OF 100 PERCENT.
- 15. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A CLIMATE OF 100 PERCENT.
- 16. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A POPULATION OF 100 PERCENT.
- 17. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A GROUNDWATER TABLE OF 100 FEET.
- 18. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A SURFACE WATER TABLE OF 100 FEET.
- 19. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A SUBSURFACE WATER TABLE OF 100 FEET.
- 20. ALL IRRIGATION SYSTEMS SHALL BE DESIGNED TO OPERATE AT A DEPTH OF 100 FEET.

SCHEDULE 4-3 COURSE IRRIGATION PLAN (Page 6 of 10)

IRRIGATION SYSTEM LEGEND (Preliminary Draft)

- 1. 1/2" Polyethylene Pipe
- 2. 1/2" Polyethylene Pipe with 1/2" PVC Fittings
- 3. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Elbows
- 4. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Elbows and 1/2" PVC Tee
- 5. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee
- 6. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows
- 7. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee
- 8. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee
- 9. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 10. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 11. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 12. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 13. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 14. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 15. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 16. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 17. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee
- 18. 1/2" Polyethylene Pipe with 1/2" PVC Fittings and 1/2" PVC Tee and 1/2" PVC Elbows and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee and 1/2" PVC Tee

NOTES

1. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
2. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
3. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
4. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
5. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
6. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
7. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
8. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
9. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
10. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
11. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
12. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
13. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
14. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
15. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
16. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
17. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
18. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
19. The quantity of pipe shown is based on the quantity of pipe shown on the plan.
20. The quantity of pipe shown is based on the quantity of pipe shown on the plan.

SCHEDULE 4-3 COURSE IRRIGATION PLAN (Page 9 of 10)

To Produce: 2200 GPM @ 25 PSI
Discharge Length to Lake Edge Structure:
Headworks: 6x11' (PM2), 5' (1), 80' (2), 100' (3), 60' (4), 80'
Pump Discharge Sizes: (PM2), 3" (SK01), 3" (SK02), 3"
Pump Isolation Valves: (SK01), 3" (SK02), 3"
Pump Check Valve Sizes: (PM2), 3" (1), 3" (2), 3" (3), 3" (4)
Main/old Size: NA
Rafter Valve: 1"
Station Isolation Valve: 8" GEAR OPERATED
Filter/Separator: FLOWMETER (TO 2000 GPM)
Power Conditioner: NONE
Power Panel: 750VA
Header: NONE
Main Discharge: 300 AMP
Power Requirements: 400 KVA 480 VOLTS 3PH-3 208PHASE
Exhaust Fan Requirements: NA

NOTES:
 1. All piping for this station shall be Schedule 40 pipe unless otherwise noted.
 2. All valves shall be 150 PSI WOG unless otherwise noted.
 3. All valves shall be 150 PSI WOG unless otherwise noted.
 4. All valves shall be 150 PSI WOG unless otherwise noted.
 5. All valves shall be 150 PSI WOG unless otherwise noted.
 6. All valves shall be 150 PSI WOG unless otherwise noted.
 7. All valves shall be 150 PSI WOG unless otherwise noted.
 8. All valves shall be 150 PSI WOG unless otherwise noted.
 9. All valves shall be 150 PSI WOG unless otherwise noted.
 10. All valves shall be 150 PSI WOG unless otherwise noted.

SCHEDULE 4-5 PERIMETER OF SECURITY FENCE & LANDSCAPING AROUND THE GOLF COURSE (Page 9 of 9)

SCHEDULE 5

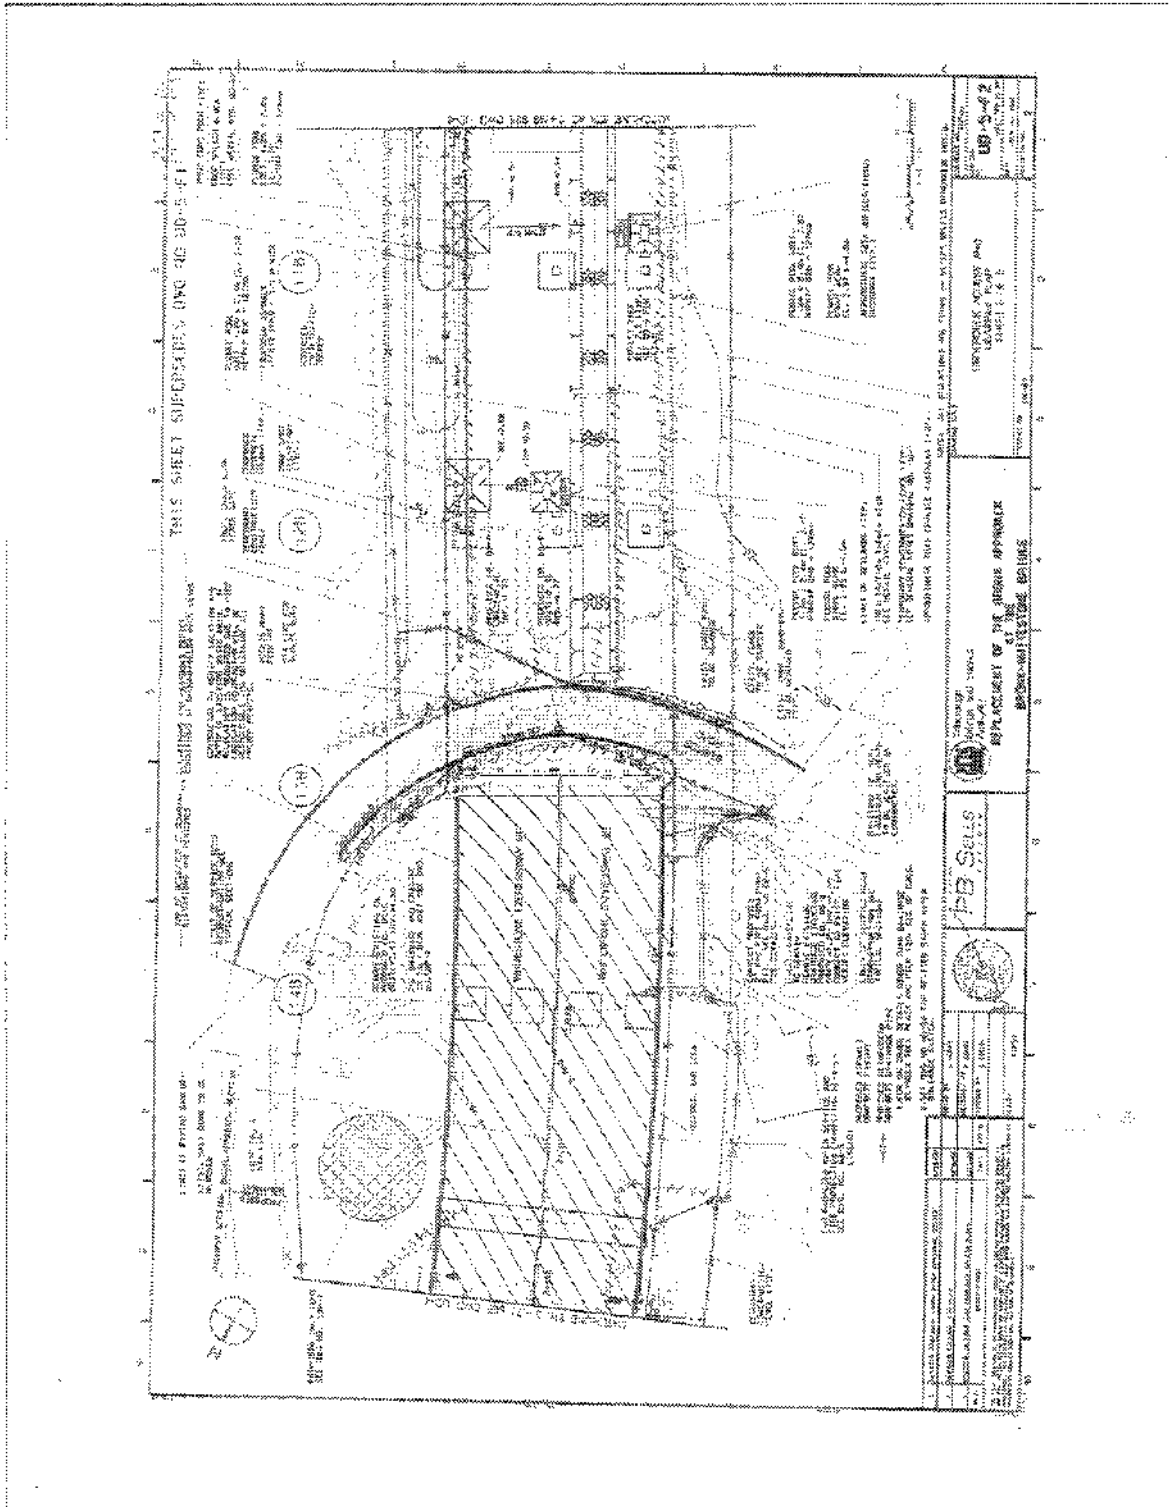

Construction Contracts and Design Contracts for the City's Work

1. Contract for Construction of Tournament Quality Golf Course (Contract X126 109M) between the City and Laws Construction Corp. ("**Laws**") dated July 29, 2009 (the "**Laws Contract**")
2. Contract for Services of Consultant (Contract X126 308M) between the City and Planning Design Inc. d/b/a Sanford Golf Design ("**Sanford**") dated August 22, 2008 (the "**Sanford Contract**")
3. Golf Design Subcontract Agreement among Nicklaus Design LLC ("**Nicklaus Design**"), Planning Design Inc. d/b/a Sanford Golf Design and the City dated August 14, 2008. (the "**Nicklaus Subcontract**")

Schedule 5-1

SCHEDULE 6

Portion of Access Road to be repaired by TBTA

Schedule 6-1

SCHEDULE 7

West Parking Lot

Schedule 7-1

SCHEDULE 8

Grow In Maintenance for Trump Golf Links at Ferry Point Park

The following is an outline for the grow-in operations of the golf course at Trump Golf Links at Ferry Point Park, with the intention of providing the highest quality turf at the opening of the facility. The procedures outlined in these specifications may be altered at the superintendent's reasonable discretion as weather or conditions dictate as long as the original intent of the specification is not materially changed.

GREENS

Greens will be walk mowed as needed to ensure that no more than 1/3 of the leaf blade is being removed at any one time. The height of cut shall range from .140" to .180" as conditions and maturity dictate. Greens will be rolled with a turf type roller towards the end of the Grow-In to promote a smooth putting surface. The goal here is to work toward a smooth, healthy turfgrass that will be mature at the time of opening.

Greens will be regularly topdressed with the same sand as used to construct the rootzone to promote smoothing the surface. Topdressing must not cause a layering effect in the green profile. The fertility program and soil amendments for pH adjustment, salinity management, cation exchange enhancement, etc., should be based on an initial soil test by a certified soils lab familiar with golf course turfgrasses.

As greens mature they will be lightly verticut to manage thatch and to promote a healthy surface.

A soil nutrient and plant protection program will be established with the goal of bringing the turfgrass to maturity as rapidly as possible and to prevent loss of turf due to insects, disease, and environmental stresses. Care will be taken to ensure that applications are timely and accurate to minimize leeching and run off according to accepted Best Management Practices.

Greens will be watered to prevent the upper portion of the root zone from drying out during early states of development. As greens mature they will be watered based on Evapo Transpiration ("ET") to prevent becoming excessively dry. After turf is established, greens will not be allowed to dry out as much as a mature green that is open for play and they will not be allowed to become oversaturated and wet.

Once turf maturity levels allow, greens will remain weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management Program.

Any thin or weak areas will be seeded with the same turfgrass variety as originally planted in those locations to ensure a full and healthy turf stand.

Once the turf is mature enough, it will be core aerified to eliminate the development of a "grow-in layer" that generally develops when establishing new turfgrass.

TEES

Tees will be walk mowed as needed to ensure that no more than 1/3 of the leaf blade is being removed at any one time. The height of cut shall range from .350 to .500 as conditions and maturity dictate.

Tees will be regularly topdressed with the same sand as used to construct the root zone to promote smoothing the surface. Topdressing must not cause a layering effect in the tee rootzone profile. The fertility program and soil amendments for PH adjustment, salinity management, cation exchange

enhancement, etc. should be based on an initial soil test by a certified soils lab familiar with golf course turfgrasses.

As tees mature they will be lightly verticut to manage thatch build up and to promote a healthy surface.

A soil nutrient and plant protection program will be established with the goal of bringing the turfgrass to maturity as rapidly as possible and to prevent loss of turf due to insects, disease, and environmental stresses. Care will be taken to ensure that applications are timely and accurate to minimize leeching and run off according to accepted Best Management Practices.

Tees will be watered based off of ET to prevent becoming excessively dry, so that they will not be allowed to dry out as much as mature turf that is open for play and they will not be allowed to become oversaturated and wet after turf is established.

Once turf maturity levels allow, tees will remain weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management Program.

Any thin or weak areas will be seeded with the same turfgrass variety as originally planted in those locations to ensure a full and healthy turf stand.

Once the turf is mature enough it will be core aerified to eliminate the development of a "grow-in layer" that generally develops when establishing new turfgrass.

FAIRWAYS

Fairways will be cut as needed to ensure that no more than 1/3 of the leaf blade is being removed at any one time. The height of cut shall range from .375 to .600 as conditions and maturity dictate.

As fairways mature they will be lightly verticut to manage thatch and to promote a healthy surface.

A soil nutrient and plant protection program will be established with the goal of bringing the turfgrass to maturity as rapidly as possible and to prevent loss of turf due to insects, disease, and environmental stresses. Care will be taken to ensure that applications are timely and accurate to minimize leeching and run off according to accepted Best Management Practices. The fertility program and soil amendments for PH, salinity, cation exchange, etc should be based on an initial soil test by a certified soils lab familiar with golf course turfgrasses.

Fairways will be watered based on ET and physical observation of the grass plant and soils to prevent both from becoming excessively dry. Fairways will not be allowed to dry out as much as mature turf that is open for play, but also will not be allowed to become oversaturated and wet after turf is established. Supplemental watering methods should be used as needed to augment the automatic irrigation cycles.

Once turf maturity levels allow, fairways will remain weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management Program.

Any thin or weak areas will be seeded with the same turfgrass variety as originally planted in those locations to ensure a full and healthy turf stand. If sod is used for erosion repair or other turf replacement reasons, it must also be of the same variety as previously planted in those areas. The sod must be soil free or grown on soil matching the type that will be installed on the golf course.

Preventative measures should be taken to anticipate and reduce the amount and severity of washouts. Severe washouts should be repaired, re-seeded or sodded, and then stabilized with appropriate erosion control measures.

Once the turf is mature enough it will be core aerified to eliminate the development of a "grow-in layer" that generally develops when establishing new turfgrass.

Sprinklers will be trimmed around as needed to prevent turf from interfering with the operation of the rotor and to allow for easy location.

Drain tops will be trimmed around as needed basis to prevent turf from interfering with the flow of water into the catch basins.

ROUGHES:

Roughs will be mowed at 3" to 4" with a rotary type mower. It will be mowed on a schedule to prevent more than 1/3 of the leaf blade from being removed at one time.

A soil nutrient and plant protection program will be established with the goal of bringing the turfgrass to maturity as rapidly as possible and to prevent loss of turf due to insects, disease, and environmental stresses. Care will be taken to ensure that applications are timely and accurate to minimize leeching and run off according to accepted Best Management Practices.

Irrigated rough areas will be watered based on ET and physical observation of the grass plant and soils to prevent both from becoming excessively dry. Irrigated rough areas will not be allowed to dry out as much as mature turf that is open for play, but also will not be allowed to become oversaturated and wet after turf is established. Supplemental watering methods should be used as needed to augment the automatic irrigation cycles.

Once maturity levels allow, roughs will remain weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management Program.

Sprinklers will be edged on an as needed basis to prevent the turf from interfering with the operation of the rotor and to allow for easy location.

Drain tops will be edged on an as needed basis to prevent turf from interfering with the flow of water into the catch basins

Any thin or weak areas will be seeded with the same turfgrass variety as originally planted in those locations to ensure a full and healthy turf stand. If sod is used for erosion repair or other turf replacement reasons, it must also be of the same variety as previously planted in those areas. The sod must be soil free or grown on soil matching the type that will be installed on the golf course.

Preventative measures should be taken to anticipate and reduce the amount and severity of washouts. Severe washouts should be repaired, re-seeded or sodded, and then stabilized with appropriate erosion control measures.

NATIVE AREAS

A fertility/amendment soil nutrient and plant protection program will be established with the goal of bringing the turfgrass to maturity as rapidly as possible and to prevent loss of turf due to insects, disease,

and environmental stresses. Care will be taken to ensure that applications are timely and accurate to minimize leeching and run off according to accepted Best Management Practices.

Native Areas will be mowed on an as needed basis to promote development and vigor of the desirable grass species

Native areas will be watered as needed to promote development and vigor of the desirable grass species, with special emphasis on seedling germination and establishment.

Any thin or weak areas will be seeded with the same native grass variety as originally planted in those locations to ensure a healthy natural grass cover. Preventative measures should be taken to anticipate and reduce the amount and severity of washouts post seeding and pre-establishment. Severe washouts should be repaired, re-seeded and then stabilized with appropriate erosion control measures.

BUNKERS:

Bunkers will be raked or cultivated as needed to prevent excessive weed growth during the Grow-In. Weeds will be pulled around the edges and washouts will be repaired immediately following rain as required to prevent sand contamination. As needed, bunker edges will be trimmed, contaminated sand replaced, additional sand added, and all rock, trash and organic debris will be removed. Watering around the bunker should be managed so as to prevent other materials from washing into the bunkers.

IRRIGATION AND WATERING

The irrigation system is to be maintained in accordance to the manufacturers recommendations so that it is in working order at all times during the growing season. Visual checks shall be conducted on a regular basis as well as an analysis of the computer data from the prior night's irrigation cycle to ensure everything is working properly. All repairs and adjustments shall be made by qualified personnel under the direction of the superintendent. The pump stations shall be serviced in a regular manner according to manufacturer recommendations.

The theory behind all watering practices during grow in is to not let the seeds or establishing turfgrass become overly dry or heat stressed. Turf needs shall be monitored on a daily basis visually and by use of weather station data and in ground moisture sensors.

It is understood by Licensee that supplied irrigation water is NYC potable water and amendments will potentially be needed and are to be added through the fertigation and acid injection to meet turf growing water quality standards as prescribed by accredited test reports from an agronomic laboratory familiar with golf course use.

The irrigation system should be emptied of all free water in the late fall in strict accordance with the manufacturer's specifications and guidelines to prevent freeze damage to the irrigation system during the winter season. Care will be taken in the spring to prevent damage when recharging the system.

Salt Management Practices may be necessary to maintain turfgrass health, especially during prolonged periods of drought.

CART PATHS

Care shall be taken to prevent any damage to or dirtying of cart paths during the Grow-In of the golf course.

POND MANAGEMENT

Irrigation pond and detention ponds shall be maintained in order to control storm water and remain in compliance with all applicable laws, rules, regulations and guidelines related to lake/water management, including but not limited to the Clean Water Act.

The grass and rip rap edges surrounding the irrigation pond and the grass surrounding the detention ponds shall be regularly maintained to ensure they are in keeping with the design intentions.

A weed and algae control program for the irrigation pond shall be implemented as part of the maintenance program. A weed control and reseed program for the detention ponds and designated wetlands shall be implemented as part of the maintenance program to maintain original design intentions and in strict compliance with any City, State, and Federal laws, rules, regulations and guidelines.

EQUIPMENT MAINTENANCE

All equipment shall be used and maintained in accordance to the manufacturer's specifications, recommendations and guidelines as provided in the owner's manual and any subsequent notices or bulletins issued by the manufacturer. Employees will be thoroughly trained and educated on the proper use of the equipment.

All lubricants and fluids shall be regularly checked and changed as outlined in the service manual. A sound preventative maintenance program shall be developed by the golf course mechanic under the direction of the superintendent.

Re: DEC Permit No. 2-6006-00014/00013-0
Ferry Point Park Golf Course Construction, Bronx County

Dear Assistant Commissioner Imohiosen and Mr. Pierre Gagne:

The above referenced permit, issued November 18, 2005 is hereby revised as follows:

DESCRIPTION OF AUTHORIZED ACTIVITY:

Construction of a Golf Course, Community Park and Waterfront Park on 222 acres of Ferry Point Park, requiring a total of 2,370,000 cubic yards of material in-place volume. This material will be imported to the Site by truck and consist exclusively of: 1) recognizable and uncontaminated concrete or concrete products (including steel or fiberglass reinforcing rods that are embedded in the concrete), brick, soil, sand, gravel, and rock (hereafter referred to in this permit as select exempt construction and demolition debris) totaling approximately 2,120,000 cubic yards for the shaping layer, and 2) uncontaminated soil totaling approximately 250,000 cubic yards for the cover layer. The imported material will be used to attain the final approved grades and contours.

All other conditions and requirement of the issued permit remain as previously written.

December 27, 2005

You are required to provide a copy of this notice to all agents, contractors and employees performing any part of the permitted activities, maintain an accessible copy at the project site and at the document repository established for this project.

Very truly yours,

John F. Cryan
Regional Permit Administrator

PERMIT ISSUED TO: Owner: NYC Department of Parks and Recreation and Operator: Pierre Gagne, Ferry Point Partners, LLC		TELEPHONE: 212-360-8111 (NYCDPR) 212-699-1915 (FPP, LLC)
ADDRESS OF PERMITTEE: NYCDPR, 830 5 th Avenue, New York, NY 10021-7001 FPP, LLC, c/o Gagne Development Company, 422 Summer Street, Stamford, Ct. 06901		
CONTACT PERSON FOR PERMITTED WORK: J. Pierre Gagne Gagne Development Company, LLC		TELEPHONE: 212-699-1915
PROJECT/FACILITY NAME: Ferry Point Park Golf Course Construction		
PROJECT/FACILITY ADDRESS: Eastern portion of Ferry Point Park, bounded by the Bronx Whitestone Bridge, Balcom, Miles and Emerson Avenues, Schley Avenue and the East River, Bronx County. Block 5583, Lot 100, Block 5622, Lot 1		
DESCRIPTION OF AUTHORIZED ACTIVITY: Construction of a Golf Course, Community Park and Waterfront Park on 222 acres of Ferry Point Park; requiring a total of approximately 2,543,729 cubic yards of material in-place volume. This material will be imported to the Site by truck and consist exclusively of: 1) recognizable and uncontaminated concrete or concrete products (including steel or fiberglass reinforcing rods that are embedded in the concrete), brick, soil, sand, gravel, and rock (hereafter referred to in this permit as select exempt construction and demolition debris) totaling approximately 2,370,000 cubic yards for the shaping layer, and 2) uncontaminated soil totaling approximately 250,000 cubic yards for the cover layer. The imported material will be used to attain the final approved grades and contours.		

All work associated with the authorized activity described above shall comply with all of the applicable provisions of 6 NYCRR Part 360 (Solid Waste Management Regulations), effective 29 September 1997. By acceptance of this permit, the Permittee agrees that this permit is contingent upon strict compliance with the ECL, all applicable regulations, and the General Conditions and Special Conditions included herein.

REGIONAL PERMIT ADMINISTRATOR: John F. Cryan	ADDRESS: NYS Department of Environmental Conservation 47-40 21 st Street, Long Island City, NY 11101
AUTHORIZED SIGNATURE: <i>Jeffrey Rabinowitz (for JFC)</i>	DATE: November 18, 2005
Page 1 of 17	

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

NOTIFICATION OF OTHER PERMITTEE OBLIGATIONS

Item A: Permittee Accepts Legal Responsibility and Agrees to Indemnification
 The Permittee has accepted expressly, by the execution of its application for the subject work, the full legal responsibility for all damages and costs, direct or indirect, of whatever nature and by whomever suffered, for liability incurred resulting from activity conducted pursuant to this permit or in noncompliance with this permit and has agreed to indemnify and save harmless the State from suits, actions, damages, and costs of every name and description resulting from such activity.

Item B: No-Right to Trespass or Interfere with Riparian Rights
 This permit does not convey to the Permittee any right to trespass upon the lands or interfere with the riparian rights of others in order to perform the subject work nor does it authorize the impairment of any rights, title, or interest in real or personal property held or vested in a person not a party to the permit.

GENERAL CONDITIONS

General Condition 1: Facility Inspection by the Department
 The subject facility, including relevant records, is subject to inspection at reasonable hours and intervals by an authorized representative of the Department of Environmental Conservation (the Department) to determine whether the Permittee is complying with this permit and the ECL. Such representative may order the subject work suspended pursuant to ECL 71-0301 and BAPA 401(3).

The Permittee must provide a person to accompany the Department's representative during an inspection of the subject facility when the Department provides written or verbal notification to the Permittee at least 24 hours prior to such inspection.

A copy of this permit, including all general and special conditions therein, all amendments thereto, and all documents referenced therein must be available for inspection by the Department at the project site at all times that activity associated with the subject work is occurring. Failure to produce a copy of such permit, conditions, amendments, or documents upon request by a Department representative is a violation of this permit.

Any sign provided by the Department with this permit must be protected from the weather and posted in a conspicuous location at the subject work site throughout the period during which any of the subject work occurs.

General Condition 2: Relationship of this Permit to Other Department Orders and Determinations
 Unless expressly provided for by the Department, this permit does not modify, supersede, or rescind any order or determination previously issued by the Department or any of the terms, conditions, or requirements contained in such order or determination.

General Condition 3: Applications for Permit Renewals or Modifications
 The Permittee must submit a separate written application to the Department for renewal, modification, or transfer of this permit, including but not limited to a change in facility operator. Such application must include any forms or supplemental information the Department requires. Any renewal, modification, or transfer granted by the Department must be in writing. The Permittee must submit a renewal application at least:

- a) 180 days before expiration of permits for State Pollutant Discharge Elimination System (SPDES), Hazardous Waste Management Facilities, major Air Pollution Control (APC) and Solid Waste Management Facilities; and
- b) 30 days before the expiration of all other permit types.

Submission of applications for permit renewal, modification, or transfer are to be submitted to:
 NYSDEC Regional Permit Administrator, Region 2, 47-40 21 Street, Long Island City, NY 11101 (tel. 718/482-4997).

General Condition 4: Permit Modifications, Suspensions, and Revocations by the Department
 The Department reserves the right to modify, suspend, or revoke this permit when:

- a) the scope of the permitted activity is exceeded or a violation of any condition of the permit or provisions of the ECL and pertinent regulations is found;
- b) the permit was obtained by misrepresentation or failure to disclose relevant facts;
- c) new material information is discovered; or
- d) environmental conditions, relevant technology, or applicable law or regulation have materially changed since the permit was issued.

General Condition 5: Compliance with Other Regulatory Requirements
 The Permittee is responsible for obtaining any other permits, approvals, lands, easements, and rights-of-way that may be required for the subject work. The Permittee and its independent contractors, employees, agents, and assigns must comply with all applicable local, State, and federal regulatory requirements.

General Condition 6: Permittee to Ensure that its Contractors to Comply with Permit
 The Permittee must ensure that its independent contractors, employees, agents, and assigns read, understand, and comply with this permit, including all General and Special Conditions herein, in general, and General Condition No. 5, above, in particular. Such persons must be subject to the same sanctions for violations of this permit as those prescribed for the Permittee.

DEC PERMIT NUMBER 2-6005-00014/00013	FACILITY Ferry Point Park Golf Course	Page 2 of 17
---	--	--------------

ADDITIONAL GENERAL CONDITIONS FOR ARTICLE 27 and 8 NYCRR Part 890 (Solid Waste Management Facilities)

7. That if future operations by the State of New York require an alteration in the position of the structure or work herein authorized, or if, in the opinion of the Department it shall cause unreasonable obstruction to the free navigation of said waters or flood flows or endanger the health, safety or welfare of the people of the State, or cause loss or destruction of the natural resources of the State, the owner may be ordered by the Department to remove or alter the structural work, obstructions, or hazards caused thereby without expense to the State, and if, upon the expiration or revocation of this permit, the structure, fill, excavation, or other modification of the watercourse hereby authorized must not be completed, the owners, must, without expense to the State, and to such extent and in such time and manner as the Department may require, remove all or any portion of the uncompleted structure or fill and restore to its former condition the navigable and flood capacity of the watercourse. No claim shall be made against the State of New York on account of any such removal or alteration.
8. The State of New York must in no case be liable for any damage or injury to the structure or work herein authorized which may be caused by or result from future operations undertaken by the State for the conservation or improvement of navigation, or for other purposes, and no claim or right to compensation shall accrue from any such damage.
9. All necessary precautions must be taken to preclude contamination of any wetland or waterway by suspended solids, sediments, fuels, solvents, lubricants, epoxy coatings, paints, concrete, leachate, or any other environmentally deleterious materials associated with the project. Any creosote-treated lumber must be weathered for at least six months before it is brought to the subject work site.
10. Any material dredged in association with the work herein permitted must be removed evenly, without leaving large refuse piles, ridges across the bed of a waterway or flood plain, or deep holes that may have a tendency to cause damage to navigable channels, the banks of a waterway, water quality, sediment quality, or benthic habitat.
11. There must be no unreasonable interference with navigation by the work herein authorized.
12. If upon the expiration or revocation of this permit, the project hereby authorized has not been completed, the Permittee must, without expense to the State, and to such extent and in such time and manner as the Department may require, remove all or any portion of the uncompleted structure or fill and restore the site to its former condition. No claim shall be made against the State of New York on account of any such removal or alteration.
13. If granted under Article 36, this permit does not signify in any way that the project will be free from flooding.
14. If granted under 8 NYCRR Part 808, the Department hereby certifies that the subject project will not contravene affluent limitations or other limitations or standards under Sections 301, 302, 303, 305, and 307 of the Clean Water Act of 1977 (PL 95-217) provided that all of the conditions listed herein are met.
15. In accordance with Title 19, Part 600.4 (c) of the New York Code of Rules and Regulations, the Department hereby certifies that the action described and approved in this permit, if located within the Coastal Zone, is consistent to the maximum extent practicable with the policies and purposes of the New York City Waterfront Revitalization Program.

SPECIAL CONDITIONS		
Site Work	<ol style="list-style-type: none"> 1. All activities authorized by this permit shall conform to all documents supporting the original permit, DEC No. 2-6006-00014/00011, dated July 17, 2000 and modified October 18, 2002 as modified by the following: <ul style="list-style-type: none"> • Technical Environmental Assessment for the Ferry Point Park Recreation Facility prepared by Ailee, King, Rosen and Fleming dated February 11, 2002 and amended September 29, 2004; • Geotechnical Engineering Study prepared by Langun Engineering and Environmental Services, Inc. dated July 2, 2002; • Response to Request for Additional Information prepared by TRC Raymond Koyes Associates dated July 2, 2002; • Fill Procurement Protocol shall be as per the Department letters dated May 21, 2001 and May 23, 2001 from John Nehila to Steve Kass; • Ferry Point Park: Offsite Methane Monitoring-Bronx, New York prepared by AKRF, Inc., October 12, 2001; • Landfill Gas (LFG) Passive Vent Trench Along Miles And Emerson Avenues Plan and Detail, V-1, Sheet 1 of 4 prepared by TRC with checked date 02/04/02 ; • Landfill Gas (LFG) Passive Vent Trench Along Balcom, Miles And Schley Avenues Plan and Detail, V-2, Sheet 2 of 4 prepared by TRC with checked date 02/04/02 ; • Landfill Gas (LFG) Passive Vent Trench Along Northern Property Boundary Plan and Detail, V-3, Sheet 3 of 4 prepared by TRC with checked date 02/04/02; • LFG Vent Trench and Piezometer Network Profile, V-4, Sheet 4 of 4 prepared by TRC with checked date 02/04/02; • Landfill Gas (LFG) Passive Vent Trench Along Balcom, And Schley Avenues Plan and Detail, C-2, Sheet 1 of 1 prepared by TRC with checked date 07/20/01;

- Volume #2, Application for Modification to the Solid Waste Management Facility Permit for Construction of Ferry Point Park Recreation Facility, Bronx, NY, Engineering Report, prepared by TRC Raymond Keyes Associates, dated June 30, 2005.
- Settlement Evaluation and Long Term Monitoring Plan, Ferry Point Golf Course, Ferry Point Park, Bronx, NY, prepared by Langan Engineering and Environmental Services, Inc., dated January 26, 2005.
- Response to Department Comments prepared by TRC Raymond Keyes Associates, dated August 2, 2005 and by Langan Engineering and Environmental Services, Inc., dated June 30, 2005.
- Application for Modification to the Solid Waste Management Facility Permit for Construction of Ferry Point Park Recreation Facility, Bronx, NY, "Second Supplement to Engineering Report," prepared by TRC Raymond Keyes Associates, dated August 23, 2004.
- Site plans labeled "Ferry Point Park Public Recreational Facility Bulk Earthwork, Ferry Point Park Public Recreation Facility, Ferry Point Park, Bronx, New York" prepared by TRC Raymond Keyes Associates, dated April 22, 2005 (revised) consisting of drawings:

- ▶ GC-2, G1 and G-2 dated 7/01/05 (last revised);
- ▶ G-3, and G-4 dated 1/21/05 (last revised);
- ▶ D-1 dated 7/1/04 (last revised);
- ▶ D-2 dated 7/1/05 (last revised);
- ▶ V-1, V-2, V-3 and V-4 dated 02/04/04 (last revised);
- ▶ C-1 dated 3/09/01 (last revised);
- ▶ C-2 dated 7/20/01;
- ▶ SW-1.00 dated 4/13/04;
- ▶ SW 1A.01 dated 2/18/04;
- ▶ SW 1B.01 and SW 1b.02 dated 4/13/04;
- ▶ Irrigation Design Phase 1 Ferry Point Park Approval Set, labeled "Ferry Point Park 0514-AS-R04-060704, Phase 1 Approval Set" dated 06/07/04 (last revised), sheets numbered 1, 2, 3 and 4 dated 5/22/03 and sheets numbered I, II and III dated 5/22/03.

2. Activities authorized by this permit include development of a golf course and parks, as well as the construction of associated structures, utility lines, gas venting and control systems. All aspects of the project must be constructed in accordance with the Department approved design plans, specifications and documents noted in Special Condition # 1. All physical aspects of the project including project location referenced in this permit shall be referred to as the "Site." All construction aspects of the permitted activities referenced in this permit shall be referred to as the "Project."

3. In accordance with "Item A" of the Notification of Other Permittee Obligations" found on page 2 of this permit, the Department in general accepts no liability for the structural integrity and/or the adequacy of the buildings and/or foundation designs of the proposed buildings or other structures associated with the development of the golf course. In addition, the Department specifically does not guarantee nor accept

DEC PERMIT NUMBER 2-6008-00014/00013	FACILITY Ferry Point Park Golf Course	Page 4 of 17
---	--	--------------

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 and 28 NYCRR Part 240 (Solid Waste Management Facilities)

liability in regards to the measures proposed to prevent the subsidence of any buildings, foundations and other structures built on or adjacent to the Site, or to prevent the migration of explosive gas.

4. All operations at the Site shall occur Monday through Saturday during daylight hours, between sunrise and sunset, unless otherwise authorized by the Department.
5. All truck traffic entering and leaving the Site shall use only authorized truck traffic routes, and conform to the construction traffic management plans noted in Exhibit K of Volume#1, Application for Modification to the Solid Waste Management Facility Permit for Construction of Ferry Point Park Recreation Facility, Bronx, New York, Engineering Report, prepared by TRC Raymond Keyes Associates, dated June 30, 2005 (revised).
 - a) All truckers shall receive written instruction on the truck access routes to and from the Site.
 - b) All trucks entering the site shall be tarped or sufficiently covered to comply with local and state highway regulations. The Site access and exit routes shall be maintained so that they are free from dust, dirt and debris resulting from the truck traffic.
6. No fill can be brought to the Site nor can any compaction activities begin until all gas monitoring wells, gas geoprobe points, landfill vent trench piezometers, and other methane monitoring devices referenced in reports and plans made a part of this permit have been installed and are demonstrated to be working properly. The Department reserves the right to require expeditious installation of additional monitoring or control devices should data or other information suggest that the venting trench has failed to perform as designed, or that landfill gas from the Site has migrated off-site or otherwise poses a threat to public health or the environment.
7. Short-term settlement monitoring must strictly conform to the recommendations listed in the Settlement Evaluation and Long Term Monitoring Plan, Ferry Point Golf Course Ferry Point Park, Bronx, NY, prepared by Langan Engineering and Environmental Services, Inc., dated January 26, 2005.
 - a) Short-term monitoring must continue until at least six months after the completion of fill placement.
 - b) Prior to resumption of any filling, the Permittees must repair all short-term monitoring points, and either continue the bi-weekly monitoring or receive approval from the Department for a modified short-term settlement monitoring program.
8. The long-term settlement monitoring must strictly conform to the recommendations listed in the Settlement Evaluation and Long Term Monitoring Plan, Ferry Point Golf Course Ferry Point Park, Bronx, NY, prepared by Langan Engineering and Environmental Services, Inc., dated January 26, 2005.
 - a) The long-term monitoring shall continue for 30 years with quarterly testing of all points for the first five years, semi-annual testing for the next five years and annual testing for the next twenty years, unless otherwise approved by the Department.

Page 5 of 17

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 17 and 6 NYCRR 201.90 (Solid Waste Management Facilities)

b) All monitoring points must be maintained in proper working condition. If any points are unable to be sampled for any reason, they must be repaired within two weeks of such detection and re-tested.

Fill Importation

9. The Permittees are authorized to import a total of 2,370,000 cubic yards of in-place fill material to the Site. The fill material shall consist of approximately 2,120,000 cubic yards of select exempt construction and demolition (C&D) debris for the shaping layer, and approximately 250,000 cubic yards of uncontaminated soil for the cover layer. The imported material shall be used on Site to attain the final approved grades and contours approved by the Department, and referenced on plans made a part of this permit.
 - a) The use of asphalt as fill material on the Site is prohibited.
 - b) The use of dredge spoils as fill material on the Site is prohibited.
 - c) There shall be no mechanical separation of steel and fiberglass reinforcing rods from concrete and concrete products at the Site.
 - d) No size reduction or material processing may occur on Site, except with earth moving equipment in the course of placement. However, the breakdown and removal of stumps and wood previously left on Site by the New York City Department of Sanitation (DOS) is permitted.
 - e) All solid waste material excavated from the Site shall be properly secured immediately, and then removed from the Site and legally disposed of within seven (7) days.
 - f) All unauthorized solid waste or fill material found on the Site shall be properly secured immediately, and then removed and legally disposed of within five (5) days of its discovery by Permittees.
 - g) All select exempt construction and demolition (C&D) debris for the shaping layer and the cover layer material must be free of all non-exempt C&D recognizable debris.
10. The quantification of all imported fill material shall be continuously tracked by both truck volume, and periodic topographic survey of the imported in-place fill volume. Since compacted in-place fill volumes will not equal truck volumes of fill, a 41 percent (41%) correction factor shall be applied. The correction factor for converting truck volume into in-place volume may be modified by the Department.
11. The Permittees must cease the importation of fill material if:
 - a) The final approved grades are attained prior to the permitted amount of fill material being imported;
 - b) 2,120,000 cubic yards of select exempt construction and demolition debris for the shaping layer, as measured by in-place fill volume determined through topographic survey, are accepted. All material imported to the Site is considered shaping layer material, unless testing determines otherwise; or
 - c) 423,729 cubic yards of uncontaminated soil for the cover layer, as measured by truck volume, are accepted. is the Permittees shall terminate such fill importation activities.

DEC PERMIT NUMBER 2-6006-00014/00013	FACILITY Ferry Point Park Golf Course	Page 6 of 17

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 and 27VCRA 700208 (Solid Waste Management Facilities)

12. Within 60 days of the effective date of this permit, the Permittees must provide a list of all DEC registered construction and demolition debris processing facilities (DEC registered C&D facilities or registration facilities) used to obtain select exempt construction and demolition debris for fill material to the Department for its approval prior to use. The subsequent transportation and use of fill material from other additional registration facilities requires written Departmental approval. Such requests must be submitted to the Department for approval not less than ten (10) business days prior to any proposed date for importation from the new locations. No fill material may be received from unapproved facilities or locations.
13. Select exempt construction and demolition debris to be used as fill material at the Site may be accepted from DEC registered C&D facilities, provided that the facilities segregate and clearly mark each stockpile with a specific identification number, the date each stockpile was started and the date when it was sampled by the Permittees. The Department shall be notified by Permittees at least 24 hours before any sampling event at a DEC registered C&D facility. All sampling reports shall be faxed to the Department directly from the certified testing laboratory.
14. The Permittees shall be responsible for ensuring that topsoil is procured from a DEC approved source, and it meets all permit specifications. If the topsoil is manufactured, the soil used in its manufacture must not originate from any industrial sites or DEC registered C&D facilities.
15. The Permittees shall be responsible for ensuring that the shaping and cover soil meet the relevant sections of the June 30, 2005 Engineering Report, Volume 1, Section B, General Operations Plan, as well as the following:
 - a) In order for select exempt construction and demolition debris material to be used on Site, it must be sampled both prior to acceptance and after the importation of each additional 10,000 cubic yards (in truck volumes). Each soil sample is to be analyzed for Toxicity Characteristic Leachate Procedure (TCLP), volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), polychlorinated biphenyls (PCBs), and metals (including Resource Conservation and Recovery Act (RCRA) metals).
 - b) In order for topsoil material to be used on Site for the cover layer, it must be sampled prior to acceptance and after the importation of each additional 2,000 cubic yards (in truck volumes). Each soil sample is to be analyzed for the entire analyte list in the NYSDEC Technical and Administrative Guidance Memorandum (TAGM) 4046, total volatile organic compounds (VOCs), total semi-volatile organic compounds (SVOCs), pesticides and herbicides, polychlorinated biphenyls (PCBs), and metals (including Resource Conservation and Recovery Act (RCRA) metals).
 - c) The shaping layer must meet the following chemical limits:
 - i. Total carcinogenic SVOC levels must be less than 3 ppm if any one of the carcinogenic SVOCs exceed TAGM 4046. The following are the list of carcinogenic SVOCs that are subject to this 3 ppm limit: Benzo(a)pyrene, Dibenz(a,h)anthracene, Benzo(a)anthracene, Benzo(b)fluoranthene, Indeno(1,2,3-cd)pyrene, Benzo(k)fluoranthene, and Chrysene.

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 17 and 6 NYCRR 270.046 (2004 Water Measurement Facilities)

- ii. Total SVOCs must be less than 500 ppm
- iii. Metals:
 - ▶ Arsenic less than 28 ppm;
 - ▶ Barium less than 2,000 ppm;
 - ▶ Cadmium less than 20 ppm;
 - ▶ Chromium less than 1,000 ppm;
 - ▶ Copper less than 1000 ppm;
 - ▶ Lead less than 400 ppm;
 - ▶ Mercury less than 0.57 ppm
 - ▶ Selenium less than 11 ppm
 - ▶ Silver less than 100 ppm
- iv. Asbestos for all layers must be 0.5% or less
- v. Total sulfur for all layers must be 0.5% or less
- vi. Total PCBs less than 10 ppm
- vii. Total Pesticides less than 10 ppm
- viii. VOCs (all individual analytes less than TAGM 4046)

d) The final placement (including top soil), location, thickness, and detailed chemical limits of the final cover layers on the Site, including the community park and waterfront park, are subject to the specifications, directions and requirements determined by NYS Department of Health (NYSDOH) to be applicable. It is the responsibility of the Permittees to obtain a written determination from NYSDOH. The Permittees must provide the Department with a copy of NYSDOH's determination. No cover layer material may be placed on the Site, until the Department acknowledges receipt of NYSDOH's determination.

16. The major components (greens, contours, heights and top soil) of the cover layer shall meet the Nicklaus Design Technical Specification, as noted in Exhibit C of the June 30, 2005 Engineering Report, and as follows:

- ▶ Greens - Greens mix imported to the site shall be tested as per material testing requirements. Fertilizer and soil amendments may be applied on the greens mix after spreading to construction specifications and finally grassed, as per the specifications provided by the agronomist.
- ▶ Topsoil - Topsoil imported shall be consistent with native topsoil, and shall be free of rock and debris greater than three quarters of an inch, as per Exhibit C of the Engineering Report. Soil amendments, fertilizer applications and seed may be applied to tee, fairway and rough areas, as per Exhibit C of the June 30, 2005 Engineering Report.

17. The Department may conduct joint sampling or take split samples as necessary for verification purposes.

Fill Progression Monitoring

18. The Permittees shall place grade stakes indicating elevations for proposed final grades of fill and cover material.

FACILITY
Ferry Point Park Golf Course

Page 8 of 17

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS
 ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 and 4 NYCRR Part 269 (Solid Waste Management Facilities)

- 19. The Permittees shall place benchmarks throughout the Site, in a manner acceptable to the Department, for the purpose of periodically measuring and surveying fill elevations. Benchmarks are to be maintained at all times. If it becomes necessary, they shall be repaired promptly.

Project Completion Schedule

- 20. The project shall progress according to the Construction Schedule provided in Volume #1, Application for Modification to the Solid Waste Management Facility Permit for Construction of Ferry Point Park Recreation Facility, Bronx, NY, Engineering Report, prepared by TRC Raymond Kayes Associates, dated June 30, 2005 (as revised), Exhibit A. The effective date for implementation of the construction schedule is the effective date of this permit.
- 21. Within 60 days of the effective date of this permit, the Permittees shall submit a plan to the Department for its approval which delineates the previously approved imported material volume for the following areas or purpose: Eastern Area, Northwestern Area, Southern Area, Park Area and landscaping for the Park.
- 22. In accordance with the approved plan in Special Condition #1, placement of fill material in each section of the Site shall not exceed the designed and approved final contours for each section.
- 23. Only cover material may be stockpiled in a section upon completion of the placement of fill material for the shaping layer in that section as per design calculations. In addition, cover material may be stockpiled in a section where the completion of fill placement has not occurred, if such stockpile is segregated and secured from construction and demolition debris used for the shaping layer.
- 24. Upon completion of filling operations to approved grades in a section, the Permittees shall commence the rough shaping and placement of cover material, and the installation of drainage, irrigation and utilities, as per Construction Schedule noted in Special Condition # 20. Prior to placement of this cover material, Permittees must comply with the requirements of Special Condition # 15(d).

Independent Environmental Monitor

- 25. An Independent Environmental Monitor (IEM), accountable to the Department, shall be retained by the Permittees to provide environmental oversight of all activities authorized by this permit for the duration of its permitted term, including, but not limited to, the quantification, importation and placement of fill, and the monitoring of the Site.
 - a) It shall be the IEM's responsibility to provide notice of any deviation from the activities authorized by this permit and any deviation from New York State Environmental Regulations (NYCRR Part 360) to the Department immediately, but in no event later than 24 hours after such deviation is detected. This notification must include the date and time of the potential non-compliance, the nature of the non-compliance, any corrective action, and any additional measures the IEM will be undertaking to track the issue until corrected. Should the IEM be uncertain

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS
 ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 AND 28 (CARFAL 130) (Solid Waste Management Facilities)

as to whether such a deviation has occurred, the matter shall be promptly reported to the Department for a determination. For the purposes of this permit, a deviation(s) shall mean any of the following:

- i. An apparent violation of any condition of this permit;
 - ii. An apparent violation of Federal, State or Local Law;
 - iii. A material difference between construction or monitoring data obtained by the Permittees or their consultants, and that obtained by the IEM;
 - iv. Any receipt of fill that does not meet the specifications authorized in this permit;
 - v. Any receipt of fill from a site not authorized under the permit or by the Department.
 - vi. Any condition, activity or occurrence that may endanger or pose a threat to public health, safety or the environment.
- b) Notwithstanding any other reporting this permit requires, the IEM shall submit a detailed written report to the Department no less frequently than every three months detailing the IEM's activities at the Site, the estimated total volume of fill material (including cover material) received during the reporting period based on truck volume, the total volume of fill in place at the Site, the percentage of filling to final grades, and the number(s) of trucks prohibited from entering the Site. The report also shall summarize any site meetings amongst the Permittees, their consultants or others, verify that all samples taken and monitoring done at the Site by the Permittees or consultants conform to this permit, detail any substantive change in the condition of the Site or project, fully explain any deviations occurring during the reporting period and their disposition, and describe any other occurrence, circumstance or condition that may have a bearing upon the safe and environmentally sound operation of the Project or Site.
- c) The IEM must be approved by the Department prior to the finalization of any contractual agreement with the Permittees, and the initial receipt of any fill material at the Site.
- d) The continued retention, discharge, or replacement of the IEM shall be at the sole discretion of the Department. The Permittees waive any right to seek judicial review of the Department's exercise of that discretion. The Permittees must fully pay all invoices and bills from the IEM within sixty days of submission. The IEM or its Department approved representative shall be present on Site whenever it is open. Under no circumstances shall Project activities, including the receipt or management of fill, take place while the IEM or its designated representative is absent from the Site.
- e) The Department shall have access to any information obtained by the IEM at any time. The IEM shall keep all information including, but not limited to, fill records, inspection reports, field notes, monitoring data, graphics, databases, financial records, minutes of meetings and other information in a form approved by the Department.
- f) The IEM, if an individual, shall possess a New York State Professional Engineer license. If an engineering firm serves as the IEM, the firm must provide an employee of that firm who is a New York State licensed professional engineer to perform all functions and certifications noted in

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS
 ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 AND 4 NYCRR Part 201 (Solid Waste Management Facilities)

Section 1.1 of the Engineering Report. In addition, the IEM shall:

- i. monitor all aspects of the Permittees' fill operations at the Ferry Point Park ("FPP") facility;
- ii. have unrestricted access to all personnel employed by the Permittees at the FPP facility, and to all files and records maintained by the Permittees at the FPP facility pursuant to this permit;
- iii. inspect the proposed sources of fill, review the documentation about the sources of the material, including without limitation, any off-site sampling, and certify as to the acceptability of the material for use at the Site, in accordance with the criteria specified in the Engineering Report, Section 2. The IEM shall notify the Department at least 24 hours before any on-site sampling;
- iv. visually inspect each truckload of imported fill material at the Site, and undertake reasonable verification activities including directing, where appropriate, verification sampling, analysis and certification by the IEM on a Project specific tracking form that it meets criteria for acceptable fill at the Site;
- v. inspect each truckload of material upon its dumping on Site with a Photo-Ionization Detector (PID).
- vi. prohibit any truck from leaving the dumping area before the load has been inspected, and the manifest signed by the IEM. If any load is rejected, the rejected fill material shall be reloaded onto the same truck immediately and legally transported off-site. However, if the rejected fill material is a DEC regulated solid waste or hazardous waste, it must be segregated immediately and secured on-site, until it is removed by a DEC permitted hauler for appropriate disposal. Such regulated or hazardous waste must be removed from the Site within 3 days of its discovery;
- vii. monitor the off loading of all material at the unloading station. No truck shall be allowed to off load unless the IEM is present. Such truck shall only be allowed to leave the station after the load is tested and found acceptable.
- viii. certify that the sampling of material at the project Site conforms to the permit requirements, and review the results of all laboratory tests;
- ix. notify the Department daily about the receipt of unacceptable material or any violations of conditions set forth in this permit;
- x. maintain files on Site of fill sampling data, site histories, and internal manifest (tracking) forms;

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 and 6 NYCRR Part 266 (Solid Waste Management Facilities)

- xi. report and certify to the Department that the on-site gas well monitoring has been conducted as required by this permit. Notify the Department immediately if levels exceed 25% of the lower explosive limit (LEL) in any gas monitoring well;
- xii. certify that: (a) all grades of the shaping layer of a section are correct prior to the placement of cover material on that section; (b) a minimum of two feet of fill material covers the existing municipal solid waste layer; and (c) the final cover layer meets the appropriate specifications of the Engineering Report noted in Special Condition #1;
- xiii. during fill delivery and earthwork, submit bi-weekly reports to the Department summarizing all Site activities set forth by this permit. Each report shall provide details of all rejected fill material, quantify the amount of material imported onto the Site using truck volumes, and the results of all on-site gas monitoring for that period;
- xiv. review the final post-construction report and certify that the fill operation was performed in accordance with the permit documents. The certified post-construction report must be submitted by the IEM to the Department within sixty (60) calendar days after the completion of the earthwork portion of the Project;
- xv. report all operational upsets, emergencies, unusual circumstances (including, but not limited to, unauthorized entries, security breaches, equipment breakdowns, fires, thefts, acts of vandalism, and on-site accidents) to the Regional Solid Waste Engineer by telephone (at 718/482-4996) within 24 hours of the occurrence, and in writing within 3 business days advising the engineer of the nature of the event, and providing a description of how the event was handled.

Gas Venting Trench

- 26. During the duration of this permit, the Permittees shall inspect the gas venting trench monthly to verify the integrity of the venting trench and its mulch cover. The Permittees shall maintain the gas venting trench at all times, and promptly repair any soil washouts of the mulch cover, as necessary. If any portion of the venting trench or mulch cover is found in need of repair, this fact must be reported to the IEM immediately and all necessary repairs must be made within two weeks of discovery. In addition, the mulch cover shall be replaced, at a minimum, every spring to maintain the effectiveness of the gas venting trench. The Permittees shall maintain the gas venting trench for a minimum of at least five years after the completion of construction of the golf course, or longer if required by the Department.
 - a) Any request for changes to these requirements shall not be considered by the Department prior to the termination of the five-year minimum monitoring period, which follows the completion of construction of the golf course. A subsequent request for relief from these provisions must demonstrate to the Department's satisfaction that an alternative schedule is warranted.

DEC PERMIT NUMBER 2-6006-00014/00013	FACILITY Ferry Point Park Golf Course	Page 12 of 17
---	--	---------------

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 17 and 4 NYCRR Part 169 (Solid Waste Management Facilities)

- 27. Monthly monitoring of the gas venting trench shall continue for the duration of the permit. Thereafter, the Permittees shall monitor the gas venting trench monthly for one year after the completion of construction of the golf course, and then quarterly for a minimum of four additional years. Any request for changes to these requirements shall not be considered by the Department prior to the termination of the minimum five-year monitoring period following construction of the golf course. A request for relief from these provisions must demonstrate to the Department's satisfaction that an alternative schedule is warranted.
- 28. The gas venting trench shall be inspected quarterly, as well as after major rainfall events (5-year storms with at least 4 inches of rain over a 24-hour period) for a minimum of five years after the completion of construction of the golf course. Any request for changes to these requirements shall not be considered by the Department prior to the termination of the minimum five-year monitoring period following the completion of construction of the golf course. A request for relief from these provisions must demonstrate to the Department's satisfaction that an alternative schedule is warranted. If any well or point used to monitor the effectiveness of the gas venting trench is found to require repairs, this fact must be reported to the IEM immediately and all necessary repairs must be made within two weeks of discovery.
- 29. Gas venting trench inspection reports shall include the inspection date, the name of inspector, and a description of repairs, monitoring results and maintenance performed. A log of these self-inspections must be maintained including the dates, times and results of the inspections. A copy of this gas venting trench inspection log shall be submitted to the Department within 72 hours after the inspection period specified in Special Conditions No. 26 through 28.

Piezometers

- 30. The Permittees shall conduct monthly monitoring of the depth of ground water in each piezometer installed at the gas venting trench, until the completion of the construction of the golf course. All readings shall be submitted to the Department in a monthly report. The piezometer water elevation monitoring shall continue quarterly for period of five years after the completion of construction of the golf course. Any request for proposed changes to these requirements shall not be considered prior to the termination of the minimum five-year monitoring period following construction of the golf course. A request for relief from this provision must demonstrate to the Department's satisfaction that an alternative schedule is warranted. If any piezometer is found to require repairs, this fact must be reported to the IEM immediately, and all necessary repairs must be made within two weeks of discovery.
- 31. Within 60 days of their receipt of this permit, the Permittees shall submit a Response Action Plan to the Department. This Plan shall set forth the measures to be implemented by the Permittees, if the piezometer readings indicate that the groundwater table has dropped below the depth of the gas venting trench.
- 32. The Permittees shall sample the perimeter gas monitoring wells #0, #1A, #1 to #3, #5 to #12, and #14 to #18, and the on-site monitoring wells #13 and #19 on a bi-weekly basis to detect any explosive gas migration. Copies of the bi-weekly monitoring field notes shall be faxed to the Department within 24 hours after the sampling, and a copy of this report shall be submitted to the Department within 3 business days after the sampling, and all necessary repairs must be made within two weeks of discovery.

DEG PERMIT NUMBER 2-8006-00014/00013	FACILITY Ferry Point Park Golf Course	Page 13 of 17
---	--	---------------

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 and 6 NYCRR Part 260 (Solid Waste Management Facilities)

33. The Permittees shall maintain the perimeter gas monitoring wells #0, #1A, #1 to #3, #5 to #12, and #14 to #18, and the on-site monitoring wells #13 and #19, until a minimum of at least six months after the completion of construction of the golf course on the Site. Any reduction to this maintenance schedule shall not be considered by the Department, until after the minimum maintenance period has elapsed. A request for relief from this provision must demonstrate to the Department's satisfaction that an alternative schedule is warranted. If any perimeter gas monitoring well is found to require repairs, this fact must be reported to the IEM immediately and all necessary repairs must be made within two weeks of discovery. The Permittees shall maintain on-site gas monitoring well #19, and the existing gas collection pipes for the operating life of the golf course.
34. All perimeter gas monitoring wells should be tested at least on a bi-weekly basis. However, if any individual monitoring point has a bi-weekly reading that equals or exceeds 100% LEL or three consecutive bi-weekly readings are greater than 25% LEL, a modified methane gas action plan shall be implemented by the Permittees. Such plan shall require, at minimum, weekly testing of the individual monitoring point(s) with the elevated readings. The Department also may require any additional measures it deems necessary. Any individual point under the modified methane gas action plan may return to the regular bi-weekly monitoring schedule, when three (3) consecutive weekly readings are all less than the 25% LEL action level.

Deed Restriction

35. Within 30 days of the effective date of this permit, the Permittees shall prepare draft language for a Deed Restriction. The deed restriction, which shall run with the land in perpetuity, shall recite and require compliance with this permit's provisions as regards to: (a) on-site and off-site monitoring; (b) the maintenance of the gas venting trenches, piezometers, and perimeter gas monitoring wells and (c) criteria for abandonment of the site as specified in Special Condition 38 of this permit. Upon Departmental approval of the final deed restriction, it shall be filed immediately at the Bronx County Clerk's Office. A certified copy of the deed restriction shall be provided to the DEC.

Off-site Gas Monitoring Network

36. The Permittees shall conduct bi-weekly monitoring of the Off-site Gas Monitoring Network. A copy of the bi-weekly monitoring field notes shall be faxed to the Department within 24 hours, and a copy of the monitoring report shall be submitted to the Department within 3 days of the completion of each round of monitoring. Any reduction of the monitoring frequency shall not be considered by the Department, until at least six months after the completion of the golf course on the Site. A request for relief from this provision must demonstrate to the Department's satisfaction that an alternative schedule is warranted. Each bi-weekly monitoring report shall include the geoprobe monitoring point(s) installed on or near Buttrick, Schley, Balcom, Miles and Emerson Avenues, as described in the methane monitoring reports referenced in Special Condition #1 of this permit.

DEC PERMIT NUMBER
2-6006-00014/00013FACILITY
Ferry Point Park Golf Course

Page 14 of 17

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 17 AND 42 NYCRR PART 50 (Solid Waste Management Facilities)

37. The Permittees shall maintain, and upgrade if required, the Off-site Gas Monitoring Network during facility construction and after completion of the golf course. Any reduction of these requirements shall not be considered by the Department, until six months after the completion of the construction of the golf course. A reduction request must demonstrate to the Department's satisfaction that an alternative schedule is warranted.
- a) The Permittees may request Departmental approval to substitute for all, or part of, the Off-site Gas Monitoring Network by installing geoprobe soil gas monitoring points of a placement and design suitable to the Department. Such points must be at linear intervals no greater than 50 feet (on 50-foot centers) along either segments of the perimeter boundary of the gas venting trench or the drainage ditch.
 - b) If any point used for off-site gas monitoring is found to require repairs, this fact must be reported to the IEM immediately and all necessary repairs must be made within two weeks of discovery. A copy of the off-site gas monitoring well results also must be sent to the New York City Housing Authority.
 - c) All off-site gas monitoring points shall be tested on a bi-weekly basis. If any individual monitoring point has a bi-weekly reading that equals or exceeds 100% LEL, or three consecutive bi-weekly readings that are greater than 25% LEL, sampling of that point shall be done weekly. Any individual point under the later modified methane gas action plan may return to the regular bi-weekly monitoring schedule, if there are three (3) consecutive weekly readings all less than the 25% LEL action level.
 - d) None of the requirements specified in Special Conditions Nos. 26 through 34, 36 or 37 (a) through (c) may be terminated without written approval from the Department.

Project Abandonment and Environmentally Sound Closure

38. Should the Project be abandoned, the entire 222 acre Site must be closed, monitored and maintained after closure in accordance with 6 NYCRR Sect. 360-2.15 as a landfill in operation since 2000.
- a) Within 120 days after notice from the Department that the Site has been deemed abandoned, the Permittees must submit a closure plan for DEC's approval. The closure plan must include an implementation schedule, which provides that closure must be certified as complete no later than three years after the Department's determination that the Site has been abandoned. The closure plan also shall specify in detail how it will be implemented. In addition, the closure plan must include a post-closure maintenance and monitoring plan for the Site, which addresses existing environmental conditions on the Site. Upon Department approval of the plan the Permittees shall begin to implement closure of the Site immediately, and after closure is implemented fully shall submit a complete closure certification report to the Department. This report must be stamped by a professional engineer licensed in New York State.
 - b) For the purposes of this permit, abandonment shall mean any of the following :
 - i. Filling operations authorized under this permit cease for a period of 12 consecutive months, as provided in 6 NYCRR Sect. 360-1.11(f);

DEC PERMIT NUMBER 2-6006-00014/00013	PROGRAM / FACILITY NUMBER Ferry Point Park Golf Course	Page 15 of 17
---	---	---------------

NEW YORK STATE DEPARTMENT OF ENVIRONMENTAL CONSERVATION

SPECIAL CONDITIONS

ADDITIONAL SPECIAL CONDITIONS FOR ARTICLES 27 AND 4 NYCRR Part 360 (Solid Waste Management Facilities)

- ii. Failure to complete the Project in accordance with this permit, as determined by the Department, by the expiration date of this permit; or
 - iii Termination of this Project as a result of enforcement action by the Department or another government agency for non-compliance with this permit, or with applicable Federal, State or Local Law.
- c) The terms of this Special Provision shall govern, if in conflict with the terms of General Condition No. 12.

Submittals

39. Within 60 days of completion of the filling operation on the Site and construction of the earthwork portion of the Project, the Permittees shall provide:
- a) as-built drawings of the Project, signed by a professional engineer licensed in New York State, for DEC's approval. The post-construction as built drawings shall, at a minimum, include detailed cross-sections illustrating the depth of fill placed and location of all utilities and associated structures, road ways, and storm water drainage control structures for the Project. The as-built plans also shall include the location of all monitoring and control systems and devices (including gas control and monitoring, water quality and elevation monitoring, and settlement monitoring).
 - b) a written post-construction certification report for review and approval by the Department and certification by the Independent Environmental Monitor. This report shall include approved "as-built" drawings demonstrating that the earthwork and filling operation was accomplished in accordance with the Department approved plans and this permit. If as-built drawings are not approved by DEC within 120 days of the completion of the filling operation, the Site is deemed abandoned as per Special Condition # 38.
40. All reports and written submissions shall be sent in duplicate to the regional office of the DEC, with an additional copy to DEC Central Office, and another copy to the document repository as noted below. Each submission shall have a transmittal page, which references the DEC permit number and the relevant Special Condition number.

ANNEX 1

CD CONTAINING PLANS AND SPECIFICATIONS

EXHIBIT D

SCHEDULE OF OPERATING HOURS AND FEES

Hours and Days of Operation will, in all cases, be subject to **Section 9.1(a)**:

GOLF COURSE AND GOLF COURSE SNACK BAR

Seven (7) days a week from dawn until dusk, weather permitting.

DRIVING RANGE AND PRACTICE FACILITY

At a minimum, during the hours that the Golf Course is open for play, weather permitting.

GRILL ROOM/FOOD SERVICE RESTAURANT IN CLUBHOUSE

During the hours that the Golf Course is open for play.

PARK SNACK BAR/WATERFRONT PARK CONCESSION

At a minimum, May 1st to October 31st, between the hours of 11:00 a.m. and 5:00 p.m., weather permitting

Without limiting the foregoing, all facilities may be operated within the opening hours of Ferry Point Park but in no event shall the Licensed Premises or any portion thereof remain open after 1 a.m.

RESIDENT GOLF RATES (“GREENS FEES”)

Days	Category³	Rates
Monday – Thursday	18 holes	100.00
	Twilight	45.00 – 75.00
	Seniors (62 years old and over)	40.00 – 55.00
	Juniors (16 years old and under)	25.00 – 30.00
Friday, Saturday & Sunday, Holidays	18 holes	125.00
	Twilight	70.00 – 100.00

The rates set forth above (“**Resident Rates**”) are based upon May, 2010 dollars. For Operating Year 1, such rates shall be increased by the percentage increase in the resident green fees charged by other New York City owned golf courses between the rate for the start of the 2010 golf season and rate for the year in which the Concession Commencement Date occurs, rounded to the highest whole dollar.

After Operating Year 1, Licensee will be permitted, without the approval of Parks or the City, to increase the Resident Rates annually (a) with respect to the 18 Hole Resident Rate for Friday, Saturday & Sunday and Holidays, up to an amount equal to the product obtained by multiplying such Resident Rate for Operating Year 1 by a fraction, the numerator of which shall be the CPI for the calendar month prior to the month in which the adjustment is to occur, and the denominator of which shall be the CPI for the month in which the Concession Commencement Date occurs, rounded to the highest whole dollar; and (b) with respect to all other Resident Rates, up to an amount equal to the greater of (i) the product obtained by multiplying the applicable Resident Rate for Operating Year 1 by a fraction, the numerator of which is the expenses incurred by Licensee in operating the Licensed Premises (other than in operating any banquet or catering facility constructed by Licensee at the Licensed Premises) for the prior Operating Year and the denominator of which is the operating expenses for Operating Year 1 (other than those expenses incurred in operating any banquet or catering facility constructed by Licensee at the Licensed Premises), but in no event shall the percentage increase be greater than five percent (5%) of the Resident Rate for the prior Operating Year in any one year, and (ii) the product obtained by multiplying such Resident Rate for Operating Year 1 by a fraction, the numerator of which shall be the CPI for the calendar month prior to the month in which the adjustment is to occur, and the denominator of which shall be the CPI for the month in which the Concession Commencement Date occurs, in each case, rounded to the highest whole dollar; any greater increases are subject to Parks’ approval.

By way of example only, if (i) for Operating Year 1, the Friday, Saturday, Sunday and Holiday rate for 18 Holes was \$135.00 and the Monday thru Thursday rate for 18 Holes was \$110.00, (ii) the CPI for the month in which the Concession Commencement Date occurred was 100, the CPI for the month before Operating Year 2 was 107, and the CPI for the month before Operating Year 3 was 111, and (iii) the operating expenses for Operating Year 1 were \$100,000, the operating expenses for

³ Licensee may change/add categories times, subject to Parks’ approval.

Operating Year 2 were \$115,000 and the operating expenses for Operating Year 3 were \$125,000, then (a) Licensee would be permitted to raise the Friday, Saturday Sunday and holiday rates for 18 Holes for Residents up to \$145.00 ($(\$135.00 \times 1.07 = \$144.45, \text{ rounded to the highest dollar})$ in Operating Year 2 and up to \$150.00 ($(\$135.00 \times 1.11 = \$149.85, \text{ rounded to the highest dollar})$ in Operating Year 3, and (b) Licensee would be permitted to raise the Monday through Thursday rates for 18 Holes for Residents up to \$118.00 ($(\$110.00 \times 1.07 \text{ (based on CPI increase)} = \$117.70, \text{ rounded to the highest dollar})$ in Operating Year 2, and up to \$124.00 ($(\$110.00 \times 1.15 \text{ (based on operating expense increases)} = \$126.50, \text{ but capped at a 5\% increase over } \$118.00 \text{ or } \$123.90, \text{ rounded to the highest dollar})$ in Operating Year 3 (increase based on operating expense rather than CPI because \$124.00 is greater than applicable CPI increase).

Licensee shall be permitted, in Licensee’s discretion (and without the approval of Parks or the City), to charge non-resident rates for those who are not residents of New York City, that are higher than the corresponding Resident Rates as follows:

(a) with respect to the 18 Hole Rate for Friday, Saturday & Sunday and Holidays, in Operating Year 1, Licensee may charge up to \$25 higher than the corresponding Resident Rate in Operating Year 1; for each subsequent Operating Year after Operating Year 1, Licensee shall be permitted to add an additional \$1 to the amount that Licensee shall be permitted to charge non-residents in excess of the corresponding Resident Rate. Therefore, for illustrative purposes, (i) in Operating Year 2, Licensee may charge up to \$26 higher than the corresponding Resident Rate in Operating Year 2; (ii) in Operating Year 3, Licensee may charge up to \$27 higher than the corresponding Resident Rate in Operating Year 3; and (iii) in Operating Year 4, Licensee may charge up to \$28 higher than the corresponding Resident Rate in Operating Year 4, and so on throughout the Term;

(b) with respect to all other rates (other than the 18 Hole Rate for Friday, Saturday & Sunday and Holidays), Licensee may charge up to twenty five percent (25%) higher than corresponding Resident Rates, rounded to the highest whole dollar; and

(c) any greater increases are subject to Parks’ approval.

OTHER RATES & FEES

Category⁴	Approved Rate
Reservation Fee	\$4.00
Golf Cart Rental (daily)	\$25.00 per rider
Hand/Pull Cart Rental (daily)	\$10.00
Locker Rental (seasonal)	TBD
Secured Parking Fee	\$5.00

⁴ Licensee may change/add categories times, subject to Parks’ approval.

Resident ID Cards	\$6.00 for adults \$2.00 for juniors and seniors
-------------------	--

The rates set forth above are based upon May, 2010 dollars. The Licensee will be permitted, without the approval of Parks or the City, to increase the rates annually up to an amount equal to the greater of (i) the product obtained by multiplying applicable rate set forth above by a fraction, the numerator of which is the expenses incurred by Licensee in operating the Licensed Premises (other than in operating any banquet or catering facility constructed by Licensee at the Licensed Premises) for the prior Operating Year and the denominator of which is the operating expenses for Operating Year 1 (other than those expenses incurred in operating any banquet or catering facility constructed by Licensee at the Licensed Premises), but in no event shall the percentage increase be greater than five percent (5%) of the rate for the prior Operating Year in any one year, and (ii) the product obtained by multiplying the applicable rate set forth above by a fraction, the numerator of which shall be the CPI for the calendar month prior to the month in which the adjustment is to occur, and the denominator of which shall be the CPI for May 2010, in each case, rounded to the highest whole dollar; any greater increases are subject to Parks' approval.

EXHIBIT E

Citywide Beverage Vending Machines Standards

For Vending Locations Regularly Used by Adults

All of the following criteria must be met:

A) Specifications regarding the product mix:

- 1) No more than two columns (or "buttons") may be unlimited calorie beverages (the maximum of two columns applies irrespective of the total number of columns in the machine).
- 2) Unless otherwise approved by the City in writing, water is required to be stocked for a minimum of 2 columns (or "buttons"). Unless otherwise approved by the City, in its sole discretion in writing, water for the purposes of these Standards shall mean bottled water that is intended for human consumption, that contains 0 calories per 8 oz, and contains no added flavor, color, or sweeteners of any kind. Any product containing water modified with added flavors, colors or sweeteners or with calories in excess of 0 calories per 8 oz shall not be considered water for the purposes of these Standards.
- 3) The remaining products must be ≤ 25 calories per 8 oz

B) Specifications regarding product display placement:

- 1) Water must be placed in the position with the highest selling potential.
- 2) "High Calorie" beverages (defined as any beverage > 25 calories per 8 oz) must be placed in the position with the lowest selling potential.
- 3) For machines where the buttons are arrayed vertically, highest selling potential means those closest to eye level, usually the top buttons, and lowest selling potential means those furthest from eye level, usually the bottom buttons. Or as determined by industry best practices.
- 4) However, because machines have different display arrangements, the City will have sole discretion to approve all product display and placement.

C) Specifications regarding size:

- 1) All beverage selections with the exception of water and seltzer are limited to 12 oz. For the purposes of these Standards, seltzer is defined as water naturally or artificially impregnated with mineral salts or gasses, having 0 calories per 8 oz, and no artificial sweeteners.
- 2) All water and seltzer selections must be at least 12 oz.
- 3) Portion sizes smaller than 12 oz are encouraged for High Calorie beverages.

D) Calorie labeling:

- 1) Every machine must display the total calorie content for each item, as sold, clearly and conspicuously, adjacent or in close proximity so as to be clearly associated with the item, using a font and format that is at least as prominent, in size and appearance, as that used to post either the name or price of the beverage where it can be seen before the consumer presses the button to choose the beverage. Existing nutrition labeling on the beverages does not meet this requirement. The City will have sole discretion regarding the display of calorie information. (adapted from HC §81.50)

E) Promotional space:

- 1) Promotional space on the vending machines (i.e. sides, front graphic panel, etc.) including but not limited to the language and graphics, if used, is subject to the approval of the City in its sole discretion and must be used only to promote healthy beverage choices (≤ 25 calories per 8oz) and/or healthy activities.

F) Price:

- 1) Pricing models that encourage healthy choices (e.g. by establishing lower prices for healthy beverage choices (≤ 25 calories per 8 oz) relative to "High Calorie" beverages (> 25 calories per 8 oz)) are encouraged.

For Vending Locations Regularly Used by Children age 18 and under

A) Specifications regarding the product mix:

- 1) Beverage vending machines can only include:
 - Water
Unless otherwise approved by the City, in its sole discretion in writing, water for the purposes of these Standards shall mean bottled water that is intended for human consumption, that contains 0 calories per 8 oz, and contains no added flavor, color, or sweeteners of any kind. Any product containing water modified with added flavors, colors or sweeteners or with calories in excess of 0 calories per 8 oz shall not be considered water for the purposes of these Standards
 - Unsweetened milk, 1% or nonfat only
 - Beverages with ≤ 25 calories per 8 oz
 - Carbonation and caffeine are allowed
- 2) Prohibited:
 - Artificial sweeteners
 - Other "natural" non-nutritive or very low-calorie sweeteners (e.g. stevia, erythritol)
 - Artificial flavors and colors
- 3) If the location is regularly used by **programs serving children age 12 or younger** (e.g. afterschool locations, summer camp), in addition to the standards above, products:
 - Should not be caffeinated
 - Should be ≤ 10 calories per 8 oz

B) Calorie labeling:

- 1) Every machine must display the total calorie content for each item, as sold, clearly and conspicuously, adjacent or in close proximity so as to be clearly associated with the item, using a font and format that is at least as prominent, in size and appearance, as that used to post either the name or price of the beverage where it can be seen before the consumer presses the button to choose the beverage. Existing nutrition labeling on the beverages does not meet this requirement. The City will have sole discretion regarding the display of calorie information.

(adapted from HC §81.50)

C) Promotional space:

- 1) Promotional space on the vending machines (i.e. sides, front graphic panel, etc.) including but not limited to the language and graphics, if used, is subject to the approval of the City in its sole discretion and must be used only to promote healthy beverage choices (≤ 25 calories per 8 oz) and/or healthy activities.

Note that New York City beverage vending standards may be revised or updated in the future. Vendors would have time to come into compliance with any changes.

EXHIBIT F

SCHEDULE OF CAPITAL IMPROVEMENTS

Capital Improvement	Amount	Complete Date
Permanent Clubhouse, including golf cart storage facility.		5 years from the Concession Commencement Date
Temporary clubhouse and cart storage and charging facility		Prior to the Concession Commencement Date
Outfitting of the Golf Course Snack Bar		Prior to the Concession Commencement Date
Outfitting of the Park Snack Bar		The April 1 st immediately following the expiration of the six (6) month period after delivery by the City in accordance with the Development Agreement
Total	\$10,000,000	

For the sake of clarity, the costs of construction of the temporary clubhouse and temporary cart storage facility shall be a Capital Improvement Cost and shall be included in calculating the Minimum Capital Improvement Costs to be expended by Licensee.

Completion of the Supplemental Parking Lot (as defined in the Development Agreement) (which Parks estimates can hold approximately 75 spaces) shall not be a Required Capital Improvement under this License Agreement. However, if Licensee determines that Licensee would like to complete the Supplemental Parking Lot, as determined by Licensee and approved by Parks, in addition to the Primary Parking Lot (as defined in the Development Agreement) being constructed by the City, or if the completion of the Supplemental Parking Lot is required by applicable law in connection with the construction of the Clubhouse or any banquet or other catering facility constructed by Licensee, Licensee shall perform such Capital Improvement and complete the Supplemental Parking Lot in accordance with the terms of this Agreement and the Development Agreement and shall complete the Supplemental Parking Lot within a period approved by Parks and the cost of the Supplemental Parking Lot shall be a Capital Improvement Cost and shall be included in calculating the Minimum Capital Improvement Costs to be expended by Licensee. For the sake

of clarity, the foregoing in this paragraph shall not limit Parks' obligations with respect to the Supplemental Parking Lot set forth in the Development Agreement.

Re: VARIANCE APPLICATION
1,000 gallon aboveground gasoline storage tank for motor fuel dispensing
NYC Department of Parks and Recreation
Ferry Point Golf Course — 500 Hutchinson River Parkway, Bronx

Dear Mr. Natoli:

The Technology Management Unit is in receipt of a variance application submitted by the NYC Department of Parks and Recreation. Said variance application requests relief from NYC Fire Code Sections FC 2206.2.2 and 3404.1.1, so as to allow for the installation and operation of one (1) 1,000 gallon aboveground gasoline storage tank for motor fuel dispensing at the above-referenced location.

The Technology Management Unit has reviewed the documentation submitted to demonstrate the hardship in complying with Sections FC 2206.2.2 and 3404.1.1, as it would relate to installing an underground gasoline storage tank. Such hardship, as represented in the submitted application, includes the presence of combustible gases (primarily methane) in the subsurface, and the possibility of significant future settlement and ground movement. Additionally, we have reviewed the measures proposed to provide an adequate and equivalent level of safety. Such proposed measures include the installation of an aboveground tank that is listed to UL Standard 2085, providing integral secondary containment, protection from physical damage, and an insulation system intended to reduce the heat transferred to the primary tank when the tank is exposed to a high intensity liquid pool fire. Additional proposed safety features include leak monitoring, spill/overflow containment, overflow protection, and automatic fire extinguishing systems.

In consideration of the facts as represented in the submitted variance application, documentation of the hardship presented and equivalent level of safety proposed, be advised that a variance is hereby granted from NYC Fire Code Sections FC 2206.2.2 and 3404.1.1, so as to allow for the installation and operation of one (1) 1,000 gallon aboveground gasoline storage tank for motor fuel dispensing at the above-referenced location.

Said variance is issued subject to the following conditions, restrictions, and limitations:

1. This variance approval is site-specific (i.e., Ferry Point Golf Course — 500 Hutchinson River Parkway, Bronx), and not transferable to any other location.

(Page 1 of 2)

2. The operation and maintenance of the subject 1,000 gallon aboveground gasoline storage tank, and 1,000 gallon aboveground diesel storage tank, shall be the sole responsibility of the concessionaire.
3. The concessionaire shall utilize the gasoline and diesel dispensing units solely to fuel vehicles and equipment which are not owned by the City of New York. Said vehicles and equipment shall be utilized by the concessionaire for the maintenance of the golf course. Employees of the NYC Department of Parks and Recreation shall not utilize the fuel dispensers.
4. The 1,000 gallon aboveground gasoline storage tank, and 1,000 gallon aboveground diesel storage tank, shall be located in the remote northwest corner of the site, adjacent to the maintenance facility.
5. Detailed full-size plans for the entire motor fuel installation, signed and sealed by the engineer of record, shall be examined by the Technology Management Unit - Bureau of Fire Prevention. Such plans shall show all details relevant to the installation, for both the 1,000 gallon aboveground gasoline storage tank and the 1,000 gallon aboveground diesel storage tank. All associated equipment, devices and systems shall be shown on the plans. Note: Plans shall be approved by the Department of Buildings.
6. Detailed full-size plans for automatic fire extinguishing systems, signed and sealed by the engineer of record, shall be examined by the Technology Management Unit - Bureau of Fire Prevention. Acceptable automatic fire suppression systems shall provide protection for both the motor fuel dispensing areas and the motor fuel tanks. Note: Plans shall be approved by the Department of Buildings.
7. With the exception of Sections FC 2206.2.2 and 3404.1.1, the entire installation shall comply with the requirements of the NYC Fire Code applicable to aboveground liquid motor fuel tanks, applicable requirements of NFPA 30/30A, the conditions of this letter, conditions required by the letter of approval for the subsequent plan examination, and any additional requirements imposed by the Fire Department at some later time in the interest of public safety. Note: Motor fuel dispensing facilities shall be designed, installed, operated and maintained in accordance with NYC Fire Code Chapters 22 and 34, the New York City Construction Codes, including the Building Code and Mechanical Code, and, as applicable, NFPA 30/30A.
8. With regards to both the 1,000 gallon aboveground gasoline storage tank and the 1,000 gallon aboveground diesel storage tank and associated equipment:
 - a. tanks shall be protected aboveground tanks, listed in accordance with UL 2085.
 - b. tank base support shall be in compliance with NYC Fire Code Section FC 2206.2.3.3.
 - c. tank connections shall be in accordance with FC 2206.2.3.4.
 - d. liquid level indicating devices shall be in accordance with FC 2206.2.3.5.
 - e. tanks shall be located in accordance with NYC Fire Code Table 2206.2.3.
 - f. security shall be in accordance with FC 2206.3.
 - g. physical protection shall be in accordance with FC 2206.4.
 - h. piping, valves, fittings, and ancillary equipment shall be in accordance with FC 2206.6.2.
 - i. electrical equipment, dispensers, hoses, nozzles, and pumps shall be listed and approved.

9. Fire extinguishing system for motor fuel dispensing areas shall be in accordance with FC 2206.8.
10. Fire extinguishing system shall be monitored by an approved central station company, in accordance with FC 2206.8.6.
11. Secondary containment diking shall be provided for both tanks.
12. Adequate fire apparatus access roads shall be provided, in accordance with FC 503.
13. Inspection and testing shall be in accordance with FC 2206.9.
14. All required inspections shall be conducted by a representative of the Bulk Fuel Safety Unit (BFSU), and all required testing shall be witnessed by a representative of the BFSU.
15. All FDNY Certificate of Fitness requirements shall be adhered to.
16. All required permits shall be obtained, including but not limited to the site permit issued by the Bureau of Fire Prevention - District Office.

Please be advised that this letter of conditional variance approval may not include all conditions, restrictions, and/ or limitations necessary for final Fire Department approval. In the interest of public safety, it may become necessary to impose additional conditions, restrictions, and/ or limitations at some later date. Further, in the interest of public safety, this conditional variance approval may be revoked upon failure to comply with any of the expressly stipulated conditions, restrictions, and/ or limitations outlined in the foregoing.

Very truly yours,

Thomas Jensen
Chief of Fire Prevention

EXHIBIT H

Use of Intellectual Property

1. License of Licensed Trump IP to Parks.

- (a) Grant. During the Term, Licensee grants to Parks and the City (a) a non-exclusive, non-transferable right, license and privilege (without the right to sublicense) to use the Trump Mark as part of (and only as part of) the Composite Mark, and as part of (and only as part of) the particular Composite Mark logo shown or described on Exhibit I-1 attached hereto and made a part hereof (the “**Composite Logo**”), the Snack Bar Mark, and the particular Snack Bar Mark logo shown or described on Exhibit I-2 attached hereto and made a part hereof (the “**Snack Bar Logo**”) (together, the Trump Marks, the Trump Mark as incorporated in the Composite Mark, and the Trump Mark as incorporated in the Composite Logo, the Snack Bar Mark, and the Snack Bar Logo shall be referred to as the “**Licensed Trump IP**”) solely in connection with identification or promotion of the Licensed Premises and for no other purpose. Promotion of the Licensed Premises using the Licensed Trump IP shall not include promotional merchandising. Nothing shall prohibit Parks or the City from using the name of the facility or any Parks property during or after the Term for promotional merchandising or any other purpose where such use does not include Licensed Trump IP.
- (b) Licensed Trump IP Approval Rights. Prior to Parks’ or the City’s use of any of the Licensed Trump IP in each instance, Parks or the City must obtain Licensee’s prior written approval, in Licensee’s discretion, to the form, substance, means and manner of each proposed use of the Licensed Trump IP. A sample of each proposed use that requires approval of Licensee in accordance with the terms of this Exhibit H shall be sent for Licensee’s approval in accordance with Section 36 of this License Agreement, which for the sake of clarity shall include a separate copy of such notice sent to each of Allen Weisselberg, Ron Lieberman and Jason Blacksberg, Esq., at Trump Ferry Point, LLC, c/o the Trump Organization LLC, 725 Fifth Avenue, New York, NY 10022. Licensee shall respond to any request for approval under this Section 1 of Exhibit H within five (5) business days of its receipt of such request, and the failure of Licensee to respond within such (5) business day period shall be deemed approval.
- (c) Protective Measures.

Parks and the City agree that Licensee shall have the right to take all other steps necessary to ensure that, in such cases as Licensee may reasonably require, the use or display of any of the Licensed Trump IP is in a manner sufficient to indicate that Licensee or Trump owns all right, title and interest in and to the Licensed Trump IP. Without limiting the generality of the foregoing, Parks and the City agrees to use its best efforts to include in any use of the Licensed Trump IP such appropriate language and/or legal notices and which is set forth as follows:

The City and Parks shall include the trademark designation legally required or useful for enforcement (e.g. “TM”, “SM” or ®, as applicable) in connection with the City’s or Parks’ use of the Licensed Trump IP. Unless otherwise specified by Licensee, the City and Parks shall include the following statement on all materials

bearing the Licensed Trump IP, and in any such other cases of the City's or Parks' use of the Licensed Trump IP:

“Trump” is a registered trademark or trademark of Donald J. Trump; or

“Donald” is a registered trademark or trademark of Donald J. Trump.

In addition, if Licensee provides Parks or the City with any materials subject to copyright protection and in connection with the Licensed Trump IP, for use in connection with this Agreement, all use by Parks or the City of such materials shall bear the following copyright notice: © [INSERT YEAR OF FIRST PUBLICATION, e.g., 2011] Donald J. Trump. All rights reserved.

2. License of Licensed City IP to Licensee.

- (a) Grant. During the Term, City grants to Licensee a non-exclusive, non-transferable right, license and privilege (without the right to sublicense) to use the City Mark as part of (and only as part of) the Composite Mark, and as part of (and only as part of) the particular Composite Logo shown or described on **Exhibit I-1** (together, the City Marks, the City Mark as incorporated in the Composite Mark, and the City Mark as incorporated in the Composite Logo, shall be referred to as the “**Licensed City IP**”) solely in connection with identification or promotion of the Licensed Premises and for no other purpose. Promotion of the Licensed Premises using the Licensed City IP shall not include promotional merchandising. Notwithstanding the foregoing, nothing herein shall prohibit Licensee from promoting the Licensed Premises using the Composite Mark or the Composite Logo, including promotional merchandising; provided, however, that all promotional merchandise using the Composite Mark or Composite Logo shall be reviewed and approved by Parks in writing prior to distribution or sale. A sample of each proposed use that requires approval of Parks in accordance with the terms of the immediately foregoing sentence shall be sent for Parks' approval to Parks' Revenue Division, 830 Fifth Avenue, Central Park, New York, NY 10065 in accordance with **Section 36** of this License Agreement. Parks shall respond to any request for approval under this **Section 2(a)** of **Exhibit H** within five (5) business days of its receipt of such request, and the failure of Parks to respond within such (5) business day period shall be deemed approval.
- (b) Licensed City IP Approval Rights. Prior to Licensee's use of any of the Licensed City IP in each instance, Licensee must obtain Parks' prior written approval, in Parks' discretion, to the form, substance, means and manner of each proposed use of the Licensed City IP. A sample of each proposed use that requires approval of Parks in accordance with the terms of this **Exhibit H** shall be sent for Parks' approval to Parks' Revenue Division, 830 Fifth Avenue, Central Park, New York, NY 10065. Parks shall respond to any request for approval under this **Section 2** of **Exhibit H** within five (5) business days of its receipt of such request, and the failure of Parks to respond within such (5) business day period shall be deemed approval.
- (c) Protective Measures.

Licensee agrees that Parks and the City shall have the right to take all other steps necessary to ensure that, in such cases as Parks and the City may reasonably require, the use or display of any of the Licensed City IP is in a manner sufficient to indicate that Parks and the City own all right, title and interest in and to the Licensed City IP. Without limiting the generality of the foregoing, Licensee agrees to use its best efforts to include in any use of the Licensed City IP such appropriate language and/or legal notices and which is set forth as follows:

The Licensee shall include the trademark designation legally required or useful for enforcement (e.g. “TM”, “SM” or ®, as applicable) in connection with Licensee’s use of the Licensed City IP. Unless otherwise specified by Parks or the City, the Licensee shall include the following statement on all materials bearing the Licensed City IP, and in any such other cases of the Licensee’s use of the Licensed City IP:

The leaf logo is a registered trademark or trademark of the City of New York; or

“Ferry Point Park” is a registered trademark or trademark of the City of New York.

In addition, if Parks or the City provides Licensee with any materials subject to copyright protection in connection with the Licensed City IP, for use in connection with this Agreement, all use by Licensee of such materials shall bear the following copyright notice: © [INSERT YEAR OF FIRST PUBLICATION, e.g., 2011] City of New York. All rights reserved.

3. Rights in the Trump Marks.

- (a) Exclusive Ownership. Parks and the City recognize Licensee’s and/or Trump’s sole and exclusive ownership of all rights in the Licensed Trump IP and agree that neither Parks nor the City have any rights to use (and shall not permit Commissioner or its or their respective Affiliates, directors, officers, employees, agents and consultants to use) the Licensed Trump IP, except for the use expressly provided in this License Agreement.
- (b) No Registration; No Claim to Ownership/Goodwill. Neither Parks nor the City shall acquire or seek to acquire a trademark or domain name or Internet name in any jurisdiction for any term that incorporates the Licensed Trump IP. Parks and the City acknowledge that the Licensed Trump IP represents significant goodwill of Licensee and of Trump, and that all use of the Licensed Trump IP hereunder shall inure solely to the benefit of Licensee and/or Trump. Neither Parks nor the City shall challenge Licensee’s or Trump’s rights in or registration(s) for the Licensed Trump IP, or themselves assert independent rights therein. Parks and the City further acknowledge that any use of any of the Licensed Trump IP that violates the provisions of this License Agreement would cause Licensee and Trump irreparable harm.
- (c) Quality. Parks’ and the City’s use of, and services and activities conducted under, the Licensed Trump IP, shall at all times be in keeping with the stature and high standards of

quality of Licensee and of Trump; shall not dilute or tarnish the Licensed Trump IP; and shall not violate any applicable Legal Requirements.

- (d) City and Parks Cooperation. Parks and the City agree to execute any and all documents necessary to maintain all of Licensee's and/or Trump's rights in the Licensed Trump IP and complete any other actions necessary to perfect Licensee's or Trump's rights with respect thereto.
- (e) Disassociation of the Mark. Upon the expiration or sooner termination of this License Agreement (i) neither Parks nor the City nor any other person or entity shall have any right to use the Licensed Trump IP and (ii) Licensee shall have the right to take all steps reasonably determined by Licensee to be necessary or helpful to disassociate the Licensed Premises from the Licensed Trump IP, including the removal of any exterior or interior signage, equipment and supplies in each case bearing any of the Licensed Trump IP, provided however that upon expiration of the Term or termination by the City due to an Event of Default, Licensee shall be responsible to repair or restore the Licensed Premises or damage to the Licensed Premises resulting from such removal to the satisfaction of the Commissioner, at the sole cost and expense of the Licensee. Notwithstanding the foregoing, in the event that Licensee terminates this License Agreement in accordance with its terms prior to the expiration of the Term, the City shall be responsible for the reasonable cost and expense involved in the disassociation of the Licensed Premises from the Licensed Trump IP, including the removal of any exterior or interior signage, equipment and supplies in each case bearing any of the Licensed Trump IP.
- (f) Rights and Remedies. In addition to any other right or remedy of Licensee hereunder or at law or in equity, Licensee shall have the absolute right, but not the obligation, to terminate this License Agreement if any of the Licensed Trump IP is used by the City, Parks, the Commissioner, or any of its or their Affiliates, directors, officers, agents and consultants in any manner that is not expressly permitted under this License Agreement and the City and/or Parks do not cure such violation within five (5) business days of receipt of notice by Licensee of such violation; provided, that such five (5) business day period shall be extended to twenty (20) business days of receipt of notice for failure to comply with the provisions of Section 1(c) of Exhibit H with respect to uses of the Licensed Trump IP on the City Website, and provided further that, notwithstanding the foregoing if such violation cannot reasonably be cured within the time period set forth in this Section 3(f) of Exhibit H, the City and/or Parks shall have such additional time as may be reasonably necessary to cure such violation, provided that the City and/or Parks shall have commenced curing such violation within such time period set forth in this Section 3(f) of Exhibit H and shall thereafter diligently prosecute such cure to completion. In the event of a breach of this Exhibit H, then in addition to all of the other remedies available to Licensee hereunder for a breach of this License Agreement, Licensee and Trump shall be entitled to immediate injunctive relief and all other applicable remedies, including damages in connection therewith, against the City and/or Parks.
- (g) Copyrights in Composite Logo and Snack Bar Logo. To the extent that the Composite Logo and Snack Bar Logo contain pre-existing copyrightable material owned by Licensee or the City, ownership of such pre-existing copyrights shall be retained by

Licensee or the City, as applicable. To the extent that the Composite Logo and the Snack Bar Logo contain newly developed copyrightable material, such copyrights shall be deemed jointly owned.

- (h) If Licensee determines, in its sole discretion, that the use of Licensed Trump IP by the City or Parks infringes upon the rights of any third party or weakens or impairs Licensee's or Trump's rights in the Licensed Trump IP, due to any actual or threatened Trademark Claim, then the City and Parks agree to immediately terminate the offending use and/or cure such infringement (if cure is possible) and/or to take any other actions in accordance with Licensee's written instructions, which may include removal of the Licensed Trump IP from the Licensed Premises.

4. Rights in the City's Mark.

- (a) Exclusive Ownership. Licensee recognizes the City's sole and exclusive ownership of all rights in the Licensed City IP and agrees that the Licensee has no right to use (and shall not permit Trump or his respective Affiliates, directors, officers, employees, agents and consultants to use) the Licensed City IP, except for the use expressly provided in this License Agreement.
- (b) No Registration; No Claim to Ownership/Goodwill. Licensee shall not acquire or seek to acquire a trademark or domain name or Internet name in any jurisdiction for any term that incorporates the Licensed City IP, except for the Licensee Website and Hoplinks identified in **Exhibit P** and **Exhibit Q**, or other domain name or URL registered by Licensee in accordance with **Section 9.29** of the License Agreement. Licensee acknowledges that the Licensed City IP represents significant goodwill of the City and Parks, and that all use of the Licensed City IP hereunder shall inure solely to the benefit of the City and/or Parks. Licensee shall not challenge the City's rights in or registration(s) for the Licensed City IP, or assert independent rights therein. Licensee further acknowledges that any use of any of the Licensed City IP that violates the provisions of this License Agreement would cause the City and Parks irreparable harm.
- (c) Quality. Licensee's use of, and services and activities conducted under, the Licensed City IP, shall at all times be in keeping with the stature and high standards of quality of Parks and City; shall not dilute or tarnish the Licensed City IP; and shall not violate any applicable Legal Requirements.
- (d) Licensee's Cooperation. Licensee agrees to execute any and all documents necessary to maintain all of the City's rights in the Licensed City IP, and complete any other actions necessary to perfect the City's rights with respect thereto.
- (e) Disassociation of the Mark. Upon the expiration or sooner termination of this License Agreement (i) neither Licensee nor Trump nor any other person or entity shall have any right to use the Licensed City IP and (ii) the City shall, at its own expense, have the right to take all steps reasonably determined by the City to be necessary or helpful to disassociate the Licensed Premises from the Licensed City IP, including the removal of any exterior or interior signage, equipment and supplies in each case bearing any of the Licensed City IP.

- (f) Rights and Remedies. In addition to any other right or remedy of the City hereunder or at law or in equity, the City shall have the absolute right, but not the obligation, to terminate this License Agreement if any of the Licensed City IP are used by the Licensee, Trump, or any of its or their Affiliates, directors, officers, agents and consultants in any manner that is not expressly permitted under this License Agreement and the Licensee and/or Trump do not cure such violation within five (5) business days of receipt of notice by the City of such violation provided, that such five (5) business day period shall be extended to twenty (20) business days of receipt of notice for failure to comply with the provisions of Section 2(c) of Exhibit H with respect to uses of the Licensed City IP on the Licensee Website, and provided further that, notwithstanding the foregoing if such violation cannot reasonably be cured within the time period set forth in this Section 4(f) of Exhibit H, the Licensee shall have such additional time as may be reasonably necessary to cure such violation, provided that Licensee shall have commenced curing such violation within such time period set forth in this Section 4(f) of Exhibit H and shall thereafter diligently prosecute such cure to completion. In the event of a breach of this Section 4 of Exhibit H then in addition to all of the other remedies available to the City hereunder for a breach of this License Agreement, the City shall be entitled to immediate injunctive relief and all other applicable remedies, including damages in connection therewith, against the Licensee.

5. Infringement.

- (a) Indemnification of Trademark Claims. If any trademark or copyright action, proceeding or claim is instituted in the United States against the Indemnitees based on the City or Parks' use of the Licensed Trump IP during the Term, or against the Licensee Indemnitees based on Licensee's use of the Licensed City IP during the Term, in each case pursuant to the terms of this License Agreement (any of the foregoing, a "Trademark Claim"), the Party that holds or has rights to the applicable trademark (the "TM Indemnitor") hereby agrees, subject to the other provisions of this Section 5 of Exhibit H to indemnify, defend, and hold free and harmless the other Party (the "TM Indemnitee") from and against the Trademark Claim and reasonable out-of-pocket expenses, including interest, penalties, reasonable attorneys and third party fees which may be suffered, incurred or paid by the TM Indemnitee. The right to indemnification provided in this Section 5 of Exhibit H shall be the sole and entire remedy of the Parties hereto, and the TM Indemnitor shall not be responsible for any damages of any kind, including special or consequential damages or projected lost sales or profit or other expenditures of the TM Indemnitee. The City and Parks shall promptly notify Licensee of any Trademark Claim based on their use of the Licensed Trump IP and Licensee shall promptly notify the City and Parks of any Trademark Claim based on its use of the Licensed City IP.
- (b) Cooperation in Defense of Trademark Claims. The Parties hereto agree to each fully cooperate with the other Party in the defense of any Trademark Claim or threat of any Trademark Claim and to take no actions of any kind regarding such Trademark Claim, or threat of Trademark Claim, without the prior written consent of the other Party. The Parties hereto shall each take all steps reasonably recommended by the TM Indemnitor to mitigate its damages incurred, or potential damages which it might reasonably be expected to incur (in the TM Indemnitor's reasonable discretion) including permitting the TM Indemnitor to remove the Licensed Trump IP and/or Licensed City IP, as

applicable, from the Licensed Premises and to discontinue any use of the Licensed Trump IP and/or Licensed City IP, as applicable, in which event the TM Indemnitor shall, to the extent possible, propose a substitute composite mark which is reasonably acceptable to the TM Indemnitee. To the extent either Party accepts such proposed substitute composite mark, all references in this License Agreement to “Composite Mark” shall be deemed to refer to such substitute composite mark.

- (c) Enforcement of Rights. If during the Term of this License Agreement Licensee, Trump or his designee, the City and/or Parks becomes aware of a third party’s usage of a trademark or logo that is substantially similar to and infringes upon the Licensed Trump IP and/or the Licensed City IP, then such party(ies) shall give notice to the other party(ies) within a reasonable time after the discovery of such infringement. In the event of a third party’s infringement of the Composite Marks and/or Composite Logo, the parties shall work together in good faith and, if necessary, upon the recommendation of their counsel to determine the most commercially reasonable course of action for the parties given the circumstances of the infringement. If the parties are unable to reach a mutually agreeable course of action, then any party may institute and prosecute a lawsuit for such infringement after thirty (30) days written notice to the other party(ies), solely at the expense of the party bringing suit and all sums recovered shall be retained by the party bringing suit unless otherwise agreed. Notwithstanding the foregoing, nothing herein contained shall prevent Licensee and/or Trump from prosecuting lawsuits, in its or his sole discretion, against third persons for infringement of the Licensed Trump IP or the City and/or Parks from prosecuting lawsuits, in its sole discretion, against third persons for infringement of the Licensed City IP.
- (d) The provisions of **Section 5** of this **Exhibit H** shall survive the expiration or sooner termination of this License Agreement.

6. Indemnification.

- (a) The City and Parks hereby, jointly and severally, agree to indemnify, defend, and hold free and harmless the Licensee Indemnitees from and against any and all Claims, excluding Trademark Claims already governed by **Section 5(a)** of **Exhibit H** which may be suffered, incurred or paid by the Licensee Indemnitees or any of them arising, in whole or in part, directly or indirectly, from or out of or relating to (i) the Indemnitees’ (or any one of their) acts or omissions, in connection with the use of any of the Licensed Trump IP (except for such use authorized by this License Agreement), (ii) any trademark, copyright, domain name, right of publicity, right of privacy action, proceeding or claim, or threat of such action, proceeding or claim, arising from the Indemnitees’ (or any one of their) use of the Licensed Trump IP in violation of this License Agreement or any trademarks not approved by Licensee, (iii) any breach of or default by the City or Parks of any of the terms, covenants or provisions of this License Agreement relating to the Licensed Trump IP, or (iv) any breach of the warranties and representations made by the City in **Section 1.7** of the License Agreement or this **Exhibit H** to the License Agreement.
- (b) The Licensee hereby agrees to indemnify, defend, and hold free and harmless the Indemnitees from and against any and all Claims, excluding Trademark Claims already

governed by **Section 5(a)** of **Exhibit H**, which may be suffered, incurred or paid by the Indemnitees or any of them arising, in whole or in part, directly or indirectly, from or out of or relating to (i) the Licensee Indemnitees' (or any one of their) acts or omissions, in connection with the use of any of the Licensed City IP (except for such use authorized by this License Agreement), (ii) any trademark, copyright, domain name, right of publicity, right of privacy action, proceeding or claim, or threat of such action, proceeding or claim, arising from Trump or Licensee Indemnitees (or any one of their) use of the Licensed City IP in violation of this License Agreement or its use of any Composite Logos or any trademarks not approved by Parks, (iii) any breach of or default by Trump or the Licensee of any of the terms, covenants or provisions of this License Agreement relating to the Licensed City IP, or (iv) any breach of the warranties and representations made by Licensee in **Section 1.7** of the License Agreement or this **Exhibit H** to the License Agreement.

The provisions of **Section 6** of this **Exhibit H** shall survive the expiration or sooner termination of this License Agreement.

EXHIBIT K

Preliminary Capital Budget

As of the date hereof, Licensee does not intend to spend in excess of ten million dollars (\$10,000,000) in the aggregate on the Required Capital Improvements. As it pertains to the Required Capital Improvements, this preliminary capital budget is presented in the context of determining (i) the allowable Termination Payment in accordance with the terms of the License Agreement and (ii) the portion of the value of time of Licensee's in-house construction, operations and management staff expended in connection with the Capital Improvements that may be included in Capital Improvement Costs.

REQUIRED CAPITAL IMPROVEMENTS:

Description	Original Capital Improvement Range		
Soft Costs ⁵	\$1,750,000	to	\$2,125,000
Hard Costs	\$6,500,000	to	\$8,750,000
Contingency	\$650,000	to	\$875,000
Temp Facilities	\$100,000	to	\$250,000
	\$9,000,000	to	\$12,000,000

GROW-IN:

Description	Original Grow-In Range		
General & Administration	\$125,000	to	\$450,000
Labor ⁶	\$350,000	to	\$1,350,000
Equipment	\$100,000	to	\$400,000
Materials & Supplies	\$150,000	to	\$600,000
Temp Facilities	\$25,000	to	\$100,000
	\$750,000	to	\$2,900,000

⁵ The value of the time of Licensee's in-house construction, operations and management staff expended in connection with the Capital Improvements shall not exceed twenty percent (20%) of Soft Costs.

⁶ The value of the time of Licensee's in-house construction, operations and management staff expended in connection with the Grow-In shall not exceed twenty percent (20%) of Labor costs.

EXHIBIT L

Copy of Nicklaus Subcontract

NICKLAUS DESIGNSM
Golf Design Subcontract Agreement

This Agreement is entered into between NICKLAUS DESIGN, LLC, a Florida limited liability company ("Company"), whose address is 11780 U.S. Highway No. 1, Suite 500, North Palm Beach, Florida 33408, SANFORD GOLF DESIGN ("Consultant"), whose address is 4238 West Main Street, Jupiter, Florida 33458, and THE CITY OF NEW YORK, acting by and through its Department of Parks and Recreation, whose address is 117-02 Roosevelt Ave., Flushing, NY 11368, who hereby agree as set forth below.

1. Introduction. Consultant has been retained by the City of New York, New York (the "Owner"), through its Parks & Recreation Department, to provide those design and construction management services required to develop a championship quality golf course (the "Golf Course") and related facilities on a site in the Borough of Bronx known as "Ferry Point", as more particularly described in Exhibit "A" annexed hereto (the "Site"). Prior to the date of this Agreement, Company had been retained to design an 18-hole Jack Nicklaus Signature Golf Course on the Site by a prior contractor with Owner whose interest in the Site was terminated by Owner, and Company has developed and has retained ownership of and rights in certain intellectual property related to the design of the proposed Golf Course (the "Existing Intellectual Property"). In furtherance of that certain Contract for Services of Consultant dated _____, 2008, between Owner and Consultant (the "Master Contract"), Consultant has agreed to retain Company to act as lead designer of the Golf Course, and in such capacity, Company has agreed to provide Consultant and Owner with those specific services of Company's staff and its principal, Jack Nicklaus, as set forth in this Agreement. Although the parties have agreed that Consultant shall initially be responsible, either directly or through other sub-consultants retained by Consultant pursuant to the Master Contract, for providing on behalf of Owner those project management and other professional services which the Company normally requires developers of Jack Nicklaus Signature golf courses to provide to Company's staff, the parties understand that this Agreement is for the benefit of Owner and that Owner shall succeed to all of the rights and obligations of Consultant hereunder upon completion of the Golf Course as provided in Section 19.

2. Design Services. Consultant hereby engages Company to design a Jack Nicklaus Signature Golf Course for Owner on the Site, including preparation of all plans, specifications, and drawings (the "Plan Documents") that are necessary to illustrate the course layout, design features, and construction methods required by Company to complete the Golf Course according to Company's design quality standards for use of the Endorsement (as defined in Section 5, below). The Plan Documents will consist of a general strategy plan, a clearing plan (if necessary), contour plans, a conceptual golf course drainage plan (the "Conceptual Course Drainage Plan"), a preliminary grassing and planting plan, and a bunker study plan. The Conceptual Course Drainage Plan will be limited to showing locations and proposed sizing of perforated drainage pipes and catch basins. It is the intent of Consultant and Company that ~~Company will provide its Conceptual Course Drainage Plan to the engineer employed by Consultant under the Master Contract and consult with such engineer regarding anticipated Golf Course drainage characteristics and requirements so that the engineer can prepare a Golf Course drainage plan in final form to be used by the golf course contractor and integrate the Golf Course~~

drainage as indicated in such plan into the storm drainage system prepared by such engineer for Owner's entire Site. The Plan Documents will also include specifications supplemental to the above plans, where applicable, but will not include shop drawings or engineering plans or drawings required to implement the Plan Documents. The parties acknowledge and agree that Company may utilize and incorporate Existing Intellectual Property into the Plan Documents where Nicklaus determines that such use is appropriate to his design vision for the Site. Company will own and retain the copyright to and all other intellectual property rights in the Plan Documents and all other plans or other written or electronically recorded materials prepared by Company for the Golf Course and delivered to Consultant and/or Owner. However, Company agrees to permit the duplication and use of such written materials and excerpts therefrom by Consultant and Owner and persons authorized by Consultant and Owner as reasonably necessary to complete the design and construction of the Golf Course and by Owner to permit the ongoing use and maintenance of the Golf Course as built. Consultant and Owner agree not to use or permit the use of Company's Plan Documents or related materials or design concepts for the construction of any other golf course facility, or make or permit any other use of any of such materials without Company's prior express written consent, except for those promotional uses approved by Company under Section 5. Notwithstanding the above, Owner (1) may allow access to all documents as required by law, and (2) may use all documents to the extent that it is acting in a governmental (as opposed to commercial) capacity. For the purposes of the preceding sentence, the design or construction of another golf course shall be considered to be acting in a commercial capacity.

Company will have no responsibility to prepare plans, specifications, or drawings for the Golf Course clubhouse, half-way house, shelter houses, sanitary facilities, drinking fountains, maintenance facilities, irrigation system, storm drainage system, dams, bridges, walls, cart paths, utility lines, or any other similar improvements, facilities, or structures incidental to the Golf Course; provided that Company will render advice to Consultant and Owner, when requested, as to the conceptual location of such facilities or structures in relation to the Golf Course and will include proposed locations for such facilities or structures in its Plan Documents. Company will also have no responsibility whatsoever with respect to the location, design, engineering, or construction of improvements to real estate adjacent to the boundaries of the Golf Course, including but not limited to roadways, utility lines, drainage, parking lots, recreation facilities, or commercial facilities developed by any party at or adjacent to the Site in conjunction with the Golf Course. Company will not have any liability to Consultant or Owner with respect to the design, engineering, location, or construction of such improvements, facilities, or structures or any architectural, engineering, or construction work required to integrate such facilities and structures into Company's design for the Golf Course.

Consultant will have the right to select, subject to Owner's right to approve subcontractors to Consultant and Company's reasonable right of approval, an irrigation consultant to design the Golf Course irrigation system and to integrate such system into Company's design. Consultant will pay all fees and expenses charged by the irrigation consultant for the irrigation design services. ~~Consultant will be responsible for retaining the services of such irrigation consultant, or other persons approved by Company, for staking and inspecting the installation of the irrigation system in the Golf Course during the construction process, and Consultant will pay all fees and expenses associated with such services.~~

Before commencing any of the Plan Documents, Company will prepare and deliver to Consultant a proposed routing plan for the Golf Course, which will set forth Company's preliminary concepts for location and layout of the Golf Course pending receipt of all necessary Site Documents, as defined in Subsection 7C. After receipt of all such Site Documents, Company will cooperate with Consultant, Owner and the other professional consultants retained by Consultant under the Master Contract in formulating the final routing plan and will make adjustments to its preliminary routing as required by governmental authorities and in consideration of Owner's wishes and development requirements, but in a manner consistent with Company's design concepts.

After Consultant's and Owner's approval of the final routing plan, Company will not commence preparation of the Plan Documents until requested to do so by Consultant in writing. Company will use its best efforts to conform to Consultant's schedule for the delivery of the Plan Documents. Consultant acknowledges that it normally takes Company approximately sixty (60) days to prepare the Plan Documents after receipt of Consultant's request and the Site Documents.

Company's principal, Jack Nicklaus ("Nicklaus"), will be personally involved in the design of the Golf Course, and he will give his personal attention to the strategy and the design details. He will have the right, in his discretion, to personally approve or disapprove all matters affecting the integrity of the design for the Golf Course.

Company's standard golf course specifications do not include specifications for the sand and organic materials used in the tees and greens. Consultant agrees to use the standard recommendations of the United States Golf Association ("USGA") unless unforeseen circumstances prevent Consultant from using such standard USGA recommendations. In such event, Consultant will notify Company of any modifications deemed necessary by Consultant or Owner and the reasons such modifications are required. Consultant acknowledges that Company will not be responsible for any specifications for sand or organic materials used in the tees or greens and that Company will not have any liability to Consultant, Owner, the golf course contractor, or any subcontractor, or any supplier of materials with respect to sand or organic materials or the performance thereof in the tees or greens.

3. Consulting Services in Connection with Construction. After approval by Consultant and Owner of the final Plan Documents, Company will continue to provide design consulting services to Consultant in regard to the development and implementation of Company's design for the Golf Course as more fully described in this Section at no additional cost or expense to Consultant or Owner other than those payments required under Sections 8 and 9 of this Agreement:

A. Consultation Concerning Contracts.

Company will consult with Consultant and Owner in regard to the letting of construction contracts with the golf course contractor(s) for construction of the Golf Course (the "Construction Work"), and Company shall render the following consulting services:

(1) Company shall assist Consultant in soliciting price bids for Owner from responsible contractors;

(2) Company shall assist Consultant in the review of bids and qualifications of prospective contractors and advise Consultant of price comparison information based upon Company's prior experience with similar projects for private entities; and

(3) Company shall consult with Consultant regarding schedules for the Construction Work and assist Consultant in recommending a desired schedule for the contract work for Owner's approval and execution.

Consultant acknowledges that the actual bid prices or negotiated contract prices for the Construction Work will be subject to market forces at the time contracts are solicited, and Company does not represent or warrant that actual prices for work and materials will be within the limits of any cost estimates or budgets developed for Owner prior to the bidding or negotiation of contracts.

In connection with the letting of contracts for the Construction Work, Company will provide to Consultant Company's standard forms of (i) General Conditions to the Construction Contract (the "General Conditions") and (ii) Technical Specifications for Golf Course Construction (the "Specifications"). Consultant acknowledges that the Specifications include methods required to assure the integrity of Company's design and must be incorporated in the construction contracts to be entered into between Owner and the general contractor selected by Owner for the Construction Work, with only those modifications reasonably approved by Company in writing. Consultant further acknowledges that the General Conditions have been developed by Company to reflect its historical role as a consultant to golf course owners and their representatives relative to the Construction Work. The parties acknowledge that Owner is entitled to utilize such parts, if any, of Company's form of General Conditions with such changes as Owner's legal counsel may recommend; provided, however, that Company will not, under any circumstances, be liable to Consultant, Owner or any third parties for Company's failure as a subcontractor to discharge any responsibilities assigned to the "designer" under the final form of golf course construction agreement adopted by Owner or adhere to any procedures required by such construction contract that are not set forth in the General Conditions as furnished to Consultant by Company or otherwise required by this Agreement. Owner shall be responsible for obtaining appropriate legal representation in connection with the preparation and review of all construction contracts and documents that are necessary or prudent under applicable law, and the parties acknowledge that Company's provision of consulting services or forms of documents is not intended as legal advice by Company and shall not be relied upon as such by Owner.

B. Consultation Concerning Implementation of Plan Documents

~~Throughout the progress of the Construction Work, Company will assign one of its~~
personnel (the "Design Associate") to consult with Consultant and Owner on a regular basis. The Design Associate will have the right to review all issues relating to the performance of the Construction Work in order to assist Consultant and Owner in evaluating whether or not the Plan

Documents are implemented during the Construction Work. Company will direct the Design Associate to periodically visit the Golf Course site as deemed necessary by Company and Consultant in order to ascertain the contractor's actual adherence to the Plan Documents and Nicklaus' design concepts and to review his conclusions with Consultant, and if requested by Consultant, with Owner.

Consultant and Company acknowledge that Company reserves the right to review the Construction Work at such times and under such circumstances as it may deem appropriate in order to determine any contractor's substantial compliance with the design concepts and specifications as expressed in the Plan Documents. Company may, where appropriate, recommend that Owner disapprove or reject any work as failing to conform to the Plan Documents and relevant construction contracts, or Company may, with Consultant's and Owner's approval, make such adjustments to the design of the Golf Course as Company may deem appropriate, in its discretion, to conform the Plan Documents to any Construction Work as-built. Notwithstanding the foregoing, Company will not be responsible for the performance of, or for any improper work by, the contractor or any subcontractor or specialty contractor performing any of the Construction Work, and the review of any Construction Work by Company will not release any contractor from its obligations to Owner to perform such work according to contract or relieve Consultant or any other sub-consultant from his duty to monitor the performance of such work. Company will not be required to supervise the performance of any contractor or subcontractor on behalf of Consultant, or to make exhaustive or continuous on-site inspections to check the quality or quantity of the Construction Work. Company will not be responsible for the means, methods, techniques, sequences, or procedures of construction, or the safety programs and precautions incident thereto, of any contractor retained by Owner to construct the Golf Course or of any subcontractor and Company will not be responsible for any contractor's or subcontractor's failure to perform the Construction Work in accordance with the Plan Documents.

4. Agronomy and Landscaping Consulting Services. Consultant acknowledges and understands that proper selection and care of turf grass and other plantings required in connection with the Golf Course are essential to the maintenance of the quality standards associated with the Company's designs, and that the provisions of this Section are intended by the parties to identify the manner in which agronomy services required by Company in connection with the design of the Golf Course and by Consultant and Owner in connection with the construction and maintenance of the Golf Course will be provided.

A. Consultant shall provide the services of a qualified agronomist approved by Company to consult with Owner and Company's staff agronomist for a period commencing on or before the time Company requests production of the Plan Documents and expiring three (3) months after final grassing of the Golf Course. Consultant's agronomist will be responsible for reviewing and resolving any agronomic issues of the Site which affect the design of the Golf Course with Company's agronomist and for developing a grassing plan, grassing specifications and a written turf management program for the Golf Course, which deliverables will be subject to approval by Company's agronomist in order to assure that issues relating to the playability and aesthetics of the turf and all related plantings selected by Owner's agronomist meet Company's quality standards for a Jack Nicklaus Signature golf course. Company shall not be responsible for the means, methods or results of Owner's agronomy consultant, or for any judgments made

by such consultant relating to the development, implementation or modification of the final grassing and turf management plan for the Golf Course. However, Company shall have the right, at its cost, to have the Golf Course inspected by its staff agronomist or an independent agronomist selected by Company at any time and from time to time during the Term of Service or License Period in order to review and assist the parties in resolving agronomic issues which, in the reasonable opinion of Company, may adversely affect the proper grow in of turf surfaces or otherwise impact the Owner's ability to maintain the quality of the Golf Course as required under this Agreement.

B. The landscape architect and/or other qualified landscaping consultants retained by Consultant and/or Owner under the Master Contract will be responsible for developing initial landscaping plans and specifications for the other planted areas of the Golf Course for review and approval by Consultant and Owner, and Company shall have the right to review and approve such plans and specifications in order to assure that they are consistent with Company's design for the Golf Course. After approval of the preliminary plans and specifications, the landscape consultants will be responsible for preparation of final landscape plans and specifications consistent with the plans and specifications approved by Company and otherwise meeting the requirements of the Master Contract with respect to landscaping services. Such plans and specifications will include, at a minimum, an identification of the species, quantities and preferred sizes of plant materials other than turf grass to be utilized, planting locations and specifications, and such cost estimates, bid documents and detail drawings as required by Consultant under the Master Contract. Company will not be responsible for the means, methods, judgments or results of the landscaping consultants retained by Consultant and/or Owner, nor will Company be liable in any event for any costs, losses or liabilities incurred in connection with the development, implementation, or modification of the final landscape plans and/or landscaping specifications for the Golf Course or the resolution of any field issues regarding landscaping which may arise during the Construction Work. It is also understood that Company shall not be responsible or liable for the growth or performance of turf or landscaping seed or plant materials furnished to or installed by any contractor.

5. Marketing Rights and Services. During the License Term (as defined in Section 12), Owner is authorized to use the following intangible rights of Company (collectively, the "Endorsement") to advertise, publicize, and market the Golf Course, subject to the terms and conditions of this Section: (i) the names "Nicklaus Design", "Jack Nicklaus Signature", and "Jack Nicklaus", (ii) Nicklaus' likeness, facsimile signature, and other identifying information relating to his career as a professional golfer and golf course designer, (iii) Company's Nicklaus Design logo, and (iv) copies or replicas of plans, artist's renderings, or other documents or data files prepared by Company and delivered to Consultant and Owner. Owner acknowledges that Company does not have the right to authorize the use of the "Golden Bear" name, or any use of the Golden Bear symbol other than as a part of Company's Nicklaus Design logo (the "Golden Bear Marks"), that the right to use the Golden Bear Marks is not included in the Endorsement licensed to Owner hereunder, and that Owner will not be authorized under this Agreement to utilize the Golden Bear Marks or any name or logo similar to such marks or derived therefrom in connection with the identification or promotion of the Golf Course. Company agrees to consult with Owner, as soon as practicable after the commencement of this Agreement, to determine a strategy consistent with the further terms of this Section and Company's customary standards and practices for using Nicklaus' role as designer to promote the Golf Course in advertising,

promotional, and public relations materials developed by Owner to promote the Golf Course and related recreational facilities developed by Owner at or adjacent to the Site.

A. Owner acknowledges and agrees that all uses of the Endorsement under this Agreement will be limited and directed to the role of Nicklaus and Company's staff in the design of the Golf Course. Owner is not authorized to utilize the Endorsement hereunder in any manner to represent or imply that (i) Company or Nicklaus has any other role in real estate development activities being undertaken by Owner or its designees or concessionaires in connection with the Golf Course, (ii) any non-golf facilities or commercial real estate at or adjacent to the Site other than the Golf Course have been endorsed or approved by Company or Nicklaus, or (iii) Company or Nicklaus will be involved in, or either of them has endorsed or approved of, the membership structure, management, or operation of the Golf Course and/or any related recreational facilities developed by Owner in conjunction with the Golf Course. Subject to the foregoing, Owner may include references to the fact that Company and/or Nicklaus designed the Golf Course in promotional materials utilized by Consultant to promote recreational facilities and real estate at or adjacent to the Site which are developed with the Golf Course as part of a single multi-use recreational facility. Owner will be responsible for enforcing compliance with the provisions of this Section by all other parties involved with the Golf Course and related facilities, and for assuring that persons authorized by Owner to participate in the operation and marketing of the Golf Course or development or marketing of related facilities do not make any unauthorized or improper uses of the Endorsement in connection with such activities.

B. Owner may make authorized uses of the Endorsement in brochures, sales films and videotapes, press releases, and similar promotional materials and in print media advertisements. Owner will not in any way make or permit any use of any part of the Endorsement without the express written approval of Company prior to use, which approvals are reserved by Company in order to assure that the form and context in which the Endorsement is used meets the positioning and stylistic requirements and quality standards generally applied by the Company to its licensees of Jack Nicklaus Signature™ golf courses. The parties acknowledge that Company's review of materials under this Subsection will thus be limited to determining the manner in which the Endorsement is utilized, and Owner will be entitled to develop the other content of such materials and will be solely responsible for the accuracy and completeness of such content. If requested by Owner, Company will approve standard advertising formats for use of the Endorsement, which may be utilized thereafter in the same manner approved by Company without any further approval required of Company. Owner will submit a sample of any proposed use of the Endorsement to Company for approval prior to use, and Company will use its best efforts to respond to Owner within ten (10) days of its receipt of each sample. Unless otherwise agreed in writing by Company, samples submitted for approval will require actual production photography, text, and layouts for print media uses and proposed final edits for audiovisual media uses. Owner acknowledges that it is essential for the protection of the reputation and financial interests of Company, Nicklaus, and Company's design clients (including Owner) that Company has continuing control over the manner in which the Endorsement is utilized to market golf courses designed by Company. Accordingly, in the event that any use of the Endorsement authorized under this Section becomes reasonably objectionable to Company due to subsequent circumstances or events, Owner will, as soon as reasonably practicable after receipt of a written notice from Company requesting such termination and stating a good faith reason for such request, terminate the objectionable use, and to use its best

efforts to terminate the continued use by other parties authorized by Owner to participate in marketing activities, of any advertising, promotional, or publicity materials that make such objectionable use of the Endorsement.

C. Owner is also authorized to photograph and record images of the likenesses and voices of Nicklaus and Company's staff in connection with site visits and public relations activities performed in connection with the Golf Course, provided that any such materials and artwork or transcriptions made from such materials shall be considered part of the Endorsement and subject to the terms and restrictions of this Section 5. Owner will furnish Company with copies of all photographs taken, film and videotape footage shot, and audio recordings made by or on behalf of Owner which involve Nicklaus, and Company will have the right to use, free of charge, all or any part of such materials and any reproductions thereof.

D. It is understood that Owner may assign its rights and delegate its duties under this Section to independent contractors retained by Owner and/or persons authorized by Owner to operate the Golf Course (the "Marketing Representatives"), and Company agrees to provide its services directly to a Marketing Representative subject to Company's prior receipt of a written notice from Owner describing the authority of such Marketing Representative and a written acknowledgment from such Marketing Representative of its receipt of a copy of this Agreement and agreement to conduct its activities hereunder according to the terms and conditions set forth herein.

6. Shaping Services. Consultant recognizes the importance of the final shaping work for the Golf Course in order to assure that the special features generally associated with a golf course designed by Company are incorporated into the Golf Course. Therefore, Consultant has agreed to obtain the approval of Company as to the subcontractor of the prime construction contractor retained by Owner to perform such shaping work. Although Company will not employ or contract with the shaper for the Golf Course, and will not be responsible for the means, methods, or results utilized to perform the work assigned to him, Consultant acknowledges that Company and Nicklaus will establish design parameters for the shaping work and will have the right to approve or request the modification of final shaping as part of the field design services provided under this Agreement.

7. Consultant's Responsibilities. So that Company can adequately perform its duties herein:

A. Consultant will provide to Company full, accurate, and complete information regarding the requirements of Consultant and Owner for the Golf Course, and Consultant will use its best efforts to notify Company regarding the requirements and/or recommendations of Owner and other governmental agencies and third party consultants retained by Consultant and Owner that may restrict or otherwise impact the design of the Golf Course.

B. Consultant will employ a qualified and experienced project manager on a full-time basis to supervise the performance of the Construction Work and to represent Owner in its dealings with the contractors performing the Construction Work. Consultant, the designated project manager or another authorized representative of Owner identified by Consultant will render decisions required by Company pertaining to the Golf Course promptly during the

development and implementation of the Plan Documents in order to avoid any unnecessary delay in the progress of the services to be performed by Company under this Agreement.

C. Consultant will furnish, at no charge to Company, before Company prepares the final routing plan for the Golf Course, a certified land survey illustrating grades and lines of streets and adjoining properties, rights-of-way, restrictions, easements, zoning, deed restrictions, boundaries and contours of the site, locations, dimensions, and complete data pertaining to existing buildings, other improvements, and trees, and full information concerning available service and utility lines, both public and private, above and below grade, including inverts and depths, aerial photographs, topographical maps, soil reports, and other information relative to Owner's site as Company may reasonably require (the "Site Documents"). All pertinent information will be provided by Consultant to Company in CAD format acceptable to Company.

D. To the extent not otherwise furnished by Owner, Consultant will be responsible for retaining the services of qualified professional consultants under the Master Contract to review the final routing plan and Plan Documents where required, in order to assure compliance with all applicable laws and regulations affecting the site, including but not limited to environmental, wetlands, land use, zoning, and other similar matters. Company agrees to work with such consultants as required in the design process. Consultant will supply Company with copies of all construction, engineering, zoning, environmental, and other regulations applicable to the proposed site of the Golf Course as requested by Company. Although Company will take care to prepare the final routing plan and Plan Documents in compliance with such regulations, it will be Consultant's and Owner's responsibility to ensure such compliance. If requested to do so by Consultant or Owner, Company will adjust the final routing plan and Plan Documents to conform with such regulations.

In connection with the foregoing, Consultant and/or Owner will employ the services of licensed engineers for the purpose of designing the storm drainage system for the Golf Course, bridges, walls, cart paths, and any other facilities or structures which require the services of an engineer. Such engineers will also be responsible for advising Company regarding the impact of applicable regulations and engineering practices upon Company's Plan Documents and for coordinating the storm drainage system with other drainage features of the Golf Course and Site. Consultant acknowledges that Company's recommendations (as set forth in the Plan Documents) for storm water drainage, conceptual cart path locations, soil and materials movement and placement, and other similar recommendations must be reviewed and confirmed by qualified licensed engineers, who must be retained by Consultant and/or Owner at their cost and expense.

E. If required under the Master Contract, Consultant or Owner will retain the services of a qualified soils engineer, who will provide Company with an analysis of the Golf Course site. In such event, Consultant will submit a completed set of Plan Documents to the soils engineer for analysis. If the soils engineer makes any suggested modifications to the Plan Documents, Company will make such modifications at no charge to Consultant, except for such expenses as are required to be paid by Consultant under this Agreement.

F. Consultant will also furnish the services of any other qualified consultants at no additional cost to Company or Owner when such services are required due to requirements of the

Master Contract, or are deemed necessary or appropriate by Company and Consultant. Such consultants may include irrigation consultants, planners, landscape architects, and other professionals. In addition to the general requirements of this subsection and the specific requirements of Section 4, above, Consultant acknowledges that Consultant will be responsible for retaining the services of a licensed landscape architect or equivalent to review the Plan Documents and Technical Specifications as provided by Company if and to the extent that such review is required under applicable local laws or regulations and to furnish those services with respect to the development and implementation of final Plan Documents and Technical Specifications, if any, that can only be furnished by a licensed landscape architect or equivalent under such laws and regulations.

The services, information, surveys, and reports required by this Section 7 to be provided to Company at no cost to Company. Consultant agrees that Company will be entitled to rely upon the accuracy and completeness of such services, information, surveys, and reports.

8. Company's Fee. For the services performed and rights granted hereunder, Consultant will pay Company a design and marketing fee of One Million One Hundred Twenty-Five Thousand U.S. Dollars (US\$1,125,000), (the "Fee"), which Fee will be due and payable by Consultant on a non-refundable basis as follows:

A. Ten Percent (10%) of the Fee upon delivery to Consultant of Company's initial proposed routing plan for the Golf Course, which the parties contemplate will occur at or about the time of execution of this Agreement. (If Consultant permanently abandons the Golf Course project and does not request Company to commence preparation of the Plan Documents, Consultant's payment obligations under this Agreement will be limited to the amount provided for in this Subsection 8A, plus payment of any reimbursable expenses incurred by Company under Section 9.)

B. Twenty Percent (20%) of the Fee at the time Consultant requests Company to commence preparation of the Plan Documents (the "Design Commencement Date").

C. Thirty Percent (30%) of the Fee at the time Company notifies Consultant in writing that the Plan Documents are ready for delivery. Delivery of the Plan Documents shall be conditioned on Company's receipt of all the sums due under Subsections 8A, B and C.

D. Forty Percent (40%) of the Fee in eight (8) equal consecutive quarterly installments, with the first installment being payable upon the commencement of the Construction Work and subsequent quarterly installments being payable on the same day of each calendar quarter thereafter until the remaining Forty Percent (40%) of the Base Fee is paid in full, provided that any remaining installments of Company's Fee under this Agreement will be accelerated and payable at such earlier time, if any, as Consultant completes his services for Owner in connection with the Construction Work. For purposes of this Section 8D, the ~~commencement of the Construction Work shall be deemed to occur upon the earlier of: (a) the~~ date Owner's contractors first commence any actual clearing, earthmoving or other construction activities at the site of the Golf Course by the Golf Course contractor after the Design Commencement Date to prepare the Golf Course site or implement any of the Plan Documents

prepared by Company or any plans or drawings for the Golf Course infrastructure prepared by third parties to implement the Plan Documents, or (b) the date of the Design Associate's first field visit after preparation of the Plan Documents to consult on site with Consultant and Owner's contractors under Section 3, above. It is understood that the conduct of any preliminary clearing or earthmoving activities prior to the Design Commencement Date for the sole purpose of identifying site features or locating proposed routings or centerlines for the Golf Course or constructing non-golf infrastructure for adjacent real estate shall not be deemed "commencement of the Construction Work".

If, for any reason, Consultant, Owner or any of their professional consultants requests Company to make changes to the design of the Golf Course which affect the preparation or use of any of the Plan Documents after their approval of the final routing, the parties will negotiate in good faith with Owner an appropriate increase in the Fee.

If any payment due to Company has not been made more than thirty (30) days after it is due, Company may suspend the use of the Endorsement by written notice to Consultant, Owner and any Marketing Representative(s), which suspension shall be effective until such payment is made.

9. Expenses. Subject to the limitation provided herein, Consultant will pay or reimburse Company for all reasonable expenses incurred by Company and its personnel for travel (including transportation costs, living accommodations, and meals), telephone, facsimile, and telex charges, postage and express delivery charges, and other related expenses in connection with performing Company's services, promptly upon Company's submission of periodic statements to Consultant. It is understood that Consultant's obligations to pay or reimburse expenses under this Section shall be limited to an aggregate amount of One Hundred Twenty-Five Thousand Dollars (\$125,000), and any expenses incurred by Company and its personnel in excess of such limitation will be borne solely by Company from the Fee payable under Section 8, above. When Nicklaus visits the site, he will travel by private aircraft, helicopter, and other expedient methods of transportation, and Company will allocate a share of his expenses for private aircraft travel to such site visit based upon other travel scheduled in conjunction with such visit, which allocated share shall be invoiced by Company to Consultant for payment hereunder.

10. Changes in Golf Course. If the Golf Course is not constructed substantially in accordance with plans and specifications prepared or furnished by Company or approved by Company in writing, or if any substantial change is subsequently made to the Golf Course without the written approval of Company with respect to both design concept and construction execution, then Company will have the right to terminate this Agreement and the License Term as provided in Section 12, below, and thereafter Owner will not have the right to state or represent in any manner that the Golf Course was designed by Company and/or by Nicklaus or to use the Endorsement in any manner in relation to the Golf Course. Consultant acknowledges ~~that the rights of Consultant and Owner to utilize copyrights and intellectual property of Company granted under Section 1 does not include the right to duplicate or use Plan Documents or any other written or electronically recorded materials owned by Company to obtain additional~~

golf course design work from third parties or construct any additions or modifications to the Golf Course without the prior express written consent of Company.

11. Assignment. This Agreement will be binding upon and inure to the benefit of the parties and their respective successors and assigns; provided that neither this Agreement nor any rights hereunder may be assigned directly or indirectly by either party without first receiving the prior written consent of the other party. Notwithstanding the foregoing, without such consent, (a) Company may assign this Agreement to another entity which controls, or is controlled by or under common control with Company, (b) Company may assign its rights to payment of some or all of its compensation hereunder, and (c) Consultant may assign this Agreement to Owner or a party designated by Owner in the event of a termination of the Master Contract, subject to the cure of any events of default by Consultant and assumption by such assignee of Consultant's remaining obligations under this Agreement. In addition, pursuant to the terms and conditions set forth in Section 19, below, this Agreement shall automatically be assigned by Consultant to Owner upon expiration or earlier termination of the Master Contract. In the event that Owner subsequently sells or otherwise transfers the Golf Course or operation of the Golf Course, including a temporary transfer to a person authorized to operate and/or market the Golf Course under a lease, subcontract or concession arrangement with Owner, to a responsible person or entity which agrees in writing to assume Owner's obligations under this Agreement and to maintain the integrity of the Golf Course as designed by Company, Company agrees that it will not unreasonably withhold or deny its consent to an assignment of this Agreement or subcontract of Owner's rights hereunder as a part of such transfer.

12. Term and Termination. Unless this Agreement is earlier terminated as provided herein: (i) the period during which Company will render its design and consulting services under this Agreement (the "Term of Service") will commence upon execution of this Agreement and continue until Owner's acceptance of the Construction Work, and (ii) the period during which Owner will be authorized to utilize the Endorsement (the "License Term") will commence upon execution of this Agreement and continue indefinitely unless the Golf Course is modified without compliance with the requirements of Section 10. Company may terminate this Agreement, including the Term of Service and the License Term, by giving written notice, and a corresponding thirty (30) day right to cure, to Consultant and Owner upon the occurrence of any of the following events or circumstances: (i) if any design requirements of the Golf Course site or changes required by Consultant or Owner conflict with Nicklaus' design standards for a Jack Nicklaus Signature course, (ii) if the Construction Work has not commenced within two (2) years after the date of this Agreement, provided that this period shall be extended for a period of time equal to the total period of all extensions of time for Consultant's performance of the Master Contract, if any, which may be granted by Owner to Consultant under Article 4 of Part III of the Master Contract, (iii) if Owner abandons the Golf Course project, (iv) if Consultant or its successors in interest fail to make any payment to Company when due, provided however that, notwithstanding the cure period set forth above, Consultant and Owner shall have a six month period to cure such non-payment before Company may terminate this Agreement, the Term of Service or the License Term, (v) if Owner uses or permits the use of any part of the Endorsement without Company's prior approval in the manner required under Section 5 hereof, or during the period of any suspension of Owner's rights under Section 8, above, (vi) in the event of the bankruptcy or insolvency of Consultant and/or Owner; provided, however, that in the event this

Agreement is assigned to Owner in connection with the bankruptcy or insolvency of Consultant, the City shall have a reasonable period of time, not to exceed one year from the filing date of such bankruptcy, to secure the services of an alternate consultant to Company who is ready, willing and able to complete the performance of Consultant's obligations to Company under this Agreement and the Master Agreement, and upon Company's reasonable approval of such alternate consultant and such consultant's assumption of such obligations, Company agrees to waive the right to terminate vis a vis the Owner based on Consultant's bankruptcy or insolvency, (vii) if Owner does not operate the Golf Course at a quality level consistent with Company's and/or Nicklaus' reasonable standards, (viii) if, in connection with the Golf Course, Owner does anything to discredit or otherwise adversely affect or diminish Company's and/or Nicklaus' name, stature, or reputation, or if any circumstances arise which cause Company's and/or Nicklaus' association with Consultant and/or Owner in connection with the Golf Course to reflect adversely upon Company and/or Nicklaus, or (ix) in the event of any other material breach of this Agreement by Consultant or Owner.

Consultant may terminate this Agreement by giving written notice thereof to Company in the event of any material breach of this Agreement by Company, in the event of the bankruptcy or insolvency of Company, or in the event Consultant terminates the Master Contract without assignment of this Agreement to Owner or a designated successor to Consultant as provided in Section 11, above. Consultant's election to terminate this Agreement pursuant to this Section 12 will not constitute a waiver of any claims Consultant may have against Company for breach of this Agreement, and any such termination by Consultant will not release Company from any liabilities incurred prior to the effective date of such termination.

Upon termination of this Agreement during the Term of Service, for any reason provided for in this Section 12, Company will have no further obligation to perform any services under this Agreement or to deliver any further Plan Documents or other written materials to Consultant or Owner, and except as expressly provided herein, Consultant and Owner will cease using and will have no further right to use, in any manner whatsoever any of the Plan Documents or any other written or electronically recorded materials prepared by Company under this Agreement. Within thirty (30) days after any such termination, Consultant shall return and shall cause Owner to return to Company all such materials in printed or written form or otherwise recorded on permanent media which are in their possession, custody or control or within the possession, custody or control of any contractor or consultant retained by Consultant and/or Owner, and Consultant shall assure that any such materials stored in erasable electronic form are permanently destroyed and certify that such destruction has been completed in a written notice to Company. In the event that this Agreement is terminated during the Term of Service as a result of a material breach by Company after approval of a final routing plan for the Golf Course, Consultant and Owner shall have the limited right (but shall not be required) to utilize such final routing plan and design concepts reflected in any Plan Documents delivered by Company prior to the termination date to serve as the basis for a new design of the Golf Course by a successor designer retained by Consultant and/or Owner to complete the design of the Golf Course. As a condition to any such use of design materials prepared by Company, Consultant, Owner and the successor designer shall be solely responsible for the final design of the Golf Course, and Company shall be fully indemnified by Owner under Section 13 of this Agreement from any and all claims made against Company as a result of Owner's use of Company's intellectual property

in the final design of the Golf Course, including, in such event only, any claim that Company or any other indemnified party was negligent in the preparation of the final routing or any other intellectual property utilized by the successor designer in the preparation of final plans for the Golf Course.

Upon termination of this Agreement during the License Term, Consultant will cease using and will have no further right to use any part of the Endorsement to identify and/or market the Golf Course, and Consultant will be responsible for assuring that any such use is terminated by all parties involved in the development or marketing of the Golf Course and any related facilities or real estate within thirty (30) days after the effective date of such termination.

In the event this Agreement is terminated, Consultant will remain obligated to pay any unpaid amount of Company's Fee already due and payable, and to pay Company for any unpaid or unreimbursed expenses already incurred under Section 9, but otherwise Consultant will not be obligated to make any further fee payments under Section 8 or expense payments or reimbursements under Section 9.

Upon termination of this Agreement for any reason provided for in this Section 12, the following rights and obligations of the parties under this Agreement will survive such termination: (i) Company's ownership rights relative to the copyright and all other intellectual property rights in and to the Plan Documents and all other plans or other written or electronically recorded materials prepared by Company and delivered to Consultant or Owner; (ii) all obligations and liabilities of the parties hereunder already accrued at the time of such termination; (iii) the liability and indemnity obligations of the parties under Section 13 with respect to claims that arose (whether or not asserted) prior to such termination; and (iv) the arbitration provisions in Section 16.

13. Liability. During the Term of Service, Company will be liable to Consultant for damages caused by Company's breach of this Agreement, and Consultant will be liable to Company for damages caused by Consultant's breach of this Agreement, provided that neither party will be liable to the other for any consequential or incidental damages arising out of such a breach. Company agrees that, during the Term of Service, it will not make any claim for damages against the Owner, its officers, agents or employees, by reason of this Agreement, or any acts or omissions of the Consultant, provided that such agreement shall not prevent Company from specifically enforcing any its rights granted to Owner as a beneficiary of this Agreement. After expiration of the Term of Service, and for the remainder of the License Term, Company will be liable to Owner for damages caused by Company's breach of this Agreement, and Owner will be liable to Company for damages caused by Owner's breach of this Agreement, provided that neither party will be liable to the other for any consequential or incidental damages arising out of such a breach. In the event a third party asserts any claim relating to the Golf Course, Consultant and Owner shall be required to indemnify, defend, and hold harmless Company, its officers, directors, employees, consultants, and agents, and Nicklaus against and from any and all liabilities, losses, costs, expenses, or damages incurred by them as a result of such claim, including reasonable legal fees and expenses of settlement or defense related thereto, unless such claim results from a breach of this Agreement by Company or negligence or misconduct of the person seeking indemnification. Without limiting the generality of the foregoing indemnity, the parties acknowledge and agree that: (i) Company will be indemnified

by Consultant from claims arising out of the acts, errors, omissions, strict liability duties, and/or financial obligations of Consultant and its other subconsultants under the Master Contract in connection with the design and construction of the Golf Course (other than design work performed by Company) or any related facilities or structures required under the Master Contract, and (ii) Company will be indemnified by Owner or its subcontractors from claims arising out of the acts, errors, omissions, strict liability duties, and/or financial obligations of Owner and/or its independent contractors in connection with the construction, operation, use, and maintenance of the Golf Course, any related facilities or structures, and/or any associated real estate development. Consultant and Owner will use their best efforts to have Company and Nicklaus named as additional indemnified parties in all third party contracts relating to the development, construction, and operation of the Golf Course and related facilities, provided that the inclusion or omission of such names will not prevent Company and Nicklaus from enforcing their indemnification rights under this Section 13 or asserting their legal or equitable rights as intended third-party beneficiaries of any indemnification provided to Consultant or Owner by such parties.

Company and Nicklaus will in no event be responsible or liable for any improper performance by the contractor or any subcontractor, or any independent professionals retained by Consultant and/or Owner, or any testing laboratory, or for the installation or use of any improper or defective materials or equipment or structures on the Golf Course, or for the failure of any materials or equipment to perform in the manner expected or specified. Consultant acknowledges that the foregoing provision is necessary in order to allow Company to have free access to information regarding the work of independent third parties without assuming any obligation to Consultant or Owner to assure or monitor their performance, and Consultant and Owner hereby waive any claims either of them might otherwise assert under any applicable legal theory which would conflict with such provision.

14. **Insurance.** Throughout the progress of the Construction Work, Consultant and Company shall each effect and maintain in force, at its own cost, all insurance which they are required to maintain by Owner pursuant to the Master Contract. Company shall provide Consultant and Owner with evidence of insurance as required under the Master Contract, and Consultant shall furnish Company with copies of all certificates of insurance provided to Owner by Consultant and its other sub-consultants to evidence the insurance carried by them in order to meet the requirements of the Master Contract.

15. **Notices and Payments.** Notices between the parties will be in writing and will be deemed to have been properly given if delivered by express courier service or by U.S. mail, return receipt requested, to the address of the receiving party as set forth on the first page of this Agreement, or if sent by facsimile to the number set forth on the execution page hereof. Either party may change the address or facsimile number for notices as stated in this Agreement by giving written notice of a change of such address or phone number to the other party, which change shall be effective when such notice is duly given in the manner provided under this Section. Notices will be effective on the date of receipt if sent by mail or courier, and facsimile notices will be effective on the next business day following the date of confirmation of error-free transmission. Any notice refused by a party or returned to the sender as undeliverable as a result of the recipient's failure to provide the sender with a current and active office address will be deemed effective as of the date delivery of such notice is first attempted. Payment hereunder to

Company will be made in U.S. Dollars and will be wired to such bank accounts as Company specifies.

16. Arbitration. All disputes between Consultant and Company arising out of this Agreement or the rights or obligations of Consultant and Company hereunder will be finally settled by binding arbitration before a sole arbitrator nominated or appointed in accordance with the Commercial Arbitration Rules of the American Arbitration Association then obtaining (the "AAA Rules"), and each of them hereby agrees to submit all such disputes to arbitration. Arbitration proceedings will be conducted in Palm Beach County, Florida. The AAA Rules will govern the conduct of all such proceedings, the submission of evidence, and the procedures to be used in any evidentiary hearings conducted by the arbitrator. Each party agrees that the foregoing agreement to arbitrate, and any award rendered in connection with any such arbitration, may be enforced against such party in any court having jurisdiction over such party, and that Consultant hereby agrees to submit to the personal jurisdiction of the state and federal courts located in Palm Beach County, Florida, in connection with any action to enforce the foregoing agreement to arbitrate or any award rendered by an arbitrator under authority of this Agreement.

17. Late Payment Charges. Any unpaid installment of Company's fee or any expense reimbursement to Company due and payable under this Agreement will bear interest at the rate of twelve percent (12%) per annum from its due date until paid in full. So long as Consultant is in arrears with respect to any payment due to Company, Company's obligations under this Agreement will be suspended. Company will be entitled to recover its reasonable expenses and attorneys' fees incurred in connection with efforts to collect payments in arrears and late charges, regardless of whether or not legal action is instituted to collect such payments. Notwithstanding the foregoing, Company agrees that Consultant shall not be required to advance any payment due to Company and that Company will not seek to collect interest or attorneys fees from Consultant hereunder if Consultant's delay in payment is caused by normal payment cycles imposed by Owner under the Master Contract, provided that such agreement shall not be deemed a waiver or modification of any of Company's other rights for non-payment under this Agreement.

18. Miscellaneous. In performing its services under this Agreement, Company agrees to be bound by those additional terms and conditions set forth in Exhibit "B" annexed hereto and incorporated herein by reference, which terms and conditions are acknowledged by the parties to be required in order to meet specific requirements imposed by Owner under the Master Contract with respect to subcontracts undertaken by Consultant. Except as otherwise expressly stated to the contrary in Exhibit "B", and as between Consultant and Company, this Agreement will be construed in accordance with and governed by the internal laws of the State of Florida. Disputes between Company and Owner under this Agreement will be construed in accordance with and governed by the internal laws of the State of New York, provided however, that all matters related to the ownership, licensing and use of the Endorsement shall be determined by the internal laws of the State of Florida as the law of the domicile of Nicklaus and the Company as his authorized representative. This written Agreement constitutes the entire agreement between the parties relating to the subject matter hereof and is the final expression of the agreement between the parties. This Agreement may be executed and delivered by the parties in identical counterparts, including counterparts transmitted and delivered by facsimile or electronic mail, which when taken together, shall be fully effective as if both parties had signed one and the same document. Any and all claims asserted by or against the Owner arising under this Agreement or

related thereto shall be heard and determined either in the courts of the United States located in New York City ("Federal Court") or in the courts of the State of New York ("New York State Courts") located in the City and County of New York.

19. Assignment of Agreement to Owner. The parties acknowledge that the Master Contract provides for Consultant to design and provide construction management services to Owner for the Golf Course and related facilities on a "turn-key" basis, with the understanding that the Owner will contract for the construction of the Golf Course and related facilities and, upon completion of the Construction Work, will own and receive the ultimate benefit from such facilities and will be responsible for their management, operation and maintenance. It is understood that Owner shall be entitled, as a third party beneficiary of this Agreement, to utilize the Company's intellectual property in its Golf Course design, to exercise those rights of review and approval reserved to Owner under this Agreement and the Master Contract, to utilize the Endorsement as provided in Section 5 of this Agreement, and to receive all other benefits of being the Owner as set forth in this Agreement, subject in all cases to compliance with the obligations, terms and conditions set forth in the Agreement with respect to such matters. The parties agree that Owner is a signatory to this Agreement for the sole purpose of giving effect to the preceding sentence, and neither Consultant nor Company shall have any rights against Owner for breach by Consultant or Company of obligations of one to the other. The parties have further agreed that this Agreement shall automatically be assigned by the Consultant to the Owner upon expiration or earlier termination of the Master Contract for the remainder of the License Term, subject to the further terms and conditions of this Section. In the event that the Master Contract is terminated during the Term of Service, Owner acknowledges that the obligations of Company to perform its remaining services under this Agreement shall be conditioned upon the Company's receipt of adequate assurances from Owner that Owner or a designated substitute consultant reasonably acceptable to Company will perform all remaining obligations of Consultant under this Agreement (including outstanding payment obligations) and the Master Contract with respect to the design of the Golf Course and upon Owner's cure of any outstanding defaults of Consultant under this Agreement at the time the Master Contract is terminated. Upon completion of the Master Contract and acceptance of Consultant's design work thereunder by Owner, Owner shall provide Company with written notice of such acceptance, at which time Company's remaining obligations to Consultant and Owner as a service provider under this Agreement shall be deemed to have been fully satisfied without prejudice to the further rights and obligations thereafter of Company and Owner for the remainder of the License Term.

Additional Terms Required under Master Contract

1. The parties acknowledge that the effectiveness of foregoing Agreement is conditioned upon the submission by the Company of a thoroughly completed Vendex questionnaire to the party designated by Owner under the Master Contract, and that Owner has reserved the right to reject Company as a subcontractor if it has been evaluated as a poor performer by the Owner or any other governmental entity, has Advices of Cautions against it listed in the City-wide Vendex system, or for any other reason which might cause the Owner to reject the Company if the Owner were contracting directly with the sub-consultant. Company understands and acknowledges that any material misrepresentation or failure to disclose pertinent information on the Vendex by the Company shall give the Owner's designated representative, at such representative's discretion, the right to terminate the Company and allow no payment to be made for work performed under the Agreement, provided that in such event, all rights of Consultant and Owner under the Agreement shall thereupon terminate as provided in Section 12 of the Agreement.
2. In the event that Consultant is unable to perform the services set forth in the Master Contract, the parties agree that Consultant may assign the Agreement to Owner or Owner's designee pursuant to Part I, Article 5 of the Master Contract and Section 11 of the Agreement, provided that Company's consent to such assignment will not be unreasonably withheld or delayed if the assignee agrees to be bound by the obligations of Consultant under the Agreement and has the resources and experience required to perform Consultant's obligations to Company under the Agreement during the Term of Service.
3. As required by the applicable terms of Part III, Article 32 of the Master Contract, which are hereby incorporated by reference into the foregoing Agreement, Company agrees that it shall be governed by New York State Labor Law § 220-e and New York City Administrative Code § 6-108 in connection with the performance of services under this Agreement in the State and City of New York.
4. The parties understand that the Master Contract is subject to the requirements of Executive Order No. 50 (1980) as revised ("E.O. 50") and the Rules and Regulations promulgated thereunder, and that Company will be subject to those requirements and potential sanctions set forth in Part III, Article 38, of the Master Contract applicable to the performance of Company's services under this Agreement. Company agrees to furnish reasonable cooperation to Consultant as requested in order to permit Consultant to comply with the requirements of Owner pursuant to Part III, Article 38, of the Master Contract.

EXHIBIT M

Maintenance Guidelines

Maintenance Guidelines for Trump Golf Links at Ferry Point Park

The following specifications are for the care of Trump Golf Links at Ferry Point Park, with the intention being to provide a first class, tournament quality daily fee golf course. Careful planning and work will be taken to ensure that the design of the golf course remains intact as the designers intended. Any and all of these specifications may be altered as weather or conditions dictate at the superintendent's reasonable discretion.

GREENS

Greens will be cut daily prior to play with walking greens mowers at a height ranging from .105" to .140" as conditions permit. Greens may be cut with triplex type mowers for verticutting/ dethatching operations. Green collars and cleanups shall be cut three times a week or as conditions permit. Greens will also be rolled 2-3 times per week with turf type rollers to promote a smooth putting surface with speeds staying consistent from 10 – 10.5 on the stimp meter. The greens will remain smooth, firm and true at all times except for the period of time following core aeration. Mowing directions will be varied each mowing accord to the clock direction method. Original green outlines to be maintained to original design unless approved by Parks and Nicklaus Design using best mowing practices

Greens will be core aerified a minimum of two times a year, once in the spring and once in late August or as required to relieve compaction, vent the subsurface, and/or to control thatch. This will be done with tines ranging from ¼" to 5/8" diameter at the superintendents discretion. The cores are to be removed. Following aeration the greens will be top dressed with sand that is compatible with the existing root zone. Thatch must not be allowed to accumulate to a depth of more than ¾ inch from the surface base.

A regular, light topdressing program will be followed on the greens throughout the growing season with sand that is determined by laboratory testing to be compatible to the existing root zone. The sand will either be brushed or watered in to minimize disturbance to golfers.

Greens are to remain relatively grain free through a regular grooming, verticutting and/or brushing program as conditions permit. Grooming, verticutting and brushing shall be scheduled to minimize disturbance to golfers.

A fertility program will be followed that avoids allowing the plant to become too lean or promote excessive growth and puffiness. Care will be taken to ensure accurate applications that avoid unnecessary run off and/or leaching. All amendment and fertilizer shall be blended to the standards of a first class, tournament quality daily fee golf course. All programs to be based on soil and tissue test results. Soil and tissue tests to be administered three times starting in spring.

Greens shall be hand watered as a supplement to automatic irrigation to prevent the turfgrass from becoming excessively dry and to promote firm and fast playing conditions. Overhead irrigation will be used as needed to flush salt from greens, water in fertilizer and pesticide applications and topdressing. Irrigation methods shall be at the superintendent's discretion with the goal being to provide a firm fast surface on a daily basis as conditions dictate.

Greens are to remain relatively weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management program. Special attention will be given to minimizing Poa annua invasion by utilizing industry and university recommended programs to discourage Poa annua and encourage healthy bentgrass growth.

Any blemishes or damage to the greens shall be removed as soon as possible using plugs of similar turfgrass. Greens will be vented through the use of needle tine aerification and/or spiking as conditions dictate throughout the season. This will be scheduled to minimize disturbance to golfers.

Greens shall be maintained to the designed perimeter dimensions and care shall be taken to prevent the encroachment of unwanted grasses.

Greens shall be protected against winter desiccation and winter diseases as required using industry standard Best Management Practices.

TEES

Tees will be cut three times a week with a walking and/or triplex mower in a manner that produces aesthetically appealing striping. Care shall be taken to prevent excessive grain from forming in the turf. The height of cut shall range from .300" to .400" as conditions permit. Original tee outlines to be maintained to original design unless approved by Parks and Nicklaus Design using best mowing practices.

Tees will be core aerified a minimum of two times a year, once in the spring and once in late August, with tines ranging from 3/8" to 3/4". Following aerification the tees will be topdressed with sand that is deemed compatible with the existing root zone by laboratory testing.

Tees are to be topdressed and verticut a minimum of two times per year or as often as necessary to provide a healthy upright plant. Topdress as required to level any depressions in the tee and provide a best Thatch Management program.

Divots on tees will be filled with the originally specified seed and an appropriate sand mixture on a daily basis to promote maximum recovery from divots, with additional emphasis on par 3 tees as these receive additional wear. Any damage from maintenance equipment or golfer wear shall be repaired in a timely fashion.

A fertility program will be followed so as to allow for rapid recovery from divots and wear without producing excessive growth. All programs based on soil and tissue test results. Soil and tissue will be tested three times starting in the spring. All amendments and fertilizers shall be blended to the standards of a first class, tournament quality daily fee golf course.

Tees are to remain relatively weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management program.

Tees shall be watered to prevent excessive turf stress and desiccation while still providing a firm playing surface.

Tees shall be maintained to the designed perimeter dimensions and care shall be taken to prevent the encroachment of unwanted grasses.

Tees shall be protected against winter desiccation and winter diseases as required using industry standard Best Management Practices.

FAIRWAYS

Fairways will be mowed at least three times per week during the growing season or as required to produce a clean, uniform playing surface. Mowers will vary direction based on standard golf course practices at a height ranging from .375" to .500" as conditions permit. Care shall be taken to ensure that the original contours and shape of the fairways are maintained.

Irrigation heads and drain covers are to be regularly edged so as not to interfere with water flowing into or out of said objects.

Fairways will be aerified a minimum of two times a year or as necessary to prevent excessive compaction or thatch development. Cores may be removed or verticut and/or dragged back into the surface at the discretion of the superintendent. Superintendent shall create a best practice plan for thatch control including sound management and a topdressing program

Divots shall be filled weekly with the originally specified seed and sand mix that promotes rapid recovery.

Fairways shall be verticut and groomed a minimum of two times a year to promote healthy upright growth during the growing season.

Fairways are to remain relatively weed, disease and pest free through use of Best Management Practices and a sound Integrated Pest Management program.

Fairways shall be watered to prevent excessive turf stress and desiccation while still providing a firm playing surface. Hand or portable watering may be necessary to supplement automatic irrigation.

A fertility program will be followed so as to allow for rapid recovery from divots and wear without producing excessive growth. All programs based on soil and tissue test results. Soil and tissue to be tested two times starting in spring.

Original Fairway outlines are to be maintained to original design unless approved by Parks and Nicklaus Design using best mowing practices.

ROUGHES

Formal roughs shall be mowed at least one complete cycle a week, or as necessary to maintain heights between 2" to 3". Direction should be reversed for each mowing to avoid grass from lying over. Intermediate roughs shall be mowed three times a week at a height of 1 to 1 ¼ inch, reversing direction each mowing.

Roughs shall be aerified twice a year or as necessary to alleviate compaction in wear areas.

Overseeding with the same originally specified seed mixture shall occur as necessary in wear areas to promote turfgrass recovery in the spring and fall seasons.

Roughs are to remain relatively weed and pest free through use of Best Management Practices and a sound Integrated Pest Management program.

A fertility program will be established to promote healthy turfgrass without causing excessive growth. All programs will be based on soil and tissue test results. Soil and tissue to be tested at least once a season. All amendments and fertilizers shall be blended to the highest golf course standards.

Native areas will be mowed as necessary to keep these areas natural as they were intended to look. Native areas will be completely mowed in the late fall to promote healthy spring growth. Native area maintenance to include watering as needed for healthy turf, disease, pest and weed control with fertilization only as needed to maintain health and stamina.

BUNKERS

Fairway bunkers are to be completely raked three times a week or as required so that the surface is maintained smooth and free of weeds and debris. Greenside bunkers are to be raked every day. Hand rake small bunkers every raking cycle. The remaining days of the week the fairway bunkers are to be touched up by hand raking only. Mechanical raking may be done where bunkers are large enough or designed in such a way that the machine can access and egress the bunker without destroying the turf around the perimeter. Bunker slopes and edges must be touched up by hand raking following mechanical raking.

After it rains, bunkers are to be promptly returned to playing condition with all wash outs repaired, silt removed and then completely raked.

Bunkers shall be checked regularly for proper sand depth. Sand will be redistributed properly or added as necessary to provide the proper depths. All rock and debris must be removed along with any sand contaminated by foreign soil, gravel, or grass clippings. Contaminated sand is to be removed and replaced as needed.

Banks of the bunkers shall be mowed regularly to provide the intended look of the design. Weeds will be pulled and edges will be trimmed once per month or as needed to maintain bunker definition. Bunker edges are to remain non-formal as designed for links conditions.

Bunker rakes shall be spaced evenly outside the bunker cavity for the convenience of the golfers.

Original bunker outlines to be maintained to original design unless approved by Parks and Nicklaus Design using best maintenance practices.

COURSE SET UP

Hole locations shall be changed on a daily basis during the busy season or as needed during slower times of the year. The superintendent, or a qualified individual selected by the superintendent, shall select fair hole locations and ensure that the hole has at least one full pace distance from a contour change and at least three paces from the inside edge of the collar. Charted and repetitive hole locations on given days are to be discouraged as excessive wear results in those areas leaving much of the green surface unused.

Tee markers shall be moved on a daily basis to avoid excessive wear in one location and to coordinate with pin locations and weather conditions.

Flags, cups, tee makers, yardage markers and flagsticks will be maintained so as to provide a "like new" appearance and replaced as necessary.

All course furniture shall be kept clean and organized in a neat manner.

Cart traffic is to be managed using ropes and stakes to minimize turf damage in wear areas.

PRACTICE RANGE

The driving range shall be mowed two times a week or as necessary to provide an aesthetically appealing facility. The practice range floor shall be mowed at a height and frequency consistent with healthy turf growth and resistance against wear.

Target bunkers shall be raked weekly or as necessary to provide an aesthetically appealing facility.

Yardage flags shall be spaced to provide a variety of shots and angles as dictated by the design intent.

The practice tee shall be cut a minimum of three times a week, reversing direction each time and fertilized so as to promote rapid recovery from divots and other wear. Divots shall be filled on a timely basis. The Practice Tee shall be mowed at fairway height. All programs based on soil and tissue test results. Soil and tissue to be tested three times starting in spring.

The practice range and tee will be irrigated as needed to prevent stress as well as promote seed germination and recovery on the tee surface. Occasional hand watering may be necessary to supplement automatic irrigation.

The practice range tee and floor areas, including target greens and chipping areas, will be aerified twice a year to prevent excessive compaction and thatch development.

All chipping and putting greens will be managed as regulation greens.

The synthetic grass practice tee shall be maintained to Manufacturers specifications and to keep surface playable.

IRRIGATION AND WATERING

The irrigation system is to be maintained in accordance to the manufacturers recommendations so that it is in working order at all times during the growing season. Visual checks shall be conducted on a regular basis as well as an analysis of the computer data from the prior night's irrigation cycle to ensure everything is working properly. All repairs and adjustments shall be made by qualified personnel under the direction of the superintendent. The pump stations shall be serviced in a regular manner according to manufacturer recommendations.

The theory behind all watering practices is that firm and fast conditions should be provided while encouraging good root development and preventing excessive leaching. Overwatering and soft conditions are not acceptable. Turf needs shall be monitored on a daily basis visually, by use of the weather station data and in-ground moisture sensors. Tees, greens and fairways are to be hand water as needed. All "isolated dry spots" on the fairways and around the bunkers are to be hand water as needed.

The irrigation system should be emptied of all water in the fall strictly following manufacturer guidelines and specifications to prevent damage to the irrigation system during the winter season. Care will be taken in the spring to prevent damage when re-charging the system with water.

The water provided for irrigation is NYC potable water. Yearly water test will be needed to review the need for amendments such as wetting agents, pH adjustment, and the Sodium Absorption Ratio adjustment.

Salt Management irrigation practices (leaching or deep watering) may be necessary to maintain turfgrass health, especially during prolonged periods of drought.

CARTPATHS

Cart paths shall remain relatively clean and edged so as to provide a clean and tidy appearance. Cartpath repairs shall be done in a timely manner as needed to meet original design specification.

CLUBHOUSE GROUNDS

The clubhouse grounds shall be maintained in accordance with the standards of a first class, tournament quality daily fee golf course. All lawns shall be regularly mowed, debris cleaned up, shrubs and trees neatly trimmed and mulch beds regularly weeded and edged.

POND MANAGEMENT

Irrigation pond and detention ponds shall be properly maintained in order to control storm water and remain in compliance with all applicable laws, rules, regulations and guidelines related to lake/water management, including but not limited to, the Clean Water Act.

The grass and rip rap edges surrounding the irrigation pond and the grass surrounding the detention ponds shall be regularly maintained to ensure they are in keeping with the design intentions.

A weed and algae control program for the irrigation pond shall be implemented as part of the maintenance program. A weed control and reseed program for the detention ponds and designated wetlands shall be implemented as part of the maintenance program to maintain original design intentions and in strict compliance with any City, State, and Federal laws, rules, regulations and guidelines.

TREE MAINTENANCE

Trees and shrubs will be pruned of dead wood and undesirable branches to maintain their natural shape. All transplanted and new trees will be fertilized, watered and monitored for pests. An integrated best management program is to be instituted for all Landscaping. Under no condition shall Licensee remove, replant, move, prune, or cut-back any tree, living or dead, in conjunction with Licensee's Capital Improvements, or with any other of Licensee's rights or duties under this License Agreement, without the express written permission of Parks. Licensee shall not attach anything to any tree, such as lights.

(i) Prior to the commencement of construction work at the Licensed Premises, Licensee shall contact the Bronx Director of Forestry. (ii) Licensee shall comply with all quarantine zones for the Asian Long Horned Beetle and any other invasive tree species or disease that may develop during the Term of this License Agreement. Licensee shall comply will all city, state or federal rules and regulations regarding new tree planting, infestation control, treatment, tree trimming and removal, including but not limited to rules and regulations established by the United States Department of Agriculture, the New York State Department of Agriculture & Markets, and Parks.

(iii) Licensee shall not stockpile any construction material within the drip-line of trees.

(iv) Licensee shall perform at its sole cost and expense compensatory pruning of trees adversely affected by the work. Pruning shall be done by a Parks approved licensed arborist when and where directed by Parks.

(v) Licensee shall install wooden tree guards as directed by Parks.

(vi) Licensee shall circumvent trees by trenching outside the drip-line of the trees.

(vii) Licensee shall remove all dead plant material resulting from Licensee's work, as determined by Parks, from the Licensed Premises.

(viii) Tree removal and acceptable replacements must be approved in writing by Parks.

EQUIPMENT MAINTENANCE

All equipment shall be operated and maintained in accordance to the manufacturer's specifications, recommendations and guidelines as provided in the owner's manual and any subsequent notices or bulletins issued by the manufacturer. Employees will be thoroughly trained and educated on the proper use of the equipment.

All lubricants and fluids shall be regularly checked and changed as outlined in the service manual. A sound preventative maintenance program shall be developed by the golf course mechanic under the direction of the superintendent.

Licensee assumes responsibility for repairing damage to the golf course if any maintenance equipment damages any part of the golf course (ex. broken hydraulic line on green).

MAINTENANCE BUILDING

The maintenance building shall be kept in a neat, organized and functional manner that conveys the image of a professional operation.

SUMMARY

Though the above list is not all inclusive, it should provide a general direction of the desired maintenance practices for Trump Golf Links at Ferry Point Park. All maintenance activities mentioned within will be scheduled so as to minimize disruption to golfers as much as reasonably possible. The course shall be maintained to the standards of a first class, tournament quality daily fee golf course and consistent with the reasonable standards of a Jack Nicklaus Signature golf course.

GUARANTY

GUARANTY

THIS GUARANTY, dated as of February 21, 2012 (as may be amended or modified from time to time pursuant to the terms herein, this “**Guaranty**”), is made by **DONALD J. TRUMP**, an individual (“**Guarantor**”), having an address at c/o Trump Organization, 725 Fifth Avenue, New York, New York 10022, in favor of the City of New York (the “**City**”) acting by and through the New York City Department of Parks & Recreation (“**Parks**”), whose address is The Arsenal, 830 Fifth Avenue, New York, New York 10065.

RECITALS

WHEREAS, this Guaranty is executed and delivered in connection with that certain License Agreement, dated as of the date hereof (the “**License Agreement**”), between Trump Ferry Point LLC, a Delaware limited liability company (“**Licensee**”), and the City acting by and through Parks.

WHEREAS, Guarantor has agreed to enter into this Guaranty to induce the City acting by and through Parks to grant a Concession (as defined in the License Agreement) to Licensee to operate, manage and maintain an 18-hole Jack Nicklaus Signature golf course, lighted driving range and ancillary facilities and to design, construct, operate, manage and maintain a permanent clubhouse at Ferry Point Park, Bronx, New York.

NOW THEREFORE, in consideration of the foregoing and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Guarantor hereby agrees as follows:

AGREEMENT

1. Definitions. Unless otherwise defined herein, capitalized terms shall have the meanings set forth in the License Agreement.

2. Guaranteed Obligations.

(a) Subject to all of the terms and conditions of this Guaranty, including, without limitation, **Section 8** hereof, Guarantor hereby absolutely, irrevocably and unconditionally, guarantees to Parks the payment and performance of the Guaranteed Obligations as set forth in this Guaranty, except to the extent that any such payment or performance of the Guaranteed Obligations is unenforceable under applicable law.

(b) “**Guaranteed Obligations**” means the complete and prompt payment and performance of the following after the expiration of all required notice and cure periods under the License Agreement and that certain Development Agreement, dated as of the date hereof (the “**Development Agreement**”), between Licensee and the City acting by and through Parks, as applicable:

(i) payment of all due and unpaid License Fees in accordance with the terms of the License Agreement, less all License Fee Credits (and any interest on such License Fee Credits) or other reductions to the License Fees to which Licensee may be entitled pursuant to the terms of the License Agreement or the Development Agreement;

(ii) payment of (x) all due and unpaid deposits to the Capital Reserve Fund based on Licensee's actual collection of Gross Receipts, less any credits to which Licensee may be entitled for the applicable period pursuant to the terms of the License Agreement and (y) any applicable amount due and unpaid into the Capital Reserve Fund in accordance with the last sentence of **Section 10.1** of the License Agreement in the event that all of the Required Capital Improvements are Finally Complete and Licensee has expended less than the Minimum Capital Improvement Cost in the aggregate for such Required Capital Improvements.

(iii) payment of the one-time Design Review Fee payable pursuant to **Section 10.3** of the License Agreement;

(iv) payment of: (x) any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under the Development Agreement and (y) all due and unpaid deductibles or self-insured retentions payable by Licensee under such policies;

(v) payment of: (x) any unpaid portion of the premiums due for all insurance policies required to be procured and maintained by Licensee under the License Agreement and (y) all due and unpaid deductibles or self-insured retentions payable by Licensee under such policies;

(vi) payment of any Grow-In Costs required for the Grow-In to be performed in compliance with the Nicklaus Grow-In Standards (as such capitalized terms are defined in the Development Agreement) up to a maximum amount of \$750,000 (the "**Guarantor's Grow -In Cap**"); provided that every dollar spent by Licensee in Grow-In Costs shall reduce the Guarantor's Grow-In Cap (and hence Guarantor's Guaranteed Obligation with respect to payment of Grow-In Costs in accordance with this **Section 2(b)(vi)**) on a dollar-for-dollar basis. For illustrative purposes only, if, for example, Licensee spends \$500,000 on Grow-In Costs, the Guarantor's Grow-In Cap (and hence the maximum amount of Grow-In Costs guaranteed by Guarantor under this **Section 2(b)(vi)**) shall not exceed \$250,000;

(vii) payment of any due and unpaid late charges imposed on Licensee in accordance with **Section 4.3** of the License Agreement in respect of any Guaranteed Obligations; provided that for the purpose of this Guaranty, notwithstanding any higher amount that may be due under the License Agreement, in no event shall Guarantor be responsible for any late charges in excess of two percent (2%) per month (computed on a thirty day month and measured from the date such payments were due and payable under the License Agreement until the date such amounts have been paid) on any Guaranteed Obligations which are overdue to which a late charge applies under **Section 4.3** of the License Agreement;

(viii) payment of any other due and unpaid financial obligations of Licensee not otherwise set forth herein (x) up to an aggregate maximum amount of \$150,000 under the Development Agreement minus any amount paid by Guarantor pursuant to clause (y) of this paragraph (viii) and (y) up to an aggregate maximum amount of \$150,000 under the License Agreement minus any amount paid by Guarantor pursuant to clause (x) of this paragraph (viii) such that, for the sake of clarity, at no time shall Guarantor's Guaranteed Obligations set forth in this clause (viii) exceed \$150,000 in the aggregate; and

(ix) completion of the Required Capital Improvements under the License Agreement (other than the outfitting of the Park Snack Bar, which shall not be a Guaranteed Obligation) and the Development Agreement (for the avoidance of doubt, the only Required Capital Improvement under the Development Agreement is the temporary Clubhouse), in each case, in accordance with the applicable Approved Designs and Plans in all material respects; provided that this clause (ix) shall apply only if Guarantor is responsible for and controls the construction and completion of all such Required Capital Improvements under the License Agreement or the Development Agreement, as applicable. For the sake of clarity, for any completion of the Required Capital Improvements performed by Guarantor under this clause (ix), the Designs and Plans for such Required Capital Improvements and the Required Capital Improvements shall be subject to the approval of Parks in accordance with the terms of the License Agreement applicable to Licensee, as if for the purposes of this clause (ix), the Guarantor were the Licensee.

3. Representations and Warranties. Guarantor represents and warrants the following as of the date hereof:

(a) Guarantor has full power, authority and legal right to execute and deliver this Guaranty and to perform his obligations hereunder.

(b) The execution, delivery and performance of this Guaranty by Guarantor has been duly authorized by all necessary action and does not and will not: (i) require any consent or approval by any person or entity which has not been obtained by Guarantor; (ii) contravene any documents governing Guarantor; (iii) violate any provision of, or require any filing, registration, consent or approval under, any law, rule, regulation, order, writ, judgment, injunction, decree, determination or award presently in effect having applicability to Guarantor; (iv) result in a breach of, or constitute a default or require any consent under any agreement or instrument to which Guarantor is a party; or (v) cause Guarantor to be in violation of any law, rule, regulation, order, writ, judgment, injunction, decree, determination or award, or in default under any agreement or instrument to which Guarantor is a party or which is applicable to Guarantor.

(c) This Guaranty is a legal, valid and binding obligation of Guarantor enforceable against Guarantor in accordance with its terms, except as such enforcement may be limited by bankruptcy laws affecting creditor's rights generally.

(d) There has been no material adverse change in the net worth, assets, financial condition or prospective financial condition of Guarantor since the financial statements of Guarantor of June 30, 2010, which have been furnished to Parks.

4. Financial Covenants.

(a) Until the Guaranteed Obligations are released or terminated, within one hundred twenty (120) days of the end of each calendar year, Guarantor shall be required to furnish Parks with a letter from Guarantor's accountant stating that there has been no material adverse change in Guarantor's net worth (such letter, a "**No MAC Letter**").

(b) In the event that Guarantor does not furnish the No MAC Letter as required in **Section 4(a)** (such failure to furnish the No MAC Letter, a "**Guarantor MAC Failure**"), Parks sole remedy for such failure shall be to require, in Park's sole discretion that, upon no less than thirty (30) days prior written notice to Guarantor, Guarantor increase the Security Deposit under

Section 4.4 of the License Agreement as follows: (i) for the first Guarantor MAC Failure, Parks may require that the Security Deposit be increased by \$100,000 (for a total Security Deposit of \$200,000); (ii) for a second Guarantor MAC Failure, if applicable, in any calendar year subsequent to the first Guarantor MAC Failure, Parks may require that the Security Deposit be increased by an additional \$200,000 (for a total Security Deposit of \$400,000); and (iii) for a third Guarantor MAC Failure, if applicable, in any calendar year subsequent to the second Guarantor MAC Failure, Parks may require that the Security Deposit be increased by an additional \$70,000 (for a total Security Deposit of \$470,000). In no event shall Guarantor be required to pay any additional Security Deposit after the Security Deposit has been increased to \$470,000 pursuant to this **Section 4(b)**, regardless of any additional Guarantor MAC Failures.

5. Enforcement; Payment by Guarantor.

(a) Except for the payments required under clause (x) of **Section 2(b)(iv)** and clause (x) of **Section 2(b)(v)**, which are addressed in **Section 5(d)** below, this Guaranty may not be enforced unless and until there is a continuing Event of Default by Licensee under the License Agreement or the Development Agreement, as applicable, in each case with respect to the Guaranteed Obligation that the City seeks to enforce, and only after the expiration of all notice and cure periods applicable to Licensee under the terms of the License Agreement and the Development Agreement, and then only in accordance with the terms hereof. All notices required to be delivered or provided to Licensee under the License Agreement or the Development Agreement with respect to any Event of Default shall be simultaneously delivered or provided to Guarantor in accordance with the terms of this Guaranty.

(b) If all of the conditions set forth in **Section 5(a)** are satisfied and Parks has the right to enforce a Guaranteed Obligation against Guarantor under the terms of this Guaranty, in order to enforce such Guaranteed Obligation, except for the payments required under clause (x) of **Section 2(b)(iv)** and clause (x) of **Section 2(b)(v)**, which are addressed in **Section 5(d)** below, Parks shall be required to provide a written demand to Guarantor requesting payment or performance of such Guaranteed Obligation, as applicable (such demand, the “Demand Notice”) and the following requirements shall be applicable to Guarantor with respect to such Demand Notice:

(i) if the Demand Notice is for a Guaranteed Obligation for completion of a Required Capital Improvement under **Section 2(b)(ix)**, provided that Guarantor is responsible for and controls the construction and completion of such Required Capital Improvement under the License Agreement and/or the Development Agreement, as applicable (as set forth **Section 2(b)(ix)**), Guarantor shall, within thirty (30) business days after receipt of such Demand Notice, commence the completion of the applicable Required Capital Improvement in accordance with the terms of this Guaranty and diligently pursue the completion of such applicable Required Capital Improvement;

(ii) if the Demand Notice is for a Guaranteed Obligation that requires the payment of money (which shall not include the payments required under **Section 2(b)(iv)** and **Section 2(b)(v)**, which are addressed below in the proviso to this **Section 5(b)(ii)** and in **Section 5(d)** below), Guarantor shall, within thirty (30) business days after receipt of a Demand Notice for payment under this Guaranty, pay the amount due and payable under this Guaranty; provided that for payment obligations pursuant to the Guaranteed Obligations set forth in clause (y) of **Section 2(b)(iv)** and clause (y) of **Section 2(b)(v)**, Guarantor shall, within ten (10) business days after receipt of a Demand Notice for

payment under this Guaranty, pay the amount due and payable to the applicable insurance company and provide written evidence of such payment to Parks.

(c) All Demand Notices shall be made and given in accordance with **Section 7**.

(d) For the payment obligations under clause (x) of **Section 2(b)(iv)** and clause (x) of **Section 2(b)(v)**, **Sections 5(a) and 5(b) shall not apply and** Guarantor shall be required to pay any applicable due and unpaid insurance premiums prior to the time set forth in any notice of cancellation (unless the applicable insurance is replaced with another insurance policy that meets the requirements of the License Agreement or the Development Agreement, as applicable and such replacement policy is in effect) of any such insurance policy received by Licensee from its insurer (if such insurance premiums are not paid by Licensee prior to such time). No notice by the City of any due and unpaid insurance premiums shall be required in connection with this **Section 5(d)**. If Guarantor makes a payment pursuant to this **Section 5(d)**, Guarantor shall provide written evidence of such payment to Parks.

6. Intentionally Omitted.

7. Notices. Where provision is made herein for notice or other communication to be given in writing, the same shall be given by hand delivery, by mailing a copy of such notice or other communication by certified mail, return receipt requested, or by overnight courier service addressed to Commissioner or to Guarantor at their respective addresses provided at the beginning of this Guaranty, or to any other address that Guarantor shall have filed with Commissioner. In addition, in the case of any notice or other communication required or permitted to be given to Guarantor under this Guaranty, an additional copy thereof shall be delivered in accordance with the foregoing to each of Allen Weisselberg, Jason Blackberg, Esq. and Ron Lieberman, in each case at the following address: Trump Ferry Point, LLC, c/o The Trump Organization LLC, 725 Fifth Avenue, New York, New York 10022.

8. Effective Date and Termination.

(a) The Guaranteed Obligations set forth in **Section 2(b)(iii); Section 2(b)(iv); Section 2(b)(vi);** clause (x) of **Section 2(b)(viii);** and **Section 2(b)(ix)** (solely to the extent that **Section 2(b)(ix)** applies with respect to the temporary Clubhouse (the foregoing Guaranteed Obligations, the “**Development Agreement Guaranteed Obligations**”), shall become effective upon the effective date of the Development Agreement, as set forth in **Section 16.6** of the Development Agreement. All other Guaranteed Obligations other than the Development Agreement Guaranteed Obligations shall become effective on the Concession Commencement Date.

(b) Subject to **Section 8(c)** below, the Guaranteed Obligations set forth in this Guaranty and Guarantor’s liability therefor shall be released and terminated on the expiration or sooner termination of the License Agreement; provided that, if such termination of the License Agreement is caused by an Event of Default by Licensee under the License Agreement, then the Guaranteed Obligations that accrued prior to the date of termination of the License Agreement (if any) shall survive the termination of the License Agreement and shall be released and terminated when such Guaranteed Obligations (if any) are satisfied.

(c) Notwithstanding anything to the contrary in this Guaranty, unless sooner released and terminated in accordance with the terms of this Guaranty,

(i) Each Development Agreement Guaranteed Obligation shall be released and terminated on the Concession Commencement Date (if earlier than the expiration or sooner termination of the License Agreement), unless, on such date, there is a default under the Development Agreement with respect to a Development Agreement Guaranteed Obligation, in which case such Development Agreement Guaranteed Obligation shall be released and termination only when such Development Agreement Guaranteed Obligation is satisfied.

(ii) Guarantor's Guaranteed Obligations with respect to a Required Capital Improvement, as set forth in **Section 2(b)(ix)**, (which for the sake of clarity, does not include the outfitting of the Park Snack Bar) shall be released and terminated upon the date of Final Completion of such Required Capital Improvement, as determined by the Commissioner in accordance with **Section 10.19** of the License Agreement (the date of Final Completion of a Required Capital Improvement, the "**Improvements Release Date**"); and

(iii) if Licensee ceases operations of the Licensed Premises, this Guaranty and all of the Guaranteed Obligations shall be released and terminated when (x) the Improvements Release Date has occurred with respect to each Required Capital Improvement other than the outfitting of the Park Snack Bar, (y) seven (7) years have elapsed since the Concession Commencement Date (the last day of such seven year period, the "**Seven Year Expiration Date**") and (z) the occurrence of the earlier of: (i) the Replacement/Reopening Date (as such term is defined in the License Agreement) or (ii) two (2) years have elapsed since Licensee has sent the City a notice that Licensee intends to cease operations at the Licensed Premises (such notice a "**Licensee Cessation Notice**"); provided that notwithstanding the foregoing in this **Section 8(c)(iii)**, in the event that the Improvements Release Date for any Required Capital Improvement is delayed due to Force Majeure or any of the other reasons set forth in **Section 12.19(g)** of the License Agreement, and as a result, Licensee is not reasonably able to Finally Complete all Required Capital Improvements (other than the outfitting of the Park Snack Bar, which shall not be a Guaranteed Obligation) by the Seven Year Expiration Date, this Guaranty and all of the Guaranteed Obligations shall be released and terminated without regard to whether or not the Improvements Release Date for any Required Capital Improvement has been achieved when (A) the Seven Year Expiration Date has occurred and (B) the occurrence of the earlier of: (i) the Replacement/Reopening Date or (ii) two (2) years have elapsed since Licensee has sent the City a Licensee Cessation Notice. Licensee's sending of a Licensee Cessation Notice and/or Licensee's cessation of operations at the Licensed Premises shall not be construed to be acquiescence by the City to any prospective or actual cessation of operations and all of the rights and remedies available to the City under the License Agreement, Development Agreement, at law and in equity shall remain in full force and effect; provided however that the City acknowledges and agrees that the foregoing shall not affect or limit the release and termination of this Guaranty and all of the Guaranteed Obligations in accordance with the terms of this Guaranty, including, without limitation, any release and termination of this Guaranty and the Guaranteed Obligations as set forth in this **Section 8(c)(iii)**.

9. Governing Law. This Guaranty shall be governed by and construed in accordance with the laws of the State of New York, as applicable to contracts entered into and to be performed entirely within that State.

10. Severability. If any section, subsection, sentence, clause, phrase or other portion of this Guaranty is, for any reason, declared invalid, in whole or in part, by any court, agency, commission, legislative body or other authority of competent jurisdiction, such portion shall be deemed a separate, distinct and independent portion of this Guaranty, and such declaration shall not affect the validity of the remaining portions hereof, which other portions shall continue in full force and effect.

11. Modification. No termination, amendment, waiver or modification of this Guaranty or any of its terms or provisions shall be effective unless it is set forth in a written instrument signed by Guarantor and the City.

12. Assignment: Guarantor shall not assign this Guaranty without the prior written approval of the Commissioner.

13. Counterparts. This Guaranty may be executed in several counterparts, each of which counterparts shall be deemed an original and all of which together shall constitute a single instrument. Delivery of an executed counterpart of a signature page to this Guaranty by facsimile or as an attachment to an electronic mail message in .pdf, .jpeg, .TIFF or similar electronic format shall be effective as delivery of a manually executed counterpart of this Guaranty for all purposes. Any delivery of a counterpart signature by telecopier or any such electronic format shall, however, be promptly followed by delivery of a manually executed counterpart.

[NO FURTHER TEXT ON THIS PAGE]

IN WITNESS WHEREOF, Guarantor has executed and delivered this Guaranty as of the date first above written.

**RECOMMENDATION FOR AWARD/ RENEWAL
OF CONCESSION AGREEMENT: RESPONSIBILITY DETERMINATION**

AGENCY New York City Department of Parks & Recreation (Parks)	CONCESSIONAIRE Trump Ferry Point LLC	CONCESSION I.D. # X126-GC The operation, management and maintenance of an 18-hole Jack Nicklaus Signature golf course, lighted driving range and ancillary facilities and the design, construction, operation, management and maintenance of a permanent clubhouse at Ferry Point Park, The Bronx.
---	--	--

This is to certify that I have determined that the subject concessionaire has the capability in all respects to perform fully the concession requirements and the business integrity to justify the private use of city-owned property and is therefore responsible.

AUTHORIZED AGENCY STAFF

Name Elizabeth W. Smith **Title** Assistant Commissioner for Revenue & Marketing

Signature  **Date** 2/2/12

SOURCES OF INFORMATION

On-line VENDEX vendor inquiry (cautions, liens, warrants) conducted 12/16/2010

VENDEX filings dated 06/30/2010

N/A [Value of concession, when aggregated with value of all other contracts/concessions held by subject concessionaire, <\$100 K]

Certificate of No Change / Changed Questionnaire dated 10/24/2011

DOI report dated 11/04/2011

Doing Business Data Form dated 12/29/2011

N/A [CSB without prequalification]

If the subject action is new concession award awarded pursuant to CSP and award is based on initial proposals, VENDEX Questionnaires also submitted from the second highest rated proposer.

Yes
 No [Explain] The award is not based on initial proposals nor being awarded pursuant to CSP.

Technical Qualifications/Experience/Resources

Basis for determination that proposed concessionaire has the organization, material, equipment, facilities and personnel resources and expertise (or the ability to obtain them) necessary to carry out the work and to comply with required delivery or performance schedules, taking into consideration other business commitments:

Trump Ferry Point LLC ("Trump") is an affiliate of Trump Organization LLC ("Trump Organization"), which has three decades of experience in luxury residential real estate, hotels, office buildings, recreational facilities, gaming, dining and catering, merchandising, and entertainment. The Trump Organization has successfully developed, renovated, operated, and maintained numerous similar high-end, championship private and public golf courses in the United States and abroad, including several in the New York City metropolitan area such as Trump National Golf Club Westchester and The Trump National Golf Club Bedminster. The Trump Organization also regularly hosts PGA, LPGA, and senior tour events at these properties, demonstrating an ability to successfully manage and attract high-profile events. Trump will be able to take advantage of The Trump Organization's experience, expertise, and resources and will utilize the Trump Organization's extensive experience with development in New York City when undertaking the construction of a new permanent clubhouse at the concession site.

Record of Satisfactory Performance

Basis for determination that proposed concessionaire has a satisfactory record of performance:

N/A [Subject concessionaire is not the current concessionaire and has no other comparable concessions or contracts with the City]

Financial Resources/Adequate Accounting & Auditing Procedures

Basis for determination that proposed concessionaire has sufficient financial resources and adequate accounting and auditing procedures to control property, funds or other assets, accurately delineate costs, and attribute them to their causes:

Trump has provided Parks with documentation from WeiserMazars LLP, Certified Public Accountants, stating that Donald J. Trump, the president of Trump, has a substantial net worth and cash position. As set forth in Exhibit V to the concession agreement, there is also a personal guaranty from Donald J. Trump regarding payment obligations and the completion of capital improvements. Trump's offer includes setting aside 3% of gross receipts towards a capital reserve fund in years 5 through 12 and 2% in years 13 through 15 of the term of the concession agreement.

Trump will be subject to auditing by Parks, the NYC Comptroller and Parks-authorized auditors.

Business Integrity

Basis for determination that proposed concessionaire has a satisfactory record of business integrity:

A search of the New York State, Department of State, Division of Corporations website revealed that Trump and the Trump Organization are licensed to do business in New York State. The search also revealed no New York State Tax Warrants, New York State Tax Liens, UCC Liens, or Federal Tax Liens for Trump, the Trump Organization or their principals. In addition, a search of the U.S. Department of Labor's OSHA website revealed no open or closed violations for Trump or the Trump Organization in the last 5 years. A LexisNexis search also revealed no bankruptcies for Trump or the Trump Organization.

Other Sources of Responsibility Information (Indicate *)

(* Examples: LexisNexis; Google; Department of State website; records or certificates of compliance with EEO laws and executive orders enforced by DSBS/DLS; publications; suppliers, subcontractors and/or customers of the prospective concessionaire; financial institutions, other government agencies, business and trade associations.)

A search of the following databases revealed no adverse business integrity information for Trump or the Trump Organization: VENDEX, LexisNexis Public Records Database; Accurant; ACRIS, and Google.

DISPOSITION

ADVERSE INFORMATION IDENTIFIED? **NO** **YES, described & addressed below**

ADVERSE INFORMATION

Instructions: Check all applicable box(es) indicating types of adverse information found. Provide the information requested and explain basis for the award notwithstanding adverse information. Attach explanatory sheets, as necessary.

ADVERSE INFORMATION INDICATED IN VENDEX VENDOR INQUIRY &/OR ON MOST RECENT VENDEX QUESTIONNAIRES— Describe each item by type, date & current status (include outcome, if disposed of).

ADVERSE INFORMATION IN DOI REPORT – Attach DOI report (include all attachments to report); describe each adverse item therein by date of occurrence and current status (include outcome, if disposed of).

ADVERSE PERFORMANCE EVALUATION INFORMATION

Describe problem(s) by type, date & current status; if problem(s) pertains to your agency, provide statement that agency has approved concessionaire's Corrective Action Plan, and/or that problem category has been corrected, as applicable; if rating pertains to another agency, identify agency, describe problem and describe resolution of problem.

ADVERSE FINANCIAL RESOURCES/AUDIT INFORMATION

Describe each such problem; provide statement that agency has approved the concessionaire's Corrective Action Plan.

ADVERSE BUSINESS INTEGRITY INFORMATION

Describe each such problem; provide statement that agency has approved the concessionaire's Corrective Action Plan.

CHAPTER ONE

THE MAR-A-LAGO CLUB

INTRODUCTION

2025 RELEASE UNDER E.O. 14176

GZ-NYAG-0000004

THE MAR-A-LAGO CLUB

INTRODUCTION

Mar-a-Lago is indisputably one-of-a-kind. No other property in Palm Beach, the United States or even the world is quite the same. To use the Latin, legal expression, it is sui generis. Precedents in construction, preservation and usage, both before and after Mar-a-Lago, have no application to it. The palace conceived by Marjorie Merriweather Post is as unique and original as an acclaimed painting, sculpture or other important work of art.

Mar-a-Lago has been the subject of debate for decades. The debate distills to the tension between (a) the public's demand for the preservation of Mar-a-Lago as an historic landmark at minimum taxpayer expense and (b) the owner's constitutional right to use the property freely and feasibly. See Gray, Dorothy, "Mar-a-Lago: Who's Going to Pay the Bills?" Palm Beach Daily News, November 7, 1973 and Osolin, Charles, "Storm Brewing Over What to Do with Post Estate," Palm Beach Post-Times, September 21, 1975.

The alternative uses of Mar-a-Lago are (1) continued ownership by one individual as a private residential estate at his or her sole expense, (2) a retreat for government officials, (3) a museum, (4) a cultural and intellectual center, (5) a subdivision with multiple single family homes, (6) separately owned condominiums, created out of existing suites, and (7) a private social club. Competing and conflicting interests must be resolved for each possibility based on fairness, principles of private property and a valid determination of public welfare. See Babcock, Richard F., The Zoning Game: Municipal Policies and Practices, Madison, Wisconsin: The University of Wisconsin Press, 1956 and Dunlap, David W., "Resolving Property 'Takings'; Courts Seem to Tilt In Favor of Owners," The New York Times, August 23, 1992.

As to Item (1), it is impractical for a single individual to continuously own Mar-a-Lago as a private estate at his or her sole expense. When The Post Foundation marketed the property after its return to the Foundation from the U.S. Government, it was almost impossible to sell. About 80 qualified buyers, thoroughly screened, inspected Mar-a-Lago and elected against even making an offer. H. Ross Perot was one prospect. Although "everything is for sale at a price," no one would step forward to make any offers for this so-called "white elephant." See Bellew, Patricia, "Mar-a-Lago: Lookers, No Buyers," The Miami Herald, June 29, 1982 and Musgrove, Martha, "Does Anyone Want Mar-a-Lago?" Palm Beach Post Times, April 29, 1979.

As to Item (2), both the U.S. Government and State of Florida deemed Mar-a-Lago unsuitable and too expensive for a retreat for government officials. As to Items (3), a museum, and (4), a cultural and intellectual center, both are financially impossible without substantial public accessibility which would generate intolerable traffic.

Item (5), a subdivision, has been rejected by the Town Council and opposed by The Preservation Foundation and others. Item (6), condominiumization, would wreck the interior character of Mar-a-Lago.

A private social club, Item (7), can totally preserve Mar-a-Lago at the expense of a limited group of members, most of whom will be Palm Beach residents. All of the existing Palm Beach clubs have waiting lists and therefore a demand exists for an additional club. A club would shift the burden of paying the bills for a landmark from one person to a limited group, without any taxpayer contribution. If Mar-a-Lago is converted to public or charitable ownership and use, the Town over time will lose millions of dollars in tax revenues. Finally, more Palm Beachers, but not an excessive number, will have access to this architectural treasure if club

members and their guests can enjoy it in the manner that Marjorie Merriweather Post and her guests used it.

The conversion of other estates to private clubs is an adaptive use which has proven to be dramatically successful. Examples are The Epping Forest Yacht Club created from the estate of Alfred I. duPont, The Sleepy Hollow Country Club developed from the residence of Elliot F. Shepard, The Ingomar Club from the home of William Carson, The Mamoroneck Beach Cabana and Yacht Club which was formerly the Osborn House, and The Lotus Club in the former home of Maria Louisa (Vanderbilt) Shepard.

THE PRIVATE CLUB

The Mar-a-Lago Club would provide fine dining, swimming, beach and pool side sunbathing, a card or game room, tennis, croquet, spa facilities and golf. Spa facilities -- steam rooms, sauna baths, massage tables, fitness rooms and the like -- will be the only change at Mar-a-Lago and will be located in totally unimportant storage areas. (Since this change is internal, no approval by government authority is necessary and it is irrelevant to the special exception application).

The activities at the Club will follow traditions established by Marjorie Merriweather Post: periodic dances, receptions for charities such as The Animal Rescue League or The Preservation Foundation, musical recitals, theme dinners, lectures and the like. See Wright, William, Heiress: The Rich Life of Marjorie Merriweather Post, Washington, D.C.: New Republic Books, 1978 and Knott, James R., "A Square Dance Evening At Mar-a-Lago," Palm Beach Revisited: Historical Vignettes of Palm Beach County, Privately printed, 1990.

At least fifty percent (50%) of the members of the Club will consist of individuals

who maintain residences in the Town of Palm Beach or have places of employment located in the Town.

The Club will uphold, as an organizational premise and immutable principle, the preservation of Mar-a-Lago in its historic condition. The Club will commit to generally accepted preservation and restoration principles in maintaining Mar-a-Lago in its present form as described herein. "Principles of Preservation" are set forth in Chapter Two. These Principles of Preservation are distilled from the Architectural Analysis of Chapter Four, the Inventory of Mar-a-Lago Buildings in Chapter Five and the Inventory of Mar-a-Lago Landscaping in Chapter Six.

The Club will be a corporate entity, The Mar-a-Lago Club, Inc., and will own the real property and its improvements. The Articles of Incorporation, By-Laws and Rules of The Mar-a-Lago Club, Inc. are based on those followed by other clubs in Palm Beach. These are set forth in Chapter Eight. The Club will not discriminate against any individual based on race, color, religion, sex, national origin, age, handicap or marital status.

All facilities at the Club will be used on the basis of advance reservations to avoid any congestion or over-use. A calendar of events, similar to that of the Bath and Tennis Club and the Everglades Club, will be promulgated with activities scheduled so as not to conflict with events at these other clubs so that traffic congestion is minimized. Valet services will be available at all times. On-site parking will be on the paved and un-paved grounds following the same patterns begun by Mrs. Post. One (1) parking space per four (4) members will be available in accordance with Town of Palm Beach zoning requirements.

Traffic generated by the Club will be limited to those trips allowed by Palm Beach County and the Town of Palm Beach. Chapter Nine analyzes the traffic aspect of club use and

its management. This traffic management plan has been reviewed and informally approved by traffic advisors of Palm Beach County and the Town of Palm Beach. Traffic, at most, will be comparable to or less than auto travel that existed during Mrs. Post's intensive usage. See "Hundreds Attend Benefit Tea for Animal Rescue League at Mar-a-Lago, E.F. Hutton Home," Palm Beach Post, March 15, 1928; "E.F. Huttons Give Circus in Florida," The New York Times, March 12, 1929; "Mrs. Hutton Hires Circus for a Little Party", Illustrated News, March 3, 1929; "E.F. Huttons Hosts at Ballet Intime; Entertain a Large Company in the Patio of their Palm Beach Villa", The New York Times, March 14, 1927; "Mrs. E.F. Hutton Plans Large Party at Palm Beach," N.Y. Evening Sun, March 12, 1927; "Society Attends Play at E.F. Hutton Estate," The New York Times, March 2, 1930; and "Society Turns Rube, Has Big Time at Hutton Circus," Palm Beach Times, March 12, 1929.

Residents of Woodbridge Road, 1125 South Ocean Boulevard and members of The Bath and Tennis Club, Inc. will have club privileges without paying membership fees. These privileges should increase the value of neighboring properties and reduce traffic. See Chapter Eight. Landscaping along the northern boundary of the Mar-a-Lago estate will be cultivated and enhanced to serve as a sound barrier for the benefit of Woodbridge residents. If after a reasonable period of time this vegetational buffer proves to be inadequate, the boundary wall will be increased in height with appropriate governmental approval.

All statements in this text and the special exception application constitute representations binding upon the Club and enforceable by the Town of Palm Beach Code Enforcement Officer and Board.

CONCLUSION

In order to preserve Mar-a-Lago into perpetuity -- beyond the lifetime of any one owner -- it must be shifted to communal usage where expenses of maintenance are shared by a group. Playa Riente (owned by Mrs. Horace Dodge), El Mirasol (the Edward T. Stotesbury estate), the home of Louis Clarke Anthony and Casa Bendita are examples of Palm Beach's architectural masterpieces which were lost by the absence of creative, adaptive reuse. Mere landmarking status is positively no insurance that Mar-a-Lago will last. Landmarking, while it seems permanent, does not pay for any upkeep. Many landmarks have disappeared; some have been razed or ruined by individual owners. If any single owner becomes unable to maintain Mar-a-Lago, it will deteriorate into oblivion.

A private club was discussed as a means of preserving the Stotesbury estate, but the concept was ridiculed as too radical. The Stotesbury palace was once regarded as the centerpiece of Palm Beach society. Now the Stotesbury estate is demolished and its glamorous statement is dead. If Mar-a-Lago is not preserved through club conversion, the missed opportunity will be remembered as infamy.

CHAPTER TWO

PRINCIPLES OF PRESERVATION

PRINCIPLES OF PRESERVATION

The following principles of preservation shall be adopted and strictly adhered to by The Mar-a-Lago Club, Inc.:

PRINCIPLE I

CRITICAL FEATURES OF MAR-A-LAGO SHALL NOT BE ALTERED, MODIFIED OR CHANGED IN ANY MANNER WHATSOEVER, EXCEPT FOR COMPELLING ECONOMIC OR PRACTICAL NECESSITIES. An example of a compelling economic or practical necessity would be the following: if a hurricane destroyed a significant portion of a carving, it might be replaced with a close facsimile using the same materials.

PRINCIPLE II

CRITICAL FEATURES MAY BE RESTORED TO AN EARLIER INCARNATION, IF SUCH INCARNATION CAN BE CONCLUSIVELY AND SPECIFICALLY PROVEN THROUGH PHOTOGRAPHS OR WRITTEN DOCUMENTATION.

PRINCIPLE III

HIGHLY-REPUTABLE, FINANCIALLY HEALTHY AND DULY LICENSED RESTORATION EXPERTS, ARCHITECTS, GENERAL CONTRACTORS, ENGINEERS, MATERIAL SUPPLIERS, MASONS, ROOFERS, CARPENTERS, ELECTRICIANS, PAINTERS, LANDSCAPE EXPERTS, SCULPTORS, AND OTHER SKILLED CRAFTSMEN SHALL BE RETAINED BY THE CLUB ON A CONTINUOUS BASIS SO THAT ANY AND ALL MAINTENANCE, REPAIR AND REPLACEMENT TO CRITICAL FEATURES CAN BE UNDERTAKEN EXPEDITIOUSLY AND DETERIORATION MINIMIZED. A compilation of the foregoing shall be approved, catalogued and updated annually by The Preservation Committee (as established on a permanent basis in the By-Laws of The Mar-a-Lago Club, Inc.).

PRINCIPLE IV

A MAINTENANCE AND INSPECTION SCHEDULE SHALL BE ESTABLISHED, UPDATED ON AN ANNUAL BASIS BY THE PRESERVATION COMMITTEE, AND STRICTLY FOLLOWED. The initial schedule, prepared with the assistance of Jim Griffin and Howard Wilson, superintendents at Mar-a-Lago, is set forth in Chapter Seven, entitled "Maintenance and Inspection Schedule."

PRINCIPLE V

MOISTURE PROTECTION SYSTEMS, BUILDING DRAINAGE SYSTEMS, SITE DRAINAGE SYSTEMS, ELECTRICAL SYSTEMS AND FIRE-SAFETY SYSTEMS

SHALL BE MAINTAINED AND UPGRADED FROM TIME TO TIME USING THE MOST EFFECTIVE TECHNOLOGY TO PROTECT ALL COMPONENTS OF CRITICAL FEATURES.

PRINCIPLE VI

CRITICAL FEATURES WHICH REQUIRE REPAIR OR REPLACEMENT SHALL BE REPAIRED OR REPLACED WITH MATERIALS IDENTICAL TO PRE-EXISTING MATERIALS.

PRINCIPLE VII

CRITICAL FEATURES SHALL BE INSURED FOR THEIR FULL REPLACEMENT VALUE AGAINST WINDSTORM, FIRE AND ALL OTHER CASUALTIES.

PRINCIPLE VIII

USAGES OF MAR-A-LAGO SHALL BE REGULATED SO THAT ONGOING "WEAR AND TEAR" IS MINIMIZED.

PRINCIPLE IX

THE PRESERVATION COMMITTEE SHALL RIGOROUSLY ENFORCE THE FOREGOING PRINCIPLES AND ADOPT SUPPLEMENTAL PRINCIPLES FROM TIME TO TIME WHICH FURTHER THE ORIGINAL CONCEPTIONS OF MARJORIE MERRIWEATHER POST, JOSEPH URBAN AND MARION SIMS WYETH. The Committee shall maintain archives of books, photographs, news and magazine articles, films, surveys and the like for permanent references as to the original composition of Mar-a-Lago.

PRINCIPLE X

IN ADDITION TO THE FOREGOING, THE U.S. SECRETARY OF THE INTERIOR'S STANDARDS FOR REHABILITATION AND GUIDELINES FOR REHABILITATING HISTORIC BUILDINGS, AS AMENDED FROM TIME TO TIME, SHALL BE CLOSELY OBSERVED.

CHAPTER THREE

CRITICAL FEATURES OF MAR-A-LAGO

CRITICAL FEATURES OF MAR-A-LAGO

The following are Critical Features of Mar-a-Lago which must be totally preserved in their existing form and condition. The descriptions below are abridged since details are described in Chapters Four, Five and Six and visually depicted in the site drawings and floor plans of Chapter Eleven.

1. Main Entrance Gate. The Gate is a double wood spindled, two-leaf gate which opens inward. The masonry is covered with Spanish tiles and is lighted by two wrought-iron figures holding torches. Please see photograph 1.
2. Perimeter Wall. A stucco wall extends on the property line from Lake Worth to the west and around the Southern Boulevard curve to a terminus at the east center of the Mansion. The wall re-continues to the north, passes through the Main Entrance Gate, is interrupted by the Property Manager's Complex and runs to the service entrance gate at the north property line.
3. Main Entrance Drive. The main drive is perpendicular and west of South Ocean Boulevard, one hundred feet from the north property line. It is approximately fourteen feet wide, bordered on both sides with concrete curbs and lined with coconut palms. Please see photograph 2. The driveway circles around a guest structure through a porte-cochere to the primary entrance to the Mansion at its north facade.
4. Property Manager's Complex. To the north of the main entrance drive, the property manager's grouping consists of a residence, detached garage and ancillary

building all of which are one-story, stucco, with clay barrel tile roofs.

5. The Mansion. The exterior walls, roof, carvings, columns, tiles and overall envelope of the main house, referred to herein as the Mansion, are the single most important Critical Features, as is demonstrated in photograph 12.

6. Cloisters, Patio and Parrot Pool. The Cloisters, Patio and Parrot Pool located adjacent and west of the Mansion are integral accessories to the Mansion. Please see photographs 5 and 6.

7. Open Vistas. An open vista to the east overlooks the Atlantic Ocean from the Mansion. An open vista to the west extends from the main house down and across a grassed area of approximately 250 feet in width to view Lake Worth.

8. Topographical Flow of Land. The land flows generally from a high point around the main house at an elevation of approximately 15 feet to a low point of 4 feet along the bulkhead line at Lake Worth. This flow and shaping is seen in photograph 11.

9. Vegetation, Tree Lines and Golf Course. The basic quantity and quality of vegetation and tree lines are Critical Features as noted in photograph 11. The nine-hole golf course west of the Mansion, referred to sometimes as a "Pitch and Putt" or "Par 3" course, must be regroomed to its previous, playable condition.

10. Mansion Rooms. The walls, floors, ceilings and physically-attached structures of the following rooms in the Mansion are Critical Features: (a) Entrance Hall, (b) Gentleman's Cloak Room, (c) Ladies' Cloak Room, (d) Living Room, (e) Dining Room, (f) Loggia, (g) Monkey Loggia, (h) Library, (i) Play Room in "Deenies House", (j) Child's Bedroom

and Bathroom, (k) Pine Hall in Master Suite, (l) Master Bedroom, (m) Master Bathroom, (n) Master Dressing Room, (o) Pavilion, (p) American Room, (q) Adams Room, (r) Venetian Sitting Room, (s) Spanish Bedroom, (t) Portuguese Room and (u) Dutch Room. Please note photographs 3 through 10.

CHAPTER FOUR

ARCHITECTURAL ANALYSIS

ARCHITECTURAL ANALYSIS

By: Eugene Lawrence

Mar-a-Lago is designated as a local and national landmark. The factual description of the property is voluminously set forth in the following documents:

1967-1972 Historic American Building Survey ("HABS")

Congressional Act dated October 21, 1972 establishing Mar-a-Lago National Historic Site Advisory Commission to administer the Mar-a-Lago National Historic Site described in an Order of Designation dated January 16, 1967.

Public Law dated December 23, 1980 repealing the Order of Designation of Mar-a-Lago National Historic Site and redesignating Mar-a-Lago as a National Historic Landmark.

National Register of Historic Places Inventory - Nomination Form

The first task is the identification of those characteristics which make the property a landmark, so that principles may be enumerated and guidelines established to insure the preservation of the essence of the landmark.

The evaluation of the historic value of any building must take into account the life and times in which it was built, the person or persons who fashioned it and the purpose for which it was built. This context is the framework and the background against which the tangible and intangible results can be measured.

The United States was a young nation in the early part of the twentieth century. In the historical blink of an eye, it had declared and fought for its independence, established and proved a very radical form of government, occupied most of a continent, endured a wrenching civil war and reconstruction period, fought a war a continent away and emerged a world power. Great fortunes were amassed in this time, and the culture struggled to define an aristocracy absent

royalty or institutions that had taken centuries to crystalize in Europe. It was that context which defined the need for a Mar-a-Lago.

Henry Morrison Flagler had started a winter colony in Palm Beach. He had built the "grandest of all hotels of all times", the Royal Poinciana. "It existed at a time when it was mostly rich society people only who came to Florida." He followed The Royal Poinciana with Palm Beach's white marble palace, Whitehall - built for his new bride and was followed by a string of "cottages". Those "cottages" were in fact large estates built by those who had amassed great fortunes as a statement of their presence. The object was to provide for a grand lifestyle in a private home in lieu of the grand lifestyle for the thousands in The Royal Poinciana Hotel. Having no historical precedent in this country, large chunks of European culture were bodily moved or emulated. The colony of that affluent group of emerging aristocracy pointed the way to Palm Beach as the place for a Mar-a-Lago.

Marjorie Merriweather Post was the daughter of the inventor of Post Toasties. She inherited the cereal business in 1914 and helped build it into the giant General Foods Corporation. Far more than a society matron, Marjorie Merriweather Post was shrewd and decisive in business matters and one of the founders of great fortunes. She had the ability to command her wealth rather than to fall hostage to it. Along with the Stotesburys, the Phipps, the Dodges, the Donahues, the Boltons, the Vanderbilts and others she sought to make a social statement. The 122 room statement made by the lady of the group proved to be Palm Beach's most impressive home.

Mar-a-Lago is first the statement of Marjorie Merriweather Post. While the tangible forms the structure took were expressed through the architects, the sculptors, the

nurserymen and the other artists involved, the final product is undeniably the creation of its owner.

When taking into account that Mar-a-Lago was one of several of Mrs. Post's properties, the immensity of the program becomes even more apparent. Mar-a-Lago was fashioned to be a setting for this grand lifestyle. It included not only gracious quarters for the family as seen in photographs 8 and 9, but numerous other suites for the guests who would visit when Mrs. Post was in residence as seen in photograph 10. Titled and untitled royalty from all over the world were expected. The Mansion was sized for entertaining in the most grand fashion - small and large dinners, parties, dances were to be in no less gracious setting anywhere in the world. It is perhaps best expressed by Mrs. Post's statement that nowhere in the United States did the Government have an appropriate place for visiting heads of state comparable to those found in Europe. She willed the estate to the United States Government for that purpose.

Recognizing that the space requirements would result in an extremely large mass, Mrs. Post directed that the structure be segmented into intermediate components to reduce the bulk of the building. The main living areas are fashioned around a central crescent, with the master suite, one daughter's suite and a guest house in inter-connecting structures, anchored by an 85' high tower. This complex is surrounded by the property manager's grouping and service buildings.

It is noteworthy that the entrance is far from the most imposing architectural element either in scale or location. The entrance sequence begins with a two leafed, double spindled wood gate in a masonry arch decorated with antique Spanish tiles at Ocean Boulevard as seen in photograph 1. It flows down a formal, palm lined gravel drive, allowing a full view

of the ocean facade, as seen in photograph 2 around a two story guest cottage and reaches its destination in a porte-cochere. Here, function was preferred over grandeur to allow the unobstructed sea-to-lake vista inside the structure.

Steps lead through an arched entrance, into a large Reception Hall as seen in photograph 3. Ladies' and gentlemen's cloak rooms open to the Reception Hall to allow guests to be assembled for entrance into the Living Room. The Hall also serves nicely to greet smaller groups of arriving and departing guests. The Hall is personalized with antique Spanish tiles as found on the entrance gates and family crests.

The entrance into the Living Room through massive carved doors is a spatial explosion both in the volume of space and the openness to view. Mar-a-Lago - Sea to Lake - is the name of the estate and a very vivid expression of its central focus. The ceiling rises to nearly thirty feet, seeming higher by the gilded "Thousand Wing" Ceiling patterned after the famous Accademis in Venice noted in photograph 4. A single pane of glass over 12 feet across frames the ocean vista to the left in a Roman arch. The Lake vista is seen to the right across the Crescent, the Patio and down an allee of Royal Palms to the Lake. The room itself is very grand in its size, proportion and decor. The doors to the west lead to the semi-circular crescent whose cloisters define the generally round patio some 75 feet across. Please see photograph 5. The patio is shaded overhead by a very large gumbo limbo tree on the south and a blend of palms on the north. The western center of the patio contains a parrot pool, a low reflection pool with wrought iron and water plants that is framed with sculptures of groups of parrots as seen in photograph 6. While this pool is a delight in itself, it is interesting to note that its placement obviates the need for a rail, which would diminish the lake view.

The Dining Room is entered directly from the northwest corner of the Living Room, and is equally grand in its size and decor. The integration of architectural elements with murals, and the general scale of the room make it the setting for the most formal of dinners as is apparent in photograph 7.

Around the South Crescent, down a half-flight of stairs, Mrs. Post later added a Dance Pavilion. It opens to the north and to the south, with a projection room to the east and a stage to the west. This Pavilion was used for dances, motion pictures and other types of entertainment.

This sequence of spaces, the Reception Hall, the Living Room, the Dining Room, the Cloister, the Patio and the Pavilion are the heart of the mansion. Here hundreds of splendidly dressed guests were entertained in a style not unlike the courts of Europe, in a setting equally elegant. The form and organization of the spaces are functional, fluid, well integrated and superbly responsive to the site. Many large houses contain comparably sized rooms. Few, if any, achieve the softness lent by the crescent, the power of the space volumes with the views and the fluid integration of the spaces.

The family and guest suites, photographs 8, 9 and 10 provide privacy and intimacy at the opposite end of the scale of grandeur established in the spaces for entertaining. Please see photographs 3 through 7. They are warm, have individual but very strong character and allow the independence and privacy necessary for house guests staying extended periods of time. There are generous spaces for the functions required, including sitting rooms, as photograph 8, play rooms, a nanny's bedroom where appropriate and, probably most important, they are arranged in such a way that minimizes hallway encounters. While these issues may appear abstract, they

form the essence of a lifestyle structured almost entirely by choice, one of the greatest elements of luxury.

Staff or servants rooms are plentiful for the core staff that traveled with the family and the staff who maintained the estate year round. Service facilities, the kitchen, pantry, laundry, and other housekeeping facilities are efficiently located and commensurate with the size of the estate and the functions that were held. Note should be taken of the sheer volume of functions that were required to live that lifestyle. The assembly of the materials, the organization of them into a workable system and the management of staff and services were a formidable achievement.

Finally there is the setting. Mrs. Post directed that the mass of the house not be overwhelming. It is beautifully scaled to itself and set on the high point of the land, gently flowing from the sea to the lake. The ocean and lake vistas are treated very simply in contoured lawn, interspersed on the lake side by a variety of generally isolated trees, mostly palms. The sculptured land became a pitch and putt golf course on the lake side. The north and south sides of these vistas are defined by tree lines, the southern one indicated in photograph 11 made up generally of mixed tropical planting and native species most probably in place when the house was constructed. These tree lines function to provide privacy for the mansion, particularly car lights from the south and to screen the service elements, slat houses, staff quarters, water tanks and citrus groves from the main house. The total vista is over a quarter of a mile in length from water to water.

The site is bounded on the east and south by a plain masonry wall, varying in height from about six feet on the west side to over sixteen feet on the southeast section. Its scale

is so tall as to require buttressing. While its surfaces are as undecorated as the mansion is decorated, it is so softened by tropical planting as to be difficult to identify in most places. This wall begins the boundary identification at the northeast corner, is intercepted by a service gate, is integrated into the property manager's house and leads to the main gate. The inter-connection of the site wall, the property manager's grouping and the main gate gives further scape to the property as a whole.

How then is the essence to be defined? The estate was born in a very heady time in the growth of our country, built by a wealthy and powerful person, to provide a setting for a very grand and gracious lifestyle.

It is a significant achievement in many ways.

In the most pedestrian aspect it is a logistical masterpiece. The kitchen, pantry and food service facilities far exceed most present day restaurants. A notebook was kept for Mrs. Post depicting photographs of almost thirty place settings of china, crystal and tableware to be selected for a given event. Staff quarters were generously provided and strategically located. The property manager's complex of buildings is free standing and located between the entrances. Mrs. Post's secretary's quarters were directly under the master suite with private access. The mechanical services, largely in the lower level, are far more reminiscent of the working spaces of a ship than a house.

The organization of its functional plan, extended into spatial concepts and inter-related, is fluid, exciting and appears to have grown together without effort. A good house should have a space for every mood. Note the contrast in photographs 4 and 8. Mar-A-Lago is unbelievably successful in that context. While the entertainment spaces are a fitting setting for

any jewels or gowns or presence, there are equally well executed spaces which are intimate, warm, whimsical, airy, casual, sheltering and a place to take the sun any time of day.

The decoration and treatment of the surfaces make this enormous structure at once a huge, interconnected painting. The antique Spanish tiles, some of which are seen in the entrance hall, photograph 3, form probably the greatest collection in the world. The plaster relief crests, the "Thousand Wing Ceiling," the marble inlaid floors, the wood parquet floors, the tapestries, paneling and millwork form an endless line of almost endless detail. Mrs. Post traveled the world to assemble the furnishings and decorative art that contribute largely to her statement. It is noteworthy that the very intricate, sometimes formal, sometimes casual textures always reflect the volume and shape of the spaces. The carvings, or more accurately sculptures, by Franz Barwig and his son are a study all in themselves. Working both in stone and wood, they created motifs of rams, birds, monkeys, comic people, parrots and an endless variety of floral patterns. The motifs range from very proud and stern to light and playful, from seriousness to absolute whimsy.

Finally, the assemblage of all this is executed with the same finesse as the parts. The sheer size of the mansion is mitigated by its division into separate components and the Ocean and Lake vistas. Far from being stoic, these components are integrated skillfully in a very fluid and romantic fashion. The expansion of the chimneys into major architectural elements -- or the termination of architectural elements by fanciful chimneys as seen in photograph 11, provide an especially playful, light and uplifting character to the entire complex. Scale is defined as the way one mass relates to another -- a mix of masses, not just the size of an element. The scale of Mar-A-Lago, set in its vistas, assembled with a full range of solid, open, soaring, rambling and playful

masses is truly masterful as can be seen in photograph 12. The visual expression is just what it was meant to be, a setting for a grand and gracious lifestyle. But, as the property says, a happy, light, and playful grand lifestyle.

CHAPTER FIVE

INVENTORY OF MAR-A-LAGO BUILDINGS

INVENTORY OF MAR-A-LAGO BUILDINGS

The glory of Mar-a-Lago has been described in detail and photographed in several of the sources listed in the Selected Bibliography and should serve as permanent reference for its preservation. The three most authoritative descriptions are excerpted in the following pages.

PART A

In Heiress: The Rich Life of Marjorie Merriweather Post, William Wright provides this portrait on pages 93 through 97:

Guests pass through an imposing and fanciful gate on South Ocean Boulevard and proceed up a drive lined with coconut palms....

Entering the house you come into a spacious hall with centuries-old Spanish tiles that line the walls to a height of eight feet. (There are some 36,000 such tiles embedded into those walls). A hooded fireplace with a bust of Homer on one side, Hadrian on the other, dominates the room. High on the walls are ten plaques of coats of arms related to the Post and Merriweather families that Marjorie had unearthed with the help of complaisant genealogists.

Huge cypress doors lead into a monumental drawing room that soars more than two stories to an overwhelming ceiling of intricately carved gold leaf, a copy of the famous "Thousand-Wing Ceiling" in Venice's Accademia. The room was proportioned to accommodate seven tapestries from a Venetian palace, which give a hushed and lugubrious feeling; yet clumps of heavy padded furniture scattered around make the vast space seem comfortable, almost cozy. The whole effect is very much like one of the movie palaces of the twenties that Urban and other romantics designed and that were, in turn, probably trying to resemble a fantastic private palace like Mar-a-Lago.

The drawing room is the most stupendous feature of a stupendous house and is surely one of the most remarkable rooms in any American residence. Marjorie delighted in the impact the room made. She would often conceal herself in the second-floor gallery on one of the small balconies high against the gold ceiling to observe guests' reactions when they first entered the room.

Marble steps lead up to a wide window alcove where an enormous expanse of plate glass frames the lawn and the ocean. When the glass (which had been specially made in Pittsburgh and with great difficulty was transported to Florida by a chartered truck) was being coaxed into position, it shattered. The months-long process had to be repeated.

The dining room, a copy of the room in Rome's Chigi Palace that Mussolini used as an office, was almost as lavish....

A modest library is lined with antique pine paneling and holds a portrait by Sir Joshua Reynolds. The drawing room opens onto an enclosed space called the Monkey Loggia because of some carved stone monkeys that perch near the ceiling (one next to the library wears glasses and is reading a book). Throughout the house appear intricate carvings in wood and

stone, mostly the work of Viennese sculptors, Franz Barwig and his son, who spent three years at Mar-a-Lago fashioning the rich ornamentation.

There were four master-bedroom suites; the one designated for Marjorie was of a Versailles lavishness. On the ground level, it was reached by the covered loggia that circles around the mansion's Lake Worth side. Inside, a sitting room was followed by two enormous bedrooms, side by side, one for Ed and one for Marjorie. Each had its own bath, but Marjorie's was more than just that.

One passed from her bedroom through a corridor (from which open various closets and a commode), ending up in a large semicircular room with windows overlooking the lawns and gardens that stretched to the lake. This room was a combination bath and office. It had a bathtub and dressing table, but it also had a desk and a phone. Here Marjorie would spend her morning with her secretary and masseur, exercising, putting together her toilette, writing letters, composing memos to the staff, making phone calls.

On the second floor of Mar-a-Lago a number of other bedroom suites open off the partially covered semicircular walk that tops the loggia below. Each of the major bedrooms is decorated in a completely different style, contributing strongly to the cries of "bastard" that met Mar-a-Lago's unveiling. One is in an old Dutch style with much heavy carved oak and Delft tiles -- Marjorie's mother had loved Delft -- set into the walls and into the head and footboards of the twin beds. Another suite is Spanish; another, perhaps the most incongruous in the predominantly Spanish-Moorish ambience, is a large room (in the formal English architectural style of the brothers Adam) that looks as though it could have graced the Governor's Mansion at Williamsburg.

A bedroom suite on the ground floor is perhaps the most fanciful of this free-wheeling architectural fantasy. It is "Deenie's House," also known as the Sleeping Beauty Suite, a series of rooms that open off the loggia next to the entrance to the Hutton's bedroom complex. Leading into these rooms is an iron gate. After the Lindbergh kidnapping an armed guard was stationed here at all times. Inside is a large sitting room and two bedrooms -- one for Nedenia, one for her nurse.

Dina's bedroom was an oval-shaped space that focused on a fireplace in the form of an outsized beehive. Rich ornamentation in plaster relief trailed around the walls: pink roses on twisting vines. Two bright yellow plaster canaries peeked out from the green plaster foliage....

Behind Mar-a-Lago is a nine hole golf course (reusing the same fairway) that stretched to Lake Worth and a boat dock. To either side, paths wend through lush tropical gardens. The patio has a large fountain and stone steps, with a blue flood-light installed in the tower to ensure all-phase, all-weather moonlight.

To the front a lawn stretches down to South Ocean Boulevard, a gentle upsweep in the lawn concealing the road but not high enough to block the view of the Atlantic Ocean.

PART B

The Honorable James R. Knott depicts Mar-a-Lago in The Mansion Builders: Palm Beach Revisited III on pages 56:

Old roof tiles were brought from Cuba. Italian and Portuguese workmen were hired to do much of the woodworking, but local labor was used as much as possible, including college youths. The ironwork was cast and wrought in West Palm Beach, and Florida cypress was used in doors, beams and wherever possible. Marjorie wanted to help the local economy, which was suffering badly after the collapse of the boom.

The decorative features of the house include 36,000 old Spanish tiles, many dating back to the 15th century. According to a scholar in that field, there are more antique Spanish tiles in Mar-a-Lago than in any other building in the world, excepting Spain's Alhambra. Three shiploads of Dorian stone, adaptable for carving, were brought from Genoa, Italy, for exterior walls, arches and other locations. Tiny sea shells and fossils can be seen in it.

The lofty gold-leaf ceiling of the living room at Mar-a-Lago is a copy of the famous "Thousand-Wing Ceiling" in the Accademia in Venice. Spanish furnishings and lanterns and Bristol chandeliers are complemented by rare silk-needlework panels on the walls, from an old palace in Venice. The dining room is adapted from that of the Chigi Palace in Rome, used by Mussolini as his office. The library, panelled in old English walnut, contains notable paintings. The guest suites are named for their decor -- Adam, Venetian, Spanish, Portuguese, Dutch (delft), American, etc. The wing designed for Dina's childhood days, "Deenie's House," with her oval bedroom guarded by wrought iron bars (after the Lindbergh kidnapping), features fairy-tale motifs.

PART C

The most detailed inventory of Mar-a-Lago was compiled by John C. Poppeliers, Dr. Samuel Proctor, Nancy K. Beinke and Professor F. Blair Reeves, A.I.A. as HABS No. FLA-195 for the Historic American Building Survey of The National Park Service's Office of Archeology and Historic Preservation:

MAR-A-LAGO

Location: 1100 South Ocean Boulevard, Palm Beach,
Palm Beach County, Florida

Statement of Significance: Mar-a-Lago is one of the most lavish mansions built in Florida in the early 20th century when the State was a wintering place for the country's wealthiest and most prominent families. Architecturally, it followed the contemporary vogue for the Spanish Revival, a style particularly suited to the climate and history of the area.

PART I. HISTORICAL INFORMATION

A. Physical History:

1. Legal description of the property: The 16.98 acres which make up the estate are described as "being all that part of the North 610.00 feet of the South 1170.00 feet of Government Lot 2 of Section 35, Township 43 South, Range 43 East, in the Town of Palm Beach, Palm Beach County, Florida, lying West of Ocean Boulevard (S. R. AIA) Right of Way . . ."
2. Date of erection: Construction began in 1923. The house was officially opened in January, 1927.
3. Architect: Marion Sims Wyeth, FAIA.

Interior designer: Joseph Urban.

Sculptor: Franz Barwig.

Landscape Architects: The firm of Lewis and Valentine was responsible for the original landscaping.

4. Original plans and construction: Mar-a-Lago is one of America's most elaborate 20th century mansions. The site, the style, and a large amount of the decor was personally chosen by Marjorie Merriweather Post (then Mrs. Edward F. Hutton), who had the house built. After searching the area south of Worth Avenue for many months with her agent, Lytle Hull, Mrs. Post found a property which was suitable for the construction of the kind of residence she wanted. The property, overgrown with lush vegetation, consisted of approximately seventeen acres on a coral reef located between the Atlantic Ocean and Lake Worth. The reef provided a firm base for the house which was anchored to it with concrete and steel, and has withstood hurricanes and heavy tropical storms over the years. The name Mar-a-Lago means between sea and lake.

Construction of Mar-a-Lago began in 1923. At that time Addison Mizner was the rage in Palm Beach, creating tile-roofed palaces for wealthy patrons in a style inspired by the architecture of Spain. Mrs. Post, however, retained Marion Sims Wyeth, a graduate of Princeton and the Ecole des Beaux Arts, as her architect. Many of the ideas that went into the house were Mrs. Post's. She had traveled extensively in Europe, visiting the palaces, estates, and great museums of the continent. She had seen many decorative motifs which she wished to adapt for her own residence and had acquired a collection of architectural remnants and fine furnishings which

were incorporated in the house. It was her idea to bring together the Spanish, Venetian, and Portuguese styles into one harmonious and striking effect.

Joseph Urban, noted among his many accomplishments as an interior designer, was chosen to oversee the interior decoration and carved ornamental stone work at Mar-a-Lago. He was responsible for bringing his fellow Viennese, Franz Barwig and Barwig's son, Walter, to Palm Beach to execute the interior and exterior sculpture. Father and son worked nearly three years developing the various motifs, including the parrot, money, ram's head, eagle, and griffin figures which adorn the outside and cloister walls for which the residence is so famous. Their modeling shop, where much of the carving and casting was done, stood near the present entrance to the beach tunnel. The original plaster models are still stored on the premises.

Cooper C. Lightbrown of Washington, D.C., received the construction contract. Most of his workmen were recruited from the greater Palm Beach area where the building boom had caused a cadre of skilled workmen to assemble. Because of the vogue for the Spanish style in palatial resort building, firms which manufactured the pottery, tile and ironwork needed for this style had sprung up in Palm Beach. Consequently, much of the material for the house was purchased in the area.

Among the imported materials were the three boatloads of Doria stone from Genoa used for the exterior wall facing, some of the interiors, the arches, and the Barwig sculptures. This fossil-bearing limestone was chosen for its quality of rapid aging and its suitability for intricate carving. The roofing tiles, approximately 20,000 of them, and the 2,200 black and white marble floor blocks used in the entrance hall, living, and dining rooms came from a Cuban castle. Of particular interest is the vast number of antique Spanish tiles which are used lavishly in the entrance hall, patio, cloisters, and in some of the rooms. Mrs. Post acquired a collection of nearly 36,000 tiles that had been assembled in the 1880's by Mrs. Horace Havermeyer. These tiles date back to the 15th century, and some of the oldest ones show the influence of the Moors after their invasion of Spain. The collection of Spanish tiles at Mar-a-Lago is probably one of the largest in the world.

The house is a sprawling Mediterranean-style villa that is an adaptation of the Hispano-Moresque style which was so popular in Palm Beach at the time. It has a two-story central block with family quarters and service areas in lower subsidiary wings and buildings. This arrangement was chosen by Mrs. Post to keep the main house from appearing too massive and to separate the family and service areas from those used for entertaining. The

ocean facade of the house is rectangular, while on the west side a crescent-shaped arc lined with double cloisters faces Lake Worth. Sheltered in the crescent is a round patio paved with surf-polished stones discovered by Mrs. Post along the beaches of her Long Island hunting preserve at Great South Bay. Carloads of these black, white, yellow, multicolored stones were shipped to Mar-a-Lago and laid in the pattern of a courtyard Mrs. Post had seen at the Alhambra in Spain. The house is topped by a seventy-five foot, tile-roofed tower containing bedrooms and baths and an observation deck commanding a view of Palm Beach for miles around.

Stretching from the house down to Lake Worth are the landscaped grounds including a nine-hole golf course. At one time Mrs. Post brought the Ringling Brothers-Barnum & Bailey Circus to the estate to give a benefit show, and the tents were pitched on this spacious lawn. The main entrance to the house is through a large gate and coconut palm-lined drive on the Atlantic Ocean side. A stone path and tunnel pass under South Ocean Boulevard to the ocean beach where a private pool and cabanas serve Mrs. Post and her guests. Joseph Urban's Bath and Tennis Club is also accessible through this tunnel.

The grounds are beautifully landscaped with tropical vegetation and flowers. Potted plants and flowers also profusely adorn the patio and loggias. A citrus grove, greenhouses, a cutting garden, guest houses, and staff quarters are also on the estate. Colored lights in the trees and lanterns in the cloisters accentuate the architecture and foliage at night.

Mar-a-Lago is filled with fine furniture, art objects, and ornaments that Mrs. Post has collected during her travels or has commissioned especially for the house. This is illustrated by the central and most important room in the house, the living room, sometimes called the gold room. The gold leaf ceiling is a copy of the "Thousand-Wing Ceiling" in the Accademia at Venice. Mrs. Post substituted a gold sunburst for the angel faces in the centers of the wing motifs of the original. Seven rare silk needlework panels from a Venetian palace are on the walls, and suspended from the seven large archways are old Spanish lanterns. The large hooded fireplace was designed by Joseph Urban to be a harmonious focal point for the room. On the ocean side of the room, a small, raised loggia leads to the great arched window set in a deep border of carved griffins which is the most prominent architectural feature of the east facade. The glass was so large that the freight cars transporting it from the factory in Pittsburgh had to be rerouted to avoid tunnels and low bridges. The whole process had to be repeated when the first window shattered while being set in place.

The house contains various bedroom suites, each named for its interior

design and decor; many of these suites have a panoramic view of the gardens. The Dutch Room is a memorial to Mrs. Post's mother who particularly liked the Dutch Delft tiles from which the room takes its name. The suite that was used by Mrs. Post's daughter, the actress Dina Merrill, when she was a child is called the Baby House and is furnished with a carved, silvered bed and an intricately designed beehive fireplace. The hinges of the doors are designed as twining roses, and the handles are small squirrels with the tails for the levers. The rug in this room was woven from a design in a fairy tale illustrated by Joseph Urban.

5. Alterations and additions: Mar-a-Lago has been substantially unaltered since its completion. The one major change has been the addition of a dance pavilion and passage at the southwest end of the cloister in 1961-62, to accommodate, among other entertainments, the square dances which Mrs. Post particularly enjoys.

In 1964, the patio off the Monkey Loggia was enclosed with glass to form the "Tent Room." It is used for dining.

Fall-out shelters have been added in the basement of the main structure.

PART II. ARCHITECTURAL INFORMATION

A. General Statement:

Constructed of reinforced concrete and hollow ceramic tile faced with stucco and/or stone veneer, its detailing is excellent, consisting of bas-relief and sculpture in Doria stone (fossil-bearing limestone from Genoa, Italy), antique Spanish glazed tile, and carved cypress details. A seventy-five foot tower dominates the structure and provides a focal point for the Palm Beach area.

B. Description of Exterior:

1. Overall dimensions: Approximately 300' by 600'.
2. Foundations: The structure was built on a coral reef, and, as a protection against high tides, reinforced concrete and/or sheet steel piling were used in addition to reinforced concrete slab and foundation walls.
3. Wall construction: Walls are constructed of hollow sixteen inch ceramic tile. The interior is covered with lath and plaster 1-1/2 to 2 inches thick. On the exterior is a white-brown cement stucco in a variety of textures. Carved Doria stone in dressed ashlar and bas-relief patterns is used for most of the exterior ornament. Spanish glazed tiles (in abstractions of the Lion

of San Marco, three towered castle, floral and geometric patterns) set in cement serve as wainscots and decorative panels. The tower framing is reinforced concrete and cypress.

4. Porte-cochere, cloisters, patio, covered ways, courtyards:

a. Porte-cochere: A porte-cochere, with a covered way above, arches across the main drive between the entrance hall and the guest house, and provides the principal entrance to the house. The arched openings spring from two engaged columns at each corner. Two male figures in bas-relief serve as capitals of each column. The ceiling of the porte-cochere is plastered in a groined vault. An antique hand-worked sheet metal and glass lantern hangs from the intersection of the groins and is secured by chains from the four corners. At the south side of the porte-cochere is the arched opening to the entrance hall. The barrel-vaulted stone ceiling is coffered with a flora boss in each panel. The surround of the main entrance door is round-arched with bas-relief in a floriate and human figure motif. The door consists of wrought-iron grille work with glass backing. Opposite the main door is another similar door to the guest house.

b. First Level Cloister: This cloister follows the concave curve of the house on the west side at the first floor level. It provides a transitional space between the living room and library and the circular patio and also provides access to the Owner's Suite, the Baby House (Children's Suite), secretaries' offices, second-floor stairways, and to the kitchen-service area. Continuity of the cloister's arcade and vaulted ceiling is interrupted by arches and groined ceiling at the doorway from the living room and at each end of the crescent.

1. Flooring: The floor is paved with Doria stone. Ceramic strip inserts in an interlacing bond motif (a detail which occurs in other paving and as a stair-riser decoration) define the paving pattern. An inlay of black pebbles (see patio flooring) occurs at the living room entry and at the ends of the cloister.

2. Ceiling: The cloister has a barrel-vaulted plaster ceiling. A rope molding marks the intersections of the cloister vault with the arches of the arcade. This treatment is repeated on the inside wall with corbeled capitals.

3. Walls: Inside walls are Doria stone with large panels of antique Spanish glazed ceramic tiles reflecting the open arches opposite.
 4. Cloister arches: Soffits are decorated in an arabesque lineal pattern of foliage and grapes. The arches are framed by simple ashlar masonry on the patio side. The arches and wall surrounds opposite the living room entry and at the ends of the cloister project outward and are decorated with an elaborate bas-relief on the patio facade. This bas-relief is in a vine and bird motif. Vines grow upward from pendent bases at the springline of each arch to include grape clusters, bells, flowers, birds on nests and in flight, with the central motif of birds feeding their young occurring at the keystone.
 5. Columns: Exterior columns of the cloister have Doria stone capitals carved in a motif of entwined birds above acanthus leaves. Column shafts are cast concrete replacements emulating originals of Doria stone. Carved square bases include free-standing hovering birds at each corner. Columns in the recessed entrance to the library and Children's Suite are engaged and free-standing.
 6. Lighting: A variety of sheet metal and glass lanterns in a traditional Spanish style.
- c. Cloister to the Owner's Suite: A short cloister at right angles to the southwest terminal of the first level cloister leads to the Owner's Suite. The treatment of the columns and arches of the arcade is the same as that of the main cloister. Spanning the cloister is a round arch of Doria stone voussoirs which springs from two free-standing columns. Beyond the arch, tile-decorated steps lead up to the entrance to the Pine Hall (anteroom to the Owner's Suite). The double doors are of wrought iron with glass backing and are contained in an arched opening with tile surround. To the right an arcade and stairway lead to the modern Dance Pavilion.
 - d. Cloister to the Kitchen-Service Wing: A short cloister at right angles to the northwest terminal of the first level cloister corresponds to the cloister to the Owner's Suite. At its northern end are two arched openings with wrought-iron grilles backed with glass which lead to the service areas.
 - e. Patio: The round patio is defined by the cloister, by curving

stairways to the west lawn, and by the Parrot Pool. The patio is paved in geometric patterns of black, yellow, and white pebbles from Great South Bay, Long Island. Black pebbles form an interlocking linear pattern which delineates eight-pointed stars and irregular five-sided polygons in the light-colored ground. Planting beds for tropical trees and plants interrupt the paved surface. At the east and west sides of the patio, curving stone stairways lead down to the level of the lawn. Between the stairways is the Parrot Pool, named for Barwig's carved parrots which ornament it. At the center of the retaining wall that supports the Parrot Pool is a Doria stone fountain. It consists of a shallow pool at patio level which is cantilevered over the basin of a larger pool at lawn level. The upper pool is fed by parrot spouts situated at the rim. The lower pool is fed by three Doria stone swans with wings and necks extended. The retaining wall terminates at the fountain with two carved stone finials with clusters of parrots at the tops. Similar finials occur at the lower ends of the stair rails. Wrought iron marsh grass and water birds project above the retaining wall at the west side of the upper pool.

- f. Upper Cloister and Loggia: The upper cloister or loggia is immediately above the first level cloister and provides access to the guests' quarters and the secretaries' offices.
1. Floor: Unglazed ceramic tile, sealed and unsealed.
 2. The parapet wall of the first level cloister extends upwards to rail height to form a protective guard, perforated in a guilloche pattern. Wooden benches provide seating adjacent to the guard. Cast concrete outlookers in a parrot head and modified acanthus motif provide front-lighting for the parapet wall.
 3. Roof: A mission-tile shed roof covers half of the upper cloister providing covered access between rooms. Columns supporting the roof are chamfered and tapered. The capitals are two-piece bolsters carved in a cyma reversa profile and fastened with dove-tail wooden keep. The fascia and soffit of the cornice are decorative with inlaid ceramic tiles, painted rope molding and corbeled rafters, the ends of which are carved and gilded eagles. Panels of turned wooden balusters are used as a frieze decoration and in grilles between columns and interior wall.

- g. Covered Way between Kitchen Area and Secretary's Cottage (Circulation element at the north side of the lawn, opposite the Dance Pavilion and adjacent to the Service Wing): The covered way has Doria stone pedestals and columns with geometric capitals. There are wooden balustrades between column pedestals. A balustrade panel with carved wooden parrot and cockatoo finials forms a screen at the steps from lawn to the covered way. The wall of the covered way is of stucco with Spanish tile wainscot and panels and half-round arched openings with grilles of wood balusters. A stairway runs from the covered way up to the kitchen-serving wing.
 - h. Veranda and Covered Way above Porte-cochere: Joins the Venetian Room and the Guest House. The wooden columns are chamfered and bolstered like those of the upper cloister. The gable roof is tiled.
 - i. Covered way from southwest terminal of first level cloister to Dance Pavilion (c. 1961-62 construction): The stairway to the Dance Pavilion runs down through a multi-level arcade with groined vaults in the ceiling stepped to coincide with changes in stair elevation. Spanish tiles in arched panels define changes in vault levels. There are wrought-iron grilles between piers and columns.
 - j. Courtyard between the Owner's Suite and the Children's Suite: An arch with bellcote spans from the northwest corner of the Children's Suite to the interior stairway connecting the Owner's Suite with secretaries' offices above. The stairway is strongly articulated by projecting patterns suggesting boxed risers and treads. Symbolic balusters and railing provide reveals for groups of windows and roof following the incline of the stair.
 - k. The Owner's Maids' Patio: This patio lies south of the covered way and stairs to the Dance Pavilion, between the Dance Pavilion, the Owner's Suite, and the owner's maids' quarters. There is a curving stone exterior stairway to the Owner's Suite with wrought-iron balustrade and stair enclosure.
 - l. Service Courtyard: Defined by service kitchen and service wing, garage, and laundry.
5. Chimneys: Except for the tower, the chimneys provide the only vertical emphasis in the design of the house. They are extremely tall with hooded caps and contain one or more flues. They are constructed of stucco-covered brick. A grouping of single shafts appears in the area of the Owner's and

Children's suites, often in combination with decorative stucco parapets.

6. Openings:

- a. Doorways and doors: See detailed descriptions of porte-cochere and floor plans.
- b. Windows, balconies:
 1. Living Room windows, east (ocean) elevation: The huge round-arched central window is the main feature of the east facade. It is made of a single sheet of plate glass, framed by lacy wrought iron, and set in a deep Doria stone surround of carved griffins with a border of acanthus leaves. Projecting blocks define the springline and keystone. Three levels of planters project outward from the window in concentric semi-circles. On either side of the central window, a corbeled arch encloses a recessed panel of glazed Spanish tile. Within each panel, a round-arched window is set in a simple masonry surround.
 2. Seven-Window Balcony: Centered above the large window is an arcade of seven unglazed openings which communicates with a narrow porch above the living room loggia. The arches are elaborately ornamented in a Moorish manner. Each column and capital is carved in a different motif. The spandrels are covered with arabesque patterns in bas-relief. Above each capital is a projecting lion's head. Similar, but less elaborate, arcades are found beneath the eaves on other elevations.
 3. Dining Room Window: The large rectangular window in the dining room faces onto the service courtyard beside the porte-cochere. It has a Doria stone surround carve with foliage and human figure motif like that of the main entrance door. Totems of carved monkeys flank the window.
 4. Kitchen Windows: The three round-arch openings on the east side of the kitchen wing are filled with wrought-iron grille work. Above them is a corbeled drip detail of mission tile. Separating the windows are four carved figures on pedestals representing vendors of fish, wine, vegetables, and poultry.

5. Window in Ladies' Cloak Room: In the northern portion of the east elevation is the large round-arched window to the ladies' cloak room. It has a wide surround of Doria stone voussoirs with a fascia of acanthus molding and man and vine bas-relief similar to that on the dining room window. The base course of the house is stepped upwards into the sill. Directly above, a wrought-iron grille covers the window of the Spanish Room. The pieces of carved-in-place sculpture on corbels depict a dancing couple and two musicians. A stepped drip molding pattern encloses the two windows and the sculpture. Monkey pendants occur at the terminals of the drip moldings.
6. Window in Men's Cloak Room: This window, just east of the porte-cochere, is similar to the one described above but lacks the sculptured figures.
7. Balcony off of Spanish Room and Spanish Room Bathroom: At either corner of the projecting northern portion of the east facade are small balconies at the second-floor level. They have circular floors and wrought-iron railings in an ogee curve. The supporting stone brackets are carved in an eagle and wing motif.
8. Windows in Baby House: Rectangular casement windows have iron grilles with copper inserts illustrating various fairy tales. There are wrought-iron cages over the windows in the apsidal end of the bedroom of the Baby House.
9. Windows, South Wall of the Norwegian Room: Pairs of round-arched windows are separated by columns supporting two arches. (A similar detail is at the doorway between the owner's bedroom and terrace.)
10. Windows, Apsidal end of the owner's dressing room: Five round-arched openings have two casement windows per opening.
11. Windows, East elevation, Guest House: Wrought-iron cages cover the windows at first floor level.

7. Roof:

- a. Shape and covering: Hipped and gable roofs are covered with

antique Cuban mission tiles and modern "Palm Beach Cuban" mission tiles over cypress sheathing. The tile is earthen red in color. During the last ten years, all the roofing tiles were removed and the felt and asphalt base beneath was replaced. The tiles were then rewet in a cement and mortar mixture. All exterior copper flashing and pans were also replaced.

- b. Cornice and eaves: The ends of the rafters and corbeled beams are cypress carved in ram's head, eagle, parrot, and griffin motifs. The soffits have panel decorations.
- c. Dormers: There are sheet metal eyebrow-dormers, louvered to accommodate air conditioning equipment.
- d. Tower: The 75-foot tower rises from the roof of the house. It has a mission-tile roof with a tall decorative stucco chimney. In plan it is a rectangle truncated at each corner to form an irregular octagon. Each of the four large faces have two arched windows with a carved cartouche containing a coat of arms between them. At the top level are four cantilevered balconies supported on shaped brackets. The balconies have round wooden columns and guard rails of turned balusters. The wall faces between the balconies are set with ceramic tile.

C. Description of Interior:

- 1. Entrance Hall: This hall is directly entered by way of the main door from the porte-cochere. It provides access to the living room, men's and women's cloak rooms, minor entrance to the dining room, and to telephone and janitor closets.
 - a. Floor: Diagonal floor pattern of 9" x 9" clay tile with white marble tile border.
 - b. Walls: There is a high wainscoting of antique Spanish tiles in a variety of patterns. The basic colors are blue, yellow, and white. In the center of the east wall is a fireplace with conical hood recessed in a stepped tile opening. A clock with a tile face is set into a balustrade which surrounds the opening of the hood. Flanking the fireplace are corbeled niches containing early Italian copies of Roman busts. Corresponding niches and recess on the west wall contain a table and two Dresden urns.

- c. Ceiling: The beamed ceiling of traditional Spanish design is painted black, red, and buff and is hung from steel eye beams. The ceiling panels contain figures of lions and griffins which correspond to the crests of the Merriweather and Post families which hang high on the walls.
 - d. Lighting: The hall contains eight old Spanish lanterns, four in a star shape and two, in the center, which are rectangular and gilded.
 - e. Opposite the main exterior door, already described, is the round-arched door to the living room. The two wooden leaves are each divided into 35 panels which contain a metal boss on the hall side and a gilded cherub on the living room side. The iron door pull is in a mother-and-child motif. Four quatrefoil-studded doors lead from the hall to the secondary spaces.
2. Men's Cloak Room:
 - a. Floor: 9" by 9" ceramic tile with a black tile border.
 - b. Walls: Three kinds of multicolored blue, yellow, and white Spanish tiles from octagonal patterns.
 - c. Ceiling: Sand-finished plaster ceiling of natural color with a wooden cornice.
 - d. Fixtures: Marble lavatory, with chrome - finished brass fixtures. Two toilet rooms each contain a water closet.
 3. Women's Cloak Room: Similar to room described above. Fixtures are brass with gold finish.
 4. Living Room: The room is basically rectangular in plan, approximately 30' by 60' with a 42' ceiling height. A loggia, approximately 6' deep and 60' long, runs along the east side of the room and contains the large east facade window. It is approximately 2' above the living room floor level. There are two diagonal corner walls at the northwest and southwest which contain the openings to the library and dining room.
 - a. Floor: The wooden parquet floor has a black and brown basket-weave pattern with a border of tan travertine and

veined dark green marble. An antique Spanish rug covers most of the floor. The floor of the loggia is green marble with travertine in a geometric pattern. A tigerskin rug lies in the entrance to the loggia.

- b. Walls: The walls are plastered, stained, and ornamented with gold leaf. Seven tall panels contain old silk needlework tapestries from a Venetian palace. The panels are defined by bas-relief plaster moldings in classical bead and reed, woven, floral, and arabesque patterns. Marking the corners of the room are small panels, extending vertically from floor to cornice and outlined with woven plaster molding. In each panel are bosses in a bird and floral motif. Above each doorway is a bas-relief plaster depiction of armor and heraldic devices in gold leaf. Gold spiral columns run up the walls to connect with pendent panels from the ceiling. The pendent panels are outlined with an acanthus leaf molding. Those which are not attached to columns terminate with a column capital boss. The arches between the panels are decorated with the coats of arms of the Doges of Venice on a multifleur ground.

On the walls of the loggia are frescoes copied from those by Benozzo Gozzoli in the Riccardo-Medici Plazzo in Florence. They were adapted for the room by Franz Barwig.

- c. Ceiling: The ceiling is a copy of the "Thousand-Wing Ceiling" in the Accademia in Venice. It consists of panels created for floriated ribs running diagonally to the main axis of the room. The panels are decorated with a bas-relief sunburst surrounded by radiating pairs of feathered wings in gold leaf on a green ground. Mrs. Post's adaptation varies from the original in the substitution of the sunburst motif for angels faces in the center of the panels and in the use of the secular coats of arms rather than those of the monks of the Accademia.

The ornamental ceiling is hung from steel eye beams leaving a space for air conditioning equipment above.

The ceiling of the loggia is coffered. The coffers are decorated with man-and-hawk bosses.

- d. Lighting: Two Bristol chandeliers hang in the center of the

room. Old Spanish metal and glass lanterns hang from the open archways to adjoining rooms. Additional lighting is provided by table and floor lamps and directional lighting fixtures which focus on the needlework panels.

- e. Fireplace: The tall hooded fireplace was designed by Joseph Urban to dominate the wall of the living room opposite the main entrance door. The hood is semicircular and ribbed, each rib decorated with rope moldings. Between the ribs and at the peak of the hood are gold bosses in the shape of human heads. The hood is supported at each side by a stone bracket and three stepped spiral columns. The cornice of the hood is machicolated with a floral molding above and a sunburst and wing decoration on the soffit. The rectangular fireplace surround and hearth are of Doria stone and travertine marble. The Post coat of arms in bas-relief is above the fireplace opening. The curved antique firescreen is of wrought iron.

f. Openings:

1. A triple-arched opening which separates the living room and loggia consists of a large central pointed arch flanked by two smaller arches. It is approached by three marble steps. The arches spring from paired spiral columns with acanthus capitals and bases composed of carved free-standing lion figures on pedestals. The soffits and reveals are decorated with an arabesque motif.

The panel above the three arches is decorated with heraldic symbols. The arches in the cornice are subdivided into pairs of round-arched openings with a lantern in each opening. Secondary openings between the loggia and living room consist of pointed arches with balustrades in a quatrefoil pattern; panels above are decorated with floriated heraldic cresting and coat of arms in gold leaf on plaster.

2. Doorways into the cloister and anterooms to the dining room and library are similar to the arched openings to the loggia. The doorway to the cloister is filled with an elaborate wrought-iron grille composed of a surround, overdoor, and two glass-

backed rectangular grille doors.

3. Doorway to the Monkey Loggia is filled with a paneled screen decorated with cherub bosses corresponding to the door from the entrance hall. Two rectangular doors are in the screen.
4. The rectangular windows between the living room and cloister have molded valances with fleur-de-lis cresting and wrought-iron screens. There are two casement sash per opening. The windows flank the door to the cloister.
5. Monkey Loggia: The monkey loggia is a rectangular room (approximately 12' by 35') immediately to the south of the living room. It provides a connection between the living room and the glass-enclosed tea house called the "Tent Room" which was built in 1964. The name comes from the carved monkeys with which Franz Barwig decorated the loggia.
 - a. Floor: Ceramic tile.
 - b. Walls: The walls are plaster with round-arched panels of Spanish tiles in blue, yellow, white, and brown. Most of the tiles are 5-1/2" by 11" and 5-1/2" square. The tiles with the lettering "Plus Ultra" are some of the oldest used in the house. The trim and carved monkeys are of Doria stone.
 - c. Ceiling: Barrel-vaulted with cement-finish plaster.
 - d. Openings: The three arched openings into the "Tent Room" are filled with glass-backed wrought-iron grilles. The reverse sides of the living room doors are finished with flush boards and strap hinges.
 - e. Lighting: Sheet metal and glass Spanish lantern.
6. Dining Room: The dining room is approached through an anteroom with

frescoed walls, marble tile floor, and beamed ceiling. An open arch in the northwest corner of the living room leads into the anteroom and a second arched and draped opening leads to the dining room. The dining room has nearly rectangular (approximately 30' by 50') plan with two corner walls at a diagonal. Minor doorways lead into the entrance hall and into the butler's pantry. The Renaissance decoration of the room is copied from a room in the Chigi Palace in Rome. The inlaid table has been previously described.

- a. Floor: Black and white marble tiles are set in a diagonal checkered pattern with travertine surround. The floor is covered with an oriental rug.
 - b. Walls: The plaster walls are covered with canvas painted with seascapes copied from frescoes in the Chigi Palace. The walls are divided into large segmental and smaller rectangular panels by combination pilasters - 3/4 engaged columns. The multicolored simulated marble columns and travertine pilasters have composite capitals of gilded acanthus eaves. This treatment varies from the room in the Chigi Palace where the columns were trompe l'oeil. The tops of the panels are heavily molded and ornamented with gold-leaf swags and bearded faces. Bulbous extensions of the column capitals support the ceiling beams.
 - c. Ceiling: Ceiling beams span the short dimension of the room. Bas-relief floriated and classical egg-and-dart moldings define curvilinear panels painted in sky patterns on canvas.
 - d. Lighting: There are two chandeliers of gilded carved wood with flower-shaped fabric light diffusers.
 - e. Fireplace: The travertine surround has a baroque pediment with egg-and-dart and cavetto moldings. Scallop shell and floral decorations fill the pediment.
7. Library: Approached through an anteroom at the southwest corner of the living room, the library is basically rectangular in plan (approximately 20' by 40') with irregular diagonal corners at the fireplace wall. The paneled decoration is of Georgian inspiration.
- a. Floor: Pegged oak boards.
 - b. Walls: The paneled walnut wainscot is approximately 10' high with a heavy wooden cornice. Above that, the wall is plaster with a

plaster cornice in combinations of dentil, egg-and-dart, and other classical moldings.

- c. Ceiling: Plaster ceiling in a bas-relief geometric panel pattern.
- d. Fireplace: The rectangular opening has a green marble facing surrounded by a wide mitered walnut molding. The mantle frieze is carved in a floriate pattern. The cornice has dentils and cavetto moldings. In the panel above the mantel is a fixed painting of a seascape surrounded by carved wooden swags. The fireplace wall is set off by fluted Ionic pilasters.
- e. Lighting: Wooden sconces and table lamps.
- f. Openings: Doorways and window trim have the same floral pattern as the wainscot cornice and fireplace frieze. There are two rectangular openings with glass and metal frame doors between the library and cloister. French doors open onto the terrace at the southwest corner at the monkey loggia.

8. Baby House (Children's Suite or Deenie's House):

Accessible from the first level cloister and by means of a curving stairway from the upper loggia, from the Dutch Room and assistant secretary's office. The suite consists of a vestibule, sitting room, nurse's bedroom and bath, child's room and bath, and a sleeping porch.

- a. Vestibule: Pegged wooden floor; paneled ceiling; plaster walls with wooden paneled wainscot and framed tapestry panel; paneled door with silver plated hardware.
- b. Sitting Room (Baby's Play Room): Pegged wooden floor; plaster ceiling with wooden cornice and cove lighting. Walls are paper on plaster. Fireplace has a surround of wood, mirror, and marble, and a wooden veneer and mirror mantle with mirror panel above. There is a display case of mirror panels; a heating grill has reeded column surround; and the flush wooden doors have silver-plated and transparent plastic hardware. To the west of this room is the maid's room and bath.
- c. Child's Room (Baby's Bedroom): This is the main room in the suite. It has a rectangular sleeping space and an apsidal sitting area with tall arched windows and a beehive fireplace. The pegged wooden floor is partially covered with a rug woven in medieval

fairy tale motifs based on Joseph Urban illustrations. A pink bas-relief wild rose pattern covers the fireplace and spreads over the plaster walls into the sleeping area. The wild rose motif is repeated in the fire screen, the door hinges, and the crystal chandeliers. The sitting area has a half-domed ceiling and is separated from the sleeping area by a wide arch. The six casement windows have exterior grilles with copper inserts. The day sleeping porch is west of the main sleeping area. The silver-plated squirrel door handles and the squirrel bed have already been described.

- d. Child's Bathroom: Two rows of tiles illustrating familiar nursery rhymes ring the room at a child's eye level. The rug is woven in childhood scenes.
9. Owner's Suite: Accessible from the south end of the cloister, and by a stairway from the maid's quarters, secretary's office, and upper loggia. The Owner's Suite consists of Pine Hall (an antechamber), a vestibule (Louis XV Hall), the owner's bedroom, toilet, bath and dressing room, and the Norwegian Room and bath;
- a. Pine Hall, antechamber and sitting room:
 1. Floor: Pegged wooden floor with oriental rug.
 2. Walls: Walls have wooden panels, cornice, and trim. Large oil paintings above the wainscot are painted on canvas applied to the plaster walls. The fireplace wall is entirely paneled.
 3. Ceiling: Plaster ceiling with raised geometric moldings.
 4. Lighting: Two skylights, a central crystal chandelier, and table lamps.
 5. Fireplace: The fireplace opening has a veined black marble facing and contains pieces of mined resin, backlighted to simulate glowing coals, in a cast-iron brazier. The wooden mantel has egg-and-dart molding. The arched overmantel panel contains a carved bas-relief rose tree which incorporates floral pedestals upon which small figurines are placed. The mantel and overmantel are enclosed by fluted columns supporting a broken Baroque pediment.
 6. Openings: Double sliding doors and double wrought-iron

doors separate the Pine Hall from the cloister. A glazed door of ten panes leads to the exterior iron stairway to the ground-level terrace. Another door opens to the stairway to the maid's quarters, secretary's office, and upper loggia.

- b. Vestibule: It provides access from Pine Hall into the owner's bedroom and the Norwegian Room.
 1. Floor: Black and white marble tile.
 2. Walls: Wall treatments include panels painted in floral patterns, a mirror panel, and a false door.
 3. Ceiling: Flat plaster dome with gilded classical cornice and painted floral motif.
 4. Doors: Two doors in sequence per opening, one hung, one sliding. Doors are painted with medallions containing dancing figures.

- c. The Owner's Bedroom: Rectangular in plan, approximately 24' by 36'. Decorated in Louis XVI style.
 1. Floor: Wooden parquetry with marble baseboard.
 2. Walls: Above the paneled wainscoting, painted wooden molding separates the walls into large panels. These panels are filled with linen inserts painted with floral swags. Above each door is a paper insert with urn and floral decoration.
 3. Ceiling: Plaster with a central bas-relief medallion and wide coved cornice.
 4. Lighting: Crystal and gilded brass chandelier and sconces.
 5. Fireplace: The rectangular opening has an iron surround and marble hearth. The fire dogs and fenders and tools are of polished brass. The marble mantel has gold-plated metal inserts and a mirrored panel above.
 6. Decorative feature: The draped canopy above the bed

has a wooden gilt frame attached to the wall at the cornice line. Drapery swags fall from the canopy and are tied back at each side of the headboard.

7. Openings: Doors are three paneled with tiny rosettes at the corners of the panels and have bracketed cornices. Hardware is gold-plated. Doorways between the owner's bedroom, vestibule and Norwegian Room have two doors in sequence per opening, one sliding and one hinged. Two round-arched openings, each containing two French doors, open onto the room-level terrace at the south elevation.
- d. Clothes closet and trunk room.
 - e. Toilet room off corridor between the owner's bedroom and bath-dressing room; electrically-operated safe.
 - f. Bath and Dressing Room:
 1. Flooring: Tile and marble with rug cover.
 2. Walls: Walls are multicolored onyx marble and ceramic tile with marble trim and classical cornice; tiled tub recess has marble surround; lavatory recess is similar.
 3. Ceiling: Flat and vaulted plaster ceiling, flat arch between bathing and dressing areas.
 4. Lighting: Lamps, sconces, lanterns, and cove lighting.
 5. Fireplace: Marble fireplace surround, mantel carved in floral pattern. Iron facing in fireplace opening; brass fireplace hardware.
 6. Openings: The apsidal end of the dressing room is perforated with five round-arched openings containing two casement windows per opening. An etched mirror door leads into the closet.
 7. Notable hardware: Gilded brass door and plumbing

hardware, antiqued bronze grilles.

- g. Norwegian Room:
 - 1. Flooring: Wood strips.
 - 2. Walls: Plaster.
 - 3. Ceiling: Beamed ceiling (painted mahogany) with acanthus leaves, brackets supporting the beams; painted joists.
 - 4. Openings: Casement windows and an extended bay window at the east elevation.
 - h. Bath off Norwegian Room: Extensive use of antique Spanish tile in wainscot and shower recess.
10. Vestibule-hall to Adam room, Spanish room, Venetian room, and to Venetian bedrooms (Guest House).
- a. Vestibule-hall: Access from upper loggia.
 - 1. Floor: Ceramic tile.
 - 2. Walls: Pilaster with applied ceramic tile. A wooden grille made of spool-turned panels divides the hall into sections.
 - 3. Ceiling: Barrel-vaulted plaster ceiling with double strips of ceramic tile spanning the vault at regular intervals.
 - 4. Lighting: Spoon wall sconces; skylight baffled to obscure direct light.
 - 5. Openings: Doors decorated with linear molded pattern.
 - b. Closet off of vestibule - hall overlooks upper part of living room.
 - c. Vestibule to Adam Room:
 - 1. Flooring: Wood strips.
 - 2. Walls: Lacquered paper on plaster walls.

3. Ceiling: Plaster with classic cornice.
 4. Lighting: Crystal chandelier.
- d. Adam Room: This guest bedroom, in a near-octagonal plan, is Adamesque in style. The fireplace, decorative niches, and entrance door occur in the four short diagonal faces. An elliptical plaster decoration on the ceiling is reflected in the rug design. Adjacent bathroom and closets. Unit air conditioners, built-in safe and scales.
1. Floor: Pegged wood with rug cover.
 2. Walls: Plaster walls with simple molded panel above the chair rail, elaborate classical cornice at the ceiling with light Adamesque plaster details.
 3. Ceiling: Plaster, with bas-relief elliptical pattern and center piece.
 4. Lighting: Crystal chandelier.
 5. Fireplace: Marble mantel and surround in Adamesque detail.
 6. Openings: Plasters frame three round-arched openings containing casement windows.
 7. Decorative features: Canopy and drapery above two single beds.
- e. Spanish Room (guest bedroom), adjacent bath and closets, bath has small balcony at northeast corner, built-in safe and scales.
1. Floor: Black glazed tile with rug cover.
 2. Walls: Earth-colored plaster walls of rough texture with tile inserts; projecting plaster wainscot.
 3. Ceiling: The exposed beams of the ceiling are painted with polychromatic patterns. The coffers are decorated with Spanish crests.
 4. Fireplace: The round corner fireplace is hooded and has a stepped-arch opening. The opening is faced with ceramic tile and the hood is covered with a mosaic of tile pieces.

Above the opening is a miniature arcade cloister containing ceramic figures.

5. Openings: Balcony at southeast corner, paneled wooden doors in square and rectangular patterns; silver plated hardware.
- f. Sleeping Porch: Located south of the Spanish room; plaster walls and deep coffered wooden ceiling, carved beams in dentil pattern.
- g. Venetian Room: This sitting room opens onto the covered way and terrace above the porte-cochere which serves as a passage to the Venetian bedrooms. These areas once served as a suite for older children and are now guest rooms.
 1. Flooring: Ceramic tile floor with rug covering.
 2. Walls: Plaster with no trim.
 3. Ceiling: Plaster, camp roof shape with no division between the walls and ceiling.
 4. Lighting: Venetian crystal chandelier in colored floral motif (mirror frames match the chandelier).
 5. Fireplace: Carved marble mantel and surround.
 6. Windows: Round-arched openings, two casement windows per opening.
 7. Doorways and doors: Solid wooden doors with patterns of circles in bas-relief; rope molding rim.
11. Passage for the upper loggia circumvents the upper part of the living room to the Portuguese room.
12. Portuguese Room: Wooden paneled wall and wainscot, wooden paneled ceiling in camp roof shape, five arched casement windows; adjacent bath connects with Dutch room; adjacent is the "Seven Window Balcony," with seven arched openings into the upper part of the living room and seven arched openings, expressed on the east elevation. (This space is partly filled by air conditioning equipment.)
13. Dutch Room: Bathroom adjacent, door to bathroom off Portuguese room,

stair to upper loggia.

- a. Flooring: Wood.
 - b. Walls: Plaster with wooden cornice, paneled pilasters, and wainscot.
 - c. Ceilings: Above the cornice is a plaster cove. The horizontal portion of the ceiling is composed of wooden panels delineated by heavy moldings.
 - d. Fireplace: The projecting chimney piece has fluted columns at the corners and three wooden panels beneath the cornice. The remainder of the surface is set with Dutch Delft tiles. The fireplace opening is faced with brass. There is a small bracketed mantel shelf mounted on the tile facing.
 - e. Windows: Leaded-glass casement windows in round-arched opening.
14. Vestibule to the American room and stairway to the first level cloister: Ceramic tile floor in concentric pattern, domed plaster ceiling painted in a lilies-of-the-valley motif. The door to the stairway has twenty-four carved wooden panels in animal, floral, and human figure motifs. The reverse side of the door has stepped panels. Hardware is silver plated.
15. American Room: Bedroom with adjacent bathroom and closet.
- a. Floor: Wood.
 - b. Walls: Paper on plaster, paneled wooden wainscot, wooden cornice.
 - c. Ceiling: Plaster.
 - d. Fireplace: Marble surround and hearth, mantel shelf, pilasters, and overmantel panel.
16. Gothic Stair: Spiral staircase between upper loggia and cloister. Construction of Doria stone and stucco in the Gothic style.
- a. Stone treads with carpet runner.
 - b. Tile risers.
 - c. Ceiling is vaulted with stone ribs which continue down the walls

Exhibit "A" to Application
for Special Exception No. _____ by The Mar-a-Lago Club, Inc.

Being all that part of the North 610.00 feet of the South 1170.00 feet of Government Lot 2 of Section 35, Township 43, South, Range 3 East, in the Town of Palm Beach, Palm Beach County, Florida, lying West of Ocean Boulevard (State Road A1A) Right of Way and more particularly described as follows, to-wit:

Beginning at a point on the West face of an existing seawall on the East shore of Lake Worth, which point is 560.00 feet North of, measured at Right Angles to the South line of Government Lot 2, of said Section 35; thence North 6°09'22" West along the West face of said seawall for a distance of 77.32 feet; thence North 10°23'23" East along the West face of said seawall for a distance of 539.50 feet to a point in the South line of BINGHAM-COPP TRACT, a Subdivision recorded in Plat book 1, Page 6, Palm Beach County Public Records; thence run South 12°07" East along the South line of said BINGHAM-COPP TRACT for a distance of 1134.10 feet to a point in the Westerly R/W line of Ocean Boulevard (State Road A1A); thence run South 0°09'07" East for a distance of 82.59 feet to a Point of curvature; thence run Southerly along the arc of a curve concaved to the Southwest having a radius of 1412.69 feet and a central angle of 3°03'00" for a distance of 75.20 feet to a point of tangency; thence run South 2°53'53" West for a distance of 176.28 feet to a point of curvature; thence run Southwesterly along the arc of a curve concaved to the Northwest having a radius of 2869.03 feet and a central angle of 2°53'53" West for a distance of 127.27 feet to a point of compound curvature; thence continue Southwesterly along the arc of a curve, concaved to the Northwest having a radius of 158.68 feet and a central angle of 86°26'30" for a distance of 239.38 feet to a point of tangency; thence run North 88°12'07" West along the North line of Southern Boulevard (State Road 80) for a distance of 1040.43 feet to the POINT OF BEGINNING, containing 16.3760 Acres, more or less;

and

The West one-half (W 1/2) of Lot 20 and the South 15 feet of the East one-half (E 1/2) of Lot 20 and the South 15 feet of the West one-half (W 1/2) of Lot 21, all in BINGHAM-COPP TRACT, a subdivision in the Town of Palm Beach, Palm Beach County, Florida, as recorded in Plat Book 18, Page 6, Palm Beach County Public Records, containing 0.1894 Acres, more or less;

Together with an easement for the use of the tunnel under South Ocean Boulevard (State Road A1A) as described in that certain Quit Claim Easement Deed recorded in Official Record Book 2327, Page 1970 of the Palm Beach County Public Records and access to the ocean over the parcel consisting of the South 358 feet of the North 403 feet of the South 1170 feet of Government Lot 2, Section 35, Township 43 South, Range 43 East, Palm Beach County, Florida.

Exhibit "B" to
Application for Special Exception No. _____
by The Mar-a-Lago Club, Inc.

Compliance with Special Exception Requirements

In its conversion from a so-called Large Residential Estate to a private social club, the actual usage of Mar-a-Lago will not change. No new activity will occur which cannot, does not or has not taken place in the past under the existing zoning of this property. The applicant seeks no physical change whatsoever to the property (such as, for instance, the addition or demolition of any improvement).

A special exception, not a variance, is sought. Therefore, no hardship need be demonstrated. If the criteria for a special exception are met, the special exception must be granted and cannot be denied as a discretionary matter.

The conversion of Mar-a-Lago into a club is a special exception which complies with all requirements of Section 6.4 of Appendix A, "Zoning", Code of Ordinances of the Town of Palm Beach:

- (a) The use is a permitted special exception as set forth in the Schedule of Use Regulations in Article 4;
- (b) The use is so designed, located and proposed to be operated that the public health, safety, welfare and morals will be protected;
- (c) The use will not cause substantial injury to the value of other property in the neighborhood where it is to be located;
- (d) The use will be compatible with adjoining development and the intended purpose of the district in which it is located;

(e) The use will comply with yard, other open space, and any special requirements set out in the Schedule of District Regulations for the particular use involved;

(f) The use will comply with all elements of the Comprehensive Plan;

(g) The use will not result in substantial economic, noise, glare, or odor impacts on adjoining properties and properties generally in the district;

(h) Adequate ingress and egress to the property and proposed structures thereon and off-street parking and loading areas will be provided where required, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe;

(i) Signs, if any, and proposed exterior lighting with reference to glare, traffic safety, and economic impact, will be compatible and in harmony with properties in the district;

(j) The location, availability and compatibility of utility service for the use will be satisfactory to insure health and safety;

(k) The refuse and service areas for the use will not adversely affect automotive and pedestrian safety and convenience, traffic flow and control, or access in case of fire or catastrophe;

(l) The proposed use will not attract the principal portion of its customers/clients from off-island locations;

(m) Adequate landscaping and screening is provided as required; and

(r) The proposed use will not place a greater burden, than would be caused by a permitted use, on municipal police services due to increased traffic, or on fire protection services due to the existence of, or increased potential for, fire/safety code violations.

A site plan is submitted simultaneously herewith in accordance with Section 9.60 of Appendix A of the Code of Ordinances and consists of a current survey of Mar-a-Lago and site drawings.

SITE PLAN REVIEW

This zoning report is presented in accordance with Section 9.60 of the ordinance of the Town of Palm Beach to allow examination of potential offsite impacts of the proposed change in use. A Development Impact Report is attached to this chapter in accordance with Section 9.61. The following response is made in alphabetical and numerical sequence as established in the ordinance.

a. The property is presently in the ownership and control of Donald J. Trump. The Mar-a-Lago Club, Inc. is a contract vendee.

b. The detailed use of the facility is outlined in Chapters One and Eight. No physical changes in the buildings or grounds are to be made so that there will be no change in the character of the property.

c. A general location map of the site is indicated on the site plan.

d. Two copies of a site plan, sheet 12 and a current survey, are provided which indicate information required by items (1) through (8) inclusive.

e. The tabulation of land area is as follows:

	<u>Square Feet</u>
1. Private Club use (total site)	713,341
2. Ground Cover by structure	48,648
3. Impervious surface in addition to structure	69,765

f. 1. Space has been allocated as shown on the existing plan to provide valet, non structured parking for 319 spaces. The site is a designated national and local

landmark. The vegetation on site makes a major contribution to landmark status. The parking is short time parking. It is intended to be located on existing paved areas, under the landscape canopy so that the canopy may not be altered and on grassed areas along the entrance drive and to the west, both of which have been used historically for that purpose. Access to the landscaped area to the south will be by way of a cart path now crossing the site.

2. There presently is the mansion and two other staff buildings on the site yielding a density of .17 units per acre.

g. All facilities on the site will be maintained by the Club. See the Principles of Preservation in Chapter Two, Maintenance and Inspection Schedule in Chapter Seven, and the Articles of Incorporation, By-Laws and Rules of the Club in Chapter Eight.

h. Storm drainage and sanitary sewage connections will be maintained in their present condition.

i. No new structures are requested. The Club will function within the present buildings on the site.

j. No new signs are requested.

k. The site plan attached indicates the location of existing foliage which is described, by area, in Chapter Six.

l. The use of the building and grounds is recreational.

m. Not applicable.

n. Not applicable.

DEVELOPMENT IMPACT REPORT
for
THE MAR-A-LAGO CLUB, INC.

Introduction

This report is pursuant to paragraph "(9.61) Application" per Appendix A, The Zoning Code of Ordinances of the Town of Palm Beach, Florida, particularly as described on page 2106.

This report will evaluate the below listed specifically requested impacts that the proposed development may cause in accordance to the above referenced paragraph. We define these impacts as Level I impacts:

LEVEL I

INFRASTRUCTURE AND OPERATIONS

Utility Services

- A. Storm Water Sewers
- B. Sanitary sewer
- C. Garbage and trash collection
- D. Traffic

Additionally, this report will evaluate the impacts to other services which are not necessarily Town provided services but are services deemed necessary for this proposed use. We refer to these as Level II impacts.

LEVEL II

- E. Potable water
- F. Power
- G. Gas
- H. Telephone
- I. Cable television
- J. Fire Protection

Level I Impacts

Infrastructure and Operations - Utilities

A. Storm Water Services

The existing site contributes a very small amount of storm water run-off into the "Town Storm Water System." This occurs at the service drive entrance onto A-1-A at the Caretaker residence. Less than 1/2 acre of contributing area is involved.

IMPACT

The proposed Club will not change this existing drainage pattern. Therefore, there will not be any development related impact to the storm water system of the Town nor any increases in the operations (maintenance) activities.

NOTE:

Existing outfalls to the intracoastal will be maintained. There will be no requirements for dredge and fill activities. The storm water to be discharged will not exceed the rate of discharge occurring in the present condition.

SUMMARY

This proposed use will not change the Town's drainage system.

B. Sanitary Sewers

The existing Mansion and related buildings are presently served by the Town's Sanitary Sewer System. In fact, an existing "Town-owned pumping station" is located on the property. This station receives sewage from a sewage collection system on the grounds that services all buildings. This station does not have, to our knowledge, easement or deed provisions giving the Town legal access to the station, yet the Town performs operations and maintenance activities at this location.

IMPACT

The existing pumping station will remain its present location. The existing sewer connection is adequate to accommodate the change in use, causing no impact on the sanitary sewer system.

C. Garbage and Trash Collection

At the present time garbage is picked up daily from the residences at Mar-a-Lago. Trash is centrally located for pick-up once a week at a central collection area accessed off Southern Boulevard.

The proposed club will contract for garbage removal through a private service. Trash consisting of landscape trimmings will be placed in the central location to be picked up weekly as it now is done.

SUMMARY

Although the volume of garbage and trash will likely be greater than exists today, the impact on the town will be less due to contract service. Operations will be equivalent to any residential house building program in the Town. Trash removed will not increase since the amount of landscape space will be unchanged.

D. Traffic

A separate traffic impact analysis is included in Chapter Nine.

Level II Impacts

E. Potable Water, F. Power, G. Gas, H. Telephone, I. Cable Television

These services are provided by franchise companies. All have the service availability for the change in use.

IMPACT

None

SUMMARY

There is no impact to the Town for these services.

F. **Fire Protection**

The existing property is served by 3 fire hydrants located exterior to the property around the perimeter streets surrounding Mar-a-Lago. The service entrance gate has been sized to accommodate fire fighting apparatus and remain open by Agreement.

IMPACT

The generic uses within the structure, i.e., dining, sleeping, socializing, etc. are not to be changed nor will the numbers of people using the building at a given time increase.

SUMMARY

There will be no change on the requirement for fire protection due to proposed change in use.

to outline panels in Gothic tracery patterns.

- d. Metal handrail.
 - e. Spoon-shaped sconces.
17. Tower: The tower is accessible from the vestibule to the Spanish, Venetian, and Adam rooms. The tower has three levels: two with sleeping areas and baths and an observation level.
- a. A spiral stair with wooden treads and carpet runner approaches the first level. It has plaster walls and ceiling and an iron handrail.
 - b. On the first level are sleeping and sitting rooms and a bath.
 - c. An irregular "L" stair continues to the next level.
 - d. From the second level, an open iron spiral stair goes to the observation area. It has a chain link handrail and vertical ties. The manufacturer was Du Inage Spiral Stair Company of Baltimore, Maryland.
 - e. The observation area is nearly octagonal in plan. Framing is of wood with carved corbeled brackets in a tusk and tongue motif. Ceramic tile trims the openings and covers the floor. The balconies have turned wooden balustrades.
18. Dance Pavilion: Accessible from the west lawn and by a stairway from the southwest end of the cloister.
- a. Cloak Room.
 - b. Projection Room: There is a fully-equipped projection room at the east end. Air conditioning equipment is under the floor. Adjacent is the serving pantry and bar.
 - c. Dance Floor: The rectangular space is approximately 30' by 50'. Interior arcades with Moorish horseshoe arches parallel the long dimension at approximately 2' from the window walls.
 - 1. Floor: Wooden parquetry.
 - 2. Walls: Paneled wainscot below panels of acoustical tile behind diamond-shaped wooden grilles.

3. Ceiling: Cove ceiling with wooden batten pattern over acoustical tile.
 4. Arcade: Painted wooden columns and composite capitals, horseshoe arches, and exaggerated dentil cornice.
 5. Openings: Arched openings with casement windows spin-open a terrace on the north side.
 6. Lighting: Cornice-cove fluorescent lighting operated by a rheostat. A chandelier is in each arch of the arcade with three rows of stage lights and portable foot lights.
- d. Stage: Located at west end of pavilion. Proscenium arch with elevated stage floor, approximately 2' above dance floor level. Painting of Arabian horseman on fixed backdrop, roll-type projection screen in backstage area. Doors to toilets flank stage.
 - e. Telephone room.
19. Secretary's Cottage: Located on the north side of the west lawn, attached to servants' quarters and laundry.
- a. Entry hall from covered way.
 - b. Living room: Wooden floor, plaster walls and ceiling, fireplace.
 - c. Two bedrooms and two baths for secretary and assistant.
 - d. Passage to service courtyard, servants' quarters, laundry, and garage.
20. Kitchen service area: Located adjacent to the dining room and the north end of the cloister.
- a. Butler's pantry (space between dining room and main kitchen).
 1. Storage for glassware and china, silver safe for flatware.
 2. Refrigerated storage areas for cut flowers and condiments.
 3. Telephone receptionist's office.
 4. Spiral iron stair to basement area #3.

- b. Main kitchen: Food preparation and storage areas.
 - 1. Frozen vegetables and fruits.
 - 2. Utensils.
 - 3. Sinks, ranges, ovens, hot-plates, and broilers.
 - 4. Built-in refrigerator, quick-freezer, vegetable sink, and dry storage.
- c. Janitor's closet: Storage for soaps, toilet materials, etc.
- d. Steward's office and toilet.
- e. Staff dining room.
- f. Dining room for secretary and small children.
- g. Staff quarters on second floor above main kitchen and staff dining area.
- h. Basement #1: Accessible from service drive adjacent to the garage and from staff dining room area.
 - 1. Walk-in cooler.
 - 2. Electric transformer vault.
 - 3. Electrical supply room.
 - 4. Main switchboard and generator.
 - 5. Tool and hardware storage.
 - 6. Workshop.
- i. Basement #2:
 - 1. Storage for soaps and paper products.
 - 2. Dry storage and quick-freezer.
- j. Basement #3:

1. Trunk and miscellaneous storage.
 2. Furniture storage.
 3. Telephone equipment.
 4. Stairway to butler's pantry.
- k. Boiler room.
 - l. Paint shop.
 - m. Fallout shelters (three).
21. Garage: Two-story separate building in service courtyard with a six-car capacity. Quarters for four chauffeurs are on the second floor.

D. Site:

1. General setting and orientation:

The seventeen-acre site is defined by fences and foliage to the north, a low stuccoed masonry wall to the east paralleling South Ocean Boulevard, a high masonry wall at the south, and open to the shores of Lake Worth to the west. Access and egress is by an entrance gate and service gate on Ocean Boulevard and a service gate at the north end of the property. A palm-lined drive extends from the entrance gate to the porte-cochere.

2. Outbuildings:

- a. Superintendent's cottage: Stucco over masonry, mission tile roof, casement windows; two bedrooms and two baths, living room, "Florida" room, and an outbuilding used for laundry.
- b. Two sheltered waiting areas, one enclosed, at courtyard northeast of the kitchen-service wing used as parking area for visitors' and guests' autos.
- c. Surplus two-car garage and adjacent outbuilding for tools and equipment storage, dressing room and toilet for outside help.
- d. Glass house for indoor plant propagation, attached slat house for indoor house plants, and slat house for palms.

- e. Staff quarters for seasonal help, masonry with tile roof, parking spaces at ground level, attached "day rooms."
- f. Steward's cottage, near Lake Worth, northwest corner of site: one bedroom, living room, kitchen, and bath.
- g. Nine-hole "pitch and putt" golf course with rest houses.
- h. Slat green house, mower shed, water pump, and tank housing: storage garage for lawn equipment, and holding area for potted plants at the southwest side of the site.
- i. Tunnel to beach: Reinforced concrete tunnel underneath South Ocean Boulevard runs from the east lawn to the beach.
- j. Cabanas:
 - 1. Mens' dressing rooms and shower.
 - 2. Women's dressing rooms and showers.
 - 3. Owner's cabana, kitchen, bar, and sitting room.
 - 4. Heated saltwater pool, storage for pool equipment.
 - 5. Staff facilities.

CHAPTER SIX

INVENTORY OF MAR-A-LAGO LANDSCAPING

INVENTORY OF MAR-A-LAGO LANDSCAPING

The landscaping was designed and implemented by the firm of Lewis and Valentine Nursery and consisted mostly of large seagrape trees and coconut palms. The number of other species was limited due to the nature of the microclimate constraint requiring highly salt-tolerant materials. Oceanfront planting was a new specialty during this era and much of the plant material we now take for granted was not yet being propagated for landscape use. Lewis and Valentine were not known for their design abilities but rather as one of a limited number of nurseries large enough to supply and install plant materials for an estate the size of Mar-a-Lago. Landscape architecture was not a regulated profession or a title protected by registration in Florida at that time.

The plantings during the early years were largely damaged or destroyed due to the devastating hurricanes of 1926 and 1928. During the 30's two more hurricanes added new damage, with the September 17, 1947 hurricane also taking its toll in plant materials.

During the war years, very little additional planting was installed. The vegetation then existing was not properly nourished due to shortages and rationing. The evidence of this can be seen today in the condition of the royal palms, with the trunks being of varying diameter along their length, pointing to years of alternately high and low fertility and moisture. A gumbo limbo, blown over and growing in a horizontal manner, is testament to the storms experienced over time.

From the late 1940's until Mrs. Pcst's death, several companies supplied landscape materials and performed limited design work. One was Island Landscape Company which ceased operations in the late 1950's. Others were Boynton Landscape Company, Kelsey City Landscape

and Jim Grant Landscape.

During Mrs. Post's life, most of the new planting was initiated by her in her desire to incorporate materials she had seen and enjoyed in other locations and other properties. She had the royal palms installed in the somewhat allee configuration between the mansion and the lake. At other times, the property manager ordered new trees and plantings as he deemed necessary for the appearance of the estate's large garden. One thing is clear from the research undertaken--no single master landscape plan was adhered to and it is doubtful that one ever existed. The landscape was, nevertheless, altered frequently.

Large quantities of sabal palmettos still exist on site as do strangler fig, mastic and Australian pine. It is a certainty that these existed before construction of the mansion and many were left in place and are found in random outcroppings around the site, particularly on the property's south side.

Over time, many mechanical, storage, staff dwelling and horticultural buildings were erected. Many of the planting beds in the lawn areas acted to buffer the buildings and screen them from public view. At one time, all the plant materials for indoor use, cut and potted flowers and annuals were grown, propagated and attended to by staff of thirty-six gardeners and laborers.

Since the site consists of 18 acres and a vast amount of open area, a nine hole golf course was built. The evidence of this is seen in old aerial photographs. The tees and greens still exist but have not been maintained as a golf course in many years.

Over 500 *Cocos nucifera* (coconut palms) were part of the landscape and very tall Jamaican coconut palms can be seen accenting the front of the mansion in early photographs.

There are less than 200 coconuts still left on the site due to lethal yellowing and, although they continue to be inoculated, many more are expected to be lost.

Many years after the death of Mrs. Post, Donald Trump began a program of landscape enrichment which consisted largely of the renourishment of the existing tree and shrub species in an attempt to return to the verdant vigor of an earlier era. The most interesting and healthy landscape plant specimens exist in and around the mansion itself. A large African tulip tree, yellow tabebuia, Everglades palm, pigeon plum and gumbo limbo are among the healthy and interesting forms which have been protected from off-shore storms by the imposing size of the residence.

Lists of first, Trees and Palms, and second, Shrubs and Accents, follow the above, brief history. A comprehensive Horticulture Inventory describe the current vegetation at Mar-a-Lago by areas shown in the site drawings in Chapter Eleven.

LANDSCAPE INVENTORY

TREES AND PALMS:

BOTANICAL NAME

Acoelorrhaphe wrightii
Brassaia actinophylla
Bursera simaruba
Casaurina equisetigolia

BOTANICAL NAME

COMMON NAME

Acalypha spp.	Copper Leaf varieties
Casaurina equisetifolia	Australian Pine Hedge
Caryota mitis	Fishtail Palm
Chrysobalanus icaco	Cocoplum
Clerodendrom speciosissimum	Glory Blower
Cocoloba uvifera	Seagrape Hedge
Codiaeum spp.	Croton varieties
Crinum asiaticum	Crinum Lily
Cryptostegia spp.	Fire Cap
Cycas revoluta	King Sago Palm
Ficus benjamina	Weeping Fig
Ficus retusa nitida	Cuban Laurel
Hibiscus rosa-sinensis	Hibiscus varieties
Jasminum volubile	Wax Jasmine
Ligustrum lucidum	Glossy privet
Malvaviscus pendiflorus	Turk's Cap
Mastichodendron foetidissimum	Mastic Tree
Murraya paniculata	Chalcas
Nerium oleander	Oleander varieties
Pandanus utilis	Screw Pine
Pittosporum tobira	Green Pittosporum
Pittosporum tobira variegata	Variegated Pittosporum
Polycias spp.	Aralia varieties
Psychotria nervosa	Wild Coffee
Rhapis excelsa	Lady Palm
Phoenix roebellini	Pigmy Date Palm
Sanchesia nobilis	Sanchesia

HORTICULTURAL INVENTORY

ENTRY, DRIVEWAY AND AREA 1

The entry off South Ocean Boulevard (currently the service drive) is characterized by a seagrape (6') hedge on either side of a narrow strip of grass. Young coconut palms have been planted to reforest those lost to lethal yellowing. An Australian pine hedge divides the motor court from the entry driveway. This entry is dotted with an occasional Australian pine tree of up to forty feet.

The parking area (motor court) is separated from residential units to the north by an Australian pine hedge, a partial chain link fence and a bougainvillea covered wall which echoes the Spanish-Moorish architecture.

A large lawn area flanks the garage and laundry building with an Australian pine hedge of two different heights (6' and 10'), a cluster of sabal palmettos and oleander under planting.

There is a large pigeon plum (*cocoloba diversifolia*) to the south of the wooden storage building. Beyond the storage building are croton and gumbo limbo. The hedge to the north is *Ficus nitida*.

The open vista to the Atlantic Ocean, Area 1, is across a grassed area with a limited number of palms and a cluster of sea grapes at the southeastern portion of the vista.

AREA 2

Area 2 is occupied by a tennis court and a slat (green) house. A chain link fence covered with allamanda vines divides an asphalt path from a childrens play area with playground equipment. Large sabal palms and a visual screen of mixed tropical planting separate the tennis court and play area from the open lawn vista to the south.

Plant materials in Area 2:

TREES:

Sabal palmetto (cabbage palm)
Spathodea campanulata (African tulip tree)
Veitchi merrilli (adonidia palm)
Simaruba gluaca (gumbo limbo)
Dictyospermum album (princess palm)
Brassaia actinophylla (schefflera)
Ficus altissima (banyan)
Phoenix roebelleni (pigmy date palm)

SHRUBS:

Allamanda cathartica (yellow allamanda)
Acalypha spp. (copper leaf)
Nerium oleander (oleander)
Hibiscus (mixed species)
Jasmine samba ("grand duke")
Codiaeum spp. (croton)
Galphimia gracilis (thyrallis)

AREA 3

Area 3 is occupied by a single family home, a portion of a slat house, an apartment building with parking underneath, and a large asphalt drive and parking area.

There is a large ficus tree to the south of the existing single family house, sabal palmettos, royal palms and a copperleaf hedge which separates the open lawn and vista from the staff dwelling units.

Plant material separating this area from the open vista include sabal palmetto, gumbo limbo, ficus hedge, Australian pine, copperleaf and a senegal date palm.

Plant materials in Area 3:

TREES:

Ficus altissima (banyan)
Casuarina equisetifolia (Australian pine)
Roystonea vega (Florida royal palm)
Phoenix reclinata (senegal date palm)
Bursera simaruba (gumbo limbo)
Cocos nucifera var. *malayan* (coconut palm)
Citrus spp. (fruit tree)

SHRUBS:

Acalypha spp. (copperleaf)
Codiaeum spp. (mixed croton species)
Hibiscus spp. (mixed hibiscus species)
Sanchesia nobilis

AREA 4

Area 4 is comprised largely of bermuda lawn with a small stand of reforested coconut palms, and large Australian pine trees on the northern property line.

There is clear contouring for the golf course in this area. The changes in elevation are part of the golf course which was previously in service.

Plant material in Area 4:

Casuarina equisetifolia (Australian pine)
Cocos nucifera "var malayan"

AREA 5

Area 5 is sited in the southwest corner of the Mar-a-Lago property. This is the mostly open area of the sites with an expanse of bermuda lawn, several trees and greens for the golf course.

The vegetation is limited to a heavily forested section in the southwest corner of the lot. A double ficus hedge in a large semi-circular shape conceals an old citrus grove with a variety of orange and grapefruit trees. Two avocado trees are included in the grove planting.

A large mix of plant material exists west of the citrus and is separated by a ficus hedge. Prominent among these are African throat trees, seagrape, strangler figs, ficus benjamina, and green buttonwood.

East of the citrus trees are mixed beds of areca palms, ficus aureus, and green buttonwood. Underplantings of crotons, aralias and Australian pines exist.

Plant materials in Area 5:

TREES:

Casaurina equisetifolia (Australian pine)
Ficus decora (rubber tree)
Ficus aureus (strangler fig)
Ficus nitida (Cuban laurel)
Ficus benjamina (weeping fig)
Conocarpus erectus (green buttonwood)
Citrus spp.
Persea americana (avocado)
Chrysalidocarpus lutescens (areca)
Phoenix reclinata (senegal date palm)
(juvenile form)
Coccoloba uvifera (seagrape)
Spathodea campanulata (African tulip)
Cocos nucifera "variety malayan" (less than 8' oa)
Sabal palmetto (cabbage palm)
Washingtonia robusta (Washington palm)

SHRUBS AND ACCENTS:

Agave fosteriana (agave)
Cryptogesia grandiflora (purple allamanda)
Codiaeum spp. (croton)
Polyscias balfouriana (rose leaf aralia)
Ficus nitida (cuban laurel)

AREA 6

Area 6 contains a large open area comprised of a bermuda lawn and tees and greens of the golf course. The eastern portion of the area contains scattered citrus trees, sabal palmettos, areca palms, schefflera and chalcas. The wall separating the property from Southern Boulevard has plantings against it of Chinese fan palms, acalypha, firebush and Turk's cap.

Plant materials in Area 6:

TREES AND PALMS:

Coccoloba uvifera (seagrape)
Sabal palmetto (cabbage palm)
Livistonia chinensis (Chinese fan palm)
Spathodes campanilata (African tulip tree)
Bukrsera simaruba (gumbo limbo)
Brassaia actinophylla (schefflera)
Veitchi merrilli (adonidia)

SHRUBS:

Acalypha spp. (copperleaf)
Hamalia patens (firebush)
Malvaviscus penduliflorus (Turk's cap)
Murraya paniculata (chalcas)
Rhapis excelsa (lady palm)

AREA 7

A large shade structure, a storage building and a slat house are part of Area 7.

The principal plant material here is a stand of Sabal palmetto. However, another large semi-circular ficus hedge divided by a walk-way conceals another grove from sight. Over the years, areca palms and fishtail palms previously used as interior foliage plants were planted in various open areas under the sabal palms and some of the coconut palms. There is a greenhouse formerly used to propagate interior foliage.

Plant materials in Area 7:

TREES:

Sabal palmetto (cabbage palm)
Chrysalidocarpus lutescens (areca palm)
Caryota mitis (fishtail palm)
Veitchii merrilli (adonidia palm)
Casaurina equisetifolia (Australian pine)
Coccoloba diversifolia (pigeon plum)
Bursera simaruba (gumbo limbo)
Ficus aureus (strangler fig)
Cocos nucifera (coconut palm)
Dictyosperma album (princess palm)
Phoenix reclinata (senegal date palm)
Ptycosperma elegans (solitare palm)
Mangifera indica (mango)
Cocculus laurifolius (snail seed)
Terminalia capitata (tropical almond)
Conocarpus erectus (buttonwood)
Livistonia chinensis (Chinese fan palm)

SHRUBS:

Rhapis excelsa (lady palm)
Codiaeum spp. (croton)
Clerodendrum speciosissimum (glory bower)
Carissa grandiflora (natal plum)
Ficus nitida (Cuban laurel)
Crinum asiaticum (spider lily)

AREA 8

The principal function of the landscape materials in Area 8 is to provide a substantial screen from the mansion to the extensive physical plant and service buildings to the rear or south.

There is a storage, parking and fueling areas of the estate and is located directly behind the hedge separating the structures from the ocean vista. Casuarina (Australian pines) dominate the south side of the property.

Plant materials in Area 8:

TREES:

Arecastrum romanzoffianum (queen palm)
Acoelorrhaphe wrightii (paurotis palm)
Sabal palmetto (cabbage palm)
Livistonia chinensis (Chinese fan palm)
Mastichodendron foetidissimum (mastic)
Ficus aureus (strangler fig)
Ptychosperum elegans (solitare palm)
Thrinax radiata (key palm)
Pandanus utilis (screw pine)
Bursera simaruba (gumbo limbo)
Cycas cirinalis (sago palm)
Casuarina equisetifolia (Australian pine)
Cocos nucifera (coconut palm)
Ardisia spp.
Dictyosperma album (princess palm)

SHRUBS:

Chrysobalanus icaco (cocoplum)
Crinum asiaticum (spider lily)
Carissa grandiflora (natal palm)
Euphorbia spp. (crown of thorns)
Coccoloba uvifera (seagrape)
Nerium oleander (oleander)
Ligustrum lucidum (glossy privet)
Hibiscus spp. (hibiscus)

AREA 9

Area 9 is the southeast corner of the property.

The screen planting discussed on Area 8 continues east onto this parcel.

The planting in a continuation of the visual buffer which secretes the heavy
Australian pine growth.

Plant materials in Area 9:

TREES AND PALMS:

Casaurina equisetifolia (Australian pine)
Sabal palmetto (cabbage palm)
Coccoloba uvifera (seagrape)
Thrinax radiata (key palm)
Bursera simaruba (gumbo limbo)
Simaruba gluaca (paradise tree)
Ardisia spp.
Cycas cirinalis (sago palm)
Pandnaus veitchii (veitch screw pine)

SHRUBS:

Pittosporum tobira (pittosporum)
Carissa grandiflora (natal palm)

TOPOGRAPHY

Overall the land slopes from east to west in a long continuous run following a natural and gradual fall. West of the mansion is a 5-6' elevation change in the form of a berm which controls the drainage from east to west and acts as both an abrupt leveling device for the vista and a directional flow during heavy rains.

The only other elevation changes in a largely flat site occur as tees and greens in the golf course.

The natural contours on the south side of the property add to the site, affect circulation and should remain, as close as possible, in its existing condition.

BY-LAWS
OF
THE MAR-A-LAGO CLUB, INC.

ARTICLE I - Directors

1. The business, property and all activities of the corporation shall be managed by the Board of Directors who shall be elected by and from the stockholders in the manner hereinafter set forth. The Board of Directors shall elect all officers of the corporation. The Board of Directors shall also determine and interpret the admission policy, criteria, and process as derived from the stockholders, and shall issue such Rules governing the use of the facilities of the corporation, the issuance and transfer of the corporation's stock and participation in its social and athletic functions as they may from time to time deem necessary. The Board of Directors shall in such Rules provide for such initiation fees, annual dues and such other charges as it deems advisable. The Board of Directors may appoint any persons to be agents of the corporation (with the power to sub-delegate) upon such terms as determined by the Board of Directors. In order to qualify as a Director, a person must own a residence in the town of Palm Beach.

2. The directors shall be elected annually by ballot by the stockholders with voting rights.

3. Directors shall hold office for the term for which they are elected and until their successors are duly elected and qualified. Any director may resign by filing with the President, the Board of Directors or the Secretary a written resignation which shall take effect on being filed or at any such other time as may be specified therein. Any vacancies in the Board of Directors may be filled by the Board for the unexpired term thereof. Directors shall receive no compensation for their services.

4. Directors shall be indemnified by the Club for any and all liability for their acts relating to the management of the Club and their assigned duties on the various Club committees.

ARTICLE II - Officers and Their Election.

1. The officers of the corporation shall be a President, one or more Vice-Presidents, a Secretary and a Treasurer, who shall be elected for one year by the Board of Directors and shall hold office until their successors are elected and duly qualified. Officers and/or Directors shall be stockholders and active members. The offices of Secretary and Treasurer may be held by the same person. The Board of Directors may appoint such other officers and agents of the corporation as they may deem necessary, such subordinate officers and agents to hold their position subject to the pleasure of the Board.

2. Any officer of the corporation may resign by filing with the President, the Board of Directors or the Secretary a written resignation which shall take effect at being so filed or at such other time as may be specified therein. The acceptance of such resignation shall not be necessary to make it effective.

ARTICLE III - Powers and Duties of Officers

1. **PRESIDENT.** The President, when present, shall preside at all meetings of the stockholders and of the Board of Directors. It shall be his duty to see that all orders and resolutions of the Board of Directors are carried into effect. The President together with the Secretary shall sign certificates of stock to be issued by the corporation and shall sign and countersign all contracts or other instruments of the corporation authorized by the Board of Directors except as otherwise directed by the Board, shall make such report to the Directors and stockholders as he may deem necessary or as may be required of him. The President shall be the chief executive and head of the corporation and in the recesses of the Board of Directors shall have the general control and management of the business, subject, however, to the votes of the Board of Directors and to the right of the Board of Directors to subdelegate any specific power except such as may be by statute exclusively conferred upon the President or any other officer or officers of the corporation.

2. **VICE-PRESIDENT.** In the absence or disability of the President, his duties shall be performed by one of the Vice Presidents designated for the purpose by the Board of Directors.

3. **TREASURER.** The Treasurer shall have custody of all monies and securities of the corporation, shall keep full and accurate accounts of receipts and disbursements in books belonging to the corporation and shall deposit all monies or other valuable effects of the corporation in the name and to the credit of the corporation in such depositories and/or with such custodians as may from time to time be designated by the Board of Directors of the corporation taking proper vouchers for such disbursements and shall promptly on request render to the President and to the Board of Directors an account of all of his transactions as Treasurer and of the financial condition of the corporation.

4. **SECRETARY.** The Secretary shall issue notice for all meetings of the stockholders and Directors, shall keep the minutes of all meetings, shall have charge of the corporate seal and the corporate books unless otherwise ordered by the Board. He shall sign with the President all certificates of stock to be issued by the corporation and such other instruments as may require his signature and shall make such reports and perform such duties as are incident to his office or required by the Board of Directors.

5. All of the officers of the corporation, in addition to the specific duties set forth above, may act as proxies at the annual meeting of the stockholders and shall have such other duties as the Board of Directors may from time to time designate. The Board of Directors may in the absence or disability of any officer of the corporation delegate the powers and duties of

such officer to any other officer of the corporation.

ARTICLE IV - Stockholders' Meeting

1. The annual meeting of the stockholders of the corporation shall be held at the Club in Palm Beach, Florida, on the second Monday in February of each year at 11 o'clock in the forenoon, if not a legal holiday, and if a legal holiday then on the next business day following.

2. Special meetings of the stockholders may be called by the President or by a majority of the Directors and shall be called by the Secretary, or, in the case of the death, absence, incapacity or refusal of the Secretary by any other officer, upon written application of one-third or more of the stockholders of the corporation then entitled to vote, stating the time, place and purpose of the meeting. All special meetings of the stockholders shall be held in Palm Beach, Florida.

3. At any meeting of stockholders a quorum for the transaction of business shall consist of not less than two individuals appearing in person and/or as proxies and owning and/or representing a majority of the shares of the corporation then outstanding and entitled to vote provided that less than such quorum shall have the power to adjourn the meeting from time to time. In order for a stockholder to vote each share of stock registered in the stockholder's name, the stockholder must be an active member in good standing.

4. Notices of all meetings of stockholders shall be given as follows: A written notice stating the place, day and hour thereof shall be given by the Secretary, not less than ten nor more than sixty days before the meeting, to each stockholder entitled to vote thereat and to each stockholder who under the Articles of Incorporation or any amendment thereof or under any By-Law, is entitled to such notice, by leaving such notice with him or at his residence or usual place of business, or by mailing it postage prepaid, addressed to such stockholder at his address as it then appears upon the books of the corporation. Notices of all meetings of the stockholders shall state the purpose for which the meetings are called. No notice of the time, place or purpose of any annual or special meetings shall be required if every stockholder entitled to notice thereof, or his attorney thereunto authorized, by a writing which is filed with the records of the meeting, waives such notice.

5. Stockholders at the annual meeting shall elect the Directors by ballot. At each election for Directors every stockholder entitled to vote at such election shall have one vote for each Director to be elected at that time.

6. The stockholders shall have power by a majority vote at any meeting to remove any Director or Officer from office.

7. The order of business, at the annual meeting, and as far as possible of all other meetings of the stockholders, shall be:

1. The call of the roll
2. Proof of due notice of the meeting.
3. Reading and disposal of any unapproved minutes.
4. Annual reports of officers and committees.
5. Election of Directors.
6. Unfinished business.
7. New business.
8. Adjournment.

ARTICLE V - Directors' Meetings

1. The Directors shall hold an annual meeting in Palm Beach, Florida, immediately following the annual meeting of the stockholders on the second Monday in February of each year, if not a legal holiday, but if a legal holiday then on the next business day following.

2. Special meetings of the Board of Directors shall be held in Palm Beach, Florida, or at such other place as a majority of the Board of Directors shall agree upon in writing on call of the President or any two Directors.

3. At any meeting of the Board of Directors a majority of the number of Directors required to constitute the Board as last determined by the stockholders having the right to vote shall constitute a quorum for the transaction of business; provided, always that any number of Directors (whether one or more and whether or not constituting a quorum) present at any meeting or at any adjourned meeting may make any reasonable adjournment thereof.

4. Notice of any annual or special meeting of the Board of Directors shall be given by the Secretary to each Director, by mailing to him postage prepaid, addressed to him at his address as registered in the books of the corporation, or if not so registered at his last known address, a written notice of such meeting at least two days before the meeting by delivering such notice to him at least twenty-four hours before the meeting by prepaid telegram addressed to him at his said registered address if any, or if not so registered at his last known address. Notice of Directors' meetings need not specify the purposes thereof, except as otherwise hereinafter provided, and if any purpose be stated, the business of the meetings shall not be restricted thereto.

5. Whenever all of the Directors (provided they are in number at least equal to the majority of the number of Directors required to constitute the Board as last determined by the stockholders having the right to vote) shall hold a meeting, or not less than a majority of the number of Directors so required to constitute the Board shall hold a meeting and each absent Director, if any, shall in writing have waived notice of the meeting or after the meeting have approved in writing the record thereof, the acts of any such meeting, whether or not it was duly called and whether or not the absent Directors, if any, were given notice thereof, and wherever it was held, shall be as valid in all respects as if it had been regularly called and held.

ARTICLE VI - Provisions Relating to Capital Stock

1. Certificates of stock shall be issued in numerical order from the stock certificate books to each stockholder of record whose stock has been paid in full in accordance with the Rules issued by the Board of Directors, said stock to be signed by the President or a Vice-President and Secretary, and be sealed by the secretary with the corporate seal. A record of each certificate shall be kept by the corporation.

2. Transfer of stock shall be made only upon the books of the corporation in accordance with these By-Laws and the Rules promulgated by the Board of Directors. The stock books of the corporation shall be closed for transfer twenty days before each general election.

3. The corporation shall be entitled to treat the holder of record of any share or shares of stock as the holder in fact thereof and shall not be bound to recognize any equitable or other claim to or interest in such share or shares on the part of any other persons except as may be otherwise expressly provided by law.

4. Stockholders may only transfer their shares in accordance with these By-Laws and the Rules promulgated by the Board of Directors from time to time. Upon voluntary resignation by a stockholding member or revocation of membership privileges by the corporation a stockholder shall not be entitled to a return of the stockholder's capital contribution. In the event of dissolution or final liquidation of the corporation, all of the property and assets of the corporation, after payment of its debts, shall be distributed among the stockholders in proportion to the value of their stock as last fixed by the Board of Directors. Stockholders who are active members in good standing shall be entitled to vote. Should a member, through marriage or any other reason, hold more than one certificate the member shall be entitled to vote only a certificate which has been designated as active for which the shareholder is paying dues.

ARTICLE VII - Seal

The corporate seal of the corporation shall consist of two concentric circles between which is the name of the corporation and such seal as is impressed on the margin hereof shall be the corporate seal of the corporation.

ARTICLE VIII - Committees

1. The President shall, by and with the advice and consent of the Board of Directors, appoint an Executive Committee composed of not less than three nor more than five directors in addition to the officers, which committee shall have all the powers of the Board of Directors in the intervals between meetings of the Board. Any action taken by the Executive Committee in any such interval shall be reported at the next succeeding meeting of the board.

2. The President shall appoint such other committees as the Board may direct or he may deem necessary or desirable and he may in his discretion at any time add to the membership thereof anyone, including a Chairman and a Director (to assist and to provide liaison), or remove from office any committee member there-to-fore appointed.

3. Nominating Committee - Each year the President shall appoint, subject to approval of the Board of Directors, a Nominating Committee consisting of not more than five active members who shall nominate candidates for the Board of Directors and who may act as proxies at the Annual Meeting. Such nominations shall be posted on the Bulletin Board two weeks before the Annual Meeting.

4. Admissions Committee - Each year the President shall appoint, subject to approval of the Board of Directors, an Admissions Committee consisting of not less than five (5) active members who shall carry out admissions procedures described in the Rules.

5. Preservation Committee - Each year the President shall appoint, subject to approval of the Board of Directors, a Preservation Committee consisting of not less than five (5) nor more than ten (10) individuals. One member shall be an architect with expertise in preservation, one member shall be nominated by The Landmarks Preservation Committee of the Town of Palm Beach, and one member shall be nominated by Director of the Division of Historical Resources, Florida Department of State. The Preservation Committee shall enforce the Principles of Preservation set forth in Chapter Eight and incorporated herein by reference.

ARTICLE IX - Dividends and Finances

No dividends shall be declared or paid by the Board of Directors which shall impair the capital of the corporation.

ARTICLE X - Amendments

These By-Laws may be amended, altered or repealed by the Board of Directors at any duly called meeting by a vote of two-thirds of the Directors present, provided that said two-thirds constitute not less than a majority of the entire Board and provided further that written notice of the proposed amendment, alteration or repeal be mailed to each Director not less than ten days prior to the date of such meeting, or provided all of the directors present at the meeting unanimously agree to the waiver of notice.

RULES OF THE MAR-A-LAGO CLUB, INC.

I. MEMBERSHIP

A. Active Members shall be such persons who, conditioned upon paying \$_____ in capital contribution, within 30 days of notification of election to membership, for the purchase of one share of stock from The Mar-A-Lago Club, Inc. have been regularly elected to Active Membership.

ANNUAL DUES

\$ _____
Plus Florida State Tax

(1) Active membership includes husband, wife, and unmarried children to their 26th birthday. Active membership does not include a husband or wife who was not regularly a part of the election process, or the children of such husband or wife. In appropriate circumstances and with the approval of the Board of Directors, the Admissions Committee may determine that the active membership shall include only the husband or wife; the spouse not included may then be considered for privileges of the Club so long as married to the active member.

(2) Active members may sponsor non-members for seasonal subscription but may not propose more than two candidates in any one season. Active members may sponsor weekly card holders and introduce other guests.

(3) A candidate for active membership must have been a seasonal subscriber for at least one season immediately preceding election. Election shall be by the Board of Directors. Two adverse ballots shall exclude a candidate.

(4) Every active member must at all times during his or her membership hold at least one share of stock which may be transferred only once to a widow, widower, child, step-child or former spouse as hereinafter provided.

(5) In the event an active member of the Club shall marry or re-marry, the spouse of such active member shall not become an active member of the Club nor entitled to the use thereof. Should such spouse desire the privileges of the Club so long as married to the active member, the candidacy of such spouse must be presented to the Committee on Admissions. An Information Form shall be submitted, together with four letters of recommendation submitted by active members directly to the Social Secretary; the active member shall be the proposer, and a seconder shall not be required. The approval of such spouse is subject to posting and is otherwise in accordance with the provisions of paragraph (6) of Section B. hereof. Should such candidacy not be so presented and approved the spouse shall be denied the use of the Club.

(6) Spouse of Deceased Active Member:

a. Upon the death of an active member survived by a spouse who was married to the active member at the time of election, the membership shall devolve upon such spouse on the transfer to him or her of at least one share of the deceased active member's stock, which transfer shall be made without charge only if spouse is approved by the Committee on admissions and ratified by the Board of Directors.

b. Upon the death of an active member survived by a spouse who was married to the active member subsequent to election, his or her share of stock shall be transferred to the spouse only if the spouse is approved for seasonal subscription by the committee on Admissions, and elected to active membership by the Board of Directors in accordance with the procedures set forth in Sections B. and A. hereof.

c. In the event of the death of an active member after the payment of annual dues, if the surviving spouse was married to the active member subsequent to election and received the required approval of the Committee on Admissions for privileges on a spouse's membership, such surviving spouse shall have the use of the Club for that season.

(7) Child of Deceased Member: Upon the death of an active member, a membership which would otherwise terminate may at any time within two years be transferred to one child and, for the purposes of this paragraph (7), "child" shall include "step-child") of the original active member, who has bought the share of stock required to qualify, provided such child is approved for seasonal subscription by the Committee on Admissions, and elected to active membership by the Board of Directors in accordance with the procedures set forth in Sections B. and A. hereof. The transfer to such child of the share of decedent's stock and the payment to the Club of a transfer fee of one half its current purchase price is required.

(8) Spouse of Divorced Active Member: If an active member and his or her spouse divorce, having been married to each other at the time of election to active membership, and both wish to remain active members, the former spouse shall be extended the privileges of the Club until nomination for seasonal subscription receives consideration by the Committee on Admissions. In seeking nomination for seasonal subscription, the former spouse need only complete an Information Form without accompanying letters of proposal or endorsement. If approval is granted, the fourteen-day posting period is waived. In the event the active member does not wish to retain membership, the transfer of stock to the former spouse may be made without charge; and, upon approval of the Committee on Admissions and election by the Board of Directors, the former spouse will become an active member.

B. Seasonal Subscribers shall be such persons as have been regularly elected as such and include husband, wife and unmarried children to their 26th birthday.

ANNUAL DUES

\$ _____
Plus Florida State Tax

(1) Seasonal subscribers shall have all the privileges of active members to introduce day guests, tennis guests, luncheon guests, dinner guests, and house guests.

(2) Subscription and membership in the Mar-A-Lago Club, Inc. is by invitation only. No person seeking membership or subscription shall be discriminated against on the basis of race, color, religion, gender, national origin, handicap, age or marital status. An active member wishing to propose an individual for seasonal subscription must obtain from the Social Secretary and complete in every detail a Preliminary Information Form. Responsibility for completing the form rests with the proposer; incomplete Forms will not be considered by the Committee on Admissions. After due consideration by the Committee, the proposer will be advised if it would or would not be appropriate to complete and submit an Information Form.

(3) In appropriate instances, an active member may obtain from the social Secretary and complete in every detail an Information Form. This Form will assist the Committee on Admissions in evaluating candidates for seasonal subscription. Responsibility for completing the Form rests with the proposer; incomplete forms will not be considered by the Committee. The Information Form must be accompanied by letters from the proposer and a seconder, both of whom shall be active members. In addition, four letters of recommendation from active members to the Committee on Admissions must be submitted by active members directly to the Social Secretary; such letters will be considered confidential and not available to anyone other than a member of the Committee. Letters of sponsorship and endorsement may be from a stockholding active member or the spouse of such active member, if such spouse was part of the regular election process for active membership. In no case may a husband and wife act as proposer and seconder for a candidate. Prior to submission of the completed Information Form, it is the responsibility of the proposer to see that the candidate and his or her spouse are known personally to at least three members of the Board of Directors.

(4) The Committee on Admissions will evaluate a candidate and will thoroughly screen each individual to assure he or she satisfies criteria established from time to time by the Board of Directors, provided, however, no individual shall be discriminated against because of race, color, religion, sex, national origin, age, handicap or marital status. Active members may endorse only candidates well known to them and whom they can recommend enthusiastically.

(5) The proposer or seconder must present the candidate and the candidate's spouse to a committee of three Directors of the Club for an interview before candidacy will be considered by the Committee on Admissions. However, the Committee, by unanimous vote, may waive the requirement of an interview.

(6) After a candidate has been approved preliminarily by the Committee on Admissions (one negative vote being sufficient to exclude a candidate), but prior to effective election, the candidate's name must be posted for 14 days and the membership must be circularized to afford opportunity for comment. Subsequent to said 14 day period, and advice to the membership, election by ballot of the Committee on Admissions shall become effective.

(7) In the event a seasonal subscriber shall marry or remarry, the spouse of the seasonal subscriber may be extended the privileges of the Club as, and be subject to provisions relating to, a guest; provided, however, there shall be neither guest charges nor limitation on the frequency of use of the Club by such spouse. In order for the spouse to be included in the membership process of the seasonal subscriber, an Information Form shall be submitted, together with letters from a proposer and seconder and four letters of recommendation from active members, in accordance with Paragraph (2) through (6) hereof.

(8) No member of the Board of directors may propose or second a candidate, or endorse a candidate with a letter of recommendation.

(9) Files of the Committee on Admissions shall be confidential, and shall not be available to any person not a member of the committee on Admissions.

C. Junior Seasonal Subscribers shall be such persons under the age of 35 as have been elected as such. Age as of December 1 shall control. If married, both husband and wife must be under 35.

ANNUAL DUES

\$ _____
Plus Florida State Tax

(1) The number who can be admitted to junior seasonal subscription is limited, and shall be established by the Board of Directors from time to time. Preference will be given to children or grandchildren of active members; if married, one spouse must be a child or grandchild of an active member in order to obtain such preference. The provision for junior seasonal subscription shall not prevent a candidate under the age of 35 from being nominated for regular seasonal subscription, if the candidate so desires.

(2) A candidate for junior seasonal subscription shall be proposed, seconded, endorsed and elected in the same manner as seasonal subscribers.

(3) Junior seasonal subscribers shall have the same privileges and responsibilities as seasonal subscribers.

(4) In the event any junior seasonal subscriber shall marry or remarry, the procedure shall be the same as set forth under Rule 1.B.(7) hereof. If the spouse is not under 35, the junior seasonal subscription is terminated; provided, however, if the marriage occurs between January 1 and June 1, the junior seasonal subscription will be valid for that season, and the spouse may be extended the privileges of the Club as, and be subject to provisions relating to, a guest though there shall be neither guest charges nor restrictions on the frequency of use of the Club by such spouse.

(5) Junior seasonal subscribers shall be entitled to a rate of capital contribution

applicable to persons becoming active members at the time the junior is elected a seasonal subscriber. This capital contribution may be paid in equal installments over the period one remains a junior seasonal subscriber, as determined by the Board of Directors from time to time.

(6) Prior to becoming eligible for active membership, the Committee on Admissions may require a junior seasonal subscriber to present himself or herself, and his or her spouse, to a Committee of three Directors of the Club for an interview.

D. Perpetual or Sustaining Members:

ANNUAL DUES

\$ _____
Plus Florida State Tax

(1) Perpetual Members shall be such persons, or their widows, as were elected to said membership by the Board of Directors at the time of reorganization.

(2) Sustaining members shall be such individual active members as have been so designated by the Board of Directors for such reasons as seniority or service to the Club.

E. Honorary Members: The Board of Directors may elect as Honorary Members persons who have rendered service to the Club or attained such other distinction as shall be deemed by the Board to merit such recognition. Honorary Members shall pay no dues.

F. Marriage or Divorce: An active member, seasonal subscriber or junior seasonal subscriber shall notify the Club in writing of his or her marriage, remarriage or divorce.

G. Resignation: Any member may resign from the Club by written notice to the Board of Directors, provided all dues and indebtedness to the Club have been paid.

H. Expulsion and Suspension: If any active member, seasonal subscriber or junior seasonal subscriber be charged in writing, addressed to the Board of Directors by any active member, with conduct injurious to the good order, welfare, interest or character of the Club, or with any infraction of the Rules, the Board shall thereupon notify the active member, seasonal subscriber or junior seasonal subscriber so charged and the individual so charged will be given an opportunity to be heard. The Board of Directors, if it shall be satisfied of the truth of the charge, may either expel or request the resignation of such active member, seasonal subscriber, or junior seasonal subscriber or order suspension of such individual's privileges for a period not exceeding ninety days.

Further, the Board of Directors shall have the prerogative, following such investigation as it deems appropriate, of expelling or suspending any active member, seasonal subscriber or junior seasonal subscriber whose conduct it finds incompatible with that of the then active membership. In such event, expulsion or suspension shall take place at the end of the Club season. In the case of expulsion, the capital contribution paid by such member may be refunded

in whole or in part.

I. Reinstatement: When an active member who has resigned is approved for reinstatement, such reinstatement is subject to payment of dues for the period elapsed since his or her resignation. After five years' absence from the Club, the purchase of a new share of stock is a requirement for reinstatement of membership.

II. GUESTS

A. Weekly Guest Card Holders shall be persons sponsored by an active member, subject to approval by the Committee on Admissions. Such cards are limited to a 2 week period per season, and are available neither to persons residing in Florida for all or a substantial part of the season, nor to any individual whose parents or grandparents reside in Palm Beach County and are not members of the Club.

CHARGES

	Family	Individual
1st Year Weekly	\$ _____	\$ _____
2nd Year Weekly	\$ _____	\$ _____

Plus 15% Gratuity Charge and Florida State Tax

- (1) Weekly guest card holders may not introduce guests.
- (2) The sponsor is responsible for all charges incurred by the weekly guest card holder.
- (3) Issuance of a weekly card to any person is limited to no more than two consecutive years and not more than three years in any six-year period.
- (4) The Club may restrict or suspend entirely the issuance of weekly guest cards at any time their issuance threatens to overcrowd the facilities of the Club.

B. Day Guests shall be such persons as are introduced and accompanied by active members or seasonal subscribers. Charges are \$ _____ during the week, \$ _____ on Saturdays and Sundays and \$ _____ during the holiday periods (specific dates to be posted).

- (1) A day guest must be registered and accompanied by a member while in the Club.
- (2) A day guest may not introduce guests.
- (3) A day guest may not sign charge vouchers. Charge vouchers must be signed by a member, who is responsible for all charges.

(4) Day guests are limited to five visits a season. To avoid embarrassment, members are requested to use care to keep day guests within the stated limit.

(5) Children over the age of 10 (other than the children or grandchildren of members) shall be considered day guests.

C. Luncheon Guests shall be such persons as may be introduced and accompanied at luncheon by active members or seasonal subscribers. Guest fees for dinner are \$____ during the week, \$____ on Saturdays and Sundays and \$____ during holiday periods (specific dates to be posted).

(1) Luncheon guests may remain in the Club until the dining room closes, but if any such guest uses the facilities of the Club for swimming, tennis, sun bathing, etc., he or she will be subject to the day guest charge.

(2) The restriction of five visits a year, applicable to day guests, does not apply to luncheon guests. A non-member may be introduced as a luncheon guest without limit on weekdays except during the Christmas and Spring holiday periods (specific dates to be posted), but only twice each month in the dining room during weekends and during such Christmas and Spring holiday periods. A non-member may be introduced without limit in the dining room. To avoid embarrassment, members are requested to use care to keep luncheon guests within the limit stated for dining room usage.

(3) Children over the age of 10 (other than the children or grandchildren of members) shall be considered luncheon guests.

D. Dinner Guests shall be such persons as may be introduced and accompanied at dinner by active members and seasonal subscribers. The charge shall be \$____. Dinner guests are limited to five visits a season. To avoid embarrassment, members are requested to use care to keep dinner guests within the limit stated.

E. House Guests shall be such persons as may be guests residing with active members or seasonal subscribers in residence in their Florida homes. Such persons may receive house guest cards with a limit of two weeks per season. The charge is \$____ per week per person. House guests are not exempt from dinner guest fees.

(1) Unmarried children of active members and seasonal subscribers shall not be considered house guests, so long as such unmarried children have not reached the age of 26. Such children may use the Club without charge.

(2) Members of the immediate family of active members or seasonal subscribers who are either married or over 25 years old and meet the house guest requirements, may receive house guest privileges for a limit of four weeks per season at the charge of \$____ per week per person. Grandchildren of active members or seasonal subscribers are subject to the

following regulations:

(a) They must be residing with their grandparents in residence in their Florida home.

(b) Grandchildren 18 or over will be limited to 4 weeks per season as houseguests, and there will be a charge of \$_____ per week per grandchild.

(3) House guests who reach the two week limit may be proposed As weekly guest card holders.

(4) Active members and seasonal subscribers are responsible for all charges incurred by house guests. Charge vouchers may be signed by house guests in the name of the sponsoring member or seasonal subscriber.

(5) The Club may restrict or suspend entirely the issuance of house guest cards.

(6) A house guest may not introduce guests.

F. Bona fide residents of Woodbridge Road, Palm Beach, Florida, and members of The Bath and Tennis Club, Inc. shall have all of the privileges of seasonal subscribers.

G. Tennis Guests must register and are subject to a \$_____ fee (\$_____ on weekends).

H. Revocation of Guest Privileges: Use of the Club by guests is a privilege, subject to the control of the Admissions Committee, which may at any time and without the assignment of any reason therefore, refuse to grant the privilege requested or revoke any privilege theretofore granted.

III. DUES AND CHARGES:

A. Membership dues are payable on or before November 1 of each year. Any member not paying his or her dues and the Florida State Tax on said dues on or before said date may be dropped from the rolls of the Club, unless for reasons submitted to and approved by the Board of Directors, and the membership may be discontinued. In the event of reinstatement, an additional 10% will be charged.

B. Upon election to active membership, stock purchase must be paid in full within thirty days of notification.

C. Dues of newly elected seasonal subscribers are payable within thirty days after notification of election. Failure to pay within said period will cause the election to be void. A seasonal subscriber elected after March 31 will be billed one-third of the annual subscription if

the seasonal subscriber wishes to use the facilities in that season.

D. All indebtedness to the Club shall be paid promptly when billed. Any active member or seasonal subscriber not paying within thirty days after statement therefor has been given or mailed may be refused further use of the Club and shall be liable to forfeiture of membership or subscription.

E. Guest charges: Active members and seasonal subscribers are responsible for all charges incurred by guests introduced by them.

IV. RESTRICTIONS:

A. Use of the Club and of other Club property is subject at all times to the Rules. The Club will be open each day during the season from 9:00 a.m. to 6:00 p.m. and at such other times as may from time to time be announced.

B. Property of the Club shall not be removed from the premises without permission of the Club.

C. No political or business solicitation shall be effected on Club property or with the use of Club stationery or other utilization of the Club name.

D. No commercial or political advertisement or notice of any kind shall be posted or circulated in the Club.

E. No professional photographers shall be allowed to take pictures at the Club except at a private party given by a member. No reporters, feature writers, or other members of the media shall be introduced as guests, if while on the Club's grounds they will be pursuing that occupation or gathering material for later publication.

F. No active member, seasonal subscriber, or guest shall individually give a gratuity or tip to a Club employee. This applies to every staff member of the Club, including parking attendants and concessionaires. Violations of this rule by active members, seasonal subscribers, or their guests may result in discharge of the employee and action under Rule 1.H. hereof. The following charges have been adopted to constitute a gratuity fund to be divided equitably among all employees:

- 15% gratuity charge on restaurant and bar charges
- 15% gratuity charge on weekly guest cards
- 15% gratuity charge on concessionaire charges, other than tennis or bathing.

G. Cigar or pipe smoking will not be permitted on the Club premises.

H. With respect to Club events requiring reservations, a charge will be made for

reservations not cancelled by 12:00 Noon on the same day of the event.

V. DISCLAIMER: The Club will not be responsible for the loss of, or damage to, property received or held on behalf of active members, seasonal subscribers, junior seasonal subscribers or guests, or kept by them in the Club or grounds, whether in lockers or elsewhere; nor will it be responsible for errors, mistakes, or dishonesty of messengers or other employees or concessionaires, nor for the loss of, or damage to, any property entrusted to any employee or concessionaire.

VI. RELEASE: No active member, seasonal subscriber, junior seasonal subscriber (referred to herein as "member") or guest shall have any right of action against the Club or any of its officers, directors, or members, to recover losses or damages for injuries to the person or property of such member or the servant or servants of such member, due to negligence, malfeasance or misfeasance of any of its officers, directors, agents, employees, concessionaires or servants. Acceptance or continuance of membership or subscription by any person shall so far as permitted by law be a waiver and surrender by such member of any such right or action.

VII. COMPLAINTS OR SUGGESTIONS: Issues concerning the management, service, errors in charges or general operation of the Club should be in writing, signed by the active member or seasonal subscriber and addressed to the President.

VIII. REGISTRATION: Active members and seasonal subscribers shall register for themselves and their families on the first visit of each season. When introducing a house guest the sponsoring member shall register on the first visit of the house guest to the Club. Weekly guest card holders, day guests, luncheon guests, dinner guests and tennis guests must be accompanied by their sponsor, who is responsible for their conduct.

IX. ATTIRE: The dining room, living room and bar are reserved for those in full attire. Bathers, tennis players and golfers shall shower and change into full attire prior to entering these areas. Attire should meet the standards of good taste expected from active members, seasonal subscribers and guests of the Club. Tennis attire must be all white. To avoid embarrassment, active members and seasonal subscribers should inform their guests of the dress requirements. The Club or its designated representative shall be the sole judge of the propriety of any costume.

X. BATHERS: Rest rooms are provided near bathing areas. Bathers with wet or damp swimming suits should not use any part of the Mansion. Immodest bathing attire should not be worn at the Club. Children should be instructed in the proper use of the pool, not to use floating mattresses or toys in the pool, not to romp or run around the pool, and to assist in keeping the pool sanitary.

XI. CHILDREN: Active members and seasonal subscribers are responsible at all times for the behavior on Club property of their children and grandchildren (hereinafter called children), and for the behavior of any other children who may be their guests. Children under eight years of age are not permitted unattended on Club property. Children whose parents are playing tennis

are considered to be unattended. Children must behave at all times with due consideration for the comfort and enjoyment of others; particular care is appropriate. Parents, grandparents or sponsors will receive written notice of any abuse. Children over the age of 10 will not be charged for the use of the Club facilities.

XII. NURSES, GOVERNESSES AND ATTENDANTS: Maids, nurses and governesses accompanying children learning to swim are permitted the use of the pool until noon. Thereafter, they must be dressed in conformity with their position. Parents are responsible at all times for the behavior on Club property of their nurses and governesses, with consideration for the comfort and enjoyment of the membership.

XIII. AGREEMENT TO RULES: Payment of dues by an active member or seasonal subscriber shall be deemed knowledge of, and acquiescence in, these Rules.

XIV. INTERPRETATION: The Board of Directors and any officer of the Club shall have the right to interpret these Rules.

XV. WAIVER: At any time and from time to time, the Board of Directors may waive any Rule (or any part of any Rule) if such waiver is deemed by the Board to be in the best interests of the Club or if any Rule (or any part of any Rule) is judged by the Board to result in individual hardship or lack of fairness.

CHAPTER NINE

TRAFFIC ANALYSIS

TRAFFIC ANALYSIS

By: Joseph B. Pollock, Jr., P.E.
Kimley-Horn and Associates, Inc.

INTRODUCTION

The proposed Club at Mar-A-Lago is a planned use of the existing Mar-A-Lago mansion and grounds in a manner similar to which Ms. Marjorie Merriweather Post originally used the estate. Ms. Post used the estate as a place to live for several months of the year and to entertain guests essentially on a daily basis during the winter months of the year. A private club is proposed for the property which would have a limited membership. The owner and guest quarters of the mansion will be used as extended living quarters for members and/or their guests. Food service would be provided for the living quarters on an as needed basis and limited lunch and dinner service for non-resident members and their guests. The tennis court and the nine-hole golf course would be available for members and their guests as would use of the pool and a spa. Access for the development would be onto Ocean Boulevard.

Kimley-Horn and Associates, Inc. was retained to prepare a trip generation traffic impact analysis for the proposed club. The study was conducted using criteria and techniques consistent with the 1992 Traffic Performance Code of Palm Beach County.

PLANNING DATA

Proposed Club Use

Data concerning the proposed use of the property as a private club was provided by The Lawrence Group, Jim Griffin and Paul Rampell. The club will have the following use characteristics:

Resident Quarters	10 Units
Dining Room Seating	75 People
Staff	70 Persons
Tennis Court	1 Court
Pool	1
Spa	3,500 Sq.Ft.
Golf Course	9 Holes (Limited Layout)

Use of the club facilities will be limited to club members and their guests. The resident quarters are anticipated to function, for purposes of traffic analysis, as exclusive resort hotel units or private apartments. None of the resident units will have their own food preparation facilities, therefore dining will be limited to room service type meals for dining within the resident quarters or to seating in the dining room which is a part of the club. The dining room will have regular seating for approximately 75 people. Special events may be held with dining for more than 75 people through special use of auxiliary rooms and verandas.

The club is planned to operate with a staff of 70 persons including grounds personnel. Even though there are servant quarters on the property, essentially all staff will reside off the property. It is possible that the club may choose to transport the majority of staff to the property using a shuttle van from a parking facility west of the Intracoastal Waterway.

The use of the dining facilities will be limited to activities planned to meet the needs of the membership as well as the activity level of the members. Lunch and/or dinner may not be provided everyday depending upon the needs and usage of the club membership. Several other existing clubs within the Town of Palm Beach do not serve lunch and/or dinner everyday during the winter season. A copy of a schedule for an existing club is attached as Exhibit "A".

Ms. Marjorie Merriweather Post's Use

Ms. Post used Mar-A-Lago as a residence during the winter months of the year and as a place to entertain her house guests and other guests who were invited on a daily basis. According to Jim Griffin, Ms. Post typically had numerous house guests residing in the 9 guest quarter units which exist in the mansion. In addition, she invited other people to the mansion on a daily basis for lunch, teas, and/or dinner. It was not uncommon for her to have all 9 guest quarters full and for her to have 20 to 40 people in for tea or lunch and other 50 to 60 people in for dinner on a daily basis. In addition, larger events were held on weekends, special occasions or for benefits.

Ms. Post had a full-time staff of 70 people who worked at the estate. Typically, only 60 or so worked on any given day. Approximately half of the staff lived in staff quarters at the estate.

Mr. Donald Trump's Use

Mr. Trump uses the estate in much the same manner as Ms. Post but the activity level is less intensive according to Jim Griffin. During the winter months, the owner's quarters are used very extensively but not necessarily everyday. The guest quarters are typically used at the fifty percent level through the season. A staff of 25 people maintains the grounds the year round and meets the needs of the owners and guests during the season. In addition, Mr. Trump and/or his guests have visitors in for the day or evening on a regular basis.

TRIP GENERATION

Proposed Club Use

The trip generation potential for the proposed club was developed based upon characteristics and usage of the proposed club. Trip generation rates of private clubs of the type proposed for the site are not documented in data published by Palm Beach County or the Institute of Transportation Engineers. There is a very limited amount of data published by the Institute of Transportation Engineers (ITE) which is for one Elks Club in California. It is not envisioned that the private club proposed for Mar-A-Lago would be anything like an Elks Club. Consequently, those data are not valid for use. The number of living quarters, lunch and dinner activity, number of staff, service and deliveries as well as other member activity on a weekday basis have been used to determine the trip generation potential of the proposed club.

The 10 member/guest living quarters as stated previously are assumed to function much like a resort hotel for trip generation purposes. The official hotel trip generation rate of Palm Beach County is 8.7 daily trips per hotel room or unit. The ITE documents indicate that a resort hotel generates approximately 10 trips per day per occupied room or unit. Both the Palm Beach County hotel rate and the ITE resort hotel rate include all trips even those generated by staff, deliveries and others coming to the hotel for dining or meetings. Based upon trip purpose data from Broward County, approximately 50 percent of a hotel's trips are related to staff, deliveries, and persons other than registered hotel guests using the facility. Consequently, we have used the resort hotel rate of 10 trips per hotel room or unit but have reduced it by 50 percent since we are generating trips for staff, service vehicles and others separately.

A staff of 70 persons is proposed to operate the club in much the same manner as Ms. Post did. For purposes of this analysis, we have assumed that each staff person will come to the site to work and then leave at the end of their shift. Thus, each staff person would generate two trips per day. It may be that some staff members will carpool or otherwise ride to work together and the club may decide to operate a shuttle bus between Mar-A-Lago and a remote location to

minimize parking and traffic demands of the estate. These considerations have not been included in this analysis.

Service and deliveries of goods and materials to the club are estimated to average 10 vehicles per day. Two trips per vehicle would be assumed.

Dining at the club would consist primarily of club members using the club for lunch in conjunction with use of the club's other facilities and/or attending dinner in the evenings. The club will have 75 seats available for dining. The Club is expected to serve lunches for 60 percent of its total 75 seating capacity on the average. Thus, 45 lunches would be served on a daily basis with 35 of the lunches being consumed by members driving to the club and 10 lunches being consumed by persons from the 10 member/guest living quarter units at the club. An automobile occupancy of two persons per car is expected for members and/or their guests arriving for lunch. For dinner, the club expects to have all 75 seats filled. Approximately 20 of the 75 seats are expected to be filled by persons occupying the living quarters at the club. As with lunch, an automobile occupancy of two persons per car is expected for club members and/or their guests arriving for dinner.

Since the club will be open before and after lunch for tennis, golf, spa or other use, it is anticipated that club members and/or their guests will utilize the club's facilities. From 20 to 25 members are expected to use the club's facilities other than for lunch or dinner. For purposes of this analysis, we have assumed that 25 members would use the club on an average weekday. For these trips, an automobile occupancy of one person per car is assumed.

Based upon the assumptions discussed above, the trip generation potential of the proposed club was determined. A summary of the determination is presented in Table 1. As can be seen in Table 1, the total daily trip generation is 350 daily trips.

**TABLE 1
DAILY TRIP GENERATION
PROPOSED CLUB**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Living Quarters	10	.5 x 10 trips/unit	50
Staff	70	2 trips/person	140
Service Vehicles	10	2 trips/vehicle	20
Lunch	35	2 trips/2 persons	35
Dinner	55	2 trips/2 persons	55
Other Use	25	2 trips/person	50
Total			350

If the proposed club were to be operated with a shuttle bus or van for 40 percent of the staff, the vehicular trips made by staff would be reduced. A shuttle, if operated, would transport staff from a parking facility west of the Intracoastal Waterway to Mar-A-Lago and thereby reduce parking demands at Mar-A-Lago. Table 2 presents a summary of the daily trip generation of the proposed club with a staff shuttle. As can be seen in Table 2, the total trip generation is 302 daily trips.

Alternatively, the club may not contain but 50 seats in the dining area. A reduced dining area would reduce staff demands slightly and also reduce total daily traffic. Table 2 presents a summary of the daily trip generation of the proposed club with reduced dining. The total daily trip generation is 300 trips as can be seen in Table 3.

TABLE 2
DAILY TRIP GENERATION
PROPOSED CLUB WITH STAFF SHUTTLE

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Living Quarters	10	.5 x 10 trips/unit	50
Staff	70 - 30 = 40	2 trips/person	80
Service Vehicles	10	2 trips/vehicle	20
Lunch	35	2 trips/2 persons	35
Dinner	55	2 trips/2 persons	55
Other Use	25	2 trips/person	50
Shuttle Runs	6	2 trips/run	12
Total			302

TABLE 3
DAILY TRIP GENERATION
PROPOSED CLUB WITH REDUCED DINING
(50 Seats)

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Living Quarters	10	.5 x 10 trips/unit	50
Staff	60	2 trips/person	120
Service Vehicles	10	2 trips/vehicle	20
Lunch	20	2 trips/2 persons	20
Dinner	40	2 trips/2 persons	40
Other Use	25	2 trips/person	50
Total			300

Ms. Marjorie Merriweather Post's Use

The trip generation potential of the estate's use by Ms. Post was estimated in the same manner as that used for the proposed club. The differences are very small with the exception of staff as can be seen in Table 4.

**TABLE 4
DAILY TRIP GENERATION
MS. POST USE OF MAR-A-LAGO**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Owners Quarters	1	10 trips/unit	10
Guest Quarters	9	.5 x 10 trips/unit	45
Staff	30	2 trips/person	60
Service Vehicles	10	2 trips/vehicle	20
Day Visitors	20	2 trips/2 persons	20
Evening Visitors	55	2 trips/2 person	55
Total			210

Since Ms. Post lived at Mar-A-Lago, the trip generation rate for her living quarters was assumed to be similar to a single-family residence. The guest living quarters were assumed to be similar to a resort hotel. As stated in the planning data, approximately one-half of the staff resided on the estate in servant quarters provided by Ms. Post. Ms. Post typically entertained other invited guests during the day in addition to her house guests. We have estimated that level of average daily activity to be 20 persons in addition to house guests. Evening dinners typically included 75 persons with 55 of those persons being persons other than house guests. Service and delivery vehicles were assumed to be approximately 10 per day. As can be seen in the summary presented in Table 4, the total trip generation potential of the previous use of the estate is 210 daily trips.

Mr. Donald Trump's Use

Donald Trump uses Mar-A-Lago much the same as Ms. Post but the activity is slightly less intensive. The estate does not presently experience the same level of guest activity or have as many staff as Ms. Post did when she used Mar-A-Lago. The trip generation potential of Mr. Trump's use of the property is summarized in Table 5, the daily trips associated with the existing use by Mr. Trump and his guests totals 103.

**TABLE 5
DAILY TRIP GENERATION
EXISTING TRUMP USE OF MAR-A-LAGO**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Owners Quarters	1	10 trips/unit	10
Guest Quarters	5	.5 x 10 trips/unit	25
Staff	25	2 trips/person	50
Service Vehicles	6	2 trips/vehicle	12
Day/Evening Visitors	6	2 trips/2 persons	6
Total			103

Trip Generation Difference

As can be seen in Tables 1, 2, and 3, the proposed club will generate between 300 and 350 daily trips. The trips associated with Ms. Post's use totalled 210 daily trips while Mr. Trump's current use generates approximately 103 daily trips. Based upon discussions with the Town of Palm Beach staff as well as the staff of Palm Beach County, Mr. Trump's existing use should be the benchmark against which the proposed club should be measured for concurrency purposes.

Thus, the proposed club will generate 197 to 247 more daily trips than Mr. Trump's existing use. The increase in trips (from 197 to 247) is subject to concurrency. To meet the requirements of the Palm Beach County Traffic Performance Standards, the traffic increase should be limited to 200 daily trips. To accomplish this, the club would need to utilize a shuttle van for some of its staff, reduce seating in the dining area, limit club membership or utilize some other technique to limit traffic.

Based upon observed traffic characteristics of the Bath and Tennis Club, a total of 302 daily trips for the proposed Mar-A-Lago Club translates to a potential club membership of 1,007.

TRAFFIC ASSIGNMENT

The assignment of traffic from the proposed club at Mar-A-Lago as well as traffic from the existing use would be essentially the same. Approximately, 45 percent of the trips would load to the north on Ocean Boulevard with the remaining 55 percent loading to the south on Ocean Boulevard. Of the 55 percent loading south on Ocean Boulevard, 25 percent would continue south on Ocean Boulevard south of Southern Boulevard while the other 30 percent would travel west on Southern Boulevard across the Intracoastal Waterway.

The Traffic Performance Standards of Palm Beach County require that only the increase in trips are subject to the performance standards. Of the 200 additional trips, 90 trips would impact Ocean Boulevard north of Mar-A-Lago and 110 daily trips would impact Ocean Boulevard south of Mar-A-Lago to Southern Boulevard crossing the Intracoastal Waterway. The additional traffic impact on Southern Boulevard would be 60 daily trips while the remaining 50 daily trips would travel south on Ocean Boulevard south of Southern Boulevard.

Since many of the staff for the proposed club are expected to live west of the Intracoastal Waterway and travel to the Mar-A-Lago Club via Southern Boulevard, the majority of staff should

utilize the Southern Boulevard service entrance for access to the property. This will reduce traffic impacts on Ocean Boulevard north of Southern Boulevard.

COMPLIANCE WITH COUNTYWIDE TRAFFIC PERFORMANCE STANDARDS

Since the increase in trips is 200 daily trips or less, the radius of influence is only the directly accessed link. Thus, only Ocean Boulevard north and south of the site needs to be evaluated relative to the Traffic Performance Standards. That roadway section is presently over capacity but was also over capacity when the comprehensive plan of Palm Beach County was adopted. Since the roadway was over capacity when the County adopted its comprehensive plan, the traffic performance standards allow a minimal additional impact (1 percent of 13,700) by a project such as the proposed club. The 110 trips per day impact is less than the allowable 1 percent impact volume of 137 trips. Thus, the proposed club complies with the traffic performance standards ordinance.

COMPLIANCE WITH TOWN OF PALM BEACH CONCURRENCY REQUIREMENTS

A review of historical traffic count data was undertaken to estimate 1993 peak season traffic volumes for use in determining compliance with the Town's concurrency requirements. Based upon Table 6, the proposed club complies with the concurrency requirements of the Town.

**TABLE 6
OCEAN BOULEVARD/A1A PEAK SEASON, PEAK HOUR

- ² Pages 12, 13, and 14, "Traffic Engineering Study", Frederic R. Harris, December, 1990.
- ³ Palm Beach County Traffic Count, February 13, 1992
- ⁴ Estimated by Kimley-Horn based upon change in traffic on Ocean Boulevard between County Road and Southern Boulevard.
- ⁵ Estimated by Kimley-Horn based upon change in peak season daily traffic between 1990 and 1992 using Palm Beach County data.
- ⁶ Estimated by Kimley-Horn based upon an assumed 5 percent growth rate between 1992 and 1993. Five percent growth rate based on 1991 to 1992 average daily volume growth for the Ocean Boulevard count station between County Road and Southern Boulevard and the Ocean Boulevard count station south of Southern Boulevard. Peak season daily volume actually decreased between 1991 and 1992 for the two count stations.
- ⁷ Estimated by Kimley-Horn to be 7 percent of 200 additional daily traffic generated by proposed Mar-A-Lago Club.

CONCLUSION

As demonstrated by this report, the proposed club at Mar-A-Lago complies with the Countywide Traffic Performance Standards of Palm Beach County. Further, the proposed complies with the Town of Palm Beach concurrency requirements based upon projected 1993 peak season volumes.

SITE ACCESS AND ON-SITE TRAFFIC CIRCULATION

An evaluation of site access and on-site traffic circulation was undertaken to minimize any congestion which the proposed club might cause on Ocean Boulevard. During special events at Mar-A-Lago recently, there has been some congestion caused on Ocean Boulevard which can be avoided with proper operation and management. To address the situation conceptual plans were developed depicting the existing use, typical daily club use, and special events at the club. Figures 1, 2, 3 and 4 depict the concepts.

Figure 1 depicts the existing circulation plan. The existing main entrance on Ocean Boulevard is used by the owner and the owner's guests for entry and exit. The primary service access is at the northern driveway on Ocean Boulevard and is used for both entry and exit for staff and service vehicles. A secondary service entry and exit also exists on Southern Boulevard.

Figure 2 depicts the circulation plan for the proposed club use on a typical day. The existing main entrance would be utilized for two lanes of inbound traffic for members and their guests. The two lanes would be served by separate valet drop points. One drop would be under the porte cochere while the second drop would be on the traffic circle. The existing northern service entrance and exit would be converted to two lanes for exit only for members and guests. Valet pick-up would be accomplished in the parking area north of the traffic circle. All service and staff would enter and exit via the Southern Boulevard service entry and exit.

Figure 3 depicts the entry circulation plan for a special event at the club. The main entrance would operate with two lanes inbound traffic for members and their guests. The northern access to Ocean Boulevard would operate with one lane as an entry for members and guests while the second lane would be available for any vehicles which need to exit the property after dropping off members or guests attending the special event at the club. Three valet drop locations would be provided for the three inbound lanes. All service vehicles and staff would utilize the Southern Boulevard service entry and exit. With this plan, there should be no congestion on Ocean Boulevard. The club should engage policemen to maintain smooth traffic flow on Ocean Boulevard associated with vehicles entering the club's driveways.

Figure 4 depicts the exit circulation plan for a special event at the club. The main entrance would be used for two-way traffic. One lane would be used for members and guests exiting after the event is over. The inbound lane would be available for vehicles returning to pick-up members or guests. The northern access to Ocean Boulevard would be used as two lanes for members and guests exiting the property. The Southern Boulevard access would be used as a supplemental exit for members and guests exiting the property as well as entry and exit for service and staff. With this plan, there should be minimal congestion caused on Ocean Boulevard and special event attendees will be able to exit the property rather quickly. The club should engage policemen to allow special event attendees to enter Ocean Boulevard and Southern Boulevard safely.

Parking for the proposed club will be provided on site through a combination of paved and unpaved parking spaces. Unpaved spaces will be provided in grass areas which have a stabilized subbase or through the use of wood chip or some similar materials. These techniques have been used effectively in areas which are not constantly used for parking.

CHAPTER TEN

**APPLICATION FOR SPECIAL EXCEPTION,
SITE PLAN REVIEW AND
DEVELOPMENT IMPACT REPORT**

APPLICATION FOR SPECIAL EXCEPTION NO.

TO THE TOWN COUNCIL OF THE TOWN OF PALM BEACH:

The undersigned requests that a Special Exception to the Zoning Ordinance be granted with respect to the following property, described as:

See Exhibit "A" attached and incorporated herein by reference.

The Special Exception requested is as follows:

Special Exception Use No. 5 ("Private social, swimming, golf, tennis and yacht clubs") under Article 4, Section 4.10, B, "Schedule of Use Regulations" for District R-AA, "Large Estate Residential."

The following are the reasons why such Special Exception should be granted:

See Exhibit "B" attached and incorporated herein by reference.

Respectfully submitted,
The Mar-a-Lago Club, Inc.

NOTE

The Addendum contains information supplementary to certain chapters in The Mar-a-Lago Club: A Special Exception Use and Preservation Plan filed with the Town of Palm Beach on March 12, 1993. Changes are based upon constructive comments made by Mar-a-Lago's neighbors, Town of Palm Beach Councilmembers and staff, experts, preservation authorities, residents and interested parties. All modifications are restrictive of the Application for Special Exception No. 11-93. If anything in the Addendum is inconsistent with other submitted materials, Addendum provisions shall control.

CHAPTER ONE

THE MAR-A-LAGO CLUB INTRODUCTION

1. Donald J. Trump shall continue to pay any and all real property taxes, maintenance costs, insurance premiums and similar expenses to the extent The Mar-a-Lago Club, Inc. is unable to meet such obligations.

2. The Applicant and Mr. Trump shall enter into a binding, recordable agreement with the Town of Palm Beach to insure compliance by the Club with representations herein regarding preservation, parking, traffic, unity of title, compliance with various governmental requirements and related matters.

3. Mr. Trump and/or the Applicant within a reasonable period of time shall voluntarily make an income tax deductible donation of preservation easements covering the Critical Features identified in Chapter Three to a government unit or a charitable organization as defined in Sections 501(c)(3), 509(a)(2) or 509(a)(3) of the Internal Revenue Code.

4. Membership in the Club shall be limited to that number necessary to meet traffic limitations imposed by Palm Beach County and the Town of Palm Beach.

5. Landscaping along the northern boundary of the Mar-a-Lago estate will be cultivated and enhanced to serve as a barrier for the benefit of Woodbridge residents. If after a reasonable period of time (not to exceed two years) this vegetational buffer proves to be inadequate, the boundary wall will be extended (westward to Lake Worth) and increased in height (to the maximum possible) with appropriate governmental approval.

CHAPTER TWO

PRINCIPLES OF PRESERVATION

The following is added to Principle II:

"No selective restriction shall be permitted which would create an architectural form which never existed in the past."

In Principle IX, the phrase "further the original conceptions of" shall be replaced with the phrase "maintain the integrity of creations by."

Principle X is deleted and the following inserted in lieu thereof:

"In addition to the foregoing, the U.S. Secretary of the Interior's Standards for Rehabilitation and Guidelines for Rehabilitating Historic Buildings, as amended from time to time, shall be strictly adhered to subject to applicable governmental regulations."

CHAPTER THREE

CRITICAL FEATURES

The following shall be added to Item 10, "Mansion Rooms":

(v) upper and lower cloisters, (w) north and south second floor corridors and overlooks," and (x) all stairways."

CHAPTER EIGHT

**ARTICLES OF INCORPORATION,
BY-LAWS AND RULES
OF
THE MAR-A-LAGO CLUB, INC.**

In Article VIII, Section 5, "Eight" is corrected to "Two."

CHAPTER NINE

TRAFFIC ANALYSIS

Because modifications to various parts of this Chapter were made, the Traffic Analysis is set forth in its entirety.

TRAFFIC ANALYSIS

By: Joseph B. Pollock, Jr., P.E.
Kimley-Horn and Associates, Inc.

INTRODUCTION

The proposed Club at Mar-A-Lago is a planned use of the existing Mar-A-Lago mansion and grounds in a manner similar to which Ms. Marjorie Merriweather Post originally used the estate. A private club is proposed for the property which would have a limited membership. The owner and guest rooms of the mansion will be used for members and/or their guests. Food service would be provided for the guest rooms on an as needed basis and limited lunch and dinner service for non-resident members and their guests. The tennis court and the nine-hole golf course would be available for members and their guests as would use of the pool and a spa. Access for the development would be onto Ocean Boulevard.

Kimley-Horn and Associates, Inc. was retained to prepare a trip generation traffic impact analysis for the proposed club. The study was conducted using criteria and techniques consistent with the 1992 Traffic Performance Code of Palm Beach County.

PLANNING DATA

Proposed Club Use

Data concerning the proposed use of the property as a private club was provided by the Lawrence Group, Jim Griffin, and Paul Rampell. The club will have the following use characteristics:

Guest Rooms	10 Units
Dining Room Seating	75 People
Staff	70 Persons
Tennis Court	1 Court
Pool	1
Spa	3,500 Sq.Ft.
Golf Course	9 Holes (Limited Layout)

Use of the club facilities will be limited to club members and their guests. The guest rooms are anticipated to function, for purposes of traffic analysis, as exclusive resort hotel rooms. None of the guest rooms will have their own food preparation facilities, therefore dining will be limited to room service type meals for dining within the them or to seating in the dining room which is a part of the club. The dining room will have regular seating for approximately 75 people. Special events may be held with dining for more than 75 people through special use of auxiliary rooms and verandas.

The club is planned to operate with a staff of 70 persons including grounds personnel. Even though there are servant quarters on the property, essentially all staff will reside off the property. It is possible that the club may choose to transport the majority of staff to the property using a shuttle van from a parking facility west of the Intracoastal Waterway.

The use of the dining facilities will be limited to activities planned to meet the needs of the membership as well as the activity level of the members. Lunch and/or dinner may not be provided everyday depending upon the needs and usage of the club membership. Several other existing clubs within the Town of Palm Beach do not serve lunch and/or dinner everyday during the winter season. A copy of a schedule for an existing club is attached as Exhibit "A".

Ms. Marjorie Merriweather Post's Use

Ms. Post used Mar-A-Lago as a residence during the winter months of the year and as a place to entertain her house guests and other guests who were invited on a daily basis. According to Jim Griffin, Ms. Post typically had numerous house guests residing in the 9 guest quarter units which exist in the mansion. In addition, she invited other people to the mansion on a daily basis for lunch, teas, and/or dinner. It was not uncommon for her to have all 9 guest quarters full and for her to have 20 to 40 people in for tea or lunch and other 50 to 60 people in for dinner on a daily basis. In addition, larger events were held on weekends, special occasions or for benefits.

Ms. Post had a full-time staff of 70 people who worked at the estate. Typically, only 60 or so worked on any given day. Approximately half of the staff lived in staff quarters at the estate.

Mr. Donald Trump's Use

Mr. Trump uses the estate in much the same manner as Ms. Post but the activity level is less intensive according to Jim Griffin. During the winter months, the owner's quarters are used very extensively but not necessarily everyday. The guest quarters are typically used at the fifty percent level through the season. A staff of 25 people maintains the grounds the year round and meets the needs of the owners and guests during the season. In addition, Mr. Trump and/or his guests have visitors in for the day or evening on a regular basis. If he so desired, Mr. Trump could increase the intensity of his usage to Ms. Post's level easily and without any zoning change.

TRIP GENERATION

Proposed Club Use

The trip generation potential for the proposed club was developed based upon characteristics and usage of the proposed club. Trip generation rates of private clubs of the type proposed for the site are not documented in data published by Palm Beach County or the Institute of Transportation Engineers. There is a very limited amount of data published by the Institute of Transportation Engineers (ITE) which is for one Elks Club in California. It is not envisioned that the private club proposed for Mar-A-Lago would be anything like an Elks Club. Consequently, those data are not valid for use. The number of guest rooms, lunch and dinner activity, number of staff, service and deliveries as well as other member activity on a weekday basis have been used to determine the trip generation potential of the proposed club.

The 10 member/guest rooms as stated previously are assumed to function much like a resort hotel for trip generation purposes. The official hotel trip generation rate of Palm Beach County is 8.7 daily trips per hotel room. The ITE documents indicate that a resort hotel generates approximately 10 trips per day per occupied room. Both the Palm Beach County hotel rate and the ITE resort hotel rate include all trips even those generated by staff, deliveries and others coming to the hotel for dining or meetings. Based upon trip purpose data from Broward County, approximately 50 percent of a hotel's trips are related to staff, deliveries, and persons other than registered hotel guests using the facility. Consequently, we have used the resort hotel rate of 10 trips per hotel room but have reduced it by 50 percent since we are generating trips for staff, service vehicles and others separately. Exhibit "B" is a copy of the Broward County trip rates by trip purpose.

A staff of 70 persons is proposed to operate the club in much the same manner as Ms. Post did. For purposes of this analysis, we have assumed that each staff person will come to the site to work and then leave at the end of his or her shift. Thus, each staff person would generate two trips per day. It may be that some staff members will carpool or otherwise ride to work together

and the club may decide to operate a shuttle bus between Mar-A-Lago and a remote location to minimize parking and traffic demands of the estate. These considerations have not been included in this analysis.

Service and deliveries of goods and materials to the club are estimated to average 10 vehicles per day. Two trips per vehicle would be assumed.

Dining at the club would consist primarily of club members using the club for lunch in conjunction with use of the club's other facilities and/or attending dinner in the evenings. The club will have 75 seats available for dining. The Club is expects to serve lunches for 60 percent of its total 75 seating capacity on the average. Thus, 45 lunches would be served on a daily basis with 35 of the lunches being consumed by members driving to the club and 10 lunches being consumed by persons from the 10 member/guest rooms at the club. An automobile occupancy of two persons per car is expected for members and/or their guests arriving for lunch. For dinner, the club expects to have all 75 seats filled. Approximately 20 of the 75 seats are expected to be filled by persons occupying the guest rooms at the club. As with lunch, an automobile occupancy of two persons per car is expected for club members and/or their guests arriving for dinner.

Since the club will be open before and after lunch for tennis, golf, spa or other use, it is anticipated that club members and/or their guests will utilize the club's facilities. Another 20 to 25 members are expected to use the club's facilities without having lunch or dinner. For purposes of this analysis, we have assumed that 25 members other than those having lunch or dinner would use the club on an average weekday. For these trips, an automobile occupancy of one person per car is assumed.

Although the Club extends privileges to residents of Woodbrige Road, 1125 South Ocean Boulevard and the Bath and Tennis Club, these individuals will not park at Mar-A-Lago since they easily can walk and should not impact either traffic or parking.

Based upon the assumptions discussed above, the trip generation potential of the proposed club was determined. A summary of the determination is presented in Table 1. As can be seen in Table 1, the total daily trip generation is 350 daily trips.

**TABLE 1
DAILY TRIP GENERATION
PROPOSED CLUB**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Guest Rooms	10	.5 x 10 trips/unit	50
Staff	70	2 trips/person	140
Service Vehicles	10	2 trips/vehicle	20
Lunch	35	2 trips/2 persons	35
Dinner	55	2 trips/2 persons	55
Other Use	25	2 trips/person	50
Total			350

If the proposed club were to be operated with a shuttle bus or van for 40 percent of the staff, the vehicular trips made by staff would be reduced. A shuttle, if operated, would transport staff from a parking facility west of the Intracoastal Waterway to Mar-A-Lago and thereby reduce parking demands at Mar-A-Lago. Table 2 presents a summary of the daily trip generation of the proposed club with a staff shuttle. As can be seen in Table 2, the total trip generation is 302 daily trips.

Alternatively, the club may limit seating in the dining area to 50. A reduced dining area would reduce staff demands lightly and also reduce total daily traffic. Table 2 presents a summary of the daily trip generation of the proposed club with reduced dining. The total daily trip generation is 300 trips as can be seen in Table 3.

**TABLE 2
DAILY TRIP GENERATION
PROPOSED CLUB WITH STAFF SHUTTLE**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Guest Rooms	10	.5 x 10 trips/unit	50
Staff	70 - 30 = 40	2 trips/person	80
Service Vehicles	10	2 trips/vehicle	20
Lunch	35	2 trips/2 persons	35
Dinner	55	2 trips/2 persons	55
Other Use	25	2 trips/person	50
Shuttle Runs	6	2 trips/run	12
Total			302

**TABLE 3
DAILY TRIP GENERATION
PROPOSED CLUB WITH REDUCED DINING
(50 Seats)**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Guest Rooms	10	.5 x 10 trips/unit	50
Staff	60	2 trips/person	120
Service Vehicles	10	2 trips/vehicle	20
Lunch	20	2 trips/2 persons	20
Dinner	40	2 trips/2 persons	40
Other Use	25	2 trips/person	50
Total			300

Ms. Marjorie Merriweather Post's Use

The trip generation potential of the estate's use by Ms. Post was estimated in the same manner as that used for the proposed club. The differences are very small with the exception of staff as can be seen in Table 4.

**TABLE 4
DAILY TRIP GENERATION
MS. POST USE OF MAR-A-LAGO**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Owners Suite	1	10 trips/unit	10
Guest Rooms	9	.5 x 10 trips/unit	45
Staff	30	2 trips/person	60
Service Vehicles	10	2 trips/vehicle	20
Day Visitors	20	2 trips/2 persons	20
Evening Visitors	55	2 trips/2 person	55
Total			210

Since Ms. Post lived at Mar-A-Lago, the trip generation rate for her suite was assumed to be similar to a single-family residence. The guest rooms were assumed to be similar to a resort hotel. As stated in the planning data, approximately one-half of the staff resided on the estate in servant quarters provided by Ms. Post. Ms. Post typically entertained other invited guests during the day in addition to her house guests. We have estimated that level of average daily activity to be 20 persons in addition to house guests. Evening dinners typically included 75 persons with 55 of those persons being persons other than house guests. Service and delivery vehicles were assumed to be approximately 10 per day. As can be seen in the summary presented in Table 4, the total trip generation potential of the previous use of the estate is 210 daily trips.

Mr. Donald Trump's Use

Donald Trump uses Mar-A-Lago much the same as Ms. Post but the activity is slightly less intensive. The estate does not presently experience the same level of guest activity or have as many staff as Ms. Post did when she used Mar-A-Lago. The trip generation potential of Mr. Trump's use of the property is summarized in Table 5, the daily trips associated with the existing use by Mr. Trump and his guests totals 103. Exhibit "C" contains a list of employees or persons who are at Mar-A-Lago on a daily basis.

**TABLE 5
DAILY TRIP GENERATION
EXISTING TRUMP USE OF MAR-A-LAGO**

Activity or Use	Quantity	Daily Trip Rate	Daily Trips
Owners Suite	1	10 trips/unit	10
Guest Rooms	5	.5 x 10 trips/unit	25
Staff	25	2 trips/person	50
Service Vehicles	6	2 trips/vehicle	12
Day/Evening Visitors	6	2 trips/2 persons	6
Total			103

Trip Generation Difference

As can be seen in Tables 1, 2, and 3, the proposed club will generate between 300 and 350 daily trips. The trips associated with Ms. Post's use totalled 210 daily trips while Mr. Trump's current use generates approximately 103 daily trips. Based upon discussions with the Town of Palm Beach staff as well as the staff of Palm Beach County, Mr. Trump's existing use should be

the benchmark against which the proposed club should be measured for concurrency purposes. Thus, the proposed club will generate 197 to 247 more daily trips than Mr. Trump's existing use. The increase in trips (from 197 to 247) is subject to concurrency. To meet the requirements of the Palm Beach County Traffic Performance Standards, the traffic increase should be limited to 200 daily trips. To accomplish this, the club shall at all times either (a) utilize a shuttle van to transport some of its staff to Mar-A-Lago from a remote site, or (b) reduce seating in the dining area.

Based upon observed traffic characteristics of the Bath and Tennis Club, a total of 302 daily trips for the proposed Mar-A-Lago Club translates to a potential club membership of 1,007. Club membership shall not exceed this number. Exhibit "D" contains a computation of the potential club membership calculation.

TRAFFIC ASSIGNMENT

The assignment of traffic from the proposed club at Mar-A-Lago as well as traffic from the existing use would be essentially the same. Approximately, 45 percent of the trips would load to the north on Ocean Boulevard with the remaining 55 percent loading to the south on Ocean Boulevard. Of the 55 percent loading south on Ocean Boulevard, 25 percent would continue south on Ocean Boulevard south of Southern Boulevard while the other 30 percent would travel west on Southern Boulevard across the Intracoastal Waterway.

The Traffic Performance Standards of Palm Beach County require that only the increase in trips are subject to the performance standards. Of the 200 additional trips, 90 trips would impact Ocean Boulevard north of Mar-A-Lago and 110 daily trips would impact Ocean Boulevard south of Mar-A-Lago to Southern Boulevard crossing the Intracoastal Waterway. The additional traffic impact on Southern Boulevard would be 60 daily trips while the remaining 50 daily trips would travel south on Ocean Boulevard south of Southern Boulevard.

Since many of the staff for the proposed club are expected to live west of the Intracoastal Waterway and travel to the Mar-A-Lago Club via Southern Boulevard, the majority of staff should utilize the Southern Boulevard service entrance for access to the property. This will reduce traffic impacts on Ocean Boulevard north of Southern Boulevard.

COMPLIANCE WITH COUNTYWIDE TRAFFIC PERFORMANCE STANDARDS

Since the increase in trips is 200 daily trips or less, the radius of influence is only the directly accessed link. Thus, only Ocean Boulevard north and south of the site needs to be evaluated relative to the Traffic Performance Standards. That roadway section is presently over capacity but was also over capacity when the comprehensive plan of Palm Beach County was adopted. Since the roadway was over capacity when the County adopted its comprehensive plan, the traffic performance standards allow a minimal additional impact (1 percent of 13,700) by a project such as the proposed club. The 110 trips per day impact is less than the allowable 1 percent impact volume of 137 trips. Thus, the proposed club complies with the traffic performance standards ordinance.

COMPLIANCE WITH TOWN OF PALM BEACH CONCURRENCY REQUIREMENTS

A review of 1993 peak season traffic count data was undertaken to determine compliance with the Town's concurrency requirements. Based upon Table 6, the proposed club complies with the concurrency requirements of the Town.

**TABLE 6

- ³ Estimated by Kimley-Horn to be 9 percent of 200 additional daily traffic generated by proposed Mar-A-Lago Club.

CONCLUSION

As demonstrated by this report, the proposed club at Mar-A-Lago complies with the Countywide Traffic Performance Standards of Palm Beach County. Further, the proposed Club complies with the Town of Palm Beach concurrency requirements based upon 1993 peak season volumes.

SITE ACCESS AND ON-SITE TRAFFIC CIRCULATION

An evaluation of site access and on-site traffic circulation was undertaken to minimize any congestion which the proposed club might cause on Ocean Boulevard. During special events at Mar-A-Lago recently, there has been some congestion caused on Ocean Boulevard which can be avoided with proper operation and management. To address the situation conceptual plans were developed depicting the existing use, typical daily club use, and special events at the club.

Figure 1 depicts the existing circulation plan. The existing main entrance on Ocean Boulevard is used by the owner and the owner's guests for entry and exit. The primary service access is at the northern driveway on Ocean Boulevard and is used for both entry and exit for staff and service vehicles. A secondary service entry and exit also exists on Southern Boulevard. If the Palm Beach Town Council deems it appropriate, an exit-only gate can be created west of the present Southern Boulevard service accessway. This gate, which would be aesthetically identical to the existing gate, will make it easier for service vehicles to exit the property and involves minimal change.

Figure 2 depicts the circulation plan for the proposed club use on a typical day. The existing main entrance would be utilized for two lanes of inbound traffic for members and their guests. The two lanes would be served by separate valet drop points. One drop would be under the porte cochere while the second drop would be on the traffic circle. The existing northern service entrance and exit would be converted to two lanes for exit only by members and guests. Valet pick-up would be accomplished in the parking area north of the traffic circle. All service and staff would enter and exit via the Southern Boulevard service entry and exit.

GZ-NYAG-00

Figure 3 depicts traffic volumes at the Club's access points for typical weekday activity of the Club. Two conditions are depicted on Figure 3 which represent the peak traffic hour on Ocean Boulevard (between 3:00 pm and 4:00 pm) and the peak hour for the Club in evening (generally between 6:30 pm and 7:30 pm). The Club traffic is estimated to be approximately 9 percent of the total daily between 3:00 and 4:00 pm. The Club traffic is estimated to be approximately 10 percent of the total daily between 6:30 and 7:30 pm.

Figure 4 depicts the entry circulation plan for a special event at the club. The main entrance would operate with two lanes inbound traffic for members and their guests. The northern access to Ocean Boulevard would operate with two lanes for any vehicles which need to exit the property after dropping off members or guests attending the special event at the club. Two valet drop locations would be provided for the two inbound lanes. All service vehicles and staff would utilize the Southern Boulevard service entry and exit. With this plan, there should be no congestion on Ocean Boulevard. The club will engage off-duty policemen to maintain smooth traffic flow on Ocean Boulevard associated with vehicles entering the club's driveways. The two-lane entry has the capacity to stack approximately 20 cars between the drop points and the entry gate so that any waiting cars can queue on site instead of on South Ocean Boulevard. With a total valet crew of 15 to 25 people, the vehicles waiting for the valet drop should not exceed the 20-car capacity.

Also depicted on Figure 4 is the on-site circulation and operation of the valet parking operation. The valet drop points will be manned by 4 to 8 people who drive the cars from the drop point to the staging area. The valet attendants then return to the valet drop points to drive more cars to the staging area. Parking attendants will drive the cars from the staging area to a specific parking location. This strategy keeps the valet drop area operating smoothly without requiring the valet and parking attendants to make a long run between the valet drop points and a specific parking location.

Time Period: 3:00 TO 4:00 PM

Time Period: 6:30 TO 7:30 PM

© 2011 JAMES R. HORN AND ASSOCIATES, INC.

GZ-NYAG-00

Figure 5 depicts the exit circulation plan for a special event at the club. The main entrance would be used for entry traffic only. The two inbound lanes would be available for vehicles returning to pick-up members or guests. The northern access to Ocean Boulevard would be used as two lanes for members and guests exiting the property. The Southern Boulevard access would only be used as entry and exit for service and staff. With this plan, there should be minimal congestion caused on Ocean Boulevard since any congestion associated with vehicles exiting would be on site. The club will engage an off-duty policeman to allow special event attendees to exit onto Ocean Boulevard safely.

Also depicted on Figure 5 is the on-site circulation and operation of the valet parking operation. The valet pick-up points will be manned by a doorman with a radio who communicates to the parking attendant coordinator located in the parking area that a particular car is needed at the pick-up point. The coordinator then directs a parking attendant to bring the automobile to the pick-up point. Essentially, the on-site circulation process is reversed for the exit maneuver.

Special events at the club would be attended by 400 people or less since special event seating is defined to be 390. Four hundred people translates to 200 automobiles with a typical automobile occupancy of 2.0 per car. Special events typically begin with a cocktail time period preceding a dinner. It is anticipated that approximately 70 percent of the attendees will arrive in an hour which begins generally around the time specified for the special event to begin. The remaining 30 percent will split between arriving before the event begins or arrive over one hour after the event begins. Consequently, approximately 140 automobiles would arrive in an hour to be parked by the valet operation. With two lanes operating, each lane would handle approximately 70 autos in 60 minutes or one car every 50 seconds. The valet operation proposed for the Mar-A-Lago Club can accommodate that type of demand based upon past Mar-A-Lago events. The exit demand at the end of a special event should be very similar to the entry demand with some attendees leaving early and others leaving late.

 CHECKED BY: [illegible]

A special event in the evening will not begin until 7:00 p.m. when traffic volumes on Ocean Boulevard are approximately 50 percent less than peak hour flows. Figure 6 depicts peak hour flows for a special event which had a beginning time of 7:00 pm as well as an exit time beginning at 11:00 pm. The traffic flows on Ocean Boulevard during these hours should not present a congestion problem associated with either the beginning or ending of a special event. With off-duty police control of vehicles entering and exiting the Mar-A-Lago club, delays to through traffic on Ocean Boulevard can be minimized and safe conditions can be reasonably maintained.

The Mar-A-Lago Club will coordinate its special events with the Bath and Tennis Club such that special events will not be scheduled at both clubs at the same time.

Parking for the proposed club will be provided on site. Spaces will be provided in grass block pavers will be installed.

MAR-A-LAGO CLUB MEMBERSHIP COMPUTATION

Trip Generation Observation of Bath and Tennis Club on 12/8/92 resulted in 632 total daily trips.

Bath and Tennis Club Membership is 1,150 according to the membership book.

Daily trip rate for Bath and Tennis Club is 632 divided by 1,150 or .55 daily trips per member.

Mar-A-Lago Club will have less facilities for dining and tennis and is approximately one-half the size of Bath and Tennis Club. Consequently, the Mar-A-Lago Club trip rate is assumed to be .30 daily trips per member or approximately 55 percent of the Bath and Tennis Club rate.

Mar-A-Lago Club membership is 302 daily trips divided by .30 daily trips per member or 1,007 members.

CHAPTER TEN

APPLICATION FOR SPECIAL EXCEPTION, SITE PLAN REVIEW AND DEVELOPMENT IMPACT REPORT

The Applicant shall agree to the inclusion of, and unity of title to, those parcels of real property described in Exhibit "A". A slightly revised legal description in Exhibit "A" is attached.

Exhibit "B" to Application for Special Exception No. 11-93 by The Mar-a-Lago Club, Inc. and the Site Plan Review are attached and contain supplementary information.

All improvements at Mar-a-Lago shall comply with applicable building, fire, safety and sanitation regulations in the Code of Ordinances of the Town of Palm Beach and similar state and federal regulations.

Exhibit "A" to Application
for Special Exception No. 11-93 by The Mar-a-Lago Club, Inc.

Being all that part of the North 610.00 feet of the South 1170.00 feet of Government Lot 2 of Section 35, Township 43, South, Range 3 East, in the Town of Palm Beach, Palm Beach County, Florida, lying West of Ocean Boulevard (State Road A1A) Right of Way and more particularly described as follows, to-wit:

Beginning at a point on the West face of an existing seawall on the East shore of Lake Worth, which point is 560.00 feet North of, measured at Right Angles to the South line of Government Lot 2, of said Section 35; thence North 6°09'22" West along the West face of said seawall for a distance of 77.32 feet; thence North 10°23'23" East along the West face of said seawall for a distance of 539.50 feet to a point in the South line of BINGHAM-COPP TRACT, a Subdivision recorded in Plat book 1__, Page 6, Palm Beach County Public Records; thence run South 0°12'07" East along the South line of said BINGHAM-COPP TRACT for a distance of 1134.10 feet to a point in the Westerly R/W line of Ocean Boulevard (State Road A1A); thence run South 0°09'07" East for a distance of 82.59 feet to a Point of curvature; thence run Southerly along the arc of a curve concaved to the Southwest having a radius of 1412.69 feet and a central angle of 3°03'00" for a distance of 75.20 feet to a point of tangency; thence run South 2°53'53" West for a distance of 176.28 feet to a point of curvature; thence run Southwesterly along the arc of a curve concaved to the Northwest having a radius of 2869.03 feet and a central angle of 2°53'53" West for a distance of 127.27 feet to a point of compound curvature; thence continue Southwesterly along the arc of a curve, concaved to the Northwest having a radius of 158.68 feet and a central angle of 86°26'30" for a distance of 239.38 feet to a point of tangency; thence run North 88°12'07" West along the North line of Southern Boulevard (State Road 80) for a distance of 1040.43 feet to the POINT OF BEGINNING, containing 16.3760 Acres, more or less;

and

The West one-half (W 1/2) of Lot 20 and the South 15 feet of the East one-half (E 1/2) of Lot 20 and the South 15 feet of the West one-half (W 1/2) of Lot 21, all in BINGHAM-COPP TRACT, a subdivision in the Town of Palm Beach, Palm Beach County, Florida, as recorded in Plat Book 18, Page 6, Palm Beach County Public Records, containing 0.1894 Acres, more or less;

Together with an easement for the use of the tunnel under South Ocean Boulevard (State Road A1A) as described in that certain Quit Claim Easement Deed recorded in Official Record Book 2327, Page 1970 of the Palm Beach County Public Records;

and

The ocean parcel consisting of the South 358 feet of the North 403 feet of the South 1170 feet of Government Lot 2, Section 35, Township 43 South, Range 43 East, Palm Beach County, Florida.

Exhibit "B" to
Application for Special Exception No. 11-93
by The Mar-a-Lago Club, Inc.

Compliance with Special Exception Requirements

In its conversion from a so-called Large Residential Estate to a private social club, the actual usage of Mar-a-Lago will not change. No new activity will occur which cannot, does not or has not taken place in the past under the existing zoning of this property. The applicant seeks no physical change whatsoever to the property (such as, for instance, the addition or demolition of any improvement).

A special exception, not a variance, is sought. Therefore, no hardship need be demonstrated. If the criteria for a special exception are met, the special exception must be granted and cannot be denied as a discretionary matter.

The conversion of Mar-a-Lago into a club is a special exception which complies with all requirements of Section 6.4 of Appendix A, "Zoning", Code of Ordinances of the Town of Palm Beach:

(a) The use is a permitted special exception as set forth in the Schedule of Use Regulations in Article 4.

(b) The use is so designed, located and proposed to be operated that the public health, safety, welfare and morals will be protected.

The eastern border of Mar-a-Lago is contiguous to South Ocean Boulevard. The western border faces Lake Worth. The southern side of the property runs along Southern Boulevard. Thus, three of Mar-a-Lago's four boundaries have roadways and/or water to protect the public's health, safety, welfare and morals.

The northern border of Mar-a-Lago abuts the rear yards of a few residences on Woodbridge Road but contains a perimeter wall and vegetation. This landscaping will be cultivated and enhanced to serve as a barrier for the benefit of Woodbridge residents. If after a reasonable period of time (not to exceed two years) this vegetational buffer proves inadequate, the boundary wall will be extended (westward to Lake Worth) and increased in height (to the maximum possible) with appropriate governmental approval.

The Club, as a proposed use, is designed and will be operated in a manner similar to other clubs in Palm Beach as demonstrated by the Articles of Incorporation, By-Laws and Rules of The Mar-a-Lago Club, Inc. set forth in Chapter Ten of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. Therefore, the effect of this usage will be no different than other existing clubs, including The Bath & Tennis Club directly across the street.

(c) The use will not cause substantial injury to the value of other property in the neighborhood where it is to be located.

Residents of Woodbridge Road, 1125 South Ocean Boulevard and members of The Bath & Tennis Club, Inc. will have club privileges without paying membership fees. These privileges should increase the value of neighboring properties.

(d) The use will be compatible with adjoining development and the intended purpose of the district in which it is located.

The use of Mar-a-Lago is complimentary and consistent with The Bath & Tennis Club, Inc. located in this identical district across the street. Clubs are intended uses of District R-AA, "Large Estate Residential," since they are explicitly named as Special Exception Use No. 5, "Private social, swimming, golf, tennis and yacht clubs."

(e) The use will comply with yard, other open space, and any special requirements set out in the Schedule of District Regulations for the particular use involved.

The use of a club at Mar-a-Lago meets the lot minimums by area, width and depth; maximum and minimum density; yard minimums; and bulk criteria for the R-AA District or is otherwise grandfathered since improvements were constructed in 1927.

(f) The use will comply with all elements of the Comprehensive Plan.

The adaptive reuse of the Mar-a-Lago Club conversion is an innovative approach to preservation endorsed in the Comprehensive Plan: Town of Palm Beach by Adley Brisson Engman, Inc. The private group use is expressly permissible. Club usages are recognized as important for recreation, open space and conservation. The special exception use of clubs in the R-AA, Large Estate Residential, zoning district is incorporated by reference into the Comprehensive Plan.

(g) The use will not result in substantial economic, noise, glare, or odor impacts on adjoining properties and properties generally in the district.

The eastern border of Mar-a-Lago is contiguous to South Ocean Boulevard. The western border faces Lake Worth. The southern side of the property runs along Southern Boulevard. Thus, three of Mar-a-Lago's four boundaries have roadways and/or water to protect the public's health, safety, welfare and morals.

The northern border of Mar-a-Lago abuts the rear yards of a few residences on Woodbridge Road but contains a perimeter wall and vegetation. This landscaping will be cultivated and enhanced to serve as a barrier for the benefit of Woodbridge residents. If after a reasonable period of time (not to exceed two years) this vegetational buffer proves inadequate,

the boundary wall will be extended (westward to Lake Worth) and increased in height (to the maximum possible) with appropriate governmental approval.

The Club, as a proposed use, is designed and will be operated in a manner similar to other clubs in Palm Beach as demonstrated by the Articles of Incorporation, By-Laws and Rules of The Mar-a-Lago Club, Inc. set forth in Chapter Ten of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. Therefore, the effect of this usage will be no different than other existing clubs, including The Bath & Tennis Club directly across the street.

Residents of Woodbridge Road, 1125 South Ocean Boulevard and members of The Bath & Tennis Club, Inc. will have club privileges without paying membership fees. These privileges should increase the value of neighboring properties.

The use of Mar-a-Lago is complimentary and consistent with The Bath & Tennis Club, Inc. located in this identical district across the street. Clubs are intended uses of District R-AA, "Large Estate Residential," since they are explicitly named as Special Exception Use No. 5, "Private social, swimming, golf, tennis and yacht clubs."

(h) Adequate ingress and egress to the property and proposed structures thereon and off-street parking and loading areas will be provided where required, with particular reference to automotive and pedestrian safety and convenience, traffic flow and control, and access in case of fire or catastrophe.

Adequate ingress and egress as well as the mechanics of valet service are diagrammatically demonstrated in Chapter Nine, "Traffic Analysis," of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. By changing traffic through the main entrance to two (2) lanes of inflow, changing traffic on the north road (formerly service) to two (2) lanes

of outflow and activating the Southern Boulevard accessway, ingress and egress, traffic flow and control and emergency access will be superior to historically-accepted arrangements. Parking and loading areas are shown in Drawing No. 4, "Parking Plan & Landscape Element" within Chapter Eleven of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan.

Automobiles shall be parked in the area identified as Phase A of the Parking Plan until such area is full, then Phase B until such area is full, and then Phase C if the need arises. Grass paver blocks and/or soil stabilization shall be installed in Phases B (and C, if necessary) and along both sides of the cart path.

The 112 paved parking spaces in Phases A and B will be sufficient for the routine, day-to-day use of the Club by members and guests. The 140 spaces in Phase C will be needed for overflow parking at special events. Membership shall be limited so that at least one (1) parking space per four (4) members is available.

(i) Signs, if any, and proposed exterior lighting with reference to glare, traffic safety, and economic impact, will be compatible and in harmony with properties in the district.

No new signs and/or exterior lighting are proposed. Existing signs and lighting have been long-established as exemplary in this neighborhood. The vegetation and wall barrier on the northern border of Mar-a-Lago will protect Woodbridge residents from glare, traffic safety and economic impact. Guest privileges for residents of Woodbridge Road and 1125 South Ocean Boulevard confer a positive economic benefit upon these neighbors.

(j) The location, availability and compatibility of utility service for the use will be satisfactory to insure health and safety.

(k) The refuse and service areas for the use will not adversely affect automotive

and pedestrian safety and convenience, traffic flow and control, or access in case of fire or catastrophe.

Since refuse and service areas for the Club will be located on Southern Boulevard, these activities will be far-removed from automobile and pedestrian movement involving members and guests and will facilitate internal and external traffic flow as well as emergency access. The relocation of the service drive to Southern Boulevard will improve safety, convenience and emergency access over prior, long-accepted conditions.

(l) The proposed use will not attract the principal portion of its customers/clients from off-island locations.

At least fifty percent (50%) of the members of the Club will consist of individuals who maintain residences in the Town of Palm Beach or have places of employment located in the Town.

(m) Adequate landscaping and screening is provided as required.

See Chapter Six of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan.

The eastern border of Mar-a-Lago is contiguous to South Ocean Boulevard. The western border faces Lake Worth. The southern side of the property runs along Southern Boulevard. Thus, three of Mar-a-Lago's four boundaries have roadways and/or water to protect the public's health, safety, welfare and morals.

The northern border of Mar-a-Lago abuts the rear yards of a few residences on Woodbridge Road but contains a perimeter wall and vegetation. This landscaping will be cultivated and enhanced to serve as a barrier for the benefit of Woodbridge residents. If after a reasonable period of time (not to exceed two years) this vegetational buffer proves inadequate,

the boundary wall will be extended (westward to Lake Worth) and increased in height (to the maximum possible) with appropriate governmental approval.

(r) The proposed use will not place a greater burden, than would be caused by a permitted use, on municipal police services due to increased traffic, or on fire protection services due to the existence of, or increased potential for, fire/safety code violations.

All activities in the club use (e.g., dinners, parties, etc.) are presently permitted under the present zoning classification of Mar-a-Lago and therefore the burden on police and fire protection services will not change. Nevertheless, the Mar-a-Lago Club will employ off-duty traffic police to supervise traffic for dining and special events. The fire protection systems at the Club will be significantly upgraded by, among other things, the installation of a state-of-the-art interior sprinkler system.

A site plan is submitted simultaneously herewith in accordance with Section 9.60 of Appendix A of the Code of Ordinances and consists of a current survey of Mar-a-Lago and site drawings.

The Mar-a-Lago Club: A Special Exception Use and Preservation Plan by Eugene Lawrence, Architect, Joseph B. Pollock, Jr., P.E. and Paul Rampell, Esq. has been filed with the Town of Palm Beach simultaneously herewith and is incorporated in its entirety into this Application by reference.

SITE PLAN REVIEW

This zoning report is presented in accordance with Section 9.60 of the ordinance of the Town of Palm Beach to allow examination of potential offsite impacts of the proposed change in use. A Development Impact Report is attached to this chapter in accordance with Section 9.61. The following response is made in alphabetical and numerical sequence as established in the ordinance.

- a. The property is presently in the ownership and control of Donald J. Trump. The Mar-a-Lago Club, Inc. is a contract vendee.
- b. The detailed use of the facility is outlined in Chapters One and Eight of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. No physical changes in the buildings or grounds are to be made so that there will be no change in the character of the property.
- c. A general location map of the site is indicated on the aerial surveys and the site plan.
- d. Two copies of a site plan, sheet 12 of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan and a current survey, are provided which indicate information required by items (1) through (8) inclusive. The grass surface on both sides of the cart path will be stabilized with sub-surface shellrock to enable the tertiary use of Phase C parking after Phases A and B are both full. The use of Phase C should be infrequent and essentially for special event overflow only.

No pedestrian traffic will occur in Phases A, B, or C. All phases are removed from the mansion, beach, and swimming pools. Individuals can walk to the tennis court and golf

course from the mansion. A short path across the golf cart will be identified for pedestrian crossing with a small, discreet sign.

Off-street parking is depicted in the "Parking Plan & Landscape Enhancement" identified as Drawing No. 4 of Chapter Eleven of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. Drop-off points for valet service are shown in Chapter Nine, "Traffic Analysis."

e. The tabulation of land area is as follows:

	<u>Square Feet</u>
1. Private Club use (total site)	713,341
2. Ground Cover by structure	48,648
3. Impervious surface in addition to structure	69,765

f. 1. Space has been allocated as shown on the existing plan to provide valet, non-structured parking for 252 spaces (although space for 321 spaces exists). The site is a designated national and local landmark. The vegetation on site makes a major contribution to landmark status. The parking is short time parking. It is intended to be located on existing paved areas, under the landscape canopy so that the canopy may not be altered and on grassed areas along the entrance drive and to the west, both of which have been used historically for that purpose. Access to the landscaped area to the south will be by way of a cart path now crossing the site. Approximately 252 parking spaces are delineated in the "Parking Plan & Landscape Enhancement" identified as Drawing No. 4 of Chapter Eleven of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. The requirement that off-street parking be surfaced

with suitable paving is satisfied by the installation of grass block pavers in Phase B (and C, if needed).

2. There presently is the mansion and two other staff buildings on the site yielding a density of .17 units per acre. The ten guest rooms have no kitchens and therefore are not dwelling units under the interpretation by which the three dwelling units were established. The use of the suites does not change nor does the density, in that no additional facilities are added.

g. All facilities on the site will be maintained by the Club. See the Principles of Preservation in Chapter Two, Maintenance and Inspection Schedule in Chapter Seven, and the Articles of Incorporation, By-Laws and Rules of the Club in Chapter Eight of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan.

h. Storm drainage and sanitary sewage connections will be maintained in their present condition. Exfiltration trenches shall be constructed along a portion of the perimeter of the Phase B parking area and intermittently along the soil-stabilized cart path to dispose of the very nominally increased storm run-off from these improvements. Otherwise, existing on-site storm drainage will not be effected and is adequate for the club conversion. Although the present sanitary sewage plant is adequate for Club usage since it has accommodated large groups of people at Mar-a-Lago for approximately 30 years, the Club will contribute to the improvement of sanitation sewage systems so that they are in full compliance with all applicable government regulations.

i. No new structures are requested. The Club will function within the present buildings on the site.

j. No new signs are requested.

k. The site plan attached indicates the location of existing foliage which is described, by area, in Chapter Six of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan. All of such foliage shall be maintained to the maximum extent possible and, if necessary over time, replaced with harmonious new landscaping. Landscaping along the northern boundary of the Mar-a-Lago estate will be cultivated and enhanced to serve as a barrier for the benefit of Woodbridge residents. If after a reasonable period of time (not to exceed two years) this vegetational buffer proves to be inadequate, the boundary wall will be extended (westward to Lake Worth) and increased in height (to the maximum possible) with appropriate governmental approval.

l. The use of the building and grounds is recreational.

m. Not applicable.

n. Not applicable.

DEVELOPMENT IMPACT REPORT
for
THE MAR-A-LAGO CLUB, INC.

Introduction

This report is pursuant to paragraph "(9.61) Application" per Appendix A, The Zoning Code of Ordinances of the Town of Palm Beach, Florida, particularly as described on page 2106.

This report will evaluate the below listed specifically requested impacts that the proposed development may cause in accordance to the above referenced paragraph. We define these impacts as Level I impacts:

LEVEL I

INFRASTRUCTURE AND OPERATIONS
Utility Services

- A. Storm Water Sewers
- B. Sanitary sewer
- C. Garbage and trash collection
- D. Traffic

Additionally, this report will evaluate the impacts to other services which are not necessarily Town provided services but are services deemed necessary for this proposed use. We refer to these as Level II impacts.

LEVEL II

- E. Potable water
- F. Power
- G. Gas
- H. Telephone
- I. Cable television
- J. Fire Protection

Level I Impacts

Infrastructure and Operations - Utilities

A. Storm Water Services

The existing site contributes a very small amount of storm water run-off into the "Town Storm Water System." This occurs at the service drive entrance onto A-1-A at the Caretaker residence. Less than 1/2 acre of contributing area is involved. Exfiltration trenches shall be constructed along a portion of the perimeter of the Phase B parking area and the soil-stabilized cart path to dispose of the very nominally increased storm water run-off from these improvements. Otherwise, existing on-site storm drainage will not be affected and is adequate for the club conversion.

IMPACT

The proposed Club will not change this existing drainage pattern. Therefore, there will not be any development related impact to the storm water system of the Town nor any increases in the operations (maintenance) activities.

NOTE:

Existing outfalls to the intracoastal will be maintained. There will be no requirements for dredge and fill activities. The storm water to be discharged will not exceed the rate of discharge occurring in the present condition.

SUMMARY

This proposed use will not change the Town's drainage system.

B. Sanitary Sewers

The existing Mansion and related buildings are presently served by the Town's

Sanitary Sewer System. In fact, an existing Town-owned pumping station is located on the property. This station receives sewage from a sewage collection system on the grounds that services all buildings. The Town performs operations and maintenance activities at this location through the permission and consent of the property owner or, alternatively a prescriptive or implied easement which can be memorialized in writing. Although the present sanitary sewage plant is adequate for Club usage since it has accommodated large groups of people at Mar-a-Lago for approximately 30 years, the Club will contribute to the improvement of sanitation sewage systems so that they are in full compliance with all applicable government regulations.

IMPACT

The existing pumping station will remain its present location. The existing sewer connection is adequate to accommodate the change in use, causing no impact on the sanitary sewer system. Nevertheless, the Club shall contribute to the improvement of pumping facilities as necessary over time.

C. Garbage and Trash Collection

At the present time garbage is picked up daily from the residences at Mar-a-Lago. Trash is centrally located for pick-up once a week at a central collection area accessed off Southern Boulevard.

The proposed club will contract for garbage removal on a daily basis through a private service. Trash consisting of landscape trimmings will be placed in the central location to be picked up weekly as it now is done.

SUMMARY

Although the volume of garbage and trash will likely be greater than exists today,

the impact on the town will be less due to contract service. Operations will be equivalent to any residential house building program in the Town. Trash removed will not increase since the amount of landscape space will be unchanged.

D. Traffic

A separate traffic impact analysis is included in Chapter Nine of The Mar-a-Lago Club: A Special Exception Use and Preservation Plan.

Level II Impacts

E. Potable Water, F. Power, G. Gas, H. Telephone, I. Cable Television

These services are provided by franchise companies. All have the service availability for the change in use.

IMPACT

None

SUMMARY

There is no impact to the Town for these services.

F. Fire Protection

The existing property is served by 3 fire hydrants located exterior to the property around the perimeter streets surrounding Mar-a-Lago. The service entrance gate has been sized to accommodate fire fighting apparatus and remains open by Agreement. The installation of an interior sprinkler system will significantly increase fire protection.

IMPACT

The generic uses within the structure, i.e., dining, sleeping, socializing, etc. are not to be changed nor will the numbers of people using the building at a given time increase.

SUMMARY

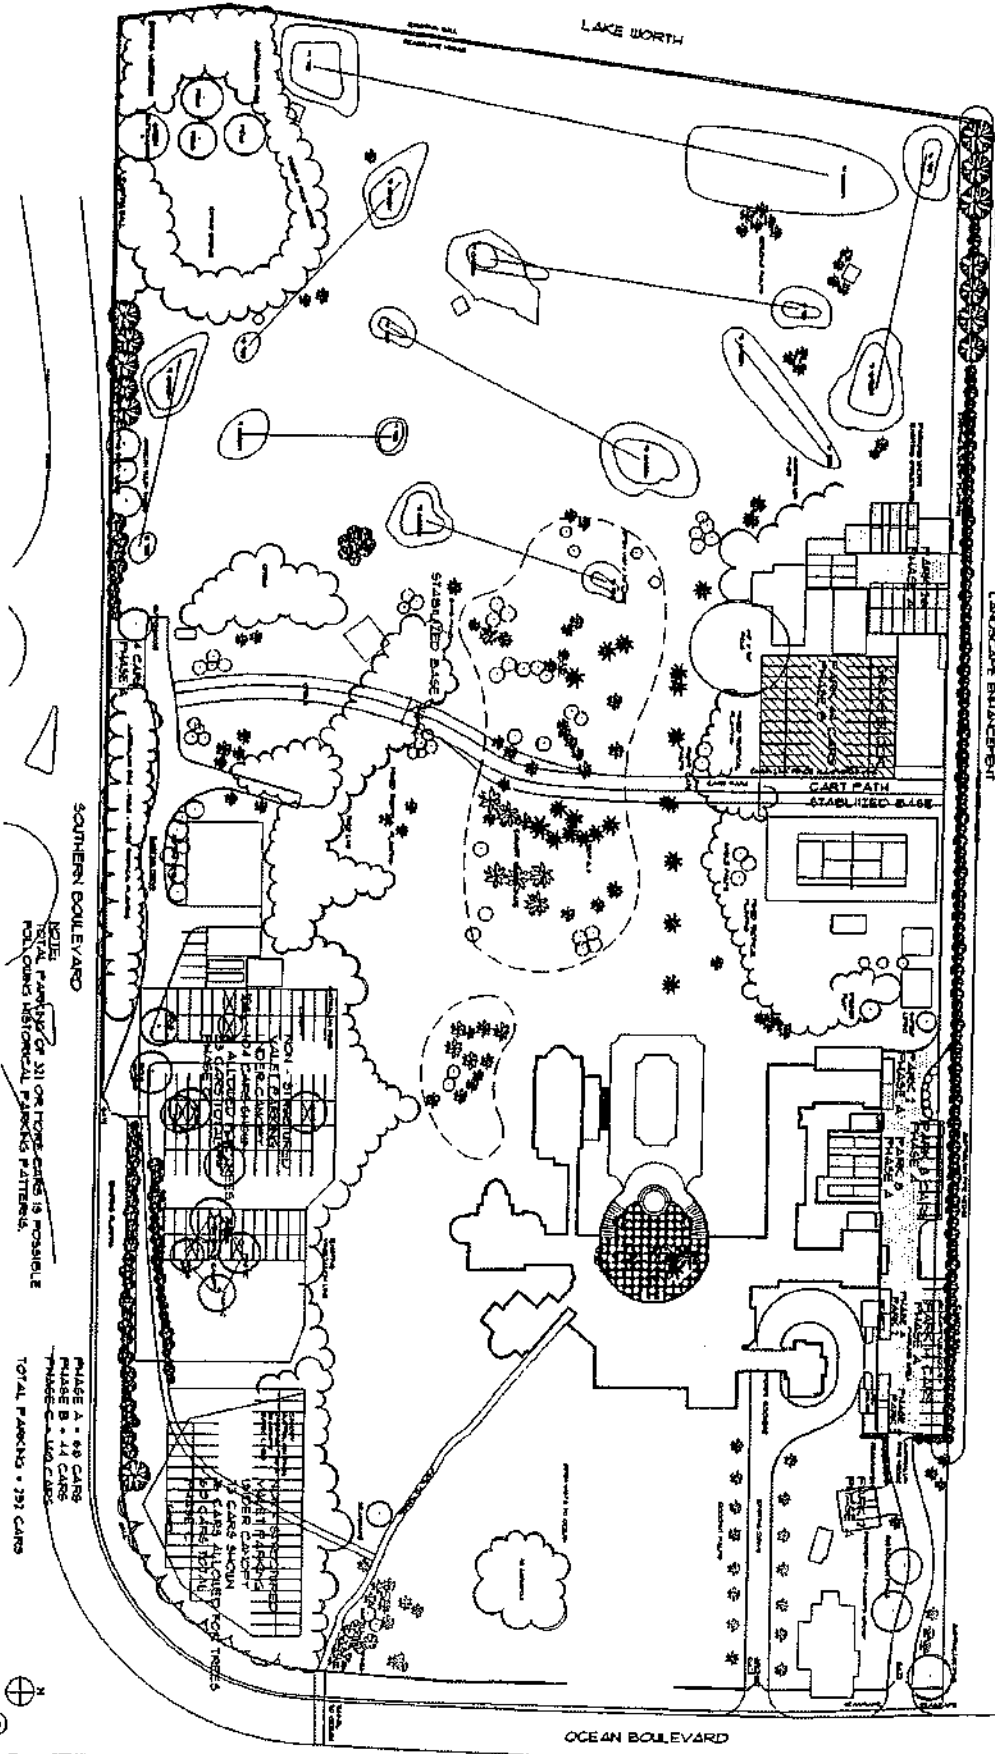

There will be no change on the requirement for fire protection due to proposed change in use.

CHAPTER ELEVEN

SITE DRAWINGS AND FLOOR PLANS

Automobiles shall be parked in the area identified as Phase A until such area is full, then Phase B until such area is full, and then Phase C if the need arises. Grass paver blocks shall be installed in Phase B (and C, if necessary) and soil stabilization shall be installed along both sides of the cart path.

The Parking Plan & Landscape Enhancement (Site Drawing No. 4) has been revised to reduce parking spaces from 319 to 252. The Critical Room Plan, Main Floor (No. 10) and the Critical Room Plan, Second Floor (No. 11) have been revised to add areas to be preserved. The Site Plan (No. 12) has been revised to show individual parking spaces and the installation of grass block pavers. All of the foregoing are included herein.

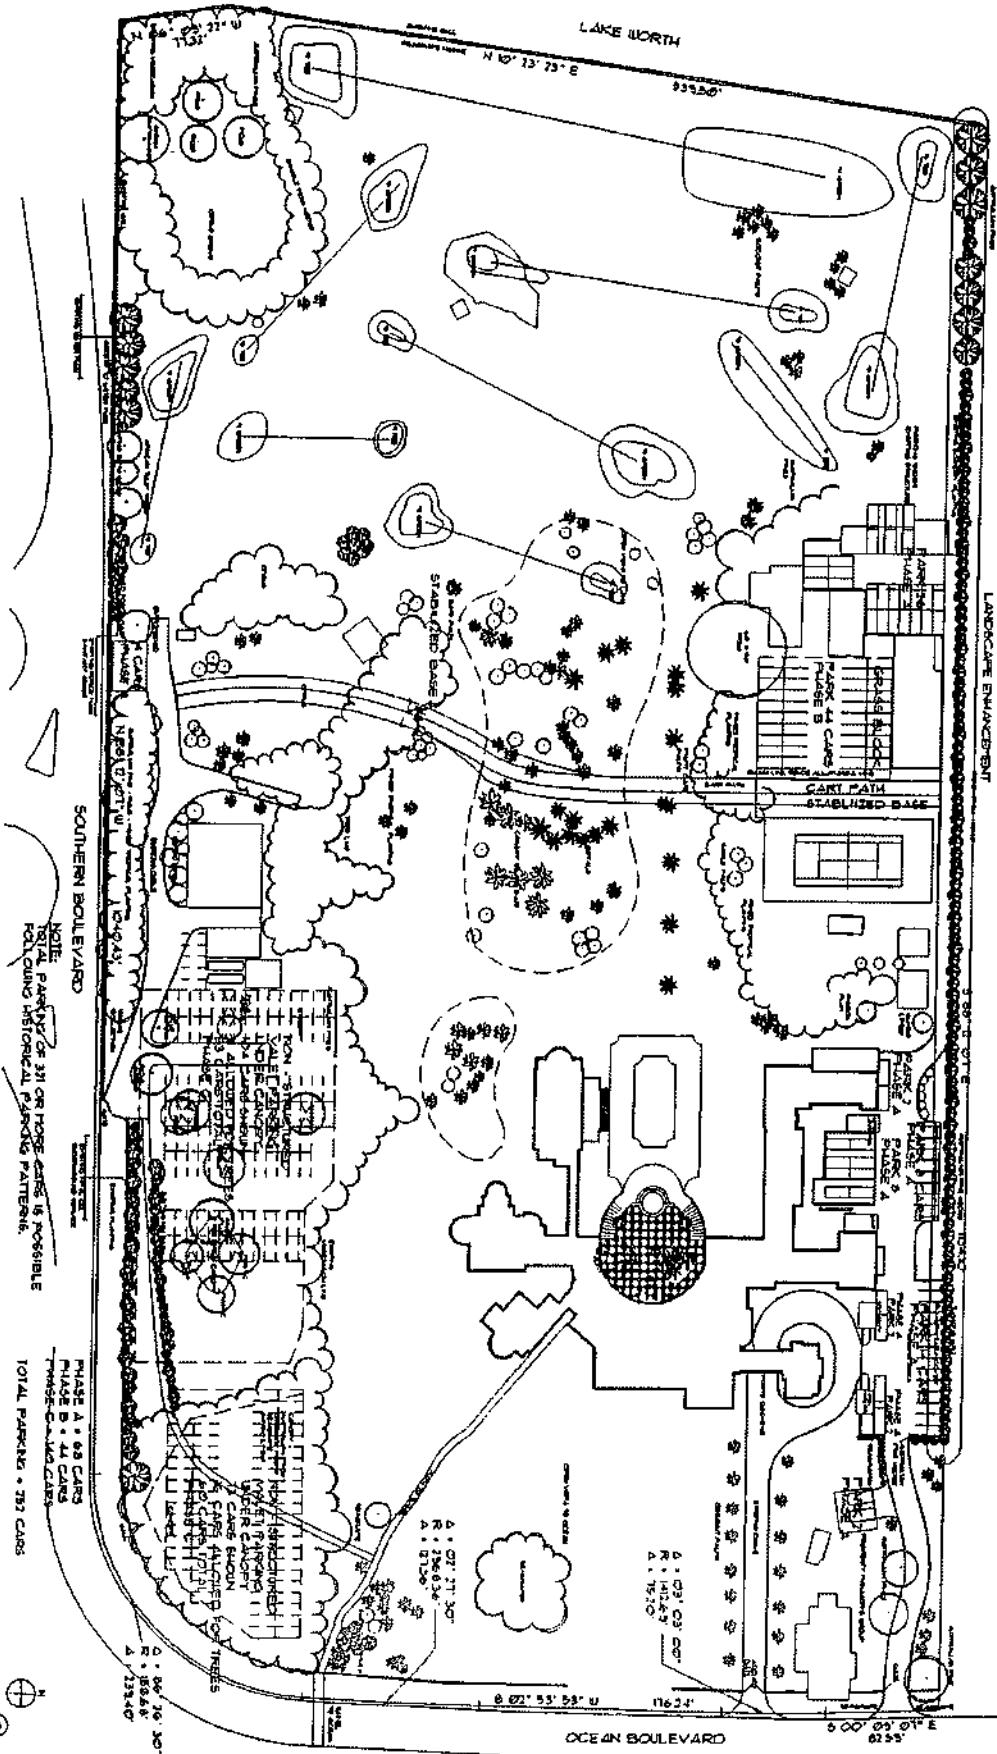

NOTE:
TOTAL PARKING FOR 211 ON-THE-SCENE IS POSSIBLE
FOR OVER HISTORICAL PARKING PATTERNS.

PHASE A - 43 CARS
PHASE B - 11 CARS
PHASE C - 157 CARS
TOTAL PARKING - 211 CARS
