6 THE COURT: That's a yes or no question.
7 MR. KISE: Yes, the answer is yes, that our
8 position is that. And if I can explain why.
9 Let's separate out where we were and where we are,
10 because I think this is an important distinction, because
11 everyone is running around saying "Fraud, fraud, fraud,
12 fraud. This is fraud." No, that has not been decided yet.
13 What's been decided by this court is --
14 THE COURT: Wait a minute.
15 MR. KISE: Let me finish, and you'll understand
16 what I'm saying, please.
17 THE COURT: Sure.
18 MR. KISE: What has been decided by the Court is a
19 violation of 63(12), but as your Honor knows, and we
20 disagree with one of these pieces, but I'll go through all
21 four. As your Honor knows fraud, fraud, in the traditional
22 sense, in the understanding of the law, requires intent,
23 materiality, reliance and damages, all four. None of those
24 four, including materiality, which we argued about, but you
25 disagreed with, respectfully, none of those four have been

<p>S. Witkoff - by Defense - Direct (Mr. Robert) Page 4204</p> <p>1 decided. There hasn't been any decision that there's 2 intent. There's no materiality determination, no reliance 3 determination, no damage and no harm determination. 4 THE COURT: You are leaving out one thing, 5 traditional fraud. There was a fifth, scienter, that they 6 knew the person. 7 MR. KISE: Intent. I'm incorporating that in the 8 concept of intent. Yes, your Honor, you are correct. 9 Scienter, intent. I'm merging those concepts, and perhaps 10 legally they should be segregated. 11 But the point is that fraud hasn't been 12 established. So a misstatement under 63(12) is not 13 necessarily fraud, other than the colloquial expression of 14 it the way it's framed under the statute, but there is a big 15 separation in the law and a big material separation in the 16 law, if I could use that word, between a 63(12) violation 17 freestanding, and actual fraud, fraudulent intent. That's 18 what these predicate statutes that they are relying on -- 19 THE COURT: I'm sorry. I'm going to have to cut 20 you off. 21 MR. KISE: All right. 22 THE COURT: I'm not looking for a speech. And you 23 said you were going to answer my question. 24 MR. KISE: I did. 25 THE COURT: You did. You said, "Yes", you think it</p>	<p>S. Witkoff - by Defense - Direct (Mr. Robert) Page 4206</p> <p>1 intend to fraudulently inflate, say, Seven Springs by 2 ignoring appraisals, or, you know, the cash value by 3 including Vornado cash because he knew in his mind, seven 4 years later in 2022, Doral was going to be worth 5 1.3 billion, and therefore it all comes out in a wash. I 6 don't know what that is. That's -- that makes no sense, 7 your Honor. 8 You can't take the 2022 value of Doral and somehow 9 retroactively apply it years earlier to somehow wash 10 everything away in terms of what your Honor has already 11 found are fraudulently inflated values. 12 And I should make a further point, that it's clear 13 in the First Department, "You cannot use expert testimony to 14 establish intent." This is a quote from People v. Davis, 90 15 AD3d 461. It's a 2011 First Department case. 16 The expert's proposed testimony had no genuine 17 bearing on whether defendant acted intentionally within the 18 meaning of Penal Law section -- 19 THE COURT: Mr. Amer, I'm going to cut you off, 20 too. We are going very far afield here. I'll ask a 21 different question, more related. Does anyone have 22 authority for the proposition that his financial statement, 23 any sort of Statement of Financial Condition, is not 24 fraudulent if one property is valued way high and another 25 property is valued way low.</p>
<p>S. Witkoff - by Defense - Direct (Mr. Robert) Page 4205</p> <p>1 balances out, therefore it's okay. 2 MR. KISE: In this context, yes. In this context 3 it does. 4 THE COURT: Let me ask the Attorney General side. 5 Do you agree with my -- by the way, I keep thinking of the 6 person that's standing on a stove with one foot, and a block 7 of ice with the other, and says, "I feel fine. It balances 8 out." 9 Attorney General, do you think they balance out? 10 MR. AMER: Of course not. Your Honor, that's 11 nonsense. I mean, are they going to put Mr. McConney on the 12 stand to say, "in 2015 I fraudulently inflated", you know, 13 value X, but it was okay because -- 14 THE COURT: Hold on one second. I'm going to ask 15 that the witness be excused again. There's a nice room back 16 there for you. Try not to be -- 17 MR. KISE: We probably should have done that. 18 THE COURT: There's no food or anything, but this 19 isn't an office. 20 Sorry to interrupt. 21 MR. WALLACE: That's okay. 22 THE COURT: Let's go back to "it's nonsense", 23 whatever you call it. 24 MR. AMER: This is nonsense, the idea that 25 Mr. McConney is somehow going to testify that he didn't</p>	<p>S. Witkoff - by Defense - Direct (Mr. Robert) Page 4207</p> <p>1 MR. AMER: No, your Honor -- 2 THE COURT: This seems ridiculous to me, but 3 Mr. Kise, if you have authority, or even a logical 4 argument -- 5 MR. KISE: The logical argument is exactly why we 6 are here, for you to decide -- and I hope that your 7 statements don't indicate you've already made up your mind 8 on this, because that's exactly why we are here, is to talk 9 about intent. 10 Mr. Amer is presuming that intent exists; that 11 hasn't been established. 12 THE COURT: Wait. I cut him off because he was 13 talking about intent. I'm not interested in intent here. 14 I'm just interested -- 15 MR. KISE: It goes to your question, respectfully. 16 It goes right to your question, that in order to -- 17 THE COURT: I'm the one asking the question. I 18 should know what I mean by it. 19 MR. KISE: So -- 20 THE COURT: Go ahead. 21 MR. KISE: So, your Honor, the point is that in 22 order to establish materiality and intent through the lens 23 of the user, or the lens of the preparer of the statement, 24 you have to consider all of these factors. And so it's not 25 -- it's not a light switch. This is what the Attorney</p>

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4208

1 General wants you to believe, that there's one right answer,
2 and it's a light switch, and it's either on or off. And
3 respectfully, that's not what the accounting standards
4 provide; that's not what the law provides; that's not what
5 the analysis of materiality provides. So the cases, yes,
6 there's tons of cases on what is materiality and what's
7 material in a particular given context.
8 And so the total mix of information of available to
9 the reasonable viewer is exactly why we are here. And what
10 you are talking about goes to that, the balancing out of the
11 numbers. The bank, as you heard testimony, the bank is
12 interested in what? They are interested in, do I get paid
13 back? And, do I price this loan correctly?
14 Now remember, at the outset, when you make -- you
15 price a loan, they price it from the beginning. As the
16 collateral increases in value, there is no ongoing mark to
17 market activity.
18 Based on Attorney General's view, as the collateral
19 increases in value, the interest rate should drop. I mean,
20 you'll here testimony about this, so I'm going to stop
21 there, but the point is, you have to take all of this into
22 consideration. And so factors as relative to whether an
23 offset matters is at the core of the dispute.
24 He can argue, Mr. Amer is arguing very well, his
25 position that it doesn't matter, but that's an argument;

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4209

1 that's not evidence. And the Court should consider the
2 evidence.
3 MR. AMER: Your Honor, I do have a case for you.
4 It's Litwin versus Blackstone Group, LP. It's a Second
5 Circuit case 634 F3d 706. This is what it says at 713:
6 "Blackstone is not permitted, in assessing
7 materiality, to aggregate negative and positive effects on
8 its performance fees in order to avoid disclosure of a
9 particular material negative event."
10 I think that's exactly your Honor's point.
11 THE COURT: Yes, it is. And it does answer, unless
12 there is contrary authority.
13 And one way I would explain that to answer my own
14 question is the reader of the financial statement has a
15 right to know whether each particular number is accurate,
16 and doesn't have to say, well, this could be a little high;
17 this could be a little low. They are looking for accuracy.
18 But last word to Mr. Kise, and let's proceed.
19 MR. KISE: Your Honor, again.
20 THE COURT: And the objection is sustained, of
21 course. It doesn't even matter that it was a 2022 value of
22 Doral. Any value of Doral. That doesn't -- it's a false
23 valuation. I assume you agree.
24 MR. AMER: We do.
25 THE COURT: Go ahead.

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4210

1 MR. KISE: The Blackstone case is completely
2 inapposite for a whole host of reasons I'm not going to
3 spend time on. It's in a securities context, a totally
4 different context. I'm not going to belabor it, since
5 you've already sustained the objection without actually
6 hearing from all of the evidence that you are going to hear,
7 but nonetheless, the point is, we should be allowed to
8 establish what "materiality" means to the user. And you are
9 presuming, I think incorrectly, based on the evidence that's
10 already been brought into this courtroom, that your view of
11 what is and isn't material and whether it has to be exactly
12 accurate here, exactly accurate there, is incorrect; that's
13 not what the banks told you.
14 Their own analysis that I put up on the board, you
15 you've seen a hundred times, and no one wants to pay
16 attention to, says that they, in fact, did this analysis,
17 and they came up with their own values to show there are
18 vagaries.
19 The fact there are three different numbers in this
20 courtroom alone demonstrates our point. You got their
21 number, you got our number, and you got the banks number,
22 all about the same set of assets. That alone should tell
23 the Court that there are extraordinary variations, and no
24 one is absolutely correct, and so it's not possible to say
25 that mine is fraudulent and theirs isn't just because

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4211

1 someone happens to think so.
2 THE COURT: Well, I think you are wrong for two
3 reasons. One, which I keep calling in the internal
4 inconsistency, is you look at how somebody got to a value,
5 and if they are ignoring restraints on the use of property;
6 that's fraud.
7 And you are wrong in another way, and I asked one
8 of the -- you are not on trial, of course, but still, I
9 asked one of the witnesses, "Well, you say valuation or
10 appraisals could differ."
11 "Yes."
12 "By what percent?"
13 "Well."
14 MR. KISE: Huge percents. You are going to hear
15 about it.
16 THE COURT: How huge?
17 MR. KISE: Huge percent.
18 THE COURT: How huge?
19 MR. KISE: The tax assessed value versus what a
20 broker thinks, hundreds of millions of dollars, potentially.
21 Exactly what your Honor put in your opinion. You are going
22 to see ASC-274 allows either one of them, either one. I
23 could take the tax appraised value for tax purposes and use
24 that for my standard, or I could take a broker opinion
25 value, or a sales comparable method. They could vary by

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4212

1 hundreds of millions of dollars, exactly what we have in
2 this case. You have Mar-a-Lago that is assessed for
3 \$25 million, or \$30 million, whatever the number is, and
4 then you have an appraised value, you have a broker opinion
5 value, you have a sales comparable method of value, and,
6 yes, those vagaries can be extraordinary. And guess what?
7 They are all permissible under the exact letter of ASC-274.
8 I know the Attorney General doesn't want to hear
9 that. I know they want it say there is only one right
10 answer, and it must be their answer, but that's not correct.
11 That's just simply not the standard in accounting. It is
12 just not.
13 THE COURT: You are comparing apples and oranges,
14 you know tax assessor value versus real estate broker value.
15 Let's say we are talking just real estate brokers,
16 or just appraisers, how different can they be? Can we get a
17 percent?
18 MR. KISE: Again, ASC-274 doesn't say that you have
19 to pick one and stick with it. This is the whole point
20 that's being missed here. You have five or six different
21 ways to value property, any one of them is correct. Any one
22 of them is correct. It gets you to estimated current value.
23 And anyone of them can be used for any given property. Not
24 to use the same one for every property.
25 This is already -- you are going to hear about this

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4213

1 today and tomorrow. This is point that they want you to
2 overlook, that their entire case overlooks; that they have
3 the absolute truth. Their opinion is there is only one
4 right answer, within a range that they define, but that's
5 just simply not true. It's just not.
6 THE COURT: I've said many times, I'm not here to
7 appraise or value properties. I'm here to look at the
8 statements and see whether they are fraudulent or not.
9 MR. KISE: But the only way to determine that is to
10 view them through the lanes of the applicable guide lines,
11 and you can't say something is fraudulent if it comports
12 with the actual guideline. It's not possible to say that.
13 MR. ROBERT: Your Honor --
14 MR. KISE: That's their position. I mean, it's
15 lunacy to say that, okay, you have to use this value, and
16 that's the correct value, but you've got these five other
17 options and, you know, you are not allowed to use any of
18 those. They could argue all they want against the standard,
19 but it's there on the page.
20 MR. ROBERT: Your Honor, to answer your question
21 about the appraisal, you heard testimony there were three
22 Cushman & Wakefield appraisals of 40 Wall Street. I think
23 it was 2011, 2012 and 2014, and there was a \$200 million
24 variation -- I think it was a quarter of a billion dollar
25 variation between 2012 and 2014. Cushman & Wakefield did

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4214

1 the same appraisal on the same property, and everyone
2 agreed, it didn't all of a sudden go up by a quarter of a
3 billion dollars. There are different appraisals. And the
4 testimony was none of them were wrong. But there, itself,
5 appraisal to appraisal, you had a quarter of a billion
6 dollar delta over two years.
7 MR. AMER: That's wrong. Your Honor already ruled.
8 Can we move on.
9 THE COURT: Let's move on.
10 MR. ROBERT: I want to understand the ruling. What
11 am I not allowed to ask this witness about?
12 THE COURT: Doral. Doral is not in the complaint.
13 MR. ROBERT: So the Court --
14 THE COURT: And the case, what was it that you just
15 cited?
16 MR. AMER: Litwin.
17 THE COURT: Says that it's not okay to overvalue
18 one property and undervalue another because they balance
19 out.
20 I'm not sure what else you are trying to do, other
21 than say that Doral was undervalued, so it's okay that they
22 overvalued other properties.
23 MR. ROBERT: So, your Honor --
24 MR. KISE: Just to be clear. Just to be clear, we
25 are not allowed to ask questions, and you're citing to a

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4215

1 case that you clearly haven't even read yet. You haven't
2 read it. You are taking their word it.
3 THE COURT: It's common sense anyway.
4 MR. KISE: It's not common sense. Respectfully,
5 it's not. I want the record to be clear on that.
6 THE COURT: I'm waiting for the counter authority,
7 the reversal, the disagreement.
8 MR. KISE: I can't do it while I'm standing here.
9 And I've articulated at least three reasons why it's
10 inapposite. You haven't read it at all and you are making a
11 decision based on it. I want the record to be clear.
12 THE COURT: I think he quoted it; right?
13 MR. AMER: I did, your Honor. Plus, honestly, the
14 Doral argument was made in opposition to our summary
15 judgment motion. Your Honor implicitly rejected it then.
16 So it's not -- they've known about this point for months.
17 MR. KISE: Your Honor, the Doral --
18 MR. AMER: Can we please not have never ending
19 motions for reconsideration when they lose an evidentiary
20 ruling. We've been at this for many, many minutes here.
21 MR. KISE: I'm very concerned about time, your
22 Honor.
23 The Doral loan is in the complaint. To not ask
24 about Doral valuations or the impact of that, it just makes
25 no sense at all. But, you know, it's --

S. Witkoff - by Defense - Direct (Mr. Robert) Page 4216

1 MR. AMER: You Honor ruled.
2 MR. WALLACE: That is the Doral loan for which
3 Deutsche Bank obtained appraisals, so the idea -- if he's
4 arguing that they should be allowed to prove that Doral was
5 really worth 1.3 billion when Deutsche Bank had loans and
6 appraisals at the much lower valuations, that doesn't make
7 any sense either.
8 We are -- I will sit down, because the application
9 has been decided.
10 THE COURT: The question was basically, how much is
11 Doral worth now, or some version of that.
12 MR. ROBERT: I don't even remember what the
13 question was, your Honor, but I was getting into the way in
14 which Doral would be valued by this person -- by this real
15 estate developer, what he would look at when coming up with
16 an value as to Doral.
17 MR. AMER: The witness has two opinions, one for
18 Doral and one on.
19 MR. ROBERT: 40 Wall Street.
20 MR. AMER: We objected to the Doral opinion on
21 relevance. Your Honor sustained that objection, so I think
22 the witness should not be asked any questions to elicit any
23 opinions on Doral. It's pretty simple.
24 THE COURT: Well, I could always change my mind,
25 not that I'm inclined to. Let's either get a read back of

Page 4217

1 the question, if you could find it, or consider it withdrawn
2 and just ask it however you want to ask it.
3 MR. ROBERT: Let me see what the question was that
4 drew all the objections.
5 MR. KISE: One other point, your Honor. I mean, I
6 just want to say that since the witness is a Wheatley grad,
7 he probably should be allowed to testify as an expert on
8 that basis.
9 THE COURT: I knew I'd hear back about that.
10 MR. ROBERT: If I could have the question read back
11 your Honor.
12 (Whereupon, the requested testimony was read back
13 by the court reporter.)
14 THE COURT: You have to ask for a specific time
15 period.
16 (Continued on the next page.)
17
18
19
20
21
22
23
24
25

Witkoff - by Defendant - Direct(Robert) Page 4218

1 THE COURT: You know what, let's see if we can
2 all agree past, present doesn't matter. Though I think it
3 is a misleading question. Can this witness be asked what
4 are the factors you used to value Doral?
5 Q As an expert real estate developer, what factors
6 would you use to value Doral?
7 THE COURT: Why is that relevant?
8 MR. ROBERT: Because you will hear the factors
9 he uses are different than an appraisal might be, and may
10 be different than a value that the Attorney General
11 places. And that all goes back to the issue of intent.
12 Because, if the goal was to fraudulently inflate the
13 values on the Statement of Financial Condition, every
14 asset would have been inflated. Our client's had a view
15 of how to put a value on it.
16 You are going to hear from an expert that the
17 view that we used is consistent with that which people who
18 are real estate developers would use. And that dovetails
19 with the expert testimony you are going to hear from the
20 accounting people, that that would be appropriate under
21 ASC 274. So this is one of those building blocks that
22 ultimately leads into the accounting experts.
23 THE COURT: Why can't you just ask him how --
24 what factors he would use to value a property, that the
25 value of which does matter at this point: Forty Wall,

Witkoff - by Defendant - Direct(Robert) Page 4219

1 Trump Tower?
2 MR. ROBERT: Because they would object that
3 during his expert deposition, all they questioned him
4 about was Doral and 40 Wall. I am happy to ask him about
5 what he put into Trump Tower.
6 MR. AMER: Those were the only two opinions in
7 his report. But Doral is not in the case, as Your Honor
8 has already observed. So I don't know why we are
9 eliciting an opinion or any factors about Doral. It is
10 not in the case.
11 THE COURT: Right. No more argument.
12 Let's bring the witness back. The objection is
13 sustained.
14 You can go ahead, but I will probably sustain
15 objections to any questions about the value of Doral. You
16 have a lot of properties that you can ask him about since
17 you are only asking generic questions at this point.
18 Let's make it generic or about a property that matters.
19 (Whereupon the witness resumed the stand.)
20 MR. ROBERT: May I proceed, Your Honor?
21 THE COURT: Please do.
22 Q Mr. Witkoff, in your experience as a real estate
23 developer, what are the factors that you would look at in
24 valuing a golf course property for its potential use?
25 A The cash flow of the property.

Witkoff - by Defendant - Direct(Robert) Page 4220

1 MR. AMER: Excuse me. I am going to object
2 because this witness offers no opinion about golf courses,
3 so I don't see how it is relevant.
4 MR. ROBERT: He gives an opinion as to one
5 specific golf course that I have been directed I can't ask
6 about; so I am asking generally about golf courses. There
7 are golf courses at issue in the case. I am taking the
8 Judge's advice.
9 MR. AMER: But the witness has submitted a
10 report. It has two opinions: Doral, which the Judge,
11 Your Honor, sustained objections to. And 40 Wall. So we
12 are left with 40 Wall. So I don't see how factors about
13 golf courses are relevant.
14 THE COURT: I'll ask again. Are you sure you
15 want to risk a reversal? Because I didn't allow this
16 question.
17 MR. AMER: So, Your Honor, we really have no
18 concern that for Your Honor to exercise your broad
19 discretion to keep out expert testimony that is clearly
20 irrelevant to this case on -- and quite frankly, you know,
21 based on matters you have already decided in your summary
22 judgment motion, we have no concern about this. We need
23 to draw a line and apply the fundamental rules of evidence
24 and keep out things that are irrelevant. Particularly
25 where it relates to expert witnesses where Your Honor's

Witkoff - by Defendant - Direct(Robert) Page 4221

1 discretion is even broader, quite frankly.
2 MR. KISE: So, once again, the Attorney General
3 wants to collapse and conflate.
4 THE COURT: That's a bad word.
5 MR. KISE: As I have said before, the Attorney
6 General wants to collapse and conflate the summary
7 judgment with their responsibilities and their burden
8 under these other statutory predicates.
9 That's what they are doing. And they want to
10 ignore all of that and say you have decided all of this,
11 you don't have to worry about this. We need to limit this
12 trial. It is over. It is done. And so I -- I don't
13 think they expressed any valid basis for that limitation.
14 With respect to this witness, he is -- you said
15 that he can answer questions generally about the subject
16 matter that is at issue. And so now that's what we are
17 asking him just in general terms. Because for some reason
18 even though the Doral loan is the center piece of their
19 complaint be and the Doral property is a big portion of
20 the Statement of Financial Condition we are not allowed to
21 talk about it. So if we are not allowed to talk about
22 that, then we should be allowed to at least have this
23 expert's opinion on generally what are the factors that
24 developers consider when they are determining value in
25 their minds. That goes squarely to intent. Squarely.

Witkoff - by Defendant - Direct(Robert) Page 4222

1 THE COURT: Plaintiff, do you object to a
2 generic question. I think he probably answered that.
3 MR. AMER: I was just going to say, that wasn't
4 the question.
5 THE COURT: Objection sustained for the reasons
6 Mr. Amer said, without prejudice to general question,
7 although that may be subject to an asked and answered
8 objection.
9 Q Mr. Witkoff, generally, what are the factors that a
10 developer looks at when determining the value of a piece of
11 property?
12 A Cash flow, and what can be done with that property.
13 Q Cash flow is income and expenses, fair?
14 A Correct.
15 Q What do you mean by what can be done with the
16 property?
17 A What it can be redeveloped into.
18 Q And what are those potential options, generally?
19 A We are talking about --
20 Q I am instructed to ask you generally, sir. So the
21 entire gamut.
22 A Anything within the real estate spectrum. It could
23 believing multi-family rental buildings; condominium;
24 hospitality; industrial; all the -- last mile retail for, you
25 know, for Internet-related businesses. It is all of those

Witkoff - by Defendant - Direct(Robert) Page 4223

1 different things.
2 Q Okay. Based on the Court's direction I am now going
3 to move to 40 Wall Street, Mr. Witkoff. Okay?
4 A Yes.
5 Q What are the factors that you, as a developer, would
6 like at in determining a value for 40 Wall Street?
7 A Again, cash flow, what vacant space can be leased for
8 and what other uses could be incorporated into the property.
9 Q How, if in any way, is location a factor with regard
10 to 40 Wall?
11 A I am sorry, location is a big factor in all of
12 those -- in all of those decisions.
13 Q And anything in particular as to 40 Wall in that?
14 A Well, Wall Street is a -- is Main and Main for
15 downtown. Downtown has -- because of the downtown
16 revitalization plan has become a 24-hour live/work environment.
17 Housing has increased in price. I would say rental prices down
18 there are probably the equivalent of almost anywhere in New
19 York today. And condominium prices are firm too. So 40 Wall
20 as a location for a potential conversion would be relevant.
21 Q You have experience in converting office buildings to
22 condominiums?
23 A We have done it often.
24 Q And I think you talked about the Woolworth building
25 being one of them?

Witkoff - by Defendant - Direct(Robert) Page 4224

1 A Yes.
2 Q Any others in lower Manhattan?
3 A Ten Hanover.
4 Q Are you familiar with ground leases?
5 A I am.
6 Q A long term ground lease?
7 A Yes.
8 Q Generally speaking, what is a long term ground lease
9 in this context?
10 A I mean generally speaking, it is a form of ownership.
11 But generally what you are finding with long term ground
12 leases, very prevalent in London and in Europe and, sort of,
13 not as prevalent in the United States, but you are seeing -- it
14 is generally used to defray taxes, to -- I am talking about
15 long term capital gains taxes -- to transfer money through
16 skipping generation Trusts. And it is a form of ownership.
17 And you generally see passive owners who own who are the ground
18 lessors or who own the fee.
19 Q I want you to assume for a moment, sir, there is
20 testimony in this case that one of the provisions of the ground
21 lease requires the Trump Organization to get the landlord's
22 consent to convert any portion of the building to condo. I
23 want you to assume that, okay?
24 A Yes.
25 Q Does that in any way affect your opinion that value

Witkoff - by Defendant - Direct(Robert) Page 4225

1 for 40 Wall could include the fact that there could be an
2 ultimate conversion to condo?
3 A I mean, it would be an obvious constraint. Anything
4 that would require an additional approval would be a
5 constraint. But certainly not something that couldn't be
6 overcome, because of the fact that ground lessors are passive,
7 and every decision they are going to make, which is generally
8 going to be about what is the best use here, how much does that
9 strengthen the financial cash flow of the property, which then
10 strengthens what my ground lease is worth.
11 MR. AMER: Your Honor, I am going to object and
12 move to strike his answer as to what ground lessors -- the
13 fact that they are all passive. I don't understand how
14 this witness has the ability to opine on all ground
15 lessors and whether they are passive or not.
16 THE COURT: Is that part of your expertise, what
17 most ground lessors would be concerned with?
18 THE WITNESS: Yes --
19 THE COURT: Yes or no, is that part of your
20 expertise?
21 THE WITNESS: I mean, I am generally familiar,
22 Your Honor.
23 THE COURT: Overruled.
24 MR. AMER: He did say "all" not "most."
25 MR. ROBERT: I'll adopt it to most instead of

Witkoff - by Defendant - Direct(Robert) Page 4226

1 all.
2 THE COURT: We will assume most.
3 Q Mr. Witkoff, with regard to developing condominiums
4 in lower Manhattan, what, if any, advantages or disadvantages
5 are there to existing structures, like converting from office
6 to condo, than starting from scratch?
7 A Well, sometimes -- I mean, sometimes starting from
8 scratch perhaps can be a little bit more efficient. But with
9 regard -- I would say in any conversion you really need to
10 understand the depth of the building. For instance, the
11 Woolworth building, the tower was a perfect conversion because
12 you didn't have a lot of depth. So from the elevator bank to
13 the window wall you didn't have a lot of depth. So you are
14 looking for a tower portion to be converted. You are looking
15 for buildings that have towers and bases. Woolworth had a much
16 larger base and a slimmer tower. I think 40 Wall Street is
17 sort of that, but a bigger version of it.
18 MR. ROBERT: Your Honor, this may be a good time
19 to take the morning break, because in light of your ruling
20 a few moments ago, we may be able to streamline things. I
21 know we are ten minutes earlier than usual, but I think it
22 will be more efficient long term.
23 THE COURT: Let's reconvene at 11:30.
24 MR. ROBERT: Thank you, sir.
25 THE COURT: And I'll direct the witness, don't

Witkoff - by Defendant - Cross(Amer) Page 4227

1 talk about the case or your testimony or Wheatley during
2 the break.
3 (Pause in the proceeding.)
4 COURT OFFICER: All rise. Part 37 is back in
5 session.
6 Please be seated and come to order.
7 THE COURT: Before you resume, Mr. Robert, I
8 have a quick question for the witness.
9 Have you ever been qualified as an expert
10 before? And if so, as what, where, when?
11 THE WITNESS: I don't think so. My mother may
12 think I am, but that's about it, Judge.
13 THE COURT: I am sure she does.
14 Okay, Mr. Robert.
15 MR. ROBERT: I have no further questions at this
16 time, Your Honor. Thank you.
17 THE COURT: Will there be any cross examination?
18 MR. AMER: There will, Your Honor.
19 May I proceed, Your Honor?
20 THE COURT: Please do so.
21 CROSS-EXAMINATION
22 BY MR. AMER:
23 Q Good morning, Mr. Witkoff. I hope you are enjoying
24 your first experience as an expert witness. You may want to
25 think your no compensation over perhaps.

Witkoff - by Defendant - Cross(Amer) Page 4228

1 A Good morning.
2 Q You are not an appraiser, correct?
3 A Correct.
4 Q And you are not equipped to appraise properties or
5 offer any specific opinion of value, correct?
6 A Correct.
7 Q And in forming your opinions, did you review any of
8 Donald Trump's Statements of Financial Condition from 2011 to
9 2021?
10 A Not specifically.
11 Q Well, not at all, right?
12 A Well I was aware of them, so.
13 Q You didn't review any?
14 A No. No, I did not.
15 Q Correct?
16 A Right.
17 Q Okay. I'll ask you about 40 Wall Street.
18 In forming your opinions about 40 Wall Street, did
19 you review the ground lease for that property?
20 A No.
21 Q When forming your opinions about 40 Wall Street, were
22 you aware that the ground lease had been amended over time
23 based on renegotiations between Mr. Trump and the landlord?
24 A No.
25 Q When forming your opinions about 40 Wall Street, were

Witkoff - by Defendant - Cross(Amer) Page 4229

1 you aware of whether there were any restrictions in the ground
2 lease on the ability of Mr. Trump to do a residential
3 conversion?
4 A No.
5 Q Does your opinion -- do your opinions on 40 Wall
6 Street rely on any facts contained within the actual ground
7 lease documents for the property?
8 A No.
9 Q You would agree though that those facts would be
10 relevant to the opinions you formed about 40 Wall Street,
11 correct?
12 A Yes.
13 Q Did you ever ask to see any of the ground lease
14 documentation for 40 Wall Street when forming your opinions?
15 A No.
16 MR. AMER: If we could put up Plaintiff's
17 Exhibit 635 in evidence?
18 Q And this is an e-mail that attaches something known
19 as the fourth loan modification.
20 MR. AMER: If we could go to page three of 89?
21 And let me wait for you to get a copy.
22 (Handing)
23 Q You will see there are page numbers on the very
24 bottom that say page X of 89. So let's go to page three of 89.
25 And you will see it says it is the résumé of the

Witkoff - by Defendant - Cross(Amer) Page 4230

1 fourth modification of ground lease on 40 Wall Street. And it
2 says: This résumé presents a brief summary.
3 Do you see that?
4 A Yes.
5 Q And the date of this is December 31, 2007. Do you
6 see that?
7 A I do.
8 Q And if you go to the next page you will see paragraph
9 four. It says, paragraph four, under condominium conversion
10 right it says: Paragraph four eliminates the tenant's
11 condominium conversion rights which it had under section 27.09.
12 Do you see that?
13 A I do.
14 Q So in the negotiation in December 2007, this
15 particular ground lessor negotiated to eliminate Mr. Trump's
16 condominium conversion rights, correct?
17 A Yes.
18 Q And based on your --
19 MR. AMER: We should just go to page nine of 89.
20 Q You will see in paragraph four it says: Section
21 27.09 of the lease is hereby deleted in its entirety.
22 That was the section that was just referenced as
23 having a conversion right in it. Do you recall that?
24 A Yes, I do.
25 Q And paragraph five says: In consideration of the

Witkoff - by Defendant - Cross(Amer) Page 4231

1 elimination of section 27.09 of the lease, landlord and tenant
2 agree that if the future tenant is of the opinion that the area
3 and times favor the construction of residential units, which
4 may be condominium units, and tenant desiring to create a
5 residential condominium for the sale of units to the public,
6 tenant may propose revision of the lease to permit the
7 conversion to condominium ownership for the sale of such
8 residential units; provided, however, that in no event shall
9 landlord have any obligation to agree with or take any action
10 to effectuate such condominium conversion, and landlord's
11 determination to permit any such conversion shall be at
12 landlord's sole and unfettered discretion. Do you see that?
13 A I do.
14 Q Based on your years of experience as a redeveloper,
15 would you agree that any consent by the landlord to permit
16 residential conversion under this paragraph would likely come
17 at a cost to Mr. Trump?
18 A Yes.
19 Q And in forming your opinions on 40 Wall Street, you
20 have not done any analysis of what that cost would be, correct?
21 A Correct.
22 Q Let's look at Plaintiff's Exhibit 787 in evidence.
23 This is the 2011 Statement of Financial Condition. And I think
24 your testimony is you are aware this existed, but you didn't
25 review it in connection with forming your opinions, correct?

Witkoff - by Defendant - Cross(Amer) Page 4232

1 A Correct.
2 MR. AMER: And let's go to page nine of 22.
3 Q You will see that the top note relates to the
4 valuation of 40 Wall Street. Do you see that?
5 A Yes, I see in the third paragraph.
6 Q And prior to being shown this note at your
7 deposition, you had never seen it before, correct?
8 A Correct.
9 Q And I am correct then that you did not consider this
10 note in forming your opinions about 40 Wall Street, yes?
11 A Correct.
12 Q And would you agree with me, looking at this note and
13 specifically the third paragraph that talks about the estimated
14 current value, it discusses a cap rate applied to the result
15 and cash flow to be derived from the building's operations,
16 correct?
17 A Yes.
18 Q Looking at this note now, would you agree that there
19 is nothing in the note indicating that Mr. Trump was valuing 40
20 Wall Street based on a potential residential conversion?
21 A This paragraph doesn't indicate that.
22 Q Instead, it says the value is based on cap rate and
23 cash flow from the building's operations, right?
24 A I see that, yes.
25 Q Okay.

Witkoff - by Defendant - Cross(Amer) Page 4233

1 MR. AMER: That's all I have, Your Honor.
2 THE COURT: Okay.
3 Any redirect?
4 MR. ROBERT: No, Your Honor. Thank you.
5 THE COURT: Thank you. The witness is excused.
6 (Whereupon the witness stepped down from the
7 stand.)
8 THE COURT: Defense, would you like to call your
9 next witness?
10 MR. ROBERT: The defense will be calling Jason
11 Flemmons who is in the other room, Your Honor.
12 This is as good a time as any to talk of
13 scheduling issues, because when we gave the schedule for
14 the next few days we expected there to be more fulsome
15 cross examination. It is fine they don't want to do it,
16 but we want to get a sense of what their anticipated
17 schedule is the next few days with the cross, because we
18 emailed them last night, we will call Mr. Collins after
19 Mr. Flemmons before Laposa. We want to understand time
20 they need, because Mr. Wallace made a comment when you
21 give us a schedule, don't include the time we use for
22 cross. We want a sense so we can have our experts lined
23 up and not have any down time.
24 THE COURT: I'll turn the proceedings over to my
25 principal law clerk who is the master scheduler.

Witkoff - by Defendant - Cross(Amer) Page 4234

1 MS. GREENFIELD: Next we have Mr. Flemmons,
2 that's your next witness today, correct?
3 MR. ROBERT: Correct.
4 MS. GREENFIELD: How much direct do you believe
5 you have?
6 MR. ROBERT: Probably at least a full day, like
7 the rest of the day and half day tomorrow probably.
8 MS. GREENFIELD: Just on direct?
9 MR. ROBERT: Mm-Hm.
10 MS. GREENFIELD: Okay.
11 Cross?
12 MR. WALLACE: Our expectation would be that it
13 would still be short, but I guess we will hear what we
14 hear over the next full day of direct examination. But I
15 do not expect that it will be anything approaching a full
16 day.
17 MS. GREENFIELD: Okay. So once we are done with
18 Mr. Flemmons it will be Mr. Collins. So he will be
19 available tomorrow just in case we finish Flemmons
20 tomorrow?
21 MR. ROBERT: Correct.
22 THE COURT: And how long is your direct of Mr.
23 Collins?
24 MR. ROBERT: That we can check during the next
25 break. I'll check with Ms. Hernandez, who is doing that

Witkoff - by Defendant - Cross(Amer) Page 4235

1 direct.
2 MS. GREENFIELD: Why don't we revisit that at
3 the next break then.
4 MR. ROBERT: Okay. When you talk about
5 Flemmons; do you think a half day?
6 MR. WALLACE: I would -- if I was just imagining
7 I would say maybe an hour. But if it is so extensive it
8 covers a full day, it could be a couple of hours,
9 somewhere in that range would be our expectation. We will
10 hear what the witness has to say.
11 MR. ROBERT: Okay. We will let you know at the
12 next break for the next witness.
13 THE COURT: Okay. Is the witness out there?
14 COURT OFFICER: Yes. Are you ready for the
15 witness, Your Honor?
16 THE COURT: Yes.
17 COURT OFFICER: Witness entering.
18 (Whereupon the witness took the stand.)
19 COURT OFFICER: Please raise your right hand.
20 J A S O N F L E M M O N S, after having
21 first been duly sworn was examined and testified as
22 follows:
23 COURT OFFICER: Please have a seat. Please
24 state your name and either home or business address for
25 the record.

Flemmons - by Defendant - Direct(Suarez) Page 4236

1 THE WITNESS: My name is Jason Flemmons.
2 Home address, is that what you asked me?
3 COURT OFFICER: Home or business.
4 THE WITNESS: Home or business. Business is
5 2000 K Street, Washington DC.
6 THE COURT: We like to get a zip code in case we
7 want to send you mail.
8 THE WITNESS: I believe it is 20006.
9 THE COURT: Okay. Mr. Suarez, please proceed.
10 DIRECT EXAMINATION
11 BY MR. SUAREZ:
12 Q Mr. Flemmons, good morning.
13 A Good morning.
14 Q My name is Jesus Suarez. I represent certain of the
15 defendants in this case.
16 Mr. Flemmons, what is your area of expertise?
17 A Well, broadly speaking, I am an accounting expert;
18 also an expert with professional standards that are attached to
19 accountants' professional responsibilities and practicing as
20 accountants serving as auditors and the like.
21 MR. WALLACE: Your Honor, I am going to note my
22 failure to object to the description of Mr. Flemmons as an
23 expert. I am keeping an open mind until we get his
24 background and they can qualify him.
25 THE COURT: I am assuming they are not asking to

Flemmons - by Defendant - Direct(Suarez) Page 4237

1 qualify him right now.
2 Q Mr. Flemmons, where did you study in college?
3 A I attended the college of William and Mary.
4 Q What was your major?
5 A I majored in accounting.
6 Q And what course work did you do in accounting in
7 college?
8 A Well, I took many very intensive accounting courses;
9 also auditing courses, business law. Those are the ones that
10 come to mind at the moment.
11 Q And what did you do after college?
12 A So after I graduated I was highered by
13 Pricewaterhouse; legacy Pricewaterhouse, before the merger with
14 Coopers and Lybrand. Went into the audit practice at
15 Pricewaterhouse performing financial statement audits for
16 public and private companies. Had many many different kinds of
17 audit clients that covered many, many industries. And that
18 entailed performing audit work and working with broad audit
19 staff and partners to ultimately sign off on the fairness of
20 the presentation of the financial statements in issuing audit
21 reports.
22 I was also involved in performing compilations while
23 I was at Pricewaterhouse.
24 And shortly thereafter I did transfer into the
25 forensic accounting practice at what became then

Flemmons - by Defendant - Direct(Suarez) Page 4238

1 Pricewaterhouse Coopers.
2 Q Mr. Flemmons, at some point did you become a
3 certified public accountant?
4 A Yes, I did.
5 Q When did you become a certified public accountant?
6 A Approximately 1997.
7 Q And in what jurisdictions are you licensed as a
8 certified public accountant?
9 A In Virginia.
10 Q What did you have to do to become a certified public
11 accountant in Virginia?
12 A Well, I had to meet the requisite college credit
13 hours, which I did at William and Mary. There was also, I
14 believe, a two-year experience requirement. And also had to
15 sit for the CPA exam and pass the exam. And was licensed
16 shortly thereafter.
17 Q Are you still licensed as a certified public
18 accountant?
19 A I am. And I have maintained my continuing
20 professional education to maintain my license.
21 Q When you joined Pricewaterhouse, what was your title?
22 A Well, it was my first job out of college, so it was a
23 staff accountant or staff auditor.
24 Q What was your responsibility as a staff accountant or
25 auditor?

Flemmons - by Defendant - Direct(Suarez) Page 4239

1 A That entailed, again, working on the detailed work on
2 a variety of different audit engagements. I worked on many
3 many different engagements, ranging from the Washington Post to
4 the World Bank, many other financial institutions. I did spend
5 time when I was at PW in Madrid, Spain; did a tour of duty
6 there performing a lot of banking audits there for a lot of the
7 subsidiary branches of major international financial
8 institutions.
9 But the detailed work itself involved performing the
10 audit testing, coming up with the audit programs that we would
11 develop in order to carry out the auditing procedures;
12 obtaining the audit evidence; reporting up the chain our
13 findings to ultimately the engagement partners, that enabled
14 them to ultimately make a decision on whether to issue an audit
15 opinion for those audit engagements.
16 Q How long were you a staff accountant or staff auditor
17 at Pricewaterhouse?
18 A I don't remember. It was at least one or two years
19 before becoming a senior auditor.
20 Q And how did your responsibilities change when you
21 became a senior auditor?
22 A Took more responsibility in terms of oversight of
23 staff on audit engagements. And more, you know, direct line
24 reporting with the engagement partners.
25 Q What type of matters did you handle as a senior

Flemmons - by Defendant - Direct(Suarez) Page 4240

1 auditor?
2 A It was a lot of the same kinds of engagements I just
3 described. I mean, it was a very wide landscape of industries
4 that I worked in. Again, banking, media, manufacturing, so
5 very broad range.
6 Q And at some point were you promoted from the position
7 of senior auditor?
8 A Well, it was around that time that I ended up
9 transferring into the forensic accounting practice at PWC, and
10 ultimately became a manager within PWC's FAS practice,
11 Financial Advisory Services.
12 Q When you were in the audit group at Pricewaterhouse,
13 what experience, if any, did you have with personal financial
14 statements or Statements of Financial Condition?
15 A So the experience where I would -- I came across
16 personal financial statements was mainly in the context of
17 performing the banking audits. A lot of that work entailed
18 evaluating loan loss reserves, evaluating the quality of loans.
19 And as part of our audit testing we would make selections and
20 obtain loan files underlying the selected loans that we were
21 making for purposes of our audit testing. And to the extent
22 the loans were with individuals, I do remember there being
23 consideration of personal financials in the course of that
24 work.
25 Q How did your practice change, if at all, when you

Flemmons - by Defendant - Direct(Suarez) Page 4241

1 moved over to financial advisory service -- excuse me, Forensic
2 Advisory Services?
3 A So that was no longer performing audit services.
4 That's performing internal investigations, working with,
5 typically, lawyers that would retain us to help them perform
6 the fact finding when there was potential for accounting
7 issues. We would work with the lawyers to do a lot of the
8 financial analysis; assess the compliance with GAAP; help
9 quantify, to the extent there were errors, we would help do
10 that; a lot of the accounting research and the technical --
11 writing the technical memoranda that would go along with that.
12 Q And during this period of time that you were at
13 Pricewaterhouse and later Pricewaterhouse Cooper, did you
14 receive additional training in the field of accounting?
15 A While I was at PWC?
16 Q Yes.
17 A Well, yes. I had to maintain my continuing
18 professional education, which is 120 hours every three years.
19 And I received a lot of that training within Pricewaterhouse
20 Coopers, but also from outside sources.
21 Q When you moved over to FAS, the Forensic Advisory
22 Services group, what was your title?
23 A At the time I believe it was still a senior level,
24 but within a short period of time I was promoted to manager.
25 Q And as a manager, how were your responsibilities

Flemmons - by Defendant - Direct(Suarez) Page 4242

1 different than as a senior level accountant?
2 A I believe it was more oversight of more individuals
3 on my teams. And again, increased interaction and
4 responsibilities with the partners that I worked with.
5 Q What type of matters did you handle while you were
6 manager at the FAS group?
7 A I performed a lot of internal investigation type
8 work. One of the biggest matters that I worked on at that time
9 was, there was a waste management case which was one of the
10 first, you know, financial frauds that had come out. And we
11 had been retained by counsel to assist with -- assist a special
12 committee in performing that internal investigation. I also
13 worked on auditor compliance, auditor malpractice matters where
14 we would work with auditing firms to assess compliance with
15 professional standards. I believe also performing accounting
16 advisory -- technical accounting advisory support to companies
17 that may not be involved in investigation, but looking for some
18 assistance with regard to how they were conducting their
19 financial reporting.
20 Q And during this period of time, how would you use
21 your knowledge of GAAP in your professional engagements?
22 A Well, it was essential to use any knowledge of GAAP,
23 because that's what they were hiring us to provide them.
24 Q At a certain point in time, did you receive a job
25 role change from being a manager at PWC?

Flemmons - by Defendant - Direct(Suarez) Page 4243

1 A I did, but not within PWC. I left the firm in 2000.
2 Q Why did you leave the firm in 2000?
3 A Well, I had seen that there was an opening in the
4 Division of Enforcement at the Securities and Exchange
5 Commission. It seemed very intriguing to me. Really enjoyed
6 what I was doing at PWC, but thought this would be a great
7 feather in my cap to go to enforcement and bring it back to PWC
8 or another firm. So I went through the process and was hired
9 as an accountant, entry level accountant in the division of
10 enforcement.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4244

1 Q What were your responsibilities as an entry-level
2 accountant at the Division of Enforcement of the Securities and
3 Exchange Commission?
4 A Performing financial accounting investigations for a
5 wide array of entities, ultimately determining whether there
6 were accounting improprieties, all involved, you know, publicly
7 traded companies, and also evaluating conduct of individuals at
8 these companies, working very closely with enforcement attorneys
9 throughout the country, collectively making a decision on
10 whether or not enforcement action would be warranted to
11 recommend to the Commission of the SEC. And we would do that
12 very formally with writing very detailed memoranda, if we felt
13 that that was necessary.
14 It also involved taking investigative testimony of --
15 of staff people at public companies all the way up to CEOs. So
16 a very interesting job. And, um, and we had a lot of
17 responsibility to -- in the front lines to make those decisions
18 and decide whether or not something warranted bringing
19 enforcement action.
20 Q What type of engagements were you working with when you
21 were an accountant at the Enforcement Division?
22 A I probably touched every industry out there in terms of
23 the types of companies and entities that we were -- that I was
24 involved in investigating. You know, from, again, financial
25 institutions, manufacturing, real estate, government

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4245

1 contractors. It really ran the gamut in terms of the types of
2 entities that I was involved with. And with that came a very
3 wide exposure to a very broad base of accounting issues that
4 covered many, many different aspects of Generally Accepted
5 Accounting Principles.
6 Q Were you promoted from the position of accountant?
7 A I was.
8 Q What was your next role of the enforcement position at
9 the Securities and Exchange Commission?
10 A When I was hired at that time we were on a general
11 scale, and the titles were very, I would say, demeaning. I went
12 in as a staff accountant, despite having six or seven years of
13 experience.
14 Shortly after that they did change that title to be an
15 assistant chief accountant. It made it sound a little nicer.
16 And I was promoted, first, to an associate chief accountant.
17 Later, to a senior associate chief accountant, and then
18 ultimately, deputy chief accountant of the Division of
19 Enforcement.
20 Q How did your responsibilities change throughout your
21 progression of -- at the Division of Enforcement?
22 A I would say the move from assistant chief accountant to
23 associate chief accountant, responsibilities didn't change a
24 whole lot, but when I became senior associate chief accountant,
25 I did have a group of enforcement accountants that reported to

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4246

1 me directly. I was based in the DC office of the SEC. And we
2 had about 35 to 40 accountants in that group, and another 60 or
3 so across the country, so approximately 100 enforcement
4 accountants. And at that time I had about five or six
5 accountants that reported directly to me.
6 Q What exposure, if any, did you have to personal
7 financial statements or Statements of Financial Condition during
8 your time with the Securities and Exchange Commission?
9 A There were a couple of different capacities. Like I
10 mentioned earlier with my experience in the audit practice at
11 PWC, I did work at the SEC on investigations of financial
12 institutions. And there were times where we would receive, you
13 know, detailed files as part of those investigations, um,
14 because we would be evaluating the accounting for loan loss
15 reserves. And there were times where personal financials might
16 be part of that exercise.
17 Secondly, when we brought enforcement actions
18 against individuals, and often times that would include levying
19 penalties or disgorgement against individuals for a variety of
20 different things, individuals often times would seek to get some
21 sort of waiver based on inability to pay and would be required
22 to submit personal financial statements, you know, to us at the
23 staff at the SEC to evaluate.
24 Q What, if any, experience did you have at the SEC
25 reviewing financial statements for evidence of fraud?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4247

1 A That's what I did every day. We were tasked with
2 evaluating, first of all, whether or not accounting at public
3 companies was proper. And if it wasn't proper, we were
4 investigating why it wasn't proper; whether it was innocent
5 error or whether there was maybe more to it in terms of
6 potential malfeasance.
7 Q And in what context did you carry out those
8 responsibilities?
9 A Well, in the context of working very closely with SEC
10 enforcement lawyers, the SEC has subpoena power, is able to
11 obtain mountains of data and documents that we would be
12 reviewing for purposes of our investigations. Um, I mentioned
13 before, also investigative testimony. We'd be very involved in
14 performing fact finding through the testimony process, and then
15 ultimately putting it all together in deciding whether or not to
16 recommend enforcement action.
17 Q What, if any, experience did you have analyzing the
18 role of senior executives and working with outside accounting
19 firms?
20 A Very extensive responsibilities. One of the things we
21 would be evaluating is whether or not information that was
22 provided to outside accounting firms was accurate. Um, we would
23 also be evaluating whether or not the outside accounting firms
24 performed their responsibilities in compliance with professional
25 standards.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4248

1 The SEC has jurisdiction to bring enforcement actions
2 against outside auditors for failure to comply with such
3 standards, and that was a very big part of my responsibilities
4 as well.
5 Q In what sectors did you discharge these
6 responsibilities?
7 A I think I said before, a very wide array of sectors;
8 real estate, government contracting, banks, many others.
9 Q During your time at the SEC, or prior, were you
10 involved in professional organizations?
11 A Can you repeat that question again.
12 Q Were you involved in any professional organizations --
13 A While at the SEC?
14 Q Or prior.
15 A I don't recall the date, but I am a member, and was a
16 member I believe at that time, of the American Institute of
17 Certified Public Accountants. I also am a member of the
18 Association of Certified Fraud Examiners. Those are the two
19 that I think are the main ones.
20 Q When did you become -- withdrawn.
21 In fact, you are a certified fraud examiner; correct?
22 A I am.
23 Q What does one have to do to become a certified fraud
24 examiner?
25 A It requires -- there's an exam, but there's also an

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4249

1 experience requirement that goes along with it. And, of course,
2 paying the annual fee.
3 Q And you are also credentialed by the AICPA as a
4 certified -- as certified in financial forensics; is that
5 correct?
6 A That's correct.
7 Q What is it -- what is required to obtain that
8 certification?
9 A It was largely an experience requirement at the time
10 that I became a CFF. I think they, since that time, added an
11 exam element to it, but I met all the requirements, based on my
12 experience, to be a CFF.
13 Q At one point time did you leave the Security and
14 Exchange Commission?
15 A I did.
16 Q Where did you work next?
17 A I left the SEC in the late 2012. Um, I had been there
18 for 12 years. I had a very successful climb and was looking to
19 bring that experience to the private sector. Talked to a number
20 of firms and ultimately decided to go with FTI Consulting, which
21 is another type of consulting firm similar to my current firm.
22 Q What kind of work did you handle at FTI Consulting?
23 A Largely assisting lawyers who are representing
24 companies and individuals as part of either performing internal
25 investigations or serving as an expert on accounting issues

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4250

1 under Generally Accepted Accounting Principles. And I also
2 served as an expert, starting at that time, in assessing
3 compliance of auditors with professional standards, and both the
4 accounting expert work and the auditing expert work required
5 issuing and drafting expert reports, providing deposition
6 testimony, and potentially testifying at trial. But not many of
7 them went to trial.
8 Q What was your title FTI Consulting?
9 A I was a senior managing director, which is the
10 equivalent of a partner, if you were in a partnership, but FTI
11 is a corporation.
12 Q After FTI, where did you work next?
13 A I left FTI in approximately May of 2016. I had been
14 there for four years. The prior CFO of FTI had left and decided
15 to start up a new consulting firm that performed a variety of
16 different consulting practices similar to what FTI had. And he
17 plucked me out of my role at FTI to come in to Ankura and to
18 start the forensic accounting practice there. Seemed like a
19 very interesting opportunity, and I've been there ever since.
20 Q When you returned to the private sector, what
21 involvement did you have with the AICPA?
22 A I had had a couple of different levels of involvement.
23 So they have different committees that are organized within
24 what's known as the forensic and valuation services section.
25 One of the roles was serving on the fraud task force and that

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4251

1 involved essentially preparing guidance for the industry,
2 evaluating current guidance that was out there, and performing
3 investigations or serving as an expert witness. And during my
4 time on that committee, we did draft a guide that, that was very
5 voluminous and very thorough that covered many, many aspects of
6 serving as an expert.
7 I also served on the executive committee of the AICPA's
8 forensic and violations services section. And that is the kind
9 of highest level committee that one could be on at the AICPA
10 within their field. During that time we, um, I was a principal
11 author of the very first forensic standard that was issued by
12 the AICPA. It did not exist before, and was heavily involved in
13 that effort and it ultimately was issued.
14 Q Have you lectured on the field of accounting?
15 A I don't do lectures, per se, but I do a lot of public
16 speaking involving accounting, SEC enforcement, auditing issues.
17 I've been involved in being on panels, moderating panels, giving
18 speeches for a long time. And I believe my CV that was
19 submitted in this case captures all of that.
20 Q Have you written any articles concerning the field of
21 accounting?
22 A I believe I've written a few articles. Sitting here
23 right now I don't remember the topics of those articles. I'm
24 not a prolific author. I do a lot of work in the space and
25 don't have a lot of time to sit down and write.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4252

1 Q Have you been offered as an expert before in the field
2 of accounting?
3 A Yes.
4 Q How many times have you been offered in court as an
5 expert in the field of accounting?
6 A I believe two.
7 Q And how many times have you been qualified as an expert
8 in court on the field of accounting?
9 A Both times.
10 Q And have you ever been offered as an expert in the
11 field of accounting and not been qualified?
12 A No.
13 MR. SUAREZ: Your Honor, we tender Mr. Flemmons as
14 an expert witness in the field of accounting.
15 THE COURT: Granted. I hereby deem you an expert
16 in the field of accounting. You are three for three.
17 Q Mr. Flemmons, I'll ask that the opinions you give today
18 be given within a reasonable degree of accounting certainty.
19 Can we agree on that?
20 A Understood.
21 Q What have you done to prepare for your testimony at
22 trial in this case?
23 A I had previously submitted a couple of reports in this
24 case. One was my initial expert report. And I also submitted a
25 rebuttal report to the government's expert. I -- so I reviewed

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4253

1 those two reports in preparation for this trial. I also
2 reviewed some of the underlying materials that I cited as
3 support for my opinions in those reports. I have also read a
4 few of the transcripts associated with this trial. For example,
5 the transcript of Mr. Bender. I believe there were a couple of
6 others. And then, um, I met with you last night for a couple of
7 hours. And that's it.
8 Q What documents, generally, have you reviewed in
9 connection with your preparation to testify at trial today?
10 A Can you repeat that.
11 Q Sure.
12 What documents, generally, have you reviewed in
13 connection with your preparation to testify at trial?
14 A I don't recall all of them, but, again, many of the
15 documents that were cited in my reports, the Statements of
16 Financial Condition.
17 Some of the supporting documents that were generated,
18 um, to support the calculation of the values that were reported
19 in those financial statements. I believe I've also gone back
20 over some of the GAAP requirements associated with this case.
21 That's what comes to mind.
22 Q Is your testimony here governed today by professional
23 standards?
24 A Yes.
25 Q Which standards?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4254

1 A It was the standard that I was involved in drafting for
2 the AICPA. It's the statement on standards for forensic
3 services, number one.
4 Q What accounting standard governs the preparation of
5 Statements of Financial Condition?
6 A So currently the standard that applies is known as
7 Accounting Standards Codification or ASC-274. That standard was
8 built off of a very much older standard that was issued by the
9 AICPA in approximately 1982. Um, so those are the standards
10 that apply. But during this time period it would be ASC-274.
11 Q What is the measure of value for an asset or liability
12 under ASC-274?
13 A It's referred to as estimated current value.
14 MR. SUAREZ: All right. Can we please pull up
15 ASC-274, Defendant's Exhibit 27.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 MR. SUAREZ: And turn to page six.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q I focus your attention on ASC-274-10-35-1. Does this
22 set forth the requirement that assets be presented at estimated
23 current value?
24 A Yes, it does.
25 Q What is the definition of "estimated current value"?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4255

1 A I won't recite it word for word, but the essence of
2 estimated current value is that it's the amount that could be
3 exchanged between a buyer and a seller for a particular asset.
4 MR. SUAREZ: Can we please pull up Defendant's
5 demonstrative one.
6 (Whereupon, the demonstrative was displayed on the
7 screen.)
8 Q Do you see here a citation to ASC-274-10-20?
9 A I do.
10 Q Do you recognize that as the word-for-word definition
11 of estimated current value?
12 A It is.
13 Q And what is "fair value"?
14 A So "fair value" is a very different GAAP standard that
15 is separate and apart from estimated current value. Fair value
16 is a standard that didn't come into existence until around 2008,
17 well after the 1982 statement that first established estimated
18 current value.
19 The fair value standard only applies to entities, um,
20 it does not apply to personal financial statements. And the
21 models that both of those standards are built on are very, very
22 different. In fact, the ASCPA has made it clear that estimated
23 current value is not the same as fair value under ASC-820.
24 Q How is the model upon which estimated current value is
25 built on different than the model for fair value?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4256

1 A Well, there are a lot of differences, one of which is
2 -- you see in the definitions of estimated current value as
3 compared to fair value, fair value refers to market
4 participants. And that is a very important distinguishing trait
5 for ASC-820, because fair value standard is premised on, you
6 know, what would a market participant pay for this property?
7 How would they value this property?
8 On the other hand, estimated current value is premised
9 on more of a management or personal individual perspective of
10 what they deem the value to be.
11 So those are two very different paradigms. Again, one
12 is more of an internal. ECV is an internal determination. Fair
13 value is more of external market participant evaluation. I
14 would say, also, that under estimated current value there are
15 many methods that are laid out that are all appropriate methods
16 that could be used, and it contains a very wide array of options
17 that can be used to establish the ECV and be GAAP compliant.
18 Fair value also has methods, but they are more
19 streamlined. There is only a few of them. Fair value also
20 places a premium on "using observable inputs", which is a term
21 of art within the standard. And estimated current value doesn't
22 really talk about that at all. So there are a lot of
23 differences. But the methods and the kind of internal versus
24 external perspective are very key differences.
25 Q Is the preparation of a Statement of Financial

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4257

1 Condition for an individual the same as the preparation of a
2 financial statement for a corporate entity?
3 A No.
4 Q Why is that?
5 A Well, first of all, the preparation of a Statement of
6 Financial Condition involves just that, preparing a Statement of
7 Financial Condition, which is akin to a balance sheet.
8 Preparing financial statements for an entity under
9 Generally Accepted Accounting Principles would entail preparing
10 a balance sheet, an income statement, which would contain the
11 revenues, expenses and profits, preparing a statement of cash
12 flows, preparing statement of stockholders equity, and also
13 entail many, many, many more disclosure requirements that are
14 attached to all of the relevant standards for entities that are
15 not relevant to individuals under ASC-274.
16 Q What kind of latitude does a person preparing a
17 Statement of Financial Condition for an individual have to value
18 assets and liabilities as compared to someone preparing a fair
19 value estimate for a corporation?
20 A Well, I would say that under ASC-274, there are many
21 options available to a preparer of those financial statements,
22 as compared to under fair value, there are really more -- much
23 fewer methods that are described in standard. That said,
24 there's latitude under both standards, but the specificity
25 that's in ASC-274, with some of the methods that are available,

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4258

1 do not exist in the fair value standard.
2 MR. SUAREZ: If we could please pull up Defendant's
3 27 at page 13.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 Q Mr. Flemmons, can you please identify this action of
7 ASC-274?
8 A Yes. So this is, as it says, the implementation
9 guidance and illustrations that provide some of the methods that
10 I was talking about before that are available to a preparer of
11 personal financial statements, and it covers, again, some of the
12 landscape of the different methods that can be used.
13 Q Please walk us through the different methods of the
14 estimation of current value?
15 A Sure. So starting with the first one under paragraph
16 55-1A, it says, "The capitalization of past or prospective
17 earnings." Again, this would be taking expected earnings of a
18 particular asset that are expected to be generated in the future
19 and applying a capitalization or a form of discount rate to
20 those earnings to establish value. But, again, it is using
21 future productivity of that asset. And I think that's a very
22 important concept, because when you are valuing any asset,
23 again, there is a wide range of options that are available to
24 you, and it does depend on the kind of asset that you are
25 valuing.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4259

1 If I'm seeking to value my home, my home is not a
2 revenue producing asset. So the value of that is going to be
3 pretty much, well, somebody would think that it's valued based
4 on other comparables in the area, and there's not -- there
5 aren't a lot of inputs to valuing that.
6 But when you are talking about valuing a revenue
7 producing asset, looking to the future to see what kind of
8 revenue could be generated on that asset is a big part of
9 determining a value of that asset. And that's what this goes
10 to. This is one of the options to look to the future on what
11 could be generated from that asset to determine what the value
12 is.
13 Q And the next category, the use of "liquidation values",
14 how does that -- how is the use of liquidation values a method
15 of reaching estimated current value?
16 A Well, it's very different than the first one. Again,
17 the first one we talked about, it's looking to the future on
18 what is expected to be generated and applying a discount to
19 that.
20 Liquidation values would be in the situation where
21 you're valuing assets under the assumption that they need to be
22 sold. For example, going out of business, or bankruptcy,
23 something to that effect. And you could imagine that under
24 those circumstances, you know, values of those assets would
25 likely be less than looking to a very productive asset that's

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4260

1 going to generate revenue streams in the future.
2 Q What is the next basis for reaching an estimated
3 current value?
4 A The next one is looking to the cost of the asset and
5 potentially making adjustments to the cost based on either
6 changes in the nature of the asset. The standard here talks
7 about changes in a specific price index, such as a consumer
8 price index. That's another option that's available.
9 Q And how is that different from the next basis for
10 reaching estimated current value?
11 A So use of appraisals is another option. Again, not
12 mandated -- none of these methods are mandated. This is the
13 menu that is available to a preparer under ASC-274 to be able to
14 prepare financial statements. Use of appraisals is one of them.
15 It's also very vague, because appraisals can be
16 prepared in many different ways. But, you know, use of
17 appraisals would tend to be using a third party of some kind to
18 either identify comparable sales or use some other valuation
19 method to come up with a reported value.
20 Q Is it the case that the use of appraisals is vague
21 because there can be many different methods of appraising the
22 same piece of real estate?
23 MR. WALLACE: Objection. Leading.
24 THE COURT: Sustained. Leading.
25 Q Why is the use of appraisals a vague standard?

Page 4261

1 A Well, because it really goes more into valuation
2 approaches. The standard doesn't really get into a lot of
3 detail on how a valuation professionals would develop an
4 appraisal. But, again, there are many, many different ways to
5 issue an appraisal and to prepare an appraisal. The standard
6 doesn't get into the level of detail on what those are.
7 Q Is it acceptable to use an appraisal that includes
8 hypothetical conditions?
9 A Yes. As a matter of fact, that's what a lot of these
10 methods contemplate, particularly whether you are evaluating the
11 future performance of an asset. And all of that is very
12 hypothetical and it's impossible to be precise and exact.
13 There's a wide range of potential outcomes that could ensue from
14 an asset.
15 Q What is the next standard that you could use for
16 reaching estimated current value? The next method, I should
17 say?
18 A So letter E is similar to letter A, although letter E
19 is talking about projecting cash receipts as opposed to
20 projecting earnings, but also discounting those receipts back to
21 current time.
22 (Continued on the next page.)
23
24
25

Flemmons - by Defendant - Direct(Suarez) Page 4262

1 Q Does the accounting standard provide further guidance
2 on how to reach estimated current value for investments in a
3 closely held business?
4 A Yes, it does.
5 MR. SUAREZ: Can we zoom in on that section,
6 please?
7 THE COURT: And just one question. The only
8 difference I saw between A and E, or the main difference,
9 was A talked about income and expenses, and E just talked
10 about income. How can you value something just by the
11 income without taking into account expenses?
12 THE WITNESS: Can we go back to that, please?
13 THE COURT: Or payments, expenses, in E, the
14 last word, payments. What are payments? Expenses?
15 THE WITNESS: Yeah, the standard doesn't really
16 define that, but ordinarily one would factor in expenses
17 associated with discounting rather than just taking the --
18 THE COURT: Receipts.
19 So what's the difference between A and E in a
20 practical sense?
21 THE WITNESS: It is more of the wording.
22 THE COURT: Wording is not practical. That's
23 why I am asking for practical sense.
24 THE WITNESS: In a practical sense, again, A we
25 are talking about anticipated earnings, which would

Flemmons - by Defendant - Direct(Suarez) Page 4263

1 potentially be revenues, less expenses. You know, E is
2 talking about rather than earnings under a GAAP
3 perspective, not revenues, but actually taking the hard
4 cash that comes in the door, compared with the hard cash
5 that maybe goes out the door. So we are revenues and
6 expenses versus cash plus cash minus.
7 THE COURT: Okay. Thank you.
8 Q Will the different approaches to estimated current
9 value necessarily yield the same result?
10 A No. And in fact, depending on the method you choose,
11 you could have widely different results from one method to
12 another.
13 Q And if the different methods for defining estimated
14 current value yield wildly different results, how do you pick
15 which method to use?
16 A Well, it is a judgment call. And, you know, in my
17 experience it often has results in or is determined, kind of,
18 how you are going to be using that information. I mentioned
19 earlier when I was at the SEC we would receive personal
20 financial statements when evaluating a defendant's ability to
21 pay. And in those situations you would expect the defendant to
22 try to understate assets to demonstrate being destitute or not
23 being able to pay the fines. In that situation, you know, the
24 defendant could pick a method that results in the lowest asset
25 values and disclose that as such.

Flemmons - by Defendant - Direct(Suarez) Page 4264

1 There may be -- and there are other uses of personal
2 financial statements that may also drive what method is chosen.
3 But at the end of the day what is important is that the method
4 be disclosed so that the user of the financials knows what
5 method is being used and has an opportunity to agree or
6 disagree or come up with an alternative approach.
7 Q And is the selection of one method over another in
8 the discretion of the person preparing the Statement of
9 Financial Condition?
10 A Absolutely.
11 MR. SUAREZ: Can we go back to 55-4?
12 Q Can you please explain the guidance 55-4 for
13 investment in a closely held business? How is estimated
14 current value interpreted for use in connection with an
15 investment in a closely held business?
16 A Well, the interpretation is really in the form of the
17 methods that are laid out below. The standard does not define
18 what constitutes a closely held business.
19 But in practice, these methods do -- are very similar
20 if not overlap directly with methods that are offered on the
21 prior list that we saw. And also elsewhere in the standard
22 that I suspect we will get into. But some of these that are
23 listed on this page are identical to what we have already
24 covered.
25 Q And is it the case that the preparer chooses which it

Flemmons - by Defendant - Direct(Suarez) Page 4265

1 would select?
2 A Correct. These six methods that are listed here are
3 also available to a preparer to prepare their personal
4 financial statements under.
5 Q Is any one method determinative?
6 A When you say "determinative," what do you mean?
7 Q Are you required to use one method over another?
8 A No.
9 Q Can the different methods for valuing an investment
10 in a closely held business yield different results?
11 A Like we said before, depending on which method that
12 you pick among this list, you could have very different results
13 in orders of magnitude.
14 Q Would any of the different methods be more right or
15 more wrong than the other?
16 A No, the standard provides many options and there is
17 no one right value. It is a matter of judgment. It is a
18 matter of disclosing what that method is. A reasonable person
19 may disagree, a user of the financial statements may disagree
20 and say that that valuation method doesn't make sense, we are
21 going to do our own calculation. So as long as it is out there
22 and disclosed and clear to a user what the method is, what
23 assets are being valued, you are giving the opportunity to a
24 user to understand what the approach was and either agree or
25 disagree with it.

Flemmons - by Defendant - Direct(Suarez) Page 4266

1 Q Or ask additional questions?
2 A Correct.
3 MR. SUAREZ: If we can turn to the following
4 page?
5 Q Can you please identify the standard that is listed
6 here as ASC 274-10-55-6?
7 A Yes. So paragraph 55-6 contains five additional
8 methods that are available to a preparer of personal financial
9 statements for real estate assets.
10 Q Okay. Let's go through them one by one and talk
11 about how they are different from each other.
12 What does sales of similar property and similar
13 circumstances require?
14 A So that involves, again, looking to comparables in
15 the market. We may have talked about that earlier. That's one
16 method that is available. For real estate that is a common way
17 to value property is to look at other assets that have been
18 sold that have similar characteristics. But often times those
19 are hard to find. You don't always have an apples to apples
20 comparison, so this may not always be the most ideal method to
21 use.
22 Q What latitude is afforded to the preparer in
23 determining what is a similar property under similar
24 circumstances?
25 A It is a judgment call based on the attributes of an

Flemmons - by Defendant - Direct(Suarez) Page 4267

1 asset and whether or not a comparable that is identified is
2 truly a comparable.
3 Q What is the next possible method of obtaining
4 estimated current value for real estate according to this
5 standard?
6 A This is largely a repeat of what we saw before, and
7 the prior menu of methods. The only additional verbiage that I
8 think is important here is the reference to basing projected
9 cash receipts on planned courses of action. That is also
10 something that is, you know, very unique to ASC 274, that you
11 able to consider what is intended to be done to the property
12 with the asset and including future income streams associated
13 with those planned courses of action in your projected cash
14 amounts.
15 And that is also, by the way, very different from ASC
16 A-20 which is the fair value standard where the intended use of
17 the property is not considered in determining a value under
18 A-20. But ASC 274 that's entirely appropriate.
19 Q And how are planned courses of action used in the
20 real world to ascribe an estimated current value to real
21 estate?
22 A Well, there are a variety of ways. It could be
23 having a property that is not developed and including receipts
24 from that property assuming that it was fully developed.
25 That's one example.

Flemmons - by Defendant - Direct(Suarez) Page 4268

1 Q What is required for the preparer of a Statement of
2 Financial Condition to understand about a planned course of
3 action in order to be able to figure that into the valuation?
4 A Well, there are many different inputs and assumptions
5 that go into these determinations. They depend on the type of
6 asset, location, intended use, whether it is a hotel, whether
7 it is an undeveloped piece of land. I think it would really
8 depend, I'll say, I am not a valuation expert, I am here as an
9 accounting expert, but I have a lot of experience reviewing
10 valuation reports and having to understand assumptions and
11 evaluate the reasonableness of those. But I have never
12 prepared a valuation.
13 Q And in considering planned courses of action, what
14 latitude is afforded the preparer to incorporate the future
15 value of that planned course of action in an estimated current
16 value?
17 A I think there is substantial latitude, because it all
18 depends on the judgment of the preparer on what they plan to
19 use the asset for.
20 Q What do you mean what they plan to use the asset for?
21 A Well, what I mean is that this phrase of "based on
22 planned courses of action" allows a preparer to consider the
23 value that is to come from the asset from either further
24 developing it generating future revenues off of that piece of
25 property and not just valuing it just based on what it is today

Flemmons - by Defendant - Direct(Suarez) Page 4269

1 if you were to try to sell it without any future revenue
2 streams. This is a very important part of the standard to
3 contemplate and include the future earnings of a property which
4 makes intuitive sense as well. Because if you were to try to
5 sell a property that has a lot of future value to it, you know,
6 a buyer is likely going to consider the future revenue streams
7 as well. Not just an undeveloped, you know, piece of land
8 being an undeveloped piece of land. They are going to consider
9 what they are going to do with it, which would increase the
10 value in their minds on what that property is worth.
11 Q And why is it that this concept of appears in ASC 274
12 but doesn't appear in the preparation of financial statements
13 for corporate entities, for example?
14 A Well ASC 274 is really based on, as I said before, a
15 management individual perspective. And what they intend to use
16 the asset for ASC A-20, which applies to entities, applies a
17 market participant perspective, not an insider management
18 perspective, an outsider perspective, where the intended use of
19 the property is not part of that valuation.
20 Q And how is standard B different from standard C, the
21 use of appraisals based on estimates of selling prices and
22 selling costs obtained from independent real estate agents or
23 brokers familiar with similar properties in similar locations?
24 A I think the main difference is the fact that
25 appraisals are obtained from external sources. Of whereas

Flemmons - by Defendant - Direct(Suarez) Page 4270

1 section B that talks about the discounted amounts of projected
2 cash receipts that that analysis could be performed internally
3 without needing to obtain any assistance from an outside expert
4 or valuation specialist.
5 Q In section D, the standard permits the use of
6 appraisals used to obtain financing, correct?
7 A Yes.
8 Q How is that different from the prior section that we
9 just discussed?
10 A So these could be appraisals that are obtained by
11 lenders as part of making determination on whether to provide
12 funding for the particular piece of asset. And, you know,
13 using that appraisal as opposed to the person themselves
14 retaining a specialist to go out and perform an appraisal on
15 that property.
16 Q What is the last standard that is set forth in this
17 section?
18 A So this one talks about assessed value for property
19 taxes. Again, going back to my example of my home, which
20 doesn't have any future revenue stream associated with it, that
21 I have a tax value that I pay taxes on my property, but I also
22 have a price that I could sell my property for, which would
23 likely be higher. But this is an option that is available to a
24 preparer is to use that tax assessed value if they choose. But
25 I would say that would be expected to typically be on the lower

Flemmons - by Defendant - Direct(Suarez) Page 4271

1 end of the spectrum. We have covered a lot of these different
2 methods and they are, you know, some are inherently going to
3 likely put you at the low end of an estimate; and others might
4 put you at a high end. But very importantly, as long as you
5 are using one of these and you disclose what you are doing, you
6 can use any of them regardless of the value that results from
7 it.
8 Q In the real world, how are assessed value for
9 property taxes different than, say, planned courses of action?
10 MR. WALLACE: Objection, foundation. This is
11 not an expert on tax.
12 THE COURT: Overruled.
13 A Can you repeat that, please?
14 Q Sure. In the real world how is estimated current
15 value different if you use it based on or you compute it based
16 on assessed value for property taxes, as opposed to, for
17 example, your planned courses of action?
18 A I have not ever prepared a tax assessment. But my --
19 but having been familiar with how my personal properties are
20 valued from a tax assessment perspective, they -- that would be
21 a much more myopic, you know, view of the value.
22 Letter B, where it talks about planned courses of
23 action, does take into account a much longer term income stream
24 that could be attached to that property that could go into the
25 value.

Flemmons - by Defendant - Direct(Suarez) Page 4272

1 MR. WALLACE: Your Honor, I move to strike that
2 answer. There is no basis for that to have any relevance
3 in this case. Mr. Flemmons' personal residence and the
4 manner in which it is taxed.
5 THE COURT: I think he was just using that as an
6 example. But I'll strike the answer and ask that the
7 question be reframed to be very specific. We are not
8 talking about your personal situation, which is how the
9 world works, which is what Mr. Suarez asked.
10 Q In a general sense, in the real world if you want to
11 use an assessed value for property taxes, you can go on the tax
12 appraisers website and look it up, right?
13 A That's correct.
14 Q And you could use that as basis for estimated current
15 value, right?
16 A That is an option.
17 Q That is an option. Another option would be to
18 consider the planned courses of action that you have for a
19 property, correct?
20 A That's correct.
21 Q And those planned courses of action, I believe you
22 described them as potentially being very forward looking,
23 right?
24 A Correct.
25 Q And it is possible, for example, that an asset could

Flemmons - by Defendant - Direct(Suarez) Page 4273

1 have an assessed value for property taxes, so 18 to
2 \$20 million, right? And that same property based on planned
3 courses of action could have a value of four or \$500 million?
4 MR. WALLACE: Objection to this -- this
5 hypothetical is unmoored from any specific details about
6 jurisdictions or anything else -- or how any of these
7 properties were valued.
8 THE COURT: Well, I'll ask that the witness.
9 In your experience, are these universals or are
10 we talking about a particular jurisdiction?
11 THE WITNESS: Well, generally speaking, I would
12 say that a property tax value would be expected to be
13 lower than a value that you would use if considering the
14 planned courses of action over a long period of time in
15 the future. And that would inherently result, in my view,
16 in, likely, very different -- wildly different values.
17 THE COURT: Okay. That's his answer and it is
18 fine.
19 Q Let's say in the hypothetical property you have an
20 assessed value for property taxes of \$18 million, that wouldn't
21 preclude the sales comparable approach in subsection A from
22 having a value of four or \$500 million, would it?
23 A It would not preclude that.
24 Q And that wouldn't preclude estimated current value
25 being used to derive a value of seven or eight or \$900 million

Flemmons - by Defendant - Direct(Suarez) Page 4274

1 on a property based on planned courses of action, would it?
2 A It wouldn't preclude that either.
3 Q And that same property could have an assessed value
4 for property taxes of 18 or \$20 million, and then I think you
5 described it as a wildly different property, six, seven,
6 \$800 million based on the other methods of -- other methods
7 authorized to reach estimated current value for real estate,
8 right?
9 MR. WALLACE: Objection. At this point the
10 leading is really out of control.
11 THE COURT: Sustained.
12 Let me ask a question about one of your answers.
13 You were asked, basically, could something be assessed at
14 18 million and be valued and have a value of 800 million
15 or something. You said yes. Is that a theoretical answer
16 or a real world practical answer based on your experience?
17 THE WITNESS: Well, it is a real world answer
18 from the standpoint that tax assessed values are typically
19 on the lower end of the spectrum.
20 THE COURT: How much lower?
21 THE WITNESS: Well, it depends on the asset. It
22 is hard to say in generality what that number would be.
23 You would have to know what that property is. But I am
24 saying that that taxed assessed value typically would not
25 consider the future longer term revenues that would be

Flemmons - by Defendant - Direct(Suarez) Page 4275

1 generated from that asset, which would, by definition in
2 my view, generate a much higher value than a tax assessed
3 value.
4 THE COURT: I am trying to get to the order of
5 magnitude we are talking about here. Let's say the tax
6 assessors say its assessed value is, let's make it
7 \$20 million. In your real world experience what is the
8 highest value you have ever seen legitimately placed on
9 such a property?
10 THE WITNESS: Well, you said legitimately.
11 THE COURT: It is a loaded word, I know.
12 THE WITNESS: Again, letter B, which talks about
13 projecting cash receipts, there is a range of judgments
14 that go into that.
15 THE COURT: Nope. Nope. I am asking what you
16 have observed in the real world. Assuming 20 million
17 assessment, what is the highest you have ever seen? I
18 will stick with legitimate appraisal, somewhat objective
19 appraisal, what is the highest you think you have ever
20 seen proportionally?
21 THE WITNESS: Well, if you are saying 20 million
22 is your example for assessed property tax, it would not be
23 unusual to have a value in the hundreds of millions using
24 projected cash receipts.
25 THE COURT: What's the highest that you have

Flemmons - by Defendant - Direct(Suarez) Page 4276

1 seen?

2 THE WITNESS: I don't recall an exact number.

3 THE COURT: Okay.

4 Q You described it as an order of magnitude?

5 THE COURT: And five minute break.

6 A Yes.

7 Q Now that order of magnitude could be ten times?

8 A It could be.

9 Q It could be 20 times?

10 A Possibly.

11 Q It could be 100 times?

12 A Just depends on the asset.

13 Q And that wouldn't make one method of estimated

14 current value superior or inferior to another?

15 A None of the methods are superior or inferior to

16 another. They are all available to a preparer.

17 Q And they could each individually yield wildly

18 different values, correct?

19 A When comparing them to each other, yes.

20 Q And it wouldn't be wrong to select one value over

21 another, correct?

22 THE COURT: Asked and answered five times. But

23 he can answer it.

24 A There is no right or wrong answer. It is a judgment

25 call.

Flemmons - by Defendant - Direct(Suarez) Page 4277

1 Q So even though the values derived from the various

2 methods are very different or could be very different, would

3 using any one of these numbers comply with ASC 274?

4 A Yes.

5 Q And even though the values derived from the various

6 methods could be very different, would using any one of the

7 different numbers still comply with GAAP?

8 A That's correct ASC 274 is GAAP. So to the extent

9 that GAAP is the selected convention to prepare values for

10 personal financial statements, one would be complying with GAAP

11 if using one of these methods.

12 MR. SUAREZ: I think I am at a good stopping

13 point, Your Honor.

14 THE COURT: With this witness or for lunch?

15 MR. SUAREZ: For lunch.

16 THE COURT: That's fine. All right. We will

17 see you all at 2:15 as usual.

18 And I'll direct the witness, please don't

19 discuss the case or your testimony or anything related to

20 it during the lunch break.

21 (Whereupon, a luncheon recess was taken at this

22 time.)

23 (The following proceedings were stenographically

24 recorded by Senior Court Reporter Michael Ranita.)

25

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4278

1 * * * * *

2 A F T E R N O O N S E S S I O N

3 * * * * *

4 THE COURT OFFICER: All rise. Part 37 is back in

5 session. The Honorable Judge Arthur Engoron presiding.

6 Please be seated and come to order.

7 THE COURT: Can we get the same witness back up on

8 the stand, right?

9 (Whereupon, the witness stepped into the witness

10 stand.)

11 MR. SUAREZ: Yes, your Honor.

12 THE COURT: Everyone, sorry for the delay. Work

13 was being done.

14 Mr. Suarez, whenever you are ready.

15 MR. SUAREZ: Thank you.

16 Q Returning to page 14 of Defendant's Exhibit D-27.

17 (Whereupon, the exhibit was displayed on the

18 screen.)

19 Q Mr. Flemmons, with respect to planned courses of

20 action, what preconditions must exist in order for a planned

21 course of action to be appropriately assessed under estimated

22 current value?

23 A Well, the standard doesn't get into that level of

24 detail on preconditions. Um, to the extent this section, or

25 this method of ASC-274 is used, planned courses of action could

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4279

1 be a wide range of action that are anticipated by the preparer

2 of the financial statements.

3 Q Can you describe the range?

4 A Well, it's very open-ended. It could be anticipated

5 sale of property, it could be anticipated construction of

6 property, um, anticipated obtaining of permits. Um, it could be

7 a whole host of things.

8 Q Are hypothetical conditions allowed to be factored in

9 to a planned course of the action under this section of

10 estimated current value?

11 A Well, hypothetical actions that are planned and

12 intended, there is certainly a hypothetical aspect to the

13 standard that is embedded, but it does also relate to what needs

14 to be done in order to carry out the courses of action that are

15 intended by the preparer.

16 Q How is the concept of "current" in the term "estimated

17 current value" consistent with things that will happen in the

18 future?

19 A Well, it's because the things that happen in the future

20 may create value currently, depending on what those things in

21 the future are, depending on the nature of the asset. As I said

22 earlier, if we are talking about my home, my home doesn't really

23 have a lot of future value because it's not an income producing

24 asset, and would be based on the market conditions as of today.

25 However, an asset that is revenue generating, um, you

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4280

1 have to look to the future, or you can look to the future under
2 this particular prong and use those estimates for future cash
3 receipts or income to develop what the current value is now,
4 because that current value is, in many ways, dependent on what
5 happens in the future.

6 Q How is estimated current value different than the
7 concept of historical costs under GAAP?

8 A Well, one of the methods that can be used under ASC-274
9 is a cost-based method that can be adjusted depending on
10 different factors. Um, business historical cost is used for the
11 accounting for other types of assets, such as inventory would be
12 a historical cost, and that is typically used for an entity
13 financial statements under other aspects of GAAP, but there is a
14 cost option for ASC-274 as well.

15 Q How is estimated current value different than net
16 realizable value?

17 A Net realizable value is a method that is used for
18 accounting for accounts receivable. And "accounts receivable"
19 is, again, something that could be on the financials of
20 personal financial statements, but you would still use estimated
21 current value, not realizable value; that is relevant for the
22 accounting for the receivables for an entity. And there is a
23 separate set of GAAP requirements surrounding that.

24 Q How is estimated current value different than amortized
25 costs?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4281

1 A So "amortized costs" would be, for example, certain
2 kinds of investments, that would be another kind of asset on
3 entities, financial statements, such as a bond that might be
4 reported, you know, based on amortizing the cost of that
5 particular asset over the duration -- over the term of the
6 investment. Um, that is very different than estimated current
7 value, which does not contemplate amortized costs.

8 Q Where else, if at all, in the accounting literature
9 does the concept of estimated current value appear, besides the
10 context of personal financial statements?

11 A Nowhere. It's a very unique set of standards that
12 applies only to the preparation of personal financial
13 statements. There are hundreds of other standards that have
14 been developed over the course of time, um, by various standard
15 setters that have made their way into the Accounting Standards
16 Codification. And there are dozens of other standards that
17 pertain to the accounting for entities, but this is the only
18 standard that pertains to personal financial statements.

19 Q What professional standards apply to accountants
20 performing a compilation engagement?

21 A So the AICPA, many, many years ago, issued what is
22 referred to as the Statement on Standards For Accounting and
23 Review Services, also referred to as SSARS, S-S-A-R-S. And
24 those are the standards that accountants are held to when
25 performing compilation -- compilations. The AICPA re-codified

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4282

1 the SSARS into what is referred to as AR-80, which stands for
2 Accounting and Review 80. And those were later clarified into
3 what's known as AR-C80. The standards between -- comparing
4 AR-80 to AR-80(sic), they are largely unchanged with regard to
5 compilations. Um, and comparing AR-80 to the original SSARS 19,
6 that was really a cut and paste from that old standard to AR-80.

7 MR. SUAREZ: If we could pull up our demonstrative
8 Exhibit 3.
9 (Whereupon, the exhibit was displayed on the
10 screen.)

11 Q Mr. Flemmons, do you recognize this image?
12 A Yes. This was a diagram that I included in one of my
13 expert reports.

14 Q And what does this diagram represent?
15 A So this was to show an illustration of the range of
16 services that an accountant can perform, ranging from
17 bookkeeping services, at the very bottom of the screen, all the
18 way to an audit. And there are varying responsibilities that
19 are attached to an accountant's role for each of these items.
20 And compilation, as we've been talking about, is in the middle
21 there.

22 Only two of them are referred to as "assurance
23 engagements." That would be an audit and review. And for each
24 of those, the standards would say that an auditor is providing
25 some level of assurance for an auditor's providing reasonable

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4283

1 assurance that financial statements are fairly stated under a
2 review. It's more limited, or negative assurance, which would
3 be that an auditor or an accountant would be reporting as to
4 whether or not material modifications exist within the financial
5 statements under review.

6 Um, and compilation and a preparation and bookkeeping
7 services are not assurance engagements. And there are different
8 standards and responsibilities that are attached to each of
9 these types of engagements.

10 Q What are the standards and responsibilities that are
11 attached to a compilation engagement?
12 A It's AR-80 for the 2016 and prior time frame, and it's
13 AR-C80 from 2016 forward.

14 Q What does it mean that a compilation engagement does
15 not provide assurance services?
16 A Well, it means that an auditor is not issuing an
17 opinion as to whether the financials are fairly stated, or as I
18 said with the review, whether there is a need or that there are,
19 um, material modifications that are required for the financial
20 statements. That said, as part of a compilation, there is a
21 section in the standards that layout what a standard report
22 would look like, because a report is included with compiled
23 financial statements. It just does not contain a,
24 quote/unquote, opinion.

25 But despite not having an opinion, an accountant does

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4284

1 have responsibilities, as part of a compilation, to report any
2 deviations in the accounting with the established, um,
3 convention that is used for that compilation, whether it's GAAP
4 or some other convention.
5 MR. SUAREZ: May we please hand the witness what's
6 been pre-marked as Defendant's 25.
7 (Whereupon, the exhibit was handed to the witness.)
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q Mr. Flemmons, do you recognize this document?
11 A I do.
12 Q Is this AR §80?
13 A It is.
14 Q What are the obligations of the accountant preparing a
15 compilation report that are imposed by AR §80?
16 A Well, the standard goes into quite a few things. The
17 first page that we are showing here is to establish an
18 understanding with the client, which would be entering into an
19 engagement letter with the client to -- outlining the terms
20 associated with that engagement to make it clear what
21 management's responsibility is as opposed to the accountant's
22 responsibility; that's step one.
23 The standard then goes on through multiple pages with
24 different categories and responsibilities that the accountant is
25 responsible for.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4285

1 Q What obligation does the accountant have to understand
2 the industry for which they are providing compilation services?
3 A So that section shows up on page 80.09. Paragraph
4 80.09, there is a section dedicated to that as well. There is a
5 requirement for the accountant to understand the industry in
6 which the client operates and to have the requisite level of
7 knowledge in order to perform the engagement.
8 Q What understanding does the accountant need to develop
9 of the client?
10 A Well, it's an understanding of the client's business,
11 um, an understanding of the principles that are used in order to
12 prepare the financial statements, and an understanding of the
13 industry, itself, that the client operates in.
14 Q What are the requirements imposed by AR §80 on the
15 accountant preparing the compilation report? Stated
16 differently, what must a compilation report include?
17 A So there's another section in here, which I'll direct
18 you to. It starts on paragraph 17 of AR-80, and outlines what
19 the components of the standard report should look like.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 A And that includes how the report is titled to make it
23 clear to a user that the work that the accountant did was a
24 compilation, and actually entitling the report as a compilation
25 report, which is very important, so the user can distinguish

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4286

1 that from the other levels of service that we talked about
2 before, and differentiate a compilation from an audit or review,
3 or something else.
4 And there's also some standard language that's included
5 in paragraph 17 that is required to be in the report, you know,
6 outlining what the responsibility of the accountant is. Um, the
7 accountant needs to sign and date the report, um, you know, all
8 this is in this particular paragraph.
9 Q What obligation does the accountant have to read and
10 understand the supporting data for the compilation?
11 A Well, an accountant performing compilation services is
12 required to read the -- read the financial statements that are
13 being compiled. Um, understand the methods that are being used
14 to develop estimated current values as reported in the financial
15 statements, and also to evaluate the appropriateness of those
16 methods.
17 And to the extent an accountant uncovers or discovers
18 that there's a particular accounting treatment that is
19 contradictory to the established convention, which in this
20 particular case is GAAP, there's a requirement on the accountant
21 to modify the standard report and include reference to those
22 exceptions in the accountant's report.
23 Q What obligation does the accountant have to ensure that
24 the Statements of Financial Condition adequately describes the
25 methods used to achieve estimated current value?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4287

1 A Well, the accountant is using their knowledge of GAAP.
2 They are using their understanding of the methods that are being
3 applied, um, for establishing estimated current value for the
4 assets. Um, there's also a section in the standard that talks
5 about considering, um, the broader range of involvement and
6 experience that an accountant may have with that particular
7 client, even outside of the compilation engagement, whether that
8 be in situations where an accountant is performing audit
9 services, um, or tax services, or other work for the client,
10 that that can't be ignored, that that needs to be considered as
11 part of evaluating the compliance of the accounting for purposes
12 of the personal financial statements.
13 Q What is the accountant's obligation to determine
14 whether the Statements of Financial Condition are prepared in
15 conformity with Generally Accepted Accounting Principles?
16 A Again, the standard talks about the accountant needing
17 to be -- to respond to any kind of obvious misstatements or
18 differences between the accounting that is being provided to
19 them and Generally Accepted Accounting Principles. Um, and in
20 the course of gaining an understanding of estimated current
21 value and evaluating the appropriateness of whether or not a
22 particular method makes sense under the circumstances, that
23 could lead an accountant to, um, conclude that there is a GAAP
24 departure.
25 Q What is required of an accountant if he concludes that

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4288

1 there is a GAAP departure in a Statement of Financial Condition?
2 A Well, there is a section of AR-80 that provides
3 guidance on this question, and it relates to the modification of
4 the standard accountant's report for compilation. Typically the
5 accountant would, as we laid out before, just identify for the
6 client what its responsibilities were, what management's
7 responsibilities were, that it performed a compilation, and
8 that's largely it.
9 If there are GAAP departures that are identified, the
10 accountant is required to modify the report, identify any
11 significant departures from GAAP, and if there are -- if the
12 departures are of such significance that warrants really putting
13 users on notice that there's -- there are, um, that the
14 reliability of the financials may be in question, there is
15 language within the standard that is suggested to accountants to
16 include in the accountant's report.
17 Q Can you please point us to the -- that language in the
18 standard?
19 A Sure.
20 (Whereupon, there is a brief pause in the
21 testimony.)
22 A Actually, I'm not seeing it in this particular
23 standard. It may be in the interpretive standard that relates
24 to AR-80.
25 MR. SUAREZ: Can we please pull up D-836.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4289

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q Do you recognize this document?
4 A I do.
5 Q What is this document?
6 A It's the interpretive guidance that I was just
7 referring to.
8 MR. SUAREZ: Can we zoom in on the paragraph there
9 in the middle -- right there.
10 (Whereupon, the exhibit displayed on the screen was
11 enlarged.)
12 MR. SUAREZ: Yes. That works.
13 Q You see where it says "because the significance."
14 A Yes.
15 Q "Because the significance and pervasiveness of the
16 matters previously discussed makes it difficult to assess their
17 impact on the financial statements as a whole, users of these
18 financial statements should recognize that they might reach
19 different conclusions about the company's financial position,
20 result of operations, and cash flows if they had access to
21 revised financial statements prepared in conformity with
22 accounting principles generally accepted in the United States of
23 America."
24 This refers to the company's financial position. Does
25 this warning also apply to compilation engagements for personal

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4290

1 financial statements?
2 A Yes.
3 Q What is the effect of placing this warning on a
4 compilation report?
5 A Well, it's a big deal. And it's the judgement of the
6 accountant that if they believe that the departures from GAAP
7 are of such significance that warrant including this paragraph
8 in the accountant's report, it really does serve as the highest
9 level warning that an accountant can communicate to a user of
10 the financial statements that have been compiled.
11 THE COURT: Hold on a second. We keep talking
12 about accountant, accountant, accountant. Accountant acting
13 in what capacity, because I think a lot of these people are
14 accountants. The clients internal accountants, and then the
15 compilation accountants, so who whose accountants are we
16 talking about?
17 THE WITNESS: In this case we are talking about the
18 outside accountants that are performing the compilation
19 service.
20 THE COURT: Right. I'm sort of confused here,
21 because -- it's more the questions than the answers.
22 The questions are, what are the obligations of the
23 accountant in -- to the compilation? Well, the accountant
24 is doing the compilation. Obviously the obligation is to do
25 it correctly. Am I missing something?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4291

1 THE WITNESS: So AR-80 is the authoritative
2 standard that pertains to an outside accountant performing
3 those compilation services. And yes, they need to do their
4 job and do it accurately.
5 THE COURT: Okay. I think we've had 20 questions
6 about what is their obligation. The obligation is to do it
7 accurately. Is there much more to say than obligation,
8 accurate, following GAAP, et cetera?
9 THE WITNESS: Let me distinguish then. So, a
10 compilation is very different from saying an audit.
11 THE COURT: Right. Understood.
12 THE WITNESS: And auditor needs to do it
13 accurately, too. Doing it accurately under an audit is
14 different then doing it accurately in a compilation. And
15 standards that pertain to audit services explain how an
16 accountant goes about doing it accurately, what they are
17 required to do and not do, which is a lot more in terms of
18 audit testing, vouching, inquiry, analytical procedures.
19 There's a lot more in the standards pertaining to an audit.
20 A compilation is less than that, um, but still has
21 certain requirements attached to it.
22 THE COURT: Right. And to hone in on this a bit,
23 you said -- or there was a question, what should the
24 accountant do if they see an error in the compilation? Well
25 the accountant is writing the compilation. You just said we

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4292

1 are talking about the accountant that's doing the
 2 compilation. What is their obligation if they see a mistake
 3 in their own work? Presumably, fix it. Again, am I missing
 4 something?
 5 THE WITNESS: Well, to be clear, a compilation
 6 entails obtaining the accounting information from a company.
 7 THE COURT: Raw data sort of?
 8 THE WITNESS: I'm sorry?
 9 THE COURT: Can we call that raw data? The
 10 compiler takes raw data from the client.
 11 THE WITNESS: I would say it's refined data.
 12 THE COURT: Okay, okay. Takes refined data and
 13 puts it in a certain format, that, say banks could look at
 14 and say, oh, yeah, this is one of those Statements of
 15 Financial Condition.
 16 MR. SUAREZ: That's precisely the point of the
 17 questions, your Honor. It's not that we are putting it in
 18 the right format. It's that the accounting firm has
 19 obligations and rules that it must follow in order to
 20 prepare a compilation report. It's not just a formatting
 21 exercise.
 22 What the witness is explaining for the benefit of
 23 the Court and the record is the process by which the
 24 compilation report is prepared based on the data that's
 25 provided from the client. It's not simply a formatting

Page 4294

1 statements are issued. And it's okay to issue financials that
 2 are not compliant with GAAP under these standards.

1 exercise.
 2 THE COURT: Oh, okay. Go ahead.
 3 Q A Statement of Financial Condition that has departures
 4 from GAAP is still in compliance with GAAP; correct?
 5 A I wouldn't say that a Statement of Financial Condition
 6 that is prepared under GAAP and has GAAP deviations is still in
 7 compliance with GAAP. What I would say is that issuing those
 8 financial statements and identifying those differences with
 9 GAAP, either in the financial statements themselves or in the
 10 accountant's report, um, would still be a set of financial
 11 statements that would be issued to users.
 12 The accounting system is set up such that you are
 13 allowed and -- to issue financial statements whether or not they
 14 contain GAAP departures, and there are different reporting
 15 mechanisms in place to communicate to the users of the financial
 16 statements when that happens.
 17 If there are no discrepancies with GAAP, if it were an
 18 audit, an accountant would issue what is known as unqualified
 19 opinion saying these financial statements are fairly stated in
 20 all material respects.
 21 Alternatively, if an auditor determined that there were
 22 departures from GAAP, an accountant could then issue a report
 23 that is known as an adverse report that would say these
 24 financials do not comport with GAAP.
 25 Um, importantly, under both scenarios, the financial

Flemmons - by Defendant - Direct(Suarez) Page 4295

1 Q Why is it okay to issue financial statements that
 2 aren't compliant with GAAP under these standards?
 3 A Because the accounting system is set up that way.
 4 And the accounting standards and these compilation standards we
 5 have been talking about provide guidance on how to go about
 6 doing that when financial statements are issued that contain
 7 GAAP deviations.
 8 Q Do the accounting standards provide another form of
 9 disclaimer or disclosure that can be placed in a compilation
 10 report if there are -- if there is a greater level of departure
 11 from GAAP than this?
 12 A No. This is the highest level language that the
 13 standards would suggest be included in an accountant's report
 14 when there are deviations from GAAP.
 15 Q And if the departures or deviations from GAAP are so
 16 significant that this language was insufficient to address
 17 them, what responsibility would the accountant have?
 18 A Well the responsibility would be for the accountant
 19 to identify what those departures on in its accountant's report
 20 that are attached to the financial statements and to also
 21 include this language if they rose to such a pervasive level.
 22 Q And there would be nothing wrong with issuing those
 23 Statements of Financial Condition so long as the departures
 24 were noted, correct?
 25 A That's correct, that's the very reason why this

Flemmons - by Defendant - Direct(Suarez) Page 4296

1 guidance exists, to allow for such financials to be
2 disseminated with this language.
3 Q If we pull up Defendant's Exhibit 26, can you please
4 identify this document?
5 A This is AR-C 80 which is the clarified standard that
6 applied to compilations that became effective around 2016.
7 Q And how did ARC section 80-A change the standard that
8 we were previously discussing AR section 80?
9 A There were very, very minor changes. It was largely
10 unchanged from AR-C 80.
11 Q What are the responsibilities of the person --
12 withdrawn.
13 What are the responsibilities of the party preparing
14 the Statement of Financial Condition that is being compiled?
15 A If we are talking about the accountant, the outside
16 accountant that would be preparing the financials or compiling
17 the financials, that's -- we need to distinguish a compilation
18 from preparation, because those are two separate engagements.
19 A compilation and a preparation do have similarities in that
20 you are preparing the financials. But in a compilation you are
21 typically issuing a report, and we have talked about the
22 reporting standards. But in terms of the responsibilities, and
23 we have touched on some of this already, it would be obtaining
24 the refined data from the client that could take many forms.
25 It could be in the form of a spreadsheet that the clients put

Flemmons - by Defendant - Direct(Suarez) Page 4297

1 together. It could be, you know, various backup materials and
2 supporting worksheets and calculations that relate to that as
3 well. But all of that is going to the accountant who is going
4 to review it. And then there is a responsibility to then put
5 that into a financial statement format. But in doing so, as we
6 said before, the accountant needs to understand the methods
7 that are being used, assess the appropriateness of those
8 methods. Be on the lookout, you know, for any GAAP
9 discrepancies. And respond to those GAAP discrepancies by
10 raising them with the client, seeking additional information
11 where appropriate to try to resolve those discrepancies, or if
12 the discrepancies aren't resolved, report them in the
13 accountant's report and consider including the highly
14 cautionary language that we just referred to.
15 Q And the highly cautionary language that we just
16 referred to, under AR section 980.03. Was that language
17 present in a substantially similar form on the compilation
18 reports issued by Mazars for Donald J. Trump Statements of
19 Financial Condition from the year 2011 to the year 2020?
20 A Yes.
21 Q And what is the import of that disclaimer language
22 being present in the compilation reports for those Statements
23 of Financial Condition?
24 A Well, it is akin to an adverse opinion in an audit.
25 It is putting the user on notice that there are significant

Flemmons - by Defendant - Direct(Suarez) Page 4298

1 GAAP discrepancies and effectively saying, user beware.
2 Q And if there are significant -- so significant GAAP
3 departures that user must beware, why would the accounting firm
4 nonetheless issue the compilation report?
5 A Well, because they are allowed to. You don't have to
6 resolve the GAAP discrepancies and make them conform with GAAP
7 before issuing the financial statements. The accounting system
8 in the United States of America allows you to issue financials
9 that are not GAAP compliant, as long as the discrepancies or
10 the deviations are disclosed. And the accountant's report
11 contains the correct language to identify to the user that
12 those differences exist.
13 MR. SUAREZ: Please pull up D 950. This has
14 been premarked.
15 Q Mr. Flemmons, do you recognize this document?
16 A I do.
17 Q What is this document?
18 A This is an audit and accounting guide that was issued
19 by the AICPA, and it provides guidance to practitioners
20 performing services related to personal financial statements;
21 and assists accountants performing those services in applying
22 the relevant standards for those engagements.
23 Q Do you see at the top where it says American
24 Institute of Certified Public Accountants Historical
25 Collection?

Flemmons - by Defendant - Direct(Suarez) Page 4299

1 A I do.
2 Q And do you see that it says: Personal financial
3 statements guide with conforming changes as of May 1, 2008
4 audit and accounting guide?
5 A I do.
6 Q Now, this document predates the effectiveness of AR
7 section 80 and AR-C section 88, correct?
8 A Yes.
9 MR. SUAREZ: If we can turn to the following
10 page.
11 Q What is this document -- this guide? I am sorry.
12 A This looks to be the original version of this guide
13 prior to it being updated with the conforming changes that we
14 just saw in the title.
15 Q Is this guide still useful to accountants preparing
16 compilation reports?
17 A Yes, it still very applicable guidance that the AICPA
18 has issued and has made available to practitioners in the
19 space. There are, you know, standards that apply, you know, to
20 preparing or to performing either compilations or audits or
21 reviews of personal financial statements, and those reside
22 elsewhere. This guide was intended to provide interpretive
23 guidance to assist practitioners in applying those standards on
24 those kind of engagements. And you can see the thickness of
25 it, it provides a lot more detail than the standards

Flemmons - by Defendant - Direct(Suarez) Page 4300

1 themselves.
2 MR. SUAREZ: You can turn to page five of the
3 guide. On page 17 of the exhibit.
4 Q Do you see the section where it says use of estimated
5 current values and amounts?
6 A Mm-Hm yes.
7 Q Could you please walk us through this section and
8 explain why it is still valid illustrative guidance,
9 notwithstanding the codification of the standards in 2009 and
10 thereafter?
11 MR. WALLACE: Objection to relevance. I don't
12 know why we are trying to rehabilitate standards that are
13 out of date. I know why they are doing it, because they
14 spent a lot of time asking Mr. Bender about these points
15 that are no longer active guidance at the time, the times
16 at issue in this case. But at this point, I don't know we
17 have asked more than maybe one question about the actual
18 facts of the preparation of the Statements of Financial
19 Condition. So can we get some showing of how this is
20 relevant to anything that is to be decided in this case?
21 MR. KISE: I mean I certainly think it is
22 relevant to our overall presentation about what the
23 accounting firm was responsible for and what we were
24 responsible for; whether management reasonably relied on
25 the accounting firm; what the standards were in

Flemmons - by Defendant - Direct(Suarez) Page 4301

1 preparation. Mr. Bender --
2 Do we want to do this without the witness,
3 Judge? I'll be brief.
4 MR. WALLACE: He is an expert witness, he should
5 have looked at Mr. Bender's testimony anyway.
6 MR. KISE: That's true. Fair point.
7 Mr. Bender all but testified that all I had to
8 do is take the data and plug it into the boxes and I am
9 done. So we are pointing out that there is a more
10 deliberative exercise associated with that. He had
11 certain responsibilities. The client had certain
12 responsibilities. And we are just exploring that because
13 it is relevant to the Court's consideration, certainly of
14 intent, if not materiality and some of the other issues.
15 So we are going through it. I mean, we can perhaps move
16 through it a little quicker, but it is -- it is just dense
17 material. It is why after I got my accounting degree I
18 decided to go to law school instead of take the CPA exam,
19 because that's really hard what they do.
20 THE COURT: Is the main point of the objection
21 that it is outdated.
22 MR. WALLACE: My objection is not to this line
23 of questioning. My objection is the line of questioning
24 being the out of date guidance that we are going through
25 right now from 2008.

Flemmons - by Defendant - Direct(Suarez) Page 4302

1 MR. SUAREZ: I believe the witness testified it
2 is not out dated, and there is nothing to the contrary
3 that it is.
4 MR. WALLACE: He said it might be useful. This
5 is not -- this was not current at the time. There should
6 be some showing of how this is relevant to what we are --
7 what actually happened between 2011 and 2021.
8 THE COURT: When was this supplanted, replaced,
9 updated?
10 THE WITNESS: There were some changes that were
11 made in 2008, about a year after that is when the
12 codification came into effect for the accounting
13 standards. But I want to make sure we are clear here,
14 this did not go out of commission. This was still
15 reference material that the AICPA has maintained for
16 its --
17 THE COURT: Let's save time. Overruled.
18 Go ahead.
19 Q If we could turn to 1.21.
20 It says: In determining the estimated current values
21 of some assets (for example: Works of art, jewelry, restricted
22 securities, investments and closely held businesses and real
23 estate) the accountant may need to consult a specialist.
24 Examples of the types of matters that the practitioner may
25 decide require him or her to consider using the work of a

Flemmons - by Defendant - Direct(Suarez) Page 4303

1 specialist include:
2 The materiality of the item with respect to the
3 individual's financial condition.
4 The nature of the financial statement item.
5 And the date of any previous estimate involving the
6 use of a specialist, the extent of changes in the circumstances
7 since that date, and the method of updating the estimate if
8 appropriate.
9 Now, I believe there has been testimony at trial, or
10 a suggestion by the Attorney General, that the preparation of a
11 Statement of Financial Condition compilation report is just an
12 exercise in formatting. How is that consistent with the
13 obligation of the accountant in determining estimated current
14 value?
15 MR. WALLACE: Objection, leading.
16 THE COURT: Overruled.
17 A Well, as this guidance suggests, there are
18 circumstances in which an accountant performing any kind of
19 service, whether it be an audit or review or compilation, you
20 know, could retain a specialist to assist. And this is what
21 this guidance is providing. It is more common to see that
22 situation occur in an audit and less common to see it in a
23 review or compilation. This particular section is more of the
24 general overview of an accountant's responsibilities and
25 considerations for all kinds of engagements related to personal

<p>Flemmons - by Defendant - Direct(Suarez) Page 4304</p> <p>1 financial statements. This is not specific to an audit review 2 or compilation, but it is this overarching umbrella that does 3 layout that there are times when an accountant may want to 4 retain a specialist under certain circumstances to assist with 5 the evaluation or the determination of estimated current value. 6 THE COURT: Mr. Suarez, was a specialist ever 7 used, to the extent that we know what went on here? 8 MR. SUAREZ: We certainly have conflicting 9 testimony from the Mr. Bender as to whether he actually 10 consulted with an expert. But these would be the 11 obligations of the accounting firm in determining what to 12 do to assist its client in establishing the validity of a 13 method for estimated current value. 14 And I can move on. 15 THE COURT: Okay. 16 MR. SUAREZ: I can move on to the specific 17 sections on the compilation of personal financial 18 statements which appear at page 21 of the PDF. 19 THE COURT: Five minute warning. 20 Q If I can focus your attention on the minimum 21 understanding that the required -- that the accountant must an 22 acquire at section 2.03, where it says: At a minimum, however, 23 the accountant should obtain an understanding of the methods by 24 which the individual determined the estimated current values of 25 significant assets and the estimated current amounts of</p>	<p>Flemmons - by Defendant - Direct(Suarez) Page 4306</p> <p>1 underscores that point and also provides some examples of the 2 type of deviations that may arise during that engagement. 3 Q Would it be best guidance for -- withdrawn. 4 What does this section -- what is the import of this 5 section with respect to the last bullet point that says 6 presentation of an asset or liability at an obviously 7 inappropriate value or amount. What does that suggest to the 8 accountant preparing a compilation of a personal financial 9 statement? 10 A Well, that bullet point is very consistent with the 11 standard AR 80, which requires an accountant performing 12 compilation services to respond to obvious misstatements from 13 GAAP or the convention being used in that engagement. And this 14 is taking that to another level saying that in this particular 15 example the obvious misstatement would be an instance where the 16 reported value is obviously inappropriate. And there are other 17 examples as well. 18 Q And what would be required of an accountant if he 19 determined that an asset or liability was presented at an 20 obviously inappropriate value or amount when preparing a 21 compilation for a personal financial statement? 22 A It would be based on their understanding of GAAP, it 23 would be based on their understanding of the method used to 24 value a particular asset or liability. And whether or not that 25 method is appropriate under the circumstances for that asset or</p>
<p>Flemmons - by Defendant - Direct(Suarez) Page 4305</p> <p>1 significant liabilities and consider whether those methods are 2 appropriate in light of the nature of each asset or liability. 3 Do you see that? 4 A I do. 5 Q Is that an exercise that Mazars would have been 6 required to undertake when compiling the Statements of 7 Financial Condition for President Trump? 8 A They were certainly subject to this guidance that was 9 provided to them. And this was -- this entire document is 10 reflective of industry practice and best industry practice in 11 performing services related to personal financial statements. 12 Q And certainly the same would apply to Whitley Penn 13 when they prepared the compilation, correct? 14 A Correct. 15 Q And if we can move on to 2.05 on the following page. 16 I would like to draw your attention to the obligation 17 of the accountant with respect to or that this guidance 18 provides for determining misstatements that might occur 19 personal financial statements prepared in conformity with GAAP. 20 How would this guidance instruct an accountant in 21 their compilation of a personal financial statement? 22 A Well, this touches on the topic we have discussed 23 before where an accountant performing a compilation service 24 needs to respond to deviations from GAAP that are identified as 25 part of performing that service. And this particular paragraph</p>	<p>Flemmons - by Defendant - Direct(Suarez) Page 4307</p> <p>1 liability. 2 MR. SUAREZ: I am done with this exhibit. We 3 can put it down. 4 THE COURT: All right. So let's take a 5 14-minute break. Be back here at a quarter to 4:00. 6 (Pause in the proceeding.) 7 COURT OFFICER: All rise. 8 Part 37 is back in session. 9 Please be seated and come to order. 10 THE COURT: The witness back in the box. 11 (The witness resumed the stand.) 12 THE COURT: Let's resume. Next question. 13 Please continue. 14 MR. SUAREZ: Your Honor, I recognize some of 15 this is dense and I appreciate the court bearing with me. 16 THE COURT: I am sorry, we didn't hear that. 17 MR. SUAREZ: I said, I recognize that some of 18 this is dense and I appreciate Your Honor staying engaged 19 with me throughout the questions. 20 THE COURT: I took accounting 101 in law school, 21 so I am able to follow. 22 Q Mr. Flemmons, do you recognize the diagram up on the 23 screen? 24 A Yes, I do. 25 Q We marked this as our second demonstrative exhibit.</p>

Flemmons - by Defendant - Direct(Suarez) Page 4308

1 Did you prepare this diagram?
2 A Yes.
3 Q What does this diagram represent?
4 A I am actually kind of proud of this diagram, because
5 it captures a lot of what we talked about so far. It is,
6 speaking of dense, it does have a lot going on. But let me
7 explain what this is intended to communicate.
8 So, we have talked about earlier the different kinds
9 of reports that an accountant can issue, which are at the very
10 top of this chart. A report by an external accountant can be
11 an adverse report, which would be communicating to a user that
12 there are GAAP deviations, exceptions.
13 There is also what is known as a qualified report,
14 which would include, for example, this would be really relevant
15 to an audit where an auditor would say that the financial
16 statements comply with GAAP, except for certain things.
17 Not near as extreme as an adverse opinion where an
18 accountant would be saying these financials do not comport with
19 GAAP as a whole.
20 And then the far right, unqualified, is the situation
21 where in the case of an audit, an auditor would issue a clean
22 opinion saying that financials are GAAP compliant in all
23 material respects.
24 And obviously the closer you get to the right from an
25 adverse to an unqualified opinion, that gives a user higher

Flemmons - by Defendant - Direct(Suarez) Page 4309

1 confidence, which is denoted there in the top right corner of
2 the diagram.
3 On the left side I have laid out the three different
4 kinds of engagements that an accountant typically performs.
5 There are a couple of others that we have talked about that are
6 preparation and bookkeeping services, but for simplicity I have
7 included just the audit review and compilation services on this
8 diagram.
9 And by their very nature, an audit provides more
10 assurance, you know, to a user than a review. And a
11 compilation provides even less, because a compilation is not an
12 assurance engagement, as we have talked about before.
13 So, this is intended to show you that as you move
14 from the bottom left corner of the diagram to the top right
15 corner of the diagram, you are giving a user much more
16 assurance and much more confidence because of the fact that
17 there are fewer, if not none, GAAP exceptions.
18 And you have also, as you get to the top right
19 corner, are getting to the point of issuing an audit opinion,
20 which is inherently much more involved in terms of what an
21 accountant does and the types of testing procedures that an
22 accountant performs.
23 So, the checkmark here is to show that out of all of
24 these different iterations and the services that an accountant
25 could perform and the types of reports that could be issued

Flemmons - by Defendant - Direct(Suarez) Page 4310

1 relevant to this case, we are in the bottom left corner,
2 because we are in the land of compilations and we are in the
3 land of where the accountant has identified in its accountant's
4 report a number of pervasive deviations from GAAP and included
5 that "user beware" language that I discussed before.
6 MR. SUAREZ: If we can please pull up, already
7 in evidence, Plaintiff's Exhibit 785?
8 (Handing)
9 Q Mr. Flemmons, do you recognize Plaintiff's 785?
10 A Yes.
11 Q What is this document?
12 A This is the engagement letter that was entered into
13 between Mazars and Mr. Trump to perform the compilation
14 services on his personal financial statements.
15 Q And that says of the year ending June 30, 2011?
16 A Yes for the 2011 time period, correct.
17 Q Who drafts the engagement letter?
18 A The accountant in this case, Mazars, would typically
19 prepare this document.
20 Q And the document is addressed to Allen Weisselberg;
21 is that right?
22 A Correct.
23 Q Is Allen Weisselberg a certificated public
24 accountant?
25 A That's not my understanding. I don't believe he is.

Flemmons - by Defendant - Direct(Suarez) Page 4311

1 Q On the second page there are five enumerated
2 departures from generally accepted accounting principles. Do
3 you see that on the page?
4 A I do.
5 Q How would the accounting firm know to include these
6 five departures when it prepares its engagement letter?
7 A Well, they would identify these items during the
8 course of performing the compilation, reviewing supporting
9 materials that are feeding in to the preparation of the
10 personal financial statements, and during the course of
11 understanding the methods that are used for valuation or other
12 issues that extend beyond valuations. For example, one of the
13 items on here relates to tax provision, but it would be in the
14 course of performing those services that we have gone over
15 earlier today.
16 MR. WALLACE: Your Honor, I want to note an
17 objection. Can we get a clarification if the witness is
18 talking about what actually happened in the preparation of
19 this engagement letter or if he is talking about general
20 industry practice?
21 THE COURT: Well, basically sustained. I think
22 we need to know those things.
23 MR. SUAREZ: Sure.
24 Q Are you aware of how Mazars would have known -- let
25 me withdraw that.

<p>Flemmons - by Defendant - Direct(Suarez) Page 4312</p> <p>1 You have become familiar -- have you become familiar 2 with the work that Mazars did on the compilation engagements 3 for the Statement of Financial Condition for President Trump 4 from 2011 to 2020? 5 A I have based on reading Mr. Bender's deposition and 6 in reading his trial testimony. 7 Q Have you also reviewed the trial testimony of 8 Mr. Kelly? 9 A I have. 10 Q Have you reviewed the supporting data to the 11 Statement of Financial Condition? 12 A I have. 13 Q Have you reviewed each of the Statements of Financial 14 Condition for the years 2011 to 2021? 15 A Yes. 16 Q And you would agree with me that the ones that were 17 done between 2020 and -- I am sorry 2011 and 2020, those are 18 compilation engagements by Mazars? 19 A Correct. 20 Q And those -- the one done in 2021 was done by Whitley 21 Penn? 22 A That's right. 23 Q Now, in reviewing the record in this case, are you 24 familiar with the work that Mazars performed for the Trump 25 Organization?</p>	<p>J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4314</p> <p>1 Q Does this disclaimer reflect a departure from Generally 2 Accepted Accounting Principles? 3 A Yes. So this is the disclaimer section, and this is 4 the first of several that are in this letter. The first 5 sentence is establishing that estimated current value should be 6 used to report assets and liabilities. 7 The next sentence indicates that -- that in instances 8 that the way that the values are reported were not compliant 9 with estimated current value. 10 Q In what ways were the values that were reported not 11 compliant with the definition of estimated current value? 12 A Well, I would just be repeating what this says. It 13 says that some of the values will be based on future interests 14 and that in some instances are not for fixed or determinable 15 amounts or based on performance of future services. 16 Q That discloses a departure from what is required under 17 GAAP; correct? 18 A Mazars determined that these were deviations from GAAP. 19 Q But Mazars was still able to issue a compilation report 20 on that Statement of Financial Condition? 21 A That's correct. 22 Q The second departure, what does the second departure 23 address? 24 (Whereupon, the exhibit was displayed on the 25 screen.)</p>
<p>Flemmons - by Defendant - Direct(Suarez) Page 4313</p> <p>1 A I am familiar with the materials that they were 2 provided to conduct their compilation. I have reviewed those 3 materials. I cited many of them in my expert reports. And I 4 have reviewed many of them in preparation for today's 5 testimony. 6 Q Are you aware of the nature of the engagement between 7 Mazars and the Trump Organization, generally? 8 A Yes, in that it was a compilation engagement. 9 Q Are you aware of other engagements that Mazars 10 performed for the Trump Organization? 11 A Yes, I am aware that they performed audit and tax 12 services in addition to performing these compilation services. 13 Q And what knowledge do you have regarding the 14 historical knowledge that Mazars had with the Trump 15 Organization's books and records? 16 A Only what I have read in transcripts. 17 Q The first disclaimer that is placed here on this 18 engagement letter, what is this disclaimer intended to cover? 19 A Well, it is establishing from the outset that 20 estimated current value is the measure that will be used to 21 report the assets and liabilities on the Statement of Financial 22 Condition. 23 (The following proceedings were stenographically 24 recorded by Senior Court Reporter Michael Ranita.) 25</p>	<p>J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4315</p> <p>1 A So this relates to disclosure of several different 2 items -- I mean, it really does speak for itself in terms of the 3 nature of the exceptions that Mazars had identified. But it 4 relates to the disclosure of several different items. 5 Q And these are departures that Mazars had identified 6 from Generally Accepted Accounting Principles? 7 MR. WALLACE: Objection. Leading. 8 Q Who identified -- 9 THE COURT: Sustained. 10 Q Who identified these departures on the Statement of 11 Financial Condition from Generally Accepted Accounting 12 Principles? 13 A Well, it could've been either Mazars or management. 14 But obviously this is appearing in Mazars's report. It -- it 15 doesn't necessarily mean that Mazars was the one that identified 16 it, but it's being disclosed in their report. 17 Q The third category. 18 (Whereupon, the exhibit was displayed on the 19 screen.) 20 Q Identified here, what does this departure address? 21 A This is addressing the fact that there was a liability 22 related to membership deposits that had been, um, incurred by 23 the -- by Mr. Trump, but that liability was not being reported 24 on the Statement of Financial Condition. And that would be 25 inconsistent with GAAP, therefore, giving rise to this</p>

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4316

1 additional deviation.
2 Q And would there be anything wrong with issuing a
3 Statement of Financial Condition that had this deviation?
4 A Not at all.
5 Q With respect to the fourth.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q Departure from GAAP, what is this departure from GAAP
9 intending to cover?
10 A This is what I was referring to earlier about under
11 GAAP. Financial statements are required to have a provision for
12 income taxes. Mr. Trump's Statement of Financial Condition did
13 not contain that line item, and therefore, that lead to this
14 disclosure by Mazars to flag that for the users.
15 Q And would there be anything wrong with issuing a
16 Statement of Financial Condition that had this departure from
17 GAAP?
18 A Not under the applicable standards, no.
19 Q Would the same be true of the first and second
20 departure?
21 A Correct.
22 Q The fifth departure?
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q What does this departure address?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4317

1 A This is identifying that there are additional assets
2 and liabilities that Mr. Trump owns or owes, however, those
3 items are not included in the Statement of Financial Condition.
4 Under GAAP, in order to present complete financial statements,
5 one would include all assets and liabilities, but these are
6 being excluded, and therefore, being disclosed to users that the
7 financial statements that are being provided do not include
8 these items.
9 Q Is it acceptable to issue a Statement of Financial
10 Condition that excludes these assets and liabilities identified
11 in this departure?
12 A Under the relevant professional standards in America,
13 yes.
14 Q Why is that?
15 A Well, we went through earlier the requirements and the
16 reporting aspects of the compilation standards, and there is a
17 whole section dedicated to the situation in which an accountant
18 identifies deviations from GAAP and reports those and includes
19 additional cautionary language if they are pervasive enough.
20 Q And on the next page.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q I believe we see the cautionary language that we
24 discussed earlier; is that correct?
25 A Yes, the second or the first full paragraph, yes.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4318

1 Q Now, if we take a look at the management rep letter for
2 that same year and we pull it up side by side, Plaintiff's
3 Exhibit 786.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 (The exhibit was handed to the witness.)
7 Q Would you agree with me that this is the management
8 representation letter for the June 30, 2011, statement?
9 A Yes.
10 Q Okay. Who prepares the management representation
11 letter?
12 MR. WALLACE: Objection. Again, are we asking
13 about who prepares this letter or who, in general practice,
14 prepares a letter.
15 Q Do you know who prepared this letter?
16 A Well, I could attempt to answer both scenarios.
17 Q Sure.
18 A The standard practice in the industry is that the
19 accountant performing the services will provide the management
20 representation letter to management. Management will then put
21 it on their own letterhead and sign and deliver it back to the
22 accounting firm; that's the general standard practice.
23 Specific to this case, I believe that standard practice
24 was followed based on Mr. Bender's testimony. I believe he
25 testified to that.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4319

1 Q Do you see in the fifth full paragraph where it says in
2 the first line, "The statement referred to above is fairly
3 presented in conformity with accounting principles generally
4 accepted in the United States of America"?
5 A Yes.
6 Q How is that statement that was drafted by Mazars and
7 given to its client to sign consistent with the departures in
8 the engagement letter that predate this letter?
9 A It's obviously not consistent.
10 Q And why is that?
11 A Well, this sentence that we highlighted on the
12 management representation letter indicates that the Statement of
13 Financial Condition is in conformity with GAAP, however, the
14 engagement letter that's on Mazars letterhead, um, identifies
15 multiple instances where the Statement of Financial Condition is
16 not in compliance with GAAP.
17 Q Would it be appropriate for Mazars to draft and provide
18 the Trump Organization a management representation letter that
19 they know is inaccurate?
20 A It doesn't seem appropriate in this case given that
21 there are clearly GAAP deviations that Mazars themselves have
22 reported to the users of the financials.
23 Q Would you expect an accounting firm that provides the
24 draft and management representation letter for its client to
25 sign, to confirm that it's accurate with their understanding of

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4320

1 what's actually being provided?
2 A I would expect that. I will just add one piece, that
3 the management rep letter that was sent is a pretty standard
4 letter in the industry. And again, I don't want to speculate,
5 but it appears to me that Mazars just did not update that
6 standard letter to include the exceptions that were listed in
7 the engagement letter.
8 Q Would it have been appropriate for Mazars to include
9 the exceptions that were in the engagement letter in this
10 management rep letter?
11 MR. WALLACE: Objection. Leading.
12 MR. SUAREZ: I'm trying to move it along.
13 THE COURT: Overruled. But just a read back the
14 question.
15 (Whereupon, the requested question was read back by
16 the court reporter.)
17 A Some sort of modification to the management
18 representation letter, I would have expected to see whether it
19 be by itemizing the exceptions that are listed in the engagement
20 letter, or having some qualified language in the representation
21 letter that says that the financial statements are not in
22 conformity with GAAP.
23 MR. SUAREZ: If we could pull up the engagement
24 letter appearing at Plaintiff's Exhibit 727.
25 (The exhibit was handed to the witness.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4321

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q Do you recognize this letter?
4 A I do.
5 Q Is this a standard form of engagement letter on a
6 compilation engagement?
7 A Yes. This appears to be the standard engagement letter
8 that was used by Mazars for 2015.
9 Q Do you see where it says "compilation objective"?
10 A Yes.
11 Q Do you see where it says, "The objective of a
12 compilation is to assist you in presenting financial information
13 in the form of financial statements"?
14 A Yes.
15 Q The person assisting is the accounting firm; correct?
16 A That's correct. That would be Mazars in this case.
17 Q And if we turn to the second page of this document,
18 there are now six departures that have been identified as
19 departures from general Generally Accepted Accounting
20 Principles; correct?
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 A Yes.
24 Q And is it the case that it was appropriate --
25 withdrawn.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4322

1 Was it appropriate for Mazars to issue a compilation on
2 Statement of Financial Condition that contain six departures
3 from Generally Accepted Accounting Principles?
4 A It was appropriate as long as their report identified
5 the departures in some form or fashion so that users of the
6 financial statements understood that there were such departures.
7 THE COURT: And I'll ask Mr. Suarez to talk a
8 little louder and the witness to be a little closer to the
9 mic, like I'm doing.
10 MR. SUAREZ: And then if we could pull up
11 Plaintiff's Exhibit 728 alongside this one.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 (The exhibit was handed to the witness.)
15 MR. SUAREZ: I have a red light on my mic. I might
16 have exhausted the --
17 (Whereupon, there is a brief pause in the
18 testimony.)
19 MR. SUAREZ: And we are back.
20 THE COURT: Much better.
21 Q And in this instance, how is the -- I'm sorry,
22 Plaintiff's Exhibit 728, which is already in evidence, do you
23 recognize this document?
24 A Yes, it's the management representation letter for the
25 2015 Statement of Financial Condition compilation.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4323

1 Q And how, if at all, is this management rep letter
2 different than the one we saw for the year ending June 30, 2011?
3 A I would need to put them side by side to do a direct
4 comparison, but I believe it's very consistent, if not
5 identical.
6 Q In the instance of the 2015 letter, can you observe
7 here, it says -- it lists out the actual departures from GAAP in
8 the management rep letter.
9 A Yes. And I clarify my prior statement, because
10 obviously this letter contains and delineates the exceptions
11 that were identified by Mazars, whereas the prior letter we saw
12 for the prior time period did not do that.
13 Q This would indicate that Mazars corrected the
14 management rep letter?
15 A Yes. They updated the management rep letter to flag
16 the deviations from Generally Accepted Accounting Principles.
17 Q Would that have corrected the failure to include that
18 letter -- excuse me, would that have corrected the failure to
19 include those departures in 2011?
20 MR. WALLACE: Objection to the characterization of
21 the prior letter.
22 THE COURT: I'm not sure it means to correct it.
23 MR. SUAREZ: Withdrawn.
24 Q You would agree with me that those departures weren't
25 identified in the prior representation letters; correct?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4324

1 A I agree.
2 Q And that in 2016, for the year ending June 30, 2015,
3 Mazars appears to have corrected the management rep letter that
4 it drafted --
5 MR. WALLACE: I'm objecting to the correction.
6 MR. SUAREZ: I haven't even finished.
7 MR. WALLACE: Fine.
8 THE COURT: Mr. Suarez, you are using the same
9 wording, "corrected." Something is incorrect and something
10 is corrected doesn't necessarily correct what's incorrect.
11 It just supplants it with something that is correct,
12 assuming it is.
13 MR. SUAREZ: I think I could use the word revised.
14 Q Revised the letter to include the departures?
15 THE COURT: Not revising it, unless it says this is
16 a revision of the earlier letter. It supplants or replaces.
17 Q Is the form used after, for 2015 and years after,
18 include the departures from GAAP, whereas prior to 2015 it did
19 not?
20 THE COURT: Asked and answered about three times.
21 It does. Okay, you know it does.
22 MR. SUAREZ: Okay. All right. Let's turn to page
23 two of Plaintiff's Exhibit 728?
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4325

1 Q Do you see here in paragraph two where it says "We have
2 made all financial records and related data available to you.
3 We have not knowingly withheld from you any financial records or
4 related data that in our judgment would be relevant to your
5 compilation"?
6 A Yes.
7 Q Would it be relevant to a compilation to provide the
8 account appraisals that were not used in arriving at the
9 estimated current value of an asset?
10 A There would be no obligation or expectation on the part
11 of Mazars, or any accountant performing compilation services, to
12 receive supporting information for amounts that are not
13 reflected on the Statement of Financial Condition.
14 Q If The Trump Organization had an appraisal that it
15 didn't use in determining the estimated current value of an
16 asset, would The Trump Organization have any obligation to
17 provide that to Mazars?
18 A No. There would be no expectation under professional
19 standards in the accounting and auditing industry that that
20 information be provided, um, if it's not something that's being
21 reported in the financial statements for the compilation.
22 Q Are you aware of testimony by Donald Bender that he
23 requested to know about appraisals, even if they weren't used in
24 reaching estimated current values?
25 A I read that in his transcript, yes.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4326

1 Q What is your reaction to that testimony?
2 MR. WALLACE: Objection. I'm not sure, the
3 witness's reaction to testimony?
4 THE COURT: I'll allow it. If it causes a
5 reaction, I want to hear what it is.
6 A Well, it's not something that's required by the
7 professional standards, and therefore, when I read that, my
8 reaction to it was that his testimony was not professionally
9 plausible. It doesn't make any sense that an accountant
10 performing a compilation service would seek information, whether
11 it be appraisals, or other supporting information, or other
12 information, that was not used to support the reported values in
13 the financial statements.
14 MR. WALLACE: I object to this. This is not a
15 proper basis for expert testimony, whether someone's stated
16 factual request is professionally plausible. Is he trying
17 to say the witness is lying?
18 THE COURT: Not to put too fine a point on it.
19 Um, all right. Let's -- Mr. Kise.
20 MR. KISE: Again, I'm not going to violate your
21 rule and say something if you are going to rule our way.
22 You've already told me that. So it took me a while to learn
23 that, but.
24 THE COURT: Better late than never.
25 MR. KISE: Indeed.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4327

1 THE COURT: Yeah, I'm not objecting to --
2 sustaining the objection to the question -- to the answer.
3 I'm not sure it means would not have expected -- can we get
4 a clarification, either another question.
5 MR. SUAREZ: May I ask the witness to explain his
6 answer.
7 THE COURT: Sure. Let's do that.
8 Q Can explain what you mean by "professionally
9 plausible"?
10 A Well, the standards would not require an accountant,
11 particularly performing a compilation, to seek information
12 outside of the population of information used to generate the
13 Statement of Financial Condition. Um, a compilation is, as
14 we've said before, not an assurance engagement. It's a much
15 lighter touch engagement.
16 Um accountants in the industry do not go seeking
17 records in support for things that are not within the four
18 corners of what's to be reported in the Statement of Financial
19 Condition, so that's why my reaction was, I believe that was
20 implausible, because it runs entirely inconsistent with the
21 requirements associated with the compilation.
22 THE COURT: So a compiler is not obligated to know
23 about or ask about any appraisals, but you don't think it's
24 plausible that one would ask, "Hey, do you have an
25 appraisal?"

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4328

1 Is that your professional testimony? It's
2 implausible that the compiler would ask the client if there
3 are any appraisals?
4 THE WITNESS: My testimony is that I think that
5 would be highly unusual, as part of a compilation, to make
6 that inquiry. A compilation does not entail an accountant
7 seeking multiple variations or scenarios for valuations in
8 assisting the client to pick the right one. That's already
9 been done by management. It's been given to the accountant.
10 The accountant then seeks to understand what that method is
11 and whether it comports with GAAP, and not to be part of a
12 selection process. That's not what a compilation entails.
13 THE COURT: Okay. Let's move on.
14 Q What information would you expect a client to provide
15 to the outside accountant in connection with the estimated
16 current value determination made for a particular asset?
17 A I would expect the client to provide the records and
18 support related to amounts to be reported in the Statement of
19 Financial Condition.
20 Q Would you expect the client to provide information that
21 it did not rely on?
22 A No.
23 Q Mr. Flemmons, is it the case that from year to year the
24 manner of -- withdrawn.
25 Mr. Flemmons, is it the case that from year to year the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4329

1 method of determining estimated current value can change?
2 A Yes. ASC-274 states that changes can be made to the
3 methods used when deemed appropriate.
4 Q And in the case of President Trump's Statements of
5 Financial Condition, the ones that are at issue in this case, is
6 it the case that from year to year there were changes to the
7 manner in which estimated current value was determined?
8 A Yes. My recollection is for some assets there were
9 changes in the methodologies.
10 Q Are -- what is the obligation in the Statements of
11 Financial Condition to disclose the change in methodologies, if
12 any?
13 A Well, the obligation is to disclose the methodologies
14 used to determine estimated current value as reflected in the
15 financial statements.
16 Q Is there an obligation -- were President Trump's
17 Statements of Financial Condition comparative?
18 A They were not. And to be clear on what that means, the
19 Statements of Financial Condition only reported the financial
20 condition as of one year and not for multiple years. If they
21 were for multiple years, they would be comparative statements.
22 But these were only for single years.
23 Q And what are the obligations -- withdrawn.
24 How are the obligations for making disclosures
25 different in Statements of Financial Condition that only

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4330

1 disclose a single year as opposed to those that compare year to
2 year?
3 A Well, first of all --
4 THE COURT: Wait, wait. We didn't have any that
5 were multiple year; right?
6 MR. SUAREZ: No.
7 THE COURT: So then why are we talking about what
8 are the obligations if you do it, if they didn't do it.
9 MR. SUAREZ: I'm asking how it's different.
10 Q How is it different when you only have a single year?
11 THE COURT: Plaintiff, do you want to object to
12 that, or not? If you don't, fine, I'll let him answer it.
13 MR. WALLACE: I haven't objected to a lot of things
14 that I don't think are necessary. At this point, I'm happy
15 to let more unnecessary stuff go in.
16 MR. AMER: Why doesn't he ask what the obligations
17 are for the type of financial statements that are at issue
18 in this case?
19 THE COURT: Apparently he doesn't want to. He
20 wants to talk about other obligations.
21 MR. SUAREZ: I want to talk about how they are
22 different. I want to talk about how it's different when you
23 only have a single year as opposed to a Statement of
24 Financial Condition that compares years.
25 A So a couple of responses. One is that under ASC-274,

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4331

1 including multiple years, comparative years of financial
2 results, um, is optional. It's not required. But it is an
3 option that can be done for personal financial statements.
4 There is another section of ASC-274 that talks about
5 disclosure of changes in methodologies. That requirement is
6 only relevant for financial statements that show comparative
7 amounts for multiple years. So you let the user know that for
8 the multiple years that are presented, the methodologies are not
9 the same.
10 But compare that to this case where the Statements of
11 Financial Condition only reflect one year, there is no
12 requirement to disclose to the user that the methodologies used
13 in the one year Statement of Financial Condition was different
14 than the prior year. That can be easily determined by a user by
15 looking at both sets of financial statements and the related
16 disclosures to see that the methodologies were different.
17 THE COURT: Five-minute warning.
18 MR. SUAREZ: You Honor, I'm at a natural breaking
19 point in my outline.
20 THE COURT: How much more do you have to go?
21 MR. SUAREZ: I expect that I'll take the balance of
22 the morning.
23 THE COURT: Three hours?
24 MR. SUAREZ: However much time I get in the
25 morning, yes.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4332

1 THE COURT: Counsel, let's do our scheduling. I'll
2 turn the microphone over to the person sitting next to me --
3 alongside me.
4 MS. FAHERTY: Can you provide an admonition to the
5 witness, your Honor.
6 THE COURT: The witness, Mr. Clemmons -- you spell
7 it different from Mark Twain?
8 THE WITNESS: It's Flemmons, with an F.
9 THE COURT: I had that wrong. I order you not to
10 discuss this case, your testimony, or anything related to
11 it, until you are excused tomorrow.
12 THE WITNESS: Understood.
13 THE COURT: Thank you.
14 (Whereupon, the witness stepped down from the
15 witness stand.)
16 MS. GREENFIELD: So tomorrow, two to three hours
17 more of direct?
18 MR. SUAREZ: I think in the morning I could wrap it
19 up.
20 MS. GREENFIELD: Okay. So that's two, three hours.
21 How much cross do we anticipate?
22 MR. WALLACE: It's still an hour, maybe two.
23 MS. GREENFIELD: Okay. So the next witness, then,
24 after Mr. Flemmons will be Collins; is that correct?
25 MR. SUAREZ: That's correct.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4333

1 MS. GREENFIELD: How many hours do you anticipate?
2 MR. ROBERT: My colleague says two, three hours
3 direct, probably.
4 MS. GREENFIELD: Cross on Collins?
5 MR. WALLACE: I think it will be slim.
6 MS. GREENFIELD: So we might have time for another
7 witness tomorrow. Who is the next one going to be lined up?
8 MR. ROBERT: The next one lined up is Laposa for
9 Thursday, but because of travel issues and another case he
10 is testifying in, he won't be available until Thursday
11 morning.
12 MS. GREENFIELD: There's no one else to do tomorrow
13 afternoon?
14 MR. ROBERT: There isn't. We were able to switch
15 around Friday to put Mr. Giuletta in for Friday. I don't
16 know what your plan is, how much time to cross Laposa.
17 MS. GREENFIELD: How much direct do you have on
18 Laposa.
19 MR. ROBERT: What did he say, probably three, three
20 and a half hours.
21 MR. AMER: Well, that's all of Friday.
22 MR. ROBERT: That's Thursday. Giuletta's direct
23 is about an hour and a half, two hours, three hours.
24 MS. GREENFIELD: So it looks like we'll have time
25 for more than one witness on Thursday. So who is going to

Page 4334

1 be after Laposa on Thursday?
2 MR. ROBERT: At this point we are trying to move
3 things around. We don't have anybody yet because of the
4 fact we expected their crosses to be longer. I can tell you
5 we are trying make sure we have everything filled next week,
6 Monday and Tuesday.
7 MS. GREENFIELD: You'll work tonight on getting
8 somebody else for Thursday and Friday.
9 MR. ROBERT: We'll try, but I can't promise we'll
10 be able to.
11 MS. HABBA: I'm in contact with their attorney.
12 It's somebody who is represented, and we are working with
13 them. We are trying.
14 MS. GREENFIELD: Okay. Hopefully we'll have an
15 update tomorrow.
16 MR. ROBERT: I'm sure we will.
17 THE COURT: Speaking of tomorrow, 10:00?
18 MR. ROBERT: Good.
19 MR. WALLACE: See you then, your Honor.
20 (The case on trial was adjourned to Wednesday,
21 November 15, 2023 at 10:00 a.m.)

 Senior Court Reporters

Page 4337

J. Flemmons - by Defendant - Direct (Mr. Suarez)

1 THE COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent. Laptops and cell
 4 phones will be permitted, but only to members of the press.
 5 There's absolutely no recording or photography of any kind
 6 allowed in the courtroom. Now be seated and come to order.
 7 THE COURT: Unless there's some housekeeping, and
 8 Mr. Suarez is standing at the podium, so I assume he wants
 9 to continue with the direct of Mr. Flemmons; correct?
 10 MR. SUAREZ: Good morning, your Honor.
 11 THE COURT: Good morning. Let's get the witness.
 12 (Whereupon, the witness stepped into the witness
 13 stand.)
 14 THE COURT: Okay. Please proceed.
 15 Q Good morning, Mr. Flemmons.
 16 A Good morning.
 17 Q From at least 2011 to 2021, how many GAAP departures
 18 were disclosed in the Statement of Financial Condition?
 19 A Well, there were many GAAP departures disclosed between
 20 the Statement of Financial Condition and the accountant's
 21 reports.
 22 Q Were the disclosures boilerplate?
 23 A No. There were -- it changed over time, but there were
 24 certainly very specific disclosures about very particular GAAP
 25 exceptions that resided in the Statement of Financial Condition,

Page 4338

J. Flemmons - by Defendant - Direct (Mr. Suarez)

1 and there were disclosures that occurred later in time that
 2 became a little more summarized, but covered a broad landscape
 3 of the assets reported in the Statement of Financial Condition.
 4 MR. SUAREZ: I would like to pull up Plaintiff's
 5 Exhibit 730.
 6 (Whereupon, the exhibit was displayed on the
 7 screen.)
 8 Q Do you recognize this document, Mr. Flemmons?
 9 A Yes. This is the Statement of Financial Condition for
 10 2014.
 11 Q And does this statement include an accountant's
 12 compilation report within it?
 13 MR. SUAREZ: If we could turn to the next page.
 14 (Whereupon, the exhibit was displayed on the
 15 screen.)
 16 A Yes, it does. And it's very standard for the
 17 compilation report to be attached to the financial statements.
 18 Q Must the compilation report and the financial statement
 19 be read together?
 20 A Absolutely. It's widely accepted and implicit in the
 21 accounting and reporting standards that the financial statements
 22 are not to be relied upon in a vacuum, but rather read in
 23 conjunction with any accountant's report, whether it be add
 24 audit, review or a compilation.
 25 The accountant's report is the only mechanism that an

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4339

1 accountant has to report to a user of the financial statements,
2 and to alert them to any potential issues with regard to the
3 presentation of the financials.
4 Q In the 2014 Statement of Financial Condition, how many
5 GAAP departures are identified in the compilation report?
6 A Well, there are quite a few. Um, I would start with
7 the fourth paragraph in the report.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q What is this GAAP departure intended to cover?
11 A Well, this is basically saying that there are GAAP
12 exceptions with how estimated current value was determined for a
13 variety of different assets as discussed in notes 3, 4, 5 and 6.
14 And in totality, when considering which assets were encompassed
15 by those footnote disclosures, that covered 95 percent of the
16 assets for this particular period.
17 Q And what does it mean in a GAAP departure does --
18 excuse me. In a gap disclosure, when it says that "Several of
19 the values have been based on future interests that in some
20 instances are not for fixed or determinable amounts, and in some
21 instances are based on performance of future services."
22 A Well, again, this is a fairly broad disclosure that
23 could cover a variety of different issues with regard to GAAP
24 accounting. I know that one of them, that this addresses -- and
25 this was also consistent with Mr. Bender's deposition testimony,

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4340

1 related to certain assets that were not discounted, even though
2 the future cash flows was used as a basis for determining the
3 estimated current value. Um, but I think there are several
4 other items that would fall under this umbrella.
5 Q All right. Moving onto the next disclosure of a GAAP
6 departure on this compilation report.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 Q What is this disclosure intended to cover?
10 A So this disclosure is basically saying that there are
11 certain disclosures that are required by GAAP with regard to
12 assets and liabilities that were not included within the
13 Statement of Financial Condition, and therefore, constituted a
14 GAAP exception.
15 Q Moving onto the third disclosure.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 Q What does the third disclosure intend to cover?
19 A I believe we touched on this one yesterday. This
20 relates to the accounting for membership deposits that under US
21 GAAP would be reflected as a liability on a Statement of
22 Financial Condition. However, this disclosure indicates to the
23 users that such a liability was not reported and was excluded
24 from the Statement of Financial Condition.
25 Q And is disclosing this departure consistent with the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4341

1 preparer's obligations under GAAP?
2 A Yes.
3 Q Is the fact that this departure exists a reason not to
4 issue the financial statement?
5 A Absolutely not. As we've discussed yesterday, it's --
6 the accounting and reporting regime in the United States is set
7 up such that financial statements can be issued even though they
8 contain GAAP departures, as long as the appropriate language is
9 contained in the accountant's report.
10 Q Moving onto the next disclosure.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q I believe this is the fourth disclosure. What is this
14 disclosure intended to cover?
15 A This is another GAAP exception that relates to the
16 requirement under GAAP to include a provision for income tax,
17 and the Statement of Financial Condition did not contain such a
18 provision. And this language is intended to communicate that
19 excluded item from the Statement of Financial Condition.
20 Q Moving onto the fifth disclosure.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q What is the fifth disclosure intended to cover?
24 A This is related to the requirement under US GAAP to
25 separately report cash and marketable securities. However, the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4342

1 Statement of Financial Condition had lumped the two together
2 into one line item, and this disclosure alerts the user to that
3 presentation.
4 Q Moving onto the sixth disclosure.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q What is the sixth disclosure intended to cover?
8 A This is communicating to the users of the financial
9 statements that there are certain assets and liabilities for
10 certain properties that were not included in the Statement of
11 Financial Condition.
12 Q Is it appropriate to omit assets and liabilities from
13 the Statement of Financial Condition?
14 A In order for the financial -- the Statement of
15 Financial Condition to be comprehensive and reflect all of the
16 assets and liabilities of Mr. Trump, under GAAP, those items
17 would have been included in the Statement of Financial
18 Condition, but this disclosure is telling the -- the user that
19 those items are not included.
20 Q With the disclosure is it appropriate to issue the
21 Statement of Financial Condition?
22 A Yes.
23 Q All right. Moving onto the asset sheet.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4343

1 Q What do you mean when you say that 95 percent of the
2 assets are covered by a GAAP disclosure?
3 A So as we saw on the accountant's report, there is
4 disclosure as to deviations from GAAP and how estimated current
5 value was determined. And that it's in paragraph four of the
6 accountant's report. And it references notes 3, 4, 5 and 6.
7 And notes three -- or note three corresponds to real and
8 operating properties, which is the third category on the asset
9 statement.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q And that covers everything from Trump Tower through
13 properties under development?
14 A Correct. Note four covers partnerships and joint
15 ventures, which is the next category on the Statement of
16 Financial Condition. Note five covers real estate licensing
17 developments. And note six covers other assets.
18 So when you tally up all of the amounts reflected in
19 the Statement of Financial Condition for those categories, that
20 reflects 95 percent of the total assets.
21 Q Now, in preparing the account and compilation report,
22 would Mazars have to take into consideration knowledge that it
23 obtains in other engagements for the same client?
24 A Yes. The professional standards that relate to Mazars'
25 compilation engagement do speak to an accountant needing to

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4344

1 considered the broader landscape of their involvement with a
2 particular client when evaluating whether methods are
3 appropriate under GAAP during a compilation.
4 Q Should Mazars include disclaimer language that is
5 required if it knows from the supporting data that the
6 disclaimer language is appropriate?
7 MR. WALLACE: Objection. Mazars includes -- I
8 believe the report is -- I'm not sure at what point in the
9 process he is describing this. This is the Trump financial
10 statement, so I'm not sure what part of the process Mazars
11 needs to include something.
12 THE COURT: Read it back, please.
13 (Whereupon, the requested testimony was read back
14 by the court reporter.)
15 THE COURT: Overruled.
16 A Mazars was required to include language addressing GAAP
17 exceptions to the extent they became aware of them in the course
18 of their compilation.
19 MR. SUAREZ: If we could please pull up, side by
20 side, Plaintiff's Exhibit 719.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 MR. SUAREZ: Can we scroll this or zoom it out so
24 that we could see the two columns.
25 (Whereupon, the exhibit displayed on the screen was

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4345

1 zoomed out.)
2 Q What do these red marks and blue marks mean on this
3 document?
4 A I believe those are what are referred to in accounting
5 and auditing parlance as tick marks that would be referencing
6 work paper numbers within Mazars' set of documents that were
7 prepared for this compilation.
8 Q Would that show that Mazars reviewed the document?
9 A It certainly is indication that they reviewed this for
10 sure.
11 Q If we look at the real and operating property, Trump
12 Tower, which is the first one that appears here in the
13 supporting data, is the method used for determining estimated
14 current value for Trump Tower consistent with the requirement of
15 ASC-274?
16 A Yes. It appears to me that the method that is being
17 used here is one of the methods that we went over yesterday that
18 is provided by ASC-274, which is capitalization of earnings.
19 Q Now, in the bottom there is a cap rate that's indicated
20 for the capitalization of earnings right under the Trump Tower
21 spreadsheet, under the financials.
22 Do you see that there?
23 A Yes.
24 Q Does this note indicate to Mazars the basis for
25 selecting a cap rate?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4346

1 A It does provide additional context on the cap rate,
2 yes.
3 Q Was the method for estimating current value for Trump
4 Tower disclosed to Mazars in the supporting data?
5 A Yes, this has very substantial detail on how the
6 calculation of estimated current value for Trump Tower was
7 developed.
8 Q And then do the notes disclose the basis for reaching
9 estimated current value for Trump Tower?
10 A Yes.
11 Q And would it have been Mazars' responsibility to make
12 sure that the information that it reviewed in the supporting
13 data was adequately disclosed in the notes?
14 MR. WALLACE: Objection. Leading.
15 THE COURT: Sustained.
16 Q What responsibility did Mazars have to ensure that the
17 information that it reviewed in the supporting data was
18 adequately disclosed in the notes?
19 A Well, the standards that apply to Mazars for
20 compilations do require an evaluation of whether the disclosures
21 contained within the Statement of Financial Condition are
22 consistent with the underlying support.
23 Q Moving on to Niketown. Is the method for determining
24 estimated current value for Niketown consistent with the
25 requirements imposed by ASC-274?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4347

1 A I haven't reviewed this in quite some time, but sitting
2 here right now it looks to be identical methodologies to what
3 was used for Trump Tower, um, at least with regard to the fact
4 it was the capitalization of earnings.
5 So to the extent there's not another nuance here that
6 I'm overlooking, it looks to be the same methodologies that's
7 provided by estimated current value under ASC-274.
8 Q And again, you see at the bottom of the section on
9 Trump Tower there's a discussion concerning the cap rates that
10 are used?
11 A Yes.
12 Q And should it have been apparent to Mazars that the cap
13 rate selected was selected by The Trump Organization and not
14 Cushman & Wakefield?
15 MR. WALLACE: I guess objection to "should."
16 THE COURT: Sustained.
17 Q Is it apparent to you that the cap rate that was
18 selected in this section for Niketown was selected by the
19 preparer, The Trump Organization, and not Mazars -- Cushman &
20 Wakefield, I'm sorry.
21 MR. WALLACE: Objection. Leading.
22 THE COURT: Sustained, but it was a good try.
23 MR. SUAREZ: Thank you.
24 THE COURT: You're getting closer.
25 Q From reading the cap rate section, who supplied the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4348

1 capitalization rate that was used in the calculation of value
2 for Niketown?
3 A Based on my reading of the note that provides more
4 context on how the cap rate was determined, it appears that it
5 was the -- it was management of The Trump Organization that
6 would have provided or ultimately determined what the cap rate
7 was to use. However, there is reference to Doug Larson of
8 Cushman & Wakefield that provided some input that appears to
9 have influenced, to some extent, the ultimate conclusion on the
10 cap rate.
11 Q How does the note provide further detail on the
12 selection of the cap rate?
13 A Well, it says that Cushman & Wakefield had indicated
14 that retail properties or cap rates for retail properties in
15 this particular area are usually 60 basis points lower. And
16 that was apparently used as additional information by The Trump
17 Organization to make an adjustment to the cap rate and lower it,
18 um, but they do reference not lowering it all the way down by
19 60 basis points, but being conservative and reducing it only by
20 50 basis points.
21 Q Was it disclosed to Mazars that the capitalization rate
22 was ultimately selected by The Trump Organization?
23 A Yes, I think that's very clear and implicit from this
24 work paper.
25 MR. SUAREZ: Moving onto 40 Wall Street.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4349

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q Is the method for selecting -- excuse me. On 40 Wall
4 Street, is the method for determining estimated current value
5 consistent with the requirement of ASC-274?
6 A Yes. It appears to follow the same methodology we
7 talked about for the prior two properties, and that it's a
8 capitalization of earnings, which is one of the methods provided
9 under ASC-274.
10 Q If there was an appraisal that had a different value
11 for 40 Wall Street, would that preclude management from using
12 this method of determining estimated current value?
13 A Absolutely not. ASC-274 allows for a wide range of
14 methods that can be used. One of those methods is the one that
15 is being used here, capitalization of earnings.
16 The use of appraisals is another alternative method
17 that may be used, but they are not mandated. So to the extent
18 this particular method aligns with ASC-274, which in my view it
19 does, it is absolutely permissible to use it.
20 MR. WALLACE: Your Honor, can I just ask for
21 clarification from this witness whether he is testifying as
22 to methodologies versus the actual conclusion that the
23 values stated here is, in fact, the estimated current value,
24 which I believe is also a requirement of ASC-274.
25 MR. SUAREZ: Your Honor --

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4350

1 THE COURT: You could investigate that in cross
2 examination. I thought his testimony was clear.
3 MR. WALLACE: Fair enough, your Honor.
4 Q Moving onto the Trump International Hotel in Chicago.
5 You could see -- what value is assigned to the Trump
6 International Hotel and Tower in Chicago?
7 A Zero.
8 Q And why is that -- I'll withdraw the question.
9 Was it disclosed in the GAAP departures that the Trump
10 International Hotel and Tower wasn't included in the Statement
11 of Financial Condition?
12 A Yes. It's zero. And that's consistent with the
13 disclosure in the accountant's report that communicated to the
14 users that that property would be excluded from the Statement of
15 Financial Condition.
16 Q Okay. Moving onto Trump Park Avenue.
17 Is the method for determining estimated current value
18 for the Trump Park Avenue consistent with the requirements of
19 ASC-274?
20 A Yes. It appears to be using the same method of using a
21 cap rate -- a capitalization rate against estimated earnings.
22 Q And can I draw your attention to the top of the section
23 where it says "Valuation is based on the anticipated selling
24 price of unsold residential units and the selling price or the
25 rental income stream to be derived from the commercial space."

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4351

1 Is that an appropriate basis for valuing an asset under
 2 ASC-274?
 3 A Yes. As we have said before, when developing an
 4 estimate of earnings, it is inherently prospective in looking
 5 forward in time, and would include whatever anticipated actions
 6 that the company was going to be undertaking with regard to
 7 these properties. And those assumptions are embedded in the
 8 earnings amounts that would be used to develop the estimated
 9 current value.
 10 Q Is there a temporal limit on the forward looking nature
 11 of that assessment?
 12 A No.
 13 Q Moving onto the club facilities.
 14 (Whereupon, the exhibit was displayed on the
 15 screen.)
 16 Q The first asset in club facilities is Mar-a-Lago. Do
 17 you see that?
 18 A Yes.
 19 Q And for Mar-a-Lago, is the method for determining
 20 estimated current value consistent with the requirement of
 21 ASC-274?
 22 A Yes. It appears to be consistent with one of the
 23 methods under ASC-274 related to comparable sales.
 24 Q Do you see at the top where it says "Value if sold to
 25 an individual."

Page 4353

1 A Can you repeat that, please.
 2 Q Sure.
 3 (Continued on the next page.)

 25

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4352

1 A Yes.
 2 Q Is that a permitted or a permissive -- excuse me.
 3 Withdrawn.
 4 Is it appropriate to make an assumption that Mar-a-Lago
 5 will be sold -- let me withdraw that and try again.
 6 The assumption that Mar-a-Lago will be sold to an
 7 individual is a basis for establishing estimated current value.
 8 Is that permitted in the selection of methodology under ASC-274?
 9 A Well, ASC-274 doesn't get into that level of detail,
 10 um, but it does implicitly involve hypotheticals, but also
 11 planned courses of action.
 12 So to the extent The Trump Organization contemplated
 13 potentially, you know, selling this to an individual, that would
 14 be an appropriate basis for basing the estimated current value
 15 on that basis.
 16 Q Now, the selection of club facilities includes a number
 17 of different assets that have been grouped together?
 18 MR. SUAREZ: If we could turn back to the Statement
 19 of Financial Condition at Plaintiff's Exhibit 730 on the
 20 asset sheet.
 21 (Whereupon, the exhibit was displayed on the
 22 screen.)
 23 Q Which appears at page four of the exhibit.
 24 Mr. Flemmons, what do accounting standards require for
 25 properties to be grouped together in the presentation of assets?

Flemmons - by Defendant - Direct(Suarez) Page 4354

1 Q What are there in the accounting standards to
 2 instruct whether a group of properties can be placed together
 3 as a single unit in these Statements of Financial Condition?
 4 A There is not a lot of specificity in the standard.
 5 It allows for a lot of judgment on the part of the preparer.
 6 Q Who determines the method of grouping the assets on
 7 the Statement of Financial Condition?
 8 A Well, during a compilation it could either be, in
 9 this case, Mazars or the Trump Organization, depending on how
 10 the detail was provided. But Mazars as the outside accountant
 11 in preparing this particular set of financial statements would
 12 have had a hand in that determination.
 13 Q Should Mazars have known what assets comprised each
 14 category on the asset sheet in the Statements of Financial
 15 Condition?
 16 MR. WALLACE: Objection on the "should."
 17 THE COURT: I think the context is clear.
 18 Overruled.
 19 A Mazars was provided with all of the detail that
 20 supported the \$2 billion of club facilities, and in my view
 21 would have been fully aware of the components.
 22 Q Moving on in the supporting data to the Trump
 23 International Golf Club in Florida.
 24 On the supporting data which appears at Plaintiff's
 25 179, what is the basis for valuing the Trump International Golf

Flemmons - by Defendant - Direct(Suarez) Page 4355

1 Club in Florida?
2 A It appears from this it is a cost approach. It
3 refers to value of fixed assets, which, fixed asset value is
4 often synonymous with a cost basis.
5 Q And is fixed asset value an appropriate method for
6 determining estimated current value under ASC 274?
7 A Yes, it is one of the methods that is provided under
8 the standard.
9 Q Moving on to the Trump International Golf Club in
10 Briarcliff. Is the method used for determining the estimated
11 current value of the Golf Club in Briarcliff consistent with
12 the requirements of ASC 274?
13 A It appears to be using the same cost basis as the
14 prior property we just looked at; and that is an appropriate
15 method under ASC 274.
16 Q Was the basis -- withdrawn.
17 Was the method for determining estimated current
18 value disclosed to Mazars in the supporting data?
19 A Yes, it is very clear from this document.
20 Q Moving on to the Trump National Golf Club in
21 Bedminister. Is the method for determining estimated current
22 value for the Trump National Golf Club in Bedminister
23 consistent with the requirements of ASC 274?
24 A Yes, same as before, it is the same method that is
25 provided by ASC 274.

Flemmons - by Defendant - Direct(Suarez) Page 4356

1 Q Was the method for determining estimated current
2 value for the Trump National Golf Club in Bedminister disclosed
3 to Mazars in the supporting data?
4 A Yes, this schedule was provided to Mazars and
5 therefore contained the information to communicate to them how
6 this property was being valued.
7 MR. WALLACE: Your Honor, I would just like to
8 note an objection. I think the questioning here is
9 unclear as to whether the process he is opining on is the
10 valuation of fixed assets or if he is including the
11 premium that is added as well for these various golf
12 clubs.
13 THE COURT: Again, I'll let you cross.
14 Obviously you can cross examine on this.
15 MR. WALLACE: Your Honor, if he is offering an
16 opinion about the total valuation, including the premium,
17 we would renew our motion to preclude that testimony. And
18 I would be happy to discuss that with the witness out of
19 the room. I think whether or not he is referring to the
20 total valuation, including the premium or just a use of
21 fixed assets, is relevant to whether or not we want to
22 reraise that objection.
23 THE COURT: All right. We will excuse the
24 witness.
25 (Whereupon, the witness exited the courtroom.)

Flemmons - by Defendant - Direct(Suarez) Page 4357

1 MR. WALLACE: Your Honor, if the valuation
2 opinion -- or I should say, if the accounting opinion we
3 are receiving now is a valuation that the brand premium is
4 appropriate, we object to that testimony. That issue has
5 will been decided on summary judgment. It was decided
6 with explicit reference to the other accounting expert,
7 that the defendants retained, Professor Bartov. That
8 evidence was presented extensively in the briefing and in
9 the evidence presented by the defendants. Your Honor
10 directly addressed that opinion, which is the same that
11 Mr. Bartov provided, the same opinion we are hearing now
12 from Mr. Flemmons. And that's at page 28 of your summary
13 judgment opinion, where you wrote: In opposition
14 defendants submit the affidavit of Elie Bartov, an
15 accounting professor at New York University, who
16 distinguishes between overall brand value and brand value
17 ascribed to individual golf courses. His point, ensconced
18 in numerous lines of academic jargon, seems to be the
19 defendants said they were eschewing the former and opting
20 only for the latter. This is a red herring. It is
21 actually incorrect. The SFC clearly stated that they do
22 not include a brand value for any of the property included
23 in the SFCs. Indeed, the SFC emphatically declare the
24 good will attached to the brand name has significant
25 financial value that has not been prepared in the

Flemmons - by Defendant - Direct(Suarez) Page 4358

1 preparation of this financial statement.
2 So the same opinion from a different expert was
3 expressly considered on summary judgment, and this would
4 not be appropriate. And it would be irrelevant to now
5 bring in their second accounting expert to try and enter
6 the same opinion.
7 THE COURT: There is no jury here and no
8 prejudice. I am just going to allow them to present their
9 defense and you can cross examine to your heart's consent.
10 Overruled.
11 Let's get the witness back.
12 (Whereupon, the witness resumed the stand.)
13 Q Mr. Flemmons, moving on to the Trump National Golf
14 Club in Colts Neck. Is the method used for determining
15 estimated current value for the Trump National Golf Club, Colts
16 Neck, consistent with the requirements of ASC 274?
17 A Yes, it appears that the method being used is the
18 same as the prior properties, with the exception of their, you
19 know, being an added premium related to the Trump brand of
20 30 percent. And that is an appropriate way under GAAP for
21 purposes of the Statement of Financial Condition to include
22 that additional amount. ASC 274 would not preclude that.
23 Q Was the method for determining the estimated current
24 value disclosed to Mazars in the supporting data?
25 A Yes, this is the supporting data, and it is very

Flemmons - by Defendant - Direct(Suarez) Page 4359

1 clear what the components of that valuation are.
2 Q Moving on to the Trump National Golf Club in
3 Washington DC. Is the method for determining estimated current
4 value for the Trump National Golf Club in Washington DC
5 consistent with the requirements of ASC 274?
6 A Yes, for the same reasons as the prior property we
7 just discussed.
8 Q And was the method for determining estimated current
9 value disclosed to Mazars in the supporting data?
10 A Yes.
11 Q Is the method for determining estimated current value
12 using a premium for fully operational branded facility
13 disclosed in the notes of the Statement of Financial Condition?
14 A Yes, there is disclosure about brand premium being
15 part of the property valuations.
16 Q And would Mazars have had an obligation to ensure
17 that the disclosures contained in the Statement of Financial
18 Conditions be consistent with what was presented in the
19 supporting data?
20 A Yes.
21 Q Now, in the Statement of Financial Condition, there
22 is a note that I would like to draw your attention to at page
23 23 of the exhibit, page 21 of the document.
24 Can I please draw your attention to where it says:
25 "As stated in Note 1, this financial statement does not reflect

Flemmons - by Defendant - Direct(Suarez) Page 4360

1 the value of Donald J. Trump's worldwide reputation, except to
2 the extent it has become associated with properties either
3 operative or under development."
4 Is that statement in the Statement of Financial
5 Condition consistent with the method for determining current
6 estimated value for the Golf Club properties in the supporting
7 data?
8 A Yes. This specifically relates to what we are
9 looking at here in the supporting schedule related to brand
10 premium. And this disclosure is notifying users of the
11 financials that, you know, brand premium is part of some of the
12 properties valuations.
13 Q Moving on to the supporting data under value. It has
14 a note that I would like to draw your attention to the note.
15 It says: "September 3, 2013. Per telephone conversation with
16 Tom Bennis, Trump branded clubs are more valuable than most
17 golf -- than most golf courses." Do you see that?
18 A Yes.
19 Q Was the method -- withdrawn.
20 Was the basis for the inclusion of the brand premium
21 disclosed to Mazars in the supporting data?
22 A Well, this note provided additional context on the
23 rationale for including a premium. It is not clear how the
24 30 percent was arrived at. But at the same time the rationale
25 for including a brand premium at all is clearly disclosed in

Flemmons - by Defendant - Direct(Suarez) Page 4361

1 these documents. And this footnote adds a little more context.
2 Q Moving on to the Trump National Golf Club in
3 Philadelphia. Is the method for determining estimated current
4 value consistent with the requirements of ASC 274 for the Trump
5 National Golf Club in Philadelphia?
6 A Yes, this appears to be an identical methodology as
7 to what we just looked at.
8 Q And was the method for determining estimated current
9 value disclosed to Mazars in the supporting data?
10 A Yes.
11 Q I have the same question about the Trump National
12 Golf Club in Hudson Valley. Is the method for determining
13 estimated current value consistent with the requirement of ASC
14 274?
15 A Yes, for the same reasons as the prior two properties
16 we just discussed.
17 Q Was the method for determining estimated current
18 value disclosed to Mazars in the supporting data?
19 A Yes.
20 Q Moving on to the Trump National Golf Club in Los
21 Angeles. Is the method for determining estimated current value
22 for the Trump National Golf Club Los Angeles consistent with
23 the requirements of ASC 274?
24 A It appears so. The reason I hesitate is it does have
25 another section in the middle here that was a little different

Flemmons - by Defendant - Direct(Suarez) Page 4362

1 than the prior three properties that we looked at. And I am
2 not sure I have looked at that part in quite some time. But
3 probably want a little more time to think about that. But
4 certainly sitting here right now, it appears that this does
5 comply with ASC 274.
6 Q And was the method for determining estimated current
7 value disclosed to Mazars in the supporting data for the Trump
8 National Golf Club Los Angeles?
9 A Yes.
10 Q Moving on to the Trump National Golf Club in
11 Charlotte. Is the method for determining estimated current
12 value consistent with the requirements of ASC 274?
13 A Yes.
14 Q Was the method for determining estimated current
15 value for the Trump National Golf Club in Charlotte disclosed
16 to Mazars in the supporting data?
17 A Yes.
18 Q Moving on to the Trump National Golf Club in Jupiter.
19 Is the method for determining estimated current value
20 consistent with the requirements of ASC 274?
21 A Yes, this is the same methodology we have discussed
22 for these adjacent properties.
23 Q Which again, includes the premium for the fully
24 operational branded facility, correct?
25 A Correct.

Flemmons - by Defendant - Direct(Suarez) Page 4363

1 Q And was the method for determining estimated current
2 value disclosed to Mazars in the supporting data?
3 A Yes.
4 Q The following property, Trump Golf Links Ferry Point.
5 Is the method used for determining estimated current value
6 consistent with the requirement of ASC 274?
7 A I think I would need a little more detail on what the
8 reference to capital contributions since inception is. It
9 sounds like it might be a cost basis, in which case that would
10 be compliant with ASC 274. But if I was doing the compilation
11 I would ask a follow-up question.
12 Q And if you had asked follow-up -- withdrawn.
13 Should Mazars have asked follow-up questions
14 concerning that supporting data?
15 A I would think so, for the same reasons that I said
16 that I would have asked the question.
17 Q And is the fact that Mazars issued the compilation
18 report, indicative of the fact that, at least to Mazars
19 satisfaction, any questions were answered?
20 A Yes. Either they received satisfactory answers or
21 they believed that the languaging in their accountant's report
22 regarding GAAP deviations was adequate to address this
23 property.
24 Q Moving on to the Doral. Is the method for
25 determining estimated current value consistent with the

Flemmons - by Defendant - Direct(Suarez) Page 4364

1 requirements of ASC 274?
2 A Yes, it appears the method is also a cost basis,
3 which is an appropriate method.
4 Q Was the method for determining estimated current
5 value disclosed to Mazars in the supporting data?
6 A Yes.
7 Q Same question about the Trump Turnberry.
8 A Same answer as before. It appears to be a cost
9 basis, which is an acceptable method.
10 Q And was the method used to determine estimated --
11 excuse me. Was the method used to determine estimated current
12 value disclosed to Mazars in the supporting data?
13 A Yes.
14 THE COURT: Let me just jump in with a question
15 to the witness.
16 You were asked 20 or 30 times, was the method
17 used for determining the estimated current value of the
18 project at issue consistent with the requirements of ASC
19 274. I think your answers were always yes. My question
20 is: Were you saying that the method listed on the
21 statement was one of the methods that ASC 274 allows? Or
22 were you saying that the actual computations using that
23 method were correct?
24 A Your Honor, I am not opining as to the ultimate
25 valuation itself. I am not a valuation expert. But I am an

Flemmons - by Defendant - Direct(Suarez) Page 4365

1 expert on the methods that are permitted by ASC 274. So my
2 testimony is really limited to, again, its methods that are
3 clear from the documents that were being used, and not
4 necessarily to the numbers that were attached to them.
5 THE COURT: Right. And so if the statement says
6 we are using the capitalization rate method or the fixed
7 asset method, your answers are just meaning that, yes,
8 that's one of the methods you can use, correct?
9 THE WITNESS: That's correct.
10 THE COURT: Okay. After 30 questions of that I
11 wanted to make sure I understood what the answer
12 indicated.
13 MR. SUAREZ: Your Honor, my -- what I would like
14 to do is go through 2014 asset by asset, and then I'll
15 flip through the following years much more quickly.
16 THE COURT: Well, let's start it and see how it
17 goes. But I appreciate the desire to go more quickly.
18 MR. SUAREZ: I just want to make sure you
19 understood I am not I intending to do this for all.
20 THE COURT: Got you.
21 Q The Trump International Golf Club -- I am sorry.
22 Going back to Doonbeg. I almost skipped over Doonbeg. The
23 Trump International Golf Club in Doonbeg, Ireland. Is the
24 method for determining estimated current value consistent with
25 the requirements of ASC 274?

Flemmons - by Defendant - Direct(Suarez) Page 4366

1 A Yes. This appears to be a cost approach.
2 Q And was the method for determining estimated current
3 value fairly disclosed to Mazars in the supporting data?
4 A Yes.
5 Q The Trump International Golf Club in Scotland, which
6 is the following asset, is the method for determining estimated
7 current value consistent with the requirement of ASC 274?
8 A Well, consistent with my testimony about the prior
9 property that had a reference to capital contributions, I
10 interpret that as likely meaning some sort of cost basis. But
11 I would have asked a follow-up question to confirm that.
12 Assuming that that's the case, it would comply with ASC 274.
13 Q Do you see that there is a 33 percent premium for
14 assembly of land parcels that is built into -- that is built in
15 the value?
16 A Yes.
17 Q Would you agree with me that -- withdrawn.
18 Was the inclusion of the brand premium disclosed to
19 Mazars in the supporting data?
20 A Yes, it is very clear in this data.
21 Q And if Mazars had an objection to the inclusion of
22 that brand premium in the -- excuse me, withdrawn.
23 If Mazars had a concern with the inclusion of the
24 premium for the assembly of land parcels, should Mazars have
25 raised that with management?

Flemmons - by Defendant - Direct(Suarez) Page 4367

1 A Yes. As part of a compilation Mazars is responsible
2 for evaluating the methods that are being used and evaluating
3 the appropriateness of the methods. So to the extent they
4 concluded that adding a 30 percent premium was inappropriate,
5 they would have been compelled to respond to that through
6 inquiries with management to perhaps have this amount adjusted;
7 or to include relevant disclosure in their accountant's report.
8 Q And if it was inappropriate to include that premium
9 for the assembly of land parcels, could management have
10 expected Mazars to identify that issue for them?
11 A Yes, because Mazars is compiling the financial
12 statements and using the supporting data to do that. So to the
13 extent that there are components of the valuations that are
14 inconsistent with GAAP and they become aware of it, they are
15 required under the standards to follow up on that.
16 Q Okay. Moving on to the Trump International --
17 MR. SUAREZ: You can keep going.
18 Is this the next one? Keep going.
19 Q The Trump World Tower, again, I would like to direct
20 your attention towards, the valuation is based on the
21 anticipated selling price of unsold units and the rental income
22 to be derived from the commercial space. What do you
23 understand "anticipated selling price of unsold units" to mean?
24 A Well, I read this as being consistent with one of the
25 methods that is called for under ASC 274 with regard to

Flemmons - by Defendant - Direct(Suarez) Page 4368

1 utilizing future cash flows based on planned courses of action.
2 And I believe this wording is identical to that.
3 Q Does planned -- withdrawn.
4 Do planned courses of actions have an temporal
5 requirement?
6 A No.
7 Q Moving on to 100 Central Park South the Trump Park
8 East. Is the method for determining estimated current value
9 consistent with the requirements of ASC 274?
10 A Yes. This appears to be the same method as Trump
11 Tower.
12 Q And again, you see that the valuation is based on the
13 anticipated selling price, correct?
14 A Yes.
15 Q The anticipated selling price, is that consistent
16 with the method under ASC 274 that permits the use of planned
17 courses of action?
18 A Yes.
19 Q Was the method for determining the estimated current
20 value of the Trump Park East disclosed to Mazars?
21 A Yes.
22 Q Moving on to Trump Plaza at third Avenue, I would
23 like to, again, direct your attention to the valuation being
24 based on the rental income from the property plus the value of
25 the two unsold co-op units. Do you see where it says that?

Flemmons - by Defendant - Direct(Suarez) Page 4369

1 A I do.
2 Q Is that consistent with a planned course of action
3 under ASC 274?
4 A Yes.
5 Q Is the method for determining estimated current value
6 consistent with the requirements of ASC 274 for the Trump Plaza
7 at Third Avenue?
8 A Yes.
9 Q Going on to the next asset, the Trump Palace, Trump
10 Park and Trump Park East. Is the method there for determining
11 estimated current value consistent with the requirement of ASC
12 274?
13 A Yes, it appears to be the same method as the prior
14 properties that we just discussed.
15 Q And was the method for determining estimated current
16 value disclosed to Mazars in the supporting data?
17 A Yes.
18 Q Moving on to the Trump International Hotel and Tower
19 in New York City. Is the method for determining estimated
20 current value consistent with the requirements of ASC 274?
21 A Yes, this appears to be referencing a different
22 valuation method that is accepted under ASC 274, and that is
23 use of appraisals.
24 Q Now, in this instance it appears that the use of an
25 appraisal was used, correct?

Flemmons - by Defendant - Direct(Suarez) Page 4370

1 A Correct.
2 Q Now, would it have been appropriate to use another
3 basis for determining estimated current value when there was an
4 appraisal for the unit that was available to management?
5 A Yes, ASC 274 does not require use of appraisals.
6 There are many other methods that are available to a preparer
7 to serve as the basis for determining estimated current value.
8 Q And if another basis for estimated current value had
9 resulted in a wildly different value than that which was
10 reflected in the appraisal in management's possession, would
11 management have been required to use the lower value in the
12 appraisal?
13 A Not at all.
14 Q Why is that?
15 A As we discussed yesterday, given the wide range of
16 methods that are available under ASC 274 to value properties,
17 these methods can yield very different results and very
18 significant differences from one method to another. And the
19 standard does not require using the lower or the method that
20 yields the lowest result.
21 Q Moving to properties under development.
22 What is the first property that appears as a property
23 under development?
24 A It looks like it is Seven Springs in Westchester.
25 (Transcript continued on next page.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4371

1 Q What is the value that's ascribed for Seven Springs in
2 Westchester on the supporting data?
3 A It looks like the total value is \$291 million.
4 Q And what is the basis for determining the value of the
5 Seven Springs property that's under development?
6 A It looks like it's based on the anticipated selling
7 price of certain mansion and it's broken out into two sections
8 here. But the overall methodology relates to anticipated
9 selling price.
10 Q Is the use of an anticipated selling price consistent
11 with a planned course of action?
12 A Yes. And I should also add it's not just based on the
13 selling price. There's clearly cost components that are
14 offsetting the selling price to arrive at a profit number that
15 is used as the basis for the valuation.
16 Q The profit -- the anticipated profit is what's used as
17 the basis for valuation?
18 A Correct.
19 Q And is it appropriate to use an anticipated profit as
20 the basis for an planned course of action in determining
21 estimated current value?
22 A Yes.
23 Q Now, with respect to Seven Springs here, was there
24 discounting included for the future income that was anticipated?
25 A It does not list any discounting separately in this

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4372

1 particular schedule. Um, it -- under ASC-274 when you are
2 basing a valuation on, you know, future revenue streams or
3 future cash flows, you would expect there to be a discounting
4 component to this.
5 It's unclear to me whether the selling price line item
6 that's reflected in here already contemplates a discounting
7 factor. It would be a question that I would follow up with the
8 client and ask about.
9 Q Was the lack of any additional discounting for future
10 cash disclosed to Mazars?
11 A Well, there certainly is a red flag from the standpoint
12 that there is no mention of discounting. As I said, it could be
13 implicit or embedded in -- in the selling prices that were used
14 and in the overall profit number, but it would be a glaring
15 question that would need to be asked.
16 Q To the extent that the estimated current value method
17 used for Seven Springs was not consistent with estimated current
18 value, is it covered by a GAAP departure disclosed in the
19 Statement of Financial Condition?
20 A Yes. And as I said earlier I believe Mr. Bender also
21 testified that the lack of discounting was covered by one of the
22 exceptions that they included in their accountant's report.
23 Q Moving onto the Trump Old Post Office.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4373

1 Q Again, do you see that the basis for -- withdrawn.
2 Is the method for determining estimated current value
3 consistent with the requirements of ASC-274?
4 A Like we saw with a couple of the other properties that
5 reference capital contributions it's a little unclear to me what
6 that means and how that fits, but it sounds to me like a cost
7 approach, in which case it would be an ASC-274 compliant method.
8 Q Was the method used for determining estimated current
9 value disclosed to Mazars in the supporting data?
10 A Yes.
11 Q And to the extent that the estimated current value
12 method was not consistent with the definition of ASC-274, should
13 Mazars have identified the need to include additional
14 disclosures?
15 A Yes.
16 Q Moving onto the partnerships and joint ventures.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q The first item listed here is a partnership with
20 Vornado or Vornado. Is the method for determining estimated
21 current value for the Vornado Partnership consistent with the
22 requirements of ASC-274?
23 A Yes. It appears that the way this valuation was
24 performed was to take the ownership percentage interest that
25 Mr. Trump had in the Vornado partnership, and multiply that

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4374

1 times the net operating income of the related properties to
2 arrive at the overall valuation.
3 Q When you say the "ownership interest of Mr. Trump", is
4 that the 30 percent here that's disclosed at line 715, or row
5 715 of the spreadsheet?
6 A Yes, it is. And that is the multiplier against the net
7 operating earnings of those entities less the related debt of
8 those properties.
9 Q What does the note to the Statement of Financial
10 Condition disclose concerning Mr. Trump's interest in the
11 Vornado partnerships?
12 A Well, note four states clearly that Mr. Trump owns
13 30 percent of these properties.
14 Q And to the extent that any discounting for a lack of
15 control was appropriate, would that have been apparent to
16 Mazars?
17 A Yes. It's very clear that 30 percent ownership is not
18 a controlling interest.
19 Q And of the lack of control would have impacted the
20 estimated current value of Mr. Trump's interest in that
21 property, should Mazars have been aware of that?
22 A Yes. It's very clear from these documents.
23 Q Moving onto the Trump International in Las Vegas.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4375

1 Q Is the method for determining estimated current value
2 consistent with the requirements of ASC-274?
3 A Well, similar to what we were saying before, this is
4 using anticipated cash flows on this property. I don't see a
5 discounting factor applied to it.
6 Again, it could be implicit and embedded in the
7 \$123 million value. I would want to know more to confirm that.
8 But on its face, it doesn't look like there's any discounting.
9 Q And should that have been apparent to Mazars that on
10 its face it didn't appear to include any discounting?
11 A I would think so.
12 Q And to the extent that there was no discounting, for
13 this asset, was the lack of discounting covered by a GAAP
14 departure in the Statement of Financial Condition?
15 A As I said before, Mr. Bender has testified that one of
16 the disclosures in the accountant's report did cover that
17 exception.
18 Q Moving onto Miss Universe.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q Is the method for determining estimated current value
22 consistent with the requirements of ASC-274?
23 A It's unclear to me. There are apparently two different
24 methods that are being used here, depending on the year.
25 For 2013, there's a reference just to valuations based

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4376

1 on SEC filings done by the casinos. I'm not sure exactly what
2 that means or how that valuation was derived. I would need to
3 inquire further if I was performing this work.
4 And for 2014, it's a little vague because there's
5 reference to a Goodwill entity in applying a 50 percent
6 ownership percentage against that Goodwill.
7 I think for both of these I would need to ask more
8 questions.
9 Q Was the method used to determine the value disclosed to
10 Mazars?
11 A Well, these descriptions of the methods were disclosed,
12 which I believe would have prompted additional questions.
13 Q Should Mazars have inquired further as to the basis for
14 those methods used for Miss Universe?
15 A In my view, yes.
16 Q And if the method selected was -- withdrawn.
17 If the method selected by management was, in fact, not
18 an appropriate measure under ASC-274, should management have
19 expected that Mazars would have alerted them?
20 A Yes. To the extent the methods used are inconsistent
21 with the allowable methods under ASC-274, there's an obligation
22 of an accountant performing a compilation to make inquiries and
23 to perhaps include additional disclosure in the accountant's
24 report.
25 Q In your experience, is that something that happens in

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4377

1 the real world?
2 A Yes, all the time.
3 Q Management selects a method for estimating the current
4 value of an asset that turns out to be inconsistent with
5 ASC-274?
6 A Yes. I see that all the time. And frankly, that's why
7 you have external accountants involved in this process, given
8 their expertise with GAAP and preparing financial statements.
9 Q Is it fair for management to expect that the outside
10 accountants will alert them if a method has been used that is
11 not appropriate?
12 A Yes, because of the professional standards that are
13 applicable to Mazars, in this case, would require them to do
14 just that.
15 Q Moving onto other assets.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 Q The other assets here start with the Apprentice
19 property -- excuse me, the Apprentice revenue stream. Do you
20 see that?
21 A Yes.
22 Q And include the license to run the Wollman Rink, the
23 Trump Model Management, family receivables, a vineyard property,
24 Starrett City Associates, and then they continue further below
25 to include aircrafts, a triplex, and homes in Palm Beach. Do

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4378

1 you see those?
2 A Yes.
3 Q And Beverly Hills, California. Is it appropriate under
4 ASC-274 to group all of these assets into the category of other
5 assets?
6 A There was no restriction under ASC-274 on how to
7 categorize these assets. To the extent there's significant
8 aggregation, it might be helpful to have disclosure to inform a
9 user what's comprising these amounts or this particular group of
10 assets, but there's nothing inappropriate about grouping them
11 under this caption.
12 Q If we go to the Statement of Financial Condition and we
13 look at the note associated with other assets.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 Q Let's go to the beginning of that note on page 21 of
17 the document, page 23 of the exhibit.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Would that note correlate to the grouping of assets
21 under ASC -- excuse me. Would that note in the Statement of
22 Financial Condition correlate with the grouping of assets under
23 the supporting data for other assets?
24 A I haven't done a one-for-one comparison. I will say
25 that the notes to the financial statements do itemize different

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4379

1 categories that are comprising the other assets caption. Upon
2 quick glance, there is certainly correlation. For example, the
3 Beverly Hills property, I would need to spend some time to do
4 the dot connecting, but it appears to correlate.
5 Q So in general terms, the Statement of Financial
6 Condition discloses that the other assets include --
7 MR. SUAREZ: If we could go back to the first page.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q It includes the triplex at Trump Tower, homes in Palm
11 Beach County.
12 MR. SUAREZ: Next page.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q A home in Beverly Hills, a number of corporate
16 aircraft, and other, which goes on to include other entities
17 owned or controlled, and other assets as well, that include the
18 Celebrity Apprentice and Apprentice series, a 2000-acre vineyard
19 in Charlottesville, Virginia, licenses to operate and management
20 of Wollman and Lasker Rinks, an international talent/model
21 agency, a management company that supervises the operation of
22 condominium properties, loans to family members, limited
23 partnership investments in Starrett City and related entities,
24 and funds escrowed pursuant to the terms of contractual
25 commitments. Is it the case that there's no -- withdrawn.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4380

1 What asset value is ascribed in the Statement of
2 Financial Condition to the individual assets that makeup other
3 assets?
4 A Well, the individual values comprising that section of
5 the financial statements are listed in the detail that was
6 provided to Mazars. The total value of all the assets was
7 \$338 million in the Statement of Financial Condition for 2014.
8 The composition of that was clear from this support.
9 Q If we focus on the triplex here in 2014, do you see the
10 method that's used to determine the asset value?
11 A It appears that there are two different notations
12 related to triplex, depending on the year. For, I believe, 2014
13 is the first column, is that correct, column G?
14 Q Yes.
15 A That just says "triplex per Kathy Kaye", with a date of
16 August 2013, with no further detail. It's unclear to me what
17 method is being used.
18 Q To be clear column G is 2013 and column H is 2014.
19 A Okay. So the first amount of \$200 million for 2013 has
20 a rather vague description. I can't, sitting here right now,
21 determine what valuation method is being used for that
22 particular year. I would need to ask more questions if I was
23 performing this work.
24 The value for 2014, which is also \$200 million, has a
25 different notation that states based on comps at One57. Based

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4381

1 on that description, it sounds like it's based on comparable
2 sales of another property. So at a high level it sounds like
3 it's consistent with ASC-274.
4 THE COURT: Five-minute warning.
5 Q Is the reason you would need to ask more questions --
6 withdrawn.
7 You would need to ask more questions; correct?
8 A I mean, certainly with regard to the 2013 value of
9 triplex.
10 Q Does the outside accounting firm have an obligation
11 greater.
12 Withdrawn.
13 Does the accounting firm have an obligation to
14 management that is greater than just copying and pasting the
15 numbers from the supporting data into the Statement of Financial
16 Condition?
17 MR. WALLACE: Objection. Leading.
18 THE COURT: Asked and answered many, many times
19 already, so sustained.
20 Q What obligation, if any, would the outside accounting
21 firm have to consider the method for using -- withdrawn.
22 What obligation, if any, would management have to --
23 let me try the third time, and then I'll pull back.
24 What obligation would the accounting firm have in
25 placing an asset value on the Statement of Financial Condition

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4382

1 based on the information that's been provided in the supporting
2 data?
3 A Well, the accounting firm's obligation is to understand
4 the methods that are being used and consider the appropriateness
5 of those methods, you know, based on the assets that are being
6 valued, and ultimately determine whether they are a GAAP
7 compliant method.
8 And to the extent they are not, the standards require
9 them to perform follow-up inquiries, and perhaps include
10 language in their accountant's report if those amounts are
11 reported in a manner that is inconsistent with GAAP.
12 MR. SUAREZ: I'm at a good breaking point.
13 THE COURT: Breaking or ending?
14 MR. SUAREZ: No, breaking, breaking, breaking.
15 THE COURT: I always ask that. Call it a 16-minute
16 break, and we'll see you all at 11:45.
17 And I'll direct the witness, again, don't discuss
18 the case, your testimony, or anything related thereto.
19 (Whereupon, a 16-minute break was agreed upon and
20 taken by all parties.)
21 (Continued on the next page.)
22
23
24

Flemmons - by Defendant - Direct(Suarez) Page 4383

1 COURT OFFICER: All rise. Part 37 is back in
2 session. Please be seated and come to order.
3 THE COURT: This morning the defendants filed a
4 proposed order to show cause, correct.
5 MR. KISE: We did, sir.
6 THE COURT: Would the Attorney General like to
7 submit any papers on the threshold issue of whether I
8 should sign or decline to sign the proposed order to show
9 cause?
10 MR. WALLACE: I have been sitting here from the
11 time I received it, but I would ask if we could have until
12 tomorrow to put in -- determine if we want to put in
13 anything. I think that would be sufficient for us to get
14 through.
15 THE COURT: If you want until tomorrow to
16 decide, how long will it take you to submit something if
17 you decide?
18 MR. WALLACE: If the question is whether the
19 order to show cause should be signed, hence setting the
20 briefing schedule and whether we have a view on the
21 briefing schedule, we could put that in before the end of
22 the day tomorrow certainly.
23 THE COURT: Okay.
24 Okay. Let's get the witness back.
25 (Whereupon the witness resumed the stand.)

Flemmons - by Defendant - Direct(Suarez) Page 4384

1 THE COURT: Please proceed.
2 MR. SUAREZ: Thank you, Your Honor.
3 Q Mr. Flemmons I would like to draw your attention to
4 the 2016 Statement of Financial Condition which appears at
5 Plaintiff's 756; and the supporting data which appears at
6 Plaintiff's 742.
7 (Handing)
8 MR. SUAREZ: If we could zoom out to make sure
9 we include these three columns here. (Indicating.)
10 Q Mr. Flemmons, do you recognize the Statement of
11 Financial Condition for the year end June 30, 2016 for Donald
12 Trump?
13 A Yes, I do.
14 Q Have you reviewed it prior to today?
15 A Yes.
16 Q Next to the statement is supporting data, which
17 appears as Plaintiff's 742. Have you reviewed the supporting
18 data prior to today?
19 A Yes.
20 Q I would like to turn your attention to the
21 accountant's compilation report and, again, ask whether the
22 accountant's compilation report includes disclosures for
23 departures from Generally Accepted Accounting Principles.
24 A Yes, it does.
25 Q Okay. Now I would like to draw your attention to the

Flemmons - by Defendant - Direct(Suarez) Page 4385

1 cash on the list of assets in the Statement of Financial
2 Condition?
3 A Can I add a little more detail on the last answer?
4 Q Sure.
5 A So, you will notice when looking at the accountant's
6 letter for this year, for 2016, it is more summarized and more
7 concise than what we saw for the accountant's letter for the --
8 for the 2014 time period. And one of the reasons for that is
9 under the standard AR-C 80 which was issued and effective in or
10 around 2016, one of the changes was to condense the
11 accountant's report. And so I believe that that would be the
12 cause for this taking on a slightly different form. I will say
13 the paragraph that references the GAAP deviations, which is the
14 paragraph on the screen here, second paragraph on the document,
15 do appear to be similar, if not identical, to those that were
16 broken out more separately in the 2014 accountant's report.
17 But they do consist of the same type of items.
18 And in the last paragraph of the accountant's report
19 is the "buyer beware" paragraph that I had talked about
20 yesterday that comes right out of the standard that
21 accountant's are encouraged to consider putting in the
22 accountant's report for compilations if they believe that the
23 significance of the GAAP deviations are of such a nature that
24 warrant inserting that in the accountant's report.
25 Q With respect to the GAAP departures that are

Flemmons - by Defendant - Direct(Suarez) Page 4386

1 disclosed in this accountant's compilation report, which, if
2 any of them, address cash?
3 A Well there is a sentence in the middle of that
4 paragraph that addresses the presentation of cash and
5 marketable securities and hedge funds under GAAP. Those would
6 be separately reported as separate line items. But for
7 purposes of the financial condition statement, those were
8 included in one line item.
9 Q What is the effect of that disclosure?
10 A It is to communicate to a user that they are
11 collapsed into one line item as opposed to being broken out
12 separately.
13 Q And if we could go to page four of the Statement of
14 Financial Condition, which I believe is page six of the
15 exhibit.
16 MR. SUAREZ: And zoom in on cash.
17 Q What does the note for the cash on the Statement of
18 Financial Condition disclose?
19 A Would you like me to read it?
20 Q Please.
21 A It states: Cash, marketable securities and hedge
22 funds represents amounts held by Mr. Trump and amounts in
23 operating entities. Include -- included in this amount are
24 common stocks, mutual funds, hedge funds, corporate notes and
25 bonds and United States Treasury Securities. Marketable

Flemmons - by Defendant - Direct(Suarez) Page 4387

1 Securities are valued at quoted market prices or estimates of
2 current value provided by the hedge funds.
3 Q What does it mean that cash, marketable securities
4 and hedge funds represents amounts held by Mr. Trump and
5 amounts in operating entities?
6 A Well, it is communicating to the user that cash that
7 is held in operating entities and marketable securities and
8 hedge funds that are -- that reside within the various
9 operating entities of Mr. Trump, are included in the Statement
10 of Financial Condition within this line item.
11 Q Okay. And if we go to the supporting data, do you
12 see that there is a schedule for the cash and marketable
13 securities?
14 A Yes.
15 MR. SUAREZ: Can we please pull up Plaintiff's
16 Exhibit 2587? It has already been admitted into evidence.
17 Q Are you familiar with this schedule, Mr. Flemmons?
18 A Yes.
19 Q What does this schedule represent?
20 A It is the detailed schedule that breaks down all of
21 the components of the cash and short term investments as of
22 June 30, 2016 that, in total, rolls into the worksheet that we
23 just looked at that was provided to Mazars. This particular
24 more-detailed spreadsheet appears to have also been provided to
25 Mazars. There is a notation up at the top of the document that

Flemmons - by Defendant - Direct(Suarez) Page 4388

1 says PBC, which in accounting and auditing parlance means
2 prepared by client. So this would have been prepared by
3 someone within the Trump Organization. And as we talked about
4 before, the blue numbers that are in column B correspond to
5 particular marks that would have been attached or noted by
6 Mazars.
7 Q Can I draw your attention to cell A 11?
8 Do you see that that reflects an account title for
9 1290 Avenue of the Americas?
10 A Yes.
11 Q And do you see that it has an open parentheses and it
12 says: 30 percent of cash on balance sheet?
13 A Yes.
14 Q If we pull up the Statement of Financial Condition,
15 which is Plaintiff's Exhibit 756, and turn to 1290 Avenue of
16 the Americas on page 18 of the document, which I believe is
17 page 20 of the exhibit, what does this note reflect concerning
18 President Trump's interest in 1290 Avenue of the Americas?
19 A Well, the note describes what the property is in the
20 second paragraph, where it starts, 1290 Avenue of the Americas
21 consists of an office tower, and goes on to give more detail.
22 The note also includes a reference to Mr. Trump owning
23 30 percent of those properties which would include the 1290
24 Avenue of the Americas.
25 Q And if we go to the cash schedule, the 30 percent

Flemmons - by Defendant - Direct(Suarez) Page 4389

1 owned by Mr. Trump is disclosed to Mazars as the 30 percent of
2 the cash on the balance sheet, does that correlate?
3 A Yes, it appears that the 30 percent that is on the
4 supporting cash worksheet correspond to the 30 percent
5 ownership interest by Mr. Trump as disclosed in the financials.
6 Q And if we go through the same exercise for HWA
7 Waterfront Associates, which reflect 30 percent of cash on the
8 balance sheets, and we go back to the Statement of Financial
9 Condition, would Mazars have known what HWA -- withdrawn.
10 Should Mazars have known what HWA Associates was?
11 A Well, I would expect they should, given the detail
12 that was provided that specifically mentions those properties;
13 and also given their broader involvement with Mr. Trump and the
14 Trump Organization in a variety of different capacities,
15 including audit and tax work.
16 Q And again, that 30 percent of the balance sheet
17 reflect that correlates with the interest in the 555 California
18 Street. Do you see that?
19 A Yes.
20 Q Was the -- if we go back to the cash schedule, you
21 will see that the only entities that have that additional
22 notation, 30 percent of cash on balance sheet reflect the
23 entities in which Mr. Trump owned the 30 percent interest. Do
24 you see that?
25 A I do.

Flemmons - by Defendant - Direct(Suarez) Page 4390

1 Q What should Mazars have understood from the
2 disclosure that those entities represented 30 percent of the
3 cash on the balance sheet?
4 A Well, it is clear from this document, given that it
5 supports the cash and short term investment amounts that are
6 reported in the Statement of Financial Condition, that
7 30 percent of the cash that is held at these entities in which
8 Mr. Trump has a minority interest, are included in the
9 Statement of Financial Condition.
10 Q Was the inclusion of this cash from the entities that
11 reflect the 30 percent of the balance sheet on the cash
12 schedule, would have been one of the departures from GAAP on
13 the Statement of Financial Condition?
14 MR. WALLACE: Objection, foundation. Shouldn't
15 we establish if this is a departure from GAAP?
16 THE COURT: Okay. Sustained.
17 Q Is it a departure from GAAP to include cash in this
18 manner on the -- on the cash sheet?
19 A It is certainly a red flag to me. I don't know why
20 you would include 30 percent of cash from a joint venture on
21 your balance sheet. I would want to know more about the
22 rationale from management to understand that.
23 THE COURT: You know, "it is a red flag," is
24 it -- does it comply or does it not comply? Is it a
25 deviation, I think is the technical term. Departure.

Flemmons - by Defendant - Direct(Suarez) Page 4391

1 THE WITNESS: Again, there is not enough detail
2 here to tell me what the rationale was under GAAP for
3 including that. But based on my expertise in GAAP, I
4 would -- I have a lot of questions about it because it
5 appears to me that it is not GAAP compliant.
6 THE COURT: So if you didn't ask questions and
7 you didn't get answers and you didn't have any other
8 information, is it a departure?
9 THE WITNESS: It would appear to me that it is.
10 THE COURT: Okay.
11 Q Would Bender or Mazars have asked questions -- should
12 Bender or Mazars have asked questions about the inclusion of
13 this cash on the cash balance sheet?
14 A Yes. As I have stated before, an accountant that is
15 performing compilation services is required to follow-up on
16 potential GAAP departures that they become aware of. And this,
17 to me, falls in that category of something that should have
18 been followed up on. I don't know if it was or not. And I
19 don't know whether or not Mazars believes that this was
20 captured by one of the disclosures in the accountant's report
21 as to GAAP departures.
22 Q If management had included this cash -- withdrawn.
23 If management includes this cash and indicates that
24 it is the 30 percent of the cash on the balance sheet on the --
25 on the cash balance sheet, would it have been appropriate for

Flemmons - by Defendant - Direct(Suarez) Page 4392

1 management to rely on Mazars to advise them that there was a
2 departure from GAAP?
3 A The answer is yes, because this is a very glaring
4 issue that I would want to know more about. To me it appears
5 to be GAAP departure, which would lead a reasonable accountant
6 to make those inquiries. And I believe it is also reasonable,
7 you know, for the client in any engagement, whether it be in
8 this particular case or others, to rely on their accountant to
9 respond to obvious GAAP departures.
10 Q Moving on to the Statement of Financial Condition for
11 2017, at Plaintiff's Exhibit 755, and the supporting data at
12 Plaintiff's Exhibit 758.
13 (Handing)
14 MR. SUAREZ: If we could turn to the triplex on
15 the supporting data.
16 Q Do you see here next to the triplex supporting data
17 on cell D 971 it includes a red mark?
18 A Yes.
19 Q Would that red mark -- what does that red mark tend
20 to indicate?
21 A I am not sure.
22 Q Would that red mark be evidence that this document
23 was reviewed by Mazars?
24 MR. WALLACE: Objection, leading.
25 THE COURT: Leading and, sort of, asked and

Flemmons - by Defendant - Direct(Suarez) Page 4393

1 answered.
2 Q Should Mazars have observed that there was a change
3 in the square footage of the triplex from 30,000 square feet to
4 10,996 square feet from the year 2016 to the year 2017?
5 A It certainly looks very obvious from this document
6 that that change occurred between the two years. And as we
7 have said before, the blue numbers that are listed in this
8 document would certainly evidence that Mazars reviewed this
9 document and these aspects of it. I am not sure what the red
10 arrows mean, but the numbers certainly are indicative of Mazars
11 review.
12 Q And should Mazars have observed that in 2017 the
13 value of the triplex changes from 327 million to 116,800,000?
14 A Yes.
15 Q And should Mazars have observed that that change was
16 due to a reduction in the square footage of the triplex?
17 MR. WALLACE: Objection.
18 THE COURT: Is it about the word "should"?
19 MR. WALLACE: No, it is about there was a change
20 in the square footage. I think the question suggests
21 there was a change in the square footage, as opposed to
22 the reported square footage.
23 THE COURT: Well, I'll sustain on that basis
24 too. I'll point out the word "should" is sort of a vague
25 term. Are we talking morally, legally, practically?

Flemmons - by Defendant - Direct(Suarez) Page 4394

1 Q Should Mazars in performing a compilation under the
2 professional standards, have observed a change in the square
3 footage -- on the reported square footage of the triplex from
4 30,000 square feet to 10,960 square feet?
5 THE COURT: What do you mean by "should they
6 have"? Again, would he have expected to? Is that
7 required under GAAP? Is that required under the law,
8 which would be a legal question.
9 Mr. Kise, go ahead.
10 MR. KISE: Yes, Your Honor. As the Court knows,
11 this witness is a professional expert on the accounting
12 standards that apply to accounting firms like Mazars. He
13 spent a good portion of his career with the SEC overseeing
14 and evaluating auditors and accountants. So the question,
15 and perhaps Your Honor is correct maybe it needs to be
16 formed more precisely, but the question is, in his opinion
17 as an expert, do the AICP standards -- do the governing
18 standards require, would they have required, should they
19 have required Mazars to do that?
20 THE COURT: Well that's a totally different
21 question.
22 MR. KISE: Well, I mean, it is, well, should --
23 I mean, it is the same, would the standards have required
24 or should they have known so. It is certainly within this
25 expert's purview to opine whether, in his opinion, Mazars

Flemmons - by Defendant - Direct(Suarez) Page 4395

1 should have flagged this.
2 THE COURT: No, because "should" is an ambiguous
3 term. I think we agree. If the question is would the
4 governing standards require them to.
5 MR. KISE: Fair enough.
6 MR. WALLACE: I would note that the witness
7 during his time over at the SEC oversaw actions against
8 issuers, not just accountants. So if you want to ask
9 questions about how issuers view this.
10 MR. KISE: I mean, to limit it I was using a
11 specific example, because we are talking about
12 accountants.
13 THE COURT: Let me try my hand. I like to
14 play lawyer occasionally.
15 Would the governing standards require Mazars to
16 notice the difference -- notice the discrepancy, I'll call
17 it?
18 THE WITNESS: The answer is yes, because under
19 AR 80, which is the prevailing standard that applies to
20 Mazars in performing the compilation service, they are
21 required to understand the methodologies that are being
22 used to value these properties. And these are significant
23 values, the 327 million, the 116 million. And the
24 methodology being used is largely based on the square
25 footage, which was the only change -- only material change

Flemmons - by Defendant - Direct(Suarez) Page 4396

1 from one year to the next. So in gaining the
2 understanding of the methodology used, I would have
3 expected them to understand that that square footage
4 changed year over year.
5 THE COURT: The question isn't whether you would
6 expect them to question, it is whether they were required
7 to. I think you said yes.
8 THE WITNESS: I did say yes at the beginning of
9 my answer. I am sorry if that didn't come across, but the
10 answer is yes.
11 THE COURT: Okay.
12 THE WITNESS: And I should add, every question
13 asked of me with "shoulds" and "woulds" my answers have
14 all been in relation to the applicable professional
15 standards that are applicable to Mazars, which is AR 80
16 and AR-C 80.
17 THE COURT: And just to be 100 percent clear, it
18 is that -- it is not just in your experience what would
19 likely happen, you are answering as to what was required
20 under the governing standards?
21 THE WITNESS: That's correct.
22 THE COURT: Let's move on.
23 Q Would the governing standards require Mazars to
24 advise management as to what the appropriate disclosure was as
25 a result of that change?

Flemmons - by Defendant - Direct(Suarez) Page 4397

1 MR. WALLACE: I am going to object, that's
2 leading.
3 THE COURT: As opposed to what would the
4 governing standards require? Sustained.
5 Q What would the governing standards, if anything,
6 require Mazars to advise management with respect to the
7 reporting of that change?
8 A Well, as I said before, they would need to understand
9 the basis of the methodologies that are being used, and in
10 seeing that change, you know, may inquire about the nature of
11 that change. And it would be required of them to make a
12 determination on whether that change necessitated additional
13 disclosure in either the financial statements or the
14 accountant's report, and to assess that with management.
15 Q All right. We can move on to the Aberdeen supporting
16 data.
17 MR. SUAREZ: If you type in "Scotland" it will
18 come out.
19 Thank you.
20 Q I would like to draw your attention to the method
21 used for determining the estimated current value of the Trump
22 International Golf Club in Scotland. You see all the way at
23 the bottom it says: Value of residential parcel?
24 A Yes.
25 Q It is based on a purchase of land by Persimmons,

Flemmons - by Defendant - Direct(Suarez) Page 4398

1 Hopecroft, Bucksburn and value of land per home. Do you see
2 that?
3 A Yes.
4 Q And it records a number of homes to be sold at 2,500.
5 Do you see that?
6 A Yes.
7 Q Now, is that an appropriate measure of a planned
8 course of action to determine estimated current value?
9 MR. WALLACE: Objection to the extent he is
10 asking something beyond whether it is appropriate from an
11 accounting standard.
12 MR. SUAREZ: I am only asking about the
13 methodology.
14 THE COURT: Overruled.
15 A So this methodology appears to be based on a future
16 expectation of sales and the revenue streams that are
17 associated with those sales, which would be a method under ASC
18 274 to the extent those were discounted.
19 (The following proceedings were stenographically
20 recorded by Senior Court Reporter Michael Ranita.)
21
22
23
24
25

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4399

1 Q Now, ultimately, the number of homes to build was less
2 than that that was planned for, the amount of land wouldn't
3 change; correct?
4 A I wouldn't expect the amount of land to change, no.
5 Q Even if the planned course of action -- let me withdraw
6 that.
7 If the planned course of action turns out not to be
8 feasible, would that necessarily preclude, at the time, the use
9 of that planned course of action in determining estimated
10 current value?
11 A It would not preclude using that methodology under
12 ASC-274. The amounts may change, but the methodology itself
13 would not.
14 Q Moving onto the 2011 Statement of Financial Condition
15 at Plaintiff's Exhibit 787, and the supporting data at
16 Plaintiff's Exhibit 1873.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 (Whereupon the exhibits were handed to the
20 witness.)
21 Q If we could turn to the valuation of 40 Wall on the
22 supporting data.
23 Is the method used for determining the estimated
24 current value of 40 Wall in 2011 consistent with ASC-274?
25 A Based on the description in this work paper, it appears

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4400

1 that the method being used is a capitalization of future
2 earnings, which is an acceptable method under ASC-274.
3 Q If management possessed an appraisal that had a wildly
4 different value, would that preclude management from using this
5 method in determining estimated current value?
6 A No, it would not. Um, this method of using cap rate of
7 perspective earnings is an acceptable method. The use of an
8 appraisal as an alternative is an option, but it's not mandated
9 by the standard.
10 THE COURT: We've heard this exact testimony
11 before. You could use one of the acceptable methods. You
12 don't have to use another. You could use it even if there
13 is an appraisal, even if the appraisal is wildly different.
14 So I hope you don't have to hear it again.
15 And obviously it was not directed at the witness,
16 it was directed at someone else.
17 MR. KISE: I think, Judge, all that we are doing
18 now, in an effort to streamline this, you have identified,
19 and the government has identified specific items in specific
20 years, and so I think it's important for the record for us
21 to establish, with respect to those items. Unlike the
22 government, we don't believe that you could just assume
23 everything is the same based on -- based on one year. So we
24 -- all we are doing is, hopefully very efficiently going
25 through the specific items that have been identified and

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4401

1 pointing out that there is GAAP compliance, notice, et
2 cetera, et cetera, I mean, the various things.
3 So, yes, there would be some repetition, but we are
4 not going through every statement -- every item in every
5 year. We won't be doing that.
6 THE COURT: We probably shouldn't have to go
7 through more than one to ask the question, if there's an
8 appraisal with a different value, can you still use one of
9 the methods that GAAP approves. And the answer is, "Yes."
10 MR. KISE: But the answer is not yes with respect
11 to specific items that have been identified.
12 For what clearly may be the Appellate record, we
13 need to make sure that it's very clear in the record that
14 the specific items have a specific, you know -- have been
15 addressed specifically in the record. We can't -- we can't
16 just assume, because if we get to the Appellate court, they
17 are going to say, "Nobody asked him if this particular item
18 in 2011 or 2015 or 2017 complied with GAAP or didn't comply
19 with GAAP."
20 Again, the government has taken the view that we
21 could just look at one year and assume all else is the same;
22 that's their prerogative. But I think we have to be allowed
23 to at least make our individualized record.
24 THE COURT: I think you are giving the Appellate
25 Division less credit than they deserve.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4402

1 Mr. Solomon.
2 MR. SOLOMON: I was noting, your Honor, if Mr. Kise
3 is going to describe what's going to be asked of the witness
4 going forward and the like, the witness should probably be
5 excused for the discussion.
6 MR. KISE: That's fair.
7 THE COURT: I don't think we need to.
8 Mr. Suarez, you could ask the same questions again,
9 but you really don't have to because it's the same thing
10 whether it's one year or the other. And I won't repeat
11 myself, but go ahead. I'm not stopping you from doing
12 anything.
13 MR. WALLACE: Your Honor, I'm going to raise a
14 totally separate objection. I'm not sure the document up on
15 the screen, Plaintiff's Exhibit 1873, is, in fact, the final
16 Jeff's Supporting Data for 2011. So it's not clear to me
17 whether or not the witness has reviewed this particular
18 document in preparing his opinion.
19 THE COURT: Mr. Suarez or Kise?
20 MR. KISE: Is this the one that's already in
21 evidence, 787? I don't remember the numbers, so I
22 apologize. I'm going to rely on the folks that really know
23 this.
24 MR. AMER: We did put in some of the earlier drafts
25 into evidence, so whether it's in evidence or not doesn't

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4403

1 determine the question.
2 MR. WALLACE: I would note my records indicate that
3 Plaintiff's Exhibit 788 is the version that Mr. Bender
4 clarified was the final version of the supporting data.
5 MR. KISE: It's a good catch. They are much more
6 careful about these things than me. That's a good catch.
7 Thank you.
8 MR. SUAREZ: I will just say we were going there.
9 Plaintiff's Exhibit 788. Let's pull that one up as well.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 MR. SUAREZ: To be sure, this is the one that has
13 the red and blue tick marks.
14 Q And here, again, we actually see a value of
15 524,688,000. And if we turn to the statement of assets on the
16 Statement of Financial Condition, for 40 Wall Street, we see
17 524,700,000 is the asset value that's assigned.
18 That appears to be -- is that consistent with the
19 number that's in the support data?
20 A Yes. And I believe the last version we just saw had a
21 total of around 600 million, which is different than what's in
22 the Statement of Financial Condition, but this supporting
23 schedule appears to tie to the 2011 statement.
24 Q It appears that it was rounded up by about \$12,000 when
25 it was placed on the Statement of Financial Condition?

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4404

1 A Yes.
2 Q Okay.
3 What methodology is used here to determine the value of
4 40 Wall Street?
5 A The methodology appears to be similar, if not the same,
6 as the last version we saw, albeit with different numbers, but
7 the methodology is a capitalization of future earnings, which is
8 an acceptable method under ASC-274.
9 Q Just so that the record is clear, would it have been
10 appropriate to use the methodology that was used in Plaintiff's
11 Exhibit 788, even if management had, in its possession, an
12 appraisal that showed a wildly different value?
13 A Yes.
14 Q Would that be for the same reason that you previously
15 stated?
16 A That's correct.
17 Q And if we could move to the 2012 Statement of Financial
18 Condition at Plaintiff's Exhibit 815.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q And the support data at Plaintiff's Exhibit 793.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 (Whereupon the exhibits were handed to the
25 witness.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4405

1 Q On the left, is that the Statement of Financial
2 Condition for President Trump in 2012?
3 A Yes.
4 Q And on the right you see the backup for that the Jeff's
5 Supporting Data?
6 A Yes.
7 Q If we could move to 40 Wall again on this document.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q Is the method used for determining estimated current
11 value for 40 Wall, in 2012, consistent with estimated current
12 value definition in ASC-274?
13 A Yes. It appears to be capitalization of earnings,
14 which is a permitted method under ASC-274.
15 Q And would it -- withdrawn.
16 Would it be appropriate to use the income
17 capitalization method if management had in its possession an
18 appraisal that reflected a wildly different value?
19 A Could you repeat the question, please.
20 Q Yes.
21 Would it be appropriate to use this method for
22 determining estimated current value even if management had, in
23 its possession, an appraisal that had a wildly lower value in
24 its possession?
25 A Yes. They could use either one.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4406

1 Q Moving onto the Trump Park Avenue in 2011 and 2012.
2 You have the comparative values here at Plaintiff's Exhibit 793.
3 Is this an appropriate method for estimating current
4 value, according to ASC-274?
5 A It appears so. It's -- it appears to be based on,
6 again, using a cap rate against earnings. The only question I
7 have is the cap rate line has a number ten in both column D and
8 E. I assume that's ten percent, which is what I would expect
9 for a cap rate to reflect, but beyond that, it looks like it
10 comports.
11 Q And that's for the commercial space. Above you see a
12 line for the unsold units that says "valuation is based on the
13 anticipated selling price of unsold residential units and the
14 selling price or the rental income stream to be delivered from
15 the commercial space."
16 Do you see that?
17 A I do.
18 Q With respect to the anticipated selling price of the
19 unsold residential units, would that anticipated selling price
20 have any limitation on the time horizon that management would
21 need to consider in preparing that estimate?
22 A No. And the only other component that I'm not seeing
23 here that may be relevant would be potential discounting of
24 these cash flows pertaining to the unsold units.
25 I'm not sure exactly how the unsold units corresponds

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4407

1 with the commercial space. I would need to spend a little more
2 time with this. The cap rate would take care of discounting
3 that looks to only be relevant for a portion of the asset being
4 valued here.
5 Q What obligation would Mazars have had to undertake the
6 analysis that you just described?
7 A Again, in order to comply with professional standards
8 and seek to understand the methods being used, I would expect
9 that they would ask the same questions that I'm raising now,
10 given the requirements.
11 Q Would you expect those questions -- withdrawn.
12 Would you expect management to rely on its outside
13 accountant for guidance on the appropriate method for
14 determining estimated current value?
15 MR. WALLACE: Objection. Leading.
16 THE COURT: Sustained.
17 Q Under the professional standards, what, if any,
18 obligation would Mazars have to provide guidance to management
19 on the determination of estimated current value?
20 A Well, their obligation under the professional standards
21 is to understand the methods being used and to identify or
22 respond to any GAAP departures, and to followup on such
23 departures with management, to make inquiries that could
24 potentially lead to adjustments to the reported amounts in the
25 Statement of Financial Condition, and/or lead to additional

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4408

1 disclosure in the accountant's report.
2 Q And if management provided insufficient information to
3 make a determination as to whether estimated current value was
4 appropriately determined, what obligation would Mazars have to
5 provide guidance to management?
6 A Well, under the professional standards they would be
7 required to cure not having received sufficient information by
8 seeking and obtaining sufficient information. If they are
9 unable to get sufficient information to resolve the issue, then
10 as we've said many times, the accountants have the vehicle
11 through the accountant's report to communicate those issues.
12 Q Moving onto the 2018 Statement of Financial Condition
13 at Plaintiff's Exhibit 773 and the supporting data at
14 Plaintiff's Exhibit 774?
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 (The exhibits were handed to the witness.)
18 Q If we move to the supporting data for the Trump Park
19 Avenue.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q You'll note again that the valuation is based on the
23 anticipated selling price of unsold units.
24 A Yes.
25 Q And is that method consistent with the use of a planned

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4409

1 course of action for determining an estimated current value?
2 A Yes.
3 Q And further on down do you see for the Mar-a-Lago Club,
4 again, it says "value if sold to an individual"?
5 A I do.
6 Q Is that consistent with the use of a planned course of
7 action for determining an estimated current value?
8 A Yes. It's based on the assumption of making future
9 sales.
10 Q And is that assumption made by management permitted to
11 rely on hypothetical conditions?
12 A Well, given that estimated current value is, by its
13 very nature, an estimate, and many of the allowable methods to
14 determine estimated current value look to the future based on
15 prospective cash flows or earnings, those methods are inherently
16 hypothetical.
17 THE COURT: Wait, wait, wait. It sounded like you
18 were saying because something is an estimate, you can use
19 hypotheticals. Is that your -- is that implicit in your
20 answer?
21 THE WITNESS: Well, the estimate is based on the
22 hypothetical of making sales in the future.
23 THE COURT: Okay, but -- that doesn't answer -- I
24 think the question was more, can you make a statement -- put
25 a number down based on a hypothetical? Was that really the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4410

1 basis to the question?
2 MR. SUAREZ: Yes.
3 Q Can you put a number on it based on a hypothetical?
4 A Yes, that's implicit in the standard.
5 THE COURT: Okay. But it has nothing to do with
6 estimations, particularly, although everything about the
7 future is an estimate. But your answer is basically, yes,
8 you can base a number on hypotheticals?
9 THE WITNESS: That's correct.
10 THE COURT: Okay. Good.
11 Q To what extent does the definition of estimated current
12 value under ASC-274 permit management to assume the existence of
13 hypothetical conditions in the future?
14 THE COURT: A five-minute warning.
15 A Can you repeat that, please.
16 Q Yes. To what extent does ASC-274 permit the use of
17 assumptions in hypothetical conditions by management in
18 considering planned courses of action?
19 A Well, this goes back to my previous answer that ASC-274
20 is inherently an estimate that is laden with assumptions and
21 hypotheticals. Um, and there's a wide range of possibilities
22 that management can use in order to form those estimates.
23 So to the extent those are documented and disclosed and
24 understood, um, by the accountant that's compiling these
25 financial statements, then that has been adequately

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4411

1 communicated.

2 MR. WALLACE: I'm just going to note a relevance

3 objection at this point. The witness has been on the stand

4 almost a full day. If there is a specific hypothetical they

5 want to ask the witness about, they should just ask about

6 that hypothetical. These general questions of "Can we

7 include hypotheticals?" "What are estimates?" We've

8 covered that.

9 So I guess my objection is either relevance or

10 asked and answered, at this point.

11 THE COURT: Well, overruled, especially because we

12 are almost about to break.

13 And you have, again, you could cross examine until

14 your heart's content:

15 A two-minute warning.

16 Q What constraints, if any, are imposed on management by

17 ASC-274 when considering hypothetical conditions?

18 A Well, ASC-274 doesn't really get into constraints, but

19 it does provide, as we've talked about, a lot of latitude, not

20 just in terms of the methods that can be used, but how they can

21 be applied. And it is essential to develop a base of

22 assumptions in order to, you know, generate values using those

23 methods. But it is silent to constraints.

24 MR. SUAREZ: Your Honor, I'm at a good breaking

25 point in my outline. I'm going to work in the lunch hour to

Page 4412

1 bring this in for a landing quickly.

2 THE COURT: How much longer do you expect the

3 direct questioning to be?

4 MR. SUAREZ: I have another two or three sections

5 on my outline. I'm going to collapse those into one.

6 THE COURT: All right. How long do you expect your

7 questioning to be?

8 MR. SUAREZ: About a half hour, 45 minutes.

9 THE COURT: Okay. All right. Have a good lunch,

10 everyone. See you at 2:15.

11 (Whereupon, the case on trial was adjourned until

12 2:15 for the luncheon recess.)

Flemmons - by Defendant - Direct(Suarez) Page 4413

1 COURT OFFICER: All rise. Part 37 is back in

2 session. The Honorable Judge Arthur Engoron presiding.

3 Please be seated and come to order.

4 THE COURT: Okay. Let's get the witness back in

5 the box.

6 (Whereupon, the witness resumed the stand.)

7 THE COURT: And I will remind you, as I remind

8 them all, you are still under oath.

9 And Mr. Suarez, please continue with the direct

10 examination.

11 MR. SUAREZ: Thank you, Your Honor.

12 If we could put up Plaintiff's Exhibit 815 and

13 793, the 2012 statements.

14 And turn to the golf courses, the club

15 facilities. Scroll down. A little further down. All

16 right.

17 Q Mr. Flemmons, please take a look at the Trump

18 International Golf Club in Florida. Have you reviewed the

19 method -- withdrawn.

20 What method is used for establishing the value of the

21 Trump International Golf Club in Florida in 2012?

22 A It appears it is based on estimate of future cash

23 flows in the form of future memberships.

24 Q Is that method consistent with ASC 274 as a basis for

25 determining estimated current value?

Flemmons - by Defendant - Direct(Suarez) Page 4414

1 A Using future cash flows is an acceptable method under

2 the accounting standard. However, I would -- it also calls for

3 those future cash flows to be discounted.

4 Q Is discounting -- withdrawn.

5 Does it appear from the supporting data that the

6 future cash flows have been discounted?

7 A Can you please scroll down a little on the screen? I

8 don't see that any discounting is being applied, unless it is

9 somehow already subsumed in the asking price amounts. But

10 based on reading this, I would infer that it is not discounted.

11 Q And was the apparent lack of discounting disclosed to

12 Mazars in the supporting data?

13 A Well, since this supporting data was provided to

14 Mazars, you know, given the references to the tick marks, the

15 lack of discounting or the apparent lack of discounting was

16 disclosed to them.

17 Q And if you keep scrolling down you would see that the

18 same method is used for the Trump National Golf Club in

19 Briarcliff; Bedminister --

20 MR. SUAREZ: Keep scrolling.

21 Q -- and Colts Neck; as well as Washington DC;

22 Philadelphia; the Hudson Valley Club.

23 MR. SUAREZ: And stop.

24 Q For those Golf Clubs, was the method that we just

25 discussed -- was the method for determining estimated current

Flemmons - by Defendant - Direct(Suarez) Page 4415

1 value, consistent with the requirements of ASC 274?
2 A My answer is the same with regard to these properties
3 as it was to the previous one. The construct of how
4 evaluations were prepared are similar to the prior property.
5 And I don't see from this work paper any references to
6 discounting or use of a cap rate.
7 Q Was the lack of apparent discounting disclosed by the
8 supporting data to Mazars?
9 A In my view, it is clear on the face of this document
10 that there is no discounting. Again, with the very remote
11 caveat that it is included in some of these values. But my
12 conclusions from reviewing this document would be that there is
13 no discounting applied.
14 Q Would professional accounting standards require
15 Mazars to provide guidance to management on the appropriate
16 disclosure of this methodology?
17 A Yes, under professional standards their obligation is
18 to review the support for obvious GAAP departures. I believe
19 Mr. Bender testified to that as well. And to me this
20 constitutes an obvious GAAP departure that the accountants that
21 are performing the compilation would then have duties under the
22 professional standards to follow up on. I believe I referred
23 earlier to the requirement to perform inquiries, resolve the
24 discrepancies, either through the form of having adjustments
25 made to apply the discounting in this case, or to include

Flemmons - by Defendant - Direct(Suarez) Page 4416

1 disclosure in the accountant's report.
2 I will say that we have seen other examples of lack
3 of discounting. And Mr. Bender, as I have said before,
4 testified that the absence of discounting, he believed, was
5 subsumed in the disclosure in the accountant's report related
6 to the lack of using ECV for a substantial part of the assets
7 reported in the Statement of Financial Condition.
8 MR. SUAREZ: If we scroll up to the Trump Park
9 Avenue number.
10 Q Previously we reviewed the methodology for the Trump
11 Park Avenue number. You see up top it says: Valuation based
12 on the anticipated selling price of unsold residential units
13 and the selling price or the rental income stream to be derived
14 from the commercial space?
15 A Yes.
16 Q If certain of those units had rent control
17 restrictions on them, would determining estimated current value
18 based on proposed courses of action require the value of those
19 units be discounted?
20 MR. WALLACE: Just an objection as to whether
21 this is a valuation question or an accounting question.
22 MR. SUAREZ: As with all of the questions I have
23 asked this witness, I am asking about the relevant
24 accounting standards and the professional obligations to
25 achieve the estimated current value. It is not a

Flemmons - by Defendant - Direct(Suarez) Page 4417

1 valuation question. It is a, would proposed courses of
2 action require that those conditions limit the proposed
3 courses of action.
4 THE COURT: If you had waited a few moments I
5 would have said overruled.
6 MR. SUAREZ: Unlike Mr. Kise, I haven't learned
7 that rule, yet.
8 THE COURT: I am sorry, say that again.
9 MR. SUAREZ: I haven't learned the rule to be
10 quiet when --
11 THE COURT: Oh, now you know.
12 Anyway please answer the question. If you need
13 a readback or a restatement, please let us know.
14 THE WITNESS: Please read it back.
15 THE COURT: Read it back, please.
16 (Whereupon, the record was read back by the
17 court reporter.)
18 A Well, I'll speak to the accounting methodology and
19 not get into the valuation in determining the actual numbers,
20 which is a valuation topic.
21 But from an accounting methodology standpoint, the
22 planned course of action, as contemplated in ASC 274, would
23 cover and contemplate the idea that if a company or if these
24 properties do have rent control on them, but Mr. Trump intended
25 to hold those properties for a long time until some future date

Flemmons - by Defendant - Direct(Suarez) Page 4418

1 when perhaps the rent control was lifted for whatever reason,
2 and again it is a hypothetical, but if the intent and the
3 intent of the holding these assets for that long and the belief
4 that perhaps the rent would -- the rent control would lift at
5 some point in the future, that could be an assumption that
6 would be baked in to or could be baked into the determination
7 of estimated current value from an accounting standpoint. How
8 that, you know, translates into the numbers being applied, I
9 would defer to a valuation specialist.
10 THE COURT: Of course, but wouldn't you then
11 have to apply a whole discount? I mean, you are saying
12 basically, well, the owner could have held onto these
13 units until they were uncontrolled. But then -- then
14 that's money in the future. So doesn't that money
15 have to be discounted?
16 THE WITNESS: Well, there is, I think, two
17 concepts of discounting we are talking about here. I
18 think one is just the basic idea that if you are basing an
19 estimated current valuation on future cash flows, that you
20 would apply a discount rate anyway under GAAP.
21 I think the discount that we are talking about
22 here is, would you discount, again, the revenue streams
23 because of the rent control aspect associated with it.
24 THE COURT: Yes, I totally agree so far.
25 THE WITNESS: And I think that would likely get

Flemmons - by Defendant - Direct(Suarez) Page 4419

1 more into a valuation question on how that would be worked
2 into the valuation, because of, there could be a risk
3 possibility waiting aspect or component to the valuation
4 to address that.
5 But in terms of just the methodology as an
6 accounting point, the methodology could be used under ASC
7 274.
8 THE COURT: Okay. Thank you.
9 Q And would that be true with respect to each year that
10 this methodology was used to determine estimated current value
11 from 2011 forward for the Trump Park Avenue?
12 A Yes, the accounting standard, ASC 274, did not change
13 during that time period. So it would apply equally to that
14 timeframe.
15 MR. SUAREZ: We can turn to Plaintiff's Exhibit
16 756 and Plaintiff's Exhibit 742 in the supporting data.
17 And move to the license deals.
18 Q Do you see where it says management company
19 valuation?
20 A I do.
21 MR. SUAREZ: Can we pull up Plaintiff's Exhibit
22 751?
23 (Handing)
24 Q Do you see this is the Trump Hotel Collection Company
25 valuation summary page?

Flemmons - by Defendant - Direct(Suarez) Page 4420

1 A Yes, I see it.
2 Q Do you see the red and blue tick marks and the
3 indication on top, the PBC indication?
4 A Yes.
5 Q Do you see how the number in H939 ties out to the
6 total value in C 24?
7 A Yes, on a rounded basis, I see that.
8 Q Do you see that three of the properties that are
9 indicated in the summary page include the Trump Doral; the
10 Trump Chicago; and the Trump OPO?
11 A I do.
12 Q Would you expect an accountant preparing a
13 compilation report to understand that those three companies
14 were owned by Mr. Trump -- those three properties? Excuse me.
15 A Well, that's not clear on the face of the document
16 other than the property does have the reference to Trump before
17 all of them. Whether that's an ownership relationship or some
18 other license relationship, that's unclear to me.
19 But to answer your question, given Mazars, you know,
20 very extensive involvement with the Trump Organization and
21 working with Mr. Trump on -- with his properties in a variety
22 of capacities, as I have said before, in both auditing and tax
23 context, I would expect them to have the understanding as to
24 which of these properties were owned or license arrangements.
25 MR. WALLACE: Your Honor, I am going to note an

Flemmons - by Defendant - Direct(Suarez) Page 4421

1 objection. I don't know that this document, the Hotel
2 Collection Company valuation, was included in the
3 materials considered by Mr. Flemmons. Could we get a
4 clarification whether this is a new opinion he is offering
5 or part of the opinions he disclosed prior to trial?
6 THE COURT: Mr. Suarez?
7 MR. SUAREZ: I think this is the subject of
8 cross. But I am happy to.
9 MR. WALLACE: I think offering an opinion that
10 wasn't disclosed before trial is not something I have to
11 deal with on cross.
12 THE COURT: Mr. Suarez, can you -- do you want
13 to respond to, answer, cure? I am confused.
14 MR. SUAREZ: Yes. So the related-party
15 transactions are addressed at page 30 of this witness's
16 rebuttal report, which addresses the disclosure of
17 related-party transactions.
18 Now, the government never put up a witness, so
19 we can't offer this in rebuttal, but certainly it was
20 disclosed in the rebuttal report that the real estate
21 licensing developments were disclosed in the rebuttal
22 report.
23 THE COURT: Mr. Wallace, do you still need me to
24 rule on an objection?
25 MR. WALLACE: Yes. I still believe that the

Flemmons - by Defendant - Direct(Suarez) Page 4422

1 testimony he just offered about the -- is a new opinion
2 that was not disclosed prior to trial.
3 THE COURT: Please repeat or rephrase the
4 objection.
5 MR. WALLACE: Your Honor, we object to -- the
6 request was, can the witness clarify whether the document
7 that had been up on the screen previously was something
8 that he had reviewed or whether this was a new opinion.
9 THE COURT: Oh. Okay.
10 What's the answer to the question, if you
11 understand it?
12 MR. SUAREZ: It is not a new opinion. I am
13 asking him also under the professional standards whether
14 this is something that the accountant should have
15 considered in doing the compilation report, whether it is
16 something they would have seen when doing the compilation
17 engagement. It is marked PBC. It ties out to the
18 document in the supporting data which reports over to the
19 Statement of Financial Condition, which is what we have
20 been talking about all day.
21 MR. WALLACE: I guess, Your Honor, I would just
22 rephrase then. We object to the opinion to the extent it
23 is rebuttal only and was not part of his initial report.
24 We would also object to it -- to the fact that it is based
25 off of a document that he did not review prior to trial

Flemmons - by Defendant - Direct(Suarez) Page 4423

1 and was not disclosed to us as part of his report. And so
2 this portion of the opinion was -- is inappropriate.
3 THE COURT: Sustained.
4 MR. KISE: Your Honor, may we be heard on that?
5 THE COURT: Of course.
6 MR. KISE: So it is certainly part of his
7 opinions, because it is there up on the screen as part of
8 his opinions.
9 His opinions, like the other expert's opinions
10 are, I mean, there may be information subsequent to the
11 expert disclosure period that he has viewed, whether it be
12 evidence in trial or otherwise, that he is entitled to
13 rely on as long as it is consistent with his opinion. He
14 is not testifying about anything that is inconsistent with
15 his opinion. And it is an issue that has been raised at
16 trial. So, it doesn't necessarily have to be a document
17 that he saw before he rendered his opinion, as long as,
18 number one, his opinion has got the caveat that he can
19 review additional materials.
20 As Mr. Suarez said, I think this is the subject
21 of cross examination. They can cross examine him about
22 it. But to say that he is not allowed to testify about
23 something that is fully consistent with an opinion that
24 was disclosed, information that is based on the very broad
25 view of relevance in this case, I don't think there is a

Flemmons - by Defendant - Direct(Suarez) Page 4424

1 basis for that.
2 THE COURT: Well, the whole point of this expert
3 disclosure is so that there is no trial by ambush, so that
4 the other side knows what to expect the witness to say.
5 Isn't it? Is that sort of the bedrock point, Plaintiff?
6 MR. WALLACE: Yes, Your Honor.
7 MR. KISE: Your Honor, the point is to make sure
8 there are no opinions that are disclosed. But not
9 every -- it is not a gotcha, like, you never looked at
10 this document so you are not allowed to talk about it.
11 Experts are always allowed to talk about evidence that is
12 out there, even if they didn't look at it before. If they
13 want to cross examine him as to whether or not it is
14 consistent with their opinion or not consistent, but what
15 the experts are disclosing are opinions and the scope of
16 the opinion. Certainly the government had every
17 opportunity to ask about this document when they saw that
18 this was his opinion.
19 MR. WALLACE: This was not disclosed -- I am
20 sorry.
21 MR. KISE: They can't play a gotcha game with
22 the documents and evidence. The disclosure is designed to
23 disclose the nature and substance of his opinions.
24 THE COURT: And the basis, right?
25 MR. WALLACE: And the basis.

Flemmons - by Defendant - Direct(Suarez) Page 4425

1 MR. KISE: And the basis. But it is not
2 inconsistent with his basis. He is allowed to look at
3 other things just like their expert, McCarty, came in and
4 looked at new information which you allowed.
5 MR. WALLACE: I would say there is a difference
6 between looking at Your Honor's summary judgment decision
7 and considering a piece of evidence they could have shared
8 with him in preparing his initial report and could have
9 been disclosed to us as part of the basis for his opinion
10 at that time.
11 MR. KISE: Your Honor, they are both subsequent
12 information.
13 MR. WALLACE: I would note, to the extent that
14 exhibit they were looking at is not in evidence, so it is
15 not a piece of evidence that came in through another
16 witness and he is now considering sitting here, I believe
17 this is the first time the Plaintiff's Exhibit 751 has
18 come up at trial.
19 I have -- I stand by my objection that we have
20 not had proper notice. And as a rebuttal opinion, which
21 is not actually rebutting anything, it is not appropriate.
22 THE COURT: Well, I am back to, does it really
23 matter?
24 MR. WALLACE: Whether this comes in?
25 THE COURT: Yeah. Whether -- well, it is not a

Flemmons - by Defendant - Direct(Suarez) Page 4426

1 question of something coming in. It is a question of his
2 testifying. That's the question. You are objecting to
3 testimony. Not a document. Right?
4 MR. WALLACE: I am objecting to the fact that we
5 didn't get proper notice of this aspect of his opinion and
6 we did not get, to the extent that this forms part of his
7 opinions, it was not properly disclosed to us. And I will
8 stand by the objection.
9 THE COURT: All right. I am going to change my
10 mind and overrule the objection on the ground that there
11 is no jury, there is not going to be any prejudice here,
12 and let's just move on. Overruled.
13 Q Mr. Flemmons, going back to the management company
14 valuation, should Mazars have identified the Trump Doral; Trump
15 Chicago and Trump OPO formed part of the value for that
16 valuation?
17 THE COURT: It may be an issue again with
18 "should they." Morally?
19 Q What professional standards have obligated them to
20 read and understand and identify the fact that those three
21 entities were owned by Mr. Trump?
22 A In complying with their responsibility under the
23 professional standards to get an understanding of the basis for
24 the valuation of the management company, it appears that this
25 supporting schedule that itemizes each of these properties was

Flemmons - by Defendant - Direct(Suarez) Page 4427

1 provided to Mazars and formed the basis for that valuation.
2 So, in the course of gaining an understanding of the components
3 of that valuation, I would expect under the professional
4 standards that they would understand that those three
5 properties that you just mentioned were part of the valuation
6 for the management company.
7 MR. SUAREZ: And moving on. If we could go back
8 and pull up the Statement of Financial Condition, put that
9 on the left, PX-756. And then the supporting data on the
10 right, PX-742.
11 If we could turn to the property of Aberdeen.
12 And pull up in the supporting data the Aberdeen property.
13 There we go.
14 Q Can I draw your attention in the supporting data to
15 cell G 565. It indicates -- what does this cell indicate?
16 A It appears to be an estimate about the number of
17 homes that are expected to be built on this parcel.
18 Q And if you take a look at the Trump International
19 Golf Club in Scotland on page 15 of the Statement of Financial
20 Condition, and you take a look at the note, is the note
21 consistent with the supporting data as to the number of homes
22 that are planned to be built in that property?
23 A I don't see the number 2,500 in this disclosure.
24 There are other numbers that are broken down into different
25 parts, and I am not sure that those add up to the 2,500.

Flemmons - by Defendant - Direct(Suarez) Page 4428

1 Q If you add the 950 holiday homes to the 500
2 single-family residences and the 36 golf villas, that number is
3 1486. That's not the same as the 2,500. Correct?
4 A Correct.
5 (The following proceedings were stenographically
6 recorded by Senior Court Reporter Michael Ranita.)

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4429

1 Q Would have expected Mazars, in discharging their
2 professional standards, to ensure that there was consistency
3 between the supporting data and the Statement of Financial
4 Condition notes?
5 MR. WALLACE: Objection.
6 I believe this witness has testified that they are
7 not ensuring anything. They are not offering any assurance.
8 THE COURT: This would be just another example of
9 that, so overruled.
10 A Well, to be clear, and I've testified about this
11 several times over the last couple of days, Mazars absolutely
12 had an obligation under the relevant standards to review the
13 financial statements, review the supporting documentation,
14 understand the basis for violations, and evaluate whether the
15 disclosures were consistent with the methods that were contained
16 in the support; that's clear in the standards, and it's
17 indisputable.
18 So here we have an example where the number of homes to
19 build of 2,500 in the support is different than what's in the
20 disclosure. Um, in the process of compiling these financial
21 statements and the notes to the financial statements, that would
22 be something that an accountant performing a compilation would
23 be expected to identify as part of its compilation procedures
24 under professional standards.
25 MR. SUAREZ: If we could move down to the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4430

1 Mar-a-Lago property.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 MR. SUAREZ: Scroll up, up.
5 (Whereupon, the exhibit displayed on the screen was
6 scrolled through.)
7 MR. SUAREZ: Up.
8 (Whereupon, the exhibit displayed on the screen was
9 scrolled through.)
10 Q Here, with respect to Mar-a-Lago, in considering
11 planned courses of action, what, if any, limitation would be
12 imposed by certain alleged development restrictions on that
13 property?
14 A Well, ASC-274 doesn't really get into that level of
15 detail. We talked earlier about constraints. I would put that
16 in the same category; that said from an accounting perspective,
17 if there were reasons why The Trump Organization believed that
18 those restraints would be lifted in the future, that conformed
19 the basis for including estimated revenues and those projected
20 cash flows. Um, again, from a valuation perspective, whether
21 you would need to include some sort of risk waiting or
22 probability waiting, that's beyond my expertise.
23 Q Would the standards that we've discussed yesterday and
24 today, relative to Mazars' obligations and a compilation
25 engagement, also apply to Whitley Penn in connection with the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4431

1 compilation engagement that they performed on the 2021
2 statements?
3 A Yes. Whitley Penn would have been subject to the
4 requirements of AR-C80 for the 2021 Statement of Financial
5 Condition compilation.
6 MR. SUAREZ: Can we pull up D-25 and D-26.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 (The exhibits were handed to the witness.)
10 Q I know we touched on this yesterday, but I just want to
11 confirm that D-25 is the AR section that was in place after
12 2009, and D-26, ARC section 80A was the AR section that was in
13 place after December of 2015; correct?
14 A Yes, that's correct.
15 Q And these are the statements that would have governed
16 compilation engagements by Mazars and Whitley Penn at the
17 appropriate time?
18 A Yes. These are the authoritative standards that
19 applied to the compilation engagements by both Mazars and
20 Whitley Penn, say for ARC-80, was the only one that applied to
21 Whitley Penn.
22 There are -- there's also, I think, an interpretation
23 that we've seen, and we may have discussed that one yesterday,
24 that's also authoritative. And we also have talked about the
25 AICPA accounting and audit guide related to personal financial

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4432

1 statements that, as I said yesterday, represented industry
2 practice and best practices, and serves as, to this day,
3 guidance from the AICPA on how to carry out those engagements
4 and apply these standards.
5 MR. SUAREZ: Your Honor, we move into evidence D-25
6 and D-26.
7 THE COURT: Granted. They are in.
8 (Defendant's Exhibits D-25 and D-26 were admitted
9 in evidence.)
10 MR. SUAREZ: Can we pull up 836.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 (The exhibit was handed to the witness.)
14 Q Is this the document that you just referred to a minute
15 ago with respect to the interpretation of Section 80?
16 A Yes. This is the interpretation I was referring to.
17 MR. SUAREZ: We move D-836 into evidence.
18 THE COURT: Granted. It's in.
19 (Defendant's Exhibit D-836 was admitted in
20 evidence.)
21 MR. SUAREZ: And D-950 is already in evidence, and
22 we'll pull that up and just have the witness confirm.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q This is the practice guide that you just referenced a

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4433

1 minute ago.
2 MR. SUAREZ: I believe we moved it into evidence
3 before, but just so that the record is clear, this is D-950,
4 and we move it into evidence.
5 THE COURT: One way or another it's in.
6 MR. SUAREZ: Can we pull up ASC-274, D-27.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 MR. SUAREZ: I marked this for identification, but
10 I don't believe it's actually been moved into evidence, so I
11 move this into evidence.
12 THE COURT: Granted. It's in.
13 (Defendant's Exhibit D-27 was admitted in
14 evidence.)
15 MR. SUAREZ: And I would ask that we pull up D-452
16 and put it up side by side.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 (The exhibit was handed to the witness.)
20 MR. SUAREZ: From a housekeeping perspective, your
21 Honor, D-27, if we move to the page that has the definition
22 on estimated current value.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 MR. SUAREZ: This is a computer printout at D-27.

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4434

1 Can we scroll to the second, third page.
2 (Whereupon, the exhibit displayed on the screen was
3 scrolled through.)
4 MR. SUAREZ: Keep going.
5 (Whereupon, the exhibit displayed on the screen was
6 scrolled through.)
7 MR. SUAREZ: Here. Stop. The estimated current
8 value definition in D-27, at page four, is a mouse rollover,
9 so the printout doesn't capture it. So just for purposes of
10 completeness of the record, I would like to move in D-452,
11 which is ASC-274, but captures at Section 20 here --
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 MR. SUAREZ: -- the definition of estimated current
15 value.
16 Q Which I'll ask the witness to confirm is the definition
17 of -- the definition that's provided in the glossary section of
18 ASC-274-10-20?
19 A Yes, it is.
20 MR. SUAREZ: With that, I move Defendant's
21 Exhibit 452 into evidence.
22 THE COURT: Granted. It's in.
23 (Defendant's Exhibit 452 was admitted in evidence.)
24 Q Mr. Flemmons, in connection with your review of the
25 Statements of Financial Condition and the supporting data for

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4435

1 the period of 2011 to 2021, what if any GAAP departures did you
2 observe that was not covered by a disclosure contained in the
3 Statement of Financial Condition?
4 A I don't believe that I identified any GAAP departures
5 within the supporting materials that were not covered by
6 disclosures in the accountant's report, the notes to the
7 financial statements, um, between those two sources.
8 Um, we've talked about a lot of the departures and we
9 talked about a lot of the language that was in those places, and
10 I don't believe I have identified any additional or incremental
11 discrepancies with GAAP that were not covered by those
12 disclosures.
13 Q And with respect to the Statements of Financial
14 Condition, what, if any, GAAP departures did you observe that
15 were not readily apparent in the detail provided to Mazars for
16 the period 2011 to 2020?
17 A Apologies. Can you repeat that.
18 Q Sure. For the period 2011 to 2020, the Statements of
19 Financial Condition from 2011 to 2020, what, if any, GAAP
20 departure did you observe that was not readily apparent in the
21 detailed provided to Mazars?
22 A None. We've gone through a lot of the detail working
23 papers and support that was provided to Mazars to support the
24 valuations on the Statement of Financial Condition, and over the
25 course of walking through those, we've identified a number of

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4436

1 GAAP discrepancies that were in that support. I'm not aware of
2 other materials that identify additional GAAP deviations that
3 were not disclosed to Mazars.
4 (Whereupon, there is a brief pause in the
5 testimony.)
6 Q With respect to the support that was provided to Mazars
7 by management of The Trump Organization, did it accurately
8 describe the information provided by outside professionals and
9 how that information was incorporated into estimated current
10 value determinations?
11 MR. WALLACE: Can we get a clarification of what
12 description we are referring to. It's not clear to me from
13 the question which document he is referring to.
14 THE COURT: It was also a compound question, which
15 I don't always mind, but here I did. So can we get -- I'll
16 consider it withdrawn.
17 MR. SUAREZ: Okay, I'll withdraw it and try again.
18 Q What, if any, descriptions to the use of outside
19 professionals did you observe in the support provided to Mazars
20 by management for The Trump Organization?
21 A Well, there are a number of instances. I don't recall
22 the specific properties that those were linked to, but I do
23 recall in the support, um, for example, with Aberdeen, that was
24 one specific one I do recall where one of the inputs associated
25 with the valuation of that property, um, stemmed from a value

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4437

1 that came from a -- I believe it was a valuation firm. There
2 were also instances in which appraisals were used as the basis
3 for valuing the properties, and those would have come from
4 outside professionals.
5 Q Was the use of appraisals accurately described in the
6 Statement of Financial Condition?
7 A I believe so. I don't believe there was anything that
8 contradicted the use of appraisals, but also the use of other
9 bases for valuing the properties.
10 Q Was the basis for valuation of the properties in the
11 Statement of Financial Condition accurately described?
12 A I believe so, yes.
13 Q Was the use of outside professionals in the Statement
14 of Financial Condition accurately described?
15 A Yes. There was disclosure in the Statement of
16 Financial Condition for each year that referenced the fact that
17 valuations were, at times, um, developed through the use of
18 outside professionals, but I did not interpret that to mean that
19 that meant those valuations for those properties were based on
20 appraisals.
21 There are other ways to use outside professionals to
22 assist with components of valuations without being an appraisal,
23 which would all be consistent with the various ways that
24 properties can be valued under ASC-274.
25 Q Is it appropriate to consult with brokers that are

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4438

1 knowledgeable in the value of real estate in certain markets
2 when determining the use of comparable sales information?
3 MR. WALLACE: Objection. That's a valuation
4 question.
5 MR. SUAREZ: That's a methodology question.
6 THE COURT: Great minds think alike; that's a
7 valuation question. He's not a valuation expert.
8 MR. SUAREZ: It's a methodology question. I'm
9 asking of the ASC-274 contemplates conferring with experts
10 in the field, brokers in the field that are knowledgeable of
11 comparable sales, in order to achieve a determination of
12 estimated current value under ASC-274.
13 THE COURT: Let's ask the expert.
14 Is there something in any of the governing
15 literature that would address this issue?
16 MR. SUAREZ: We'll pull up ASC-274 on the screen?
17 THE COURT: Sure.
18 MR. SUAREZ: D-27.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 MR. WALLACE: Your Honor, I'm going to --
22 MR. SUAREZ: Pull up D-27.
23 MR. WALLACE: Never mind.
24 THE COURT: Withdrawn.
25 (Whereupon, the exhibit was displayed on the

J. Flemmons - by Defendant - Direct (Mr. Suarez) Page 4439

1 screen.)
2 MR. SUAREZ: We can turn to, I believe, subsection
3 55.
4 (Whereupon, the exhibit displayed on the screen was
5 scrolled through.)
6 MR. SUAREZ: Stop. 55-5.
7 (Whereupon, the exhibit displayed on the screen was
8 scrolled through.)
9 MR. SUAREZ: Dash six. Keep going.
10 (Whereupon, the exhibit displayed on the screen was
11 scrolled through.)
12 MR. SUAREZ: If go to C, "Appraisals based on
13 estimates of selling price and selling costs obtained from
14 independent real estate agents or brokers familiar with
15 similar properties in similar locations."
16 Q Do you see that?
17 A Yes.
18 Q What does that contemplate?
19 A Well, it's one of the many methods that is accepted
20 under ASC-274 for determining estimated current value for assets
21 or liabilities. And this particular one references obtaining
22 appraisals from real estate agents or brokers that are familiar
23 with similar properties.
24 So that is an answer to your first question that, yes,
25 the standard does contemplate that.

Page 4440

1 Q Does the term "appraisals" require the use of any
2 specific format of appraisal?
3 A No, it doesn't get into that level of detail.
4 Q Does it require that it be an MAI appraisal, for
5 example?
6 A No.
7 THE COURT: He already answered it didn't require a
8 particular time, so you don't have to ask him if it requires
9 a particular time.
10 MR. SUAREZ: Understood. May I have a moment to
11 speak with my colleagues, your Honor?
12 THE COURT: Of course.
13 MR. SUAREZ: Your Honor, I have no further
14 questions on my direct exam.
15 THE COURT: Anybody else from the defendants?
16 MR. ROBERT: No thank you, your Honor.
17 MS. HABBA: No thank you.
18 THE COURT: Will there be any cross examination?
19 MR. WALLACE: There will be, your Honor.
20 THE COURT: Let's start that in 15 minutes. So see
21 you all at 3:25.
22 (Whereupon, a 15-minute break was agreed upon and
23 taken by all parties.)
24
25

2 session. Please be seated and come to order.
3 THE COURT: Let's get the witness back in the
4 box.
5 (Whereupon, the witness resumed the stand.)
6 THE COURT: Mr. Wallace, please proceed.
7 MR. WALLACE: Thank you, Your Honor.
8 CROSS-EXAMINATION
9 BY MR. WALLACE:
10 Q Good afternoon, Mr. Flemmons.
11 I would like to clarify a couple of the points you
12 made just at the end of your exam. I believe in response to
13 questions from Mr. Suarez you said that it was your opinion
14 that there were no GAAP departures that were not disclosed in
15 the Statements of Financial Condition. And when I say the
16 Statements of Financial Condition, I am referring to the
17 complete document, that includes the accountant's notes and the
18 notes to the financial statement.
19 So, with that preface, let me restate the question.
20 Am I understanding correctly that it is your position that
21 there were no GAAP departures in the supporting spreadsheets
22 that were not disclosed in the Statement of Financial
23 Condition?
24 A I don't recall there being GAAP -- the GAAP
25 discrepancies or differences that were not disclosed or covered

Flemmons - by Defendant - Cross(Wallace) Page 4442

1 by the disclosures in either the accountant's report or the
2 Statements of Financial Condition.
3 Q Okay. And I also take it that your testimony was
4 that there were no GAAP departures that were not readily
5 apparent in the detailed supporting data that was provided to
6 Mazars as well?
7 A I don't recall seeing additional GAAP departures that
8 were outside of the materials that were provided to Mazars.
9 Q So I am just trying to make sure. Over the last two
10 days we have heard a lot of testimony about the
11 responsibilities that Mazars had for investigating issues, for
12 clarifying any questions that may come up. But since your
13 opinion is that there were no GAAP departures that were not
14 properly disclosed in the Statement of Financial Condition, I
15 take it it is also your position that there is no problem with
16 the work that Mazars performed, that everything made it into
17 the Statement of Financial Condition correctly. Is that your
18 position?
19 A Well, there were instances in the support that we
20 went over that was provided to Mazars where there were some
21 questions that I would have asked. Whether those would have
22 resulted in actual departures from GAAP, I don't know. But
23 again, the disclosures that were contained in the accountant's
24 report and the Statement of Financial Condition were, you know,
25 very specific at times and very broad at times, that covered a

Flemmons - by Defendant - Cross(Wallace) Page 4443

1 very wide landscape of the assets that were covered in the
2 financial statements.
3 Q But sitting here today, you are not aware of any
4 departures from GAAP that Mazars should have included in the
5 Statements of Financial Condition?
6 A Sitting here right now, I don't recall.
7 Q Did you undertake any examination to determine if
8 Mazars in this engagement, did, in fact, comply with its
9 professional standards?
10 A I don't believe I was privy to all of Mazars work
11 papers to be able to conduct that examination, so the answer is
12 no.
13 Q Okay. If we could go back to a couple of areas you
14 discussed with Mr. Suarez. I would like to ask you about
15 related-party transactions.
16 I thought I was left with the impression in your
17 report that, in fact, the failure to disclose the details of
18 certain related-party transactions was, in fact, a departure
19 from GAAP, and that it was not disclosed in the Statements of
20 Financial Condition; is that correct?
21 A We have to look at my report. I don't recall that
22 being my opinion. I don't recall being able to establish
23 whether or not the alleged related parties were, in fact,
24 related parties that should have been disclosed.
25 There is a specific standard within GAAP ASC 850 that

Flemmons - by Defendant - Cross(Wallace) Page 4444

1 lays out the criteria and defines what a related party is.
2 That has multi parts to it. How the entities that were in
3 question fit or don't fit within that definition is not
4 something that I undertook to ascertain. So whether or not
5 there was a disclosure requirement is an open question.
6 I think my expert report, the way I left it, was that
7 to the extent there is an undisclosed related party, that it
8 would be a disclosure issue, not necessarily an accounting
9 issue.
10 Q What's the difference between -- well, what do you
11 mean when you say "a disclosure issue"?
12 A Well, the title of ASC 850 is Related-party
13 Disclosures. And the standard revolves around the need to
14 disclose related parties and significant transactions with
15 those related parties. So it really does revolve around
16 disclosure.
17 Q And failure to make that disclosure is a violation of
18 GAAP, correct?
19 A If it is material.
20 MR. WALLACE: Can we pull up Mr. Flemmons
21 rebuttal report? And if we could go to page 12.
22 Q This is a table that you prepared in response to the
23 report of Mr. Lewis. And you say, I am going to direct your
24 attention to item G, that Mr. Lewis identified a departure
25 concerning the failure to disclose details of certain

Flemmons - by Defendant - Cross(Wallace) Page 4445

1 related-party transactions. Was the departure from GAAP
2 disclosed in SOFC, no. And you said, any failing is limited to
3 the disclosure and does not impact the amounts reported in the
4 SOFC.
5 So, the disclosure failure is itself a GAAP
6 disclosure, correct?
7 A Can you repeat that?
8 Q The disclosure failure is, itself, a GAAP -- I should
9 correct that. Is a departure from GAAP.
10 MR. WALLACE: If I may withdraw the question,
11 Your Honor, and I'll rephrase.
12 Q The failure to disclose the third-party transactions
13 is itself a departure from GAAP; is that correct?
14 A If there were a failure to disclose and it was a
15 material issue, then yes, it would.
16 This section of my report is Mr. Lewis identifying
17 GAAP departures, not me. I never agreed to the fact that these
18 were disclosable related parties or disclosable related-party
19 transactions.
20 Q So you didn't go to -- so you made no determination
21 one way or the other about whether or not the failure to
22 disclose related-party transactions was a GAAP failure?
23 A I didn't undertake to determine whether or not they
24 were related parties as defined in ASC 850 at all. So I did
25 not analyze whether or not there was a lack of disclosure of

Flemmons - by Defendant - Cross(Wallace) Page 4446

1 related-party transactions that should have been disclosed.
2 Q So you have no opinion one way or the other as to
3 whether there was a failure to disclose related-party
4 transactions?
5 A I do not. My only --
6 Q Sir, that was the question.
7 I believe you also discussed the reporting of cash
8 from certain Vornado entities with Mr. Suarez. Was that a
9 departure from GAAP?
10 A So you are talking about the 30 percent of the cash
11 balance of the Vornado entities?
12 Q Yes.
13 A I believe I said earlier that based on my review of
14 the document, it appeared that that would be a GAAP departure.
15 Q Okay. So that is a GAAP departure that wasn't
16 reported or disclosed in the Statements of Financial Condition
17 then?
18 A I would have to look back at the disclosures that
19 were made to see if that was directly covered by one of the
20 disclosures.
21 Q So then what was your basis for your statement
22 earlier to Mr. Suarez that there were no GAAP departures that
23 were not disclosed?
24 A I believe I said sitting here on the stand without
25 all of the documents in front of me to pour through, I said I

Flemmons - by Defendant - Cross(Wallace) Page 4447

1 don't recall whether or not there were.
2 Q So I am just trying to understand what weight should
3 we give your recollection on this then?
4 A Is that a question I need to answer?
5 Q Yeah, it is. How much weight am I to give it that
6 there are no GAAP departures that you don't recall were
7 disclosed; and we just discussed the cash which you said should
8 be disclosed?
9 MR. KISE: Objection. It is for the Court to
10 determine weight, not for the government. It is simply an
11 argumentative question.
12 THE COURT: I understand. Sustained.
13 Q How much work would you have to do -- well, I'll
14 confess I don't remember the --
15 You were asked to state your answers to questions
16 within a reasonable degree of professional certainty. How much
17 professional certainty are you able to provide on your
18 statement that there are no GAAP departures that were not
19 disclosed in the Statements of Financial Condition?
20 A I would say I have a reasonable certainty based on
21 the volume of materials that we have gone through so far in my
22 direct examination, where we saw numerous GAAP departures that
23 I believe all of which, certainly most of which, were covered
24 by the disclosures.
25 I don't recall if the cash issue that you identified,

Flemmons - by Defendant - Cross(Wallace) Page 4448

1 if that was specifically covered or not. That would be one I
2 would want to look back into. But that's the only one sitting
3 here right now that is in question.
4 Q We are at trial, there is not going to be another
5 opportunity to look at it. Is there something you would like
6 to look at now that would refresh your recollection on this
7 issue?
8 A We could look at the accountant's report.
9 Q Okay. Which year would you like to look at? We can
10 put it up here.
11 A I would say whichever year was the year that we
12 looked at the supporting schedule that contained the 30 percent
13 attributions.
14 Q I am sorry, did you want to look at the actual report
15 or the supporting data?
16 A The report.
17 Q Okay. 2016 Statement of Financial Condition is
18 Plaintiff's Exhibit -- I am sorry, we can pull up the 2014,
19 that's Plaintiff's Exhibit 730.
20 (Handing)
21 MR. SUAREZ: In case you want to move it along,
22 it was 2016 I showed him, not 2014.
23 MR. WALLACE: We can do 16. Sixteen is
24 Plaintiff's Exhibit 756.
25 Q Are you looking for the actual Statement of Financial

Flemmons - by Defendant - Cross(Wallace) Page 4449

1 Condition or the notes on the disclosure for cash and
2 marketable securities piece?
3 A Give me one moment, please.
4 So if you go to page, yeah, four, okay. And the
5 cash, marketable securities and hedge fund section, there is a
6 disclosure that cash, marketable securities and hedge fund
7 represent amounts held by Mr. Trump and amounts in operating
8 entities.
9 So we talked about that earlier which, you know,
10 would cover the instance where cash that is held in a joint
11 venture is being reported within the cash balance.
12 Q And is it your position that cash held by the Vornado
13 Partnership meets the FASB definition of cash for Donald Trump
14 sufficiently for him to report it on his Statement of Financial
15 Condition as his cash?
16 A Can you repeat that, please?
17 Q Sure.
18 Is it your position that the cash held by the Vornado
19 Partnership meets the FASB definition of cash for Donald Trump
20 sufficiently for him to report it on his Statement of Financial
21 Condition as his cash?
22 A I don't take that position. But the disclosure here
23 indicates that, and certainly covers the fact that that
24 happens.
25 The other aspect would be in order for it to be a

Flemmons - by Defendant - Cross(Wallace) Page 4450

1 departure from GAAP, it would have to be a material departure.
2 I have not undertaken to perform a materiality analysis, but
3 that would need to be done to conclude whether there is a GAAP
4 departure.
5 Q Did you do materiality analyses for all of the GAAP
6 departures that you discussed today?
7 A I have not done a separate materiality analysis.
8 However, the amounts that we have been talking about were nine
9 figure dollar amounts. This issue with regard to the cash is a
10 much smaller amount from my recollection.
11 Q Do you know one way or the other whether readers of
12 the report look at cash as a separate item for purposes of
13 making loans or any other commercial use?
14 A I don't know whether or not they look at cash
15 separately. As we have talked about, cash was part of one line
16 item in the financial statements that was combined with
17 marketable securities and hedge funds. And that fact was
18 disclosed in the financials. If a user of the financials
19 wanted to have the cash amount broken out separately, that's
20 something that could have been asked for.
21 Q I am just asking what was actually presented. And so
22 I am just trying to understand, is including the cash from --
23 from the Vornado --
24 MR. WALLACE: Let me withdraw that question, if
25 I can.

Flemmons - by Defendant - Cross(Wallace) Page 4451

1 Q So is it a departure from GAAP, putting aside --
2 well, now you have made it a complicated issue, so I'll try to
3 restart the question again.
4 Setting aside the materiality analysis, is excluding
5 the cash from the Vornado Partnerships a departure from GAAP?
6 A I think the fundamental recording or reporting of
7 partnership cash would not be consistent with GAAP.
8 THE COURT: Let me jump in a second.
9 To a certain extent I think this is law of the
10 case. And my question for the witness is: Is it your
11 position that number two, which is still highlighted,
12 discloses this, I'll call it, issue? And if so, which
13 sentence there discloses this?
14 THE WITNESS: Well, the first sentence, Your
15 Honor, is the one that I was referring to that informs
16 users that cash is being reported on the Statement of
17 Financial Condition that is from operating entities.
18 THE COURT: And would a reader realize that they
19 have -- a user of this, consider this 30 percent interest
20 to be held by Mr. Trump in an operating entity as cash?
21 THE WITNESS: Well it is unclear to me whether,
22 you know, if a user would know that or not. Because
23 again, this is an amalgamated line item with cash,
24 marketable securities and hedge funds. Cash is not
25 singled out, so if a user was interested in just the cash,

Flemmons - by Defendant - Cross(Wallace) Page 4452

1 again, that would be something that would need to be
2 requested.
3 THE COURT: Let's move on.
4 Q At the end of the examination by Mr. Suarez, you two
5 were -- he was asking you a number of questions about whether
6 certain -- certain properties were accurately described in the
7 Statements of Financial Condition. Do you remember that
8 testimony?
9 A You will have to refresh my memory.
10 Q Well, you had a series of questions and he asked you
11 if, I believe for Seven Springs, whether the disclosures in the
12 Statement of Financial Condition accurately described the
13 calculation on the Statement of Financial Condition. Do you
14 recall that?
15 A Was that in regard to the number of homes to be built
16 on that property?
17 Q I believe it was just a general question at the end
18 of his exam?
19 A I don't remember.
20 Q Let me ask a different question then.
21 Is "accurately described" the standard that is
22 applied in ASC 274 as to the accuracy of a statement that goes
23 into a personal financial statement?
24 A Well, the standard within ASC 274, I believe the word
25 that is used is "adequate."

Flemmons - by Defendant - Cross(Wallace) Page 4453

1 MR. WALLACE: Okay. Can we take a look at that?
2 And can we pull up Plaintiff's Exhibit 1609?
3 And go to page nine of 21. And if we look at the bottom.
4 It is the same as the other one, but this is the
5 one we marked. But this is ASC 274, which we have looked
6 at today. I'll represent it is identical and move it into
7 evidence, if there is no objection.
8 Your Honor, I am moving Plaintiff's Exhibit 1609
9 into evidence.
10 THE COURT: Granted. It is in evidence.
11 (Whereupon, the document referred to was deemed
12 marked for evidence as Plaintiff's Exhibit 1609 by
13 the Court.)
14 Q And if you look down at the bottom, it is item 4513,
15 Adequate Disclosure. And it states: Personal financial
16 statements shall include sufficient disclosures to make the
17 statements adequately informative. The disclosures may be made
18 in the body of the financial statements or in the notes of the
19 financial statements.
20 THE COURT: To financial statements.
21 MR. WALLACE: Thank you, Your Honor.
22 Q To financial statements. Is that the standard you
23 were referring to?
24 A Correct. And the caption there is adequate
25 disclosure, which is what I referred to a minute ago.

Flemmons - by Defendant - Cross(Wallace) Page 4454

1 Q Okay. And did you review all of the disclosures in
2 the Statements of Financial Conditions for 2011 through 2021 to
3 determine if they were adequately informative?
4 A I don't believe I did that for all of the
5 disclosures, no.
6 Q Okay. Why don't we take a look at -- I think you
7 covered this with Mr. Suarez. It is also in your report.
8 MR. WALLACE: But if we could pull up
9 Plaintiff's Exhibit 730, and go to page seven of 26.
10 Q And this is the disclosure for Trump Tower. And if
11 we scroll down to the third paragraph it states: "The
12 estimated current value of 707 million is based on an
13 evaluation by Mr. Trump in conjunction with his associates and
14 outside professionals, applying a capitalization rate to the
15 cash flow to be derived from the building operations."
16 And did you make a determination one way or the other
17 whether that disclosure was adequately informative?
18 A I don't believe I did that as part of my reports.
19 Q Does it require accounting expertise to know whether
20 or not this disclosure is adequately informative?
21 A Well, it is an accounting requirement. And it is a
22 very subjective one. And in order to comply with that
23 accounting requirement, and accountant's are one typically
24 preparing the financial statements, and accountants like Mazars
25 are also the ones who are, in this case, compiling the

Flemmons - by Defendant - Cross(Wallace) Page 4455

1 financial statements, I would say that accountants, you know,
2 should exercise that judgment in order to determine whether or
3 not that provision of ASC 274 has been met.
4 Q But the person that is supposed to be adequately
5 informative to is the -- or I should say, is for the reader of
6 the report to be adequately informed as to the means of
7 calculation, correct? That's the audience?
8 A That is the audience. But an accountant that is
9 preparing the notes to the financial statements and preparing
10 the financials in general, does prepare that information with
11 an eye towards the user of the financials, and is exercising
12 judgment on whether or not the disclosures do meet this ASC 274
13 requirement based on that lens.
14 Q And presumably, I believe you testified to this, a
15 reader of the financial statement do form their own view as to
16 whether this disclosure is adequately informed; is that right?
17 A Any reader could form their own opinion.
18 Q I'll just ask you, I believe in your report you said
19 using this example the user could make their own determination
20 of the value of Trump Tower compared to the amount reported on
21 the SOFC. Does that sound -- do you agree with that statement?
22 I can show you the report, but does that sound like
23 something you would agree with?
24 A The Statement of Financial Condition contained a lot
25 of detail and itemized most of the properties individually in

Flemmons - by Defendant - Cross(Wallace) Page 4456

1 and ascribed individual values to them, which would enable a
2 user, if they so chose, to form their own opinion on the values
3 of those properties.
4 Q So my question is specific to Trump Tower. Do you
5 have a view as to whether or not this disclosure would allow a
6 user of the financial statement to make their own determination
7 of the value of Trump Tower?
8 A Yes.
9 Q And how would they do that?
10 A Well, I don't think they would need necessarily this
11 disclosure to do that. They could do that based on the face of
12 the Statement of Financial Condition. You see the Trump Tower
13 is valued \$707 million, like other properties that have their
14 own values. And a user of the financials, whether it be a bank
15 or anyone else, would be able to do their own homework if they
16 so chose to come up with their own value and compare it to what
17 is on the Statement of Financial Condition.
18 MR. WALLACE: Okay. Why don't we pull up
19 Mr. Flemmons' expert report if we could?
20 (Handing)
21 MR. WALLACE: If we go to -- are we on page 13
22 paragraph 46? Yes.
23 Q So, this is your paragraph discussing Trump Tower.
24 Second sentence states: Using the 2014 SOFC as an example,
25 many of the assets are specific properties named on the face of

Flemmons - by Defendant - Cross(Wallace) Page 4457

1 the SOFC, allowing any user to make their own determination of
2 value, like Trump Tower, which was listed as \$707 million.
3 Note 3 to the 2014 SOFC disclosed that the value of Trump Tower
4 was determined by "applying a capitalization rate to the cash
5 flow to be derived from the building operations," but no matter
6 which method was used to determine the estimated current value,
7 a user could make their own determination of the value of Trump
8 Tower compared to the amount reported on the SOFC.
9 So I'll restate my question. How does that
10 disclosure allow a user to make their own determination of the
11 value of Trump Tower?
12 A I believe what you just highlighted and read back
13 into the record is almost identical to what I just testified
14 to. That one could come up with their own value for Trump
15 Tower based on the face of the financial statements
16 irrespective of the disclosure. But that the disclosure also
17 does provide additional context as to how the \$707 million was
18 determined, specifically that it was a capitalization rate
19 applied to cash flows.
20 (The following proceedings were stenographically
21 recorded by Senior Court Reporter Michael Ranita.)
22
23
24
25

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4458

1 Q The financial statement does not disclose the cap rate
2 that was used; is that correct?
3 A That's correct.
4 Q And the financial statement does not disclose the cash
5 flow to be derived from the building operations; is that
6 correct?
7 A I believe that's correct.
8 Q So someone reading this statement would not be able to
9 assess either the specific factors that Mr. Trump used to value
10 this property, the cap rate and the cash flow; is that correct?
11 A I believe that's correct, but what you are describing
12 here is the ability to recalculate how Mr. Trump calculated it,
13 not whether a user could come up with their own value.
14 Q And to your definition, someone calculating their own
15 value would just use the building name and the total valuation
16 listed here; there's no other information provided?
17 A Well, as I've testified over the course of two days,
18 there are many ways to determine value, particularly under
19 estimated current value of ASC-274. So they wouldn't
20 necessarily need to use a capitalization of earnings or cash
21 flows.
22 Q The issue of the financial statements could disclose
23 more information like the cap rate; is that correct?
24 A Sure.
25 Q And, in fact, the illustrative financial statements

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4459

1 contained in ASC-274 include cap rates in the disclosure; is
2 that right?
3 A There are illustrations in the appendices of ASC-274
4 that provide examples of disclosures, but they are, by no means,
5 intended to be script on what needs to be disclosed.
6 Q The question was, do the illustrations in ASC-274
7 include cap rates?
8 THE COURT: Do you mean all, or some?
9 MR. WALLACE: Why don't we actually take a look at
10 it, your Honor, if that's easier.
11 If we could pull back up Plaintiff's Exhibit 1609.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 MR. WALLACE: And if we could go to page 14 of 21.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q This is just to orient you, Mr. Flemmons. At the
18 bottom it says, "Illustrations" and it says, example one
19 "Illustrative financial statements. Item 55-8. This example
20 illustrates financial statements prepared following the guidance
21 in this subtopic."
22 Statements of Financial Condition, and that's 55-9,
23 "Illustrative statements, financial conditions follow."
24 This isn't the best formatted document. I'm just
25 showing you that.

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4460

1 MR. WALLACE: We'll flip to the next page, which is
2 17, I want to show you, of 21.
3 Q And here, we see there's an -- I want to direct your
4 attention to one of the items listed, which is Kenbruce
5 Associates. It's item listed, it refers to note four. I assume
6 that means there's a note that follows this disclosure of value
7 that would contain information about the Kenbruce Associates
8 valuation; is that correct?
9 A I believe that's right.
10 MR. WALLACE: If we could flip to the next page,
11 and find note four.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 MR. WALLACE: I'm sorry, one more.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 MR. WALLACE: If we could focus down on note four.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q It states, "The investment in Kenbruce Associates is an
21 eight percent interest in a real estate limited partnership.
22 The estimated current value is determined by the projected
23 annual cash receipts and payments capitalized at a 12 percent
24 rate."
25 Do you see that section?

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4461

1 A I do.
2 Q And so if a reader knows the cap rate and the final
3 value, then they would be able to calculate the cash flow that
4 is being used to value the asset; is that correct?
5 A Can you repeat that please.
6 Q Sure.
7 If a reader knows the cap rate and the final value,
8 they can calculate the cash flow that's being used; is that
9 correct?
10 A Yes.
11 Q So then a reader will be able to determine if they
12 think each of those numbers are reasonable; the cash rate, cash
13 flow and the final amount?
14 A They would be able to perform a recalculation.
15 Q Yeah, and determine whether the various inputs are
16 reasonable?
17 A Yes.
18 Q Okay.
19 Are there any examples in the illustration where a cap
20 rate is used and not disclosed?
21 A I would have to review the illustrations. Um, I don't
22 recall whether or not there's an example in ASC-274 where it
23 mentions that a cap rate is used beyond this one.
24 Q And I take it it's your opinion that disclosing the cap
25 right is not required; is that correct?

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4462

1 A That's correct. This is merely an illustration to show
2 and example of a disclosure. And I'll also add that this note
3 four, which is an example, is one sentence long. The disclosure
4 related to Trump Tower is multi paragraphs.
5 MR. WALLACE: Why don't we go back to that. That
6 is Plaintiff's Exhibit 730 on page seven.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 Q "Mr. Trump is currently" -- this is the paragraph that
10 deals with the valuation. What valuation use is there to the
11 fact that "Until Trump World Tower United Nations Plaza was
12 constructed, Trump Tower was the tallest residential building
13 and concrete structure in Manhattan", how does that aid
14 valuation?
15 A I'm not a valuation expert, but in my -- as an
16 accountant, and as a human being, I would suggest that that does
17 not have any bearing on valuation.
18 Q So not everything that's being disclosed here is
19 necessarily relating to the valuation. And I'll note that the
20 estimated current value is a single sentence as well; correct?
21 The sentence talking about the valuation and methods used to
22 calculate it. So just like the example, it's a single sentence.
23 A And there were additional disclosures below that get
24 into amounts that are relevant to the property.
25 Q Sure. And those are separately broken out. Those are

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4463

1 debts. Those are liabilities that he has related to the
2 building?
3 A Correct, but relevant to the property and reporting the
4 property in the Statement of Financial Condition.
5 Q And what are some reasons an issuer would not include a
6 capitalization rate in their disclosure?
7 A Not deeming it important to include that detail.
8 Q And what would be a reason why it's not an important
9 detail to include?
10 A Well, as we've seen over the course of today, and
11 yesterday, the supporting work papers that underlie these
12 valuations, there are numerous inputs, many assumptions, many
13 rates, many estimates, many cash flows. There are a lot of
14 moving parts within even one property, and you are singling out
15 cap rate.
16 Um, again, I think it's a discretionary topic. There's
17 no requirement under ASC-274 to provide specific rates or cash
18 flow information in the disclosures. It's a very subjective
19 requirement that's up to the preparer.
20 Q Not disclosing the cap rate, though, would obscure
21 whether or not a person making a financial report was using
22 inflated numbers for either the cash flow or the cap rate; is
23 that correct?
24 A No.
25 Q It would not hide that?

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4464

1 A No, because I think your question is premised on the
2 idea that preparing these financial statements and providing
3 them to users is the end of the conversation. A user who is
4 interested in getting those additional details, such as the
5 capitalization rate, can make those inquiries. And in my
6 experience, it's routine for users of financials to ask such
7 follow-up questions.
8 Q What are some examples where that happened?
9 A Well, in connection with my work in doing accounting
10 advisory work for public companies, um, and also for private
11 entities, you know, there are times when investors are making
12 follow-up inquiries of companies about disclosures. It's a
13 routine aspect of the accounting and reporting.
14 Q Can you provide us with a specific example of an
15 instance where there was a follow-up inquiry on a personal
16 financial statement that had been compiled. I'm asking for
17 something similar to what we are looking at here.
18 A Well, during my time at the SEC when we, and I, was
19 involved in reviewing personal financial statements for purposes
20 of evaluating ability to pay, we would often have to ask
21 follow-up questions of the defendant to get additional details
22 surrounding assumptions and details surrounding how their
23 financial information was prepared.
24 Q That's because if they don't provide you enough detail
25 it could obscure, I guess in the case you are talking about,

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4465

1 someone intentionally trying to lower their stated net worth?
2 A It may not be an intent to obscure. It could, you
3 know, be a lot of reasons of just not having put more details in
4 the information, and so it required additional follow-up. It
5 was easily curable with a phone call.
6 Q Did you ever, in your time at the SEC, encounter times
7 where people intentionally tried to lower their net worth in
8 order to avoid the ability not to pay a particular fine or
9 penalty?
10 A I don't recall coming across an instance where that was
11 deemed to be intentional. Sitting here right now, it's been a
12 while. But I do know that that process involved back and forth,
13 quite regularly, with the defendant.
14 Q When you say "deemed to be intentional", what do you
15 mean by that?
16 A I don't recall us endeavoring to try to understand
17 whether or not there was an intent to deceive the staff, or
18 feeling like there was, but, again, it's been quite some time.
19 Q So I'm going to go back to my first question.
20 Is your position that not disclosing the cap rate would
21 not have the effect of obscuring inflation if either the cap
22 rate or the cash flow being used to value the property were, in
23 fact, inflated? It's your view that they would not actually
24 achieve that?
25 A Well, as we said a minute ago, one would not be able to

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4466

1 recalculate how the \$707 million was arrived, based on this
2 disclosure alone, but that's easily curable.
3 Q My question, though, is, and I'll ask it again. If not
4 using the cap rate would allow someone to obscure the fact that
5 they are inflating either the cap rate or the cash flow that are
6 being used to reach the \$707 million valuation?
7 MR. SUAREZ: Objection, your Honor. Compound.
8 MR. KISE: And asked and answered.
9 MR. WALLACE: It hasn't been answered.
10 MR. KISE: It has. You just don't like the answer.
11 THE COURT: Well, it's been responded to, so I
12 think we should just move on.
13 MR. WALLACE: Fair enough, your Honor.
14 Can we take a look -- are we in 730? Can we go to
15 page -- actually, no. Let's pull up Plaintiff's
16 Exhibit 787.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 MR. WALLACE: This is the -- actually, I'll amend
20 it. Let's start with 788.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q Let's start with the supporting spreadsheet, assume
24 Mr. Flemmons, you recognize this document. This is the
25 supporting data spreadsheet for the 2011 Statement of Financial

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4467

1 Condition?
2 A That appears to be the case.
3 Q Okay. If we could go to row 112, this should be the
4 entry for 40 Wall Street.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q And if we look at the valuation method, it states,
8 "Average income for the five-year period 2013 to 2017", and has
9 added expenses for the five-year period 2013 to 2017.
10 I believe your testimony on this entry was that it was
11 appropriate under ASC-274, because it looked like the
12 capitalization of future earnings.
13 Does that sound about right? I'm happy to have you
14 restate it if you want to.
15 A I don't recall what my testimony was earlier.
16 Q Okay.
17 Is this an appropriate method of calculating the value
18 of 40 Wall Street under ASC-274?
19 A I would have to revisit the wording of ASC-274. I know
20 that one of the acceptable methods is capitalization of
21 earnings. And there's also another acceptable method, which is
22 discounted future cash flows. I would just need to revisit the
23 wording of the standard to be able to answer that question.
24 MR. WALLACE: Sure. Can we get the witness a copy
25 of Plaintiff's Exhibit 1609.

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4468

1 (Plaintiff's Exhibit 1609 was handed to the
2 witness.)
3 A Okay.
4 Q And so was the --
5 MR. WALLACE: You could put back up 788.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q So the question pending that you wanted to do more
9 research on was whether this valuation method is appropriate
10 under ASC-274. Is that, in fact, the case?
11 A So ASC-274 does state that one acceptable method is the
12 capitalization of past or prospective earnings.
13 Q Could you just direct me to which section of ASC-274
14 you are referring to?
15 A Paragraph 55-1 on page 13 of the version you gave me.
16 Q Okay.
17 So this is appropriate as a capitalization of
18 prospective earnings; correct? That's what you testified to?
19 A That's what it appears to be.
20 Q Okay.
21 MR. WALLACE: If we could turn to Plaintiff's
22 Exhibit 787.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 MR. WALLACE: If we could go to the page that has

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4469

1 40 Wall on it.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 MR. WALLACE: Okay.
5 Q If we look at the paragraph that says "The estimated
6 current value of \$524,700,000 is based upon a successful
7 renegotiation of the ground lease and an evaluation made by
8 Mr. Trump in conjunction with his associates and outside
9 professionals of leases that have been signed or are currently
10 subject of negotiation, and a cap rate was applied to the
11 resultant cash flow to be derived from the building's
12 operations."
13 Is this an adequate informative of the method that was
14 used in the supporting data?
15 A It appears to be consistent with the method that we
16 just discussed in ASC-274, with one exception.
17 Q Which is what?
18 A I would have substituted the word "earnings" for cash
19 flow. But the concept is the same, is that it's based on some
20 sort of, um, estimated earnings and applying a cap rate to that
21 amount.
22 Q Well, this says it's "the subject of leases that have
23 been signed or are currently the subject of negotiation."
24 MR. WALLACE: Can we split screen this with the
25 supporting data?

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4470

1 THE TECHNICIAN: Sure.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q This actually says that it's using an average of income
5 for the five-year period 2013 to 2017, so two years -- from two
6 years to six years out from the date of this financial
7 statement. So how is -- so they are not the same; correct?
8 A I'm sorry, what's not the same?
9 Q Well, "leases that have been signed or are currently
10 the subject of negotiation" are not the same as taking an
11 average of income for a five-year period, two years out. Those
12 aren't the same thing, are they?
13 A Well, I think you are overlooking the last part of the
14 highlighted paragraph where it says, "and a cap rate was applied
15 to the resultant cash flow to be derived from the building's
16 operations."
17 "To be derived" means future flows, which is exactly
18 what the supporting documentation reflects.
19 Q So to your reading, this adequately discloses that
20 "looking at leases that have been signed or are currently the
21 subject of negotiation", and that "there will be a resultant
22 cash flow from those leases", is the same as looking out for a
23 five-year period, two years in the future?
24 A It's not inconsistent with that disclosure.
25 Q Do you know, from a valuation perspective, if there's a

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4471

1 difference between using leases that have been signed or are
2 currently the subject of negotiation, and an average of income
3 and expenses from a five-year period starting two years in the
4 future?
5 MR. SUAREZ: Objection. The witness is not a
6 valuation expert.
7 MR. WALLACE: If the answer is, "no," the answer is
8 no.
9 THE COURT: I'm sorry, say that again.
10 MR. WALLACE: If the answer is no, he doesn't know,
11 then that's fine.
12 THE COURT: Well, I think it's maybe more
13 complicated than that. It's what is his expertise and how
14 he's been qualified.
15 Sustained.
16 Q But based on your accounting experience, you think that
17 those two are sufficiently close enough that this is adequately
18 informative?
19 A In my view, yes.
20 MR. WALLACE: Can we pull up Plaintiff's
21 Exhibit 783 -- 793, sorry.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 MR. WALLACE: Actually, the native.
25 (Whereupon, the exhibit was displayed on the

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4472

1 screen.)
2 Q Mr. Flemmons, I'll represent to you this is the
3 supporting data spreadsheet for the 2012 Statement of Financial
4 Condition. If we could go to row 110.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q This should be the 2012 entry for 40 Wall Street. The
8 entry states, "Income based on stabilized rents; expenses based
9 on 40 Wall Street, LLC, two thousand thirty one, eleven,
10 financial statements increased by three percent for inflation."
11 And it lists income rented space at 35 million, income vacant
12 space at 8 million.
13 Feel free to look at the rest of the valuation, but in
14 your view, does this valuation technique conform to ASC-274?
15 A Yes, it appears to fall under the same prong of ASC-274
16 that we just discussed, which is the capitalization of past or
17 prospective earnings.
18 MR. WALLACE: If we could split screen this with
19 Plaintiff's Exhibit 815, please.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 MR. WALLACE: If we could go to page ten of 24.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q So the valuation statement here says that "The

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4473

1 estimated current value of 527,200,000 is based upon a
2 successful renegotiation of ground leases and an evaluation made
3 by Mr. Trump in conjunction with his associates and outside
4 professionals of leases that have been signed or are currently
5 the subject of negotiation, and a cap rate was applied to the
6 resultant cash flow to be derived from the building's
7 operations."
8 Is that disclosure adequately informative as to the
9 method that was used to calculate the value of 40 Wall Street?
10 A In my view, yes, for the same reasons that we discussed
11 on the prior property.
12 Q So the fact that this valuation includes income for
13 vacant space, and vacant space is not mentioned in the Statement
14 of Financial Condition, is not something that you would think
15 should have been disclosed in this statement?
16 A Well, I would say that the reference to income, vacant
17 space on the supporting spreadsheet could very well be referring
18 to the leases that are currently the subject of negotiation.
19 Um, those two things correlate, potentially.
20 Q Potentially, but you don't know for sure one way or the
21 other?
22 A I don't. But they are not inconsistent on their face.
23 Q I believe you also had a discussion with Mr. Suarez
24 about whether it was appropriate to use these valuation
25 techniques in 2011 and 2012 if The Trump Organization was also

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4474

1 in possession of an appraisal that had a lower value for the
2 building.
3 Do you remember that testimony?
4 A I remember that testimony.
5 THE COURT: There's no way he could forget it. It
6 was said about 30 times.
7 MR. WALLACE: I'm laying my foundation, your Honor.
8 I'll try to keep it quick.
9 Q I believe you said, in addition, that you did not
10 believe management had an obligation to provide the accountants
11 preparing the compilation report with copies of appraisals if
12 they did not form the basis for the valuation in the Statement
13 of Financial Condition; is that correct?
14 A That's correct.
15 MR. WALLACE: If we could pull up a copy of your
16 expert report and go to paragraph 77.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 MR. WALLACE: Which I believe is on page 23 to 24.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 MR. WALLACE: If we could pull up the rest of this
23 paragraph so we could see it together, please.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

Page 4475

1 Q I'm going to focus your attention to the last statement
2 -- well, I'll read from the middle of your statement, which says
3 that, "However, there is simply no expectation or requirement
4 that is part of the compilation engagement that a client
5 assemble and provide all documents that have any bearing on the
6 reported asset. Instead, an accountant performing a compilation
7 only expects to be provided with the details supporting the
8 amounts to be reported in the financial statements, including
9 the back-up documentation and responses to the accountant's
10 inquiries. If appraisals were not used as the basis to report
11 asset values, an accountant would not expect such appraisals to
12 be provided by the client."
13 I see that you don't cite any specific accounting
14 standard in those opinions; is that correct?
15 A I don't see any citations here, no.
16 (Continued on the next page.)
17
18
19
20
21
22
23
24
25

Page 4476

1 Q And so this is based on your experience and practice;
2 is that correct?
3 A It is based on my experience and understanding of
4 industry practice.
5 Q And you have never actually prepared a personal
6 Statement of Financial Condition pursuant to ASC 274; is that
7 correct?
8 A I have performed compilations, but I have not
9 performed a compilation of a personal financial statement.
10 Q Over the course of your entire career, I believe you
11 testified that you worked on less than five compilation
12 engagements; is that correct?
13 A That sounds right.
14 Q Okay. And the last time you would have worked on any
15 compilation report would have been before the year 2000; is
16 that correct?
17 A That sounds right.
18 Q And so is that the scope of -- well, let me ask it
19 differently.
20 You then also said that you did not find it
21 professionally plausible, is that the right term, that
22 Mr. Bender would have asked for appraisals? Is that correct?
23 A We can look back at the testimony, that sounds like
24 the gist of what I was saying.
25 Q Okay. And you don't view their being any obligation

Page 4477

Flemmons - by Defendant - Cross(Wallace)

1 under the engagement letters between Mazars and the Trump
2 Organization for the Trump Organization to provide appraisals
3 if wasn't the specific thing that was being used to value the
4 property; is that fair?
5 A I would have to look back at the wording of the
6 engagement letters. I know one of the terms indicated that
7 information would be made available to the accountant, but it
8 did not say that all information would be provided to the
9 accountant.
10 Q Okay.
11 A Particularly information that had no bearing or
12 reflection in the Statement of Financial Condition.
13 Q So you get me there. How do you come to the
14 conclusion that an appraisal for the property that is being
15 valued in the Statement of Financial Condition would have no
16 bearing on the statement that is being reported in the
17 Statement of Financial Condition?
18 A Because it has no bearing on the reported value being
19 used to report that property on the Statement of Financial
20 Condition.
21 At some level where do you draw the line? If a
22 company or an individual performs valuation calculations using
23 every single method that is available under 274, which could
24 yield 12 different scenarios, there is no obligation on the
25 part of that individual to provide all of them to an

Page 4478

Flemmons - by Defendant - Cross(Wallace)

1 accountant. They are only going to pick one of them, put that
2 on the Statement of Financial Condition, give the accountant
3 the support for it, they can agree or disagree, but they are
4 going to be evaluating whether or not that is an appropriate
5 valuation in accordance with GAAP. There is no need to provide
6 the other 11 to the accountant.
7 THE COURT: Five minute warning.
8 MR. WALLACE: Thank you, Your Honor.
9 Q So in your view it is appropriate for a client to
10 potentially conduct 12 different valuations, pick the one that
11 is the highest, share with its accountants the exact basis for
12 that one calculation, and not tell them anything else about all
13 of the other valuations that they ran?
14 A That's correct.
15 Q Okay. Now over the course of the day though, you
16 have told us many times that you saw things in the supporting
17 data that raised red flags or would have caused you to ask for
18 more information. Do you recall that testimony?
19 A It sounds familiar.
20 Q So do you still think that it would be implausible
21 that Mr. Bender would have asked Mr. McConney for any
22 appraisals if he had them on the properties that were being
23 valued in the Statement of Financial Condition?
24 A I do find it implausible.
25 Q So does that mean you don't believe Mr. Bender?

Flemmons - by Defendant - Cross(Wallace) Page 4479

1 A I indicated yesterday the reason for believing that
2 it was implausible, and it is based on the professional
3 standards and the requirements that existed at the time --
4 Q I am asking for the implication of what you have told
5 us now. So does that mean you don't believe Mr. Bender?
6 MR. KISE: Objection is he asking the witness if
7 he thinks Mr. Bender is a liar?
8 MR. WALLACE: He is saying it. I want to know
9 if he is.
10 MR. KISE: No, you are saying it.
11 THE COURT: Objection sustained.
12 All he can say is that he find it is
13 implausible.
14 Q So you discredit Mr. Bender's testimony on that
15 account; is that fair?
16 MR. WALLACE: He has prepared an opinion.
17 THE COURT: It is clever, you know.
18 MR. KISE: Asked and answered.
19 MR. WALLACE: I believe I have not asked this.
20 Q Are you discrediting Mr. Bender's testimony in that
21 regard?
22 A His testimony is inconsistent with the standards
23 applicable in compilations.
24 Q If an auditor learned of this process that you
25 described where the issuer of an estimate went through and

Flemmons - by Defendant - Cross(Wallace) Page 4480

1 conducted 11 different valuations and came up with the one that
2 is the highest; under the professional standards, would they
3 have an obligation to ask for that additional information?
4 MR. KISE: Objection. Is he talking about under
5 the audit standards; is he talking about under the
6 compilation standards? He said auditor, so that implies
7 that there is -- it is time to go.
8 MR. WALLACE: Someone is suggesting we are done
9 for the day.
10 THE COURT: I have seen this in weddings.
11 MR. KISE: Which standard?
12 THE COURT: Which standard?
13 Q If the accountants were to have learned that the
14 client followed this procedure that you described of doing 11
15 different valuations and selecting the one that had the highest
16 value, under the professional standards, would the accountants
17 have an obligation to ask the client for that information?
18 A No. As long as --
19 MR. KISE: Objection, for what information?
20 THE COURT: For the fact that there were 11
21 methods of valuation and only one was given. Overruled.
22 MR. KISE: Okay. I see the question.
23 Withdrawn.
24 A My answer is no, because as long as the valuation
25 that is selected and reported in the Statement of Financial

Flemmons - by Defendant - Cross(Wallace) Page 4481

1 Condition is consistent with GAAP, and one of the accepted
2 methods of ASC 274, and the accountant will be evaluating the
3 appropriateness of that method based on that method alone.
4 MR. WALLACE: I think I am just about up. This
5 is a good time.
6 THE COURT: Will you be continuing with cross?
7 MR. WALLACE: I will be continuing with cross.
8 THE COURT: Any idea how long, roughly?
9 MR. WALLACE: I would hope not more than half an
10 hour in the morning.
11 THE COURT: All right.
12 I hereby order the witness not to discuss this
13 case or his testimony with anybody related to it while he
14 is still a witness.
15 I will ask Ms. Greenfield to go over the
16 schedule.
17 MS. GREENFIELD: So we are going to finish with
18 Mr. Flemmons tomorrow, but that should be at most an hour.
19 Correct?
20 MR. SUAREZ: We will have some redirect.
21 THE COURT: How much redirect?
22 MR. SUAREZ: Based on the cross, but I estimate
23 about a half hour.
24 MS. GREENFIELD: A half hour.
25 Who is after Flemmons tomorrow?

Flemmons - by Defendant - Cross(Wallace) Page 4482

1 MR. ROBERT: We have Mr. Collins tomorrow after
2 Mr. Flemmons.
3 MS. GREENFIELD: Who is after Collins?
4 MR. ROBERT: Mr. Laposa. Hopefully we will get
5 him done Thursday, if not Friday morning.
6 And then Mr. Giuliette Friday morning.
7 MS. GREENFIELD: Who was that?
8 MR. ROBERT: Gary Giulietti.
9 MS. GREENFIELD: How much direct do you have of
10 Mr. Giuliette?
11 MR. ROBERT: If we can get him early enough
12 Friday, hopefully done on Friday. Monday morning we have
13 another expert followed by Mr. McConney.
14 MS. GREENFIELD: I had only McConney on Monday.
15 Who is coming before?
16 MR. ROBERT: David Miller is starting. And then
17 we are going to go to Mr. McConney Monday afternoon and
18 all day Tuesday.
19 MS. GREENFIELD: Okay.
20 MR. ROBERT: Thank you.
21 (Whereupon the trial stood adjourned to Thursday
22 November 16, 2023, at 10:00 a.m.)

1 COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent. Laptops and cell
 4 phones will be permitted, but only to members of the
 5 press. There is absolutely no recording or photography of
 6 any kind allowed in the courtroom.
 7 Now be seated and come to order.
 8 THE COURT: I always wonder what happens if you
 9 are not seated and coming to order. But you don't want to
 10 mess with Tommy.
 11 Okay. It is exactly 10:00. Shall we continue
 12 with the cross examination of the witness?
 13 MR. WALLACE: Absolutely, Your Honor. The
 14 People are going to continue their cross examination of
 15 Mr. Flemmons.
 16 (Whereupon, the witness resumed the stand.)
 17 THE COURT: I'll remind the witness that he is
 18 still under oath.
 19 And Mr. Wallace, please proceed.
 20 MR. WALLACE: Thank you, Your Honor.
 21 CROSS-EXAMINATION
 22 BY MR. WALLACE:
 23 Q Good morning, Mr. Flemmons.
 24 A Good morning.
 25 Q If we could put up Plaintiff's Exhibit 1609, and go

Flemmons - by Defendant - Cross(Wallace)

1 to page 13.
 2 Mr. Flemmons, do you recall discussing this guidance
 3 with Mr. Suarez during your direct testimony?
 4 (Handing)
 5 A Yes, I do.
 6 Q And if I could direct your attention -- well, when
 7 you were testifying with Mr. Suarez I believe you and he
 8 covered the points A through E here under 55-1; is that right?
 9 A I believe so, yes.
 10 Q I just wanted to focus on the paragraph above that in
 11 section 55-1. It states in the second sentence: Recent
 12 transactions involving similar assets and rights in similar
 13 circumstances ordinarily provide a satisfactory basis for
 14 determining the estimated current value of an asset and the
 15 estimated current value of a liability. If recent sales
 16 information is unavailable, other methods that may be used
 17 include any of the following.
 18 It then lists items A through E. So just to clarify,
 19 the guidance here is that points A through E should be used --
 20 may be used if recent sales information is not available; is
 21 that correct?
 22 A That's what it says.
 23 Q And if you are going to use one of the items listed
 24 in one of the methods listed in A through E, you would need to
 25 use accurate information; is that correct?

Flemmons - by Defendant - Cross(Wallace) Page 4487

1 A Well, insofar as these methods that are provided in
2 this section of ASC 274 are inherently estimates, and estimates
3 are not always accurate. But I think estimates should endeavor
4 to, you know, seek to be as accurate as possible, but they are
5 not intended to be perfect.

6 Q Well, for example, if you are using capitalization of
7 past earnings, the past earnings number should be accurate; is
8 that fair?

9 MR. KISE: Your Honor, one point of
10 clarification. We don't have a hard copy. Is this the
11 real estate section or --

12 MR. WALLACE: Your Honor.

13 MR. KISE: I can't see it. I can't see it on
14 the screen.

15 THE COURT: I thought that myself.

16 MR. KISE: Yeah.

17 MR. WALLACE: It is not, it is not the real
18 estate section. There is a separate real estate section.

19 MR. KISE: I guess Mr. Wallace had a trick up
20 his sleeve.

21 MR. WALLACE: I don't have a trick up my sleeve.
22 I am being interrupted.

23 MR. KISE: I just can't see the thing on the
24 screen. I need the clarification so we know where we are
25 looking.

Flemmons - by Defendant - Cross(Wallace) Page 4488

1 THE COURT: What is the context of what we are
2 looking at?

3 MR. WALLACE: Section 55-1, Implementation
4 Guidance, estimated current value that he covered with
5 Mr. Suarez.

6 THE COURT: Section 55-1 of what?

7 MR. WALLACE: He has already answered a number
8 of questions about this. Is there a question whether I
9 can follow-up on this? Or am I allowed to proceed?

10 THE COURT: I would like to know of what.

11 MR. WALLACE: The what? What is the question,
12 Your Honor?

13 THE COURT: This is section 55-1, of what?

14 MR. WALLACE: Of ASC 274.

15 THE COURT: Okay. Thank you.

16 MR. WALLACE: Sorry.

17 Q So I believe the question was, if you were
18 capitalizing past earnings, the past earnings number should be
19 accurate; is that fair?

20 A That's fair.

21 Q And if you are using perspective earnings, the
22 estimate of perspective earnings would need to be made in good
23 faith; is that fair?

24 A That's fair.

25 Q Okay. And if you are capitalizing those amounts, you

Flemmons - by Defendant - Cross(Wallace) Page 4489

1 would need to determine the cap rate in good faith; is that
2 correct?

3 A That's fair.

4 Q Okay. And looking down at the historical cost
5 adjustment method, if you are adjusting historical costs, that
6 historical cost number would need to be accurate; is that
7 right?

8 A That's correct.

9 Q And if you are using the appraisal method, you would
10 need to actually use the amount that was reported in the
11 appraisal; is that correct?

12 A Well, unless there were good reasons to deviate from
13 the information in the appraisals, there could be assumptions
14 that were used in the appraisals that management disagreed
15 with, in which case those could be adjusted and disclosed as
16 such.

17 Q And disclosed. So if you are going to make an
18 adjustment to the appraisal, you should disclose that you
19 adjusted the appraisal by using whatever adjustments the
20 preparer of the financial statement may deem appropriate; is
21 that fair?

22 A I think it depends on the circumstances and the
23 significance of the deviations.

24 Q If you are using the item E to discount amounts of
25 projected cash receipts, you would need to determine the amount

Flemmons - by Defendant - Cross(Wallace) Page 4490

1 of expected receipts in good faith; is that fair?

2 A Yeah, I think you would need to estimate the
3 projected receipts in good faith.

4 Q And you would need to determine which discount rate
5 to use in good faith; is that right?

6 A Yes.

7 Q And ASC 274 would require the financial statement to
8 accurately disclose the valuation technique selected, correct?

9 A As we talked about yesterday, the requirement is to
10 provide adequate disclosure about the techniques.

11 Q Adequately informative is, I think, the language we
12 saw in 274; is that fair?

13 A That sounds right.

14 Q So the disclosure would need to be adequately
15 informative to the reader of the report, correct?

16 A That's correct.

17 Q And just to confirm, your work in this case did not
18 include reviewing the accuracy of any of the information that
19 went into the calculations in the Statement of Financial
20 Condition; is that correct?

21 A I am not a valuation expert, so I did not endeavor to
22 evaluate the appropriateness of the amounts. I did, however in
23 many cases, evaluate the appropriateness of the methods used
24 vis-a-vis ASC 274.

25 Q And I am asking about the factual information. So

Flemmons - by Defendant - Cross(Wallace) Page 4491

1 that was not part of your analysis whether the information that
2 was comprising the valuations, whether that was accurate? That
3 isn't something you did; you looked at methods?
4 MR. KISE: Objection. I think that
5 mischaracterizes his testimony.
6 THE COURT: I think he is just seeking
7 clarification. He is allowed to phrase it in his own
8 words. Overruled.
9 Do you need a readback?
10 THE WITNESS: Please.
11 (Whereupon, the record was read back by the
12 court reporter.)
13 A I looked at methods, but I did also look at the
14 detail support for the calculations, and to see what was
15 provided to the outside accountants, Mazars; and see how that
16 flowed into the Statement of Financial Condition, both in terms
17 of the amounts and the disclosures.
18 Q So, but you didn't do any analysis to determine if
19 those amounts that were being shown in the back up, whether
20 those were accurate?
21 A I am struggling with the word "accurate." Accurate
22 against what standard?
23 Q Well, the standards we were just discussing. If you
24 are using past earnings, you need to have accurate earnings.
25 Did you do any analysis -- well, in any context, did you do

Flemmons - by Defendant - Cross(Wallace) Page 4492

1 anything to determine whether any of the numbers in the backup
2 support were being accurately reported by the Trump
3 Organization?
4 A If you are asking me, for example, did I seek to
5 validate whether the historical earnings numbers that were used
6 for the calculations, in which cases that method was used, did
7 I go and validate whether the correct past earnings figure was
8 included? I did not do that.
9 Q And did you do any analysis to determine whether any
10 of the estimates contained in the Statement of Financial
11 Condition were prepared in good faith?
12 MR. KISE: Objection to "good faith."
13 THE COURT: Read back, please.
14 (Whereupon, the record was read back by the
15 court reporter.)
16 THE COURT: Sustained. He wouldn't know whether
17 they were done in good faith or not. He might know other
18 things.
19 MR. WALLACE: I am asking if he did any work to
20 determine if they were made in good faith.
21 MR. KISE: What would --
22 THE COURT: How would he do that?
23 MR. KISE: What does good faith mean, indicia of
24 fraud?
25 MR. WALLACE: He could find out how the

Flemmons - by Defendant - Cross(Wallace) Page 4493

1 directors came to the cap rates it was using; how it came
2 to the discount rates.
3 THE COURT: Then he would be trying to determine
4 the accuracy. But good faith is in the mind of the person
5 that is putting the number together.
6 MR. KISE: He could opine --
7 THE COURT: Rule number one.
8 MR. KISE: All right. Fair enough.
9 MR. WALLACE: Your Honor, the witness testified
10 these numbers had to be prepared in good faith, and I am
11 asking if he has done any work to determine if they met
12 that standard that he is testifying to.
13 THE COURT: Well, now the cat is sort of out of
14 the bag, but let's hear an answer to the question.
15 A I didn't specifically seek to develop an opinion on
16 the question you are asking. However, there are many instances
17 where I saw components of the calculations that tied to, for
18 example, information provided by third-party, you know, brokers
19 or agents; or appraisal information that had some correlation
20 to that. So based on that, one could say that that was
21 supported and was in good faith. But I did not specifically
22 seek to -- I didn't structure my work in that fashion.
23 Q And so the information that you are seeing, you are
24 talking about the information that you would see in that
25 supporting worksheet that would feed into the Statement of

Flemmons - by Defendant - Cross(Wallace) Page 4494

1 Financial Condition; is that the information you are referring
2 to?
3 A That's correct. There were many instances where I
4 did see support for the numbers, which certainly showed indicia
5 of good faith. But I did not seek to do that for every single
6 calculation.
7 Q But you didn't do any additional work to go back and
8 see if those numbers that were reported, the information that
9 was contained in the supporting worksheets, you didn't do any
10 work to determine if that was, in fact, accurate or an accurate
11 reflection of the supporting material, did you?
12 A I think I said in some cases I did see that
13 correlation. But I did not seek to undertake that effort for
14 all of the calculations.
15 Q Did you review all of the work papers for the
16 Statement of Financial Condition for each year from 2011 to
17 2021?
18 A I don't recall.
19 Q I'll see if we can try to remember this, but when you
20 were testifying with Mr. Suarez and looked at one of the
21 supporting data spreadsheets, you said there were blue numbers
22 that would tie out to the support. Did you go through and look
23 at the documents that tied out to the blue numbers in the
24 supporting data spreadsheet?
25 A I don't recall.

Flemmons - by Defendant - Cross(Wallace) Page 4495

1 Q If you did, would it have been reflected in your
2 reports?
3 A Yes.
4 Q Now, if you are going to use one of those techniques
5 that we were discussing, ASC 274 would still require that
6 number reflect the amount at which an item could be exchanged
7 between a buyer and a seller, each of whom is well informed and
8 willing, and neither of whom is compelled to buy or sell; is
9 that correct?
10 A That is the definition of estimated current value, so
11 yes.
12 Q And so if the issue of a Statement of Financial
13 Condition uses one of the techniques listed in ASC 274, but
14 comes to the conclusion that the price reached by using that
15 technique is not one where a transaction would actually occur,
16 then it is not estimated current value; is that correct?
17 A Well, I am not sure how that would happen, if a
18 preparer is using one of the methods that is contained in ASC
19 274 to develop and establish estimated current value, how that
20 would then lead to a conclusion that it is not estimated
21 current value.
22 Q Well, what if someone were to use, say, historical
23 cost. They come up with a value based on historical cost, that
24 they have an independent opinion that there is no way anyone
25 would pay the historical cost amount for that asset. By

Flemmons - by Defendant - Cross(Wallace) Page 4496

1 definition, that person does not believe that the historical
2 cost has developed an estimated current value; is that fair?
3 MR. KISE: Objection. That's an improper
4 hypothetical. He is getting into valuations and
5 subjectivity of valuations, what someone would pay for
6 something or not pay. Who are we even talking about, the
7 seller or the buyer? The seller might not pay something,
8 but the buyer might not sell it. So we are getting into
9 value judgments.
10 THE COURT: I think we are talking about the
11 owner who would be the seller.
12 MR. WALLACE: We are talking about the person
13 issuing the statement and whether or not they used a
14 technique, but they form a belief that that technique has
15 created value that does not reflect where a transaction
16 occurred.
17 MR. KISE: It is an improper --
18 MR. WALLACE: It is a hypothetical.
19 MR. KISE: This is not an expert on valuation.
20 You certainly could contend that an owner might not sell
21 under any of the scenarios. Under six it is highly
22 subjective. I am sure if you put President Trump on the
23 stand he would say no matter how high the number is, it
24 needs to be higher. It is just a fact.
25 THE COURT: Would I ever put President Trump on

Flemmons - by Defendant - Cross(Wallace) Page 4497

1 the stand?
2 MR. KISE: I had to read that for a second just
3 to make sure I heard you correctly.
4 But the point is, you are asking this witness,
5 who is an accounting expert and a, you know, with his
6 background, to make a subjective value determination as to
7 whether or not an individual owner or an individual buyer,
8 as the case may be, would engage in a specific
9 transaction, hypothetical or otherwise.
10 THE COURT: Well, let me try to simplify it.
11 How about if I ask the question: If the compiler uses one
12 of the methods and reaches a result that would not be the
13 price at which a willing seller would sell to a willing
14 buyer, what are you supposed to do?
15 MR. WALLACE: Your Honor, I am actually asking a
16 slightly different question.
17 THE COURT: Okay.
18 MR. WALLACE: Because I am interested in this
19 from the perspective of the issuer.
20 Q The compiler would be the accounting firm; is that
21 fair, Mr. Flemmons, if we use these terms?
22 A That's correct.
23 Q And the issuer is the person issuing the statement.
24 In the examples we are looking at that's Donald J. Trump?
25 A That's fair.

Flemmons - by Defendant - Cross(Wallace) Page 4498

1 Q So my question is, you said that there is, I think,
2 essentially, a presumption if someone uses one of the
3 techniques in ASC 274 that in fact reflects estimated current
4 value. My question is, is it still estimated current value if
5 a person uses the technique but has a subjective belief that
6 the value is not correct, that no transaction would take place
7 at that price?
8 THE COURT: And what's --
9 MR. KISE: Objection, Your Honor. I think it is
10 an improper question.
11 THE COURT: Overruled. But what is the specific
12 question there?
13 MR. WALLACE: The question is --
14 THE COURT: I understand the situation, the
15 hypothetical. What is the question?
16 Q Is it possible to use a technique and still not
17 arrive at estimated current value?
18 THE COURT: Okay. Thanks.
19 A From an accounting perspective, using any of the
20 methods that are called for in ASC 274 are ones that can
21 establish estimated current value. So I am not sure I
22 understand your question on how it would not establish
23 estimated current value.
24 Q Would it still, if a person were to reach a
25 conclusion that it was an obviously inappropriate value, would

Flemmons - by Defendant - Cross(Wallace) Page 4499

1 that still equate to estimated current value?
2 MR. KISE: Objection. "Obviously inappropriate
3 value"?
4 MR. WALLACE: All right. Can we pull up --
5 MR. KISE: In whose mind?
6 MR. WALLACE: Why don't we pull up Defendant's
7 950. And if we can go to page 22.
8 Q This is the 2008 --
9 MR. WALLACE: I am maintaining my objection to
10 the out-of-date guidance.
11 Q But I believe this is the 2008 guide that you said
12 was still -- could be useful reference material for someone
13 doing a compilation report. I can show you the cover if it
14 would help refresh your recollection.
15 A That's not necessary.
16 Q You remember the document?
17 A Yes.
18 MR. WALLACE: If we go to page 22. Go down to
19 the fourth bullet under 2.05.
20 Q And these are the things that I believe are ways a
21 misstatement might occur. One of the bullet points was the
22 presentation of an asset or liability at an obviously
23 inappropriate value or amount. And so I am asking, is there a
24 tension between using one of the techniques that comes to an
25 obviously inappropriate value or amount?

Flemmons - by Defendant - Cross(Wallace) Page 4500

1 A I don't think this speaks to the questions you were
2 asking me before about selection of a method that is allowed
3 under ASC 274 to establish estimated current value. I think
4 what this is talking about is with the method selected, how is
5 that applied. Are you using a discount rate of 30 percent?
6 That would be an obviously inappropriate value or amount.
7 Q Well, no. It says the presentation of an asset. So
8 this isn't going to the calculation, this is saying how is the
9 asset -- I think this is saying that if you look at the asset,
10 it is on the books at an obviously inappropriate value, that's
11 something you should be looking out for as a GAAP departure.
12 So I will ask a question.
13 Since I have just directed you to this.
14 A Mm-Hm.
15 Q Is it still appropriate to use one of these
16 techniques if it comes to an obviously inappropriate value or
17 amount?
18 A I think you are conflating two different concepts,
19 and that's not correct. As I said before, the presentation of
20 the asset is based on the calculations using methods that are
21 under ASC 274. So this is speaking to appropriately using that
22 method and not using inputs that are obviously inappropriate.
23 Q So there is -- I take it your answer is there is no
24 way if you use one of the techniques in ASC 274 you would reach
25 an obviously inappropriate value?

Flemmons - by Defendant - Cross(Wallace) Page 4501

1 A If the method is appropriately applied, you have
2 complied with ASC 274.
3 Q So it would therefore not reflect an obviously
4 inappropriate value or amount? I am trying to understand your
5 view. Is it if you use the techniques in the ASC 274 you will
6 not violate this provision right here?
7 A That's my view.
8 Q Okay.
9 THE COURT: I sort of liked my question better.
10 But what happens if you use the appraisal method
11 and the appraiser had a typographical error and added a
12 zero or subtracted a zero, and you just look at it and you
13 know that can't be right. Can you still say, well, I am
14 using the method. That's the appraisal. And it said
15 \$100 million and I know it is worth \$100 billion or
16 \$10 million. What do you do if the -- I know I am asking
17 another question, but it is the same question. What are
18 you supposed to do in your role if you see an appraisal
19 using one of the methods, using as a hypothetical
20 appraisal, and it is obviously wrong? Can you still use
21 it? Can you say, all right, so what it is wrong, but I am
22 using the method.
23 THE WITNESS: That goes to my prior testimony a
24 few minutes ago that the method needs to be applied
25 correctly in accordance with how it is laid out in ASC

Flemmons - by Defendant - Cross(Wallace) Page 4502

1 274. For example, using the capitalization of perspective
2 earnings, you probably shouldn't use a zero percent cap
3 rate. That would be obviously inappropriate. And to your
4 example, if there is a clear error with an appraisal, you
5 know, that would be another reason that would need to be
6 revisited. But my testimony is that the -- that ASC 274,
7 to the extent those methods are being applied as described
8 in the standard, and appropriately, you will arrive at an
9 estimated current value that is usable for your financial
10 statements.
11 THE COURT: All right. Thank you.
12 Q I believe you also testified that using these
13 different methods -- the different methods listed in ASC 274
14 could yield values that varied, differed by an order of
15 magnitude. Is that fair?
16 A They certainly can.
17 Q So how are you able to have values that differ by an
18 order of magnitude that both reflect the price at which a
19 willing buyer and willing seller would exchange? If one
20 valuation technique comes to \$1 million and another comes to
21 \$100 million, isn't there some objective standard? I guess I
22 am trying to understand, is it your position that a willing
23 buyer and willing seller would agree to both prices?
24 A Well, first of all, estimated current value is not an
25 exact science. There is not one single correct value that

Flemmons - by Defendant - Cross(Wallace) Page 4503

1 comes out of this exercise. The standard allows for a range of
2 different methods that can yield a range of results to
3 ultimately lead to a range of values that could be reported.
4 No one of which is the right or wrong answer, it is an
5 estimate. And as long as you have selected one method within
6 ASC 274, disclosing in your financials which one you are using,
7 a user is in a position to agree or disagree or come up with an
8 alternative method.

9 Q I guess I am asking the difference between difference
10 of degree and difference by orders of magnitude. It would seem
11 that there cannot be two prices that are orders of magnitude
12 different in which a transaction would both take place.

13 So let me ask, maybe, a question that will clarify
14 this. Does the ind -- do the independent requirements of
15 estimated current value, which requires that it needs to be the
16 willing buyer and willing seller, neither of whom is compelled
17 to buy or sell, does that impose any independent restriction on
18 the values that would come out of the techniques described in
19 the ASC 274?

20 A I don't understand your question.

21 Q My question is, using the techniques in ASC 274, they
22 are supposed to reach this definition of estimated current
23 value. Does that definition impose any additional restrictions
24 on whether or not it is appropriate to use one of the
25 particular values -- one of the particular methods in ASC 274?

Flemmons - by Defendant - Cross(Wallace) Page 4504

1 A I don't believe there are any such restrictions in
2 the standard.

3 Q We talked a little bit about good faith. I just want
4 to know, would someone picking which of the methods to use in
5 ASC 274, would they also need to use good faith in selecting
6 which method they used to value an asset?

7 MR. KISE: Objection to "good faith" again.

8 THE COURT: I don't think I am actually
9 overruling myself -- overruled. I think, you know, it is
10 a common expression, "good faith." How about "best
11 effort," would that be better?

12 MR. KISE: Well, the standard itself presumes if
13 you use one of the six methods you are okay he testified
14 today repeatedly, so there is no good faith component if
15 you pick one of the six. What the Attorney General has
16 been driving at from the beginning is that you have to
17 pick the right one. And this witness has testified
18 repeatedly there isn't a right one. If you pick any of
19 the six you are okay. So there is no -- good faith is an
20 ambiguous concept and a highly subjective one in the
21 concept of this regulation. And I think the witness has
22 testified to that. So I just think the question is an
23 improper question.

24 THE COURT: I don't think the AG is driving at
25 you have to pick the right one. I think they are maybe

Flemmons - by Defendant - Cross(Wallace) Page 4505

1 driving at, is it wrong to pick the wrong one.
2 Overruled.

3 MR. WALLACE: Can we get the question read back
4 please, Your Honor?

5 THE COURT: Read back.
6 (Whereupon, the record was read back by the
7 court reporter.)

8 A I am not sure what that means in the context of
9 selecting a method. Because as I said multiple times, any
10 method can be selected to establish estimated current value as
11 provided in the standard.

12 Q Well, you have also said the methods could lead to
13 numbers that are orders of magnitude different. Doesn't the
14 person need to exhibit good faith in picking, therefore, which
15 of those methods they use and what number they eventually
16 obtain?

17 MR. KISE: Same objection.
18 THE COURT: Same ruling.

19 A A preparer of the financial statements is afforded
20 very broad latitude to pick whatever method they want, whether
21 it is a high value, low value, depending on the intended
22 purpose of the financial statements. The important thing is
23 that that method is disclosed. So, if one is preparing
24 financial statements that would prefer to have higher values
25 and there is a method provided under the standard that enables

Flemmons - by Defendant - Cross(Wallace) Page 4506

1 that to happen, there is nothing wrong with that under GAAP, as
2 long as it is disclosed.

3 And the other end of the spectrum, there are reasons
4 why a set of financial statements might be preferred to present
5 a lower value on the range of acceptable outcomes. And as long
6 as that is selected and disclosed, there is nothing wrong with
7 that either.

8 The point is that you are communicating that to a
9 user and allowing that user to then be in a position to agree
10 or disagree or come up with an alternative approach.

11 Q I believe that you have testified that choosing one
12 of the techniques from ASC 274 is a matter of judgment; is that
13 fair?

14 A That's fair.

15 Q Okay. And in exercising that judgment, does an
16 individual need to use good faith?

17 MR. KISE: Objection.
18 MR. WALLACE: Why don't I --

19 Q Mr. Flemmons, have you taken the position that
20 reliable accounting judgments are most dependent on good faith?

21 A I don't recall.
22 (The following proceedings were stenographically
23 recorded by Senior Court Reporter Michael Ranita.)
24
25

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4507

1 Q Do you agree with that statement that reliable
2 accounting judgments are most dependent on good faith?
3 MR. KISE: Objection.
4 THE COURT: Overruled. Interesting question.
5 A I don't disagree with that.
6 Q Okay.
7 So I'm asking now, if on this judgment about which
8 technique to use, does the preparer of the financial statement
9 need to use good faith?
10 A Well, I don't understand how bad faith would be
11 exercised by using any of the allowable methods under ASC-274.
12 THE COURT: I'll take that to be, no.
13 So the basic position is if you use these any of
14 these methods, that's okay. You don't need to use good
15 faith in picking which one, because they were all, you know,
16 doable, reasonable. I can't remember the word.
17 THE WITNESS: I think my answer might be a little
18 different, is that --
19 THE COURT: Okay.
20 THE WITNESS: -- one is inherently using good faith
21 if they select one of these methods and disclose it to the
22 user.
23 THE COURT: Okay. I think we are saying the same
24 thing. Thanks.
25 (Whereupon, the exhibit was displayed on the

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4508

1 screen.)
2 Q I won't play a memory game with you on some of your
3 testimony from yesterday, Mr. Flemmons, we've put up here a
4 transcript from yesterday.
5 I would like to direct your attention to the question
6 that begins at line 21 of page 4359.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 Q The question is:
10 "Now" -- I'm sorry, this is an exchange between you and
11 Mr. Suarez:
12 "Now, in the Statement of Financial Condition there is
13 a note that I would like to draw your attention to at page 23 of
14 the exhibit, page 21 of the document.
15 Can I please draw your attention to where it says:
16 'As stated in note one, this financial statement does not
17 reflect the value of Donald J. Trump's worldwide reputation,
18 except to the extent it has become associated with properties,
19 either operative or under development.'
20 The question is, is that statement in the Statement of
21 Financial Condition consistent with the method for determining
22 the current estimated value for the golf club properties in the
23 support date?
24 "ANSWER: Yes. This specifically relates to what
25 we are looking at here in the supporting schedule related to

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4509

1 brand premium. And this disclosure is notifying users of
2 the financials that, you know, brand premium is part of some
3 of the properties and valuations."
4 Do you remember that testimony from yesterday?
5 A Yes.
6 Q Okay.
7 MR. WALLACE: If we could pull up Plaintiff's
8 Exhibit 730 and go to page 23.
9 (Whereupon, the exhibit was displayed on the
10 screen.)
11 Q This is the document you were discussing with
12 Mr. Suarez. And if we go to page 23, the language that's being
13 quoted is the first paragraph. It starts, "As stated in note
14 one, this financial statement does not reflect the value of
15 Donald J. Trump's worldwide reputation." I won't read the full
16 thing in.
17 I want to direct your attention, because Mr. Suarez
18 didn't ask you about it. This is the start of section five,
19 real estate licensing developments.
20 The golf courses are not included in that category of
21 the Statement of Financial Condition are they?
22 A I don't believe so.
23 Q So this language that Mr. Suarez read to you yesterday
24 about Donald Trump's worldwide reputation, it's not addressing
25 the valuation of his golf club properties, is it?

J. Flemmons - by Defendant - Cross (Mr. Wallace) Page 4510

1 A Can you repeat the question, please.
2 MR. WALLACE: Read back, please.
3 THE COURT: Read back, please.
4 (Whereupon, the requested question was read back by
5 the court reporter.)
6 A I think given the geography of where this is appearing
7 in the disclosures, I would agree with you that it does not
8 appear to relate to the golf properties. However, note one,
9 which is referenced in this paragraph, makes reference to the
10 brand value enhancing the reported values in the Statement of
11 Financial Condition, and that's under the basis of presentation
12 footnote of the Statement of Financial Condition, which is more
13 of an umbrella section that applies to the entirety of the
14 financial statements.
15 Q Is there any specific reference within the section on
16 the golf courses to Mr. Trump's brand value? If you want, it
17 begins on -- page ten is the club facilities and related real
18 estate.
19 MR. WALLACE: If we could flip to that.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 A I would have to read through these five or six or more
23 pages. I don't recall that disclosure being specifically
24 included, but again, it does appear within a couple of places
25 within the notes, more broadly.

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4511

1 Q But the section that you read yesterday doesn't apply
2 to the golf courses in this particular --
3 A The one that you just read falls under a different
4 section.
5 Q Mr. Flemmons, at your deposition I asked you if you had
6 ever reviewed an expert report prepared by Professor Eli Bartov
7 of NYU. And you said you had not.
8 Since your deposition, have you reviewed any expert
9 report prepared by Professor Bartov?
10 A I don't believe so.
11 Q Since your deposition, have you spoken with Professor
12 Bartov?
13 A No.
14 MR. WALLACE: Nothing further, your Honor.
15 THE COURT: Mr. Suarez, you promised us some
16 redirect.
17 MR. SUAREZ: I did.
18 THE COURT: Now is the time.
19 REDIRECT EXAMINATION
20 BY MR. SUAREZ:
21 Q Good morning, Mr. Flemmons.
22 A Good morning.
23 MR. SUAREZ: If we could please pull up Plaintiff's
24 Exhibit 1609.
25 (Whereupon, the exhibit was displayed on the

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4512

1 screen.)
2 MR. SUAREZ: And turn to page 13 of the exhibit.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q Mr. Flemmons, Mr. Wallace just showed you and walked
6 you through the definition of estimated current value as it
7 appears in 274-10-55-1; is that correct?
8 A Yes.
9 Q Now, would you agree with me that we spent most of our
10 time yesterday talking about the definition of estimated current
11 value that appears at ASC-55 -- excuse me, ASC-274-10-55-6,
12 relating to real estate?
13 A Yes, we walked through that.
14 Q And these are the methods -- withdrawn.
15 Are these the methods that would apply to the
16 determination of estimated current value as it relates to real
17 estate assets?
18 A These are methods that may be used for real estate
19 assets. Um, the other methods that are listed prior to this are
20 also methods that could be used. There is an overlap between
21 those and the methods that are listed here.
22 Q Are most of the assets that we discussed yesterday real
23 estate assets?
24 A I believe so.
25 MR. SUAREZ: If we could please turn to the

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4513

1 illustrative guidance that you reviewed with Mr. Wallace
2 yesterday.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q At note four there was a discussion concerning Kenbruce
6 Associates, and we can draw your attention to that. It's on
7 page 17 of the exhibit.
8 A I see it.
9 Q Okay.
10 MR. SUAREZ: If we could also pull up, now,
11 side-by-side, the 2014 Statement of Financial Condition that
12 appears at Plaintiff's Exhibit 730.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q If we could pull up and show the accountant's
16 compilation report.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q Does the illustrative guidance identify the significant
20 GAAP departures that are present in the compilation report of
21 President Trump's Statement of Financial Condition?
22 A I don't believe within the illustrative guidance there
23 is any example of disclosure of a deviation from GAAP.
24 MR. SUAREZ: If we could turn to the next page of
25 the Statement of Financial Condition.

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4514

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 MR. SUAREZ: And if we could highlight the
4 paragraph that starts with "Because."
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q Does the illustrative guidance contain the disclaimer
8 language that appears in the Statement of Financial Condition?
9 A No.
10 Q Does the illustrative guidance -- withdrawn.
11 What is the effect of this disclaimer language intended
12 to be on the user of the Statement of Financial Condition?
13 A Well, as I've testified before, this is language that
14 is suggested by AICPA professional guidance for accountant's
15 performing a compilation, that when deviations from GAAP are of
16 such significance, the guidance suggests that the accountant
17 include this language in the accountant's report. And as I've
18 said before, this serves as the highest level warning to a user
19 as to the reliability of the -- the financial information.
20 MR. SUAREZ: If we could move onto the note on the
21 2014 Statement of Financial Condition concerning Trump Tower
22 that you reviewed yesterday with Mr. Wallace.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q Was the cap rate selected by management available to

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4515

1 Mazars on the supporting data?
2 A Yes. The capitalization rate that was used was clear
3 within that support.
4 Q What obligation did Mazars have to understand the basis
5 for the selection of that capitalization rate, if any?
6 A Well, their responsibilities under professional
7 standards were to review the methods that were being used and
8 how they were being applied, and to the extent there were
9 obvious errors -- we touched on obvious errors earlier -- they
10 would be required to initiate further inquiries and to resolve
11 those issues.
12 Q Yesterday --
13 MR. SUAREZ: If we could turn on ASC-273 at 1609
14 that we have up here, if we could pull up 45-13, which
15 appears on page nine of that exhibit.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 MR. SUAREZ: And blow up the "Adequacy of
19 disclosures."
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q I think yesterday in Mr. Wallace's examination you
23 discussed with him the adequacy of disclosure section of
24 ASC-274. Do you recall that?
25 A Yes.

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4516

1 Q What professional obligation did Mazars have to
2 management concerning the adequacy of disclosures in the
3 Statement of Financial Condition, if any?
4 A Well, the professional standards that were applicable
5 to Mazars during the compilation do specify that the accountant
6 is required to read the disclosures and to evaluate whether
7 those disclosures are consistent with the methods that are being
8 used.
9 Q And if Mazars, the accounting firm, was not satisfied
10 with the sufficiency of the disclosures in the Statement of
11 Financial Condition, what obligation would they have under the
12 professional standards, if any?
13 A They would be required to follow up with, um, in this
14 case, Mr. Trump, or The Trump Organization, and to seek to have
15 the disclosure modified.
16 Q And if the disclosure was not modified, what obligation
17 would Mazars have under the professional standards, if any?
18 A Well, I suppose there are a couple of options in that
19 case. In the absence of the disclosure, or absence of the
20 correction was deemed to be significant, and the cautionary
21 language that we just referred to a minute ago was not deemed to
22 be sufficient, as with any kind of GAAP departure, including a
23 disclosure issue, the accountant should seriously consider
24 withdrawing from the engagement.
25 Q What is the purpose of making sure -- withdrawn.

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4517

1 What is the purpose of disclosing in the notes the
2 method of valuation used in selecting estimated current value?
3 A So that a user can understand the method that's being
4 used and have the opportunity to agree or disagree and
5 potentially develop a different valuation using a different
6 method.
7 Q And if the user requires additional information, what
8 can the user do if it's not contained in the Statement of
9 Financial Condition?
10 A Can you repeat that, please.
11 Q Sure. If the Statement of Financial Condition doesn't
12 contain information that the user needs to reach their own
13 judgment, what are they able to do, if anything?
14 A The user will still be able to come up with their own
15 values to the extent the property is identified within the
16 Statement of Financial Condition.
17 Q If we could turn back to the Statement of Financial
18 Condition, to page two, and focus in, again --
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 MR. SUAREZ: I'm sorry, that's page three of the
22 exhibit, page two of the Statement of Financial Condition?
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 MR. SUAREZ: Focus on the paragraph that starts

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4518

1 "because."
2 Q And do you see where it says, "Because of the
3 significance and pervasiveness of the matters discussed above
4 make it difficult to assess their impact on the Statement of
5 Financial Condition, users of this financial statement should
6 recognize that they might reach different conclusions about the
7 financial condition of Donald Trump if they had access to a
8 revised Statement of Financial Condition prepared in conformity
9 with accounting principles generally accepted in the United
10 States of America."
11 Do you see that?
12 A I do.
13 Q And what does that statement tell the user about the
14 judgments reached in achieving values for assets on the
15 Statement of Financial Condition?
16 A Well, again, this is language that comes straight out
17 of AICPA professional guidance -- professional standards, and is
18 communicating to the user that the information contained in the
19 Statement of Financial Condition does not comport with GAAP. So
20 user beware.
21 MR. SUAREZ: And if we could turn to page four of
22 the exhibit on the Statement of Financial Condition,
23 Plaintiff's Exhibit 730, page four of the exhibit?
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4519

1 Q Do you see where it says "Escrow reserved deposits and
2 prepaid expenses"?

3 A Yes.

4 Q Do you see above it it says "Cash and marketable
5 securities"?

6 A Yes.

7 Q Yesterday you had some discussion with Mr. Wallace
8 concerning the Vornado cash and the disclosures contained in the
9 Statement of Financial Condition. I would like to draw your
10 attention to paragraph two of the notes on page six of the
11 exhibit?

12 (Whereupon, the exhibit was displayed on the
13 screen.)

14 MR. SUAREZ: Page seven of the exhibit.

15 Q At the top it says "Cash and marketable securities
16 represents amounts held by Donald J. Trump, personally, and
17 amounts in operating entities. Included in this amount are
18 common stock, mutual funds, hedge funds, corporate notes and
19 bonds, and United States Treasury Securities, as well as
20 in-transit state tax refund issued prior to June 30, 2014 in the
21 amount of \$3.9 million. Marketable securities are valued at
22 quoted market prices or estimates of current value by hedge
23 funds."

24 What does this tell the user about the inclusion of the
25 Vornado cash in Mr. Trump's Statement of Financial Condition?

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4520

1 A Well, the inclusion of the Vornado cash in the
2 Statement of Financial Condition, um, would be covered by the
3 first sentence in this particular disclosure.

4 Q How is that?

5 A Because it states that cash among other things, are --
6 are reported on the Statement of Financial Condition that
7 include amounts in operating entities.

8 MR. SUAREZ: And, in fact, if we turn to page two
9 of the exhibit.

10 (Whereupon, the exhibit was displayed on the
11 screen.)

12 MR. SUAREZ: And we pull up the bottom paragraph.
13 (Whereupon, the exhibit was displayed on the
14 screen.)

15 Q If you could read the last sentence into the record,
16 please.

17 A "The accompanying Statement of Financial Condition does
18 not include the required summarized disclosures, and reports
19 some closely held business entities in a manner that separately
20 states gross assets and liabilities and states certain cash
21 positions separately from their related operating entity."

22 Q How, if at all, does that disclosure by Mazars in the
23 compilation report address the Vornado cash?

24 A I think this is another disclosure that's very similar
25 to what we saw before that indicates that reported cash on the

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4521

1 Statement of Financial Condition includes cash from operating
2 entities.

3 Q What professional obligation, if any, did Mazars have
4 to provide management of The Trump Organization's direction
5 concerning the disclosure of Vornado cash on the Statement of
6 Financial Condition?

7 A Well, like the responsibilities with all disclosures,
8 to the extent the notes were inconsistent with the support or
9 not adequate, Mazars would be responsible for following up on
10 that.

11 Q And if management didn't address Mazars' inquiries to
12 Mazars' satisfaction, what obligation would Mazars' have?

13 A Similar to what I said before, that it could lead to
14 additional language in the accountant's report to notify users
15 as to the insufficiency or inadequacy of the disclosures, or if
16 it rose to a significant -- was deemed to be a significant
17 issue, it could lead to a withdrawal by Mazars from the
18 compilation engagement.

19 Q Who professional -- withdrawn.

20 Yesterday you also discussed with Mr. Wallace, on
21 cross, the disclosure of related party transactions. What
22 professional obligation did Mazars have to advise Trump
23 Organization management concerning the adequacy of disclosures
24 with respect to related party transactions, if any?

25 MR. WALLACE: Objection. I think this was covered

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4522

1 in direct.

2 MR. SUAREZ: I'm addressing the piece that was
3 covered on cross regarding the related party transactions.

4 THE COURT: To me it's always an issue if there's
5 direct, there's cross; can we go back? Overruled.

6 MR. SUAREZ: I won't belabor it.

7 A Well, to the extent Mazars was aware that there were
8 transactions with related parties as defined in ASC-850, they
9 would be required to ensure that disclosure of those related
10 parties and those transactions, to the extent they were
11 material, were included in the Statement of Financial Condition.

12 Q And if Mazars was not satisfied with inquiries that
13 they received from management with the response to inquiries
14 they received from management, what would their obligation be?

15 A Identical to what I testified about before.

16 Q Yesterday, Mr. Wallace asked you about a number of
17 potential red flags that you had identified throughout the day
18 in your testimony. Do you recall that?

19 A Yes.

20 Q Would those potential red flags have been visible to
21 Mazars as well?

22 A Yes. They were visible to me as I was reviewing the
23 supporting calculations, and those were the same working papers
24 that were provided to and included in Mazars' files.

25 Q And to be sure, when we discussed Mazars' obligations

J. Flemmons - by Defendant - Redirect (Mr. Suarez) Page 4523

1 in the period of 2011 to 2020, that would also apply to Whitley
2 Penn in 2021; correct?
3 A Correct.
4 Q Now, Mr. Wallace asked you yesterday, and again today,
5 um, in some manner, if 11 different valuations resulted in 11
6 different values under the definition of estimated current
7 value. Would the accountant's -- I'm sorry. Let me try that
8 again.
9 Mr. Wallace asked you yesterday if 11 different
10 valuations resulted from the application of the different
11 methods of estimated current value, if there would be something
12 wrong with selecting the highest one? Would there be something
13 wrong with selecting the highest one?
14 A No. As long as it was a method that was provided under
15 ASC-274, and that method was disclosed.
16 Q Would it be an indicia of fraud to select the highest
17 method that estimated current value yielded the highest value?
18 A Well, without offering a legal conclusion, because I'm
19 not a lawyer, but I am a certified fraud examiner, I'm very
20 familiar with fraud framework, and the elements of fraud, and
21 the various capacities. One of those would be -- require some
22 form of misstatement, and that misstatement be material, but I
23 -- in looking at the support associated with the determinations
24 of ECV, combined with the disclosures, selecting the highest
25 method, and the methods being used were included in the

Page 4524

1 Statement of Financial Condition, so I don't see that there was
2 a misstatement. So therefore I would not be aware of there
3 being an indicia of fraud on that basis.
4 Q As a certified fraud examiner, would you consider it an
5 indicia of fraud if the preparer of a financial statement made a
6 mistake?
7 A I assume from your question you are saying made an
8 honest mistake and it was not intentional.
9 Q Correct.
10 A Under the fraud framework, intent is a component. If
11 it was not intentional, it would not be an indicia of fraud.
12 Q And as a certified fraud examiner, is it an indicia of
13 fraud when the preparer of a financial statement has an
14 optimistic view as to the value of their assets?
15 A No.
16 MR. SUAREZ: If I may have a moment to confer with
17 my colleagues.
18 THE COURT: Sure.
19 (Continued on the next page.)
20
21
22
23
24
25

Flemmons - by Defendant - Redirect(Suarez) Page 4525

1 MR. SUAREZ: Pull back up D 950 that you
2 reviewed with Mr. Wallace a moment ago.
3 And turn to the section on the compilation
4 report concerning a not obviously inappropriate value or
5 amount. The compilation section.
6 Q Mr. Flemmons, Mr. Wallace asked you concerning the
7 obligation of the accountant preparing the compilation report,
8 the outside accountant, to determine that a value not be
9 presented and an asset -- that an asset or liability not be
10 presented at an obviously inappropriate value or amount. Do
11 you recall that?
12 A Yes.
13 Q Mazars would have seen --
14 MR. WALLACE: Your Honor, I want to note my
15 objection to the last question. I wasn't asking about the
16 accountant, my question was about the issuer.
17 Q Mr. Wallace asked you about this question, correct?
18 He showed it to you a moment ago?
19 A Yes.
20 Q What is the obligation of the accountant preparing a
21 compilation to make sure that an estimated current value amount
22 is not present at an obviously inappropriate value or amount?
23 A As we discussed earlier, I mean, the obligation would
24 be to evaluate the appropriateness of the method that was used
25 and that it was properly applied.

Flemmons - by Defendant - Redirect(Suarez) Page 4526

1 Q Mazars would have had access to the supporting data
2 to the Statements of Financial Condition, correct?
3 A Correct.
4 Q If Mazars issued the compilation reports, would that
5 indicate that they agreed that values were not presented at an
6 obviously inappropriate value or amount?
7 A Yes. Unless there were modifications in the
8 accountant's report that included disclosures indicating that
9 they believe that there were amounts that were obviously
10 inappropriate.
11 Q Do the compilation reports identify any disclosure
12 from Mazars that there were any values that they believed were
13 obviously inappropriate?
14 A No.
15 MR. WALLACE: Objection to the extent that the
16 compilation reports cite from Mazars.
17 MR. SUAREZ: Compilation reports are issued by
18 Mazars.
19 THE COURT: I don't understand your point,
20 Mr. Wallace.
21 MR. WALLACE: Who is reporting, the Trump
22 Organization versus Mazars.
23 THE COURT: I think it was Mazars.
24 MR. SUAREZ: Right, yeah, they issue the
25 compilation reports.

<p>Flemmons - by Defendant - Redirect(Suarez) Page 4527</p> <p>1 MR. WALLACE: No, but it is -- no, it is the 2 financial report of Donald J. Trump. 3 MS. HABBA: Issued by Mazars. 4 MR. KISE: Mazars issued the compilation. 5 THE COURT: We know what they are talking about. 6 We are talking about Mazars. 7 MR. SUAREZ: Correct. 8 Q Going back to the red flags that we discussed just a 9 moment ago. I believe your testimony was that Mazars would 10 have seen the same potential red flags that you noted, correct? 11 A Yes, they were within their work papers. 12 Q If Mazars complied with its obligations, would they 13 have asked questions? 14 A Yes, the standard does require an accountant 15 performing a compilation, to the extent there are potential 16 GAAP departures, to ask questions and to seek to resolve those 17 issues. 18 Q What can you conclude, if anything, from the fact 19 that Mazars found the disclosures acceptable and signed off on 20 the statements? 21 A Well, that they were comfortable with the disclosures 22 that were contained in the notes to the financial statements, 23 and they were comfortable issuing a report with the many 24 different disclosures as to the GAAP deviations, and believed 25 that the way the package was put together between the</p>	<p>Flemmons - by Defendant - Court Inquiry Page 4529</p> <p>1 THE WITNESS: I am sorry? 2 THE COURT: You can estimate. 3 THE WITNESS: It is hard to say, because as 4 you -- as Your Honor may know, we at my firm have a couple 5 of other experts who are working on this matter, and the 6 way that we have billed our work is on a combined basis. 7 So it is hard for me to really know exactly how much 8 really applies to my work. 9 THE COURT: So let's get the combined basis 10 then. 11 THE WITNESS: It is hard for me to say because I 12 have not been involved in the billing process or the 13 collection process. I have an associate of mine who has 14 been handling that. I would be -- I am unable to really 15 give you a meaningful estimate. 16 THE COURT: Okay. Anybody else have any 17 follow-up questions? Anything? 18 MR. WALLACE: Mr. Flemmons, your billable rate 19 for this engagement is \$950 an hour; is that correct. 20 THE WITNESS: I believe it is 925. But again, 21 that is the rate that my firm charges, not me 22 individually. 23 MR. WALLACE: I am asking about the billing of 24 your time. And do you have a sense of how many hours you 25 have spent on this engagement since its inception?</p>
<p>Flemmons - by Defendant - Court Inquiry Page 4528</p> <p>1 accountant's report and the Statement of Financial Condition, 2 that those were appropriate to still issue. 3 MR. SUAREZ: Your Honor, I have no further 4 questions on redirect. 5 THE COURT: Any recross? 6 MR. WALLACE: I guess just one question, Your 7 Honor. 8 RE CROSS EXAMINATION 9 BY MR. WALLACE: 10 Q Mr. Flemmons, when you were at the Securities and 11 Exchange Commission, did you ever encounter issuers who were 12 facing allegations of fraud who tried to throw their 13 accountants under the bus? 14 MR. KISE: Objection, Your Honor. What bus are 15 we talking about? 16 MR. WALLACE: Withdrawn. 17 THE COURT: All right. I have a series of 18 related questions. 19 I'll start with: Are you being paid for your 20 testimony and your general work on this case? 21 THE WITNESS: My firm is being paid. 22 THE COURT: Okay. How much have you billed 23 that's been paid; how much have you billed that has not 24 been paid; and how much will you be billing for beyond 25 what you have already billed? You can estimate.</p>	<p>Proceedings Page 4530</p> <p>1 THE WITNESS: I don't. 2 THE COURT: Okay. Anything else? 3 The witness is excused. Thank you. 4 THE WITNESS: Thank you, Your Honor. 5 (Whereupon, the witness stepped down from the 6 stand.) 7 THE COURT: Are you ready to call your next 8 witness? 9 MR. KISE: We are, Your Honor. Should we take a 10 break now? 11 THE COURT: In another few minutes. 12 MR. KISE: That's fine. 13 THE COURT: Let's get the witness. 14 COURT OFFICER: Witness entering. 15 (Whereupon the witness took the stand. 16 COURT OFFICER: Please raise your right hand. 17 S T E V E N C O L L I N S, after having 18 first been duly sworn was examined and testified as 19 follows: 20 COURT OFFICER: Please have a seat. 21 Please state your name and either home or 22 business address for the record. 23 THE WITNESS: My name is Steven Collins. My 24 home address is 38 Turkey Hill Road, West Newberry, 25 Massachusetts.</p>

Collins - by Defendant - Direct(Hernandez) Page 4531

1 THE COURT: The zip code? In case we want to
2 write you.
3 THE WITNESS: 01985.
4 THE COURT: All right. If the microphones are
5 all set up. Let's start.
6 MS. HERNANDEZ: All right. We are on?
7 THE COURT: We are on.
8 MS. HERNANDEZ: Great. May it please the Court?
9 THE COURT: Yep.
10 DIRECT EXAMINATION
11 BY MS. HERNANDEZ:
12 Q Mr. Collins, welcome.
13 So we are just going to work through some of your
14 qualifications here. Where did you go to college?
15 A Northeastern University in Boston, Massachusetts.
16 Q What did you study?
17 A Civil engineering.
18 Q What degree did you obtain?
19 A Bachelor of Science in Civil Engineering.
20 Q And after college, where were you employed?
21 A A number of places. The first employer was Dugan &
22 Meyers Construction for a project in Boston.
23 Q What were your responsibilities there?
24 A On that project I was a field engineer and then a
25 construction superintendent.

Collins - by Defendant - Direct(Hernandez) Page 4532

1 Q And where did you work after that?
2 A I worked for Carlson Corporation.
3 Q Carlson?
4 A Carlson, C-A-R-L-S-O-N.
5 Q And what were your responsibilities at Carlson?
6 A I was a construction superintendent there as well.
7 Q And where did you work after Carlson?
8 A I worked for AARK Construction A-A-R-K, down in New
9 York.
10 Q And what were your responsibilities at AARK?
11 A Superintendent and a project manager.
12 Q And where did you work after AARK?
13 A I worked for Crown Construction in Massachusetts.
14 Q And what were your responsibilities at Crown?
15 A Project manager and superintendent.
16 Q And where did you work after that?
17 A I then changed careers into consulting and worked for
18 Peterson Consulting in Boston.
19 Q So what were your responsibilities at Peterson?
20 A I was primarily a construction claims analyst.
21 Q And what does that mean?
22 A A project would have a plan for execution. During
23 execution something would vary during execution, whether it was
24 time or cost or other things. I would analyze that variance.
25 Typically I would quantify that variance, and then determine

Collins - by Defendant - Direct(Hernandez) Page 4533

1 the liability for that variance.
2 Q Okay. And then where did you work after that?
3 A Peterson was acquired by the Metzler Group, so I
4 worked for the Metzler Group.
5 Q Could you spell that for the court reporter?
6 A M-E-T-Z-L-E-R.
7 Q And what were your responsibilities at Metzler?
8 A Similar to Peterson, I was a claims analyst in the
9 construction practice.
10 Q So similar responsibilities?
11 A Similar work, yes.
12 Q And where did you work after Metzler?
13 A Metzler was acquired or morphed into Navigant
14 Consulting.
15 Q And what were your responsibilities at Navigant?
16 A I was, again, in the construction practice and doing
17 claims work; as well as, to draw a distinction, project
18 advisory work, meaning not everything is a dispute, other
19 projects are contemporaneously being executed and clients would
20 need assistance executing a project without a claim being
21 involved.
22 Q And what was your next job after that?
23 A Navigant sold our disputes and advisory division to
24 Ankura Consulting.
25 Q Do you currently work at Ankura consulting?

Collins - by Defendant - Direct(Hernandez) Page 4534

1 A Yes, I do.
2 Q What is your role?
3 A My title is a Senior Managing Director.
4 Q What responsibilities do you have at Ankura?
5 A I execute assignments. I manage the teams. And I am
6 also responsible for generating the work that we do.
7 Q Okay. And in those roles, what responsibilities did
8 you have relating to the procurement of government contracts?
9 A With respect to government contracts, I mean,
10 foundationally during my construction days, one of those was a
11 public project. As a project manager procurement is involved.
12 Prequalification of subcontractors to perform work to make sure
13 they are capable of the work. Developing scopes of work for
14 them to perform. Making sure they had the resource capability
15 to perform the work, whether it was financial or whether it was
16 manpower, technical capability. And issuing subcontracts,
17 issuing modifications to subcontracts, and overall procurement
18 of that, including changes.
19 As it relates specifically to government contracts,
20 federal contracts, my first -- my exposure dates back
21 approximately 20 years with the reconstruction of the
22 electrical infrastructure in southern Iraq.
23 Q Can you describe that reconstruction experience?
24 A Yes. The work for -- of that particular nature is
25 unlike -- it is traditionally uncommon in basic construction

Collins - by Defendant - Direct(Hernandez) Page 4535

1 work. By that I mean, if we were to build this courthouse,
2 typically we would have a complete design, complete
3 specifications and put it out to the marketplace for
4 construction bidders to bid on the work. And they would offer
5 a firm fixed price.
6 For the work in a war zone, the government doesn't
7 know specifically how much work they are going to be
8 performing. Therefore, rather than have a firm fixed price,
9 they often will issue the work on a cost reimbursable basis for
10 which the contractor gets a fee.
11 When that work is involved, controlling cost is
12 important. If you are getting fee on cost, the more something
13 costs the more fee there is. The government can't allow
14 something to just cost a large amount and allow fee. They have
15 to have some degree of assurance the contractors in that
16 environment are working with a set of protocols or procedures
17 to help ensure proper procurement in accordance with federal
18 guidelines. My work there first involved development of
19 policies and procedures for procurement for cost reimbursable
20 work for that project in Iraq, which was in the hundreds of
21 millions of dollars.
22 Q So what does that look like, the development of the
23 policies and procedures?
24 A To be -- these procedures had to be submitted to the
25 government for approval. In this case the defense contract

Collins - by Defendant - Direct(Hernandez) Page 4536

1 management agency, the defense contract audit agency had to
2 evaluate these procedures. Therefore, they had to apply --
3 comply with the federal acquisition regulations which
4 government control or govern a lot of federal procurement.
5 THE COURT: I'll just ask the witness to speak a
6 little louder or a lot louder actually, right into the
7 microphone.
8 THE WITNESS: Yes, Your Honor.
9 A So, they needed to comply with the government's
10 protocols, so those policies and procedures had to be
11 constructed in accordance with the federal acquisition
12 regulations.
13 Q And what is the federal acquisition regulations?
14 A The federal acquisition regulations are a part of or
15 Title 48 under the Code of Federal Regulations. The Code of
16 Federal Regulations is a codification of regulations
17 promulgated by the government in a number of subject areas.
18 Q And it governs procurement?
19 A Title 48 includes the federal acquisition
20 regulations, which include acquisition and procurement.
21 Q And so aside from this matter, are you currently
22 working on any other government contract work?
23 A Yes.
24 Q Could you describe it, please?
25 A I am working currently on four -- at least four other

Collins - by Defendant - Direct(Hernandez) Page 4537

1 federal government projects.
2 Q And very broadly what are those government contracts?
3 A One involves a federal highway project in the
4 southwest. Another involves a Veteran's Administration project
5 in California. And there are two projects involving the
6 Department of Navy.
7 Q Have you prepared any request for proposal during
8 your career?
9 A Yes, I have.
10 Q Could you please describe that?
11 A As part of -- well, in my pre-consulting days as a
12 project manager, I would create scopes of work, identify
13 qualified subcontractors, in that instance as a contractor,
14 draft the request for proposals in terms of scope, schedule,
15 contract provisions for execution. I would issue the request
16 for proposal and then take them back for evaluation, ultimately
17 leading to award.
18 Q And what are the components that you typically see in
19 the request for proposal?
20 A Well, as far as preparing the proposal, one of the
21 first steps is, in a government proposal that I worked on for
22 instance, in Iraq, there are protocols to prequalify those
23 recipients of the proposal. There will be ethical
24 requirements: The anti-lobbying; anti-gratuity; various
25 ethical requirements; confirmation subcontractors haven't been

Collins - by Defendant - Direct(Hernandez) Page 4538

1 debarred from federal work; or in the timing of that.
2 Thereafter, the prequalification to issue an RFP
3 would involve confirmation of safety; their relevance of
4 experience; recency of experience. Things of that nature.
5 Thereafter, through the prequalification process
6 there would be a review of their financial capacity, whether it
7 is their bonding capacity, if bonding is required.
8 Confirmation of their typical project size; their annual
9 revenues; you know, all helping to understand what their
10 capabilities are beyond execution, but financially as well.
11 Then the RFP would be developed, distributed,
12 evaluation criteria established for reviewing the responses,
13 and then the review would take place with the RFP.
14 Q And we will talk more in detail about that in a bit.
15 But have you prepared any presentations relating to the
16 procurement of government contracts?
17 A Yes.
18 Q And could you describe the nature of that a little
19 bit?
20 A Some of them are client specific training programs,
21 and others are in the public space. For instance, one of them
22 involves the Christian Doctrine, which is a doctrine important
23 to the contracting community, whereby under that doctrine, if
24 there are certain federal acts in place, whether or not
25 provisions of those acts are in contracts in written form, a

Collins - by Defendant - Direct(Hernandez) Page 4539

1 contractor could be obligated to be aware of that. That it
2 would be in full effect on the contractor, even if not
3 expressly included in the contract. So I had a presentation on
4 that subject and I have provided training programs on federal
5 procurement to clients as well.
6 Q And what are the training programs on federal
7 procurement typically like?
8 MS. FAHERTY: Can you speak up?
9 Q What are the training programs on federal procurement
10 usually like?
11 A A number of subject matters from prequalification
12 through solicitation evaluation. There is lots of federal
13 acquisition regulations that govern execution. I have provided
14 training programs on what was the Truth in Negotiation Act and
15 now is the, Truthful Cost or Pricing Act, for instance.
16 THE COURT: I am glad we got started, but five
17 minutes warning.
18 MS. HERNANDEZ: Okay.
19 Q Have you ever testified as an expert witness before?
20 A Yes.
21 Q How many times have you been qualified as an expert
22 at trial?
23 A At trial? Six or seven times.
24 Q And how many times have you testified as an expert
25 witness in a deposition or arbitration?

Collins - by Defendant - Direct(Hernandez) Page 4540

1 A A total of approximately 20. Twenty times
2 thereabouts.
3 Q And has there ever been an instance where you were
4 not qualified as an expert?
5 A No.
6 Q And in your work as an expert witness, what
7 percentage of the work has been in the field of government
8 contract procurement?
9 A It fluctuates year to year. But generally about
10 20 percent of my work is government contracts oriented, maybe
11 more, again it depends on the year.
12 MS. HERNANDEZ: Your Honor, the defendants
13 tender Mr. Collins as an expert witness in the field of
14 government contract procurement.
15 MS. FAHERTY: Your Honor, the plaintiffs object
16 to this qualification. Also, the specific category of
17 government contract procurement, there will be cross, I
18 suppose, I have already discussed at length with
19 Mr. Collins his background broadly on government contract
20 procurement. I don't think we have sufficient detail as
21 to the tenets of that government contract procurement.
22 And then just generally I am going to assert an
23 objection as to the relevance of this testimony.
24 THE COURT: Well, let's start with the last
25 question or point.

Collins - by Defendant - Direct(Hernandez) Page 4541

1 What is the relevance of this testimony?
2 MS. HERNANDEZ: Your Honor, they brought up of
3 the GSA's proposal with various witnesses already, and so
4 this is contextualizing that. They have brought up the
5 fact that the Statements of Financial Condition were
6 submitted in connection with this proposal. And he is
7 going to contextualize what that process looked like
8 like, what other factors are considered and how the
9 statements would have played a role in that.
10 MR. KISE: I am not going to say anything if you
11 are -- I am going to wait and see if you want me to say
12 anything.
13 THE COURT: Those times that you have been
14 qualified as an expert, if you remember, were some or all
15 of them as a government contract procurement expert?
16 THE WITNESS: Excuse me, Your Honor?
17 THE COURT: The times that you were qualified as
18 an expert, if you can remember, were those all as
19 government contract procurement expert?
20 THE WITNESS: The testimonies did not involve
21 government contract procurement. Procurement, yes, not
22 government. They were not government contract matters.
23 THE COURT: Well, I think it is a close call.
24 But out of an abundance of caution I hereby deem you a
25 government contract -- maybe we should just make it a

Collins - by Defendant - Direct(Hernandez) Page 4542

1 contract procurement expert.
2 MS. HERNANDEZ: That's fine.
3 THE COURT: Let's do it like that.
4 MS. HERNANDEZ: Contract procurement expert.
5 And we can take our break then.
6 THE COURT: Great. See you all in 15 minutes.
7 (Pause in the proceeding.)
8 (Whereupon, the following proceedings were
9 stenographically recorded by Senior Court Reporter Michael
10 Ranita.)

1 THE COURT OFFICER: All rise. Part 37 is back in
2 session. Please be seated and come to order.
3 THE COURT: Let's get the witness back on the
4 witness stand.
5 (Whereupon, the witness stepped into the witness
6 stand.)
7 THE COURT: And Ms. Hernandez, please continue.
8 MS. HERNANDEZ: Thank you, your Honor.
9 Q All right. Mr. Collins, what was the scope of your
10 engagement in this case?
11 A To determine whether the GSA procurement process was
12 fully employed as set forth in the criteria within the RFP
13 through the valuation process and the ultimate award of a lease.
14 Q What documents or -- did you review in reaching your
15 opinion?
16 A The RFP itself, the response, the Trump response to the
17 RFP, exchanges of information after that, including responses in
18 September of '11, I believe, written responses, as well as
19 presentations made for which hard copies were made available to
20 me in December of 2011.
21 Q And did you form your opinions to a reasonable degree
22 of certainty in the field of contract procurement?
23 A Yes.
24 Q And are you being compensated for the work you have
25 done as an expert?

Collins - by Defense - Direct (Ms. Hernandez) Page 4544

1 A I receive a salary, yes.
2 Q And you receive a salary from what?
3 A Ankura Consulting.
4 Q What rate is Ankura being compensated for your work
5 here?
6 A I believe it is \$925 an hour.
7 Q And approximately how many hours have you spent on this
8 engagement, to date?
9 A It is approximate, but 40 to 60, the range, inclusive
10 of preparation for today.
11 Q Which is still ongoing?
12 A Yes.
13 Q We'll see how many hours we are here.
14 Has anyone asked you to testify in a particular matter
15 in this case?
16 A No.
17 MS. FAHERTY: Objection.
18 THE COURT: Has anyone asked you to testify in a
19 particular matter in this case?
20 MS. FAHERTY: Right.
21 THE COURT: You understand, right?
22 MS. HERNANDEZ: Manner.
23 THE COURT: Like, has anybody coached you.
24 Q Is your compensation conditioned on any particular
25 opinion in this case?

Collins - by Defense - Direct (Ms. Hernandez) Page 4545

1 A No.
2 Q So moving to the specifics of the General Services
3 Administration's request for proposal process for the Old Post
4 Office property, could you please generally describe the process
5 that took place?
6 A The GSA generally was seeking market expertise that was
7 qualified in the area of repurposing historical buildings that
8 demonstrated the experience from an execution standpoint for,
9 um, the development, the design, the preservation of the
10 historical nature of the building, the efficiency of the
11 building, or sustainability from an energy usage and
12 conservation standpoint, um, maintenance of the open spaces, um,
13 operation of the facility thereafter, and ultimately to obtain
14 the financial benefit for the government through payment from
15 the developer.
16 Q And the ultimate award here would be what?
17 A The award of the lease.
18 Q And if I say throughout today GSA, would you understand
19 that to mean the General Services Administration?
20 A Yes.
21 Q That will save a little bit of time.
22 MS. HERNANDEZ: So if we could pull up what was
23 pre-marked as Defendant's Exhibit 619.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

Collins - by Defense - Direct (Ms. Hernandez) Page 4546

1 (The exhibit was handed to the witness.)
2 Q Mr. Collins, have you seen this document before?
3 A Yes, I have.
4 Q And what is it?
5 A This is the request for proposal for the redevelopment
6 of the Old Post Office.
7 Q Did you review this request for proposal in rendering
8 your opinion?
9 A Yes.
10 MS. HERNANDEZ: Your Honor, I would like to move
11 Exhibit D-619 into evidence.
12 THE COURT: Granted it's in.
13 (Defendant's Exhibit D-619 was admitted in
14 evidence.)
15 MS. HERNANDEZ: So if we could go page 13 of this
16 exhibit.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q Do you see where it says, the third bullet point, "For
20 purposes of responsibility, GSA intends to follow the standards
21 set forth in 48 CFR, 9.104-1?
22 A Yes.
23 Q Can you describe what responsibility means in this
24 context?
25 A Within 48 CFR 9.104-1, there are criteria set forth in

Collins - by Defense - Direct (Ms. Hernandez) Page 4547

1 that provision that determine whether or not a respondent to the
2 RFP in this case would be responsible.
3 Q And maybe I should have asked you this first. Are you
4 familiar with 48 CFR 9.104-1?
5 A Yes.
6 Q What is the CFR?
7 A The -- well, I touched on this earlier, but the Code of
8 Federal Regulations is a codification of federal regulations for
9 a multitude of areas for which regulations exist. Within that
10 code it's broken down into 50 Titles, capital T, Titles, of
11 which Title 48 is one of them. That is the Federal Acquisition
12 Regulations.
13 Q And how does this section apply to the procurement
14 process?
15 A Well, the criteria for the solicitation and evaluation
16 of the RFP respondents is set forth in the RFP, but there is a
17 statement within the GSA's RFP that they intended to follow this
18 particular CFR for determination of responsibility of the
19 respondents.
20 MS. HERNANDEZ: So if we could blow up the section
21 D right under this.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 Q Were these the evaluation factors you were just
25 referencing?

Collins - by Defense - Direct (Ms. Hernandez) Page 4548

1 A Within 9.104-1, the majority of the contents of 9.104-1
2 is subsumed within these criteria.
3 Q So how does the GSA utilize these evaluation factors in
4 analyzing the proposals they were given?
5 A Within the -- each of these criteria there's expanded
6 narrative content that describes the requirements for the -- the
7 respondent to address in each of these categories. Each of
8 these categories are weighted, as you could see, by percentages
9 on the screen, totalling 100 percent, based on the factors
10 you'll see to the right of each one of these.
11 So the GSA uses their expertise in that of those
12 assisting them to score, if you will, the respondent in each of
13 these factors.
14 Q And what does it mean that the developer's financial
15 capacity and capability is at 15 percent in this factored list?
16 A That of the total of 100 percent scoring for each of
17 the categories, this particular factor is worth a maximum of
18 15 percent.
19 Q And how does that compare to the other factors?
20 A One other factor is also at 15 percent, which is factor
21 number one. And the other two are of greater importance, or
22 weighted at 35 percent each.
23 Q And so we are going to move into the detailed
24 description of the factors in the RFP, which is on page 15 of
25 the document.

Collins - by Defense - Direct (Ms. Hernandez) Page 4549

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 MS. HERNANDEZ: And we'll blow up the second top of
4 the page, please, Nate.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q So is this the first factor, we looked at, "The
8 experience and past performance of developer and developer's key
9 personnel"?
10 A Yes.
11 Q And so broad level, what does this first factor entail?
12 A Generally speaking, without reading it verbatim, the
13 GSA is looking for the respondent to demonstrate its experience,
14 and the experience of each of its team members, over a period of
15 time in work relevant to this -- a project of this nature;
16 historical renovation, repurposing and ultimate use.
17 MS. HERNANDEZ: And then moving to page 17.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q This is the second factor we saw; correct?
21 A Yes.
22 Q And so this is the developer's site plan and design
23 concept?
24 A Yes.
25 Q And what does this factor entail?

Collins - by Defense - Direct (Ms. Hernandez) Page 4550

1 A Again, without reading --
2 Q Right.
3 A -- the script here, so to speak, of what it states, the
4 GSA is seeking for the developer to provide both a narrative
5 plan and illustrations of its intended use for the project,
6 including open space usage, um, elevations of the building,
7 access, egress, how they'll incorporate the historical factors
8 of the building for its intended use.
9 Q In looking at paragraph three, is the GSA looking for a
10 developer with a particular vision?
11 MS. FAHERTY: Your Honor, I'm going to ask if we
12 could do a little less leading here.
13 THE COURT: That was clearly leading.
14 MS. HERNANDEZ: I wasn't sure that was an objection
15 or a request. I'll react, though.
16 Q What else was the GSA looking for in factor two?
17 A Well they were looking for the conceptual narrative,
18 written dialogue on how the project would be developed, um,
19 capturing the structure, preservation of it, the design intent
20 for incorporation in Pennsylvania Avenue efficiency of the
21 construction of the project, and then the illustrations.
22 Q Okay. Moving to factor three, which is on page 18.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q What does the developer's financial capacity and

Collins - by Defense - Direct (Ms. Hernandez) Page 4551

1 capability criteria entail?
2 A In this area, they -- again, paraphrasing what is
3 written here, the GSA is looking for the developer/respondent to
4 provide its financials for a certain period of time in terms of
5 scale of project type of project, overall capacity. They are
6 also looking for the same information or similar information
7 from the respondent or developer's financiers to the extent that
8 it has any.
9 Q Were they seeking any financial statements under factor
10 three?
11 A Yes.
12 Q What kind of financial statements?
13 A They were seeking financial statements in this
14 particular section.
15 Q Do you recall what kind of financial statements?
16 A There was criteria for them that they would be
17 auditable, or having been audited, or they would be GAAP
18 compliant.
19 Q GAAP compliant.
20 So moving -- and one more question about factor three.
21 Do you recall what weight this was given in the evaluation
22 criteria?
23 A This was 15 percent.
24 MS. HERNANDEZ: So moving to page 19.
25 (Whereupon, the exhibit was displayed on the

Collins - by Defense - Direct (Ms. Hernandez) Page 4552

1 screen.)
2 Q "The developer's financial offer and supporting
3 financial information", what does this factor entail?
4 A This, again, paraphrasing, the government is looking
5 for the financial offer from the respondent for the project in
6 terms of -- I think they were looking for the net present value
7 outcome. And then there was various financial, um, models that
8 they were going to present to the government for the ultimate
9 offer to the government for return of revenue.
10 Q Just so we are clear, how does that differ from factor
11 three?
12 A Well, one is an actual payment. For simplification,
13 section four is what amount will the government ultimately be
14 paid under this lease, whereas under section three, the factor
15 there is to determine the developer's capability to finance the
16 project, because the government is not funding the construction
17 and the design, and all those elements; the developer is. So
18 they are checking his capacity to self-fund during the
19 development of the project.
20 MS. HERNANDEZ: And moving to page 21, and looking
21 at paragraph three.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 Q What does this paragraph indicate with respect to
25 nonconformity that the GSA may have received in proposals

Collins - by Defense - Direct (Ms. Hernandez) Page 4553

1 submitted?
2 A This is within the -- the prior page is limitations.
3 The GSA is setting forth the limitations of its rights as it
4 relates to the evaluation process.
5 Within this specific section, paragraph three, they are
6 stating that they have acts to -- have the right to act in their
7 sole discretion, in many respects, as it relates to the
8 evaluation and award process.
9 MS. HERNANDEZ: And looking to paragraph six, a
10 little bit further down the page.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q What does this -- is this paragraph indicating?
14 A Once again, they are stating, or the GSA is stating
15 that they have their full discretion to interpret the
16 information and apply the selection criteria as they see fit.
17 Q Okay.
18 MS. HERNANDEZ: And so we are going to pull up,
19 now, a different document. Plaintiff's Exhibit 1164. I
20 think it's already in evidence.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q Do you recognize this document, Mr. Collins?
24 A Yes.
25 Q Did you review this document as part of reaching your

Collins - by Defense - Direct (Ms. Hernandez) Page 4554

1 opinions in this case?
2 A Yes, I did.
3 Q And what is this document?
4 A This is The Trump Organization's response to the RFP of
5 July of 2011.
6 MS. HERNANDEZ: So we are going to move to page 153
7 of the document. This a lengthy document.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q Is this the type of document, form and substance, that
11 you would expect to be submitted in response to the requests for
12 proposal?
13 A Each RFP is unique. This one was fairly prescriptive.
14 By "prescriptive", I mean it states for certain portions of the
15 response what size paper to use, the font size to be used, so.
16 For past experience use X number of pages, you must include a
17 photograph. It was fairly prescriptive. And that's not
18 uncommon to have documents of this size. With what was required
19 under this RFP wouldn't be unusual to me.
20 Q Okay. Would not be unusual; right?
21 A Would not be unusual.
22 Q I heard you right.
23 So looking at page 153, what does this section about
24 financial statements indicate?
25 A Within this section, again, paraphrasing, if I may,

Collins - by Defense - Direct (Ms. Hernandez) Page 4555

1 there are qualifications being made by The Trump Organization's
2 response here regarding the contents of their financial
3 condition, and that -- um, I think this is the section where
4 they state that they've demonstrated adequate strength. The
5 financial condition would be submitted in a separate envelope,
6 and that there were gaps from the -- well, gaps from GAAP, or
7 departures from GAAP.
8 THE COURT: I knew we would hear that eventually,
9 "gaps from GAAP."
10 MS. HERNANDEZ: It was only a matter of time.
11 So we are going to now move to Plaintiff's 1431,
12 which is also in evidence.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 MS. HERNANDEZ: I'm going to go to the second page.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 Q Did you review this document in reaching your opinions?
19 A Yes.
20 Q And what is this document?
21 (The witness was handed the exhibit.)
22 A This is the December package, if you will, developed in
23 response to GSA's questions that had been submitted, I believe,
24 in September. So the respondents were given, I think,
25 approximately an hour and a half each. They were all given the

Collins - by Defense - Direct (Ms. Hernandez) Page 4556

1 the opportunity to meet with the GSA to discuss the proposals,
2 address questions, et cetera. And this was a response developed
3 that was presented to the GSA, as I understand it, in December
4 of '11, to address a number of their questions.
5 Q Can you describe, is this question and answer process
6 typical in the procurement process?
7 A Yes.
8 MS. HERNANDEZ: Can we please move to page nine in
9 the presentation.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q Is this responding to questions relating to factor
13 three of the RFP?
14 A Yes.
15 Q And can you remind us what factor three was?
16 A Factor three was the requirement for the respondent to
17 demonstrate its financial capacity to execute the project.
18 MS. HERNANDEZ: And we are going to go to the next
19 page.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q What is being presented to the GSA here?
23 A This is also with respect to factor three. And as I
24 understand it, the bold text is a restatement by The Trump
25 Organization of questions that the GSA had, and then below that

Collins - by Defense - Direct (Ms. Hernandez) Page 4557

1 would be the response from The Trump Organization in response to
2 the GSA's questions.
3 Q So what question did the GSA have here?
4 A Within 3B, there's questions that the financial
5 statements have departures from GAAP. And those are addressed
6 down below.
7 Q And so did The Trump Organization respond to this
8 question?
9 A Yes.
10 Q And was the GSA satisfied with this response?
11 MS. FAHERTY: Objection.
12 THE COURT: Please explain.
13 MS. FAHERTY: I believe her question, "Was the GSA
14 satisfied with this response?"
15 What I've heard so far is just factual testimony
16 about the factual occurrences of the OPO. I'm wondering
17 when we are getting to the expertise.
18 MS. HERNANDEZ: We are laying a factual foundation.
19 And he has been sprinkling in throughout his expertise and
20 relating it to what he seen in the process.
21 THE COURT: Was the question, "Was the GSA
22 satisfied with these responses?" Right?
23 MS. FAHERTY: The question was, "Was the GSA
24 satisfied with this response?" Also, I don't understand the
25 word "satisfied." There's a lot that I find wrong with the

Collins - by Defense - Direct (Ms. Hernandez) Page 4558

1 question, your Honor.
2 THE COURT: Can we ask if they accepted this
3 response?
4 MS. HERNANDEZ: Sure.
5 MS. FAHERTY: If he has a basis to know. I don't
6 know that I've heard the foundation that he has the basis to
7 know.
8 THE COURT: These basis questions, "Do you know
9 if...", "Yes." "What's the answer?" Um, if he doesn't
10 know, he'll say he doesn't know.
11 So I'll allow it. Overruled.
12 Does the GSA accept the -- talking about the whole
13 proposal?
14 MS. HERNANDEZ: Just focused on this response.
15 THE COURT: Just factor three.
16 MS. HERNANDEZ: Just factor three.
17 THE COURT: If you know, did the GSA accept the
18 Trump response to factor three?
19 THE WITNESS: The GSA does make reference to it in
20 its evaluation board recommendation for award to Trump, so
21 they do make reference to these responses.
22 THE COURT: You could cross examine him what the
23 response was.
24 MS. HERNANDEZ: That takes us to our next exhibit.
25 So if we could pull up Exhibit D-431.

Collins - by Defense - Direct (Ms. Hernandez) Page 4559

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 (The witness was handed the exhibit.)
4 Q Mr. Collins, have you reviewed this document before?
5 A Yes.
6 Q And what is this document?
7 A This is the Source Selection Board of the GSA's report
8 and recommendation.
9 Q And when did you review this document?
10 A During the course of my evaluation and report
11 preparation.
12 Q Did you rely on it in connection with rendering your
13 opinions in this case?
14 A Yes.
15 MS. HERNANDEZ: Your Honor, I would like to move
16 Defendant's Exhibit 431 into evidence.
17 MS. FAHERTY: Your Honor, I'll note my objection
18 that this document was previously attempted to be submitted.
19 There's a number of hearsay issues contained within this
20 document, so I'm just going to note my objection.
21 THE COURT: Overruled. It's in.
22 (Defendant's Exhibit 431 was admitted in evidence.)
23 MS. HERNANDEZ: Thank you, your Honor.
24 Q So you briefly testified as to the process earlier, but
25 can you explain, specifically, what the Source Selection

Collins - by Defense - Direct (Ms. Hernandez) Page 4560

1 Evaluation Board is?
2 A In this particular case, the GSA's awarding authority,
3 I believe, is the contracting officer. And that's to whom this
4 is addressed. I believe the contracting officer slash the
5 approving official. For the purposes of this evaluation, the
6 GSA assembled a board, and the board was comprised of four
7 members. The Selection Evaluation Board had four members. I
8 believe three were from the GSA and one was from the FDIC, and
9 then there they were assisted by a seven member Technical
10 Evaluation Team. So their input into the evaluation process is
11 captured within this document.
12 Q And --
13 THE COURT: Wait, wait. One second. Let me just
14 clarify or modify my last ruling.
15 D431, it's in evidence, but not for the truth of
16 its contents. Page 15 may have said, you know, this is a
17 wonderful proposal. It's only in for the sequence of
18 events, basically. This is what the response was. I'm not
19 going to assume it's true or false, just this was their
20 response.
21 MS. FAHERTY: Thank you, your Honor.
22 MS. HERNANDEZ: I'm assuming that means
23 Mr. Collins' observations and opinions based on this
24 document, since he is an expert. He can obviously consider
25 hearsay.

Collins - by Defense - Direct (Ms. Hernandez) Page 4561

1 THE COURT: I think I would have to hear a
2 particular question. I didn't have any problem with the
3 prior ones.
4 MS. HERNANDEZ: Great. We'll go through it.
5 Could we go to page three.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 MS. HERNANDEZ: And blow up the bottom there where
9 it says "The members of the SEB were."
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q So this is -- is this what you were describing EARLIER
13 about the SEB and tet members?
14 A Yes.
15 Q So you were getting to it, but what is the, role
16 specifically. How does the Technical Evaluation Team support
17 the SEB team?
18 A Well, in this specific instance, there's not enough
19 information to understand specifically what they did, but a
20 technical evaluation team typically is comprised of members who
21 have specialized expertise beyond that which may be possessed by
22 the actual SEB members themselves.
23 Here, I believe they were focused on factor two,
24 primarily, maybe only factor two. But within factor two, there
25 are those issues we discussed before in my summary that factor

Collins - by Defense - Direct (Ms. Hernandez) Page 4562

1 two had to deal with the conceptual design, access, egress,
2 historical preservation, the sustainability of the building and
3 other factors.
4 So using that as an example, that might be a case where
5 the SEB members would rely on special expertise of TET members
6 in those area.
7 Q This is to review the proposals that they've received;
8 right?
9 A Yes.
10 MS. HERNANDEZ: We are going to move to page nine
11 of the document. Can you blow up the recommendation
12 section.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q So what is this section -- does this section entail
16 Mr. Collins?
17 A This is, rather, a summarization as it relates to the
18 Trump proposal provided by the SEB.
19 Q And typically, this would explain why the government
20 contract -- or the government is -- let me withdraw that
21 question.
22 This would explain why the SEB is recommending that a
23 certain developer be selected as the preferred selected
24 developer; correct?
25 A Yes. With a summarization of main considerations they

<p>Collins - by Defense - Direct (Ms. Hernandez) Page 4563</p> <p>1 made.</p> <p>2 Q And in general, what does the SEB point to in this</p> <p>3 recommendation?</p> <p>4 A It -- they address the past experience of the Trump</p> <p>5 team as being qualified developers, particularly in the</p> <p>6 hospitality space. They speak to the scale of the projects with</p> <p>7 which they've performed, which is large complex hotels. They</p> <p>8 speak to the Trump team, not just The Trump Organization itself,</p> <p>9 its experience with historical renovations and rehabilitations,</p> <p>10 and they speak to the strong financial offer to the government,</p> <p>11 among other elements.</p> <p>12 Q And do they mention the financial capability of the</p> <p>13 developer?</p> <p>14 A Um, not in this specific paragraph.</p> <p>15 Q Okay.</p> <p>16 MS. HERNANDEZ: So we are going to go to page ten,</p> <p>17 the next page.</p> <p>18 (Whereupon, the exhibit was displayed on the</p> <p>19 screen.)</p> <p>20 MS. HERNANDEZ: Can you blow up that first chart</p> <p>21 there.</p> <p>22 (Whereupon, the exhibit was displayed on the</p> <p>23 screen.)</p> <p>24 Q What is the summary of evaluation here, Mr. Collins?</p> <p>25 A This summary of evaluation is the composite scoring</p>	<p>Collins - by Defendant - Direct (Hernandez) Page 4565</p> <p>1 Q We are going to move to page 12 of the document now.</p> <p>2 MS. HERNANDEZ: And so let's blow up Factor one.</p> <p>3 Q So is this the same factor we looked at for Factor</p> <p>4 one in the request for proposal?</p> <p>5 A Yes.</p> <p>6 Q And generally, could you explain what the</p> <p>7 considerations the SEB took -- let me withdraw that.</p> <p>8 Could you generally explain what the SEB considered</p> <p>9 in looking at Trump's proposal as to Factor one?</p> <p>10 A Again, Factor one involved the experience of the</p> <p>11 Trump contingent, including team members; and what experience</p> <p>12 they had relevant to historical redevelopment of buildings such</p> <p>13 as the Old Post Office. Then they noted strengths, weaknesses</p> <p>14 and deficiencies.</p> <p>15 Q And in this section, were there any weaknesses?</p> <p>16 A No, quote, "notable weaknesses."</p> <p>17 Q And looking to Factor two.</p> <p>18 MS. HERNANDEZ: We can blow that up.</p> <p>19 Q Generally, what did the SEB consider in ranking</p> <p>20 Trump's proposal as to Factor two, the developer site plan and</p> <p>21 design concept?</p> <p>22 A The SEB, in here they were specific, in conjunction</p> <p>23 with the input of their technical evaluation team, they</p> <p>24 evaluated the site plan and design concept. This is the</p> <p>25 narrative plan, the drawings and renderings in what was</p>
<p>Page 4564</p> <p>1 from each of the SEB members of the Trump proposal as a</p> <p>2 percentage of 100 percent, where they scored on each of the</p> <p>3 criteria.</p> <p>4 Q What does it reflect each of the SEB members, how they</p> <p>5 scored Trump in comparison so the other developers?</p> <p>6 A SEB 1, 2, 3, 4 runs top to bottom. I've concluded that</p> <p>7 from another piece of information in this response where those</p> <p>8 numbers come from.</p> <p>9 But SEB one scored the Trump contingent at 84 out of</p> <p>10 100; two, 92 out of hundred; three, 91 out of hundred, and</p> <p>11 number four, at 97 out of a hundred. Then there is color coding</p> <p>12 at the bottom that speaks to SEB number one, because it's shaded</p> <p>13 blue. I'm corresponding that that was SEB number one's number</p> <p>14 one pick. And that applies to two -- SEB two and four, who are</p> <p>15 also shaded in blue. And SEB three had the Trump proposal</p> <p>16 ranked as number two.</p> <p>17 (Continued on the next page.)</p> <p>18</p> <p>19</p> <p>20</p> <p>21</p> <p>22</p> <p>23</p> <p>24</p> <p>25</p>	<p>Collins - by Defendant - Direct (Hernandez) Page 4566</p> <p>1 anticipated to comply with the RFP to capture the GSA's vision.</p> <p>2 So that is captured in here within the strengths. They</p> <p>3 summarize what they consider to be the strengths of the Trump</p> <p>4 proposal.</p> <p>5 Q Did they note weaknesses?</p> <p>6 A Yes, they did.</p> <p>7 Q And looking to Factor three: The Developers'</p> <p>8 Financial Capacity and Capability.</p> <p>9 What did the GSA -- or excuse me let me withdraw</p> <p>10 that.</p> <p>11 Could you explain what the Selection Valuation</p> <p>12 Board's considerations for this factor for the Trump proposal</p> <p>13 were?</p> <p>14 A There were considerations expressed by the GSA prior</p> <p>15 to this document that there were departures from GAAP; lack of</p> <p>16 audited financial statements; and I think they were looking for</p> <p>17 the background and experience of Old Colony, one of the</p> <p>18 financial partners of the -- or members of the Trump</p> <p>19 contingent.</p> <p>20 This section here addresses the strengths; and then</p> <p>21 within notable weaknesses, it captures the response of the</p> <p>22 Trump contingent to the questions concerning those issues I</p> <p>23 just raised.</p> <p>24 Q And then we will move to the last factor.</p> <p>25 MS. HERNANDEZ: Factor four on the next page.</p>

Collins - by Defendant - Direct (Hernandez) Page 4567

1 Q So what did the SEB consider in reviewing the Trump's
2 proposal with respect to Factor four: Developers' Financial
3 Offer and Supporting Financial Information?
4 A Again, summarizing if there were -- if there were
5 questions that they -- the GSA had about the initial response
6 for the offer. And from memory, there were questions about the
7 average hotel room rate and occupancy rates, things of that
8 nature, which were addressed by the Trump contingent. Then
9 they ultimately stated that it offered a strong financial offer
10 that was tiered, with a minimum based on a percentage of annual
11 revenue; and a potential upside based on a percentage of gross
12 profit or gross operating revenues or some function beyond just
13 annual rental rate.
14 MS. HERNANDEZ: We can take this down now.
15 Q So, in reviewing all of these documents, Mr. Collins,
16 what is your opinion on the GSA's process in reviewing the
17 Trump proposal and selecting a bidder for the Old Post Office
18 property?
19 A My opinion is that it is twofold: One, the GSA set
20 forth criteria. They, for the objective for the project, the
21 evaluation criteria for the respondents, and then how those
22 would be evaluated to result in an award. They adhered to the
23 guidance of 48 CFR 109.9104-1.
24 And also for a comparative basis, since 48 CFR 9 is
25 part of the FAR, there is also a FAR provision regarding source

Collins - by Defendant - Direct (Hernandez) Page 4568

1 selection. So for a comparative purpose I evaluated while they
2 were sticking with 48 CFR 9104, source selection, I compared it
3 to see if it generally aligned with those criteria, just on a
4 comparative basis, and determined that they do, that it did.
5 Q And why did you make that comparative analysis
6 against the Federal Acquisition Regulation?
7 A The GSA didn't state that they were specifically
8 adhering to the wherewithal of the FAR, which is expansive.
9 But they did cite one provision that was identifying
10 responsibility. So, with respect to relationship to a sound,
11 recognized procurement method, which is within FAR, I related
12 it to that for a comparative basis to see whether it addressed
13 the components for a typical acquisition of this type, were it
14 under FAR.
15 Q And based on your experience and review of this
16 process, were any one of the evaluation factors determinative
17 in Trump Old Post Office LLC being selected as a preferred
18 selected developer?
19 MS. FAHERTY: Objection.
20 THE COURT: What's the ground of the objection?
21 MS. FAHERTY: It is a very leading question.
22 Leading.
23 THE COURT: Was any one factor determinative?
24 MS. FAHERTY: Determinative, Your Honor?
25 THE COURT: What's --

Collins - by Defendant - Direct (Hernandez) Page 4569

1 MS. FAHERTY: She is asking, did a particular
2 factor result in the award.
3 THE COURT: That's not the question.
4 MS. FAHERTY: Determinative is a very subjective
5 word. She is trying to get to his opinion. She can ask
6 him what opinion he formed. This is an opinion he formed.
7 THE COURT: Overruled.
8 Q You can answer.
9 A No.
10 MS. HERNANDEZ: One second, Your Honor.
11 (Pause in the proceeding)
12 MS. HERNANDEZ: No further questions on direct.
13 MS. FAHERTY: Can I take two seconds, Your
14 Honor, just to review my materials to determine if cross
15 is even necessary with this witness?
16 THE COURT: You are through?
17 MS. HERNANDEZ: I am done.
18 THE COURT: Sure, of course.
19 MS. FAHERTY: Thank you, Your Honor.
20 (Pause in the proceeding.)
21 MS. FAHERTY: Nice to see you again,
22 Mr. Collins. I have no questions for you.
23 Thank you Your Honor.
24 THE COURT: Okay. Then the witness is excused.
25 Thank you.

Proceedings Page 4570

1 (Whereupon, the witness stepped down from the
2 stand.)
3 THE COURT: Defendants, next witness.
4 MS. HABBA: I'll take the gap to just do a
5 housekeeping matter, Your Honor. We have an unopposed
6 motion for pro hac vice for my associate, Peter Gabra. I
7 was hoping Your Honor could address it.
8 THE COURT: No objection, I grant it.
9 What state is Peter from?
10 MS. HABBA: New Jersey.
11 THE COURT: Your state.
12 MS. HABBA: Well, both are my states, and
13 Connecticut, but yes, thank you.
14 THE COURT: When was it filed by the way?
15 MS. HABBA: It was filed, I believe, at the
16 beginning of last week.
17 MS. GREENFIELD: It was already processed. Did
18 you check the document?
19 MS. HABBA: We did and we didn't see it.
20 Perhaps my assistant missed something. But if it is
21 processed, fantastic. Thank you.
22 MS. GREENFIELD: We will take a look.
23 MS. HABBA: Thank you.
24 THE COURT: Defendants, next witness.
25 COURT REPORTER: Who will be questioning?

<p>Proceedings Page 4571</p> <p>1 MR. ROBERT: Mr. Fields. 2 THE COURT: Mr. Kise, how come you don't get the 3 pleasure to question people? You get to a certain stage 4 in life where you are better off -- I haven't cut off my 5 sleeves -- but you are better off like Bill Belichick, on 6 the sidelines. This is a young person's game. And by the 7 way, be careful what you wish for because there is still 8 time left. 9 MR. AMER: Calling it a young person's game, I 10 take that as a compliment. 11 MR. KISE: You should. 12 COURT OFFICER: Judge, are you ready for the 13 witness? 14 THE COURT: Yes. 15 COURT OFFICER: Witness entering. 16 (Whereupon, the witness took the stand.) 17 THE COURT: Chris, you are comparing yourself to 18 Coach Belichick? 19 MR. KISE: I could probably think of a few other 20 coaches that are more popular in this state. 21 COURT OFFICER: Please raise your right hand. 22 S T E V E N L A P O S A, after having 23 first been duly sworn was examined and testified as 24 follows: 25 COURT OFFICER: Please have a seat.</p>	<p>Laposa - by Defendant - Direct. Page 4573</p> <p>1 A I did. 2 Q What was the title of your dissertation? 3 A It was on property development investments in 4 transitional economies. 5 Q Why did you choose that topic for your dissertation? 6 A Why did I do that? 7 Q Why did you choose that topic for your dissertation? 8 A Goes to a personal aspect of my life. I grew up as a 9 son of an immigrant from Yugoslavia who came through Ellis 10 Island, my grandfather, my family. I grew up with many people 11 in Central Europe and Eastern Europe. And I was in Russia in 12 August of 1991 when the Soviet Union became the former Soviet 13 Union. And I just saw this breakout of capital flows going 14 into transitional economies. So I spent time with the topic of 15 just transitional economies, because that was in my background. 16 Q Have you ever authored any peer-reviewed articles? 17 A I have authored numerous peer-reviewed articles. 18 Q And generally what are some of the subject matters of 19 those articles? 20 A Real estate economics; real estate valuation trends; 21 real estate capital markets. I have done other one on 22 corporate real estate, but generally it is real estate. 23 Q Have those articles ever been published? 24 A They have been published. 25 Q And what are some of the journals where your articles</p>
<p>Laposa - by Defendant - Direct. Page 4572</p> <p>1 MR. KISE: Your Honor, right now I think I would 2 like to be Jimbo Fisher, fired from my job and collecting 3 \$77 million. That's what I would like. 4 THE COURT: I'll see if I can arrange it. 5 COURT OFFICER: Please state your name and 6 either home or business address for the record. 7 THE WITNESS: My name is Steven Laposa. The 8 address is 909 Fannin Street, Suite 2450, Houston, Texas 9 77010. 10 THE COURT: Mr. Fields, please proceed. 11 MR. FIELDS: Thank you, Your Honor. 12 DIRECT EXAMINATION 13 BY MR. FIELDS: 14 Q And good morning, Dr. Laposa? 15 A Good day. 16 Q Good afternoon it seems. 17 I would like to briefly discuss your educational 18 background. Could you please identify any relevant degrees or 19 educational achievements after your undergraduate degree? 20 A Yes. I completed an MBA in real estate and 21 construction management at the University of Denver in 1989. 22 And I also completed a Ph.D. at the university of Reading in 23 England in 2006. 24 Q Did you complete a dissertation as part of your Ph.D. 25 program?</p>	<p>Laposa - by Defendant - Direct. Page 4574</p> <p>1 have been published? 2 A Several have been published in top tier journals such 3 as the Journal of Real Estate Research and the Journal of 4 Property Investment and Finance. 5 Q What is the process like of having to get your 6 article published? 7 A The process is you typically, in my 30 plus years of 8 doing this, you present a paper at an academic conference; get 9 feedback; go back with your authors or coauthors, if they 10 exist, continue to improve the quality of the article. Submit 11 it to the editor of a journal, who then turns it to blind 12 reviewers who review it. They give it back to you. The editor 13 submits it back to the author, in this case myself, and we 14 either, you know, correct or improve what they have asked us to 15 do. And so that's what -- then eventually you get it 16 published. It takes a while to do it. 17 Q Have you ever published on the valuations of hotels 18 apartments and senior housing? 19 A Yes. Back in the late '90s I did quite a bit of 20 research in those areas, especially in senior housing. And 21 published quite a few papers, as in peer-reviewed articles as 22 well. 23 Q Have you ever been on the editorial board for a 24 journal? 25 A Yes. Over my career I have been on the editorial</p>

Laposa - by Defendant - Direct. Page 4575

1 board of six journals. And as such, when papers come in, just
2 to follow-up the previous response, when someone submits a
3 paper to that journal, they may give it to me to blind review
4 it, to read it, to review it, to see if it actually extends the
5 body of knowledge that is the purpose of doing publications.
6 So, yes.
7 Q Have you ever done any research regarding real estate
8 markets?
9 A I have over 30 years. That's a consistent theme of
10 what I have been able to do in the various companies I have
11 worked for. And so, yes, that's the real estate economics;
12 real estate capital markets; real estate cycles, is what I
13 consider, kind of, the main components of that real estate
14 analysis.
15 Q When you say, "real estate cycles," what do you mean
16 when you say that?
17 A Um, in general terms real estate goes through cycles,
18 and I am talking about commercial as well as residential.
19 There are four cycles, it is typically it is like a sine wave
20 if you can see it. So a sine wave would have recession,
21 recovery, expansion and contraction. Each one has their own
22 decision rules as to identify where you put a market at a
23 particular time.
24 MR. FIELDS: Your Honor, is there usually real
25 time on this screen?

Laposa - by Defendant - Direct. Page 4576

1 MS. FAHERTY: No.
2 MR. FIELDS: Thank you. It has been a while
3 since I have been up here.
4 Q Does your real estate cycle research include
5 forecasting?
6 A Yes. Beginning when I was with a company in
7 Baltimore, Alex Brown Kleinwort Benson. This was in 1992,
8 right after the RTC days or the Resolution Trust Corporation
9 days.
10 We had a debacle after the late -- in the late 1980s,
11 went through a recession in '91. And the pension fund and
12 institutional investors were surveyed and said what is the
13 number one thing they want from the research community.
14 Myself. And they said, we want to know more about cycles. So,
15 I started producing, with my director, who is a Ph.D., cycles
16 on quality basis, 50 different -- 50 to 60 different markets
17 and five different property tax, where we looked at historical
18 trends and provided three to five year forecast.
19 Q Real estate economics and real estate capital
20 markets, can you briefly describe what that is?
21 A Real estate economics has to do more with the
22 understanding of how real estate markets works. It could be
23 urban economics, as far as how to -- how things -- how
24 companies move, how they grow, how they -- et cetera. It could
25 be just your macro economics, micro regional economics as far

Laposa - by Defendant - Direct. Page 4577

1 as employment growth, GDP growth, income growth, things of this
2 nature, how they relate to real estate demand and markets.
3 And then real estate capital markets is where it is
4 more the pricing of the real estate assets. In other words,
5 what is the trends with cap rates and discount rates. And who
6 is investing in the market, who is selling, who is buying.
7 Q Have you ever won any awards for your research?
8 A I have.
9 Q And do you recall when and what award that you won?
10 A In 2014 I was awarded the Inaugural Scholar
11 Practitioner Award by the American Real Estate Society for
12 Research, that was used, respected, as the plaque says,
13 respected by the academics as well as used in the industry. So
14 I was the first one in 2014. I won other awards dealing with
15 retail research and senior housing, but I consider that one of
16 my best.
17 Q What is the American Real Estate Society?
18 A The American Real Estate Society is about 35 years
19 old. It is a worldwide association of primarily 50 percent
20 industry professionals and 50 percent academics, so.
21 Q Have you ever authored or coauthored any books?
22 A I have. I have been published in a book on --
23 chapter called "Mass Appraisal and Lifestyle Segmentation
24 Profiles and the use of GIS or Geographic Information Systems
25 in the Valuation of a Mass Appraisal for Residential

Laposa - by Defendant - Direct. Page 4578

1 Properties."
2 Q You use the term "mass appraisal," could you define
3 what you mean by that term?
4 A Yes. It is -- done numerous of these. And it is
5 just where you get a collection of properties, whether it could
6 be a city that has -- well, this one had like four to 5,000
7 homes that we had to value in a mass appraisal sense. There
8 are times where I have worked with the appraisers in
9 Pricewaterhouse or others who I have been a part of, where it
10 could be five, you know, 2000 convenience stores around the
11 United States. So that's -- it is taking a look at being able
12 to efficiently develop portfolio estimates on a portfolio of
13 various residential or commercial properties.
14 Q All right. You mentioned Pricewaterhouse, I would
15 like to move into a little bit of your professional background
16 now. Where did you work after you finished your MBA?
17 A After completing my MBA I started my own company that
18 provided project management and construction management
19 services to clients that were inbound to both industrial and
20 commercial property tax. Due to my work I lived and worked in
21 the Middle East for four years in the early '80s and I did
22 massive projects with industrial gas plants, oil facilities,
23 gold mines, et cetera. As well as, during with that company,
24 JPM Associates, we helped with retail location analysis for a
25 variety of clients.

Laposa - by Defendant - Direct. Page 4579

1 Q And approximately how long were you with JPM and
2 Associates, which was your business?
3 A I was with them for three years. This was through
4 '92. And if you remember previously, I talked about there was
5 a recession in '91, so I had the opportunity to join a research
6 group with my former professor at the University of Denver at a
7 company called Alex Brown Kleinwort Benson or we called it
8 ABKB.
9 Q And so after you stopped working with JPM and
10 Associates or closed your business, did you then move to the
11 ABKB firm?
12 A I did. And I helped start a research group that
13 supported the real estate advisory company, ABKB, who advised
14 and did asset management for a number of companies.
15 I'll slow down. I am sorry about that. I get
16 excited.
17 So, yes. So we did asset management acquisitions,
18 dispositions on behalf of pension funds. And I, there again, I
19 was with a research group working with the valuation group
20 within ABKB, as well as the asset managers and investment
21 advisors.
22 Q And just generally, what were some of your
23 responsibilities at ABKB?
24 A That is the -- 1992 is when we started to produce
25 quarterly forecasts, analysis real estate cycles for internal

Laposa - by Defendant - Direct. Page 4580

1 use as well as external to our clients. And so that we would
2 be able to provide inputs into the asset management and
3 evaluation and appraisal practices that we did internally on
4 behalf of our clients.
5 Q So if I understood you correctly your work was used
6 to support the appraisal group; is that a fair representation?
7 A They were one of the groups that used our research
8 and our analytics, yes, as well as the people that were
9 involved with investments and buying properties and selling
10 properties. We would advise them pretty much on a Monday
11 morning, get on a plane, go where in the United States.
12 Q And how would the appraisal group or other groups use
13 or rely on the information that you provided to them?
14 A We provided general -- at that time, market
15 information as far as forecasts of demand, supply, vacancy,
16 rents, cap rates, valuations. So and again, five property tax
17 and 50 to 60 different markets.
18 Q Did you leave ABKB in approximately 1995?
19 A I did. ABKB merged with Lasalle Partners and Lasalle
20 Investment Advisors in '94. And then in '95 I moved with my --
21 the research director to Pricewaterhouse. And once again we
22 were involved with the real estate valuation group doing --
23 providing similar services to the appraisers that worked within
24 our group who did work, again, on behalf of, at that time,
25 clients for PWC, as well as individual clients that we

Laposa - by Defendant - Direct. Page 4581

1 contracted with.
2 Q Do you recall the day that you started with
3 Pricewaterhouse?
4 A Yeah, July 1, 1995.
5 Q Why is that memorable for you?
6 A My birthday was the next day. And the second day of
7 that -- when I started at Pricewaterhouse, I was told get on a
8 train from Baltimore and come up to New York, because we were
9 working on the Rockefeller Center bankruptcy.
10 Q Rockefeller Center bankruptcy?
11 A Correct. That was back in the mid -- well, it was
12 1995. The research group that I was part with, again, we
13 prepared the market analysis section of the volume appraisal
14 that we did for -- on behalf of our client.
15 Q And specifically what was your involvement with
16 regard to the Rockefeller Center bankruptcy?
17 A Two things. One, because my construction management
18 background I went through all of the empty spaces that were in
19 Rock Center, the 13 million square feet, to identify what the
20 TI cost, Tenant Improvement costs. And so I went through that
21 and identified the empty spaces what it would cost to build --
22 to do the tenant finish. But more importantly, the main focus
23 what I did is to take a look at the market analysis section.
24 We wrote that, beginning with a kind of a funnel, what was
25 going on in the economy, what was going on in New York City as

Laposa - by Defendant - Direct. Page 4582

1 a metropolitan area. Then getting down to a submarket.
2 Because in 1995 we start to expand our real estate cycle
3 analysis to not only do a market, but then we started doing
4 submarkets, because we found in the Rockefeller Center
5 bankruptcy that Rock Center submarket, just the area around it,
6 only had about 7 percent of the overall stock in New York City.
7 But it captured approximately 20 percent of all new absorption.
8 So what happened is, that can't theoretically continue. So,
9 what we started doing is looking at how to do forecasts, not
10 only for the market but individual submarkets within cities.
11 THE COURT: Five minute warning.
12 Q You mentioned that you looked at the submarket, the
13 area around Rock Center, and also the market New York City as a
14 whole; is that a fair representation of your testimony?
15 A Yeah, considered a funnel, you look at national, then
16 what is going on in the metropolitan area, a submarket,
17 eventually you get to an peer group, until you get to the
18 individual property.
19 Q Was there an international aspect to the Rock Center
20 market analysis?
21 A Yeah, very much so. Because one thing that we looked
22 at is who was active in the market. Not only in New York City
23 but other markets that had property similar to Rock Center.
24 And who was buying and selling in those markets and, you know,
25 the preponderance of the foreign investors and private

Laposa - by Defendant - Direct. Page 4583

1 institutional investors were active in the market.
 2 (The following proceedings were stenographically

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4585

1 focused on -- I only had to teach one course a semester. So
 2 primarily it was real estate market analysis every semester. I
 3 periodically would teach a real estate development class, and at
 4 the end I was a director of the research center there. So I did
 5 a lot of public speaking. And Colorado State is a land grant
 6 university, so we did a lot of research that gave back to the
 7 State of Colorado.
 8 Q Do you recall when you left Colorado State?
 9 A Yeah. Once again, when I left, in 2012, I was
 10 immediately hired by Alvarez & Marsal. And once again, when I
 11 began with that company, of course Lehman Brothers' bankruptcy
 12 was still on going. And the first thing that they asked me to
 13 do is to look at a portfolio of apartment complexes and units
 14 they had nationally, and using my real estate psychoanalysis, to
 15 determine, to present to the investment committee, should we
 16 buy, should we sell them? What should we do with them? What
 17 was the timing? So this was in 2012, and if I remember right, I
 18 recommended holding at least to 2014. And I'm sure if they held
 19 it further, they would have made more money, but they were
 20 thinking of just doing a fire sale. And I recommended not to do
 21 that based on my real estate psycho and forecast.
 22 THE COURT: Let's talk about 2014 at 2:15.
 23 Lunchtime. See you all at 2:15.
 24 And I'll direct the witness not to discuss this
 25 case, his testimony, or anything related to it during the

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4584

1 Q Now, at some point did Price Waterhouse merge?
 2 A Correct, yeah. A few years later, Price Waterhouse
 3 merged with Coopers & Lybrand, so the new company was called
 4 PWC, for short. But we call it Price Waterhouse Coopers, but
 5 eventually everybody knew it in the marketplace as PWC.
 6 Q Did your responsibilities change after the merger?
 7 A After the merger, my responsibilities became more -- I
 8 was, at that time, the National Director of Real Estate Research
 9 for PW, and once we merged with Coopers & Lybrand, my
 10 responsibilities became more global in nature, and so I became
 11 the director of the global -- I was one of the two directors in
 12 the Global Real Estate Strategy and Research Group.
 13 Q After PWC, did you move into a more educational or
 14 teaching role?
 15 A Yes. I mean, during my time with PWC I completed my
 16 Ph.D. in England, and then -- so in 2006, after flying around
 17 the world for 150,000 miles a year, my -- I got an offer to kind
 18 of just stay in one place, and so I accepted an offer as an
 19 endowed chair in real estate in Colorado State University, and
 20 in Fort Collins, Colorado. So I became the chair teaching real
 21 estate market analysis for the five years I was there, as well
 22 as real estate development courses.
 23 Q What were some of the courses that you taught at
 24 Colorado State?
 25 A I focused on -- because I had an endowed chair, I

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4586

1 break.
 2 Thank you.
 3 (Whereupon, the case on trial was adjourned until
 4 2:15 for the luncheon recess.)

 8 THE COURT OFFICER: All rise. Part 37 is back in
 9 session. Please be seated and come to order.
 10 THE COURT: Let's get the witness back on the
 11 witness stand.
 12 (Whereupon, the witness stepped into the witness
 13 stand.)
 14 THE COURT: Before we resume the questioning, let
 15 me ask defendants, are all defendants represented here at
 16 this point?
 17 MR. FARINA: Good afternoon, your Honor. Michael
 18 Farina for the defendants. All defendants are now
 19 represented. We have Mr. Gabra in the back, admitted pro
 20 hac vice. I understand he is representing some of the
 21 defendants that Ms. Habba represents.
 22 THE COURT: You don't have to go person by person,
 23 but they are all represented. Great.
 24 Let's continue with the direct examination.
 25 MR. FIELDS: Thank you, your Honor.

<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4587</p> <p>1 THE COURT: I'll remind the witness that he is 2 still under oath. 3 Q Dr. Laposa, before the lunch break we were discussing 4 your employment with Alvarez & Marsal? 5 A Yes. 6 Q And Marsal is M-A-R-S-A-L. 7 A Correct. 8 Q When did you leave Alvarez & Marsal? 9 A October 2019. 10 Q Where did you go next? 11 A I started my own LLC consulting firm and. 12 Q What's the name of that firm? 13 A Laposa Realty Advisors, LLC. 14 Q And what kind of work do you do now with Laposa Realty 15 Advisors, LLC? 16 A I provide general consulting on real estate economics 17 investment strategies, as well as consulting with a variety of 18 clients for expert witness work. 19 Q Is the work that you are doing now with your company 20 consistent with the work that you've done and you've described 21 over the past approximately 30 or so years? 22 A Yes, it consistently deals with primarily with real 23 estate analytics and valuation issues. 24 Q And are you also affiliated with the Ankura, 25 A-N-K-U-R-A, firm?</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4589</p> <p>1 real estate analytics and valuation arena? 2 A Since -- I mean, formally, I would say since 1992. 3 Q Would that be, give or take, about 31 years? 4 A That would -- yes, about 31 years. 5 Q I went to law school because I'm terrible at math, so 6 that's why I asked you to confirm that. 7 A Okay. 8 Q And you mentioned this a little bit, but has the work 9 that you've done in this arena spanned the globe? 10 A Yes. Um, especially after PW merged with Coopers & 11 Lybrand. As I said previously today, my work expanded, so I 12 began working in Europe, the Middle East, Latin and Asia, and 13 again, being PWC works with the Urban Land Institute to produce 14 annual publications on emerging trends, both in North America 15 and Europe and Asia Pacific, and I helped do quite a bit of 16 research for those publications, as well as write several of 17 them. 18 Q And in what countries have you assisted with market 19 analyses for valuation purposes? 20 A Um, after the currency crisis in the Asia, I've worked 21 with -- in Seoul, I worked in Tokyo, Hong Kong, Singapore, and 22 then I've also worked in -- across the, um, Europe, in multiple 23 capitals there. And I also provided that type of analysis in 24 the Middle East, and Dubai, and Riyadh, and other places. 25 Q Have you ever held any professional designations?</p>
<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4588</p> <p>1 A Yes. I am an independent senior advisor to Ankura. 2 Q What does Ankura do? 3 A They are a management consulting firm. I work 4 primarily with their Real Estate Advisory and Valuation Group. 5 Q How do you support the Real Estate Advisory and 6 Valuation Group? 7 A Pardon? 8 Q How do you support that group, the Real Estate Advisory 9 and Valuation Group? 10 A Sometimes it's through engagements, sometimes -- I 11 mean, it's with presentations, proposals, in quite a few cases 12 it's with helping provide them the market analysis research and 13 tools, including my specialty in GIS special analysis to real 14 estate markets. 15 Q And you discussed GIS before the lunch break, but could 16 you give us a little explanation on what GIS is? 17 A Sure. It's taking a lot of data that is two 18 dimensional and making it three dimensional. Um, if you use 19 Google Earth or Google Maps, you probably have seen just some 20 basic maps, um, and aerial photographs. 21 What GIS does is integrate economic demographic data 22 at, you know, thousands of variables, whether it's economics, 23 demographics, history, forecast, by, you know, states, counties, 24 census track, block groups, zip codes, et cetera. 25 Q Approximately, how long have you been involved in the</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4590</p> <p>1 A Um, for numerous years I held the -- what's called the, 2 um, I was invited to submit my qualifications to be considered 3 as a fellow in the Royal Institute of Chartered Surveyors. 4 The Royal Institute of Chartered Surveyors is a global 5 industry association group primarily similar to the Appraisal 6 Institute here in the United States, to be designated as a 7 fellow. 8 You had to submit your qualifications, your career, get 9 interviewed, and I was a fellow in -- with the Royal Institute 10 of Chartered Surveyors until October 2019. 11 Q And just to be clear, you said you were invited, but 12 you were admitted into -- as a fellow in the Royal Institute of 13 Chartered Surveyors? 14 A Correct. 15 Q Is there -- withdrawn. 16 Would it be fair to say that licensed appraisers have 17 relied on information that you provide them, generally 18 throughout your career, to support their conclusions in their 19 appraisals? 20 A That would be very fair to say. 21 Q Are you currently a member of the American Real Estate 22 Society? 23 A I am currently a member of the American Real Estate 24 Society, yes. 25 Q Generally, briefly, what is the Society? What is the</p>

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4591

1 American Real Estate Society?
2 A I believe I mentioned this earlier today. It's an
3 international association of industry and academics in primarily
4 with the focus on real estate research and publications and --
5 it's a great group.
6 Q Did you ever hold any positions with the Society?
7 A In the early 2000's I was on their board of directors
8 for quite a few years. And I believe in 2008 I was elected to
9 program chair for an annual conference, which eventually I
10 became the vice president and the president of the American Real
11 Estate Society.
12 Q Are you familiar with the Urban Land Institute?
13 A I'm also a member of the Urban Land Institute, ULI.
14 Q What do they do?
15 A ULI, Urban Land Institute. The ULI is probably one of
16 the world's largest industry associations encompassing the built
17 environment.
18 Q Have you written publications for the ULI?
19 A Yes, for a number of years, I think I just said I
20 helped write the -- provide research. I would go into the North
21 American Real Estate -- the emerging trends publications. I
22 wrote the first couple of years, in the European publication, as
23 well as the Asia Pacific. I wrote the first two years in that,
24 as well as the -- they have a book on various market analysis
25 that I helped write a chapter on for the R and D flex property

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4592

1 tax.
2 Q Does the ULI survey some of it's members with some
3 frequency?
4 A Yes, twice a year a select group of us, and I'm
5 included in one of the 40 -- 35, 40 individuals. They ask us to
6 provide our forecast for various macroeconomic parameters, such
7 as GDP, unemployment, economic GROWTH, et cetera, as well as
8 provide information and forecast as to -- for the next three
9 years on each one of the property types, including the real
10 estate capital markets. It's primarily a real estate capital
11 market semiannual forecast that I'm privileged to participate
12 in.
13 Q You said approximately 35 or 40 of your surveys out of
14 how many members, give or take?
15 A I don't know the exact number of how many industry, but
16 I think the last I heard was at least 35,000.
17 Q Are you familiar with the Appraisal Institute?
18 A I'm familiar with the Appraisal Institute, yes.
19 Q What is the Appraisal Institute?
20 A The Appraisal Institute is the national body. It's
21 again, an industry association that sets standards for
22 appraisals. They produce quite a bit of publications,
23 continuing Ed. courses, and they do the certifications for
24 members to become licensed. Certified members of the Appraisal
25 Institute are MAI's.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4593

1 Q Have you ever taught courses for the Appraisal
2 Institute?
3 A Yes, I have. Myself and another co-presenter, we
4 developed the first ever real estate cycle course, a two-day
5 course, primarily. We went around to numerous cities in the
6 United States and taught a course on how to use real estate
7 cycles with appraisals.
8 Q Have you ever been qualified as an expert witness in
9 any court?
10 A Yes.
11 Q Approximately how many times?
12 A About five or six.
13 Q And what was the subject matter, generally, of your
14 testimony in those five or six cases?
15 A Um, real estate capital markets. Um, I was designated
16 as a real estate capital markets expert in a case. Another is
17 just, again, going back to a common theme, real estate analytics
18 as they apply to appraisals, especially when testifying in
19 property tax appeal courts I've been involved with. So, um, I
20 can't think of too many others.
21 Q And have you testified as an expert witness at
22 depositions where you ultimately were never qualified as an
23 expert later in court?
24 A Can I ask a clarification on the question? In
25 depositions that the case eventually settled?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4594

1 Q Let me ask it -- I'll withdraw and ask a simpler
2 question. How many times have you testified as an expert
3 witness outside of court?
4 A Testified via depositions?
5 Q Yes, sir.
6 A Oh, that's about 12 to 15 over my course of my career,
7 yes.
8 Q Would those 12 or 15 include some of your trial
9 testimony, or is that separate and apart from your trial
10 testimony?
11 A That would be separate and apart.
12 Q Okay.
13 A I'm going back to 1992 on this. Okay?
14 Q Fair enough.
15 Were you retained by the defendants in this case to
16 provide an opinion regarding real estate analytics and
17 valuation?
18 A Yes.
19 Q Did you have the opportunity to acquaint yourself with
20 the allegations and the Attorney General's complaint in this
21 case?
22 A Yes.
23 Q And what did you do to acquaint yourself with the
24 allegations?
25 A I reviewed the complaint, um, and I, again, focused on

<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4595</p> <p>1 areas that they asked me to provide my opinions and analysis on. 2 And that had to do with a lot of just the -- the, um, 3 allegations of the disparity between what was appraised values 4 versus what was on the Statement of Financial Condition. 5 Q Did you review the complaint and also the accompanying 6 exhibits that were a part of the complaint? 7 A Well, I reviewed the complaint. And by the time I got 8 to Exhibits 1 and 2 accompanying that, I noticed that it, you 9 know, my area of expertise became less and less. And by the 10 time I got to Exhibits 3, which are the actual exhibits, I 11 skimmed over them fairly quickly. 12 Q So would it be fair to say, then, that you focused your 13 time and analysis on the allegations in the complaint as they 14 related to valuation disparities? 15 A Correct. 16 Q And after reviewing the allegations in the complaint, 17 did you ultimately form opinions to a reasonable degree of 18 certainty in the field of real estate analytics and valuation 19 regarding the theories of valuation alleged in the complaint? 20 MR. SOLOMON: Your Honor, I think we are going to 21 object. It's the cart before the horse. The witness has 22 not been qualified as an expert yet. 23 MR. FIELDS: I was going to do that now. 24 THE COURT: Sustained. 25 Q Let me ask you, first, Dr. Laposa, are you being</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4597</p> <p>1 valuations. 2 MR. SOLOMON: I would just -- your Honor, we have 3 no objection with respect to real estate analytics, but when 4 they say "and valuation." We would ask for some clarity as 5 to what that term means, especially in light of the issues 6 in this case relate to go valuations. 7 THE COURT: For my own benefit, can we distinguish 8 between analytics and valuations. Simply put, what are 9 analytics and what are valuations; so we have a better sense 10 of the latter. 11 MR. FIELDS: The analytics portion, your Honor, is 12 the analysis -- 13 THE COURT: Let me ask the witness. 14 MR. FIELDS: I apologize. 15 THE COURT: What are real estate analytics, simply 16 put? 17 THE WITNESS: Simply put, it's the analysis of the 18 data and the methodologies processes that go into an 19 appraisal, especially the market analysis section, which I 20 have quite a bit of experience in. 21 THE COURT: And, I mean, I've heard all of your 22 experience. Just, again, simply put, how does this make you 23 an expert in valuation -- real estate valuations. That was 24 the other half of it; right? 25 MR. SOLOMON: It is, your Honor, but I'm not sure</p>
<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4596</p> <p>1 compensated for the work that you are doing for the defendants 2 in this case? 3 A Yes. 4 Q And what -- are you retained as an expert through the 5 Ankura firm? 6 A Yes. 7 Q Do you know what the hourly rate is that you are 8 charging Ankura? 9 A Yes. 10 Q What is that? 11 A Four hundred an hour. 12 Q And are you familiar with the hourly rate that Ankura 13 is charging for your work in this case? 14 A Yes. 15 Q What is that? 16 A Eight hundred fifty. 17 Q Could you guesstimate approximately how many hours 18 you've spent on this engagement to date? 19 A I would need to confer with my records, but 20 approximately 325. 21 Q And is your compensation in this case conditioned on 22 any opinion that you provide? 23 A No. 24 MR. FIELDS: At this time, your Honor, I tender 25 Dr. Laposa as an expert relating to reality analytics and</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4598</p> <p>1 that the witness can separate the two. I think those two go 2 together. I don't know. 3 THE COURT: Oh. 4 MR. SOLOMON: Your Honor, if we could ask a few 5 questions, but in terms of valuations, I don't think you can 6 divorce that from the analytics, the market analysis the 7 witness has testified to as being his experience. 8 THE COURT: Let me ask the witness. What are you 9 an expert in, simply put? I'm looking for like three, four, 10 five words here that would help us -- everybody understand 11 this case. 12 You are an expert in real estate, what? 13 THE WITNESS: I do consider myself an expert in 14 real estate -- 15 THE COURT: Just give me three or four words. 16 THE WITNESS: Okay. 17 THE COURT: You consider yourself an expert in real 18 estate blank. What is the blank? 19 THE WITNESS: Real estate research, the processes, 20 and economics. 21 THE COURT: Is that satisfactory to defendants? 22 MR. FIELDS: Sure, your Honor. Perhaps if I ask a 23 question, it may be able to clear up some of this. 24 THE COURT: You don't have to clear it up, I don't 25 think.</p>

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4599

1 The plaintiffs, are you okay with that?
2 MR. SOLOMON: With that limitation, yes, your
3 Honor, we are.
4 THE COURT: I hereby declare you an expert, without
5 prejudice to trying to expand it in exactly what you just
6 said, economics, et cetera, et cetera.
7 Defendants, is that sufficient as an area of
8 expertise that I'm qualifying him in.
9 MR. FIELDS: Certainly, your Honor.
10 THE COURT: Great. Let's move on.
11 MR. SOLOMON: Thank you, your Honor.
12 MR. FIELDS: Can I confer with Mr. Solomon for a
13 second?
14 THE COURT: Of course.
15 (Counsel, conferred off the record.)
16 MR. FIELDS: Thank you, your Honor.
17 THE COURT: Sure.
18 Q All right. Dr. Laposa, I'm going to ask that you give
19 any opinions you provided to a reasonable degree of certainty in
20 the areas of -- that the Judge just qualified you as an expert
21 in; is that fair?
22 A That's fair.
23 Q Okay.
24 Let me just ask you at the outset, you said you
25 reviewed the complaint in this case?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4600

1 A Yes.
2 Q Did you have -- what was your general understanding of
3 the allegations in the complaint as they related to valuations?
4 A The way that I understand the complaint is that the,
5 especially when it comes to the 40 Wall Street table that I
6 looked at, there were, um, valuations based on appraisals versus
7 the values that were in the Statements of Financial Condition.
8 So that, to me, was the crux of my expertise, is to be able to
9 understand that.
10 Q Now, do you have any opinion whether plaintiff's or
11 defendant's valuations or appraisals cited in the complaint are
12 true, accurate, inaccurate, right or wrong?
13 A I have no opinion.
14 Q Are you familiar, generally, with the terms "valuation"
15 and "appraisal"?
16 A I'm familiar with the two separate terms, yes.
17 Q What is an appraisal?
18 A When I hear the word "appraisal", it is -- condones in
19 my mind, my bias in working with MAI's and licensed appraisers
20 for 30 plus years, it's an appraisal of a property or properties
21 by a licensed or certified appraiser.
22 Q Are there certain standards that an appraiser has to
23 follow when appraising a property?
24 A Yes. They are primarily set forth in -- by the
25 Appraisal Institute -- what's called the Uniform Standards of

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4601

1 Professional Appraisal Practice, or USPAP.
2 Q Have you ever heard the phrase that appraisals are more
3 of an art than a science?
4 A Yes.
5 Q What do you understand that to mean?
6 A That there is a lot of art, there's a lot of
7 subjectivity that go into assumptions and into the methods,
8 process of collecting all the data that is necessary to
9 eventually determine an estimate appraised value. So that's
10 when I hear it, I think of all the subjectivities that are just
11 outside the raw collection of data.
12 Q We'll get into the subjectivities in a moment. What is
13 a valuation?
14 A A "valuation", when I hear that, it's -- does not
15 necessarily have to be conducted or performed or created by a
16 licensed appraiser. This could be -- like I was with, my early
17 days, with ABKB or LaSalle. We had, at that time, 3 billion to
18 5 billion commercial real estate property that we -- and did
19 asset management on behalf of our pension funds and
20 institutional clients. And on a quality basis I've worked with
21 our appraisers to help them determine internal valuations. Not
22 everybody that did that was a licensed appraiser; some were,
23 some weren't. But when I hear "valuations" that doesn't
24 necessarily imply that it's done by a licensed MAI.
25 Q So would it be fair, then, to say that a valuation is

Page 4602

1 not always an appraisal?
2 A Yes.

Laposa - by Defendant - Direct (Fields) Page 4603

1 Q I am going to ask you a series of questions. And if
2 I use the term "appraisal" I also refer -- I am referring to
3 evaluation as well. Okay? And if there is a confusion to or
4 you want some follow-up, feel free to ask. But for purposes of
5 making this flow a little better, if I use the term "appraisal"
6 I am also referring to evaluations. Is that okay?
7 A Let's go for it.
8 Q Okay.
9 Now, are there generally three different methods to
10 appraise property?
11 A Yes.
12 Q What are those methods?
13 A There is the income approach, the sales comparable
14 approach, and the cost approach.
15 Q Are the -- withdrawn.
16 Are there approaches that are more often used than
17 others?
18 A It depends.
19 MR. SOLOMON: Objection. Are we asking this
20 witness specific information in his career? Is this the
21 market generally? Can we just have some clarification on
22 that?
23 THE COURT: I think he meant generally.
24 MR. FIELDS: I did, Your Honor.
25 THE COURT: Okay.

Laposa - by Defendant - Direct (Fields) Page 4604

1 Can you answer the question as is? Do you need
2 a readback?
3 MR. FIELDS: I'll narrow it a little.
4 Q In the commercial real estate industry in your
5 experience what approaches are most often --
6 A Most often it is the income and sales approach.
7 Q And what does the sales approach require?
8 A Sales approach requires an analysis and initially a
9 collection of data of other comparable sales to a subject
10 property in the marketplace, that eventually are filtered as to
11 the most relevant to the subject property that would be used in
12 the estimate of valuation for that property.
13 Q Have you ever heard the term a "comp"?
14 A Yeah.
15 Q Is that generally the sales approach when someone
16 refers to the term a "comp"?
17 A Yes. But I didn't want to say that. I wanted to
18 forsake the whole big word comparables. If you want to use
19 comp, that's fine for me.
20 Q For the laypeople, I want them to understand better.
21 A Okay.
22 Q Terms that are used.
23 So how about the income approach? What is the income
24 approach?
25 A The income approach still requires a collection of

Laposa - by Defendant - Direct (Fields) Page 4605

1 data from the marketplace as far as rents and comparable leases
2 that can be applied. But it is taking a look initially at
3 the -- the cash flows -- the cash flows of the particular
4 subject property, identifying to spread out the leases. The
5 main point is, you are eventually trying to estimate a net
6 operating income, or NOI, for that property, going out maybe
7 five, ten years. It is a forecast period that eventually you
8 discount when you use the NOI to build up a value of the
9 property.
10 Q You mentioned an NOI or net operating income, can you
11 mention just a few brief examples of what kind of data would go
12 into calculating a net operating income?
13 A Yeah. It goes two big components: The revenue and
14 also expenses. So the revenue can be what is in the leases; it
15 could be extra revenue that is -- that comes into the
16 particular property.
17 And then the expenses is, it really depends on the
18 property type, what are the expenses. So it could be
19 everything from janitorial services to tenant improvements. It
20 could be quite a few things. So there is a whole list of
21 variables that go in.
22 And eventually it is revenues minus expenses equal
23 net operating income.
24 Q Have you heard the term "capitalization rate" before?
25 A Yes, I have heard the word "capitalization rate."

Laposa - by Defendant - Direct (Fields) Page 4606

1 And you can also say "cap rate."
2 Q Perhaps you have heard it too much. But what is
3 generally a cap rate?
4 A A cap rate is, I am going to use an expression that I
5 used to use as an academic; and you always need to know who
6 Uncle Irv is. Uncle Irv is I over R equals V. And Irv is
7 income, over cap rate, equals value; or I over R equals V.
8 Q What goes into calculating a capitalization rate?
9 A What goes into it is various aspects of what is going
10 on in the capital markets. But then in my experience
11 appraisers or valuation professionals will go out to the
12 marketplace, identify properties that they have identified that
13 have sold. They particularly will sometimes call the investor
14 or the entity that bought the property and confirm the NOI on
15 the property. And if they know the NOI and they know the
16 value, then they can calculate the cap rate.
17 Q So in a way is the sales comp approach used on
18 occasion to calculate a capitalization rate?
19 A Ask that question again.
20 Q Are some of the processes or procedures that go into
21 determining comparables used in order to determine a
22 capitalization rate?
23 A I would flip that the other way around. You get the
24 comps first and then determine what the cap rate is. And you
25 will probably have a series of sales that have cap rates that

Laposa - by Defendant - Direct (Fields) Page 4607

1 you verified that you can then apply to your particular
2 engagement.
3 Q And when calculating a cap rate, is there a
4 subjective analysis that is employed on behalf of the appraiser
5 to determine a capitalization rate when trying to come up with
6 the income or the value of property under the income approach?
7 A Well, theoretically it is a straight mathematical
8 formula. You have the income. You have the value. It is the
9 income divided by the value, and you have a cap rate. Now,
10 what you do with it after that, and how you apply a specific
11 cap rate to your subject property is the next step in process,
12 in my experience, in how valuations are done, the estimates of
13 valuation for a subject property.
14 Q What is the cost approach?
15 A The cost approach is pretty much what it sounds like.
16 You go to a company like historically Marshall & Swift, which
17 has various price per square foot components for various
18 property types, and you get their cost approach for a
19 particular property. You can talk to -- you might be able to
20 get the building permit where you actually have the cost. You
21 might be able to interview various general contractors. It is
22 basically just a cost to build the property.
23 Q I'll fast forward here for a moment. But did you
24 ultimately review appraisals for 40 Wall Street for 2011, 2012
25 and 2015?

Laposa - by Defendant - Direct (Fields) Page 4608

1 A I did.
2 Q And did those appraisals employ both the income and
3 sales comparable approach?
4 A I believe they did.
5 Q Okay. So for purposes of our discussion regarding
6 those appraisals, the cost approach is not applicable; is that
7 a fair representation?
8 A That would be a fair admission in my opinion.
9 Q Can similarly experienced appraisers disagree about
10 the value of the same property at the same moment in time?
11 A Yes.
12 Q Why so?
13 A There are so many dependent variables on their
14 number.
15 One, you preface the section when you say appraisals,
16 it could be a licensed appraiser, someone that is not licensed;
17 it could be, again, their training, their education, their
18 bias, do they know the market; what is the purpose of the
19 appraisal or the valuation estimate goes into why they might be
20 different. And it could be a multitude of variables and
21 factors such as their outlook on the market. I mean, there is
22 just -- just selection of their sales comps. I don't know
23 where you want me to stop.
24 I think you just nodded to me to stop, so.
25 Q I'll move it along.

Laposa - by Defendant - Direct (Fields) Page 4609

1 So, that question was specifically dealing with
2 appraisers, now can non-appraisers similarly experienced,
3 valuing the same property at the same moment in time, can they
4 disagree about the value of that property?
5 A Yes.
6 Q And would it be for the same reasons that you just
7 described with regard to appraisers?
8 A Yes.
9 Q Does the disagreement between the appraisers or the
10 non-appraisers indicate that one of the valuations is
11 inaccurate?
12 A No.
13 MR. SOLOMON: Your Honor, we are just going to
14 object to this line. We talked about this witness being
15 qualified as an expert on real estate market trends. But
16 now it seems that the questions are going into valuations
17 done by appraisers and non-appraisers and whether or not
18 one might be right or not be right or neither or both. I
19 think it is a field for this witness's qualification as an
20 expert.
21 THE COURT: Let's ask the witness. Do you feel
22 that you are qualified to be give expert opinions on
23 different valuation methods and discrepancies?
24 THE WITNESS: Yes.
25 THE COURT: You have to talk into the mic.

Laposa - by Defendant - Direct (Fields) Page 4610

1 I'll allow it. There is no jury. I see no
2 harm. But I hope we will move along faster, because, you
3 know, this is déjà vu all over again, can experts reach
4 different conclusions. We all know that.
5 MR. FIELDS: I certainly will move it along.
6 Your Honor, there is going to be a lot of subjectivities
7 we will discuss in a few moments that ultimately lead up
8 to this conclusion. But I'll move it along.
9 Q Could -- all right. We have established that
10 similarly situated folks can disagree with the same property at
11 the same moment in time. My question now is, could the purpose
12 of doing the valuation or the appraisal be one of the reasons
13 for those parties to disagree?
14 A Yes.
15 Q Why?
16 A In my experience working with eminent domain cases
17 and environmental damage cases and bankruptcy and divorce, big
18 divorce settlements, I have seen very -- and whether it is a
19 property -- whether an appraisal done for a property tax
20 assessment, I have worked on all of those with the firms I have
21 been a part of. And I have definitely seen they can come to
22 different conclusions, so, even on the same property.
23 Q Are you familiar with lender ordered appraisals?
24 A Yes.
25 Q And what generally are lender ordered appraisals?

Laposa - by Defendant - Direct (Fields) Page 4611

1 A Well, as I stated, they are ordered by the lender.
2 And being a student of the federal reserves they have a flow of
3 funds. I mean, ever since '92 I have monitored the federal
4 reserve flow of funds. And one of the flow of funds, I believe
5 it is 210, is the level of commercial mortgages across the
6 United States over time. And you can see at certain times when
7 commercial real estate is blamed for debacles in the economy.
8 And so after '86, after '91, after 2001, especially after the
9 great recession, you can see how banks and the commercial
10 mortgage flows significantly declined.
11 And as going back to my comments about real estate
12 cycles, there are two-points in a cycle that cause most
13 confusion, when are you at the bottom, when are you at the top,
14 but finally, are you in a recovery, especially with banks. I
15 have worked with banks, especially after a great recession, it
16 is -- the conservative nature of bank appraisals to me, shows
17 up very clearly. I mean the Dodd Frank Law in 2010, there was
18 a huge publication by the Federal Reserve, the OCC, the FDIC in
19 2010 that impacted a lot of residential appraisals and that
20 flowed indirectly to how banks viewed commercial real estate
21 appraisals to being, let's really be conservative, so we
22 understand the risk assessments. That was huge in my
23 experience back in those days. And, you know, because you want
24 to know two things: What is the loan-to-value and what is the
25 debt service coverage ratio. So, those are -- so banks to me

Laposa - by Defendant - Direct (Fields) Page 4613

1 the primary ones.
2 Q Are you familiar with the term the discount cash flow
3 model?
4 A Yes.
5 Q And what is that?
6 A The discount cash flow model is where you are
7 forecasting a series of NOIs for a particular property. And
8 simply put, it is -- it is you are discounting those future
9 cash flows at a certain rate to come to a present value, which
10 you can then cap to become -- to estimate then, the value.
11 Q In your approximately 31 years of experience, how
12 common have you found disagreement between appraisers to be
13 regarding the value of real property?
14 MR. SOLOMON: I am going to object and ask for a
15 clarification now, when counsel is using the term
16 "appraisers" is he talking about professional appraisers,
17 because he said earlier appraisers and people doing
18 valuations. So if we could have a clear record on this I
19 think it would be preferable for everyone.
20 THE COURT: Withdrawn. And rephrase it.
21 MR. FIELDS: Yes, Your Honor, certainly.
22 Withdrawn.
23 Q In your 30 years of experience, give or take, how
24 common is it for appraisers, and I am using that term
25 specifically, appraisers, to disagree about the value of real

Laposa - by Defendant - Direct (Fields) Page 4612

1 are more conservative, especially during times after a
2 recession.
3 Q What do you mean by "more conservative"?
4 A The, you know, the rent growth estimates that may be
5 used in an appraisal may be, you know, very low number, may be
6 0 percent may be 2 percent, may be even 1 percent if they are
7 really out there on the limb. But you don't see, when you take
8 a look at historical annual growth rates of rents, they are not
9 stabilized. They are -- they go up, they come down based upon,
10 again, those real estate factors I mentioned earlier today. So
11 to just come into a stabilized, you know, 3 percent or 2.5
12 percent, you know, they are just more conservative when the
13 market is probably saying, hey, demand is picking up, vacancies
14 are coming down, occupancies are going up, NOI is going up, cap
15 rates are going down. Even though they may see hints of that,
16 they will still be on the conservative side.
17 Q What is your understanding of why lenders prefer a
18 more conservative approach to an appraisal?
19 A They are always looking on the down side. You know,
20 if the property appreciates, that's good news for the, you
21 know, their client. But they want to make sure they are going
22 to get their mortgage paid off and with principal and interest.
23 So they are being conservative. They are definitely going to
24 look more at the risk assessments surrounding the
25 loan-to-value, as well as the debt service coverage ratios to

Laposa - by Defendant - Direct (Fields) Page 4614

1 property?
2 A Very common.
3 Q All right. Now in your over 30 years of experience
4 how common is it for non-appraisers to disagree about the value
5 of real property?
6 A Very common too.
7 Q And you understand my question to mean the same real
8 property, right?
9 A Correct.
10 Q We have talked a little bit about lender-ordered
11 appraisals. Are there any other types of appraisals that come
12 to mind that you are familiar with based on your experience?
13 A Having been involved in property tax appeals, I am
14 definitely very well acquainted with that. I have also seen
15 on, especially on environmental litigations, I have seen that.
16 As well as sometimes just what you call an event study. And I
17 published on this as well. It is sometimes you look, and this
18 goes with environmental, publish a paper on a wind farm
19 announcement, you know, what did that do to values before and
20 after. So that's more what you would call an event study,
21 where you are looking at the -- that's more residential. So,
22 not so much commercial.
23 I'll be quiet.
24 Q You talked about Rockefeller Center's bankruptcy,
25 also one of the areas for which appraisals arise?

Laposa - by Defendant - Direct (Fields) Page 4615

1 A Yeah, I have worked on probably 25, 30 retail
2 bankruptcies for sure. And where at the end you are trying to
3 say, okay, what are all of the Sears stores worth, or what are
4 all of the Toys-R-U's, I worked on theirs as well. You say what
5 is this empty store valued at.
6 Q How will qualifications of the appraiser or the
7 non-appraiser affect a value conclusion?
8 A I take the qualifications to be that there is a --
9 what I hear from that is the depth of the qualifications. Have
10 you been qualified for only a year as an appraiser? Have you
11 been qualified for 30 years? Have you kept up with your
12 continuing ed courses? Are you well known -- even though you
13 are qualified as an MAI, maybe your specialty is in office, and
14 now you are doing appraisals on funeral homes. I don't -- you
15 know, you just have to take a look at the -- I would have to
16 look at the individual qualifications that you are asking
17 about. But, yes, they are very, very key points to determine
18 what is the result.
19 Q And now sticking specifically with non-appraisers,
20 have you found in your experience that non-appraisers that
21 value property, that their qualifications could similarly
22 affect the ultimate value of real property?
23 A Correct. Throughout my years with the valuation
24 groups, I have had the privilege of working at PWC and others.
25 I mean, within the valuation groups you do have MAIs, but you

Laposa - by Defendant - Direct (Fields) Page 4616

1 have MBAs who are really smart in finance and economics, and
2 they can prepare valuations internally for our clients as well,
3 so.
4 Q I would like to talk to you a little bit about market
5 conditions. You discussed or testified earlier about market
6 conditions already. But how, generally, do market
7 conditions -- how can they affect an appraised value of real
8 property or a non-appraised value of real property?
9 A Market conditions, and by that what comes to mind
10 again is my background in real estate cycles and forecasting
11 and analysis, can affect, quite a bit, I mean very significant.
12 Because what you are trying to say is here is a value as of a
13 certain date. It is one thing to have a 100 percent leased
14 industrial property that has got a ten-year lease, Fed Ex.
15 That's one thing. If you have a multi-tenant building of
16 500,000 square feet or a regional mall with 2 million square
17 feet, and all of these tenants, and some leases are coming and
18 some are not, you are trying to determine what is the
19 likelihood of lease renewals. Leased people, you know, they
20 are just saying rents are too high we are leaving. There are
21 so many factors that go into determining the valuation based,
22 again, to the market trends. And as an appraiser or a
23 valuation professional, how do they understand the market? How
24 do they understand the history? How do they understand the
25 signals that are out there already that says, again, especially

Laposa - by Defendant - Direct (Fields) Page 4617

1 at the bottom or the peek, have we turned, have we reached
2 equilibrium? What are the metrics that you identify? And I
3 have been studying this for 30 years and it is still exciting.
4 Q Specific to the income approach, do market conditions
5 factor into the net operating income, the capitalization rate,
6 or both?
7 A They factor into everything. And again, going back
8 to -- I hate to keep going back to real estate cycles, but when
9 we taught that for the Appraisal Institute, it was very
10 gratifying across the cities we went, to have appraisers going
11 thank you for even teaching us about this. And the one thing
12 we tried to teach them is what were those signals. So if you
13 don't understand where you are in the real estate cycle, and
14 you come up with -- in all of these discounted cash flow
15 analysis, even sales comps, you have to understand the cycle
16 and where you are, because, I have published on this, the
17 relationship of real estate cycles and the investor composition
18 in the market. Who is buying, who is selling.
19 I mean, I hope I am not going on too far but you know
20 when you saw the private equity companies buying, it was
21 typically the pension funds that were selling. And as the
22 market, you know, started to recover, you would see the private
23 equity firms selling to the pension funds. And it was
24 fascinating for me to see who is buying and selling, because it
25 is not, you know, it is not equal across time and across

Laposa - by Defendant - Direct (Fields) Page 4618

1 markets and across property tax. Again it is a dynamic field
2 of study.
3 Q Are you familiar with how developers and appraisers
4 look at market conditions differently or the same?
5 A Yes.
6 Q And how do they differ?
7 A Part of what I did with the ULI on putting together
8 the emerging trends. We used to do personal surveys sometimes
9 of 200 firms, and 200 individuals. Some would be CEOs of
10 property owners, developers, some would be even architects,
11 appraisers.
12 And generally overtime the, it is my experience, that
13 the owners, investors, developers are much more optimistic,
14 especially when the market is in a recession recovery phase,
15 than appraisers. And appraisers may be limited by what they
16 are asked to do. You know, as far as how -- how they interpret
17 the data, I will say it that way. But they may just want to
18 say, what is the worst case scenario for this property, so they
19 can't be optimistic in rent growth, et cetera, that the market
20 would actually provide, so.
21 Q You said that appraiser -- I think I heard you say,
22 correct me if I am wrong, but that appraisers may be limited by
23 what they are asked to do. How would those limitations come
24 about?
25 A Well, in my experience, working again with the firms

Laposa - by Defendant - Direct (Fields) Page 4619

1 I have identified today, sometimes they want to -- I mean our
2 clients will say, okay, we just had the 2001 recession, you
3 know. There was -- there was a national tragedy, there was, I
4 mean the World Trade Center, I mean what would happen to
5 downtown office buildings? So we had to put together white
6 paper top leadership on what was going on with downtown office
7 buildings.

8 And coincidentally, I have been asked to take a look
9 at those again with the great themes of work-from-home and what
10 will happen to office buildings. So sometimes you just trying
11 to get a valuation based upon worse case scenarios.

12 Q All right. We have discussed the term
13 subjectivities. Dr. Laposa, when I mention the term
14 subjectivities, what do you generally understand that to mean?

15 A I think in my initial report, I can't remember the
16 exact paragraph, but I list quite a few that are in my initial
17 report. And if you want I can ad lib right now. But --

18 Q I won't ask you to ad lib. Would it help refresh
19 your recollection to take a look at your report to determine
20 some of the subjectivities that you identified?

21 A Sure. But I can probably name quite a few of them.

22 Q Okay.

23 A But if you have the report, I'll take a look at the
24 report.

25 Q Certainly.

Laposa - by Defendant - Direct (Fields) Page 4620

1 MR. FIELDS: If we could pull up Dr. Laposa's
2 report just to refresh his recollection. Paragraph 35.
3 That probably doesn't help you, you need a page number,
4 huh?

5 Q Dr. Laposa, perhaps name a few off the top of your
6 head.

7 A Well there you go, right there.
8 (Handing)

9 THE WITNESS: Thank you, sir.

10 Q Yeah, here is some I listed. Just let's say you are
11 in a marketplace and doing an appraisal of an office building.
12 What if there is 50 sales comps within six months or some time
13 period. Out of the 650 or so, what criteria do you use to
14 filter them? Is it just strictly the, you know, how do you
15 determine which ones are those from the population you are
16 going to use. And then once you get that down and filtered,
17 what adjustments are you going to make to whether the size or
18 the age of the property, the location of the property, all of
19 those are, you know, subjectivities.

20 Then a lot of appraisers, in valuation in my
21 experience that I have worked with, will use companies like
22 CoStar or REIS, they will buy the third-party and sell market
23 history and forecast supply. Will they use those datas or not?
24 And then how do they select and adjust the relevant cap rates
25 they will use.

Laposa - by Defendant - Direct (Fields) Page 4621

1 Like I said before, empirical evidence shows the
2 composition of investors is not, you know, equal across time.
3 So if you are in the marketplace and all of a sudden you notice
4 a lot of private equity companies are buying things, maybe the
5 cap rates are different than what a REIT may buy, which is
6 going to use leverage or pension funds which sometimes are all
7 cash buyers.

8 If you keep going down -- can I?
9 MR. FIELDS: Can I stop you right there?

10 Q Are you -- if I mention the word bias in terms of an
11 appraiser or a non-appraiser, what does that mean to you in
12 your profession?

13 A Well, that bias doesn't necessarily imply it is good
14 or bad. Sometimes they have biases based on a lot of
15 experience. If they -- I have worked with some appraisers that
16 are really good in regional malls or power centers. They have
17 a bias there, they know that marketplace very well.

18 If you have a bias that you always say, well, here is
19 where I go get information, here is how I always adjust, it is
20 always the same, maybe those are times where you need to be
21 challenged by somebody outside. But that's what I, when you
22 say bias, that's what I hear in my brain.

23 Q Would it be fair to say that appraisers and
24 non-appraisers are exercising judgment when trying to come up
25 with a value of property?

Laposa - by Defendant - Direct (Fields) Page 4622

1 A Yes, I mean, you don't need to go to Exhibit 1, but
2 Exhibit 1 of mine has actual word/phrases from the
3 15th Edition of the Appraisal Real Estate published by the
4 Appraisal Institute. And they use that word, "judgment," quite
5 a bit, and "transparency" quite a bit in that exhibit. So,
6 yes.

7 Q All right. Let's switch gears Dr. Laposa, to discuss
8 the terms "market value" and "investment value." Are you
9 familiar with both of those terms?

10 A I am familiar with both of those terms.

11 Q What is market value?

12 A Market value, when I hear that and for the sake of
13 this afternoon, when I hear that I am going to think a licensed
14 appraiser. Is that fair to say?

15 Q Fair. So have you heard "willing buyer" and "willing
16 seller"?

17 A I have heard those phrases for sure.
18 Estimated market value, as prepared by a licensed
19 appraiser, an MAI, is an estimate of market value that assumes
20 a willing seller and a willing buyer.

21 Q So would it be the price that a property is most
22 likely to sell for today, assuming there was a willing buyer
23 and a willing seller?

24 A Yes. And I would also concur that most likely there
25 is a key phrase, because they will put a single point in their

<p>Laposa - by Defendant - Direct (Fields) Page 4623</p> <p>1 appraisal, but normally they will go through the mechanisms to 2 have ranges that may -- that this probability, this 3 distribution of potential values is coming from. I mean, that 4 comes from both the income and the sales approach. And then 5 the appraiser will actually then blend them and say here is one 6 that I am going to rely on more, give more weight to, as far as 7 the estimate of the value.</p> <p>8 Q Now, in contrast, what is an investment value? 9 A Investment value has to find specifically, by not 10 only the Appraisal Institute but is in the literature, which I 11 have included numerous examples in my initial report, 12 investment value is a value for a specific investor with a 13 relationship with a property. And that's how they use it in 14 the appraisals, so I don't know what that means. But it is 15 specific to an investor. It may not -- you know, you go to an 16 investor and they say, here is how I want my property to be 17 appraised, either internally or with a licensed appraiser. But 18 it is -- it is only, it may be typical of the market, chances 19 are it is atypical of the market. So it is specific to an 20 investor.</p> <p>21 (The following proceedings were stenographically 22 recorded by Senior Court Reporter Michael Ranita.) 23 24 25</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4625</p> <p>1 A Yes, but I would also -- those, um, the parameters that 2 go into the valuation, yes, they can definitely be different. 3 I've seen that.</p> <p>4 Q So, for example, you mentioned rent growth rate 5 earlier. Is that rent growth rate one of the factors that will 6 ultimately result in a net operating income under the income 7 approach? 8 A Yes.</p> <p>9 Q And if the market is dictating a seven percent rent 10 growth rate, but an investor, developer chooses to use a ten 11 percent rent growth rate, is that an example where the market 12 value and the investment value will differ because of that 13 subjectivity? 14 A Holding all else constant.</p> <p>15 Q And let's talk now about the denominator from IRV, the 16 cap rate -- I-R-V, IRV. If the market is dictating a four 17 percent cap rate, but an investor or developer chooses to use a 18 six percent, or two percent cap rate, one way or the other, 19 usually -- let me withdraw that.</p> <p>20 For the capitalization rates, if the market is 21 dictating a four percent cap rate, but an investor or developer 22 chooses to use a two percent cap rate, is that also an example 23 where the market and investment value would differ, assuming 24 everything else is held constant? 25 A Yes.</p>
<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4624</p> <p>1 Q And you said "investor." Can that term be used 2 synonymously with a developer? 3 A It could be a developer and owner of a property, yes. 4 Q How is investment value different from market value, 5 and how can they be the same, if at all? 6 A Well, let's first of all figure out how can they be the 7 same. If the investor's parameters for the appraisal equal, 8 mimic the market value, then they are going to be the same. 9 Then the invested value can theoretically be the same as the 10 market.</p> <p>11 If the investor says, "I want to use a six percent cap 12 rate" on this because that's what I heard the market is, great. 13 Then it's probably going to be the same, just one of the 14 parameters.</p> <p>15 But if the investment value is based upon a distinct, 16 unique, non-inclusive parameters, that may be atypical from the 17 market -- most chances they are -- then the value that is 18 estimated is that that invested value is going to be different 19 from the market value.</p> <p>20 Q So we've discussed subjectivities. And I want to ask 21 you, now, in the context of investment value. Could -- let me 22 withdraw that.</p> <p>23 In the context of investment value, could an investor 24 or developer rely on different subjectivities than what the 25 market, at the time, is dictating?</p>	<p>Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4626</p> <p>1 Q And sticking to that same example of two percent for 2 the developer and four percent for the market, if for some 3 reason the developer chooses to use a four percent cap rate, 4 because that's their belief of the market, could that be the 5 situation where the market value and the investment value would 6 be the same if everything else is held constant? 7 A Yes.</p> <p>8 Q Are you familiar with whether there are such things as 9 market value and investment value appraisals? 10 A Yes.</p> <p>11 THE COURT: Let's -- five-minute break.</p> <p>12 Q How, if at all, would one know whether an appraisal is 13 appraising market or investment value? 14 A Again, going to the definition, if there's an 15 investment appraised valuation, it would be done by a licensed 16 appraiser, in my mind, as well as the appraiser will be giving 17 -- will be given parameters that -- from the client, or the 18 investor to use in the, um, in the appraisal.</p> <p>19 Q If an appraisal is an investment value appraisal, will 20 it specify it is, in fact, an investment value appraisal? 21 A I believe the USPAP requires them to limit their 22 appraisal value, yes.</p> <p>23 Q In contrast, if an appraisal is a market value 24 appraisal, will it specify that it is indeed a market value 25 appraisal?</p>

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4627

1 A Yes. There are certainly limitations I've seen in all.
2 Once you get an appraisal back from an appraiser there is all
3 conditions, limitations and -- so, yes, I've seen that.
4 Q And we'll fast forward again for a moment and come back
5 to this, but for the 2011, 2012, and 2015 40 Wall Street
6 appraisals that you've reviewed, were those market value or
7 investment value appraisals?
8 A Those were market values.
9 Q So in the context of appraisals and non-appraisal
10 valuation, can the concepts of market value and investment value
11 be used similarly, regardless of whether it's being done for an
12 appraisal or a valuation?
13 MR. SOLOMON: We are going to continue our
14 objection to this line. Real estate -- his expertise was in
15 market trends and the like. I'm not trying to quote what
16 your Honor had said earlier with respect to his expertise,
17 but we are in valuations.
18 We've let it go for a while. They are talking
19 about would an appraisal be X? Would an appraisal be Y?
20 Would USPAP require disclosure that it's an investment value
21 versus a market value?
22 He is asking this witness to testify about
23 appraisals and USPAP requirements, I believe we've heard.
24 And this witness is not an expert in USPAP or appraisals.
25 MR. FIELDS: Your Honor, the purpose of this

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4628

1 witness's testimony, in large part, is, as he's testified --
2 THE COURT: Be careful, because he's still here.
3 MR. FIELDS: Just what he's testified to. That he
4 reviewed the appraisals, particularly the appraisals for 40
5 Wall Street, and the complaint, and --
6 MR. SOLOMON: I'm waiting for you to see if we
7 should excuse the witness before going forward with this
8 conversation, your Honor. Or, if your Honor gives the
9 five-minute break, take our break, and then continue this.
10 I don't mean to impinge upon the Court's discretion --
11 THE COURT: That's fine. Let's take the 15-minute
12 break. I'll make it simple. And then when we come back we
13 can address this with fresh minds.
14 MR. SOLOMON: I apologize, your Honor. I didn't
15 mean to suggest what we should do.
16 THE COURT: No apology necessary. So 15-minute
17 break.
18 And I'll direct the witness not to discuss the case
19 or his testimony.
20 (Whereupon, a 15-minute break was agreed upon and
21 taken by all parties.)
22 THE COURT OFFICER: All rise. Part 37 is back in
23 session. Please be seated and come to order.
24 THE COURT: To me it's not even close. Objection
25 overruled. There's no jury. And given this guy's

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4629

1 experience, 30 years plus, and doing all those different
2 real estate things, I want to hear what he has to say about
3 valuation. So let's proceed. Let's get the witness.
4 Thanks, Mike.
5 Mr. Solomon, thanks for being gracious in defeat.
6 MR. SOLOMON: Thank you, your Honor, or you're
7 welcome, your Honor.
8 THE COURT: Any idea how much longer on the direct?
9 MR. FIELDS: Your Honor, I expect it will probably
10 go the balance of the afternoon.
11 THE COURT: Do you think you'll at least finish --
12 do you expect to finish by 4:30.
13 MR. FIELDS: I would say it's probably very
14 unlikely.
15 THE COURT: Very?
16 MR. FIELDS: Unlikely.
17 THE COURT: Well, but try.
18 MR. FIELDS: I will certainly do my best.
19 (Whereupon, the witness stepped into the witness
20 stand.)
21 THE COURT: Okay. Let's proceed.
22 Q Dr. Laposa, before we broke I had asked you whether the
23 -- in the context of appraisals or non-appraisals, whether the
24 concepts of market value and investment value generally applied
25 the same way?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4630

1 A The methodologies in each one?
2 Q Yes. Are the methodologies applied the same way
3 whether you are doing an appraisal or whether you are just doing
4 a valuation but not an appraisal?
5 A Generally, I would say, yes.
6 Q From your review of the complaint in this action, were
7 you able to determine whether the complaint draws a distinction
8 between market value and investment value?
9 A Yes.
10 Q And what was -- what did you find?
11 A That the complaint uses market values.
12 Q Did you find, from your review of the complaint, that
13 it considered whether an investment value appraisal or valuation
14 could result in a higher value than a market value appraisal?
15 A I found the complaint silent on that matter.
16 Q Were you able to form an opinion as to what the
17 Attorney General's overall theory is relating to the defendant's
18 property valuations?
19 A Yes.
20 Q What is that opinion?
21 A That they allege that the appraisal values are true
22 values.
23 THE COURT: I'm sorry just read back the last
24 answer.
25 (Whereupon, the requested testimony was read back

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4631

1 by the court reporter.)
2 THE COURT: Mr. Solomon, do you want to -- I didn't
3 hear the last few words of the answer.
4 MR. SOLOMON: Your Honor, I think the answer was,
5 if I'm reading the screen correctly, but --
6 THE COURT: You have to talk into the microphone.
7 MR. SOLOMON: "That they allege that the appraisal
8 values are the true values."
9 THE COURT: Thank you.
10 Q Is that what you said, Dr. Laposa?
11 A Yes. I would clarify that as the benchmark values.
12 Q Who do you mean by the "benchmark values"?
13 A The allegations of inflated values have to be compared
14 against some values. So in my analysis and opinions and review
15 of the complaint, they are using the appraised values for 2011,
16 2012 and 2015 as the benchmark values.
17 Q In your view, how does the lack of consideration of
18 investment value in the complaint affect what you understand to
19 be the Attorney General's theory?
20 MR. SOLOMON: Objection, your Honor. Relevance.
21 THE COURT: Overruled.
22 THE WITNESS: Can I answer?
23 THE COURT: "Overruled" means you can answer.
24 I thought you were going to say leading, but you
25 didn't. So let's -- do you need a read back of the

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4632

1 question.
2 THE WITNESS: Please.
3 THE COURT: Read back, please.
4 (Whereupon, the requested question was read back by
5 the court reporter.)
6 A In my opinion, it's flawed.
7 Q What is flawed?
8 A The allegations that they are inflated. If you don't
9 consider the investment value, it's a possibility, then, you are
10 focusing only on market values.
11 Q All right. I would like to focus, now, on what you did
12 to identify or conform -- confirm, or not, whether the
13 defendant's valuations were true, accurate, not accurate.
14 So other than what you read in the complaint, did you
15 review any documents that identified how the defendants elected
16 to value their properties during the years that the Attorney
17 General alleges the values were inflated?
18 A Yes.
19 Q You did review other documents other than --
20 A Oh, no. I only reviewed the 2011, '12 and '15
21 appraisals.
22 Q But I want to focus specifically on the allegations in
23 the complaint relating to the defendants valuation figures.
24 Okay? So do you have an opinion one way --
25 THE COURT: You can't just nod your head. You have

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4633

1 to say "yes" or "no."
2 THE WITNESS: Okay.
3 MR. FIELDS: So I'll re-ask it, your Honor.
4 Q I want to focus, for a moment, on the allegations that
5 you reviewed with regard to the defendant's valuations in the
6 complaint?
7 A Okay.
8 Q So my question is, do you have an opinion, one way or
9 the other, whether the defendant's valuations are accurate,
10 inaccurate, true, false, inflated or not inflated?
11 MR. SOLOMON: Objection. Asked and answered.
12 THE COURT: Overruled.
13 A I have no opinion.
14 Q Do you know what methods the defendants used to value
15 their properties?
16 A No.
17 Q So as far as you are concerned, Dr. Laposa, the
18 defendants' valuations could have been investment values or they
19 could have been market values?
20 MR. SOLOMON: Objection. Leading.
21 THE COURT: You have to ask him --
22 MR. SOLOMON: Also, your Honor, the objection is
23 lack of foundation since witness has testified he didn't do
24 anything to analyze or opine upon the defendants'
25 valuations.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4634

1 THE COURT: That may be a valid objection point,
2 also.
3 Let's call it withdrawn. And you heard the
4 objection; see what you could do with it.
5 Q Do you have anyway to know what types of valuations,
6 whether market or investment, the defendants used to value their
7 properties as alleged in the complaint?
8 A No.
9 Q I would like to focus your attention, Dr. Laposa, on
10 some examples that you've encountered in your experience of
11 different values.
12 Are you familiar with the Palisades Mall in Rockland
13 County?
14 A Yes, very much.
15 Q And were you involved in a valuation dispute regarding
16 that mall?
17 A Yes.
18 Q What were the facts underlying the dispute, for the
19 benefit of the Court?
20 A Back in 2012, I was engaged by the owner of the
21 Palisades Mall to help on a property tax appeal where the town
22 hired an MAI to develop their, um, opinion of that, of market
23 value. And the client, um, Pyramid, also hired an MAI to
24 estimate a value as of a certain date.
25 Q Do you recall what the two appraised values were?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4635

1 A Generally, yes.
2 Q What were they?
3 A The town valued the property at 900 million and the
4 owner valued it at approximately 500 million.
5 Q And were the two appraisals conducted by two licensed
6 appraisers?
7 A Yes.
8 Q So there was a \$400 million difference in this instance
9 at the Palisades Mall in Rockland County between two licensed
10 appraisers?
11 A Correct.
12 Q Were those both market value appraisals?
13 A Yes.
14 Q And would you describe that as a variance between those
15 figures, or even an extreme variance?
16 MR. SOLOMON: Objection. Leading.
17 THE COURT: Granted.
18 You could ask him how he would describe it, but not
19 is it --
20 Q How would you describe the difference or the variance
21 between the two figures?
22 A Obviously there is a difference between 900 and 500
23 million.
24 Q What was your reaction when you analyzed both of
25 those market value appraisals?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4636

1 A Well, my initial reaction, in typical, is, especially
2 with property tax appeal work that I've conducted, or have been
3 engaged as an expert, is to, once again, my expertise in the
4 market section of an appraisal.
5 So when I look at that particular chapter in an
6 appraisal, I consider myself extremely experienced in analyzing
7 the methods that are used, and how they use, how they collected
8 the data, what they did.
9 So the fact that there's a variance, that doesn't
10 surprise me. You know, it's now you get into -- you have to go
11 below that. What did they use? What were the cap rates? The
12 Town's appraiser used a cap rate that I found quite amazing,
13 because during this time it was, I believe, right after the
14 great recession. The entire commercial transaction volume for,
15 um, reaching malls at that time was \$1 billion that year.
16 So, basically, he's assuming a sale comp. on that
17 total, you know, he's saying it's 900 million. So, again, not
18 to get into weeds, but we just have to go through what was his
19 cap rate? What was our -- what was the owner's cap rates? How
20 did they adjust, you know, leasing and et cetera? So once you
21 get below that, then you could explain the difference. So
22 that's what we -- that was what they asked me to do, so.
23 Q When you say "go below that", are you referring to the
24 subjectivities that we discussed --
25 A Yes.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4637

1 Q -- this afternoon?
2 A All of those that go into that. You know, you start
3 with a macroeconomics. What was retail sales? What was online
4 sales, online retail? What was going on with Rockland County
5 economy, employment? There is so much detail that goes below
6 that. So yes, it's all of those that eventually factor into the
7 market analysis section of an appraisal that eventually leads to
8 the -- to how the forecasts are done and the DCF, et cetera.
9 So, yes.
10 Q Are the terms "market value" and "investment value"
11 discussed in literature that you included as part of your
12 report?
13 A Yes. I have a whole opinion with citations throughout
14 my report.
15 Q And what do you consider to be the gold standard for
16 your field, as it relates to the literature.
17 A Well, for one, you always have to go to the Appraisal
18 Institute, Exhibit 1 in my report. I specifically include some
19 texts from the Appraisal Institute, 15th Edition, that talks
20 about invested value and how it differs from market value. But
21 subsequent, because of my training and experience and expertise
22 in academics, I also went to the literature to look at what was
23 peer-reviewed and published. One of my former chairman on my
24 Ph.D. program is, you know, just retired as the real estate
25 professor at Oxford University wrote a whole book on this topic.

Page 4638

1 So I looked at what he wrote. And so, again, it's my
2 experience, the gold standard of the Appraisal Institute's 15th
3 Edition, the academic literature that's been peer-reviewed and
4 out there in the marketplace. So that collective body of
5 knowledge is what I used.
6 Q And are the terms market value and investment value
7 discussed in the Appraisal Institute's 15th Edition that you
8 just mentioned?
9 A Yes.
10 THE COURT: Quick interruption. I need a front
11 bar. Mr. Fields, and anybody from the plaintiff's table, or
12 chairs.
13 (There was a side bar at the bench among the Court
14 and Counsel.)
15 (Continued on the next page.)
16
17
18
19
20
21
22
23
24
25

Laposa - by Defendant - Direct (Fields) Page 4639

1 THE COURT: Sorry for the interruption, but I
2 think you were collecting your thoughts anyway.
3 MR. FIELDS: I was, Your Honor. I appreciate
4 the extra few minutes.
5 Q Dr. Laposa, I am -- you testified earlier that you
6 had an opportunity to review the 2011, 2012 and 2015 40 Wall
7 Street appraisals?
8 A Correct.
9 Q Okay. I would like to show you a few pages, select
10 pages from some of these appraisals. And I'll ask you a couple
11 of questions regarding them.
12 MR. FIELDS: Can we please pull up Plaintiff's
13 3208 that's been admitted? And we will go to page 130.
14 (Handing)
15 THE WITNESS: Thank you, sir.
16 Q Are you there, Dr. Laposa?
17 A I am.
18 Q All right. Before I ask you a couple of questions
19 regarding this, but just to be on the same page here, you
20 understand this to be the appraisal report prepared for Capital
21 One Bank for 40 Wall Street as of November 1, 2012?
22 A I believe so.
23 Q On the fourth page of the exhibit you will see a
24 coversheet.
25 A Okay.

Laposa - by Defendant - Direct (Fields) Page 4640

1 Q All right. So on page 130 in the middle of the page
2 there is a subheading titled: Office Market Rental Growth
3 Rate. And it says: "Based on our recent survey buyers'
4 expectations in the downtown Manhattan real estate market
5 anticipate rents to increase at CPI."
6 Is that CPI the Consumer Price Index?
7 A That's true.
8 Q "These changes in market conditions result in C&W's
9 leasing" --
10 Do you understand C&W to be Cushman & Wakefield?
11 A Yes.
12 Q "Brokerage group in downtown Manhattan to forecast
13 the following rent growths."
14 And it says: 2012, 0 percent. Thereafter,
15 3 percent. So what is this 3 percent market rental growth rate
16 that is used here in this appraisal? What does it represent?
17 A The rent growth they are going to use for new leases,
18 maybe lease renewals that occur over the -- I don't know what
19 time period this is, but they are just using that in their DCF
20 to forecast rents and then eventually the NOI.
21 Q So is this rate being used to forecast future income
22 ultimately?
23 A Yes, I mean, that's -- I meant to say, I mean to
24 imply, that for sure they are using it. Maybe there is a lease
25 that is going for ten years that is already set. But maybe

Laposa - by Defendant - Direct (Fields) Page 4641

1 there is some space that is empty that they think they can
2 lease. So what is today's rent they are going to grow to
3 3 percent or 0 percent in 2012 and then just 3 percent after
4 2012. Yes.
5 Q In your 30 plus years of experience could you
6 estimate approximately how many appraisals you have reviewed or
7 analyzed?
8 A Thousands.
9 Q And do you have a particular reaction to this
10 3 percent rent growth rate?
11 A Well, I mean, I have to respect the fact that they
12 are using their own real estate brokerage -- brokers. It seems
13 to be a recent survey. I don't know how many they surveyed, if
14 it was three or four, is it 20? I don't know how many they
15 did. But to me I think when I saw the 3 percent, I am going,
16 well, I don't think that's going to be what happens -- is going
17 to happen.
18 Based on my experience, especially in forecasting,
19 like I said, beginning 1992, rental rates, you know, for
20 multiple markets and multiple property tax, you don't see a
21 flat 3 percent in my -- you just don't see it.
22 Q Can you recall seeing a flat 3 percent rent growth
23 rate in your experience?
24 A Yeah, when I taught real estate market analysis for
25 the sake of the students I said use a 3 percent growth rate in

Laposa - by Defendant - Direct (Fields) Page 4642

1 your rents and 4 percent, you know, for something else.
2 That's, you know, just to get them in the habit of doing
3 something. But no, I have never seen that.
4 When I saw that I thought, okay, well that's -- you
5 see that just tells me what they did, okay, to come up with
6 eventually their values. But in my experience and based on the
7 empirical evidence that I have, you know, taught and I have
8 researched and prepared, no, it is rare.
9 Q How, if at all, does the fact that this is a
10 lender-ordered appraisal potentially affect the 3 percent
11 rental growth rate?
12 A Well, this is 2011, right?
13 Q 2012.
14 A This is 2012?
15 Q Yes, sir.
16 A You know, 2012 is still not that far removed from the
17 great recession and what we saw. So to me, was it reasonable
18 for a lender to say, you know -- I can't speak for them, I can
19 just, based on my experience and working with bankers at that
20 time, you know, they want to be conservative. And a 0 percent
21 and a 3 percent, that's highly conservative.
22 MR. FIELDS: If we could move forward to page
23 175 of this exhibit?
24 Q And Dr. Laposa, if it is easier for you, on the
25 screen in front of you should be what --

Laposa - by Defendant - Direct (Fields) Page 4643

1 A I would rather look --
2 Q Yes, sir.
3 A -- at this.
4 Q Would you prefer the paper or the screen?
5 A The screen.
6 Q Okay. Well the screen --
7 A That's really good too.
8 Q Okay. So at the top it says: Direct Capitalization
9 Valuation Method (Upon achieving stabilized occupancy as of
10 November 1, 2015)
11 What is stabilized occupancy?
12 A It is used in appraisals as I have seen. But it
13 is -- if you have a property that is 65 percent, 75 percent
14 occupied, eventually you are going to build up your model to a
15 stabilized occupancy. And at that rate, that's what the
16 stabilized occupancy means. You're just ramping it up in the
17 forecast period to someplace where you think, okay, we are
18 stabilized.
19 You can't go above 100 percent occupancy, right? So
20 maybe you go to 93 or 95 is what is typically used in the -- in
21 appraisals. But that's what it means to me.
22 Q You said 93 or 95 in that general vicinity, is that
23 generally where you find a stabilized occupancy?
24 A My mind is just like, well, that depends if there is
25 another property coming online, you know. So I would say it is

Laposa - by Defendant - Direct (Fields) Page 4644

1 yes, yeah.
2 Q Generally speaking?
3 A Generally speaking. I would never do it, but that's
4 generally what is done.
5 Q And the direct capitalization valuation method, which
6 method is that based on the ones that we have discussed here
7 today?
8 A That's going to be, I mean, you are going to use the
9 cap rates in both the sales comp as well as the income
10 approach. You have to collect them. But typically it is going
11 to be in the sales comparable. But you are going to use the
12 cap rates and income approach too, so.
13 Q All right. And you see in the middle of the page
14 there is a chart that has eight properties listed and eight
15 capitalization rates that correspond to the properties?
16 A Right.
17 Q And below that chart there is an another chart that
18 identifies low, high, median and average and those -- is it
19 your understanding that those percentages are a reflection of
20 what is above them?
21 A That's what it implies to me, yes.
22 Q So in this case the average --
23 MR. FIELDS: Well, let me withdraw that.
24 Q The eight properties that you see there, what do you
25 understand these eight properties to be or why are they there?

Laposa - by Defendant - Direct (Fields) Page 4645

1 A Well, I am not really sure. They say: Building
2 Sales Overall Rate Summary. So, if this was performed in 2012
3 are these the cap rates from those properties, those eight
4 properties that sold in 2012, that then they are going to try
5 to use for stabilized rate in 2015 or whenever? Whenever that
6 stabilized occupancy gets to? I am not sure. There is not
7 enough information for me to draw a conclusion.
8 Q Fair enough.
9 More generally, do you understand that these are
10 eight properties that was chosen as comparables for the
11 capitalization rate purposes --
12 A Right.
13 Q -- for this analysis?
14 A Again, they are -- when I say there might have been a
15 pool of 20, but here is the eight they decided to use.
16 MR. FIELDS: All right. If we could scroll down
17 to the last paragraph on this page.
18 Q Can you see where it says, first sentence: In the
19 context of a direct capitalization method, a going-in rate of
20 7 percent is considered reasonable, compensating the typical
21 buyer for the risk inherent in investing in this building?
22 A I do.
23 Q So is it your understanding that this appraisal chose
24 a 7 percent capitalization rate for the direct capitalization
25 valuation method on this page?

Laposa - by Defendant - Direct (Fields) Page 4646

1 MR. SOLOMON: Objection, leading.
2 A Well, I see --
3 THE COURT: Wait. Wait.
4 THE WITNESS: I am sorry.
5 THE COURT: Sustained.
6 Q What is your understanding of what this 7 percent --
7 A That is the --
8 Q -- represents?
9 A -- the cap rate they are going to use for investment
10 in this particular building, so.
11 MR. FIELDS: And if we could just scroll up a
12 little bit so that the statistics chart is -- there we go.
13 Q What do you understand to be the highest
14 capitalization rate that this appraisal chose to use as a
15 comparable?
16 A Can you just scroll up again? I want to confirm that
17 6.7. Yeah, 6.7 is the highest cap right there, so.
18 Q So did the appraisal rely -- withdrawn.
19 Was the appraisal selected capitalization rate higher
20 than the capitalization rates -- than the highest of the
21 capitalization rates used as comparables as reflected on page
22 175?
23 A Yes.
24 Q And how would you describe that in terms of
25 aggressiveness or non-aggressiveness?

Laposa - by Defendant - Direct (Fields) Page 4647

1 A Well, that confirms to me that they are producing an
2 appraisal that is conservative in nature and conservative
3 attributes. I mean, if they put this in their report and yet
4 they use something above it, maybe they had their reasons for
5 selecting it, I don't know.
6 MR. FIELDS: All right. If we could go to the
7 next page which is page 176 of the same exhibit. And if
8 we could enlarge. Thank you.
9 Q Do you see the table at the top of page 176 that has
10 a heading of Direct Capitalization Method, and underneath that
11 it says: Net operating income?
12 A I do.
13 Q And what is the net operating income figure?
14 A Eight-point -- 18.3 million, or 334,523.
15 MR. FIELDS: And if we could go to the next
16 page, page 177.
17 Q Dr. Laposa, the market value as is, at the bottom, as
18 of November 1, 2012?
19 A Yes.
20 Q What is it?
21 A 220 million.
22 Q Is your understanding that this is the market value
23 of 40 Wall Street as of November 1, 2012 pursuant to this
24 appraisal?
25 A Yes.

Laposa - by Defendant - Direct (Fields) Page 4648

1 MR. FIELDS: And then if we could flip to the
2 next page, please page 178.
3 Q At the top, Prospective Market Value, what do you
4 understand the \$260 million figure to represent?
5 A That is their estimate of the property value as of
6 November 1, 2015.
7 Q So would it be fair to say that the appraisal is
8 estimating an approximately \$40 million increase in value --
9 market value from November 1, 2012 to November 1, 2015?
10 A Yes.
11 THE COURT: Let me just ask, am I correct that
12 does not take into account any money spent on improving
13 the building?
14 THE WITNESS: What was the question, sir, Your
15 Honor?
16 THE COURT: Does the increase of the \$40 million
17 take into account monies spent -- any monies spent on
18 improving the building, or just if the building stays the
19 same due to market conditions it will be worth \$40 million
20 more?
21 THE WITNESS: Based on what I have seen right
22 here, it would just be based on the improving in the NOI.
23 THE COURT: Okay. Thanks.
24 MR. FIELDS: If we could pull up now what has
25 been admitted as Plaintiff's 118.

Laposa - by Defendant - Direct (Fields) Page 4649

1 (Handing)
2 THE WITNESS: Thank you, sir.
3 MR. FIELDS: And if we could go to page eight,
4 please.
5 Q All right. Dr. Laposa, first of all, do you see that
6 this is an appraisal report as of June 1, 2015 prepared for
7 Ladder Capital Finance LLC for 40 Wall Street?
8 A I do.
9 Q And is this one of the reports that -- appraisal
10 reports that you reviewed as part of your engagement in this
11 case?
12 A Yes.
13 MR. FIELDS: If we could go please to page ten.
14 At the bottom.
15 Q Do you see the subheading: Value Conclusions in this
16 chart?
17 A I do.
18 Q And what is the market value as is, as of June 1,
19 2015 for 40 Wall Street?
20 A The value conclusion states 540 million.
21 Q A moment ago we discussed the projected value in 2012
22 for 2015; do you recall that?
23 A I do.
24 Q And do you generally recall that the projected value
25 as of November 1, 2015 was \$260 million?

Laposa - by Defendant - Direct (Fields) Page 4650

1 A Yes.
2 Q And now this is an appraisal as of June 1, 2015 that
3 is valuing 40 Wall Street at \$540 million?
4 A Yes.
5 Q When you reviewed these two appraisals, what reaction
6 did you have to that value conclusion differential between 2012
7 projected for 2015, and the ultimate 2015 appraisal?
8 A My initial reaction was inquisitive.
9 Q And did you inquire?
10 A Huh?
11 Q Did you inquire?
12 A Yes, I did. I just wanted to look at it. How did
13 you go from 260 to 540? Again, my initial reaction is not,
14 well yes, I am inquisitive but not surprised. It is just, let
15 me go through what did they do, especially in my area of
16 expertise in the market analysis section.
17 MR. FIELDS: Okay. If we could go please to
18 page 170 of this document?
19 Q Dr. Laposa, can you see this is the Direct
20 Capitalization Valuation Method heading?
21 A I do.
22 Q And in the chart in the middle of the page, what is
23 your understanding of what these 12 properties represent?
24 A Well, they are -- as the heading states, these are
25 office building sales. And the overall capitalization rate for

Laposa - by Defendant - Direct (Fields) Page 4651

1 each one of them.
2 MR. FIELDS: And if we scroll a little lower.
3 Q The statistics section, the low is 2.68 percent; the
4 high is 7.68 percent; and the median is 4.28 percent; the
5 average is 4.62 percent?
6 A Correct.
7 MR. FIELDS: And if we can scroll a little lower
8 to the last paragraph.
9 Q In the context of the direct capitalization method, a
10 going-in rate of 4.25 percent is considered reasonable
11 compensating the typical buyer for the risk inherent in
12 investing in this building, with consideration to the below
13 market leases.
14 What did you understand this four and quarter percent
15 to represent in terms of the ultimate value in how they arrived
16 at it?
17 A Well, they use add 4.25 percent in their calculations
18 to estimate market value.
19 Q And this four and a quarter percent was slightly
20 lower than the average of 4.62 percent; is that fair?
21 A That's fair.
22 Q In contrast to the -- well, let me just ask this
23 first. Withdrawn.
24 Do you recall in the appraisal we just looked at from
25 2012 that the capitalization rate employed for projected 2015

Laposa - by Defendant - Direct (Fields) Page 4652

1 was higher than the highest one of the sales comparables that
2 were being looked at?
3 A I do.
4 Q And here you have a capitalization rate that is a
5 little lower than the average in 2015. What was your reaction
6 when you saw those two distinctions?
7 A When I saw those distinctions, the one thing, going
8 back to my real estate cycle background, by 2015 it was very
9 well known in the marketplace that the economy had turned
10 around, real estate had turned around. I have a graph, I
11 believe, in my initial report that shows real estate capital
12 flows starting to increase from 2011 on. So that does not
13 surprise me that they actually used a 4.25 percent. So, you
14 know, versus what they thought in 2012, which would be seven.
15 So at first I was, like, okay that makes sense. Why
16 they did not use the same methodology as what they did in 2012
17 compared to here, I don't know why they didn't use something
18 that was even higher, like they did in 2012. It is just what
19 they did.
20 MR. FIELDS: If we go to the next page, page
21 171.
22 Q Do you see at the top there is the Direct
23 Capitalization Method and NOI plus year one free rent. What is
24 the figure for the NOI?
25 A 23.2 million.

Laposa - by Defendant - Direct (Fields) Page 4653

1 MR. FIELDS: Could we please pull up side by
2 side Plaintiff's 3208 with -- on page 176.
3 Q Dr. Laposa, a moment ago, and I'll represent to you
4 that on the right of your screen you are looking at the 2012
5 appraisal projecting November 1, 2015 value upon reaching
6 stabilization. Okay?
7 A Yes.
8 Q And on the left you have the actual 2015 appraised
9 market value.
10 I'll represent to you -- well, let me withdraw that
11 question.
12 On the right in 2012 projecting as of November 1,
13 2015, the appraisal concluded that the net operating income
14 would be approximately 18.3 million as of November 1 of 2015.
15 A Yes.
16 Q Now, as of June 1, 2015 on the left of your screen,
17 what did the appraisal conclude was the actual net operating
18 income, plus year one free rent?
19 A 23.2 million.
20 Q I'll represent to you that the difference there is
21 approximately \$4.8 million. Will you accept my representation?
22 A I will accept it.
23 Q So would it be fair to say -- let me withdraw that.
24 That difference of \$4.8 million, in your view, does
25 that represent an under value of the net operating income or

Laposa - by Defendant - Direct (Fields) Page 4654

1 over valuing when you compare 2012 to 2015?
2 A Well, they obviously, as of 2012 they thought the
3 value of the operating would be 18.3, when in actuality it was
4 much higher at 23.2 million.
5 Q And for 2015 the capitalization rate that the
6 appraiser relied on was four and quarter percent. Do you
7 recall that from the prior page?
8 A Correct.
9 Q Will you accept my representation that if you divide
10 4,869,396, which is the difference between the two net
11 operating incomes, divided by the capitalization rate of four
12 and a quarter percent, that that represents approximately
13 \$114,574,024? Will you accept my representation that it is
14 approximately 114.5 million?
15 A Yes.
16 Q Okay. That 114.5 million, what does that represent
17 in terms of the appraiser in 2012 under valuing or over valuing
18 40 Wall Street when you compare it to the actual figures in
19 2015?
20 A Again, I would have to go through a lot more of the
21 methodologies that came up to how they came up to that 18.3
22 versus the actual 23.2. But I am fairly confident that it had
23 to do with their rent growths. It had to do with their
24 occupancies. It had to do with a lot of the variables that go
25 into some kind of a DCF model.

Laposa - by Defendant - Direct (Fields) Page 4655

1 THE COURT: Five minute warning.
2 MR. FIELDS: Thank you, Your Honor.
3 Q Again, I am going to go back to that 114.5 million
4 figure. Does that figure represent that the appraiser in 2012,
5 when projecting 2015, under valued 40 Wall Street by
6 approximately \$114.5 million; if my math is correct?
7 A Yes.
8 MR. SOLOMON: Objection. It is
9 mischaracterizing. It was a projection of the value. He
10 didn't under value, the projection is what is being
11 discussed here, not the actual valuation.
12 THE COURT: Can we agree on under projected --
13 under value of the projection in some manner? I think we
14 all understand.
15 MR. SOLOMON: As long as the record is clear,
16 Your Honor.
17 THE COURT: Move to?
18 MR. SOLOMON: I said as long as the record is
19 clear that it is relating to the projection, not the
20 actual valuation.
21 THE COURT: Even more important than the record
22 is in my mind. Yes, it is clear.
23 Q So Dr. Laposa, would it be fair to say that the
24 appraiser under projected the value of 40 Wall Street from 2012
25 to 2015 by approximately \$114.5 million based on these two

Laposa - by Defendant - Direct (Fields) Page 4657

1 approximately \$539.5 million?
2 A I do.
3 Q And what do you understand that value to represent?
4 A That's the -- of all of the matrix and all of the
5 opportunities that they, you know, calculated, I assume these
6 calculations are correct, I am sure they are, that they
7 decided, okay, here is the matrix and basically we are going to
8 pick the one in the middle.
9 This, to me, shows subjectivity. Trying to explain
10 why they didn't use the four and a quarter, you know, this is
11 the judgment of the appraiser in looking at all of the
12 opportunities, that whole distribution of values, and going
13 from 441 million all the way up to 686. Again, if I saw those
14 two values you would go -- you would dig down deep and say,
15 okay, what is different between them. This is pure example of
16 subjectivity for me.
17 THE COURT: One minute more if you want it, then
18 we have some scheduling to do.
19 MR. FIELDS: Sure.
20 Q Dr. Laposa, on the left, the IRR, the discount rate,
21 how does the discount rate generally affect the value of the
22 property when it goes up or down?
23 A Well, as your discount rate goes up even holding just
24 four and a quarter, you can see as the discount rate goes up,
25 the values go down. As the discount rate goes down, the values

Laposa - by Defendant - Direct (Fields) Page 4656

1 documents in front of you?
2 A Yes.
3 MR. FIELDS: All right. If we could please go
4 back to page 162 of Plaintiff's 118?
5 Q And there is a chart on the bottom left titled
6 Pricing Matrix. And to the right of it --
7 MR. FIELDS: Well, that's okay. That's perfect.
8 Thank you.
9 Q Dr. Laposa, I'll represent to you that this is a
10 chart included on page 162 of the 2015, 40 Wall Street
11 appraisal. Okay?
12 A 2015?
13 Q Yes, sir.
14 A Yes.
15 Q And do you see the terminal capitalization rate at
16 the top?
17 A Correct.
18 Q Is that -- what is that term? Is that the
19 capitalization rates we have been discussing this afternoon?
20 A Yes. But it is more at the end of the cash flows. I
21 mean, it is at the end of the discounted cash flow model.
22 Q Okay. And the IRR on the left is -- what is that?
23 A Discount rate.
24 Q Do you see in the middle of the screen that there is
25 a cell, for lack of a better term, highlighted that's

Laposa - by Defendant - Direct (Fields) Page 4658

1 go up, holding just that terminal cap rate.
2 (The following proceedings were stenographically
3 recorded by Senior Court Reporter Michael Ranita.)

23
24
25

1 Q So when the discount rate, for example, five and a half
2 percent at a cap rate of four and a quarter, the value is
3 approximately \$686.4 million?

4 A Correct.

5 Q And if you go all the way to the bottom there, if you
6 apply the same cap rate, but a discount rate of 7.5 percent, the
7 value changes to \$523.6 million?

8 A Correct.

9 MR. FIELDS: Your Honor.

10 THE COURT: Okay. I'll direct the witness not to
11 discuss his testimony, or this case overnight. And we'll
12 see you tomorrow morning at 10:00.

13 Okay, and let's discuss scheduling. I'll turn over
14 the microphone to the person sitting alongside me.

15 MS. GREENFIELD: Okay. Mr. Fields, how much more
16 direct do you have?

17 MR. FIELDS: If I had my best estimate, it would
18 probably be 45 minutes or less.

19 MS. GREENFIELD: How much cross is anticipated?

20 MR. SOLOMON: Two to three hours. I will try to
21 make it less, to the lower end of the range.

22 MS. GREENFIELD: Okay. We are going to have Mr.
23 Giulietti available.

24 MR. SUAREZ: Mr. Giulietti will be available in the
25 morning.

1 MS. GREENFIELD: Since it looks like Giulietti was
2 scheduled later in the month, are we getting an updated
3 witness list?

4 MR. SUAREZ: Yes. We are working with the holiday
5 schedules and Counsel availability for number of the
6 witnesses. We've made great progress this week through our
7 experts, so I expect that by next week we'll have some more
8 updated dates in our schedule.

9 MR. AMER: Can I ask, are we still anticipating
10 Mr. Miller follows Mr. Giulietti, and then Mr. McConney
11 follows Mr. Miller?

12 MR. SUAREZ: That's correct.

13 MR. AMER: And that's next week?

14 MR. SUAREZ: That's next week.

15 MR. FIELDS: May I inquire, if there's two or
16 three hours of cross examination, is tomorrow Friday or have
17 I lost track of my days?

18 MS. GREENFIELD: He said it's possible he'll finish
19 early, so in the event that we are able to have another
20 witness, we'll have another witness.

21 MR. FIELDS: Okay.

22 THE COURT: Okay. Have a good evening.

23 (The case on trial was adjourned to Friday,
24 November 17th, 2023, at 10:00 a.m.)

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4663

1 THE COURT: Good morning, everyone. I'll ask the
2 witness to resume his place on the witness stand, and I'll
3 remind him, as I always do, he's still under oath.
4 Please proceed, Counselor.
5 MR. FIELDS: Thank you, your Honor. And good
6 morning.
7 THE COURT: Good morning.
8 DIRECT EXAMINATION
9 BY MR. FIELDS: (Continued.)
10 Q Good morning, Dr. Laposa.
11 A Good morning.
12 MR. FIELDS: If we could please pull up Plaintiff's
13 118, page 162.
14 (Whereupon, the exhibit displayed on the screen was
15 taken down.)
16 MR. FIELDS: If we could blow up -- that's probably
17 a poor term, but enlarge the pricing matrix.
18 (Whereupon, the exhibit displayed on the screen was
19 taken down.)
20 Q Thank you. Dr. Laposa, when we broke yesterday for the
21 evening, do you recall that we were discussing this pricing
22 matrix in the 2015 40 Wall Street appraisal?
23 A I do.
24 Q And the top of the chart reflects "terminal
25 capitalization rates"?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4665

1 Q Okay. And then if we go to the high end of the chart
2 at four and a quarter percent, terminal capitalization rate;
3 five and a half percent discount rate, what is the figure there?
4 A The value is approximately 686 million.
5 Q All right.
6 Now, if you added a half a percent to four and three
7 quarters for the cap rate and added half a percent for the
8 discount rate to six, do you see where the figure is
9 approximately \$604.9 million?
10 A I do.
11 Q So does that \$604.9 million, approximately, represent
12 adding a half a percent to both of these subjectivities?
13 A Yeah, 50 basis points, correct.
14 Q And when you add those 50 basis points, the result is
15 approximately an 80 or so million dollar difference; is that a
16 fair statement?
17 A Yeah. Yes, approximately 686 minus 604.
18 MR. FIELDS: Okay. We could pull that down, thank
19 you.
20 (Whereupon, the exhibit displayed on the screen was
21 taken down.)
22 Q I would like to shift gears Dr. Laposa, and talk to you
23 a moment about the term trophy property?
24 A I'm familiar with that term.
25 Q What is a "trophy property"?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4666

1 A I would consider a "trophy property" as iconic, not
2 reproducible, very unique in the marketplace. It could be a
3 historic building. It could be -- it's -- I've seen it in the
4 literature. I've seen it in appraisals. They say this property
5 is a trophy property, and so, yes, I've seen it.
6 Q We talked about the Rockefeller Center and the
7 bankruptcy that you were involved in as a result on that
8 property.
9 Is the Rockefeller Center an example of a property you
10 would consider a trophy property?
11 A Very much so.
12 Q What kinds of investors do trophy properties typically
13 attract?
14 A The pool of investors that I've seen in my experience
15 is, especially working around the world on properties that I
16 would also consider trophy properties, is that the pool of
17 investors is much more limited to who would want to -- who can
18 afford to buy it, and sometimes they buy this -- buy a property
19 for 50 years, you know, expectation. I've worked with Dutch
20 investors. When they buy a property, especially if it's a
21 trophy. They are going to keep it in their portfolio for
22 50 years.
23 So it's a very limited, um, it could be high net worth.
24 It could be family office, real estate offices that's -- it
25 could be a group of foreign investors. So it's a real limited,

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4667

1 in my experience, the pool of investors, it's not, you know,
2 it's just not, um, you don't see it that many, um, typical local
3 and regional real estate investors.
4 Q How, if at all, does the appraisal or valuation process
5 for trophy properties vary from the appraisal or valuation
6 process for non-trophy properties?
7 MR. SOLOMON: Objection, your Honor. The witness
8 has been qualified for market research and market trends and
9 the like expert. He's not been qualified specifically it
10 was excluded about anything having to do with appraisals.
11 MR. FIELDS: I don't recall that, your Honor. I
12 believe, your Honor, when we came back from that break said
13 he's been doing this four 30 years. He is qualified to
14 testify about information that goes into the appraisal that
15 he spent 30 or so years valuating and understanding the
16 market data; that's what my question was geared toward.
17 THE COURT: Read back, please.
18 (Whereupon, the requested testimony was read back
19 by the court reporter.)
20 THE COURT: Well, this is very specific to
21 appraisals. Objection sustained.
22 MR. FIELDS: Your Honor, I also asked about
23 non-appraisals. The question was, how does it vary for
24 appraisals or non-appraisals, and we've been discussing with
25 Dr. Laposa appraisals and non-appraisals since the beginning

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4668

1 of the testimony.
2 MR. SOLOMON: And we had a continuing objection to
3 that line, your Honor.
4 THE COURT: I'll let it in. There's no jury. I
5 don't see the prejudice, so overruled without prejudice to
6 -- Mr. Solomon, you are dismayed. Let's have it out is
7 this. Is it because it will waste time or because of some
8 prejudice to your case?
9 MR. SOLOMON: We don't anything is a prejudice to
10 our case, your Honor. Let's be clear on that. That I've
11 learned how to answer.
12 But I do think it's a weight of time. If the
13 witness wants to testify in the area of market research,
14 market analysis relating to trophy properties, that's one
15 thing.
16 To have him sit up there and talk about how an
17 appraisal is different for a trophy property versus a
18 non-trophy property, or even a valuation between the two,
19 this witness is not qualified.
20 I believe there were people who were appraisers up
21 on the stand at various point in time. The questions could
22 have been asked of those people whether they were or
23 weren't, and that was the decision that was made. But it's
24 not proper for this witness.
25 MR. FIELDS: I don't think Mr. Larson -- I asked

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4669

1 about the process. Respectfully, that was question.
2 THE COURT: Mr. Solomon, if you are still trying to
3 save time, you are not.
4 MR. SOLOMON: But, your Honor, if they do this,
5 that may also require us to call a rebuttal expert with
6 respect to appraisals and the like, so it will, in fact,
7 extend the time.
8 THE COURT: That's true. I have a more broad view
9 of what an expert -- what deeming someone expert to be is.
10 I'm -- I know I don't remember the exact words, but I
11 remember there was a specific wording I used when I deemed
12 him an expert. If you want to find that, but even if this
13 goes to a little bit outside of that, objection overruled.
14 Let's just move on.
15 Do you need a read back of the question again or do
16 you want to ask it again. It will take longer to --
17 A Can you ask that question.
18 THE COURT: Ask it again. Withdrawn. Ask again.
19 Q How, if at all, does the process differ for appraisals
20 or non-appraisal valuations with regard to trophy properties
21 compared to non-trophy properties?
22 A I could describe the work that I worked on for the
23 Rockefeller Center bankruptcy, where myself and this other
24 director of research, we did only the market analysis for that
25 appraisal. So I could restrict what we did.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4670

1 When we looked at the -- you go through the same
2 process. Again, it's a funnel approach. What was going on in
3 the United States office, what was going on in New York, what
4 was going on in the Rockefeller submarket and we charted out
5 that data. We produced and forecast, but then when we had to
6 assist the appraisers, the MAI's on this appraisal, we -- they
7 asked us to, because it was a trophy property, we looked at the
8 sales comps in the area for New York, but additionally, because
9 it was a special type of property, we also investigated what
10 were the sales in London, in Paris and other major cities around
11 the world, to similar properties as Rock Center. So that's the
12 biggest difference in the market analysis section that I worked
13 on. And I can attest to that.
14 THE COURT: Not to mention, you could cross examine
15 him endlessly.
16 Q So then -- your testimony was you looked at comparables
17 around the world to use to compare to the Rockefeller Center?
18 A Correct.
19 Q Do you recall some of the comparables around the world
20 that you looked at?
21 A It's been too long.
22 Q Fair enough.
23 MR. FIELDS: If we could pull up Dr. Laposa's
24 report.
25 Q I would like to shift gears now, Dr. Laposa, and talk

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4671

1 to you for a moment about your report on page 29. And we'll put
2 it up here to refresh your recollection, if that will be easier
3 for you.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 A Okay.
7 MR. FIELDS: All right. If we can enlarge footnote
8 21.
9 (Whereupon, the exhibit displayed on the screen was
10 enlarged.)
11 Q Do you recall including in your report footnote 21 that
12 discussed the concept of investment value appearing similar to
13 estimated current value for personal financial statements per
14 ASC-274?
15 A Yes, I remember including that footnote.
16 Q When you drafted -- well let me ask you this: Do you
17 have an accounting background?
18 A No.
19 Q Are you providing an accounting opinion here in court?
20 A No.
21 Q Do you have a very rudimentary understanding of
22 ASC-274?
23 A I wouldn't even consider it rudimentary.
24 Q Fair enough.
25 All right. Do you recall that your deposition was

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4672

1 taken by the Attorney General's Office earlier this year on or
2 about July 9th, 2023?
3 A I do.
4 Q And I'm not going to play a memory game with you.
5 MR. FIELDS: So I'm going to ask that we pull up,
6 to refresh the witness's recollection, page 90.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 MR. SOLOMON: Your Honor, I don't know that the
10 witness indicated he needed his recollection refreshed.
11 THE COURT: Sustained. You can't refresh a
12 recollection --
13 Q Dr. Laposa, do you remember every question that
14 Mr. Solomon asked you at your deposition earlier this year?
15 A No.
16 Q Okay.
17 Would it refresh your recollection to review your
18 deposition to help you remember some of those questions?
19 THE COURT: Is there an objection, or no?
20 MR. SOLOMON: Your Honor, he just asked if seeing
21 every question would refresh his recollection; that's not
22 objectionable. But when he gets, now, into specifics in an
23 area, he needs to identify an area where the witness needs
24 his recollection refreshed before he could go further, so
25 that question, in and of itself, is not objectionable, but

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4673

1 I'm waiting for the next one.
2 THE COURT: Well, I think it is objectionable,
3 because he would have to review the whole transcript.
4 MR. SOLOMON: The first rule, your Honor.
5 Q Do you remember the questions specifically that were
6 asked to you, in terms of the wording that was used by
7 Mr. Solomon at your deposition, relating to estimated current
8 value and ASC-274?
9 A We had a series of questions, if I remember right, when
10 that phrase was introduced into the deposition. I remember
11 that.
12 Q And would it aid your memory to be able to review those
13 questions now to know the specific phrasing that Mr. Solomon
14 used when asking you those questions?
15 MR. SOLOMON: Objection. He hasn't --
16 THE COURT: You can't do that.
17 MR. FIELDS: Okay. No problem. We'll play a
18 memory game.
19 Q Dr. Laposa, do you recall that Mr. Solomon, at your
20 deposition, showed you a definition for estimated current value?
21 A I do remember that.
22 Q Do you remember the wording exactly of the definition
23 that Mr. Solomon showed you?
24 A Do I remember the exact wording of that?
25 Q Yes, sir.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4674

1 A No.
2 Q Would it help refresh your recollection to see the
3 definition of estimated current value that Mr. Solomon showed
4 you at your deposition?
5 A It would help.
6 MR. FIELDS: If we could please pull up, to refresh
7 the witness's recollection, D-452.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 (The exhibit was handed to the witness.)
11 MR. FIELDS: Page two, in the middle of the page
12 under glossary, estimated current value.
13 Q Dr. Laposa, just take a look at this and let me know if
14 you recall whether this was the definition of estimated current
15 value that Mr. Solomon showed you at your deposition?
16 A I'm sure it was.
17 Q Are there any key terms in this definition that stand
18 out to you in your memory that you recall being asked about?
19 A Um, specifically what I was asked about this is -- I
20 mean, there were various questions, but I do remember seeing
21 this, and I do remember seeing keywords in there that, um, you
22 know that were new to -- not new to me, that I saw that -- that
23 I -- I understand this definition.
24 Q What are some of the key terms in this definition that
25 were -- stood out to you as it relates to your role in market

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4675

1 research and valuations, generally?
2 A Well, considering I've opined on the difference between
3 a market value and investment value, when I saw this definition,
4 it, um, it, um, informed me that it was much more the market
5 value because there was the terminology exchanged between a
6 buyer and seller. And then again, each of whom is well informed
7 and willing, and neither of whom is compelled. So that implies,
8 in my world of, of, of understanding market value, is there
9 needs to be a buyer and a seller. And, again, each with the
10 conditions; informed, willing, non-compelling, buy or sell that
11 asset.
12 Q So when what I understood your testimony to be is, that
13 when you read this, what first came to mind for you was market
14 value?
15 A Correct.
16 MR. SOLOMON: Objection. Leading.
17 THE COURT: Sustained.
18 Q What first came to mind in terms of your -- the key
19 terms we've discussed over the past two days with regard to
20 value, what term came to mind to you?
21 A Market value.
22 Q And when Mr. Solomon asked you -- withdrawn.
23 Did Mr. Solomon ask you, at your deposition, to apply
24 this definition when he was asking you questions about estimated
25 current value and market value?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4676

1 A I don't recall that specific relationship.
2 Q You don't recall the specific relationship between the
3 question that was asked at your deposition?
4 A Well, we went through a series of questions, probably
5 frustrating for the both of us going through this question and
6 what it meant, and how it was applied, so. A lot of assumption
7 based, you know, assume this, now does that -- I mean there was,
8 um, if I remember my deposition, and I reviewed it here
9 recently, um, this was a good back and forth, I would say,
10 between the two of us.
11 Q But my question is, do you recall if this was the
12 definition that Mr. Solomon asked you to apply when he was
13 asking you questions about estimated current value?
14 A Yes, that's the definition he asked me to apply.
15 Q Okay.
16 So when Mr. Solomon asked you if estimated current
17 value and market value were the same, do you recall what your
18 answer was?
19 A Can -- I -- I would have to refresh my memory, but when
20 I saw this definition, in my mind, it implied to me market
21 value, because a willing -- the buyer -- the terminology was
22 buyer and seller, well informed, neither are compelled to buy or
23 sell. So it implied a transaction.
24 Q Would it refresh your recollection to look at your
25 deposition to know exactly what your answer was when you were

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4677

1 asked that question?
2 A Most likely, yes.
3 Q Okay.
4 MR. FIELDS: Could we please pull up page 90 of
5 Dr. Laposa's deposition.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q Beginning at line -- we'll start at line 22.
9 The question, "Estimated current value and market value
10 are, in your opinion, the same? And then Mr. Solomon followed
11 up with, "Is that correct?"
12 MR. FIELDS: If we could then move to the next
13 page.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 Q And do you recall that your answer was, "Based on this
17 limited definition, yes"?"
18 A I do now, yes.
19 Q And Mr. Solomon followed up:
20 "Okay. Yes, I'm only asking you based on the
21 definition I have put in front of you from FASB on estimated
22 current value."
23 Do you generally recall that?
24 A Yes.
25 Q As we just asks discussed, the definition that

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4678

1 Mr. Solomon is referring to, is that the definition that was
2 just up on the screen --
3 A Yes.
4 Q -- a moment ago?
5 A Yes.
6 THE COURT: Let me just suggest, if you want to ask
7 the witness, and you have at great length, questions about
8 market value versus investment value, you've done it
9 already. You could still do it, I guess, but it sounds like
10 what you are trying to do is foreshadow what Mr. Solomon's
11 cross examination is going to be.
12 Why don't we just wait until there's the cross
13 examination, and then you can, you know, redirect him, or
14 attempt to rehabilitate anything -- any damage that you
15 think is going to be inflicted. We spent 15 minutes on his
16 definition of market value versus investor value, which we
17 spent a half hour on yesterday, and you've done with other
18 witnesses.
19 MR. FIELDS: I'm getting to the point, your Honor,
20 and I could assure the Court there is a point to it.
21 THE COURT: Okay.
22 Q Did you ultimately, when asked by Mr. Solomon, suggest
23 or agree to withdraw your footnote 21 based on the definition he
24 showed you at your deposition?
25 A I do remember that.

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4679

1 Q Okay.
2 MR. FIELDS: If we could put on the screen, please,
3 defense 452.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 MR. FIELDS: Page ten -- sorry, page nine.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 MR. FIELDS: All the way at the bottom.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 MR. FIELDS: Defense 452, page nine. Oh, I see it.
13 Thank you.
14 Q Do you see at the top, Dr. Laposa, it says
15 "Information" -- withdrawn. All the way at the top. It says,
16 "Real estate, including leaseholds."
17 Do you see that?
18 A Yes.
19 Q Okay. And I'll represent to you this is part of
20 ASC-274.
21 Do you see information that may be used in determining
22 the estimated current values of investments in real estate,
23 including leaseholds that include any of the following."
24 A Do I recall seeing this, or do I see it?
25 Q Do you see that on the screen?

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4680

1 A I see that.
2 Q Okay. Subheading B, do you see where it begins, "The
3 discounted amounts of projected cash receipts and payments
4 relating to the property, or the net realizable value of the
5 property based on planned courses of action, including
6 leaseholds whose current rental value exceeds the rent in the
7 lease."
8 Do you see that?
9 A I see that.
10 Q I would like to focus your attention on what comes
11 after the word "or" in the first line.
12 So it says "the net realizable value of the property
13 based on planned courses of action."
14 Do you see that?
15 A I do.
16 Q And in your world of real estate economics and
17 valuations, generally, what do you understand that to mean?
18 A That there's -- the option that -- I assume this is
19 still 274?
20 Q Yes, sir.
21 A That the estimated current value, according to 274,
22 this part (b), could include the net realizable value of the
23 property based on planned course of action. And when I see
24 "planned course of action", what comes to mind for me is the
25 owner, the investor, the developer of that specific property and

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4681

1 what his plans are for the future, his or her plans are to
 2 further develop that property, or just knowledge they have about
 3 that property. And again, planned courses of action.
 4 Q So would that be investment value?
 5 A To me, that's investment value.
 6 MR. SOLOMON: Objection. Leading.
 7 THE COURT: Two things. One completely leading,
 8 overruled. Two --
 9 MS. FAHERTY: Overruled?
 10 THE COURT: Sustained, right.
 11 MR. SOLOMON: Sustained.
 12 THE COURT: The other thing I can't say.
 13 MR. SOLOMON: Also, I would note this witness has
 14 said he doesn't know 274.
 15 MR. FIELDS: Then why did you show it to him at his
 16 deposition and not show him this definition?
 17 MR. SOLOMON: The expert report you drafted for him
 18 you put in footnote 21 which mentions 274.
 19 MR. FIELDS: When you were examining --
 20 THE COURT REPORTER: I'm sorry, I couldn't hear you
 21 both.
 22 THE COURT: Sustained. It was leading.
 23 MR. FIELDS: I'll ask him.
 24 THE COURT: I don't know if you could ask him.
 25 Q You mentioned planned courses of action. In your

Page 4683

1 recall. I think he has, but I don't want to be on the
 2 record as saying something I don't have a high degree of
 3 certainty.
 4 THE COURT: Then either I'll allow it or -- all
 5 right. I'm sorry, sorry for interruption.
 6 MR. FIELDS: That's okay.
 7 THE COURT: Restate it. You know the question.
 8 MR. FIELDS: Yes, sir.
 9 Q Do you recall if you were shown this specific
 10 definition that's on the screen that's ASC-274-10-55-6 at your
 11 deposition?
 12 A I have a high certainty that I did not see this
 13 definition during my deposition.
 14 (Continued on the next page.)

 21
 22
 23
 24
 25

Dr. Laposa - by Defense - Direct (Mr. Fields) Page 4682

1 world, what key term does that bring to mind?
 2 THE COURT: Objection sustained. He gave the
 3 answer. If you are going to try to ask him the same
 4 question with different wording, it's asked and answered.
 5 I know what you are trying to do. Mr. Solomon
 6 knows what you are trying to do. I don't know if the
 7 witness does or doesn't know, probably at this point does,
 8 but I'm not going to let you do it.
 9 Q Dr. Laposa, were you shown this definition that was on
 10 the screen here ASC-274-10-55-6 at your deposition?
 11 THE COURT: Asked and answered.
 12 MR. FIELDS: Your Honor, he has not answered that
 13 question whether he saw it at his deposition.
 14 THE COURT: I could be wrong about that.
 15 Plaintiff, was he shown this at his deposition. You took
 16 it?
 17 The question, I should be asking, did you ask him
 18 -- did the defendant ask him whether you showed it to him at
 19 his deposition? That's three people.
 20 MR. SOLOMON: I'm sorry, your Honor. I did not
 21 follow that question. Did the defendant --
 22 THE COURT: Did the defendant ask the witness
 23 whether you showed this to him at his deposition? Did he
 24 ask him today, now?
 25 MR. SOLOMON: To be candid, your Honor, I don't

Laposa - by Defendant - Cross(Solomon) Page 4684

1 Q And now that you have seen this deposition, do you
 2 stand by your footnote 21, that you had previously told
 3 Mr. Solomon that you would withdraw based on the limited
 4 definition he showed you?
 5 A Now that I have seen this Part B, I would leave it
 6 in.
 7 MR. FIELDS: No further questions, Your Honor.
 8 Thank you.
 9 THE COURT: Okay. Will there be any cross?
 10 MR. SOLOMON: Yes, Your Honor.
 11 THE COURT: Can you proceed with that now?
 12 Can you proceed with that now?
 13 MR. SOLOMON: Yes. Sorry, Your Honor, technical
 14 issues.
 15 May I proceed, Your Honor?
 16 THE COURT: Please do so.
 17 CROSS-EXAMINATION
 18 BY MR. SOLOMON:
 19 Q Good morning, Dr. Laposa.
 20 A Good morning.
 21 Q You have testified yesterday and this morning about
 22 your background in real estate. I would like to be a little
 23 more specific. Prior to this assignment, did you have any
 24 professional experience preparing or reviewing personal
 25 financial statements?

Laposa - by Defendant - Cross(Solomon) Page 4685

1 A None.
2 Q Prior to this assignment, did you have any
3 professional experience in valuing real estate for inclusion in
4 personal financial statements?
5 A No.
6 Q Okay. We talked a few minutes ago about ASC 274. Do
7 you know if ASC 274 provides guidance for standards for valuing
8 real estate for personal financial statements?
9 A Outside of what I have seen today, no.
10 Q Are you familiar with the Financial Accounting
11 Standards Board, otherwise known as FASB?
12 A Yes, I am familiar with the terminology, yes.
13 Q What is it?
14 A It is a Financial Accounting Standards Board. I am
15 not an accountant, I don't follow whatever they do. So, it
16 is -- I know the abbreviation.
17 Q Okay. Are you an MAI certified appraiser?
18 A No.
19 Q Were you ever an MAI certified appraiser?
20 A No.
21 Q Have you ever signed an appraisal for a commercial
22 property?
23 A No.
24 Q Have you ever signed an appraisal for a residential
25 property?

Laposa - by Defendant - Cross(Solomon) Page 4686

1 A No.
2 Q Let's go back to some of the definitions that we were
3 talking about this morning and that you and I discussed at your
4 deposition.
5 MR. SOLOMON: If we could please mark PX-2665
6 for identification.
7 (Handing)
8 A Okay.
9 Q And Dr. Laposa, you will see the sticker at the
10 bottom which was added, Laposa 3. That was marked at your
11 deposition; do you recall that?
12 A I believe so.
13 Q Okay. It is page 54 of the appraisal of real estate;
14 is that correct?
15 A This is 15th Edition?
16 Q Yes.
17 A Okay.
18 Q So you have seen this before today, correct?
19 A Do I see what?
20 Q You have seen this page before today, correct?
21 A Correct.
22 Q And you have referred in your report and elsewhere
23 as, this publication, the appraisal of real estate being the
24 gold standard, correct?
25 A Correct.

Laposa - by Defendant - Cross(Solomon) Page 4687

1 Q Okay. If you take a look at the first entry under
2 investment value: "As used in appraisal assignments,
3 investment value is the value of a property to particular
4 investor based on that person's (entities') investment
5 requirements rather than market norms." Do you see that?
6 A I do.
7 Q Is that how you used the term "investment value"
8 during your testimony here?
9 A Yes.
10 Q The exhibit goes on to state, if you look at the
11 rectangle on the left side for investment value, it reads:
12 "The value of a property to a particular investor or class of
13 investors based on the investor's specific requirements; may be
14 different from market value because it depends on a set of
15 investment criteria that are not necessarily typical of the
16 market."
17 Do you see at that?
18 A I do.
19 Q Do you agree that investment value may be different
20 than market value?
21 A It may be.
22 Q Let's go back into the text. Under investment value,
23 the third paragraph. "To render an opinion," do you see that
24 sir?
25 A I do.

Laposa - by Defendant - Cross(Solomon) Page 4688

1 Q "To render an opinion of investment value an
2 appraiser must research the specific investment criteria of the
3 party in question." Do you see that?
4 A I do.
5 Q Did you do anything to research the specific
6 investment criteria of any person or entity with respect to 40
7 Wall Street?
8 A No.
9 Q Did you do anything to research the specific
10 investment criteria of any person or entity for any asset
11 listed on any of Donald Trump's financial statements?
12 A No.
13 MR. SOLOMON: Your Honor, we offer 2665 in
14 evidence.
15 THE COURT: Sus -- Granted. It is in.
16 (Whereupon, the document referred to was deemed
17 marked for evidence as Plaintiff's Exhibit 2665 by
18 the Court.)
19 THE COURT: You get caught up in patterns.
20 MR. SOLOMON: Your Honor, we would ask to mark
21 PX-1715 for identification.
22 (Handing)
23 Q Sir, if you look at the second page, it is a
24 definition of estimated current value, correct?
25 A Correct.

Laposa - by Defendant - Cross(Solomon) Page 4689

1 Q When you were testifying earlier about estimated
2 current value, was that the definition you were using?
3 A What is the source of this?
4 Q If you look across the top, FASB Authoritative; do
5 you see that?
6 A Okay.
7 THE COURT: It doesn't really matter where it is
8 from. The question was whether that was the definition
9 you were using. Wherever. It could have been in the
10 Bible. So is that the definition you were using --
11 You do it.
12 Witness, is that the definition that you were
13 using of current estimated value -- estimated current
14 value when you were testifying today and yesterday?
15 THE WITNESS: Give me a moment to read.
16 THE COURT: Sure.
17 THE WITNESS: I believe that's the same
18 definition we just previously saw.
19 Q Yes I understand that.
20 A That's how I understand estimated current value.
21 Q Okay. That was the definition we were using earlier
22 we understand. Is that the definition you were using during
23 your testimony yesterday and today?
24 A Regarding?
25 Q Estimated current value.

Laposa - by Defendant - Cross(Solomon) Page 4690

1 A Can -- did I even talk about estimated current value
2 yesterday?
3 Q I think you may have. I am certain you talked about
4 it earlier today. Do you recall that?
5 A Yes. Okay.
6 Q Was this the definition you were using when you
7 testified about estimated current value?
8 A Just momentarily ago, yes.
9 Q Okay.
10 THE COURT: Throughout your testimony today.
11 Q If you did use the term estimated current value at
12 any point yesterday, was this the definition you were using?
13 A If I even used it yesterday, you are saying would I
14 have used this definition?
15 Q Yes.
16 A I would have to confirm that, but I would say most
17 likely.
18 Q Okay. Have you ever used a different definition for
19 estimated current value than the one up on the screen?
20 A No.
21 Q Okay. Based on this definition, is estimated current
22 value the same as market value?
23 A I believe even on our deposition we went around on
24 that, but if it could be -- I can't really -- well, let me
25 further respond to that. It could be. This definition and

Laposa - by Defendant - Cross(Solomon) Page 4691

1 what I understand to be market value could overlap and be the
2 same.
3 Q You recall when we were talking about your
4 deposition, I took your testimony in July of this year?
5 A Yes.
6 Q Do you recall that I asked you, is estimated current
7 value the same as market value? Do you recall that I asked you
8 that?
9 A Several times, I am sure.
10 Q Do you recall your answer?
11 A No. If you want to show me, that would be great.
12 MR. SOLOMON: Could we play the clip, page 90
13 line five through page 90 line 16.
14 (Whereupon the video was played in open court.)
15 Q Do you remember being asked those questions and
16 giving those answers?
17 A Yes, sir.
18 Q That refreshes your recollection?
19 A That helps, yes. Thank you, sir.
20 Q Let's turn to what you did and what you did not do
21 prior to issuing your report. I believe you testified on
22 direct examination that you reviewed the complaint in this
23 action. Do you recall that?
24 A I do.
25 Q And you had testified about the exhibits, I would

Laposa - by Defendant - Cross(Solomon) Page 4692

1 like a little more clarity. I think you had indicated, and if
2 I am not remembering your testimony correctly, please correct
3 me. You had looked at some of the exhibits, but not all?
4 A I believe I can recall what I said yesterday when I
5 initially read the complaint. I started at page one, went
6 through it, and by the time I got to Exhibit 1, Exhibit 2,
7 there is a lot of companies and entities. And then when I got
8 to Exhibit 3, which were the Statements of Financial Conditions
9 I said, okay, that's -- that's beyond my expertise. So I
10 stopped.
11 Q I think you had indicated, please correct me if I am
12 wrong, you skimmed Exhibit 3?
13 A Correct.
14 Q Okay. But you read the entirety of the complaint?
15 A I did read the complaint.
16 Q And based upon your review of the complaint, are you
17 aware that certain valuations in Donald Trump's Statements of
18 Financial Condition are at issue in this action?
19 A Yes.
20 Q Other than skimming the first of the Statements of
21 Financial Condition, did you skim any of the others?
22 A Like I just previously said, I got to Exhibit 1 and
23 2, went through them pretty fast. When I got to Exhibit 3, I
24 stopped. I mean, when I saw the first one and noticed it
25 seemed like the remaining pages were all financial statements,

Laposa - by Defendant - Cross(Solomon) Page 4693

1 and my expertise is not even close to that.
2 Q Did you review how any of the purported values on --
3 withdrawn.
4 Did you review how any of the purported values for
5 any asset on any of the Statement of Financial Condition were
6 calculated?
7 A No.
8 Q Did you review appraisals for any asset in connection
9 with this case other than 40 Wall Street?
10 A No.
11 Q Then let's focus on the 40 Wall Street appraisals. I
12 believe you testified you looked at the one from November 2011?
13 A Correct.
14 Q 2012?
15 A Yes.
16 Q And 2015; is that right?
17 A Yes.
18 Q And are you aware that the Cushman appraisals -- can
19 I refer to the three as the Cushman appraisals?
20 A Yes.
21 Q Are you aware that the Cushman appraisals for 40 Wall
22 Street reflect a different valuation for the property than the
23 valuations on the Statements of Financial Condition?
24 A Am I aware that the values that are in there are
25 different from the financial statements? Is that what you are

Laposa - by Defendant - Cross(Solomon) Page 4694

1 asking?
2 Q Yes.
3 A According to the tables in the complaint, that's what
4 it states. I did not go back to the Exhibit 3 to check.
5 Q Other than looking at the tables in the complaint,
6 you have no independent knowledge?
7 A No.
8 MR. SOLOMON: I am sorry. Your Honor, I
9 violated one of your rules.
10 Q Other than looking at the tables in the complaint, do
11 you have any independent knowledge as to whether the amounts on
12 the appraisals are different than the amounts in the Statements
13 of Financial Condition?
14 A I have no knowledge.
15 Q Did you perform an appraisal review of the Cushman
16 appraisals?
17 A No.
18 Q Are you qualified to perform an appraisal review of
19 the Cushman appraisals?
20 A No.
21 Q Did you review any trial testimony relating to the
22 appraisals of 40 Wall Street?
23 A Recently?
24 Q Trial testimony, so from October 2 to present.
25 A I briefly read the trial transcripts of a Mr. Larson.

Laposa - by Defendant - Cross(Solomon) Page 4695

1 Q We will come back to that.
2 A Can I clarify? When you said appraisal review, to me
3 that means you have to be a licensed appraiser. I did not
4 review the appraisal as an appraiser review. I reviewed the
5 market analysis sections and the tables that I believe I have
6 been qualified and have experience in doing for 30 plus years.
7 Q Yes, I appreciate the clarification.
8 Are you aware that under USPAP there is something
9 known as an appraisal review?
10 A Yes.
11 Q Using that term for appraisal review, did you conduct
12 an appraisal review of any of the appraisals for 40 Wall
13 Street?
14 A No.
15 Q Thank you for that clarification.
16 So, you observed that there were different valuations
17 between the Statement of Financial Condition and the appraisals
18 for 40 Wall Street, correct?
19 A According to the tables within the complaint, yes.
20 Q Okay. When there are disparate valuations, is it
21 prudent and common practice to examine the underlying
22 assumptions, methodologies, models and the purpose of an
23 appraisal to identify potential sources of the disparate
24 results?
25 A That's -- I would agree with that.

Laposa - by Defendant - Cross(Solomon) Page 4696

1 Q Did you examine the underlying assumptions,
2 methodologies, models and purpose of Donald Trump's valuations
3 for 40 Wall Street on his Statements of Financial Condition?
4 A No.
5 Q When I asked you earlier about whether it was prudent
6 or common practice, did that sound familiar to you, sir?
7 A What was that question, again?
8 Q Sure. I had asked you a moment ago when there are
9 disparate valuations, is it prudent and common practice to
10 examine... and then I listed a number of factors. Do you
11 recall that?
12 A Yes.
13 Q Did that sound familiar to you?
14 A That sounds familiar to me.
15 MR. SOLOMON: Can we pull up paragraph 32 of
16 Dr. Laposa's report? Second sentence.
17 Q That's what you put in your expert report should be
18 done when there are disparate valuations, correct?
19 A That's correct.
20 Q But you didn't do that for any of the valuations on
21 Donald Trump's financial statements, correct?
22 A Correct.
23 Q Let's look at the actual appraisals for 40 Wall
24 Street.
25 MR. SOLOMON: Could we put up on the screen side

Laposa - by Defendant - Cross(Solomon) Page 4697

1 by side the tables showing the direct capitalization of
2 NOI, method of valuation from 2012 and 2015. That would
3 be PX-3208 at page 176; and PX-118 at page 171.
4 THE COURT: Court reporter this is Mr. Solomon
5 not Mr. Wallace. I believe there is an error in the
6 transcript.
7 At least I think you are Mr. Solomon, not
8 Mr. Wallace.
9 Q Sir, do you see those two charts?
10 A I see them.
11 Q I think yesterday those two tables were put up side
12 by side and asked you if the 2012 appraisal under projected the
13 NOI for 2015. Do you remember that?
14 A Yeah. Just clarify that this table on the left is
15 from the 2012 estimating the value in 2015; is that correct?
16 Q Yes.
17 A They were nodding their heads yes behind you.
18 Q As I said before, we have a deep bench.
19 A Yes, I see those.
20 Q Do you remember you stated it under projected the NOI
21 for 2015?
22 A Yes.
23 Q And you said you would want to do more work to
24 understand how they came up with the, on the one side, the
25 \$18,334,523 number compared to the 23,203,919 number. Do you

Laposa - by Defendant - Cross(Solomon) Page 4698

1 recall that?
2 A Yes.
3 Q But you indicated you were fairly confident it had to
4 do with their rent growth. Does that sound right?
5 A That was one of the aspects I would -- I infer just
6 by the fact that the NOI went up or they were projected to go
7 up. So that's a combination of the rent increase as well as
8 the occupancy. And theoretically that's -- that's one cause of
9 that.
10 Q And occupancy, is one of the factors that you use in
11 determining the net operating income for the building because
12 the more tenants you have the greater the income, correct?
13 A Correct. Well, depending upon if -- I mean, you
14 could buy occupancy sometimes by just dropping your rents,
15 which we found in Rock Center in '95 they did.
16 Q Assuming we don't have a situation like '95 or 2008
17 coming out of there, the greater the occupancy, as a general
18 matter, the greater the net operating income once you take out
19 expenses that are associated with the greater occupancy rate,
20 correct?
21 A Yeah. Again, going back to my real estate cycle
22 yesterday, you know, most likely in the recovery and maybe even
23 in early expansion phase, this is reasonable for sure.
24 Q And 2012 was the early expansion phase after what is
25 known as the financial crisis, great recession, whatever

Laposa - by Defendant - Cross(Solomon) Page 4699

1 terminology. Is that right?
2 A I would consider 2012 based on my knowledge and what
3 I put in my report is still in recovery phase.
4 Q In a recovery phase. Okay. Are the \$18 million
5 number and \$23 million number measuring the same thing?
6 A Well, they are measuring the same NOI for the same
7 building, you know, but the one on the left, the 18.3 million
8 is an estimate of 2015.
9 Q Right. And the 2015 is NOI (plus year one free
10 rent,) right?
11 A It says that, yes.
12 Q So that \$23 million number has roughly \$7.7 million
13 in free rent added back in, doesn't it?
14 A I don't see that exact number, but --
15 Q If you look on the chart on the right?
16 A I see it now, okay.
17 Q Under indicated value less one year free rent
18 \$7,776,980. Do you see that?
19 A I do.
20 Q So the NOI under the direct capitalization method,
21 the chart on the right for 2015 of 23.2 million, actually
22 includes money that is not collected, doesn't it?
23 A Yes.
24 Q Yes or no, sir?
25 A Yes.

Laposa - by Defendant - Cross(Solomon) Page 4700

1 Q And if you back out that \$7,776,000 number, the
2 actual amount of NOI would be less than \$16 million, wouldn't
3 it?
4 A Yes.
5 Q Let's take a look at another section from the 2012
6 and 2015 reports, if we can.
7 MR. SOLOMON: Can we pull up PX-118, page 161,
8 and PX-3208, page 155.
9 Q I am having the same trouble you are, Dr. Laposa?
10 A My eyes aren't that great.
11 Q It is on the screen in front of you, if that helps.
12 But I think this is larger.
13 If you can direct your attention to the projection in
14 each table from 2016. On the one on the left that's the first
15 column, year one FY 2016. FY is fiscal year?
16 A Yes.
17 Q And the one on the right it would be year four. Do
18 you see that?
19 A Okay.
20 Q The 2012 appraisal, if you go down 2016 to the bottom
21 the net operating income is 15,426,000 -- I am sorry -- that's
22 '15. Excuse me.
23 If you look at the '12, that's the one on the right.
24 A Okay.
25 Q Sorry. The projected income -- withdrawn.

Laposa - by Defendant - Cross(Solomon) Page 4701

1 If you look at the one on the right, what is the
 2 projected not yet operating income for fiscal year 2016?
 3 A The 18.3 million.
 4 Q Okay. And now let's compare that to the projection
 5 from the 2012 -- excuse me, the 2015. I have them reversed.
 6 The 2015. The net operating income for fiscal year 2016 is
 7 what?
 8 A 15.4 million.
 9 Q So actually the 2012 appraisal is more optimistic
 10 about 2016 than the 2015 appraisal, isn't it?
 11 A Based on what?
 12 Q Based upon the numbers here on the two charts in
 13 front of you that come from the appraisals.
 14 A The one on the left it is 15.4, and on the 2012 it
 15 is --
 16 Q It is 18.3, roughly \$3 million more?
 17 A Correct.
 18 Q So back in 2012 they were predicting a net operating
 19 income of approximately \$3 million more than they did on the
 20 2015 appraisal, right?
 21 A Right.
 22 MR. SOLOMON: You can take this down.
 23 Q Do you recall testifying yesterday that you believed
 24 the 2012 appraisal, I think the term you used was under
 25 projected?

Laposa - by Defendant - Cross(Solomon) Page 4702

1 A I would have to confirm that but it sounds most
 2 likely, yes.
 3 Q Okay. Are you aware whether 40 Wall Street ever
 4 achieved even the initial net operating income figure from the
 5 2015 appraisal?
 6 A I am not aware.
 7 Q Those are documents that would be in defendants'
 8 possession in your experience, right?
 9 A I am sorry, what?
 10 Q The documents reflecting the NOI for 40 Wall Street
 11 between 2015 and today, based on your experience, would be in
 12 the possession of the owner of the building, right?
 13 A I can't confirm that.
 14 Q Okay. Did the defendants ever show you documents
 15 sufficient to determine the net operating income for 40 Wall
 16 Street between 2015 and present?
 17 A They showed me the Cushman & Wakefield prices.
 18 Q That wasn't my question, sir. And maybe my question
 19 wasn't clear.
 20 Between 2015 and present we have actual results for
 21 net operating income for 40 Wall Street, right?
 22 A Right.
 23 Q Okay. Did the defendants ever show you documents
 24 sufficient for you to learn, know, understand or calculate the
 25 net operating income for 40 Wall Street between 2015 and

Laposa - by Defendant - Cross(Solomon) Page 4703

1 present?
 2 A 2015 and?
 3 Q Present. Present.
 4 A Present. 2023 or 20 -- no.
 5 Q Any of the years between, not just 2023, sir.
 6 A No.
 7 Q Okay. Are you aware of the current occupancy rate of
 8 40 Wall Street?
 9 A Am I aware of what?
 10 Q Of the current occupancy rate of 40 Wall Street?
 11 A No.
 12 MR. SOLOMON: I would like to mark PX-3380. It
 13 has previously been marked for identification, Your Honor.
 14 MR. FIELDS: We will object to relevance to the
 15 current occupancy rate for 40 Wall Street. It is not at
 16 issue in this case.
 17 THE COURT: If there are projections of what it
 18 was, I think it is relevant, so overruled.
 19 MR. ROBERT: Your Honor, if I may?
 20 The issue we had a big disagreement about
 21 earlier in the week with the Doral, and what the value is
 22 today and using that as a look-back, all of that should
 23 come in. Because if we are looking at whether a
 24 projection was accurate, the goose/gander rule I think is
 25 the legal phrase, would apply to that as well, Your Honor.

Laposa - by Defendant - Cross(Solomon) Page 4704

1 I am happy to revisit that with another witness.
 2 THE COURT: I specifically asked if there was a
 3 projection of this. I don't know whether there was a
 4 projection of Doral.
 5 But Mr. Solomon, you want to --
 6 MR. SOLOMON: That's exactly the point, Your
 7 Honor. And I would just add that here we are looking at a
 8 projection in the first appraisal that Dr. Laposa was
 9 asked about from 2012 going forward and comparing it to
 10 2015. There are then projections in 2015 going forward.
 11 And this witness testified yesterday that 2012 under
 12 projected. So in light of that, it is appropriate to look
 13 at what the projections were in the 2015 appraisal. And I
 14 am not using this to show what the value is of 40 Wall
 15 Street as we stand here today.
 16 MR. AMER: Your Honor, I just want to remind the
 17 Court that the ruling on Doral was on a different basis.
 18 THE COURT: It was various reasons.
 19 MR. AMER: That you can't use Doral to, you
 20 know, wash away inflated amounts of other properties.
 21 That was the basis for the Court's ruling that Doral was
 22 irrelevant.
 23 MR. ROBERT: But we are hearing testimony that
 24 the valuations on the SOFC are based on projections and
 25 planned courses of action. So of course it is appropriate

Laposa - by Defendant - Cross(Solomon) Page 4705

1 to look back at Doral and how the progression of Doral
2 worked. In addition, I am not sure how you will talk
3 about current rent roll from a hearsay article from
4 Bloomberg from a few days ago.
5 THE COURT: There is a lot to unpack.
6 Overruled. I have been fairly liberal with what
7 went in on the direct, and I will be liberal here. Which
8 I don't have to be liberal to let it in. I think it is
9 totally relevant.
10 MR. SOLOMON: We agree, Your Honor. I only have
11 a few questions. And this witness is an expert, so I can
12 ask him a hypothetical or to assume certain facts.
13 (The follow proceedings were stenographically
14 recorded by Senior Court Reporter Michael Ranita.)

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4707

1 lease in 2033?
2 A No.
3 Q Are you aware that one of the factors to be considered
4 in resetting the ground lease is the price of the land, if
5 vacant, with the right to build a 900,000 square foot office
6 building on the site?
7 A No. I didn't know if you were finished.
8 Q Thank for the courtesy, Doctor.
9 MR. SOLOMON: Could we pull up PX-3208 page 76.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q Paragraph beginning "The ground lease payments
13 currently total 1,500,000 with subsequent set increases through
14 2032."
15 Do you see that paragraph?
16 A I do.
17 Q And then it says "In 2033 the lease payments are
18 revalued to the greater of either; (a) six percent the then
19 value of the land considered as vacant and unimproved but with
20 the right to construct a 900-square foot office building; or --
21 THE COURT: 900,000.
22 MR. SOLOMON: What did I say?
23 Q 900,000 square --
24 MR. ROBERT: If we could know which appraisal he is
25 reading from. I don't know.

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4706

1 Q Dr. Laposa, you see on page two of three, fourth
2 paragraph from the bottom, it indicates that "The towers
3 occupancy rate dropped to 77 percent, as of June 30th, from
4 98 percent when the loan originated in 2015."
5 Do you see that?
6 A I see that.
7 Q Okay.
8 Do you recall that the appraisal from 2015 was obtained
9 in connection with the loan?
10 A I believe it was.
11 Q Yes. Okay.
12 If the current occupancy rated of 40 Wall Street is
13 less than 80 percent, and with all other factors remaining
14 constant, would you agree that the 2015 appraisal over projected
15 the performance of 40 Wall Street?
16 A Yes, with qualifications.
17 Q Dr. Laposa, are you aware that Mr. Trump, or The Trump
18 Organization's ownership in 40 Wall Street consists of a ground
19 lease for the property?
20 A I believe it does, but -- yes.
21 Q And are you also aware that each of the appraisals that
22 we looked at for the building had to calculate the increases in
23 the rent payable under the ground lease?
24 A I believe so.
25 Q Were you aware that there is a reset of that ground

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4708

1 MR. SOLOMON: PX-3208.
2 MR. ROBERT: But which year is it? I don't have
3 the chart of what PX-3208 is.
4 MS. FAHERTY: 2012.
5 Q I think I was then reading (b) before I misspoke about
6 the square foot. "It's 900,000 square foot office building; or
7 (b) 85 percent of the then lease payments."
8 Do you see that?
9 A I do.
10 Q Did you review any analysis in either of the appraisals
11 with respect to the lease reset?
12 A No.
13 MR. SOLOMON: Could we pull up the 2012 appraisal
14 at page 85, and the 2015 appraisal at page 98, side by side.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q You'll see the one on the left has the maximum FAR of
18 900,000 that we were just reading in the earlier paragraph;
19 right?
20 A I do.
21 Q Yet, the 2015 appraisal uses a maximum FAR of only
22 810,000 square feet?
23 A Yes.
24 Q Were you aware of that before today?
25 A No.

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4709

1 Q Is it fair to say, then, you did not conduct any
2 analysis or any review to determine why there's a difference of
3 roughly ten percent in the size of the FAR?
4 A I did not.
5 Q Yesterday you testified, and we confirmed today, that
6 you reviewed the complaint. Do you recall that?
7 A I do.
8 Q And is it also your testimony that based upon your
9 review of the complaint, you believe the complaint uses market
10 values for the various assets?
11 A Yes.
12 Q Did you also testify that you have no way to know what
13 types of valuations the defendants used to value their
14 properties?
15 A I have no knowledge of how they valued.
16 Q Okay. Let's talk about the Statements of Financial
17 Condition.
18 Do you know if the values for the assets identified on
19 the Statements of Financial Condition are market values,
20 estimated current values, investment values or some other
21 valuation?
22 A Based on my experience and working with owners and
23 investors and developers, I would believe it was their invested
24 values.
25 MR. SOLOMON: Can we pull up PX-729, which is

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4710

1 already in evidence.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q Please take a moment to look at this exhibit,
5 Dr. Laposa.
6 (The witness was handed the exhibit.)
7 Q You can look at whatever you need to answer my
8 questions, but I would direct your attention to page four,
9 "Basis of presentation."
10 A Okay.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q The very first paragraph of the notes of the financial
14 statement. "The accompanying Statement of Financial Condition
15 consists of the assets and liabilities of Donald J. Trump.
16 Assets are stated at their estimated current value and
17 liabilities at their estimated current amounts using various
18 valuation methods."
19 Do you see that?
20 A I do.
21 Q Now that you see that, do you understand that the
22 assets are purportedly stated at their estimated current value
23 in the Statements of Financial Condition?
24 A Well, yes, but there's also the qualification used in
25 various valuation methods.

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4711

1 Q Well, those are methods. Is there a difference in your
2 mind between the valuation definition and the method used under
3 that definition?
4 A Well, I'm going by what I've -- this is the first time
5 I seen this. They stated that they are estimated current value.
6 That's what we talked about.
7 Q This is the first time you've seen this, Dr. Laposa,
8 but you wrote a report where you accused the Attorney General of
9 bias by using market values in the complaint; is that right?
10 MR. FIELDS: Objection, to the extent he is
11 accusing the Attorney General of bias; that's not the
12 testimony, and it mischaracterizes the testimony.
13 MR. SOLOMON: At a break I could pull it up in the
14 report, but let me rephrase it, your Honor.
15 THE COURT: Okay.
16 Q Did you accuse the Attorney General of using market
17 values in the complaint in this action?
18 A What I stated, I believe in my report, is if you are
19 using the Cushman & Wakefield appraisal values, those are, in
20 my -- my world, the market values. They are not investment
21 values.
22 Q So you are saying that we used -- excuse me, the
23 Attorney General, in the complaint, used the Cushman & Wakefield
24 values; right?
25 A As the benchmark of truth compared to what was in the

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4712

1 financial statements.
2 Q And that those appraisals reflected market value;
3 right?
4 A Yes, they were --
5 Q Based on the transitive property, if A equals B, and B
6 equals C, you accused the Attorney General of using market
7 values in the complaint; correct?
8 MR. FIELDS: Objection to the characterization of
9 "accusing" anybody, your Honor.
10 THE COURT: Sustained. I don't think "accused" is
11 appropriate.
12 Q Sure. You, in your report, in your expert professional
13 opinion, stated that the Attorney General was using market
14 values in the complaint; is that correct?
15 A Correct.
16 Q Okay.
17 And we've now seen that the Statements of Financial
18 Condition used estimated current values; right?
19 A That's what it says.
20 Q And as we saw earlier when we put your deposition
21 testimony up on the screen, you agreed that estimated current
22 value is the same as market value.
23 Do you recall that?
24 A Yes.
25 THE COURT: I normally break at 11:30, if I can get

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4713

1 there.

2 MR. SOLOMON: Okay. Thank you, your Honor. I

3 wanted to know how much we had left.

4 (Whereupon, the exhibit displayed on the screen was

5 taken down.)

6 MR. SOLOMON: From his report can we pull up

7 footnote 21, please.

8 (Whereupon, the exhibit was displayed on the

9 screen.)

10 MR. SOLOMON: Your Honor, may I have a moment?

11 THE COURT: Yes.

12 (Whereupon, there is a brief pause in the

13 testimony.)

14 THE COURT: Change of plans. How about we break

15 now and we'll come back at 11:30, and then we'll have an

16 hour and 20 minutes.

17 MR. SOLOMON: Your Honor, I would appreciate that.

18 We may be able to streamline the rest of the witness's cross

19 in order to save the Court and the parties time.

20 THE COURT: That's music to my ears.

21 MR. ROBERT: Your Honor, do you have any idea,

22 because we have Mr. Giulietti. Otherwise I'll send him

23 home.

24 MR. SOLOMON: Off the record or on the record? I'm

25 hoping to be done within either five to 20 minutes.

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4714

1 MR. ROBERT: Fine. Thank you.

2 THE COURT OFFICER: All rise.

3 (Whereupon, the witness stepped down from the

4 witness stand.)

5 (Whereupon, a 15-minute break was agreed upon and

6 taken by all parties.)

7 THE COURT OFFICER: All rise Part 37 is back in

8 session. Please be seated.

9 THE COURT: Before the witness -- he can obviously

10 sit in the witness box, but before we continue, I just want

11 to note for the crowd here a few important things that

12 happened in history on this day.

13 In 1558, Elizabeth the first became Queen of

14 England. In 1968, was the famous "Heidi" game where the

15 Jets/Raiders football game ended spectacularly, was cut off

16 because they showed the Heidi movie.

17 And the Watergate scandal in 1973, Richard Nixon

18 famously said, "I am not a crook."

19 In 2003, Arnold Schwarzenegger became governor of

20 California. A couple of birthdays, Martin Scorsese and

21 Danny DeVito.

22 Anyone else know anything important that happened

23 this day?

24 (Whereupon, there is a brief pause in the

25 proceedings.)

Dr. Laposa - by Defense - Cross (Mr. Solomon) Page 4715

1 THE COURT: Is it your birthday?

2 MS. FAHERTY: It's my birthday!

3 THE COURT: Happy birthday!

4 THE WITNESS: I do, too, your Honor.

5 THE COURT: Your birthday?

6 THE WITNESS: No, today is my wedding anniversary.

7 THE COURT: Double celebration. You too should get

8 to know each other.

9 MR. ROBERT: And I'm sure your wife is thrilled you

10 are with us here today.

11 THE WITNESS: I sent flowers.

12 THE COURT: I didn't think of that.

13 Let's get back to business.

14 MR. SOLOMON: We wanted to thank you for the early

15 early morning break. It enabled us to condense what we were

16 doing, and we have no further cross examination of this

17 witness at this time.

18 THE COURT: Oh, okay. Any redirect?

19 MR. FIELDS: No, your Honor.

20 THE COURT: Okay. The witness is excused. And

21 thank you very much.

22 (Whereupon, the witness stepped down from the

23 witness stand.)

24 (Whereupon, the witness stepped into the witness

25 stand.)

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4716

1 THE COURT OFFICER: Raise your right hand.

2 (The witness complied.)

3 THE COURT OFFICER: Do you swear or affirm to tell

4 the truth, the whole truth and nothing but the truth?

5 THE WITNESS: Yes.

6 GARY GIULIETTI, called by and on behalf of the

7 Defendant, having been first duly sworn, was examined and

8 testified as follows:

9 THE COURT OFFICER: Be seated. Name and address or

10 name and business address.

11 THE WITNESS: Business address?

12 THE COURT: You have to speak very close to the

13 mic, loudly, right into it.

14 THE WITNESS: Is that good? How is that, good?

15 I'm sorry. You want my name and address?

16 THE COURT: Yes.

17 THE WITNESS: Gary Giulietti. My address is 43

18 Saint Thomas Drive, Palm Beach.

19 THE COURT: That's Florida. And zip code?

20 THE WITNESS: 33418.

21 THE COURT: Let's begin the direct examination.

22 MR. FIELDS: Thank you, your Honor.

23 DIRECT EXAMINATION

24 BY MR. FIELDS:

25 Q For the benefit of the court reporter, spell your last

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4717

1 name please, Mr. Giulietti.
2 A G, like George, I-U-L-I-E-T-T-I.
3 Q Good morning.
4 A Good morning.
5 Q Could you just explain your educational background from
6 college on?
7 A Well, I -- I have an undergrad degree from Saint
8 Michael's College, and I have a number of executive business
9 educational, I don't know if you call them degrees, but I've
10 been to the Harvard Business School, things like that, in my
11 career.
12 Q What did you study at Saint Michael's College?
13 A Business.
14 Q And where did you first work after attending college?
15 A A company called American Mutual. It was the founding
16 company of Liberty Mutual.
17 Q What did you do there?
18 A Insurance, direct writer, worked directly for the
19 insurer.
20 Q How long were you with American Mutual?
21 A Two and a half years.
22 Q Where did you go next?
23 A A series of small brokers until 1980. In the
24 Connecticut area.
25 Q What did you do when you worked for the series of small

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4718

1 brokers?
2 A Insurance sales and underwriting.
3 Q What kind of insurance?
4 A Originally construction. So surety and insurance for
5 contractors. My dad was a contractor, so I called on his
6 friends.
7 Q And you said until about 1980?
8 A Yes.
9 Q Where did you go in about 1980?
10 A 1980 I joined a company called Willis. I was there for
11 20 years. The last nine years was vice chairman of real estate
12 and construction for them.
13 Q And what did your work entail, generally speaking,
14 while you were at Willis?
15 A I was sort of a deal guy my whole life, so it became
16 more sophisticated sized deals, and worked on securing clients
17 and retaining clients.
18 Q This is still in the world of insurance?
19 A Yes, insurance, surety.
20 Q So after you left Willis, where did you land?
21 A At Lockton, where I am today. Been here since then.
22 Q What is Lockton?
23 A Lockton is the largest privately held insurance broker
24 in the world. We have offices throughout the world. Founded in
25 Kansas City by a family named Lockton. A great American story.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4719

1 Q You mentioned the word "broker", and I think most
2 understand what the term broker means. In your own words, what
3 does a broker does?
4 A It's an agent and/or broker. It's an intermediary
5 between insurance buyer and insurance seller.
6 Q What is your current position at Lockton?
7 A I'm a founding partner, member. A lot of titles, but I
8 continue to make deals for the company and on behalf of our
9 clients.
10 Q Could you estimate about how many clients Lockton has?
11 A Oh, my God. Four point something billion of revenue,
12 tens of thousands.
13 Q What, if any, exposure have you had at Lockton with
14 regard to surety bonds?
15 A At different times in my career I was the largest
16 individual broker in the country, and therefore the world, cause
17 surety is somewhat unique product to America, albeit it's around
18 the world now, but not like the US, which -- surety itself was
19 founded, um, something called the Miller Act in the '30s,
20 guaranteeing public funds going to third parties and making sure
21 the government was going to get the result from the construction
22 and/or performance -- any kind of contract, really.
23 Q Is that why you mentioned surety is a unique product in
24 America?
25 A Because people mix up surety with insurance. And it's

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4720

1 really not. Surety is a credit vehicle. It is not insurance.
2 It's a third-party guarantee in the banking world that would be
3 more like a letter of credit.
4 Q Okay.
5 A So people confuse the underwriting and they confuse the
6 way it's done, and I'm just -- that's why I distinguish it.
7 Q Can insurance companies occasionally be sureties?
8 A Yes. Over time individuals can be sureties to the
9 federal government, oddly, um, but it's kind of morphed to where
10 the insurance industry is really the predominant underwriter.
11 Q Do you have an idea or a sense for what percentage of
12 your practice is the surety practice?
13 A My personal practice?
14 Q Sure.
15 A My practice is rather large, so I would still be one of
16 the larger brokers.
17 Q Surety brokers?
18 A Yes.
19 Q What interactions do you have, generally, with surety
20 underwriters as a broker, surety broker?
21 A I would say we are rather unique, and why we have such
22 prowess is the fact that we understand the underwriting
23 standards. Surety, sureties, build their own models off of both
24 financial statements -- surety has three components of
25 underwriting. One is character, integrity, if you will. They

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4721

1 call it the three Cs; capability, or ability to perform whatever
 2 it is you are being asked to guaranty as a surety. And the
 3 thing that a lot of people spend a lot of time on, which, to me,
 4 isn't really the most important thing, but it's financial
 5 underwriting.
 6 Q If you could describe the relationship between a surety
 7 underwriter, a surety broker and the client, can you just
 8 explain the, really, the day-to-day and how the relationship
 9 gets formed?
 10 A Sure.
 11 Q And how that affects the ultimate product?
 12 A What we do somewhat is unique. There are only a few
 13 brokers going to this extent they usually rely on the carriers
 14 to underwrite, but we actually do the underwriting ourselves.
 15 We build our on models. We do our own analytics around all
 16 three Cs. We determine, based on who we are going to -- who the
 17 client is, where we think the philosophy of the client best fits
 18 the credit provider for the surety, and we try to marry the
 19 result of the analytics that we create.
 20 We have our own analytic forums. We have our own
 21 analytic views. We have our own results that are unique, we
 22 think, coming at it from more of a capital foundation
 23 standpoint. And so we use our own results to try to influence
 24 and guide the potential surety provider.
 25 Q How, if at all, do the analytics that you compile or

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4722

1 prepare ultimately affect or get shared with the surety
 2 underwriter?
 3 A Well, we -- many times we just show them our results
 4 versus where we know they are going to end up. And it differs
 5 tremendously from accounting GAAP, for example. So we are -- we
 6 know what each surety is going to focus on, and for the need
 7 that we are asking for, within a range.
 8 Q In terms of the sharing of financial information
 9 between you as the surety broker and the surety underwriter,
 10 would it be fair to say there is an open line of communication
 11 going back and forth between both of you?
 12 MR. AMER: Objection. Leading.
 13 THE COURT: Sustained.
 14 Q In terms of the communications that you have with the
 15 underwriter, the surety underwriter and you as a surety broker,
 16 how often do you share information, generally, with regard to
 17 the client's finances?
 18 A Each financial statement, those standards are generally
 19 established and are flexible between sureties as to the surety
 20 need and the reporting period. So if you are a big user of
 21 surety, you might be required to report quarterly. Some would
 22 be required semiannually, annually. It doesn't -- and then we
 23 would -- we would do all the analytics around the financial
 24 piece and/or any other piece that we need; capability, maybe.
 25 And we would -- we would not share anything with sureties before

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4723

1 we did all those analytics.
 2 Q And how long have you been in the surety business,
 3 generally?
 4 A Fifty years this year.
 5 Q Do you know Donald Trump?
 6 A Yes.
 7 Q How do you know him?
 8 A Golf.
 9 Q You met him on the golf course?
 10 A Yes, sir.
 11 Q Do you have a relationship with Donald Trump still?
 12 A Yes.
 13 Q Personal and professional?
 14 A Yes.
 15 Q As personally, what do you consider him?
 16 A Play golf with him occasionally; have lunch with him
 17 occasionally. Belong to a bunch his clubs, so.
 18 Q How about professionally?
 19 A So that was new. Um, not that I didn't want to have
 20 one earlier. There's always competitive pressures in
 21 relationships, so it took a while, somewhere around '17, '18,
 22 because of some things that occurred in D and O for him, I was
 23 asked to intervene, I did solve that. And then -- and '21,
 24 around February, March we were appointed broker and took over
 25 from another competitor.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4724

1 Q So are you currently The Trump Organization's broker
 2 for insurance?
 3 A Yes.
 4 Q How long have you known Donald Trump?
 5 A Late '90s.
 6 Q Could you describe what kind of insurance your company
 7 places or assists in getting placed for the The Trump
 8 Organization?
 9 A Sure. So we have placed all the property cover and all
 10 of the casualty cover, general liability, Workers' Compensation,
 11 automobile, umbrella liability, it's quite a large diverse
 12 amazing organization, so it requires a lot of effort. And we do
 13 all the engineering, we do all of the claims handling,
 14 monitoring, pay -- arranging carrier payments, and thankfully he
 15 doesn't have very many claims, so.
 16 (Continued on the next page.)
 17
 18
 19
 20
 21

 23
 24
 25

Giulietti - by Defendant - Direct (Fields) Page 4725

1 Q Have you also done any surety work for the Trump
2 Organization?
3 A Yes. We took that over at roughly the same time.
4 Q Is the property market or the property liability the
5 largest subset of a type of insurance that you assist in
6 getting placed for the Trump Organization?
7 A I am not sure I understand your question.
8 Q Sure. About how big is the property line of work --
9 of insurance?
10 A Meaning premium size?
11 Q Yes.
12 A Round numbers, 6 million.
13 MR. AMER: Can I get a clarification? Is that
14 casualty property.
15 A Just fire, wind, storm, direct damage to properties
16 and/or the business interruption aspect of that would be
17 considered property.
18 Q What size -- withdrawn.
19 When compared to your personal book or business,
20 where does the Trump Organization and President Trump's
21 business fall in terms of scale and size?
22 A Against my personal book?
23 Q Your personal book and business.
24 A Somewhere between 9th and 12th largest, probably
25 somewhere there.

Giulietti - by Defendant - Direct (Fields) Page 4726

1 Q And then do you have a sense for -- with regard to
2 the company's book of business where the Trump Organization
3 falls?
4 A No. I -- we have \$4 billion of revenue. It is a
5 reasonably sizable account, and generates income for us over a
6 million, roughly, plus or minus. And it wouldn't be small, but
7 it is not large. And it has very few claims because of the
8 quality of the products he puts out, and therefore it is quite
9 profitable from that regard.
10 Q All right. Are you being compensated for being here
11 today or for any opinions or testimony that you will give in
12 this case?
13 A No.
14 Q Not directly compensated by the defendants or by the
15 Trump Organization for your testimony, but your company
16 receives money to place insurance; is that fair?
17 A Yes. Properly said, this would be included in our
18 overall relationship year over year.
19 Q But has anybody in any way promised you more business
20 for anything you are doing here today?
21 A No.
22 Q Are you generally familiar with some of the
23 allegations in the Attorney General's complaint with regard to
24 surety?
25 A Generally.

Giulietti - by Defendant - Direct (Fields) Page 4727

1 Q And are you generally familiar with the surety bond
2 program that is described in the complaint with regard to
3 Zurich Insurance?
4 A Yes.
5 Q Have you had the opportunity to review documents,
6 Zurich documents, related to the surety program for the Trump
7 Organization?
8 A Yes.
9 Q And I won't ask you your opinions, I am just going to
10 ask you if you have formed opinions with regard to the surety
11 program that Zurich underwrote for the Trump Organization?
12 MR. AMER: Your Honor, if we are going to now
13 start down the road of eliciting opinions, can we
14 understand what his area of expertise for purposes of his
15 qualification is going to be?
16 THE COURT: Well, just speaking generally, if we
17 are going to have expert opinions someone has to be deemed
18 an expert. The witness has to be deemed an expert.
19 MR. FIELDS: That was my next question, Your
20 Honor. That was going to be my next question with regard
21 to insurance brokerage and underwriting. When I say
22 "insurance" I mean suretyship, brokerage and underwriting.
23 THE COURT: Why don't we start here on a clean
24 slate. Ask your question.
25 MR. FIELDS: Well, the question at this point

Giulietti - by Defendant - Direct (Fields) Page 4728

1 was not to provide what his opinion was, if he has formed
2 one, but has he formed an opinion with regard to the
3 surety underwriting program that Zurich underwrote for the
4 Trump Organization.
5 THE COURT: Doesn't he have to be deemed an
6 expert first before you ask him an expert opinion
7 question.
8 MR. FIELDS: That was my -- I was not going to
9 ask him what his opinion was until I say, Your Honor, I
10 tender the witness as an expert in surety underwriting and
11 brokerage. But we can do it however Your Honor would
12 like.
13 THE COURT: That's not a personal preference.
14 It is just how I think things work.
15 MR. FIELDS: Understood.
16 THE COURT: Okay.
17 MR. FIELDS: So I tender the witness as an
18 expert in surety underwriting and brokerage.
19 MR. AMER: I think brokerage is fine, Your
20 Honor. I think in terms of underwriting, this witness
21 hasn't indicated experience that would qualify him as an
22 insurance underwriter or asurety underwriter. He has
23 worked almost all of his entire career for a brokerage
24 firm.
25 MR. FIELDS: If the Court would like to ask him,

Giulietti - by Defendant - Direct (Fields) Page 4729

1 I am happy to ask about his.
2 THE COURT: I'll ask the witness to respond to
3 Mr. Amer's concerns. But speak right into the mic.
4 THE WITNESS: You are asking my expertise?
5 MR. AMER: No. I just said based on your work
6 experience, other than I think it was two years at the
7 very beginning of your career, you have been a broker,
8 not -- you haven't worked for an insurance company either
9 underwriting or handling claims, as far as I can tell.
10 THE WITNESS: So my answer would be that a lot
11 of the -- our compensation, is based on our results. And
12 carriers look to us and our reputation to stand with the
13 client and their reputations. I underwrite the financial
14 side of the clients along with our in-house underwriters,
15 long before we give it to the sureties. We know what they
16 want. I have probably done six, \$800 billion of
17 underwriting. There is very few people like me in the
18 country. I -- the Big Dig in Boston, the large projects
19 in New York City. I have underwrote all of those. I have
20 arranged the financial analysis. I have worked with the
21 banks of the clients, and prepared it for the surety to
22 have an easy time subscribing to their need. I don't
23 think there are four people in America that have my
24 qualifications to do what I do.
25 THE COURT: Well --

Giulietti - by Defendant - Voir Dire (Amer) Page 4730

1 MR. AMER: Can I have a couple of voir dire
2 questions?
3 THE COURT: Of course you can ask some
4 questions.
5 VOIR DIRE EXAMINATION
6 BY MR. AMER:
7 Q Lockton and Willis where you worked, those companies
8 are licensed to be brokers in New York by the Department of
9 Financial Services, correct?
10 A Correct.
11 Q They are not licensed to be insurance companies,
12 correct?
13 A That's true.
14 Q They don't have paper that they issue insurance
15 policies on, correct?
16 A That's not true.
17 Q Well, they are not licensed to issue paper in New
18 York; is that true?
19 A So Willis owns carriers and are licensed to place
20 business.
21 Q That wasn't my question. You worked for Willis, the
22 brokerage house, right?
23 A Yes, but I also had licensing with the carriers and
24 influenced the carriers.
25 Q And you are not a CPCU or certified property casualty

Giulietti - by Defendant - Voir Dire (Amer) Page 4731

1 underwriter, correct?
2 A No, I am not.
3 Q And you don't have any designation as an underwriter
4 in the insurance industry, correct?
5 A Well, I think the six or eight biggest CEOs of
6 insurers would disagree with you.
7 Q I don't think that was my question. My question
8 was --
9 A You are sort of insulting me. Aren't you?
10 Q No, I --
11 A I think so. Because there are very few people like
12 me in the industry.
13 MR. AMER: Your Honor, my objection to the
14 breadth of his qualification stands. This witness is not
15 an insurance underwriter and he hasn't spent his career
16 working for an insurance company.
17 THE WITNESS: Shouldn't I know the underwriting
18 criteria of each of the carriers I do business with and
19 try to influence that thought?
20 THE COURT: Let me --
21 MR. AMER: Your Honor, I ask you not to have the
22 witness comment --
23 THE COURT: I am sorry.
24 MR. AMER: -- when I am addressing the court.
25 THE COURT: It may not be a fair process, but

Giulietti - by Defendant - Voir Dire (Amer) Page 4732

1 the rule is you don't ask questions, you answer questions.
2 THE WITNESS: Sorry.
3 THE COURT: Mr. Robert?
4 MR. ROBERT: I'll hold off.
5 THE COURT: I don't understand something.
6 Witness, I won't try to mispronounce your name,
7 you said that you underwrite insurance. How can you
8 underwrite insurance if you are not an insurance company?
9 Aren't insurance companies the only companies that can
10 underwrite insurance?
11 THE WITNESS: Well, good brokers do the
12 underwriting as if they were carriers and present the case
13 after we have qualified the risk. In the world I live in,
14 you have to do that to have any reasonable result for your
15 client, so you need to know the process. Most every
16 technical person that works for us, or me directly on my
17 deal teams, have been with carriers. And we tee up the
18 result so it is easily acceptable to the carrier in a
19 manner that they can digest it and/or puts the client --
20 the potential client, in the best light. So we are doing
21 the underwriting, they end up taking the risk.
22 THE COURT: Well, there is another interesting
23 question of language.
24 I think I understand all of that. You sort of
25 put together the deal and say, hey, insurance company,

Giulietti - by Defendant - Voir Dire (Amer) Page 4733

1 this is what we think you should do; and they either
 2 accept it or they don't. That's your role as a broker.
 3 Did I get that right?
 4 THE WITNESS: Yes, sir. Sometimes, about
 5 30 percent of the times I would argue, maybe more, we are
 6 agents for the carrier and therefore are the carrier in
 7 those moments. So, in essence, when I am an agent for a
 8 carrier and some big ones like Chubb or Zurich or some
 9 others, we are actually acting as agent. And as agent, I
 10 could theoretically bind the property cover on a burning
 11 building. I don't, but I could.
 12 THE COURT: And Mr. Fields, I am sorry to ask
 13 you to repeat. What are the areas that you would like me
 14 to deem him an expert in?
 15 MR. FIELDS: Surety underwriting and surety
 16 brokerage.
 17 MR. AMER: So, insurance, as I am sure Your
 18 Honor understands, is one of the most heavily regulated
 19 industries in the country. The Department of Financial
 20 Services licenses companies to do specific things. They
 21 license brokers, they license insurance companies. And so
 22 I -- I don't think it is appropriate to qualify this
 23 witness as a surety underwriter if he is not -- if he
 24 doesn't have any work experience working for the companies
 25 that the Department of Financial Services authorizes and

Giulietti - by Defendant - Direct (Fields) Page 4735

1 THE COURT: Only through this case, he wouldn't
 2 want to insult anybody.
 3 Q What is a surety bond?
 4 A Very broad question. It could be a number of things.
 5 It could act as anything from a letter of credit guaranteeing
 6 a -- the performance of a contract.
 7 Q And generally are there three parties to a bond,
 8 surety bond?
 9 A Usually two.
 10 Q Well, who are the parties?
 11 A The parties are the obligee, obligor. So one would
 12 be the -- let's say you work for the State of New York, the DOT
 13 or something. The DOT would be -- would hold the risk -- the
 14 surety bond. And it would be provided by some contractor or
 15 depending on what type of work is being done.
 16 Q Are you familiar with the term, "guarantor"?
 17 A Yes.
 18 Q And what is a guarantor?
 19 A That would be who the at-risk capital and/or
 20 signatory to the bond.
 21 Q So is it somebody who guaranties the bond?
 22 A Yes. And the surety language for that would be an
 23 indemnitor.
 24 Q An indemnitor.
 25 In your experience are indemnitors companies

Giulietti - by Defendant - Direct (Fields) Page 4734

1 licenses and regulates with respect to underwriting. So I
 2 think the appropriate field is to qualify him as a surety
 3 broker, and if he wants to explain how, in that capacity,
 4 he puts together material that insurance companies then
 5 use, I don't have any problem with that. But we are
 6 talking about a very heavily regulated industry where
 7 specific licenses are issued and specific companies are
 8 regulated for what they do.
 9 THE COURT: I don't think you need a license to
 10 be an expert. I hereby deem him an expert in surety
 11 underwriting and surety brokering.
 12 Is that what you asked?
 13 MR. FIELDS: Yes, Your Honor. Thank you.
 14 THE COURT: All right. I have deemed you an
 15 expert in both of those fields. So you don't have to be
 16 insulted.
 17 THE WITNESS: Thank you.
 18 CONTINUED DIRECT EXAMINATION
 19 BY MR. FIELDS:
 20 Q What is a surety?
 21 MR. AMER: Again, I really wasn't trying to
 22 insult the witness, to make it clear.
 23 THE WITNESS: It is okay.
 24 THE COURT: I have known him for a long time.
 25 THE WITNESS: After 50 years, you know.

Giulietti - by Defendant - Direct (Fields) Page 4736

1 individuals or both?
 2 A Both.
 3 Q More frequent for them to be individuals or
 4 companies?
 5 A Depends on the type of business. So since we are
 6 focused on real estate, a real estate generally is somewhat
 7 arm's length. I would say generally you don't have too many
 8 personal signatures at all, just some corporate level entity.
 9 Q All right. Are you familiar with some of the,
 10 generally, the bonds that Zurich underwrote for the Trump
 11 Organization?
 12 A Sure.
 13 Q So just generally speaking, who is the surety for --
 14 in these transactions?
 15 A Well, in that case Zurich would be the surety.
 16 Q And who is the principal?
 17 A The guarantor was Trump.
 18 Q Okay. But the guarantor/indemnitor was Trump, was
 19 there a principal, as in one of the entities, that obtained the
 20 bond Trump Organization entity?
 21 A Sure. But as I recall the overriding relationship
 22 was quite unusual for someone this size. He guaranteed it
 23 personally, which I find quite amazing.
 24 Q Why do you say it was unusual?
 25 A It is unusual. It just doesn't happen that much.

Giulietti - by Defendant - Direct (Fields) Page 4737

1 Q What doesn't happen that much?
 2 A Personal signatures on a real estate firm with lots
 3 of entities. People would prefer to have the guaranties be the
 4 buildings or entities themselves, to limit liability to the
 5 individual.
 6 Q So is it your understanding that Donald Trump
 7 personally guaranteed the surety bonds that Zurich underwrote?
 8 A I saw some of the indemnity agreements and the
 9 information you shared with me, and yes, he underwrote it
 10 personally in many cases. I don't know -- I don't recall all
 11 years. I don't think I saw the indemnity for all years.
 12 Q Generally speaking, what is the process like from
 13 beginning to end of the underwriting a surety bond?
 14 A There is too many, could you more specific?
 15 Q Sure. So when a client comes to you and says, I need
 16 a surety bond, what is the first thing you are going to do?
 17 MR. AMER: I am going to object on foundation
 18 grounds. He said there are too many to comment on. So I
 19 am not really sure what he is asking.
 20 THE COURT: Overruled. If the witness can
 21 answer, he can answer.
 22 THE WITNESS: I am sorry?
 23 THE COURT: I said, if you can answer the
 24 question I'll allow you to answer it.
 25 A I think in this case you would like to focus on real

Giulietti - by Defendant - Direct (Fields) Page 4738

1 estate?
 2 Q Sure.
 3 A Because there is all kinds of industries. And there
 4 is all kinds of, therefore, guarantees and relationships. In
 5 real estate you would be -- real estate underwriting you would
 6 have to get by, does the man have character and integrity. You
 7 would have to get by, capability, can he build and develop
 8 and/or manage property. And then finally, you would look at
 9 the financial analysis. And the financial analysis you would
 10 look at operating results and liquidity over anything.
 11 Q Do surety underwriters generally require some sort of
 12 financial information before underwriting a bond?
 13 A Yes.
 14 Q And in what forms is that financial information
 15 generally provided?
 16 A Generally financial presentation by their accounting
 17 firm.
 18 Q And are you familiar with the accounting standards of
 19 review?
 20 A Sure. So, any significant surety would require a
 21 full audit, and an exception to that would be an accommodation.
 22 Q In this case do you know, from your review of the
 23 documents, whether the Trump Organization provided audited
 24 financial statements to Zurich Insurance?
 25 A I did not see audited financial statements anywhere.

Giulietti - by Defendant - Direct (Fields) Page 4739

1 Q What did you see?
 2 A Compilation.
 3 Q And in your experience, is it usual or unusual for
 4 the surety underwriter to rely on compilation financial
 5 statements?
 6 A Any surety, including Zurich, would give no credence
 7 to compilation.
 8 MR. AMER: I am going to object, Your Honor, and
 9 move to strike as to what Zurich did or didn't do.
 10 MR. FIELDS: Well, he is an expert and we can
 11 ask how he knows that.
 12 MR. AMER: He can't know specifically what
 13 Zurich did or didn't do. He can speak generally.
 14 MR. FIELDS: I think that's what the comment was
 15 intended.
 16 MR. AMER: He said, and I am quoting: "Any
 17 surety, including Zurich, would give no credence to
 18 compilation." I don't know how he has the ability to
 19 opine on what was in Zurich's mind.
 20 MR. FIELDS: I think --
 21 THE COURT: Overruled.
 22 I think he answered the question, right?
 23 MR. AMER: I don't think so. I don't think he
 24 did.
 25 THE COURT: I think he did.

Giulietti - by Defendant - Direct (Fields) Page 4740

1 Q Do you understand what the term "liquidity" means,
 2 Mr. Giuliette?
 3 A Yes.
 4 Q How does liquidity factor into the surety
 5 underwriting business?
 6 A Heavily. The standards in surety are different than
 7 GAAP. So, you have working capital analytics. You have two
 8 determinations on the balance sheet: You have the balance
 9 sheet equity; and the balance sheet liquidity. Liquidity as
 10 defined by an accounting firm would be working capital, current
 11 assets minus current liabilities. Sureties don't look at that.
 12 Sureties, it is a starting point. And so what sureties do is
 13 they look at liquidity available in 12 months to cover any and
 14 all obligations that might be outstanding to the sureties. And
 15 so working capital differs from GAAP by a number of standards.
 16 And without boring the Court I'll give one example of
 17 what that standard could be. Life insurance cash value, which
 18 everyone I think here probably understands, would be something
 19 available to an insured, life insurance, in a short period of
 20 time, week, ten days at the most. And therefore it is carried
 21 below the line in GAAP, but it is as a long-term asset. But in
 22 surety underwriting they move it above the line and make it
 23 part of working capital.
 24 And then there is the reverse. There is a reverse in
 25 that bank debt could be carried above and below the line,

Giulietti - by Defendant - Direct (Fields) Page 4741

1 without getting too complicated around that issue. It
2 exchanges the liquidity tremendously.
3 Q Does overall net worth factor into the surety
4 underwriting process?
5 A Sure. You would want to have balance sheet equity
6 that is adequate enough to carry the operating company's risks,
7 including debt, and debt vehicles.
8 Q How about asset structure?
9 A Well, specific to real estate, surety wouldn't spend
10 a lot of time on assets at all, because they do not generate
11 liquidity. In this particular instance the outstanding surety
12 plus or minus 14, 15 million most of the time in that period of
13 time. So there is very little requirement liquidity-wise even
14 for that. Right?
15 So but you would have to look at any negative
16 potential draws. An extreme example would be a real estate
17 company that is in financial trouble. And what is the
18 outstanding debt obligation over a 12 to 24-month period
19 because of that trouble. And just because you have cash
20 doesn't mean you have liquidity. You could owe on a payable in
21 the next six to 12 months way more money than you have on a
22 cash basis at that moment in time.
23 Q And I should have mentioned something earlier. I
24 haven't asked for any opinions yet, but to the extent you do
25 give any opinions today, Mr. Giuliette, I ask you give them to

Giulietti - by Defendant - Direct (Fields) Page 4742

1 a reasonable degree of professional certainty. Okay?
2 A Yes, sir.
3 Q How does the leverage on assets for a real estate
4 company factor into the surety underwriting process?
5 A Well let's leave Zurich off the table for a minute.
6 But the entire industry struggles with debt. It is not good at
7 understanding debt. It is not -- it struggles to understand
8 real estate and debt. So they tend to ignore that and
9 completely focus on liquidity.
10 Q Is there, generally, some form of an analysis or a
11 financial profile ratio that an underwriter comes up with
12 before underwriting a surety bond?
13 A Sure.
14 MR. AMER: Objection, leading.
15 THE COURT: I'll call it foundational.
16 Overruled.
17 A So a conservative deal would be that you could get
18 \$10 of surety credit for every dollar of liquidity. That's a
19 conservative deal. There are some that are much more 30, 40,
20 50 times that. But a real estate deal like this probably one
21 in ten.
22 Q But generally speaking, what metrics or what
23 financial analysis does the surety do before agreeing to
24 underwrite the bond?
25 A If it was doing the complete financial analysis you

Giulietti - by Defendant - Direct (Fields) Page 4743

1 want all of the operating company's statements; you want to
2 analyze all of the operating company's statements; you want to
3 confirm what debts are going to be owed over the next 12 to 24
4 months; what income you anticipate; what is the projections of
5 profitability; debt-to-worth ratios; debt-to-debt covenant
6 ratios. All of the -- and the financial footnotes around that
7 so you can make a determination as to what is at risk versus
8 what is coming into the door, liquidity wise.
9 Q And in your experience, when a surety underwriter
10 underwrites a bond, do they generally go through those ratios
11 that you just described?
12 A If, yeah, 100 percent of the time we -- sorry.
13 Q Are you familiar with the term an accommodation?
14 A Yes.
15 Q What does that mean?
16 A It means either for the client or the broker an
17 insurer, surety company, will make an accommodation, grant
18 something that is outside of the ordinary.
19 Q And what is the purpose of the accommodation
20 generally?
21 A Provide a product with minimal, no underwriting.
22 Q Is there hopefully a benefit to the surety for
23 providing an accommodation, in the general sense?
24 A Yes, or a relationship, or the broker -- many
25 reasons.

Giulietti - by Defendant - Direct (Fields) Page 4744

1 Q Business development?
2 A Business, all commercial benefits.
3 Q How common is an accommodation in the surety bond
4 industry?
5 A Rare.
6 Q How does the -- withdrawn.
7 How does an accommodation tend to affect the
8 underwriting process?
9 A Well, it would mean that it would be minimal, at
10 best. I mean, you are accommodating somebody's need.
11 Q I am going to use a loose term, but would an
12 accommodation be akin to, like, a favor in a way?
13 MR. AMER: Leading, Your Honor.
14 A An accommodation is a favor.
15 THE COURT: Overruled.
16 Was there an answer?
17 MR. FIELDS: Yes, there was.
18 THE COURT: The answer was yes?
19 MR. FIELDS: The answer was: An accommodation
20 is a favor.
21 THE COURT: Okay.
22 MR. AMER: He adopted the question.
23 THE COURT: Which I know is why we don't like
24 leading questions, but, come on.
25 MR. AMER: I think we are beyond background,

Giulietti - by Defendant - Direct (Fields) Page 4745

1 Your Honor, but I understand. That's fine.
2 MR. FIELDS: All right.
3 Q Do you have a sense for when the surety business
4 between the Trump Organization and Zurich Insurance began?
5 A Yeah. I think it was '11-- it might have been before
6 the historical record I reviewed according to some of the
7 management at Zurich. I believe it began in the '05, '06, '07,
8 '08, '09 era.
9 Q Prior to that, did Zurich Insurance write any
10 insurance for the Trump Organization?
11 A My understanding is, yes.
12 Q At some point did the Zurich insurance program cease
13 and a surety program continue with the Trump Organization?
14 A Yes.
15 Q And I think you said that was approximately 2011?
16 A No, I think that was a little later maybe '14, '15?
17 I could be wrong.
18 Q We will put some documents up.
19 And did -- was there an indemnity agreement with
20 Zurich Insurance where somebody indemnified bonds?
21 A It was always an indemnity agreement.
22 Q Who was the indemnitor?
23 A Donald Trump.
24 Q Did you have an opportunity to review the indemnity
25 agreement?

Giulietti - by Defendant - Direct (Fields) Page 4746

1 A Yes.
2 Q And is it common for indemnity agreements to require
3 some sort of financial disclosure from the indemnitor?
4 A The indemnity agreement itself does not generally.
5 Sometimes rarely does it specifically say that you had to do
6 certain things because of the program and the size of the
7 program, but generally, no.
8 Q And in this case did the indemnity agreement require
9 financial disclosure of President Trump to Zurich?
10 A The indemnity agreement did not.
11 (The following proceedings were stenographically
12 recorded by Senior Court Reporter Michael Ranita.)

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4747

1 Q Is it customary in the industry for sureties to want to
2 review financial information in the underwriting process?
3 A If he wants bonds, yes.
4 Q All right. Mr. Giulietti, I'm going to just ask you
5 for your ultimate opinion, and then we'll walk through some
6 documents to help explain to the court what your opinion is.
7 But as it relates to the relationship between Zurich
8 and The Trump Organization, do you have an opinion as to why
9 Zurich was engaged in doing underwriting surety bonds for Trump?
10 A Yes.
11 Q What is that opinion?
12 A They were accommodating -- going backwards, not
13 currently. Currently we are the broker, and we place bonds for
14 Zurich, for Trump.
15 In the past, it seems they were just accommodating the
16 broker and/or Trump. No way to know for sure who.
17 MR. FIELDS: Okay. Can we pull up defense 43.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Mr. Giulietti, I'm going to show you a series of
21 documents, I believe you reviewed some of these as part of your
22 expert report that you wrote; is that fair?
23 A That's fair.
24 (The witness was handed the exhibit.)
25 Q All right. Do you recognize Defense 43 that's in front

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4748

1 of you on the screen or in your hand?
2 A Yes.
3 Q What is does this appear to be?
4 MR. AMER: Your Honor, hang on a second. I'm going
5 to object to any testimony about underwriting that took
6 place before the 2019 renewal.
7 Our insurance fraud claim is based on the renewal
8 in 2019 and in 2020 by Claude yeah Mouradian, so I don't
9 understand the relevance of reviewing the underwriting of
10 this risk by a different underwriter, Ms. Caulfield, in
11 earlier years. It's got nothing to do with our insurance
12 claim.
13 MR. FIELDS: Your Honor, it's important for the
14 Court to understand how this all came about and why Zurich
15 Insurance was ultimately writing these bonds. So that's the
16 whole purpose, is to provide a brief foundation for the
17 Court to just understand where this all came from.
18 MR. AMER: We are going back to 2009.
19 MR. FIELDS: Frankly, we went back to 2009 with
20 other lending documents, too, and I'm not understanding why
21 we are now limiting ourselves to a moment in time.
22 THE COURT: Overruled. But I hope we could move
23 through this fast, because we have a lot of years to cover.
24 MR. FIELDS: Certainly. I don't intend to go year
25 by year, your Honor, absolutely not.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4749

1 Q So Mr. Giulietti, do you recognize what this is?
2 A Yes.
3 Q What is this?
4 A Underwriting review standard for Zurich.
5 Q This is for 2009?
6 A Yes, sir, it's what it says.
7 Q And what's -- did anything strike you as interesting
8 when you first looked at this document?
9 MR. AMER: Objection. Relevance.
10 THE COURT: Overruled.
11 A Well, they did know financial analysis. And as I
12 recall, in all years the result was the same, so everything I
13 discussed around liquidity is missing. There's no testing of
14 the balance sheet or the P and L against the risk. So you
15 should have -- under net worth it should give you the tangible
16 net worth as stated. Even in a compilation they are going to
17 have tangible net worth. No revenue, no profit, no debt. Net
18 quick would be the working capital analytics around what the
19 surety companies would think.
20 Gross profit at each of operating companies, none of
21 that is on any page of any information I ever saw. And I can --
22 Zurich never does this, hardly. This is purely an accommodation
23 for whatever reasons they chose to do it.
24 MR. AMER: I will object and move to strike that
25 Zurich never does this. I don't know how this witness can

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4750

1 say that.
2 A Okay. That's correct. I'm sorry.
3 THE COURT: Okay. Sustained by the witness.
4 A That's too general. I get it.
5 Q Do you still assist in underwriting surety bonds for
6 Zurich?
7 A For Trump? Yes.
8 Q Or any client.
9 A We just recently issued seven bonds for Trump through
10 Zurich.
11 Q Zurich Insurance just wrote seven bonds for The Trump
12 Organization?
13 A Yes.
14 Q When was that?
15 A August.
16 Q Of what year?
17 A This year.
18 Q Do you understand from the Attorney General's complaint
19 that they allege that The Trump Organization defrauded Zurich
20 Insurance, generally?
21 A I -- not really.
22 Q Fair enough.
23 MR. FIELDS: All right. If we could then move to
24 Defense 44. This is 2010.
25 (Whereupon, the exhibit was displayed on the

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4751

1 screen.)
2 Q Is the financial review and summary section, does it
3 look similar to the 2009 one?
4 A It's identical, really. I mean, I didn't read all the
5 comments on the last one, so, I'm sorry, I didn't -- there's
6 more comments here.
7 Q Does it appear to you that Zurich did any financial
8 analysis in 2010 in this financial review and summary section?
9 MR. AMER: Just note my continuing objection on
10 relevance grounds, your Honor.
11 THE COURT: Duly noted. By the way, how much
12 longer on your direct?
13 MR. FIELDS: I could probably do it in another
14 15 minutes.
15 THE COURT: How much cross do we think there will
16 be, if any?
17 MR. AMER: I would think I would -- at this point I
18 think I could probably come close to 1:00.
19 THE COURT: Let's move fast on both sides and we'll
20 see if we could.
21 THE WITNESS: Thank you, your Honor.
22 THE COURT: You mean, you don't want to come back
23 Monday?
24 MR. FIELDS: All right. If we could then zoom back
25 out here.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4752

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 MR. FIELDS: Under the personal financial analysis
4 section.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q The third bullet point, or, I'm sorry, the second
8 bullet point, did you understand that in approximately May of
9 2011, whoever the underwriter was on this account did an on site
10 review of personal financial statements for Trump Organization
11 or for Donald Trump?
12 A That's certainly what she said, yes.
13 Q And below that it notes that the financial statements
14 were in compilation presentation?
15 A Yes.
16 MR. FIELDS: If we could go to page two, please.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 MR. FIELDS: Under the reference heading at the
20 bottom.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q The rate here is \$20 per thousand. Do you see that?
24 A Yes.
25 Q Annual premium, \$14,000?

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4753

1 A Yes.

2 Q What is -- can you just briefly explain what the rate
3 is?

4 A So it's just basically what it says. It charges -- the
5 surety is charging \$20 for every thousand of risk.

6 Q Is that rate standard in the industry, or not standard?

7 A It's a little high.

8 MR. FIELDS: All right. And then the last page,
9 page four?

10 (Whereupon, the exhibit was displayed on the
11 screen.)

12 Q At this moment in time, do you see under "SDA history",
13 there's bond limits?

14 A Yes.

15 Q And the single bond limit is 500,000. The program
16 limit is 2 million?

17 A That's what it says. Yes, sir.

18 Q Generally speaking, what are those limits? What do
19 they represent?

20 A So Zurich is saying in that -- is that they will
21 consider bonds up to 500,000, a total amount of bonds up to 2
22 million, all bonds. Outstanding liability. It's all bonds.

23 MR. FIELDS: Defense 45, please.

24 (Whereupon, the exhibit was displayed on the
25 screen.)

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4754

1 MR. FIELDS: Under the personal financial analysis
2 section.
3 (The exhibit was handed to the witness.)

4 MR. FIELDS: The last bullet point.
5 (Whereupon, the exhibit was displayed on the
6 screen.)

7 A According to Forbes?

8 Q Yes. Do you see that it says "According to Forbes,
9 Donald J. Trump's personal net worth is estimated a 3.2 billion.
10 He is number 128 on the Forbes 400 list of wealthiest
11 individuals."
12 Do you see that?

13 A Yes.

14 Q In your experience, have you encountered underwriters
15 that rely on media publications to support underwriting
16 decisions?

17 A This is the first one I ever saw.

18 MR. FIELDS: If we could zoom back out in -- under
19 the surety program heading, the last two bullets.
20 (Whereupon, the exhibit was displayed on the
21 screen.)

22 A The same document?

23 Q It will be on the screen here for you if it's easier.

24 A Okay.

25 Q The last sentence beginning with "Also" in the second

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4755

1 to last bullet point. "Also, the accountants failure to provide
2 updated underwriting information prohibits us from taking on any
3 new liability."
4 Do you see that?

5 A Yes.

6 Q Below that it says, "Bonds already written may continue
7 to renew as an accommodation to Aon New York?"

8 A Yes.

9 Q Does that term "accommodation", is it your
10 understanding that's the same term you've been using here today,
11 an accommodation?

12 A Yes.

13 MR. FIELDS: And on the last page, page four.
14 (Whereupon, the exhibit was displayed on the
15 screen.)

16 Q Does it appear that at this moment in time the program
17 limit aggregate is \$1 million?

18 A Yes.

19 MR. FIELDS: If we could pull up Defense 48.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 (The exhibit was handed to the witness.)

23 THE WITNESS: Thank you.

24 Q Under the personal financial analysis section, the
25 third bullet beginning with the "Press release", do you see that

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4756

1 it references USA Today?

2 A Yes.

3 Q And it goes on to describe detailed reports regarding
4 ownership positions. Again, is this citation to a media
5 publication consistent or inconsistent, in your experience, for
6 surety underwriting?

7 A Inconsistent.

8 Q If we could just -- the second bullet right above it.
9 Do you see where it says, "When Zurich lost the insurance
10 program in May of 2011, I performed an on-site review of Trump's
11 personal financial statements. This option was represented as
12 an option in June of this year due to the increased bond needs,
13 but has yet to be scheduled."
14 Do you see that?

15 A Yes.

16 MR. FIELDS: If we could flip to page four.
17 (Whereupon, the exhibit was displayed on the
18 screen.)

19 Q Do you see at the bottom that the aggregate program
20 limit is now \$3 million?

21 A Yes.

22 Q Did it appear to you that the program was expanding,
23 meaning that Zurich was writing more bonds without reviewing
24 updated financial information?

25 A It's what it seems.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4757

1 MR. FIELDS: All right. If we could pull up
2 Defense 51. And I'm just going to ask one question from one
3 page, so I'm happy to --
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 (The witness was handed the exhibit.)
7 THE WITNESS: Thank you.
8 MR. FIELDS: If we could go to page two at the
9 bottom under rates, 5/23/2016.
10 Q Do you see there is an indication that the rate charged
11 is \$10 per thousand?
12 A Yes.
13 Q So does it appear to you, now, that in 2015, Zurich has
14 decreased the rate?
15 A Yes.
16 Q Why do sureties decrease the rates they charge?
17 A Generally, commercial pressure.
18 Q What do you mean by that?
19 A Client wants a lower rate.
20 Q Could it also be another surety is trying to take the
21 business?
22 A Well, that time I was trying to get the business.
23 MR. FIELDS: All right. If we could then go to
24 page four.
25 (Whereupon, the exhibit was displayed on the

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4758

1 screen.)
2 Q Under SDA history, and the bullet right above it, if
3 you don't mind, 8/8/2016, Joanne Caulfield. As of -- it states
4 on this document, as of August 8th of 2016, does it appear that,
5 now, the program has increased to \$10 million?
6 A Yes.
7 Q Is it your understanding that as of this time, Zurich
8 had not reviewed updated financials for Donald Trump or The
9 Trump Organization?
10 A It appears for a couple of years, yes, that's true.
11 THE COURT: Mr. Amer, how long will you need?
12 MR. AMER: I would hope 20 minutes I could get
13 through my cross.
14 THE COURT: Can we finish in five on this?
15 MR. FIELDS: Yes, your Honor.
16 THE COURT: Perfect.
17 MR. FIELDS: May I have a moment to confer with
18 Mr. Robert?
19 THE COURT: Say it again.
20 MR. FIELDS: May I have a moment to confer with
21 Mr. Robert?
22 THE COURT: Sure, but that's part of your five
23 minutes.
24 MR. FIELDS: Certainly.
25 MR. ROBERT: I think it will be less than five.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4759

1 MR. FIELDS: Nothing further, your Honor. Thank
2 you.
3 THE COURT: Great. You get an extra two and a half
4 minutes, Mr. Amer.
5 MR. ROBERT: We didn't agree to that.
6 THE WITNESS: By the way, I would like to apologize
7 to the Counsel. It's not my style. Fifty years shows up
8 once in a while, you know.
9 MR. AMER: No worries. I appreciate it.
10 CROSS EXAMINATION
11 BY MR. AMER:
12 MR. AMER: Can we put up Plaintiff's Exhibit 1985.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q Mr. Giulietti, this document is a roster showing the
16 people who lead The Trump Organization service team at Lockton
17 Northeast; correct?
18 A Correct.
19 Q And this document was prepared by Lockton; correct?
20 A I believe so, yes.
21 MR. AMER: Your Honor, I move to admit this
22 document.
23 THE COURT: Granted. It's in.
24 (Plaintiff's Exhibit 1985 was admitted in
25 evidence.)

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4760

1 Q And the service team at Lockton for The Trump
2 Organization Worldwide consists of about 100 people; is that
3 right?
4 A Yes, plus or minus.
5 Q And you are one of the two account directors for the
6 Trump Organization account, along with your son, David
7 Giulietti; right?
8 A Correct.
9 Q And in that role, you could lead the account with your
10 son; correct?
11 A Yes.
12 Q And you are the person with the primary responsibility
13 for Lockton's business relationship with The Trump Organization;
14 correct?
15 A Yes.
16 Q And as a partner in Lockton, you have an equity share
17 in the business; right?
18 A Correct.
19 Q And your compensation, based on your equity share in
20 the company, is directly proportional to the properties earned
21 by the company; right?
22 A Correct.
23 Q And in addition to your equity share, you also receive
24 a percentage of the business that you do based on the clients
25 you are responsible for; correct?

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4761

1 A Largely.
2 Q And one of the clients you are responsible for is the
3 Trump Organization; right?
4 A Correct.
5 Q And Lockton is currently the broker of record for The
6 Trump Organization for all property and casualty lines of
7 insurance worldwide, which encompasses quite a large number of
8 policies; right?
9 A Absolutely, yes.
10 Q And when Lockton places an insurance policy for The
11 Trump Organization as broker of record, Lockton earns a
12 commission that is between 10 to 20 percent of the net premium
13 due on the policy; is that right?
14 A Less, but largely. Ten to 15 percent would be fair.
15 Q For 2022, Lockton earned approximately 1.2 million in
16 commissions on The Trump Organization account; right?
17 A Roughly, yeah.
18 Q And just to confirm what I think you testified to on
19 direct, you are not submitting any invoice for your time spent
20 as an expert witness in this case; correct?
21 A Correct.
22 Q And that's because you consider your service as an
23 expert witness in this case to be included in the business
24 relationship that you and Lockton have with The Trump
25 Organization; correct?

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4762

1 A True.
2 Q And it's not wrong to say that your work as an expert
3 witness is wrapped up in the compensation that Lockton receives
4 from The Trump Organization through its business relationship;
5 correct?
6 A I think -- yes.
7 Q You are aware that Joanne Caulfield was the Zurich
8 underwriter who handled the account from at least 2011 through
9 2017 when she left Zurich; right?
10 A That's what the documents say.
11 Q And all of the underwriting reviews that you were shown
12 on your direct predate 2017 when Claudia Markarian, now known as
13 Claudia Mouradian, took over the account; right?
14 A My understanding, yes.
15 Q So you are aware that Ms. Mouradian was the underwriter
16 on the account from mid 2017 until about 2020; right?
17 A Yes.
18 Q And I'll represent to you that Ms. Caulfield was
19 interviewed by our office in 2021 and gave answers under oath,
20 and then she was deposed in the case in April 2023.
21 I'm correct that you did not receive or review any of
22 her sworn testimony from either the 2021 interview or the 2023
23 deposition in forming your opinions in this case; correct?
24 A At the time of the deposition, that's true. I since
25 have read it.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4763

1 Q But in terms of when you formed your opinions in this
2 case for purposes of the report that you submitted, you had not
3 reviewed any of her testimony?
4 A That's correct.
5 Q Okay.
6 And so you gave no consideration to Ms. Caulfield's
7 sworn testimony when you formed your opinions for the report in
8 this case; correct?
9 A Yes.
10 Q And I'll represent to you that Ms. Mouradian was
11 interviewed by our office in 2021, under oath, and was also
12 deposed in this case in June of 2023.
13 And I'm correct that you did not receive or review any
14 of her sworn testimony from either the 2021 interview or the
15 2023 deposition in connection with forming your opinions in this
16 case that are in your report; right?
17 A Correct.
18 Q And are you aware that Ms. Mouradian, Ms. Caulfield
19 reported to a woman named Chandar Potter while at Zurich?
20 A Sure. I do business with her.
21 Q And I'll represent to you that Ms. Potter was deposed
22 in this action in May of 2023. I'm correct you did not receive
23 or review her deposition testimony in forming your opinions in
24 this case?
25 A I have never seen that one.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4764

1 Q So you gave no consideration to Ms. Potter's sworn
2 testimony in forming your opinions; correct?
3 A Correct.
4 Q And it's your view that the sworn testimony of
5 Ms. Caulfield, Ms. Mouradian and Ms. Potter is not relevant to
6 your assessment of how Zurich underwrote The Trump Organization
7 surety program; right?
8 A I'm sorry, I didn't understand or I didn't hear, maybe.
9 Q Sure. It's your view that the sworn testimony of
10 Ms. Caulfield, Ms. Mouradian and Ms. Potter is not relevant to
11 your assessment of how Zurich underwrote The Trump Organization
12 surety program; right?
13 A Prior to my expert report and my expert report, that
14 would be true. Now I've read Ms. Caulfield's and I have a
15 different opinion, but okay.
16 MR. AMER: Well, let's go ahead and put up your
17 deposition testimony at page 89, line 25, to page 94.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Where I say in there sworn testimony is a reference to
21 those three individuals. The question was:
22 "QUESTION: And their sworn testimony, in your
23 view, would not have been relevant to your assessment?
24 "ANSWER: Correct."
25 So at the time of your deposition --

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4765

1 A Yes, sir.
2 Q -- your view was --
3 A I'm sorry, I --
4 Q -- it's not relevant to your assessment?
5 A I agree. I agree.
6 Q Okay.
7 To the extent that Ms. Caulfield described what her
8 thought process was in reviewing the financial information she
9 was provided with by The Trump Organization during her interview
10 and deposition, that's not something that you took into account
11 in preparing your expert report; correct?
12 A Correct.
13 Q And to the extent Ms. Mouradian described in her
14 interview and deposition her thought process during the
15 underwriting, that's not anything you read or took into account
16 in preparing your report; correct?
17 A Correct.
18 MR. AMER: Let's put up Exhibit 773, which is in
19 evidence.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q This is the 2018 Statement of Financial Condition. You
23 reviewed and relied on this document in forming your opinions;
24 correct?
25 A I looked at all those years, yes.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4766

1 Q And is it -- am I correct that it's your opinion that
2 at no point during the surety program did Zurich do any real
3 financial analysis, but rather this was all based on, to use
4 your phrase at the deposition, "air balls and witchcraft"?
5 A Yeah, true.
6 Q As part of the financial analysis, it's your view that
7 Zurich could have requested appraisals be done on every
8 property; is that right?
9 A They could've asked for whatever they'd like to write
10 the program. Sure, anybody could.
11 Q Including appraisals on every property?
12 A Yeah, if they want, of course.
13 Q And as part of a financial analysis, it's your view
14 that Zurich could've insisted the type of tests that an auditor
15 would conduct on a financial statement; is that right?
16 A Could you repeat that.
17 Q Sure. As part of a financial analysis, it's your view
18 that Zurich could have insisted on performing the type of tests
19 that an auditor would conduct on a financial statement?
20 A Yes.
21 Q Now, you understand that the Trump Organization is a
22 privately held company that has no obligation to publicly file
23 financial disclosures; right?
24 A Correct.
25 Q In terms of Zurich's -- in terms of the Zurich's

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4767

1 underwriter's ability to confirm that the property valuations in
2 the statements -- let me withdraw that. I'll start again.
3 In terms of Zurich's ability to confirm the property
4 valuations in the statements on their own, other than asking The
5 Trump Organization to provide additional information, the Zurich
6 underwriter would have no access to any publicly available
7 sources that are reliable that would have enabled Zurich to do
8 that; correct?
9 A They could've. They had to choose to.
10 MR. AMER: Let's look at your deposition testimony
11 on page 128, line six, if we could.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q "QUESTION: In terms of Zurich's ability to confirm
15 these property valuations on their own, other than asking The
16 Trump Organization to provide additional information, including
17 possibly appraisals" --
18 A Did you say "additional information" before when you
19 asked my question -- prior question.
20 Q I did.
21 A Well, then, I amend my answer, yes. They could ask for
22 additional information.
23 Q But that's not the whole question.
24 A Okay.
25 Q So let me read the question.

G. Giulietti - by Defense - Direct (Mr. Fields) Page 4768

1 THE COURT: Let him read the whole question.
2 Q "QUESTION: In terms of Zurich's ability to confirm
3 these property valuations on their own, other than asking The
4 Trump Organization to provide additional information, including
5 possibly appraisals, Zurich would have no access to any publicly
6 available sources that are reliable that would enable them to do
7 it; correct?"
8 Your answer, "I agree with that."
9 So you stand by that testimony; correct?
10 A Yeah. They should have asked if they wanted it.
11 Q And you are agreeing that there's no publicly available
12 information beyond what they might get through nonpublic
13 sources, which is Trump Organization?
14 A Well, it's a private company, right, so there's no
15 public sources.
16 Q You know, we discussed that in your opinion you agreed
17 that Zurich's underwriting account was based on "air balls and
18 witchcraft." Again that's your terminology.
19 I'm just asking --
20 A They did seven bonds for me with nothing. I mean, it's
21 just consistently nothing.
22 Q Well, I'm not asking about what they are doing now.
23 I'm just asking about your opinion of what they did in the past.
24 A Well, I think what they do -- isn't what they do today
25 consistent with what they did in the past? Isn't that germane?

Page 4769

1 MR. AMER: Your Honor, can I be allowed to ask the
2 questions.
3 THE COURT: Witness, I appreciate the possible
4 frustrations.
5 THE WITNESS: Sorry.
6 THE COURT: But if you don't want to come back
7 Monday.
8 THE WITNESS: Sorry.
9 THE COURT: Go ahead and ask the question,
10 Mr. Amer.
11 (Continued on the next page.)

1 "Zurich made a competent business decision to
2 underwrite the Trump Organization's business as an exception to
3 their normal guidelines based on reasonable risk factors, such
4 as the sufficient -- such as the sufficient liquidity of the
5 Trump Organization to indemnify Zurich should a loss take
6 place."
7 Do you agree or disagree with that opinion, sir?
8 A Hm, um, I -- I -- I don't know anything about
9 Mr. Miller. I don't know if he has ever placed --
10 Q I didn't ask you --
11 THE COURT: You don't need to know about
12 Mr. Miller.
13 Q Do you agree with this opinion?
14 A No, I disagree.
15 Q Yes or no?
16 A I disagree.
17 Q Thank you.
18 MR. AMER: Now, let's put up Plaintiff's Exhibit
19 1552 in evidence.
20 (Handing)
21 MR. AMER: Let's go to page one of six.
22 Q By the way, this is a document you have seen before,
23 correct?
24 A Yes.
25 Q And let's go to the fourth bullet on the first page.

Page 4770

1 MR. AMER: That has to be the best incentive I
2 have ever heard to get the witness to wait for the
3 question to be asked.
4 Q So, my question, again, is simply to confirm, it is
5 your opinion that Zurich's underwriting of the account in the
6 past was, as you said, based on "airballs and witchcraft"
7 correct?
8 A Yes.
9 Q Are you aware that defendants have designated another
10 insurance expert in addition to you, a gentleman named David
11 Miller?
12 A I heard they have another expert. I don't know his
13 name.
14 Q I want to ask you a question about something that is
15 in his report, it is -- we will put it up on the screen. I can
16 share a copy with you.
17 MR. AMER: It is available, Your Honor, at
18 NYSCEF 1434.
19 (Handing)
20 THE WITNESS: Thank you.
21 Q I am just going to ask you about paragraph 13, which
22 is on page four. I am going to put it up on screen. It is
23 under the section that is labeled Opinions 1 and 2. And I am
24 just going to read you the sentence and ask you for your
25 comment on it, about whether you agree or disagree with it.

Page 4772

1 And the paragraph that starts Total Assets. I am just going to
2 read to you the second sentence. It says: "The fair value of
3 the properties is determined by professional firms (such as
4 Cushman & Wakefield) using cap rates and net operating income
5 as factors."
6 For purposes of forming your opinions, you did not
7 take into account Ms. Mouradian's note that she had been
8 advised during the on-site review about how the fair value of
9 the properties was determined, correct?
10 A Yes.
11 Q Last series of questions, sir.
12 Am I correct that it is your expert opinion that
13 surety is not insurance?
14 A Yes. It is a guaranty. It is not necessarily an
15 indemnity-based contract, except for the guarantor.
16 Q Is it your opinion that surety is not insurance; yes
17 or no?
18 A It is not a yes or no answer.
19 Q Is it your opinion that surety bonds issued by Zurich
20 for the benefit of the Trump Organization under the Zurich
21 Surety Program, were not insurance?
22 A Well, the guaranties issued by an insurance company,
23 which is really a credit facility, so anything an insurer
24 issues is technically insurance, but it is underwritten like
25 credit. The point is that the underwriting process is a credit

Giulietti - by Defendant - Cross (Amer) Page 4773

1 underwriting, versus the property Zurich insures, the property
 2 of Mr. Trump, first 400 million. And their underwriting would
 3 be completely different, non-commercial, non-financial. Except
 4 for the fact that you want to make sure they are in reasonable
 5 financial condition.
 6 Q Simple question, because I thought I heard you say
 7 surety is not insurance. Is it your expert opinion --
 8 A Well, a guaranty crosses over --
 9 Q I need to finish my question, sir.
 10 A There is no yes or no answer. You are asking me a
 11 question that can't be answered. So, I can't answer the
 12 question.
 13 Q Okay. You are aware, certainly, that the business of
 14 insurance in the State of New York is governed by the New York
 15 Insurance Code, right?
 16 A Yes.
 17 Q You are not suggesting, are you, that as far as the
 18 New York Insurance Code is concerned, surety bonds are not
 19 insurance policies, are you?
 20 A Honestly don't know who governs it. It probably
 21 comes under the insurance licensing, I assume. I don't know,
 22 to be honest.
 23 Q Well, let's put up a decision in the case of In re:
 24 Frontier Insurance Company.
 25 MR. AMER: This will be my last series of

Giulietti - by Defendant - Cross (Amer) Page 4774

1 questions. So I'll be well within the time limit, Your
 2 Honor.
 3 MR. FIELDS: Your Honor, I object to relevance
 4 and lack of foundation. And it is going to call for a
 5 legal conclusion from someone who is not an attorney.
 6 MR. AMER: He is offering an opinion about
 7 whether a surety is insurance or not. This is fair game,
 8 Your Honor.
 9 THE COURT: And his answer is, it can't be
 10 answered yes or no.
 11 MR. AMER: That's his opinion. I am going to
 12 show him something.
 13 THE COURT: I'll let you show him something. It
 14 is a Judicial opinion?
 15 MR. AMER: It is something I am going to ask the
 16 Court to take judicial notice of. It is a Judicial
 17 opinion.
 18 We can go right to the last line. Let's just
 19 put it up on the screen. If we can go to page six.
 20 Q The top full paragraph. The fourth line from the
 21 bottom -- sorry, the fifth line from the bottom.
 22 See it says: "And there is no question that a surety
 23 bond is a contract of insurance under New York Law."
 24 You don't dispute that, do you?
 25 MR. FIELDS: Objection, renewed objection.

Giulietti - by Defendant - Cross (Amer) Page 4775

1 THE COURT: Overruled. He can show him anything
 2 he wants. He is not asking for a legal opinion. He is
 3 asking --
 4 MR. FIELDS: Your Honor, respectfully he is
 5 asking if he disputes it, which is calling for a legal
 6 conclusion from somebody who said he can't answer the
 7 question yes or no.
 8 THE COURT: If you want to object to asked and
 9 answered, overruled. And overruled, he is not asking for
 10 a legal opinion. You can take that statement out of
 11 context and just say, do you agree or disagree.
 12 MR. AMER: But I would like the Court to take
 13 judicial notice of the case.
 14 THE COURT: I'll take judicial notice of the
 15 opinion.
 16 MR. AMER: I would like the witness's answer.
 17 THE COURT: Ask the question more time.
 18 Q Do you agree or disagree with the statement that
 19 there is no question that a surety bond is a contract of
 20 insurance under New York Law; yes or no?
 21 A It appears it is a legal definition. Yes.
 22 MR. AMER: And one more document, Your Honor,
 23 PX-603.
 24 (Hanging)
 25 Q I think you testified that the Trump Organization has

Giulietti - by Defendant - Cross (Amer) Page 4776

1 submitted very few claims; is that right?
 2 A Yes.
 3 Q And you were speaking overall, over all of the lines
 4 of business, correct?
 5 A I am speaking property, casualty.
 6 Q Okay.
 7 A I know for a fact what the last ten years are in
 8 those areas, yes.
 9 Q Okay. You will see that this is a letter from Clyde
 10 & Co. to Alan Garten at the Revocable Trust. Do you see that?
 11 A Yes.
 12 Q And you will see that they are, in the second
 13 sentence, writing in response to the broker's letter of
 14 February 8, 2019, which purported to provide notice of claims
 15 and/or circumstances which may reasonably be expected to give
 16 rise to a claim. Do you see that?
 17 A Yes.
 18 Q This would have been when AON was the broker,
 19 correct?
 20 A Timeframe, yes.
 21 Q And you see in the bullets it lists: 18 letters from
 22 Congressional members as being the subject of the claim notice?
 23 A Yes.
 24 Q And the second bullet is: 18 letters from
 25 Congressional members is another set of claims being tendered;

Giulietti - by Defendant - Cross (Amer) Page 4777

1 do you see that?
 2 MR. FIELDS: I object to outside of the scope,
 3 Your Honor. This is no longer about the surety programs.
 4 It is not about Directors and Officers insurance; and it
 5 is also hearsay, so I object.
 6 MR. AMER: The witness's testimony was about
 7 very few claims under the?
 8 THE COURT: The witness said "overall," so
 9 overruled.
 10 Q And you see the other bullets on the next page lists
 11 other claims that have been submitted, including a letter from
 12 a member of Congress; two letters from Congressional members;
 13 an investigation by the U.S. Attorney's Office; investigation
 14 by Special Counsel Robert S. Mueller III; an investigation by
 15 the U.S. Attorney's Office; possible investigations by multiple
 16 jurisdictions and investigative authorities; and possible
 17 investigations by multiple investigative authorities, including
 18 the IRS. Do you see all of those?
 19 A Yes.
 20 Q And so these are all claims that were tendered?
 21 A They are not. They are not insurable.
 22 Q My question wasn't whether they were insurable or
 23 not. This is a broker tendering claims that the lawyer is
 24 responding to; isn't that what this letter says?
 25 A Well, because you decide to tender a claim to an

Giulietti - by Defendant - Cross (Amer) Page 4778

1 insurer doesn't necessarily mean there is an engagement of
 2 insurance coverage. There was none.
 3 Q Okay. That wasn't my question. These are claims --
 4 A That was --
 5 Q These are claims being tendered for coverage,
 6 correct?
 7 A Well, you could tender anything you want for
 8 coverage. If there is no coverage, there is no coverage. And
 9 there was no coverage for this.
 10 THE COURT: Okay. But there is still a claim.
 11 Q The claims are --
 12 THE WITNESS: No, Your Honor. It wouldn't be a
 13 claim because they wouldn't post this on the claim unless
 14 there was a viable claim. It doesn't exist as far as
 15 other insurers or them are concerned. It is not the
 16 practice.
 17 Q Is this notice of claims being tendered by the Trump
 18 Organization to --
 19 A Trump Organization was attempting to engage coverage.
 20 Q By tendering notices of claim, correct?
 21 A Correct.
 22 MR. AMER: Your Honor, I offer this into
 23 evidence for notice purposes.
 24 MR. FIELDS: Hearsay and irrelevant.
 25 THE COURT: Relevant. And for notice purposes

Giulietti - by Defendant - Redirect (Fields) Page 4779

1 only.
 2 MR. AMER: Thank you, Your Honor.
 3 MR. FIELDS: For what, Your Honor, respectfully?
 4 THE COURT: I am sorry?
 5 MR. FIELDS: Notice to whom and for what?
 6 THE COURT: To the insurer and insurance
 7 brokers -- Garten, sorry. And the Donald J. Trump Trust.
 8 Is that who you want?
 9 MR. AMER: Yes.
 10 That's all I have for the witness.
 11 MR. FIELDS: One question, if I may?
 12 THE COURT: Great. I'll hold you to that.
 13 REDIRECT EXAMINATION
 14 BY MR. FIELDS:
 15 Q Did anything that you read in the transcripts after
 16 you wrote your expert report change your opinion in this case
 17 at all?
 18 A It confirmed suspicions that it was -- the lack of
 19 underwriting was more significant than I knew.
 20 MR. FIELDS: Thank you.
 21 THE COURT: One scheduling question and then we
 22 have to run.
 23 Allison.
 24 The witness is excused. Thank you very much.
 25 (The witness stepped down from the stand.)

Giulietti - by Defendant - Redirect (Fields) Page 4780

1 MS. GREENFIELD: I want to confirm we are
 2 starting Monday with Miller, followed by McConney.
 3 McConney may go over into Tuesday. And so who is going to
 4 be, just in case, who is after McConney on Tuesday?
 5 MR. ROBERT: Because of witness scheduling and
 6 counsel's schedule, we don't have anyone other than
 7 McConney on Tuesday. But we hope to finish McConney on
 8 Tuesday. I can't promise we will finish him.
 9 MS. GREENFIELD: Are you doing read-ins? Can we
 10 fill Tuesday with that?
 11 MR. ROBERT: We hoped to the have a Deutsche
 12 Bank read-in, but the Attorney General objected, so we
 13 will have them live. And they are available on the
 14 28th and 29th. But I think we will go most if not the
 15 whole day on Tuesday anyway.
 16 MS. GREENFIELD: And when can we expect the
 17 updated schedule for?
 18 MR. ROBERT: We will let you know on Monday.
 19 THE COURT: Have a good weekend everyone.
 20 (Whereupon, the trial stood adjourned to Monday

Proceedings

1 COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent.
 4 Laptops and cell phones will be permitted, but only to
 5 members of the press. There is absolutely no recording or
 6 photography of any kind allowed in the courtroom.
 7 Now be seated and come to order.
 8 THE COURT: Trying to figure out which of the
 9 attorneys is going to sit in which seat is like the
 10 Kremlinologist who was standing there on the mausoleum.
 11 Defendants, would you like to call your next
 12 witness?
 13 MR. FIELDS: Yes, Your Honor. We called David
 14 Miller.
 15 And good morning.
 16 THE COURT: Good morning, Mr. Fields.
 17 (Whereupon, the witness took the stand.)
 18 COURT OFFICER: Please remain standing. Raise
 19 your right hand.
 20 D A V I D B R I A N M I L L E R, after
 21 having first been duly sworn was examined and
 22 testified as follows:
 23 COURT OFFICER: Please have a seat.
 24 THE WITNESS: Thank you.
 25 COURT OFFICER: Please state your name and

Miller - by Defendant - Direct (Fields)

1 either home or business address for the record.
 2 THE WITNESS: David Brian Miller, 119 East
 3 Muriel Street, Orlando, Florida.
 4 THE COURT: David Brian Miller, I ask you to
 5 speak very close to the microphone, they are very
 6 sensitive, right into it. Loudly.
 7 And Mr. Fields, please begin.
 8 MR. FIELDS: Thank you.
 9 DIRECT EXAMINATION
 10 BY MR. FIELDS:
 11 Q Good morning.
 12 A Good morning.
 13 Q Where did you attend college, Mr. Miller?
 14 A I attended the Edinboro University for my Bachelor of
 15 Arts; Youngstown State University for Master's in psychology;
 16 and Ashland University for a Master's in business
 17 administration.
 18 Q After your Master's degree, were you gainfully
 19 employed with an insurance company?
 20 A Yes, I was.
 21 Q What insurance company was that?
 22 A Erie Insurance Group.
 23 Q Do you recall approximately what year you started
 24 with them?
 25 A Approximately 1975.

Miller - by Defendant - Direct (Fields) Page 4785

1 Q What were your jobs with Eerie Insurance Group when
2 you got started?
3 A I started out as a claims adjustor.
4 Q What does that mean?
5 A Well, I investigated and handled claims for autos;
6 homes; professional liability; bonding; all lines of business
7 at the company that the company wrote at that time. I was an
8 all lines claims adjustor.
9 Q So as a claims adjustor, are you one of the first
10 individuals at the company to investigate whether the claim
11 should be properly or should be paid or not?
12 A Yes, I was responsible for investigating the claim,
13 understanding the policy language, and determining if there was
14 coverage that was applicable.
15 Q And I think you mentioned professional liability, did
16 you work on those types of matters as a claims adjustor?
17 A Yes, I did.
18 Q What do you mean by professional liability?
19 A Things like Directors & Officers malpractice, Errors
20 and Omissions.
21 Q After your time as a claims adjustor, did you get
22 promoted or put into a new role?
23 A Yes, I did.
24 Q What role is that?
25 A I got put into subrogation recovery manager. And in

Miller - by Defendant - Direct (Fields) Page 4786

1 that role I reviewed claims adjustors' work; and worked with
2 legal firms to collect money back that the company had paid
3 that we were due to recover through a process called
4 subrogation.
5 Q So as a recovery subrogation manager are you, in
6 effect, one step above the claims adjustor?
7 A Yes.
8 Q How about after your time as a recovery subrogation
9 manager, what was your next role like at Eerie?
10 A I was a district sales manager. I was recruited to
11 develop the northwest section of Ohio where I recruited and
12 trained all of the agents, independent agents, to represent
13 Eerie Insurance Group. And I was responsible for all lines of
14 business that was produced by those agents.
15 Q And at this point were you an Associate Vice
16 President?
17 A I was Associate Vice President, yes.
18 Q Okay. After that, did you have any role?
19 A Yes. I was promoted to Eerie Branch Manager where I
20 was in charge of all of the agency force agent licensing and
21 marketing for the company. And in that I was responsible for
22 the claims operations and the sales and marketing operation.
23 The claims operation reported to me and I reviewed the -- with
24 the claims manager, difficult claims in the claims operations.
25 And then I was also responsible for the sales and

Miller - by Defendant - Direct (Fields) Page 4787

1 marketing and profitability of all of the agents in that
2 territory.
3 Q When you say, "sales and marketing," what does that
4 mean for an insurance company?
5 A That means the agents writing lines of business that
6 the company wanted to, whether it was home, auto, professional
7 liability, bonds, I was responsible for getting them to write
8 what the company was looking for.
9 Q And at this juncture as the branch manager, were you
10 a vice president at Eerie Insurance?
11 A Yes, I was.
12 Q All right. And then lastly, did you have a final
13 role at Eerie during this period in time that you were employed
14 there?
15 A Yes. After I was the branch manager I was promoted
16 to Vice President of Marketing and Branch Operations. And at
17 that I was responsible for all of the marketing materials, all
18 of the lines of business and how they were presented to the
19 public. I was also responsible for all of the branch
20 operations and the branch managers -- the claims operation and
21 the sales operations reported up through me.
22 Q So in total, were you there at Eerie for
23 approximately 15 or 16 years?
24 A Yes.
25 Q That culminated with you being the Vice President for

Miller - by Defendant - Direct (Fields) Page 4788

1 Marketing and Branch Operations?
2 A Yes, that's correct.
3 Q And where did you go when you left Eerie at this
4 time?
5 A I left and started my own independent insurance
6 agency in Gaithersburg, Maryland.
7 Q What were some of your responsibilities when you
8 started your own business?
9 A Well, in starting my own business I was responsible
10 for doing what I had told people to do. I had to go out and
11 sell insurance to meet different guidelines, to find insurance
12 the company was looking for.
13 Because of my past experience with the company, I was
14 given underwriting authority of up to a million dollars. So I
15 had the ability to write business and bind the business and
16 make decisions about what was acceptable to the company because
17 of my past relationship with them. So, I was able to write
18 bonds, D&O, autos, home, commercial lines, garage, commercial
19 auto; all of the lines that Eerie wrote. And in those lines I
20 had a million dollars of binding authority before I had to get
21 approval from any underwriter to accept the business.
22 Q So, if I understood your testimony, because you
23 worked at Eerie, Eerie allowed you up to a million dollars in
24 underwriting authority to underwrite business for them yourself
25 as a broker?

Miller - by Defendant - Direct (Fields) Page 4789

1 A Yes. I had discretion to bind the business and
2 underwrite the business at that agency level.
3 THE COURT: He asked you as a broker. Isn't it
4 as an agent?
5 THE WITNESS: I had both licenses. I had both
6 licenses, and in that relationship I did have an agency
7 contract with them.
8 THE COURT: I seem to remember, tell me if I am
9 right or wrong, the agent represents the insurance
10 company; the broker represents the insured.
11 THE WITNESS: Right. That's the distinction.
12 THE COURT: So you were an agent, not a broker.
13 THE WITNESS: I had both roles. In the capacity
14 I was writing it was in an agent capacity. You are right,
15 Your Honor.
16 Q What type of insurance did you place with David B.
17 Miller insurance?
18 A All lines that Eerie offered. I had blanket
19 authority to write all of the lines.
20 Q Did that include excess surplus lines policies?
21 A Eerie Insurance did have an excess surplus lines
22 division, and I could write through them. But I was also
23 licensed with other excess surplus lines carriers; typically
24 called "wholesalers" in the industry. And I had licenses with
25 those various organizations.

Miller - by Defendant - Direct (Fields) Page 4790

1 Q Could you help us understand what excess surplus
2 lines means?
3 A Yes. Excess surplus lines means it is not regulated
4 by the state you are doing business in. Basically it allows
5 that company to tailor make a policy to have more discretion in
6 pricing, they don't have to follow their prices; they don't
7 have to follow their forms. So it gives them more latitude in
8 being able to customize a policy. It gives them more latitude
9 to use additions or exclusions in their policy that don't have
10 to be filed. And it allows them to price the policy according
11 to their judgment of what their risk may be.
12 Q All right. Where did you go to next after David B.
13 Miller insurance?
14 A I went back to Eerie Insurance Group.
15 Q And in what position or capacity did you return to
16 Eerie?
17 A I had several capacities. My title was Senior Vice
18 President and Division Officer; Corporate Risk Manager; Chief
19 Senior Underwriting Officer and President of Eerie Surplus
20 Agency.
21 Q Did you have several divisions that you were
22 responsible for?
23 A Yes, I had about five divisions that I was
24 responsible for.
25 Q What were they?

Miller - by Defendant - Direct (Fields) Page 4791

1 A Commercial underwriting, which included property
2 casualty; Bonding; Errors and Omissions; Directors & Officers,
3 that all came under the property casualty heading. Then I had
4 commercial auto and commercial trucking; garage liability; and
5 garage dealerships; commercial processing; commercial quoting
6 and commercial risk management.
7 Q As part of your roll overseeing the commercial
8 processing division, I believe it was that you said?
9 A Yes.
10 Q Did that involve policy language and altering policy
11 language based on the insurance company's preference and what
12 they wanted?
13 A Yes. Part of my -- part of the property casualty and
14 part of the -- as the Chief Underwriting Officer, I was
15 involved. When I first -- particularly when I first went back,
16 I changed the policies that we were doing business with. The
17 policies were a little bit antiquated, so we rewrote the policy
18 and I was in charge of making sure the policies were rewritten
19 correctly. We prepared many new endorsements which targeted
20 markets, and by targeting the markets, it put us in a better
21 competitive position. And I made sure that those endorsements
22 to the policies were done correctly. So we completely
23 modernized the policies being offered by the commercial
24 division. And I was in charge of that operation and project.
25 Q How about Chief Underwriting Officer, what were your

Miller - by Defendant - Direct (Fields) Page 4792

1 responsibilities as the Chief Underwriting Officer?
2 A Well, my -- my chief duty is to make sure we weren't
3 making a huge mistake. But --
4 THE COURT: Mine too, by the way.
5 A I saw the difficult cases, so when it came to me --
6 the average, everyday business was done by the standard
7 underwriters or maybe their manager or supervisor. And then
8 when it came to more difficult cases, I actually did the
9 physical underwriting with them, reviewed their files, looked
10 at the materials, and made a decision whether the company had
11 the capacity and willingness to take on that risk. So, it was
12 my final say-so what backed up the company's money and their
13 exposure. And so, you know, if it was a large bond or a large
14 D&O or a large commercial account, very often I had the final
15 say-so. I had the ultimate say-so. In fact, I had more
16 authority in that area than the CEO, because I was the Chief
17 Underwriting Officer. And with that comes, you get praised
18 when you make money and you take the hit if you lose money.
19 Thank heavens I always made money, so I didn't have
20 to take the other side of the coin.
21 Q Probably a good point to talk about the hierarchy at
22 Eerie Insurance and just insurers generally. But are
23 underwriters generally given what is called levels of
24 authority?
25 A Yes.

Miller - by Defendant - Direct (Fields) Page 4793

1 Q Could you just explain a little bit how that works?
2 A Yes. Well, in particular I can explain how Eerie
3 worked. We had underwriters one, two, and three. And that was
4 based on their experience and time at the job.
5 So, as an example, somebody that just came in that
6 was learning how to underwrite, we would give level one where
7 they would have a minimum amount of authority or maybe no
8 authority. They had to have everything checked by somebody
9 above them in order to put the monies of the company at risk.
10 Then an underwriter two would have a little more
11 authority, say maybe to a half a million dollars. And they
12 would be allowed to underwrite risk falling below that
13 category; and if they had more exposure they had to get
14 approval.
15 An underwriter three would have a million dollars, in
16 some cases \$2 million, where they would be allowed to accept
17 that type of risk on behalf of the company. Because by the
18 time they got to underwriter three they generally had ten or
19 more years experience, and so they pretty much knew what they
20 were doing.
21 And above that it went to the manager and then to me.
22 Q You also said that you were Eerie's Corporate Risk
23 Manager?
24 A Yes.
25 Q What does that mean?

Miller - by Defendant - Direct (Fields) Page 4794

1 A Well, we did self insurance, so the risk management,
2 the inspection of the physical buildings, making sure that the
3 things like the fire extinguishers, you know, the boilers, and
4 everything got processed, permitted correctly. All of that
5 stuff was done by my assistants and then passed up through me.
6 Also, I looked at the Worker's Compensation program
7 and managed the risk of that program; worked out the pricing
8 terms and conditions for that program; monitored the accidents
9 associated with employees automobiles driver safety programs,
10 carpal tunnel programs, educational programs for the betterment
11 of employees, to keep them safe from having occupational
12 hazards or accidents.
13 So that was the responsibility. And we tracked all
14 of that stuff and managed it, because most of the things,
15 accept the Worker's Compensation, we self insured. So
16 everything we saved was money to the bottom line.
17 Q So, approximately how long did you work at Eerie in
18 total?
19 A Approximately 22 years.
20 Q And did you leave Eerie in approximately 2001 the
21 last time?
22 A Yes.
23 Q Where did you go next?
24 A I founded Inner Harbor Insurance Group. I bought a
25 small seed company in Bethesda, Maryland and grew that

Miller - by Defendant - Direct (Fields) Page 4795

1 independent agency into about the 15th largest independent
2 agency in the Tristate area: Maryland, Virginia, DC. I was
3 licensed in 42 states. We had the largest beauty school,
4 professional liability program in the company in 42 states. We
5 also did commercial business all throughout the country. We
6 did about 12,000 policies and personal lines, auto, home,
7 personal umbrella.
8 But the bulk of the business was done in the
9 commercial lines: Commercial property, commercial casualty,
10 bonding, Directors Officers, all of those lines of business.
11 And personally I did pretty much all commercial business and
12 that's what I specialized in.
13 Q And do you recall approximately when you left Inner
14 Harbor?
15 A Yes. I left Inner Harbor in about 2007.
16 Q And where did you go next?
17 A I went to Harbor Companies, started my own consulting
18 company. When you get to a certain size in the independent
19 agency business, sometimes companies want to come in because
20 you are a desirable candidate to get purchased. And that's
21 what happened. Somebody wanted to purchase the company. So I
22 had a non-compete, except for consulting and doing expert
23 witness work. And so I started that company and developed
24 Harbor Companies, who I presently work for.
25 Q You mentioned consulting and expert witness work, is

Miller - by Defendant - Direct (Fields) Page 4796

1 that what you are primarily doing now with Harbor Companies?
2 A Yes, that's correct.
3 Q What type of insurance consulting are you doing now?
4 A I do mostly expert witness work. But I have also
5 done consulting work for educational programs, training
6 programs for employees, guest lecturing for training programs
7 for employees. I worked for companies like USAA, AIG, Mutual
8 companies.
9 Eerie had me back several times to teach agents how I
10 grew an agency, because by industry standards I grew the agency
11 very quickly. So they all wanted to know what is your secret,
12 how did you do it. Like I had a magic thing. It is hard work.
13 But they wanted to know what I did. So, those are the type of
14 programs that I put on to educate and teach.
15 Q And do you have a sense for approximately how many
16 cases you have served as an expert witness?
17 A Over 100.
18 Q And have you testified at trial previously?
19 A Yes.
20 Q Do you get a sense for how many times you have had
21 your deposition taken as an expert witness?
22 A I believe at last count it was 40 plus.
23 Q What are some of the topics you have provided expert
24 testimony in?
25 A Well, I have done bonding cases as an expert witness

Miller - by Defendant - Direct (Fields) Page 4797

1 before. I have done some high profile D&O cases. I have done
2 injury cases, bad faith cases, errors and omissions cases,
3 medical malpractice cases. That's probably the bulk of what I
4 did. I did a couple lawyer malpractice. Not that that ever
5 happens. But I did a couple of lawyer malpractice cases. And
6 that's primarily what I do.

7 Q Have your engagements included representation of both
8 carriers and policyholders?

9 A Yes.

10 Q Have you been retained by carriers to do educational
11 consulting?

12 A Yes, I have.

13 Q What is educational consulting?

14 A Well, I have done things from helping -- because I
15 had experience in developing policy language, I was asked by
16 one carrier to come in and look at their policies and offer
17 solutions or endorsements, things to make it more competitive.

18 I have been asked to talk to independent agents about
19 how to properly market the product, how to get more business,
20 how to develop your business quicker.

21 You know, what do companies really look for, how do I
22 know that. I would teach them, say, look at the top ten
23 classes of business that a company is writing. And if you
24 concentrate on writing those top ten classes of business you
25 are more likely to be successful than trying to get outlying

Miller - by Defendant - Direct (Fields) Page 4798

1 business that they don't want to write. So when you look at a
2 company and determine what does that company -- particular
3 company like to write, then you are far more likely to be
4 successful in writing businesses.

5 Q Outside of educational consulting, have you taught
6 courses related to insurance?

7 A Yes. I was adjunct professor at Gannon University.
8 As a matter of fact, I was the first professor in that program.
9 I taught risk management and insurance development. One of the
10 things that I tried to do with my students at that level was to
11 teach them how to be a good consumer. I taught them how do you
12 buy car insurance. How do you buy homeowner's insurance. How
13 do you start a business. What does a business plan look like.
14 How do you develop something that makes you look good to an
15 insurance company. How do you manage your personal assets and
16 how do you manage your personal self to make yourself
17 attractive from an insurance standpoint.

18 My goal was to make them a better consumer and
19 educated person that could go out and make a decent decision
20 once they left my classroom.

21 Q Did you do any -- let me withdraw that for a second.
22 You said Gannon University; is that G-A-N-N-O-N?

23 A That's correct.

24 Q And did you do any guest lecturing while you were at
25 Eerie?

Miller - by Defendant - Direct (Fields) Page 4799

1 A Yes. Eerie had asked me to come in. They would have
2 conferences where they would bring all of their agents in. And
3 several times I taught marketing seminars to all of the agency
4 force regarding all of the steps I used to market. And quite
5 often they would say: Why are you willing to do that?

6 And I would say: Well, they are going to listen and
7 we will see who actually implements it. So my goal was to try
8 to get some people to go implement what I was -- what I was
9 trying to sell to them, so that they could write more business
10 and overall enhance the business that they were giving to the
11 company.

12 Q All right. I would like to shift gears now and talk
13 a little bit about your professional certifications or
14 designations. Do you hold any professional certifications or
15 designations?

16 A I do.

17 Q Okay. Do you hold any from what is called the
18 Institutes?

19 A Yes, I do.

20 Q And what do you hold from the Institutes?

21 A The most prestigious certification in the property
22 casualty industry is called the chartered property casualty
23 underwriting CPCU. And I obtained that designation through ten
24 examinations at the time and completed that work. And also the
25 associate and risk management. It is a risk management course

Miller - by Defendant - Direct (Fields) Page 4800

1 also offered by the Institutes, five exams, and passed those
2 exams for risk management.

3 Q And have you held those designations for over
4 approximately 25 years or so?

5 A Yes.

6 Q Are you familiar with the National Alliance?

7 A I am.

8 Q And do you hold any designations from them?

9 A Yes. They offer a program called the Certificated
10 Insurance Counselor. And that's a series of five exams. And I
11 have held that designation for over 30 years.

12 And I have also taught a couple of classes for the
13 society in -- for general liability classes. I have taught a
14 couple of institutes for them.

15 Q How about the Professional Insurance Agents
16 Association?

17 A Yes. They offer a program called the Certified
18 Professional Insurance Agents. And I also hold that
19 designation. And I also served on the National Board of
20 Directors for the Certified Professional Insurance Agents.

21 Q And lastly, the National Association of Insurance and
22 Financial Advisors; do you hold any designations from them?

23 A Yes. I hold the Life Underwriting Training Counsel
24 Fellow designation, which is a series of financial and life
25 insurance classes.

Miller - by Defendant - Direct (Fields) Page 4801

1 Q So approximately how many years have you been working
2 in the insurance industry, Mr. Miller?
3 A Forty plus.
4 MR. FIELDS: Your Honor, I tender Mr. Miller as
5 an expert in commercial insurance and surety underwriting.
6 MR. AMER: No objection, Your Honor.
7 THE COURT: I am not sure. I don't remember the
8 exact language, but I believe that one is only to deem
9 someone an expert in areas that a normal juror or normal
10 fact finder or normal Judge doesn't understand. I
11 understood absolutely every phrase you used. There might
12 have been one point where I couldn't connect two words, I
13 am not sure I heard them correctly.
14 And Mr. Miller, I don't want you to take any
15 offense at any of this, but I don't see why I need an
16 expert in what was just said. What could you explain that
17 I wouldn't understand just from hearing witnesses testify
18 and looking at documents?
19 But, if the plaintiff wants me to, I'll
20 reconsider. You said you had no objection. You didn't
21 say, yes, Judge, go ahead and do it.
22 MR. AMER: There are two different questions.
23 One is whether the witness has qualifications in the
24 field; the other is whether the Court requires his
25 assistance as the finder of fact. We don't have a

Miller - by Defendant - Direct (Fields) Page 4802

1 position on the second point because I don't know what
2 Your Honor requires assistance in.
3 THE COURT: Nothing that I am aware of. I mean,
4 I have many times said in my career: It is amazing how
5 much litigation involves insurance. Just, insurance comes
6 at me left and right.
7 MR. AMER: I think your point goes more to a
8 relevance question. And we did object to this witness on
9 relevance grounds, you may recall. That was part of our
10 motion in limine.
11 THE COURT: I don't see relevance either. But
12 the particular question is -- I am only looking at the
13 second prong, you know, do I need or would any fact finder
14 need his expertise.
15 Mr. Robert?
16 MR. ROBERT: I believe you do, Your Honor. PJI
17 1:90 that talks about when a Judge or jury requires expert
18 testimony. The government has accused the defendants of
19 having committed insurance fraud. One of the elements of
20 that has to do with the underwriting and what, if
21 anything, the insurance companies relied on as far as what
22 was submitted by the defendants in terms of, A, whether it
23 was material; and two, whether they relied on it. And it
24 goes to the intent of the defendants as to when things
25 were submitted to the insurance companies. This witness

Miller - by Defendant - Direct (Fields) Page 4803

1 clearly has a background at being able to explain what it
2 is that insurance companies rely on; what it is they don't
3 rely on; what is material; what is not material; and how
4 that goes into their analysis. I respectfully submit that
5 is something outside of the ken of a normal juror or even,
6 respectfully, the Court.
7 THE COURT: I think that was well argued,
8 Mr. Robert, for what that is worth. What they rely on.
9 Why wouldn't a fact witness tell me what they relied on
10 when the Zurich witness did or didn't rely on things? Why
11 do I need an expert to tell me what insurance -- to me it
12 is not a question of what insurance companies rely on so
13 much as what this or these insurance companies relied on.
14 MR. ROBERT: When it comes to the issue of what
15 the defendants did and what their intent was and what they
16 submitted, that you need to understand from an expert how
17 an insurance company looks at things. You have already
18 heard the testimony -- and I always get the young woman's
19 name wrong, the one on the video.
20 MR. AMER: Mouradian.
21 MR. ROBERT: Mouradian, as to her view of
22 things. And this expert is clearly able to lay a more
23 detailed foundation as to generally what insurance
24 companies rely on themselves.
25 In the prosecution's case they did not put

Miller - by Defendant - Direct (Fields) Page 4804

1 anybody specifically from an insurance company beyond that
2 one witness who was putting in place any of the elements
3 required for insurance fraud.
4 That's why one of the reasons we moved for
5 directed verdict on the count of insurance fraud is we
6 don't believe there has been any evidence to support that.
7 Because Your Honor currently is reserving on the decision,
8 I guess because there has been no decision yet, we
9 obviously have an obligation to put forth testimony to be
10 able to defend ourselves.
11 And the testimony is not going to be long, Your
12 Honor. Not that that necessarily matters, but I figured I
13 would just say it. I know timing is an issue here. And
14 as things stand, I think we are actually going to be a
15 week or so ahead of schedule at the end of the day.
16 THE COURT: Great, Mr. Amer.
17 MR. AMER: One comment which I heard Mr. Robert
18 say, intent. It is clear under New York Law that experts
19 aren't permitted to opine on the intent to commit a penal
20 act. And so I think the only cases we found where
21 actually intent was permitted, is where there is a
22 psychiatrist opining.
23 THE COURT: We may need a psychiatrist after all
24 of this.
25 MR. AMER: Which is clearly not relevant here,

Miller - by Defendant - Direct (Fields) Page 4805

1 Your Honor.
 2 So I think there is an additional problem if
 3 this is supposed to go to Ms. Mouradian's intent or
 4 Mr. Holl's intent, who is the D&O underwriter, because
 5 that's just not the province of an expert witness.

D. Miller - by Defense - Direct (Mr. Fields) Page 4807

1 on.
 2 So you are an expert.
 3 MR. FIELDS: Thank you, your Honor.
 4 Q Mr. Miller, from your review -- withdrawn.
 5 Did you review documents from Zurich Insurance Company
 6 about events -- a surety relationship between Zurich and The
 7 Trump Organization?
 8 A Yes, I did.
 9 Q And the documents that you reviewed generally, would
 10 those have been -- what were they?
 11 A I reviewed some depositions. I reviewed their
 12 worksheets, the Zurich worksheets that they had underwriting
 13 worksheets, and information that they had gathered, I looked at.
 14 Q When you say "worksheets", would those generally be
 15 underwriting memorandums?
 16 A That's correct.
 17 Q All right.
 18 From your review, were you able to ascertain whether
 19 there was an indemnity relationship as it related to the bond
 20 program?
 21 A Yes. They had a general indemnification agreement in
 22 place.
 23 Q And who were the parties to that indemnification
 24 agreement?
 25 A The Trump Organization and Donald J. Trump.

D. Miller - by Defense - Direct (Mr. Fields) Page 4806

1 THE COURT: Well, weighing, again, the dangers of a
 2 possible reversal, is it plaintiff's -- does plaintiff want
 3 me to deem him an expert and let him testify, or not? I
 4 haven't made up my mind totally, but I would want to get
 5 your input.
 6 MR. AMER: Recognizing the importance of not
 7 qualifying somebody who makes a living as an expert in his
 8 field, I would say we don't object to qualifying him as an
 9 expert. But we would reserve and make objections on
 10 relevance grounds as those questions come up, your Honor.
 11 THE COURT: Last words, if any? No. Okay.
 12 By the way, I don't think you asked, were you ever
 13 not qualified as an expert when someone attempted to qualify
 14 you as an expert?
 15 THE WITNESS: The answer is, to my knowledge, I've
 16 never been disqualified, sir.
 17 THE COURT: Then I will not be the first. I hereby
 18 deem you expert in insurance and the business.
 19 Mr. Fields, would you like to give me -- give us a
 20 few words exactly what he is being deemed an expert in?
 21 MR. FIELDS: Commercial insurance and surety
 22 underwriting.
 23 THE COURT: Okay. But as Mr. Amer said, or asked,
 24 I will reserve the right to decide whether any questions are
 25 relevant, or whether it fits into something I need expertise

D. Miller - by Defense - Direct (Mr. Fields) Page 4808

1 Q When you say "The Trump Organization", do you mean
 2 Zurich Insurance company?
 3 A Yes, yes, yes, yes.
 4 Q And Donald J. Trump?
 5 A Yes.
 6 Q What is the purpose of an indemnity agreement?
 7 A An "indemnity agreement" is an important aspect because
 8 when you write surety bonds, generally a company looks at a zero
 9 loss ratio position. So since they want a zero loss ratio, they
 10 want to be able to, if they make a payment on a claim, their
 11 goal is to be able to get the money back from the person that
 12 they insured.
 13 Q How does the enforcement of that indemnification
 14 agreement occur, in practice?
 15 A Well, how it actually works, once a claim is paid, they
 16 go back to the indemnification agreement and put the person on
 17 notice that payment has been made, and they intend to collect
 18 from cash, or cash equivalents. Sometimes there's also
 19 collateral or a line of credit that they would look forward to
 20 get reimbursement from.
 21 THE COURT: It would be pretty funny if I said I
 22 don't know what the heck he's talking about.
 23 Mr. Robert, you didn't find that funny.
 24 MR. ROBERT: That's why you need expert testimony.
 25 THE COURT: Understood. I don't think you got the

D. Miller - by Defense - Direct (Mr. Fields) Page 4809

1 joke, really, but.
2 MR. FIELDS: I did, your Honor.
3 MR. AMER: New York sarcasm, I guess.
4 Q You mentioned cash or cash equivalents, are there
5 certain metrics that underwriters find important for surety bond
6 underwriting?
7 A Could you clarify.
8 Q Sure.
9 What is are some of the important things that a surety
10 bond underwriter is looking for when deciding whether to
11 underwrite a surety bond?
12 A Well, basically they are looking at what we call the
13 three Cs; character, capacity, and capitalization liquidity.
14 Q What is character?
15 A "Character" is the overall reputation of the person
16 that you are looking at. Do they seem to have a good position,
17 or are they well-known in their industry? What type of person
18 or what type of organization, is the overall perspective look
19 good them as an underwriter.
20 Q And capacity?
21 A "Capacity" means how much money are they willing to put
22 up on behalf of the company. And in this case, they basically
23 had put out \$6 million for any one surety bond, with a maximum
24 of 20 million for the program.
25 Q So when you say "20 million", would that have been the

D. Miller - by Defense - Direct (Mr. Fields) Page 4810

1 maximum possible exposure so Zurich?
2 A Yes, that's correct.
3 Q And the last C was capital assets?
4 A Capital assets. Basically, in the surety business,
5 that means liquid funds, cash equivalents in order to get
6 repaid.
7 Q Why is the liquid fund so important?
8 A As I stated, a surety underwriter is looking at a zero
9 loss ratio. So while they put out money temporarily, they
10 expect to collect it back.
11 Q From your review of the documents, did you get the
12 sense that Zurich was ever concerned with The Trump
13 Organization's character?
14 A No.
15 Q How about the Trump Organization's capital assets?
16 A No.
17 Q In practice, when considering liquidity, is the surety
18 more concerned with the aggregate bond limit or the individual
19 bond limit?
20 A Well, they take into consideration both, but the most
21 important aspect would be any one single bond, because they want
22 to make sure -- in my 40 years I've never seen an entire bonding
23 program get called all at one time. So while you have different
24 -- you may have a court bond. You may have a license permit
25 bond. You may have, you know, different types of surety bonds.

D. Miller - by Defense - Direct (Mr. Fields) Page 4811

1 And the likelihood of the whole program getting called at once
2 is pretty minimal. So their real exposure is what is the
3 largest single bond that they would put out there. And in this
4 case, I think the largest bond that I saw issued was about
5 5.7 million under the 6 million per bond aggregate that they
6 were willing to -- or per bond that they were willing to put out
7 there. And on average, their bonding program, over the years,
8 pretty much stayed under 10 million for most of the bonding
9 period, from 2007 to 2021.
10 Q Are brokers often involved in this surety relationship
11 between the principal and the surety?
12 A Yes.
13 Q And how do the brokers affect that line of business?
14 A Well, quite often surety is not the lead business. You
15 know, surety is something you do as an accommodation. So at the
16 time, Aon, who is a large multinational broker, um, has a lot of
17 influence in the marketplace because of their ability to do
18 business and the size of their organization. So at that time
19 they had other business and a track record with the Trump
20 Organization, and they came to Zurich and said, could you do us
21 a favor, basically, and write the surety bonds.
22 MR. AMER: I'm going to object as to what Aon said
23 to Zurich. It's hearsay, and there's no foundation for
24 that.
25 THE COURT: Sustained, unless I've given some

D. Miller - by Defense - Direct (Mr. Fields) Page 4812

1 exception.
2 Q Well, Mr. Miller, from your review of the documents,
3 did you get the sense that Aon had a big influence on Zurich's
4 decision to underwrite these bonds?
5 MR. AMER: Same objection, your Honor.
6 THE COURT: I get the sense -- I don't know that's
7 a standard of proof that we could use, "get the sense."
8 MR. FIELDS: Was it his understanding.
9 THE COURT: I think you would have to lay a
10 foundation.
11 A I can speak to what the underwriter --
12 MR. AMER: Your Honor, we have an objection that's
13 pending.
14 THE COURT: Sustained. I'm assuming he's asking a
15 different question now.
16 Q I think you testified that you reviewed Zurich's
17 underwriter memorandums in this case?
18 A Yes.
19 Q Did Zurich's underwriter memorandums reference Aon?
20 A Yes.
21 Q And from those references in the underwriter
22 memorandums, did you gather an understanding as to what the
23 relationship was like between Aon and Zurich?
24 A Yes.
25 Q What was that understanding?

D. Miller - by Defense - Direct (Mr. Fields) Page 4813

1 A In the testimony that I read from the underwriter,
2 Ms. Caulfield, she stated that the relationship in keeping a
3 broker, Aon, happy was very important to her. So when they
4 presented the writing the surety business, she stated in her
5 testimony that the reason for writing it was keeping a broker
6 happy and keeping existing business on the books.
7 MR. AMER: So I'll object on relevance since
8 Ms. Caulfield's underwriting of the program predates 2018
9 and anything that is at issue in this case on the fraud
10 claim. It relates to an earlier period of the relationship,
11 your Honor. We were involved with Ms. Mouradian's
12 underwriting of the program from 2017 forward. And it's
13 also hearsay.
14 MR. FIELDS: To the hearsay, he's an expert, first
15 of all.
16 Second of all, as to Ms. Caulfield, she was the
17 longest serving underwriter on this account, and a lot of
18 the underwriting that occurred happened on her watch. And
19 it's important for the Court to understand what was going on
20 in the years that preceded what the government has alleged
21 is the alleged insurance fraud. So that's the purpose of
22 all of this.
23 THE COURT: I'm just going to let it in. You know,
24 it's funny to object on hearsay, and it's also irrelevant --
25 well, if it's irrelevant, so what.

D. Miller - by Defense - Direct (Mr. Fields) Page 4814

1 I remember the testimony and some of the documents.
2 It, um -- it makes a certain sense, so I'll leave it at
3 that. It's in.
4 That's the most famous objection, "Yeah, I just
5 want to hear it", so.
6 Q I don't know if this has been answered, but if it has
7 I'm shower I'll hear an "asked and answered objection."
8 How can a broker the size of Aon affect, in this case,
9 Zurich's underwriting determinations?
10 A Well, my experience in being a chief underwriting
11 officer is very similar to having an Aon and a Zurich, and that
12 is my largest producers, come in and they'll try to influence
13 you and say, I have a lot of business with you. I would like
14 you to do me a favor. And they kind of put pressure on you to
15 do something, whether you want to or not. So you make an
16 exception, or you say, "Okay, I'll write this line of business
17 for you", um, because you don't want to lose all their business,
18 and you want to keep good favor with that broker.
19 Q How, if at all, would an insurance company the size of
20 Zurich's be affected by losing business from Aon?
21 A Well, Aon is one of the largest brokers in the world,
22 so it could be a substantial hit to their bottom line to lose
23 all their business. If Aon decided they didn't want to do
24 business with Zurich and decided to move all their business to
25 another carrier, it could be a substantial loss.

D. Miller - by Defense - Direct (Mr. Fields) Page 4815

1 Q Did you form an opinion regarding -- I should have
2 asked you this earlier, Mr. Miller, but any opinion that you
3 give today, please give to a reasonable degree of professional
4 certainty based on your experience in the industry; is that
5 fair?
6 A Yes.
7 Q All right.
8 Did you form an opinion regarding Zurich's underwriting
9 of The Trump Organization Surety Bond Program?
10 A Yes.
11 Q What is that opinion?
12 A Well.
13 MR. AMER: Can we get a time frame?
14 MR. FIELDS: The whole program. From inception to
15 end.
16 THE COURT: I'll allow it.
17 A Yes. My perception was there was not a lot of
18 technical underwriting that took place, um, because it was done
19 as what I would perceive -- what I would call a business
20 decision. They wanted to write the business to keep the
21 relationship between Aon and Zurich in place. They wanted to
22 keep other business that they had with the organization in
23 place. So I would call what they did as basically a business
24 decision as to the capacity and the risk they were willing to
25 take in the surety program, particularly since they had an

D. Miller - by Defense - Direct (Mr. Fields) Page 4816

1 indemnification agreement in place.
2 Q Why would the indemnification agreement affect the
3 underwriting decisions?
4 A Because if they had to pay a claim, they would get
5 repaid.
6 Q You mentioned that there was "not a lot of technical
7 underwriting." Was that the phrase that you used?
8 A Yes.
9 Q What do you mean by "technical underwriting"?
10 A I would mean the nuts and bolts. Really, you know,
11 getting into the different aspects, you know, doing -- ordering
12 clue reports, past claim reports, um, analyzing different
13 reports that are available in the industry. None of that was
14 really done in this case.
15 Q In your experience, do sureties approve bonds where the
16 surety has doubt about the indemnitor's ability to fulfill the
17 obligation under the indemnity agreement?
18 A No. From my experience companies -- insurance
19 companies don't waste their dollars.
20 Q And in your experience, do sureties write bonds for a
21 company if they feel that company has defrauded them?
22 A No, if they felt that way, they would stop the -- the
23 program and not write bonds for them.
24 Q You mentioned the term "accommodation." What is an
25 accommodation?

D. Miller - by Defense - Direct (Mr. Fields) Page 4817

1 A "Accommodation" basically, in simple terms, would be a
2 favor. You are doing it as a reason to keep other things in
3 place, whether it's the relationship, the business relationship,
4 or other business relations that you have in place.
5 So you are doing it as a business decision rather than
6 possibly a technical underwriting decision.
7 Q How common are accommodations in the industry?
8 A Probably too common. There's a lot of pressure in the
9 industry to -- that, um, you know, large brokers can assert in
10 order to get their way.
11 Q Are accommodations more common when you talk about
12 surety bonds, or less common?
13 A Because of the nature of surety bonds and the ability
14 to get repaid on surety bonds, they are done as an accommodation
15 because the exposure, the risk is potentially pretty minimal to
16 companies.
17 Q So is it your opinion that Zurich was writing the
18 surety bond program as an accommodation?
19 MR. AMER: Leading, your Honor.
20 THE COURT: Sustained. Leading.
21 Q Why was Zurich underwriting the surety bond program
22 with The Trump Organization, in your opinion?
23 A Well, I can only go by the testimony that I wrote --
24 that I read, and that was, um, the things that the underwriter
25 specifically said; the relationship with Aon was very important,

D. Miller - by Defense - Direct (Mr. Fields) Page 4818

1 and keeping business intact was very important. Those were two
2 things that were considered of high importance to the surety
3 underwriting.
4 THE COURT: So that opinion is based only on the
5 evidence, not on your expert opinion; is that correct?
6 THE WITNESS: Um, that's what I read. And if you
7 would like to rephrase that, I'm sorry.
8 MR. FIELDS: I think based on his years of
9 experience is what Mr. Miller is saying. His experience
10 working at insurance companies and understanding the reasons
11 that they do things or don't do things.
12 THE COURT: But he specifically said based solely
13 or based only on the correspondence or testimony he read.
14 So I'm saying, well, if it's based only on what you read,
15 then it's not based on your expertise.
16 THE WITNESS: Well, let me rephrase that, your
17 Honor. That's what I read. And from my personal experience
18 and my expertise in the surety business, very often surety
19 is written as an accommodation to other lines of business.
20 THE COURT: Okay.
21 MR. AMER: Your Honor --
22 THE WITNESS: As an underwriting officer of a
23 Fortune 500 company, that's my experience.
24 THE COURT: Okay. Thank you.
25 MR. AMER: Your Honor, his opinion is based on the

D. Miller - by Defense - Direct (Mr. Fields) Page 4819

1 testimony and, and one underwriter. I think we should know
2 who that underwriter is. And I think it's Ms. Caulfield and
3 not Ms. Mouradian, from my understanding of his prior
4 testimony. So if we could get that clarification, please.
5 THE COURT: Do you remember which witness you're
6 inferring to?
7 THE WITNESS: I believe that was Ms. Caulfield, but
8 in context, Ms. Mouradian was a continuation of the program
9 and the basis. It was set up by Ms. Caulfield, and she just
10 continued that program.
11 So the basis of the program was already in place
12 when Ms. Mouradian took over the account.
13 Q Would it refresh your recollection to look at your
14 report to see exactly what testimony you read in connection with
15 drafting your report?
16 A Sure.
17 MR. AMER: I think his recollection is spot on. It
18 was Ms. Caulfield. So I don't know why we need to look at
19 his report to refresh his recollection.
20 THE COURT: Well, he said it was based on Caulfield
21 and then Mouradian, quote, "continued the program." But I
22 have no problem with no objection to his looking at the
23 expert affidavit.
24 MR. AMER: But, your Honor, just to be clear, I
25 don't think he said he relied on Ms. Mouradian's testimony.

D. Miller - by Defense - Direct (Mr. Fields) Page 4820

1 I think he said Ms. Mouradian was successor underwriter to
2 Ms. Caulfield.
3 (The exhibit was handed to the witness.)
4 Q On the final page of your report, Mr. Miller.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q Do you see at the bottom of page C-i?
8 A Yes.
9 Q Whose deposition transcript did you review?
10 A Joanne Caulfield's.
11 Q And then on the next page?
12 A And Regina, Michael Holl and Claudia Mouradian, and
13 Ms. Wu.
14 MR. AMER: The question is not whose testimony did
15 he review. The question is what testimony is he relying on
16 for his opinion?
17 THE COURT: Correct.
18 MR. FIELDS: Okay.
19 THE COURT: So we need to know which testimony he
20 is relying on, not just which ones he read.
21 Q What information or testimony did you rely on in
22 forming your opinion in this case?
23 A Um, both underwriting depositions --
24 Q Okay.
25 A -- from the underwriters. And that would be from

<p>D. Miller - by Defense - Direct (Mr. Fields) Page 4821</p> <p>1 Ms. Mouradian and Ms. Caulfield. 2 Q Did you also have the opportunity to read 3 Ms. Mouradian's trial testimony? 4 A Yes. 5 Q And did that change your opinion in any way? 6 A No. 7 (Whereupon, the exhibit displayed on the screen was 8 taken down.) 9 Q How, if at all, does an accommodation affect the 10 underwriting process? 11 A Well, an accommodation generally means that you've 12 already made the decision to write it, or you are going to write 13 it, because of the situation that you are being asked to do. 14 So, in general, it probably loosens or eliminates the 15 underwriting standards, because you already know you are going 16 to do it, so you just do it. 17 Q Is there anything that requires the surety to make the 18 underwriting -- withdrawn. 19 Is there anything that requires the surety to make an 20 accommodation? 21 A Pressure from the broker. 22 Q Trying to develop more business? 23 A Yes. 24 THE COURT: Leading. 25 MR. AMER: I was trying to get there quickly.</p>	<p>D. Miller - by Defense - Direct (Mr. Fields) Page 4823</p> <p>1 A Yes. At one point, because the -- over the years the 2 business had been profitable. They reduced the rate to the 3 standard filed rate of \$15, and then at one point, I believe 4 it's in 2015 or 2016, Arch Insurance company came in and they 5 saw that the surety business was profitable and is something 6 that they wanted to write, and they offered it at \$10 per 7 thousand, I believe. And so at that point, because of 8 competitive reasons, Zurich lowered their rate to \$10 in order 9 to maintain the business. 10 MR. FIELDS: May I have one moment, your Honor. 11 THE COURT: Sure. 12 (Whereupon, there is a brief pause in the 13 testimony.) 14 Q All right, Mr. Miller, I would like to show you a 15 couple of documents that you reviewed in providing your opinion 16 or arriving at your opinions in this case. 17 MR. FIELDS: If we could pull up D-43, please. 18 (Whereupon, the exhibit was displayed on the 19 screen.) 20 (The exhibit was handed to the witness.) 21 Q Do you recall reviewing this? 22 A Yes. 23 Q And does it appear to be the memorandum -- underwriting 24 memorandum from 2009? 25 A Yes, it does.</p>
<p>D. Miller - by Defense - Direct (Mr. Fields) Page 4822</p> <p>1 THE COURT: We've heard this several times already, 2 so it doesn't really matter. 3 MR. FIELDS: Fair enough. 4 Q How are surety bonds priced? 5 A Surety bonds are priced by rates filed with the 6 Department of Insurance. They file a standard rate, and then 7 they file a debit and credit that they can apply to that 8 standard filed rate. 9 Q From your review of the information in this case, do 10 you know what the standard rate was? 11 A I believe the standard rate was \$15 per thousand of 12 exposure. 13 Q And do you recall what the rate was at the beginning of 14 the relationship? 15 A Yes. At the beginning of the relationship it was -- 16 the account was debited 33 percent, and they used a \$20 rate per 17 thousand. 18 Q And why would an underwriter debit an account like 19 that? 20 A Possibly it's a new program and they want to get 21 experience with a person before they give them -- they have the 22 ability to charge more. They want to get experience, so they 23 charge more. 24 Q And did there come a time that the account in this case 25 was credited?</p>	<p>D. Miller - by Defense - Direct (Mr. Fields) Page 4824</p> <p>1 Q Do you see under the subheading "Financial Review and 2 Summary" toward the top? 3 A Yes. 4 Q Does it appear to you that the it has been filled in 5 the way you would expect to see an underwriting memorandum? 6 MR. AMER: Your Honor, just note my objection to 7 the 2009 underwriting document. It's irrelevant. 8 THE COURT: What's the relevance of this? 9 MR. FIELDS: Again, to establish the relationship, 10 your Honor, and what it eventually evolved into. 11 MR. AMER: How does that -- 12 THE COURT: Mr. Amer, what years would you consider 13 relevant, if any? 14 MR. AMER: 2019 and 2020 underwriting renewal 15 meetings that Ms. Mouradian attended on site at the Trump 16 office building. That's where the fraud occurred, and 17 that's the only relevance to our fraud claims. 18 MR. ROBERT: Your Honor, respectfully, we've sat 19 here for several weeks, as has the Court, and the government 20 has gone into documents going back over a decade. And it's 21 almost a joke every time we objected, you know, "statute of 22 limitations." We tried to do it in as least an intrusive 23 way possible, and the government kept saying, well, it's 24 still appropriate and it's something to deal with the 25 equitable relief they are seeking. I still don't understand</p>

D. Miller - by Defense - Direct (Mr. Fields) Page 4825

1 they're method, but be that as it may, we're just trying to
2 show and establish what happened prior to the alleged fraud.
3 And, quite frankly, one thing I may agree with
4 Mr. Amer on is, I don't think there's any fraud here, so the
5 fact that he thinks it's only limited to -- what did he say?
6 THE COURT: 2019.
7 MR. ROBERT: 2019, I don't even think that's the
8 case. If he wants to agree and put on record there is no
9 claim for any misconduct prior to 2019, I'm certainly
10 willing to accept that on behalf of my clients, and I'm sure
11 my colleagues are as well.
12 MS. HABBA: I'm happy to.
13 THE COURT: But you -- but you would still want to
14 put this evidence in, even if they accepted your offer,
15 right?
16 MR. ROBERT: I will take a moment to think about
17 it. I haven't heard they accepted my offer, but I stand
18 here eagerly awaiting what Mr. Amer has to say.
19 THE COURT: Do you accept the offer if they say not
20 that there is no fraud, but they are not claiming any fraud,
21 right, prior to 2019?
22 MR. ROBERT: Again, your Honor, if they are trying
23 to use any conduct prior to 2019, as they have been arguing
24 before you for purposes of their equitable claim, then it's
25 most certainly appropriate that we are able to explain why

Page 4826

1 that's not so.
2 THE COURT: I'll save a lot of time. It's in.
3 MR. ROBERT: Okay. Thank you, Judge.
4 THE COURT: But I -- I trust we'll move fast
5 through this, because it is ten years prior.
6 MR. FIELDS: Certainly.

Miller - by Defendant - Direct (Fields) Page 4827

1 MR. FIELDS: I don't know if I ever -- was there
2 an end to the question? I don't think so. Let me reask
3 it.
4 Q The financial review and summary section, does it
5 appear to you that it has been completed the way you would
6 expect to see this in an underwriting memorandum?
7 A No. It looks like no underwriting was done actually.
8 Q How can you tell that?
9 A There is nothing filled in.
10 Q So what would you expect to see based on your
11 experience?
12 A I would expect to see all of the ratios and
13 everything filled in and completed.
14 MR. FIELDS: If we could then go to page three?
15 Q What did the single bond and aggregate bond limits
16 appear to be in 2009?
17 A Single bond 1.1 million and the program 2.5 million.
18 MR. FIELDS: Okay. I'll move to admit D-43.
19 THE COURT: I'll admit it, with just the comment
20 it sounded like -- well, it is relevant to the
21 relationship, but they didn't make the relationship. They
22 didn't make a deal. Is that? Let me ask the witness.
23 Did this lead to any indemnity, insurance,
24 anything?
25 THE WITNESS: There was -- there was no claims

Miller - by Defendant - Direct (Fields) Page 4828

1 on the bond on the surety program that I saw ever, Your
2 Honor. So there was no need to enforce an indemnity
3 agreement because there was no claims made.
4 THE COURT: But was there an indemnity agreement
5 in 2009?
6 THE WITNESS: I believe so, yes.
7 THE COURT: Okay. It is in.
8 Let's just move on.
9 (Whereupon, the document referred to was deemed
10 marked for evidence as Defendant's Exhibit 43 by the
11 Court.)
12 MR. FIELDS: If we could pull up D-44, please?
13 Q This is now a 2010 memorandum, Mr. Miller?
14 A Yes.
15 Q And does it appear that there is a little bit more,
16 what I'll call, commentary or meat on the bones, so to speak?
17 A Well, no.
18 Q Well, do you see a little more writing in this
19 memorandum?
20 A I see more memorandum, but the financial area -- the
21 financial review area is still blank.
22 Q All right. On the second bullet point under Personal
23 Financial Analysis Section -- and again this is Ms. Caulfield,
24 right?
25 A Yes.

Miller - by Defendant - Direct (Fields) Page 4829

1 Q Do you see that she writes in this bullet point that:
2 Zurich lost the insurance program in May of 2011, I performed
3 an on site review of Trump's personal financial statements?
4 A Yes.
5 Q So did you understand that to be a relationship,
6 property and casualty relationship that predated the surety
7 bond program?
8 MR. AMER: Objection, leading.
9 A Yeah.
10 THE COURT: Sustained. Sorry.
11 THE WITNESS: Sorry.
12 Q What, if any, relationship in terms of insurance
13 existed prior to the surety bond program, to your
14 understanding?
15 A My understanding there was a property casualty
16 relationship.
17 Q How does that affect the ultimate decision for a
18 surety to write bonds if they have just lost a property and
19 casualty program?
20 A Well, because the surety program was already approved
21 prior to this, while they had the relationship and it had no
22 claims lost from an underwriting standpoint, my experience is
23 you don't throw out a profitable line of business because you
24 lost the other business. You try to keep it and hope to get
25 the other line of business back.

Miller - by Defendant - Direct (Fields) Page 4830

1 MR. FIELDS: If we could go to page two, please?
2 Q Under the rates section, do you see that it says rate
3 charged is \$20 per thousand?
4 A Yes. That's the -- that's the debited rate that I
5 referred to.
6 Q And when you say, "debited," do you mean because it
7 is higher than the standard rate?
8 A 33 percent higher than the filed rate, the standard
9 rate.
10 MR. FIELDS: If we could then move to -- I'll
11 move to admit D-44.
12 THE COURT: Granted. It is in.
13 (Whereupon, the document referred to was deemed
14 marked for evidence as Defendant's Exhibit 44 by the
15 Court.)
16 MR. FIELDS: If we can move to D-45, please?
17 (Handing)
18 Q This is now a 2012 memorandum, Mr. Miller?
19 A Yes.
20 Q The second bullet point under Personal Financial
21 Analysis section. Do you see where Ms. Caulfield writes:
22 "When Zurich lost the insurance program in May of 2011, I
23 performed an on site review of Trump's personal financial
24 statements. This option has not been presented as an option at
25 this time, although it has been requested many times"?

Miller - by Defendant - Direct (Fields) Page 4831

1 A Yes.
2 Q And on the next bullet point, do you see the
3 underwriter writes something about Forbes and Donald Trump's
4 personal net worth estimated at 3.2 billion?
5 A Yes.
6 Q In your experience, have you ever seen underwriters
7 rely on media publications in making underwriting
8 determinations?
9 A Prior to this, no.
10 Q And the last bullet point at the bottom of the page.
11 Do you see that Ms. Caulfield writes: "Bonds already written
12 may continue to renew as an accommodation to AON, New York"?
13 A Yes.
14 Q Do you understand that to mean the same accommodation
15 that you have testified about here this morning?
16 A That's correct.
17 THE COURT: Leading.
18 MR. AMER: Leading.
19 THE COURT: I beat you to it that time.
20 Objection sustained. It was totally leading.
21 Q What do you understand the term "accommodation" to
22 mean in this context?
23 A That means they were writing the bonds, because they
24 initially wrote it as a favor to AON and they were still
25 writing it as a favor to AON as of this date.

Miller - by Defendant - Direct (Fields) Page 4832

1 Q On the last page, the second bullet point at the top
2 beginning with, "no new bonds."
3 Do you see that the underwriter writes: "No new bonds
4 to be approved or issued unless financial disclosure is
5 provided"?
6 A Yes.
7 Q And below that, the line below it, what is the single
8 and aggregate bond limit as of this time?
9 A 500,000 for any single bond and a million-dollar
10 aggregate.
11 MR. FIELDS: Move to admit D-45.
12 THE COURT: I am sorry, what was that?
13 MR. FIELDS: Move to admit Defense 45.
14 THE COURT: Granted. It is in.
15 (Whereupon, the document referred to was deemed
16 marked for evidence as Defendant's Exhibit 45 by the
17 Court.)
18 MR. FIELDS: If we could pull up D-47, please?
19 (Handing)
20 THE WITNESS: Thank you.
21 Q All right. At the bottom of the page -- or
22 Mr. Miller, let me just ask you. What year does this appear to
23 be a memorandum for?
24 A 2013.
25 Q At the bottom of the page, do you see where

Miller - by Defendant - Direct (Fields) Page 4833

1 Ms. Caulfield writes: The account was cut off from any new
2 bonds in January of 2012 due to failure to pay fronting fees
3 for a bond issued in Scotland?
4 A Yes.
5 Q And she continues: This bond has since been
6 released, also the account's failure to provide updated
7 underwriting information prohibits us from taking on any new
8 liability?
9 A Yes.
10 Q From your review of this, does it appear that the
11 underwriter is not inclined to take on additional risk?
12 MR. AMER: Objection.
13 A That's what was written, but in reality --
14 THE COURT: Hold on.
15 Go ahead, Mr. Amer.
16 A Thanks. That's what was written --
17 THE COURT: Hold on.
18 MR. AMER: It is leading. He is suggesting the
19 answer.
20 THE COURT: It is leading. Sustained.
21 MR. FIELDS: Okay.
22 Q What does this sentence mean to you as a former or
23 current underwriter?
24 A That means that they weren't -- they didn't want to
25 write anymore business at the time. But the reality from my

Miller - by Defendant - Direct (Fields) Page 4834

1 recollection is when they were requested to write additional
2 bonds, they continued to write bonds because of the
3 relationship with AON.
4 THE COURT: I often tell my staff that "they" is
5 a bad word. Can you just be --
6 THE WITNESS: Zurich.
7 THE COURT: Okay.
8 MR. FIELDS: All right. And if we could go to
9 the fourth page, please.
10 Q What does the single and aggregate bond limits appear
11 to be?
12 A 500,000 and a million.
13 MR. FIELDS: Move to admit Defense 47.
14 THE COURT: Sustained. It is in -- Sorry. It
15 is like duck, duck, goose, right?
16 Granted, it is in.
17 (Whereupon, the document referred to was deemed
18 marked for evidence as Defendant's Exhibit 47 by the
19 Court.)
20 MR. FIELDS: Defense 48, please.
21 (Handing)
22 THE WITNESS: Thank you.
23 Q What year is this, Mr. Miller?
24 A 2014.
25 Q At the third bullet point under -- beginning with "a

Miller - by Defendant - Direct (Fields) Page 4835

1 press release." Does it appear that the underwriter is now
2 referring to a different media publication?
3 A Yes.
4 Q And what publication is that?
5 A USA Today.
6 THE COURT: Five-minute warning.
7 MR. FIELDS: And on the next page, page two.
8 Q Under the first heading or the first bullet point at
9 the top, do you see where the underwriter writes: "Bonds
10 already written may continue to renew as an accommodation to
11 AON, New York, no further material expansion to the program
12 until the financial review of DJT's personal statements has
13 been completed."
14 A Yes.
15 MR. FIELDS: And if we could then go to page
16 four.
17 Q Under the FYE Account Program Recommendation
18 subheading in the middle?
19 A Yes.
20 Q The -- I guess what would be technically the second
21 bullet point, "line to be increased." Do you see where the
22 underwriter writes: "Line to be increased to 2.2 million
23 single and 3 million aggregate. No material further expansion
24 to the program without the on site review of personal financial
25 statements?"

Miller - by Defendant - Direct (Fields) Page 4836

1 A Yes.
2 Q And if we could -- or the top paragraph here under
3 July 23, 2015; do you see where the underwriter writes:
4 "Financial statements are not provided and the previous
5 supporting insurance relationship with Zurich is no longer in
6 force. Given Mr. Trump's personal wealth versus the type and
7 size of program we are on, the recommendation is to renew the
8 line for billing purposes of the existing bond renewals."
9 Do you see that?
10 A Yes.
11 Q All right. Now at the bottom of the page under SDA
12 History. What are the single and aggregate bond limits?
13 MR. AMER: Your Honor, I am going to object.
14 Why are we having this witness just confirm what the
15 document says without asking him any questions about what
16 the document says? This is a waste of time.
17 THE COURT: I was surprised that there was no
18 question about that last statement.
19 MR. FIELDS: My next question I think is going
20 to be important, Your Honor.
21 THE COURT: Well, if it is important I'll let
22 you ask it. But I take Mr. Amer's points and I ask you to
23 take it into consideration. There is generally no point
24 in just: Do you see that statement?
25 Yes.

Miller - by Defendant - Direct (Fields) Page 4837

1 Okay. There it is.
2 But anyway, let's hear the important question.
3 MR. FIELDS: I don't think he answered what the
4 single and aggregate bond limits were. If he could
5 answer, then I'll ask a question that I think is important
6 for the Court to understand in terms of how the program is
7 expanding.
8 A 2,200,00 and 3,000,000.
9 Q Okay. And do you recall that in the last year the
10 single was 500,000 and the aggregate was 1 million?
11 A That's correct.
12 Q Does it appear to you as an underwriter that the
13 program has expanded without the underwriter reviewing any
14 updated financial information?
15 MR. AMER: Objection, leading.
16 THE COURT: Leading.
17 I let you go first that time. I knew right
18 away.
19 Leading sustained.
20 MR. FIELDS: Okay.
21 Q So the single bond limit last -- the prior year we
22 looked at was 2012 -- I am sorry, 2013, was 500,000; do you
23 recall that?
24 A Yes.
25 Q And now how much is it?

Miller - by Defendant - Direct (Fields) Page 4838

1 A 2.2.
2 Q And from your review of the documents, did the
3 underwriter review financial information between when it was
4 500,000 to now being \$2.2 million?
5 A No.
6 Q And I would ask you the same question for the
7 aggregate. Did it appear that there was any underwriting
8 information or financial review information done to make the
9 determination to take it from 1 million to 3 million?
10 A There wasn't anything done.
11 MR. FIELDS: I move to admit Defense 48.
12 THE COURT: It is in.
13 (Whereupon, the document referred to was deemed
14 marked for evidence as Defendant's Exhibit 48 by the
15 Court.)
16 MR. FIELDS: Two minutes?
17 THE COURT: Two minutes warning.
18 MR. FIELDS: Okay. Defense 49, please.
19 (Handing)
20 THE WITNESS: Thank you.
21 THE COURT: One minute warning.
22 Q Does this appear to be another 2014 memorandum?
23 A Yes.
24 Q I'll represent to you that the one we just looked at,
25 Defense 48, was current date at the top was July 23, 2015.

Miller - by Defendant - Direct (Fields) Page 4839

1 What date at the top is reflected here on this document?
2 A 11/6/2015.
3 Q So would that be approximately give or take four
4 months later?
5 A Yes.
6 Q Okay. And if you would flip to the second page. At
7 the top above operations/management review. Do you see where
8 there is a November 6, 2015 entry?
9 A Yes.
10 Q Does it appear that there was an additional bond in
11 the amount of \$2 million added that brought the overall
12 capacity to 5.2 million?
13 A Yes.
14 Q From your review of the document, was there any
15 underwriting -- withdrawn.
16 From your review of the documents was there any
17 financial information looked at by the underwriter from July of
18 2015 to November of 2015?
19 A No, there wasn't.
20 THE COURT: Okay. Ten minute break. See you
21 all in 15 minutes.
22 (Whereupon there was a pause in the proceeding.)
23 COURT OFFICER: All rise.
24 Part 37 is back in session. Please be seated
25 and come to order.

Miller - by Defendant - Direct (Fields) Page 4840

1 THE COURT: When Tommy does that people in Foley
2 Square Park stand up. It is amazing.
3 (The witness resumed the stand.)
4 THE COURT: Please continue.
5 MR. FIELDS: All right. If we could pull up,
6 please, Defense 49 that we were just discussing a minute
7 ago, perhaps 15 minutes ago. And the second page, bottom
8 of the page, under the 11/6/2015. Joanne Caulfield all
9 the way at the bottom.
10 Q Mr. Miller, do you see the term Arch used here?
11 A Yes.
12 Q And you testified a little bit about Arch earlier,
13 but what is Arch?
14 A And is an insurance carrier.
15 Q And what does it appear that the underwriter is doing
16 here as a result of Arch?
17 A Decreasing the premium, they are crediting the
18 premium in order to stay competitive.
19 MR. FIELDS: All right. Moving Defense 49.
20 THE COURT: Granted, it is in.
21 (Whereupon, the document referred to was deemed
22 marked for evidence as Defendant's Exhibit 49 by the
23 Court.)
24 MR. FIELDS: I would like to move to 2019. So
25 this is Plaintiff's 1552 in evidence.

Miller - by Defendant - Direct (Fields) Page 4841

1 Q All right. Let me just ask you, what year is this
2 underwriting memorandum from?
3 A 2019 -- 2020. I am sorry.
4 Q And at the top left here, can you see who the
5 underwriter is?
6 A Yes. Claudia Mar --
7 Q Markarian?
8 A Markarian.
9 Q I'll represent to you that Ms. Markarian was married
10 and changed her last name. And her last name is now Mouradian,
11 so I'll refer to her as Ms. Mouradian.
12 Under the financial review and summary section, does
13 it appear that Ms. Mouradian has filled out this section the
14 way you would expect to see it in an underwriting memorandum?
15 MR. AMER: Objection, leading.
16 THE COURT: Sustained as to leading.
17 Q What do you gather from the financial review and
18 summary section in front of you?
19 A Nothing changed from the prior years. It doesn't
20 look like little or no underwriting was done.
21 Q If we could then zoom out and go down a little
22 further under personal financial analysis. The first bullet
23 point that begins with "I reviewed."
24 Do you see where Ms. Mouradian writes that she
25 reviewed the personal financial statements of Donald J. Trump

Miller - by Defendant - Direct (Fields) Page 4842

1 on November 20, 2018?
2 A Yes.
3 Q And once again -- withdrawn.
4 Under the third bullet point beginning with, "cash on
5 hand." How much cash on hand does Ms. Mouradian note in this
6 bullet point?
7 A 76.2 million.
8 Q And how much in escrow funds?
9 A 22.7 million.
10 Q On the next page, page two, under the surety program
11 heading, first paragraph. How many bonds as of November 27,
12 2018 was Zurich or did Zurich have in terms of outstanding
13 liability?
14 A They had about approximately 21 bonds and exposure of
15 10.9 million.
16 Q And on page three under the rates section. What is
17 the account rate at this time?
18 A \$10 per thousand.
19 THE COURT: Is that per thousand or per million?
20 Q Could you explain, Mr. Miller, what the \$10/m
21 generally means?
22 MR. AMER: We will stipulate that's per
23 thousand. Two m-s would be million.
24 THE COURT: That's what I sort of figured. I
25 always sort of use K, but.

Miller - by Defendant - Direct (Fields) Page 4843

1 Q Then lastly, if we could go to page five, the second
2 bullet point under FYE account program recommendations that
3 begins with "although the indemnity package."
4 Do you see where Ms. Mouradian writes: "Although the
5 indemnity package and financial disclosure is not perfect, it
6 is highly unlikely the Trump Organization would allow any of
7 our bonds to end up in a claims situation. There is also
8 substantial liquidity within the company to cover any bond need
9 should there be an issue"?
10 A Yes.
11 Q And do you see where she continues: "The CFO and
12 Controller were highly professional, well-educated and
13 conscientious about the work that they do. I learned that many
14 employees have worked for the Trump Organization for extended
15 periods of time. There is a loyalty to the organization that
16 is widespread and the employees enjoy working for the Trump
17 family"?
18 A Yes.
19 Q Why is this important in making an underwriting
20 determination?
21 A It falls back to the three Cs. And the character of
22 the organization. So, from an underwriting standpoint she said
23 that the character seems to be a good fit for surety
24 operations.
25 And their capacity, the other C, is overall this is a

Miller - by Defendant - Direct (Fields) Page 4844

1 very small program for a company like Zurich or even for an
2 organization as large as this. It is a relatively small
3 program by industry standards. Not a lot of exposure.
4 Really in this case, because of the liquidity
5 situation and the indemnity agreement, Zurich is looking at a
6 zero exposure, which is perfect for the surety business.
7 MR. FIELDS: And if we could zoom out and then
8 just look at the rate down at the bottom of the page. I
9 am sorry not the rate, the single and aggregate exposure.
10 Q What is the single and aggregate exposure at this
11 time?
12 A Actually the underwriter had raised from the prior, I
13 believe it was 2 million and about 3 million, increased the
14 overall program to 6 million to any one single bond and
15 \$20 million aggregate exposure for all bonds.
16 Q What does the \$20 million figure represent in terms
17 of the worst possible scenario for the surety?
18 A Worst possible scenario 20 million aggregate means if
19 all of the bonds defaulted at once, they would have a
20 \$20 million exposure.
21 MR. FIELDS: I would like to shift gears and
22 talk to you about Directors & Officers insurance for a
23 moment.
24 Q How, generally, does Directors & Officers insurance
25 work?

<p>Miller - by Defendant - Direct (Fields) Page 4845</p> <p>1 A Well, Directors & Officers is liability cover for the 2 directors and management of a company. And it avoids the 3 cost -- the cost of expensive litigation. 4 Q What steps do underwriters in the directors and 5 officers world take when deciding whether to underwrite a D&O 6 policy? 7 A Generally an underwriter will look at a series of 8 things. They are going to look at claims histories is very 9 prominent in the D&O world. They want to know have they had 10 prior claims; do they have a claims history; have they had a 11 lot of problems. 12 They also look at have they had HR problems, employee 13 problems. Do they have international worldwide exposures. 14 Where is their location. What industry are they in; some 15 industries are more prone to litigation than others. They are 16 going to look at diversity of business, and that means do they 17 specialize in one business or are they operating businesses 18 that are completely different. From a D&O perspective as an 19 underwriter, I prefer from experience having somebody that 20 specializes in one area because you are getting more expertise 21 and less likelihood of a D&O exposure. 22 And from a liquidity standpoint, as a D&O underwriter 23 you are looking at how big the retention is on the policy. In 24 this case it was approximately 2.5 million dollars. And you 25 want to make sure if there is a claim that they have the</p>	<p>Miller - by Defendant - Direct (Fields) Page 4847</p> <p>1 expose everything they do. 2 (The following proceedings were stenographically 3 recorded by Senior Court Reporter Michael Ranita.) 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
<p>Miller - by Defendant - Direct (Fields) Page 4846</p> <p>1 ability to pay the \$2.5 million retention in order to make the 2 policy work correctly. 3 MR. FIELDS: And Your Honor, I apologize, I 4 think I forgot to move in Defense 49. So I move in 5 Defense 49? 6 THE COURT: Granted, it is in. 7 (Whereupon, the document referred to was deemed 8 marked for evidence as Defendant's Exhibit 49 by the 9 Court.) 10 Q How does underwriting D&O insurance differ between 11 private and public organizations? 12 A Well, generally in public there is a lot more 13 information available. They have certain requirements that are 14 required to do certain type of financial statements. They are 15 required to do certain SEC filings. They are required to do -- 16 make more information publicly known. 17 Generally, private companies don't have that same 18 standard of reporting requirement. 19 And so from my experience I know writing a private 20 company there is going to be less information available, 21 less -- generally, you know, it is not quite as easy to rectify 22 it or check it because it is in a private nature compared to a 23 public filing. So you just understand when you are writing a 24 private company, you are not going to probably get as good 25 information as you are in a public company that has to, really,</p>	<p>D. Miller - by Defense - Direct (Mr. Fields) Page 4848</p> <p>1 Q Do D&O underwriters always review financials, or are 2 there instances in which they would not? 3 A In my experience, I have seen very large carriers, um, 4 not even look at financials in the private sector. They are 5 more interested in claims history and the type of business and 6 location, because they feel that's more indicative of future 7 performance. So if they have a lot of claims, their probably 8 gonna have a lot more claims. If they've not had claims, they 9 are probably not going to have claims. Statistically, it seems 10 to work that way. So they are going to look at those factors. 11 And they also understand that, you know, any financials 12 from a private company are a mere snapshot. So while it may be 13 true today, they could change tomorrow. So the relevance or how 14 much weight they put into those are not as extensive as the 15 other items they look at. 16 Q You mentioned "claims history." Do you recall, from 17 your review of the documents or testimony regarding the D&O 18 policy, whether The Trump Organization had a long claims history 19 for its D&O? 20 A I don't believe I saw any claims submitted under the 21 D&O policies I reviewed. 22 Q In your experience when -- well, let me withdraw that. 23 In your experience, do D&O carriers and insureds 24 disagree or litigate over policy coverage frequently? 25 A Yes. The nature of D&O, the agreements or the</p>

D. Miller - by Defense - Direct (Mr. Fields) Page 4849

1 requirements under a director's and officer's liability policy
2 basically state that if you have any inclination that something
3 might arise or lead to a claim, you have to report it. So that
4 causes, you know, people to be cautious, report things that may
5 never come to fruition, may never cause a claim, um, may never
6 possibly be covered. And so that's up to the company to decide
7 once that is reported.

8 And in certain cases, there's, um, the policy limits
9 who has to report a potential claim. And in this case, it was
10 only the risk manager or the general counsel. If they had
11 knowledge of a potential claim, they had to report it.

12 So once that knowledge was done, they have to report to
13 the claim. And then, you know, the insurance company is going
14 to decide if they think it's covered, not covered. And then if
15 that's not decided, then litigation occurs and the Court
16 ultimately decides coverage, no coverage. So that's how it goes
17 down the road, usually.

18 Q All right.

19 I would like to show you, just for a second, what's
20 been admitted as Plaintiff's 597.

21 (Whereupon, the exhibit was displayed on the
22 screen.)

23 (The exhibit was handed to the witness.)

24 THE WITNESS: Thank you.

25 Q Do you recognize what's in front of you as Plaintiff's

D. Miller - by Defense - Direct (Mr. Fields) Page 4850

1 597?

2 A Yes. This is the director's and officer's liability
3 policy.

4 Q And who is the carrier?

5 A Um, Tokio Marine, HCC -- HAC.

6 Q Under item one, "Named Organization", what is the named
7 organization?

8 A The Donald J. Trump Revocable Trust.

9 Q What does that mean? What does the "Named
10 Organization" mean?

11 A They are the first named insured. They are the first
12 named insured. The important person in the policy.

13 Q And "Policy Period" here is from January of 2017 to
14 January of 2018?

15 A That's correct.

16 MR. AMER: January 30th, your Honor.

17 A January 30th.

18 THE COURT: Exactly.

19 MR. FIELDS: I still -- that's accurate, January
20 of '17 to January of '18.

21 MR. AMER: It's not January 1st.

22 MR. FIELDS: I didn't say January 1st. I said
23 January, but fair enough.

24 Q All right. Then you see under the section, item four,
25 that says "Retention"?

D. Miller - by Defense - Direct (Mr. Fields) Page 4851

1 A Yes.

2 Q And what is the retention here?

3 A \$2.5 million.

4 Q And generally, how does a retention work?

5 A That generally retention works -- means if there's a
6 claim, and it's a covered claim and there's defense costs, um,
7 or something paid out, the client, in this case, The Donald J.
8 Trump Revocable Trust, would be responsible for the first
9 \$2.5 million of payment.

10 Q And the premium here is how much?

11 A Two hundred ninety-five thousand per year, for the
12 policy period.

13 MR. FIELDS: All right. If we could scroll down to
14 the bottom of the page where it says "Notice."
15 (Whereupon, the exhibit displayed on the screen was
16 scrolled through.)

17 Q What is this?

18 A That's the standard notice that's put on excess surplus
19 lines policy, which policies -- which is basically putting A
20 person on notice that they have -- they don't have the
21 protection of the, in this case, the New York Insurance
22 Department looking at it or approving the forms. It means that
23 they are going to use forms that aren't approved. They could
24 use rates that are their judgment. So it just means that, you
25 know, you have to pay attention because they aren't filed and

D. Miller - by Defense - Direct (Mr. Fields) Page 4852

1 regulated by the particular state.

2 Q Okay.

3 Did you have an opportunity to review some of this
4 policy?

5 A Yes.

6 Q And does the policy provide for who the named insureds
7 are?

8 A Yes, there is different endorsements where over -- they
9 added different named insureds and expanded the insureds on the
10 policy.

11 Q And is there also a provision that discusses who has
12 the requirement to report a claim if they have knowledge of a
13 potential claim?

14 A Yes. That is the endorsement that I referred to.
15 That's what we call a limiting endorsement. And they say that
16 it doesn't matter who else knows about a potential incident.

17 In this case, they are only required to report it for
18 coverage under the policy if the risk manager or the general
19 counsel, whoever holds those two positions, they are the required
20 reporters of potential claims.

21 MR. AMER: Your Honor, I'm going to object and move
22 to strike that answer after the word, "Yes." And his
23 opinion on this notice provision is improper because it's
24 not an opinion that was in his report, and disclosed.

25 It was not anything we had an opportunity to

D. Miller - by Defense - Direct (Mr. Fields) Page 4853

1 question him about during his deposition. And I might add,
2 is not relevant because late notice is not anything to do
3 with this case.
4 MR. FIELDS: He can be cross examined on it, number
5 one. But number two, this policy is in evidence, and he is
6 just identifying that he reviewed it and that it provides
7 for provisions for who has to have notice of a potential
8 claim, so.
9 THE COURT: Well, I understand what you are asking,
10 but I don't see the relevance at all.
11 MR. FIELDS: Well, the relevance is the government
12 is alleging that this carrier, under this policy, was
13 defrauded by the defendants. And if the Court --
14 THE COURT: But it has nothing to do with notice;
15 right?
16 MR. FIELDS: It does, absolutely, because the
17 government is going -- has put in evidence already about
18 notice of claims. They did it on Friday. So it's an
19 important provision that the Court has to be aware of, and
20 it was just a highlighting that for the Court.
21 MR. AMER: So if we are going to discuss this, we
22 may want to excuse the witness, but there's the second
23 objection which Mr. Fields hasn't addressed, which is, the
24 witness did not include any opinions on notice in his
25 report.

D. Miller - by Defense - Direct (Mr. Fields) Page 4854

1 MR. FIELDS: He --
2 THE COURT: Does it matter? If so we'll excuse the
3 witness and fight about it.
4 MR. AMER: Well, that goes to relevance. I would
5 like the witness to be excused if we are going to talk about
6 relevance.
7 THE COURT: Okay. I'll ask the witness to be
8 excused.
9 (Whereupon, the witness stepped down from the
10 witness stand and exited the courtroom.)
11 THE COURT: Mr. Amer.
12 MR. AMER: Our insurance fraud claim involves
13 disclosure during the underwriting negotiations, before the
14 policy was in effect. It has nothing to do with notice of
15 claim during the policy period. It's completely irrelevant.
16 THE COURT: Mr. Field, so far my understanding is,
17 well, it's part of the policy, so it's relevant, but I don't
18 see the relevance. But I don't see the point in objecting,
19 either. So I'm caught between a rock and a hard place.
20 MR. AMER: Well, it would have been nice to have
21 gotten this opinion at a point in time where I could have
22 asked him questions about it during his deposition. So now
23 I'm going ask him questions about it, and I hope I think I
24 know what he's going to say in response, but I don't have it
25 locked down in a deposition the way I would. And my line of

D. Miller - by Defense - Direct (Mr. Fields) Page 4855

1 questioning is going to be all about the fact that this
2 notice provision has absolutely nothing to do with the
3 obligation of an applicant to disclose information about
4 pending or threatened litigation during the underwriting
5 negotiations. And I would guess, if I asked him at his
6 deposition, he would agree. But now it's a little bit of a
7 question.
8 THE COURT: So Mr. Fields, what about the objection
9 that this was not included in his expert disclosure?
10 MR. FIELDS: Well, I think he's not really
11 providing an opinion. He's interpreting a document that's
12 in evidence based on his experience. He's not really
13 saying, "I opine that this is what it says, or it's not."
14 It's just what it says.
15 So I think the Court can look at it, determine what
16 it says, and he could be cross examined over it. But that's
17 really to the extent of what the questioning was going to
18 be.
19 MR. AMER: That's actually a third reason not to
20 admit this, your Honor. He's just asking him for his view
21 of a contract language in an insurance policy. New York is
22 clear, insurance policies are contracts, and they can be
23 interpreted by the Court without the assistance of any
24 expert witness. So why do we need to hear what this witness
25 thinks about this notice provision, even if it were relevant

D. Miller - by Defense - Direct (Mr. Fields) Page 4856

1 and even if it were a disclosed opinion.
2 MR. ROBERT: So can we just agree that it says what
3 it says as to who is required to give notice, and we could
4 shut this down.
5 THE COURT: Well, it says what it says.
6 MR. ROBERT: Is Mr. Amer is willing to agree?
7 MR. AMER: Then strike the answer and withdraw the
8 question and we'll agree it says what it says.
9 MR. ROBERT: That's fine. Then there's no cross
10 examination on that issue then either; that's fine.
11 THE COURT: The question is withdrawn. The answer
12 is stricken.
13 MR. ROBERT: Good.
14 THE COURT: It says what it says, then let's move
15 on.
16 MR. ROBERT: Thank you, Judge.
17 MR. FIELDS: No further questions.
18 THE COURT: Thank you for cutting through that.
19 Who was it that cut through the Gordian Knot. Remember that
20 mythology?
21 MR. ROBERT: I didn't hear that.
22 THE COURT: In Greek mythology, one of the heroes
23 cuts through the Gordian Knot. No one else could untangle
24 it; just cut right through it. Let's get the witness back.
25 By the way, does anybody know which novel that

D. Miller - by Defense - Cross (Mr. Amer) Page 4857

1 Caulfield had written?
2 MS. FAHERTY: Holden Caulfield.
3 THE COURT: The Catcher in the Rye.
4 MR. GABER: Wasn't it Alexander, the Great who cut
5 the Gordian Knot?
6 MR. ROBERT: I thought it was me.
7 THE COURT: I didn't realize it was Alexander.
8 Zeus or Odysseus or one of those people.
9 My cultural source says Alexander. Okay.
10 Mr. Amer, would you like to cross examine the
11 witness.
12 MR. AMER: I would.
13 THE COURT: Please proceed.
14 CROSS EXAMINATION
15 BY MER. AMER:
16 Q Good morning, Mr. Miller.
17 A Good morning.
18 Q Pleasure to see you again.
19 I want to clarify one thing. This is more for the
20 court reporter. When you said you attended Edinboro University,
21 that was he had Edinboro University in Edinboro, Pennsylvania,
22 spelled E-D-I-N-B-O-R-O, not the university in Scotland; right?
23 A That's correct.
24 THE COURT: You might have to get closer to the
25 microphone. Much better.

D. Miller - by Defense - Cross (Mr. Amer) Page 4858

1 Q You testified about this opinion you have about Zurich
2 having underwritten a surety program as an accommodation to Aon.
3 Do you recall that opinion?
4 A Yes.
5 Q You mentioned that Aon was one of the largest insurance
6 brokers; correct?
7 A That's correct.
8 Q And that Zurich would have accommodated Aon's wishes to
9 write this program so that Zurich wouldn't get shut out of
10 business that Aon places in the market; is that fair?
11 A Well, to help maintain the relationship, I think is
12 what I said, yes.
13 Q Okay.
14 You would agree that Zurich is one of the largest
15 property and casualty insurance companies in this country;
16 right?
17 A Correct.
18 Q And Aon makes commissions off the business that it
19 places with Zurich; right?
20 A Yes. I would assume they do, yes.
21 Q Well, they are not doing it for free; right?
22 A Correct.
23 Q So it's a mutually beneficial business relationship
24 that Aon and Zurich share; correct?
25 A Yes.

D. Miller - by Defense - Cross (Mr. Amer) Page 4859

1 Q You are not suggesting, are you, that if Zurich decided
2 not to write this small surety program, that all of a sudden
3 Zurich, one of the largest property casualty insurers in this
4 country would be cut off from Aon's business; are you?
5 A Well --
6 Q Just yes or no.
7 A No.
8 THE COURT: Mr. Amer, speak up a little bit.
9 MR. AMER: Sure.
10 Q We looked at an underwriting review document by
11 Ms. Caulfield that indicated that she was relying on an article
12 in Forbes.
13 Do you remember that?
14 A Yes.
15 Q And I believe your testimony, when you were shown that,
16 was that that was the first time you had ever seen an
17 underwriter relying on an article such as a Forbes article; is
18 that right?
19 A That's correct.
20 Q And we saw another underwriting review where they
21 relied on an article in USA Today.
22 Do you remember that?
23 A Yes.
24 Q I take it you have the same point to make, which is
25 that it's the first time you've ever seen a surety anywhere

D. Miller - by Defense - Cross (Mr. Amer) Page 4860

1 relying on something -- an article like that; right?
2 A Correct.
3 Q Can we just look at your report.
4 MR. AMER: Let's put it up on the screen, and just
5 so the Court has the reference, it's NYSCEF 1434.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q I think you were shown it already before, so we'll show
9 it to you again.
10 (Whereupon, there is a brief pause in the
11 testimony.)
12 MR. AMER: We could look at it on the screen if
13 that's easy enough for you, but let's go to page nine.
14 (The document was handed to the witness.)
15 Q I would like to focus you on the sentence that starts
16 on the second line of page nine, and I'll read it to you. And
17 this is part of your opinion; correct?
18 A Yes.
19 Q You write, "In some cases, because there is no legal
20 requirement to have financial statements to write surety bonds,
21 some underwriters do not require financials and instead use
22 their experience and other means (such as Forbes and USA Today)
23 to satisfy their underwriting needs."
24 Do you see that?
25 A Yes.

D. Miller - by Defense - Cross (Mr. Amer) Page 4861

1 Q So, in fact, it wasn't the first time you had seen
2 surety underwriters relying on articles such as those in Forbes
3 and USA Today, because as you say here in your opinion, some
4 underwriters do exactly that; right?
5 A And I was referring to the Zurich underwriters in
6 particular, in this case.
7 Q So your testimony was it was the first time you had
8 seen Zurich underwriters do it?
9 A It was -- I was referring to the fact that that's what
10 the Zurich underwriters did, yes.
11 Q No, but you specifically testified, under oath, sir,
12 that that was the first time you had ever seen that; right?
13 A Yes.
14 Q Okay.
15 Are you prepared to withdraw that testimony, because as
16 it indicates in your report, you acknowledged that some
17 underwriters do, in fact, rely on other means, such as Forbes
18 and USA Today, to satisfy their underwriting needs?
19 MR. FIELDS: Objection. This is not comparing
20 prior existing statements. Those are just examples that he
21 put up in his report, your Honor.
22 THE COURT: I don't see anything objectionable, but
23 I'll ask for a read back of that objection.
24 (Whereupon, the requested testimony was read back
25 by the court reporter.)

D. Miller - by Defense - Cross (Mr. Amer) Page 4862

1 THE COURT: Seems completely inconsistent. What am
2 I missing?
3 MR. FIELDS: It's not, because these are just
4 examples. It's not -- it doesn't suggest that he did, "has
5 seen Forbes and USA Today used." He just put examples how
6 it came up in this case.
7 MS. HABBA: I can say very clearly the question
8 originally was, "What have you seen? He answered that
9 question.
10 This is about what happened or that he knows
11 happens. But the question is, "What has he seen?" He said
12 he hadn't seen it before. It's not inconsistent.
13 THE COURT: That's not how I interpret the
14 testimony.
15 Objection overruled.
16 Do we need a read back.
17 MR. AMER: I would like a read back.
18 THE COURT: Read back of the question, please.
19 (Whereupon, the requested testimony was read back
20 by the court reporter.)
21 Q Yes or no?
22 A No.
23 Q When you testified under oath earlier this morning that
24 it was the first time you had ever seen a surety underwriter
25 rely on such information as an article in Forbes, that was

D. Miller - by Defense - Cross (Mr. Amer) Page 4863

1 incorrect, wasn't it?
2 A No.
3 Q And here, in your report, you are saying that in your
4 experience, some underwriters do, in fact rely on other means
5 other than financials such as Forbes and USA Today. That's what
6 you are saying here; right?
7 A Well --
8 Q Yes or no?
9 A I'm specifically referring to this case, that they used
10 Forbes and USA Today.
11 Q Let's just look at what you wrote on the top of page
12 nine of your expert report. You say -- let's back up. Because
13 the lead in to this.
14 MR. AMER: If we could go to the sentence before.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q So we have it in context. You say "Whereas a public
18 company may supply, audit the financial statements, privately
19 held companies are far more likely to provide financial
20 compilations, like The Trump Organization did here." See that?
21 A Yes.
22 Q Then you go on to say, "In some cases, because there is
23 no legal requirement to have financial statements to write
24 surety bonds, some underwriters..." -- let me stop there.
25 That's some underwriters, not just Zurich underwriters, but some

D. Miller - by Defense - Cross (Mr. Amer) Page 4864

1 underwriters in your expert experience; right?
2 A In that some underwriters do not require financials,
3 that statement is correct.
4 Q Okay.
5 "And some underwriters" is not specific to some Zurich
6 underwriters. You are talking, generally, some underwriters do
7 not require financials; right?
8 A That's correct.
9 Q Okay.
10 And you go onto say "...and instead use their
11 experience and other means, such as Forbes and USA Today, to
12 satisfy their underwriting needs"; right?
13 A That's correct.
14 Q And here you are talking about, in general,
15 underwriters, not specifically Zurich underwriters?
16 A No, that's not correct. The parens are referring, in
17 this case, the Zurich underwriter used Forbes and USA Today.
18 Have I seen underwriters use internet searches or
19 different things that they do, or, you know, when I say they use
20 different experience or different means, um, or different --
21 different things to satisfy their underwriting needs, but this
22 was the first time that I say it specifically the use of Forbes
23 and USA Today as specifically named, those two specific media
24 publications, this was the first time that I saw those two
25 specific, Forbes and USA Today, used as an underwriting tool in

D. Miller - by Defense - Cross (Mr. Amer) Page 4865

1 this case. That's not inconsistent. That's what Zurich did.
2 Q But you have seen, in general, some underwriters using
3 their experience and other means such as Forbes and USA Today to
4 satisfy their underwriting needs; correct?
5 A Yes, that's what it says.
6 Q I know what it says. I'm asking you.
7 THE COURT: You did ask him what does it say, so
8 that was the correct answer.
9 Q What you wrote here is based upon your experience;
10 right?
11 A Correct.
12 Q You also mentioned, Mr. Miller, that in forming your
13 opinions, you relied on not only the testimony of Ms. Caulfield
14 who underwrote -- was the underwriter through 2017, but I think
15 you also mentioned you relied on the testimony of Ms. Mouradian,
16 who underwrote the program after Ms. Caulfield left.
17 Do you recall that?
18 A Yes.
19 Q If you could just look at your report and -- you'll
20 see, starting at the top of page six --
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q -- there's a citation to Ms. Caulfield's deposition at
24 the top. Do you see that?
25 A I do.

D. Miller - by Defense - Cross (Mr. Amer) Page 4866

1 Q And I'm going to ask you all these questions with a
2 view toward my ultimate question, which is, is there any
3 reference at all in any of these paragraphs that I'm going to go
4 through with you to Ms. Mouradian/Markarian, or are all the
5 references, in fact, to Ms. Caulfield.
6 So this one is to Ms. Caulfield's deposition; correct?
7 A Correct.
8 Q And then in paragraph 20, in the middle of the
9 paragraph you reference, again, Ms. Caulfield's deposition
10 testimony. Do you see that?
11 A Yes.
12 Q And then in paragraph 22, the second line, you
13 reference Ms. Caulfield. Do you see that?
14 A Yes.
15 Q Twenty-three, you reference Ms. Caulfield in the first
16 line. Do you see that?
17 A Yes.
18 Q Paragraph 24, the first line you reference
19 Ms. Caulfield's deposition transcript. Do you see that?
20 A Yes.
21 Q Paragraph 25, the first line you reference two pages in
22 Ms. Caulfield's deposition transcript. Do you see that?
23 A Yes.
24 Q Paragraph 26, you reference, again, Ms. Caulfield in
25 the first line?

D. Miller - by Defense - Cross (Mr. Amer) Page 4867

1 A Yes.
2 Q And on paragraph 27, you reference Ms. Caulfield in the
3 first line. Do you see that?
4 A Yes.
5 Q Paragraph 28, you reference Ms. Caulfield's deposition.
6 Do you see that?
7 A Yes.
8 Q Paragraph 29, you reference Ms. Caulfield in three
9 different places; the first line, and then you cite to her
10 deposition at a couple of places in the middle. Do you see
11 that?
12 A Yes.
13 Q Paragraph 30, you reference Ms. Caulfield in the second
14 line. Do you see that?
15 A Yes.
16 Q And am I correct that at no point in any of your
17 opinions one and two, do you have any citation to Ms. Markarian
18 or Mouradian's testimony; right?
19 A Correct.
20 Q And you don't mention her by name at all, do you?
21 A No.
22 THE COURT: That was a negative question, you
23 realize.
24 Q I'm correct, am I? Aren't I?
25 A Correct.

D. Miller - by Defense - Cross (Mr. Amer) Page 4868

1 MR. AMER: Okay. You could put that down for now.
2 (Whereupon, the exhibit displayed on the screen was
3 taken down.)
4 Q Just to get this on the record, your hourly rate for
5 this engagement is \$350 an hour; correct?
6 A That's correct.
7 Q And prior to your deposition, you had spent with 45 to
8 50 hours on this engagement; right?
9 A Yeah, I believe that's correct, approximately.
10 Q And do you know how much additional time you spent
11 since your deposition?
12 A I haven't added it all up yet.
13 Q I would like to ask you a couple of questions about --
14 well, do you have any estimate, just to see if we could put
15 something on the record?
16 A Probably something the equivalent number of hours.
17 Q So an additional 45 to 50 hours?
18 A Approximately.
19 THE COURT: I'm always surprised when attorneys
20 don't say, "Well, can you estimate?" But you did pick it
21 up, eventually.
22 Q Let me ask you a few questions about your time at Erie
23 Insurance Group. I think you said you worked there for a total
24 of 22 years; is that right?
25 A Correct.

D. Miller - by Defense - Cross (Mr. Amer) Page 4869

1 Q And your last position there was senior vice president,
2 division officer; is that right?
3 A Senior vice president, division officer, chief
4 underwriting officer, and corporate risk manager.
5 Q And at some point during your time at Erie, you were
6 responsible for the company's underwriting of all commercial
7 lines of insurance; correct?
8 A That's correct.
9 Q And one of those lines of insurance, commercial lines
10 of insurance was surety; correct?
11 A Correct.
12 Q So, can we agree that there is no doubt, based on your
13 many years of experience as an underwriter, that surety is, in
14 fact, a form of commercial insurance?
15 A It's part of the -- it was part of my commercial
16 division, yes.
17 Q Different question. I just want to clarify that
18 there's no doubt, based on your experience as an underwriter,
19 that surety is, in fact, a form of commercial insurance?
20 MR. FIELDS: Objection. Calls for a legal
21 conclusion.
22 THE COURT: No. No, it calls for an expert
23 opinion.
24 MR. FIELDS: Then I would ask that the question be
25 referred to what state he's referring to, because insurance

Page 4870

1 is regulated by the state.
2 THE COURT: Okay. Let's give a state context.
3 Q Every state in the country.
4 A I -- I don't know the regulation of every state in the
5 country, but in general, I would say the answer is, yes.
6 Q And specifically in New York, is the answer yes?
7 A I would believe it can be considered commercial
8 business, yes.
9 Q Commercial insurance business, yes?
10 A Yes.

Miller - by Defendant - Cross (Amer) Page 4871

1 Q You would agree that a surety underwriter should look
2 at reasonable risk factors when considering whether to
3 underwrite a surety bond program for a particular applicant for
4 insurance, right?
5 A The answer to that is that that doesn't always happen
6 because of business considerations.
7 Q I didn't ask what typically happens. I asked you
8 "should."
9 Let me rephrase the question and just answer my
10 question, if you could.
11 You would agree that a surety underwriter should look
12 at reasonable risk factors when considering whether to
13 underwrite a surety bond program for a particular applicant,
14 yes?
15 A I think it depends on the situation.
16 Q Well, you determined that Zurich had normal
17 underwriting guidelines that included sufficient liquidity as a
18 reasonable risk factor, right?
19 A I believe that surety in general they would look at,
20 you know, that's part of the 3Cs I discussed earlier.
21 Q That wasn't my question because it is specific to
22 Zurich. You determined that Zurich had normal underwriting
23 guidelines that included sufficient liquidity as a reasonable
24 risk factor; isn't that correct?
25 A I don't believe I stated that they had normal

Miller - by Defendant - Cross (Amer) Page 4872

1 guidelines that -- that -- that included liquidity, I don't
2 believe. In the testimony this morning I said that --
3 Q Well, let's look at your deposition testimony, which
4 you gave prior to today. And let's look at page 31.
5 A Okay.
6 Q And you recall you gave testimony under oath at a
7 deposition, right?
8 A That's correct.
9 Q Looking at line 19: "And so my question to you is,
10 did you make an assessment that Zurich had normal underwriting
11 guidelines that included sufficient liquidity as a reasonable
12 risk factor?
13 "ANSWER: Yes, I made that from my experience
14 and knowledge of the business."
15 That was your sworn testimony at your
16 deposition, correct?
17 A Yes, but I --
18 Q Are you --
19 A I believe your question was different than what you
20 just asked. Yes, I agree with what I said there.
21 Q I actually, sir, think that my question was exactly
22 the question that is up on the screen. But, you are not
23 disavowing your deposition testimony are you?
24 A No.
25 Q And you agree that liquidity is an important risk

Miller - by Defendant - Cross (Amer) Page 4873

1 factor that should be part of the underwriting guidelines for a
2 company issuing surety insurance, correct?
3 A I believe liquidity is what they look at to make sure
4 they are going to get repaid in case there is a claim, yes.
5 Q But my question was different, sir. You agree that
6 liquidity is an important risk factor that should be part of
7 the underwriting guidelines for a company issuing surety
8 insurance, yes?
9 A Yes, I believe they look for liquidity.
10 Q And it is an important risk factor, yes?
11 A Well, to make sure they can repay the claim. That's
12 the purpose of the indemnification.
13 Q Yes or no; is it an important risk factor?
14 A Liquidity?
15 Q Yes.
16 A Yes.
17 MR. AMER: Let's look at the 2019 underwriter's
18 review, which is Plaintiff's Exhibit 1552 in evidence.
19 Q This is a document you reviewed and relied upon in
20 forming your opinions in this case, yes?
21 A Yes.
22 Q And I believe you testified that nothing changed
23 between this review and the prior underwriting review which
24 would have been by Ms. Caulfield; is that your testimony?
25 A My testimony was referring to the financial review

Miller - by Defendant - Cross (Amer) Page 4874

1 summary section, and it being filled in or not being filled in.
2 And in the case I said it wasn't filled in, like the other ones
3 weren't filled in. I believe that's what I said.
4 Q So when you said, nothing changed, you were only
5 referring to this first financial review and summary section,
6 correct?
7 A That section not being completed, that's correct.
8 Q You weren't intending to suggest that nothing had
9 changed in terms of the underwriting that had been done, right?
10 A The -- of what -- no, the question that was asked was
11 specifically, my recollection, was specifically about that
12 section.
13 Q I wasn't asking about the question that was asked. I
14 was asking a new question.
15 You are not suggesting, are you, sir --
16 THE COURT: Speak up.
17 Q You are not suggesting, are you, sir, that nothing
18 had changed from the prior underwriting year from an
19 underwriting standpoint?
20 A I would have to compare what was done.
21 Q Okay. Well let's look at what was done.
22 And if we go down to the personal financial analysis
23 section, you understood from your review of this document that
24 Ms. Markarian, now Mouradian, conducted an on-site review in
25 the latter part of November 2018 for the 2019 renewal of the

Miller - by Defendant - Cross (Amer) Page 4875

1 surety program, right?
2 A Correct.
3 Q So, that is a new underwriting change, isn't it?
4 A Her review of the financials?
5 Q Yes.
6 A Yes.
7 Q And the third bullet -- well, and what she reviewed
8 at that in-person review was the 6/30/2018 personal financial
9 statement of Donald J. Trump, correct?
10 A Correct.
11 Q And that was something that was new that
12 Ms. Caulfield hadn't done, right?
13 A I believe that's correct.
14 MR. FIELDS: Objection. That was misleading.
15 Is he referring specifically to the June 30, 2018
16 Statement of Financial Condition or any Statement of
17 Financial Condition prior to then?
18 MR. AMER: My question was that that was new
19 because Ms. Caulfield hadn't reviewed that 2018 financial
20 statement.
21 Q Right?
22 A Correct. She was no longer with the company.
23 Q And in the third bullet Ms. Mouradian states that
24 there was cash on hand of 76.2 million as reflected on
25 Mr. Trump's 2018 statement, right?

Miller - by Defendant - Cross (Amer) Page 4876

1 A Correct.
2 Q And as an underwriter, you understand that figure is
3 a measure of Mr. Trump's liquidity, correct?
4 A Correct.
5 Q And you would agree that Ms. Mouradian in this annual
6 review determined, based on the cash on hand amount disclosed
7 in the 2018 statement, that Mr. Trump had sufficient liquidity
8 to cover her risk of acceptance on behalf of Zurich, yes?
9 A Yes.
10 MR. AMER: And let's look at Plaintiff's Exhibit
11 1561 in evidence, which is the next year's underwriting
12 review.
13 Q And if you go further down. Under party name, you
14 will see it indicates that this is an in-person review of the
15 2019 Statement of Financial Condition. Right?
16 A Yes.
17 Q And the second bullet indicates that Ms. Mouradian
18 reviewed this 2019 statement on January 15, 2020, correct?
19 A Correct.
20 Q And that was not anything that Ms. Caulfield had done
21 in her prior underwriting of the risk, correct?
22 A She didn't look at the 6/19 personal statements, no.
23 Q And I am correct that you did not review or consider
24 this document in forming your opinions in this case, correct?
25 A I believe it didn't change my opinions, so there was

Miller - by Defendant - Cross (Amer) Page 4877

1 no reason to note it.
2 Q Different question.
3 THE COURT: That wasn't the question.
4 Q My question is, you did not review or consider this
5 document in forming your opinions in this case, correct?
6 A Is it -- I don't know the answer to that without
7 looking at my -- can I look and see if the number of that
8 document is listed that I reviewed it?
9 Q Sure.
10 A Okay. And what -- the 2019 annual review Zurich --
11 008507? Is that the document, sir?
12 Q Go down to the Bates number.
13 A I don't see that one listed.
14 Q Would it refresh your recollection if I tell you that
15 you saw this document for the first time at your deposition?
16 A Okay.
17 Q Does that refresh your recollection?
18 A Yes. I thought I saw it but I didn't see it on my
19 list here.
20 Q So we can agree that in forming your opinions you did
21 not consider any of the information Ms. Mouradian recounts in
22 this document about her in-person review of the 2019 statement,
23 correct?
24 A Correct.
25 Q And you see in the fourth bullet Ms. Mouradian notes

Miller - by Defendant - Cross (Amer) Page 4878

1 from her review of the Statement of Financial Condition that
2 cash on hand was \$87 million, yes?
3 A Yes.
4 Q And again, you understand that that's a measure of
5 Mr. Trump's liquidity, correct?
6 A Yes.
7 Q And you would agree that Ms. Mouradian in this annual
8 review determined based on the cash on hand amount disclosed in
9 the 2019 statement that Mr. Trump had sufficient liquidity to
10 cover her risk of acceptance on behalf of Zurich, yes?
11 A Yes.
12 Q And can we agree based on the two annual reviews we
13 just looked at relating to Ms. Mouradian's on-site reviews of
14 the 2018 and 2019 statements, that she considered the
15 reasonable risk factor of sufficient liquidity when
16 underwriting this risk?
17 A Yes.
18 Q In your experience, is it the case that surety
19 underwriters are permitted and encouraged to use their
20 discretion considering, among other things, the character of
21 the insured?
22 A Yes.
23 Q That's what you referred to as one of the three Cs
24 right?
25 A Correct.

Miller - by Defendant - Cross (Amer) Page 4879

1 Q And that would also include for this particular
2 program the character of the indemnitor guaranteeing payment if
3 there is a loss, Mr. Trump, right?
4 A Correct.
5 Q Would you agree that it would negatively impact your
6 assessment as an underwriter of an indemnitor's character if
7 you learned during the underwriting negotiations that the
8 indemnitor had fraudulently inflated the amount of cash on hand
9 listed on his personal financial statement by 25 percent or
10 more?
11 A I would have no way of knowing that as the
12 underwriter.
13 Q That wasn't my question.
14 THE COURT: That wasn't the question.
15 A Okay. Well --
16 MR. AMER: Can I get a readback, Your Honor?
17 THE COURT: Please.
18 (Whereupon, the record was read back by the
19 court reporter.)
20 Q That's a yes or no question.
21 A I don't think it is quite that simple, but yes.
22 Q During the period that Ms. Caulfield was the
23 underwriter on the account, she did look at Mr. Trump's
24 personal financial statement, correct?
25 A I believe so.

Miller - by Defendant - Cross (Amer) Page 4880

1 Q And she did assess that there was sufficient
2 liquidity based on the cash on hand, correct?
3 A I believe so, correct.
4 Q In forming your opinions, you did review
5 Ms. Mouradian's sworn testimony from her interview with my
6 office that took place in December of 2021, right?
7 A Correct.
8 Q And nothing about her testimony indicated to you that
9 she had deviated from Zurich's normal guidelines about the need
10 for Mr. Trump, as the indemnitor on the program, to have
11 sufficient liquidity, correct?
12 A Correct.
13 Q Let's look again at Plaintiff's Exhibit 1552 in
14 evidence, which is the annual review where Ms. Mouradian looked
15 at the 2018 statement. And I want to direct your attention to
16 the fourth bullet. And the second sentence of that bullet that
17 starts, "the fair value."
18 Are you with me?
19 A Yes.
20 Q She writes: "The fair value of the properties is
21 determined by professional firms (such as Cushman & Wakefield)
22 using cap rates and net operating income as factors."
23 Do you see that?
24 A Yes.
25 MR. AMER: I would like to put up on the screen

Miller - by Defendant - Cross (Amer) Page 4881

1 some of Ms. Mouradian's trial testimony about this
2 language. And let's pull up -- it is from the exhibit
3 that we put into evidence of her report.
4 It is Plaintiff's Exhibit 3324. And let's go to
5 page 48, line 21. We will blow it up for you so you can
6 see it.
7 Actually, it is 49. Sorry. Can we start at 49?
8 We are going too far, sorry. Back down.
9 49:10.
10 "QUESTION: And then you write after noting the
11 6 billion connected to his real estate and Golf Club
12 resorts, quote, 'The fair value of the properties is
13 determined by professional firms (such as Cushman &
14 Wakefield) using cap rates and net operating income as
15 factors.' Where did you get that information from?
16 "ANSWER: I got that from Allen Weisselberg.
17 "QUESTION: And what do you remember
18 Mr. Weisselberg telling you about the fair value of the
19 properties?
20 "He was telling me that they use professional
21 appraisal firms to get the values that they then -- that I
22 would then see on the personal financial statements I was
23 reviewing."
24 MR. AMER: And then skip down to -- keep going.
25 Keep going. You went too far. 51:17.

Miller - by Defendant - Cross (Amer) Page 4882

1 "Did this information about Cushman & Wakefield
2 determining the valuations, have any bearing on your
3 assessment of the 2018 statement?
4 "ANSWER: Yes, it had bearing.
5 "QUESTION: And how so?
6 "ANSWER: Well, it was important to note because
7 they were using a third-party appraisal firm to get the
8 values. And I thought that was a good thing. And I noted
9 that."
10 Mr. Miller, as an expert witness you are not offering
11 any opinion on the credibility of Ms. Mouradian's testimony
12 that we just read, are you?
13 A No.
14 Q You are prepared to accept her testimony as true,
15 correct?
16 A Yes.
17 Q And you understand that the Trump Organization is a
18 privately held company, right?
19 A Yes.
20 Q And you would agree that for a privately held
21 company, typically an underwriter would have no independent
22 means to verify information provided by the insured during the
23 underwriting process, yes?
24 A Correct.
25 Q And therefore it is more difficult for the

Miller - by Defendant - Cross (Amer) Page 4883

1 underwriter to get independent verification of financial
2 information for a private company as compared to a public
3 company, yes?
4 A Correct.
5 Q And you don't have any opinion as to what information
6 would have been available to Ms. Mouradian to allow her to
7 verify the figures in the 2018 statement, right?
8 A Correct.
9 Q And you would agree that Zurich's decision to renew
10 the surety program in 2019 and 2020 was a competent business
11 decision, correct?
12 A It was a business decision, yes, I agree with that.
13 Q That wasn't my question though.
14 A You said competent.
15 Q I said "competent." And you would agree that it was
16 a competent business decision, wouldn't you?
17 A They were making money on the program, so I would
18 consider that a solid underwriting decision.
19 Q Was it a competent business decision, sir; yes or no?
20 A Yes.
21 THE COURT: Mr. Miller, please get a little
22 closer to the mic, you are a mile away -- or at least a
23 yard away.
24 Q And you are not offering an opinion one way or the
25 other about whether Trump Organization representatives made

Miller - by Defendant - Cross (Amer) Page 4884

1 misrepresentations to Ms. Mouradian during her on site reviews,
2 correct?
3 A Correct.
4 Q And similarly, you are not offering an opinion one
5 way or the other about whether Trump Organization
6 representatives made misrepresentations to HCC or Tokio during
7 the renewal of the D&O coverage, correct?
8 A Correct.
9 Q And I do want to shift now to the D&O coverage. You
10 are familiar with the so-called warranty question that a D&O
11 underwriter appropriately and typically asks an applicant who
12 is seeking to purchase new coverage, correct?
13 A Correct.
14 Q And generally speaking, the warranty question is a
15 question that asks the applicant if they are aware of any
16 facts, situation or circumstance that might reasonably be
17 expected to give rise to a claim, right?
18 A Correct.
19 Q And you would agree that the warranty question should
20 prompt the applicant to disclose if there are any pending or
21 threatening government investigations that the applicant
22 reasonably expects to give rise to a claim, correct?
23 A Well, the question is whether -- the question of the
24 warranty statement is if their perception is that it is going
25 to give rise to it. And I don't know what their perception of

Miller - by Defendant - Cross (Amer) Page 4885

1 that situation is. So, I can't determine whether it was
2 appropriate that they reported it or not reported it. And
3 because it says they have to believe it is going to give rise
4 to a claim. I can't read their mind whether they believed it
5 would or wouldn't. So, I really can't offer an opinion as to
6 what they were thinking at the time.
7 Q So my question is not specific to any particular
8 applicant or underwriter, it is a very general question. And
9 I'll restate it.
10 You would agree that the warranty question that you
11 have just testified to should prompt the applicant, any
12 applicant, to disclose if there are any pending or threatened
13 government investigations that the applicant reasonably expects
14 to give rise to a claim, correct?
15 A In that case you are saying that a positive
16 affirmation that he believes it is going to take place, and in
17 this case, yes.
18 MR. AMER: Let's put up Plaintiff's Exhibit 2985
19 in evidence.
20 Q Mr. Miller, this is an e-mail from Mr. Holl who was
21 the HCC underwriter on the D&O cover to his boss, Andrew Stone,
22 dated January 10, 2017. And Mr. Holl has testified about this
23 document at trial. And he indicated he sent this to his boss
24 the same day as the underwriting meeting that took place on
25 January 10, 2017.

Miller - by Defendant - Cross (Amer) Page 4886

1 I am correct, you did not review or consider this
2 document in forming your opinions in the case about D&O
3 coverage, right?
4 A Correct.
5 Q You saw this document for the first time in your
6 deposition after you had already submitted your expert report,
7 correct?
8 A Correct.
9 Q Let me draw your attention to the fourth paragraph up
10 from the bottom, the one that begins: There is a best
11 practices manual. Do you see that?
12 A Yes.
13 Q And I want to ask you about the last sentence in that
14 paragraph, where Mr. Holl writes: "No material litigation or
15 communications from anyone." Do you see that?
16 A Yes.
17 Q And I want to show you Mr. Holl's trial testimony
18 about that sentence and then ask you a question about it. This
19 is from the trial testimony page 2500, line 20:
20 "QUESTION: Directing your attention to the next
21 paragraph, you say in the last sentence of this paragraph,
22 'no material litigation or communications from anyone.'
23 What did you intend to reflect in that comment?
24 "ANSWER: Its standard practice in meetings with
25 management to ask them if they are aware of something

Miller - by Defendant - Cross (Amer) Page 4887

1 that's not public; that is, litigation or notices or
2 communications that could lead to litigation that would
3 implicate the D&O policy."
4 Do you see that?
5 A Yes.
6 Q Do you agree with Mr. Holl that it is standard
7 practice to ask the insured this type of question?
8 A They could ask the question but the -- the warranty
9 statement as you talked about is industry standard, is that it
10 is only permissible to ask that at the first time you write the
11 policy. So upon writing a policy they ask the warranty
12 statement. And at renewal time it is not appropriate to ask
13 for a warranty statement. It is a representation, which is
14 different, as you know. So, they can ask about that but it
15 wouldn't be considered a warranty statement for the policy
16 purposes.
17 Q You understand that at the January 10, 2017
18 underwriting meeting the Trump Organization was seeking to add
19 coverage up to \$50 million beyond the \$5 million that they
20 already had in place. Correct?
21 A Correct.
22 Q And so that was all new coverage, wasn't it?
23 A But I -- I don't believe that was ever put in place.
24 Q Was it new coverage or not, that they were seeking?
25 A They were looking for new coverage, yes, but I don't

Miller - by Defendant - Cross (Amer) Page 4888

1 believe it was put in place.
2 Q And Mr. Holl testified at trial that he didn't
3 believe that the stub policy in December that he had quoted was
4 actually ever bound; were you aware of that?
5 A Yes.
6 Q And so this in January 10, 2017 this was new coverage
7 for HCC, wasn't it?
8 A Well --
9 Q Yes or no?
10 A It would have been a new layer for them, yes. But
11 it --
12 Q Well, if they hadn't bound the stub policy it would
13 have been a new risk for them entirely because they weren't
14 already on the risk, right?
15 A Yeah, but he said he didn't believe that it was
16 bound. I don't know whether it was bound or not from what I
17 read. I can't tell. I guess the only people that know that is
18 maybe AON, the broker, if they bound it or not, because I
19 wasn't clear whether it was ever bound or not. So they either
20 had to follow the fortunes of the lead company and they put in
21 a layer, of which then they wanted to become the primary to
22 have more control over the policy.
23 Q I think you agreed not too long ago that as an expert
24 witness you don't -- you are not here to give opinions about
25 the credibility of witness testimony, right?

Miller - by Defendant - Cross (Amer) Page 4889

1 A Correct.
2 Q So when Mr. Holl says he doesn't believe that the
3 stub policy was ever bound, you are prepared to accept that,
4 aren't you, as an expert witness?
5 A I am willing to accept that that's his belief, yes.
6 Q And let's just put up your deposition testimony on
7 page 138, line 18: Where the question begins:
8 "Mr. Holl says, 'It is pretty standard fare to ask if
9 there is any litigation or inquiry that could potentially lead
10 to a claim.'
11 Do you agree with that?
12 "ANSWER: When they are discussing the warranty
13 statement I believe that would be, you know, a question
14 that they were asked just verifying the warranty
15 statement.
16 "QUESTION: Standard fare to do that, correct?
17 "ANSWER: Pretty much, yes.
18 Q That was your sworn testimony at your deposition,
19 right?
20 A And I agree with that.
21 Q You discussed claims history on the D&O cover,
22 correct, in your direct testimony?
23 A Yes.
24 MR. AMER: Let's go ahead and mark Plaintiff's
25 Exhibit 3394. We don't have copies of it. We will just

Miller - by Defendant - Cross (Amer) Page 4890

1 put it up on the screen.
2 Q This is a letter --
3 MR. AMER: We do have copies of it.
4 (Handing)
5 MR. AMER: You are the best to the right of me.
6 Q This is a letter from AON dated February 8, 2019 to
7 HCC, correct?
8 A Yes.
9 Q And this is a letter providing notice of claims on
10 behalf of the Trump Revocable Trust, correct? Do you see that
11 in the first sentence?
12 A Yes.
13 Q And there are a list of claims in bullet points on
14 this first page. Do you see it references receipt of various
15 inquiries from Congress, and other items in the other bullets;
16 do you see that?
17 A Yes.
18 Q And this was a -- this was tinder of notice of claims
19 by the trusts broker of record, AON, correct?
20 A Yes, that's where it appears it came from.
21 MR. AMER: Your Honor, I move that this be
22 admitted into evidence for all purposes.
23 MR. FIELDS: Objection, hearsay.
24 THE COURT: It is not being introduced to prove
25 the truth of its contents, it is notice.

Miller - by Defendant - Cross (Amer) Page 4891

1 MR. FIELDS: He just said for all purposes, Your
2 Honor.
3 MR. AMER: It is not hearsay. This is a letter
4 from an agent of the Trust acting in their capacity as
5 agent; and it comes in as an exception to hearsay.
6 THE COURT: It comes in for various reasons. It
7 is not a statement -- is it a statement of some
8 independent facts?
9 (The following proceedings were stenographically
10 recorded by Senior Court Reporter Michael Ranita.)
11
12
13
14
15
16
17
18
19
20
21
22
23
24
25

D. Miller - by Defense - Cross (Mr. Amer) Page 4892

1 MR. AMER: It's a statement of claim notice.
2 THE COURT: Well, what do you want to introduce it
3 for?
4 MR. AMER: That the Trust gave notice as indicated
5 by this letter, because they received these various
6 inquiries --
7 THE COURT: It's in, clearly.
8 MR. FIELDS: For the truth of the matter, sir, or
9 just for notice?
10 MR. AMER: For everything.
11 MR. FIELDS: I'm asking the Court.
12 MR. AMER: Sorry.
13 THE COURT: For the truth of the matter asserted.
14 Statements against interest, who is going to say we are
15 being investigated when they are not being investigated.
16 MR. FIELDS: Certainly the -- not this witness.
17 THE COURT: Common sense, too.
18 MR. FIELDS: This witness cannot say he's not an
19 expert. I don't think the foundation has been laid for
20 that.
21 THE COURT: The foundation is the document itself.
22 Mr. Amer, you want it in for all purposes?
23 MR. AMER: Correct.
24 THE COURT: It's in for all purposes.
25 MR. AMER: Thank you. You could put that down,

D. Miller - by Defense - Cross (Mr. Amer) Page 4893

1 because I have no questions to ask you beyond what I've
2 already asked you about that document.
3 THE COURT: Five-minute warning.
4 MR. AMER: Okay.
5 (Whereupon, the exhibit displayed on the screen was
6 taken down.)
7 MR. AMER: Can you give me just a minute, your
8 Honor.
9 (Whereupon, there is a brief pause in the
10 testimony.)
11 Q Just a couple of quick questions, and then I'm done, so
12 we could actually be done with the witness before lunch, unless
13 there's redirect.
14 In a surety program, often surety bonds, once issued
15 cannot be cancelled; is that right?
16 A Yeah, it depends on the wording. That's correct.
17 Q Can you confirm from your review of the documents in
18 this case that some of the bonds issued by Zurich for The Trump
19 Organization are non-cancellable; correct?
20 A Yes. We reviewed that.
21 Q So even if a surety insurer were to cancel or non-renew
22 a surety program, if there are non-cancellable bonds that have
23 been issued, those would remain in place and the surety insurer
24 would remain on the hook; correct?
25 A Correct.

D. Miller - by Defense - Redirect (Mr. Fields) Page 4894

1 MR. AMER: That's all I have, your Honor.
2 THE COURT: Any redirect?
3 MR. FIELDS: Briefly, your Honor.
4 THE COURT: Great. Redirect.
5 REDIRECT EXAMINATION
6 BY MR. FIELDS:
7 Q Mr. Miller, you were asked by Counsel about a 2019
8 annual review that you saw for the first time at your
9 deposition. Do you recall that?
10 A Yes.
11 Q After reviewing that, did you change your opinion?
12 A No, I did not.
13 Q Same thing for Ms. Mouradian's trial testimony, did
14 anything that Ms. Mouradian said in her trial testimony change
15 any opinion you had?
16 A Not at all.
17 Q You were also asked by Counsel about Ms. Mouradian's
18 inability to verify figures in the Statement of Financial
19 Condition from 2018. Do you recall that?
20 A Yes.
21 Q Could Ms. Mouradian have asked to see bank accounts?
22 A Yes.
23 Q From your review of the records, did she do that?
24 A I don't believe so, no.
25 Q Could Ms. Mouradian ask to have seen the appraisals

D. Miller - by Defense - Redirect (Mr. Fields) Page 4895

1 that she alleged were discussed with her?
2 A Yes.
3 MR. AMER: Objection. That's -- that
4 mischaracterizes the testimony. I don't think she talked
5 about appraisals. She talked about valuations.
6 MR. FIELDS: The word "appraisal" comes up on
7 the --
8 THE COURT: Overruled.
9 Q Did she, based on your review of the documents, did she
10 ask to see the appraisals?
11 A No.
12 Q And then you were also asked by Counsel about
13 character, specifically with regard to if an underwriter becomes
14 aware that property values have been inflated and how that would
15 affect the character of the company.
16 Do you recall that?
17 A Yes.
18 MR. AMER: Objection. I didn't say properties. I
19 said, "Cash on hand."
20 MR. FIELDS: I think you said "asset values", but
21 be that as it may.
22 MR. AMER: I said, "Cash on hand was inflated."
23 THE COURT: I think it was cash on hand.
24 MR. FIELDS: Fair enough.
25 Q Mr. Miller, you were asked about cash on hand and

D. Miller - by Defense - Redirect (Mr. Fields) Page 4896

1 whether the cash on hand had been inflated and how that would
2 affect the underwriter's decision; right?
3 A Yes.
4 Q And I think Mr. Amer asked you if that would negatively
5 impact the underwriter's decision; do you recall that?
6 A Yes.
7 Q In your experience, when a government entity has
8 alleged that a company has committed fraud, does the insurer
9 continue to do business and write bonds for that company?
10 MR. AMER: Objection. It's irrelevant to what I
11 asked the witness.
12 THE COURT: Let's just hear the answer. Overruled.
13 A If the company would become aware that there were
14 fraudulent statements, um, the likelihood that they would
15 continue doing business is not very high.
16 Q Have you ever, in your experience, seen carriers agree
17 to continue doing business with somebody that a government
18 entity has alleged has defrauded them?
19 A In my 40 years, no.
20 MR. FIELDS: Thank you.
21 THE COURT: Any recross?
22 MR. AMER: No.
23 THE COURT: Okay. Right on time. See you all at
24 2:15. And the witness is excused.
25 (Whereupon, the witness stepped down from the

Proceedings Page 4897

1 witness stand.)
 2 (The case on trial was adjourned until 2:15 p.m.
 3 for the luncheon recess.)

 5 A F T E R N O O N S E S S I O N
 6 * * * * *
 7 THE COURT OFFICER: All rise. Part 37 is back in
 8 session. The Honorable Judge Arthur Engoron presiding.
 9 Please be seated and come to order.
 10 THE COURT: That time the people in Battery Park
 11 stood up. You want to talk scheduling for a few moments?
 12 Okay, I'll turn the microphone over to the person
 13 sitting alongside of me.
 14 MS. GREENFIELD: Okay. So who do we now have for
 15 the 27th?
 16 MR. ROBERT: For the 27th is going to be
 17 Mr. Hawthorn.
 18 MS. GREENFIELD: Is that going to be a whole day?
 19 MR. ROBERT: It might very well be. We may call
 20 Mr. Birney on the 27th, although more likely than not
 21 Mr. Birney on the 30th.
 22 MS. GREENFIELD: Assuming we have Hawthorn and
 23 Birney on the 27th. What about the 28th?
 24 MR. ROBERT: The 28th and 29th combined, we don't
 25 know where the spillover will be. It will the Deutsche Bank

Proceedings Page 4898

1 witnesses, Mr. Williams, Mr. Sullivan, Ms. Pereless and
 2 Ms. Vrablic.
 3 MS. GREENFIELD: And we think they will take two
 4 days?
 5 MR. ROBERT: Yes. Thursday, like I said, might be
 6 Birney, and probably Mr. Unell on Thursday as well, but
 7 we'll keep you posted.
 8 MS. GREENFIELD: Assuming we get through Hawthorn
 9 and Birney on Monday, who will Thursday be?
 10 MR. ROBERT: Unell.
 11 MS. GREENFIELD: And --
 12 MR. ROBERT: Unell will take the better part of
 13 day, maybe even more.
 14 MS. GREENFIELD: How much direct do you have?
 15 MR. ROBERT: I'm not doing the direct. I don't
 16 know, but I know it will probably be the most part of the
 17 day.
 18 MS. GREENFIELD: Okay. And Friday?
 19 MR. ROBERT: I don't know yet.
 20 THE COURT: And some housekeeping by the
 21 plaintiff's side.
 22 MS. FAHERTY: Yes, your Honor. During the
 23 examination of Dr. Laposa, we projected on the screen prior
 24 testimony. It has been our common practice that once we put
 25 prior testimony on screen, we generate a report with the

Proceedings Page 4899

1 questions and answers shown. We've marked as an exhibit,
 2 PX-3393, that portion of prior testimony that was displayed.
 3 I've shown it to defense Counsel. I don't think they have
 4 any objection to this.
 5 MR. ROBERT: Based on Ms. Faherty's representation,
 6 we have no objection.
 7 MS. FAHERTY: So I move to admit PX-3393, your
 8 Honor.
 9 THE COURT: Granted. It's in.
 10 MS. FAHERTY: Thank you.
 11 THE COURT: Would defendants like to call their
 12 next witness.
 13 MR. SUAREZ: Your Honor, good afternoon. The
 14 defense calls Jeff McConney.
 15 (Whereupon, the witness stepped into the witness
 16 stand.)
 17 THE COURT OFFICER: Please raise your right hand.
 18 (The witness complied.)
 19 THE COURT OFFICER: Do you solemnly swear or affirm
 20 that any testimony you give will be the truth, the whole
 21 truth and nothing but the truth?
 22 THE WITNESS: Yes, sir.
 23 JEFFREY S. MCCONNEY, called by and on behalf
 24 of the Defendant, having been first duly sworn, was examined and
 25 testified as follows:

J. McConney - by Defense - Direct (Mr. Suarez) Page 4900

1 THE COURT OFFICER: Please have a seat.
 2 (The witness complied.)
 3 THE COURT OFFICER: Please state your name and
 4 either home or business address for the record.
 5 THE WITNESS: Jeffrey S. McConney, 390 First Avenue
 6 in New York City.
 7 THE COURT: Okay. Mr. Suarez, please proceed.
 8 DIRECT EXAMINATION
 9 BY MR. SUAREZ:
 10 Q Mr. McConney, good afternoon.
 11 A Good afternoon.
 12 Q Please describe your educational background after high
 13 school?
 14 A I went to Baruch College, graduated in 1978, 1978.
 15 Q What did you study at Baruch College?
 16 A Accounting.
 17 Q What courses in accounting did you take?
 18 A Whatever was prescribed by the requirements. I
 19 remember cost accounting, tax, federal taxes, other than that, I
 20 don't remember the specific courses.
 21 Q Do you have any other post-college education?
 22 A No, sir.
 23 Q Are you a CPA?
 24 A No, sir.
 25 Q Have you ever been a CPA?

J. McConney - by Defense - Direct (Mr. Suarez) Page 4901

1 A No, sir.
2 Q Where were you employed after college?
3 A Um, I started working for a small CPA firm. I worked
4 for a real estate person. He owned some real estate, and the
5 accountant there knew people in the CPA firm, so he got me an
6 introduction to the CPA firm, Spahr Lacher Berk & Naimer. I
7 worked there for about nine years, and then I was hired by The
8 Trump Organization in April of 1987.
9 Q At the Spahr Lacher firm, what were your
10 responsibilities?
11 A Over time they changed. Jerry Rosenblum was one of the
12 partners. He guided me -- basically, I was becoming an
13 accountant, even though I had the educational background. So he
14 guided me how to become an accountant, how to produce work
15 papers, how to go through information that the client had.
16 Um, he had a number of different clients. He --
17 not-for-profit clients, one of which was Cabin Creek Films for
18 work and environmental studies. The lady who owned the place
19 and managed the place was Barbara Koppel. She won an Academy
20 Award for Best Director. So I was overseeing that account for
21 Jerry. He had interior decorators, doctors. I was writing up
22 the books and records for these accounts. He would write up the
23 cash receipts, cash disbursements, post them to a general
24 ledger, and then hand them off to Jerry, and Jerry would do the
25 tax returns or whatever it was. Some of the clients had payroll

J. McConney - by Defense - Direct (Mr. Suarez) Page 4902

1 taxes involved.
2 But in those days, pre-computers, it was all basically
3 manual work. As time went on, I did more accounting work. I
4 worked on President Trump's father -- Fred Trump had a real
5 estate business in Brooklyn, and I worked on that account for a
6 number of years. And I worked my way up the ladder, kind of
7 managed the account for the CPA firm.
8 Q Was that the account for President Trump's father, Fred
9 Trump?
10 A Yes.
11 Q And as the CPA firm, what work, if any, did you do for
12 President Trump?
13 A President Trump was still, back in 1986, was still
14 working out of his father's office in Brooklyn. Um, the
15 accounting office was located in -- basically, Fred Trump's
16 office was in an apartment building, the first floor of an
17 apartment building. So he just gutted a bunch apartments, so
18 you had to walk your way through a maze; Fred Trump and
19 President Trump in the back. We called it the "executive
20 office", something like that. Outside of that was the
21 accounting office, so that's where I would deal with the
22 accountants.
23 At a certain point in time, I think it was somewhere in
24 the end of 1986, President Trump moved to New York City and
25 started his business in New York City.

J. McConney - by Defense - Direct (Mr. Suarez) Page 4903

1 He had a few properties that I dealt with. One was
2 Penn Yards, which was on the West Side. It's now called Hudson
3 Waterfront, I believe. Um, he had USFL Generals, which was just
4 winding down. I think he was mainly in casinos at that point.
5 He had a partnership with the Pritzker family for the Hyatt
6 Hotel by Grand Central Station or above Grand Central Station.
7 Um, I think he had finished construction of the co-op on Third
8 Avenue on East 61st Street called Trump Plaza. I believe Trump
9 Tower was finished -- well, I know Trump Tower was finished when
10 I started working there. So he had the condominium there, um,
11 and the commercial space. And the Trump Corporation, um,
12 basically is about the entities that I could think of right now.
13 Q What work did Spahr Lacher, the Spahr Lacher firm, do
14 for President Trump while you were there?
15 A They -- I know they prepared the tax returns for the
16 entities that Mr. Trump had, like Penn Yards associates. Um,
17 they prepared, when I later became involved in the President's
18 Statement of Financial Condition, um, one of the last items I
19 dealt with before I started working for The Trump Organization
20 is Jerry Rosenblum provided me with the financial statement that
21 he prepared for the company, the company being The Trump
22 Organization. And he asked me, he said, "Go through it. This
23 is the items you'll be dealing with over time."
24 I've come to learn that Jerry basically did all the
25 valuations, wrote the footnotes. He was a great writer. Jerry

J. McConney - by Defense - Direct (Mr. Suarez) Page 4904

1 was my mentor. I'm sorry, and Jerry wrote the footnotes.
2 Q How did you come to work at The Trump Organization?
3 A Allen Weisselberg worked for Fred Trump in the
4 accounting department. The controller for that accounting
5 department for Fred Trump's properties left. A new controller
6 came in and he said to Allen, "I need a desk to hire another
7 accountant to do Fred's work. Why don't you go up, speak to the
8 president, who was Mr. Trump at the time, and see if he can put
9 you in an office up there."
10 Allen went to work for President Trump in Manhattan in
11 October of '86. The Generals, like I said, were winding down,
12 so at that point in time the controller for the Generals, his
13 name is Ray Shetzel (phonetic), came to work with Allen as the
14 assistant controller. Ray was a sports guy. He ended up
15 working for the Nets. And then Allen hired me in April of '87.
16 Q What were your responsibilities at The Trump
17 Organization when you were first hired?
18 A Um, in those days it was a lot smaller. The staff was
19 smaller, the number of properties we owned, managed, developed
20 was smaller. Um, I was manually posting general ledgers where,
21 um, you have a cash receipts book where you -- it's all done by
22 hand. You would write up the deposits. You have a cash
23 disbursements book, you write up all the checks and debits to
24 the account. You extend them to certain general ledger
25 accounts. They were summarized. And I would do the posting to

J. McConney - by Defense - Direct (Mr. Suarez) Page 4905

1 these general ledgers by hand, kind of tidy up the football
2 Generals, their kind of business. Basically, I was cleaning out
3 the office with a couple of other people.
4 Um, they dealt with the property manager down in
5 Mar-a-Lago. At that point in time it was a private residence,
6 so I would give this gentleman a budget, kind of monitor his
7 budget over time. Um, and I remember I was given directions,
8 tell the gentleman that the GM -- I forget his name, that he has
9 a million dollars to spend for Mar-a-Lago. I call him up, I
10 said, "Dude, a million dollars, what are you spending all the
11 money on?" He comes up with a list. At some point in time I go
12 down there and I looked around; 117 rooms, 17 acres, you've got
13 grass you have to mow, you have a building to maintain. I said,
14 "How do you run this on a million bucks?" So I didn't really
15 understand the size of the asset until I actually went to see
16 it.
17 Mr. Trump had casino licenses, so I was in charge of,
18 at the beginning, helping to fill out the renewal forms. These
19 were mainly in Atlantic City at the time. Later on as Mr. --
20 President Trump went to look at various other locations, Nevada,
21 California, I was in charge of putting together the applications
22 and then dealing with the investigators as they came in to
23 explain all the information we provided to them.
24 Um, over time it just grew. As we, um, obtained new
25 properties, we developed new properties, my job just grew, and I

J. McConney - by Defense - Direct (Mr. Suarez) Page 4906

1 would take whatever work I could get.
2 Q And during this time did you continue to work with the
3 Spahr Lacher Naimer firm?
4 A All the time. We had such a small staff that we
5 usually kept our books on what's called a cash basis, which just
6 means money in the bank; money out of the bank from January 1st
7 to December 31st. Even though we only had a few entities, we
8 didn't have the bandwidth to actually take those cash basis
9 general ledgers and make them accrual basis general ledgers, or
10 work papers to prepare tax returns.
11 Um, what I mean from "cash" to "accrual" is, say, if
12 you have an insurance policy that covers from July 1st to
13 June 30th, you can't take that full expense in one year. You've
14 got to spread it over two years. So Mazars, Spahr Lacher would
15 make journal entries to set up the right prepaid expenses. If
16 it was a rental property or a condominium, just set up the
17 accounts receivable, the accounts payable, and then they would
18 prepare the tax returns for us. So they kind of an extension of
19 what we would do.
20 Q Did Spahr Lacher eventually become Mazars?
21 A Over time, yes. There were a number of mergers or
22 acquisitions. I don't know who acquired who, but they came what
23 they are today, Mazars.
24 Q When did you first begin working with Donald Bender on
25 matters relating to The Trump Organization?

J. McConney - by Defense - Direct (Mr. Suarez) Page 4907

1 A Donald Bender was hired, I think, two or three years
2 after I was working at Spahr Lacher. Donald would work on his
3 thing, I would do my clients -- he would have his clients; I
4 would have my clients. At some point in time, Jerry Rosenblum
5 retired and Donald Bender took over the Trump account, and it
6 was around that time I would start dealing with Donald daily,
7 weekly, monthly, whatever we needed.
8 Q And?
9 MR. AMER: Excuse me. Can I ask, since we have
10 multiple Donalds in the case --
11 THE WITNESS: Can I call him Bender, if I remember,
12 and President Trump, and Don, Jr.?
13 MR. SUAREZ: Mr. Amer, we finally found a point of
14 agreement. I was about to make the same point.
15 MR. AMER: It had to happen eventually.
16 MR. SUAREZ: Eventually.
17 Q What work did Mr. -- withdrawn.
18 What work would Mr. Bender do for The Trump
19 Organization when you first joined?
20 A It's a long time ago. Again, he would take our cash
21 basis general ledgers, produce work papers from that, like
22 booking all these journal entries. He would prepare the tax
23 returns. And know I know his baby -- he used to call it his
24 baby. It was Trump Tower. The commercial space, the stores and
25 the office space. And he would take -- originally we had a

J. McConney - by Defense - Direct (Mr. Suarez) Page 4908

1 managing agent that did most of those receipts and
2 disbursements. Later on we brought it in-house, and he would
3 take that information, make all his journal entries, and he
4 would tell me, "I did 70 entries this year. I did 60 entries
5 this year to bring it to an accrual basis statement and prepare
6 the financial statements and the tax returns."
7 Um --
8 Q In what year did you first start working with
9 Mr. Bender on Trump Organization matters?
10 A It was probably from day one when I started there. He
11 was -- what I remember, he was involved in everything.
12 Q What involvement, if any, did Mr. Bender have in
13 maintaining the books and ledgers of entities under the Trump
14 Organization umbrella?
15 A He basically was, I would say, an extension of our
16 accounting department, because our staff was so small, and he
17 would take our cash basis statements and go through them. He
18 would look at the expenses to see if we miss posted an expense
19 from, say, elevator maintenance that should be have been HVAC,
20 or whatever. So he went through our receipts to make sure if
21 there was a rental property, all the rents were collected. The
22 accounts receivable entry was booked, so if we knew tenants owed
23 us money, we book a an accounts receivable entry. If they
24 prepaid December 31st, they paid for January, he would set up
25 the prepaid expenses.

J. McConney - by Defense - Direct (Mr. Suarez) Page 4909

1 He would book the depreciation. He would go through
2 all our capital costs, set up a depreciation schedule to review
3 for tax on the financial statements. He would work on the
4 footnotes and give any details that needed to be disclosed
5 according to the guidelines he had to live with.
6 Q What level of access did Mr. Bender have to the Trump
7 Organization's books and records?
8 A At times he, during the audit season, early in the year
9 when he would come in to work on the audits, one of the jobs
10 they had, when I first started, was computerizing these books
11 from manual books to a computerized system. That was in 1990 or
12 1991. So at that point in time he would -- we would give him
13 reports, we would print out the general ledgers for him, cash
14 receipts books, cash disbursements, whatever he wanted to use.
15 We didn't want to waste paper. We didn't want to kill a lot of
16 trees, so we wouldn't -- there's no need for us to print out the
17 cash receipts book the cash receipts for the month to put in a
18 drawer for someone to look at, not look at. So whatever he
19 asked for, we gave him. If he wanted to look invoices, we pull
20 out the invoices or have one of his -- somebody from the
21 accounting staff go with our accounts payable person. Her name
22 is Deb. Deb would show the accounts payable person or the
23 accountant where the accounts payable were for that entity, and
24 the person would -- Bender's office would go through, pull
25 whatever invoice he had.

J. McConney - by Defense - Direct (Mr. Suarez) Page 4910

1 Once we became computerized, after a number of years,
2 we started scanning all the invoices. So we set up laptops in
3 our conference room. We had a Bender come in with a number of
4 his people and they could look at our general ledger cash
5 receipts. They had access to all our books and records that
6 most people in the accounting department had access to.
7 Q How long did this arrangement with Mr. Bender stay in
8 effect?
9 A Up until -- I mean, I retired in February of this year.
10 I think up until 2022 when we ended up getting a new accounting
11 firm.
12 Q What was your first title when you joined The Trump
13 Organization?
14 A I was the assistant controller.
15 Q And were you promoted from that position?
16 A At some point I became the controller, vice
17 president/controller, or vice versa.
18 Q When you became controller, what were your
19 responsibilities at The Trump Organization?
20 A Basically the same. It was just -- Allen Weisselberg
21 was -- is controller. He moved up to the CFO position. I took
22 over Allen's position. The work really didn't change.
23 Q Who did you report to as controller?
24 A I always reported to Allen Weisselberg. My ultimate
25 boss would be President Trump, but on a day-to-day basis, Allen

J. McConney - by Defense - Direct (Mr. Suarez) Page 4911

1 Weisselberg was my boss.
2 Q Were you responsible for overseeing the accounting
3 department at The Trump Organization?
4 A Allen basically oversaw it, but he was busy doing his
5 thing. So anybody that had a question, you come to me and ask
6 me a question. They could go to Allen, but they knew it would
7 be easier to get a hold of me and get an answer.
8 Q In the last ten years, how many accountants worked at
9 The Trump Organization?
10 A Accountants or people in the accounting department?
11 Q People in the accounting department.
12 A In the accounting department, 12, 13, somewhere around
13 there.
14 Q And what books and records were maintained by the
15 accounting department at The Trump Organization?
16 A I'm trying to figure out how to say this. We started
17 acquiring golf courses at a certain point in time. The
18 Mar-a-Lago Club is not a golf course. The Mar-a-Lago Club, I
19 think, was the first entity that we set up, um, where it had its
20 own accounting staff.
21 We came to learn that these entities would have so much
22 volume of work, small chit items. We go to a restaurant, you
23 have a hamburger and you have a beer, um, you have tee times.
24 So we were used to selling apartments for a few million dollars,
25 and this was a lot of -- that was one transaction. This would

J. McConney - by Defense - Direct (Mr. Suarez) Page 4912

1 be a lot of smaller transactions. So we hired an accounting
2 department to take care of the Mar-a-Lago property.
3 So as we bought or developed more golf courses, we had
4 an accounting department in each one of those locations. They
5 just took care of the one property. So a lot of the other
6 entities, you had Trump Park Condominium, you had Trump Towers
7 Condominium, Trump Tower Condominium. The development we had on
8 the West Side where we managed those properties, um, they were
9 maintained in the New York office. I don't have a list, so I
10 don't have an actual number, um, of entities.
11 Q Were there -- what was the relationship like between
12 the accounting departments on the properties and the accounting
13 department that you worked with at Trump Tower?
14 A Um, they were basically separate -- they would send
15 reports up to Trump Tower. Um, I don't think we really got that
16 down, except for the last couple of years. Now we have two
17 people dedicated just to the golf courses, because we have a
18 number of them, but they would talk to Allen and/or they would
19 take talk to me. They would produce maybe monthly reports or
20 quarterly reports, but I never really looked at them. Allen
21 Weisselberg may have looked at them.
22 Q What involvement did Mr. Bender have with the
23 accounting department at Trump Tower?
24 A When it came time to produce tax returns, the property
25 -- the golf courses were able, because they were just one entity

J. McConney - by Defense - Direct (Mr. Suarez) Page 4913

1 and they had a decent size staff they could produce their own
2 accrual basis statements. They would send that information to
3 Donald Bender. Bender, if he had any questions, ask them, you
4 know, "Show me this invoice. Why is this one prepaid? Member
5 deposits are X amount." He had a schedule for it. So he would
6 interact with the golf courses to get any information he needed.
7 Q Would Mr. Bender go through you to obtain information?
8 A He could. He didn't have to. The way it was set up,
9 Bender could come in and talk to anybody he wanted to. It's not
10 a structured company, "it" being The Trump Organization, not a
11 structured company that like IBM. I never worked for a large
12 company like that where you had direct reports and you could
13 only talk to this person. Anybody in the accounting department
14 could talk to anybody, whether it was Allen Weisselberg, myself,
15 or the accounts payable person next to him.
16 Bender was so familiar with us, and, I mean, I've known
17 Bender for 40 years when I was working at Spahr Lacher. I mean,
18 we used to go to lunch every day. We used to go to -- put
19 together a group of people and go down to Atlantic City. I was
20 at his wedding. He was at my kid's bris. It was just like a
21 family. So Bender had access to anything he wanted to. He's
22 done the work for so long, he knew everything in the accounting
23 department, so he could ask Deborah Tarasoff what drawer do I
24 look at for these bills, or he could just go there.
25 If he had any question on the rents or leases, he would

Page 4914

1 just speak to the people in the accounts receivable department.
2 So we gave him access to anything he wanted to.

McConney - by Defendant - Direct (Suarez) Page 4915

1 Q Did you ever hide any information from Donald Bender?
2 A No.
3 Q How, if at all, would you rely on Donald Bender to
4 help you do your job as comptroller?
5 A I am sorry, can you -- I didn't hear the first word.
6 Q Sure. How, if at all, would you rely on Donald
7 Bender to help you do your job as comptroller?
8 A I relied on him for a lot of stuff. I think it got
9 to the point where we set up a new entity. We were doing
10 licensing deals, we needed an identification number, I think he
11 would fill out the form for us. If he didn't fill out the form
12 and somebody in my office was filling it out, we would ask
13 Bender if it was a cash-basis taxpayer or an accrual-basis
14 taxpayer. He would make all of these tax decisions.
15 He would do President Trump's tax planning. I am not
16 a tax guy.
17 So he would, in his Bender brain, come up with what
18 he knew how he wanted to structure something, and then we would
19 work around what he told us to do.
20 THE COURT: I hear the reporters may have a
21 little trouble keeping up, so slow down a little bit.
22 THE WITNESS: Sorry.
23 Q What, if any, other members of Mr. Bender's team did
24 you work with, Mr. McConney?
25 A Bender was like us, he had a loyal staff that stayed

McConney - by Defendant - Direct (Suarez) Page 4916

1 with him for years. A few of the names I remember was Jennifer
2 Safron, who I think is now a partner; Ellen Fegen; Maryann
3 Richter; Chris Schreiber. And there were a number of other
4 people over the course of the time I was working with him.
5 Q Can you describe, generally, how the in-house
6 accounting team at the Trump Organization would work with
7 Mr. Bender's team at Mazars?
8 A They asked the question, we gave them an answer.
9 They asked for backup, we gave them backup. It was just as if
10 Bender was asking the question. So we gave them unfettered
11 access to any information we had or he wanted.
12 Q Was there any -- excuse me. Was there ever any
13 concern as to whether Mr. Bender was independent of the Trump
14 Organization?
15 A I am not an independence person, I don't know what
16 effect that has on him as a CPA. He may have raised the issue.
17 I had never really thought about it.
18 Q Did he raise the issue with you?
19 A I think he may have, but I really don't remember.
20 Q What was your involvement in preparing the Statements
21 of Financial Condition for President Trump?
22 A Like I was talking about before with Jerry Rosenblum,
23 when I started getting involved -- and I don't remember exactly
24 what year it was, I started 35 years ago, at some point I was
25 working with Jerry Rosenblum before he retired. Jerry would

<p>McConney - by Defendant - Direct (Suarez) Page 4917</p> <p>1 just ask us questions; provide me with the information about X, 2 can you give me the backup for Y. And Jerry produced a 3 financial statement. He produced valuations, the numbers in 4 the footnotes, and he would put everything together. 5 Over time, I mean, I would see some of his notes, but 6 I was really not organized. When Jerry retired and Bender took 7 over the account as partner, he said this is a lot of papers, 8 can we kind of make it a little more organized. At some point 9 in time I came up with the Jeff Supporting Data schedule 10 listing off of the assets year after year, how we would value 11 them, and I would provide that to Bender. Bender would ask for 12 backup to whatever number we saw or ship them all to backup 13 that we used to prepare my spreadsheet. 14 Bender would go through those numbers and our backup, 15 put the information on the Statement of Financial Condition, 16 put the actual dollar amounts. Modify the footnotes; or I 17 would give him footnotes with some adjustments to them. Like 18 if there was a mortgage and the interest rate changed or the 19 due date changed or the principal amount changed or we had a 20 new property, we would give him some information about the new 21 property and he would put everything together. He had it in 22 Word, or I think it was Word. Put together documents, send us 23 a draft, we review it going back and forth, me and Allen 24 Weisselberg; and Allen Weisselberg would say go and tell them 25 to print it, we are done.</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4919</p> <p>1 units. So, it was just a matter of, I would go out, send out 2 e-mails to a lot of people, gather the information and start 3 putting it into my spreadsheet. 4 Q Was it necessary for you to reach out to a lot of 5 people to gather the information that you put on your 6 spreadsheets? 7 A Yes. I mean, the cash alone we would have to really 8 reach out to every single entity that had a bank account. 9 Those were all of the properties over the years that have 10 grown, but every property that had their own accounting staff. 11 Same thing, we would value accounts payable on the 12 statements to get an accounts payable schedule or get the 13 balance sheet that they prepared in-house. We used Cushman & 14 Wakefield or received reports from Cushman & Wakefield with cap 15 rates on it, so I would have to reach out to Doug Larson or 16 whoever else was in his department at the time. And I know he 17 had a gentleman in California we would deal with for one of the 18 Vornado properties. 19 This literally took months. We would start in July 20 and finish usually sometimes in October, except for a couple of 21 years we were late. 22 Q Who was your principal point of contact at Mazars in 23 connection with the Statement of Financial Condition? 24 A Donald Bender was the partner, so whether it was a 25 Statement of Financial Condition or whether it was an audited</p>
<p>McConney - by Defendant - Direct (Suarez) Page 4918</p> <p>1 Q Can you describe the annual process for preparing the 2 Statement of Financial Condition? 3 A As the years went on it took us longer and longer to 4 produce it. There were more and more assets. At the end when 5 I was there I think we had over 500 entities now -- tax 6 returns, sorry, entities and tax returns we had to prepare. 7 So, there was a lot more information we had to gather. 8 Now, not every single one of those entities would be 9 separately valued on the financial statement, but it gives you 10 an idea of how much we have grown over time. 11 So I am sorry. I forgot your question. 12 Q If you could, walk me through the annual process. 13 A The process, sorry. 14 So we would start -- I would start, originally, and 15 we passed this out, parceled it out over the years, I would go 16 through and see what information I would need from whomever I 17 needed it from. Cash and Marketable Securities, a lot of those 18 entities we maintained in a New York office. 19 But again, the golf courses had their own accounting 20 staffs, so we would ask them for bank reconciliations and bank 21 statements. The same thing with escrow deposits, ask them if 22 they had any real estate tax escrows. We would know who had a 23 mortgage and who didn't, we knew who had escrow deposits. 24 I would ask the real estate department, the Trump 25 International Realty for selling prices or values for unsold</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4920</p> <p>1 financial statement for one of the properties that he was 2 preparing for the loan -- because it had a loan on it, anything 3 that we needed accounting help for we would go through Donald 4 Bender. 5 Q And in the period of -- the period in which you 6 prepared the Statements of Financial Condition from 2011 7 forward, during that period of time, what other engagements was 8 Mazars involved with for the Trump Organization? 9 A Besides preparing all of the tax returns for every 10 entity except for one, there was a period of time -- there was 11 a period of time he lost the golf courses. He didn't lose the 12 golf courses, he said he had too much work, he wanted us to 13 give the golf courses to another accounting firm, so we did 14 that. But basically he got all of the golf courses back. That 15 was basically many years ago. 16 So he prepared the tax returns. Last year it was 17 around 500 entities. He did all but one of the entity's tax 18 returns. 19 He prepared the personal tax returns for Donald J. 20 Trump Jr. and his wife, when he was married. Eric Trump and 21 his wife, when he was married. Ivanka Trump up until she got 22 married, and then she went to use Jared Kushner's accountant. 23 He worked on the financial statements, the audited 24 financial statements that were required; or in one case there 25 was a review that was required.</p>

McConney - by Defendant - Direct (Suarez) Page 4921

1 We would give him, if we were negotiating a loan, we
2 would give him the loan documents to make sure he could adhere
3 to or reduce the required financial information at a certain
4 point in time. A lot of the loans have financial statements
5 due by April 30, and that's -- when you have that done, and
6 then right before that you have personal tax extensions done,
7 we just want to make sure he had enough bandwidth to get all of
8 this done.

9 I am sure I am missing something, but that's all I
10 can remember.

11 Q Would it have been possible for the accounting
12 department of the Trump Organization to operate without the
13 assistance of Mazars?

14 A No way.

15 Q From the period of 2011 forward, what audit
16 engagements was Mr. Bender and Mazars involved with in the
17 Trump Organization?

18 A Trump Tower commercial, which is Trump Tower, the
19 commercial piece.

20 There is a property called TIHT Commercial, which is
21 a small commercial property, I think a couple of stores.
22 Trump Plaza LLC.

23 There was a review for 40 Wall Street.

24 Prior to that we had before the loan was paid off we
25 had Chicago, we had a -- at some point we had financial

McConney - by Defendant - Direct (Suarez) Page 4922

1 statement requirements for Trump International Hotel Chicago.
2 Las Vegas Trump International Hotel, Las Vegas, we had
3 financial statements that were due.

4 I think that's about it.

5 Q Was all of Mr. Bender's team at Mazars afforded the
6 same level of access that he was to the Trump Organization's
7 books and records?

8 A Yes. If they had a question we would give them an
9 answer.

10 Q In the period of 2011 forward, how often would you
11 speak with Mr. Bender concerning your work at the Trump
12 Organization?

13 A It depended a lot on what time of the year it was.
14 If it was a quiet time, and there is very rarely a quiet time,
15 I would maybe go a week or two without talking to him. If we
16 were preparing President Trump's tax return or one of the
17 larger tax returns, he would call, talk, every ten, 15 minutes.

18 So it really depended what he was -- what was going
19 on and what he was trying to finish at the time.

20 Q Going back to the Statements of Financial Condition,
21 when did you begin the process to prepare the information for
22 each year?

23 A Sometime -- because it took so long, sometime in
24 July. And the easiest thing to get would be the bank
25 reconciliations and bank statements. Statements were dated

McConney - by Defendant - Direct (Suarez) Page 4923

1 June 30. So, the banks usually issued bank statements
2 before -- they were available online by maybe the 15th or
3 20th. Once they were available online, you could get them by
4 the first of the month. So that was a large number -- a large
5 number of entities and that would be the first step.

6 We would send out e-mails and some comptrollers would
7 send the information right away. Some you would have to go
8 after a little bit. And -- I am sorry.

9 Q No, no, please.

10 A And some comptrollers would just, you would wait a
11 week or two so it was a matter of gathering the information and
12 putting it together and putting it on my spreadsheet.

13 Q Why did you have to reach out to all of the
14 comptrollers of the properties to gather information?

15 A The way we value the assets, we kind of broke it down
16 in components. We had cash and Marketable Securities. So we
17 needed their cash balance. We had escrow deposits. If we knew
18 there were escrow deposits, that's a separate line item. The
19 biggest number is the asset valuation. That's just the asset,
20 not cash or payables.

21 We needed the accounts payable from the property,
22 because they would have that on site. And I know the loan
23 balances, if any, because we kind of oversaw the loan payments.

24 Q When did the process of reaching out to all of the
25 individual properties, when did that begin?

McConney - by Defendant - Direct (Suarez) Page 4924

1 A It depended on who was doing it. If I was in the
2 middle of a project I would try to squeeze in getting some of
3 those e-mails out. If it was somebody else, I would just say,
4 pass them in the hall, Haroula, we have to get the cash done,
5 start working on it because it is a big deal.

6 So it kind of varied. There were one or two years we
7 were really busy and didn't start until real late. There was
8 no date on my calendar that says, send out e-mail today. It
9 was whenever we did it.

10 Q Throughout the course of the year, what -- how much
11 of your time was occupied by preparing the Statements of
12 Financial Condition as opposed to other duties you had at the
13 company?

14 A I -- basically my time was spent between July and
15 October. Not 100 percent of my time, just a portion of my
16 time. And that's why we would spread it out, gather the
17 information and put the spreadsheet together. Other than that,
18 really very little time outside of that timeframe.

19 Q You had other responsibilities as the comptroller of
20 the Trump Organization other than preparing the Statements of
21 Financial Condition?

22 A Yes, sir.

23 Q What were those other responsibilities?

24 A We had a 401K plan. There is something called a
25 non-discrimination test which is mandated by the Department of

<p>McConney - by Defendant - Direct (Suarez) Page 4925</p> <p>1 Labor that you have to provide a ton of information about all 2 of your employees, the salaries, 401K deferrals and a whole 3 bunch of other information. We sent that to our 401K provider. 4 It has been Fidelity for a number of. That would take a while. 5 We have had payroll tax returns, we have had W-2s, 6 1099s. We would have to start the engagements on the audits 7 sometimes maybe in February to start that information, 8 gathering, Mazars would come in and start working on that. 9 We would have started in January. We would try to 10 feed Mazars as many entities, we call them baby entities, one 11 or two or three transactions, usually licensing deals. I would 12 get a fee once a year or no fees because the deal was at a 13 certain point in time where it wouldn't get fees. 14 Send Bender -- sorry, Mazars, Bender, a lot of these 15 baby entities so that they could start preparing the baby tax 16 returns before they got busy. 17 Middle of March we would have to finish up the larger 18 entities and get extensions out. Middle of April we had the 19 personal tax returns, including the President's and his 20 children. Finish up the audits in April. When he was 21 President, before he became President, we had the annual 22 filing, his annual -- The President's annual disclosure form. 23 We had to spend a lot of time on that. Later in the year we 24 had to finalize all of the corporate tax returns, all of the 25 personal tax returns. Daily basis, every day, we would have</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4927</p> <p>1 A Sorry, yes he being Donald Bender. 2 Q Would Mr. Bender request information from you? 3 A Yes. If he -- if I did not provide enough backup to 4 him or we had a question on something or wanted more 5 information about whatever he was asking about, we provided him 6 whatever he needed. "He" being Donald Bender. 7 Q What other documentation did you send him along with 8 the supporting spreadsheet each year? 9 A Anything I used to back up my numbers. If there was 10 a line item I would say 32 apartments for sale \$200 million. I 11 would send him a spreadsheet listing the apartment number and 12 value of those numbers. 13 If we had a third party like Cushman & Wakefield 14 provide us with information about comparable sales, we would 15 send him that piece of the document, along with the cap rates 16 and whatever I had on the statement. 17 For Vornado we would send him, I think, the P&Ls from 18 the June Vornado statements: 555 California Street and 1290 19 Avenue of the Americas. 20 The rent management department would print out 21 rent-rolls. So we valued some properties based on rent-rolls. 22 So the small shopping centers with two or three stores we would 23 send him the rent rolls. 24 We would send him -- I am not sure if we sent him all 25 of the accounts payable, all of the invoices. A schedule of</p>
<p>McConney - by Defendant - Direct (Suarez) Page 4926</p> <p>1 wire transfers that I had to review and release. I did the 2 corporate payroll every other week. Answer questions. Answer 3 e-mails. It kept me busy. 4 Q At what point in the year did you send Mazars, 5 generally, the supporting data spreadsheet for the Statements 6 of Financial Condition? 7 A Probably somewhere in September, late September and 8 October. It depends how busy we were. If I could get a large 9 chunk of it done and have a few open questions I would try to 10 get him started and send him the spreadsheet and backup so he 11 could start reviewing it or somebody in his accounting 12 department could review it, instead of just dumping it on his 13 lap. Because he had to still prepare all of these tax returns, 14 he and his department. The big one being the President's 15 return, which is the roll-up of all of these 500 entities. We 16 didn't want to inundate him too late. We wanted to give him 17 time to digest everything. 18 Q He being Mr. Bender? 19 A He being Donald Bender. 20 Q In general terms, what would happen after you sent 21 him your supporting data? 22 A He would sit and go through it. He had questions. 23 Told me I made a mistake, I had to change something. We would 24 have conversations. 25 Q "He," again, being Mr. Bender?</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4928</p> <p>1 accounts payable, all of the loans that we had listed as 2 liabilities we would send him a copy of the June 30 loan 3 statement or whatever showed the balance as of June 30. 4 Basically any backup that I used to -- that was 5 reflected on the spreadsheet I was putting together. 6 Q Would you send Bender -- Mr. Bender any information 7 that you didn't use in preparing your Statements of Financial 8 Condition? 9 A No. I only sent him the information that I relied on 10 to prepare the spreadsheet. 11 Q Once you sent the information to Mazars, what steps 12 did Mazars take to compile the information that you sent? 13 A They would review it because -- I know they would 14 review it because he made some changes to some values or had 15 some comments about some of the assets. They would -- well, 16 once it was finalized and I sent them my finalized spreadsheet, 17 they would put together the document, the actual Statement of 18 Financial Condition and the footnotes. 19 MR. SUAREZ: Let's pull up the 2015 Statement of 20 Financial Condition, please. Plaintiff's Exhibit 729. 21 Q Do you recognize this document, Mr. McConney? 22 A Yes. 23 Q So once you sent your supporting data over to Mazars, 24 what additional steps did Mazars take before they issued the 25 compilation report that appears at the second page?</p>

McConney - by Defendant - Direct (Suarez) Page 4929

1 A They looked through our numbers, compared them to the
2 backup, because they would -- when I would get some information
3 back sometimes from them, I would see their tick marks. And, I
4 guess, just get a comfort level with what the information was I
5 provided to them.
6 Q Did you have conversations with Mr. Bender about the
7 information?
8 A If he had a question, yes. If there was something I
9 needed to explain to him, yes.
10 Q What did these conversations generally entail?
11 A If he had a question about the information I provided
12 him. One year I know for the valuation for Trump Park Avenue I
13 provided a list of apartments and values for them. And he said
14 to me, Jeff, Ivanka rents one of those apartments.
15 I said, okay.
16 Well, she has an agreement with her dad in the lease
17 that she can buy the apartment for X. So you can't use Y. You
18 have to substitute it -- substitute the number in the lease.
19 I didn't know she had a lease. I knew she lived
20 there, I didn't know she had a lease. I didn't know the value
21 of the purchase price of the apartment, so I changed the value.
22 So it would be items like that. He had a question
23 once on Trump Tower. We were valuing the vacant space. Trump
24 Organization has three floors, there is also at times other
25 vacant space in the building. When I sat down with Allen

McConney - by Defendant - Direct (Suarez) Page 4930

1 Weisselberg we used X amount of dollars per square foot.
2 He said, Jeff, on the cert just prepared or prepared
3 a couple of months ago, you used Y amount, so you have to
4 change it. So we changed it.
5 So if we had items that we needed to reflect on a
6 statement, to change it, we made the changes.
7 Q "He," again, being Mr. Bender?
8 A Sorry. He being Donald Bender.
9 Q Was there ever a time that Mr. Bender requested you
10 make a change to the Statement of Financial Condition and you
11 didn't follow his request?
12 A Not that I can remember, no.
13 Q Did you ever ignore a request from Mr. Bender for
14 information?
15 A No.
16 MR. SUAREZ: We can turn to the third page of
17 the document, the fourth page of the exhibit.
18 Q Mr. McConney, how are the asset -- withdrawn.
19 Mr. McConney, how did you decide which assets would
20 be listed on the statement of assets?
21 A This is, I think, basically the layout that Jerry
22 Rosenblum put together back in 1987. We no longer owned the
23 casinos, so they came off the list. And as we acquired
24 properties or developed properties, we would add them into the
25 categories, real and operating properties in the partnerships,

McConney - by Defendant - Direct (Suarez) Page 4931

1 so it was kind of dictated originally from the original Jerry
2 Rosenblum Statement of Financial Condition.
3 Q And how, for example, did you decide whether to list
4 a specific real estate asset on the list of real estate
5 operating properties as opposed to categorizing it as another
6 asset?
7 MR. AMER: Objection to the use of "you." I
8 think there is no foundation that this witness made those
9 decisions.
10 MR. SUAREZ: Okay. Withdrawn.
11 THE COURT: All right.
12 Q Who decided which assets to specifically list as a
13 real or operating entity and which to list as other assets?
14 A Probably Allen Weisselberg.
15 Q And are you aware if those decisions were made in
16 consultation with Donald Bender?
17 A I don't know.
18 Q How was it decided which assets would, for example,
19 be listed out as a separate entity and which would be included
20 in club facilities and related real estate?
21 MR. AMER: Objection. Lack of foundation. The
22 witness said he didn't make the decision.
23 MR. SUAREZ: He didn't make the decision, that
24 doesn't mean he doesn't know how it was done.
25 MR. AMER: I think you have to establish that.

McConney - by Defendant - Direct (Suarez) Page 4932

1 THE COURT: This is that old conundrum, do you
2 have to ask do you know and then ask the question. But,
3 yeah, that's a -- I think that is the rule. So, you have
4 to ask him does he know.
5 MR. SUAREZ: I'll withdraw that, and I'll keep
6 going.
7 Q Let's turn over to the notes.
8 Mr. McConney, who wrote the notes here to the
9 Statement of Financial Condition?
10 A They have been modified over time. But a lot of
11 these notes still, for assets that were around when Jerry
12 Rosenblum was around, a lot of this was Jerry Rosenblum's
13 writing.
14 Q How did the words, "such valuation methods include
15 but are not limited to the use of appraisals, capitalization of
16 anticipated earnings, recent sales and offers and estimates of
17 current values as determined by Mr. Trump in conjunction with
18 his associates, and in some instances, outside professionals."
19 Do you see those words on the page?
20 A Yes, sir.
21 Q How did those words end up on that page?
22 A Again, the basic premise of the valuation, valuation
23 methods was a Jerry, I am pretty sure it was a Jerry starting
24 point. Depending on how I valued the assets that year,
25 sometimes it would change, sometimes I would use a cap rate,

<p>McConney - by Defendant - Direct (Suarez) Page 4933</p> <p>1 sometimes I would use a comp. That is how these -- the part 2 where it says appraisals, capitalization of anticipated 3 earnings, recent sales and offers and estimates of current 4 values, those may change from year to year. That was basically 5 Donald Bender. 6 THE COURT: I don't think that answered the 7 question at all. Wasn't the question where did the 8 language come from? Not what particular items are on 9 there? It is your question. 10 MR. SUAREZ: No that's -- that's correct. It is 11 where did the language come from. And he gave me the 12 answer as to where that language came from. 13 THE COURT: I don't think he did that at all. 14 MR. SUAREZ: It started with Jerry Rosenblum and 15 morphed in, and depending on the year, Bender would give 16 him the words to put on that page. It was perfectly 17 responsive answer to the question. 18 THE COURT: It is your question. Okay. 19 Withdrawn. 20 MR. AMER: I'll note the testimony is what the 21 witness said, not what Mr. Suarez just repeated, so the 22 record is what it is. 23 THE COURT: I didn't think it did. 24 MR. SUAREZ: The witness is testifying. 25 THE COURT: But he didn't say what you said he</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4935</p> <p>1 footnotes that dealt with mortgages, financings, refinancings. 2 So I concentrated on mortgage balance, interest rates, due 3 dates, if there was a refinancing or a loan extension that was 4 considered, for me, that was the nuts and bolts of the numbers. 5 Q Was the information that you placed on the notes to 6 the Statements of Financial Condition reviewed by Mr. Bender? 7 A Yes, I would -- the normal -- what I would normally 8 do is take the prior statement, go through the footnotes, mark 9 them up. And then send that marked up financial statement to 10 Donald Bender. 11 Then when it came back I would just review it to make 12 sure what I wrote for those pieces was -- he interpreted or 13 typed it. I had it typed the way it was supposed to be. 14 Occasionally I would modify footnotes if I would get 15 information from somebody dealing with the property. 16 Bedminister was putting in some men's locker rooms. Miller 17 property may have been putting in a gym or finishing a gym. So 18 I would try to get those -- that information from the property 19 and then update the footnotes a little bit. 20 (The following proceedings were stenographically 21 recorded by Senior Court Reporter Michael Ranita.) 22 23 24 25</p>
<p>McConney - by Defendant - Direct (Suarez) Page 4934</p> <p>1 said. Is that Mr. Amer's point? 2 MR. AMER: Exactly, Your Honor. 3 MR. SUAREZ: We could argue what the record is. 4 I am certain the court reporter is doing a wonderful job 5 of getting it down. 6 Q The following words on that page: "Considerable 7 judgment is necessary to interpret market data and develop the 8 related estimates of current value." Whose words are those, 9 Mr. McConney? 10 A That came from Mazars, Jerry or Bender. 11 Q And the following statement: "Accordingly the 12 estimates presented herein are not necessarily indicative of 13 the amounts that could be realized upon the disposition of the 14 assets or payment of the related liabilities." Whose words are 15 those, Mr. McConney? 16 A Again, Mazars, either Jerry Rosenblum or Donald 17 Bender. 18 Q And the final sentence on this page: "The use of 19 different market assumptions and/or estimation methodologies 20 may have a material effect on the estimates current value 21 amounts." Whose words are those? 22 A Mazars, either Jerry Rosenblum or Donald Bender. 23 Q What role did you have in deciding what information 24 to include in the footnotes? 25 A Basically what I was concerned with were the</p>	<p>J. McConney - by Defense - Direct Page 4936</p> <p>1 Q To the best of your understanding, what does the term 2 "outside professionals" in this paragraph mean? 3 A It was individuals other than Trump employees. 4 MR. SUAREZ: If we could zoom out. 5 (Whereupon, the exhibit displayed on the screen was 6 zoomed out.) 7 MR. SUAREZ: Come down to the paragraph that says 8 "Pursuant to GAAP." 9 (Whereupon, the exhibit displayed on the screen was 10 scrolled through.) 11 Q This paragraph, Mr. McConney, the first sentence, the 12 words "Pursuant to GAAP, this financial statement does not 13 reflect the value of Donald J. Trump's worldwide reputation; 14 however, the brand value has afforded Mr. Trump the opportunity 15 to participate in licensing deals around the globe as reflected 16 on the balance sheet herein." 17 Whose words were those? 18 A Mazars's. 19 Q The following sentence, "Mr. Trump's name conveys a 20 high degree of quality and profitability. This prestige 21 significantly enhances the value of the properties reflected in 22 this financial statement, as well as that of his future 23 projects." 24 Whose words were those, Mr. McConney? 25 A Mazars'.</p>

J. McConney - by Defense - Direct Page 4937

1 Q And the rest of the paragraph which says, "The brand,
2 along with the level of quality of Mr. Trump's residential
3 developments, has allowed the selling price per square foot in
4 Trump properties to be amongst the highest among prominent real
5 estate developers. The goodwill attached to the Trump name has
6 significant financial value that has not been reflected in the
7 preparation of this financial statement."
8 Whose words are those, Mr. McConney?
9 A Mazars'.
10 MR. SUAREZ: If we could turn over to the Trump
11 Tower note.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q Do you know how this note ended up on this page,
15 Mr. McConney?
16 A Again, I think that the -- the basic description of
17 Trump Tower probably went back to Jerry Rosenblum. I would talk
18 to Allen Weisselberg or the management person, who sent out the
19 monthly rent bills for Trump Tower to see who the current
20 tenants were; that would basically have brand or name
21 recognition to somebody reading it.
22 So the bulk of it came from Jerry and Mazars. The
23 tenants listed at the end of the paragraph, either Allen or I
24 would update.
25 MR. SUAREZ: If we could turn or put up Plaintiff's

J. McConney - by Defense - Direct Page 4938

1 Exhibit 731.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q Do you recognize this document?
5 A Yes.
6 MR. SUAREZ: If we scroll down to Trump Tower.
7 (Whereupon, the exhibit displayed on the screen was
8 scrolled through.)
9 Q Can you briefly describe this property?
10 A Trump Tower?
11 Q Yes.
12 A Um, the parts still owned by Mr. Trump is the atrium,
13 when you walk in, the retail stores, which I think is first
14 number of floors. After that it's the office space above it.
15 Down below there's space where there's a restaurant and
16 buffet and an ice cream parlor. That's what is owned by Trump
17 Tower Commercial, LLC.
18 Q And with respect to this specific asset, how would you
19 -- how did you reach a value for this asset in the year 2015?
20 A There is a building across the street, literally if you
21 walk out the front of Trump Tower across Fifth Avenue, there's a
22 building called the Crown Building. It was sold, I guess,
23 sometime in 2015, and we received information about the selling
24 price, the breakdown between the retail and the office space,
25 um, and we came up with a value per square foot, multiplied by

J. McConney - by Defense - Direct Page 4939

1 what we had at that time for the comparable retail and office
2 space for Trump Tower, and then added those numbers together to
3 come up with the value.
4 Q How did you identify 730 Fifth Avenue as a comparable
5 sale for that building?
6 A Um, we probably reached out to Doug Larson, asked him
7 for his report that he would always send us for Midtown class A
8 buildings, and, um, the building across the street was listed
9 there. So that's how we probably found that building.
10 Q How did you know to reach out to Doug Larson?
11 A We were reaching out to Doug for years. I don't know
12 how far back it went, but for years we reached out to Doug. I
13 don't know how it first started.
14 Q What kind of information would you have gathered from
15 Doug Larson each year when you were preparing the supporting
16 data to the Statements of Financial Condition?
17 A The report he would send us would be on buildings sold
18 or up for sale. He had different reports, one for downtown; one
19 for Midtown. I don't know how many other reports he had. I
20 just received those two.
21 It would have various properties, about where the
22 properties located, the selling price, um, cap rates, um, and we
23 would just go through those properties and see what was near us.
24 In Manhattan, a one or two block difference can make a big
25 difference in the selling price.

J. McConney - by Defense - Direct Page 4940

1 And then we would use the information in that report to
2 come up with these values -- I would use the information on this
3 report to come up with these values.
4 Q And in 2014, do you see the method that you used to
5 come up with a value in 2014?
6 A Yes.
7 Q How did that method -- withdrawn.
8 How did you come up with a value in 2014 for Trump
9 Tower?
10 A It was based on the income divided by a cap rate, net
11 income after expenses.
12 Q If we go to the cell where you have the income in 2014
13 for Trump Tower, how did you learn what number to put there on
14 the supporting data?
15 A Somebody in the accounting department, in my guess it
16 would be Donna Kidder, who was familiar with the property, ran a
17 report which provided the actual information through August of
18 that year, and is a budget that was prepared for Trump Tower at
19 the beginning of the year, um, and we added the numbers together
20 to come up to the \$32 million number.
21 Q Can you describe the adjustments that you made for
22 rental income for space used by T Corp., not billed?
23 A T Corp. is a Trump Corporation, occupies three floors
24 in Trump Tower, which if we weren't in this space, we could rent
25 out to a third party, receive rental income, and it would

J. McConney - by Defense - Direct Page 4941

1 increase our NOI or net operating income, so we took the square
2 footage of the floors, multiplied by what we thought we could
3 receive in rents, and then added that amount to the value, or
4 the income, sorry.

5 Q And were those adjustments disclosed to Mazars?
6 A Yes. It's right there on the spreadsheet.

7 Q And how did you, in 2014, how did you derive an NOI to
8 apply to that value?
9 A Well, we added the income, the actual, and the budget,
10 added the rental space. We own a restaurant that's in the lower
11 level, like I told you before, which has a buffet and restaurant
12 and ice cream parlor, and there is also a bar on the first
13 floor. They have a percentage rent deal, so we added the rent
14 that the restaurant would have to pay, which looks like 2013
15 rent. The total of that is the \$36.6 million.

16 We looked at the -- probably the December 31st, 2013
17 audited financial statements, but provided or prepared by
18 Mazars, adjusted for some noncash expenses like depreciation,
19 amortization, they are not part of NOI, net operating expenses,
20 usually noncash expenses, except for the interest. The net
21 number was divided by the cap rate of 3.13 to come up with the
22 value.

23 Q How did you settle on the cap rate of 3.13?
24 A When we were preparing the June of 2014 Statement of
25 Financial Condition, I probably reached out to Doug Larson, who

J. McConney - by Defense - Direct Page 4942

1 provided me his report, um, the comps in the neighborhood, and
2 based on that we selected some buildings and used -- came up
3 with that comp. rate, cap rate.

4 MR. AMER: Your Honor, I'm going to object to the
5 "probably." I don't think the witness should be testifying
6 about things that he's not -- he can't say actually
7 happened.

8 THE WITNESS: Can I clarify "probably"?
9 THE COURT: Yes. Go ahead.

10 THE WITNESS: Okay. Doug had associates, one was
11 named Michael -- he had a long last name that began with P.
12 I'm not sure if I reached out to Doug, to Michael, somebody
13 from Cushman & Wakefield.

14 Is that a proper answer? I would reach out to
15 Cushman & Wakefield. Or if it's -- at this point in time he
16 was working for Newmark, I would reach out to where I
17 thought Doug was working, and ask for information.

18 THE COURT: Okay.

19 Q Why did you change the method of valuing Trump Tower in
20 2015 from 2014?
21 A Well, again, one or two blocks in Manhattan can make a
22 big difference in a value of a building. For me there was no
23 better value than some building across the street. Um, so we
24 decided to use -- I decided, or selected that building.

25 Q And in 2015, when you selected that building, how did

J. McConney - by Defense - Direct Page 4943

1 you take the comparable and use it to reach the asset value for
2 Trump Tower?
3 A Well, I believe Kurt, who worked with Doug, provided us
4 information where we could split the selling price between the
5 retail space and the office space, divided that by the square
6 footage of each -- from the retail and office space, came up
7 with a value per square foot, multiplied that by the retail
8 space for Trump Tower, the office space for Trump Tower, and
9 came up with the value and added those two numbers together.
10 You could see Bender's tick marks there checking the numbers.

11 Q What role, if any, did Mazars have in confirming that
12 the information in your supporting data and the information on
13 the notes was consistent?
14 A They would go through the footnotes. They looked at
15 the spreadsheet. They would make the changes. I said, now
16 paragraph the -- the paragraph we were looking at before,
17 sometimes the valuation methodology would change. So he would
18 just make sure that whatever methodology we used, we were
19 relying on him to put that in the footnotes. So that was the
20 first footnote number one or two.

21 And then later on on the valuation when we listed the
22 asset by itself, because the Trump Tower is listed here with a
23 -- it's own footnote, to make sure that description or the
24 method I used was in the description of the footnote.

25 THE COURT: Five-minute warning.

J. McConney - by Defense - Direct Page 4944

1 Q And when you placed, here on the spreadsheet, a
2 statement that per 10/26/15 e-mail from Kurt Clauss of Cushman &
3 Wakefield, which reflects information on the sale of the "Crown
4 Building" what did you mean by that?
5 A Kurt would've sent me an e-mail with an attachment with
6 the information on it for the Crown Building. There could have
7 been other properties there, too. Um, so I was just telling
8 Bender where the information was coming from in which I would
9 attach, as part of the backup, when I sent him the spreadsheet
10 and the various backup we use -- I used for this spreadsheet.

11 Q What would you -- withdrawn.
12 Do I understand correctly that you would send Bender
13 the same e-mail that you had relied on in preparing this
14 valuation together with your supporting data?
15 MR. AMER: Objection. Leading.
16 THE COURT: Sustained.

17 Q What would you provide to Bender, specifically with
18 respect to the selection of the Crown Building as a comparable?
19 A In this instance, whatever -- in every instance,
20 whatever information or documents I used and put together, I
21 would send to Bender.

22 In this case I would send him the e-mail, whatever, um,
23 Kurt Clauss sent me that was relevant for the Crown Building,
24 and I would just send him that -- send him those documents.

25 MR. SUAREZ: Your Honor, I'm at a good stopping

J. McConney - by Defense - Direct Page 4945

1 point on my outline, for now, for the break.
 2 THE COURT: All right. So we'll break, but you are
 3 going to continue after the break?
 4 MR. SUAREZ: Yes.
 5 THE COURT: Okay. Ten-minute break. See you all
 6 in 15 minutes.
 7 (Whereupon, a 15-minute break was agreed upon and
 8 taken by all parties.)
 9 THE COURT OFFICER: All rise. Part 37 is back in
 10 session. Please be seated and come to order.
 11 THE COURT: Mr. Suarez, any idea how much longer on
 12 the direct?
 13 MR. SUAREZ: On direct? Through tomorrow morning.
 14 THE COURT: The rest of the day?
 15 MR. SUAREZ: The rest of the day today, yes.
 16 THE COURT: And you think --
 17 MR. SUAREZ: And into tomorrow morning, yes.
 18 THE COURT: Okay.
 19 Any idea how long the cross examination will be?
 20 MR. AMER: Not yet.
 21 THE COURT: All right. Let's continue.
 22 MR. SUAREZ: If we could move onto row 167.
 23 Q Mr. McConney, can you briefly describe the Trump Park
 24 Avenue.
 25 A Trump Park Avenue was the old -- it was the Delmonico

J. McConney - by Defense - Direct Page 4946

1 Hotel on Park Avenue, and it's 59th Street. Mr. Trump bought
 2 that in conjunction with GE. They gutted what they could of the
 3 building, built new residential apartments. There are some
 4 units in the hotel that --
 5 THE COURT: Hold on.
 6 MS. GREENFIELD: The realtime is not working.
 7 (Whereupon, the realtime feeds were adjusted and
 8 began working again.)
 9 Q Mr. McConney, can you briefly describe the Trump Park
 10 Avenue?
 11 A Trump Park Avenue was a joint venture between GE and
 12 President Trump, or the entity that Mr. Trump owns. It was the
 13 old Delmonico Hotel, which was shutdown. The apartments were
 14 renovated for sale as a residential condominium building. There
 15 are a few units in there that are hotel units, and the rest were
 16 free market units. And there is a commercial space on the
 17 bottom. There -- in the basement there are storage units for
 18 unit owners to store stuff if they don't have enough room in
 19 their apartment, like seasonal stuff, like Christmas --
 20 Christmas trees and ornaments, decorations, stuff like that.
 21 Q What does it mean for something to be a hotel unit?
 22 A The way we interpreted "a hotel unit" was it was --
 23 there were tenants in there that had certain rights similar to
 24 rent stabilized units or rent controlled units -- I'm not a
 25 lawyer -- and they were like hotel stabilized units. There are

J. McConney - by Defense - Direct Page 4947

1 certain rights they had. It's not like when we bought the hotel
 2 we could say, your apartment is gone.
 3 So those tenants stayed in these units. Some of them
 4 we made deals with, we bought out their leases. Some of them
 5 passed away. A couple of them passed away, and then they became
 6 free market units, or units that we could just sell. We could
 7 sell all the units at any time, but they just became, um --
 8 there was no tenant in the unit.
 9 Q What prior experience, if any, did you have with
 10 repositioning a hotel asset on behalf of Trump Organization?
 11 A When I was still working for Spahr Lacher, an entity
 12 called Park South Associates, which was owned by President
 13 Trump, bought the old Barbizon Hotel on Sixth Avenue and Central
 14 Park South. It consisted of the hotel, the main entity was a
 15 hotel, which became Trump Park Avenue Condo -- I'm sorry, Trump
 16 Park Condo, and there was a small residential building of 60
 17 some-odd units which became Trump Park East Condominium. A lot
 18 or most of the units in the Trump Park East building were rent
 19 stabilized apartments.
 20 Q And what happened to the rent stabilized apartments at
 21 the Trump Park East building?
 22 A We negotiated by -- when I -- I found, between working
 23 for the accounting firm and then working for The Trump
 24 Organization, there was some buyouts of tenants, some tenants
 25 passed away. There are still a number of tenants, handful of

J. McConney - by Defense - Direct Page 4948

1 tenants that still lived there from when the property was
 2 purchased, I think it was 1981. When the condominium unit, or,
 3 sorry, a stabilized unit becomes vacant, we fix it up, and then
 4 we put it on the market for sale. Again, it's for sale now, but
 5 it's got a stabilized tenant in it, so.
 6 Q Where would you have gotten -- withdrawn.
 7 Can you describe the method that you used to value the
 8 Trump Park Avenue in the year 2014?
 9 A I reached out to our sales entity. TIR is Trump
 10 International Realty. I reached out to the head of the TIR
 11 sales office and asked them to provide me with the apartment
 12 number of unsold units, and an amount that each unit would sell
 13 for, or we could sell for. So that's the first line, where it
 14 says "unsold units." Those are residential units.
 15 There's the -- I think there are two remaining
 16 commercial space units where we rent out to -- one time it was a
 17 Capital One Bank, and I think it was a gym; that would get the
 18 rent roll from our leasing department -- I'm sorry, our rent
 19 management department, which reflected the monthly rent for the
 20 two units, multiplied by 12 to come up with an annual rent,
 21 multiply that by ten. I know "cap rate" is probably not the
 22 right term, but that's what I used, to come up with the value
 23 for the commercial space. And there are a number of unsold
 24 storage rooms, cages, I think they were, in the basement that we
 25 valued at the 819,000. The total of those three amounts is the

J. McConney - by Defense - Direct Page 4949

1 \$251 million number reflected on the spreadsheet for June of
2 2015.
3 Q Up at the top where it says "Valuation is based on the
4 anticipated selling price of unsold residential units and the
5 selling price or the rental income stream to be derived from the
6 commercial space." Do you see that?
7 A Yes.
8 Q What did you mean by that?
9 A Well, the residential units, there are a number of
10 unsold residential units which the TIR division valued. Um, so
11 that was the first part. The unsold residential units and the
12 selling price. The rental income stream would be the commercial
13 space where we took the monthly rent, annualized it and
14 multiplied it by ten.
15 The storage rooms, I think came from the operations
16 department, because they would deal with the storage room sales.
17 They would provide me a list, or a comp, and then we just
18 multiplied that by the number of units there are, something like
19 that.
20 MR. SUAREZ: Can we pull up Plaintiff's
21 Exhibit 736.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 (The exhibit was handed to the witness.)
25 Q Mr. McConney, do you recognize this document?

J. McConney - by Defense - Direct Page 4950

1 MR. SUAREZ: This is already in evidence.
2 A Yes.
3 Q What is this document?
4 A This would be the listing I received from the TIR sales
5 office reflecting the unit numbers, price, it had the number of
6 square feet, dollars per square feet, which they provided to me
7 per my request.
8 Q Why did you provide the sponsor unit inventory
9 valuation -- actually, withdrawn.
10 Did you provide this document to Mazars?
11 A Yes. Mazars wouldn't have taken the \$200 million
12 valuation without some backup.
13 Q Okay. Why did you provide this document to Mazars?
14 A This is what I relied on to come up with the
15 \$233 million, which I'm pretty sure was on the prior sheet.
16 MR. SUAREZ: If we could please pull up Plaintiff's
17 Exhibit 0173, native, side by side.
18 (Whereupon, there is a brief pause in the
19 testimony.)
20 MR. SUAREZ: Plaintiff's 01073. Actually, I'm
21 corrected. 736 is not in evidence. I move to have that
22 admitted into evidence.
23 MR. AMER: No objection.
24 THE COURT: Granted. It's in.
25 (Exhibit 736 was admitted in evidence.)

J. McConney - by Defense - Direct Page 4951

1 Q Do you recognize the spreadsheet at Plaintiff's
2 Exhibit 1076?
3 A Where would I find number ten --
4 Q The spreadsheet on the right in the native cell format.
5 A Okay, yes.
6 Q What is the spreadsheet in the native cell format which
7 appears as Plaintiff's Exhibit 1073, native?
8 A The spreadsheet on the right also would have been
9 prepared by the -- let me see. It would have been prepared by
10 the TIR sales office.
11 Q And what's the difference between the two spreadsheets?
12 A The dollar value -- the dollar amount for the offer
13 plan -- per the offering plan price was different. It looks
14 like two different years. The spreadsheet on the right has an
15 offering plan price, current market value. The one on the left
16 has square feet, dollars per square feet, which is not on the
17 other spreadsheet.
18 Q Did you provide the current market value or the
19 offering plan price to Mazars?
20 A For based on which spreadsheet? The one on the left or
21 the one on the right?
22 Q Well, did you ever provide the current market value to
23 Mazars?
24 A I don't remember.
25 Q What's the difference on the spreadsheet on the right,

J. McConney - by Defense - Direct Page 4952

1 at Plaintiff's Exhibit 1073, between the offering plan price and
2 the current market value?
3 A You are talking about the math difference or? I
4 mean --
5 Q What's the difference in -- your understanding of the
6 difference between current market value and offering plan price?
7 A Well, current market value may have been what the TIR
8 thought they could sell the unit for, sell a unit for. Offering
9 plan price would be the most we could sell the unit for.
10 Q Would the offering plan price -- withdrawn.
11 Was the offering plan price a measure of what Trump
12 Organization would be willing to sell a unit for?
13 MR. AMER: Objection. Leading.
14 THE COURT: Hold on. Sustained. Leading.
15 Q In your mind, was there a difference between offering
16 plan price and current market value?
17 MR. AMER: I think it's been asked and answered,
18 your Honor.
19 THE COURT: Well, let's hear it again.
20 A The current market value is what they thought the
21 current value would be -- could sell it for, and the offering
22 plan price is what we filed with the offering plan.
23 Q Would the current market value include rent stabilized
24 units?
25 MR. AMER: Objection. Leading.

J. McConney - by Defense - Direct Page 4953

1 MR. SUAREZ: I'm not suggesting an answer.
 2 THE COURT: Sustained. You could ask it in a more
 3 general way.
 4 Q Does the current market value include rent stabilized
 5 units?
 6 A Yes.
 7 MR. AMER: Same objection, your Honor. It's
 8 leading. Why doesn't he ask, "What does it include?"
 9 THE COURT: Sustained.
 10 Q What does the current market value include?
 11 A That would be the list of all the units available to be
 12 purchased at Trump Park Avenue, whether it was regulated or not.
 13 Q What information did The Trump Organization provide to
 14 Mazars concerning the existence of rent stabilized units?
 15 A I'm pretty sure Mazars knew that there were stabilized
 16 units and non-stabilized units, or regulated units. Um, there
 17 are certiorari reports that are produced or filed every year on
 18 behalf of various buildings that we own or manage. And I
 19 believe you have to separate the regulated amounts from the fair
 20 market amounts, or, um --
 21 MR. AMER: Hold on, your Honor, I'm going to move
 22 to strike that answer. I don't think there's any foundation
 23 for this witness to know whether Mazars knew or didn't know
 24 about the rent stabilized units. And his answer was, "I'm
 25 pretty sure", but there is no indication as to how he would

Page 4954

1 know that.
 2 THE COURT: Sustained.

McConney - by Defendant - Direct (Suarez) Page 4955

1 THE COURT: Sustained.
 2 MR. SUAREZ: Let's pull up Defendant's Exhibit
 3 1023.
 4 Q Do you recognize this document?
 5 A Well, the bottom part looks like an e-mail from
 6 Stephanie Lennig who works in the accounting department, to me,
 7 based on a question I asked her. And I then forwarded it to
 8 Donald Bender.
 9 Q Who is Stephanie Lennig?
 10 A Stephanie Lennig deals with some accounting items.
 11 Besides the medical plan, she oversees the certioraris that
 12 need to be filed; deals with real estate taxes to make sure
 13 real estate taxes are paid. We received a real estate tax
 14 bill, so she has some accounting functions in the accounting
 15 department.
 16 Q If you looked at the Trump Park Avenue, where it says
 17 Trump Park Avenue, January 2020, in your e-mail?
 18 A Yes.
 19 Q Do you see where it says: "Unregulated total was
 20 \$179,219.33 on my filing and 17,752.23 for the regulated"?
 21 A Yes.
 22 Q What does that mean?
 23 A Well, Stephanie is talking about her filing. She is
 24 probably talking about the certiorari filing which she would --
 25 she is more familiar with it than I am. And she would probably

McConney - by Defendant - Direct (Suarez) Page 4956

1 separate the -- or would separate the regulated rents, which
 2 are stabilized units or hotel stabilized units, from the free
 3 market apartments or unregulated units.
 4 MR. AMER: I would object to the "she would
 5 probably" do something. I don't know how he knows what
 6 she would probably do.
 7 MR. SUAREZ: Your Honor, this is the stuff of
 8 cross examination. If they want to cross examine on his
 9 answers they are free to do so. But there is nothing
 10 wrong with his testimony. It is perfectly responsive to
 11 my questions.
 12 MR. AMER: It goes to foundation as to whether
 13 the witness has the knowledge to opine on what other
 14 people did or didn't do.
 15 MR. SUAREZ: I get that it is an inconvenient
 16 fact for them that Mazars knew that these units were
 17 regulated, but the documents bare it out. He is the
 18 comptroller. He has the foundation. He knows who
 19 Ms. Lennig is. He knows why she keeps this information.
 20 I think he is being careful to avoid -- he is being
 21 careful to appropriately respond when he says "probably,"
 22 but that doesn't mean his answers lack foundation.
 23 THE COURT: You know, that brings up the whole
 24 issue of is "probably" -- okay. Well, if we have, you
 25 know, a standard of proof that is just probably, yes. In

McConney - by Defendant - Direct (Suarez) Page 4957

1 any event, overruled. But subject to cross examination,
2 preponderance of the evidence.
3 Q Why would you be providing this information to Donald
4 Bender?
5 A He was asking for it.
6 Q What would Mazars do with the information that you
7 provided with -- from Ms. Lennig?
8 A Mazars was -- assisted Stephanie in filing the certs.
9 The one -- one of the few things I know about the certs, they
10 usually ask for the rents as of January of either that year or
11 the prior year. They usually filed early in the year. Based
12 on a March 12 date, which I think is around the due date, and
13 based on the rents being as of January of 2020, Bender was
14 probably -- was assembling the information to put -- whatever
15 information Bender would provide to Stephanie was working on,
16 and then would put it together and provide it to Stephanie so
17 she could file the certs.
18 Q What is a cert?
19 A It is a proceeding where you protest your real estate
20 taxes for real estate tax reductions.
21 Q And why would the information on the rent generated
22 from a regulated or unregulated unit be relevant to a cert
23 petition?
24 A I really don't know.
25 MR. SUAREZ: Your Honor, I move Plaintiff's

McConney - by Defendant - Direct (Suarez) Page 4958

1 Exhibit D-1023 into evidence. (sic.)
2 THE COURT: Granted it is in.
3 (Whereupon, the document referred to was deemed
4 marked for evidence as Defendant's Exhibit 1023 by
5 the Court.)
6 MR. SUAREZ: If we could please pull up
7 Defendant's Exhibit 1027.
8 Q Mr. Bender, who is Irene Caprino?
9 A Irene Caprino, she works in the rent management
10 department and oversees certain buildings.
11 Q What is the rent management department?
12 A It is -- we call it the rent management department.
13 They, on rental -- a building that has rental rents, 100
14 Central Park South or Trump Park East, they would enter the
15 leases into our computer system. They would enter lease start
16 dates, lease end dates, tenant names, whatever contact
17 information, whatever information you needed to get ahold of
18 the tenants.
19 On condominiums they would have unit owners move in
20 and out with any contact information for the unit owner.
21 They would send out the rent bills. They would
22 answer questions from the tenants or unit owners.
23 They would, if it is a commercial property, they
24 would sent out real estate tax escalation bills or operating
25 expense escalation bills, anything to collect the rent on

McConney - by Defendant - Direct (Suarez) Page 4959

1 behalf of the condominium or the Trump-owned entity.
2 Q Do you see where it says the "to" field; is that your
3 name there?
4 A The one from Irene to --
5 Q Yes.
6 A March 28? Yes. That's Jeff McConney. That's me.
7 Q Who is Patrick Oberlies?
8 A Patrick is part of Bender's accounting team.
9 Q Who is Ellen Pagan?
10 A Ellen Pagan is part of Bender's accounting team.
11 Q And obviously the next e-mail there is Donald Bender.
12 A He is the accounting team.
13 Q Why would this information be provided by the lease
14 administrator to Donald Bender's accounting team?
15 MR. AMER: I object on relevance. This document
16 relates to Central Park South. It has nothing to do with
17 Trump Park Avenue. I don't know why it is relevant to
18 this case.
19 MR. SUAREZ: I am -- the document shows that
20 Mazars was perfectly aware that units in the converted
21 hotels have rent regulations, that we were dealing with
22 rent regulations on a regular basis. I am not going to
23 belabor the point, but we are going to keep going through
24 another series of e-mails where Mazars has knowledge of
25 rent-regulated apartments in these buildings.

McConney - by Defendant - Direct (Suarez) Page 4960

1 THE COURT: I'll allow it in. Overruled.
2 But I do want to question your pronunciation.
3 You said Pagan (Pay-gan); wouldn't it be Pagan (Pa-gon)?
4 MR. SUAREZ: I have heard it both ways. I don't
5 know.
6 THE COURT: You would know better than I would.
7 So overruled.
8 MR. SUAREZ: Why would I know better?
9 THE COURT: Why would you know better?
10 MR. SUAREZ: Yeah. The pronunciation, I mean, I
11 live in the world where I think it is a triplex(try-plex).
12 Your Honor, respectfully said it is a triplex (trip-lex)
13 but I understand.
14 THE COURT: Well, I guess you don't know where I
15 come from, so. I am not sure where you come from either.
16 But Florida, right?
17 MR. SUAREZ: Florida.
18 THE COURT: Well, I would think that's a
19 common -- is that a common name in Florida, P-A-G-A-N?
20 MR. SUAREZ: I am unfamiliar with it.
21 THE COURT: What is that?
22 MR. SUAREZ: I am not familiar with it.
23 THE COURT: Then I was wrong.
24 Q Why would Ms.-- why would the Trump Organization be
25 sending this information over to Bender?

McConney - by Defendant - Direct (Suarez) Page 4961

1 A They were asking for it. Anything they asked for we
2 provided to them.

3 Q And do you see where it says: "For 14-G, only the
4 notice that tenant is attached as this was rent regulated --
5 excuse me, a rent regulated unit without a lease (and this
6 tenant has vacated in 2017)"?

7 A I see that, yes.

8 Q How were rent-regulated units managed by the Trump
9 Organization?

10 A In 100 Central Park South or Trump CPS LLC you are
11 dealing with the address and the legal name. From the day
12 we -- the building was purchased, we have always had -- the
13 Trump Organization has always had a managing agent manage these
14 stabilized units. The reason being is the accounting staff was
15 not familiar with the rent stabilized laws and the rules and
16 regulations and increases in any -- there are a lot of
17 restrictions on a stabilized -- rent-stabilized apartment,
18 rent-controlled apartment. We weren't set up for that.

19 So we hired a managing agent. At this point in time
20 it was probably Gumley Haft. There were other managing agents
21 going back through the ownership. They would manage the
22 leases. They would send out the leases. They would send out
23 the rent bills. Collect the rents from the tenants. And once
24 a month send Trump's CPS LLC a check for the net cash flow.

25 MR. SUAREZ: If we could pull up Defendant's

McConney - by Defendant - Direct (Suarez) Page 4962

1 Exhibit 1024?

2 Q Do you see where it says: "Ellen, for your request
3 to Jeffrey McConney"?

4 A Yes.

5 Q Why would -- withdrawn.

6 What request would Ellen Pagan make of you that would
7 cause this e-mail to be sent?

8 A Stephanie was our contact or had a contact at Gumley
9 Haft. Gumley Haft is a managing agent. G-U-M-L-E-Y I think
10 there's a hyphen H-A-F-T. They were the managing agent.

11 Stephanie knew somebody there and would ask for the
12 monthly reports at times. Gumley Haft didn't always send them
13 to us like they probably should have. So Stephanie would just
14 reach out to her contact and get a report.

15 This is a year-end report which Mazars needed in
16 order to book the rental income, prepaid rents, arrears, for
17 the stabilized units. Because all we booked on the general
18 ledger of Trump's CPS LLC the entity that owned the stabilized
19 units and the free market units, was just a cash. Mazars would
20 reconcile that number back to the management report to see if
21 the cash received equaled the cash sent. And then reflect the
22 rental income on the tax return.

23 Q Is that your e-mail address there at the cc, Jeff
24 McConney?

25 A I don't see an e-mail. I just see, cc Jeff McConney.

McConney - by Defendant - Direct (Suarez) Page 4963

1 On the top? Yeah.

2 Q Do you see the document as an e-mail forwarding an
3 attachment?

4 A Yes. Jeff McConney is me.

5 Q If we turn to the next page, do you recognize the
6 attachment?

7 A Yes, that's the first page of the -- I think it is
8 the first page of the management report that Gumley Haft sent
9 to us.

10 THE WITNESS: There is no hyphen, sorry. My
11 mistake.

12 Q And what does -- turning to the page ending Mazars
13 NGJS 00168341, on the exhibit; what does this information
14 disclose?

15 A It looks like a partial list -- it is a list of
16 tenants. I am not sure if it is all of the tenants. That
17 would list the apartment number, the tenant name, in essence if
18 he was stabilized or controlled, base charge, any other
19 charges, arrears, prepayments, collections. This is the rent
20 billing and the associated information for the month.

21 Q And if you take, for example, a unit rented at 11-F
22 to Miguel Rivera, do you see where it has Miguel Rivera 11-F
23 three quarters of the way down the page?

24 A Yes, sir.

25 Q If we could walk through this one as an example. You

McConney - by Defendant - Direct (Suarez) Page 4964

1 have Miguel Rivera. You have the letter S. Do you know what
2 that S stands for?

3 A I am pretty sure it stands for stabilized.

4 Q And 989 is?

5 A The monthly rent for an apartment on Sixth Avenue in
6 Central Park South.

7 MR. SUAREZ: Now, Your Honor, I know I am not
8 from around here, I ask the Court to take judicial notice
9 that \$989 for an apartment on Central Park South, any New
10 Yorker would understand that that's a rent-stabilized
11 apartment.

12 MR. AMER: I don't think that's an appropriate
13 fact for the Court to take judicial notice of, Your Honor.

14 MR. SUAREZ: I can withdraw that.

15 We move Defendant's 1024 into evidence.

16 MR. AMER: We object on relevance grounds, Your
17 Honor. This is about Central Park South. It has nothing
18 to do with Trump Park Avenue.

19 MR. SUAREZ: My next question to the witness is
20 going to be whether they went through a similar process
21 for Trump Park Avenue.

22 THE COURT: Well, why didn't we just do it for
23 Trump Park Avenue?

24 MR. SUAREZ: I am sorry?

25 THE COURT: Why didn't we just do it for Trump

<p>McConney - by Defendant - Direct (Suarez) Page 4965</p> <p>1 Park Avenue? 2 MR. SUAREZ: Because we will get there. 3 THE COURT: Okay. 4 MR. AMER: I haven't seen this type of report 5 for Trump Park Avenue. I haven't seen this type of 6 document for Trump Park Avenue. So I think they are 7 trying to put this in, instead of something that relates 8 to Trump Park Avenue. 9 MR. SUAREZ: The same valuation method for Trump 10 Central -- Trump TPC -- Trump CPS, Trump Central Park 11 South, reflects the same information, the same data, the 12 same -- the same facts on the supporting data, as it does 13 for Trump Park Avenue. 14 THE COURT: Mr. Amer, what do you suggest at 15 this point? 16 MR. AMER: I suggest we don't admit a document 17 that is irrelevant to the case. And if he has a document 18 that relates to Trump Park Avenue, then he can try and get 19 that in. 20 MR. ROBERT: Respectfully, it is not irrelevant. 21 We are showing that the same valuation for this building 22 is the same valuation process used for a building that the 23 government is complaining we valued improperly. So I see 24 absolutely nothing wrong. I understand you don't like it, 25 but that doesn't mean it is not admissible and it doesn't</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4967</p> <p>1 Your Honor. I think I made my objection. If we are going 2 to have more argument we should excuse the witness, 3 because it is not appropriate for him to be listening. 4 THE COURT: Let's excuse the witness and argue. 5 (Whereupon the witness stepped down from the 6 stand and exited the courtroom.) 7 THE COURT: All right. I am going to start at a 8 very simple level. These are two different buildings, 9 correct, Mr. Robert? 10 MR. ROBERT: Yes, Your Honor. 11 THE COURT: So what does what somebody knew or 12 didn't know about one building have to do with the 13 building that the Attorney General is focusing on? 14 MR. ROBERT: Several issues, several reasons. 15 The first is that it now shows that Mazars knows that we 16 have assets with there are rent-stabilized apartments in 17 it. They knew this was a conversion. They knew that 18 Trump Park Avenue was a conversion. 19 Point two. They're questioning the way in which 20 we valued Trump Park Avenue. What Mr. Suarez is showing 21 is that the same methodology that was used here, that 22 Mazars signed off on, is the same methodology we used for 23 Trump Park Avenue that they signed off on. So the 24 underlying mechanics are the same. Therefore, this is 25 relevant.</p>
<p>McConney - by Defendant - Direct (Suarez) Page 4966</p> <p>1 mean it is not relevant. 2 MR. AMER: I neither like it or don't like it. 3 It is irrelevant to the case. 4 MR. ROBERT: How is that when your whole case is 5 based on the way in which we value properties. And we 6 already provided testimony that we were compliant with the 7 appropriate GAAP rules and GAAP exceptions, and now 8 Mr. McConney is explaining the actual methodology used. 9 And clearly Mazars is aware of all of this methodology and 10 signed off on it. Nothing inappropriate. It is totally 11 admissible and totally relevant. 12 MR. AMER: I don't know how knowledge about 13 rent-stabilized apartments at Central Park South has 14 anything to do with Trump Park Avenue. 15 MR. ROBERT: Are you not claiming that the 16 valuation for Trump Park Avenue is wrong because the rent 17 stabilization was not part of the analysis for coming to 18 the value? Maybe I am not understanding your claim. 19 MS. HABBA: More importantly is, part of your 20 claim is you believe, which we have now disproven, is that 21 we gave Mazars those documents. I am a little lost on 22 that as well. This is proof further that we gave Mazars 23 everything, including information of what was and wasn't 24 rent stabilized. Part of your case, not mine. 25 MR. AMER: I am not going to argue with them,</p>	<p>McConney - by Defendant - Direct (Suarez) Page 4968</p> <p>1 THE COURT: You didn't convince me. 2 Did he convince you, Mr. Amer? 3 MR. AMER: No, he didn't. 4 THE COURT: Do you want to say why? 5 MR. AMER: Because they are two different 6 buildings. 7 THE COURT: They are two different buildings. 8 MR. ROBERT: Maybe the government can clear it 9 up for me then. 10 Are you not claiming that we misvalued Trump 11 Park Avenue because we didn't take into account the 12 stabilized apartments? 13 THE COURT: Yes, they are. I can answer that. 14 MR. AMER: And the Court has already ruled that 15 the value of Trump Park Avenue was fraudulently inflated 16 because it didn't properly account for the rent-stabilized 17 status of apartments. There has been no argument in this 18 case about Central Park South. Period. Full stop. 19 MR. ROBERT: I understand. But when you are 20 looking at whether the defendants intended to do anything 21 wrong or intended to do something with the valuation, here 22 is an example of the way we valued it exactly the same 23 way. And it is another example where Mazars had no 24 problem with the way that we did it. 25 THE COURT: What --</p>

McConney - by Defendant - Direct (Suarez) Page 4969

1 MR. ROBERT: I am sorry, I didn't mean to
2 interrupt.
3 THE COURT: What is the evidence that they
4 valued it the exact same way.
5 MR. ROBERT: Mr. Suarez will get to that. When
6 Mr. McConney explains on his spreadsheet how he came to a
7 value for Trump Park Avenue and how he came to a value for
8 Central Park South.
9 Mr. Suarez, am I misstating it?
10 MR. AMER: I still don't see how it is relevant.
11 THE COURT: I don't see the relevance either.
12 You can have two buildings and evaluate one correctly and
13 evaluate one fraudulently, which I have already found.
14 MR. SUAREZ: Justice Engoron, Exhibit D-1023,
15 which we moved in, has TPA and TPE. And you have got the
16 Park East, which provides unregulated and regulated. You
17 have got Trump Park Avenue, unregulated and regulated.
18 They were -- there were numerous e-mails every year for
19 the cert petitions that went to -- that went to Mazars
20 concerning the regulated and unregulated nature of these
21 units.
22 MR. AMER: I actually don't recall them moving
23 it in. But even if it is in evidence, it is a March 12,
24 2021 e-mail. So, I don't know how it has to do with
25 knowledge that predates that. I still don't see how it is

McConney - by Defendant - Direct (Suarez) Page 4970

1 relevant.
2 THE COURT: Well, I'll let them try to make
3 their case. So it is in and you can ask him what you
4 want.
5 Let's get the witness back.
6 (Whereupon the witness resumed the stand.)
7 Q To be clear, Mr. McConney, what roles did Gumley Haft
8 have in properties owned by Trump Organization entities?
9 A The only job they had was to deal -- send out leases
10 for the rent-stabilized apartments in 100 Central Park South.
11 Send out the leases, collect the rents, go after the tenants if
12 they were in arrears. Notify us if a tenant was leaving so
13 then we can -- we being my office, could then start taking over
14 the billing for the free market apartment.
15 Q How was the role -- withdrawn.
16 Did Gumley Haft have that same role with respect to
17 the Trump Park Avenue?
18 A No. That was done by our operations department.
19 There is an attorney there, Sonja Talesnek who dealt with the
20 hotel units and the attorneys for matters relating to those
21 hotel units.
22 Q How was the rent collected on the regulated
23 apartments at the Trump Park Avenue?
24 A That was done through my office at 725 Fifth Avenue.
25 Q And how was that information provided to Mr. Bender

McConney - by Defendant - Direct (Suarez) Page 4971

1 for the regulated units?
2 MR. AMER: Objection, leading.
3 THE COURT: How was it provided?
4 MR. AMER: It kind of assumes that it does.
5 THE COURT: It is lack of foundation maybe?
6 MR. AMER: Well, it is both.
7 Q Was the information provided to Mazars concerning the
8 rents generated from the regulated units?
9 A Yes. There was a rent-roll every month the person --
10 Irene Caprino for arguments sake, would -- could print out a
11 rent-roll listing of all of the tenants in the regulated units
12 or unregulated units in the commercial space with the billing
13 amounts, collections, arrears, prepaid rents.
14 MR. SUAREZ: If we could pull up Plaintiff's
15 Exhibit 736 and put it side by side with Plaintiff's
16 Exhibit 731?
17 Q Do you see in the Trump Park Avenue where it says
18 that the valuation is based on the anticipated selling price of
19 unsold residential units and the selling price or the rental
20 income stream from the commercial space?
21 A Yes.
22 MR. SUAREZ: Can we pull up the supporting data
23 for the Trump Park East?
24 Q Do you see there where it says the valuation is based
25 on the anticipated selling price of unsold units?

McConney - by Defendant - Direct (Suarez) Page 4972

1 A Yes.
2 Q And where it says for unsold units per e-mail from
3 sales office?
4 A Yes.
5 Q Did you use the same method for valuing units at the
6 Trump Central Park South as you did for the Trump Park Avenue?
7 A Yes, it was a little different where we reduced it by
8 some construction costs, because those units really haven't
9 been worked on in years.
10 Q And why would it be appropriate to reduce those units
11 by the construction costs?
12 A That would properly reflect the amount we expected to
13 receive net of -- from the sale of the unit.
14 Q If you pull up Plaintiff's Exhibit 736, is it clear
15 in that document, Mr. McConney, that the numbers used were
16 offering plan prices and not market prices?
17 MR. AMER: Objection, leading.
18 THE COURT: Sustained.
19 Q Mr. McConney, why was the information provided to
20 Mazars provided for the offering plan prices and not the market
21 prices?
22 A That's what we felt properly reflected the value of
23 the asset.
24 Q And why was that?
25 A I am trying to figure, I don't know how to put it

McConney - by Defendant - Direct (Suarez) Page 4973

1 into words, it is just what we thought the right value was for
2 these units.
3 Q Okay. And turning briefly to Ms. Trump's apartment.
4 Was there a correction made with respect to the price of
5 Ms. Trump's apartment?
6 A Yes. I believe on the original spreadsheet I had the
7 amount that was provided by the sales office. Donald Bender
8 called me up and said Ivanka Trump had a lease. There was a
9 buy-out provision in the lease which I didn't know about. And
10 he said to put the amount there. So we did. The amount of
11 \$14 million for Penthouse 20.
12 THE COURT: Five-minute warning.
13 MR. SUAREZ: I am ready to turn to another
14 subject. Should I start with the other subject?
15 THE COURT: We have six minutes. Go ahead.
16 MR. SUAREZ: Okay. If we can turn to 40 Wall
17 Street.
18 Q Can you briefly describe this property?
19 A Forty Wall Street is a commercial office building in
20 the downtown area of Manhattan.
21 Q How did you value this property?
22 A In both years it was based on a net operating income
23 divided by a cap rate.
24 Q And how did you arrive at the cap rate?
25 A We reached out to Doug Larson. It looks like he was

McConney - by Defendant - Direct (Suarez) Page 4974

1 still at Cushman & Wakefield this year. Asked him for, in both
2 years, asked him for his report he has been sending us in prior
3 years for downtown class A properties. And we went through the
4 various properties to see what was as comparable as we could
5 get to 40 Wall Street; and then went from there.
6 Q And how did you determine the appropriate cap rate to
7 use in June of 2014?
8 A Well, in that year they were based on the information
9 that Doug provided. There was only one class A building with a
10 cap rate of 4.97 percent. So there was a class B building
11 which is below a class A building. It is not as -- it is just
12 not as good as a class A building. That's -- if that's a term.
13 Which had a rate of 4.46. I asked -- I called Doug and asked
14 him, what the spread or the changing cap rate would be from a
15 class A to a class B building. Doug said it is between 50 and
16 100 basis points. We were conservative, instead of using 100
17 basis points, we split the middle and used 75 basis points.
18 So we reduced the 4.46 percent to 3.71 percent and
19 then took the average of the two; the two being 4.97 and 3.71.
20 Q And how did that change between 2014 and 2015?
21 A In 2015 we found a 100 Wall Street, and I get lost
22 downtown, but I know 100 Wall Street is close to 40 Wall
23 Street. So we had -- there was a cap rate of a building at 100
24 Wall Street at 3.04 percent. Forty Wall Street has a ground
25 lease, which means you don't own the land, you pay rent for

McConney - by Defendant - Direct (Suarez) Page 4975

1 that land to the owner of the land. And basically Doug said
2 there is a -- since it is a longterm ground lease, the cap rate
3 is a minimal effect or charge to the cap rate. So we
4 increased -- increased the cap rate on 100 Wall Street from
5 3.04 to 3.29 percent.
6 Q And were you aware in 2015 that there were appraisals
7 done on the 40 Wall Street property?
8 A Yes.
9 Q Why didn't you use the appraisal values?
10 A I didn't think it reflected the value of the --
11 properly reflected the value of the property.
12 MR. SUAREZ: Let's move to the notes under cap
13 rate and focus on 2014 first.
14 Q Did you speak to Mr. Larson on the phone?
15 A I believe I did, and usually I put a date down, but
16 that's the only way I would get this information about the
17 difference between class A and class B buildings.
18 Q And in 2015, do you see the note there?
19 A Yes.
20 (The following proceedings were stenographically
21 recorded by Senior Court Reporter Michael Ranita.)
22
23
24
25

J. McConney - by Defense - Direct Page 4976

1 Q Did you have another conversation that year with
2 Mr. Larson?
3 A Yes. This time I did state it was a telephone
4 conversation, and the date of the conversation with Doug, Doug
5 Larson.
6 MR. SUAREZ: If we could pull up Plaintiff's
7 Exhibit 3004.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 MR. SUAREZ: And put it next to Plaintiff's
11 Exhibit 731.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q And turn to native one on Plaintiff's 3004?
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 MR. SUAREZ: Move to the section on 40 Wall Street
18 -- actually, let's start at the top and show Mr. McConney
19 the top.
20 Q Do you recognize this document?
21 A That's my spreadsheet, at some point in time.
22 Q Is this a draft of the spreadsheet that was ultimately,
23 on the right, used for the 2015 Statement of Financial
24 Condition?
25 A I'm sorry, can you ask that again. I was trying to

J. McConney - by Defense - Direct Page 4977

1 read something.
2 Q Yeah. Is the spreadsheet on the left, plaintiff's
3 0304, native one, an earlier version of the spreadsheet that
4 appears at 731?
5 MR. AMER: Just so the record is clear it's 3004,
6 3004.
7 MR. SUAREZ: We could pull up June 2015.
8 THE COURT OFFICER: The plaintiff's number?
9 MR. SUAREZ: We just had it up a second ago. The
10 2015, can we pull that up, Statement of Financial Condition.
11 A The one on the right, can we just scroll up to the top.
12 (Whereupon, the exhibit displayed on the screen was
13 scrolled through.)
14 Q Let's look at the one on the right. Let's look at the
15 value for 40 Wall. Plaintiff's 729 is the Statement of
16 Financial Condition.
17 MR. SUAREZ: We could turn to the page with the
18 statement of assets.
19 (The exhibit was handed to the witness.)
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q Do you see here the value for 40 Wall?
23 A Yes, \$735,400,000.
24 MR. SUAREZ: Can we pull up Plaintiff's Exhibit
25 3004, native one, side by side.

J. McConney - by Defense - Direct Page 4978

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 MR. SUAREZ: And scroll down to 40 Wall.
4 (Whereupon, the exhibit displayed on the screen was
5 scrolled through.)
6 MR. SUAREZ: Where it says "value", show the value
7 for 2015.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 Q Do you see where it says 660 million on cell G, 133?
11 A Yes.
12 Q Would you agree with me that that number does not
13 correlate to 735?
14 A Yes.
15 Q Does not correlate to the figure used in plaintiff's --
16 in the Statement of Financial Condition for 2015?
17 A Correct. So this -- this statement, the spreadsheet on
18 the right, was a draft, but not the finalized spreadsheet.
19 Q Do you see where it says, "Income vacant retail space,
20 Dean & DeLuca"?
21 A Yes.
22 Q Do you recall adding that into your computation on the
23 draft spreadsheet that appears at Plaintiff's Exhibit 3004?
24 A Yes.
25 Q And if you pull up Plaintiff's Exhibit 731?

J. McConney - by Defense - Direct Page 4979

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 MR. SUAREZ: At row 117.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 Q Was the Dean & DeLuca income on the final spreadsheet?
7 A Can you shrink it so I could see the numbers in column
8 G.
9 (Whereupon, the exhibit displayed on the screen was
10 zoomed out.)
11 A Okay. I'm sorry, what was the question?
12 Q Is the Dean & DeLuca lease in the final spreadsheet
13 that appears at Plaintiff's Exhibit 731?
14 A No.
15 Q Do you know why the Dean & DeLuca lease doesn't appear
16 in the final spreadsheet?
17 A I don't know.
18 THE COURT: Um --
19 MR. SUAREZ: I think for today I'm at a good
20 stopping point on my outline.
21 THE COURT: Okay.
22 I'll direct the witness not to discuss the case or
23 his testimony, or anything related about it, until tomorrow,
24 until you are no longer a witness, and we'll resume at 10:00
25 tomorrow; right?

J. McConney - by Defense - Direct Page 4980

1 MR. ROBERT: Thank you, your Honor.
2 THE COURT: Okay. Thanks.
3 (The case on trial was adjourned to Tuesday,
4 November 21, 2023 at 10:00 a.m.)

 Senior Court Reporters

Page 4983

J. McConney - by Defense - Direct (Mr. Suarez)

1 THE COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent. Laptops and cell
 4 phones will be permitted, but only to members of the press.
 5 There's absolutely no recording or photography of any kind
 6 allowed in the courtroom. Now be seated and come to order.
 7 THE COURT: Okay. Let's ask the witness to come
 8 back to the witness stand and continue with the direct
 9 examination of Mr. McConney.
 10 (Whereupon, the witness stepped into the witness
 11 stand.)
 12 THE COURT: I'll remind the witness, like I always
 13 do, that he is still under oath.
 14 And Mr. Suarez --
 15 MR. SUAREZ: Good morning, your Honor.
 16 Q Good morning, Mr. McConney.
 17 A Good morning. How are you.
 18 Q I'm doing great. Thank you.
 19 MR. SUAREZ: If we could please pull up page 4970
 20 of yesterday's transcript.
 21 (Whereupon, the exhibit was displayed on the
 22 screen.)
 23 Q Mr. McConney, do you remember yesterday when I asked
 24 you about how information about rent regulated apartments was
 25 provided to Mazars or Mr. Bender?

Page 4984

J. McConney - by Defense - Direct (Mr. Suarez)

1 A Yes.
 2 MR. SUAREZ: If we could turn over to the next
 3 page.
 4 Q I would just like to show you yesterday's transcript.
 5 You described rent roll that would be sent to Mazars?
 6 A Yes.
 7 MR. SUAREZ: Please pull up Defendant's
 8 Exhibit 1042 that we pre-marked for identification.
 9 (Whereupon, the exhibit was displayed on the
 10 screen.)
 11 Q Mr. McConney, do you see on the first page your name?
 12 A Yes, sir.
 13 Q And the date, October 3, 2012?
 14 A Yes, sir.
 15 Q Is this the type of rent roll that you were describing
 16 yesterday?
 17 A Yes.
 18 MR. SUAREZ: Can we please turn to the second page
 19 of the exhibit.
 20 (Whereupon, the exhibit was displayed on the
 21 screen.)
 22 Q And focus in on Apartment 6B?
 23 (Whereupon, the exhibit was displayed on the
 24 screen.)
 25 Q Here in the notes it says that it's a -- do you see

J. McConney - by Defense - Direct (Mr. Suarez) Page 4985

1 what it says here in Apartment 6B?
2 A Yes.
3 Q Can you read what it says into?
4 A "Rent stabilized, preferential rent, lease expires
5 5/21/11.
6 Q And do you see Apartment 70 right beneath?
7 A Yes, sir.
8 Q What does that say?
9 A In the notes column?
10 Q Yes.
11 A "Rent stabilized, preferential rent, lease expires
12 3/31/11" -- sorry.
13 Q If you could turn to page four of that document D1042,
14 Mr. McConney, which you have in front of you?
15 A I'm sorry. Okay.
16 Q If it's easier for you to see on the screen we could
17 also show you on the screen?
18 A Yes, some of this is a little faded.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q Do you see what it says in unit number 7E?
22 A "Free market rent."
23 Q What does "free market rent mean"?
24 A There are no regulations on the unit. If the rent is
25 \$100 at the expiration of one lease year, you could charge a

J. McConney - by Defense - Direct (Mr. Suarez) Page 4986

1 million dollars the next. I.
2 Q And do you see Apartment 8H?
3 A Yes.
4 Q Do you see what that says in the notes?
5 A Yes.
6 Q What does that say in the notes?
7 A "Hotel stabilized, no increase permitted."
8 Q And what is the difference between hotel stabilized and
9 premarket?
10 A There are rules and regulations guidelines that you
11 have to follow for rent increases or -- there are rules and
12 regulations.
13 MR. SUAREZ: Could we turn to Apartment 40 -- 400.
14 I'm sorry, on page 1042-6.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q Do you see where it says in the notes, what it says
18 there?
19 A Unit 400, "hotel stabilized, no increase permitted."
20 MR. SUAREZ: And if we could turn back to the first
21 page.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 Q Why would you have copied Donald Bender on this e-mail?
25 A Donald Bender was the partner in charge. Mark Farkas

J. McConney - by Defense - Direct (Mr. Suarez) Page 4987

1 was one of Donald Bender's teammates, team -- was part of his
2 team. So Bender knew. He responded to Mark Farkas, and
3 basically we copied Bender on everything.
4 MR. SUAREZ: Your Honor, I move Defendant's
5 Exhibit 1042 into evidence.
6 MR. AMER: No objection.
7 THE COURT: Granted it's in.
8 (Defendant's Exhibit 1042 was admitted in
9 evidence.)
10 MR. SUAREZ: If we could pull up Defendant's
11 Exhibit 1045 marked for identification.
12 Q Do you see where it says from mdsreport@trumporg.com?
13 A Yes.
14 Q What is mdsreport@trumporg.com?
15 A MDS is our general ledger package program. It's
16 multi-data systems, multi-data services, I'm not sure. We used
17 to called it MDS. You could put run reports in MDS, which
18 automatically you get produced to an e-mail, so you could just
19 send it out. So this is an e-mail that was generated from our
20 general ledger package.
21 Q And whose Patrick Oberlies?
22 A Patrick Oberlies was one of Donald Bender's team. He
23 worked for Mazars.
24 Q What is the date of this e-mail?
25 A February 3rd, 2016.

J. McConney - by Defense - Direct (Mr. Suarez) Page 4988

1 Q What did the e-mail attach?
2 A It's a December 2015 rent roll for Trump Park Avenue.
3 Similar to what we just saw for a different month and year.
4 MR. SUAREZ: If we could please turn to the second
5 page of Defendant's Exhibit 1045-2.
6 Q Do you see Apartment 6B?
7 A B, as in boy, yes.
8 Q And what does it say in the notes?
9 A "Rent stabilized, preferential rent, lease expires
10 8/31/16."
11 Q For apartment 7D, what does it say in the notes?
12 A "Rent stabilized, preferential rent, lease expires
13 10/31/16."
14 Q And unit 8H on page three?
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q Do you see in the middle of the notes, in the second
18 paragraph, what does that say?
19 A "Hotel stabilized, no increase permitted."
20 Q And then the fourth page of this document?
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q Unit 15AB, the second paragraph from the bottom in the
24 notes, what does that say?
25 A "Rent stabilized, preferential rent."

J. McConney - by Defense - Direct (Mr. Suarez) Page 4989

1 Q Unit 10E on page five.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q What does that say in the notes?
5 A "Rent stabilized, no one charged SD when they signed
6 the two-year lease, \$72.53."
7 Q In page six, Unit 12E, do you recognize the note there?
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 A Yes. Should I read it?
11 Q Sure.
12 A "7/7/15, per Sonja." Sonja is Tolesnik. She works in
13 the operations department. She is one of the lawyers that would
14 deal with these leases. "7/7/15, per Sonja, life estate, 12E is
15 free market, but occupied by Luisa Flynn who has a lifetime
16 tenancy", in parenthesis, "and is to be treated as a stabilized
17 tenant with rent adjustments based on "monthly common charges
18 and real estate taxes." Apartment is not being registered with
19 DHCR.
20 Q And if we could turn to 1045, page nine, Penthouse 20.
21 Who is the tenant in Penthouse 20?
22 A Ivanka Trump.
23 Q What does the note say there?
24 A "Exclusive right during term of lease to purchase units
25 for \$14,264,000, notwithstanding the filing of any amendment to

J. McConney - by Defense - Direct (Mr. Suarez) Page 4990

1 offering plan that may increase price of unit."
2 Q Was this information disclosed to Mazars?
3 A It was sent to Mazars. It's right on the rent roll --
4 I'm sorry, the answer is yes.
5 MR. SUAREZ: Your Honor, I move Defendant's
6 Exhibit 1045 into evidence.
7 MR. AMER: No objection.
8 THE COURT: Granted. It's in.
9 (Defendant's Exhibit 1045 was admitted in
10 evidence.)
11 MR. SUAREZ: If we could please pull up pre-marked
12 Defendant's Exhibit 1043.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q Mr. McConney, do you recognize this document?
16 A Yes. This is a similar rent roll for Trump Park
17 Avenue, LLC, for the month of December, 2014.
18 Q Do you know what PBC on the top left-hand corner means?
19 A The accounting firm would put that on documents. It
20 means prepared by client.
21 Q The accounting firm was Mazars?
22 A I'm sorry, yes, Mazars.
23 Q Mr. McConney, why would this document have been
24 provided to Mazars?
25 A It's a rent roll. They would check to make sure -- I'm

J. McConney - by Defense - Direct (Mr. Suarez) Page 4991

1 sorry, let me go back. Trump Park Avenue is an accrual basis
2 taxpayer. You would need to have to know if there are any
3 arrears for tenants and any prepaid rents. What the rents were
4 for the year took --
5 THE COURT REPORTER: I'm sorry, what the rents were
6 for the --
7 A Year reflected properly on the tax return. So this
8 would give Mazars the information as of the end of the year,
9 what tenants were in there, what the rents -- their rents were,
10 and any notes that were associated with that unit.
11 Q Can you read the note for unit 6B?
12 A "Rent stabilized, preferential rent, lease expires
13 8/31/15.
14 Q And does that same note appear for Unit 7C with a
15 modification to the end date of the lease?
16 A I don't see 7C. 7D?
17 Q Seven D, I'm sorry.
18 A Yes. 7D, "rent stabilized, preferential rent, lease
19 expires 10/31/15.
20 Q If we could turn to Unit 8H, which appears at page
21 seven of this document.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 Q What is the first note here at page seven of this
25 document?

J. McConney - by Defense - Direct (Mr. Suarez) Page 4992

1 A For 8H, "hotel stabilized, no increase permitted."
2 Q How about the note at Unit 15AB at page eight?
3 A 15AB, first paragraph says, "rent stabilized,
4 preferential rent, will not accept rent unless Meghan Kane
5 approves, per Meghan, okay. TYO, accept if current." Below
6 that, 10/28/14, "October payment bounced. Meghan forwarded to
7 BBWG."
8 Meghan Kane works in the operations department. She
9 was like, not a building manager, but her responsibility was
10 just to oversee certain buildings, and I believe this is one of
11 the buildings she oversaw.
12 MR. SUAREZ: Your Honor, I move Defendant's
13 Exhibit 1043 into evidence.
14 MR. AMER: No objection.
15 THE COURT: Granted. It's in.
16 (Defendant's Exhibit 1043 was admitted in
17 evidence.)
18 Q Mr. McConney, did you ever attempt to withhold from
19 Mazars that there were rent stabilized units at the Trump Park
20 Avenue?
21 A Absolutely not.
22 MR. SUAREZ: If we could go back to Plaintiff's
23 Exhibit 731.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

J. McConney - by Defense - Direct (Mr. Suarez) Page 4993

1 MR. SUAREZ: At row 71.
 2 Q Do you see there Niketown?
 3 A Yes.
 4 Q Can you briefly describe this property?
 5 A Um, Niketown is -- was Nike's premiere retail or
 6 flagship store. It was opened a number of years ago. It's on
 7 57th Street right off of Fifth Avenue. I think it was 50,000
 8 square feet.
 9 There was a building on that site prior to Nike signing
 10 this lease, and I think they actually had a bond offering, um,
 11 to pay for the improvements, or pay for something. They raised
 12 that building and put in this huge retail place where they sold
 13 Nike equipment.
 14 Q How did you value this property in the year 2014?
 15 A In 2014, well, there are two ground leases under the
 16 property. We were receiving rental payments from Nike, so
 17 that's the first line, the rental income. There was an annual
 18 charge for an operating charge of half million dollars, so
 19 that's the total income we received from Nike, a little over 11
 20 million bucks.
 21 The two ground lease payments are the payments we have
 22 because we didn't own the land. We made ground lease payments
 23 to, um, I don't know if it's the -- the person's name was
 24 Minskoff an another one called Kandell. The total of those
 25 payments were \$1.9 million. We had an NOI of a little under

J. McConney - by Defense - Direct (Mr. Suarez) Page 4994

1 \$9.2 million. We used a cap rate of 2.6 percent to come up with
 2 the value of \$348.8 million.
 3 Q How did you learn the specifics of the ground lease
 4 mechanism?
 5 A There were two leases from prior to Nike having the
 6 space. I said there was another building there. We had the
 7 ground leases were in place. So we knew that we had to make
 8 grand lease payments on a monthly basis, or maybe there was an
 9 annual charge, also, to the two ground lease owners.
 10 When Nike did the bond offering, I believe all the
 11 rental income and these ground lease payments were paid within
 12 the Nike bond deal. Once the bond was paid off, then we were
 13 responsible for billing Nike, collecting that money and paying
 14 the ground lease payments. And there were two ground leases
 15 that were negotiated a long time ago that had set monthly
 16 payments on.
 17 Q How did you learn that specific information?
 18 A I know when the bond deal was around. I remember David
 19 Malitzky and Allen Weisselberg were negotiating the Nike deal
 20 with whoever they were negotiating with. And I know they were
 21 negotiating, either extending or fixing the terms of the ground
 22 lease. So we -- there were conversations that I was part of. I
 23 don't remember what the conversations were, but, um, that's how
 24 I learned about the ground leases.
 25 Q How would you have compiled the specific property

J. McConney - by Defense - Direct (Mr. Suarez) Page 4995

1 information that appears here in your spreadsheet?
 2 A The rental income we billed out. "We" being The Trump
 3 Organization rent department would send out a monthly rent bill
 4 to whomever the person at Nike was. Um, we paid the ground
 5 lease payments from the same bank account. We maintained a bank
 6 account in the office where I worked.
 7 Q And how would you collect that information to put it on
 8 this page?
 9 A I would run reports or look at information within
 10 multi-data systems. Multi-data was our general ledger package.
 11 So I would see whatever income came in. I probably ran a report
 12 of some sort, and I probably used the leases, looked at the
 13 leases to see what the multi payments were. Probably also
 14 looked at -- I'm sorry. I also looked at the general ledger to
 15 see if all the payments were made.
 16 Q How did you come up with the cap rate?
 17 A Doug Larson, we mentioned yesterday, would send us
 18 these reports when we needed them, or asked for them. Which we
 19 used for -- we used those cap rates in the Statement of
 20 Financial Condition. I'm sure if you scroll down a little bit
 21 there's probably a footnote. We received some information from
 22 Doug or Cushman.
 23 MR. SUAREZ: Sure. Let's scroll down a little bit.
 24 (Whereupon, the exhibit displayed on the screen was
 25 scrolled through.)

J. McConney - by Defense - Direct (Mr. Suarez) Page 4996

1 Q If you could please take a look at the notes. We could
 2 start first with 2014.
 3 A Okay.
 4 Q In 2014, did you speak with Mr. Larson concerning the
 5 determination of a cap rate for this property?
 6 A For a determination, yes.
 7 Q What, if anything, did you recall with your
 8 conversation with Mr. Larson?
 9 A I don't really remember the conversation, but my notes
 10 laid everything out. That's why we have the notes, so we could
 11 know from year to year or remember year to year how we valued
 12 properties.
 13 I don't think based on this there were or any retail
 14 spaces on Doug's reports, so we were trying to take a cap rate
 15 for commercial property and adjust it so somehow. So I asked
 16 Doug how can we compare apples and oranges, and he basically
 17 told us about the 60 point difference, basis difference between
 18 commercial property and retail property.
 19 We were almost all the time conservative when we did
 20 these adjustments. So we did reduce the cap rate by 50 basis
 21 points instead of 60. If we used 60, we would have come up with
 22 a higher valuation.
 23 Q How about in 2015, can you describe the note for 2015?
 24 A The Crown Building. I think we were discussing this
 25 yesterday. The Crown Building is literally across the street,

J. McConney - by Defense - Direct (Mr. Suarez) Page 4997

1 across Fifth Avenue from Trump Tower. You walk through the
2 doors of Trump Tower, the commercial space, you walk across
3 Fifth Avenue and The Crown Building was there. Kurt works for
4 Cushman & Wakefield where Doug works, provided us information
5 about the cap rate when the Crown Building was sold.
6 Q Why didn't you use a retail comp?
7 A The Crown Building is a lot like Trump Tower in that it
8 has retail space and office space. So, um, it's not just a pure
9 retail space. So we needed a mixed-use building, I think it's
10 called.
11 Q Would you, at times, discuss the selection of cap rates
12 with Donald Bender?
13 MR. AMER: Objection. Leading.
14 Q What did you discuss --
15 THE COURT: Sustained.
16 Q -- if anything, about cap rates with Donald Bender?
17 THE COURT: Lack of foundation.
18 MR. AMER: It's leading. "Who did you discuss cap
19 rates with?
20 THE COURT: And what did you discuss.
21 MR. SUAREZ: I can't ask him if he discussed the
22 cap rates with the accountants that were compiling the
23 financial reports? It's not a leading question.
24 THE COURT: Yes, it is. The answer involves yes or
25 no, which is the simple definition of a leading question.

J. McConney - by Defense - Direct (Mr. Suarez) Page 4998

1 Q Who did you discuss the selection of cap rates with?
2 A Definitely discussed it with Donald Bender. I remember
3 one time when he -- I just remember one time when he actually
4 was questioning it and we had to provide more documentation for
5 him. Um, not too sure what year it was, but I think we were
6 using a four percent cap rate. And I don't remember what his
7 question was, but we had to reach out and provide more
8 information to him. I believe we left the cap rate at four
9 percent.
10 MR. SUAREZ: Can we please play Plaintiff's
11 Exhibit 3297 marked for identification.
12 (Audio played in open court.)
13 Q Mr. McConney, is that your voice on the recording?
14 A Yes.
15 MR. SUAREZ: Your Honor, to the extent it's not
16 already in evidence, I move Defendant's Exhibit 3297 into
17 evidence.
18 MR. AMER: It's in.
19 Q Mr. McConney, does that voicemail refresh your
20 recollection as to specific conversations with Mr. Bender
21 concerning the selection of cap rates?
22 A The conversation with Ray Flores, our finance person,
23 was the result of the conversation with Donald Bender.
24 Q Why would Mr. Bender be giving you a hard time about
25 the cap rates that you used to value your property?

J. McConney - by Defense - Direct (Mr. Suarez) Page 4999

1 A It was like a lot of the other valuations, if not all
2 the valuations. We went through it and he had questions.
3 Q When Mr. Bender had questions, how did you respond?
4 A Either a lot of times we had telephone conversations,
5 sometimes they were e-mails. If he needed more than my
6 telephone conversation, somebody would provide backup to him.
7 E-mail, I guess we would e-mail the backup nowadays. In the old
8 days we got it to him somehow. Fed-Ex or some other means.
9 Whatever he asked for, we gave him.
10 Q Was the information always within your knowledge?
11 A No.
12 Q When it wasn't within your knowledge, how would you get
13 the information to Mr. Bender?
14 A I would either speak to the person, the person who had
15 knowledge, or have that person directly call Donald Bender, or
16 e-mail Donald Bender.
17 MR. SUAREZ: If we could turn to row 699.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Can you briefly describe the Seven Springs property
21 that appears at row 699 of the spreadsheet?
22 A Seven Springs is the old Rockefeller estate. It's,
23 it's -- I don't remember how many acres, but it's a large piece
24 of property. I think it's a couple of hundred acres, and it's
25 in three towns, New Castle, North Castle, and the third one I

J. McConney - by Defense - Direct (Mr. Suarez) Page 5000

1 forget. It was a property purchased by Mr. Trump years ago, and
2 over the course of time there were various visions for the
3 property; golf course, high-end golf course, luxury homes, so
4 depending on what year it was, the vision changed.
5 Q Can I direct your attention to the note for June 30,
6 2015?
7 A Okay.
8 Q Can you read that into the record, please.
9 A June 30, 2015, "Conservation easement property moved to
10 other assets."
11 Q Why did the -- let me rephrase that, did the method of
12 valuing the Seven Springs property change in 2015?
13 A Yes.
14 Q Why?
15 A It was no longer for development. I was told that they
16 were going to donate, and from what I've learned from my prior
17 testimony, donate, I guess, investment rights. I'm not sure
18 that's correct, but that's what I've been told, they were
19 donating the development rights and they were going to get a
20 charitable contribution for the donation of, I think, part of
21 the land.
22 Q What do you know about conservation easements?
23 A Very little.
24 Q How would you have come up with a value for the
25 conservation easement that you placed on your spreadsheet?

J. McConney - by Defense - Direct (Mr. Suarez) Page 5001

1 A It was an appraisal done specifically for the
2 conservation easement that had a before donation and after
3 donation valuation.
4 MR. SUAREZ: Can we move to row 895.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q Do you see that number?
8 A Yes. Can you scroll up so I could see. I think that's
9 June of 15 column. I want to see the year it's for. Scroll up
10 a little more.
11 (Whereupon, the exhibit displayed on the screen was
12 scrolled through.)
13 A Okay. Yes.
14 Q And is that the value that you used in 2015 for Seven
15 Springs?
16 A Yes.
17 Q Moving onto the triplex apartment?
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Do you see there where you have a value for the triplex
21 apartment?
22 A Yes.
23 Q And do you see -- can you explain to me the basis for
24 valuing the triplex apartment?
25 A For the June of 2015 statement?

Page 5002

1 Q Yes.
2 A We reached out to our sales office, Trump International
3 Realty, and asked them to provide us with an amount per square
4 foot so we could -- which we used to value the, um, triplex. I
5 believe the e-mail said -- the triplex is 30,000 square feet.
6 It was something about \$10,900 per square foot. Multiply the
7 two and came up with the \$327 million.

McConney - by Defendant - Direct (Suarez) Page 5003

1 Q Why was the value of 30,000 square feet input into
2 the spreadsheet?
3 A It was a mechanism so I knew from year to year what
4 the value was based on. Sometimes I would just look at the
5 spreadsheet and this way I didn't have to go to all of the
6 voluminous backup we had. It reminded me how we valued the
7 property at that point in time.
8 Q Where would you have come up with the number 30,000
9 square feet?
10 A The person running TIR at the time, Kevin Sneddon,
11 sent me an e-mail that the triplex was 30,000 square feet.
12 Q Was the 30,000 square feet figure used to inflate the
13 price of the triplex?
14 A It was used based on the information I received from
15 somebody who knows. He is a broker. I would rely on him
16 because I figured he knew the property a lot better than I did.
17 Q Have you, Mr. McConney, ever personally walked
18 through the entirety of the triplex?
19 A The entirety, no.
20 Q Have you ever measured how many square feet the
21 triplex is?
22 A No.
23 MR. SUAREZ: If we can move on to Vornado. And
24 we can pull up the Statement of Financial Condition and
25 put it side by side with the supporting data.

McConney - by Defendant - Direct (Suarez) Page 5004

1 Q Mr. McConney, what are the Vornado Partnership
2 interests?
3 A President Trump owns 30 percent of two buildings, the
4 other 70 percent is owned by the Vornado -- I think it is the
5 Vornado Realty Trust. There is one building in California, the
6 555 California Street; one building in Manhattan, that is 1290
7 Sixth Avenue.
8 Q How were the Vornado Partnership interests acquired
9 by the Trump Organization?
10 A It goes back a long way. Mr. Trump originally was
11 developing the west side to an entity called Penn Yard
12 Associates, back in the late '80s early '90s, with Abe
13 Hirschfeld. Mr. Trump ran into some financial difficulties in
14 the '90s. I think the bank took -- the banks took back the
15 properties and they sold them to a Hong Kong group. I don't
16 remember the name of the entity.
17 They changed their name, I believe, to Hudson
18 Waterfront Associates and gave Mr. Trump a 30 percent limited
19 interest in this property for his name, for his brand, for his
20 business acumen in developing the properties, and to help
21 promote the properties.
22 The Hong Kong group built a couple of buildings, I
23 don't know what kind of zoning or whatever they had for the
24 properties. One building, which was Hudson -- they also
25 developed there was one big property, I think 70 or 80 acres on

McConney - by Defendant - Direct (Suarez) Page 5005

1 the west side, split it up into five separate partnerships.
 2 Hudson Waterfront Associates II, they developed a
 3 condominium on that site and sold the condominium units.
 4 I don't really remember the transaction of what
 5 happened, but they sold to, I think it was Sam Zell and
 6 somebody else, Hudson Waterfront I and III, IV and V.
 7 I believe the Hong Kong group purchased these two
 8 buildings, and then at some point sold the buildings to
 9 Vornado -- or Vornado purchased the buildings, I don't know how
 10 you want to look at it. And Mr. Trump was just -- Mr. Trump
 11 still owned 30 percent of the partnership, so he just went from
 12 the ownership of vacant land or semi-developed land to these
 13 two office buildings.
 14 MR. SUAREZ: Please pull up Plaintiff's Exhibit
 15 2587.
 16 Q Do you recognize this document, Mr. McConney?
 17 A Yes.
 18 Q And can you please take a look at row 11?
 19 What does row 11 represent?
 20 A This spreadsheet is -- was used to compile the
 21 information for the cash and marketable securities line on the
 22 President's Statement of Financial Condition.
 23 This is a lot of columns. We try to lay it out the
 24 best we could to identify the banks where the money was. Line
 25 11 is the cash that is reflected on the balance sheet as of

McConney - by Defendant - Direct (Suarez) Page 5006

1 June 30, 2016 for 1290 Avenue of the Americas. We got a
 2 footnote there that we only own 30 percent of the property. So
 3 we multiplied that cash balance by 30 percent, and reflected
 4 the \$7 million number on the -- in the amount column.
 5 Q If you can look at row 16? Can you please identify
 6 for me the cash that is reflected on row 16?
 7 A Hudson Waterfront, HWA Waterfront Associates LP I
 8 owned 555 California Street. And again, we took the balance
 9 sheet from that entity, took 30 percent of the cash and
 10 reflected it on this cash schedule.
 11 Q Why did you place there in parentheses (30 percent of
 12 cash on balance sheet)?
 13 A Full disclosure, just so somebody wouldn't think it
 14 was 100 percent of the cash.
 15 Q And moving to row 17, what does that cash represent?
 16 A HWA Waterfront Associates LP III is one of three
 17 partners in 1290 Avenue of the Americas. It was kind of a
 18 tiered entity. I think it is called a tenancy-in-common. I am
 19 not sure what that means on the legal side, but there was
 20 another balance sheet for that entity. That entity had cash.
 21 We multiplied that cash on the balance sheet times 30 percent
 22 and reflected the \$4 million in the amount column.
 23 Q And why did you list there in the row, 30 percent of
 24 cash on balance sheet?
 25 A Again, so nobody would think we took 100 percent of

McConney - by Defendant - Direct (Suarez) Page 5007

1 the cash balance.
 2 Q And in row 18? Can you explain row 18 to me?
 3 A 18, HWA Waterfront Associates LP V, or five, is also
 4 one of the three partners in 1290 Avenue of the Americas. We
 5 took 30 percent of the cash on the balance sheet as of June 30,
 6 2016, and that's the \$1 million reflected in the amount column.
 7 Q And again, why did you place the 30 percent of cash
 8 on the balance sheet there on that row?
 9 A So anybody looking at it would know we only took
 10 30 percent of the cash.
 11 Q And what is the cash at row 19?
 12 A 19, HWA Waterfront Associates LP IV, or four, is the
 13 third partner in 1290 Avenue of the Americas. We took
 14 30 percent of the cash on that balance sheet and reflected the
 15 \$21,000 in the amount column.
 16 Q Why does it say 30 percent of the cash there on the
 17 balance sheet?
 18 A So we could disclose to everybody that we didn't take
 19 100 percent of the cash.
 20 Q Was this disclosed to Mazars?
 21 A Yes, it was.
 22 Q What involvement did Mazars have with respect to the
 23 Trump Organization's interest in HWA Waterfront Associates, if
 24 any?
 25 A Every year Donald Bender would e-mail me or call me,

McConney - by Defendant - Direct (Suarez) Page 5008

1 remind me to get -- the information was provided to the Trump
 2 Organization and Mazars via K-1. When you have a partnership
 3 your income, your ownership percentage, any other various items
 4 that need to be reflected on the owner's tax returns, is
 5 reflected on a K-1. Bender would remind me to call the tax
 6 department for Vornado and ask for the K-1 or get an estimated
 7 K-1, so we could do the extensions in April; the final K-1 so
 8 we could finish the President's tax return in October. So I
 9 would send to Bender -- e-mail to Bender these K-1s every year
 10 or a couple of times a year.
 11 Q Do you see at the top there in blue letters --
 12 MR. SUAREZ: We can scroll over.
 13 Q It says in blue: Per discussion with J. McConney on
 14 2/27/17 cash balances are from bank reconciliations and not
 15 from individual balance sheets.
 16 A Yes.
 17 Q What does that mean?
 18 A At a certain point in time we started valuing our
 19 golf courses based on their assets. So we would use -- we
 20 would get a monthly financial statement or June financial
 21 monthly statement, showing other assets and liabilities. I
 22 think at some point we were using the cash amounts on those
 23 balance sheets. This is reflected that we had actually had
 24 bank reconciliations, copies of bank statements.
 25 A bank reconciliation is when you reconcile your book

McConney - by Defendant - Direct (Suarez) Page 5009

1 balance to the bank balance. If you have any outstanding
 2 checks, any deposit in transit, you adjust your book balance to
 3 agree to the bank statement. This is just stating that we used
 4 the bank statements to come up with all of these numbers, all
 5 of these amounts.
 6 Q And what, if any, was the outside accounting firm,
 7 Mazars', role in this process?
 8 A They would review this document. And this document
 9 is a number of columns. We try to keep the larger numbers on
 10 the spreadsheet. There were some other sub-spreadsheets which
 11 would contain smaller bank accounts. This was given to Mazars
 12 or Bender so he had the backup for the valuation of cash or the
 13 amount of cash that should be reflected on the Statement of
 14 Financial Condition.
 15 MR. SUAREZ: And if we could pull back up the
 16 Plaintiff's Exhibit, I believe it is 731, and place that
 17 side by side.
 18 Q Mr. McConney, the Vornado interests that we described
 19 earlier as being owned by the corporate entities on the
 20 spreadsheet that appears on the right, Plaintiff's Exhibit
 21 2587, are those the same partnerships as the entities that own
 22 the 1290 Sixth Avenue and 555 California Street?
 23 A Yes. H -- where is it? HWA Waterfront Associates LP
 24 I is 555 California Street. 1290 Avenue of the Americas and
 25 the HWA Waterfront Associates LP III, IV and V are owned 1290

McConney - by Defendant - Direct (Suarez) Page 5010

1 Avenue of the Americas, yes.
 2 Q Why did you value the Vornado partnership interests
 3 separately from the Vornado cash?
 4 A That's the way we valued all of the assets. We had
 5 different components. You had cash, marketable securities.
 6 This is the only place to put cash and marketable securities.
 7 We had escrow deposits. We had the asset value on the asset
 8 side and we did this for Trump Tower, we did it for 40 Wall
 9 Street. You can see the entities listed here.
 10 On the right side we had the accounts payable. And
 11 the loans -- the liability for the loans, if there were any,
 12 for whatever entity it was. So we kind of separated it.
 13 That's the way we presented it on our statement.
 14 Q Was that separation disclosed to Mazars?
 15 A Yes. You can see it right here.
 16 MR. SUAREZ: If we could please pull up
 17 Plaintiff's Exhibit 2575?
 18 Q Do you recognize this document, Mr. McConney?
 19 A Yes. This is -- this is the June of 2015 spreadsheet
 20 where we put together -- which was used to put together the
 21 information for the cash accounts and securities -- marketable
 22 securities as of June of 2015.
 23 Q Do the Vornado cash balances appear on this sheet?
 24 A Yes.
 25 Q Was this sheet provided to Mazars?

McConney - by Defendant - Direct (Suarez) Page 5011

1 A Yes.
 2 Q Is the 30 percent of cash on the balance sheet
 3 disclosed on this sheet as well?
 4 A Yes.
 5 MR. SUAREZ: Your Honor, I move Plaintiff's
 6 Exhibit 2575 into evidence.
 7 MR. AMER: No objection.
 8 THE COURT: Granted, it is in.
 9 (Whereupon, the document referred to was deemed
 10 marked for evidence as Plaintiff's Exhibit 2575 by
 11 the Court.)
 12 MR. SUAREZ: If we could please put up
 13 Plaintiff's Exhibit 2564?
 14 Q Do you recognize this document?
 15 A Yes.
 16 MR. SUAREZ: If we could scroll down?
 17 Q Do you see there the HWA Waterfront Associates cash?
 18 A Yes.
 19 Q And if I asked you the same questions about this
 20 sheet that I did about the other, would the answers be the
 21 same?
 22 A Yes.
 23 MR. SUAREZ: Your Honor, I move 2564 into
 24 evidence.
 25 MR. AMER: No objection.

McConney - by Defendant - Direct (Suarez) Page 5012

1 THE COURT: Granted, it is in.
 2 (Whereupon, the document referred to was deemed
 3 marked for evidence as Plaintiff's Exhibit 2564 by
 4 the Court.)
 5 MR. SUAREZ: 2552, Plaintiff's Exhibit.
 6 Q Do you recognize this document, Mr. McConney?
 7 A Yes.
 8 MR. SUAREZ: And you can scroll down to the HWA
 9 Waterfront Associates.
 10 Q Do you see here the entities are slightly different?
 11 A Yes.
 12 Q Why is that?
 13 A This was prior to we found out about the second tier
 14 of partnership entities. So these were HWA Owners LLC is the
 15 legal entity, I believe, that owns 555 California Street. And
 16 1290 Avenue of the Americas is the owner of 1290 Avenue of the
 17 Americas or Sixth Avenue.
 18 Q What do you mean before you found out about the
 19 different level of --
 20 A In subsequent years we found more -- I don't know
 21 exactly how we found out, but we found out that there was
 22 another level in the 1290 Avenue of the Americas partnership
 23 where the HWA partnerships were. They had their own balance
 24 sheets, and we found those balance sheets. When we found out
 25 that information, we started adding that cash in subsequent

McConney - by Defendant - Direct (Suarez) Page 5013

1 years.

2 This year, we probably just knew about -- but we just

3 knew about the -- We received the two financial statements,

4 quarterly financial statements from Vornado and took the cash

5 right off those main partnership financial statements.

6 Q And was that disclosed to Mazars?

7 A Yes.

8 MR. SUAREZ: Your Honor, we move Plaintiff's

9 Exhibit 2552 into evidence.

10 MR. AMER: No objection.

11 THE COURT: Granted, it is in evidence.

12 (Whereupon, the document referred to was deemed

13 marked for evidence as Plaintiff's Exhibit 2552 by

14 the Court.)

15 MR. SUAREZ: If we could pull up Plaintiff's

16 Exhibit 2622? If you could scroll down?

17 Q Do you recognize this exhibit?

18 A Yes.

19 Q Does this exhibit contain the Waterfront Associates

20 or Vornado Partnership interests?

21 A This tab represents the cash -- these are the

22 entities and cash balances we have that were below \$50,000. If

23 you go to the first tab, the 06.30.12, I think they should be

24 in this schedule.

25 Can we go back to the prior report? Prior?

McConney - by Defendant - Direct (Suarez) Page 5014

1 Can we scroll down a little bit, please?

2 THE COURT: I'll ask the witness to remember to

3 speak right into the mic.

4 THE WITNESS: Sorry.

5 THE COURT: I know it is tough when you are

6 looking at the screen and the other screen.

7 THE WITNESS: I don't see them.

8 MR. SUAREZ: Okay. Can we check Marketable

9 Securities?

10 Q Not there either?

11 A No, sir.

12 Q Do you recall why in 2013 those assets were included?

13 A Probably realized we were undervaluing our cash

14 assets, because we never included those numbers, and they are

15 substantial numbers.

16 Q Was the decision to include those assets discussed

17 with Mazars?

18 A I don't know if we discussed them when we added them.

19 But knowing Bender, he asked us questions about them, why we

20 added them, where the information came from, and we provided

21 him any information he needed.

22 Q Was Mr. Bender --

23 MR. AMER: Excuse me. I am sorry. Excuse me.

24 I am going to move to strike the last answer

25 because he said, "I don't know if we discussed them." And

McConney - by Defendant - Direct (Suarez) Page 5015

1 then whatever came after that was just his speculation.

2 MR. SUAREZ: It is not a speculation. He had a

3 40 -- 30-something year relationship with Bender and

4 worked together on the Statements of Financial Condition.

5 THE COURT: Please read back the question and

6 the answer.

7 (Whereupon, the record was read back by the

8 court reporter.)

9 THE COURT: Well, I don't want to strike it.

10 That's his understanding of what would have happened.

11 So, overruled.

12 MR. SUAREZ: If we could go back to the cash --

13 I am sorry, to the supporting data, Plaintiff's Exhibit

14 731. And go back to the Vornado Partnerships.

15 Q How did you value in 2014 the interest in 555

16 California Street?

17 A We used the financial statement provided to us from

18 Vornado. We used the NOI, net operating income, off the P&L

19 statement of income. I don't know what the correct term was

20 that year. We took the -- we divided the NOI by the cap rate.

21 Came up with a value based on that cap rate and P&L. Reduced

22 it by the existing mortgage on the property, and came up with a

23 net property value.

24 Q And what did you do with the net property value?

25 A Ultimately we multiplied the net property value by

McConney - by Defendant - Direct (Suarez) Page 5016

1 30 percent to determine the value to President Trump.

2 Q And why did you multiply the -- I am sorry, the net

3 property value by 30 percent?

4 A The same reason we multiplied the cash by 30 percent,

5 that was President Trump's partnership interest in the

6 partnership.

7 Q Was that disclosed to Mazars?

8 A Yes, they had the K-1s. They could see right off the

9 K-1s that there was a 30 percent partnership interest.

10 Q And how did you select the cap rate in 2014?

11 MR. AMER: Can we just be specific as to which

12 cap rate?

13 MR. SUAREZ: Sure.

14 Q How did you select the cap rate for 555 California

15 Street in 2014?

16 A Doug Larson, who works for Cushman -- used to work

17 for Cushman & Wakefield, put us in touch with Robert Farwell,

18 who worked in California, or San Francisco. He provided us

19 with some information. It wasn't the same as what Doug

20 provided us, but he provided us some comp information. And

21 based on that information we came up with this -- with the cap

22 rate.

23 Q And how about for 1290 Sixth Avenue?

24 A Can you scroll, I don't know, up or down, but --

25 There we go. Thanks.

McConney - by Defendant - Direct (Suarez) Page 5017

1 It was based on Doug's -- like we spoke about before,
 2 we contacted Doug Larson. He provided us with his reports for
 3 midtown for class A buildings. And based on that information
 4 we selected the cap rates used.
 5 Q In 2015, how did you select a cap rate for 555 -- for
 6 the 555 California Street building?
 7 A This time we were in contact with John Walsh from
 8 Cushman & Wakefield in San Francisco, who provided us with
 9 information about class A office buildings in San Francisco.
 10 And based on those comps, we selected the two -- the two cap
 11 rates and came up with an average cap rate.
 12 Q When you say, "we selected" who selected the cap
 13 rate?
 14 A I selected the cap rate. Sorry.
 15 Q Was your selection of the cap rate based on your
 16 discussions with the gentleman from Cushman & Wakefield?
 17 MR. AMER: Objection, leading.
 18 THE COURT: Sustained.
 19 Q What was your selection of the cap rates based on?
 20 A It would be based on the e-mail in 2015, the e-mail
 21 that came from John. I don't have here a note about a phone
 22 call, so I don't remember if I actually spoke to him or not.
 23 Q Did you intend for your notes to be accurate,
 24 Mr. McConney?
 25 A This is the best I could, yes.

McConney - by Defendant - Direct (Suarez) Page 5018

1 Q What was the purpose of writing these notes on the
 2 supporting data?
 3 A To let the reader of these spreadsheets know where
 4 the numbers were coming from.
 5 Q And in 2015, how did you select the cap rate for 1290
 6 Avenue of the Americas?
 7 A Doug Larson, we reached out to Doug, Doug provided us
 8 his report for comps, midtown class A buildings, and there were
 9 four properties. There were four properties we used as comps
 10 to come up with the average cap rate, the 3.11 percent.
 11 Q Moving onto Mar-a-Lago at row 191.
 12 Do you see for Mar-a-Lago where it says: Value if
 13 sold to an individual?
 14 A Yes.
 15 Q Why does that note appear on your spreadsheet?
 16 A Because we didn't value it as an operating club. We
 17 valued it as if the house, the mansion, all of the additions to
 18 the mansion, the cabanas, private beach, were sold to an
 19 individual.
 20 Q And why was it not valued as a private club?
 21 A I don't remember off the top of my head.
 22 Q What did you do in 2014 to reach a value for
 23 Mar-a-Lago?
 24 A Whenever we valued Mar-a-Lago we tried to find comps
 25 in the area. There is nothing like Mar-a-Lago. It is

McConney - by Defendant - Direct (Suarez) Page 5019

1 17 acres. It goes from the ocean to the intercoastal. The
 2 properties we found were always smaller properties. They may
 3 have been on the intercoastal, may have been on the ocean, may
 4 have been landlocked. But there was nothing as huge as this
 5 estate. We tried to comp it, come up with a comp the best we
 6 could to come up with a value.
 7 In 2014 there was, I think it was one big deal where
 8 530 and 540 South Ocean Boulevard -- so you know, Mar-a-Lago is
 9 on 1100 South Ocean Boulevard. So it is not close, but not far
 10 away. And 61 Middle Road, which I believe is all connected to
 11 the 530 and 540 South Ocean Boulevard property. Took the
 12 selling price, divided by the number of acres, came up with an
 13 average price breaker, multiplied it by the 18 acres which is
 14 the size of the Mar-a-Lago property, came up with \$309 million.
 15 To that we added some of the structures that we --
 16 that the Trump Organization put on the property, the grand
 17 ballroom didn't exist. The beach cabanas was basically just a
 18 beach originally when it was a private residence. When
 19 Mr. Trump owned it, President Trump owned it as a private
 20 mansion. And then we had a tennis pavilion and tea house that
 21 we improved. So those amounts were added to the value.
 22 Q What, if any, discussions did you have with Mazars
 23 concerning the method of valuing the Mar-a-Lago club?
 24 A I don't remember having a specific conversation with
 25 Mazars on this.

McConney - by Defendant - Direct (Suarez) Page 5020

1 Q How did you value the 2015 -- how did you value
 2 Mar-a-Lago in 2015? Excuse me.
 3 A It was basically the same process. We tried to find
 4 a property that had a selling price in this year. In the
 5 neighborhood of Palm Beach we found this one for \$71 million.
 6 Came up with the same value -- came up with a value per acre.
 7 Multiplied it by the number of acres for Mar-a-Lago. Came up
 8 with the valuation of 261 million. And then we added the value
 9 of the grand ballroom and beach cabanas.
 10 Q Why did the value of Mar-a-Lago change by more than
 11 \$57 million? Why was it reduced by \$57 million from 2014 to
 12 2015?
 13 A The value per acre dropped from 13 million --
 14 13.8 million to 16.4 million. It is the best comp we came up
 15 with.
 16 (The following proceedings were stenographically
 17 recorded by Senior Court Reporter Michael Ranita.)
 18
 19
 20
 21
 22
 23
 24
 25

J. McConney - by Defense - Direct (Mr. Suarez) Page 5021

1 Q Were you trying to be accurate when you reduced the
2 value in Mar-a-Lago from 405 million to 347 million from 2014 to
3 2015?
4 MR. AMER: Objection. Leading.
5 THE COURT: Were you trying to --
6 MR. SUAREZ: Be accurate.
7 THE COURT: -- be accurate?
8 A I always try to be --
9 THE COURT: Hold on, hold on.
10 MR. AMER: It is a yes, no question, your Honor.
11 THE COURT: It's leading. Granted -- I mean,
12 overruled.
13 MS. FAHERTY: Sustained.
14 THE COURT: Sustained. I knew I would get it
15 sooner or later.
16 You could ask him why he did it.
17 Q What, if any, was your intention in reducing the value
18 from \$405 million to \$347 million of Mar-a-Lago from 2014 to
19 2015?
20 A Our intention was always to reflect the best we could
21 the value of these properties.
22 Q Do you see where it says the Mar-a-Lago Club value, if
23 sold to an individual?
24 A Yes.
25 Q Why is the Mar-a-Lago Club listed under club

J. McConney - by Defense - Direct (Mr. Suarez) Page 5022

1 facilities?
2 A Mar-a-Lago is a social club, um. When -- at some point
3 in time it was added under club facilities, and we just included
4 it there, just like the golf courses. I don't remember any or
5 reason.
6 Q How was it determined to put all of the -- withdrawn.
7 MR. SUAREZ: Can we scroll down to the first golf
8 course.
9 (Whereupon, the exhibit displayed on the screen was
10 scrolled through.)
11 Q Trump International Golf Club in Florida.
12 Mr. McConney, how did you come up with the valuation method for
13 the Trump International Golf Club in Florida?
14 A We were trying to figure out a way to best value the
15 property. We thought at this point in time that if we took the
16 purchase price and the improvements to the property, we would
17 have an idea of what it cost to fix up or to get the property to
18 the luxurious level, five-star level that President Trump
19 wanted.
20 This was the case that we developed it from scratch,
21 the vacant land was literally a garbage dump that the town or
22 county had. Mr. Trump had a vision to develop it into a world
23 class golf course. And this is what it cost to clean up the
24 property and develop, or grow -- to put the golf course in
25 place. I don't know what the right word is.

J. McConney - by Defense - Direct (Mr. Suarez) Page 5023

1 Q How did you get the information for the purchase price?
2 A This case I don't know if we had a purchase price
3 because it was, I think, a lease. So it's a leasehold. We
4 didn't purchase the land. So there's a long term lease. It was
5 just the amount of money we put into the asset over time. Each
6 property -- the conversation we had yesterday, each one of the
7 golf courses has it's own accounting staff. The accounting
8 staff that oversees Trump International Golf Club in Florida
9 also oversees Mar-a-Lago. They maintained the books and
10 records, general ledger, cash receipts, cash disbursements,
11 member billings, invoices. That's similar for all the other
12 golf courses. Each one has their own accounting staff,
13 controller, accounts receivable person, accounts payable person,
14 maybe a payroll person.
15 We asked, probably, the director of finance or the
16 controller to provide us with a balance sheet as of June 30th of
17 whatever year it was. And we picked the information off that
18 balance sheet.
19 MR. SUAREZ: If we could scroll down to the Trump
20 National Golf Club at Bedminster.
21 Q How did you come up with a valuation method for the
22 Trump National Golf Club in Bedminster?
23 A It would be similar. There was a group that was trying
24 to build the golf courses. This is the old Delorean estate,
25 made famous from the -- the Delorean was the Back to the Future

J. McConney - by Defense - Direct (Mr. Suarez) Page 5024

1 Delorean. They were having difficulties, I guess, finishing the
2 golf course.
3 Mr. Trump went in, bought out the partners, so we had a
4 purchase price there and then developed the golf course. This
5 came off the balance sheet from the accounting department at the
6 Bedminster golf course.
7 Q And how about Colts Neck? How did you come up with the
8 value for the asset for Colts Neck?
9 A Colts Neck, I know, had a housing component around it.
10 We didn't purchase the housing component. We just purchased the
11 golf course.
12 Again, it was, I think -- it was either an existing
13 golf course or it was almost finished. I think it was an
14 existing golf course that was operational. We purchased it.
15 I'm not sure if the developer was in bankruptcy or close to
16 bankruptcy. He was having financial problems. So we purchased
17 the golf course, which is included in fixed assets, or part of
18 the purchase was included in fixed assets, and any improvements
19 we made to the property.
20 Q Why was there a premium for a fully operational branded
21 facility added to the Colts Neck property?
22 A There are golf courses which we, you can say, built
23 from scratch, which would be Briarcliff, Trump International in
24 Florida, Bedminster. And there were properties that were
25 already in existence. Mr. Trump spent funds in order to bring

J. McConney - by Defense - Direct (Mr. Suarez) Page 5025

1 those properties, and there are a number of them, from their
 2 whatever status they were to the luxurious status, the five-star
 3 status that he wants his properties to have. So that was the
 4 premium that was added.
 5 Q Was the addition of that premium disclosed to Mazars?
 6 A Yes.
 7 Q What, if any, response did Mazars give to the addition
 8 of that premium?
 9 A I don't remember them saying anything or fighting back
 10 or arguing with us.
 11 Q If we could go through the Trump National Golf Club in
 12 Washington, D.C. How was the valuation methodology for this if
 13 golf club determined?
 14 A This was similar to Colts Neck. The developer -- I
 15 think it was an existing golf course already. The developer was
 16 -- we bought it from a developer at a discounted price, and we
 17 made improvements to the property. And, again, since we didn't
 18 develop it from scratch, we had the operational premium to it.
 19 Q How about the Trump National Golf Club in Philadelphia.
 20 Was how was valuation methodology achieved?
 21 A We purchased Philadelphia, Pine Hill and Hudson Valley
 22 in one transaction. I believe the purchase price was
 23 \$7 million. It was a bankruptcy, so that's why the price was so
 24 low. Mr. Trump spent money bringing it up to his standard. So
 25 the value on the fixed assets would be the purchase price and

J. McConney - by Defense - Direct (Mr. Suarez) Page 5026

1 the improvements, and then we added the operational premium.
 2 Q And that was also true of Hudson Valley?
 3 A Yes. That was one transaction. Two separate closing
 4 statements, but it was one transaction. So we bought them both
 5 at the same time. I believe it was the same developer.
 6 MR. SUAREZ: If we could keep scrolling down.
 7 (Whereupon, the exhibit displayed on the screen was
 8 scrolled through.)
 9 Q How about the Trump National Golf Club in LA? How did
 10 you come up with that valuation method?
 11 A Basically the same concept. There was a golf course
 12 that was originally an 18-hole golf course in LA. There was
 13 some sort of earthquake or something that I think one or two
 14 holes were, I wouldn't say lost in the ocean, but separated from
 15 the property.
 16 Mr. Trump purchased that asset, spent a lot of money
 17 fixing it up, bringing the missing holes -- I think it was a
 18 15-hole golf course for a number of years, and then it became
 19 the 18-hole golf course. So we just added that, whatever the
 20 asset value was. The asset value was on the balance sheet.
 21 Q How did that valuation change between 2014 and 2015?
 22 A There was a conservation easement made for part of the
 23 property. I think -- well, it was part of the property where
 24 some of the lots -- the property was divided into a number of
 25 lots. A number of the lots were donated and for a conservation

J. McConney - by Defense - Direct (Mr. Suarez) Page 5027

1 easement.
 2 Q And what effect did that have on the value of the
 3 property from 2014 to 2015?
 4 A It reduced it about \$18 million.
 5 Q What does this 72,979,000 figure at J-404 reflect?
 6 A I tried to keep track. That was like a little proof I
 7 had to keep track, or total, um the change for the net worth for
 8 the year in certain assets. That's the reduction in the golf
 9 course value from June of 2014 to June of 2015.
 10 Q And that's for the Trump National Golf Club in LA?
 11 A Just for the LA property, yes.
 12 MR. SUAREZ: If we could keep scrolling down.
 13 (Whereupon, the exhibit displayed was scrolled
 14 through on the screen.)
 15 Q How did you value the Charlotte club, Mr. McConney?
 16 A Charlotte was an existing course we purchased, I think,
 17 from the club. I don't know the reason why the club wanted to
 18 sell it, but they wanted Mr. Trump to take it over.
 19 So that would have been the purchase price and any
 20 funds we expended -- the company expended to fix up the golf
 21 course, and then we added the operational premium.
 22 Q How did we -- withdrawn.
 23
 24 MR. SUAREZ: Scroll down to Jupiter, Mr. McConney.
 25 (Whereupon, the exhibit displayed on the screen was

J. McConney - by Defense - Direct (Mr. Suarez) Page 5028

1 scrolled through.)
 2 A Okay.
 3 Q How did you come up with a valuation methodology for
 4 the Jupiter club?
 5 A Jupiter, I know we had a small cash purchase price for
 6 it. We assumed -- I'm pretty sure on the DC golf course and
 7 Charlotte golf course, we assumed liabilities, plus whatever
 8 amount we expended to bring the property up to the five-star
 9 Trump level.
 10 Q Can we pull up Defendant's Exhibit 1021 marked for
 11 identification and put it side by side?
 12 (Whereupon, there is a brief pause in the
 13 testimony.)
 14 MR. SUAREZ: I think the computers are also ready
 15 for Thanksgiving.
 16 (Whereupon, the exhibit was displayed on the
 17 screen.)
 18 Q Do you recognize this document, Mr. McConney?
 19 A Yes, sir.
 20 Q What does this document describe?
 21 A This was an allocation into -- I believe it was
 22 prepared by an accounting firm to allocate the purchase price,
 23 which was the cash and the liabilities for member deposits that
 24 we assumed, plus some closing costs, allocate that to purchase
 25 price to the tax return. It wasn't done for the tax return, so

J. McConney - by Defense - Direct (Mr. Suarez) Page 5029

1 we could allocate the purchase price between various assets or
 2 expenses; building, building improvements, land, furniture
 3 fixtures, which was needed in order to give us a basis to
 4 depreciate those assets if possible. Land you don't depreciate.
 5 Land improvements, I believe you can. So for the tax return, we
 6 needed to allocate it.
 7 Q How -- I'm sorry go ahead.
 8 A There's also a form that needs to be attached to the
 9 tax return showing the allocation of the purchase price and, I
 10 think, its broad categories. The tax return was prepared by
 11 Mazars, so they had all of this.
 12 Q Was the allocation of the purchase price disclosed to
 13 Mazars?
 14 A Yes.
 15 Q And how was -- withdrawn, why is the membership deposit
 16 liability assumed part of the purchase price?
 17 A This -- the seller of the property has two
 18 alternatives. You could pay off your membership deposits and
 19 then you could up your price, or you could just say, take the
 20 membership deposits and pay them off. So it's like a loan. You
 21 have an obligation to pay off these deposits or settle these
 22 deposits at some point. So that's according to what I've been
 23 told by the accountants that's part of your purchase price.
 24 MR. SUAREZ: All right. We could go back to
 25 Plaintiff's Exhibit 731.

J. McConney - by Defense - Direct (Mr. Suarez) Page 5030

1 (Whereupon, the exhibit was displayed on the
 2 screen.)
 3 Q How did you come up with the valuation method, turning
 4 your attention to the Trump golf links, Ferry Point?
 5 A It was kind of hard to value Ferry Point. Ferry, at
 6 this point, Ferry Point was a licensed deal with the City of New
 7 York. When we came up with this, let's just value it at
 8 whatever The Trump Organization had invested or spent on the
 9 golf course, or acquiring the golf course. So that's the
 10 amounts that are reflected here.
 11 Q And what is the Ferry Point property?
 12 A It's a golf course in the Bronx that the City was
 13 trying to develop for years, like Wollman Rink, they couldn't
 14 finish the project. President Trump took over, finished it,
 15 made it a great golf course. It's a links golf course.
 16 Q How did you come up with the value for Doral?
 17 A In 2015?
 18 Q In 2015, yes.
 19 A In 2015 there was an appraisal done. We used the
 20 amount on that appraisal.
 21 Q Why did you use the amount in the appraisal?
 22 A Um, Allen Weisselberg was usually involved in these
 23 appraisals, told me, "Use the appraisal. Use this amount."
 24 It's best reflects the value at that time of the property.
 25 Q Was that with respect to the Doral property

J. McConney - by Defense - Direct (Mr. Suarez) Page 5031

1 specifically?
 2 A Yes. This was -- there are four golf courses, a spa,
 3 hotel rooms, banquet facilities, for -- this is all of Doral.
 4 It's a large piece of land in Miami.
 5 Q When you had an appraisal for the property, did you
 6 always use it for the basis for valuation?
 7 A No.
 8 Q What instances would you not use it?
 9 A Most appraisals are done -- to my knowledge all
 10 appraisals -- I shouldn't say that. What I know of appraisals,
 11 they are done for a specific purpose. The -- this appraisal was
 12 done to value the property. Other appraisals are not --
 13 conservation easement is not done to value of the property.
 14 It's done for valuation for a conservation easement. So
 15 appraisals are done for different reasons. Just because it is
 16 an appraisal done doesn't mean it's going to properly reflect
 17 the value of that property.
 18 MR. SUAREZ: Can we scroll back up to 40 Wall.
 19 (Whereupon, the exhibit displayed on the screen was
 20 scrolled through.)
 21 Q In 2015, what was the basis used for valuing 40 Wall?
 22 A A budget for the property was prepared for 2016. We
 23 used the operating income, the operating expenses to come up
 24 with a net operating income. Donna Kidder and Allen
 25 Weisselberg, who worked on this, adjusted the rent roll to bring

J. McConney - by Defense - Direct (Mr. Suarez) Page 5032

1 it to a stabilized basis. There were leases being negotiated.
 2 There was some vacant space. We came up with a \$24 million NOI,
 3 divided by a cap rate, and came up with the valuation of
 4 \$735 million.
 5 Q And what did you disclose to Mazars about the basis for
 6 valuing 40 Wall in 2015?
 7 A We gave them the budget. We listed the vacant space or
 8 gave them a schedule of the vacant space, a schedule of the
 9 leases. Um, we gave them the backup we would have received from
 10 Doug Larson from Cushman & Wakefield of where the cap rates came
 11 from.
 12 Q Who would have selected the cap rate in 2015?
 13 A I would have.
 14 Q And what value did this valuation method yield for
 15 2015?
 16 A \$735 million.
 17 MR. SUAREZ: Can we pull up Plaintiff's
 18 Exhibit 868.
 19 (Whereupon, the exhibit was displayed on the
 20 screen.)
 21 Q Mr. McConney, do you see your name at the top, from?
 22 A Yes.
 23 Q What is the date of this e-mail?
 24 A December 29th, 2015.
 25 Q Who did you send this e-mail to?

J. McConney - by Defense - Direct (Mr. Suarez) Page 5033

1 A Donald Bender.
2 Q If you could please take a look at Plaintiff's
3 Exhibit 868.
4 THE COURT OFFICER: Do you have it in evidence?
5 MR. SUAREZ: I believe it is.
6 (The exhibit was handed to the witness.)
7 MR. SUAREZ: Thank you.
8 Q Do you recognize this e-mail?
9 A Yes.
10 Q What is it?
11 A Um, it's an e-mail to Donald Bender with an appraisal
12 done in 2015 by Ladder Capital. Ladder Capital was an
13 investment bank. We were looking to pay off the existing loan
14 with Capital One, and Ladder Capital came in to do -- provide us
15 with a loan.
16 MR. SUAREZ: Can we turn to the second page of the
17 appraisal.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q What is the date of this appraisal?
21 A June 25th, 2015.
22 Q Do you see the market value as-is in the third page of
23 this exhibit?
24 A Yes.
25 Q Do you see the value is -- I'm sorry, what do you see

J. McConney - by Defense - Direct (Mr. Suarez) Page 5034

1 as the value conclusion?
2 A The value conclusion for market value as-is as of
3 June 1st, 2015, for a leasehold estate was \$540 million.
4 Q Is that less than the number that appeared in your
5 supporting data?
6 A Yes.
7 Q Why did you use a different value than that which was
8 in this appraisal?
9 A Well, we didn't think this valuation properly reflected
10 what we thought the building was worth.
11 Q Did you send the entire appraisal to Mr. Bender?
12 A I'm not sure if I did. If he needed it, we would have
13 sent it to him. I don't remember if we actually did or not.
14 Q If there are less pages here than the entire -- than
15 contained in the entire appraisal?
16 A Yes, there are.
17 Q Why would you have sent Mr. Bender only a limited
18 number of pages from the appraisal?
19 A At the time we were -- we were working on a draft.
20 This -- these were the documents I would have relied on to value
21 40 Wall Street when I submitted that draft to Bender. Um, no
22 use sending a ton of documents. I mean, if you want them, he
23 could've had them, but this is what I relied on at that point in
24 time for the valuation.
25 MR. SUAREZ: If we could go back to the plaintiff's

J. McConney - by Defense - Direct (Mr. Suarez) Page 5035

1 supporting data at Plaintiff's 731.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 MR. SUAREZ: And go to Briarcliff -- I'm sorry,
5 Aberdeen?
6 MR. AMER: Just to be clear, it's not "the
7 plaintiff's supporting data", it's defendant's supporting
8 data.
9 MR. SUAREZ: Plaintiff's Exhibit, Mr. Amer. I
10 misspoke. Please excuse me.
11 MR. AMER: I'm just correcting it for the record.
12 MR. SUAREZ: And I appreciate it.
13 Q How did you come up with the valuation for the Aberdeen
14 club, which I know it appears on your schedule as Trump
15 International Golf Club Scotland?
16 A For June of 2015?
17 Q Well, how about we start with 2014?
18 A In 2014, we started with, from inception to date, the
19 capital contributions made by The Trump Organization to acquire
20 the various lots. Um, there wasn't one large parcel of land we
21 purchased. There were a number of lots. I don't know how many.
22 There were a number of lots we purchased and assembled in order
23 to build the golf course in whatever future vision President
24 Trump had. That's the \$62 million.
25 There's an adjustment for the land that we were going

J. McConney - by Defense - Direct (Mr. Suarez) Page 5036

1 to use for the hotel and residential structures, and we came up
2 with the balance, added a premium for assembling all these land
3 parcels together, and came up with a value of \$74 million for
4 that land.
5 Q Was the premium for the assembly of the land parcels
6 disclosed to Mazars?
7 A Yes, it was.
8 Q What, if any, reaction did Mazars have to the inclusion
9 of that premium?
10 A They accepted it, because they didn't say anything that
11 I remember.
12 Q How did the -- I'm sorry, how did you value the
13 property in 2015?
14 A In 2015 we used the TIGCS, which stands for Trump
15 International Golf Club, Scotland. They -- I presume at that
16 point in time they had an accounting staff in place who provided
17 us with a year-end, or December 31st, 2014, financial statement.
18 We used the fixed assets on that statement.
19 It provided us with any fixed asset additions for the
20 first six months of 2015, um, came up with the total. Their
21 financial statements in pounds, we converted it to US dollars,
22 subtracted the value of the land that was going to be used for
23 the hotel and residential space, added the 30 percent premium,
24 and came up with a \$60 million value.
25 THE COURT: Four-minute warning.

J. McConney - by Defense - Direct (Mr. Suarez) Page 5037

1 MR. SUAREZ: Can we scroll down.
 2 (Whereupon, the exhibit displayed on the screen was
 3 scrolled through.)

 5 back.
 6 (Whereupon, the exhibit displayed on the screen was
 7 scrolled through.)
 8 MR. SUAREZ: Back to Scotland.
 9 (Whereupon, the exhibit was displayed on the

 11 Q Do you see here where it says "Value of residential
 12 parcel based on purchase of land by Persimmons, Hopecroft,
 13 Bucksburn, value of land per home"?
 14 A Yes.
 15 Q And it has then a number of homes to build?
 16 A Yes.
 17 Q How did you arrive at the number of homes to build of
 18 2,500?
 19 A George Sorial, who worked out of The Trump Organization
 20 office where I worked, was the person overseeing this project in
 21 -- and the person in charge of getting various approvals to do
 22 -- the President wanted to do at the location. It was either
 23 verbal information, or a verbal phone call, or an e-mail that
 24 George would have sent me. If it didn't come from George, Sarah
 25 Malone was the general manager for the property, was intimately

Page 5039

1 assets we had, I can't prove it other than I've typed it
 2 here on the spreadsheet.
 3 THE COURT: All right. So can I summarize that
 4 long answer as information was on the spreadsheet and/or we

1 involved in the day-to-day operations to the property, she would
 2 have provided me the number.
 3 Q What personal knowledge did you have concerning
 4 construction plans for Aberdeen?
 5 A Other than what they told me, none.
 6 MR. SUAREZ: Your Honor, I'm at a good breaking
 7 point for the morning, for the morning break.
 8 THE COURT: I understand. I have a quick question
 9 for the witness.
 10 You were asked many times by Mr. Suarez, "Did you
 11 disclose X, Y and Z to Mazars?"
 12 And you would say, "Yes." Was that by these
 13 supporting documents or was that some independent
 14 communication that you would inform them?
 15 THE WITNESS: What I can -- what I can prove is
 16 what's here on the spreadsheets. Bender was intimately
 17 involved in our day-to-day operations. I keep saying he
 18 knew more about the company than I did, and I sat there in
 19 the building. Um, I can't prove conversations I had with
 20 him, but he knew what we were doing with various properties.
 21 He was the person in charge of, um, formulating Mr. Trump's,
 22 President Trump's tax strategy. We would ask him how he
 23 would structure purchases, um, what information would you
 24 use in a loan document. So other than knowing Bender for
 25 40 years and talking to him all the time about all the

McConney - by Defendant - Direct (Suarez) Page 5040

1 COURT OFFICER: All rise. Part 37 is back in
 2 session.
 3 Please be seated and come to order.
 4 (The witness resumed the stand.)
 5 THE COURT: Okay. Let's continue.
 6 MR. SUAREZ: Your Honor, before I forget,
 7 Defendant's Exhibit 1027, if we could pull that up?
 8 I would like to move this into evidence. This
 9 concerned a discussion that we had yesterday about the
 10 Trump Central Park South, the Trump Park East and the
 11 method of valuing that and the consistency in the
 12 procedures with Mazars.
 13 MR. AMER: I objected before. I'll continue to
 14 object on relevance. I understand Your Honor's ruling.
 15 THE COURT: Granted. It is in evidence.
 16 (Whereupon, the document referred to was deemed
 17 marked for evidence as Defendant's Exhibit 1027 by
 18 the Court.)
 19 MR. SUAREZ: And Defendant's Exhibit 1021, which
 20 we just reviewed with the witness, can you pull that up?
 21 Defendant's 1021, which is the allocation of the Jupiter
 22 purchase price, I would like to move that into evidence.
 23 MR. AMER: No objection.
 24 THE COURT: Granted. It is in evidence.
 25 (Whereupon, the document referred to was deemed

McConney - by Defendant - Direct (Suarez) Page 5041

 2 the Court.)
 3 MR. SUAREZ: Thank you.
 4 If we could go back to Plaintiff's Exhibit 731.
 5 I believe we were on Aberdeen.
 6 Q Mr. McConney, I would like to draw your attention to
 7 row C 538.
 8 Do you see that?
 9 A Yes.
 10 Q What does that cell represent?
 11 A The -- somebody at the property in Scotland, or it
 12 could have been George Sorial, told us there was an economic --
 13 economic issues in Scotland. It was a downturn in the economic
 14 conditions. So, we just felt it fair to reduce the value that
 15 we came up with by 20 percent to reflect this downturn in the
 16 area.
 17 Q Why would you reduce the value of a property on the
 18 President's Statement of Financial Condition, Mr. McConney?
 19 A The same way we -- why we increased it, it properly
 20 reflected the value we thought the property was worth at the
 21 time.
 22 Q How do you feel about the work you did on the
 23 President's Statement of Financial Condition?
 24 A I feel great. I have no problems with the work I did
 25 on this.

McConney - by Defendant - Direct (Suarez) Page 5042

1 Q Did you ever intend to mislead anyone?
 2 A No.
 3 Q Did you ever intend to be inaccurate?
 4 A Not purposely, no.
 5 Q Why don't you work at the Trump Organization anymore?
 6 A Excuse me.
 7 MS. HABBA: Judge, I am just going to get him a
 8 tissue.
 9 (Handing)
 10 A I am an accountant. I am a numbers person. When I
 11 work for a CPA firm I put together worksheets. I went to work
 12 for the Trump Organization, it was a lot more fun accounting
 13 because I got to deal with more vibrant assets, The Apprentice
 14 for one of them. I got to do a lot of things that the normal
 15 accountant wouldn't be able to do.
 16 I am very proud of the work I did for 35 years. But
 17 I have been subpoenaed by the Southern District of New York.
 18 Two hours before I was supposed to testify I was told, don't
 19 bother showing up.
 20 I have testified or been deposed for three days by
 21 the Attorney General of New York.
 22 I have appeared seven or nine times in front of Grand
 23 Juries.
 24 I just couldn't deal with it anymore. I just wanted
 25 to relax and stop being accused of misrepresenting assets for

McConney - by Defendant - Direct (Suarez) Page 5043

1 the company that I love working for.
 2 Sorry.
 3 When I worked for Bender, for Mazars, it was like
 4 working for a family. We went to each other's weddings. We
 5 went to Atlantic City. We went to lunch every day. We went
 6 out Friday nights. Trump Organization was the same family
 7 setting. It was owned by a family. A little different, we
 8 didn't go out to lunch together, but you knew people. You see
 9 them get married, raise a family. And to have it destroyed
 10 over -- I am not going to use the word, but -- I feel proud of
 11 what I did. I think everything was justified.
 12 Numbers don't represent fully what these assets are
 13 worth. I am going back years. President Trump was going for a
 14 casino license in Atlantic City -- I am sorry, in Las Vegas.
 15 The gaming commission sent out investigators who asked
 16 questions based on the forms I filled out, and they wanted to
 17 see some assets. They had the Statement of Financial
 18 Condition. They had the breakdown. And the investigator who
 19 was sitting outside President Trump's office said, I would like
 20 to see his triplex. I don't know what it was valued for at
 21 that time, it was prior to all of this. I said, go ahead, the
 22 President is right there. Go talk to him. He went to talk to
 23 him. President took him for a tour.
 24 He said, Jeff, you made a mistake.
 25 I am like, oh, sugar.

McConney - by Defendant - Direct (Suarez) Page 5044

1 He said, you could have doubled the value.
 2 It just shows we were conservative.
 3 They flew, being two investigators, flew down to
 4 Florida and I showed them Mar-a-Lago and Trump International,
 5 both fully operational at the time. And they had no qualms
 6 with what we valued the property as.
 7 Based on that, those interactions and everything
 8 else, we felt comfortable, we being the Trump Organization,
 9 myself, Allen Weisselberg, we felt comfortable with these
 10 valuations. And to be hit over the head every time with a
 11 negative comment over something is just really frustrating, and
 12 I gave up.
 13 Q Mr. McConney, thank you.
 14 MR. AMER: Excuse me.
 15 MR. SUAREZ: I have no further questions.
 16 MR. AMER: Excuse me, Your Honor. With respect
 17 to what the two investigators said, I move to strike that
 18 as hearsay.
 19 MR. SUAREZ: Really?
 20 MR. AMER: Yeah. He testified two investigators
 21 said.
 22 THE COURT: As I understand it, it is not
 23 introduced to prove the truth of the contents. The
 24 question was, why are you no longer working there. He is
 25 explaining why he is upset.

McConney - by Defendant - Direct (Suarez) Page 5045

1 MR. AMER: As long as it is clear, it is not
 2 coming in for the truth of the matter asserted.
 3 THE COURT: Right, only coming in for its affect
 4 on the witness. Understood, everybody?
 5 MR. ROBERT: That's what it was intended for.
 6 MR. SUAREZ: I have no further questions on
 7 direct.
 8 Thank you, Mr. McConney.
 9 THE WITNESS: Thank you.
 10 THE COURT: Will there be any cross examination?
 11 MR. AMER: There will.
 12 THE COURT: Mr. McConney, are you okay or you
 13 need a couple of minutes?
 14 MS. HABBA: I was going to say, do you want a
 15 minute.
 16 THE WITNESS: No, I am okay.
 17 THE COURT: Okay. Let's do it.
 18 THE WITNESS: Thank you.
 19 Thank you, sir.
 20 MR. AMER: Can you just make sure that mic is
 21 off?
 22 MR. SUAREZ: It is off.
 23 MR. AMER: Okay.
 24 THE COURT: Please proceed.
 25 MR. AMER: Thank you, Your Honor.

McConney - by Defendant - Cross (Amer) Page 5047

1 Q And I am just talking about your testimony yesterday
 2 about it.
 3 A I apologize. Yes, I believe that's the words I used.
 4 Q Okay. But there was a step in-between that involved
 5 Donald Trump prior to 2017, wasn't there?
 6 A I don't know -- I don't know what Allen -- what the
 7 next step was. I finished my conversations or my presentation,
 8 my documentation with Allen. I don't know what he did or did
 9 not do with the President.
 10 Q It was your understanding, however, that before
 11 Mr. Weisselberg would give the okay to print, Donald Trump was
 12 to get final review of the Statement of Financial Condition for
 13 the years where you were primarily responsible for preparing
 14 the statement, correct?
 15 A That was my understanding, yes.
 16 Q So between the time that you and Mr. Weisselberg
 17 reviewed the draft statement and Mr. Weisselberg gave the okay
 18 to have Mazars print it, it was your understanding that
 19 Mr. Weisselberg would share the draft statement with Donald
 20 Trump for his final review; at least for the years where you
 21 were the primary drafter of the statement, correct?
 22 A That was my understanding, yes.
 23 Q In terms of Donald Trump's role in having the final
 24 review, am I correct that he ceased having that role in 2017
 25 when he became President?

McConney - by Defendant - Cross (Amer) Page 5046

1 CROSS-EXAMINATION
 2 BY MR. AMER:
 3 Q Mr. McConney, are you okay to proceed?
 4 A Yes, sir. Thank you.
 5 Q Okay. So, I want to begin by talking about a
 6 discussion that you had yesterday in response to questions from
 7 Mr. Suarez about who wrote particular portions of the 2015
 8 Statement of Financial Condition. Do you recall that exchange?
 9 A Yes.
 10 MR. AMER: Why don't we put up Plaintiff's
 11 Exhibit 729 in evidence.
 12 Q And do you recall that there was language that
 13 Mr. Suarez asked you about that you stated came from Mazars,
 14 either Jerry Rosenblum or Donald Bender; do you recall that?
 15 A Yes, that was in the footnotes, yes.
 16 Q Now, it is the case that ultimately the language in
 17 the 2015 statement was reviewed and approved by the Trump
 18 Organization, yes?
 19 A Yes.
 20 Q And you testified yesterday that you would review the
 21 draft statement with Mr. Weisselberg, and then Mr. Weisselberg
 22 would say, go and tell Mazars to print it. Do you recall that
 23 testimony?
 24 A Yeah, I don't know that those were the exact words,
 25 but he was fine with the statement to be finished.

McConney - by Defendant - Cross (Amer) Page 5048

1 A Yes.
 2 Q And do you recall that there was an internal
 3 restructuring of the Trump Organization as a result of
 4 Mr. Trump becoming President to remove him from his executive
 5 positions to avoid a conflict of interest?
 6 A Yes.
 7 MR. AMER: If we could put up what we have
 8 marked as Plaintiff's Exhibit 1329?
 9 (Handing)
 10 Q Mr. McConney, do you recognize this as the internal
 11 restructuring document that was used to implement what we just
 12 discussed about Mr. Trump being removed from executive
 13 positions as a result of his inauguration?
 14 A I don't remember seeing it -- I never saw it in this
 15 formal presentation: Trump Organization internal restructuring
 16 and the closing dates. I do remember seeing through page nine
 17 of 34. Seeing these various assignments of membership or
 18 partnership interests from various entities to, I believe, the
 19 Trust or the holdings company. You want to ask the legal
 20 department about who the current owner was of these entities.
 21 I kind of lost track after a while.
 22 Q Let me show you the summary on page two. It says
 23 Summary of Transaction. It says: "Through various assignments
 24 dated as of December 31, 2016, January 1, 2017 and January 19,
 25 2017, DJT transferred all of his direct interests in the Trump

McConney - by Defendant - Cross (Amer) Page 5049

1 Organization and all entities affiliated therewith to the Trust
2 or subsidiaries thereof."
3 And then it lists a number of things that happened on
4 January 19, 2017. Do you see that?
5 A Yes. Excuse me. Yes.
6 Q Does this comport with your understanding and
7 recollection of the restructuring that occurred to remove
8 Mr. Trump from his various executive positions to avoid a
9 conflict of interest?
10 A Yes.
11 Q And one of the things that occurred on January 19,
12 2017 under this summary of transaction is (v), the Officers &
13 Directors (as applicable) were appointed to all entities.
14 Do you see that?
15 A Yes.
16 Q And did that include appointing Donald Trump Jr. and
17 Eric Trump to various executive positions within the
18 organization?
19 A I can't specifically answer that question. I know
20 they had titles in entities, I don't remember seeing this
21 statement before.
22 MR. AMER: Your Honor, we move to admit exhibit
23 1329.
24 MR. SUAREZ: Your Honor, we object. He can't
25 identify the document. I believe he testified he hasn't

McConney - by Defendant - Cross (Amer) Page 5050

1 seen it in its entirety.
2 MR. AMER: This is a document from their file.
3 THE COURT: You said -- it is going back to
4 Mr. Suarez, he testified he hasn't seen it in its
5 entirety.
6 MR. SUAREZ: I think his testimony was that he
7 had seen pieces of it, but he can't identify the document.
8 When I asked him if he recognized it, he said not in this
9 form, or something to that effect.
10 MR. AMER: I don't think we have any
11 authentication problem based on the initial agreement
12 between the parties. He has indicated this comports with
13 his recollection of what happened. And this is a document
14 from their own files.
15 MR. ROBERT: I don't know that it has ever been
16 determined that this was final or this was circulated. I
17 think this was questioned at one or more depositions as
18 well and I think that was the same answer given. Not sure
19 exactly what this document is. I am not necessarily
20 disagreeing with the contents of it, as this witness said,
21 but not knowing exactly what this is.
22 THE COURT: What, if anything, is your knowledge
23 of this document? Maybe looking at the title page would
24 be best.
25 THE WITNESS: If I just would have seen the

McConney - by Defendant - Cross (Amer) Page 5051

1 title page I would have no idea what was inside of it.
2 I, at times, asked the legal department who the
3 owner of this entity was because of the change. And I
4 would -- they would send me some information about the
5 assignment of ownership interest and I would go through
6 and find the entity that I needed.
7 THE COURT: All right. So, plaintiff, would you
8 agree then that it can't be authenticated through this
9 witness? He said he wouldn't even have recognized it.
10 MR. AMER: I don't think we have to authenticate
11 it. That's agreed to. All documents produced are
12 authentic.
13 THE COURT: That's a different argument.
14 MR. ROBERT: Authentic. The fact this was
15 produced by Trump Organization is not in dispute. Is this
16 a draft? Is this something that was circulated?
17 THE COURT: We could -- we could look into that
18 and you could argue about that. But of course I am
19 letting it in.
20 MR. ROBERT: As to what?
21 THE COURT: You agreed that -- my understanding
22 is that you agreed if you turned it over it is admissible
23 in evidence.
24 MR. ROBERT: No, we agreed it is admissible as
25 to authentication. This is created by us. What it was

McConney - by Defendant - Cross (Amer) Page 5052

1 created for, I can't speak to that right now. And I
2 believe at one or more depositions the government asked
3 the witnesses what this was, and they had answers similar
4 to Mr. McConney. Don't remember seeing this before but it
5 appears to be kind of a summary of what happened.
6 We don't know what this actually became. We
7 don't dispute that this was created by the Trump
8 Organization.
9 THE COURT: And do you dispute that there was an
10 agreement that if you turned something over, maybe with or
11 without more, that it was admissible?
12 MR. ROBERT: No. Then there wouldn't have been
13 an exchange of exhibit lists before the trial started.
14 The agreement was to authentication, unless there was some
15 extraordinary reason to object saying it was inauthentic.
16 That was the stipulation. Otherwise why would we have an
17 exhibit list and constantly update it every day if
18 everything that was exchanged was admissible.
19 THE COURT: What does authentication mean? What
20 is it worth?
21 MR. ROBERT: It is worth so you don't have to
22 have a certification under the CPLR or have a witness come
23 in to authenticate that the document is what it is. If
24 this is something that says the Trump Organization, it is
25 labeled internal structuring. It is 34 pages. We don't

<p>McConney - by Defendant - Cross (Amer) Page 5053</p> <p>1 dispute that. We don't dispute we created it. But what 2 its import is, that was never stipulated to. As far as I 3 know, nobody so far has been able to testify as to what it 4 was used for, whether it was a final, and whether 5 everything contained in it is accurate or if there are 6 subsequent drafts. We just don't know. 7 THE COURT: Okay. We don't know. So -- 8 MR. ROBERT: That's why I am objecting to its 9 admissibility. Ultimately the Court will decide what it 10 wants to do. 11 THE COURT: I mean, before I hear from Mr. Amer. 12 You have all of these questions about it. Okay. Am I 13 going to read it and take it as gospel? No. I mean -- 14 but anyway, Mr. Amer, do you want to weigh in on this? 15 MR. AMER: Since authentication is off the 16 table, I don't understand what the objection is to the 17 admissibility of this document. It is not hearsay because 18 it is their own document and it is a statement against 19 interest, and it should come into evidence. If they want 20 to argue about what it means, that's for them to argue at 21 a later point in time. But there is no reason not to 22 admit it into evidence. 23 MR. ROBERT: If there is a document that a 24 witness doesn't identify and say, I know what it is, 25 that's textbook. It wouldn't come in for that.</p>	<p>McConney - by Defendant - Cross (Amer) Page 5055</p> <p>1 A Yes. 2 MR. AMER: Let's go ahead and put up the 3 question and your response that I want to ask you about. 4 It is page 4932, lines seven to 13. 5 Q You were asked: "Mr. McConney, who wrote the notes 6 here to the Statement of Financial Condition? 7 "ANSWER: They have been modified over time. 8 But a lot of these notes still for assets that were around 9 when Jerry Rosenblum was around. A lot of this was Jerry 10 Rosenblum's writing." 11 Do you recall that testimony? 12 A Yes. 13 Q And then Mr. Suarez directed you to some specific 14 language starting in the transcript at 4936. 15 MR. AMER: So what I would like to do is split 16 the screen so we can see the question and the language he 17 was asking you about, which was PX -- Plaintiff's Exhibit 18 729 in evidence, at page six of that document. 19 Q You will see beginning at line 11 of the transcript 20 the question -- Mr. Suarez directs you to the paragraph that 21 begins: "Pursuant to GAAP" And you will see that is the 22 bottom paragraph on page four. 23 MR. AMER: Is there a way to have them side by 24 side? 25 Q And you will see beginning at line 11 you are asked</p>
<p>McConney - by Defendant - Cross (Amer) Page 5054</p> <p>1 Secondly, I don't know whether this is a 2 draft, whether this is a final, and you want it in for the 3 truth of the matter asserted. If you want us to stipulate 4 that we prepared this, this is what it says, and on that 5 basis it is in, I have no objection to that. But I can't 6 say, yes, all of the contents in here are accurate. I 7 don't know that. 8 MR. AMER: We do know from the metadata it was 9 drafted by Adam Rosen. 10 MR. ROBERT: I am not disputing someone in the 11 Trump Organization drafted it, Mr. Amer. I am saying, I 12 don't know if this is a final. I assume you are trying to 13 admit this with this witness to prove the truth of the 14 matter asserted in these 34 pages? 15 THE COURT: Well, it is in evidence and you can 16 object to the particular questions. 17 MR. AMER: I have no further questions on that 18 document. And I didn't before, by the way. 19 Q Going back to our discussion of the draft statements 20 prior to 2017, you and Mr. Weisselberg were free to make 21 changes to the drafts as a result of your review of the 22 document, correct? 23 A Yes. 24 Q And do you recall that Mr. Suarez asked you who wrote 25 certain portions of the notes to the 2015 statement yesterday?</p>	<p>McConney - by Defendant - Cross (Amer) Page 5056</p> <p>1 the following question and gave the following answer: 2 "QUESTION: This paragraph, Mr. McConney, the 3 first sentence the words 'pursuant to GAAP,' this 4 financial statement does not reflect the value of Donald 5 J. Trump's worldwide reputation, however the brand value 6 has afforded Mr. Trump the opportunity to participate in 7 licensing deals around the globe as reflected on the 8 balance sheet herein." 9 Whose words were those? 10 "ANSWER: Mazars'." 11 Do you recall giving that testimony? 12 A Yes, sir. 13 Q And are you sure about your answer? 14 A That's my recollection. 15 Q And then he asked you who wrote the two sentences 16 after that. And if we could look at that, starting on line 19. 17 The following sentence "Mr. Trump's name conveys a 18 high degree of quality and profitability. This prestige 19 significantly enhances the value of the properties reflected in 20 this financial statement, as well as that of his future 21 projects." Close quote. 22 Whose words were those, Mr. McConney? 23 "ANSWER: Mazars'." 24 Do you recall that testimony? 25 A Yes, sir.</p>

McConney - by Defendant - Cross (Amer) Page 5057

1 Q And are you certain of that answer?
2 A That's my recollection. And again, Mazars is Jerry
3 Rosenblum and Donald Bender.
4 Q And on the top of page 4937 of the transcript.
5 Mr. Suarez asked you about the remainder of the same paragraph.
6 "QUESTION: And the rest of the paragraph which
7 says "the brand along with the level of quality of
8 Mr. Trump's residential developments, has allowed the
9 selling price per square foot in Trump properties to be
10 amongst the highest among prominent real estate
11 developers. The good will attached to the Trump name has
12 significant financial value that has not been reflected in
13 the preparation of this financial statement." Close
14 quote.
15 Who words are those, Mr. McConney?
16 "ANSWER: Mazars'."
17 You recall that testimony, correct?
18 A Yes, sir.
19 Q And are you certain about that answer?
20 A That's my recollection, yes.
21 MR. AMER: Okay. Let's go ahead and keep
22 Plaintiff's Exhibit 729 on the screen and let's put up
23 next to it Plaintiff's 3054 in evidence.
24 I am just going to wait for you to get a copy.
25 (Handing)

McConney - by Defendant - Cross (Amer) Page 5058

1 Q Now, Mr. McConney, I showed you Plaintiff's Exhibit
2 34, you may recall, when you testified last month. And you
3 confirmed that all of the handwriting on Plaintiff's 3054 is
4 yours. Do you recall that?
5 A If this is the same financial statement, yes. And I
6 am through a few pages and so far those are -- that's my
7 handwriting.
8 Q Do you recall on the second page I got you to confirm
9 your handwritten note: DJT to get final review. Do you
10 remember that?
11 A Yes.
12 Q Let's turn to the paragraph that begins: "Pursuant
13 to GAAP" in this exhibit, which you will find on the bottom of
14 page six of 27.
15 Are you there?
16 A Yes.
17 Q The paragraph has markups by you, correct?
18 A Yes.
19 Q You have crossed out three sentences and you have
20 added two riders, A and B. Correct?
21 A Yeah, there is a reference to A and B because it is a
22 rider.
23 Q If you look at the next page, those are the riders.
24 This is page seven of 27. Those are the riders in your
25 handwriting. Correct?

McConney - by Defendant - Cross (Amer) Page 5059

1 A Yes.
2 Q Isn't it a fact, Mr. McConney, that you wrote the
3 majority of the language in this paragraph, not Mazars?
4 A I haven't counted the words, but I will agree that
5 that is my handwriting.
6 Q Well, you made substantial changes to the paragraph
7 that appear in the final version, right?
8 A I or somebody else at the Trump Organization, yes.
9 Q And it is your handwriting that was forwarded to
10 Mazars with changes that made their way into the final version
11 of this statement, correct?
12 A Correct.
13 Q So can we agree that when you gave sworn testimony
14 yesterday that Mazars wrote this paragraph, you were wrong?
15 A My memory was incorrect.
16 Q And isn't it fair to say that you actually don't
17 remember who wrote what portions of the notes in the 2015
18 statement?
19 A I wouldn't say that.
20 Q At least as to this paragraph you got it wrong?
21 A This paragraph I agree with you.
22 Q Do you have any reason to believe your recollection
23 is better with respect to other paragraphs in this document
24 than it is with this paragraph?
25 A Unless you can show me something that disproves it,

McConney - by Defendant - Cross (Amer) Page 5060

1 the CPA firm Mazars are the GAAP experts. They would put
2 together the notes. If I made changes, I made changes. If you
3 can show me where I have a bad memory, I'll look at it.
4 Q My question was very simple. Do you have any reason
5 to believe that your recollection, your incorrect recollection
6 about who wrote this paragraph, the pursuant to GAAP paragraph,
7 is any better than your recollection with respect to other
8 portions of this document?
9 A I don't think -- I don't feel my recollections were
10 incorrect in other paragraphs. You can ask the question again.
11 Q Well, we have already agreed your recollection was
12 incorrect as to the pursuant to GAAP paragraph, right?
13 MR. SUAREZ: Objection argumentative. His
14 testimony was actually that the notes carried over from
15 year to year through the progression. He has only read a
16 certain portion of his testimony, not the parts where he
17 says it goes through from year to year and carried over;
18 and that the original structure of the notes belonged to
19 Mr. Rosenblum's initial drafts.
20 THE COURT: I think Mr. Amer read every sentence
21 in the GAAP paragraph. And the witness said Mazars
22 (May-zars) wrote it, or Mazars (Mah-zars). So I don't
23 think he is misinterpreting the testimony.
24 But anyway, what in particular are you looking
25 to do?

<p>McConney - by Defendant - Cross (Amer) Page 5061</p> <p>1 MR. SUAREZ: It is argumentative. It is not 2 incorrect. He testified it is out of context, but it is 3 not incorrect. 4 THE COURT: He testified it was incorrect. 5 Isn't that word in the transcript? 6 MR. AMER: Yes, it is. 7 MR. SUAREZ: Well -- 8 THE COURT: Today's transcript? 9 MR. SUAREZ: Mr. Amer asked -- 10 THE COURT: I am sorry. All right. Withdrawn. 11 Continue. 12 MR. AMER: Can I also ask, Your Honor, if we are 13 going to get these kind of objections that we excuse the 14 witness first? 15 THE COURT: All right. I hope there won't be a 16 lot more of these objections, but yes, we will excuse the 17 witness. You know, remind me if you think I am not doing 18 it appropriately; or the defendant can remind me also. 19 Q Isn't it the case, Mr. McConney, that you frequently 20 made changes to the language of the footnotes describing 21 valuation methods in the draft statements? 22 A Yes. 23 Q And if you look at page nine of 27 of this exhibit, 24 the changes you make to the paragraph just above 40 Wall 25 Street.</p>	<p>J. McConney - by Defense - Cross (Mr. Amer) Page 5063</p> <p>1 Q And that says "applying a capitalization rate flow" -- 2 well, why don't you read it so I don't get your handwriting 3 incorrect. 4 A "Applying to a capitalization rate to the cash flow to 5 be derived from the commercial space." 6 MR. AMER: Let's go ahead and mark Plaintiff's 7 Exhibit 3401. 8 (Plaintiff's Exhibit 3401 was deemed marked for 9 identification.) 10 (Whereupon, the exhibit was displayed on the 11 screen.) 12 Q The first page has an e-mail from you to Mr. Bender who 13 I think we established before you called by the nickname Doc; is 14 that right? 15 A Yes, sir. 16 Q And you are sending him your comments on the draft 2012 17 Statement of Financial Condition, or actually it's -- well, is 18 that what you are doing? 19 (Whereupon, there is a brief pause in the 20 testimony.) 21 A Yes. Most of these are modifications or updates. Yes, 22 yes, these are my changes. 23 Q So this is all your handwriting on this document; 24 correct? 25 A Yes.</p>
<p>McConney - by Defendant - Cross (Amer) Page 5062</p> <p>1 MR. AMER: If we could blow that up? 2 Q You see the paragraph that says "the current value 3 of," those are your handwritten changes and it relates to the 4 method of valuing the property, correct? 5 A Yes. 6 Q And if we go to -- actually, can you read for us your 7 handwriting at -- that you have added at the bottom? 8 A Applying a capitalization rate to the cash flow to be 9 derived pursuant to the building's net rental stream. 10 Q Okay. And you have stricken the portion of the 11 sentence that has the line through it, correct? 12 A Yes. 13 Q And if you go to page 11 of 27 under Trump Park 14 Avenue. 15 MR. AMER: We can blow that up. 16 Q The top paragraph you have, again, added language 17 relating to the valuation method, correct? 18 A Yes. 19 (The following proceedings were stenographically 20 recorded by Senior Court Reporter Michael Ranita.) 21 22 23 24 25</p>	<p>J. McConney - by Defense - Cross (Mr. Amer) Page 5064</p> <p>1 MR. AMER: Your Honor, I move to admit 3401. 2 THE COURT: Granted. It's in. 3 (Plaintiff's Exhibit 3401 was admitted in 4 evidence.) 5 MR. AMER: And I want to just ask you about a 6 couple of comments that you have in here. First let's go to 7 page eight of 25. 8 (Whereupon, the exhibit was displayed on the 9 screen.) 10 Q You make a change to the cash and marketable securities 11 paragraph where you insert the words "wholly owned" before 12 operating entities; is that right? 13 A Yes. 14 Q And in the second to the bottom paragraph you indicate 15 with this change "applying a cap rate to the cash flow to be 16 derived from the building's operations"; is that right? 17 A Yes. 18 Q And both of these comments relate to -- well, at least 19 -- sorry, withdrawn. 20 This last comment relates to method of valuation; 21 right? 22 A Applying a cap rate, yada, yada, yada, yes. 23 Q And on the next page, page nine of 25, are you 24 indicating you want the bottom paragraph to be -- that that's 25 okay?</p>

J. McConney - by Defense - Cross (Mr. Amer) Page 5065

1 A I'm sorry, what's the question?
2 Q Are you indicating to Mr. Bender that you are okay with
3 that bottom paragraph?
4 A Yes.
5 Q And that relates to the method of valuing Niketown;
6 right?
7 A Yes.
8 Q Actually, that is -- let's go to page 20 of 25.
9 (Whereupon, the exhibit was displayed on the
10 screen.)
11 Q You are adding a rider, A, attached, and you are asking
12 Mr. Bender to delete that entire paragraph; is that right?
13 A Yes.
14 Q And then if you go to page 24, that's the rider that
15 you are telling Mr. Bender to add; correct?
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 A Yes.
19 MR. AMER: Let's go ahead and mark as the next
20 exhibit, Plaintiff's Exhibit 3405.
21 (Plaintiff's Exhibit 3405 was deemed marked for
22 identification.)
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 (The exhibit was handed to the witness.)

J. McConney - by Defense - Cross (Mr. Amer) Page 5066

1 THE WITNESS: Thank you.
2 Q And this is an e-mail you sent to Mr. Bender on
3 September 25th, 2013. So this would be in connection with the
4 2013 statement; right?
5 A Yes.
6 Q And you are telling him to see the revised note for the
7 Westchester golf course in Briarcliff; is that right?
8 A Yes.
9 Q And if you turn to the second page of this exhibit.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q Your note adds a zone for 71 units. Do you see that?
13 A Yes.
14 Q And then you've also indicated certain language you
15 want deleted; correct?
16 A Yes.
17 Q And so this note goes to the method for valuing the
18 property; right?
19 A Yes.
20 MR. AMER: Your Honor, I move to admit 3405.
21 THE COURT: Granted. It's in.
22 (Defendant's Exhibit 3405 was admitted in
23 evidence.)
24 MR. AMER: Let's mark Plaintiff's Exhibit 3412.
25 (Plaintiff's Exhibit 3412 was deemed marked for

J. McConney - by Defense - Cross (Mr. Amer) Page 5067

1 identification.)
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 (The exhibit was handed to the witness.)
5 Q The first page of this exhibit is an e-mail from you to
6 Mr. Bender dated October 31st, 2014. So this relates to the
7 2014 statement?
8 A Correct. It should.
9 Q And the subject is "another change" do you see that?
10 A Yes.
11 Q And the second page is --
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q -- the change that you are sending to Mr. Bender for
15 him to implement in the statement; correct?
16 A Yes.
17 Q And you've crossed out some language and you've added
18 at the bottom. The language that you want put in; correct?
19 A Yes.
20 Q And at the bottom of your handwritten comments -- why
21 don't you read for me the entire handwritten comment at the
22 bottom so we have your testimony about what you wrote in the
23 record?
24 A "For these properties -- for these properties is shown
25 on a cost basis subject to any debt reflected under liabilities

J. McConney - by Defense - Cross (Mr. Amer) Page 5068

1 and is net of" -- that's not my handwriting, so it's hard to
2 read. "Net of", I think, "refundable" -- I don't know. I'm --
3 I'm guessing it's "membership deposits were applicable. In
4 those cases where a residential component exists, comparative
5 sales were utilized in arriving at their values."
6 Q The original handwriting that's not yours, is that
7 Mr. Weisselberg's?
8 A Yes, it is.
9 MR. AMER: I move to admit this exhibit, your
10 Honor.
11 THE COURT: Granted. It's in.
12 (Defendant's Exhibit 3412 was admitted in
13 evidence.)
14 Q And that additional language that you and Mr. Bender --
15 I'm sorry, you and Mr. Weisselberg have drafted and sent to
16 Mr. Bender relates, in part, to valuing the property; correct?
17 A The properties in this category, yes.
18 MR. AMER: Let's go ahead and mark this as
19 Plaintiff's Exhibit 806.
20 (Plaintiff's Exhibit 806 was deemed marked for
21 identification.)
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 Q The first page is an e-mail from you to Mr. Bender, the
25 subject is "DJT SOFC", and it's dated December 29, 2015. So

J. McConney - by Defense - Cross (Mr. Amer) Page 5069

1 this relates to the draft 2015 statement; correct?
2 A Yes.
3 Q And you say in the last line of your e-mail, "This one
4 has the marked up 6/30/2014 SOFC before Allen's comments."
5 That's before Allen Weisselberg's comments; correct?
6 A Correct.
7 Q And you indicate you should be talking to him tomorrow
8 morning; right?
9 A Yes.
10 MR. AMER: And if we go to page nine of 27.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q I want to focus you on the Trump Tower, the paragraph
14 that begins "The estimated current value."
15 You've crossed out "applying a capitalization rate to
16 the cash flow to be derived from the building operations", and
17 you've written in, "based on comparable sales"; is that right?
18 A Yes.
19 Q And that relates to the method of valuing this
20 property; right?
21 A Yes.
22 Q And if you turn to page 11.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q The top right-hand corner, you've put in a note to add

J. McConney - by Defense - Cross (Mr. Amer) Page 5070

1 Dean & DeLuca into the description of the major tenants;
2 correct?
3 A Yes.
4 Q And if you look at the bottom of page 21 of 27?
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q And this relates to Trump Plaza. Can you just read
8 your handwriting at the bottom?
9 A The very --
10 Q I think it says "as well as applying", that line?
11 A That relates to Trump International Hotel and Tower.
12 Q Yes.
13 A "As well as applying a capitalization rate to the cash
14 flow to be derived from the condominium elements."
15 Q And that's a comment relating to the method of valuing
16 that property; correct?
17 A That's correct.
18 Q And then let's go to page 25 of 27.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q And I want to ask you about your comment in the middle
22 of the page. And this relates to licensing developments;
23 correct? I'm on page 25 of 27.
24 A Yeah, I'm just trying to see -- there it is. Real
25 estate licensing developments, yes.

J. McConney - by Defense - Cross (Mr. Amer) Page 5071

1 Q And you circled the following sentence "Mr. Trump and
2 his management considered only situations which have evolved to
3 the point where signed arrangements with other parties exist and
4 fees and other compensation which he will earn are reasonably
5 quantifiable."
6 And then you've linked that to a note. Why don't you
7 read your handwritten note that's in the margin.
8 A "The computation also includes forecasted deals that
9 have not signed yet with a value of", I think, "\$151 million.
10 Do you want to delete these deals?"
11 Q So am I correct that you were concerned about including
12 those forecasted but not yet signed deals, because the note you
13 are linking it to says that you've only considered situations
14 which have evolved to the point where signed arrangements with
15 other parties exist?
16 A Yes. I was asking Donald's opinion on what he thought
17 we should do.
18 Q Because --
19 A Donald Bender's opinion.
20 Q Because you were concerned about the conflict between
21 including forecasted deals not yet signed and having a note that
22 says "it only includes situations where signed arrangements
23 exist"; correct?
24 A That's probably part of it. We may have wanted to
25 modify the footnote.

J. McConney - by Defense - Cross (Mr. Amer) Page 5072

1 MR. AMER: Let's go ahead and put up, alongside
2 this, Plaintiff's Exhibit 729, which is the final version of
3 the 2015 statement. And let's just look at page 23 of 26,
4 which is that -- where that note appears.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q And you see in the top paragraph, the last sentence, in
8 the final version it didn't change. It still says "In preparing
9 that assessment Mr. Trump and his management considered only
10 situations which have evolved to the point where signed
11 arrangements with other parties exist and fees and other
12 compensation which he will earn are reasonably quantifiable."
13 So it didn't change?
14 A Then I guess Donald Bender was fine with it.
15 Q I'm just asking whether it changed or not.
16 A I understand that, but I'm saying Mr. Bender was
17 probably fine not changing it.
18 Q And you kept in "the deals that were forecasted but had
19 not been signed"; correct?
20 A Can you show me the Jeff supporting spreadsheet with
21 the valuation on it.
22 Q You don't remember one way or the other whether you
23 kept in the forecasted deals?
24 A Off the top of my head without looking at the
25 spreadsheet, no.

J. McConney - by Defense - Cross (Mr. Amer) Page 5073

1 Q I think we have it in your testimony from last month?
2 A Okay. Then --
3 MR. AMER: And I ask that this document be admitted
4 into evidence, your Honor.
5 THE COURT: Granted. It's in.
6 (The Defendant's Exhibit was admitted in evidence.)
7 MR. AMER: Let's go ahead and mark Plaintiff's
8 Exhibit 3399.
9 (Plaintiff's Exhibit 3399 was deemed marked for
10 identification.)
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q Mr. McConney, the first page is an e-mail from you to
14 Mr. Bender, and it relates to the SOFC. Do you see that?
15 A Yes, sir.
16 Q And this is dated February 24th, 2017. So at this
17 point in time, can we agree you are still involved in reviewing
18 the Statement of Financial Condition?
19 A Yes.
20 Q And you provided him with your marked up SOFC. And you
21 state "I've asked Eric if he wants to update the European golf
22 courses and I'm waiting for some puff stuff on OPO." Do you see
23 that?
24 A Yes.
25 Q And Eric is a reference to Eric Trump; correct?

J. McConney - by Defense - Cross (Mr. Amer) Page 5074

1 A That's correct.
2 Q And if you look at the second page of this exhibit up
3 at the top, that's your handwritten note that says "Open, ET
4 golf courses, and Amanda OPO"; correct?
5 A Correct.
6 Q That is a reference to the fact that there is an open
7 issue with Eric Trump giving you feedback on golf courses;
8 correct?
9 A Correct.
10 Q And if we go to page 15 of 25.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q Your note in the margin on the left says "ET to review
14 footnotes on European clubs"; correct?
15 A Yes, sir.
16 Q And again ET is a reference to Eric Trump?
17 A Yes.
18 Q And is it correct that it was not uncommon for you, in
19 this time frame, to ask Eric Trump to review portions of the
20 notes to the Statement of Financial Condition?
21 A I know when we were developing properties and Eric was
22 part of the development team I would ask whoever it was that
23 would have knowledge of enhancing the information on these
24 footnotes, so whether it was Eric or Sarah Malone, or somebody
25 else, I would ask.

J. McConney - by Defense - Cross (Mr. Amer) Page 5075

1 Q So it would be common for you to reach out to Eric
2 Trump to get information for purposes of valuing assets in the
3 Statement of Financial Condition where Eric Trump was involved
4 in the property; correct?
5 A Well, footnotes, not so much, but for this one, yes.
6 MR. AMER: I move to admit Plaintiff's
7 Exhibit 3399, your Honor.
8 THE COURT: Granted. It's in.
9 (Plaintiff's Exhibit 3399 was admitted in
10 evidence.)
11 Q I'm going to switch topics now, Mr. McConney. When you
12 gave testimony last month, you mentioned that you had received a
13 severance package of \$500,000. And as of when you testified,
14 which was October 5th, you had been paid 375,000 of that amount,
15 with a final payment of 125,000 still to go. Is that final
16 payment still outstanding?
17 A Yes, it is.
18 Q And I want to put up on the screen Plaintiff's
19 Exhibit 1751 in evidence.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q This is Mr. Weisselberg's severance agreement. And I
23 want to show you a portion of his agreement and ask you if your
24 severance agreement contains the same or similar provision.
25 We'll put it up on the screen. It's page two of nine.

J. McConney - by Defense - Cross (Mr. Amer) Page 5076

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q And if you look at page -- I'm sorry, two of eight.
4 And I just want to ask you about paragraph three, "Employee
5 promises", where it says "In exchange for the benefits provided
6 in paragraph two, employee promises." And then paragraph B
7 says, "Not to verbally, or in writing, disparage, criticize or
8 denigrate the company or any of its current or former entities,
9 officers, directors, managers, employees, owners or
10 representatives."
11 Does your severance agreement contain the same or
12 similar language, Mr. McConney?
13 A I would have to go back and look. I've signed my
14 severance agreement maybe almost a year ago. So I don't want to
15 say yes or no.
16 Q You had testified last month that you had very little
17 to do with the Statement of Financial Condition after the hand
18 off to Patrick Birney. Do you recall that?
19 A Yes.
20 Q Was it the case, Mr. McConney, that you participated in
21 a virtual meeting with Patrick Birney, Ray Flores, Eric Trump,
22 Donald Trump, Jr. and Allen Garten in October of 2021 concerning
23 the 2021 Statement of Financial Condition?
24 A I don't remember having a virtual meeting. Are you
25 talking like a Zoom meeting or a telephone call?

J. McConney - by Defense - Cross (Mr. Amer) Page 5077

1 Q A Zoom meeting or an equivalent of a Zoom meeting.
2 A Yeah, that doesn't sound familiar. It's possible. I
3 just don't remember it.
4 Q I would like to show you some of Mr. Birney's trial
5 testimony to see if this refreshes your recollection. This is
6 the transcript at 1389, starting on line 21.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 "QUESTION: Mr. Birney, we are going to switch
10 topics to did there come a point in 2021 when you
11 participated in a virtual meeting about the 2021 Statement
12 of Financial Condition?
13 "ANSWER: Yes.
14 "QUESTION: Did that meeting occur over a service
15 called Google Meet?
16 "ANSWER: Probably."
17 I'll skip the discussion of what Google Meet is and
18 go down.
19 (Whereupon, the exhibit displayed on the screen was
20 scrolled through.)
21 Q Question, line 13:
22 "QUESTION: Sure. Specifically a meeting over
23 Google Meet about the 2021 Statement of Financial Condition?
24 "ANSWER: There were multiple meetings in 2021 as I
25 was remote.

J. McConney - by Defense - Cross (Mr. Amer) Page 5078

1 "QUESTION: Were there any meetings about the 2021
2 Statement of Financial Condition in which Donald Trump, Jr.
3 and Eric Trump participated?
4 "ANSWER: Yes.
5 "QUESTION: So about -- speaking about that
6 meeting, how many other participants were there other than
7 those two people?
8 "ANSWER: Myself, Alan Garten, Ray Flores, Jeff
9 McConney."
10 And then he asked, "Allen Weisselberg was not in
11 the meeting?
12 "ANSWER: I don't think Allen Weisselberg was in
13 that meeting."
14 Does that refresh your recollection that in the
15 fall of 2021 you participated with these other individuals
16 in a Google Meet virtual meeting to discuss the 2021
17 Statement of Financial Condition.
18 A It does not jog my memory.
19 MR. AMER: Let's go ahead and mark Plaintiff's
20 Exhibit 1361.
21 (Plaintiff's Exhibit 1361 was deemed marked for
22 identification.)
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 (The exhibit was handed to the witness.)

J. McConney - by Defense - Cross (Mr. Amer) Page 5079

1 Q Mr. McConney, you are certainly aware that as of 2021,
2 Mazars was no longer the accounting firm preparing the
3 compilation, but that had been moved over to Whitley Penn;
4 right?
5 A I know Mazars -- we switched from Mazars to Whitley
6 Penn. It didn't seem that long ago, but yes.
7 Q And the first page of Exhibit 1361 has an e-mail to you
8 from Steven McKinnell at Whitley Penn; correct?
9 A Yes, Patrick, myself, Camron Harris and Greg were
10 partners at Whitley Penn.
11 MR. AMER: Okay. Your Honor I move to admit this
12 into evidence.
13 THE COURT: Granted. It's in.
14 (Plaintiff's Exhibit 1361 was admitted in
15 evidence.)
16 Q All of the handwriting on this document is yours;
17 correct?
18 A Yes.
19 Q And if you turn to the third page of this document,
20 which is the first e-mail in the sequence.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q This is an e-mail to you from Camron Harris at Whitley
24 Penn on October 22nd, 2021; correct?
25 A Correct.

J. McConney - by Defense - Cross (Mr. Amer) Page 5080

1 Q And it begins by saying, "Jeff, thank you for bringing
2 to our attention the current stock activity of DWACW, the SPAC
3 that is assumed to be raising money to purchase the Trump Media
4 and Trump Technology Group."
5 So he's referencing an issue that you brought to
6 Whitley Penn's attention; is that right?
7 A Yes.
8 Q And the question that was being raised was whether to
9 include this in the 2021 statement; right?
10 A I believe my question, the reason I rose it, was, yes,
11 does it have a value and does it need to be added to the SOFC.
12 Q And does this refresh your recollection that you were,
13 in fact, involved in the preparation of the 2021 Statement of
14 Financial Condition, notwithstanding the fact that this was
15 after the hand off to Mr. Birney?
16 A So your statement that my few comments were in
17 preparation of the statement, if you take a few comments and
18 noting an item that probably should've been, or could've been
19 added to the SOFC so it was properly -- the asset was properly
20 reflected? Yes. But to me participating would be a lot more
21 involved than just these little items.
22 Q Well, we also just looked at Mr. Birney's testimony
23 where he said you were in the meeting that took place in the
24 fall of 2021, with other people, to discuss the Statement of
25 Financial Condition; correct?

J. McConney - by Defense - Cross (Mr. Amer) Page 5081

1 A Can you tell me what was discussed and how long the
2 meeting was?
3 Q We are going to get to that.
4 A Okay, good. Because I don't remember the phone call.
5 THE COURT: It's a five-minute warning.
6 Q And if you turn to the first page of the e-mail, this
7 is the e-mail to you and Patrick Birney, and cc'd to other
8 people at Whitley Penn, he writes addressing you and Mr. Birney,
9 "I have dropped our first round consolidated report comments or
10 Suralink for your review." Is that the system that? Whitley
11 Penn used to share comments with The Trump Organization?
12 A Yeah. I think it's a document sharing program.
13 Q And he indicates that he is setting forth a few points
14 for you to consider. And you see the footnote one point, which
15 is the first bullet. It says, footnote one, "Paragraph four
16 includes amounts to be received in the future from estimated
17 current values that are non-forfeitable, fixed and determinable,
18 and do not require any future services."
19 And asks what is this referring to. And you respond;
20 correct?
21 A Yes.
22 Q And you say it relates to the license deals; right?
23 A That's correct.
24 Q And you have all of these other handwritten notations
25 to his bullet points; correct?

Page 5082

1 A Yes.
2 Q And then at the bottom you have a note that talks about
3 open items, and it lists Chicago. And you see it says that
4 message is "for Sheri"?
5 A Yes.
6 Q Is that Sheri Dillon?
7 A Yes.
8 Q So that's something that you are going to follow up on?
9 A I don't know who was going to follow up, but it had to
10 be followed up on.
11 Q You are tracking an open item that needs to be followed
12 up on for the 2021 statement; correct?
13 A Yes.
14 (Continued on the next page.)
15
16
17
18
19
20
21
22
23
24
25

McConney - by Defendant - Cross (Amer) Page 5083

1 Q And then the second open item is Trump Media,
2 correct?
3 A Correct.
4 Q And if you turn to the second page, your handwritten
5 comments, I want to just focus you on the bottom comment. You
6 say: Eric should review SOFC. 10/26/21. Don and Eric phone
7 call.
8 Do you see that?
9 A Yes.
10 Q Eric there refers to Eric Trump, correct?
11 A Correct.
12 Q And Don, refers to Donald Trump Jr.?
13 A That's correct.
14 Q The comment that Eric should review SOFC, who is that
15 coming from?
16 A I don't know who it is coming from, but that's my
17 handwriting.
18 Q I understand. I am just asking you if you remember
19 where that comment emanates from?
20 A Probably from me.
21 Q So you thought Eric Trump should review the Statement
22 of Financial Condition, correct?
23 A That was my thought, yes.
24 Q Why was that?
25 A Because I thought he should.

McConney - by Defendant - Cross (Amer) Page 5084

1 Q Because he was the senior most executive person at
2 the organization at this point in time?
3 A He and his brother kind of shared responsibilities.
4 But I just thought he should read it.
5 Q And you also indicate Don and Eric phone call on
6 10/26/21. Is that the phone call that Mr. Birney testified
7 about that he said you, Donald Trump Jr., Eric Trump and others
8 participated on?
9 A It is a possibility. If you can show me the
10 testimony again, I don't know if that testimony had a date.
11 But it is possible.
12 Q It didn't have a date. I am just asking.
13 A It is possible.
14 Q Is that -- do you have a recollection that you were
15 on a phone call in late October of 2021 with Donald Trump Jr.
16 and Eric Trump about reviewing the Statement of Financial
17 Condition?
18 A I don't remember that call.
19 MR. AMER: I think I am at a good point?
20 THE COURT: Okay. I'll order the witness, as
21 usual, not to discuss the case or his testimony during the
22 lunch break.
23 Have a good one, everyone. See you at 2:15.
24 (Whereupon, a luncheon recess was taken at this
25 time.)

McConney - by Defendant - Cross (Amer) Page 5085

1 * * *
2 A F T E R N O O N S E S S I O N
3 * * *
4 COURT OFFICER: All rise.
5 Part 37 is back in session. The Honorable Judge
6 Arthur Engoron presiding.
7 Please be seated and come to order.
8 THE COURT: Starting four minutes early.
9 Okay. Let's get the witness back on the stand.
10 (Whereupon, the witness resumed the stand.)
11 THE COURT: And Mr. Amer, please continue.
12 MR. AMER: Thank you, Your Honor.
13 Q Mr. McConney, I want to ask you a couple of quick
14 questions about some testimony you gave yesterday. I believe
15 you said that the Trump Organization was not a structured
16 company like an IBM. Do you recall that testimony?
17 A I remember, yes.
18 Q Is it fair to say that the Trump Organization, while
19 you were there, had an open-door policy?
20 A Yes.
21 Q And so if anybody wanted to see anybody else within
22 the organization, their door was always open and you didn't
23 have to go through whoever was your direct report, correct?
24 A That's correct.
25 Q And I take it that open-door policy applied to Mark

McConney - by Defendant - Cross (Amer) Page 5086

1 Hawthorn's office, yes?
2 A You would have to ask Mark.
3 Q Well, you were somebody who mentioned that anybody
4 could go see anybody else. Did you understand that you could
5 go walk into Hawthorn's office to ask him a question if you
6 needed to?
7 A Yes.
8 Q And was the same true with Mr. Flores, did you feel
9 you could walk into Mr. Flores' office and ask him a question
10 if you needed to?
11 A Yes.
12 Q Did Eric Trump follow the open-door policy while you
13 were at the company?
14 A I had an open-door policy with Eric. I don't know if
15 he limited it to anybody.
16 Q What about Donald Trump Jr., did you have an open
17 door policy with him?
18 A Yes, I did.
19 Q And before Donald Trump left for DC in January of
20 2017, did you have -- enjoy an open-door policy with him?
21 A Yes.
22 Q And what has been the -- what was the situation after
23 January 2021 after Donald Trump was no longer President? Did
24 he come back to Trump Tower and occupy an office -- his office
25 there?

McConney - by Defendant - Cross (Amer) Page 5087

1 A Off and on, yes.
2 Q And when he was there, post January 21, did he follow
3 an open-door policy as it related to you?
4 A I don't remember going in there. I would assume so,
5 but I don't remember going to see him once he came back from
6 DC.
7 Q But as far as you were concerned, at least your
8 understanding was, if you needed to see him about anything, you
9 could go to his office and talk to him, yes?
10 A I believe so, yes.
11 Q Now, you mentioned yesterday as well that the clubs
12 set up their own accounting departments that were separate from
13 corporate accounting where you worked at Trump Tower, correct?
14 A Physically separate, yes.
15 Q And they also had separate staff, right?
16 A Separate staff, separate general ledgers, yes.
17 Q And that included Mar-a-Lago, right? Mar-a-Lago had
18 its own accounting department down in Florida and its own
19 staff, correct?
20 A Separate from the New York office, yes.
21 Q They had their own director of finance, right?
22 A Right.
23 Q And can we agree that Mar-a-Lago needed its own
24 accounting department because it was being operated as a
25 commercial enterprise?

McConney - by Defendant - Cross (Amer) Page 5088

1 A I won't say it was because it was a commercial
2 enterprise. More so probably because of the volume of work
3 they had to take care of. The number of employees they had to
4 prepare payroll for and they also took care of the Trump
5 International Golf Club in Florida. So they had two large
6 entities that they oversaw.
7 Q Well, with respect to Mar-a-Lago, you mentioned
8 payroll, they had payroll and a large staff because they were
9 being operated as a commercial business, right?
10 A Right.
11 Q Now, we did see that you had some involvement
12 reviewing the 2021 Statement of Financial Condition based on
13 the document we had reviewed just before the lunch break,
14 correct?
15 A Right. That was when Whitley Penn took over the
16 assignment and I was the contact person with Whitley Penn.
17 Q And so just to go back to my question, we can agree
18 that you did have some involvement in the preparation of the
19 2021 Statement of Financial Condition, correct?
20 A Again, your definition of preparation, I had a
21 little -- a little input into it.
22 Q You had the input that was reflected in the document
23 we were looking at that had all of your handwritten notes on
24 it, right?
25 A That's correct.

McConney - by Defendant - Cross (Amer) Page 5089

1 Q Do you recall that there was a change in the
2 valuation method for the Golf Clubs from 2020 to 2021?
3 A I am not that familiar with the spreadsheet that was
4 prepared for those years.
5 Q I didn't ask if you were familiar with the
6 spreadsheet. I asked if you had a recollection that there was
7 a change in valuation method for the Golf Clubs from 2020 to
8 2021?
9 A I don't remember that, no.
10 Q Okay. Well, let's go ahead and look at Plaintiff's
11 Exhibit 1352, which is the 2021 supporting data spreadsheet, to
12 see if we can fresh your recollection. And let's go ahead and
13 look at row 306. And just to go back up to orient us, this is
14 on Briarcliff. Do you see that?
15 A Yes.
16 Q And in row 306 there is a note that says: 6/30/21.
17 "Upon advice and guidance of Marcus & Millichap, golf course
18 industry experts, a normal golf course with a negative EBITDA
19 trades at 2-3 times gross revenue. We took an average of 3
20 times gross revenue and net fixed assets."
21 Do you see that?
22 A I see the note, yes.
23 Q And if you look at the note for the prior year, which
24 is in 308, it says "Upon advice and guidance of Marcus &
25 Millichap, golf course industry experts, we left the golf

McConney - by Defendant - Cross (Amer) Page 5090

1 course value unchanged from 2019."
2 Do you see that these notes indicate there is a
3 change in the method of valuation?
4 A Yes.
5 Q And does reading note 306 and the advice of Marcus &
6 Millichap about using a 2-3 times gross revenue multiplier,
7 refresh your recollection about being aware of this change in
8 the method for valuing the golf courses?
9 A No.
10 Q Were you familiar at this point in time with a method
11 for valuing an ongoing business that used a gross revenue
12 multiplier?
13 A Can you ask that again?
14 MR. AMER: Can I have a readback, Your Honor?
15 THE COURT: Read back, please.
16 (Whereupon, the record was read back by the
17 court reporter.)
18 A Yes.
19 Q And was your understanding that you take the gross
20 revenue and you multiply it by an appropriate gross revenue
21 multiplier to generate a value for the asset that is the
22 business you are looking at?
23 A Yes.
24 MR. AMER: If we could put up Plaintiff's
25 Exhibit 2265?

McConney - by Defendant - Cross (Amer) Page 5091

1 We are marking it in evidence, so we need to --
2 (Handing).
3 Q Mr. McConney, this document, the first page is an
4 e-mail where the subject is Mar-a-Lago, October 15 financials.
5 And it is from Ed Raymundo to Mr. Weisselberg and others at the
6 Trump Organization. And it is dated November 21, 2015.
7 Do you see that?
8 A Yes.
9 Q Now, Mr. Raymundo he was the director of finance in
10 this separate accounting department that was down in
11 Mar-a-Lago, correct?
12 A Correct.
13 Q And this attaches an income statement from Mar-a-Lago
14 for 2014 to 2015, correct?
15 A Yes.
16 Q And this income statement would be one of the typical
17 types of documents that these local accounting departments for
18 these Trump clubs would prepare, correct?
19 A Yes.
20 Q And these numbers would they roll up into the
21 corporate ledgers that you were responsible for?
22 A No.
23 Q You have seen these type of income statements before
24 though, correct?
25 A Yes.

McConney - by Defendant - Cross (Amer) Page 5092

1 MR. AMER: Your Honor, I move to admit
2 Plaintiff's Exhibit 2265.
3 THE COURT: Granted. It is in.
4 (Whereupon, the document referred to was deemed
5 marked for evidence as Plaintiff's Exhibit 2265 by
6 the Court.)
7 Q If we look at the first page of the income statement,
8 you will see that there is, on the right, this has an annual
9 budget, correct?
10 A Yes.
11 Q And the annual budget for total income, would that be
12 gross income?
13 A Each golf course at this point in time created
14 different P&Ls. Some had income items net of expenses. Some
15 listed income on the top and expenses on the bottom. I am
16 pretty sure this is gross income, but I am really not
17 100 percent sure.
18 Q If we look at it, it does list income in that top
19 section and expenses blow that. So if you look at the total
20 income figure above the word, "expenses," that would be gross
21 income, right?
22 A Again, some properties netted on the income side,
23 they netted, not all. Some departments had expenses there.
24 Based on these expenses that are -- the expense categories
25 listed, and the income categories listed, I am pretty sure

McConney - by Defendant - Cross (Amer) Page 5093

1 that's gross income. But again, I am not 100 percent sure.
2 Q So if you looked at the annual budget for total
3 income for this period, which by the way, this was a period in
4 time where you were actually preparing the Statement of
5 Financial Condition, right?
6 A Yeah, around the June of '15 statement was probably
7 the last one I had the bulk of involvement in. But to answer
8 your question, yes.
9 Q And the budgeted annual total income for Mar-a-Lago
10 is 16.8 million?
11 A Yes.
12 Q And did you ever consider valuing Mar-a-Lago as an
13 ongoing business based on using a gross revenue multiplier
14 times the gross revenue?
15 A Not that I remember, no.
16 Q You had the information about gross revenue if you
17 wanted to, correct?
18 A Yes.
19 Q And if we look at the expenses on this sheet, these
20 are the type of expenses you would expect to see for an ongoing
21 commercial enterprise that was an operating social club, right?
22 A Yes.
23 Q Now, you testified that when valuing Mar-a-Lago using
24 comps, you added to the value of the comps for the ballroom and
25 the cabanas. Do you recall that testimony?

McConney - by Defendant - Cross (Amer) Page 5094

1 A Yes.
2 Q So you took the value that you got from the comps and
3 adjusted it to account for items that existed at Mar-a-Lago
4 that didn't exist with the comps, correct?
5 A There were major items that were added to the
6 facility. I don't remember specifically if they were or were
7 not on the comps. My guess is they were not with the comps.
8 Q Well, we can agree that the comps you used didn't
9 have a grand ballroom or cabanas, right?
10 A The grand ballroom, definitely not. The cabanas
11 maybe, maybe not.
12 Q Okay. At any rate you adjusted the value upward to
13 account for -- to equate the property you were valuing,
14 Mar-a-Lago, with the comps that you were using, correct?
15 A We tried, yes.
16 Q Now, you also testified about using a comp to value
17 Trump Tower in 2015. And you discussed using the sale of the
18 Crown Building. Do you recall that?
19 A Yes.
20 Q And am I correct that you did not do any upward or
21 downward adjustment to account for any differences between
22 Trump Tower and the Crown Building, right?
23 A That's correct.
24 MR. AMER: Let's pull up Plaintiff's Exhibit 731
25 in native. And let's go to row 48.

McConney - by Defendant - Cross (Amer) Page 5095

1 Q And this is the section that you discussed on your
2 direct exam where you talked about using the Crown Building as
3 the comp, right?
4 A Yes.
5 Q And based on the information on this spreadsheet you
6 took the sale price, you divided it by the number of square
7 feet, and you calculated a value per square foot for the comp,
8 which is the Crown Building, right?
9 A That's correct.
10 Q And then you simply multiplied that value per square
11 foot by the number of square feet in Trump Tower, correct?
12 A Correct.
13 Q And that's how you came up with the value, correct?
14 A Correct.
15 Q So this assumes there are no differences at all
16 between the Crown Building and Trump Tower that would have
17 necessitated some type of adjustment up or down to level the
18 comp with Trump Tower, correct?
19 A We didn't make any adjustments, up or down.
20 Q Right. But my question is, then you are -- the way
21 you did it assumed that there was no difference between the two
22 buildings that would have warranted making an adjustment up or
23 down, correct?
24 A There is always a difference between buildings, there
25 has to be size, location, whatever. But this was the way we

McConney - by Defendant - Cross (Amer) Page 5096

1 valued it. It is what we thought was the best value that we
2 came up with.
3 Q So -- Go ahead. Finish your answer.
4 A We didn't make the adjustments that you are
5 suggesting.
6 Q So knowing that there is always a difference between
7 buildings, you didn't take that into account, fair?
8 A Fair.
9 MR. AMER: Let's go ahead and pull up -- or go
10 to row 590.
11 Q And this is 100 Central Park South. Do you recall
12 you discussed this with Mr. Suarez yesterday, right?
13 A Correct.
14 Q And line 597 is where there is a value for 18 unsold
15 units. Do you see that?
16 A Yes.
17 Q And I want to understand your testimony correctly.
18 Was it your testimony that all 18 unsold units were rent
19 stabilized in this building?
20 A I don't think so, because I know there are some
21 stabilized and some free market.
22 Q So some of these 18 unsold units are stabilized and
23 some are free market; is that right?
24 A That's correct.
25 Q And they were all valued as though they could be sold

McConney - by Defendant - Cross (Amer) Page 5097

1 without restriction, including those that were rent stabilized;
2 is that right?
3 A Correct.
4 Q Just to compare the value of this property with the
5 value of Trump Park Avenue, I'll just note for you that in row
6 602 the total value for this building is 24 million and change.
7 Correct?
8 A Correct.
9 Q And now if we go to row 187. The value of Trump Park
10 Avenue is \$251 million and change, correct?
11 A Which includes the commercial space and the storage
12 units and the unsold residential units, yes.
13 Q So the value of Trump Park Avenue is roughly ten
14 times the value of Central Park South, correct?
15 A Roughly, yes.
16 Q And if you look at -- let's -- let's go ahead and
17 look at row 599. Going back to Central Park South. Am I
18 correct in this row you are including construction costs to fix
19 up the units when they are sold; is that right?
20 A Yes.
21 Q And that includes a cost to fix up the rent
22 stabilized units when and if they can be sold; is that right?
23 A That's correct.
24 Q And is that because you recognized that rent
25 stabilized apartments, when they come on the market, would need

McConney - by Defendant - Cross (Amer) Page 5098

1 to be fixed up because they wouldn't have been renovated during
2 the period of the stabilized tenancy?
3 A Right. These apartments haven't been renovated for
4 years.
5 Q So it is deducting from the value of the sale of the
6 unit what Trump Organization would need to put into the unit to
7 fix it up before it could be sold once it becomes a free market
8 apartment, correct?
9 A Yes.
10 Q You didn't do that for any of the stabilized units at
11 Trump Park Avenue, did you?
12 A No, I did not.
13 Q So the effect of not deducting the cost of fixing up
14 the stabilized units when they became vacant for Trump Park
15 Avenue would be to inflate the value of those apartments with
16 respect to valuing them as free market apartments, correct?
17 A Unless there was some work done. We purchased the
18 Delmonico, I think it is the Delmonico Hotel, more recently
19 than the Barbizon. The Barbizon Hotel was Trump Park East.
20 They may have done some construction work when they were
21 renovating the other apartments, I don't know if they did or
22 didn't. But nobody told me we had to expend money to fix these
23 stabilized apartments, hotel units, whatever.
24 Q Did you ask somebody?
25 A I am sure Allen Weisselberg would have said something

McConney - by Defendant - Cross (Amer) Page 5099

1 at the time.
2 Q At any rate, as you sit here today, you don't know
3 one way or the other what condition those rent-stabilized
4 apartments were in for Trump Park Avenue; is that correct?
5 A That's correct.
6 Q And you mentioned Trump Park Avenue -- Trump Central
7 Park South, I think you called it the Barbizon Hotel. When did
8 that get converted to residential condo?
9 A I believe somewhere around 1985, 1986, I think.
10 Q So almost 40 years ago, yes?
11 A Yes.
12 Q And so despite the fact that it has been almost 40
13 years, there are still rent-stabilized units in that building,
14 correct?
15 A Yes.
16 Q And is it fair to say that you were consistent in how
17 you valued rent-stabilized apartments across both of these
18 buildings, in that you purposely valued them as if the
19 stabilized units could be sold without regard to rent
20 stabilization restrictions, correct?
21 A Right.
22 MR. AMER: Let's go ahead and put up Defendant's
23 1042 in evidence.
24 Q Which is one of the rent-rolls you were shown. Do
25 you recall seeing this rent-roll that you were forwarding to

McConney - by Defendant - Cross (Amer) Page 5100

1 Mark Farkas and Mr. Bender on your direct exam?
2 A Can you just scroll to where the rent-roll begins,
3 please?
4 Q Sure. And maybe we can get you a copy of it.
5 A Yes, that looks familiar.
6 (Handing)
7 Q Am I correct that the purpose in sending the -- this
8 rent-roll to Mazars, was to allow Mazars to prepare tax returns
9 for the building?
10 A It was probably one of the purposes. I don't know of
11 the exact purpose why they would ask for it.
12 Q Can we agree that it was not sent for any purpose
13 relating to the preparation of the Statement of Financial
14 Conditions?
15 A I can't say that one way or the other. I don't
16 remember.
17 Q You are the one who sent it, right?
18 A Yeah, I sent it in 2012, and I have sent a few
19 e-mails since then.
20 What this -- it happens to be the same date as the
21 June of 2012 Statement of Financial Condition. I am not going
22 to tell you one way or the other why I sent this or why they
23 asked for it.
24 MR. AMER: Can we go back to the first page?
25 Q Nothing in the subject line indicates that it has

<p>McConney - by Defendant - Cross (Amer) Page 5101</p> <p>1 anything to do with the Statement of Financial Condition; would 2 you agree with me? 3 A That's a correct statement. 4 Q And if I asked you the same questions about the 5 rent-rolls you reviewed with Mr. Suarez on your direct 6 concerning the purpose for which they were sent to Mazars, 7 would your answers be the same? 8 A Probably, yes. 9 Q I want to ask you about some of your testimony 10 relating to Niketown. Do you recall that in responding to 11 questions about how you came up with the cap rate for Niketown 12 you mentioned that Doug Larson would send you his reports? Do 13 you recall that? 14 A Yes. 15 Q And I just want to confirm that when you speak about 16 Mr. Larson sending you his reports, the reports we are talking 17 about are the generic market reports that Cushman & Wakefield 18 sent to all of its clients, yes? 19 A I don't know what Cushman & Wakefield did with those 20 reports, but they were generic reports. 21 Q They were not any reports that the Trump Organization 22 specifically retained Doug Larson or anybody else at Cushman to 23 prepare for the Trump Organization, correct? 24 A That's correct. 25 Q And that would be true of all of the instances where</p>	<p>McConney - by Defendant - Cross (Amer) Page 5103</p> <p>1 A Yes. 2 (The following proceedings were stenographically 3 recorded by Senior Court Reporter Michael Ranita.) 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
<p>McConney - by Defendant - Cross (Amer) Page 5102</p> <p>1 you relied upon a Cushman report for coming up with a cap rate, 2 right? 3 A Correct. 4 Q Do you recall that you were played a voicemail 5 message that you left for Ray Flores on Christmas Eve of 2020? 6 A I don't remember the year, but I remember the 7 voicemail. 8 Q Okay. I'll represent to you that we have had 9 testimony that it was Christmas Eve of 2020. 10 MR. AMER: And I would just like to put up the 11 transcript of that voicemail message, which we put into 12 evidence as 329 7(a). And then I would like to split the 13 screen and also show you the draft 2020 supporting 14 spreadsheet, which is Plaintiff's Exhibit 3293. 15 So, if we could, in the transcript, look at 16 where we have the voicemail message on the left. Okay. 17 And now on the right with the draft 2020 18 spreadsheet, let's go to row 123. 19 Q So, just looking at the spreadsheet, line 124 has a 20 note about the valuation for 2020. And it says -- and this is 21 your -- well, this spreadsheet says: Given the prime location 22 in the Plaza District, the proximity to Trump Tower, and the 23 high profile tenant, we used the same 4 percent cap rate as 24 Trump Tower. 25 Do you see that?</p>	<p>J. McConney - by Defense - Cross (Mr. Amer) Page 5104</p> <p>1 Q Then if you look at your message for Mr. Flores, line 2 seven, you'll see in your message to Mr. Flores, you say, "I 3 know Patrick gave me the reasoning behind the prime location in 4 the Trump Plaza District. We have a high-profile tenant and its 5 proximity to Trump Tower." Do you see that? 6 A Yes. 7 Q So does to look at those in your message to Mr. Flores, 8 you are repeating what Mr. Birney had put down in this note in 9 the draft spreadsheet in row 124 to 126? 10 A Yes. 11 Q And so you are looking for Mr. Flores to help you 12 convince Mr. Bender to accept this four percent cap rate; 13 correct? 14 A I'm sorry, can you say that again. 15 Q Sure. 16 You are looking for Mr. Flores to help you convince 17 Mr. Bender to accept the four percent cap rate? 18 A Correct. 19 Q And you say, in your message so Mr. Flores, starting on 20 line 16, "Can you work on coming up with some more reasoning as 21 to why we can use the four percent cap rate on Niketown." 22 Do you see that? 23 A Yes. 24 Q Was it your testimony that Mr. Flores managed to 25 convince Mr. Bender to accept the four percent cap rate?</p>

J. McConney - by Defense - Cross (Mr. Amer) Page 5105

1 A If you show me the finalized spreadsheet, I could
2 probably answer it better. Um --
3 Q Let's start with your recollection.
4 A My recollection was that if we didn't convince Donald
5 Bender that the four percent was right, it would have been
6 changed to what Donald Bender suggested.
7 Q What was Donald Bender suggesting, if you remember?
8 A That I don't remember. Again, that's why I would like
9 to see the spreadsheet, the final spreadsheet.
10 Q And to the extent you're leaving a voicemail message
11 for Mr. Flores to help convince Mr. Bender to accept the four
12 percent cap rate, you are involving yourself in the preparation
13 of the 2021 Statement of Financial Condition; correct?
14 A If your definition of involving myself, a phone call, I
15 wouldn't consider that involving myself. It's having a
16 conversation with Ray.
17 Q You intervened to leave a message for Mr. Flores to
18 assist in getting Mr. Bender to accept the four percent cap
19 rate; fair?
20 A Intervened? I asked Ray for backup to come up with the
21 backup for -- to justify the four percent cap rate we used.
22 Q Mr. Birney could have left a voicemail message, but he
23 didn't. You did; right?
24 A I don't know what Patrick Birney was doing at the time.
25 He may have been busy, he may have been out of country, so I

J. McConney - by Defense - Cross (Mr. Amer) Page 5106

1 don't know.
2 Q I may have misspoken, by the way. This relates to the
3 2020 Statement of Financial Condition, right, not the 2021. I
4 think I misspoke.
5 A Yes, it relates to the 2020 statement.
6 Q Regardless of whether you knew what Mr. Birney was
7 doing or not, you are the one who left the message for Ray, not
8 him; correct?
9 A That's correct.
10 MR. AMER: Let's go ahead and put up Plaintiff's
11 Exhibit 857, native.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 MR. AMER: Let's go to row 86. I think you have to
15 go to the left.
16 Q So this is Niketown. This is the 2020 final supporting
17 spreadsheet, because it has "PBC" on the upper left; correct?
18 A Yes.
19 Q And this has both the 2019 and the 2020 values;
20 correct?
21 A Correct.
22 Q And you'll see for 2019 it's -- the method is NOI
23 divided by cap rate to get the value; correct?
24 A For 2019, yes.
25 Q And that value is \$445 million; right?

J. McConney - by Defense - Cross (Mr. Amer) Page 5107

1 A Yes.
2 Q And there's an entirely different method used for 2020
3 that doesn't use a cap rate. It just says, in row 106, "Value
4 per 20-year discounted cash flow from Ray Flores." Do you see
5 that?
6 A Yes.
7 Q And the value drops to 252 million and change; right?
8 A Yes.
9 Q So, does it appear from this that Mr. Bender did not
10 accept the four percent cap rate and instead Mr. Flores had to
11 come up with a 20-year discounted cash flow in order to justify
12 the value that would be used for 2020?
13 A I will state that the value was reduced. I don't know
14 the sequence of events, whether Ray, on his own, came up with
15 the 20-year cash flow, because he thought he couldn't justify
16 the four percent. Or Bender was saying no way in heck I'm going
17 to it take it, come up with a different method.
18 I wasn't part of that conversation, that I remember,
19 but I will state that there is a reduction in the value to \$252
20 million and change.
21 Q But there's also a change in the methodology; right?
22 There is no longer the NOI divided by cap rate. There's,
23 instead, a discounted cash flow that's being used as the basis;
24 correct?
25 A So. There are many methods to value a property.

J. McConney - by Defense - Cross (Mr. Amer) Page 5108

1 Q That wasn't my question.
2 A Okay. I'm sorry. Can you ask it.
3 MR. AMER: If I could get a read back, your Honor.
4 THE COURT: Read back, please.
5 (Whereupon, the requested question was read back by
6 the court reporter.)
7 A Correct.
8 Q So at the end of the day, based on the method that was
9 used in 2020, it appears that Mr. Bender did not accept the four
10 percent cap rate; right?
11 A Correct. Like everything else, he did look at these
12 with a fine-tooth comb.
13 Q I'm going to ask you about Plaintiff's Exhibit 2587,
14 the native.
15 MR. AMER: If we could put that up.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 Q Do you recall testifying about this document during
19 your direct examination, as it relates to the 30 percent on --
20 of cash on balance sheet for the Vornado Partnerships?
21 A Yes.
22 Q And I think when you testified last month we referred
23 to that as "Vornado cash." Do you remember that?
24 A Sounds right.
25 Q And I believe your testimony was that in the

J. McConney - by Defense - Cross (Mr. Amer) Page 5109

1 parenthetical you disclosed to people that you took 30 percent
2 and not 100 percent of the balance sheet amount; is that right?
3 A Yes.
4 Q Am I also correct, though, that there's nowhere on this
5 document where you disclose that the bank account where the
6 Vornado cash sits was not under Mr. Trump's control?
7 A Correct.
8 Q And if I asked you the same question about the other
9 cash and short-term investment spreadsheets that you looked at
10 on your direct, would you have the same answer?
11 A Relating to the Hudson Waterfront cash?
12 Q Yes, and the fact that it does not disclose anywhere
13 that the bank account where the money sits was not under
14 Mr. Trump's control.
15 Would your answer be the same with respect to those
16 documents?
17 A It was not disclosed on this schedule, no.
18 MR. AMER: Let's go ahead and pull up Defendant's
19 Exhibit 1021 in evidence.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 MR. AMER: Yes. That's it.
23 Q Do you recall reviewing this document on your direct
24 relating to the allocation of the purchase price for Jupiter?
25 A Yes.

J. McConney - by Defense - Cross (Mr. Amer) Page 5110

1 Q And am I correct that the purchase price includes the
2 membership deposit liabilities?
3 A That we assumed, yes.
4 Q Okay. And if you look down at the bottom -- I'm sorry,
5 the very bottom where the tabs are, do you see there's a second
6 tab that says alloc, okay by Bob Salmore. Do you see that?
7 A Yes.
8 Q Am I correct that Mr. Salmore is an accountant with the
9 McGladrey firm down in Florida?
10 A He was a partner. He has since retired, or retired as
11 of now.
12 Q But with a firm that was named McGladrey; correct?
13 A RSM McGladrey, McGladrey Pullen. It's like Spahr
14 Lacher, they had mergers over time.
15 Q Just to be clear, this spreadsheet that we are looking
16 at was prepared by his accounting firm not Mazars; right?
17 A I thought I said that, but yes.
18 MR. AMER: Let's go ahead and pull up Plaintiff's
19 Exhibit 731, in native, which is the 2015 Jeff's Supporting
20 Data spreadsheet.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 MR. AMER: Let's go to row 280 -- I'm sorry, row
24 297, which is Colts Neck.
25 Q Do you recall testifying about this section on your

J. McConney - by Defense - Cross (Mr. Amer) Page 5111

1 direct?
2 A Yes.
3 Q And am I correct that the fixed assets value shown on
4 row 299 includes the purchase price plus the costs of
5 improvements to the club?
6 A Correct.
7 Q And then I believe you said that the brand premium
8 reflects the fact that Donald Trump spent funds to bring the
9 club up to five-star status; is that right?
10 A It's -- it's not the same type of brand as discussed in
11 the footnote where Donald Trump has a brand, a Trump brand.
12 This is an operational branded adjustment for the money spent to
13 bring the property up to the five-star rating that Mr. Trump
14 likes.
15 Q I think you got there eventually, but let me just
16 confirm it.
17 The brand premium that's added in rows 300 and 301 is
18 to account for the money that Donald Trump spent to bring the
19 club up to five-star status; is that correct?
20 A Yes.
21 Q And those same funds are also included in the value of
22 fixed assets, based on the testimony you gave us a minute ago;
23 correct?
24 A Not necessarily all of them. It could be repairs --
25 um, not every penny that was spent would have been capitalized.

J. McConney - by Defense - Cross (Mr. Amer) Page 5112

1 So if we did a repair to a building, we replaced the carpeting
2 or something, they may or may not be in there. So I didn't
3 trace every single penny we spent.
4 Q There's some overlap in terms of including money to fix
5 up the club that's included in the value fixed assets and the
6 money spent to bring it up to five-star status; correct?
7 A There was some overlap, yes.
8 Q And with respect to the money that's in this overlap
9 bucket, you are counting it twice; aren't you?
10 A We didn't think of it that way.
11 Q Well, but you are; aren't you?
12 A Um, it -- no. We felt that this -- these improvements
13 would just bring it up to the five-star status.
14 Q Right. And you are including it as a justification for
15 adding a premium, and you are also including it in the value in
16 row 299; yes?
17 A Can I get a read back, or can you say that again,
18 please.
19 MR. AMER: We could have a read back, your Honor.
20 THE COURT: Read back, please.
21 A I still don't agree with your theory. But I'm trying
22 to find a way to explain it better.
23 Q It's not a theory. It's a yes or no question.
24 A No.
25 MR. AMER: Okay. I have nothing further, your

Proceedings Page 5113

1 Honor.
2 THE COURT: Nothing further. Okay.
3 Will there be any redirect.
4 MR. SUAREZ: We have no further questions, your
5 Honor.
6 THE COURT: Okay. Then we are through with this
7 witness.
8 Thank you, Mr. McConney. You are free to go.
9 We would like to do a little scheduling discussion,
10 including I know -- wondering what's going to happen a week
11 from this Friday. So next Friday. I'll turn the microphone
12 over to Allison.
13 MR. ROBERT: As things stand now, that will
14 probably be the spillover for Unell, but we'll have a better
15 sense of that on Monday once we get through the witnesses
16 Monday, Tuesday and Wednesday.
17 You want to start with Monday? You said next
18 Friday.
19 THE COURT: That's what I'm asking you about.
20 MR. ROBERT: Next Friday, I think, is still going
21 to be the spillover from Unell. Based on how quickly we are
22 getting through Monday, Tuesday and Wednesday, I'll then
23 know if we have somebody else on Friday, depending on when
24 Unell is going to start.
25 Right now, as things stand, we have booked for

Proceedings Page 5114

1 Monday, Tuesday Wednesday and Thursday.
2 THE COURT: Can you have a backup ready in case
3 there is no spillover?
4 MR. ROBERT: We will by the time -- we are talking
5 to witnesses about moving things along, but I don't know
6 yet, based on how things are going to go Monday, Tuesday and
7 Wednesday. I could report back Monday morning at that point
8 as to where we are going to be by Friday.
9 THE COURT: Okay.
10 MR. ROBERT: It's easy.
11 MR. WALLACE: Do you have a sense of how long
12 direct for Hawthorn is expected to take?
13 MR. ROBERT: I don't. I would expect it to be
14 several hours. Hopefully I could get it done by the lunch
15 break. I just don't know.
16 Do you have any sense of the cross of him?
17 MR. WALLACE: Depends on what we hear, but I
18 imagine it would be shorter than that. If that means three
19 hours, I don't imagine it would be longer than an hour.
20 MR. ROBERT: Just so we are clear, depending on
21 what happens on Monday, we may have to break in terms of
22 stopping a witness in the middle, because Tuesday we have
23 the Deutsche Bank people coming in pursuant to our
24 subpoenas, so with the Court's permission, since
25 Mr. Hawthorn and Mr. Birney are employees of ours, we'll

Page 5115

1 then accommodate the people coming in from out of town.
2 THE COURT: It's okay with me.
3 MR. WALLACE: They accommodated that for us to do
4 it with Mr. Haigh, so I don't see -- it's actually an
5 appropriate time for the goose-gander rule, I think.
6 MR. ROBERT: In the Thanksgiving spirit, we accept
7 that.
8 THE COURT: Well, everybody, that's is it. Have a
9 great --
10 MR. ROBERT: Thank you, your Honor.
11 THE COURT: -- couple of days off. Eat well, drink
12 well, be merry. So long. 10:00 Monday.
13 MR. ROBERT: Yes, sir.
14 (Whereupon, the case on trial was adjourned to
15 Monday, November 27, 2023, at 10:00 a.m.)

Proceedings

1 COURT OFFICER: All rise.
 2 Part 37 is now in session.
 3 The Honorable Judge Arthur Engoron presiding.
 4 Make sure all cell phones are on silent. Laptops and cell
 5 phones will be permitted, but only to members of the
 6 press. There is absolutely no recording or photography of
 7 any kind allowed in the courtroom.
 8 Now be seated and come to order.
 9 THE COURT: Defendants would you like to call
 10 your next witness?
 11 MR. ROBERT: Yes, Your Honor. The defendants
 12 call Mark Hawthorn.
 13 (Whereupon, the witness took the stand.)
 14 COURT OFFICER: Please raise your right hand.
 15 M A R K H A W T H O R N, after having
 16 first been duly sworn was examined and testified as
 17 follows:
 18 COURT OFFICER: Please have a seat.
 19 State your full name and home or business
 20 address for the record.
 21 THE WITNESS: My name is Mark Hawthorn, and my
 22 business address is 725 Fifth Avenue, New York.
 23 THE COURT: Zip code?
 24 THE WITNESS: 10022.
 25 THE COURT: We probably heard that before.

Hawthorn - by Defendant - Direct (Robert)

1 Mr. Robert, would you like to proceed?
 2 MR. ROBERT: Thank you. Good morning, Your
 3 Honor.
 4 DIRECT EXAMINATION
 5 BY MR. ROBERT:
 6 Q Good morning, Mr. Hawthorn.
 7 A Good morning.
 8 Q I know you testified a few weeks ago. But I, just to
 9 put things context, I want to go briefly through your
 10 educational background and professional history. Okay, sir?
 11 A Okay.
 12 Q Please tell us about your educational background from
 13 college on.
 14 A So, I attended the University of Florida and I
 15 obtained a Bachelor's degree and a Master's degree in
 16 accounting in the year 2000.
 17 Subsequent to graduation I had my first employment at
 18 Arthur Anderson, which is a public accounting firm in Fort
 19 Lauderdale, Florida. I worked at Arthur Anderson from 2000 to
 20 2002. From 2002 to --
 21 Q I'll break it down.
 22 Prior to your work at Arthur Anderson, did you obtain
 23 any professional certification?
 24 A Yes. I obtained a CPA license in the state of
 25 Florida.

Hawthorn - by Defendant - Direct (Robert) Page 5120

1 Q And when did you obtain that license, sir?
 2 A I obtained that license in 2000.
 3 Q Okay. So now talking about your time at Arthur
 4 Anderson, which I believe you said was 2000 to 2002, sir?
 5 A Correct.
 6 Q What did you do at Arthur Anderson during that time?
 7 A I was in the audit practice, so I worked on audits of
 8 both public and private companies as a staff auditor; with
 9 increasing responsibility to a senior auditor overseeing audit
 10 engagements for the firm.
 11 Q And in its most basic sense, what is an audit, sir?
 12 A An audit is a -- when a company requests that a firm,
 13 such as an accounting firm, comes in and does work and
 14 procedures to check the books and records of the company; and
 15 to issue -- potentially issue audited financial statements of
 16 the company.
 17 Q When an accounting firm reviews -- I know review is a
 18 term of art, I will not use that word. When an accounting firm
 19 analyzes financial records of a client of theirs, are there
 20 different levels of review?
 21 A Yes.
 22 Q What are those different levels?
 23 A Generally speaking there is a compilation; there is a
 24 review; there is an audit; and there is maybe something else
 25 called agreed-upon procedures.

Hawthorn - by Defendant - Direct (Robert) Page 5121

1 Q Okay. Taking -- leaving the agreed-upon procedures
 2 out for a moment. Very briefly, can you explain those three
 3 things?
 4 A Sure. So, in terms of the level of work that an
 5 accounting firm would undergo, the compilation is the lowest
 6 level of work and assurance. So a report that is issued with a
 7 compilation opinion states that.
 8 Whereas, a review would be additional procedures that
 9 are done.
 10 And an audit would be the highest level of assurance
 11 that there is substantive testing and other procedures done by
 12 the accounting firm with respect to the financial statements.
 13 Q And when you discussed your experience at Arthur
 14 Anderson, was that solely in the audit, meaning one of those
 15 three, or did that encompass more than just audits?
 16 A My role encompassed everything, because we had
 17 clients that had different needs. So I would have a client
 18 that has a need to issue a compilation report or I might have a
 19 client, same client, have a need to issue an audit report.
 20 Generally speaking, an audit report is required for
 21 publicly traded companies that file financial statements with
 22 the SEC or have public debt.
 23 Whereas a compilation would be more for another
 24 purpose. If, for example, a company needed to provide numbers
 25 to a lender or something like that, generally speaking.

Hawthorn - by Defendant - Direct (Robert) Page 5122

1 Q And, sir, when you just testified about your work at
 2 Arthur Anderson, you said your role kind of expanded during
 3 those two years. What did you mean by that?
 4 A I started out as a staff person, so I was on client
 5 engagements in a staff capacity doing work at the direction of
 6 an audit senior, an audit manager. And after about a year was
 7 promoted to an audit senior, where you are doing more of the
 8 planning, you are doing more of the client interaction and
 9 different levels of responsibility in a supervisory capacity
 10 over an audit staff, if that makes sense.
 11 Q It does.
 12 What was the role you had at the time you left Arthur
 13 Anderson in 2002?
 14 A I was an audit senior.
 15 Q Where did you go from Arthur Anderson, sir?
 16 A In 2002 I went to Ernst & Young. It effectively took
 17 over the practice of Arthur Anderson in Fort Lauderdale at the
 18 time. So I was in the same office with the same clients. It
 19 was just that the Ernst & Young firm took over that office from
 20 Arthur Anderson at the time in 2002.
 21 Q How long were you there with Ernst & Young?
 22 A Ernst & Young, I was there for two years from 2002 to
 23 2004. And I started as an audit senior, and continued in that
 24 role as a -- an experienced audit senior when I left in 2004.
 25 Q And did your responsibilities change in any way

Hawthorn - by Defendant - Direct (Robert) Page 5123

1 during those two years from 2002 to 2004?
 2 A They did. I had increasing levels of responsibility
 3 as I became more senior to the firm and more senior on the
 4 client engagements that I was on. So I had more in supervisory
 5 responsibilities, I had more interactions with the client on
 6 more technical accounting matters, as I have gotten more, at
 7 the time skilled in certain transactions and understanding
 8 accounting rules and financial reporting disclosure.
 9 Q Where did you go after Ernst & Young?
 10 A I left Ernst & Young in June of 2004, and I joined a
 11 firm called Kerzner International, which is a company, not an
 12 audit firm. So Kerzner International at the time, based in
 13 Plantation, Florida, was the owner and operator of luxury
 14 resort hotels. And I served as my first role as the manager of
 15 financial reporting.
 16 Q And what made you decide to go to Kerzner
 17 International in 2004?
 18 A It was a unique opportunity to work in private
 19 industry, which I had an affinity to do. And it was a good
 20 circumstance for me because the individual they were looking
 21 for had my -- I believed I fit the background for what they
 22 were looking for, meaning some level of public accounting
 23 experience, and an understanding also of the hospitality
 24 industry.
 25 At Ernst & Young I had worked on some hospitality

Hawthorn - by Defendant - Direct (Robert) Page 5124

1 clients as well, so it gave me an opportunity to expand my
 2 career and work at a private company in a capacity where I had
 3 the right skill set.
 4 Q And from what years did you work at Kerzner
 5 International, sir?
 6 A I worked at Kerzner International from 2004 to 2016.
 7 Q And can you describe for the Court how your role, if
 8 in any way, changed at that time period in Kerzner?
 9 A Over the course of my employment at Kerzner I again
 10 had increasing levels of responsibility. So I started as a
 11 manager of financial reporting. At the time in 2004 to 2006
 12 the company was a public company. So I was in charge of
 13 overseeing the financial statements that were filed with the
 14 SEC.
 15 In 2006 the company went private on private
 16 transaction. And I continued in a role of financial reporting
 17 but more so as a private company where you report to the
 18 ownership interests of the company versus public company
 19 reporting.
 20 And then as the -- my role expanded in 2000 -- let's
 21 say 12 and thereafter, I got involved more also in treasury.
 22 Became appointed as the vice president of treasury, where I
 23 still held financial reporting oversight and responsibilities
 24 because of my knowledge of that area.
 25 But also got involved working with the company's

Hawthorn - by Defendant - Direct (Robert) Page 5125

1 lenders; working with the company's other stakeholders in terms
 2 of financial matters. Not only historical financial matters,
 3 which is what the financial statements oversee or tell, but
 4 also prospective financial matters like, you know, how the
 5 company is capitalized, how the company is working with its
 6 lenders on debt arrangements and things like that.
 7 Q You used a phrase, "vice president of treasury;" what
 8 exactly does that mean or did it mean?
 9 A That meant my role was expanded to not just be with
 10 financial reporting, but also work with lenders and also
 11 oversee the cash flow of the company. So in treasury you are
 12 also dealing with banks; you are dealing with lenders; you are
 13 dealing with cash flow forecasting for the operations of the
 14 company. Not necessarily just financial reporting, which is a
 15 more historical-type role where you are issuing financials of
 16 what happened in the past. But my role also expanded to be
 17 more operational in terms of how the company is looking forward
 18 prospectively and doing its business.
 19 Q You testified that you dealt with lenders and
 20 stakeholders, what did you mean by stakeholders?
 21 A Board members of the company. So even though it is a
 22 private company, the board was comprised of certain individuals
 23 appointed to direct the operations of the company. So, we
 24 would also, in my role, provide to the board of the company,
 25 like, quarterly updates. So, I would help provide board

Hawthorn - by Defendant - Direct (Robert) Page 5126

1 packages, so to speak, that gave, you know, information on
 2 quarterly board meetings to the ownership of the company and
 3 directors of the company.
 4 Q When you testified a little earlier, you talked about
 5 the "public accounting background," what do you mean by the
 6 term "public accounting"?
 7 A Public accounting is generally referred to, again, a
 8 firm like Arthur Anderson, Ernst & Young that is engaged in the
 9 audits or other work of companies that are public registrants.
 10 Again, so a company that might have stock traded on a stock
 11 exchange or public debt. So, generally speaking, that's what
 12 public accounting means. It deals with companies that have
 13 those type of more stringent requirements than a private
 14 enterprise that wouldn't necessarily have those thresholds of
 15 reporting requirements.
 16 THE COURT: Mr. Robert, I am not sure everyone
 17 can hear you as well as I can. Raise that and raise your
 18 voice.
 19 MR. ROBERT: Thank you, Your Honor. First time
 20 I am accused of that.
 21 THE COURT: If you switch places with him you
 22 are fine.
 23 Q Mr. Hawthorn, you are familiar with a term called
 24 GAAP, right?
 25 A Yes.

Hawthorn - by Defendant - Direct (Robert) Page 5127

1 Q What is GAAP?
 2 A GAAP is an acronym for Generally Accepted Accounting
 3 Principles.
 4 Q And what is your general understanding of what GAAP
 5 is?
 6 A GAAP is effectively the rules and guidelines around
 7 accounting practice in companies that are, you know, recording
 8 books and records and how transactions are recorded and
 9 reported.
 10 Q Okay. I now want to take you past 2016, where did
 11 you go after Kerzner in 2016?
 12 A So in February of 2016 I was hired as the Chief
 13 Accounting Officer of Trump Hotels based in New York.
 14 Q And what is the role -- what was the role of Chief
 15 Accounting Officer at the Trump Hotels in New York?
 16 A So my role when I started was reporting to the CEO of
 17 Trump Hotels, a gentleman named Eric Danziger at the time. My
 18 role encompassed overseeing all of the financial and accounting
 19 aspects of the hotel division of the Trump Organization.
 20 Q And how, if in any way, did your title and/or role
 21 change since that time in 2016?
 22 A In 2016 while my title was effectively Chief
 23 Accounting Officer, I was the highest ranking finance and
 24 accounting executive in the hotel division. So, in January of
 25 2020 my title was effectively updated to Chief Financial

<p>Hawthorn - by Defendant - Direct (Robert) Page 5128</p> <p>1 Officer of Trump Hotels. Although I continued to still report 2 to the CEO of Trump Hotels and was effectively doing the same 3 job. 4 Q Did the scope of your job then change at all from 5 2016 to '20, or just your title? 6 A The title. The scope was effectively the same. 7 Q Okay. And what, if anything -- withdrawn. 8 Since 2020, what position have you held with the 9 company? 10 A So in May of 2022, the CEO of Trump Hotels, Mr. Eric 11 Danziger, left the company. So the company promoted me to 12 Chief Operating Officer of Trump Hotels. I still have 13 continuing responsibility over finance and accounting, but I 14 now oversee the operational aspects of the hotel portfolio as 15 the highest executive level in the hotel division. Not just 16 for finance and accounting but also for operations. 17 Q And you had mentioned you had report -- withdrawn. 18 When Mr. Danziger -- was he the CEO of the hotel 19 group you said? 20 A Yes. 21 Q At that point he was your direct report? 22 A Yes. 23 Q Since he left the company, who is your direct report? 24 A My direct report is Eric Trump. 25 Q Okay. And that's the same today, correct?</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5130</p> <p>1 A There is some overlap because certain of the hotels 2 are resort hotels, meaning that they have golf courses on the 3 property. And so there is some overlap where the golf course 4 is a component of the resort hotel, and its financials roll up 5 into the reporting of that hotel resort. 6 Q And would Doral be one of those? 7 A Doral is a good example. 8 Q Okay. Going to the hotel division specifically, if 9 you could explain how the accounting team in the hotel division 10 works? 11 A I would describe our structure as very decentralized, 12 meaning that each hotel has its own general manager who 13 oversees the entire property, and has its own finance 14 department that does the day-to-day finance of the hotel. 15 So, for example, if you mention Doral, Doral has its 16 own general manager. Doral has its own director of finance. 17 Each hotel has its own departments like that to do the 18 day-to-day accounting and finance work and day-to-day 19 operations; under the auspices and the direction of the 20 corporate office where I reside, but obviously we entrust the 21 teams at the properties to handle the day-to-day of the 22 operations. 23 Q So looking at it from an organizational chart, for 24 the purpose if you are sitting at the role of the COO of the 25 hotel division, who is it in the hotels that reports to you?</p>
<p>Hawthorn - by Defendant - Direct (Robert) Page 5129</p> <p>1 A Correct. 2 Q And is there a CEO of the hotel division? 3 A No, there is no one with that title. But I, as the 4 Chief Operating Officer or COO, I am at the highest executive 5 level of the hotel division of the company. 6 Q And I think you described it a few moments ago, but 7 just to be clear, what exactly are the responsibilities of the 8 Chief Operating Officer of the hotel division? Is it okay if I 9 call it the hotel division? 10 A That's accurate. It is not just finance and 11 accounting but it is everything related to the hotel division 12 operations, including sales and marketing; including 13 operational aspects of how to operate a hotel; how we set rates 14 for room rates; and how we employ, employees over across the 15 hotel portfolio. So not just financing accountant, but all 16 operational aspects. 17 Q I referred to the hotel division. What, if any, 18 other divisions does the Trump Organization have? 19 A So broadly speaking there is commercial real estate 20 in the organization. Then there is hospitality-related assets 21 like hotels. And then similar to that there is a golf 22 division. So there is private and public golf courses in the 23 company. 24 Q And do any of the golf courses fall within your 25 bucket?</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5131</p> <p>1 A All of the general managers of the hotels. So the 2 leaders of the actual hotel properties. 3 Q And when you want financial information about these 4 individual hotels, how do you go about getting it? 5 A Each individual hotel prepares its own financial 6 information; maintains its own books and records or general 7 ledger, is a common term for books and records. So at the 8 property level those are all maintained. We have a mechanism 9 at the corporate office where we have a reporting timeline 10 where the hotels will report to us in a very standardized way. 11 There are monthly financial reports. 12 And our other applicable reports that we will review, 13 and discuss and review these with the properties, to get a 14 better understanding and be, kind of, on top of the operation 15 and understanding what is happening in the business. 16 Q I know you are familiar with the name Allen 17 Weisselberg, correct? 18 A Yes. 19 Q Where was Allen Weisselberg within the corporate 20 structure? 21 A Allen Weisselberg was the Chief Financial Officer of 22 the Trump Organization. 23 Q And what, if anywhere -- withdrawn. 24 How, if in any way, did your role change after 25 Mr. Weisselberg left the company?</p>

Hawthorn - by Defendant - Direct (Robert) Page 5132

1 A After Mr. Weisselberg left the company I have been
 2 called upon from time to time as needed to assist with how the
 3 company is operating generally in other divisions, so not just
 4 the hotel division. And I have been called upon to, kind of,
 5 ask how we could replicate certain practices and procedures
 6 that we do in the hotel division across the company.
 7 Q And if you could add a little more detail to that?
 8 A Sure. I mean, I think the hotel division, in my
 9 humble opinion, because I have -- I am overseeing it, we have a
 10 good set of procedures and controls and ways we go about doing
 11 the day-to-day business in the operations. So, for example, we
 12 have a standardized chart of accounts. I know it sounds kind
 13 of boring, but if every hotel has the same general chart of
 14 accounts, it is easy to have consistency and roll up across the
 15 company.
 16 And do you want me to keep explaining?
 17 Q Let me break it down a little.
 18 A Okay.
 19 Q Did there come a time that someone within the Trump
 20 Organization asked you to assist in these other projects after
 21 Mr. Weisselberg left?
 22 A Yes. I think Eric Trump has asked me -- well, I know
 23 Eric Trump has asked me to assist in other matters where I can
 24 be of assistance to the company.
 25 Q Okay. And just so that we are clear, that assistance

Hawthorn - by Defendant - Direct (Robert) Page 5133

1 is in what form?
 2 A It is helping to utilize certain of the
 3 characteristics of the hotel division and other ways to create,
 4 you know, more efficiencies, better procedures and practices
 5 across the company as a whole.
 6 Q You talked about uniformity, and I think you used a
 7 phrase "roll up" a couple of minutes ago. What did you
 8 discover when you were asked to help -- I'll use the word
 9 "modernize" the other divisions?
 10 A So as an example, I think as I was explaining before,
 11 the hotel division has the benefit of already an existing
 12 structure where every hotel is accounted for in the same way.
 13 As I was asked to, kind of, assist in other areas of the
 14 business, for example in the golf division, which is similar to
 15 the hospitality division hotels, the golf division at the time
 16 of, let's say, summer of 2021, didn't have that same
 17 uniformity. As the golf division grew over time, golf courses
 18 were acquired and the property level comptrollers entrusted to
 19 oversee the books and records, either continued to use the same
 20 chart of accounts that they had on a previous ownership, or had
 21 discretion in how they could book transactions in a chart of
 22 accounts that made sense for their property.
 23 So as an example, one of the projects that I helped
 24 to oversee over the last year and a half with some team members
 25 from my team, is to help standardize the chart of accounts for

Hawthorn - by Defendant - Direct (Robert) Page 5134

1 golf, so that you could consistently compare across every golf
 2 course the operations, the performance and understand, if
 3 everything is booked the same way and the same accounts, you
 4 can have consistency. That's an example.
 5 Q You used the phrase, "chart of accounts," what do you
 6 mean by that?
 7 A The chart of accounts is the, for lack of a better
 8 term, the books and records of the company, where all of the
 9 debits and credits go when you book journal entries. So there
 10 is typically a number assigned to a certain general ledger
 11 account. A description assigned to a certain general ledger
 12 account that comprises the assets, liabilities and equity of
 13 the books and records of the trial balance. And so it is much
 14 more efficient as a corporate oversight to evaluate the
 15 performance of your portfolio if everyone is on the same chart.
 16 Now, that's not to say that each entity had anything
 17 wrong with it. It is just that each entity maybe booked things
 18 in a different account than a different entity. So if you are
 19 trying to cross compare certain things, it may not be as
 20 noticeable because they are not on an apples to apples basis.
 21 So this is kind of inherent, you know, efficiency in the
 22 organization and the golf division similar to what we had in
 23 the hotel division as an example.
 24 Q Has there been any new accounting software that has
 25 been used as a result of your involvement in these other

Hawthorn - by Defendant - Direct (Robert) Page 5135

1 divisions?
 2 A So, in addition to the chart of accounts project at
 3 golf, which is utilizing the same software which is golf
 4 specific, there is an undertaking ongoing now at the Trump
 5 Organization corporate accounting level to input new general
 6 ledger accounting software, so to be more modern, to be more
 7 like the hotel division. Meaning in a way that today in 2023
 8 there is software packages available that helps people do their
 9 jobs a little bit easier, more consistent and have more
 10 control, standardization.
 11 So we have a -- I am assisting with a project at the
 12 corporate office accounting level to put in a new system that
 13 will help in this effort to improve the efficiency and the
 14 reporting and the technical capabilities of the -- the other
 15 divisions of the company, like the commercial real estate and
 16 the corporate office and that sort of thing.
 17 Q When you talk about the corporate office, what are
 18 you referring to?
 19 A So, the corporate office resides generally at
 20 725 Fifth Avenue in New York, which has a back office
 21 accounting function. There is a team that oversees those
 22 assets. Whereas I oversee the hospitality hotel assets.
 23 Q And what is the difference between the corporate
 24 accounting level you used -- you phrased, as opposed to how
 25 things work at the hotels or golf courses?

Hawthorn - by Defendant - Direct (Robert) Page 5136

1 A Maybe to put it in the appropriate context, that was
2 kind of the corporate office's, kind of, generally referred to
3 the prior regime of Jeff McConney and Allen Weisselberg.
4 Whereas now we have other individuals in certain roles
5 overseeing the commercial assets, the real estate assets of the
6 portfolio.
7 Q And the commercial assets are no longer governed by
8 the corporate accounting department, or are they?
9 A They are.
10 Q Is there a distinction between who is running -- who
11 is in the corporate accounting department versus who is at the
12 golf courses and hotels? If so, what is that?
13 A There is. So we have, again, myself in hotels. We
14 have an individual in golf. We have individuals in the
15 corporate accounting function today.
16 You know, for example, I think you may know Donna
17 Kidder. She continues to be in the capacity of an assistant
18 comptroller. We have a director of finance now that is running
19 the oversight of that department, that runs that day-to-day.
20 Q What, if any, involvement did you have in the last
21 few years with the check issuing system at the Trump
22 Organization?
23 A Can you repeat the question?
24 Q Sure. What, if any, involvement have you had in the
25 last few years with the check issuing system of the Trump

Hawthorn - by Defendant - Direct (Robert) Page 5137

1 Organization?
2 A By check issuing system you are referring to
3 disbursements?
4 Q Yes, disbursements, paying bills.
5 A Sure. So as an example of, kind of, how the company
6 used to do things versus how it does it now, the company under
7 the prior regime, you know, ran as it did as a family run
8 enterprise using very basic functions. For example, to pay
9 bills and vendors everything was always paid via paper check.
10 That's -- that worked in the 1980s and it still works today.
11 But there is other ways to get vendors paid more quickly, more
12 timely, more accurately. So, I was asked to assist in, kind
13 of, helping the corporate office, kind of, maybe update
14 modernize the way things are done, because we do things in the
15 hotel division that is more, let's say, in the way companies
16 operate today.
17 Q Did there come a point in time someone at the Trump
18 Organization specifically asked you to assist with this
19 disbursement issue?
20 A Yes.
21 Q And who was that person?
22 A Eric Trump.
23 Q And what were the circumstances surrounding -- first
24 of all, when was that, if you recall?
25 A It was probably in the summer of 2021.

Hawthorn - by Defendant - Direct (Robert) Page 5138

1 Q What were the circumstances surrounding that, sir?
2 A So, just for perspective and background, right, the
3 way that the corporate office functioned, had previously
4 worked, is that there was only -- if you are only paying with
5 check and you only have three signers who can sign checks, you
6 are very limited on how you can make disbursements. And the
7 three signers that were always entrusted with overseeing the
8 bank accounts were Allen Weisselberg, Donald Trump Jr. and Eric
9 Trump. So, in practice, Allen Weisselberg in his role, to my
10 understanding, would be the one that would review check
11 disbursements and sign them so that they would go out, because
12 that was his role.
13 I guess at the time of summer of 2021 Allen
14 Weisselberg was no longer in the role of Chief Financial
15 Officer. He was removed from those duties. So, when the
16 operation keeps needing to run, checks need to be signed. So
17 now you only have two signers who can sign checks, Donald J.
18 Trump Jr. and Eric Trump. So I recall walking into Eric
19 Trump's office and he called me in to assist, and he had a
20 stack of checks to sign that was very high.
21 And he said: Well, what do I do with all of these?
22 Because typically Eric would never sign checks. It would be
23 Allen. Allen would sign all of the checks and Eric would work
24 on the operation. But if you need to pay vendors, who is going
25 to sign the check? It is really Eric or Don.

Hawthorn - by Defendant - Direct (Robert) Page 5139

1 So Eric came to me and he said: Well, Mark, how do
2 you do this in the hotel division?
3 I said: Well, we don't do it like this. We pay
4 through ACH. We pay through virtual means, electronic means.
5 We have systems and processes that are available and tools that
6 are available to the company to modernize, kind of, the
7 functionality. So that's how I got involved in that project.
8 So commensurate with, kind of, the upgrade of the
9 general ledger package of the Trump Organization at large and
10 the corporate office, my role has helped assist in replicating
11 some of the hotel division efficiencies to the organization so
12 that we are able to pay vendors in a more efficient way. Saves
13 a lot of time and resources when you are not needing to put a
14 stamp on envelopes and trace and track down outstanding checks.
15 So, kind of one of the initiatives I have helped with. And
16 Eric Trump, I know, is proud of being as paperless as we can in
17 disbursements.
18 Q You have heard of something during the course of this
19 trial called a Statement of Financial Condition, correct, sir?
20 A Yes.
21 Q And did you have any involvement in the preparation
22 of President Trump's Statement of Financial Condition?
23 A I did not.
24 Q Did there come a time that you became aware of a
25 document called President Trump's Statement of Financial

Hawthorn - by Defendant - Direct (Robert) Page 5140

1 Condition?
2 A Yes.
3 Q And when was that approximately?
4 A In connection with one of the hotel audits that I was
5 working on. There was a request from one of those auditors to
6 get some more information about the parent company of the
7 hotel. And I was doing some diligence to try to provide the
8 best available information. In doing so, I was aware that
9 there was this document that existed. And I helped to
10 facilitate a meeting with the accounting team in the hotel --
11 that was doing the audit of the hotel, and the accounting team
12 that was familiar with the statement, so that they could
13 discuss it and understand whatever questions they had.
14 (The following proceedings were stenographically
15 recorded by Senior Court Reporter Michael Ranita.)

23
24
25

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5141

1 Q When you talk about the accounting team who was
2 familiar, who are you referring to?
3 A At the time that was Whitley Penn.
4 Q So when was this -- was this meeting virtual, in person
5 or something else, telephone?
6 A Um, so this was a meeting that I helped to coordinate.
7 It was effectively a video conference on the Google Meet
8 platform that was, I think, in November of 2021, if I'm correct.
9 That helped to facilitate the Whitley Penn accounting team. The
10 other team involved was an audit firm called Johnston
11 Carmichael. They are one of the audit firms that we use for the
12 Scotland entities. So we have a couple of assets in Scotland.
13 That was the team that needed some information about the parent.
14 And so I helped to facilitate that virtual meeting.
15 Q Other than your participation in facilitating this
16 virtual meeting in 2021, do you recall having any other
17 knowledge or involvement with the President Trump Statement of
18 Financial Condition?
19 A No.
20 Q Are you aware of whether The Trump Organization still
21 prepares a Statement of Financial Condition for President Trump?
22 A It is not prepared, to my knowledge.
23 Q And what, if anything, has replaced that now at The
24 Trump Organization, if you are aware of it?
25 A There is not a roll up financial statement of the

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5142

1 company. It's not required by any lender currently, and/or any
2 other constituency.
3 Q Okay.
4 I want to switch topics for a minute and talk to you
5 about Mazars. Are you familiar with a company known as Mazars?
6 A Yes.
7 Q And what is Mazars?
8 A Mazars is an accounting firm. It was the main
9 accounting firm of The Trump Organization when I started in
10 2016, and I guess prior to that they had a long standing
11 relationship with The Trump Organization to be the, um, you
12 know, financial, um, statement preparers and auditors, as well
13 as the tax preparers for the company.
14 Q And who was the main point of contact that you dealt
15 with at Mazars while they were the outside accountants to The
16 Trump Organization?
17 A The main audit partner was Donald Bender.
18 Q How often would you be in contact with Mr. Bender?
19 A I would be in contact with him frequently as it related
20 to the audits and compilations of the hotel assets that we were
21 entrusted, to insure that financial reports were issued for
22 those entities.
23 Q So with regard to your interaction with Mr. Bender,
24 what services were you, on behalf of the hotel group, if you
25 will, seeking from Mazars and Mr. Bender?

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5143

1 A It would be compilation services and audit services.
2 Q What about tax services or tax advice?
3 A Limited for me. My role is primarily related to
4 financial reporting of individual entities in the hospitality
5 portfolio.
6 Q What do you mean by "compilation services"?
7 A A "compilation" is effectively the assistance of the
8 accounting firm to put together the annual financial statements
9 of the entity that's being asked to be done on, where the
10 accounting firm would put together the balance sheet, income
11 statement, um, statement of cash flows, in a summarized
12 annualized report.
13 Q And would they do this for all of the hotel properties?
14 A They would do it for hotel properties that required to
15 have a compilation statement.
16 Q And who, if anyone, would be making this requirement?
17 A It was required by certain lenders.
18 Q And do the extent that those properties fell within
19 your division or your wheelhouse, you would have had involvement
20 with Mr. Bender with those; correct?
21 A Correct.
22 Q And you talked about audit services, too. What were
23 you referring to there?
24 A Audit services was -- are engagements that Mazars was
25 entered into an engagement with the company to do an actual

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5144

1 financial audit of an entity. So we had a property, a hotel
 2 property that required an audit from its, um -- under the terms
 3 of its lease agreement, and also under the terms of its debt.
 4 So one property under those requirements needed to have an audit
 5 issued versus a compilation.
 6 Q If you, on behalf of your division, had accounting
 7 questions, who, if anyone, would you turn to outside of The
 8 Trump Organization?
 9 A We would turn to Mazars.
 10 Q And who, if anyone, would you turn to within The Trump
 11 Organization during that time period that Mazars was the outside
 12 accountant?
 13 A It would be myself.
 14 Q Other than consulting with yourself, is it fair to say
 15 that Mazars would have been the only other entity you had
 16 contacted with?
 17 A Correct.
 18 Q Primarily that would have been Mr. Bender?
 19 A Correct. I could still hold a CPA license. I'm not a
 20 practicing CPA. You know, I'm -- I worked work for a private
 21 company, so while I still keep up with accounting rules and
 22 regulations and changes, relied heavily on Mazars to understand
 23 what the current pronouncements are in accounting so that when
 24 we are issuing -- when they are issuing financial statements,
 25 that we make sure that we are properly disclosing required

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5145

1 disclosures that were ensuring that we are properly recording
 2 entries appropriately and in accordance with the latest
 3 standards.
 4 Q How did you communicate with Mazars?
 5 A Telephone, e-mail, um, frequent communication as
 6 needed.
 7 Q In-person meetings as well?
 8 A In-person, of course.
 9 Q What kind of information did you give Mazars about the
 10 hotels in your division?
 11 A We would give them the information that they would
 12 require to put together the compilation or for their audit,
 13 which would be the underlying financial statements of the
 14 entity, and any supporting backup, or schedules, or detail that
 15 they required so that they could conduct audit testing.
 16 Q Do you recall ever an instance where Mazars asked you
 17 for something and you didn't provide it to them?
 18 A No.
 19 Q At some point in time, Mazars was no longer the outside
 20 accountants for The Trump Organization; correct?
 21 A Correct.
 22 Q Do you remember approximately when that was?
 23 A Um, I don't recall exactly, but it would have been 2020
 24 or 2021, around there.
 25 Q And who comes in to be the new outside accountants for

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5146

1 The Trump Organization?
 2 A A firm called Whitley Penn.
 3 Q And what, if any involvement, did you have in the
 4 selection of Whitley Penn to be the new external accountants for
 5 The Trump Organization?
 6 A I had some involvement because the audits and
 7 compilations under my responsibility, I, you know, took great
 8 pride in to make sure were accurate. We wanted to make sure we
 9 had a good firm that had the capability to do the work. So the
 10 initial meetings, I was part of it with respect to the
 11 hospitality properties that we needed to have certain work
 12 performed, such as these audits and compilations.
 13 Q Were you involved in the selection of the Whitley Penn
 14 firm, or after they were selected, for lack of a better word, to
 15 help get them up to speed, or both?
 16 A A little bit of both. My input was valued based on my
 17 kind of interactions with Whitley Penn at the onset, and the
 18 questions that I would ask if they were capable of handling the
 19 work. Um, and then I was one of the probably primary liaisons
 20 with the audit partners at Whitley Penn, especially with respect
 21 of the hospitality properties.
 22 Q And the primary point of contact at Whitley Penn was,
 23 and is?
 24 A On the audit, same gentleman named Camron Harris.
 25 Q You talked about on the audit side. What do you mean

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5147

1 by that?
 2 A Whitley Penn was taking over the kind of the role of
 3 Mazars previously. Whitley Penn also has a tax division. So
 4 the company relies on Whitley Penn, and its tax division of its
 5 firm to help with the tax preparation of tax filings of all the
 6 entities that require them. So there's another audit partner
 7 and another component of that practice that oversees, let's say,
 8 tax compliance work versus audit and financial accounting work.
 9 Q So when we refer to an audit partner -- I know this
 10 confused me for the longest time -- it doesn't necessarily just
 11 mean an audit; correct?
 12 A Correct. It means attestation services is a fancy word
 13 for it.
 14 Q My question is, what is an attestation service?
 15 A It's work that is engaged with a firm and a client, to
 16 whatever extent they both agree, that the client has engaged the
 17 firm to do work to substantiate the books and records of the
 18 company. If it's an audit, to understand the policies and
 19 practices of the company.
 20 So effectively, the value of an audit firm to any
 21 company, right, is that they want to evidence to an outside
 22 party that someone else has looked at these numbers or looked at
 23 these books and records and has done procedures to understand
 24 them, and the issuance of the final report is also being
 25 represented by this firm.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5148

1 Q With regard to your division, how, if in any way, is
2 Whitley Penn tasked with anything different than Mazars?
3 A It's a similar -- it's similar generally. They are
4 tasked in my division to be the firm that, again, prepares the
5 compilation statements, that does the audit work for the
6 entities that need audits.
7 And then while I'm not a tax person, I still have some
8 involvement with their tax division when it comes to the
9 hospitality assets and certain information that they might
10 require.
11 Q You mentioned a little while ago that when the process
12 of, I guess, on boarding a new accounting firm -- do you know
13 what I mean when I say "on boarding"?
14 A Yes.
15 Q That you were involved not just as it related to your
16 division, but more generally, can you explain a little bit more
17 about that?
18 A Um, again, I had some input based on my background as a
19 former accounting firm personnel and auditor myself to, to, um,
20 meet with Whitley Penn during the selection process if we wanted
21 them to be our firm. So I, you know, got a chance to meet with
22 them in person, on the phone, um, kind of understand their
23 qualifications, their staffing levels, that they could handle
24 the work. So I was probably just another helpful resource to,
25 um, vouch that we believed that they had the capability to, you

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5149

1 know, be our accounting firm.
2 Q Switching topics slightly, if I use the phrase
3 "financial reporting", what does that mean to someone with your
4 background?
5 A "Financial reporting" is very generally just the um,
6 financial summary of an entity. Um, reporting could be very
7 simply internal reporting from management to review operational
8 performance and make decisions. It's a very broad term.
9 Financial reporting can go from very, you know, like I said,
10 very internal books and records to external reporting, which is
11 a more formal report that's issued on an annual basis, or
12 quarterly basis, required for any purpose.
13 Generally speaking, financial reporting, between, if
14 it's internal, sometimes referred to as management reporting,
15 it's very much customary based on the industry that you are in.
16 So, like, for example, in the hospitality industry, the
17 hospitality accounts, we refer to the Uniform System for
18 Accounts for the Lodging Industry, USALI. So anyone in hotel
19 accounting would know that term because it's an internal
20 management financial reporting guidelines and structure, so that
21 we, as a hotel company, are booking things and recording things
22 similar to other hospitality companies; that's not necessarily
23 GAAP required, right? Whereas GAAP and other more stringent
24 financial metrics are applicable to external reporting audits,
25 compilations, things like that.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5150

1 Q You testified a few moments ago that generally speaking
2 the scope of work between Whitley Penn and Mazars was basically
3 the same; fair?
4 A Yes.
5 Q What kind of -- and I'm going to take you back to the
6 period 2011. What kind of reporting did Mazars do for The Trump
7 Organization?
8 MR. AMER: Objection. Foundation. The witness
9 said he didn't start to be employed until, I think, 2016.
10 MR. ROBERT: The witness is now the COO of the
11 hotel division.
12 Q When you first joined the company in 2016, what, if
13 anything, did you come to learn about how things had been done
14 previously to help do you your job, if anything.
15 A I had to understand how the books and records were
16 prepared prior to my joining the company. I also had to review
17 various agreements, contracts and financial statements going
18 back many years to understand how these assets performed
19 previously and what the reporting requirements, um, you know,
20 are of these entities.
21 Q Did you review financial statements that had been
22 prepared by Mazars for The Trump Organization from 2011 forward?
23 A I did.
24 Q And what did you come to learn from those?
25 A That every year, as required, these financial

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5151

1 statements were issued; that they were submitted to lenders as
2 required, and that they were completed as needed.
3 Q So going back, let's say, to 2011, how many of these
4 different financial reports did Mazars do that you had looked
5 at?
6 A Hard to say. Probably over a hundred. Mazars, maybe
7 50, something like that.
8 Q And what ran the scope of what kind of reports these
9 were?
10 A Compilations, reviews, audits. They did a lot of work
11 for the company in terms of issuing entity-level financial
12 statements.
13 Q In addition to you reviewing these records back in 2016
14 when you joined the company, did you have an opportunity to look
15 at them, again, before you testified here today?
16 A I did.
17 Q And did you prepare a chart outlining all of the
18 various reports that Mazars and Whitley Penn have done for The
19 Trump Organization since 2011?
20 A I did.
21 MR. ROBERT: Your Honor, I would like to put on the
22 screen D-1054, which is a demonstrative exhibit that was
23 prepared by Mr. Hawthorn.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5152

1 MR. ROBERT: We have a copy to hand up, please.
2 (The witness was handed the exhibit.)
3 Q Mr. Hawthorn, what is this document?
4 A So this is a summary document that illustrates, for the
5 years 2011 to 2022, all of the financial statements that were
6 issued by various accounting firms on behalf of the company for
7 various entities. The chart is simply showing that from 2011 to
8 2022, across numerous United States based properties, that there
9 have been 82 financial statements, annual financial statements
10 issued for these entities. It indicates in the box whether it
11 was a compilation, an audit or a review.
12 And then also on the lower part of the chart it also
13 includes other accounting firms. I think I mentioned the
14 Scotland property in the past that had an audit firm named JCCA,
15 an Ireland audit done by a firm called BDO, both are
16 internationally recognized accounting firms in those areas.
17 So those areas also required audited financial
18 statements for years presented. So it provides a snapshot for
19 all of the work that the accounting firms and the company at
20 large has done over the last ten years to issue compliant
21 financial statements.
22 Q Sir, to Mr. Amer's point, from 2011 to 2015, you did
23 not work at The Trump Organization; correct?
24 A Correct.
25 Q And the preparation of these reports in 2011 to 2015,

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5153

1 obviously you were not involved in the creation or preparation
2 of those; correct?
3 A Correct.
4 Q Was the 2016 year the first year that you were
5 personally involved or would it be more accurate to start with
6 the ones in 2017?
7 A 2016 I started in February, so this would be a year
8 ended December 31st, 2016, generally speaking, year. That
9 report would have been issued in 2017 after the fiscal year end
10 closed.
11 Q So let's take a look at 2016 to start, if we could.
12 What, if any, involvement did you have in the compilation report
13 prepared by Mazars for -- withdrawn.
14 What is Trump Endeavor 12?
15 A Trump Endeavor 12 is the legal entity that is the
16 ownership entity of Trump National Doral. That is the 643 room
17 hotel resort with four golf courses in Florida.
18 Q Mr. Hawthorn, what, if any, involvement did you have in
19 the compilation report prepared by Mazars in 2016 for Trump
20 Endeavor 12?
21 A So I was the liaison for the company on behalf of the
22 hotel division so that Mazars could prepare the compilation on
23 the company's behalf.
24 Q And for whose purpose was that compilation prepared?
25 A So the compilation was prepared because the lender of

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5154

1 this entity, so the entity, Trump Endeavor 12, has a loan
2 outstanding with, at the time, Deutsche Bank. Under the terms
3 of the loan agreement, the lender requires annual compilation
4 financial statements of the borrower. So that's why these were
5 prepared from 2016 onward.
6 Q And do you recall Mazars asking you for any
7 information, with regard to this compilation, that you didn't
8 provide to them?
9 A Say that again.
10 Q Do you recall ever being asked by Mazars to provide you
11 information to prepare this compilation that you didn't provide
12 to Mazars?
13 A No. We provided them everything they asked for.
14 Q Going to the second item on 2016, what, if any,
15 involvement did you have in the compilation for the 401 North
16 Wabash, LLC entity?
17 A So similar to the above, so 401 North Wabash, LLC that
18 is the legal entity of the ownership of the commercial space and
19 unsold units at the Trump Chicago. Again, that entity has, at
20 that time, debt outstanding with Deutsche Bank under the loan
21 agreement.
22 The loan agreement requires that the borrower provides
23 entity-level compilation financial statements to the lender. So
24 from all those years presented, those were provided.
25 Q And I know I pronounced it wrong. I didn't say

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5155

1 "triple", but I was close enough. So it's 401 North Wabash?
2 THE COURT: Wabash.
3 MR. ROBERT: I'll call it the Chicago property?
4 A That's the address of the Chicago property.
5 Q Mr. Hawthorn, moving to the third item, Trump Old Post
6 Office, LLC, what, if any, involvement did you have in the audit
7 that was performed by Mazars in 2016?
8 A So I was involved in that similar to the above. The
9 procedures were more detailed than a compilation, because it's
10 an audit. So the entity, Trump Old Post Office, LLC, again, at
11 the time had a loan outstanding. The loan required that the
12 borrower provide audited financial statements.
13 In the other cases they were compilation financial
14 statements. So just following the terms of the loan, Trump Old
15 Post Office, LLC's requirement was for an audit.
16 So in a similar fashion, I oversaw and was a liaison
17 for Mazars to get them the information they needed for
18 completing those audits. There's also another line that says
19 "compilation." So that was an entity where we had both an audit
20 and a compilation done for a certain period of time. Um, that
21 was also required as a result of the loan instrument requiring
22 certain testing at a different date than the audit date. So,
23 therefore, in a certain period of time, as you see from 2019 to
24 2021, a compilation was also performed.
25 MR. ROBERT: Don't worry, Judge. I'm not going to

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5156

1 do each year, but I'll get to 2019 in a minute.

2 Q Mr. Hawthorn, I'm not going to ask you about each

3 entity, this one question, but fair to say with all the entities

4 on this chart there was never a time that you can recall that

5 Mazars asked you for information and you didn't provide it; fair

6 enough?

7 A Correct.

8 Q Going to the --

9 THE COURT: Already asked. Leading.

10 MR. ROBERT: He didn't object, and I'm trying to

11 move it along.

12 THE COURT: You asked him previously --

13 MR. AMER: For the relevance, you know, I think

14 hopefully we are done with the chart soon.

15 MR. ROBERT: We are not. This chart demonstrates

16 that there are over 116 financial statements that no one had

17 a problem with, and all the work that Mazars did and all the

18 work Whitley Penn did, this is absolutely relevant.

19 THE COURT: I'm not joining the relevance fray, I'm

20 just saying, you asked him if he ever was asked by Mazars

21 for information and he did not give it. And he said, "No."

22 And I think you asked pretty much the exact same question.

23 MR. ROBERT: I don't plan to ask it anymore on this

24 chart; that much I could assure you, Judge.

25 Q Moving to 40 Wall Street, LLC. Do you see that in

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5157

1 2016?

2 A Yes.

3 Q What, if any, involvement did you have in an audit?

4 A I did not have involvement in that one.

5 Q Same question for TIHT Commercial?

6 A I did not have direct involvement.

7 Q Trump Plaza, LLC?

8 A I did not have any involvement.

9 Q Trump Tower Commercial?

10 A I did not have direct involvement.

11 Q Why is it, sir, that with regard to 40 Wall Street,

12 TIHT Commercial, LLC, Trump Plaza, LLC, or Trump Tower

13 Commercial, LLC, that you had no involvement in that?

14 A Those aren't in the hospitality portfolio. Those are,

15 again, commercial real estates, but I'm aware in my position

16 that these audits were done.

17 Q And your answer would be the same for those assets, for

18 the assets meaning 40 Wall, TIHT Commercial, Trump Plaza, Trump

19 Tower Commercial, your answer would be the same for -- from 2011

20 -- well, from 2016 to 2022, those were not under your

21 supervision; fair enough?

22 A Correct.

23 Q Okay. Moving down in 2016, what is JCCA?

24 A That's an abbreviation for a firm called Johnston

25 Carmichael. That is an audit firm of Scotland entities.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5158

1 Q And, again, fair to say that starting in 2016, that's

2 when you became involved in those?

3 A Correct.

4 Q And what, if any, involvement did you have --

5 withdrawn.

6 What is SLC Turnberry, Ltd?

7 A That is the legal entity that is the ownership entity

8 of the hotel property named Trump Turnberry in Scotland.

9 Q What, if any, involvement did you have in the 2016

10 audit of the SLC Turnberry, Ltd. property, sir?

11 A Similar to Trump Old Post Office, LLC, my involvement

12 was to oversee the relationship with the audit firm and make

13 sure they got all the information they needed so the report

14 could be issued.

15 Q What, if any, difference was there the way you had to

16 deal with audits of international properties versus domestic

17 properties?

18 A There's some difference because accounting standards

19 are different in the UK and Ireland as opposed to the US. But

20 generally speaking, it's the similar broad based

21 responsibilities.

22 Q And what, if any, involvement did you have in the 2016

23 audit of -- withdrawn.

24 What is Trump International Golf Club Scotland, Ltd?

25 A That is the legal entity name of the golf course and

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5159

1 small hotel in Aberdeen, Scotland.

2 Q What, if any, involvement did you have in the audit of

3 that property in 2016?

4 A I had the same involvement as Turnberry. I interacted

5 with the audit firm, as necessary, to assist with the issuance

6 of those financials.

7 Q Continuing to move down, who is BDO?

8 A BDO is another accounting firm. It's an international

9 accounting firm, in this case, based out of Ireland. So they

10 oversaw the audits of our Ireland properties.

11 Q Sir, what is TIGL Ireland Enterprises, Ltd?

12 A That is the legal entity of that property. So both

13 those entities are two legal entities that comprise the

14 ownership and operation of Trump Doonbeg, which is another

15 property in Ireland.

16 Q What is the difference between TIGL Ireland Enterprises

17 Ltd. and TIGL Management?

18 A They just oversee different functions of the resort.

19 One oversees the hotel accommodation. One oversees the golf

20 course component. Just generally speaking, it required two

21 legal entities for its set up.

22 Q What, if any, involvement did you have in the audit of

23 TIGL Ireland Enterprise, Ltd. audit, 2016?

24 A Same as Scotland. Oversight, ensuring that the audit

25 firm got what they needed to do the audits.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5160

1 Q And same thing as TIGL management, correct, sir?
 2 A Correct.
 3 Q Just so the record is clear, these are golf courses.
 4 Why is it that they fell within your purview of hotels?
 5 A These are hotel resorts. There are hotels that have
 6 overnight guest rooms, as well as a golf course. So similar to
 7 Doral, Turnberry, Aberdeen and Doonbeg are all overnight
 8 accommodation services, hotel properties that have a golf course
 9 as an amenity in the golf courses.
 10 Q Drawing your attention to 2019 for a moment, and you
 11 kind of alluded to this earlier, if I draw your attention to
 12 Trump Old Post Office, LLC, do you see that?
 13 A Yes.
 14 Q There is a compilation in addition to an audit for
 15 2019; correct?
 16 A Yes.
 17 Q Why is that?
 18 A That was required by the lender in accordance with a
 19 reporting test. So they required not only annual audited
 20 financials, but they required annual, what we call "debt service
 21 testing." There is an acronym called DSCR, which is debt
 22 service coverage ratio. That loan agreement required testing
 23 over a trailing 12-month period ending in January, whereas the
 24 fiscal year financial statements were a 12-month period ending
 25 in August. So we did an audit for the August period, and we did

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5161

1 a compilation for the DSCR testing period.
 2 MR. ROBERT: Your Honor, I'm going to try to finish
 3 this chart very quickly, but to do that I would like to move
 4 D-1054, rather than demonstrative, into evidence, otherwise
 5 I have to ask him a question about each line item to get the
 6 testimony out. And I want to make it simpler, so I could
 7 refer to the document as a whole.
 8 MR. AMER: My initial question is, why aren't we
 9 marking this as demonstrative instead of an exhibit.
 10 MR. ROBERT: It should be an exhibit.
 11 MR. AMER: It's got D-1054. Why don't we mark it
 12 as demonstrative?
 13 MR. ROBERT: Let's introduce this in evidence as
 14 D-1054, a document created by Mr. Hawthorn. I'm fine with
 15 that. It would make this go much faster.
 16 MR. AMER: I thought we weren't introducing into
 17 evidence demonstratives.
 18 MR. ROBERT: No, I'm changing my mind, because it
 19 will take me at least a half hour to go through each item
 20 with Mr. Hawthorn. This is much easier.
 21 THE COURT: I don't think demonstratives just go in
 22 as ordinary evidence.
 23 MR. ROBERT: So I'll withdraw the request to put it
 24 in as a demonstrative and enter it as a piece of evidence.
 25 It's a document created by Mr. Hawthorn based on his review

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5162

1 of documents in explaining what was done for each property.
 2 If the Court and Attorney General don't want it to
 3 come in evidence that way, I'll go through each year and ask
 4 him was there an audit, what involvement did you have. I'm
 5 happy to do it. That's fine.
 6 MR. AMER: I think the problem is the best evidence
 7 rule. If you are going to put in evidence about each of
 8 these audits, then you should put in the audit or
 9 compilation. You shouldn't just put in a chart that
 10 summarizes something that isn't already in evidence.
 11 MR. ROBERT: It's not --
 12 MR. AMER: It's a problem, I think.
 13 MR. ROBERT: I'm not attempting to get into the
 14 bona fides of what was there, just that these were done and
 15 he was involved in getting them done. I'm not suggesting
 16 and I don't want to get into having to put in 116 financial
 17 statements.
 18 MR. AMER: Well, so this document we saw for the
 19 first time last night, and I don't think it was created
 20 prior to that or shortly before that. And it purports to
 21 summarize a lot of evidence, but that evidence has not been
 22 introduced into -- as exhibits in this case. So it's just
 23 not proper to use a summary chart in this fashion.
 24 MR. ROBERT: I'm happy to do it the long way,
 25 Judge.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5163

1 THE COURT: Do it the long way.
 2 MR. ROBERT: Okay.
 3 THE COURT: If that's what plaintiff wants.
 4 MR. ROBERT: That's fine.
 5 Q Drawing your attention to 2017, Mr. Hawthorn --
 6 A Yes.
 7 Q -- were you involved in a compilation involving Trump
 8 Endeavor 12, LLC?
 9 A Yes.
 10 Q What was your role with regard to that compilation?
 11 MR. AMER: Different objection, and I am going to
 12 have to involve you with the relevance fray, your Honor. I
 13 don't see how any of this is relevant.
 14 We are not challenging the audits or compilations
 15 that were submitted to any lender by the borrowing entity.
 16 This case is all about Donald J. Trump's financial
 17 disclosure under the guaranties in the form of his Statement
 18 of Financial Condition.
 19 As far as I'm aware, this chart doesn't include any
 20 entry relating to the compilation that was the Statement of
 21 Financial Condition for Mr. Trump under the guaranty. So I
 22 just don't see how it's relevant.
 23 MR. ROBERT: So, first of all, your Honor, this is
 24 the first time I'm hearing that the government is not making
 25 a claim against any of the guarantor's of the loan, so if

Page 5164

1 that's news --

2 MR. AMER: That's not what I said. For disclosure

3 of their compilation or "their" being the borrower's

4 compilation or audit financials.

5 MR. ROBERT: But the named defendants in the case

6 include, in particular, Trump Endeavor 12, 401 North

7 Wabash --

8 THE COURT: Wabash.

9 MR. ROBERT: Wabash, and Trump Old Post Office,

10 LLC. So their conduct is clearly an issue, unless you want

11 to withdraw the claims against those corporate or business

12 entities.

13 What we are demonstrating through this is that

14 these entities prepared financial information. This

15 financial information was prepared either by Mazars or

16 Whitley Penn, or by the international accountants.

17 Mr. Hawthorn was involved in this, and there was no issue

18 with these. I don't see any issue with that at all.

19 (Continued on the next page.)

20

21

22

23

24

25

Page 5165

Hawthorn - by Defendant - Direct (Robert)

1 MR. AMER: It is irrelevant to the case. We are

2 not challenging the financial statements that were

3 prepared and submitted by the borrowing entities on their

4 own behalf. We are challenging the Statements of

5 Financial Condition by the guarantor.

6 MR. ROBERT: Then what is your claim against the

7 individual defendants if it is not for the financial -- if

8 it is not for them entering into the loan agreements?

9 I am sorry, Judge.

10 THE COURT: Overruled. I believe they are

11 relevant. And we will save time just letting him go the

12 long way.

13 MR. ROBERT: Could I have the last question read

14 back, please?

15 THE COURT: Read back the last question, which

16 is a ways back.

17 MR. ROBERT: That's why I forgot it.

18 (Whereupon, the record was read back by the

19 court reporter.)

20 A Same as my role in the previous year, seeing that the

21 information was provided to the accounting firm so that they

22 could issue the report.

23 Q And were you involved in an audit of Trump Old Post

24 Office in 2017?

25 A Yes.

Page 5166

Hawthorn - by Defendant - Direct (Robert)

1 Q And what, if any, involvement did you have with

2 that -- withdrawn.

3 What was your role with regard to that?

4 A Same role as in 2016: Overseeing the audit, that the

5 audit firm got the information they required to issue their

6 report.

7 Q Were you -- what, if any, involvement did you have

8 with -- just trying to read this, Your Honor -- withdrawn.

9 In 2017, were you involved in an audit involving SLC

10 Turnberry Limited?

11 A Yes.

12 Q As well as an audit of Trump International Golf Club

13 Scotland Limited in 2017?

14 A Yes.

15 Q And what was your involvement, sir?

16 A Overseeing the audit from the client's side to see

17 that the audit firm got the information they needed to issue

18 the report.

19 Q Was there an audit that was done for the Doonbeg

20 properties in Ireland in 2017?

21 A Yes.

22 Q And how many audits were there?

23 A Two.

24 Q What was your involvement with those?

25 A Overseeing the audit engagement process to ensure the

Page 5167

Hawthorn - by Defendant - Direct (Robert)

1 audit firm got the information they needed to issue their

2 report.

3 Q Turning to 2018. Mr. Hawthorn, was there a

4 compilation prepared by Mazars for Trump Endeavor 12 LLC?

5 A Yes.

6 Q What, if any, involvement did you have with that?

7 A Overseeing that to see that the audit firm got the

8 information they required to issue their report.

9 Q And sir, was there a compilation report in 2018

10 prepared by Mazars for 401 North Wabash LLC?

11 A Yes.

12 THE COURT: Better, but still not there.

13 MR. ROBERT: What is the right pronunciation?

14 MR. KISE: He may need to listen to Johnny Cash

15 on the weekends to learn about Wabash.

16 THE WITNESS: I would pronounce it Wabash.

17 (wah-bash)

18 MR. AMER: Just to be clear, I am not against

19 Mr. Robert collapsing these questions into a single

20 question to deal with multiple years or multiple entities.

21 So, that wasn't -- I don't know that the long way means he

22 has to ask a separate question for each year.

23 THE COURT: Let me just try what I would do

24 here. I would just let it in as a demonstrative, as

25 demonstrative evidence after asking him whether his answer

Hawthorn - by Defendant - Direct (Robert) Page 5168

1 would be the same. You say it is irrelevant, so let's
 2 just let it in and move.
 3 MR. AMER: We are fine with that. That wasn't
 4 my issue.
 5 MR. ROBERT: If it is solely in for
 6 demonstrative purposes, there is nothing in the record
 7 that what is contained in here is exactly what he prepared
 8 and he was involved in the audits. If we are saying I can
 9 ask a generalized question and it goes in for -- that's
 10 why I sought to introduce this as a piece of evidence as
 11 opposed to as for demonstrative.
 12 THE COURT: I changed my mind. Let's do it your
 13 way. As long as plaintiff agrees and we can agree on some
 14 language that he would testify that he was aware -- I am
 15 not sure of the right word, of the -- all of the audits,
 16 compilations and anything else in here actually occurred.
 17 MR. AMER: That's fine with me. My only point
 18 was Mr. Robert could ask a question for the years 2018 to
 19 2021, were you involved in preparing the compilation for
 20 Trump Endeavor 12 LLC. And we would deal with all of
 21 those years in one question, instead of having to ask the
 22 same question for each year separately.
 23 MR. KISE: Perhaps Mr. Amer would want to do the
 24 direct and cross today and move it along to feel better?
 25 MR. AMER: I am just trying to be helpful,

Hawthorn - by Defendant - Direct (Robert) Page 5169

1 Mr. Kise.
 2 MR. KISE: I know you are. I just couldn't
 3 resist.
 4 THE COURT: I think I can just do this myself.
 5 Mr. Hawthorn, this is a chart that you prepared,
 6 correct?
 7 THE WITNESS: Yes, sir.
 8 THE COURT: And submitted it last night,
 9 apparently, to the plaintiffs. Or maybe you don't know
 10 that.
 11 MR. ROBERT: I can attest that that's right.
 12 THE COURT: Okay. And this list, I see, reviews
 13 audits and compilations of the entities listed on the
 14 left, for the years listed on the right; is that correct?
 15 THE WITNESS: Yes.
 16 THE COURT: And if you can summarize, what was
 17 your involvement in or knowledge of these various reports,
 18 I'll call them?
 19 THE WITNESS: So my knowledge is that there is
 20 an individual report for each one of those entries. So
 21 there is 116 sets of financial statements that are
 22 available to cite and to see for these demarcations here.
 23 THE COURT: And --
 24 THE WITNESS: Personally, I was involved from my
 25 2016 joining the company, thereafter. When I joined the

Hawthorn - by Defendant - Direct (Robert) Page 5170

1 company in 2016 my role required me to understand the
 2 history of these entities and therefore I was able to cite
 3 and see and review the years prior to my joining the
 4 company.
 5 THE COURT: And I am not asking if you read
 6 every line, but did you actually see either hard copy or
 7 digital copy each one of these 116 "reports," I'll call
 8 it?
 9 THE WITNESS: Yes.
 10 THE COURT: All right. It is in.
 11 (Whereupon, the document referred to was deemed
 12 marked for evidence as Defendant's Exhibit 1054 by
 13 the Court.)
 14 THE COURT: And I want to compliment the
 15 witness. He is the first one to really be able to stare
 16 at me and still have his voice picked up by the
 17 microphone. You are very good at that. It is a skill.
 18 All right. It is in evidence for the limited
 19 purposes. But if there is any further objection I'll
 20 reconsider.
 21 MR. AMER: That's fine, Your Honor, for the
 22 limited purposes.
 23 THE COURT: Okay.
 24 Q So with regard to Trump Endeavor 12 and 401 North
 25 Wabash, the reports listed in D-1054 were produced for purposes

Hawthorn - by Defendant - Direct (Robert) Page 5171

1 of loans that were procured, correct?
 2 A Correct.
 3 Q And what is your familiarity, if any, with the
 4 Chicago and Doral loans?
 5 A I am familiar that those entities named are the
 6 borrowers under those loans. I am familiar in my role of
 7 overseeing the hotel division -- I am familiar with the loan
 8 instrument. I had to read it. I had to understand it as part
 9 of my job function.
 10 Q And those two properties fall within your purview of
 11 your division, correct?
 12 A Correct, they are hotel properties.
 13 Q So I want to talk to you about the Chicago loan.
 14 Okay, sir?
 15 A Yes, sir.
 16 Q And when was the Chicago loan taken out,
 17 approximately?
 18 A My understanding is that the Chicago loan was taken
 19 out in June of 2014 with an original principal balance of
 20 \$69 million.
 21 Q And pursuant to the loan documents back in June of
 22 2014, was there a guaranty that was attached to it?
 23 A Yes, I believe there was.
 24 Q And what, if anything, do you know about that
 25 guaranty in terms of a net worth requirement?

Hawthorn - by Defendant - Direct (Robert) Page 5172

1 A My understanding is that the inception of the loan,
 2 which was in June of 2014, there was a 100 percent guaranty on
 3 the loan. And there was a requirement of a \$2.5 billion net
 4 worth at that point in time, June 2014.
 5 Q And Mr. Hawthorn, what, if anything, happened with
 6 regard to that loan in December of 2014, just about six months
 7 later?
 8 MR. AMER: Objection, lack of foundation.
 9 THE COURT: Sustained.
 10 But you can try to get a foundation, form a
 11 foundation.
 12 Q Mr. Hawthorn, did there come a time -- withdrawn.
 13 Was that loan for principal, interest or both?
 14 A It was a principal -- it was an interest-only loan.
 15 So therefore the requirement was to pay monthly interest. And
 16 the principal would mature at the maturity of the loan.
 17 Q Did there come a time when principal was reduced on
 18 that loan?
 19 A Yes.
 20 Q And when was that?
 21 A That was six months later, December 2014.
 22 Q And how much principal was paid down at that point?
 23 MR. AMER: This is the same foundation
 24 objection.
 25 THE COURT: Yeah. He wasn't working there, so.

Hawthorn - by Defendant - Direct (Robert) Page 5173

1 MR. ROBERT: He testified that he has reviewed
 2 the loan documents. He knows the loan documents. He is
 3 familiar with them because this is now one of his
 4 properties that he is overseeing and in charge of, so he
 5 knows what happened to the loan. And eventually we are
 6 going to get into what happened from 2016 on. And the
 7 loan documents are in evidence already.
 8 MR. AMER: Your Honor --
 9 THE COURT: Wouldn't this be hearsay?
 10 MR. ROBERT: No.
 11 THE COURT: Anyway, Mr. Amer?
 12 MR. AMER: I think if we have lengthier
 13 discussion on this line of questioning that probably
 14 requires us to excuse the witness, Your Honor.
 15 THE COURT: Okay. I'll ask you to step in the
 16 back.
 17 (Whereupon the witness stepped down from the
 18 stand and exited the courtroom.)
 19 THE COURT: Go ahead, Mr. Amer.
 20 MR. AMER: I haven't heard any foundation that
 21 would explain why this fact witness would have all of this
 22 knowledge about the loan servicing, which I understand was
 23 done through corporate accounting, which he didn't work
 24 in. And I am concerned that what is happening here is
 25 that we are turning a fact witness into an expert witness

Hawthorn - by Defendant - Direct (Robert) Page 5174

1 on the loans and what happened with the loans over the
 2 life of the loans. And there is no evidence in the record
 3 that this witness in his role that was circumscribed to
 4 the hotel division, would have had that type of
 5 responsibility or involvement in how the loans operated.
 6 So, and I think to turn this witness from a fact witness
 7 into an expert witness on the loans, is improper. He
 8 wasn't designated as an expert and it is, you know, not
 9 anything that was ever disclosed to us in the form of an
 10 expert report. So he shouldn't be allowed to become an
 11 expert in these loans.
 12 THE COURT: Well, Mr. Amer, I have a different
 13 take. I don't think he needs to be an expert to say a
 14 loan was paid off. But he wasn't there. So, to me it is
 15 hearsay.
 16 MR. ROBERT: Your Honor, this witness is going
 17 to be laying out certain facts. And we will have expert
 18 testimony from Mr. Unell later in the week, which is the
 19 banking expert that would be akin to an expert. But
 20 Mr. Hawthorn clearly would know what was paid and when it
 21 was paid, as his role, he was the CFO and now the COO of
 22 the hotel division. This loan was operational before it
 23 was paid off during his time as CFO and then COO. So he
 24 certainly would know what the term of the loan was, when
 25 payments were made to the loan; and what the implications

Hawthorn - by Defendant - Direct (Robert) Page 5175

1 of those payments were for the Trump Organization and for
 2 the guarantor. That is certainly something he would know.
 3 THE COURT: And when was this paid off?
 4 MR. ROBERT: Well, the original loan of 69
 5 million was reduced to 45 million in 2014. And then the
 6 loan was paid off in October of '23, just a couple of
 7 weeks ago.
 8 THE COURT: Well, how does he know what happened
 9 in 2014?
 10 MR. ROBERT: He is going to know that from the
 11 fact that he has reviewed the documents. And there is
 12 also an e-mail that I am about to introduce, which is
 13 between Emily Schroeder of Deutsche Bank and Jeff
 14 McConney, that confirms that this payment was made in
 15 December of -- in 2014.
 16 MR. AMER: That's the point. Right? They had
 17 Mr. McConney on the stand. He was in corporate
 18 accounting. He had a role to play with the loan. I
 19 haven't heard anything about this witness's job
 20 description that would suggest that he had anything other
 21 than a passing knowledge of the fact that these loans
 22 existed. But not that he had any responsibility for
 23 maintaining the loans or interacting with the bank
 24 personnel about these loans. So I think this is just
 25 having this witness review a bunch of documents so that he

Hawthorn - by Defendant - Direct (Robert) Page 5176

1 can testify about loans that he didn't have any
 2 responsibility for.
 3 THE COURT: Mr. Kise? You are standing so you
 4 are either leaving or you want to say something.
 5 MR. KISE: I am happy to go back to Florida,
 6 I'll tell you that. Do I need to speak? That's the next
 7 question, before I violate your first principle.
 8 THE COURT: Well, I want to split the baby.
 9 What happened in 2014 he wouldn't know if he says it was
 10 paid off later.
 11 But let me ask plaintiffs a direct question. Is
 12 there some doubt that this stuff happened? If yes, yes.
 13 But if not, why should we fight about it?
 14 MR. AMER: Because they are not getting it in
 15 through a witness who has any actual knowledge about what
 16 happened. If they want to put it in through a different
 17 witness, if they want to call Mr. Garten or somebody else
 18 who had a role. We can do this on a foundational basis.
 19 If you want to just see if they can lay the proper
 20 foundation based on questions about his role and
 21 responsibility, we could do it that way.
 22 MR. ROBERT: First --
 23 THE COURT: You are not answering my question.
 24 Is the -- do you doubt what he is saying, what he is going
 25 to say, that the loan was reduced and then paid off?

Hawthorn - by Defendant - Direct (Robert) Page 5177

1 MR. AMER: I think there are some things in the
 2 exhibits that we have seen that we are disputing.
 3 Particularly whether there was a continuing requirement
 4 for the guarantor to submit a certification, at least in
 5 the documents we have seen, that they sent us last night.
 6 There is going to be a dispute over that.
 7 MR. ROBERT: Whether --
 8 THE COURT: That can't be done in cross
 9 examination?
 10 MR. AMER: If the testimony is going to come in
 11 on that, it should come in through a witness who actually
 12 knows about it, not a witness who has just read a bunch of
 13 documents to, you know, come to testify today about it for
 14 the first time.
 15 THE COURT: Well then the cross-examining could
 16 be: How do you know? Oh, you don't really know.
 17 MR. AMER: Well, then --
 18 THE COURT: I am not telling you how to run your
 19 show, but.
 20 MR. AMER: I understand that. But there is a
 21 need for foundation. And that's a common objection, and
 22 there is a reason for it, Your Honor.
 23 THE COURT: Okay. Mr. Robert, can you deal with
 24 the objection?
 25 MR. ROBERT: Your Honor, I can lay a foundation

Hawthorn - by Defendant - Direct (Robert) Page 5178

1 through the witness. In his role as the CFO and COO he
 2 reviews loan documents; he is intimately involved; has
 3 intimate knowledge of the provisions of the loans.
 4 I was trying to be simple because Ms. Schroeder,
 5 who is testifying tomorrow, it is her e-mail, he can get
 6 it in through her. But it makes more sense to do it this
 7 way.
 8 I'll do whatever the Court wants.
 9 THE COURT: Lay a foundation.
 10 MR. ROBERT: Okay, fine.
 11 THE COURT: Let's get the witness back.
 12 MR. ROBERT: Thank you, Judge.
 13 (Whereupon the witness resumed the stand.)
 14 THE COURT: Welcome back.
 15 Okay. Next question.
 16 Q Mr. Hawthorn, in your combined role as CFO of the
 17 hotel group and now COO of the hotel group what, if any,
 18 involvement do you have in overseeing the Chicago loan?
 19 A So, I oversee the compliance of the loan in terms of
 20 the property level obligations. So, that includes the
 21 oversight of the compilation report that was submitted,
 22 oversight of the DSCR test that needs to be or had to be
 23 submitted; and also to ensure that the interest is paid on
 24 time. Because the borrower pays monthly interest to ensure
 25 that the loan is compliant with its terms.

Hawthorn - by Defendant - Direct (Robert) Page 5179

1 Q What is a DSCR test?
 2 A So that is the debt service coverage ratio test. It
 3 is a very common ratio that lenders put into loan agreements to
 4 help provide evidence that the borrower has sufficient cash
 5 flow or net operating income, sometimes is what it is called,
 6 to service the loan.
 7 Q And what, if anything, do you need to know about the
 8 loan documents themselves to be able to understand how to
 9 prepare a DSCR?
 10 A You need to understand definitions in the loan
 11 agreement, defined terms, how things are calculated. You need
 12 to understand provisions in the loan regarding financial
 13 reporting, and other compliance matters. As well as just the
 14 loan generally to understand how you can be compliant with your
 15 obligation as a borrower.
 16 Q Is one of the issues of the DSCR how much of the
 17 principal amount is still due to the bank?
 18 MR. AMER: Objection, leading.
 19 THE COURT: Sustained.
 20 Q What are some of the factors that you must look at to
 21 determine whether the DSCR is satisfied?
 22 A The DSCR is a periodic test. It is an annual test
 23 derived from the income statement of the loan. The revenues
 24 and expenses, which derives the net operating income, which is
 25 your numerator. And then the interest expense is the

<p>Hawthorn - by Defendant - Direct (Robert) Page 5180</p> <p>1 denominator. 2 Q Are you familiar in these loans of a concept known as 3 a step down? 4 A Yes. 5 Q What is a step down? 6 A A step down is a concept relating to the guaranty of 7 the loan, and the percentage of which the loan is guaranteed. 8 Q And what are the factors that go into the, in 9 particular, the Doral loan -- withdrawn. 10 What are the factors specific with the Chicago loan 11 that you need to understand to understand the step down 12 percentage? 13 A The step down percentage is effectively dependent on 14 the DSCR and/or another term called the loan-to-value or the 15 LTV, another acronym. 16 Q And this may sound very simplistic, sir, but the 17 loan-to-value, by definition you have to know how much of the 18 principal loan is still outstanding, correct? 19 MR. AMER: Objection, leading. 20 THE COURT: Sustained. 21 Q What are the factors you need to consider in 22 determining the LTV, sir? 23 A You need to know the principal of the loan. And we 24 don't determine the value, the bank would determine the value. 25 Q Those are the two factors necessary to determine the</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5182</p> <p>1 document that has been marked as D-1055 for 2 identification. 3 THE COURT: And six-minute warning. 4 MR. ROBERT: Thank you. 5 (Handing) 6 Q I ask the witness to take a look at the document for 7 a moment. 8 Putting the document to the side for a minute, going 9 back to the notion of a step down percentage; what is the 10 significance of that? 11 A It is the percentage of the loan principal that is 12 guaranteed by the guarantor. 13 Q And what, if anything, under the terms of this loan 14 happened to the guaranty in December of 2014? 15 MR. AMER: Objection, foundation. 16 THE COURT: Sustained. 17 Q Mr. Hawthorn, are there provisions in this loan that 18 speak of what happens to the guaranty as the principal amount 19 is reduced? 20 A Yes. 21 Q And what factors under the terms of the loan are 22 looked at in determining what happens to the guaranty? 23 A The principal, the DSCR and/or the LTV. 24 Q Is there some sort of formula that is then used? 25 A Yes.</p>
<p>Hawthorn - by Defendant - Direct (Robert) Page 5181</p> <p>1 LTV, correct? 2 A Correct. 3 Q So I am going to ask you again, sir, what, if 4 anything, happened in December of 2014 with regard to the 5 principal of this loan? 6 A So the principal was paid down. 7 MR. AMER: Objection, foundation grounds. 8 THE COURT: Sustained. 9 Q Were you -- did there come a time that you became 10 aware of what the principal amount of the loan was? 11 A Yes. 12 Q And what is the -- what was the principal amount of 13 the loan prior to October of 2023? 14 MR. AMER: Objection. Can we find out how he 15 became aware as part of the foundation? 16 THE COURT: Yes. Sustained. 17 Q Did you become aware of this, sir? 18 A It is in the financial statements that I prepare with 19 the accounting firm. 20 Q So, again, sir, in December of 2014, was there -- 21 what, if anything, happened with regard to the principal 22 balance of this loan? 23 A It was \$45 million. It was reduced from 69 million 24 to 45 million. 25 MR. ROBERT: I am going to show the witness a</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5183</p> <p>1 Q What is that formula, sir? 2 A The loan-to-value is the bank appraised value over 3 the principal. The DSCR is the net operating income over the 4 interest expense. 5 Q And did there come a time in 2014 that the guaranty 6 was changed on the Chicago loan? 7 MR. AMER: Objection, foundation. 8 THE COURT: Sustained. 9 Q What, if anything, are you aware of with regard to 10 the guaranty in or around December of 2014 as relates to the 11 Chicago loan? 12 MR. AMER: Objection, foundation. 13 THE COURT: What, if anything, are you aware of? 14 Sustained. 15 Q Was there -- withdrawn. 16 As a result of the payment of the \$15 million in 17 December of 2014, what, if anything -- what, if any effect, did 18 that have on the guaranty? 19 MR. AMER: Objection, foundation. 20 THE COURT: To the -- the actual payment? Is 21 that? 22 MR. AMER: To the affect on the guaranty of a 23 payment made two years before he started working for the 24 company. 25 THE COURT: If he knows the payment was made as</p>

Hawthorn - by Defendant - Direct (Robert) Page 5184

1 an accountant, well, I suppose --
2 MR. ROBERT: He is also the one doing the DSCR
3 test every month and looking at the loan-to-value ratio,
4 so he clearly knows this.
5 MR. KISE: Yes, Your Honor. All of this
6 foundation stuff seems to be dancing on the head of a pin.
7 Corporations only speak through appropriate individuals.
8 So if someone leaves the company, and a new person comes
9 in, and that new person has to learn what happened before
10 they got there, that doesn't mean everything that they now
11 know can't be -- they can't testify to. I mean, what if
12 the other person is dead? What if the other person who
13 left is no longer employed? So it is kind of, I don't
14 want to use the word, silly, but it is almost silly that a
15 person who is now the de facto CFO/COO that is in the role
16 in the company that would have to have this broad
17 understanding of what took place historically, can't
18 testify.
19 This man testified as the corporate
20 representative in their own deposition. He was the
21 designee. So I don't really understand all of this
22 foundational stuff. Just because someone in a corporation
23 wasn't there -- there were things that happened in the
24 corporation in the 1980s and 1990s, but as the person now
25 responsible for that, he would have to know that. And

Hawthorn - by Defendant - Direct (Robert) Page 5185

1 they can't be precluded from testifying because they
2 weren't actually present at the time, as long as they have
3 a sufficient basis of knowledge in their current role in
4 the company to testify about it.
5 And as Your Honor pointed out correctly, if they
6 want to explore the limits of that knowledge on cross
7 examination, then they can explore the limits of that
8 knowledge on cross examination. But to say that the
9 person in that role now can't testify because he wasn't
10 actually there, doesn't make any legal sense.
11 THE COURT: I think this is an interesting
12 philosophical issue. I tend to take a somewhat hard line
13 view on -- I think I have said this before -- witnesses,
14 either you are a fact witness or an expert witness. If
15 you are a fact witness, how do you know. Did you see it?
16 Did you hear it?
17 MR. KISE: Did you learn it though? He is not
18 an expert witness. He is not an expert witness because he
19 is testifying about factual matters that took place before
20 he joined the company. He is a fact witness for the
21 company. And if he learned it through reviewing
22 documents, reviewing things in his role that would
23 naturally encompass these issues, then there is just
24 really no reason to preclude his testimony based on
25 foundation simply because he wasn't physically at the

Hawthorn - by Defendant - Direct (Robert) Page 5186

1 company at the time. Any CFO or COO that takes over in a
2 role is going to have that limitation that they weren't
3 there prior to when they arrived. That doesn't mean they
4 can't testify with competence and knowledge about matters
5 within the ambit of their responsibilities.
6 THE COURT: I'll pick up on something you said.
7 What he learned. That's why plaintiff is entitled to ask
8 how did he learn it.
9 MR. KISE: How did he learn it, that's fair, and
10 they can ask that. How did he learn it. If they want to
11 question the --
12 THE COURT: Well --
13 MR. KISE: -- the limits of that, that's fine.
14 THE COURT: It is not just the cross examination
15 point. It is a foundation point.
16 MR. KISE: How did he learn? He reviewed the
17 documents.
18 MR. AMER: So.
19 MR. ROBERT: I think as the CFO --
20 MR. AMER: Excuse me. Excuse me. We are at a
21 point where I think the witness needs to be excused again,
22 or you want to take a break?
23 THE COURT: We will break for lunch and order
24 the witness not to discuss the case or his testimony
25 during the break.

Hawthorn - by Defendant - Direct (Robert) Page 5187

1 THE WITNESS: Yes, sir.
2 THE COURT: Okay. See you all at 11:45. Not
3 lunch.
4 MR. ROBERT: We knew what you meant, Judge.
5 THE COURT: It is called a sanity break.
6 (Pause in the proceeding.)

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5188

1 THE COURT OFFICER: All rise. Part 37 is back in
2 session. Please be seated and come to order.
3 THE COURT: I have to ask the witness to go in the
4 back for just another minute or two. I hope it's not so bad
5 back there. I spend half my day back there.
6 Where is your buddy.
7 MR. ROBERT: He went back to Florida, maybe.
8 THE COURT: Here's what I'm going to do. As I
9 often do, or sometimes do, I'll telegraph what I plan to do,
10 and you can argue strenuously if you really feel strongly.
11 MR. AMER: I did want a quick opportunity to
12 respond to Mr. Kise.
13 There were two things that Mr. Kise said that I
14 think need a response. One is, he referred to this witness
15 as the "de facto CFO" of the company. And I want to make
16 clear that I don't believe that is supported by the
17 testimony. I think he said his role was in the hotel
18 division, and, in fact, the corporate accounting department
19 has a new director of finance, whose name remains
20 undisclosed, but we'll get to that.
21 But the other thing that he said in terms of
22 foundation, I think is also unsupported. The witness -- and
23 this is really the crux of it. I think we are entitled to
24 the foundation for how this witness knows what happened to
25 the guaranty, the effect on the guaranty, based on some

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5189

1 payment made in 2014 before he was working there. And I
2 believe the witness has said that his foundation for that is
3 the preparation of financial statements in 2016 and later.
4 And I just don't understand how preparing a financial
5 statement would give him any knowledge of what the effect of
6 the payment was on the guaranty two years earlier.
7 So those are my two points, your Honor.
8 THE COURT: Well, here's what I plan to do. I'll
9 just repeat, you are either a fact witness or you are an
10 expert witness. He's not an expert. He's a fact witness,
11 so what did he see? What did he hear?
12 I'll see to Mr. Amer's point, and we'll ask the
13 foundation of his knowledge, if there's a question that is
14 not obvious that he would know. If he says, as I expect may
15 be, well, I saw a document. I saw a receipt. You know, I
16 saw it on the screen. Um, I'll let him say that, but I'm
17 the Judge, and whether the document -- the record is
18 reliable, and whether I believe he actually saw it. And
19 that will be enough foundation for him to say it, but I'll
20 decide what it means in the long run.
21 Mr. Amer, is that -- and Mr. Robert, any comments?
22 MR. ROBERT: I don't have a problem with that at
23 all.
24 MR. AMER: I think --
25 THE COURT: You don't have a problem?

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5190

1 MR. ROBERT: No, sir. It's fair game.
2 THE COURT: Mr. Amer?
3 MR. WALLACE: I think if he is going to rely on a
4 document or a function that he performed, then the dots need
5 to be connected. He can't just say he relies on a document
6 if the document actually doesn't shed light on what it is he
7 is about to testify to.
8 MR. ROBERT: So two things, your Honor. Well --
9 THE COURT: Maybe you should quit while you are
10 ahead.
11 MR. ROBERT: Sounds like a good idea. That's why
12 I'm stopping.
13 THE COURT: Which is another way of saying, rule
14 number one.
15 All right. Let's get the witness again.
16 MR. ROBERT: Yes, sir.
17 (Whereupon, the witness stepped into the witness
18 stand.)
19 MR. ROBERT: May I proceed?
20 THE COURT: Please.
21 Q Mr. Hawthorn, how did you come to the knowledge that in
22 December of 2014, a \$15 million payment was made toward
23 principal on the Chicago loan?
24 A The balance of 45 million is stated in the financial
25 statements for that year that I've reviewed.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5191

1 Q And why -- what exactly do you review in the financial
2 statements that led you to see that?
3 A The balance sheet.
4 Q Is the balance sheet something that you review every
5 year?
6 A Yes.
7 Q And you started that practice in 2016?
8 A Yes.
9 Q And when you assumed your role in 2016, had you looked
10 at the balance sheet for prior years?
11 A Yes.
12 Q How many years back did you look at those, if you
13 remember?
14 A As far back as I needed to to understand the history of
15 the entity.
16 Q Would that certainly include 2014 and 2015?
17 A Yes.
18 Q And sir, so the testimony is clear, it is from that
19 review that you know that the \$15 million payment was made;
20 correct?
21 A Correct.
22 Q Okay.
23 I'm going to draw -- and, sir, in addition to knowing
24 that the payment was made, how, if in any way in your
25 preparation of the financials, are you concerned about what

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5192

1 effect the guaranty has on that loan?
2 MR. AMER: Objection. Leading.
3 THE COURT: Can you read it back.
4 (Whereupon, the requested question was read back by
5 the court reporter.)
6 THE COURT: Well, it's convoluted, but if you could
7 answer, I'll allow it.
8 A I understand that the guaranty is linked to the
9 stepdown percentage in the loan agreement.
10 Q And why would that matter to you in your role as CFO
11 and COO of the hotel group, with regard to this loan?
12 A Because I oversee the hotel portfolio and I oversee all
13 aspects relating to hotel assets.
14 Q But more specific than that, is there a financial
15 reason in your role as to why you would want to know whether the
16 guaranty was in effect or not?
17 MR. AMER: Objection. Leading.
18 THE COURT: Leading.
19 Q What do you want to understand with regard to the loans
20 that are -- withdrawn.
21 Part of your role is to oversee the loans for the
22 properties in your division; correct?
23 A Yes.
24 Q And what are the factors that you look at when
25 determining -- withdrawn.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5193

1 What do you want to know about those loans?
2 A I want to know everything about them so I could
3 understand them to do my job.
4 Q I can't ask you a leading question, so what would that
5 include?
6 A That would include terms and conditions of the loan, it
7 would include the principal balance, it would include interest
8 rates, it would include any guarantee provisions and anything
9 contained therein that we, as a company, need to be compliant
10 with.
11 Q Now, you just focused on the guarantee provisions. Why
12 would you want to know about the guarantee provisions?
13 A To have an understanding of the loan and the
14 obligations of borrower.
15 Q The examples that you just gave, did you do that
16 process with regard to the Chicago loan?
17 A I did.
18 Q And did you do that process when you took over your
19 role in 2016?
20 A I did.
21 Q And could you do this every subsequent year with regard
22 to this loan?
23 A Yes.
24 Q And sir, after this payment was made in December of
25 2014, what was your understanding as to the effect of the

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5194

1 guaranty?
2 A My understanding is that in connection with the
3 principal reduction, that the stepdown percentage, effectively
4 the guaranty percentage, was reduced to zero.
5 Q And do you know if The Trump Organization received
6 confirmation from anyone about that fact?
7 MR. AMER: Objection. Lack of foundation.
8 We are talking about 2014 now, right?
9 MR. ROBERT: Right. So I'm asking him if he knows
10 in or around 2014, or '15, whether The Trump Organization
11 had confirmation of that from anyone other than you.
12 MR. AMER: Lack of foundation.
13 THE COURT: I think that is a foundational
14 question.
15 MR. ROBERT: Yeah.
16 THE COURT: Overruled.
17 A So I reviewed correspondence with the lender and the
18 company's representatives about the matter.
19 Q And in front of you has been presented Defendant's
20 Exhibit 1055. Is this one of the documents that you reviewed?
21 A Yes.
22 Q What is this document?
23 A This is an e-mail from Deutsche Bank to Jeff McConney
24 in 2015.
25 Q Let's go to the bottom of it and work our way up.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5195

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q What do you see occurring on January 21st, 2015, at
4 12:12 p.m?
5 MR. AMER: I'm going to object, your Honor. This
6 is a witness just reading a document that was sent before he
7 worked for the company. How is this appropriate?
8 THE COURT: Sustained.
9 MR. ROBERT: Your Honor, if I may, first of all, I
10 spent hours listening to having the Attorney General have
11 people read from e-mails.
12 Secondly, this is one of the documents --
13 THE COURT: But, well, a lot of those e-mails they
14 sent, they received, they were there at the time, had
15 independent confirmation.
16 MR. ROBERT: Your Honor, this witness said this was
17 one of the e-mails he reviewed in coming to his assessment.
18 I think the e-mail comes into evidence because it's a
19 corporate record, but nonetheless, I'll introduce it subject
20 to connection, because Ms. Schroeder is going to be here
21 tomorrow or Wednesday -- I'm not sure what day she is
22 testifying -- and say she sent this e-mail exchange to
23 Mr. McConney. The e-mail is coming in whether we do it
24 today, tomorrow or subject to connection, but it's coming
25 in.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5196

1 THE COURT: Why should it come in with this
 2 witness?
 3 MR. ROBERT: Because he claims that this is one of
 4 the documents that he used to confirm his knowledge that
 5 Deutsche Bank agreed with his assessment that the guaranty
 6 was no longer in existence once there was the pay down.
 7 THE COURT: That satisfied Engoron's two prong
 8 test.
 9 Overruled. I'm changing my mind, overruled.
 10 MR. ROBERT: So we then have 1055 in evidence,
 11 correct, sir?
 12 THE COURT: I'm sorry?
 13 MR. ROBERT: D-1055 is in evidence, correct?
 14 THE COURT: You didn't move it into evidence
 15 before. You were just asking him to --
 16 MR. ROBERT: Okay. I'll refer and just go through
 17 the questions and move it in afterwards, subject to
 18 connection, if you want, for tomorrow.
 19 THE COURT: Let's do that.
 20 MR. ROBERT: If I could have the question read
 21 back, please.
 22 THE COURT: Please.
 23 (Whereupon, the requested question was read back by
 24 the court reporter.)
 25 A I see an e-mail inquiry to Jeffrey McConney, to Emily

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5197

1 Schroeder, inquiring that the loan is now paid down to 45
 2 million and that the DJT guaranty is gone.
 3 Q And do you see a response to that e-mail on the earlier
 4 page?
 5 (Whereupon, the exhibit was displayed on the
 6 screen.)
 7 Q
 8 A I do.
 9 Q And what is Ms. Schroeder's response?
 10 A Her response is "confirmed."
 11 Q Let's go in between, Mr. Hawthorn. It starts at the
 12 bottom of the page.
 13 A Her response is, "I'm pretty sure you are correct. I
 14 just want to take a quick look at the docs and will get back to
 15 you to it confirm."
 16 Q Does Mr. McConney respond to that on January 21st about
 17 an hour and change later?
 18 A He does. He says, "Thanks, Emily."
 19 Q And does Ms. Schroeder respond to him a half hour
 20 later?
 21 A She does.
 22 Q What did she say?
 23 A She says, "Confirmed, Jeff. Once the loan is at 45
 24 million or below, the LTV versus the appraised value of 133
 25 million is 34 percent, which is below the 35 percent threshold

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5198

1 for the required guaranty. Thus, Mr. Trump's guaranty burns
 2 down to zero percent."
 3 MR. ROBERT: Your Honor, I move Defendant's
 4 Exhibit 1055 into evidence.
 5 MR. AMER: No objection.
 6 THE COURT: It's in.
 7 (Defendant's Exhibit 1055 was admitted in
 8 evidence.)
 9 Q Mr. Hawthorn, what obligations, if any, did you
 10 understand The Trump Organization had from 2015 through August
 11 of 2020 with regard to this loan?
 12 A Um, I'm familiar with the borrower's reporting
 13 requirements, which included the issuance and the delivery of
 14 the compilation financial statements, as well as the DSCR test
 15 on an annual basis, accompanied with a compliance certificate
 16 certifying that the amounts presented to the lender were
 17 accurate.
 18 Q And these were presented every year, sir?
 19 A Yes, sir.
 20 MR. ROBERT: I'm not going to take him through each
 21 year, Judge.
 22 If we could slow the witness and the Court
 23 Defendant's Exhibit 1047, please, and cull it up on the
 24 screen.
 25 (Whereupon, the exhibit was displayed on the

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5199

1 screen.)
 2 MR. ROBERT: We also have a copy for the Attorney
 3 General.
 4 (The witness was handed the exhibit.)
 5 Q Mr. Hawthorn, you've been handed a document identified
 6 as Defendant's Exhibit 1047. What is this document?
 7 A This document is correspondence that I prepared and
 8 submitted to Deutsche Bank in connection with the annual
 9 compliance testing.
 10 Q Who is Joshua Frank, sir?
 11 A Joshua Frank is a representative of Deutsche Bank. He
 12 was my primary contact at the bank when dealing with any matters
 13 relating to this loan.
 14 Q And what do we find on the page identified as 1047-2,
 15 and 3, and 4?
 16 A So attached to my cover letter, which is dash one, dash
 17 two is the annual compliance certificate of 401 North Wabash
 18 Venture, LLC for the 2018 year.
 19 Q And the rest of the document D1047-five through
 20 D-1047-12?
 21 A Those are the accompanying financial statements, the
 22 actual issued compilation statements of the entity for the year
 23 2018.
 24 Q And this is the package that you sent to Mr. Frank on
 25 April 30th, 2019?

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5200

1 A Correct.
2 MR. ROBERT: Your Honor, I move Defendant's
3 Exhibit 1047 into evidence.
4 MR. AMER: No objection.
5 THE COURT: Granted. It's in.
6 Q Drawing your attention to page two of that, which would
7 be 1047-2, 3 and 4, what, if any, involvement did you have in
8 the preparation of the compliance certificate?
9 A I prepared it.
10 Q And what did you do to prepare that certificate, sir,
11 specifically?
12 A I had to review the 2018 issued financial statements
13 and the numbers therein. I had to also compute the DSCR for the
14 period. And then I had to list out those amounts on this
15 certificate for visibility, and the computation of the DSCR for
16 that period.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q And what are we looking at on the top of D-1047? It's
20 actually the bottom of D-1047-2 onto the top of page three.
21 What are we looking at this there?
22 A Section two is a confirmation of the debt service
23 coverage ratios, the DSCR, and its components for that fiscal
24 year.
25 Q What are those components, sir?

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5201

1 A Those components are the operating income and operating
2 contributions over less operating expenses, and that amount
3 divided by the debt service expense for the period, coming to a
4 calculation of 2.384 for this period.
5 Q What, if any, significance is there to the 2.38?
6 A The 2.38 is compared to the threshold required in the
7 loan agreement. If you see in section two, it says that they
8 are required to maintain a DSCR of 1.25. So it's exceeding
9 that. And therefore, the ratio in this particular year is
10 complied with.
11 Q I'm then going to draw your attention to D1047-4.
12 A Okay.
13 Q Who signed this document?
14 A This was signed by Donald Trump, Jr., as president of
15 the 401 North Wabash Venture, LLC entity.
16 Q What, if any, involvement did you have in Mr. Trump
17 executing this agreement, referring to Mr. Donald Trump, Jr?
18 A I provided Donald Trump, Jr. this packet, noting that
19 it was complete, that the team, led by myself, prepared it; that
20 it was ready to be submitted so that he may sign the certificate
21 so it could be submitted.
22 Q And this was a conversation you would have had with
23 him; correct?
24 A Yes. Probably also documented in an e-mail.
25 Q Okay. And what are we looking at at D-1047-5 through

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5202

1 12?
2 A These are the compilation financial statements of this
3 entity for this fiscal year.
4 Q And these were required under the terms of the loan?
5 A Correct.
6 Q Okay. Thank you, sir.
7 I'm now going to ask the witness to look at what was
8 has been marked as Defendant's Exhibit 1051, and ask that it be
9 handed to the witness, the Court and Attorney General.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 (The witness was handed the exhibit.)
13 Q Mr. Hawthorn, you've been handed what's been marked as
14 Defendant's Exhibit 1051 for identification. Do you recognize
15 this document?
16 A Yes.
17 Q Mr. Hawthorn, what is this document?
18 A This is an e-mail from myself to Joshua Frank at
19 Deutsche Bank, with the same information that was shown
20 previously, but for this time it's the 2019 year.
21 Q And for saving time, attached to this is your cover
22 letter; correct?
23 A Correct.
24 Q And what is on pages three through five?
25 A It's the compliance certificate for the 2019 year.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5203

1 Q And what is at six through 14?
2 A It is the compilation financial statements for the 2019
3 year.
4 Q And sir, with regard to -- what, if any, involvement
5 did you have in the preparation of the compliance certificate?
6 A I prepared it.
7 Q Using the same method and procedure you just testified
8 about for the previous year?
9 A Correct.
10 Q What, if any, involvement did you have in Mr. Donald
11 Trump, Jr's. execution of this agreement?
12 A Similar to 2018 and every other year, I would advise
13 him that the work had been completed, that we were comfortable
14 with it being submitted, and we would present it to him for
15 signature so it could be sent duly to the lender.
16 MR. ROBERT: Your Honor, I move Defendant's
17 Exhibit 1051 into evidence.
18 MR. AMER: No objection.
19 THE COURT: Granted. It's in.
20 (Defendant's Exhibit 1051 was admitted in
21 evidence.)
22 Q Mr. Hawthorn, what, if anything, happened with regard
23 to this loan in August of 2020?
24 A August of 2020, we recall was during the COVID-19
25 pandemic. During that year, businesses such as hotels were shut

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5204

1 down and not able to conduct business. So that year was a year
2 where, on its face, we would not have met the DSCR requirement,
3 because the net operating income would not have exceeded the
4 interest expense for the period, although, the borrower
5 continued to make its monthly interest payments and was not in
6 default of any obligation. It was still able to make the
7 payments.
8 The calculation in and of itself was not meeting the
9 threshold because of a low economic environment, and people not
10 able to stay at the hotel.
11 Q What, if anything, happened with regard to this loan as
12 a result of that?
13 A What happened is if in this period you do not meet the
14 DSCR, the lender, at any time during the loan, has the
15 opportunity to do its own fair value assessment, doing an
16 appraisal of the loan to determine the loan to value. So the
17 fact that this DSCR was not met, it allows them the opportunity
18 to do that.
19 There's also, I guess, three prongs by which a DSCR can
20 -- if it's failed on its face, can be effectively remedied. One
21 is, the lender would commission an appraisal as I described.
22 The other is the lender could have the borrower post
23 collateral of a certain amount to satisfy the lender.
24 And the third is that the borrower can pay down the
25 loan to a certain amount to satisfy the lender per the terms of

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5205

1 the agreement.
2 MR. AMER: Your Honor, I'm going to move to strike
3 the answer. The question was what, if anything, happened
4 with regard to this loan as a result of that, "that" meaning
5 COVID. I don't think the answer responded to that.
6 MR. ROBERT: He's -- I'm sorry, your Honor.
7 THE COURT: Granted. The question was a lot
8 simpler than the answer.
9 THE WITNESS: Sorry.
10 THE COURT: These things happen.
11 Q With regard to this particular loan, did The Trump
12 Organization receive notice from Deutsche Bank?
13 A Yes.
14 Q And what did Deutsche Bank -- what was your
15 understanding as to what the Trump Organization -- withdrawn.
16 Did The Trump Organization DSCR fall below the
17 acceptable limit?
18 A Correct.
19 Q What, if any, options did the Trump Organization have
20 at that time with regard to this loan?
21 A They could either post collateral, pay down the loan,
22 or reinstate the stepdown percentage to an acceptable level,
23 which would have been ten percent at that point in time.
24 Q And what does that mean in practical terms for The
25 Trump Organization if they were going to increase the stepdown

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5206

1 at that point?
2 A So the stepdown percentage being the amount of loan
3 that's guaranteed, it basically means that the loan would then
4 be guaranteed no longer at zero percent, but it would be
5 guaranteed at ten percent. So in August of 2020, the loan would
6 then be guaranteed as 4.5 million.
7 In addition, the net worth requirement, which before
8 was zero of the guarantor, now goes to ten percent of
9 2.5 billion, the original amount, therefore, the net worth
10 requirement is 250 million.
11 Q Did The Trump Organization take Deutsche Bank up on the
12 offer to increase the stepdown basis to zero -- to ten percent?
13 A Yes.
14 Q And at the same time did Trump Organization agree to
15 have a minimum net worth of \$250 million?
16 A Yes.
17 MR. ROBERT: Your Honor, I would like to show the
18 witness Defendant's Exhibit 1050.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q Mr. Hawthorn, what do you recognize this document to
22 be?
23 A This is correspondence from Deutsche Bank to the
24 attention of the entity 401 North Wabash Venture.
25 Q And do you recognize the signatures on page three of

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5207

1 this letter?
2 A Yes.
3 Q Whose signatures are those?
4 A Donald Trump, Jr. and Eric Trump.
5 Q Could these signatures indicate this is the official
6 acceptance of that proposal with the increase of the stepdown
7 basis that you just referenced?
8 A Yes.
9 MR. ROBERT: Your Honor, I move Defendant's
10 Exhibit 1050 into evidence.
11 MR. AMER: For notice purposes or for more than
12 notice purposes.
13 MR. ROBERT: For the fact that the Trump
14 Organization did, in fact, agree to increase the stepdown
15 percentage, which had been zero, to 10 percent.
16 THE COURT: If that's all he wants it admitted for,
17 I'm fine with that.
18 Mr. Amer, do you agree?
19 MR. AMER: That's fine.
20 THE COURT: It's in for that purpose.
21 MR. ROBERT: Well, to be clear, it would be
22 everything contained in the paragraph that says, "This will
23 also confirm that" because that's what The Trump
24 Organization is confirming.
25 THE COURT: Well, they are saying "we confirm it."

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5208

1 MR. ROBERT: And then The Trump Organization,
2 signed by Eric Trump and Donald Trump, Jr. on behalf of the
3 corporate entity, are agreeing to that term.
4 THE COURT: Okay.
5 MR. AMER: Just so we are clear, it's coming in for
6 the acknowledgment and agreement that appears on the final
7 page that's signed by the Trump employees; is that right?
8 MR. ROBERT: Can I just read what you just said.
9 I'm going to read it from there.
10 (Whereupon, there is a brief pause in the
11 testimony.)
12 MR. ROBERT: Yeah, that The Trump Organization is
13 agreeing to what Deutsche Bank offered them, yes.
14 THE COURT: Okay. That's what it's in for.
15 Q What, if any, impact did this have, then, on the loan,
16 sir?
17 A So this increased the stepdown percentage or the
18 guaranty percentage from zero to 10 percent.
19 Q And again, as to the net worth?
20 A The net worth was now 250 million.
21 Q What, if anything, happened with regard to this loan a
22 year or so later in July of 2021?
23 A Performance since rebounded after the pandemic
24 subsided. Hotel guests were able to come to the hotel again.
25 So in the subsequent reporting, the DSCR test, because revenues

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5209

1 were able to rebound, the DSCR test was, um, met on the face.
2 Q And what, if any, impact did that have on the loan and
3 revival of the guaranty you just spoke of?
4 A At that point in time, then the company had the option
5 to take the stepdown percentage back down to zero and remove the
6 guaranty entirely again.
7 Q What, if anything, did The Trump Organization do with
8 that?
9 MR. AMER: I'm sorry. Again, I'll move to strike
10 the answer, because I think the question was what impact did
11 it have on the guaranty, and answer was the company had the
12 option to do something. But that doesn't respond to what
13 actually happened.
14 MR. ROBERT: I think it does, because he's
15 explaining, as a result of what they do with the guaranty
16 that affects the company's interest rate.
17 THE COURT: I understand Mr. Amer's point.
18 MR. ROBERT: Let me see the question and I'll ask
19 it again. Can I scroll this up?
20 (Whereupon, there is a brief pause in the
21 testimony.)
22 Q Let's break it down.
23 What, if any, impact did this development in the change
24 of the DSCR have in July of 2021 as to the loan itself? Not the
25 guaranty, just the loan.

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5210

1 A The interest rate increased.
2 Q And what, if any, impact did this new DSCR in July of
3 2021 have on the guaranty?
4 A The guaranty went away again.
5 Q And did The Trump Organization, in fact, allow the
6 guaranty to go away in July of 2021?
7 A Yes.
8 MR. AMER: Objection. Leading.
9 THE COURT: Sustained. Leading.
10 Q And what, if any, impact was -- what, if any, impact
11 was there on the guaranty in July of 2021 as a result of the
12 DSCR now being above the limit?
13 A The guaranty went away.
14 Q And what, if any, impact did the guaranty going away
15 have on the loan itself?
16 A No guaranty means no net worth requirement of the
17 guarantor.
18 Q And what, if any, impact did it have on the interest
19 rate?
20 A It increased the interest rate 25 basis points.
21 Q Now, I would like to show the witness what's been
22 marked as Defendant's Exhibit 1046?
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 (The witness was handed the exhibit.)

M. Hawthorn - by Defense - Direct (Mr. Robert) Page 5211

1 Q Mr. Hawthorn, I've shown you what has been marked as
2 Defendant's Exhibit D-1046 for identification.
3 What do you recognize this document to be?
4 A This is an e-mail correspondence from myself to Julie
5 Brand, who, at the time, was the director of finance for the
6 Trump Chicago Hotel.
7 MR. ROBERT: Your Honor, I move Defendant's
8 Exhibit 1046 into evidence.
9 MR. AMER: No objection.
10 THE COURT: Granted. It's in.
11 (Defendant's Exhibit 1046 was admitted in
12 evidence.)
13 Q Mr. Hawthorn, if you could please read what you are
14 telling -- withdrawn.
15 Who is Ms. Brand again?
16 A She, at the time, was the director of finance for the
17 Trump Chicago Hotel.
18 Q And what, if any, role would the director of finance
19 have with regard to this loan?
20 A At the property level, the property is responsible for
21 paying the interest, the monthly interest from available cash
22 flows at the property, so she would receive the monthly invoice
23 of the loan every month.
24 Q And what did you exactly tell Ms. Brand in this e-mail,
25 if you could read it to the Court, please.

Page 5212

1 A I said, "Julie, FYI below, the good news for the
2 company is that the results allow for the partial guaranty to go
3 away. That means that the ten percent guaranty went to zero."
4 And then I say, "The not so good news for the hotel is
5 that the margin on the LIBOR interest rate now goes up by 25
6 basis points, from 1.75 to 2.0 percent, and you'll see that on
7 next month's invoice, and expect the monthly interest to be
8 slightly higher prospectively."
9 (Continued on the next page.)

25

Hawthorn - by Defendant - Direct (Robert) Page 5213

1 Q And Mr. Hawthorn, to your understanding, why is it
2 that the interest rate went up by 25 basis points at this time?
3 A Because the step down percentage was reduced from
4 10 percent to zero.
5 Q Is it your understanding from based on your review of
6 the loan documents and your review of the various financial
7 statements, that from the time the guaranty was voided in
8 December of 14 through August of 2020, that the Trump
9 Organization was required to send Statements of Financial
10 Condition to the bank?
11 MR. AMER: Objection, leading.
12 THE COURT: Sustained, leading.
13 Q What, if any, obligations of the loan that had
14 existed prior to December of 2014 were no longer in effect from
15 2014 to 2020, if any?
16 MR. AMER: Objection, foundation.
17 THE COURT: Can I ask for a readback.
18 (Whereupon, the record was read back by the
19 court reporter.)
20 THE COURT: Overruled, based on the totality of
21 his prior testimony.
22 A There is no requirement to submit guarantor
23 financials.
24 Q And sir, what, if anything, changed in August of 2020
25 with regard to the guarantor financials?

Hawthorn - by Defendant - Direct (Robert) Page 5214

1 A Because the step down percentage went back up to
2 10 percent, the requirement was reinstated to submit guarantor
3 financials.
4 Q And then with regard to that what, if anything,
5 happened in July of 2021?
6 A Because the step down percentage went back down to
7 zero percent, there is no longer a requirement to submit
8 guarantor financials.
9 Q And, sir, was this loan paid in full?
10 A Yes.
11 Q And when was this loan paid in full?
12 A October of 2023.
13 Q And, sir, what, if any, requirement was there with
14 regard to presenting the bank with a Statement of Financial
15 Condition for this loan from July of 2021 to the time the loan
16 was repaid in August of 2023?
17 A None.
18 MR. ROBERT: Your Honor, I would like to show
19 the witness what has been marked as DD-2, this time truly
20 a demonstrative piece of evidence. If we can show it to
21 the witness, the Court, and put it up on the screen,
22 please?
23 Do we have copies of it? Sorry, I am still old
24 school with the paper.
25 (Handing)

Hawthorn - by Defendant - Direct (Robert) Page 5215

1 Q Mr. Hawthorn, you have been handed what has been
2 marked as a demonstrative exhibit marked as DD-2; do you
3 recognize this document?
4 A Yes.
5 Q What is this document?
6 A This is a timeline of the loan and key events from
7 June 2014 through October 2023.
8 Q Did you prepare this document?
9 A I assisted with the preparation of it.
10 Q And does this document reflect the testimony you just
11 gave about when the SOFC was required by Deutsche Bank and when
12 it wasn't?
13 A Yes.
14 Q So according to this demonstrative piece of evidence
15 from December of 2014 through August of 2020, the SOFC was not
16 required, correct?
17 MR. AMER: Can we have some clarity on what
18 Statement of Financial Condition this is relating to?
19 Because we have this SFCs of the borrower entities; there
20 is also the guarantor SFC; so it is unclear what this is.
21 MR. ROBERT: I think it is a disingenuous
22 objection because this case is about the SOFC. But so the
23 record is clear, this is evidencing President Trump's
24 Statement of Financial Condition, which is the guarantor's
25 Statement of Financial Condition, which is the basis of

<p>Hawthorn - by Defendant - Direct (Robert) Page 5216</p> <p>1 the lawsuit that the Attorney General brought. That's 2 what this is referencing. 3 THE COURT: Well, now we know. So okay. 4 MR. AMER: Thank you. 5 MR. ROBERT: If I could have the last question 6 read back, please? 7 THE COURT: Please read back. 8 (Whereupon, the record was read back by the 9 court reporter.) 10 A Correct. 11 Q And sir, based on this demonstrative, the SOFC was 12 also not required from July of 2021 through August of 2023, 13 correct? 14 A Correct. 15 Q Okay. I want to now draw your attention to the Doral 16 loan. Okay, sir? 17 A Okay. 18 Q What, if any, involvement did you have in your role 19 as CFO/COO of the hotel unit with regard to the Doral loan? 20 A So in my role I am responsible for the oversight of 21 the hotel portfolio, including Doral, including the 22 understanding of the loan agreement, under which Doral is a 23 borrower, and understanding its terms. 24 I was also responsible for the preparation of the 25 annual financial statements, along with the accounting firm, to</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5218</p> <p>1 Q And do you know the principal amount of that loan, 2 sir? 3 A 125 million. 4 Q And, sir, do you have an understanding as to whether 5 there was guaranty associated with that loan? 6 A Yes. 7 Q And do you have an understanding as to what the terms 8 of that guaranty were back in June of 2012? 9 A My understanding is it was a 100 percent guaranty. 10 Q And anything with regard to a net worth requirement? 11 A My understanding is that the original loan at the 12 onset had a \$2.5 billion net worth provision. 13 Q What, if anything, happened with regard to this loan 14 in August of 2013? 15 A I understand that the loan had an amendment. 16 Q And what was the import of that amendment? 17 A The import of the amendment was to bring it to the 18 concept of the step down percentage, similar to Chicago, to 19 allow for a partial guaranty of the loan. 20 Q And that was in August of 2013? 21 A Yes. 22 Q And without going through everything, it is similar 23 in concept to what we just talked about with regard to Chicago? 24 A Yes. 25 Q And sir, what, if anything, happened with regard to</p>
<p>Hawthorn - by Defendant - Direct (Robert) Page 5217</p> <p>1 be submitted to the borrower. 2 And just like the Chicago loan, there is also a DSCR 3 annual test. 4 And also a step down percentage test. 5 So very similar document, very similar 6 responsibilities on my part in my role to understand the 7 document and to ensure our compliance with it. 8 Q And in your role of overseeing these various 9 financial statements and documents for the -- for Doral, did 10 you become familiar with the loan itself and the amount of the 11 loan? 12 A Yes. 13 Q And in that course of your work, did you also become 14 familiar with the terms and conditions of that loan? 15 A Yes. 16 Q And why would your knowledge of the terms and 17 conditions of that loan be important to do your job as CFO/COO 18 of the hotels? 19 A Again to understand the obligations of that 20 particular property, which falls under my responsibility. 21 Q Are you aware, sir, that there was a loan taken out 22 with Deutsche Bank for Doral? 23 A Yes. 24 Q And do you know approximately when that loan was? 25 A I believe it was in 2012.</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5219</p> <p>1 this loan in August of 2015? 2 A My understanding is that the step down percentage was 3 elected to be 10 percent. And that meant that the guarantors 4 guaranty is 10 percent of the loan balance. So effectively the 5 guarantor is guaranteeing 12.5 million of the loan at that 6 point in time, no longer 100 percent of the loan. And at the 7 same time because it is a 10 percent step down percentage, the 8 net worth requirement of the guarantor is 250 million at that 9 point in time. 10 Q And did that net worth requirement from August of 11 2015 of \$250 million change from then to the time the loan was 12 changed? 13 A It did not. It remained the same. 14 Q When was this loan paid in full, sir? 15 A The loan was repaid in May of 2022. 16 Q Going back to the period of August of 2015 and the 17 step down basis, what, if any, option was given to the Trump 18 Organization to exercise the step down basis? 19 A The company had the option to elect the step down 20 percentage to go all the way to zero percent because the LTV 21 was satisfied to allow that to occur. The company, however, 22 elected to keep the step down percentage at 10 percent at that 23 point in time. 24 Q Which then led to the \$250 million net worth 25 requirement and the 12 and a half million dollar guaranty</p>

Hawthorn - by Defendant - Direct (Robert) Page 5220

1 limit, correct?
2 A Correct.
3 Q And, sir, during the course of this loan what, if
4 any, requirements of reporting did the Trump Organization have,
5 or particularly Trump Endeavor 12?
6 A Trump Endeavor 12 had compilation financial
7 statements that were prepared annually every year, issued by
8 Mazars and then Whitley Penn. Those financial statements were
9 submitted to the borrower and also submitted along with a
10 compliance certificate and a DSCR calculation every year, just
11 like the Chicago loan we looked at previously.
12 THE COURT: Was the question what they did or
13 what they were obligated to do?
14 MR. ROBERT: First it is what they are obligated
15 to do. And now I am going to show documents that showed
16 what they did that were consistent.
17 THE COURT: He didn't answer what they were
18 obligated to do. He answered what they did.
19 Q The answer you just gave, what they were supposed to
20 do, did the Trump Organization, in fact, do that?
21 A Yes.
22 MR. ROBERT: Just give me a second. I want to
23 limit this to one year to make it faster.
24 Q And these financials were required to be provided
25 once a year, correct, sir?

Hawthorn - by Defendant - Direct (Robert) Page 5221

1 A Correct.
2 Q I would like to show the witness Exhibit D-1048.
3 (Handing)
4 MR. ROBERT: And I'll make the second year very
5 fast Judge, don't worry.
6 THE COURT: You read my mind.
7 MR. ROBERT: I try.
8 Q Mr. Hawthorn, I have handed you what has been marked
9 as Exhibit 1048 for identification. Do you recognize this
10 document?
11 A Yes.
12 Q What do you recognize this document to be?
13 A This is my correspondence to Joshua Frank at Deutsche
14 Bank relating to Trump Endeavor 12 LLC.
15 Q What is attached to the letter?
16 A Annual compliance certificates for the year 2018,
17 along with a calculation of the DSCR, along with the annual
18 financial statements of the entity.
19 Q And the -- what, if any, role did you have in the
20 preparation of the compliance certificate?
21 A I prepared it.
22 Q And the same steps that you testified about earlier
23 for the Chicago loan would apply to the Trump Endeavor 12 loan?
24 A Correct.
25 Q And the signatory on page D1048-4 is whose?

Hawthorn - by Defendant - Direct (Robert) Page 5222

1 A Donald Trump Jr.
2 Q And the process that you articulated earlier with how
3 you would present this to Mr. Trump Jr. for his execution with
4 regard to the Chicago property, would be the same as for this?
5 A Correct.
6 MR. ROBERT: Your Honor, I move Defendant's
7 Exhibit 1048 into evidence.
8 MR. AMER: No objection.
9 THE COURT: Granted, it is in.
10 (Whereupon, the document referred to was deemed
11 marked for evidence as Defendant's Exhibit 1048 by
12 the Court.)
13 MR. ROBERT: I would like to show the witness
14 what has been marked as Defendant's Exhibit 1052.
15 (Handing)
16 Q Mr. Hawthorn, what do you recognize Defendant's
17 Exhibit 1052 for identification to be?
18 A This is my correspondence to Deutsche Bank in a
19 similar fashion; but this time it is for the year 2019.
20 Q And this, again, has your letter attached as well as
21 the compliance certificate and the financial statement prepared
22 by Mazars, correct?
23 A Correct.
24 MR. ROBERT: I move Defendant's Exhibit 1052
25 into evidence.

Hawthorn - by Defendant - Direct (Robert) Page 5223

1 MR. AMER: No objection.
2 THE COURT: Granted, it is in.
3 (Whereupon, the document referred to was deemed
4 marked for evidence as Defendant's Exhibit 1052 by
5 the Court.)
6 Q And the same questions I asked you, sir. What was
7 your involvement in the preparation of the compliance
8 certificate?
9 A I prepared it.
10 Q And in the same manner as you earlier testified?
11 A Yes.
12 Q And this is signed by Donald Trump Jr. on behalf of
13 Trump Endeavor 12?
14 A Yes.
15 Q And the manner in which you present -- withdrawn.
16 Did you present this to him for signature?
17 A Yes, I did.
18 Q And the manner in which you presented it to him for
19 signature is the same as you testified to earlier?
20 A Yes.
21 MR. ROBERT: I would now like to show the
22 witness what has been marked for demonstrative purposes
23 Defendant's Exhibit DD-3.
24 Q And sir, while that is being handed up. When was the
25 Trump National Doral loan paid in full?

<p>Hawthorn - by Defendant - Direct (Robert) Page 5224</p> <p>1 A May of 2022. 2 (Handing) 3 Q And sir, this demonstrative exhibit DD-3, who 4 prepared this? 5 A I assisted with the preparation of it. 6 Q And reviewing this, is this consistent with your 7 testimony you gave earlier this morning with regard to this 8 timeline? 9 A Yes. 10 Q So from August of 2015 through May of 2022, the 11 guaranty was only 10 percent with a \$250 million net worth 12 requirement, correct? 13 A Correct. 14 Q Sir, another one of the properties in your division 15 is the Trump Old Post Office, correct? 16 A Correct. 17 Q And sir, the loan involving the Old Trump Post 18 Office, what, if any, involvement did you have with that loan? 19 (sic.) 20 A Similar to Chicago and Doral, I had to understand the 21 terms and conditions of the loan; I had to ensure that the 22 property level, borrower level information was provided to the 23 lender as required. 24 Q And what, if any, terms and conditions were there 25 that the Trump Organization needed to undertake with regard to</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5226</p> <p>1 Deutsche Bank relating to the Trump Old Post Office LLC loan. 2 And this is for the year -- this is for the 12 months ending 3 January 31, 2019. 4 Q And sir, there is a compliance certificate attached 5 to it? 6 A Yes. 7 Q And what, if any, involvement did you have in the 8 preparation of the compliance certificate? 9 A I prepared it. 10 Q Using the same methods that you talked about earlier? 11 A Yes. 12 Q And this is signed by Donald Trump Jr. on behalf of 13 Trump Old Post Office LLC? 14 A Yes. 15 Q Did you present this to Mr. Trump Jr. for signature? 16 A Yes. 17 Q Is the manner in which you did that the same as you 18 testified to earlier on the other documents? 19 A Yes. 20 Q What is the final document from Mazars attached to 21 this? 22 A This is the compilation financial statement for the 23 entity for the year ended -- for the 12 months ended 24 January 31, 2019. 25 MR. SUAREZ: Your Honor, I move Defendant's</p>
<p>Hawthorn - by Defendant - Direct (Robert) Page 5225</p> <p>1 that loan in terms of reporting? 2 A Annual financial statements to be submitted with a 3 compliance certificate similar to these other two loans; as 4 well as a DSCR calculation similar to these other two loans. 5 Q And sir, is that, in fact, what happened with regard 6 to this particular loan? 7 A Yes. 8 Q Now, a little earlier you testified that this 9 property had two certifications each year, correct? 10 A Yes. 11 Q I am going to take you through each one separately, 12 but I am going to start with the one in May of 2019. 13 MR. ROBERT: If we could show the witness 14 defense exhibit 1049? 15 And this time, Judge, I am only going to use one 16 year's worth. 17 (Handing) 18 Q Sir, this would be consistent with each year of the 19 loan, correct? 20 A Yes. 21 Q Okay. 22 Sir, you have been handed what has been marked as 23 Defendant's Exhibit 1049 for identification. What do you 24 recognize this document to be? 25 A This is my correspondence to Joshua Frank and</p>	<p>Hawthorn - by Defendant - Direct (Robert) Page 5227</p> <p>1 Exhibit 1049 into evidence. 2 MR. AMER: No objection. 3 THE COURT: Granted, it is in evidence. 4 (Whereupon, the document referred to was deemed 5 marked for evidence as Defendant's Exhibit 1049 by 6 the Court.) 7 Q Mr. Hawthorn, in a moment I am going to show you an 8 e-mail -- hold this -- hold this to the side for a moment. 9 MR. ROBERT: I would like to show the witness 10 Exhibit PX-497. We have copies of it. 11 Yes, Andy, I am actually using one of yours. 12 (Handing) 13 Q Mr. Hawthorn, do you recognize the document that has 14 been identified for identification as PX-497? 15 A Yes. 16 Q And what is this document, sir? 17 A This is my correspondence to Deutsche Bank for the 18 Trump Old Post Office LLC loan, and its reporting requirements 19 for the year ended August 31, 2019. 20 MR. ROBERT: I move Plaintiff's Exhibit 497 into 21 evidence. I don't think it has already been introduced. 22 MR. AMER: No objection. 23 THE COURT: Granted, it is in evidence. 24 (Whereupon, the document referred to was deemed 25 marked for evidence as Plaintiff's Exhibit 497 by the</p>

Hawthorn - by Defendant - Direct (Robert) Page 5228

1 Court.)

2 Q Mr. Hawthorn, before we look at the document itself

3 PX-497, what is the difference between these two, aside from

4 the date?

5 A Between the two Trump Old Post Office documents?

6 Q Correct. One being, one you send in May and one you

7 send in December?

8 A The one sent in December submits the annual audited

9 financial statements of the entity. This entity had a fiscal

10 year end of August 31, 2019. Attached to this submission were

11 the annual audited financial statements.

12 Q Okay. So, Defendant's Exhibit 1049, which I showed

13 you a few moments ago, that would be the same as the ones I

14 showed you for Chicago and the ones I showed you for Doral,

15 correct?

16 A They would include the DSCR provision. They would

17 not include or reattach the annual financial statements.

18 Q And they were also not audits that were attached to

19 those, correct?

20 A Correct. Those were compilations. This was an

21 audit.

22 Q Okay. So what was the requirement that -- withdrawn.

23 What was the reason why the Trump Organization

24 provided audited financials with this December 2019 exchange

25 with the bank?

Hawthorn - by Defendant - Direct (Robert) Page 5229

1 A In clarification with the lender, that I did

2 personally and with other representatives, we confirmed that

3 the DSCR testing period for this loan was on a 12-month ended

4 January 31, period. And therefore the DSCR was not computed

5 off of the annual financial statements which were on an

6 August 31, 2019, year. So we had to do two sets of financial

7 statements for compliance purposes, the audited financial

8 statements which were satisfying that requirement, the entities

9 on a fiscal year ending August. Then the DSCR was required to

10 be due on a 12-month January period. And again, only a

11 compilation was required.

12 Q And sir, how would you describe the difference, and I

13 know when we started the exam you gave us the difference

14 between an audit, a review and compilation, but specifically,

15 aside from you explaining that the dates are different, how did

16 this audit of Trump Old Post Office LLC differ from the

17 compilation that is provided earlier in the year?

18 A Well, you can see in the audit itself it has a full

19 set of footnotes. The work done by Mazars and the audit

20 opinion indicates it was an audit. So it was much more

21 detailed procedures for an audit. There was substantive

22 testing done of the entity. Whereas, a compilation is less

23 testing, more putting the numbers together in a document.

24 Q I am going to switch gears now. You can put that

25 aside. Thank you, Mr. Hawthorn. And talk to you about the

Hawthorn - by Defendant - Direct (Robert) Page 5230

1 monitor who has been put in place in the Trump Organization.

2 What, if any, involvement have you had with the monitor?

3 A I have had significant involvement with Judge Barbara

4 Jones, who is the appointed monitor that we work with

5 regularly.

6 Q When did you first come into contact with Judge

7 Jones?

8 A In November of 2022.

9 Q And what were the circumstances surrounding that

10 first meeting with her?

11 A She came to our offices with certain of her staff

12 members and therefore --

13 Q Let's break it down. Who was it that came with her,

14 if you remember?

15 A Members of her team. She is with a firm called

16 Bracewell, so there were representatives from Bracewell on her

17 team. And then on our side it was myself, it was Alan Garten

18 and I believe certain of our attorneys were present as well.

19 Q And what was discussed at that first meeting?

20 MR. AMER: I am going to object, Your Honor, to

21 hearsay, to the extent that it is going to include what

22 Judge Jones or any of her colleagues said to the Trump

23 Organization individuals.

24 MR. ROBERT: This is as good a time as any. We

25 are going to add Barbara Jones and Tom Kokakis to the

Hawthorn - by Defendant - Direct (Robert) Page 5231

1 witness list. I ask if we need a subpoena issued by the

2 Court or can just serve them with a subpoena, because

3 their testimony is crucial to the equitable relief you are

4 seeking. So we might as well clear that up as well.

5 MR. AMER: It doesn't relate to my objection.

6 MR. ROBERT: I'll rephrase the question.

7 But you raise a good point. We will need her

8 testimony. So we can handle that in the break, talk to

9 the Court about that.

10 MR. AMER: Again, I think the witness can say

11 what the Trump Organization employees told Judge Jones and

12 her staff, but I don't think it is appropriate to have

13 this witness relay what they were told, because that's

14 hearsay.

15 THE COURT: You want to make sure that I am not

16 arguing for you before you argue I see.

17 MR. KISE: Right.

18 THE COURT: I think -- I am surprised at the

19 objection. But why don't we see what the specific

20 questions are.

21 MR. AMER: I think the question I objected to

22 was: Tell us what was discussed. So it raises the issue,

23 Your Honor.

24 THE COURT: I don't think what was discussed

25 would be hearsay. What was discussed.

Hawthorn - by Defendant - Direct (Robert) Page 5232

1 You were there, right?
 2 Overruled.
 3 What was discussed? The topics, not the
 4 statements which we can then address.
 5 MR. AMER: As long as it is limited to the
 6 topics I don't have any problem.
 7 MR. ROBERT: Does the Attorney General have any
 8 objection to us calling Judge Jones or her colleagues to
 9 testify?
 10 MR. AMER: I am not going to be able to answer
 11 that right now. I have to discuss it with my colleagues.
 12 THE COURT: Okay. So what was discussed
 13 generally, not did Judge Jones say.
 14 A So, the November 2022 meeting was an introductory
 15 meeting. Judge Jones and her team were interested in learning
 16 about the company, its structure, its organization, and its key
 17 executives in place running the company, and how it runs today.
 18 So that was an introductory meeting that set in motion a very
 19 cooperative, transparent, regular partnership where myself, as
 20 one of the individuals on behalf of the company, meets
 21 regularly with Judge Jones and her team members.
 22 At the onset of the meeting it was clear that it
 23 would take some time for the monitor and their representatives
 24 to fully understand the depth and the complexity of the
 25 organization. So they did ask a lot of questions to understand

Hawthorn - by Defendant - Direct (Robert) Page 5233

1 the entity's structure, who does what in the organization, how
 2 process flows work. So it was definitely a significant
 3 undertaking on our side to make sure we were being fully
 4 compliant, answering all of their questions diligently,
 5 responding to inquiries and so forth.
 6 Q What was the matter -- withdrawn.
 7 Were requests for information made of you and the
 8 Trump Organization?
 9 A Yes.
 10 Q And how did you provide that information to the
 11 monitor -- withdrawn.
 12 Did the monitor request it be sent to her or to
 13 others?
 14 A As an administrative matter the monitor and their --
 15 her designees set up a data room that allowed for information
 16 that they requested to be provided to them in the format that
 17 they requested. The onset of the monitorship obviously was a
 18 lot of questions, again, to get an understanding of the company
 19 which is, you know, has a lot of entities and a lot of business
 20 components to it, and a lot of operating businesses.
 21 So, as they, meaning the monitor and their designees,
 22 asked questions, we would provide the information they
 23 requested. There would be a lot of follow-up questions. And
 24 through the course of since November 2022, we have gotten into
 25 a pretty good mutual understanding of what they require and how

Hawthorn - by Defendant - Direct (Robert) Page 5234

1 we respond to them timely and get them what they need.
 2 So, ongoing it has been very detailed. It has been
 3 very thorough. And you know, any and all questions that they
 4 ask we have been transparent and open and happy to assist them
 5 in whatever information they need.
 6 Q So you --
 7 MR. AMER: My only objection is to the phrase,
 8 mutual, good mutual understanding. I think that implies
 9 that it went both ways. He can certainly testify as to
 10 his understanding. But I don't think it is appropriate
 11 for him to testify about what Judge Jones and her staff
 12 had an understanding of.
 13 THE COURT: He wouldn't know what was in their
 14 mind.
 15 As long as I have you, Mr. Amer, I am assuming
 16 that Ms. Jones was there to ask questions and listen, not
 17 just say things. And anything she said was probably not
 18 going to be introduced to prove the truth of its contents
 19 here, so, that's why I found that a strange objection.
 20 MR. ROBERT: I would respectfully disagree.
 21 MR. AMER: Since I don't know what this witness
 22 will say about what Judge Jones may have said at the
 23 meeting, it is hard to know in advance whether it is just
 24 for notice purposes or not.
 25 But, in terms of my prior objection on good

Hawthorn - by Defendant - Direct (Robert) Page 5235

1 mutual understanding?
 2 THE COURT: Yes, sustained. I'll note for the
 3 record that the witness wouldn't know what was really in
 4 Judge Jones' mind. He might have heard hearsay, you
 5 people have been great.
 6 MR. ROBERT: On that point, yes, there was
 7 conversations. Judge Jones made observations and comments
 8 which I think are plainly relevant.
 9 I'll serve this as an opportunity to give notice
 10 under our order that we intend to call Judge Jones and Tom
 11 Kokakis in our case in our defense. We will work out the
 12 scheduling with the Attorney General and the Court.
 13 Q But in addition to that, are you aware of any request
 14 the monitor made of the Trump Organization that was not
 15 complied with?
 16 A No.
 17 Q Are you aware of whether the monitor found anything
 18 wrong in all of the months she has been looking at Trump
 19 Organization records?
 20 A No.
 21 Q Have you been advised that she uncovered any fraud at
 22 the Trump Organization?
 23 A No.
 24 Q Are you advised as to whether she uncovered anything
 25 improper?

Hawthorn - by Defendant - Direct (Robert) Page 5236

1 A We have had ongoing conversations and as they have
 2 asked questions they have delved more into questions. And so
 3 there have been certain observations they have highlighted to
 4 us to inquire more. We believe everything that they have
 5 deemed as an observation that we have responded to diligently,
 6 and you know, very adequately, that what they have observed we
 7 have a response for. But I would certainly say in my
 8 experience in all of the meetings and correspondence no one
 9 from that team has ever communicated to us that they have
 10 uncovered any fraud or irregularities.

11 MR. ROBERT: I have no further questions of this
 12 witness, Your Honor. Thank you.

13 THE COURT: I was just about to announce the
 14 five minute break. But Mr. Amer, do you want to start?
 15 Or whomever?

16 MR. AMER: I can start.

17 THE COURT: Yeah, let's. Five minutes are five
 18 minutes.

19 MR. ROBERT: I am willing to stipulate those
 20 five.

21 THE COURT: Let's start the cross examination.
 22 We have six minutes.

23 MR. AMER: Thank you, Your Honor.
 24
 25

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5238

1 Q And that's assurance to the client; correct?
 2 A Assurance to the reader of the financial statements.
 3 Q Is it also the lowest level of assurance for the client
 4 who retains the outside accounting firm?
 5 A It's lower than an audit, but in context it means the
 6 lowest level of assurance to the reader of the financial
 7 statements.
 8 Q Does that also indicate, though, to the client that
 9 what they are paying for is the lowest level of assurance among
 10 the three choices you outlined?
 11 A Yes.
 12 Q And you indicated that with a compilation. I think you
 13 said there's no substantive testing; is that right?
 14 A There's no testing of invoices and samples where an
 15 audit would have that type of thing.
 16 Q There's no testing of the financial figures in the
 17 compilation; correct?
 18 A There's observation and review and an understanding of
 19 what goes into the numbers. An auditor doing a compilation
 20 isn't just going to kind of cover their ears and eyes to what's
 21 happening, and seeing the numbers, but they are not going to
 22 pull underlying documents like an audit to verify that -- so
 23 like in an audit, for example, Mr. Amer, you would have an
 24 auditor test certain transactions by pulling source data,
 25 whereas in a compilation, the accounting firm would put together

Hawthorn - by Defendant - Cross (Amer) Page 5237

1 CROSS-EXAMINATION
 2 BY MR. AMER:
 3 Q Good afternoon, Mr. Hawthorn.
 4 A Good afternoon.
 5 Q I want to go through a number of comments you made
 6 during your direct to seek some clarification. You talked
 7 about compilation being the lowest level of assurance; do you
 8 recall that?
 9 A Yes.

1 the numbers, maybe do some analytical procedures to see how it
 2 all looks, and ask some questions. But it would definitely be
 3 less substantive procedures than an audit.
 4 Q Just to go back to my question, which was specific to
 5 testing in a compilation, there's no substantive testing of the
 6 figures; yes?
 7 A Generally speaking, yes.
 8 Q I'm correct, yes?
 9 A There's what I would call analytical procedures, but no
 10 testing of underlying documents.
 11 Q And you indicated that for the entities that you were
 12 responsible for, they had both compilations and audits; correct?
 13 A Correct.
 14 Q And am I correct that there was no reason why The Trump
 15 Organization could not have retained Mazars to do an audit of
 16 Donald J. Trump's financial statements as opposed to just a
 17 compilation; right?
 18 A I don't know.
 19 Q You don't know of any reason why they couldn't have
 20 hired Mazars to do an audit; right?
 21 A I don't know. It's not -- that wouldn't be my area,
 22 being in the hospitality division. So if you are asking a
 23 hypothetical --
 24 Q No, I'm asking, as you sit here today, you were aware
 25 of no reason why The Trump Organization could not have retained

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5240

1 Mazars to do an audit instead of a compilation; is that fair?
 2 A And I think I previously testified there is no
 3 requirement for an audit. So if the company -- if any private
 4 company doesn't have a requirement for an audit for some
 5 constituency like a lender or a government agency, there's
 6 really no need for an audit.
 7 Q Despite the fact --
 8 THE COURT: You are not answering the question. Am
 9 I correct, Mr. Amer? You agree?
 10 MR. AMER: Correct. I agree.
 11 THE COURT: But you are asking it in the negative.
 12 Why don't you ask it in the positive.
 13 Is there any reason -- and Mr. Amer, if you want to
 14 ask a different question, or whatever, is there any reason
 15 The Trump Organization could not have asked for an audit?
 16 THE WITNESS: I would just say, other than time and
 17 resources and the cost of it, no.
 18 THE COURT: Did I ask it in the negative? Sorry.
 19 Let me rephrase it. We are going to get the same answer.
 20 MR. AMER: It's harder than it looks.
 21 A The same answer, I think.
 22 THE COURT: Could The Trump Organization have asked
 23 for an audit if they were willing to pay for it?
 24 THE WITNESS: Yes.
 25 THE COURT: Okay. See, it's not so hard, Mr. Amer.

Proceedings Page 5242

1 properties that we own and/or manage. So the organization,
 2 as you may be familiar, owns commercial real estate,
 3 operates golf courses and has other holdings. So the hotel
 4 division operates specifically to the owned and managed
 5 hotels in the hotel portfolio."
 6 So in terms of what's within the hotel's division,
 7 that is just the owned and managed hotel portfolio; is that
 8 right?
 9 A Yes.
 10 Q And --
 11 THE COURT: If you want another few minutes, fine,
 12 or we could break now. It's up to you.
 13 MR. AMER: We could break now. That's fine.
 14 THE COURT: You're hungry. Okay. 2:15 as usual.
 15 And I'll direct the witness not to discuss the
 16 case, or his testimony, of course. You've heard that
 17 several times.
 18 (Whereupon, the case on trial was adjourned until
 19 2:15 for the luncheon recess.)
 20 * * * * *
 21 A F T E R N O O N S E S S I O N
 22 * * * * *
 23 THE COURT OFFICER: All rise. Part 37 is back in
 24 session. The Honorable Judge Arthur Engoron presiding.
 25 Please be seated and come to order.

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5241

1 MR. AMER: Took you two tries, so.
 2 Q And I want to ask you about your specific role at The
 3 Trump Organization. Am I correct that your current position is
 4 within the hotels division?
 5 A Correct.
 6 Q And you oversee the hotel brand operations and are the
 7 most senior executive person within the hotel division; correct?
 8 A Yes.
 9 Q And am I correct that your responsibilities as Chief
 10 Operating Officer of Trump Hotels is limited to the owned and
 11 managed hotels of the portfolio of the hotel division?
 12 A No.
 13 Q Can we go ahead and put up Mr. Hawthorn's trial
 14 testimony from last month? It's at lines 14 -- page 1417,
 15 starts at line 17?
 16 (Whereupon, the exhibit was displayed on the
 17 screen.)
 18 MR. AMER: Sixteen.
 19 Q "So are you the most senior executive person within the
 20 hotel's division at The Trump Organization?
 21 "ANSWER: Yes.
 22 "QUESTION: And can you just explain to us how the
 23 hotel's division fits within the overall corporate structure
 24 of The Trump Organization?
 25 "ANSWER: Everything related to the hotel

Proceedings Page 5243

1 THE COURT: I'm going to ask Mr. Amer to hold his
 2 horses for a few moments, but he could stand at the podium.
 3 I have considered defendant's late request to add
 4 Judge Barbara Jones and attorney Tom Kokakis of her staff to
 5 the witness list. I hereby preclude their testimony.
 6 Besides being untimely, defendant's request is inappropriate
 7 as Judge Jones and her staff are arms of the court, and you
 8 cannot question the Court in this matter.
 9 The independent monitor order stated that they are
 10 to report back to the Court via their reports, and the
 11 reports speak for themselves. I also do not want to create
 12 the possibility of any conflicts of interest of any kind.
 13 The last thing this case needs is to have Judge Jones need
 14 to step aside.
 15 Finally, I am not aware of a single instance in
 16 which a litigant asked to examine an independent monitor, or
 17 anything like an independent monitor, and I spent part of
 18 the lunch break researching the issue. I couldn't find any
 19 examples. And for sure I'm not aware of any court granting
 20 or allowing this.
 21 But I'll hear from the defendants if they have
 22 authority for their request.
 23 MR. KISE: We don't at this time, your Honor, but
 24 to the extent that we research the issue and decide to raise
 25 it, then we'll return to it.

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5244

1 MR. ROBERT: Will there be a formal order or will
2 you so order the transcript?
3 THE COURT: I would ask that you just so order the
4 transcript.
5 And yes, Mr. Kise, I would grant your request. If
6 you find some authority for the proposition, of course I'll
7 hear it.
8 MR. KISE: Thank you.
9 THE COURT: Okay. Let's get the witness back on
10 the witness stand.
11 (Whereupon, the witness stepped into the witness
12 stand.)
13 THE COURT: Mr. Amer, please continue.
14 MR. AMER: Thank you, your Honor.
15 Q We were discussing your role and responsibilities at
16 The Trump Organization. And I want to ask you a few more
17 questions to clarify what that role is.
18 Have you ever worked in the corporate accounting
19 department at Trump Tower, which is the department that
20 Mr. Weisselberg and Mr. McConney worked in?
21 A No.
22 Q Did you take over Mr. Weisselberg's responsibilities
23 that he had when he was CFO of the corporate accounting
24 department after he left the organization?
25 A Partially.

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5245

1 Q And is the partial point the responsibility that you
2 were asked to assist in in standardizing the accounting
3 methodology across various divisions?
4 A That's a good example.
5 Q What else, aside from that standardization project, do
6 you consider to be responsibility that Mr. Weisselberg had that
7 you now have?
8 A I would say just helpful guidance and accounting
9 knowledge to any arms of the business that are needing of
10 assistance.
11 Q Were you ever asked to provide helpful guidance and
12 accounting knowledge with respect to the preparation of Donald
13 J. Trump's Statement of Financial Condition?
14 A No.
15 MR. AMER: I would like to show you some trial
16 testimony from Donald Trump, Jr., just so we could further
17 clarify your role. It's page 3987 starting at line 13,
18 continuing onto the next page, line two.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 MR. AMER: So if we could get the rest of the
22 answer on the page on the screen.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q This is Donald Trump, Jr.'s trial testimony during his

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5246

1 direct examination by Mr. Robert:
2 "QUESTION: So when you testified a week ago, you
3 mentioned that Mark Hawthorn was the CFO of The Trump
4 Organization. Is that actually his official title?
5 "ANSWER: I think he's still chief financial
6 officer. He, he's assumed that role, I guess I just said,
7 sort of. So he is the, you know, the finance guy within
8 Trump, Trump world now and has taken on all those decisional
9 responsibilities. He is an actual CPA and does that. So it
10 may not -- again, we are not as -- not as big on title, but
11 he's functioning in that capacity, correct."
12 Are you functioning in the capacity as the chief
13 financial officer of The Trump Organization?
14 A No.
15 Q I think you mentioned that others are -- well, first of
16 all, do you oversee the corporate accounting department?
17 A No.
18 Q I think you mentioned that others are overseeing the
19 corporate accounting department in the wake of Mr. McConney and
20 Mr. Weisselberg leaving the company; correct?
21 A Yes.
22 Q And you mentioned Donna Kidder. Is she the assistant
23 controller now?
24 A Yes.
25 Q You also mentioned that there is now a director of

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5247

1 finance; is that right?
2 A Yes.
3 Q And what is that person's name?
4 A His name is Michael love chuck.
5 Q And when did he assume the position of director of
6 finance?
7 A He's been a director of finance at the company for over
8 20 years. He served as the director of finance for the Trump
9 International Hotel and Tower in New York, a hotel property.
10 Subsequently to that, he took on the same role for the
11 Trump International SoHo Hotel and the Trump International
12 Washington, D.C. Hotel when that hotel was sold in May of 2022.
13 He did not leave the company. He was able to use the
14 skills and expertise in the corporate accounting function as the
15 director of finance.
16 Q Is it your testimony that he is now functioning in the
17 capacity as the chief financial officer of The Trump
18 Organization?
19 A No.
20 Q Is there anyone else other than Ms. Kidder and Mr. Love
21 chuck, who is overseeing the corporate accounting department?
22 A ^ Splg Mr. Love chuck would be the highest individual
23 of financial expertise in that area.
24 Q I'm just trying to find out if there are any other
25 people?

<p>M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5248</p> <p>1 A There's a team, yes. 2 Q Who are they? 3 A They are the accounting staff for that team. 4 Q The same staff that was there before Mr. Weisselberg 5 left? 6 A Some yes, some are now. 7 Q Has any individual in the corporate accounting 8 department taken over in the capacity as the chief financial 9 officer of The Trump Organization? 10 A No. 11 Q And to the extent -- 12 MR. AMER: Can we put up Mr. Trump's testimony we 13 were just looking at. 14 (Whereupon, the exhibit was displayed on the 15 screen.) 16 Q And to the extent that Donald Trump, Jr.'s testimony 17 could be read to suggest that you are functioning in the 18 capacity of CFO of The Trump Organization, that would be 19 incorrect? 20 A There is no CFO of The Trump Organization. 21 Q And to the extent that his testimony could be read to 22 mean that you have taken on all of the decisional 23 responsibilities that Mr. Weisselberg had, his testimony would 24 be inaccurate; correct? 25 MR. ROBERT: Objection.</p>	<p>M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5250</p> <p>1 correct? 2 A Yes. 3 Q Were you ever asked by anyone within The Trump 4 Organization to assist with respect to any other engagement with 5 Ankura? 6 A No. 7 MR. AMER: Let's go ahead and put up D-1054. 8 (Whereupon, the exhibit was displayed on the 9 screen.) 10 (The witness was handed the exhibit.) 11 Q Do you recall you testified about this chart? 12 A Yes. 13 Q Correct? And I believe you said you prepared this 14 chart; is that right? 15 A Yes. 16 Q And with respect to the statements that predate your 17 arrival at The Trump Organization in 2016, am I correct that 18 your knowledge of those prior statements was based on your 19 review of those statements upon your arrival? 20 A Upon or thereafter. 21 Q Well, how far after? 22 A In the process of being subpoenaed for information, I 23 was part of the team that helps provide all of these documents, 24 as requested. And as a process of understanding and going 25 through the history of how these documents were prepared and</p>
<p>M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5249</p> <p>1 THE COURT: What's the objection? 2 MR. ROBERT: He's saying to the extent his 3 testimony could be interpreted that way. It's either the 4 testimony is or it isn't. This witness is not there to 5 extrapolate how one could interpret Mr. Trump, Jr.'s 6 testimony. 7 MR. AMER: I'll withdraw -- 8 THE COURT: Rephrase. 9 MR. AMER: -- and rephrase. 10 Q When Mr. Trump testified that you have taken on all 11 those decisional responsibilities of the CFO of The Trump 12 Organization, he was wrong; correct? 13 A I think the word "all" makes it incorrect. 14 Q And we spoke about the project to standardize across 15 the various divisions how the general ledgers are kept; correct? 16 A Yes. 17 Q Was that a project that you undertook with an outside 18 consulting firm named Ankura? 19 A No. 20 Q Were you involved in a project related to updating the 21 accounting processes with Ankura? 22 A The company engaged Ankura to assist with an evaluation 23 of the finance function so that areas of improvement could be 24 identified. 25 Q And that was something that you worked with Ankura on;</p>	<p>M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5251</p> <p>1 issued, I've seen all these documents. So we have an electronic 2 folder of keeping record of all of these individual statements. 3 Q Let me just clarify, because I want to zero in on when 4 you reviewed the statements from 2011 to 2015, did you review 5 those upon arriving at the organization in 2016 in order to be 6 able to perform your job functions? 7 A Certainly, yes, the ones related to the hotel division 8 that I was getting up to speed on. Certainly the other ones 9 relating to the commercial aspect, I didn't learn about until 10 much later. 11 Q So specifically let's identify those. The ones that 12 relate to commercial properties, that wouldn't have been -- that 13 aren't within the auspices of the hotel division, that's 40 Wall 14 Street, TIH Commercial, LLC, Trump Plaza and Trump Tower 15 Commercial; correct? 16 A Correct. 17 Q And is it the case, then, that the statements for those 18 entities from 2011 all the way through 2022 were not statements 19 you -- that you reviewed until you prepared to testify here at 20 this trial; is that right? 21 A Not exactly. 22 Q What is incorrect about that? 23 A In my role as being the liaison for the monitor, I'm 24 now copied on all correspondence of any financial documents 25 submitted to lenders. So in addition to all these annual</p>

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5252

1 statements for those properties, I'm also copied on quarterly
2 bank compliance statements, so that we made information flow
3 directly to the monitor.
4 So, for example, the 2021 audited statements of 40
5 Wall, TIHT Commercial, LLC, Trump Plaza, LLC, and Trump Tower
6 Commercial, LLC, I am copied on correspondence relating to
7 submission of those to lenders, including the 2021 financial
8 statements, because in my role as a liaison to the monitor, I
9 want to make sure we are encompassing any and all requests that
10 they need.
11 Q So we all understand the monitor was appointed in 2023,
12 okay?
13 A Incorrect. November of 2022.
14 THE COURT: I think it was 2022.
15 Q November of 2022. So just to be clear, you did not
16 review -- can we just refer to 40 Wall Street, TIH Commercial,
17 Trump Plaza, and Trump Tower Commercial as "the four commercial
18 properties"?
19 A Yes, sir.
20 Q Okay. So am I correct that you did not review any of
21 the statements on this chart for the four commercial properties
22 prior to November of 2022?
23 A That's fair.
24 Q And you had no involvement in preparing the statements
25 for the four commercial properties; correct?

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5253

1 A Correct.
2 Q You testified on direct that you were not aware of any
3 instance with respect to the preparation of the statements on
4 this chart where Mazars asked for information and didn't receive
5 it; is that right?
6 A Correct.
7 Q Okay.
8 But with respect to the four commercial properties,
9 since you weren't involved in the preparation of those
10 statements, is it fair to say you wouldn't know what Mazars
11 asked for or what was provided in response to those requests;
12 right?
13 A Yes, I was thinking about the hotel statements.
14 Q So your response to Mr. Robert's question with respect
15 to not knowing of any instance where Mazars asked for something
16 and didn't get it in return, it excluded the four commercial
17 property statements; right?
18 A That's fair.
19 Q And similarly, you had zero involvement in preparing
20 Donald J. Trump's Statement of Financial Condition; correct?
21 A Correct.
22 Q And so you would have no knowledge of any requests that
23 Mazars made during the course of the preparation of those
24 statements; right?
25 A Correct.

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5254

1 MR. AMER: Now let's go ahead and look at D-1055.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 (The witness was handed the exhibit.)
5 Q This is a series of e-mails that you testified about on
6 direct. Do you recall that?
7 A Yes.
8 Q Was the first time you saw this document in preparation
9 for testifying at this trial?
10 A Yes.
11 Q So this was not anything that you looked at when you
12 came -- when you were first employed back in 2016; right?
13 A This particular e-mail? I don't recall having looked
14 at it then.
15 Q And this was not anything that you saw in connection
16 with your role as liaison for the monitor; right?
17 A Correct.
18 Q And you'll see in Ms. Schroeder's e-mail, she mentions
19 in the last sentence, "Mr. Trump's guaranty burns down to 0."
20 Do you see that?
21 A Yes.
22 Q Is there anything in this document indicating that when
23 the guaranty burns down to zero, that means the guarantor is no
24 longer obligated to submit a compliance certificate attaching
25 the guarantor's Statement of Financial Condition?

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5255

1 A The e-mail does not say that.
2 MR. AMER: And if we look at demonstrative DD2.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q This is a document I believe you testified you assisted
6 in preparing; correct?
7 A Yes.
8 Q Were there others involved in its preparation?
9 A In-house counsel and myself. I drew it on a piece of
10 paper out of my mind, and they helped put it into a nice format.
11 Q Other than formatting, is the entirety of the contents
12 of this document something you prepared?
13 A Um, most of it.
14 Q Well, which part isn't?
15 A The dates, the key terms, just the timeline, right. I
16 could go back to the loan documents, understand the timeline of
17 the loan to help simplify for the explanation of the history of
18 this particular instrument.
19 Q Well, how about what's in red? Is that yours?
20 A Yes.
21 Q Okay. And what was the basis for your concluding that
22 the Donald J. Trump Statement of Financial Condition was not
23 required between December 2014 and August 2020?
24 A My understanding of the loan documents.
25 Q And was that also the basis for your understanding that

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5256

1 -- was that also the basis for your stating that Donald J.
2 Trump's Statement of Financial Condition was not required
3 between July 2021 and October 2023?
4 A Yes, the loan documents.
5 MR. AMER: Let's go ahead and look at a document
6 that we've marked as Plaintiff's Exhibit 503.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 MR. AMER: That's in evidence, actually.
10 (The witness was handed the exhibit.)
11 Q This is an e-mail from Joshua Frank at Deutsche Bank
12 that has a scan.
13 MR. AMER: And then if you look at the next page.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 Q You'll see that it's a May 10, 2016 compliance
17 certificate. Do you see that?
18 A Yes.
19 Q And this is a compliance certificate from the
20 guarantor, Donald J. Trump. Do you see that?
21 A I see it.
22 Q Have you seen this document before?
23 A No.
24 MR. AMER: Can we put the side by side with the
25 demonstrative chart that we were just looking at.

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5257

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q You'll see that this is a compliance certificate being
4 sent during the period of time where you've written in red in
5 this chart that the Statement of Financial Condition was not
6 required. Do you see that?
7 A Yes.
8 Q Were you aware, when you were preparing this chart,
9 that, in fact, The Trump Organization had submitted a compliance
10 certificate in May 2016 that attached the 2015 Statement of
11 Financial Condition for Donald J. Trump as guarantor?
12 A Yes.
13 Q So it's your understanding that despite your view that
14 there was no obligation to provide a compliance certificate,
15 that nevertheless, the company did submit a compliance
16 certificate?
17 A Correct.
18 MR. AMER: Let's go ahead and --
19 Q By the way, did you ask to see any of the compliance
20 certificates that had been submitted during the period where you
21 write in red that the statement was not required?
22 A I did not.
23 MR. AMER: Let's go ahead and show Plaintiff's
24 Exhibit 393 in evidence.
25 (Whereupon, the exhibit was displayed on the

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5258

1 screen.)
2 MR. AMER: Actually, if we could just flip through
3 until we get to the Chicago one.
4 (Whereupon, the exhibit displayed on the screen was
5 scrolled through.)
6 (The witness was handed the exhibit.)
7 MR. AMER: Go back to five.
8 Q Do you see, on page five, there is a compliance
9 certificate. And that's on the Chicago loan?
10 A Yes.
11 Q We could go back. You saw that it was in respect to
12 the three loans, that included Chicago; right?
13 A Mm-hmm.
14 Q Had you seen this document before preparing the chart?
15 A No.
16 Q And so this is a 2018 compliance certificate attaching
17 the 2018 Statement of Financial Condition. Do you see that?
18 A Yes.
19 Q And it's your understanding that this was submitted
20 notwithstanding your view that there was no obligation to do so;
21 is that right?
22 A Correct.
23 Q And let's look at one more.
24 MR. AMER: Plaintiff's Exhibit 502.
25 (Whereupon, the exhibit was displayed on the

M. Hawthorn - by Defense - Cross (Mr. Amer) Page 5259

1 screen.)
2 Q And this is a year later. This compliance certificate
3 also for the Chicago loan; correct?
4 A Yes.
5 Q Have you seen this before?
6 A No.
7 Q This is a compliance certificate that was submitted
8 attaching the 2019 Statement of Financial Condition for Donald
9 J. Trump as guarantor; right?
10 A Yes.
11 Q And it's your understanding that this was submitted
12 notwithstanding your view that there was no obligation to do so;
13 is that correct?
14 A Correct.
15 MR. AMER: Let's go ahead and mark as Plaintiff's
16 Exhibit 5 -- I'm sorry.
17 Your Honor, I'm not sure that 502 was admitted into
18 evidence, but if it hasn't been, I would ask that it be
19 admitted.
20 THE COURT: Granted. It's in.
21 (Plaintiff's Exhibit 502 was deemed marked and
22 admitted in evidence.)
23 MR. AMER: Let's go ahead and look at Plaintiff's
24 Exhibit 563.
25 (Whereupon, the exhibit was displayed on the

Page 5260

1 screen.)
 2 (The witness was handed the exhibit.)

1 THE COURT: Okay. Hold on.
 2 Mr. Kise?
 3 MR. KISE: Your Honor --
 4 MR. AMER: Do we need to excuse the witness if
 5 this is going to be a lengthy --
 6 MR. KISE: No. It is a quick question.
 7 Turnabout is fair play, I think is the phrase.
 8 What is the foundation about asking this witness
 9 for this document? It is hearsay and he is reading it
 10 into evidence between two individuals, neither of which is
 11 the witness. I don't know what the -- he is just reading
 12 it into evidence. It is hearsay. What is the purpose
 13 of --
 14 THE COURT: Well, we didn't let him finish and
 15 then ask questions.
 16 MR. KISE: Maybe we should excuse the witness
 17 then, because we kind of need to know what the question is
 18 before he reads the entire thing into evidence.
 19 MR. AMER: The witness has indicated he prepared
 20 a chart that says in this timeframe no Statement of
 21 Financial Condition was required to be submitted. And
 22 that's his view that there was no such obligation. This
 23 letter goes directly to that point, Your Honor.
 24 THE COURT: Objection overruled.
 25 MR. KISE: If he has never seen it before.

Hawthorn - by Defendant - Cross (Amer)

1 Q You will see, Mr. Hawthorn, that this is an e-mail
 2 from Gregory Candela to Adam Rosen dated September 23, 2022.
 3 Do you see that?
 4 A Yes, I see it.
 5 Q And this is during the period of time where you
 6 indicated in your chart in red that a Statement of Financial
 7 Condition is not required, right?
 8 A Correct.
 9 Q And this is -- the subject of this is the Chicago
 10 loan, correct?
 11 A Correct.
 12 Q I am going to read to you from this document. Have
 13 you seen this e-mail before?
 14 A No.
 15 Q "Adam, I write in response to your request,
 16 communicated to me on September 8, that in connection with the
 17 amended and restated guaranty of Donald J. Trump with respect
 18 to the outstanding loan by Deutsche Bank Trust Company Americas
 19 to 401 North Wabash Venture LLC, Deutsche Bank agree to accept,
 20 in lieu of the annual Statement of Financial Condition of the
 21 guarantor as of June 30, 2022, required by section 11(i)(A) of
 22 the guaranty to be delivered to Deutsche Bank by October 28,
 23 2022, a one-page spreadsheet that shows his material assets and
 24 liabilities, but does not show any valuations of real estate
 25 assets."

Page 5263

Hawthorn - by Defendant - Cross (Amer)

1 THE COURT: So?
 2 MR. KISE: Okay.
 3 THE COURT: Okay, overruled.
 4 If you want to continue reading, or whatever.
 5 MR. AMER: I do, just the next sentence.
 6 Q "The modified financial reporting you have proposed
 7 is not acceptable to Deutsche Bank."
 8 Do you see that?
 9 A I see it.
 10 Q Were you aware that there was a request made to
 11 excuse the Trump Organization from having to submit Donald J.
 12 Trump's annual Statement of Financial Condition as of June 30,
 13 2022 during the period where you wrote in your chart that no
 14 such obligation existed?
 15 A I was aware of a disagreement between the parties on
 16 the interpretation of the loan.
 17 Q Well, this is not a disagreement, this is a request
 18 that the bank accept something in lieu of the Statement of
 19 Financial Condition. And the bank says no, it is not
 20 acceptable. Right?
 21 MR. KISE: Your Honor, now he is testifying and
 22 arguing with the witness. The witness answered his
 23 question.
 24 MR. ROBERT: I am curious if Mr. Amer is going
 25 to show the response from Mr. Rosen to Mr. Candela. Which

Hawthorn - by Defendant - Cross (Amer) Page 5264

1 maybe is the next document to show the witness?
 2 MR. AMER: I am going to conduct my exam the way
 3 I am going to conduct it.
 4 MR. ROBERT: For completeness, I would think you
 5 want to respond.
 6 MR. AMER: You can do redirect.
 7 THE COURT: There is a little bit of testimony
 8 in your question. Can you rephrase?
 9 MR. AMER: The witness characterized this as a
 10 disagreement.
 11 Q Where in this letter do you see a disagreement?
 12 A Not in this e-mail.
 13 Q Okay. This e-mail is a rejection of a proposal,
 14 correct?
 15 A Yes.
 16 Q And at the bottom of this e-mail, if we could go down
 17 to the bottom, it says Deutsche Bank will not agree to waive or
 18 otherwise modify the guarantor's obligation to deliver to
 19 Deutsche Bank no later than October 28, 2022, his annual
 20 Statement of Financial Condition (as defined in the guaranty)
 21 as of June 30, 2022.
 22 Do you see that?
 23 A I see it.
 24 Q Were you aware in September 2022 that Deutsche Bank's
 25 view was that the guarantor had an obligation to deliver Donald

Hawthorn - by Defendant - Cross (Amer) Page 5265

1 J. Trump's Statement of Financial Condition?
 2 A Yes.
 3 Q And your view is that no such obligation existed; is
 4 that right?
 5 A Yes.
 6 Q And your view is based on the loan documentation that
 7 is the same documentation that Deutsche Bank is looking at when
 8 they write this e-mail, correct?
 9 A Yes.
 10 THE COURT: Well, he wouldn't necessarily know
 11 what Deutsche Bank was looking at. But I understand.
 12 Q It is the same loan documentation that Deutsche Bank
 13 had in its files. Right?
 14 THE COURT: He doesn't know what they looked at.
 15 But you could -- we will take the question to mean, did
 16 they have the same information that the witness looked at.
 17 And his answer is yes.
 18 THE WITNESS: I believe so, yes.
 19 MR. AMER: Your Honor, I move to admit
 20 Plaintiff's Exhibit 563.
 21 THE COURT: Granted, it is in.
 22 MR. ROBERT: Same objection.
 23 THE COURT: Overruled.
 24 (Whereupon, the document referred to was deemed
 25 marked for evidence as Plaintiff's Exhibit 563 by the

Hawthorn - by Defendant - Cross (Amer) Page 5266

1 Court reporter.)
 2 Q Let's go ahead and look at Plaintiff's Exhibit 562.
 3 THE COURT: Mr. Kise?
 4 MR. KISE: Your Honor, this e-mail that he is
 5 moving into evidence, the one between Candela and Rosen, I
 6 mean, it is one thing to question him about it for
 7 impeachment, but to move it into evidence substantively
 8 without any foundation, that's quite a different matter
 9 altogether. What is the foundation? This isn't between
 10 either of the recipients -- the recipient or the sender.
 11 And it is being offered to prove what, the truth of the
 12 matter asserted? It is a hearsay document.
 13 THE COURT: The credibility of the witness.
 14 MR. KISE: That's impeachment.
 15 THE COURT: The correctness of the witness.
 16 MR. KISE: That's impeachment, not substantive
 17 evidence. I don't see how this comes in as substantive
