 18 evidence. It is hearsay.
 19 MR. AMER: We can limit it for purposes of
 20 notice, Your Honor, to Adam Rosen of the Trump
 21 Organization.
 22 THE COURT: Admitted as evidence of notice?
 23 MR. AMER: Notice of the contents -- notice of
 24 the contents of the letter, the e-mail which is Deutsche
 25 Bank's position. Notice to Adam Rosen of Deutsche Bank's

Hawthorn - by Defendant - Cross (Amer) Page 5267

1 position that they were not accepting the proposal.
 2 THE COURT: Sounds good to me. Seems to be an
 3 important part of this case.
 4 MR. KISE: Notice of Deutsche Bank's position?
 5 THE COURT: Right.
 6 MR. KISE: Same objection.
 7 Q This is another e-mail from Mr. Candela to Mr. Rosen.
 8 This one dated a month later in October of 2022. This is still
 9 during the period of time where you have written in red that
 10 there was no obligation to submit a compliance certificate,
 11 correct?
 12 A Yes.
 13 Q Have you seen this e-mail before?
 14 A No.
 15 Q And in the second paragraph, which I'll just read to
 16 you, Mr. Candela writes to Mr. Rosen at the Trump Organization:
 17 Having considered the request, Deutsche Bank is
 18 willing to agree to extend the guarantor's time by which to
 19 deliver the three financial reports specified above by from
 20 October 28 to December 31 on the condition that:
 21 And then little (ii): The guarantor timely delivers
 22 his annual certificate of compliance required by section
 23 11(i)(D) of the guaranty by the due date of October 28.
 24 Do you see that?
 25 A Yes.

Hawthorn - by Defendant - Cross (Amer) Page 5268

1 Q Were you aware when you were preparing your chart
2 indicating there was no obligation for the guarantor to provide
3 a Statement of Financial Condition, that the bank's view was
4 that the extension -- that an extension would be granted to
5 December 31 on the condition that the guarantor timely delivers
6 his annual certificate of compliance?
7 A I am sorry, that was a long question, you lost me.
8 THE COURT: Do you want a readback?
9 MR. AMER: If I could get a readback.
10 THE COURT: Read back, please.
11 (Whereupon, the record was read back by the
12 court reporter.)
13 A I was probably not aware, no.
14 Q Would you agree that the bank's position as set forth
15 in this e-mail is inconsistent with your view that there was no
16 obligation to provide a Statement of Financial Condition for
17 the guarantor in this time period?
18 A Correct.
19 Q And if you look further down in this e-mail,
20 Mr. Candela writes: For your awareness and in considering the
21 request and proposing the agreement described above, Deutsche
22 Bank considered various factors, including but not limited to
23 the following:
24 And then I want to mention the second bullet, which
25 says:

Hawthorn - by Defendant - Cross (Amer) Page 5269

1 By operation of the guaranty, because the
2 loan-to-value ratio produced by last year's appraisal was less
3 than 35 percent, the step-down percentage of the guaranty is
4 currently zero percent.
5 Do you understand that to be a confirmation that the
6 guaranty has burned off?
7 A Correct.
8 Q And so notwithstanding the fact that the guaranty has
9 burned off, Deutsche Bank is still insisting that the guarantor
10 must deliver Donald J. Trump's Statement of Financial Condition
11 as part of a certificate of compliance, correct?
12 A That's what this e-mail says.
13 Q And the next bullet says:
14 Also by operation of the guaranty, because the
15 step-down percentage of the guaranty is currently zero percent,
16 the guarantor is not currently subject to a minimum net worth
17 requirement.
18 Do you see that?
19 A Yes.
20 Q And can we agree that notwithstanding the fact that
21 there is no minimum net worth requirement, Deutsche Bank is
22 still insisting that Donald J. Trump submit a certificate of
23 compliance with his Statement of Financial Condition?
24 A Yes.
25 Q So, would you agree that Deutsche Bank views the

Hawthorn - by Defendant - Cross (Amer) Page 5270

1 guarantor as being under an obligation to submit a certificate
2 of compliance with Donald J. Trump's Statement of Financial
3 Condition, notwithstanding the fact that the guaranty has
4 burned down to zero and there is no net worth requirement?
5 A I don't know if this is the only e-mail related to
6 the exchange, so I don't know if this was the final conclusion.
7 Again, there is likely responses from Mr. Rosen that iterate
8 our position as a company, so I can't say if this was the final
9 determination or not. This is just one e-mail.
10 Q Well, can we agree that based on this e-mail that is
11 what the bank's position is?
12 A As of the date of this e-mail and as of the time of
13 this e-mail, yes.
14 MR. AMER: Your Honor, I move to admit
15 Plaintiff's Exhibit 562 for notice purpose.
16 THE COURT: Granted, it is in.
17 (Whereupon, the document referred to was deemed
18 marked for evidence as Plaintiff's Exhibit 562 by the
19 Court.)
20 Q I want to show you Defendant's Exhibit 1047 which you
21 were asked about on direct.
22 I believe Mr. Hawthorn, your testimony was that you
23 prepared this compliance certificate, right?
24 A Yes.
25 Q And I think you said that in order to prepare this

Hawthorn - by Defendant - Cross (Amer) Page 5271

1 you had to review the borrowing entity's compilation statement
2 and the numbers in that statement; is that right?
3 A Yes.
4 Q And is that what you believe you were required to do
5 as the person preparing this compliance certificate?
6 A Yes.
7 Q And am I correct that you were never asked by anyone
8 to prepare the compliance certificate for any year for the
9 guarantor on the loans?
10 A Correct.
11 MR. AMER: Let's go ahead and pull up
12 demonstrative DD-3.
13 Q And this is a chart you prepared relating to the
14 Doral loan?
15 A Yes.
16 (Handing)
17 Q Did you receive any assistance preparing this, other
18 than assistance in formatting?
19 A Mostly my work.
20 Q Well, you say "mostly," is there work that isn't
21 yours?
22 A Um, no. Again, it was probably in consultation with
23 in-house counsel.
24 Q And am I correct that you are not suggesting on this
25 chart that there was ever a point in the life of this loan

Hawthorn - by Defendant - Cross (Amer) Page 5272

1 where the guarantor ceased to have an obligation to submit a
 2 compliance certificate with Mr. Trump's Statement of Financial
 3 Condition?
 4 A I am sorry, could you say it one more time?
 5 Q Sure. I'll rephrase it.
 6 Are you suggesting that there was ever a point in the
 7 life of this loan where the guarantor ceased to have an
 8 obligation to submit a compliance certificate attaching
 9 Mr. Trump's Statement of Financial Condition?
 10 A No, I am not suggesting that.
 11 Q Mr. Hawthorn, you also testified about your role in
 12 liaising with the monitor; do you recall that?
 13 A Yes.
 14 Q And you characterized the relationship with the
 15 monitor in various ways. I would like to share with you some
 16 portion of the Judge's summary judgment decision discussing the
 17 monitor's reporting, and ask you if you are familiar with it.
 18 MR. AMER: If we could pull up the Court's
 19 decision at page 33?
 20 Q First of all, have you read the Court's summary
 21 judgment decision in this case?
 22 A Not wholly, but the section you have there I am
 23 familiar with.
 24 Q And the decision states on August 3, 2023 Judge Jones
 25 reported as follows:

Hawthorn - by Defendant - Cross (Amer) Page 5273

1 Since my appointment, I have reviewed material,
 2 financial and accounting information submitted by the Trump
 3 Organization. As part of my review, I have made preliminary
 4 observations regarding certain current financial disclosures
 5 with respect to the Trump Organization's reporting of financial
 6 information.
 7 Specifically, I have observed that information
 8 regarding certain are material liabilities provided to
 9 lenders -- such as intercompany loans between or among Trust
 10 entities and Donald J. Trump, certain of the Trust's contingent
 11 liabilities, as well as refundable golf club membership
 12 deposits -- has been incomplete.
 13 Were you aware that Judge Jones had issued a report
 14 indicating that an aspect of the organization's reporting of
 15 financial information has been incomplete?
 16 A Yes, we are aware of this letter.
 17 Q I was asking more if you were aware of the specific
 18 statement conclusion that Judge Jones reached that certain
 19 reporting had been incomplete?
 20 A Yes.
 21 Q She goes on to -- Judge Jones goes on to say the
 22 Trust has also not consistently provided all required annual
 23 and quarterly certifications attesting to the accuracy of
 24 certain financial statements.
 25 Were you aware that Judge Jones reported that?

Hawthorn - by Defendant - Cross (Amer) Page 5274

1 A Yes.
 2 Q And she -- and Judge Jones finally states:
 3 In addition, annual audited financial statements for
 4 certain entities prepared by an external accounting firm list
 5 depreciation expenses. However, interim internally prepared
 6 financial statements provided to third parties for these same
 7 entities inconsistently report depreciation expenses.
 8 Were you aware that Judge Jones had identified such
 9 inconsistencies?
 10 A Yes.
 11 MR. AMER: That's all I have, Your Honor.
 12 THE COURT: Any redirect?
 13 MR. ROBERT: We have some, but we will need to
 14 print a few documents we would need to use. I ask if we
 15 can take our afternoon break a few minutes earlier and
 16 then resume.
 17 THE COURT: Okay. All right, 3:25.
 18 MR. ROBERT: Thank you, sir.
 19 (Pause in the proceedings.)
 20 COURT OFFICER: All rise. Part 37 is back in
 21 session. Please be seated and come to order.
 22 THE COURT: Can we discuss scheduling,
 23 particularly Friday of this week and next week, the
 24 following week.
 25 I'll ask defendants in the first instance what

Hawthorn - by Defendant - Cross (Amer) Page 5275

1 they are intending.
 2 MR. KISE: I think, Judge, the witnesses
 3 identified for this week will take us through Friday, the
 4 ones that we already have, the Deutsche Bank witnesses.
 5 THE COURT: Let's go over who they are so we are
 6 sure we are on the same page.
 7 MR. KISE: Williams, Sullivan, Pereless. Well,
 8 Mr. Birney will probably spill over until tomorrow, some
 9 tomorrow. And then we have, I think, Williams, Sullivan,
 10 Pereless, Bravlik and then Unell, who is the banking
 11 expert.
 12 We will start -- we may not be done with
 13 Ms. Bravlik until Thursday morning, so I think, you know,
 14 the plan anyway, is that Unell will take us through
 15 Friday.
 16 THE COURT: I'll turn the microphone over to my
 17 person who sits alongside of me.
 18 MS. GREENFIELD: Just in case, can we have
 19 another witness for Friday? Who were you planning to call
 20 next Monday? Can they be available just in case we finish
 21 that witness early?
 22 MR. KISE: So Mr. Chin is in another trial on
 23 Friday, who is called for Monday.
 24 MS. GREENFIELD: Who do we have for Monday?
 25 MR. KISE: Monday is Fred Chin.

Hawthorn - by Defendant - Cross (Amer) Page 5276

1 THE COURT: And you expect that to be an entire
2 day.
3 MR. KISE: That one, yes, he will be. And then
4 Moens, Schubin, on Tuesday.
5 MS. GREENFIELD: I am sorry, can you spell
6 those?
7 MR. KISE: M-O-E-N-S, Lawrence Moens.
8 And then John Schubin S-C-H-U-B-I-N.
9 And then he will continue over a little bit on
10 Wednesday. And then we will have Eric Trump on Wednesday
11 the 6th, either late morning or early afternoon. And then
12 Elie Bartov B-A-R-T-O-V will be the Thursday and over into
13 Friday.
14 MS. GREENFIELD: Okay. And then who else?
15 MR. KISE: And then the Monday will be President
16 Trump, the 11th, at least that's the plan. I don't have
17 final confirmation that's his schedule, but I think we can
18 make that work.
19 THE COURT: And that's your final witness?
20 MR. KISE: Right. So there may be, kind of like
21 we had with the plaintiff's case, there may be a little
22 gap between when Bartov is done and Trump takes the stand,
23 because I don't know that we can get him here on the 8th.
24 Fridays and Saturdays tend to be pretty challenging.
25 THE COURT: Okay.

Hawthorn - by Defendant - Redirect Page 5278

1 just to make sure we are not creating gaps on the
2 schedule.
3 THE COURT: Well, if that's all his testimony
4 would be, legality or the effect of the easements, I
5 suppose that would fall under the rule that there are no
6 legal experts allowed.
7 MR. WALLACE: I believe we briefed that in our
8 preliminary -- our motions, which were held in abeyance
9 pending people being free to reraise their objections
10 during trials. That's a note that we plan to reraise that
11 objection.
12 MR. KISE: We could potentially argue that this
13 Friday before Mr. Schubin takes the stand next week, and
14 that way we will know.
15 MR. WALLACE: That's fine from our perspective.
16 THE COURT: Fine.
17 So the redirect of current witness.
18 MR. ROBERT: Yes, Your Honor.
19 (Whereupon, the witness resumed the stand.)
20 THE COURT: Okay. Please proceed.
21 MR. ROBERT: Thank you, Your Honor.
22 Can you hear me?
23 THE COURT: Yes.
24 (Transcript continued on next page.)
25

Hawthorn - by Defendant - Cross (Amer) Page 5277

1 MR. ROBERT: Just so we are clear, if Mr. Birney
2 doesn't finish today, which he probably won't, we may have
3 to take a break with him and put him on after we are done
4 with the Deutsche Bank witnesses.
5 MS. GREENFIELD: I recall you said that last
6 week. We got that.
7 When do we know if there is going to be a
8 rebuttal?
9 MR. WALLACE: I believe we will know by the
10 middle of next week. We will update you on Friday if at
11 that point we think there is a need to bring back any
12 rebuttal witnesses, and if so who they would be. It will
13 be minimal at this point though, I think it is fair to
14 say.
15 MS. GREENFIELD: Okay. Thank you.
16 MR. WALLACE: I would just also note, I think we
17 will reraise our objections to Mr. Schubin's testimony.
18 He is an attorney who is going to testify about the legal
19 standards surrounding easements on the Mar-a-Lago
20 property. So we plan to renew an objection to his
21 testimony, since, in our view, that is a legal opinion and
22 is an improper basis for expert testimony.
23 I think we may have other objections to some of
24 the experts, but that one I think we would seek to exclude
25 Mr. Shubin at some point. And we can arrange that timing

Hawthorn - by Defendant - Redirect (Robert) Page 5279

1 REDIRECT EXAMINATION
2 BY MR. ROBERT:
3 Q Mr. Hawthorn, when Mr. Amer was questioning you he
4 asked you some questions regarding the analytical procedures
5 used for a compilation report; do you remember that?
6 A Yes.
7 Q And you testified that there was no testing involved,
8 correct?
9 A Yes.
10 Q What, if in any way, does GAAP affect the procedures
11 to follow for a compilation?
12 A GAAP is still to be followed and also complied with.
13 Q You were also asked a series of questions about the
14 loan for Chicago; do you remember that?
15 A Yes.
16 Q And Mr. Amer showed you some e-mails that set forth
17 Deutsche Bank's position; do you remember that?
18 A Yes.
19 Q After that exchange of e-mails in October of 2022,
20 did the Trump Organization ever submit a Statement of Financial
21 Condition to Deutsche Bank?
22 A No.
23 Q And did the bank ever send a default notice to the
24 Trump Organization after October of 2022?
25 A No.

Hawthorn - by Defendant - Redirect (Robert) Page 5280

1 Q And ultimately that loan was paid off, correct?
 2 A Correct.
 3 Q Mr. Amer also was questioning you about portions of
 4 Justice Engoron's summary judgment decision; do you remember
 5 that?
 6 A Yes.
 7 Q And specifically he was asking you questions related
 8 to Justice Engoron quoting from Barbara Jones' August 3, 2023
 9 letter; do you remember that?
 10 A Yes.
 11 MR. ROBERT: I would like to present to the
 12 witness Defendant's Exhibit 1057 for identification.
 13 (Handing)
 14 Q Mr. Hawthorn, what do you recognize this document to
 15 be?
 16 A This is a letter from Judge Jones on Bracewell
 17 letterhead updating the Court on the status of the monitorship.
 18 MR. ROBERT: Your Honor, I'll represent that
 19 this is filed on the public docket as NYSCEF 647. And I
 20 ask that this document be introduced into evidence as
 21 Defense Exhibit 1057.
 22 MR. AMER: No objection.
 23 THE COURT: Granted. It is in.
 24 (Whereupon, the document referred to was deemed
 25 marked for evidence as Defendant's Exhibit 1057 by

Hawthorn - by Defendant - Redirect (Robert) Page 5281

1 the Court.)
 2 Q Mr. Hawthorn, I am going to draw your attention to
 3 page two of this letter.
 4 MR. ROBERT: If you could put it up on the
 5 screen, Nate, as well?
 6 Q And I start by drawing your attention to the first
 7 paragraph. Do you see that, sir?
 8 A Yes.
 9 Q Let's go through the first paragraph. What does the
 10 first sentence says?
 11 A As noted above, since my appointment I have reviewed
 12 material, financial and accounting information submitted by the
 13 Trump Organization.
 14 Q Continue, sir.
 15 A As part of my review I have made preliminary
 16 observations regarding certain -- certain financial disclosures
 17 with respect to the Trump's organizations reporting of
 18 financial information.
 19 Q Continue.
 20 A Specifically, I have observed that information
 21 regarding certain material liabilities provided to lenders --
 22 such as intercompany loans between or among Trust entities and
 23 Donald J. Trump, certain of the Trust's contingent liabilities,
 24 as well as refundable golf club membership deposits -- has been
 25 incomplete.

Hawthorn - by Defendant - Redirect (Robert) Page 5282

1 Q Do you have an understanding of what Judge Jones is
 2 saying in that last sentence?
 3 A I do.
 4 Q What is that?
 5 A During the course of the monitorship, as I mentioned,
 6 we had a lot of discourse between the monitor of what they
 7 observed and what our response to those observations were. So,
 8 ten months into the monitorship we were advised by the
 9 monitor's representatives that they would be advising the Court
 10 of some updates. They provided to us in a meeting certain of
 11 those matters for discussion, with which we provided responses.
 12 Specifically to the matters that are raised here,
 13 that's what this is talking about.
 14 Q And, sir, was the information incomplete?
 15 A It is our view that it was not because of our
 16 response to the information. Specifically, for each point
 17 noted here, the observation of information regarding certain
 18 material provided to lenders, as you know the company no longer
 19 prepares a Statement of Financial Condition. It is not
 20 required by any lender. The company simply prepares a
 21 statement of assets, material assets and material liabilities
 22 to lenders. So one of the lenders, for example, today, that
 23 has the Doral loan, receives that information.
 24 Obviously because it is being provided to a lender it
 25 is provided to the monitor. And the monitor had some questions

Hawthorn - by Defendant - Redirect (Robert) Page 5283

1 about it. One of the questions arose relating to one of our
 2 Scotland entities. So if you remember, we have a hotel in
 3 Scotland, Trump Turnberry. We also have Trump Aberdeen. In
 4 connection with the monitor's also review of those financial
 5 statements, because they review all of the financial
 6 statements, they identified to us and had questions about what
 7 was disclosed in those financial statements about an
 8 intercompany loan to the Trust.
 9 Our response was, yes, that exists because the
 10 company upon purchasing the Trump Turnberry asset in 2014
 11 effectively loaned money to the Scotland entity, was set up as
 12 a shareholder loan, and therefore that entity owes back money
 13 to the Trust, to the parent entity.
 14 This is what is referred to as an intercompany loan.
 15 It is not a loan to a third party. It is not a loan that is
 16 callable accept by the owner of the loan, which is the same
 17 party.
 18 So, the monitor's observation to us was, your
 19 statement of liabilities doesn't include this loan. Why does
 20 it not?
 21 And our response was, well, if you are going to put
 22 the loan as a liability, you also have to put the asset, the
 23 receivable as well, because the Trust is owed that money from
 24 itself, effectively.
 25 They asked why was that information not included if

Hawthorn - by Defendant - Redirect (Robert) Page 5284

1 you are submitting this to lenders. And our response is, it is
 2 not something a lender would be concerned about because it is
 3 not to a third party, it is to yourself. So in our view the
 4 statement that we provided and continue to provide, is
 5 completely accurate and completely transparent.
 6 However, they had -- even though no lender had asked
 7 us to make a change about it, the monitor said, would you take
 8 our question under advisement and perhaps going forward you
 9 could make a footnote on the schedule identifying that this is
 10 an intercompany loan. So that's what this item is related to.
 11 It is simply a loan within the Trust, not owed to a third
 12 party.
 13 So for someone to say it is incomplete, we actually
 14 disagree with that because it is not something a lender would
 15 be interested in. It is not an obligation outside of yourself.
 16 If you are going to put a loan, you also have to put the
 17 receivable. We didn't think it made sense to gross up assets
 18 and liabilities. Rather, just if you want us to disclose it as
 19 a footnote, we will. So prospectively we have done that. We
 20 have made that revision.
 21 (Whereupon, the following proceedings were
 22 stenographically recorded by Senior Court Reporter Michael
 23 Ranita.)
 24
 25

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5285

1 Q We now go on Mr. Hawthorn, to the last sentence of this
 2 paragraph. Can you read that?
 3 A Sorry, the other comment in the sentence says "that
 4 certain contingent liabilities, as well as refundable golf club
 5 membership deposits has been incomplete. We were also aware
 6 that the statement of material liabilities" --
 7 MR. AMER: I'm sorry, your Honor, I don't think
 8 this responds to the question. I'm not sure.
 9 MR. ROBERT: I told him to finish the sentence.
 10 MR. AMER: I thought you asked him to read the next
 11 sentence.
 12 MR. ROBERT: I apologize if I said the next
 13 sentence.
 14 A There's two items noted in that sentence I want to make
 15 sure I address it for completeness. The monitor asked us why
 16 certain membership deposits at golf clubs would not be reflected
 17 in the statement of material liabilities. The only reason that
 18 the monitor observed these particular liabilities is that they
 19 inquired of us for any and all financial reporting.
 20 So when I made a statement before about a mutual
 21 understanding, it was a mutual understanding about materiality.
 22 At the onset of the monitorship, we were being as diligent and
 23 forthright as we could, disclosing everything we possibly could.
 24 The order said provide sales tax returns, financial
 25 information to any party, and so we did that. Included in some

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5286

1 of those submissions in January and February of 2023, included
 2 certain balance sheet information and income statement
 3 information of our golf courses to, um, leasing companies for
 4 golf course maintenance equipment. Certainly not material
 5 things in the scope of the company at large, but because it was
 6 going to a leasing company, we wanted to make sure the monitor
 7 saw that. Included on those balance sheets for those
 8 individual, um, golf clubs includes a liability for refundable
 9 membership deposits.
 10 Most of those deposits come about when The Trump
 11 Organization acquired a club in the past, and the policy of the
 12 club was that those membership deposits for people who joined
 13 the club were refundable. So therefore it's a liability on your
 14 balance sheet.
 15 Um, the reality is prospectively, and now, the company
 16 doesn't have that policy. It doesn't have refundable membership
 17 deposits. If someone wants to join the club, they have to pay
 18 the cost to join the club now, and those deposits are generally
 19 non-refundable.
 20 Now, the monitor identified, well, okay certain of
 21 these golf clubs that you are giving to a golf course
 22 maintenance leasing company shows these liabilities, why
 23 wouldn't you have that on the statement of material assets and
 24 liabilities to the main lender, and why would it not be
 25 disclosed.

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5287

1 And our response is, they are not included on there
 2 because if you included those liabilities, there's actually a
 3 greater asset value associated with them. If those members
 4 leave, a new member would have to join. You know, for a new
 5 member to join, those members leave, and you would get a much
 6 greater value from the new membership coming in. So from our
 7 perspective and our disclosure to the monitor, by not including
 8 those liabilities, we are actually being conservative, otherwise
 9 we will have to put a much larger asset value offsetting those
 10 liabilities, if that makes sense.
 11 THE COURT: I follow that. What if they couldn't
 12 find somebody to become a new member?
 13 THE WITNESS: That's a possibility. But, um, in
 14 our experience, membership changes very frequently. Certain
 15 clubs, there are waiting lists to join membership. So in
 16 most instances people are waiting to join, for old members
 17 to leave for new members to come in.
 18 Nonetheless, the statement of assets and
 19 liabilities has a footnote that literally says, um, certain
 20 contingent liabilities may be excluded. And, again, the
 21 unfortunate thing about this disclosure doesn't mention
 22 anything about materiality. In my experience, as an auditor
 23 and public accounting, like none of these items are material
 24 to the organization's financial representation as a whole,
 25 if you are talking about these types of liabilities.

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5288

1 THE COURT: How much was the average membership
 2 back then?
 3 THE WITNESS: Um, it's hard to say. It varies by
 4 club.
 5 THE COURT: Several hundred thousand dollars?
 6 THE WITNESS: Sure.
 7 THE COURT: Where are we drawing the line on
 8 materiality?
 9 THE WITNESS: We are talking about billions of
 10 dollars of asset value, and liability value of much less
 11 than that.
 12 THE COURT: All right. Just continue.
 13 Q Fair to say, Mr. Hawthorn, that you respectfully
 14 disagree with the statement that it's incomplete?
 15 A We explained to the monitor, we don't think it's
 16 incomplete. We think it's accurate. In working with the
 17 monitor in good faith, we understood their requests. We
 18 understood that even though the lender asked for us to include
 19 this or has a concern with this, we would take their advice and
 20 prospectively take the footnote and make it clear.
 21 Q Let's go down to the last sentence in this paragraph.
 22 If you could read that.
 23 A "The trust also has not consistently provided all
 24 required annual and quarterly certifications attesting to the
 25 accuracy of certain financial statements."

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5289

1 Q What is your view as to that statement, sir?
 2 A Again, all of the multitude of financial statements,
 3 quarterly compliance, annual compliance certificates that the
 4 monitor reviewed, they identified that for a handful of them,
 5 and those would relate to the commercial properties we talked
 6 about earlier, like Trump Plaza, Trump International Commercial,
 7 that historically, if you look at the actual loan document,
 8 which was written many years ago, the financial reporting
 9 section says the submission of these financials should also be
 10 accompanied by a certification signed, right. And if you look
 11 going back to the inception of these loans, every time it was
 12 submitted by the company, there was no manual signature on the
 13 paper that it was scanned and delivered to the lender.
 14 Our response was, well, we understand that that's not
 15 technically what the loan document says, but the bank has never
 16 asked us to sign it over many years, so the practice has always
 17 just continued. Um, and frankly when you submit something on
 18 its face to a lender, you are already de facto, you know,
 19 disclaiming the accuracy of it saying these are the statements
 20 that you need. However, we said, "No problem. Going forward,
 21 if you would like to add a signature line and someone to
 22 physically sign the statement, we will do that." And we did
 23 that going forward.
 24 So, again, I get to say that something relating to a
 25 statement --

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5290

1 THE COURT REPORTER: I'm sorry, something
 2 relating --
 3 A To say that something is incomplete is very broad and
 4 general, but I think the specificity of it, again, in my
 5 experience, this is nothing adversely material. This is nothing
 6 misleading. This is nothing with an intent to defraud. These
 7 are all observations that we discussed with the monitor when
 8 they were advising of us these points.
 9 Q I move to the next paragraph, Mr. Hawthorn.
 10 MR. ROBERT: If we could bring that up on the
 11 screen.
 12 (Whereupon, the exhibit was displayed on the
 13 screen.)
 14 A So this says, "In addition, annual audited financial
 15 statements for certain entities, prepared by an external
 16 accounting firm, list depreciation expenses. However, interim
 17 internally prepared financial statements provided to third
 18 parties for these same entities inconsistently report
 19 depreciation expenses."
 20 Again, this arose from the same disclosure of financial
 21 information sent to a golf course maintenance lender, back in
 22 January and February, that even if we were to do it today, it
 23 may not even meet the materiality threshold. But nonetheless,
 24 those statements, if you are signing up to lease golf course
 25 maintenance equipment like mowers and blowers and things like

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5291

1 that, the leasing company wants to understand that you have
 2 available cash flow and available financial wherewithal when you
 3 submit your financial statements.
 4 They don't require audited financial statements, which
 5 would be in accordance with GAAP and have noncash charges, such
 6 as depreciation expense. So we simply provide internally
 7 prepared management financial expense, revenue, expected net
 8 operating income. On those statements, what they observed, and
 9 what we agreed with, is that the depreciation line was blank and
 10 it was zero.
 11 And our response was, at the time these were needed to
 12 be prepared, depreciation expense was not yet finalized.
 13 Depreciation expense for these entities is usually done on an
 14 annual basis at the end of the period, because these entities
 15 don't have audited financial statements. They only are needed
 16 for tax returns and other purposes for filing taxes, and
 17 therefore the accounting firm, Whitley Penn, Mazars, previously,
 18 would do that calculation on behalf of the company at the end of
 19 the year.
 20 So our point was, yes, we agree with that statement,
 21 and, again, our response was, number one, it's okay, because
 22 it's an internal statement. It's not intended to be an audited
 23 statement.
 24 And number two, the receiving party doesn't really care
 25 about depreciation because it's a noncash charge. It doesn't

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5292

1 impact a lender's analysis if you have cash flow to service a
 2 lease.
 3 So we did have an internal conference call with the
 4 monitor in August, or probably in July of 2023 as they reviewed
 5 these points with us. They were, again, cordial, they were
 6 explaining to us. We explained our responses very clearly. Um,
 7 they did give us a draft of this before it went out. We did
 8 strongly disagree with their draft because of the way it was
 9 worded. It's very, you know, it's very vague and doesn't give
 10 materiality. So I think to someone reading it without the
 11 context might assume certain conclusions. But, again, with me
 12 providing some specificity over these things being not adversely
 13 material to the company, and our responses to them being, you
 14 know, what we believed to be accurate, I just wanted to clarify
 15 that point.
 16 Q For this last paragraph we just read are you telling us
 17 that those third parties are literally the golf course
 18 maintenance contracts for the plow and the lawn mower?
 19 A Correct.
 20 Q Let's go to the next paragraph, Mr. Hawthorn.
 21 (Whereupon, the exhibit was displayed on the
 22 screen.)
 23 Q If you could read that, please.
 24 A "The defendants maintain that its practices related to
 25 these items are adequate. However, in the interest of

M. Hawthorn - by Defense - Redirect (Mr. Robert) Page 5293

1 cooperation and transparency, defendants have agreed to address,
 2 in future disclosures to lenders, the items I have identified,
 3 and otherwise adjust their practices based upon my observations.
 4 The Trump Organization will continue to inform the monitor
 5 regarding the form and substance of these disclosures."
 6 Q And is this paragraph consistent with the conversations
 7 that you had with the monitor at or around the time of this
 8 letter?
 9 A It is consistent. Again, these are observations that
 10 they identified to us. We provided our responses that we
 11 believed everything was adequate, correct, materially correct.
 12 But also in good faith working with the monitor, we are happy to
 13 amend certain things to satisfy their observations. Even if
 14 lenders didn't ask us, we'll go ahead and do that.
 15 Q Mr. Hawthorn, I'm going to draw your attention to the
 16 last paragraph and ask you to read the first sentence?
 17 (Whereupon, the exhibit was displayed on the
 18 screen.)
 19 A "Based upon the foregoing, and having carefully
 20 reviewed the information provided to me, it appears that the
 21 defendants continue to cooperate with me and the requirements of
 22 the Court's orders."
 23 Q Sir, at any time did the monitor accuse The Trump
 24 Organization of disseminating false and misleading information?
 25 A No.

M. Hawthorn - by Defense - Recross (Mr. Amer) Page 5294

1 MR. ROBERT: I have no further questions, your
 2 Honor. Thank you.
 3 THE COURT: Any recross?
 4 MR. AMER: Just a few questions. Can I do it from
 5 here?
 6 THE COURT: Sure.
 7 RECCROSS EXAMINATION
 8 BY MR. AMER:
 9 Q Mr. Hawthorn, am I correct that you had no role or
 10 responsibility with respect to golf courses that were just golf
 11 courses?
 12 A Now I do, in some capacity, but not previously, because
 13 the golf courses are part of the chart of accounts conversion
 14 project, for example.
 15 Q And prior to that point in time when you would have had
 16 some responsibility for just the golf courses, you wouldn't have
 17 had any involvement in the membership deposit -- the refundable
 18 deposit membership liabilities?
 19 A I would have with respect to the hotels that have that
 20 component. So, for example, Doral has that component.
 21 Q My question was golf courses that are just golf
 22 courses.
 23 A Oh, correct.
 24 Q And all of the explanations that you've given on
 25 redirect were all things that you told to Judge Jones her staff;

Proceedings Page 5295

1 correct?
 2 A Yes.
 3 Q And those were all things that you told Judge Jones and
 4 her staff before she finalized the letter that was then quoted
 5 by the Judge in his decision; correct?
 6 A Yes.
 7 MR. AMER: That's all I have, your Honor.
 8 THE COURT: Any re-redirect?
 9 MR. ROBERT: Nothing further, your Honor, except I
 10 would renew our request, and we'll brief it for you, about
 11 our ability to call Judge Jones, because I think the
 12 Attorney General just reopened the door asking about the
 13 conversations and what she was aware of at the time the
 14 letter was written.
 15 Apparently the Attorney General is not accepting
 16 the language in that letter to not be critical of The Trump
 17 Organization, notwithstanding the language at the end that
 18 says that "they cooperated with me and the requirements of
 19 this Court's orders." So clearly the government is of the
 20 view that somehow this letter says what it doesn't say.
 21 So, therefore, we would renew our application to
 22 have Judge Jones testify to either explain what she meant by
 23 this, because right now there is clearly a disputed issue
 24 between us and the government as to what it means.
 25 THE COURT: Do you want to call -- let them call

Proceedings Page 5296

1 Judge Jones?
 2 MR. AMER: No. And we think your Honor is correct,
 3 that the case law does not permit it. I would also say that
 4 the point of sharing the portion of the decision that
 5 discusses Judge Jones's observations was to contrast that
 6 with what this witness characterized as the relationship
 7 between The Organization and Judge Jones and her staff,
 8 which I think is inconsistent -- we would submit is
 9 inconsistent with what the Judge's observations were in her
 10 August 3rd letter.
 11 MR. ROBERT: We would respectfully disagree,
 12 because it was this Court that used the words "fraud" and
 13 "misleading information" accusing The Trump Organization of
 14 engaging in that. Those words appear nowhere in Judge
 15 Jones' report. They appear nowhere in the earlier reports
 16 submitted to Court. It was never a word or a concept that
 17 was ever a disseminated to this witness, or anyone else
 18 involved in the monitorship process, whether by Judge Jones,
 19 the accountants she retained, or anyone else.
 20 Notwithstanding the hundreds of thousands of dollars that
 21 have been paid to the monitor and the accountant, which is
 22 evidence of their due diligence of combing through
 23 voluminous financial records, and there has been no evidence
 24 of any false or misleading information.
 25 THE COURT: Well, go ahead.

Proceedings Page 5297

1 MR. KISE: Your Honor, and again, we'll brief this,
 2 but just as an aside, in Bankruptcy Court, monitors are
 3 called examiners, they routinely testify. In SEC
 4 receivership proceedings, the examiner or the receiver
 5 routinely testifies, they're fiduciaries.
 6 THE COURT: That's receiver, not monitor; right?
 7 MR. KISE: But it's the same concept. It's the
 8 exact same concept. The fact that they are arms of the
 9 court and have fiduciary responsibilities does not in any
 10 shape, form or fashion preclude them from testifying.
 11 Additionally, a monitor can't communicate through a
 12 report, because the report by itself is hearsay. The
 13 report, itself, is hearsay. You can't take a report and use
 14 that as truth of the matter asserted. The report, itself,
 15 is hearsay.
 16 As you could see the challenges that arise from
 17 doing that, without the monitor here to testify, I mean,
 18 they obviously have a very different view of what that
 19 letter says than we do. They have opened the door by asking
 20 this witness direct questions. I mean, they were cute.
 21 They took your quoting of the letter, but it's the same
 22 principle. So they -- what the monitor thinks is clearly
 23 and squarely at issue with respect to equitable relief that
 24 this Court is considering.
 25 If the monitor is going to come in here, which I'm

Proceedings Page 5298

1 virtually certain she will, and say what it doesn't say in
 2 that letter; there is no fraud. There's no -- hasn't been
 3 any indicia of fraud. There hasn't been any ongoing indicia
 4 of inappropriate activity. We are talking about, as this
 5 witness just testified, minor accounting discrepancies, all
 6 of which occur in a major corporation all the time.
 7 So we need the monitor here to be able to, at least
 8 present live testimony that can be considered, not hearsay,
 9 in the record, as to whether or not there needs to be some
 10 equitable relief to address things that we think do not
 11 exist. We think she will say they don't exist, but the
 12 government is clearly pounding the table saying, "No, no,
 13 no. This is a fraudulent enterprise. We have to shut it
 14 down and put them out of business." When you have a monitor
 15 that's been in place for now 14 or 15 months and hasn't
 16 uncovered any evidence of that, has a cooperative
 17 relationship with the company, and clearly has confidence
 18 that what the company is doing now is fine.
 19 The idea that the government could even assert that
 20 somehow we need to put these people out of business and shut
 21 them down seems a nonstarter. It's almost as much as a
 22 nonstarter as the whole certification roundabout we went
 23 through, even when the guaranty is zero and there is no net
 24 worth requirement, somehow or other there is harm if there's
 25 a problem with the certification.

Proceedings Page 5299

1 But, in any event, I don't see how monitor
 2 testimony is not squarely and highly relevant here. And
 3 there is nothing to preclude the monitor from testifying
 4 simply because she's got fiduciary obligations to the Court.
 5 She is an independent monitor, just like in a Bankruptcy
 6 Court, an independent examiner; just like in an SEC
 7 proceeding, they are all the same.
 8 THE COURT: Well, Mr. Kise, I won't even ask you,
 9 I'll just suggest that every time you want to speak about a
 10 particular issue that maybe you don't have to argue the
 11 whole case.
 12 MR. KISE: I feel like I have to, because we don't
 13 seem to be getting anywhere. We don't seem to be
 14 communicating at all. We have evidence that comes in after
 15 -- witness after witness after witness, there's no problem.
 16 There's no -- even today with the certifications, okay. So
 17 even assuming they are right, there is a problem with the
 18 certification, how does that go to equitable relief when
 19 this is no guaranty. It's zero.
 20 The document that they put into evidence says that
 21 the guaranty was zero or 10 percent. Has there ever been
 22 any allegation that the net worth of Donald Trump was below
 23 \$250 million? No. So all we are doing is having this sort
 24 of circuitous discussion about them jumping up and down
 25 saying, "There's fraud. There's fraud. There's fraud."

Proceedings Page 5300

1 But no one has said that, including the monitor. That's the
 2 point of having the monitor come here. They are the only
 3 ones in the courtroom jumping up and down saying there is
 4 fraud, even though no one else is. The bank isn't. The
 5 monitor isn't, and so I think we definitely need to be
 6 entitled to bring that in.

7 So, yes, I apologize for pleading the case, but
 8 that's kind of my job, is to plead the case, especially when
 9 no one seems to be listening, particularly at that table.

10 THE COURT: Well, I think you just proved my point.
 11 Every time you talk, it's a campaign speech.

12 MR. AMER: We hear everything they say. We are
 13 just not convinced or impressed.

14 MR. KISE: No, they are not. Exactly. They are
 15 not. And with respect, your Honor, it's not a campaign
 16 speech.

17 MR. AMER: I didn't mean that to be an invitation
 18 to hear it all over again, your Honor.

19 THE COURT: You know, I could excuse the witness,
 20 but he might be enjoying this.

21 MR. KISE: He probably is.

22 THE COURT: A few things, one, I'll wait to see if
 23 you come up with any monitor cases.

24 Two, if the Attorney General had been the first one
 25 to bring up the -- anything about the monitor, that would be

Proceedings Page 5301

1 one thing, but if I remember correctly, you brought it up
 2 first, asked a whole bunch of questions, and then they just
 3 wanted to basically respond, answer to those questions. So
 4 I don't think they opened the door. You tried to open the
 5 door.

6 And third, as I had said earlier, the monitor is
 7 supposed to report with statements. If there are
 8 disagreements about what they mean, I'll worry about that.
 9 Okay, I'll decide what her reports mean and the implications
 10 thereof.

11 So anything else from either side?

12 MR. AMER: Nothing from the plaintiff.

13 THE COURT: All right. We have -- the witness is
 14 excused. You could sit out there and be amused, if you
 15 want.

16 Nice to meet you.

17 THE WITNESS: Thank you.

18 THE COURT: Okay. We have another witness for the
 19 defense?

20 MR. ROBERT: We call Patrick Birney.

21 MR. WALLACE: Your Honor, for the record is
 22 Mr. Birney a fact witness watching the proceedings? I don't
 23 think --

24 MR. ROBERT: First of all, he's already been called
 25 in your case. So I know of no prohibition. But secondly,

Proceedings Page 5302

1 he should be in his little anteroom in the Judge's chambers,
 2 and I told Ms. Hernandez to watch the proceedings so she
 3 knows when to come in.

4 MR. WALLACE: Ms. Hernandez is a lawyer on the
 5 defendant's team, and if she's watching the case, that is
 6 different than a fact witness.

7 THE COURT: All right. So we are good on that.

8 MR. WALLACE: Thank you for the clarification.

9 THE COURT: Quick front bar.
 10 (Whereupon, there is a discussion held off the
 11 record, at the bench, among the Court and all Counsel.)

12 THE COURT OFFICER: Is the court ready for the
 13 witness?

14 THE COURT: We're ready.

15 THE COURT OFFICER: Witness entering.

16 MS. HERNANDEZ: Good afternoon, your Honor.

17 THE COURT: Good afternoon.
 18 (Whereupon, the witness stepped into the witness
 19 stand.)

20 THE COURT OFFICER: Please raise your right hand.
 21 (The witness complied.)

22 THE COURT OFFICER: Do you solemnly swear or affirm
 23 that any testimony you give will be the truth, the whole
 24 truth and nothing but the truth?
 25 THE WITNESS: I do.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5303

1 P A T R I C K B I R N E Y, called by and on behalf of the
 2 Defendant, having been first duly sworn, was examined and
 3 testified as follows:

4 THE COURT OFFICER: Please have a seat. State your
 5 full name and home or business address for the record.

6 THE WITNESS: Patrick Birney, 725 Fifth Avenue,
 7 New York, New York 10022.

8 THE COURT: Okay. Please proceed.

9 MS. HERNANDEZ: Thank you, your Honor.

10 DIRECT EXAMINATION

11 BY MS. HERNANDEZ:

12 Q Mr. Birney, what is your educational background after
 13 high school?

14 A I earned a degree in economics from the University of
 15 Michigan.

16 Q Where did you work after college?

17 A AON Risk Solutions.

18 Q What was your position at AON?

19 A Account specialist.

20 Q What were your responsibilities as an accountant
 21 specialist?

22 A I worked on an account management and sales team. Um,
 23 I had a lot of clients who I worked on their renewals for
 24 schedules of insurance, renewal exposures, auto ID cards,
 25 invoicing, et cetera.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5304

1 Q And where did you work after you left AON?
2 A The Trump Organization.
3 Q What was your title when you began at The Trump
4 Organization?
5 A Senior financial analyst.
6 Q What were your responsibilities as a senior financial
7 analyst?
8 A Um, I worked on the insurance renewals and the, um,
9 golf course financials and operations.
10 Q And what year did you start working at The Trump
11 Organization?
12 A 2015.
13 Q So after senior financial analyst, what was the next
14 position you held at The Trump Organization?
15 A Associate.
16 Q And what were your responsibilities as an associate?
17 A Similar responsibilities, worked on insurance and the
18 golf course financials. I worked on other projects. I did a
19 lot.
20 Q And what position did you hold after associate?
21 A Assistant vice president of financial operations.
22 Q And what were your responsibilities as an assistant
23 vice president?
24 A Similar, similar responsibilities; insurance, golf
25 courses. I do a lot of things for the company.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5305

1 Q And what position did you hold after assistant vice
2 president?
3 A Vice president financial operations.
4 Q And what are your responsibilities as vice president?
5 A Same thing.
6 Q And when did you get that title?
7 A About a year ago.
8 Q Is that your current title at The Trump Organization?
9 A Yes.
10 Q When did you become involved in the preparation of
11 President Trump's Statement of Financial Condition?
12 A 2016.
13 Q Why did you become involved?
14 A Um, because Jeff McConney told me I'm going to work on
15 something.
16 Q And what years were you involved in working on the
17 Statements of Financial Condition?
18 A 2016 through 2021.
19 Q And in the first year that you were working on it in
20 2016, what did Jeff McConney explain to you about the process to
21 prepare the Statements of Financial Condition?
22 A I think he told me that I was going to work on
23 something, um, and he e-mailed me the supporting data
24 spreadsheet for the Statement of Financial Condition. Um, I
25 don't know how much detail he gave in the initial briefing, um,

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5306

1 but I went to him for any question that I had at that point.
2 Q So throughout the preparation of the 2016 statement,
3 what was the interface between you and Mr. McConney as you got
4 used to this new role?
5 A I worked with Jeff a lot in 2016. Any question that I
6 had, anything I had to gather, I went to him.
7 Q And what was your role in preparing these Statements of
8 Financial Condition?
9 A I gathered information and inputted it into multiple
10 spreadsheets.
11 Q What spreadsheets were those?
12 A The, um, supporting data spreadsheet. Um, there was a
13 loan spreadsheet, um, escrow spreadsheet, a cash spreadsheet. I
14 think there was a fifth spreadsheet, um, and then any of the
15 backup information that -- that was used for those spreadsheets.
16 Q Okay.
17 And you mentioned the support data spreadsheet, what
18 was your intention in maintaining and updating that support data
19 spreadsheet?
20 A Can you repeat the question, please.
21 Q Sure. What was your intention when you were
22 maintaining and updating the support data spreadsheet for the
23 Statement of Financial Condition?
24 A So every new year, um, I would just copy and paste the
25 spreadsheet from the year before so that it would have one year

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5307

1 was the previous year and one year was the current year. And
2 then I would update those numbers and that information for the
3 current year.
4 Q And who did you intend to look at the supporting data
5 spreadsheet?
6 A Anybody who worked on the spreadsheet. Um, Jeff
7 McConney, Allen Weisselberg, ultimately, the accounting firm.
8 Q And what did you expect them to learn by looking
9 through the spreadsheet?
10 A How assets were valued.
11 Q And did you intend to be accurate when maintaining and
12 updating the spreadsheet?
13 A Yes.
14 (Continued on the next page.)
15
16
17
18
19
20
21
22
23
24
25

Birney - by Defendant - Direct (Hernandez) Page 5308

1 Q So very generally, what sort of information would you
2 have included in that supporting data spreadsheet?
3 A It depends on the asset. It depends on the year. In
4 general, financial statement information, income statements,
5 balance sheets, square footage information, value of
6 residential unit information.
7 Q And then you mentioned in a previous answer that you
8 would send Mazars the backup, can you describe what you mean
9 with when you say, "the backup"?
10 A There is backup for the information on the supporting
11 data spreadsheet for all of the assets and liabilities.
12 Basically indicates where the information was from and what
13 information was used.
14 Q And that's the information used throughout the
15 supporting data spreadsheet?
16 A Yes.
17 Q And how would that normally be divided, backup?
18 A It would be divided by asset.
19 Q Can you please describe your interface with Mazars on
20 the Statement of Financial Condition?
21 A Usually in the last month of working on the Statement
22 of Financial Condition we would begin sending information to
23 Mazars, supporting data spreadsheet drafts, any backup to the
24 supporting data spreadsheet, any other spreadsheet. The Word
25 doc that ultimately became the Statement of Financial Condition

Birney - by Defendant - Direct (Hernandez) Page 5309

1 would be sent to Mazars.
2 Mazars would call with questions, reach out to us
3 with questions. There was back and forth in that final month,
4 generally.
5 Q Thank you. And who at Mazars would you normally
6 speak to about the statement?
7 A Donald Bender and Jenn Safron.
8 Q So you mentioned follow-up questions Mazars would
9 ask. Did they ever ask you about appraisals that were not
10 utilized in the Statement of Financial Condition?
11 A Not that I can recall.
12 Q And did they ever ask you to change the methodology
13 that a property was valued by?
14 A Not that I can recall.
15 MS. HERNANDEZ: Okay. So I am going to pull up
16 what has already been admitted into evidence as PX758.
17 Q Do you recognize this document, Mr. Birney?
18 A Yes.
19 Q What is it?
20 A It is a version of the Statement of Financial
21 Condition supporting data spreadsheet for 2017.
22 Q And does this appear to be the final version for
23 2017?
24 A I don't know that.
25 Q Do you see in column E? What would those numbers

Birney - by Defendant - Direct (Hernandez) Page 5310

1 indicate there?
2 A I believe those numbers are from Mazars.
3 Q So would this appear to be the spreadsheet that
4 Mazars checked for 2017?
5 MR. HAREN: Objection as to "checked."
6 THE COURT: I am sorry.
7 MR. HAREN: Objection as to the word "checked."
8 THE COURT: Do you have a different word?
9 MR. HAREN: I think she is trying to establish
10 whether this was or was not the final version and whether
11 the numbers on the spreadsheet indicate that Mazars
12 processed -- processed it in some way.
13 But whether Mazars did some kind of process that
14 resulted in those numbers is not the same as Mazars
15 checking the numbers, so.
16 MS. HERNANDEZ: I am happy to change it to
17 processed.
18 Q Does this appear to be the spreadsheet that Mazars
19 processed?
20 A It appears to be a spreadsheet that -- a spreadsheet
21 that Mazars processed.
22 Q Okay. And so I am going to take you to row 30 of the
23 spreadsheet.
24 Can you tell me a little bit about Trump Tower?
25 A As it relates to the spreadsheet?

Birney - by Defendant - Direct (Hernandez) Page 5311

1 Q Sure. Just in general, a little bit about the
2 property.
3 A Sure. Trump Tower is a commercial and residential
4 real estate asset. It is a condominium for residential, and
5 then it also has office space and retail space.
6 Q And how was Trump Tower valued in 2017?
7 THE WITNESS: Can you scroll down slightly,
8 please?
9 (The image on the screen was scrolled)
10 A It was valued by dividing net operating income into a
11 cap rate.
12 Q And how would you have gathered the information used
13 to value Trump Tower in 2017?
14 THE WITNESS: Can you scroll up just slightly,
15 please?
16 (The document on the screen was scrolled.)
17 A I would have asked Jeff McConney for the
18 December 2016 financial statement for Trump Tower. And then I
19 probably would have asked Jeff for everything else that is
20 here, unless it was already in the backup from the previous
21 year's SOFC backup.
22 Q Would you look at the previous year's SOFC in
23 compiling a new year's information?
24 MR. WALLACE: Objection to the aspect of
25 "would," as opposed to whether the witness did something.

Birney - by Defendant - Direct (Hernandez) Page 5312

1 THE COURT: Let's start with did, rather than
 2 would.
 3 Q Did you look at the previous year's Statement of
 4 Financial Condition?
 5 MR. WALLACE: Objection, leading.
 6 MS. HERNANDEZ: You tricked me there, Kevin.
 7 THE COURT: It is leading, sorry. We led you
 8 down the wrong path.
 9 MS. HERNANDEZ: We did, right.
 10 Q How did the previous year's Statement of Financial
 11 Condition play into the process for creating or maintaining and
 12 updating the spreadsheet for a new year?
 13 A My process would have started by doing what we did in
 14 the previous year. So obtaining the same sort of information.
 15 And as we are looking at 2017, right?
 16 Q Correct.
 17 A I would have had the backup for 2016, because I
 18 worked on that statement, and I probably would have looked at
 19 the same backup for 2016 and requested that for the updated
 20 year.
 21 Q So it would build upon each other every year?
 22 A Generally, yes.
 23 MS. HERNANDEZ: And so, for Trump Tower I am
 24 going to pull up what has been premarked in evidence as
 25 PX-761.

Birney - by Defendant - Direct (Hernandez) Page 5313

1 (Handing)
 2 Q Do you recognize this document, Mr. Birney?
 3 THE COURT: While he is looking, is this in
 4 evidence?
 5 MS. HERNANDEZ: Not yet.
 6 THE COURT: Not yet. Okay.
 7 A Yes.
 8 Q What is this document?
 9 A The backup to the 2017 Trump Tower commercial
 10 valuation, the backup to the information in the supporting data
 11 spreadsheet.
 12 Q Would you -- is this the information you would have
 13 sent to Mazars?
 14 A This is the information that was sent to Mazars.
 15 MS. HERNANDEZ: Your Honor, I would like to move
 16 Plaintiff's Exhibit 761 into evidence.
 17 THE COURT: Granted, it is in.
 18 (Whereupon, the document referred to was deemed
 19 marked for evidence as Plaintiff's Exhibit 761 by the
 20 Court.)
 21 Q So whose handwriting is this on the first page,
 22 Mr. Birney?
 23 A Mine.
 24 Q And what is the first page of this document?
 25 A It is an income statement for the year ending

Birney - by Defendant - Direct (Hernandez) Page 5314

1 December 31, 2016 for Trump Tower Commercial LLC.
 2 Q And why would you have sent this to Mazars?
 3 A Because it is the backup for the number -- for the
 4 numbers that were used on the supporting data spreadsheet.
 5 Q And who would have done this adding tape in the
 6 middle of the document?
 7 A I think I did.
 8 Q And why would you have done that?
 9 A To indicate the calculations that were made.
 10 Q And what calculations are these?
 11 A The top one is for, it looks like average security
 12 cost without excessive security due to political campaign.
 13 The next one is for operating expenses.
 14 Q So why did you have to do that, average security cost
 15 for this year?
 16 A Because I was told to.
 17 MS. HERNANDEZ: Okay. And if we could go to
 18 page four.
 19 Q What is this document? Or what is this page of the
 20 document?
 21 A It looks like it indicates the Trump Tower campaign
 22 lease information.
 23 Q And what role did this play in the 2017 value?
 24 A Can you show the spreadsheet back on the screen?
 25 Q Sure.

Birney - by Defendant - Direct (Hernandez) Page 5315

1 MS. HERNANDEZ: Nate, can you pull up PX-758
 2 again?
 3 A It has something to do with the rental income for
 4 vacant campaign-related space line items on the supporting data
 5 spreadsheet. I just can't pinpoint the data right now.
 6 Q Okay. But this would have been the data you were
 7 looking at when putting these figures in in the supporting data
 8 spreadsheet?
 9 A I believe so.
 10 MS. HERNANDEZ: Okay. And then, Nate can you
 11 actually pull it up side by side, PX-761?
 12 And can you go to the last page?
 13 And zoom in on --
 14 Q Well, let me ask you first. Mr. Birney, what is the
 15 last page of the backup for Trump Tower?
 16 A It is a list of class A office building sales in
 17 Manhattan, in midtown Manhattan, with the cap rate identified
 18 that was used for this year; identified with the star.
 19 MS. HERNANDEZ: And Nate, can you pull up number
 20 five with the star?
 21 It is okay if you have to take the supporting
 22 data spreadsheet down.
 23 Q Is this the star you are referring to, Mr. Birney?
 24 A Yes.
 25 Q What does that star indicate?

Birney - by Defendant - Direct (Hernandez) Page 5316

1 A It indicates that that number was used.
2 Q That this cap rate was used?
3 A Yeah. It indicates that the 2.9 percent cap rate was
4 used.
5 Q And where had you -- where would you have gotten this
6 market data from?
7 A I think I got it from Jeff, who got it from Cushman,
8 I think.
9 MS. HERNANDEZ: And can we pull up PX-758 again?
10 Q Is that what is reflected there on the cap rate note
11 on line 79?
12 THE WITNESS: Can you scroll down slightly?
13 (The document on the screen was scrolled.)
14 Q Sorry, it would be 83 to 84.
15 A Yes.
16 Q So we are going to go to Niketown, the next property.
17 Can you tell me a little bit about Niketown?
18 A Yes. Niketown is a retail space located on
19 57th Street, adjacent to Trump Tower.
20 Q And how did you value Niketown in 2017?
21 A Similar approach to Trump Tower. It was net
22 operating income divided by cap rate.
23 Q And how would you have gathered the information again
24 to value Niketown here?
25 A I probably would have had it from the year before.

Birney - by Defendant - Direct (Hernandez) Page 5317

1 MS. HERNANDEZ: Okay. And so I am going to pull
2 up what has been premarked as D-1056.
3 THE COURT: Five-minute warning.
4 MS. HERNANDEZ: Thank you, Your Honor.
5 (Handing)
6 Q Do you recognize this document, Mr. Birney?
7 A Yes.
8 Q And what is this document?
9 A It is the backup to the supporting data spreadsheet
10 for the Niketown asset for 2017.
11 Q And this would have -- would this have been sent to
12 Mazars?
13 A This was sent to Mazars.
14 MS. HERNANDEZ: Your Honor, I would like to move
15 what has been premarked has Defendant's Exhibit 1056 into
16 evidence.
17 THE COURT: Granted, it is in.
18 (Whereupon, the document referred to was deemed
19 marked for evidence as Defendant's Exhibit 1056 by
20 the Court.)
21 Q So, what are the first -- what is the first page of
22 this document, this backup?
23 A It is a lease summary for the Nike lease.
24 Q And going to page two, who would have done the
25 highlights and stars on this page?

Birney - by Defendant - Direct (Hernandez) Page 5318

1 MR. WALLACE: Objection again to the "would."
2 Q Who highlighted and added stars to this page?
3 A I did.
4 Q And why would -- why did you add those highlights and
5 stars?
6 A To draw attention to it, because that was the number
7 that was used -- those were the numbers that were used in the
8 supporting data spreadsheet.
9 Q And looking to page three.
10 Is that the same reason you added highlights and
11 stars to the numbers at the bottom of the page?
12 MR. WALLACE: Objection, leading.
13 THE COURT: Sustained.
14 Q Why did you add stars to the numbers at the bottom of
15 the page?
16 A To draw attention to the figures that were used in
17 the supporting data spreadsheet.
18 Q And what figures are these?
19 A Can you pull the spreadsheet up again?
20 Q Sure.
21 MS. HERNANDEZ: Thank you, Nate.
22 A Both figures were used, both the 1,652,847 and
23 1,702,432.
24 Q I think you were continuing, were used?
25 A Were used in the supporting data spreadsheet.

Birney - by Defendant - Direct (Hernandez) Page 5319

1 MS. HERNANDEZ: That's a good stopping place for
2 me today, Your Honor.
3 THE COURT: You are not finished with the
4 witness but it is a good stopping place?
5 MS. HERNANDEZ: Yes, sir.
6 THE COURT: Okay. We will see you all 10:00
7 tomorrow.
8 MS. FAHERTY: Do you want to instruct the
9 witness, Your Honor?
10 THE COURT: I instruct the witness not to
11 discuss this case or his testimony or anything related to
12 it during the evening break while you are still a witness.
13 Thank you.
14 (Whereupon, the trial stood adjourned to
15 November 28, 2023 at 10:00 a.m.)

1 THE COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent. Laptops and cell
 4 phones will be permitted, but only to members of the press.
 5 There's absolutely no recording or photography of any kind
 6 allowed in the courtroom. Now be seated and come to order.
 7 THE COURT: Good morning everyone. So, defendants,
 8 I understand that you have a new witness and that Mr. Birney
 9 will be back to finish at a later time. Okay.
 10 Would you like to call your new witness?
 11 MR. SUAREZ: Good morning, your Honor. The defense
 12 calls Dave Williams of Deutsche Bank. And also in the
 13 courtroom today I would like to point out to the Court that
 14 Deutsche Bank's Counsel, David Zensky, is also here.
 15 THE COURT: Okay. Thank you. Let's get the next
 16 witness.
 17 THE COURT OFFICER: Witness entering.
 18 (Whereupon, the witness stepped into the witness
 19 stand.)
 20 THE COURT OFFICER: Raise your right hand.
 21 (The witness complied.)
 22 THE COURT OFFICER: Do you solemnly swear or affirm
 23 that any testimony you give will be the truth, the whole
 24 truth and nothing but the truth?
 25 THE WITNESS: I do.

Page 5323

D. Williams - by Defense - Direct (Mr. Suarez)

1 DAVID COSBY WILLIAMS, called by and on
 2 behalf of the Defendant, having been first duly sworn, was
 3 examined and testified as follows:
 4 THE COURT OFFICER: Please have a seat. Please
 5 state your full name and home or business address for the
 6 record.
 7 THE WITNESS: David Cosby Williams, 890 Hammocks
 8 Way, Edisto Island, South Carolina.
 9 DIRECT EXAMINATION
 10 BY MR. SUAREZ:
 11 Q Mr. Williams, good morning.
 12 A Good morning.
 13 Q I'm JESUS Suarez. I represent certain of the
 14 defendants in this case.
 15 Briefly, Mr. Williams, what is your educational
 16 background?
 17 A I have an undergraduate degree in political science and
 18 a master's of business administration.
 19 THE COURT: Did you take public speaking at all?
 20 You have to speak much louder right into the mic. As close
 21 as possible.
 22 THE WITNESS: I got you.
 23 Q Are you employed at Deutsche Bank?
 24 A Yes.
 25 Q How long have you been employed at Deutsche Bank?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5324

1 A Almost 17 years.

2 Q In what capacities have you been employed at Deutsche

3 Bank?

4 A As a senior lender and team leader.

5 Q Do you currently work in the Private Wealth Management

6 Group at Deutsche Bank?

7 A Yes, Wealth Management.

8 Q How long have you worked in that division?

9 A Seventeen years.

10 Q And what have your titles been since you joined that

11 division?

12 A Senior lender and team leader, also a managing

13 director.

14 Q What is the role of a senior lender in the Private

15 Wealth Management Division?

16 A So, we underwrite structured loans, credit requests for

17 high net worth individuals.

18 Q Can you describe the underwriting process for high net

19 worth individuals, in general terms.

20 A Sure. Um, typically I would consider myself to be a

21 product specialist, my product being credit. Um, generally

22 speaking, um, credit specialist or profit specialist is called

23 in when a credit opportunity is identified.

24 Um, we speak with client or clients representatives in

25 their office about the credit requests. We gather information,

D. Williams - by Defense - Direct (Mr. Suarez) Page 5325

1 um, we prepare our due diligence, um, we underwrite the loan,

2 submit for internal credit approval, work with typically outside

3 legal counsel to document the loan, and then we coordinate with

4 client's counsel to close the loan, fund the loan, and then we

5 monitor the loan for -- during its lifetime, so to speak.

6 Q What is a high net worth individual from the

7 perspective of Deutsche Bank's Wealth Management Division?

8 A Generally, I would say that anyone that has a net worth

9 in excess of 25 or \$50 million.

10 Q Are you familiar with the term "ultrahigh net worth"?

11 A Yes.

12 Q What is an ultrahigh net worth individual from the

13 perspective of Deutsche Bank's Wealth Management Division?

14 A Generally, someone that has a net worth in excess of

15 100 million.

16 Q How does someone become a client of the Wealth

17 Management Division of Deutsche Bank?

18 A Sometimes the client could be referred to the bank, um,

19 by, um, an attorney or accountant or other professional. Often

20 times a client, um, is sourced by what we refer to as a

21 relationship manager or a banker within Deutsche Bank who, um,

22 makes introduction, and then, um, provided that the client meets

23 our, um, target market profile, um, that individual is then, um,

24 put through our KYC process.

25 Q What is a "target market profile"?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5326

1 A For structured lending products, it's generally anyone

2 that, um, has a net worth in excess of a hundred million and

3 investable assets of at least 10 million.

4 Q Were you involved in loans made by Deutsche Bank to

5 entities sponsored by President Donald J. Trump?

6 A Yes, I was involved.

7 Q What was your involvement in those loan transactions?

8 A So I did not get involved until, I believe, 2014, um,

9 as a reviewer and supporter of what ended up being the last loan

10 that we made to Mr. Trump.

11 Q Was Mr. Trump qualified by the bank -- there are a lot

12 of folks named Trump in this case. I'll refer to him as

13 President Trump just as an honorary.

14 Was President Trump qualified as an ultrahigh net worth

15 individual by the Private Wealth Management Division by Deutsche

16 Bank?

17 A Yes.

18 Q How is net worth typically calculated by the Wealth

19 Management Division at Deutsche Bank to determine whether

20 someone is an ultrahigh net worth individual?

21 A Um, to determine that, typically it's on the basis of

22 the, um, financial information that the client provides.

23 Q And what is the significance from a lender's

24 perspective of a hundred million dollar net worth?

25 A Um, I would say that would demonstrate that they have

D. Williams - by Defense - Direct (Mr. Suarez) Page 5327

1 the financial wherewithal to provide financial support to a

2 credit transaction.

3 Q In underwriting a loan, is it possible for the bank to

4 calculate an individual's net worth to mathematical certainty?

5 MR. WALLACE: Objection. Leading.

6 THE COURT: Okay. I think the question is sort of

7 harmless, but --

8 MR. SUAREZ: Your Honor, I understand that I'm

9 allowed to ask, with your Honor's permission, certain

10 leading questions just to get the frame of reference going.

11 I'm not suggesting an answer, and he's free to elaborate.

12 It's not a yes or no question.

13 THE COURT: I think they are called preliminary

14 questions that are leading, but accessible or introductory

15 questions. I didn't think this was one of those. And I

16 think this is all about nothing, but can you rephrase it

17 somehow so that it's more of a general ask than, "isn't this

18 the case?"

19 Q What, if anything, does the underwriting process

20 endeavor to do to calculate an individual's assets to a

21 mathematical certainty?

22 A Um, I don't believe that's possible.

23 Q Why not?

24 A I think an individual's net worth is, as it's reported,

25 is largely subjective or is subject to the use of estimates.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5328

1 Q What, if anything, do you do as a lender to make sure
2 that the bank's view of asset values is appropriate in light of
3 a client's self-reported asset values?
4 A So as part of our due diligence and underwriting
5 process, we subject clients' reported information through or to
6 some adjustments to account for that.
7 Q How does the bank view adjustments that it makes to a
8 client's stated asset values in the underwriting process?
9 A I'm sorry, can you repeat that.
10 Q Sure. How does the bank react to differences in the
11 adjusted values of -- reached by the bank as opposed to those
12 reported by the client?
13 A Again, it's part of our underwriting process. Um, it's
14 a process that we apply to every client, um, regardless of
15 what's reported.
16 Q Is a difference of opinion in asset values between the
17 client and the bank a disqualifying factor to extend credit?
18 A No.
19 Q Why not?
20 A I think, again, it's -- it's a difference of opinion.
21 Um, I think we expect, um, a clients provided information to be,
22 um, accurate. At the same time, um, it's not an industry
23 standard that these financial statements are audited. Um, they
24 are largely relying on the use of estimates. Um, that said, we
25 account for that and make some adjustments as a conservative

D. Williams - by Defense - Direct (Mr. Suarez) Page 5329

1 measure.
2 Q What does it mean to "make adjustments as a
3 conservative measure"?
4 A Well, again, I would say it's a factor of, um, the type
5 of financial information that is, um, typically provided by, um,
6 high net worth and ultrahigh net worth individuals. Um, again,
7 we -- you go into it with the expectation or understanding that,
8 um, there is a use of estimates, um, in the preparation of the
9 financial statements.
10 MR. SUAREZ: Could we please pull up pre-marked
11 Exhibit D-66 for identification.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q Mr. Williams, do you recognize this document?
15 MR. SUAREZ: We'll give you a hard copy right now.
16 (The witness was handed the exhibit.)
17 A Yes.
18 Q What is this document?
19 A Credit Risk Management Credit Guidelines for Private
20 Wealth Management Americas, dated June of 2012.
21 MR. SUAREZ: If you could please turn to page 17 of
22 this document.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q Which is page 17 of the exhibit, page 16 of the actual

D. Williams - by Defense - Direct (Mr. Suarez) Page 5330

1 document.
2 A Okay.
3 Q And if I could direct your attention to the section
4 that says "2.9 Commercial Real Estate." Are you familiar with
5 this section?
6 A Yes.
7 Q Do you see where it says, "The commercial real estate
8 lending team within PWM are considered commercial properties as
9 collateral for borrowers short-term bridge financing needs, as
10 well as longer term financing for up to ten years."
11 A Yes.
12 Q And then, "In both cases, loans will have recourse to
13 one or more guarantors."
14 A Yes.
15 Q And then it goes onto list a client's eligibility
16 criteria. And then it says, "Typical borrowers will have a net
17 worth of over \$50 million."
18 A Yes, I see that.
19 Q Did President Trump meet this criteria in connection
20 with the loans obtained from Deutsche Bank?
21 A Yes.
22 Q And then it says, "Borrowers must have a proven
23 successful track records" -- excuse me. "Borrowers must have
24 proven successful track records in the US commercial real estate
25 markets." Do you see that?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5331

1 A Yes.
2 Q Did President Trump satisfy that criterion in
3 connection with the loans obtained from Deutsche Bank?
4 MR. WALLACE: Objection. Leading.
5 THE COURT: I feel like I have to sustain that.
6 It's leading.
7 Q What, if any, view did Deutsche Bank have as to whether
8 President Trump satisfied that criteria?
9 A He met this criteria.
10 Q Going on, there is a section that says "PWM commercial
11 real estate lending may offer: Interim loan facilities for up
12 to five years for the purpose of acquisition or repositioning a
13 particular property." Do you see that?
14 A Yes.
15 Q Were the loans offered by the Wealth Management
16 Division and guaranteed by President Trump consistent with that
17 criteria?
18 A Yes.
19 Q Then it goes onto say "Long term loan facilities for
20 stabilized properties of up to eight years designed to give
21 borrowers some flexibility when compared to traditional conduit
22 financing."
23 What does it mean "to give borrowers some flexibility
24 when compared to traditional conduit financing"?
25 A So "conduit financing" is nonrecourse financing. By

D. Williams - by Defense - Direct (Mr. Suarez) Page 5332

1 that, I mean, generally speaking, no individual is signed on as
2 a guarantor for the loan. Structures are a little bit more
3 rigid in terms of prepayments, um, might be a little bit higher
4 priced. Loan-to-value on the collateral may be slightly lower.
5 So within Wealth Management lending for commercial real estate
6 transactions with a personal guaranty, we might offer more
7 flexible terms in terms of all of those things, higher
8 loan-to-value, better pricing, more flexibility in terms of
9 repayment.

10 Q And moving on to the "additional criteria." It says
11 "PWM lending will consider a maximum advance rate of up to
12 85 percent, depending upon term, loan covenants, property type,
13 debt service, coverage ratios, and markets in which the property
14 exists." Do you see that?

15 A Yes.

16 Q Which of any of those factors are determinative in the
17 bank's decision to make a loan?

18 A I'm sorry, can you repeat the question.

19 Q Are any of those factors determinative of -- in the
20 bank's decision to make the loan?

21 A Yes, I would say those are all factors.

22 Q Are they all factors that are considered by the bank in
23 its underwriting process?

24 A Yes.

25 Q And do you see where it says, "It is anticipated that

D. Williams - by Defense - Direct (Mr. Suarez) Page 5333

1 this program will appeal to those borrowers who are acquiring or
2 repositioning non-stabilized properties"?

3 A Yes.

4 Q What, if any, view do you have as to whether the loans
5 extended by the Wealth Management Division and guaranteed
6 President Trump satisfied this criteria?

7 A They satisfied this criteria.

8 MR. SUAREZ: Your Honor, I move Defendant's
9 Exhibit 66 into evidence.

10 THE COURT: Granted. It's in.
11 (Defendant's Exhibit 66 was deemed marked and
12 admitted in evidence.)

13 MR. SUAREZ: If we could please pull up pre-marked
14 for identification Defendant's Exhibit 378.
15 (Whereupon, the exhibit was displayed on the
16 screen.)

17 Q Mr. Williams, do you recognize this document?

18 A Yes.

19 Q What is this document?

20 A It's the Private Wealth Management Credit Process Guide
21 from February of 2012.

22 Q Can you please turn to page 17 of this document, which
23 is also page 17 of the exhibit?

24 (Whereupon, the exhibit was displayed on the
25 screen.)

D. Williams - by Defense - Direct (Mr. Suarez) Page 5334

1 MR. SUAREZ: Can we zoom in on section 4.25,
2 Verification of Material Facts.
3 (Whereupon, the exhibit was displayed on the
4 screen.)

5 Q Where it says "It is the credit officer's
6 responsibility to independently verify all material facts
7 pertaining to a credit (e.g., if told that an entity benefits
8 from a statutory guarantee, evidence should be obtained to
9 support this view; if told that a line is fully utilized, this
10 should be checked; if told an entity is a subsidiary of another
11 entity, this should be supported by evidence on the KYC form)
12 these examples are meant to be illustrative rather than
13 exhaustive."

14 What does this mean, Mr. Williams?

15 A This is illustrative or a summary of, um, significant
16 part of our due diligence in which, as it states, we
17 independently verify all material facts as they pertain to a
18 credit transaction.

19 Q And was this process adhered to in connection with the
20 loan made by the Wealth Management Division of Deutsche Bank to
21 the Trump Old Post Office, LLC?

22 A Yes.

23 Q Was it adhered to in the loan made by the Wealth
24 Management Division to 401 North Wabash?

25 A I believe so.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5335

1 MR. WALLACE: Objection.

2 A Yes.

3 MR. WALLACE: Objection. Foundation.

4 THE COURT: I thought you were going to object to
5 leading.

6 MR. WALLACE: It is leading, but I'm trying to let
7 us get through this.

8 THE COURT: So far through his own ingenuity or my
9 liberality, Mr. Suarez has circumvented all your leading
10 objections. He gets it in any way.

11 Was this adhered to in the Wabash loan, was that
12 basically the question?

13 MR. SUAREZ: Yes.

14 THE COURT: Do you want to add leading to the list?

15 MR. WALLACE: I will add leading to the list, your
16 Honor, and I will add that we haven't established which
17 specific loans using the terms Mr. Suarez is using here.

18 THE COURT: We would have to identify the loans a
19 little bit more, or the loan.

20 Q Are you aware of any instance in which Deutsche Bank
21 failed to adhere to its own credit lending guidelines when
22 making loans guaranteed by President Trump?

23 A No.

24 MR. SUAREZ: If you could please turn to page 18.
25 (Whereupon, the exhibit was displayed on the

<p>D. Williams - by Defense - Direct (Mr. Suarez) Page 5336</p> <p>1 screen.) 2 Q Do you see where it says "Principles for writing a 3 credit report"? 4 A Yes. 5 Q Do you see where -- five bullet points down it says 6 "Does the report clearly show how the approved exposures accord 7 with the approved business strategy"? 8 A Yes. 9 Q What is the significance of that principle? 10 A One of the considerations in underwriting a credit 11 request is the overall business strategy as it pertains to the 12 client. 13 Generally speaking, we prefer not to enter into a 14 credit transaction on a stand-alone business basis, but as part 15 of a broader relationship with the bank. 16 Q Are you aware of any facts that Deutsche Bank failed to 17 adhere to that principle when extending credit guaranteed by 18 president Donald Trump? 19 A No. 20 MR. SUAREZ: Your Honor, I move Defendant's 21 Exhibit 378 into evidence. 22 THE COURT: Granted. It's in. 23 (Defendant's Exhibit 378 was deemed marked and 24 admitted in evidence.) 25 Q Are you familiar with a payment default?</p>	<p>Williams - by Defendant - Direct (Suarez) Page 5338</p> <p>1 Q Is the repayment of a loan the bank's primary 2 consideration when underwriting the loan? 3 MR. WALLACE: Objection, leading. 4 THE COURT: Sustained. 5 Q Why is the bank concerned with a repayment on its 6 loans? 7 A When we make a loan I would say that's a key or 8 perhaps the primary consideration, is how we are anticipating 9 or expecting to be repaid in full. 10 Q And how does that affect the bank's reaction to a 11 payment default as opposed to a covenant default; if at all? 12 A A covenant default would occur if the client or 13 borrower failed to adhere to a particular covenant. Covenants 14 are generally set at the loan's origination as guardrails; an 15 opportunity to come back to the table, so to speak, with the 16 client in the event a covenant default is triggered. 17 A payment default alternatively speaks, again, 18 definitively to client's ability to repay the loan. 19 Q Can you describe what you mean by a guardrail that 20 permits the bank to come back to the table? 21 A I can provide an example. 22 Q Sure. 23 A We may require a guarantor to maintain a minimum 24 level of stated net worth. If throughout the life of the loan 25 the guarantor fails to adhere to that minimal requirement, it</p>
<p>Page 5337</p> <p>1 A Yes. 2 Q What is a payment default? 3 (Whereupon, the exhibit displayed on the screen was 4 taken down.) 5 A It's when a client or a borrower fails to make a timely 6 payment on a loan. 7 Q Are you familiar with a covenant default? 8 A Yes. 9 Q What is a covenant default? 10 A When a borrower or client fails to adhere to 11 requirements of a particular financial or reporting covenant. 12 Q What, if anything -- withdrawn. 13 How, if at all, does the bank react differently to a 14 payment of default as opposed to a covenant default? 15 A Generally speaking, a payment default is a more 16 material default than a covenant default. 17 Q Why is that? 18 A It speaks definitively to the repayment of the loan. 19 (Continued on the next page.) 20 21 22 23 24 25</p>	<p>Williams - by Defendant - Direct (Suarez) Page 5339</p> <p>1 gives us an opportunity to discuss that with the client, better 2 understand what may have triggered that default, and then 3 determine a course of action going forward. 4 Q What, if any, payment default on a credit facility 5 guaranteed by President Trump are you familiar with? 6 A I am not aware of any payment defaults. 7 Q What, if any, covenant default are you aware of with 8 respect to a credit facility guaranteed by President Trump? 9 A I am not aware of any covenant defaults. 10 MR. SUAREZ: Let's please pull up Plaintiff's 11 Exhibit 293, previously in evidence. 12 (Handing) 13 MR. SUAREZ: Can you please turn to page five of 14 this document? Which is page five of the exhibit, page 15 four of the document. And focus on the section in the 16 bottom of the page labeled "liquidity." 17 Q Do you see where it says on December 20, 2011, a 18 structured lending team of Dave Williams and Emily Schroder 19 visited the offices of the guarantor and reviewed bank and 20 brokerage statements that confirmed 178 million in cash 21 balances and 51.8 million marketable securities; totaling 22 229 million held in the name of the guarantor. In addition, 23 they also reviewed statements for operating companies that were 24 wholly owned by the guarantor, which evidenced another 25 29 million cash and marketable securities?</p>

Williams - by Defendant - Direct (Suarez) Page 5340

1 A Yes.

2 Q What role, if any, did you have in connection with

3 loans guaranteed by President Trump in 2011?

4 A So I was not otherwise involved, but I was here in

5 Manhattan on that date. Our manager at the time, Tom Sullivan,

6 was otherwise unavailable, so he asked me to accompany

7 Ms. Schroder on that visit to the client's offices.

8 Q And did -- did you, in fact, visit the offices of

9 President Trump on that day?

10 A Yes.

11 Q How long did you spend at the office?

12 A I would say 90 minutes.

13 Q Who did you meet with at the office?

14 A The one person I recall was Allen Weisselberg.

15 Q What documents did you review?

16 A The bank and brokerage statements referenced in the

17 exhibit, as well as Mr. Trump's personal tax returns.

18 Q Why did you endeavor to verify the bank and brokerage

19 accounts containing cash?

20 A So that goes back to the credit policy that we

21 previously discussed with respect to verification of any

22 material facts. Client had reported certain amount of

23 liquidity on his financial statements, and this was simply part

24 of the process of verifying the amounts of those accounts.

25 MR. SUAREZ: If we could turn to the next page.

Williams - by Defendant - Direct (Suarez) Page 5341

1 Q And focus in on the last sentence of the first

2 paragraph, where it says: The guarantor has indicated that

3 they have received tax opinions supporting the treatment of

4 such deposits and are not required to be included as part of

5 taxable income. However, for purposes of calculating adjusted

6 liquidity we have elected to include net 50 percent reserve

7 (94 million representing 54 -- excuse me. (94 million

8 representing 50 percent of the 188 million life-to-date deposit

9 balance) against the reported liquidity.

10 What does an adjusted liquidity mean?

11 A So again, this predated my involvement. But as the

12 exhibit states, this is referring to membership deposits. So,

13 there was some adjustment that was made to account for the fact

14 that these were not necessarily owned or held by Mr. Trump.

15 Q What, if anything, does this reflect concerning the

16 bank's own due diligence of the guarantor's reported liquidity?

17 A I believe this is all part of our due diligence

18 process and the adjustments that I spoke of previously.

19 Q And how did the lending underwriters react, if at

20 all, to a 50 percent adjustment of cash-on-hand?

21 A I couldn't say.

22 Q Was it important to confirm the guarantor's liquidity

23 in connection with an underwriting?

24 MR. WALLACE: Objection, leading.

25 THE COURT: Sustained.

Williams - by Defendant - Direct (Suarez) Page 5342

1 Q What importance, if any, did the underwriting of the

2 guarantor place on a 50 percent discount in his stated

3 liquidity?

4 MR. WALLACE: Objection, both on foundation and

5 he said he wasn't involved in the underwriting, and

6 clarity.

7 THE COURT: I don't see the relevance here, but

8 go ahead, Mr. Suarez.

9 MR. SUAREZ: He said he was involved in the

10 visit to confirm the cash. And that he is an underwriter

11 familiar with Deutsche Bank's Private Wealth Management

12 Group, now the Wealth Management Division's underwriting

13 guidelines.

14 THE COURT: I'll overruled myself. I

15 understand. All right. Let's just get an answer.

16 Do you need a readback?

17 THE WITNESS: Please.

18 THE COURT: Read it back, please.

19 (Whereupon, the record was read back by the

20 court reporter.)

21 THE COURT: The question was, "did the

22 underwriter," right?

23 MR. SUAREZ: Correct.

24 THE COURT: He wasn't the underwriter, correct?

25 MR. SUAREZ: It is the underwriting of the

Williams - by Defendant - Direct (Suarez) Page 5343

1 guaranty by the underwriter. I'll try to rephrase it.

2 Q What, if any, importance was placed by the

3 underwriter on the fact that the guarantor's stated liquidity

4 was adjusted by 50 percent?

5 MR. WALLACE: I am going to object again. He is

6 being asked -- it is just not clear to me if he is being

7 asked what another person who was the underwriter placed

8 on the importance of the question. It is just unclear to

9 me what the witness is being asked.

10 THE COURT: Let's try to get to the heart of the

11 matter.

12 Were you the underwriter on this loan?

13 THE WITNESS: No, sir.

14 THE COURT: Would you know what the underwriter

15 thought about this adjustment?

16 THE WITNESS: Not necessarily.

17 THE COURT: Objection sustained.

18 Q In your experience as an underwriter with the Wealth

19 Management Division, what, if any, reaction would you have to a

20 guarantor's stated liquidity being reduced by 50 percent?

21 A So, I think it is atypical, but not entirely unusual,

22 just depends on the circumstances.

23 Q What, if anything, does the adjustment of the stated

24 liquidity, in your experience as an underwriter at Deutsche

25 Bank -- withdrawn.

Williams - by Defendant - Direct (Suarez) Page 5344

1 We will slice that one later.
2 Are you aware of how --
3 MR. SUAREZ: If we can turn to the first page of
4 this document?
5 Q Are you familiar with an entity named Trump Endeavor
6 12 LLC?
7 A Yes.
8 Q How are you familiar with that entity?
9 A That was one of the borrowers for one of our loans or
10 credit transactions.
11 Q What was the collateral for the loan made to the
12 Trump Endeavor 12 LLC entity?
13 A As stated here in the exhibit, it is the first
14 mortgage lien and first priority security interest in the Doral
15 Golf Resort and Spa located in Miami, Florida.
16 MR. WALLACE: Can I note, to clarify for the
17 record, that Trump Endeavor 12 LLC does not appear on the
18 page that we are looking at?
19 MR. SUAREZ: Sure it does.
20 MR. WALLACE: Where?
21 The borrower is TBD SPV acceptable lender.
22 MR. SUAREZ: Okay. Let's scroll up.
23 Q Are you aware what entity the SPV acceptable lender
24 ultimately was for the loan collateralized for the Doral Golf
25 Course?

Williams - by Defendant - Direct (Suarez) Page 5345

1 A Ultimately it was Trump Endeavor.
2 Q That's Trump Endeavor 12 LLC?
3 A Yes.
4 Q Is that a loan that the Wealth Management division
5 made to that entity for the purposes of acquiring a golf course
6 in Doral?
7 A Yes.
8 Q May we refer to that as the Doral loan?
9 A Fine by me.
10 Q Okay.
11 MR. SUAREZ: If we turn to Plaintiff's Exhibit
12 290.
13 Q Do you see there it says: Borrower, Trump Endeavor
14 12 LLC?
15 A Yes.
16 MR. SUAREZ: And then if we scroll down.
17 Q Do you see where it says: The collateral property
18 consists of a 622-acre golf course and spa that includes four
19 tournament class golf courses; and goes on to list additional
20 characteristics of the golf course?
21 A Yes.
22 Q And the resort?
23 A Yes.
24 Q Is that consistent with your understanding of the
25 Trump Doral loan?

Williams - by Defendant - Direct (Suarez) Page 5346

1 A Yes.
2 Q Are you familiar with the concept of a step-down?
3 A Yes.
4 Q What is a step-down?
5 A I believe in the context you are referring to, it
6 pertains to a step-down of a personal guaranty.
7 MR. SUAREZ: Can we please turn to Plaintiff's
8 Exhibit 291?
9 (Handing)
10 Q Mr. Williams, are you familiar with a borrower 401
11 North Wabash Venture LLC?
12 A Yes.
13 Q How are you familiar with that borrower?
14 A It was one of three loans that we ultimately extended
15 to Mr. Trump.
16 Q If I refer to this loan as the Trump Chicago loan or
17 the Chicago loan, will you understand what I am referring to?
18 A Yes.
19 Q Was there a step-down in the Trump Chicago loan?
20 A I believe so, yes.
21 Q Was there a step-down in the Doral loan?
22 MR. WALLACE: Objection, leading.
23 THE COURT: Sustained. It does suggest the
24 answer and it is a yes or no question.
25 Q What, if anything, are you aware of concerning the

Williams - by Defendant - Direct (Suarez) Page 5347

1 existence of a step-down in the Trump Doral loan?
2 A I believe that loan had a step-down provision as
3 well.
4 Q Are step-down provisions consistent with the Wealth
5 Management Group's approved business strategies?
6 MR. WALLACE: Objection, leading.
7 Q How, if at all, are step-down's consistent with
8 Deutsche Bank's Wealth Management Group's approved business
9 strategies?
10 A They are considered from time to time.
11 Q On what basis are step-down provisions approved by
12 the Wealth Management Group?
13 A Typically it depends on the strength of the
14 collateral, specifically the loan-to-value. If the
15 loan-to-value is lower we might be inclined to consider a
16 step-down or perhaps no personal guaranty.
17 Q Why is that?
18 A If the loan-to-value against the collateral is lower,
19 then arguably there is less reliance on the personal guaranty.
20 Q And what, if anything, does the loan-to-value of the
21 collateral affect the bank's consideration on whether to agree
22 to a step-down on the guaranty?
23 A Can you rephrase the question?
24 Q How, if at all, is the bank's decision to agree to a
25 step-down impacted by the quality of the collateral?

Williams - by Defendant - Direct (Suarez) Page 5348

1 A So, again, the lower the loan-to-value, the more
2 inclined we might be willing to consider a partial guaranty or
3 perhaps no guaranty.
4 Q Why is that the case?
5 A Again, because there is arguably less reliance on the
6 personal guaranty, more on the collateral. Is the collateral
7 sufficiently strong enough to support the loan perhaps, without
8 the addition of the personal guaranty.
9 Q And how, if at all, does the likelihood of repayment
10 affect the bank's decision to agree to a step-down on a
11 guaranty?
12 A That can also be a factor, as determined by,
13 typically, debt service coverage of a particular property type
14 or collateral.
15 Q And how, if at all, is that consistent with the
16 Wealth Management Group's approved business strategies?
17 A It is consistent.
18 MR. SUAREZ: We can bring up PX-290, which is
19 already in evidence. And turn to page four of 20. And
20 zoom in on the section that says "guaranty."
21 Q Do you see where it says: Donald Trump shall
22 continue to personally guarantee a percentage of principal,
23 interest and operating shortfalls. However, the percentage of
24 such guaranty shall be maintained in accordance with the
25 defined LTV range as indicated in the table below?

Williams - by Defendant - Direct (Suarez) Page 5349

1 A I see that.
2 Q Is that consistent with your understanding of a
3 step-down?
4 A Yes check
5 Q It says: Any reduction in such guaranty levels will
6 be considered permanent, unless the guarantor elects to
7 increase the guaranty level for purposes of curing any
8 shortfalls in accordance with the max LTV requirement.
9 Do you see that?
10 A Yes.
11 Q Is that consistent with your understanding of a
12 step-down?
13 A Yes.
14 Q From a lending perspective, why, if at all, are
15 step-downs an appropriate business term?
16 A So I think previously we discussed flexibility of
17 wealth management lending relative to conduit financing, which
18 requires no personal guaranty. So I would consider this as
19 sort of a hybrid between conduit financing, which requires no
20 personal guaranty, and wealth management lending, which
21 generally requires a personal guaranty.
22 Q How does a reduction in the guaranty level affect, if
23 at all, the minimum net worth covenant on the Doral loan?
24 A It doesn't affect it.
25 MR. SUAREZ: Can we please turn to page five of

Williams - by Defendant - Direct (Suarez) Page 5350

1 20? We can zoom in here on required net worth.
2 Q It says: Guarantor shall maintain a net worth of not
3 less than the product of X, \$2.5 billion, times Y, the
4 applicable guaranty level.
5 Are you familiar with the Trump Chicago loan had a
6 different provision here on the required net worth?
7 A Yes, now that you are showing that to me, I am
8 reminded of that.
9 Q And that's, to be clear, that's the Trump Chicago
10 loan term?
11 MR. SUAREZ: No. I am sorry. Let me rephrase
12 that.
13 Q Do you see on the left it says: At all times during
14 the term of the loan --
15 MR. SUAREZ: And it might be helpful if we
16 scroll up to the top of page two where it says "facility
17 details." Page two of the exhibit.
18 Q And this was a reference to the Trump Doral, correct?
19 A Yes. At this time or this memo pertains to the Trump
20 Doral facility, which, I believe at this time was the only
21 credit facility we had in place.
22 Q And the terms were revised, correct?
23 A Yes, that appears to be the case.
24 Q Okay.
25 MR. WALLACE: I would like to note a foundation

Williams - by Defendant - Direct (Suarez) Page 5351

1 objection, since I believe this document dates prior to
2 the time that the witness said he was working on the loans
3 for the Trump Organization, which is 2014.
4 THE COURT: Couldn't he know if they were
5 revised later?
6 MR. WALLACE: I am not suggesting that he might
7 not. I am asking if there is a foundation to establish
8 his familiarity with the information contained in the
9 document.
10 THE COURT: Okay. Let's get a foundation.
11 Q Have you become familiar with the terms of the Trump
12 Doral loan?
13 A Yes.
14 Q How have you become familiar with the terms of the
15 Trump Doral loan?
16 A So, once I got involved in the day-to-day of this
17 relationship in, again as I recall, it was in 2014, it was my
18 responsibility to become familiar with the terms of the entire
19 relationship and the history.
20 MR. SUAREZ: And on that basis I would ask about
21 changes to the loan part of his involvement?
22 THE COURT: Well, I guess there might be one
23 more foundation question.
24 Are you familiar with the history of the loan?
25 MR. SUAREZ: I believe he just said he was.

Williams - by Defendant - Direct (Suarez) Page 5352

1 THE COURT: Okay.
2 MR. SUAREZ: I can follow up.
3 THE COURT: All right. Just go ahead.
4 Q Are you familiar with the history of the loan and how
5 it has performed?
6 A I am reasonably familiar, yes.
7 Q And again, I would like to draw your attention to
8 page five. And on the left-hand column it says: At all times
9 during the term of the loan the guarantor must maintain a net
10 worth of no less than 2.5 billion.
11 Do you see that?
12 A I see that, yes.
13 Q And then on the next column there is a revision that
14 says: At all times during the term of the loan the required
15 net worth has a step-down on the net worth covenant.
16 Do you see that?
17 A Yes.
18 (The following proceedings were stenographically
19 recorded by Senior Court Reporter Michael Ranita.)
20
21
22
23
24
25

D. Williams - by Defense - Direct (Mr. Suarez) Page 5354

1 bears your signature?
2 A So in Wealth Management lending, we sign in support of
3 any given or particular transaction.
4 MR. SUAREZ: If we could turn to page three of this
5 document.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q At the top it says "Guaranty type." Do you see there
9 where it says "Based on the updated appraised of 366 million,
10 the current LTV is 34 percent, which would drop Donald Trump's
11 personal guarantee in full (this was documented at the loan's
12 origination). However, Trump has requested to maintain a ten
13 percent guarantee on the combined loan amount of both tranches
14 resulting in the facility being priced at L plus 1.75 percent.
15 Retaining a ten percent guaranty level clearly strengthens the
16 credit."
17 A I see that, yes.
18 Q What does that mean?
19 A So based on an appraisal updated appraisal of the
20 collateral property received at this time, the LTV was
21 34 percent, which brought it below the maximum LTV of 35 percent
22 that would have -- above which would have required his
23 guarantee, personal guaranty. There was some optionality to
24 that, um, wherein if he decided to retain or offer to continue
25 to maintain his personal guaranty, pricing would have been

D. Williams - by Defense - Direct (Mr. Suarez) Page 5353

1 Q Is the change in the required net worth covenant
2 consistent with Deutsche Bank's approved business strategies?
3 MR. WALLACE: Objection. Leading.
4 THE COURT: Sustained.
5 Q What, if anything, is consistent with the change in the
6 required net worth covenant with Deutsche Bank's approved
7 business strategies?
8 A I go back to my earlier answer when I said net worth is
9 typically not a consideration for a step-down. Um, it appears
10 that at some point, the date of this memo, um, it was determined
11 that that was an appropriate change to make.
12 MR. SUAREZ: If we could pull up Plaintiff's
13 Exhibit 2960.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 MR. SUAREZ: Previously admitted into evidence.
17 Q If you could take a look at page four of this document,
18 the signature sections. Do you identify the signature above
19 where it says "Dave Williams"?
20 A I do.
21 Q Is that your signature?
22 A Yes.
23 Q Are you familiar with this document?
24 A Yes.
25 Q And what, if anything, does it mean that this document

D. Williams - by Defense - Direct (Mr. Suarez) Page 5355

1 reduced by, I think it was about ten basis points, .10 percent.
2 Q And what, if anything, does the report show about how
3 the bank's proved exposure on this loan accorded with the banks
4 approved business strategy?
5 A I'm not sure that it does.
6 Q Is anything in this report inconsistent with -- let me
7 rephrase that.
8 What, if anything, is inconsistent with the bank making
9 its own analysis with respect to an approved business strategy
10 of the bank?
11 A I mean, when I think of a business strategy, I'm not
12 necessarily thinking about, um, the guaranteed level on a loan.
13 I'm thinking more about the individual's broader relationship
14 with the bank.
15 Q And what does it mean that the guarantor is requesting
16 to maintain ten percent of the guarantee level?
17 A So, again, as I recall, it was some optionality to the
18 personal guaranty where if we retain some percentage of
19 guarantee, the pricing -- the credit facility was reduced
20 somewhat.
21 MR. SUAREZ: If we could turn to page two of this
22 report, the section where it says "interest rate."
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q Does this section, which says, "L plus 1.75 percent or

D. Williams - by Defense - Direct (Mr. Suarez) Page 5356

1 prime minus .75 percent, with step-up to L plus two percent or
 2 prime minus .5 percent, if guaranty level falls below ten
 3 percent, see below?
 4 A I see that, yes.
 5 Q Is that the optionality that you were describing?
 6 A Yes.
 7 Q What is the affect on the interest rate of terminating
 8 the guaranty, if any?
 9 A So the interest rate was scheduled to increase from
 10 LIBOR plus 1.75 percent to LIBOR plus two percent. So a
 11 difference of 25 basis point .25 percent.
 12 MR. SUAREZ: Let's turn to Plaintiff's Exhibit 294.
 13 (Whereupon, the exhibit was displayed on the
 14 screen.)
 15 MR. SUAREZ: If we could turn to page 11 of this
 16 document -- of the exhibit.
 17 (Whereupon, the exhibit was displayed on the
 18 screen.)
 19 Q Mr. Williams, do you recognize your signature on this
 20 page?
 21 A I do.
 22 Q Does it appear above the line where it says "Dave
 23 Williams"?
 24 A It does.
 25 Q And what does your signature on this credit report

D. Williams - by Defense - Direct (Mr. Suarez) Page 5357

1 mean?
 2 A Again, that as a -- someone in lending, or lender, I've
 3 signed on in support of this transaction.
 4 MR. SUAREZ: If we could go back to page one of the
 5 report.
 6 (Whereupon, the exhibit was displayed on the
 7 screen.)
 8 Q What is the purpose of this report?
 9 A So in the reason for presentation it describes three
 10 things, annual review of the Trump Endeavor loan, annual review
 11 -- increase of the Chicago loan, and the approval of the Trump
 12 Old Post Office loan.
 13 Q And the Trump Old Post Office loan, that's the Trump
 14 OPO loan that we discussed earlier; correct?
 15 A Yes.
 16 Q Was a step-down present in the Chicago loan?
 17 A Yes, I believe so.
 18 MR. SUAREZ: Can we take a look at page six of
 19 Plaintiff's Exhibit 294.
 20 (Whereupon, the exhibit was displayed on the
 21 screen.)
 22 MR. SUAREZ: Actually, let's start at page five.
 23 (Whereupon, the exhibit was displayed on the
 24 screen.)
 25 Q Do you see at the top where it says Loan B, 401 North

D. Williams - by Defense - Direct (Mr. Suarez) Page 5358

1 Wabash Venture, LLC?
 2 A Yes.
 3 Q The second column has the original approved terms; is
 4 that right?
 5 A Yes.
 6 Q And the second column -- excuse me, the third column
 7 has the proposed revised terms?
 8 A Yes.
 9 Q Why would the loan terms be revised during the term of
 10 the loan?
 11 A So one of the reasons for presentation, as mentioned,
 12 was to review, but also to increase the loan amount for this
 13 particular facility, the Chicago Facility. So at that time it
 14 would not be unusual to revisit some of the original terms.
 15 MR. SUAREZ: If we could turn to page six.
 16 (Whereupon, the exhibit was displayed on the
 17 screen.)
 18 Q Do you see the section where it says "Guaranty"?
 19 A Yes.
 20 Q And the second column it says, "Donald Trump to
 21 personally guarantee a hundred percent of the principal,
 22 interest and operating shortfalls."
 23 A Yes.
 24 Q And do you see in the third column there is a change to
 25 that term?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5359

1 A Yes.
 2 Q It says, "Donald Trump shall continue to personally
 3 guarantee a percentage of principal, interest and operating
 4 shortfalls. However, once the principal balance of the loan
 5 falls below \$45 million, the percentage of such guaranty shall
 6 be maintained in accordance with defined LTV range as indicated
 7 in the table below. Any reduction in such guaranty levels will
 8 be considered permanent, unless guarantor elects to increase the
 9 guaranty level for purposes of curing any shortfalls in
 10 accordance with the max LTV requirement."
 11 Why would the bank agree to that change in the loan
 12 term?
 13 MR. WALLACE: I'm just going to note my objection
 14 to the "would" as opposed to why did the bank agree to the
 15 change in the loan term.
 16 Q I'm happy to restate it.
 17 Why did the bank agree to the loan -- the change in the
 18 loan term?
 19 A I believe it was in response to similar changes that we
 20 had made at this point -- by this point on the Doral loan, the
 21 Trump Endeavor loan.
 22 Q And how, if at all, would providing a step-down on the
 23 guaranty be consistent with the bank's approved business
 24 strategy?
 25 A So, again, it's consistent in certain cases.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5360

1 MR. SUAREZ: And if we could turn to page seven.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q Again, in the second column you'll see the original
5 guarantor covenants. And on the third column you see the
6 revised covenants.
7 A Yes.
8 Q What effect does a step-down on the guaranty have to
9 the minimum liquidity covenant on this loan?
10 A So it appears as long as the guarantor held certain
11 amounts of unencumbered liquidity, and a portion of that at
12 Deutsche Bank, the guarantor's guaranty level would step-down.
13 Q At ten percent -- at a ten percent guarantee level,
14 what was the unencumbered liquidity covenant for the guarantor?
15 A Five million.
16 Q And how much in that liquidity was required to be held
17 with Deutsche Bank at a ten percent guarantee level?
18 A All of it, or 5 million.
19 THE COURT: A five-minute warning.
20 Q Why did Deutsche Bank require a -- withdrawn.
21 Why did Deutsche Bank require certain of the
22 guarantor's liquidity be held with Deutsche Bank?
23 A That's consistent with establishing a business strategy
24 for the client. Again, as previously noted, we would rather
25 make a loan with the prospect of it being made as part of a

D. Williams - by Defense - Direct (Mr. Suarez) Page 5361

1 broader non-credit relationship with a client.
2 Q Was the guaranty on the Chicago loan ever terminated?
3 A Yes.
4 MR. SUAREZ: Can we take a look at Plaintiff's
5 Exhibit 298.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 MR. SUAREZ: At page four.
9 (Whereupon, the exhibit was displayed on the
10 screen.)
11 Q Do you see the section that where it says "Guaranty"?
12 A Yes.
13 Q See where it says "Guaranty NA, Donald Trump's personal
14 guaranty has been eliminated due to the fact that the facility
15 LTV is below the 35 percent threshold." Then it says, "based on
16 the latest appraisal completed, the hotel collateral was valued
17 at 133 million, which results in a 34 percent LTV?"
18 A Yes.
19 Q How, if at all, was the termination of the guarantee on
20 the Chicago loan consistent with the bank's approved business
21 strategy?
22 A It was consistent with the strategy that was originally
23 set out when the loans were originated.
24 MR. SUAREZ: If we turn to page seven of this
25 document.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5362

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q Do you recognize your signature on this page?
4 A Yes.
5 Q What does your signature on this page mean?
6 A That I signed in support of this particular credit
7 memo.
8 MR. SUAREZ: Your Honor, I'm at a good place in my
9 outline to take our break.
10 THE COURT: Okay. We'll tack on another two
11 minutes and see you all at 11:35.
12 (Whereupon, a 15-minute break was agreed upon and
13 taken by all parties.)
14 THE COURT OFFICER: All rise. Part 37 is back in
15 session. Please be seated and come to order.
16 THE COURT: Okay. Do we have our witness?
17 THE COURT OFFICER: Witness entering.
18 (Whereupon, the witness stepped into the witness
19 stand.)
20 THE COURT: At the start of the break I forgot to
21 admonish the witness not to talk to anybody about his
22 testimony, or this case, or anything related. I trust and
23 assume he didn't, so let's just proceed with the direct
24 examination.
25 Q Mr. Williams, if we could please go back to Plaintiff's

D. Williams - by Defense - Direct (Mr. Suarez) Page 5363

1 Exhibit 294.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 MR. SUAREZ: If we could turn to the second page.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q "Assets under management." Do you see where the credit
8 report states that "Donald J. Trump had 40.4 million in cash
9 deposits"?
10 A Yes.
11 Q How, if at all, does that accord with the bank's
12 approved business strategy?
13 A It's consistent in that, again, when we were making a
14 loan, we looked to establish a broader non-credit relationship
15 with the client.
16 MR. SUAREZ: If we could turn to page seven of the
17 loan.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q What is the effect, if any, of the termination of the
21 Doral guaranty on the minimum liquidity covenant?
22 A This appears to be in the document referring to the
23 Chicago loan on page five.
24 Q I'm sorry. That's correct.
25 MR. SUAREZ: If we could go back to page four.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5364

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q Do you see where it says, "The DSC covenant shall be
4 increased to correspond with the defined step-downs in the
5 guaranty levels as indicated in the chart below." What does
6 that mean?
7 A So it looks like we were just adjusting this covenant
8 so that it was consistent with, um -- it was just adjusted to
9 correspond with adjusted guaranty levels.
10 Q What is the effect of the termination of the guaranty
11 level on the DSC covenant?
12 A Can you repeat the question.
13 Q Sure. What, if any, effect on the DSC covenant results
14 from the termination of the guaranty on the Doral loan?
15 A So it looks like anytime the debt service coverage was
16 in excess of 1.25 times, the guaranty level reduced to zero, if
17 that's what you are asking.
18 Q Yes.
19 MR. SUAREZ: If you could turn to page ten.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 MR. SUAREZ: To the section that says
23 "recommendation."
24 (Whereupon, the exhibit was displayed on the
25 screen.)

D. Williams - by Defense - Direct (Mr. Suarez) Page 5365

1 Q Do you see where it says, "Approval of (i) the annual
2 review for Facility A (Doral), (ii), the modification increase
3 to Facility B (Trump Chicago Hotel)", and then it says (ii)
4 again, "the origination of Facility C (Trump Old Post Office)
5 are being recommended based on"?
6 A Yes, I see that.
7 Q And then it says, "financial strength of the guarantor.
8 The financial profile of the guarantor includes, on an adjusted
9 basis, a net worth of 2.6 billion with 154.5 million in
10 unencumbered liquidity."
11 A Yes, I see that.
12 Q What does "on an adjusted basis" mean?
13 A That refers to our credit underwriting and due
14 diligence process in which we make adjustments to client's
15 financial statements and stated net worth.
16 Q How, if anything, does the adjusted basis -- withdrawn.
17 How, if at all, does the adjusted basis reflect the
18 bank's own analysis of the guarantor's financial strength?
19 A Um, it reflects our analysis.
20 Q And then in operating experience it says, "DJT's
21 extensive experience in operating private golf country clubs.
22 His current portfolio includes 13 such clubs, with a reported
23 value of 1.66 billion, and DB adjusted value of 680.6 million"?
24 A Yes.
25 Q What does "DB adjusted value" mean?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5366

1 A So that's the value that's reflective of any
2 adjustments that we might have made to the value of those
3 certain assets.
4 Q And how, if at all, was a difference of almost
5 \$1 billion between the reported value and the DB adjusted value,
6 impact the underwriting?
7 A So it's part of the underwriting process, as I
8 mentioned earlier. It's a conservative measure to make these
9 adjustments. You might even say it's a stress test to ensure
10 that even after these adjustments, the guarantor exhibits a
11 certain level of financial strength that can support the loan.
12 Q And how, if at all, did you react to the reduction by
13 almost \$1 billion of the reported value of the guarantor's club
14 portfolio from the DB adjusted value of 680 million?
15 A I don't recall having any particular reaction. I would
16 say that was not an unusual adjustment.
17 Q Then it says, "DB relationship." It says, "DJT
18 continues to develop his relationship with DB as Facility B will
19 be the fourth credit facility we have originated with him or his
20 family (three with DJT, one with DJT, Jr.) DJT has transferred
21 40 million in liquidity to DB, and has indicated he is
22 interested in continued -- to grow his noncredit relationship
23 with the firm." Do you see that?
24 A I see that, yes.
25 Q What does "noncredit relationship with the firm" mean?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5367

1 A By its definition, it's anything that is not credit
2 related. So in this case it's referring to deposits or other
3 liquid assets that are held at Deutsche Bank.
4 MR. WALLACE: I apologize, your Honor. When that
5 got read into the record, it was read Facility B instead of
6 Facility C.
7 MR. SUAREZ: I think I said "Facility C." If I
8 misspoke. I apologize.
9 MR. WALLACE: I just wanted to correct it.
10 THE COURT: It's corrected for the record.
11 Q How is Facility C a continued development of the
12 relationship with Deutsche Bank?
13 A So, as it stated. It happened to be the fourth credit
14 facility we were originating with Mr. Trump, or his family.
15 Q How, if at all, does the fact that Facility C was the
16 fourth credit facility originated with President Trump or his
17 family support the recommendations contained in this credit
18 report?
19 A I think it was indicative of the growing or expansive
20 nature of the overall relationship and our comfort with it.
21 Q Then going down to Facility A, it says, "Equity
22 injection of the guarantor: While the initial equity injection
23 of the guarantor was estimated at 50 million, we have been told
24 that the estimate has been increased to anywhere from 150
25 million to 160 million, with approximately 30 million already

Page 5368

1 invested."
2 A I see that, yes.
3 Q How did that support the recommendation with respect to
4 Facility A, if at all?
5 A So as noted, this was an annual review of Facility A.
6 It had already been on-the-books, so to speak, for a number of
7 years, and this statement is indicative of the amount of equity
8 Mr. Trump put into the project, the Doral project, with which we
9 would take some comfort, because that reduces -- would reduce
10 the amount of the loan facility that he would need. Said
11 another way, he is putting more of his own money in and less of
12 ours.
13 (Continued on the next page.)
14
15
16
17
18
19
20
21
22
23
24
25

Page 5369

1 Q And why does the fact that the guarantor is putting
2 more of his own money in provide the bank a level of comfort?
3 A He has more at stake in that particular asset and
4 transaction.
5 Q You see it goes on to say: Inspected enhanced value
6 due to Capex?
7 And it says: The resort is a world class location
8 that has been home to a PGA event every year since the resort
9 opened in 1962. As DJT expects to invest approximately
10 150-160 million in capital improvements, it is expected that
11 the value of our collateral will increase significantly over
12 the term of the facility?
13 A I see that, yes.
14 Q How did that impact the recommendation contained in
15 this credit report with respect to Facility A?
16 A So in conjunction with the capital improvements that
17 Mr. Trump was putting in personally through his own financial
18 resources, as a result of those the anticipation was that we
19 would expect to -- could reasonably expect to see some
20 increased value in the property over time. Particularly since
21 up to that time it had hosted a professional golf event every
22 year for the previous 60 years.
23 MR. SUAREZ: If we could turn to page 12 of this
24 document?
25 THE WITNESS: Would it be possible to see it on

Page 5370

1 this screen?
2 MR. SUAREZ: Sure. If you notice there is page
3 ten which has the recommendations and then --
4 THE COURT: I think he means the screen right in
5 front of him.
6 THE WITNESS: Yes, there is nothing on it.
7 MR. SUAREZ: It looks like we lost the cable
8 then. We might need technical help.
9 THE COURT: A technician, technician.
10 Tommy, is there any way to see if --
11 (Pause)
12 THE COURT: Thank you.
13 Q If you notice, the pagination on the credit report
14 jumps around. Page ten has the recommendations; and then page
15 11 has the signatures; and then page 12, the recommendations
16 appear to continue up top there.
17 And it says: Facility A and B leverage levels
18 required for step-down of the guaranty.
19 It says: The LTV levels required for decrease in the
20 guaranty levels are low enough to ensure that the loan is more
21 than adequately collateralized.
22 What does that mean?
23 A So it is a -- like a restatement or reminder, again
24 this is all part of the annual review of these two facilities
25 that have been on the books, I believe, for some time at this

Page 5371

1 point, that the loan-to-value levels on the properties
2 corresponded with the decrease in the guaranty, such that as
3 the loan-to-value of the collateral for each of these
4 corresponding properties decreased, the guaranty would decrease
5 with that.
6 Q And moving on to Facility B. It says: Property
7 produces sufficient cash flow to support the requested increase
8 in debt at a 1.74X (P&I) and 2.45X (I/O) coverage ratio.
9 How, if at all, is that meaningful to the
10 underwriting decisions in connection with this facility?
11 A So that's one of the underwriting considerations with
12 respect to our due diligence for the collateral property, is
13 its ability to generate sufficient cash flow to cover the
14 repayment of the loan, both on an amortizing or principal and
15 interest basis, as well as an interest only basis. I believe
16 this loan was scheduled for repayment on an interest only
17 basis.
18 Q And how, if at all, is the cash flow generated by the
19 collateral meaningful to the bank's underwriting of a facility?
20 A It is very meaningful.
21 Q And how, if at all, is the cash flow of a guarantor
22 relevant to the bank's underwriting of a proposed credit
23 facility?
24 A It is definitely also a meaningful consideration.
25 Q In Facility B it goes on to say: Quality of the

Williams - by Defendant - Direct (Suarez) Page 5372

1 collateral and LTV. The property is in the form of a luxury
 2 hotel building and nine remaining unsold condominiums located
 3 in downtown Chicago. Based on the recent appraisal completed,
 4 the hotel collateral was valued at 133 million, which would
 5 result in a 55 percent LTV, not taking into account any of the
 6 unsold condos, which are also being pledged as collateral.
 7 How is that consideration meaningful to the decision
 8 to approve the credit recommendation on this credit report?
 9 A It is also an important consideration in that we are
 10 customarily looking for the collateral in a commercial real
 11 estate secured loan as a source of repayment. And this speaks
 12 to the quality and strength of the collateral as a source of
 13 repayment, particularly its location, as well as its value, as
 14 was recently determined by an updated appraisal that resulted
 15 in a moderate to low loan-to-value of 55 percent.
 16 Q And with respect to the accelerated repayment in
 17 addition to amortization, it says: Until the facility is paid
 18 down to a balance of no more than 45 million, the facility will
 19 amortize on a 30-year amortization schedule. In addition,
 20 92 percent of the proceeds of the sale of any of the seven
 21 condos pledged as collateral will be applied to the principal
 22 balance of the loan. It is the borrower's intention to pay
 23 down the facility to 45 million as soon as possible.
 24 How did that impact the credit analysis for this
 25 facility?

Williams - by Defendant - Direct (Suarez) Page 5373

1 A So it was also a consideration in so far as -- As the
 2 loan amount is paid down, the loan-to-value decreases,
 3 therefore, increasing our comfort with the credit.
 4 Q And for Facility C, that was the Old Post Office
 5 loan, correct?
 6 A Yes, that's correct.
 7 Q It says: Equity injection of the guarantor. While
 8 the initial equity injection of the guarantor was established
 9 (sic.) at 42M --
 10 THE COURT: Not established.
 11 MR. SUAREZ: Estimated.
 12 THE COURT: Right.
 13 MR. SUAREZ: Thank you. I am sorry.
 14 Q -- at \$42 million, we have been told that the
 15 estimate has been increased to anywhere from 150-160 million
 16 with approximately 30 million already invested.
 17 Do you see that?
 18 A I see that, yes.
 19 Q How was that relevant to the credit decisions
 20 reflected in this memorandum?
 21 A So, similar to, I believe it was the Doral loan,
 22 Mr. Trump as the guarantor/principal owner, was putting in or
 23 investing a significant amount of his own equity and liquidity
 24 into the project, which gives us an increased level of comfort
 25 given that he has more at stake in this particular transaction.

Williams - by Defendant - Direct (Suarez) Page 5374

1 And it would also conceivably reduce our loan amount because he
 2 is not borrowing that amount, he is putting that amount in from
 3 his own proceeds.
 4 Q And how does that equity injection by the guarantor,
 5 if at all, impact the risk to the bank on that specific credit
 6 facility?
 7 A It arguably reduces our risk if he has got more
 8 invested in his own money. He is certainly less inclined to
 9 see the project fail.
 10 MR. SUAREZ: If we can turn to page 14?
 11 Q Are you familiar with the chart which appears here at
 12 the center of page 14?
 13 A Yes.
 14 Q What does this chart represent?
 15 A It is illustrative of Mr. Trump's reported financial
 16 statements, as well as some adjustments that we made as part of
 17 our standard underwriting and due diligence process.
 18 Q For the year ending June 30, 2013, for the last two
 19 columns from the right side of the page, what does the column:
 20 DJT June 30, 2013 client reported, represent?
 21 A That represents information that was provided with
 22 his June 30, 2013 financial statement, personal financial
 23 statement.
 24 Q And what does the column: DJT June 30, 2013 (DB
 25 adjusted) represent?

Williams - by Defendant - Direct (Suarez) Page 5375

1 A The same financial statement after we apply our
 2 standard adjustments, or they are also referred to as
 3 "haircuts" to the assets and liabilities.
 4 Q And what, if anything, does that column with the DB
 5 adjusted values reflect of Deutsche Bank's own analysis of the
 6 financial statement?
 7 A Again, it is -- it is after we have made what I would
 8 say are generally our standard adjustments that we apply to
 9 really any given high-net-worth individual or
 10 ultra-high-net-worth individual's provided financial
 11 statements.
 12 Q Now, if we start with liquidity, it says that the
 13 guarantor reports liquidity of 339 million as of June 30, 2013
 14 consisting of 150 million in Mr. Trump's name personally and
 15 154 million held in various entities.
 16 THE COURT: I think you misstated the number
 17 there. Didn't you say 150 instead of 185?
 18 MR. SUAREZ: Consisting of -- I can start again
 19 if I was unclear. I don't have the realtime, so I
 20 can't --
 21 THE COURT: I don't either, but I am pretty sure
 22 you said 150 instead of 185.
 23 I am correct I am told.
 24 MR. SUAREZ: All right. I'll withdraw that.
 25 Q In the section that says liquidity, it says: The

Williams - by Defendant - Direct (Suarez) Page 5376

1 guarantor reports liquidity of 339 million as of June 30, 2013
2 consisting of 185 million in Mr. Trump's name personally and
3 154 million held in various entities which Mr. Trump controls.
4 Do you see that?
5 A I do.
6 Q And then the last paragraph says: DB adjusted
7 liquidity represents the amount of liquidity that was verified
8 via statements by Mr. Sullivan and Ms. Schroder on October 21,
9 2013?
10 A I see that, yes.
11 Q Now, when you describe a standard adjustment, what do
12 you mean by that?
13 A I don't see a reference to a standard adjustment.
14 Q I am sorry, I wasn't clear.
15 Earlier when you said that the chart above reflected
16 standard adjustments made by the underwriters, was it the case
17 that the standard adjustments in connection with your -- with
18 the bank's own analysis, as opposed to fixed adjustments that
19 are made to each asset?
20 MR. WALLACE: Objection, leading.
21 THE COURT: Sustained.
22 Q In reviewing the adjustments to the liquidity, what
23 about them are standard?
24 A So for liquidity there may be a difference in the
25 client's reported liquidity as of the date of the financial

Williams - by Defendant - Direct (Suarez) Page 5377

1 statements versus the client's liquidity as of a date, perhaps,
2 sometime after that.
3 In this case it appears that it was October when
4 folks in the underwriting team viewed some financial statements
5 and were -- rather, bank and brokerage statements, that might
6 have had a different amount. Which would not be unusual, given
7 it was several months later.
8 Q When you see an adjustment to the liquidity from the
9 client reported in the chart of 339.1 million to 154 --
10 154.5 million, that's not a fixed adjustment that is made, it
11 is a variable adjustment based on the bank's analysis, correct?
12 A Yes.
13 Q And with respect to the four trophy properties which
14 appear on page 17 -- I am sorry, page 15 of this memorandum, of
15 this exhibit. Page 14 of the document, page 15 of the exhibit.
16 It says: The valuation for each of these properties
17 were discussed with DB Valuation Services Group who advised on
18 adjustments for each.
19 A I see that.
20 Q What is DB Valuation Services Group?
21 A It was a group that I believe sat within the
22 investment bank at Deutsche Bank.
23 Q And how, if at all, did they provide input into the
24 underwriting on the loans reflected in this memorandum?
25 A So this, again, this predated my involvement. But my

Williams - by Defendant - Direct (Suarez) Page 5378

1 understanding is they were consulted in particular with respect
2 to these four, as they were referred to, trophy properties and
3 the valuation of those properties.
4 Q And how, if at all, were the values reported by the
5 guarantor adjusted by the DB Valuation Services Group?
6 A Based on the memo I am reminded that in one
7 particular case there was a recent appraisal that we were privy
8 to that resulted in an adjustment. That's one particular
9 example of where or how an adjustment was made.
10 Q Was that a standard adjustment?
11 A I think if information was available that could
12 augment our analysis and adjustment of a particular property,
13 then yeah, I would say that that was typical.
14 Q What judgment, if any, did the underwriters use to
15 adjust the basis of value for client reported assets?
16 A So I think it was -- the underwriters were
17 particularly relying on the Valuation Services Group, given
18 this is their level of expertise -- rather, their area of
19 expertise.
20 Q Why was the DB Valuation Services Group's area of
21 expertise relevant to the underwriting of these loan
22 facilities?
23 MR. WALLACE: Can I just note a foundation
24 objection? I also think this memo is from before the
25 witness was working on the loans. So, it is unclear, he

Williams - by Defendant - Direct (Suarez) Page 5379

1 is talking about the actual preparation of this memo or
2 general bank procedures?
3 THE COURT: Is that either/or? We can ask one
4 way or ask it the other way?
5 MR. WALLACE: I think that the question should
6 just be clear as to whether they are asking about the
7 preparation of this memo and whether the witness had
8 involvement in it; or if he is being asked about general
9 bank practices with this; as the foundation for the
10 question.
11 MR. SUAREZ: The witness signed this memo.
12 THE COURT: He signed it?
13 MR. KISE: Yes.
14 THE COURT: Okay. I think that resolves that.
15 MR. GABER: I believe he said this portion here
16 on trophy properties predated his involvement. He was not
17 involved in this. Perhaps we can seek clarification as to
18 whether he was involved in this part of the underwriting
19 and adjustment?
20 THE COURT: How could he sign it if he -- if it
21 predated him? What am I missing? Let's hear it from the
22 witness, the horse's mouth.
23 THE WITNESS: In this particular instance I
24 signed off on this particular memo. However, this
25 analysis was done, I believe -- was certainly at a time

Williams - by Defendant - Direct (Suarez) Page 5380

1 that predated my involvement. I believe it was either
2 with the origination of the original credit request or the
3 second credit request, which both predated my involvement.
4 Q And what, if anything, would you have done to become
5 familiar with this analysis before you signed the credit memo?
6 A I would have read those details.
7 Q And how, if at all, would the adjustments recommended
8 by the DB Valuation Services Group have impacted your decision
9 to support the credit recommendations contained in this memo?
10 A I am certain they gave me additional comfort.
11 Q And what, if any, reaction did you have to the fact
12 that the net equity reported by the guarantor and the DB
13 adjusted net equity had a difference of almost \$1.4 billion?
14 A No reaction. I would have felt that was within
15 reasonably expected adjustments.
16 Q And why would that be a reasonably expected
17 adjustment?
18 A I think absent these details and the support of the
19 Valuation Services Group, we may have haircut these assets as
20 much as 50 percent or more.
21 Q And in this case the adjustment to the equity -- let
22 me withdraw that.
23 How, if at all, does the DB adjusted net equity
24 reflect the analysis performed by the DB Valuation Services
25 Group?

Williams - by Defendant - Direct (Suarez) Page 5381

1 A It is fully reflective of the input we received from
2 DB Valuation Services Group.
3 Q And how, if at all, was the input you received from
4 the DB Valuation Services Group specific to each of the
5 properties identified in the credit memo?
6 A So my understanding is the underwriting team or
7 individual who conducted this analysis, wrote this part of the
8 credit memo, relied a fair amount on the feedback they received
9 from the Valuation Services Group.
10 Q And how, if at all, was the Valuation Services Group
11 qualified to provide that information to the underwriters in
12 connection with this credit memo?
13 A So as stated, this group sat within the investment
14 bank, specifically as part of the commercial real estate
15 division within the investment bank, so this is their area of
16 expertise. That is, being familiar with large commercial real
17 estate properties. And in particular there may have been some
18 familiarity with these four trophy properties as they are
19 referred to, given that our investment bank had some prior
20 relationship with Mr. Trump.
21 Q And why would -- withdrawn.
22 Why did the underwriting team request input from DB
23 Valuation Services Group instead of accepting the values
24 submitted by the applicant in this case?
25 A So, again, there is a reasonable expectation that

Williams - by Defendant - Direct (Suarez) Page 5382

1 the -- there is a use of estimates in the client's provided
2 financial statements. These particular assets represented a
3 fair amount or might even say a significant amount of his
4 stated net worth. Looking back to the credit policy, I believe
5 it said we are expected to conduct some due diligence and
6 verify the information provided to the extent that is possible.
7 Again, given the Valuation Services Group's familiarity with
8 these properties and perhaps even with the client, it only made
9 sense that we availed ourselves to the Valuation Services Group
10 to get their opinion and feedback as we are doing our due
11 diligence and underwriting.
12 MR. SUAREZ: If we could go back to page 14?
13 Go back to the last two columns on the right
14 that we were discussing earlier.
15 Q Do you see that the June 30, 2013 client-reported net
16 worth was \$4.9 billion approximately?
17 A Yes.
18 Q And the DB adjusted net worth was \$2.6 billion
19 approximately?
20 A Yes.
21 Q What is the difference between the DB adjusted net
22 worth and the client reported net worth for the year ending
23 June 30, 2013?
24 A Our adjustment was approximately 50 percent of the
25 client's reported net worth.

Williams - by Defendant - Direct (Suarez) Page 5383

1 Q And how, if at all, did that adjustment reflect
2 Deutsche Bank's own analysis of the guarantor's financial
3 condition?
4 A It fully reflected our analysis.
5 Q And the \$2,645,000,000 number that appears on this
6 page, how is that number consistent with the figure at page ten
7 which states: For all facilities, financial strength of the
8 guarantor; the financial profile of the guarantor includes, on
9 an adjusted basis, a net worth of 2.6 billion with
10 154.5 million in unencumbered liquidity?
11 A It is consistent.
12 (Whereupon the proceedings were stenographically
13 recorded by Senior Court Reporter Michael Ranita.)
14
15
16
17
18
19
20
21
22
23
24
25

D. Williams - by Defense - Direct (Mr. Suarez) Page 5384

1 Q And what reaction, if any, did you have to the
2 magnitude of the reduction between the guarantor's reported net
3 worth and Deutsche Bank's own adjusted value?
4 A My reaction was probably pretty measured, considering
5 it's not unusual or atypical for any client's provided financial
6 statements to be adjusted to this level, or to this extent.
7 Q And what, if anything, concerning the basis for the
8 decision to make that adjustment is reflected by this credit
9 memorandum?
10 A Can you repeat the question?
11 Q Sure.
12 What, if anything, is reflected in this credit
13 memorandum concerning the basis for Deutsche Bank's decision to
14 make the adjustment in the reported net worth?
15 A I'm not sure I understand the question.
16 MR. SUAREZ: I'll withdraw it.
17 If we could turn to page 16 of this document.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q Do you see the section that says "Net cash flow"?
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q And it says, "The guarantor demonstrates a diversified
24 stream of cash flows which are generally recurring by nature"?
25 A Yes, I see that.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5385

1 Q Why is the guarantor's net cash flow a factor evaluated
2 in this credit memorandum?
3 A It would also be looked to as a potential source of
4 repayment for the loan.
5 Q And what, if any, adjustments does Deutsche Bank make
6 to the client's reported net cash flow?
7 A So, in our analysis, one potential adjustment could be
8 whether or not a source of cash flow is recurring or
9 nonrecurring.
10 Q And in this analysis --
11 MR. SUAREZ: If we could zoom back into the page,
12 the chart below.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 Q Do you see the second column says "DB adjusted fiscal
16 year June 30, 2013"?
17 A Yes.
18 Q And "Client reported fiscal year June 30, 2013"?
19 A Yes.
20 Q What was the client reported fiscal year June 30, 2013
21 net cash flow?
22 A Approximately 150 million.
23 Q And what was the DB adjusted net cash flow for the
24 fiscal year ending June 30, 2013?
25 A A negative, approximately, 26 million.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5386

1 Q What is the difference between the client reported net
2 cash flow and the DB adjusted net cash flow?
3 A It appears to be predominantly what is categorized as
4 nonoperating revenue, which was set aside, presumably, as
5 nonrecurring.
6 Q And is the magnitude of the change -- withdrawn.
7 What, if anything, about the magnitude of the change
8 between the client reported net cash flow and the DB adjusted
9 net cash flow was relevant to your analysis in this credit
10 memorandum?
11 A So, again, to the extent the client, um, generates
12 recurring cash flow from certain assets that he owns, we would
13 look to that as a potential source of repayment.
14 Q And how, if at all, was the magnitude of the change
15 between the client reported net cash flow and the DB adjusted
16 net cash flow relevant to your analysis of the credit facilities
17 contained in this memorandum?
18 A I should think it was a consideration.
19 Q And what, if anything, does the change between the
20 client reported net cash flow and the DB adjusted net cash flow
21 reflect the bank's own analysis of the guarantor's financial
22 strength?
23 A So, in this particular year, based on our analysis, the
24 client's assets did not generate sufficient recurring cash flow
25 to offset his personal uses. However, I will note, in prior

D. Williams - by Defense - Direct (Mr. Suarez) Page 5387

1 years he noted the same. He reported the same, a deficit net
2 cash flow, but we adjusted that to the positive. It's not
3 unusual for a high net worth individual's cash flow to vary from
4 year to year positive to negative.
5 Q Is the bank capable of reaching it's own judgment based
6 on the evaluation it makes of the guarantor's financial
7 condition?
8 A Certainly, yes.
9 Q And how was the evaluation of the credit facilities in
10 this memorandum, if at all, consistent with the bank's approved
11 business strategies?
12 A It's consistent.
13 Q With respect to the Trump Chicago loan made to 401
14 North Wabash Venture, LLC, at page 294 -- I'm sorry, Plaintiff's
15 Exhibit 294, page six?
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 Q What is the effect of the LTV on the loan dropping to
19 35 percent and below?
20 A It would have the effect of eliminating Mr. Trump's
21 personal guaranty.
22 Q And was the guaranty on the Trump Chicago loan
23 eliminated?
24 MR. WALLACE: Objection. Asked and answered.
25 THE COURT: Déjà vu all over again.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5388

1 MR. SUAREZ: I'm sorry.
 2 THE COURT: He said, "Asked and answered." He
 3 objected, "Asked and answered", and I said, "Déjà vu all
 4 over again."
 5 I can't remember whether this was the exact same
 6 document or different, but it's the same point; right?
 7 MR. SUAREZ: I'll make a connection to the question
 8 and then I'll move on.
 9 A So ultimately, yes, the personal guaranty was reduced
 10 to zero on the Chicago loan.
 11 Q And moving onto page seven of this document for the
 12 minimum liquidity covenant.
 13 (Whereupon, the exhibit was displayed on the
 14 screen.)
 15 Q What was the effect of reducing the guaranty level to
 16 zero on the Trump Chicago loan?
 17 A Mr. Trump would have no longer been required to
 18 maintain any unencumbered liquidity, um, even, um, that he held
 19 at Deutsche Bank.
 20 Q What was the effect of the guaranty level, the
 21 reduction of the guaranty level to zero, if anything, with
 22 respect to the net worth covenant?
 23 A Once the guaranty reduced to zero, the net worth
 24 covenant was reduced to zero. Or said another way, it was
 25 eliminated or deleted.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5389

1 MR. SUAREZ: Okay. We could take this down.
 2 (Whereupon, the exhibit displayed on the screen was
 3 taken down.)
 4 Q What responsibilities does a lending officer have for
 5 determining the interest rate that is included in a credit
 6 facility?
 7 A It's one of the considerations that a lending officer
 8 makes, or takes into consideration when making a loan.
 9 Q And what obligation, if any, does a lending officer
 10 have to ensure that the approved exposures with respect to a
 11 credit facility are in accordance with the approved business
 12 strategies of the bank?
 13 A A lending officer has some responsibility in that
 14 regard.
 15 MR. SUAREZ: If we could please pull up Defendant's
 16 Exhibit 205, previously admitted.
 17 (Whereupon, the exhibit was displayed on the
 18 screen.)
 19 (The witness was handed the exhibit.)
 20 Q Are you familiar with the pricing grid that appears on
 21 Defendant's Exhibit 205?
 22 A Yes.
 23 Q What does this pricing grid reflect?
 24 A It reflects recommended pricing for various locations
 25 where Deutsche Bank does business, including the Americas, and

D. Williams - by Defense - Direct (Mr. Suarez) Page 5390

1 then across several different, what we refer to as product
 2 types, which are driven by the collateral type securing the
 3 loan.
 4 Q Who is responsible for maintaining the pricing grid?
 5 A That is the responsibility of what we refer to as the
 6 business, which is the client facing group, as well as, and more
 7 specifically, the lending group, um, drives the pricing ranges
 8 that are shown here on this grid.
 9 Q How does the pricing grid affect pricing, if at all?
 10 A When the lending group is making or considering making
 11 a loan secured by a particular type of asset, or maybe even
 12 unsecured as the grid shows to the far right, a lender is
 13 supposed to take into consideration these ranges when
 14 considering pricing.
 15 Q Is a lender allowed to deviate from the range provided
 16 on this grid?
 17 A Yes.
 18 Q In what circumstances can a lender deviate from the
 19 ranges provided on this grid?
 20 A So if the recommended pricing falls particularly below
 21 what's recommended here, some additional levels of approval
 22 would be required.
 23 Q How does competition in the marketplace drive, if at
 24 all, the decision to deviate from this grid?
 25 A It can be a factor.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5391

1 Q How can it be a factor?
 2 A If while we are underwriting or performing our due
 3 diligence and we are recommending or suggesting pricing that
 4 falls within this grid, at some point we'll propose that to the
 5 client, or prospective client, and the feedback we might receive
 6 from the client is that maybe his existing loans with another
 7 institution are priced below what we are proposing; that would
 8 be one example, the feedback that we would receive that would
 9 indicate perhaps our pricing is above what's considered market.
 10 Q Would that be a basis to deviate downwards from the
 11 pricing grid?
 12 A Yes, perhaps.
 13 Q Are you aware of any circumstances where there was an
 14 upward deviation from the pricing grid?
 15 A It can happen, yes.
 16 Q Can you think of any time since you've been at Deutsche
 17 Bank where an upward deviation from the pricing grid has been
 18 imposed?
 19 A Yes.
 20 Q How frequently?
 21 A It happens from time to time.
 22 Q Are there any criteria that affect the range provided
 23 in the pricing grid?
 24 A Yeah, so in addition to competitive forces, um, a
 25 client's relationship with the bank, noncredit relationship, for

D. Williams - by Defense - Direct (Mr. Suarez) Page 5392

1 example, investable assets could be a factor, as well as our
2 internal risk rating of a client.
3 Q How, if at all, does the collateral type affect where
4 in the range a loan is priced?
5 A So it's definitely a factor, as illustrated here by the
6 grid, given that the grid shows a number of different collateral
7 types, and within each of those collateral types is a range.
8 Q Where on this grid did the Trump Doral loan fall?
9 A So they were all commercial real estate secured
10 transactions, which would fall under that column on the pricing
11 grid with the recommended pricing of between two percent and
12 two-and-a-half percent.
13 Q And when you say they were all, to move things along,
14 would that mean the Trump Chicago, Trump OPO and Trump Doral
15 loans?
16 A Yes, all three loans were commercial real estate
17 secured.
18 Q Would the financial wherewithal of the guarantor play a
19 role in determining where on the range identified in this
20 pricing grid a loan would fall?
21 A Yes. That's a determinant in the risk rating, the
22 internal risk rating that we arrive at.
23 Q And how would the financial wherewithal of the
24 guarantor affect the point within this range where a loan would
25 be priced?

D. Williams - by Defense - Direct (Mr. Suarez) Page 5393

1 A So, I guess to begin, if we were even at this point in
2 our analysis, um, the presumption is that the client meets our
3 target market minimum requirements for investable assets, stated
4 net worth. Beyond that, if the client exhibits a certain amount
5 of financial strength, well above or in excess of those minimum
6 requirements, that could be a factor.
7 Q How would you determine circumstances in which the
8 financial strength of the guarantor would merit pricing at the
9 low end of the range?
10 A So, again, it would be a factor of risk rating,
11 strength of the collateral, strength of the guarantor as
12 reflected in the risk rating, also external market factors,
13 competitive factors.
14 Q And what, if anything, about President Trump's
15 financial condition supported pricing at the lower end of the
16 range?
17 A He reported both a net worth and investable assets that
18 were well in excess of our minimum requirements.
19 Q What were the minimum requirements?
20 A For commercial real estate it's a hundred million net
21 worth, 10 million of investable assets.
22 Q Did President Trump qualify for this pricing range with
23 a net worth as adjusted by Deutsche Bank of approximately
24 \$2.6 billion?
25 MR. WALLACE: Objection. Leading.

D. Williams - by Defense - Direct (Mr. Suarez) Page 5394

1 THE COURT: Sustained.
2 Q How, if at all, did Deutsche Bank's decision to price
3 the loans we previously discussed reflect the bank's own
4 adjusted net worth value of 2.5 billion for the guarantor?
5 A It was a consideration or a factor.
6 Q How, if at all, was an adjusted net worth of
7 2.5 billion -- withdrawn.
8 How, if at all, was a net worth of approximately
9 2.5 billion on an adjusted basis for President Trump used to
10 qualify him for this pricing grid?
11 A Well, again, if we are even considering the loan, a
12 client has to meet our stated minimums. When I say "has to
13 meet", that's the target.
14 Some exceptions could be made if the client does not
15 meet those minimums, but certainly in this case, even on
16 adjusted basis, Mr. Trump met those minimums.
17 Q If Mr. Trump's adjusted basis net worth was 2 billion,
18 would he have met these minimums?
19 MR. WALLACE: Objection. Calls for speculation.
20 THE COURT: Overruled.
21 THE WITNESS: I'm sorry?
22 THE COURT: That was overruled. Please answer.
23 A Yes. Even if his net worth was \$2 billion, he would
24 have met our minimum requirements.
25 Q If his net worth was in excess of a billion dollars on

D. Williams - by Defense - Direct (Mr. Suarez) Page 5395

1 an adjusted basis, would he have met these minimum requirements?
2 A Yes.
3 Q If his net worth was in excess of 500 million on an
4 adjusted basis, would he have met these minimum requirements?
5 A Yes.
6 Q If his net worth was in excess of a hundred million,
7 would he have met these minimum requirements?
8 A Yes.
9 Q In fact, if he had, on an adjusted basis, at least
10 \$100 million in cash, in marketable securities, would he have
11 met these requirements?
12 A Yes.
13 THE COURT: Mr. Wallace, I consider those
14 hypotheticals, not speculations, and I believe that the
15 hypotheticals are admissible.
16 MR. WALLACE: Noted, your Honor.
17 Q What is the bank's goal in pricing a credit facility?
18 A Well, I think it is our -- our, more or less, our sole
19 determinant. If we are going to make a loan, it's up to us to
20 decide if we are going to make a loan based on a certain pricing
21 or not.
22 Q What, if anything, to your knowledge, concerning
23 President Trump's financial condition, would have qualified him
24 to stay within that range of 2.0 to 2.5 percent for commercial
25 real estate in the Americas?

Page 5396

1 A So, again, he -- we had established that he already met
 2 the minimum requirements, so the range here as a guideline or
 3 recommended range for clients that meet those minimum
 4 requirements.
 5 MR. SUAREZ: Your Honor, may I have a minute to
 6 confer with my colleagues?
 7 THE COURT: Sure. Go ahead. I was going to issue
 8 a five-minute warning, but go ahead, and we'll see where we
 9 are.
 10 (Whereupon, there is a brief pause in the testimony
 11 as Counsel conferred.)
 12 MR. SUAREZ: Your Honor, if we could break now for
 13 lunch I may be able to greatly truncate the rest of my
 14 direct examination.
 15 THE COURT: I always like that. Okay. Lunch
 16 break. See you all at 2:15.
 17 MR. SUAREZ: Thank you.
 18 THE COURT: I'll direct the witness, order the
 19 witness, don't discuss the case, don't discuss your
 20 testimony or anything related during the lunch break.
 21 THE WITNESS: Understood, your Honor.
 22 (Whereupon, the case on trial was adjourned until
 23 2:15 for the luncheon recess.)
 24
 25

Page 5397

1 COURT OFFICER: All rise. Part 37 is back in
 2 session, the Honorable Judge Arthur Engoron presiding.
 3 Please be seated and come to order.
 4 THE COURT: Let's get the witness here.
 5 MR. ROBERT: Some housekeeping issues,
 6 scheduling issues we want to bring to the Court's
 7 attention.
 8 THE COURT: I'll turn the microphone over to the
 9 person who sits alongside me, scheduling expert.
 10 MR. ROBERT: So I guess I am happy to report
 11 that Mr. Suarez, although I am not going to speak for him,
 12 has no more direct of the witness right now and is going
 13 to turn him over for cross.
 14 MR. SUAREZ: That's correct.
 15 MR. ROBERT: In light of that we don't
 16 anticipate calling Mr. Sullivan. We reserve our rights to
 17 do so, but don't plan to do so at this point.
 18 We spoke with Mr. Wallace, who says that their
 19 cross examination of Mr. Williams is probably about a half
 20 hour or so, give or take.
 21 We plan to call Emily Pereless. Her examination
 22 by Mr. Suarez should take the balance of the afternoon.
 23 We then have Rosemary Vrablic, who is in New
 24 Rochelle. We spoke to the Attorney General, there doesn't
 25 seem to be a way she would be testifying this afternoon

Page 5398

1 anyway. We would like to tell her 10:00 tomorrow morning,
 2 even though we may not be done with Pereless at that
 3 point. And then Ms. Vrablic may take the better part of
 4 the day.
 5 But to the extent there is any leftover time
 6 tomorrow, at this point we would anticipate either filling
 7 that with Patrick Birney or potentially Jack Weisselberg.
 8 And then followed by Mr. Unell, who will start Thursday
 9 morning, who is our next expert.
 10 MS. GREENFIELD: And you still think Unell is
 11 going to take Thursday and Friday?
 12 MR. ROBERT: Yeah at this point, yes, probably.
 13 Probably.
 14 MS. GREENFIELD: What is your direct
 15 approximately?
 16 MR. SUAREZ: I would anticipate that the Unell
 17 direct would take the balance of an entire day.
 18 MS. GREENFIELD: Entire day.
 19 And cross obviously.
 20 MR. WALLACE: I am very curious what he says
 21 that day. But if he is finished on Thursday, we will be
 22 able to finish Friday, even though it is a half day.
 23 MS. GREENFIELD: Next week is unchanged from
 24 what you said yesterday?
 25 MR. ROBERT: For Monday definitely with Chin,

Page 5399

1 and then Moens and Shubin.
 2 And then Wednesday I think is tentatively Eric
 3 Trump, but we will let you know.
 4 And Friday we will argue, I think, the motions
 5 in limine with the Court.
 6 MS. GREENFIELD: You skipped Thursday. That's
 7 Bartov still?
 8 MR. ROBERT: Bartov is Thursday, yes.
 9 And this Friday motions in limine as to Shubin,
 10 correct?
 11 MS. GREENFIELD: Okay.
 12 MR. ROBERT: All right. Thank you.
 13 THE COURT: Witness.
 14 (Whereupon, the witness resumed the stand.)
 15 THE COURT: I'll remind the witness, as usual,
 16 that he is still under oath.
 17 And let's start the cross examination.
 18 CROSS-EXAMINATION
 19 BY MR. GABER:
 20 Q Good afternoon, Mr. Williams. My name is Sherief
 21 Gaber. We met briefly at your deposition. It is good to see
 22 you again.
 23 So I wanted to start with, hopefully get you through
 24 this quickly, I am going to pull up and hand you a copy of what
 25 has been marked as PX-498.

Williams - by Defendant - Cross (Gaber) Page 5400

1 (Handing)

2 Q And if you could just take a look at this document,

3 Mr. Williams, and tell me if you are familiar with it?

4 A Yes.

5 Q Can you describe what this document is?

6 A It is a credit report dated September of 2019, an

7 annual review of the entire Trump credit relationship.

8 Q And if we look to page nine of the exhibit, it is

9 correct that this bears your signature if we go down to the

10 signature block there?

11 A Yes, it appears to be.

12 Q And I think Mr. Suarez asked you this, but can you

13 tell me what your signature on this indicates?

14 A It indicates that I sign in support of the credit

15 transaction, or in this case the annual review.

16 Q And you are phrasing that "signed in support,"

17 that's because you didn't have credit approval authority; is

18 that correct?

19 A Correct.

20 Q And it was Credit Risk Management that had credit

21 approval authority at Deutsche Bank?

22 A Yes, correct.

23 Q In the Private Wealth Division?

24 And who are the Credit Risk Management officers who

25 signed and ultimately approved this review?

Williams - by Defendant - Cross (Gaber) Page 5401

1 A Gaston Allegre and Jim Baldino.

2 MR. GABER: I ask that PX-498 be admitted into

3 evidence.

4 THE COURT: Granted, it is in.

5 (Whereupon, the document referred to was deemed

6 marked for evidence as Plaintiff's Exhibit 498 by the

7 Court.)

8 Q If I can now direct you, Mr. Williams, to page two of

9 this document. And we will pull it up on the screen as well.

10 Under that last block where it says "Recommendation."

11 It says: Approval of the annual review for Facility A (Doral);

12 Facility B (Chicago) and Facility C (OPO). And for all

13 facilities you will note the first item there says:

14 Financial strength of the guarantor. The financial

15 profile of the guarantor includes a stated net worth of

16 6.12 billion which remains above the 2.5 billion minimum

17 requirement, even on an adjusted basis. The guarantor

18 maintains a strong unencumbered liquidity position of 76.2

19 million, a marginal increase from the previous year.

20 The \$6.12 billion number here, that came from the

21 Statement of Financial Condition of Donald J. Trump, correct?

22 A I believe so, yes.

23 Q And the 76.2 million dollars liquidity position, that

24 also came from the Statement of Financial Condition?

25 A It doesn't specify as such here. I would assume so.

Williams - by Defendant - Cross (Gaber) Page 5402

1 Q You have no reason to believe that these numbers came

2 from other than Donald J. Trump's personal financial statement?

3 A No. I just qualify my response that it doesn't

4 appear it is subject to any bank adjustments.

5 Q Okay.

6 THE COURT: Mr. Gaber, just speak up. Sometimes

7 you are a little muffled somehow.

8 MR. GABER: I'll do my best to get into the

9 microphone.

10 Q Mr. Williams, can we take a look at page 11 of this

11 document quickly, maybe to clarify it a bit before you refresh

12 your recollection.

13 It says here under "liquidity": The guarantor

14 reports liquidity of \$76.2 million as of 6/30/18, consisting of

15 funds in Mr. Trump's name, et cetera.

16 And then it says: The client reported balances

17 marginally increased from the prior year. In the earlier

18 years, as Mr. Suarez had showed you, there was a description of

19 you and/or others from Deutsche Bank going to Trump Tower to

20 personally verify bank statements and other records to support

21 that liquidity number. I'll represent that after -- I mean,

22 I'll say, this memo doesn't mention your going to Trump Tower

23 to check liquidity. That's because you didn't go in this year

24 to check liquidity; is that correct?

25 A That's correct.

Williams - by Defendant - Cross (Gaber) Page 5403

1 Q So these are client reported numbers only?

2 A That appears to be a correct statement, yes.

3 Q Okay. And so I'll represent that after 2014 all of

4 the credit reports make no mention of anyone going to Trump

5 Tower. So if that's the case, would I similarly be able to

6 expect, if it is not mentioned in the memo that no one went to

7 personally check?

8 MR. SUAREZ: We object to the representation as

9 creating an evidentiary record. If the government wants

10 to create an evidentiary record of what those subsequent

11 years say or don't say, they should move the exhibits in.

12 I don't see a basis to represent what they say or don't

13 say. It is almost as if the government is introducing its

14 own evidence without actually moving it in.

15 MR. GABER: I think it is a simple hypothetical.

16 THE COURT: I didn't think it was hypothetical.

17 I thought it was: You represented that they did not

18 include mention of a visit.

19 MR. GABER: I can rephrase it as a hypothetical.

20 THE COURT: Okay.

21 Q If a credit memo is silent on whether or not someone

22 went to personally verify financials at Trump Tower, is it fair

23 to assume that no one went?

24 A I think that's a fair assumption.

25 Q Thanks.

Williams - by Defendant - Cross (Gaber) Page 5404

1 MR. GABER: So if we can go to page four of the
 2 document now?
 3 Q So, under Endeavor, that's the Doral loan, correct?
 4 A Yes.
 5 Q Okay. So it says there in the paragraph starting
 6 Facility A: Facility A's DSCR breach was identified in a
 7 letter prepared by internal legal and sent to borrower June 5,
 8 2019.
 9 The letter noted the breach and DBTCA's intention to
 10 conduct an appraisal in order to test the loan-to-value in
 11 accordance with the loan agreement.
 12 Appraisal detail is noted in the sections that
 13 follow, but the results LTV (34.7 percent) clears the DSCR
 14 breach and does not trigger any guaranty-level changes called
 15 for in the below chart.
 16 So Mr. Williams, can you tell me what it means when
 17 it says a DSCR breach?
 18 A So, it suggests there was a breach of the Debt
 19 Service Coverage Covenant.
 20 Q Can you explain that covenant and that concept for
 21 me?
 22 A So, the calculation there on the document just above
 23 where it says actual DSC of 1.19 shows the inputs for the
 24 calculation: Income, less expenses, should equal the net
 25 operating income figure. Divide that by the debt service

Williams - by Defendant - Cross (Gaber) Page 5405

1 figure for that year, equals the 1.19 times calculation.
 2 Q Okay. And what is the affect of a breach of the DSCR
 3 covenant?
 4 A So, it would have had an impact on the step-down
 5 percentage of the guaranty.
 6 Q Can you elaborate what sort of impact it could have
 7 on the step-down percentage?
 8 A So the chart there in the middle of the page outlines
 9 what occurs if and when a debt service coverage ratio
 10 exceeds -- meets or exceeds various multiples.
 11 Q And so can you just explain then what it means
 12 that -- that the appraisal, the resulting LTV of the appraisal
 13 clears the DSCR breach? What does it mean that the appraisal
 14 or LTV clears the DSCR breach?
 15 A So, depending on the results of the calculation, it
 16 looks like you compare that to various levels of debt service
 17 coverage relative to the percentage of guaranty that is
 18 required.
 19 Q And so if the loan-to-value ratio had been above
 20 35 percent, it could have increased the guaranty to 10 percent
 21 from zero?
 22 A That appears to be correct, yes.
 23 Q Okay. And I just want to clarify briefly, when you
 24 were speaking with Mr. Suarez you said that you were not aware
 25 of any covenant defaults in any of the loans guaranteed by

Williams - by Defendant - Cross (Gaber) Page 5406

1 President Trump. I think you described this DSCR breach as a
 2 DSCR covenant default or breach. Is there a difference in your
 3 mind between the DSCR breach and covenant default?
 4 A It depends on the nature of the breach. In this case
 5 the breach was considered also in conjunction with the
 6 loan-to-value of the property. And ultimately was determined
 7 that the loan-to-value cleared the debt service coverage
 8 breach.
 9 Q Okay. And I will just ask that you recall that even
 10 though the loan-to-value came in below 35 percent, the Trump
 11 Org had, in fact, elected to maintain a 10 percent guaranty in
 12 order to keep a more favorable interest rate?
 13 A I recall that he did that on at least one loan, yes.
 14 Q It might refresh your recollection if we can take a
 15 quick look at page six of this document.
 16 Under guaranty type, if you just take a look at that
 17 paragraph. The last sentence just says, or the last two
 18 sentences: As outlined below, the guaranty level at or below a
 19 35 percent LTV was originally contemplated to be zero percent,
 20 at which time pricing was scheduled to increase to L plus
 21 two percent. Retaining a 10 percent guaranty level, clearly
 22 strengthens the credit.
 23 Does that refresh your recollection that they
 24 maintained the guaranty in order to keep a more favorable
 25 pricing on the loan?

Williams - by Defendant - Cross (Gaber) Page 5407

1 A Yes.
 2 MR. GABER: Okay. So can we move back to page
 3 five? Move on to the Wabash property.
 4 Q So, that paragraph starting Facility B: Facility B's
 5 DSCR breach was identified in a letter prepared by internal
 6 legal and sent to the borrower June 5, 2019. The letter noted
 7 the breach and DBTCA's intention to conduct an appraisal in
 8 order to test the loan-to-value in accordance with the loan
 9 agreement.
 10 And then the next paragraph says: Appraisal detail
 11 is noted in the sections that follow, but the results LTV
 12 (26.9 percent) clears the DSCR breach and does not trigger any
 13 guaranty level changes called for in the below chart.
 14 Can you explain what is meant by "guaranty level
 15 change"?
 16 A So, similar to the Doral or Endeavor loan, the
 17 guaranty, Mr. Trump's personal guaranty step-down, depending on
 18 the loan-to-value of the collateral.
 19 Q And if -- are there situations in which DSCR breach
 20 could trigger a level change upwards?
 21 MR. KISE: Objection, calls for a legal
 22 conclusion.
 23 THE COURT: Overruled. I don't think that's a
 24 legal question. I think that's an accounting question.
 25 Q Do you need a readback?

Williams - by Defendant - Cross (Gaber) Page 5408

1 A No, I think I understand.
 2 If based on the results of an appraisal the
 3 loan-to-value increased into a level which would have required
 4 the guaranty, then yes, I suppose that's possible that the
 5 guaranty could have been added back.
 6 Q So, the --
 7 MR. KISE: Objection, Your Honor. I move to
 8 strike that answer because that's speculation. He said "I
 9 suppose that's possible." That's not an answer, that's
 10 just a guess. Does he know or does he not?
 11 THE COURT: Okay. How certain or uncertain are
 12 you?
 13 THE WITNESS: I would say actually I am not
 14 certain, because I do recall earlier in my testimony some
 15 discussion of once the guaranty comes off, it stays off.
 16 Q Maybe we can come back to that.
 17 So in any case, this is indicating that the Chicago
 18 loan also had a DSCR breach in 2019?
 19 A Yes.
 20 Q Okay. So then moving onto OPO DSC covenant further
 21 down the page here:
 22 Facility C's DSCR breach was identified in a letter
 23 prepared by internal legal and sent to the borrower June 21,
 24 2019. It says: The letter noted the breach but noted DBTCA
 25 takes no position as to whether the operating contribution made

Williams - by Defendant - Cross (Gaber) Page 5409

1 by the borrower cures the breach. However, the letter did
 2 identify DBTCA's intention, at its own expense, to conduct an
 3 appraisal of the subject property to test the LTV as permitted
 4 under the loan agreement.
 5 So this is indicating that the OPO loan also had a
 6 DSCR breach in June of 2019, correct?
 7 A Yes.
 8 Q Okay. Do you understand what it means when it says
 9 "operating contribution" here? DBTCA takes no position as to
 10 whether the operating contribution made by the borrower cures
 11 the breach?
 12 A Yes.
 13 Q Can you explain your understanding of that term?
 14 A The borrower or perhaps the guarantor made a
 15 contribution to the borrower here, as noted, in the amount of
 16 6.425 million, that in some ways could have been considered
 17 with the net operating income in determining the debt service
 18 coverage ratio.
 19 Q Okay. I am going to now hand you PX -- a document
 20 marked as PX-520 for identification.
 21 (Handing)
 22 Q So there is a cover e-mail here and then the
 23 attachment. If you can just flip through -- well, flip to the
 24 second page here.
 25 So, Mr. Williams, this is several copies of a letter

Williams - by Defendant - Cross (Gaber) Page 5410

1 dated June 5, 2019. This one is addressed to 401 North Wabash
 2 Venture LLC. So, Mr. Williams is this the letter that was
 3 referenced -- or the notice that was referenced in the credit
 4 memo we were just looking at regarding the DSCR breaches?
 5 A It appears to be, yes.
 6 Q Okay. I would ask that this be admitted into
 7 evidence.
 8 THE COURT: Granted, it is in.
 9 (Whereupon, the document referred to was deemed
 10 marked for evidence as Plaintiff's Exhibit 520 by the
 11 Court.)
 12 Q And so this letter informs the Trump Organization of
 13 the DSCR breach, correct?
 14 A Yes.
 15 Q Okay. I am going to ask you to take a look at the
 16 bottom of the page, at the cc, at the carbon copies. So this
 17 is cced to Donald J. Trump as guarantor. That's being sent to
 18 Donald J. Trump as guarantor because a DSCR breach could
 19 trigger some obligations under the guaranty, correct?
 20 A I think there was an obligation to copy him according
 21 to the loan documents.
 22 Q But that's because -- I mean, beyond the notice, the
 23 DSCR breach could potentially implicate the guaranty that he
 24 signed --
 25 MR. SUAREZ: Objection, calls for a legal

Williams - by Defendant - Cross (Gaber) Page 5411

1 conclusion.
 2 THE COURT: I think we spent a good part of the
 3 morning asking this witness what various contract
 4 provisions meant. Overruled.
 5 A So, I suppose the letter was sent to him in copy
 6 because of the nature of his guaranty.
 7 Q Thank you. I am going to now hand you an Exhibit
 8 that's been marked PX-521.
 9 So like the last one, this is a cover e-mail, and
 10 then several copies of a letter dated June 5, 2019. These
 11 letters are addressed to Trump Endeavor 12 LLC.
 12 So Mr. Williams, does this appear to be the letter
 13 referenced in the credit report we were just looking at
 14 regarding the DSCR breach at the Doral property?
 15 A Yes.
 16 Q And this one also carbon copies Donald J. Trump as
 17 guarantor, yes?
 18 A Yes.
 19 MR. GABER: I would ask this be admitted into
 20 evidence.
 21 MR. SUAREZ: Your Honor, again, our objection to
 22 testifying or eliciting testimony about this, and I
 23 understand he is a current bank employee, but he wasn't
 24 copied on the letter; and it is referring to agreements
 25 that aren't before him today. And he is being asked to

Williams - by Defendant - Cross (Gaber) Page 5412

1 give answers about what rights or responsibilities would
 2 be triggered under certain legal documents that also
 3 aren't before him. So on that basis, we would object to
 4 the admission of this document.
 5 MR. GABER: He gave foundation. He said that
 6 this is the letter that was referenced in the credit
 7 report that he prepared and signed.
 8 THE COURT: So he is obviously aware of it.
 9 Overruled.
 10 (Whereupon, the document referred to was deemed
 11 marked for evidence as Plaintiff's Exhibit 521 by the
 12 Court.)
 13 Q So I am going to hand you, Mr. Williams, what has
 14 been marked as PX-522.
 15 This is the same as the previous two exhibits.
 16 In this case the mailing receipts are at the
 17 beginning of the exhibit. The letters begin on page six of the
 18 document, if that's helpful.
 19 Again, this letter is dated June 21, 2019. This one
 20 is addressed to Trump Old Post Office LLC. Is this the notice
 21 of DSCR breach for the Old Post Office loan that is referenced
 22 in the credit report we were just looking at?
 23 A It appears to be, yes.
 24 Q And this letter, likewise, is copied to Donald J.
 25 Trump as guarantor?

Williams - by Defendant - Cross (Gaber) Page 5413

1 A Yes.
 2 MR. GABER: I ask that this letter or this
 3 exhibit PX-522 be admitted into evidence.
 4 MR. KISE: Your Honor, one additional objection.
 5 I know you are going to overrule the other objection, but
 6 I'll make the same objection that Mr. Suarez made.
 7 But, what is the relevance of these DSCR breach
 8 letters? I mean, it is not an issue in the case. And by
 9 the very documents that Mr. Gaber has put up, it was cured
 10 automatically by the loan-to-value ratio being acceptable.
 11 So the breach itself was cured by the very documents. So
 12 I am not sure what is the point of all of this.
 13 THE COURT: Well --
 14 MR. KISE: Is it academic?
 15 THE COURT: That a breach was cured doesn't mean
 16 there wasn't a breach.
 17 MR. KISE: What does that have to do with their
 18 case is the question. Not that there was a breach, what
 19 does that have to do with the underlying case is the
 20 question, respectfully.
 21 THE COURT: I think it went to credibility of
 22 the witness somewhat. Maybe I missed something there.
 23 But anyway, Mr. Wallace, let's give the official
 24 explanation.
 25 MR. WALLACE: I'll try to avoid going too deep

Williams - by Defendant - Cross (Gaber) Page 5414

1 in this with the witness on the stand.
 2 The defendants have made representations
 3 relevant to their defenses that these loans were
 4 performing, never had any problems, were paid off. I
 5 think this is just going to the performance and the life
 6 of the loans, which they have tracked through many
 7 different iterations, including with this witness, when
 8 various guaranties are written down. I think this is part
 9 and parcel of what happened over the course of these
 10 loans, which defendants have introduced as relevant to
 11 their defense.
 12 MR. KISE: So we are debating whether or not
 13 something was self-cured within the documents? Again, I
 14 don't see the relevance to the cause of action.
 15 MR. WALLACE: We are presenting facts and we can
 16 debate at the end of the case when we make closing
 17 statements and put in our briefs.
 18 MR. KISE: I guess I shouldn't object because
 19 these facts are helpful, but what are we wasting time for
 20 because they don't seem to have relevance. If there is an
 21 internal mechanism within the documents where there is
 22 some default and it is automatically cured by some other
 23 provision in the documents, then the net effect of all of
 24 it is zero, none. There is no -- just like it said in the
 25 Exhibit PX-498, it says that the breach was cured,

Williams - by Defendant - Cross (Gaber) Page 5415

1 whatever DSCR breach may or may not have occurred, was
 2 cured by the low loan-to-value ratio. So again, I just
 3 don't see the relevance of this to any fact at actual
 4 issue in the case. It doesn't go to the Statements of
 5 Financial Condition. It doesn't have anything to do with
 6 the Statements of Financial Condition. Yes, it has
 7 something loosely to do with the loans, but there is not a
 8 problem with the loans based on the PX-498.
 9 MR. WALLACE: How about I try to shorten the
 10 back and forth on this. The defendants opened the door by
 11 asking the witness to testify that, no, there were no
 12 covenant breaches. We are exploring that testimony now.
 13 THE COURT: Overruled.
 14 MR. KISE: If that's the reason, okay.
 15 MR. GABER: Judge, can I get a ruling on
 16 admission into evidence of this document?
 17 THE COURT: It is in evidence.
 18 MR. GABER: Thank you, Judge.
 19 (Whereupon, the document referred to was deemed
 20 marked for evidence as Plaintiff's Exhibit 522 by the
 21 Court.)
 22 Q Mr. Williams, can I now hand you an exhibit that has
 23 been marked as Plaintiff's PX-519?
 24 (Handing)
 25 Q So there is a cover e-mail here from Gaston Allegre

Williams - by Defendant - Cross (Gaber) Page 5416

1 to James Baldino: Please find attached the annual report for
2 the cc which we need to sign off by tomorrow, month end. The
3 credit report sets out current position of the customer and
4 requires your approval, by e-mail would be fine. And then the
5 attachment.
6 If you can take a look at that attachment and tell me
7 if you recognize it.
8 A Yes.
9 (The following proceedings were stenographically
10 recorded by Senior Court Reporter Michael Ranita.)
11
12
13
14
15
16
17
18
19
20
21
22
23
24
25

D. Williams - by Defense - Cross (Mr. Gaber) Page 5418

1 Q So, Mr. Williams, if I could direct your attention to
2 page four of the document. The bottom block there under
3 Recommendations.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 Q It stays, "Approval of the annual review for Facility
7 A, Doral; Facility B, Chicago and Facility C, OPO," and then
8 under "all facilities", like we saw the on the last one,
9 "Financial strength of the guarantor. The financial profile of
10 the guarantor includes a stated net worth of 6.1 billion, which
11 remains above the \$2.5 billion minimum requirement even on an
12 adjusted basis, the guarantor maintains a strong stated
13 unencumbered liquidity position of 87 million, an increase of
14 about 10 million from the previous year."
15 And Mr. Williams, am I correct that that \$6.1 billion
16 came from Donald J. Trump's Statement of Financial Condition?
17 A Yes. I believe that's what is meant by "stated net
18 worth."
19 Q Okay.
20 And the unencumbered liquidity position of \$87 million,
21 that also came from financial statements and documentation from
22 the guarantor?
23 A I believe that's correct, yes.
24 Q Okay.
25 And so on page three, Mr. Williams, if I could direct

D. Williams - by Defense - Cross (Mr. Gaber) Page 5417

1 Q Can you describe what this document is?
2 A Credit Approval Report and end review of the entire
3 Trump credit relationship.
4 Q And this is dated June 30th, 2020; right?
5 A It appears to be July.
6 Q July. Excuse me.
7 A Of 2020.
8 Q The dates all run together sometimes in this room.
9 So, Mr. Williams, this was produced by Deutsche Bank as
10 the final version of the credit memo for 2020. I'll represent
11 to you that this document doesn't have the signature block that
12 we've seen in previous memos. Is it consistent with your
13 experience of Deutsche Bank during 2020 that documents could be
14 approved without physical signature?
15 A Yes.
16 Q Is that because people were working remotely or in
17 different conditions due to the pandemic?
18 A I think that was a factor, yes.
19 Q So -- but you've got no reason to believe this version
20 isn't the final version of the credit report for 2020?
21 A No reason to believe it's not the final version, no.
22 MR. GABER: I would ask that this document be
23 admitted in evidence.
24 THE COURT: Granted. It's in.
25 (Plaintiff's Exhibit 519 was admitted in evidence.)

D. Williams - by Defense - Cross (Mr. Gaber) Page 5419

1 your attention there.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q That "Relationship facility, highlights, changes since
5 last review", that paragraph. The first bullet point there for
6 Doral, "The Doral resort in Florida recently concluded it's
7 fourth year as a full-service operation following its
8 redevelopment. The property continues to produce positive
9 numbers. The most recent appraisal resulted in a 34.7 percent
10 loan-to-value which was deemed acceptable and resulted in no
11 other changes. The guarantor continues to maintain a ten
12 percent guaranty level."
13 So that's indicating that there's no change in status
14 from the previous year, and the guarantor decided to continue to
15 maintain that ten percent guaranty as an optional level for the
16 financial benefit; correct?
17 A I believe that's an accurate statement, yes.
18 Q So, the second bullet point there, "The Old Post Office
19 completed it's third full year of operation in 2019 and the loan
20 remains in the post development period, see below. And updated
21 appraisal was obtained last year. While the hotel reported
22 negative operating income and a DSCR below the required 1.25x, a
23 supporting \$8.6 million operating contribution to the hotel was
24 made by DJT Holdings, LLC."
25 So that means for 2020 there was another DSCR breach

D. Williams - by Defense - Cross (Mr. Gaber) Page 5420

1 for the OPO loan; correct?
 2 A That sounds correct, yes.
 3 Q In this case, it was cured by an \$8.6 million operating
 4 contribution from DJT Holdings, LLC; correct?
 5 A Yes.
 6 Q So moving down to Chicago, the next bullet point, "The
 7 Wabash Facility also required a new appraisal last year based on
 8 a DSCR breach. As the year end 2019 financial statements showed
 9 another breach, WM has advised the borrower that the breach may
 10 be cured by the guarantor's agreement to increase guaranty level
 11 from zero to 10 percent based on the presumed increase in
 12 loan-to-value to a level greater than 35 percent, but less than
 13 65 percent without the need to obtain an appraisal to determine
 14 the actual specific LTV. This was deemed an acceptable approach
 15 given the challenges surrounding new appraisals during the COVID
 16 pandemic."
 17 So just to make sure I understand correctly, there was
 18 another DSCR breach for the Chicago Facility in 2020 as well;
 19 correct?
 20 A Yes, that's correct.
 21 Q And the cure in this case was increasing the guaranty
 22 level from zero percent to 10 percent based on the presumed
 23 loan-to-value; correct?
 24 A Yes, that appears to be correct.
 25 Q Okay.

D. Williams - by Defense - Cross (Mr. Gaber) Page 5421

1 Quickly, before we move to the next point, the next
 2 bullet point says "The guarantor's personal net worth has
 3 decreased about \$500 million year-over-year due to small
 4 fluctuations in real estate, equity, liquidity and the values of
 5 some his joint real estate -- some of his real estate joint
 6 ventures", excuse me.
 7 So is it fair to conclude from this bullet point that
 8 Deutsche Bank is still tracking the net worth of Donald J. Trump
 9 as guarantor over the life of these loans at this point?
 10 A I believe that's correct, though I will add 500M would
 11 indicate --
 12 Q 500,000?
 13 A Yes, 500,000.
 14 Q I'm still learning the nomenclature.
 15 Mr. Williams, I'm going to hand you, now, a document
 16 that's been marked as Plaintiff's Exhibit 561 for
 17 identification.
 18 (The witness was handed the exhibit.)
 19 (Whereupon, the exhibit was displayed on the
 20 screen.)
 21 Q If you could just take a look at this and let me know
 22 if you are familiar with this document?
 23 A Yes, this is familiar.
 24 Q Can you tell me what this document is?
 25 A It's a credit report and end review for the Trump

D. Williams - by Defense - Cross (Mr. Gaber) Page 5422

1 credit relationship dated July 30th, 2021.
 2 Q And Mr. Williams, you had a role in preparing this
 3 report; correct?
 4 A I think my role was predominantly as a reviewer for
 5 this credit report.
 6 Q Okay.
 7 Mr. Williams, I also say that Deutsche Bank produced
 8 this as a final version of the 2021 credit report. This one
 9 doesn't have a signature block on it.
 10 Is it consistent with your experience of how things
 11 continued to operate after 2020 at Deutsche Bank, that you
 12 aren't requiring physical signatures for approval of some credit
 13 reports?
 14 A Correct. I would say, um, the majority if not all
 15 credit reports.
 16 Q And you are welcome to review this, but do you have any
 17 reason to believe this isn't the final version of the 2021
 18 credit report?
 19 A I don't have any reason to believe it's not the final
 20 version.
 21 Q So Mr. Williams, can I direct your attention to page
 22 four of this document.
 23 (Whereupon, the exhibit was displayed on the
 24 screen.)
 25 Q Under "Recommendation."

D. Williams - by Defense - Cross (Mr. Gaber) Page 5423

1 MR. GABER: First, I ask that this be admitted into
 2 evidence.
 3 THE COURT: Granted. It's in.
 4 (Plaintiff's Exhibit 561 was deemed marked and
 5 admitted in evidence.)
 6 Q Again, we see the language, "Approval of the annual
 7 review for Facility A, Doral; Facility B, Chicago and Facility C
 8 OPO" under all facilities. The first bullet point is "Financial
 9 strength of the guarantor."
 10 Here, again, it says there is a stated net worth of
 11 \$4.7 billion. That number came from the Statement of Financial
 12 Condition of Donald J. Trump; correct?
 13 A That's the implication of stated net worth, yes.
 14 Q Thank you.
 15 And then further down it says, "The guarantor maintains
 16 a strong stated unencumbered liquidity position of \$92 million."
 17 Again, it says, "Stated."
 18 So is it the case that that number comes from
 19 information provided by the guarantor?
 20 A Yes.
 21 Q Thank you.
 22 Okay. So I'm going to move on to page two of this
 23 document, Mr. Williams.
 24 (Whereupon, the exhibit was displayed on the
 25 screen.)

D. Williams - by Defense - Cross (Mr. Gaber) Page 5424

1 Q So under the heading, "Relationship, facility
 2 highlights, changes since last review", the first bullet point
 3 says, "All required monthly loan payments have been made in a
 4 timely manner."
 5 So you would expect a borrower would make all of their
 6 loan payments in a timely manner?
 7 A Yes.
 8 Q Okay.
 9 The next bullet point -- sorry, not the next one. The
 10 fourth bullet point says, "Metrics surrounding the performance
 11 of the collateral properties are discussed below. The financial
 12 performance of each property resulted in DSCR levels deemed to
 13 be below the required thresholds, resulting in updated
 14 appraisals being required at all three properties, the specifics
 15 of which are discussed herein."
 16 So am I to understand from this that in 2021, in
 17 addition to the breaches that we had seen in prior years of the
 18 DSCR covenant, each of these three loans breached the DSCR
 19 covenants in 2021?
 20 A Yes. That appears to be the case.
 21 Q Okay.
 22 And then in this case, updated appraisals were
 23 commissioned to test the loan-to-value to those properties?
 24 A Correct, because there was this built-in mechanism in
 25 which we would order updated appraisals should the debt service

D. Williams - by Defense - Cross (Mr. Gaber) Page 5425

1 coverage levels drop below the requirements.
 2 Q And the appraisals, I think in this year, cleared the
 3 DSCR breaches; is that correct?
 4 A Um, I would have to review this document a little
 5 further to confirm that. It doesn't state that specifically
 6 here.
 7 Q Do you remember if they do or not?
 8 A I believe so, yes.
 9 Q Okay. That's fine. Thank you.
 10 Can I ask you to now look at the same page here, last
 11 bullet point there
 12 "Protocol surrounding the relationship remains
 13 supervised by the covered client policy, business Risk
 14 Management, RM, and the ASC Group. A variety of precautionary
 15 measures are in place to maintain confidentiality and any
 16 business decisions surrounding the relationship are handled by
 17 the Reputational Risk Committee and senior bank management given
 18 the guarantor's status as former President of the United States.
 19 This population would also be responsible for advising of any
 20 additional measures to be taken as a result of any criminal
 21 charges regarding guarantor's company and related business
 22 entities."
 23 Can you explain the protocols here described in this
 24 paragraph?
 25 A So as described here is a variety of precautionary

D. Williams - by Defense - Cross (Mr. Gaber) Page 5426

1 measures that were put in place around the time Mr. Trump was
 2 elected to office of the presidency in order to maintain
 3 confidentiality.
 4 Q Now, moving -- sorry, I'm jumping around in the section
 5 here, but moving to the second bullet point, it says, "Delivery
 6 of all required reporting concerning the collateral properties
 7 and guarantor have been supplied in a timely manner. However,
 8 additional clarifications that have been requested from the
 9 client related to legal cases the client is facing have gone
 10 unanswered, and at present the client is tagged as an orderly
 11 exit."
 12 What does it mean that "the client was tagged as an
 13 orderly exit"?
 14 A So the decision was made internally by senior levels of
 15 bank management to exit the client's relationship on an orderly
 16 basis.
 17 Q To the extent it says "There are additional
 18 clarifications that had been requested", were you involved in
 19 that process of trying to obtain updated information from the
 20 client?
 21 A No, I was not.
 22 Q Okay.
 23 Can you tell me what it means to have "an orderly exit"
 24 in terms of the bank's policy or practice?
 25 A So I would describe that in a context of a credit

D. Williams - by Defense - Cross (Mr. Gaber) Page 5427

1 facility. As the loan matures, we would be opting not to renew
 2 or extend that credit facility, and we would advise the client
 3 with some advanced notice of that.
 4 Q A single facility or all facilities related to that
 5 client?
 6 A So in this case it says the client is to act as an
 7 orderly exit, so that would apply to all credit facilities as
 8 they matured.
 9 Q Okay. Thank you?
 10 MR. GABER: We could take that down.
 11 (Whereupon, the exhibit displayed on the screen was
 12 taken down.)
 13 Q Mr. Williams, you testified in speaking with Mr. Suarez
 14 that you would expect a client would provide you with truthful
 15 and accurate information; is that correct?
 16 A Yes.
 17 Q Okay.
 18 Not just in a financial statement, but in all documents
 19 and information that a client submits to the bank; correct?
 20 A Yes.
 21 Q And as a lending officer, you have a regulatory
 22 obligation to make a report in circumstances where you believe
 23 counterparty has engaged in fraudulent conduct; correct?
 24 A Um, there are internal procedures, steps that we would
 25 take if we ever determined that that was the case.

D. Williams - by Defense - Cross (Mr. Gaber) Page 5428

1 Q Can you describe your understanding of those
2 procedures?
3 A Um, honestly, I can't recall in my entire career that
4 that's ever happened. So it would probably just start with my
5 manager or senior management within my division, and we would
6 elevate as necessary.
7 Q Okay.
8 So in any case, what you are telling me is that a
9 transaction couldn't just continue undisturbed, business as
10 usual, if the counterparty had engaged in fraudulent conduct
11 towards the bank; correct?
12 MR. KISE: Objection. Mischaracterizes the
13 testimony.
14 THE COURT: That question depends on testimony?
15 MR. GABER: Withdrawn.
16 MR. KISE: He said you were with.
17 MR. GABER: Mr. Kise, I withdrew the question.
18 Thank you.
19 THE COURT: Withdrawn.
20 MR. GABER: I just want to save you the speech.
21 Q Mr. Williams, you testified that the net worth of
22 Mr. Trump was a significant factor in the underwriting process
23 of these loans; correct?
24 A Yes. It was definitely a factor.
25 Q And you also testified that you would have recommended

D. Williams - by Defense - Cross (Mr. Gaber) Page 5429

1 that Private Wealth Management declare and event of default if
2 you had determined Mr. Trump's net worth fell below the
3 \$2.5 million minimum net worth in the loan covenants; correct?
4 MR. SUAREZ: Objection. Mischaracterizes the prior
5 testimony.
6 Q Billion, \$2.5 billion.
7 THE COURT: Was that the discrepancy?
8 MR. GABER: He testified at his deposition. I
9 could pull it up.
10 MR. SUAREZ: I thought you were referring to
11 earlier today.
12 THE COURT: I thought so, too.
13 MR. GABER: I said he has testified. You have
14 testified.
15 THE COURT: Let's start from scratch.
16 Q Mr. Williams, is it correct that you would have
17 recommended that Private Wealth Management declare an event of
18 default if you had determined at any time that Mr. Trump's net
19 worth fell below the \$2.5 billion net worth covenant in the loan
20 agreements?
21 A So I think consistent with my testimony earlier today,
22 a covenant breach gives you an opportunity to come to the table
23 with the client and consider a course of action from there.
24 Q I'm just going to pull up your deposition testimony
25 really quickly, page 190.

D. Williams - by Defense - Cross (Mr. Gaber) Page 5430

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q And if we look at line 15:
4 "QUESTION: Would you have recommended that the
5 Private Wealth Management Division declare an event of
6 default if you had determined that President Trump's net
7 worth fell below the 2.5 billion at any time?
8 "ANSWER: Yes."
9 That was your testimony; correct?
10 A It appears to be, yes.
11 MR. GABER: We could take that down.
12 (Whereupon, the exhibit displayed on the screen was
13 taken down.)
14 Q Mr. Williams, during your time at Deutsche Bank, did
15 you ever underwrite a loan where a guarantor submitted a
16 financial statement that was determined by a court to be false
17 and misleading?
18 A Can you restate the question, please.
19 Q Yeah, during your time at Deutsche Bank, did you ever
20 underwrite a loan where a guarantor submitted a financial
21 statement in support of that loan that was determined by a court
22 to be false and misleading?
23 A No.
24 MR. GABER: Nothing further.
25 THE COURT: Any redirect?

D. Williams - by Defense - Redirect (Mr. Suarez) Page 5431

1 MR. SUAREZ: Yes.
2 REDIRECT EXAMINATION
3 BY MR. SUAREZ:
4 Q Mr. Williams, good afternoon.
5 A Welcome back.
6 THE COURT REPORTER: I Don't think your microphone
7 is on.
8 Q Mr. Williams, good afternoon.
9 A Good afternoon.
10 Q What does it mean when a loan fails a DSCR test?
11 A That the loan is in breach of that particular covenant.
12 Q Were DSCR test failures common during COVID?
13 A Yes.
14 Q With respect to the loans that we've discussed today,
15 the Trump Old Post Office, Trump Chicago and Trump Doral, was
16 Deutsche Bank ultimately satisfied with the resolution of any
17 failures in the debt service coverage ratio, the DSCR?
18 A Yes, the bank was satisfied with the resolution.
19 Q Why is that?
20 A So I believe in most cases there was a built-in
21 mechanism that called for a reappraisal of property if the
22 appraisal came in at an acceptable level, then that was
23 determined to be an acceptable outcome.
24 In other instances, the client provided a capital
25 infusion to the borrowers that otherwise enabled them to remain

D. Williams - by Defense - Redirect (Mr. Suarez) Page 5432

1 current on their payments and otherwise current with the loan.
2 Q And in your experience at Deutsche Bank, was there
3 anything uncommon about how those issues were resolved?
4 A No.
5 MR. SUAREZ: If we could turn to Plaintiff's
6 Exhibit 498.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 MR. SUAREZ: At page two of the exhibit.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q Do you see where it says, "Financial strength of the
13 guarantor. The financial profile of the guarantor includes a
14 stated net worth of 6.12 billion which remains above the
15 2.5 billion minimum requirement, even on an adjusted basis"?
16 A Yeah, I think it's at the bottom of this page. Yes, I
17 see that.
18 Q What does "even on an adjusted basis" mean?
19 A After allowing for bank adjustments to the clients
20 provided financial statement.
21 MR. SUAREZ: And if we could turn to page 11. And
22 focus in on the two columns furthest to the right.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q Do you see where it says, "DJT June 30, 2018, client

D. Williams - by Defense - Redirect (Mr. Suarez) Page 5433

1 reported"?
2 A Yes.
3 Q And "DJT June 30, 2018, DB adjusted."
4 A I think I'm looking at the wrong page.
5 Q Page 11 of the exhibit, page nine of the report.
6 A Okay. Yes, I see that.
7 Q And in -- for purposes of this credit report, what was
8 the adjusted net worth that Deutsche Bank considered in
9 connection with its credit recommendations and credit decisions?
10 A It looks like it was 2.515 billion.
11 Q Going back to the prior page two.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q Is it correct that the approval of the facility was
15 once again based on Deutsche Bank's own analysis as to the
16 adjusted net worth of the guarantor?
17 A Yes. This was another credit report that served as an
18 annual review of the relationship, and upon receipt of updated
19 financial information, we did our own due diligence and analysis
20 and determined that his unadjusted basis --
21 THE COURT REPORTER: I'm sorry, that his --
22 (Whereupon, the answer was read back by the court
23 reporter.)
24 A That his adjusted net worth exceeded the minimum
25 requirement.

D. Williams - by Defense - Redirect (Mr. Suarez) Page 5434

1 MR. SUAREZ: And if we could turn to page 13 of the
2 exhibit, which is page 11 of the credit report, and focus in
3 on the net cash flow at the bottom of this page.
4 Q Do you see it says, "Net cash flow, the guarantor
5 demonstrates a diversified stream of cash flows which is
6 generally recurring by nature. The following table summarizes
7 the sources and uses of cash for the period of 2010 to 2018."
8 What does this credit report reflect with respect to
9 the guarantor's cash flow for the period reviewed?
10 A So it demonstrates a history of the client's,
11 guarantor's net cash flow over the period of which we had our
12 credit relationship with the client.
13 Q Was the -- were the credit decisions reflected in this
14 credit report based on Deutsche Bank's own analysis of the
15 client reported figures?
16 MR. WALLACE: Objection. Leading.
17 THE COURT: Sustained.
18 MR. SUAREZ: If we could turn to page 14.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 MR. SUAREZ: And zoom in where it says "unpledged
22 adjusted liquid assets."
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q What does the term "unpledged adjusted liquid assets"

D. Williams - by Defense - Redirect (Mr. Suarez) Page 5435

1 mean?
2 A That would represent the liquid assets that the
3 guarantor had on hand that were not pledged in support of any
4 loans, and then after any bank adjustments.
5 Q Were the bank adjustments -- withdrawn.
6 How did the bank adjust the liquid assets reported by
7 the guarantor?
8 A It doesn't appear that there were any adjustments that
9 year.
10 Q Does the -- what of it all is the effect of the
11 unpledged adjusted liquid assets used here in the key ratios
12 section of the credit report higher than the client reported
13 liquidity of \$78.2 million?
14 MR. WALLACE: Objection, your Honor. At this point
15 I think we are beyond the scope of cross.
16 THE COURT: Well, the rule is redirect is limited
17 to the scope of cross. Was this covered in cross
18 examination?
19 MR. KISE: The liquidity certainly was, yes, your
20 Honor. And this goes directly to the liquidity.
21 Mr. Gaber pointed out -- attempted to point out
22 that the bank relied on the reported cash flow without doing
23 any of its own analysis, and Mr. Suarez is simply exploring
24 that with documentary evidence, the same exhibit that they
25 introduced.

<p style="text-align: right;">Page 5436</p> <p>1 THE COURT: Overruled. 2 (Continued on the next page.) 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p style="text-align: right;">Page 5438</p> <p>Williams - by Defendant - Redirect (Suarez)</p> <p>1 Q Does that mean you didn't check? 2 A No. I feel certain we checked. 3 MR. SUAREZ: If we could turn our attention to 4 Plaintiff's Exhibit 519. 5 (Handing) 6 MR. SUAREZ: And again, if we could turn to page 7 four of 35. 8 Q It states: For all facilities in the section, 9 financial strength of guarantor in the financial profile of the 10 guarantor include, as stated, net worth of 6.1 billion, which 11 remains above the 2.5 billion minimum requirement, even on an 12 adjusted basis. 13 What does the statement, "even on an adjusted basis" 14 mean? 15 A Again, after we make our, typically, our standard 16 adjustments to the client's stated net worth, the two and a 17 half billion is the minimum amount that is required for the 18 client to meet. 19 Q And if you look at page 11 of this memorandum -- 20 excuse me, ten of the memorandum, page 11 of the exhibit. Page 21 11 of the exhibit. In the lower right-hand corner under the 22 column DJT 6/30/2019 (DB adjusted) it lists a net worth of 23 2.549 billion; is that correct? 24 A Yes. 25 Q And what does that number reflect?</p>
<p>Williams - by Defendant - Redirect (Suarez)</p> <p style="text-align: right;">Page 5437</p> <p>1 A So looking back to exhibit page 11, 98.9, would 2 appear to be the total of cash and marketable securities plus 3 escrow and deposits 76.2 plus 22.7. 4 Q And was that number adjusted by Deutsche Bank to 5 reach the unpledged check liquid assets figure? 6 A It doesn't appear there were any adjustments. 7 Q What analysis, if any, did Deutsche Bank conduct to 8 assess the available net cash flow of the guarantor during this 9 period? 10 A I don't see on page 13 of the document that there 11 were any, necessarily, any adjustments to cash flow in this 12 particular year. 13 Q What analysis, if any, was conducted with respect to 14 the guarantor's cash flow by Deutsche Bank? 15 A I suspect some -- there were -- there was some review 16 of the cash flow in terms of the recurring and non-recurring 17 sources and uses. If we had determined any of the sources were 18 non-recurring, we might have excluded those. 19 Q What, if anything, is -- withdrawn. 20 How, if at all, does the credit report reflect an 21 inconsistency between the client reported liquidity and what 22 Deutsche Bank thought the adjusted liquidity ought to be? 23 A Well, so in this particular year we determined no 24 adjustments to the client's reported or stated liquidity were 25 necessary.</p>	<p>Williams - by Defendant - Redirect (Suarez)</p> <p style="text-align: right;">Page 5439</p> <p>1 A Client's net worth after taking into account bank 2 adjustments to his financial statement. 3 Q And is that number consistent with the statement that 4 the client's -- excuse me, the guarantor's net worth remains 5 above the 2.5 billion minimum requirement, even on an adjusted 6 basis? 7 A Yes. 8 Q Would the adjustment of the client's net worth in 9 this credit report reflect Deutsche Bank's own analysis of the 10 guarantor's financial strength? 11 A Yes. 12 Q Was the fact that Deutsche Bank did not adjust the 13 reported cash and marketable securities mean that Deutsche Bank 14 didn't conduct its own analysis? 15 MR. WALLACE: Objection, leading. 16 THE COURT: Sustained. 17 Q What does it mean that the cash and marketable 18 securities reported by the client at 87 million and the cash 19 and marketable securities adjusted by Deutsche Bank of 20 87 million are the same number? 21 A We determined no adjustments were necessary. 22 Q Was that determination made after conducting your own 23 analysis? 24 A Yes. 25 MR. KISE: Your Honor, can we take our break</p>

Williams - by Defendant - Redirect (Suarez) Page 5440

1 now? And that way we can see if we can -- we are going
 2 to -- it would truncate perhaps?
 3 THE COURT: It worked before.
 4 MR. KISE: It worked. It did.
 5 THE COURT: I would have given the five minute
 6 warning. All right, 15 minute break.
 7 I will direct the witness not to discuss the
 8 case or his testimony.
 9 (Pause in the proceedings.)
 10 COURT OFFICER: All rise. Part 37 is back in
 11 session. Please be seated and come to order.
 12 THE COURT: Well, Mr. Suarez, did Mr. Kise
 13 deliver on his promise to condense?
 14 MR. KISE: I believe so, Your Honor. It won't
 15 be long.
 16 THE COURT: We need a witness.
 17 (Whereupon, the witness resumed the stand.)
 18 THE COURT: Okay. Let's continue.
 19 Q Mr. Williams, I would like to show you Defendant's
 20 Exhibit 387, which is already in evidence.
 21 MR. ROBERT: Your Honor, I think the witness
 22 needs water.
 23 THE COURT: We don't want him to dehydrate.
 24 (Handing)
 25 Q Mr. Williams, do you see this document, the second

Williams - by Defendant - Redirect (Suarez) Page 5441

1 amendment to the term loan agreement with Trump Endeavor 12 as
 2 borrower and Deutsche Bank Trust Company Americas as lender?
 3 A Yes.
 4 MR. SUAREZ: Could you turn to page six of the
 5 exhibit? And if we could focus in on the section that
 6 says: If borrower is not in compliance.
 7 Q And if you could please read the section that says:
 8 If borrower is not in compliance on such DSCR test date.
 9 A If borrower is not in compliance on such DSCR test
 10 date with the applicable required debt service coverage ratio
 11 and the step-down percentage is 40 percent, 20 percent or
 12 10 percent, such failure shall not constitute an event of
 13 default, but rather lender shall only have the right to conduct
 14 an appraisal at borrower's expense, in order to test the
 15 loan-to-value ratio in accordance with section 4.6(B).
 16 Q Is this section of the loan agreement consistent with
 17 what actually happened?
 18 A I believe so, yes.
 19 Q To the best of your knowledge, was an event of
 20 default ever declared by Deutsche Bank on the loans made to the
 21 Trump Organization?
 22 A No.
 23 MR. SUAREZ: I have no further questions, Your
 24 Honor?
 25 THE COURT: Any cross?

Williams - by Defendant - Redirect (Suarez) Page 5442

1 MR. WALLACE: No.
 2 THE COURT: Okay. The witness is excused.
 3 Thank you.
 4 (Whereupon the witness exited the courtroom).
 5 THE COURT: Defendants' next witness.
 6 MR. KISE: Before we call the next witness, just
 7 briefly. I am just going to renew, based on the testimony
 8 we just heard today, renew our motion for directed
 9 verdict. The evidence before the defense began was clear,
 10 there is no -- the government had not introduced enough
 11 evidence of intent, materiality, reliance or damages for
 12 disgorgement with this witness. And I don't know how many
 13 more witnesses we need to call to confirm this. But this
 14 witness has again testified the bank conducted its own due
 15 diligence; the bank had no problem with a \$2 billion
 16 difference, a \$3 billion difference; large changes to net
 17 worth were not unusual. They didn't say there was any
 18 issue between what the bank viewed and the client reported
 19 numbers.
 20 So, there has been no demonstration of any
 21 materiality issue here at all. There is no reliance. The
 22 bank made, just as this witness testified, just like
 23 Mr. Haigh testified, the bank made decisions based on its
 24 own analysis. There is no damage or disgorgement possible
 25 because there was no change in position by the bank based

Williams - by Defendant - Redirect (Suarez) Page 5443

1 on what President Trump submitted.
 2 Again, as this witness testified, as I said in
 3 my opening, President Trump was overqualified for the
 4 loan. To be a private wealth customer, as you heard this
 5 witness testify, \$10 million in liquidity, \$100 million in
 6 net worth. At no time were either of those thresholds
 7 ever in danger of breach. In most years President Trump's
 8 liquidity exceeded \$100 million, perhaps not every year,
 9 but most years. So there could be no ill gotten gain.
 10 Even the DSCR breach that we went round and
 11 round about is yet another red herring by the government.
 12 Number one, it was self cured. But number two is, as you
 13 just heard the witness testify and as evinced by the
 14 documentary evidence, the loan documents which govern this
 15 relationship, it is not an event of default. It simply
 16 gives rise to rights under the agreement for the lender to
 17 take certain actions. So, there is no establishment of
 18 intent, no establishment of materiality, no reliance, no
 19 ill gotten gain.
 20 This is now the second bank witness who signed
 21 off on these loans to testify that there was no problem at
 22 any point with these loans and these wide disparities
 23 which the Attorney General labels as fraud. The bank, who
 24 is in the relationship, whose job it is to make these
 25 determinations, it is not the Attorney General's job to

Williams - by Defendant - Redirect (Suarez) Page 5444

1 make these determinations post hoc, and say ten years
 2 later, insert herself into a commercial transaction that
 3 was successfully consummated.
 4 So, they haven't met any of the requisite
 5 elements. And so we would, again, renew our motion for
 6 directed verdict.
 7 Thank you, Judge.
 8 THE COURT: Plaintiff, would you like to
 9 respond?
 10 MR. WALLACE: No. This is not -- I don't know
 11 what the point of this motion is. The witness did not say
 12 that none of this matters. The witness said that actually
 13 they expect their clients to tell them the truth and not
 14 lie and not submit fraudulent statements. The idea that
 15 this witness somehow exonerates defense --
 16 I'll also note that to the extent we are talking
 17 about claims two through seven, they do not involve fraud
 18 directed at Deutsche Bank. They involve fraud directed at
 19 creating false financial records, false financial
 20 statements and insurance fraud. So, testimony from a
 21 Deutsche Bank witness would not be a basis for directing a
 22 verdict under any circumstances.
 23 I think the idea that you can't lie to a bank,
 24 is pretty well established. And that we do not -- there
 25 is no failure of proof in any event.

Williams - by Defendant - Redirect (Suarez) Page 5445

1 THE COURT: Very quick reply.
 2 MR. KISE: Just briefly, Your Honor.
 3 The question of whether or not the bank was lied
 4 to is not an abstract question. It is a question of
 5 whether the bank itself determined that the information
 6 submitted was satisfactory. None of us here, including
 7 respectfully, Your Honor, are here to supplant your own
 8 judgment, insert your own judgment as to what is accurate
 9 and what isn't for the parties to the transaction. This
 10 is not a situation where you have a complainant who is
 11 saying, I was defrauded, that there is an issue here.
 12 This is a highly sophisticated international financial
 13 institution which conducted significant due diligence. It
 14 is fully satisfied with the deal it struck. You have not
 15 heard anyone say to the contrary. We are just basically
 16 guessing and the Attorney General is substituting her own
 17 judgment for the parties'. There cannot be materiality if
 18 the party to the transaction, whose role it is to
 19 determine what is material to them and what isn't, this
 20 witness and Mr. Haigh have testified that the fluctuations
 21 in the numbers are not unusual. They are anticipated.
 22 Because, as you heard Dr. Laposa testify, as you heard me
 23 say, I am sure more times than you care to hear, this is a
 24 subjective exercise. There isn't a right answer. There
 25 isn't an, ah-ha, you picked the wrong number. The

Williams - by Defendant - Redirect (Suarez) Page 5446

1 question is, in the course of a sophisticated commercial
 2 transaction, was a bank like Deutsche Bank, conducting
 3 their own due diligence, satisfied with the information
 4 they received. Answer: yes, based on the evidence of
 5 record.
 6 And so we can't just make up what we think
 7 should have happened. The Attorney General isn't free to
 8 just say, well, I don't care what that evidence says. I
 9 don't care what the bank thinks. I am here to be the
 10 protector. That's not our Capitalist system. That is not
 11 a free market system that we have in the United States of
 12 America, where an Attorney General --
 13 MR. WALLACE: Your Honor, we have a witness
 14 waiting.
 15 MR. KISE: I am just going to make my record.
 16 MR. WALLACE: You made this record 100 times.
 17 MR. KISE: I haven't made it 100 times.
 18 MR. WALLACE: You made it at least 100 times.
 19 MR. KISE: This is the third time. You are
 20 making it longer.
 21 If everyone is of the view that evidence doesn't
 22 matter, fine. I guess I am wasting my time. I guess I am
 23 wasting my time and wasting my breath. Clearly the
 24 Attorney General thinks that actual witnesses who are
 25 actually involved in the transaction who signed the

Williams - by Defendant - Redirect (Suarez) Page 5447

1 documents, none of that matters. We have heard witness
 2 after witness come in and say that, and no one cares. If
 3 that is where we are, then I don't know what country we
 4 have landed in here in the State of New York.
 5 But all I say is, I renew our motion for
 6 directed verdict. Thank you.
 7 THE COURT: Mr. Wallace, would you like a
 8 surreply or a witness?
 9 MR. WALLACE: I will just rest on the extensive
 10 record, on the summary judgment decision, and the entire
 11 proceedings on this case. And ask that we actually bring
 12 in the witness who will testify as to the facts.
 13 THE COURT: And I am not prepared to give a
 14 whole speech on this. I would just basically point out
 15 that the mere fact that the lenders were happy, doesn't
 16 mean that the statute wasn't violated. It doesn't mean
 17 other statutes weren't violated.
 18 I'll take it under advisement.
 19 Let's get the witness.
 20 COURT OFFICER: Witness entering.
 21 (Whereupon the witness entered the courtroom and
 22 took the stand.)
 23 COURT OFFICER: Raise your right hand for me.
 24 E M I L Y P E R E L E S S, after having
 25 first been duly sworn was examined and testified as

Pereless - by Defendant - Direct (Suarez) Page 5448

1 follows:
2 COURT OFFICER: Please state your name, and
3 either home or business address for the record.
4 THE WITNESS: Emily Pereless, One New York
5 Plaza, New York City.
6 THE COURT: I'll ask you right at the start,
7 talk loudly, right into the microphone, close as possible.
8 THE WITNESS: Thank you.
9 THE COURT: Let's go ahead with the direct
10 examination.
11 DIRECT EXAMINATION
12 BY MR. SUAREZ:
13 Q Good afternoon. My name is Jesus Suarez. I
14 represent certain of the defendants in this case.
15 Ms. Pereless, have you ever been employed by Deutsche
16 Bank?
17 A Yes.
18 Q While you were employed by Deutsche Bank, were you
19 known under any other name?
20 A Yes.
21 Q What name?
22 A Emily Schroder.
23 Q What positions did you hold during your time at
24 Deutsche Bank?
25 A Can you -- can you explain the question? Like

Pereless - by Defendant - Direct (Suarez) Page 5449

1 corporate positions or?
2 Q Sure. When were you employed at Deutsche Bank?
3 A 2007, I think, until 2015.
4 Q What position did you hold when you were first
5 employed at Deutsche Bank?
6 A Analyst.
7 Q Were you an analyst in any particular division?
8 A Structured lending.
9 Q And at any point in time were you promoted from the
10 position of analyst?
11 A Yes.
12 Q When were you promoted from the position of analyst?
13 A I do not recall.
14 Q To what position were you promoted from the position
15 of analyst?
16 A Vice President.
17 Q And what were your responsibilities as a Vice
18 President at Deutsche Bank?
19 A I was -- I worked in the structured lending group
20 doing loans for high-net-worth clients.
21 Q During the time that you were employed by Deutsche
22 Bank, were you ever employed within the Private Wealth
23 Management group?
24 A Yes.
25 Q Were you employed with the Private Wealth Management

Pereless - by Defendant - Direct (Suarez) Page 5450

1 group for the entirety of your time at Deutsche Bank?
2 A Yes.
3 Q How long did you retain the title of vice president?
4 A I do not recall.
5 Q Were you promoted from the position of vice
6 president?
7 A Yes.
8 Q When were you promoted from the position of vice
9 president?
10 A I do not recall.
11 Q What were your responsibilities as vice president --
12 withdrawn.
13 To what position were you promoted from vice
14 president?
15 A Executive director.
16 Q What was your -- what were your responsibilities as
17 executive director at Deutsche Bank?
18 A Working on loans for the structured lending group.
19 Q And were those loans extended through the Private
20 Wealth Management group?
21 A Yes.
22 Q And were you promoted from the position of executive
23 director?
24 A No.
25 Q When did you leave Deutsche Bank?

Pereless - by Defendant - Direct (Suarez) Page 5451

1 A March of 2015.
2 Q What role, if any, did you have in the lending group
3 of the Private Wealth Division of Deutsche Bank?
4 A I was an analyst and I worked on loans for the
5 structured lending group.
6 Q Okay.
7 MR. SUAREZ: If we could pull up -- during your
8 time employed with the Deutsche Bank Private Wealth
9 Management Group were you familiar with its policies and
10 procedures?
11 A At the time was I familiar with them or am I now?
12 Q At the time.
13 A I think so.
14 MR. SUAREZ: Okay. Let's pull up what has been
15 previously marked as Defendant's Exhibit 62.
16 (Handing)
17 Q Do you recognize this document?
18 A I do not.
19 Q Have you ever seen this document before?
20 A I think I was shown it during a deposition.
21 Q Are you familiar with the contents of this document?
22 A I am not.
23 Q Did this document ever inform your work at Deutsche
24 Bank?
25 A Not that I recall.

Pereless - by Defendant - Direct (Suarez) Page 5452

1 MR. SUAREZ: We will set this document aside
2 then.
3 If we could please turn to what has previously
4 been marked as Plaintiff's Exhibit 293 and previously
5 admitted into evidence.
6 (Handing.)
7 Q Do you recognize this document?
8 A I do.
9 Q Do you see on the upper right-hand page where it
10 says: Lenders, supporting lenders Stafford/Schroder?
11 A I do.
12 Q Is Schroder a reference to you?
13 A Yes.
14 Q What would it mean for you to be identified as a
15 supporting lender in this document?
16 A It means that I was one of the analysts who worked on
17 a loan.
18 Q And what responsibilities would you have as one of
19 the analysts that worked on the loan?
20 A To analyze the information provided.
21 Q And what would you do, if anything, with the analysis
22 that you performed on information that was provided to you?
23 A The analysis would be put in the memo.
24 Q And does the memo contain an accurate recitation of
25 the results of your analysis?

Pereless - by Defendant - Direct (Suarez) Page 5453

1 A Specifically I do not recall.
2 MR. SUAREZ: You can turn to page five of this
3 document.
4 Q Do you see there at the top on the upper left-hand
5 corner, do you recognize your name on the upper left-hand
6 corner?
7 A Yes.
8 Q And is -- I know it is a little blurry, but do you
9 recognize -- this is a document that you would have signed?
10 A Yes.
11 (Whereupon the following proceedings were
12 stenographically recorded by Senior Court Reporter Michael
13 Ranita.)
14
15
16
17
18
19
20
21
22
23
24
25

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5454

1 Q And what does it mean when you append your signature to
2 a credit report?
3 A I prepared it.
4 Q Would that mean that you are responsible for the text
5 that is in this document?
6 MR. WALLACE: Objection. Leading.
7 THE COURT: Sustained. It's leading.
8 MR. SUAREZ: If we could turn to the lower section
9 of this document.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 Q Do you see where it says "liquidity" on December 20,
13 2011? "A structured lending team of Dave Williams and Emily
14 Schroeder visited the offices of the guarantor and reviewed bank
15 and brokerage statements that confirmed \$178 million in cash
16 balances and 51.8 million marketable securities, totalling 229
17 million held in the name of the guarantor."
18 What, if anything, do you recall about the meeting
19 identified in this credit report.
20 A That Dave and I went to the offices and reviewed the
21 statements as noted.
22 Q Was that consistent with your practice in -- was that
23 consistent with your general practice?
24 A I don't understand the question. Sorry.
25 Q Was that consistent with the manner in which you would

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5455

1 memorialize underwriting activities in the credit report?
2 A Yes.
3 Q And why would you have gone to the office of the
4 guarantor to view bank and brokerage statements?
5 A At the request of the client.
6 Q Excuse me?
7 A At the request of the client.
8 Q And is that an action that -- withdrawn.
9 What is generally contained in a credit memo?
10 A The analysis of the collateral and the supporting
11 sponsors.
12 Q Who drafts the credit memo?
13 A It's a compilation of a number of people.
14 Q What is the purpose of drafting the credit memo?
15 A To present it to credit risk for approval.
16 Q Are you familiar with an entity named DB Valuation
17 Services Group?
18 A Yes.
19 Q What is the DB Valuation Services Group?
20 A It was the group at Deutsche Bank that was responsible
21 for ordering and reviewing appraisal reports.
22 Q What, if any role, did the DB Valuation Services Group
23 play in your preparation of this credit report?
24 A They were consulted with regards to some of the
25 information.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5456

1 Q Can you describe, generally, the ways that you would
2 consult with the DB Valuation Services Group with respect to
3 your analysis of commercial real estate assets?
4 A They would be consulted with regards to market
5 information that they would provide.
6 Q What type of information would the Valuation Group
7 review?
8 A I don't recall specifically.
9 Q What is your general understanding of how the Private
10 Wealth Management Group verified guarantor's stated net worth
11 during the time that you were at Deutsche Bank?
12 A Can you ask that again.
13 Q What is your understanding of how the Private Wealth
14 Management Group verified a guarantor's stated net worth?
15 A It was based on statements provided by a client.
16 Q And what, if any, steps did you undertake to review
17 information provided by a client?
18 A I don't recall.
19 MR. SUAREZ: If we could pull up Defendant's
20 Exhibit 185.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 (The witness was handed the exhibit.)
24 Q Do you see the two fields at the top of this e-mail?
25 A I do.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5457

1 Q Do you recognize this as an e-mail sent to you?
2 A Yes.
3 Q Do you see the date is December 13, 2011?
4 A Yes.
5 MR. SUAREZ: If you could turn to the attachment
6 which appears on the backside?
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 Q And these are -- do you recognize this attachment?
10 A Not specifically, but I assume it's the attachment from
11 the e-mail.
12 Q What are the significance of the items listed on this
13 page?
14 A I don't understand the question.
15 Q Okay. What items are listed here for due diligence
16 items?
17 A "Tax returns and cash flow. A listing of financial
18 contingents. Commitments on ongoing construction projects.
19 Understanding of ownership structure in major assets. Review of
20 deposit membership agreement, 30-year noninterest bearing term.
21 Appraisal on Doral Resort, valuation prepared by Predictiv on
22 Trump brand value."
23 Q What was the purpose of these due diligence items?
24 A I don't recall specifically.
25 Q What do you recall concerning the reason that this due

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5458

1 diligence items list was prepared?
2 A I don't recall.
3 Q Why would it be necessary for the bank to conduct due
4 diligence on personal tax returns and cash flow?
5 A In general?
6 Q In general.
7 A Or in this case?
8 Q In general.
9 A Um, it may be used if they are looking for some sort of
10 a loan.
11 Q And in this case, why was it necessary to review
12 personal tax returns and cash flow?
13 A I don't recall.
14 Q What does "DT" mean there at the top?
15 A I'm assuming it means Donald Trump, but I don't recall
16 specifically.
17 Q What would it mean -- what would the purpose be of
18 "reviewing the deposit membership agreements" as indicated in
19 line five?
20 A I don't recall.
21 Q What would the purpose of "reviewing an appraisal on
22 the Doral Resort" be as it appears in line six?
23 A I don't recall specifically, unless it was in relation
24 to the Doral Facility.
25 MR. SUAREZ: Your Honor, we move to admit

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5459

1 Defendant's Exhibit 185.
2 THE COURT: Granted. It's in.
3 (Defendant's Exhibit 185 was deemed marked and
4 admitted in evidence.)
5 MR. SUAREZ: Could we please pull up Plaintiff's
6 Exhibit 293.
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 (The witness was handed the exhibit.)
10 MR. SUAREZ: I'm sorry, I misspoke. Plaintiff's
11 Exhibit 291.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 (The witness was handed the exhibit.)
15 Q Do you recognize this document?
16 A I do.
17 Q What does it mean -- do you see where it says that you
18 are identified as the lender, Schroeder?
19 A I do.
20 Q Is that a reference to you?
21 A Yes.
22 Q What responsibilities did you have as the lender in
23 connection with preparing this credit report?
24 A Analyzing the information provided, and compiling the
25 report.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5460

1 MR. SUAREZ: And if you could turn to page six of
2 this document.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q Is that your signature?
6 A Yes.
7 Q What does the fact that this document contains your
8 signature mean?
9 A That I was part of the group that compiled it.
10 MR. SUAREZ: And if we turn to page seven in the
11 bottom paragraph of page seven?
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q It says "Liquidity. On October 19, 2012, Tom Sullivan
15 and Emily Schroeder visited the offices of the guarantor and
16 reviewed bank and brokerage statements that confirmed
17 146.3 million in cash balances and marketable securities
18 representing 86 percent of the client reported amount, and of
19 which 118.4 million was held in the name of the guarantor and
20 27.9 million" -- excuse me, "27.9 is held in operating accounts
21 of entities that are wholly-owned by the guarantor. The client
22 reported balance has decreased by 89.2 million from the prior
23 year primarily due to the client's investment in property
24 development, retirement of debt and asset acquisition."
25 What was the purpose of analyzing the client's

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5461

1 liquidity in this credit report?
2 A I don't recall, specifically.
3 Q Does the credit report accurately reflect the work that
4 you did to verify the client's -- excuse me, the guarantor's
5 stated liquidity?
6 A To my knowledge, yes.
7 MR. SUAREZ: If we could turn to Plaintiff's
8 Exhibit 290.
9 (Whereupon, the exhibit was displayed on the
10 screen.)
11 (The witness was handed the exhibit.)
12 MR. SUAREZ: Which is already in evidence.
13 Q Do you recognize this document?
14 A Yes.
15 Q Do you see the date of this document is July 24, 2013?
16 A Yes.
17 Q And are you the lender that's identified in the upper
18 -- the box in the upper right-hand corner of this page?
19 A Yes.
20 Q What role did you have, if any, in preparing this
21 credit report?
22 A Analyzing compiling the information provided.
23 Q And in doing so, did you comply with the bank's
24 policies and procedures?
25 MR. WALLACE: Objection leading.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5462

1 THE COURT: Sustained.
2 Q Was your role in preparing this credit report
3 consistent with the bank's policies and procedures?
4 MR. WALLACE: Objection. Leading.
5 THE COURT: Sustained.
6 Q What, if any, inconsistencies were there in the
7 preparation of this credit report with respect to the bank's
8 internal policies and procedures?
9 A I do not recall.
10 Q If you see page six of this document, do you see your
11 signature on the bottom left-hand corner of this page?
12 A Yes.
13 Q What does your signature mean on this document?
14 A That I was part of the group that compiled the report.
15 Q And what role would you have had in preparing the text
16 contained in this report, if any?
17 A I probably did the first draft of it.
18 Q And does the report, to your knowledge, accurately
19 reflect the work that was done in evaluating the guarantor's
20 financial strength?
21 A I do not recall.
22 MR. SUAREZ: If we could turn to Plaintiff's
23 Exhibit 294.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5463

1 (The witness was handed the exhibit.)
2 Q Do you recognize this document?
3 A Yes.
4 Q What is the date of this document?
5 A May 2nd, 2014.
6 Q And what role did you have in preparing this document,
7 if any?
8 A I analyzed and compiled the information provided.
9 Q What do you mean by "analyzed"?
10 A I mean, to review and -- review and, and compile it
11 inside the memo.
12 Q What role did you have as a lender in connection with
13 the credit decisions memorialized by this credit report?
14 A We did not make credit decisions. Credit decisions
15 were made by Credit Risk Management.
16 Q What role did you have in supporting, or not
17 supporting, decisions made by the bank in connection with this
18 credit report, if any?
19 A I do not recall.
20 Q Do you see on page 11 of the this document.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q On the left-hand corner in the middle of the page, do
24 you recognize your signature?
25 A Yes.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5464

1 Q Why would your signature appear on this document?
2 A Because I was part of the group that compiled the memo.
3 Q Why would your signature -- withdrawn.
4 What does it mean that your signature is on that
5 document?
6 A I was part of the group that compiled the memo.
7 Q Does it mean anything else?
8 A No.
9 MR. SUAREZ: If we could pull up Plaintiff's
10 Exhibit 2960.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 (The witness was handed the exhibit.)
14 Q On the upper right-hand corner, do you see the date of
15 this memo?
16 A August 3rd, 2015.
17 Q And do you appear on the upper right-hand corner of
18 this memo?
19 A Do I?
20 Q Yes.
21 A No, I do not.
22 Q What date did you leave the bank?
23 MR. WALLACE: Objection. Asked and answered.
24 THE COURT: I don't know if she gave an exact date.
25 MR. SUAREZ: I was trying to figure out, this would

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5465

1 refresh her recollection as to what --
2 MR. WALLACE: I believe her testimony was
3 March 2015.
4 THE COURT: Okay. Thank you. I stand corrected.
5 So she wasn't there. We all agree?
6 MR. SUAREZ: No, she wasn't there, I will withdraw
7 this document.
8 May I have a moment to confer with my colleagues?
9 THE COURT: Of course.
10 (Whereupon, there is a brief pause in the
11 testimony.)
12 MR. SUAREZ: If we could pull up the document
13 previously marked as Defendant's Exhibit 66.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 (The witness was handed the exhibit.)
17 Q Do you recognize this document?
18 A I do.
19 Q What is this document?
20 A It appears to be the Credit Risk Management Credit
21 Guidelines, Private Wealth Management Americas.
22 Q And how -- are you familiar with this document?
23 A I'm not.
24 Q Were you familiar with this document at the time that
25 you worked at Deutsche Bank?

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5466

1 A I was not.
2 Q How is it that you recognize this document?
3 A Because I saw this in a deposition.
4 Q Prior to being shown this document in a deposition, had
5 you done anything to make yourself familiar with the contents of
6 this document?
7 A No.
8 MR. SUAREZ: Okay. If we could pull up Plaintiff's
9 Exhibit 378.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 (The witness was handed the exhibit.)
13 MR. SUAREZ: I'm sorry, defendant's 378.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 (The witness was handed the exhibit.)
17 Q Do you recognize this document?
18 A The same thing, only from the deposition.
19 Q When you joined Deutsche Bank, what, if any, training
20 did you receive on its policies and procedures?
21 A I do not recall.
22 Q While you were employed at Deutsche Bank, what, if any,
23 continuing education did you receive concerning its internal
24 policies and procedures?
25 A I do not recall.

E. Pereless - by Defense - Direct (Mr. Suarez) Page 5467

1 Q Earlier we looked at Plaintiff's Exhibit 293.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q And we identified your -- that that was you as a lender
5 on the upper right-hand corner.
6 A Mm-hmm.
7 Q Can you walk me through the mechanics of how this
8 document would have been created?
9 A We would have been provided with financial statements
10 regarding whatever the collateral is, and the sponsor, or the
11 guarantor, and it would have been analyzed and presented in the
12 memo form.
13 Q What role would you have had in that process?
14 A I would have taken the information and probably filled
15 out some of the boxes and worked with the senior person to put
16 together the terms and put them in the memo.
17 Q And in preparing the memo, would you have any reason to
18 be inaccurate?
19 A Not that I recall.
20 Q How is the information -- withdrawn.
21 How would you receive the information that went into
22 this memorandum?
23 A I do not recall specifically.
24 Q What interaction, if any, would you have with the
25 individuals identified as relationship manager?

1 A I don't recall specifically.

2 Q Who is Rosemary Vrablic?

3 A She is a banker. She was a banker.

4 Q What role did Rosemary Vrablic have in connection with
5 the credit facility identified by this credit report?

6 A She was the banker for the client.

7 Q Who is the client?

8 A Donald Trump.

9 Q Is that the beneficial owner that you pointed to up
10 there, Donald J. Trump?

11 A Yes.

12 THE COURT: Mr. Suarez, how much longer?
13 Obviously, we are reaching the end of the day.

14 MR. KISE: Your Honor, maybe if we break now we
15 will truncate what we have. Once again, we may be able,
16 tomorrow morning, to make this very brief.

17 THE COURT: No way to finish?

18 MR. KISE: I don't think he is going to finish
19 today.

20 THE COURT: Okay.

21 MR. KISE: But I'm just thinking --

22 THE COURT: So we'll break now.

23 MR. WALLACE: Your Honor, if this is going to
24 continue, I will note our objection at this point. This
25 testimony is cumulative. This is the third witness that's

1 been asked about these documents. There's no new
2 information coming in. We are getting the same questions
3 that we've gotten from Mr. Haigh and from Mr. Williams. So
4 if it could be truncated to new information, I think that
5 would be appropriate.

6 MR. KISE: We are certainly going to do that. And
7 I appreciate Mr. Wallace recognizing that yet another bank
8 employee is coming in and being asked the same questions, so
9 back to my directed verdict motion. We'll leave it there.

10 Thank you, Judge.

11 THE COURT: All right. 10:00 tomorrow, everyone.
12 I'll direct the witness not to discuss the testimony or the
13 case overnight, because you'll be a witness tomorrow.

14 THE WITNESS: Okay.

15 (Whereupon, the case on trial was adjourned to
16 Wednesday, November 29, 2023, at 10:00 a.m.)

1 COURT OFFICER: All rise.
 2 Part 37 is now in session. The Honorable Judge
 3 Arthur Engoron presiding.
 4 Make sure all cell phones are on silent.
 5 Laptops and cell phones will be permitted, but only to
 6 members of the press. There is absolutely no recording or
 7 photography of any kind allowed in the courtroom.
 8 Now please be seated and come to order.
 9 THE COURT: Good morning, everyone.
 10 And we are going to continue with Ms. Pereless,
 11 correct?
 12 MR. KISE: Well Judge, three in a row now. As I
 13 told you yesterday on the break, we might be able to
 14 truncate it. So I think at this point to avoid cumulative
 15 testimony and prolong the proceedings, we are going to
 16 forego asking Ms. Pereless anymore questions. I don't
 17 know if the government has any questions. But, given that
 18 they said it was very cumulative, I am not sure they do.
 19 But we don't have -- in the interest of moving things
 20 along, we are prepared to proceed with Ms. Vrablic.
 21 THE COURT: Well, we have a mutual interest.
 22 Okay. Plaintiff, would you like to?
 23 MR. WALLACE: If Ms. Pereless is here we might
 24 have five to ten minutes of questions for her and we could
 25 get those out of the way.

 Senior Court Reporters

Page 5473

1 THE COURT: Let's do it.
 2 MR. ROBERT: Your Honor, while we are waiting
 3 for the witness, to try to streamline things more.
 4 I have Jack Weisselberg ready to come in this
 5 afternoon. In going through things last night, he was
 6 coming in as a custodian to introduce the Trump Tower loan
 7 agreement. So if the Attorney General would stipulate to
 8 these three documents, we don't need to bring Jack
 9 Weisselberg in this afternoon and can dispense with that
 10 as well.
 11 MR. WALLACE: If you want to hand them to us we
 12 can take a look, and I think we can resolve it by the
 13 break.
 14 MR. ROBERT: Sure. Just for the record, I am
 15 handing the Attorney General and I will hand up a copy to
 16 the Court Defendant's Exhibit 1058, which is the loan
 17 agreement between Trump Tower Commercial and Ladder
 18 Capital, dated August 30, 2012.
 19 D-1059, which is the guaranty of property
 20 expenses for that loan.
 21 And D-1060, which is the guaranty of recourse
 22 obligations.
 23 I'll give one copy to the Attorney General and
 24 one to the Court. And if they could let us know during
 25 the first break so I can let Mr. Weisselberg and his

<p>Proceedings Page 5474</p> <p>1 lawyer know they don't have to come this afternoon. 2 MR. WALLACE: Your Honor, I will note we have a 3 document we would have put in through Mr. Weisselberg as 4 well, so we will grab that and give it to the defendants. 5 MR. ROBERT: I always like the goosey/gander 6 rule. Your Honor has a different phrase than I do. 7 THE COURT: What is good for the goose is good 8 for the gander. 9 MR. ROBERT: I will hand that up and whenever 10 you have that for us, Kevin. 11 MS. FAHERTY: Our document is PX-1275. I'll 12 hand it up to the Court and over to Counsel, and we can 13 confer and then come back and confirm with the Court that 14 these are okay, Judge. 15 THE COURT: Such collegiality; am I in the right 16 courtroom? 17 Are we ready? 18 COURT OFFICER: Ready for the witness? 19 THE COURT: Yes, ready. 20 COURT OFFICER: Witness entering. 21 (Whereupon the witness resumed the stand.) 22 THE COURT: I'll remind the witness, good 23 morning, that she is still under oath. 24 And let's get to the cross examination. 25</p>	<p>Pereless - by Defendant - Cross (Ladov) Page 5476</p> <p>1 that was marked as Exhibit -- Plaintiff's Exhibit 378. 2 (Handing) 3 Q And Ms. Pereless, if you could take a moment to look 4 at that document. Do you recognize this? 5 A Yes. 6 Q And at a very high level, can you just explain what 7 you are looking at? 8 A This is an e-mail from Tom Sullivan to Marc Mitchell. 9 THE COURT: If you can look and talk into the 10 microphone. 11 THE WITNESS: Look and talk. 12 A An e-mail from Tom Sullivan to Marc Mitchell asking 13 him to focus on the conclusion in the last two paragraphs. I 14 guess regarding the appraisal of the Doral Resort. 15 MR. LADOV: Your Honor, I move this document 16 into evidence. 17 THE COURT: Granted, it is in. 18 MR. KISE: Statute of limitations objection. 19 THE COURT: Objection acknowledged and 20 overruled. 21 Q If you can look at the second page of the document? 22 MR. LADOV: And we can scroll down on the 23 screen. 24 Q You will see an e-mail from Mr. Phil Ribolow at 25 Deutsche Bank to yourself, and the subject is CBRE Appraisal of</p>
<p>Pereless - by Defendant - Cross (Ladov) Page 5475</p> <p>1 CROSS-EXAMINATION 2 BY MR. LADOV: 3 Q Good morning, Ms. Pereless. 4 My name is Mark Ladov. I represent the People of the 5 State of New York. We met briefly at your deposition a few 6 months ago. It is good to see you again. 7 A You as well. 8 Q I want to ask a few minutes worth of questions to 9 follow up on a couple of questions Mr. Suarez asked yesterday. 10 So you were shown a list of due diligence items on 11 the Doral loan. Actually I'll bring it up. It was marked as 12 Defendant's Exhibit 185. And you will see on the second page, 13 we can look at it on the screen I think. On the second page of 14 the list of due diligence items -- 15 MR. LADOV: You know what, it is D-185 16 corrected. 17 Q Well, just to move things along I'll represent to you 18 that one of the items on that list was an appraisal on Doral 19 Resort. I know you testified yesterday that you did not have a 20 specific recollection about that appraisal. But I wanted to 21 walk you through a couple of documents to see if we can refresh 22 your recollection and ask some follow-up questions about 23 Deutsche Bank's review of that appraisal and how it related to 24 the Doral underwriting. 25 So I would like to ask to show you a -- a document</p>	<p>Pereless - by Defendant - Cross (Ladov) Page 5477</p> <p>1 the Marriott Doral Golf Resort and Spa. 2 Do you recall who Phil Ribolow is? 3 A Yes. 4 Q And who is he? 5 A He worked in Evaluation Services Group. 6 Q And at the beginning of the e-mail it says: Dear 7 Emily "At your request, 1) I am detailing the areas of 8 objection with the CBRE appraisal below. 2) Providing my 9 estimate of value. And also 3) A guide to what range of value 10 might be obtained if this property were to be appraised by a 11 knowledgeable appraiser who is well-versed in the South Florida 12 Golf Resort Market." 13 Does this refresh your recollection at all about 14 what, if anything, you had done with regard to an appraisal on 15 Doral? 16 A No, just that we provided it to the Appraisal 17 Services Group to review. 18 Q And do you recall why you would have done that? 19 A I think it was due diligence when we were looking to 20 do the loan. 21 Q And so in the next sentence Mr. Ribolow writes: "The 22 objections have been written in the order presented within the 23 report. In the interest of saving busy readers some time, the 24 areas of objection with the greatest impact are items number 1, 25 3, 7, 11, 13, 15, and 16.</p>

Pereless - by Defendant - Cross (Ladov) Page 5478

1 And I am not going to go through the whole e-mail,
2 but in paragraph one Mr. Ribolow objects that, quote -- that
3 the, quote, "appraiser states that his value includes a buyer's
4 assumption of the cash liability of the refundable memberships,
5 but presents no data or analysis as to how much that liability
6 might actually cost."
7 If you look down to paragraph three, he talks a bit
8 about the land use analysis in the appraisal. And he objects
9 that the, quote, "area surrounding the subject is a new area of
10 development, consisting primarily of industrial uses."
11 And then at the end of that paragraph he says that
12 this is, quote, "hardly conducive to the appraiser's utilizing
13 trophy hotel property return parameters to value Doral.
14 Resorts located in industrial zones alongside airport flight
15 paths rarely achieve premium pricing.
16 And then it goes on.
17 MR. LADOV: Actually, if we can just scroll
18 down.
19 Q There are about three pages worth of objections to
20 the appraisal.
21 MR. LADOV: And then if you scroll all the way
22 down to the end.
23 Q After about 16 paragraphs Mr. Ribolow writes to you
24 that: Based on his objections and adjustments that he is,
25 quote, "comfortable with concluding a value for the property in

Pereless - by Defendant - Cross (Ladov) Page 5479

1 the range of 110 to \$115 million.
2 And then he also says in that last paragraph: "a DB
3 commissioned appraisal might conclude to a value somewhere in
4 the range of 120 to \$130 million. I could conceivably support
5 that value if the analyses and assumptions were
6 well-researched, market-oriented and appropriately supported.
7 MR. LADOV: And then actually scrolling down for
8 a second to look at Mr. Ribolow's signature.
9 Q It says that he is in CIB/Credit Risk Management. Do
10 you have an understanding of what that refers to?
11 A I think CIB stood for Corporate Investment Bank, but
12 I am not positive. And Credit Risk Management is Credit Risk
13 Management.
14 Q Okay. And then scrolling back up to the first page
15 of the document. And you forwarded this e-mail from
16 Mr. Ribolow to Tom Sullivan. Correct?
17 A Yes.
18 Q And who was Tom Sullivan?
19 A Tom Sullivan was my boss.
20 Q And what was his role in the underwriting process for
21 the Doral facility?
22 A He was the senior lender.
23 Q And then again, I think you mentioned this before,
24 but at the very top Mr. Sullivan forwarded this conversation to
25 Marcus Mitchell. Who is Marcus Mitchell?

Pereless - by Defendant - Cross (Ladov) Page 5480

1 A He was the head of the group.
2 Q And which group was that?
3 A The structured lending group.
4 Q And so what was his role in regard to the Doral
5 facility?
6 A He was a just a senior member of the group.
7 Q And do you have any recollection of what happened as
8 a result of this analysis of the appraisal on Doral?
9 A I do not recall.
10 Q Okay. So I want to show you one other document which
11 was previously marked as Plaintiff's Exhibit 1836.
12 And Ms. Pereless, do you recognize this document?
13 A I do.
14 Q And what is it?
15 A It looks like it is a -- it is a credit memo. I am
16 not totally sure what for.
17 Q Okay.
18 MR. LADOV: Your Honor, I ask to move this into
19 evidence as well.
20 MR. KISE: Objection, foundation.
21 THE COURT: We don't know what it is yet.
22 Q Ms. Pereless, I will note it is dated February 6,
23 2012. And if you look down in that box, you are listed as one
24 of the lenders. And on the far left side there is a box
25 checked off that says, "other amendment." Do you have an

Pereless - by Defendant - Cross (Ladov) Page 5481

1 understanding of what that might refer to?
2 A Not specifically what this was. But it just would
3 have been another amendment to the facility.
4 MR. LADOV: Okay. And if we can scroll down a
5 little bit just to look at the top line.
6 Q Actually, do you know what facility this document
7 refers to looking at it now, based on the date and any of the
8 other information there?
9 A I don't, because it doesn't say.
10 Q If I represented to you that this was for the Doral
11 facility, would that sound correct?
12 A It would make sense. But it doesn't say what the
13 property was.
14 Q And so if we look at the top line there where it
15 says: Existing terms, Revised terms and Reason.
16 In the far left column it says: Existing terms.
17 Facility amount \$125 million secured note.
18 Under revised terms it says: Facility amount
19 \$125 million as evidenced by (i) a secured tranche A note in
20 the principal amount of \$106 million. And (ii) an unsecured
21 tranche B note in the principal amount of \$19 million.
22 Do you have any recollection of whether the Doral
23 facility was split into two tranches like this?
24 A I don't recall.
25 Q Okay. And under reason it says that: The

Pereless - by Defendant - Cross (Ladov) Page 5482

1 reallocation is due to valuation service's review of the
2 appraisal report provided by the borrower.
3 Do you recall whether that reason is reflective of
4 the correspondence that we just reviewed between you and
5 Mr. Ribolow?
6 A I don't recall.
7 MR. LADOV: Okay. And if you go down to page
8 ten in this document? And if you go up a little bit?
9 Yes.
10 Q So this is a document that was attached to the
11 amendment report we were looking at. And if you look there
12 under collateral it says: First mortgage lien and a first
13 priority security interest in the Doral Golf Resort and Spa
14 located in Miami, Florida.
15 So would you agree based on the fact that this was
16 attached to the document we were just looking at, that it is a
17 credit memo for an amendment of the Doral facility?
18 A Yes.
19 MR. LADOV: Okay. So Your Honor, I ask to move
20 that in evidence.
21 THE COURT: Granted.
22 Just to comment, the strangest thing about this
23 whole trial is we keep seeing credit memos that don't say
24 for what property.
25 MR. KISE: Statute of limitations objection.

Pereless - by Defendant - Cross (Ladov) Page 5483

1 THE COURT: Overruled, but understood.
2 So it is in evidence.
3 (Whereupon, the document referred to was deemed
4 marked for evidence as Plaintiff's Exhibit 1836 by
5 the Court.)
6 MR. LADOV: Thank you, Your Honor. We have no
7 further questions for Ms. Pereless.
8 THE COURT: Okay. Anything for redirect?
9 MR. SUAREZ: Nothing further on redirect, Your
10 Honor.
11 THE COURT: Okay. The witness is excused.
12 Thank you.
13 (Whereupon the witness stepped down from the
14 stand and exited the courtroom).
15 THE COURT: Defense, would you like to call your
16 next witness?
17 MR. SUAREZ: The defense calls Rosemary Vrablic.
18 COURT OFFICER: All set, Judge?
19 THE COURT: Yes, all ready.
20 COURT OFFICER: Witness entering.
21 (Whereupon the witness took the stand.)
22 COURT OFFICER: Please raise your right hand.
23 R O S E M A R Y V R A B L I K, after
24 having first been duly sworn was examined and
25 testified as follows:

Vrablik - by Defendant - Direct (Suarez) Page 5484

1 COURT OFFICER: Please have a seat.
2 Please state your name and either home or
3 business address for the record.
4 THE WITNESS: Rosemary Vrablic, 720 Davenport
5 Avenue, New Rochelle, New York.
6 THE COURT: Okay Mr. Suarez, please proceed.
7 DIRECT EXAMINATION
8 BY MR. SUAREZ:
9 Q Ms. Vrablic, good morning. My name is Jesus Suarez.
10 I represent certain of the defendants in this case.
11 Ms. Vrablic, what is your educational background?
12 A I went to Fordham University for my undergraduate
13 degree. And Ursulin in New Rochelle for my high school.
14 Q And what did you study in college?
15 A Economics and political science.
16 Q What training, if any, have you received in
17 commercial banking?
18 A As a person -- as a banker at Bank Leumi I had credit
19 training and I also had a Series 7 license.
20 Q At a certain point in your career, were you employed
21 by Deutsche Bank?
22 A Yes.
23 Q When were you employed by Deutsche Bank?
24 A From 2006 to 2020.
25 Q In what capacity were you employed at Deutsche Bank?

Vrablik - by Defendant - Direct (Suarez) Page 5485

1 A I held several positions. I was a relationship
2 manager. I was a team leader. And a I was an office manager.
3 Q What were your job responsibilities as a relationship
4 manager?
5 A Primary responsibility was servicing high-net-worth
6 individuals. Bringing the customers in and meeting all of
7 their banking needs.
8 Q What division of Deutsche Bank were you employed by?
9 A Private Wealth Management.
10 Q What is the Private Wealth Management Division at
11 Deutsche Bank?
12 A It is a division that caters to high-net-worth
13 individuals, domestic, in terms of banking investment services,
14 depository lending and trust services.
15 Q What were your responsibilities as a team leader at
16 Deutsche Bank?
17 A I had a team of four or five bankers that reported to
18 me doing the same type of business.
19 Q And how did your responsibilities change, if at all,
20 when you became an office manager?
21 A I had more budgetary responsibilities. There was
22 some mentoring and training of the staff.
23 Q What is the business of the Private Wealth Management
24 Division at Deutsche Bank?
25 A Again, to service high-net-worth individuals for the

Vrablok - by Defendant - Direct (Suarez) Page 5486

1 various banking services.
2 Q How, if at all, did your responsibilities with the
3 Private Wealth Management Division involve loan origination?
4 A That was one of the core products.
5 Q And what responsibility, if any, did you have in
6 negotiating the terms of loans?
7 A I was an intermediary between the customer and/or
8 prospect and the credit and lending parts of the bank.
9 Q What, if any, professional relationship did you have
10 while at Deutsche Bank with President Donald Trump?
11 A He was a customer of the bank.
12 Q And to be clear, there are a number of parties in
13 this case with the last name Trump, so I refer to Donald J.
14 Trump as President Trump, as an honorary. I understand your
15 relationship, your professional relationship with him began
16 before he was elected as president.
17 A That's correct.
18 Q How did President Trump become a client of the bank?
19 A I received a phone call from Jared Kushner saying
20 that the Trump Organization was bidding on an auction for a
21 piece of property in Florida, and they might be in need of
22 financing to acquire that property.
23 Q As part of your relationship with President Trump as
24 a Deutsche Bank employee, what loans did you originate for him?
25 A There were three: There was one loan for Doral in

Vrablok - by Defendant - Direct (Suarez) Page 5487

1 Florida. There was a loan for a property in Chicago. And the
2 last one was the Old Post Office in Washington DC.
3 MR. SUAREZ: If we could please pull up
4 premarked Defendant's Exhibit 291 for identification.
5 (Handing)
6 THE WITNESS: Thank you.
7 Q Ms. Vrablok, do you recognize your e-mail at the top
8 of this page?
9 A Yes.
10 Q Do you recognize the date of November 29, 2011 at the
11 top of the page?
12 A Yes.
13 Q Is this an e-mail that you sent to Marcus Mitchell
14 and copied to Dominic Scalzi?
15 A It appears so.
16 Q Who was the reference, DT? Was that a reference to
17 President Trump?
18 MR. WALLACE: Objection, leading.
19 A Yes.
20 THE COURT: Sustained.
21 THE WITNESS: Sorry.
22 Q What was the reference to DT?
23 A Donald Trump.
24 Q Do you see where you wrote: "We are whale hunting"?
25 A Yes.

Vrablok - by Defendant - Direct (Suarez) Page 5488

1 Q What does that mean?
2 A It is a term used when there is a very high-net-worth
3 individual that's a potential prospect.
4 Q Was President Trump a potential prospect of the bank
5 at this time?
6 A Yes.
7 Q Why?
8 A There was the request for financing for the Doral
9 property.
10 MR. SUAREZ: Your Honor, I move Exhibit D-291
11 into evidence.
12 THE COURT: Granted, it is in.
13 (Whereupon, the document referred to was deemed
14 marked for evidence as Defendant's Exhibit 291 by the
15 Court.)
16 MR. SUAREZ: If we could please pull up
17 Defendant's Exhibit 62 and turn to page two.
18 Q Ms. Vrablok, were you employed by the Private Wealth
19 Management Division of Deutsche Bank on June 11, 2007?
20 A Yes.
21 Q And were you familiar with the commercial real estate
22 financing practices of that division?
23 A Yes.
24 Q Could I draw your attention to the middle of the
25 first paragraph where it says: After the successful

Vrablok - by Defendant - Direct (Suarez) Page 5489

1 introduction of the subscription finance lending capability for
2 financial sponsors in the U.S. in 2006, the focus of this
3 initiative is to develop a broader real estate lending
4 capability for PWM clients.
5 Do you see that?
6 A Yes.
7 Q Were you familiar with the Wealth Management
8 Division's initiative to develop a broader real estate lending
9 capability for PWM clients?
10 A Yes.
11 Q Then it goes on to say: Real estate entrepreneurs
12 and investors represent an important component of our client
13 base and U.S. wealth creation capacity.
14 Do you see that?
15 A Yes.
16 Q What, if anything, was the Private Wealth Management
17 division encouraging with this initiative for commercial real
18 estate loans?
19 A I am sorry, I don't understand the question.
20 Q We can keep going.
21 MR. SUAREZ: Let's to turn page two in the
22 second paragraph.
23 Q It says in the middle of the second paragraph, we
24 will focus on clients for whom PWM U.S. will be a primary
25 financier with the intention of developing lasting broad

Vrablik - by Defendant - Direct (Suarez) Page 5490

1 private banking relationships --
2 MR. SUAREZ: I am sorry. That's on page three.
3 A Yes.

1 successful track records in this sector. As a Private Wealth
2 Management business, we will review the principals and their
3 families as our primary clients" -- excuse me. I said "we will
4 review." It says, "We will view the principals and their
5 families as our primary clients."
6 Do you see that?
7 A Yes.
8 Q How, if at all, did developing a relationship with
9 President Trump advance this directive?
10 A Again, he was in the US commercial real estate market
11 and had a successful track record.
12 Q And then it goes on "The target clients will have a net
13 worth of over \$50 million, and we expect most will have family
14 net worth of over \$100 million. Their consolidated financial
15 position will demonstrate existing liquidity and/or cash flow
16 and an effective strategy towards managing their personal
17 liabilities and real estate debt."
18 How, if at all, did President Trump fit within the
19 directive identified there?
20 A He had a net worth in excess of a hundred million
21 dollars.
22 Q And then it says, "The client's objective in working
23 with PWM US lending is to finance active investing strategies,
24 including the acquisition of new properties, repositioning
25 properties and/or diversification into other asset classes."

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5491

1 Q How, if at all, did President Trump fit into that
2 description?
3 A He would have been one.
4 MR. SUAREZ: Can we turn to page five.
5 (Whereupon, the exhibit was displayed on the
6 screen.)
7 Q Do you see the section that says "client segmentation
8 and coverage"?
9 A Yes.
10 Q And it says, "PWM US will target well-established real
11 estate entrepreneurs and investors with a proven, successful
12 track record in the primary US commercial real estate markets.
13 In addition to their capital raising and financing requirements,
14 these entrepreneurs represent tremendous potential for broad
15 Wealth Management relationships with the firm."
16 Do you see that?
17 A Yes.
18 Q How would developing a relationship with President
19 Trump, if at all, fit into this -- into this directive?
20 A Yes, he would have fit the category of entrepreneur and
21 the investor with the successful track record.
22 Q And then it goes on, "Our target client base", one
23 paragraph down, "for this initiative will have the following
24 general characteristics: Individuals or families actively
25 investing in US commercial real estate properties, with proven,

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5493

1 How did the transactions that you described earlier fit
2 into the directives set forth here?
3 A The first loan that was done was for the acquisition of
4 the property in Florida, in addition, there were cross selling
5 opportunities into the other products, deposits, investments as
6 well.
7 MR. SUAREZ: Your Honor, I move defense Exhibit 62
8 into evidence.
9 THE COURT: Granted. It's in.
10 (Defendant's Exhibit 62 was deemed marked and
11 admitted in evidence.)
12 MR. SUAREZ: I would like to pull up pre-marked
13 Defendant's Exhibit 296 for identification.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 (The witness was handed the exhibit.)
17 THE WITNESS: Thank you.
18 Q Ms. Vrablic, do you recognize this document?
19 A Yes.
20 Q What is this document?
21 A It's an e-mail from myself to Richard Byrne.
22 Q What is the date of this document?
23 A I'm sorry, the name?
24 Q The date, date.
25 A Date. I'm sorry, February 12, 2013.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5494

1 Q Do you see where it says "The Chicago condos are
2 selling like hotcakes"?

3 A Yes.

4 Q What did you mean by that?

5 A The loan that we had done was secured by condos that
6 were up for sale, and the condos were selling at a faster pace
7 than we had expected.

8 Q And you go on to write "The condo loan was 53 million
9 and is down to 23 million already."

10 Why is that something that you would have communicated
11 to Richard Byrne?

12 A He was the real estate private banker or banker for
13 Mr. Trump, and he would always want to know what the existing
14 facilities were like and outstanding.

15 Q And then you go on to write, "Doral is looking quite
16 nice... the entry has been redone and their website shows the
17 rooms being renovated. Quite nice. We are going down the first
18 week of March to visit."

19 Do you see that?

20 A Yes.

21 Q What did you mean by that?

22 A The -- in keeping with the update, I was giving him an
23 update of the renovations and construction that was being done
24 at Doral. And my e-mail just gives him an outline of that. And
25 that we were going to go down and make a site visit.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5495

1 MR. SUAREZ: If we could turn to page three of this
2 e-mail.

3 (Whereupon, the exhibit was displayed on the
4 screen.)

5 Q Do you see where it says "Subject: The Donald"?

6 A Yes.

7 Q May I assume that Mr. Byrne was referring to Donald J.
8 Trump?

9 A Yes.

10 Q He goes on to write "Hi Rosemary, I hope you are well.
11 I hear that Anshu is scheduled to meet with Trump in two weeks.
12 Did you set this up? Are you taking him?"

13 Who is Anshu?

14 A That was Anshu Jain. He was of the CEO, Chairman of
15 Deutsche Bank at the time.

16 Q And then on page two, if we could scroll up?

17 (Whereupon, the exhibit displayed on the screen was
18 scrolled through.)

19 Q It says "Anshu asked for a briefing of our banking
20 activity with DJT. I will write up something and give it to
21 him. Do you have any business agenda for the meeting, or is it
22 just a meet and greet?"

23 And that was an e-mail from Mr. Byrne to you on
24 February 12, 2013. Do you see that?

25 A Yes.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5496

1 Q What was the meeting with Anshu Jain and President
2 Trump about?

3 A It was to be introductory meeting for them to meet each
4 other and to have lunch.

5 Q Was there a business agenda for the meeting?

6 A Nothing specific.

7 Q Why would the cochairman of Deutsche Bank want to meet
8 with President Trump?

9 MR. WALLACE: Objection to the "would" again, as
10 opposed to did.

11 THE COURT: Sustained.

12 Q Why did you want to set up a meeting between President
13 Trump and Anshu Jain?

14 A It was requested, at the time, for me to do that.

15 Q Who made that request of you?

16 A Mr. Jain's office.

17 Q And why would Mr. Jain's office make that request of
18 you?

19 A Periodically I would get calls from his office and
20 other chairmans' offices to meet clients.

21 Q How, if at all, did the performance of the Chicago and
22 Doral loans impact the decision to set up a meeting between
23 President Trump and Mr. Jain?

24 A Um, it would have been a standard type of, um, meeting
25 to be set up with a successful project like that.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5497

1 MR. SUAREZ: Your Honor, I move Defendant's
2 Exhibit 296 into evidence.

3 THE COURT: Granted. It's in.
4 (Defendant's Exhibit 296 was deemed marked and
5 admitted in evidence.)

6 MR. SUAREZ: We'll move onto Defendant's Exhibit,
7 pre-marked for identification, Exhibit D-297.
8 (Whereupon, the exhibit was displayed on the
9 screen.)

10 (The witness was handed the exhibit.)

11 THE WITNESS: Thank you.

12 Q Do you see at the top, Ms. Vrablic, that you were
13 copied on this e-mail on February 19, 2013?

14 A Yes.

15 Q What is this e-mail enclosing?

16 A From reading it, it looks as if it's a briefing for --
17 on Mr. Trump.

18 Q Do you see where it says, "Subject: Briefing for
19 Anshu"?

20 A Yes.

21 Q Why would Mr. Jain had been provided a briefing on
22 Mr. Trump before the meeting?

23 A It was pretty standard for all meetings with the
24 chairman that briefings like this would be done.

25 MR. SUAREZ: If we could please pull up pre-marked

<p>R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5498</p> <p>1 for identification Defendant's Exhibit 298. 2 (Whereupon, the exhibit was displayed on the 3 screen.) 4 Q Do you recognize this document? 5 (The witness was handed the exhibit.) 6 A Yes. 7 Q What is this document? 8 A This would have been the briefing that would have been 9 provided to Mr. Jain. 10 Q If you see on the bottom of this second page of this 11 document. 12 (Whereupon, the exhibit was displayed on the 13 screen.) 14 Q Do you see where it says, "Mr. Trump's personal 15 financial statement reflects a net worth in excess of 16 2.5 billion as adjusted by DB Lending with liquidity of 100 17 million plus, and limited liabilities. He is risk rated A"? 18 A Yes. 19 Q Why would that have been relevant to include in a 20 briefing for your meeting with President Trump and Mr. Jain? 21 A Again, I think it was standard practice for the 22 financial listing to be there. 23 Q And do you see in "Background" it says, "The Trump 24 relationship with AWM began in 2011 when Donald Trump, Jr. was 25 introduced to Rosemary Vrablic by Jared Kushner, husband of</p>	<p>R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5500</p> <p>1 A Yes. 2 Q How did the revenue change in year end 2012? 3 A Primarily, from the loan increase there would be 4 interest income plus the capital markets income. 5 Q What does pro forma 2013 mean? 6 A Based upon loans that had been closed in 2013, that 7 would be the projected revenue that would be generated by all of 8 the facilities. 9 Q What was the projected revenue in 2013 from the 10 relationship with President Trump? 11 A Six million. 12 Q How did the relationship grow from 2011 to 2013? 13 A We had done three loans, Doral, Chicago and OPO, plus 14 the depository and the capital markets business. 15 Q What does "loans AUM" mean? 16 A Assets under management. 17 Q And how do loans AUM affect the revenue generated by 18 the bank? 19 A There is interest income earned on loans. 20 Q And how did the loans assets under management change 21 from 2011 to 2012? 22 A As I said, we closed on Doral, um, Chicago, and then 23 OPO would have been closed subsequently. 24 Q And what do deposits/IA AUM mean? 25 A They were deposits maintained at the bank, plus</p>
<p>R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5499</p> <p>1 Ivanka Trump." And then it goes on to describe the relationship 2 and it lists a small loan and deposit relationship was started 3 with Donald, Jr., and we were introduced to the Trump family. 4 Donald Trump opened up a deposit IA accounts with us in 5 December 2011." 6 What is the import of President Trump opening a deposit 7 and IA account with Deutsche Bank in December of 2011, if any? 8 A Just that he was a customer. 9 Q And then towards the end of that paragraph it says, "As 10 can be seen on the below chart, we have in excess of 200 million 11 in loans, 30 million in investable assets, and closed on an 12 asset interest rate swap generating capital markets income." 13 What does that mean? 14 A Just that it was a broad-based relationship of various 15 products that were being used by the Trump family. 16 Q Was this consistent with the goal of developing a 17 relationship with President Trump? 18 A Yes. 19 Q And you see a chart that appears in the following, um, 20 below the paragraph that we were just discussing? 21 What does the chart reference when it says "revenue"? 22 A It would be revenue to the bank. 23 Q Revenue to the bank. 24 And in year end 2011 it showed revenue of 13,447; is 25 that correct?</p>	<p>R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5501</p> <p>1 investment management accounts. 2 Q How, if at all, is that a source of revenue for the 3 bank? 4 A The bank is earning money or deposits, plus investment 5 management fees. 6 Q Was it an objective of the bank to increase assets and 7 deposits under management from President Trump? 8 A Yes. 9 Q Was the bank successful in doing that? 10 A Yes. 11 Q And then it says, "asterisk, top five relationships in 12 terms of revenue for Rosemary Vrablic and her team." 13 Do you see that? 14 A Yes. 15 Q What did that mean? 16 A In terms of my client base, he would have been a top 17 five name in terms of profitability. 18 Q And then it -- the bottom, it says, "Going forward we 19 expect to continue to grow the relationship in all asset 20 categories." 21 Do you see that? 22 A Yes. 23 Q What, if anything, would that indicate about the bank's 24 interest in further developing a relationship with President 25 Trump?</p>

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5502

1 A That we would have liked to have increased all the
2 categories.
3 MR. SUAREZ: Your Honor, we move Defendant's
4 Exhibits 297 and 298 into evidence.
5 THE COURT: Granted. It's in, or they're in.
6 (Defendant's Exhibits 297 and 298 were deemed
7 marked and admitted in evidence.)
8 Q If I could turn your attention to the "key asks." Do
9 you see key ask number one, "Obtain more deposits and investment
10 management assets."
11 What does that mean?
12 A To obtain more deposits and investment accounts.
13 Q What does it mean that it was a key ask?
14 A Usually the chairman would like to know things to ask
15 the customers, and so that was one of the number one asks.
16 Q What was the second ask?
17 A That would be referrals from Mr. Trump.
18 Q Is that where it says "Strategically discuss leveraging
19 Mr. Trump's personal and professional network within the real
20 estate industry in New York for the benefit of DB and AWM"?
21 A Yes.
22 Q Why would that have been a key ask for the bank?
23 A The primary source of customers usually is referrals
24 from existing customers.
25 Q And how could Mr. Trump, President Trump assist the

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5503

1 bank in developing referrals?
2 A He would know other people who would be potentially
3 fitting in the high net worth category, or DB's real estate
4 department.
5 Q What, if any, benefit did Deutsche Bank have to gain
6 from leveraging President Trump's personal and professional
7 network?
8 A As I said, existing customers were the best source of
9 additional customers.
10 Q Was this consistent with the bank's approved business
11 strategies?
12 A Yes.
13 Q What, if anything, was communicated to President Trump
14 concerning the bank's desire to continue doing business with him
15 at the meeting with Mr. Jain?
16 A Just that we were -- again, the introduction to
17 Mr. Jain, and to see if there was any other additional business
18 to be done together.
19 Q How did Mr. Jain react to the meeting with President
20 Trump?
21 A The meeting went very well.
22 Q Why would you say it "went very well"?
23 A Well, they got along, um, and it was a very, very nice
24 productive lunch.
25 Q As a result of the meeting, what, if any actions, were

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5504

1 taken to further the relationship with President Trump?
2 A I don't remember anything specifically.
3 Q Did Mr. Jain express that President Trump was under
4 leveraged?
5 MR. WALLACE: Objection. Leading.
6 THE COURT: Sustained.
7 Q What, if any view, did Mr. Jain share concerning
8 Mr. Trump's leverage around the time of this meeting?
9 A Um, Mr. Jain, um, thought that, um, if Mr. Trump wanted
10 to, that there could be additional leverage provided among his
11 world.
12 MR. SUAREZ: If we could please pull up pre-marked
13 for identification Defendant's Exhibit 299.
14 (Whereupon, the exhibit was displayed on the
15 screen.)
16 (The witness was handed the exhibit.)
17 Q What, if any, professional relationship did you
18 maintain with Ms. Ivanka Trump prior it -- excuse me, while you
19 were employed at Deutsche Bank?
20 A Ivanka was my main liaison on the deal at specific
21 points in this transaction.
22 Q Who was Michele Fassiola?
23 A Michele Fassiola was my boss and head of Asset Wealth
24 Management.
25 Q Do you recognize this e-mail?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5505

1 A No.
2 Q Is that your e-mail address up top?
3 A Yes.
4 Q Were you employed by Deutsche Bank on August 7th, 2014?
5 A Yes.
6 Q Do you have any reason to doubt that you sent this
7 e-mail to Ms. Trump?
8 A No.
9 Q Do you see where it says, "Ivanka hi! My direct boss,
10 Michele Fassiola, he's Italian -- "Michele", I'm sorry,
11 "Fassiola (he's Italian) would like to call you and your dad to
12 thank you for being such great clients and for all the business
13 we have been doing together. Your family is in the top ten
14 revenue generating names of Asset and Wealth Management now, and
15 he is thrilled with how it's grown."
16 Do you see that?
17 A Yes.
18 Q Is that statement accurate?
19 MR. WALLACE: Objection.
20 A Yes.
21 THE COURT: What's the grounds of the objection?
22 MR. WALLACE: I'm not sure which aspect of the
23 statement she's being asked about.
24 THE COURT: I assume it was the last sentence that
25 was highlighted. "Thrilled" and "how it's grown."

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5506

1 Q At the time you wrote that e-mail, do you have any
2 reason to believe that wouldn't be accurate?
3 A No.
4 Q What would it mean "for your family to be in the top
5 ten revenue generating names of Asset Wealth Management" in
6 terms of the bank's view on the relationship?
7 A Just that it was a top ten name within the business.
8 Q What does it mean to be a "top ten revenue generating
9 name"?
10 A Nothing other than being top ten.
11 Q I understand. My -- I'm -- the question was -- was,
12 perhaps, a little more specific. What does the term "revenue
13 generating names" mean? How are revenue generating names
14 considered?
15 A I'm not following the question. I'm sorry.
16 Q How is the group being developed to determine what is a
17 revenue generating name?
18 A Um, as per the previous chart that was on the screen,
19 that would be the revenue generating.
20 Q Would it have been the relationship with President
21 Trump and his related entities?
22 A Yes.
23 Q Why did your boss want to call Ivanka and President
24 Trump to thank them for being such great clients?
25 A It was standard practice for those type of calls to be

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5507

1 made.
2 MR. SUAREZ: Your Honor, we move Defendant's
3 Exhibit 299 into evidence.
4 THE COURT: Granted. It's in.
5 (Defendant's Exhibit 299 was admitted in evidence.)
6 MR. SUAREZ: If we could please pull up pre-marked
7 for identification Defendant's Exhibit 300.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 (The witness was handed the exhibit.)
11 THE WITNESS: Thank you.
12 Q Ms. Vrablic, do you recognize this document?
13 A Yes.
14 Q What is this document?
15 A It is a briefing memo on Mr. Trump for a meeting with
16 Michele Fassiola.
17 MR. SUAREZ: Can we please turn to page two of this
18 document.
19 (Whereupon, the exhibit was displayed on the
20 screen.)
21 Q Was there a meeting on October 6th, 2014, between
22 President Trump and Mr. Fassiola?
23 A Based upon this, yes.
24 Q Were you present at that meeting?
25 A I don't remember.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5508

1 MR. SUAREZ: If we take a look at page three of
2 this document.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q It says "This meeting is a lunch with Donald Trump, to
6 which he invited you during your phone call on August 8th. He
7 would like -- he would first like to visit with you in his
8 office and then head downstairs for lunch in the Trump Tower
9 Grill." Do you see that?
10 A Yes.
11 Q And then the third bullet point says, "Rosemary Vrablic
12 has covered Donald, Ivanka and redacted, since 2011. Since
13 then, our relationship has grown significantly with 2013
14 revenues of about \$6 million."
15 Do you see that?
16 A Yes.
17 Q And the "key asks and discussion points" below say,
18 "Please ask whether we can work on other opportunities with
19 him."
20 Why was that a key ask and discussion point for this
21 meeting?
22 A The obtaining of additional business was one of the key
23 jobs.
24 Q Whose key jobs?
25 A Mine.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5509

1 Q Were you successful in doing your job?
2 A In general?
3 Q Sure.
4 A Yes.
5 Q Were you successful in developing the bank's
6 relationship with President Trump?
7 A Yes.

1 MR. SUAREZ: Your Honor, we move Defendant's
2 Exhibit 300 into evidence.
3 THE COURT: Granted, it is in.
4 (Whereupon, the document referred to was deemed
5 marked for evidence as Defendant's Exhibit 300 by the
6 Court.)
7 MR. SUAREZ: I would like to pull up premarked
8 for identification Defendant's Exhibit 302.
9 (Handing)
10 THE WITNESS: Thank you.
11 Q And I would like to turn your attention to an e-mail
12 dated February 27, 2013. On page three of this document at the
13 top of the page, do you see -- do you recognize this as an
14 e-mail you sent to Tom Sullivan?
15 A Yes.
16 Q And do you see where it says: He said we would be
17 paid off shortly on the condos and I thought he was nuts. Marc
18 told me we will be five weeks. Wow.
19 Do you see that?
20 A Yes.
21 Q What did you mean by that?
22 A Again, I think the sale of the condos were far
23 quicker than they and we had projected.
24 Q And was the performance of the relationship with
25 President Trump and how it was developing for the bank,

Vrablik - by Defendant - Direct (Suarez) Page 5511

1 consistent with the bank's approved business strategy?
2 MR. WALLACE: Objection, leading.
3 THE COURT: Sustained.
4 Q What about the performance of the relationship with
5 President Trump, if anything, was consistent with the bank's
6 approved business strategies?
7 A The loans were performing as agreed, if not faster.
8 MR. SUAREZ: Your Honor, I move Defendant's 302
9 into evidence.
10 THE COURT: Granted, it is in.
11 (Whereupon, the document referred to was deemed
12 marked for evidence as Defendant's Exhibit 301 by the
13 Court.)
14 MR. SUAREZ: Pull up Defendant's, premarked,
15 Exhibit 306 -- I am sorry, 311.
16 Q What, if any, involvement did you have in the loan
17 made by Deutsche Bank Private Wealth Management Division on the
18 Trump Doral?
19 MR. WALLACE: Objection, asked and answered.
20 THE COURT: Can you read back the question
21 again?
22 (Whereupon, the record was read back by the
23 court reporter.)
24 THE COURT: Overruled.
25 A As I said earlier, I received a phone call from Jared

Vrablik - by Defendant - Direct (Suarez) Page 5512

1 Kushner saying that they were going to be bidding on the Doral
2 Golf Course and were looking for financing.
3 Q How, if at all, did you participate in the
4 negotiation of that loan?
5 A I would be the intermediary between the credit and
6 lending department and the customer.
7 MR. SUAREZ: If we could pull up Defendant's
8 Exhibit 311 and start with page three of the document.
9 Q Do you recognize this e-mail?
10 A Yes.
11 Q What does subject "Eagle" mean?
12 A That was the code name given for the deal.
13 Q And who is Thomas Bowers?
14 A He was my boss at the time.
15 Q And then he writes: Didn't realize LTV is
16 83 percent. Realize strength of the guarantor, but this
17 definitely needs to be shown to PDW and BP. Can you give me an
18 e-mail that discusses opportunity for additional business, both
19 related to the deal and otherwise? Important to have PDW and
20 BP on board.
21 Why would an e-mail discussing opportunities for
22 additional business be relevant to this transaction?
23 A The intent was to cross sell all of our customers, so
24 the additional other business is also an important category.
25 Q And then if we scroll up to the e-mail on page two.

Vrablik - by Defendant - Direct (Suarez) Page 5513

1 Do you recognize this as your response to Mr. Bowers e-mail?
2 A Yes.
3 Q And you write: Tom, it is 83 percent of purchase
4 price of 150mmm, what does mmm mean?
5 A 150 million.
6 Q The CBRE appraisal -- which was done for another
7 bank -- that we will review -- is at 180 million, which could
8 result in an LTV of 69. We expect this report right after
9 Christmas. The environmental was clean.
10 Why would the bank consider an appraisal prepared for
11 another bank?
12 A You would have to talk to credit and lending on that.
13 Q And then you respond: The other business is
14 significant deposit business. DJT has already moved in
15 20 million to us. He has another 200 million at a variety of
16 other banks.
17 How is that relevant to this transaction?
18 A Again for cross selling purposes.
19 Q And then: Charlie Burrows is putting together the
20 DBAG options to present to them in January.
21 What is DBAG?
22 A That's the parent name of Deutsche Bank.
23 Q And what did it mean that Charlie Burrows was putting
24 together other options to present for them?
25 A He provided products for cash management.

Vrablik - by Defendant - Direct (Suarez) Page 5514

1 Q Was that another opportunity to cross sell to
2 President Trump?
3 A Yes.
4 Q And then it says: Kevin Carey at RCM are also key
5 for RCM since DJT has another 60 million in treasuries and
6 bonds.
7 Why was that relevant to this transaction?
8 A Another source of cross selling.
9 Q And then B says: Estate planning. DJT has done very
10 little. We will show them dynasty trusts as well as other
11 capabilities.
12 Do you see that?
13 A Yes.
14 Q Why was that relevant to this transaction?
15 A Cross selling.
16 Q Why would the bank be interested in cross selling to
17 President Trump?
18 MR. WALLACE: Objection, asked and answered.
19 THE COURT: They are trying to make money. Why
20 wouldn't they want to do more business with someone that
21 they are already making money with?
22 MR. SUAREZ: I realize some of my questions
23 sound a little obvious. I have to ask them this way
24 because Your Honor wants me to not ask anything that is in
25 the ballpark of a leading question. But I would be happy

Vrablik - by Defendant - Direct (Suarez) Page 5515

1 to move this along if the Court would grant me a little
2 leeway.
3 THE COURT: How about we do this. I'll sustain
4 the objection to this question because it has been asked
5 and answered several times, and it is obvious. But I
6 won't restrict you at all, ask whatever you want.
7 Q Do you see where it says: New clients/referrals?
8 A Yes.
9 Q Why, if at all, were new clients and referrals
10 relevant to this transaction?
11 A Again, we like referrals coming from existing
12 customers.
13 Q How, if at all, does that affect the bank's
14 profitability?
15 A They would buy and use some of our services which
16 would generate profitability for the bank.
17 Q And then it says: Given the circles this family
18 travels in, we expect to be introduced to the wealthiest people
19 on the planet.
20 Was that consistent with -- withdrawn.
21 How, if at all, was that consistent with the bank's
22 objective to develop additional business through its
23 relationship with President Trump?
24 A To get, you know, referrals to become new clients.
25 Q And how, if at all, was this consistent with your job

Vrablik - by Defendant - Direct (Suarez) Page 5516

1 responsibilities at the bank at that time?
2 A It was consistent.
3 Q And then if we scroll to the top of the document,
4 which I believe is another e-mail, you wrote to Mr. Bowers in
5 response to an e-mail from him. It says: Tom, they are
6 ecstatic with your performance, so I think we will get
7 tremendous business from them. I think we can become the lead
8 bank in short order.
9 What did this statement to Mr. Bowers mean?
10 A That the Trumps were happy with how the bank had
11 performed and that we could become their lead bank.
12 Q Why -- let me rephrase that.
13 Would the bank -- would it have been an objective of
14 the bank to become their lead bank?
15 A Yes.
16 Q Why is that?
17 A In terms of private banking, if you are the
18 customer's lead bank you tend to get the first look at any type
19 of transactions, products, things along that nature.
20 Q And how, if at all, would that impact the bank's
21 ability to generate additional revenue from this relationship?
22 A If you did get a first look at different
23 opportunities, you had the opportunity to turn down, do them.
24 And again, that would generate more business, which would
25 generate more revenues.

Vrablik - by Defendant - Direct (Suarez) Page 5517

1 MR. SUAREZ: Your Honor, I move Defendant's
2 Exhibit 311 into evidence.
3 THE COURT: Granted, it is in.
4 (Whereupon, the document referred to was deemed
5 marked for evidence as Defendant's Exhibit 311 by the
6 Court.)
7 MR. SUAREZ: If we could pull up premarked
8 Defendant's Exhibit 312.
9 (Handing)
10 THE WITNESS: Thank you.
11 MR. SUAREZ: And if we could scroll down to the
12 e-mail at the bottom of this page.
13 Q Do you see where it says: I would conclude first
14 paragraph by saying, we recommend on the basis that it is a
15 sound credit and even in the absence of a personal guaranty,
16 but that the PG makes it a remarkably safe deal given the
17 strength of the g-tor.
18 What does that mean?
19 A G-tor is guarantor.
20 Q And what was the import, if any, of Mr. Bowers
21 concluding that it was a sound -- that he would recommend it on
22 the basis of sound credit, even in the absence of a personal
23 guarantee?
24 A I think Tom's intent would have been that the
25 transaction itself was a very sound credit deal.

Vrablik - by Defendant - Direct (Suarez) Page 5518

1 Q And then it says: Not to micromanage but I have to
2 escalate such risks to PDW and we could miss a great franchise
3 opportunity (of which this is undoubtedly one) by not
4 highlighting deal strengths.
5 What did you understand a great franchise opportunity
6 to be?
7 A The ability to cross sell to the family.
8 Q The family being the Trump family?
9 A Yes.
10 Q And then you see there it says: Subject. Project
11 Eagle?
12 A Yes.
13 Q That's a reference to the Doral transaction, correct?
14 A That's correct.
15 Q Would that be because an Eagle is a hole-in-one on a
16 golf course? I am not a golfer.
17 A I don't know. I didn't name it.
18 MR. WALLACE: Objection. An Eagle is not a
19 hole-in-one, although a hole-in-one is an Eagle. But I
20 don't think an Eagle is a hole-in-one.
21 MR. ROBERT: We can't even agree on that.
22 THE COURT: Is it two under par or something?
23 MR. SOLOMON: Exactly.
24 THE COURT: Two under par.
25 MR. SUAREZ: If we could scroll up?

Vrablik - by Defendant - Direct (Suarez) Page 5519

1 Q Do you recognize this as your response to Mr. Bowers?
2 A Yes.
3 Q And it says: As told MM to discuss the DJT's
4 expertise in successfully running world class assets like -- as
5 demonstrated by his extensive hotel, condos, clubs, golf
6 courses -- makes this asset purchase and repositioning a
7 realistic and high probable success story.
8 What did you mean by that?
9 A The Doral asset was a combination of all of those
10 things hotel, condo, golf course, spa. And so it took a unique
11 person or individual to be able to manage that kind of
12 extensive property. And I thought that with Mr. Trump's
13 expertise in all of those categories that it would be a
14 realistic story for him to be able to do that.
15 Q And was he able to do that?
16 A Yes.
17 MR. SUAREZ: Your Honor, I move Defendant's
18 Exhibit 312 into evidence.
19 THE COURT: Granted, it is in.
20 (Whereupon, the document referred to was deemed
21 marked for evidence as Defendant's Exhibit 312 by the
22 Court.)
23 MR. SUAREZ: And we will pull up premarked
24 Exhibit D-313.
25 Q And again, do you see where it says Project Eagle?

Vrablik - by Defendant - Direct (Suarez) Page 5520

1 A Yes.
2 Q That is a reference to the Doral loan?
3 A Yes.
4 Q And you were copied on or rather this is an e-mail
5 that you sent in response to a chain of e-mails.
6 MR. SUAREZ: And we can turn to page three of
7 that document.
8 Q Do you see where Mr. McAvoy summarizes the deal
9 strengths?
10 MR. SUAREZ: And if we could turn to the third
11 bullet point all the way at the bottom?
12 Q It says: Significant relationship opportunities with
13 the family. Mr. Trump has already moved in 20 million in
14 deposits to DB. His son Donald Jr. is an existing client and
15 his daughter, Ivanka, will also become a client. We expect
16 that Mr. Trump will serve as an excellent referral source with
17 his worldwide contacts with ultra-high-net-worth clients.
18 Do you see that?
19 A Yes.
20 Q Was that a reason why the bank wanted to engage in
21 this transaction?
22 A Yes.
23 Q And ultimately if you scroll up there is an e-mail
24 from Pierre De-Weck. Who is Pierre De-Weck?
25 A He was the head of asset management globally.

Vrablik - by Defendant - Direct (Suarez) Page 5521

1 Q And do you see where he says: I support the
2 transaction, but we need ironclad full recourse under all
3 circumstances?
4 A Yes.
5 Q Did President Trump provide the recourse that
6 Mr. De-Weck requested?
7 A Yes.
8 MR. SUAREZ: Your Honor, I move Defendant's
9 Exhibit 313 into evidence.
10 THE COURT: Granted, it is in.
11 (Whereupon, the document referred to was deemed
12 marked for evidence as Defendant's Exhibit 313 by the
13 Court.)
14 MR. SUAREZ: And we will move to Defendant's
15 Exhibit 66.
16 (Handing)
17 THE WITNESS: Thank you.
18 Q Are you familiar with this document?
19 A Yes.
20 Q What is this document?
21 A The credit guidelines from Credit Risk Management.
22 Q And if I could direct your attention to page 17 of
23 the exhibit -- page 16 of the document. Towards the bottom of
24 the page. It says: Commercial real estate. The commercial
25 real estate lending team with PWM will consider commercial

Vrablik - by Defendant - Direct (Suarez) Page 5522

1 properties as collateral for borrowers with short-term bridge
2 financing needs, as well as longer term financing for up to ten
3 years. In both cases loans will have recourse to one or more
4 guarantors.
5 Do you see that?
6 A Yes.
7 Q Were the three loans that you were involved with that
8 we discussed earlier consistent with this definition?
9 A Yes.
10 Q And the client's eligibility criteria for those loans
11 it says: Typical borrowers will have net worth of over 50
12 million and borrowers must have proven successful track records
13 in the U.S. commercial real estate markets.
14 Was President Trump a client who satisfied that
15 eligibility criteria?
16 A Yes.
17 MR. SUAREZ: And if we could move on to point 4
18 under this additional criteria on the following page.
19 THE COURT: Five-minute warning.
20 Q If acquired through a special purpose vehicle, some
21 element of recourse to the owner of the vehicle is expected.
22 Was that criteria satisfied in the three loans that
23 you participated in with the Trump Organization?
24 A Yes.
25 MR. SUAREZ: I am at a good breaking point in my

Vrablik - by Defendant - Direct (Suarez) Page 5523

1 outline.
2 THE COURT: You are going to break now but
3 continue?
4 MR. SUAREZ: Yes, continue after the break.
5 THE COURT: Okay. Let's just say we will be
6 back at a quarter to 12:00.
7 And I'll direct the witness, as I always do, not
8 to discuss this case or your testimony or anything related
9 to it during the break.
10 THE WITNESS: Okay.
11 (Pause in the proceedings.)
12 (The following proceedings were stenographically
13 recorded by Senior Court Reporter Michael Ranita.)

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5524

1 THE COURT OFFICER: All rise. Part 37 is back in
2 session. Be seated and come to order.
3 MR. ROBERT: Your Honor, if I may.
4 THE COURT: Go ahead, Mr. Robert.
5 MR. ROBERT: I'm proud to say that the congeniality
6 is continuing to work, and the agreements are. The
7 plaintiffs and defendants agree that D-1058, D-1059, D-1060
8 and Plaintiff's 1275 are all in evidence, and therefore we
9 do not need to call Mr. Jack Weisselberg this afternoon.
10 THE COURT: That's great. Just a scheduling
11 question posed by the person who sits alongside me.
12 MS. GREENFIELD: Okay. So is it possible, then, in
13 the event that we finish with Ms. Vrablic today, can we get
14 Mr. Birney today for this afternoon?
15 MR. ROBERT: Mr. Birney is scheduled to be here
16 this afternoon. We are waiting for the confirmation of that
17 his attorney will be here. She had a matter in the Southern
18 District and should be here by 2:15.
19 MS. GREENFIELD: Is it possible to start moving any
20 of next week's witnesses up.
21 MR. ROBERT: As soon as we start with the witness,
22 I'm going to walk outside and start getting on the telephone
23 and report as soon as we can.
24 MS. GREENFIELD: Okay.
25 MR. ROBERT: Great. Thank you.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5525

1 THE COURT: All right. Let's get the witness back.
2 THE COURT OFFICER: Witness entering.
3 THE COURT: Thank you.
4 (Whereupon, the witness stepped into the witness
5 stand.)
6 THE COURT: All right. Let's continue.
7 Q Ms. Vrablic, I would like to show you an e-mail that's
8 been previously marked as Defendant's Exhibit 324 for
9 identification.
10 (Whereupon, the exhibit was displayed on the
11 screen.)
12 (The witness was handed the exhibit.)
13 Q Do you recognize your e-mail address at the top of the
14 page?
15 A Yes.
16 Q Do you see where it says, "Ivanka, I am so glad we got
17 to see you and have you show us the new rooms."
18 What rooms were you referring to in this e-mail?
19 A The rooms that were redone at The Doral.
20 Q And then you write "They look amazing! I have had a
21 wonderful time here and it is really impressive to see what you
22 have accomplished here so quickly."
23 Is this consistent with the visit that you made to The
24 Trump Doral?
25 A Yes.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5526

1 Q And what were your impressions after visiting The Trump
2 Doral?
3 A That the work had been done quite well, and that it was
4 moving along so quickly.
5 Q And what was the purpose of sending this e-mail to
6 Ivanka?
7 A Just a thank you.
8 MR. SUAREZ: Your Honor, I would move defendant's
9 324 into evidence.
10 THE COURT: Granted. It's in.
11 (Defendant's Exhibit 324 was deemed marked and
12 admitted in evidence.)
13 Q I would like to next show you an e-mail pre-marked for
14 identification as Plaintiff's Exhibit 325?
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 (The witness was handed the exhibit.)
18 MR. SUAREZ: If we could turn to the bottom of the
19 first page.
20 Q Who is Emily Schroeder?
21 A She was an employee of the lending group at Deutsche
22 Bank.
23 Q What, if any, role did she play in the Doral
24 transaction?
25 A She was one of the underwriters.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5527

1 Q Do you see in the middle of page you forwarded an
2 e-mail of Ms. Schroeder to Ivanka Trump on June 12, 2013?
3 A Yes.
4 Q And if I could direct your attention to paragraph two,
5 labeled two. It says, "We had a great meeting today with Credit
6 Risk, and they are very open to the extension and the burn off
7 of your dad's guarantee. It was quite remarkable and a
8 testament to you and your family in what you have achieved with
9 us so quickly."
10 What is the reference to the "burn off of your dad's
11 guarantee" referring to?
12 A There had been a request by Ivanka for her dad's full
13 recourse guarantee to be either limited, or none, at some point.
14 Q And how does the bank evaluate those requests?
15 A The credit and underwriting team would do a full
16 analysis and come up with a conclusion.
17 Q And what did you mean, "It was quite remarkable and a
18 testament to you and your family in what you have achieved with
19 us so quickly on our projects"?
20 A It was -- the request for something like that to be
21 considered by the bank is somewhat unique, and so it was a
22 testament to how fast they had progressed with all the
23 properties.
24 Q Was it consistent with -- withdrawn.
25 Was the progression of the -- withdrawn.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5528

1 Was the performance of the credit facilities consistent
2 with the bank's expectations?
3 A Yes.
4 MR. SUAREZ: We move Defendant's Exhibit 325 into
5 evidence.
6 THE COURT: Granted. It's in.
7 (Defendant's Exhibit 325 was deemed marked and
8 admitted in evidence.)
9 MR. SUAREZ: I would next like to show the witness
10 what's been marked for identification purposes as
11 Defendant's Exhibit 326.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 (The witness was handed the exhibit.)
15 Q Do you recognize this document?
16 A Yes.
17 MR. SUAREZ: And if we scroll to the bottom of the
18 page.
19 (Whereupon, the exhibit displayed on the screen was
20 scrolled through.)
21 Q It appears to start with an e-mail from Ivanka Trump to
22 you, and it says, "Hi Rosemary, I just wanted to give you the
23 heads up that I sent the attached Trump Chicago investment memo
24 to Dave Goodman. I think it would be a great loan for DB and
25 appreciate all your support in trying to make it happen."

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5529

1 What was Ms. Trump referring to?
2 A It was a financing opportunity on the Chicago property
3 that she was sending to Dave Goodman.
4 Q Who is Dave Goodman?
5 A He was a real estate banker.
6 Q And what, if anything, ultimately happened with that
7 financing opportunity?
8 A Um, the loan was done in PWM.
9 Q Why was the loan done in PWM?
10 A Mr. Trump was willing to personally guarantee it.
11 Q And did the bank receive the personal guaranty that it
12 requested?
13 A Yes.
14 Q And at the top it says "Ivanka, I will reach out to
15 Dave today and make sure he is aware of the expansive PWM
16 relationship and how important you and your family's business
17 have become to the bank."
18 Do you see that?
19 A Yes.
20 Q What was the purpose of reaching out to Dave Goodman
21 with that information?
22 A Well, the -- Ivanka wanted to have, um, a potential
23 deal, loan from both us and the real estate bank. And so it was
24 important for him to see the full breadth of what was going on
25 with the Trump family and the bank.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5530

1 Q And what was the full breadth of was what was going on
2 with the Trump family and the bank at this time?
3 A I don't know exactly.
4 Q And it says, "I will tell Dave that he has our full
5 support behind this deal. It looks sensational, by the way.
6 And to call me if I can be of any help."
7 Do you see that?
8 A Yes.
9 Q Were you ultimately of help on this deal?
10 A It ultimately got done in the private bank.
11 Q What role, if any, did you have in facilitating that
12 deal getting done in the private bank?
13 A I was the intermediary between customer and lending and
14 credit.
15 MR. SUAREZ: Your Honor, we move Defendant's
16 Exhibit 326 into evidence.
17 THE COURT: Granted. It's in.
18 (Defendant's Exhibit 326 was deemed marked and
19 admitted in evidence.)
20 MR. SUAREZ: I would like to show the witness
21 what's been pre-marked as Defendant's Exhibit 331.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 (The witness was handed the exhibit.)
25 Q I would like to draw your attention to an e-mail that

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5531

1 you sent to Balaji Prasanna. Who is Balaji Prasanna?
2 A Balaji was the head of lending at that time.
3 Q And at the bottom it says, "Subject: Re: Trump
4 Chicago revised terms." Do you see that?
5 A Yes.
6 Q Is this the same transaction that you were discussing
7 earlier with Dave Goodman?
8 A Yes.
9 Q And you write, "Balaji, you seem to ignore that we now
10 have 36 percent LTV where we -- where we were willing to go up
11 to 60 percent on the hotel and you have shortened her term on
12 the condos from five years to five years. The pricing is
13 appropriate for the risk. I will ask for the additional AUMs."
14 What did you mean by that?
15 A I think this was just my response to the new terms and
16 conditions that lending and credit risk wanted.
17 Q And then it says "This is the deal she wants and will
18 take. If you are not comfortable, we need to pass."
19 Do you see that?
20 A Yes.
21 Q And was the bank ultimately comfortable with making
22 this deal?
23 A Yes.
24 Q And in general terms, how does the negotiation between
25 the credit side -- let me withdraw that.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5532

1 In general terms, what is your role in facilitating
2 discussions on terms between your client and the bank?
3 A The process usually works that credit and lending will
4 review all the material. They will come back with a term sheet.
5 They, or I, will send that to the customer or prospect. The
6 customer or prospect will come back with things that they like
7 or don't like, um, and then a dialogue is taking place between
8 the two groups, three groups. And it's my job to sort of
9 mediate, if, in fact, there is a big gap between the two
10 positions.
11 Q And in general terms, what is the objective of the bank
12 when setting an interest rate on a loan transaction?
13 A The entire structure is set by the bank to, A, protect
14 the assets of the bank. And then to generate appropriate
15 revenue of such transaction.
16 Q And generally, trying to negotiate the interest rate on
17 the client's perspective, what is the objective of the client?
18 A The client likes the lowest rate possible.
19 Q And what role, if any, do you play in bridging those
20 two objectives?
21 A I try to see if there is a deal that can be done that
22 will bridge both of their objectives.
23 Q And with respect to the three loans that you were
24 involved with with The Trump Organization that we've discussed
25 today, were you successful in meeting that objective?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5533

1 A Yes.
2 MR. SUAREZ: Your Honor, we move Defendant's
3 Exhibit 331 into evidence.
4 THE COURT: Granted. It's in.
5 (Defendant's Exhibit 331 was deemed marked and
6 admitted in evidence.)
7 Q Do you see at the top where it says "No need" -- it's
8 an e-mail from Tom Bowers to you. It says, "No need to get
9 adversarial at this stage. Balaji, I'm just reflecting MF's
10 desire to get an appropriate spread."
11 Do you see that?
12 A Yes.
13 Q If the bank had not -- did not achieve an appropriate
14 spread, would it have closed on the transaction?
15 A No.
16 Q Do you see where it says "this is a superb deal."
17 A Yes.
18 Q Was Mr. Bowers' assessment of the deal consistent with
19 the bank's approved business strategies?
20 A I'm not sure I understand that.
21 Q I'll withdraw it. Was there -- would you agree with
22 Mr. Bowers' assessment of the deal?
23 MR. WALLACE: Objection. Again, the "would" versus
24 did, do.
25 THE COURT: Sustained.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5534

1 Q Did you agree at the time with Mr. Bowers' assessment
2 of the deal?
3 A I thought it was a good deal, yes.
4 Q Was that from the perspective of the bank?
5 A Yes.
6 MR. SUAREZ: I would like to show the witness what
7 has been pre-marked as Defendant's Exhibit 335.
8 (Whereupon, the exhibit was displayed on the
9 screen.)
10 (The witness was handed the exhibit.)
11 MR. SUAREZ: If we could turn to the e-mail dated
12 October 15th, 2012, from you to Ivanka Trump.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 MR. SUAREZ: On the second page.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 MR. SUAREZ: I apologize, the e-mail dated
19 October 15th, 2012.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q Do you recognize this as an e-mail you sent to Ivanka
23 Trump?
24 A Yes.
25 Q What is the subject matter of the e-mail?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5535

1 A Pricing update.
2 Q Is the discussion you had with Ms. Trump consistent
3 with your general practice in negotiating deal terms for the
4 bank?
5 A Yes.
6 Q And then you go on to provide pricing on a loan, and at
7 the bottom you write, "Please review this revised pricing offer.
8 I hope this is acceptable to you. And we look forward to
9 closing this on Halloween."
10 Do you see that?
11 A Yes.
12 Q Was this e-mail consistent with the manner in which you
13 helped the bank and clients bridge loans, loan terms in your
14 capacity at the bank?
15 A Yes.
16 MR. SUAREZ: And then if we scroll up to the e-mail
17 that you wrote Ms. Trump on October 15th.
18 (Whereupon, the exhibit was displayed on the
19 screen.)
20 Q The subject matter regarding pricing update, it says,
21 "I try to be fair and I think in this case both you and the bank
22 are happy."
23 Do you see that?
24 A Yes.
25 Q What did you mean by that?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5536

1 A I think back to me mediating between the customer and
2 the bank, that both of them were happy and that it's a fair deal
3 for both.
4 Q Was this consistent with your objective to develop
5 business for the bank?
6 A Yes.
7 MR. SUAREZ: Your Honor, we move Defendant's
8 Exhibit 335 into evidence.
9 THE COURT: Granted. It's in.
10 (Defendant's Exhibit 335 was deemed marked and
11 admitted in evidence.)
12 MR. SUAREZ: I would like to show the witness a
13 document that's been marked Defendant's Exhibit 338 for
14 identification.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 (The witness was handed the exhibit.)
18 Q Who is Dominic Scalzi?
19 A He was a banker at Deutsche Bank.
20 Q What role, if any, did Mr. Scalzi have on your team?
21 A We were both bankers on the same team.
22 Q What role, if any, did Mr. Scalzi have in connection
23 with the loans made by the Private Wealth Management Group to
24 the Trump Organization?
25 A He would be involved. We had -- the two of us would be

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5537

1 on all loans of -- and either I was the lead and he was the
2 backup on it, or he would be a lead and I would be a backup. So
3 he was technically my backup on this.
4 Q Do you see this e-mail was sent on Friday,
5 November 9th, 2012, to Ivanka Trump?
6 A Yes.
7 Q And with respect to Ms. Trump, you were copied on this
8 e-mail. Do you see this?
9 A Yes.
10 Q You see where it says, "Hi Ivanka. I want to thank you
11 and your dad for once again giving us the opportunities to meet
12 your financing needs. The professionalism and efficiency of
13 both organizations has made for a smooth and timely closing of
14 this transaction. Your organization is great to work with.
15 Thanks again for the confidence you have in us, and we are very
16 appreciative of receiving this additional business. Have a
17 great weekend."
18 Was this e-mail sent in reference to the Chicago
19 transaction that we've discussed?
20 A I would think so.
21 Q And was this e-mail consistent with your own opinions
22 of that transaction?
23 A Yes.
24 MR. SUAREZ: Your Honor, I move Defendant's Exhibit
25 338 into evidence.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5538

1 THE COURT: Granted. It's in.
2 (Defendant's Exhibit 338 was deemed marked and
3 admitted in evidence.)
4 Q Ms. Vrablic, what role, if any, did you have in the
5 loan transaction made in connection with the Old Post Office
6 property?
7 A I had received a phone call from The Trump Organization
8 that they were potentially one of the bidders for that property,
9 and potentially would need financing for that.
10 Q What interest did the bank have in participating in
11 that project?
12 A It was a potential financing facility.
13 MR. SUAREZ: I would like to show the witness
14 what's been marked for identification as Defendant's
15 Exhibit 340.
16 (Whereupon, the exhibit was displayed on the
17 screen.)
18 (The witness was handed the exhibit.)
19 Q If you see the e-mail all the way at the beginning of
20 this page, which is the bottom of the document.
21 (Whereupon, the exhibit was displayed on the
22 screen.)
23 Q On page two.
24 (Whereupon, the exhibit was displayed on the

Vrablic - by Defendant - Direct (Suarez) Page 5540

1 Q And it says: Subject Matter. Forward final THC OPO
2 release?
3 A Yes.
4 Q And she writes, Ms. Trump writes to you: We won! We
5 are very excited!
6 Did you know what she was referring to?
7 A Yes.
8 Q How did you know what she was referring to?
9 A We had known that they were in the bidding process
10 for the OPO. So by her statement of this it just meant they
11 won.
12 Q So you see Mr. Sullivan responds to an e-mail that
13 you appear to have sent him a little further up the page on
14 February 8. And he writes: You beat me to the punch. Was
15 covered in WSJ this morning. Sounds like she was also very
16 active in this project.
17 Why had you forwarded that e-mail to Mr. Sullivan?
18 A Just to tell them that they had won.
19 Q Was that indicative of the bank's interest in
20 participating in the financing?
21 A Yes. If they hadn't won the bid there would have
22 been no financing.
23 Q Do you see your response -- you respond to
24 Mr. Sullivan: Yes, she was. I guess they can pass the
25 government's KYC too.

Vrablic - by Defendant - Direct (Suarez) Page 5541

1 Do you see that?
2 A Yes.
3 Q What did you mean by that?
4 A The deal had a long-term lease with the Post Office
5 or some governmental agency. So, I was being funny that they
6 had a KYC process like ours.
7 MR. SUAREZ: Your Honor, I move Defendant's
8 Exhibit 340 into evidence.
9 THE COURT: Granted it is in.
10 (Whereupon, the document referred to was deemed
11 marked for evidence as Defendant's Exhibit 340 by the
12 Court.)
13 Q I would like to show the witness what has been
14 previously marked as Defendant's Exhibit 779 for
15 identification.
16 (Handing)
17 Q Who is Darrell Gustafson?
18 A I don't remember.
19 Q Do you see your e-mail address at the top?
20 A Yes.
21 Q Do you see an e-mail that you sent Darrell Gustafson
22 on July 16, 2013?
23 A Yes.
24 Q And it is: Subject OPO.
25 Do you see that?

Vrablik - by Defendant - Direct (Suarez) Page 5542

1 A Yes.

2 Q And you write: Hi. I just spoke with Ivanka Trump

3 re your group taking a look at the above transaction. We have

4 quite a robust and great relationship with the family in the

5 private bank and can provide you with a good amount of

6 background and exposure to senior management for your

7 underwriting.

8 Do you know what you would have meant by "exposure to

9 senior management"?

10 A Yes. It would have been the type of meetings with

11 Michiel and/or Anshu Jain.

12 Q That would be Michiel Fassiola?

13 A That's correct.

14 Q And then you write: I know this is a highly

15 competitive and time sensitive situation, so I am in the office

16 tomorrow to discuss.

17 Do you know what you meant by that?

18 A Well, after reading this they would have been another

19 part of the bank potentially looking at this transaction, and I

20 just would want to have been as helpful as I could.

21 Q Why would another part of the bank be looking at the

22 transaction?

23 A There are different avenues within the bank that

24 could potentially provide real estate financing. So, based

25 upon this Ivanka would have reached out to Mr. Gustafson.

Vrablik - by Defendant - Direct (Suarez) Page 5543

1 Q And what, if any, interest would Private Wealth

2 Management have had to obtain the business as opposed to

3 another division of the bank?

4 A Well certainly from our profitability it would be

5 better for it to be booked in the Private Wealth Management.

6 But ultimately we would just want to see a happy customer. So

7 if it was done in another part of the bank that would be fine

8 as well.

9 MR. SUAREZ: Your Honor, I move Defendant's

10 Exhibit 779 into evidence.

11 THE COURT: Granted, it is in.

12 (Whereupon, the document referred to was deemed

13 marked for evidence as Defendant's Exhibit 779 by the

14 Court.)

15 MR. SUAREZ: I would like to show the witness

16 what has been marked as Defendant's Exhibit 342.

17 (Handing)

18 MR. SUAREZ: And if you could turn to the second

19 page of the e-mail. At the bottom.

20 Q Do you recognize this as an e-mail that you sent on

21 November 26, 2013 to Ivanka Trump and Jared Kushner?

22 A Yes.

23 Q Do you see where it says: Subject Credit Meetings?

24 A Yes.

25 Q And you write: Hi. Hope you had a good flight.

Vrablik - by Defendant - Direct (Suarez) Page 5544

1 Meetings with credit on both your deals went well. Yeah.

2 Can we set some times later -- excuse me. Can we set

3 some times late morning to go over each individually? Let me

4 know.

5 With respect to Ms. Trump, what was this e-mail

6 about?

7 A It probably would have been about OPO.

8 Q And what, if anything, do you recall about the

9 discussions you had with Ms. Trump concerning credit meetings

10 on that deal?

11 A I don't recall.

12 MR. SUAREZ: Scroll up to another part -- to a

13 later part of the e-mail. I am sorry. Further up the

14 exhibit on page one.

15 Q You write back to Ms. Trump: Ivanka, good morning.

16 Tom and Emily have a few questions for Dave (they sent him an

17 e-mail last night) and they will have a full term sheet for

18 us -- maybe today if we are lucky -- or Monday the latest.

19 Credit has given us the green light, so I see absolutely no

20 issues.

21 What did you mean by "credit has given us the green

22 light so I see absolutely no issues"?

23 A For a term sheet to be given out to a customer,

24 credit had to approve the transaction. So they would have

25 given us a green light to go forward.

Vrablik - by Defendant - Direct (Suarez) Page 5545

1 Q Is the issuance -- let me rephrase that.

2 What point of the loan transaction is the issuance of

3 a term sheet?

4 A Preliminary underwriting has been done. There has

5 been a discussion of terms and conditions, plus items that were

6 still needed to be considered for it to go from a term sheet to

7 an actual commitment.

8 Q And generally speaking, what does the process to go

9 from a term sheet to an actual commitment look like at the

10 bank?

11 A Again, it would depend upon what credit and lending

12 would need. The customers would come back with their requests

13 and what they would like to see in there. And then credit and

14 lending would come back with a final term sheet that would be

15 approved by a customer. And then it would go to commitment.

16 Q Does the issuance of a term sheet obligate the

17 bank -- withdrawn.

18 Is the bank obligated to close on a deal when it is

19 issued a term sheet?

20 A No.

21 Q Is, in your experience generally speaking at Deutsche

22 Bank, the client required to close on a deal when it is issued

23 a term sheet?

24 A I am sorry, if you can rephrase that?

25 Q Sure.

Vrablik - by Defendant - Direct (Suarez) Page 5546

1 When the bank issues a client a term sheet, is the
2 client required to consummate that deal?
3 A No.
4 Q And what, if anything, can occur between the issuance
5 of the term sheet and the ultimate -- and ultimately a
6 transaction being consummated or not consummated?
7 A From a client's side they may find the transaction
8 being done at another institution, if they find another deal
9 somewhere else. From the bank's standpoint they may or may not
10 like the additional information they get. Or the bank and the
11 customer can't come to an agreement on terms and conditions.
12 Q Is that an ordinary description of a banking
13 relationship between a client and the bank?
14 MR. WALLACE: Objection.
15 THE COURT: I am not sure what "that" was. Was
16 that your objection?
17 MR. WALLACE: Yes.
18 THE COURT: It doesn't have to be.
19 Q Is your description of the process to go from loan to
20 term sheet, generally speaking, consistent with banking
21 practices between a bank and a client?
22 A Yes.
23 Q Then the e-mail goes on to state: One question that
24 was raised was on disclosure -- since the GSA/or some
25 government entity is involved -- will our terms and conditions

Vrablik - by Defendant - Direct (Suarez) Page 5547

1 with you be made public? Not a credit issue, but we want to be
2 prepared if "other clients" see it and ask for the same deal.
3 What concern were you conveying to Ms. Trump in that
4 sentence?
5 A Because most of the deals that are done with our
6 private banking customers are private, they are not in the
7 public domain, so our concern was that if other customers saw
8 rates that were given, which are typically not known by other
9 customers or prospects, that everybody would think they should
10 get the same rates, same deals, same conditions, since it is a
11 competitive situation. And other banks would also know.
12 Q And how, if at all, was that concern addressed?
13 A I don't remember.
14 Q Was there any follow-up discussion with respect to
15 this concern?
16 A I don't remember.
17 Q Was this concern unique to this transaction?
18 A No. We always would keep the spreads and terms and
19 conditions private from other customers. We would not talk
20 about that.
21 MR. SUAREZ: Your Honor, I move Defendant's
22 Exhibit 342 into evidence.
23 THE COURT: Granted, it is in.
24 (Whereupon, the document referred to was deemed
25 marked for evidence as Defendant's Exhibit 342 by the

Vrablik - by Defendant - Direct (Suarez) Page 5548

1 Court.)
2 Q Earlier -- withdrawn.
3 I would like to show the witness an e-mail that's
4 been marked as Defendant's Exhibit 343 for identification
5 purposes.
6 (Handing)
7 Q Do you recognize your e-mail at the top of the page?
8 A Yes.
9 Q Who is Daniel Eisenberg?
10 A He was a junior banker on our team.
11 Q Do you see here where you write: Hi --
12 This is an e-mail directed to Tom Sullivan and Emily
13 Schroeder; is that correct?
14 A Yes.
15 Q It says: Hi.
16 Revenues 2011 - 13,477.
17 2012 - 2.6 million.
18 2013 - 3.1 million through October -- 3.5 million for
19 full year -- Note: This is after the 50 BP liquidity fee for
20 2013 (not in prior years).
21 What was the 50 BP liquidity fee?
22 A The bank had a 50 basis point capital charge from the
23 funding desk that was passed on to all loans.
24 Q And what does this revenue represent for the --
25 withdrawn.

Vrablik - by Defendant - Direct (Suarez) Page 5549

1 What does this revenue represent?
2 A It would be the revenue generated from all of the
3 products used by the Trump Organization.
4 Q Would those be the products used from the Private
5 Wealth Management group?
6 A Yes.
7 Q And would these revenues be booked on the Private
8 Wealth Management group's balance sheet?
9 A I would think so.
10 Q And then in 2014 it says: Proforma.
11 Do you see that?
12 A Yes.
13 Q Existing approximate run rate is 210K per month,
14 equals 2.520M.
15 What does that mean?
16 A I assume whatever loan that was going to be booked
17 that would be the anticipated revenue generated for it in 2014.
18 Q What is an approximate run rate? How does that
19 factor into the bank's analysis of revenue?
20 A It is just what is earned every month.
21 Q And then OPO. It says: Fee. 170 million@50
22 basis -- 50BP.
23 BP means basis point?
24 A Yes.
25 Q Equals 850K.

Vrablok - by Defendant - Direct (Suarez) Page 5550

1 Do you see that?
2 A Yes.
3 Q What does that 850,000 represent?
4 A That would be the -- excuse me, the loan fee.
5 Q Would that be -- excuse me, would that be revenue
6 generated from the closing of the OPO transaction?
7 A Yes.
8 Q And then it says: Spread of 225 for eight months --
9 2.5 million equals 3.3 million.
10 What does the spread of 225 for eight months 2.5
11 million mean?
12 A That would be the spread that is on the loan that is
13 paid, the profitability that's generated to the bank for the
14 eight-month period that the loan would have been outstanding in
15 2014.
16 Q And then do you see where it says 3.3 million? Is
17 that just adding up the math of the 850 and the 2.5?
18 A Yes.
19 Q And then it goes on to say: Total 2014 revenue
20 should exceed 6.8 million.
21 What does that mean?
22 A That would be the addition of the 2.5 million and the
23 3.3 for total revenue for 2014.
24 Q Would that reflect revenue generated by the Deutsche
25 Bank Wealth Management Division from the Trump Organization in

Vrablok - by Defendant - Direct (Suarez) Page 5551

1 2014?
2 A Yes.
3 Q And what would be the purpose of sending this
4 information to Mr. Sullivan and Ms. Schroeder?
5 A This sort of information would be available to the
6 private banking side of the organization. And so Tom and Emily
7 probably would have put that in their credit write-up or annual
8 review. But that would be something they would need for their
9 report.
10 Q And how would this information, if at all, inform the
11 bank's decision-making on how it wanted to develop a
12 relationship with the Trump Organization?
13 A It would just be a fact of what was generated from
14 the business.
15 MR. SUAREZ: Your Honor, we move Defendant's
16 Exhibit 343 into evidence.
17 THE COURT: Granted, it is in.
18 (Whereupon, the document referred to was deemed
19 marked for evidence as Defendant's Exhibit 343 by the
20 Court.)
21 Q What, if any, knowledge do you have concerning the
22 performance of the OPO loan?
23 A When I was working at the bank it was current.
24 Q When, if at all, did you visit the OPO property?
25 A I was there for the first time to see it in its "as

Vrablok - by Defendant - Direct (Suarez) Page 5552

1 is" condition before they did all of the work. There was
2 another visit midway when the work was being done. And I
3 believe there was a third for the ground breaking, something of
4 that nature. And then I was there during the inauguration.
5 Q And what view, if any, do you have -- withdrawn.
6 What was your opinion at the time concerning the
7 repositioning of the hotel project?
8 A Well, it was an empty shell, so it was neglected for
9 a period of time. And it needed a wholesale redoing of the
10 whole thing for it to become the vision that the Trumps had for
11 it.
12 Q Was the performance of the OPO project consistent
13 with your expectation for that project when the loan was
14 originated?
15 A Yes. They took it from a shell to a fully
16 operational hotel and event space.
17 MR. SUAREZ: I would like to turn your attention
18 to what has been previously marked as Plaintiff's Exhibit
19 298.
20 (Handing)
21 Q Do you see the date at the top right-hand corner of
22 this document?
23 A Yes.
24 Q And were you employed at the bank on July 20, 2015?
25 A Yes.

Vrablok - by Defendant - Direct (Suarez) Page 5553

1 Q Do you see at the bottom there below the date it
2 says: Relationship manager Vrablok/Scalzi?
3 A Yes.
4 Q What does that mean?
5 A We were both involved from the relationship
6 management side on this transaction.
7 Q And do you see: Lender Williams/Frank?
8 Does that mean anything to you?
9 A Yes.
10 Q What does that mean?
11 A The two lenders were Dave Williams and Josh Frank.
12 Q And what is the role of the lender in the client
13 relationship?
14 A They would be responsible for the underwriting of the
15 transaction and working with the credit risk to get it
16 approved.
17 Q And if you look at: Group. The Trump Family in the
18 box to the left. Do you know what that grouping refers to?
19 A I would assume all of the deals that were done for
20 the Trump family.
21 Q And then it identifies: Borrowers A, Trump Endeavor
22 12 LLC. B, 401 North Wabash Venture LLC. C, Trump Old Post
23 Office LLC.
24 Do you see that?
25 A Yes.

Vrablik - by Defendant - Direct (Suarez) Page 5554

1 Q Are those the three loans that we have been
2 discussing today?
3 A Yes.
4 Q Do you -- then there is a -- it goes on to be a
5 reason for presentation. Are you aware that the loans were
6 reviewed by the bank on an annual basis?
7 A Yes.
8 Q What role, if any, did you have in the annual review
9 of these three loans?
10 A I would not be involved in the preparation of or
11 doing of the annual review. The only thing would be is if
12 credit or lending needed something that they would like me to
13 get from the customer, I would be the intermediary to get it
14 for them potentially.
15 Q And if we could turn to the second page of this
16 document. Do you see where it says: Assets Under Management?
17 A Yes.
18 Q And this reflects assets under management by Donald
19 J. Trump of 31.295 million in cash deposits. Do you see that?
20 A Yes.
21 Q Was this consistent with your objective to develop
22 the bank's relationship with President Trump?
23 A Yes.
24 Q Why is the bank interested in developing assets under
25 management?

Vrablik - by Defendant - Direct (Suarez) Page 5555

1 A It would generate more revenue and profitability for
2 the bank.
3 Q Was that revenue captured in the prior analysis that
4 we reviewed concerning revenue generated by the relationship
5 with President Trump?
6 A I would think so.
7 Q Do you see where it says Associated Entities?
8 A Yes.
9 Q 86.49 million in cash deposits?
10 A Yes.
11 Q Were those additional deposits generated from your
12 development of the relationship with President Trump?
13 A I would assume so.
14 Q Are you aware if those cash deposits were in excess
15 of the cash deposits required of President Trump under the loan
16 documents?
17 A That I don't know.
18 MR. SUAREZ: If you could turn to page six of
19 this document.
20 Q And see the section that says, Recommendation.
21 At the bottom, under All Facilities, it says: DB
22 relationship. In connection with the addition of Facility C
23 DJT transferred 40 million in liquidity to DB. He has also
24 indicated he is interested in continued to grow his non-credit
25 relationship with the firm. The AWM banking team has been

Vrablik - by Defendant - Direct (Suarez) Page 5556

1 introduced to each of DJT's three adult children and two have
2 established relationships with the firm.
3 What role, if any, would you have been involved with
4 in developing the relationship in this matter?
5 A I would have brought the banking teams to the
6 customer to see if it was a good match for them to do business
7 with them.
8 Q And then it says: In addition the CB and S real
9 estate team has had a successful history with the family.
10 Do you see that?
11 A Yes.
12 Q And what role, if any, would you have had to develop
13 the relationship for the AW and banking team, as opposed to the
14 CB and S real estate team?
15 A The CBS would be a separate division. The only
16 thing, as I had written earlier on some of the memos, would be
17 to provide them any information if they needed it from the
18 private bank.
19 Q Were there other credit facilities that you worked
20 with the Trump Organization in developing that didn't close?
21 A I am sorry, could you say that again?
22 Q Sure. Were you involved with proposing other credit
23 facilities to the Trump Organization that ultimately did not
24 close?
25 A Yes.

Vrablik - by Defendant - Direct (Suarez) Page 5557

1 Q What were those facilities?
2 A The -- they had requested a loan for the Turnberry
3 golf course in Scotland, which was declined by the bank.
4 Q Why was the Turnberry facility declined by the bank?
5 A The -- at that time he was President of the United
6 States or going to become President of the United States and
7 the bank's position was that they did not want to increase the
8 exposure at that time.
9 (The following proceedings were stenographically
10 recorded by Senior Court Reporter Michael Ranita.)

23
24
25

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5558

1 Q Are you aware as to why the bank did not want to
2 increase his exposure to then president-elect Trump at that
3 time?
4 A Yes.
5 Q What was that reason?
6 A At that time, because he was president-elect and/or
7 candidate, at that time I don't recall which one, but the bank
8 felt that the increased exposure, scrutiny, it was an
9 unprecedented situation to have a customer who was going to
10 become President of the United States. And the bank's position
11 was that it was not appropriate to go up in exposure, given the
12 circumstances.
13 MR. SUAREZ: And if we could turn back to
14 Plaintiff's Exhibit D-298.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q This document, would you agree, Ms. Vrablic, is dated
18 February 27, 2012, -- or was prepared in advance of a meeting
19 with Donald Trump on February 27, 2012?
20 A Yes.
21 Q And that was before President Trump entered the
22 political arena?
23 A For president, yes.
24 Q And at that time, if we turn to the second page.
25 (Whereupon, the exhibit was displayed on the

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5559

1 screen.)
2 Q One of the purposes of the meeting was "To continue to
3 build out the existing AWM relationship of loans, deposits and
4 investment management."
5 Do you see that?
6 A Yes.
7 Q And then in the background section it says, "Rosemary
8 Vrablic, WM" -- "WM" means Wealth Management -- "developed over
9 the last 12 months a very strong relationship with Donald Trump,
10 Donald Trump, Jr., Ivanka Trump, and Jared Kushner."
11 Do you see that?
12 A Yes.
13 Q Was that consistent with how the relationship
14 ultimately played out with President Trump and his family until
15 such time as he was elected president?
16 A Yes.
17 MR. SUAREZ: Your Honor, I know we are nearing the
18 lunch break. I think if we could take the lunch break now,
19 I would be in a position to greatly reduce the amount of
20 time that I have left.
21 MR. KISE: I was going to suggest that we do that
22 because maybe --
23 THE COURT REPORTER: I'm sorry, because? I can't
24 hear you.
25 THE COURT: Sure. We could do that. How much

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5560

1 longer do you have on direct? I know you don't know.
2 MR. KISE: I know, maybe if we have the time now to
3 consult, maybe 30 minutes or so. No more than an hour. So
4 we could substantially -- I think we could substantially --
5 THE COURT REPORTER: I'm sorry, you just turned the
6 mic off.
7 MR. KISE: I think we can reduce it substantially
8 based on what I've heard.
9 By the way, for the record, a hole-in-one might be
10 an eagle, but it also can be an albatross. It could also be
11 an albatross. I heard that before, there was a discussion
12 when I was out of the courtroom.
13 THE COURT: I'm going to have to Google this.
14 Okay. See you all at 2:15. I'll direct the witness not to
15 talk to anybody.

2 MR. KISE: Judge, I'm going to take credit for four

4 THE COURT OFFICER: Witness entering.
5 THE COURT: Great.
6 (Whereupon, the witness stepped into the witness
7 stand.)
8 Q Ms. Vrablic, good afternoon.
9 I would like to show you a document that's been
10 previously admitted into evidence as Defendant's Exhibit 212?
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 (The witness was handed the exhibit.)
14 Q Are you aware, approximately, when the loan to Trump
15 Endeavor 12, LLC closed?
16 A Based upon this, I would say June 11th, 2012.
17 Q And that's The Trump Doral loan; right?
18 A Yes.
19 Q And that was the first loan Deutsche Bank made to an
20 entity that was personally guaranteed by President Trump and the
21 Wealth Management Division?
22 A Yes.
23 MR. SUAREZ: I would like to go back to Defendant's
24 Exhibit 312.
25 (Whereupon, the exhibit was displayed on the

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5562

1 screen.)
2 (The witness was handed the exhibit.)
3 Q And again, I direct your attention to the e-mail from
4 Marcus Mitchell to Thomas Bowers. Do you see that e-mail in --
5 beginning in the second page of the exhibit?
6 A Yes.
7 Q What is the date of this e-mail?
8 A December 23rd, 2011.
9 Q Was this e-mail sent to Mr. Bowers before the Doral
10 loan closed?
11 A Based upon the dates, yes.
12 Q Who is Mr. Bowers?
13 A He was my boss and head of Private Wealth Management
14 domestic.
15 Q I would like to draw your attention to the middle of
16 this paragraph, which says "The facility will be supported by a
17 full and unconditional guarantee (the PG) provided by DJT."
18 Do you see that?
19 A Yes.
20 Q And is that a reference to the guarantee that was
21 ultimately provided by President Trump?
22 A Yes.
23 Q And then it says "Through our due diligence, we have
24 concluded that DJT has an exceptionally strong financial profile
25 consisting of a reported net worth of \$4.2 billion, which we

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5563

1 have adjusted to \$2.4 billion, including 230 million in
2 unencumbered liquidity, an extensive real estate portfolio
3 including one billion in adjusted net equity held in four
4 wholly-owned low leveraged class A New York City properties,
5 only 2 million in personal debt and 114 million in secured
6 contingents."
7 Do you see that?
8 A Yes.
9 Q What basis, if any, do you have to disagree with the
10 characterization of President Trump's financial condition in
11 this e-mail?
12 A This would have been written by Marc Mitchell. I would
13 have no reason to think differently.
14 Q Who is Marc Mitchell?
15 A He was the head of lending.
16 Q Was this information aware to the bank before it
17 accepted a guarantee from President Trump?
18 MR. WALLACE: Objection. The formulation of the
19 question.
20 Q I'm sorry. Was the bank aware of this information
21 before it accepted a guarantee from President Trump?
22 A Yes.
23 Q And what does it mean, to your knowledge, the
24 statement, "Through our due diligence, we have concluded that
25 DJT has an exceptionally strong financial profile"?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5564

1 A This would have been based upon the analysis of the
2 credit and lending team.
3 Q And what, if any, reaction did the bank have to the
4 adjustment in President Trump's net worth from 4.2 billion to
5 2.4 billion, by the bank's own analysis?
6 MR. WALLACE: Objection, in terms of the reaction
7 of a bank. Is he asking about the reaction of a person?
8 MR. SUAREZ: Happy to rephrase it.
9 Q What reaction did you have to the adjustment of
10 President Trump's net worth by the bank from 4.2 billion to
11 2.4 billion?
12 A Well, the lending and credit departments would always
13 adjust people's net worths, so whatever they would conclude was
14 the adjusted number would be the adjusted number to me.
15 Q And what concern, if any, did you have that the
16 \$2.4 billion adjusted net worth was less than the 2.5 billion
17 net worth covenant in this loan?
18 A You would have to talk to credit about that. I'm
19 sorry.
20 Q What concern, if any, did you have?
21 A I wouldn't. If they were comfortable with it, I would
22 be comfortable with it.
23 Q And if we continue on it says, "We have calculated
24 DJT's annual net recurring cash flow after personal expenses and
25 other disbursements to be approximately \$48 million, and it is

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5565

1 well diversified across his interests in real estate, licensing,
2 entertainment, golf clubs, speaking, and several other forms of
3 miscellaneous revenues."
4 Do you see that?
5 A Yes.
6 Q And what basis, if any, do you have to disagree with
7 Mr. Mitchell's analysis of that?
8 A Again, I would not -- I would assume he did his work.
9 Q And then it says, "We are recommending the facility
10 based on the strength of DJT's PG."
11 Do you see that?
12 A Yes.
13 Q And would that have been the strength -- withdrawn.
14 Would your -- the strength of the facility was
15 recommended based on the strength of Donald's PG reflected in
16 this document; is that your understanding?
17 A I'm sorry. I don't follow that.
18 Q It says, "We are recommending the facility based on the
19 strength of DJT's PG." Is that a personal guarantee?
20 A Yes.
21 Q And would that follow based on the analysis that the
22 bank conducted of President Trump's financial condition?
23 A Yes.
24 Q And then if you keep going it says --
25 MR. SUAREZ: Scroll down.

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5566

1 (Whereupon, the exhibit displayed on the screen was
2 scrolled through.)
3 Q "To one DJT financial profile."
4 MR. SUAREZ: Scroll down.
5 (Whereupon, the exhibit displayed on the screen was
6 scrolled through.)
7 Q Do you see where it says, "PWM SL team confirmed all
8 amounts via account statement review on 12/20"?
9 A Yes.
10 Q What does that mean?
11 A The sales and lending team confirmed all amounts via a
12 review of the account statements on December 20th.
13 Q And do you see "real estate"? It says, "Adjusted net
14 equity value of approximately \$1.7 billion", and then "(SL
15 worked with DB Valuation Services team to derive adjusted
16 value)."
17 Do you see that?
18 A Yes.
19 Q What consideration, if any, did the bank give to this
20 analysis before accepting President Trump's guarantee?
21 A I don't know. That would be sales and lending that
22 would have done that with Marc Mitchell.
23 Q What, if any, basis do you have to disagree with the
24 bank's analysis of the adjusted net equity and -- of President
25 Trump's real estate?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5567

1 A I would have no basis to disagree.
2 Q And then a few lines down, do you see it says, "Total
3 real estate debt of 302 million resulting in approximately
4 18 percent leverage on RE portfolio."
5 Do you see that?
6 A Yes.
7 Q What basis, if any, do you have to dispute that the
8 bank had that knowledge in its possession before accepting
9 President Trump's guarantee?
10 A I would have no reason to dispute it.
11 Q And if we turn to page three of this document.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q Do you see at the top it says, "Reported 4.2 billion
15 and adjusted based on DB due diligence to 2.4 billion." And
16 that's under the section "Net Worth", which appears just a
17 little bit above.
18 Do you see that?
19 A Yes.
20 Q And what, if any, basis do you have to dispute that the
21 bank was -- that the bank had adjusted President Trump's net
22 worth from 4.2 billion to 2.4 billion prior to accepting his
23 guarantee?
24 A I would have no basis to dispute it.
25 Q And if this analysis was acceptable to Mr. Bowers would

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5568

1 it have been acceptable to you?
2 A Yes.
3 Q And then if we scroll up to page one, you see an e-mail
4 on December 23rd, 2011, from Mr. Bowers to Marcus Mitchell, that
5 you, Dominic Scalzi and Thomas Sullivan are copied on?
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q And Mr. Bowers, you could see, is responding to
9 Mr. Mitchell, with a copy to you, and it says, "I would
10 conclude", first paragraph, "by saying we recommend on the basis
11 that it is a sound credit, and even in the absence of a personal
12 guarantee, but that the PG makes it remarkably -- makes it a
13 remarkably safe deal given the strength of the guarantor."
14 Then he goes on to write, "Mentioned that it is among
15 the strongest personal balance sheets we have seen and totally
16 unlike any of our major real estate developer clients in that we
17 observe an absence of personal debt, with huge asset base and
18 diversified CF."
19 Do you see that?
20 A Yes.
21 Q What does "CF" mean?
22 A Cash flow.
23 Q And do you have any -- at the time, withdrawn.
24 Do you have any reason to disagree with Mr. Bowers
25 assessment of President Trump's personal balance sheet?

R. Vrablic - by Defendant - Direct (Mr. Suarez) Page 5569

1 MR. WALLACE: I'm just going to raise an objection.
2 We had, now, a series of questions about whether she has any
3 reason to disagree. I don't know if that even generates
4 admissible testimony. She has no basis to disagree with
5 something that isn't her statement, so I'm going to object,
6 I guess, on relevance grounds.
7 THE COURT: It's an unusual approach, do you have
8 any reason to disagree with a certain statement. I mean, I
9 didn't stop it. And --
10 Q Do you agree with Mr. Bowers' assessment?
11 THE COURT: Did she agree.
12 Q Did she agree.
13 A Yes.
14 Q And, in fact, at the top.
15 (Whereupon, the exhibit displayed on the screen was
16 scrolled through.)
17 Q You responded to Mr. Bowers and said, "Also told MM to
18 discuss that DJT's expertise in successfully running world-class
19 assets like as demonstrated by his extensive hotel, condos, golf
20 clubs -- sorry, clubs, golf courses, make this asset purchase
21 and repositioning a realistic and high probable success story."
22 Do you see that?
23 A Yes.
24 Q Was that, in fact, what happened?
25 A Yes.

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5570

1 Q And was this information contained in this e-mail
2 available to the bank before it accepted President Trump's
3 guarantee?
4 A Yes.
5 MR. SUAREZ: I have no further questions.
6 THE COURT: Will there be any cross examination?
7 MR. WALLACE: A brief bit of cross examination.
8 CROSS EXAMINATION
9 BY MR. WALLACE:
10 Q Good afternoon, Ms. Vrablic. I'm Kevin Wallace from
11 the Attorney General's Office. We met at your deposition.
12 MR. WALLACE: If we could put back up on the screen
13 Defendant's 312, which we were just looking at, I believe,
14 and if we could put next to it Defendant's Exhibit 313.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q Obviously you just discussed Defendant's 312 with
18 Mr. Suarez. Do you recall that testimony? And you earlier,
19 with him, discussed Defendant's Exhibit 313.
20 If I could just direct your attention on the first
21 page. You had talked about the e-mail dated December 23rd,
22 2011, at 9:10, from Mr. Bowers to Mr. Mitchell, that had the
23 language about, "we recommend this on the basis that it is a
24 sound credit, and even in the absence of a personal
25 guarantee..."

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5571

1 Do you remember that testimony?
2 A Yes.
3 Q I just want to focus on the next paragraph, which
4 states, "Not to micromanage, but I have to escalate such risks
5 to PDW, and we could miss a great franchise opportunity, of
6 which this is undoubtedly one, by not highlighting deal
7 strengths."
8 Who is PDW?
9 A Pierre De-Weck was the global head of private banking
10 at that time.
11 Q And why did Mr. Bowers have to escalate these risks to
12 PDW -- to Mr. De-Weck, sorry?
13 A I don't know which risks Tom would have been mentioning
14 or thinking at that time.
15 MR. WALLACE: If we could turn to page three of
16 Defendant's 313.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q And if we look down here -- actually, if we go down a
20 little lower, there is a message from Dan McAvoy to Pierre
21 De-Weck, copies Mr. Bowers among others.
22 Am I to understand, then, that the e-mail in
23 Defendant's 312 is a team of people working on the presentation
24 of what's going to be sent to Mr. De-Weck here in Defendant's
25 313?

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5572

1 A I believe so.
2 Q Now, when we looked at this language from Mr. Bowers
3 about, I would -- about recommending the loan -- I'll
4 double-check to make sure. "It is a sound credit, and even in
5 the absence of a personal guarantee", do you know if that made
6 it into the final presentation that went to Mr. De-Weck?
7 A I don't know.
8 Q If we look at the first bullet point after the
9 introductory paragraph from Mr. McAvoy, the first bullet says,
10 "The strength of Trump's full and unconditional personal
11 guarantee, which includes significant liquidity, \$230 million,
12 low leverage on diverse real estate holdings, diversified and
13 consistent cash flow, and an absence of personal debt. As
14 detailed further below, based on our due diligence, we have
15 calculated an adjusted net worth of 2.4 billion."
16 So, in fact, the first bullet point of the
17 recommendation to Mr. De-Weck is highlighting the personal
18 guarantee that Donald Trump is going to provide on this
19 facility; correct?
20 A Yes.
21 Q And if we look back at the response from Mr. De-Weck,
22 you looked at this with Mr. Suarez as well. It's on the prior
23 page, page three.
24 Mr. De-Weck writes, "I support the transaction, but we
25 need ironclad, full recourse under all circumstances. PDW." So

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5573

1 Mr. De-Weck is making it clear that the bank needs an ironclad
2 guarantee in order to extend this facility; correct?
3 A Correct.
4 Q Do you know if the credit approval for this transaction
5 was on the basis of a guarantee, or just on the strength of the
6 facility on its own?
7 A I don't recall which one, but in -- I would assume both
8 would be important.
9 Q But in the basis here, the loan was, in fact, not
10 recommended on the basis that it was a sound credit in the
11 absence of a personal guarantee; correct?
12 MR. KISE: Objection. Is he asking her to read
13 what's written there or is he asking her what her
14 understanding is?
15 THE COURT: I'll ask for a clarification.
16 Q Based on the e-mail to Mr. De-Weck and his response,
17 the loan was, in fact, not recommended on basis that it was a
18 sound credit independent of a guarantee; is that correct?
19 A That's correct.
20 MR. WALLACE: Can we give the witness Plaintiff's
21 Exhibit 1129.
22 (Whereupon, the exhibit was displayed on the
23 screen.)
24 (The witness was handed the exhibit.)
25 Q Ms. Vrablic, you've been handed a document that's been

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5574

1 marked as Plaintiff's Exhibit 1129. It's an e-mail thread from
2 September 2011. You are not on the top e-mails on the thread,
3 but I would like to direct your attention to a message you wrote
4 that appears on page three of the document.
5 MR. WALLACE: If we could flip there.
6 (Whereupon, the exhibit was displayed on the
7 screen.)
8 Q And if you want to flip through the e-mails that come
9 below that one, just in the order of the thread, I'm happy for
10 you to take a moment to just familiarize yourself with that.
11 (Whereupon, there is a brief pause in the
12 testimony.)
13 A Okay.
14 Q You are all set. So directing your attention to the
15 top message here, the one sent at 7:17 a.m. on September 29th,
16 2011, this is a response from you, after an introductory e-mail
17 from Jared Kushner, in response from Donald Trump, Jr.
18 But my question is going to be about your note. You
19 write that it would be a pleasure to meet with Don Trump, Jr.
20 and write, "Sorry about the recourse issue. A dirty word, I
21 know, but it is a requirement for private banking."
22 First, why did you describe "recourse" as a "dirty
23 word"?
24 A Most real estate owner, developer, operators don't
25 particularly like giving recourse to their lenders, so they

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5575

1 usually prefer to have nonrecourse type of financing.
2 Q And these are your clients are the kinds of developers
3 you are talking about?
4 A Yes.
5 Q Do you have a sense of why your clients don't like
6 recourse?
7 A I think most clients done like recourse.
8 Q What is the reason for not liking recourse?
9 A At the end of the day their personal assets are also
10 basically standing behind the credit facility, so should a
11 project or a real estate project not work out, the bank could
12 sue each person individually as well.
13 Q And their individual assets beyond the project could be
14 at risk?
15 A That's correct.
16 Q So why is recourse a requirement for private banking?
17 A Usually because we are financing an asset that requires
18 a personal guaranty, meaning it's a transitional type of asset,
19 or because we are the private bank, we deal with people and we
20 prefer them to have recourse for their facilities.
21 Q Okay.
22 MR. WALLACE: If we could go down to the
23 introductory note from Mr. Kushner. I believe it's on the
24 next page, actually.
25 (Whereupon, the exhibit was displayed on the

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5576

1 screen.)
2 Q And Mr. Kushner is addressing the message to Don Trump,
3 Jr. And he writes, "While Rosemary only lends with recourse,
4 the flexibility rates and service you get is unparalleled, so I
5 would recommend you consider this highly."
6 First of all, can I ask, do you agree with that
7 statement from Mr. Kushner?
8 A Yes.
9 Q And so why was the flexibility that you offered
10 unparalleled?
11 A The -- I think based upon because people would give
12 recourse, that we do have the flexibility on terms and
13 conditions where if somebody is doing a nonrecourse loan, they
14 are really just looking at the property or the business
15 themselves. So it does give -- gives us the flexibility to be
16 creative on some conclusions, because the person is standing
17 behind it.
18 Q I think you kind of touched on this a little bit in
19 your last answer, but why is the rate also unparalleled?
20 A Usually because, again, they are putting something up
21 that is a little bit different than a nonrecourse loan. You do
22 have the guarantee and the assets of the individual behind it,
23 so that, um, the rate usually does reflect that.
24 MR. WALLACE: If we go up to the response from
25 Donald Trump, Jr.

R. Vrablic - by Defendant - Cross (Mr. Wallace) Page 5577

1 (Whereupon, the exhibit was displayed on the
2 screen.)
3 Q He writes to you, "I fully understand the recourse
4 position and don't have an issue with that."
5 May I ask, did any of the Trump family members you
6 dealt with -- let me withdraw that question and I'll restate the
7 question.
8 In your experience, did all of the Trump family members
9 that you dealt with understand the recourse position of your
10 lending from the Private Wealth Group at Deutsche Bank?
11 A Yes.
12 Q And what Trump family members did you deal with?
13 A Um, Don, Jr. directly, in terms of his loan. And then
14 I would work with Ivanka and Mr. Trump.
15 Q Donald Trump, Sr?
16 A Yes.
17 Q Did you ever have to explain to any of those
18 individuals why recourse was necessary for a Private Wealth
19 loan?
20 A No.
21 MR. WALLACE: We could take that document down.
22 (Whereupon, the exhibit displayed on the screen was
23 taken down.)
24 Q Ms. Vrablic, I just want to make sure that I understand
25 your role in the origination process correctly.

Page 5578

1 At the time of origination of a loan, your role was
2 limited to recommending a transaction to lending; is that
3 correct?
4 A Yes.
5 Q And you had no role in trying to persuade the bank to
6 make a loan; is that fair?
7 A I had my opinion, but I had no authority.
8 Q And you would stay involved in the deal and try to make
9 sure that it got done; is that fair?
10 A Yes.
11 Q But if lending made a decision that they did not want
12 to proceed with a loan, you would honor the bank's decision at
13 that point; is that correct?
14 A Yes.
15 Q And as part of the underwriting of a loan, it was not
16 your responsibility to review the financial statement of any of
17 your borrowers; is that correct?
18 A That's correct.
19 Q So you never saw Mr. Trump's Statement of Financial
20 Condition during the course of your entire banking relationship
21 with Mr. Trump; is that correct?
22 A I saw it as a document, but I did not review it.
23 (Continued on next page.)
24
25

Vrablik - by Defendant - Cross (Wallace) Page 5579

1 Q I believe you testified during your investigative
2 examination that the first time you saw his Statement of
3 Financial Condition was when you were preparing to testify in
4 front of the Attorney General during the investigation that led
5 to this action; is that correct?
6 A Correct.
7 Q It is in general not your practice to look at the
8 annual financial updates of your clients; is that correct?
9 A That's correct.
10 Q So during your time at Deutsche Bank, you were not
11 specifically aware that Mr. Trump was required to assert the
12 accuracy of his Statement of Financial Condition; is that
13 correct?
14 A Well, I know customers had to do that. All customers
15 had to do that.
16 Q Okay. And you have had an expectation that a
17 borrower like Mr. Trump would represent their financial
18 position fairly to the bank; is that correct?
19 A That's correct.
20 Q And that they would not include false or misleading
21 information in their presentations to the bank; is that
22 correct?
23 A That's correct.
24 MR. WALLACE: I have no more questions, Your
25 Honor.

Vrablik - by Defendant - Cross (Wallace) Page 5580

1 But I failed to move in Plaintiff's Exhibit
2 1129, so I ask that be moved into evidence.
3 MR. ROBERT: Exhibit what?
4 MR. WALLACE: 1129, the only one we introduced
5 with this witness.
6 MR. ROBERT: It is in.
7 MR. WALLACE: I didn't think it was in. No
8 objection?
9 MR. ROBERT: Objection, statute of limitations.
10 THE COURT: Overruled.
11 (Whereupon, the document referred to was deemed
12 marked for evidence as Plaintiff's Exhibit 1129 by
13 the Court.)
14 THE COURT: I have one quick question for the
15 witness. Is there a difference between a loan and
16 facility? If there isn't, why do they call loans
17 facilities?
18 THE WITNESS: A facility can be a line of credit
19 or a loan. And so a line would go up and down like your
20 credit card; and the loan would be a one-time loan.
21 THE COURT: Thank you. I have been wondering
22 for weeks now.
23 Any redirect?
24 MR. ROBERT: Just a second, Your Honor, please.
25 THE COURT: And I am curious, where do you work

Vrablik - by Defendant - Cross (Wallace) Page 5581

1 now, if you work?
2 THE WITNESS: I am retired. Happily.
3 THE COURT: Well, you won't have to face anymore
4 of these, I guess.
5 MR. SUAREZ: Your Honor, I failed to move in
6 Defendant's Exhibit 297. I would like to move that in.
7 MR. WALLACE: No objection.
8 THE COURT: Granted, it is in evidence.
9 (Whereupon, the document referred to was deemed
10 marked for evidence as Defendant's Exhibit 297 by the
11 Court.)
12 MR. SUAREZ: With that we have no further
13 questions.
14 THE COURT: Anything else by anybody?
15 You are free to go.
16 THE WITNESS: Thank you, sir.
17 (Whereupon the witness stepped down from the
18 stand and exited the courtroom.
19 THE COURT: Is Mr. Birney here?
20 MR. ROBERT: He should be coming in.
21 THE COURT: I meant in the building.
22 MR. ROBERT: He is, Your Honor.
23 COURT OFFICER: Witness entering.
24 (Whereupon the witness resumed the stand.)
25 THE COURT: Okay. Let's continue with the

Birney - by Defendant - Direct (Hernandez) Page 5582

1 cross -- the direct examination of Patrick Birney.
2 THE COURT: Please proceed.
3 MS. HERNANDEZ: Thank you, Your Honor.
4 CONTINUED DIRECT EXAMINATION
5 BY MS. HERNANDEZ:
6 Q Welcome back, Mr. Birney.
7 MS. HERNANDEZ: Nate, can we pull up PX-758,
8 please? And go to row 137.
9 Q And Mr. Birney, this is the same 2017 supporting data
10 we were walking through on -- Monday, I believe?
11 THE COURT: That sounds good.
12 I'll remind the witness he is still under oath.
13 I am sure he realizes that.
14 Q Mr. Birney, can you tell us a little bit about the 40
15 Wall Street property?
16 A It is an office and retail commercial real estate
17 building.
18 THE COURT: A little louder.
19 THE WITNESS: Sorry.
20 A Office and retail commercial real estate building in
21 downtown Manhattan.
22 Q And how did -- how was 40 Wall Street valued in 2017?
23 A Square footage was multiplied by a price per square
24 foot.
25 Q And where would you have obtained the information of

Birney - by Defendant - Direct (Hernandez) Page 5583

1 the square footage to value this property?
2 A In 2017?
3 Q Sure.
4 A Are you able to show me the backup for that year?
5 Q Sure I can.
6 MS. HERNANDEZ: Can we pull up PX-762?
7 I think we have copies over there.
8 (Handing)
9 Q Mr. Birney, do you recognize this document?
10 A Yes.
11 Q And what is this document?
12 A It is the backup to the supporting data spreadsheet
13 figures for 40 Wall Street.
14 Q And would you have sent this document to Mazars in
15 connection with the Statement of Financial Condition?
16 A Probably.
17 Q And what is the first -- excuse me.
18 MS. HERNANDEZ: Your Honor, I would like to move
19 in Plaintiff's Exhibit 762 into evidence.
20 THE COURT: It is in. Granted.
21 (Whereupon, the document referred to was deemed
22 marked for evidence as Plaintiff's Exhibit 762 by the
23 Court.)
24 Q What is the first page of this document, Mr. Birney?
25 A It is a list of recent downtown sales at this time.

Birney - by Defendant - Direct (Hernandez) Page 5584

1 Q And what do the highlights indicate on this page?
2 A The highlights indicate figures that were used in the
3 calculation of the 40 Wall supporting data spreadsheet
4 valuation.
5 Q And how were these figured used?
6 A An average price per square feet was calculated. And
7 then --
8 THE WITNESS: Can you pull up the spreadsheet?
9 MS. HERNANDEZ: Nate, can we pull them up side
10 by side, PX-758 and this document?
11 A The square footage was multiplied by the average
12 square foot -- sorry, average price per square foot.
13 Q And is that what is reflected on the side of the
14 exhibit on the left there in the adding?
15 A I don't understand the question. Sorry.
16 Q What is reflected on --
17 MS. HERNANDEZ: Could you scroll little bit to
18 the right on PX-762? Yeah.
19 Q What is reflected on the adding tape there?
20 A That calculation is reflected in the average price
21 per square foot.
22 Q And what is the second page of PX-762?
23 A It is where the square footage is coming from.
24 Q Where is the square footage coming from?
25 A The note says it is from the 40 Wall rent-roll.

Birney - by Defendant - Direct (Hernandez) Page 5585

1 Q And that's in your -- is that in your handwriting?
2 A Yes.
3 MS. HERNANDEZ: Okay. And so we are going to
4 now move to the Vornado Partnership on row 781 of the 758
5 native.
6 Q Could you briefly describe the Vornado Partnership
7 for us, Mr. Birney?
8 A Mr. Trump owns a 30 percent limited partnership
9 interest in two office buildings in New York and San Francisco:
10 One at 555 California Street and one at 1290 Sixth Avenue.
11 Q And how was the Vornado Partnership valued in 2017?
12 A In 2017?
13 Q Correct.
14 A Net operating income divided by cap rate, less debt,
15 and then multiplied by 30 percent.
16 MS. HERNANDEZ: And Nate, can we pull up PX-764
17 side by side with this document?
18 (Handing)
19 Q Mr. Birney, do you recognize PX-764?
20 A Yes.
21 Q What is that document?
22 A It is the backup to the 555 California Street section
23 of the supporting data spreadsheet.
24 Q And was that sent to Mazars?
25 A Yes.

Birney - by Defendant - Direct (Hernandez) Page 5586

1 MS. HERNANDEZ: Your Honor, I would like to move
2 Plaintiff's Exhibit 764 into evidence.
3 THE COURT: Granted, it is in.
4 (Whereupon, the document referred to was deemed
5 marked for evidence as Plaintiff's Exhibit 764 by the
6 Court.)
7 Q What does the star in the middle of the first page
8 indicate, Mr. Birney?
9 A It indicates that figure was used in the supporting
10 data spreadsheet for the calculation of the valuation for 555
11 California Street.
12 Q And what figure is being indicated with the star?
13 A 62,482,000.
14 Q And what is that figure?
15 A The operating income in -- for the year ending
16 December 31, 2016.
17 Q And was -- was that used in the valuation for 555
18 California Street in 2017?
19 A Yes.
20 Q And looking to page three and four of PX-764, what --
21 let's start with page three, what is page three of this
22 document?
23 A One of the sales that were used for the cap rate for
24 the valuation of 555 California Street.
25 Q And what is page four?

Birney - by Defendant - Direct (Hernandez) Page 5587

1 A The other sale that was used for the cap rate for the
2 valuation of 555 California Street.
3 MS. HERNANDEZ: And so if we can look at the
4 note on row 808 of PX-758?
5 Q What is being reflected by that note?
6 A Do you want me to just read the note?
7 Q You can read it or summarize what it is saying.
8 A 555 cap rate based on information provided by Brian
9 Hegarty and Michael Papagianopoulos of Cushman & Wakefield in
10 San Francisco, which contained comps for Class A office
11 buildings. Cap rates for these buildings were 3.7 percent and
12 3.9 percent for an average of 3.8 percent.
13 Q And that's reflected in the backup of the two pages
14 we just looked at of PX-764? Right?
15 A Yes.
16 MS. HERNANDEZ: Nate, if you could replace
17 PX-764 with PX-765?
18 (Handing)
19 Q Mr. Birney, have you seen PX-765 before?
20 THE WITNESS: Can you scroll out on the
21 spreadsheet a little bit, or up?
22 A Yes.
23 Q What is PX-765?
24 A The backup to the supporting data spreadsheet for
25 1290 Avenue of the Americas.

Birney - by Defendant - Direct (Hernandez) Page 5588

1 Q And was PX-765 sent to Mazars in connection with the
2 Statement of Financial Condition?
3 A Yes.
4 MS. HERNANDEZ: Your Honor, I would like to move
5 Plaintiff's Exhibit 765 into evidence.
6 THE COURT: Granted, it is in.
7 MS. HERNANDEZ: Thank you.
8 (Whereupon, the document referred to was deemed
9 marked for evidence as Plaintiff's Exhibit 765 by the
10 Court.)
11 Q So what do the stars and highlights indicate there on
12 PX-765?
13 A They indicate those figures were used in the
14 calculation of the net operating income.
15 Q And what -- where did this document come from?
16 A I think it came from Vornado.
17 Q Sorry, I didn't hear your answer.
18 A From Vornado.
19 Q And what is it?
20 A What is what?
21 Q What is this from Vornado?
22 A It is a cash flow report or an income statement for
23 1290 Avenue of the Americas 4/20/16.
24 Q And so why would you have sent this to Mazars?
25 A Because it was used in the valuation of 1290 Avenue

Birney - by Defendant - Direct (Hernandez) Page 5589

1 of the Americas in 2017.
2 MS. HERNANDEZ: Okay. So, we are going to move
3 to the Las Vegas property now on the spreadsheet, which is
4 row 821.
5 Q How was the Las Vegas property in general valued in
6 2017?
7 A There were a few components. There was a value of
8 the remaining unsold units. There was a development of fee.
9 And there was distributable income that were added up for the
10 ultimate value.
11 MS. HERNANDEZ: Okay. And then looking to
12 PX-766.
13 (Handing)
14 Q Have you seen Plaintiff's Exhibit 766 before?
15 A Yes.
16 Q What is Plaintiff's Exhibit 766?
17 A It is the backup to the value of remaining unsold
18 units that was used in the valuation of TIHT, Las Vegas in
19 2017.
20 Q And was this document sent to Mazars?
21 A Yes.
22 MS. HERNANDEZ: Your Honor, I would like to move
23 Plaintiff's Exhibit 766 in evidence.
24 THE COURT: Granted, it is in.
25 (Whereupon, the document referred to was deemed

Birney - by Defendant - Direct (Hernandez) Page 5590

1 marked for evidence as Plaintiff's Exhibit 766 by the
2 Court.)
3 Q So what does the red box on that first page indicate?
4 A It reads: This work paper is based on the sales
5 units as of October 1, 2017. Since the proceeds of the sales
6 of each unit are used to pay down the outstanding loan, the
7 client value as of this date is deemed to be un-- deemed to be
8 reasonable.
9 Q And who would have written that note?
10 A I don't know who wrote that note.
11 Q Did you write that note?
12 A I did not write that note.
13 Q In your experience, would Mazars have added notes to
14 the supporting data as they reviewed them?
15 A Can you repeat the question, please?
16 Q In your experience, would Mazars have added notes to
17 the backup to the supporting data when reviewing them?
18 A It is possible.
19 Q Do you have any reason to think this wasn't a note by
20 Mazars?
21 A To me it seems like it was a note from Mazars.
22 Q And why do you say that?
23 A Because it refers to the client value, and Trump was
24 a client of Mazars.
25 Q So moving on from the note now. Why would you have

Birney - by Defendant - Direct (Hernandez) Page 5591

1 sent Mazars the remaining units and inventory for the Las Vegas
2 property?
3 A Because it was used in the valuation of Las Vegas in
4 2017.
5 MS. HERNANDEZ: And going to page three of
6 PX-766.
7 Q What is this e-mail chain?
8 A It is an e-mail chain that begins with me asking
9 Jennifer Cook to send a current list of unsold units, including
10 individual unit prices at that time.
11 Q Who is Jennifer Cook?
12 A The operations manager and sales executive of Trump
13 International Realty and Trump Las Vegas.
14 Q Why did you have to ask Ms. Cook for this
15 information?
16 A Because I didn't have it.
17 Q Why would you have had it?
18 A Because I would have asked Jeff if he had it. And
19 Jeff would have probably said no, and reach out to Jennifer
20 Cook, who does have it.
21 MS. HERNANDEZ: Okay. So now we are going to
22 look at the triplex property, which is row 969.
23 Q Mr. Birney, can you describe how the triplex was
24 valued in 2017?
25 A Can you scroll up, please?

Birney - by Defendant - Direct (Hernandez) Page 5592

1 MS. HERNANDEZ: Scroll up to where you see the
2 year.
3 THE WITNESS: Just down a couple of rows,
4 please. Up a couple of rows, please.
5 A Can you repeat the question?
6 Q Sure. How was the triplex valued in 2017?
7 A Square footage times price per square foot.
8 Q And how does the valuation in 2017 differ from the
9 valuation in 2016?
10 A It is a lot less.
11 Q Why is that?
12 A Because the inputs are different, specifically the
13 square feet.
14 Q And why was the square footage different in 2017?
15 A Because there was an article written that said
16 Mr. Trump's triplex is less than he is saying it is. And we
17 looked into that and confirmed that it was actually 11,000
18 square feet.
19 THE COURT: Five minutes.
20 I am sorry. Go ahead.
21 A So we -- and so we updated the square footage on the
22 supporting data spreadsheet.
23 Q Who looked into verify the accurate square footage?
24 A It was either Jeff McConney or Allen Weisselberg who,
25 I think, asked Stephanie Lennig to look into the square footage

Birney - by Defendant - Direct (Hernandez) Page 5593

1 of the condo owned by Mr. Trump. And there is a piece of paper
2 used in the backup that verifies the square footage is 10,996.
3 Q We will get to that, the backup.
4 Was that article and those conversations the first
5 time you became aware that the square footage was 10,996 square
6 feet?
7 MR. WALLACE: Objection, leading.
8 THE COURT: Sustained.
9 Q When was the first time you became aware of the
10 10,996 square footage being the right square footage?
11 A When Stephanie Lennig confirmed it.
12 (The following proceedings were stenographically
13 recorded by Senior Court Reporter Michael Ranita.)

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5594

1 MS. HERNANDEZ: And so, we are just going to pull
2 up Plaintiff's Exhibit 767. And this is already in
3 evidence.
4 (Whereupon, the exhibit was displayed on the
5 screen.)
6 Q You mentioned Stephanie Lennig confirmed it. What does
7 that note on the first page of 767 reflect?
8 A It shows the square footage is, for the units added up,
9 for a combined square footage of 10996.39.
10 Q And who -- I guess, who made this note?
11 A I really don't know. I think it was Stephanie Lennig.
12 Q And was this note sent to Mazars?
13 A Yes.
14 MS. HERNANDEZ: I think that's a good place for a
15 break.
16 THE COURT: Okay. It's time. All right.
17 MR. WALLACE: Your Honor, if we are about to break.
18 I just want to say, no objection to the lines of
19 questioning, but we are happy to stipulate to the entry of
20 the supporting information for the spreadsheets, to the
21 extent, you know, not trying to cut off any lines of
22 questioning, but we are happy to stipulate to the entries of
23 some of these documents, if part of what this witness is
24 testifying to is just to, you know, get documents in
25 evidence. We are happy to do stipulations.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5595

1 MS. HERNANDEZ: Thanks, Mr. Wallace, we'll take
2 that into consideration at the break.
3 THE COURT: Ten-minute break. See you all at 3:35.
4 THE COURT OFFICER: All rise.
5 (Whereupon, the witness stepped down from the
6 witness stand.)
7 (Whereupon, a 10-minute break was agreed upon and
8 taken by all parties.)
9 THE COURT OFFICER: All rise. Part 37 is back in
10 session. Please be seated and come to order.
11 THE COURT: Witness.
12 MR. ROBERT: I think this a record. We can agree
13 on a total of three things today, which is good.
14 I think the deal that we've made, and I'll let
15 Mr. Wallace confirm it, is that we will -- later tonight
16 Ms. Hernandez will send a list of the documents that we
17 believe constitutes the backup that this witness would have
18 authenticated to put into evidence. The Attorney General
19 will then review it. If they have anything else that they
20 want to add, there may be some discussion. We may have to
21 bring Mr. Birney back for that limited purpose; we are
22 hoping not to.
23 So in exchange for that agreement, Ms. Hernandez
24 has a few more questions to ask Mr. Birney, and we would be
25 done for the day.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5596

1 THE COURT: Is this the Christmas spirit or
2 something?
3 MR. ROBERT: Let's use that momentum and keep it
4 going forward.
5 MR. WALLACE: As Mr. Robert described, that is
6 acceptable to the Attorney General.
7 I did have one other housekeeping item that I
8 wanted to raise apart from that, but I don't want to cut
9 off --
10 MR. ROBERT: No, please.
11 THE COURT: Go ahead.
12 MR. WALLACE: The last part is, I failed to object.
13 We wanted to move to strike the second half of one of
14 Mr. Birney's answers when he was asked about who made the
15 notes on Plaintiff's 767. He said, "I really don't know."
16 And then said, "I think it was Stephanie Lennig." And so we
17 wanted to strike the answer that came after -- after "I
18 don't know."
19 THE COURT: I'm tempted to do that. Mr. Robert, we
20 don't allow speculation. If you don't know, you don't know.
21 MR. ROBERT: Let's have Ms. Hernandez ask one more
22 time, and if it's any confusion, the answer is the same way,
23 I can't fight with Mr. Wallace's objection.
24 THE COURT: Let's get the witness.
25 MR. ROBERT: Please, sir.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5597

1 THE COURT OFFICER: Witness entering.
2 (Whereupon, the witness stepped into the witness
3 stand.)
4 MR. WALLACE: Your Honor, I'm being informed that I
5 believe the testimony that I objected to is already in the
6 record from the previous time that Mr. Birney testified, so
7 I'll just withdraw the objection.
8 MS. HERNANDEZ: You beat me to that.
9 MR. ROBERT: I'll accept that withdrawal in the
10 spirit of cooperation.
11 THE COURT: Anymore questions? How long do you
12 plan to --
13 MS. HERNANDEZ: Fifteen minutes.
14 THE COURT: Whatever it takes.
15 MS. HERNANDEZ: All right.
16 Q Mr. Birney, do you recall the Attorney General
17 questioning you about a presidential premium a few weeks ago?
18 A Yes.
19 Q What was the "presidential premium"?
20 A It was a percentage being added onto the assets
21 between, I think, 25 and 40 percent, um, to increase the value
22 of the assets.
23 Q And did the presidential premium ever make it into the
24 final Statement of Financial Condition?
25 A No.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5598

1 Q What was the internal practice in considering different
2 valuation methodologies for the Statements of Financial
3 Condition?
4 A Can you repeat the question.
5 Q Sure. What was the internal practice in considering
6 different valuation methodologies in the Statements of Financial
7 Condition?
8 A It depended on the year. It depended on the asset. I
9 would typically start with how we valued something in the
10 previous year and pull that information together, and then I
11 would discuss that draft of the information with either Jeff
12 McConney and/or Allen Weisselberg. We would discuss it. We
13 would discuss options. Again, it depended on the year; it
14 depended on the asset.
15 Q Were there various drafts every year of the Statement
16 of Financial Condition support data?
17 A Yes.
18 Q Okay.
19 And so, we walked through some of the support data and
20 backup for 2017. How, if at all, did this process of submitting
21 support data with accompanying backup change, for the years 2018
22 to 2020, that Mazars was compiling the Statement of Financial
23 Condition?
24 A Can you repeat the question, please.
25 MS. HERNANDEZ: Can I get a read back of that one.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5599

1 THE COURT: Read back, please.
2 (Whereupon, the requested question was read back by
3 the court reporter.)
4 THE COURT: Is the question, how is 2018 to 2020
5 different from 2017?
6 MS. HERNANDEZ: If at all.
7 THE COURT: Okay.
8 A The only major difference I could think of as we
9 started sending Mazars information through a portal instead of
10 via e-mail.
11 Q Okay.
12 And did the process change at all with Whitley Penn in
13 2021?
14 A I don't think so. There was a different portal being
15 used.
16 Q What was the first year you recall discussing the
17 Statement of Financial Condition with Eric Trump?
18 A 2021.
19 Q And what was the first year you recall discussing the
20 Statement of Financial Condition with Donald Trump, Jr?
21 A 2021.
22 Q And Mr. Birney, do you recall any instance where The
23 Trump Organization did not provide any information or
24 documentation that Mazars requested?
25 MR. WALLACE: Objection.

P. Birney - by Defense - Direct (Ms. Hernandez) Page 5600

1 Foundation as to the whole Trump Organization as
2 opposed to this witness.
3 MS. HERNANDEZ: It's his recollection and his
4 knowledge.
5 THE COURT: Overruled.
6 A Can you ask the question again, please.
7 MS. HERNANDEZ: Can I get a read back?
8 THE COURT: It was a simple question, but read
9 back, please.
10 MS. HERNANDEZ: Thank you.
11 (Whereupon, the requested question was read back by
12 the court reporter.)
13 A No.
14 Q And do you recall any instance where The Trump
15 Organization did not provide any information or documentation
16 that Whitley Penn requested?
17 A No.
18 Q In general, did you provide Mazars with all of the
19 relevant information you used in preparing the Statement of
20 Financial Condition?
21 A Yes.
22 Q And did you provide Whitley Penn with all of the
23 relevant information you used in preparing the Statement of
24 Financial Condition?
25 A Yes.

Proceedings Page 5601

1 Q Were you ever directed to increase a number without
2 there being a basis to support that increase for the Statement
3 of Financial Condition?
4 A No.
5 MS. HERNANDEZ: No more questions, your Honor.
6 THE COURT: Okay. Any cross?
7 MR. WALLACE: Nothing further for this witness,
8 your Honor.
9 THE COURT: Okay. The witness is excused. Thank
10 you.
11 (Whereupon, the witness stepped down from the
12 witness stand.)
13 THE COURT: Are defendants able to call their next
14 witness?
15 MR. ROBERT: No, your Honor. We are going to start
16 tomorrow morning, with the court's permission, with our
17 expert, Mr. Unell.
18 I've already spoken to Mr. Wallace and advised that
19 we hope to finish his direct in a full day. It would
20 certainly go into what I call "the third quarter" the way we
21 have things in our own mind, but it may go the whole day.
22 So that way they can plan accordingly for their cross
23 examination.
24 THE COURT: AG, any issues with that?
25 MR. WALLACE: I mean, I don't think there's a

1 witness. I understand the defendants don't have a witness
2 available, so.

3 THE COURT: So it doesn't matter. We get a break.
4 Okay, class dismissed.

5 MR. ROBERT: I feel like it's a snow day. Thank
6 you, your Honor.

7 THE COURT: See you all at 10:00 tomorrow.

8 MR. ROBERT: Thank you, sir.

9 (Whereupon, the case on trial was adjourned to
10 Thursday, November 30, 2023 at 10:00 a.m.)

Michael Ranita
Michele Panteloukas
Senior Court Reporters

1 THE COURT OFFICER: All rise. Part 37 is now in
2 session. The Honorable Judge Arthur Engoron presiding.
3 Make sure all cell phones are on silent. Laptops and cell
4 phones will be permitted, but only to members of the press.
5 There's absolutely no recording or photography of any kind
6 allowed in the courtroom. Now be seated and come to order.

7 THE COURT: Would defendants like to call their
8 next witness?

9 MR. WALLACE: Apologies, your Honor, but plaintiffs
10 had a couple of housekeeping issues we wanted to raise.

11 THE COURT: Okay.

12 MR. WALLACE: And we are springing this on the
13 defendants a little bit, but I wanted to talk about the
14 scheduling for the week of December 11th, which is currently
15 scheduled for Mr. Trump's testimony, which I believe will be
16 the last witness for the defendants.

17 I think our view is is that to the extent
18 plaintiffs have any rebuttal case, it could be presented on
19 the 12th. I think it would, at most, be two witnesses, both
20 of whom --

21 THE COURT: Just be one day.

22 MR. WALLACE: One day. Each witness would be an
23 hour or less, would be our expectation, but that depends on
24 a little bit what we here from Mr. Bartov on the seventh and
25 eighth. That would be our expectation. So we could propose

1 that closing arguments be held on the 13th and that we
2 follow the process we did on openings, with 90 minutes for
3 the government and two hours for the defense, with leave for
4 them to ask for more time, if needed, since they are
5 sharing.

6 THE COURT: Go ahead.

7 MR. KISE: So Mr. Robert, as you know, is the CPLR
8 expert and/or procedural. One thing that we had thought
9 about proposing the Court, which in a case like this seems
10 to make, at least to me, and I'll let Mr. Robert speak.

11 THE COURT: Yes.

12 MR. KISE: It seems to make, at least to me, far
13 more sense is for us to provide our posttrial submissions
14 simultaneously, and then after the Court has a chance to
15 look at those, we would come back for argument on those and
16 you could provide -- Mr. Robert will do a better job on this
17 than me. I'm sure in the interim you could provide us
18 questions that you want us, after you've seen both parties'
19 submissions. In most bench trials, for what it's worth,
20 that I've ever handled have been done that way, where
21 because a closing right after we are done with the evidence
22 on a two-month trial, it's not like there is a jury here.
23 You've got what's going to be probably a 9,000 page record.
24 There's just an awful lot of ground to cover. I mean we can
25 certainly make arguments on the 13th. I just don't know,

1 frankly, how productive they would be for the Court, because
2 we are all just going to be saying things that -- that are
3 sort of in brief as opposed to you having the opportunity to
4 review everything.

5 I'll let Mr. Robert speak to the practice here in
6 New York, but that's certainly been my practice.

7 MR. ROBERT: My experience has been, I don't think
8 I've ever had a closing argument after the close of evidence
9 in a bench trial, ever, in New York. Usually what I have
10 seen, or probably on almost every instance, if not every
11 instance, we prepare conclusions of law and the summary of
12 our facts as we see them, usually like a 60-day window after
13 the trial we submit it to the Court, both in a word version
14 as well as in a PDF, or however the Court wants it.

15 And then what I've seen happen in the Commercial
16 Division very often is after that submission, let's say the
17 Court gives you 60 days to submit that. The Court will then
18 analyze it and review it, as Mr. Kise said, since there's
19 simultaneous submissions, there's no reply to it, but then
20 the Court sets a time for what I'll call slash oral
21 argument/closing, at which point sometimes the Court will
22 send questions to the parties ahead of time to focus on.
23 And also that's an opportunity to respond to the other
24 side's submission.

25 So I think a closing, per se, like you would have

1 in a jury trial just wouldn't fit in a trial like this.
2 It's certainly not something that we contemplated, because
3 we figured it would be the normal route of a bench trial,
4 which is findings of fact, conclusions of law, a period of
5 time then, after that, and then make a formal presentation
6 to the court.

7 So I guess at this point, whatever Mr. Wallace is
8 saying, what I would ask for is when the close of evidence
9 closes, that the Court then give us 60 days or so to submit
10 it to the Court, and we could put a date on the calendar at
11 that point, or now, as to when the Court would want us to
12 come back to argue that. And then obviously, totally up to
13 the Court, whether you want to key us to certain issues you
14 want us to specifically answer at that argument date.

15 MR. KISE: We'll also, of course, have to have time
16 for another directed verdict motion.

17 THE COURT: Well, good luck with that.

18 MR. WALLACE: I'll say, your Honor, I have done
19 closings in bench trials in this courthouse in matters where
20 there is public interest, and people have a desire to hear
21 both sides summarize the case. So I don't know that there's
22 a typical process. I do think it is typical, often not, to
23 have openings or closings in bench trials, but, you know,
24 each judge does as they see fit.

25 I certainly don't think we need 60 days to prepare

1 a posttrial briefing. This case has been extensively
2 briefed and argued by all sides. Everyone is familiar with
3 the record. I think -- we think a two-week period after the
4 close of evidence is more than sufficient. I don't know
5 that we have an objection to having an argument on -- after
6 simultaneous briefing in lieu of closing, but I think
7 60 days, so stretching this out into, I guess, February at
8 some point doesn't make sense from our perspective, but in
9 terms of process, no objection from us to close the
10 evidence, submit our findings of fact and conclusions of
11 law, and if the Court wants argument, we could do argument.

12 MR. KISE: So the only thing I'll add, and I'll let
13 Mr. Robert add, if your Honor is not interested in 60 days,
14 I would try and maybe find somewhere between two weeks and
15 60 days, because the two weeks, as you know, happens to
16 fall, most particularly on my birthday, but sort of the end
17 of the year where it's going to be pretty compressed for
18 everyone, particularly having been for those of us that have
19 been a way for quite some time.

20 So if you are not interested in 60, which I think
21 is a reasonable time period, but I understand the Court may
22 have a different view, certainly something beyond the
23 two-week period, maybe two weeks into January, maybe 30 or
24 45 days as opposed to -- and then the entire process would
25 be wrapped up by the last week of January if we did that.

1 We wouldn't be into February, as Mr. Wallace is saying, and
2 I understand what he is saying.

3 Keep in mind, also, that we do have, as we've had
4 for 14, 15 months now, there's no public exigency because
5 there is a monitor in place. Everything is still operating
6 pursuant to the Court's direction and supervision.

7 THE COURT: Give me one second. Okay. That's a
8 second. I like the idea of the briefs then the argument;
9 there seems to be an agreement on that. Two weeks seems
10 very short and a month seems very long -- two months seems
11 very long. I feel like -- what is the -- Goldilocks and the
12 Three Bears; too hot, too cold, just right. So we'll come
13 up with a just right. Let me sit on this. Obviously we
14 have time. I think we'll all come to an accommodation.

15 Mr. Wallace.

16 MR. WALLACE: So two additional issues. These
17 relate to expert testimony. First, tomorrow, in addition to
18 our renewing our motion to preclude Mr. Shubin, we are also
19 going to renew our applications to Mr. Moens. So these are
20 two witnesses who both deal with Mar-a-Lago. We already
21 submitted our briefs on this. We are not going to submit
22 any new briefing, but we'll just raise it when we make the
23 motion tomorrow.

24 THE COURT: Okay.

25 MR. WALLACE: The other issue we wanted to raise is

1 the -- we received a number of updates last night to
2 Mr. Unell's opinions in this matter. And we do not think
3 that they have been timely disclosed and that they should
4 not -- should not be allowed to include these opinions. In
5 particular -- can we put up defendant's demonstrative
6 Exhibit 5.

7 (Whereupon, the exhibit was displayed on the
8 screen.)

9 MR. WALLACE: So this is a chart that I believe is
10 an adjustment that Mr. Unell prepared on the calculations
11 prepared by Mr. McCarty. We got this last night around 9:30
12 at night -- Mr. Unell is here, maybe he should not --

13 THE COURT: Oh.

14 MR. WALLACE: -- be in the courtroom while we are
15 testifying. Sorry, sir.

16 (Mr. Unell exited the courtroom.)

17 MR. WALLACE: We'll talk about him behind his back.

18 MR. SUAREZ: It was 7:47 p.m.

19 MR. WALLACE: Maybe it felt like 9:30.

20 MR. SUAREZ: I could see why.

21 MR. WALLACE: So I was just going to say that the
22 -- well, let me see if I could -- it appears to now
23 calculate interest differential based on a 25 basis points
24 increase. I assume this is due to a guarantee. It appears
25 that this is based on testimony from Mr. Williams about an

1 adjustment on the Doral loan in 2015.

2 The testimony simply confirmed what's in the
3 documents that the defendants have had the entire time. The
4 defendants could've prepared this rebuttal to Mr. McCarty as
5 part of Mr. Unell's expert rebuttal report. Those were due
6 in June. So for them to now introduce this the night before
7 he's going to testify, um, is untimely and inappropriate.
8 So we think the demonstrative and the new opinions should be
9 struck.

10 MR. KISE: So, your Honor, a couple of things, and
11 Mr. Robert may have things to add.

12 First of all, the supplement --

13 THE COURT: Mr. Kise, it might be easier if you sat
14 or just --

15 MR. KISE: I'll hold it up here. Usually no one
16 has a problem. Maybe I'm in a calm mood today. Usually
17 they could hear me without the microphone.

18 So a couple of items on this. First of all, I
19 believe the government, I'm pretty sure 11:00 on a Friday,
20 before Mr. McCarty took the stand on Monday, provided a
21 supplemental report as well, for Mr. McCarty, which modified
22 his opinions to take into account events subsequent to his
23 initial opinions. So back to the goose/gander proposition.
24 Um, that's one, but I don't think necessarily controls,
25 although it's certainly in our favor.

1 Two, if you look at Mr. Unell's report, he spends a
2 considerable amount of time talking about the pricing of the
3 loans and Mr. McCarty's analysis, and so on and so forth.
4 So for him to now make observations -- this is a
5 demonstrative exhibit. It's not being introduced as
6 substantive evidence. It's just a demonstrative. For him
7 to now make observations about documents in the record, he's
8 reviewed all these documents before. He's not limited to
9 the words that are exactly in the page. No expert is. It's
10 the subject matter. He's fully covered on the subject
11 matter about the pricing of the -- the loans about
12 Mr. McCarty's analysis. And every expert is entitled to --
13 to adjust based on what is presented at trial and make
14 comments on what is presented at trial, and to offer
15 rebuttal to what is presented at trial, as long as it's
16 within the scope of the initial opinion.

17 And so if you look at pages -- I mean, there's so
18 many pages here in this report. This would be Mr. Unell's
19 June 30th report, just this one. Starting on pages six and
20 going through 7, 8, 9, 10, I mean, there's all manner of
21 discussion throughout this report about the credit pricing,
22 the loan pricing, Mr. McCarty's then analysis, different
23 from Mr. McCarty's analysis now, because as you heard me
24 say, they changed their theory of the case. So
25 Mr. McCarty's analysis is now morphed to fit that theory.

1 His original analysis was based on the loans, and
2 now much of it was based on the certifications. And so just
3 like they have done in terms of their numbers, we are doing
4 the same thing. We are just challenging that analysis, and
5 we are challenging his fundamental assumptions.

6 We don't -- as long as we've covered the subject
7 matter, they were certainly free to ask in his deposition
8 about the subject matter and so forth. So I don't know --
9 again, I'll let Mr. Robert speak to New York specific
10 issues, but all of this is covered, the subject matter and
11 the scope, abundantly. The supplemental report wasn't even
12 necessary. We did it more as an accommodation to them so
13 that they would have a better understanding.

14 The demonstrative exhibit is just that. It's a
15 demonstrative exhibit, and we are entitled to allow the use
16 of demonstrative exhibits. It's not substantive evidence.
17 And they could fully explore on cross examination.

18 The same documents that were available to us and
19 Mr. Unell are also available to the government. So I don't
20 see any prejudice, any basis to exclude any testimony in
21 that regard.

22 MR. ROBERT: Just echoing on what Mr. Kise said,
23 the government, as it was the business day before, sent us a
24 supplement where they, as Mr. Kise said, changed, in theory,
25 of what Mr. McCarty was going to testify about. This is

1 just our expert with a demonstrative exhibit commenting on
2 the events that have happened in the testimony that came out
3 during the trial.

4 So, again, we could've very easily just had the
5 witness testify with it without incident. Candidly, we have
6 this rule where we have to exchange demonstratives the night
7 before, which is what we did, just as they did. They did
8 more than that. They changed the substance of it the night
9 before, and our expert is free to be able to comment on it
10 and comment on the testimony that he heard or that he read
11 about from Mr. Williams and others during the course of the
12 trial. So I truly think this a nonissue.

13 THE COURT: A few words.

14 MR. WALLACE: So, your Honor, I'll say the change
15 in opinion is nothing of the kind. On the left is the
16 demonstrative that we produced the night before. On the
17 right is the demonstrative that was contained in
18 Mr. McCarty's opening report produced on May 30th of this
19 year. And what he did is he eliminated interest for 2012
20 and 2013, and then extended for the amount of time that it
21 continues from his report in May until the time of his
22 testimony in November. You'll see this calculations remain
23 the same. He is using the same process. He is using the
24 same calculation to come up with a disgorgable amount.

25 The defendants --

1 THE COURT: I was going to say, I'm more interested
2 in what you think they are doing than what they think you
3 are doing.

4 MR. WALLACE: So let's pull up, if we could, DD5,
5 which is their new opinion.

6 (Whereupon, the exhibit was displayed on the
7 screen.)

8 MR. WALLACE: If we could just have DD5 alone. So
9 the 25 plus basis points, I assume, is their now opinion
10 that this is the pricing difference between a loan with a
11 guarantee and a loan without a guarantee. And I challenge
12 anyone to find somewhere in their expert reports an opinion
13 -- in Mr. Unell's expert reports from May and June, an
14 opinion that the pricing difference between a loan with a
15 guarantee, and a loan without a guarantee is 25 basis
16 points. It's not in there. And I don't think this is
17 just -- you know, it's the subject matter. And we need to,
18 um, you know, inquire of him if his opinion is -- his
19 reports are more than a hundred pages. So to say, well, he
20 is discussing the topics and so the topics are fine. They
21 had the report from Mr. McCarty. If his opinion was that
22 Mr. McCarty had priced the interest difference improperly,
23 and that the proper basis was to use 25 basis points, he
24 should have disclosed it in the rebuttal report in June. We
25 could have deposed him about it. We could've had our own

1 experts look at it. We could have spent the last five
2 months thinking about it. Instead we get it the night
3 before.

4 I would say there's nowhere in the reports that
5 says the price difference between a guaranteed loan and
6 unguaranteed loan is 25 basis points. It's not in there.

7 THE COURT: Nevertheless, plaintiff's objection is
8 overruled. There's no jury. Let's just hear the evidence.
9 You could question him on his conclusions. So --

10 MR. WALLACE: I would just note, your Honor, that
11 the issue isn't just cross examination, the issue is notice.
12 And we agreed to a process where we were supposed to have
13 notice of everything the experts thought by the end of June.
14 That was -- extra time was provided at the defendant's
15 request because they were going to need to build in so much
16 in their rebuttal reports, and we would then have a chance
17 to examine, in detail, over seven hours, the expert's
18 opinions. I guess we'll do it live now. It's not a
19 question of do we get to examine the witness. It was a
20 matter that we were supposed to have notice of his opinion
21 many months ago.

22 THE COURT: I understand that. I'm not justifying
23 or accepting everything defendants position is, but I'm
24 letting it in, so.

25 MR. WALLACE: Understood, your Honor.

1 MR. SUAREZ: The defense calls Robert Unell.

2 THE COURT OFFICER: Witness entering.

3 (Whereupon, the witness stepped into the witness
4 stand.)

5 THE COURT OFFICER: Please raise your right hand.

6 (The witness complied.)

7 THE COURT OFFICER: Do you solemnly swear or affirm
8 that any testimony you give will be the truth, the whole
9 truth and nothing but the truth?

10 THE WITNESS: I do.

11 THE COURT OFFICER: Please have a seat.

12 THE WITNESS: Thank you.

13 R O B E R T E V A N U N E L L, called by and on behalf
14 of the Defendant, having been first duly sworn, was examined and
15 testified as follows:

16 THE COURT OFFICER: State your name and either home
17 or business address for the record.

18 THE WITNESS: Robert Evan Unell. 5470 East
19 Idlewood Lane, Atlanta, Georgia.

20 DIRECT EXAMINATION

21 BY MR. SUAREZ:

22 Q Mr. Unell, good morning.

23 A Good morning.

24 Q Please describe your educational background after high
25 school.

1 A Yes. I attended the University of Georgia where I
2 majored in real estate, which is part of the Terry College of
3 Business. I graduated in 2000, and then subsequently went to go
4 into the workforce.

5 Q What did you study at the University of Georgia College
6 of Business?

7 A In the Terry College of Business, I majored in real
8 estate, which is a program that combines the risk management
9 side as well as finance and practical real life real estate
10 experience and development.

11 Q Where did you work after you graduated from the
12 University of Georgia?

13 A I began my career at Wachovia Bank, and was there
14 until the merger with First Union. I then went to Bank of
15 America, and I spent approximately 12 years there, or so, at
16 Bank of America in the Commercial Real Estate Finance Group, as
17 well as the Credit Risk Management Group of Special Assets,
18 which handled real estate, specifically.

19 Q Let's go back to your time at Wachovia. What was your
20 title at Wachovia?

21 A I started out as analyst, and then eventually rose to
22 title of AVP, assistant vice president, but I'm not certainly of
23 the exact title.

24 Q What was your job function at Wachovia?

25 A At Wachovia, I began in the underwriting process of

1 commercial real estate loans, and income producing, as well as
2 homebuilder. And then eventually moved into the relationship
3 management side of it, which would encompass more of the
4 structuring of the deals, the client management, and the overall
5 relationship with the entire bank.

6 Q And how did your responsibilities change when you moved
7 over to Bank of America, if at all?

8 A The responsibilities when I first moved over to Bank of
9 America did not change because I was hired as a relationship
10 manager and managed a portfolio of builders, developers and
11 commercial real estate developers. And in approximately late
12 2007 to early 2008, I was asked to move over to the Real Estate
13 Special Assets Group, which was a function of Credit Risk
14 Management, and was done in conjunction with the downturn in the
15 commercial real estate markets. In that role I performed
16 analysis and review and restructuring of deals that were in
17 default or were stressed.

18 Q And while at Bank of America, what industries did you
19 service?

20 A I serviced the commercial real estate industry,
21 homebuilders -- homebuilders, cash flowing properties, as well
22 as construction.

23 Q What type of deals did you work on when you were at
24 Bank of America?

25 A At Bank of America I worked on deals that were as small

1 as two and a half million dollars up to large syndicated
2 facilities upwards of \$500 million plus, encompassing all
3 aspects of real estate collateral.

4 Q And what role, specifically, did you have on those
5 deals?

6 A On those deals, both as a relationship manager and in
7 the Credit Risk Management side at Special Assets, I was
8 involved in the structuring, underwriting. And then as a Credit
9 Risk Management side at Special Assets, I also did have a
10 signatory for a small approval authority.

11 Q What training, if any, have you received in the private
12 sector?

13 A In the private sector. So at Wachovia, there was not
14 necessarily a formal training program, but I shadowed senior
15 lenders. I took classes that were internal as it related to
16 risk as is related to financial underwriting. And the same at
17 Bank of America with continuing education that was required,
18 both from a compliance perspective, as well as continuing to
19 refine tools for underwriting and other trends in commercial
20 real estate.

21 Q After you left Bank of America, where were you
22 employed?

23 A Alvarez & Marsal.

24 Q What responsibilities did you have at Alvarez & Marsal?

25 A At Alvarez & Marsal, I was part of the REAS Group,

1 which is Real Estate -- I don't know what it stood for. It was
2 the real estate group at Alvarez & Marsal.

3 The practice there consisted of a multitude of things.
4 We liked to say we would take a real estate and we were able to
5 go from essentially cradle to grave, which means from the
6 beginning on the cradle side, um, we assisted multiple national
7 lenders, both on the CMBS and the balance sheet side, with their
8 underwriting, their valuation management, um, and we also have
9 done a lot of advisory work for developers and real estate
10 professionals.

11 And then also a tremendous amount of restructuring
12 work, which involved, both from a lender perspective and a
13 developer/borrower perspective of analyzing loans that were in
14 distress or already in default.

15 Q What is the difference between your experience on CMBS
16 loans and balance sheet loans?

17 A CMBS loans are nonrecourse loans that are originated
18 by, typically, investment banks. They are then bundled up and
19 securitized with other similar loans, or sometimes they are done
20 what's called a "single asset" or "single borrower." That would
21 be for a large asset. And they are a commoditized, very kind of
22 fit in the box. If it doesn't fit in the box, move on. And
23 that's because when they do bundle them together, they like to
24 bundle similar assets so that they have similar cash flows and
25 can also minimize risk through a multitude of diversified

1 assets.

2 Q Please elaborate on your experience working on loan
3 restructuring?

4 A Loan restructuring can take on a multitude of different
5 kind of looks. We worked on primarily assets that were already
6 in default. They may not have been noticed of default, but
7 there was an inherent risk of loss for the bank.

8 At that time those assets are transferred over to the
9 Special Assets Group where we are trained and able to
10 restructure deals, analyze deals, and assist in trying to come
11 to a satisfactory agreement to restructure the loan on terms
12 satisfactory, not only to the borrower, but also to the lender.
13 And often times that worked out, and often times it did not.

14 If it did not, role also included the exercising of
15 remedies to include foreclosure, as well as collection on
16 guarantees and enforcement of other loan documents.

17 Q What industries did you serve at Alvarez & Marsal?

18 A Strictly commercial real estate.

19 Q What was your title at Alvarez & Marsal?

20 A I started as a director, and when I left I was a senior
21 director.

22 Q And how did your responsibilities change from director
23 to senior director, if at all?

24 A They did not change.

25 Q When did you leave Alvarez & Marsal?

1 A Approximately five years ago or four and a half years
2 ago. Myself and several colleagues left and we established the
3 real estate practice at Ankura.

4 Q And what is your title at Ankura?

5 A Managing director.

6 Q What are your responsibilities as a managing director
7 at Ankura?

8 A Very similar to what we did at Alvarez & Marsal. The
9 practice was designed to be the exact same. So both front end,
10 from what we call "cradle to grave", which is origination
11 through advisory, and then ultimately the restructuring
12 disposition of commercial real estate finance assets.

13 Q Please elaborate on the origination section of your
14 experience?

15 A So as part of the origination side of it, our team is
16 contracted by several large lenders, insurance companies,
17 balance sheet and CMBS lenders, to perform either the full
18 underwriting and due diligence process, or it could be just a
19 subset including the valuation management side of it, which is
20 done by my peers, or environmental due diligence and engineering
21 due diligence as well.

22 Q What does the advisory side consist of?

23 A The advisory side consists of helping operating real
24 estate businesses become more efficient. We are able to help, I
25 would say, in times of where they have large, heavy lifts where

1 we can come in and assist where they may not need full time
2 personnel for special projects; that could be an acquisition.
3 It could be a joint venture. It could be a very large project
4 where they just need additional assistance.

1 Q And then please describe the final stage, the "grave"
2 part of your work.

3 A The grave part would be the restructuring aspect of
4 it, which, as a lot of what we are doing now as you can imagine
5 with the current market situation, and we represent both
6 borrowers and lenders in various stages, anything from initial
7 pre-default where borrowers come to us because they know that
8 there could be a looming default that is coming and want to be
9 proactive; and we do the same for lenders.

10 And then we also are involved in litigation as well
11 as, you know, hopefully it doesn't come down to that, but also
12 the disposition.

13 And also at the end of it perhaps trying to negotiate
14 settlements as it would relate to various loan documents and
15 guaranties of, you know, the interested parties.

16 Q What, if any, experience do you have evaluating
17 personal financial statements?

18 A I have evaluated personal financial statements
19 throughout my career as Wachovia, at Bank of America and at
20 Alvarez & Marsal and Ankura.

21 Q What experience, if any, do you have working with
22 troubled assets?

23 A A tremendous amount of experience. Since about 2008
24 that has been the majority focus of my career since that time.
25 So for approximately 15 years that has been where I have spent

1 the majority of my time working.

2 Q Have you previously testified as an expert witness?

3 A Yes, sir.

4 Q How many times have you been retained as an expert
5 witness?

6 A I have been retained, I believe, five or six times;
7 but testimony only once.

8 Q What area did you testify in?

9 A Commercial real estate finance.

10 Q Have you ever been qualified as an expert witness at
11 trial?

12 A Yes, sir.

13 Q And what was your expertise in that trial?

14 A Commercial real estate finance and loan management
15 and dealing with, I would say, course of dealing between a
16 borrower and a lender.

17 MR. SUAREZ: Your Honor, we tender the witness
18 as an expert in the field of commercial real estate
19 finance and banking.

20 THE COURT: Hearing no objection, granted.

21 MR. WALLACE: I am just curious, in describing
22 his experience the witness mentioned that at Wachovia and
23 later in his career part of his job responsibilities
24 included evaluating personal financial statements. So I
25 am just curious if the expertise is extending to the

1 evaluation of personal financial statements.

2 THE COURT: I am assuming not.

3 MR. SUAREZ: The witness is certainly prepared
4 to testify about the bank's perspective in the evaluation
5 of financial statements.

6 MR. WALLACE: Sure. I assume that means the
7 process a bank might follow when they would receive a
8 personal financial statement as part of a lending -- that
9 sounds consistent with his testimony. I am not sure if
10 evaluating means the witness will go through a personal
11 financial statement and offer an opinion as to its
12 accuracy, you know, the things we have heard before
13 whether it complies with GAAP and evaluation issues.

14 MR. SUAREZ: Simply what the bank does with them
15 and how they see them.

16 MR. WALLACE: That was it.

17 THE COURT: And Mr. Suarez, just in as few words
18 as you can, what -- let's go over the exact description of
19 his expertise.

20 MR. SUAREZ: Commercial real estate finance.

21 THE COURT: Right. That's it?

22 MR. SUAREZ: And banking.

23 THE COURT: The banking is a rather broad
24 category.

25 Do you feel like you are an expert in banking,

1 Mr. Unell?

2 THE WITNESS: Yes, sir. As spending nearly
3 approximately 15 years in the banking field, I have worked
4 across multiple lines of business and collaborated with
5 associates in multiple different fields at various
6 institutions that I have worked at.

7 THE COURT: Okay. We will call you -- we will
8 deem you a banking expert in the -- within the fields that
9 you just mentioned.

10 So granted, and let's go ahead.

11 Q Mr. Unell, what is the scope of your engagement in
12 this case?

13 A I was retained to provide opinions as it related to
14 the loans -- the four subject loans and their process and how
15 they were underwritten; and, I guess, the submission and the
16 ordinary course of business as to how loans are originated and
17 processed.

18 Q What do you mean by "the four subject loans"?

19 A The four subject loans would be Doral; the Old Post
20 Office; 40 Wall Street and Chicago.

21 Q And just to be clear, Trump Chicago, Doral, and OPO
22 were loans made by Deutsche Bank; and 40 Wall Street was a loan
23 made by Ladder Capital, correct?

24 A Correct.

25 Q Generally, what information did you review to reach

1 your opinions in this case?

2 A I reviewed a multitude of documents, including
3 Statements of Financial Condition, credit reports, appraisal
4 reports, underwriting reports, annual reviews, as well as
5 internal memos that were prepared by Deutsche Bank and Ladder
6 Capital. Along with other correspondence, as well, as it
7 related to these four subject loans.

8 Q Have you reviewed any of the proceedings in this
9 case?

10 A Yes, sir.

11 Q What have you reviewed from the proceedings in this
12 case?

13 A I have reviewed the initial complaint as well as some
14 of the subsequent filings as well, including the motions for
15 summary judgment by both sides.

16 Q Have you reviewed any of the testimony given in this
17 case?

18 A Yes, sir. I have reviewed the deposition -- excuse
19 me, not the deposition. I did review the depositions of
20 several folks. But at trial I have read the transcript of
21 Mr. Haigh. And then I was able to view the testimony of
22 Mr. Williams and Ms. Vrablic and Ms. Pereless.

23 Q And are you able to offer opinions today to a
24 reasonable degree of certainty in the field of commercial real
25 estate finance and --

1 A Can I say one more thing?

2 Q Yes.

3 A I also did review the testimony and transcript of
4 Mr. McCarty. I wanted to get that in there as well.

5 Do you mind repeating the question, please?

6 Q Sure.

7 Are you able to give opinions today to a reasonable
8 degree of certainty in the field of commercial real estate
9 finance and banking as described earlier?

10 A Yes, sir.

11 Q Are you being compensated for your work here?

12 A Yes, sir.

13 Q At what rate is Ankura being compensated for your
14 work here?

15 A I believe it is around 900 or 950 an hour, I am not
16 certain of the exact number.

17 Q Approximately how many hours have you spent on this
18 engagement to date?

19 A A couple hundred probably, over the life of -- over,
20 call it, nine months or so give or take. I am not exactly
21 certain of that.

22 Q Has anyone asked you to testify in a particular
23 manner in this case?

24 A Could you please repeat that?

25 Q Has anyone asked you to testify in any particular

1 manner in this case?

2 A No, sir.

3 Q Is your compensation conditioned on the opinions in
4 this case that you offer?

5 A No, sir.

6 Q In your experience in the banking industry, what
7 experience have you had with compiled financial statements
8 provided by guarantors?

9 A Compiled financial statements are typically the norm
10 of what I have seen. Either that or they are
11 borrower-prepared. So compiled is a step up from that. And it
12 is typical for larger relationships, especially on larger
13 commercial real estate developers that have a multitude of
14 assets of various types.

15 Q Have you reviewed President Trump's Statements of
16 Financial Condition and compared those to compiled financial
17 statements that you have previously reviewed in your career?

18 A Yes, I have. And in my opinion and based on my
19 experience --

20 THE COURT: Wait. The answer is yes, you have
21 reviewed it. You should wait until they ask you the next
22 question.

23 THE WITNESS: I thought it was a compound
24 question. Sorry about that.

25 Go ahead.

1 Q What opinions, if any, have you reached after
2 reviewing the Statements of Financial Condition?

3 A The Statements of Financial Conditions that were
4 provided by the defendants are in line or, in my opinion and
5 experience, were of better quality than those than what are
6 typically received in commercial real estate finance
7 transactions.

8 Q And what is the -- withdrawn.

9 Are you able to elaborate on that opinion?

10 A Yes. The level of detail provided allows for a
11 roadmap of -- or a -- to figure out exactly how various assets
12 were valued. It gives the user ample information in order to
13 be able to evaluate a financial statement.

14 That information is nice to have in front of you. A
15 lot of times you would have to go actually out and ask the
16 questions of a borrower to be able to find that information.
17 And it is very nice to see that a complete, kind of,
18 disclosure, what I would call it, of information was available
19 without having to go back and ask, what I would consider to be,
20 a lot of questions to be able to properly analyze those
21 statements.

22 Q In your experience, how do lenders use Statements of
23 Financial Condition provided to them by borrowers or
24 guarantors?

25 A As I just mentioned, the Statement of Financial

1 Condition in a commercial real estate loan is typically done to
2 provide a roadmap for a lender to do their own analysis of the
3 assets that are out there. It is truly an estimated opinion of
4 the individual that is submitting it. And that it is the guide
5 for which the lender can make their appropriate analysis and
6 ask questions and form their own opinions.

7 MR. SUAREZ: Your Honor, I would like to show
8 the witness Plaintiff's Exhibit 729 previously admitted
9 into evidence.

10 (Handing)

11 THE WITNESS: Thank you, sir.

12 Q And I would like to draw your attention to page three
13 of this exhibit. And specifically to the last paragraph, which
14 states:

15 Because the significance and pervasiveness of the
16 matters discussed above make it difficult to assess their
17 impact on the Statement of Financial Condition, users of this
18 financial statement should recognize that they might reach
19 different conclusions about the financial condition of Donald
20 J. Trump if they had access to a revised Statement of Financial
21 Condition prepared in conformity with accounting principles
22 generally accepted in the United States of America.

23 Do you see that?

24 A Yes, sir.

25 Q Based on your experience in the banking industry, how

1 would a lender view that disclosure?

2 A A disclosure of that type is typical in financial
3 statements, whether it be -- or excuse me, personal financial
4 statements, whether it be compiled or if it is even on -- a lot
5 of times there will be forms that banks provide. And there is
6 typical language in there even on those that would state that
7 it is, you know, up to the user to determine exactly what they
8 would like to do out of this.

9 And it is -- I wouldn't say it is a "beware" but it
10 does give notice to the user that it is, as it states, you
11 know, that things could change and they may reach different
12 conclusions. So it is typical.

13 Q And who is the user of a financial statement, of a
14 personal financial statement in a lending transaction?

15 A In a commercial real estate transaction the user
16 would be the financial institution, the lender.

17 Q And what affect, if any, does this disclosure have on
18 a lender's ability to use a borrower or guarantor-provided
19 financial statement?

20 A It doesn't change the ability to use it. What it
21 does is, as I mentioned earlier, it provides the roadmap and
22 the information to a user to be able to conduct their own
23 commercial analysis.

24 Q And in your analysis of the four loans at issue, in
25 your opinion, how, if at all, was the process followed by the

1 lenders different from what is traditionally used in the
2 industry?

3 A From my review of the documents as well as the
4 various items I have also reviewed, it is consistent with how I
5 have seen it done throughout my career and in my experience.

6 Q Why is that?

7 A They, they being Deutsche Bank, as a user, took this
8 information and conducted their own analysis, formed their own
9 opinions, and utilized those opinions that they conducted and
10 analysis themselves, to make a decision. And that is what the
11 intent of this document is.

12 And they followed that through and did, in my
13 opinion, conduct their own analysis and formed their own
14 opinion.

15 Q How about Ladder Capital?

16 A Ladder Capital the same. They were also provided
17 this and were able to form their own opinions and conduct their
18 own analysis on the contents of this statement.

19 THE COURT: I can't help but jump in. Maybe
20 this is obvious, but how do you know what you just
21 testified to? How do you know what Ladder did and what
22 Deutsche Bank did with this information?

23 THE WITNESS: I have been able to review the
24 credit memos. And in those credit memos there is analysis
25 of -- writeup of their review of the various assets and

1 how they viewed them. As well as a fairly large writeup
2 about President Trump and his financial wherewithal. So,
3 in reviewing those documents you are able to see that the
4 analysis that went into it, as well as any adjustments
5 that were made by the users of those statements.

6 THE COURT: Okay. Thank you.

7 MR. WALLACE: Your Honor, I wanted to raise a
8 belated objection to the witness's response about what the
9 intent of the document was. I don't think he is being
10 offered as an expert about the intent of Mazars, the Trump
11 Organization, or any of the people that prepared the
12 document.

13 THE COURT: Well, I wish it hadn't been so
14 belated.

15 MR. WALLACE: Apologies, Your Honor.

16 THE COURT: You are objecting to his testimony
17 about what the intent was of Mazars and the defendants; is
18 that right?

19 MR. WALLACE: He testified as to what the intent
20 of the document was. That's the piece I object to.

21 THE COURT: Overruled. I'll allow it as part of
22 what he would understand about these things.

23 Q Was the analysis conducted by Deutsche Bank on
24 President Trump's Statements of Financial Condition consistent
25 with what you have seen in the lending industry?

1 A Yes. It is consistent with what I have seen in my
2 experience.

3 Q Same with Ladder Capital?

4 A Yes, sir.

5 Q What is the Office of Comptroller of Currency?

6 A The Office of Comptroller of Currency, also known as
7 the OCC, is a federal agency that is one of the oversight for
8 federally chartered banks.

9 Q What guidance, if any, does the OCC provide with the
10 respect -- with respect to a lender's analysis of a proposed
11 guarantor's financial statement?

12 A The OCC provides guidance in -- guidance for lenders,
13 and in all aspects of underwriting to include guarantors. So
14 there is guidance that they provide, and that guidance is
15 expected to be incorporated into the various institutions that
16 they regulate into their policies and procedures. And that is
17 how it gets filtered down.

18 So the OCC guidance is guidance for how the
19 institution should handle it. And the institutions are then
20 charged with creating their own policies and procedures that
21 would be in accordance with OCC guidelines.

22 Q And how, if at all, are the policies and procedures
23 implemented at Deutsche Bank consistent with the OCC
24 guidelines?

25 A In my review and experience I believe that the

1 Deutsche Bank policies and procedures are consistent with the
2 guidance that is provided by the OCC.

3 Q And were the Deutsche Bank policies and procedures in
4 your evaluation applied with respect to the three loans that
5 they made at issue in your report?

6 MR. WALLACE: Objection, leading.

7 THE COURT: Sustained.

8 Q How, if at all, were the Deutsche Bank lending
9 procedures applied in connection with the three loans at issue
10 in your report that were made by them?

11 A In my review and experience I believe they were
12 applied correctly and as prescribed in the OCC documents.

13 Q And is that opinion -- would your opinion be the same
14 for 40 Wall?

15 A Yes, sir.

16 MR. SUAREZ: Your Honor, I would like to show
17 the witness Defendant's Exhibit 390 premarked for
18 identification.

19 MR. WALLACE: I am just going to note an
20 objection. I guess I am unclear as to whether the witness
21 is saying that the OCC guidelines applied to Ladder
22 Capital's loans? He mentioned Deutsche Bank, I just
23 wasn't sure if that also encompassed Ladder Capital.

24 THE WITNESS: Ladder Capital, to my knowledge,
25 is not under the purview of the OCC.

1 MR. SUAREZ: My question was a little different.

2 It was whether the process was consistent.

3 Q Mr. Unell, do you recognize this document?

4 A Yes, sir.

5 Q What is this document?

6 A This is the Safety and Soundness Commercial Real
7 Estate Lending Handbook that is issued by the OCC dated
8 March 2022.

9 Q How, if at all, did you rely on this document in
10 recommending your expert opinions in this case.

11 A I reviewed it and took it into consideration when
12 forming my opinions in my reports.

13 Q If you turn to page 34 of the exhibit, which is the
14 number on the lower left-hand corner, I would like to turn your
15 attention to the section titled: Analysis of Borrowers' and
16 Guarantors' Financial Condition.

17 A Mm-Hm.

18 Q How, if at all, does this guidance affect Deutsche
19 Bank's underwriting of the three loans at issue in this case?

20 A This is the guidance that they would have followed in
21 putting together their own policies and procedures. And in my
22 review, it is my opinion that it was followed correctly.

23 MR. WALLACE: Again, note an objection to
24 foundation. If we are talking about guidance from 2022,
25 how it applies to loans that were made earlier than 2014.

1 THE COURT: I'll allow a follow-up.

2 MR. SUAREZ: Sure.

3 Q How was the guidance relevant, if it is dated
4 March 2022, to the loans at issue in this case?

5 A The guidance would not have changed over the period
6 of time. It would be consistent and would still remain the
7 same. You know, as the time goes on, one thing that does
8 change -- doesn't change is really an underwriting process.
9 You know, still the fundamentals and foundation is there from
10 the beginning of when you do it. It is, you know, from the
11 time I have been involved in my experience, there is nothing
12 that has changed from this to, call it, back in 2000 when I
13 began my career.

14 Q Do you see at the bottom paragraph where it says:
15 Underwriting includes determining whether the borrower
16 demonstrates the capacity to meet a realistic repayment plan
17 from available cash flow and liquidity?

18 A Yes, sir.

19 Q How did you see that concept applied, if at all, in
20 the underwriting of the Deutsche Bank loans?

21 A Well, I mean, it follows, in my opinion, what they
22 had done is they looked to see whether or not how the sources
23 of repayment would be made and how a loan gets repaid. And a
24 loan typically gets repaid through cash flow or the liquidation
25 of the asset to repay the debt, whether it be a sale of the

1 asset to retire the debt, or the cash flow generated in order
2 to service the debt on a monthly or annual basis.

3 Q Is that consistent with the following sentence? It
4 says: Cash flow from the underlying property or other
5 indicators of borrower capacity is evaluated to determine
6 whether and to what extent the borrower can adequately service
7 interest and principal on a prospective loan?

8 A Yes, sir. And I think that it is key to note that
9 this is the borrower here that is -- so you are not looking at
10 the guarantor here, you are looking at the borrower, which is
11 the owner of the subject collateral, which is able to provide
12 that itself.

13 Q How does that distinction apply with respect to the
14 three Deutsche Bank loans?

15 A There was an independent analysis conducted on the
16 assets that were taken as collateral for those three loans, and
17 it was determined by Deutsche Bank that they wanted to make the
18 loans.

19 And the first thing that you do when you are looking
20 at a deal is you would look at whether or not you want to do
21 the deal based only the actual collateral in a real estate
22 loan. If you don't like the collateral, you are not going to
23 go beyond that. You are not going to go beyond what the loan
24 or the collateral itself can service. So if, for example,
25 Deutsche Bank did not like the Doral loan and the ability to

1 service itself, it would never have taken the next steps
2 because it would have been a waste of everybody's time. If you
3 don't like the collateral, that's the first step. And then you
4 move on to looking at the other supports of credit such as a
5 guaranty or other items that may support the credit in a time
6 of need.

7 Q And how, if at all, did this concept apply to the
8 loan made by Ladder Capital on 40 Wall?

9 A The same exact thing. It would look to the
10 underlying collateral first to make sure they were comfortable
11 with that, and make sure that they were comfortable with that
12 as their collateral, because that's the primary source of
13 repayment. And then from there they would look for other
14 credit support items, anything from a personal guaranty, as it
15 was in this case, or some of these loans, to letters of credit
16 are sometimes posted; and sometimes cash escrow. There are
17 multiple forms of credit support that can be provided out
18 there.

19 Q Was the credit support provided to the collateral in
20 the 40 Wall loan different than the credit support provided in
21 the Deutsche Bank loans?

22 A Yes. The guaranties were different in that there was
23 a full guaranty on the Deutsche Bank loans.

24 Q And how was that different in the 40 Wall loan?

25 A The 40 Wall had a limited guaranty.

1 MR. SUAREZ: If you can turn to the next page of
2 the document?

3 Q Looking to the second paragraph, it says: When
4 evaluating guarantor support, examiners should consider whether
5 the guarantor has both the willingness and ability to provide
6 support for the credit, and whether the guaranty is legally
7 enforceable.

8 Do you see that?

9 A Yes, sir.

10 Q How was this concept -- withdrawn.

11 Was this concept consistent with your analysis of the
12 Deutsche Bank underwriting process?

13 A Yes, sir.

14 Q How so?

15 A They received -- they being Deutsche Bank, received
16 the Statements of Financial Condition. They conducted their
17 own analysis. They had conversations with the borrower and
18 guarantor, which would indicate the willingness and the ability
19 to do so. You know, the guaranty is beyond just the actual
20 numbers behind it. It provides a level of engagement for the
21 lender. And that level of engagement keeps them where, in a
22 time like today, where we have office buildings all over that
23 are going back on non-recourse loans. It is very easy for
24 somebody without any personal recourse just to hand the keys
25 back. And banks do not want that.

1 So, despite whether or not the guaranty is a full
2 guaranty or a partial guaranty, the engagement of a borrower is
3 vital to a lender in their underwriting. And it could be, as
4 it says, the willingness is very key there. Because if you
5 have somebody that is willing to provide a guaranty, but they
6 are not going to be willing to utilize it to support the
7 credit, then you may as well not have it because of the
8 prolonged litigation that could take, in my experience it has
9 been years of litigation, in order to be able to act on that
10 guaranty, if they are not willing.

11 Q In your experience, how are guaranties typically
12 enforced in troubled loan situations?

13 A Guaranties are typically enforced in a troubled loan
14 situation in order to promote, I guess, cooperation. They are,
15 typically, the last thing that you would file or go after.

16 Obviously every state is different in that there are
17 judicial and non-judicial Foreclosure Laws, and that can play
18 into the strategy. But ultimately what matters most is that
19 the guaranty is there and that you have that engagement behind
20 them which will allow the lender to know that there is
21 something standing behind the asset. As well as the potential
22 for there to be collection on guaranty if needed.

23 THE COURT: I think the question was how, not
24 why.

25 MR. SUAREZ: Why would have been the next

1 question.

2 THE COURT: Well, but no, you don't have to ask
3 him why. He just answered why.

4 How are these guaranties enforced normally in
5 your experience?

6 THE WITNESS: Guaranties are typically
7 enforced -- to kind of step back. If there is a default
8 under a loan, it depends whether it is a payment default
9 or if it is a covenant default or a foot fault.

10 A foot fault would be a minor default. A
11 non-payment default.

12 MR. WALLACE: He is from the south, Judge. I am
13 probably one of the few people who understood what he
14 meant.

15 THE COURT: I didn't get it. But I am not from
16 the south.

17 MR. WALLACE: I got it. I am not from the
18 south.

19 MR. SUAREZ: I am from Miami, I had no idea what
20 he meant.

21 THE WITNESS: So, you know, it would trigger a
22 conversation with the borrower and the guarantor. And
23 that's what opens up the conversation for a restructuring.
24 Typically enforcement and exercising of remedies is a last
25 resort that any lender wants to go through.

1 So when you look at a guaranty, and that is
2 typically a tertiary or beyond, sort of, repayment, but it
3 is mainly there for engagement, you know.

4 The term "comfort guaranty" is there because the
5 lender has comfort that there is somebody standing behind
6 it. And it necessarily -- doesn't necessarily mean how
7 much they have behind it. I mean, we have had guarantors
8 that sign on the deals that have minimal net worth. But
9 at the end of the day their engagement and their expertise
10 and their ability to complete the project and keep the
11 project generating cash flow, and cash flow is what
12 services the debt, is what is important. And without that
13 individual, the asset is not as valuable to the lender.

14 So, that level of engagement and comfort is
15 almost, in my opinion, as important as the actual
16 financials behind the guaranty.

17 THE COURT: I still don't think that answers the
18 question. How do you enforce it if there is
19 non-cooperation?

20 THE WITNESS: You would enforce it through
21 litigation.

22 THE COURT: That answers the question. Thank
23 you.

24 THE WITNESS: And I would say as a last resort.
25 In my experience as a lender, litigation is not something

1 that you lead with. It would come after multiple attempts
2 at negotiating a non-litigious outcome.

3 THE COURT: I think all of the lawyers in this
4 room understand that it is a last resort.

5 Q When the collateral is being repositioned, what
6 value, if any, does the guaranty have?

7 A Well, in underwriting any deals, as I mentioned
8 earlier, you have to feel comfortable with the actual project.
9 And the project not only includes what it is doing, but who is
10 doing it and their experience and their view of the market.
11 And what the market view of them is.

12 And also just an overall vision that real estate
13 developers have. Lenders do not have the vision of a real
14 estate developer. So that real estate developer, for lack of a
15 better term, becomes their partner in the deal. It is not a
16 financial partner but it is their completion partner. And
17 without that partner, or a guarantor -- who is most of the time
18 a guarantor, they need them in order to complete a very complex
19 repositioning project from a construction standpoint, from a
20 marketing standpoint and from a PR perspective.

21 Q How, if at all, did you observe that concept with
22 respect to the Deutsche Bank location?

23 A It was very clear in my review of the various
24 Deutsche Bank credit memos that the -- it was a high reliance
25 upon the experience of President Trump and the Trump

1 Organization in repositioning assets, and was highlighted
2 throughout their credit memos.

3 (The following proceedings were stenographically
4 recorded by Senior Court Reporter Michael Ranita.)

1 Q Then is goes on to say, "A presumption of willingness
2 to provide borrower, open parenthesis, close parenthesis,
3 project -- (project) security, when the guarantor has an
4 economic incentive, is usually appropriate unless there is
5 evidence to the contrary."

6 How is that factor implemented, if at all, in Deutsche
7 Bank's underwriting of the loans?

8 A In the subject loans with Deutsche Bank there was a
9 tremendous amount of equity placed into these deals. And the
10 equity would be the economic incentive. So the borrower and
11 guarantor would have the incentive to perform on the loan in
12 order to protect their equity.

13 In the event that the asset was returned to the bank
14 for litigation, that equity, which is in this case the economic
15 incentive is wiped out, so if you do have the economic
16 incentive, it does keep, once again, the engagement of that
17 guarantor, because they do have the incentive to try to at least
18 to recoup or try to garner back as much of their equity as they
19 could in a distressed project. Or if it is something as a cost
20 overrun that would provide a creative down the line, that it
21 would provide them an economic incentive to perhaps place
22 additional equity into a deal if needed for cost overruns or
23 other items.

24 Q And with respect to the Deutsche Bank loans, was that
25 concept -- was that concept in play, in your analysis of the

1 credit memos?

2 A Yes, sir.

3 Q How so?

4 A If there was a focus and highlight of the amount of
5 equity that was placed in the deals, the loan-to-value of those
6 deals as well, and the structuring of those deals where there
7 were various changes and loan terms based off of loan-to-value
8 would really show how that economic incentive is tied to a
9 guarantor.

10 Q Then it goes on to say "Examiners should consider
11 weather a guarantor has demonstrated a willingness to fulfill
12 previous obligations, has sufficient economic incentive, and has
13 a significant investment in the project."

14 Do you see that?

15 A Yes, sir.

16 Q Was that factor evaluated in Deutsche Bank's
17 underwriting of President Trump's guarantee?

18 A Yes. In my review, I did see that the willingness to
19 fulfill the economic incentive and the investment was all
20 acknowledged in the various credit memos.

21 Q Then the following sentence says, "Analysis should
22 consider the liquidity of any assets that collateralize the
23 guarantee."

24 A Yes, sir.

25 Q Was that analysis conducted by Deutsche Bank in its

1 underwriting of President Trump's guarantee?

2 MR. WALLACE: Objection. Leading.

3 THE COURT: Sustained.

4 Q How, if at all, was that analysis conducted by Deutsche
5 Bank in its analysis of President Trump's guarantee?

6 A Deutsche Bank completed, in their credit memos, a full
7 analysis of the guarantor's liquidity, all of their assets, and
8 went above and beyond additional kind of diligence on various
9 items, including the verification of liquidity, which is
10 extremely important, amongst other things.

11 Q Then it goes on to say "guarantor's unpledged assets
12 should not be considered a substitute for project equity."

13 What does that mean?

14 A It means that assets that are on the guarantor's
15 Statement of Financial Condition balance sheet that do not have
16 a liability assigned to them, or tied to them, that that is not
17 a substitute for the collateral. The collateral stands on its
18 own, which would be what the project is; that those
19 non-collateral assets are -- should not -- they go on, but not
20 tied to this particular loan or asset, but they are part of the
21 whole guarantor's financial picture as -- and would be analyzed
22 as such.

23 Q And how, if at all, was that concept implemented by
24 Deutsche Bank in it's underwriting of President Trump's
25 financial condition?

1 A In my review of the credit memos, Deutsche Bank took a
2 fairly deep dive into various assets. They engaged their
3 valuation services group to look at four very large assets, and
4 conducted their own analysis on those assets.

5 In my experience, that is, you know, typical with very
6 complex real estate assets, to engage experts within your own
7 organization to do so, but it would not be something where we
8 would require, in my experience, to provide any sort of
9 appraisals for non-collateral assets.

10 Q The following says "Guarantor liquidity should be
11 verified by the bank."

12 What does that mean?

13 A "Liquidity" is one of the most important items of a
14 balance sheet. It's cash, it's readily available. And in order
15 to be able to make sure that that is true and correct, typically
16 bank statements, or brokerage statements, or other backup is
17 provided to the lender to support that liquidity on the
18 Statement of Financial Condition.

19 Q And how, if at all, was this concept implemented by
20 Deutsche Bank in its review of President Trump's financial
21 condition?

22 A In my review of the credit memos, on several occasions
23 there were members of the Deutsche Bank team that, in person,
24 per the credit memos, met at the guarantor and borrower's office
25 to verify the liquidity.

1 Q And how, if at all, were these concepts that we just
2 discussed implemented by Ladder Capital in it's underwriting of
3 the limited guarantee provided in that transaction?

4 A In similar fashion.

5 Q In the real world, Mr. Unell, how are these factors
6 implemented in underwriting guarantees and the Statements of
7 Financial Condition of guarantors?

8 A In the real kind of concept here is, is that if, as I
9 said earlier, it provides a road map, the Statement of Financial
10 Condition does. And allows for a lender or a user, in this case
11 being Ladder Capital and Deutsche Bank, to make their own
12 determination, whether it is the willingness, the sufficient
13 economic incentive, or the investment in the project.

14 The Statement of Financial Condition allows for those
15 various items to be analyzed on a deal-by-deal basis as it
16 relates to the investment in the project, as well as the history
17 of the borrower, um, to be able to know about their ability to
18 fulfill previous obligations. And the liquidity, as I mentioned
19 earlier, being one of the most important factors of analyzing a
20 Statement of Financial Condition.

21 Q What, if anything, did you observe in connection with
22 the underwriting of the Deutsche Bank loans was inconsistent
23 with the way that it normally works in the real world?

24 A In my experience and my review, I believe that Deutsche
25 Bank acted consistently with how I have seen it done at various

1 lending institutions that I have worked at and worked with over
2 the years.

3 Q Same question about Ladder Capital.

4 A The same answer. Would be the exact same, acted in a
5 similar fashion.

6 MR. SUAREZ: Your Honor, I move Defendant's Exhibit
7 D390 into evidence.

8 THE COURT: Granted. It's in.

9 (Defendant's Exhibit D390 was deemed marked and
10 admitted in evidence.)

11 MR. SUAREZ: I would like to show the witness
12 what's been previously admitted into evidence as Defendant's
13 Exhibit 62.

14 (Whereupon, the exhibit was displayed on the
15 screen.)

16 (The witness was handed the exhibit.)

17 MR. SUAREZ: May I take the opportunity to commend
18 the court officers for the fantastic job in keeping track of
19 all of our exhibits?

20 THE COURT: You may. And I'm sure we all agree
21 with you.

22 MR. SUAREZ: With your Honor's permission, I could
23 start moving through the document that's on the screen.

24 THE COURT: I think that's perfectly reasonable.

25 (The witness was handed the exhibit.)

1 THE WITNESS: Thank you sir.

2 Q Mr. Unell, do you recognize this document?

3 A Yes, sir.

4 Q What is this document?

5 A This is titled, "The New Private Wealth Management US,
6 Lending Product, Commercial Real Estate Finance." Reviewed
7 April 23rd, 2014, in Private Wealth Management, Deutsche Bank.

8 Q And how, if at all, was this document relevant to the
9 formulation of your opinions in this case?

10 A I reviewed this document and I took what was in it and
11 applied it to kind of the underwriting and standards that were
12 put forth in the credit memos by Deutsche Bank.

13 MR. SUAREZ: Let's take a look at the second page
14 of this document.

15 (Whereupon, the exhibit was displayed on the
16 screen.)

17 MR. SUAREZ: In the middle of the first paragraph.

18 Q It says, "Real estate entrepreneurs and investors
19 represent an important component of our client base and US
20 wealth creation capacity."

21 A Yes, sir.

22 Q Is that consistent with your experience in banking?

23 A Yes, sir.

24 Q And how, if at all, is the contents of this memo
25 reflective of your experience in -- in banking?

1 A It's very similar to banks that I've worked at and
2 their private wealth groups. There is a very good relationship
3 with the institutions I worked at between the commercial real
4 estate bank and the private wealth bank. And the same
5 guidelines that apply from a regulatory standpoint that apply to
6 a commercial real estate group, would also apply to the Private
7 Wealth Group, if real estate is the main form of collateral.

8 Q Then it goes on to say "The offering of this product on
9 competitive terms is a central aspect of PWM's initiative to
10 expand our business with selected, proven and successful real
11 estate entrepreneurs and investors."

12 Do you see that?

13 A Yes, sir.

14 Q Were the loans extended by Deutsche Bank, in your
15 experience, those at issue here in the report, consistent with
16 the objectives set forth in this memo?

17 MR. WALLACE: Objection. Leading.

18 THE COURT: Sustained.

19 Q How, if at all, in your experience were the loans
20 extended by Deutsche Bank consistent with the objectives set
21 forth in this report?

22 A Very consistent. In with -- in my experience of
23 dealing with high net wealth and ultrahigh net wealth
24 developers, that credit is one of very -- it was one of -- is a
25 leading item. And in order to expand the share of wallet, is

1 what it would be referred to, and create other income
2 opportunities for the bank, that this would be something that
3 would bring them in. Real estate developers love the credit
4 side of things, but with that comes the open relationship and
5 cross selling which is a vital part of a large banking
6 institution. And that cross selling would allow a bank to
7 create additional revenue opportunities in the form of whether
8 it be trust and estates, deposits, other items. It could be
9 brokerage accounts, et cetera, that also provide what -- would
10 be a total relationship value.

11 And the to the AI relationship value is something that
12 is looked at at the highest levels of a bank. And while certain
13 items may be, as I said, more competitive, other items are more
14 commodities, and it is those commodities that lenders like to
15 get their hands on -- I should say banks like to get their hands
16 on, but they typically have to lead with credit, because credit
17 is what is most important to those real estate developers. And
18 that ultimately leads to a relationship where depository, trusts
19 and other relationships are established within the bank.

20 Q What, if any, evidence have you observed in this trial
21 that is consistent with that opinion?

22 A You know, hearing Ms. Vrablic's testimony, it was clear
23 that she was driving the kind of the relationship, and was
24 leading with credit, but also referenced multiple other
25 opportunities for revenue from the bank to include, also,

1 introduction to other high net worth individuals. I believe she
2 testified, or she did testify that there were, you know, that
3 referrals were their main source of new business, and that they
4 felt that this was a very good client to -- in order to be able
5 to grow the share of wallet, and also to bring in new business
6 from other family members and friends.

7 THE COURT: Five-minute warning.

8 MR. SUAREZ: Let's go to page ten of this document.

9 (Whereupon, the exhibit was displayed on the
10 screen.)

11 Q Do you see the section that says "Guarantees"?

12 A Yes, sir.

13 Q Then it says, "Although it is not standard in the
14 industry, PWM will require personal guarantees, or a guarantee,
15 from an acceptable creditworthy entity."

16 A Yes, sir.

17 Q How is the use of guarantees by the Private Wealth
18 Management Group different than the standard in the industry, if
19 at all?

20 A Private Wealth Management is -- it's a relationship
21 business, and the private individual is typically where that
22 relationship is driven.

23 And so as Ms. Vrablic also said, that is one of the
24 factors that's in there, that the relationship is with that
25 individual, which is why the guarantee is there.

1 It also is, as I said, it provides that comfort level.
2 The comfort guarantee that the individual or the entity will
3 stand behind the project and be there in the event of it's need
4 for additional capital, or that there are cash flow short falls
5 during that period of time.

6 Q Then is goes on to say "The amount of guarantee can
7 range from 25 to 100 percent depending on the deal structure and
8 embedded risk."

9 A Yes, sir.

10 Q What do you understand that to mean?

11 A That the underwriting team and the deal structuring can
12 range from, as it says 25 to a hundred percent, so either a
13 limited to a full guarantee.

14 In my experience, it has usually started off as a full
15 guarantee and then burn off, as it did in the case of several of
16 the subject ones.

17 Q And how is accepting a guarantee for less than the full
18 amount of the facility consistent with the bank's lending
19 obligations, if at all?

20 A Banks are in the business of evaluating risk, and if a
21 loan-to-value is extremely low, call it below 60 percent, and in
22 some cases even lower than that, that the guarantee, whether it
23 be at 25 percent, would probably, highly unlikely, if ever need
24 to be utilized to fund a short fall. However, as I mentioned,
25 it does provide that comfort and the ability to go back to a

1 guarantor, or an entity that is standing behind it, in the event
2 of cost overruns, cash flow short falls.

3 You can use COVID as an example, where there was
4 massive cash flow short falls of office and retail because
5 tenants were not paying. That is something where you would
6 then, even under at a 25 percent guarantee, you would have the
7 comfort of going back to the guarantor to say, "Okay, we need
8 some level here. How are you going to fill the gap or bridge
9 the gap between the cash flow and the debt service needs, or the
10 capital needs?"

11 Q How, if at all, was this concept reflected in the
12 underwriting of the loans extended -- the facilities extended by
13 Deutsche Bank in this case?

14 A Deutsche Bank had mechanisms in several of the loans
15 that would allow for the guarantee to stepdown from a full
16 guarantee to various levels based off of, whether it be debt
17 service coverage or LTV's.

18 Q In your experience in the industry, how, if at all, is
19 that consistent with the use of guarantees in commercial real
20 estate transactions?

21 A It's very consistent. Guarantor's, you know, they are
22 -- would like to reduce their liability and contingent
23 liabilities as much as possible. So a reduction from a hundred
24 percent to 75 percent to 50 percent or 25 percent gives them
25 that comfort. But on the flip side, a ten percent or 25 percent

1 guarantee for the lender also provides them the comfort that
2 they have engagement and a tertiary or beyond source of --
3 additional source of repayment.

4 THE COURT: Before we break, which we are about to,
5 I want to -- I'll admonish the witness not to discuss this
6 case, or his testimony, or anything related to it during the
7 break. We usually take ten minute breaks, but they take
8 15 minutes.

9 I want to make sure Counsel, all Counsel are aware,
10 and they probably already are, that this morning the
11 Appellate Division, First Department issued a decision
12 vacating the stay on the two gag orders that I imposed
13 earlier on this case. So I intend to enforce the gag orders
14 rigorously and vigorously, and I want to make sure that
15 Counsel inform their clients of the fact that the stay was
16 vacated.

17 MR. KISE: We are aware, your Honor. It's a tragic
18 day for the rule of law, but we are aware.

19 MR. WALLACE: Objection.

20 THE COURT: It is what it is to a state of
21 tautology. See you all at 11:35.

22 (Whereupon, a 15-minute break was agreed upon and
23 taken by all parties.)

24 THE COURT OFFICER: All rise. Part 37 is back in
25 session. Please be seated and come to order.

1 THE COURT: Just before we resume, I've considered
2 the request for the scheduling of the posttrial briefs and
3 the oral argument, and I'll let the person sitting alongside
4 of me announce what I've decided.

5 MS. GREENFIELD: Okay. Given both parties seem to
6 be comfortable with doing closing arguments after the briefs
7 being due, so we are going to adopt that strategy.

8 The briefs are going to be due by noon on
9 January 5th, and then we'll hold oral argument, or closing
10 arguments, whatever you want to call it, January 9th at
11 10:00 a.m. We will no longer have access to this courtroom,
12 so that will be in our normal courtroom, 418, and the space
13 will just be limited.

14 THE COURT: And I will issue a decision a few weeks
15 after the ninth. I would hope this month, but no
16 guarantees.

17 Mr. Kise.

18 MR. KISE: Your Honor, is there --

19 THE COURT: January. Sorry.

20 MR. KISE: I have conflicts on other cases. Is
21 there any way we could have until the 8th, and then have the
22 hearing the following week, the 15th, sometime that
23 following week? I just have -- everything, as you might
24 imagine, in my professional life has been on hold for
25 months, and I have those weeks -- I'll do whatever the Court

1 decides, but is there any way to get until the 8th to file
2 something, and then have the hearing sometime the week of
3 the 15th? Really, the 16th, because I believe Monday, the
4 15th, is a holiday.

5 THE COURT: I certainly appreciate we've all put
6 things on hold. The schedule I tentatively announced is --
7 that was intended, very precisely, to shaving days here and
8 there. Give me a moment.

9 MR. KISE: Even the end of that week would help,
10 like the 11th or 12th would be better than the ninth.

11 THE COURT: Mr. Kise, and everyone, is there any
12 way to have -- would it help to have oral argument the first
13 week in January instead of the second week?

14 MR. KISE: No, that would be even worse. I guess
15 all I'm really asking is instead of the 9th, like the 11th
16 or 12th.

17 MS. HABBA: I'm out of state, your Honor.

18 THE COURT: Let's do this. Let me think about
19 this. We have plenty of time.

20 MR. KISE: That's fine.

21 THE COURT: Maybe we'll consult again.

22 MR. KISE: I'm talking about a two-day shift. The
23 submission date is not really the problem; that's not really
24 the issue, but the argument date, if there is any way I
25 might be able to shift around things later in that week.

1 THE COURT: I'm sorry, Mr. Kise, did you say you
2 could do oral argument the 11th?

3 MR. KISE: Yeah, January 11th.

4 THE COURT: Yeah, we'll do that.

5 MR. KISE: All I'm saying is two days. I'm
6 proposing the following week, that would be even easier, but
7 if the 11th is an option, or the 12th.

8 MS. GREENFIELD: Okay. As long as we could still
9 have the brief due January 5th at noon, we could move oral
10 argument to the 11th. I just have to let parties know on
11 another case.

12 MR. KISE: Can I have until five on the fifth?

13 MS. GREENFIELD: No.

14 MR. KISE: All right. Thanks.

15 THE COURT: Give me one more moment.

16 MR. KISE: Thank you, Judge.

17 THE COURT: Attorney General, are you okay with the
18 5th and the 11th?

19 MR. WALLACE: Moving from the 9th to the 11th seems
20 fine, I think, from our perspective.

21 THE COURT: Okay. Let's resume the direct
22 examination.

23 Q Mr. Unell, drawing your attention to the section that
24 says, "Covenants on the guarantor may include: Minimum net
25 worth after adjusted contingent liabilities, and minimum

1 unencumbered liquidity and/or cash flow."

2 How, if at all, are those covenants consistent with
3 what you've seen applied in the real world?

4 A They are consistent with my experience.

5 Q And how, if at all, are those covenants utilized by
6 lenders in real estate lending transactions?

7 A Covenants are typically utilized by lenders to monitor
8 performance and would indicate a -- one way or the other, a
9 positive or negative trend as they are required to be tested.
10 And it gives a lender an idea of how their loan, or I should say
11 not necessarily the loan, um, in this case, a guarantor covenant
12 would be how the guarantor may have changed year over year in
13 order to be able to assess how strong that guarantee is, and
14 provide their own analysis.

15 Q And how, if at all, is that consistent with any
16 observations that you may have made in Deutsche Bank's
17 underwriting of the loans at issue in this case?

18 A It is consistent with what I have reviewed in this
19 case.

20 Q How is that?

21 A Um, that the covenants on the subject Deutsche Bank
22 loans did include a minimum net worth, as well as a liquidity
23 covenant.

24 Q And how are the covenants, in your review of the credit
25 analysis, applied in the subject loan transactions?

1 A They were determined, obviously, by the bank in their
2 sole discretion based off of where they believed it would set a
3 threshold to allow them to monitor the performance and the
4 capability of the guarantee, and conduct an analysis thereof.

5 Q Then it goes on to say "Nonrecourse loans would be
6 considered on a very limited exception" -- excuse me, "very
7 limited exception basis only for top tier clients on very low
8 risk transactions."

9 Do you see that?

10 A Yes, sir.

11 Q How, if at all, is that consistent with the burn off of
12 the guarantees in the two Deutsche Bank transactions in this
13 case?

14 A It would be consistent in that it was reviewed and
15 approved, and it was in conjunction with the risk profile of the
16 transaction improving for the lender.

17 Q What, if anything, would Deutsche Bank's agreement to
18 extinguish the guarantee in two of the transactions at issue in
19 this case mean in the real world?

20 A Ideally, it would mean that the guarantor is off the
21 hook, if you wanted to call it that. It would also mean that
22 Deutsche Bank would have lost a tertiary, or beyond, source of
23 repayment, or the ability to have the engagement as the -- what
24 I would go back and say, of the guarantor, in the event that
25 they needed it.

1 Q And how, at all, is that consistent with the OCC
2 guidelines on underwriting guarantees?

3 A It is consistent, and consistent that as the risk
4 profile changes and becomes improved for the lender, that they
5 would then drop certain restrictions and covenants and
6 guarantees, because they're, as I said earlier, in the business
7 of assessing risk. And if the collateral itself it a low
8 loan-to-value and a positive cash flow is able to carry it on
9 itself, then that would consider -- it would be considered a
10 lower risk profile, and thus eliminate the need for additional
11 support.

12 MR. WALLACE: Not an objection. Can the witness
13 clarify when he says that "they're in the business of
14 assessing risk", who he is referring to?

15 THE WITNESS: Yes, sir. Deutsche Bank. Deutsche
16 Bank, and banks in general.

17 MR. SUAREZ: Your Honor, if I may show the witness
18 what's been previously admitted into evidence as Plaintiff's
19 Exhibit 515.

20 (Whereupon, the exhibit was displayed on the
21 screen.)

22 (The witness was handed the exhibit.)

23 THE WITNESS: Thank you very much.

24 Q Mr. Unell, do you recognize this document?

25 A Yes, sir.

1 Q What is this document?

2 A This is a compliance certificate made out to Deutsche
3 Bank Trust Company Americas, dated October 28th, 2021.

4 Q Can I draw your attention to the middle of the first
5 page where it says, "The foregoing presents fairly in all
6 material respects the financial condition of guarantor at the
7 period presented."

8 A Yes, sir.

9 (Continued on the next page.)

24

25

1 Q What does this language mean in the real world,
2 Mr. Unell?

3 A It means it is in the opinion of the person that
4 submitted it, in this case it is the guarantor and the
5 borrower, that the information that is being presented is
6 correct in all material respects.

7 Q And I would like to focus your word -- your attention
8 on the phrase "in all material respects -- "presents fairly in
9 all material respects." How do banks interpret, or lenders
10 more specifically, interpret the concept of presenting fairly
11 in all material respects?

12 A Materiality is in the eye of the user, and that the
13 lender is able to determine what they believe in their own risk
14 rating, their own risk profile and underwriting and analysis,
15 what is material to them. And that the Statements of Financial
16 Condition, as well as this document is -- that it is -- they
17 are the ones to decide what is material and not material, and
18 at what levels those are.

19 Q And in your experience, how is a compliance
20 certificate of this nature used by a lender in the real estate
21 lending industry?

22 A The compliance certificate is kind of a -- I wouldn't
23 say it is a check-the-box; it is a report card or a health
24 check, and is done based on what the terms of the loan are,
25 quarterly, annually. It could be -- obviously it is prescribed

1 in the loan documents. And what this allows a lender to do is
2 to see if there have been any significant changes in the
3 financial profile of both the borrower and the guarantor
4 throughout the period of time. And allow for them to, as I
5 said earlier, to see if there has been any positive or negative
6 trends over the time period and able to allow them to compare
7 them to each other.

8 Q And why do banks require this information?

9 A Banks require this information so that they can
10 perhaps see a leading indicator if there is a decline. Even
11 though it may not be a breach or a default of a covenant,
12 allows to see if there are potential weaknesses and allow,
13 potentially, for conversations.

14 On the flip side, it also can show that there has
15 been improvement in the condition of a guarantor, whether it be
16 liquidity, whether it be a reduction of liabilities, et cetera.
17 It gives, as I said, an updated snapshot to make sure that they
18 were in compliance.

19 Q And in your review of Deutsche Bank's underwriting of
20 the loans at issue in this case, how, if at all, were the
21 compliance certificates utilized by the bank?

22 A They were utilized as I would expect, and throughout
23 my experience, in the manner that I just described, to monitor
24 the condition of the borrower and the guarantor throughout the
25 life of the loan.

1 Q What factors would you expect a bank to consider in
2 determining whether the compliance certificate presents fairly
3 in all material respects, the financial condition of the
4 guarantor?

5 A Would you mind repeating that?

6 Q What factors?

7 A The factors? Whether the presentation is the same as
8 it has been over the years for consistency, the sources, the
9 information provided in their Statements of Financial
10 Condition, and most importantly whether or not it provides
11 ample information for the user to conduct their own analysis.

12 Q Are you aware in this case of a discrepancy in the
13 reporting of the size of President Trump's triplex?

14 A Yes, sir.

15 Q And would a change in the reporting of the size of
16 the guarantor's triplex, for example, be something that would
17 factor into the bank's evaluation as to whether the guarantor's
18 financial condition is presented fairly in all material
19 respects?

20 A In my opinion it would not be material based on the
21 other information and the amount of assets and liabilities
22 that are included on the Statement of Financial Condition.

23 Q Why is that?

24 A Because when you look at it, it is a personal
25 residence. It is -- was a minor portion of the overall

1 financial profile of the guarantor. And also, you know, in my
2 experience it would be very rare for a lender to try to
3 exercise any sort of remedy upon a personal residence.

4 Q Are you familiar with the net worth covenants
5 contained in the loan documents on the four transactions that
6 you have evaluated in this case?

7 A Yes, sir.

8 Q Can you briefly describe your understanding of the
9 net worth covenant in the Deutsche Bank loans?

10 A Yes. The net worth covenant was \$2.5 billion and was
11 to be determined based off of the guarantor's submission as is
12 usual practice.

13 Q What does the term adjusted net worth mean in the
14 lending context?

15 A Adjusted net worth is a calculation that is
16 undertaken once a lender has an analysis. And there are
17 various adjustments that are made throughout in order to
18 provide a conservative view of how the bank looks at a
19 Statement of Financial Condition.

20 Q And in underwriting a guaranty, what is the purpose
21 of the bank utilizing an adjusted net worth, if any?

22 A The adjusted net worth provides, as I said, a
23 conservative view of what the assets are on there.

24 More importantly, it also does not adjust liability,
25 so the liabilities remain. However, assets are analyzed

1 individually and are determined by the lender in their sole
2 discretion as to where they would like that from a conservative
3 basis. And it is done in order to, as I said, as banks are in
4 the business of analyzing risk, and from a conservative
5 approach, that is what is done on these sort of statements.

6 Q And how is the concept of an adjusted net worth used
7 with respect to the determination of a minimum net worth
8 covenant by a lender, if at all?

9 A They are unrelated.

10 Q Why is that?

11 A Because the covenant is based on the net worth of the
12 guarantor, and is not the adjusted net worth. If the adjusted
13 net worth were to be the determinant, because it is done by a
14 lender, in their own discretion and under their own analysis,
15 it would be unfair to a borrower because a lender could
16 manufacture a default. If it is in their sole discretion and
17 for whatever reason -- and there have been, I have worked on
18 several deals where there have been claims by borrowers that
19 defaults were manufactured -- it would result in very dirty
20 litigation and lengthy litigation as it results to what is the
21 value.

22 Q What options are available to a lender if there is a
23 violation of a net worth covenant?

24 A There are several options. You know, first, it could
25 be whether or not you want to issue a default; whether or not

1 how you approach the client. Typically in my experience, no
2 matter what the relationship is with the borrower, whether it
3 be adverse or whether it be in the form of a very good bank
4 customer Private Wealth, that you would have a conversation
5 with them to understand exactly what is going on. And that
6 information would inform how the potential breach or covenant
7 default would impact the loan and the ability for the loan to
8 be repaid. And the ability for the loan to be debt serviced.

9 From there, conversations would then also then say,
10 okay, well what caused that default. Is there a -- is this a
11 long-term situation that will result in the net worth being
12 lower than it had been prescribed previously? Or, is it a
13 short-term blip because of a cash need for another project or
14 waiting for sales, proceeds, et cetera.

15 But it opens up the conversation. And typically if
16 it does not impact the repayment performance of a loan, it
17 would be forbear-ed against or would perhaps even be readjusted
18 downward if there was an indication that the net worth was
19 going to be lower on an ongoing basis.

20 Q And how, if at all, was the use of minimum net worth
21 covenants by Deutsche Bank consistent with your experience in
22 the real world?

23 A In my experience, in my review of the Deutsche Bank
24 credit memos, it is consistent with that.

25 Q Why is that?

1 A Because they -- they relied upon the -- their
2 knowledge and their information to set the net worth covenant.
3 And then consistent with my experience, the net worth covenant
4 was determined by the guarantor submitted statements.

5 Q I just want to clarify one point. You said
6 "inconsistent with" or "in consistency with"?

7 A In consistency with.

8 THE COURT: It is an important distinction.

9 THE WITNESS: Yes.

10 Q Why is that?

11 A Are you asking why they are consistent?

12 Q Yes.

13 A Because that's -- that is how every single loan that
14 I have worked on that has a net worth covenant is done. As I
15 mentioned earlier, if you were to rely on an adjusted net
16 worth, which is out of the control of the borrower or
17 guarantor, that would create a multitude of problems down the
18 line. But if it is in somebody's sole and absolute discretion,
19 typically a borrower and guarantor are not given a peek behind
20 the curtain to see what adjustments and analysis are done by a
21 lender. Those are proprietary documents that, in this case,
22 were obviously produced. But that is a behind the scenes
23 approach in what a lender does. You know, every lender kind of
24 has their own special sauce, if you will, as to what metrics
25 they weigh differently. And that typically comes out in their

1 risk rating process. And risk rating processes are proprietary
2 and, you know, kind of throw everything into a blender and
3 algorithms, et cetera, that are created to define that and
4 that's how that is done.

5 Q Are your observations in this case with respect to
6 Ladder Capital's conduct any different from those of Deutsche
7 Bank's conduct?

8 A No, sir.

9 MR. WALLACE: Objection, leading.

10 Q How, if at all, are your observations concerning
11 Ladder Capital's conduct different from those of Deutsche Bank?

12 MR. WALLACE: I am going to object to that as
13 well. Saying how and then asking a leading question, how
14 if at all, it is still a leading question that suggests
15 the answer to the witness.

16 I haven't been objecting to it overall, but it
17 is still a leading question.

18 MR. SUAREZ: It doesn't suggest the answer --

19 MR. WALLACE: It does.

20 MR. SUAREZ: -- which is the definition of what
21 a leading question is.

22 THE COURT: Give me a second.

23 MR. SUAREZ: I am not saying: Isn't it true
24 that the Ladder Capital underwriting isn't any different.
25 That would be a leading question because it would suggest

1 the answer. Even if I say, how is it different, that's
2 not a leading question.

3 THE COURT: How was it different is not a
4 leading question. Overruled, on the basis of common
5 sense.

6 A In my review of the documents it is consistent with
7 the other loans.

8 Q In the event of a violation of a minimum net worth
9 covenant, what is the focus of the lender's analysis?

10 A What caused that it potential decline in net worth.

11 Q And why would that be the focus of that analysis?

12 A Because you want to, as I said earlier, figure out
13 exactly what is causing it. Is it a one-time deal? Is it
14 additional liabilities that came on which would have,
15 obviously, decreased it? Is it a lack of liquidity or decline
16 in liquidity? Is it a decline in assets? It could be a
17 multitude of things. But that is -- it is important to see
18 what exactly is causing it to then determine, as I said
19 earlier, if it would impact repayment of the loan.

20 Q And in the real world what is bank practice when
21 there has been a breach of a covenant that is not related to
22 payment?

23 A That's typically known as what we call, little d,
24 default. And would not be something that would really raise
25 the eyebrows of the lending institution. It would certainly

1 open up a conversation to allow the lender to understand what
2 has changes and if the risk profile has changed at all. But it
3 would not necessarily and very limitedly, in my experience,
4 would result in any sort of default being issued and
5 enforcement of remedies and rights.

6 Q And how, if at all, did you observe the concepts that
7 you described in Deutsche Bank's loan underwriting?

8 A It was consistent with my experience.

9 Q How so?

10 A In that if there was a breach, that they would reach
11 out, they would discuss with the client and kind of go through,
12 et cetera, what that would be. And then conduct their own
13 analysis, as I said, through the annual review, et cetera, to
14 assess their risk and the repayment.

15 Q Was your analysis any different for Ladder Capital's?

16 A No. No, sir.

17 Q What are the factors that a bank considers when
18 pricing a loan?

19 A There are multitude of factors that are considered
20 when pricing a loan. Obviously the loan itself, the collateral
21 behind it is one. And how well that collateral protects the
22 bank from a loan-to-value standpoint. What the debt service
23 coverage ratio would be. Liquidity of not only the borrower
24 and the guarantor; direct liabilities so that you understand
25 what the overall cash flow of an entity and an individual is.

1 And then also, even going beyond that, which is also important,
2 when you are looking at pricing is, the overall relationship
3 that an individual or a relationship has at an institution. As
4 discussed earlier, the cross selling is a huge push at all
5 banks in my experience at both of the national banks that I
6 worked at. And trying to drive non-revenue -- excuse me,
7 non-interest income, fee income, is extremely important. And
8 that fee income whether it be through Trust and Estates,
9 whether it be through Derivatives and Swaps, et cetera, is
10 something that weighs heavily as well. So there are a
11 multitude of factors. But relationship is extremely important
12 in determining that, in what the overall relationship value is.
13 As well as risk adjusted return on capital. There are multiple
14 metrics that go beyond just an individual debt product to
15 determine what that pricing would be.

16 MR. SUAREZ: Your Honor, I would like to show
17 the witness what has previously been marked as
18 demonstrative DD-4.1.

19 Q Mr. Unell, do you recognize this chart?

20 A Yes, sir.

21 Q What is this chart?

22 A This chart is a chart of average mortgage terms that
23 was sourced from Realty Rates which investor survey. Which
24 shows the average spread for loans over the period of Q-1, 2011
25 to Q-4, 2012, based on various different asset classes:

1 Office; Golf Course and Country Clubs; and Lodging Facilities.

2 Q And where does the information from this chart --
3 withdrawn.

4 Did you produce this chart?

5 A Yes, sir.

6 Q Where did you obtain the information that's contained
7 on this chart?

8 A Our firm subscribes to Realty Rates and uses them
9 frequently in our assignments.

10 Q What are Realty Rates?

11 A Realty Rates is a service that provides various
12 surveys. This one is their investor survey. They have a
13 developer survey and I believe they have one more.

14 Typically they will survey two to 300 various real
15 estate professionals in development and banking and valuation
16 and comply those results into a quarterly publication that
17 gives an indicative view of rates, loan-to-values and other
18 loan terms that are available in the marketplace.

19 Q And how does this chart relate to the pricing of the
20 Deutsche Bank loans at issue in this case?

21 A For this particular chart the loans that were
22 originated during this period of time from Q-1, 2011 through
23 Q-4, 2012, would show what the spread would be on the various
24 asset classes: Office; Golf Course and Country Club; and then
25 finally Lodging Facilities full service. Which Doral would

1 have been falling under the Lodging Service full service
2 facilities as well as Golf Course and Country Clubs; and the
3 others would fall under Office as well.

4 MR. SUAREZ: And if we could please pull up
5 Mr. McCarty's chart? PX-3302.

6 Q Mr. Unell, are you familiar with this chart?

7 A Yes, sir.

8 Q And how have you become familiar with this chart?

9 A I received it as part of Mr. McCarty's report, and
10 then ultimately this version was updated and I am not sure when
11 it was received. But I looked at it.

12 Q And what -- what work, if any, have you done to
13 review this chart?

14 A I have gone through and reviewed to make sure that
15 the -- it was accurate from a mathematical standpoint. As well
16 as I have gone through and reviewed the -- the hypothetical CRE
17 interest percentages that are contained in this document.

18 Q And what, if any, opinion do you have concerning the
19 use of the hypothetical CRE interest rates?

20 A I do not agree with the rates that are the CRE
21 interest percentage rates here.

22 Q Why is that?

23 A They are vastly different than the data that I have
24 seen provided by Realty Rates, other data sources has shown
25 commercial mortgage, as well as the actual loans and the loan

1 pricing grid that was -- that was prescribed and part of the
2 Deutsche Bank Private Wealth Management practice.

3 Q What was the basis for Mr. McCarty's use of those CRE
4 interest rates in his analysis?

5 A You know, I believe that on one of them he utilized a
6 loan that was originated in 2005; made the assumption that the
7 2005 interest rate would still be applicable today. Market
8 conditions, time has changed from 2005 during the origination,
9 and utilizing a 2005 rate, in my opinion, is not a good measure
10 for what should be. That being one.

11 And there was also no other support that I was able
12 to find in Mr. McCarty's report to support that number. The
13 others were -- one was based off of a non-binding term sheet
14 that was non-negotiated and took it as it would be done.

15 And I am not sure of where the others came from. I
16 know there was some discussion about others. But in general, I
17 did not see any support for those numbers.

18 And also, you know, saying that what the CRE interest
19 percentage is, to be able to state what a bank that does their
20 own pricing CRE would be, would have to have knowledge of how
21 their pricing would work internally to know, okay, this is
22 10 percent, it would not be negotiated. And the term sheet for
23 the 10 percent was provided to show -- I am not exactly sure
24 what it was provided. But it would not be atypical for a
25 lender to issue a term sheet at rates or terms that were

1 obtuse, because they were trying to push business elsewhere or
2 trying to contain it in the Private Wealth Group.

3 Q How, if at all, is that consistent with the evidence
4 that you have heard in this case?

5 A It is a -- it is consistent with the evidence that I
6 heard from the Deutsche Bank personnel that testified.

7 Q How so?

8 A They testified that the rate is determined by them.
9 That there were a multitude of factors that went into the rate.
10 One factor that was never considered was the complete
11 elimination of the guaranty. And my understanding of what
12 Mr. McCarty did is, is Mr. McCarty is stating that these rates
13 are as if there is no guaranty. And there is a guaranty in
14 place here. And so it would be very difficult to state that
15 you go from a guaranty to no guaranty, and then also apply
16 these to them. It also does not indicate whether or not that
17 there were other options for financing at that time, that the
18 defendants could have gone out and sought on their own. So it
19 is a really, in my opinion, a very narrow-minded approach to
20 come up with an interest percentage that I did not find any
21 support for. As a matter of fact, find actually contrary
22 support from Realty Rates and the testimony of Deutsche Bank.

23 MR. SUAREZ: If you pull up DD-4.1 next to
24 Mr. McCarty's analysis.

25 Q Can you explain how the Realty Rates spreads are

1 inconsistent with the spreads suggested by Mr. McCarty, if at
2 all?

3 A Yes. So, for instance on Doral, we can use that,
4 where you came with the 10 percent.

5 First, I also think it is important to note that
6 these loans were contractually done on an index versus spread.
7 And the other problem with Mr. McCarty's analysis is
8 Mr. McCarty does not take into account fluctuations in what the
9 base rate is. And the base rate in this case is LIBOR. He is
10 assuming a fixed rate across the board. These are not
11 fixed-rate loans. These loans fluctuate based on LIBOR and the
12 spread. The spread remains the same.

13 So, without knowing -- without having in front of me
14 exactly what LIBOR is, the way that these loans would be priced
15 would fall in-between, on Doral, somewhere between the Golf
16 Course and Country Club and the Lodging Facility. So it would
17 be LIBOR, call it, plus 400 in that range.

18 This also does not take into account the other credit
19 support. It does not take into account other items that are in
20 there. These are just basic as if the loan-to-value was
21 70 percent, plain vanilla. But it is also the best indication
22 in the market at that time as to what actual rates were and
23 what deals were getting done at. This is real life. This
24 isn't a non-binding term sheet that threw out a number that was
25 never discussed or negotiated.

1 These are actual deals that are surveyed by people in
2 the market across the country that are living and breathing
3 these deals daily. And it would indicate that the rate would
4 be well below the 10 percent that Mr. McCarty has established
5 in his exhibit.

6 Q In your answer just now, what did you mean by "credit
7 support"?

8 A Credit support are other items outside of the
9 collateral. So a guaranty could be considered credit support.
10 Credit support could be the other assets of the borrower. It
11 could be a multitude of items. It could be letters of credit.
12 But, you know, it is, like I said, it is an average.

13 Unfortunately, because loan terms are by and large
14 confidential, and we saw that yesterday in Ms. Vrablic's with
15 the OPO thing, that banks are very guarded on giving out their
16 terms. This, because it is a survey of two to 300 people on a
17 quarterly basis, is the best indication for value. And is used
18 across the commercial real estate industry to benchmark rates,
19 especially when we are having to go back in time to determine
20 whether or not a rate was -- was applicable; whether it was
21 within a range of what would be considered acceptable. It is
22 nearly impossible to place an exact interest rate on this
23 looking back in time, because none of us have worked for
24 Deutsche Bank. And the best indication as to what this rate
25 would be, would be Deutsche Bank, because Deutsche Bank is the

1 evaluator of risk. They are the evaluator of materiality. And
2 they are the ultimate user and the one where this matters. And
3 it is their sole determination, based on their analysis, as to
4 how they want to price the loan.

5 This also would not factor in any sort of
6 relationship value and other products that the family of
7 President Trump may have had with Deutsche Bank. And it is
8 important to note that it is not just -- when a bank looks at
9 it, they look at it as a relationship like a family. And it
10 would consist not only of President Trump but his children as
11 well. So any other loans -- that would fall off and we would
12 all get credit for that relationship and the other items in
13 their total relationship value.

14 Q And how is the analysis that you just described for
15 the Doral loan -- how does that analysis apply to the Chicago
16 loan?

17 A The same could be said. So Chicago, when you look at
18 Chicago it would fall within on the Office side as well. And
19 that would be on the lower spread. Spreads are obviously based
20 on risk profile of various assets at various times.

21 For instance, during COVID spreads on Hospitality
22 went through the roof because everybody thought that
23 Hospitality was dying. Spreads on Retail went up dramatically.
24 On the flip side, spreads on Industrial went down because of
25 the large amount of -- there are a multitude of factors outside

1 of just what is on the paper and on this loan, that also play
2 into the determination of what a rate is. There are macro
3 level things. There are also individual items that the bank
4 may have.

5 And also, banks may want to have a diversification of
6 asset classes. Where if they do not want to have 100 percent
7 of their commercial real estate in Office; or they want an even
8 balance between Hospitality, between Retail, between Office,
9 between Multi-family. And so without having the knowledge of
10 what the actual business plan was at Deutsche Bank, but hearing
11 their testimony, feel that they were within their right, as all
12 banks are, to set the pricing based on the multitude of
13 factors. Factors that are unknown to any of us, except for
14 those at Deutsche Bank because it was their decision.

15 Q And how does your analysis of these loans apply to
16 the OPO transaction?

17 A Same thing. OPO being a lodging facility. The
18 closest examples that you would be able to find in the
19 marketplace would be the green line on there, which would
20 indicate a spread of, you know, approximately 400 basis points
21 there. Which would be, you know, while the loan at OPO was
22 lower, that also doesn't factor in the 400 basis points here.
23 The various other items that would consist of total
24 relationship value, which would assist in garnering competitive
25 pricing from Deutsche Bank as outlined in their own memo on the

1 business plan for obtaining commercial real estate loans.

2 Q Is the use by Mr. McCarty of a 8 percent rate
3 appropriate?

4 A In my opinion, no, it is not.

5 Q Why?

6 A It is unsupported. It is based, I am not even sure
7 on what at this point. But, it is not -- I have not seen
8 anything to indicate that that would be an accurate interest
9 rate. And I believe, in my opinion, the Deutsche Bank
10 testimony would support that as well.

11 (The following proceedings were stenographically
12 recorded by Senior Court Reporter Michael Ranita.)

23

24

25

1 MR. SUAREZ: If we could replace DD4.1 with DD4.2.
2 (Whereupon, the exhibit was displayed on the
3 screen.)

4 Q Do you recognize this chart, Mr. Unell?

5 A Yes, sir.

6 Q Did you prepare this chart?

7 A Yes, sir.

8 Q What does this chart represent?

9 A This is a similar chart. However, the data came from
10 the Commercial Mortgage Commitments database. And the
11 Commercial Mortgage Commitments database is compiled by the
12 Association of Life Insurers, and it is done so -- life insurers
13 place a lot of real estate debt. This is how they are able to
14 benchmark each other to see how each individual life co is
15 pricing various loans, and provides industry data not only for
16 those individuals, but for banks to remain competitive with life
17 cos, as life cos are typically a very good competitor to banks
18 on the real estate lending side.

19 Q What, if anything, does this analysis reflect with
20 respect to Mr. McCarty's selection of an eight percent rate on
21 the OPO transaction?

22 A The data on this chart from Commercial Mortgage
23 Commitments would refute that and be, um, not support that eight
24 percent. It would be the spread plus approximately anywhere
25 from 250 to -- at the lowest, um, call it from 300 basis points

1 to 200 basis points, plus the applicable index.

2 Q And how about Doral?

3 A Doral would be the same. This would also indicate that
4 figures utilized by Mr. McCarty are not supported by this data.

5 Q And how about Chicago?

6 A The same. It would show that the figures utilized by
7 Mr. McCarty are not indicative to actual terms that were
8 available in the market at the time.

9 MR. SUAREZ: If we could pull up DD4.3.

10 (Whereupon, the exhibit was displayed on the
11 screen.)

12 Q Mr. Unell, do you recognize this chart?

13 A Yes, sir. This is a chart of -- of -- from realty
14 rates, once again, but this focuses on the average mortgage
15 spread from Q1 2013 to Q4 2015, and focuses solely on
16 full-service lodging facilities.

17 Q How, if at all, does this -- does the analysis
18 contained within this chart inform your evaluation of the rates
19 selected by Mr. McCarty?

20 A It would -- this does not support the rate that was
21 utilized by Mr. McCarty.

22 Q And with respect to the Chicago transaction, why is
23 that?

24 A Because the Chicago transaction, Mr. McCarty used a
25 fixed 7.5 percent rate. Once again, this was not a fixed rate

1 loan. It did go -- fluctuate based on the index. And not only
2 that, the index plus the spread would have been below the
3 7.5 percent utilized as a fixed rate by Mr. McCarty.

4 Q And how does this analysis apply to the Doral loan?

5 A It would be the same. Once again, it would be much
6 lower than the ten percent that was utilized by Mr. McCarty
7 during this exercise.

8 Q And with respect to the Chicago loan?

9 A The Chicago loan, it would be the same, you know,
10 fallen, and once again, below 7.5 percent.

11 MR. SUAREZ: If we could pull up DD4.4.

12 (Whereupon, the exhibit was displayed on the
13 screen.)

14 Q Do you recognize this chart?

15 A Yes, sir.

16 Q Did you prepare this chart?

17 A Yes, sir.

18 Q What does this chart represent?

19 A This chart represents the loan-to-value ratio for
20 lodging facilities from Q1 2013 to Q4 2015, and indicates that
21 it remains stable at 70 percent loan-to-value was the average
22 loan-to-value for full-service lodging facilities by lenders
23 during this time period.

24 Q How does this chart relate to the pricing of
25 defendant's loans?

1 A As the loan-to-value goes lower, the pricing would
2 improve for the side of the borrower, because lower
3 loan-to-value equates to better security for the lender, which
4 equates to less risk, and if there's less risk, then the
5 risk-based pricing would indicate that it would be lower.

6 Q And how is your analysis of market rates consistent, if
7 at all, with the manner in which Deutsche Bank priced the loans
8 at issue in your analysis?

9 A It was consistent, but it's also -- these are guidance.
10 And once again, the pricing is in the sole discretion of the
11 lender. And there are multiple factors that go into that. And
12 as I mentioned, the only folks that are able to determine that
13 are Deutsche Bank. And they did so, and it went through a lot
14 of scrutiny, based off of the e-mails and the discussion I had,
15 or discussions that I have seen, as it relates to pricing on
16 these various assets.

17 MR. SUAREZ: If we could please pull up what's been
18 previously admitted into evidence as Defendant's
19 Exhibit 205.

20 (Whereupon, the exhibit was displayed on the
21 screen.)

22 (The witness was handed the exhibit.)

23 THE WITNESS: Thank you, sir.

24 Q Mr. Unell, do you recognize this document?

25 A Yes, sir.

1 Q What is this document?

2 A This document is the pricing grid that was utilized by
3 the Private Wealth Management at Deutsche Bank.

4 Q And how was this grid utilized in determining the
5 pricing on the three Deutsche Bank loans at issue in your
6 analysis?

7 A Based on my review of documents and testimony, and the
8 depositions I've read, that this was a chart that was used as
9 guidance for all clients of the Private Wealth Management bank,
10 and the pricing that was provided to the defendants was
11 consistent with the 2.0 to 2.5 percent of commercial real estate
12 as it states in the Americas line for commercial real estate.

13 Q And in the case of Deutsche Bank, how would someone
14 qualify for this pricing grid?

15 A Based on documents and testimony, um, my understanding
16 is that qualification of the Private Wealth Management would be
17 a \$50 million net worth.

18 Q And was President Trump qualified as a member of the
19 Private Wealth Management Group at Deutsche Bank?

20 A Yes, sir.

21 Q What does the term "high net worth individual" mean in
22 the banking industry?

23 A The "high net worth individual" typically is somebody
24 that has a threshold of assets and/or liquidity, and at times
25 there is also the ability for lenders to make exceptions for the

1 Private Wealth Management Group if somebody has a closely held
2 business, maybe expecting a liquidity event. Each institution
3 has what their own definition of what high net worth and ultra
4 high net worth are. And 50 million and a hundred million are
5 typically what you see. At one point, 30 million, but as things
6 have changed over the years and wealth has increased, that
7 number has typically gone up to 50 million.

8 Q Why do banks seek out high net worth individuals as
9 clients?

10 A High net worth individuals, as clients, provide a
11 multitude of revenue sources for a lender, whether it be credit,
12 whether it be trusts to cross sell opportunities out there. The
13 derivatives for fixing rates, you know, deposits, investments,
14 investment banking, all of that is, as I mentioned earlier, you
15 know, noninterest income. And noninterest income equates to fee
16 income, and banks love fee income.

17 A lot of times they will lead with credit and then try
18 to grow the relationship so that they can get some of those more
19 advantageous products with a client, such as the ongoing fee.

20 Debt is also typically a commoditized item in that it
21 is not consistent where a borrower is going to come to you every
22 year where the same request.

23 So in order to kind of establish that relationship,
24 grow that relationship, you would want to have other tentacles,
25 as I would call it, into there, which provide a multitude of

1 revenue sources, which are a big factor into the pricing of a
2 loan.

3 MR. SUAREZ: I already know, when your Honor looks
4 at me like that, you have a question.

5 THE COURT: Can I get a read back of the last
6 question.

7 (Whereupon, the requested testimony was read back
8 by the court reporter.)

9 THE COURT: Mr. Suarez, do you know who Willie
10 Sutton was?

11 MR. SUAREZ: I don't know.

12 THE COURT: He was a bank robber, and he was asked
13 why he robbed the banks. And his answer was, "Because
14 that's where the money is."

15 Why do they seek out high net worth individuals?
16 That's because they have money. But we received a much more
17 detailed answer, which is fine.

18 MR. WALLACE: I think that's been covered by this
19 witness and many others as to why banks like rich people.

20 MR. KISE: I thought it was the Attorney General's
21 position that President Trump doesn't have any money and
22 that's why he had to go to the banks.

23 MR. WALLACE: If Mr. Kise carefully read our
24 papers, it didn't say he had no money.

25 MR. KISE: He only had \$3 billion, not five. I got

1 it.

2 THE COURT: Anyway sorry for the interruption.
3 Let's continue.

4 MR. SUAREZ: If we could turn to defendant's
5 demonstrative DD4.7.

6 (Whereupon, the exhibit was displayed on the
7 screen.)

8 Q Do you recognize this demonstrative?

9 A Yes, sir.

10 Q What is demonstrative?

11 A This is a chart that I prepared utilizing data from
12 Forbes that shows the number of billionaires, worldwide and in
13 the United States, by year.

14 Q And in the period of 2010 to 2012, approximately how
15 many billionaires were there in the world?

16 A Just over 400.

17 Q In the world?

18 A In the world? Between a 1,000 and 1,200.

19 Q And how many were there in the United States?

20 A Between 400 and 424.

21 Q According to Deutsche Bank's own analysis, would
22 President Trump qualify as one of those 400 or so billionaires
23 in the United States?

24 MR. WALLACE: Objection. Leading.

25 THE COURT: Sustained.

1 Q What, if anything, did you see in Deutsche Bank's
2 analysis as to whether President Trump would qualify as 400 or
3 so billionaires in the United States during that time period?

4 A Based on my review of the analysis conducted by
5 Deutsche Bank, they firmly believed that he was one of the 400
6 individuals in the United States that qualified as a
7 billionaire.

8 Q What capacity does a bank like Deutsche Bank have, if
9 any, to underwrite the financial conditions of a billionaire?

10 A Deutsche Bank, as a sophisticated international lender,
11 would have ample ability to underwrite and make their own
12 analysis and decisions onto the financial wherewithal of an
13 individual.

14 Q And what, if anything, is different as to how you
15 underwrite the financial condition of one of these very few
16 people in this country that are worth more than one billion
17 dollars?

18 A It presents a unique opportunity, and it takes a lot of
19 review work and analysis, which was conducted by the Deutsche
20 Bank team, as evidenced by their review of liquidity, by their
21 engagement of their evaluation services group, as well as the
22 other analysis where they have reviewed and conducted their own
23 adjusted net worth.

24 Q And what, if anything, about the fact that President
25 Trump was among these very few number of individuals in this

1 country that are billionaires, would have lent credit support to
2 the transactions entered into by Deutsche Bank in this case?

3 A It would have carried a lot of weight for their ability
4 to grow the relationship and increase the share of wallet.

5 Q Why is that?

6 A Because of as I mentioned earlier, leading with credit
7 is typically a good way to win over the hearts and minds of high
8 net worth real estate developers, or any real estate developer
9 in that matter, but with that comes, as I mentioned earlier, the
10 other opportunities to generate revenue from a high net worth
11 individual, or in this case, an ultrahigh net worth individual.

12 And I also believe that, as stated by Ms. Vrablic, that
13 it also presented an opportunity for introductions, which would
14 also help Deutsche Bank grow their Private Wealth business.

15 Q What, if anything, about the financial characteristics
16 of a billionaire would make them attractive to a bank as a
17 guarantor?

18 A You know, when there is only 400 or so of them in the
19 United States, it really kind of puts them up there in what I
20 consider rare air. And when you look at the security and the
21 ability to support a credit, it would place them in, you know,
22 the top quarter percent of individuals in the United States in
23 their ability to support a credit.

24 MR. SUAREZ: Going back to your Honor's analogy
25 about why banks like billionaires, I think that's where the

1 money is.

2 THE COURT: If there is one thing we've learned in
3 the last eight weeks, or whatever it's been, is that banks
4 love billionaires. It could be a motto.

5 MR. SUAREZ: If we could pull up defendant's
6 demonstrative 4.5.

7 (Whereupon, the exhibit was displayed on the
8 screen.)

9 Q Do you recognize this chart, Mr. Unell?

10 A Yes.

11 Q Did you prepare this chart?

12 A Yes, sir.

13 Q What does this chart represent?

14 A This chart represents President Trump's net worth as
15 shown on the blue line. It also represents what the Deutsche
16 Bank minimum requirement was for net worth. It also then has
17 the Deutsche Bank adjusted net worth as determined by them.

18 And then finally the red line down on the bottom shows
19 the Ladder Capital minimum liquidity requirement -- net worth,
20 excuse me, requirement, not liquidity.

21 Q What, in your experience, does it mean that the DB
22 adjusted net worth and the DB minimum requirement on certain of
23 the loans are so close together?

24 A That's not indicative of it. What would be indicative
25 of what Deutsche Bank would look at and also as collaborated by

1 their testimony is that when you are looking at, it would be the
2 blue line versus the purple line and not the green line.

3 Q And would Deutsche Bank -- withdrawn.

4 How, in your experience, would it be consistent with
5 real world banking practices for there to be a difference
6 between the stated net worth of the guarantor and the adjusted
7 net worth of the lender?

8 A It is very typical to have a deviation between the net
9 worth reported by a borrower and the adjusted net worth as
10 determined by a lender in their sole discretion.

11 Q And is that consistent with what you observed in the
12 relationship between Deutsche Bank and President Trump, if at
13 all?

14 A Yes, sir. It would be consistent with all real estate
15 loans that I've worked on, whether somebody is worth one hundred
16 thousand dollars, a million dollars, one hundred million
17 dollars, or several billion dollars, that this would still
18 remain the same as to what to look at, which would be the net
19 worth versus the requirement, and not the adjusted net worth.

20 Q How would you describe the difference between the
21 Ladder Capital minimum requirement and President Trump's net
22 worth?

23 A Close to about -- in 2010 there was about a \$4 billion
24 gap, and by 2015, that gap had increased to approximately
25 \$6 billion difference.

1 Q And what, if any, conclusions do you draw from that
2 gap?

3 A That there was a wide margin there. Um, that it was --
4 that the -- also that the net worth requirement imposed by
5 Ladder was not something that they felt very strongly on. To
6 place it at such a low minimum, it was probably put in there, in
7 my opinion, as to, "Hey, we've got to have a net worth
8 requirement. Let's just put something in there." But it was
9 based off of its low -- it's not something that was factored
10 into their overall decision.

11 MR. SUAREZ: If we could put up D-205 next to this
12 chart.

13 (Whereupon, the exhibit was displayed on the
14 screen.)

15 Q What opinion do you have, if any, as to whether
16 President Trump's net worth qualified him for the pricing grid
17 on D-205?

18 A Based on the net worth, the adjusted net worth, the
19 Deutsche Bank minimum requirement that the threshold would have
20 been met to qualify for the 2 to 2.5 percent, as prescribed in
21 this document.

22 Q And how, if at all, would a decrease in the
23 loan-to-value of the loans, throughout their course, affect the
24 pricing?

25 A A lower loan-to-value equates to a more secure loan for

1 the lender, and return for that -- as going back to risk-based
2 pricing, and return for that, the lender typically offers a
3 lower interest rate because they are basing their pricing off of
4 risk. And with a lower loan-to-value, the risk profile is
5 diminished. And so with a lower risk profile comes a lower
6 rate. Like I said, risk-based pricing as determined by Deutsche
7 Bank.

8 MR. SUAREZ: If we could please pull up Plaintiff's
9 Exhibit 293 at page five.

10 (Whereupon, the exhibit was displayed on the
11 screen.)

12 (The witness was handed the exhibit.)

13 THE WITNESS: Thank you, sir.

14 Q Mr. Unell, is this a document that you reviewed in
15 connection with your -- in connection with preparing your
16 opinions in this case?

17 A Yes, sir.

18 MR. SUAREZ: Can we turn to the recommendations.

19 (Whereupon, the exhibit was displayed on the
20 screen.)

21 MR. SUAREZ: Which may be at page five of the
22 document, not the exhibit.

23 (Whereupon, the exhibit was displayed on the
24 screen.)

25 MR. SUAREZ: Go forward.

1 (Whereupon, the exhibit displayed on the screen was
2 scrolled through.)

3 MR. SUAREZ: Page three.

4 (Whereupon, the exhibit was displayed on the
5 screen.)

6 MR. SUAREZ: Zoom in on recommendations.

7 (Whereupon, the exhibit displayed on the screen was
8 enlarged.)

9 Q Do you see here the analysis contained in the Deutsche
10 Bank credit memo?

11 A Yes, sir.

12 Q Have you reviewed this credit memo?

13 A Yes, sir.

14 Q Have you seen the recommendations made by Deutsche Bank
15 in this credit memo?

16 A Yes, sir.

17 Q And what was the basis for recommending this facility,
18 according to the credit memo?

19 A The financial strength of the guarantor, the nature of
20 the guarantee, the operating experience, and the expected
21 enhanced value due to Capex.

22 Q Is this consistent with your experience in the real
23 world?

24 A With one exception. I think it goes without saying,
25 the facility would not be recommended at all if Deutsche Bank

1 was not comfortable with the actual collateral.

2 So I think that this is additional comfort, because
3 there is a whole section on collateral, and I think it's
4 important to note that none of this comes into play if the
5 lender is not satisfied with the actual project that they are
6 lending on as collateral. So beyond that, it would be
7 consistent.

8 Q What does the credit memo reflect concerning the
9 strength of the guarantor with respect to Deutsche Bank's own
10 analysis?

11 A It actually, from this it shows that it is on an
12 adjusted basis. That it shows that the unencumbered liquidity,
13 and then it clearly states on adjusted basis the \$2.4 billion of
14 net worth is what the financial strength of the guarantor was,
15 per this document.

16 Q Is that consistent with your experience in the real
17 world?

18 A Yes, sir.

19 Q How so?

20 A Once again, going back to what I stated earlier about
21 adjusted net worth, you know, banks have their own internal kind
22 of things, and that's what we are looking at here. But on the
23 outside, borrowers don't know about the adjusted net worth. So
24 this is the conservative of view placed forward by the bank
25 showing how they feel about the financial strength of the

1 guarantor on an adjusted basis, based off of their own
2 independent analysis of the Statement of Financial Condition
3 submitted by President Trump.

4 MR. SUAREZ: If we could turn to page four of the
5 exhibit.

6 (Whereupon, the exhibit was displayed on the
7 screen.)

8 Q Do you see the section that says "financial analysis"?

9 A Yes, sir.

10 Q With respect to the guarantee actually provided by
11 President Trump, what does this analysis represent?

12 A This analysis represents Deutsche Bank's independent
13 analysis of the Statement of Financial Condition submitted by
14 President Trump, and it's consistent with transactions and
15 credit memos that I have worked on and reviewed in my
16 experience.

17 Q And what, if anything, in your experience would explain
18 the difference between the client reported net worth of
19 \$4.2 billion, approximately, and the DB adjusted net worth of
20 \$2.365 billion?

21 A You know, if you look at this in detail, the -- you
22 know, the main differential there is the net equity in real
23 estate. There is a change between the adjusted, downward,
24 however, the other assets is adjusted upward by approximately
25 100 million.

1 So the lenders don't necessarily make adjustments all
2 downward. It's their own independent analysis that allows them
3 to arrive at their own decision based off of, not only the
4 document, but their own experience and various other sorts of
5 assets, and also in discussions with the provider of this so
6 that they can better understand the statements.

7 Q With respect to the guarantee, regardless of whether
8 there's a difference in the value of the assets that support the
9 guarantee, does that change the nature of the assets that
10 support the guarantee?

11 A Absolutely not. The guarantee stands on its own,
12 despite what is behind it. And that goes whether or not
13 somebody loses everything. The guarantee still remains in
14 place. It's not necessarily tied to any particular asset.
15 There's no portion of the guarantee that says, you have to have
16 this, you have to have that. The guarantee remains in place no
17 matter what the ultimate financial profile is of the guarantor.

18 Q And how, if at all, does the guarantee change depending
19 on the adjustments to the value of the assets of the guarantor?

20 A It does not change. It still provides the same level
21 of guarantee that was -- no matter -- that was submitted. The
22 guarantee does not change.

23 As I mentioned, it still keeps the engagement of the
24 borrower, of the guarantor. Um, it makes them, you know, want
25 to be engaged in the event, as I mentioned earlier, that there

1 was a COVID situation where there was cash flow light. If you
2 don't have the guarantor there, if they've got a dollar or a
3 hundred million dollars, they are going to potentially find a
4 way to help you if they have a dollar, versus trying to be
5 dragged through a legal proceeding to try to enforce a
6 guarantee.

7 They are going to cooperate. In my experience, it may
8 not be an ultimate cooperation, but you will get a seat at the
9 table with somebody, where if you do not have that guarantee,
10 you are not guaranteed, pun intended, to get a seat at the table
11 to restructure a loan.

12 THE COURT: Five-minute warning.

13 Q And in your experience in the real world, what does it
14 mean that Deutsche Bank accepted President Trump's guarantee,
15 even after having a different view of his financial condition?

16 A That after conducting their own analysis and review,
17 that they felt comfortable with the Statement of Financial
18 Condition and the strength of the guarantor to support the
19 credit as proposed in this document.

20 Q And in your review of the Deutsche Bank's analysis of
21 these credit facilities during their lifetime, what, if
22 anything, changed about those conclusions?

23 A None. That the guarantee would still remain in place
24 no matter what the adjusted net worth was.

25 Q And in the real world, what does that mean?

1 A It means that the bank got what they wanted and that
2 they have a guarantee. They have a warm body that is going to
3 stand behind the loan and provide additional credit support, if
4 needed.

5 Q And how, if at all, is this inconsistent with any of
6 the other transactions that you've been involved with in your
7 professional career?

8 A It is consistent with the transactions that I've worked
9 on throughout my career.

10 MR. SUAREZ: I'm at good stopping point on my
11 outline.

12 THE COURT: Okay. I have a quick question for the
13 witness.

14 In your review of the record in this case, did you
15 see the part about how I wrote an opinion, as risk rises,
16 interest rates rise?

17 THE WITNESS: I believe I have reviewed a portion
18 of it, but not in detail, your Honor.

19 THE COURT: Just to refresh your recollection, I
20 wrote an opinion. As risk rises, interest rates rise. And
21 you said that several times yourself today.

22 When the witness was asked whether he agreed with
23 that statement, you said, well, yes, but I would have used
24 slightly different words. And I asked him, "What words
25 would you have used", so that I could use that next time I

1 have a case like this. So we agree on risk, interest rates
2 rising.

3 All right, lunchtime. So whatever you are going to
4 do for the next hour, see you at 2:15.

5 MR. WALLACE: I don't know if you have a sense of
6 how long you have left. My point is, I don't think we have
7 much, but we could do this later.

8 THE COURT: Mr. Suarez, any idea how much longer
9 with this witness?

10 MR. SUAREZ: I expect to finish in the third
11 quarter.

12 THE COURT: In the?

13 MR. SUAREZ: Of the day. In the later half of the
14 afternoon.

15 THE COURT: Okay. I'll admonish the witness, order
16 the witness not to discuss the case.

17 THE WITNESS: Thank you, your Honor.

18 THE COURT: This isn't your first rodeo.

19 (Whereupon, the case on trial was adjourned until
20 2:15 for the luncheon recess.)

21 (Continued on the next page.)
22
23
24
25

1 COURT OFFICER: All rise.

2 Part 37 is back in session. Please be seated
3 and come to order.

4 MR. SUAREZ: Your Honor --

5 THE COURT: The witness.

6 MR. SUAREZ: -- we recall the witness.

7 (Whereupon, the witness resumed the stand.)

8 THE COURT: As usual I will remind the witness
9 that he is still under oath.

10 THE WITNESS: Thank you.

11 THE COURT: Hope you had a good lunch.

12 MR. SUAREZ: If we could please pull up the
13 McCarty chart, Plaintiff's 3302 at page four. And pull up
14 next to it Plaintiff's Exhibit 552.

15 Defendant's Exhibit 552.

16 Q If I could draw your attention, Mr. Unell, it says:
17 All. Attached is the RUC memo for 40 Wall Street?

18 A Yes, sir.

19 Q Are you familiar with the RUC memo for 40 Wall
20 Street?

21 A Yes.

22 Q What is an RUC memo?

23 A It is a credit memo in the term utilized by Ladder
24 Capital.

25 MR. SUAREZ: If we could turn to page three of

1 the exhibit?

2 Q What is a committee presentation?

3 A A committee presentation is a formal presentation to
4 a credit committee at a lending institution.

5 Q How is a committee presentation used, if at all, to
6 determine the price of a loan?

7 A It is part of the overall approval process typically.
8 Typically it would be presented, as it says here, by an
9 originator, which in this case was Jack Weisselberg, and the
10 underwriters, who present this and recommend it for approval.
11 At which time this document, typically, along with the
12 conversation, would formulate the approval or revision of terms
13 or a denial of the credit as presented by the originator and
14 his underwriting team.

15 Q Now, on the left, do you see the presentation of 40
16 Wall in Mr. McCarty's analysis?

17 A Yes, sir.

18 Q Have you reviewed Mr. McCarty's presentation for 40
19 Wall?

20 A Yes, sir.

21 Q And have you reached any opinions concerning the
22 analysis performed by Mr. McCarty?

23 A Yes, sir. Yeah.

24 Q What opinions have you reached?

25 A I have reached that, in my opinion, that the interest

1 rate that is utilized is not commiserate with what the market
2 was at the time.

3 MR. SUAREZ: Now, if we could turn to page four
4 of the RUC presentation?

5 Q And if I could direct your attention to the occupancy
6 rate for the collateral.

7 How does the collateral -- withdrawn.

8 How do the characteristics of the collateral, if at
9 all, affect pricing?

10 A Well, collateral in a real estate secured loan is the
11 primary source of repayment, and what lenders look to to not
12 only service the debt, but ultimately to payoff the note,
13 whether it be through sale, refinance, et cetera.

14 The occupancy is a direct factor in what cash flow
15 is. Occupancy, obviously, has an impact on revenue and is one
16 of multiple factors that a lender would look at in determining
17 whether or not this asset was stabilized and what other
18 opportunities may arise for a particular asset.

19 Q How does an improvement in the quality of the
20 collateral affect pricing?

21 A The better the collateral, the better the pricing.
22 It is a direct correlation between risk and risk-based pricing.
23 You know, the lower the risk, the lower the pricing. The
24 higher the risk, the higher the pricing. As a LTV decreases,
25 that places a lender in a better position from a collateral

1 standpoint, therefore de-risking the loan profile.

2 Q How does a -- how does the occupancy rate in 40 Wall,
3 at the time this memorandum was prepared, affect pricing?

4 A Well, it would show that the asset is well occupied
5 and most likely stabilized. Typically when you look at any
6 office facility above in the mid 90s, that would represent that
7 it is a stabilized asset and is performing as planned.

8 Q And how would an LTV of 29.6, how would that factor
9 affect the quality of the collateral in a real estate loan?

10 A That is an extremely good loan-to-value and would
11 represent that 30 percent, approximately, loan-to-value, so
12 that the loan would be approximately 30 percent of the
13 appraised value of their collateral, therefore providing the
14 lender with a very large margin for a slippage in value. And
15 this would be the primary source of repayment, therefore
16 providing a much larger than normal spread.

17 Q And how would a loan -- a low loan-to-value affect
18 pricing?

19 A The lower the loan-to-value, the more secure the
20 loan. The more secure the loan, the less risky. And the less
21 risky then equates to lower pricing based off of risk-based
22 pricing.

23 MR. SUAREZ: If we could turn to page six of the
24 exhibit?

25 Q If I could turn your attention to the third full

1 paragraph. It says: Loan proceeds will be utilized to
2 refinance an existing first mortgage originated by Capital One
3 Bank, defined as the prior loan, which featured a principal
4 balance of \$160 million (\$137.31 per square foot). In
5 connection with the refinance of the prior loan, the borrower
6 will pay a swap breakage fee, currently estimated at
7 \$6 million, inclusive of closing costs, and upfront reserves,
8 the borrower will invest a total of \$8.6 million in cash equity
9 at closing in order to effect the refinancing of the prior
10 loan.

11 What does that mean?

12 A It means that prior to the loan at Ladder Capital, in
13 order to pay off Capital One Bank, there would be a \$6 million
14 fee that would need to be paid to break that swap. In
15 addition, it states that the borrower will invest \$8.6 million
16 in cash equity, therefore lowering the amount of the balance
17 owed. Which is an equity infusion, thereby lowering the loan
18 amount that was issued by Ladder Capital.

19 Q Is that reflected in Mr. McCarty's analysis?

20 A I did not see where it is reflected in Mr. McCarty's
21 analysis.

22 Q If Mr. McCarty had reflected it in his analysis, how
23 would that affect the conclusions that he offers with respect
24 to 40 Wall?

25 A The dynamics of the loan would certainly change. And

1 the dynamics of the loan with an \$8.6 million cash equity
2 infusion would improve the bank's position from a collateral
3 and a credit standpoint, which would really make the loan
4 features in the terms of the loan very different than the
5 existing Capital One loan, because the existing Capital One
6 loan had the swap breakage fee and the \$8.6 million is in cash
7 equity infusion, which also would make the Ladder Capital loan
8 more secure than the Capital One loan, and not make them where
9 they can be compared, because the principal balances would be
10 different. And the characteristics of the loan at origination,
11 despite the fact that they were done approximately ten years
12 apart, the actual loan dynamics are different between 20 --
13 2005 and the time of origination of the Ladder Capital loan.

14 MR. SUAREZ: And if we could turn to page nine
15 of Defendant's Exhibit 552?

16 Q What is represented in this page, Mr. Unell?

17 A This is what I would typically see or you would
18 typically see in a credit memo that would outline the strengths
19 of a credit -- typically a credit memo would outline the
20 strengths, the weaknesses, the opportunities and the threats,
21 kind of a squad analysis, as it is typically called. And
22 anything that is not mitigated by the strengths would need to
23 be also addressed by the lender in this. And this is typical
24 deal strengths that looks very familiar to what I have seen
25 throughout my experience with highlighting the various loan

1 metrics of the loan-to-value.

2 The dark value is of interest as well. That is
3 something that has, over the years, become a more applicable
4 metric, as especially when you look at assets that have a -- a
5 high, I guess, concentration of occupancy.

6 So a large tenant, for example, you would look at
7 that analysis and say, well, if the large tenant left.

8 The cash in refinance is another thing where the
9 sponsor investing \$8.6 million into the transaction in closing
10 is providing not only the support of the borrower, but also
11 lowering the risk by reducing the principal amount.

12 The loan structure, once again, very similar in that
13 the low interest -- the -- excuse me, the interest rate of
14 3.665 percent and then also the rent-roll, as we talked about
15 with the occupancy.

16 And then finally, on number six, it looks like they
17 are really addressing what the market is, and looking at the
18 property and its ability to continue to perform at a high level
19 of occupancy. And utilizes its historical occupancy as well as
20 talking about where the activity is. And that is important
21 because while the occupancy still may be 94.5 percent, strong
22 interest in a building shows that when you are looking at,
23 obviously, when you are looking at where the future value may
24 be, and when it says, kind of, is this thing going to be able
25 to maintain where it is at. And all indications are, based off

1 of this, and in my experience this writeup would indicate that
2 this asset was performing strong and had a bright future ahead.

3 Q How would these factors affect the evaluation of the
4 collateral for purposes of pricing alone?

5 A These are all very, very, very important factors of
6 pricing when it comes to the collateral. Just as it was the --
7 as I said, you would never go down and make a loan if you
8 didn't feel comfortable about the asset itself and your
9 underlying collateral. That is what this is displaying here,
10 and the comfort level that Ladder Capital had with the metrics
11 of the collateral.

12 Q The seventh item here that we -- that we see on this
13 page: High quality landmark collateral. What is the affect of
14 this characteristic of 40 Wall on the quality of the collateral
15 for purposes of loan pricing?

16 A It is -- it does have some historic value to it. It
17 is something that cannot be replaced in its current condition.
18 And there are users, i.e. tenants, out there that look to be in
19 trophy office buildings, to have trophy addresses, et cetera.
20 And this asset, in the opinion of Ladder Capital, was a trophy
21 asset that was highly desirable in the market for multiple
22 reasons.

23 Q And in the following page, you see reference to
24 experienced and well-capitalized sponsorship?

25 A Yes, sir.

1 Q How does that affect the collateral for purposes of
2 pricing alone?

3 A Obviously the experience of an owner/developer in the
4 real estate world is extremely important for their ability to
5 continue to operate the asset, as the asset is the primary
6 source of repayment. Not only of the debt service from the
7 cash flow, but also upon sale or refinance. So, it is
8 extremely important to have somebody behind it, whether it is
9 the organization or individual, that is able to perform on the
10 plan that is set forth, and continue to execute the plan to
11 make sure that the bank remains secure, and the same position
12 as when the loan was originated.

13 Q Do you see there it says Mr. Trump reports a net
14 worth of nearly 5.8 billion and a liquidity in excess of
15 \$300 million?

16 A Yes, sir.

17 MR. SUAREZ: If we turn to page 12 of this
18 exhibit.

19 Q And focus in on: Key principal net worth covenant.

20 A Yes, sir.

21 Q What is the key principal net worth covenant on this
22 loan?

23 A A net worth of \$160 million, minimum net worth.

24 Q And with respect to liquidity?

25 A At least 15 million.

1 Q And how is the principal net worth covenant, in your
2 experience, for this loan comparable to the net worth of the
3 sponsor and liquidity of the sponsor?

4 A This was a fraction of the net worth and a fraction
5 of the liquidity that the guarantor had.

6 Q What affect would any fluctuations in the net worth
7 or liquidity of the sponsor with respect to this loan have on
8 the pricing of the loan?

9 A Going by the materiality side, it would have some,
10 but not as much, because Ladder Capital, in my opinion in
11 reading this, felt that the security in the form of the
12 collateral was sufficient and that the pricing was really
13 driven off of that.

14 Now, having the covenant here would obviously provide
15 a belt and suspenders approach, and also provide for a tertiary
16 or beyond additional source of repayment in the event of, you
17 know, call it an Armageddon situation. However, based off the
18 loan-to-value, the likelihood that either of these would come
19 into play is extremely minimal.

20 Q And how were the characteristics of this loan
21 transaction reflected in Mr. McCarty's analysis, if at all?

22 A I don't see how that was done. Because my
23 understanding is, is that 5.71 percent that was utilized was
24 based off of a 2005 loan that had different loan
25 characteristics.

1 MR. SUAREZ: Okay. If we could turn to
2 Plaintiff's Exhibit 293 on the right.

3 (Handing)

4 THE WITNESS: Thank you, sir.

5 Q If you see here, this is a credit report in
6 connection with the first mortgage lien and first priority
7 security interest in the Doral Golf Resort by Deutsche Bank?

8 A Yes, sir.

9 Q It was the initial credit report on the Deutsche Bank
10 loan, correct?

11 A Yes, sir, dated 12/20/2011.

12 Q If you look on the second page of the commitment fee,
13 you see a commitment fee. And it says .25 percent of facility
14 commitment, which shall be fully earned and payable on the
15 execution date of this commitment letter.

16 A Yes, sir.

17 Q What is the purpose of the commitment fee from the
18 bank's perspective?

19 A That is really where the loan documentation process
20 would begin, where the bank would have to start spending
21 dollars for appraisals, engineering, environmental reports, and
22 other items. So it is, I don't want to call it a posit, but it
23 is the commitment of the borrower to move forward, which
24 therefore allows the lender to feel comfortable to go spend
25 some of those out-of-pocket expenses. You know, there have

1 been cases where a facility commitment, in my experience, was
2 not required, and ultimately a borrower would pull out of a
3 transaction, therefore leaving the lender with expenses that
4 they have sought to be reimbursed. And in my experience that's
5 very difficult, because nobody wants to go litigate over
6 \$100,000 on something they would just probably decline to do
7 business with that person further.

8 Q Do you see a little further down it says: Facility
9 fee. 1 percent of facility commitment payable on the closing
10 date of the facility?

11 A Yes, sir.

12 Q How does the payment of the 1 percent facility fee
13 affect the pricing of the loan, if at all?

14 A It is factored into, as I mentioned in prior
15 testimony, that one of the things that is looked at is the
16 total relationship value in RAROC, Risk Adjusted Return on
17 Capital. So when a lender is looking at the RAROC, one of the
18 factors is what the fee is, because that fee is direct income
19 to the bottom line of the bank and is factored into the returns
20 that they are looking at when measuring what the profitability
21 of not only a loan is, but also what the overall relationship
22 value is.

23 MR. SUAREZ: And if you turn to the next page of
24 this document? In the recommendation box. The fourth
25 bullet.

1 Q Do you see where it says: Expected enhanced value
2 due to Capex?

3 A Yes, sir.

4 Q It says: The resort is a world class location that
5 has been home to a PGA event every year since the resort opened
6 in 1962. As DJT expects to invest approximately \$50 million on
7 capital improvements, it is expected that the value of our
8 collateral will increase significantly over the term of the
9 loan?

10 A Yes, sir.

11 Q How would that feature in the transaction affect loan
12 pricing, if at all?

13 A It would have a factor into the loan pricing. It
14 would also have a factor into how the lender would look at the
15 additional capital. The additional capital is a commitment.
16 As we mentioned, as I mentioned earlier I should say, the
17 capital is one of the things that is looked at heavily. And
18 what the investment is, the equity investment. The more equity
19 investment that an individual or an entity has into a project,
20 the more likely they are to continue to spend on that project,
21 whether it is to increase the value, or perhaps in a distress
22 situation continue to support the project so that they may
23 recoup a portion of their previous investment, as opposed to
24 just walking away.

25 Q And what affect, if at all, does it have on the

1 quality of the collateral?

2 A It absolutely improves the collateral, to the benefit
3 of the lenders, because it is a direct investment made by the
4 sponsor into the asset. And that asset serves as collateral
5 for the lender. And the more money that is put into that
6 asset, improves the value of it, which therefore reduces the
7 loan-to-value, which makes the loan more secure to the lender.

8 Q And how would that affect the risk of the
9 transaction?

10 A It de-risks the transaction.

11 Q What do you mean what you say de-risks, for us
12 non-finance folks?

13 A It makes the transaction less risky with that capital
14 infusion than it otherwise would.

15 MR. SUAREZ: If we could turn to Plaintiff's --

16 Q One second, before we move on.

17 Is the analysis you just conducted concerning this
18 transaction, reflected in Mr. McCarty's selection of a
19 10 percent CRE rate for the Doral property in his analysis?

20 A I do not believe so.

21 Q And what is the result of failing to consider these
22 features of that transaction on the analysis performed by
23 Mr. McCarty?

24 A It would render that analysis flawed without taking
25 into account all of the factors that contribute to pricing of a

1 loan.

2 MR. SUAREZ: If we could move on to Plaintiff's
3 Exhibit 291?

4 (Handing)

5 THE WITNESS: A little housekeeping here.

6 Thank you.

7 Q Do you recognize this document?

8 A Yes, sir.

9 MR. SUAREZ: If we could turn to page five of
10 the exhibit? Which is also page five of the document.

11 Q Do you see at the top there are two facility fees?

12 A Yes, sir.

13 Q A fee of .625 percent of Facility A payable on the
14 closing date. And .75 of Facility B payable on the closing
15 date of that facility?

16 A Yes, sir.

17 Q What affect, if any, does the payment of that
18 facility fee have on the profitability of this transaction for
19 the lender?

20 A Similar to the other transactions, it would have an
21 impact on the overall return and to the lender and their
22 overall pricing strategy.

23 Q What affect, if any, does it have on the pricing of
24 the transaction?

25 A It would have an impact on the pricing because that

1 would be factored into the overall returns that the bank would
2 be expecting to receive for the risk that they are under taking
3 as part of this transaction.

4 MR. SUAREZ: And if we turn to Plaintiff's
5 Exhibit -- actually before we do that. Yeah, if we turn
6 to Plaintiff's Exhibit 294.

7 (Handing)

8 THE WITNESS: Thank you, sir.

9 Q And on the first page can we take a look at the Trump
10 International Hotel and Tower Chicago. Do you see that?

11 A Yes, sir. Collateral B?

12 Q Collateral B.

13 A Yes, sir.

14 Q And you see at the bottom it has a loan-to-value of
15 51 percent?

16 A Yes, sir.

17 Q How would the -- how would a loan-to-value of
18 51 percent on that collateral affect the risk of the loan
19 secured by the Trump Chicago?

20 A Loan-to-value of 51 percent would be below normal, as
21 illustrated, actually, by the Realty Rates data presented
22 earlier. And being below the average, which is not only on
23 Realty Rates, but in my experience of 50 percent value being
24 low, would once again de-risk or make this collateral -- this
25 collateral would make the loan less risky based off of that

1 loan-to-value.

2 Q And are any of the factors that we have just analyzed
3 on the Trump Chicago facility reflected in the analysis
4 performed by Mr. McCarty that we looked at earlier?

5 A Not that I can tell.

6 Q And what is the affect of his failure to consider
7 these factors in that analysis?

8 A Without considering all of the factors that go into
9 pricing of a loan, it would render the analysis flawed.

10 MR. SUAREZ: If we could turn to page nine of
11 this exhibit? Actually let's start with page eight so we
12 can see the heading here.

13 Q Do you see at the top it says: Loan C, Trump Old
14 Post Office?

15 A Yes, sir.

16 Q Okay. And if we see on page nine. Fees. This loan
17 also has a facility fee, this time in the amount of half a
18 percent?

19 A Yes, sir.

20 Q What affect does the payment of a facility fee have
21 on the pricing of the transaction?

22 A Similar to the other transactions, it would have a
23 direct impact on the profitability and returns expected by the
24 lender.

25 MR. SUAREZ: And if we look at page ten?

1 Q Do you see for All Facilities, it lists in the
2 recommendations --

3 MR. SUAREZ: The next box on down.

4 Q Here it is recommending the approval of the annual
5 review for Doral modification to the Trump Chicago and the
6 origination of the Trump Old Post Office. But specifically I
7 would like to draw your attention to the section that says:
8 All Facilities.

9 The third bullet point says DB relationship. And it
10 says: DJT continues to develop his relationship with DB as
11 Facility C will be the fourth credit facility we have
12 originated with him or his family (three with DJT, one with DJT
13 Jr.) DJT has transferred 40 million in liquidity to DB and has
14 indicated he is interested in continued to grow his non-credit
15 relationship with the firm.

16 Do you see that?

17 A Yes, sir.

18 Q How would that affect the pricing on the credit
19 facility for the Old Post Office?

20 A It would have a direct impact on pricing. As stated
21 earlier, the relationship value to a bank is an important
22 factor. And as it states here, and consistent with the
23 testimony that I heard from Ms. Vrablic, that the goal was to
24 continue to increase the share of business with President Trump
25 and his family from deposits and other items, including, as I

1 said the non-credit relationship earlier, which would amount to
2 more fee income.

3 For real estate developers, typically leading with
4 credit as was done here, is a very common practice in real
5 estate, because that is what real estate developers care most
6 about. And then from there if you can gain the trust and the
7 ability to provide them the debt, they will follow with other
8 services, which make the relationship even more profitable.

9 MR. SUAREZ: And if we move on to page 12.

10 Facility C.

11 Q The recommendation for Facility C, which is the Old
12 Post Office. It says there: Equity injection of the
13 guarantor. While the initial equity injection of the guarantor
14 was estimated at \$42 million plus, we have been told that the
15 estimate has been increased to anywhere from 150 to
16 \$160 million with approximately 30 million already invested?

17 A Yes, sir.

18 Q What affect would that equity injection by the
19 guarantor have on the risk of the collateral?

20 A The equity injection would have a direct impact on
21 the value of the collateral, therefore making it more valuable.
22 Which ultimately results in a loan lower-to-value. The lower
23 loan-to-value then results in a lower risk profile for that
24 particular loan. And that should be reflected into the
25 pricing.

1 (The following proceedings were stenographically

1 Q And over the life of the OPO Facility, was the risk to
2 the bank increasing or decreasing?

3 A Decreasing.

4 Q Why is that?

5 A Um, the asset was continuing to be repositioned in a
6 positive manner. The infusion of capital, as well as the
7 operating expertise of the borrower and the entities that are
8 running it, improved the overall value, which, once again,
9 improved value results in a lower loan-to-value. A lower
10 loan-to-value results in a more secure and less risky loan for
11 the lender.

12 Q And are these characteristics of the OPO Facility
13 reflected in Mr. McCarty's analysis?

14 A I do not see where they were reflected.

15 Q What is the effect of the failure to reflect these
16 characteristics in Mr. McCarty's analysis on his analysis?

17 A That the assumed interest rate utilized in this chart
18 would be incorrect.

19 Q With respect to the Doral transaction, if we could turn
20 your attention to Plaintiff's Exhibit 2960?

21 (Whereupon, the exhibit was displayed on the
22 screen.)

23 (The witness was handed the exhibit.)

24 THE WITNESS: Thank you, sir.

25 Q Do you recognize this document?

1 A Yes, sir.

2 Q Have you reviewed this document?

3 A Yes, sir.

4 Q Do you see at page three of this document?

5 (Whereupon, the exhibit was displayed on the
6 screen.)

7 Q It recommends "Approval of a step-down of the personal
8 guarantee from 100 percent to 10 percent, per the loan
9 agreement."

10 A Yes, sir.

11 Q In your experience in the real world, what is that
12 indicative of?

13 A The step-down of the guarantee?

14 Q Yes.

15 A That the lender felt that they were secured and that
16 the risk level had declined to a point where that they wanted to
17 have a guarantee for a comfort level, but, however, did not feel
18 that a hundred percent guarantee was needed at this time.

19 Q And do you see the note down below that says "With an
20 LTV of 34 percent, the entire personal guaranty can be reduced
21 to zero."

22 A Yes, sir.

23 Q "However the client has requested to retain a ten
24 percent guaranty on both Tranche A and Tranche B, which
25 corresponds to a spread of L plus 1.75 percent."

1 A Yes, sir.

2 Q Do you see that? What does that mean?

3 A That means that the client has elected to keep the ten
4 percent guaranty in place in order to save 25 basis points,
5 which was the reduction in pricing without the guaranty.

6 Q And from the lenders perspective, what, if anything,
7 can be inferred from the ten percent guaranty resulting in a
8 25 basis points savings on the spread?

9 A That Deutsche Bank would value the guaranty of 25 basis
10 points to have the comfort.

11 Q Now, in Mr. McCarty's analysis, is the guaranty -- the
12 existence of the guaranty at ten percent reflected in his
13 analysis?

14 A No, sir.

15 MR. WALLACE: Objection. Leading.

16 Q How, if at all --

17 MR. SUAREZ: I'll rephrase it.

18 Q How, if at all, is the step-down of the guaranty
19 reflected in Mr. McCarty's analysis?

20 A I don't believe it's reflected.

21 MR. WALLACE: I'm going to renew my objection at
22 this point, your Honor, that the opinions Mr. Unell is
23 expressing here, including his prior opinions about the
24 failure to account for the fees in the loans, were not
25 disclosed in his expert reports.

1 MR. KISE: I mean, in keeping with your rule,
2 you've already ruled on this, first of all.

3 THE COURT: I don't mind if he asks for a
4 reconsideration.

5 MR. KISE: But if -- I'm not going to argue if you
6 are going to overrule it, but if you want me to argue, I
7 will.

8 MR. WALLACE: I think we are going through a series
9 of opinions that were not disclosed in his report. We are
10 hearing them for the first time. And the purpose of expert
11 disclosure is so that the parties know ahead of time what
12 opinions the expert is going to offer and have time to
13 analyze those opinions, which are very complex and go into a
14 great deal of detail about the financing of loans, and have
15 an opportunity to conduct a fair analysis, and ideally,
16 depose the witness on those issues before trial, but at the
17 very least giving us time to understand the opinions before
18 we have to cross examine him.

19 THE COURT: Is your particular objection just to
20 the last answer, to the last half hour of answers?

21 MR. WALLACE: I believe -- I'm trying to find it in
22 the report as we are going along, but I don't think this
23 specific analysis -- the step-down is definitely not in the
24 report, as far as we can tell. I'm not sure the specific
25 analysis to the fees, as they relate to Mr. McCarty's

1 opinion, were contained in the -- either the expert report
2 or the rebuttal expert report, either. We are sort -- we
3 are sort of live checking as we go through this.

4 MR. KISE: So, your Honor, again, the subject
5 matter, every last detail of every last opinion that the
6 expert has is never disclosed. As the trial comes forward,
7 you have evidence that needs to be considered by the expert
8 in the context that has been presented at trial; that's
9 what's happened here.

10 Mr. McCarty adjusted his position. I know they
11 have a different description of it, but he, in fact,
12 adjusted his position and offered a supplemental report,
13 which was accepted by this Court, and his testimony
14 reflected that supplemental report and his supplemental
15 analysis. So -- and some of that was based on testimony
16 that had happened during the trial, and events that had
17 taken place subsequent, including your Honor's decision. So
18 to say, now, that the defense can't make necessary
19 adjustments to address the evidence that they are faced with
20 at trial, evidence that -- that was available to the
21 government, just as much as it's available to us, about the
22 same subject matter that forms the basis for this expert's
23 opinion, he's opining on -- he's saying the same thing. He
24 is just offering relevant justifications based on the
25 testimony that's been educed at trial, based on the

1 documents that have been introduced at trial, and based on
2 the scope of the issues that are now before us at trial.

3 So as you said earlier, and I think it was the
4 correct ruling, you can allow this in in a bench trial --
5 there's no opportunity for confusion -- and you can decide
6 what to give weight to and what not to give weight to, but
7 to exclude it wholesale when they've had the opportunity to
8 have an expert come in and modify his opinions, we would
9 have to get into a whole ground war over exactly how he
10 modified it, what he did, which is what we did before.

11 And I think the more efficient and more balanced
12 approach in a bench trial is to do what your Honor has
13 already decided to do, which is allow it in and then give it
14 the weight that you determine.

15 MR. WALLACE: I will just note that this is not a
16 question of relevance or repetitiveness, or anything. This
17 is question of whether we had fair notice of this expert's
18 opinion.

19 I will reiterate that it is very clear from what we
20 did, that Mr. McCarty simply changed the time frame of his
21 analysis. The analysis stayed the same.

22 If there is an issue with a criticism of
23 Mr. McCarty's report, or if this witness had an opinion
24 about the actual spread on the guaranty based on this
25 step-down, all of that information was available at the time

1 of his reports in May and June. He has not disclosed -- if
2 the defendants can show me where this opinion is covered in
3 either of the two reports, I'm happy to withdraw the
4 objection.

5 But it is simply, this step-down, .25 analysis does
6 not appear in this -- either of this witness's reports.

7 THE COURT: Objection overruled for the same and
8 usual reasons. There's no jury. I'll decide what weight to
9 give it. You could cross examine him. If you need a little
10 time before the cross examination to consult, and I also, to
11 a certain extent, accept Mr. Kise's point that you could
12 never finalize things. And there's been a trial since
13 expert disclosure. And I understand the value of expert
14 disclosure so you can prepare, et cetera, but it's in.
15 Let's just move on.

16 MR. SUAREZ: Can you repeat the last question.

17 THE COURT: The last question.

18 MR. SUAREZ: I'm sorry, your Honor, may I have a
19 read back.

20 THE COURT: A read back of the last question.

21 (Whereupon, the requested question was read back by
22 the court reporter.)

23 A I don't believe it is reflected in his analysis.

24 Q What is the result of any of his failure to consider
25 the step-down in the opinions that he gives?

1 A Similar to utilizing a fixed spread, it would not
2 render the analysis as accurate, because it would change
3 throughout the life of the loan, or have the opportunity to,
4 based on the election of the guarantor.

5 Q What, if any -- withdrawn.

6 The -- if I could turn your attention to page three of
7 the Exhibit 2960 down to the section where it says "Expected
8 enhanced value due to Capex" again.

9 (Whereupon, the exhibit was displayed on the
10 screen.)

11 A Mm-hmm.

12 Q And then the last sentence says "As noted, DJT has
13 invested nearly \$250 million on capital improvements since 2012,
14 and the results has been an increase in collateral value to
15 \$366 million. This value should continue to increase
16 significantly over the term of the Facility." Do you see that?

17 A Yes, sir.

18 Q How did the risk of the collateral that secured the
19 Doral Facility change over time, if at all?

20 A Just as on the other loans where there was an injection
21 of capital for improvements, it improved the bank's collateral
22 position, therefore, making the loan less risky because the
23 collateral had more value.

24 Q And how, if at all, is the lower risk nature of the
25 Facility over time reflected in Mr. McCarty's analysis?

1 A I don't believe it's reflected since the interest rate
2 remained the same throughout the life of the loan in his
3 analysis.

4 Q And with respect to the Chicago Facility, was that
5 guaranty also -- withdrawn.

6 Was the guaranty provided in connection with the
7 Chicago Facility extinguished at any point in time?

8 A I believe there was an opportunity to do so, but I'm
9 not certain if it ever was.

10 MR. SUAREZ: Could we please pull up Plaintiff's
11 Exhibit 298, at page seven, on the right-hand side.

12 (Whereupon, the exhibit was displayed on the
13 screen.)

14 (The witness was handed the exhibit.)

15 THE WITNESS: Thank you, sir.

16 MR. SUAREZ: And if we could zoom up to where it
17 says, Leverage levels required for step-down of the
18 guaranty."

19 (Whereupon, the exhibit was displayed on the
20 screen.)

21 Q And it says, "The LTV levels required to for a decrease
22 in the guaranty levels are low enough to ensure that the loan is
23 more than adequately collateralized as evidenced by the current
24 Facility B, in which the guaranty was eliminated once the loan
25 was paid down to \$45 million (about 34 percent LTV)."

1 A Yes, sir.

2 MR. SUAREZ: If we could turn to the first page of
3 this exhibit.

4 (Whereupon, the exhibit was displayed on the
5 screen.)

6 Q Do you see the date up there at the top?

7 A Yes, sir. July 20th, 2015.

8 Q Yes.

9 Does this refresh your recollection as to when the
10 guaranty of the credit facility secured by The Trump Chicago was
11 extinguished?

12 A Yes, sir.

13 Q When was that?

14 A In July of 2015.

15 Q And how, if at all, did the -- how, if at all, did the
16 collateral securing The Trump Chicago credit Facility from
17 Deutsche Bank change over the course of that Facility?

18 A Do you mind repeating the question.

19 Q Sure, how, if at all, did the risk of the collateral
20 securing The Trump Chicago property change over the life of that
21 Facility?

22 A The collateral improved, therefore, making the loan to
23 value lower, which ultimately made the loan less risky for the
24 lender.

25 Q And is the de-risking of the loan of the Chicago credit

1 Facility reflected in Mr. McCarty's analysis?

2 A Not that I can tell.

3 Q What is the result of the prelude of -- reflect that in
4 his analysis?

5 A That the increased interest rate does not account for
6 that -- excuse me. The interest rate throughout the life of the
7 loan remains the same, in his analysis, at 7.5 percent, which
8 would not reflect the terms of the loan and the reduction of the
9 guaranty and the improvement of the collateral.

10 Q And in each of the three credit facilities that we have
11 discussed today with respect to Deutsche Bank, did the value of
12 the collateral increase or decrease over time?

13 A The value of the collateral increased over time.

14 Q And what effect did the increase in the value of the
15 collateral over time have on the risk to the bank in connection
16 with the loan?

17 THE COURT: Oh, come on. Even I could answer that
18 at this point. We've had a whole tutorial on that every
19 day. The more value the collateral, the less risk, the
20 lower the interest rates. Okay, we get it already.

21 Go ahead, Mr. Kise.

22 MR. KISE: Your Honor, I think --

23 THE COURT: We heard this 20 times today.

24 MR. KISE: Well, but I think he is framing this in
25 the context of answers that are going to follow from that

1 conclusion.

2 I don't want to talk about this with the witness
3 present, but, I mean, I think -- I would think within the
4 next question or two he's going to connect it up. I could
5 be wrong, but I think that's where we are headed, and then
6 we'll move on.

7 But that proposition forms the foundation. I'm
8 glad you are accepting that proposition, but it forms the
9 foundation for something to follow.

10 So I would ask the Court to just let him ask a
11 couple of more questions, or we could have a more wholesome
12 debate --

13 MR. SUAREZ: That was last question I had before I
14 moved on.

15 THE COURT: Okay.

16 MR. KISE: There you go.

17 THE COURT: As usual, I'm not looking to, and I'm
18 not restricting. I'm just pointing out it's déjà vu all
19 over again, times 20.

20 So anywhere, where are we Mr. Suarez? Do you need
21 the question or do you want a read back?

22 MR. SUAREZ: Yes, please.

23 THE COURT: Read back the last question.

24 MR. SUAREZ: That was Yogi Berra, "Déjà vu all over
25 again"?

1 THE COURT: He was from New Jersey.

2 (Whereupon, the requested testimony was read back
3 by the court reporter.)

4 A The increase in the value of the collateral would
5 result in a lower loan-to-value, which would make the loan less
6 risky for the lender.

7 MR. SUAREZ: If we could, please, pull up what's
8 been marked as Defense demonstrative 5?

9 (Whereupon, the exhibit was displayed on the
10 screen.)

11 MR. SUAREZ: If we could zoom in a little bit so
12 it's centered there on the page.

13 (Whereupon, the exhibit displayed on the screen was
14 enlarged.)

15 Q Do you recall this demonstrative?

16 A Yes, sir.

17 Q Who prepared this demonstrative exhibit?

18 A I did.

19 Q And what does this demonstrative exhibit represent?

20 A This demonstrative exhibit -- excuse me there --
21 represents the differential in interest if there was no
22 guaranty, in a hypothetical situation.

23 Q With respect to Doral, the Doral credit Facility, can
24 you walk us through the analysis that you undertook to reach the
25 rebuttal to Mr. McCarty's opinion?

1 A Yes, sir. So we started very similar utilizing this
2 the same chart as Mr. McCarty did for ease of understanding for
3 everybody.

4 What we have done here is we've taken the actual
5 interest percent, which matches up with the same thing that
6 Mr. McCarty had. However, instead of utilizing his assumed CRE
7 interest rates, we have added 25 basis points to reflect the
8 difference that was opined on by Deutsche Bank, and also
9 represented in the documents, that the guaranty was worth
10 25 basis points.

11 From there we calculated the delta between the actual
12 interest rate, and what the hypothetical interest rate would be
13 with the additional 25 basis points, and have run that out
14 throughout from origination of the loan through the pay off of
15 the loan.

16 Q And what hypothetical differential and interest rate
17 results over that period of time if you increase it by the
18 25 basis points that you suggested is appropriate?

19 A For this loan in particular, \$2,458,048.

20 Q And with respect to the Old Post Office credit Facility
21 could you please walk us through your analysis on that
22 transaction?

23 A Okay. Similar to Doral, we did the exact same exercise
24 utilizing the same format as Mr. McCarty, however, instead of
25 utilizing his assumed interest rates, we added the 25 basis

1 points from a hypothetical situation of no guaranty being in
2 place, and ran that out throughout the life of the loan from
3 origination through pay off, and that resulted in a hypothetical
4 lost amount of \$2.567 million.

5 Q And why was it appropriate to do that?

6 A Why was it appropriate to do that? Because we
7 believed, and based off of the testimony that the value of the
8 guaranty as shown in the mind of Deutsche Bank, and in my
9 experience, would be 25 basis points.

10 Q And in the case of the Old Post Office Facility, was
11 that guaranty in place throughout this entire time horizon?

12 A Yes.

13 Q And if the bank had called that guaranty, would the
14 bank have had the benefit of that guaranty in place on that
15 facility?

16 A Absolutely. It would have had the benefit of that
17 guaranty. And Mr. McCarty's analysis did not take into account
18 any guaranty at all.

19 Q And if the values of assets owned by the guarantor were
20 to change, would that, in any way, reduce the credit support
21 available to the Facility?

22 MR. WALLACE: Objection. Leading.

23 MR. SUAREZ: I could rephrase it.

24 THE COURT: Withdrawn.

25 Q How, if at all, would a change in the values of the

1 assets owned by the guarantor change the credit support
2 available to Deutsche Bank in connection with this Facility?

3 A In this case it wouldn't, because it would be
4 immaterial.

5 Q Why is that?

6 A Because as referenced earlier, part of the reason for a
7 guaranty is not only the financial support, but also the ongoing
8 and continual support for the operation, and ongoing ability to
9 operate the asset in a manner that would maintain value, and
10 enable it to provide enough cash flow for debt service.

11 Q Would your answer be the same for the Doral Facility
12 during the periods of time that that guaranty was in place?

13 A Yes, sir.

14 Q Would your answer be the same for the Chicago Facility
15 during the periods of time when the guaranty was in place?

16 A Yes, sir.

17 Q All right.

18 Moving onto 40 Wall, how, if at all, would the analysis
19 -- would the analysis that you performed change with respect to
20 40 Wall, to that performed by Mr. McCarty?

21 A Utilizing the same 25 basis points, it would result in
22 a \$2.966 million delta.

23 Q And what was the basis for doing so?

24 A The basis was similar to the other assets, that if
25 there was not a guaranty, even though at some points the lower

1 thresholds and minimum net worth, um, erring on the side of
2 conservatism, we applied the same methodology here as we did to
3 the Deutsche Bank ones.

4 Q Was a limited guaranty, in fact, in place during the
5 life of the 40 Wall transaction with Ladder Capital?

6 A Yes.

7 Q And if I were to ask you the same question about the
8 assets of the guarantor with respect to that guaranty and the
9 effect of the credit support for that transaction, would you
10 give me the same answer?

11 A Yes, sir.

12 Q And then if we go to the bottom right hand section.

13 (Whereupon, the exhibit was displayed on the
14 screen.)

15 Q Can you please walk us through your analysis here.

16 A Yes, sir. So the \$9,006,000 -- \$9,006,603 is the
17 cumulative amount of the four loans; the Doral, OPO, Chicago and
18 40 Wall.

19 We also have considered the SWAP breakage fee, which
20 was a cost of doing business at that point, in order to enter
21 into the transaction, which they were not required to do so.
22 There was an out-of-pocket expense of \$6 million, and therefore,
23 the hypothetical number that we have derived, or I have derived,
24 is \$3,006,603. And I do note that the SWAP breakage fee is an
25 estimate.

1 Q And why do you call it a hypothetical lost interest
2 figure?

3 A Because I don't believe, in my opinion, that there has
4 been any losses to anybody on any of these loan transactions.

5 Q And why is that?

6 A Because all contractual obligations were paid.
7 Deutsche Bank did their own analysis. They derived their own
8 interest rates. They negotiated those documents. They executed
9 those documents. The borrower and guarantors performed as
10 prescribed on those documents. And as the user of the
11 information, they were able to make their own informed decisions
12 and not have to rely upon outside parties to do so after the
13 fact.

14 Q And in your professional experience, is that
15 commonplace with how transactions operate in the marketplace?

16 A Yes, it is, absolutely one hundred percent. Private
17 transactions are negotiated between sophisticated parties, and
18 in this case both were very sophisticated parties. And
19 everybody was able to make their own decisions based off the
20 information that was provided to them. And nobody, in the
21 process of negotiating or originating a loan, wants to have to
22 worry about, after the fact, having a non-party to their
23 agreement come in and second guess their decision making, which
24 they do for a living.

25 MR. WALLACE: Objection. I think if he is

1 suggesting that a law enforcement investigation is improper
2 or something, it seems well beyond the scope of his
3 expertise.

4 MR. SUAREZ: I don't think that's what he said.

5 THE COURT: Can I just say, point duly noted.

6 MR. WALLACE: Fair enough, your Honor.

7 MR. SUAREZ: May I confer with my colleagues, your
8 Honor.

9 THE COURT: Yes.

10 (Whereupon, Counsel conferred off the record.)

11 MR. KISE: Your Honor, I'm going to try for, maybe
12 a fifth time now, if we take our afternoon break now and
13 come back, we may be able to truncate this as well.

14 THE COURT: AG, okay with you?

15 MR. WALLACE: I thought he was going to ask for a
16 directed verdict.

17 MR. KISE: That will be after he testifies, after
18 he testifies.

19 MR. ROBERT: We could do it now if it makes you
20 feel better.

21 THE COURT: Perfect timing. See you at 3:30.

22 (Continued on the next page.)
23
24
25

1 COURT OFFICER: All rise. Part 37 is back in
2 session.

3 Please be seated and come to order.

4 THE COURT: I have a question for plaintiff,
5 plaintiff's lawyers.

6 Well, let me ask the question, it may moot out.

7 MR. KISE: Sure.

8 THE COURT: I am happy to hear from you.

9 Do you want to -- are we through with the direct
10 examination?

11 MR. KISE: We are.

12 THE COURT: Would plaintiff like to start the
13 cross examination tomorrow in light of the late filing by
14 defendants, and if you think you are entitled to and need,
15 overnight to put together your thoughts.

16 MR. WALLACE: I would certainly appreciate that,
17 Your Honor. If I could ask the witness just, like, two or
18 three clarifying questions. I do think in essence he and
19 Mr. McCarty are ships in the night. So I can have a very
20 truncated -- I have one question about the .25 basis
21 points that would clarify this and let us have a truncated
22 examination tomorrow, if that's possible.

23 THE COURT: Okay. Does that take care of your
24 concerns?

25 MR. KISE: Yes.

1 THE COURT: Let's ask Mr. Unell back to the
2 stand.

3 MR. ROBERT: He is five for five, Your Honor.

4 THE COURT: I didn't catch that.

5 MR. ROBERT: All Mr. Kise caressed about is he
6 is five for five in truncating things.

7 THE COURT: He has a pristine record.

8 (Whereupon the witness resumed the stand.)

9 CROSS-EXAMINATION

10 BY MR. WALLACE:

11 Q Mr. Unell, just a quick question to make sure I
12 understand the 25 basis points.

13 A Yes, sir.

14 MR. WALLACE: If we could pull up Plaintiff's
15 Exhibit 298 and go to page three?

16 Q And if we look under interest rates. It says there:
17 L plus 1.75 or prime minus 0.75 with step-up to L 2.0 percent
18 or prime minus .5, if guaranty level falls below 10 percent.

19 Am I understanding that this is the calculation that
20 led you to identify the 25 basis points as the appropriate
21 number for the value of the guaranty in the Deutsche Bank loan?

22 A That was one factor, along with the testimony of the
23 Deutsche Bank personnel which confirmed this.

24 Q About this section of the credit memo, correct?

25 A Yes, sir.

1 MR. WALLACE: Okay. And if we turn to the next
2 page. And we flip up to the section on guaranty.

3 Q I am just going to note that, if the guaranty level
4 falls to zero percent at 35 percent or below, and so the
5 situation where this is occurring and the guaranty burns off is
6 where the LTV is down to 35 percent and below; is that right?

7 A In this instance, yes, sir.

8 Q Okay.

9 MR. WALLACE: That was all I needed to clarify.
10 Thank you.

11 THE COURT: All right. So tomorrow at 10:00
12 everyone?

13 And I'll direct the witness not to discuss this
14 case or his testimony or anything related to it overnight
15 because you are still a witness.

16 THE WITNESS: Yes, sir.

17 THE COURT: Thank you.

18 MR. ROBERT: Thank you, Your Honor.

19 (Whereupon the trial stood adjourned to Friday
20 December 1, 2023 at 10:00 a.m.)

Unell - by Defendant - Cross (Wallace) Page 5755

1 COURT OFFICER: All rise. Part 37 is now in
 2 session. The Honorable Judge Arthur Engoron presiding.
 3 Make sure all cell phones are on silent. Laptops and cell
 4 phones will be permitted, but only to members of the
 5 press. There is absolutely no recording or photography of
 6 any kind allowed in the courtroom.
 7 Now be seated and come to order.
 8 THE COURT: Mr. Wallace, would you like to
 9 continue your cross examination of the current witness?
 10 MR. WALLACE: Yes, Your Honor. The People will
 11 continue their cross examination of Mr. Unell.
 12 THE COURT: Let me ask you, do you feel you had
 13 enough time to prepare for this under the exigent
 14 circumstances?
 15 MR. WALLACE: We will see how I do.
 16 CROSS-EXAMINATION
 17 BY MR. WALLACE:
 18 Q Good morning, Mr. Unell.
 19 A Good morning.
 20 Q I want to talk first about the engagement through
 21 Ankura for the Trump Organization. I believe you testified
 22 yesterday that you are around 900, 950 -- your time is being
 23 billed at between \$900 per hour and \$950 per hour, right?
 24 A I believe that's about the range.
 25 Q I think you said you performed about 200 hours of

Unell - by Defendant - Cross (Wallace) Page 5756

1 work on this engagement; is that correct?
 2 A Give or take, yes.
 3 Q You also performed other engagements for the Trump
 4 Organization while at Ankura, correct?
 5 A Yes.
 6 Q What have those engagements been?
 7 A I have worked on one engagement, and that was on a
 8 potential conservation easement valuation of the Doral
 9 property.
 10 Q And when did you begin your work on that engagement?
 11 A Sometime probably about a year ago.
 12 Q Okay. So would this have been before you were
 13 retained as an expert for this case?
 14 A I am not certain of the exact timing.
 15 Q It might have been close to the same time?
 16 A Around then, yes.
 17 Q Do you have an sense of how much time you spent on
 18 that engagement?
 19 A Probably less than 10 or 15 hours.
 20 Q And do you know what your time was billed at for that
 21 engagement?
 22 A That's a fixed-fee engagement that is actually led by
 23 our valuation team.
 24 Q So your time is not being charged at an hourly rate
 25 for that engagement; am I understanding that correctly?

Unell - by Defendant - Cross (Wallace) Page 5757

1 A No, sir.
2 Q Do you have a sense overall --
3 THE COURT: Mr. Wallace. Classic negative
4 question. "It is not" and then he says "no." Does that
5 mean, no, it is not; does that mean, no, you are wrong?
6 MR. WALLACE: Fair point, Your Honor.
7 I think the prior answer was clear. I tried to
8 clarify it and made it less clear. I'll leave it be.
9 THE COURT: Okay.
10 Q Do you have a sense of the total billings for Ankura
11 to the Trump Organization over the past two years?
12 A No, sir.
13 Q So going to your expert opinions, I would like start
14 off with the difference between your analysis of lost interest
15 and Mr. McCarty's analysis.
16 MR. WALLACE: If we could put up on the screen
17 DD-5?
18 Q This is the chart reflecting your --
19 MR. WALLACE: There we are.
20 Q This is the chart reflecting your analysis of the
21 differential of interest on the Deutsche Bank loans if there
22 was no guaranty; is that correct?
23 A This is a hypothetical that was done to illustrate
24 what the difference would be, based off of the information that
25 was derived from the Deutsche Bank testimony and the loan

Unell - by Defendant - Cross (Wallace) Page 5758

1 documents utilizing the 25 basis point differential between a
2 guaranty and a limited guaranty.
3 Q Okay. But it is an analysis of the difference in the
4 pricing of the Deutsche Bank loans with the guaranty -- let me
5 back up.
6 So it is a hypothetical analysis, correct?
7 A It is an illustrative analysis to show a hypothetical
8 and really the differential between Mr. McCarty's analysis and
9 the analysis that would be reflective with the 25 basis points
10 as shown in the documentation and from the testimony of the
11 Deutsche Bank personnel.
12 THE COURT: The question was whether these were
13 hypothetical numbers. I assume the answer is yes?
14 THE WITNESS: They are hypothetical, yes.
15 Q Okay. And I'll tell you, I think you described this
16 in detail, I am trying to understand the pieces of it. I'll
17 take it piece by piece. And many of the questions will be yes
18 or no.
19 So, the hypothetical analysis is what the difference
20 might be in the Deutsche Bank loans that were actually extended
21 here with the guaranty and without the guaranty; is that fair?
22 A No. It is -- to some extent it is. But what it is
23 trying to show is, is what the actual interest percentage was,
24 and then without a guaranty, where it would go. And that is
25 based off of the 25 basis points as outlined in the loan

Unell - by Defendant - Cross (Wallace) Page 5759

1 documentation based off of the step-down and the contractual
2 obligations between the borrower and the lender.
3 Q Okay. So you took the actual loans as they existed,
4 fully signed and executed by the Private Wealth Group at
5 Deutsche Bank and the Trump Organization and then backed out
6 the personal guaranty in the loan; is that fair?
7 A I did not back out the personal guaranty of the loan.
8 Q What did you do?
9 A I assumed an additional 25 basis points, an
10 elimination of the guaranty in conjunction with the loan
11 documents as prescribed, especially in the Doral loan. The
12 loan -- the Doral loan documents state that there is an
13 additional 25 basis points that would be added when the
14 guaranty burned off. However, the defendants had the option of
15 maintaining a guaranty in the limited basis for the difference
16 of 25 basis points.
17 Q Okay. I'll go back to this in a minute. But I
18 believe the 25 basis point reduction we saw yesterday was going
19 from 10 percent guaranty to zero; is that right?
20 A I am not following that.
21 Q Well, the guaranty at the time it was written off,
22 when the price went from 1.75 to 2.0, the guaranty went from
23 zero to 10 percent. Do you recall that?
24 A Yes, sir.
25 Q Okay. So the 25 basis points is the difference

Unell - by Defendant - Cross (Wallace) Page 5760

1 between no guaranty and a 10 percent guaranty; is that correct?
2 A You can't look at it that way, because a guaranty at
3 10 percent is still \$17 million. You have a 40 some odd
4 percent loan-to-value. You are trying to say that there is one
5 factor that is involved in this. As testified yesterday, there
6 are numerous factors that go into it. And it is not just the
7 guaranty. It is the fact that you have a warm body behind it.
8 Whether it is 100 percent or 10 percent, it doesn't matter.
9 The fact is that, in my experience, and in dealing with loans,
10 a 10 percent guarantee at \$17 million on a 40 percent LTV is
11 what is called a comfort guaranty. It is there. It is
12 probably never going to be called upon. It is well secured.
13 And that 25 basis points is what they place a premium on it
14 for.
15 But, you know, you are asking to make an assumption
16 here and trying to say that today is Tuesday, when everybody in
17 this courtroom here knows that today is Friday.
18 You can't make that judgment and sit here and say,
19 the documents state what it is and I am not going to deviate
20 from what the documents say. The documents state that with the
21 guaranty it is 25 basis points less. Without a guaranty is 25
22 basis points more. And in my experience, the 10 percent,
23 25 percent, 50 percent or 100 percent of the guaranty based off
24 of the other metrics with the loan, does not change that
25 opinion.

Unell - by Defendant - Cross (Wallace) Page 5761

1 MR. WALLACE: I move to strike the answer as
 2 non-responsive.
 3 THE COURT: You know, yesterday not everybody
 4 could tell you it was Thursday, but today everybody can
 5 tell you it is Friday.
 6 Denied. I think he was trying. I'll determine
 7 whether he was successful or not; maybe whether I credit
 8 what he said or not.
 9 Q For the purposes of this analysis, you determined
 10 that the guaranty was worth 25 basis points; is that correct?
 11 A A guaranty.
 12 Q What is the difference you see between A guaranty and
 13 B guaranty?
 14 A There are various levels of a guaranty that are
 15 described throughout the loan documents. A guaranty, a limited
 16 guaranty, the fact that the guaranty is in place, as I
 17 testified yesterday, no matter whether it is a limited guaranty
 18 or not, the function of a guaranty as looked at by Deutsche
 19 Bank, as looked at by bankers, as looked at in my experience
 20 and as looked at in the real world, is that no matter if it is
 21 at 10 percent or if it is at 100 percent, that guaranty to them
 22 was valuable for 25 basis points for the engagement of a warm
 23 body of a billionaire to stand behind the loan in his equity
 24 infusion and capital there. So yes, 25 basis points per the
 25 documents and my experience.

Unell - by Defendant - Cross (Wallace) Page 5762

1 MR. WALLACE: I guess I asked for that one.
 2 Q And is it your understanding that Mr. McCarty was
 3 pricing out the interest rate on a loan for the properties
 4 listed here that was only based only the collateral itself with
 5 no guaranty? Yes or no?
 6 A I do not know because I do not know exactly what
 7 Mr. McCarty did. I have an idea of what he did, but I can't
 8 speak to what Mr. McCarty did. That would have to be in his
 9 testimony as to how he derived the 10 percent and what factors
 10 went into that. And if you are trying to state that, okay, the
 11 10 percent is without a guaranty, that, once again, is the
 12 guaranty was in place. So it is not a -- that is not a
 13 scenario that would ever come into play into this case because
 14 the guaranty was in place at all times.
 15 Q So your scenarios do not incorporate the idea that
 16 there could be no guaranty, correct?
 17 A This scenario states that if there was not a
 18 guaranty, that the additional premium would be 25 basis points.
 19 Q Okay. Did you form a view, one way or the other, as
 20 to what the market interest rate would be for a commercial real
 21 estate loan on these four properties with no guaranty at the
 22 time they were originated?
 23 A No. Because the only person, as I testified earlier,
 24 that is able to do that is Deutsche Bank. The Deutsche Bank is
 25 the trier of the ability to set their own fees. I am not in a

Unell - by Defendant - Cross (Wallace) Page 5763

1 position to set those fees. I don't risk write loans at
 2 Deutsche Bank, the Attorney General doesn't risk write loans at
 3 Deutsche Bank. And certainly Mr. McCarty doesn't -- I did not
 4 make any assumptions as to what the interest rate would be.
 5 The only group that can speculate or actually state
 6 what the interest rate would be is Deutsche Bank, because they
 7 are the ones that were the users of the documents, the ones
 8 that entered into the loan agreement and the ones that offered
 9 the terms to the defendants.
 10 Q Okay. So to the extent Mr. McCarty was pricing out
 11 the market interest rate for a commercial real estate loan on
 12 these four properties, with no personal guaranty at the time
 13 they were originated, you did not try to recreate his analysis?
 14 A No. I tried to give an illustrative of what it would
 15 be based off of the loan documents. I am not trying to
 16 recreate what he did.
 17 THE COURT: Let me jump in. Are you testifying
 18 that with your experience, your expertise, your knowledge
 19 of the facts in this case, you could not possibly estimate
 20 what Deutsche Bank would have charged as an interest rate
 21 in any particular situation, because it is all up to them?
 22 THE WITNESS: Yes. I can give a range and give
 23 historical as to what has been out there and show
 24 illustrative examples of it, but at the end of the day as
 25 referenced in the Deutsche Bank documents, all of their

Unell - by Defendant - Cross (Wallace) Page 5764

1 risk rating, all of their pricing is proprietary. None of
 2 us have that information. None of us have that ability.
 3 None of us understand the total relationship value. We
 4 can try to do our best to understand it based off of the
 5 testimony that has been provided, as well as the
 6 documents. But the only person that has the ability to
 7 determine the risk and the interest rate and the overall
 8 relationship value, is the lender.
 9 THE COURT: So you said you could estimate or
 10 guesstimate within a certain range, but you just couldn't
 11 give an exact?
 12 THE WITNESS: And I did not give an exact. I
 13 have provided data to show how the defendants -- excuse
 14 me, how the plaintiffs at 10 percent was inaccurate and
 15 also not reflective of the actual loan, because the loan
 16 contained a guaranty. And the assumption that the loan
 17 did not have a guaranty is incorrect. Because at the
 18 10 percent level, the loan had an effective guaranty in
 19 all times. At no point in any testimony, in any
 20 deposition or any record have I seen that the guaranty was
 21 invalid. So running the estimate at 10 percent and
 22 stating that there is no guaranty, is an analysis that is
 23 worthless.
 24 THE COURT: Well, just as a general point, and
 25 the attorneys know this, I allow in my discretion

Unell - by Defendant - Cross (Wallace) Page 5765

1 hypothetical questions. So, if you are asked a
2 hypothetical, to say: Oh, but that's not the fact.
3 That's not answering the question.
4 THE WITNESS: So hypothetically 10 percent is
5 unsupported, as not the way that anybody would do it. It
6 was tied to bonds. Bonds are not loans. It was tied to
7 Dell and Club Corp. which are corporate entities. And the
8 support for it was unfounded and inaccurate in his report.
9 So yes, I full-heartedly disagree with the 10 percent that
10 Doral would have been at. And I firmly believe it would
11 be closer, if not lower than the 25 basis points as
12 described here and in the loan documents, and in the
13 testimony of Deutsche Bank.
14 Q So let me clarify one thing. Well, let me ask then,
15 so are you saying that actually the commercial real estate
16 loan, no guaranty, issued by the Commercial Real Estate group
17 at Deutsche Bank or some other Commercial Real Estate division,
18 would have been priced even closer to the private wealth loans
19 than your hypothetical here with the 25 basis points added?
20 A That's not correct.
21 Q So what are you saying? I don't understand what you
22 are saying.
23 A What I am trying to say is that 10 percent is
24 unfounded.
25 Q And you said, I think it would be closer to the

Unell - by Defendant - Cross (Wallace) Page 5766

1 numbers reflected here, even more than the 25 basis points?
2 A Absolutely. And that's reflected in the loan
3 documents.
4 Q So, sir, do you have an opinion, one way or the
5 other, as to what the market rate would be for a commercial
6 real estate loan with no personal guaranty for these four
7 properties?
8 A It would be in the range of where I have it here.
9 Q So close to the private wealth amounts?
10 A Yes. As illustrated in the loan documents.
11 Q So if it is close to the Private Wealth Group --
12 close to the private wealth amounts, why did Donald Trump agree
13 to a guaranty? Why put his own assets at risk?
14 A That's a great question. I am happy you asked it.
15 Because real estate developers that believe in their projects,
16 that place a tremendous amount of equity in their projects, it
17 gives credence to their plan. Especially when you are a
18 redevelopment and repositioning assets. That's what President
19 Trump does.
20 And that is part of what makes his success, is his
21 ability to stand behind his deals, place his name behind it,
22 place extremely large amounts of capital into the deal. And
23 therefore it is looked upon by banks, in my experience, as
24 Deutsche Bank did in their experience, as a well-sounded loan.
25 And guaranties for people that stick behind their deals goes a

Unell - by Defendant - Cross (Wallace) Page 5767

1 really long way in a bank. And as we have already said, banks
2 love billionaires because billionaires repay loans.
3 Billionaires that repay loans with a guaranty makes it more
4 secure.
5 Q You are telling us that Donald Trump -- when the
6 guaranties were at 100 percent -- when the guaranty was at
7 100 percent on Doral, how much capital was at risk for Mr.
8 Trump?
9 A Several hundred million dollars, because he had
10 placed \$250 million of capital in there.
11 Q I am asking on the guaranty. When he had the
12 guaranty on the Doral loan and the guaranty is 100 percent, how
13 much of Mr. Trump's capital was at risk in that guaranty?
14 A \$125 million.
15 Q You are saying that Mr. Trump put \$125 million of his
16 own capital at risk unnecessarily because he could have gotten
17 the same interest rate --
18 MR. WALLACE: Actually, let me strike that
19 question if I can, or withdraw that question, if I can,
20 Your Honor.
21 THE COURT: Withdrawn.
22 Q Mr. Trump guaranteed the Doral loan for \$125 million,
23 for which he was personally responsible, but received no
24 interest rate benefit for that guaranty; is that your
25 testimony?

Unell - by Defendant - Cross (Wallace) Page 5768

1 A No. He did receive an interest rate benefit. You
2 are looking at it right here, 25 basis points.
3 Q So the --
4 A And actually, in actuality, he elected to keep his
5 guaranty in place when he didn't have to for 25 basis points.
6 That is actually what happened. So we are not even looking at
7 a hypothetical here as to, oh, Mr. Trump didn't have his
8 guaranty, what is it worth. We see what it is worth. And we
9 see to him that he elected to keep the guaranty because that
10 was important to him and was worth 25 basis points.
11 Q In your description of why Mr. Trump chose to have a
12 guaranty in order to obtain a 25 basis-point benefit, what did
13 you do -- what documents did you review in your analysis to
14 come to that conclusion?
15 A The credit memos, the loan agreements and the actual
16 what happened with the loan, in that he did elect to keep the
17 guaranty in exchange for a 25 basis-point reduction.
18 Q Did you review any testimony from Mr. Trump about why
19 he chose to have a guaranty on the Doral property?
20 A I did not.
21 Q Okay.
22 THE COURT: Just, the court reporter would like
23 you to speak a little slower, generally.
24 MR. WALLACE: Me too.
25 THE COURT: You are not the first person.

Unell - by Defendant - Cross (Wallace) Page 5769

1 THE WITNESS: We will slow it down a little bit.
2 Q Did you review any contemporaneous documents from the
3 Trump Organization during the period of negotiation for the
4 Doral loan explaining that these were the reasons for including
5 a guaranty on the loan for a 25 basis-point improvement?
6 A At which point? That's -- I mean, the loan was
7 originated from 2014 to 2022, had multiple iterations to it. I
8 want to make sure we are at the right time.
9 Q The origination of loan in 2011 and 2012.
10 A No. But it was -- during that -- the loan documents
11 state what the step-down would be and what the increase of
12 interest would be. It is in the documents.
13 Q So you are extrapolating Mr. Trump's intent from the
14 loan documents?
15 A What actually happened. He did decide that he was
16 going to keep a limited guaranty in exchange for a 25
17 basis-point change.
18 Q I believe you said you were here for Ms. Vrablic's
19 testimony on Wednesday; is that correct?
20 A Yes, sir.
21 Q And do you recall that Ms. Vrablic testified that
22 most of her clients do not like recourse; do you recall that
23 testimony?
24 A Yeah, that's -- that's correct. Most people don't
25 like recourse.

Unell - by Defendant - Cross (Wallace) Page 5770

1 Q And so it is your professional opinion that a 25
2 basis-point improvement in interest rates is sufficient for a
3 client to put aside that dislike of recourse?
4 A Absolutely. If it is that -- if it is their business
5 decision, that's their business decision. And Deutsche Bank
6 obviously felt comfortable with it by approving it and placing
7 it in the loan documents. I can't speak to the business
8 decision of somebody. There is a lot of other factors that go
9 into a decision besides that. And also, if you are a real
10 estate developer, while some don't like it, those that are
11 confident, that have success, they will put their name behind
12 it.
13 Q In the course of preparing your reports, did you come
14 across any evidence indicating that Donald Trump had decided by
15 2011 that he never wanted to do a recourse loan again?
16 A I believe I read some of that, but things change.
17 Metrics change. As I mentioned earlier, within five seconds
18 ago, there are a lot of things that can change, including what
19 is happening with his personal life, what is happening with his
20 professional life, what is happening with his corporate life,
21 as well as what is happening in the overall capital markets.
22 THE COURT: Two things. One, slow down.
23 And two, the question was, did you come across a
24 certain statement. Not your interpretation of what then
25 happened. The other side could redirect you on what your

Unell - by Defendant - Cross (Wallace) Page 5771

1 interpretation was.
2 Q Mr. Unell, if I could hand you a document. It is
3 already in evidence. I think it is easier for everyone.
4 MR. WALLACE: It is Plaintiff's Exhibit 1251.
5 (Handing)
6 Q This is an e-mail chain between Ivanka Trump, Jason
7 Greenblatt, Allen Weisselberg, and David Orowitz from December
8 of 2011. Mr. Unell, did you review this document in the course
9 of preparing your report?
10 A I don't recall.
11 MR. WALLACE: If we turn to page two of this
12 document.
13 Q At the bottom there is an e-mail from Rosemary
14 Vrablic. She is forwarding an attached summary of terms, the
15 proposed acquisition of the Doral resort.
16 Ivanka Trump responds -- forwards this on to
17 Mr. Weisselberg, Mr. Greenblatt, Mr. Orowitz. And writes: It
18 doesn't get better than this. Let's discuss ASAP. I want to
19 call Rosemary and thank her, but if there are any asks I would
20 like to give her an indication. I am tempted not to negotiate
21 this, though.
22 Do you remember reviewing that e-mail from Ms. Trump?
23 A I have seen that before, yes, sir.
24 Q And if you look at the response from Jason Greenblatt
25 above, page one. Do you know who Jason Greenblatt is?

Unell - by Defendant - Cross (Wallace) Page 5772

1 A No, sir.
2 Q He is an attorney at the Trump Organization, I'll
3 represent that to you.
4 He writes: I will review. But not immediately -- I
5 am sorry. I will review but not -- it is supposed to be
6 "note" -- immediately that this is a full principal and
7 interest and operating expenses personal guaranty. Is DJT
8 willing to do that? Also, the net worth covenants and DJT
9 indebtedness limitations would seem to me like a problem.
10 Do you know if you determined why Mr. Greenblatt felt
11 the net worth covenants and indebtedness limitations would be a
12 problem?
13 A I can't speak on behalf of Mr. Greenblatt.
14 Q If we look at the next e-mail in the chain from
15 Ivanka Trump, she writes: That we have known from day one. We
16 wanted to get a great rate, and the only way to get
17 proceeds/term and principal where we want them is to guarantee
18 the deal. As the market has illustrated, getting leverage on
19 resorts right now is not easy. (i.e. 125 plus an equity kicker
20 for another 25 percent or Beal with full cash flow sweeps and
21 steep prepayment penalties).
22 Did you review that e-mail in preparation?
23 A Yes.
24 Q Okay. So, Ms. Trump believes that the only way to
25 get a great rate and the terms and principal they wanted, were

<p>Unell - by Defendant - Cross (Wallace) Page 5773</p> <p>1 guarantee the deal. Is that indicative of the benefit that 2 they were going to be able to obtain by guaranteeing the deal? 3 Is that fair? 4 A Yes. 5 Q If you look at the response from Mr. Greenblatt. He 6 states: Obviously this is not my decision, but this is 7 completely inconsistent with what he told me he would ever do 8 again when we had the Chi and Vegas issues, and the magnitude 9 of this is much bigger. He was so angry that he got himself 10 "into the Chi/Vegas mess" and told me he never wanted to do 11 this again. I understand that he has changed his mind. And 12 that's fine. But he has to recall that banks do sue under 13 payment guaranties and he may have to write a check north of 14 125 million if there is any default on the loan. 15 I think we can agree though, that despite these 16 concerns of Mr. Greenblatt, Mr. Trump agreed to guarantee these 17 loans, correct? 18 A Yes. He was the ultimate decision maker as the 19 guarantor. 20 Q It is your opinion that he did this to obtain a 25 21 basis-point improvement in the interest rate on the loans; is 22 that right? 23 A No, that's not it. That's not what I stated. 24 Q What are you saying? 25 A I am stating he did it to obtain a preferential rate</p>	<p>Unell - by Defendant - Cross (Wallace) Page 5775</p> <p>1 that go with an interest rate. It is not just, oh, guaranty or 2 no guaranty 25 bits. You can't put this in a square box in a 3 vacuum. You are ignoring multiple other facts that go into the 4 pricing of a loan. 5 Q So, I am going to represent to you that what is 6 happening is an effort to figure out how much disgorgement, how 7 much benefit the Trump Organization obtained, and we are just 8 trying to obtain a reasonable approximation. 9 So, let me ask, is there -- what -- I'll withdraw. 10 I'll restate the question. 11 Can you state what the interest rate benefit was from 12 having a guaranteed loan as opposed to a non-guaranteed loan on 13 the Doral property? 14 A I cannot state what the exact benefit is. However, 15 there was a benefit. 16 Q Okay. And so I take it -- and I apologize if I did 17 cover this one. You did not reach an independent opinion on 18 what the market rate for a commercial real estate loan with no 19 personal guaranty for these four loans would be, right? 20 A No. 21 Q Okay. So Mr. Unell, I will represent to you that as 22 part of the assignment Mr. McCarty received, he was asked to 23 assume that Mr. Trump did not have access to the Private Wealth 24 Management group because Mr. Trump had engaged in fraud in the 25 preparation of his financial statements.</p>
<p>Unell - by Defendant - Cross (Wallace) Page 5774</p> <p>1 in the bank of the Private Wealth Management bank, which would 2 have been in line with their pricing guidelines, which he was 3 aware of. They have a published pricing guideline, and it 4 required a guaranty. And he provided the guaranty. What 5 Deutsche Bank decided was the premium there, that's for 6 Deutsche Bank to decide, not me or you. 7 Q What is your evidence that Deutsche Bank published it 8 its pricing guideline? 9 A They didn't publish their pricing guideline. 10 However, in my experience, they would able -- and 11 Rosemary Vrablic or others would have discussed that with them. 12 That's how business gets done. You say, okay, what are 13 indicative rates? You don't go out and just throw it. They 14 knew there was a benefit to be derived and that benefit would 15 be negotiated. And to say that there is no benefit derived or 16 for me to try to put myself in the mind of the guarantor, to 17 determine what that benefit is, or to determine what that 18 benefit to Deutsche Bank is, that's for Deutsche Bank and the 19 guarantor to decide, not for me. 20 Q Or the Court, to be fair. 21 I am focused on interest rates. And are you saying 22 that there was a greater benefit to be derived in interest 23 rates beyond the 25 basis points you have been talking about? 24 A There is a benefit to be derived, to be determined 25 based on other deal terms. The guaranty is one of many terms</p>	<p>Unell - by Defendant - Cross (Wallace) Page 5776</p> <p>1 Does your interest differential calculation include 2 that assumption? 3 A No, because that's not what my assignment was, 4 because there was a guaranty in place. 5 Q So putting aside the fraud piece. Does your interest 6 differential calculation include an assumption that Mr. Trump 7 does not have access to the Private Wealth Management group at 8 Deutsche Bank? 9 A No, because he did have access to it. 10 Q And so if that was Mr. McCarty's assignment, you two 11 aren't really measuring the same thing, are you? 12 A I can measure that his rates -- 13 Q That's not my question. 14 My question is, you and Mr. McCarty were not 15 measuring, if that was Mr. McCarty's assignment, you and Mr. 16 McCarty were not measuring the same thing. 17 MR. KISE: Objection, Your Honor. I think 18 Mr. Wallace's hypothetical presumes facts contrary to the 19 evidence. This is an improper hypothetical. 20 MR. WALLACE: It is a hypothetical, so. 21 MR. KISE: You can't pose a hypothetical that is 22 squarely contrary. That's like saying assume today is 23 Tuesday. It is not Tuesday, it is Friday. 24 THE COURT: Okay. I am not sure he is doing 25 that.</p>

<p>Unell - by Defendant - Cross (Wallace) Page 5777</p> <p>1 MR. KISE: But he is. If you want to excuse the 2 witness, we can, but that's definitely what he is doing. 3 His hypothetical -- his hypothetical presumes in 4 the first instance that President Trump wouldn't have 5 qualified for the private wealth bank. He did. You 6 already heard testimony, 10 million and 100 million, 7 that's it. 10 million liquidity, 100 million net worth. 8 Once you are there, you are in the private bank. That's 9 it, you are in. Period. It doesn't matter beyond that. 10 So it is like assuming that he didn't qualify. 11 MR. WALLACE: Now we should excuse the witness. 12 MR. KISE: That's fine. I offered. 13 (Whereupon the witness stepped down from the 14 stand and exited the courtroom.) 15 (Whereupon the following proceedings were 16 stenographically recorded by Senior Court Reporter Michael 17 Ranita.) 18 19 20 21 22 23 24 25</p>	<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5779</p> <p>1 that's what the guaranty is worth. Once you are in the 2 private bank, you are in this sort of rarified air and you 3 get access to these rates. So it's a flawed premise. It's 4 an improper hypothetical to say, well, no, no, we have to 5 compare it to the outside world, and this witness has to 6 accept that premise. I mean, yes, if I assume that today is 7 Tuesday not Friday, then tomorrow will be Wednesday and not 8 Saturday. I mean, right -- 9 MR. WALLACE: This is -- your Honor, this is not an 10 evidentiary objection. Mr. Kise -- 11 MR. KISE: It is an evidentiary. 12 MR. WALLACE: -- he does this all the time. You 13 argue your case. I would say it also shows, Mr. Kise, 14 something you never talk about, that the Court found 15 Mr. Trump committed fraud to get into the -- 16 MR. KISE: No. 17 MR. WALLACE: To get into Private Wealth Group, he 18 committed fraud. 19 MR. KISE: No. 20 MR. WALLACE: He did. 21 MR. KISE: No. 22 MR. WALLACE: The Court has found that. 23 MR. KISE: No. The Court has found that he 24 violated 63(12), which expressly means only that he violated 25 the statute and not fraud; that's what we are here about.</p>
<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5778</p> <p>1 THE COURT: Mr. Kise, do you need to finish or -- 2 MR. KISE: Yeah, no, it's -- it's like going back 3 and debating whether the world is round or whether the world 4 is flat. I mean, the evidence in the record demonstrates he 5 qualified for the Private Wealth Bank; 10 million liquidity, 6 100 million in net worth. I mean, that's just undisputed. 7 So once you are in the Private Wealth Bank, and maybe this 8 is where the disconnect is. Once you are in the Private 9 Wealth Bank, your interest rates are different, period, full 10 stop. They are different. And they are different because, 11 as you heard the testimony, they are different because the 12 bank wants you as a client. He's a whale of a client. He's 13 a billionaire. He is one of -- so they are willing to give 14 him rates because they are going to get deposits; they are 15 going to get access to his assets; they are going to write 16 other loans. You heard all this testimony. So they are 17 willing to do things for this client that they are not going 18 to do for just somebody who comes in off the street. 19 So, yes, you have to give a personal guaranty, but 20 the pricing to on the personal guaranty is not the pricing 21 between the regular world and Private Wealth. The pricing 22 is within the Private Wealth parameters. And that's exactly 23 what this witness is saying is, okay, there's a range you 24 heard -- you heard the witness, Mr. Williams, testify to it, 25 2 percent to 2.5 percent. So that's 25 basis points. So</p>	<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5780</p> <p>1 This is the problem with the Attorney General's view. They 2 haven't proven -- in order to establish fraud, intent, 3 materiality, reliance and damage. I mean, that was what you 4 have to establish; that's what is at issue with these 5 remaining counts. They wanted a trial on these remaining 6 counts. That's what this trial is about. 7 MR. WALLACE: I believe. 8 MR. KISE: 63(12) violation, as your Honor has 9 held, a 63(12) violation doesn't require those elements. So 10 to call it fraud in the generic sense because we use that 11 term in association with 63(12), doesn't mean that it's 12 fraud in the sense of what's at issue in this case. 13 MR. WALLACE: Your Honor, your Honor. 14 THE COURT REPORTER: I can't hear when you are 15 both -- 16 MR. KISE: I'm not arguing a case. It's an 17 evidence objection. A hypothetical, it's an improper 18 hypothetical. 19 THE COURT: Mr. Wallace, do you have anything to 20 say? 21 MR. WALLACE: Are you about to strike my 22 examination of this witness? 23 THE COURT: Your what? 24 MR. WALLACE: My examination of this witness. 25 Mr. Kise is saying I shouldn't be allowed to because they</p>

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5781

1 are improper hypotheticals.
2 MR. KISE: It was one question. It wasn't the
3 whole examination. I liked most of the rest of it.
4 THE COURT: Would you like to explain --
5 MR. WALLACE: No, I don't want to rephrase my
6 question.
7 THE COURT: I'm --
8 MR. WALLACE: I'm sorry. I interrupted you.
9 THE COURT: I'm not asking you to rephrase. I'm
10 asking for you to defend it.
11 MR. WALLACE: It is completely consistent with our
12 disgorgement theory, which also relates to 63(12) fraud,
13 that he lied to the Private Wealth Group to get these loans,
14 and therefore, we are looking as to what the interest rates
15 would have been if he had not had access to the group that
16 he lied to. That is the simple measure, and the Court will
17 be free to decide whether it likes that measure or it
18 prefers Mr. Unell's measure at the end of the day.
19 MR. KISE: We are right back to circuitous again.
20 MR. WALLACE: It's less circuitous if I just finish
21 the exam.
22 THE COURT: Objection overruled. We could argue
23 all day. Let's get the witness back. You could ask him
24 hypotheticals. I don't see a problem with that, and I
25 accept Mr. Wallace's explanation.

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5782

1 (Whereupon, there is a brief pause in the
2 proceedings as the witness enters the courtroom and steps
3 into the witness stand.)
4 THE COURT: I should explain "I accept his
5 explanation." I think so his explanation is correct. Thank
6 you.
7 Okay. Next question.
8 Q Mr. Unell, I think you said that you did not accept --
9 MR. WALLACE: Why don't we put up DD5 and PDX4 side
10 by side.
11 (Whereupon, the exhibit was displayed on the
12 screen.)
13 Q So this is your analysis, and it should hopefully be
14 Mr. McCarty's analysis, both which are very hard to view on this
15 screen, but I can say that -- we talked about this, but
16 Mr. McCarty uses a ten percent rate for Doral; correct?
17 A Yes, sir.
18 Q And I believe you, yesterday, criticized Mr. McCarty
19 for using a fixed rate rather than a flat rate; is that correct?
20 A Yes, sir.
21 Q And that's because the DB loans had floating rates; is
22 that correct?
23 A Yes, sir.
24 Q You reviewed Mr. McCarty's trial testimony; is that
25 right?

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5783

1 A Yes, sir.
2 Q And do you recall that he testified that using -- he
3 viewed using a fixed rate as more conservative?
4 A Yes, sir.
5 Q And he said that was because the loan rates were tied
6 to LIBOR, and that LIBOR increased over the term of these loans;
7 is that correct?
8 A I believe that's what his testimony was. I do not know
9 the LIBOR spread over the time, so I can't say whether it was
10 true or correct or not?
11 Q Well, if we look at the loans. We could use your
12 chart. The actual interest rates, they started at one point --
13 I will read this to you. It's impossible so see.
14 A I could see down here.
15 Q Let me move back here then. So the 2014 rate starts at
16 1.9035, and then goes up to a high of 4.1616 in 2019. Do you
17 see that?
18 A Yes, sir.
19 Q So, that is indicative of an increase in LIBOR over
20 that period.
21 A It is, but without seeing what the overall impact is in
22 the years '20 to 2022 where it goes down to 1.8042, without
23 seeing the full analysis run out on a spreadsheet, one can't
24 tell me that's a conservative approach, because you wouldn't
25 know what the overall impact would be of sometimes it went up,

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5784

1 but he doesn't account for when it goes down to 1.8042 percent,
2 which is below the origination at 1.9035.
3 THE COURT: Slower, still.
4 Q I believe Mr. McCarty testified that he did do that,
5 and it was more conservative, but you didn't actually run an
6 analysis whether fixed or flat was more conservative?
7 A I have not, and I have not seen any indication or
8 evidence to support Mr. McCarty's claim that it was
9 conservative.
10 Q Well, I mean, it's math. Somebody can just run it
11 tomorrow and figure it out.
12 A But it hasn't been provided to me, so I'm sure it could
13 be done, and it could've been done beforehand, but it hasn't.
14 Q Mr. Unell, I'm going to hand you a document that's been
15 marked Plaintiff's Exhibit 2658. This is the Realty Rates
16 Investor Survey for the fourth quarter of 2011.
17 Do you see that?
18 A Yes, sir.
19 Q And this is one of the reports you reviewed in the
20 preparation of your report; correct?
21 A Yes, sir. And it was also utilized in the deposition.
22 Q Okay.
23 A I recognize the --
24 Q You see that.
25 So if we could go to page six of this document, if we

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5785

1 could pull up -- focus on the chart, I think. Well, just the
2 chart is fine.
3 (Whereupon, the exhibit was displayed on the
4 screen.)
5 Q This is the table that you utilized in preparing your
6 analysis of the increases -- the flow of interest rates -- let
7 me rephrase that.
8 This is the information you used in preparing your
9 tables showing the changes in interest rate spreads over time;
10 is that right?
11 A Actually, I believe that it was taken from the various
12 individual pages throughout here that, for instance, when you
13 would look at page 23 of 41 where it says "lodging facilities,
14 full-service", that that would provide that information.
15 I'm not certain that it ties back out to the overall on
16 this page. So it -- no, it was not. It was more so both this,
17 and it ties back to 23.
18 Q We could pull up --
19 A 11 and 23. I want to make sure I'm saying that all the
20 data was. This was a portion of it, but 23, also.
21 Q So let's pull up page 23.
22 A Yes.
23 THE COURT: One at a time, and slower.
24 MR. WALLACE: Apologies.
25 A Mr. Wallace, I'm not saying it wasn't. I want to make

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5786

1 sure this was also placed out there, too.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 Q Presumably the information, the two tables, correlates.
5 A I believe so. This is the more detailed table, yes.
6 Q Why don't we just go to the broad table then. I'm not
7 going to get into too much detail.
8 A That's fine. I want to make sure we are working off of
9 the same numbers.
10 MR. WALLACE: Okay. So if we go back to page six,
11 the table.
12 (Whereupon, the exhibit was displayed on the
13 screen.)
14 Q So your analysis, you are using the first row at the
15 top, correct, which is spread over base?
16 A We've used several of these. We've used the
17 loan-to-value, we've used interest rate.
18 THE COURT REPORTER: I'm sorry, we've used interest
19 rate and --
20 A Spread over base, interest rate and loan-to-value.
21 MR. WALLACE: Why don't we pull up DD4, page one,
22 if we could.
23 (Whereupon, the exhibit was displayed on the
24 screen.)
25 Q For this chart --

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5787

1 A Yes.
2 Q -- you looked at yesterday, is this using the spread
3 over base?
4 A Spread over base for office. Yes, because this is
5 based off of the average, yes, sir.
6 Q And if we look at the notations, the two stars next to
7 spread over base, at the bottom it says this is a spread over
8 base over the ten-year treasury rate.
9 Does that mean that it's measuring the interest spread
10 for these categories over the ten-year treasury bond?
11 A It would mean the ten-year treasury would be the base
12 rate.
13 Q And the Doral loan was priced as a spread over LIBOR;
14 is that correct?
15 A Yes.
16 Q And these -- the data presented here, and we could open
17 up, are Class A, Class B properties; is that correct?
18 A Yes.
19 Q And I believe you testified at your deposition that
20 Doral, at this time, was a Class B property; is that correct?
21 A It was a full-service lodging facility. I'm not
22 certain if it was a Class B, but it would have been factored
23 into Class A based off the renovations that were going to be
24 undertaken by the defendants.
25 Q I guess that's my question. Is the plan at the time of

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5788

1 the Doral loan being initiated was for Mr. Trump to do extensive
2 renovations to the resort; is that correct?
3 A Yes.
4 Q I believe he had said that the brand had been
5 misaligned and that it had been miss run by the Marriott group;
6 is that correct?
7 A I believe so, yes.
8 Q So he eventually spent more than \$200 million
9 renovating the property; is that right?
10 A That's correct.
11 Q But it's your position that at the time they're
12 initiating this loan, with all that renovation still to come, it
13 was appropriate to price it as a Class A property?
14 A Absolutely. It was a first-class facility, and just
15 because it needs renovation does not mean that it is not a Class
16 A facility.
17 There are multiple examples and items or projects that
18 I've worked on throughout my career that are renovation projects
19 that are treated as Class A.
20 Class A not only has to do with the condition. It has
21 to do with the location, the actual asset itself in its
22 competitive set. You cannot just state the condition. The
23 condition was not really a factor in determining whether it's a
24 Class A asset or Class B asset at the time.
25 Q So -- I apologize.

<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5789</p> <p>1 Just to set some ground rules, some ground work, 2 Mr. Trump paid 150 million to purchase the resort out of 3 bankruptcy; correct? 4 A Correct. 5 Q And he was then going to invest more than \$200 million 6 of his own funds in the property? 7 A Correct. 8 Q So the fact that the property was going to need 9 \$200 million of renovation over several years, to your 10 professional view, did not add any risk to the loan for the 11 Doral property? 12 A Additional risk over what? 13 Q That the project would be successful; that the project 14 would be repaid? 15 A It's what banks do. They analyze the risk on a 16 construction loan. That's what they do. 17 Q And -- 18 A So it's no more risky than any other, you know, 19 repositioning loan that's out there. 20 Q My question is, these are for operating properties. 21 Was the fact that Doral was going to require extensive 22 renovations, \$200 million, did that add any risk that should be 23 considered in pricing the loan for that property? 24 A Add any risk to what? I'm trying to figure out what we 25 are adding risk to.</p>	<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5791</p> <p>1 A Correct. 2 Q That's why you included the golf courses and country 3 club number in your chart; correct? 4 A Yes, sir. 5 Q If we look at the spread for golf, the minimum is 1.2, 6 the maximum is 11.5, and the average is 5.84. Actually, why 7 don't we look at the interest rate instead, because I believe 8 the two percent number that -- the two point -- the two plus 9 number that you were using was the actual interest rate, so that 10 included the spread plus whatever the base rate would have been; 11 correct? 12 A Um, we looked at it from multiple different angles, so 13 happy to look at it however you like. 14 Q So since Mr. McCarty, in his chart, and you, in your 15 chart, include natural interest rate, let's look at the interest 16 rate column. For golf, the minimum is 3.5; correct? 17 A Correct. 18 Q And so that's higher than the two plus rate that 19 Mr. Trump actually obtained; correct? 20 A It is. 21 Q And the maximum is 13.8; is that correct? 22 A Correct. 23 Q And the average is 8.14; correct? 24 A Correct. 25 Q So that eight percent -- so the ten percent used by</p>
<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5790</p> <p>1 Q You said that banks set interest rates based on their 2 assessment of the risk in the loan. 3 A Okay. And that was factored in to their analysis of 4 the project in the plan. 5 Q I'm asking -- the "they" you are referring to is 6 Deutsche Bank? 7 A Deutsche Bank, yes, sir. 8 Q I'm not asking about Deutsche Bank at this point. My 9 question is whether the Doral loan is more risky because the 10 property needed to be renovated, over an operating property that 11 is not planning on extensive renovations? 12 A If you are trying to compare it between a property that 13 needs renovation and doesn't need renovation, it could. 14 However, there are many examples of luxury properties that go 15 through a renovation that are accretive and do not create 16 additional risk. So to measure that risk, you would have to 17 dive into the actual details of what the plan was, the timing of 18 it, the impact on ADR, how would it affect occupancy, how it 19 affects cash flow, the timing of it. So in order for 20 seasonality, there are multiple factors that go into that that I 21 did not evaluate that were evaluated by Deutsche Bank in that 22 analysis of the project. 23 Q Let's go back to the sort of market rate information 24 you were talking about. If we look at golf, Doral also had a 25 golf element; correct?</p>	<p>R. Unell - by Defendant - Cross (Mr. Wallace) Page 5792</p> <p>1 Mr. McCarty is between the maximum and the average; is that 2 correct? 3 A Yeah. 4 Q Okay. 5 Why don't we take a look at another document. Let me 6 ask, Mr. Unell, did you consider any contemporaneous documents 7 about the potential commercial real estate loans, without a 8 personal guaranty, that were being offered on Doral? 9 A I reviewed nonbinding term sheets. 10 Q And you decided not to use those documents; correct? 11 A They were nonbinding. 12 Q So you didn't rely on them. 13 A They were not binding and not relied in my opinion. 14 They were not to be relied on. 15 Q And so you, in fact, did not rely on them; correct? 16 A In my expert opinion, in my experience, a nonbinding 17 term sheet is not an indication of terms, so therefore, I did 18 not include it. 19 THE COURT: All you had to say was no, or no, I 20 didn't rely on it. He didn't ask for a reason. Please, 21 we'll save a lot of time if you answer yes or no questions 22 with yes or no answers. 23 As long as I have -- I just wanted to follow up on 24 the last topic. I think what Mr. Wallace was asking -- 25 maybe I'm wrong -- all other things being equal, because</p>

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5793

1 Mr. Unell, you like to bring in all these various factors,
2 which often are very important about the pricing of a loan,
3 but if all other things are equal, is there more risk to a
4 lender in lending to a fully built Class A property worth
5 approximately \$350 million as opposed to a potential Class A
6 property that's being purchased for \$150 million and there's
7 an estimate of \$200 million to bring it up to Class A?
8 Wouldn't there be more risk? I could ask leading questions
9 I hope.

10 THE WITNESS: There is, but there is also more
11 reward there. And the upside is more. So you're initial
12 investment of \$150 million for the lender is less than the
13 \$350 million loan that they would make. So with the equity
14 infusion of the \$200 million, the guarantor and borrower had
15 more money invested into this asset than the lender did.
16 And so I would have to say with -- it's not all things
17 equal. You would have to look at everything there. So you
18 are trying to say a \$350 million stabilized loan or
19 \$150 million stabilized loan with \$200 million of equity in
20 it, that's not an apples to apples comparison. And there is
21 no way to compare that without doing extreme analysis that
22 was conducted by Deutsche Bank to determine where the risk
23 profile is.

24 Those are two completely different animals that --
25 you are talking about different amounts of leverage; you are

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5794

1 talking about a different amount of equity contribution; you
2 are talking about a different future value. And more
3 importantly, you are talking about a different principal
4 amount of 150 versus 350 million.

5 THE COURT: What if the principal amount of the
6 loans was equal?

7 THE WITNESS: Well, if it was 150 million and 150
8 million, you wouldn't be able to -- how would you come up
9 with the \$200 million of equity to purchase a \$350 million
10 loan. Nobody is going to go out and buy a \$350 million
11 operating stabilized hotel and only take out \$150 million of
12 debt. They would leverage it up to 65 to 75 percent, as is
13 done and shown in the investor survey, that the average LTV
14 was 70 percent. So you can't compare \$150 million loan to a
15 \$150 million loan that is at a completely different
16 loan-to-value with a different profile in equity
17 contribution. It's not -- it's not fair to for anybody to
18 do.

19 It would be impossible to do, as I sit here today,
20 without having all of those factors in front of me, and to
21 underwrite them side by side and tell you what that would
22 be. It's not an equal comparison. They are two different
23 loan products.

24 THE COURT: All right. Next question.
25 MR. WALLACE: We are going to hand the witness a

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5795

1 document that's been marked as Plaintiff's Exhibit 369.
2 (Whereupon, the exhibit was displayed on the
3 screen.)
4 (The witness was handed the exhibit.)
5 THE WITNESS: Thank you, sir.

6 Q Mr. Unell, you reviewed this document preparing your
7 report; is that correct?
8 A Let me make sure this is it. Yes, sir.
9 Q And this is a transaction overview of a proposed loan
10 by Doral for the CRE Group in Deutsche Bank, dated November 21,
11 2011; correct?
12 A Yes, sir.
13 Q This proposal does not include a personal guaranty,
14 does it?
15 A No, it doesn't.

16 MR. WALLACE: Turn to page five of the document.
17 (Whereupon, the exhibit was displayed on the
18 screen.)
19 Q Under the bar marked "Facility", it states the amount
20 of the loan would be 130 million dollars, and the transaction
21 would be LIBOR 800 -- LIBOR plus 800, with a LIBOR floor of 200
22 BPS, or two percent; is that correct?
23 A Yes, sir.
24 Q And so this rate matches the ten percent rate that
25 Mr. McCarty used; is that correct?

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5796

1 A Yes, it does.
2 Q And it is your opinion that this proposal from Deutsche
3 Bank does not reflect the market rate; is that correct?
4 A Yes, it does not reflect market rate -- it does not
5 reflect market rate.
6 Q So your opinion of the rate of LIBOR plus 800 with a
7 floor of 200 BPS would not have been standard in that time?
8 A That is my opinion.
9 Q You reviewed the deposition testimony of Donald J.
10 Trump in this action, in the process of preparing your report;
11 is that correct?
12 A Yes, sir.

13 MR. WALLACE: Could we pull up the excerpt of his
14 testimony, starting page 307.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q If you see there is -- I'll represent to you this is a
18 discussion of the same document we are looking at. It states:
19 "Mr. Trump, we've handed -- the court reporter has
20 handed you a document that has been marked at Exhibit 22.
21 It's a golf resort -- Doral Golf Resort and Spa, Miami, a
22 set of discussion materials from Deutsche Bank." There's
23 the production number, and it says, "I don't know if you saw
24 -- I don't think you saw this document."
25 He says, "No."

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5797

1 "I wanted to ask you if the last page of documents,
2 easiest way to see it, there is a summary of terms in the
3 line that say the facility."
4 "Yeah."
5 "It says the amount is 130 million. The spread is
6 L plus 800 BPS, which I'm interpreting to mean LIBOR plus
7 800?"
8 "ANSWER: Yes.
9 "QUESTION: The LIBOR floor is two percent OID is
10 97, and the maturity is six years. I just wanted to see if
11 this refreshes your recollection that Deutsche Bank, the
12 Commercial Real Estate Group, was offering you a rate of
13 LIBOR plus 800?
14 "ANSWER: Well, it's LIBOR, a floor of two, which
15 it was going lower than that at the time. So I was actually
16 -- so I had a floor of two, which was sort of standard, and
17 then 800 over that."
18 "So that would be ten percent at the lowest of the
19 lowest?"
20 "ANSWER: So it would be -- no. It would mean two
21 plus 800 BPS."
22 "Okay."
23 "ANSWER: I think that was an I think it was pretty
24 standard."
25 "Okay but you didn't choose to go with the

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5798

1 Commercial Real Estate Group at Deutsche Bank; is that
2 correct?"
3 "No, I didn't."
4 So Mr. Trump is stating that two plus 800 BPS is
5 pretty standard; correct?
6 A I mean, he says it was sort of standard. He doesn't
7 say that. He said it was sort of standard. If you would scroll
8 back up, he is actually talking about the floor is sort of
9 standard, not the 800 over that.
10 Q Well, we could each interpret --
11 A Could you please scroll up so that I could read into
12 the whole thing so that I can have my answer correct, please.
13 My reading of this in the opinion is that the floor was
14 standard, not the 800 BPS was standard.
15 Q Well, he then says:
16 "So it would be -- no it would mean the two plus
17 800 BPS, okay. And I think this was pretty standard."
18 That was after the discussion of ten percent. Your
19 interpretation of this is it's only the two -- LIBOR floor
20 of two?
21 A That's correct.
22 Q If Mr. Trump was, in fact, saying that LIBOR floor of
23 two plus 800, or 10 percent was standard, you would disagree
24 with that?
25 A Yes, based off of my experience.

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5799

1 Q Okay.
2 MR. WALLACE: Your Honor, I would move to admit
3 Plaintiff's Exhibit 369 into evidence.
4 THE COURT: Granted. It's in.
5 (Plaintiff's Exhibit 369 was deemed marked and
6 admitted in evidence.)
7 MR. WALLACE: If we could turn to another document,
8 Plaintiff's Exhibit 3232.
9 (Whereupon, the exhibit was displayed on the
10 screen.)
11 (The witness was handed the exhibit.)
12 THE WITNESS: Thank you sir.
13 Q Mr. Unell, I'll give you a second to look at it, but
14 did you review this document in the process of preparing your
15 opinions.
16 A Yes, sir.
17 Q Okay.
18 It's an e-mail dated November 15th, 2011, from Steve
19 Harvey, at CSG Investments, to Ivanka Trump and Dave Orowitz.
20 Do you see that?
21 A Yes, sir.
22 Q Are you familiar with CSG Investments?
23 A I am not.
24 Q So I will represent to you that is the investment
25 advisor for Beal Bank. Are familiar with that entity?

R. Unell - by Defendant - Cross (Mr. Wallace) Page 5800

1 A I am familiar with Beal Bank and have worked with them
2 in the past.
3 Q As you could see, he is sending an attachment that is
4 entitled Doral term sheet.
5 A Yes.
6 Q If we could turn to the second page of this document,
7 there is a set of terms that start with "The borrower, Trump
8 Endeavor 12, LLC," that is the borrower for Doral; correct?
9 A Yes, sir.
10 Q Okay.
11 And the loan amount here, you could see there is a
12 change from 80 million to 95 million. Do you see that?
13 A Yes, sir.
14 Q Okay.
15 And it states that the interest rate is LIBOR plus 550;
16 is that correct?
17 A Yes, sir.
18 Q And so, it's your opinion that even this would be above
19 market; is that correct?
20 A Yes, because Beal Bank is not a traditional lender.
21 Q And if The Trump Organization were to have accepted
22 this loan, I believe it would mean they would have had to add
23 another \$30 million of their own equity to the project; is that
24 correct?
25 A To be determined, because they would already had gone

Page 5801

1 above and placed the 250 above --
2 THE COURT REPORTER: I'm sorry, to be determined,
3 because they already had gone above --
4 A They already gone above 250 million, and the plans
5 could've changed based off of the financing.
6 Q But to use a turn of phrase, all other things being
7 equal, this loan, as opposed to the Deutsche Bank loan, they
8 would have had to have \$30 million of their own equity added?
9 A If the development plan would have stayed the same,
10 yes, sir.
11 MR. WALLACE: If we could do another document,
12 Plaintiff's Exhibit 3243.
13 (Whereupon, the exhibit was displayed on the
14 screen.)
15 MR. WALLACE: It's in evidence.
16 (The witness was handed the exhibit.)
17 THE WITNESS: Thank you.
18 Q So this is an e-mail between Ivanka Trump, Ronnie
19 Levine, Ralph Herzka, and Dave Orowitz, dated November 1, 2011.
20 Mr. Unell, did you review this document in the course
21 of preparing your report?
22 A I don't believe so.
23 (Continued on the next page.)
24
25

Unell - by Defendant - Cross (Wallace) Page 5802

1 Q Do you know who Ronny Levine at Meridian Capital is?
2 A No, sir.
3 Q If you look at the e-mail from Mr. Levine to Ivanka
4 Trump he writes: Heard back from Blackstone a little while ago
5 and they are a pass on the deal. Didn't get a definitive
6 answer as to why. But Peter mentioned to me this morning they
7 over weighted on hotels in the debt fund.
8 Do you know if the Trump Organization approached
9 Blackstone about financing for the Doral resort?
10 A I am not aware if they did or not.
11 Q A little further down he writes about following up
12 with Jeff Weissman from Macquaire.
13 Do you know if the Trump Organization approached
14 Macquaire for the loan?
15 A Macquaire is an investment bank. I am not certain
16 what their ability to finance that is or not.
17 Q The next paragraph he mentions a reach-out to Chuck
18 Rosenzweig at Criterion Partners. Do you know if Trump
19 Organization approached Criterion Partners about financing for
20 the Doral project?
21 A I do not.
22 Q If you look down he writes: He has been trying to
23 reach out to Todd Sammann at Colony.
24 Do you know if the Trump Organization approached
25 Colony about financing for the Doral transaction?

Unell - by Defendant - Cross (Wallace) Page 5803

1 A I am not aware of that.
2 Q At the end he says: We have lunch with HSBC tomorrow
3 and will be discussing the deal with them.
4 Do you know if the Trump Organization approached HSBC
5 about financing for the Doral transaction?
6 A I am not aware.
7 Q If we go to the top e-mail from Ms. Trump she writes:
8 I actually spoke to Tom Harrison at Colony today. I know Todd
9 through Jared as well, as we are partners on another deal
10 together. He said that we wouldn't want to do a deal with them
11 on the debt side, as they are too expensive for what we would
12 be looking for (low teens).
13 Do you have a view as to whether or not a rate in the
14 low teens would have been a market rate for debt on the Doral
15 project?
16 A Perhaps from a non-bank lender such as Colony or
17 these other firms that are out there from a debt fund.
18 Q I think we have heard Mr. Suarez say the Trump
19 Organization could have approached thousands of banks about
20 these loans. First of all, do you know how many banks the
21 Trump Organization approached to finance these transactions?
22 A I do not.
23 Q Do you know how many non-banks they approached to
24 finance these transactions?
25 A I do not.

Unell - by Defendant - Cross (Wallace) Page 5804

1 MR. WALLACE: I think we can put that document
2 aside.
3 To further continue a theme, Your Honor, if we
4 want to take a slightly early break I may be able to
5 condense.
6 THE WITNESS: You would be one for one overall.
7 MR. ROBERT: As long as he has the same batting
8 average, we have no objection.
9 MR. WALLACE: I think we can shorten things.
10 THE COURT: You are taking a page from
11 Mr. Kise's playbook.
12 MR. WALLACE: As often as I can, Your Honor.
13 THE COURT: All right, so 20 after we will see
14 you then.
15 (Pause in the proceedings.)
16 COURT OFFICER: All rise.
17 Part 37 is back in session.
18 Please be seated and come to order.
19 (Whereupon the witness resumed the stand.)
20 THE COURT: Mr. Wallace, are you ready to
21 continue?
22 MR. WALLACE: I am, Your Honor.
23 Q Mr. Unell, just a couple of quick questions to close
24 out the Doral loan. I believe you said that the offers from
25 the Deutsche Bank CRE group had not been fully negotiated, they

<p>Unell - by Defendant - Cross (Wallace) Page 5805</p> <p>1 didn't have as detailed an understanding of the property, and 2 that that's some of the reasons you didn't consider those to be 3 market estimates of value; is that fair? 4 A Yes, sir. 5 MR. WALLACE: If we could pull up Plaintiff's 6 Exhibit 3111. This is already in evidence. 7 Q I apologize, I don't have a hard copy. But this is 8 an e-mail chain from November 2011 between Dave Orowitz and 9 Allen Weisselberg and others at Deutsche Bank. The top e-mail 10 Mr. Orowitz writes: Mark, it was good speaking with you 11 earlier today. 12 Please find a link to a folder containing the due 13 diligence materials that you requested. 14 I'll just note that the cc also includes David 15 Goodman. Do you know if the people on this e-mail chain were 16 in the CRE group of Deutsche Bank or the Private Wealth 17 Management group of Deutsche Bank? 18 A I do not, no. 19 Q I'll represent to you that Dave Goodman is in the CRE 20 group at Deutsche Bank. 21 MR. WALLACE: If we could go down to, I believe, 22 page two of this document? 23 Q This is after Ivanka Trump has written an 24 introductory e-mail and she writes: Thank you for providing us 25 with the investment memo and projections for the Doral Golf</p>	<p>Unell - by Defendant - Cross (Wallace) Page 5807</p> <p>1 Q And I just wanted to check on one thing on page 11, 2 on the last page. I am sorry, paragraph 11. 3 A I was going to say, I am missing part of it. 4 It is Friday. 5 Q Paragraph 11, page four. You write that given the 6 testimony and documents presented at trial that show 1) 7 Deutsche Bank relied on adjusted financial numbers for 8 approving loan origination and reviews. 2) Step-downs on Doral 9 and OPO were in place that decreased or eliminated Trump's 10 financial covenants. 11 I just want to make sure that the reference to OPO 12 was an error and it should be Doral and Chicago. Is that 13 correct? 14 A Yes, sir. 15 MR. SUAREZ: It also says President Trump and 16 not Trump's financial covenants? 17 MR. WALLACE: I thought I said President, I 18 apologize. 19 Q I want to talk briefly about 40 Wall Street. 20 MR. WALLACE: If we could put up DD-5 and PDX-4, 21 again? 22 Q Again, it is all very difficult to see. 23 A It is easier on this little monitor up here. 24 Q So, Mr. McCarty estimates a market rate for 40 Wall 25 Street of 5.71 percent, correct?</p>
<p>Unell - by Defendant - Cross (Wallace) Page 5806</p> <p>1 Resort and Spa in Miami, Florida. We at Deutsche Bank are very 2 familiar with the asset, as we have financed this loan several 3 times over the years for previous ownership. 4 Then it states: The Commercial Real Estate group in 5 conjunction with the Leverage Finance group are giving 6 immediate attention to your request. 7 Do you know what the Leverage Finance group at 8 Deutsche Bank is? 9 A No, sir. 10 Q You will see that there is an attachment of a due 11 diligence file. Do you know how far the due diligence went 12 between the Commercial Real Estate group and the Trump 13 Organization on the financing of the Doral transaction? 14 A I have seen no evidence to indicate one way or the 15 other. 16 MR. WALLACE: We can put Doral to the side. 17 Q I just want to clarify one point, actually, in the 18 affidavit that you submitted two nights ago. 19 MR. WALLACE: So if we could put up on the 20 screen Defendant's Exhibit 1061. 21 Q This is the affidavit you prepared that, among other 22 things, updated your opinion. And I believe was the basis for 23 the table we looked at calculating a potential interest 24 differential. Is this correct? 25 A Yes. This was a portion of that basis, yes.</p>	<p>Unell - by Defendant - Cross (Wallace) Page 5808</p> <p>1 A Yes, sir. 2 Q And you estimate a fixed rate of 3.9150, correct? 3 A Yes, sir. 4 Q And that's because the 40 Wall loan, in all instances 5 was a fixed-rate loan, correct? 6 A Yes. Representing this was an illustrative example 7 of the differences. 8 Q And can I ask you a question about the \$6 million 9 swap breakage fee? First of all, you testified yesterday 10 that's an estimate, correct? 11 A Yes, sir. 12 Q And the -- that fee was paid by the Trump 13 Organization to get out of its existing loan with Capital One, 14 is that correct? 15 A It was paid to get out of the existing swap 16 agreement, not the loan. 17 Q Fair enough. 18 Are you aware that there was a \$5 million capital 19 contribution due on the 40 Wall loan in November 2015? 20 A Yes. 21 Q And so there was going to be at least some payment by 22 the Trump Organization, even if they maintained the loan with 23 Capital One; is that correct? 24 A Yes. 25 Q And if we look at your analysis, your illustrative</p>

Unell - by Defendant - Cross (Wallace) Page 5809

1 interest rates, are both outside the existing loan with Capital
2 One, correct?
3 A I am not following that.
4 Q Well, my point is just that for either the 3.6650
5 rate or the 3.9150 rate to come into effect, the Trump
6 Organization would have had to pay the swap breakage fee,
7 correct?
8 A I am not following that -- what you are asking.
9 Q Well, your point, I believe, was that to get to this
10 rate there was a cost to the Trump Organization of \$6 million.
11 So if they wanted to get this 3.6650 fee -- rate, they had to
12 pay a swap breakage fee. Right?
13 A It was factored in. I am still not following how the
14 6 million -- how you are trying to or what you are trying to
15 ask as related to the \$6 million and where it went.
16 Q Any transaction where they were no longer in the
17 Capital One loan as of 2015, there would have had to have been
18 a swap breakage fee, correct?
19 A Not necessarily. It depends on the loan documents in
20 the ISDA agreement. So without knowing that, the agreements,
21 the swap agreement and the loan agreement could have not been
22 tied together. There could be an opportunity for the borrower
23 to keep the swap in place if it wasn't directly tied and
24 secured by that, without having the underlying documents to
25 review that. But it was a cost of doing business, so it would

Unell - by Defendant - Cross (Wallace) Page 5810

1 not have been necessarily tied to that. Borrowers can
2 sometimes keep a swap in place because if it is not directly
3 tied to an asset, it is an instrument that is utilized to fix
4 an interest rate, where essentially you pay a fee in order to
5 fix a rate. And it is -- the risk is taken on for that fixed
6 rate by somebody else. So the counterparty to that may not
7 have been Capital One, so I can't say with certainty,
8 Mr. Wallace, that that would not have been one way or the
9 other.
10 THE COURT: Mr. Unell, I often say something but
11 I don't know that you have ever heard it. The person with
12 the hardest job in this entire room, not me, not you, it
13 is the reporter. Please slow down.
14 THE WITNESS: Yes, Your Honor.
15 THE COURT: She just asked you to do so, and I
16 have asked you to do so several times.
17 Q So the 3.9150 rate does not include any separate
18 analysis of whether the swap breakage fee would have had to be
19 paid; is that correct?
20 A That's correct, yes.
21 Q I believe that in your testimony yesterday you
22 criticize Mr. McCarty's use of the 5.71 percent interest rate
23 because it reflected an assumption that the 2005 interest rate
24 would still be applicable today, and conditions have changed
25 since that time. Do you recall that testimony?

Unell - by Defendant - Cross (Wallace) Page 5811

1 A Yes, sir.
2 Q And I think your testimony was today, I assume that
3 you mean that at the time of the swap of the breakage or the
4 change in the loan in 2015; is that fair?
5 A Yes, in 2015. Yes, sir.
6 Q Now, that 5.71 percent interest rate was from a loan
7 that was in existence in 2015 and continued into the future; is
8 that correct?
9 A Yes.
10 Q So in fact, just staying in place with the
11 5.71 percent interest rate going into the future, if the Trump
12 Organization had maintained that loan they would not have had
13 to pay the swap breakage fee; is that fair?
14 A It would have been a business decision. The swap
15 breakage fee, depending on what market rates do, they may have
16 decided if it was in the money or out of the money to have
17 broken it or not. It could have gone one way or the other.
18 They are not directly tied to each other.
19 Q It wouldn't have been necessitated by refinancing the
20 loan?
21 A Correct.
22 Q And I take it you have an independent view that a
23 5.71 percent interest rate was not market in July of 2015; is
24 that correct?
25 A I have seen nothing to indicate that it is.

Unell - by Defendant - Cross (Wallace) Page 5812

1 Q I thought you -- well, I believe that you -- when you
2 testified about the Ladder Capital loan, your testimony was
3 that much of that was driven by the underlying collateral and
4 the LTV on the transaction; is that fair?
5 A Yes, sir.
6 Q Okay. And that was based on a loan of \$160 million
7 and an appraised value of \$540 million; is that correct?
8 A I believe so, yes.
9 Q Did you review any contemporaneous documents from
10 other market participants concerning the market rate for a loan
11 on 40 Wall Street?
12 A No, sir.
13 MR. WALLACE: If we could take a look at
14 Plaintiff's Exhibit 268.
15 (Handing)
16 THE WITNESS: Thank you, sir. I got two. It is
17 Friday.
18 Q Mr. Unell, did you review this document in the course
19 of preparing your expert report?
20 A Yes, sir.
21 Q And what is this document?
22 A This is the annual review from Capital One of the 40
23 Wall Street loan. And the date is September 9, 2005 is the
24 origination date and the --
25 Q I'll direct your attention to the current review date

Unell - by Defendant - Cross (Wallace) Page 5813

1 of October 31, 2014 in the middle of the page.
2 A There it is, I see it. Yes, sir.
3 MR. WALLACE: Your Honor, we move Plaintiff's
4 Exhibit 268 into evidence.
5 THE COURT: Granted, it is in.
6 (Whereupon, the document referred to was deemed
7 marked for evidence as Plaintiff's Exhibit 268 by the
8 Court.)
9 Q So if we look at the summary underneath the heading
10 "Appraisal dates," you see that on the third row is listed an
11 Internal value of \$257,729,000?
12 A Yes.
13 Q And that generates an LTV/LTC of 62.1 percent. Do
14 you see that?
15 A Yes, sir.
16 Q And so this would be a difference of \$283 million
17 over the valuation of the 40 Wall appraisal that was part of
18 the Ladder Capital transaction, correct?
19 A Yes.
20 Q And would a difference of \$283 million in the value
21 of the underlying building impact how a banker would price a
22 commercial real estate loan for that property?
23 A Yes.
24 MR. WALLACE: If we could turn to page 14 of
25 this document?

Unell - by Defendant - Cross (Wallace) Page 5814

1 Q If you look underneath the table that is at the top
2 of the page, there is a box entitled refinancing scenario. And
3 underneath it it states that there is a five-year extension
4 available if the following are achieved: One, a 1.25X DSCR.
5 Two, a 75 percent LTV. And three, if the aggregate dollar
6 amount of all principal reductions by borrower plus the amount
7 of all funds in the cash -- excess cash flow collateral
8 accounts during the internal term equal or exceed 20 million.
9 I'll actually stop there.
10 Do you know if any of those conditions were met?
11 A I do not.
12 Q If you look at the next paragraph it says: Based on
13 a projected 2017 NOI of 18.7 million and a minimum DSCR of
14 1.35X per UW guideline, the loan can support maximum proceeds
15 of 179.3 million assuming a sensitized 6 percent interest rate
16 and a 25-year amortization.
17 First of all, do you understand the notation UW
18 guideline to mean underwriting guideline?
19 A Yes, sir.
20 Q Okay. And so the terms listed here are roughly
21 consistent with the existing loan terms at the time of the
22 credit report in October of 2014; is that fair?
23 A I am looking to tie it out here.
24 Q Sure.
25 A Yes, it is consistent.

Unell - by Defendant - Cross (Wallace) Page 5815

1 MR. WALLACE: We can put that document down.
2 Q The Ladder loan on 40 Wall Street was securitized; is
3 that correct?
4 A I believe so.
5 Q And can you just explain to the Court, what does it
6 mean to securitize a loan?
7 A A securitized loan is a loan that is the cash flow
8 streams are essentially sold to investors within the market.
9 Q And in the course of preparing your reports, did you
10 review any analysts reports concerning the securities that
11 included the 40 Wall Street loan?
12 A I did not.
13 Q I am going to hand you a document that has been
14 marked as Plaintiff's Exhibit 3186. It is 135 pages. So I
15 think we can just go through it on the screen.
16 A Absolutely.
17 Q I think it is a little easier.
18 I'll state that this is a Morningstar report with
19 preliminary ratings on a Wells Fargo commercial mortgage trust
20 as of September 9, 2015. Are you familiar with Morningstar?
21 MR. SUAREZ: Objection, Your Honor.
22 THE COURT: What's the ground of the objection?
23 MR. SUAREZ: Outside of the scope of my direct
24 and outside of the scope of the witness's testimony to
25 talk about the securitization of the loans and the ratings

Unell - by Defendant - Cross (Wallace) Page 5816

1 by outside agencies. He is not being offered as an expert
2 in that area.
3 MR. WALLACE: I think it is relevant regardless
4 of whether -- but I am going to tie it into LTVs and
5 things that this witness has talked about. So I am happy
6 to have you reconsider it once I have shown where we are
7 going with this.
8 THE COURT: All right. Let's see where we are
9 going with this.
10 Q I believe the question pending that was objected to
11 was, are you familiar with Morningstar?
12 A I am aware of Morningstar, yes.
13 Q And I will represent to you that the securities
14 covered in this report include the 40 Wall Street loan?
15 MR. WALLACE: And if we could go to page 33 of
16 the document.
17 Q Again, it is probably easiest to do it up on the
18 screen here. You will see this is the section of the report
19 that addresses the 40 Wall Street loan by Ladder Capital. And
20 I want to walk through the metrics very quickly.
21 MR. WALLACE: Since we are not looking at the
22 full thing, if we can go down one more page.
23 Q I don't want to be accused of misleading you.
24 If you look at the top under the Morningstar
25 perspective, it says that Morningstar has a favorable opinion

Unell - by Defendant - Cross (Wallace) Page 5817

1 of the loan to 40 Wall Street, primarily due to the positive
2 loan metrics, the granular rent-roll and amortization through
3 the loan term.
4 So, I will let you know, they have a positive view of
5 the loan.
6 A Yes.
7 MR. WALLACE: If we can go back to the summary
8 page. If you zoom in on the Morningstar analytics.
9 Q You can see that Morningstar states that the value of
10 the building is \$262,270,494. And that Morningstar calculates
11 an LTV of 61 percent. Beginning LTV.
12 This was an amortizing loan correct?
13 A Yes.
14 Q So the beginning LTV would be higher than the ending
15 LTV?
16 A That's correct.
17 Q Okay. So Morningstar calculates a higher LTV than
18 Ladder Capital did in their analysis, correct?
19 A Yes.
20 Q And these amounts of the value of the building and
21 the LTV might affect how a banker would underwrite the loan if
22 they came to a different conclusion?
23 A It is difficult to tell, because without the backup
24 to know where this valuation came from, I don't know what it is
25 based off of. So I couldn't tell you because rating agencies

Unell - by Defendant - Cross (Wallace) Page 5818

1 in my experience do different ways that they look at it. They
2 also look at it from a loss perspective versus whether or not
3 they are a independent agency. It is outside of my scope to be
4 able to speculate on the value and compare it to anything and
5 how Morningstar calculated value.
6 Q I'll say that it mentions that they had a site visit.
7 As you can see it says: Morningstar site visit, yes.
8 But my question -- let's step back from what
9 Morningstar did. If a banker came to a different conclusion
10 about the LTV of the property and the value of the property
11 that would affect how the banker would underwrite the loan. Is
12 that fair?
13 A A banker would rely on an appraisal report
14 commissioned by them, not a Morningstar number without any
15 backup behind it.
16 Q I am asking about using this. I am saying if a
17 banker -- if someone comes to a different analysis of the asset
18 value and the LTV, that's going to affect the pricing per loan?
19 A It could.
20 MR. WALLACE: We can put that down.
21 THE COURT: Objection overruled.
22 MR. WALLACE: Oh. Thank you.
23 THE WITNESS: I was following you.
24 MR. WALLACE: To borrow a phrase from Mr. Unell,
25 it is Friday.

Unell - by Defendant - Cross (Wallace) Page 5819

1 Q Mr. Unell, yesterday you testified about a
2 discrepancy in the reporting of the size of Mr.-- President
3 Trump's triplex. Do you recall that?
4 A Yes, sir.
5 Q And that discrepancy involved an inflation of the
6 value of Mr. Trump's triplex apartment by at least
7 \$200 million; is that correct?
8 A I am not certain of the exact amount.
9 Q If the -- well, it was your testimony yesterday that
10 the discrepancy would not be material based on the other
11 information and the amount of assets and liabilities that are
12 included on the Statement of Financial Condition; is that
13 correct?
14 A Yes, sir.
15 Q So if the overstatement was \$200 million, is it your
16 position that it is okay for a guarantor to intentionally
17 inflate their net worth as reported to a bank by \$200 million?
18 A No, it is not okay, because it was subsequently
19 corrected; and was immaterial.
20 Q I am not asking about a correction. I am asking
21 about if a guarantor intentionally inflates their assets by
22 \$200 million in a representation they are making to their
23 banker, is that acceptable under -- is that acceptable?
24 A If it was intentional, it is not acceptable.
25 Q Okay. Are you aware that Mr. Trump has acknowledged

Unell - by Defendant - Cross (Wallace) Page 5820

1 that his estate at Seven Springs was also inflated by
2 \$200 million?
3 A I am not aware of that.
4 Q So you didn't consider that information in forming
5 your opinions, correct?
6 A No.
7 THE COURT: That was a negative question with an
8 ambiguous answer.
9 MR. KISE: I would just, for the record, object
10 to the characterization. I am not exactly sure that
11 President Trump said it was inflated by \$200 million. I
12 think he said it was a higher -- it was higher than it
13 should have been. I don't know that he put a precise
14 number on it. I could be wrong about that, but I don't
15 think so.
16 THE COURT: Okay.
17 Q So any inflation -- did you consider any inflation in
18 the Seven Springs property in preparing your report?
19 A No, I did not do any valuation work.
20 Q You testified that you had read some of the Court's
21 summary judgment decision; is that correct?
22 A Yes, sir.
23 Q I would like to ask if you happened to read a portion
24 of his opinion that appears on page 19 when he writes: OAG has
25 submitted conclusive evidence that between 2014 and 2021,

<p>Unell - by Defendant - Cross (Wallace) Page 5821</p> <p>1 defendants overvalued the assets reported in the SFCs between 2 17.27 and 38.51 percent. This amounts to a discrepancy of 3 between \$812 million and \$2.2 billion. 4 Did you review that section of the summary judgment 5 decision? 6 A Yes, sir. 7 Q And in your professional opinion, is it acceptable 8 for a guarantor, like Mr. Trump, to intentionally inflate his 9 assets as reported to a bank by \$2.2 billion? 10 A If it was intentional, then it would not be 11 acceptable. 12 Q You testified yesterday that the net worth covenants 13 on the Deutsche Bank loans are solely determined by the 14 guarantor's stated assets. In your professional view, is it 15 acceptable for a guarantor to fraudulently inflate their assets 16 to meet a net worth covenant? 17 A It is not acceptable to fraudulently inflate assets. 18 MR. WALLACE: If we could pull up DD-4, page; 19 seven. 20 Q This is your chart showing the number of billionaires 21 in the United States and the world between 2010 and 2020. 22 Mr. Unell, would it have been acceptable under the 23 bank regulations, as you understand them, for the 492 24 billionaires in the United States as of 2015 to lie about their 25 asset values in seeking lending from a bank?</p>	<p>Unell - by Defendant - Redirect (Suarez) Page 5823</p> <p>1 Q If I could direct your attention to page five of this 2 document? The section that says Client Segmentation and 3 Coverage. 4 A Yes, sir. 5 Q It says: Our target client base for this initiative 6 will have the following general characteristics. 7 And the first bullet says: Individuals or families 8 actively investing in U.S. commercial real estate properties, 9 with proven, successful track records in this sector. As a 10 private wealth management business, we will view the principals 11 and their families as our primary clients. 12 How, if at all, did President Trump fit in this 13 criteria? 14 MR. WALLACE: Objection, asked and answered. 15 Cumulative. Beyond the scope of cross. 16 THE COURT: I got the gist, but read back of the 17 question, please. 18 (Whereupon, the record was read back by the 19 court reporter.) 20 (The following proceedings were stenographically 21 recorded by Senior Court Reporter Michael Ranita.) 22 23 24 25</p>
<p>Unell - by Defendant - Redirect (Suarez) Page 5822</p> <p>1 A I am not certain I follow the question. 2 Q Is there anything special about the 492 billionaires 3 that United States had in 2015 that would make it acceptable 4 for them to lie about their asset values when seeking financing 5 from a bank? 6 A No, as I just testified, it would not be acceptable 7 for anybody. 8 MR. WALLACE: Nothing further, Your Honor. 9 THE COURT: Okay. Any redirect? 10 MR. SUAREZ: Briefly, Your Honor. 11 THE COURT: Okay. 12 REDIRECT EXAMINATION 13 BY MR. SUAREZ: 14 Q Mr. Unell, good morning. 15 A Good morning. We are almost at the afternoon. 16 Q Almost. 17 MR. SUAREZ: If we could please pull up what has 18 previously been admitted as Defendant's Exhibit 62, and 19 turn to page five. 20 First let's put up page one. 21 Q Are you familiar with this document, Mr. Unell? 22 A Yes, sir. 23 Q What is this document? 24 A This is the new Private Wealth Management U.S. 25 Lending Product Commercial Real Estate Finance Guidelines.</p>	<p>R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5824</p> <p>1 THE COURT: Objection sustained for the three or 2 four reasons given. We've already been over this. 3 MR. SUAREZ: Your Honor if I may ask yes or no 4 questions, I could cut 30 questions into three. They are 5 not leading questions. They are simply yes or no questions. 6 I'll try it that way. 7 THE COURT: I don't think the objection was 8 leading. 9 MR. SUAREZ: No, I know, but I was doing it that 10 way in order to avoid the inevitable leading question when I 11 ask a yes or no question. But if I could just cut to the 12 chase, I'll cut to the chase. 13 THE COURT: You can't ask a question that goes 14 beyond the scope of cross examination, especially since you 15 discussed this ad nauseam yesterday. 16 MR. SUAREZ: I'll try it this way. 17 Q Did President Trump meet this criteria to qualify for a 18 commercial real estate loan in the private bank? 19 MR. WALLACE: Same objection. 20 THE COURT: Same ruling. Sustained. 21 MR. SUAREZ: All right. Let's put up Defendant's 22 Exhibit 205. 23 (Whereupon, the exhibit was displayed on the 24 screen.) 25 A I don't need it. I could look at it on here. Save the</p>

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5825

1 walk.

2 Q What, if anything, did President Trump have to do to

3 qualify for this pricing grid?

4 MR. WALLACE: Same objection.

5 THE COURT: What did he have to do -- let's take a

6 simple ground. Is this -- are you claiming, Mr. Wallace,

7 it's outside the scope of the cross?

8 MR. WALLACE: Outside of cross, was covered

9 yesterday extensively.

10 THE COURT: That's enough. Sustained.

11 MR. KISE: Your Honor, I don't see how it's outside

12 the scope of cross, because what Mr. Wallace was talking

13 about was the whole differential in interest rates. It was

14 a whole colloquy with the witness about the differential in

15 interest rates, and what Mr. McCarty did, and the CRE rates

16 versus these rates.

17 And what Mr. Suarez is doing is simply going back

18 and pointing out why this witness believes that the range,

19 his range is the appropriate range.

20 Well, I mean, you challenged this witness -- the

21 government challenged this witness's opinion that the range

22 that point -- the two 25-basis points was incorrect. And

23 the presumption behind that was that Mr. McCarty was more

24 correct because his CRE rates, his ten percent rates, were

25 the better way to go; that was the more acceptable method.

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5826

1 So what Mr. Suarez is doing is simply going, on

2 redirect, over those same -- over those issues, and it's

3 certainly within scope. And we are certainly entitled, even

4 if we covered it some yesterday, we are certainly entitled

5 to focus, now, on exactly what the Government brought out

6 this morning, and demonstrate, or at least attempt to

7 demonstrate for the Court why this witness has the right

8 view.

9 So I think it's fully within the scope of the cross

10 examination, because they've spent a good deal of time on

11 that very issue, and that's all we are doing. We are not

12 going to go through back through the entire litany of it.

13 It's just focusing on the precise pieces that were covered

14 this morning.

15 MR. WALLACE: Your Honor, I will just say Mr. Kise

16 is, again, telling the witness what he would like him to

17 present through this redirect.

18 I believe what Mr. Kise is, at base, saying is that

19 they are going to go back through certain portions of

20 yesterday's testimony to reiterate things that have been

21 established; that is cumulative, that is repetitive, it is

22 not appropriate. And I will also say that the focus of my

23 examination was that Mr. McCarty and Mr. Unell were doing

24 completely different things.

25 So I retain my objection to this as cumulative,

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5827

1 repetitive, asked and answered, and beyond the scope of my

2 cross.

3 THE COURT: I changed my mind. Overruled, for the

4 reasons Mr. Kise stated.

5 Q Once President Trump was admitted into the private

6 bank, would he have had access to this pricing group?

7 A Yes.

8 Q And do you see the spread of 2.0 to 2.5 percent?

9 A Yes, sir.

10 Q Would he have had to negotiate between that spread,

11 what interest rate he and the bank ultimately settled on?

12 MR. WALLACE: Objection. Leading.

13 THE COURT: Sustained.

14 Q How, if at all, would the commercial real estate range

15 of 2.0 to 2.5 percent have resulted in the interest rate used on

16 the specific bank transactions?

17 A It would have provided the guidance for Deutsche Bank

18 to appropriately price the loan once President Trump was

19 admitted into the Private Wealth Management Group.

20 Q And in order -- what, if anything, would President

21 Trump have had to do to qualify for pricing within that range?

22 A He would have had to have been a client of the Private

23 Wealth Management Bank. And in order to qualify for that would

24 have needed to have had a minimum amount of assets, which he

25 clearly qualified for.

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5828

1 Q And if he didn't have the minimum amount of assets

2 required to qualify for the Private Wealth Group, would he have

3 had access to this pricing grid?

4 A No. This pricing grid is reserved for clients in the

5 Private Wealth Management Group.

6 Q And have you seen anything in the record or the

7 testimony that you've reviewed that suggests that President

8 Trump, under any measure, would have failed to qualify for the

9 Private Wealth Management Group?

10 A I have not seen or heard any evidence that would

11 indicate that President Trump was not qualified to be in the

12 Private Wealth Management Group.

13 Q And in your real world experience in banking, would

14 President Trump have qualified for the Private Wealth Group

15 under any measure of his net worth?

16 MR. WALLACE: Objection. Leading.

17 THE COURT: I was expecting asked and answered. We

18 knew the answer to that question. We know the witness's

19 answer, not necessarily the answer.

20 MR. WALLACE: These are all asked and answered. I

21 thought I've been overruled on that, your Honor.

22 THE COURT: My philosophy -- I don't know how other

23 judges do this -- if the witness, on direct, says "X" and on

24 cross examination there's evidence of anti X, I will let

25 redirect say, okay, but X, even if it's asked and answered,

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5829

1 even if it's cumulative, so let's just move along.
2 Overruled.
3 Do you need a read back. Ask it again?
4 THE WITNESS: Please, your Honor.
5 THE COURT: Mr. Suarez, your choice.
6 MR. SUAREZ: I'll accept the read back. Thank you.
7 (Whereupon, the requested testimony was read back
8 by the court reporter.)
9 A Absolutely.
10 THE COURT: I'll allow it as preliminary and
11 introductory, whatever you want to call it. And we have an
12 answer.
13 MR. SUAREZ: Thank you.
14 Can we please pull up the Court's summary judgment
15 order, and go to the section that Mr. Wallace just reviewed
16 with the witness.
17 THE COURT: Look at all those documents I had to
18 review to write that decision.
19 MR. WALLACE: It's page 19.
20 (Whereupon, the exhibit was displayed on the
21 screen.)
22 Q Do you see where it says, "OAG has submitted conclusive
23 evidence that between 2014 and 2021, defendants overvalued the
24 assets reported in the SFCs between 17.27 to 38.51 percent; this
25 amounts to a discrepancy of between \$812,000,000 and \$2.2

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5830

1 billion"?
2 A Yes, sir.
3 Q Does the word "intentional" appear anywhere there?
4 A No, sir.
5 Q Can we pull up Defendant's Exhibit 312 and put it side
6 by side to the summary judgment order?
7 (Whereupon, the exhibit was displayed on the
8 screen.)
9 Q Have you reviewed this e-mail prior to today?
10 A Yes, sir.
11 MR. SUAREZ: If we could turn to page three of this
12 e-mail.
13 Q Do you see where it says --
14 MR. SUAREZ: Actually, let's start at page two.
15 (Whereupon, the exhibit was displayed on the
16 screen.)
17 Q Do you see where it says "DJT financial profile"?
18 A Yes, sir.
19 Q And here where it says "net worth" at the bottom of
20 page two.
21 A Yes, sir.
22 MR. SUAREZ: And then if we could scroll to the
23 next paragraph.
24 (Whereupon, the exhibit was displayed on the
25 screen.)

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5831

1 Q It says, "Reported 4.2 billion and adjusted based on DB
2 due diligence of 2.4 billion."
3 A Yes, sir.
4 Q Is Deutsche Bank's adjustment to the President's net
5 worth of -- more or less what the Court has concluded in its
6 summary judgment order to be a difference between what the OAG
7 submitted in evidence and what the bank concluded was --
8 MR. WALLACE: Objection. Leading, foundation.
9 MR. SUAREZ: It's a math question.
10 MR. WALLACE: It's a leading question.
11 MR. SUAREZ: Okay.
12 MR. WALLACE: And you haven't given him all the
13 math.
14 THE COURT: It's leading, and I could do the math,
15 too.
16 MR. SUAREZ: Okay.
17 Q Having concluded, according to DB due diligence that
18 the President had a net worth of 2.4 billion, is that adjustment
19 within the range that the Court determined the OAG had submitted
20 evidence to adjust the value of assets in the Statement of
21 Financial Condition?
22 MR. WALLACE: Objection. That mischaracterizes the
23 evidence that has gone on since summary judgment, that there
24 was, like, an adjustment.
25 THE COURT: I'll say again, I could do the math. I

R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5832

1 don't need him to say that X is within the range of Y to Z.
2 Q Is an adjustment in that range to the net worth of the
3 sponsor, in this case President Trump, unusual in your
4 experience in the banking world?
5 MR. WALLACE: Objection. There's two documents on
6 the screen right now. It's not clear which one he is
7 referring to.
8 MR. SUAREZ: They really don't want this to come
9 out.
10 MR. WALLACE: If you could ask a proper question it
11 can come out. The Judge understands what you are getting
12 at.
13 THE COURT: I don't think the question relied on
14 the documents. It was just a standard question. Overruled.
15 Is it unusual to have that kind of adjustment? Was
16 that the question?
17 MR. SUAREZ: Correct.
18 A No, sir, it would not be unusual.
19 Q Why is that?
20 A Because after based off the analysis and the way that
21 banks review things and take their approaches, that that is
22 customary in the commercial real estate finance world.
23 Q Now, after having adjusted the President's net worth by
24 -- do you see the last sentence, it says, "Defendants have
25 failed to identify any authority for the notion that the

<p>R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5833</p> <p>1 discrepancy of the magnitude demonstrated here could be 2 considered immaterial"?</p> <p>3 A Yes, sir.</p> <p>4 Q Do you agree with that?</p> <p>5 A No, sir.</p> <p>6 Q Why?</p> <p>7 A Based on the evidence that I've received, the reports 8 that I've reviewed, the testimony I've heard, that it would be 9 immaterial, in my opinion, as evidenced by the adjustments done 10 by Deutsche Bank in and my own analysis and experience.</p> <p>11 THE COURT: I will just point out that I'm -- he is 12 certainly entitled to that opinion.</p> <p>13 This opinion is law of the case, and I believe it's 14 under appeal. So it is what it is, to repeat what I said 15 yesterday.</p> <p>16 MR. SUAREZ: And if we could turn to the first page 17 of Defendant's Exhibit 312.</p> <p>18 (Whereupon, the exhibit was displayed on the 19 screen.)</p> <p>20 Q I would like to draw your attention to the sentence 21 that says, in the e-mail from Thomas Bowers to Marcus Mitchell, 22 "Mentioned that it is among the strongest personal balance 23 sheets we have seen, and totally unlike any of our major real 24 estate developer clients in that we observe an absence of 25 personal debt, with huge asset base and diversified CF." Do you</p>	<p>R. Unell - by Defendant - Reros (Mr. Wallace) Page 5835</p> <p>1 THE COURT: I'm not going to strike the answer. 2 There is no -- or question. There is no jury here. When I 3 said that I'll allow, on redirect, things covered on direct, 4 I'm hoping that they'll be a lot less of that.</p> <p>5 And I think -- I don't remember any cross 6 examination about whether Mr. Trump was one of the richest 7 people in the world.</p> <p>8 Mr. Kise?</p> <p>9 MR. KISE: You made your ruling. I'll stop there.</p> <p>10 THE COURT: Wise move.</p> <p>11 (Counsel conferred with his colleagues off the 12 record.)</p> <p>13 MR. SUAREZ: No further questions.</p> <p>14 THE COURT: Okay. Any recross.</p> <p>15 MR. WALLACE: Just one.</p> <p>16 RECROSS EXAMINATION 17 BY MR. WALLACE:</p> <p>18 Q I believe, Mr. Unell, you testified yesterday about the 19 qualifications for the Private Wealth Management Group and the 20 loan chart we saw, and it was \$50 million of assets for a 21 borrower; is that correct?</p> <p>22 A I believe it was 50. We've seen different numbers. 23 Between 50 and a hundred.</p> <p>24 Q And the hundred is the ultrahigh net worth category; is 25 that correct?</p>
<p>R. Unell - by Defendant - Redirect (Mr. Suarez) Page 5834</p> <p>1 see that?</p> <p>2 A Yes, sir.</p> <p>3 Q Based upon your experience in the real world, is that a 4 statement that you agree with?</p> <p>5 A Absolutely, that the analysis that they were looking at 6 is an analysis that I would look at in my experience. Personal 7 debt, liabilities are something that is of most importance 8 because of the ability for -- to carry that debt. And also, a 9 diversified cash flow allows for a changes in market to perhaps 10 be offset by different asset classes.</p> <p>11 And it is different than most other real estate 12 developers because most real estate developers stay in one lane, 13 whether they are industrial developer, multifamily developer, 14 hotel developer. Very few successfully have a diversified cash 15 flow stream such as President Trump and The Trump Organization.</p> <p>16 THE COURT: Hold on.</p> <p>17 Mr. Wallace, is that question and answer beyond the 18 scope of your cross examination?</p> <p>19 MR. WALLACE: I think all of this is beyond the 20 cross examination, with the possible exception of asking him 21 about the same passages that I asked him about in the 22 summary judgment decision.</p> <p>23 But I understood we were sort of letting them 24 continue with these lines of questions. It is beyond the 25 scope of my --</p>	<p>R. Unell - by Defendant - Reros (Mr. Wallace) Page 5836</p> <p>1 A That's my understanding, yes, sir.</p> <p>2 Q In your professional experience, have you seen any 3 individuals with \$50 million of net worth obtain \$378 million of 4 credit from a lending institution?</p> <p>5 A Yes, sir.</p> <p>6 Q And in what instances have you seen that?</p> <p>7 A When I was at Bank of America and there were multiple 8 instances of individuals with guarantees in the 10 to 9 \$15 million range that had facilities that were guaranteed 10 upwards of 500 plus million dollars. And they were syndicated 11 facilities run across multiple banks with similar collateral.</p> <p>12 Q And did the individuals guarantee the entirety of the 13 debt, or was the guarantee limited to the full amount of their 14 net worth?</p> <p>15 A It varied based off of the different deals.</p> <p>16 MR. WALLACE: Okay.</p> <p>17 THE COURT: Any other questions from this witness 18 from anyone? The witness is excused.</p> <p>19 THE WITNESS: Thank you, your Honor.</p> <p>20 THE COURT: Thank you.</p> <p>21 (Whereupon, the witness stepped down from the 22 witness stand.)</p> <p>23 MR. KISE: Could we just have five minutes to make 24 sure the witness's transportation --</p> <p>25 THE COURT: Sure. And then I'll address motions.</p>

<p>Proceedings Page 5837</p> <p>1 MR. KISE: Yes, your Honor. 2 (Whereupon, there is a brief pause in the 3 proceedings.) 4 THE COURT: Did Mr. Unell have a successful 5 departure? 6 MR. KISE: He did. 7 THE COURT: Okay. We are up to housekeeping, 8 motions, and anything else that we can accomplish in the 9 next 35, 40 minutes. 10 MR. WALLACE: So, your Honor, I guess we are the 11 movant, so I will start with our motion to strike the 12 testimony of Mr. Shubin. 13 I'll state this very basically. He is offering 14 illegal opinions. He is offering illegal conclusions about 15 the interpretation of the various easement donations and 16 restrictions on the Doral -- on the, I'm sorry, Mar-a-Lago 17 property. And that is improper expert testimony. 18 You've already found this twice in this case when 19 the defendants have submitted judicial opinions as expert's 20 affidavits for various legal issues. It's the same 21 principle. Mr. Shubin's testimony is not helpful to the 22 Court because the Court is the one who finds the law. 23 MR. KISE: I didn't know he was done. Sorry, your 24 Honor. 25 So, briefly, your Honor, you have our submissions.</p>	<p>Proceedings Page 5839</p> <p>1 demeaning of a determine in a statute. So if a witness 2 comes in, a lawyer witness, or any expert comes in and says 3 that, you know, best efforts means X, well, that's a legal 4 conclusion. But here, Mr. Shubin's testimony addresses 5 facts. They are complex facts. He identifies the relevant 6 documents, and then the application of those facts to the 7 subject property. That subject matter is unquestionably 8 beyond the knowledge or understanding, or will dispel 9 misconceptions of a typical finder of fact. And that's 10 cited in the Guide to New York Evidence rule. I'm still 11 getting used to the fact that you all don't have an evidence 12 code here. It's all done by case law. 13 But importantly as well, Mr. Shubin doesn't opine 14 on the seminal legal issue to be decided in the case. His 15 testimony would be admissible, even if it did embrace an 16 ultimate issue, but I would say, your Honor, it does not. 17 To the extent it would, or could, then that should be 18 decided when Mr. Shubin is here. And if there is a 19 particular question asked, or series of questions asked that 20 your Honor finds that invade that province, then that can be 21 addressed then, but to wholesale discard his testimony isn't 22 supported. 23 We've cited the Court to case where expert 24 witnesses may offer opinions as to the applicability of 25 documents and regulatory schemes. The Zohar case,</p>
<p>Proceedings Page 5838</p> <p>1 Mr. Shubin's testimony is both material and necessary for 2 the defendants case. He will provide critical evidence as 3 to the scope of and application of the documents, not legal 4 conclusions. And I will get to that. 5 It's uncontested, still, that Mr. Shubin possesses 6 the requisite experience, training and knowledge. I mean, 7 there's no challenge there. 8 So Mr. Shubin does two things. First he identifies 9 the relevant universe of documents, of governing documents 10 that apply to the situation. That exercise alone requires 11 expertise. That's not something that the average person, 12 the average fact finder could do, and, in fact, the average 13 lawyer couldn't do. Land use and zoning is very insular, 14 unique, specialized, I'm sorry, area of the law. And so it 15 requires expertise to go look at the public record, and of 16 the 500 documents in the public record, pick out which ones, 17 actually, are important to look at for purposes of whatever 18 analysis you are doing. So that's the first thing that he 19 does. 20 And then he explains which provisions of those 21 documents are pertinent to the Court's ultimate 22 determination, focusing the Court on the specific provisions 23 of those documents. 24 So it's not a legal conclusion. A bare legal 25 conclusion is demeaning of a specific contract term,</p>	<p>Proceedings Page 5840</p> <p>1 Z-O-H-A-R, the Lurie case, L-U-R-I-E, the Loscalzo, 2 L-O-S-C-A-L-Z-O -- I won't cite them. They are in our 3 papers. 4 And the Attorney General's cases that preclude 5 experts based on offering legal opinions all involve 6 situations where the contract term or the seminal legal 7 issue that's to be decided by the Court is that forms the 8 foundation of the opinion; the Goodhill case, precluding 9 testimony related to interpretation of a contract provision, 10 the same example I gave before. The Measom, M-E-A-S-O-M, 11 case, where the legality, the question of legality of an 12 apartment was central to the issues in the case. 13 The Colon, C-O-L-O-N case, again, precluding expert 14 testimony as to the interpretation of a particular contract 15 provision, or particular statutory provision. But 16 Mr. Shubin is not being called to opine on the seminal 17 issues in the case. 18 The seminal legal issues in the case are the 19 matters set forth requisite elements of counts two through 20 seven. He is not opining at all on any of those. 21 Now, his testimony relates to the question of 22 intent, ultimately, and, and it assists the finder of fact 23 in determining, understanding the relevant complex 24 documents, the universe of documents and the application of 25 the particular terms to the subject property. And that</p>

<p>Proceedings Page 5841</p> <p>1 testimony is properly admitted. We cited the Court to one 2 other case, the Clardy case, C-L-A-R-D-Y, it's not a 3 New York case. It's a Ninth Circuit case. Their expert 4 testimony was permitted to explain the application of tax 5 laws. So if it's a purely legal issue, specifically and 6 purely legal issue, then I would agree with the Government 7 that that's not the proper subject of expert testimony. 8 And I think their analogy to the judicial 9 affidavits is inapposite, because that's an entirely 10 different context. And those affidavits were speaking to 11 legal issues. We think it's inappropriate for the fact 12 finder, but that doesn't apply here because Mr. Shubin is 13 talking about factual matters. He's not expressing legal 14 opinions. He's identifying -- I'm not going to say it 15 again. You don't like me to say it again. 16 So it's a bench trial. You can give whatever 17 weight you deem necessary. We have the right to present a 18 complete defense. If the Court determines that a particular 19 question or series of questions goes beyond the province of 20 expert testimony, then you could simply stop the examination 21 there. But to exclude him wholesale when he is offering a 22 tremendous range of factual information isn't supported. So 23 his testimony should be admitted. 24 THE COURT: So is he an expert witness? A fact 25 witness? A hybrid? Both?</p>	<p>Proceedings Page 5843</p> <p>1 in great length describing is a legal opinion where you take 2 the facts, you understand the legal restrictions as they 3 apply to those facts, and analyze them. 4 Mr. Shubin testified that the analysis he performed 5 for this case was the same that he would perform for a 6 client, but in actually less detail. He cites one case that 7 says you have to interpret the plain meaning of an easement 8 -- of restriction document on a piece of property. I think 9 the Court is capable of analyzing any legal issues that it 10 needs to, but I certainly think the plain meaning of an 11 easement on a piece of property is certainly within the 12 Court's ability, and, in fact, is the Court's 13 responsibility. 14 So he's a hundred percent an expert on legal 15 analysis of an easement on the property in Doral. It is not 16 a specialized area. It is not an area that is beyond the 17 pen of the Court. It is a waste of our time. He can -- his 18 analysis can be incorporated into the briefs that the 19 defendants prepare. They can have him, I don't know, try to 20 file an amicus, but it is not appropriate for expert 21 testimony. 22 THE COURT: No more argument, but, I want to ask, 23 if I would allow him to testify in some limited capacity, 24 when would he do so and for how long? 25 MR. KISE: I think he is on the schedule for</p>
<p>Proceedings Page 5842</p> <p>1 MR. KISE: He is an expert witness. He is the not 2 a fact witness. 3 THE COURT: You keep talking about how he is going 4 to give facts. 5 MR. KISE: No, he is not going to give facts. He's 6 going to advise the Court as to the facts. He's going to 7 explain the facts that are relevant. He is going to take 8 facts that are there, but it takes his expert opinion to 9 identify what those documents are. What the provisions are. 10 I mean, you or I -- well, I don't want to speak for 11 the Court. I know that if I took a stack of land use and 12 zoning documents, it would take me a long time just to 13 figure out which one relates and which one doesn't. 14 So to the extent that the Court finds that he is 15 offering some conclusion, legal conclusion to be drawn from 16 the those documents, that's a very different matter than 17 saying he can't come in and explain how the system works. 18 It's a fairly complicated regulatory structure. And the 19 cases that we cited say that same thing. 20 So explaining to the fact finder how all that works 21 and what these facts mean is purely within the province of 22 expert testimony. And he's not drawing legal conclusions, 23 even though he happens to be a lawyer. 24 THE COURT: Any reply? 25 MR. WALLACE: Yes. What Mr. Kise is eloquently and</p>	<p>Proceedings Page 5844</p> <p>1 Tuesday. And it probably would not take half a day. I mean 2 not a long -- 3 MR. WALLACE: Half a day? 4 MR. KISE: I don't think it's a lengthy 5 examination, depending on what they have on cross. It's 6 pretty abbreviated. 7 THE COURT: Although, I have already ruled, twice, 8 that expert testimony on the law is not allowed, and 9 defendants' Counsel have acknowledged this solid rule, I 10 will allow Mr. Shubin to testify as to his expert opinion 11 about the arguably complex interrelationships, well 12 described by Mr. Kise, between and the practical meaning of 13 the various deeds, covenants, restrictions, easements, 14 zoning rules and local and state statutes, et cetera, 15 governing use of the Mar-a-Lago property. Although, I will 16 not allow his opinion on the law. I will do my best to draw 17 the line between what is practical and business experience 18 and what is a legal conclusion. 19 So consistent with what both sides said, if the AG 20 wants to object that something is just a pure question of 21 law, I will allow it. 22 THE COURT REPORTER: I'm sorry, Judge, "If the AG 23 wants to object that something is just a pure question of 24 law..." did you say, "I will allow it"?" 25 THE COURT: I will allow him to testify subject to</p>

Page 5847

1 Condition was accurate. He literally said that he came up
 2 with the price for Mar-a-Lago based on a fantasy list that
 3 included, quote, "anyone from Elon Musk to Bill Gates and
 4 everyone in-between, kings, emperors and heads of state."
 5 He is purely just offering an opinion with no re-creatable
 6 process, no re-creatable values.
 7 The defendants take the position that he is not
 8 bound by Frye because he is offering just is professional
 9 experience. He is extremely different from a doctor
 10 talking about how he would conduct a surgery. He is
 11 providing a valuation advice.
 12 And I believe is our case, The Matter of New
 13 York Central, it is 106 AD3d 1152, struck an expert on
 14 valuation who was, in fact, an appraiser who could not
 15 disclose facts, figures or calculations underlying his
 16 determinations. That is Mr. Moens to a tee. There are no
 17 facts. There are no figures. There is no re-creatable
 18 process. He is a real estate broker, friendly with Donald
 19 Trump, who is going to come in and say I think it is worth
 20 1.5 billion with no analysis that can be recreated or
 21 tested.
 22 THE COURT: Mr. Kise?
 23 MR. KISE: So, I don't know where to begin.
 24 I think the government raises two separate
 25 questions.

Page 5846

1 THE COURT: Okay. So, motion granted only to
 2 the extent --
 3 MR. WALLACE: Motion is denied I thought? Our
 4 motion was to preclude Mr. Shubin, I believe. It has been
 5 denied.
 6 THE COURT: I am precluding him from testifying
 7 as to certain areas.
 8 MR. WALLACE: I'll move on to Mr. Moens,
 9 although it seems like anything an expert wants to say is
 10 going to at least be heard.
 11 Mr. Moens, in particular, provides no formal
 12 basis. He is an ipse dixit expert. He has said his
 13 calculations cannot be recreated. He says that he used
 14 his gut feeling; that he didn't verify information; that
 15 it would not be possible for another person to reproduce
 16 his analysis. His testimony stated that he did not, his
 17 testimony did not depend on whether the property could be
 18 used as a private residence, only a social a club. A fact
 19 which this Court has already found.
 20 He has stated that he has not reviewed any of
 21 the data showing how Mr. Trump actually prepared his
 22 valuation of the Statements of Financial Condition, so he
 23 is offering nothing that is relevant to the Court's
 24 analysis of whether what the Trump Organization did
 25 contemporaneously throughout the Statements of Financial

Page 5848

1 THE COURT: I am not sure the microphone is
 2 picking you up.
 3 MR. KISE: Sorry, Judge.
 4 First of all, the government raises two separate
 5 questions. One, whether the Frye analysis applies. And
 6 two, some form of Mr. Moens isn't qualified. I don't hear
 7 him saying that, but that to me is built into their
 8 analysis.
 9 So with respect to the first, and we cite this
 10 in our cases. The Oddone case and the Wernick case. As
 11 well as the Guide to New York Evidence. Frye requires an
 12 expert witness to demonstrate that the theory or opinion
 13 he or she is espousing follows generally accepted
 14 principles and methodologies only where such testimony is
 15 not based on the witness's personal training and
 16 experience.
 17 And so it is very clear that where a witness is
 18 testifying based on their experiences, their personal
 19 training and knowledge and experience, that Frye doesn't
 20 necessarily apply. He doesn't have to have a re-creatable
 21 process. In fact, what makes Mr. Moens successful, is
 22 that other people can't recreate his process. And you
 23 will hear him testify to that. To say that an individual,
 24 who has been in the real estate industry, the preeminent
 25 broker in Palm Beach, who has been doing this for 40-plus

<p>Proceedings Page 5849</p> <p>1 years and closed billions of dollars of transactions in 2 and around the Mar-a-Lago property, is just making it up 3 when he comes up to values. Most of what I heard 4 Mr. Wallace say is cross examination. If he wants to 5 critique what Mr. Moens, the basis of his opinions, the 6 validity of his opinions, whether there is a -- there is 7 some foundation for those opinions. But to say that he is 8 excludable just because he doesn't meet some Frye standard 9 where you can recreate it, this isn't a scientific 10 formula. 11 And an appraiser is held to a different 12 standard. Because an appraiser, there you are dealing 13 with established processes. So the case they cite 14 relating to an appraiser is very different than Mr. Moens. 15 He is not an appraiser. That may be something they care 16 to bring out on cross examination that he isn't an 17 appraiser. 18 But, his opinions are based on documents that he 19 reviewed. The fantasy list, as Mr. Moens called it, in 20 his industry it is. He has represented some of the most 21 wealthy and powerful individuals in the world in that 22 region. And so he knows what someone who has 23 \$100 million, \$500 million, a billion dollars to spend on 24 a residence, he has some basis of knowledge to speak to 25 that.</p>	<p>Proceedings Page 5851</p> <p>1 And so there is no basis to exclude his 2 testimony simply because he doesn't meet the Frye 3 standard. He is certainly qualified. 4 Mr. Robert may have more CPLR based analysis 5 than me. But, issues relevant to his qualifications and 6 competency aren't -- I just don't think that there is a 7 plausible basis to argue that he isn't, given his vast 8 experience. 9 We have a right to present a complete defense 10 and the denial of critical expert testimony is, as Your 11 Honor I think has recognized when you have said it over 12 and over again, a fundamental basis for reversal. 13 You can accord whatever weight that you deem 14 appropriate to the testimony. And any purported lack of 15 experience or any purported lack of merit of his opinions 16 can be well brought out on cross examination. But none of 17 that rises to the level of excluding Mr. Moens testimony. 18 He is an expert in this industry. And I think 19 Your Honor will be very satisfied that he has the 20 requisite qualifications. 21 MR. ROBERT: If I may briefly, Your Honor? 22 And I think Mr. Kise is learning the CPLR just 23 great. So that's actually not what I am going to talk 24 about for the moment. 25 Mr. Moens qualifications are world renowned, and</p>
<p>Proceedings Page 5850</p> <p>1 Again, it is a bench trial. The Court can weigh 2 it and determine it. If they want to challenge the 3 credibility of Mr. Moens and the foundation for his 4 opinion or whether or not it squares with someone else, 5 someone else's opinion or an appraised opinion, that's 6 fine. 7 Also importantly, Judge, ASC 274, which you know 8 I like to talk about, ASC 274, it expressly provides for 9 reliance on this type of information. As we cite in 10 papers, ASC 274-10-55-6, provides specifically that 11 information of this kind, estimates of selling prices and 12 selling costs obtained from independent real estate agents 13 or brokers familiar with similar properties in similar 14 locations; estimated current values based on sales of 15 similar property in similar circumstances. That's what 16 Mr. Moens is going to testify about. He is going to 17 testify about sales with similar properties and similar 18 circumstances. 19 As to the point about valuation, and he is not 20 going back to what we did before, well, none of us are 21 really doing that. We are all looking here in 2023 with 22 the benefit of hindsight. We are all backward looking. 23 And so Mr. Moens is providing his view of the market. A 24 market that he has been in. That he has been fully 25 immersed in for 40-plus years.</p>	<p>Proceedings Page 5852</p> <p>1 you will see. I just want to talk about a factual issue. 2 In the government's own case when they called Mr. McArdle 3 to the stand from Cushman & Wakefield, one of the things 4 they asked him about is to how he valued certain property. 5 And he talked about bringing in a local expert to help him 6 value property. And it is at page 1986 of the trial 7 transcript, line nine to line 16: 8 "QUESTION: Who was that expert? 9 "ANSWER: The local expert was, I selected, was 10 a gentleman named David Turner from a highly regarded 11 large residential brokerage firm in the Westchester area 12 called Houlihan Lawrence. So David was one of the top 13 producers in the luxury marketplace that would include 14 home sales and land. I approached him and asked him if he 15 would be interested in helping me with my understanding of 16 land values in Bedford, and he quickly agreed. 17 So, their own witness affirms the fact that 18 local real estate brokers who are highly qualified and top 19 producers, and it is beyond any dispute that Mr. Moens is 20 a top producer and he works in the luxury marketplace, and 21 Palm Beach is his specialized area, that he could 22 certainly provide information that would be relevant and 23 information that would be necessary for this Court to 24 hear. 25 Thank you, sir.</p>

Proceedings Page 5853

1 THE COURT: Thanks.
 2 Mr. Kise, when this trial is over, not until
 3 then, but when it is over, I will accept an offer to
 4 condense everything you ever write or say.
 5 MR. KISE: Most people that know me would.
 6 THE COURT: You should follow your buddy there
 7 on your left, Mr. Robert. He is very succinct and to the
 8 point.
 9 MR. WALLACE: Can I be heard on one point?
 10 THE COURT: Of course, in a second.
 11 Let me try to condense things right now. Okay?
 12 So, am I correct, and there are a lot of
 13 witnesses here, this potential expert witness is going to
 14 basically come in and say, I am an expert, and I can,
 15 based on my experience, and I'll tell you what the
 16 property is worth, I'll opine what the property is worth.
 17 MR. KISE: Loosely speaking, I think that's
 18 right. Loosely speaking, yes.
 19 THE COURT: Mr. Wallace, any quick response?
 20 MR. WALLACE: I would direct Your Honor to page
 21 26 of your summary judgment opinion where Mr. Moens'
 22 opinion is discussed at length.
 23 You write that: It is well settled that where
 24 an expert's ultimate assertions are speculative or
 25 unsupported by any evidentiary foundation, however, the

Proceedings Page 5855

1 extent.
 2 So, go ahead. And you know I am very reluctant
 3 to allow this. But make your best case.
 4 MR. KISE: But I think that we have to start
 5 from the foundational premise. The foundation premises is
 6 the public has a right to everyman's evidence. We didn't
 7 cite this in our papers but Branzburg v Hayes 408 US 665.
 8 A Supreme Court of the United States case which stands for
 9 a fundamental foundational proposition that we are
 10 entitled to evidence unless there is some constitutional
 11 or privilege, you know, some reason to exclude.
 12 None of that applies here. All adults are
 13 competent to testify. The evidence is highly relevant and
 14 probative. Under the CPLR, material and necessary as used
 15 in section 3101 must be interpreted liberally to require
 16 disclosure.
 17 THE COURT: Mr. Robert probably gave that to
 18 you.
 19 MR. KISE: He did, as a matter of fact.
 20 And we have cited cases on this. Judge Jones
 21 can certainly testify as to the specific issues addressed
 22 in her reports, her observations and conclusions to date
 23 as to the defendant's business practices, accounting,
 24 compliance practices, et cetera, are extremely probative,
 25 we would submit, to certainly the issue of the need for

Proceedings Page 5854

1 opinion should be given no probative force and is
 2 insufficient to withstand summary judgment.
 3 You have already decided the issue of whether
 4 the easement donations and the easement deeds restrict the
 5 use of the Mar-a-Lago property. The defendants are now
 6 proposing to spend a full trial day valuing, establishing
 7 that, in fact, you are wrong, and the easement does not
 8 restrict the use of the Mar-a-Lago property. And that in
 9 turn, it should be valued at \$1 billion because Elon Musk
 10 might want to move to Palm Beach. That will be a full day
 11 of this trial.
 12 THE COURT: And that's what we are going to do.
 13 Motion to preclude denied.
 14 And if I am being inconsistent -- what is it? A
 15 foolish consistency is the hobgoblin of little minds.
 16 Let him testify. It seems sort of
 17 straightforward.
 18 Any other housekeeping or motions?
 19 MR. KISE: We wanted to address briefly the
 20 Judge Jones testimony you asked us -- I don't think you
 21 asked us, you allowed us.
 22 THE COURT: That's a more accurate word.
 23 MR. KISE: That's a better statement.
 24 THE COURT: I read some or all of your
 25 submissions on this issue; and the others to a certain

Proceedings Page 5856

1 ongoing injunctive relief and the scope of any such
 2 relief.
 3 And the reports, respectfully, are hearsay. And
 4 so to the extent that the Court has or intends to rely on
 5 the reports, then, as with all hearsay, this isn't a
 6 situation, respectfully, where we are talking about the
 7 interpretation of a contract or a legal document. It is
 8 an interpretation of a factual record. And the witness is
 9 readily available. There has already been disputes
 10 between the parties as to what these various reports mean.
 11 And so we should be entitled to at least the benefit of
 12 having Judge Jones here to respond to those questions
 13 about any ambiguities that might exist in her reports.
 14 So, for those reasons and the reasons stated, in
 15 the interest of brevity, for those reasons and the reasons
 16 stated in our papers, we think Judge Jones can and should
 17 be called as a witness.
 18 THE COURT: Time goes fast when you are having a
 19 good time.
 20 MR. AMER: If I may be heard on this?
 21 THE COURT: Sure, Mr. Amer.
 22 MR. AMER: So the challenge that the Court laid
 23 down was to have defendants find a case that said that the
 24 court-appointed monitor can be compelled to testify. I
 25 don't believe they found such a case in their letter.

Proceedings	Page 5857	Proceedings	Page 5859
<p>1 And certainly this Court has broad discretion 2 when looking at relevance and prejudice. And of course 3 Your Honor already identified one point of prejudice, 4 which is a potential conflict that could arise. 5 But we actually have found cases that go the 6 opposite way of your request to defendants that 7 demonstrate that a court-appointed monitor cannot be 8 compelled to testify. And there is really two bases in 9 these cases, and it all comes down to immunity. 10 New York State recognizes the Doctrine of 11 Judicial Immunity extends to non-Judges in the cloak of 12 quasi judicial immunity where they perform discretionary 13 acts of a judicial nature. And in the Clapper v Guria 14 case 153 Misc2d 726. That's a 1992 New York County 15 Supreme Court decision. The State defendants on behalf of 16 the disciplinary committee performed a judicial function 17 in their investigation of plaintiff's alleged misconduct 18 and commencement of the petition. And in this case the 19 Court recognized that the defendants there were cloaked 20 with quasi judicial immunity. 21 It has also been recognized in the decision 22 Pertilla v Genetic Design Inc., that's 166 Misc2d 843. 23 Generally the doctrine of judicial immunity extends to 24 those parties acting in a quasi judicial capacity in the 25 course of their performance of court-appointed duties.</p>		<p>1 subpoena was served on our office, Office of the Attorney 2 General, where we were a non-party in a 1983 case. And 3 the Court held that that subpoena was invalid and struck 4 the subpoena because our office enjoyed sovereign 5 immunity. And the same holds here. Any effort to 6 subpoena Judge Jones in her role as a court-appointed 7 monitor, and therefore an arm of the state, would not be 8 valid because of sovereign immunity. And so, because she 9 is immune from process, that would be a subpoena to compel 10 her to come here to testify. The defendants request to 11 compel her should not be allowed. 12 THE COURT: Very quick reply, partly because we 13 are running out of time. 14 MR. KISE: Yes, Your Honor. 15 First of all, a monitor is not -- 16 Well, let me start with, you asked us to come up 17 with a case that said the monitor is subject to testimony. 18 Yes. Branzburg v Hayes, we are entitled to everyman's 19 evidence -- 20 THE COURT: That doesn't do it. Come on. 21 MR. KISE: No, it isn't. It isn't. There are 22 only 17 cases in the system that can be located that even 23 use the word monitor. And five of the references in the 24 case law are to this case. So that only leaves like 12 25 others.</p>	
Proceedings	Page 5858	Proceedings	Page 5860
<p>1 THE COURT: But wait a minute. Immunity from 2 what? Is this -- 3 MR. AMER: My next case. 4 THE COURT: Okay. 5 MR. AMER: Just to finish quoting from Pertilla: 6 This privilege is based upon the public policy that expert 7 witnesses must be encouraged to perform public services 8 without fear of harassment or threat of litigation. 9 And then finally the First Department, to 10 address Your Honor's point in Alvarez v Schneider that's 11 264 AD2d 27 at page 34, noted that: As with other forms 12 of immunity, judicial immunity is an immunity from suit, 13 not just from ultimate assessment of damages. And suit is 14 recognized as a judicial proceeding that compels someone 15 to act or refrain from acting. So the act of compelling 16 Judge Jones to come to this court and testify would be a 17 suit within the meaning of these immunity doctrines. 18 Then there is a second separate immunity that 19 applies here, Your Honor. And that's sovereign immunity. 20 Judge Jones, because she is an arm of this Court, is a 21 state actor who is entitled to broad state sovereign 22 immunity. State immunity applies to both states and their 23 agents. And she would be an agent of the state. Recently 24 in an Eastern District decision by Magistrate Judge Lock. 25 It is Felix v County of Nassau, 2023 Westlaw 5978189, a</p>		<p>1 The Court itself, this Court itself drew a 2 distinction between a monitor, which is undefined, and a 3 receiver, which is defined as an arm of the court, 4 specifically in its order. And we cite that in the 5 November 3, 2022 decision, where you state that they, in 6 fact, perform two different functions. And that a limited 7 function of a monitor is entirely different from the 8 functions of a receiver. So the receiver case law and the 9 case law that applies to immunity is inapposite here. 10 Even if a receiver were an arm of the court, we 11 cited the Court the cases, the Continental case, the 12 Urinski case, and other cases where receivers have been 13 called to testify. As I mentioned to the Court last week, 14 in the bankruptcy and other context, SEC context, they are 15 called frequently to testify. And the notion that a 16 monitor in this context enjoys some broad sovereign 17 immunity, I don't think that enjoys any support in the 18 case law. 19 For those reasons and the reasons in our papers, 20 we think she is a qualified witness that should be called. 21 THE COURT: Just putting my thoughts together 22 here quickly. 23 (Pause in the proceeding) 24 THE COURT: The request to subpoena Judge Jones 25 is denied.</p>	

Proceedings Page 5861

1 First of all, as has already come up, there is
2 no authority for subpoenaing a monitor to testify. And
3 I'll just use the word "monitor" as opposed to
4 "independent monitor." I don't think there is a
5 difference in this case.

6 Secondly, as argued by Mr. Amer, I think it
7 would be a dangerous infringement on court immunity and
8 prerogatives.

9 Third of all, I basically appointed her to
10 assist me in making sure that everything was correct -- I
11 will use that bland word -- in the defendant's business
12 practices or documents. I appointed her to assist me.
13 What she has -- her reports have already generated all
14 sorts of criticisms, I assume that will continue, or at
15 least commentary. The post-trial briefs can discuss
16 whatever they want about those reports.

17 I am not afraid go out on a limb, but I am not
18 going to be the first Judge to say that a monitor can be
19 subpoenaed.

20 And by the way, my research assistant, who is
21 sitting alongside me, claims to have found 472 cases,
22 state and federal, just searching for the character string
23 "independent monitor." So, not that this is dispositive,
24 but there seems to be dispute about how many cases there
25 are that talk about independent monitors.

Proceedings Page 5862

1 And that's the ruling.
2 Any other business we can finish today?
3 Have a great weekend everybody.

4 MR. ROBERT: Thank you, Your Honor.

5 THE COURT: See you Monday at 10:00 as usual.

6 MR. KISE: Yes, Your Honor.

7 THE COURT: I would admonish the witness but
8 there is no witness to admonish.

9 (Whereupon, the trial stood adjourned to Monday
10 December 4, 2023 at 10:00 a.m.)

1 THE COURT: Good morning, everyone.
 2 Defendants, would you like to call your next
 3 witness?
 4 MR. FIELDS: Good morning, your Honor.
 5 THE COURT: Good morning, Mr. Fields.
 6 MR. FIELDS: The Defendants call Frederick Chin.
 7 F R E D R I C K C H I N, called as a witness,
 8 having been first duly sworn by the Clerk of the Court, was
 9 examined and testified as follows:
 10 THE COURT OFFICER: Please state your name and
 11 either home or business address for the record.
 12 THE WITNESS: Frederick Elliott Chin.
 13 I reside at 16046 North 113th Way, Scottsdale,
 14 Arizona.
 15 THE COURT: Mr. Fields, please proceed.
 16 MR. FIELDS: Thank you.
 17 DIRECT EXAMINATION
 18 BY MR. FIELDS:
 19 Q Good morning, Mr. Chin.
 20 Could you please state your education background after
 21 high school?
 22 A Certainly. I attended the University of Arizona, and
 23 graduated in 1984 with a bachelor's in a concentration of
 24 finance and in real estate.
 25 Q And moving on to your professional background, where

 36 Official Court Reporters

1 did you begin your professional career?
 2 A My career began in Tucson, Arizona, with a firm called
 3 Solot & Associates in 1979. I was a real estate researcher and
 4 essentially an apprentice appraiser.
 5 Q Were what were some of your responsibilities at Solot &
 6 Associates?
 7 A I would do title searches. I would measure properties
 8 when we were valuing real estate. I would gather sales
 9 information and later then perform the valuation of various
 10 types of property.
 11 Q And about how long were you there?
 12 A From 1979 until 1981.
 13 Q Where did you go next?
 14 A In 1981 I left with one of the gentleman from Solot and
 15 he formed a company called Greenberg Consultants. We were a
 16 real estate appraisal and market research firm.
 17 Q What were some of your responsibilities at Greenberg?
 18 A My responsibilities continued. I was a real estate,
 19 continued as real estate appraiser. I was also responsible for
 20 reviewing the reports of others that were members or employees
 21 of the firm.
 22 So between 1981 and through 1984 the firm grew
 23 considerably. I became a named partner in 1984 and we had, I
 24 believe, six appraisers that were performing all sorts of real
 25 estate valuations and I was responsible for, if you will,

-F. Chin-Defendant Direct-by Mr. Fields- Page 5867

1 quality control of reviewing those appraisals as well as
2 performing my own appraisals.
3 Q Approximately how many appraisals did you perform with
4 Greenberg, do you have any idea?
5 A Probably a few thousand.
6 Q All right. And do you have a general sense of when you
7 left Greenberg, approximately?
8 A Yes, it was, I believe, it was in 1988.
9 Q And where did you go next?
10 A I moved to Los Angeles to work at Kenneth Leventhal &
11 Company.
12 Q And what was Kenneth Leventhal & Company?
13 A At the time part of the Big Ten accounting firms in the
14 country. Kenneth Leventhal was very different, it provided
15 accounting, tax and consulting services specifically for the
16 real estate industry.
17 Q All right. I think your testimony was that while you
18 were at Greenberg you had been a partner. Why did you choose to
19 leave your partnership and go to Kenneth Leventhal?
20 A For me, I wanted to expand my use and application of
21 real estate appraisals tools that I had. So while I had the
22 real estate appraisal tools, I always believed they could be
23 used in different capacities.
24 So my perspective is that real estate valuation is a
25 tool that is used in many different regards and I needed a

-F. Chin-Defendant Direct-by Mr. Fields- Page 5868

1 larger platform to use my tools in different regards and the
2 accounting firm environment, particularly with a firm that
3 specialized in real estate, I believe I would be able to expand
4 my use of those tools.
5 Q How did you use the tools, to borrow your phrase, at
6 Kenneth Leventhal?
7 A They were used in many different regards. So I was
8 brought in and Kenneth Leventhal had somewhat of a unique
9 operating style unlike the other Big Four firms. Usually,
10 meetings would involve an audit tax and consulting partner, I
11 would be considered consulting person and decisions would be
12 made in that context. Because if a valuation or real estate
13 analysis was done it had impacts on how a structure might be or
14 transaction might be structured and what the tax impacts might
15 be and what the resulting accounting impacts would be.
16 So I was the real estate side of that evaluation and
17 analysis. And it afforded me the ability to work on many
18 different things that were well outside the appraisal realm.
19 Instead of doing single asset properties, I was advising and
20 part of the team that was working on tax respinoffs of
21 companies, divestitures, restructurings of debt and
22 restructurings of company, the dispositions of portfolios and
23 assets.
24 So I was part of that team and that gave me a much
25 broader perspective than doing single asset individual property

-F. Chin-Defendant Direct-by Mr. Fields- Page 5869

1 appraisals.
2 Q Did you have some exposure to financial statements
3 while at Kenneth Leventhal?
4 A Yes.
5 Q And to what extent?
6 A The firm often did Statements of Financial Condition
7 for various of its clients. I was usually asked by an
8 accounting partner to meet with the client, talk about their
9 real estate holdings and talk about what they might be doing
10 with their real estate and then provide feedback to the
11 accounting people who would then use that however they might in
12 their accounting reports.
13 Q At some point did Kenneth Leventhal merge with another
14 entity?
15 A Yes, they did.
16 Q What entity was that?
17 A That was Ernst & Young.
18 Q Did you remain employed by Ernst & Young after the
19 merger?
20 A Yes.
21 Q In what capacity?
22 A I was a partner at Ernst & Young when we had merged
23 into Ernst & Young.
24 Q So you would have been a partner at Ernst & Young after
25 the merger?

-F. Chin-Defendant Direct-by Mr. Fields- Page 5870

1 A Yes.
2 Q Do you have to be an accountant or CPA to be partner at
3 an accounting firm?
4 A No. Ernst & Young had many partners. There were non
5 accountants. The accounting firms were broadening their
6 business scope into, a lot time at that time was information
7 technology consulting, real estate consulting and all sorts of
8 process improvement, performance improvement initiatives that
9 were undertaken by accounting firms. They admitted a lot of
10 nonCPA partners and I was among one of them.
11 THE COURT: Just a moment. The question was do you
12 have to be accountant to be partner at Ernst & Young? If
13 there's yes or no question, please just answer it yes or no.
14 THE WITNESS: My apologies, your Honor.
15 THE COURT: Okay. It takes a lot to get the hang
16 of this.
17 THE WITNESS: Thank you.
18 Q How, if at all, did your responsibilities change in
19 terms of your work after the merger?
20 A I took on many managerial roles. Mainly, I was still
21 based in the Los Angeles office and that was the largest real
22 estate consulting office of Ernst & Young. The reason why
23 Kenneth Leventhal Group was a specialty group in Ernst & Young.
24 At that time I oversaw a department of 75 people
25 including eight partners. We provided all sorts of services,

-F. Chin-Defendant Direct-by Mr. Fields- Page 5871

1 including the birth, if you will, have residential
2 mortgage-backed securities, restructuring, capital formation,
3 capital access for real estate clients, repositioning and
4 process improvement type of services all were within that domain
5 conducted out of the Los Angeles office and I offer saw those
6 activities.
7 Q Did you ever testify as an expert during your time at
8 Ernst & Young?
9 A Yes.
10 Q About how many times and what subject matters?
11 A My testimony was all real estate based. So relating to
12 real estate valuation, damages, contract disputes, inverse
13 condemnation, regular condemnation situations and I actually was
14 a subject matter expert for real estate nationally as well as
15 lead their real estate litigation practice while at Ernst &
16 Young.
17 Q Do you have a sense for approximately how many times
18 you testified as an expert while you were at E&Y?
19 A It was over 25 times.
20 Q What were some of the more notable cases that you
21 testified as an expert about while at Ernst & Young?
22 A A few notable ones. I was involved in a dispute
23 involving the Mall of America, it was the largest mall in
24 Minnesota. There was a dispute between the partners and I was
25 brought in to testify on that regard.

-F. Chin-Defendant Direct-by Mr. Fields- Page 5872

1 Another situation notable in my career, I was the
2 expert witness involving the State of Arizona condemnation of
3 land through a master plan community. It was the states's
4 largest condemnation matter, the damage claim was over
5 \$100 million. This is going back to the early 90's. The
6 property owner had claimed that the properties were damaged
7 because of the construction of the roadway improvements.
8 I was representing the State and their Attorney General
9 rendered the opinion that there was no damage to these
10 particular properties partly because the highest and best use of
11 those properties hadn't changed as well as the acceleration of
12 demand that would occur as a result of the construction of those
13 improvements. It was a jury trial. And I had rendered
14 basically no damage other than the physical land being taken.
15 But there was no extenuating damages and the jury ruled at my
16 opinion.
17 Lastly, another notable one was, which was the -- in
18 Los Angeles was the Mid-Wilshire construction of an underground
19 subway. There was -- the Metropolitan Transit Authority was in
20 the process of constructing an underground subway underneath
21 Wilshire Boulevard. All the property owners who had not had
22 their properties condemned filed an inverse condemnation action
23 against the MTA that their property values had diminished.
24 Because of that subway construction even though their properties
25 were not physically taken.

-F. Chin-Defendant Direct-by Mr. Fields- Page 5873

1 It was concurrent with the time when property values in
2 general were declining so that added to the damage claim that
3 the property owner's suffered. I represented the MTA. I looked
4 at the damage claim. I bifurcated the damages between market
5 value declines in general and I evaluated the specific instance
6 of what effect that subway construction would have on the
7 property.
8 I rendered the opinion that there was no inverse
9 condemnation and, in fact, that those properties along that
10 subway corridor were, in fact, benefited and demonstrated that
11 in court. And it was resolved at my opinion with respect to the
12 claim that there was no damage or inverse condemnation action
13 with those properties.
14 Q Outside of your testimony as an expert witness, were
15 you involved in any other notable engagements at E & Y that are
16 relevant for purposes of real estate valuation.
17 A Certainly. I was the real estate consultant to Calpers
18 which at the time was the largest pension fund in the United
19 States which had a very sizeable investment in real estate.
20 Every corridor, the airport folio of holdings would be
21 appraised. I was responsible for reviewing all those appraisals
22 and rendering opinions as to the reasonableness and to the
23 extent I disagreed, I would revalue the properties.
24 What was significant about the evaluation because
25 Calpers had relationships with many operating partners and the

-F. Chin-Defendant Direct-by Mr. Fields- Page 5874

1 fees payable to those operating partners were triggered by
2 appraisal values. I did that for several years, every quarter
3 reviewing appraisals performed by others of properties that were
4 held by Calpers.
5 Another notable one I was involved in, purchase price
6 allocation of Pebble Beach, which was home of the U.S. Open.
7 But there was a group of investors, Peter Ueberroth and Clint
8 Eastwood who had purchased Pebble Beach in 1989 for
9 800-something million dollars. As part of normal subsequent
10 acquisition purposes, usually the purchase prices are allocated
11 for tax purposes because there's, my understanding, brief
12 understanding there's different tax treatments for different
13 allocations of property.
14 So I was involved in the purchase price allocation
15 involving Pebble Beach.
16 Q To be clear, when you say Pebble Beach, are you
17 referring to series of golf courses on the northern coast of
18 California?
19 A Yes, there are several golf courses. The most iconic
20 being Pebble Beach, but there's Spyglass, and a public one,
21 Monterey Golf Course as well.
22 Q While you were at Ernst & Young, were you also involved
23 with the valuations of other golf courses other than Pebble
24 Beach?
25 A Yes. I have appraised and also been a part of a team

-F. Chin-Defendant Direct-by Mr. Fields- Page 5875

1 involving many golf courses on the Kohala Coast, K-O-H-A-L-A,
2 that were proposed for construction. There was several resort
3 hotels. We did the valuation work on the hotels as well as the
4 golf courses there.

5 There was a major acquisition in the Palm Desert area,
6 PGA West in La Quinta that was acquired in the early '90s for
7 250 million plus. I was involved in the valuation of that golf
8 course.

9 I've done quite a bit of golf course work over my
10 career. I have advised National Golf Investors, I forget, they
11 owned a portfolio of municipal golf courses, probably 100 of
12 them. I was consulting with them on ground rent payments and
13 how to restructure some of their obligations to improve their
14 profitability.

15 Q Why -- did you leave Ernst & Young at some point?
16 A I did.
17 Q Why?
18 A I left in 1995. What was happening at that time, there
19 was a federal regulation, Sarbanes-Oxley, S-A-R-B-A-N-E-S
20 O-X-L-E-Y, that came into law which effectively limited the
21 amount of work other non-accounting work that accounting firms
22 were doing.

23 Ernst & Young was very concerned about Sarbanes-Oxley.
24 And all the consulting businesses like information technology,
25 management consulting, process improvement, many of the ones I

-F. Chin-Defendant Direct-by Mr. Fields- Page 5876

1 mentioned, including real estate became under fire. I think
2 Ernst & Young was very concerned about that.

3 So at that time I was doing quite a bit of real estate
4 litigation work. I think the pinnacle for me was I was going to
5 be the expert on the World Trade Center one-occurrence
6 two-occurrence situation. I had developed a damage theory
7 regarding the two occurrences.

8 As we normally do before we accept litigation
9 assignments, we run a conflict check sadly, Ernst & Young audits
10 most of the reinsurers that were insuring the loss and said
11 there's no way you could do this.

12 I had repeatedly run into situations where the conflict
13 of interest was precluding my ability to do litigation work.

14 In the context of expert witness litigation work it is
15 usually the individual that gets hired and then the firm comes
16 along with it. And that was probably the final straw that
17 caused me to leave.

18 Q Where did you go next?
19 A After that, and actually prior to that I was consulting
20 with a private home builder and land developer in Las Vegas. I
21 had approached the subject of actually being on the other side
22 of the table, being on the operating side instead of the
23 consulting side and I joined him as chief operating officer.

24 He had large growth plans, a lack of liquidity and
25 needed access to additional dollars to fund his growth plans.

-F. Chin-Defendant Direct-by Mr. Fields- Page 5877

1 So I believed I could help him in that regard and I joined him,
2 which was called Sagebrush Enterprises, which, at the time was a
3 home builder locally known as Rhodes Homes.

4 Q What was your involvement -- what were your roles at
5 Sagebrush and what did those roles entail?
6 A My role was to help him improve his liquidity so that
7 he could actually realize his growth plans. He had considerable
8 land Holdings, so he was land rich and cash poor.

9 In order to do so, it involved essentially a revamping
10 of his entire organization. I had to recruit and bring in
11 several experts in various departments. So land development, we
12 needed much more discipline with respect to how the business was
13 being operated. So my involvement there helped actively recruit
14 some key people that started to build the organization.

15 Concurrently with that, I sought to seek liquidity for
16 the company and located the source that would provide secured
17 financing to the company. And started the process of
18 essentially preparing the company and then executing raising
19 capital for the company.

20 We put a credit facility together of about
21 \$525 million. It was reviewed by the RAID agencies. I made all
22 the presentations to the raid agencies, formulated -- it was in
23 front of the RAID agencies and other investors who were funding
24 this 525 million.

25 It was a significant key to the success of the

-F. Chin-Defendant Direct-by Mr. Fields- Page 5878

1 organization because at the time the company had no more than
2 \$10 million of liquidity and lots of land holdings so now the
3 land holdings and capital that was available was more in balance
4 so that we could achieve the growth plans.

5 Subsequent to that, I then tried to acquire on behalf
6 of the company a private, publicly registered privately traded
7 company in Albuquerque, New Mexico, which had owned 54000 acres
8 of land. I had essentially secured the right to acquire that on
9 behalf of the company.

10 As part of that, I raised a 250 or \$275 million credit
11 facility to support that. That transaction did not go through.
12 We were overbid at the final curtain and did not complete that
13 transaction.

14 Q What were your actual titles at -- withdraw that.
15 I think you said this company that you were with was
16 called Sagebrush Enterprises?
17 A Yes, that was the parent company.
18 Q What were your titles while there?
19 A I was the originally hired as the COO and then
20 ultimately became the CEO of Sagebrush.

21 Q And after Sagebrush did you stay in the Las Vegas area?
22 A I did, yes.
23 Q What was your next stop for employment?
24 A I was -- so I left Sagebrush after I thought I had
25 completed what I needed to do. I was named as Chief

<p>-F. Chin-Defendant Direct-by Mr. Fields- Page 5879</p> <p>1 Restructuring Officer of Lake at Las Vegas Companies. 2 Lake of Las Vegas Companies was the owner of a 3600 3 acre master plan community that included three existing golf 4 courses and two planned golf courses, built around a manmade 320 5 acre lake that had entitlement to construct up to 5000 6 residential units. 7 There was a default by the borrower of, I believe, 8 \$500 million credit facility and as part of the forbearance the 9 lender group nominated me to oversee the activities of the 10 borrower until the time -- at which time the Borrower was going 11 to repay the entire debt, but I was reporting to the lender 12 group with respect to the activities, the obligations, the 13 situation operating-wise and otherwise that I saw at Lake at Las 14 Vegas. 15 Q So you began as chief restructuring officer, did you 16 hold any other titles at Lake at Las Vegas? 17 A Yes. So in October I was appointed CRO on January 2nd 18 because the borrower failed to repay the loan. The lender group 19 appointed me as the new owner of Lake at Las Vegas and I became 20 the CEO of Lake at Las Vegas Company to evaluate the company, to 21 essentially run and improve it and to handle all the operations 22 which included the golf courses. 23 It also included a Ritz Carlton Hotel which we had 24 owned as well as all the land development activities. 25 Q How much debt existed at this time on this property?</p>	<p>Page 5881</p> <p>1 trust also known as a REIT. They owned approximately 16 million 2 square feet of commercial office buildings, hotels and some 3 retail. And it was a largest holdings in Southern California of 4 an office REIT and besides that, they own most of the high rises 5 in downtown Los Angeles. They had approximately a 40 percent 6 market share of high quality of office space in downtown Los 7 Angels. 8 (Whereupon, Cheryl-Lee Lorient relieved Deborah 9 Rothrock as the official court reporter.) 10 (Continued on next page.) 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
<p>-F. Chin-Defendant Direct-by Mr. Fields- Page 5880</p> <p>1 A I think all total it was over 600-something million. 2 There was debt against the Ritz Carlton Hotel separately and 3 then debt against the land holdings, golf courses and operating 4 businesses of Lake at Las Vegas. 5 Q Shifting gears a little bit into your next stop. 6 Where did you work at Lake at Las Vegas? 7 A So after Lake at Las Vegas, I went to Los Angeles and 8 became the chief operating officer of MPG Office Trust. We had 9 gotten Lake at Las Vegas out of bankruptcy, so before, when I 10 took over the ownership my recommendation was to file Chapter 11 11 and clean it through, to clean the company and exit bankruptcy. 12 Then I went to MPG Office. They had a significant 13 liquidity problem and a balance, too much debt against assets. 14 MR. AMER: Could we get a year, I lost track of the 15 time. 16 Q When did you leave Lake at Las Vegas? 17 A 2010. 18 Q And you mentioned you started with the MPG Office 19 Trust, would that have been in 2010, give or take? 20 A Yes. 21 Q And approximately how long were you with the MPG Office 22 Trust? 23 A Until 2013. 24 Q So what is the MPG Office Trust? 25 A MPG Office was a publicly traded real estate investment</p>	<p>F. Chin - Defendant - Direct/Mr.Fields Page 5882</p> <p>1 CROSS EXAMINATION 2 BY MR. FIELDS: 3 Q. What was your title at MPG? 4 A. It was Chief Operating Officer. 5 Q. What were some of your responsibilities as COO? 6 A. I was responsible and co-worked with the CEO to 7 improve the liquidity of the company and, essentially, 8 deleverage the balance sheet and prepare it for either a 9 sale or continued operations. 10 Q. Did you become involved with a merger while at 11 MPG? 12 A. Yes. It was one of the exit plans that we had 13 discussed with the Board of Directors. And they had 14 evaluated options and believed that a merger, after the 15 company had been cleaned up -- we spent many years cleaning 16 it up to prepare it for merger. 17 Q. Who was the merger with? 18 A. It was with Brookfield Properties. 19 Q. And what were your responsibilities relative to 20 that merger? 21 A. I was, eminently, involved in most of the aspects 22 of that merger. So I prepared the company for sale; so for 23 gathering all necessary documents so that due diligence 24 could be performed on the portfolio. 25 We went through all of the systems, all the</p>

F. Chin - Defendant - Direct/Mr.Fields Page 5883

1 people, all of the processes to, basically, display the
2 story of what MPG was and what the opportunity was.
3 We went through every lease -- so, there was over
4 five hundred leases -- to make sure that all the information
5 was input correctly and that people could do their own
6 projections and forecasts.
7 I worked on the investment memorandum that was
8 sent. I did property tours with potential investors or
9 buyers of the company, answered and fielded many questions
10 that they had during their due diligence periods. And then,
11 the merger was effective. There was lots of legal documents
12 that I helped get completed.
13 And then, post merger, I was involved in the
14 handoff of making sure that the systems and all of the
15 things that we knew about our company were transferred to
16 Brookfield efficiently.
17 Q. How, if at all, did you utilize appraisal
18 information while you were at MPG?
19 A. We had gotten appraisals on some of our
20 properties. Because, as I mentioned, a lot of our
21 properties were over-leveraged.
22 We did have appraisal information that was either
23 required by potential buyers -- as we did try to and we did
24 sell several of our assets.
25 And appraisal information was oftentimes required

F. Chin - Defendant - Direct/Mr.Fields Page 5884

1 by the buyers or it was something that somebody wanted to
2 see how much they might be able to borrow against a piece of
3 property.
4 Q. Did you find that the appraisal information that
5 you received was always indicative of the selling price of a
6 particular asset?
7 MR. AMER: Objection, leading.
8 THE COURT: Sustained.
9 Q. How were appraisals --
10 Withdrawn.
11 How did you use appraisals in determining what the
12 potential selling price of an asset would be?
13 A. I, actually, didn't. We had appraisal
14 information. I found from the instances we had appraisal
15 information, it was grossly inaccurate.
16 Q. Are there any examples that come to mind?
17 A. I do.
18 Q. What examples?
19 A. We had an office building in Pasadena called Plaza
20 Los Fuentes. It was a multi-tenant office building. I
21 looked at the valuation. I thought it was, probably, worth
22 around \$60 million. We had it appraised by a national
23 appraisal firm. They appraised the property for about
24 33 million. We took it to market, shortly after we got the
25 appraisal, and we sold the property for 75 million.

F. Chin - Defendant - Direct/Mr.Fields Page 5885

1 Q. And you said, shortly after you got the appraisal,
2 about how much time from the time you received the appraisal
3 to when you, actually, sold the property, could you
4 estimate?
5 A. It was, probably, within three months.
6 Q. Were there any other examples?
7 A. Yes. Two others come to mind. We had another
8 office building. We, internally, valued it for,
9 approximately, 110 million. Appraisals were about 80 or
10 90 million. And the property ended up transacting at
11 150 million.
12 All within the same time period. Usually, the
13 appraisals were a condition of some pre-losing requirements
14 that the buyer had wanted.
15 Most notably, we had U.S. Bank Tower, which, at
16 the time, was the largest, tallest building west of the
17 Mississippi. It was a 73-story highrise structure; a very
18 iconic structure for downtown LA.
19 There again, we had, we thought, lots of value.
20 Appraisers did not think so. But, we, internally, valued it
21 at somewhere around 300 million. The appraisal numbers came
22 in about 250. And we sold the property for \$367 million.
23 So, we -- I've had many arguments with appraisers.
24 They were very adamant that their values were right. And I
25 believe the market test, when you put it out there, is the

F. Chin - Defendant - Direct/Mr.Fields Page 5886

1 best demonstration of value.
2 Q. All right. So, we talked about the merger with
3 Brookfield.
4 When did you leave your MPG?
5 A. In 2013.
6 Q. What was your next -- where were you employed
7 next?
8 A. I had my own company called CPG Advisors.
9 Actually, I created it before MPG but, I was pretty much
10 full-time. It was my own business. And, I started doing
11 consulting work under that tent.
12 Q. What kind of consulting work did CPG do?
13 A. It was general real estate advisory. It varied.
14 I looked at site selection for Sonic Restaurants.
15 I did an evaluation involving environmental
16 contamination of a property in Northern California. I
17 looked at the damages on that.
18 I also was involved in the city of Stockton
19 bankruptcy. So it was a Chapter 9 bankruptcy. So I was a
20 valuation expert on three golf courses that secured a loan
21 that Franklin Templeton made. They were municipal golf
22 courses.
23 There was a valuation dispute. The city's
24 appraiser had valued these municipal golf courses,
25 essentially, at zero or maybe it was \$100,000. My opinion

F. Chin - Defendant - Direct/Mr.Fields Page 5887

1 was, I believe, right around \$5 million.
2 And, there was a valuation testimony a valuation,
3 if you will, fight. And, it ended up that the creditor,
4 Franklin Templeton received a claim at my appraised number.
5 Q. Was that in Federal Bankruptcy Court?
6 A. Yes.
7 Q. Were there other instances of expert testimony
8 that you provided during this time at CPG?
9 A. That was -- there was another one which was a
10 previous of fiduciary duty. One of the partners had sued
11 the owner of a company that was involved in land development
12 across many different states. And, there was a dispute, a
13 valuation dispute. I was named as the expert regarding the
14 valuation and the potential damages.
15 Q. Where were you employed after CPG?
16 A. I moved to a company called Province, which was a,
17 generally, creditor advisory firm. They advise companies,
18 creditor committees that are in bankruptcy, as well as just
19 general trustee work so post Chapter 11 liquidating plans
20 usually had a trust and province did quite a bit of trust
21 work.
22 Q. What was your position and some of your
23 responsibilities while you were there?
24 A. I was a senior director. I, basically, was
25 involved in anything that dealt with real estate. So if

F. Chin - Defendant - Direct/Mr.Fields Page 5888

1 there was a financial advisory role Province had that
2 involved real estate, I was involved in that. If there was
3 some general litigation consulting work that was involved in
4 as well at Province.
5 Q. Did you provide expert testimony while you were at
6 province? And if so, do you recall what the instances were?
7 A. I didn't, ultimately, provide testimony. But it
8 was involving an involuntary bankruptcy and the
9 appropriateness of that filing. It was involving Master
10 planning --
11 MR. AMER: Can I just object, your Honor. I
12 think the answer was no. So, anything beyond that is
13 non-responsive.
14 THE COURT: Objection, sustained.
15 THE WITNESS: My apologies, your Honor.
16 MR. FIELDS: It was a bad question. Don't
17 worry. It is not your fault.
18 Q. Did you provide or any expert opinion work in
19 instances that did not result in testimony?
20 A. Yes.
21 Q. Okay. And, what were those?
22 A. It was involving the involuntarily bankruptcy of a
23 master planning community in Henderson, Nevada.
24 MR. AMER: Again, can we get a year for when
25 he went to Providence?

F. Chin - Defendant - Direct/Mr.Fields Page 5889

1 THE COURT: I was wondering myself.
2 When did you go to Providence?
3 THE WITNESS: 2015.
4 Q. Do you recall when you left Providence?
5 A. It was January 2018.
6 Q. Where did you go next?
7 A. I was appointed the CEO of Woodbridge Group of
8 Companies.
9 Q. Who were you appointed by?
10 A. I was appointed by a reconstituted Board of
11 Directors that was overseeing a company that had just filed
12 Chapter 11.
13 Q. What did Woodbridge do? Can you describe that a
14 little bit?
15 A. Well, Woodbridge was involved in many activities;
16 mostly, real estate investment. However, various state and
17 securities exchange commissions had concerns that there was
18 a Ponzi scheme being operated by Woodbridge. It was before
19 my arrival.
20 As a result of some of that and some liquidity
21 issues, the company filed for bankruptcy in December 2017.
22 The debtor and, alleged, perpetrator of the Ponzi scheme
23 remained in place.
24 Through the Court hearings, there was actions to,
25 basically, replace him with a Chapter 7 Trustee, which was a

F. Chin - Defendant - Direct/Mr.Fields Page 5890

1 liquidation. The Judge had, basically, authorized a total
2 removal of the debtor, reconstitution of the Board of
3 Directors.
4 And a new reconstituted Board was put in place. I
5 was interviewed to be the CEO to guide the company through
6 bankruptcy and out of it. And, I was appointed to the CEO
7 position in January of 2018.
8 Q. What were some of your responsibilities as CEO?
9 A. Well, besides the normal Chapter 11
10 responsibilities of providing all the creditor
11 constituency's information about the company, more
12 importantly, there were 200 pieces of real estate that
13 needed to be planned and organized in how they would be
14 disposed of.
15 And, I was responsible for, essentially,
16 formulating the reorganization plan and more specifically
17 the action plans of how the real estate was going to be
18 handled through the bankruptcy and after.
19 Q. Could you just, generally, describe what steps you
20 took to determine what to do with these 200 or so assets?
21 A. Yes. I went through and looked at asset, which
22 were concentrated in Colorado and California. I looked at
23 what their status was. Much of the land was planned for new
24 luxury homes.
25 And I went through and, essentially, established

F. Chin - Defendant - Direct/Mr.Fields Page 5891

1 business plans for each asset, which was either to sell as
2 is or to develop and construct the home and then sell it
3 later.
4 And then, not only devise the plan, determine what
5 the economics might be. And then, also to implement the
6 plan. So, have the appropriate staff and organizational
7 structure to support that as well as manage the cost of
8 construction during that process.
9 Q. What are some of the considerations that you
10 undertook in determining whether to sell an asset as is or
11 to develop it and sell it later?
12 A. In every situation I looked at what I thought the
13 sale price might be. So I looked at "Is there the
14 appropriateness to sell now and minimize the risk?" Or "Was
15 there a certain amount of risk that could be undertaken that
16 might maximize the recovery to the 9,000 victims of the
17 Ponzi scheme."
18 So, many cases, I decided that the finished value,
19 minus its cost, would yield much greater than selling the
20 property as is.
21 Q. What sorts of properties were involved in these
22 200 or so?
23 A. The composition included lots, finished lots, that
24 were available for development; land that was entitled for
25 certain construction of larger luxury single family homes

F. Chin - Defendant - Direct/Mr.Fields Page 5892

1 and homes that were under construction that were again
2 luxury homes.
3 Many of the properties, namely about 50, were
4 relocated and concentrated in LA in some of the highest
5 value areas available. So, Bel Air, Beverly Hills,
6 Hollywood Hills, Hidden Hills, all prime locations in the
7 Southern California, Los Angeles area. And, many of the
8 properties were very valuable.
9 The company had acquired, prior to my arrival, a
10 property that was almost a 100 million dollars in
11 acquisition price.
12 Q. How was the bankruptcy, ultimately, resolved?
13 A. So, we exited bankruptcy. We had sold off
14 various assets. The plan that I had designed was a
15 self-funding one. So, it didn't require further risk to the
16 victims of the Ponzi scheme.
17 And, I managed to, essentially, monetize all its
18 assets. So, I did 125 plus transactions that yielded or
19 grossed about 700 plus million dollars. That was,
20 ultimately, distributed to the trust, which, ultimately, got
21 distributed to the victims of the Ponzi scheme.
22 Q. Did you continue working there after the
23 conclusion of the bankruptcy?
24 A. Yes.
25 Q. In what role?

F. Chin - Defendant - Direct/Mr.Fields Page 5893

1 A. The company exited bankruptcy in -- I believe it
2 was 2019. And I continued to operate the company, as a CEO,
3 until I left and finished my job in December of 2022.
4 Q. And what was your involvement?
5 From the exit of bankruptcy in 2019 to 2022, what
6 were some of your responsibilities?
7 A. I was responsible for all the operations of the
8 company. Additionally, we changed from private company to a
9 public reporting company. So we had to deal with all that
10 structure to basically be SEC compliant.
11 Besides that, it was the normal operations of
12 making sure the homes were constructed in a certain style to
13 maximize value, that we were on time and on budget and then,
14 also negotiating all the transactions involved in the sale
15 of the properties that were available for sale.
16 Q. Did your experience in the liquidation of the
17 Woodbridge Properties include the sale of a rent stabilized
18 unit?
19 A. Yes.
20 Q. And where was this unit?
21 A. Upper East Side.
22 Q. Of New York City?
23 A. New York City. My apologies. Yes.
24 Q. Did you, ultimately, sell the rent stabilized
25 unit?

F. Chin - Defendant - Direct/Mr.Fields Page 5894

1 A. We did.
2 Q. Do you recall when?
3 A. I believe it closed earlier this year. It was
4 negotiated during my time at -- when I was a CEO.
5 Q. How were you able to execute the sale of a rent
6 stabilized unit?
7 A. Well, leading up to the sale, beforehand, I
8 evaluated our options. So, one was to sell the unit with
9 the tenant in place.
10 And, we had gotten, essentially, indications of
11 value that with the tenant in place it was worth maybe 150
12 or \$200,000.
13 The tenant had been there for decades. And, there
14 was indications that they were already planning to transfer
15 it to siblings or others. So there was a concern about how
16 long they may be in place.
17 At the same time, we looked at the value of the
18 unit as if it was unencumbered. And, that number was well
19 over \$2 million. So we had a spread there.
20 We decided, with the approval of the Board of
21 Directors, to try to buyout the tenant and then, liberate the
22 unit so it could be sold in the open market.
23 After some period of time, we were able to
24 negotiate that. We, basically, negotiated a buyout of the
25 tenant for a little over half a million dollars. We got

F. Chin - Defendant - Direct/Mr.Fields Page 5895

1 full releases. She left the unit. And then, we put the
2 unit on the market.
3 It was immediately put into escrow. And, we ended
4 up selling that unit for a little less than \$2 million. So,
5 our net was, I think, after cost, somewhere around a million
6 three or a million five after the buyout price.
7 So instead of being realizing what it would have
8 been if we just sold it as is, versus working through that
9 process, and putting a little money into it, we were able to
10 cover, significantly, more.
11 Q. At the time of the sale, was the unit still
12 encumbered by the rent stabilization?
13 A. No.
14 MR. AMER: You mean, after the sale closed?
15 I'm sorry. I didn't understand the question.
16 Q. Did the new owner of the property have a rent
17 stabled or non-rent stabilized property on their hands?
18 A. The owner had it free and clear. And, they were
19 going to move in.
20 MR. AMER: So after the close. I got it.
21 THE COURT: I'm sorry. Say that again?
22 MR. AMER: So, after the closing. That's
23 what I understood.
24 THE COURT: I think we, probably, all
25 understand there was a buyout and the rent regulated

F. Chin - Defendant - Direct/Mr.Fields Page 5896

1 tenant left and then it was an unregulated apartment.
2 THE WITNESS: Thank you.
3 Q. Okay. Mr. Chin, just to get my bearings here, I
4 think you said you left Woodbridge in late last year,
5 December of 2022?
6 A. Correct.
7 Q. And where did you go next?
8 A. I went back to my old personal firm CPG Advisors
9 and was going to figure out what the next assignment was
10 going to be.
11 Q. Is that where you are now?
12 A. Yes, it is.
13 Q. In terms of professional employment, not literally
14 where you are right now. But --
15 A. Yes.
16 Q. All right. Do you also do some work for Ankura?
17 A. This assignment. And, I do other work, some work
18 subcontracting work for Ankura.
19 Q. Just generally, what are some of your
20 responsibilities or tasks you've taken on now with CPG?
21 A. Ankura had been hired to help a bank evaluate its
22 assets for possible sale. There was a default by a borrower
23 and they had asked Ankura to evaluate its options. And I
24 was asked to look at one of those assets.
25 Q. All right. Are you also doing some work for

F. Chin - Defendant - Direct/Mr.Fields Page 5897

1 Providence again?
2 A. I am.
3 Q. What kind of work are you doing for them now?
4 A. Province is a financial adviser to one of the
5 creditors. It's involved -- this particular assignment
6 involves a portfolio of real estate. I am the real estate,
7 I guess if you will, expert or adviser regarding how the
8 real estate is handled in the bankruptcy.
9 Q. All right. Are you involved in the sale process
10 of a portfolio of properties, right now, through your
11 employment with Province?
12 A. I am.
13 Q. Is that in bankruptcy?
14 A. Yes, the company is in bankruptcy.
15 Q. What's going on with some of those properties
16 right now?
17 A. Well, this was a closure of a company. I can't
18 discuss what the company is. But, I can give you general
19 description. They are liquidating, approximately, 170
20 properties across United States.
21 They, as part of that -- to repay the creditors.
22 And as part of that analysis or part of that liquidation
23 they had gotten appraisals on all 170 assets that are
24 located across almost all 50 states.
25 The appraisal was done by national firm. That

F. Chin - Defendant - Direct/Mr.Fields Page 5898

1 national firm, I think, had 40 plus appraisers valued in its
2 portfolio.
3 Q. And what were the ranges, if any, that the
4 portfolio was appraised at?
5 A. It's been publically reported in -- I don't want
6 to breach confidences. But, the appraised value was,
7 approximately, 1.1 billion. But there was also another
8 valuation provided by the firm which was just under
9 900 million, which reflected -- it wasn't characterized as
10 this, as a liquidation value, but it was called a "go dark"
11 value; meaning, that the owner would vacate the premises and
12 what would be the value as if nothing was there. So it was,
13 basically, 900 million to a billion one was the appraised
14 value.
15 Q. Had there been any bids for these properties?
16 A. Yes, there have been.
17 Q. Where have the bids fallen in terms of value?
18 A. There have been stalking horse bidders that,
19 initially, were, approximately, 1.3 billion and now we're up
20 to about a billion 525 is a stocking horse Court-approved
21 bid for the same set of assets.
22 Q. And the appraised value, what type of value did
23 the appraisal appraise -- or the appraisals I should say?
24 A. The appraisals were all based on market value.
25 Q. So Mr. Chin, overall, about how long have you been

<p>F. Chin - Defendant - Direct/Mr.Fields Page 5899</p> <p>1 working in the real estate valuation industry? 2 A. Over 40 years. 3 Q. I'd like to talk to you, for a moment, about some 4 of your designations. 5 Do you hold any professional designations? 6 A. I do. 7 Q. Can you describe some of them? 8 A. I hold the MAI designation. I hold the CIRA, 9 Certified Insolvency Restructuring Adviser, designation; 10 CTP, Certified Turnaround Professional and CRE, Certified 11 Consultant of Real Estate. 12 Q. Counselor of Real Estate maybe. 13 A. Counselor of Real Estate. Thank you. Sorry. 14 Q. Let start with the MAI. What is a MAI 15 designation? 16 A. It's issued by the appraisal institute of 17 professional organization. It's based on scope of work and 18 experience levels, various reports that are reviewed by your 19 peers, passing and attending classes all in appraisal and 20 then being awarded that designation. 21 (Whereupon, the following proceedings was 22 stenographically recorded by Deborah Rothrock.) 23 24 25</p>	<p>-F. Chin-Defendant-Direct-by Mr. Fields- Page 5901</p> <p>1 consulting or other type of experience. 2 Q In terms of the appraisals that you have performed 3 yourself, you had mentioned it earlier, about how many have you, 4 appraisals have you done in your career? 5 A Probably a couple thousand. 6 Q What sorts of properties have you appraised? 7 A All of the major property types, so that would be 8 industrial, office, retail, residential, several special purpose 9 preponderance, if you will, fire station, church or cemetery. 10 Some of those types, but generally all property types. 11 Q Have you done hotels? 12 A Yes, I have, yes. 13 Q And golf courses? 14 A Yes. 15 Q How many times, if you could approximate, have you 16 testified as an expert witness at trial? 17 A Probably 25 or so. 18 Q And based on your time in the industry, how would you 19 describe the importance of the interplay between real estate 20 valuation, market analysis and market operations? 21 A The tools of real estate valuation is used in so many 22 different regards of real estate. Developers use valuation 23 tools, restructuring professionals use real estate valuation 24 tools. As an operator you're also trying to determine whether 25 you're maximizing value and value is measured there. It is an</p>
<p>-F. Chin-Defendant-Direct-by Mr. Fields- Page 5900</p> <p>1 Q About how long have you been a member The Appraisal 2 Institute? 3 A Since 1984. 4 Q You also mentioned you are certified as an insolvency 5 and structure advisor? 6 A Yes. 7 Q What is that? 8 A That is another professional organization that deals 9 solely in, generally bankrupt situations, restructuring 10 situations. Here it is based upon their regimen of class test 11 which deal in law, finance and management. It is based on years 12 of experience and between the testing and the experience they 13 accord the CIRA designation. 14 Q And you mentioned CTP, which I believe Certified 15 Turnaround Professional? 16 A Yes, correct. 17 Q What is that? 18 A That is another designation like the CIRA that is 19 awarded to people with experience in restructuring. I think it 20 is, in this case, I've been doing it for the last decade or more 21 and based upon testing. 22 Q And lastly, the Council of Real Estate, how did you 23 obtain that? 24 A That is by invitation only and I believe the minimum 25 requirement is at least ten years of some sort of real estate</p>	<p>-F. Chin-Defendant-Direct-by Mr. Fields- Page 5902</p> <p>1 integral tool. It's used every which way in the real estate 2 industry done by developers, investor, lenders, all sorts of 3 purposes for real estate valuation and having valuation tools. 4 They're so interrelated. You could, in my opinion, you can't 5 separate them without knowing the other aspects. 6 Q All right. We talked a little earlier about your time 7 about accounting firms. I would like to ask questions regarding 8 your experience specifically with accounting. 9 First of all, are you an accountant? 10 A No, I'm not an accountant. 11 Q Could you describe your understanding of accounting 12 principles? 13 MR. AMER: Objection. Lack of foundation. 14 Relevance. 15 THE COURT: Vague. I don't understand. 16 You asked him basically to explain accounting after 17 he just said he's not an accountant. 18 MR. FIELDS: I asked about his understanding of 19 accounting principles. 20 THE COURT: Subtle distinction. 21 What is your understanding of accounting? Don't 22 you go to school for eight years to become an accountant? 23 MR. FIELDS: Certainly at a high level. I'm trying 24 to establish so that the Court understands where Mr. Chin is 25 coming from with regard to, if there's any cross-examination</p>

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5903

1 on accounting. If there's not going to be anything, I'll
2 move on.

3 MR. AMER: So, I don't understand the relevance of
4 asking someone who is not accountant what their
5 understanding is of the field. You might as well ask: What
6 is your understanding of neurosurgery is for all its worth.

7 THE COURT: I think that is a little far off.
8 Sustained.

9 MR. FIELDS: I assume there will be no
10 cross-examination at all of accounting principles, or
11 anything of the sort?

12 MR. AMER: I am not going to agree to anything in
13 advance of hearing what the witness will testify to.

14 MR. FIELDS: I don't know that that's fair, your
15 Honor. He's saying that he can't opine on -- he can't
16 mention what he knows about accounting then I think it is
17 not fair to be asked anything about accounting.

18 MR. AMER: You could make that objection if I ask
19 him about that. I'm not agreeing in advance to anything.
20 That is not an appropriate thing to ask.

21 THE COURT: Now the question is: What is the
22 understanding of accounting? What does he understand about
23 accounting?

24 MR. FIELDS: I'm asking his general understanding
25 of the accounting world and accounting principles. He's

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5904

1 worked at an accounting firm. I wanted the Court to
2 understand what he knows just generally about accounting,
3 that's all.

4 THE COURT: Is there still an objection?
5 MR. AMER: Yes, it's incredibly vague.
6 THE COURT: Sustained. This is ridiculous.
7 MR. FIELDS: Okay.
8 (Continued)
9 DIRECT EXAMINATION:
10 Q Have you worked with accountants throughout your
11 career?
12 A Yes. Particularly during my time at Kenneth Leventhal
13 & Company and Ernst & Young.
14 MR. AMER: It's been asked and answered too.
15 THE COURT: By the way, you asked how many times
16 he's testified as an expert. The first time he said
17 "something like 25 at least, or 25 plus." The second time
18 he said "around 25". So that was asked and answered.
19 Anyway, let's get back to the current topic.
20 You asked if he's been around accounting work or
21 familiar with it.
22 MR. FIELDS: I asked if he had worked with
23 accountants through his career.
24 THE COURT: Okay.
25 MR. AMER: Asked and answered. We have heard

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5905

1 almost an hour of testimony about his background, more than
2 an hour. In many instances he's testified about the work
3 he's done in accounting firms as a member of a team where an
4 accounting partner was part of the team. We've done through
5 this already.

6 THE COURT: Sustained. Objection sustained.
7 MR. FIELDS: May I have a moment, your Honor,
8 please.
9 THE COURT: Sure.
10 (Whereupon, there is a pause in the proceedings.)
11 (Continued)
12 DIRECT EXAMINATION:
13 Q To the extent you were ever confronted with an
14 accounting issue, who would you rely on for advice?
15 A I would rely on the experts and people designated in
16 the firm that dealt with accounting matters.
17 Q All right.
18 MR. FIELDS: Your Honor, I move to qualify Mr. Chin
19 as an expert relating to real estate valuations, market
20 analysis and real estate operations.
21 THE COURT: Let me write this down. Real estate
22 valuations.
23 MR. FIELDS: Market analysis.
24 THE COURT: Can that be more specific? Can we say
25 real estate market analysis?

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5906

1 MR. FIELDS: Yes.
2 THE COURT: And the third thing, real estate --
3 MR. FIELDS: Real estate operations.
4 MR. AMER: I have no objection to first designation
5 real estate valuation. I do object to the other two. I
6 think they're incredibly vague. I don't know that his
7 experience goes beyond just real estate valuations.
8 MR. FIELDS: I think, as Mr. Amer just noted,
9 eloquently, we spent an hour talking about his experience
10 developing properties, managing portfolios, determining when
11 to sell or hold assets.
12 I think that is all covered within market analysis
13 and operations, as well. I think that is totally
14 appropriate for this witness to be qualified in that
15 respect.
16 THE COURT: Granted.
17 MR. AMER: I was going to make a suggestion. I
18 think the two areas, real estate market analysis and real
19 estate operations are just incredibly broad. If it's
20 confined as to real estate valuation, I would be okay with
21 it.
22 THE COURT: Deem an expert. Overruled. I deem him
23 an expert in all three areas.
24 (Continued)
25 DIRECT EXAMINATION:

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5907

1 Q All right. Mr. Chin, I am going to ask any opinions
2 you give in this case you give to reasonable degree of certainty
3 based upon your experience in the fields that you've worked in.
4 Okay?
5 A Yes, I understand.
6 THE COURT: You might have to talk louder.
7 THE WITNESS: Sorry, my apologies.
8 THE COURT: Five-minute warning.
9 (Continued)
10 DIRECT EXAMINATION
11 MR. FIELDS:
12 Q Did you have the occasion to review the Attorney
13 General's Complaint in this case?
14 A Yes.
15 Q When you reviewed the complaint, did you review the
16 exhibits that are attached to it as well?
17 A Yes.
18 Q And as part of those exhibits, did you review the
19 Statements of Financial Condition and supporting data
20 spreadsheets that were attached?
21 A Yes.
22 Q Did you form an opinion regarding what the Attorney
23 General's theory of valuation was after reading the complaint?
24 MR. AMER: Objection.
25 THE COURT: I'm not sure the theory of valuation,

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5908

1 does the Attorney General have a single theory of valuation?
2 What were you going to say?
3 MR. AMER: I think the opinions need to be tied to
4 the evidence that we put in on our case. And not just to
5 what is stated in the complaint where we have not put in
6 evidence in our case.
7 As the Court knows, we've truncated our case based
8 upon the Court's summary judgment ruling.
9 THE COURT: I don't -- this is another one of the
10 times when I'll sustain the objection on different grounds.
11 I don't understand.
12 Mr. Fields, could you explain what that question
13 means?
14 MR. FIELDS: Sure. It's understanding his
15 impression about what the allegations are with regard to
16 valuation. That is what the question is getting at from his
17 perspective as an expert in real estate valuations.
18 THE COURT: What the allegations are?
19 MR. FIELDS: Yes. In addition to that, citing to
20 the evidence that is cited in the complaint, not just the
21 words, but also the evidence that is included as part of the
22 complaint which have now been moved into evidence in this
23 case.
24 MR. AMER: That goes to the point of my objection,
25 your Honor.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5909

1 THE COURT: State it again, please.
2 MR. AMER: They're going to offer opinions about
3 the complaint, not about the evidence we have put in on our
4 case. And I think it is appropriate for the expert's
5 testimony to address what we're putting in in terms of
6 evidence and theories on our case in chief.
7 MR. FIELDS: I think it is equally permissible for
8 an expert to testify about why the theories that are being
9 argued to this Court are plausible, implausible, accurate,
10 inaccurate, reasonable or unreasonable. That is what we're
11 getting at.
12 THE COURT: How about if we did this, let me try
13 for a second.
14 You said you read the complaint?
15 THE WITNESS: Yes, sir.
16 THE COURT: And you read the exhibits?
17 THE WITNESS: Correct.
18 THE COURT: Which were the background, backbone of
19 the complaint, right?
20 THE WITNESS: Yes.
21 THE COURT: And do you understand what I'll call
22 the theories of the complaint?
23 THE WITNESS: I believe so, yes.
24 THE COURT: Okay. And do you think -- I think this
25 is Mr. Fields' question but more direct: Do you feel that

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5910

1 the evidence sustains the theories?
2 THE WITNESS: No, I don't.
3 THE COURT: Okay. Next question.
4 Did that do the trick Mr. Fields?
5 MR. FIELDS: I suppose if I could ask why not as
6 follow-up.
7 THE COURT: Yes.
8 (Continued)
9 DIRECT EXAMINATION:
10 Q Why not?
11 A It is my opinion that there are different perspectives
12 of value. That the Attorney General has a perspective of what
13 must be reported and the owner, Trump's financials have a
14 different perspective of value.
15 Q And in terms of perspective of value, is that something
16 you're familiar with based upon your 40 years in the industry?
17 MR. AMER: Objection.
18 THE COURT: Sustained. Leading.
19 Q Have you encountered these perspectives of value in the
20 past?
21 A Yes.
22 Q In your experience?
23 A Yes.
24 Q How frequently or infrequently do you encounter them?
25 A Frequently.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5911

1 Q And why?

2 A There are many, many reasons why appraisal information

3 either lags or is incongruent with the way the market works.

4 Number one, most or all appraisal information is

5 retrospective. It is based upon historical transactions that

6 have occurred in perhaps a different market environment than as

7 of date of appraisal.

8 One example would be appraisals lag when markets are

9 going up, and they lag when markets go down. They either

10 overstate or overvalue, particularly in those situations where

11 market cycles are more pronounced.

12 The appraisal process in general is governed by a

13 certain set of rules that appraisers must follow that often

14 times differ than, if you will, the free market. Investors,

15 individuals may have perspectives of value. It is not to say

16 the appraisal process is inherently wrong, but it tends to

17 normalize a lot of potential nuances that are influential on

18 value estimates.

19 I think those two things are prominent in my mind of

20 why there's a pretty big divergence between appraisal estimates

21 and the actual market test of what properties are really worth.

22 THE COURT: Okay. See you all the 11:40.

23 (Whereupon, a recess taken.)

24 THE COURT: Mr. Fields, would you like to continue.

25 MR. FIELDS: If I may.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5912

1 THE COURT: Please.

2 MR. FIELDS: Thank you.

3 (CONTINUED)

4 DIRECT EXAMINATION

5 BY MR. FIELDS:

6 Q Okay. Mr. Chin, let me just ask you first: At what

7 rate are you being compensated for your work in this case?

8 A \$550 an hour.

9 Q Do you have a sense for how many hours approximately

10 you've spent on this engagement to date?

11 A Probably about a thousand.

12 Q And is your compensation conditioned on any opinion you

13 give in this case?

14 A No.

15 Q All right. Have you heard the terms "as is" and "as

16 if" value before?

17 A Yes.

18 Q Could you describe them, please?

19 A "As is" generally connotes to a condition that exists

20 at the time, a specific date, generally often times referred to

21 as market value.

22 "As if" is a condition that will be expected to be --

23 expected to be completed or expected to be received either kind

24 of a hypothetical condition that might exist in the future.

25 Q Could you give an example of what such hypothetical

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5913

1 condition might be?

2 A One might be a partially completed home that is assumed

3 to be completed as of a certain date, that would be an "as if"

4 analysis. Of a land development, if there was a raw piece of

5 land it was going to be converted with a golf course and

6 residential lots around the golf course, looking at its future,

7 assuming that was completed that would be and "as if" value.

8 Q Is there another way to do so "as if" values?

9 A Yes.

10 Q What is that way?

11 A Could be considered an investment value.

12 Q From your review of the complaint and the exhibits, did

13 you form an opinion with regard to "as is" or "as if" valuations

14 with regard to the valuations that were described in the

15 complaint?

16 A Yes.

17 Q And what is that?

18 A There were differences of perspective of whether "as

19 is" or "as if" valuations would apply.

20 Q And what were some of those differences of perspective

21 that you're mentioning?

22 A In the Trump financial statements there are many

23 situations and instances where to be completed or expected to be

24 received was included which would be an "as if" situation in

25 perspective.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5914

1 That differed many times from the perspective of "as

2 is" values that were argued in the AG's complaint.

3 Q And you mentioned the term "appraisals."

4 From your review of the documentation, what type of

5 value did the appraisals describe?

6 A Appraisals commonly refer to the "as is" value.

7 Q Now, there are different types of "as if" values?

8 A Yes.

9 Q What are some of those different types?

10 A One comes to mind would be if a building is partially

11 completed or planned to be constructed that would be and "as if"

12 completed value.

13 If a property is just opened and it is scheduled or

14 hoped to be leased up over time, there's the "as if" occupied

15 valuation.

16 If a proposed roadway was going to affect a property,

17 one might value "as if" the roadway is completed and done. And

18 value would be performed "as if" completed.

19 THE COURT: Just a second. The question was: Are

20 there different types of "as if" values, something like

21 that, I don't have it in front of me.

22 But you gave to me examples of "as if" values not

23 different types of "as if" values, am I right?

24 MR. FIELDS: I think I asked what are some types

25 "as if" values.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5915

1 THE COURT: I would call these examples more than
2 different types, but okay, we understand each other.
3 (CONTINUED)
4 DIRECT EXAMINATION:
5 Q All right. In terms of an appraiser's perspective, how
6 do appraisers when doing market value appraisals, how do their
7 perspective affect the ultimate value of the property?
8 A It is very influential. It is the analysis, the
9 beliefs, the perspective of appraiser that goes into how they
10 interpret sales or projected income that might be received or
11 occupancy or essentially the direction of the market if it is
12 increasing or decreasing.
13 Q And what sorts of information do appraisers generally
14 look to in arriving at a value conclusion?
15 A The value conclusions are grounded in historical
16 information. So what has transpired in terms of economic growth
17 or sales that have been transacted as opposed to listings or
18 offers to purchase. They rely on those facts and put those
19 pieces together to formulate their perspective of a property.
20 Q In your experience do developers typically have a
21 different perspective?
22 MR. AMER: Objection. Leading.
23 THE COURT: Sustained.
24 MR. FIELDS: Do developers have a different
25 perspective?

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5916

1 MR. AMER: Yes, leading.
2 MR. FIELDS: Foundational question.
3 THE COURT: You can ask what is their perspective
4 and their perspective, appraisers versus developers.
5 MR. FIELDS: Okay.
6 Do developers' perspective differ from an
7 appraiser's perspective, is that an appropriate question?
8 THE COURT: No, because it is a yes or no question.
9 MR. FIELDS: Well, I have to ask some foundational
10 questions to be able to --
11 THE COURT: I suggested what is the perspective of
12 an appraiser and what is the perspective of a developer.
13 Q What is a perspective of a developer?
14 A Unlike appraiser, they are focused on future
15 performance.
16 Q What do you mean by "focused on future performance"?
17 A They're less reliant on the history or those pieces of
18 information that have already transpired and more focused on how
19 markets or properties may evolve. And looking at really a
20 forecast or projections of what might occur as opposed to the
21 appraisal process which is much more geared towards
22 retrospective analysis.
23 THE COURT: Wait a second. I don't -- you're the
24 expert. But I don't think of appraisers as doing
25 retrospective analysis, they're not trying to figure out

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5917

1 what is property is worth five years ago, am I correct that
2 you're trying to figure out what is property is worth right
3 now, though, two weeks later it is in the past.
4 THE WITNESS: You're partly right, your Honor, but
5 at the same time it is reliant on retrospective data.
6 Sales --
7 THE COURT: That is the only data we have, right?
8 THE WITNESS: Correct. But there's also
9 projections and anticipation that other people
10 prognosticate.
11 THE COURT: I'm in uncharted territory here but
12 is there something called a prospective appraisal or is that
13 what "as if" is?
14 THE WITNESS: Yes, many people characterize that as
15 prospective or projected, forecasted, those types of terms.
16 THE COURT: Thank you.
17 (CONTINUED)
18 DIRECT EXAMINATION:
19 Q On that note, do -- the perspective appraisals, what
20 are those called?
21 A Often times they're characterized as "as if".
22 Q In your career, are those frequently created by
23 appraisers or how often do you come across those is what I am
24 asking?
25 A They come across occasionally. Particularly if a

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5918

1 building is proposed so as opposed to valuing it with partially
2 completed steel and partially completed materials, they look at
3 it "as if" it is finished and "as if" it is leased.
4 It is a relevant point for a lending institution about
5 what its terminal value, if you will, or future "as if" value
6 might be. Those are common in new construction, common in
7 proposed projects, common in partially completed projects.
8 (Whereupon, Cheryl-Lee Lorient relieved Deborah
9 Rothrock as the official court reporter.)

F. Chin - Defendant - Direct/by Mr. Fields Page 5919

1 Q. How will you know, by picking up an appraisal,
2 whether it's "as is" or "as if?"
3 A. The appraisal should be very clear. I believe
4 even FIRREA, the Federal Institution -- I'm not sure --
5 Reform Recovery, better known as F-I-R-R-E-A, I believe
6 mandates that there is "as is" appraisals and there could be
7 other variants besides "as is" that's reported.
8 Q. Are you familiar with the term value creation?
9 A. Yes.
10 Q. What is that?
11 A. It's at phrase that -- common in the development
12 industry -- that they are or a developer is going to
13 undertake certain activities to differentiate or create an
14 environment or end product that may be a typical or
15 different in the marketplace and that there is a value
16 increment above and beyond that could be received by
17 creating a value.
18 The best example, as I mentioned before, is taking
19 a raw piece of land and proposing a golf course -- land
20 that's for a luxury housing. And in that particular case,
21 by developing that and believing that there's market demand,
22 that, they created value that others may not, necessarily,
23 see on that vacant land.
24 THE COURT: I just want to pindown my
25 understanding, the difference between "as is, as if."

F. Chin - Defendant - Direct/by Mr. Fields Page 5920

1 It you have a large vacant lot, in the middle of
2 New York City or Los Angeles, and there are no zoning
3 restrictions, you can build the best hotel in the world
4 or whatever or office building, what would you consider
5 the "as is" value?
6 Is it nothing because it's doing nothing, you
7 get no rent next day or do you think "Well, it's going
8 to be a great hotel someday." But then, isn't that the
9 "as if" value.
10 So, what's the "as is" value of a vacant lot,
11 no zoning restriction, in the middle of the city. You
12 can make up an arbitrary number.
13 THE WITNESS: It would be as it sits today
14 as is available for all sorts of uses. So, just a
15 vacant land.
16 THE COURT: So what's -- is the value zero
17 or \$500 million?
18 THE WITNESS: It might be 500 million.
19 THE COURT: But isn't that the same as the
20 "as if" value?
21 THE WITNESS: No. The "as if" would be
22 considering that a construction or hotel would be
23 constructed, what its economic potential might be and
24 based upon that use and that construction, assuming it
25 was all done, what that might be. So, it would be, at

F. Chin - Defendant - Direct/by Mr. Fields Page 5921

1 least, construction cost, plus the value creation above
2 a land value that might be an "as if" value.
3 THE COURT: All right. So again, using
4 arbitrary numbers, what's the "as is" value of the
5 vacant lot, unrestricted lot.
6 THE WITNESS: So in that case, 500 million.
7 THE COURT: Okay.
8 THE WITNESS: And "as if" might be two
9 billion.
10 THE COURT: Okays. That's the difference.
11 Well, are you adding a factor -- I'll call it, the
12 genius factor. It would be worth 500 million. But, if
13 a genius owns, it's now worth 2 billion?
14 THE WITNESS: Generally, in those "as if"
15 appraisals, it's not, per say, specific to an
16 individual. It's based on if it were done today, what
17 would the economics look like as if it were done. And
18 that is that "as if" value.
19 THE COURT: Then why are you giving any
20 values to the "as is?"
21 THE WITNESS: Well, in that situation, it
22 could be, somebody might have a different plan for it
23 and say, "I want to build an office building." That
24 might yield a different "as if" number.
25 THE COURT: All right. So, depending upon

F. Chin - Defendant - Direct/by Mr. Fields Page 5922

1 the intelligence, if you will, of the plan, it could be
2 worth 500 million or two billion.
3 THE WITNESS: Yes.
4 THE COURT: I think we've heard investment
5 value. Is that what the as -- you know, I think you've
6 said that. But that's, basically, the same thing as
7 "as if."
8 THE WITNESS: Yes.
9 THE COURT: Okay. Thanks. I understand
10 much better now.
11 Q. So perhaps, as a corollary to that, just to clear
12 it up, frankly, for myself, in a situation where there's 500
13 million for the vacant plot of land, that 500 million, what
14 does it represent?
15 What is worth \$500 million if that situation?
16 A. In that case, given the appraisal lease it's the
17 highest and best use. So, it could be used for multiple of
18 uses subject to its zoning and other allowable things.
19 So it may not be just a hotel. It might be an
20 office, it might be a retail complex, it might be a
21 specialty convention center. It could be a variety of
22 things.
23 Q. But the bottom line is, the land, itself, is the
24 value in that situation?
25 MR. AMER: Objection, leading.

F. Chin - Defendant - Direct/by Mr. Fields Page 5923

1 THE COURT: Sustained.

2 Q. In the situation that the Court was describing,

3 where there's a vacant plot of land in the middle of

4 New York City, and we threw around the term -- the figure --

5 \$500 million, does that figure represent with something

6 constructed on it, if it's market value or just vacant land

7 that could sell vacant?

8 MR. AMER: Objection, leading.

9 THE COURT: I'll let him.

10 MR. AMER: He could just ask "What does it

11 represent," and let the witness tell us what he thinks

12 it's representing as opposed to giving him two options

13 that he gets to choose from.

14 THE COURT: Well, you're right. That's

15 leading. Okay. Sustained.

16 You can't ask "Isn't A the same as B," you

17 can't ask "Isn't A the same as B or C." It doesn't

18 matter how many possibilities you're giving. It's

19 still leading.

20 MR. FIELDS: All right. Let me come at it

21 from a different direction.

22 Q. So, we talked about the vacant plot of land, in

23 middle of New York City, being worth \$500 million as what

24 we'll call market value.

25 And then we also talked about developing something

F. Chin - Defendant - Direct/by Mr. Fields Page 5924

1 on that same vacant plot of land and we said that it could

2 be worth a billion and a half or two billion dollars.

3 What are the differences in value reflecting for

4 those two situations?

5 THE COURT: That sounds like the old joke

6 about what's the difference between an old penny and a

7 new dime? Nine cents.

8 Mr. Fields, you asked is the value in the "as

9 is" only about just the value of the land. I would

10 say, it can't be just the value of the land because, it

11 wouldn't generate any income.

12 Isn't it assuming that there'd be some type

13 of building or development just not a genius building?

14 THE WITNESS: Yes. The land is available

15 for all sorts of types of uses based upon its zoning.

16 THE COURT: So, the use is what's value not

17 the land itself?

18 THE WITNESS: The uses and allowances create

19 the value of the land.

20 THE COURT: Okay. All right. Thanks.

21 Q. But the land, itself, possesses value independent

22 of whatever use somebody seeks for it?

23 A. Yes.

24 THE COURT: So, what if there is a zoning or

25 trust and estate's restriction middle of the city,

F. Chin - Defendant - Direct/by Mr. Fields Page 5925

1 could be a two billion hotel, could be 500 million

2 dollars office building but, you can't build anything

3 on it, what's the value of that.

4 THE WITNESS: Well, significantly less than

5 500 million. One would try to see, maybe in that

6 particular case, a hypothetical you mentioned, it might

7 be for a park, it might be just for a parking lot.

8 There may be a use for it and it would be valued as

9 such.

10 THE COURT: So let's assume, again,

11 arbitrarily -- as a parking lot, it might be worth 100

12 thousand.

13 THE WITNESS: Correct.

14 THE COURT: Something like that. As a park,

15 it's not worth anything to the owner if the

16 municipality is just going to let people play there,

17 right?

18 THE WITNESS: Yeah. And this gets a little

19 more nuanced. There's a value to the park or the

20 owner -- the municipality -- but there may be an owner

21 or that person who does own it. So there's some sort

22 of value to him.

23 But in your example, yeah, in municipal use

24 there is no public value if you will.

25 THE COURT: Well, there is no private value.

F. Chin - Defendant - Direct/by Mr. Fields Page 5926

1 There's a public value. But, it's not measurable.

2 THE WITNESS: Yeah. But, if you look at

3 this in combination, if somebody just said, "Well, just

4 give me your park because, it's not worth anything,"

5 there's a value to it.

6 THE COURT: Okay.

7 Q. Taking the Court's question regarding the piece of

8 land that you can't develop, how would the market value and

9 investment values differ for that piece of property that the

10 Court was just describing?

11 MR. AMER: Objection. I think it presents

12 they would differ. Can we just ask how they would

13 relate to each other.

14 THE COURT: Overruled.

15 A. Do you mind repeating that question.

16 Q. Sure.

17 THE COURT: Read back or you'll do it?

18 Q. Taking the Court's question regarding the piece of

19 land that you can't develop, how would the market value and

20 investment value different for that piece of proper that the

21 Court was just describing?

22 A. Well, the market value, in the case, could be

23 zero. And, to an owner, they believe it's, in their view,

24 it's worth a lot. There could be a significant difference.

25 Q. Why? Why could an owner think that?

F. Chin - Defendant - Direct/by Mr. Fields Page 5927

1 A. Could be for sentimental reasons because, it's
2 been in the family forever and -- or there may be
3 restrictions that I can't transfer this property no matter
4 what. You know, the extenuating circumstances. It may be
5 something that they had history with that property and they
6 just cannot let it go.

7 THE COURT: Well, that's a whole different
8 kettle of fish. Sentimental value? That's not any
9 kind of market value, right?

10 THE WITNESS: No, it's not, sir.

11 THE COURT: So, it's totally subject to
12 "Can't build. But, I love it. So, it's worth a lot to
13 me."

14 THE WITNESS: Yes.

15 THE COURT: Okay.

16 Q. How does the -- how do the restriction
17 is -- withdrawn.

18 How does whether or not the restrictions or can or
19 will continue into the future, how can that effect a
20 property owner's "as if" value?

21 A. Well, it is a limitation on the ability to, if you
22 will, maximize the utility of that property. So, if there's
23 a short duration, it limits the alternatives that could be
24 used for a property; especially, if they're going to plan it
25 and construct it and develop it.

F. Chin - Defendant - Direct/by Mr. Fields Page 5928

1 Obviously, the longer period of time that's given,
2 the more flexibility there is to consider options and
3 alternatives.

4 Q. You discussed, earlier, rent stabilization
5 restrictions.

6 Do you recall we were talking about that earlier?

7 A. Yes.

8 Q. Is that an example of what you were just
9 describing with regard to restrictions and holding something
10 for long term?

11 A. That would be an example. I think in the real
12 estate market, they think of the bundle of rights -- a whole
13 bunch of rights.

14 And if certain things are removed or there is
15 encumbrances or restrictions then that takes away certain
16 rights of a property owner that have to be considered.

17 Q. Going back to talking a little bit about
18 developers, what are some of the factors or considerations
19 that developers look to when determining an "as if" value
20 for an asset?

21 A. There are many. They might look at the market and
22 see that there is something that is not there that they
23 believe would have high demand, that, they could build and
24 construct.

25 They may see that the market cycle is going to

F. Chin - Defendant - Direct/by Mr. Fields Page 5929

1 improve and they believe that they want to take advantage of
2 that situation and build something that will be in high
3 demand when the market cycle continues, hopefully, to
4 improve.

5 They look at situations that could be an
6 underutilized property where they might envision something
7 that "I can do more with this than currently being done."

8 And, therefore, there's a creation of value that
9 if they exercise certain initiatives that, that value could
10 be substantial and better than what it would cost them to
11 buy and change.

12 Q. How, if at all, do the interest rates effect
13 developer's decisions to buy or sell real property?

14 A. Interest rates have a large bearing on several
15 aspects that effect an owner or developer. It is a cost of
16 capital.

17 Certainly, when cost or capital are higher,
18 interest rates increase. The obligations increase. And, it
19 may make a development less feasible. Because, it's going
20 to cost more in interest that doesn't result in a higher
21 property value.

22 Interest rates could and have effected
23 capitalization rates, the rates of returns that are expected
24 by buyers and sellers of property.

25 It does provide an indication as to the health of

F. Chin - Defendant - Direct/by Mr. Fields Page 5930

1 the economy. So if it's high interest rates, there's going
2 to be retraction, perhaps less demand, if you are a retail
3 building owner, that might curtail your retail sales. So
4 interest rates have a huge overall effect on the demand for
5 supply of and the pricing of real estate.

6 Q. Similarly how do -- how if at all does a
7 developer's experience or expertise effect their decisions
8 to evaluate property and the necessary -- withdrawn. Let me
9 withdraw that.

10 How, if at all, do the developer's experience and
11 expertise in real estate development effect what types of
12 property they invest in and the resulting values?

13 A. Developer's experience is extremely important,
14 from a standpoint, if they're particularly constructing.

15 Things don't oftentimes go as planned. And developers have
16 to make adjustments in terms of how they respond to that
17 market.

18 As commonly understood, real estate markets are
19 very cyclical. They go up, they go down, depending upon
20 various economic factors.

21 And, usually, the investors and owners who've been
22 through many cycles, understand more where people are, where
23 they are, in the investment cycle.

24 That might cause them to buy when other people are
25 selling and disposing of assets. It may give them an

F. Chin - Defendant - Direct/by Mr. Fields Page 5931

1 indication, when a market is peeking, that they might sell
2 at the top of a market.
3 I think that the more you've been in real estate,
4 the longer you've been in it, you're more sensitive to what
5 impacts how you create or make money versus someone who's
6 never developed, has a limited perspective and may not have
7 been subject to the vagaries of market cycles or changes in
8 demand or changes in interest rates or other things that
9 effect their profitability.
10 Q. Can a developers experience or expertise effect
11 that developers -- the manner in which a developer values
12 their properties "as if"?
13 MR. AMER: Objection, leading.
14 THE COURT: Sustained.
15 Q. How does a developer's experience or expertise
16 effect how that developer values their properties "as if"?
17 A. They're focused on trying to anticipate and
18 forecast where the market is headed. So, if they believe
19 too many buildings are being proposed, they may retract
20 their decisions to building or to undertake more
21 construction activities.
22 If they believe that pricing does not allow them
23 sufficient profit with having to take on more risks, they
24 may decide to withdraw or temporarily hold their development
25 activities.

F. Chin - Defendant - Direct/by Mr. Fields Page 5932

1 So, they're, usually, attuned to what they think
2 their projections are of the future and how that my impact
3 real estate demand and prices.
4 Q. How, if at all, do the projections you just
5 described effect assumptions used for "as if" values?
6 A. The assumptions are highly influenced by their
7 perspectives of the market.
8 Q. In your 40 years of experience, did you project
9 "as if" values for different types of property?
10 A. I have.
11 Q. How did you use those "as if" values?
12 A. Well, most notably, like in the Woodbridge
13 example, I had to project what the selling price of a
14 finished luxury home would be in the future, knowing that
15 it's going to take some time to construct it, build it,
16 maybe there is COVID and supplier issues.
17 But, I had to project what I thought the prices
18 were because, I had to disseminate that information to,
19 essentially, the victims of the Ponzi scheme. So they knew
20 what sort of recovery might be possible from a sell out of
21 these homes.
22 So, in all those cases -- and, there were fifteen
23 luxury homes that I had built in LA. As of 2018, I had to
24 project them in 2022, 2021 about what I thought those houses
25 would sell for.

F. Chin - Defendant - Direct/by Mr. Fields Page 5933

1 Q. How significant, in those instances, was current
2 market value appraisals?
3 A. They were irrelevant. Telling me what a property
4 is worth when I have a business plan to build and construct
5 a home that is underway -- I didn't care.
6 I was focused on how the market would respond,
7 where the market was headed, the potential demand for these
8 houses. So, I was very concerned about the "as if," if you
9 will, values. And I didn't care about the "as is" because I
10 wasn't selling. I'm not selling properties as it was.
11 Q. How old you describe the real estate market
12 conditions from a developer's point of view in the 2011 to
13 2019 years?
14 A. Very strong. It was a time -- I think about it as
15 before 2011 we had just had the greatest financial collapse
16 that occurred. So there was a total retraction of capital
17 for anything. And a lot of uncertainty.
18 I know this particular city has been hit very hard
19 because, it was a financial capital of, essentially, the
20 world. But, a lot of uncertainty.
21 Someone who understands real estate cycles would
22 see, "Okay. We had this condition in 2008. What a great
23 buying opportunity at some point in time." That the market
24 cycle would go backup.
25 So, what happened -- and it did happen -- as

F. Chin - Defendant - Direct/by Mr. Fields Page 5934

1 uncertainty decreased from that tragic situation of 2008,
2 markets started firming, prices started increasing, cap
3 rates started decreasing, valuations became greater and
4 higher as we moved on from 2011. Up until 2019, when we hit
5 kind of a high point in terms of the strength of the market
6 and we started entering an era of uncertainty.
7 That combined with a buildup of inventory that
8 happened, essentially, between 2016 to 2019, a lot of new
9 construction came on board. And it presumed that everything
10 would continue forward.
11 But then COVID hit. No one really knew how that
12 would effect demand. And then, now, we're in this situation
13 where we have massive uncertainty. We have an oversupplied
14 commercial real estate market and we're in another cycle.
15 Q. What type of value do developers generally rely on
16 when assessing a project's economic potential?
17 A. They -- and, I put myself in the same boat. They
18 are clearly focused on the future value, the "as if" value.
19 And, myself and others are hopeful that the market will
20 continue to be strong and bolstered but, we could be wrong.
21 Q. And how common is it for developers to use "as if"
22 values to project economic potential for a project?
23 A. Very common.
24 Q. How do developers differ from passive real estate
25 owners and investors in perceiving and managing risks?

F. Chin - Defendant - Direct/by Mr. Fields Page 5935

1 A. There's a significant difference between passive
2 owners and developers. It is all premised on construction
3 risks.
4 So you have construction risks which is the taking
5 on the risk of building something -- excuse me -- on time,
6 on budget. And, hopefully, the market will be strong enough
7 to demand the product you're building. That is risky.
8 A lot of times things do not go as planned. Costs
9 are overrun, the time it takes to build is too long or some
10 other factor happens.
11 Notwithstanding that during that construction
12 process, the market cycle could change, that, it could go
13 from being very strong to very weak as you're still under
14 construction.
15 Contrast that with a passive owner, which would,
16 generally, buy it today. They know what they have, they
17 don't have to undertake any sort of construction risk and
18 start producing income right off the bat if they own an
19 office building.
20 So, that construction period. And then, there's
21 the lease up, that, I have to fill my building once I build
22 it. So, massive risks in this "as if" scenario. But,
23 they're rewarded if they, essentially, bet right.
24 Q. What considerations go into a developer's decision
25 to sell an asset?

F. Chin - Defendant - Direct/by Mr. Fields Page 5936

1 A. A couple of things. One is, if they have to.
2 Sometimes for tax reasons. Or if they feel that market
3 pricing is so high that they need to take advantage of the
4 cycle; that, we're at top of market, they may project that
5 the market is not going to be as strong and, therefore, they
6 should say, "Wow, we can take our chips off the table and
7 then maybe wait for the next cycle."
8 Q. In your experience, do developers build, sell or
9 liquidate assets at a discount?
10 MR. AMER: Objection; leading.
11 THE COURT: Sustained.
12 Q. How, if at all, does bulk selling or liquidating
13 assets, at a discount, effect a developer's decision to
14 sell?
15 A. I'm not sure I get the clarity. I didn't
16 understand your question.
17 Q. Sure. How, if at all, do developers consider --
18 let me withdraw that.
19 Are you familiar with the terms bulk selling or
20 liquidating assets at a discount?
21 A. Yes.
22 Q. How often, in your experience, have you seen
23 developers do that; and if they do, do it, why?
24 MR. AMER: Compound question.
25 THE COURT: Let makes one question at a

F. Chin - Defendant - Direct/by Mr. Fields Page 5937

1 time.
2 MR. FIELDS: Sure.
3 THE COURT: These are tough questions.
4 (Whereupon, the following proceedings was
5 stenographically recorded by Deborah Rothrock.)

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5938

1 Q How often do you see developers both selling or
2 liquidating assets at a discount?
3 A Not frequently, unless they're under substantial
4 pressure to do so.
5 Q And in your experience, what examples of substantial
6 financial pressure come to mind?
7 A I've seen it in the debt restructuring world that I am
8 in where there's an impasse between the lender and the borrower
9 and the properties need certain work, need monies invested and
10 the bank wouldn't do it. The borrower owes a lot of money and
11 sometimes they decide, let's just liquidate the portfolio.
12 Q I would like to shift gears and talk to you about
13 enterprise value.
14 Are you familiar with that them?
15 A Yes.
16 Q What is an enterprise?
17 A An enterprise is typically a collection or a grouping
18 of real estate assets that are owned, operated, managed
19 similarly under one umbrella.
20 So the best example would be like a Four Seasons is an
21 enterprise or Four Season Hotels. Ritz Carlton Hotel Group, its
22 an enterprise. They are lots of interrelated parts that are
23 leveraged off of a single brand name.
24 Q Is there value associated with an enterprise?
25 A Definitely.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5939

1 Q Could you describe that?
2 A Let's use a Ritz Carlton.
3 There are certain systems, reservation systems,
4 operating protocols, financial reporting, reservation systems
5 that are all tied together that affect ^ all those properties.
6 So they kind of perform under one umbrella, they move
7 in one group. There's a standard for purchasing the same
8 glassware, the same uniforms, everything. They operate as a
9 group with a specific brand. They're marketed and merchandised
10 as a brand.
11 Therefore, this is an enterprise that includes all
12 those parts which were all tied together to this brand.
13 Q What types of properties do enterprise value generally
14 apply to?
15 A Enterprise value usually associates with several
16 properties. So a single property doesn't -- wouldn't have an
17 enterprise value. The more properties that are operating
18 similarly or under a same type of name would be more considered
19 a part of that enterprise.
20 Q In terms of the use of the property, you mentioned Ritz
21 Carlton. What types of properties and their uses do enterprise
22 value generally apply to?
23 A Generally operating type of businesses, so obviously
24 hotels, you can consider motels as well. Golf courses, private
25 clubs, could be maybe marinas if they're operated similarly. In

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5940

1 some cases, apartment complexes if they're dominating a certain
2 area. Could be office buildings, a collection of office
3 buildings that are dominated by a single owner. Those would be
4 some examples.
5 Q What are some of the key indicia for a real state
6 professional such as yourself to determine whether there's
7 enterprise value associated with a certain subset of properties?
8 A I consider the commonalities of the market. The
9 commonalities of the systems, if you call it, the back of the
10 house. How people are supposed to operate, how they price
11 things, how they purchase items to operate a property. The
12 people that they all march, if you will, kind of to a similar
13 type of beat, that they have certain standards.
14 Those are elements that I consider contributors to an
15 enterprise type of value.
16 Q What, if any, shortcomings in terms of valuation could
17 exist when valuing a real estate portfolio but not accounting
18 for enterprise value?
19 A Well, there are several situations that happen when one
20 looks at the just the individual assets. Unless someone takes
21 out the benefit or the effect of that association with
22 marketing, then it is missing this increment of value that is
23 attributable to the property that is the result of the
24 association with the enterprise.
25 Q How does supply or leverage and purchasing power affect

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5941

1 enterprise value?
2 MR. AMER: I will object to the line of
3 questioning. I don't think enterprise value is relevant to
4 the case. It is not anything that was valued in the
5 Statements of Financial Conditions. So I don't see how it
6 is relevant.
7 THE COURT: I see your point. I will allow it.
8 The Appellate Division might not see the point. It is
9 overruled.
10 Q So I'll reask it.
11 How does supply or leverage and purchasing power, if at
12 all, affect enterprise value?
13 A As I mentioned, it is one component of maybe an indicia
14 of how an enterprise might exist.
15 In an example, if someone is purchasing, let's say,
16 dishes, Ritz Carlton dishes. They can negotiate probably
17 stronger as a group as a Ritz Carlton than an individual
18 property owner can go and say I will buy a thousand
19 cobalt-looking glasses. That purchasing power and leverage of
20 the organization or enterprise is much greater when negotiating
21 contracts and others.
22 THE COURT: Wouldn't that be called economies of
23 scale?
24 THE WITNESS: Yes, sir.
25 THE COURT: Thank you.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5942

1 Q From the perspective of a buyer of an enterprise, why
2 would a buyer of an enterprise care about these indicia that you
3 just described?
4 A They will care about it because it's easy to make
5 decisions about changing the organization. So if one day
6 someone decides at an enterprise we want to change our pricing
7 policy, it can be done very quickly and implemented very quickly
8 versus if it was disbursed assets you have to tell this general
9 manager and that property person and that and see how it
10 unfolds.
11 So the benefits of existing systems that can respond
12 generally quickly to changing events, is the strength of an
13 enterprise.
14 To give an example would be a security threat. So that
15 can be disseminated very quickly through an enterprise. They
16 can say here is what needs to be done, it is crisis management,
17 you need to have the following protocols in place, here is how
18 you respond to the public.
19 If you own 50 different assets with different owners it
20 would be difficult to implement that on a system-wide basis.
21 Q In your experience have you found that enterprise value
22 positively or negatively affects the ultimate value of the
23 selling price of a property?
24 MR. AMER: Note my continuing objection. I know
25 your Honor has overruled me, but for the record.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5943

1 THE COURT: Could you read back the question again.
2 (Whereupon, the requested portion of the record was
3 read.)
4 THE COURT: Yes, this goes back to possibly
5 ambiguity two or three questions ago when you asked about
6 buying an enterprise. Did you mean the whole enterprise or
7 one unit of the enterprise?
8 MR. FIELDS: I could clear that up. It is the
9 whole thing.
10 THE COURT: I mean, the obvious answer to your
11 question, he's been talking the last 15 minutes about how
12 valuable enterprise value is. The obvious answer to your
13 question -- I don't want to tell the witness, I would be
14 leading. But sometimes the questions are just so obvious.
15 Don't quote me on this, please, I'm not as dumb as
16 I look.
17 MR. FIELDS: I'm just doing my best to ask
18 open-ended questions, your Honor. That is all. Be that as
19 it may.
20 (CONTINUED)
21 DIRECT EXAMINATION:
22 Q Mr. Chin, when we talked about the enterprise, can you
23 just describe what you mean by the enterprise vis-à-vis selling
24 individual properties as part of that enterprise?
25 A The value as part of the enterprise is going to be

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5944

1 greater than if its individual value.
2 THE COURT: The whole is worth more than the sum of
3 the parts?
4 THE WITNESS: Thank you.
5 THE COURT: There we go.
6 (CONTINUED)
7 DIRECT EXAMINATION:
8 Q Do you have any experience with managing and selling
9 individual assets and also selling assets as part of an
10 enterprise?
11 A Yes.
12 Q What experience do you have in that?
13 A The MPG Office was certainly both selling individual
14 assets and then selling the entirety of the company.
15 Q In your experience how does the number of properties in
16 a portfolio affect whether enterprise value exists or could
17 exist?
18 A In general, the greater the number of the properties
19 the larger the enterprise, potentially the higher the valuation.
20 But it really depends if they're of similar ilks. Some
21 properties are not as contributory to or benefit from being
22 associated with the enterprise.
23 Q And same question for operating entities or operating
24 companies?
25 A Same answer.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5945

1 THE COURT: By the way, apparently I'm being quoted
2 already that is what I get by saying "don't quote me on
3 this."
4 Q All right. If we could shift gears, Mr. Chin, and talk
5 a little bit about appraisals.
6 Are there different types of appraisals and we talked a
7 little about it already, but are there different types of
8 appraisals that appraisers conduct?
9 A Yes.
10 Q What are some of the different types?
11 A Well, there's the traditional market value appraisals.
12 There could be a liquidation value or assuming quicker sale.
13 There could be insurable value. There could be value in use,
14 which is usually associated with special purpose properties.
15 And there could be tax valuations for a specific tax planning or
16 actions. And the mortgage lending as is market value
17 appraisals.
18 Q In your experience have you found that the type of
19 appraisal being conducted can dictate the ultimate value
20 reached?
21 MR. AMER: Objection. Leading.
22 Q How does the type of appraisal being conducted affect
23 ultimate value determinations?
24 A The intended purpose of appraisal can affect the
25 outcome.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5946

1 Q Why?
2 A Depends on what the criteria is. So if I were to say
3 market value that would be willing buyer willing seller normal
4 time no duress as contrasted to liquidation value, which might
5 say we need to sell this in a certain time period perhaps as is,
6 with as it sits. So that could be a very different value.
7 Q Are you familiar with lender-ordered appraisals?
8 A Yes.
9 Q What type of value do lender-ordered appraisals
10 generally predict?
11 A Market value is common for lender appraisals.
12 Q And for what period of time does the appraisal predict
13 a market value?
14 A It is very specific as of a specific date.
15 Q From an appraiser's perspective, what function do
16 lender-ordered appraisals serve?
17 A It provides a lender information about what the
18 collateral may be worth. If they have to -- if there's a
19 default, if there is a foreclosure it provides them the amount
20 they believe they could recover. And it also provides them a
21 basis for their own internal analysis, so usually lenders have
22 loan-to-value ratios they try to comply with and that value sets
23 what they believe the maximum loan amount could be.
24 Q And when doing lender-ordered appraisals what sort of
25 data are appraisers looking to?

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5947

1 A Usually they're looking at comparable sales, sales that
2 have been transacted and consummated. Looking at the case
3 lease, leases that have been executed. There's some
4 consideration to listings or offers to purchase that might be
5 pending on a property although they're given less weight because
6 they have not occurred.
7 But generally looking at the economic indicators that
8 have occurred up to that date and time.
9 Q How much emphasis do appraisals put on potential market
10 changes for lender appraisals?
11 A I think appraisers try to, if you will, simulate what
12 might happen. But they really make, they don't overtly state
13 their prognostications. Again, it is more reliant on historical
14 trend of economics, of the health of the market up to that
15 point. Demand and supply up to a point up to the date of
16 appraisal and they don't forecast, project overtly in a report
17 about what they see or expect to happen.
18 Q Why not?
19 A I think a couple reasons. Number one, it is not common
20 in the appraisal world to do that. And I think much like
21 everything there's differences of opinion about how markets may
22 evolve.
23 There's no one definitive treatise about how the
24 economy might recover after a catastrophe or after an unusual
25 economic event or if a stock market dropped a thousand points

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5948

1 today, how does that effect values in real estate, if it does at
2 all tomorrow and then going forward.
3 They're crystal balls, they have them but it is
4 probably murky. Everybody, like everybody in this room could
5 have a different perspective of what the next day and the future
6 holds.
7 THE COURT: Five-minute warning.
8 MR. KISE: I'm going to go out on a limb. If we
9 take our break now, there's a pretty good likelihood we that
10 could turn this up for this afternoon.
11 MR. FIELDS: Okay.
12 THE COURT: Everybody okay with that? Okay.
13 See you 2:15.
14 I'll direct the witness please do not discuss your
15 testimony or anything related to it during the lunch break.
16 THE WITNESS: Yes, sir.
17 (Lunch recess taken at this time.)

1 A F T E R N O O N S E S S I O N:
2 THE COURT: Okay. Let's get the witness back and
3 let's continue.
4 (Witness approaches the witness stand.)
5 THE COURT: Please proceed.
6 MR. FIELDS: Thank you, your Honor.
7 DIRECT EXAMINATION
8 BY MR. FIELDS: (Continued)
9 Q Mr. Chin, could you describe some examples of
10 assumptions that an appraiser doing "as if" appraisal might take
11 into account?
12 A Yes. Some might be how fast a building might lease up;
13 the rental rate that it might be able to achieve; the operating
14 expenses, how they might change; the tenant improvement
15 allowances and leasing commissions that might be incurred based
16 upon the leases that might be signed.
17 There's the discount rate and capitalization rate, all
18 of these are ingredients that go into the income approach that
19 appraisers could make, that appraisers can make to estimate
20 through the income approach.
21 Q Could a change in land use restrictions be an example?
22 MR. AMER: Objection. Leading.
23 THE COURT: Sustained.
24 Q How could land use restriction changes in the future
25 that currently encumber the property play into an appraisers's

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5950

1 determinations into a "as if" appraisal?
2 A Any sort of restriction that might limit the possible
3 uses would affect the value negatively usually.
4 Q But could an appraiser assume an "as if" appraisal that
5 that restriction does not exist at some point in the future for
6 purposes of an "as if" appraisal?
7 MR. AMER: Objection. Leading.
8 THE COURT: Sustained.
9 Q What basis do developers have to plan investments based
10 upon future zoning changes to property currently encumbered by a
11 zoning restriction?
12 A They consider what might be possible based upon those
13 limitations and they will plan accordingly in terms of usually
14 number of lots that can be built or the size of the lots and how
15 some of the common areas, perhaps parks and other things, might
16 be laid out.
17 Q In your experience how, if at all, do developers -- how
18 frequently do developers seek to change land use restrictions
19 that might currently encumber a property that they're seeking to
20 change?
21 A As a developer is essentially trying to get approvals
22 for his project for a land development as you might be referring
23 to, there are constant changes that depending if the cities
24 don't approve a certain element of the plan the developer has to
25 adjust.

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5951

1 MR. AMER: I'll object and move to strike. I think
2 the question was: How frequently does it happen.
3 THE COURT: Was that indeed the question?
4 MR. FIELDS: I have to go back and look.
5 (Whereupon, there is a pause in the proceedings.)
6 Q Sure. How frequently do developers seek the land
7 use --
8 THE COURT: I'll strike the prior answer, prior
9 answer is stricken. Go ahead.
10 Q How frequently do developers seek to change land use
11 restrictions that might currently encumber a property that the
12 developer is seeking to change in the future?
13 A As frequently as they can.
14 Q Did you review in this case appraisals for 40 Wall
15 Street done by Cushman & Wakefield for the years 2011, 2012 and
16 2015?
17 A Yes.
18 Q Were those "as is" or "as if" appraisals?
19 A Those were "as is" appraisals.
20 Q In the years 2011 and 2012 were there multiple values
21 and if so, what were those values?
22 A There were two different values that I recall. In
23 2011, I believe, it was 200 million. And in 2012 it was 220
24 million.
25 MR. FIELDS: If we could pull up Plaintiff's 1573

-F. Chin-Defendant-Direct-by Mr. Fields- Page 5952

1 that has been admitted.
2 (Shown.)
3 MR. FIELDS: If we could go to Page 3 at the
4 bottom.
5 (Scrolling.)
6 Q I'm showing you Plaintiff's 1573, Mr. Chin.
7 Do you see at the bottom there's \$200 million figure?
8 A Yes.
9 Q And as of what date does that value reflect?
10 A As of November 1st, 2011.
11 Q And if we flip to Page 4, do you see the heading,
12 "Perspective Market Value."
13 A Yes.
14 Q What is the value and what is date is it as of?
15 A As of November 1st, 2014, the estimated value was
16 \$270 million.
17 Q So what value is this value here reflecting
18 \$270 million?
19 A I would consider it an "as if" value based upon various
20 assumptions that the appraiser made as of 2011.
21 Q And generally speaking, what were the general
22 sentiments -- withdrawn.
23 From your review, did the same appraiser conduct all
24 three of the appraisals; '11, '12 and '15 or the same
25 appraisers, I should say?

Page 5953

1 A Yes, I believe so.
2 Q And generally speaking, in 2011, 2012, what were the
3 sentiments that the appraiser was suggesting with regard to the
4 market at the time?
5 A The sentiments or attitudes were clearly negative in
6 2011. If you recall, again, it is coming out of the great
7 financial crisis in 2008. So there's many cautionary statements
8 made in the 2011 valuation report that are reduced in quality
9 and number in 2012.
10 So there's much more negative sentiment that is
11 expressed in the appraisal, warning signs, uncertainty
12 indications regarding the financial markets here and
13 unemployment, which lessened in its quantity and I guess
14 disclaimer amount in the 2012 report.
15 Q In your experience, in this timeframe, was it common
16 for appraisers to have negative sentiments in 2011 and 2012?
17 A Yes, it was uncertain. It was an uncertain time coming
18 out of 2008. And the rate of recovery at that point wasn't
19 clear.
20 (Whereupon, Cheryl-Lee Lorient relieved Deborah
21 Rothrock as the official court reporter.)
22 (Continued on next page.)
23
24
25

F. Chin - Defendant -Direct/ by Mr. Fields Page 5954

1 Q. We talked a little bit about this earlier. But,
2 in the same time period, were you in -- what role were you
3 in, in 2011 or 2012?
4 A. I was running the office portfolio and office
5 company in Los Angeles.
6 Q. And from your perspective, at that time, what were
7 the sentiments with regard to the market in '11 and '12.
8 A. I think there was a different kind of rate of
9 recovery than, necessarily, New York. But, it was more
10 optimistic.
11 There was much more investment going on, expansion
12 of tenant spaces and more confidence that the market was
13 recovering after 2008.
14 MR. FIELDS: All right. If we could -- on
15 Plaintiff's 1573. Please, go to page 169.
16 Q. Mr. Chin, can you see the heading that says,
17 "Direct Capitalization Valuation Method Perspective Mark
18 Value as of November 1, 2014?"
19 A. Yes.
20 Q. In the top paragraph, it says, "In the direct
21 capitalization method, we estimated market value my dividing
22 the stabilized net operating income by an overall rate
23 derived from our analyses of market sales and computed by
24 dividing the net operating income from a sold property by
25 its sale price."

<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5955</p> <p>1 What does that tell you as an appraiser? What are 2 they doing? 3 A. Basically, taking an income stream, net operating 4 income, dividing it by a rate to reflect value. 5 Q. And the next to sentence says, "We estimated the 6 capitalization rate to be 7 percent." 7 What -- to ask an open ended question, what is the 8 capitalization rate and what does it reflect? 9 A. The capitalization rate reflects the ratio of net 10 operating income to a sales price. Appraisers will get that 11 information either from surveys or they'll have actual 12 transaction data where they will compare that ratio and 13 depict it as they did here in this report. 14 Q. The next sentence says, "The overall 15 capitalization rates derived from the improved property 16 sales are between 4.21 and 6.74 percent." 17 What are these numbers reflecting that the 18 appraiser is discussing in this sentence? 19 A. These number reflect the results of transactions 20 that had occurred. So, there were individual transactions 21 that occurred. 22 The appraiser looked at net operating income for a 23 property and compared that to the sales price and got the 24 overall rate or capitalization rate which is the ratio. 25 Q. Why are these properties important for purposes of</p>	<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5957</p> <p>1 A. Not common. Usually, there is some sort of 2 explanation why. But this is -- there is no explanation. 3 THE COURT: Quick question. Do you mean 4 there is no possible explanation or do you mean there 5 is no explanation given? 6 THE WITNESS: There is no explanation given. 7 THE COURT: Are there possible explanations. 8 THE WITNESS: Perhaps. I'd be speculating. 9 THE COURT: No, we don't allow speculation. 10 We allow guesstimation. 11 I mean, isn't it just possible that the 12 appraisers just felt conservative to use your word and 13 were expecting downturn? 14 THE WITNESS: It's a possibility. 15 THE COURT: Okay. 16 Q. From an appraiser's perspective, in 2011 and 2012, 17 was there a concern that the real estate market could revert 18 back to the levels that it was at in 2008, 2009? 19 MR. AMER: Objection, leading. 20 THE COURT: Sustained. 21 Q. All right. To go through it again, how did you 22 describe the real estate market in 2008 and 2009? 23 A. Well, at that time, specifically, very stressed. 24 Very -- tons of uncertainty about when things might get 25 better, if they might get better. It effected all aspects</p>
<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5956</p> <p>1 this appraisal that are listed here between numbers one and 2 seven? 3 A. The appraiser deemed that they were appropriate 4 for comparison to the subject property being appraised. 5 MR. FIELDS: All right. And if we could 6 scroll down, a little bit, to the statistics box. 7 Q. What is the lowest capitalization rate selected by 8 this appraiser for purposes of this appraisal? 9 A. Four point 21 percent. 10 Q. And what is the highest? 11 A. Six point 74 percent. 12 Q. And what is the capitalization rate that this 13 appraiser chose to use? 14 A. 7 percent. 15 Q. What does the appraiser selection of a 7 percent 16 capitalization rate tell you as an appraiser? 17 A. In light of the sales information provided, which 18 showed a range of 4.2 to 6.7 percent, the appraiser was more 19 conservative or had a higher cap rate, which resulted in a 20 lower value relative to the sales information that 21 demonstrated lower capitalization rates. 22 Q. And in your experience, how often do you see 23 appraisers selecting capitalization rates or using a 24 capitalization rate that is higher than the highest of the 25 comparable selected?</p>	<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5958</p> <p>1 of finance. 2 Q. How would you compare that to 2011 and 2012? 3 A. Well, it varied depending on region of country. 4 But, in general, it was firming from the standpoint the 5 uncertainty was being weaned away; that, there was less 6 uncertainty about how and if the economy was going to 7 recover. There was job growth versus job losses. There was 8 a strengthening of the economy relative to what it was in 9 2008 and 2009. 10 Q. Generally speaking, when you compare the two 11 timeframes, was there more positive sentiment or negative 12 sentiment in 2011 than 2012? 13 A. There was more positive attributes in 2012. There 14 had already been the demonstration that the economy and the 15 employment was coming back, that, there was a recovery. 16 And, it was being demonstrated in real estate prices in 17 general. 18 MR. FIELDS: If we could now turn to 2012, 19 Plaintiff's 3208, that's been admitted. Page 165. 20 Q. All right. Mr. Chin, there's a paragraph 21 immediately above the section that says, "Terminal 22 capitalization rate section." 23 Do you see that? 24 A. Yes. 25 Q. All right. It's highlighted on the screen. This</p>

F. Chin - Defendant -Direct/ by Mr. Fields Page 5959

1 is 2012.
2 The appraiser writes "In addition to IRR
3 decreases" -- what's IRR?
4 A. It's referred to as the internal rate of return or
5 yield rate that is commonly used to value properties.
6 Q. And what does a decreasing internal rate of return
7 tell you as an evaluation professional?
8 A. Decreased risks, decreased yield expectations.
9 Q. Appraiser continues "overall capitalization rates
10 OAR for Manhattan Office have also decreased by 127 basis
11 points from the peak of 6.65 percent during fourth quarter
12 2009 to 5.38 percent as of second quarter 2012.
13 "Terminal capitalization rates have declined from
14 their high achieved during second quarter 2009 open paren
15 7.5 percent, by 142 basis point range to its current level
16 of 5.38 percent as of second quarter 2012."
17 So, generally speaking, what is the appraiser
18 conveying about the state of the market now in 2012?
19 A. This demonstration, there's strong evidence that
20 the market has improved, property prices are increasing
21 evidenced by yield rates or cap rates coming down.
22 MR. FIELDS: If we could go to page 175,
23 please.
24 Q. Again, Mr. Chin, the heading here says, "Direct
25 Capitalization Valuation Method Upon Achieving Stabilized

F. Chin - Defendant -Direct/ by Mr. Fields Page 5960

1 Occupancy as of November 1, 2015."
2 What is the range of capitalization rates that
3 this appraiser selected as comparables to use in this
4 section?
5 A. The range is from 3.62 percent to 6.74 percent.
6 MR. FIELDS: And, if we can scroll down a
7 little further.
8 Q. What does the appraiser select as a capitalization
9 rate for this appraisal?
10 A. Seven percent.
11 Q. Is that the same capitalization rate that was used
12 in the prior year?
13 A. Yes.
14 Q. As an appraiser, what does it tell you that the
15 appraiser is suggesting positive sentiments about the market
16 but keeping the same capitalization rate from the prior
17 year?
18 A. It's inconsistent with what the market evidence is
19 showing. But without speculating, there may be some other
20 reason why he is doing that.
21 MR. FIELDS: If we can now go to plaintiff's
22 118, page 170, please.
23 Q. All right. Mr. Chin you see at the top it says,
24 "Direct Capitalization Valuation Method"?
25 A. Yes.

F. Chin - Defendant -Direct/ by Mr. Fields Page 5961

1 Q. I'll represent to you this is the 2015, 40 Wall
2 Street appraisal.
3 What is the range of capitalization rates selected
4 by this appraiser?
5 A. The range is from 2.68 percent to 7.68 percent.
6 MR. FIELDS: And if we can scroll down all
7 the way to the bottom, please.
8 Q. What capitalization rate does this appraiser
9 select?
10 A. Four point 25 percent.
11 Q. What does the selection of a 4.25 percent, given
12 the range, tell you about this appraisal relative to the
13 market at the time?
14 A. He's deeming it to be within the category or
15 comparable set that's demonstrated by market sales.
16 Q. What is your opinion with regard to the estimate
17 of value, in this 2015 appraisal, as compared to the two
18 that we just looked at?
19 A. I believe that the 2015 appraisal is much more
20 accurate and in line with the market information than the
21 prior years.
22 Q. From your review of the complaint and -- from your
23 review of the complaint, did you identify another source of
24 valuation for 40 Wall Street in 2015?
25 A. Yes.

F. Chin - Defendant -Direct/ by Mr. Fields Page 5962

1 Q. What was that?
2 A. There was an investor report by Morningstar that
3 listed out details of 40 Wall Street.
4 Q. What's the purpose of Morningstar's investor
5 report?
6 A. Morningstar does reports on certain types of
7 investments. In this particular case, there was mortgage
8 backed securities that were issued that included 40 Wall
9 Street.
10 So, Morningstar would, basically, do an analysis
11 of what they see of the investment pool as well as its
12 asset. And they perform various stress tests to evaluate
13 what the risk factors might be for the investment and for a
14 property.
15 Q. How does Morningstar's valuation methodology
16 differ from that of an appraiser if at all?
17 A. The methodology is very different. There are --
18 in general, they use the same general tools. But, the
19 assumptions that they apply and how they look at the
20 property is very different.
21 Q. All right.
22 MR. FIELDS: If we can pull up what has not
23 been admitted in evidence, the Morningstar report
24 plaintiffs 3186.
25 Q. Let's go to page 40. Mr. Chin, you mentioned a

F. Chin - Defendant -Direct/ by Mr. Fields Page 5963

1 moment ago that there were different assumptions relied upon
2 in the Morningstar report than in the 40 Wall Street
3 appraisal.
4 What is one of the different assumptions that was
5 used in the Morningstar report?
6 A. The Morningstar report calculates value based on
7 net cash flow versus net operating income. As we were
8 discussing how the appraisers were using it, they were using
9 net operating income and applying a capitalization rate.
10 Morningstar uses net cash flow, which is different than net
11 operating income.
12 Q. How are the two different?
13 A. Net cash flow is lower. Net cash flow is taking
14 net operating income minus leasing commissions and tenant
15 improvements, reserves for replacement. And that results in
16 a lower amount that would then be capitalized for purposes
17 of calculating value.
18 Q. So, in the -- if you could look at the last
19 sentence that's highlighted there on the -- let me withdraw
20 that.
21 Under the subheading "valuation drivers," do you
22 see that it says, "Morningstar underwrote a NCF of
23 18,860,112 and applied a direct capitalization rate of
24 7 percent for a term value of 270.7 million," what does the
25 NCF stand for in your parlance?

F. Chin - Defendant -Direct/ by Mr. Fields Page 5964

1 A. That is the net cash flow. So, that is net
2 operating income minus various expenses to get to net cash
3 flow.
4 Q. And then, if we look at the last sentence in that
5 paragraph -- in the middle of the paragraph. Let's start
6 with where it says, "For the balloon value, Morningstar made
7 a cash flow deduction of 643,559,000 which represents the
8 variance between the average ground rent payments over the
9 term of the loan and the calculated average ground rent
10 payments for years 11 to 20.
11 "This deduction, through NCF, was capitalized at
12 7 percent for a balloon value of 261.5 million or \$224 per
13 square foot.
14 As a comparison, the appraisal concluded a
15 capitalization rate of 4.25 percent and value of 540 million
16 or \$464 per square foot."
17 So how does the use of net cash flow as opposed to
18 net operating income, in the Morningstar report, ultimately,
19 effect the value reached by Morningstar?
20 A. The deductions that they make for net cash flow,
21 significantly, decreases the value that would, otherwise, be
22 calculated by an appraiser.
23 Q. And, what capitalization rate is Morningstar using
24 for its value?
25 A. Seven percent.

F. Chin - Defendant -Direct/ by Mr. Fields Page 5965

1 Q. And what capitalization rate does Morningstar site
2 as one that was used for the appraisal?
3 A. 4.25 percent.
4 Q. All right. I'd like to shift gears and talk to
5 you, for a moment, about Seven Springs.
6 Are you, generally, familiar with the Seven
7 Springs property?
8 A. Yes.
9 Q. And are you familiar with conservation easement
10 appraisals?
11 A. Yes, generally.
12 Q. How, if at all, do conservation easement
13 appraisals take into account the identity of the property
14 owner?
15 A. It doesn't.
16 Q. And what do you mean by that?
17 A. It's ambiguous. There's no defined buyer or
18 profile of a specific owner that is used to calculate a
19 value.
20 Q. Is it a hypothetical scenario?
21 MR. AMER: Objection. Leading.
22 THE COURT: Sustained. I don't see why the
23 owner would have an affect on the conservation easement
24 values.
25 MR. FIELDS: The appraisal, your Honor.

F. Chin - Defendant -Direct/ by Mr. Fields Page 5966

1 We're talking about the appraisal, the conservation
2 easement appraisal.
3 THE COURT: I don't see why it would effect
4 that either. But, I'll learn.
5 Q. In a general sense, can the identity of the owner,
6 in some instances, have an effect on "as if" versus "as
7 if" -- or "as if" appraisals?
8 MR. AMER: I'm going to object. I think you
9 misspoke. You said "as if" versus "as if."
10 MR. FIELDS: I meant "as is" and "as if."
11 MR. AMER: Maybe we could just get the
12 question again.
13 THE COURT: You want to just give it another
14 go.
15 Q. In a general sense, could an appraiser subscribe
16 some value, whether in an "as is" or "as if" appraisal, to
17 the property based on who owns that property?
18 MR. AMER: Objection, leading.
19 THE COURT: Sustained.
20 Q. How could the identity of the property owner
21 affect, if at all, an "as is" or "as if" appraisal?
22 A. There's no affect.
23 Q. Did you review the values in the Statements of
24 Financial Condition from 2011 to 2014 relative to Seven
25 Springs?

<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5967</p> <p>1 A. Yes. 2 Q. And what is your opinion as to what type of value 3 was used in those years? 4 A. Clearly, "as if" values were used in those 5 Statements of Financial Condition. 6 Q. Why? 7 A. They presumed a situation that didn't exist; from 8 the standpoint, while there were plans to develop a property 9 and build houses, those did not exist and they are future 10 conditions that were expected to be happening at the 11 property. 12 Q. All right. And then, shifting gear for a moment, 13 did you have an opportunity to review a 2010 Oxford 14 appraisal for a Trump Park Avenue? 15 A. Yes. 16 Q. And what is your understanding of the appraisals 17 valuation of the rent stabilized units in that appraisal? 18 A. There were evaluations that assumed that they were 19 always rent stabilized. And then, there was another 20 evaluation perspective that parts of them would not be rent 21 stabilized. 22 Q. And did you have an opportunity to review -- let 23 me withdraw that. 24 In your experience, why are rent stabilized units 25 not necessarily roadblocks for a developer?</p>	<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5969</p> <p>1 (Whereupon, the following proceedings was 2 stenographically recorded by Deborah Rothrock.) 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>
<p>F. Chin - Defendant -Direct/ by Mr. Fields Page 5968</p> <p>1 MR. AMER: I'll object. I think it assumes 2 testimony he hasn't given. 3 THE COURT: You want to rephrase. 4 Q. Mr. Chin, earlier, you testified about your 5 experience with a rent stabilized unit, I believe, last year 6 in New York City, right? 7 A. Yes. 8 Q. From a developer's perspective, how do developers 9 consider encumbrances, such as rent stabilized units, when 10 forecasting value? 11 A. I would, generally, say that they're optimistic. 12 They're optimistic that, at some point in time, there is the 13 possibility, that a tenant may vacate, that the rent could 14 go to market. And then, they might be liberated and either 15 rent it at a current market rate or that it might be sold. 16 THE COURT: Well, if it's sold, wouldn't it 17 receive less money for the sale? 18 THE WITNESS: If it's sold with the rent 19 stabilization in place? 20 THE COURT: Exactly. 21 THE WITNESS: Oh, yes. The value is, 22 certainly, lower with rent stabilization. But, there's 23 the opportunity, if it was removed, then the value 24 would be -- 25 THE COURT: Of course, yes.</p>	<p>-F. Chin-Cross-Defendant-by Mr. Amer- Page 5970</p> <p>1 MR. FIELDS: May I have a moment your Honor. 2 THE COURT: Sure. 3 (Whereupon, there is a pause in the proceedings.) 4 MR. FIELDS: No further questions at this time. 5 THE COURT: Nothing further, okay. 6 Will there be cross-examination? 7 MR. AMER: I have a few questions. 8 THE COURT: You may proceed. 9 MR. AMER: Thank you. 10 THE COURT: Please proceed. 11 MR. AMER: Thank you, your Honor. 12 CROSS-EXAMINATION 13 BY MR. AMER: 14 Q Mr. Chin, we have not met before. My name is Andrew 15 Amer. I'm with the Attorney General's office. I have a couple 16 of quick questions first on your rates. 17 You mentioned you were charging \$550 hour, correct? 18 A Yes, correct. 19 Q You are engaged through Ankura, correct? 20 A Yes. 21 Q They are charging for your time \$850 per hour? 22 A I believe so, yes. 23 Q I think you said you're close to thousand hours; is 24 that right? 25 A Yes.</p>

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5971

1 Q So for your expert work in this case Ankura has charged
2 almost \$850,000, is that right?
3 A That's my understanding.
4 Q You confirm for us that you're not accountant, correct?
5 A Yes.
6 Q And you have never worked as a banker, correct?
7 A Correct.
8 Q Now, I believe in connection with preparing your May
9 expert report you reviewed accounting literature, right?
10 A Yes.
11 Q And among the accounting literature you reviewed was
12 AASC 274 which governs personal financial statements; is that
13 right?
14 A Yes, correct.
15 Q You agree that pursuant AASC 274 personal financial
16 statements are required to present assets at estimated --
17 MR. FIELDS: Objection. Outside the scope of
18 direct examination. The Court limited my questions about
19 accounting because of the witness' knowledge of accounting.
20 So I would respectfully request that the Court also
21 limit the Attorney General's ability to examine him over
22 accounting and accounting standards.
23 THE COURT: I think your questions were generally
24 what is accounting or what do you think about accounting --
25 MR. FIELDS: My question was what his understanding

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5972

1 was of accounting principles and the Court said I could not
2 ask him that question. So now --
3 THE COURT: I stand by that one. What kind of
4 question is that: What is your understanding of accounting
5 principles?
6 MR. FIELDS: As I explained, your Honor, I was
7 laying a foundation for what his knowledge of accounting
8 was. And now Mr. Amer is asking him about accounting
9 standards. After the Court limiting me from being able to
10 ask him accounting standards, it is outside the scope of
11 direct.
12 THE COURT: You want to risk reversal?
13 MR. AMER: The witness confirmed he viewed this in
14 coming to his opinions. And he's giving testimony about the
15 financial statements here. I'm asking him about the
16 financial statements.
17 THE COURT: Objection overruled.
18 MR. AMER: Could I get read back?
19 THE COURT: Read back, please.
20 (The record was read back by the court reporter.)
21 Q -- present assets at estimated current value. Right?
22 A Yes.
23 Q And when you were reviewing the financial statements,
24 you had in mind a definition of what estimated current value
25 was, didn't you?

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5973

1 A Yes.
2 Q And let me show you from the Parties' 202 statement,
3 Plaintiff's Exhibit 3041. It is Paragraph 31, up on the screen.
4 You see it says (Reading:) GAAP defines estimated
5 current value as, quote, the amount at which the item could be
6 exchanged between a buyer and seller each of whom is well
7 informed and willing and neither of whom is compelled to buy or
8 sell. And that is the undisputed fact in this case.
9 Is that the definition you had in mind for estimated
10 current value when you were preparing your expert opinions?
11 MR. FIELDS: Objection, same objection.
12 THE COURT: You're comparing apples to elephants.
13 I really don't understand. Nothing somebody could say, you
14 keep repeating it because I can't remember your exact
15 question:
16 What is your understanding of accounting? Is that
17 the question?
18 MR. FIELDS: Yes, I asked basically what he knew
19 about accounting. Now we're asking him about GAAP and he's
20 not been qualified as an expert in accounting. So...
21 THE COURT: Because he said he used it, he knew
22 this.
23 MR. FIELDS: But the Court prohibited me from
24 asking those questions. Now the Attorney General is
25 cross-examining him on it.

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5974

1 THE COURT: If you had asked him: What is your
2 understanding of GAAP through 274, that might have been
3 different. But what is your understanding of accounting?
4 If you did not follow-up in the right way, I'm sorry.
5 MR. FIELDS: Could I have a standing objection to
6 this line of questioning and anything about accounting,
7 please.
8 THE COURT: Of course.
9 MR. AMER: Could we get a read back.
10 (Whereupon, the requested portion of the record was
11 read.)
12 Q You see in this paragraph it says (Reading:) Estimated
13 current value is, quote, the amount at which the item could be
14 exchanged between a buyer and seller each of whom is well
15 informed and willing and neither of whom is compelled to buy or
16 sell.
17 Is this the definition you had in mind for estimated
18 current value when preparing your opinions?
19 A May I ask, is this the exact quotation because it is in
20 quotes because I don't know where.
21 Q This is what the parties have agreed is the definition
22 of estimated current value.
23 MR. FIELDS: I have an objection, that is just
24 false. That is a definition of estimated current value. We
25 have spent days and days with several experts here

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5975

1 discussing how estimated current value is applied, what
2 estimated current value is and notably they are not even
3 showing the witness of entire definition of estimated
4 current value. They're pulling out a statement from 202-G.
5 If you are asking a nonexpert in accounting a definition of
6 what estimated current value is, you must as well show him
7 what the full definition is.

8 THE COURT: The question was what definition he was
9 using, not what the definition is.

10 MR. FIELDS: Right. He has got up there a
11 definition that is not the complete definition of estimated
12 current value.

13 THE COURT: How is it not the definition of
14 estimated current value. You said undisputed.

15 MR. SUAREZ: It's incomplete. It says defines.
16 That does not mean the only definition. That doesn't mean
17 that there aren't entire sections in the literature as to
18 how it is implemented.

19 We spent days with another expert talking about
20 estimated current value and how it is defined, which is why
21 it is so unfair to show him this part to a non-expert in
22 accounting and try to jam him up with a definition of
23 estimated current value that the Attorney General wants to
24 use in a vacuum.

25 THE COURT: Do you want to excuse the witness? You

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5976

1 don't have to.

2 MR. AMER: Let me respond. If we have to have
3 another round, I will excuse the witness. I think the
4 witness should have been excused by Mr. Suarez before he
5 gave that objection.

6 THE COURT: I agree.

7 MR. AMER: My question was whether this definition
8 was what he had in mind. He could say yes or no if he
9 doesn't want to agree to it.

10 THE COURT: That is what I say. The idea that
11 well, this is just one definition of estimated current
12 value. That is not what the response says. It doesn't say
13 one definition, it says undisputed.

14 Do you need the question said or read again?

15 THE WITNESS: No, I was just, you know, it is
16 quoted. I don't know. I don't know. It is taken out of
17 context. I want to make sure. It would be nice to see the
18 document where this came from.

19 THE COURT: You don't need to see the document.
20 The question is: Is this the definition that you were using
21 in your valuations?

22 THE WITNESS: I had many definitions in mind.

23 THE COURT: That is the answer.

24 Q Was this one of them?

25 A Yes.

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5977

1 MR. AMER: Let's put up Plaintiff's Exhibit 756 in
2 evidence. This is Statement of Financial Condition for
3 2016.
4 (Shown.)

5 Q This is one of the statements that you reviewed, right?

6 A Yes.

7 Q Let's go to Page 5 of this exhibit. Let's look at the
8 third paragraph. The first sentence of this paragraph says:
9 "Assets are stated at their estimated current values." Let me
10 stop there.

11 You understood when you read this that it was
12 representing to the reader that the assets contained in this
13 statement were estimated current values, right?

14 MR. FIELDS: Objection, relevance to what he
15 understood and it was suggesting to the reader. Lack of
16 foundation as well and speculation.

17 THE COURT: I just want to go back a second about
18 something that irked me.

19 Mr. Amer asked the witness before: Was this the
20 definition you were using? Something like that. All of a
21 sudden Mr. Suarez says; well, there are several definitions.
22 What's the answer?

23 The answer is, well, there were several
24 definitions.

25 Please next time let's have the witness excused.

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5978

1 Could we have a readback or Mr. Amer, do you want
2 to rephrase, either way.

3 Q When you reviewed this statement --

4 THE COURT: So you're withdrawing.

5 MR. AMER: I'll rephrase it and with draw.

6 Q Mr. Chin, when you reviewed this statement of financial
7 conditions, did you understand that the statement was
8 representing to the reader of the statement that the assets
9 contained in the statement were being presented at their
10 estimated current values, yes or no?

11 A Yes.

12 Q And one of the definitions you had in mind when
13 reviewing the statement for estimated current values, was
14 willing buyer willing seller that we had on the screen before,
15 correct?

16 A Yes, that is one element.

17 Q And am I correct that it is your opinion that there are
18 various methods or techniques that can be used to value
19 properties for a personal financial statement?

20 A Yes.

21 Q Would you agree regardless of what method or technique
22 one uses to value properties for personal financial statement,
23 at the end of the day, the resulting value must be the amount at
24 which the asset would be exchanged between a willing buyer and a
25 willing seller both well informed and neither of whom is

-F. Chin-Cross-Defendant-by Mr. Amer- Page 5979

1 compelled to buy or sell; yes or no?
 2 MR. FIELDS: Objection. Speculation. Lack
 3 foundation.
 4 THE COURT: Overruled.
 5 A No. Let me explain --
 6 Q No.
 7 Let me show you some testimony from Jason Flemmons who
 8 is another expert for the Defendants in this case. I'm going to
 9 put up page 4495 of the trial transcript, lines 4 to 11.
 10 Again, this is one of the Defendants' own experts in
 11 this case. (Reading:)
 12 "QUESTION: Now, if you are going to use one of
 13 those techniques that we were discussing AASC 274, would
 14 still require that number reflect the amount at which an
 15 item could be exchanged between a buyer and a seller each of
 16 whom is well informed and willing and neither of whom is
 17 compelled to buy or sell, is that correct?
 18 "ANSWER: That is the definition of current
 19 estimated current value, so, yes."
 20 Do you disagree with Mr. Flemmons' response here?
 21 MR. FIELDS: Objection, your Honor. We're now
 22 impeaching this non-accountant expert.
 23 MR. AMER: You need to excuse the witness, I think,
 24 your Honor.
 25 MR. FIELDS: Improper impeachment, impeaching a

-Proceedings- Page 5981

1 outside the scope and you did mentioned that you did not
 2 want him to be qualified as an accountant and all that, that
 3 is on the record, we checked it again. This is completely
 4 improper.
 5 I'm not sure what the purpose is, he's not a
 6 rebuttal expert. What are we doing?
 7 Maybe Mr. Amer could let me know while the witness
 8 is not here so what we're doing and we can finish him today.
 9 MR. AMER: The last thing you're going to get from
 10 me is a road map to my cross-examination.
 11 MS. HABBA: He's not here to rebut an accounting
 12 expert.
 13 MR. AMER: You did not offer him as an accounting
 14 expert --
 15 MS. HABBA: Thank you for recognizing THAT.
 16 MR. AMER: So what --
 17 MS. HABBA: Excuse me?
 18 MR. AMER: So what.
 19 MS. HABBA: There are court rules that I follow.
 20 You can't ask whatever you want of an expert that
 21 wasn't qualified as an accounting expert.
 22 THE COURT: His whole testimony was about valuing
 23 real estate. Now we're asking him how he values real estate
 24 and you don't like the answer.
 25 MS. HABBA: I have no problem with the answers,

-Proceedings- Page 5980

1 non-accounting expert with an accountant's opinion.
 2 THE COURT: Let's excuse the witness.
 3 (Witness exits.)
 4 (The following the heard outside the presence of
 5 the witness.)
 6 THE COURT: You know, Defendants, you can't object
 7 just because you don't like what is happening. It is not
 8 impeaching, it is asking him whether he agreed or disagreed
 9 with Mr. Flemmons. It doesn't make it an impeachment.
 10 MR. FIELDS: Respectfully, how could this witness
 11 who has not been qualified as an expert in accounting be
 12 asked to render an opinion about whether he agrees or
 13 disagrees with an accounting expert. It seems widely
 14 unfair.
 15 THE COURT: He asked whether he agreed or disagreed
 16 with this statement.
 17 MS. HABBA: Your Honor. Sorry, I'm a little bit
 18 lost. I think if Mr. Amer could give us some direction here
 19 as to what we're doing, how much we're going into
 20 accounting, so that we don't have to go back and forth.
 21 He's not accounting expert as my collogue said. If he's
 22 going to talk about things that are within the scope of what
 23 we did on direct, that's one thing. But we're outside of
 24 the scope now.
 25 I have to make record that this is completely

-F. Chin-Cross-Defendant-Mr. Amer- Page 5982

1 he's our expert. Keep going. I'll keep objecting.
 2 THE COURT: His answer is different from
 3 Mr. Flemmons' answer.
 4 Mr. Amer asked the exact question here and he's
 5 getting totally a different answer.
 6 At the end of the day, estimated current value is
 7 the willing buyer willing seller, et cetera, et cetera. I'm
 8 saying that without a jury, obviously.
 9 Let's get the witness back.
 10 Any outstanding objection is overruled.
 11 You can have your standing objection.
 12 (Witness enters.)
 13 MR. AMER: May I proceed?
 14 THE COURT: Please.
 15 (Continued)
 16 CROSS-EXAMINATION:
 17 MR. AMER: We can remove that from the screen.
 18 Q Mr. Chin, am I correct that there are different methods
 19 that can be used to value a property some of which you've called
 20 "as if" methods and others that you've called "as is" methods.
 21 Did I understand you correctly?
 22 A Yes, sir.
 23 Q Would an example of an "as is" method value of property
 24 be taking net operating income and dividing by the cap rate for
 25 commercial building?

-F. Chin-Cross-Defendant-Mr. Amer- Page 5983

1 A Yes, one method.
2 Q Am I correct that an "as if" method would be to value a
3 future development to build homes on an empty lot?
4 A Yes.
5 Q And that's the situation that occurred with Seven
6 Springs, right?
7 A You're correct.
8 Q And to calculate future profit from a planned
9 development like Seven Springs, am I correct that you need to
10 come up with an estimated future projection of what you can sell
11 the homes for, yes?
12 A Yes.
13 Q And then you would need to subtract out the costs
14 associated with building out those homes, right?
15 A One could. It's not mandatory, but one could do that.
16 Q Well, are you saying that you can do an "as if" value
17 for future development without taking into account the costs
18 that you incur to actually build out that development; is that
19 your testimony?
20 A Yes. If one is looking at the exit value of how much I
21 could realize from the sale of the homes, you would not deduct
22 out costs.
23 Q Would you at least need to know when the homes would be
24 built?
25 A There's an expectation as to timing of when that might

-F. Chin-Cross-Defendant-Mr. Amer- Page 5984

1 hit the market, yes.
2 Q If you wanted to express the future projected profit of
3 a development as a current value you would need to apply a
4 discount factor to that projection, yes?
5 A If you wanted to get to "as is," if you were trying to
6 do that, yes.
7 Q That was not my question.
8 If you wanted to get to a current estimated value,
9 wouldn't you have to apply a discount factor to the projected
10 future profit?
11 A It is one option, yes.
12 Q Are you saying you don't have to do that?
13 A Are we speaking about a statement of financial
14 condition?
15 Q For a statement of financial condition, yes, in order
16 to come up with an estimated current value for future projected
17 profit from a development don't you need to apply a discount
18 factor to bring the future profit to present value?
19 A No.
20 MR. AMER: Let's pull up --
21 Q You gave a deposition in this case, correct?
22 A Yes.
23 MR. AMER: Why don't we pull up your deposition and
24 look at Page 119.
25 (Shown.)

-F. Chin-Cross-Defendant-Mr. Amer- Page 5985

1 Q I'm going to read to you from line 6 to line 13:
2 "QUESTION: In order to make projections with
3 current value one would need to apply discount rate, yes?
4 "ANSWER: If one were to get it to -- excuse me,
5 I'm sorry -- a current value, one would discount future
6 estimates and projections into a current value."
7 That was your sworn testimony at your deposition,
8 correct?
9 MR. FIELDS: Objection. He asked today about
10 estimated current value and this is talking about current
11 value. We're talking about two different values.
12 THE COURT: What difference does the word
13 "estimated" mean? These are all estimates. That is one of
14 your big points in this whole litigation, all estimates.
15 MR. FIELDS: Your Honor, the estimated current
16 value is a term of art that I know the Court has heard ad
17 nauseam about at this trial. And current value could be
18 viewed as --
19 THE COURT: Let's excuse the witness.
20 MR. AMER: My question was whether this was his
21 sworn testimony, yes or no.
22 THE COURT: All right. Start with that. Objection
23 overruled. This is his sworn testimony.
24 MR. FIELDS: You can't impeach him with something
25 that is not a prior inconsistent statement.

-F. Chin-Cross-Defendant-Mr. Amer- Page 5986

1 MR. AMER: That's his redirect.
2 MR. FIELDS: He asked about estimated current
3 value. This is not about estimated current value.
4 THE COURT: Was your question: Was this your
5 testimony at your deposition?
6 MR. AMER: Sworn testimony at his deposition. -
7 THE COURT: Thank you.
8 Objection overruled.
9 If you keep objecting like this, I'll have you
10 taken out of the room. Get that.
11 MR. FIELDS: I'm trying to represent my clients,
12 I'm certainly not trying to inflame the Court.
13 THE COURT: The question was a simple yes or no.
14 If you want to object to the follow-up, object to the
15 follow-up.
16 Ask it again, please.
17 Q Was this your sworn testimony at your deposition,
18 Mr. Chin, yes or no?
19 A Yes.
20 MR. AMER: We can take that down.
21 Q For Woodbridge, you gave us testimony about doing a
22 sellout of 15 luxury homes. Do you recall that testimony?
23 A I do.
24 Q And were those homes already built?
25 A No.

-F. Chin-Cross-Defendant-Mr. Amer- Page 5987

1 Q When -- if you were to value those 15 luxury homes for
2 purposes of a personal financial statement, would you agree that
3 you would need to determine how long it would take you to build
4 those homes and then discount to present value if you were
5 presenting in your financial statement estimated current value
6 of that development?
7 A No. Let me explain.
8 Q I don't need you to explain, I just need your answer;
9 yes or no?
10 THE COURT: The answer is no, there could be
11 re-direct if the Defendants want to ask for the explanation.
12 Q Now, did you review, I think you said you reviewed the
13 supporting data spreadsheets when forming your opinion, correct?
14 A Yes.
15 Q Did you review --
16 MR. AMER: Let's put up Plaintiff's 708 in native,
17 which is the 2013 Jeff supporting data spreadsheet, in
18 evidence.
19 (Shown.)
20 Q In this one of the spreadsheets you reviewed?
21 A It looks like it, yes.
22 MR. AMER: And if we go to Row 646.
23 (Scrolling.)
24 Q You'll see that this is the section that values the
25 seven mansions that had been approved but not yet built on the

-F. Chin-Cross-Defendant-Mr. Amer- Page 5988

1 property.
2 Do you see that?
3 A Yes.
4 Q It assumes a sales price for each residence of
5 \$35 million, correct?
6 A Correct.
7 Q And it assumes a cost to develop each residence of \$12
8 million for net profit 23 million per mansion, correct?
9 A Yes.
10 Q And could you tell me from this spreadsheet or any
11 other material you've reviewed when it was projected that the
12 first mansion will be built and ready for sale?
13 A It does not appear on this spreadsheet.
14 Q My question was little different, whether you could
15 tell from this spreadsheet or any other material you've
16 reviewed.
17 A Not that I recall.
18 Q And it could take a year or ten years to sell the first
19 home, right, you don't know based on the information you've
20 reviewed, correct?
21 A Correct.
22 Q Could you tell me from this spreadsheet or any other
23 material you reviewed how long it was projected to take for all
24 seven mansions to be hold?
25 A It wasn't evident, no, I could not.

-F. Chin-Cross-Defendant-Mr. Amer- Page 5989

1 Q So it could take a year or ten years to sell all seven
2 homes, you don't know from any of the information you reviewed,
3 correct?
4 A Correct.
5 Q Let me show you Mr. McConney's testimony discussing
6 valuation of the seven mansions at Page 717 of the trial
7 transcript beginning line 14:
8 "QUESTION: Am I correct that the value of \$161
9 million for the seven homes in Bedford does not apply any
10 discount factor to take into account how long it would take
11 to construct the infrastructure, build the homes and then
12 sell the home for \$35 million each?
13 "ANSWER: That's correct.
14 "QUESTION: You didn't factor into the valuation
15 whether the homes were going to be built today, tomorrow or
16 in a number of years?
17 "ANSWER: Correct.
18 "QUESTION: If it took five years to complete the
19 new homes and they were sold two years after that, your
20 valuation doesn't account for that at all, correct?
21 "ANSWER: Correct.
22 "QUESTION: Can we agree that this \$161 million
23 attributable to these seven homes is by necessity going to
24 be future income because the homes don't exist as of the
25 date of these valuations?

-F. Chin-Cross-Defendant-Mr. Amer- Page 5990

1 "ANSWER: Correct.
2 "QUESTION: You have treated for purposes of this
3 valuation the profit of 23 million per home for all seven
4 homes as if it were realized immediately as of June 30th in
5 each year?
6 "ANSWER: Yes."
7 Mr. Chin, were you aware of that Mr. McConney followed
8 this approach in valuing the seven mansions at Seven Springs?
9 A No, I'm not aware of what McConney thought or said or
10 did.
11 Q And in your expert opinion does the method described by
12 Mr. McConney to value the seven mansions result in an amount at
13 which the empty lots could be exchange as of June 30, 2013,
14 between a willing buyer and willing seller each of whom is well
15 informed and neither of whom is compelled to buy or sell; yes or
16 no?
17 MR. FIELDS: Objection.
18 THE COURT: What's the objection?
19 MR. SWAREZ: Outside the scope and he's not offered
20 as an accounting witness.
21 THE COURT: Mr. Amer, go ahead.
22 MR. AMER: The witness has testified about Seven
23 Springs and about valuations of properties in the Statements
24 of Financial Condition which he has reviewed. This is
25 perfectly proper cross-examination.

Page 5991

1 THE COURT: Let's do this. I think the question
2 did make sense. The objection was overruled for the reasons
3 Mr. Amer said. Maybe you could condense it, it went on for
4 quite awhile.
5 (Whereupon, Cheryl-Lee Lorient relieved Deborah
6 Rothrock as the official court reporter.)

Page 5992

1 Q. Is the method, in your expert opinion, that
2 Mr. McConney used to value the seven mansions and Seven
3 Springs a proper method?
4 A. It's a method.
5 Q. That wasn't my question whether it was a method.
6 My question was, is it a proper method that you, as an
7 expert in the field, would endorse?
8 A. No, it would depend on the circumstances that I
9 was being asked to evaluate.
10 As I mentioned before, at Woodbridge, I looked at
11 the exit prices of houses. And, that was the only
12 consideration.
13 Q. We have a context for this description. It's the
14 seven mansions at Seven Springs.
15 And you've reviewed the financial statements in
16 connection with how that valuation was done, right?
17 A. Yes.
18 Q. And you've reviewed the Jeff Supporting Data
19 Spreadsheet on that property, correct?
20 A. Yes.
21 Q. And we've just looked at Mr. McConney's testimony
22 as to the method he employed, right?
23 A. That's his testimony, correct.
24 Q. And so, for Seven Springs, am I correct that you,
25 as an expert, would not endorse his method?

Page 5993

1 Yes or no?
2 MR. SUAREZ: Same objection.
3 THE COURT: Overruled.
4 A. No, I would use, potentially, different methods
5 besides that approach. That is one approach, of many, of
6 looking at a, to-be-developed project that was proposed for
7 homes. And it depends if you're looking at it in the
8 future, without cost, at a different time period. There's
9 many ways to approach it.
10 Q. I will ask it a slightly different way. As an
11 expert, do you think Mr. McConney's method for valuing the
12 seven mansions at Seven Springs was reasonable "yes" or
13 "no"?
14 A. Yes. It is one method.
15 Q. I didn't ask if it was a method. I asked you if
16 you thought it was reasonable. Do you think it's reasonable
17 "yes" or "no"?
18 A. No. It's one of those that is of many different
19 dimensions and perspectives evaluation.
20 Q. Let me ask you some questions about appraisals
21 which you testified about on direct.
22 You identified a number of different types of
23 appraisals.
24 Do you recall that?
25 A. Yes.

Page 5994

1 Q. One of the types you identified was market value
2 appraisal. Do you recall that?
3 A. Yes.
4 Q. And, I think you said that, that's a type of
5 appraisal that lenders use; is that right?
6 A. Correct.
7 Q. I thought I heard you say -- but, you can correct
8 me if I'm wrong -- that, a market value appraisal looks at
9 what a willing buyer and willing seller would pay.
10 Did I get that right?
11 A. I don't know if -- I don't recall if I,
12 specifically, said that. But, embedded in a market value
13 definition, that is correct.
14 Q. And are you aware of the concept, in a market
15 value appraisal, of "highest and best" use?
16 A. Yes.
17 Q. And doesn't "highest and best use" incorporate the
18 concept of "as if" valuation if the highest and best use is
19 a use that is different from the current use of the
20 property?
21 A. Yes, it looks at potential uses that could apply
22 for a property. You're correct.
23 Q. So I just need to understand your prior testimony
24 that a market value appraisal is an "as is" appraisal. If
25 it is a "highest and best use" market value appraisal, then

F.Chin - Defendant - Cross/by Mr. Amer Page 5995

1 wouldn't it incorporate "as if" valuation to the extent that
2 the highest and best use is a use that is not the current
3 use of the property?
4 A. The highest and best use contemplates all sorts of
5 potential uses; legal, financial, regulatory and
6 environmental. And, it does contemplate a variety of
7 different potential uses; nothing specific.
8 So, it does contemplate what possible uses are for
9 a property. It isn't expressed specifically as "as if" and
10 it is available to a property owner as of the date of
11 valuation.
12 Q. Well, when you said that a market value appraisal
13 is an "as is" appraisal --
14 A. Yes.
15 Q. -- I mean, that's wrong to the extent that the
16 highest and best use that the appraiser takes into account
17 is a use that's not the current use of the property, right?
18 A. No, I disagree. The reason for "highest and best
19 use" is to look at its potential and alternatives of use
20 despite its current use. And that reflects the price that
21 would be paid for that potential as of the date of
22 appraisal.
23 Q. Do developers get to value a report for a use
24 that's higher and better than the highest and best use?
25 A. Not always.

F.Chin - Defendant - Cross/by Mr. Amer Page 5996

1 Q. What does it mean to say that a use a higher and
2 better than the "highest and best use" as appraisers use
3 that term?
4 A. So, appraisers look at "highest and best use" in
5 two different ways. As is or as vacant or as improved.
6 They will look at -- sometimes a situation will exist or
7 certain improvements on the property that don't put a
8 property to its highest and best use as a vacant.
9 So, for instance, if a gas station is on a corner
10 site and there are mid rise new apartments all around it,
11 the "highest and best use" of that site, as a vacant, would
12 be for that type of higher and better use.
13 As improved, that gas station might still be
14 economically productive. And, that could be the highest and
15 best use as it's improved.
16 Q. Is "as improved" synonymous with "as if"?
17 Yes or no?
18 A. No.
19 Q. Are you aware that there is an appraisal for Seven
20 Springs?
21 A. Are you referring -- yes, there is one regarding
22 the conservation easement.
23 Q. Let's go ahead and look at Defendant's Exhibit
24 1016 which is in evidence already.
25 THE COURT: Five minute warning.

F.Chin - Defendant - Cross/by Mr. Amer Page 5997

1 MR. AMER: I'm just waiting for them to get
2 your copy.
3 Q. You'll see there are page numbers on the lower
4 left. So let's go to -- if you go to page two, you'll see
5 this is an appraisal of Seven Springs estate as of
6 December 1, 2015.
7 Do you see that?
8 A. Yes, sir.
9 Q. Have you reviewed this appraisal in connection
10 with your expert work in this case?
11 A. Yes.
12 Q. If we go to page five, if you look at the very top
13 line, we can agree this is a market value appraisal, right?
14 It says "The following opinions of market value."
15 Do you see that?
16 A. (No response.)
17 Q. Top line.
18 A. Oh, yes. Thank you.
19 Q. So this is a market value appraisal, right?
20 A. Correct.
21 Q. And if we look at the glossary, which is page 65,
22 for the definition of "market value," that's a definition of
23 "market value" and "appraisals" that you're familiar with,
24 correct?
25 A. Yes. This one says, "The agency's appraisal

F.Chin - Defendant - Cross/by Mr. Amer Page 5998

1 regulation." So, I'm not familiar with the specific agency.
2 Q. The definition is "the most probable price which a
3 property should bring in a competitive and open market under
4 all conditions requisite to a fair sale the buyer and seller
5 each acting prudently and knowledgeably and assuming the
6 price is not effected by undue stimulus."
7 Do you see that?
8 A. Yes.
9 Q. Is that, in your opinion, synonymous with the
10 willing buyer, willing seller definition that -- was one of
11 the definitions you had in mind when reaching your opinions.
12 A. (No response.)
13 Q. Yes or no?
14 A. No. Only from a standpoint that this is a
15 specific agency that has its own definition. And I know
16 various governmental agencies, banks, have different
17 definitions of value which are very similar sounding. And
18 similar sometimes in content but, differ slightly.
19 Q. Doesn't this definition of market value include
20 "as if" evaluations?
21 A. No. This one is based on "as is".
22 Q. This one is based on "as is"?
23 A. It appears to be.
24 Q. Let's go to the prior page. You see there is a
25 separate definition at the top for "as is" market value?

<p>F.Chin - Defendant - Cross/by Mr. Amer Page 5999</p> <p>1 A. Yes. 2 Q. So, isn't it the case that there is "as is market 3 value" and then there's "market value" in this glossary? 4 There are two separate terms defined differently, yes? 5 A. It does appear that way, two different agencies 6 have different -- this is the office of the -- Office of 7 Comptroller of Currency and the other one says, "agency." 8 And, I'm not sure what agency that is. 9 Q. And the "as is market value" says, "The estimate 10 of the market value of real property in its current physical 11 condition use and zoning as of the appraisal date." That's 12 your "as is" valuation, correct? 13 A. Correct. That's what's defined. 14 Q. And market value, which is defined on the next 15 page, which talks about buyer and seller, that includes the 16 concept of "as is" because, it can take into account future 17 development of the property; isn't that right? 18 A. Its embedded, yes. It's embedded in the "highest 19 and best use" analysis. 20 Q. And if you go to the prior page, there's something 21 known as hypothetical conditions. You know what those are 22 correct, right? 23 A. Yes. 24 Q. If we look at that, a condition directly related 25 to a specific assignment which is contrary to what is known</p>	<p>F. Chin - Defendant - Cross/Mr.Amer Page 6001</p> <p>1 improved" and under "as improved" it says, "A subdivision of 2 the subject parcels and development of a single family 3 residential development, including 24 vacant residential 4 lots." 5 That's "as if," isn't it? 6 A. It appears to be, yes. 7 Q. And if we go to "highest and best use" in the 8 definition of it on page 33, of the appraisal, that's the 9 section that defines "highest and best use," correct? 10 A. Yes. 11 Q. And, if we look at the "highest and best use" of 12 the property as vacant, that would apply to the vacant lots 13 that are going to be developed into the 24 homes, correct? 14 A. I believe so, yes. That's what I recall. 15 Q. And under "highest and best use" the criteria is 16 that it must be, legally, permissible, yes? 17 A. Yes. 18 Q. It must be, physically, possible, yes? 19 A. Yes. 20 Q. And it must be financially feasible and maximally 21 productive, correct? 22 A. Correct. 23 Q. Mr. Chin, does a developer, in coming up with a 24 value, an "as if" value, have to comply with those same 25 criteria; namely, does the developer's, "as if" value need</p>
<p>F. Chin - Defendant - Cross/Mr.Amer Page 6000</p> <p>1 by the appraiser to exist on the effective date of the 2 assignment results but, is used for purposes of the 3 analysis. 4 That's "as if", right? 5 A. Correct. 6 Q. So, this market value appraisal includes "as if" 7 valuation, doesn't it? 8 A. No. 9 MR. AMER: I don't know if I'm at my five 10 minutes yet. 11 THE COURT: Basically, yes. All right. See 12 you all at 3:55. 13 And, I'll order the witness not to discuss 14 the case or his testimony. 15 THE WITNESS: Understood. Thank you. 16 (A recess was taken.) 17 (After the recess the following occurred:) 18 THE COURT: Please, continue. 19 MR. AMER: Thank you, your Honor. 20 CROSS EXAMINATION 21 BY MR. AMER: 22 Q. Mr. Chin, I want to ask you a few more questions 23 about the Seven Springs appraisal. If we go to page seven 24 of the appraisal, and look at the section entitled "highest 25 and best use," you see it says "as vacant" and then "as</p>	<p>F. Chin - Defendant - Cross/Mr.Amer Page 6002</p> <p>1 to be based on a use that's, legally, permissible, 2 physically possible and financially feasible and maximally 3 productive? 4 Yes or no? 5 A. No. 6 Q. So a developer's "as if" value can be based on a 7 use that is, legally, impermissible; is that your testimony? 8 A. No. 9 Q. So, a developer's "as if" value has to be based on 10 a use that is, legally, permissible, is that your testimony? 11 A. No. 12 Q. Okay. 13 A. May I explain? 14 Q. No. 15 And a developer's "as if" value, in your opinion, 16 can be based on a use that is, physically, impossible is 17 that your opinion, yes or no? 18 A. No. 19 Q. So, a developer's "as if" value has to be based on 20 a use that is, physically, possible, yes? 21 A. Yes. 22 Q. And a developer's "as if" value, does it need to 23 be based on a use that's, financially, feasible and 24 maximally productive. 25 Yes or no?</p>

F. Chin - Defendant - Cross/Mr.Amer Page 6003

1 A. No.
2 Q. Now, if you turn to page 37, you'll see there is a
3 scenario, "One approach, before donation, that envisions a
4 subdivision sellout analysis."
5 Do you see that.
6 A. (No response.)
7 Q. Page 37?
8 A. Yeah, I'm sorry. I was looking at the Bates
9 number versus the -- sorry. My apologies.
10 Yes.
11 Q. And that's an "as if" valuation method, correct?
12 "Subdivision sellout analysis?"
13 A. Yes.
14 Q. And, if we turn to page 51, you'll see there's a
15 further discussion of the sell-out analysis.
16 Do you see that?
17 A. Yes.
18 Q. And, if you'll turn to the next page, am I correct
19 that the sell-out analysis projects, over five years, the
20 number of homes that would be sold in each year, right?
21 A. Yes.
22 Q. And, on the next page, the appraiser does a
23 present value analysis to come to the sell-out analysis
24 value, correct?
25 A. Correct.

F. Chin - Defendant - Cross/Mr.Amer Page 6004

1 Q. And is it your testimony, expert testimony, that,
2 a developer doing an "as if" value does not need to do that
3 calculation?
4 A. Yes, it is my opinion.
5 Q. So, they can just come to a value without
6 projecting out over how many years it would take to build
7 and sell the homes.
8 Is that your opinion?
9 A. Yes. In the context of the Statement of Financial
10 Condition and that representation, yes.
11 Q. In your view, that still gets to an estimated
12 current value.
13 Yes or no?
14 A. Yes. According to the Statement of Financial
15 Condition and the conditions of that.
16 Q. Okay. Does that get to a value that a willing
17 buyer and a willing seller would exchange the property for
18 in your view?
19 A. No, not necessarily.
20 Q. And, it's your view that a developer doing an "as
21 if" value, doesn't need to calculate the present value as of
22 the date of the statement of financial condition; is that
23 right?
24 A. Correct.
25 Q. And, is it your opinion that even though there's

F. Chin - Defendant - Cross/Mr.Amer Page 6005

1 no present value calculation done, the developers "as if"
2 value is still an estimated current value?
3 A. Yes, for purposes of the Statement of Financial
4 Condition.
5 Q. And, is it your expert opinion that, that value is
6 what the property would be exchanged at between a willing
7 buyer and a willing seller, both of whom are fully informed
8 and neither of whom is under a compulsion to buy?
9 A. No, not necessarily.
10 Q. That's because any willing buyer, who is fully
11 informed and not under a compulsion to buy, would calculate
12 the present value, right?
13 A. They may. They may not.
14 Q. Can you think of any circumstances where a willing
15 buyer would agree to pay, based on a future profit, that's
16 not discounted to present value?
17 A. Yes, I could.
18 Q. What would that be?
19 A. Something that might be a staged transaction. So
20 a price is agreed upon now, with basic hurdles, to perform
21 and construct certain improvements over time.
22 Q. But, if you're valuing the property as of the date
23 of the financial statement and you're saying that's the
24 value that a willing buyer would pay, who's fully informed
25 and not under a compulsion to buy, wouldn't you agree that,

F. Chin - Defendant - Cross/Mr.Amer Page 6006

1 that buyer would insist that any future profit, that's part
2 of the value, be discounted to the present value of the date
3 of the financial statement?
4 A. No, not necessarily.
5 Q. Let's turn to the concept of a developers
6 perspective of value. And we've been talking a little bit
7 about that.
8 In your expert opinion, does there need to be a
9 reasonable, factual basis for the developer's perspective of
10 value that he puts in a Statement of Financial Condition?
11 A. Yes.
12 Q. And would you agree that it would be improper for
13 a developer to put in a Statement of Financial Condition a
14 perspective of value that is based on pie in the sky dreams
15 of concocted value?
16 A. I would agree with that.
17 Q. Let's talk about Trump Park Avenue.
18 You testified about that on direct, right?
19 A. Yes.
20 Q. And you understand that Trump Park Avenue is one
21 of the properties valued in Mr. Trump's Statement of
22 Financial Condition from 2011 to 2021, right?
23 A. Yes.
24 THE COURT: A little closer to the mike a
25 little louder; one or the other.

F. Chin - Defendant - Cross/Mr.Amer Page 6007

1 MR. AMER: Let's put up 708 native, which is
2 the 2013 Jeff Supporting Data Spreadsheet in evidence
3 that we were looking at before. And if we could go to
4 row 166, which is where -- that's where
5 trump@parkavenue begins.
6 If you look at row 172, you'll see it says,
7 "unsold units." And, in 2013, the value for the unsold
8 units is almost \$327 million.
9 Do you see that?
10 A. Yes.
11 Q. And, can we agree that, that is nearly the entire
12 total value of the property which is shown on row 187 at
13 346.1 million?
14 A. Yes.
15 Q. And, you're aware that some of the unsold units
16 that make up the value, in row 172, are a part and subject
17 to rent stabilization laws, right?
18 A. Yes.
19 Q. And I believe you testified that you have your own
20 personal business experience evaluating a rent stabilized
21 apartment in New York City, correct?
22 A. Or selling it, then valuing it.
23 Q. And that is when you were CEO of Woodbridge; is
24 that right?
25 A. Correct.

F. Chin - Defendant - Cross/Mr.Amer Page 6008

1 Q. And the company owned the rent stabilized
2 apartment that was located on the Upper East Side; is that
3 right?
4 A. Yes, sir.
5 Q. Do you remember the address of the building?
6 A. I don't. But, I am happy to get it for you.
7 Q. And, am I correct that your company purchased the
8 shares to own that co-op apartment, in 2019, on the basis of
9 an appraisal that did not disclose the fact that the
10 apartment was subject to rent stabilization laws?
11 Yes?
12 A. No, I believe we made a loan to someone on the
13 basis of that appraisal. And then, I believe the borrower
14 defaulted. So then, the company received, essentially, a
15 deed in lieu. And that's how we received the title to the
16 unit.
17 Q. But the appraisal did not disclose that the unit
18 was rent stabilized, right?
19 A. That was our argument when we were looking back
20 and doing our forensic analysis of this transaction.
21 Q. So, you made the loan based on the appraisal
22 believing that the apartment was a free market apartment
23 only to later find out that it was rent stabilized; is that
24 right?
25 A. I didn't make the loan. This pre-existed my

F. Chin - Defendant - Cross/Mr.Amer Page 6009

1 tenure at the company. It was done many years before.
2 Q. Well, isn't it a fact that your company considered
3 suing the appraisers and the attorneys who were involved in
4 the sale of the unit based on the fact that the appraisal
5 didn't disclose that the apartment was rent stabilized,
6 right?
7 A. Yes.
8 Q. And, I think you mentioned this but, let's just
9 confirm. During negotiations to buyout the tenant, the
10 tenant indicated that she had relatives, I think including
11 grandchildren, right, who were going to come move into the
12 apartment?
13 A. Yes, or had been, actually, having rooms there.
14 Q. And you understood, at the time, that there were
15 succession rights to tenancy with respect to rent
16 stabilization, right?
17 A. Yes.
18 Q. And you mentioned the terms of the buyout
19 consisting of a payment of, approximately, half a million
20 dollars to the tenant, is that right?
21 A. Correct. Might have been 525,000. Somewhere in
22 that area.
23 Q. Aren't you leaving out another component of the
24 buyout?
25 A. I don't believe so.

F. Chin - Defendant - Cross/Mr.Amer Page 6010

1 Q. Didn't the buyout also include a profit sharing
2 arrangement with the tenant if the sales price hit a certain
3 point?
4 A. Oh, yes. You're correct.
5 Q. Uh-huh. Okay. So you paid the tenant a little
6 \$500,000 but, you also agreed to a profit sharing
7 arrangement, with the tenant, based on the sale price,
8 correct?
9 A. If a sale price exceeded a certain amount then,
10 the tenant would participate in that amount over a hurdle
11 rate that we had established.
12 Q. Do you recall if the ultimate sale price, which I
13 believe you said was almost \$2 million, triggered the profit
14 sharing arrangement under the buyout deal?
15 A. I believe it did.
16 Q. And so, I think you said the net profit was
17 somewhere between 1.3 and 1.5 million after taking into
18 account the amount you had to pay for the buyout, right?
19 A. That as well as closing costs and I think we had
20 some legal fees as well. It was the net recovery that we
21 could get back from the sale.
22 So we look at all the different costs besides just
23 the buyout; the legal cost, I think we had to replace an
24 electric panel and a couple of other things.
25 Q. So I'm just trying to understand the math. If the

<p>F. Chin - Defendant - Cross/Mr.Amer Page 6011</p> <p>1 buyout was slightly over \$500,000, and there was a profit 2 share and you sold the unit for just under 2 million, the 3 net profit had to be closer to the 1.3. It couldn't have 4 been 1.5, right? 5 A. I don't recall the exact closing price because, it 6 closed after I left the company. I think there was some 7 concession that might have been made to the buyer. So, I'm 8 not sure what the exact proceeds are. 9 Q. Do you agree that if an owner of a rent stabilized 10 apartment wanted to value the apartment, for purposes of a 11 personal financial statement, based on what the apartment 12 would sell for on the open market, the owner would need to 13 include in the value calculation the cost to remove the 14 legal restriction to the sale that exists under rent 15 stabilization laws? 16 A. Yes. If you use the exit price being unencumbered 17 as the amount you would deduct that from. 18 (Whereupon, the following proceedings was 19 stenographically recorded by Deborah Rothrock.) 20 21 22 23 24 25</p>	<p>-F. Chin-Defendant-Cross-by Mr. Amer- Page 6013</p> <p>1 valuations, correct? 2 "ANSWER: Yes." 3 Then we tick off the 12 units that were rent 4 stabilized and then picking up line 17: 5 "QUESTION: And you valued them without any regard 6 to their rent stabilized status; is that correct? 7 "ANSWER: I didn't value them, TIR valued them, but 8 I believe that's correct. 9 "QUESTION: You put them into your spreadsheet that 10 is goes to Donald Bender; is that correct? 11 "ANSWER: Correct. 12 "QUESTION: And the values you relied on when you 13 put them in your spreadsheet and sent them to Donald Bender 14 were the offering plan price values knowing that these were 15 rent stabilized units, correct? 16 "ANSWER: Correct. 17 "QUESTION: And you followed the same approach for 18 every statement you reviewed, correct? 19 "ANSWER: Correct. 20 "QUESTION: And it was intentional, correct? 21 "ANSWER: Correct. 22 "QUESTION: And it was something you discussed with 23 Mr. Weisselberg, correct? 24 "ANSWER: I believe so, yes. 25 "QUESTION: And he agreed that that was the way</p>
<p>-F. Chin-Defendant-Cross-by Mr. Amer- Page 6012</p> <p>1 Q Let me ask you a hypothetical: 2 Consider a situation where someone owns 20 apartments 3 in a New York City building and ten of them rent stabilized. 4 Would you agree if the owner values all 20 apartments 5 in his personal financial statement to be provided to a bank as 6 if they are all free market units without disclosing that half 7 are subject to rent stabilization laws, that would be a pretty 8 significant omission that should be disclosed; yes? 9 A In that hypothetical, I would agree with that. 10 MR. AMER: Let's go ahead and put up Plaintiff's 11 Exhibit 708, native. 12 (Shown.) 13 Q Did you review how the figure in Row 172 was derived? 14 A I don't recall. 15 Q Do you have any understanding as you sit here today as 16 to how that value of just under \$327 million was calculated? 17 A I don't recall. 18 Q Have you reviewed any of the testimony of Mr. McConney 19 given at the trial about how the value was calculated? 20 A No. 21 Q Let me go ahead and show you his trial testimony at 22 transcript Page 711, starting at line 7. And it goes over to 23 the section on the following page as well: 24 "QUESTION: Mr. McConney, you were aware that Park 25 Avenue had these rent stabilized units when you prepared the</p>	<p>-F. Chin-Defendant-Cross-by Mr. Amer- Page 6014</p> <p>1 that you were going to do it, correct? 2 "ANSWER: Yes. " 3 Do you see in this description that Mr. McConney says 4 that the rent stabilized units were valued based on the offering 5 plan prices? 6 A That is what it appears the testimony to be, yes. 7 Q And would you agree that by using offering plan pricing 8 of the units without deducting the cost to remove the legal 9 restrictions that exist under rent stabilization laws, Mr. 10 McConney and Mr. Weisselberg inflated the value of those units, 11 yes? 12 A No, they provided a perspective of value that was based 13 upon their analysis that was shared with Mazars. 14 Q So you think it is fine for them to have valued the 15 rent stabilized apartments based on using offering plan prices 16 without disclosing in the statements that that is what they were 17 doing, is that your expert opinion? 18 A No. Mine was if it was disclosed -- I don't know 19 because I didn't read this testimony and I wasn't there, but it 20 was disclosed to Mazars so... 21 Q Well -- 22 A I would need to look at what they might have said or 23 didn't say in their Statement of Financial Condition. 24 Q Do you know if it was disclosed to the reader of the 25 Statement of Financial Condition?</p>

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6015

1 A Not off the top of my head.
2 Q Well, let's look at Plaintiff's Exhibit 707 which is
3 the Statement of Financial Condition for 2013.
4 (Shown.)
5 Let's turn to Page 10 of 25.
6 You'll see that has the description of estimated
7 current value for Trump Park Avenue on the top paragraph, you
8 see that?
9 A Yes.
10 Q And it says (Reading:) The estimated current value of
11 346.1 million is based upon an evaluation made by Mr. Trump in
12 conjunction with his associates and outside professionals of the
13 amount that he will earn as a result of the sale of the
14 remaining condominiums as well as the residual value of the
15 commercial space.
16 Can we agree there's no mention of the fact that some
17 of the remaining condo units are subject to rent stabilization
18 laws but were valued based on offering plan prices?
19 A No, it says (Reading:) As a result of the sale the
20 remaining condominium units.
21 It is not explicit as to rent stabilized or not but
22 this would infer that it says we're selling the remaining
23 condominium units.
24 Q My question simply is whether this discloses to the
25 reader of the statement that some of the units are rent

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6016

1 stabilized and yet were value based on offering plan prices?
2 Do you see that information disclosed anywhere in this
3 paragraph?
4 A No.
5 Q Would you agree that the failure to disclose that some
6 of the condo units were rent stabilized and yet were valued at
7 their offering plan prices without regard to their rent
8 stabilization status was a pretty significant omission?
9 MR. FIELDS: Objection. Lack of foundation. It is an
10 accounting question.
11 THE COURT: Overruled.
12 A It would have been helpful to include.
13 Q That wasn't my question.
14 A That was my answer but please go ahead.
15 MR. AMER: Could I get a readback so that I could
16 get an answer to my question.
17 (Whereupon, the requested portion of the record was
18 read.)
19 Q Would you agree that the failure to disclose that some
20 of the condo units were rent stabilized and yet were valued at
21 their offering plan prices without their rent stabilization
22 status disclosed is a pretty significant omission; yes or no?
23 A No. May I explain?
24 Q Let me show you some testimony from your deposition.
25 THE COURT: He asked if he could explain.

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6017

1 MR. AMER: No.
2 Q Let me show you testimony from your deposition. It's
3 Page 168 and it starts on line 3. And this is the part of your
4 deposition where you were discussing with my colleague the co-op
5 that you were selling that was rent stabilized.
6 "QUESTION: I mean what if I'm presenting a value
7 of a building where I own certain units and I don't disclose
8 that some of them are subject to rent stabilization or I
9 value them as free market?
10 "ANSWER: I think that's a pretty significant
11 omission that should be disclosed."
12 That was your testimony in response to those
13 questions, right?
14 A Yes.
15 Q Let me ask you some questions about 40 Wall Street.
16 MR. AMER: Let's go ahead and put up Plaintiff's
17 Exhibit 1573.
18 (Shown.)
19 Q You testified about this. This is the 2011 appraisal
20 for 40 Wall Street.
21 Do you recall testifying about this on direct?
22 A Yes.
23 MR. AMER: And let's go ahead and look at Page 3.
24 (Shown.)
25 MR. AMER: If we could go forward to Page 3 of the

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6018

1 actual appraisal.
2 (Scrolling.)
3 Q Do you see that this appraisal indicates that there are
4 no extraordinary assumptions or hypothetical conditions, do you
5 see that?
6 A Yes.
7 Q If there had been, would this be an "as if" appraisal?
8 A Yes.
9 Q So, the mere fact that it is a market value appraisal
10 doesn't determine if it is "as is or "as if", you have to look
11 if there are hypothetical conditions that are being accounted
12 for; is that fair?
13 A Yes, and usually the appraisers are pretty good about
14 making note of that that it is a different viewpoint than "as
15 is."
16 MR. AMER: Let's go to Page 169. Blow up the top
17 two charts.
18 (Shown.)
19 Q Now we looked at this page, correct?
20 A Yes.
21 Q And you indicated --
22 MR. AMER: Just go down a little more.
23 Q You indicated that the estimated capitalization rate to
24 be seven percent, you noted that the low was 4.21 and high 6.74.
25 Do you recall that?

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6019

1 A Yes, sir.
2 Q And I believe the Judge asked you if you saw any
3 explanation from Cushman in this appraisal for why they choose
4 the seven percent. Do you recall that exchange?
5 A I recall that, yes.
6 Q I think your testimony was that you didn't see any
7 explanation, right?
8 A Correct.
9 MR. AMER: Could you go a little further down on
10 the page.
11 (Scrolling.)
12 Q You see the paragraph that is just below the bottom box
13 that says Statistics. I'll read it:
14 "The current market conditions require higher rates as
15 a result of the recent credit market correction in the context
16 of the direct capitalization method, a going in rate of seven
17 percent is considered reasonable compensating the typical buyer
18 for the risk inherent in investing in this building."
19 Do you see that?
20 A Yes, I do.
21 Q Isn't that explanation of why the appraiser chose the
22 seven percent, just yes or no?
23 A It is not, No.
24 Q Now, we looked at the 2015 appraisal which is
25 Plaintiff's Exhibit 118. If we could pull that up. And

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6020

1 Page 170, there is a selection here of a cap rate that was
2 within the range of the high and low, right?
3 A Yes.
4 Q I believe your testimony was that this appraisal was
5 much more accurate and in line with market information than the
6 earlier appraisals, is that right?
7 A Correct.
8 MR. AMER: Could we go ahead and pull up
9 Plaintiff's demonstrative Exhibit 3 and go to the page that
10 has 40 Wall Street.
11 (Shown.)
12 Q By the way, do you recall what the value was for the
13 2015 appraisal that you said was more accurate and in line with
14 market information?
15 A I believe it was \$540 million.
16 Q And it is the case that the value used in the Statement
17 of Financial Condition for 2015 was nearly \$200 million more
18 than that 2015 appraised value, correct?
19 A Yes.
20 Q And it was almost \$250 million more than the value used
21 in the 2016 Statement of Financial Condition, correct?
22 A Correct.
23 Q And the Morning Star analysis also reached a value of
24 \$540 million, correct?
25 A I believe Morning Star was more like 260 million, 267

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6021

1 million. It cited the Cushman appraisal of 540, but I believe
2 their own calculation was somewhere, if I recall, 267.5 million,
3 something around there.
4 Q That is hundreds of dollars even lower than the Cushman
5 2015 appraisal, correct?
6 A Yes.
7 MR. AMER: We are right at 4:30.
8 THE COURT: Just to get more done, I was hoping to
9 go to 4:45. If that is impossible. Let's keep going.
10 MR. AMER: We can.
11 Q On direct examination you offered your expert opinions
12 about the quality of the 2011 and 2012 Cushman appraisals; is
13 that correct?
14 A Yes.
15 Q And your opinions are critical of the quality of the
16 2011 and 2012 Cushman appraisals; is that fair?
17 A Yes.
18 Q You expressed your expert opinion that those appraisals
19 were underestimating the "as is" values of 40 Wall Street; is
20 that fair?
21 A Yes, relative to 540 and some of the analysis that I
22 prepared.
23 Q Now, Mr. Chin, I think you confirmed you are a member
24 of The Appraisal Institute, so you are what is known as MAI for
25 short, right?

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6022

1 A Yes.
2 Q Am I correct that as an MAI appraiser you are required
3 to adhere to the Uniformed Standards of Professional Appraisal
4 Practice known as USPAP for short?
5 A Yes, for conducting specific property appraisals, yes.
6 Q Am I correct as an MAI appraiser you are required to
7 adhere to USPAP in the preparation, analysis and reporting of
8 appraisal results, right?
9 A Yes, under the USPAP standards, correct.
10 Q You're familiar with something known as an appraisal
11 review under USPAP?
12 A Yes.
13 Q And I think you testified about some notable cases that
14 you handled and you mentioned a case involving Calpers. Did I
15 get that right?
16 A It wasn't a case, it was an ongoing consulting
17 assignment.
18 Q And I think you said that for that Calpers assignment
19 you reviewed dozens of appraisals; is that right?
20 A Yes, every quarter.
21 Q Were those appraisal reviews?
22 A They were appraisal reviews based upon an agreement
23 with Calpers.
24 Q So, you understand the standards under USPAP that apply
25 to appraisal reviews, correct?

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6023

1 A As following USPAP, correct.
2 Q And you complied, I presume, with those standards when
3 you did the appraisal reviews for the Calpers engagement; is
4 that right?
5 A Generally, I believe we had an agreement that I was
6 doing file memoranda, that basically, I think, mimic USPAP, but
7 it wasn't per se. I don't know if it was verbatim how bank
8 appraisers do an individual appraisal review for very specific
9 property.
10 MR. AMER: Let's go ahead and look at Plaintiff's
11 Exhibit 3397 which are the USPAP standards.
12 (Shown.)
13 Q Let me ask you just to confirm something.
14 This says that they're effective through December 31st,
15 2021.
16 Is it your understanding that these standards have been
17 extended through the end of this year?
18 A I believe so.
19 MR. AMER: So, your Honor, if we could, I would
20 distribute this exhibit. This is a new exhibit, it is not
21 in evidence.
22 (Handing.)
23 THE WITNESS: Thank you.
24 Q And if we could turn to Page 5 of 34. You'll see
25 there's a definition of Appraisal Review.

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6024

1 Do you see that?
2 A Yes.
3 Q I'm going to read it: "Appraisal review when used as a
4 noun means the act or process of developing an opinion about the
5 quality of another appraiser's work, i.e., a report, part of a
6 report, a work file or some combination of these that was
7 performed as part of an appraisal or an appraisal review
8 assignment."
9 Do you see that?
10 A Yes.
11 Q Because we've established that you rendered an opinion
12 about the quality of the Cushman 2011 and 2012 appraisals, would
13 you agree that your opinions constitute an appraisal review as
14 defined by USPAP in this paragraph; yes or no?
15 A No. There is something that --
16 Q I just asked yes or no. You've answered my question.
17 So it's your view that what you did with respect to the
18 2011 and 2012 Cushman appraisals was not appraisal review as
19 defined by USPAP; is that your testimony?
20 A Yes. In the context of the overall statement of
21 financial condition and as I recorded in my report which was
22 looking at the totality of a Statement of Financial Condition
23 and the various entries for all the different properties in all
24 the different years.
25 Q When an MAI does an act or process of developing an

-F. Chin-Defendant-Cross-by Mr. Amer- Page 6025

1 opinion about the quality of another appraiser's work, they need
2 to comply with USPAP Standard 4 which relates to appraisal
3 reviews, correct?
4 A Yes, if there's an assignment to do a specific
5 appraisal review.
6 Q And you did not believe that your critique of the 2011
7 or 2012 Cushman appraisals triggered your obligation to follow
8 those standards because in your view you were weren't doing an
9 appraisal review; is that fair?
10 A Correct.
11 Q And so you, in fact, did not follow the standards laid
12 out USPAP for engaging in the act or process of developing an
13 opinion about the quality of another appraisers's work, right?
14 A No, that is not correct.
15 Q Did you -- let's look at 4.3, which is on Page 30.
16 You see Standard 4.3 requires a certification as an
17 integral part of the appraisal review report; do you see that?
18 A Yes.
19 Q Can we agree you did not produce a signed certification
20 that meets the requirements of 4.3?
21 A That's correct.
22 MR. AMER: If you give me a minute, your Honor.
23 THE COURT: Of course.
24 (Whereupon, there is a pause in the proceedings.)
25 THE COURT: Let's go ahead.

Page 6026

1 MR. AMER: Your Honor, I have no further questions.
2 THE COURT: We can break five minutes early.
3 MR. AMER: Well, do they have re-direct?
4 THE COURT: Could you start your re-direct?
5 Are you going to have re-direct.
6 MR. FIELDS: I expect so and it will probably be
7 longer than five minutes. Could we break for the evening.
8 THE COURT: Sure.
9 I'll direct the witness again not to discuss his
10 testimony or this case.
11 (Witness exits.)
12 (Whereupon, the trial stood adjourned to December
13 5, 2023 at 10:00 a.m.)

 (Whereupon, appearances continued on the following page.)

Page 6029

1 THE COURT: Good morning, everyone. Will
 2 there be any redirect of the previous witness.
 3 MR. SUAREZ: Yes, your Honor.
 4 MR. AMER: Your Honor, we have a different
 5 lawyer for redirect. I don't think that's appropriate.
 6 MR. SUAREZ: I'm glad you noticed, Mr. Amer.
 7 MR. KISE: Mr. Fields had a previous
 8 engagement that precluded him from being here. We all
 9 represent the same clients. And, if Mr. Fields was,
 10 medically, infirmed, or out ill, I don't think there's
 11 any preclusion. The same lawyer doesn't have to do it.
 12 It's just the same law firm that's representing the
 13 client.
 14 I'm unaware of any rule or procedure. We'll
 15 differ to CPLR expert. But, I'm not aware of any
 16 procedure. We all represent the same clients, at
 17 least, among Mr. Suarez, Mr. Fields and myself.
 18 MR. ROBERT: I'm not aware of any
 19 prohibition about that.
 20 THE COURT: I don't think, particularly,
 21 because -- you're from the same law firm?
 22 MR. ROBERT: Yes.
 23 THE COURT: I can't imagine -- Mr. Amer is
 24 there any authority or reason --
 25 MR. AMER: I'm fine to withdraw the

1 objection. I didn't know the explanation, that,
 2 Mr. Fields was otherwise engaged. But, let's just go
 3 ahead.
 4 THE COURT: I'm sure he wasn't fired. I
 5 mean, he did a fine job.
 6 MR. KISE: No, he was not.
 7 THE COURT: Okay.
 8 MR. WALLACE: I think the answer was, if he
 9 was here, he should do the rest of the redirect. But,
 10 Mr. Kise is representing he's not here. So, that's
 11 fine.
 12 THE COURT: I will represent he's not here.
 13 I got a good view. I don't see him anywhere. Okay.
 14 Mr. Suarez.
 15 THE WITNESS: Good morning.
 16 THE COURT: Mr. Chin, let's begin.
 17 MR. SUAREZ: I won't take it personally that
 18 they prefer Mr. Fields to me. It's not the first time
 19 that's happened. He's a lot more charming.
 20 THE COURT: I will remind the witness he is
 21 still under oath as I'm sure you know.
 22 THE WITNESS: Thank you.
 23 REDIRECT EXAMINATION
 24 BY MR. SUAREZ:
 25 Q. Mr. Chin, yesterday you discussed with the

F.Chin - Defendant - Redirect/Mr. Suarez Page 6031

1 government ASC 274. How did you obtain your understanding
2 of the definition of the term estimated current value?
3 A. I asked one of the accounting experts at Ankura
4 for definitions of estimated current value.
5 Q. And, how did you obtain your understanding of
6 ACS-274 for purposes of the opinions that you have offered
7 in court?
8 A. When I received the information, I looked at both
9 the definition as well as the methods that are used to
10 calculated estimated current value.
11 Q. And what is your understanding, for purposes of
12 the opinions that you've offered here at trial, of the
13 definition of estimated current value contained in ASC-274?
14 A. There are, certainly, many ways of calculating it,
15 the estimated current value, and there are a number of
16 methods that are suggested by that documentation.
17 MR. WALLACE: I'll move to strike because
18 the question was, what's his understanding of the
19 definition, not what are the methods that can be used
20 to get there. So, it's non-responsive.
21 MR. KISE: Your Honor, those are one in the
22 same. I noticed that in my absence yesterday there was
23 a gross mischaracterization of the prior testimony of
24 Mr. Flemmons in a deliberate attempt by the government
25 to --

F.Chin - Defendant - Redirect/Mr. Suarez Page 6032

1 MR. WALLACE: Do we want to excuse the
2 witness?
3 MR. KISE: We can do that. That's fine.
4 The witness just answered as to what his
5 understanding is, and that understanding, as he just
6 testified, includes the methods.
7 That's consistent with what Mr. Flemmons
8 testified to. That's consistent with what all the
9 accounting experts testified to.
10 The only thing it's not consistent with is
11 their misleading interpretation of the definition of
12 estimated current value.
13 By taking a 202 Statement and saying, "Oh,
14 well, you've admitted that this is the definition." No
15 we admitted that that's what it says. And, given where
16 we were, if we didn't -- if we didn't admit that the
17 actual statement in the ECV is what it says, then I'm
18 likely to have faced some kind of sanction.
19 So if you look at the remainder of the 202
20 Statement, it becomes apparent. If you look at the
21 expert testimony, if you look at everything that
22 anyone, with actual knowledge of this subject, that's
23 come into this Court to say other than the government,
24 that it's altogether.
25 And so, this witness is being asked what's

F.Chin - Defendant - Redirect/Mr. Suarez Page 6033

1 his understanding. He provides his understanding.
2 He's not an accountant. We went round and round with
3 that many times I saw yesterday. And, he's just going
4 to give his understanding.
5 What his understanding is doesn't have any
6 actual basis, ultimately, on the Court's determination
7 of the definition because, that would be the province
8 of accounting experts.
9 And as Mr. Amer pointed out yesterday and as
10 the witness testified to, he's not an accounting
11 expert. So, all we're really trying to get at is what
12 was in his head.
13 I think your Honor made this point yesterday.
14 We're just trying to get at what was in his head when
15 he provided his opinions. So, his answer is his
16 answer. That's it.
17 They've asked him about it. They've put up,
18 again, a mischaracterization of the record by showing
19 him only part of it. They've prohibited this witness
20 from explaining what he meant.
21 So we're just on redirect asking him "What's
22 your understanding?" I think it's perfectly
23 acceptable. And his understanding is necessarily going
24 to be limited by his lack of real knowledge of
25 accounting principles.

F.Chin - Defendant - Redirect/Mr. Suarez Page 6034

1 We're just trying to get at what this witness
2 has to say about how it impacted his decisions. That's
3 it. But, I don't think his answer was nonresponsive.
4 THE COURT: Well, Mr. Kise, we missed you
5 yesterday. But, I'm not going to revisit the rulings.
6 Your statement that the question or that the
7 202 Statement was simply, "Yes, that's what it says," I
8 don't, necessarily, agree with that.
9 Mr. Amer, do you agree with that statement he
10 made?
11 MR. AMER: I don't. I think the 202
12 paragraph was clear. I think it was undisputed. Its
13 deemed admitted for purposes of this trial. And, we
14 could all read English. We know what the 202 Statement
15 said.
16 It said that under GAAP ASC 274, the
17 definition of estimated current value means -- and
18 then, it sets forth a definition. They did not dispute
19 that. So that has legal consequences. And they can't
20 try and redo their response to the 202 paragraph now.
21 I think we all know what's going on here,
22 your Honor. My objection was very simple. He was
23 asked what his understanding of the definition was.
24 And, instead, he gave a response that
25 discussed the methods you can use to get to estimated

F.Chin - Defendant - Redirect/Mr. Suarez Page 6035

1 current value. Those are two different things. The
 2 definition is one thing. And the methods you used to
 3 get there are another.
 4 So, that's why I think his answer was
 5 unresponsive, your Honor. So if they want to ask him
 6 about the methods, that's a different question.
 7 MR. KISE: So, your Honor, as Mr. Flemmons,
 8 who's the only accounting expert that's testified about
 9 this, has testified, they're altogether. It's not that
 10 there's one piece and two pieces. It's all one piece.
 11 And so, if you use any of the methods -- this
 12 is the part that was misleading. If you use any of the
 13 methods, you, by definition, get back to estimated
 14 current value. So, if you have a top line, then you
 15 have the remainder.
 16 So the 202 Statement is a red herring.
 17 They're trying to isolate a response that is,
 18 technically, accurate and ignore the fundamentals of
 19 accounting principles that are in the record and
 20 established in the record. And they're ignoring the
 21 remainder of the 202 Statements which we're not going
 22 to get into.
 23 But, at all events, we're still not really
 24 here to debate what the actual definition is with this
 25 witness. We're just asking this witness "What's your

F.Chin - Defendant - Redirect/Mr. Suarez Page 6036

1 understanding of how it's derived."
 2 The definition of "How do you get there?" I
 3 mean, that's it. His definition is, "You used these
 4 methods and you get to estimated current value."
 5 And that's consistent with what Mr. Flemmons
 6 testified to. That's exactly what Mr. Flemmons
 7 testified to in that manner.
 8 And that's the part that they didn't allow
 9 the witness to explain yesterday when he answered "no"
 10 to the question about "Is that your same definition of
 11 estimated current value?"
 12 He said, "No, may I explain?"
 13 And Mr. Amer said, "No, you can't."
 14 Okay. That's cross examination. So all
 15 we're doing is asking this witness "What's your
 16 understanding?" It's fairly straightforward.
 17 But this witness is not here to testify about
 18 what the definition is. That's the providence of the
 19 county expert.
 20 He's just here to testify about -- so there's
 21 nothing to revisit about Your Honor's ruling from
 22 yesterday. Respectfully, I don't think there is
 23 anything to revisit. I think there's just what this
 24 witnesses' understanding is. And that's all he can
 25 testify to.

F.Chin - Defendant - Redirect/Mr. Suarez Page 6037

1 He's not stuck with the 202 Statement. He
 2 has nothing to do the 202 Statement. He's not stuck
 3 with Flemmons' testimony, he has nothing to do with
 4 Flemmons' testimony.
 5 What he's here to testify about is what his
 6 understanding is and why he derived the opinions that
 7 he derived as an appraisal expert not an accounting
 8 expert.
 9 So, I just don't see how its possible that
 10 his answer, when he's telling the Court "This is my
 11 understanding," how anyone can disagree with that and
 12 say, "No, you're wrong." They can argue he's wrong.
 13 Fine. But, he's answering the question.
 14 THE COURT: Well, in your posttrial briefs,
 15 you can argue about the effect of the defendant's
 16 statement on the 202 Statement.
 17 As for the particular question that's in
 18 front of me, since the wording was "What's your
 19 understanding of" -- his understanding of how it works
 20 or how you get there and the different methods, I'll
 21 allow it.
 22 I will agree with Mr. Kise's general point
 23 there. The plaintiff can always, you know, recross if
 24 need be. That's his understanding.
 25 Let's get him back. I hope the rest of the

F.Chin - Defendant - Redirect/Mr. Suarez Page 6038

1 morning is not a revisit of yesterday.
 2 MR. KISE: Our plan was to be done by now.
 3 F R E D R I C K C H I N, having been
 4 previously sworn, testified further as follows:
 5 REDIRECT EXAMINATION
 6 BY MR. SUAREZ:
 7 Q. Mr. Chin, how are the methods used to determine
 8 estimated current value relevant to your understanding of
 9 estimated current value if at all?
 10 A. Very relevant. Those methods were, definitely,
 11 considered and provided a guidance in terms of how
 12 individuals might be able to use it and estimate their
 13 current values.
 14 Q. What opinions, if any, do you offer concerning the
 15 interpretation of ASC 274?
 16 A. With respect to the statements of financial
 17 condition?
 18 Q. Yes.
 19 A. I believe that they were appropriately stated
 20 following the estimated current value guidance.
 21 Q. What opinions, if any, do you offer concerning the
 22 interpretation of the term "estimated current value" under
 23 the accounting standards?
 24 A. Do you mind repeating that question?
 25 Q. Sure.

F.Chin - Defendant - Redirect/Mr. Suarez Page 6039

1 A. Sorry.

2 Q. What opinion, if any, do you offer concerning the

3 interpretation of the definition of estimated current value

4 as provided in the accounting standards?

5 A. I believe it offers a pretty broad interpretation

6 in terms of how real estate or assets could be valued.

7 Q. How, if at all, are the opinions you've given in

8 this trial consistent with USPAP?

9 A. I believe they are different, that, the estimate

10 the current value is different than how normal USPAP market

11 value appraisals are done.

12 THE COURT: And please louder and closer to

13 the microphone.

14 THE WITNESS: My apologies, your Honor.

15 Q. And how, Mr. Chin, are your opinions at trial

16 compliant with USPAP?

17 A. Very different function. They're different. They

18 are. My opinions are based on the totality of the statement

19 of financial condition which has estimated current values as

20 part of that statement of financial condition.

21 Q. Do your opinions comply with USPAP?

22 A. No, they don't; not in the strict sense.

23 Q. Why not?

24 A. Well, there are several reasons.

25 The first one is that my assignment wasn't to do,

F.Chin - Defendant - Recross/Mr.Amer Page 6040

1 specifically, an appraisal review of a property. It was to

2 evaluate the statement of financial condition.

3 Number two, there's a jurisdictional exception

4 that is in USPAP that if there is, in this case, a

5 litigation or otherwise and there will be testimony then

6 there's an allowance that strict compliance with USPAP is

7 not necessary.

8 And number three, most, importantly, a lot of the

9 time that I spent that we talked about in terms of hours,

10 was spent reviewing the AG's appraisals of the property,

11 which their appraisals signed as MAIs, provided almost five

12 hundred separate opinions of value. And they were not, at

13 all, compliant with USPAP.

14 Q. In reviewing the Statements of Financial Condition

15 at issue in this case, what evidence, if any, have you

16 identified that the valuations are based on pie-in-the-sky

17 dreams of concocted value?

18 A. None.

19 MR. SUAREZ: No further questions on

20 redirect, Your Honor.

21 THE COURT: Recross.

22 MR. AMER: I have just a quick couple of

23 questions. But, I can do it from here, your Honor.

24 THE COURT: Oh, sure.

25

F.Chin - Defendant - Recross/Mr.Amer Page 6041

1 RECROSS EXAMINATION

2 BY MR. AMER:

3 Q. If we could just put up, from yesterday's

4 transcript, page 6006. I just want to read to you, from

5 line eight on it and confirm that this is -- that this is

6 still your testimony.

7 "QUESTION: In your expert opinion, does

8 there need to be a reasonable factual basis for the

9 developer's perspective of value that he puts in a

10 statement of financial condition.

11 "ANSWER: Yes.

12 Q. Do you standby that testimony?

13 A. I do.

14 "QUESTION: And would you agree that it

15 would be improper for a developer to put in a Statement

16 of Financial Condition a perspective of value that is

17 based on pie-in-the-sky dreams of concocted value?

18 "ANSWER: I would agree with that.

19 Q. Is that still testimony that you standby?

20 A. Yes, sir.

21 Q. Am I correct that in this case, you have not

22 rendered any opinions of value with respect to any of the

23 assets in the Statement of Financial Condition?

24 A. You're correct.

25 MR. AMER: That's all I have, your Honor.

F.Chin - Defendant - Recross/Mr.Amer Page 6042

1 THE COURT: Any re redirect?

2 MR. SUAREZ: No, your Honor.

3 THE COURT: Okay. If there are no other

4 questions, the witness is excused. Nice to meet you.

5 THE WITNESS: Thank you, your Honor.

6 (Witness excused.)

7 THE COURT: Defendant, would you like to

8 call your next witness?

9 MR. ROBERT: Yes, your Honor. Defendants

10 call John Shubin. Let's get Mr. Shubin.

11 COURT OFFICER: Witness entering.

12 Raise your right hand.

13 Do you solemnly swear or affirm that any

14 testimony you give will be the truth the whole truth

15 and nothing but the truth?

16 THE WITNESS: I do.

17 JOHN SHUBIN, called as a witness by

18 the Defendants, having been first duly sworn, testified

19 as follows:

20 COURT OFFICER: Please, have a seat.

21 Please, state your name, business address for the

22 record.

23 THE WITNESS: Yes, good morning. My name is

24 John Shubin. My business address is 150 West Flagler

25 Street, Miami Florida, 33130.

J.Shubin - Defendants - Direct/Mr. Robert Page 6043

1 THE COURT: Mr. Robert, please proceed.
 2 MR. ROBERT: Thank you, your Honor.
 3 DIRECT EXAMINATION
 4 BY MR. ROBERT:
 5 Q. Good morning, Mr. Shubin?
 6 A. Good morning.
 7 Q. If you could start by advising the Court of your
 8 educational background from college on, sir.
 9 A. I graduate Harvard College in 1983. I then went
 10 on to Oxford University, St. John's College where I received
 11 a post graduate MA in politics, philosophy and economics.
 12 In 1985, attended the University of Miami Law School
 13 graduated in 1988.
 14 Q. And sir, are you admitted to practice law?
 15 A. I'm admitted to practice law.
 16 Q. And where are you admitted to practice law, sir?
 17 A. State of Florida.
 18 Q. And sir, can you briefly describe for the Court
 19 your professional background since you graduated law school.
 20 A. I've been a practicing lawyer since 1988. I have
 21 tried cases in State and Federal Courts in front of jury's
 22 nonjuries.
 23 I've participated in hundreds of legislative and
 24 quasi judicial hearings and other forms of administrative
 25 hearings.

J.Shubin - Defendants - Direct/Mr. Robert Page 6044

1 I have argued between fifty and hundred appeals in
 2 various forum -- both in state and federal Appellate
 3 forum -- and have had a very active practice over the last
 4 35 years.
 5 Q. And what about your employment history since the
 6 time you graduated law school, sir?
 7 A. I started at the Law Firm of Schultz & Bowen in
 8 Miami, proceeded to the firm of Sterns Weaver and then
 9 started my own firm in 1993.
 10 Q. Sir, what if any specialty are you engaged in the
 11 practice of law in?
 12 A. For the last 20 years, in particular, I've focused
 13 on real estate as it relates to entitlement, land use,
 14 planning. Anything that relates to real estate.
 15 The business of Florida often is real estate. And
 16 so, even as a trial lawyer, most of the matters that I
 17 handle have some aspect of real estate related to them.
 18 Q. I'm going to talk, in a few moments, about and
 19 drilling down a little bit more about that. But what, if
 20 any, other employment have you been engaged in other than
 21 the practice of law.
 22 A. I also own a consulting firm called the Euclid
 23 Group which advises investors and individuals and entities
 24 on strategies related to the use and development of real
 25 estate.

J.Shubin - Defendants - Direct/Mr. Robert Page 6045

1 Q. And is that limited to Florida or anywhere else?
 2 A. It's not limited to Florida. We have represented
 3 clients in multiple jurisdictions.
 4 Q. So I want to talk to you a little bit about the
 5 areas that you said you primarily practice in.
 6 What is land use?
 7 A. Land use is what are the rules and regulations
 8 that effect how an individual, an owner or a tenant, can
 9 utilize a piece of real estate.
 10 What uses can occur, what structures can occur,
 11 the size, the dimensions of those structures; anything
 12 related to the use and operation of a piece of property.
 13 Q. And what is planning?
 14 A. Planning is the method by which government
 15 effectuate the regulation of land. They look into the
 16 future, they determine the needs, the requirements of a
 17 community and they provide long term -- they generate long
 18 term planning documents that guide how zoning, which is the
 19 implementation of planning, occurs in different
 20 jurisdictions.
 21 Q. And what are entitlements?
 22 A. Entitlements are commonly the approvals, the
 23 governmental approvals, usually, that run with a piece of
 24 land that are secured by the owner to allow certain uses of
 25 that property.

Proceedings Page 6046

1 Q. And finally zoning?
 2 A. Zoning is the implementation of planning. It's
 3 the rules and regulations that govern the use, the
 4 intensity, the density the shape of property.
 5 Q. Now, you mentioned before that your practice is,
 6 primarily, limited to this over the last 20 years. How much
 7 of your practice is devoted to these four areas?
 8 A. Probably -- it was always about 50 percent. Now,
 9 its about 80 percent.
 10 MR. ROBERT: Your Honor, at this point, I
 11 would like to tender John Shubin as a land use,
 12 planning, entitlements and zoning expert.
 13 THE COURT: Can you repeat that slowly.
 14 MR. ROBERT: Sure. Yes, your Honor. Land
 15 use, planning, entitlements and zoning expert. I
 16 figured it was easier than just staying real estate
 17 which was a little too broad.
 18 THE COURT: What has plaintiff have to say?
 19 MR. WALLACE: I would renew our objection,
 20 that, this is, essentially, a legal expert. I would
 21 assume the witness's expertise in this area is limited
 22 to interpretations of laws, regulations and contracts
 23 that govern these areas; and hence, is an improper area
 24 for expert testimony.
 25 I believe, though, to the extent the

<p>Proceedings Page 6047</p> <p>1 defendants suggested, in the motion to preclude 2 Mr. Shubin's testimony, that, his expertise would show 3 which documents are relevant, if they want to go that 4 far, I would take it, they can identify documents. 5 But, as to the interpretation of those 6 documents, we object to him having expertise that is 7 useful to the court in the manner in which an expert is 8 supposed to be qualified. 9 MR. ROBERT: I think Mr. Wallace may have 10 looked at my notes to see what's coming next. This 11 testimony is going to be about Mr. Shubin's experience 12 in knowing what to look for, why you are looking for it 13 and where to find it. It's not legal conclusions. 14 MR. WALLACE: I have a suspension we'll 15 disagree as to what constitutes legal conclusion as we 16 proceed. If his familiarity with the nature and 17 location of these covenants, restrictions and deeds 18 we're happy to hear from the witness on those issues. 19 THE COURT: Mr. Shubin, good morning. 20 THE WITNESS: Good morning. 21 THE COURT: Have you been qualified as an 22 expert in these areas or any areas before? 23 THE WITNESS: I've never testified as an 24 expert before. 25 THE COURT: Are you aware of the dispute</p>	<p>J.Shubin - Defendant - Direct/Mr.Robert Page 6049</p> <p>1 just posit based on what -- 2 MR. ROBERT: We can limit it to Mar-a-lago 3 where he practices. His consulting business is beyond 4 Florida but, the questions are going to be dealing only 5 with Mar-a-lago. 6 MR. WALLACE: I appreciate that. 7 DIRECT EXAMINATION 8 BY MR. ROBERT: 9 Q. The series of questions I'm going to ask you today 10 are, ultimately, from your opinion, Mr. Shubin. Will you be 11 able to give them to me with a reasonable degree of 12 certainty? 13 THE COURT: Mr. Robert, you are a little 14 down. Maybe you speak up. 15 MR. ROBERT: I think it is my throat, your 16 Honor. 17 THE COURT: The witness too, you have to be 18 very close, speak loudly and slowly and clearly. 19 THE WITNESS: I'll do my best. 20 THE COURT: Hear the difference? 21 THE WITNESS: Yes. Absolutely. 22 THE COURT: You have to hear yourself over 23 the PA or you're not doing your job. 24 THE WITNESS: Don't feel like I'm ignoring 25 you.</p>
<p>J.Shubin - Defendant - Direct/Mr.Robert Page 6048</p> <p>1 that the lawyers have had about limitations on your 2 testimony as to the law which is what I'm here for. 3 THE WITNESS: I have heard from counsel that 4 there has been a dispute. And, as a practicing lawyer, 5 I'm very familiar with the issues related to the 6 dispute. I've tried to tie myself to the mass so I 7 don't know too much. But, I'm certainly familiar with 8 the issues regarding a lawyer testifying. 9 THE COURT: All right. I hereby deem you, 10 for the first time, an expert in land use planning, 11 entitlement and zoning. 12 And as you, I'm sure, just heard the lawyers 13 discuss, I'm not looking for -- I'm not allowing the 14 testimony on the law itself but, where documents are, 15 how they may interact with each other, with the 16 upshot -- well, I'll leave out "the upshot." I'm sure 17 Mr. Roberts will keep the questioning within the right 18 areas. 19 MR. ROBERT: In about a half-hour, we'll 20 decide whether we agree or not. I'm hoping that we do. 21 MR. WALLACE: I would ask for one 22 clarification. I don't think it's relevant to the 23 nature of the testimony Mr. Shubin is going to provide 24 but, are we qualifying him as an expert to the 25 jurisdiction of Florida or somewhere else. I would</p>	<p>J.Shubin - Defendant - Direct/Mr.Robert Page 6050</p> <p>1 THE COURT: I won't. 2 Q. Did there come a time that you were asked to 3 provide opinion information in this case? 4 A. Yes. 5 Q. What were the circumstances surrounding that? 6 A. I received a phone call from Chris Kise and I 7 think there was another individual on the line, Greg 8 Coleman. And, they asked me if I would consider being an 9 expert witness in a matter. 10 Q. And what was your understanding of what the 11 assignment was that you were given? 12 A. My understanding of the assignment, at the time, 13 was to ascertain what restrictions, if any, applied to the 14 use of Mar-a-lago in Palm Beach, Florida. 15 Q. What, if anything, did you do to -- 16 Did you come to a conclusion after reviewing 17 documents? 18 A. I did. 19 Q. What documents did you review? 20 A. I reviewed a variety of documents all of which are 21 set forth in my expert witness report. But, essentially, 22 what I did was what is my common practice, I ordered a title 23 report on Mar-a-lago. 24 And a title report identifies and produces all 25 documents that effect the title to the property that are</p>

J.Shubin - Defendant - Direct/Mr.Robert Page 6051

1 recorded and contain their legal description.
2 I reviewed the universe of those documents
3 compared them to some of the documents that Mr. Kise had
4 provided to me that he thought were relevant. And there was
5 substantial overlap.
6 I then also conducted a search, a public records
7 search, of the town of Palm Beach's records to determine
8 what records they had in their possession that might be
9 important for me to review prior to giving any opinion.
10 Q. And what opinion did you, ultimately, come to?
11 A. The opinion that I reached is that there is,
12 absolutely, no prohibition on the use of Mar-a-lago as a
13 single-family residence.
14 MR. WALLACE: Your Honor, we object to that
15 opinions. That is a legal conclusion.
16 THE COURT: Sustained.
17 Q. Mr. Shubin, is there anything in the document that
18 you reviewed that showed that there was any prohibition of
19 Mar-a-lago being used as a single-family residence.
20 A. I did not see any document that contained that
21 prohibition.
22 MR. WALLACE: Objection. That's a
23 rephrasing of the same question.
24 MR. ROBERT: No. I'm asking him if there is
25 anything in any of the documents that I'm about to go

J.Shubin - Defendant - Direct/Mr.Robert Page 6052

1 through that shows that there was a restriction. And
2 there were not.
3 That's a factual issue. It helps the Court
4 with the ultimate conclusion but, it's not a legal
5 conclusion. That's up to your Honor at the end of the
6 day.
7 MR. KISE: Your Honor, I just want to point
8 out, land use experts, land planner that aren't lawyers
9 that work in government or in the private sector, they
10 make these factual determinations everyday. It's not
11 legal conclusion to say what Mr. Shubin is saying.
12 A lawyer can make that determination. But,
13 ultimately, you have to decide the legal ramifications
14 of the factual input. But, it's not a legal
15 conclusion.
16 THE COURT: That's why we don't allow
17 testimony on the law because, I make those decisions.
18 MR. KISE: Right. But, the testimony isn't
19 a conclusion. The testimony is, factually, the
20 application of these provisions.
21 It's just like you said, a land -- if we
22 brought in a land use planner, if we brought in a
23 zoning expert, if we brought in a planning expert --
24 which this witness is qualified to be --
25 Just because Mr. Shubin has a law degree,

J.Shubin - Defendant - Direct/Mr.Robert Page 6053

1 doesn't somehow, magically, transform what he's saying
2 into a legal conclusion. It's still a factual
3 determination that he's making and providing to the
4 Court. You will then -- so, the testimony doesn't get
5 excluded on that basis.
6 THE COURT: Mr. Wallace, I assume you
7 disagree with that.
8 MR. WALLACE: The question is, what is
9 permitted based on the laws, regulations and covenants
10 which are, essentially, contracts. And he is offering
11 his opinion as to what is permitted under that.
12 That's, inherently, a legal conclusion. If
13 they want to walk through all the documents and say,
14 "These are the ones your Honor should consider," that's
15 fine.
16 But saying, "The end result of these
17 documents is, there's no restrictions on using
18 Mar-a-lago as a private home," that's the legal
19 conclusion.
20 So no objection to him identifying what he
21 found in his title search in terms of what the
22 documents are but, his interpretation of those
23 documents is, inherently, a legal conclusion.
24 MR. ROBERT: Your Honor, we're going to take
25 the witness through the document -- sections of the

J.Shubin - Defendant - Direct/Mr.Robert Page 6054

1 document. But the question was, did he find anything
2 in the documents that prohibited it.
3 Again, that's not a legal conclusion. The
4 first question I asked is did he reach an opinion on
5 it. And his Honor sustained the objection. I
6 understood that sustaining of the objection. That's
7 why I reworded the question.
8 THE COURT: It, absolutely, is a legal
9 conclusion. What I think -- maybe we can agree on
10 this. You can ask the witness what documents exist that
11 might effect this property. And then, ask him what
12 they say.
13 MR. ROBERT: That's exactly where I'm headed
14 next.
15 THE COURT: That's a lot different from "Do
16 any of the documents prohibit the use of the property
17 as a single-family residence."
18 MR. ROBERT: I, respectfully, disagree. At
19 the end, I'm going to come back to it because, I think
20 your Honor will see that it's based on what he's giving
21 an opinion on not as a lawyer. It's not a legal
22 conclusion. It's based on the interlay as I said.
23 Mr. Shubin's testimony is based on his
24 experience of knowing what to look for, what is
25 relevant and where you find it.

J. Shubin - Defendant - Direct/Mr. Robert Page 6055

1 The government is relying on one document for
 2 their position that Mar-a-lago cannot be used as a
 3 single-family residence. And this witness is going to
 4 explain that there's a much greater series of documents
 5 that need to be looked at.
 6 MR. KISE: So I have an idea, your Honor.
 7 Why don't we just go through the document and then come
 8 back it this?
 9 THE COURT: Exactly. Objection is sustained
 10 without prejudice to once we get through the documents
 11 and see where we're at.
 12 (Whereupon, the following proceedings was
 13 stenographically recorded by Deborah Rothrock.)

J. Shubin-Defendant-Direct-Mr. Roberts Page 6057

1 Q What is this document?
 2 A This is essentially materials that accompanied an
 3 application for a special exception that was filed in 1993 to
 4 allow Mar-a-Logo to be used as a private club.
 5 Q And is this one of the documents that you reviewed,
 6 sir?
 7 A Yes, it is.
 8 Q Okay. If we could go to D-478-5 in the bottom
 9 left-hand corner.
 10 If you could go to the third paragraph, Mr. Shubin, and
 11 read that into the record please, sir?
 12 (Whereupon, there is a pausing in the proceedings.)
 13 Q Mr. Shubin, drawing your attention to the third
 14 paragraph here, if you could read the first two lines.
 15 A Sure. (Reading:) The alternative uses of Mar-a-Logo
 16 are, 1) continued ownership by one individual as a private
 17 residential estate at his or her sole expense, 2) a retreat for
 18 government officials, 3) a museum, 4) a cultural and
 19 intellectual center, 5) a subdivision with multiple single
 20 family homes, 6) separately owned condominiums created out of
 21 existing suites and 7) a private social club; competing and
 22 conflicting interests must be resolved for each possibility
 23 based on fairness, principles of private property and a valid
 24 determination of public welfare.
 25 (Pause in proceedings.)

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6056

1 MR. WALLACE: Your Honor, we would ask that the
 2 witness' answers to those questions be stricken, in addition
 3 to our judgment.
 4 THE COURT: Stricken. The answer to that question
 5 is stricken, calls for a legal conclusion. Clearly I don't
 6 think there's a reasonable debate on that.
 7 Let's move ahead and not belabor the point.
 8 Q Did you look at the series of documents with regard to
 9 Mar-a-Logo, sir?
 10 A Yes.
 11 Q If we could put Defendant's Exhibit 478 up on the
 12 screen that is in evidence please?
 13 (Shown.)
 14 THE COURT: I can't help myself, not just a legal
 15 conclusion but the ultimate legal conclusion. If I were to,
 16 you know, if I were to allow him to testify and take his
 17 word for it, we would not need anymore testimony. That is
 18 the ultimate issue on Mar-A-Logo, certainly an ultimate
 19 issue on Mar-a-Logo. Again, let's not belabor it.
 20 Q Mr. Shubin, what is Defendant's Exhibit 478? And
 21 please hold on, they're going to give you a hard copy of the
 22 document.
 23 (Handing.)
 24 Q Mr. Shubin, do you recognize this document?
 25 A Yes, I do.

J. Shubin-Defendant-Direct-Mr. Roberts Page 6058

1 THE COURT: We're ready.
 2 (Witness resumes the witness stand.)
 3 THE COURT: Okay. We're back in session.
 4 Mr. Roberts, before you go ahead, could you explain
 5 what we're looking at?
 6 MR. ROBERTS: I was going to put the stipulation on
 7 the record but I'll be happy to do that.
 8 THE COURT: I'm not questioning whether it should
 9 or isn't in evidence, I'm just asking what the heck is it.
 10 MR. ROBERTS: I think the best person to ask is Mr.
 11 Shubin.
 12 Could you identify what has been handed to you as
 13 Defendant's Exhibit 478.
 14 A Yes. It is a narrative that accompanies an application
 15 for a special exception which is to permit a private club at
 16 Mar-a-Logo.
 17 MR. ROBERTS: Your Honor, before I proceed, I would
 18 just like to put on the record the agreement that we made
 19 with the Attorney General's Office as concerning the
 20 exhibits.
 21 It's been agreed that Defendant's Exhibit 359,
 22 Defendant's Exhibit 360, Defendant's Exhibit 1066,
 23 Defendant's Exhibit 361, Defendant's Exhibit 244,
 24 Defendant's Exhibit 427, Defendant's Exhibit 428,
 25 Defendant's Exhibit 429 and Defendant's Exhibit 484 are

J. Shubin-Defendant-Direct-Mr. Roberts Page 6059

1 stipulated and admitted into evidence.
2 MR. AMER: The People agree.
3 THE COURT: Great. The People agree one time.
4 MR. ROBERTS: We'll also asking the Court to take
5 judicial notice of the code ordinances of the Town of Palm
6 Beach, Section 134-2(b) and Sections 134-786 and 134-787.
7 Those are also two documents that Mr. Shubin had relied on
8 as part of his report. We have that marked and put into
9 evidence, they are sections and we just did it for the ease
10 of the Court so that you don't have to look to Florida
11 statutes and laws.
12 MR. WALLACE: No objection from the People.
13 THE COURT: I'm glad we have those agreements in
14 place.
15 MR. ROBERTS: Thank you.
16 Q Mr. Shubin, turning your attention to where we left off
17 which is D-478-5. What is the significance of what you have
18 just read?
19 A Again, this accompanied an application in order to seek
20 a private club in Palm Beach. At this point in time we've to
21 file an application, it is uncommon to accompany these
22 applications with a narrative. So this is a narrative that
23 talks about what could or could not be done at Mar-a-Logo as an
24 alternative. And one of the alternatives is a private social
25 club, that is parentheses seven.

J. Shubin-Defendant-Direct-Mr. Roberts Page 6060

1 Q And who was it that had prepared this document?
2 A It would be someone on behalf of the owner of the
3 property, that was Donald Trump or an entity on Donald Trump's
4 behalf.
5 Q Now, drawing your attention to Page 69, D-478-69.
6 What is this document, sir, contained within this
7 exhibit?
8 A It is common in an application and maybe with the
9 Court's permission I can talk about what a special exception is,
10 it is what they applied for. They applied for a special
11 exception. So they are proffering and addressing what type of
12 conditions they would consider being applied to their
13 application should it be approved.
14 Q And, Mr. Shubin, if you could read into the record the
15 first paragraph starting "in its conversion of this document."
16 A It states (Reading:) In its conversion from a
17 so-called large residential estate to a private social club, the
18 actual usage of Mar-a-Logo will not change. No new activity
19 will not occur which cannot, does not, or has not taken place in
20 the past under the existing zoning of this property. The
21 applicant seeks no physical change whatsoever with the property.
22 (Such as, for instance, the addition or demolition of any
23 improvement.)
24 Q And what, if any, significance does this paragraph
25 have?

J. Shubin-Defendant-Direct-Mr. Roberts Page 6061

1 A It is significant in that it identifies what uses
2 occurred on the property and it's a commitment as to what uses
3 will occur on the property should the application be granted.
4 Q And what is your understanding of what the property is
5 used for today?
6 A It's used as a private social club.
7 Q And any other use, sir?
8 A There are other uses that occur on the club. They're
9 recreational uses that occur in connection with a social club,
10 which are ordinary and customary and Mr. Trump has a residence
11 at the club, an owner's residence.
12 Q That would be consistent with the fact that the actual
13 usage of Mar-a-Logo will not change, correct, sir?
14 MR. WALLACE: Objection, Leading?
15 THE COURT: Leading, sustained.
16 Q What is the significance of Mar-a-Logo not changing
17 mean to you, sir?
18 A It means that and in other portions of the narrative
19 describe how Ms. Post, Marjorie Merriweather Post, how she used
20 the property in the past and it describes how the property will
21 be used in the future.
22 Q And how did Ms. Post used the property in the past,
23 sir?
24 A She lived there, she entertained, she had opened it up
25 occasionally to the public, to the residence of Palm Beach but

J. Shubin-Defendant-Direct-Mr. Roberts Page 6062

1 she lived there and it was her residence.
2 Q And drawing your attention to Page 154 of that
3 document, Mr. Shubin.
4 (Pausing.)
5 Is this what you were referring to?
6 A Yes.
7 Q If you could read the first sentence, please?
8 A (Reading:) Ms. Post used Mar-a-Logo as a residence
9 during winter months of the year and was a place to entertain
10 houseguests and other guests who were invited on a daily basis.
11 Q Okay. If we could show the witness Defendant's Exhibit
12 359 in evidence.
13 (Shown.)
14 Q Mr. Shubin, what is the document?
15 A This is a declaration of use agreement between the Town
16 of Palm Beach, the Mar-A-Logo Club, Inc. and Donald Trump.
17 Q And what does such a document signify?
18 A This document reflects the intention of the parties to
19 the agreement to agree to certain conditions related to the use
20 of Mar-a-Logo in connection with the approval of the special
21 exception application.
22 Q And that is the document we just looked at before,
23 correct?
24 A Yes.
25 Q And how do these two documents work with each other?

J. Shubin-Defendant-Direct-Mr. Roberts Page 6063

1 A It is very common particularly with special exceptions
2 for a municipality to impose conditions on the use of what
3 they're permitting. They're permitting a use on a property and
4 the municipality may say that they may want to have certain
5 restrictions, certain condition, certain limitations. In order
6 to make those limitations enforceable they typically ask for
7 them not only to be conditions of the approval, but to be set
8 forth and memorialized in a written agreement than binding
9 between the parties.

10 Q And drawing your attention to Page 5 of that document,
11 Mr. Shubin, under Article 2 where it says, Club Use.

12 A Yes.

13 Q If you could read the first few lines?

14 A (Reading:) The use of the land shall be for a private
15 social club in compliance with all of the information and
16 exhibits included in the application not inconsistent with the
17 terms set forth herein and subject to such uses not inconsistent
18 with the terms set forth herein, set forth in the application
19 for special exception. In the Mar-a-Logo Club a special
20 exception use and preservation plan as amended and submitted to
21 the town.

22 THE COURT: You keep saying could you read the
23 first line, you really mean could you read the first
24 sentence.

25 MR. ROBERTS: I thought I said the first few lines,

J. Shubin-Defendant-Direct-Mr. Roberts Page 6064

1 your Honor, I'll take the first few lines.

2 THE WITNESS: I didn't want to object on my own,
3 your Honor.

4 MR. ROBERTS: You could have.

5 THE COURT: I mean, it would be much more specific
6 to just say could you please read the first sentence, rather
7 than the first few lines; how many are a few?

8 MR. ROBERTS: There are so many semicolons in terms
9 of this document and the other -- I'll take that advice
10 going forward.

11 THE COURT: All right.

12 Q Mr. Shubin, is this what you are referring to as the
13 interplay between the two documents?

14 A Yes.

15 Q And what does this document mean when it says, subject
16 to such uses not inconsistent with the terms set forth herein,
17 but more importantly, set forth in the application for special
18 exception in Number 11-183--

19 MR. WALLACE: Objection. The meaning of the
20 contract language would be giving an opinion.

21 THE COURT: Sustained. By the way, some of this
22 stuff is just so obvious.

23 MR. ROBERTS: I tend to think it is obvious, the
24 Attorney General doesn't. Their position still is that
25 Mar-A-Logo cannot be used as a single family residence that

J. Shubin-Defendant-Direct-Mr. Roberts Page 6065

1 is why we're bringing this to the Court's attention. Ms.
2 Faherty is saying that nothing inconsistent with the
3 document we looked at before, the application for special
4 exception, which made it clear that the existing use at the
5 time it was converted to the club. It always has the
6 ability to have that use which was a private residence just
7 as Ms. Post had done years before Mr. Trump bought it.

8 THE COURT: You can't do it.

9 Q Article 9 is titled what?

10 A Article 9 is titled Liability Abandonment of Club Use.

11 Q If we could go to the top of Page 10, following his
12 Honor's advice please read the first sentence?

13 A (Reading:) If the club is unintentionally abandoned
14 for a period of one (one year) after the club has been in
15 operation, or is intentionally abandoned at any time, the use of
16 the land shall revert to a single family residence and the
17 ownership of the owner.

18 Q Now I would like to show the witness Exhibit D360 in
19 evidence.

20 (Shown.)

21 MR. ROBERTS: Your Honor, for the record, to move
22 things along. Each time a document is shown to the witness,
23 I would have asked him what his conclusion was or his
24 opinion was as a result of that. I'm following your
25 direction at this point, or your order, which is he's not to

J. Shubin-Defendant-Direct-Mr. Roberts Page 6066

1 give those types of legal opinions in your mind. I want the
2 record to be clear, otherwise I will have to ask each time
3 and it will just prolong things.

4 THE COURT: Okay. Understood. Thank you.

5 Q Mr. Shubin, what is Defendant's Exhibit 360 in
6 evidence?

7 A This is a deed from Donald Trump to the National Trust
8 for Historic Preservation. It is a deed that conveys a
9 conservation and preservation easement as to the Mar-a-Logo
10 property.

11 Q And what is the significance of this document?

12 A This is a document that was memorialized after the
13 approval of the special exception. So the special exception was
14 in 1993, this deed was subsequent to that in 1995 and it is a
15 commitment by Mr. Trump to preserve and conserve and to restore
16 and agree to restore certain specific features of the Mar-a-Logo
17 property.

18 Q I want to draw your attention specifically to Page 14
19 of that document under Section 5 guarantor's rights. Do you see
20 that sir?

21 A Yes.

22 Q I would ask you to read into the record Section 5.1
23 with Romanette A?

24 A (Reading:) It is titled rights not requiring further
25 approval by grantee. The following rights, uses and activities

J. Shubin-Defendant-Direct-Mr. Roberts Page 6067

1 of, or by grantor, on, over, or under the property are permitted
 2 by this easement and by grantee without further approval by
 3 grantee.
 4 Subsection (a) states, the right to engage in those
 5 acts or uses permitted by governmental statute or regulation
 6 that are not expressly prohibited or regulated by this easement.
 7 Q I'll ask you to continue to B and read that as well?
 8 A (Reading:) Sub (b), the right to perform work,
 9 exercise the rights and privileges contemplated by, and engage
 10 in those uses of the property permitted by the plan and by the
 11 declaration of use agreement. (The "Declaration"), dated
 12 August 10th, 1993 between the Town of Palm Beach, the Mar-a-Logo
 13 Club and grantor recorded in the public records of Palm Beach
 14 County, Florida. Official record book 7933, Page 22, as the
 15 plan and/or the Declaration may be amended from time to time
 16 provided that (i, such uses are not specifically prohibited or
 17 regulated by this easement). ii, such amends to the plan and/or
 18 declaration not inconsistent of the purpose of this easement.
 19 Q Turning your attention to page 22, D-360-22. Do you
 20 see that, sir?
 21 A Which specific provision?
 22 Q Paragraph 11, Limitation of 11, if you could read that
 23 into the record, sir.
 24 A (Reading:) Limitations on amendment. If circumstances
 25 arise under which amendment to or modification of this easement

J. Shubin-Defendant-Direct-Mr. Roberts Page 6068

1 were to be appropriate, grantor and grantee made by mutual
 2 written agreement jointly amend this easement provided that no
 3 amendment shall be made that will adversely affect the
 4 qualification of these easement or the status of grantee under
 5 any applicable laws, including Section 170(h) and 501 (c)(3) of
 6 the code and the laws of the State of Florida.
 7 Q Mr. Shubin, how does the land use of this document have
 8 any interplay with the previous documents that we looked at?
 9 A They -- it describes the circumstances under which
 10 future uses can occur on the property, alterations to the
 11 property can occur, essentially what can and cannot occur and
 12 what is the process for seeking an amendment to those conditions
 13 that are part are the preservation easement.
 14 Q Now I would like to show the witness
 15 Plaintiff's Exhibit 1013 in evidence.
 16 (Shown.)
 17 Q Mr. Shubin, do you recognize this document?
 18 A Yes, I do.
 19 Q What is this document?
 20 A One, it is a Deed of Development Rights from the
 21 Mar-a-Logo Club, LLC to the National Trust For Historical
 22 Preservation. Chronically it is subsequent to the previous
 23 document that I reviewed, that was also a deed and conveyance of
 24 the easement to the National Trust.
 25 Q Drawing your attention to Page 2 of this document, sir.

J. Shubin-Defendant-Direct-Mr. Roberts Page 6069

1 (Pausing.)
 2 If you could read that into the record.
 3 A (Reading:) The witnesseth, the Club and Trump for good
 4 and invaluable consideration, the receipt and sufficiency of
 5 which is acknowledged by these presence do hereby transfer,
 6 grant, bargain, sell, alienize, release, convey, and confirm on
 7 to the National Trust. To the extent such rights, if not
 8 already been transferred through the Deed of Conservation and
 9 Preservation Easement and any and all of their rights to develop
 10 the property for any usage other than club usage.
 11 Q Sir, earlier we looked at Defendant's Exhibit 360,
 12 which was the Deed of Conservation and Preservation Easement.
 13 How, if any way, is this document read in relation to that
 14 document?
 15 A If you go to the first page of this document it makes
 16 numerous references to the 1995 Conservation Easement. I think
 17 it is also a defined term and there are multiple references in
 18 the whereas clause as to the previous document.
 19 Q And in this document anywhere is there any conveyance
 20 to the right to occupy the premise as a single family residence?
 21 MR. WALLACE: Objection. Calls for legal
 22 conclusion.
 23 THE COURT: Sustained.
 24 MR. KISE: On this point, I'll talk about legal
 25 issues but if you want to excuse the witness we could do

-Proceedings- Page 6070

1 that in case we have any overlap.
 2 THE COURT: Plaintiff, do you want to excuse the
 3 witness?
 4 MR. WALLACE: Yes.
 5 THE COURT: Why don't we excuse the witness.
 6 (Whereupon, the following is heard outside the
 7 presence and hearing of the witness.)
 8 THE COURT: So far I think the Plaintiff has been
 9 liberal in what they're not objecting to; but go ahead.
 10 MR. WALLACE: If he's describing a document
 11 generally about trying to convey legal implications, I'm
 12 trying to allow it to move it through. For the most part
 13 he's reading documents that are part of the record. But...
 14 MR. KISE: Again, without going into the
 15 characterization of liberality. His conclusions as a land
 16 use zoning planning expert are not necessarily legal
 17 conclusions.
 18 THE COURT: I disagree with you.
 19 MR. KISE: I understand that. But for the
 20 Appellate purpose of this, you've stricken his answers. We
 21 need to develop some way to preserve the proffer of his
 22 testimony. If you would like us to do that it in writing so
 23 that it is preserved for the record. But your denial of an
 24 answer to the question denies the Appellate Court the
 25 opportunity to understand what this expert's opinion is in

-Proceedings- Page 6071

1 full so...

2 THE COURT: So I could be reversed on not allowing

3 him to give us his legal or other conclusions.

4 MR. KISE: Without having a record of what that

5 answer would be, the Appellate Court is deprived of

6 understanding that, which may itself be a reason for

7 reversal.

8 We would submit, your Honor, that we should at

9 least be allowed to put into the record the proffer of what

10 his answers would have been to those questions and you--

11 understanding it is the Court's ruling, so that it is there

12 for the Appellate Court to know exactly what the testimony

13 would be as a proffer. That is just simply a proffer. We

14 will not take up time today, we can ask the questions, you

15 can make your rulings. We need a complete record on this.

16 We disagree with your Honor's interpretation and we need to

17 make sure the Appellate Court is advised. That's all.

18 THE COURT: I understand. Plaintiff?

19 MR. WALLACE: I believe his opinions are contained

20 in his expert report. The report is in the record as part

21 of their summary judgment application. I tried to

22 accommodate Mr. Kise and have the entire report and witness

23 struck but I was overruled on that. Based on his proffer

24 that this witness could talk about documents and direct the

25 Court to the parts of the record concerning property that

-Proceedings- Page 6072

1 are irrelevant which should be considered by the judge in

2 making a conclusion, legal conclusion that I will note based

3 on summary judgment is law of the case and does not need to

4 be revisited.

5 If they want to -- so I don't know if there's much

6 more of a record that needs to be established.

7 MR. KISE: So, your Honor, I'm noting that after 8

8 or 9 weeks Mr. Wallace is learning how to give my kind of

9 speeches, there's a whole bunch of additional narratives so

10 I'm glad of that.

11 Just briefly. The opinion --the reports themselves

12 are not part of the trial record. They may be part of the

13 summary judgment record, they're not part of the trial

14 record. And for Appellate purposes, those are two very

15 different -- summary judgment is a proceeding on its own

16 Appellate track and it is not necessarily the case. In

17 fact, it may not at all be the case that the plenary appeal

18 from the final judgment is subsumed --the summary judgment

19 of appeals is subsumed by the final judgment. I don't think

20 that's necessarily going to happen.

21 So if there'll agree to allow us to put the

22 opinions in the record for purposes of preserving what they

23 are, into the trial record so that it is there in the trial

24 record, that is fine, and your ruling will stand as to your

25 determination as to whether or not they're legal

-Proceedings- Page 6073

1 conclusions, that is preferable acceptable. I don't know

2 why they would oppose that since they are saying it is of

3 the record. I disagree from an Appellate standpoint the

4 summary judgment record it is traveling on its own track

5 right now and the briefing on that may be done in a matter

6 of weeks. That is a completely different record.

7 We need some way -- I'm happy to have the opinions

8 themselves introduced as a proffer and leave it at that.

9 THE COURT: I could see this is all new. If the

10 Plaintiff would agree that the Defendants could put the

11 opinions submitted in support or, again, the summary

12 judgment motion, into the trial record, I'm --I'm not sure

13 if I agree with Mr. Kise because it is proceeding on

14 separate Appellate tracts. You could not automatically use

15 one or the other; but Plaintiff what could we do here?

16 MR. WALLACE: I disagree. I disagree that there's

17 not a sufficient record based on what is going up on summary

18 judgment. I also note that I don't believe it is an

19 evidentiary requirement that every single piece of evidence

20 that is excluded for evidentiary purposes, including

21 opinions, needs to be produced so that it could then be

22 fully studied by the Court of Appeals.

23 If he wants to mark Mr. Shubin's reports, it is not

24 evidence but it is an exhibit to the trial record, that is

25 fine, so that it could be seen by the Court of Appeals. I

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6074

1 think they would have it in time, there'll be a judgment at

2 some point that will be incorporated. I think it may be

3 angles dancing on the head of a pin at this point, but I'm

4 happy to have it flagged so that it is in the record and if

5 the fact is what was included in his expert report.

6 THE COURT: All right. Let's make sure we're all

7 on the same page.

8 Plaintiff, are you agreeing that its expert reports

9 that Mr. Shubin submitted on the summary judgment motion

10 could be included in the appeal of the trial?

11 MR. WALLACE: Yes, perfectly acceptable.

12 MR. KISE: I'll also note that the angels dancing

13 on the head of a pin are the province of the Appellate

14 Court, that is why we're engaging in the exercise.

15 THE COURT: Sometimes I feel like I'm the angel

16 dancing on the pin. All right. Thanks for dealing with

17 that. Let's get the witness back.

18 MR. ROBERTS: Yes, sir.

19 THE COURT OFFICER: Witness entering.

20 (Witness enters the courtroom.)

21 MR. ROBERTS: Could I have the last question read

22 back to see where I left off.

23 THE COURT: Yes.

24 Well, the last question I assume was an objection

25 and I sustained the objection.

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6075

1 MR. ROBERTS: I know. It will tell me in my mind
2 where we left off.
3 THE COURT: Fine.
4 MR. ROBERTS: I didn't think you would change your
5 mind on another read back, don't worry Judge.
6 THE COURT: You would be surprised with what
7 lawyers try to get a ways with.
8 (Whereupon, the requested portion of the record was
9 read.)
10 MR. ROBERTS: The objection was sustained. We're
11 going to read -- I'm going to show the witness D-427.
12 (Shown.)
13 Q Mr. Shubin, do you recognize this document?
14 A I do.
15 Q What do you recognize this documents to be?
16 A These are the published Rules and Regulations of the
17 Mar-a-Logo Club.
18 Q Drawing your attention to page D-427-4. To the right
19 hand side (c) where it says, revokable license. If you could
20 read that please, sir?
21 A Yes. (Reading:) Revokable license. Membership in the
22 club is acquired on a non-equity basis. It does not infer any
23 vested or scripted right to easement in and/or to use the club
24 in its facilities. Members require only a revokable license to
25 use the club or its facilities. They have no ownership or

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6076

1 voting interest in the Mar-a-Logo Club, LLC, which operates the
2 club.
3 Q Under the next section (e), Declaration of the
4 Agreement. Do you see that, sir?
5 A Yes.
6 Q If you could read the bottom paragraph labeled number
7 three?
8 A (Reading:) Declaration of Agreement: The club will at
9 all times comply with the declaration of use of agreement, among
10 the Town of Palm Beach, the Mar-a-Logo Club, LLC and Donald J.
11 Trump, dated August 11, 1993 and recorded in the official
12 records of Palm Beach County, Florida. This Agreement includes
13 without limitation the following finding corporations.
14 Q Moving to number three at the bottom of the page?
15 A (Reading:) If the club is intentionally abandoned for
16 a period one (one year) after the club has been in operation, or
17 if the club is intentionally abandoned any time, Mar-a-Logo
18 shall revert to use as a private single family residence of
19 Donald J. Trump and under such circumstances, all membership
20 deposits shall be refunded without interests.
21 Q Now, I would like to show the witness what has been
22 Marked as Defendant's Exhibit 484 in evidence.
23 (Shown.)
24 Q Do you recognize this document, sir?
25 A I do.

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6077

1 Q What is this document?
2 A This is a reproduction of the minutes of the Town
3 Council meeting for the Town of Palm Beach, held February 9,
4 2021.
5 Q What, if anything, at this meeting had to do with the
6 Mar-a-Logo property?
7 A There was a discussion on the record regarding several
8 complaints that had been brought by neighbors of Mar-a-Logo who
9 were complaining that Mr. Trump could not reside at Ma-a-Logo.
10 Q This is when, sir?
11 A This is February 9, 2021.
12 Q Drawing your attention to Page 22 of that document.
13 A Yes.
14 (Show.)
15 Q Is this section the section in the minutes that reflect
16 the discussion that you just spoke of?
17 A It does.
18 Q And drawing your attention to the third full paragraph,
19 if you could read that, sir?
20 A (Reading:) Town attorney, John C. Randolph, summarized
21 his written report provided to counsel. He indicated this was
22 for informational purposes only.
23 Attorney Randolph stated that this was not a quasi
24 judicial hearing or hearing and there will be no cross-examine.
25 Q Putting that document to the side for a second. I

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6078

1 would like to hand to the witness Defendant's Exhibit 429 in
2 evidence.
3 (Handing.)
4 Q Mr. Shubin, when you had been looking at Defendant's
5 484 in evidence, that referenced John Randolph summarized his
6 written report. Is what you're looking at, Defendant's 429, in
7 fact, that written report?
8 A Yes, it is.
9 Q Okay. This is from John Randolph going to who?
10 A To the Mayor & Town Council of the Town of Palm Beach.
11 Q If you could start reading the first paragraph?
12 A (Reading:) Each of you are aware of the allegations of
13 neighbors of the Mar-a-Logo Club, that former President Donald
14 J. Trump is not allowed to reside at Mar-a-Logo since it was
15 converted in 1993 to a private club. In sum, it is argued
16 Mar-a-Logo is either a private residence or a club but cannot be
17 both.
18 Q Ultimately you will read the whole thing.
19 A I hope I am reading slow enough for the court reporter.
20 MR. WALLACE: If we are going to read, I believe
21 the document is in evidence. Is he going to read the
22 entirety of the document?
23 MR. ROBERTS: The first two pages. Since I'm
24 limited in that I cannot ask Mr. Shubin to draw conclusions.
25 Ordinarily I would say, did you review the document, can you

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6079

1 summarize the document, what is your conclusion on it? I
 2 want to read into the record what the evidence is. It is
 3 the only way I could do it.
 4 MR. WALLACE: The letter is in the record.
 5 MR. ROBERTS: I know. It will help assist the
 6 Judge in understanding what it is that he reviewed and what
 7 the facts are that are in evidence.
 8 THE COURT: I will allow the witness to read the
 9 first two pages.
 10 MR. ROBERTS: Thank you, sir.
 11 A (Reading:) I have previously provided you with
 12 historical documents relating to the conversion of Mar-a-Logo
 13 from a private residence to a private club, including the
 14 application, minutes of applicable meetings, the Declaration of
 15 Use agreement relating to the club, amendments to said agreement
 16 and the zoning ordinance which defines private club. These
 17 documents shed light on the conditions of approval of the club
 18 and the question of whether Trump may reside at Mar-a-Logo
 19 subsequent to it having been converted to a private club.
 20 The application for special exception 11-93 was
 21 submitted by the Mar-a-Logo Club, Inc. on April 29, 1993,
 22 requesting a special exception to convert Mar-a-Logo from a
 23 residential use to a private club. The application was filed
 24 pursuant to that section of the town zoning code relating to
 25 District R-AA, large estate residential which allows "private,

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6080

1 social, swimming, golf, swimming, tennis, and yacht clubs."
 2 There is a special exception use. Notable, the definition of
 3 private club under the zoning code provides, in part, "within
 4 the residential zoning districts a private club may provide
 5 living quarters for its bonafide employees only."
 6 The purpose of this regulation prohibiting living
 7 quarters except for the club's bonafide employees is to keep a
 8 club from turning into a multifamily residence or a commercial
 9 use, such as a hotel; neither of which are permitted uses in
 10 this R-AA District.
 11 The application for special exception was first heard
 12 at a special meeting of the Town Council, on May 13, 1993. The
 13 minutes of that meeting reflect the following regarding
 14 statement of Paul Rampell representing the applicant.
 15 "Another question asked of him is whether or not Mr.
 16 Trump will continue to live at Mar-a-Logo. And the answer is,
 17 no, except if he will be a member of the club and would be
 18 entitled to use the guest rooms. Some have suggested that this
 19 statement is dispositive of the manner in which former President
 20 Trump may use the club, i.e. only as a member of using the guest
 21 suites for no more than three (3) nonconsecutive seven (7) day
 22 periods during the year.
 23 It is important to note, however, that the Declaration
 24 of Use agreement ultimately agreed to and executed by the
 25 parties did not incorporate a direct prohibition on the former

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6081

1 President Trump's residing at the club. The language in the
 2 agreement pertaining only to the member's use of the guest
 3 suites. Because the Agreement is silent in regard to specific
 4 prohibition on Trump residing at the club, the Town should look
 5 to its zoning code to determine whether there's any prohibition
 6 on former President Trump residing at the Mar-a-Logo. The code
 7 prohibits living quarters within the club, except for bonafide
 8 employees.
 9 The definition of employee in the town's code provides
 10 as follows: Employee means any person generally working on-site
 11 for the establishment and includes sole proprietors, partners,
 12 limited partners, corporate officers, and the like."
 13 I believe this issue, therefore, hinges primarily on
 14 whether former President Trump is a bonafide employee of the
 15 club. In that regard, please see the attached letter from John
 16 Marion representing former President Trump in the Mar-a-Logo
 17 Club, Inc. This letter includes representations relating to
 18 former President Trump's residency at Mar-a-Logo, both before
 19 and after its conversion to a club, which although of historical
 20 significance, are honestly irrelevant, in my opinion, is the
 21 representations regarding whether or not former President Trump
 22 is a bonafide employee of the club. If he is a bonafide
 23 employee of the club, absent a specific restriction prohibiting
 24 former President Trump from residing at the club, it appears the
 25 zoning code permits him to reside at the club.

J. Shubin-Defendant-Direct-by Mr. Roberts Page 6082

1 I recommend that the Mayor and Town Council hear
 2 presentations in regard to this matter from all interested
 3 parties, including, but not limited to, the neighbors to
 4 Mar-a-Logo, their representatives, representatives of former
 5 President Trump, the Mar-A-Lagos Club and other interested
 6 parties, after entertaining all of the relevant presentations,
 7 the Town Council should deliberate on this matter and determine
 8 what action, if any, should be taken.
 9 I will be here to answer any questions the Mayor and
 10 Town Council have in regard to this matter.
 11 MR. ROBERTS: Before I ask the next question, do
 12 you want some water?
 13 THE WITNESS: I'm out of wasn't, I'm fine.
 14 (Whereupon, Cheryl-Lee Lorient relieved Deborah
 15 Rothrock as the official court reporter.)
 16 (Continued on next page.)

J.Shubin - Defendant - Direct/Mr.Robert Page 6083

1 Q. Drawing your attention to the next document in
2 here 429-3.
3 Is this the letter that is referred to in the town
4 attorney's memo?
5 A. Yes.
6 Q. And sir, what is, if any, action did the town of
7 Palm Beach take at that meeting with regard to this issue?
8 A. At the action.
9 Q. Thank you very much.
10 A. At the meeting itself, the minutes reflect that
11 they took no action. They took no action.
12 Q. And that does that mean?
13 A. It means they simply chose not to agree with the
14 position of the neighbors. And I have, actually, reviewed
15 the files of the town of Palm Beach. And there has been no
16 action taken against Mar-a-lago subsequent too that meeting.
17 Q. And does President Trump, currently, reside at the
18 Mar-a-lago?
19 A. Yes.
20 MR. ROBERT: Your Honor, if I could have a
21 moment to speak with my colleagues?
22 THE COURT: Sure.
23 MR. ROBERT: Thank you.
24 (Pause in proceedings.)
25 MR. ROBERT: Your Honor, this may be a good

J.Shubin - Defendant - Direct/Mr.Robert Page 6084

1 time to take the morning break and see if we can trim
2 this down.
3 THE COURT: Okay.
4 MR. ROBERT: Thank you, sir.
5 THE COURT: Perfect timing. I'll see you
6 all at a quarter to twelve. And I will order the
7 witness not to discuss this case, his testimony or
8 anything related to this during the break.
9 THE WITNESS: I will not.
10 THE COURT: Thank you.
11 (A recess was taken.)
12 (After the recess the following occurred:)
13 THE COURT: Let's get the witness back and
14 continue with the direct. Please continue.
15 MR. ROBERT: As usual, your Honor, the break
16 does wonders in streamlining things. I just have one
17 question left. I already told Mr. Wallace I'll go slow
18 for a second because, I have a funny feeling I know
19 what he's going to do.
20 DIRECT EXAMINATION
21 BY MR. ROBERT:
22 Q. Mr. Shubin, based on a review of the documents
23 that we went through this morning, do you have an opinion as
24 to whether Mar-a-lago could be used as a single-family
25 residence?

J.Shubin - Defendant - Cross/Mr.Wallace Page 6085

1 MR. WALLACE: Objection. Calls for a legal
2 conclusion.
3 THE COURT: Sustains.
4 MR. ROBERT: No further questions. Thanks,
5 your Honor.
6 THE COURT: Well done.
7 MR. WALLACE: Good morning.
8 THE COURT: I guess there will be cross
9 examination.
10 MR. WALLACE: Very brief, your Honor. I
11 promise. If we could put back on the screen
12 Defendant's 478.
13 CROSS EXAMINATION
14 BY MR. WALLACE:
15 Q. You've done such a wonderful job. I just want you
16 to read one more piece of this document into the record. If
17 you could turn to page six of the documents and if you could
18 read the first four sentences at the top of the page.
19 A. "As to item paren one, it is impractical for a
20 single individual to continuously own Mar-a-lago as a
21 private estate at his or her sole expense.
22 "When the Post Foundation marketed the property
23 after its return to the foundation, from the US Government,
24 it was almost impossible to sell.
25 "About 80 qualified buyers, thoroughly screened,

J.Shubin - Defendant - Cross/Mr.Wallace Page 6086

1 inspected Mar-a-lago and elected even against making an
2 offer. H. Ross Perot was one prospect. Although, quote,
3 everything is for sale at a price, end of quote, no one
4 would step forward to make any offer for this so called,
5 quote, white elephant."
6 MR. WALLACE: We can take that down.
7 Q. Mr. Shubin, are you being compensated for your
8 testimony today?
9 A. Yes, I'm.
10 Q. How much are you being compensated?
11 A. I believe, for trial time, \$1,595 an hour.
12 Q. And for your work outside of trial time, how much
13 are you being compensated?
14 A. \$1,395 an hour.
15 Q. I believe you testified at your deposition that
16 your standard billing rate for South Florida, with no New
17 York, Chicago or Los Angeles component is probably a
18 thousand dollars an hour.
19 Does that sound right?
20 A. That sounds right.
21 Q. And your billing rate could go lower than that
22 depending on the matter; is that correct?
23 A. Or higher, yes.
24 Q. It could go as low as 700 per hour?
25 A. I haven't charged 700 an hour in a long time.

J.Shubin - Defendant - Cross/Mr.Wallace Page 6087

1 But, if there were unique circumstances, that would -- I'm
 2 sure I would consider it, depending on the market.
 3 MR. WALLACE: If we could put up on the
 4 screen Plaintiff's Exhibit 3398.
 5 Q. Were you an attorney in this the matter
 6 represented in the screen of this --
 7 A. I was.
 8 Q. Please turn to page 13 of this document. Item one
 9 states, "Balazar's counsel's hourly rates are reasonable."
 10 Is that you listed under "John K. Shubin" with a
 11 billing rate of \$700 an hour?
 12 A. Yes.
 13 Q. This application was submitted in 2019; is that
 14 correct?
 15 A. Yes. For work that was done proceeding 2019.
 16 Q. Do you know how much total time you've spent on
 17 this matter since you were retained?
 18 A. Which matter? This matter.
 19 Q. This matter, the matter you're testifying in right
 20 now.
 21 A. Probably, eighty to a hundred hours. But, I
 22 haven't looked at my time sheets.
 23 Q. And have any of your colleagues, at your firm,
 24 performed work on this?
 25 A. Yes. I had two colleagues assist me.

J.Shubin - Defendant - Cross/Mr.Wallace Page 6088

1 Q. Do you know how many hours they spent?
 2 A. Probably fifteen to twenty hours.
 3 Q. And do you know what their billing rate was?
 4 A. Approximately -- I think, one was 895, the other
 5 was lower in the seven hundreds, maybe in the five
 6 hundreds -- Ian DeMello.
 7 Q. Do you recall, in your report, disclosing that
 8 other attorneys in your office were being billed at \$935 per
 9 hour to \$735 per hour?
 10 A. The 935 would be Mr. Forachi who is a very
 11 experienced partner in the firm. The 735 would be
 12 Mr. DeMello.
 13 Q. So do you have a sense of the total billings for
 14 your firm in this matter?
 15 A. I think it's been de minimis for Mr. Forachi and
 16 Mr. DeMello since my deposition. And in preparation for
 17 this proceeding, maybe 20, 25 hours.
 18 Q. I guess, I'm just asking what the total number is
 19 all-in at this point.
 20 A. I wish I could tell you. I'm going to say maybe
 21 hundred, hundred ten hours.
 22 Q. That would be times the hourly rate for each of
 23 those?
 24 A. Something to that effect, yes.
 25 Q. So we could be talking upwards of a million

J.Shubin - Defendant - Cross/Mr.Wallace Page 6089

1 dollars? Is my math terrible?
 2 A. No.
 3 Q. A hundred thousand.
 4 Well, you do the math.
 5 A. I think it's somewhere between hundred and hundred
 6 fifty thousand is my guess.
 7 Q. Thank you. I didn't lead in with the joke about
 8 lawyers doing math in my exam there.
 9 MR. WALLACE: Thank you, your Honor.
 10 THE COURT: Any redirect?
 11 MR. ROBERT: No, thank you.
 12 THE COURT: Since there are no more
 13 questions, the witness is excused.
 14 THE WITNESS: Thank you.
 15 THE COURT: Thank you.
 16 (Witness excused.)
 17 THE COURT: Defendants, next witness.
 18 MR. ROBERT: Your Honor, defense calls
 19 Lawrence Moens. M-O-E-N-S.
 20 COURT OFFICER: Witness entering.
 21 Please raise your right hand. Do you
 22 solemnly swear or affirm that any testimony you give
 23 will be the truth, the whole truth and nothing but the
 24 truth?
 25 THE WITNESS: I do.

L.Moens - Defendant - Direct/Mr.Robert Page 6090

1 L A W R E N C E M O E N S, called as a witness by the
 2 Defendant, having been first duly sworn, testified as
 3 follows:
 4 COURT OFFICER: Please, have a seat.
 5 THE WITNESS: Good morning, Judge.
 6 THE COURT: Good morning.
 7 COURT OFFICER: Please state your name
 8 address for the record.
 9 THE WITNESS: Lawrence Moens. My address is
 10 2320 South Ocean Boulevard, Palm Beach, Florida.
 11 DIRECT EXAMINATION
 12 BY MR. WALLACE:
 13 Q. For another two minutes, it's still morning,
 14 Mr. Moens. Good morning, Mr. Moens.
 15 A. Good morning.
 16 Q. I'd like to discuss your educational background.
 17 Okay, sir?
 18 A. That should be brief.
 19 Q. Okay. Where did you go to high school?
 20 A. Briefly, I went in Fort Lauderdale, Florida to
 21 Cardinal Gibbons until they asked me to leave prematurely in
 22 the ninth grade. It was a private school.
 23 The public school that I almost finished was Boca
 24 Raton High School in Boca Raton, Florida.
 25 Q. And I can take from that you did not graduate high

L.Moens - Defendant - Direct/Mr.Robert Page 6091

1 school, correct, sir?
2 A. Not yet.
3 Q. Sir, let's talk about your professional career
4 after high school. What, if anything, did you do after high
5 school?
6 A. Let's see, during high school, I left home and
7 washing dishes was my first job. After that, I employed
8 some people to do work for me putting leaflets on car
9 windshields in parking lots for advertising purposes. I
10 think I was making three times what the principle of my high
11 school was making at the time. I sold that company when I
12 was 17.
13 And then, I went into another line of work which
14 was furniture manufacturing; made a lot of tables, had my
15 first plane at 19; fifty-four employees, when I sold the
16 company at 20.
17 Q. What did do you after that Mr. Moens.
18 A. You know, Thomas Jefferson said the basis of all
19 true wealth is in the land. You can mind it, you can farm
20 it, you can build on it and there's only so much of it. So,
21 I went into real estate.
22 Q. And what does it mean you went into real estate.
23 A. I went to work for a very wealthy couple of
24 families Sam Bronfman and Nate Cummings were my first bosses
25 in a development in Palm Beach, Florida called the Sun &

L.Moens - Defendant - Direct/Mr.Robert Page 6092

1 Surf.
2 They converted two buildings that were for rental
3 purposes into condominium apartments. So, I worked for them
4 showing those condominium apartments.
5 Q. What did do you after that?
6 A. Opened my own office. Let's see. I started in
7 the late 70's. I opened my office in '82 and went into the
8 general residential real estate business.
9 Q. Are you a licensed real estate broker, sir?
10 A. Yes, I am.
11 Q. When did you become a licensed real estate broker?
12 A. I think it was about the time I opened the
13 company. I got that license, I believe, in '82.
14 Q. And sir, what are your duties -- withdraw.
15 When you started the firm, what did the firm do?
16 A. Work very hard to try and sell rich people
17 properties in Palm Beach.
18 Q. And other than selling property in Palm Beach
19 what, if anything, did your company do?
20 A. Basically, just hustled to make a bunch of sales
21 in the real estate arena of a very small island 13 miles
22 long -- Palm Beach.
23 Q. And what was the name of the company that you
24 founded in the early 1980's?
25 A. I couldn't think of another name. So, I just

L.Moens - Defendant - Direct/Mr.Robert Page 6093

1 named it Lawrence A. Moens Associates, Inc.
2 Q. Sir, is that the company that you work for today?
3 A. I still work for them.
4 Q. Okay. Can you describe how things started out at
5 Lawrence A. Moens and how it's progressed over 40 years at
6 this point?
7 A. Well, it started out as "on a wing and a prayer"
8 and it's done pretty well since then.
9 Q. Well, when you say it started out as "a wing and a
10 prayer," do you remember when it was you first sold a home
11 as Lawrence Moens Associates?
12 A. It was in 1982.
13 Q. Do you happen to remember how much that home sold
14 for?
15 A. Actually, I do. It was to Irving and Doris
16 Morris. It was 127,600. And yeah, I sold it four times
17 since.
18 Q. Since that time.
19 And sir, has your practice been mostly consisting
20 of real estate in Palm Beach?
21 A. Mostly.
22 Q. How would you describe what has happened to the
23 company since 1982 through today?
24 A. It's grown a bit.
25 Q. Well, Mr. Moens, I understand its grown a bit.

L.Moens - Defendant - Direct/Mr.Robert Page 6094

1 Tell us in a little more detail, sir.
2 A. Our sales now are many time exceeding a billion
3 dollars a year in sales.
4 Q. Sir, since 2020, for 2020, '21, '22 combined, can
5 you approximate how much in residential real estate in Palm
6 Beach you have sold?
7 A. A lot. Maybe a couple billion dollars.
8 Q. And sir, to your knowledge, is there anyone in the
9 Palm Beach real estate market that has sold as much real
10 estate as you have?
11 A. They don't exist.
12 Q. And sir, are you aware of properties that have
13 sold for over a hundred million dollars over the last few
14 years in Palm Beach?
15 A. I am.
16 Q. How many of them are there or were there?
17 A. Let's see. There were ten in Palm Beach, one in
18 Manalapan and one in Miami. So there were twelve sales in
19 the entire state of Florida.
20 Q. And sir, what, if any, involvement did you have in
21 those twelve sales in excess of a hundred million dollars?
22 A. I sold ten of the twelve.
23 Q. I'm sorry. I didn't hear that?
24 A. I sold ten out of the twelve.
25 Q. And sir, as a licensed real estate broker, do you

L.Moens - Defendant - Direct/Mr.Robert Page 6095

1 give opinions of value?
2 A. I give opinions of value almost daily.
3 Q. What is an opinion of value?
4 A. It's taking a look at something and trying to come
5 up with a valuation based on data or information that's
6 around you.
7 Q. Are you a MAI appraiser?
8 A. No, I am not.
9 Q. Are you licensed to give an appraisal?
10 A. No, I am not.
11 Q. What is the distinction between an appraisal and
12 an evaluation?
13 A. Well, it's semantics. I am asked every week to
14 give an appraisal. I don't know don't always give a lesson
15 that I don't or won't perform an appraisal to someone who
16 just lost her husband and needs it for estate tax purposes.
17 I know what she means by giving an opinion of
18 value. I know what she means by giving an estimate of a
19 value.
20 I always direct them to an MAI appraiser; even
21 though I can give her a letter giving her my opinion, I tell
22 her the best thing to do is to hire an appraiser and submit
23 both documents to the proper authorities when there is an
24 opinion of value needed or even an appraisal by an
25 appraiser.

L.Moens - Defendant - Direct/Mr.Robert Page 6096

1 Q. In your experience as a real estate broker, having
2 your own business for the last 40 plus years, have you given
3 opinions of value as to residential real estate in Palm
4 Beach?
5 A. Thousands of time.
6 Q. And in those thousands of times, to whom would you
7 be giving those opinions?
8 A. Usually, the person asking me for my opinion.
9 Q. I should have expected that answer.
10 Who are the people that asked you for those
11 opinions?
12 A. It ranges from appraisers, attorneys, rich people,
13 poor people. All kind of people ask me for help and I try
14 and give it if they cross my path.
15 Q. In your experience why do appraisers, MAI
16 appraisers, ask you for your opinion of value?
17 A. Well, I'm on the front lines everyday of selling
18 properties. And I have a pretty good handle as to what's
19 happening, currently, in the market.
20 Markets don't just go up. They go down. Markets
21 go up and down; have since the beginning of time. Values
22 change --
23 (Phone rings.)
24 THE WITNESS: Sorry, Judge. I'll get that
25 off.

L.Moens - Defendant - Direct/Mr.Robert Page 6097

1 THE COURT: That's a first.
2 (Pause in proceedings.)
3 THE WITNESS: Sorry about that. I did turn
4 it off, Judge. He's 91. I had to take the call.
5 THE COURT: Okay. Great.
6 MR. ROBERT: If I could just have the last
7 question and answer read back.
8 THE COURT: Read back.
9 (The testimony as requested was read by the
10 reporter.)
11 MR. WALLACE: Note my objection to that
12 question. It calls for hearsay.
13 THE COURT: Which part?
14 MR. WALLACE: Why do MAI appraisers ask for
15 your opinions of value.
16 THE COURT: Sustained.
17 Q. Do you have an understanding, Mr. Moens, as to why
18 MAI appraisers would go to you for a valuation?
19 A. Because they know they'll get a straight answer
20 and an accurate reading of where the market is.
21 Q. So when you say a straight answer and an accurate
22 reading, I need to dig down a little, what does that mean?
23 A. It means, my numbers are, usually, right.
24 Q. And what do you do to come up with a number or
25 value for a piece of property in Palm Beach?

L.Moens - Defendant - Direct/Mr.Robert Page 6098

1 A. It's everything from getting information on square
2 footage, how much land is involved or how many units in a
3 building -- if it's a multifamily situation -- data from
4 sources -- public sources -- the Palm Beach property
5 appraisers office to verify numbers and 45 years experience
6 in selling billions of dollars worth of real estate.
7 Q. What is it that you attribute to your 45 years of
8 success selling real estate in Palm Beach?
9 A. Knowing my left ear from my right elbow.
10 Q. Well, is there anything more than that?
11 A. A little luck.
12 Q. What, if anything, about how you treat your
13 clients?
14 A. I treat everyone the same.
15 Q. Well, Mr. Moens, if we were to go to your website,
16 there's no picture of you on the website, right?
17 A. I prefer not to be photographed.
18 Q. Well, why is there no picture of you on your
19 website?
20 A. Because, I don't believe in self-promotion. I
21 don't believe in egos that have to see their name or their
22 face in a newspaper or magazine.
23 Q. So, notwithstanding the fact that you had ten of
24 the twelve largest transactions in Florida, you're not out
25 in the press that much are you?

L.Moens - Defendant - Direct/Mr.Robert Page 6099

1 A. I don't speak to the media.
 2 MR. ROBERT: Your Honor, at this point, I
 3 would tender Mr. Moens as an expert in the evaluation
 4 of Palm Beach real estate.
 5 THE COURT: I think the testimony was ten of
 6 the twelve largest sales in Palm Beach, not in all of
 7 Florida; is that correct.
 8 THE WITNESS: I think I had nine in Palm
 9 Beach, one in Manalapan Florida -- an exclusive enclave
 10 just south of Palm Beach where Larry Ellison bought his
 11 house. Yeah, so, nine in Palm Beach.
 12 THE COURT: Nine of the largest twelve or
 13 ten or --
 14 THE WITNESS: Well, there's twelve in the
 15 state of Florida that exceeded a hundred million
 16 dollars.
 17 THE COURT: Oh, okay.
 18 THE WITNESS: Nine were in Palm Beach, one
 19 in Manalapan and one in Miami.
 20 THE COURT: And Mr. Robert, exactly, what do
 21 you want him to be deemed an expert on?
 22 MR. ROBERT: In being able to value
 23 residential real estate or real estate in Palm Beach.
 24 That 13-mile island, which is highly specialized and
 25 highly particularized, the witness has testified he's

L.Moens - Defendant - Direct/Mr.Robert Page 6100

1 given valuations thousands of times appraisers call him
 2 because he's --
 3 THE COURT: I just asked you what --
 4 MR. ROBERT: Sorry, your Honor. I guess
 5 I've been hanging out with Mr. Kiser too long. I'm
 6 sorry, your Honor.
 7 THE COURT: An expert in valuing residential
 8 property in Palm Beach?
 9 MR. ROBERT: Yes, sir.
 10 THE COURT: Okay. Mr. Moens, have you ever
 11 been qualified to testify as an expert before?
 12 THE WITNESS: Not as an expert. Probably,
 13 as a fact witness in cases or trials.
 14 THE COURT: And you realize those are
 15 different.
 16 THE WITNESS: I realize they are different.
 17 THE COURT: AG, any comments or questions?
 18 MR. WALLACE: I believe Your Honor limited
 19 the qualification to residential property. So we
 20 certainly agree with that limitation.
 21 I believe Mr. Moens' description of his
 22 valuation techniques is what, I believe, is technically
 23 called a little squishy. But, I think that's something
 24 we can deal with on cross.
 25 MR. ROBERT: To be clear, your Honor, it's

L.Moens - Defendant - Voir Dire/Mr.Wallace Page 6101

1 evaluation of Palm Beach in general, not just
 2 residential. His life has been in Palm Beach.
 3 MR. WALLACE: That I disagree with.
 4 THE COURT: I thought we had agreed or you
 5 had asked that. I think you said residential.
 6 MR. WALLACE: If I did, it should be the
 7 value of Palm Beach real estate. I may have misspoke
 8 if I said, "residential." It is value of Palm Beach
 9 real estate.
 10 THE COURT: Mr. Moens, do you deal in
 11 commercial properties.
 12 THE WITNESS: I do.
 13 THE COURT: Go ahead, Mr. Wallace.
 14 MR. WALLACE: I'd appreciate an opportunity
 15 to voir dire him, a little bit, I guess, then on the
 16 scope of his expertise beyond residential real estate.
 17 THE COURT: Sure.
 18 VOIR DIRE
 19 BY MR. WALLACE:
 20 Q. Mr. Moens, you do not have any experience
 21 brokering, selling or valuing country clubs; is that
 22 correct?
 23 A. I haven't seen any come for sale.
 24 Q. And you don't have any experience brokering,
 25 selling or valuing social clubs; is that correct?

L.Moens - Defendant - Voir Dire/Mr.Wallace Page 6102

1 A. Never have done.
 2 Q. And you've never sold or acted as a broker in the
 3 sale of a private club; is that correct?
 4 A. Don't know of any that have ever come up.
 5 MR. SOLOMON: Your Honor, I think the
 6 witness should be limited to residential real estate.
 7 MR. ROBERT: Well, your Honor, the issue
 8 here is, he's going to be giving his opinion as to
 9 Mar-a-lago and the surrounding homes to Mar-a-lago that
 10 are all owned by President Trump.
 11 THE COURT: Well, you said the surrounding
 12 homes. So that means the only arguably nonresidence
 13 would be Mar-a-lago itself.
 14 MR. ROBERT: Correct, your Honor. Our
 15 position is, obviously, it's a single family residence.
 16 That's what Mr. Moens is going to testify about. I
 17 just wanted to be clear about that with Mr. Moens.
 18 We're not going to ask him his opinion about
 19 an office building in Palm Beach -- not that I think
 20 there is one in Palm Beach. But, we're not going to
 21 ask that.
 22 THE COURT: We agree on -- whether or not I
 23 agree he's an expert yet, but can we agree that the
 24 request is that he's an expert evaluator of residential
 25 real estate, including Mar-a-lago, whether or not it is

L.Moens - Defendant - Voir Dire/Mr.Wallace Page 6103

1 a residence.
2 How is that?
3 MR. WALLACE: As long as we can agree to
4 that because, I think I have a strong position on
5 whether or not it is, indeed, a residence.
6 I think the subject matter of his expertise
7 is the same whether or not Mar-a-lago is included.
8 And if the defendants want to make their
9 legal argument as to why Mar-a-lago should be
10 considered as a residence, they are free to do that.
11 I think we have objected to Mr. Moens valuing
12 Mar-a-lago and operating a social club as a residential
13 property. But, that I think is, certainly, beyond the
14 scope of what subjects he's qualified as an expert on.
15 THE COURT: Mr. Kise?
16 MR. KISE: Again, if you're prepared to
17 admit him as expert, I don't need to speak. But, if
18 you would like to hear --
19 THE COURT: You have to talk louder.
20 MR. KISE: I said, I am not going to add
21 anything if you are prepared to deem him as an expert.
22 THE COURT: You're learning. How about this
23 plaintiff, expert in residential real estate in Palm
24 Beach, including Mar-a-lago, whether or not it is
25 considered a residence.

L.Moens - Defendant - Voir Dire/Mr.Wallace Page 6104

1 But, I will, obviously, just take his
2 testimony for what its worth in terms of -- and there
3 is no jury -- in terms of whether or not he could have
4 an expert opinion on Mar-a-lago whereas its uses is
5 somewhat an issue of dispute.
6 MR. WALLACE: I don't want to get into
7 whether the witness should be here for this but, I do
8 not believe the witness attempts to value Mar-a-lago as
9 an operating club. And his opinion of Mar-a-lago value
10 is limited to its ability to be sold as a single-family
11 residence. So, I do not think the additional
12 qualification is necessary, that, it can be a limited
13 to residential.
14 MR. KISE: Your Honor, I mean, not as legal
15 argument but as a factual argument -- it's undisputed,
16 I think, I have not heard a disputed -- President Trump
17 lives there now as a residence. He's lived there for
18 years as a residence. And it's undisputed that it's
19 his residence. So, that's not a legal argument.
20 That's a factual argument. So, it's not really --
21 So Mr. Moens is going to testify as to his
22 opinion of what it could be sold for, what it could be
23 sold for in the residential market.
24 Whether you accept that it can be sold for
25 that or not that's another question altogether. I

L.Moens - Defendant - Voir Dire/Mr.Wallace Page 6105

1 think the evidence -- the factual evidence, not the
2 legal arguments -- it's beyond dispute that it's a
3 residence now.
4 And there's nothing to preclude it from being
5 a residence later because, anyone who buys it -- if I
6 bought it at your price of 18 million, I would just
7 simply step into the shoes of President Trump. It
8 would be the same. I would live there just like he
9 does.
10 So, Mr. Moens isn't offering an opinion as to
11 whether or not -- that question, whether or not, it can
12 be used as a club residence or both.
13 He's just saying that if you sell it as a
14 residence, it's worth X. If someone wants to buy it
15 and use it as a residence, club use no club use, he's
16 not getting into that. But that's it. Its just his
17 opinion of value.
18 So, I think with or without the qualifier
19 it's acceptable. But, he's not offering an opinion as
20 to -- just like Mr. Shubin, you limited him to offering
21 an opinion as to that legal conclusion. But, I just
22 would posit that it's not a legal conclusion.
23 President Trump lives there.
24 (Whereupon, the following proceedings was
25 stenographically recorded by Lisa Casey.)

L. Moens - Direct by Mr. Robert Page 6106

1 THE COURT: I'm trying to simplify things, as
2 always. Why don't we just say he's an expert in
3 residential real estate, and in Palm Beach and not talk
4 about --
5 MR. WALLACE: We'll agree to that, your Honor.
6 THE COURT: Okay. I hereby deem the witness as
7 an expert in the value of residential real estate in Palm
8 Beach.
9 Q When you were retained, Mr. Moens, what was the
10 assignment that was given to you?
11 A I was asked to look at four properties and give an
12 opinion of the value of those properties.
13 Q And did you, in fact, do that, sir?
14 A I did.
15 Q And what were the steps that you took to determine the
16 value of those four properties? Before we discuss each
17 property, separately.
18 A Well, it's quite a lot of research, to verify facts,
19 usually numbers. Again, as I said earlier, square footages,
20 acreage, size of land. It's usually not acreage, in Palm Beach.
21 It's usually much less than an acre in Palm Beach, but we have
22 to get the numbers right, because if it's .49 of an acre versus
23 .73 of an acre, there's a huge difference.
24 Getting opinions of published items and seeing that,
25 when I approach to give an opinion of value, that I have all the

L. Moens - Direct by Mr. Robert Page 6107

1 facts so that I can give a clear number. That, combined with
2 all the experience I've had -- because I'm a lot older than
3 you -- and having done this for as many years as I have, it's
4 kind of a formula, which is usually very accurate.

5 Q And Mr. Moens, what if any objective information do
6 you need to make such an assessment?

7 A I need everything at my disposal to come up with a
8 valuation.

9 Q What if anything did you use from the Palm Beach
10 County Property Appraiser's Office?

11 A Same thing I stated. In her files, when you go in the
12 Property Appraiser's Office, it usually gives number of
13 dwellings. It will say how many square feet. It will say
14 approximately, or it will state a number, whether it's right or
15 wrong, what the number of acres is, or square feet of land.

16 All of those technical things do have something to do
17 with the value. You have to know what you're valuing and how
18 big it is. Not just the dwelling, but also the land. It's
19 whether or not it's on the water. If it's not on the water; if
20 it is on the water. If it's in the estate section; not in the
21 estate section. There's -- location has a lot to do with it,
22 but facts, real numbers and all the facts, aren't always right.
23 Even when I look at different reports, or the property
24 appraiser, sometimes field officers get things wrong. There are
25 mistakes.

L. Moens - Direct by Mr. Robert Page 6108

1 Q With regard to the tax assessor, what if anything does
2 the assessment in taxable value have to do with the selling
3 price of the property?

4 A Absolutely none.

5 Q With regard to the Mar-A-Lago valuation, that was one
6 of the properties you valued; correct, sir?

7 A Yes, it is.

8 Q And have you visited the property?

9 A Many times, since the 1980s.

10 Q And this is as good a time as any. How, if at all, or
11 did you ever, meet President Trump?

12 A I was asked to meet him by Larry Fisher -- God rest
13 his soul. He was a nice guy. One of the first billionaires in
14 America -- to help guide him on a property that he was doing in
15 West Palm Beach, Florida, and give him an opinion.

16 Q And when was that, sir?

17 A I would say somewhere in the late 1980s.

18 Q And how would you describe your relationship with
19 President Trump, from that point in time to now?

20 A Cordial.

21 Q And how is it that you came to be an expert for us in
22 this case?

23 A President Trump was at Mar-A-Lago, and we bumped into
24 each other. I hadn't seen him in quite some time, and he said,
25 Can I ask you if you would help me with something? I've got an

L. Moens - Direct by Mr. Robert Page 6109

1 issue in New York that I'm dealing with. I would like to see if
2 you could render an opinion for my attorneys, and that's first
3 time I heard the name Chris Kise. And he asked if it will be
4 all right for Chris to call me, and I said it would be.

5 Q And what, if any -- what was the specific assignment
6 that Mr. Kise gave you?

7 A Well, Mr. Kise asked me to take a look at properties
8 which are the subject of this trial, I guess. In Palm Beach,
9 not the other properties that are subject to this. But, I
10 looked at the four properties in Palm Beach, and he offered me
11 an amount of money per hour. I think it was 975, I think it
12 was, per hour, to take a look at and give an opinion of the
13 values of those four properties.

14 Q So, let's starts with the Mar-A-Lago property, sir.
15 You already testified that the first thing you did is you went
16 and you got square footage and acreage; correct?

17 A Correct.

18 Q What if anything did you do next?

19 A I looked at anything. I've got a great office
20 manager, highest paid, probably, in Palm Beach. Very good at
21 what she does. She went through all of our files. She pulled
22 records. We did properties in the area. We did comparable
23 sales. We looked at the facts that I told you earlier from the
24 courthouse. We looked at, even, Les Evans' report, which is no
25 longer published, but at the time of the years 2011 to 2021, I

L. Moens - Direct by Mr. Robert Page 6110

1 think, they were published.

2 So, anything that was out there that I could tap into
3 to come up with a real number, including my own experience and
4 gut feeling correlating that information.

5 Q Before we talk about your experience and your gut
6 feeling, what is the Evans report?

7 A It's no longer published, but it's an attorney in Palm
8 Beach that used to report sales and their numbers and their
9 frequency, and some of the information in there was wrong. I
10 would know that -- he would have a recorded price on a property
11 at, you know, 63 million, and it actually sold for 67 million.
12 The reason there's a discrepancy is sometimes properties sell,
13 and they are legally allowed to take things off, like
14 furnishings, or artwork, or greedy brokers' fees. They're able
15 to deduct certain expenses from the number, so that the recorded
16 number is less than the actual transfer and consideration of
17 money.

18 Q What else do you use to determine comparables sales?

19 A We try and get as close as we can to similar
20 properties in the area. When they sold, what was involved. You
21 have additions and subtractions for additional reasons, based on
22 their location, size, the proximity of the property, and it's
23 kind of a recipe to come up with a final number.

24 Q What if anything does uniqueness of a property have to
25 do, in determining value?

L. Moens - Direct by Mr. Robert Page 6111

1 A Well, I mean, if it's waterfront it's a different
2 league. If you are, say, dealing with a house on the
3 Intracoastal, versus a house that's not on the water, versus,
4 say, a house that's on the ocean, or even -- in Palm Beach we
5 have a few golf courses where you can have a house that looks at
6 a golf course -- that gives you something added, because water
7 is more valuable or limited, and in more demand, say, than the
8 plethora of non-water property properties.
9 Q And where does Mar-A-Lago fit in with that?
10 A Well, Mar-A-Lago is a little unique. It's not just on
11 the Intracoastal. It's on the Ocean, and it's connected by a
12 tunnel underneath the road so that it's contiguous, so you have
13 access to both the Ocean and the Intracoastal by way of the
14 underground tunnel, which is rare in Palm Beach.
15 Q How big is the parcel of land that Mar-A-Lago sits on?
16 A Mar-A-Lago, I think, is 17.6 acres, and I'm not sure
17 that that is the total with or without -- I don't recall if it's
18 with or without the Ocean parcel, but I think it's
19 17-point-something.
20 Q And how big is the home itself?
21 A The home is just over 76,000 square feet, if you count
22 all the buildings. It's not just one building. Mar-A-Lago is
23 not one building. I actually did a video showing the
24 difference, because you have a beach club, you have the main
25 residence. You have a ballroom that was added years after this

L. Moens - Direct by Mr. Robert Page 6112

1 was turned into a club, and it's quite amazing to see, if you
2 haven't seen it.
3 I invited the Attorney General's Office to come see it
4 anytime. That offer stands, if you ever want to go in there.
5 I'll make sure he is not there when you come, but I'll get you
6 in there to see it, because it's something breathtaking. It's
7 something amazing to see.
8 Q You mentioned a video. Mr. Moens, did you prepare a
9 video for your testimony here today?
10 A I did. I thought it would be good for the judge,
11 or --
12 Q And what does that video depict?
13 A It just gives you a flavor. It's very short. It's
14 only seven and a half minutes, or less, and it just gives you an
15 overview of what we are talking about with regard to that
16 structure.
17 MR. ROBERT: Your Honor, I would like to put, on
18 the board, a video, Defendant's Exhibit 1063, which is the
19 video that Mr. Moens prepared of Mar-A-Lago. Instead of
20 having a site visit, which I don't think is practicable, to
21 take the Court and everyone else to Mar-A-Lago, we figured
22 it's the simplest way to do it, and then Mr. Moens will
23 explain after, what it is we're seeing.
24 THE COURT: If it gets any colder outside, I'll
25 take him up on the offer.

L. Moens - Direct by Mr. Robert Page 6113

1 MR. WALLACE: I'll just note my objection, your
2 Honor. It's a marketing video. It's got swelling sound
3 tracks and crane shots and drone shots. It is not, I
4 believe, relevant, and I'm not sure if it's qualifying as a
5 demonstrative of the nature of the property, or if it's --
6 how it's supposed to be entered into evidence.
7 Q Mr. Moens, that was produced for this testimony; it's
8 not a marketing --
9 A It was, absolutely. I would never use that as
10 marketing.
11 Q Well, how do you market --
12 MR. ROBERT: Withdrawn.
13 Q What is the typical client that you deal with, or who
14 is the typical client that you deal with?
15 A They're usually very wealthy people that come to Palm
16 Beach because so it's damn expensive to live there.
17 Q And would a marketing -- would the video, that
18 Mr. Wallace is suggesting that this is a marketing video, be a
19 way that someone like you would sell a home like this?
20 A I don't use videos to market my properties.
21 MR. ROBERT: Your Honor, I would like to show the
22 Court Exhibit 1063, which is the video.
23 THE COURT: Objection overruled. Let's see it.
24 MR. ROBERT: Let's hope the technology works.
25 It's all on you.

L. Moens - Direct by Mr. Robert Page 6114

1 (Whereupon, a video was played.)
2 A I'm sorry. The flag was at half mast in honor of the
3 first lady, who had just recently passed away when we did this.
4 Roslyn Carter.
5 MR. WALLACE: Who was not a member of Mar-A-Lago,
6 I believe.
7 MR. ROBERT: I believe so.
8 Q Mr. Moens, obviously that was an impressive
9 presentation in the video. What, if anything of great
10 significant -- and I'll not use the word significance -- great
11 significant, in terms of your opinion of value, would you like
12 to specifically draw our attention to.
13 MR. ROBERT: Without looking at it again, your
14 Honor.
15 Q Just certain specific things, Mr. Moens.
16 A Well, if I narrated it, I would have pointed out
17 things like the hand-laid stones in the huge courtyard to the
18 west of the main facade of the house. Each one was laid by an
19 individual person, from Marjorie Post, when the house, or the
20 castle, was built.
21 The winged ceilings -- it's called the room of a
22 thousand wings -- has actual gold applied to it. At the time,
23 millions of dollars worth of gold were used. I don't know what
24 it would be today, but it would be far -- it would cost many
25 times what it did then, in 1927, completed in '28, to try and

L. Moens - Direct by Mr. Robert Page 6115

1 replicate what's in that house.
2 Hand-carved stone. There were workmen there for years
3 just doing trades, from all over the world, carving and creating
4 what Mar-A-Lago is today. That's why I encouraged the Attorney
5 General to come and see it, do a field view of the property, to
6 understand what it is. That was just a seven-minute snippet of
7 what is there. I think it's important to know that it's
8 different from other residential, or clubs, whatever label you
9 put on it, that exist in the world. It's unto itself. One of
10 the most important properties.
11 You have got Mar-A-Lago. You have got San Simeon in
12 California, the Hearst castle. Harold Vanderbilt's house in
13 North Carolina. These are castles, sometimes turned in museums
14 or clubs, but they were residences lived in by the original
15 families, and other families that occupied, after the original
16 family either didn't want the property anymore, or they died.
17 MR. ROBERT: Your Honor, at this point we move
18 Defendant's Exhibit 1063 into evidence.
19 THE COURT: Granted. It's in.
20 (Whereupon, Defendant's Exhibit 1063 was received
21 in evidence.)
22 Q Mr. Moens, before we talk about the actual value,
23 there came a point in time that you placed a valuation on
24 Mar-A-Lago; correct?
25 A Yes.

L. Moens - Direct by Mr. Robert Page 6116

1 Q And that was for the period of 2011 through 2021;
2 correct?
3 A I did those years, yes. Ten years.
4 Q We spoke about the objective things that you looked
5 at. What else did you add to the mix, if anything, in coming up
6 to the value?
7 A Well, it's just comparing it to properties of great
8 importance that sell in the town that I have my business, and
9 surrounding towns like Jupiter Island, Manalapan, but primarily
10 Palm Beach, Florida. I came up with my numbers by using all the
11 information at my fingertips, and 45 years of doing this
12 business in the Palm Beach market.
13 Q Is there an analogy that you like to use that explains
14 how you interject your 45 years of experience into these
15 objective numbers?
16 A I don't understand.
17 Q Okay.
18 MR. ROBERT: Your Honor, I would like to put, on
19 the board, demonstrative Exhibit DD6.
20 THE COURT: Which is?
21 MR. ROBERT: We are going to hand it up. It's a
22 chart from Mr. Moens' report that has his valuation. It's
23 just going to be easier to take him through.
24 THE COURT: So, this is going to be his basic
25 bottom line?

L. Moens - Direct by Mr. Robert Page 6117

1 MR. ROBERT: Correct.
2 (Whereupon, a document was handed to the Court
3 and the witness.)
4 THE COURT: I'm going to ask that the witness be
5 excused for a minute. I did to discuss and address certain
6 issues.
7 We'll see you back soon.
8 THE WITNESS: Oh. You want me to leave? Sorry.
9 I didn't know I was being ejected.
10 THE COURT: We have an interrogation room in the
11 back. We will work you over.
12 THE WITNESS: I hope it's sound proof.
13 (Whereupon, the witness was excused from the
14 courtroom.)
15 THE COURT: Something that I wrestled with, this
16 whole case, is what exactly is the Attorney General basing
17 its case on, in this. What is the real claim, here. And
18 I've tried to make clear in my own mind, and in the summary
19 judgment motion, I don't see this case as -- you ask the
20 person on the street, what's the case about. They
21 over-valued the property. I see this case about the
22 documents, whether the defendants used false documents in
23 transacting business, which is what 6312 is basically
24 about. And the other six causes of action, one of them is
25 false documents, insurance fraud, I think somewhat similar.

L. Moens - Direct by Mr. Robert Page 6118

1 So, I'll allow Mr. Moens' testimony, either as a
2 demonstrative or orally, what he thinks Mar-A-Lago is
3 worth, but that's not the bottom issue here for me, and in
4 fact I said, and maybe in a footnote in the summary
5 judgment motion, I'm not trying to figure out what the
6 value is. I'm trying to figure out whether or not the
7 defendants violated 6312 by using false documents in the
8 transaction of business.
9 So, I'll let it in, with the understanding that I
10 don't necessarily even consider it relevant. But again,
11 sort of taking on a cue from Mr. Kise, on appeal, maybe the
12 Appellate Division or the higher courts will think, Well,
13 no, it is relevant, so we wanted the testimony.
14 MR. ROBERT: And I know better than to say
15 anything when it's coming in, so I will keep my mouth shut.
16 THE COURT: Plaintiff, any comments, agreement,
17 disagreement, anything you want to say?
18 MR. WALLACE: No, I certainly agree, it's
19 irrelevant. I do think that our case is based on the use
20 of false information and the preparation the valuations
21 that went into the statement. We have not ever taken the
22 position that because something is objectively wrong, or
23 that, you know, you need to have a certain appraisal or
24 certain piece. It is based on the information that
25 existed, that was available to the defendants at the time

L. Moens - Direct by Mr. Robert Page 6119

1 they were preparing these, and the choices they made in how
2 they undertook to present the values.
3 So, I agree. We are not presenting -- I think
4 this is actually going to be the only witness who is
5 valuing a property so far, in the entire case, who is
6 offering sort of any independent estimate of value for any
7 individual property, and that's because I don't think it's
8 really relevant to the issue, as well.
9 THE COURT: Did I say anything with which you
10 disagree?
11 MR. WALLACE: No, your Honor.
12 THE COURT: You don't have to say no.
13 MR. WALLACE: I can go back and look, but why
14 don't I do that over lunch.
15 THE COURT: And Mr. Kise, what's your philosophy
16 here?
17 MR. KISE: Well, my philosophy is, it's coming
18 in, so I'm not going to say much, but I will say that you
19 said a lot that I don't agree with, but we'll deal with
20 that at another time.
21 THE COURT: A lot that you disagree.
22 MR. KISE: I disagree, but that's for --
23 THE COURT: Another time.
24 MR. KISE: Another time. It's coming in.
25 THE COURT: Okay. Let's get the witness and see

L. Moens - Direct by Mr. Robert Page 6120

1 the demonstrative.
2 MR. KISE: Thank you.
3 I was just going to say, it may be, now that I've
4 seen where we are, if we take our lunch break now, we can
5 truncate. If I confer with Mr. Robert, we can probably --
6 THE COURT: Let's keep going. We have got --
7 MR. KISE: That's fine.
8 (Whereupon, the witness resumed the witness
9 stand.)
10 THE COURT: I appreciate the offer.
11 MR. ROBERT: What time do you want to stop? So I
12 keep --
13 THE COURT: About five to 1:00.
14 MR. ROBERT: Sure.
15 THE COURT: So, we have got ten minutes.
16 THE WITNESS: Can we finish me in ten?
17 THE COURT: He could finish you in ten, but I
18 don't think they could.
19 MR. ROBERT: Even I couldn't finish him in ten.
20 Maybe twelve, but not ten.
21 CONTINUED DIRECT EXAMINATION
22 BY MR. ROBERT:
23 Q Mr. Moens, you have in front of you what's been marked
24 as Defendant's Demonstrative Exhibit DD6. Do you see that?
25 (Whereupon, a document was displayed, and handed

L. Moens - Direct by Mr. Robert Page 6121

1 to the witness.)
2 A I do.
3 Q And do you recognize these numbers?
4 A Yes. I prepared them.
5 Q Okay. And where did you prepare them?
6 A In my office, with my office manager and bookkeeper
7 and receptionist.
8 Q Are these the numbers that you determined to be THE
9 value of Mar-A-Lago for particular years?
10 A Yes, they are.
11 Q So, looking to 2011, what was the value that you
12 placed on Mar-A-Lago in 2011, as a single --
13 MR. ROBERT: Withdrawn.
14 Q What is this value based on?
15 A What I could get for it in the open market in that
16 year, 2011, if he would hire me to sell it. Which, he did not.
17 Q And for what would it be, as a single-family house,
18 something else? As what?
19 A As a club, as a single-family residence. As what it
20 exists in its present form today, or in 2011.
21 Q And what was the value you placed on it in 2011, sir?
22 A \$655 million.
23 Q And what is the comment to the right that says, Moens
24 value, with memberships? Explain that, sir.
25 A Well, I just wanted the Court to understand that

L. Moens - Direct by Mr. Robert Page 6122

1 there's an underlying additional thing to consider here. I'm
2 looking at bricks and mortar. I'm looking at what it is, where
3 it is, when I come up with my value.
4 In addition to my value, because it allows to be a
5 club and has memberships that are available, there's additional
6 monies or revenue that can be derived from selling those
7 memberships, if one chose to sell the memberships. As
8 Mar-A-Lago, in 2011, they were getting an average of 100,000 for
9 a membership. Each year, it bounces around, but I was able to
10 obtain the numbers from the club manager, Bernd Lembcke, who was
11 able to give me the numbers of what the club collected for
12 memberships, during the ten years that I was asked to do this
13 analysis.
14 (Continued on the next page.)
15
16
17
18
19
20
21
22
23
24
25

L.Moens - Defendants - Direct/Mr. Robert Page 6123

1 Q. And what was the value you placed on the
2 Mar-a-lago sale with membership in 2011?
3 A. \$705 million.
4 Q. And Mr. Moens, on the left, next to the year, it
5 says, "SOFC value" what's that?
6 A. I'm not really good with acronyms but, I think
7 it's Statement of Financial Condition or something.
8 Q. What is the number that's listed underneath that
9 Statement of Financial Condition value?
10 A. \$426,529,614.
11 Q. And moving to 2012, Mr. Moens, what was the value
12 that you placed on Mar-a-lago without memberships?
13 A. \$675 million.
14 Q. And the value you placed on it with memberships in
15 2012?
16 A. \$725 million.
17 Q. In 2013, the value you placed on it without
18 memberships?
19 A. \$660 million.
20 Q. And in 2013, the value you placed on it with
21 memberships?
22 A. \$697,500,000.
23 MR. WALLACE: Your Honor, I just want to
24 take this opportunity to interpose objection on the
25 membership amounts.

L.Moens - Defendants - Direct/Mr. Robert Page 6124

1 The source for this these amounts that came
2 from the club manager was not disclosed in his report.
3 I don't know that it is material but, I just wanted to
4 note that this is -- the source of this data was not
5 disclosed as the source of material reviewed.
6 MR. ROBERT: I believe the question was
7 asked at his deposition.
8 THE COURT: Well, the exhibit is in
9 Evidence. And I will decide how to treat it.
10 Q. So did I have an answer as to what the value of
11 the membership was in 2013.
12 A. I'm sorry, which value?
13 Q. With memberships in 2013.
14 A. Six hundred ninety seven million five hundred
15 thousand dollars.
16 Q. In 2014 what was the value without memberships?
17 A. \$685 million.
18 Q. And the value with memberships in 2014?
19 A. \$735 million.
20 Q. The value in 2015 without memberships?
21 A. \$720 million.
22 Q. And the value with memberships in 2015?
23 A. 770 million.
24 Q. In 2016, Mr. Moens, your value without
25 memberships?

L.Moens - Defendants - Direct/Mr. Robert Page 6125

1 A. \$760 million.
2 Q. And your value with memberships in 2016?
3 A. \$835 million.
4 Q. And in 2017, your value without memberships?
5 A. \$790 million.
6 Q. And in 2017, your value with memberships?
7 A. \$890 million.
8 Q. And in 2018, Mr. Moens, your value without
9 memberships?
10 A. \$825 million.
11 Q. And in 2018, your value with memberships?
12 A. \$950 million.
13 Q. And Mr. Moens, in 2019, your value without
14 memberships?
15 A. \$865 million.
16 Q. And your value with memberships in 2019.
17 A. \$990 million.
18 Q. And Mr. Moens, in 2020, what was the value placed
19 on Mar-a-lago without memberships for 2020?
20 A. \$950 million.
21 Q. And in 2020, the value you placed on Mar-a-lago
22 with memberships?
23 A. One billion seventy five million dollars.
24 Q. Mr. Moens, for 2012, what was the value you placed
25 on Mar-a-lago?

L.Moens - Defendants - Direct/Mr. Robert Page 6126

1 THE COURT: You don't mean 2012.
2 MR. ROBERT: I'm sorry, your Honor. Forgive
3 me.
4 Q. Mr. Moens, in 2021, what was the value you placed
5 on Mar-a-lago without memberships?
6 A. One billion forty million dollars.
7 Q. And the value you placed on Mar-a-lago for 2021
8 with memberships?
9 A. \$1,215,000,000.
10 MR. ROBERT: Your Honor, I think this may be
11 a good time to break for lunch.
12 THE COURT: That's a deal. I'm hungry. See
13 you all at 2:15 then.
14 MS. FAHERTY: Can we get an admonition, your
15 Honor.
16 THE WITNESS: Thank you.
17 THE COURT: Do not discuss this case, your
18 testimony or anything related to it during the lunch
19 break.
20 THE WITNESS: I'm honoring your wish.
21 THE COURT: Thank you.
22 (A luncheon recess was taken.)
23 (After the luncheon recess, the following
24 occurred:)
25 ***

L.Moens - Defendants - Direct/Mr. Robert Page 6127

1 AFTERNOON SESSION.
2 (The trial continued.)
3 THE COURT: Welcome back. First order of
4 business is to discuss schedule. Who's going to take
5 the lead on that?
6 MR. KISE: Okay.
7 MR. ROBERT: To try to streamline things, we
8 have decided not to call Eric Trump. We're pleased
9 with his earlier testimony.
10 THE COURT: Do you have any other witness?
11 MR. KISE: We have Professor Bartov and
12 President Trump who are the two remaining witnesses.
13 Professor Bartov will be Thursday. He
14 teaches tomorrow. We tried to move him up. He teaches
15 at NYU.
16 I'm not sure, shouldn't they be out of school
17 by now? It is December 11th. It's next week. It's
18 not Florida. Apparently, not. But yes, we tried to
19 move him up but, apparently not.
20 And then, we have one -- we have several
21 documents that -- they are just corporate documents --
22 that we can present to the government. And, if they
23 will agree to just admit them, fine. If they won't,
24 then we can bring a witness in to admit the documents.
25 But that would be the only other witness.

L.Moens - Defendants - Direct/Mr. Robert Page 6128

1 And again, if they won't do it by
2 stipulation, we can bring the witness in Thursday
3 morning. It would take fifteen minutes -- if that.
4 But that's the current plan, your Honor.
5 THE COURT: Plaintiff, in response?
6 MR. WALLACE: Well, the devil is in the
7 details of the document. But, so far, we have been
8 able to agree.
9 I think we would want to see what they are
10 proposing. It's not our case. So, beyond that, I
11 don't think -- if the proposal is workout some
12 stipulation on documents or spend fifteen minutes with
13 everyone coming to court to deal with that, I think
14 that would not be our preference. Happy to see what
15 the defendants have and are proposing.
16 And another option is always if people offer
17 affidavits or lay a foundation for a document. Why
18 don't we just see what the defendants have.
19 MR. KISE: Sure.
20 MR. ROBERT: Your Honor, at this point, if
21 the prosecution could let us know if they have a
22 rebuttal case and who they will call so that we can
23 prepare because, that would start Tuesday morning
24 presumably.
25 MR. WALLACE: I think it depends, somewhat,

L.Moens - Defendants - Direct/Mr. Robert Page 6129

1 on what we hear from Mr. Bartov if we call a rebuttal
2 expert on accounting to respond to Mr. Flemmons and to
3 Mr. Bartov. And beyond that, I don't know if we
4 have -- oh, Kevin Sneddon would be the other potential
5 witness we would call, who is a fifteen-minute witness
6 from our perspective.
7 THE COURT: Okay. And no comments on the
8 schedule?
9 MR. WALLACE: At this point, we're almost
10 to the end. Let's just get there.
11 MR. KISE: And to the extent they call --
12 again, as Mr. Wallace said, we don't know what their
13 accounting witness is going to say but, to the extent
14 they call an accounting witness, that requires us then
15 to bring Mr. Bartov and Mr. Flemmons back, we would do
16 that.
17 Depending on what they're proffering this
18 witness for -- it may be that they're -- it really
19 depends on what they're proffering the witness for --
20 certainly, our position is going to be that they can't
21 bring in a witness now to testify to things that they,
22 certainly, could have done in their case and chief.
23 But, we don't know because we don't know exactly what
24 the proffer of the testimony is.
25 But we can't have -- Mr. Flemmons and

L.Moens - Defendants - Direct/Mr. Robert Page 6130

1 Professor Bartov aren't going to testify about what
2 their expert said necessarily directly because, that's
3 not in the trial record. The only way they would have
4 an opportunity to do that is if they called that
5 witness and then we would have an actual rebuttal.
6 THE COURT: Okay. So we're down tomorrow;
7 is that it?
8 MR. KISE: I believe that's correct.
9 MR. ROBERT: I'm not going to be long with
10 the witness this afternoon. I don't think the
11 government is going to be long.
12 MR. WALLACE: We're not going to be long
13 either.
14 THE COURT: I will turn the microphone over
15 to the person who's sitting next to me.
16 MS. GREENFIELD: We're going to be down
17 tomorrow. Bartov is going to start Thursday morning?
18 MR. ROBERT: I'm sorry. I didn't hear that?
19 MR. KISE: Yes, Professor Bartov is starting
20 Thursday morning.
21 MS. GREENFIELD: And is he expected to go
22 into Friday or is that going to be one day.
23 MR. KISE: We're certainly going to take a
24 good amount of Thursday not the whole day Thursday I
25 would anticipate. It depends on how much cross

L.Moens - Defendants - Direct/Mr. Robert Page 6131

1 examination the government has. But I'm hoping it
2 doesn't spill over to Friday. But, that's certainly a
3 distinct possibility.
4 MS. GREENFIELD: So if it does not spill
5 into Friday, do you anticipate Friday being another
6 down day?
7 MR. KISE: It will be because, the only
8 other remaining witness would be President Trump. And
9 I have one other issue on that.
10 MS. GREENFIELD: There's no other
11 administrative tasks that can be done, that needs to be
12 done?
13 MR. KISE: Not that I'm aware of.
14 THE COURT: Okay. We're all set.
15 MR. KISE: As to President Trump, given, as
16 the Court may be aware of, that we're in the process of
17 seeking expedited review, by the New York Court
18 Appeals, as to the gag order issues, we would ask the
19 Court to postpone his testimony until after that is
20 resolved. Because, at this point, he's not capable of
21 fully testifying because, he's going to be subject to a
22 gag order.
23 So, we would ask the Court to put off his
24 Monday testimony until such time as the New York Court
25 of Appeals resolves, one way or the other, the gag

L.Moens - Defendants - Direct/Mr. Robert Page 6132

1 order.
2 Because, we don't think that a civil
3 defendant should be called to the witness stand in his
4 own case, under any, any limitations as to what he can
5 testify about.
6 THE COURT: Plaintiff?
7 MR. WALLACE: Absolutely, not.
8 THE COURT: Absolutely, not. No way. No
9 how. Nonstarter. Not allowing that. If he's going to
10 testify, it will be Monday. And, that's that.
11 MR. KISE: Thank you, Judge.
12 THE COURT: But, you tried. I gave it to
13 you. You could tell. Let's get the witness back?
14 MR. ROBERT: Yes, Judge.
15 May I proceed, your Honor?
16 THE COURT: Please do.
17 MR. ROBERT: If we can call back on the
18 screen demonstrative KD-61.
19 DIRECT EXAMINATION
20 BY MR. ROBERT:
21 Q. Mr. Moens, before the lunch break, I had taken you
22 through this and you had set forth, for the Court, your
23 value both with and without memberships for Mar-a-lago from
24 2011 to 2021.
25 Do you remember that?

L.Moens - Defendants - Direct/Mr. Robert Page 6133

1 A. I do.
2 Q. Sir, were those opinions of value with a degree of
3 certainty?
4 A. Absolutely.
5 Q. Mr. Moens, what went into the factors in coming up
6 with these values?
7 A. Well, several factors. It's factual evidence or
8 prima facie evidence that exists in the world to come up
9 with what we're talking about in terms of size, not only of
10 the land but of the structures, you know, where the economic
11 conditions are of the market at that time that I'm asked the
12 question. It may change, from year to year, as markets
13 change.
14 Forty-five years that I've been doing this
15 business, you develop after, over ten billion in sales, you
16 start developing a feel for pricing if you're doing it
17 everyday pretty much seven days a week for that many years.
18 So, it's an analysis, it's a gut feeling, it's
19 factual evidence. It's like a recipe. It's, like, putting
20 a cake together. You need the milk, the flour, the
21 chocolate, the eggs. I make the best chocolate cake in the
22 world by the way. It's amazing.
23 But, to do that cake or make that recipe work, you
24 have to have everything. And it's not an exacting science.
25 You have to have a feel for it. You have to know, "A little

L.Moens - Defendants - Direct/Mr. Robert Page 6134

1 pinch of this, a little coffee instead, sneak a little
2 something else in, vanilla" things that aren't on a recipe.
3 So, what I do is a little different from other
4 people. I've been doing this for a long time. It seems to
5 work the way I'm doing it. So I'm going to keep baking
6 cakes the way I do.
7 Q. What are those things that are the ingredients in
8 the cake, if you will, for real estate valuations such as
9 for Mar-a-lago and other properties?
10 A. What I said before. It's square footage, it's
11 quality of construction. It's, with Mar-a-lago, you've gold
12 gilded ceilings that you saw in the video, hand carved
13 cherubs on the doors. There are, you know, dozens and
14 dozens of these hand carved his cherubs that are attached to
15 each door in the living room.
16 A single person hand carved each one of those
17 pieces. They don't do that anymore today. Hand-painted
18 tiles, the carved stone outside.
19 There were individuals that were carving the stone
20 out of blocks and turning it into the beauty that you saw in
21 the video. I'd encourage you to see the video again to see
22 some of the detail in it and not just watch a short film.
23 My first short film. I hope it's an Academy Award winner
24 but, I don't know that I'm a film maker. But, I tried to
25 give you a snippet of Mar-a-lago. I tried to get you there

L.Moens - Defendants - Direct/Mr. Robert Page 6135

1 since we're not there we're in New York.
2 Q. You mentioned earlier something about the estate
3 section. Is that where Mar-a-lago is located?
4 A. Yes, it is.
5 Q. What is the estate section of Palm Beach?
6 A. Well, it's known as the properties that exists
7 between Worth Avenue and, probably, Mar-a-lago at Southern
8 Boulevard.
9 It drifts a little bit south a couple blocks
10 south; assembled over, probably, nine years; over six
11 hundred million dollars worth of land for one family.
12 And that's just the land. We're not talking about
13 structures. Now, they're going to build for hundreds of
14 millions of dollars a structure and have another billion
15 dollar house that would exist in Palm Beach. It has yet to
16 be created but, it took years and years to put together that
17 many properties. I think it was 13.
18 Q. How big is the acreage of that \$600 million
19 property?
20 A. Over twenty.
21 Q. And is that in the estate section?
22 A. Well, it's in the -- it's in the estate section
23 but, it's the south of the southern estate section. So they
24 say, its just south of the estate section.
25 Q. And what if any impact does the beach front have

L.Moens - Defendants - Direct/Mr. Robert Page 6136

1 on value of Mar-a-lago?
2 A. Well, beachfront, generally, is hard to get
3 anymore in Palm Beach. I fortunately have a house on the
4 beach and bought it 21 years ago. Thank God I bought it
5 because, I wouldn't be able to afford it in today dollars.
6 Q. Do you know how much beachfront area Mar-a-lago
7 has?
8 A. Mar-a-lago has 365 feet on the ocean. I think
9 it's similar on the lake. But, it might be a little
10 different.
11 MR. ROBERT: Before we leave Mar-a-lago and
12 go to the other properties, I'd like to show the
13 witness Defendant's Exhibit 4782 in evidence.
14 Q. And I draw your attention, specifically, to page
15 three -- actually, let's start at the first page for a
16 minute or the second page actually.
17 Do you recognize this document, Mr. Moens?
18 A. I do.
19 Q. And what is this document?
20 A. Well, it's regarding the club. It's special
21 exception use and preservation plan.
22 Q. What is the year of this document?
23 A. I think '93, March 12 of '93.
24 Q. And just to orient ourselves, Lawrence Moens &
25 Associates started selling Palm Beach real estate in '82.

L.Moens - Defendants - Direct/Mr. Robert Page 6137

1 A. I started in 1977. I started my own label company
2 in 1982.
3 Q. In 1993, were you, actively, involved in the sale
4 of real estate in Palm Beach?
5 A. Very much so.
6 Q. If we could draw your attention to 478-6.
7 Mr. Wallace asked the last witness to comment on something.
8 I would like to show it to you. Okay.
9 I'm taking the Judge's advise. It's the first
10 sentence that goes almost two lines. And it says, "As to
11 item one, it is impractical for a single individual to,
12 continuously, own Mar-a-lago as a private estate at his or
13 her sole expense."
14 Do you see is that, sir?
15 A. I see it very clearly.
16 Q. Is that something you would have agreed was
17 accurate back in 1993?
18 A. Absolutely.
19 Q. And is that something you agree is accurate today?
20 A. Not at all.
21 Q. Why?
22 A. When this was done there weren't -- there wasn't
23 the wealth that there is today in America. You have a lot
24 of entrepreneurs, a lot of very wealthy multi, multi,
25 billionaires that can afford to buy expensive housing.

L.Moens - Defendants - Direct/Mr. Robert Page 6138

1 Before just a few years ago, there were no homes
2 for over a hundred million dollars. They didn't exist.
3 They do now.
4 The wealth isn't, you know, a hundred million
5 dollars anymore. I still think that's a lot of money. But
6 now you're talking billion. And then, you're talking
7 billion of billion. Then you talk about net worth of guys
8 that have over a hundred billion dollars which to me is
9 staggering. It's incredible.
10 If I had the right properties, like a Mar-a-lago
11 or something of its caliber, I would have people that would
12 want to obtain it. The problem is, it's hard to get
13 properties like that. They don't really often come up.
14 They usually come up through attrition. People
15 die. People change their mind or move to a different part
16 of the world. But, they don't often come up.
17 Q. In addition to Mar-a-lago, were you asked to value
18 1094 South Ocean Boulevard?
19 A. I was.
20 Q. What is 1094 South Ocean Boulevard.
21 A. Single family home. Located just north of
22 Mar-a-lago.
23 Q. And do you know how big a parcel that is?
24 A. I don't have the facts in front of me. But, I can
25 look at my notes and tell you it's probably three quarters

L.Moens - Defendants - Direct/Mr. Robert Page 6139

1 of an acre or less.
2 Q. And sir -- let's put on DT the defendant's
3 demonstrative Exhibit DD6-2.
4 And just before we go into this, Mr. Moens, what
5 would it take to recreate a Mar-a-lago today?
6 MR. WALLACE: Objection.
7 THE COURT: On the ground.
8 MR. WALLACE: It goes beyond the scope of
9 his expertise or his opinions or testimony in this
10 case.
11 THE COURT: Well, he's been there. He's
12 filmed it. I will let him say in layperson's terms
13 what it would take to recreate it.
14 A. May I answer?
15 Q. Yes. The Judge said yes.
16 A. I just want to make sure. I don't want to
17 overstep.
18 THE COURT: Overruled.
19 A. Your Honor, I build homes from the ground up. I'm
20 a developer not just a real estate broker. I know what
21 costs are in terms of building homes or renovating homes --
22 which I do more than I do -- I try and save landmark homes.
23 But to do Mar-a-lago, its almost unimaginable to
24 think of how to get the people that would even know how to
25 carve the stone or get the labor to hand lay each stone into

L.Moens - Defendants - Direct/Mr. Robert Page 6140

1 a mosaic pattern in the floor.
2 It can be done if you can find it I'm sure. If
3 you can afford to pay for it. Building costs in Palm Beach
4 range anywhere from \$900 to probably -- one of my clients is
5 spending 3200 a foot.
6 But, the norm, the average, is probably in the
7 twelve to \$1400 square foot range for the average house.
8 Mar-a-lago would not be considered -- especially if you saw
9 the video -- an average house.
10 There's tapestry and carved doors and carved
11 floors and gold gilded -- with real gold -- ceilings and
12 things that would be difficult but, not impossible, to
13 recreate.
14 If you were to try and recreate it, the way it is
15 today, and get as close as you could, I would imagine the
16 number per foot would be into the seven, eight, 9,000 a
17 square foot range.
18 Q. As a practical matter, is it even possible to
19 recreate that today?
20 A. I'm not sure I know the answer to that question.
21 I think you could try and get close. I don't know if you
22 could do it exactly because, some of the technology, the old
23 world technology, labor, to do it, the knowledge of how to
24 do it is kind of a lost art. I don't know that you could.
25 Q. Drawing your attention to --

L.Moens - Defendants - Direct/Mr. Robert Page 6141

1 MR. WALLACE: Your Honor, those answers I'm
2 going to note, again, my objection that they are bond
3 the scope of his opinion. And I don't know that it is
4 anymore relevant than any of the rest of this. It is
5 well beyond anything that was disclosed as part of his
6 opinion.
7 THE COURT: Well beyond the scope of
8 anything disclosed in --
9 MR. WALLACE: In his report.
10 THE COURT: Doesn't matter one way or the
11 other. I saw the video. I wasn't born yesterday. I
12 know how difficult it is to get carved stone, et
13 cetera. Let's just leave it in. Objection noted and
14 overruled.
15 Q. Drawing your attention, Mr. Moens, to
16 demonstrative Exhibit DD6-2 for 1094 South Ocean Boulevard.
17 Do you see that?
18 A. I do.
19 Q. Was one of the tasks that you were asked to place
20 a value on this property as well?
21 A. It was.
22 Q. And sir, did you, in fact, place a value on this
23 property?
24 A. I did.
25 Q. And without having to go through everything you

L.Moens - Defendants - Direct/Mr. Robert Page 6142

1 went through before -- and I see the Judge agreeing with
2 me -- the methodology that you described in how you came to
3 values for Mar-a-lago, would that be consistent, the same,
4 for 1094 South Ocean Boulevard, 124 Woodbridge and 1125
5 South Ocean Boulevard?
6 A. It is with the exception of Mar-a-lago is a
7 special entity that took a lot more effort, time and hours
8 because, the others were much easier to formulate numbers
9 with.
10 Q. Understood. But, the same Moens' formula, if you
11 will, is used for all of them, correct?
12 A. It's always the same when I make my cake.
13 Q. Okay. Drawing your attention to 2011 for 1094
14 South Ocean Boulevard. Do you have see that?
15 What was the Moens value for that year for this
16 property sir?
17 A. 9,700,000.
18 Q. What does this in this chart or -- withdrawn.
19 Was there an additional value you gave for each
20 year 2011 to 2021?
21 A. There were different values.
22 Q. When you talk about Moens value with memberships,
23 what does that mean?
24 A. I just did the same thing I did with the
25 Mar-a-lago that we went through earlier in adding that years

L.Moens - Defendants - Direct/Mr. Robert Page 6143

1 membership dues on the side. Not trying to put a flashlight
2 on it but, it does create some value in addition to the
3 bricks and mortar and the actual land that the bricks and
4 mortar sit on.
5 Q. That would mean if these three homes came with
6 memberships to the club, correct?
7 A. Yes.
8 Q. What was the value placed for 2011 with
9 memberships?
10 A. 9,800,000.
11 Q. In 2012, what was the Moens' value without a
12 membership?
13 A. 9,875,000.
14 Q. And what was the Moens value with the membership?
15 A. 9,975,000.
16 Q. For 2013, what was the Moens' value without the
17 membership?
18 A. 9,600,000.
19 Q. And, the Moens' value with the membership for
20 2013?
21 A. 9,675,000.
22 Q. And for 2014, what was the Moens' value without
23 the membership?
24 A. 10,900,000.
25 Q. And, for that same year, the Moens' value with the

L.Moens - Defendants - Direct/Mr. Robert Page 6144

1 membership?
2 A. \$11 million.
3 Q. For 2015 the Moens' value for this property
4 without membership?
5 A. 11,375,000.
6 Q. And the Moens' value with the membership?
7 A. 11,475,000.
8 Q. For 2016, the Moens' value?
9 A. 11,500,000.
10 Q. And the Moens value with memberships?
11 A. 11,650,000.
12 Q. For 2017, the Moens' value without memberships?
13 A. 11,750,000.
14 Q. And the Moens' value with memberships?
15 A. 11,950,000.
16 Q. For 2018, the Moens value without memberships?
17 A. 11,850,000.
18 Q. And the Moens' value with memberships?
19 A. 12,100,000.
20 Q. For 2019, the Moens' value without memberships?
21 A. Two million -- 12,100,000. Excuse.
22 Q. And the value with memberships?
23 A. 12,350,000.
24 Q. And 2020 the Moens' value without memberships?
25 A. 12,950,000.

L.Moens - Defendants - Direct/Mr. Robert Page 6145

1 Q. The Moens' value with memberships?
2 A. \$13,200,000.
3 Q. And for 2021 Mr. Moens, the Moens' value without
4 memberships?
5 A. 13,975,000.
6 Q. And Moens' value with memberships for that year?
7 A. \$14,325,000.
8 Q. And similar to the other chart we looked at
9 before, what is the SOFC value Mr. Moens?
10 A. Well, the Statement of Financial Condition their
11 numbers weren't too dissimilar.
12 Q. My question is simply, Mr. Moens, what is that
13 number evidencing here? What is it showing on the chart,
14 just so the Court understands what it is?
15 A. It's a number based on a Statement of Financial
16 Condition.
17 Q. This was the numbers that was on the statement of
18 financial condition, correct?
19 A. When I saw it, yes.
20 (Whereupon, the following proceedings was
21 stenographically recorded by Lisa Casey.)
22
23
24
25

L. Moens - Direct by Mr. Robert Page 6146

1 Q Trying to get it so the Court understands what the
2 columns are. It's not a trick question.
3 A Okay.
4 Q Moving to 124 Woodbridge Road. That was another
5 property that you were asked to place a value on.
6 A I did.
7 Q And again, say same questions for here. That was
8 using the same formula and methodology we spoke of earlier as to
9 Mar-A-Lago; correct?
10 A Absolutely.
11 Q So, for 2011, what was the Moens value for that piece
12 of property?
13 A \$4,825,000.
14 Q And the Moens value with memberships?
15 A 4,925,000.
16 Q In 2012, the Moens value without memberships?
17 A 5,175,000.
18 Q And the Moens value with memberships?
19 A 5,275,000.
20 Q 2013, the Moens value?
21 A 4,950,000?
22 Q And that's without memberships. And with memberships?
23 A 5,025,000.
24 Q And for 2014, the Moens value?
25 A 5,400,000.

L. Moens - Direct by Mr. Robert Page 6147

1 Q And the Moens value with memberships?
2 A 5,500,000.
3 Q And for 2015, the Moens value without memberships?
4 A 5,675,000.
5 Q And the Moens value with memberships for that year?
6 A 5,775,000.
7 Q For 2016, the Moens value without memberships?
8 A 5,900,000.
9 Q And the Moens value with memberships for that year?
10 A \$6,050,000.
11 Q For 2017, Mr. Moens, the value without memberships?
12 A 6,100,000.
13 Q And the value with memberships?
14 A \$6,300,000.
15 Q In 2018, Mr. Moens, the value without memberships, you
16 placed?
17 A 6,400,000.
18 Q And the value with memberships?
19 A 6,650,000.
20 Q For 2019, the value you placed on the property,
21 Mr. Moens?
22 A 6,800,000.
23 Q The Moens value with memberships?
24 A 7,050,000.
25 Q 2020, the Moens value, sir?

L. Moens - Direct by Mr. Robert Page 6148

1 A 7,100,000.
2 Q And the Moens value with memberships?
3 A \$7,350,000.
4 Q And in 2021, sir, the Moens value?
5 A \$7,950,000.
6 Q And the Moens value with memberships?
7 A \$8,300,000.
8 Q And was there an additional property you were asked to
9 place a value on, sir?
10 A Yes.
11 Q And was that 1125 South Ocean Boulevard?
12 THE COURT: Before you leave, who or what SOFC's
13 were these from? The owners? I don't understand.
14 MR. ROBERT: President's Trump's Statement of
15 Financial Conditional.
16 MR. WALLACE: I think it's for the witness, the
17 question.
18 MR. ROBERT: I thought you were asking me.
19 THE COURT: I'm asking whoever knows.
20 MR. ROBERT: Oh. Okay.
21 THE WITNESS: I got confused, too.
22 THE COURT: You got confused, too. All right.
23 We are both confused. So, let's try to clear the
24 confusion.
25 Mr. Robert, I gather you did not create these,

L. Moens - Direct by Mr. Robert Page 6149

1 but do you know whose SOFC's these are?
2 MR. ROBERT: These are from President Trump's
3 SOFC's, and these were transposed from the appendix to
4 Mr. Moens' report.
5 THE COURT: And who owns these properties?
6 MR. ROBERT: These are properties that are owned
7 by President Trump, and/or the Trust. Mar-A-Lago is a big
8 house, and then there are three other houses.
9 THE COURT: These are the --
10 MR. ROBERT: Those are the three -- We were
11 actually trying to find -- remember Don, Jr. showed you
12 that small house in the corner?
13 THE COURT: I understand.
14 MR. ROBERT: Sorry, your Honor.
15 THE WITNESS: I'm terrible with acronyms.
16 MR. ROBERT: As a matter of fact, your Honor
17 makes a good point. Let me digress for just one second.
18 And they didn't buy it 'til 2017, so we don't
19 have to go back to 2011. It will be less numbers.
20 But, if we go back to Defendant's Exhibit 1019 in
21 evidence, please, and if we go to page 23.
22 He will just see it on the screen, Officer.
23 That's fine.
24 (Whereupon, a document was displayed and handed
25 to the witness.)

L. Moens - Direct by Mr. Robert Page 6150

1 Q Do you see this in front of you, Mr. Moens?
2 A I do.
3 Q And the property that's all the way to the right here,
4 which property is that?
5 A That's the 1125 South Ocean Boulevard.
6 MR. ROBERT: So, your Honor, these are all the
7 adjoining houses on the side. I apologize for the
8 confusion.
9 THE COURT: That's okay. I noticed one of the
10 charts said that there was a listing price for one of the
11 properties. I think just one square.
12 MR. ROBERT: On which chart, your Honor? I'm
13 sorry.
14 THE COURT: Well, it's the top left box of one of
15 the reports.
16 THE WITNESS: It had been listed for sale.
17 THE COURT: And do you know why it was listed for
18 sale?
19 THE WITNESS: I believe it was owned by President
20 Trump's sister, and he ended up buying it from her before
21 someone got it on the open market.
22 THE COURT: All right. Thanks.
23 THE WITNESS: It's confusing.
24 Q And Mr. Moens, what was the address, again, of this
25 last property here?

L. Moens - Direct by Mr. Robert Page 6151

1 A 1125 South Ocean Boulevard.
2 MR. ROBERT: Okay. You can take that down and
3 put back up DD6-4.
4 (Whereupon, a document was displayed and handed
5 to the witness.)
6 Q And this is, in fact, the property that we were just
7 speaking of, and I just showed you in the photographs in
8 Defendant's Exhibit 1019-23; correct?
9 A That would be correct.
10 Q Okay. And the same methods for value you used for
11 this property as you did for all the others; correct?
12 A Yes.
13 Q Okay. And for 2017 --
14 MR. ROBERT: Your Honor was ahead of me. Listed
15 for sale. Thank you, your Honor.
16 Q And you explained what that meant. What was the Moens
17 value that you put on that property, sir?
18 A In 2017?
19 Q Yes, sir?
20 A 19,250,000.
21 Q And that was without membership; correct?
22 A I'm sorry.
23 Q That was without a membership correct?
24 A That was without a membership.
25 Q And what was the value with membership for 2017, sir?

L. Moens - Direct by Mr. Robert Page 6152

1 A Slightly higher, at 19,450,000.
2 Q And in 2018, what was the Moens value of 1125 South
3 Ocean Boulevard?
4 A 24,500,000.
5 Q And the Moens value with membership?
6 A 24,750,000.
7 Q And in 2019, the Moens value without membership?
8 A \$29,300,000.
9 Q And the Moens value with membership, for 2019?
10 A 20 -- 29,550,000.
11 Q And in 2020, Mr. Moens, what was your value for the
12 property, without memberships?
13 A \$35 million.
14 Q And the value with memberships?
15 A 35,250,000.
16 Q And in 2021, Mr. Moens, the value that you placed on
17 that property?
18 A 42,500,000.
19 Q And the value with memberships for that year?
20 A 42,850,000.
21 I was low. I got an offer. Much higher.
22 MR. ROBERT: Your Honor, if I can have a moment
23 to speak with my colleagues, please?
24 THE COURT: Sure.
25 (Whereupon, there was a pause in the

L. Moens - Direct by Mr. Robert Page 6153

1 proceedings.)
2 MR. ROBERT: Thank you, your Honor.
3 THE COURT: Okay.
4 Q Mr. Moens, you spoke a little while ago about the
5 collection of parcels that you put together that were south of
6 where Mar-A-Lago is. Do you remember that?
7 A I remember speaking about that with you.
8 Q And that was south of the estate sections; correct?
9 A It's two blocks south of Mar-A-Lago.
10 Q And was that a piece -- how many years did it take you
11 to put those pieces together?
12 A It took little over nine years.
13 Q And what, again, was the price for just the land?
14 A In excess of \$600 million.
15 Q Okay.
16 MR. ROBERT: I'm going to put, on the board, a
17 demonstrative. What is the number of it? DD7?
18 (Whereupon, a document was displayed and handed
19 to the witness.)
20 Q Do you see this, Mr. Moens?
21 A I do.
22 Q What do you recognize this to be?
23 A Bunch of land. Bunch of houses.
24 Q Okay. Fair point. Does this map demonstrate the
25 parcel that you were just speaking of here, of those parcels you

L. Moens - Direct by Mr. Robert Page 6154

1 put together for that person, south of Mar-A-Lago?
2 A Yes.
3 Q Is that what's reflected in just the red, or the whole
4 thing in the picture?
5 A Well, it's not the whole thing in the picture. It's
6 most of the picture.
7 Q Okay. And is that a parcel that goes from
8 Intracoastal to ocean?
9 A In the assemblage, there were properties that were
10 direct ocean. There were properties that were direct lakefront.
11 There was one property, not pictured here to the south -- I
12 don't know if you can move the picture. It's further down,
13 toward the bottom, that had -- there you go.
14 So, if you look at the word boulevard, or the
15 abbreviation of the word boulevard, below that there's an estate
16 with a tile roofed, and across from that there's a vacant parcel
17 on the Intracoastal. That house is still there, on that, and
18 that vacant parcel looks like the picture. That was owned by
19 one person, so it was two actual sales in one. So, it was one
20 family, two sales. So, that was the only one that you could say
21 could have been called ocean to lake, but it was two separate
22 parcel numbers. So, it was really two separate properties, but
23 they were contiguous. If I'm answering that accurately.
24 Q In the estate section of Palm Beach, where Mar-A-Lago
25 is located, how many properties are there that go from -- you

L. Moens - Direct by Mr. Robert Page 6155

1 call it lake?
2 A Well, the Intracoastal waterway is also known,
3 synonymously, as the lake.
4 Q So in the estate section of Palm Beach, how many
5 properties are there that go from lake to ocean?
6 A Two.
7 Q And what are those two properties?
8 A Mar-A-Lago, and one that's owned by a gentlemen by the
9 name of William Koch.
10 Q And how big is Mr. Koch's property, if you know?
11 A It's probably four plus, or minus acres.
12 Q So the only two properties in the estate section of
13 Palm Beach that go from lake to ocean are Mr. Koch's 14 acres
14 and Mar-A-Lago's 17-plus acres. Is that fair?
15 A That would be correct.
16 Q Finally, Mr. Moens, throughout the course of this
17 case, at your deposition, you had -- you were quoted as having
18 said you were a dreamer. Do you remember that?
19 A You may say I'm a dreamer, but I'm not the only one.
20 No, you have -- it's true. I mean, you have the likes
21 of great Americans like Thomas Jefferson, or John Fitzgerald
22 Kennedy, or Martin Luther King, or any of these people. Donald
23 J. Trump. He is a dreamer, for sure. If you have a dreamer,
24 and a great American, I don't think that's a bad thing. You can
25 call me a dreamer, any time.

L. Moens - Cross by Mr. Wallace Page 6156

1 MR. ROBERT: I have no further questions for this
2 witness. Thank you.
3 MR. WALLACE: Just want to note, on the record,
4 an objection on the last demonstrative. That was actually
5 one of the requests. That was not disclosed last night. I
6 understand the defendants just posted that at the lunch
7 period. I will ask that the defendants honor our
8 commitment to exchange demonstratives the night before they
9 come into testimony, before they come about with a witness.
10 MR. KISE: That may have been inadvertent.
11 That's what I was trying to discover. That's what took us
12 all the time -- we have honored the commitment, and I
13 apologize, your Honor. That was the confusion at the
14 momentary pause. But, I do apologize for that.
15 THE COURT: Okay. Cross examination?
16 MR. WALLACE: I have a couple of things, your
17 Honor, so just give me a moment.
18 (Whereupon, there was a pause in the
19 proceedings.)
20 CROSS EXAMINATION
21 BY MR. WALLACE:
22 Q Good afternoon, Mr. Moens. My name is Kevin Wallace.
23 I'm an attorney with the Attorney General's office. I would
24 like to go over a few more things that you talked about at your
25 deposition.

L. Moens - Cross by Mr. Wallace Page 6157

1 First, I believe that at your deposition you testified
2 that someone who lacked your specific expertise would not be
3 able to reproduce your evaluation of these properties. Is that
4 fair?
5 A I think it's fair. I don't think the numbers would
6 ever be the same.
7 Q And you doubted that anyone else had the experience
8 that you have in the industry to be able to come up with these
9 valuations; is that fair?
10 A They didn't sell as much real estate as I have.
11 Q Okay. And I believe you said that in order to
12 understand your valuation methodology, someone would actually
13 have to go inside your head; is that correct?
14 A It would help them to get to the number, I'm sure.
15 Q But it would be difficult for anyone else to recreate
16 the analysis that you performed. It's sui generis.
17 A They can do the same technological things that I did,
18 or take the same steps. It's just rare, if you have three MAI
19 appraisers, let's say, and you hire them to analyze the value of
20 a certain property, with the same address, usually you are going
21 to get three different numbers. Even though they have the same
22 qualifications and they have the same data, they formulate some
23 of their own opinions which don't always correlate to the same
24 end number.
25 Q But you are not running a process that's re-creatable.

L. Moens - Cross by Mr. Wallace Page 6158

1 You are not doing a discounted cash flow analysis, or some other
2 kind of equation, to come up with these numbers. Is that fair?
3 A That's fair.
4 Q Okay. And I think we may be -- Mr. Robert, to coin a
5 phrase, talked about the Moens formula. You didn't use,
6 actually, any specific equations in coming up with these
7 numbers; is that fair?
8 A That's fair.
9 Q Mr. Moens, you talked about some of the facts that you
10 looked at in the course of preparing your opinion. Some of the
11 data might be from the Appraiser's Office. It could come from
12 other sources. I think you mentioned your own collection of
13 data that you have gathered over the years. Is that a fair
14 summary of some of the areas that you looked at?
15 A Yes.
16 Q Okay. And do you agree that easements and deed
17 restrictions are relevant to a property's value? Is that
18 correct?
19 A In most cases, yes.
20 Q And in your process, you would consider any easements
21 on a piece of property to come up with a valuation; is that
22 correct?
23 A I always do.
24 Q And you would consider any deed restrictions on a
25 piece of property in coming up with a valuation; is that

L. Moens - Cross by Mr. Wallace Page 6159

1 correct?
2 A I would.
3 Q And easements that negatively impact a property would
4 take away from its value; is that correct?
5 A If they are negative, they will take away. If they
6 are positive, they would add to.
7 MR. WALLACE: If we could put back up on the
8 screen Defendant's Exhibit 360.
9 (Whereupon, a document was displayed and handed
10 to the witness.)
11 Q This is the deed of conservation and preservation
12 easement from Donald J. Trump to the National Trust for Historic
13 Preservation of the United States.
14 Mr. Moens, did you review this document in preparing
15 your opinion?
16 A I did.
17 MR. WALLACE: If we could turn to page nine of
18 this document.
19 Q If we look at the second sentence, under Grantor's
20 Covenants, item two is covenants to maintain. Item 2.1 says, In
21 general -- and there's a small A. I'm going focus on the second
22 sentence here, which states, "Grantor's obligation to maintain
23 shall require replacement, rebuilding, repair, and
24 reconstruction by grantor, whenever reasonably necessary to
25 preserve the critical features in substantially the form and

L. Moens - Cross by Mr. Wallace Page 6160

1 condition, with substantially similar materials, and as
2 appropriate, with substantially similar plantings, vegetation,
3 and natural screening, to that existing on the date -- on the
4 effective date of this easement."
5 Mr. Moens, did you undertake any analysis to determine
6 the cost of maintaining the critical features of Mar-A-Lago,
7 consistent with this deed of conservation easement?
8 A Yes. I mean, I know it's very expensive to maintain
9 it. It would be smart to make it a private club and charge the
10 members, and use that money to maintain it. I'm glad it's a
11 club being maintained properly.
12 Q And you talked about some of the other facts that are
13 in the Appraiser's Office. Mar-A-Lago is currently being taxed
14 as a club; correct?
15 A To my knowledge, the Tax Appraiser is taxing it as a
16 club.
17 Q And it's currently operating as a club?
18 A Well, I understand it's being operated as a club, and
19 as a personal residence for the President.
20 Q Are you a member of the club?
21 A I am.
22 Q You are still able to use the club, consistent with
23 your standard membership that you have, and had, since you --
24 A I don't go too often. I don't like clubs.
25 Q When did you join?

L. Moens - Cross by Mr. Wallace Page 6161

1 A '95 or -6, I'm guessing.
2 MR. WALLACE: If we could put, just, back up on
3 the screen for a moment, DD6.
4 (Whereupon, a document was displayed.)
5 Q You talked a little bit with the judge and with
6 Mr. Robert about the SOFC values. Did you actually review
7 Mr. Trump's Statements of Financial Condition in preparing this
8 report?
9 A I saw the statements of financial condition after I
10 prepared my valuations.
11 Q So you saw, for each year, the actual document that
12 contains this Statement of Financial Condition; is that correct?
13 A It's -- you are talking about the numbers on the left?
14 Q I'm talking about the actually document. Are you
15 familiar with it?
16 A If you show it to me, I'll confirm that.
17 (Whereupon, there was a pause in the
18 proceedings.)
19 MR. WALLACE: Why don't we pull up Plaintiff's
20 Exhibit 730.
21 (Whereupon, a document was displayed and handed
22 to the witness.)
23 MR. WALLACE: I don't know if he needs to flip
24 through it.
25 Q Do you recognize the cover, up on the screen?

L. Moens - Cross by Mr. Wallace Page 6162

1 A I actually don't recognize the cover on the screen.
2 Q So, do you know how the values contained in your chart
3 made it into your report?
4 (Whereupon, a document was handed to the
5 witness.)
6 A Well, they were provided to my office.
7 Q Okay. And who, in your office, put them into the
8 chart?
9 A Christine Curry, my office manager.
10 Q Okay. So, you didn't look at the, I'll represent to
11 you, a bunch of pages talking about how the property was valued.
12 You didn't look at this in preparing your report?
13 A I didn't think it was relevant.
14 Q And you did not review any supporting spreadsheets
15 that showed the calculations that went into Mr. Trump's
16 Statement of Financial Condition; is that fair?
17 A That's fair.
18 Q I believe you were shown the supporting data
19 spreadsheet at your deposition, though. Does that sound
20 familiar to you?
21 A It does. They were very thorough in providing just
22 about everything for me.
23 MR. WALLACE: Why don't we pull up, on the
24 screen, a copy of Plaintiff's Exhibit 719.
25 (Whereupon, a document was displayed.)

L. Moens - Cross by Mr. Wallace Page 6163

1 Q This is the spreadsheet, that I'll just represent to
2 you -- it's already in evidence.
3 MR. WALLACE: We don't need a hard copy.
4 Q This is already in evidence. This is the supporting
5 data spreadsheet that feeds into the Statement of Financial
6 Condition for Mr. Trump. This is the report for 2014. I
7 believe you were shown this at one of your depositions.
8 MR. WALLACE: If we could go to the row for 846,
9 please?
10 Q If you look at row 846 it says, Two homes in Palm
11 Beach, and there's prices listed underneath, 1094 S. Ocean
12 Boulevard, and 124 Woodbridge Drive. Those are two of the
13 properties you valued; correct?
14 A That is correct.
15 Q If you look at the notation above those two properties
16 it says, "Per conversation with Paul Rampell, 9/25/08, and email
17 8/14/2013."
18 Can I ask, do you know who Paul Rampell is?
19 A Very well. Paul has been an acquaintance, I would
20 like to call him a friend, for probably 40-plus years.
21 Q How do you know Mr. Rampell?
22 MR. WALLACE: Let me withdraw the question.
23 Q What does Mr. Rampell do, for his profession?
24 A I think he is still a liar. I mean, lawyer.
25 THE WITNESS: Sorry, guys. I had to fit it in

L. Moens - Cross by Mr. Wallace Page 6164

1 there.
2 Q And does he work in the same field that you do,
3 generally?
4 A Pretty much so, yes.
5 THE WITNESS: Sorry. I apologize. It was really
6 low.
7 MR. WALLACE: If we could pull up Plaintiff's
8 Exhibit 2310.
9 (Whereupon, a document was displayed and handed
10 to the witness.)
11 Q This is an email from Paul Rampell to Jeff McConney at
12 the Trump Organization with the re: line, Houses. This is the
13 email that's referencing the supporting data. If I can direct
14 your attention to point one, at the top, it says, 1094 South
15 Ocean Boulevard, Palm Beach, and the text under it reads, "The
16 Palm Beach County Appraiser valued this residence at \$7,140,343
17 as of January 1, 2012. I suggest that this is the low end of
18 the range of its current value. In speaking with Lawrence
19 Moens, the most successful broker in Palm Beach, he would value
20 it at \$7,000,500 [sic]. I suspect that this -- that this may
21 still be low. My guess is, on the high end, is 8 or even
22 9 million, given its proximity to the Mar-A-Lago club, the Trump
23 pedigree, and the club privileges the owner would enjoy."
24 I believe at your deposition you said you had no
25 recollection of having such a conversation with Mr. Rampell, but

L. Moens - Cross by Mr. Wallace Page 6165

1 that if he said he spoke to you, you agreed that it probably
2 happened. Does that sound fair?
3 A That is fair.
4 Q Okay. And the next property, for 124 Woodbridge, Palm
5 Beach, states the value from the PBC Appraiser at \$2,323,412.
6 He then writes "Again, this is the low end of the range. Moens
7 values it at about \$2,750,000. Since the house itself is
8 mediocre, the land is where the value lies. I tend to think
9 Moens is accurate in his estimation."
10 First, let me ask, is it in fact the case that the
11 house itself at 124 Woodbridge is mediocre, and that the land is
12 where the value lies?
13 A At that time. Since then, I believe there's been
14 renovations to make it less mediocre.
15 MR. WALLACE: If we could put this email up, side
16 by side with Defendant's Demonstrative Exhibit 6, page 2.
17 (Whereupon, a document was displayed.)
18 Q So, this is the valuation of South Ocean Boulevard.
19 I'll just direct your attention to the 2013 valuation. The
20 email states that you informed Mr. Rampell that the value was
21 \$7,500,000, but your valuation in the chart is \$9,600,000. Is
22 that correct?
23 A That's what it says.
24 Q Okay. And if we flip to the next page of the
25 demonstrative DDX-3, for 124 Woodbridge Road, the email values

L. Moens - Cross by Mr. Wallace Page 6166

1 the property in 2013. It says that you advised a value of
2 \$2,750,000, and that matches the reported value in the SOFC, but
3 your value now is \$4,950,000. Do you see that?
4 A I do, but that's easily explained.
5 Q That's okay. My question is actually, did you have a
6 more detailed understanding of the Palm Beach market as it stood
7 in 2013, at the time of the email, August 14, 2013, or August --
8 August 2013 or today, a decade later?
9 A The email left two important things out.
10 Q That's not the question. My question is simply, was
11 your knowledge of the market, as it existed in 2013, better in
12 August 2013, or ten years later, in 2023?
13 A I would say it's the same.
14 Q So there's been no loss of knowledge over the ten
15 years?
16 A I hope not. I think I still got my marbles.
17 (Continued on the next page.)

L.Moens - Defendants - Cross/Mr.Wallace Page 6167

1 Q. Did anyone ever ask you -- let me go back to one
2 other point. I believe you said that Mar-a-lago, unlike
3 some of these other properties, was a special entity that
4 took much more time and effort to value.
5 Is that a fair summary about what you said about
6 Mar-a-lago?
7 I'm happy to restate the question, Mr. Moens. I
8 believe you said that Mar-a-lago was a special entity, more
9 so than the other properties, and it took much more time and
10 effort to value that property; is that fair?
11 A. With the elements of carved stone and hand laid
12 pieces and all of the things that I had mentioned earlier,
13 it took a little bit more effort.
14 Q. Okay. And, at no time, from 2011 until 2021, did
15 anyone, from the Trump Organization, ask you to help them in
16 valuing Mar-a-lago for the purposes of Mr. Trump's Statement
17 of Financial Condition; is that correct?
18 A. Wait. Could you repeat the question.
19 Q. Sure.
20 MR. WALLACE: Could we get a read back
21 please?
22 THE COURT: Read it back, please.
23 (The testimony as requested was read by the
24 reporter.)
25 A. That would be correct.

L.Moens - Defendants - Cross/Mr.Wallace Page 6168

1 Q. Mr. Moens, if we go back --
2 MR. WALLACE: Your Honor, I need to move
3 Plaintiff's 2310 in Evidence.
4 MR. ROBERT: It's an e-mail that's not to or
5 from witness. It is from Paul Rampell to Jeff
6 McConney.
7 MR. WALLACE: It's to Jeff McConney. It's
8 authenticated because it's from the defendants. It's
9 notice to them.
10 MR. ROBERT: I'm sorry. But it can't be
11 admitted for the truth of the matter asserted. This is
12 a conversation from Paul Rampell saying something to
13 Jeff McConney. That's clearly hearsay.
14 MR. WALLACE: I can clear it up for everyone
15 if you want to ask me to ask it.
16 MR. ROBERT: Just a moment.
17 MR. WALLACE: Your Honor, it's notice to the
18 Trump Organization that they had this report from
19 Mr. Rampell. Whether or not it's for the truth of the
20 matter asserted, it should certainly come in.
21 MR. ROBERT: Notice of what to who? This is
22 an e-mail from Paul Rampell to Jeff McConney making
23 certain -- you want to make it that there is a e-mail
24 from Rampell to McConney but, not for the truth of the
25 matter asserted.

L.Moens - Defendants - Cross/Mr.Wallace Page 6169

1 MR. WALLACE: Yes. We just want to show
2 that they received this information.
3 MR. ROBERT: So then the answers that the
4 witness -- fair enough. I will deal with it on
5 redirect.
6 THE COURT: So, it is to a defendant.
7 MR. KISE: The notice also extends to then
8 Mr. Rampell's communication and his estimate as well.
9 I mean, we're all -- I just want to make sure we're
10 clear if we're talking about notices, it's notice of
11 all numbers in there, not just the notice of what
12 Mr. Moens, allegedly, provided.
13 MR. WALLACE: The entire content of the
14 e-mail has been -- the Trump Organization has
15 notification of everything that's in the e-mail.
16 MR. KISE: I want to be sure. That's not
17 always the case with the Government. Okay. That's
18 fine.
19 THE COURT: Okay. So notice of the entire
20 e-mail chain.
21 THE WITNESS: Who's Jeff McConney.
22 MR. WALLACE: We can take these down.
23 Q. Mr. Moens, just one more topic. If we could put
24 back up Plaintiff's Exhibit 719 and go to row 207.
25 I think you said in your evaluation that you were

L.Moens - Defendants - Cross/Mr.Wallace Page 6170

1 adding back in the value of the memberships at Mar-a-lago
2 because, that's something that the future owner -- a future
3 owner could monetize, that, they could sell the memberships
4 and get the benefit of that. Is that a fair summary of how
5 you added back in that value.
6 A. Yes.
7 THE COURT: Five minute warning.
8 MR. WALLACE: Yes.
9 Q. If we take a look at row 240, here, you will see
10 the Trump Organization -- and this is their valuation of
11 Mar-a-lago -- has a line that says, "less member deposits"
12 where they deduct a little over \$37 million from the overall
13 value of the property because, for it to be sold to a
14 private individual, the members would have to get their
15 money back.
16 That's not consistent with your evaluation
17 technique, is that fair?
18 A. In that, some get paid back and some are
19 nonrefundable is what I understand.
20 Q. But their deducting the value of memberships,
21 whereas you added it back in.
22 A. I don't know what their methodology is in those
23 numbers.
24 MR. WALLACE: Nothing further, your Honor.
25 THE COURT: Any redirect?

L.Moens - Defendants - Redirect/Mr.Robert Page 6171

1 MR. ROBERT: Can I do it from here, your
2 Honor.
3 THE COURT: Sure.
4 REDIRECT EXAMINATION
5 BY MR. ROBERT:
6 Q. A few minutes ago, you were asked a question, by
7 Mr. Wallace, about the difference in numbers from the
8 e-mail, Plaintiff's Exhibit 2310 and your chart. And your
9 answer was, it's easily explained. But, Mr. Wallace
10 wouldn't let you explain it.
11 What's your explanation Mr. Moens?
12 A. Well, first, can someone tell me who Jeff somebody
13 is?
14 No, I don't know who he sent it to. But, Paul is
15 a credible guy. And I think that we had the discussion,
16 though, when the Attorney General's Office clearly asked me
17 if I had a conversation that I could recall, ten years
18 earlier, with Paul Rampell, I couldn't recall it. I still,
19 to this day, can't recall it.
20 But I will say that it, probably, happened
21 because, I find Paul to be an honest credible person. Even
22 though he's a lawyer -- sorry. Second one.
23 Paul would have given him whatever he did in the
24 e-mail but, it didn't include my range. I only give two
25 numbers. I don't give one.

L.Moens - Defendants - Redirect/Mr.Robert Page 6172

1 If he took my loan number at two seven fifty to
2 five million or on the other property five million to seven
3 fifty and didn't put the higher number in -- I always give a
4 range. So he didn't give a range when he sent that e-mail
5 to whoever Jeff is.
6 MR. ROBERT: Thank you. I have no further
7 questions your Honor.
8 THE COURT: Any recross?
9 MR. WALLACE: No.
10 THE COURT: If there are no further
11 questions, the witness is excused. Thank you.
12 THE WITNESS: Thank you, Judge.
13 (Witness excused.)
14 THE COURT: Ten o'clock on Thursday.
15 Anything before then or --
16 MR. KISE: The only question I have as
17 regarding the accounting of rebuttal witness, do they
18 know which one it's going to be because, that's a huge
19 difference whether it is Mr. Lewis or --
20 MR. WALLACE: We only have one accounting
21 expert, your Honor. That's professor Lewis. I thought
22 that was clear.
23 MR. KISE: I won't take a shot at him. It
24 is Professor Lewis.
25 MR. WALLACE: It is Professor Lewis.

L.Moens - Defendants - Redirect/Mr.Robert Page 6173

1 MR. KISE: Okay. Thank you.
2 MR. ROBERT: Your Honor, can we have a front
3 bar with the Government for a second.
4 THE COURT: Sure.
5 (Discussion held at the bench, off the
6 record.)
7 (The discussion off the record concluded, and
8 the following occurred in open court:)
9 (The trial was adjourned to December 7, 2023,
10 at 10:00 p.m.)

 New York, New York
 December 8, 2023

B E F O R E:

HONORABLE ARTHUR F. ENGORON,
 Supreme Court Justice

A P P E A R A N C E S:

OFFICE OF THE ATTORNEY GENERAL
 OF THE STATE OF NEW YORK - LETITIA JAMES
 Attorneys For the Plaintiff
 28 Liberty Street
 New York, New York 10005
 BY: KEVIN WALLACE, ESQ.
 COLLEEN K. FAHERTY, ESQ.
 ANDREW AMER, ESQ.
 ERIC HAREN, ESQ.
 LOUIS SOLOMON, ESQ.
 MARK LADOV, ESQ.
 SHERIEF GABER, ESQ.
 ALEX FINKELSTEIN, ESQ.

(Whereupon, appearances continued on the following page.)

Page 6360

1 THE COURT: Okay. Let's get yesterday's
 2 witness.
 3 MR. KISE: We don't have to address it now.
 4 We have a few housekeeping items.
 5 THE COURT: Good. Let's do that.
 6 MR. KISE: Ms. Hernandez, I think has some
 7 exhibits that we discussed the other day that have been
 8 agreed to.
 9 MS. HERNANDEZ: Hi, your Honor. We're going
 10 to move in a few documents that plaintiff has no
 11 objection to being admitted into the record.
 12 So, we would like to move in D-1068, D-1069,
 13 D-1070, D-1071 and D-1072 into Evidence.
 14 THE COURT: Plaintiff, agreed?
 15 MR. SOLOMON: Agreed, your Honor. No
 16 objection.
 17 THE COURT: Okay. Success. They are in
 18 evidence.
 19 What's next?
 20 MR. KISE: So, briefly, your Honor, I want
 21 to revisit the subject yesterday about the scope of
 22 Mr. Bartov's testimony with respect to -- particularly,
 23 with respect to "misstatement," that issue.
 24 I know that the government cited some cases.
 25 I have a case to cite for your Honor on that

Proceedings	Page 6362	Proceedings	Page 6364
<p>1 that.</p> <p>2 MR. WALLACE: No, that would be,</p> <p>3 potentially, a new opinion. But, it was not disclosed</p> <p>4 during the period in which the Court ordered the</p> <p>5 parties to provide their expert disclosure.</p> <p>6 THE COURT: So, I don't think being in the</p> <p>7 affidavit, on a summary judgment motion would -- I</p> <p>8 don't know.</p> <p>9 MR. KISE: Respectfully, your Honor, it is</p> <p>10 because with summary judgment, we are responding to</p> <p>11 their summary judgment just like they submitted things</p> <p>12 in response to our summary judgment.</p> <p>13 So the experts -- I can't predict, with</p> <p>14 certainty, exactly, what it is that the Government is</p> <p>15 going to say in their summary judgment.</p> <p>16 MR. WALLACE: We presented no experts in our</p> <p>17 summary judgment motion.</p> <p>18 MR. KISE: And, if I could finish.</p> <p>19 THE COURT: Right.</p> <p>20 MR. KISE: But I know I do that to them all</p> <p>21 the time. So, I'm only kidding, Mr. Wallace.</p> <p>22 So, in affidavit paragraphs 27 and 28, I will</p> <p>23 point out that Professor Bartov referenced his report.</p> <p>24 There is nothing really new in his affidavit,</p> <p>25 with respect to these issues, that wasn't in his</p>		<p>1 He's offering an opinion. He's not making</p> <p>2 the ultimate determination. That's what you would do.</p> <p>3 But, he's providing input that would go to the ultimate</p> <p>4 determination as to the counts that remain at issue</p> <p>5 here. These determinations must include the governing</p> <p>6 accounting standards.</p> <p>7 I don't think it's a secret. No, we don't</p> <p>8 believe that your summary judgment ruling, in this</p> <p>9 regard, actually, took into account the full GAAP</p> <p>10 Standards and the Governing Accounting Standards. Be</p> <p>11 that as it may, we are where we are.</p> <p>12 But, the defense cannot be precluded from</p> <p>13 introducing expert testimony regarding the appropriate</p> <p>14 standards and expert opinion as to whether, based on</p> <p>15 those standards, there is evidence of a material</p> <p>16 misstatement.</p> <p>17 The Attorney General's complaint is replete</p> <p>18 with claims that the SOFC's violated GAAP. You heard</p> <p>19 the witness say that yesterday.</p> <p>20 But, as Professor Bartov testified, no GAAP</p> <p>21 violations were identified. The Attorney General's</p> <p>22 response to that is, simply, "Oh well, the complaint</p> <p>23 was a long time ago."</p> <p>24 That is, respectfully, an untenable and</p> <p>25 absurd position. The governing standard is the</p>	
<p>1 report. I'm just pointing out that this is another</p> <p>2 source of notice -- a word that we hear a lot about.</p> <p>3 An expert testimony that helps clarify an</p> <p>4 issue calling for professional or technical knowledge,</p> <p>5 possessed by the expert, is properly admitted.</p> <p>6 That's the DeLong, D-E-L-O-N-G, case, Court</p> <p>7 of Appeals 60 NY2d 296.</p> <p>8 As the Court knows, Professor Bartov was</p> <p>9 qualified as an expert in accounting, credit analysis,</p> <p>10 valuation and financial reporting misconduct; clearly</p> <p>11 entitled to provide an opinion about whether the</p> <p>12 documents he reviewed support his opinion as to the</p> <p>13 SOFC's compliance with GAAP or any violations of GAAP.</p> <p>14 This opinion includes whether he determined</p> <p>15 there was any evidence of a material misstatement in</p> <p>16 the SOFCs. That's, verbatim, allegations of material</p> <p>17 misstatements from his June 30th report.</p> <p>18 It also includes his opinion, disclosed, that</p> <p>19 not all accounting errors or departures from GAAP have</p> <p>20 a significant impact on financial statement users.</p> <p>21 His views on what the documents provide,</p> <p>22 respectfully, Judge, is no different than what you did</p> <p>23 on summary judgment. You looked at the SOFCs. You</p> <p>24 looked at documents and made determinations about those</p> <p>25 documents based on the evidence.</p>	Page 6363	<p>1 governing, whether it was in the complaint a long time</p> <p>2 ago or whether we talk about it here, GAAP is the</p> <p>3 standard. It's not different because that referenced</p> <p>4 it last year.</p> <p>5 So Professor Bartov is entitled to opine on</p> <p>6 the preparation and presentation of the SOFCs, their</p> <p>7 compliance with GAAP and whether under governing</p> <p>8 accounting standards there was any material</p> <p>9 misstatement under those standards, based on that</p> <p>10 review.</p> <p>11 And I'll cite the Court to the Hudson</p> <p>12 Insurance case. It is found at 31 misc -- M-I-S C --</p> <p>13 3d 1203(A) where, in that case, the defense called an</p> <p>14 accounting expert to testify regarding his review of</p> <p>15 the documentary and other evidence and offer an opinion</p> <p>16 as to whether or not there was any indicia of fraud.</p> <p>17 The plaintiffs argue, similarly to here, that</p> <p>18 the issue of whether evidence of fraud exists was not</p> <p>19 properly within the expert's purview but, is instead an</p> <p>20 issue to be decided by, in that case, the jury -- a</p> <p>21 much higher standard, as you know, for admission of</p> <p>22 expert testimony when there's a jury present.</p> <p>23 This is a bench trial. So the opportunity</p> <p>24 for confusion and misleading is limited, if it, at all,</p> <p>25 exists.</p>	Page 6365

Proceedings	Page 6366	Proceedings	Page 6368
<p>1 The Court in that case held that the expert 2 may opine, as he had, regarding his opinion on the 3 defendant's activities. 4 He may testify as to how the defendant's 5 activities compared to accepted accounting practices; 6 and in doing so, the expert may thus provide a standard 7 against which the fact finder may judge the defendant's 8 activities. 9 Further, the expert may state his opinion 10 upon whether fraud occurred. He may not broach the 11 next step and state that fraud occurred as a matter of 12 law. It is up to the Court to make that determination. 13 I would say that, that case is about as close 14 to on point as you're going to find in this context. 15 The Attorney General cases, that they cited 16 yesterday -- as I mentioned yesterday but, I'll be more 17 specific today -- are wholly inapposite. 18 The SEC case involved testimony as to a 19 specific state of mind of the defendant. The Kinsey, 20 K-I-N C E-Y, case involved testimony as to whether the 21 defendant, quote, intended to seriously injure or kill 22 the victim. I don't think that there's anything, at 23 all, that we could borrow from that analysis in this 24 case. 25 Most particularly, Professor Bartov is not</p>		<p>1 matters that were disclosed in his report. 2 THE COURT: Mr. Kise, I admire your 3 thoroughness. I'm open to or I will revisit -- 4 especially because the witness is still available. 5 Sometimes less is more. But that's not your style. I 6 understand. 7 What I would like to do is ask you, as simply 8 as possible, what you want the witness to say. He's 9 not here, obviously, so I don't think there's any 10 prejudice. However, that's what I would like to know. 11 But, if the Attorney General would rather 12 weigh in first, go ahead. 13 MR. WALLACE: I'm eager to hear what this 14 testimony would entail. So, I will wait until Mr. Kise 15 answers the question before I weigh in. 16 THE COURT: Are we talking about ten 17 questions and answers, three questions and answers 18 thirty? 19 MR. KISE: Two things on that. Number one, 20 to the extent the testimony from yesterday isn't 21 stricken, if you lift that ruling -- you revisit that 22 ruling and don't strike that testimony, number one, 23 that solves a lot of issues because, then, the 24 testimony is already in the record. We don't have to 25 revisit those questions.</p>	
<p>1 offering an opinion on, as I said yesterday, on the 2 intent or state of mind of anyone -- the defendants or 3 anyone else. 4 His testimony is directly related to disputed 5 issues at trial. He's testifying as to whether he 6 found evidence of material misstatements in the SOFCs 7 and other documentation based on his understanding of 8 GAAP and other governing accounting standards. 9 The question of misstatement, with respect to 10 these counts -- and frankly, we think the whole case, 11 must be considered in the context of GAAP and the 12 governing accounting standards. 13 And, the defense cannot be precluded from 14 introducing expert opinions as to the compliance with 15 those standards and or whether, in the opinion of the 16 expert, there was any indicia of material misstatement 17 or fraud pursuant to those standards. 18 It is then up to the Court to take that 19 evidence and do what it will with it. But, we're 20 entitled to put on that defense because, that's meeting 21 the allegation that's been made against us as 22 defendants. 23 So, for all those reasons and based on the 24 cases that I cited, we would ask the Court to revisit 25 the ruling and allow Professor Bartov to testify about</p>		<p>1 THE COURT: I'm not going to do that. But, 2 I'm giving you the chance to say what you want him to 3 be able to say. 4 MR. KISE: Okay. What we want him to be 5 able to say is ostensibly what he said yesterday; that, 6 based on my review of the SOFCs, the relevant 7 supporting documentation, the relevant testimony, that, 8 that I saw in indicia of material misstatement or 9 fraud. And that's the short of it. 10 And I would think that, that can be 11 accomplished -- I mean, I'm not going to speak for my 12 colleague, Mr. Suarez. But, I would think that that's 13 a half a dozen questions or so. I mean, it's not a 14 complicated proposition. But, the point is, he's done 15 a review, he's looked at the -- 16 THE COURT: Okay. To me, that's one 17 question. Having reviewed everything -- you don't have 18 to repeat what he reviewed -- did you find any indicia 19 of fraud -- except that's leading but, something like 20 that. 21 MR. KISE: Well, something like that. I 22 mean, you asked me in sum and substance. 23 THE COURT: That's what I wanted to know. 24 You want him to be able to say I examined the SOFCs, 25 blah, blah, blah and I didn't see any indicia of fraud.</p>	

Proceedings	Page 6370	Proceedings	Page 6372
<p>1 MR. KISE: The only caveat to that, in terms 2 of the numbers of question is, there would just be a 3 series of questions. 4 As you know, we have to go year by year. 5 It's the same question, like, in 2016, you examined the 6 SOFC, did you determine any -- based on your review of 7 these records, was there any indicia of fraud or what 8 did that reveal to you. But, '16, '17, '18. 9 THE COURT: He's going to say "no" for every 10 year. Why do we -- 11 MR. KISE: Because it's important; 12 particularly, when we get to the statute of limitation 13 question that we have in the record that this is 14 segregated out because, I do think that is going to 15 become very important on appeal -- without question it 16 is. 17 THE COURT: *Fine. You can ask that 18 question. 19 MR. KISE: You asked me "that's it?" That's 20 it on what we want to ask. I don't think I'm leaving 21 anything out unless Mr. Robert has anything to add. 22 MR. ROBERT: I don't. 23 THE COURT: So, Attorney General, would 24 you -- do you object -- 25 MR. WALLACE: I do.</p>		<p>1 He has not really reviewed much of the 2 testimony. He hasn't reviewed the testimony of -- or 3 he, certainly, doesn't rely in his reports on the 4 testimony of Mr. Weisselberg or Mr. McConney or 5 Mr. Birney or any of the people who actually prepared 6 the reports. 7 So this is a reason why you disclose, in your 8 report, what your opinions are and the foundation for 9 those opinions. So, we could have investigated that at 10 the time we were doing expert discovery. 11 So this fraud opinion is new. It is not 12 disclosed in his reports. And, I will note, I'm 13 looking at the first citation Mr. Kise gave us, 14 paragraph 25 to 32 of his report. 15 Paragraph 25 says, clearly, the original 16 financial statement information serves as the -- it 17 doesn't relate to fraud. It relates to the process for 18 preparing financial statements. It relates to standard 19 credit analysis theory which is in paragraph 27. 20 Paragraph 28 begins, "To what extent do 21 lenders rely on financial statement information in 22 their credit risk analysis?" 23 So I don't know if Mr. Kise is citing to the 24 wrong paragraphs but, any proprietary or academic 25 analysis that Professor Bartov performed in order to</p>	
<p>1 THE COURT: -- to what you judgment heard? 2 MR. WALLACE: Yes, I still object. I think 3 we're confusing the issues. Yesterday we objected to, 4 indeed, questions that would have Professor Bartov talk 5 about intent of defendants. 6 That is the reason we cited the cases we 7 cited. We were not citing that as the basis to exclude 8 his testimony about some investigation he conducted and 9 the determinations as to whether or not there was fraud 10 in this case. 11 Those questions we objected to because, as a 12 new opinion, it was not included in his original 13 disclosures. And if he -- I believe the introductory 14 question to that was, do you have some process that you 15 follow for determining whether or not there is fraud in 16 the financial statement. 17 I believe this was going to go to some 18 econometric or academic analysis he performs when he 19 looks at statements. And that's how he knows -- just 20 by looking at the face of the statement -- whether or 21 not there's fraud. 22 So he is applying some sort of professional 23 technique to determine there's fraud. Because, I will 24 posit, Professor Bartov has not read the supporting 25 data. He testified to that in his deposition.</p>		<p>1 determine whether or not there was fraud, was not 2 disclosed in his report and is, therefore, not an 3 appropriate grounds for him to be testifying now. 4 I will just add that Professor Bartov has 5 been granted broad latitude to testify about how 6 Deutsche Bank should have done credit analysis, what 7 his thoughts are on the quality of Statements of 8 Financial Condition -- they're not tethered to much 9 except "I look at the documents and it's obvious." 10 This witness has been given broad latitude to 11 go, well beyond, the scope of his core expertise. We 12 would posit he, actually, has demonstrated very little 13 to no expertise to someone doing a credit analysis. 14 But I think letting him now bootstrap and 15 bring in a new opinion about fraud, they should have 16 disclosed it in his report. And he's not allowed to 17 testify to it now. 18 MR. KISE: So, I am just going to read from 19 page 36 of the June 30, 2023 report. Allegations of 20 material accounting misstatements -- otherwise known as 21 fraud in this case -- allegations of material 22 accounting misstatements and use of inappropriate 23 valuation methods in the compilation reports, due to 24 GAAP violations, are based on invalid premises and 25 incomplete and flawed analysis of relevant facts.</p>	

Proceedings	Page 6374	Proceedings	Page 6376
1	So the invalid premises would be the	1	Mr. Wallace, you're as loquacious as Mr. Kise. I mean,
2	interpretation of GAAP and the GAAP violations.	2	I, specifically, said I wasn't going to revisit what
3	No, we did not disclose every word of what	3	happened yesterday. And then, you go into a whole
4	Professor Bartov was going to testify to. The trial	4	speak about yesterday. No harm done. I'm just
5	testimony of the witnesses that he's referencing was	5	pointing that out.
6	not available at the time he prepared his reports.	6	And also, what really surprises me is, I got
7	The subject matter, though -- to say that the	7	Mr. Kise to limit what he wanted to do so narrowly and
8	subject matter of material accounting misstatements and	8	you open a whole can of worms about what expert reports
9	his testimony and his views on whether or not the SOFCs	9	say or don't say. But, all right. I don't want to be
10	contain material accounting misstatements is	10	more loquacious than the attorneys. I stopped being
11	disingenuous at best. And far worse, from a different	11	that a long time ago.
12	perspective, for the Government to argue that they	12	How about this? Here's my suggestion. I
13	weren't on notice of these opinions, I mean, they	13	like to, you know, have compromise and agreement.
14	there.	14	We'll let Mr. Suarez ask Mr. Bartov, whether having
15	The subject matter that I referenced earlier	15	read -- and, you can list the things he read -- for the
16	is in the broader sense subject matter. But if the	16	year -- each year as Mr. Kise wanted -- whether he
17	Court is concerned about the use of "misstatement"	17	found any indicia of material accounting misstatement.
18	versus the use of the word "fraud" as I said yesterday,	18	Mr. Solomon is happy. And let's keep in mind
19	fine, then he can say material accounting misstatements	19	we only have this morning.
20	if that's going to satisfy the notice requirement	20	Mr. Wallace, do you agree with your colleague
21	then -- I don't see a different because, that's really	21	there?
22	what's at issue in the case.	22	MR. WALLACE: If Professor Bartov is
23	Fraud is judged based on whether or not there	23	answering the questions and not providing speeches,
24	are material accounting misstatements. Frankly, a 6312	24	than yes.
25	Violation is judged based on whether or not there are	25	THE COURT: Who would give speeches?
Proceedings	Page 6375	Proceedings	Page 6377
1	material accounting misstatements. And that's why I	1	And defendants, are you okay with that?
2	say that the GAAP considerations were relevant for	2	MR. KISE: Yes, your Honor.
3	purposes of summary judgment.	3	THE COURT: Okay. Any other housekeeping
4	So, I don't see there's any disclosure issue.	4	matters?
5	And, it appearances as though we're in violent	5	MR. KISE: One other item -- which now that
6	agreement on the idea that he can testify to this	6	I've looked at it, I know we said we were going to
7	subject matter. It's just they're claiming it wasn't	7	converse with the AG about the issue of Professor
8	disclosed. Just that one quote from page 36 of this	8	Bartov's supplemental disclosure relative to the
9	June 30th report places him on notice.	9	monitor reports, once I had an opportunity -- through
10	MR. WALLACE: I will be, exceedingly, brief.	10	no fault of theirs -- to, actually, review everything
11	It doesn't say, "fraud." He was asked a question about	11	and their position, I realized that while they're nice
12	how you detect fraud in the financial statement.	12	to talk to, negotiation wouldn't go anywhere because,
13	If he was asked questions about material	13	they have a -- their position is "A" and ours "B".
14	misstatements, we would, probably, have a different	14	And, I don't see any compromise.
15	response but, judge the questions as they were asked.	15	So in that regard, I'll just state briefly,
16	I will just also note, I'm not suggesting the	16	that, this supplemental disclosure is necessary because
17	problem with Professor Bartov is that he didn't review	17	the items about which Professor Bartov is opining,
18	trial testimony. The problem is he didn't review	18	number one, most particularly the August 3rd and
19	investigative testimony from any of those people.	19	November 29, 2023, reports of the monitors were not
20	The issues with reliability of anything on	20	available to Professor Bartov prior to him issuing his
21	this count and the failure to disclose on this subject	21	reports.
22	matter remain. And there was no disclosure of any	22	Number two, the reports that predate that
23	fraud analysis that Professor Bartov performed.	23	don't contain much of anything. But they needed to be
24	THE COURT: And that's the short response.	24	reviewed by him. But there wasn't a basis to
25	I'm going to speak freely and maybe subjectively.	25	draw -- there wasn't a need to draw any conclusion

Proceedings	Page 6378	Proceedings	Page 6380
<p>1 prior to this Court's issuance of the summary judgment 2 quite frankly. 3 Number three, because of this Court's 4 issuance of the summary judgment and its apparent 5 reliance on the August 3, 2023, report of the 6 monitor -- which I'll note for the record, nowhere 7 contains the words "fraud, indicia of fraud, suspected 8 fraud or suspicious activity;" nonetheless, the Court 9 went on to conclude that somehow or another the August 10 2023 letter was evidence of ongoing fraud. I believe 11 that's the words in the order. 12 The defense needs to meet that assertion 13 somehow. You have precluded our ability from calling 14 the actual author of the letters -- which, for the 15 record, we have disagreed with and continue to. 16 But, nonetheless, Professor Bartov is the 17 only option the defense has to meet those allegations 18 and that concern. 19 I fully anticipate that the Attorney General 20 will argue, again, that these letters, somehow, 21 indicate that there's a need for ongoing monitoring or 22 there's some other problem. And so, the defense is, 23 certainly, entitled to meet that allegation. 24 It's new evidence that wasn't available 25 before. There's no prejudice to them. They've had the</p>		<p>1 estate company. I don't even know -- they literally 2 said -- he just said he's the last witness and that's 3 why they're going to have him do this. 4 So it's not anything that requires expertise. 5 And, it's not an appropriate subject for expert 6 testimony. 7 MR. KISE: Your Honor -- 8 THE COURT: Briefly. 9 MR. KISE: Your Honor, it clearly requires 10 expertise. It clearly requires -- if someone -- if the 11 fact finder is going to take the letters from the 12 monitor and make determinations that there's persistent 13 fraud when the word "fraud" isn't even used, that tells 14 me, respectfully, that there's expertise required, 15 that, someone with an accounting background needs to 16 address the issues. 17 Professor Bartov is not opining on the 18 ultimate issue. Professor Bartov is saying, based on 19 the accounting issue -- it says it right here. Based 20 on the minor accounting issues identified in the 21 reports, he's got vast experience in evaluating 22 financial statements. He's got vast experience in 23 making determinations about whether or not there's 24 financial reporting misconduct. That's been 25 established.</p>	
Proceedings	Page 6379	Proceedings	Page 6381
<p>1 letters the same time we've had the letters. And, if 2 they want to rebut it somehow or they want to cross 3 examine Professor Bartov, that's fine. 4 But, the idea that we can't meet evidence 5 that is clearly going to be used or considered in a 6 manner that might result in prejudice to the defense, I 7 think would be -- not only is it objectionable but, I 8 think it would be, respectfully, reversible. 9 THE COURT: And plaintiff? 10 MR. WALLACE: Does your Honor have -- I'm 11 not sure how much background you need on the proposed 12 affidavit, again. But, it's, basically, Professor 13 Bartov reads the reports from the monitor, reviews 14 Mr. Hawthorn's testimony and says, "It's my conclusion 15 they have been cooperating and there is no fraud." 16 If they want evidence to meet this challenge, 17 those are the pieces of evidence; the actual reports 18 from the monitor and the testimony from Mr. Hawthorn. 19 And that's a legal argument to say, "These 20 don't use the word fraud," as Mr. Kise just said. And 21 that's it. This isn't anything that requires 22 expertise. 23 This isn't anything that Professor Bartov has 24 a particular expertise in. He's never been a monitor. 25 He's never been in the oversight function of a real</p>		<p>1 And so, he can look and see the types of 2 issues that were identified and opine as from an 3 accounting perspective "Does this indicate that there's 4 a problem, that, there's fraud, that, there's suspected 5 fraud?" 6 So, I don't think it's -- with all due 7 respect to my colleague, I don't think it's 8 something -- particularly, given the history of the use 9 of these letters -- that can be decided in the absence 10 of someone who has this expertise. 11 And, it's not because he's the last witness. 12 It's because he's a qualified witness and because we're 13 not allowed to speak to the authors of the letters. 14 (Whereupon, the following proceedings were 15 stenographically recorded Shameeka Harris.) 16 17 18 19 20 21 22 23 24 25</p>	

<p>Proceedings Page 6382</p> <p>1 THE COURT: That testimony is absolutely precluded. 2 I read every monitor report. I don't need an expert to tell 3 me what they mean. To the extent that the monitor did not 4 use the word fraud and I did, somewhat based on what was 5 written, maybe that was my interpretation. Maybe, I should 6 have chosen a different, slightly different word. In terms 7 of appeal, Defendants, you have the reports. You have -- 8 you'll -- you have what the summary judgement decision said. 9 You'll have what the post-trial decision say. You can 10 appeal but there is no way I am going to let Professor 11 Bartov expertly opine on reports written for my benefit. 12 I appointed her as an honor of the court, and I 13 found her reports very, what's the word, easy to digest. 14 That's more than one word. So, that's the ruling. 15 MR. KISE: So then, Your Honor, the only other ask 16 we have is, I believe, that as we did with Mr. Shubin, that 17 we put this into the record as a proffer just so that it's 18 there in the record for appellate purpose. Otherwise, the 19 appellate court will not see what's there. We did this the 20 other day with the witness with Mr. Shubin. You allowed us 21 to just mark it and include it as part -- 22 THE COURT: I understand. What's the harm in that? 23 MR. WALLACE: Purely as a determination as a matter 24 to go into the record that Your Honor has decided not to 25 allow in, that's fine. It's hearsay. There are other</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6384</p> <p>1 A L I B A R T O V, a witness called by and on behalf 2 of the Defendant, upon being previously duly sworn, was examined 3 and testified as follows: 4 THE COURT: As usual, I will remind you you are 5 still under oath. We are trying, and I'm sure I hope the 6 attorneys will agree with me, to finish your testimony, your 7 cross-examination, your -- any redirect this morning. So, I 8 would appreciate answers that are short and to the point. 9 Do you think we can finish this morning? 10 MR. SOLOMON: If Mr. Suarez has another 40 minutes 11 for direct, it will be unlikely we will finish. 12 THE COURT: Witness, we may need you Tuesday or 13 Wednesday. 14 MR. KISE: Tuesday. He teaches on Monday. I know 15 he is not available in addition to the other witness. 16 MR. WALLACE: Sometimes things happen. Why don't 17 we discuss this after the break. 18 MR. KISE: It's their cross. If they want to waive 19 it on Monday -- 20 MR. WALLACE: I am going to ask about other 21 witnesses. Let's do it on the break. 22 THE COURT: Mr. Suarez, why don't you continue now. 23 MR. SUAREZ: Thank you, Your Honor. 24 DIRECT EXAMINATION 25 BY MR. SUAREZ:</p>
<p>Proceedings Page 6383</p> <p>1 issues. It's not evidence. It's actually in the record. 2 Just as notice for the basis of your decision that you 3 reviewed that proposed affidavit and said you are not going 4 to allow it, that's fine by our -- that's fine from our end. 5 THE COURT: The bottom line is you agree as with 6 the Shubin proffer that this can go into the record but it 7 won't be part of the testimony. 8 MR. WALLACE: And it won't be evidence, correct. 9 THE COURT: Okay. Great. Let's -- and let me just 10 make sure. 11 Mr. Suarez, I'm sure you have been listening 12 intently and you understand basically for every year for 13 everything he read, you want to ask him did he -- again, 14 this is sort of leading but let's just call it preliminary 15 matter. Did you find any indicia of material accounting 16 misstatements, right? 17 MR. WALLACE: Not to be too loquacious, Your Honor, 18 I will add going through having the witness explain exactly 19 what he reviewed to reach those conclusions is one of the 20 things we also wanted to hear. If he wants to put the 21 testimony in as the foundational basis for the testimony. 22 THE COURT: All right. Let's get the witness. 23 And, Mr. Suarez, about how long will your direct 24 continue, just trying to balance the morning? 25 MR. SUAREZ: About 40 minutes.</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6385</p> <p>1 Q Good morning, Professor Bartov. 2 A Good morning. 3 Q In connection with your review of materials in this 4 case, have you identified any indicia of material accounting 5 misstatements in President Trump's Statements of Financial 6 Condition? 7 MR. WALLACE: Objection, lacks foundation. 8 THE COURT: You would like the documents. 9 MR. WALLACE: What exactly did he review that is 10 going to lead to the opinions that we will hear. 11 MR. SUAREZ: We went through it yesterday. I am 12 happy to do it again. I am happy to -- 13 THE COURT: He will tie it more closely to this 14 particular response. 15 MR. SUAREZ: If I can get an answer, then I can 16 walk him through everything and then I'll get it out. 17 THE COURT: I will have to walk him through, then 18 get the answer I think. 19 CONT'D DIRECT EXAMINATION 20 BY MR. SUAREZ: 21 Q Okay. In that case, Professor Bartov, I'd like to show 22 you what's been premarked Plaintiff's Exhibit 34, 39. 23 A Yes. 24 Q What is this document, Professor Bartov? 25 A This is Conceptual Framework of Financial Reporting</p>

<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6386</p> <p>1 Chapter Three Quantitative Characteristics of useful financial 2 information. 3 Q And what does this conceptual framework provide? 4 A Conceptual framework is the foundation based on which 5 FASB, the Financial Accounting Standard Board, developed the 6 accounting standards. 7 Q And if I could please turn your attention to page eight 8 of this document to a section entitled materiality. And I'd 9 like to specifically draw your attention to QC-11 which states, 10 "Relevance and materiality are defined by what influences or 11 makes a difference to an investor or other decision maker; 12 however, the two concepts can be distinguished from each other. 13 Relevance is a general notion about what type of information is 14 useful to investors, materiality is entity specific. 15 The omission or misstatement of an item in a financial 16 report is material if, in light of surrounding circumstances, 17 the magnitude of the item is such that it is probable that the 18 judgment of a reasonable person relying upon the report would 19 have been changed or influenced by the inclusion or correction 20 of the item." 21 Do you see that, Professor? 22 A I do. 23 Q What does that mean? 24 A This is the definition of materiality according to the 25 accounting literature.</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6388</p> <p>1 So the analysis is from the perspective of the user what 2 information the user relied on when they made the decision. 3 MR. WALLACE: Objection, Your Honor. The answer 4 was not responsive. The question is what information did 5 you review. 6 MR. SUAREZ: He is describing broadly the 7 information that he needed to review. 8 THE COURT: No. Sustained. Clearly. Let me just 9 say, common sense, I find that completely clear. I don't 10 need an expert to tell me what that means. Your explanation 11 went here, there, everywhere. Sometimes less is more. It 12 seems to be the phrase of the day. So, but to get back to 13 the basics, the question was what did you review not what 14 this means, right? 15 CONT'D DIRECT EXAMINATION 16 BY MR. SUAREZ: 17 Q In order to conduct this analysis, Professor, what 18 specific information did you -- 19 THE COURT: No, the question was what documents you 20 reviewed, right? 21 MR. SUAREZ: Not just documents. It could be trial 22 testimony. It could be deposition testimony. 23 A The key information is the credit reports because the 24 credit reports show you the -- the credit report show you what 25 information, credit to be used when they make their decision so</p>
<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6387</p> <p>1 Q And in order to assess materiality in connection with a 2 statement of financial condition, what information would you 3 need to review? 4 A Well, in order to decide materiality, I need to review 5 the information from the user perspective. So through the lens 6 of the user, what information user used and whether a 7 misstatement, had it been corrected, the correction would change 8 the -- would change the judgment of the user. 9 Q And in performing your analysis in this case, what 10 information did you review in order to conduct the materiality 11 analysis? 12 A So a good question is what information was used by the 13 user. So the starting point is what information was used by the 14 user and then the question is what was the true information, the 15 information that should have been reported based on the correct 16 application of GAAP. So, this is the question. 17 So if Deutsche Bank used -- used a net worth of 2 18 billion or 2.4 billion and the true net worth, based on the 19 correct application of Generally Accepted Accounting Principle, 20 is around this number -- because there is a lot of uncertainty 21 around the estimation of the items on the statement of financial 22 condition. So, obviously, you don't -- you don't expect the 23 number to be accurate but -- but the point is that if -- if the 24 user arrived at a correct information, then, then there is no -- 25 then from the perspective of the user, there is no misstatement.</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6389</p> <p>1 that's what the key information for me to -- to analyze when I 2 consider whether there was a material misstatement in the 3 statement of financial condition. 4 Q And was there any other information that you reviewed 5 in connection with that analysis? 6 A Yes. I obviously reviewed also the information in the 7 statement of financial condition. And I want to make sure that 8 there was no violation of GAAP. And as I said yesterday, every 9 financial statement, especially an audited financial statement 10 where you contain an error, but the fact that a financial 11 statement contain an error, if the error is -- if the error was 12 inadvertent and then the error is inadvertent and they would not 13 effect, would not change the judgment of the -- of the user. 14 Had the user had the correct information then it's -- then the 15 financial statements are not -- are not a -- materially 16 misstated. 17 Q And just to give a complete picture as to everything 18 that you looked at, can you please walk us through all of the 19 different categories of information that you looked at? 20 A Yes, I looked on the statement of financial condition. 21 I looked on the -- I looked on the credit reports. I looked on 22 the manuals to understand better the process that DB used in 23 order to come up with the information. I looked on some trial 24 testimony, before that deposition testimony, and before that 25 even I looked on -- on very briefly -- I didn't spend much time</p>

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6390

1 on it but if memory serves, this was like 7 or 8 years -- 7 or 8
2 months ago, I think that I reviewed quickly, I think, that I
3 reviewed quickly a few -- very few work papers that were -- that
4 were provided to Mazars.
5 I didn't focus on it. But if memory serve, I
6 definitely reviewed them through the report of Dr. Lewis because
7 Dr. Lewis cut and paste some of the -- some of the work papers
8 used by Mazars. So it was eight months ago so I don't
9 remember -- so I can't tell you accurately but I look on
10 testimony. I look on the reports of also the other experts,
11 Dr. -- Mr. Haigh and Mr. Korologos. That's about it.
12 MR. WALLACE: Your Honor, since this is proceedings
13 subject to agreement, can the witness expand on the trial
14 testimony and deposition testimony that he actually
15 reviewed?
16 THE COURT: Please, let's get that out in the open.
17 Q What trial testimony did you review from the trial from
18 these proceedings?
19 A From the trial, I reviewed -- I reviewed the testimony
20 of McConney, the testimony of Mr. McConney, the testimony of
21 Mr. Flemmons. I reviewed a couple more, the testimony of
22 Mr. McCarty. And I reviewed the testimony of Mr. Bender. You
23 know, I can't remember right now all of them, but I think this
24 is the most important ones.
25 Q Did you review the testimony of any of the Deutsche

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6391

1 Bankers?
2 A Oh, yes, sorry. Thank you. I reviewed -- you know,
3 sorry, you know --
4 THE COURT: That's okay.
5 A I didn't know I come to a memory test. To my students
6 are allowed to bring material to the exam. So I don't give them
7 memory test. So thank you. I looked on Mr. Williams and
8 Mr. Haigh, and Miss Vrablic.
9 MR. WALLACE: I don't want to put the witness
10 through a deposition test. I definitely interrupted. I
11 apologize for that. For the deposition testimony, was that
12 all disclosed in your reports or is there any additional
13 deposition testimony?
14 MR. SUAREZ: This strikes me as stuff for
15 cross-examination.
16 MR. WALLACE: We agreed to this as a compromise
17 which is the reason I am acting out of order. I acknowledge
18 and I apologize.
19 MR. KISE: As the compromise allows them to get
20 into an examination in the middle of a direct? I don't see
21 how that matters.
22 MR. WALLACE: It is akin to voir dire.
23 THE COURT: It seems to me axiomatic. If the
24 witness is going to offer an expert opinion and the other
25 side is entitled to know what he relied on when he formed

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6392

1 his opinions.
2 MR. KISE: He is testifying about it on direct. If
3 they want to followup on cross like they normally can, did
4 you review anything else, did you review this or that as
5 opposed to this other stuff.
6 MR. WALLACE: I apologize. Your Honor had said the
7 witness should explain what trial and deposition testimony
8 that he reviewed. I was trying to offer a means, since I
9 didn't want to offer it as a memory test, for everything he
10 may have done. That's why I suggested that as an option.
11 THE COURT: Let's just continue.
12 CONT'D DIRECT EXAMINATION
13 BY MR. SUAREZ:
14 Q Are there any materials that you reviewed that you can
15 think of right now?
16 A Other materials?
17 Q Yes.
18 A No. Right now, I don't remember. If you remind -- if
19 you ask me specific questions, then I can maybe, maybe I can
20 respond more specifically.
21 Q In connection with preparing your reports, did you
22 review any deposition transcripts?
23 A Deposition transcripts? I did. I did review -- I
24 actually attended -- I attended the deposition of Dr. Lewis.
25 And I -- I reviewed the depositions. You know, I think I -- I

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6393

1 think -- I also look on the deposition of Wisselberg. I -- and
2 I look on a few of the deposition testimony too but I can't
3 remember now what they are.
4 Q And in your report, did you include a list of the
5 documents that you relied on in coming up with your opinions?
6 A I did, yeah. I didn't list everything that I reviewed.
7 I list only the material that I relied on in my report.
8 Q And in connection with the materials that you reviewed
9 in this case, have you identified any indicia of material
10 accounting misstatement in President Trump's Statements of
11 Financial Condition?
12 MR. WALLACE: I am just going to note our
13 objection. We don't think this witness has laid a
14 foundation for this opinion.
15 THE COURT: Read back, please.
16 (Whereupon, the requested testimony was read back
17 by the court reporter.)
18 THE COURT: Overruled.
19 Q You can answer.
20 A As my report clearly indicate, I did not find any
21 evidence of material misstatement in any of the statement of
22 financial condition.
23 Q And how was this standard QC11 relevant to that
24 analysis?
25 A Well, given the definition of materiality that you have

<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6394</p> <p>1 to -- so materiality is a test and this definition tell you how 2 to -- how, from the accounting standpoint, you need to perform 3 this test. You need to perform this test based on this 4 definition. 5 Q And then QC11A says, "A decision not to disclose 6 certain information or recognize an economic phenomenon may be 7 made, for example, because the amounts involved are too small to 8 make a difference to an investor or other decision marker, 9 (they're immaterial)." Then it says, "However magnitude by 10 itself without regard to the nature of the item and the 11 circumstances in which the judgment has to be made, generally is 12 not a sufficient basis for a materiality judgment." 13 How does this section of the guidance of -- apply to 14 your analysis? 15 A Well, the section -- this section actually makes two 16 points. Point one is actually a -- it's actually mentioned in 17 ASC 105 Generally Accepted Accounting Principles, principles 18 when it says that GAAP need not be applied to immaterial items 19 which means that if you deviate from GAAP but the deviation does 20 not arise to material deviation, then you're still within GAAP. 21 So GAAP does not require that every single item will be prepared 22 according to GAAP. Only material items must be prepared 23 according to GAAP. This is the first sentence. 24 The second sentence says, what I think I already said 25 before, which is that when you judge whether an alleged</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6396</p> <p>1 qualitative analysis to decide whether the misstatement that was 2 quantified in step one is material or not. And all this tells 3 you is, number one, you have to be an accounting expert to do 4 this analysis and number two that this analysis is to a large 5 extent subjective and require a lot of knowledge about the 6 details of the company and the surrounding circumstances. 7 Q And if we can pull up Plaintiff's Exhibit 290. Do you 8 recognize this document, Professor? 9 A I do, yeah. Yes, I do. 10 Q What is it? 11 A It is a credit report prepared by the commercial real 12 estate group of DB on July 24, 2013, as opposed to the Private 13 Wealth Management Group. 14 Q And do you see, Professor -- if I could -- is it the 15 CRE mean Commercial Real Estate or Commercial Real Estate Group. 16 I think it is the CRE report for the Private Wealth Management 17 Group? 18 MR. WALLACE: Objection. Leading. He just gave 19 the witness the answer. 20 A You know what, sorry. Go to the bottom of the -- 21 Q I withdraw the -- I just want to -- 22 THE COURT: That's stricken. 23 MR. WALLACE: The damage is done. 24 A Sorry. 25 Q Do you see --</p>
<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6395</p> <p>1 misstatement is material, you cannot look on the magnitude by 2 itself. The magnitude by itself is -- the magnitude mean the 3 difference between the correct number and the stated number. 4 The difference by itself is insufficient to decide whether there 5 is material or not. You have to apply additional consideration 6 which in accounting they're called qualitative analysis. You 7 have to perform qualitative analysis that will guide you whether 8 the omission of the misstatement is material or not. 9 Q And the following section QC11B, Professor, it says, 10 "No general standards of materiality could be formulated to take 11 into account all the considerations that enter into judgments 12 made by an experienced reasonable provider of financial 13 information. That is because materiality judgments can properly 14 be made only by those that understand the reporting entity's 15 pertinent facts and circumstances. Whenever an authoritative 16 body imposes materiality rules or standards, it is substituting 17 generalized collective judgments for specific individual 18 judgments, and there is no reason to suppose that the collective 19 judgments always are superior." 20 Do you see that? 21 A I do. 22 Q How does this section apply to your analysis if at all? 23 A So this section is talking about the second step. So 24 there are two steps in materiality test. Step number one is to 25 quantify the misstatement. Step number two is to apply</p>	<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6397</p> <p>1 MR. KISE: Your Honor, I think Mr. Wallace's 2 cynicism is continuing over from yesterday, and I don't 3 understand it. I really don't. He didn't give him the 4 answer. The document is up there on the screen. 5 MR. WALLACE: If the witness wants to leave, I'm 6 happy to discuss it. I don't think we need to discuss it. 7 THE COURT: Let's just move on. 8 MR. SUAREZ: We can put the whole document up. 9 Q Do you have a copy of it in front of you? 10 A Yeah. Sorry. This is Deutsche Bank Private Wealth 11 Management Group. 12 Q Does this refresh your recollection? 13 A Yes. On the bottom, yeah. That's what I -- sorry. 14 Yeah. So, yes. So I -- it's definitely there. Other reports 15 that I reviewed actually are from the Private Wealth Management 16 Group. So, yeah, it says on the bottom. That's why I asked you 17 to look on the bottom of the document. 18 Q And what conclusion, if any, did you reach about 19 whether Deutsche Bank relied on the president's statements of 20 financial condition in 2013? 21 A So -- so, you can see, and this is common to all the 22 credit reports, you can see that in page seven and page eight 23 they have the Donald J. Trump valuation and they have DB 24 valuation. And you see that the numbers used by DB for their 25 purpose are substantially different than the number used by</p>

Page 6398	Page 6400
<p>1 Donald J. Trump. And, for example, on page eight, if you can go 2 to page eight, the total portfolio of the 4 Trophy properties 3 was valued at 1.6 billion by Trump, was valued by 1.2 billion by 4 DB. So you see substantial differences here. And you see that 5 the total portfolio was valued by Donald Trump is 3.6 billion 6 and by DB was valued at 2.1 billion. 7 So, obviously, they use their own numbers for, you 8 know, when they made their -- when they made their lending 9 decision. They did not rely on the numbers reported by Donald 10 Trump and the reason is obviously. They used different 11 definition of value. So when you use different definition of 12 value, you get different valuations. 13 Q And if I could ask you to take a look at Plaintiff's 14 Exhibit 298. 15 (Continued on next page) 16 17 18 19 20 21 22 23 24 25</p>	<p>Proceedings</p> <p>1 fraud and there's a, you know, street definition of 2 fraud. But, all right, I'll strike the conclusion 3 that -- the statement about fraud because, that's a 4 legal conclusion. 5 MR. KISE: Well, your Honor, consistent with 6 our agreement, is the objection the word "fraud" as 7 opposed to the word "misstatement" back to where -- 8 THE COURT: That's basically it, right? 9 MR. WALLACE: Misstatement versus fraud is 10 different. And if they want to clarify that this is 11 based on that review that he performed and only that 12 review. That's fine. 13 I will, though, note this is all cumulative. 14 This has been covered extensively. And he keeps saying 15 these things are obvious. Which would suggest they're 16 not an appropriate subject for expert testimony. 17 But I'm going to stick to the fraud objection 18 the way it was put in by the witness. If they want to 19 redirect him on that, you know, we may not object. 20 MR. KISE: He can just ask another question. 21 But, it's not obvious. It's obvious to someone with 40 22 years experience. 23 THE COURT: You don't have to go over that 24 part. I'll strike the word "fraud" as "a legal 25 conclusion." And we'll substitute "misstatement" -- is</p>
<p>A.Bartov - Defendant - Direct/Mr. Suarez</p> <p>Page 6399</p> <p>1 Q. If I can ask you to look at Plaintiff's Exhibit 2 298. 3 And, again, I'll ask you if you recognize this 4 document. Let's keep the full document up. 5 A. Yes, this document, again, is prepared by Deutsche 6 Bank Private Wealth Management, their risk management group. 7 And, this is, again -- this is annual report. They do an 8 annual review. And this is dated July 20, 2015. 9 Q. What conclusion, if any, Professor, did you reach 10 about whether Deutsche Bank relied on President Trump's 11 Statement of Financial Condition in 2015? 12 A. So, again, if you go to page eight on this report, 13 you see that they listed, again, the valuation by Donald J. 14 Trump in their own valuation. And, again, you see 15 substantial differences. Donald J. Trump used 4.3 billion 16 for the valuation. For their purposes, they use 2.5 billion 17 valuation. 18 So obviously there is considerable difference 19 between the Donald J. Trump number and DB number. This is 20 not fraud or an error. This simply because they use 21 different definition of value. And, this is totally 22 expected. 23 MR. WALLACE: Objection. Move to strike the 24 portion about fraud. 25 THE COURT: There's a legal definition for</p>	<p>A.Bartov - Defendants - Direct/Mr. Suarez</p> <p>Page 6401</p> <p>1 that -- 2 MR. KISE: He can ask him the question 3 again. He can use the word misstatement. Fine. I 4 mean, I think we're really descending to a very narrow 5 dispute here that's pointless. But, nonetheless -- 6 THE COURT: And to the extent that there's 7 an allegation that we're plowing the same field, it 8 seems like déjà vu to me. 9 MR. KISE: Right, but no one is getting it. 10 That's the problem. No one is getting it. I think the 11 folks in the back are getting it -- at least, from what 12 I saw yesterday. I think they're getting it. I think 13 they're seeing what's going on. But, I don't think 14 anyone else in the courtroom, except at this table, is 15 getting it. So that's why we have to have witnesses 16 come in and lay it all out -- particularly them. 17 THE COURT: Without responding to the 18 allegation that plaintiffs are not getting it, that 19 would not be a reason to go over it again if somebody 20 didn't get something. 21 I could summarize his testimony but, then 22 we'd have to ask him to leave the room. But, I don't 23 want to bother to do that. He's saying the same thing 24 he said yesterday. 25 MR. KISE: But, they objected to it</p>

<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6402</p> <p>1 yesterday, which is why we're going through this 2 exercise today. 3 THE COURT: To the extent there was an 4 objection, I overruled it. I let him say his 5 conclusion about these credit reports. As is often the 6 case, let's just move on. Okay? The record says what 7 it says. 8 DIRECT EXAMINATION 9 BY MR. SUAREZ: 10 Q. Professor, within the context of a material 11 accounting misstatement, what conclusion, if any, did you 12 reach about Deutsche Bank's reliance on the Statements of 13 Financial Condition? 14 A. Yes, you know when -- 15 Q. In this year in particular. 16 A. I just want to make a comment. When people don't 17 understand me, it's my fault. It's on me. So, I have a 18 continuous communication problem with Mr. Wallace. So let 19 me just explain the language. So maybe it will save a lot 20 of time of objection. 21 When I say, "obvious," it's obvious to someone -- 22 an accounting expert. When I say, "fraud," if there's no 23 misstatement -- if there's no misstatement, there is no 24 fraud. These are interchangeable. 25 In order to qualify for a fraud, you first have to</p>	<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6404</p> <p>1 if any, did you reach about Deutsche Bank's reliance on 2 President Trump's Statement of Financial Condition in the 3 year 2016? 4 A. So, I see here a detailed analysis of a few pages 5 just like before. And, this analysis is summarized on page 6 11; when again, they show a chart that compare Deutsche Bank 7 valuation to the DGT valuation. 8 They show that they are aware of DGT valuation. 9 In this case, the total portfolio, according to the DGT 10 valuation is 5.7 billion. According to their own analysis, 11 it's 2.5 billion. 12 So again, consider the entire report. And 13 particularly, the summary on page 11, clearly indicate, to a 14 reasonable expert, that, Deutsche Bank performed their own 15 analysis of valuation before they make their lending 16 decisions. 17 Q. And what conclusion, if any, did you reach 18 concerning their reliance on the Statement of Financial 19 Condition in this year? 20 A. So there is no evidence here of a material 21 misstatement. 22 Q. And, if we turn to Plaintiff's Exhibit 3137, I'd 23 ask you if you recognize this document Professor? And they 24 will hand you a paper copy just now. 25 A. Yes. So again, this is Deutsche Bank Private</p>
<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6403</p> <p>1 have a misstatement. So if you like me to say there is no 2 misstatement, I'll say there's no misstatement here. There 3 is no material misstatement here. There's to evidence here 4 of material misstatement. 5 Q. Thank you. 6 MR. WALLACE: Objection. That wasn't 7 responsive to a question, your Honor. And I don't 8 think the witness is supposed to be addressing me. 9 He's supposed to be asking you. 10 MR. KISE: You keep asking raising 11 objections. 12 THE COURT: We can't keep doing this as a 13 short question and a long answer and then it wasn't 14 responsive. I have to get a read back. 15 Mr. Wallace, is it important? If it is, I 16 will get a read back. 17 MR. WALLACE: It is not important. 18 THE COURT: Let's move on. 19 MR. SUAREZ: Can you pull up Plaintiff's 20 Exhibit 300. 21 Q. Do you recognize this document, Professor? 22 A. Yes. This is the review for July 20 -- this is 23 the review for July 20, 2016. 24 Q. And again in the context of accounting -- excuse 25 me of a material accounting misstatement, what conclusion,</p>	<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6405</p> <p>1 Wealth Management Risk Management Group analysis of debt 2 from July 20, 2017. 3 Q. What conclusion, if any, did you reach about 4 Deutsche Bank's reliance on President Trump's Statement of 5 Financial Condition in July of -- in the year 2017? Excuse 6 me. 7 A. So again, the recent report -- the credit report 8 is very detailed. They did a number of different 9 independent analysis. And the conclusion, again, from all 10 of this report -- this report contain a lot of analysis, 11 just like the other report. 12 And based on this analysis -- sorry. Just give me 13 a second. so based on this analysis, this data and 14 analysis, page twelve they show you the results which they 15 say the valuation is 2.5 billion, where Donald J. Trump says 16 the valuation is 4.3 billion which indicate that the 17 financial statement -- the Statement of Financial Condition 18 were not, materially, misstated. 19 Q. If we can turn to Plaintiff's Exhibit 302, I will 20 ask you professor if you recognize this document. 21 A. Yes, the same thing. It is a document but, 22 different date. The date here is July 20, 2018. It was 23 produced by the risk management group of Deutsche Bank 24 Private Wealth Management. 25 Q. And what conclusion, if any, did you reach about</p>

<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6406</p> <p>1 Deutsche Bank's reliance on President Trump's Statement of 2 Financial Condition in the year 2018? 3 A. Again, there is a very detailed independent 4 analysis, just like in all the other ones. And, at the end 5 of this analysis, on page -- let me just find the page. So 6 there is a very detailed analysis here of many different 7 type of analysis as you would expect from a bank. 8 And, again, if you look, for example, on page ten, 9 they summarize the detailed analysis that they performed and 10 they show that the total portfolio, based on the Statement 11 of Financial Condition, was 4.39 billion. According to 12 their end analysis, it was 2.515 billion. 13 The evidence will show that they did not rely on 14 the Statement of Financial Condition numbers but, they 15 relied on their own numbers that were almost 50 percent or 16 40 percent lower than the number in the Statement of 17 Financial Condition. 18 Q. From credit analysis perspective, as with the 19 other years, what does this tell you Professor? 20 A. It tell you that they rely -- that, they did a 21 very detailed analysis, independent analysis, using 22 information in the footnotes and using additional 23 information that they received directly from Mr. Trump. 24 And, they based their conclusion on their own analysis, not 25 on the numbers -- not on the raw numbers -- that were</p>	<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6408</p> <p>1 property, for example, in the Statement of Financial 2 Condition, it was reported at value of two billion. They 3 arrived to the conclusion, on their analysis, that, the 4 value, for their purposes, is one point 1.16 billion, almost 5 50 percent lower than the number reported in the Statement 6 of Financial Condition. 7 So, they did not -- to me, as an expert, it's 8 obvious that they did not rely on the raw numbers that are 9 reported in the Statement of Financial Condition but, 10 instead, they do a very extensive independent analysis 11 derived, completely, different numbers and rely on this 12 adjusted numbers in their lending decisions. 13 Q. Was that consistent with the analysis that 14 Deutsche Bank performed in each year of the credit 15 relationship? 16 A. Yes, they -- in each year, they perform, in 17 spirit, more or less the same type of analysis. And the 18 analysis relies, substantially, on information that is not 19 even available in the Statement of Financial Condition. 20 As I said yesterday, the information of financial 21 condition, does not provide income statement, does not 22 provide statement of cash flow and there is no way that any 23 bank can rely on the statement when they make their lending 24 decisions. 25 Q. And if we could move on, I'd like to show you</p>
<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6407</p> <p>1 reported in the Statement of Financial Condition. 2 Q. And, if I could show you Plaintiff's Exhibit 498. 3 A. Thank you. 4 Q. Do you recognize this document, Professor? 5 A. I do this is the credit report for -- dated 6 September 17, 2019. 7 Q. And what conclusion, if any, did you reach about 8 whether Deutsche Bank relied on President Trump's Statement 9 of Financial Condition in the year 2019? 10 A. Again, you see, just like the all other reports, 11 you see a very detailed analysis or a variety of independent 12 analysis that is not available, at all, in the Statement of 13 Financial Condition. It's based on additional information 14 that they received from Mr. Trump. 15 And based on this analysis, they arrived to their 16 independent conclusion. Let me just see where it is. 17 Sorry. So this is here at page nine. So based on this 18 detailed -- very detailed -- analysis of -- most of the 19 information that they used for the analysis is not even 20 available on Statement of Financial Condition. So, the 21 Statement of Financial Condition, obviously, didn't play 22 very -- play very little role in their analysis other than 23 some information in the footnote. 24 Based on this information, on page nine, they 25 derived the value of -- in this case, the four trophy</p>	<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6409</p> <p>1 Plaintiff's Exhibit 519. 2 A. Thank you. 3 Q. Do you recognize this document, Professor? If you 4 turn to the second page of the hard copy. 5 A. Yes, this is the credit report dated July 30, 6 2020. 7 Q. What conclusion, if any, did you reach about 8 Deutsche Bank's reliance on President Trump's Statement of 9 Financial Condition in 2020? 10 A. Again, you see a very detailed analysis here of a 11 different type of analysis. And, based on this analysis, on 12 page 11 of this document, they provide a table that 13 contrast, just like they did in other statement -- other 14 credit report, they contrast the valuation on the Statement 15 of Financial Condition with the valuation that will develop 16 by DB independently. 17 And you see that the total portfolio value, based 18 on the Statement of Financial Condition is 4.7 billion, 19 approximately. But, the DB valuation is only 2.7, 20 approximately, billion. So, you see there's another 21 differential of 43 percent. 22 Now, you see also that every year the differential 23 in percentage is not the same. Which tell you that they did 24 not use a mechanical, automatic discount to the asset. 25 And you see also that each asset -- the difference</p>

A.Bartov - Defendants - Direct/Mr. Suarez Page 6410

1 between the valuation on the Statement of Financial
 2 Condition and the valuation of the DB, each asset get a
 3 different discount; which again, show you that they did not
 4 use a standardized haircut when they computed their own
 5 valuation.
 6 Q. And in connection with Plaintiff's Exhibit 561 if
 7 we could pull up plaintiff's 56.
 8 MR. WALLACE: Your Honor, I just want to
 9 note an objection to the testimony about the last
 10 document. That document did not appear in either of
 11 the disclosures that Professor Bartov issued.
 12 So, I don't know when he, actually, reviewed
 13 these documents. But, it appears not to have been as
 14 part of his preparation of the two reports.
 15 THE COURT: Overruled.
 16 Q. Do you recognize Plaintiff's Exhibit 561?
 17 A. Yes. So, this is the credit report for July 30,
 18 2021.
 19 Q. What conclusions, if any, did you reach about
 20 whether Deutsche Bank relied on President Trump's Statement
 21 of Financial Condition in the year 2021?
 22 A. Again, if you review -- if you go page by page,
 23 you see that they perform an extensive analysis using
 24 information not only from other sources as well information
 25 from the footnotes of the Statement of Financial Condition.

A.Bartov - Defendants - Direct/Mr. Suarez Page 6411

1 And you can see here, on page 11, that total portfolio,
 2 according to the Statement of Financial Condition, was 3.8
 3 billion and DB valuation was only 2.2 billion.
 4 And again, you see, that for each asset the
 5 difference between the DB valuation and the Statement of
 6 Financial Condition valuation, the difference in percentage
 7 is different.
 8 Again, inconsistent with the claim that they use
 9 standardized haircut to arrive at the suggested numbers and
 10 not detailed independent analysis.
 11 Q. Is there anything in the materials that you
 12 reviewed that demonstrate the Statements of Financial
 13 Condition were altered or manipulated to conceal a material
 14 accounting misstatement?
 15 A. So concealment is a major criterion for fraud in
 16 accounting. So, in accounting, we have objective criteria
 17 to identify fraud. Concealment is one of them.
 18 Falsification of material that is provided to the accountant
 19 is another one. Fake transaction is a third one.
 20 So, there is a number of indicators that indicate
 21 fraud. Because, otherwise, how would you distinguish
 22 between accidental error and fraud?
 23 Fraud is an error. An accidental error is also an
 24 error. Fraud is an intentional error. But, in accounting
 25 we don't do -- I am not psychiatrist.

A.Bartov - Defendants - Direct/Mr. Suarez Page 6412

1 So, in accounting, we determine fraud by objective
 2 criteria. And the objective criteria are, as I said before,
 3 falsified documents, concealment of facts, faked
 4 transaction, forged document are provided to the accountant.
 5 If it would be helpful for the Judge, I can give
 6 couple of examples that would demonstrate what is the
 7 difference between accidental error and fraud in accounting.
 8 THE WITNESS: If I give you real world
 9 example, would that be helpful?
 10 THE COURT: How about start with one
 11 example.
 12 THE WITNESS: One example. So let's take an
 13 example for Computer Associates. Computer Associates
 14 is a company that quarter was in Long Island.
 15 What they did, they took revenues, in
 16 January, and they booked them as if the revenue was
 17 earned in December. So they take revenues that were
 18 earned in January and they book them --
 19 THE COURT: They took earnings from December
 20 and put them in the later year.
 21 THE WITNESS: They did transaction in
 22 January and they book it as if it is December in order
 23 to reflect the revenue in December.
 24 Now, this maybe -- as I describe it so far --
 25 it may be an accidental error or a fraud. What make it

A.Bartov - Defendants - Direct/Mr. Suarez Page 6413

1 a fraud was that when they provided the documents about
 2 this transaction to the auditors, they white out the
 3 date of the contract, which was January 15th, and
 4 they replace it with December 5. So this make it fraud
 5 rather than accidental error.
 6 If, for example, they did not forge the
 7 document then, it would be considered an accidental
 8 error. Accidental errors occur all the time. But, if
 9 you've deceived your auditor, if you provide your
 10 auditor forged documents, if you provide your auditors
 11 documents that conceal the true evidence, then the
 12 accidental error become fraud.
 13 THE COURT: That one example is fine.
 14 Let's move on.
 15 MR. SUAREZ: You Honor, I'm at a helpful
 16 point in my outline to take a morning break if
 17 possible.
 18 THE COURT: How much longer is your direct?
 19 MR. SUAREZ: I don't think I have got a
 20 whole lot left. But, it would be helpful to review
 21 that over the break. And, I also need a break.
 22 THE COURT: Okay. Let's break. I will see
 23 you all at 11:45. Let's make is 11:40 -- a quickie.
 24 Professor, as usual, I always say, you can
 25 leave everything just take your wallet. And don't

<p>A.Bartov - Defendants - Direct/Mr. Suarez Page 6414</p> <p>1 discuss the case, of course, during the break. 2 THE WITNESS: Sure. 3 (Whereupon, the following proceedings were 4 stenographically recorded Shameeka Harris.) 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>Proceedings Page 6416</p> <p>1 Professor Lewis and Mr. Sneddon. 2 THE COURT: That's all the information you can 3 give? 4 MR. WALLACE: Correct. 5 MR. KISE: He certainly can narrow it down. They 6 have, like we had, dozens of witnesses on their list. He 7 certainly can narrow it down to, okay, if it's somebody, it 8 can be these handful of people. I am not asking them to do 9 it right this moment, but the idea that we are going to get 10 to Monday afternoon or Tuesday morning and say, oh, we have 11 to add this person or that person it would just be 12 extraordinarily unfair. 13 THE COURT: I will make sure they won't abuse the 14 privilege. 15 MR. KISE: With respect to Mr. Sneddon, and 16 Mr. Robert may be the better person to do this but I'll 17 introduce it, we would like a proffer as to what exactly 18 Sneddon is going to testify about and what that would be in 19 rebuttal to. 20 MR. WALLACE: What basis? He's been on our list. 21 He worked at TIR. He was a Trump Organization employee. 22 They have his documents. 23 MR. KISE: But what issues is he rebutting in our 24 case. They could have called him in their case. What issue 25 in our case is he rebutting?</p>
<p>Proceedings Page 6415</p> <p>1 (Whereupon a recess was taken.) 2 COURT OFFICER: All rise. Part 37 is back in 3 session. Please be seated and come to order. 4 MR. KISE: Your Honor, just one brief housekeeping 5 matter. At this point, Monday is occupied with President 6 Trump's testimony. I did confirm with Miss Greenfield that 7 Professor Bartov will be available at 10 a.m. on Tuesday 8 ready to go to finish his testimony. And then I just want 9 to be sure from the government because I got an answer but 10 I'm not sure it's a complete answer. As of -- we have 11 Professor Lewis and Mr. Sneddon are the two that they've 12 identified as potential rebuttal witnesses. I just want to 13 be sure. It is Friday and these witnesses are going to come 14 next week. If there is anybody else they have in mind, 15 theoretically, we are entitled to know that. We can at 16 least be prepared, not wait until we get to Monday or 17 Tuesday. Is there anyone else? 18 MR. WALLACE: I am going to tell Mr. Kise the same 19 thing I told him at sidebar. Those are the people we are 20 planning to bring. This witness is saying a lot of things 21 about Deutsche Bank. Maybe, I want to recall a Deutsche 22 Bank witness. I don't know. President Trump can say any 23 number of things on the stand as we are all aware. I may 24 want to call those people. They would be on our list. 25 Right now, the only people we are planning to call are</p>	<p>Proceedings Page 6417</p> <p>1 THE COURT: You feel obligated to answer that? 2 MR. WALLACE: I don't think I'm under an obligation 3 to answer that. 4 MR. KISE: He is clearly under an obligation to 5 answer that. It is a rebuttal case. Unless we are going to 6 have this fight next week when he shows up and he starts 7 asking questions, it would be for more efficient to 8 determine in advance if he's an appropriate rebuttal 9 witness. We didn't call Mr. Weisselberg in our case. The 10 only relevance we can see in his testimony relates to some 11 purported communication between Mr. Sneddon and 12 Mr. Weisselberg that should have been introduced on their 13 case-in-chief. They can't use rebuttal to backfield their 14 case-in-chief. What issue is it that he is being called to 15 testify about? 16 THE COURT: I don't know the answer to what extent, 17 if any, somebody has to announce the subject matter of a 18 rebuttal witness. So I'll accept any advice. You can send 19 it to me at midnight tonight. So, I just have to leave it 20 at that at this point. So, okay. Let's get the witness 21 back. 22 (Whereupon, the witness resumes the witness stand.) 23 THE COURT: Okay, next question. 24 MR. SUAREZ: Thank you. Your Honor, just a 25 housekeeping matter, Plaintiff's Exhibit 34 and 39, which we</p>

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6418

1 previously discussed with the witness, I'd like to move that
2 into evidence.
3 THE COURT: Granted. It's in.
4 MR. SUAREZ: And I'd like to show the witness
5 Defendant's Exhibit 1068, Defendant's Exhibit 1068.
6 CONT'D DIRECT EXAMINATION
7 BY MR. SUAREZ:
8 Q Mr. Bartov, if I could draw your attention to this
9 letter, the subject matter being The Trump International Tower
10 at 401 North Wabash Avenue in Chicago?
11 A Yes.
12 Q And it says, "Dear Miss Trump, copies of the following
13 externally generated reports of the above referenced property
14 are being made available to you for information purposes only"?
15 A Yes.
16 Q Why does Deutsche Bank order appraisals of property
17 that's pledged to it as collateral?
18 MR. WALLACE: Objection. This is beyond the scope
19 of this witness's expertise, and I would also say painfully
20 obvious and covered by other witnesses.
21 THE COURT: What was that third point and it's --
22 MR. WALLACE: Covered by other witnesses why
23 Deutsche Bank orders appraisals.
24 MR. SUAREZ: I am trying to lay a very brief
25 foundation for the next couple of questions I am going to

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6419

1 ask, but if Your Honor would rather I just jump into it.
2 THE COURT: If it's brief, go ahead and do it.
3 A The -- this is standard practice by banks when they
4 give you a mortgage they order an appraisal to know the value of
5 the -- of the asset according to their definition of value.
6 Q And then it goes on in the third paragraph to say, "It
7 should be noted that the subject reports were prepared for
8 Deutsche Bank trust company Americas and/or its affiliates,
9 successors or assigns for a specific purpose and should not be
10 relied on by you for any other purpose."
11 Do you see that?
12 A I do.
13 Q And with that in mind, would it be appropriate to use
14 appraisals commissioned by a bank for other purposes when
15 valuing property on a statement of financial condition?
16 MR. WALLACE: Objection. What is the basis for
17 this witness offering an opinion on this? He is not an
18 appraisal expert. I'll also note this document was not
19 reviewed by the witness in the course of preparing his two
20 reports so this is new.
21 THE COURT: Sustained for various reasons.
22 MR. SUAREZ: I am asking the witness what the
23 utility of that report would be in placing a value on an
24 asset in a financial statement.
25 THE COURT: What utility would an appraisal be in

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6420

1 determining the value of an asset in a financial statement?
2 MR. SUAREZ: So here is a letter from Deutsche Bank
3 that says that you can't --
4 MR. WALLACE: At this point, can we excuse the
5 witness if he is going to explain the relevance of this
6 testimony.
7 THE COURT: I will have to excuse the witness if
8 you are going to do this.
9 (Whereupon, the witness was excused from the
10 stand.)
11 THE COURT: Okay. Can you give us the whole smear
12 here.
13 MR. SUAREZ: Yeah. I think I know what that means.
14 THE COURT: That's because there are a lot of
15 northers in Florida I think.
16 MR. SUAREZ: One of the theories of the plaintiff's
17 case is that we have had appraisals that we ought -- that we
18 had ought to have disclosed to Mazars and somehow failed to
19 do so. But what's clear from this evidence is that those
20 appraisals could not be used as the basis of generating
21 values because they were given to us under very strict
22 restrictions from Deutsche Bank that they could not be used
23 for any other purpose.
24 MR. WALLACE: Your Honor, this is Chicago which
25 does not appear on the statement of financial condition.

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6421

1 They got appraisals from Deutsche Bank for Doral which they
2 did use on the financial statement. This letter is
3 addressed from Emile Pereless whom they could have asked
4 about this when she was on the stand. Professor Bartov is
5 not a buffet platter where they can go up and make sure
6 they're getting all of their theories into the case. I
7 don't know what expertise he is providing on this. It is
8 not available to the Court to just read a document and make
9 an assessment of it.
10 THE COURT: For some or all of those reasons,
11 sustained.
12 MR. SUAREZ: Okay.
13 THE COURT: Let's get the witness.
14 (Whereupon, the witness resumes the witness stand.)
15 CONT'D DIRECT EXAMINATION
16 BY MR. SUAREZ:
17 Q I'd like to pull back up Plaintiff's Exhibit 293 and
18 I'd like to direct the witness to page 6 of 293. And, again,
19 pull up the tower, the Trophy Property valuation chart there in
20 the middle.
21 Do you see the column for the Deutsche Bank valuations
22 in 2011 of the 4 Trophy Properties?
23 A Yes, I do.
24 Q If you could take a second just to review the document.
25 It says 2011?

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6422

1 A Yeah, it's December 20, 2011.
2 Q Okay. Do you see the Deutsche Bank values Trump Tower
3 at 308.2 million that year?
4 A I do.
5 Q The New York Attorney General values Trump Tower that
6 year at \$369.2 million?
7 MR. WALLACE: Objection. What is the evidentiary
8 foundation for how the Attorney General valued this
9 property?
10 THE COURT: It's not on that sheet, is it? Am I
11 missing something?
12 MR. SUAREZ: Do you deny that that's the value you
13 assigned to the property?
14 MR. WALLACE: Based on what? It is a big record.
15 MR. KISE: We can ask as a hypothetical.
16 THE COURT: Hold on. You can ask it as a
17 hypothetical. I don't know that it's going to mean much but
18 go ahead. If the New York Attorney General valued Trump
19 Tower at 369 million.
20 Q If the New York Attorney General valued Trump Tower at
21 369 million that year, what would that tell you about the New
22 York Attorney General's analysis?
23 A To me it would be -- to me it would be very surprising
24 because the NY Attorney General was supposed to value the Trump
25 Tower based on the definition of estimated current value.

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6423

1 Deutsche Bank value their -- the building based on liquidation
2 value. Liquidation value is the lowest value. The definition
3 of liquidation value would get you the lowest valuation. And
4 you can see that consistently every time every comparison DB
5 valuation is lower than Donald Trump valuation. This is
6 expected because by definition they're using a measure that will
7 give you much lower number.
8 AG was supposed to value this asset not by liquidation
9 value, which is not recognized by GAAP as a legitimate
10 methodology. They were supposed to value it based on estimated
11 current value. So you would expect their valuation for each and
12 every asset to be higher than the valuation of Deutsche Bank.
13 If their valuation is even lower than the valuation of Deutsche
14 Bank, it tells you that something is -- that their valuation
15 is -- it's an indication that their indication is unreliable to
16 me as an expert in valuation.
17 Q And if the New York Attorney General in the year 2011
18 valued Nike Town --
19 THE COURT: Hold on. Would there be an objection
20 to that last answer?
21 MR. WALLACE: None of this is relevant. I don't
22 know why we need hypothetical questions about what the
23 Attorney General has valued things as. All of this is
24 irrelevant.
25 THE COURT: As you've all heard me say, I allow

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6424

1 hypothetical questions but that hypothetical, what would
2 that tell you if the Attorney General valued it, the witness
3 wouldn't -- wouldn't have any basis to say what would that
4 tell you. I don't understand. That whole answer was a
5 cockamamie --
6 MR. KISE: On the hypothetical, the witness would
7 have a basis to determine in his opinion -- the witness
8 would have a basis to opine as to what conclusion he would
9 draw from the number being lower than the Deutsche Bank
10 number and he's answering a hypothetical. If the number
11 is -- if the number were higher -- he's just provided the
12 testimony that if estimated current value is going to result
13 in a higher valuation, then he said it, liquidation value or
14 fair value.
15 THE COURT: For one thing, there was -- I don't
16 think -- I don't know that he could say because the number
17 was low, oh, that must have been a liquidation value.
18 MR. KISE: That's in the record already. They are
19 using fair value and liquidation value. Mr. Haigh testified
20 to that.
21 THE COURT: Is that the case?
22 MR. KISE: Mr. Haigh testified to that. That's
23 what they're doing, yes.
24 MR. WALLACE: I think he said adverse scenario.
25 MR. KISE: He's basically -- what Professor Bartov

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6425

1 is testifying to is from an accounting perspective that the
2 valuation estimated current value is always going to be
3 higher than liquidation value or fair value. So that's the
4 proposition that he is responding to in the hypothetical.
5 That's certainly fully relevant because the Attorney General
6 is challenging our numbers.
7 MR. WALLACE: Your Honor, I think I can clarify
8 that they're apparently referring to a recalculation that
9 was run by Constantine Korologos, an expert we have not put
10 into evidence. We are not seeking to run values on these
11 properties for years. So I think that is the height of the
12 relevance. He is now rebutting an expert who has not
13 testified and is not in front of the court and we're
14 definitely not planning on calling Mr. Korologos on Tuesday.
15 So, I'll also -- the witness is here, but he did something
16 different than just do estimated current value. He was
17 rerunning the same numbers provided by the Trump
18 Organization.
19 THE COURT: I mean, my issue, objection, is still
20 hypothetically, if they did this, would they have done this
21 because. Well, they didn't do it so how does he know
22 what -- why they would have done it if they didn't do it or
23 assuming they didn't do it.
24 MR. KISE: The allegation in the complaint, which I
25 know they don't want to talk about the complaint anymore, is

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6426

1 that we overvalued our properties and the correct value
2 should be something different. So we're just using
3 hypotheticals. We are using actual evidence. We're
4 responding to that allegation. Just because they chose not
5 to call an expert doesn't mean that we're limited in the
6 presentation of our defense. These are very simple
7 questions and had the Attorney General not objected we would
8 be done by now.

9 MR. WALLACE: These are asinine questions.

10 THE COURT: I was the one who objected to them to
11 set the record straight. Since the Attorney General didn't
12 object, let's move on.

13 MR. WALLACE: I objected to the next round of
14 questions as a relevance. Why don't we get an actual
15 question in front of the witness.

16 MR. SUAREZ: Your Honor, I'd like to -- I have
17 three more questions on this.

18 THE COURT: Go ahead.

19 CONT'D DIRECT EXAMINATION
20 BY MR. SUAREZ:
21 Q If the New York Attorney General had valued Nike Town
22 at 136.5 million what would that tell you about the valuation?
23 MR. WALLACE: Objection, irrelevant.
24 THE COURT: Objection, irrelevant. Sustained.
25 MR. KISE: So then, Your Honor, how is it possible,

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6427

1 if they are not introducing any evidence that our values
2 aren't accurate, they haven't called anybody to dispute our
3 values, how is it then possible that they've proven their
4 case? I'm back to directed verdict. I know you didn't want
5 to hear it. I was going to put a sign up here so every time
6 I open my computer it says directed verdict, but I don't
7 see -- we have to meet the allegations in the complaint.
8 This is meeting the allegations in the complaint. It's four
9 questions. And I frankly think it's highly relevant and
10 highly probative of the claims that they have made in this
11 case. They are given to extraordinary hyperbole in their
12 arguments, in their analysis and so we are meeting
13 everything that we can possibly meet given the constraints
14 that we have been provided. But they can't tactically box
15 us out by saying, well, I am going to save my expert for
16 rebuttal. We will get to that argument next week about
17 Professor Lewis but that's a whole different set of
18 arguments.

19 So I think this witness can clearly testify and
20 respond to hypotheticals. If they want to ask him about
21 different hypotheticals, they can as well. But it is highly
22 relevant and probative to the issues that are in the case.

23 THE COURT: Again, the question was if the Attorney
24 General had valued the property at a certain amount what
25 would that tell you. I don't see the point. And by the

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6428

1 way, this gets us back to something that I had said and you
2 disagreed and we never really discussed it. To me, the case
3 isn't about valuation. It's about statements and financial
4 condition. Section 6312 in the Executive Law basically says
5 you can't use false statements in business. That's what the
6 summary judgement motion was -- decision was all about. I
7 think it is pretty much what the rest of this case is about.
8 So whether a particular property is worth "X" dollars or "Y"
9 dollars, that's not what the case is about.

10 MR. KISE: So how then -- so then, respectfully,
11 this is a completely rudderless ship. You are just going to
12 determine on your own whether the right values, whether
13 there is a misstatement of values based on your own
14 determination. That's why we have experts.

15 MR. WALLACE: We are rearguing summary judgement.
16 THE COURT: I'm not determining values.
17 MR. KISE: The only way to know if there is a
18 misstatement is to know whether the value is correct. The
19 statements contain values. That's it. If the value of
20 Trump Tower is acceptable and accurate under accounting
21 principles and it's done correctly, then by definition there
22 can't be a misstatement. We just can't make up
23 misstatements like the Attorney General wants to do and say
24 it's wrong because I say it's wrong. I have been saying
25 since the beginning and now this is what's bearing out in

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6429

1 the record. This is exactly what's going on here. They are
2 just basically saying, oh, I don't like 490. Why don't you
3 like 490. It's wrong. Why it wrong? If we don't get down
4 to the value and why the value is wrong, there's no way to
5 determine it. You can't just say it is a misstatement
6 because we feel like it. There has to be a standard.
7 Otherwise, it's completely --

8 THE COURT: The standard is truth.
9 MR. KISE: Truth. What's truth? The truth based
10 on -- the truth based on the Attorney General? The truth
11 based on the Court? The truth based on the person on the
12 street? This has to be -- it has to be more to some sort of
13 standard. Otherwise, I mean, otherwise, this entire
14 thing -- I really don't want to be back here trying this
15 again, but if it is not worth to a standard, that's exactly
16 where we are going to be.

17 MS. HABBA: I agree with my co-counsel's
18 sentiments. I just want to be heard on where I think there
19 is a major problem in fairness and commonly. We have heard
20 now for a second day a witness who is an expert on
21 accounting, accounting, which is the core of the AG's
22 complaint. It's a GAAP violation. It is. We can't have
23 fraud. We can't have misstatements without some violation
24 of the rules.
25 So, I think what my co-counsel is saying is that if

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6430

1 you are going to argue that DJT's valuations had to be
2 subjectively wrong in your mind or in the AG's mind, then
3 there is fraud and that's what I am hearing. We're simply
4 trying a case -- I'm not even sure why we're trying a case
5 if that's what we are saying, quite honestly, because we
6 have had experts come in here and say that that's not how
7 this works, that they didn't violate -- the witness can
8 leave.
9 (Whereupon, the witness was excused from the
10 stand.)
11 MS. HABBA: I tend to not object unless I really
12 feel there is a moment to object. I am incredibly
13 frustrated at this moment. I've heard numerous objections
14 from the AG on an expert that they frankly have used
15 themselves to shut down any relevant information that says
16 exactly what is true which is that these are not -- this is
17 not fraud. There was no fraud and their complaint has no
18 merit.
19 We heard that but no one on their side and,
20 frankly, it feels like no one on the bench cares to hear it
21 because you keep referring back to a summary judgement
22 motion. Why do we have experts here and why are we wasting
23 our time if nobody is actually considering the words coming
24 out of our experts mouth. I truly have to ask that. They
25 have not proven their case, Your Honor. They have not. And

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6431

1 I can echo everything that my colleagues have said,
2 materiality, all of those things have to be proven. That's
3 why we have laws, 6312. Whether they want to use it in this
4 cockamamie way or not, fine, but they still have a case to
5 prove. And I think we are sitting here wasting time and
6 money from looking at your responses and looking at their
7 objections because they are not accountant experts. They
8 are lawyers. And we have experts here to teach us what
9 happened.
10 Accountants did this, not lawyers. Accounting
11 firms, not lawyers. So, quite honestly, Your Honor, I also
12 echo that we should have a directed verdict. We should have
13 had a directed verdict ten weeks ago. They haven't proven
14 their case and now they are -- frankly, I also have to
15 address Mr. Wallace, who likes to giggle and be disruptive
16 and I find it highly offensive, frankly. I think this is
17 not a joke. You are talking about a company. We have to
18 take this seriously, and we have to apply law to facts and
19 that is what is not being heard.
20 All that's being heard is commotions and he gets
21 all worked up. I've never seen anything like it, quite
22 honestly. But we have to stop what we're doing if we are
23 not going to seriously listen to these experts and take what
24 they are saying as expert opinion. We are not experts on
25 accounting. Nobody in this room is. He is. I also move

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6432

1 for a directed verdict again. Quite honestly, Your Honor,
2 this case -- they have not proven their case. They have
3 not. Thank you.
4 THE COURT: Denied. Would the plaintiff like to
5 respond about anything that has been said?
6 MR. AMER: Just briefly, Your Honor. We had an
7 extensive briefing on summary judgement which the CPLR
8 allows voluminous exhibits including affidavits from all of
9 the experts we have been hearing from. The Court issued its
10 decision and resolved the issues against defendant that are
11 relevant to valuation. We didn't put on any valuation
12 experts because it was unnecessary.
13 Their arguments about valuation are for appeal
14 because the issues have already been decided. This is a
15 very narrow trial about intent to defraud, about the
16 equitable relief we're seeking and about disgorgement. They
17 want to put on their experts. It's the one thing I agree
18 with Miss Habba about it's a complete waste of time. The
19 issues that their experts are speaking to other than their
20 banking expert, who addressed the disgorgement question, is
21 simply irrelevant to the case. Those issues are no longer
22 here. They had been decided and so I don't know why they
23 are constantly rearguing things that they lost on summary
24 judgement and make those arguments on appeal. That's fine.
25 We're wasting a huge amount of time in this courtroom on

Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6433

1 issues that have already been decided. That's all I want to
2 say, Your Honor.
3 MR. KISE: So, Your Honor, Mr. Amer just
4 contradicted you because he said you decided values. You
5 just told us that you didn't decide values. The --
6 MR. AMER: I said valuation issues.
7 MR. KISE: Valuation issues. And it's not possible
8 to decide valuation issues without deciding values at least
9 not in the world that I live in so that's first.
10 Secondly --
11 THE COURT: I disagree with that. It almost sounds
12 commonsensical but how you got to those values. We see
13 documents that show how certain individuals got to certain
14 values. Whether or not the absolute number is right is not
15 the main issue here.
16 MR. KISE: How they got to the number is exactly
17 the issue and it's certainly the issue irrespective of
18 summary judgement, irrespective of summary judgement. In
19 summary judgement, there was no question of intent. There
20 was no question of materiality. There was no question of
21 reliance. No question of damages. So we threw all of that
22 out the window and now what the Attorney General wants to
23 do, and it's clear, is say, no, no, we are going to take a
24 statute that doesn't require any of the elements of fraud
25 and then use that to prove elements of statutes that clearly

<p>Professor Bartov - by Defendant - Direct (Mr. Suarez) Page 6434</p> <p>1 require elements of the actual elements of fraud, intent, 2 materiality, reliance. 3 And so you can't just collapse it all in one 4 analysis. That's preposterous that you could do that on a 5 legal basis. The issue of the propriety of the valuation 6 derivation, they're propriety under GAAP. Whether or not 7 the statements were prepared in accordance with GAAP, that 8 all goes squarely to intent. It is not possible to 9 determine that someone had an intent to defraud if they 10 followed every rule that Professor Bartov says they needed 11 to follow. It's not possible. 12 It is highly relevant and probative in this case 13 irrespective of the summary judgement. The summary 14 judgement is a whole nother set of issues but certainly with 15 respect to this proceeding all of the issues that we're 16 dealing with now goes squarely to intent. They go squarely 17 to materiality and they go squarely to disgorgement 18 including Professor Bartov's testimony. So I don't see 19 where the Attorney General is coming from in that regard at 20 all. 21 THE COURT: Just one very small slice of what you 22 just said. I still believe the law is that expert testimony 23 on intent is not admissible. 24 MR. KISE: He's not testifying about intent, Your 25 Honor. He is testifying about what happened. He's telling</p>	<p>A.Bartov - Defendant -Direct/Mr.Suarez Page 6436</p> <p>1 Q. Professor, after reviewing this credit report, 2 assume a student walked into your class, with respect to 3 Niketown, in 2011, and told you that they had valued it at 4 \$136.5 million, what would you tell that student? 5 A. I would ask the student "What is the definition of 6 value that you used." 7 Q. If the student told you "estimated current value." 8 A. If he told me "estimated current value" I would 9 say, "Listen, this is impossible because, liquidation value 10 must be much lower than estimated current value. If you 11 find the estimated current value is much lower than 12 liquidation value, this is simply impossible." 13 Q. If that same student walked in, in 2011, and told 14 you that 40 Wall Street, after having reviewed this credit 15 memo, was worth \$200 million, what would you tell that 16 student? 17 A. Again, I would tell them the same thing. I will 18 say, "This is impossible." 19 Q. And in 2011, if that same student walked in and 20 told you that, after reviewing this credit memo, they had 21 concluded that the Trump Park Avenue was worth 22 \$95.7 million, what would you tell that student? 23 A. Well, at that point, I'll give up on him. 24 Q. If that student was the New York Attorney 25 General -- I'll withdraw the question.</p>
<p>Page 6435</p> <p>1 you whether or not it satisfied the rules of accounting. 2 THE COURT: Well, the specific thing that got us 3 off this was assume that the Attorney General had done 4 something that we don't know that they actually did. So, 5 enough. Let's move on. 6 Witness. 7 (Whereupon, the witness resumes the witness stand.) 8 THE COURT: Okay. Continue, please. 9 (Continued on next page)</p>	<p>A.Bartov - Defendant -Direct/Mr.Suarez Page 6437</p> <p>1 A. No. These are good people. 2 Q. Professor -- 3 MR. SUAREZ: Your Honor, may I confer with 4 Mr. Kise for a moment? 5 THE COURT: Sure. 6 MR. SUAREZ: Thank you. 7 (Pause in proceedings.) 8 MR. SUAREZ: Can we please pull up the 2015 9 supporting data, which is Plaintiff's Exhibit 731. 10 Q. You see there, Professor, where it says, "PBC?" 11 A. Yes. 12 Q. Does that mark indicate that it was provided by 13 the client to the -- 14 MR. WALLACE: Objection, leading. 15 THE COURT: Sustained. He knows. We all 16 know at this point. 17 Q. What does that mark indicate Professor? 18 A. Provided by client. 19 Q. If we turn to the Trump National Golf Club in 20 Colts Neck, which is at page ten of my hard copy but, that 21 reference might not work. 22 Do you see that calculation of estimated current 23 value for the Trump National Golf Club at Colts Neck? 24 A. Hold on a second. 25 Q. If you are having trouble with the screen I can --</p>

A.Bartov - Defendant -Direct/Mr.Suarez Page 6438

1 A. No, I don't have trouble. I'm good. I just want
2 to -- there are two views. There is fourteen and fifteen.
3 There are two comparative years.
4 Q. Right. Fifteen is column G and fourteen is column
5 H.
6 A. What are you referring to now?
7 Q. Do you see there it has value of fixed asset?
8 A. I see, yes.
9 Q. Do you see that it has a premium for a fully
10 operational branded facility?
11 A. Yes.
12 Q. From an accounting perspective, Professor, what,
13 if anything, is inappropriate about adding that fully
14 operational branded facility --
15 MR. WALLACE: Objection, leading. Also,
16 your Honor, you explicitly rejected these opinions from
17 Professor Bartov on summary judgment.
18 THE COURT: That was based on the wording of
19 the SFCs? Is that -- can you expand a little on what I
20 did?
21 MR. WALLACE: In direct, your Honor, pages
22 28 and 29 of the summary judgment.
23 THE COURT: We need to have the witness go
24 out again?
25 MR. WALLACE: Sure.

A.Bartov - Defendant -Direct/Mr.Suarez Page 6439

1 THE WITNESS: It is good exercise.
2 THE COURT: I appreciate that.
3 MR. WALLACE: Your Honor, on page
4 28 -- there's two aspects. They're is discussion of
5 this on page 29. There's discussion of fixed assets.
6 You write that defendants further rely on the
7 Bartov affidavit, which states in wholly conclusory
8 fashion that the assertion that, quote, using fixed
9 assets approach, does not present the golf clubs at
10 their estimated current value because, the approach
11 ignores market condition and the behavior of informed
12 buyers and sellers is unsubstantiated and false. You
13 then state, Bartov is incorrect and explain your
14 reasoning.
15 On page 28, "Regarding the Trump Brand
16 Premium, which I assume is also going to be discussed
17 here, you write that, in opposition, the defendants
18 submit the affidavit of Eli Bartov, an accounting
19 professor in New York University who distinguishes
20 between overall brand value and brand value ascribed to
21 individual golf courses.
22 "His points, ensconced in numerous lines of
23 academic jargon, seems to be that the defendant said
24 that they were issuing the former and opting only for
25 the latter. This is a red herring and, factually,

A.Bartov - Defendant -Direct/Mr.Suarez Page 6440

1 incorrect."
2 This is the law of the case. It's been
3 decided you saw his opinions on summary judgment I
4 should say, saw and considered.
5 THE COURT: Objection, overruled. Let's let
6 it in.
7 Get the witness, please.
8 MR. WALLACE: I still maintain the leading
9 objection, your Honor.
10 THE COURT: I don't remember the exact
11 wording. I didn't think it was leading or material.
12 MR. WALLACE: I think he said why was it
13 improper.
14 THE COURT: Okay. Go ahead, please.
15 DIRECT EXAMINATION
16 BY MR. SUAREZ:
17 Q. Professor, if I can draw your attention back to
18 the Trump National Golf in Colts Neck and, specifically, to
19 the inclusion of a premium for a fully operational branded
20 facility, how, if at all, is the inclusion of that premium
21 for a fully operational branded facility consistent with
22 GAAP?
23 A. Well, you know, I think the confusion about this
24 item coming from misinterpretation of the footnotes. In the
25 footnote, Mr. Trump says, that those went to GAAP.

A.Bartov - Defendant -Direct/Mr.Suarez Page 6441

1 Following GAAP, he does not recognize the brand value of the
2 Trump name on the Statement of Financial Condition as a
3 standalone asset. Following GAAP he doesn't do that.
4 GAAP limit the ability -- as I discussed
5 yesterday, GAAP limit the ability of companies to recognize
6 internally developed intangible asset as a standalone asset
7 on the balance sheet.
8 GAAP does not limit the ability of companies to
9 include the effect of brand name on the value of tangible
10 assets.
11 Tangible assets are subject to a completely
12 different valuation rules than intangible asset; and
13 therefore, and actually, as I explained in my report, GAAP
14 require companies to include, as part of the valuation of
15 intangible asset, any intangible asset that is related to
16 them.
17 I put it in my report. I also cite opinion from
18 Price Waterhouse Coopers, one of the leading accounting firm
19 in the U.S., that says the same thing.
20 So, when Mr. Trump included the premium associated
21 with his grand name in the valuation of tangible asset,
22 there's no GAAP violation here.
23 Now, when I say that I'm not doing valuation here,
24 it means that I'm not opining whether the 30 percent is the
25 right number or maybe it should be 27 or maybe it should be

<p>A.Bartov - Defendant -Direct/Mr.Suarez Page 6442</p> <p>1 32. I'm not doing expert analysis in term of valuation. 2 But, I do opine on the methodology. I do say -- I 3 did opine in my report and I am able to opine now whether 4 methodology, in general, is consistent with GAAP or if it is 5 inconsistent with GAAP. 6 This was also, according to the accounting rules, 7 this was also the responsibility of the external accountant 8 that performed the compilation. 9 ARC 80 clearly states that the accountant that 10 performed the compilation -- and it's also in my report. 11 The accountant that performed the compilation must review 12 the methodologies used by the preparer. Moreover, they also 13 must inform themself of the methodologies that are used in 14 the industry. 15 And if they find that the methodology used by the 16 preparer violated GAAP or inconsistent with the position in 17 the industry, they have to flag it as a GAAP departure. 18 Q. What, if anything, about this valuation here -- 19 withdrawn. 20 How, if at all, does this valuation method 21 disclose this supporting data? 22 A. You know, to be honest with you, if I were to do 23 this compilation report, I would ask maybe -- it's also 24 not -- it is not the responsibility of the person performing 25 the compilation report, it's not his responsibility to check</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6444</p> <p>1 A. No. 2 MR. SUAREZ: No further questions on direct 3 examination. 4 THE COURT: And, I'm sorry, the per hour was 5 \$1000. 6 THE WITNESS: 350. 7 THE COURT: Fifteen. 8 THE WITNESS: Fifty. One three five zero. 9 THE COURT: Okay. Will there be any cross 10 examination? 11 MR. SOLOMON: Yes, your Honor. 12 THE COURT: Can we start now? 13 CROSS EXAMINATION 14 BY MR. SOLOMON: 15 Q. Good afternoon, Professor. 16 A. Good afternoon. 17 Q. Following up on the last couple of questions that 18 you were asked, who is paying your fees in this matter? 19 A. So, I submit the bills, my invoices, to the Trump 20 Organization. And, on the -- some of it get paid by the 21 Trump Organization and some of it is paid by Save America. 22 Q. That's the Save America PAC, Political Action 23 Committee, is that correct? 24 A. I have no idea. I can tell you just what I see on 25 my bank statement. On my bank statement, some number say</p>
<p>A.Bartov - Defendant -Direct/Mr.Suarez Page 6443</p> <p>1 whether the 30 percent is the correct number or not. 2 But, there is no details here how the 30 percent 3 and 50 percent was computed. If I want to be extra careful 4 and I perform this evaluation, perhaps I would ask for some 5 information that will help me understand how this 30 percent 6 or 15 percent was derived. 7 But again, this is -- formerly, it's not the 8 responsibility of the company. This is an audit. In audit 9 you have to do this. When you do compilations, you don't 10 have to do it. 11 MR. WALLACE: Objection, your Honor. That 12 answer was not responsive. And this is also an area 13 that this witness has already said he didn't focus on. 14 So, I'm not sure what the foundation is for this 15 testimony. 16 THE COURT: Overruled. I thought it 17 answered the question. 18 Q. Professor, how are you being compensated in this 19 case? 20 A. My billing rate is \$1,350 per hour. 21 Q. How many hours have you spent working on this 22 engagement? 23 A. About 650 hours. 24 Q. Is your compensation, in any way, contingent on 25 the opinions that you've expressed?</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6445</p> <p>1 "Trump Organization." And some number says, "Save America." 2 I got no additional detail that I can share with you. 3 Q. Other than -- let's just go through some 4 background if we can. 5 Other than for yourself, have you prepared a 6 personal financial statement, for anyone else, in the last 7 30 years. 8 A. The last time I prepare it, I think it was 1984 or 9 1985. So you do the math. If it was 30 years ago or 10 longer. But, the last one I think it was around 1984 or 11 1985. 12 Q. Other than for yourself, have you valued real 13 property, for inclusion, on a financial statement in the 14 last 30 years? 15 A. No. 16 Q. Other than for yourself, have you valued any 17 property, for inclusion, on a personal financial statement 18 in the last 30 years? 19 A. No. 20 Q. Prior to issuing your reports in this case and 21 providing your testimony, yesterday and today, did you 22 perform any valuation of any of the assets on Donald Trump's 23 Statements of Financial Condition for any year? 24 A. No. 25 MR. SOLOMON: Could we please pull up PX</p>

<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6446</p> <p>1 3439 and go to page eight. 2 It might be in front of the witness. It was 3 used on his direct examination earlier. 4 THE WITNESS: No, this is not it. 5 MS. FAHERTY: It is PX 3439. 6 A. Thank you. 7 Q. Professor, do you recall being asked several 8 questions about the materiality section, beginning on page 9 eight of this document QC11? 10 A. I do. 11 Q. And in rendering your opinions, had you previously 12 reviewed the materiality section from this document? 13 A. I did. 14 Q. Did you rely on the material amount section from 15 this document? 16 A. I rely on this and other references. 17 Q. My question was, did you rely on this document. 18 This will go a lot faster if you just listen to my 19 questions and answer my questions, please. You'll have an 20 opportunity to explain anything you need to on redirect. 21 So did you rely, in any way, on the materiality 22 section contained in PX 3439? 23 A. I did. 24 Q. And does that include QC11, 11-A and 11-B? 25 A. Yes.</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6448</p> <p>1 basically? 2 I want to ask about the second step there, 3 qualitative analysis. 4 THE WITNESS: Yes. 5 THE COURT: What I remember from the 6 document was "Well, it's -- it was all very vague." It 7 was, you had to look at the particular reporting 8 entity, et cetera. 9 Wouldn't one of the main elements of 10 materiality be the relative -- the discrepancy relative 11 to the absolute number? 12 THE WITNESS: So, you know, I am instructed 13 to give short answers. 14 THE COURT: To give -- 15 THE WITNESS: I am instructed to give short 16 answers. So I didn't tell you the whole story. If you 17 want to tell me the whole story about materiality, I 18 can tell you the whole story. 19 THE COURT: I'm not looking for the whole 20 story. I am just looking for an answer to my question. 21 Wouldn't relative difference between -- 22 THE WITNESS: So, as I said, there are two 23 steps. You can't see it from here because, this is 24 just a general framework. You have to look to the 25 accounting literature.</p>
<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6447</p> <p>1 Q. Did the information contained in QC11, 11-A and 2 11-B provide the framework for your opinions about 3 materiality? 4 A. General framework, yes. 5 Q. As an accounting expert, sir, are you aware that 6 the Statement of Financial Accounting concepts are not, 7 actually, part of the SAB Accounting Standards Codification, 8 presently, in effect. 9 A. Of course. 10 Q. Did you disclose that in your direct testimony 11 that you were aware that this was not part of this existing 12 codification? 13 A. I don't remember. Maybe I didn't. 14 Q. Isn't it true, sir, that these concepts are merely 15 concepts that will be considered in developing future 16 financial reporting standards. 17 "Yes" or "no," question, sir. 18 A. Yes. 19 MR. SOLOMON: Can we, please, mark PX3437? 20 THE COURT: Before we get there -- sorry to 21 backtrack a bit. Professor, I appreciated your two 22 step test for materiality. 23 THE WITNESS: Yes. 24 THE COURT: Quantitatively having a 25 difference between the realty and the report, right,</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6449</p> <p>1 So, the idea is, if accounting question is 2 not answered by the codification, then in order to 3 answer the question, you refer to other sources of the 4 accounting literature. 5 So there is a source in the accounting 6 literature that lists potential -- that lists potential 7 element that must be considered when you do the 8 qualitative analysis. 9 It is very clear from this guidance, that, 10 the absolute value of the discrepancy may affect your 11 decision or conclusion whether it is material or not. 12 But, this is just one of many other consideration. 13 For example, what are other consideration? 14 One consideration will be, according to the accounting 15 literature -- and again, if you want me to emphasize, I 16 will say, this is not in the codification but, it's 17 still in the accounting literature; and therefore, it's 18 a guidance that people are using. So, one element, for 19 example, would say, you have to consider -- 20 THE COURT: No. No. I asked a simple "yes" 21 or "no," question. 22 THE WITNESS: Yes. 23 THE COURT: Should I ask it again? I don't 24 want a speech. I just want an answer, "yes" or "no." 25 THE WITNESS: This is one of many element</p>

A.Bartov - Defendant - Cross/Mr.Solomon Page 6450

1 that need to be considered when you determine
2 materiality.
3 THE COURT: Okay. And I think my specific
4 question was, is it one of the important -- is it a
5 fairly important factor?
6 THE WITNESS: According to literature, no.
7 THE COURT: Okay.
8 THE WITNESS: If you want, I can give you an
9 example.
10 MR. SOLOMON: Your Honor, I am going to
11 explore this issue on my cross. I don't know if it
12 would be beneficial to see if we cover that during the
13 cross or if you want to have the witness continue on.
14 I want to volunteer that as a possibility.
15 THE COURT: He answered my question. I want
16 you to ask the next one.
17 MR. SOLOMON: I will, Your Honor.
18 CROSS EXAMINATION
19 BY MR. SOLOMON:
20 Q. Sir, are you familiar with what's been marked as
21 PX 3437?
22 A. I am.
23 MR. SOLOMON: Can we offer it into evidence?
24 Your Honor, can we offer it into Evidence.
25 THE COURT: Sorry. Granted. It's in.

A.Bartov - Defendant - Cross/Mr.Solomon Page 6451

1 MR. SOLOMON: Thank you.
2 If we could turn to the fourth page of the
3 document.
4 Q. The very top, first sentence. The conceptual
5 framework is intended to set forth fundamental concepts that
6 will be the basis for development of financial accounting
7 and reporting standards. "Will be" future tense, correct?
8 "Yes" or "no," sir?
9 A. This is not a "yes" or "no," question. I will
10 tell you why not. Because --
11 Q. Sir, is the word will --
12 A. Listen, you are going to mislead the Judge. This
13 document --
14 Q. I am not --
15 A. Let me explain. This document is not relevant to
16 this case. I'm sorry. This document is not relevant to
17 this case. And the reason is, look at the top of the
18 document what it says. Go to the top -- please, go to the
19 top of the document and see what it says.
20 MR. SOLOMON: Your Honor, move to strike as
21 non-responsive.
22 THE COURT: Stricken as non-responsive.
23 We have certain rules here. And the rule is,
24 he asks the question, you answer the question. Not to
25 make a speech. Your attorneys can ask you about that

A.Bartov - Defendant - Cross/Mr.Solomon Page 6452

1 on redirect.
2 MR. ROBERT: Your Honor, the witness said,
3 "It is not capable of being answer 'yes or no'." Under
4 the way we've been proceeding here, that would be
5 acceptable to his.
6 THE COURT: Was that his response?
7 MR. ROBERT: He was trying to explain. And
8 Mr. Solomon said "yes or no" pointing at the witness.
9 MR. SOLOMON: I was pointing at the
10 document. I wasn't pointing at the witness. Would be?
11 MR. ROBERT: It didn't look way.
12 MR. KISE: You've already harassed him. You
13 had him on the stand fifteen minutes and you're already
14 being insulting. It is obvious what --
15 MR. SOLOMON: Your Honor, I object to this
16 characterization. Mr. Kise is here wasting time now.
17 We already have to bring this witness back on Tuesday.
18 If I can proceed with my cross I'd appreciate it. Any
19 claims I'm harassing the witness are wholly without
20 merit.
21 MR. KISE: His tone and demeanor are
22 extraordinarily harassing. I've wasted fifteen months
23 of my life in this courtroom because of these folks and
24 so has my client. He needs to ask proper questions and
25 not be so hostile to a person who has earned with

A.Bartov - Defendant - Cross/Mr.Solomon Page 6453

1 respect.
2 MR. SOLOMON: I provided witness respect
3 number one. Number two, every question was proper.
4 There hasn't been a single objection from your table.
5 So let's not characterize the record.
6 THE COURT: How about, rather than a read
7 back, can you just ask the question again.
8 Q. Sir, the word "will" shows up in the first
9 sentence there.
10 Do you see that, yes or no?
11 A. I do.
12 Q. Is the word "will" future?
13 A. Yes.
14 Q. Thank you.
15 MR. SOLOMON: Can we go to the paragraph
16 beginning with concept statement. It's the next to
17 last one on this page.
18 Q. Quote, concept statements are not part of the FASB
19 Accounting Standards Codification which is the source of
20 authoritative GAAP recognized by the FASB to be applied by
21 nongovernmental entities (topic 105 of generally accepted
22 accounting principles).
23 A. Yes.
24 Q. Were you aware of that statement when you provided
25 your opinions in this case and gave your testimony, on

<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6454</p> <p>1 direct examination, in the courtroom? 2 A. Okay. So I did not review the statement because 3 this statement was issue on December 2021. So look on the 4 date when it became effective. 5 This issue, this statement, was effective after 6 the period that I discussed in this. So this is hindsight 7 using document that was not available to anyone that prepare 8 the financial statement during this time. 9 Q. Sir, my question wasn't whether this document -- 10 A. You are using document that was not available 11 during the time. Can you do that? 12 MR. SOLOMON: Your Honor, move to strike as 13 I was in the middle of a question so, it could not have 14 been responsive. 15 THE COURT: Stricken. And I'll direct the 16 witness just answer the questions. If the statement 17 didn't exist, then I guess he didn't rely on it. 18 MR. SOLOMON: Your Honor, that wasn't the 19 testimony. I believe the statement existed in 2021. 20 And if I'm correct -- and I'm not trying to testify for 21 the witness -- the issue had to do with the SOFCs that 22 the witness was addressing. My question was different. 23 My question was, was the witness aware of and 24 did he consider this statement, that existed in 2021, 25 when you submitted your expert reports, in 2023, and</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6456</p> <p>1 and introduce those standards into the case as well and 2 say that these standards is what apply. It is a 3 rudderless ship, your Honor. This is totally improper 4 cross examination. 5 THE COURT: The question was, totally, 6 proper. Objection overruled. Please stop the 7 speeches. Please stop the ad hominem. 8 A. Okay. Sure. So what's the question. 9 Q. Did you consider the limitation or statement 10 that's contained in the paragraph that we read, when you 11 prepared your expert reports in this case, in 2023, and gave 12 testimony in this courtroom in 2023? 13 A. So, when I do -- 14 Q. It is a "yes" or "no," question. 15 THE COURT: It is a yes or no question. 16 A. No, I didn't rely on this statement. I didn't 17 rely on this statement. I didn't rely on this statement at 18 all. 19 Q. Now, sir, you address that it was, as amended, 20 December 2021. Correct? 21 A. Yes. 22 Q. When was it first adopted? 23 A. I used the -- you know, I -- if it was amended in 24 December 2021, it could not be effective before this date. 25 Q. Was there a version of this that was similar, in</p>
<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6455</p> <p>1 testified here in court on December 7, 2023. 2 That was my question. 3 THE COURT: Okay. Sorry. I misinterpreted. 4 MR. KISE: If that was the question, it is 5 an improper question because, the scope of cross is 6 limited to what he talked about on direct. 7 So, it's not to pull in something now that 8 wasn't -- just like the witness said, to pull in 9 something that's available now -- these statements were 10 prepared 2011 through 2021. So, if this wasn't 11 available, it is an improper -- 12 THE COURT: But it was. 13 MR. KISE: -- cross examination. He 14 couldn't have relied on it. It is like asking him if 15 he relied on the physics calculation on Mars. 16 MR. SOLOMON: I'm asking if this witness 17 relied on this in connection with his report not in 18 connection with the Statements of Financial Condition. 19 This witness didn't prepare the SOFCs as far as I am 20 aware. 21 MR. KISE: The report relates to the 22 governing standards applicable at the time of the 23 preparation of the Statements of Financial condition. 24 Every time I think their position can't get 25 more ridiculous it does. Why don't we wait until 2024</p>	<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6457</p> <p>1 form or sustenance, that was adopted in 2010 to your 2 knowledge? 3 A. Yes, there was. 4 Q. And did it contain, in form or substance, the same 5 limitation that concept statements are not part of the FASB 6 Accounting Standards Codification. Yes or no? 7 A. Yes. 8 Q. That was in 2010, correct? 9 A. Correct. 10 Q. Okay. Thank you. 11 Will you agree, sir, with me that there is no 12 defined materiality test contained in the codification? 13 A. Yes, I do. 14 Q. In your testimony, yesterday, you made reference, 15 I believe, to the SEC. 16 Am I recalling that correctly? 17 A. To what? 18 Q. The SEC, the Securities and Exchange Commission? 19 A. Remind me. What did I say? 20 Q. Are you aware that the SEC publishes staff 21 accounting bulletins? 22 A. I do. 23 Q. And do you rely on those in connection with your 24 work? 25 A. Absolutely.</p>

<p>A.Bartov - Defendant - Cross/Mr.Solomon Page 6458</p> <p>1 Q. And do you rely on those in connection with the 2 various papers that you write? 3 A. Absolutely. 4 Q. And the articles that you write? 5 A. Absolutely. 6 Q. Do you believe them to be authoritative? 7 A. I do. 8 MR. SOLOMON: Could we please mark PX 3446? 9 Q. Do you have a copy of the Exhibit? 10 A. I do. 11 Q. Have you had a moment to review it? 12 (Whereupon, the following proceedings were 13 stenographically recorded Shameeka Harris.) 14 15 16 17 18 19 20 21 22 23 24 25</p>	<p>Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6460</p> <p>1 the one who prepares the compilation. So I want to understand. 2 When you use the term preparer, you are talking about in this 3 case Donald J. Trump; is that correct? 4 A Yes. 5 Q Thank you. Could you please turn to page five? 6 A Okay. 7 Q The title is Aggregating and Netting Misstatements. 8 A Yes. 9 Q The very first paragraph. "In determining whether 10 multiple misstatements cause the financial statements to be 11 materially misstated, registrants and the auditors of the 12 financial statements should consider each misstatement 13 separately and the aggregate effect of all misstatements." 14 A Yes. 15 Q Were you aware of that direction or interpretation from 16 the SEC with respect to financial statements? 17 A Yes. 18 Q Go down a little bit to the paragraph beginning even. 19 "Even though a misstatement of an individual amount may not 20 cause the financial statements taken as a whole to be materially 21 misstated, it may, nonetheless, when aggregated with other 22 misstatements, render the financial statements taken as a whole 23 to be materially misleading." 24 Were you aware of that part of the interpretation 25 before today?</p>
<p>Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6459</p> <p>1 MR. SOLOMON: Your Honor, Friday we go until one, 2 correct? 3 THE COURT: We go to 5 of 1. Is that all right 4 with everyone? 5 MR. SOLOMON: I know during the week we break at 6 12:45. I just want to get through an area and not leave it 7 over the weekend. 8 THE COURT: Let's be simple. When would you like 9 to break? 10 MR. SOLOMON: If you said 5 to 1, we will. I will 11 make that work. 12 CONT'D CROSS-EXAMINATION 13 BY MR. SOLOMON: 14 A All right. I refreshed my memory about it, yes. 15 Q Have you seen this -- first off, what is an SEC staff 16 accounting bulletin? 17 A This is opinion of the SEC about a question that 18 preparer may have and they want to clarify. And they clarify 19 for preparer interpretation of accounting practices. 20 Q And when you say preparer, I think there was -- I had a 21 little confusion yesterday. Who are you referring to as a 22 preparer? Is that the issuer, the actual company whose 23 financial statements are being published? 24 A Yes. 25 Q Because I think we also heard the term preparer is also</p>	<p>Professor Bartov - by Defendant - Cross (Mr. Solomon) Page 6461</p> <p>1 A I was. 2 Q Did you consider that in connection with any of your 3 opinions in this case? 4 A Absolutely. 5 Q And your opinions looked at aggregating any potential 6 misstatement to determine materiality? 7 A Absolutely. 8 Q And you did a materiality test after you aggregated any 9 individual misstatement? 10 A Absolutely. 11 Q We can turn to the second page. Excuse me, page six, 12 the next page. Immaterial misstatements that are intentional. 13 Now, here, it's a little bit different, Professor. It gives you 14 facts, then a question, and an interpretive response; do you see 15 that? 16 A Yes, I do. 17 Q Is that common in an SEC bulletin? 18 A Yes. 19 Q And could you explain what the purpose is of putting it 20 in that format in an SEC bulletin? 21 A They are trying to answer -- interpret the accounting 22 rules by raising a question and give the facts and give the 23 answer so preparer will know how to address a problem that is 24 similar to the question that was asked given the fact pattern 25 that is up here.</p>

1 Q And given the fact pattern the question presented to
2 the SEC which, again, you said is helpful guidance when doing
3 financial statements, correct?
4 A Absolutely.
5 Q In the staff, a registrant make intentional immaterial
6 misstatements in its financial statements, the first word no?
7 A Of course not.
8 Q Do you agree then that a registrant or someone
9 preparing their SOFC's, in this case, Mr. Trump, may not make
10 intentional immaterial misstatements in his financial
11 statements, correct?
12 A Correct.
13 Q Let's go back one page, please, to the paragraph
14 beginning if the misstatement.
15 "If the misstatement of an individual amount causes the
16 financial statements as a whole to be materially misstated, that
17 effect cannot be eliminated by other misstatements whose effect
18 may be to diminish the impact of the misstatement on other
19 financial statement items."
20 Did I read that correctly?
21 A Absolutely.
22 Q What does that mean?
23 A It means that you -- if you exaggerate value of one
24 asset and you underreported the value of another asset, this
25 does not mean or if you consider the overall, you consider the

1 Q Okay.
2 MR. SOLOMON: Your Honor, this would be a
3 convenient point to take a break. I'm sorry, for the day,
4 for the day. I said break.
5 THE COURT: Monday 10 a.m. We will pick up this
6 case. And, Professor Bartov, again, please do not discuss
7 the case or do not discuss the case or your testimony or
8 anything related thereto between now and Tuesday. I'm sure
9 you have better things to talk about.
10 THE WITNESS: Have a good weekend.
11 (Whereupon, the witness was excused from the
12 stand.)
13 (Whereupon, the trial is adjourned until Monday,
14 December 11, 2023, at 10 o'clock a.m.)

1 overall, the error may cancel out. But when you -- but this is
2 not -- this is not -- this is not the reason to say that the
3 financial statement are not materially misstated.
4 Q So --
5 A By cancelling error does not reduce the consideration.
6 Q Okay. Thank you. Have you completed your answer, sir?
7 A What?
8 Q Have you completed your answer?
9 A Yes, I did.
10 Q I asked a question why so I wanted to give you an
11 opportunity to finish. Let me see if I can give you a real
12 world example. Let's assume, just for purposes of this case,
13 that I own a building in lower Manhattan, 60 Wall Street, and
14 the true value -- the true estimated current value is \$1 but I
15 put it down on my financial statement as \$100 million. If I
16 have another building in midtown that is worth \$100 million and
17 I put it down as \$1, in both instances, in that instance, my net
18 worth is still one hundred million and one dollar.
19 Notwithstanding that, that would still be a GAAP violation,
20 correct?
21 MR. KISE: Objection. Where is he getting these
22 values from? Where are they?
23 THE COURT: They are hypothetical, overruled.
24 MR. KISE: Okay.
25 A Hypothetical, yes, you're right.
